PREFACE

The main reports and statistical volumes pertaining to the 1961-census fall under three broad groups on the basis of territory coverage. The All-India Reports and Tables compiled in the office of the Registrar General, India, encompass the entire country. The reports compiled by the State Superintendents relate to individual States and Centrally Administered Territories. The third group consists of District Census Handbooks, the scope of which is limited to individual Districts, and they give information for each town and village. The Handbooks have been compiled by the Superintendent of Census Operations, but are published by the State Government.

The District Census Handbooks were published for the first time at the 1951-census. They proved very useful with the officers working in Community Development Blocks, Tahsils and Districts, and were consulted in connection with elections and by students of social sciences interested in local problems. It was, therefore, decided to continue with this series at the 1961-census. This Handbook contains the essential census data for each village and town (according to wards) in the District. Besides, some very useful information collected from various State Departments has been included in it, trying to make it a self-contained book of reference for the District.

The book is divided into four parts. Part I is mostly descriptive and consists of four chapters. Chapter I introduces the District, giving information on its location, physical features, climate, fauna and flora, towns and places of interest, a brief history of the District and its administrative machinery. In Chapter II are discussed the use of land, main crops and irrigation, industries, trade and commerce, and communications. In Chapter III the salient features of population are discussed. Chapter IV deals with social and developmental activities, and achievements during the First and Second Five-Year Plans.

In Part II are presented the statistics secured from various Government Departments relating to rainfall, temperature, land utilisation, irrigation, area and yield of principal crops, livestock, industry, co-operation, education, printing and publishing, entertainments, medical and health, births and deaths, transport and communications, community development activities, banks and insurance, and justice. Then comes a Table on the fairs and festivals in the District.

The Tables relating to the 1961-census are presented in Part III. Part IV contains a Directory of Villages and Towns, showing the location of educational institutions, hospitals and dispensaries, post and telegraph offices, electrification and protected water-supply ; area ; number of occupied residential houses and households living therein ; population ; persons belonging to Scheduled Castes and Scheduled Tribes ; number of literate and educated persons ; number of workers in nine broad industrial categories ; and number of non-workers.

The book contains several maps. There is a map of the District showing the administrative boundaries, roads and railways, rivers and canals, and location of towns. Another map shows the distribution of population in the District by dots : the population of towns is shown by proportionate cricles ; and of rural areas by dots, one dot representing 200 persons. For each Tahsil in the District two types of maps have been prepared, one showing the location of social amenities, and the second showing the boundaries of villages and towns. These maps were prepared by Shri J.R. Kalia, Draftsman in our office.

This publication is the outcome of the joint efforts of a large number of workers and Government Departments, and grateful acknowledgement is made of the help received from them. Within the Census Organisation mention needs to be made of Shri Jaswant Singh Dilawary, Statistical Assistant and Shri Vishwa Mitter, Supervisor, under the supervision of Shri T. P. Garg, P.C.S., Deputy Superintendent of Census Operations, for preparing the Tables appearing in Part II and of Shri Goverdhan Dass Singla, Statistical Assistant and Sarvshri Dharam Paul Jain and Joginder Nath Suri, Tabulation Assistants, under the supervision of Shri Pawan Kumar, Tabulation Officer, for preparing the Tables appearing in Parts III and IV. Sarvshri Dharam Paul Jain and Ajab Lal Kakkar helped in correcting the proofs in the Press.

Shri Sita Ram, P.C.S., Deputy Superintendent of Census Operations, Punjab, paid a number of visits to the Karnal District, and after collecting information by personal observations and discussions with a large number of persons, produced the draft of this Handbook.

My thanks are due also to Shri K.C. Kuriyan, Controller of Printing & Stationery, Punjab, and his Deputy, Shri P. S. Walia, for their personal attention in the printing of the book.

R. L. ANAND,
Superintendent of Census Operations,
and Enumeration Commissioner, Punjab.

PART I

INTRODUCTION TO THE DISTRICT

CHAPTER I

INTRODUCTION

Name.—The District of Karnal is named after its headquarters town, Karnal. The town is said to have been founded by Karna, half-brother of the Pandvas mentioned in the Mahabharta.

Location and Boundaries.—The District lies along the eastern boundary of Punjab, between 29° 09′50″ and 30° 15′15″ north latitude and 76° 10′10″ and 77° 17′05″ east longitude. The river Jamuna forms its eastern boundary; the Districts of Saharanpur, Muzzafarnagar and Meerut of Uttar Pradesh face it across the river. It is bounded by Ambala District on the north, Patiala and Sangrur Districts on the west and Rohtak District on the south.

Area (Table A-1)*.—The District covers 3,062 sq. miles according to the Surveyor General of India, and 3,075 sq. miles according to the Director of Land Records, Punjab. The difference between the two sets of figures is due to the different methods of measurement adopted by the two agencies. In this text the figures as supplied by the Director of Land Records, Punjab, which are also referred to as figures according to village papers, have been utilised.

Karnal is the fifth biggest District in Punjab, the first four being Kangra (6,292.3 sq. miles), Hissar(5,363.3 sq. miles), Ferozepur (3,887.6 sq. miles), and Lahaul & Spiti (3,700.8 sq. miles). It is divided into four tahsils :

	AREA (sq. miles)		
Tahsil	Total	Rural	Urban
Kaithal	1,213.5	1,209.4	4.1
Thanesar	553.0	545.1	7.9
Karnal	846.5	840.5	6.0
Panipat	462.0	459.0	3.0

PHYSICAL FEATURES

By and large, the district is a flat alluvial plan. It is traversed from north to south by the water-shed separating the drainage of the Jamuna river from that of the Ghaggar river. Located from six to twelve miles from the Jamuna, the water-shed is not easily perceptible. To the east of the water-shed lies the riverain tract of the Jamuna, called the *Khadar*. It is a low-lying area of new alluvium and marks the western limit of the excursions of the Jamuna. The soil is light and water is close to the surface rendering sinking of wells easy. The area is liable to floods. The altitude of the plain gradually decreases from north to south about 2 feet to a mile.

To the west of the water-shed lies the *Bangar*, an upland plain of 5 to 10 miles width, stretching parallel to *Khadar* in the Panipat, Karnal and Thanesar Tahsils. It is well irrigated by canals and wells.

To the west of the *Bangar* in Karnal and Kaithal Tahsils stretches a high table land called the *Nardak*, where the water table is deep, and it is covered with various grasses and *dhak* trees. These trees were removed some years ago during the operations of land reclamation. Both *Bangar* and *Nardak* tracts are composed of old alluvium.

To the west of the *Nardak* again lies the *Bangar* tract of the Kaithal Tahsil resembling the uplands of Rohtak and Hansi. The country west of the *Bangar* consisting of western part of Thanesar Tahsil and the Gohla Sub-Tahsil is the *Naili* or *Chhachra* tract. It is traversed by a number of streams and torrents. The *bet* along the Markanda stream is a relatively low-lying flood plain in which clay is the prevalent soil. A lot of land has been reclaimed here. The low-lying area along the Saraswati stream suffers from poor drainage during rainy season. Rice has emerged as the main cash crop of this tract.

Rivers and streams.—The Jamuna flows along the east of the District for a length of 49 miles, from the village Ramgarh to the village Rakhsera. The Jamuna has been drifting eastward, and some scholars suggest that it was

once flowing in the course of the Saraswati. The Bhurhi nadi running along the western margin of the *Khadar* tract is also said to be the bed of the Jamuna sometime. During the monsoons it causes considerable damage to the villages on its banks and the *kharif* crops, but the silt it deposits, helps in the *rabi* sowings.

The Ghaggar flows in the north of the District,as also two streams of Markanda and Saraswati which flow into the Ghaggar river towards the west of the District. All the three streams originate in the lower Shiwalik hills, and flow from north-east to south-west.

The Markanda enters Karnal District near Damli village and passes by Shahbad. After flowing in a south-westernly direction for about 30 miles, it joins the Saraswati. It is seasonal and notorious for floods during the rainy season. The lands on its banks (the *bet* of Markanda) are fairly fertile and are in the quick process of reclamation.

The Saraswati nadi, along with several small tributaries, drains a large part of Thanesar Tahsil and causes floods in the rainy season in the low-lying *Naili* tract. It joins the Ghaggar river soon after crossing the boundary of the District.

In addition to the above-mentioned streams there are a number of other torrents flowing in the north-west of the District, namely, the Rakshi Nadi, the Chautang Nadi, the Omla Nadi, the Patiala Nadi, the Nai Nadi and the Ganda Nala. As a result of the low-lying banks, the Karnal District suffers heavily from inundation during the rainy season.

Lakes.—There are a number of lakes dotted all over the District, particularly towards the north and north-west. The Bibipur lake is situated near village Bibipur in Kaithal Tahsil. The Markanda and Saraswati streams fall into it and Saraswati canal has been taken out of it. The Paran lake lies to the west of Kunjpura and is about 5 miles long and 225 yards wide. Bazad lake lies near village Bazad, some three miles from Karnal. Nauhra lake is three miles north of Panipat. It is 2 miles long and three miles broad. Shera lake lies three miles west of Nauhra and is one mile long and $\frac{1}{2}$ mile broad. Dosian lake is situated four miles to the east of Pundri town and is known for attracting ducks.

Canals.—There are four canal systems working in the District : the Western Jamuna Canal, the Narwana Branch of the Bhakra Canals, the Saraswati Canal, and the Chautang Canal.

Taking off from the Jamuna at Tajewala in Ambala District, the Western Jamuna Canal enters the District near village Alhar towards north-east of Karnal. Near village Indri, Sarsa Branch takes off from it which after passing through Kaithal Tahsil, enters and irrigates Hissar District. At Moonak the Hansi Branch takes off from the main canal which thenceforward is called the Delhi Branch and irrigates Panipat Tahsil and then enters Rohtak, and ends up in Delhi State. The Hansi Branch irrigates tracts of Karnal and Kaithal Tahsils before entering into the areas of Jind and Hissar. The Narwana Branch of the First Bhakra Main Line, feeds the Sirsa Branch of Western Jamuna Canal and the Saraswati Canal System making them perennial. The Saraswati Canal System takes off from Bibipur lake and irrigates the western portion of the District. Till the opening of the Narwana Branch of the Bhakra Canals it was non-perennial. The Chautang Canal System was mainly of inundation canals fed by the torrents of Rakshi and Chautang streams. The Chautang Feeder, taking off from the Western Jamuna Canal at Indri, now feeds this system and ensures proper supply during *kharif*. The Chautang Canal System irrigates Karnal Tahsil.

Drains.—The net work of canals, streams and torrents necessitated the work of drainage in the District. In the *Khadar* tract canal escapes play an important role. When the canal water of the Western Jamuna Canal is not needed for irrigation it is conducted back into the Jamuna through these escape channels. The Kunjnu and Dhanaura escapes take out of the Western Jamuna Canal above Indri while the Indri escape takes surplus water down to Buddha Khera, a few miles north-east of Karnal, and thence into the Jamuna. Further south the Moonak escape carries surplus water from the Moonak regulators and drains the south of Karnal Tahsil (now modelled as Drain No. 2). The streams emerging from the foot of the lower Shiwalik hills bring down heavy floods during the monsoon months and have necessitated vast schemes of drainage system. In the north-east a major portion of the Chautang and the Rakshi streams will be canalised through the Chautang drain which has its out-fall in the Jamuna through the Dhanaura escape. The remaining waters of these two streams in the *Nardak* tract is sought to be drained through a number of small drains into to main Drain No. 2 running through Karnal and Panipat Tahsils with its out-fall in the Jamuna. The Indri drain which runs west of Karnal also joins Drain No. 2. The Nai Nala drain functions in the south of the District and passing through Gohana Tahsil of Rohtak District, it drains into the Jamuna through the Diversion Drain No. 8.

The north-west part of the District is to be drained off into the Ghaggar river through Kaithal Drainage System which is under construction (1964).

Geology.—The land all over is alluvium, old or new. The only mineral found is *kankar* (calca rious nodules), which is used for roadmaking or burnt for lime. Saltpetre is also found in the water-logged areas.

Archaeology.—There are many places of archaeological interest in the District. At village Sewan in Kaithal Tahsil is an old shrine of Sita, where the legend goes, the earth swallowed her in answer to her appeal, as a proof of her purity. At Kurukshetra, which was the battle-field of Mahabharta, are a number of temples as well as famous Kurukshetra tank where at the time of solar eclipse lakhs of people throng for bath. Most of the area of Thanesar and Kaithal Tahsils is dotted with sacred places known as *tiraths*. The sage Vyas is said to have lived in village Bastali (Vias Asthal). The village Gondar is associated with Gautam Rishi. The Parashar tank of village Behlolpur served as the hiding place for Daryodhana towards the end of the battle of Mahabharta. At the Phalgu tank of village Pharal the Pandvas performed the last rites of the warriors who fell in the war. It is now the scene of one of the biggest fairs of Punjab. The shrine of the Qalendar Sahib at Panipat, was built by the sons of Ala-ul-din Khilji. The Kabul Bagh of Panipat was built by Babar. At Gharaunda, there are ruins of an inn built during the reign of Shah Jahan. The Kos Minars (mile stones) on the old Grand Trunk Road can still be seen at some places between Panipat and Gharaunda. Near Karnal is situated the old bridge called the Mughal Bridge over which the Grand Trunk Road passes.

A little more detailed account of places of archeological interest will be found in the section dealing with 'Towns and places of Interest".

CLIMATE

The climate of the District is similar to that of the plains of Punjab, quite hot in summer and sufficiently cold in winter. The temperature begins to rise towards the end of March. It goes on rising till the mercury touches or crosses 114° F, towards the middle of June. Hot winds blow and in the afternoon the sun is blazing hot. The rainy season sets in by the first week of July and continues till about the end of September. During this period temperature comes down considerably when it rains but goes up again soon after. The atmosphere becomes sultry, and humidity, more marked because of the swamps, makes it malarial. Towards the middle of September or early October the weather turns to fine and by the end of October mild cold season sets in. November and December are pleasant and generally free from rains. January and February are severe cold and may experience mild rains. Light frost may be experienced from the middle of December till about the end of January. Towards the beginning of March the spring season sets in with the return of pleasant weather.

Temperature.—Table 1* embodies the record of temperature on monthly basis from 1951 to 1960 for Karnal town.

It will be noticed that there is a large variation in temperature between the seasons, and even within a span of twenty four hours the fluctuation in temperature is of some 40 degrees.

Rainfall.—In Table 2† are shown monthly figures of number of rainy days and the amount of rainfall during 1951 to 1960 for the four Tahsil headquarters towns. The decennial average figures are given below.

Town	Average annual rainfall (cms.)
Thanesar	77.3
Karnal	78.3
Panipat	70.4
Kaithal	67.9

Most of the rain occurs from June to October. The remaining months are dry except January which records a rainfall of about 1.5 inches. The rainfall is inadequate for agriculture necessitating irrigation by artificial means.

Fauna.—Not much of wild life is found in the District. The liberal grant of fire arms and shooting licences and the reclamation of land, have further contributed to this depletion. Deer and black buck may be seen on the uplands. Pig is found in the riverain tract. Jackals, fox and hare are common. Otters are sometimes seen along the rivers and near the lakes. In the rivers are found the long-nosed crocodile, tortoise, porpoise and dolphin.

The common birds are blue pigeons, doves, crows, *mainas*, parrots, vultures and hawks. The gamebirds found are grey partridges and quails (*bater*), while ducks are to be found during the cold weather on the lakes. *Goh, karait* and cobras are among the reptiles found in the District. *Mahser, rohu, sowal* and *bachwa* varieties of fish are found in the rivers, streams and lakes.

*Page 55. †Page 58.

Flora.—The District is well wooded. The fertile fields of Khadar and Bangar tracts are studded with groves of mangoes and *jamoas* while in the Nardak, Chhachra and Naili areas, masses of *dhak* form the feature of the landscape with sprinkling of *pipal, bhor,* and *pilkhan* trees. Palm trees are plentiful in the Khadar tract. *Kikar* is also common. *Shisham* is seen planted on canal banks and road sides. Grasses are plentiful in the Bangar and Nardak tracts, the best for grazing being *dubra, anjan* and *palwa. Panni* is useful for thatching. The Khadar produces inferior grazing, except near the Jamuna where the grass is protected by the fringe of *jhao* brushwood adjoining the river bed.

HISTORY

The District claims legendary history. It is a part of the Brahmrishi Desha mentioned in the Vedas. The whole area is full of *tiraths* and holy tanks.

Hindu period.—In the first two centuries of the Christian era, the tract was probably included in the empire of the Indo-Scythian dynasty known as the Kushans. Indo-Scythian coins have been unearthed at the Polar mound, ten miles north of Karnal. Earlier, in the third and second centuries before christ the tract was ruled by the Mourayan emperors, Chandra Gupta and Ashoka. As a sequel of the attack by the Huns, there was probably no settled rule in the tract for two centuries after 380 A.D. At the end of the sixth century A.D. Thanesar appears as the capital of Raja Prabhakra Vardhan who successfully drove back the Huns settlers. Under that Raja and his son Harsha, Thanesar attained a high position among the powers of northern India. Raja Harsha conceived and to a great extent realised the ideal of United India. The details of his empire and his great abilities have been described by the Chinese pilgrim Huan Tsang who visited India during his reign. Thanesar continued to occupy the foremost position in northern India during the seventh century when Hinduism was coming to its own and Budhism was declining. Not much is known about the history of the tract during the next three centuries, but Thanesar continued to be a place of great wealth and influence until the storm of Muslim invasion burst upon India.

Muslim period.—Mahmood of Gazni sacked Thanesar in 1014 A.D. His son Sultan Masaud annexed this part of the country in 1039 and put a Governor at Sonepat to administer in his name. The Hindus, however, reconquerred the tract some eight years later, and for about a century and a half the area remained under the Hindu rule and was prosperous. In 1191 came the invasion of Mohammed Ghori but he was badly defeated by Prithvi Raj, the Rajput king of Delhi, near Taraori. Mohammed Ghori, however, renewed the attack in the following year and this time he succeeded in defeating Prithvi Raj who was captured and put to death. Delhi was conquerred and the Muslim rule was finally established over the Delhi territory which included the territory covered by the Karnal District.

During the succeeding Pathan and Mughal rule the tract remained the gateway of India and a scene of many decisive battles, and shared its lot with Delhi in the internecine struggles. Queen Razia lost her chance to regain the throne of Delhi in a battle near Kaithal. Feroze Shah Tughlak excavated the Badshahi Canal which irrigated the country round Jind, Saf.don and Hansi and conveyed water to his palace and hunting rounds in Hissar. The route of Timur's invasion lay through the Karnal District. Ibrahim Lodhi and Babar fought out their engagement at Panipat in 1526 in which Ibrahim Lodhi was defeated and killed. This ended the Pathan rule and Babar ushered in the period of Mughal rule in India. In 1556 took place the second battle of Panipat between the Mughal forces led by Akbar and his guardian Bairam Khan and the Afghan Army led by the Hindu Wazir Himu. Himu was killed and his army was totally routed. Akbar marched on to Delhi and ascended the throne. Thenceonward the Mughal rule was firmly established and the Karnal tract enjoyed the fruits of good Government for more than two centuries.

Towards the end of the 17th century, the Mughal empire was falling to decay and the Sikhs were coming to power. In 1709, Banda Bairagi raised his banner of revolt and occupied the whole country west of Jamuna. Ultimately, however, he was defeated and put to death. In 1738, Nadar Shah invaded India. Mohammed Shah's forces met him at Karnal. The engagement was not decisive but for want of supplies Mohammed Shah finally surrendered and he was taken along by Nadar Shah to Delhi where, on account of some misunderstanding, Nadar Shah ordered a horrible massacre. Nadar Shah returned leaving behind the tottering Mughal authority at Delhi still weaker. The Marhattas advanced from the south and passed Delhi and massacred the Afghan troops stationed at Kunjpura. This invited the wrath of Ahmed Shah Abdali and he dealt a crushing blow to the Marhattas in the third battle of Panipat in 1761.

Sikh period.—This made the Marhattas to recede temporarily. Their place, however,was taken over by the Sikhs who defeated the Durrani Governor of Sirhind and took possession of the whole area of Sirhind as far south as Panipat. The area was parcelled out between a number of Sikh Chieftains and their adherents of whom the most important were the Bhais of Kaithal, the Sardars of Thanesar and Ladwa and the Pathan chiefs of Kunjpura. The country south of Karnal was a no man's land seized sometimes by the Sikhs and sometimes by the Marhattas. Throughout the territory the laws of Jungle prevailed.

The Sikh conquest recalled Ahmed Shah and in 1767 he gave defeats to the Sikhs in several battles but he returned from Ludhiana and the Sikhs again resumed the rule of the country. Mutual jealousies of the Sikh chieftains invited Marhattas. In 1798 Scindia marched from Delhi to Thanesar and thence to Patiala bringing more or less order in the country west of Jamuna but it was a loose supremacy and this too came to an end with the defeat of the Marhattas by the British in 1803 in the battle of Delhi. As a result of the consequent treaty, the Marhattas ceded the territories in the north of India to the British. Raja of Jind, Bhai of Kaithal. and Begam Samru of Panipat submitted to the British conquerers. The Sardars of Thanesar and Ladwa and others who had sided with the Marhattas in the Battle of Delhi and were reticent were also subjugated. In 1805 the British proclaimed amnesty for all the Sikhs on condition of peaceable behaviour except in the case of Gurdit Singh of Ladwa whose fort at Karnal was captured. Thus ended the terrible period named by the people as Singhashahi Ka Ram Raula, or, Bhaogardi the "Sikh hurly-burly", or, the "Marhatta anarchy".

British period.—Subsequent to the arrival of Lord Cornwallis in 1805, the British policy was to withdraw from the territory west of Jamuna and it was distributed among the various Sikh chiefs and others who had helped the Britishers earlier. The sovereign powers of the Rajas of Jind, Kaithal, Ladwa, Thanesar and Shamgarh and of the Nawab of Kunjpura were confirmed. They were allowed to keep the lands they held under the Marhattas except that the Ladwa chief was deprived of Karnal. They and others were also granted many more villages so that a belt of *jagirdars* was formed from Karnal to Agra in the territories west of Jamuna.

The British were, however, soon forced to reverse this policy of non-interference in the west of Jamuna territory, by the intrusion of Ranjit Singh from across the Sutlej. By the treaty of Lahore of 1809 between British and Ranjit Singh, the British suzeranity over the cis-Sutlej chiefs was recognised and Ranjit Singh had nothing to do with the territory on this side of Sutlej. From 1809 to 1847, the British made persistent efforts to enforce good Government in the semi-independent States spreading over the tract, through the Political Agency at Ambala. Every opportunity was taken to strengthen the British hold on the country by enforcing its claims to lapse by escheat on the death without lineal heirs of the possessers of 1809 or their descendants. It was thus that the British Districts of Ambala and Thanesar gradually grew up, each successive lapse being made the occasion for regular settlement of the village revenues and the introduction of direct British rule. During the First Sikh War of 1845, few of these Sikh chiefs of the cis-Sutlej States displayed their loyalty towards the British more conspicuously than by abstaining from open rebellion. The result was a change in the British policy towards these chiefs. With the exception of Patiala, Jind, Nabha, Faridkot, Malerkotla, Chhachhrauli (Kalsia), Raikot, Buria and Mamdot, the police jurisdiction of all other States was made over to European officers. 117 villages were confiscated from the Raja of Ladwa on account of his hostility towards the British. The Second Sikh War resulted in the annexation of the Punjab and subsequently the chiefs of Kunjpura, Thanesar and Shamgarh were reduced to the position of simple *jagirdars* entitled only to the revenue assigned to them in perpetuity subject only to lapse on failure of heirs. This way Kaithal State lapsed to the British in 1843 on Bhai Ude Singh dying issueless. Raja Ajit Singh of Ladwa had already lost everything as a result of his treachery to the British at the out-break of the First Sikh War. A portion of Thanesar State lapsed in 1832 and a part in 1850 on the failure of heirs.

Mutiny.—During the uprising of 1857, the District did not suffer, primarily due to the loyalty which Patiala and Jind chiefs showed to the British cause. In Panipat Bangar, Jats and Gujars roited, indulged in some acts of violence and refused to pay revenue in a number of villages. Open sedition was preached in the city of Panipat . But the timely and firm action of the local British officer in which quite a few persons were hanged kept the things under control. The Jind chief was responsible for keeping the route between Karnal and Delhi open. The *Ranghars* gave trouble in the Nardak region and gave refuge to the mutineers from Ferozepur and Jullundur. But here again the local officers assisted by the loyal elements proved equal to the task. The Patiala chief held Karnal, Thanesar and Ambala for the British and kept the road from Karnal to Phillaur open. The Mutiny over , the loyalists were amply rewarded and the troublesome elements in villages heavily punished and fined. The numerous villages forts which had been built in the times of the Sikhs were dismantled.

The history of the District since 1857 has been uneventful. The District shared with the rest of the country in the benefits of settled regime. The settlements carried out from time to time made the peasantry conscious of their rights in land, and law and order secured, they felt happy and contented. The canals, railways, roads, posts and telegraphs, hospitals, schools and colleges gave them a fair share in whatever prosperity came under the British rule.

The Partition witnessed the emigration of a vast Muslim population from the District just as from various others. In their place a large number of Hindus and Sikhs, uprooted from West Pakistan, were settled.

TOWNS AND PLACES OF INTEREST

Amin.[Area 6.19 sq. miles; Pop. (1961) 2,990].—Half-way between Kurukshetra and Taraori, this village is located on mound 25′ to 30′ high. The spot is believed to be the site for the *Chakkar Vyuha* formation

of the Army of Kaurvas in the battle of Mahabharta, and in which Abhimanyu, son of Arjuna, was killed. It has an ancient tank called Surj Kunda (tank of the sun) and a temple dedicated to Aditi who gave birth to Surya (the Sun-god). Women desirous of a male child visit the temple on Sunday and take bath in the tank. A metalled road links the village with the Grand Trunk Road.

Assandh [Area 17.95 sq. miles : Pop. (1961) 8,272].—It is a village lying 27 miles south-west of Karnal on the Karnal-Jind road. It is said to be the capital of the kingdom of Jarasindha, one of the heroes mentioned in the Mahabharta. A *Shahidi Samarak* (martyrdom memorial) commemorates the part played by the villagers of this place and of the surrounding area during the 1857 up-rising when they revolted and were heavily punished by the Britishers. A Canal Rest House, Government High School, a Veterinary Dispensary, a Civil Dispensary, Police Station and Post and Telegraph Office are the places of public utility here.

Gharaunda [Area 0.36 sq. mile: Pop. (1961) 10,496].—It is a small town on the Grand Trunk Road, 11 miles south of Karnal. It has a railway station on the Ambala-Delhi line, and is an important market of the area. It appears to have remained an important halting place on the highway ever since the Mughal times as is evident by the ruins of a big *sarai* found there. At one time it was the headquarters of Tahsil Karnal. Now it is a Class II Municipality with an annual income of about Rs. eighty thousands. It has a Police Station, a Veterinary Hospital and a Primary Health Centre, and enjoys Post, Telegraph and Telephone facilities. The Shri Ved Vidyalya Gurukula and the Government Higher Secondary School are the principal centres of education.

Guhla [Area 2.4 sq. miles : Pop. (1961) 1,444].—It is situated about 20 miles north of Kaithal and linked by a two mile stretch of road with the Kaithal-Patiala road.

The place is mentioned by Timur in his Memoirs as the place where his invading army crossed the Ghaggar by a bridge, the remains of the bridge still exist. It contains tomb of Miran Babar Ali Shah where a fair is held in June. Mad persons are believed to be cured of their illness at the tomb, by making them duck their heads through a hole in a wall. The places of public utility here are Police Station, Post and Telegraph Office, Civil Rest House, Veterinary Hospital and Primary Health Centre.

Indri [Area 1.89 sq. miles : Pop. (1961) 2,846]. —The village is situated about 5 miles north-east of Karnal by the side of Western Jamuna Canal from which Sirsa Branch takes off here. It is associated with Nihal De and Sultan whose love-affairs form the subject matter of a famous folk-tale of Hariana. The ancient fort, "Shish Mahal," of which remains can still be seen on the outskirts of the town is said to belong to a Sultan. The place also contains ruins of a Naulakha Bagh which is reported to have once had nine lakh varieties of plants. It has a Police Station, a Canal Rest House and a Public Health Centre.

Kaithal [Area 2.10 sq. miles: Pop. (1961) 34,890].—Kaithal is the headquarters of the Sub-Division of the same name. It lies 29° 48′ 09″ north latitude and 76° 23′ 45″ east longitude, some 40 miles west of Karnal with which it is linked by a metalled road. It is also a railway station on the Narwana-Thanesar section. The town is picturesquely situated on the bank of an extensive artificial lake called the Bidkiya Lake which half surrounds it with numerous bathing places and flights of steps. A high wall, with eight gates once enclosed the town. The gates are now in a dilapidated condition.

The Sanskrit name of Kaithal is Kapisthala which means the abode of monkeys. There is a mound to the east of the town called Anjni Ka Tila where Anjni, the mother of Hanuman, the monkey-god, is believed to have given birth to him. The town itself is said to have been founded by Yudhishtra in commemoration of his victory over the Kaurvas in the battle of Mahabharta. It occupied an important strategic position during the early Hindu period. Sultana Razia is said to have fought her last battle near here in which she was killed. Akbar renovated it and built a fort here. In 1776, it fell in the hands of the Sikh Chieftain to Bhai Desu Singh whose descendants, the Bhais of Kaithal, ruled over the area till the territory lapsed to the British Government in 1843.

The town abounds in old buildings, among which are the tombs of Sheikh Shahab-ub-din, Shah Walait and Sheikh Tayub, and Shah Kamal, a saint. Sheikh Tayub also built a mosque here in the days of Akbar. A *smadh* exists over the remains of Sitalpuri, a friend of Shah Kamal. Hindu dead bodies are taken to this place before cremation. The Bidkiya lake was built by one Bidkiya in the times of Aurangzeb. The old fort built by Akbar was later demolished. The Bhais of Kaithal built their own fort and a palace the ruins of which stand out prominently on the banks of the Bidkiya lake. The Tahsil offices are located in the fort whereas the palace built by Bhai Ude Singh serves as Rest House-cum-Sub-Divisional Magistrate's office and residence.

The town is a Class II Municipality now with an annual income of over Rs. 6 lakhs. It has a flourishing market known for paddy and cotton. The Civil Hospital, Maternity Hospital, Veterinary Hospital, Police Station, Post and Telegraph Office, and Telephone Exchange are among the places of public utility. The town has a Degree College (Ram Krishan Sanatan Dharam College); two Higher Secondary Schools, one for boys and the other for girls; two privately managed Higher Secondary Schools for boys; a privately managed High School for girls; Industrial Training Institute for boys; Mangat Rai Aggarwal Industrial School for girls, a Rural Artisan Training Centre, and a Rural Development Centre. A new canal colony has sprung up where the office and residential quarters of the Pehowa Sub-Division of Irrigation are located.

Kala Am.—According to the tradition, the site where Sada Shivrao Bhau commanded his Marhatta forces during the Third Battle of Panipat was marked by an old mango tree *Kala am* which has now disappeared. The site is just about 2½ kilometres to the north of Panipat-Bhapauli road. At present the site is marked by a brick pillar with an iron rod at the top. The pillar bears an inscription both in English and Urdu commemorating the Third Battle of Panipat between Ahmed Shah Abdali and Marhatta Confideracy in 1761.

