KOLLERU LAKE

The motif presented on the cover page represents 'Kolleru Fresh Water Lake' situated in between West Godavari and Krishna Districts.

Kolleru area is spread over parts of Gudivada and Kaikalur taluks of Krishna district and Eluru, Tadepalligudem and Bhimavaram taluks of West Godavari District. There are 122 villages in and around Kolleru area in Krishna and West Godavari Districts.

The lake bed is a natural depression on ground bounded by the Bay of Bengal on the East and the Krishna (Eluru) and Godavari (Eluru) canals on the West and the Godavari and Krishna river mouths on the North and South, respectively, covering an area of 520 sq. kms. The source of water for the lake is catchment area of nearly 12,376 sq. kms. and main rivulets/streams like Budameru, Thammileru, etc. A few deltaic drains also join the lake. The enormous waters collected into the lake is discharged through 'Upputeru' river which joins the Bay of Bengal after running a distance of 43 kms. The inflow of water into the lake is of the order of 110,920 cusecs per second whereas the discharging capacity of water through Upputeru is only 6,650 cusecs. This factor, by and large, contributes for frequent floods in Kolleru area. The average rain fall in Kolleru basin works out to 933 mm. per year for the past 40 years.

There are 46 bed villages and 76 belt* villages in and around the lake area. Rice is the staple food of the inhabitants. No trees can be seen in this area. Even palmyrah which grows commonly in the delta as well as uplands is not found here. The area is full of weeds and shrubs.*

The lake is a source of delight though it brings sorrow at times. The fleets of ducks that sail in the placid waters arrest our attention. The fish underneath the water skip and dance merrily. A lover of birds can while away time simply staring at the exotic birds that fly into the lake from far away and unknown lands of the globe.

For the poor people who live in the islets, the lake, however, is a curse. The farmers bemoan that the first crop is submergible and the second crop is doubtful. Hundreds of hectares of land lie buried under water even as the baby boom goes unabated and hunger stalks the land. Hence this lake area is thinly populated. More often than not, the harvest during second crop season fails due to the vagaries of nature. The rigours of farming have had even bred a new class – the enginedars (owners of oil engines) who hire oil engines for baling water out of fields which are bunded.

In the lake, the area below + 3 contour is unsuitable for cultivation. Few areas between + 3 and + 5 contours can be brought under 2nd crop. But the yield on cultivation is only 1.25 tonnes per hectare valued at Rs. 1,875/-, whereas composite fish culture in this area yields 3,000 kgs. of fish valued at Rs. 12,000/- per hectare. Hence, this area is considered more suitable for fish culture than agriculture. The lake is a good source of fish breeding specially fishes like clarious, murrels, anabas, etc. Prawns and fry too form an important commercial fishery of the lake. Important fishes like catla, rohita and cat fishes abound in this lake. Every year, an estimated quantity of about 7,500 tonnes of fish valued locally at Rs. 142 lakhs is being exploited from this lake and transported to different parts of the State as well as outside the State.

The branded name 'lake of sorrow' to the Kolleru is gradually vanishing due to implementation of various development schemes by the Government of Andhra Pradesh. As a first ever attempt, the Government of Andhra Pradesh constituted a joint team in 1974 consisting of officers of Agriculture, Fisheries and Co-operative Departments for clear suggestions to the alround development of Kolleru. The team indicated the areas for agriculture, fish culture and drainage courses and irrigation channels. Based on the material furnished by the team and recommendations made by the Collectors of West Godavari and Krishna districts, a scheme has been formulated with a total financial outlay of Rs. 209.26 lakhs. No where in India is so much of water-spread area at one place brought under fish culture. The number of fish tanks constructed for fish culture reached 140 by the end of 1980.

A number of varieties of birds breed and live in this lake area. Of them pelkins, burrupitta, palapitta, gavarakaki, white crane are some of the native birds and paraja, kolletiguda, nallamukkulu, sea-parrot, etc., are migratory birds. It is said that birds in large numbers migrate to the lake area from Fiji Islands every year in the month of October.

Thus Kolleru is not only turning like a tourist centre but also being proved a show piece for the entire country with the battery of fish tanks for development of fishery on modern and scientific lines contributing to the national wealth.

---

*If the entire geographical area of a village is liable for submersion, it is called bed village and when a part of the village adjoins Kolleru bed and is liable for submersion, it is called belt village.

FOREWORD

The district census handbook (DCH), compiled by the Census Organisation on behalf of the State Governments, is one of the most valuable products of the Census. The DCH is constantly referred to by planners, administrators, academicians and researchers. It is *inter alia* used for delimitation of constituencies, formulation of local level and regional plans and as an aid to district administration. The district census handbook is the only publication which provides Primary Census Abstract (PCA) data upto village level for the rural areas and wardwise for each city or town. It also provides data on infrastucture and amenities in villages and towns, etc.

The district census handbook series was initiated during the 1951 Census. It contained important census tables and PCA for each village and town of the district. During 1961 Census the scope of the DCH was enlarged and it contained a descriptive account of the district, administrative statistics, census tables and a village and town directory, including PCA. The 1971 DCH series was planned in three parts. Part-A related to village. and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. However, in some states it was confined to district census tables and in a few cases altogether given up due to delay in compilation and printing.

While designing the format of 1981 DCH series some new features along with the restructuring of the formats of village and town directory have been attempted. At the same time, comparability with the 1971 data has also been kept in view. All the amenities except power supply in the village have been brought together in the village directory with the instruction that in case an amenity is not available in the referrent village the distance in broad ranges from the nearest place where the amenity is available may be given. The restructuring of the form at of the village directory and incorporating more exhaustive data on infrastructure aspect particularly in relation to amenities and land-use pattern is expected to further meet the need of micro level planning for rural areas It is expected to help not only in the local area planning but in the regulating of the provision of goods and services as well as in minimising the regional imbalances in the process of development. A few new items of information have also been introduced to meet some of the requirements of the Revised Minimum Needs Programme. Information on adult literacy centres, primary health subcentres and community health workers in the village have been introduced in the village directory with this objective in mind The new item on approach to the village is to have an idea about the villages in the district which are inaccessible. A new column, "total population and number of households" has been introduced to examine the correlation of the amenities with the population and number of households they serve. Addition of two more appendices listing the villages where no amenities are available and according to the proportion of scheduled caste and scheduled tribe population to the total population has also been made with this view in mind.

The formats of the town directory have also been modified to meet the requirements of the Minimum Needs Programme by providing information on a few new items. A new statement on civic and other amenities in slums in Class I and Class II towns (Statement IV-A) has been introduced with this objective in mind. It is expected that this will help the planners to chalk out programmes on provision of civic amenities for the improvement of slums. The columns on scheduled Castes and Scheduled Tribes population in Statement IV relating to civic and other amenities and adult literacy classes/centres under educational facilities in statement V are also added *inter alia* with this view. A significant addition is class of town in all the seven statements of the town directory. The infrastructure of amenities in urban areas of the country can be best analysed by taking the class of towns into consideration. The addition of the columns on civic administration status and population in a few statements also serves this purpose.

The format of the primary census abstract for the villages and towns has been formulated in the light of changes in the economic and other questions canvassed through the individual slip of 1981 Census.

In order to avoid delay in publication of 1981 DCH series it has been so designed that Section I & II of the volume contains village and town directory and Section III, the PCA of villages and towns including the Scheduled Castes and Scheduled Tribes PCA upto Taluk/Town levels. At the beginning of the DCH a detailed analytical note supported by a number of inset tables based on PCA and non-census data in relation to the infrastructure has been introduced to enhance its value. The district and taluk/town level maps depicting the boundaries and other important features have been inserted at appropriate places, to further enhance the value of the publication.

This publication is a joint venture of the State Government and the Census Organisation. The data have been collected and compiled in the State under the direction of Shri S. S. Jaya Rao, I.A.S., Director of Census Operations, Andhra Pradesh, Hyderabad, on behalf of the State Government which has borne the cost of printing. The task of planning, designing and coordination of this publication was carried out by Dr. N. G. Nag, Deputy Registrar General (Social Studies) of my office, Dr. B. K. Roy, Deputy Registrar General (Map) provided the technical guidance in the preparation of the maps. Data received from Census Directorates have been scrutinised in the Social Studies Division at the head-quarters under the guidance of Shri M.M. Dua, Senior Research Officer. I am thankful to all who have contributed in this project.

New Delhi

P. PADMANABHA
Registrar General, India

PREFACE

The District Census Handbook, a valuable publication containing census information has become a constant guide in the fields of planning and administration right from the village to State level, besides serving the needs of academicians and researchers. This publication provides Primary Census Abstract data upto grass root level for both rural and urban areas. It also provides data on infrastructure and amenities available in villages and towns.

Sri P. Padmanabha, IAS, Registrar General, India, in his foreword has succinctly explained the scope and contents of District Census Handbook from 1951 to 1981. A review of this publication for the last three decades reveals tremendous improvement in the presentation of data. The District Census Handbook of 1981 Census comprises of two parts – Part A – detailed analytical note supported by a number of inset tables based on census and non-census data in relation to infrastructure and Part B–Village and Town directory as well as Primary Census Abstract of villages and towns, and these two parts are composed in a single volume. An attempt has been made to provide exhaustive data on infrastructure aspects to meet the Minimum Needs Programme of the Planning Commission. Certain new features like, location of adult literacy centre, availability of the services of community health worker and method of approach to village, in the village directory format and certain additional features like access to adult literacy programme, existence of working women's hostel and presentation of data on civic amenities on notified towns by size class of town in town directory, are sequel to the Minimum Needs Programme.

Analytical notes have been incorporated, explaining the history of the district with changes, if any, of the district or of the taluk or of the villages between 1971–81, besides the census concepts, codes used in various statements and places of tourist interest. District and Taluk maps which are prepared in this office on the basis of maps certified by the competent authorities also have been incorporated. In the district map, just to avoid over crowding, the villages having more than 5,000 population alone have been shown by names. For the rest, one has to refer to the alphabetical list of villages of each taluk, presented in Part B of this publication.

This publication is a joint venture of both Central and State Governments. The processing including compilation, tabulation and finalisation of the write up, is done in the Office of the Director of Census Operations, while the cost of the paper and printing required for this publication is being borne by the State Government. The Andhra Pradesh State Government have readily agreed to bear the cost of publication for 1981 District Census Handbooks. I am grateful to the A. P. State Government and in particular to the Chief Secretary, Sri S. R. Rama Murthy, IAS, for his co-operation and encouragement. I am thankful to the Director of Printing, Government of Andhra Pradesh for selecting good private presses to print these Handbooks. The data presented in the village and town directories are obtained from the State and Central Government departments, but for whose co-operation, Part A and B of the Handbooks could not have been compiled. I am thankful to all those departments which have provided the data required.

I am extremely grateful to Sri P. Padmanabha, IAS,. Registrar General and Census Commissioner for India and Dr. N. G Nag, Deputy Registrar General for formulating the contents of the Handbook in detail. I have also been considerably assisted by Dr. B. K. Roy, Deputy Registrar General (Map) and Sri M. M. Dua, Senior Research Officer (S.S.).

The arduous task of collection, compilation, scrutiny and preparation of analytical note of this volume laid heavy burden on the staff of the District Census Handbook section. The credit goes chiefly to Sri B. Satyanarayana who worked as Assistant Director as well as Deputy Director of Census Operations

while handling this subject. He took great pains to tour the districts, contact various officers of the district and culled out information from various sources. Sri Y. G. Krishna Murthy, Deputy Director of Census Operations and Sri A. C. Reddy, Assistant Director of Census Operations of my office have also involved themselves in the processing of this most important census publication programme. Sri Shyam Deo, Research Officer ably guided the preparation of the maps iucluded in this publication.

The following officials of my office worked on the present volume of West Godavari District Census Handbook.

Smt.	P. Lalitha, Investigator	Drafting and Scrutiny and Supervision of Printing
Sri	N. C. Hanumantha Reddy, Tabulation Officer	
Smt.	P. A. M. Tayaru, Tabulation Officer	
Sri	V. Ananthasayana Rao, Statistical Assistant	Supervision of Printing
Sri	K. Ramesh Reddy, Computor	
Sri	T. B. Ramchander, Statistical Assistant	Collection, Compilation, Scrutiny of maps and proof reading
Sri	M. Narsing Rao, Statistical Assistant	
Sri	G. K. Yadagiri, Statistical Assistant

I am thankful to their services.

My endeavour has been to present data concerning each district as detailed as possible and I hope this volume will prove useful for all data users.

S. S. JAYA RAO
Director of Census Operations

CONTENTS

Part A — Pages

1 Important statistics of the district — ix–x

2 Map of the district — Facing Page [i]

3 Analytical note

(i) Brief history of the district — [1–7]

(ii) General, physical aspects, hills, rivers, flora, fauna, climate, rainfall, soils, history of district as an administrative unit and changes in its component parts in general and during the decade in particular ... — [8–19]

(iii) Major characteristics of the district particularly in relation to the economic resources namely forestry, minerals and mining, electricity and power, land and land-use pattern, tenancy, agriculture, animal husbandry, fishery, industry, trade and commerce, transport, etc. ... — [20–21]

(iv) Brief description of places of religious, historical or archaeological importance in villages and places of tourist in the towns of the district ... — [22–25]

(v) Census concepts of rural and urban areas and other terms namely census house, household, scheduled castes/scheduled tribes, literates, main worker, marginal worker, non-worker, etc. ... — [26–28]

(vi) The history of district census handbook, scope of village directory, town directory statements and PCA ... — [29–36]

(vii) Brief analysis of the village and town directory, PCA data based on inset tables and a note on physically handicapped persons ... — [37–55]

Part B – Village and Town Directory and Primary Census Abstract

SECTION I – VILLAGE DIRECTORY

(i) Note explaining the codes used in the Village Directory — 1–2

(ii) Village Directory with Taluk Map on facing page of alphabetical list

1 Polavaram Taluk 3–15
2 Chintalapudi Taluk 17–31
3 Eluru Taluk 33–41
4 Bhimadole Taluk 43–51
5 Tadepalligudem Taluk 53–59
6 Gopalapuram Taluk 61–67
7 Kovvur Taluk 69–77
8 Tanuku Taluk 79–85

9	Ganapavaram Taluk	87–95
10	Akiveedu Taluk	97–103
11	Bheemavaram Taluk	105–109
12	Penumantra Taluk	111–117
13	Poduru Taluk	119–125
14	Narsapur Taluk	127–131

(iii) *Appendices (I-IV) to the Village Directory* 132–151

(iv) L. C. Nos. for three decades (1961 to 1981) 153–196

SECTION II – TOWN DIRECTORY

(i) Note explaining the codes used in the Town Directory 197–198

(ii) Town Directory statements (I to VI A) 200–213

SECTION III – PRIMARY CENSUS ABSTRACT

(i) District PCA 216–221

(ii) Taluk-wise PCA

(a) 1	Polavaram Taluk	223–233
2	Chintalapudi Taluk	235–243
3	Eluru Taluk	245–255
4	Bhimadole Taluk	257–261
5	Tadepalligudem Taluk	263–269
6	Gopalapuram Taluk	271–275
7	Kovvur Taluk	277–285
8	Tanuku Taluk	287–295
9	Ganapavaram Taluk	297–303
10	Akiveedu Taluk	305–311
11	Bheemavaram Taluk	313–319
12	Penumantra Taluk	321–329
13	Poduru Taluk	331–339
14	Narsapur Taluk	341–347

(b) Description of Urban Enumeration Blocks 348–438

(c) Appendix to Urban PCA 439–470

(iii) Special PCA on SC and ST 472–479

HISTORY

A complete picture of the history of the district was presented in the 1961 West Godavari District Census Handbook. In this present volume, a very sketchy picture of the district is presented avoiding, however, information of transitory nature.

The history of West Godavari district may be traced to the period when Chandragupta, the founder of Mauryan dynasty, overthrew the Nandas and assumed control over the empire which included a large portion of the Deccan. He was succeeded by his son Bindusara who conquered the Andhra territory which lay to the south of Kalinga. Bindusara's son and successor, Asoka claimed the Andhras as one among those subjected to his authority.

After the death of Asoka, the Mauryan empire disintegrated and this district passed under the Satavahanas who established their sovereignty over the Deccan. Their sway over the district can be traced from the time of Gautamiputra Satakarni, the later Satavahana ruler. The Salankayanas who were the next to hold sway over West Godavari district and the adjoining territory, appear to have acknowledged the suzerainty of the later Satavahanas. The first chief of the dynasty, Maharaja Devavarma, led successful campaigns against his enemies and performed the Asvamedha sacrifice. He was succeeded by Hastivarman I. During his reign, Samudragupta, the Gupta monarch, invaded his kingdom. Despite forming a strong confederacy of all South Indian powers, Hastivarman was not able to stem the tide of the Gupta invasion. But, Samudragupta allowed him to retain his kingdom.

Hastivarman I was succeeded by his son Nandivarman I. His kingdom included the Vishaya of Kudrahara on both sides of the Krishna river. The portion to the south was subsequently conquered by the Pallavas, who named it Vengirashtra. Nandivarman I was followed on the throne by his son and grandson, Hastivarman II and Skandavarman respectively, in succession. Skandavarman was followed by Chandavarman, the second son of Nandivarman I and the latter by his son Nandivarman II, the last known king of the line.

The district then passed into the hands of the Vishnukundins. These rulers ruled for over two centuries from the first quarter of the 5th Century A.D. Madhavavarma, the first illustrious ruler of the Vishnukundin dynasty, drove out the Salankayanas from the region to the south of the Krishna and even threatened to invade and conquer their capital Vengi. To commemorate his victory, he performed the Asva-medha sacrifice.

The Salankayanas were completely wiped out from Vengi and their Kingdom became a hunting ground for adventurers like the Matharas of Pistapura (Pithapuram). The early 'Varman' kings of Kalinga and the Vakatakas. The area comprising of West Godavari district, however, passed into the hands of the Vishnukundins. Vikramendravarman II of this dynasty was associated with the administration of the district. It is presumed that Vikramendravarma II had shifted his capital from Vijayawada to Lenduluru to facilitate the defence of the country from the depradations of the Gangas and other rulers of the eastern region. By the time, Madhavavarma III, the last important ruler of this family, ascended the throne, the Vishnukundin power had received a severe set-back and his authority was confined to Vengi region only.

