STATE PUBLICATIONS

DISTRICT CENSUS HAND BOOKS

A District Census Hand Book for each of the 20 Districts in Andhra Pradesh

PRINTED BY THE JYOTHI PRESS, HYDERABAD, FOR THE DIRECTOR OF PRINTING, HYDERABAD

PREFACE

The District Census Handbook is an innovation introduced at the 1951 Census. The Handbooks are compiled by the Census Office but published by the State Government. They proved to be very popular and valuable publications in considerable demand by the public as well as the official users of the Census data. At the 1961 Census, therefore, it was decided not only to continue the publication of the District Census Handbook but to greatly improve upon its precursor of 1951.

The present District Census Handbook may be conveniently divided into four parts. The first part consists of a narrative description of the physical features and history of the district, the social and economic characteristics of the people and the progress made by the district in each field of administration over the past decades. This is supplemented by a gazetteer of places. The second part consists of administrative statistics of various departments. The third part is based mainly on the present Census returns and consists of statistical tables giving the particulars of population, sex ratio, the economic composition, literacy, language and migration data. etc. The fourth part consists of Village and Town Directory which is perhaps the vital part of the Handbook giving villagewise and townwise particulars of area, households, population, Scheduled Castes and Scheduled Tribes, literacy, broad categorisation of working population, etc. Against each village and town the educational, medical, public health and transport facilities, etc., if available, have also been indicated At the end of the fourth part a tabular statement of fairs and festivals, information about which had been collected through the Census enumerators will also be found. The pages of each part are numbered separately. The Handbook is enriched with two district maps, one showing the administrative divisions and important communications, rivers, etc., and the names of all important places of above 5,000 population and the other showing the talukwise density of population. In the Village Directory portion of the Handbook, before the statistics of each taluk are presented, a taluk map showing the village and town boundaries with the location code number of each village and town marked will also be found. Thus the District Census Handbook is a self-contained and convenient book of reference about almost all matters pertaining to the district.

The Handbooks are no doubt coming rather late, a few years after completion of the Census count. This delay, if at all it can be called delay, could not be helped. The very detailed sorting of Census slips and compilation of the elaborate 1961 Census tables were time consuming; the administrative particulars for incorporation in the Handbooks had to be collected from different departments and other sources on proformae that were finalised and circulated from this office; the preparation of the excellent maps of the district and the taluks, attempted this time, also required considerable time; and lastly the printing of these voluminous reports which had to be done very carefully was a laborious process. All the same it is hoped that these Handbooks will serve as valuable sources of reference about all matters pertaining to the district and help one to assess the impact of the Five Year Plans and the progress each district had made in its social and economic well being over the decades and also serve as a guide in planning for the future. The credit for the compilation of this Handbook goes chiefly to Shri K. M. Ahmad, I. A. S., and Shri P. S. R. Avadhany, Deputy Superintendents of Census Operations. Shri Ahmad took great pains to tour the district, contact the various officers of the district and dig out information from various sources. A compilation of this type and magnitude could have taken a much longer time but for the diligent efforts of Shri Ahmad and Shri Avadhany. The Handbook section of the Census Office under the Tabulation Officer Shri K. Narasimha Murthy, did a commendable work in the speedy and accurate compilation of the Village Directory and the other Statistical and Administrative tables. Sarvashri G. Pandurangam, Mohiuddin Hassan, and M. J. Sadiq, of the Cartographic Section in my office did a magnificent work as will be evident from the quality of maps that have been produced.

ADMINISTRATIVE STATISTICS

SERIES 1-VITAL STATISTICS

Table No.		
1.1	Births and Deaths and Deaths due to various causes for the decennium 1951-60	(1)-(2)
1.2	Registered Birth and Death rates, Infantile and Maternal Mortality Rates	(3)

SERIES 2-AGRICULTURE

2.1	Rainfall	(4)-(7)
2.2	Temperature	(8)
2.3	Land Utilisation Statistics	(9)
2.4	Area under Principal Crops	(10)
2.5	Gross Area Irrigated	(11)
2.6	Sources of Irrigation	(11)
2.7	Irrigation Projects with particulars of their capacity and water spread area	(12)