Karnal [Area 3.80 sq. miles: Pop. (1961)) 72,109].—Karnal town, the headquarters of Karnal Tahsil and Karnal District lies on 29° 41′ 16″ north latitude and 76° 49′ 13″ east longitude. The Grand Trunk Road passes through it, and it is 46 miles distant from Ambala Cantt. and 73 miles from Delhi. It is also a railway station on the Delhi-Ambala Section. Formerly the river Jamuna used to flow in its immediate vicinity but now it has shifted some 7 miles to the east.

The town is said to have been founded by Raja Karna of Mahabharta, but it occupied no important place in the early Indian history and does not find any mention therein until towards the end of the Pathan period. In 1573, it was plundered by Ibrahim Hussain Mirza in his revolt against Akbar. Banda Bairagi laid waste its neighbourhood in 1709. It was the scene of defeat of Mohammed Shah by Nadir Shah in 1739. After the fall of Sirhind in 1763, the town was seized by Raja Gajpat Singh of Jind. He built a fort and a wall with ten gates, many of which still remain. Raja Gajpat Singh's son lost it to the Marhattas in 1787 but it soon came into the hands of the Raja of Ladwa from whom the Britishers finally took it over in 1805. The Britishers established a cantonment here but on account of its bad climate they shifted it to Ambala in 1841. It became the headquarters of the District instead of Panipat in 1854, and the headquarters of Karnal Tahsil shifted from Gharaunda to Karnal in 1868.

Some old constructions in the town are listed below.

Karna Tank.—It is said to have been constructed by Raja Karna, the founder of the town. A temple, still existing on its side, was constructed by one Bhara Mal during the rule of Gajpat Singh.

Bhara Mal's Sarai.—Constructed by Bhara Mal, it is presently occupied by the office of the Deputy Assistant Director General (Medical Stores), Government of India.

Old Fort.—Constructed by Raja Gajpat Singh of Jind in about 1764 A.D., it now provides accommodation for the office and residence of the Tahsildar.

Bu Ali Shah Qalander's Tomb.—Situated to the east of the town, this tomb of fine marble was built by emperor Ghiyasu-ud-din Tughlak in memory of a celebrated saint, Bu Ali Shah Qalander. There is a mosque and a reservoir with a fountain within the enclosure of the tomb.

Miran Sahib's Tomb.—This tomb stands to the memory of a saint, Sayad Mohammed *alias* Miran Sahib who died in 899 A.D. He was responsible for rescuing a Brahmin girl from the clutches of a Raja in a pitched battle. The tomb is situated towards the extreme south of the town and alongside it stand a small mosque and a cemetery of many members of the Mandal family.

St. Jame's Church.—The church was constructed soon after the establishment of the cantonment but it was dismantled with the shifting of the cantonment to Ambala in 1841 and its material was removed to that place. Now only the tower of the church stands alongside the G. T. Road.

Tomb of Nau-gaza.—An old shrine near the police station stands to the memory of an assumed person *Nau- gaza* (nine yards in height).

Gurdwara Manji Sahib.—This Gurdwara commemorates Guru Nanak's meeting with Bu Ali Shah Qalander. It was also visited by Guru Teg Bahadur on his way to Delhi where he was beheaded.

Karnal town has a Class I Municipality with an annual income of Rs. 530,000 (1960-61). The Sadar Bazar is its main shopping centre. The public offices are situated in the civil station about a mile from the old town. Some colonies have sprung up after the Partition, the Model Town towards the north-east, Prem Nagar in the west, Krishan Nagar and Ram Nagar.

Among the educational institutions in the town are the National Dairy Research Institute, the D.A.V. College for Women and the Dayal Singh College, St. Thereser's Convent , Industrial Training Institute, a Government Industrial School for Girls, the Ladies Industrial Home, two Government Higher Secondary Schools (one for boys and the other for girls), a Government High School for Girls, two privately managed Higher Secondary Schools for boys, and six privately managed High Schools (two for boys and four for girls).

Kunjpura [Area 6.60 sq. miles : Pop. (1961) 4,221].—Six miles from Karnal, the estate of Kunjpura was founded by a Pathan soldier Najabat Khan under the Mughals near about 1700. He built a fort here which, however, was raised to the ground by the Marhattas. With the Britishers appearing on the scene, the Nawab of Kunjpura was recognised as a protected chief. He lost his sovereign powers in 1846. The place has come into prominence with the establishment of a Sainik School here in 1961. It has also a Government Higher Secondary School.

Ladwa [Area 0.25 sq. mile: Pop. (1961) 8,259].—It is a small town in Thanesar Tahsil about 14 miles east of Kurukshetra on the Kurukshetra-Saharanpur road. The town and its neighbourhood belonged to a Sikh family from whom they were confiscated by the British Government in 1846 on account of their hostility during the first Sikh War. It has an old tank and a *devi* temple on its outskirts. It has a Class III Municipality and the places of public utility here include the Government High School, the Civil Rest House, a Civil Dispensary, a Veterinary Hospital, the Post and Telegraph Office and the Municipal Public Library.

Nilokheri [Area 1.81 sq. miles: Pop. (1961) 8,035].—It is a post-Independence town, 11 miles to the north of Karnal on the Grand Trunk Road. A vast stretch of swampy jungle covered with *dhak* trees and bushes undergrowth, was offered by the Punjab Government to Government of India for resettlement of the refugees uprooted from West Pakistan. Soon a township came into being inhabiting an industrial community working on a Pilot Project. It is now a full-fledged town enjoying all facilities of municipal administration which is in the hands of a Notified Area Committee with an annual income of Rs. 48,500 (1960-61).

The Orientation and Study Centre, the Extension Education Institute, and the Khadi Gramudyog Vidyalya are the training centres in the town which train various functionaries for the Community Development Programme. Other places of public utility in the town include the Punjab Polytechnic, Government Higher Secondary School, Government Basic School, Government Nursery and Kinder Garton School, Primary Health Centre, Veterinary Hospital, Printing Press (Government of India), Vigyan Mandir and a Rest House.

Panipat [Area 3.00 sq. miles : Pop. (1961) 67,026].—Panipat is the headquarters of the Sub-Division of the same name. Situated on 29° 30′ 33″ north latitude and 77° 58′ 38″ east longitude, it is 21 miles south of Karnal on the Grand Trunk Road. It is a railway station on the Delhi-Ambala Section. It is located on a high mound composed of the debris of centuries.

Commanding the highway from Sirhind and Ferozepur to Delhi, Panipat has occupied a strategic position and has been the scene of several decisive battles. The town formed one of the five *Pats* or *Prasthas* (villages or places) demanded by Yudhishtra from Daryodhana as their minimum share of right in the kingdom which Daryodhana had usurped and *Pandvas* claimed as their own. The three decisive battles of Panipat which sealed the fate of upper India have already been described in the section relating to History. Rising on all sides gently upward towards an old fort which is the highest point in the town, it is surrounded by an old wall by the backs of many houses and pierced by fifteen gates. The principal places of interest in the town are listed below.

1. *Dargah Qalander Sahib.*—This is the principal building of antiquity within the city walls. It was erected, but for the touchstone pillars of the hall, by Khizi Khan and Shadi Khan sons of emperor Ala-ud-din Khilji. The touchstone pillars were erected by one Razk-ula Khan son of Nawab Mubarik Khan *Hakim* in the service of Emperor Akbar. Bu Ali Qalander the renowned saint is said to have been born in 1190 and died in 1312 A.D. in this very town.

The tombs of Hakim Mubarik Khan and Khawaja Altaf Hussain *Hali*, the renowned Urdu poet, also lie within the premises of the shrine.

2. *Grave of Ibrahim Lodhi.*—Ibrahim Lodhi was slain in the First Battle of Panipat somewhere between the Tahsil and the city. A masonry platform with an inscription commemorating the event was erected in

1866. It was one of Sher Shah's dying regrets that he was never able to fulfill his desire of erecting a tomb to the fallen monarch.

3. *Kabli Bagh.*—Babar built this garden with a mosque and a tank as a record of his victory over Ibrahim Lodhi in 1526. Hamayun added a masonry platform and called it Chabutra Fateh Mubarik (platform of auspicious victory) on his having defeated Salem Shah in 1556 A.D.

4. *Devi Temple.*—A temple dedicated to the goddess exists on the bank of a large tank. A Shiva temple also exists there believed to have been built by Marhattas.

The town has a Municipal Committee of Class II enjoying an income of Rs.570,000 (1960-61).

A distinctive type of pottery, known as 'painted grey-ware' has been discovered in Panipat, dating back to 1200 B.C. In the recent past the town was known for its manufacture of copper vessels and glass ornaments. Now it is the leading industrial town in the District, and is well-known for its handloom products. Some furnishing fabrics, blankets and other woollen garments manufactured here are exported to other countries.

The places of public utility include a Civil Hospital, a Post and Telegraph Office, a Telephone Exchange, a Maternity Centre, a Veterinary Hospital, the P.W.D. Rest House, the Quality Marketing Centre, the Khadi Ashram and a *gau-shala.* Among educational institutions are the Industrial Training Institute, Government Industrial School for boys and girls, a Drugget Centre, the Arya College, the I.B. Bharathri College for girls, a Government Higher Secondary School for boys and another for girls, the S.D. Higher Secondary School, the Arya Higher Secondary School, the Jain High School, the A.S.I. High School, the I.B. Bharathri Higher Secondary School, the Har Kaur Higher Secondary School, the Arya High School for girls, the S. D. High School for girls and the Training Centre for adult blind. The resettlement of refugees after Partition has brought new colonies into existence, namely, the Model Town, the 8-marla Housing Colony, and the 4-marla Housing Colony.

Pehowa [Area 0.52 sq. mile : Pop. (1961) 6,159].—It is an ancient town and an important place of Hindu pilgrimage in Kaithal Sub-Division, some 17 miles west of Thanesar on the left bank of the Saraswati river. It is said to have been founded by Raja Prithu in the unrecorded ancient past, its original Sanskrit name being Prithodaka (the pool of Prithu). Two inscriptions dating back to the 9th century A.D. found here, show that it was then included in the dominions of Raja Bhoj and his son Mahendra Pal of Kanauj. The Marhattas built here the temples dedicated to goddess Saraswati and Swami Kartik. After the coming into power of the Sikhs, the town came into the possession of the Bhais of Kaithal from whom it lapsed to the British. A great annual fair is held here on the Chaitra Amavasya corresponding to the English months March-April. Some of the important shrines are: the Saraswati Mandir, the Shanker Mandir, the Pashupatinath Mandir, the Krishan Mandir, the Swami Kartik Mandir, the Raghunath Mandir, the Gurdwara Naumi and Dasmi Padshahi, the Gurdwara Bauli Sahib and the tomb Dargai Shah.

The town is now a Class III Municipality with an annual income of Rs.42,500 (1960-61). It is an important market of the area, and is connected by metalled roads with Ambala , Thanesar, Kaithal and Guhla. A canal colony has sprung up here after the Partition. The places of public utility in the town include a Police Station, a Civil Dispensary, a Veterinary Dispensary, a Post and Telegraph Office, a Government Higher Secondary School for girls, and another for boys and a Civil Rest House.

Pundri [Area 1.50 sq. miles: Pop. (1961)7,660].—This town is about 10 miles east of Kaithal on the Kaithal-Karnal road. It derives its name from the Pundrak tank which is said to have been built in the times of Mahabharta and stands to this day. The town is enclosed by a wall which has four gates, and is looked after by a Class III Municipal Committee. It has a Post and Telegraph Office, two High Schools, a P.W.D. Rest House, a Veterinary Hospital and a Civil Dispensary.

Samalkha [Area 2.35 sq. miles: Pop. (1961) 6,519].—It is a villege situated on the Grand Trunk Road, 13 miles south of Panipat . It is also a railway station on the Delhi-Ambala section, and has come into prominence with the establishment of the Gandhi Samarak Nidhi Ashram and a paper unit of the Khadi and Village Industries Commission at Patti Kaliana, a neighbouring village. The places of public utility include a Government Higher Secondary School for boys, a Veterinary Dispensary, a Primary Health Centre, a P.W.D. Rest House, a Post and Telegraph Office and a Telephone Exchange.

Rajaund [Area 5.15 sq. miles: Pop.(1961)6,752].—This village, about 12 miles south of Pundri on the Rajaund-Pundri road is of great antiquity finding a mention in the Mahabharta. The name is derived from Raja-hund which means the prison of *rajas.* It has a fortress which, it is said, was used as a prison. It has a Government High School, a Primary Health Centre, a Veterinary Hospital, a Post Office and a Police Rest House.

Radaur [Area 1.00 sq. mile: Pop. (1961) 5,155].—It is a small town in Thanesar Sub-Division, situated at the Thanesar-Ladwa- Jagadhri road. It was treated as a town for the first time at the 1951-census when its population was 3,837. Since then the population has risen to 5,155 showing an increase of 34.35 per cent. The town is a Class III Municipality with an income of Rs.57,515 (1960-61). It has a small unregulated market. The places of public utility in the town are Police Station, Post Office and Rest House.

Shahbad [Area 0.68 sq. mile : Pop. (1961) 18,975].—It is a town in Thanesar Sub-Division on the Grand Trunk Road, 12 miles from Ambala. It is located on the banks of the Markanda river.

The town was founded after the battle of Taraori in 1192 by a general of Shahab-ud-din Gauri. It was pillaged by Babar for having rendered assistance to Ibrahim Lodhi. Banda Bairagi attacked it and on its surrender it was divided by the Sikhs into 7 *pattis*. The Sardars of Shahbad exercised administrative powers in the earlier days of the British regime but they were deprived of these powers by the British in 1850.

The historical buildings in the town include the Mastgarh Gurdwara and a *sarai*. The Pathan mosques with dark square domes are also dotted here and there.

The town is a Class II Municipality, making an income of Rs. 178,000 (1960-61). A market known as Kahan Chand Mandi was constructed in 1923 on the outskirts of the town but it did not flourish and is now served as a residential colony. A new market known as Partap Mandi has been constructed recently. The town has a Civil Hospital, a Veterinary Hospital, a Post and Telegraph Office, five High and Higher Secondary Schools and a Cinema Hall.

Siwan [Area 16.41 sq. miles: Pop. (1961) 6,779].—It is a village situated on the banks of the Saraswati river in Guhla Sub-Tahsil, 7 miles from Kaithal. The name is a corruption of Seoban or *Sita-Ka-Ban* and it is said that the place was once the jungle-home of Sita, wife of Rama. It has a temple made of elaborately ornamented bricks dedicated to Sita at a spot where the earth is believed to have engulfed Sita in answer to her appeal, as proof of her chastity. Besides, there is an ancient tank with wells on its four corners, also dedicated to Sita. The village has a Government Higher Secondary School and a Primary Health Centre.

Taraori [Area 3.09 sq. miles: Pop. (1961) 7,523].—This village of historic interest is eleven miles north of Karnal. Two battles were fought here between Prithvi Raj and Mohammed Gauri. In the first battle Prithvi Raj defeated the invaders but in the second battle in 1192, Mohammed Gauri defeated Prithvi Raj. Prince Azim of Aurangzeb was also born here and the place was renamed as Azamabad. Aurangzeb constructed a wall around the town, a mosque and a tank which exist to this day. The village being main Highway of the Mughal times, also has a *sarai* which is now used by the displaced families. Because of the railway station nearby, the place has developed as an important assembling market chiefly for paddy grown in the surrounding area, and has some rice husking mills. There is a Government High School, a Post and Telegraph Office and a Rural Dispensary.

Thanesar [Area 6.00 sq. miles: Pop. (1961) 16,828].—Thanesar, also called Kurukshetra, is the headquarters of Thanesar Sub-Division, lying on 29° 58′ 15″ north latitude and 76° 50′ 00″ east longitude on the bank of the Saraswati river, 23 miles north of Karnal. A metalled road links it with the Grand Trunk Road about 3 miles to its east. It is a railway junction on the Delhi-Ambala section.

The place has an ancient history, finding a mention in Hindu scriptures where it is variously mentioned as *Brahmasara, Sthaneswara Dharamkshetra*. It was the scene of the battle of Mahabharta where was recited for the first time the Gita, the song celestial. The Chinese traveller Huan Tsang who visited India in the 7th century A.D. also makes mention of this place. Mahmood of Ghazni sacked it in 1014 but was soon recovered by the Hindu Raja of Delhi. Akbar visited the place and witnessed its great fair in 1567. Aurangzeb desecrated it and built a castle on its sacred tank. At the annexation of the cis-Sutlej territory, the town and its neighbourhood were in the possession of a Sikh Sardar, and they lapsed to the British Government in 1850. Thanesar remained the headquarters of the District till 1862. Its municipal committee was set up in 1885.

Kurukshetra occupies a prominent place in the glaxy of ancient Hindu places of pilgrimage. A big fair is held here on the occasion of a solar eclipse which is attended by lakhs of pilgrims from all over the country. Kurukshetra is a land of temples and tanks and has no less than 365 *tiraths* in it. The foremost among them are : Kurukshetra tank, Sannyhati tank, Sthaneswar, Jyotisar, Ban Ganga, Chandra Kupa and Kamal Nain.

The Kurukshetra tank is said to have been excavated first by the sage-king Kuru. 1442 yards long and 700 yards broad, the tank has two big old islands on which stand some temples. With the passage of time the *ghats* on the southern side and a part of the *ghats* on the eastern side have disappeared. The remaining

ghats are in good condition. There are *maths*, temples and *dharamsalas* on the northern bank of the tank of which the *dharamsala* of Baba Kali Kamli Wala, Gita Temple, Vyas Gaudia Math and Gita Bhawan are worth mentioning.

The Sannyhati tank is 500×150 yards. It is believed that the entire range of *tiraths* assemble here on the occasion of the solar eclipse and hence the great merit of a dip on that day.

Sthaneswar is a sacred tank on the bank of Saraswati about two furlongs from the town with a Shiva temple on its bank.

Krishna is supposed to have delivered his message of Gita to Arjuna at the Jyoti sar, three miles west of Thanesar. There is a small tank there.

Ban Ganga is a tank some three miles from the southern bank of Kurukshetra tank. It is here that Arjuna quenched the thirst of his dying brave grand-uncle Bhishama by shooting a powerful arrow into the earth from where water gushed out.

Chandra Kupa consists of a well and a temple near the southern bank of the Kurukshetra tank.

Nabh Kamal is a sacred tank near Thanesar where, according to the legend, Brahma was born out of a lotus growing on the navel of Vishnu.

Besides the above religious places, the ancient fort and mounds, Sheikh Chilli's tomb and *madrasa*, Pathar Masjid and Chini Masjid are places of historic and archaeological interest in Thanesar. According to tradition the fort was constructed b y Raja Dalipa, a descendent of Kuru. But the historians say that it is a mere conjecture and most probably it was founded by Harsha Vardhna. One of the mounds is said to contain the remains of a stupa built by Ashoka, containing some relics of Buddha. Towards the north-east corner of the fort stands a shrine dedicated to the spiritual advisor of Dara Shikoh, popularly known as Sheikh Chilli. It is an octagonal building of white marble. The stone building of the *madrasa* stands nearby. The Pathar Masjid is said to belong to the time of Feroze Tughlak and the Chini Masjid to the time of Aurangzeb.

Keeping the past glories and traditions of the place in view, the Government has established the Kurukshetra University some two miles away from the town proper. Other places of public utility in the town are the Post and Telegraph Office, Telephone Exchange, Veterinary Hospital, Maternity Hospital, Government Higher Secondary School for girls, two privately managed High Schools and a *gan-shala*. A small permanent colony has, however, been set up. The town has a Class II Municipal Committee with an annual revenue of Rs.222,000 (1960-61).

Pharal [Area 10.43 sq. miles: Pop.(1961)4,098].— This is an old but a small village in Kaithal Sub-Division. It is four miles from Pundri town and is also connected by roads with Kurukshetra, Nilokheri and Karnal. It is the venue of one of the biggest fairs in Punjab, which is held whenever *Amavas* (moonless night) falls on a Monday during the days of *sharadhs* (Asoj corresponding to September-October). The fair finds a mention in the 11th canto of the epic of Mahabharta, where the village has been referred to as Phalki Ban (the forest of Phalak), a noted *rishi* who had attained great spiritual attainments. The fair is known as Phalgu fair after that *rishi*. The belief is that the place is more sacred than even Gaya on the *Somavati Amavas* during *sharadhs*, and that the post-funeral rites performed here on that occasion give salvation to the departed souls. The site of the fair is a tank of irregular shape more than a furlong in length and about 100 yards in breadth, near the village. On different edges of the tank slanting brick platforms (*ghats*) have been built which are variously named as Gau Ghat, Vishnu Ghat, Kusha Ghat. There are small temples on most of these *ghats* dedicated to Hanumana, Radheshyam, Durgeshwari, Shiva and Phalgu Rishi. The rituals of *pind dan* are performed at these *ghats*.

ADMINISTRATIVE MACHINERY

Karnal is one of the six districts of Ambala Division. It is in the over-all charge of a Deputy Commissioner.

Deputy Commissioner and his Assistants.—The Deputy Commissioner continues to be the hub of District administration. As District Magistrate, he is responsible for maintaining law and order, and is head of the District Police, Magistracy (executive) and Prosecuting Agency. As Collector, he is in charge of the revenue administration and is responsible for the collection of land revenue and other Government dues. He is the highest revenue judicial authority in the District, and the Registrar of all transactions of immovable

property. He is the executive head of the civil administration and all departments in the District, which otherwise have their own officers, look to him for guidance and co-ordination. He plays an important role in the administration of the Municipal Committees, Market Committees, Panchayats, Panchayat Samitis, Community Development Blocks and Zila Parishad. He has to keep his fingers on the pulse of the people and presents such of their grievances to Government as he himself cannot redress.

In these multifarious duties, the Deputy Commissioner is assisted by a number of Assistant Commissioners and Extra-Assistant Commissioners. The General Assistant helps him in executive and administrative functions, and controls over the office of the Deputy Commissioner. He also works as the Superintendent of the Sub-Jail at Karnal.

The District Development and Panchayat Officer looks after the work relating to Community Development at the District level and the work relating to Panchayats.

The Revenue Assistant looks after the work of agrarian reforms in the District. He has also been put in charge of the revenue work not so far transferred to the Sub-Division and supervises the maintenance of the land records and land revenue accounts at the District level. He also controls the revenue establishment.

As District Magistrate the Deputy Commissioner is not concerned with the disposal of criminal judicial cases as the Judiciary has been separated from the Executive in the District, and his functions are limited to law and order side. In this work he is assisted by Sub-Divisional Magistrates and the General Assistant.

Sub-Divisions and Tahsils.—There are four Tahsils in the District, namely, Thanesar, Karnal, Kaithal and Panipat, as also one Sub-Tahsil of Guhla which is in Kaithal Tahsil.

All Tahsils have been converted into Sub-Divisions, each in the charge of a Sub-Divisional Officer (Civil) who is of the rank of an Assistant or an Extra-Assistant Commissioner. His powers vis-a-vis the Sub-Division are analogous to those of the Deputy Commissioner vis-a-vis the District, though he exercises them in consultation with and without detriment to the authority of the Deputy Commissioner. The Tahsildars and Naib Tahsildars in the Sub-Division work under his administrative control. They are assisted by Office Kanungos and a number of Field Kanungos, Patwaris and Assistant Patwaris. A Patwar Circle is the smallest unit of revenue administration and is in the charge of Patwari. There are at the moment (December, 1964) 341 Patwar Circles in the District.

The Revenue Agency is helped in the villages by Lambardars and village *chaukidars*. The Lambardar collects the land revenue and deposits it in the Tahsil Sub-Treasury or the local branch of the State Bank of India, and helps the administration generally assisted by the village *chaukidar*. In return, he gets *pachotra*, which is a sum equal to five per cent of the land revenue collections made by him.

Judiciary.—Judiciary was separated from the Executive with effect from October 2, 1964, under the Punjab Separation of Judiciary and Executive Functions Act, 1964. The administration of justice both on the civil and criminal sides is now headed by the District and Sessions Judge, Karnal. He is assisted by the Chief Judicial Magistrate and Judicial Magistrates on the criminal side and by the Senior Sub-Judge and Sub-Judges on the civil side. The criminal work is assigned to the various Magistrates police-station-wise.

Government cases in the Civil Courts and in the Session's Courts are represented by a District Attorney and Assistant District Attorney who are controlled by the Legal Rememberancer. They are assisted by Public Prosecutors appointed by the Government from amongst the members of the Bar. The Prosecuting Agency conduct the cases for the State in the Courts of the Magistrates.

Police.—The Police administration is under a Superintendent of Police who functions under the administrative control of the Deputy Inspector General of Police, Ambala Range. The sanctioned strength of the staff under him as on 31-12-1960 was 2 Deputy Superintendents, 4 Inspectors, 43 Sub-Inspectors, 55 Assistant Sub-Inspectors, 118 Head Constables, 865 Foot Constables, vide Table 45*.

The smallest unit of Police administration is Police Station serving a number of villages or a town or part of a town. It is in the charge of a Sub-Inspector and in some cases an Inspector. There are 21 Police Stations in the District : 6 each in Karnal and Kaithal Sub-Divisions, 5 in Thanesar Sub-Division and 4 in Panipat Sub-Division.

The C. I. D. staff in the District functions directly under the Deputy Inspector General, C.I.D., Punjab .

*Page 97.

Jails.—There is no District Jail in the District, but there is Sub-Jail at Karnal and another at Panipat. The General Assistant to Deputy Commissioner and Sub-Divisional Officer (Civil) Panipat work as part-time Superintendents for these Sub-Jails, respectively. The Karnal Sub-Jail can accommodate 119 prisoners and the Panipat Sub-Jail 14 prisoners.

Community Development.—The District stands divided into 15 National Extension Service Blocks, each in the charge of a Block Development and Panchayat Officer. This officer works under the general supervision of the Deputy Commissioner and the Sub-Divisional Officer concerned. He has no administrative functions and is concerned mainly with the promotion and execution of development schemes, besides being the Panchayat Officer under the Gram Panchayat Act in his Block. He has a number of Extension Officers working under him though they belong to different departments. At the lowest rung of the Extension Service Scheme are the Village Level Workers and Lady Social Workers who handle the activities of the department at the village level.

Zila Parishad, Panchayat Samitis and Panchayats.—Formerly a District Board constituted under District Board Act used to look after the construction of roads, maintenance of public buildings and general development of the country-side. Now it has been abolished and in its place a Zila Parishad with a non-official Chairman has been formed. Members of the Zila Parishad are elected by the Panchayat Samitis. There is a Panchayat Samiti looking after the development programme in each N.E.S. Block. Its members are elected from amongst the members of the village Panchayats which form the basic units of the decentralised form of authority in the country-side. The working and sphere of activities of these organisations of local self Government in rural areas will be discussed in the fourth chapter.

Other Departments.—Practically all State Government departments have their units in the District. The District Industries Officer with his headquarters at Panipat and assisted by an Assistant Industries Officer at Karnal looks after the industrial activities in the District. The District Education Officer, with separate wings for girls' and boys' education, looks after the education of boys and girls at the school stage in the District. The Medical and Public Health activities are supervised by the Chief Medical Officer of the District. There is also a District Animal Husbandry Officer in the District. The District Food Controller looks after the procurement, movement and distribution of food supplies and other controlled commodities. The District Welfare Officer looks after the social and economic development of Scheduled Castes and Backward Classes. The District Public Relations Officer has as is his function to acquaint people with the schemes of the Government undertaken for their good. The Divisional Forest Officer, Karnal Forest Division, controls the maintenance and development of forests in the District.

The District Agriculture Officer is there to guide the farmers in the cultivation of land, to supply chemical manures and to provide good quality seeds. The different systems of canals are under the charge of separate Superintending Engineers and Executive Engineers. Similarly different drainage systems function under different Superintending Engineers and Executive Engineers. An Executive Engineer looks after roads and buildings in the District. The Assistant Registrar Co-operative Societies looks after the Co-operative Societies in the District. The District Excise and Taxation Officer attends to the excise administration and collection of such taxes as Entertainment Duty, Sales Tax.

Local Bodies.—The Municipal Committees, under the Punjab Municipal Act of 1911, are working in ten towns in the District. The one at Karnal is categorised as Class I, those at Kaithal, Shahbad, Thanesar, Gharaunda and Panipat as Class II, and those at Pehowa, Pundri, Ladwa and Radaur as Class III. The affairs at Nilokheri are looked after by a Notified Area Committee.

CHAPTER II

ECONOMY

This chapter is divided into four sections, dealing with: A—Agriculture, Irrigation and Livestock; B—Industries; C—Trade and Commerce; and D—Communications.

A—AGRICULTURE

The economy of the District depends primarily upon agriculture. At the 1951-census 65.80 per cent of the population was termed as dependent on agriculture; at the 1961-census 67.38 per cent of the total working force was grouped as cultivators and agricultural labourers. Land in the District is fertile and irrigation facilities are fast increasing. The peasantry consists mostly of hard working Jats, Rajputs, Gujars, Roars, Kambohs, and Rai Sikhs, who know well the traditional type of cultivation. The holdings are generally small and, wherever possible, the farmers try to raise two crops in a year. In the water-logged and swampy areas caused by the heavy rains in recent years, a change in the cropping pattern is being adopted to meet the changed circumstances. Instead of cotton, maize and *bajra*, they are growing more and more of paddy and sugar-cane. The District now deserves to be called the rice-bowl of Punjab.

There are three economic groups among agricultural classes: peasant-proprietors, tenants and labourers. Most of the cultivators are peasant-proprietors owing and cultivating their own land. Accretion to their number has accrued of late due to the various land reforms introduced in the post-Independence period. Feudal institutions like *jagirdari* and *biswedari* have been liquidated. The occupancy tenants have become full-fledged proprietors. Quite a number of tenants-at-will have purchased land, so enabled by law. Ceilings on holdings have yielded some surplus land from big owners, which is being made available to land-less cultivators. For fear of being deprived of their land, many landlords have taken to self-cultivation, and as they would like to avoid tenants, they are adopting mechanical means of farming. The tendency of the landlords to avoid tenants has, however, resulted in turning many former tenants into mere agricultural labourers because there are limited means of earning livelihood in keeping with their talents and mode of life.

LAND UTILISATION

Total geographical area.—Table 3* shows the geographical area of the District and its classification according to use, in terms of quinquennial average figures from 1901 to 1961. The difference in the total area figures over a period of time is due to inter-District transfers, alluvium and diluvium, and remeasurement of land. The total area of the District decreased from 2,014,477 acres in 1901 to 1,974,705 acres in 1961.

Forests.—The area under forests ranged between one and two thousands acres from 1898 to 1953. Thereafter there has been a substantial increase, and in 1961, 8,531 acres were being treated as forests. This is due to the Government decision to transfer to the Forest Department for purposes of plantation, the canal banks and road sides.

Besides, Government has acquired 9,868 acres in Sub-Tahsil Guhla for raising plantations therein, chiefly of mulbery trees. The Saraswati plantations cover another 1,100 acres. Most of the acquired area has gone under unauthorised occupation and Government is taking steps towards getting it vacated (December, 1964). The soil and nearness of sub-soil water are conducive to plant growth, and the forest lands provide good grazing and such grasses as are needed for paper manufacture.

Land not available for cultivation.—This includes absolutely barren and uncultivable lands which cannot be brought under plough except at an exorbitant cost (148,591 acres), and land covered by buildings, roads and railways, rivers and canals, or otherwise appropriated for non-agricultural purposes (87,897 acres). The total area in this category is 236,488 acres or 12.0 per cent of the total area of the District:

Other uncultivable land excluding fallow lands.—This denotes land available for cultivation, whether not taken up for cultivation, or abandoned later, and includes culturable wastes, grazing lands and lands under tree growth not included in the net sown area.