Madhavavarma III was succeeded by his son Manchannabattaraka. During his reign, his vassals took advantage of the disturbed political situation and asserted their independence. The Durjayas about whom nothing is known are said to have ousted their overlords Vishnukundins and occupied Vengi Vishaya.

The district passed under the Chalukyas of Badami during the reign of Pulakesin II who was an ambitious monarch and followed a vigorous policy of aggression. In his task of conquering the east, Pulakesin II was helped by his brother Kubjavishnu. In appreciation of the services rendered by Kubjavishnu he was given the newly conquered territories in the east.

This viceroyalty developed into an independent kingdom known as the Vengi Kingdom and Kubja-vishnu or Vishnuvardhana became the founder of a

2. Andhra Pradesh District Gazetteers - 1979, West Godavari, pp-19-48.

dynasty known as the Eastern Chalukyas. The kingdom of Vengi comprised of the whole area between the Mahendra mountains in Kalinga and the Manneru river in Nellore; its western boundary ran along the foot of the Eastern Ghats. Many rulers held sway over the Kingdom and their history is, at times, largely the record of disputes about the succession. Kubja Vishnuvardhana was followed on the throne by Jayasimha I, Indira Bhattaraka, Vishnuvardhana II, Mangi Yuvaraja and Jayasimha II in succession. After Jayasimha's reign there arose a dispute over succession between his surviving half-brothers wherein Vishnuvardhana III came out victoriously. Towards the beginning of his son's (Vijayaditya's) reign, there arose a political revolution by which the Chalukyas of Badami were ousted by the Rashtrakutas.

Vishnuvardhana IV, the son and successor of Vijayaditya I gave support to Rashtrakuta Govinda II against his brother Dhruva in the dispute for succession to the throne. Dhruva, however, came out victoriously and he subsequently led an expedition against Vengi and defeated its ruler. The subjection of the Vengi to the Rashtrakutas continued till A. D. 814. Govinda III died, leaving a small child named Amoghavarsha I on the Rashtrakuta throne. The Eastern Chalukya ruler, Vijayaditya II, taking advantage of the situation regained the kingdom and overran considerable parts of the Rashtrakuta territory. He was followed by Kali Vishnu Vardhana and Gunaga Vijayaditya III in succession. Gunaga Vijayaditya III is believed to be the greatest monarch of Vengi. The Eastern Chalukya kingdom extended from the Mahendragiri in the north to the Pulicat Lake in the south.

With the death of Gunaga Vijayaditya III in A.D. 892 there was political turmoil in the kingdom. Gunaga Vijayaditya III was succeeded by his nephew Bhima I. His agnate, Yuddhamalla I with the help of Rashtrakuta Krishna II ousted him from power, but he was also driven out and the throne was occupied by Chalukya Bhima I. Krishna II despatched an expedition headed by his General Dandena Gundaya. The Eastern Chalukya army, under Irimartiganda the king's son and heir apparent inflicted a defeat on them. The remaining years of Chalukya Bhima I's reign were uneventful. He died in A. D. 921 and Vijayaditya IV, the eldest of his surviving sons, succeeded him and ruled for just six months. His untimely death marked the beginning of a period of struggles for supreme power and civil war. Within a period of twelve years, as many as six rulers ruled Vengi. As all these kings were inefficient, foreign invaders tried to profit by the disturbed political situation. Chalukya Bhima II is believed to have liberated the country from the clutches of Rashtrakuta domination and ruled for 12 years. His second son Amma II succeeded to the throne. He ruled intermittently till A. D. 970; when he was slain by his half-brother Danarnava. Danarnava ruled only for a short period of three years. He was killed in a battle by Jata Choda Bhima of Pedakallu in Kurnool district. He ruled from 973 A.D. to 1000 A.D. The later Eastern Chalukya inscriptions describe this period as an interregnum.

The two sons of Danarnava, Saktivarman I and Vimaladitya took refuge in the court of the Chola king, Rajaraja I. Kundavai, the daughter of Rajaraja who was waiting for an opportunity to extend his influence over the coastal area, was given in marriage to Vimaladitya. Rajaraja invaded Vengi on behalf of the sons of Danarnava. In this war, Jata Choda Bhima was defeated and the Vengi Kingdom came under the subordination of Rajaraja I. As a result of this, Vengi became the bone of contention between the Cholas and Western Chalukyas of Kalyani. The Eastern Chalukyas receded into the background. Saktivarman I ruled for a period of twelve years and was succeeded by his brother Vimaladitya who ruled till A. D. 1018. His two sons, Rajaraja Narendra and Vijayaditya fought for succession. Rajaraja Narendra was supported by his uncle Rajendra Chola and Vijayaditya was supported by the Western Chalukya ruler Jayasimha II. Rajendra Chola succeeded in enthroning his nephew Rajaraja Narendra as the ruler of Vengi. He ruled for fortyone years during which period, there was continuous political unrest. There were persistant disturbances between the Western Chalukyas and Rajaraja Narendra. An indecisive battle was fought at Kalidindi, a neighbourhood of Vengi, between the two armies with the Chola Monarch Rajendra Chola supportingRajarajaNarendra. Vengi passed into the hands of Western Chalukyas during the reign of Rajadhiraja I in 1054 and it remained under the control of the Chalukyas upto the closing years of Virarajendra's reign. The Eastern Chalukya ruler, Rajaraja Narendra made peace with the Western Chalukyas and continued to rule till his death. Vijayaditya VII seized the throne and placed his only son Saktivarman II on the throne. He died in a battle against the Chola monarch Virarajendra. Vijayaditya VII sued for peace with the Chola monarch Virarajendra and continued to rule the kingdom.

With the accession of his nephew Rajendra Chola II later known as Kulottunga Chola I, an Eastern Chalukyan prince, to the Chola throne, along with the rest of the Vengi kingdom became a province of the Chola Empire. These rulers were known as Chalukya-Cholas. Rajaraja Devendravarma, the king of Kalinga, invaded Vengi with the intention of restoring Vijayaditya VII to the throne. Rajendra agreed to allow Vijayaditya VII to rule Vengi during his lifetime. But Vijayaditya lost his kingdom as a consequence of invasions by the Chedi king of Dahala and Rajaraja Devendra Varman. As a result Vijayaditya VII lost his kingdom and had to spend in exile in the kingdom of Ganga Rajaraja I of Kalinganagara. With the death of Vijayaditya VII in A. D. 1076, the Eastern Chalukya dynasty came to end and the kingdom became completely absorbed in the Chola empire. Kulottunga I chose to reside in the Chola country and felt it impossible for him to control his ancestral territory, the kingdom of Vengi. Kulottunga I, therefore, appointed his sons Rajaraja – Mummadichoda, Vira Choda, Rajaraja Choda Ganga and Vikrama Chola as his viceroys in Vengi.

Towards the end of Vikrama Chola's reign, Kulottunga I lost the northern half of the Vengi kingdom to the Western Chalukya ruler Vikramaditya VI. The Cholas were not able to regain even part of the territory lost till the death of Vikramaditya VI in A. D. 1126. Vikrama Chola's efforts and the readiness of the Telugu chieftains to prefer the overlordship of Cholas to that of Western Chalukyas had contributed in restoring the Chalukya – Chola hegemony over coastal Andhra between A. D. 1127 and 1135. Vikrama Chola was succeeded by his son Kulottunga II who was in turn succeeded by his son Rajaraja II. Rajaraja II was the last monarch of the Chalukya – Chola dynasty, who exercised real authority over his vassals and checked their separatist tendencies successfully. The successor of Rajaraja II, Rajadhiraja II was a weak ruler. His weakness resulted in a general scramble for power among the vassal chiefs each attempting to establish himself as an independent ruler.

During this period, an important and powerful dynasty viz., Velanati Cholas rose to prominence. Vedura, an early member of the family obtained Sindhu – Yugmantaradesa which included West Godavari District from Vira Choda, the Chola viceroy of Vengi. His uncle, Gonka I is believed to have ruled Andhramandala or a portion thereof under the orders of the Chola ruler Kulottunga Chola I. He was succeeded by his son Kulottunga Rajendra Chola I, who ruled from A. D. 1108 to 1130. During this period, Kulottunga Rajendra Chola I lost some territory to the Western Chalukya king Vikramaditya VI. He was followed by Gonka-II on the throne who joined the Chalukya-Chola army led by Kulottunga II against Vikramaditya VI. For his efforts, Gonka II was bestowed with the overlordship of Vengi province. Kulottunga Rajendra Chola II, son of Gonka II after succession to the throne defeated many of his neighbouring rulers in battles. Kakatiya Rudra was the most powerful neighbour who came into conflict with him. He sent an army into the Godavari delta under his Pradhani, Devara Preggada. Kulottunga Rajendra Chola II took advantage of the breakdown of the Imperial power, after the death of Rajaraja II and made himself the master of the whole maritime region. However, with his sudden death in A.D. 1181, the power of the Velanati chiefs suffered an eclipse. But inspite of this, Prithvisvara's (the grand son of KulottungaRajendraChola)authority over the northern portion of the maritime Andhra remained intact. He died in a battle against Kakatiya ruler Ganapati in A. D. 1210. With this, the rule of Velanati Kings over this district came to an end and the kingdom passed into the hands of the Kakatiyas of Warangal.

The area around Colair Lake was ruled by a local dynasty known as the Kolanu chiefs. Rajendra Choda, Katama Nayak Bhima, Somayadevaraju, etc. were some of the rulers of this dynasty.

Prola II an early ruler of Kakatiya dynasty, threw off the Imperial Yoke of the Western Chalukyas and asserted his independence. He was killed in a battle with the forces of a confederacy of the local chiefs in the middle of the 12th century A. D. Rudradeva, son and his successor devoted all his energy and resources to safeguard his independent status. Rudra was followed on the throne by Mahadeva and Ganapati in succession. Ganapati came into conflict with the Velanadu chief, Prithvisvara, who exercised some control over the coastal tract. The chiefs of Kolanu or Sarasipuri ruled over the region round the Colair Lake. Prithvisvara was not powerful enough to check the turbulence of the nobility. Ganapati seized the opportunity and invaded the coastal districts with a strong force. Prithvisvara attempted to oppose the Kakatiya advance but Ganapati defeated and killed him in a battle and annexed his kingdom to the Kakatiya kingdom and the possessions of Prithvisvara in Kalinga were reduced to subjection.

Aniyanka BhimaIII, the Eastern Ganga ruler, freed his country from the Kakatiya domination. Vengi was independent under the rule of Kolanu chiefs till 1230 A. D. with their headquarters at Kolanu or Sarasipuri. Mahamandaleswara Kolani Kesavadeva ruled for thirty six years. After his death Aniyanka Bhima III resolved to subjugate Vengi and therefore sent an army against Vengi. Ganapathi also despatched an army under Induluri Soma Pradhani and Eruva Bhima. They brought the Godavari Valley into Ganapati's possessions and the Kakatiya power remained undisturbed until the end of Ganapati's reign. Rudramadevi, the daughter of Ganapati succeeded to the Kakatiya throne. During the later part of her reign, she regained the lost territories and they remained under her sway till the end of her reign.

Prataparudra ascended the throne of Warangal in A. D. 1295 on the death of his grandmother Rudramadevi and ruled till A.D. 1323. Although he could successfully put down the internal rebellions, Prataparudra could not withstand the danger from the Delhi Sultans. In A. D. 1323, Ghiyas-ud-Din Tughluq sent an army under his son Ulugh Khan, the later Muhammed-bin-Tughluq, against Prataparudra. Prataparudra was defeated and sent as a prisoner to Delhi. With that this district along with the remaining Kakatiya dominion passed into the hands of Delhi Sultans. After the fall of Warangal, Muhammad-bin-Tughluq divided the Deccan and South India into five provinces and appointed Governors to administer them. The rule of the Governors, however, became unpopular. All the Nayakas living therein joined together into a confederacy and Prolaya Nayaka of Musunuri family was chosen leader of the confederates. As a result of these rebellions, several independent kingdoms such as the Reddis of Addanki and Kondavidu, the Rayas of Vijayanagara, the Recherlas of Rachakonda, the Bahmanis of Gulbarga and the Musunuri chiefs of Warangal were established. Prolaya Nayaka became the undisputed leader of coastal Andhra. After his death, Kapaya Nayaka, a cousin of Prolaya Nayaka, succeeded him as the leader of the chiefs of the coastal tract. Kapaya Nayaka made Warangal his headquarters and took possession of much of the old Kakatiya Kingdom. Kapaya Nayaka's leadership was not able to inculcate a sense of oneness among the chiefs who started acting in an independent manner. This attitude of the nobles deprived Kapaya Nayaka of his leadership of this region. He was not able to concentrate on the affairs of the coastal tract because of the establishment of Bahmani kingdom in the neighbourhood of Warangal. Therefore, Kapaya Nayaka entrusted the administration of this region to his cousin, Toyyeti Anavota Nayaka. He ruled the Vengi country with Rajahmundry as his capital. For sometime after the death of Anavota Nayaka in A. D. 1353, the region on the eastern bank of the Godavari was without a ruler. Kapaya Nayaka was unable to turn his attention as he was apprehensive of an attack by the Bahmani Sultan Ala-ud-din Hasan Bahman Shah. The Manchikonda Chief, Mummadi Nayaka of Korukonda took advantage of the disturbed political situation and enforced his authority over the entire dominion held by Toyyeti Anavota Nayaka. Narasimhadeva IV of Kalinga induced by the disturbed political conditions led an expedition across the Godavari and advanced as far as Srikakulam. The conquered territory did not remain long as the Reddi ruler Anavota succeeded in capturing the throne. Anavota Reddi came into conflict with a few chiefs like Choda Bhaktiraja and the Solar Chiefs of Suravaram. As a result of these conflicts, Anavota Reddi lost much of his territory between the Krishna and the Gautami. Anavota Reddi was succeeded by his brother Anavema Reddi to the throne. In the year A. D. 1367, the Recherla Chief, Anapota Nayaka led an expedition against Warangal, killed Kapaya Nayaka in fierce battle and annexed his kingdom. With the death of Choda Bhaktiraja, who was ruling over the Agency area in the western half of this district, his two sons, Choda Bhima who married the sister of Anavema Reddi and Annadeva Choda aspired for the throne. Choda Bhima sought Anavema Reddi's help against his half-brother Annadeva Choda. Anavema Reddi availed the opportunity to reconquer the coastal region beyond the Krishna which had slipped away from the hands of the Reddi Kings. He captured Niravadyaprolu (Nidadavole) the deltaic tract comprising Panara and other areas held by the Manchikonda Chief Mummadi Nayaka. The victorious Reddi armies overran the eastern country upto Simhachalam in Southern Kalinga.

Kumaragiri, son of Anavema's brother, succeeded to the throne after his death and ruled for about 16 years. He sent an army under his minister Kataya Vema, against Orissa. This resulted in the annexation of the territory as far as Simhachalam and the constitution of a separate province called the Eastern kingdom or the Rajamahendra Rajya of the Kondavidu kingdom. Anavota II, son of Kumaragiri, was appointed as the viceroy of the new province of Rajamahendravaram. But he died a premature death.

Therefore, Kumaragiri conferred Rajamahendra Rajya upon Kataya Vema, his minister and brother-in-law, as a chief, in appreciation of his services to the State.

Peda Komati Vema succeeded to the Kondavidu throne in A. D. 1402, Kataya Vema did not like this, therefore, a battle arose between the forces of Peda Komati Vema and Kataya Vema wherein Kataya Vema suffered a defeat at the hands of Gajaravu Tippa, a subordinate of Peda Komati Vema.

The Telugu Choda Chief Annadeva Choda, attempted to recover his lost principality with the help of the Recherla Chief. Peda Vedagiri or Vedagiri I, Kataya Vema, in whose dominion the principality of Annadeva Choda was included, was defeated in a battle and Annadeva Choda was restored to his patrimony. An attempt was made by Kataya Vema to overthrow Annadeva Choda I, with the help of the Vijayanagara ruler Devaraya I. Annadeva Choda sought the help of the Bahmani Sultan, Firoz Shah who was jealous of the growing influence of Devaraya I in the Godavari Delta, and he readily agreed to support Annadeva Choda and marched to his help at the head of a large army. This struggle ended in the death of Kataya Vema and the occupation of Rajamahendra Rajya by Annadeva Choda. He was, however, not destined to rule for long. Allada Reddi espoused the cause of Anitalli, the daughter of Kataya Vema, defeated Annadeva Choda in a battle and killed him along with all the members of his family.

Allada Reddi scored resounding victories over Peda Komati Vema and Hushang Shah, the Sultan of Dhar or Dharanagara, a little before A. D. 1420. After the death of Allada Reddi in A. D. 1422, the kingdom was occupied and ruled by his nephews, Kumaragiri III and Anavota III. But they were soon driven out by Vema, the son of Allada Reddi who crowned his younger brother Virabhadra, the husband of Anitalli, the king of Rajamahendra Rajya. He was, however, not destined to rule independently. Devaraya II subjugated the Reddi kingdom and Virabhadra became a subordinate of Devaraya II.

Peda Komati Vema of Kondavidu was succeeded by his son Racha Vema. His tyrannical rule left his subjects dissatisfied, therefore, they did not give him any support when Gajapatis of Orissa and Rayas of Vijayanagara invaded his kingdom. He was assassinated in A. D. 1424.

Kapilesvara Gajapati who acceded the Orissa throne in A. D. 1434 was a powerful and ambitious king. He wanted to extend his kingdom far and wide by annexing the Rajamahendra Rajya. In a major conflict that ensued between the Gajapatis of Orissa and the Rayas of Vijayanagara, the Reddi power was crushed, Kapilesvara Gajapati emerged victorious and Rajamahendra Rajya was annexed to the Gajapati dominion.

After the death of Kapilesvara Gajapati in A. D. 1470, his two sons, Hamvira and Purushottama fought for succession to the throne. Purushottama worsted Hamvira in this struggle for power. Hamvira sought the help of the Bahmani Sultan, Muhammad Shah III, by offering to surrender not only Telangana but most of the territory belonging to the old kingdom of Rajahmundry. Though Muhammad Shah III successfully accomplished the task entrusted, Hamvira was not able to keep himself in power for long, because Purushottama gathered sufficient strength and overthrew him. Mahmud Gawan, the Prime Minister of the Bahmani kingdom, constituted Rajahmundry province with Nalgonda, Machilipatnam and the Oriya territory and Malik Hasan Nizam-ul-Mulk was given the Governorship of the province. Malik Hasan Nizam-ul-Mulk who was aspiring for the Governorship of the entire Telangana did not like this. He, therefore, tried his best to bring about the downfall of Mahmud Gawan and achieved it in A. D. 1481.