Table No.		*Pages*
	SERIES 2-AGRICULTURE—*Concld.*	
2.8	Yield rates of the Principal Crops per acre	(13)
2.9	Monthly wholesale price quotations in respect of staple foodgrains	(14)-(15)
2.10	Statistics of wages per worker (Average daily wages paid to Skilled and Agricultural Labour)	(16)-(19)
2.11	Government Experimental Farms	(20)-(21)
2.12	Grow More Food Campaign	(22)
	SERIES 3-ANIMAL HUSBANDRY	
3.1	Livestock and Poultry	(23)
3.2	Livestock Mortality due to contagious and other diseases	(24)-(25)
3.3	Government Veterinary facilities	(26)
	SERIES 4-INDUSTRIES	
4.1	List of Small Industries together with the number of establishments and persons employed in each of them in the various taluks of the district	(27)-(28)
4.2	Total number of Artisans of each category working in the district together with their daily average earnings per worker	(29)
4.3	List of Factories (Large Industrial Establishments) under the operation of the Factories Act, 1948, for the year 1962	(30)-(45)
	SERIES 5-ADMINISTRATION	
5.1	Criminal Justice—Number of criminal cases disposed off	(46)
5.2	Criminal Justice—Persons convicted or bound over in	(47)
5.3	Civil Justice	(47)
5.4	Number of Judicial Officers	(48)
5.5	Strength of Police	(48)
5.6	Major Crimes reported	(49)
5.7	Property stolen and recovered	(49)
5.8	Number of Jails with their capacity and number of Prisoners lodged	(50)
5.9	Registered Motor Vehicles	(50)
5.10	Receipts realised under Motor Vehicles Act	(51)
5.11	Land Revenue Demand and Collections	(51)
5.12	Number of Registered documents and value of properties transferred	(52)

Table No.		*Pages*
	SERIES 5-ADMINISTRATION—*Concld.*	
5.13	List of Collectors worked in West Godavari District from 1925	(52)

PART I

INTRODUCING THE DISTRICT

WEST GODAVARI DISTRICT

Prepared in the Office of the Superintendent of Census Operations, Andhra Pradesh, Hyderabad.

CHAPTER I

GENERAL FEATURES

General :

West Godavari district, as it is rightly called, is situated to the west of the River Godavari which runs through the whole length of the district, though in the lower course, the Vasista branch of the River Godavari borders it before falling into the Bay of Bengal. The district was formed in 1925 out of the old Krishna District and the Agency taluk of Polavaram was transferred to this district from East Godavari district in 1942. The district is bounded on the north by Khammam district, on the south by Krishna district and the Bay of Bengal, on the east by the river Godavari and on the west by the Krishna district and lies between 16° 15′ and 17° 30′ of the northern latitude and 80° 50′ and 81° 55′ of the eastern longitude. It extends over an area of 3,009.8 sq. miles out of which Polavaram taluk measuring 491.3 sq. miles is the Agency portion and the rest of the area comes under the plains portion of the district. The total population of the district as per the 1961 Census count is 1,978,257 persons and there are altogether eight taluks comprising 826 inhabited and 57 uninhabited villages besides 10 towns in this district. Eluru, the headquarters of the district has more than a lakh of population and falls under the category of cities. Out of the ten towns in this district *viz.*, Eluru, Tadepalligudem, Narsapur, Palacole, Bheemavaram, Kovvur, Nidadavole, Tanuku, Penugonda and Maruteru, the first five are Municipalities while the rest are Panchayats. The total urban area of the district is 56.8 sq. miles and the total urban population is 313,973 persons with an urban density of 5,526 persons per sq. mile according to the 1961 Census count. All these towns are only in plains area and no town exists in the Agency portion of the district.

The following statement gives the area particulars of the taluks in the district together with their population and density as at the 1961 Census count.

STATEMENT I-1

Name of the Taluk (1)	Area in sq. miles (2)	Population as per 1961 Census (3)	Density per sq. mile (4)
Eluru	509.9	312,636	613
Chintalapudi	418.3	121,831	291

STATEMENT I-1—*Concld.*

Name of the Taluk (1)	Area in sq. miles (2)	Population as per 1961 Census (3)	Density per sq. mile (4)
Polavaram	548.7	118,231	215
Kovvur	390.6	247,089	633
Tadepalligudem	359.0	249,662	695
Tanuku	214.3	316,039	1,475
Narsapur	278.9	336,548	1,207
Bheemavaram	290.1	276,221	952
District Total	**3,009.8**	**1,978,257**	**657**

Natural Divisions :

The district consists of three very dissimilar natural divisions *viz.*, the delta, the uplands and the Agency tract.

The delta is generally flat and in some places near the coast it is low and sandy interspersed with tidal swamps and creeks which are being brought under cultivation by reclaiming the land and providing proper irrigation and drainage facilities. Obviously it contains some of the most fertile lands in the State and teems with cultivation. It presents a vast unbroken expanse of beautiful green paddy fields which look like a single stretch of crop and the boats gliding along the main canals break the uniformity of waving, green crops dotted with villages containing palmyra trees, coconut and plantain gardens. In fact, the vista is grand and the countryside presents a picture of unique scenic beauty. During the rains the greater part of this tract looks like one sheet of water, only village sites, canal banks, roads and field boundaries appearing above it. The deltaic area comprises two segments namely the Godavari Western Delta and the Krishna Eastern Delta. The former extending completely over the taluks of Bheemavaram, Narsapur, Tanuku and over parts of Eluru, Kovvur and Tadepalligudem is irrigated by the canals which branch off from the Godavari Anicut while the latter covering part of the Eluru taluk is irrigated by the Krishna-Eluru canal.