The area in this category is sharply decreasing. Over the past 20 years or so, it has almost halved from 622,818 acres in 1941 to 322,150 acres in 1961, because of extension of cultivation. The area rendered waste by water-logging and the appearance of *kallar* would appear to be included in this category

*Page 60.

of land. The vast construction of drains and sinking of tube-wells and other methods adopted by the Government and the people alike would go a long way to meet the menace of water-logging and reclaiming the area wasted by it.

Cultivated area.—In revenue terminology, land is called cultivated if it has had even one sowing during the previous four harvests. As such the cultivated area consists of (i) current fallows and (ii) net sown area. The position in this respect is depicted by the following figures :—

	Quinquennial Average	
	1948-53	1956-61
Current Fallow (acres)	184,244	83,000
Percentage to total area	9.2	4.2
Net sown area (acres)	988,347	1,324,536
Percentage to total area	49.4	67.1
Cultivated area (acres)	1,172,591	1,407,536
Percentage to total area	58.6	71.3

In the State as a whole, cultivated area forms 65 per cent of the total area, as against 71.3 in the Karnal District. The reduction in the proportion of current fallow lands is to be noticed. With the growing trend for intensive cultivation the practice of taking crops from the same plots successively for a number of years is coming into vogue. And there is nothing wrong in it, for agriculture research has proved that with good manuring and judicious rotation of crops, it is seldom necessary to allow land to lie fallow.

The figures also show that the reduction in fallow lands is not fully accounted for by the increase in sown area. The explanation of this gap is that more and more area is being put under roads, drains, canals and other non-agricultural uses.

IRRIGATION*

Rainfall in the District is not fully adequate for purposes of agriculture. Besides, it is erratic. Irrigation is, therefore, necessary to bring crops to full maturity. The alluvial soils of the District offer no hinderance in the excavation of canals. In the western part of the District where the water table is nearly 150 feet deep, irrigation by canals alone is possible. In the eastern portions, the water table varies from 5′ to 10′ and well-irrigation is quite common. In 1955, land under irrigation was 441,457 acres. By 1961, the figure rose to 522,500 acres, when it formed 26.4 per cent of the total area.

Canals.—The canals form the chief means of irrigation in the District. The water from the Jamuna is perennial, and the streams like Chautang and Saraswati give non-perennial supply. The Narwana Branch of the First Bhakra Main Line is the latest source of perennial supply in the Sarsa Branch of the West Jamuna Canal and the Saraswati Canal System. Towards the beginning of this century both Government and private canals served the land, but gradually the private canals went out of the picture and by 1956-61 all canals in the District were owned and managed by the Government. The area served by these canals during the quinquennium 1956-61 was 301,700 acres which formed 57.7 per cent of the total irrigated area.

Wells and tube-wells.—Next in importance to canals, as a source of irrigation, are percolation wells. They are to be found chiefly in the eastern regions of the District where sub-soil water level is low, and particularly in the southern portion of Panipat Sub-Division. Water from the wells is lifted mostly by the persian wheels. *Charases* were popular in the Pehowa-Banger circle but they have now been mostly replaced by the persian wheels. *Dhinglis* are used in Thanesar and Indri-Khadar assessment circles.

Tube-wells and pumping sets are post-Independence introduction. They serve to clear the swamps and check the rise in the water table, as also to irrigate lands. Government has started a separate Sub-Division for the construction of tube-wells and to help the cultivators to have their own tube-wells by granting financial and technical assistance. Government advances loans also for sinking of percolation wells.

A little over one-third of the net irrigated area is served by the percolation wells. During 1956-61 182,880 acres were irrigated by this source out of the net irrigated (annual average) area of 522,500 acres. The corresponding figure of the tube-well-irrigated average area was 35,840 acres.

*Page 62.

Tanks.—Tanks do not form an important means of irrigation in the District. In some parts of Karnal and Thanesar Sub-Divisions, small rain water is collected in village ponds and used for irrigation. During 1956-61, the average area served in this way annually came to only 2,080 acres.

Crops Irrigated (Table 6)*.—There has been a steady increase in the area of irrigated crops in the District during the last sixty years, except for the years nearabout 1911 and the years immediately following Partition. The quinquennial average irrigated area worked out for the census years 1941, 1951 and 1961 came to 482,261 acres, 476,658 acres and 626,603 acres, respectively.

Table 6 would further show that both food crops and non-food crops have had their due share in the irrigation facilities. During 1956-61, out of the total irrigated croped area of 626,603 acres, 493,613 acres were under food crops and 132,990 acres under the non-food crops. Among the food crops, food grains occupied the largest acreage (416,184 acres), wheat being on the top (154,400 acres). Next to wheat came pulses (80,673 acres) and then sugar-cane (54,234 acres). Among non-food crops, cotton occupied 60,410 acres, and other non-food crops 72,580 acres.

MAIN CROPS*

As elsewhere in the State, there are two main harvests: *rabi*(*hari*) and *kharif*(*sawani*). The *rabi* or spring harvest consists of wheat, gram, barley, oil-seeds, fodder crops and potatoes. They are sown mostly in October-November and is harvested from mid-March to mid-May. The *kharif* or autumn harvest consists of rice, maize, *jowar*, *bajra*, most pulses, sugar-cane and cotton, which are sown in June-August and reaped from early September to late December. Sugar-cane and cotton are sown a little earlier. Some crops come in between the two principal harvests. For example, *toria* matures late in December and is classed as *zaid* (extra) *kharif*. Similarly tobacco and melons are harvested late in June and are classed as *zaid* (extra) *rabi*.

As between the two main harvests, the area devoted to *rabi* crops is a little more than to *kharif* crops. This preponderance of *rabi* is attributable to irrigation. In Districts where farmers are entirely at the mercy of rains, *kharif* is the major harvest since rains for the most part are restricted to the monsoon months.

Wheat.—Among food crops, wheat is the most important. It is the staple diet of the people and is sown all over the District. It is grown mostly under irrigated conditions and its cultivation is increasing with irrigation. The acreage under the crop was 577,659 acres during 1948-53, and shot up to 912,777 acres during the quinquennium 1956-61 showing an increase of 58.0 per cent.

The District was estimated to produce 224 thousand tons of wheat in 1960-61, giving it fourth position among the Punjab Districts, the first three being Ferozepur, Sangrur and Patiala. In point of per acre yield, the District does not have a distinction. It produced 1,156 lbs. per acre in 1960-61 which, though better than the Punjab performance (1,077 lbs.) was less than that of the seven other Districts.

Rice.—Paddy cultivation in the District has increased tremendously, owing to the heavy rains and floods which have been visiting the District of late and water-logging from which the District suffers. Except for Rajaund and Kaithal areas, rice is extensively sown all over the District. During 1948-53, the rice acreage was 252,034; it rose to 412,521 acres during 1956-61, marking 64 per cent increase. Paddy crop of the District was estimated at 156 thousand tons in 1960-61 which was the highest production among all the Districts of the State and formed 23 per cent of the production of the entire State. The per acre yield (1,517 lbs.) of the crop in 1960-61 was better than that of Punjab as a whole (1,400 lbs.), and second only to Simla (1,642 lbs.) per acre.

Other cereals.—Maize, *bajra*, *jowar* and barley are the other cereals cultivated in the District. Maize ranks next to rice and is grown almost all over the District. *Jowar* and *bajra* are the minor *kharif* crops and are mostly grown in the *barani* areas of Kaithal Sub-Division. Barley is minor *rabi* crop.

Pulses.—The pulses grown in the District are gram, *mash*, *moong*, *moth* and *masar*. Gram is an important cash crop. It is mostly grown under *barani* conditions. In 1960-61, the acreage under it was 510 thousand acres, its production amounted to 228 thousand tons and the yield per acre to 1,002 lbs. In acreage and total production, Hissar and Sangrur Districts excelled Karnal District, but in per acre yield Karnal led all Districts.

Fruits and vegetables.—Fruits and vegetables, held 11,816 acres during 1956-61. Mangoes, oranges, *malta*, lime, grapes and guava are the principal fruits in the District. Two co-operative garden colonies are located at villages Jundla and Kachhrauli, but water-logging and *kallar* are retarding their progress.

*Page 63.

Among vegetables, potatoes and onions form good cash crops. In 1960-61, 3.4 thousand acres of land were devoted to potatoes.

Sugar-cane.—It is the most important commercial crop in the District. With the increasing irrigation facilities and water-logging conditions between the Jamuna and the Grand Trunk Road, sugar-cane cultivation is going up particularly in the area around Pehowa. Its acreage during 1948-53 was 36,335 and during 1956-61 it was 67,552 showing an increase of 85.9 per cent.

In 1960-61, both in regard to acreage and total production, the District occupied the second position among Punjab Districts with the respective figures of 88 thousand acres and 136 thousand tons, and Rohtak excelled it with 101 thousand acres and 203 thousand tons. But as regards the per acre yield, the District stood at the sixth position with 3,459 lbs. The corresponding figure for Rohtak was (4,482 lbs.).

Condiments and spices.—Chillies is also a good commercial crop of the District grown mostly in the *khadar* area of Panipat, Karnal and Thanesar Sub-Divisions.

Oil-seeds.—During 1956-61, the average annual acreage under the oil-seeds in the District worked out to 54,759 acres. *Sarson, toria, taramira* and linel are the main oil-seed crops, grown chiefly for sale. *Sarson* is grown both on *barani* and irrigated lands. *Taramira* is generally grown in poor lands. *Toria* is grown under good irrigated conditions in Rajaund area. Linel seed is grown in wheat fields.

Cotton.—Both American and *desi* varieties are grown. On account of its higher yield and better prices, the American varieties were becoming more popular in the earlier years of the past decade. But the heavy and untimely rains in the past few years have adversely affected this popularity, and *desi* cotton is gaining ground because it can stand unfavourable conditions better. American cotton occupied 1,000 acres in 1950-51, 70,000 acres in 1956-57 and 30,000 acres in 1960-61. On the other hand, *desi* cotton occupied 28,000 acres in 1950-51, 8,000 acres in 1956-57, and 10,000 acres in 1960-61.

CROPPING PATTERN

Two crops in a year is the common practice, which is encouraged by small size of holdings, fertile soil and irrigation facilities. The farmers are not neglectful towards manuring. Maize is generally followed by wheat gram or *rabi* fodders. If the *kharif* crop be cotton, *senji* or *methra* fodders succeed it. *Jowar* is also followed by sugar-cane or gram. Rice is followed by gram or mixed grains.

In swampy lands where nothing but rice can be grown, the fields are left fallow for the *rabi* or barley is put in as a fodder crop. Single cropping is in vogue particularly in *barani* areas. If the soil is pure sand, the crop grown is gram. If good soil lies under the sand then a mixture of wheat and gram is grown year after year.

Crop-mixtures.—Growing of mixed crops is quite familiar particularly in *barani* tracts. Gram and wheat are sown mixed to provide against uncertainty of weather : if the rains favour, wheat comes up better, but should the rains be scanty, then at least gram may be expected to bear a yield. A sprinkling of *sarson* is given in wheat fields; *sarson* thus sown is removed early for fodder and wheat is allowed to grow in full strength. Melons are sown with cotton and removed before cotton plants shade the ground. It is a common practice to grow pulses which are short crops along with *kharif* cereals, e.g. maize and *mash, jowar* and *gowara, bajra* and *moong*, barley and *masoor*.

Mechanised cultivation.—The holdings in the District being small hence the scope of mechanised farming is limited. However, due to scarcity of labour and improved economic conditions of cultivators, the educated and well-to-do farmers are taking up the use of improved agricultural implements like tractors, furrowing ploughs, drills, and bar-harrows. In 1961 there were 632 tractors in the District out of the total number of 7,866 in Punjab. In the same year, the number of iron ploughs in the District was 24,865 against the State total of 478,122. The number of oil engines with pumping sets was 508 out of the State total of 8,156 and of electric pumps for tube-wells 811 out of the State total of 8,784.

LIVESTOCK*

The District has been well-off in livestock. Grazing facilities have remained plentiful. With the advancing cultivation and irrigation these facilities are shrinking but the canal irrigation and untimely rains and floods of late have considerably raised the sub-soil water bringing about water-logging and swampy conditions in which the cultivation of fodder crops like *barseem* is being done extensively and this is proving very useful for the cattle. Karnal town itself is situated in the heart of a dairy tract and has for that reason been selected for the location of the National Dairy Research Institute.

* Page 68.

The local breeds of cattle are, however, poor. The District Board, now replaced by the Zila Parishad, is supplying quality bulls of the Hariana breed in villages. Under the Five Year Plans, the Veterinary Department has opened artificial insemination centres at Nilokheri and Pehowa. An artificial insemination centre also exists at the National Dairy Research Institute, Karnal. Red, Sindhi and Sahiwal breeds of cows and Murrah breed of buffaloes are being popularized.

Cattle.—The cattle numbering 537,312 in 1961 formed 48.5 per cent of the total livestock in the District. Bullocks constitute a major number among the kine. The breeding bulls counted 564 only as against the figure of 144,801 of cows above three years of age. The number of cattle per thousand human beings in the District in 1961 was 361 which gave it (bracketted with Kapurthala) fourth position among the Districts of Punjab.

Buffaloes.—The District showed a tremendous increase in the buffalo population from 295,922 in 1956 to 416,228 in 1961. This was the highest figure for any District in that year in the State. The female buffaloes formed most of this number. The superiority of the buffalo lies in its larger and richer milk, and thriving on stall feeding. He-buffaloes are not popular with the farmers because they are sluggish and sensitive to sun.

The number of buffaloes per thousand human beings in the District was 279 in 1961, which figure is surpassed only by Kapurthala (281).

Horses and ponnies.—With the introduction of speedier modes of travel, there has been an over-all decrease in the population of these animals. In 1920, their number stood at 13,029 but in 1961 the number was 9,382.

Donkeys and mules.—Though there has been a decrease in the number of donkeys over the past forty years, from 21,000 in 1920 to 16,687 in 1961, the mules, on the other hand, have shown an increase due to carts with pneumatic tyres and drawn by mules featuring in carrying goods over short distances.

Sheep and goats.—The rearing of sheep and goats received a set-back from Partition since most of the breeders were Muslim and they crossed over to Pakistan. Besides, grazing lands so necessary for these animals are gradually disappearing. In 1951 the District had 46,225 sheep and 89,285 goats, as compared to 81,223 and 108,920 in 1945. With the development of wool market and blanket making at Panipat, sheep rearing has received some stimulus and their number stood at 55,584 in 1961. The goat population, however, registered a further decline and numbered 38,429 in 1961.

Pigs.—With the prejudice against these animals disappearing with the going away of the Muslims these animals increased from 16,148 in 1951 to 28,173 in 1961.

Poultry.—The refugees from the West Pakistan appear to be quite poultry-minded and are availing of the facilities provided by the Government for rearing poultry. The number of fowls in the District increased from 55,547 in 1951 to 177,556 in 1961.

Livestock diseases.—The prevention and cure of livestock diseases are attended to by the Veterinary Department, through its 23 Veterinary Hospitals and 5 outlying dispensaries in the District, manned by 22 Doctors, 27 Compounders and 58 other staff (31st March, 1961).

B—INDUSTRIES

The District does not enjoy much distinction in industry. The only industry of long standing and practised in a small way was refining of saltpetre in Kaithal, Shahbad and Panipat. A ginning factory was established at Panipat towards the close of the last century. Other industrial enterprises which came into prominence in the District in the pre-Independence period were the manufacture of woollen blankets and brass and copper utensils at Panipat, lacquerware at Kaithal, and glass blowing at Panipat and Karnal. World War II gave particular fillip to the manufacture of blankets and it was estimated that during those days barrack blankets to the extent of 10,000 per day were manufactured and supplied to Government for the army. Partition gave a great set-back to most of these undertakings except shoe-making and manufacture of woollen blankets, due to the migration of the Muslim population which mostly provided the skilled labour. Some wool merchants migrating from West Pakistan settled at Panipat and revived the blanket industry. The starting of vocational training centres and work centres by the Government have since made up for the deficiency of skilled labour in the industry. The Five Year Plans have provided ample funds which the entrepreneurs have readily availed of, and among industries which developed during post-Partition years are sugar, wine and spirits, handloom textile, woollen yarn, agricultural implements, engineering foundries, cycle and sewing machine parts, conduit pipes, steel fabrications, rice husking, steel re-rolling, oil-seed crushing and rubber goods.

LARGE SCALE INDUSTRIES

Sugar.—The area around Panipat grows a large quantity of sugar-cane. Water-logging conditions favoured diversion of more and more acreage to this crop. The Panipat Co-operative Sugar Mills, Ltd. was established in 1957 with a capital investment of Rs 1,230,000. This is one of the three sugar factories set up in the State on co-operative basis. In 1961-62, it employed 850 workers during the season and produced 12,700 tons of sugar.

Wine and spirits.—The Distillery at Karnal was started in 1900 with a capital investment of Rs. 412,000. It manufactures methylated spirits and wines from molasses and employ some 90 persons. Its production in 1962-63 was worth Rs. 2.96 lakhs.

MEDIUM AND SMALL SCALE INDUSTRIES

Conduit pipes and industrial tubings.—Two factories at Panipat are engaged in manufacturing these items. Their total investment is about Rs. 3 lakhs. In 1962-63, they employed 250 persons and their production was worth Rs. 74 lakhs. In addition to these two big units, there are four or five other smaller units manufacturing only conduit pipes.

Steel Re-rolling.—One unit at Panipat re-rolls steel. Started in 1950 with a capital investment of Rs. 15 lakhs it gives employment to about 2 dozen persons and its production in 1962-63 was 1,105 tons.

Agricultural implements and engineering foundries.—A number of units at Samalkha, Karnal, Panipat and Kaithal manufacture agricultural implements on a small scale. The implements manufactured include harrow-ploughs and chaff-cutters. Small and simple implements, such as sickles, *khurpas, kassis*, are manufactured and mended by artisans in most villages.

The engineering foundries, located at Panipat, manufacture ventilation columns, sluice valves, drain covers, centrifugal pumps and pipe fittings, and cater to the demands of the Government Departments.

Cotton ginning and pressing.—It is said that the first cotton ginning unit in the District was established at Panipat in 1890. By the time of Partition, 18 ginning and pressing factories had come up in the District. The increasing water-logging conditions have in later years led to heavy reduction in the acreage under cotton. Consequently in 1963 there remained only four cotton ginning and pressing units located at Kaithal and Thanesar, employing about 260 persons.

Handloom blankets.—This industry owes a good deal to the Second World War, during which some 4,000 handlooms mostly at Panipat were engaged in the manufacture of blankets for defence services.

With the migration of the Muslim weavers to Pakistan on Partition, the industry was greatly dislocated but the gap so created was soon filled up by Hindu weavers who were encouraged to settle here from various parts of the country. In 1963 more than 1,000 units were engaged in handloom weaving and the items produced by them included furnishing fabrics, tapestry, *khes*, bed covers, bed sheets, *durries* and blanket cloth. These articles are very popular all over the country and have found market in foreign countries. In 1962-63, the industry gave employment to about 7,000 persons and produced articles worth Rs. 90 lakhs.

Woollen industry.—Woollen industry is one of the important industries of the District and is principally centred at Panipat. It has been greatly boosted by establishment there of Wool Development and Finishing Centre and a Wool Spinning and Weaving Centre. Dyeing and calendering of blankets were also taken in hand besides, production of yarn, blankets and carpets. The total production in 1962-63 was worth Rs. 135 lakhs giving employment to 700 persons.

Rice-husking.—Due to extensive and increasing paddy cultivation, rice husking has become an important industry, which is active for about four months following the harvest. During 1962-63, there were 31 shellers in the District; Karnal 9, Kurukshetra and Pehowa 6 each, Taraori 2, Kaithal and Gharaunda 5 each, and Pipli and Shahbad one each. Besides, 250 rice hullers worked in conjunction with flour *chakis* and *kohlus*. The industry provided employment to about 1,500 workers and the production of rice aggregated to Rs. 239 lakhs.

Saltpetre refining.—The waste land around Kaithal, Shahbad and Panipat develops saltpetre on the surface, and it is collected and refined. In 1962-63, the production of the industry was of the value of Rs. 12.7 lakhs.

COTTAGE INDUSTRIES

Leather tanning, shoe-making, ivory goods, *ban* and rope making, and *gur* making, are important cottage industries. Bag tanning on small scale or as a household industry is pursued extensively in many towns and villages,

there being more than one thousand units in the District giving employment to about 3,000 persons and producing leather worth about Rs. 30 lakhs in 1962-63.

Some 1,250 units with 2,500 workers produce shoes of the western style and *desi* type (*jutis*).

Ivory goods are made by a few hereditary artisans migrated from West Pakistan and among the articles produced are buttons , bangles, flowers vases, and scent bottles which find market in Delhi. *Ban* and rope making is done by hand or hand-driven machines, and in 1962-63, some 250 workers in the line made for a production worth more than a lakh of rupees.

Gur-making is a seasonal industry followed by some 700 workers working in some 250 important groups for wages. At a suitable place in bigger villages a cane-crusher and a boiling furance is installed. The farmers bring there sugar-cane from their fields which is pressed and the juice boiled to paste which is made into lumps (*gur*) or rubbed with hands to powder (*shakkar*). These workmen are paid according to the product turned out.

STATE AID TO INDUSTRIES

The State aid to industrial enterprises is given in various ways:

(i) *Financial assistance.*—The Industries Department provides financial assistance in the form of loans, subsidies and grants-in-aid under the State Aid to Industries Act, 1935.

It was estimated that in 1962-63, loans amounting to Rs. 131,000 and subsidies and grants-in aid amounting to Rs. 2,650 were advanced towards establishing and expanding the industry. Besides, the Government has established the Punjab Financial Corporation which gives financial assistance to large and medium scale industries. The State Bank of India also advances loans to small scale industries against the security of raw materials and finished goods.

(ii) *Supply of machinery on hire purchase basis.*—The National Small Scale Industries Corporation supplies machinery to small scale units on hire purchase basis on easy terms, on the recommendation of the State Government.

(iii) *Supply of raw materials.*—The supply of raw materials like iron and steel, steam coke, hard coke, copper, zinc and cement etc. is regulated among quota holders and deserving industrialists. Import licences for raw materials and equipment are given by the Union Government in deserving cases.

(iv) *Marketing assistance.*—Marketing facilities to cottage and small scale industries are provided by the various emporia established by the Government. The Government also organises industrial exhibitions from time to time.

(v) *Quality marketing.*—Quality Marketing Scheme has been introduced by Government with a view to creating taste among buyers for purchase of only the standard goods. The Quality Marketing Centre set up in Panipat in 1957 helps the textile units registered under the Scheme.

(vi) *Industrial training.*—The institutes at present imparting technical education and training in various crafts are :—

1. The Punjab Polytechnic, Nilokheri;
2. The Industrial Training Institute, Panipat;
3. The Industrial Training Institute, Karnal;
4. The Government Industrial School for Girls, Panipat;
5. The Government Industrial School for Boys, Panipat;
6. The Government Industrial School for Girls, Karnal;
7. The Ladies Industrial Home, Karnal;
8. The National Embroidery and Tailoring School, Taraori: and
9. The Mangat Rai Aggarwal Industrial School, Kaithal.

In addition, a number of peripatetic parties and training centres in various Blocks provide technical know-how to the rural artisans.

(vii) *Provision of plots and factory accommodation.*—The industrial area at Panipat and the Industrial Estate at Nilokheri have led to the advancement in the structure and composition of industries in the District during the last few years. Similar industrial estates are also coming up at Karnal and Kaithal, and rural industrial estates are proposed to be set up at Kohand, Patti Kaliana and Pipli. The demonstration parties and training centres are doing useful work in villages and it is proposed to set up 12 Model Industrial Villages in the District.

C—TRADE AND COMMERCE

For purposes of trade and commerce, the District has the advantage of location; its proximity to Delhi and the main railway line and the Grand Trunk Road passing through it. The new roads in its western portion have greatly facilitated the movement of goods. The District is surplus in agricultural produce, particularly rice, most of which is sent out. The products of light engineering industry, wool, and woollen cloth and handloom products are also exported. The bed covers, *khes* and furnishing fabrics of Panipat have acquired a good name and find market even in Europe and America. Among the chief articles brought into the District are salt, sugar, coal, gunny bags, kerosene oil, cloth, iron, machinery and timber.

There are eleven regulated markets in the District functioning under the Punjab Agricultural Produce Markets Act, 1939. Their chief transactions are indicated below.

Market	*Main transactions*
Karnal	Paddy
Gharaunda	Onion
Panipat	Onion and chillies
Samalkha	Chillies and *gur*
Madlauda	Gram, wheat and paddy
Kaithal	Gram, *jowar* and *bajra*
Pundri	Wheat, gram and *sarson*
Shahbad	Wheat and paddy
Thanesar	Wheat and gram
Ladwa	Wheat, *sarson* and Gram
Taraori	Paddy

At Jhansa, Islamabad, Radaur, Pehowa, Pipli, Nilokheri, Assaundh and Habri also agricultural produce is marketed in a small way.

D—COMMUNICATIONS

The District is fairly well served with railways and better still with roads and postal, telegraph and telephone facilities.

Railways.—The Ambala-Delhi railway line and the Grand Trunk Road parallel to one another, run for a distance of 73 miles in the District. The branch lines benefitting the District are those connecting Kurukshetra and Narwana, and Panipat and Jind. Panipat was also connected with Gohana and Rohtak through another line till 1942, since when the line between Panipat and Gohana was dismantled in the interest of economy.

Roads.—(Table 33)* The District has made good progress in the matter of construction of roads, the metalled roads particularly, during the first two Plans period, as the following figures show:—

Year	Road mileage		
	Total	Metalled	Unmetalled
1950-51	864	212	652
1955-56	880	238	642
1960-61	1,020	475	545

The three agencies maintaining the roads are the State Public Works Department, the Zila Parishad, and Municipal Committees. Among them the Public Works Department is the most important since it looks after the National Highways, the State Highways, and the District Major and Minor roads.

*Page 85.

81 miles of the Grand Trunk Road (National Highway No.1) lie within the District inclusive of the Karnal bye-pass of 5 miles. Samalkha, Panipat, Gharaunda, Karnal, Nilokheri, Pipli and Shahbad are important markets situated on it. It is linked with Amin and Taraori through link roads. Major bridges over it having a span of 300 feet or above are the Saraswati Nadi Bridge and the Markanda Bridge (Table 37).*

The State Highways passing through the District are the Panipat-Pilani road and the Saharanpur-Patiala road : 15 miles of the former and 39 miles of the latter lie within the District. The Major and Minor District roads maintained by the P.W.D. cover a total length of 384 miles out of which 94 miles are unmetalled. The roads maintained by the Zila Parishad are village roads 442 miles long. Most of them are unmetalled. The various Municipal Committees collectively maintain 58.75 miles of roads of which 39.75 miles are metalled and 18.97 unmetalled.

Road Transport.—Though motor vehicles are becoming increasingly popular, the bullock carts still hold the sway in the country-side both for conveyance and carriage of goods. Some of them are now fitted on pneumatic tyres in place of the traditional wooden wheels.

Bicycles are being extensively used in villages as much as in towns. A remarkable feature of the post-Independence period has been a rapid decline in tongas and *ekkas* driven by horses. This is primarily due to the emergence of the cycle-rickshaws, which are cheaper and more easier to maintain. Tongas and *ekkas*, however, still continue to be used in the country-side.

The increase in the use of motor vehicles is a marked feature of the post-Independence period. The number of vehicles registered in the District rose from 49 in 1952 to 241 in 1960. Noticeable increase was in the registration of cars, trucks, tractors, buses, motor-cycles and auto-rickshaws. Their respective figures were 10, 8, 6, 16 and 2 in 1950 and 25, 27, 78, 35, 16 and 24 in 1960. The total number of vehicles on roads in the District, as on 31st March, 1960, was 1,712 out of 33,795 in the entire State.

Post, Telegraph and Telephones (Table 34)*.—The District has a net work of post offices, telegraph offices and telephone connections. The number of post offices as on 31st March, 1961, was:

Kaithal Tahsil	78
Thanesar Tahsil	38
Karnal Tahsil	69
Panipat Tahsil	55
Total	**240**

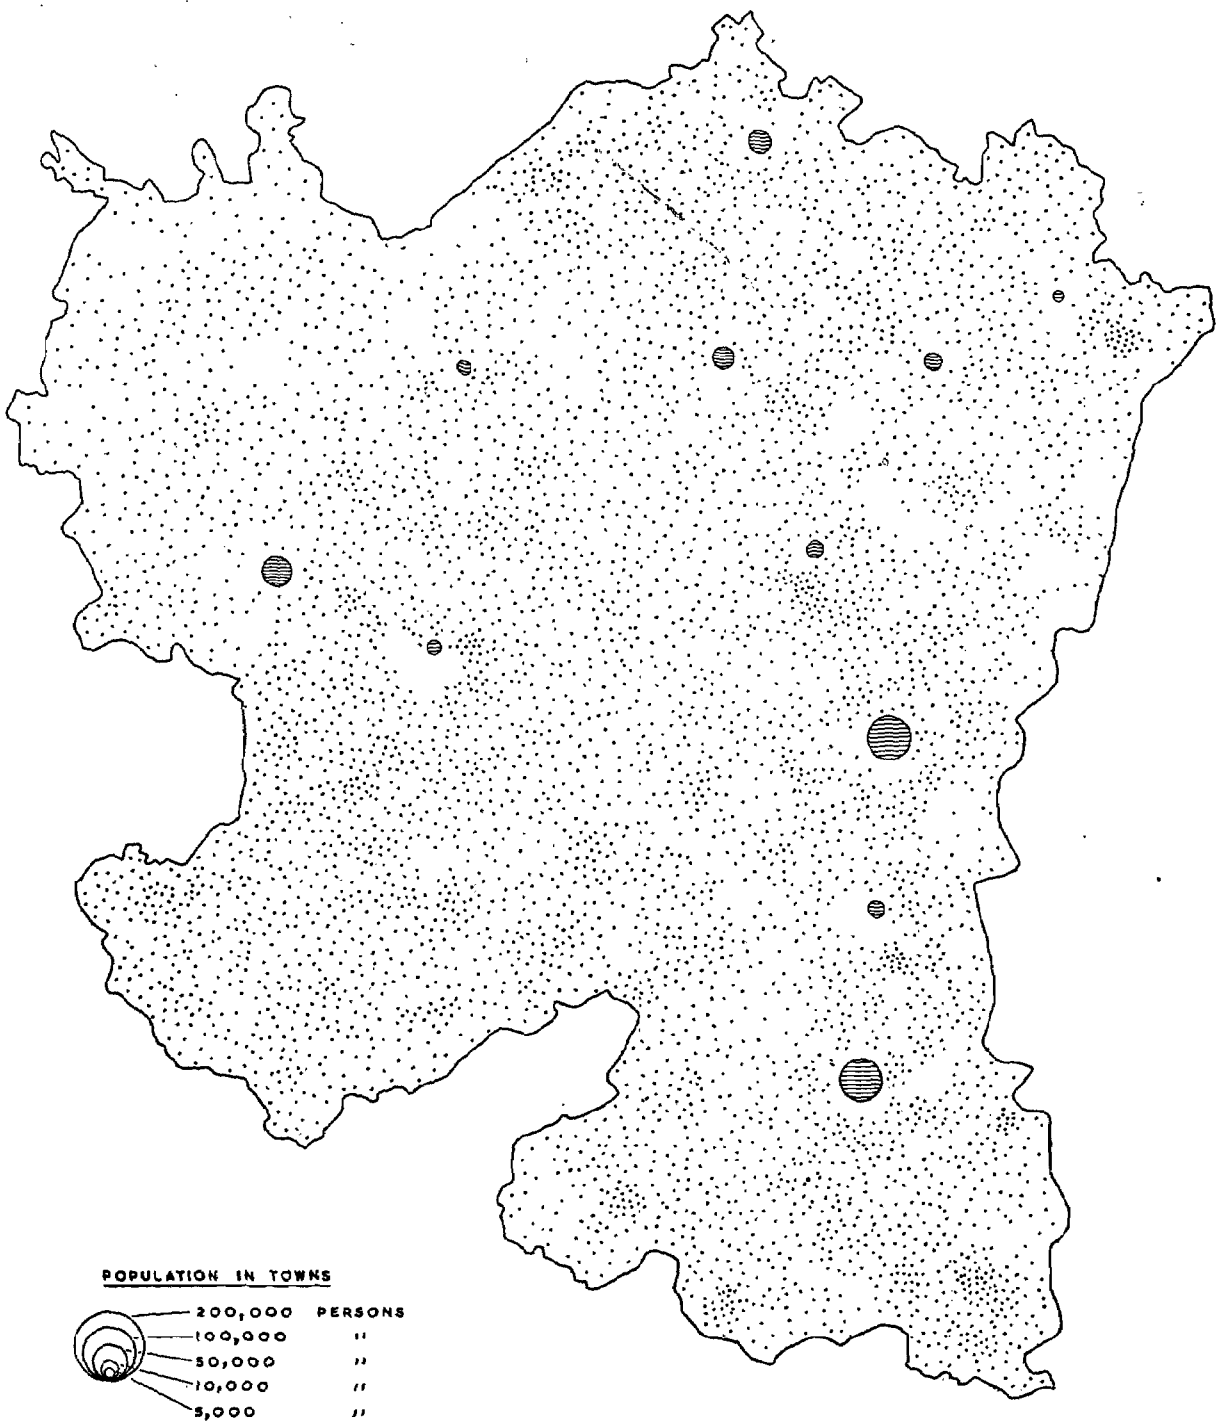

In 1963, 26 telegraph offices were working in different parts of the District. They were either key-fitted sub-offices or phone-cum-sub-offices, or phone-cum-extra sub-offices. In that year 9 telephone exchanges were working in the District at Gharaunda, Kaithal, Kurukshetra, Nilokheri, Panipat, Shahbad, Karnal, Samalkha and Ladwa.