Having thus got rid of his domestic enemy, Purushottama collected all his forces and advanced upon Rajahmundry but when Muhammad Shah III retaliated, Purushottama retreated. The Bahmani Sultan remained at Rajahmundry for three years to reorganise the administration of the conquered territory. Within six years of the death of Muhammad Shah III, Purushottama Gajapati overran the whole of the Godavari-Krishna doab and drove away the Bahmani forces as far south as Kondavidu.

Purushottama was succeeded by his son Prataparudra. His reign witnessed an invasion by the Vijayanagara monarch Krishnadevaraya. The war lasted for over five years. However, a treaty of peace was concluded in A. D. 1518, and according to the terms of which Gajapati gave his daughter in marriage to Krishnadevaraya and obtained from him in return all the territory north of the Krishna.

The district then passed from the Gajapatis to the Qutb Shahis during the reign of Sultan Quli Qutb Shah (A. D. 1518 – 43). In the course of an invasion

against Shitab Khan, the ruler of Khammam, Sultan Quli also came into conflict with Prataparudra Gajapati of Orissa. Sultan Quli laid siege to Kondapalle, a stronghold of the Gajapatis. The Governor of Kondapalle, Gajapati Ramachandra was defeated and taken prisoner. The Gajapatis were compelled to cede the whole of the territory between the mouths of the Godavari and the Krishna. A treaty was concluded according to which the river Godavari became the frontier between the two kingdoms. Sultan Quli was murdered in A. D. 1543 and was followed on the throne by Jamshid and Subhan in succession.

The district was ruled by Ibrahim Qutb Shah between A. D. 1550–1580. In A. D. 1580, Ibrahim Qutb Shah was succeeded by his son Muhammad Quli. During his reign, when the Raja of Kasimkota in East Godavari district rebelled against his authority the troops posted at Eluru were withdrawn to fight against him. The Reddis who were residing in the hills, took advantage of the absence of Qutb Shahi army and plundered Eluru and Nidadavole. However, a general named Amil Khan was sent against the marauders, who were finally subdued and tranquility was soon restored.

Muhammad Quli's successor, Sultan Muhammad a nephew and son-in-law was essentially a peace loving ruler. He was succeeded by Abdullah Qutb Shah and later by his third son-in-law Abul Hasan Tana Shah (A.D. 1672–87). From the time of Akbar, son of Humayun, the Mughals began to interfere actively in the politics of the Deccan. In A. D. 1678, the English established a factory at Madapollam near Narsapur. The Mughal Emperor, Aurangazeb took possession of the fort of Golconda and Abul Hasan, the last Qutb Shahi Sultan, was captured and sent prisoner to Daulatabad where he died in A. D. 1700 or 1701. When this news reached the European traders, they hastened to secure the Emperor's goodwill by rich presents.

West Godavari district passed into the hands of the Mughals like the rest of the Golconda kingdom. The emperor included this district in Golconda, which constituted as one of the twenty-two provinces of his huge empire. The viceroy in whose charge this province lay, exercised his authority through a military officer called Fauzdar. Aurangazeb died in A. D. 1707 and his son and successor, Muazam (Bahadur Shah) appointed Zulfiqar Khan, viceroy of the Deccan and permitted him to appoint Daud Khan Panni as his deputy. During the reign of Farrukhsiyar (A. D. 1713–19) Nizam-ul-Mulk (later entitled Asaf Jah I) was appointed Viceroy of the Deccan and Fauzdar of Karnatak in the place of Daud Khan Panni. Nizam-ul-Mulk was replaced by Husain Ali Khan. Farrukhsiyar was followed on the Mughal throne by Rafi-ud-Darajat, Rafi-ud-Daula and Muhammad Shah in succession. During the rule of Muhammad Shah Nizam-ul-Mulk, defeated Mubariz Khan, the Governor of Hyderabad in a battle at Shakarkhero in A. D. 1724 and ruled the Deccan in an autonomous capacity.

The District thus came under the sway of the Asaf Jahi dynasty founded by Nizam-ul-Mulk Asaf Jah I. The English and the French East India Companies played a significant role in the politics of the Deccan and vied with one another to enlist his sympathy. Nizam-ul-Mulk very cleverly kept himself aloof from the quarrels of the English and the French and ensured that they did not take advantage of the internal dissensions. Nizam-ul-Mulk died in A. D. 1748 and the succession to the throne was disputed by his son Nasir Jung and his grandson Muzaffar Jung. But Salabat Jung, the third son of Nizam-ul-Mulk was raised to the throne by the French. Salabat Jung granted the provinces of Kondapalle, Eluru, Rajahmundry and Chicacole for the maintenance of the French force. The French General Bussi obtained the patents for these grants and sent them to Moracin, the French Governor at Machilipatnam with instructions to take possession. Jaffar Ali Khan, the Muhammaden Governor of the provinces of Chicacole and Rajahmundry, refused to give them up and sought the help of the Raja of Vizianagaram to oppose Moracin's entry but Moracin succeeded in winning over the Raja to his side.

Meanwhile, the French Government replaced Dupleix by Godeheu. The relations between Bussi and the Nizam Salabat Jung, became strained and there arose disorders in the newly acquired coastal tract of the French. At the end of A. D. 1756, Salabat Jung reduced the country to obedience with the assistance provided by the Raja of Vizianagaram and a force sent from Rajahmundry took the English factory at Madapollam. In July, 1758 Bussi was recalled to the south by Lally, the new French Governor. His departure was a fatal blow to the fortunes of the French. The new Raja of Vizianagaram, Ananda Raju made overtures to the English at Calcutta and Madras offering to render them every assistance if they invaded the northern circars.

Though an expedition from Calcutta under Col. Forde was sent by Col. Clive there was considerable delay in reaching an agreement with the Raja of Vizianagaram. Meanwhile Col. Forde occupied Eluru and from there a force was sent to occupy the French factory at Narsapur. Salabat Jung, the Nizam of Hyderabad, went to Machilipatnam to the aid of the French against the attack of Col. Forde. The British instigated Salabat Jung's brother, Nizam Ali Khan to rebel and proceed against Hyderabad. Salabat Jung was left with no alternative but to conclude a treaty hastily with the British. He agreed to renounce his friendship with the French and prohibit them from settling again in the Circars and there was an agreement between Salabat Jung and Nizam Ali Khan by which all real power passed into the hands of Nizam Ali Khan. In A. D. 1760 Nizam Ali Khan went to Bezwada (Vijayawada) to solicit the help of the British in his war against the Marathas. In return, he agreed for the cession of Eluru and two other circars governed by his Fauzdar Hasan Ali Khan. After coming to some understanding with the British, Hasan Ali Khan delivered to the Madras Government Sanads for the five circars in the name of the Nizam Ali Khan, who ousted Salabat Jung and usurped the throne in A. D. 1762. These Sanads were sent to Machilipatnam with orders to occupy the circars except Guntur. When Nizam Ali Khan came to know these orders, he demanded the return of the Sanads and restoration of the territory. But he took possession of the territory in March, 1763 after paying 23,700 Madras Pagodas. The new Fauzdar was not able to maintain his authority when the British troops were withdrawn and took refuge in the Eluru fort, when the Raja of Vizianagaram captured Rajahmundry. Having failed to obtain these circars, the British instigated Hasan Ali Khan to proceed against them. Nizam Ali Khan assembling a huge army marched against the rebel. On payment of some money by Hasan Ali Khan, the Nizam returned to Hyderabad.

Meanwhile, Lord Clive, the Governor of Fort William, entered into negotiations with the Mughal emperor for the cession of the northern circars and obtained a Firman to that effect in August 1765 but it was kept a secret for some time and proclaimed in March, 1766 at Machilipatnam. General Caillaud was sent to Machilipatnam to undertake military operations, if necessary. The Nizam also made large scale preparations for war. It was, however, prevented with the conclusion of a treaty whereby the English agreed to hold the northern circars on payment of a tribute accepting at the same time to furnish the Nizam with some troops. Lewin Smith, the Chief at Machilipatnam had rented out Eluru, Rajahmundry and Kondapalle for a term of three years to Hasan Ali Khan. Nizam Ali Khan was weaned away by Hyder Ali, the ruler of Mysore, to his side and both attacked British. Colonel Hart proceeded from Eluru and threatened the Nizam's capital. Under Colonel Peach the Government of Bengal despatched an army from Calcutta to create a diversion to the allied forces of Nizam Ali Khan and Hyder Ali and this force landed in Northern circars.

Another treaty was concluded in A. D. 1768 between Nizam Ali and British. Hasan Ali Khan's lease expired in A. D. 1769 and the newly acquired territory was placed under the direct management of the servants of the company. The agents of the old factories and their subordinates were converted into Provincial chiefs and councils respectively. Rajahmundry and Eluru came under the control of the Chief and council at Machilipatnam.

The Zamindars came to prominence during the period preceding the transfer of this region to the English. The Zamindars of Polavaram, Mogalthuru etc. were the important Zamindaris of this region. This district alongwith the rest of the nation, responded to the call of the nation and joined hands in the freedom struggle and ultimately joined the Indian Union after independence in August, 1947.

PHYSICAL ASPECTS

General : The district of West Godavari was carved out of the old Godavari district and as the western delta of the river Godavari lies in this district, it was appropriately named West Godavari. The headquarters of the district is located at Eluru. It is bounded on the north by Khammam district, on the south by Krishna district and the Bay of Bengal, on the east by the river Godavari and on the west by Krishna district. The West Godavari district is located between the northern latitudes of 16°15′ and 17°30′ and the eastern longitudes of 80°50′ and 81°55′. It occupies an area of 7,742 sq. kms. and has a population of 2,873,958 persons as per the 1981 census count.

Hills : The district can be divided into three natural divisions viz., (1) the delta, (2) the upland and (3) the agency tract. The upland area is an undulating plain broken by low ranges. This portion lies between the delta and the agency areas. Polavaram taluk which is an agency area is traversed by the eastern ghats broken by the Papikonda range of hills. This area is covered by scattered hills and spurs rising from the lower uplands. The highest peak in the area is Peddakonda and it rises to height of 1,364 m.

Rivers : Godavari is the important river flowing in this district. This river borders the entire eastern boundary of the district. At Vijjeswaram, the river breaks into two branches namely, the Gautami Godavari (eastern branch) and Vasista Godavari (western branch) and flows towards the south of the district before falling into the Bay of Bengal near Antarvedi. The other minor rivers which feed the irrigation tanks in the upland areas are Tammileru, Yerrakalva, Byneru, Kovvada Kalva, Juleru, Rallamadugu and Gunderu. The Kolleru lake is an extensive shallow depression created by a gradual rise in the level of the country on either side by alluvial deposits from the Godavari and the Krishna canals. This lake receives a large volume of drainage water of the surrounding deltaic country. It has an outlet to the sea through Upputeru.

Soil : The soils of the district are broadly classified into red sandy loams, sandy clay loams, clays, alluvial, delta alluviams and arenacious.

The red sandy loams and sandy clay loams lie mostly under quartzitic gravel and the clay content increases with depth. These soils have conditions of good drainage and permeability and are therefore highly suitable for growing a variety of crops with the provision of irrigation facilities and application of adequate amounts of chemical fertilisers. The clay soils are mildly alkaline and usually low in soluble salts. Permeability and drainage capacity of these soils are rather poor. The alluvial and delta alluviam soils are highly fertile. These soils are very deep and are generally affected by salinity and high water table.

Climate : The climatic conditions of this district are more or less of the extreme type. During the summer the district is very hot and it is chilly during the winter. As the district adjoins the Bay of Bengal in the southern parts, the sea breeze to some extent renders the climate moderate and tolerable in the southern portions. The hilly areas of Polavarm are, however, comparatively cooler than the plains during winter and likewise, severe in summer.

Rainfall : The annual rainfall in the district is *1,081. 7 mm (42.59″). The district gets rain both during the south-west and post monsoon seasons. The rainfall during the south-west monsoon seasons (June to September) constitutes about 67% of the annual rainfall, while the retreating monsoon season accounts for about 23 per cent. July is the rainiest month.

Flora : The forests in West Godavari district are confined to the hill ranges, hills and plains in the northern half of the district. The floristic composition shows considerable variation starting from the rich and well stocked forests in the Agencies to various types of deciduous forests occuring in the scattered hills and hill ranges all over the upland areas and denuded forests in the plains which tend

towards thorny scrubs. The principal species in the Agency are Terminalia Tomentosa (Nallamaddi), Pterocarpus Marsupium (Yegi), Xylia Xylocarpa (Velutury), Lagerstroemia Lanceolate (Venteku), Lagerstroemia-Parviflora (Chennangi), Chloroxylon Swietenia (Billudu), Anogeissus Latifolia (Chirumanu) and others. Species like Lannea Grandis (Gumpena), Cleistanthus collinus (Kodsha), Albizzia amara (Narling), Strychnos Nux-Vomica (Mushti) are prevalent. Memecylon and Mimusops are predominant species in the evergreen scrub forests in Nallajerla.

Fauna : Tbe district harbours a varsiety of wild animals, though numerically, they are small. The tiger can be seen occasionally. The jackal, fox, sloth-bear, the gaur, wild-boar, porcupines and wild dogs among the herbivora, spotted deer and sambar are commonly seen in the forests.

The Avifauna is represented by peacock, peafowl, jungle fowl, myna, etc. The Kolleru lake attracts a large number of grey pelicans. These birds come to this place sometime in October-November, breed on the Palmyrah palms and leave with their young ones by about the end of February. The grey pelican has been declared as a protected bird and the pelicanry around the Kolleru lake has been notified as a sanctuary.

Changes in administrative units and component parts: West Godavari district was for a long time not a homogeneous unit and its component parts were ruled by various dynasties at different periods of time. The dynasties that held sway over the district were the Mauryas, Satavahanas, Salankayanas, Vishnukundins, Western Chalukyas of Badami, Eastern Chalukyas of Vengi, Imperial Cholas, Velanti Cholas, Kakatiyas, Musunuri Chiefs, Reddis of Kondavidu, Gajapatis of Orissa, Telugu Cholas of Eruva, Qutb Shahis, Mughals and Asiaf-Jahis. The constituent parts of the present district were at first administered by the Chief and Council at Machilipatnam (Masulipatam), but in A.D. 1794 Collectors, who were made directly responsible to the Board of Revenue, were appointed at Guntur and Machilipatnam. Several changes were made in the administration of the district till A. D. 1859, when the districts of Rajahmundry, Machilipatnam and Guntur were reorganised into Godavari and Krishna districts. Subsequent to this change, the execution and extension of the great irrigation schemes of the Godavari and Krishna rivers and the enormous increase in work consequent on the improvement in the methods of administration rendered the Collectors' task of efficiently controlling these two wealthy areas extremely difficult. The two districts of Krishna and Godavari had, therefore, to be again readjusted. Godavari district was lightened by the transfer to Krishna of the taluks of Yernagudem (Ernagudem), Eluru, Tanuku, Bheemavaram and Narsapur (excluding Nagaram island), while Krishna was relieved of the taluks of Tenali, Guntur, Sattenapalle, Palnad, Bapatla, Narasaraopet (Narsaraopet) and Vinukonda. These seven taluks along with Ongole taluk of Nellore district were formed into a new district of Guntur in 1904. On the 15th of April, 1925, Krishna district was further bifurcated and West Godavari district was formed with Machilipatnam as its headquarters. The new district of West Godavari initially included the taluks of Yernagudem, Bheemavaram, Narsapur, Tanuku and Eluru.

Eluru taluk gained 10 villages on account of their transfer from Kaikalur taluk of Krishna district, besides one village which was transferred to Bheemavaram taluk. In 1926, the taluks in the district were altered and 7 taluks – Nidadavole, Tadepalligudem, Bheemavaram, Narsapur, Tanuku, Eluru and Kamavarapukota constituted the component units of the district.

The headquarters of the taluks of Nidadavole, Tadepalligudem and Kamavarapukota were, however, located temporarily at Kovvur, Pentapadu and Chintalapudi respectively. During the same year, the headquarters of the district was shifted from Machilipatnam to Eluru. In the year 1927, the headquarters of both the taluk and the division of Nidadavole were changed to Kovvur. The divisional headquarters of Tadepalligudem was permanently fixed at Bheemavaram. The name of Kamavarapukota taluk was subsequently changed as Chintalapudi independent sub-taluk in 1931 with its headquarters at Chintalapudi. The district gained the taluk of Polavaram from East Godavari district in 1942 and was made an independent sub-taluk. Consequent on the separation of the judiciary from the executive, the revenue division of Bheemavaram was abolished in 1954 and the taluks of Bheemavaram and Tadepalligudem, the constituent units of this division, were tagged on to the revenue divisions of Narsapur and Eluru respectively. The most important change that took place subsequently was the upgrading of the independent sub-taluks of Polavaram and Chintalpudi into full-

fledged taluks in 1956. Henceforth, the district did not undergo any territorial changes and both at 1961 and 1971 it consisted of eight taluks viz., Eluru, Chintalapudi, Tadepalligudem, Kovvur, Polavaram, Narsapur, Bheemavaram and Tanuku grouped under three revenue divisions as shown below :

Sl. No.	Name of Revenue Division	Constituent taluks
1	2	3
1.	Eluru	1. Eluru 2. Chintalapudi 3. Tadepalligudem
2.	Kovvur	1. Kovvur 2. Polavaram
3.	Narsapur	1. Narsapur 2. Bheemavaram 3. Tanuku

According to 1981 Census there are 14 taluks which have been grouped under three Revenue Divisions as shown below :

STATEMENT SHOWING THE REVENUE DIVISIONS IN WEST GODAVARI DISTRICT, 1981

Sl. No.	Name of Sub-Division/ Revenue Division	Name of Taluk	Name of Town (M/P)
1	2	3	4
1	Eluru	1 Eluru	1 Eluru (M)
		2 Chintalapudi	—
		3 Tadepalligudem	2 Tadepalligudem (M)

		5 Ganapavaram	—
2	Kovvur	1 Kovvur	1 Kovvur (M)
			2 Nidadavole (M)
		2 Polavaram	3 Jangareddigudem (P)
		3 Tanuku	4 Tanuku (M)
		4 Gopalapuram	—
		5 Penumantra	5 Penugonda (P)
3	Narsapur	1 Narsapur	1 Narsapur (M)
		2 Bheemavaram	2 Bheemavaram (M)
		3 Poduru	3 Palacole (M)
		4 Akiveedu	4 Akiveedu (P)

Some of the taluks in the district have undergone jurisdictional changes between 1971 and 1981 and there has been slight variation in the total number of villages during the decade. For convenience, the jurisdictional changes in the district during the decade are presented in the following statement :

	District Total	**7,742.0**	**11**	**879**	**839**	**40**	**18**	**8**

Note : 1 The district total "Geographical Area" figures are as supplied by the Surveyor General, India.

