PREFACE.

THE Census Tables published for the North-Western Provinces and Oudh, under the orders of the Imperial Government, contain no detailed statistics for any area smaller than the district. The Local Government has considered it necessary to publish in addition to these Imperial tables :—

1*st*—A provincial supplement to the report on the Census of 1891, containing certain important statistics for tahsíl, pargana, thána and town areas.

2*nd*—A collection of census statistics for each district for the use more especially of district officers.

The contents of the volume of census statistics for the Budaun district are given on the preceding page. The first three statements require no explanatory reference.

Regarding the village directory the following explanations may be useful :—

Column 1.—The serial number of villages runs separately for each pargana. The parganas are arranged by tahsíls, and the tahsíl total follows that for the last pargana belonging to it. The villages for each pargana are divided into separate groups, one for each of the police circles which wholly or partly lie in it. As pargana and thána boundaries almost invariably overlap each other, there may be for a single thána two or more groups of villages each in a separate pargana. The thána totals are collected in a supplementary statement, reference to which will show in how many pargana lists the villages of the thána lie.

The general alphabetical index to the villages of the district, which ends the volume, shows by reference back to the village directory the thána, pargana and tahsíl to which any village, belongs.

Column 2.—The following are the definitions adopted of the terms *village* and *town* :—

A *village* denotes the area demarcated for revenue purposes as a "mauza," provided that where a village or part of a village forms a part of the area of a town, it will be included in such town. The remainder, if any, will be regarded for census purposes as the village.

A *town* denotes—

1*st*—Every continuous group of houses inhabited permanently by not less than 5,000 people.

2*nd*—Every area within which the Chaukidári Act (XX of 1856) or either of the Municipal Act (XV of 1873 or XV of 1883) is in force.

3*rd*—Every military cantonment.

Column 12.—Details of the number of persons belonging to each religion included in this column are given in the remarks column.

Column 13.—Agriculturists include all persons who own or occupy land for purposes of agriculture or pasturage, but does not include agricultural labourers. It includes all persons who own or cultivate land in addition to any other occupation. The figures in Imperial tables XVII A and B show such persons under the head of the additional occupation and not as agriculturists.

Column 14.—Includes shopkeepers, pedlars and dealers of all descriptions.

Column 15.—Includes besides persons belonging to the learned professions, strictly so called, all Government servants above ministerial rank.

Column 17.—In this column are included ministerial Government servants, domestic servants, and village menials.

Column 18.—Labourers include both agricultural and general labourers.

Column 22.—All males of age 0—4 have been assumed to be illiterate.

Column 26.—For each village, the caste which is most numerous is shown; and where two or more castes each exceeds 25 per cent. of the total population, the number of persons belonging to each of them is shown. Sub-castes of Rájputs only are given. The number of lepers, male and female, enumerated in any village is also shown here.

These figures have been compiled from the vernacular registers, which will be preserved for each municipality by the Municipal Board, and for each tahsíl by the District Officer. Full details of

all statistics published for the district or province in the imperial tables can be ascertained for any census block or village on reference to these registers. The contents of each of the 20 registers are as follows :—

Register No. 1.—Houses and total population.
Ditto 2.—Variation in population.
Ditto 3.—Classified list of villages and towns.
Ditto 4.—Religions.
Ditto 5.—Age-periods for each religion.
Ditto 6.—Age-periods for each civil condition of each religion.
Ditto 7.—Education by age-periods for each religion.
Ditto 8.—Parent tongues.
Ditto 9.—Birth places.
Ditto 10 & 10A.—Insanes by age and caste.
Ditto 11 & 11A.—Deaf mutes by age and caste.
Ditto 12 & 12A.—Blind by age and caste.
Ditto 13 & 13A.—Lepers by age and caste.
Ditto 14.—Castes and sub-castes.
Ditto 15.—Occupations by age-periods.
Ditto 16.—Sects of all religions.
Ditto 17.—Sects of Christians by race.
Ditto 18.—Races of Christians by age-period.
Ditto 19.—Education by caste.
Ditto 20.—Civil condition by caste.

The arrangement of the vernacular registers is similar to that of the village directory. Villages are grouped together for each pargana and within the pargana arranged by thánas. The paging is the same throughout all general registers, villages which occur on page 1 of Register I also occur on the first set of the pages of the more elaborate registers 14, 15, 16 and 19.

Mauza Tontpur in Tahsíl, Pargana and Thána Sahaswan has been transferred from Etah district.

Mauza Kharakwar and Muazampur transferred to Sháhjahánpur district from Tahsíl Dataganj, Pargana Salempur, thána Dataganj and Hazratpur respectively.