CHAPTER III

POPULATION

Part III of this book contains Tables relating to the 1961-census. These Tables are preceded by an exhaustive note explaining their arrangement, and the terms used. Only the broad facts thrown up by these statistics are stated below.

On the sunrise of 1st March, 1961, Karnal District had 1,490, 430 persons. This gives the District 4th position among the Districts of Punjab where Ferozepur District occupies the Ist position (1,619,115) and Lahaul & Spiti District the last (20,453).

Growth of population (Table A-II)*.—The area now constituted as Karnal District had 870,823 persons in 1901. During the next sixty years (1901-61) the population increased by 71.1 per cent. The population of Punjab during the same period increased by 53.1 per cent. The higher increase in the District can be attributed to more and more area being brought under the plough, which has attracted cultivators from the other Districts and to the rapid growth of industries which the post -Independence period has brought about in the District.

The rates of decennial increase since 1901 are placed side by side for Karnal District and Punjab.

Decade	Karnal	Punjab
1901-11	(—)9.48	(—)9.96
1911-21	(+)3.52	(+)4.35
1921-31	(+)2.79	(+)9.64
1931-41	(+)16.71	(+)17.81
1941-51	(+)10.06	(+)0.21
1951-61	(+)38.34	(+)25.86

It will be noticed that from 1941 onwards rate of population growth was faster in the District than in the State as a whole only in the last two decades. The decade 1901-11 was marked by severe ravages of plague and malaria which took a heavy tool of population. During 1911-21 occurred the great influenza epidemic. The decade 1921-31 was generally healthy, but the Karnal population was almost static. The population expanded faster during 1931-41. The decade 1941-51 witnessed a mass migration in the wake of Partition. The Muslims from the District migrated to Pakistan and in their place non-Muslim immigrants came in, in larger number.

The years 1951-61 were free from disease and the health measures taken by the Government considerably reduced the death rate while the birth rate has gone up. The rapid extension in agriculture and industrialisation, particularly during the post-Partition period under the Five Year Plans have also contributed to this high rate of growth in population and should this rate persist, it would be a matter of great concern for the country at large.

Density of population.—Punjab has on an average 429 persons to a square mile with Jullundur District as the most thickly populated (914) and Lahaul & Spiti District as the sparsest (6). The number of persons per square mile in Karnal District works out to 485 and in this respect it ranks 12th among the 19 Districts of the State. The reasons for this low density is the sparse population in areas affected by floods and water-logging. The human density in the four Tahsils in 1951 and 1961 is shown below, which also bring out the big rise during the decade.

Tahsil	Density per square mile	
	1951	1961
Kaithal	279	411
Thanesar	332	487
Karnal	380	520
Panipat	488	610

*Page 163.

Villages.—There is a bigger gap in density of human population as between rural and urban areas in Karnal District and in the State as a whole. The mean density in Punjab is 429 persons per square mile: 346 in rural areas and 9,476 in urban areas. The corresponding figures for Karnal District are 485 : 404 and 12,159, respectively. As between the Tahsils, Kaithal has the lowest rural density (372) owing to less rainfall and poorer soil in the *Nardak* area, floods in the northern and north-eastern areas and less developed transport and industries. Corresponding figures for Thanesar, Karnal and Panipat Tahsils are 403, 416 and 468, respectively (Table A-I)*.

The District has in all 1,415 villages of which 65 are uninhabited (*be-charag*). Most of these uninhabited villages are in areas subject to river action : 24 in Karnal Tahsil, 16 in Thanesar Tahsil, 13 in Panipat Tahsil and 12 in Kaithal Tahsil. Perhaps for the same reason and floods the number of villages with population less than 200 is the maximum in Karnal Tahsil (64) and Thanesar Tahsil (61). The eastern region has been a scene of battles and war-fare till about the time the Britishers took over. This could never be conducive to the growth of big villages, and we find that out of the 18 villages in the District of which the population exceeds 5,000; 13 are situated in Kaithal Tahsil, 4 in Karnal Tahsil, 1 in Panipat Tahsil and none in Thanesar Tahsil. The same reason may account for the preponderance of villages of smaller population ranging between 200 to 999 in Thanesar Tahsil (307) and Karnal Tahsil (228).

The number of persons per inhabited village works out to 915 in the District as compared to 763 for the villages in Punjab as a whole. The average population per village in the Tahsils is : Panipat (1,279), Kaithal (1,192), Karnal (885) and Thanesar (538) Table A-III)†. The action of torrents appears to be a great limiting factor in the size of villages in Thanesar Tahsil.

Towns.—In Table A-IV‡ particulars are given of the 11 towns of the District. There is no Class I town (100,000 and above). Karnal and Panipat are Class II towns (50,000 to 99,999). Kaithal comes in the category of Class III towns (20,000 to 49,999). Due to great industrial activities the former two towns are expanding rapidly. Population of Karnal rose from 37,444 in 1941 to 72,109 in 1961, that of Panipat from 37,837 to 67,026, and of Kaithal from 22,325 to 34,890 during the same period. Shahbad, Thanesar and Gharaunda are Class IV towns (10,000 to 19,999) with their respective population in 1961 of 18,975, 16,828 and 10,496. The remaining towns, of Ladwa, Nilokheri, Pundri, Pehowa and Radaur belong to Class V towns (5,000 to 9,999). Nilokheri and Radaur were declared towns for the first time in 1951, and Pehowa in 1961. Nilokheri has a Notified Area Committee to administer its affairs, and others have Municipal Committees.

The towns in the District are generally more congested than many other towns of the State, the urban density of the District being 12,171 as against 9,476 for Punjab as a whole. Ladwa has the highest density of 33,036. Then come Gharaunda (29,159) and Shahbad (27,904). Thanesar is the least congested town with 2,805 persons per square mile.

In the District 82.8 per cent of the total population lives in villages and 17.2 per cent in towns, the corresponding figures for Punjab being 79.9 and 20.1.

Sex Ratio.—Out of a total population of 1,490,430 of the District, 804,769 are males and 685,661 are females, i.e. a ratio of 54 : 46.

The number of females per thousand males comes to 852 as against 864 for Punjab and 941 for Indian Union. This gives 12th position to the District among the Districts of Punjab, where Kangra comes on top with its figures of 987 and Lahaul & Spiti at the bottom with 776.

Sex ratio figures for different years are given below. They show a shift in favour of females. During 1951-61 there has, however, been a slight recession indicating male oriented inmigration into the District during this period.

	FEMALES PER THOUSAND MALES	
Year	Karnal District	Punjab
1911	828	807
1921	828	821
1931	815	830
1941	833	850
1951	858	858
1961	852	864

*Page 160.
†Page 164.
‡Page 165.

Age Composition.—In Table C-II* the 1961 population of the District is distributed according to age groups. With a view to comprehending the comparative strength of these groups, a Table is produced below in which totals have uniformly been taken as 1,000.

DISTRIBUTION OF 1,000 PERSONS OF EACH SEX BY AGE GROUPS

Age group	Total Population			Rural		Urban	
	Persons	Males	Females	Males	Females	Males	Females
1	2	3	4	5	6	7	8
All ages	1,000	1,000	1,000	1,000	1,000	1,000	1,000
0—9	331.36	322.33	341.94	328.24	349.01	293.54	308.16
10—14	124.43	125.23	123.49	125.74	123.32	122.77	124.27
15—19	85.37	88.27	81.97	85.92	80.35	99.71	89.73
20—24	76.87	73.08	81.32	71.40	79.96	81.28	87.83
25—29	76.73	73.00	81.10	73.00	81.65	73.02	78.48
30—34	61.46	59.29	64.01	58.89	63.82	61.23	64.90
35—39	49.47	48.40	50.72	47.69	50.08	51.85	53.78
40—44	48.65	49.16	48.06	48.80	47.96	50.95	48.53
45—49	36.43	38.30	34.23	37.88	33.31	40.38	38.62
50—54	36.55	40.12	32.37	39.82	31.67	41.56	35.73
55—59	17.63	20.16	14.67	19.91	14.06	21.34	17.56
60—64	24.87	27.59	21.68	27.40	21.28	28.53	23.57
65—69	9.84	11.72	7.63	11.79	7.44	11.37	8.56
70--	19.76	22.76	16.23	22.90	15.48	22.07	19.85
Age not stated	0.58	0.59	0.58	0.62	0.61	0.40	0.43

Very reliable conclusions cannot be drawn from the figures given in the above Table, since the District is a small geographical area and the inflow and outflow of population as a disturbing factor can not be ignored. With this reservation some inferences are mentioned below.

It will be noticed that the age pyramid has a broad base and tapers rather obliquely : 331 persons per thousand of the population are below the age of 10, and only 72 of age 55 years and above. Roughly speaking, four out of every ten persons are below the age of 15, five in the groups 15 years to below 55, and only one past the age of 55.

The females have a shorter span of life than males. Males below the age of 15 years are 448 per thousand males : the corresponding figure for females is 465. For ages between 15 and below 55 years, the males count 470 per thousand males and the females 474 per thousand females. In ages 55 years and above, the males are 82 and females 60.

It is a daily observation that a large number of persons shift from villages to towns for study and livelihood. The low paid among them leave their families in their village homes and live in the towns by themselves. When past the age of useful work some among them return to their villages. The effect of this type of movement is reflected in the statistics of rural and urban age composition. For age groups below 15, 15 to below 55, and 55 and above, the distribution among males is 454, 463 and 82 per thousand males in the rural area, and 416, 500 and 83 in the urban area. The corresponding figures for females in the rural area are 472, 469 and 58, and in the urban area 432, 498 and 70.

*Page 240.

In Table C-II* persons in different age groups are further classified according to marital status. To comprehend the significance of these figures one thousand males and one thousand females for the District as a whole and for rural and urban areas are distributed according to their marital status as below :

1,000 MALES AND FEMALES CLASSIFIED ACCORDING TO MARITAL STATUS

Marital Status	Total		Rural		Urban	
	Males	Females	Males	Females	Males	Females
Total	1,000	1,000	1,000	1,000	1,000	1,000
Never married	557.48	473.70	554.66	470.01	571.23	491.32
Married	397.14	461.04	399.06	467.76	387.79	428.93
Widowed	44.52	64.36	45.91	61.81	37.73	76.56
Divorced or separated	0.25	0.35	0.20	0.28	0.47	0.67
Unspecified status	0.61	0.55	0.17	0.14	2.78	2.52

It will be seen that in the District as a whole some 56 per cent of males and 47 per cent of females are unmarried. The higher number of the unmarried males is due to shortage of females, which aspect has been studied earlier. Correspondingly there is a higher proportion of the married among females than among males.

The proportion of both married males and females is higher in towns than in villages, which indicates that more females are available for marriage in villages than in the towns and that it is easier and cheaper both for males and females to marry in the villages than in the towns.

Marriage in this country is universal, and there is always an explanation for an old bachelor or spinster. In the following Table the unmarried males and females, are classified according to age, in terms of 1,000 males and females.

AGE COMPOSITION OF 1,000 NEVER MARRIED MALES AND FEMALES

Age group	Rural		Urban	
	Males	Females	Males	Females
All ages	1,000	1,000	1,000	1,000
0— 9	591.78	742.55	513.87	627.21
10—14	214.36	207.66	211.06	242.04
15—19	107.84	41.54	157.58	109.99
20—24	40.04	4.19	74.22	16.82
25—29	16.04	1.15	19.92	1.87
30—34	6.97	0.89	7.03	0.58
35—39	4.54	0.24	3.81	0.27
40—44	4.33	0.12	3.23	0.14
45—49	3.09	0.36	2.21	0.12
50—54	3.30	0.02	2.08	0.14
55—59	1.71	0.01	1.08	0.05
60—64	2.39	0.03	1.55	0.08
65—69	0.92	0.02	0.70	0.02

Age not stated	1.00	1.18	0.59	0.62

*Page 240.

It will be seen that there are only 22 never married males past the age of 34 years per thousand males in villages, and there are only 3 spinsters per thousand females who are past the age of 24 years in the rural areas. The corresponding figures for urban areas are 16 and 3, respectively.

Literacy.—Three Tables lablled as C-III* give information on literacy by age groups, sex, and in rural and urban areas of the District. The position is summarised below.

LITERATES PER THOUSAND POPULATION ABOVE THE AGE OF FIVE YEARS

Educational Level	KARNAL		PUNJAB	
	Males	Females	Males	Females
Total	1,000	1,000	1,000	1,000
Illiterate	692	882	611	831
Literate	308	118	389	169
Literate without educational level	128	59	167	85
Primary or Junior Basic	142	51	165	70
Matriculation and above	38	8	56	14

Roughly speaking one male out of the three and one female out of nine can at least read and write, the test adopted for literacy. A little over half this number had had schooling and only one male in 26 and one female in 125 had crossed the Matriculation level.

The ruralites have a considerable leeway to make up in order to come up to the stage reached by the urbanite. In the towns of Karnal District there are 634 per thousand males and 401 per thousand females who are literate but in the villages they are as few as 239 and 56, respectively. This feature is common throughout the State where the literacy per thousand is 654 for males and 432 for females in towns and 319 for males and 104 for females in the rural areas.

Mother tongue (Table C-V)†.—As many as 20 languages were recorded as mother tongues in the District. The Hindi predominated; the second place went to Punjabi and the third place to Urdu, as the following Table would show:

	Distribution of 1,000 persons by mother tongue
Hindi	863
Punjabi	133
Urdu	4
Other languages	N

Religion (Table C-VII)‡.—Distribution per thousand persons in the District, according to religions, is shown below.

	Number	Per thousand
Total population	1,490,430	1,000
Hindus	1,293,354	868
Sikhs	177,602	119
Muslims	14,159	10
Jains	3,207	2
Christians	2,094	1
Religion not stated	14	N

N=means negligible

*Pages 246 & 247.
†Page 248.
‡Page 250.

The Hindus form 87 per cent of the total population and the Sikhs 12 per cent. The former predominated in all the Tahsils of the District both in the rural and urban areas. The Muslims are the third largest community followed by Jains and Christians. At the time of 1941-census, the Muslims counted 304,346 forming 30.6 per cent of the population. In the wake of Partition they migrated *en bloc* to Pakistan and in their place 214,116 non-Muslims migrating from Pakistan were rehabilitated.

Pace of birth.—Table D-II* throws light on migration, based on place of birth. The Table deals only with immigration and does not take into account the persons who had gone out of the District. A three-fold classification has been made in this Table in regard to the place of birth : (i) of males and females, (ii) their place of enumeration being an urban or rural area, and (iii) their place of birth being an urban or rural area. To bring out the detailed features presented in the Table will take a big space and will interest few readers. Hence only broad features are mentioned below.

Of the total persons enumerated in the District 60.45 per cent were born at the place of enumeration. Among the rural population this percentage was 64.08 and in urban areas 42.92 only, denoting a higher degree of mobility in towns.

Another interesting feature is the difference between the two sexes in this respect. Among males as many as 72.39 per cent were born at the place of enumeration, as against 46.44 per cent in the case of females. The low figure for females springs from the extra factor of their leaving the ancestoral place on marriage.

Another 13.4 per cent of the population was born at another place within the District. This percentage is 6.03 in the case of males and as high as 22.18 in the case of females due to the factor of marriage. Persons born outside the District but within the State formed 8.65 per cent of the population. Even in this group the percentage for females (12.86) is higher than for males (5.06).

The Punjab-born persons formed 82.56 per cent of the District population. The remaining 17.44 per cent hailed from areas shown below.

Place of birth	Number	Percentage to total population
Other States of India	44,039	2.95
Pakistan	214,116	14.37
Other countries	360	0.02
Information not available	1,437	0.10

Among persons in the Districts who were born in other Indian States were from Uttar Pradesh (34,645), Delhi (3,577), Rajasthan (3,078) and Jammu & Kashmir (1,179). Persons from Uttar Pradesh and Rajasthan were counted mostly in rural areas but from Delhi and Jammu & Kashmir were counted mostly in the urban areas.

The persons stating to have been born in countries other than Pakistan are mostly the children of the Punjabis who in their youth went abroad and had now come back with their children or had despatched their children home.

Scheduled Castes.—The total population of the Scheduled Castes in the District was 266,517 forming 17.9 per cent of the total population. Among them 142,370 were males and 124,147 were females. 7.1 per cent of them lived in towns.

The more numerous among the Scheduled Caste persons are the Chamars (117,549), Balmikis (78,660), Bazigars (13,027), and Mazhabis (11,642).

Households (Tables B-X to B-XVII, C-I and SCT-V)†.—Out of 1,490,430 persons in the District, 1,799 were houseless such as members of wandering tribes, tramps, *sadhus*, and pavement dwellers. The remaining 1,488,631 lived in households. The term household was taken to mean a group of persons who commonly live together and take their meals from a common kitchen unless exigencies of work prevent any one of them from doing so.

*Page 252.
†Pages 216 to 238 and 282.

For studying the size and other characteristics of households, a 20 per cent sample was drawn and analysed. In this sample the persons living in institutions, such as jails, orphanages, hospitals, hostels, boarding houses, Defence and Police personnel living in barracks or under canvas, were excluded since such hosueholds do not function as economic entities. The sample thus drawn counted of 51,909 households consisting of 295,182 persons. The Tables relating to these households are B-X to B-XVII, C-I and SCT-V.

The average household in this District was found to consist of 5.7 persons. The households and persons are distributed below according to the size of the households.

DISTRIBUTION OF SAMPLE HOUSEHOLDS AND SAMPLE POPULATION ACCORDING TO SIZE OF HOUSEHOLD

Size of Household	Households		Persons	
	Number	Percentage to total	Number	Percentage to total
Total	51,909	100.0	295,182	100.0
1 member households	3,314	6.4	3,314	1.1
2-3 members	8,975	17.3	23,033	7.8
4-6 members	21,510	41.4	108,178	36.6
7-9 members	13,403	25.8	103,825	35.2
10 members and over	4,707	9.1	56,832	19.3

As many as 48.8 per cent of the households in villages were engaged in cultivation in the capacity of peasant proprietors and tenants, but excluding such households as had let out their lands in entirety or were dependent on agricultural labour. The households of peasant proprietors and tenants are distributed below according to the size of their operational holdings.

HOUSEHOLDS ENGAGED IN CULTIVATION ARRANGED ACCORDING TO SIZE OF OPERATIONAL HOLDINGS

Size of operational holding	Per thousand distribution of households	
	Karnal	Punjab
Less than 1 acre	3.13	23.16
1.0 to 2.4 acres	42.17	95.49
2.5 to 4.9 acres	91.73	125.25
5.0 to 7.4 acres	169.81	154.63
7.5 to 9.9 acres	121.87	101.63
10.0 to 12.4 acres	178.36	130.11
12.5 to 14.9 acres	71.81	60.25
15.0 to 29.9 acres	230.01	217.47
30.0 to 49.9 acres	60.82	64.09
50.0 +acres	24.45	22.86
Unspecified	5.84	5.06

The District is conspicuous for not having in large number households cultivating less than 5 acres.

Workers and Non-Workers.—In Table B-I* the population is distributed into broad industrial categories of workers and non-workers. The terms are explained in the note appearing before Census Tables (Part II of this book). Figures in terms of 1,000 population are given below.

DISTRIBUTION OF 1,000 PERSONS BY EACH INDUSTRIAL CATEGORY

Industrial Category	Karnal			Punjab		
	P	M	F	P	M	F
Total population	1,000	1,000	1,000	1,000	1,000	1,000
Non-Workers	658	470	879	650	471	858
Workers	342	530	121	350	529	142
As Cultivator	197	299	77	197	274	107
As Agricultural Labourer	33	55	8	27	44	6
In Mining, Quarrying, etc.	3	4	1	3	6	1
At Household Industry	28	41	14	27	39	13
In Manufacturing other than Household Industry	13	22	3	17	31	2
In Construction	5	9	..	7	12	1
In Trade & Commerce	19	34	..	19	35	..
In Transport, Storage and Communications	5	8	..	7	13	..
In Other Services	39	58	18	46	75	12

It will be noticed that in Karnal District for every 1,000 persons the number of workers is 342 and the remaining 658 are non-workers. The corresponding figures for Punjab are 350 and 650, respectively. This shows a smaller proportion of workers in the District as compared to the State. The percentage of male workers in the District (53.0) is almost at par with that in the State (52.9). But the percentage of the female workers (12.1) is smaller in the District than in the State (14.2); this smaller percentage is due to some sections of the people considering it derogatory to let their women-folk do work besides the routine household duties.

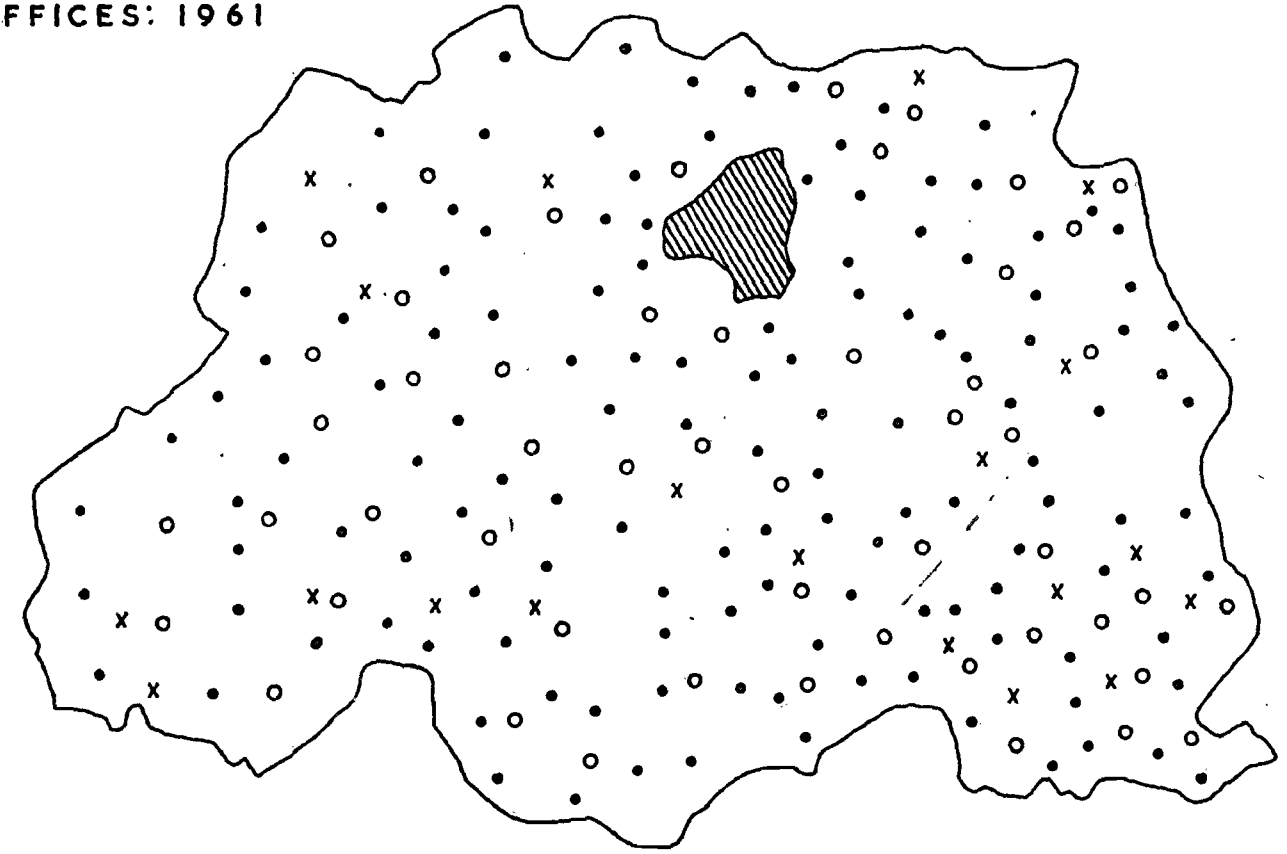

Agriculture (peasant proprietors, tenants and agricultural labourers) absorbs 230 persons per thousand in the District as against 224 in the State. The percentage of Agricultural Labourers is a little higher in the District (3.3) as compared to the State (2.7) due to comparatively large size of the holdings.

The proportion of population working in Industry (Household and other type) is smaller in the District (41 per thousand) than in Punjab (44 per thousand). Construction, Trade & Commerce, Transport and Other Services also absorb a fairly large proportion due to the developments taking place under the Five Year Plans and the opportunities of employment offered by them in various spheres.

CHAPTER IV

SOCIAL AND DEVELOPMENTAL ACTIVITIES

Education (Tables 17 to 19)*.—Karnal has now made up a good deal of leeway in the field of education Even then its present literacy of 18.3 per cent lags behind the State figures of 24.2. Since Independence many new schools have been opened and quite a few up-graded, and this pace has accelerated during the Plan period.

	Schools		Scholars	
	Boys	Girls	Boys	Girls
1950-51				
Primary Schools	293	N.A.	N.A.	N.A.
Middle Schools	26	N.A.	N.A.	N.A.
High Schools	24	N.A.	N.A.	N.A.
Total	**343**	...	..	..
1955-56				
Primary Schools	710	81	48,755	14,595
Middle Schools	57	10	6,009	2,462
High Schools	44	N.A.	N.A.	N.A.
Total	**811**	**91**	**54,764**	**17,057**
1960-61				
Primary Schools	673	188	43,452	14,759
Middle Schools	82	17	20,870	4,695
High Schools	57	16	24,324	9,041
Higher Secondary Schools	4	2	4,309	1,978
Total	**813**	**223**	**92,965**	**30,473**

Among males past the age of 5 years and below 15 years, 37.96 per cent attend schools and the corresponding figures for girls is 14.62.

The Scheduled Castes and the Backward Classes, particularly those inhabiting the rural areas, are still not enthusiastic about the education of their children. The introduction of compulsory primary education which is free has, however, a salutary effect and the various other inducements are breaking this inertia. Education is free for all classes up to the Middle Standard in all Government and Provincialised schools. Besides, reservation of seats, free books, free-ships, stipends and scholarships are being awarded to the students belonging to these Classes in all institutions including colleges.

Public Schools.—There are two Public Schools in the District : (i) The Sainik School, Kunjpura and (ii) St. Theresa's Convent, Karnal. The Sainik School was established by the Sainik School Society in 1961. It is a residential institution for boys and prepares them for admission to the National Defence Academy and the Indian School Certificate Examination conducted by the University of Cambridge, Local Examination Syndicate. The St. Theresa's Convent was opened in 1961 by the Sisters of the Little Flower and it prepares students for the Indian School Certificate Examination conducted by the University of Cambridge, Local Examination Syndicate.

*Pages 76 to 78.

Arts and Science Colleges (Table 19)*.—There was only one Arts and Science College in the District in 1951, namely, the Dyal Singh College which before Partition was establised in Lahore. In that year it had 445 boys and 43 girls on its rolls. By 1960, the number of colleges rose to 5 with 1,625 boys and 265 girls on their rolls. All these colleges were affiliated to the Punjab University.

The Kurukshetra University was established in 1956. Originally planned as a seat of Oriental learning and Asian thought and initially started with the Department of Sanskrit, it has now grown into a multi-faculty University, teaching various subjects in the faculties of arts and languages, science, social science, Indic studies and education. A distinctive feature of the University is its residential character. Every student joining it, unless specially exempted, is required to live in one of the halls of residence. The University College, the College of Education and the Government Sports College for women are the constituent colleges of the University. The last named college is an institution of its own kind in the State. It has two wings, Sports and Non-Sports. The Non-Sports wing works like an ordinary arts and science college. In the Sports wing girls are admitted on the basis of their qualification and attainment in sports and physical activities and besides regular studies, they are encouraged to attain better standards in sports and athletics by providing them free education, boarding and lodging facilities.

Professional and Technical Education.—The District is having the following facilities of education in field of engineering, technology, medicine and commerce :—

(i) *Punjab Polytechnic, Nilokheri.*—It is a combination of the Nilokheri Polytechnic, which was started by the Government of India in 1949 for training young persons displaced from West Pakistan in numerous vocational trades, and the Government School of Engineering, Chhachhrauli which was shifted to Nilokheri in 1951. It trains overseers in civil, mechanical and electrical trades, draftsmen, and tradesmen in various engineering trades.

(ii) *Dairying Science College, National Dairy Research Institute, Karnal.*—Started in Bangalore in 1923, the Institute was shifted to Karnal in 1955. It is the premier institution in India for teaching and research in the field of dairying, and conducts both diploma and post-graduate courses. The activities of the Institute are carried out through eight divisions, viz. Dairy Husbandry, Dairy Technology, Dairy Bacteriology, Dairy Chemistry, Dairy Engineering and Machinery, Dairy Extension, Nutrition and Dietetics. The Education Wing co-ordinates all the teaching activities sponsored by the Institute, including degree courses, post-graduate research work and various other short term courses.

(iii) *Medical Education.*—A research centre for the erradication of malaria is functioning at Karnal since 1900. There is also a Sanitary Inspector's Class being run here. A Nursing Training Centre is attached to the Civil Hospital, Karnal. The Vishvahatesia Ayurvedic Vidyalya, Shahbad, prepares, students for various courses of the All-India Ayurvedic Vidiya Peeth, Delhi.

(iv) *Commerce Education.*—The Arya College, Panipat started B.Com. classes in 1963. Besides, the Government Higher Secondary School, Karnal, and D.A.V. Higher Secondary School, Karnal, hold post-Matric Commerce and Clerical classes.