2 The total of the area figures of taluks will not tally with the district area figures because the former represents land use area and are derived from the figures supplied by the State Survey Department

3 Villages shown under Col. 5 do not include the villages given under Col. 8

MAJOR CHARACTERISTICS

Forestry : The forest area in the district spreads over an extent of 89,031 hectares constituting 11.5% of the total geographical area of the district. The forests can be classified into the following types.

1) Southern moist mixed deciduous forests : This type occurs mostly in the Papi hills, on hill slopes and in valleys where the moisture conditions are favourable. The principal species are terminalia tomentosa, pterocarpus marsupium, xylia xylocarpa, lagerstroemia lanceolata, lagerstroemia parviflora, chloroxylon swietenia, salmalia malabarica, anogeissus latifolia, dalbergia latifolia, tectona grandis and others.

2) Southern dry mixed deciduous forests : This type occurs along the outer slopes and foot hills of the Papi hills and other forest blocks in the agency. Bamboo is conspicuously absent in Bedadanuru forest block and teak is found here and there.

3) Dry deciduous scrub forests : The upland hill forests constituting this type have Acacia sundra (Sandra), Acacia leucophloea (Tella Tumma), chloroxylon swietenia, albizzia, amara, diospyros melanoxylon, dalbergia paniculata (Pachare), sapindus emarginatus (kunkudu), strychnos Nux-vomica, Zizyphus oenoplia and eryhroxylon monogynum (Devadaru). Bamboo does not occur.

4) Tropical evergreen scrub forests : The upland plains, where the soil is deep sandy loam, have these forests. The principal species in these forests are Mimusops hexandra (pala), Memecylon edule (Alli), Albizzia amara, Maba buxifolia (Pisikinni), Diospyros melanoxylon, sapindus emarginatus, Eugenia Jambolana (Neredu), Cassia Fistula (Rela), Cassia auriculata (Tangedu), Cassia Tora and Dodonaea viscosa (Bandaru).

The forests, limited as they are both in extent and produce, meet the needs of the district only to a very small extent. The principal forest products are timber, firewood and bamboo. The minor forest produce includes adda leaves, beedi leaves, tamarind, soapnuts, fodder, thatch and broom grasses, honey and fruits. Bamboos are exported to Krishna and Guntur districts after the meeting the local requirements. Two bamboo series of this district are also allotted to the Andhra Pradesh Paper Mills at Rajahmundry.

Source : 1) District Collector, West Godavari
2) District Gazetteers

Minerals and mining : The minerals available in the district are quartz, ochre, clays, iron-ore, graphite, mica and limestone. A brief account of them is given below :

Quartz : Quartz deposits in good quantities are reported from Gajjavaram in the district. It is suitable for glass industry.

Ochre : The occurrence of yellow and red ochre of good quality is reported from Palata, Eluru and Polavaram.

Clays : Clays of different colours with varying thickness are found in several places. White clay is available in larger quantities in Dwaraka Tirumala and its surrounding villages and it is exported to several places. White clay and its allied minerals are used for the manufacture of ceramic products.

Iron-ore : some lumps of haematite occuring in association with ferruginous sandstone and laterite are reported from the area surrounded by Gantavarigudem. The ore which contains 50% of iron is limited in quantity and is of no economical value.

Graphite : The mineral deposits are scattered in Reddi Bodair and Donapudi villages. After pulverising and refining at Kovvur, the mineral is exported to Rajahmundry.

Mica : Pegmatite lens occuring near Pochavaram have yielded muscovite books measuring 7.6 cm. to 30.5 cm. across. The mineral is of ruby quality.

Limestone : The occurrence of limestone in good quantity is reported from Duddukuru. The intertrappean limestone is used locally for burning lime.

Agriculture : The main crops grown in the district are paddy, sugarcane, garden crops like plantains, lime and coconut. Paddy is grown in Sarava and Dalwa seasons.

Paddy is both a wet and dry crop and the chief food crop in all the taluks. The dry variety is grown on dry lands not possessing adequate irrigation facilities. This is of 3 months duration and is sometimes raised as a mixed crop with redgram. The wet paddy crop is popular and is raised in all places

where irrigation facilities are available. Bheemavaram taluk has the largest area under paddy while in Kovvur, Chintalapudi and Polavaram taluks which are upland taluks, where principal sources of irrigation are river, channels and tanks the extent is not significant. Tadepalligudem is a very important paddy marketing centre.

Jowar and bajra crops are also raised during south-west monsoon in the taluks of Chintalapudi, Polavaram, Kovvur, Eluru and Tadepalligudem. Besides these, the district grows pulses, oil seeds, tobacco, sugarcane, chillies, fruits and a variety of vegetables. Sugarcane is grown in a considerable extent in Tanuku, Kovvur, Eluru and Narsapur taluks. The area under turmeric is the largest in Tanuku. Casuarina gardens grow luxuriantly in the coastal villages of Narsapur and other villages bordering Upputeru. Fruits and vegetables cover a fairly large extent in Tanuku taluk.

Fishery : The potentialities of fishery in this district are quite rich compared to many other districts in the State. The sources of fishery are the river Godavari, the Kolleru lake, the Upputeru and a coastal belt besides canals and a good number of tanks. In addition to other types of fish, large quantities of prawns are available in the Kolleru and Upputeru area.

The Department of Fisheries has been playing a vital role for the development of fisheries. The activity of the department includes the development of fisheries by culture and protection, conduct of survey, research, biological study of fishes and also helping the local fishermen by way of supplying modern equipment, issuing loans and imparting training in improved methods of fishing. Another important activity undertaken by the department is the procurement and distribution of fish seed.

There are two fish farms in the district, one at Kovvali and the other at Badampudi. The departmental fish farms produced 107.85 lakhs of fry and the same was reared and supplied for charging the tanks. Nylon worth Rs. 5,040/- was supplied to 2 harijan fishermen co-operative societies on 50% subsidy and nylon yarn and nets worth Rs. 85,031.00 were supplied to 7 backward caste fishermen co-operative societies on 50% subsidy. Also nylon yarn worth Rs. 6,300.00 was supplied to 21 individual fishermen on 33 $\frac{1}{3}$% subsidy.

In 4 tanks 38,000 fish seed was stocked to benefit 2 tribal fishermen co-operative societies in Polavaram Taluk. The entire cost of Rs. 2,000.00 was given as grant by the I.T.D.A.

Industry : There are two industrial estates in West Godavari district, one at Eluru and the other at Palacole. At present 20 large and medium scale industries are functioning in the public and private sectors with a total capital investment of Rs. 2,047 lakhs providing employment to 10,779 skilled and unskilled persons. There are 1,348 numbers of S.S.I. units existing in the district with a capital investment of Rs, 1,233.79 lakhs providing employment to 11,069 persons.

PLACES OF INTEREST

Places of Religious, Historical or Archaeological Importance : Places of religious institutions (temples) and mutts and of historicial or archaeological importance in the district are presented in the following statement for the convenience of the reader.

STATEMENT SHOWING THE MONUMENTS, TEMPLES AND MUTTS IN WEST GODAVARI DISTRICT

Sl. No.	Taluk		Name of the Town/village	Name of the Monuments/Temples/Mutts
1	2		3	4
1	Polavaram		Pattisam	Sri Veereswara Swamy
2	Chintalapudi		Chintalapudi	Sri Vishwanadha Mutt
3	Eluru		Eluru	Sri Janardhana and Kanyakaparameswari Sri Rangaraj Mutt
4	Bhimadole	1	Gundugolanu	Sri Seetharama Swamy
		2	Dwaraka Tirumala	* Sri Venkateswara Swamy
5	Tadepalligudem		Ungutur	Sri Bhimeswara Swamy
6	Kovvur	1	Nidadavole	Sri Golingeswara Swamy
		2	Kumaradevam	Sri Venkateswara Swamy
		3	Kovvur	Sri Shanker Mutt
7	Tanuku	1	Tanuku	Sri Kesava and Mahalakshmi
		2	Palangi	Sri Ramalingeswara Swamy
		3	Annavarapadu	Sri Venkateswara Swamy
		4	Duvva	Sri Venugopalaswamy and Sri Nageswaraswamy
		5	Malleswaram	Sri Kapila Malleswara Swamy
		6	Velagadurru	Sri Visweswara and Malleswara Swamy
		7	Undrajavaram	Sri Kesava Swamy and Sri Gokarneswara Swamy
		8	Ballipadu	* Sri Madanagopala Swamy
8	Ganapavaram	1	Bodapadu	Sri Ramalingeswara Swamy
		2	Ardhavaram	Sri Bala Venkateswara Swamy
		3	Ganapavaram	Sri Swarneswara Swamy
		4	A. Gopavaram	Sri Venugopala Swamy
		5	Kasba Pentapadu	Sri Bairagi Mutt
9	Akiveedu	1	Kallakuru	Sri Venkateswara Swamy
		2	Bondada	Sri Bhogeswara Swamy
10	Bheemavaram	1	Bheemavaram	Sri Bheemeswara Swamy Sri Mavulamma
		2	Veeravasaram	Sri Venugopala and Sitharama Swamy
		3	Gunipudi	*Sri Someswara and Janardhana Swamy
11	Penumantra	1	Natta Rameswaram	Sri Rameswara Swamy
		2	Juttiga	Sri Umavasaki Ravi Someswara Swamy
		3	Kothalaparru	Sri Kesava Swamy
		4	Penugonda	Sri Nageswara and Kanyaka Parameswari
		5	Sidhantam	Sri Vijaya Gopala Swamy and Sri Nandeswara Swamy
		6	Vadali	Sri Agastheswara Swamy
		7	Mallipudi	Sri Madanagopala Swamy
		8	Relangi	Sri Lakshmi Narasimha Swamy
		9	Iragavaram	Sri Paleshwara Swamy

STATEMENT SHOWING THE MONUMENTS, TEMPLES AND MUTTS IN WEST GODAVARI DISTRICT *(Concld.)*

1	2	3	4
12	Poduru	1 Achanta	Sri Madanagopalaswamy
			* Sri Rameswara Swamy
		2 Kodamanchili	Sri Venugopala and Sarveswara Swamy
		3 Pandit Valluru	Sri Malleswara Swamy and Kesava Swamy
		4 Jagannadhapuram	Sri Sitharama Swamy
		5 S. Chikkala	Sri Shivadeva Swamy
		6 Digamarru	Sri Uma Someswara Swamy
		7 Penumadam	Sri Uma Agartheswara Swamy
		8 Palacole	* Sri Ksheera Ramalingeswara Swamy
			Dutch Cement Factory
		9 Penumanchili	Jain Image
13	Narsapur	1 Narsapur	Sri Adikesava and Enberunanna Swamy
		2 Madhavaipalem	Sri Raja Gopala Swamy

* The above mentioned institutions have an income of Rs. one lakh and above

The rest of the institutions have an income of Rupees twenty thousand and above but less than Rs. One lakh

Places of tourist interest

Bheemavaram (Bheemavaram Taluk) : Bheemavaram, the headquarters of the taluk of the same name, is a railway station on Nidadavole–Narsapur broad gauge line of the South Central Railway. It is connected by bus with Eluru, Gudivada, Narsapur, Vijayawada and Hyderabad. A big Naturopathic hospital is located here. The important temples in Bheemavaram are Bhimesvara and Somesvara temples. The sivalingam in Bhimesvara temple is believed to be a Swayambhu (self-manifested). The sivalingam in Gunupudi Somesvara temple is about 5 ft. (1.52 m) in height and is also said to be a Swayambhu. Sivaratri festival celebrated here is largely attended. Other events which attract huge gathering are Subrahmanya Shashti during November–December and Tyagaraja Aradhana Utsavam held during December-January. Bheemavaram is one of the big marketing centres for paddy and rice.

Chintalapudi (Chintalapudi Taluk) : Chintalapudi is situated at a distance of 48 kms. from Eluru. It is the headquarters of the taluk of the same name. Eluru, the district headquarters, is the nearest Railway Station. Chintalapudi is connected with Eluru and other important places by road. It is a marketing centre for the surrounding villages. There is a silk farm maintained by the State Industries Department.

Jeelakarragudem (Chintalapudi Taluk) : This village, a hamlet of Guntupalle is situated at a distance of 6.4 kms. from Kamavarapukota. It can be reached by buses plying on the routes viz., Jangareddigudem–Khammam–Polavaram and Tadepalligudem–Chintalapudi. The place is picturesquely situated amidst hills of scenic beauty. During recent excavations Buddhist Stupas of 10' (3.05 m) height and 30' (9.14 m) circumference and marble stupas and idols of the Budha were found. Thousands of people visit these stupas. Jeelakarragattu festival held in October–November attracts thousands of Hindus.

Dwaraka Tirumala (Bhimadole Taluk) : The village is situated at a distance of 38.63 kms. from Eluru and 19.31 kms. from Bhimadole Railway Station. The temple of Lord Venkateswara is situated on a hill at a height of 36.58 m. A portion of this temple is carved out of the hill. A flight of steps lead to the temple from below. The main entrance has a fine Gopuram of five storeys. The original idol with invisible feet was installed in front, while the newly consecrated image is kept behind the original one in a standing posture with four hands. The Kalyanotsavam of Venkateswara celebrated for eight days during April–May is attended by thousands of devotees. Dwaraka Tirumala is a principal pilgrim centre in the district.

Eluru (Eluru Taluk) : Eluru is the headquarters of the taluk and revenue division of the same name. It is the headquarters of West Godavari district since 1926. Eluru is situated on the border of the swamps round the Koler or Kolleru lake. There are two railway stations, namely, Powerpet and Eluru, situated on the Madras-Calcutta line, at about 57 & 59 kms. respectively to the north of Vijayawada division. The ruins of an old fort reminds us of its glorious past. The woollen pile carpet industry is an important industry of this place. Among the temples at this place, the shri-

nes of Janardhana and Jalapaharesvara are famous. The important festivals celebrated are the Sankara Jayanthi (April-May), Ramakoti Utsavam (January-February) and Tyagaraja Aradhana (December-January) all of which are attended by thousands of devotees.

Kovvur (Kovvur Taluk) : Kovvur town, the headquarters of the taluk and revenue division is situated on the right bank of river Godavari facing Rajahmundry on the left bank. It is a railway station on Vijayawada-Waltair section of the South Central Railway. The town has good communication facilities, both rail and road even from Hyderabad. This is a river port and boats and steam launches ply from this place across the river Godavari to Rajahmundry and from there to Bhadrachalam. The factories of Sulphur, Superphosphate, hume-pipes and sugar have made the town industrially important. The sage Gautama is believed to have performed penance in this place to bring down the Godavari. At the bathing ghat people coming from distant places are seen bathing in the river which is considered sacred. The most important temple is the shrine of Radha Krishna.

Nidadavole (Kovvur Taluk) : This town is situated on the Madras-Calcutta railway line at a distance of 16 kms. from Kovvur and 24 kms. by road. Buses ply from here to many towns like Narsapur, Jangareddigudem, Kovvur, Bheemavaram, Koderu, Attili and Eluru. In ancient times battles were fought at this place by many rulers, chief of whom were the Chalukyas and Rashtrakutas. There are a good number of Siva temples here. Nidadavole is a big marketing centre for paddy and rice.

Achanta (Poduru Taluk) : The place is situated at a distance of 20.8 kms. from Palacole Railway Station and 48 kms. from Tadepalligudem Railway Station. It has communication facilities by road to Bheemavaram, Maruter and Narsapur. Achanta is one of the largest and richest agricultural villages in the district. Of the temples in this place, those of Achanteswara and Madanagopala are the most important. The annual festival of the deity celebrated during January-February attracts many devotees.

Lakshmaneswaram (Narsapur Taluk) : The village is situated at a distance of about 6.4 kms. from Narsapur by road as well as by boat on the river Godavari. It got its name from the temple of Lakshmaneswara, the idol of which is supposed to have been consecrated by Lakshmana, the brother of Rama. On the Sivaratri day, thousands of pilgrims congreate here to have a holy dip in Godavari and have darshan of the deity. The flowing river with coconut gardens around it presents a lovely spectacle.

Mogalthuru (Narsapur Taluk) : Mogalthuru is situated at a distance of 9.6 kms. from Narsapur. It has a mud fort occupied by a descendant of an ancient Zamindar who held a major portion of the district. This village is famous for the coir industry.

Narsapur (Narsapur Taluk) : Narsapur, the head quarters of the taluk and the revenue division of the same name, is situated at a distance of 56 kms. from Nidadavole and about 128 kms. from Eluru. The town is picturesquely situated on the right bank of the Vasista Godavari about 9.6 kms. from the sea. The Nidadavole-Narsapur broad gauge section of the South Central Railway terminates here. Narsapur is connected by road with Eluru, Nidadavole, Tanuku, Rajahmundry and Hyderabad. Narsapur occupies a unique place in lace industry which commands a good market in America, England, France and Australia earning foreign exchange. The temples of Adikesava, Kapila, Mallesvara & Madana Gopala are important. The Brahmotsavam celebrated in honour of Adikesava for ten days during March-April and the Jvalatorana Mahotsavam celebrated during October-November in honour of Kapila Mallesvara are the most important festivals here.