(v) *Teachers Training.*—The College of Education, Kurukshetra University, Kurukshetra, provides four years' course for training of teachers. Two years' J.B.T. course is provided in some 15 Government schools in the District.

(vi) *Community Development Training.*—There are three institutions in the line at Nilokheri : the Orientation and Study Centre, the Extension Education Institute, and the Khadi Gramudyog Vidyalya. They provide training to various categories of officials engaged in the community development work.

(vii) *Education of the Handicapped.*—The Government Institute for the Blind at Panipat caters for the education of the handicapped students in general education and different vocations like weaving, spinning. Similar training to the adult blind is provided by the Training Centre for Adult Blind, Panipat.

(viii) *Oriental Schools and Colleges.*—The Gurukuls at Kurukshetra and Gharaunda, and the Ayurvedic School at Shahbad are imparting instructions in oriental studies and Indian system of medicine.

Cinemas (Table 22)†.—The number of cinema houses in the District increased from 4 in 1951-52 to 8 in 1960-61 : three at Karnal, two each at Panipat and Kaithal, and one at Thanesar.

Besides providing entertainment to the public, such activities bring a handsome income to the State Exchequer, the proceeds from the Entertainment Tax amounted to a little over Rs. 103 thousands in 1951-52 and over Rs. 262 thousands in 1959-60 (Table 47)£.

---

*Page 78.
†Page 82.
£Page 98.

Libraries.—Some Municipal Committees run libraries. The Gandhi Memorial Library, at Karnal, and the Gandhi Memorial Library at Panipat, are worthy of note, as also the Geeta Bhavan Library at Thanesar. Some Gram Panchayats maintain libraries, which, however, suffer from dearth of books. Reading rooms are maintained by the Public Relations Department in nine villages. The Vigyan Mandir Nilokheri deserves to be specially mentioned. It consists of a Science Laboratory and a Science Museum. It also organises Science Clubs in schools and colleges, and disseminates of scientific knowledge through talks and discussions.

Newspapers and Journals.—Table 21* contains a list of newspapers and magazines published in the District. According to the subjects with which they deal their distribution is as follows :

1.	News and current affairs	7
2.	Literary and cultural	1
3.	School and College Magazines	4
4.	Children	1
5.	Religion and philosophy	1
6.	Commerce and Industry	1
7.	Health and medicine	1
8.	Miscellaneous	1
	Total	**17**

It is significant that, barring two, all of them were started after Independence.

Printing Presses.—Particulars of 14 printing presses in the District are given in Table 20.† Six of them are located in Karnal, three each in Kaithal and Panipat and two in Thanesar. Three of them are worked by human labour and the others run on electric power.

Radios (Table 23)‡.—Radio is gaining in popularity and there is hardly a village where one or more of them are not available, owned individually or by the panchayats. In 1961 the number of broadcasting receiving licences in the District was 3,806.

Fairs and festivals.—A number of fairs and festivals are held in the District and their descriptive list will be found as Table 52£. The District is dotted all over with places of pilgrimages. At some of these places fairs of all-India importance are held, such as the solar eclipse fair at Kurukshetra, the Phalgu fair at Pharal, and the Chait Chaudash fair at Pehowa. The first two fairs involve elaborate arrangements by Government. A dip in the tanks of Kurukshetra at the time of solar eclipse is considered to be a great merit and the occasion attracts lakhs of persons from all over India. A lakh of persons take a dip at the confluence of the sacred rivers Saraswati and Markanda at Pehowa on the Chait Chaudash. Similarly lakhs of people attend the fair named after the famous Phalgu sage at the village Pharal whenever a Somavati Amavas falls during the days of *Sharadhs* in Asoj (September-October), for performing *pinds* and *sharadh* rites for the benefit of the departed elders.

Social Welfare Activities.—A branch of the State Social Welfare Department is working in the District under the supervision of a full-time officer. It looks after the welfare and uplift of the Scheduled Castes and Backward Classes. It helps them in building houses with loans and grants. It also assists them in acquiring land for cultivation, and encourages them to take their due share in the educational and other spheres.

A number of non-official agencies are also working among the Scheduled Castes and Backward Classes for their welfare, such as the Depressed Classes League, the Harijan Sewak Sangh, Hind Sweepers Sewak Sangh, Backward Classes League, and the Harijan Welfare Section of the District Congress.

There are also other social service organisations working in the District which render assistance and guidance to the poor and the needy in their respective spheres. The Indian Red Cross Society has its Branch in the District. The All India Women's Organisation for Moral and Social Hygiene, which looks after the fallen and forsaken women and helps the administration in the checking of immoral traffic, also has a Branch in the District The Bharat Sewak Samaj is also functioning in the District since 1951.

*Page 81.
†Page 80.
‡Page 82.
£Page 102.

Political Activities.—The various political parties of the country have branches working in the District, and the people participate in elections enthusiastically as may be seen from the results of the last three general elections.

Political party	M.L.As elected from the District	M.Ps elected from the District	Total votes in the District	Votes polled (Assembly)	Percentage of votes polled to total votes
1952					
Congress	11	2	708,366	400,559	56.54
1957					
Congress	8	1	..	..	..
Scheduled Castes Federation	2	..	..	..	...
Independent	1	..	..	..	...
Total	**11**	**1**	**758,265**	**482,178**	**64.00**
1962					
Congress	8	1	..	..	...
Jan Sangh	1	1	..	..	...
Swatantra	1	..	..	..	...
Independent	1	..	..	..	..
Total	**11**	**2**	**787,124**	**551,626**	**70.00**

Elections are also held for the Municipal Committees, Zila Parishad, Panchayat Samitis and Village Panchayats and they are hotly contested, though often on caste considerations and personal popularity of the candidates.

Medical and Public Health (Tables 24 to 30).*—With the spread of education and facilities for scientific treatment, the methods of faith-cure and quackery are taken resort to by fewer people now. Homoeopathy is practised by a few practitioners in towns. The *Ayurvedic* and *Unani* systems are, however, liked by the people because of the simpler and familiar medicines prescribed. Government is giving better recognition to these systems, and the number of *Ayurvedic* dispensaries in the District increased from 2 in 1953-54 to 20 in 1960-61 (Table 25)†, each under the charge of a *Vaid* or *Hakim* working under the administrative control of the *Ayurvedic* Department.

In 1961 there were 47 hospitals and dispensaries in the District equipped with 451 beds, run by the State Government, Local Bodies and Private Bodies. Prior to 1964 the Civil Surgeon used to look after the dispensaries and hospitals in the District and the Medical Officer of Health confined himself to the public health work in the rural areas, control over public health units/centres, maternity and child welfare centres, and family planning centres. Since 1964 the Chief Medical Officer of the District is in charge of both medical services and public health services in the District. He is assisted by two Deputies, one controlling the medical wing, and the other the public health wing.

Specific diseases and their treatment.—During the two plan periods, both curative and preventive measures have been pursued vigorously, and consequently many diseases which previously took heavy toll of human life, have been brought under control. The measures taken to ward off some diseases are described below.

(i) *Cholera.*—The disease is associated with the mass gatherings such as those at the Solar Eclipse fair at Kurukshetra, Phalgu fair at Pharal and the fairs at Pehowa. Therefore, special public health measures are taken on such occasions. Tanks are chlorinated, anti-fly measures are taken and anti-cholera inoculation made compulsory for the pilgrims. Special Medical Inspection Posts are established to detect and prevent importation of diseased persons. If any case is reported, all-out efforts are made to contain the disease and prevent it from preading.

*Pages 82 & 83.
†Page 82.

(ii) *Smallpox.*—Smallpox cases continue to occur during certain seasons in a year and the disease appears in epidemic form once in a span of five to six years. It is towards the removal of this hard core that the National Smallpox Eradication Programme has been launched by the Government of India since 1962 . Under this programme the entire population of the District was vaccinated in 1962-63. In addition, the usual work of primary vaccination and re-vaccination is regularly carried on under the supervision of the District Vaccination Superintendent.

(iii) *Malaria.*—The District is interspersed with swamps and stagnant water which bred mosquitoes, and the District was one of the worst affected areas with malaria. A malaria unit was established in the District in 1953 under the National Malaria Control Programme. It switched over to the National Malaria Eradication Programme in 1958. The unit now carries on surveillance operations side by side with spraying operations. It covered 564 villages and towns with D.D.T. spray in 1954 involving 421,906 persons, spending Rs. 56,501. By 1960-61 the number of villages and towns covered had gone up to 1,001 involving 169,712 houses, 893,849 persons, and an expenditure of Rs. 240,010. It is estimated that these activities have brought the morbidity and mortality due to malaria almost to the base line. In 1953, 70,389 malaria cases were treated in the hospitals and dispensaries of the District. The corresponding number for 1961 was only 571.

(iv) *Tuberculosis.*—A regular T.B. Clinic with 18 beds was started in Karnal in 1954. Besides, arrangements for the treatment of the disease exist in the bigger hospitals of the District. The District also stands, covered by the mass B.C.G. Vaccination Programme.

General Sanitation.—Sanitation in towns is the function of Municipal Committees. In rural areas, which are now covered by the N.E.S. Blocks, the work is being looked after by the Block staff and Primary Health Centres.

Special attention is now being given to protected water supply and sewerage, both in the rural and urban areas. A separate P. W. D. Public Health Division has been set up to execute these schemes. Water supply schemes at Karnal, Kaithal, Thanesar, Shahbad and Nilokheri have either been completed or are well under way. Similarly the Drainage Schemes in Karnal, Kaithal, Panipat and Samalkha are in progress.

In rural areas, where the water supply has all along been through open wells,emphasis is being laid on the setting up of hand-pumps. The N.E.S. Block authorities provide grants and technical assistance. The open-wells in the villages are periodically, disinfected by the sanitation staff.

Medical facilities.—The number of hospitals and dispensaries in the District rose from 43 in 1950 to 47 in 1961 and of the beds from 431 in 1951 to 451 in 1961, and of the patients treated from 438,532 in 1951 to 691,608 in 1959. The total number of medical personnel including doctors, nurses, mid-wives, *dais*, orderlies, technicians, dispensers, and class IV employees was 300 in 1957 and 376 in 1958. The total income from various sources in hospitals and dispensaries was estimated at Rs. 385,976 in 1951 and Rs.840,863 in 1958. The expenditure on hospitals and dispensaries was Rs. 382,056 in 1951 and Rs. 840,636 in 1958. The expenditure on medicine was Rs. 51,928 in 1951 and Rs. 504,689 in 1958.

Karnal still continues to be among the poorly served Districts. The area covered per medical institution in 1960 works out to 64.1 square miles, placing it on the 13th position among Punjab Districts : the average area covered by a hospital in the Jullundur District is 26.3 square miles. Similarly the population served per medical institution in the District came out to 30,176 which gives it 15th position.

Crime (Table 44)*.—Some sections of the population particularly in rural areas are notorious for being impulsive and violent. Secondly, the consumption of liquor is common and heavy. As a result, the incidence of crime in the District is fairly high.

Table 44 shows the results of trials in the criminal courts. For studying the nature of crimes and their trend, the number of cases instituted in 1951 and 1961 were looked into in some detail. It was found that there was a decline in offences against person and property, except murder and kidnapping which registered an increase. There was an increase in the cases under the Excise Act and Arms Act. In 1951 the number of murders in the District was 29, it was 49 in 1961. Seven dacoities occured in 1951 but only one in 1961. The number of burglaries was 537 in 1951 and 307 in 1961. There were 51 robberies in 1951 but only 6 in 1961, and the number of theft cases declined from 782 in 1951 to 410 in 1961. Roiting and kidnapping accounted for 20 and 21 cases, respectively, in 1951; the corresponding figures for 1961 were 10 and 25. Under the Excise Act, the cases increased from 695 in 1951 to 837 in 1960. Illicit distillation is on the increase and the consumption of excise liquor also appears fairly high. The receipts from the Excise Duty were. Rs. 1,668.770 in 1950-51 and Rs. 1,145,172 in 1959-60; during the decade it was the highest in 1957-58 viz. Rs. 4,028,868 (Table 47)†.

*Page 97.
†Page 98.

DEVELOPMENT ACTIVITIES

The following account relates to the trinity of *Samoohik Vikas, Sehikari Samaj* and *Panchayati Raj*, i.e., Community Development, Co-operatives, and Panchayats.

Community Development (Table 40)*.—The administrative set up of the community development work in the District has already been given in chapter I. The District can take legitimate pride in its being the pioneer in the field of community development. The experience gained in the rehabilitation of refugees from West Pakistan in and around Kurukshetra, paved the way for community development work. The first project of Nilokheri was started in 1952 and by 1962 the whole rural area of the District had been covered by 15 blocks.

The object of Community Development is to improve the whole texture of the rural life by organising a self-generating process of change and growth. People's participation and contribution in it is of prime importance. It is , however, not easy to assess this contribution because mostly it takes the shape of mannual labour which is difficult to evaluate. However, it cannot be gainsaid that the Community Development programme has on the whole met with popular support and is gradually changing the face of the villages. The achievement of these Blocks cannot be set out in exact terms, but a broad outline of their activities is given below.

The cultivators are supplied with improved seeds, improved implements and fruit plants. New strains of crops giving better yield and resistance to diseases and pests, are developed at the research centres. Improved seeds are multiplied on the various seed-multiplication farms and then distributed through the agency of co-operatives. Green-manure, seeds, and fertilizers are supplied to the cultivators on subsidy basis. The farmers are encouraged to dig compost pits. The Community Development authorities also help the farmers in reclaiming land and lay out of model farms. Financial assistance is given for constructing percolation wells, and installing pumping sets and tube-wells. Cow and buffalo bulls of good breed are supplied to the villagers. Artificial Insemination centres have been set up.

Health and sanitation activities go for hospitals, primary health centres, rural dispensaries, child welfare and maternity centres, construction of drains, dry latrines and smokeless *chulhas*, pavement of streets, hand pumps, and wells for drinking water.

Educational activities cover starting of new schools, up-grading of old schools, conversion of schools into basic type, and construction and repairing of school buildings. In adult literacy centres, men and women are encouraged to learn the three Rs. Libraries and reading rooms are started and the young villagers are encouraged to organise themselves into youth clubs. *Mahila Samitis* are organised for the welfare of women-folk. Children parks and Balwadis (nurseries) are started for the benefit of children. *Panchayatghar* and Community Centres, and Community listening radio sets, are provided for the benefit of the people.

People are encouraged to construct *kacha* roads, to repair old ones and to convert the *kacha* roads into *pacca* ones, and to construct culverts on roads wherever needed.

The villagers are encouraged to organise themselves into Credit Societies, Industrial Societies, Farming Societies, and Service Societies of various kinds, and to actively participate in the activities of these societies.

Village and small scale industries are encouraged by setting up Demonstration-cum-training centres at which the villagers are trained in various arts and crafts. The Community Development authorities have also tried to set up model villages to serve as examples for other villages.

CO-OPERATION†

The first co-operative society was registered in the District in 1910. It was the Co-operative Thrift and Credit Society at Siwan. The movement made steady progress from 1910 to 1946. Partition, however, gave it a rude shock. The apex institutions like the Provincial Co-operative Bank and the Punjab Co-operative Union were left behind in West Pakistan. Deposits accumulated in long years were lost overnight. The mass migration of Muslim members depleted the ranks of societies and the loans advanced to them became bad debts. With courage, patience and hard work the movement, however, recovered from that rude shock within

*Page 91.
†Pages 74 & 75.

a few years, and dashed for still better achievements as is indicated by the following figures :—

Societies	1950-51		1959-60	
	Number	Membership	Number	Membership
Primary Societies	535	19,623	1,757	81,454
Banks and Banking Unions	1	271	1	1,437
Agricultural Credit Societies	192	5,167	987	48,077
Agricultural non-Credit Societies	145	7,520	216	17,715
Non-Agricultural Credit Societies	29	745	131	3,101
Non-Credit Societies	314@	13,711@	643	31,031

Central Co-operative Banks finance the societies affiliated to them. There was only one such bank in the District in 1950-51 with a membership of 271 and working capital of 1,864 thousand rupees. It advanced 1,564 thousand rupees as loans in that year. In 1959-60, the membership of the bank swelled to 1,437 and its working capital to 8,819 thousand rupees; its loans to the appiliated societies amounted to 7,024 thousand rupees.

There were 192 Co-operative Credit Societies in 1950-51 with a membership of 5,167 and working capital of 509 thousand rupees, and issued loans amounting to 449 thousand rupees. By 1959-60, their number went up to 987 with a membership of 48,077 and working capital of 8,074 thousand rupees; in that year they advanced loans to the tune of 5,049 thousand rupees.

The policy now is to convert credit societies into service societies whose object, besides advancing credit, is to undertake distribution of production requirements like fertilizers, improved seeds, improved agricultural implements. They would market produce of their members through a Marketing Society and would also maintain agricultural machinery for the common use of the members.

In 1950-51, the number of the Agricultural Non-Credit Societies was 145. Their membership was 7,520 and working capital 263 thousand rupees. They issued loans amounting to 5 thousand rupees. By 1959-60, their number was 216, membership 17,715 and working capital 22,942 thousand rupees. The loans issued by them amounted to 1,990 thousand rupees.

The Non-Agricultural Credit Societies provide finances to artisans, traders, salary earners and persons in low income group in the urban areas. In 1950-51, when their number was 29, the membership was limited to 745 and the working capital to 103 thousand rupees. They issued loans amounting to 109 thousand rupees. In 1959-60, their number went up to 131, with a membership of 3,101 and working capital of 604 thousand rupees. They issued loans to the tune of 186 thousand rupees.

The District has taken appreciable strides in the direction of co-operative marketing of agricultural produce. Marketing co-operatives of primary producers are being organised in all important markets. In 1950-51, there was no such society in the District, but by 1959-60 their number had gone up to 10 with a membership of 1,768. Besides functioning as commission agents in the markets for marketing of produce of the area, these societies also purchase wheat and other commodities for the Government whenever required. Some of these societies have built godowns and cold stores.

The District is becoming an important milk supplying area and by 1959-60, 16 Milk Supply Societies with a membership of 222 had been organised.

Irrigation Societies encourage installation of tube-wells and pumping sets on co-operative basis. No such society existed in 1950-51, but in 1959-60 there were 15 of them with a membership of 163.

Small scale and cottage industries are encouraged to organise themselves on co-operative basis. The industries covered so far are leather tanning, shoe-making, handloom weaving, cycle parts and sewing machines. There were 18 weavers, societies with a membership of 772 in 1954-55. The number went up to 63 with a member-

@Information for some of the societies is not available for 1950-51, *vide* Table 16 on page 75.

ship of 994 by 1959-60. Two important co-operative societies in the District are those relating to sugar factories. Other industrial societies are also being organised and in 1959-60 there were 139 of them with a membership of 2,005.

Farming Societies are also finding favour in the District. Their number rose from 38 in 1950-51 to 110 in 1959-60 and their membership from 1,224 to 2,029 during this period.

Panchayati Raj (Table 38)*.—Waves after waves of foreign invaders like Greeks, Huns, Afghans, Mongols made depredations into this country but failed to leave behind any permanent impression on the Indian way of life and culture. On the other hand, with the passage of time their influences got sub-merged into the vast ocean of Indian culture of which our village *panchayats* were the biggest repositories.

The British regime, however, did a great harm to this country by substituting them with a centralised bureaucratic system of administration. If India was to regain her lost glory, it was strongly felt that the *panchayats* must be revived. Mahatama Gandhi drew pointed attention to this basic necessity. He wrote "India's Independence must begin at the bottom. Thus every village will be republic or a *Panchayats* having full powers. In this structure composed of innumerable villages, there will be ever-widening,never-ascending circles. Life will not be a pyramid with the apex sustained by the bottom. But it will be an oceanic circles, whose centre will be the individual always ready to perish for the village". Other leaders shared this view and accordingly the organisation of village *panchayats* was made one of the directive principles of the State policy in the Constitution of India.

The Punjab Gram Panchayat Act, 1952, as amended up -to-date and the Punjab Panchayat Samitis and Zila Parishad Act of 1961 form the corner stones of the *Panchayats Raj* in the State. The structure consists of three tiers: a *Panchayat* at the village level, a *Panchayat Samiti* at the Block level and a *Zila Parishad* at the District level . All these three institutions are organically linked with each other by means of indirect elections. They are one superior to the other but do not constitute heirarchy where one is subordinate to the other. They have clearly defined spheres of activities and have independent and distinct sources of revenue. This enables them to function without losing their initiative and self-reliance.

Gram Panchayats.—The village *ponchayat* has an average strength of 5 to 9 members including a Sarpanch, elected by adult franchise. There is adequate representation for women and for members of the Scheduled Castes. In case no woman is elected as *Panch*, one is co-opted as additional *Panch*. The election to the *panchayat* is held by secret ballot and its term is three years. The first general elections for *Gram Panchayats* were held in 1953, and the second in 1961.

In 1951-52, the number of village *panchayats* with very restricted functions under the Punjab Village Panchayat Act of 1939 in the District was 624 with a total membership of 2,496. In 1953-54, the number of the panchayats rose to 719 with a membership of 3,985. In 1960-61, the number stood at 861 with a membership of 3,399.

The *Panchayats* are expected to provide cheap and ready justice. On the criminal side, they have been given powers to try minor offences like petty thefts, hurt, affray, and commission of public nuisance. They are under the control of the District Magistrate, who can hear appeals from their orders, and transfer cases from one *Panchayat* to another . On the civil and revenue side, the Panchayats have been given powers to try civil and revenue judicial cases within certain pecuniary limits, and in respect of these cases they are under the control of the District Judge and the Collector, respectively.

Most of the villages are faction-ridden. The system of elections appears to have added to this factional spirit and frequently the *Panchayat* proceedings are marred by group rivalries. These are perhaps the pangs of birth, and with the spread of education, proper guidance and maturity of public opinion, it is hoped the things will improve.

In 1951-52, 1,304 civil and revenue cases were instituted with the *Panchayats*, against which 1,179 were decided, including 650 compromised. The number went on increasing till in 1954-55 the peak was reached with 2,841 cases instituted, 2,968 decided including 1,396 compromised. Subsequently their was a decline so that by 1959-60, 1,043 cases were instituted, and 1,047 decided including 414 compromised cases. Similar was the position in regard to the criminal cases. In 1951-52, 1,591 cases were instituted, 1,748 decided including 1,224 compromised. The peak number was reached in 1954-55 when the number of the instituted cases went up to 2,023 against which 2,217 were decided including 543 compromised. In 1959-60, the number of the instituted cases was 479 only and the number of the decided cases was 593 including 345 compromised.

The figures quoted above call for two observations. First, there has been a substantial reduction in the number of cases coming before the *panchayats*. This reduction has been attributed to the villagers having preference for regular courts to adjudicate their disputes, perhaps because there they expect more impartiality. Second, a majority of cases coming to the *panchayats* are compromised. This is a pleasant feature, making for harmony among the village community.

*Page 89.

Besides, the *Panchayats* look to the requirements of their respective areas in regard to agriculture, education, animal husbandry, public health and sanitation including water-supply, works of public utility, games and sports, industries, medical health and relief to the poor. They are expected to arrange 50 per cent of the cost of local development works sponsored by the Development Department either in cash, kind or labour. With the help of the departments concerned, they have been responsible for starting primary schools, provision of drinking water, libraries, provision of community listening sets, construction and repairing of *Panchayat-ghars*, building of dispensaries, planting of trees, arranging play-grounds and children parks, construction of village approach roads, repairing and levelling of public paths, construction of drains, construction of culverts and pavement of streets, construction, repair and remodelling of wells for drinking water, and remodelling and repairing of ponds.

The village common lands now vest in the *Panchayats*. They receive a percentage of land revenue collection in the villages under their charge, and grants from Government and sometimes from local bodies. They levy House Tax and Professions Tax, and raise voluntary contributions. The fees and penalties they impose are also transferred to their funds. In 1960-61, the total income of the *Panchayats* in the District was Rs. 2,047 thousand and their total expenditure on education and libraries, public works, public health, agriculture and veterinary services, administration and other miscellaneous items amounted to Rs. 1,513 thousand (Table 38)*.

Panchayat Samities.—There is a *Panchayats Samiti* for each Block. It consists of (i) 16 members, elected by the *panches* and *sarpanches*; (ii) two members elected by the co-operative societies ; and (iii) one member elected by the Market Committees. Besides, every M.L.A. with his constituency in the Block and such members of the Punjab Legislative Council as the Government may specify, work on the *Samiti* as associate members. Two women interested in social work and four persons belonging to the Scheduled Castes, if not elected otherwise, work as co-opted members. The S.D.O. (Civil) and the Block Development and Panchayat Officer of the Block, wor kas *ex-officio* members. The associated and *ex-officio* members do not have the right to vote. The Chairman and the Vice-Chairman are elected from among the elected members for a term of three years.

The *Panchayat Samitis* provide and make arrangements for carrying out the requirements of the area under its jurisdiction, in respect of agriculture, animal husbandry and fisheries, health and rural sanitation, communication, social education, co-operation, and such other miscellaneous duties as development of cottage and small scale industries and other local development works. The *Samiti* is also the agent of the Government for the formulation and execution of Community Development programme.

The sources of income with the *Samiti* would be the local rate as charged by the defunct District Board, fees derived from public institutions like schools and markets, fees from fairs and shows, rents and profits accruing from properties vested in it, and such moneys and grants which the Government may place at its disposal. The *Samiti* can, with the permission of the *Zila Parishad* impose any tax which the State Legislature has power to impose under the Constitution.

Zila Parishad.—The *Zila Parishad* consists of the Chairman of every *Panchayat Samiti*, two members elected by each *Panchayat Samiti*, every M.P., M.L.A., M.L.C., representing the District or any part thereof, and the Deputy Commissioner. Two women and five members belonging to the Scheduled Castes, if not elected otherwise, are co-opted as members. The M.Ps., M.L.As., M.L.Cs., and the Deputy Commissioner do not have the right to vote. The *Parishad* has a Chairman and a Vice-Chairman, elected by the elected members for three years.

The *Parishad* consolidates and co-ordinates the plans prepared by the *Panchayat Samitis*, examines and approves the budgets of the *Panchayat Samitis* and advises the Government in regard to the *Panchayats* and *Panchayat Samitis* and keeps a watch over agricultural and production programmes and construction works.

The income of the *Parishad* accrues from the Central or State Government fund allotted to it, grants from all-India bodies and institutions for the development of cottage, village and smallscale industries, share of the land cess, State tax or fees, income from endowments and such contributions as the *Zila Parishad* may levy on the *Panchayat Samitis*.

EXPLANATORY NOTE

The scope of the district Census Handbook has been enlarged this time, so as to include statistics on a varity of subjects listed below. The material was collected from the concerned departments and the co-operation from them is acknowledged in the form of a footnote under each Table.

There are in all 53 Tables in this Part grouped under the following heads:—

Rainfall and Temperature	Tables 1 and 2
Agriculture	Tables 3 to 10
Livestock and implements	Tables 11 and 12
Industry	Tables 13 and 14
Co-operation	Tables 15 and 16
Education	Tables 17 to 19
Printing and Publishing	Tables 20 and 21
Entertainments	Tables 22 and 23
Medical and Health	Tables 24 to 30
Births and Deaths	Tables 31 and 32
Transport and Communications	Tables 33 to 37
Local Administration	Tables 38 to 40
Banks, Insurance and Savings	Tables 41 to 43
Justice and Administration	Tables 44 to 50
Miscellaneous	Tables 51 and 52
Fairs and Festivals	Table 53

RAIN FALL AND TEMPERATURE

Table I gives information regarding mean maximum, mean minimum, highest maximum and lowest minimum temperatures, mean relative humidity, mean wind speed, number of days of dust storm, thunder and hail storms, recorded at one or more stations in the District for each month for the years 1951 to 1960.

Table 2 presents monthly and annual rainfall and the number of rainy days, separately during ten years ending 1960, for the various stations in the District. In the last column has been shown the average rainfall in each month during the years 1951 to 1960. These figures are very interesting, since they bring out the seasonal distribution of rains.

The rainfall figures have been given in inches, but the annual figures have been shown also in centimeters. Rainfall records are maintained at various important stations in the District.

AGRICULTURE

Table 3 shows the utilisation of land in the District for the period 1901-1961. Information has been worked out for the quinquenniums centring around the Census years 1901, 1911, 1921, 1931, 1941, 1951 and 1961. In this case the year is the agricultural year, ending with the 30th June.

The classification of area has been made according to the following scheme:—

(i) *Geographical area* represents the total land area as worked out from the Surveyor General and Village Papers. The changes in the area may be due to territorial adjustments, or remeasurement of land.

(ii) *Forests* include all area actually under forests, whether State owned or private, and administered as forests.

(iii) *Land not available for cultivation* comprises land put to non-agricultural uses, barren and uncultivable land like mountains, river and canal beds , roads and railway lines, buildings, etc.

(iv) *Other uncultivable land* includes (a) culturable wastes and other fallow; (b) permanent pastures and other grazing lands; and (c) land under miscellaneous tree crops and groves, not included under net area sown.

Categery (a) comprises land which can be brought under cultivation but which has not yet been cultivated or has remained uncultivated successively for more than four years. Category (b) includes all such lands which are used permanently for grazing or collection of grass. Category (c) includes lands bearing fruit orchards and other plantations.

(v) *Fallow land* is of two types : First lands which have remained out of cultivation for a period not less than one year but not more than 4 years, second lands which are left fallow up to one year only (current fallows).

(vi) *Net area sown* is the area on which sowing is actually done during the course of a year.

(vii) *Area sown more than once* is that portion of the net sown area which was sown more than once in a year.

(viii) *Total cropped area* is the gross area under all crops in a year, and is the total of net area sown and area sown more than once.

The sources of information for this Table are the Indian Agricultural Statistics (Volume 1 and 11) and the Annual Season and Crop Reports published by the Director of Land Records, Punjab.

Table 4 shows assessment circle-wise classification of land in the District for 1960-61: total area according to Village Papers; area under forests; area not available for cultivation; area available for cultivation; and cultivated area according to means of irrigation. No publication has so far given such a useful and comprehensive data. It is for the first time that such information was collected.

Table 5 presents net area irrigated from (1) Government canals, (2) private canals, (3) tanks, (4)tube-wells, (5) other wells and 'other sources'. The information is presented for the same quinquenniums as selected for Table 3.

Table 6 presents gross area irrigated under various food and non-food crops in the District, for selected quinquenniums during 1901-61.

Table 7 shows area under principal crops in the District for selected quinquenniums during 1901-61. The principal crops have been classified into three categories : (I) Basic food crops, (II) Other food crops and (III) Non-food crops.

Table 8 presents the average yield per acre of principal crops in the District : rice, wheat, *jowar, bajra,* maize, barley, gram, potatoes, sugar-cane, chillies, sesamum, rape, mustard and cotton. Information is given for 12 years ending 1960-61, and the yield figures are in terms of lbs., per acre.

Table 9 presents wages for man, woman and child separately for skilled and unskilled workers in selected agricultural occupations in the District during 1951, 1956 and 1960. Wages are in terms of rupees per normal working day of 8 hours and have been given for each month separately. The information relates to only one village.

Table 10 presents arrival of various agricultural commodities for sale in different regulated markets in the District during the year ending 30th June, 1961.

LIVESTOCK AND IMPLEMENTS

Table 11 presents figures for livestock and poultry for the District for the years 1920, 1923, 1935, 1940, 1945, 1951, 1956 and 1961. Poultry includes hens, cocks, chickens, ducks, drakes and ducklets.

Table 12 provides information on agricultural implements and machinery for the District for 1951, 1956 and 1961 and each Tahsil for 1961. The information is collected alongwith quinquennial livestock census, conducted by the Director of Land Records, Punjab.

INDUSTRY

Table 13 relates to the working of registered factories during the years 1951, 1956 and 1960.

Table 14 gives particulars about registered factories in Punjab as on 31st December, 1961. It also gives detailed information regarding the number of workers and nature of work.

CO-OPERATION

Table 15 presents information on various types of co-operative societies in the District. Particulars are given of the number of societies, their membership, working capital and loans issued. Tne figures relate to the years 1950-51 to 1959-60.

Table 16 gives the number and membership of various types of non-credit co-operative societies in the District during 1950-51 to 1959-60.

EDUCATION

Table 17 presents the progress of school education in the District during the year 1951-52 to 1960-61. Information has been given separately for Primary, Middle, High and Higher Secondary schools. Part (a) of the Table shows the number of schools and Part (b) the number of scholars for boys and girls schools.

Table 18 presents for each industrial school in the District scholars studying during the years 1951 to 1960.

Table 19 gives the number of Arts and Science and Professional colleges in the District during the years 1951 to 1960.

PRINTING AND PUBLISHING

Table 20 relates to printing Presses in the District working in 1960 : the year of declaration, the language in which the matter can be printed, the number of printing machines and the power of propulsion.

Table 21 lists the news-papers, magazines and periodicals published in the District during 1961 : the place of publication, the year of establishment, the language, the number of copies printed, retail selling price, and its main interest. The publications have been arranged according to the frequency of their circulation.

ENTERTAINMENTS

Table 22 shows the number of Cinema Houses in the District during the year 1951-52 to 19 59-60.

Table 23 shows the number of Broadcast Receiving Licenses issued in the District during the calendar years 1959, 1960 and 1961.

MEDICAL AND PUBLIC HEALTH

Table 24 shows the number of hospitals and dispensaries in the District as on 1st January, 1961, and the number of beds for each type of hospital and dispensary.

Table 25 shows the number of hospitals and dispensaries providing Ayurvedic treatment in the Disttict during the years 1951 to 1961 and the number of *Vaids* and *Hakims* working there.

Table 26 shows the cases treated and expenditure incurred by each maternity and child welfare centre in the District during the calendar year 1960.

Table 27 presents the work done and expenses incurred by the Malaria Control Unit from 1953 to 1961 in the District.

Table 28 informs about the number of persons sterilized and other steps undertaken by the Family Planning Centres in the District during 1960-61.

Table 29 shows the location of the Primary Health Units and Centres and Rural Health Centres as on 1st October, 1961.

Table 30 shows prosecutions under Pure Food Act in the District during 1960.

VITAL STATISTICS

Table 31 shows the number of births, deaths sex-wise as recorded in the District during the years 1951 to 1960.

Table 32 gives the number of deaths classified according to different causes and of infant mortality for the years 1951 to 1960.

TRANSPORT AND COMMUNICATIONS

Table 33 gives road mileage in the District as on the 31st March, 1961. Information is categorised according to the roads maintained by Public Works Department and *Zila Parishad* and by the Municipal Committees; according to National Highways, State Highways, Major District Roads, Minor District Roads and Village Roads; and according to metalled and unmetalled roads.

Post Offices.—Table 34 gives a list of Post offices of different grades in the District as on 31st March, 1961.

Railway Stations.—Table 35 is a list of railway stations located in the District.

Table 36 is a polymetrical Table showing distances between different places in the District.

Bridges.—Table 37 gives information about major bridges in the District.

LOCAL ADMINISTRATION

Table 38 shows the working of *panchayats* in the District during 1960-61 : number of *panchayats*, their number, beneficial and judicial activities, and income and expenditure.

Table 39 deals with Local Bodies in the District as on 31st March, 1961. It gives information for each Local Body, its class and area served, year in which constituted, population, the number of members and income and expenditure during 1960-61.

Community Development.—Table 40 shows the community development activities in the District as on 31st March, 1961 : for each Block, its stage, area, number of villages and population covered, Government expenditure and people's paticipation in terms of money in the First and Second Five Year Plans and achievements in different spheres.

BANKS, INSURANCE AND SAVINGS

Table 41 shows the various banks operating in different towns of the District as on the 31st March, 1961.

Table 42 shows the number of new insurance policies issued and sum assured annually in the District from 1957 to 1960.

Table 43 gives a detailed account of various small saving schemes launched and progress achieved in the District during 1957-58 to 1960-61.

JUSTICE AND ADMINISTRATION

Table 44 gives information regarding criminal justice, cases tried and persons convicted in the District annually from 1951 to 1960.

Table 45 shows the sanctioned strength of Police and the number of Police Stations in the District as on 31st December, 1960.

Table 46 gives information about jails and their inmates classified according to the periods of sentence in the District as on the 31st December, 1960.

Table 47 shows the receipts from State Excise duties, Sales Tax, Entertainment Tax and Motor Spirit Tax in the District annually from 1950-51 to 1959-60.

Table 48 presents land revenue receipts in the District during 1950-51 to 1960-61.

Table 49 shows transactions in land by sales, mortgages, redemption and gifts and exchanges during 1951-52 to 1960-61.

Table 50 presents the number of instruments registered and value of property transferred in the District annually from 1951 to 1960.

MISCELLANEOUS

Table 51 shows the monuments and better known places of worship or tourist interest in rural areas of the District arranged according to Tahsils. Information is also given about its distance from nearest railway station and whether any fair is held there.

FAIRS AND FESTIVALS

Table 52 relates to fairs and festivals. The material for this Table was collected from a number of agencies : Headmasters of schools, *Patwaris*, Police Stations, District Officers of Health and Municipal Committees.

The fairs and festivals are arranged for villages in Tahsils according to the Hadbast numbers. Information is given for each fair relating to the date on which it falls, duration, its significance and any legend connected with it, mode of observance and other entertainments, approximate number of visitors and the distance they come from, whether restricted to any particular castes or observed generally, and the commodities sold.

TABLE 1

	Kanwari Ka Mela	April and October One day	Religious A virgin girl burnt herself to death because two marriage parties came on the marriage ceremony and she wanted to marry only one particular person. Later a temple was raised there and the fair began to be held	Offerings are made at the *smadh* of the girl Wrestling; *kabaddi*; races	2,000 10 miles	Hindus and Sikhs	Eatables, toys

*The legend goes that a Muslim was once digging a grave to bury a corpse. His spade struck against a stone and blood and milk gushed out of it. When the news of this strange happening went round the village, the Hindus claimed the stone to be an idol of Shiva. A compromise was arrived at between the Hindus and the Muslims and the place was entrusted to the Hindus. The idol of Shiva was taken out and installed in a temple constructed there. It is worshipped and a fair is held. Cuts caused by the spade can still be seen on the idol.

‡In memory of a sage, Phalgu Rishi, who is believed to have lived even before the times of Kaurvas and Pandvas. A fair is held here whenever a *somavati amavas* falls during the *Krishan Paksh* (dark half) of Asoj and lasts throughout the fifteen days of the dark half. It is considered very sacred to perform the *shradhs* of ancestors on such a *somavati amavas* here. The Pandvas also performed the *shradhs* of their ancestors at this place.

	Cattle fair	June and November Five days	Commercial	Sale of livestock	1,000	All, men only	Cattle and other animals

*The Guru of Konda Panthis came here on this day from village Puran in U.P. His followers gather here in thousands before the fixed date. A bhandara (free kitchen) of *halwa* and *puris* is arranged. At about 8 p.m.' the Guru takes his disciples inside a room. None else is allowed to go in. All the disciples have a sacred look (darshan) of the Guru and taste *charnamrit* (sacred water). They make offerings to the Guru and then disperse.

**It is a fair of great religious significance for the Hindus. It is held on the confluence of Saraswati and Markanda rivers which enjoy a position of great sanctity in Hindu mythology. Pehowa town is said to have been founded by Maharaja Prithu, son of Raja Bain. It was originally known as *Prithudak*, after the name of its founder. The present name, Pehowa, is said to be the corrupted form of the original name. Maharaja Prithu constructed a *ghat* here and performed the *shradh* ceremony for ensuring peace to the souls of his ancestors. Many *rishis* and *munis* were attracted to this place for undergoing penance. Vishwa Mittar selected the place for practising austerity which won for him the status of Brahmrishi. Manu wrote his great book Manusmriti here. Yudhistra, as advised by Krishna, performed the last rites concerning all those who ad fallen in the battle of Mahabharta at this place and left for Indraprastha after performing *rajsu yajna*. Mata Saraswati, Swami Kartikya and Prithweshwar are the chief deities propitiated at this place. An ancient temple of Krishna and Yudishtra is another place of worship. A Hindu considers it his sacred duty to visit Pehowa to perform the last ritualas of those of his ancestors who die under inauspicious circumstances like accidental deaths.

*Dedicated to Sayyad Bram whose tomb exists here. Bram belonged to a Sayyad family of village Kaliana. He became a devotee of God at the age of seven and attained perfection in the worship of God when he was 20 years old. He spent the whole of his life in this village. The people were impressed by his wisdom and spirituality and started worshipping him. It is said that the *fakir* was nine yards tall. He had a muscular body. He was kind-hearted and hospitable and used to supply food and clothes to all those who needed his help. The land in which the tomb exists was the property of the saint. The following words are inscribed on the tomb "*Rab sada aram dega*", meaning that God will always bestow peace of mind. The name of the saint also seems to have been derived from this sentence.

*Kurukshetra is an important place of pilgrimage for the Hindus all over India. The famous battle of Mahabharta was fought at this place. It is believed that on the day of *amavas* and during the period of eclipse, all *tiraths* assemble at 'Sanehat tank and by performing *shradhs* and taking dip in the tank at the time of solar eclipse, one acquires the fruits of *ashva medh yajna* and is absolved of all previous sins.

According to another legend, one of the fingers of some ancestor of Kaurvas and Pandvas was deformed. As chance would have it, it got smeared with the soil of this place and became alright. Keeping in view this purifying and healing effect of the soil, the Kaurvas and Pandavas constructed a tank here, which is considered very sacred. A dip in the tank is believed to relieve one of all diseases.

**A holy dip in the tank; visit to the various shrines and temples and obeisance to the deities; recitation from religious books; *bhajan*;*kirtan*; performance of *shradh* in the name of ancestors; giving of alms and charities. Cinema and circus shows; wrestling; *kabaddi*; dramatic performances.

*It is believed that some 200 years ago, a snake and a boy were born together to a woman of Ror family in village Bojhpur of District Saharanpur (U.P). Both of them were being brought up by their parents with equal care. One day, the snake and the boy werelying in a cradle. The boy was sleeping, while the snake was awake. A beggar happened to enter the room at that time and seeing the snake in the cradle, killed it there and then. The boy also died with the snake. A *smadh* dedicated to both of them was constructed in the village (Bojhpur). About 150 years ago, a few persons of *koras* family migrated to and settled at village Barsalu. They also brought a brick from the *smadh* with them and fixed it near the place where the road leading to village Barsalu takes a turn to village Mansingh Kheri. A *smadh* was constructed there and fair came to be held. It is believed that if a person bitten by a snake is brought here and is made to burn a lamp fed with ghee at the *smadh* or even if he takes a pledge to do so, he is cured of snake-bite.

*Half naked groups of men drenched with coloured water start from different lanes and meet one another. Each group tries to push the other group with naked chests, keeping their hands up, till one of the groups is overpowered. This contest is called *dat*. All the groups, then, come to the *chopal*, dancing, jumping, and skipping. Coloured water is thrown over them from the roofs of the houses. Another feature is that one of the youngmen jumps from the house top on the marching groups below. He is caught in arms by the revellers and is not allowed to fall down on the ground.

Table E-IV	Distribution of Sample Households living in Census Houses used Wholly or Partly as Dwelling by predominant Material of Wall and predominant Material of Roof (Based on 20 per cent Sample)	264
Table E-V	Sample Households classified by Number of Members and by Number of Rooms Occupied (Based on 20 per cent Sample)	266
Table SCT-I Part A	Industrial classification of persons at work and non-workers by sex for Scheduled Castes	268
Table SCT-II Part A	Age and Marital Status for Scheduled Castes	273
Table SCT-III Part A (i)	Education in *Urban areas only* for Scheduled Castes	278
Table SCT-III Part B (i)	Education in *Rural areas only* for Scheduled Castes	279
Table SCT-IV Part A	Religion for Scheduled Castes	280
Table SCT-V Part A	Sample Households engaged in cultivation classified by interest in land and size of land cultivated in *Rural areas only* for members of Scheduled Castes (Households of members of Scheduled Castes in a 20 per cent Sample of all Households)	282
Table SC-I	Persons not at work classified by sex, type of activity and educational levels for Scheduled Castes of the District and for Rural areas of Selected Tahsils	283

EXPLANATORY NOTE

The Tables presented below have been prepared from the data collected during the 1961-census. Some of the Tables give information upto Tahsil and Town level, and have been prepared exclusively for this volume. Tables A-IV, B-III (Part A), B-VI, B-VIII (Part A), C-III (Part B), and SCT-III (Part A) give information only for urban areas: Tahsilwise Tables for urban areas could not be prepared since sorting of slips was done for non-city urban area of the District as a single unit. Slips for the five cities in the State were, however, sorted separately. The Tables have been grouped under suitable series and are explained below.

A—SERIES : GENERAL POPULATION TABLES

These Tables deal with distribution of population in 1961 and its growth since 1901. There are four Tables and three Appendices in this series.

Table A-I shows area both in square miles and square kilometres; number of villages, inhabited and uninhabited; number of towns; number of occupied houses; and population for the District, each Tahsil and town, with sex break-up. The figures for Towns have been given below the Tahsils in which they are located. Figures are given for the total, rural and urban areas, separately.

The area figures for the District and Tahsils were obtained from the Director of Land Records, Punjab, and those for urban areas from the respective Local Bodies. Rural figures were worked out by substracting the urban figures from the total area figures.

Occupied residential house refers to those houses which were actually used for residence, either exclusively or jointly with some other use. Thus vacant houses and houses used for shops, factories, workshops, offices, etc., have not been included in these figures.

In the 1961-census an *urban area* or *town* was defined as a place having a local administration, such as Municipal Committee or Cantonment Board, or an area treated as a town because of its having (a) population exceeding 5,000, and (b) at least 75 per cent of its male workers were engaged in non-agricultural pursuits.

Persons were enumerated according to the place of their residence and not their place of work, except in the case of visitors who were enumerated wherever the enumerators met them and on inquiry were told that such persons had not been enumerated before. The population so recorded in towns has been styled as *urban population* and the rest as *rural population.*

Village, as in previous censuses, refers to an area for which a separate Record of Rights is maintained, or which has been separately assessed to Land Revenue, or would have been so assessed if the Land Revenue had not been realised or compounded or redeemed, or which the State Government had other wise declared as an 'estate'. This definition of *village* is identical with that of '*mauza*' under section 3 (1) of the Punjab Land Revenue Act, 1887. The definition applies to a demarcated area of land and not to a residential site. In hills cultivation is generally scattered and the population generally lives in homesteads built on individual farms or in groups of hamlets. There also the revenue estate is known as '*mauza*', but the smaller units are called '*tikkas*' in Kangra District except in Kulu where the revenue estate is termed as '*kothi*' and the smaller unit is '*phati*' In Lahaul & Spiti District the revenue estate is referred to as '*kothi*' and its components as '*gaon*'.

Appendix I shows the territorial changes which took place during the decade 1951—61. Such Tahsils as had not undergone any change of area during the decade have not been mentioned in the appendix.

Appendix II shows the number and population of villages each having 5,000 or more persons, and towns with population under 5,000. The population living in such big villages and towns of small size has also been shown as percentage of total, rural and urban population, under columns 4 and 7.

Appendix III relates to the houseless and institutional population.

Members of wandering tribes, tramps, pavement dwellers and others who do not live as households comprise the *houseless population.* These persons were enumerated on the night between the 28th February and 1st March, 1961.

Residential institutions such as, jails, hostels, hotels and boarding houses, were treated as households, and their inmates were treated as members of these households. Policemen and Defence personnel living in barracks or under canvas, and taking their meals from a common kitchen, were also treated as *institutional* population.

Table A-II shows the population of the District at the time of censuses, from 1901 to 1961, and variation in population—in absolute figures and percentage—in each decade. The population figures for the previous censuses have been adjusted according to the 1961 territory of the District.

...llages have been graded according to the size of population as shown below, and for each group the number of villages and their population have been shown.

Villages with population—

(a) less than 200;

(b) 200 to 499;

(c) 500 to 999;

(d) 1,000 to 1,999;

(e) 2,000 to 4,999; and

(f) 5,000 or more.

The term 'village' has already been defined.

Table A-IV shows the population of each town since 1941. The absolute and percentage variations during the two decades have also been worked out. where a town was not treated as such in any earlier census, its population for that census has not been shown in this Table.

Where two or more towns are adjacent and together form a compact urban unit, their combined population as a town group has also been worked out.

B—SERIES : ECONOMIC TABLES

The Tables of this series relate for the most part to economic activities : thirteen among them deal with the population as individuals and the other nine as households. The population has been distributed in the first instance into Workers and Non-workers. The Workers have been classified into (a) nine industrial categories, further sub-divided into major and minor groups as listed in the "Indian Standard Industrial Classification" Annexure A) adopted by the Government of India, and (b) according to occupations listed in the "National Classification of Occupations" (Annexure B).

In earlier censuses income or economic independence was taken as the criterion for measuring the economy of the country. Account was made of all the persons who were economically independent and those who were economically dependent. An intermediate category of semi-dependence was introduced from the 1931-census. This category was called 'working dependent' in 1931, 'partly dependent' in 1941 and 'earning dependent' in 1951. A radical change was made in 1961 on the basis of classification of population, discarding economic independence n favour of work.

In the 1961-census a person was classed as worker if engaged in seasonal work and worked at least for an nour a day throughout the greater part of the working season. If engaged in any trade, profession or service, the basis of work was satisfied if the person was employed during any of the fifteen days preceding the enumeration. Of course, the concept of work covered also supervision and direction of work.

A person who was working but was absent from work due to illness or other reasons, was also counted as a worker. A person who was offered work but did not actually join was, however, taken as a non-worker. Persons under training as apprentices with or without stipends or wages were also recorded as workers.

An adult woman who was engaged in household duties but did no other productive work to directly augment the family resources was not considered to be a worker. But if in addition to her household work she engaged herself in an activity, such as rice-pounding for sale or wages, domestic service for wages, collecting and selling grass or firewood, or making and selling cow-dung cakes, she was treated as a worker. Persons like beggars pensioners, agricultural or non-agricultural royalty or rent or dividend receivers, who earned an income but were not participating in any productive work were not treated as workers unless they also worked in cultivation, industry, trade, profession, business or commerce.

A public or social service worker actively engaged in public service or furthering the cause of a political party was recorded as a worker.

The census questionnaire did not have any question to determine the question about a person being fully or partially employed.

A person doing more than one work was classed under the principal work which consumed a larger portion of his working time, and not according to the work which brought him a major portion of income.

Table B-I gives figures for workers and non-workers according to sex and broad age groups. Workers have been classified into the following nine industrial categories:—

(1) as cultivators;
(2) as agricultural labourers;
(3) in mining, quarrying , livestock, forestry, fishing, hunting and plantations, orchards and allied activities;
(4) at household industry;
(5) in manufacturing other than household industry ;
(6) in construction ;
(7) in trade and commerce;
(8) in transport, storage and communications; and
(9) in other services.

Cultivator is a person who is engaged in cultivation on his own or rented land, i.e., an owner-cultivator or tenant.

Agricultural labourer is a person who works on another person's land for wages in cash, kind or share of produce.

Household Industry is an industry conducted by the head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas.

Construction refers to construction and maintenance of buildings, roads, railways, bridges, canals, etc.

The other five categories are self-explanatory.

Non-worker is a person who is not at work, as defined above.

Table B-III (Part A) has been prepared only for the urban areas and gives the classification of workers and non-workers by educational levels. Workers have been distributed further into nine industrial categories.

In the 1961-census, the test for literacy was ability to read and write a simple letter. A person who fulfilled this test was taken as *literate*. In case he had attained any educational standard, the highest examination passed was recorded in the enumeration slip.

These qualifications have been grouped into six educational levels. The sixth level "Technical Degree or Diploma equal to Degree or Post-Graduate Degree" is sub-divided into seven groups.

Table B-III (Part B) relates to rural areas, and the educational levels are confined only to (i) Primary or Junior Basic, and (ii) Matriculation or above.

Table B-IV (Part A) shows the distribution of workers engaged in household industry by sex and class of workers. They have been divided further into branches of industry listed in the "Indian Standard Industrial Classification" (Annexure A). Figures have been given for total, rural and urban areas for the District. Tahsil figures are only for rural areas, and up to the industrial Divisions. Major groups which do not have any figures, have been excluded from this Table. In columns 5 and 6 the workers, who work as employees in the household industry run by other, have been shown. 'Others' under columns 7 and 8 include workers, who work at their own household industries.

Table B-IV (Part B) shows the distribution of workers engaged in Industrial categories III,V,VI,VII,VIII and IX. Workers have further been divided into various Divisions and Major Groups according to the "Indian Standard Industrial Classification" (Annexure A). Material is given only for total and urban areas. Figures for rural areas have not been given in order to save space. Workers have further been classified into employers, employees, single workers and family workers.

An *employer* is a person who employes other persons in order to perform economic activity in which he is engaged.

An *employee* is a person who works under others for wages or salary in cash or kind. Persons who are employed as Managers, Superintendents, Agents, etc. and in that capacity employ or control other workers on behalf of their employer have also been taken as employees.

Single worker is a person who works of his own accord without employing others and without the help of other members of the family. This includes members of co-operatives also.

(iii) *Family worker* is a person who works in his own family without wages or salary

Table B-IV (Part C) shows the distribution of all workers, other than cultivators and agricultural labourers into various Industrial Divisions, Major Groups and Minor Groups of "Indian Standard Industrial Classification" (Annexure A). The number of workers in each Division, Major Group or Minor Group has been divided further into workers in household industry and workers in non-household industries. Material is given only for total and urban areas. Tahsil figures for rural areas are given up to Industrial Divisions. Major and Minor Groups, which do not employ any worker, have not been included in this Table.

Table B-V gives the distribution of persons at work, other than cultivators and agricultural labourers, according to their occupation. Occupations have been divided into various Divisions, Groups and Families according to the "National Classification of Occupations" (Annexure B). Break-up according to Industrial categories has also been shown for each Occupational Division, Group and Family. Total and urban figures have been given for the District. But in the case of Tahsils, rural figures have been given only up to Occupational Divisions.

Table B-VI presents the distribution of workers, other than those engaged in cultivation. This has been prepared only for urban areas and up to the Divisions of the "National Classification of Occupations" (Annexure B). Persons of each occupational Division have been further classified by broad age groups and educational levels.

Table B-VII has been prepared into two parts: **Part-A** is a cross tabulation of persons whose principal and secondary work are any two of (i) cultivation, (ii) agricultural labour, or (iii) household industry. **Part-B** gives data of the persons who are principally engaged in non-household industry, trade, business, profession or service but have household industry as secondary work.

This Table has been prepared separately for total, rural and urban population for the District. For Tahsils, figures have been given only for Industrial Divisions and that too for rural areas.

Table B-VIII has been prepared in two parts: **Part-A** for urban areas, and **Part-B** for rural areas. They show the distribution of unemployed persons aged 15 and above, by educational levels. The unemployed persons are the total of columns 19 to 22 of Table B-IX.

In **Part-A**, unemployed persons have been further divided into two groups: (i) seeking employment for the first time; and (ii) persons employed before but now out of employment and seeking work. These groups have been divided into different age groups also. **Part-B** gives Tahsilwise information also.

Table B-IX relates to non-workers and gives their distribution into the following eight types of activities by broad age groups :—

(i) whole time students doing no other work;

(ii) persons engaged in unpaid home duties ;

(iii) dependents , including children not attending school, and persons permanently disabled from work because of illness or old age;

(iv) retired persons, not employed again, rentiers and other persons of independent means without having to work ;

(v) beggars, vegrants or independent women without an indication of their source of income ;

(vi) convicts in jail or inmates of a penal, mental or charitable institutions;

(vii) persons seeking employment for the first time; or

(viii) persons employed before but now out of employment and seeking work.

Separate figures have been given for total, rural and urban areas for the District and only rural figures in case of Tahsils.

HOUSEHOLD ECONOMIC TABLES

Household Economic Tables (B-X to B-XVII) have been prepared from a 20 per cent sample of household schedules. In the census history, information for the household as a whole has been collected for the first time.

The Household Schedule consists of two parts. In **Part-I**, after recording the name of the head of the household and whether he belonged to a Scheduled Caste or Scheduled Tribe, the following particulars were recorded about the household.

A. If the household was engaged in cultivation, the area of land with it under ownership and tenancy, and any portion of holding given out to others for cultivation. Information about area rented out was also recorded for the households who owned land and had given the entire holding to others for cultivation ;

B. If the household was engaged in household industry, the nature of the industry and the number of the months in a year it was conducted; and

C. Number of members of the household and any hired workers pursuing household cultivation, household industry, or both these activities.

Part-II was filled in from Individual Slips of the persons residing in that household.

Table B-X contains information on sampled households which have been divided into the following four categories :—

(i) engaged neither in cultivation nor in household industry

(ii) engaged in cultivation only;

(iii) engaged in household industry only; and

(iv) engaged both in cultivation and household industry.

The number of households given in column 3 if multiplied by 5 will not tally with that given in the Primary Census Abstract, because the schedules relating to institutions were not taken into account for drawing the sample.

In **Table B-XI** the sampled households, engaged in cultivation, have been classified by interest in land and size of land cultivated. This Table has been prepared for rural and urban areas separately. Interest in land is of the following three types:—

(i) owned or held from Government ;

(ii) held from private persons or institutions for payment in money, kind or share; and

(iii) partly owned or held from Government, and partly from private persons for payment in money, kind or share.

These types of interest in land have been cross-tabulated by different sizes of land-holdings.

Table B-XII classifies the cultivating households by (1) size of land cultivated, and (2) number of family and hired workers engaged in cultivation. Sex break-up of the family workers has also been given.

Table B-XIII shows the distribution of sampled households engaged both in cultivation and household industry, into different sizes of land-holding, separately for rural and urban areas of the District. Household industries have been divided into Major Groups according to "Indian Standard Industrial Classification" (Annexure A).

Table B-XIV has been prepared into two parts, separately, for total, rural and urban population of the District. In **Part-A**, the households have been distributed by nature of household industry and number of persons engaged into the following five size groups:—

(i) 1 person ;

(ii) 2 persons;

(iii) 3 to 5 persons;

(iv) 6 to 10 persons; and

(v) more than 10 persons.

This part gives data up to Major Groups, while **Part-B** gives the distribution up to Minor Groups. Column 2 gives description of the Industry.

Table B-XV is similar to Table B-XII, but relates to such households as were engaged simultaneously in cultivation and household industry.

Table B-XVI attempts distribution of sampled households engaged in household industry, according to period of working and number of persons engaged therein, separately for total, rural and urban areas of the District. Data in respect of households engaged in household industry only or both in household industry and cultivation has been given separately.

Table B-XVII distributes the households according to the number of their members. For rural areas the following additional information has been given:—

(i) households engaged neither in cultivation nor in household industry ;

(ii) those in household industry only ;

(iii) those engaged in cultivation; and

(iv) distribution of cultivating households according to the size of their operational holdings.

C—SERIES : SOCIAL AND CULTURAL TABLES

Eight Tables , dealing with social and cultural aspects such as age, marital status, literacy and education, language, religion appear under this series. Table C-I has been prepared from a 20 per cent sample of the household schedules, while other Tables are prepared on full count from the individual slips.

Table C-I shows the composition of sampled households according to relationship to the head of the family: Size of operational holdings with the households is also shown for rural areas on the same lines as in Table B-XVII.

Table C-II presents data on age and marital status for total, rural and urban population of the District, and for rural population only in the case of Tahsils. Marital status has been divided into : (i) never married ; (ii) married ; (iii) widowed; and (iv) divorced or separated. In 1961-census, quinquennial age groups, as recommended by the United Nations for population census, have been adopted.

Age groups 0—4 and 5—9 have been combined since all the persons up to the age of 9 have been treated as 'never married.'

From this Table, it can be ascertained whether proportions, in various marital status conditions, have increased or decreased since the last census and whether any trend is observed in the age of marriage. This also gives an account of mortality in each marital status and also in different age groups. Data in column 9 on married females by age groups can be utilized for forecasting the future births. In 1951-census, this Table was prepared on 10 per cent sample, but this time on a full count.

Table C-III has three parts : **Part-A** for all areas; **Part-B** for urban areas; and **Part-C** for rural areas. Population in various age groups has been classified according to educational levels. The educational levels for all areas and rural areas are the same whereas for urban areas they have been further divided into various groups since education is more pronounced and diversified in urban areas.

Table C-V shows the distribution of population by mother tongue separately for total, rural and urban population in the District and for rural population in the Tahsils.

Mother tongue was defined as the language spoken by the person's mother to the person in his childhood or mainly spoken in the house. If the mother died in a child's infancy, the language mostly spoken in the person's home in childhood was recorded.

A Table on bilingualism has also been prepared in 1961-census. This Table is not included in this Volume, and may be found in Part II-C (i) of Punjab Census Report.

Table CVII shows the distribution of population according to six main religions, for total, rural and urban areas of the District. All other religions have been grouped under "Others". Tahsilwise figures have also been given for rural areas.

Table C-VIII shows the distribution of Scheduled Castes population according to literacy and nine industrial categories of workers and non-workers, separately for total, rural and urban population in the District.

Scheduled Castes are the castes listed in the Scheduled Castes and Scheduled Tribes List Modification Order (Ministry of Home Affairs Notification No. SRO 2477-A, dated the 29th October, 1956). These castes, in Punjab are :

1. Throughout the State:—

   (1) Ad Dharmi; (2) Bangali; (3) Barar, Burar or Berar; (4) Batwal; (5) Bauria or Bawaria; (6) Bazigar; (7) Balmiki, Chura or Bhangi; (8) Bhanjra; (9) Chamar, Jatia Chamar, Rehgar, Raigar, Ramdasi or Ravidasi; (10) Chanal; (11) Dagi; (12) Dhanak; (13) Dumna, Mahasha or Doom; (14) Gagra; (15) Gandhila or Gandil, Gondola ; (16) Kabirpanthi or Julaha; (17) Khatik; (18) Kori or Koli; (19) Marija or Marecha; (20) Mazhabi; (21) Megh; (22) Nat; (23) Od; (24) Pasi; (25) Perna; (26) Pherera; (27) Sanhai; (28) Sanhal; (29) Sansi, Bhedkut or Manesh; (30) Sapela (31) Sarera; (32) Sikligar; and (33) Sirkiband.

2. Throughout the State except the Districts of Patiala, Bhatinda, Mahendragarh, Kapurthala and Sangrur:—

   (1) Darain; (2) Dhogri, Dhangri or Siggi; and (3) Sansoi.

3. In the Districts of Patiala, Bhatinda, Mahendragarh, Kapurthala and Sangrur:—

   Deha, Dhaya or Dhea.

D—SERIES : MIGRATION TABLES

Six Tables were prepared on this subject. Migration has been inferred from the place of birth, a question asked from each individual during the 1961-census. Two allied questions were whether the birth place was a rural or urban area, and the duration of residence at the place of enumeration if born elsewhere.

In this book only one Table has been included; the other Tables are to be found in Part II-C (ii)" of the Punjab Census Report.

Table D-II presents the figures for persons born (1) at place of enumeration, (2) elsewhere in the District, (3) in other Districts of the State, (4) in other States of India, and (5) in other Countries. Births have been classified into rural and urban areas. This information when studied with the place of enumeration sheds an interesting light on the movement of population from villages to towns and *vice versa*.