Palacole (Poduru Taluk): Palacole is situated at a distance of 9.6 kms. from Narsapur. It is a railway station on the Nidadavole-Narsapur branch line. Buses bound for Nidadavole, Eluru, Bheemavaram, Tanuku and Hyderabad touch this place. Palacole is a trading centre of considerable importance in the district. The Kshira Ramalingesvara temple with its 36.6 m. high tower is an important place of interest. The place is one of the five aramas (Pancharamas), the other four being Amaravati (Guntur), Bheemavaram near Samalkot, Draksharama (both in East Godavari) and Gunupudi. Thousands of pilgrims throng this place during Sivaratri which is celebrated in honour of Kshira Ramalingesvara.

Penumanchili (Poduru Taluk) : This village is situated at a distance of 4.8 kms. from Achanta, 16 kms. from Palacole Railway Station. It is connected by bus with Narsapur (via) Palacole and Tadepalligudem (via) Maruter. The place is of considerable archaeological importance and statues of a Jaina Tirthankara and Chaturmukha Brahma were unearthed in this village. The local Somesvara temple

to have been of the Kakatiyan period and the 'Sankhu' (conch) bears a pali inscription. In the Jain temple at this place, there is a 1.8 m high stone image in a sitting posture.

Pattisam (Polavaram Taluk) : Pattisam is situated at a distance of about 3.2 kms. from Polavaram and about 25.6 kms. from Kovvur Railway Station. Pattisam is an ancient sacred place of Southern India and is picturesquely situated on the Devakutaparvatam overlooking the Papi hills, in the heart of the river Gautami, a branch of the Godavari. The Saivite and Vaishnavite shrines of Virabhadra and Bhavanarayana are of great religious importance. It is one of the five famous Saivite Kshetrams known as Panchakasikshetrams, the other four being Srisailam, Kasi (Benares), Kedaram and Srikalahasti. On the Sivaratri day thousands of pilgrims congregate here to have a holy dip in the river and have darshan of the Lords. The place is visited as a picnic resort also.

Tadepalligudem (Tadepalligudem Taluk) : Tadepalligudem, the headquarters of the taluk of the same name, is an important Railway Station on the Madras-Waltair broad-gauge line of the South Central Railway. It has good communication facilities by road connecting all important places both within and outside the district. It is an important rice milling and marketing centre. The town has a tailoring institute and an industrial instiute of aluminium works maintained by the Government.

Khandavalli (Tanuku Taluk) : Khandavalli is situated at a distance of 12.9 kms. from Tanuku. It is situated on the banks of the Vasista Godavari. The existence of five Sivalingams in the temple of Markandesvara-Mrukandesvara is a rare phenomenon and is found only at Benares and Rajahmundry and therefore, this place is considered to be of religious importance.

Natta Rameswaram (Penumantra Taluk) : The village is situated at a distance of 3.2 kms. from Manchili Railway Station on the Nidadavole-Narsapur branch line of the South Central Railway and 22.5 kms. from Tanuku. The Lingam in the temple of Ramesvara is made of shells and conches. On the Mahasivaratri day many devotees congregate to have a dip in the Gosthani river and have darshan of Rameswara. Natta Rameswaram is one of the important pilgrim centres in the district.

Tanuku (Tanuku Taluk) : The town is situated at a distance of about 18 kms. from Nidadavole on the Nidadavole-Narsapur branch line of the South Central Railway. It is the headquarters of the taluk of the same name. Tanuku is said to be the birth place of Adikavi Nannaya Bhattaraka who undertook the translation of Mahabharata written in Sanskrit by Sage Veda Vyasa. Tanuku presents an industrial complex with a numberof factories such as the Andhra Sugars Limited, Jaya Industries, Akkamamba Textiles Limited, Jayalakshmi Fertilizers, Sri Gemini Knitting Works, etc.

CENSUS CONCEPTS

Rural and Urban areas : It is customary to classify the population of every country at each census as Rural and Urban. Such a classification has considerable importance and is necessary from the point of assessing the differentials in the social, economic, cultural and demographic characteristics of the population. Hence, at the beginning of each census, the criteria for treating a place as a town i. e., urban are evolved and the areas are then classified according to the definition so evolved. The census definition of a town in this country was more or less the same from 1891 to 1941. The towns broadly comprised all municipalities irrespective of the population size and every other continuous collection of houses permanently inhabited by not less than 5,000 persons while provincial Directors of Census Operations having regard to the character and relative density of population, their importance as centres of trade decide them to be towns. In the application of this definition there was some variation from State to State according to the local conditions. It was only at the 1961 census that a fairly strict definition was sought to be applied throughout the country in order to determine a place as an urban unit. The same definition was followed at the 1971 and 1981 Censuses also. The Director of Census Operations, however, was given discretion to include places that had other distinct urban characteristics and to exclude undeserving cases in consultation with the State Government. The following criteria are adopted for treating a place as urban at the 1981 Census.

i) A minimum population of 5,000,

ii) Atleast 75% of the male working population is in non-agricultural pursuit,

iii) A density of population of atleast 400 persons per sq. km.

The urban criterion of 1981 varies slightly from that of 1961 and 1971 Censuses, in which the males working in activities such as fishing, logging. etc., were treated as engaged in non-agricultural and therefore contributed to the 75% criterion in 1961 and 1971 Censuses, whereas in the 1981 Census these activities are treated as on par with cultivation and agricultural labour for the purpose of this criterion.

The towns are distributed into six classes as detailed below :

Classification of towns		Population size
Class	I	100,000 and above
Class	II	50,000 – 99,999
Class	III	20,000 – 49,999
Class	IV	10,000 – 19,999
Class	V	5,000 – 9,999
Class	VI	below 5,000

The class I towns are termed as cities.

Standard Ubran Areas : Besides classification of all places into rural and urban areas, two more concepts viz-, Urban Agglomeration and Standard Urban Area were evolved from the 1971 Ceusus. One of the difficulties in comparing the urban population and its characteristics between one census and another, apart from the changes in the list of certain units at each census, had been the change in the jurisdictions of the urban units from census to census. The concept of Standard Urban Area had been introduced at the 1971 census and same was followed in 1981 with a view to obviating this difficulty to some extent. The essentials of a standard urban area are – (i) that it should have a core town of a minimum population size of 50,000, (ii) that the contiguous areas made up of other urban as well as rural administrative units should have close mutual socio-economic links with the core town and (iii) that there are probabilities of this entire area getting fully urbanised in a period of two or three decades. The idea is that it should be possible to provide comparable data for a definite area of urbanisation continuously for three decades which would give a meaningful picture. This replaced the concept of town-group which was introduced in the 1961 Census. The town-group was made up of independent urban units not necessarily contiguous to one another but were to some extent inter-dependent. The data for such town-groups become incomparable from census to census as the boundaries of towns themselves change and the intermediate areas are left out of account. Thus the concept of Standard Urban Area came to be developed for adoption at the 1971

Census. In Andhra Pradesh, 31 units have been selected for demarcating Standard Urban Areas. The necessary data will be compiled for these units also during the next two or three successive censuses in order to study urbanisation around a large nuclei. The Standard Urban Area is identified by the administrative units that it encompasses namely the city, the town and the villages. The boundaries of the Standard Urban Area are the administrative boundaries of the peripherial units.

Urban Agglomeration : Apart from town/city, the 1971 concept of Urban Agglomeration has also been adopted for the 1981 Census. An Urban Agglomeration constitutes,

a) A city with continuous outgrowth (the part of outgrowth being out of the statutory limits but falling within the boundaries of adjoining village or villages) ;

b) One town with similar outgrowth or two or more adjoining towns with their outgrowths as in (a) ;

c) A city and one or more adjoining towns with their outgrowths all of which form a continuous spread. There are only 4 urban agglomerations in the State viz., Vishakhapatnam, Rajahmundry, Vijayawada and Hyderabad.

Census House : A census house is a building or part of a building having a separate main entrance from the road or common courtyard or staircase, etc., used or recognised as a separate unit. It may be inhabited or vacant.

Household : A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be one member household, two member household or multi-member household. For census purpose each one of these types is regarded as household. Again, there may be household of persons related by blood or household of unrelated persons or even of mixed type. Examples of unrelated households are boarding houses, hostels, residential hotels, orphanages, rescue houses, ashrams, etc. These are called institutional households.

Scheduled Castes/Scheduled Tribes : Scheduled Castes and Scheduled Tribes are those notified under Article 341 of the constitution according to which the President may with respect to any State or Union Territory and where it is State after consultation with the Governor thereof, by public notification, specify the castes, races or tribes which shall for the purpose of the constitution be deemed to be Scheduled Castes/ Scheduled Tribes in relation to that State or Union Territory, as the case may be.

For the purpose of 1981 Census, the Scheduled Castes and Scheduled Tribes orders, (Amendment) Act, 1976, notified under the Government of India, Ministry of Home Affairs, Notification No. B C 12016/34/76–SCT–V dated 27–7–1977 was adopted. A copy of the list of Scheduled Castes and Scheduled Tribes in Andhra Pradesh is given under the note on Primary Census Abstract.

Literates : A person who could both read and write any language with understanding was treated as a literate at the 1981 Census. A person who could merely read but could not write or vice versa was not treated as literate. Tha test for reading was ability to read any simple letter either in print or in manuscript. Children aged 4 years and below were treated as illiterates. The test for education was that a person should have passed a recognised written examination or examinations as proof of educational level attained. The highest examination passed was taken as the level of education.

Worker : The definition of work adopted in 1981 Census is as follows :

> "Work may be defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work."

In the concept of work, a significant departure is made at the 1981 Census. At the 1971 Census, the main activity of a person was initially enquired according as he spent his time basically as a 'worker', engaged in production of goods and services or as a non-worker. For regular work in organised sector, the reference period was the week prior to enumeration, and for seasonal work such as agriculture, etc., the last one year. Persons engaged atleast for a day in regular (non-seasonal) work during the preceding week were treated as workers. The work of a person

who was basically a non-worker, such as a student, or housewife but had made some marginal contribution to work was classified as secondary work and this was recorded separately.

At the 1981 Census it was considered desirable to have as detailed a profile of the working population as possible, maintaining the comparability with 1961 and 1971 data. An attempt was made to find out if a person had done any work at all during the last year. It will thus be seen that the questions on economic approach have been designed to distinguish all the workers, regular or seasonal and non-workers with reference to the last one year prior to the date of enumeration. It was intended to find out how many had worked for 183 days or more i. e., 6 months or more and information regarding the secondary work done by regular workers and also the marginal work done by the non-workers was collected. It was felt in the present context that the usual status of worker was more appropriate when compared with the approach of current status of worker followed earlier. The broad classification of workers is explained under the note on the Primary Census Abstract.

Non-workers : All others who did not do any productive work irrespective of whether they derived some income such as through pension, rents, etc., or did not derive any income were classified under category (X) non-workers.

The non-workers are divided into the following seven categories :

1. Household duties i.e., all those persons basically engaged in unpaid home duties doing no other work;
2. Students i.e., all full-time students and children attending school ;
3. Retired persons or a rentier i.e., a retired person not employed again or rentier or royalty receiver or any other person of independent means for securing which he does not have to work and who does no other work;
4. Dependent i.e., an infant or child not attending school, a person permanently disabled from working due to illness or old age or if able bodied who have no other activity and who are not seeking any work either but are purely dependent.
5. Beggars, etc.. i.e., beggars, vagrants or an independent woman without indication of source of income and those of unspecified source of subsistence and who are not engaged in any economically productive work;
6. Institutional inmates i.e., a convict in a jail or an inmate of penal, mental or charitable institution; and
7. Other non-workers-all non-workers who may not come under any of the above six categories.

Marginal Workers : A significant feature of the 1981 Census was the collection of information on marginal workers who had done some work for a period of less than 6 months during the reference year prior to census taking. At the 1971 Census though this concept was not introduced there was a comparable category called non-workers with secondary work.

HISTORY OF DISTRICT CENSUS HANDBOOK

District manuals compiled and published prior to 1905 by the erstwhile composite Madras Government contained not only particulars of items of more or less a permanent character such as physical characteristics, history, religion and ethnography, but also a few statistical tables including those relating to population which became obsolete within a few years of publication. Later, the Madras Government replaced the District manuals by another publication viz., the District Gazetteer consisting of two volumes A and B. Volume A contained descriptive and such general tables as might be necessary to explain the text and volume B contained detailed statistics. It was decided that volume B should be brought out periodically after each decennial Census so that they contain the latest statistics. Volume A was published for some districts between 1905 and 1927 in the composite Madras State. The publication of volume A was discontinued in 1927. Volume B was published for all the districts of the composite Madras State between 1906 and 1915. The publication of volume B was also stopped after 1931 Census. Due to the II world war, they were not published after the 1941 Census.

Similarly in the erstwhile Hyderabad State also the Gazetteer volumes were brought out for some of the districts.

The scheme of publication of revised District Gazetteers was started in 1958 by the State Governments and in this State, the Gazetteers of all the districts except Hyderabad and Ongole have been published.

The Village Statements : Apart from the District Manual and Gazetteers the Census data upto village level used to be published in a brochure called 'Village Statement' for each District immediately after every census from 1872 upto 1941.

The village statements presented only the number of occupied houses and population by religion of each village and town. From 1951 Census, the village statements were replaced by the District Census Handbooks.

District Census Handbooks : Sri R.A. Gopala Swamy, I.C.S., the then Registrar General, India and Ex-officio Census Commissioner of India pioneered the idea of compiling the District Census Handbooks for each district and introduced the same in 1951 Census. This was envisaged as part of the plan intended to secure an effective method of preserving the census records prepared for areas below the district level. He proposed that all the District Census Tables and Census Abstracts prepared during the process of sorting and compilation, should be bound together in a single manuscript volume called the 'District Census Handbook' and suggested to the State Governments that the Handbook with or without the addition of other useful information relating to the District should be printed and published at their own cost, in the same manner as the village statistics of the last censuses. This suggestion was accepted by most of the State Governments. Both the composite Madras State and the erstwhile Hyderabad State, accepted this suggestion and published the District Census Handbooks for each district at their own cost. In the erstwhile Hyderabad State,the District Census Handbooks were brought out in two parts, Part I containing the administrative statistics and Part II the census tables. Whereas in composite Madras State, the Handbooks were brought out in one single volume for each district.

Pattern of District Census Handbooks at 1961 :

At the 1961 Census, the scope of the District Census Handbooks was enlarged significantly by Sri Ashok Mitra, I.C.S., the then Registrar General, India. District Census Handbooks of 1961 of Andhra Pradesh included four parts. The first part contained narrative description of the physical features, history, social, economic and demographic characteristics, the progress made in each field of administration over the past decades and a brief gazetteer of places. The second part contained the administrative statistics of various departments. The third part contained the 1961 Census tables viz., General population tables, economic tables on Scheduled Castes and Scheduled Tribes. The fourth part consisted of village and town directory which was the most vital part of the Handbook, giving the village-wise and town-wise primary census abstract i.e., particulars of area, households, population, scheduled castes, scheduled tribes, literacy, broad categorisation of working population, etc.

Important amenities such as educational, medical, public health and communication facilities available were also indicated against each village and town. Nine such tables containing village-wise particulars such as irrigation sources, important crops raised, value of land, cooperative societies, industrial establishments, police stations, list of skilled craftsmen, etc., were given after village and town directory. A statement on fairs and festivals in the district was given at the end of the volume. All these four parts were bound in a single volume and published at the cost of the State Government.

Pattern at 1971 Census : At the 1971 Census it was decided to enlarge the scope, in view of its usefulness to the official users of the census data and the increased demand among the public. There was some delay in the publication of District Census Handbooks at 1961 Census due to two reasons—1) inadequate printing facilities and 2) delay in the preparation of District Census Handbook which contained four parts. In order to avoid delay in the publication and to make available the more important data to the planners at the earliest, the District Census Handbook was prepared in 3 parts viz., Part A, Part B & Part C as shown below.

Part—A : Village and Town Directory

Part—B : Village and Town Primary Census Abstract

Part—C : Administrative Statistics and Report

Parts A and B were bound in a single volume and were published for all the districts as early as in 1974. However the printing of Part C was given up.

Pattern at 1981 Census : At the 1981 Census, the format of village directory and statements of town directory are almost similar to those adopted for 1971. The District Census Handbook of 1981 Census comprises of the following two parts brought in single volume, the grouping of which would enhance the value of publication as the data given therein are closely interrelated.

Section I : Village Directory

Section II : Town Directory

Section III : Village and Town Primary Census Abstract

It has been decided not to go in for administrative statistics as it was our experience during 1971 Census that there was inordinate delay in collecting the administrative statistics pertaining to various departments with the result that the publication of this part of District Census Handbook was dropped in Andhra Pradesh State. Other reason for dropping the publication is that administrative statistics would be available to the data users in the publications of the State by Bureau of Economics and Statistics and the concerned departments.

The formats of village directory and of seven statements on town directory are on the same pattern as canvassed in 1971 Census except for a few additional columns. These additional columns are introduced to throw more insight into the infrastructure of the villages and towns. A feature of 1981 pattern is the restructuring of all the amenities except power supply in the villages and to bring them together, with the corollary that in case any amenity is not available in the village, the distance of the nearest place where the facility is available is presented. Similar method is followed in respect of towns where educational and medical facilities are not available. While presenting the additional columns of Town Directory, the Minimum Needs Programme of the Planning Commission is kept in view. The scope of village directory, town directory statements and primary census abstract along with the codes used under each column are explained hereunder.

Scope of village directory : As was done in the past, the village directory has been prepared for all the villages in the State and these are presented taluk-wise in the District Census Handbook (D.C.H.). For convenience of references, an alphabetical list of villages in respect of each taluk precede the village directory for that taluk. This is done for easy location of any village in the directory since the information is arranged in ascending order of the location codes of the villages.

In the village directory. various amenities and other data have been indicated by codes. These include, area of the village, total population with number of households at 1981 Census, availability of amenities such as educational, medical, drinking water and P & T facilities, communication facilities, type of approach to village and the distance of nearest town, power supply and land use particulars. There are 20 columns in the village directory covering the above aspects.

Columns 1 to 3 relate to the location code number, name and total area of the village. The area given under column 3 is as per the data collected from the State Survey Department. Wherever the figures are not available from the State Survey Department, the figures furnished by the Tahsildars have been adopted. Columns 4A and 4B provide the number of households and population of the village as per 1981 Census. Columns 5 to 11 and 13 list out the basic amenities available in the village such as educational, medical, drinking water, postal, day of the market, communications, approach to village and electricity.