E—SERIES : HOUSING TABLES

Prior to 1961-census, the preparation of houselists differed from State to State since the main idea was to prepare the framework for conducting the census. In the 1961-census, one uniform pattern for houselist has been adopted. In the houselist, data on housing such as material of wall, roof, number of rooms, the uses to which they are put, as well as data relating to establishments such as the names of the establishments and the products produced, number of persons working, and kind of fuel and power used and number of males and females living therein in case it was used as dwelling, was collected. Five Tables have been prepared in this series from the data so collected. Tables E-I and E-III have been prepared on full count and the other three Tables on 20 per cent sample out of the dwellings. Table E-III, which gives the number of workshops and factories in each industry by kind of fuel and size of employment, has not been given here for want of space. Instead, a running statement, showing the number of establishments in each industry for each village and town has been given. Industries have been shown according to Code numbers of the "Indian Standard Industrial Classifications" reproduced at Annexure 'A'. Other Tables present data for the District and its Tahsils for total, rural and urban areas, separately, as well as for towns with a population of 50,000 or more. Urban figures of each Tahsil are inclusive of town figures, if any shown thereunder.

Table E-I shows the distribution of census houses according to the use they are put to. Column 4 gives the number of "vacant houses" which are found vacant at the time of houselisting.

In the earlier censuses the "*census house*" was defined as a dwelling with a separate main entrance. In the 1961-census the concept of "census house" was made broad as to cover any "structure or part of a structure inhabited or vacant, or a dwelling, a shop, a shop-cum-dwelling, or a place of business, workshop, school, etc., with a separate entrance."

Table E-II prepared on 20 per cent sample shows the distribution of census households living in census houses according to their status. Houses lived in by the owners were classed as "owned" and the houses lived in any other capacity were shown as "rented".

Table E-IV has been prepared from a 20 per cent sample and distributes the houses according to the predominant material going into the construction of walls and the roofs.

Where a house consisted of separate structures, each of different materials, the material out of which the walls of the main bed-rooms had been built, was recorded. The roofs were classified on the same basis. In the case of multi-storeyed buildings, the intermediate floor or floors have been taken as the roofs of the lower floors.

Table E-V has also been prepared on 20 per cent sample, and shows the distribution of households according to number of rooms occupied by them, such as no regular room, one room, two rooms, three rooms, four rooms, and five rooms or more. The number of persons comprising the households have also been given according to the number of rooms they occupied.

SPECIAL TABLES FOR SCHEDULED CASTES AND SCHEDULED TRIBES

The Constitution of India has provided special safeguards for the members of the Scheduled Castes and President of India has notified the Castes which fall in the list of Scheduled Castes for this purpose. This list has been given in the explanatory note to Table C-VIII above. Hence it has been found desirable to give information in regard to these Castes separately, though they have been included in the general population Tables.

According to the Presidential order referred to above the Scheduled Tribes are found in this State only in Lahaul and Spiti District. Similar Tables have also been prepared for them and may be found in the State Census Report, Part V-A, and District Census Handbook for Lahaul & Spiti.

Table SCT-I classifies into workers and non-workers the number of each Scheduled Caste, giving further details according to nine industrial categories of workers. Since most of the members of the Scheduled Castes are engaged in special types of occupations, such as "tanning and curring of hides and skins" and "scavenging" number of persons following these occupations have also been given under columns 27 to 30.

Table SCT-II presents data for each caste according to age and marital status. The age groups adopted are 0—14, 15—44, and 45+.

Table SCT-III has been prepared in two parts, dealing with urban and rural areas, respectively. In this Table members of each caste have been classified according to educational levels.

Table SCT-IV furnishes data for each caste according to religion, separately for rural and urban areas of the District. Members of the Scheduled Castes can only be either Hindus or Sikhs, so their religion-wise break-up is confined to these two religions.

Table SCT-V has been prepared on 20 per cent sample from the households, showing their distribution according to interest in land cultivated and size of operational holdings.

Table SC-I classifies the members of the Scheduled Castes who are not at work by the type of activity according to educational levels. Only three activities of non-workers out of the eight adopted for the general population (given in the note for Table B-IX) have been taken and others have been lumped together under 'Others' in columns 11 and 12.

ANNEXURE 'A'

INDIAN STANDARD INDUSTRIAL CLASSIFICATION

Major Group (Code)	Description	Minor Group (Code)
	Division 0—Agriculture, Livestock, forestry, fishing and hunting	
00	*Field Produce and Plantation Crops—*	
	Production of cereal crops (including Bengal gram) such as rice, wheat, jowar, bajra, maize	000
	Production of pulses, such as arhar, moong, masur, urd, khesari, other gram	001
	Production of raw jute and kindred fibre crops	002
	Production of raw cotton and kindred fibre crops	003
	Production of oilseeds, sugarcane and other cash crops	004
	Production of other crops (including vegetables) not covered above	005
	Production of fruits and nuts in plantation, vines and orchards	006
	Production of wood, bamboo, cane reeds, thatching grass, etc.	007
	Production of juice by tapping palms	008
	Production of other agricultural produce (including fruits and nuts not covered by code number 006 and flowers) not covered above	009
01	*Plantation Crops—*	
	Production of tea in plantation	010
	Production of coffee in plantation	011
	Production of rubber in plantation	012
	Production of tobacco in plantation	013
	Production of ganja, cinchona, opium	014
	Production of other plantation crops not covered above	015
02	*Forestry and Logging—*	
	Planting, replanting and conservation of forests	020
	Felling and cutting of trees and transportation of logs	021
	Preparation of timber	022
	Production of fuel including charcoal by exploitation of forest	023
	Production of fodder by exploitation of forests	024
	Production of gums, resins, lac, barks, herbs, wild fruits and leaves by the exploitation of forests	025
	Production and gathering of other forest products not covered above	026
03	*Fishing—*	
	Production of fish by fishing in sea	030
	Production of fish by fishing in inland waters including the operation of fish farms and fish hatcheries	031
	Production of pearls, conch, shells, sponges by gathering or lifting from sea, river, pond	032
04	*Livestock and Hunting—*	
	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat	040
	Rearing of sheep and production of wool	041
	Rearing and production of other animals (mainly for slaughter) such as pig	042
	Production of ducks, hens and other small birds, eggs by rearing and poultry farming	043
	Rearing of bees for the production of honey, wax and collection of honey	044
	Rearing of silk worms and production of cocoons and raw silk	045
	Rearing of other small animals and insects	046

INDIAN STANDARD INDUSTRIAL CLASSIFICATION—contd.

Major Group (Code)	Description	Minor Group (Code)
	Division 0—Agriculture, livestock, forestry, fishing and Hunting—concld.	
04	*Livestock and Hunting—concld.*	
	Trapping of animals or games propagation	047
	Production of other animal husbandry products such as skin, bone, ivory and teeth	048
	Division 1—Mining and Quarrying	
10	*Mining and Quarrying—*	
	Mining of coal	100
	Mining of iron ores	101
	Mining of gold and silver ores	102
	Mining of manganese	103
	Mining of mica	104
	Mining of other non-ferrous metallic ores	105
	Mining of crude petroleum and natural gas	106
	Quarrying of stone (including slate), clay, sand, gravel, limestone	107
	Mining of chemical earth such as soda ash	108
	Mining and quarrying of non-metallic products not classified above such as precious and semi-precious stones, asbestos, gypsum, sulphur, asphalt	109
	Division 2 & 3—Manufacturing	
20	*Foodstuffs—*	
	Production of rice, atta, flour, etc., by milling dehusking and processing of crops and foodgrains	200
	Production of sugar and syrup from sugarcane in mills	201
	Production of indigenous sugar, gur from sugarcane or palm juice and production of candy	202
	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits	203
	Slaughtering, preservation of meat and fish and canning of fish	204
	Production of bread, biscuits, cake and other bakery products	205
	Production of butter, ghee, cheese and other dairy products	206
	Production of edible fats and oils (other than hydrogenated oil)	207
	Production of hydrogenated oils (Vanaspati)	208
	Production of other food products such as sweetmeat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge	209
21	*Beverages—*	
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery	210
	Production of country liquor	211
	Production of indigenous liquor such as toddy, liquor from mahua, palm juice	212
	Production of other liquors not covered above	213
	Production of aerated and mineral water	214
	Production of ice	215
	Production of ice cream	216
	Processing of tea in factories	217
	Processing of coffee in curing works	218
	Production of other beverages	219
22	*Tobacco Products—*	
	Manufacture of bidi	220
	Manufacture of cigars and cheroots	221
	Manufacture of cigarette and cigarette tobacco	222
	Manufacture of hookah tabacco	223
	Manufacture of snuff	224
	Manufacture of jerda and other chewing tobacco	225
	Manufacture of other tobacco products	226

INDIAN STANDARD INDUSTRIAL CLASSIFICATION—contd.

Major Group (Code)	Description	Minor Group (Code)
	Division 2 & 3 Manufacturing—contd.	
23	*Textile-Cotton*—	
	Cotton ginning, cleaning , pressing and baling	230
	Cotton spinning (other than in mills)	231
	Cotton spinning and weaving in mills	232
	Cotton dyeing, bleaching	233
	Cotton weaving in power looms	234
	Cotton weaving in handlooms	235
	Manufacturing of khadi textile in handlooms	236
	Printing of cotton textile	237
	Manufacturing of cotton nets	238
	Manufacturing of cotton, cordage, rope and twine	239
24	*Textile-Jute*—	
	Jute pressing and baling	240
	Jute spinning and weaving	241
	Dyeing and bleaching of jute	242
	Printing of jute textile	243
	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta	244
25	*Textile-Wool*—	
	Wool baling and pressing	250
	Wool cleaning and processing (scouring)	251
	Wool spinning and weaving in mill	252
	Wool spinning other than in mills	253
	Wool weaving in power loom	254
	Wool weaving in handloom	255
	Embroidery and art work in woollen textile	256
26	*Textile-Silk*—	
	Spinning and weaving of silk textile in mill	260
	Dyeing and bleaching of silk	261
	Spinning of silk other than in mills	262
	Weaving of silk textile by power loom	263
	Weaving of silk textile by handloom	264
	Printing of silk textile	265
	Manufacture of silk cordage, rope and twine	266
27	*Textile-Miscellaneous*—	
	Manufacture of carpet and all other similar type of textile products	270
	Manufacture of hosiery and other knitted fabrics and garments	271
	Embroidery and making of crepe lace and fringes	272
	Making of textile garments including raincoats and headgear	273
	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags	274
	Manufacture of waterproof textile products such as oil cloth, tarpaulin	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling	276
	Manufacture of coir and coir products	277
	Manufacture of umbrellas	278
	Processing and manufacture of textile products not covered above	279
28	*Manufacture of Wood and Wooden Products*—	
	Sawing and planing of wood	280
	Manufacture of wooden furniture and fixtures	281

INDIAN STANDARD INDUSTRIAL CLASSIFICATION—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 2 & 3—Manufacturing—contd.		
28	*Manufacture of Wood and Wooden Products*—concld.	
	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows	282
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixture	283
	Manufacture of other wooden products such as utensils, toys artwares	284
	Manufacture of veneer and plywood	285
	Manufacture of plywood products such as tea chest	286
	Manufacture of boxes and packing cases other than plywood	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products	288
	Manufacture of other wood and allied products not covered above	289
29	*Paper and Paper Products*—	
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill	290
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade	291
	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp	292
30	*Printing and Publishing*—	
	Printing and publishing of newspapers and periodicals	300
	Printing and publishing of books	301
	All other types of printing including lithography, engraving, etching, block making and other work connected with printing industry	302
	All types of binding, stitching, sizing and other allied work connected with binding industry	303
31	*Leather and Leather Products* —	
	Currying, tanning and finishing of hides and skins and preparation of finished leather	310
	Manufacture of shoes and other leather footwear	311
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur	312
	Manufacture of leather products (except those covered by code Nos. 311, 312), such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles	313
	Repair of shoes and other leather footwear	314
	Repair of all other leather products except footwear	315
32	*Rubber, Petroleum and Coal Products*—	
	Manufacture of tyres and tubes	320
	Manufacture of rubber footwear	321
	Manufacture of rubber goods used for industrial purpose	322
	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat	323
	Production of petroleum, kerosene and other petroleum products in petroleum refineries	324
	Production of coaltar and coke in coke oven	325
	Manufacture of other coal and coaltar products not covered elsewhere	326

INDIAN STANDARD INDUSTRIAL CLASSIFICATION—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 2 & 3—Manufacturing—contd.		
33	*Chemicals and Chemical Products —*	
	Manufacture of basic industrial chemicals such as acids, alkalis and their salts not elsewhere specified	330
	Manufacture of dyes, paints, colours and varnishes	331
	Manufacture of fertilizers	332
	Manufacture of ammunition, explosives and fire works	333
	Manufacture of matches	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap	335
	Manufacture of soap and other washing and cleaning compounds	336
	Manufacture of turpentine, synthetic, resin, and plastic products and material (including synthetic rubber)	337
	Manufacture of common salt	338
	Manufacture of other chemicals and chemical products not covered above (including inedible oils and fats)	339
34-35	*Non-metallic Mineral Products other than Petroleum and Coal—*	
	Manufacture of structural clay products such as bricks, tiles	340
	Manufacture of cement and cement products	341
	Manufacture of lime	342
	Manufacture of structural stone goods, stone dressing and stone crushing	343
	Manufacture of stonewares, other than images	344
	Manufacture of stone images	345
	Manufacture of plaster of paris and its products	346
	Manufacture of asbestos products	347
	Manufacture of mica products	348
	Manufacture of earthenware and earthen pottery	350
	Manufacture of chinware and crockery	351
	Manufacture of porcelain and its products	352
	Manufacture of glass bangles and beads	353
	Manufacture of glass apparatus	354
	Manufacture of earthen image, busts and statues	355
	Manufacture of earthen toys and artwares except those covered by code No. 355	356
	Manufacture of glass and glass products except optical and photographic lenses products covered above	357
	Manufacture of other non-metallic mineral products not elsewhere specified	359
36	*Basic Metals and their Products except Machinery and Transport Equipment—*	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods	360
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic form	361
	Manufacture of armaments	362
	Manufacture of structural steel products such as joist, rail, sheet, plate	363
	Manufacture of iron and steel furniture	364
	Manufacture of brass and bell metal products	365
	Manufacture of aluminium products	366
	Manufacture of metal products (other than of iron, brass, bell metal and aluminium) such as tin can	367
	Enamelling, galvanising, plating (including electroplating), polishing and welding of metal products	368
	Manufacture of sundry hardwares such as G.I. pipe, wire net, bolt, screw, bucket, cutlery (this will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in Major Groups 36, 37, 38 and 39)	369

INDIAN STANDARD INDUSTRIAL CLASSIFICATION—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 2 & 3—Manufacturing—concld.		
37	*Machinery (All kinds other than Transport) and Electrical Equipment*—	
	Manufacture and assembling of machinery (other than electrical) except textile machinery	370
	Manufacture and assembling of prime mover and boilers, other than electrical equipment, such as diesel engines, road rollers, tractors	371
	Manufacture of machine tools	372
	Manufacture of textile machinery and accessories	373
	Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers	374
	Manufacture of electric lamps and fans	375
	Manufacture of insulated wires and cables	376
	Manufacture of all kinds of battery	377
	Manufacture of electronic equipment such as radio microphone	378
	Manufacture of electric machinery and apparatus, appliances not specified above	379
38	*Transport Equipment*—	
	Manufacture, assembly and repairing of locomotives	380
	Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by code No. 363	381
	Manufacture and assembling of motor vehicles of all types (excepting motor engines)	382
	Manufacture of motor vehicles engines parts and accessories	383
	Repairing and servicing of motor vehicles	384
	Manufacture of bicycles and tricycles and accessories such as saddle, seat frame, gear	385
	Building and repairing of water transport equipment such as ships, boats and manufacture of marine engines	386
	Manufacture and repair of air transport equipment including aeroplanes, aero-engines	387
	Repairing of bicycles and tricycles	388
	Manufacture of other transport equipment not covered above such as animal-drawn and hand-drawn vehicles	389
39	*Miscellaneous Manufacturing Industries* —	
	Manufacture of optical instruments and lenses, opthalmic goods and photographic equipment and supplies	390
	Manufacture of scientific, medical and surgical instruments and equipment and supplies	391
	Assembling and repairing of watches and clocks	392
	Manufacture of jewellery, silverware and wares using gold and other precious metals	393
	Manufacture and tuning of musical instruments	394
	Manufacture of stationery articles not covered elsewhere such as pencil, pen-holder, fountain pen	395
	Manufacture of sports goods	396
	Manufacture and repair work of goods not assignable to any other group	399
Division 4—Construction—		
40	*Construction*—	
	Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical and sanitary installations	400
	Construction and maintenance of roads, railways, bridges, tunnels	401
	Construction and maintenance of telegraph and telephone lines	402
	Construction and maintenance of waterways and water reservoirs such as bund, embankments, dam, canal, tank, tubewells, wells	403

INDIAN STANDARD INDUSTRIAL CLASSIFICATION—contd.

Major Group (Code)	Description	Minor Group (Code)
	Division 5—Electricity, Gas, Water and Sanitary Services	
50	*Electricity and Gas—*	
	Generation and transmission of electric energy	500
	Distribution of electric energy	501
	Manufacture of gas in gas works and distribution to domestic and industrial consumers	502
51	*Water Supply and Sanitary Services—*	
	Collection, purification and distribution of water to demestic and industrial consumers	510
	Garbage and sewage disposal, operation of drainage system and all other types of work connected with public health and sanitation	511
	Division 6—Trade and Commerce	
60-63	*Wholesale Trade—*	
	Wholesale trading in cereals and pulses	600
	Wholesale trading in vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry and other food stuff (not covered elsewhere)	601
	Wholesale trading in all kinds of fabrics, and textiles products such as garments, hessian, gunny bag, silk and woollen yarn, shirtings, suitings, hosiery products	602
	Wholesale trading in beverages, such as tea (leaf) coffee (seed and powder), aerated water	603
	Wholesale trading in intoxicants such as wines, liquors	604
	Wholesale trading in other intoxicants such as opium, ganja etc.	605
	Wholesale trading in tobacco, bidi, cigarettes and other tobacco products	606
	Wholesale trading in animals	607
	Wholesale trading in straw and fodder	608
	Wholesale trading in medicines and chemicals	610
	Wholesale trading in fuel and lighting products such as coke, coal, kerosene, candle	611
	Wholesale trading in toilets, perfumery and cosmetics	612
	Wholesale trading in metal, porcelain and glass utensils, crockery, chinaware	613
	Wholesale trading in wooden, steel and other metallic furniture and fittings	614
	Wholesale trading in footwear	615
	Wholesale trading in tyres, tubes and allied rubber products	616
	Wholesale trading in petrol, mobil oil and allied products	617
	Wholesale trading in other household equipment not covered above	618
	Wholesale trading in bricks, tiles and other building materials	620
	Wholesale trading in wood, bamboo, cane thatches and similar products	621
	Wholesale trading in paper and other stationery goods	630
	Wholesale trading in agricultural and industrial machinery equipment and tools and appliances other than electrical	631
	Wholesale trading in electrical machinery and equipment like motor, battery, electric fan, bulb	632
	Wholesale trading in all kinds of transport and storage equipment	633
	Wholesale trading in skins, leather and fur	634
	Wholesale trading in clocks, eye glasses frames	635
	Wholesale trading in hardware and sanitary equipment	636
	Wholesale trading in scientific, medical and surgical instruments	637
	Wholesale trading in precious metals and stones, gold and silverwares and jewellery	638
	Wholesale trading in all goods not covered above	639

INDIAN STANDARD INDUSTRIAL CLASSIFICATION—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 6—Trade and Commerce—contd.		
64-68	*Retail Trade—*	
	Retail trading in cereals, pulses, vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry	640
	Retail trading in beverages such as tea (leaf), coffee (seed and powder), aerated water	641
	Retail trading in intoxicants such as wines, liquors	642
	Retail trading in other intoxicants such as opium, ganja, etc.	643
	Retail trading in tobacco, bidi, cigarettes and other tobacco products	644
	Retail trading in fuel such as coke, coal, firewood and kerosene	645
	Retail trading in food stuffs like sweetmeat, condiments, cakes, biscuits, etc.	646
	Retail trading in animals	647
	Retail trading in straw and fodder	648
	Retail trading in fibres, yarns, dhoti, saree, readymade garments of cotton, wool, silk and other textiles and hosiery products; (this includes retail trading in piecegoods of cotton wool, silk and other textiles)	650
	Retail trading in toilet goods, perfumes and cosmetics	651
	Retail trading in medicines and chemicals	652
	Retail trading in footwear, headgear such as hat, umbrella, shoes and chappals	653
	Retail trading in tyres, tubes and allied rubber products	654
	Retail trading in petrol, mobil oil and allied products	655
	Retail trading in wooden, steel and other metallic furniture and fittings	660
	Retail trading in stationery goods and paper	661
	Retail trading in metal, porcelain and glass utensils	662
	Retail trading in earthenware and earthen toys	663
	Retail trading in other household equipment not covered above	664
	Retail trading in bricks, tiles and other building materials	670
	Retail trading in hardware and sanitary equipment	671
	Retail trading in wood, bamboo, cane, bark and thatches	672
	Retail trading in other building materials	673
	Retail trading in agricultural and industrial machinery equipment, tools and appliances	680
	Retail trading in transport and storage equipments	681
	Retail trading in electrical goods like electric fan, bulb, etc.	682
	Retail trading in skins, leather and furs and their products excluding footwear and headgear	683
	Retail trading in clock and watch, eye glass, frame	684
	Retail trading in scientific, medical and surgical instruments	685
	Retail trading in precious stones and jewellery	686
	Retail trading in musical instruments, gramophone record, pictures and paintings including curio dealing	687
	Book-selling	688
	Retail trading in goods unspecified	689
69	*Trade and Commerce Miscellaneous —*	
	Importing and exporting of goods and commodities	690
	Real estate and properties	691
	Stocks, shares and futures	692
	Providents and insurances	693
	Money lending (indigenous)	694
	Banking and similar type of financial operation	695
	Auctioneering	696
	Distribution of motion pictures	697
	All other activities connected with trade and commerce not covered above, including hiring out of durable goods such as electric fan, microphone, rickshaw, etc.	699

INDIAN STANDARD INDUSTRIAL CLASSIFICATION—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 7—Transport, Storage and Communication		
70	*Transport*—	
	Transporting by railways,	700
	Transporting by tramway and bus service	701
	Transporting by motor vehicles (other than omnibus)	702
	Transporting by road through other means of transport such as hackney carriage, bullock cart, ekka	703
	Animal transporting by animals such as horses, elephant, mule, camel	704
	Transporting by man such as carrying of luggage, hand cart driving, rickshaw pulling, cycle rickshaw driving	705
	Transporting by boat, steamer, ferry, etc. by river, canal	706
	Transporting by boat, steamer, ship, cargo boat by sea or ocean	707
	Transporting by air	708
	Transporting by other means not covered above	709
71	Services incidental to transport such as packing, carting travel agency	710
72	*Storage and Warehousing*—	
	Operation of storage such as warehouses	720
	Operation of storage such as cold storage	721
	Operation of storage of other type	722
73	*Communication*—	
	Postal, telegraphic, wireless and signal communication	730
	Telephone communication	731
	Information and broadcasting	732
Division 8—Services		
80	*Public Services* (this does not include Government, Quasi-Government or local body activities, other than administrative, in such fields as transport, communication, information and broadcasting, education and scientific services, health, industries, production, construction, marketing and operation of financial institution each of which is classified in the appropriate industry groups)—	
	Public services in Union and State army including territorial corps and volunteer corps	800
	Public service in Navy	801
	Public service in Air Force	802
	Public service in Police	803
	Public service in administrative departments and offices of Central Government	804
	Public service in administrative departments and offices of quasi-Government organisation, municipalities, local boards, etc.	805
	Public services in administrative departments and offices of State Governments	809
81	*Educational and Scientific Services* —	
	Educational services such as those rendered by technical colleges, technical schools and similar technical and vocational institutions	810
	Educational services such as those rendered by colleges, schools and similar other institutions of non-technical type	811
	Scientific services and research institution not capable of classification under any individual group	812
82	*Medical and Health Services*—	
	Public health and medical services rendered by organisations and individuals such as by hospitals, sanatoria, nursing homes, maternity and child welfare clinic as also by hakimi, unani, ayurvedic, allopathic and homeopathic practioners	820
	Veterinary services rendered by organisations and individuals	821

INDIAN STANDARD INDUSTRIAL CLASSIFICATION—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 8—Services—contd.		
83	*Religious and Welfare Services—*	
	Religious services rendered by religious organisations and their establishments maintained for worship or promotion of religious activities, (this includes missions, ashrams and other allied organisations)	830
	Religious and allied services rendered by pandit, priest, preceptor, fakir, monk	831
	Welfare services rendered by organisations operating on a non-profit basis for the promotion of welfare of the community such as relief societies, red-cross organistion for the collection and allocation of contributions for charity	832
84	*Legal Services—*	
	Legal services rendered by barristor, advocate, solicitor, mukteer, pleader, mukurie, munshi	840
	Matrimonial services rendered by organisations and individuals	841
85	*Business Services—*	
	Engineering services rendered by professional organisations or individuals	850
	Business services rendered by organisations of accountants, auditors, book-keepers or like individuals	851
	Business services rendered by professional organisations or individuals such as those of advertising and publicity agencies	852
	Business services rendered by professional organisations or individuals such as of those rendered by news-agency , newspaper correspondent, columnist, journalists, editors, authors	853
86	*Community Services and Trade and Labour Associations—*	
	Services rendered by trade associations, chambers of commerce, trade unions and similar other organisations	860
	Services rendered by civic, social, cultural, political and fraternal organisations such as rate payers association, club, library	861
	Community services such as those rendered by public libraries, museums, botanical and zoological gardens, etc.	862
87	*Recreation Services—*	
	Production of motion picture and allied services such as processing, editing, etc.	870
	Recreation services rendered by cinema houses by exhibition of motion pictures	871
	Recreation services rendered by organisations and individuals such as those of theatres, opera companies, ballet and dancing parties, musicians, exhibitions, circus, carnivals	872
	Recreation services rendered by indoor and outdoor sports by organisations and individuals including horse, motor, etc., racing	873
88	*Personal Services—*	
	Services rendered to households such as those by domestic servants, cooks	880
	Services rendered to households such as those by governess, tutor, private secretary	881
	Services rendered by hotels, boarding houses, eating houses, cafes, restaurants and similar other organisations to provide lodging and boarding facilities	882
	Laundry services rendered by organisations and individuals, (this includes all types of cleaning, dyeing, bleaching, dry cleaning services)	883

INDIAN STANDARD INDUSTRIAL CLASSIFICATION—concld.

Major Group (Code)	Description	Minor Group (Code)
Division 8—Services—concld.		
88	*Personal Services*—concld.	
	Hair dressing, other services rendered by organisations and individuals such as those by barber, hairdressing saloon and beauty shops	884
	Services rendered by portrait and commercial photographic studios	885
89	*Services (not elsewhere classified)*—	
	Services rendered by organisations or individuals not elsewhere classified	890
Division 9—Activities not adequately described—		
90	Activities unspecified and not adequately described including activities of such individuals who fail to provide sufficient information about their industrial affiliation to enable them to be classified	900

11	*Directors and Managers, Wholesale and Retail Trade*—	
	Directors and Managers, Wholesale Trade	110
	Directors and Managers, Retail Trade	111
12	*Directors, Managers and Working Proprietors, Financial Institution*—	
	Directors, Managers and Working Proprietors, Banks	120
	Directors, Managers and Working Proprietors, Insurance	121
	Directors, Managers and Working Proprietors, Financial Institutions, n.e.c.	129
13	*Directors, Managers and Working Proprietors, Others*—	
	Directors, Managers and Working Proprietors, Mining, Quarrying and Well Drilling	130
	Directors, Managers and Working Proprietors, Construction	131
	Directors, Managers and Working Proprietors, Electricity, Gas, Water and Sanitary	132
	Directors, Managers and Working Proprietors, Manufacturing	133
	Directors, Managers and Working Proprietors, Transport and Communication	134
	Directors, Managers and Working Proprietors, Recreation, Entertainment and Catering Services	135
	Directors, Managers and Working Proprietors, Other Services	136
	Directors, Managers and Working Proprietors, n.e.c.	139
Division 2—Clerical and Related Workers		
20	*Book-keepers and Cashiers*—	
	Book-keepers, Book-keeping and Accounts Clerks	200
	Cashiers	201
	Ticket Sellers, Ticket Inspectors including Ushers and Ticket Collectors (excluding those on moving transport)	202
21	*Stenographers and Typists*—	
	Stenographers	210
	Typists	211
22	*Office Machine Operators*—	
	Computing Clerks and Calculating Machine Operators	220
	Punch Card Machine Operators	221
	Office Machine Operators, n.e.c.	229
28	*Clerical Workers Miscellaneous*—	
	General and other Ministerial Assistants and Clerks	280
	Miscellaneous Office Workers including Record Keepers, Muharrers, Despatchers, Packers and Binders of office papers	289
29	*Unskilled office Workers*—	
	Office Attendants, Ushers, Hall-porters, etc., n.e.c.	290

NATIONAL CLASSIFICATION OF OCCUPATIONS—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 3—Sales Workers		
30	*Working Proprietors, Wholesale and Retail Trade—*	
	Working Proprietors, Wholesale Trade	300
	Working Proprietors, Retail Trade	301
31	*Insurance and Real Estate Salesmen, Salesmen of Securities and Services, and Auctioneers—*	
	Agents and Salesmen, Insurance	310
	Agents, Brokers and Salesmen, Real Estate	311
	Brokers and Agents, Securities and Shares	312
	Auctioneers	313
	Valuers and Appraisers	314
	Insurance and Real Estate Salesmen, Salesmen of Securities and Services, and Auctioneers, n.e.c.	319
32	*Commercial Travellers and Manufacturers' Agents—*	
	Commercial Travellers	320
	Manufacturer's Agents	321
	Commercial Travellers and Manufacturers' Agents, n.e.c.	329
33	*Salesmen, Shop Assistants and Related Workers—*	
	Salesmen and Shop Assistants, Wholesale and Retail Trade	330
	Hawkers, Pedlars and Street Vendors	331
	Salesmen, Shop Assistants and Related Workers, n.e.c.	339
34	*Money-lenders and Pawn-brokers—*	
	Money-lenders (including Indigenous Bankers)	340
	Pawn-brokers	341
Division 4—Farmers Fishermen, Hunters, Loggers and Related Workers		
40	*Farmers and Farm Managers—*	
	Cultivators (Owners)	400
	Cultivators (Tenants)	401
	Farm Managers, Inspectors and Overseers	402
	Planters and Plantation Managers	403
	Farmers and Farm Managers, Animals, Birds and Insects Rearing	404
	Farmers and Farm Managers, n.e.c.	409
41	*Farm Workers—*	
	Farm Machinery Operators	410
	Farm Workers, Animals, Birds and Insects Rearing	411
	Gardeners (Malis)	412
	Tappers (Palm, Rubber trees, etc.)	413
	Agricultural labourers	414
	Plantation labourers	415
	Farm Workers, n.e.c.	419
42	*Hunters and Related Workers—*	
	Hunters	420
	Trappers	421
	Hunters and Related Workers, n.e.c.	429