In order to indicate the food habits, information on the staple food of the majority during the major portion of the year was collected under column 14. Wherever it was difficult to clearly determine a particular grain as staple food, the combination of grains mainly used as staple food has been indicated.

Columns 15 to 19 pertain to the land use pattern in the village. The extent of forest area has been given in column 15 while in columns 16 and 17 the extent of cultivated area in the village has been given. The extent of irrigated area together with different irrigational sources has been indicated in column 16. The extent of culturable waste has been shown in column 18 while the area not available for cultivation such as village site, road and railways or under water, etc., has been indicated under column 19.

The concepts of the various types of land use given under each of the columns 15 to 19 are explained below :

1. Forests (Col. 15) : These include all actually forested areas and the lands classed or administered as forests under any legal enactment dealing with forests whether State owned or private. If any portion of such land is not actually wooded but put to some agricultural use, that portion is included under the appropriate heading of cultivated or uncultivated land.

2. Cultivated area with break-up irrigated and unirrigated (Columns 16 & 17) This includes the land under the following three categories.

(i) Net area sown :

The net area sown represents the areas sown to crops counting areas sown more than once in the same year, only once.

(ii) Other fallows :

This includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years. The reasons for keeping such lands fallow may be either due to poverty of the cultivators or inadequate supply of water or malarial climate or silting of canals or rivers or unremunerative nature of farming, etc.

(iii) Current fallows :

This class comprises cropped areas which are kept fallow during the current year. If any seedling area is not cropped again in the same year, it is also treated as current fallow.

3. Culturable Waste : (Column 18) This includes the land under the following three categories.

(i) Permanent pastures and othergrazing lands :

These cover all grazing lands whether they are permanent pastures and meadows or not. Village common and grazing lands within forest areas are included under this head.

(ii) Miscellaneous tree crops, groves not included in the area sown:

Under this class is included all cultivable land which is not included under net area sown but is put to some agricultural use lands under casuarina trees, thatching grass, bamboo bushes and other groves for fuel, etc., which are not included under 'Orchards' are classed under this category.

(iii) Culturable waste :

This includes lands available for cultivation but not taken up for cultivation or abandoned after a few years far one reason or other. Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. They may be assessed or not assessed and may lie in isolated blocks or within cultivated holdings. Land once cultivated but not cultivated for five years in succession is also included in this category.

4. Area not available for cultivation. (Col. 19) This includes the land under the following two categories.

(i) Land put to non-agricultural uses ;

All lands occupied by buildings, roads and railways or underwaters e.g., rivers and canals and other lands put to uses other than agricultural.

(ii) Barren and uncultivable land :

This covers all barren and uncultivable land like mountains, etc., *i.e.*, which cannot be brought under cultivation unless at a high cost whether such land is in isolated blocks or within cultivated holdings.

Column 20 is for recording remarks if any on matters like place of religious, historical or archaeological interest, and for information on the number of copies of newspapers circulated in the village, and the number of motor cycles/scooters, cars/jeeps and tractors available in the village.

All the above particulars are based on the data received from the concerned departments like Education, Medical, Postal and Electricity and also from the Tahsildars concerned.

In the Appendix to the village directory taluk level totals of the amenities have been furnished which gives the picture for the district as a whole. At the 1981 Census, additional items *viz.*, total population and number of households and approach to village have been introduced. Information on population and number of households will be useful as ready reference for analysing the data.

Item on communications has been singled out to spell in terms of availability of the public transport system. This is intended to see whether the village is served by any mode of transport such as bus or rail or waterway. It is against this back ground that the item on approach to village has been listed separately. This refers to road, etc., leading to the village and is to indicate whether the village is approachable both in fair and foul weather and whether it is inaccessible for all time or only some time in the year. Adult literacy class/centre under item on 'Education' and primary health centre and community health worker under item 'Medical' of village dircctory are included to indicate statistics on the Minimum Needs Programme of the Planning Commission.

Scope of Town Directory : There are seven statements in the Town Directory which include several particulars relating to the towns arranged as per the alphabetical order of their names. These statements are almost similar to those adopted at 1971 Census except for a few additional columns. The titles of the statements are as follows :

Statement	I	:	Status and Growth History
Statement	II	:	Physical aspects and location of towns, 1979
Statement	III	:	Municipal Finance, 1978–79
Statement	IV	:	Civic and other amenities, 1979
Statement	IVA	:	Civic and other amenities in notified slums, 1979
Statement	V	:	Medical, Educational, Recreational and Cultural Facilities, 1979
Statement	VI	:	Trade, Commerce, Industry and Banking, 1979

With a view to facilitate analysis of data, a few new columns have been introduced. The colamns–class of town, in every statement is a significant addition. By taking the class of town into consideration the instrastructure of amenities and facilities available in urban areas can best be analysed. The addition of civic Administrative status in Statement III and IV and population in Statement IV and V also serve the same purpose. The formats of Town Directory have been devised to suit the Minimum Needs Programme of the Planning Commission. As a sequal to this programme the columns, Scheduled Castes and Scheduled Tribes population in statement IV and Adult Literacy Classes/Centres in Statement V are identical.

In case such of the amenity as Fire Fighting Service in Statement IV, the Educational Facility in Statement V is not available in the town, the name of the nearest place if in the same district or the name of the nearest district if in the same State or other State where available along with its distance from the referrent town has been given. This is a new feature of 1981 Census as it is necessary to identify the areas that have no specific facility in the district.

Statement VII *i. e.*, Population by Religion and Scheduled Castes/Scheduled Tribes in Towns of 1971 Census was discontinued at the 1981 Census and a new statement IVA has been introduced to explore the possibility of civic and other amenities available in notified slums in Class I and II towns only.

The following eleven places form part of urban in West Godavari District at the 1981 Census.

1	Akiveedu	7	Nidadavole
2	Bheemavaram	8	Palacole
3	Eluru	9	Penugonda
4	Jangareddigudem	10	Tadepalligudem
5	Kovvur	11	Tanuku
6	Narsapur		

Of these eleven towns, Jangareddigudem is the only place which is classified as a town for the first time in 1981 Census in consideration of the distinct urban features. Eluru, Narsapur and Palacole are treated as towns from 1901 ; Penugonda and Tanuku are classified as towns from 1911; Nidadavole is classified as town from 1921; Bheemavaram and Kovvur are classified as towns from 1931; Tadepalligudem is classified as town from 1941 while Akiveedu is treated as town from 1971. None of the towns in this district has been treated as Urban Agglomeration. Bheemavaram and Eluru with their respective neighbouring villages as detailed below are treated as Standard Urban Areas.

Standard Urban Area	Component Units	
	Urban	Rural
(1)	(2)	(3)
1 Bheemavaram	1 Bheemavaram(M)	1 Vissakoderu
		2 Rayalam
		3 Pedamiram
		4 Chinamiram
2 Eluru	1 Eluru (M)	1 Tangellamudi
		2 Komadavolu
		3 Sanivarapupeta
		4 Gavaravaram
		5 Satrampadu
		6 Vatluru
		7 Eluru (R)
		8 Madepalli

Among the eleven towns in the district, Eluru (the district headquarters) and Bheemavaram are class I towns having a population of 168,154 and 101,894 persons respectively as per 1981 Census count. Tadepalligudem and Tanuku are class II towns with a population ranging between 50,000 and 99,999. Akiveedu, Kovvur, Narsapur. Nidadavole, Palacole and Penugonda are class III towns with a population ranging between 20,000 and 49,999 while Jangareddigudem is a class IV town with a population ranging between 10,000 and 19,999. The urban population of the district is 596,874 persons out of the total population of the district 2,873,958 persons, constituting 20.77% of the total population of the district as against 18.0% at 1971 Census. The increase in proportion of urban is partly due to the addition of one new town at 1981.

The details given in each of the seven statements of the Town Directory are explained below:

Statement I:— Status and Growth History: This statement provides basic information on civic status, population with decadal growth rate from 1901 to 1981, density for 1981 Census and sex ratio from 1961 to 1981 Censuses of each town in columns 2 to 19.

In this as well as in all other Town Directory Statements columns 1 & 2 relate to serial number and class, name and civic administrative status of the town. Class of town has been introduced to facilitate analysis of Town Directory data at the State and All India levels. This is presented accordingly to 1981 population of the core town as per the population size classification.

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

The civic administrative status of the town is indicated in Col. 2 in brackets by abbreviated letters like M for Municipality. P for Panchayat. The location code number under Col. 3 for the town was framed to follow the alphabetical order of the towns in the district. This also facilitates easy location of the town in the map. The name of taluk in Col. 4 where the town is located is given to facilitate analysis of data at State and all India levels. Area in sq. kms, in Col. 5 and number of households including houseless households in Col. 6 for each town is included in the Town Directory for the first time in 1981 Census. The population of the town with decadal growth rate from 1901 Census to 1981 is given in Cols. 7 to 15. The percentage growth rate is indicated below the population in brackets. Density for 1981 is a new column (Col. 16) introduced to facilitate analysis of Town Directory Data. It has been calculated taking into account the area and the population of 1981 Census of the town and presented per sq. km. Sex ratio (Cols. 17 to 19) from 1961 to 1981 Censuses is a new addition to facilitate analysis of Town Directory Data. Sex ratio defined here is number of females per 1,000 males.

All the towns in the district except three have been keeping up a steady increase in their population. Tanuku, Nidadavole and Penugonda which showed a declining trend during 1921, 1931 and 1941 respec-

tively later showed an increasing trend in their population growth. Bheemavaram, the only class II town in 1971 Census, has attained the status of class I (100,000 and above population) in 1981. The variation in population between 1971 and 1981 seems to be more conspicuously high in Bheemavaram, Tanuku, Tadepalligudem, Nidadavole and Eluru when compared to other towns.

Of the eleven towns in the distrtct, Bheemavaram is the only town having an area of 25.64 sq. kms. Next to it comes Akiveedu with an area of 22.68 sq. kms. The third important town as far as area is concerned is Tadepalligudem with an area of 20.70 sq. kms.

Jangareddigudem with an area of 0.83 sq. kms. records the highest density of 20,761 persons per sq. km. as against the district average density of 371 persons per sq. km. Eluru, the district headquarters city, has recorded a density of 11,557 persons per sq. km.

Statement II:—Physical aspects and location of Town, 1979: This statement has 12 columns and depicts physical aspects and location of towns in the district. Under Cols. 3 to 5 in the statement, data relating to the rainfall recorded in 1978 and the maxmum and minimum temparature recorded in 1971 Census were given. If this data is not available for any town, the particulars pertaining to the nearest town have been shown against such town.

It can be seen from the statement that there have been good facilities for the transport of passengers and goods by rail as well as road, canals and rivers. The east coast line of Southern Railway runs through the district and connects all the towns in the district except Jangareddigudem in Polavaram Taluk and Penugonda in Penugonda Taluk. These two towns are at a distance of 52 kms. and 20 kms. respectively from their respective railway stations. Besides, all the towns are closely linked up by roads in different directions in the district. Thus, this district is covered by a good net work of railways and road transport. Further, canal and river transport facilities are also within the easy reach of all the towns in the district. A.P.S.R.T.C. provides transport facilities in the district.

Statement III:—Municipal Finance, 1978-79: The data for inclusion in this statement was obtained from the respective statutory and non-statutory bodies from their budgets and accounts.

The table shows that no town has an excess of expenditure over income except Penugonda and Tanuku. In Eluru, Penugonda and Tanuku more than 25% of the total receipts are utilised for purposes of public health and conveniences. For public institutions like schools and public libraries, Jangareddigudem, Penugonda and Tanuku have not spent anything from their incomes.

Statement IV:—Civic and other amenities, 1979: As the title itself reveals, this statement deals with the facilities provided to the people in urban areas of the district.

The most striking feature in all the towns has been the conspicuous absence of under ground drainage system. The only sewerage system available is the open surface drains in all the towns except Eluru city which is having sewerage facility to some extent. All the towns in the district have protected water supply through taps, tanks and wells while fire fighting service is available in Bheemavaram, Eluru, Nidadavole, Palacole, Tadepalligudem and Tanuku.

All the eleven towns have electric supply for domestic and as well as industrial purposes.

In Andhra Pradesh, domestic service includes supply of energy for lighting, fans and domestic purposes in domestic premises and supply in poultry farming units upto 100 birds. Industrial service means supply for purposes of manufacturing, processing and/or preserving goods for sale, rice mills, oil mills, flour mills, ginning mills, decorticating mills, dal and gram mills, stone crushers, water works and sewerage pumping stations operated by local authorities or Government Departments or Co-operative House Building Societies and pumpsets of Railways for whatever purpose they may be used. Commercial service includes the supply of energy for lights, fans for non-domestic and commercial purposes. Road lighting service includes supply of energy for lighting on public roads, streets, thorough fares including parks, markets, cart stands, bridges and for traffic signalling. Supply of energy to places of worship like churches, temples, mosques, gurudwaras, educational institutions, student hostels, municipal guest houses, travellers' bungalows, circuit houses of the Government charitable institutions and recognised service/institutions are included in "Others".

Eluru city has the highest number of industrial connections and road lighting points followed by Bheemavaram.

Statement IV A:—Civic and other amenities in notified slums, 1979: This is a new statement on civic and other amenities provided to the people living in notified or recognised slums in class I and II towns. Since the magnitude of slum is greater in respect of class I and II towns, presentation of data on slums is limited to class I and II towns only. Bheemavaram and Eluru are class I towns and Tadepalligudem and Tanuk are class II towns in this district.

Statement V:—Medical, Educational, Recreational and Cultural facilities in towns, 1979: In this statement, the magnitude of facilities on medical, educational, recreational and cultural aspects with reference to population of 1981 has been detailed in respect of the various towns in the district.

All the towns in the district have hospitals except Penugonda where there are nursing homes and dispensary. There are 191 medical institutions which include government hospitals, dispensaries, nursing homes, maternity and child welfare centres and leprosy control unit together with total bed strength of 1960 catering to the medical needs of a total urban population of 596,874 persons. Institutions covering all systems of medicine have been included in the statement.

Narsapur, Eluru and Bheemavaram possess medical facilities with 450, 420 and 266 beds respectively and this is comparatively better than the other towns in the district. There are 102 persons per bed in Narsapur, 137 persons in Nidadavole and 213 persons in Akiveedu.

There are only 14 degree colleges two each in Bheemavaram, Eluru, Narsapur, Nidadavole and Polacole, one each in Jangareddigudem, Penugonda, Tadepalligudem and Tanuku. There is only one polytechnic college at Tanuku.

There are 12 junior colleges or higher secondary schools, 55 secondary or high schools, 81 junior secondary or middle schools, 240 primary schools in all towns put together in the district.

A different method has been adopted in presenting the number of educational institutions. Composite schools like middle schools with primary classes or secondary schools with middle classes have been included in the number of primary and middle schools respectively. For example, if in a town there are two primary schools upto say class IV and one high school from class I to X, the number of primary schools in the town is given as 3 and that of middle school as one and secondary school as one even though there are physically only three educational institutions. Again a composite school having classes upto class XII has been divided as shown below:

Class I to IV : Primary
Class V to VIII : Middle
Class IX and X : Secondary
Clrss XI and XII: Higher Secondary

Thus the number of educational institutions physically existing within a town have not been presented but has been presented by the grouping of the classes in the institutions and treating each group as a school of its kind. This grouping holds true irrespective of educational institutions they belong to. For instance, the grouping marked as higher secondary *i.e*, class XI and XII may physically belong to a college but for the purpose of Town Directory these two classes put together constitute one unit of a higher secondary school and the rest of the college has been treated as a college.

There is only one stadium in the district at Narsapur town. There are 57 cinema halls and 44 public libraries including reading rooms in all the towns in the district. There are 10 community halls in the district, one each in Akiveedu, Eluru, Narsapur, Palacole and Tadepalligudem, 2 in Nidadavole and 3 in Bheemavaram.

Statement VI:—Trade, Commerce, Industry and Banking, 1979: West Godavari District, irrigated by the waters of river Godavari, is one of the most progressive districts for agriculture. The district ranks first among the rice growing districts in the State. Innovative spirit and enterprising nature of farmers of this district have earned the coveted distinction of being called the granary of Andhra Pradesh. The industries in the large and medium scale sector functioning in the district are mostly agro-based. The industries in the small scale sector are also agro-based as the agricultural commodities support nearly one third of the total industrial units. Woollen carpets and crocket laces of this district are exported to some of the foreign countries and have earned a name not only in this country but also abroad for their gaiety and workmanship. Dyeing and printing, allied to weaving industry, are important occupations in some parts of the district. Government have been making concerted efforts to encourage the industries through financial assistance and provision of training facilities. The minerals available in the district are quartz, ochre, clay, iron-ore, graphite, mica and lime stone.

The district is served by a net work of 73 banks of which 19 are located in Eluru, 13 in Bheemavaram, 8 each in Tadepalligudem and Tanuku, 6 in Palacole, 5 in Kovvur, 4 each in Narsapur and Nidadavole, 2 each in Akiveedu, Jangareddigudem and Penugonda.

Twelve agricultural credit societies and sixty non-agricultural credit societies are serving the total urban population of the district.

PRIMARY CENSUS ABSTRACT

The Primary Census Abstract provides the most important statistics relating to residential houses, households and population and its characteristics down to the village/ward levels in rural/urban areas respectively. The Primary Census Abstract and some other tables till the 1971 Census, were generated by breaking the individual slip pads and sorting them manually. As a distinct departure from this procedure, the system of 1981 Census tabulation avoided breaking of the pads and manual sorting of the individual slips. The data on Primary Census Abstract was obtained by compilation of data available in Part-II of the House hold Schedule, namely Population Record.

Primary Census Abstract of 1981 Census has been presented on the following aspects for each revenue village in respect of rural areas and for each ward/ locality/block of a town in urban areas.

1. Location Code number and name of village/ town and area.

2. Total number of occupied residential houses and total number of households.

3. Total population and its sex breakup.

4. Population of Scheduled Castes and Scheduled Tribes by sex breakup.

5. Literate persons by sex.

6. Total main workers (I to IX categories) and the breakup of the workers into four broad categories, *viz*:—

Category	I	: Cultivators
Category	II	: Agricultural Labourers
Category	V(a)	: Household Industry
Category	III, IV, V(b) & VI to IX	: Other Workers and also the marginal workers and non-workers by sex.

The column 'Marginal Workers' is an addition to the Primary Census Abstract in 1981 Census and was not there in the previous censuses. The marginal worker is defined as a person who has worked in any economic activity for less than 183 days or 6 months in a year. Thus he would be basically classified as a non-worker for the major part of the year.

While presenting the data in the Primary Census Abstract, villages and towns have been arranged in the ascending order of their L.C. Nos. The wards in each town have also been arranged similarly. The uninhabited villages and villages fully included in a town have been indicated accordingly in the rural Primary Census Abstract. In case of villages which are partly included in towns the word 'Rural' has been added in brackets after the name of the village and the particulars relating to the rural portion only have been presented against such villages. An alphabetical list of villages together with their respective L.C. Numbers is given at the beginning of each taluk, which helps the reader to locate the village for which data on the Primary Census Abstract is required.

The basic characteristics of such of those persons who were alive at the sunrise on 1st March, 1981 whether they lived in normal residential houses or huts or in institutions like hospitals, hostels. asylums, boarding houses, hotels, etc. or houseless persons like the wandering tribes, pavement dwellers have been presented in 28 columns of the Primary Census Abstract.

As per the 1981 Census count the population of West Godavari district is as follows :

	Persons	Males	Females
Total	2,873,958	1,443,651	1,430,307
Rural	2,277,084	1,143,034	1,134,050
Urban	596,874	300,617	296,257

Col. No. 1 & 2 indicate L.C. No. and name of village/town/ward. Location Code is a device by which every village or town in a taluk of every district in a State is identified by a combination of numbers. Districts in the State are serially numbered in a clockwise direction starting from Srikakulam district and ending with Nalgonda district. In this process West Godavari district was allotted L.C. No. 5. Likewise the taluks in each district were given numbers serially in a clockwise order and the villages in each taluk

were assigned serial numbers in serpentine order. Unlike the districts, taluks and villages, the towns in each district were given numbers in alphabetical order. L.C. Nos. of villages were given in arabic numerals while those of towns in roman numerals.

Col. 3: This column shows the area of villages in hectares while the area of town is given in sq. kms. based on the information furnished by the respective State agencies. Where the area of a particular village/town was not available, the fact was noted as N.A. against that village/town. The area of all the villages and towns put together may not be equal to the area of the taluk since the area of the taluk includes area of villages, reserve forests, rivers and hills within the taluk. Rural area of a taluk presented in P.C.A. is obtained by deducting urban area from the total area of the taluk as furnished by the State Survey Department. Similarly. the rural area of a district can be obtained by deducting the total urban area of all the towns from the total area of the district. The area figures of the districts in the State are those supplied by the Surveyor General of India. Hence the total area of all the taluks in a district put together may not tally with the district area figures.

Col. 4: Number of occupied residential houses in a village/town includes partly residental houses also.

Col. 5 This column includes houseless households and institutional households as well.

Cols. 6 to 8: Total population includes houseless and institutional population with sex break up.

Cols. 9 to 12: Under these columns the population of S.Cs. and S.Ts. by sex is given. A copy of the list of S.Cs. and S.Ts. in Andhra Pradesh as notified in Presidential Order No.BC 12016/34/76-SCT-V dated 27-7-1977 is given below.

List of Scheduled Castes in Andhra Pradesh

1 Adi Andhra
2 Adi Dravida
3 Anamuk
4 Aray Mala
5 Arundhatiya
6 Arwa Mala
7 Bariki
8 Bavuri
9 Beda Jangam, Budga Jangam
10 Bindla
11 Byagara
12 Chachati
13 Chalavadi
14 Chamar, Mochi, Muchi
15 Chambhar
16 Chandala
17 Dakkal, Dokkalwar
18 Dandasi
19 Dhor
20 Dom, Dombara, Paidi, Pano
21 Ellamalawar, Yellammala Wandlu
22 Ghasi, Haddi, Relli Chachandi
23 Godagali
24 Godari

Cols. 13 & 14: Literate persons are shown under these columns. A person who can both read and write with understanding in any language is taken as literate. A person who can merely read but cannot write is not a literate. All children of the age of 4 years or less are treated as illiterate even if the child is going to school and may have picked up reading and writing a few odd words.

Cols. 15 to 28: At the 1981 Census, population has been broadly divided into three sections based on main activity *viz.*, workers, marginal workers, non-workers. Their details are shown under these columns.

The definitions and concepts adopted in the economic classification of population at the 1981 Census are given under item Analytical Note.

Work: Work is defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work. A man or a woman who is doing only household duties or making something only for domestic consumption (and not for sale) is not doing any work in census terminology. The reference period is the one year preceding the date of enumeration. Persons who had worked for 183 days or more, in other words worked 6 months or more are classified under cultivator, agricultural labourer, household industry and other workers according to the nature of work one did. Such of those persons who had worked for less than 183 days or 6 months are shown as marginal workers.

Cultivator: For purposes of census a person is working as cultivator if he or she is engaged either as employer, single worker or family worker in cultivation of land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes supervision or direction of cultivation.

Agricultural labourer: A person who works in another persons land for wages in money, kind or share is regarded as agricultural labourer. An agricultural labourer has no right of lease or contract on land on which he/she worked.

Household Industry: Household industry is defined as an industry conducted by the head of the household himself/herself and or by the members of household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The large proportion of workers in a household industry should consist of members of the household including the head. The industry should not be run on the scale of registered factory which would qualify or has to be registered under the Indian Factories Act.

Other Workers: All workers who are not cultivators or agricultural labourers or in household industry are other workers. The type of workers that come under this category include factory workers, plantation workers, those in trade, commerce, business transport, mining, construction, political or social work, all government servants, municipal employees, teachers, priests, entertainment artists, lawyers, barbers, dhobis, etc.

According to the 1981 Census there are 561,117 occupied residential houses and 622,862 households in West Godavari district compared to 417,155 residential houses and 512,450 households in 1971 registering an increase of 34.51% in number of residential houses and 21.55% in number of households.

The total number of persons returned at the 1981 Census in West Godavari District was 2,873,958 as against 2,374,306 in 1971 Census recording an increase of 21.04% as against the States growth rate of 23.10%. The proportion of rural and urban population to the total population in the district works out to 79.23% and 20.77% respectively in 1981 Census while the said proportion was 82% and 18% in 1971. There were 991 females per every 1,000 males at the 1981 Census as against 994 females per 1,000 males in 1971 Census.

West Godavari district returned 1,080,947 literates at 1981 Census forming 37.61% of the total population of the district compared with 817,105 literates constituting 34.41% at 1971 Census. The sex break up of literacy rates during 1981 Census is 43.58% among males and 31.59% among females. Rural, urban break up of literacy rates indicate 33.78% of population are literates in rural, while this is 52.21% in urban population. The corresponding rural and urban rates of literacy at 1971 are 31.00% and 50.27% respectively.

In West Godavari District there are 1,184,104 workers constituting 41.20% of the total population as against 964,162 workers forming 40.61% in 1971 Census. Among males the workers constituted 58.63% while among females only 23.61% are workers.

The Brief Analysis of the Village & Town Directory and Primary Census Abstract Data

There are 879 villages in the district at the 1981 Census. As explained in detail in the statement showing the formation of new taluks and their constituent villages, 2 villages are returned as newly sprung up during the decade. One village is reported as fully *attaining urban status and loosing its rural character*. One village is reported as clubbed with other revenue village consequently loosing its individual status as main revenue village. Thus total number of villages in the district at 1981 remained the same as in 1971. Out of the 879 villages, 839 are inhabited while 40 villages are uninhabited. Eight inhabited villages are reported as partly included in different towns of the district. The balance of 18 villages which are fully included in urban areas are not taken into account in computing the total number of villages in the district. The following table gives the population *of taluks by total/rural/urban with sex break-up.* The number of villages and towns in each of the taluks is also indicated in this table.

Eluru taluk has more urban population than other taluks, while Polavaram taluk has the least urban population as per 1981 Census. Four taluks are returned as exclusively rural taluks.

Table 3 shows the total number of inhabited villages in the district classified by population into six broad ranges. In computing the number of villages in a taluk, the villages which are either completely included in an urban unit or returned uninhabited are not taken into account. Maximum number of villages are in the size group of 500–1,999 population and form 37.42% of total villages in the district.

Table 3

DISTRIBUTION OF VILLAGES BY POPULATION RANGES

Range of Population	No. of villages in each range	Percentage of villages in each range
1	2	3
— 199	61	7.27
200 — 499	67	7.99
500 — 1,999	314	37.42
2,000 — 4,999	276	32.90
5,000 — 9,999	99	11.80
10,000 +	22	2.62
Total	**839**	**100.00**

Table 4 presents the distribution of villages by density into nine ranges and also the percentage of villages in each range. The density figures per sq.km. of each village have been worked out by using the area figures corrected upto two places of decimal. The highest proportion of villages is observed in the density range of 501+. More than 70% of villages come under density group 201 and above. This district has returned a density of 371 persons per square kilometre as against 195 persons for the State.

Table 4

DISTRIBUTION OF VILLAGES BY DENSITY

Range of density (per sq.km.)	Total No. of villages in each density range	Percentage of villages in each density range
1	2	3

Not known	2	0.24
Total	**839**	**100.00**

According to 1981 Census the population of scheduled castes in West Godavari district is 464,145

accounting for 16.15% of the total population of the district. scheduled caste population in this district forms 5.83% of the total scheduled caste population in the State. The proportion of scheduled caste population to total population in the villages is calculated for all the villages in the district and arranged in seven ranges together with percentage of villages in each range. 52.56% of the villages have scheduled caste population in a percentage range above 16. Only 8.94% of villages are without scheduled caste population.

Table 5

PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN THE VILLAGES

Percentage range of Scheduled Castes population to tolal population	No. of villages in each range	Percentage of villages in each range
1	2	3
Nil	75	8.94

Table 7 provides the total population, scheduled caste and scheduled tribe population and the percentage of scheduled caste and scheduled tribe population to total population of the towns in the district.

The total scheduled castes population in all the urban areas of the district at 1981 Census was 55,953 persons constituting 9.37% to the total urban population. Among the towns, proportion of scheduled castes population varies from 6.39% in Bheemavaram town to 16.23 % in Kovvur town.

The total scheduled tribes population in all the urban areas of the district according to 1981 Census was 6,356 persons representing 1.06% to the total urban population. The proportion of scheduled tribes population varies from 0.68% in Tadepalligudem to 2.50% in Jangareddigudem.

Table 7

PROPORTION OF SCHEDULED CASTES/SCHEDULED TRIBES POPULATION IN TOWNS

The following Table 8 gives the literacy rates by population ranges of villages in the district. West Godavari District occupies 5th rank in literacy amongst the districts in Andhra Pradesh State. The proportion of literates of this district constitutes 6.57% of the total Andhra Pradesh literates.

Highest literacy rate of 37.45% is found in villages with 10,000+ population.

Table 8

LITERACY RATES BY POPULATION RANGES OF VILLAGES

Range of Population	No. of villages in each range	Literacy rate
1	2	3
— 199	61	16.04
200 — 499	67	23.50
500 — 1,999	314	30.49
2,000 — 4,999	276	33.44
5,000 — 9,999	99	35.02
10,000 +	22	37.45
Total	**839**	**33.78**

The Table 9 shows the literacy rates for the towns in the district as per 1981 Census.

The literates in all the eleven urban areas in the district were 311,645 persons forming 52.21% to the total urban population. Among the towns, the literacy rate varies from 44.27% in Akiveedu to 57.07% in Tanuku. Eluru, the district headquarters town, occupies the second place in literacy rate in the district.

Table 9

LITERACY RATES FOR TOWNS

Name of Town	Literacy Rate
1	2
Akiveedu	44.27
Bheemavaram	44.56
Eluru	56.12
Jangareddigudem	47.62
Kovvur	51.29
Narsapur	55.62
Nidadavole	54.72
Palacole	55.49
Penugonda	50.62
Tadepalligudem	48.76
Tanuku	57.07
ALL TOWNS	**52.21**

Table 10 presents the proportions of literates, workers, non-workers, scheduled castes/scheduled tribes population to the total population, giving break-up by taluk (total/rural/urban) and by sex. There is a highest concentration of scheduled castes and scheduled tribes population in the rural areas than in the urban areas. West Godavari district has returned 36.57% of the total population of the district as literates. Eluru taluk has returned 46.00% of literates and this is the highest in the district. Chintalapudi taluk has returned the largest number of workers 85,143 in its rural areas accounting for 8.13% of the total workers of the district and 48 89% of the total population of the taluk. Polavaram taluk stands first among the taluks in the district in the proportion of workers to total population. Gopalapuram taluk has returned 29.45% of scheduled caste population while the least is in Akiveedu taluk with 6.92%. The percentage of scheduled caste population in urban areas range between 14.92% to 6.39% among the taluks. Polavaram taluk has recorded highest proportion of scheduled tribe population with 22.38% while Narsapur has the least proportion of scheduled tribe population with only 0.52%.

Distribution of villages according to the availability of different amenities by taluks is presented in the following table. As seen from the table, education and drinking water facilities are available in 92.49% and 99.88% villages respectively, while amenities of power supply, approach by pucca road, P&T and Communications are available in respect of 87.96%, 78.07%, 72.11% and 68.30% of villages respectively. Medical and market facilities are inadequate and only a meagre proportion of villages have these facilities viz., 39.09% of villages have medical facility while 22.65% of villages have market facilities.

The table clearly sets out the talukwise position of various amenities.

Table 11

DISTRIBUTION OF VILLAGES ACCORDING TO THE AVAILABILITY OF DIFFERENT AMENITIES

Table No. 12 gives the proportion of rural population served by the different amenities at taluk level.

63.56 per cent of population has medical facilities while about 51.16% of the population has access market facilities. More than 90% of the population have power supply and approach by pucca road. 84% of the rural population has communication, while almost 100% of the population has access to education and drinking water.

Table 12

PROPORTION OF RURAL POPULATION SERVED BY DIFFERENT AMENITIES

Table 13 gives the distribution of villages not having certain amenities arranged by three distance ranges from the places where these are available. There is one village in this district which has no drinking water facility. Only 63 villages do not have education facility within the village, but these are available at different distance ranges. Large number of villages do not have market, medical, communication and P & T facilities within the village, but are available at different distance ranges.

Table 13

DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE

Villages not having the amenity of	Number of villages where the amenity is not available and available at distance of			
	-5 kms	5-10 kms	10+ kms	Total (Cols 2-4)

5. Market	174	209	266	649
6. Communication	164	77	25	266

Table 13 *(Concld.)*

Table 14 illustrates the distribution of villages according to the distance from the nearest town and availability of different amenities.

15.02% of the villages have towns within the range of 0–5 kms. About 37.18 per cent of the villages have towns within a range of 6–15 kms., while the balance have nearest towns located within 16–50 kms. and 51+ kms. accounting for 41.60% and 6.20%. respectively. As given in other tables on amenities, medical and market facilities are far below the levels attained by other amenities.

(Table 14 over leaf)

Table 15 sets out the amenities available in the villages by distributing the villages according to the population range. The population ranges of less than 500, 500-1,999, 2,000-4,999, and 5,000+ are considered and the villages are distributed in these ranges. About 37.42% of the villages are in the range of 500-1,999, while the villages less than 500 and those in the range of 2,000-4,999 form 15.26% and 32.90% respectively. Only 14.42% of the villages are in the category of 5,000+. It is interesting to note that as the population range increases, the amenities available in the villages are also on the increase. As has been observed earlier only the medical and market facilities are not adequate in the villages falling in the ranges other than 5,000+.

Table 15

DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGE AND AMENITIES AVAILABLE

Population range	No. of inhabited villages in each range	Number (with percentage) of villages having the amenity of							
		Education	Medical	Drinking Water	Post & Telegraph	Market	Communi-cations	Approach by Pucca Road	Power Supply

The main staple food in the majority of villages in each taluk is given in this table.

Rice and Jowar form the main staple food in the villages in this district.

Table 16

MAIN STAPLE FOOD IN THE MAJORITY OF VILLAGES IN EACH TALUK

Sl. No.	Name of Taluk	Main Staple Food
1	2	3

12	Penumantra	Rice, Jowar
13	Poduru	Rice, Jowar
14	Narsapur	Rice, Jowar

Table 17 presents the land use pattern giving the proportion of cultivable area to the total area and the irrigated area to the cultivable area. It is seen from the table that 65.44% of the total area is accounted for as cultivable area of the district. Of the total cultivable area of 2,710,693.71 hectares 1,922, 964.20 hectares forming 70.94% is tenable. Ganapavaram taluk has the largest percentage of cultivable area of 86.80% and Chintalapudi taluk has the least proportion of cultivable area of 45.59%. Among the taluks in the district, Ganapavaram taluk has the highest percentage of 99.18 irrigated area to total cultivable area of the taluk.

Table 17

DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE

Table 19 indicates the towns added/declassified at the 1981 Census with their population.

Jangareddigudem with a population of 17,232 persons is the only addition to the list of towns in the district and there is no case of declassification of town in 1981 Census.

Table 19

Nil	—

Table 20 deals with the finances indicating the receipt and expenditure in towns in the district as on 1979.

Of the eleven urban areas in the district, the highest per capita receipt is noticed in Bheemavaram Municipality (Rs. 123.07) followed by Eluru Municipality (Rs. 109.80) and Palacole Municipality (Rs. 88.70). The lowest per capita receipt is recorded in Penugonda Panchayat (Rs. 19.31). Receipt through taxes is highest in Bheemavaram Municipality (Rs. 39-90) while this is lowest in Penugonda Panchayat (Rs. 4.76). From all other sources together, the highest per capita receipt is seen in Bheemavaram Municipality (Rs. 83.17) followed by Eluru Municipality (Rs. 78.84) while the lowest per capita receipt is recorded by Penugonda Panchayat (Rs. 14.55).

Bheemavaram Municipality stands first among the urban areas of the district with its per capita expenditure of Rs. 122.22 followed by Eluru Municipality (Rs. 91.82). Jangareddigudem Panchayat ranks last in per capita expenditure (Rs. 17.21). The per capita expenditure of (Rs. 30.08) on public health and conveniences in Eluru Municipality is the highest among the towns while Akiveedu has the minimum of (Rs. 4.36). The highest per capita expenditure of Rs. 29.94 on public institutions like schools and libraries is recorded by Palacole Municipality. No expenditure is incurred by Jangareddigudem, Penugonda and Tanuku towns for this purpose.