NATIONAL CLASSIFICATION OF OCCUPATIONS—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 4—Farmers, Fishermen, Hunters, Loggers, and Related Workers—concld.		
43	*Fishermen and Related Workers—*	
	Fishermen, Deep Sea	430
	Fishermen, Inland and Coastal Waters	431
	Conch and Shell Gatherers, Sponge and Pearl Divers	432
	Fishermen and Related Workers, n.e.c.	439
44	*Loggers and Other Forestry Workers—*	
	Forest Rangers and Related Workers	440
	Harvesters and Gatherers of Forest Products including lac (except logs)	441
	Log Fellers and Wood Cutters	442
	Charcoal Burners and Forest Product Processers	443
	Loggers and Other Forestry Workers, n.e.c.	449
Division 5—Miners, Quarrymen and Related Workers		
50	*Miners and Quarrymen—*	
	Miners	500
	Quarrymen	501
	Drillers, Mines and Quarries	502
	Shot Firers	503
	Miners and Quarrymen, n.e.c.	509
51	*Well Drillers and Related Workers—*	
	Well Drillers, Petroleum and Gas	510
	Well Drillers, other than Petroleum and Gas	511
52	*Mineral Treaters—*	
	Mineral Treaters	
59	*Miners, Quarrymen and Related Workers, n.e.c.—*	520
	Miners, Quarrymen and Related Workers, n.e.c.	590
Division 6—Workers in Transport and Communication Occupations		
60	*Deck Officers, Engineer Officers and Pilots, Ship—*	
	Deck Officers and Pilots, Ship	600
	Ship Engineers	601
61	*Deck and Engine-Room Ratings (Ship), Barge Crews and Boatmen—*	
	Deck Ratings (Ship), Barge Crews and Boatmen	610
	Engine-Room Ratings, Firemen and Oilers, Ship	611
62	*Aircraft Pilots, Navigators and Flight Engineers—*	
	Aircraft Pilots	620
	Flight Engineers	621
	Flight Navigators	622
63	*Drivers and Firemen, Railway Engine—*	
	Drivers	630
	Firemen	631

NATIONAL CLASSIFICATION OF OCCUPATIONS —contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 6—Workers in Transport and Communications Occupation—concld.		
64	*Drivers, Road Transport*—	
	Tramcar Drivers	640
	Motor Vehicle and Motor Cycle Drivers	641
	Cycle Rickshaw Drivers and Rickshaw Pullers	642
	Animal Drawn Vehicle Drivers	643
	Drivers, Road Transport, n.e.c. (including *Palki* and *Doli* Bearers)	649
65	*Conductors, Guards and Brakesmen, (Railway)*—	
	Conductors	650
	Guards	651
	Brakesmen	652
66	*Inspectors, Supervisors, Traffic Controllers and Despatchers, Transport*—	
	Inspectors, Supervisors and Station Masters	660
	Traffic Controllers	661
	Signalmen and Pointsmen	662
67	*Telephone, Telegraph and Related Tele-communication Operators*—	
	Telephone Operators	670
	Telegraphists and Signallers	671
	Radio Communication and Wireless Operators	672
	Tele-printers Operators	673
	Telephone, Telegraph and Related Tele-communication Operators, n.e.c.	679
68	*Postmen and Messengers*—	
	Postmen	680
	Messengers (including Dak Peons)	681
69	*Workers in Transport and Communication Occupations, n.e.c.*—	
	Ticket sellers, Ticket Inspectors including Ushers and Ticket Collectors on moving transport	690
	Conductors, Road Transport	691
	Workers in Transport Occupations, n.e.c.	692
	Inspectors, Traffic Controllers and Despatchers, Communications	693
	Workers in Communication Occupations, n.e.c.	694
Division 7-8—Craftsmen, Production Process Workers, and Labourers, n.e.c.		
70	*Spinners, Weavers, Knitters, Dyers and Related Workers*—	
	Fibre Preparers, Ginners, Cleaners, Scourers, etc.	700
	Blow-room Workers and Carders	701
	Spinners, Piecers and Winders	702
	Warpers and Sizers	703
	Drawers and Weavers	704
	Pattern Card Preparers	705
	Bleachers, Dyers and Finishers (excluding Printers)	706
	Knitters and Lace Makers	707
	Carpet Makers and Finishers	708
	Spinners, Weavers, Knitters, Dyers and Related Workers, n.e.c.	709
71	*Tailors, Cutters, Furriers and Related Workers*—	
	Tailors, Dress Makers and Garment Makers	710
	Hat and Head-gear Makers	711

NATIONAL CLASSIFICATION OF OCCUPATIONS—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
	Division 7-8—Craftsmen, Production Process Workers, and Labourers, n.e.c.—contd	
71	*Tailors, Cutters, Furriers and Related Workers*—concld.	
	Furriers	712
	Upholsterers and Related Workers	713
	Pattern Makers, Markers and Cutters, Textile Products, Leather Garments and Gloves	714
	Sewers, Embroiderers and Darners, Textile and Fur Products	715
	Tailors, Cutters, Furriers and Related Workers, n.e.c.	719
72	*Leather, Cutters, Lasters and Sewers (except Gloves and Garments) and Related Workers*—	
	Shoe Makers and shoe Repairers	720
	Cutters, Lasters, Sewers, Footwear and Related Workers	721
	Harness and Saddle Makers	722
	Leather Cutters, Lasters and Sewers (except Gloves and Garments) and Related Workers, n.e.c.	729
73	*Furnacemen, Rollers, Drawers, Moulders and Related Metal Making and Treating Workers*—	
	Furnacemen, Metal	730
	Annealers, Temperers and Related Heat Treaters	731
	Rolling Mill Operators, Metal	732
	Blacksmiths, Hammersmiths and Forgemen	733
	Moulders and Coremakers	734
	Metal Drawers and Extruders	735
	Furnacemen, Rollers, Drawers, Moulders and Related Metal Making and Treating Workers, n.e.c.	739
74	*Precision Instrument Makers, Watch Makers, Jewellers and Related Workers*—	
	Precision instrument Makers, Watch and Clock Makers and Repairmen	740
	Jewellers, Goldsmiths and Silversmiths	741
	Jewellery Engravers	742
75	*Tool-Makers, Machinists, Plumbers, Welders, Platers and Related Workers*—	
	Fitter-machinists, Tool-makers and Machine Tool Setters	750
	Machine Tool Operators	751
	Fitter-assemblers and Machine Erectors (except Electrical and Precision Instrument Fitter-assemblers)	752
	Mechanics-repairmen (except Electrical and Precision Instrument Repairmen)	753
	Sheet Metal Workers	754
	Plumbers and Pipe Fitters	755
	Welders and Flame Cutters	756
	Metal Plate and Structural Metal Workers	757
	Electro-platers, Dip Platers and Related Workers	758
	Tool-makers, Machinists, Plumbers, Welders, Platers and Related Workers, n.e.c. (including Metal-engravers other than printing)	759
76	*Electricians and Related Electrical and Electronics Workers*—	
	Electricians, Electrical Repairmen and Related Electrical Workers	760
	Electrical and Electronics Fitters	761
	Mechanics-repairmen, Radio and Television	762
	Installers and Repairmen, Telephone and Telegraph	763
	Linemen and Cable Jointers	764
	Electricians and Related Electrical and Electronics Workers, n.e.c.	769

NATIONAL CLASSIFICATION OF OCCUPATIONS—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 7-8—Craftsmen, Production Process Workers, and Labonrers n.e.c.—contd.		
77	*Carpenters, Joiners, Cabinet Makers, Coopers and Related Workers—*	
	Carpenters, Joiners, and Pattern Makers (Wood)	770
	Shipwrights and Body Builders (Woo d)	771
	Sawyers and Wood Working Machinis ts	772
	Coach and Body Builders	773
	Cart Builders and Wheel Wrights	774
	Cabinet· Makers	775
	Carpenters, Joiners, Cabinet Mak ers, Coopers and Related Workers, n.e.c.	779
78	*Painters and Paper Hangers—*	
	Painters and Paper Hangers	780
79	*Bricklayers, Plasterers and Construction Workers, n.e.c.*	
	Stone Cutters, Stone Carvers and Stone Dressers	790
	Bricklayers, Plasterers, and Masons	791
	Glaziers	792
	Cement Finishers and Terrazzo and Mosaic Workers	793
	Hut Builders and Thatchers	794
	Well Diggers	795
	Bricklayers, Plasterers and Construction Workers, n.e.c.	799
80	*Compositors, Printers, Engravers, Book-binders and Related Workers—*	
	Type-setting Machine Operators	800
	Compositors	801
	Proof-readers and Copy Holders	802
	Printers (Paper)	803
	Printers (Textile)	804
	Photo-litho Operators, Photo-lithographers	805
	Engravers, Etchers and Block Makers (Printing)	806
	Stereotypers	807
	Book-binders	808
	Compositors, Printers, Engravers, Book-binders and Related Workers, n.e.c.	809
81	*Potters, Kilnmen, Glass and Clay Formers and Related Workers—*	
	Furnacemen, Kilnmen and Ovenmen	810
	Potters and Related Clay Formers	811
	Blowers and Benders, Glass	812
	Moulders and Pressers, Glass	813
	Grinders, Cutters, Decorators and Finishers	814
	Pulverisors and Mixers, Cement, Clay and other Ceramics	815
	Potters, Kilnmen, Glass and Clay Formers and Related Workers, n.e.c.	819
82	*Millers, Bakers, Brewmasters and Related Food and Beverage Workers—*	
	Millers, Pounders, Huskers and Parchers, Grains and Related Food Workers	820
	Crushers and Pressers, Oil Seeds	821
	Dairy Workers (Non-farm)	822
	Khandsari, Sugar and Gur Makers	823
	Bakers, Confectioners, Candy and Sweetmeat Makers	824
	Makers of Aerated Water and Brewers	825
	Food Canners, Preservers and Related Workers	826
	Butchers	827
	Coffee and Tea Blenders and Related Workers	828
	Millers, Bakers, Brewmasters and Related Food and Beverage Workers, n.e.c.	829

NATIONAL CLASSIFICATION OF OCCUPATIONS—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 7-8—Craftsmen, Productions Process Workers, and Labourers, n e.c.—concld.		
83	*Chemical and Related Process Workers —*	
	Batch and Continuous Still Operators	830
	Cookers, Roasters and other Heat Treaters, Chemical and Related Processes	831
	Crushers, Millers and Calenderers, Chemical and Related Processes	832
	Paper Pulp Preparers	833
	Paper Makers	834
	Chemical and Related Process Workers, n.e.c.	839
84	*Tobacco Preparers and Products Makers—*	
	Curers, Graders and Blenders, Tobacco	840
	Cigarette Machine Operators	841
	Cheroot, Cigar and Bidi Makers	842
	Snuff and Zarda Makers	843
	Tobacco Preparers and Products Makers, n.e.c.	849
85	*Craftsmen and Production Process Workers, n.e.c.—*	
	Basketry Weavers and Related Workers	850
	Tyre Builders, Vulcanisers and Related Rubber Products Makers	851
	Plastics Products Makers	852
	Tanners, Fellmongers, Pelt Dressers and Related Workers	853
	Photographic Dark Room Workers	854
	Makers of Musical Instruments and Related Workers	855
	Paper Products Makers	856
	Craftsmen and Production Process Workers, n.e.c.	859

Notes.—1. †The sq. km. and density figures of urban areas of Tahsil/District are worked out using the area figures corrected up to two places of decimals obtained by adding the areas of towns in the respective units, and not using the area figures given in the Table. In addition to this, the area figures relating to sq. km. are further adjusted to make the Tahsil/District totals tally.

2. Towns treated as such for the first time in 1951-census which continue as towns in 1961-census are shown with an asterisk (*) on their left.

3. Town treated as such for the first time in 1961=census is printed in italics.

4. The following abbreviations have been used for the status of a Town: —

M.C. = Municipal Committee.
N.A.C. = Notified Area Committee.

APPENDIX I TO TABLE A-I

Statement showing the 1951 territorial units constituting the present set up of District and Tahsils

District/Tahsil	Name	Area	Remarks
1	2	3	4
Karnal District	**Karnal District**	**3,097.0**	
	Minus:—7 villages of Kaithal Tahsil transferred to Ambala Tahsil of Ambala District	(—)11.0	Details of transfer are given in Annexure at No. 1
Kaithal Tahsil	Kaithal Tahsil	1,221.0	
	Minus:—7 villages transferred to Ambala Tahsil of Ambala District	(—)11.0	Details of transfer are given in Annexure at No. 2
Thanesar Tahsil	Thanesar Tahsil	554.0	
Karnal Tahsil	Karnal Tahsil	861.0	
Panipat Tahsil	Panipat Tahsil	461.0

APPENDIX TO TABLE B-IV PART C

Minor Groups having less than 1 % of Workers of the respective Division (less than 0.5% in case of Minor Groups of Division 2 & 3), have been shown in this Appendix. The following abbreviations have been used:—

HI = Household Industry
M = Males
NHI = Non-Household Industry
F = Females

Karnal District

005 : Total NHI (M 9, F 1), Urban NHI (M 3, F 1). **007** : Total HI (F 1), NHI (M 43, F 16), Urban HI (F 1), NHI (M 43, F 16). **009** : Total NHI (M 85, F 3), Urban NHI (M 83, F 3). **010** : Total NHI (M 1), Urban NHI (M 1). **013** : Total NHI(M6). **021** : Total NHI (M 110), Urban NHI (M 9). **023** : Total HI (F 3), NHI (M 101, F 1), Urban HI (F 2), NHI (M 98, F 1). **025** : Total HI (M 16), NHI (M 6). **026** : Total NHI (M 27). **031** : Total HI (M 2), NHI (M 13), Urban NHI (M 12). **043** : Total HI (M 60, F 20), NHI M 7, F 3), Urban HI (M 9, F 1), NHI (M 2). **045** : Total HI (M 1, F 4), NHI (M 5), Urban HI (M 1, F 4), NHI (M 5). **046** : Total HI (M 1), NHI (M 5), Urban HI (M 1). **047** : Total NHI (M5), Urban NHI (M 1). **048** : Total HI (M 39, F 1), NHI (M 26, F 1), Urban HI (M 11, F1), NHI (M 4). **203**: Total HI (M4, F 1), NHI (M16, F 2), Urban HI (M 2, F 1), NHI (M16, F2). **204** : Total NHI (M 17), Urban NHI (M 17). **205** : Total HI (M 15), NHI (M 74), Urban HI (M 15), NHI (M 74). **206** : Total HI (M 17, F 1), NHI (M 87, F 1), Urban HI (M 16), NHI (M 86, F 1). **207** : Total HI (M 67, F 27), NHI (M 113, F 6), Urban HI (M 4, F 1), NHI (M 107, F 2). **210** : Total HI (M 1), NHI (M 54, F 1), Urban NHI (M 52, F 1). **211** : Total NHI (M 3). **213** : Total NHI (M 5). **214** : Total HI (M 2), NHI (M 41), Urban HI (M 2), NHI (M 39). **215** : Total NHI (M 27), Urban NHI (M 26). **216** : Total HI (M 6, F 1), NHI (M 43), Urban HI (M 3), NHI (M 41). **217**: Total NHI (M 1), Urban NHI (M 1). **219** : Total NHI(M 1). **222**: Total NHI (M 1), Urban NHI (M 1). **223** : Total HI (M 1), NHI (M 3), Urban HI (M 1), NHI (M 3). **230**: Total HI (M 62, F 7), NHI (M 159, F 8), Urban HI (M 6, F 3), NHI (M 153, F 8). **232** : Total NHI (M 36, F 22), Urban NHI (M 13, F 18). **233** : Total HI (M 48, F 7), NHI (M13, F 6), Urban HI (M 6), NHI (M 2, F 1). **234** : Total HI (M2, F4), NHI (M 12), Urban NHI (M 11). **236** : Total HI (M 27, F 1), NHI (M 68, F 5), Urban HI (M 11), NHI (M 30, F 5). **237** : Total HI (M 6, F 1), NHI (M 12), Urban NHI (M 9). **238**: Total NHI (M 10, F 4). **239** : Total HI (M 3, F 1), NHI (M 11, F 2), Urban HI (F 1), NHI (M 10, F 1). **240** : Total NHI (M 1). **241** : Total HI (M 1). **242** : Total NHI (M 1), Urban NHI (M 1). **250**: Total HI (M 2, F 3), NHI (M 109, F 88), Urban HI (M 1, F 3), NHI (M 109, F 88). **251** : Total HI (F 10), NHI (M 22, F 29), Urban HI (F 10) NHI (M 21, F 29). **252** : Total NHI (M 78, F 21), Urban NHI (M 78, F 21). **253** : Total HI (M 3, F 140), NHI (M 6, F 12), Urban HI (M 3, F 138), NHI (M 6, F 11). **254** : Total NHI (M 16, F 1), Urban NHI (M 13, F 1). **255** : Total HI (M 20, F 13), NHI (M 19, F 6), Urban HI (M 20, F 13), NHI (M 19, F 1). **256** : Total HI (F 32), NHI (M 2, F 2). **261** : Total HI (M 3). **265** : Total HI (M 1), NHI (M 1). **266** : Total HI (M 10). **270** : Total HI (M 38, F 85), NHI (M 82, F 4), Urban HI (M 19, F 6), NHI (M 61, F 1). **271** : Total HI (M 20, F 58), NHI (M 24, F 6), Urban HI (M 4, F 4), NHI (M 8, F 1). **272** : Total HI (M 10, F 28), NHI (M 39, F 8), Urban HI (M 6, F 25), NHI (M 38, F 5). **275** : Total HI (M 1), NHI (M 1), Urban HI (M 1), NHI (M 1). **276** : Total HI (M 1), NHI (M 2, F 1), Urban HI (M 1), NHI (M 2, F 1). **277** : Total NHI (M 1), Urban NHI (M 1). **279** : Total NHI (M 4), Urban NHI (M 3). **284** : Total HI (F 1), NHI (M 16), Urban HI (F 1), NHI (M 14). **286** : Total NHI (M 3), Urban NHI (M 3). **287** : Total HI (M 4). **290** : Total NHI (M 33), Urban NHI (M 5). **291** : Total HI (M 2), NHI (M 1), Urban NHI (M 1). **292** : Total HI (M11, F 4), NHI (M 9), Urban HI (M 10, F 4), NHI (M 7). **300** : Total NHI (M 4), Urban NHI (M 2). **301** : Total NHI (M 9), Urban NHI (M 9). **302** : Total HI (M 2), NHI (M 208), Urban HI (M 1), NHI (M 189). **303** : Total HI (M 4), NHI (M 19), Urban HI (M 3), NHI (M 15). **313** : Total HI (M 64, F 3), NHI (M 3, F 1), Urban HI (M 64, F 3), NHI (M 3). **315** : Total NHI (M 1). **320** Total NHI (M 41), Urban NHI (M 13). **321** : Total NHI (M 1). Urban NH (M 1). **323** : Total NHI (M 4), Urban NHI (M 4). **324**: Total NHI (M 17), Urban NHI (M 17). **330** : Total NHI (M 55), Urban NHI (M 52). **331** : Total HI (M 7, F 3), NHI (M 3, F 4), Urban NHI (M 3). **332** : Total NHI (M 5, F 2), Urban NHI (M 5, F2). **333** : Total NHI (M 1), Urban NHI (M 1). **334**: Total NHI (M 9), Urban NHI (M 9). **335** : Total HI (M 26), NHI (M 62), Urban HI (M 4), NHI (M 60). **336** : Total HI (M 21), NHI (M 30), Urban HI (M 19), NHI (M 24). **337** : Total HI (M 6), NHI (M 3, F 1), Urban HI (M1), NHI (M3, F1). **338** : Total NHI (M 12), Urban NHI (M 12). **339** : Total HI (M 2), NHI (M 29, F 7), Urban HI (M 2), NHI (F 1). **341** : Total HI (M 4), NHI (M 10, F 1), Urban HI (M 4), NHI (M 10). **342** : Total NHI (M 1), Urban NHI (M 1). **343** : Total NHI (M 13), Urban NHI (M 8). **345** : Total NHI (M 1), Urban NHI (M1). **348** : Total HI (M 2), NHI (M 2), Urban NHI (M 1). **351** : Total NHI (M 3), Urban NHI (M 3). **353** : Total HI (M 80), NHI (M 2), Urban NHI (M 2). **354** : Total NHI (M 4), Urban NHI (M 4). **356** : Total HI (M 40, F 10), Urban HI (M 5, F 6). **357** : Total NHI (M 3). **359** : Total NHI (M 2 F 15). **360** : Total NHI (M 101), Urban NHI (M 36). **361** : Total NHI (M 6). **364** : Total HI (M 2), NHI (M 26). **365** : Total HI (M 13, F 1), NHI (M 45), Urban HI (M 9), NHI (M 36). **366** : Total HI (M 1, F 1), Urban HI (M 1, F 1). **367** : Total HI (M 6), NHI (M 41), Urban HI (M 4), NHI (M 41). **368**: Total HI (M 14), NHI (M 145), Urban HI (M 7), NHI (M 134). **370** : Total HI: (M 10), NHI (M 23, F 1), Urban NHI (M 20, F 1). **371** :

APPENDIX TO TABLE B-V

Families having less than 1% of workers of the respective Division (less than 0.5% in case of Families of Division 7-8) have been shown in this Appendix. The following abbreviations have been used:—

III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting & Plantations, Orchards & Allied Activities
IV At Household Industry
V In Manufacturing other than Household Industry
M=Males
VI In Construction
VII In Trade and Commerce
VIII In Transport Storage and Communications
IX In Other Services
F= Females

APPENDIX TO TABLE B-VII PART A

Major Groups of Household Industry, where Persons having Secondary Work as Cultivation or Agricultural Labourer are less than 5 % of the Persons having the Major Group as Principal Work, have been shown in this Appendix.

The following Abbreviations have been used :—

I—Cultivator; II—Agricultural Labourer;
M=Males; and F=Females

Karnal District

04 : Total I (M 144, F 24), II (M 141, F 19), Rural I (M 118, F 20), II (M 139, F 19), Urban I (M 26, F 4), II (M 2); **20 :** Total I (M 30, F 2), II (M 34, F 1), Rural I (M 28, F 2), II (M 33, F 1), Urban I (M 2), II (M 1); **23** Total I (M 6, F 5), II (M 12 F 11), Rural I (M 2, F 3), II (M 11, F 11), Urban I (M 4, F 2), II (M 1); **24 :** Total I (M 1, F 2), II (M 4), Rural I (M 1, F 2), II (M 4); **27 :** Total I (M 31, F 15), II (M 9, F 2), Rural I (M 31, F 14), II (M 9, F 1), Urban I (F 1), II (F 1) : **28 :** Total I (M 98 F 2), II (M 34, F 4), Rural I (M 90, F 2), II (M 32, F 2), Urban I (M 8), II (M 2, F 2) ; **31 :** Total I (M 63, F (7), II (M 94 F 2), Rural I (M 60, F 7), II (M 83, F 2), Urban I (M 3), II (M 11); **33 :** Total I (M 2), Rural (M 1), Urban I (M 1); **34-35 :** Total I (M 20, F 6), II (M 18, F 1), Rural I (M 18, F 6), II (M 18, F 1), Urban I (M 2); **36 :** Total I (M 68), II (M 13), Rural I (M 67), II (M 13), Urban I (M I); **38 :** Total I (M 10), Urban I (M 10); **39 :** Total I (M 20), II (M 17), Rural I (M 20), II (M 17).

2850	Manufacture of match splinters, plywood and veneers	1	1	..
2882	Making of rope mats, etc. from moonj and sawai grass and making of cadjar for thatching purposes	29	28	1
2883	Making of mats, handfans and umbrellas from palm leaves	3	3	..
2884	Making of sirki, moora and chhaj	43	20	23
2885	Making of baskets and broomsticks	73	71	2
2886	Making of donas (drone) and pattals (patravali) from leaves	1	1	..
2888	Making of chicks, cuscus-tatti and fans, sticks and poles from bamboo	2	2	..
2889	Manufacture of other articles from leaf, cane, bamboo, cork and other allied products, n.e.c.	2	1	1
2893	Making of cart wheels	3	1	2
2921	Making of envelopes and paper bags	1	..	1
3030	Book binding, stitching, sizing and other work connected with book binding industry	1	..	1
3101	*Flaying, processing of hides and skins, including taxidermy*	3	3	..
3102	Currying, tanning and finishing of hides and skins-preparation of finished leather	96	81	15
3111	Making of leather boots, shoes or chappals (slippers, sandals)	954	836	118
3130	Manufacture of leather products such as leather upholstery, suitcases, pocket-books, cigarette and key cases, purses, saddlery, whip, acquaducts (kos), charsa and other articles	2	2	..
3140	Repair of shoes, chappals and other leather footwear	38	23	15
3200	Vulcanising tyres and tubes	1	..	1
3356	Manufacture of mascara and kajal	1	1	..
3357	Manufacture of medicines (ayurvedic, unani, etc.) and pharmaceutical preparations	1	1	..
3361	Manufacture of soap and washing soda	11	6	5
3362	Manufacture of other washing and cleaning compounds, n.e.c.	7	7	..
3380	Salt production	8	8	..
3391	Manufacture of ink including fountain pen ink	2	..	2
3395	Manufacture of other chemicals products n.e.c.	12	12	..
3401	Making of bricks	74	73	1
3500	Making of earthenware such as pottery, etc.	472	444	28
3561	Making of earthen toys and artware	1	1	..
3651	Making of utensils of brass and bell metal	3	..	3
3683	Engraving, embossing, polishing and welding of metal products	4	2	2
3691	Manufacture of agricultural implements such as plough share, khurpi, kudal, etc.	164	161	3
3694	Making and repairing of locks and trunks	7	5	2
3695	Cutlery	1	..	1
3698	Foundry industry (including blacksmithy)	138	109	29
3720	Manufacture of small machine tools and machine parts	1	..	1
3780	Repairing and servicing of radios	3	..	3
3840	Repairing and servicing of automobiles	1	..	1
3851	Manufacture of cycle parts and accessories such as saddle, seat frame and gear, etc.	2	1	1
3880	Repair of cycle and rickshaw	29	12	17
3890	Manufacture of animal drawn and hand drawn vehicles such as bullock cart, tamtam, lagadi, palaki cab, wheelbarrow, hand-barrow, etc.	5	2	3
3920	Repairing and servicing of watches and clocks	3	1	2
3932	Goldsmithy	201	155	46
3933	Manufacture of jewellery, silverware, and ware using gold and other precious metal and precious and semi-precious stones	1	1	..
3936	Manufacture of gold and silver leaves	1	..	1
3939	Manufacture of jewellery, silverwares, etc., n.e.c.	1	1	..
3940	Manufacture, repairing and tunning of musical instruments such as harmonium, tabla, sitar, bansuri etc.	3	1	2
3991	Making of tikka and cowdung cakes	3	3	..
3998	Repaiar of petromax lights, etc.	1	1	..
3999	Making and repairing of goods, n.e.c.	71	66	5

APPENDIX TO TABLE B-XVI

Major Groups of Household Industry, having less than 10 per cent of the figures of the respective Division, have been shown in this Appendix. The following abbreviations have been used:—

IN ADDITION TO CULTIVATION	WITHOUT CULTIVATION
A means 1—3 Months	E means 1—3 Months
B means 4—6 Months	F means 4—6 Months
C means 7—9 Months	G means 7—9 Months
D means 10 Months to 1 Year	H means 10 Months to 1 Year
X means Months not stated	Y means Months not stated

Panipat Tahsil	:	Villages	350
	:	Towns	358
Alphabetical List of Villages in Karnal District			365

EXPLANATORY NOTE

1. In this Part are presented for each Village and Town in the District, its area and 1961 population, classified by sex and main industrial categories. The term *village*, in all censuses from 1901, has been used for an area for which a separate Record of Rights is maintained, or which has been separately assessed to Land Revenue, or would have been so assessed if the Land Revenue had not been realised or compounded or redeemed, or which the State Government has, otherwise, declared as an *estate*. This definition of village is identical with that of *mauza* under section 3(1) of the Punjab Land Revenue Act, 1887. The definition applies to a demarcated area of land and not to residential sites. In hills cultivation is generally scattered and the population generally lives in homesteads built on individual farms or in groups of hamlets. There also the revenue estate is known as *mauza*, but the smaller units are called *tikkas* in Kangra District, except in Kulu where the revenue estate is termed as *kothi* and the smaller unit as *phati*. In Lahaul & Spiti District, the revenue estate is referred to as *kothi* and its smaller component as *gaon*.

2. Villages having no population have been shown as *Uninhabited*. They have been retained in the Directory since they bear Hadbast numbers.

3. In the Village Directory, villages are presented Tahsilwise, and within a Tahsil in order of their Location Code Numbers. The Code Numbers were assigned for the purpose of 1961 Census work, as far as possible arranging the villages from north-west to south-east. The Hadbast numbers are shown in **Column 2**. The Tahsil map shows the location of each village identified by its Hadbast number.

4. The Town Directory, appearing after the Village Directory of each Tahsil, presents Census figures for all towns in that Tahsil, giving details for their Wards/Blocks. An Urban area or Town is a place having local administration, such as Municipal Committee or Cantonment Board, or has been treated as a Town because of its having :

(a) a population of over 5,000; and

(b) 75 p.c. or more of male workers there engaged in non-agricultural occupations.

5. **Column 3** gives information on *amenities* based on the *Village Notes* prepared by the Patwaris at the time of the 1961 Census. These *Village Notes* contain several useful items of information which it has not been possible to present in this Directory for want of space. The *amenities* relate to education, medical facilities, Post and Telegraph, safe water-supply and electrification, and are indicated by the following abbreviations :—

P—Primary School.

M—Middle School.

H—High School.

C—College, including higher institutions.

T—Technical Institution.

D—Dispensary.

Rhc—Rural Health Centre.

Hos—Hospital.

Mp—Medical Practitioner.

Mcw—Maternity and Child Welfare Centre.

Po—Post Office.

P&T—Post and Telegraph Office.

S—Safe or protected supply of drinking-water.

E(A)—Electricity for agricultural use.

E(D)—Electricity for domestic use.

Information on 'amenities' was not collected for urban areas.

6. **Column 4** shows geographical area, information for which was obtained from the Village Papers as supplied by the Deputy Commissioners in the case of rural areas. The information for urban areas was obtained from local authorities, and wherever possible checked from the records of the Department of Local Self Government.

7. **Column 5** relates to *occupied houses*, i.e., houses used as dwellings or conjointly as dwellings and for some other purpose, e.g., shop-cum-dwellings. **Column 6** shows the number of *households*. A *household* means the entire group of persons who commonly live together in the same house, and take their meals from the common kitchen or mess.

8. **Columns 10 to 13** present the number of persons belonging to Scheduled Castes and Scheduled Tribes as notified in Government of India, Ministry of Home Affairs communication No. S.R.O. 2477-A, dated the 29th October, 1956, and published as "The Scheduled Castes and Scheduled Tribes Lists Modification Order, 1956".

9. **Columns 14 and 15** give the number of literate and educated persons. A *literate* person was taken as one who could read and write a simple letter. In case he had passed a written examination as proof of an educational standard, he was recorded as *educated.*

10. **Columns 16 to 37** present figures for *Workers* and *Non-Workers.* For the definition of the term *Worker* and a *Non-worker* and description of the categories of workers, the reader may see the Explanatory Note to Part III in this volume. The nine categories of workers have been denoted by Roman numerals :

I — Working as cultivator (owner cultivator or tenant).

II — Working as agricultural labourer.

III — Working in mining, quarrying, livestock, forestry, fishing, hunting and plantations, orchards and allied activities.

IV — Working on household industry.

V — Working in manufacturing other than household industry.

VI — Working in construction.

VII — Working in trade and commerce.

VIII— Working in transport, storage and communications.

IX — Working in other services.