All the civic bodies are running on sound lines with surplus budget except Penugonda and Tanuku towns, which are functioning with deficit budget. Kovvur, Eluru, Palacole and Nidadavole Municipalities are having considerably more per capita receipts than per capita expenditure.

Table 20

Table 21 provides the data relating to the availability of educational facilities in different categories per 10,000 population. It may perhaps be mentioned here that data presented in the following table refer generally to institutions that have been recognised by the State Govt. and are authorised to teach the students for appearing to the different grades of examinations conducted by the concerned examination board periodically.

There are 240 primary schools, 81 middle schools, 55 high schools and 12 junior colleges in all the urban areas of the district.

Table 21

From table 22, it can be seen that the number of beds available in urban areas of the district is 3.28 beds for every 1,000 population. Maximum bed strength in the urban areas of the district is concentrated in Narsapur and Eluru towns. The bed-population ratio is highest in Narsapur town where there are 9.78 beds per 1,000 population. Akiveedu, Jangareddigudem, Nidadavole, Palacole and Tanuku have recorded a bed-population ratio more than the district average. All other towns have a ratio less than the district index.

Table 22

Physically Handicapped Persons :

Collection of data on physically handicapped persons is a special feature of 1981 Census. Last time this information was collected in 1931 Census. After the independence the data for the physically handicapped persons in our country were collected again for the first time along with the houselisting operations held in May, 1980 and as such, the physically handicapped persons who were available in the census houses were alone covered in the survey. The houseless do not, therefore, find a place in this survey. The physically handicapped persons covered are of three types of disabilities, totally blind, totally crippled and totally dumb. The definition adopted for physically handicapped is as follows :

"The term of totally crippled refers to such persons who have lost their arms or limbs. The loss of arms or legs or all the four limbs refers to loss of both the arms or loss of both legs. It is not necessary that the disabled should have lost both arms and legs. The loss of either of these i.e., both arms or both legs would be sufficient for classification as totally crippled. Loss of only one arm and/or one leg w not classify a person as totally crippled. The lc here refers to the inability to use and not necessari physical absence. Thus, a paralytic who has lost ti use of both the legs or both the arms, will be total crippled, though the legs or arms as such are st physically present."

In case when a person unfortunately suffer from more than one of the disabilities mention above, the person was recorded by the greater disat lity. For example, if a person was both blind ai dumb or blind and crippled, etc., blindness was not for him as blindness is considered as greater disabi ity than either dumbness or being crippled. Similarl being crippled was considered a greater disability tha being dumb. In an extreme case where a perso suffered from all the disabilities was taken und blind since this is certainly the most unfortunate di ability.

A statement showing the distribution of phys cally handicapped persons by taluks in West Godava district is given below.

DISABLED POPULATION BY TYPE OF DISABILITY – WEST GODAWARI DISTRICT

Physically handicapped form 0.16% of the total population in the district, comprising of 0.17% of rural and 0.10% of urban population. Out of the total 4,410 persons recorded as physically handicapped, i.e., totally blind, totally crippled and totally dumb in the district as many as 3,869 persons forming 87.73% are from rural areas only. Among the total physically handicapped in the district 29.71% are totally blind, 38.93% are totally crippled and 31.36% are totally dumb. The survey revealed that Akiveedu taluk has recorded the highest number of physically handicapped persons accounting for 392 persons, the lowest being Gopalapuram taluk with 167 persons.

PART–II

VILLAGE AND TOWN DIRECTORY AND PRIMARY CENSUS ABSTRACT

SECTION I – Village Directory
SECTION II – Town Directory
SECTION III – Primary Census Abstract

SECTION I

VILLAGE DIRECTORY

Village Directory which provides village-wise information about the amenities and landuse pattern in the villages, consists of 20 columns. The data so collected from the Tahsildars and other officials concerned were scrutinised and presented under certain columns in codes. Such codes will frequently be seen against column numbers 5 to 8, 10, 11, 13, 16 and 20. The following codes have been used against the facilities available in the village

Educational : (Column No. 5)

P	...	Primary or Elementary School (Upto Class IV)
M	...	Middle School or Junior Secondary (Class from V to VIII)
H	...	Matriculation or Secondary School (Class from IX and X)
JC	...	Higher Secondary/PUC/Intermediate/ Junior College
C	...	College
I	...	Industrial School
Tr	...	Training School
AC	...	Adult Literacy class/Centre
O	...	Other educational institutions which include Sanskrit Pathasala, Senior Basic School

Medical : (Column No. 6)

H	...	Hospital
MCW	...	Maternity and Child Welfare Centre or Maternity and Child Health Centre
MH	...	Maternity Home
CWC	...	Child Welfare Centre
HC	...	Health Centre
PHC	...	Primary Health Centre
PHS	...	Primary Health Sub-Centre
D	...	Dispensary
FPC	...	Family Planning Centre
TB	...	T. B. Clinic
NH	...	Nursing Home
RP	...	Registered Private Practitioner
SMP	...	Subsidised Medical Practitioner
CHW	...	Community Health Worker
O	...	Others

Drinking Water : (Column No. 7)

T	...	Tap
W	...	Well
TK	...	Tank
TW	...	Tube Well
HP	...	Hand Pump
R	...	River
F	...	Fountain
C	...	Canal
L	...	Lake
S	..	Spring
N	...	Nallah
O	...	Others
NA	...	Information not available

Post and Telegraph : (Column No. 8)

PO	...	Post Office
TO	...	Telegraph Office
PTO	...	Post and Telegraph Office
Phone	...	Telephone Connection

Communications : (Column No. 10)

BS	...	Bus
RS	...	Railway Station
NW	...	Navigable Waterway

Approach to Village : (Column No. 11)

PR	...	Pucca Road
KR	...	Kaccha Road
NR	...	Navigable River
NC	...	Navigable Canal
NW	...	Navigable Waterway
FP	...	Foot Path

Power Supply : (Column No. 13)

ED	...	Electrictiy for Domestic purpose
EAG	...	Electricity for Agriculture
EO	...	Electricity for Other purposes like industrial, commercial etc.
EA	...	Electricity for All purposes listed above

Irrigated by Source : (Column No. 16)

GC	...	Government Canal
PC	...	Private Canal
W	...	Well (Without Electricity)
WE	...	Well (with Electricity)
TW	...	Tube Well (without Electricity)

TWE	.	Tube Well (with Electricity)
TK	...	Tank
R	...	River
L	...	Lake
WF	...	Water Fall
O	...	Others
T	...	Total

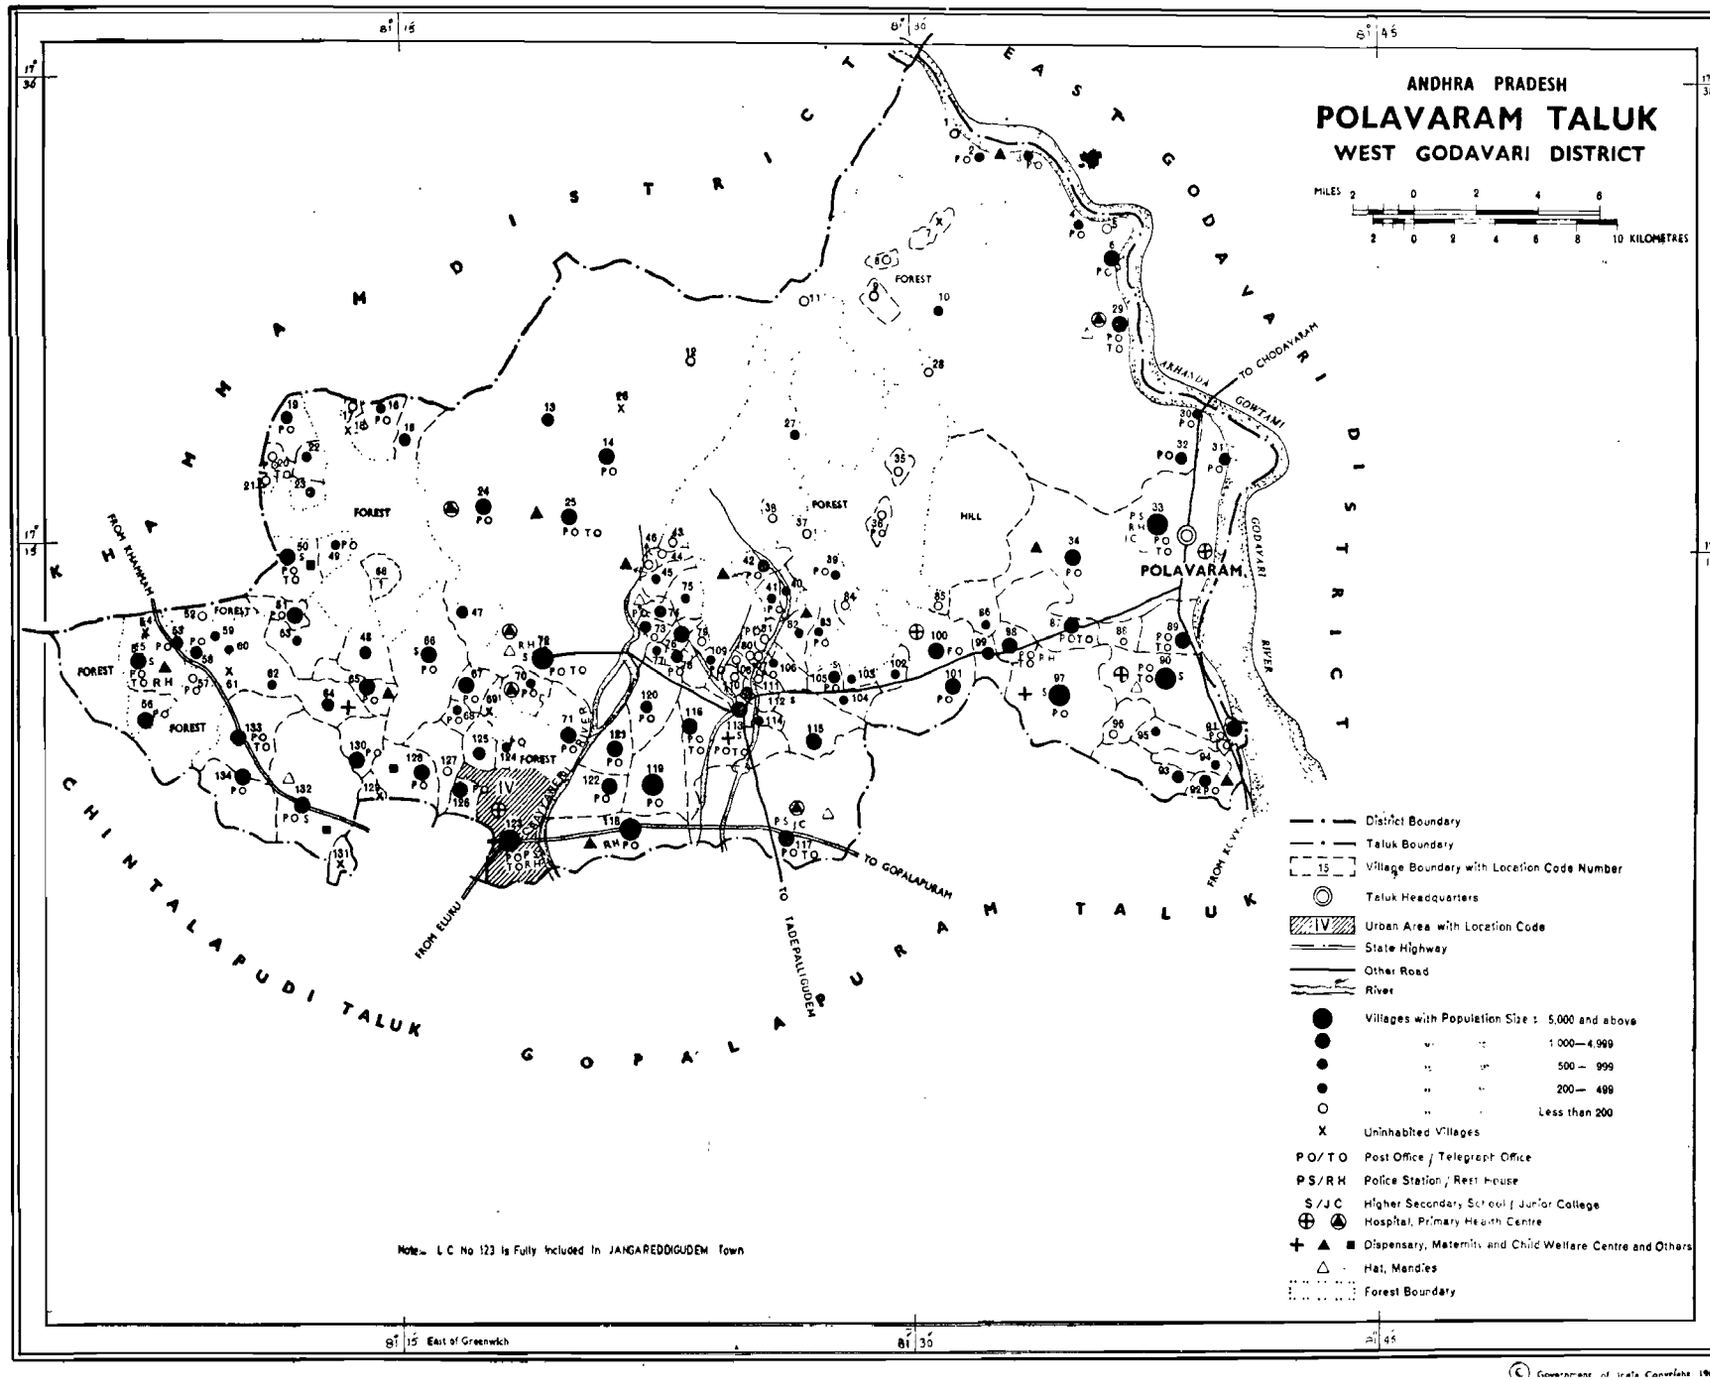

Remarks, etc. : (Column No. 20)

N	...	Copies of the News Papers (Coming in the village)
M	...	Motor Cycles/Scooters
C	...	Cars/Jeeps
T	...	Tractors

As an example an entry showing figures like P(2), or D(2), or T(35 21), TK(35.21) would indicate that the village has two primary schools, two dispensaries, extent of total irrigated land in the village is 35.21 Hectares and extent of land irrigated by water from tanks is 35.21 Hectares.

Where a facility is not available in the village the distance at which the facility available is shown in broad ranges viz., —5 Kms ; 5—10 Kms; and 10+ Kms. of the nearest place.

SECTION II - Town Directory

SECTION II

TOWN DIRECTORY

Codes used in the seven statements are explained in detail and the expressions for the abbreviations used in Statements are briefly explained herein. Statement I has been compiled in this Office and Statements II to VI by obtaining the data from local authorities having administrative control over the towns.

In this Statement I Col. 2 to denote the civic status of town the codes used are :

Municipal Corporation / Corporation	M. Corp.
Municipality	M
Cantonment Board/Cantonment	CB
Notified Area / Notified Area Committee/Notified Committee	NAC
Gram Panchayat/Village Panchayat	P

In statement IV Col. 6 to differentiate category of road the following abbreviations are used.

Pucca road	PR
Kuccha road	KR

Under Col. 7 to specify the system of sewerage the codes given are :

Sewer	S
Open surface drains	OSD
Box surface drains	BSD
Sylk drains	SD
Cesspool method	CD
Pit system	Pt.

In Col. 11 the various prevalent methods of disposal of night soil are given with the following codes.

Head loads	HL
Baskets	B
Wheel barrows	WB
Septic tank latrines	ST
Sewerage	S

Under Cols. 12 & 13, the codes used to state the source of supply and system of storage of protected water supply are as follows :

Overhead tank	OHT
Service reservoir	SR
River infiltration gallery	IG
Borewell pumping system	BWP
Pressure tank	PT
Tubewell water/Hand pump	TW
Tap Water	T
Well Water	W
Tank Water	TK

The first five codes relate to the system of storage of water in the town and the remaining four codes represent the different sources of water supply to the inhabitants of a town.

In statement V under Col. 4 to indicate the type of medical facility available to the citizens, the following codes are used :

Hospital	H
Dispensary	D
Health Centres	HC
Family Planning Centre	FC
T. B. Clinic	TB
Nursing Home	NH
Others	O

If there are more than one institutions of any type, the number of such institutions is noted within brackets *eg* : D (2) ; NH (7) etc.

To distinguish the medical institutions as allopathic or ayurvedic or unani or homoeopathic the following additional codes are used.

Ayurvedic	A
Unani	U
Homoeopathic	Hom.

In case of allopathic no separate code is used. The information on medical facilities is presented horizontally in the same line as illustrated below :

H (A-1, 2), D (Hom-2, U-1)

Here H (A-1, 2) represents one ayurvedic and 2 allopathic hospitals and D (Hom-2, U-1) represents 2 homoeopathic and 1 unani dispensaries.

The Codes used for the Col. 6 are as follows :

Arts only	A
Science only	S
Arts and Science only	AS
Commerce only	C
Arts and Commerce only	AC
Arts, Science and Commerce	ASC
Law	L

If there are more than one institution of each type the number is given against each in brackets.

Under Col. 10 the following codes are used to specify the recognised short hand, typewriting and other vocational training institutions. If there are more than one institution of each type the number is given against each in brackets.

Short hand	SH
Typewriting	Type
Shorthand & Typewriting	Sh. Type
Others	O

The vocational institutions like Applied Art/ Painting College, Pharmacy College, B. Ed. College Teacher's Training institutes, Music/Dancing School, Nursing School, etc., are covered under "Others".

Schools upto class IV are treated as Primary or Elementary Schools. These include Nursery Schools, Kinder Garten Schools, Pre-basic Schools, Pre-primary School. School upto Class VIII are treated as Junior Secondary or Middle School. Schools upto Class X are treated as Matriculation or Secondary Schools. Schools or Colleges upto Class XI or XII are considered in the Group of Higher Secondary/Intermediate/Pre-University/Junior College, etc.

Under Col. 20 the abbreviations given are as follows :

Public library	PL
Reading Room	RR