The upland area which is an undulating plain broken by low ranges consists of the taluks of Chintalapudi, Kovvur and parts of Eluru and Tadepalligudem and lies between the Delta area and the Agency portion.

The Agency area which consists of Polavaram taluk only is traversed by the Eastern Ghats, broken by the Papikonda range of hills. The area is covered by scattered hills and spurs rising from the lower uplands. The highest peak is Peddakonda—'big hill' —which rises to a height of 4,476 feet.

Lankas (islets) which are formed here and there in the course of the river Godavari are rendered extraordinarily fertile by accumulation of silt (sandy alluvium) brought down by it particularly in Tanuku and Narsapur taluks but they are liable to submersion during freshes in the Godavari. They are generally rented out in auction by periodical leases and in some cases they are leased out without public auction to Field Labour Co-operative Societies and are intensively cultivated with sugarcane, plantain or vegetables or the more paying virginia tobacco which is gradually becoming an important commercial crop of the district. Considerable expansion of area under the virginia variety of tobacco is also noticed in the taluks of Kovvur and Tanuku. The country variety of tobacco is grown in the lanka lands in Polavaram, Tanuku, Kovvur and Narsapur taluks. In the uplands it is grown under wells.

Rivers :

Godavari, Byneru, Yerrakaluva, Gunderu and Tammileru are important rivers flowing in the district. The great river Godavari flanks on the entire eastern boundary of the district. About 40 miles from the sea, at Vijjeswaram it divides into two main branches namely the Gautami Godavari, the eastern branch, and the Vasista Godavari, the western branch which flows towards the south of the district separating it from the East Godavari district. The splendid Godavari Anicut constructed across the river Akhanda Gautami Godavari at Vijjeswaram on the right bank directly opposite to Dowleshwaram on the other bank of the river is the superb work of Sir Arthur Cotton and stands as an eloquent tribute to his engineering skill. The canal system of the Godavari delta on the western side takes off to render its water available for irrigation and irrigates through seven main canals and numerous distributaries almost the whole of Narsapur, Bheemavaram and Tanuku taluks and portions of Eluru, Tadepalligudem and Kovvur taluks. In fact this tract has enjoyed over 100 years of irrigation ever since the Godavari Anicut was constructed in 1848. Sable-fish is caught in considerable quantities at the Anicut across the Godavari. The Eluru canal which branches off from the Anicut across the river Krishna at Vijayawada irrigates portions of Eluru taluk. The hill streams, Byneru flowing through Polavaram taluk, Yerrakaluva flowing through Polavaram, Kovvur and Tadepalligudem taluks, Gunderu flowing through Eluru taluk and Tammileru flowing along the western boundary of the Chintalapudi and Eluru taluks are of some consequence as they feed the minor irrigation tanks and also facilitate irrigation directly wherever it is possible to bale out water from them.

The Collair lake is an extensive shallow depression towards the south of Eluru taluk and the west of the Tadepalligudem and Bheemavaram taluks caused by a gradual rise in the level of the country on either side by alluvial deposits from the Godavari and the Krishna canals. This lake, in fact, receives a very large supply of water from the surrounding deltaic country and the Upputeru which is the only outlet is too inadequate to drain off the entire inflow from the delta, as a result of which the lands on the margin of the lake are liable to submersion for long periods during the flood season and crops get spoiled during the very first crop season.

Climate and Rainfall :

The climatic conditions of this district are more or less of the extreme type. During the summer the district is very hot and it is chilly during the winter. As the district adjoins the Bay of Bengal in the southern parts, the sea breeze to some extent renders the climate moderate and tolerable in the southern portion. The hilly areas of Polavaram are, however, comparatively colder than the plains during winter and likewise severe in summers. The average annual rainfall for the entire district is 1029.5 mm. The total rainfall recorded during the year 1961 was 1,139.6 mm. The district gets ample rainfall during the south-west monsoon period (June to September).

Soils :

The soil in this district is made up of alluvial, black-regar and red-ferruginous varieties. There is also a small belt of arenaceous or sandy soil which fringes along the coast. The alluvial soil is considered to be fertile while the black-regar soil ranks only next to it and occurs in all the taluks except Tanuku. The entire taluk of Tanuku is made up of alluvial soil while parts of Narsapur, Bheemavaram, Tadepalligudem, Kovvur and Eluru taluks also contain this type of soil. Black regar soil is the next in extent and it occurs in all taluks

except Tanuku. This blackregar soil occurs predominantly in Eluru and Bheemavaram taluks; however it is also found to a limited extent in the taluks of Narsapur, Kovvur, Tadepalligudem, Chintalapudi and negligible patches occur in Polavaram. The red-ferruginous soil is found mostly in the upland only *i.e.*, Eluru, Tadepalligudem, Kovvur, Chintalapudi and Polavaram taluks. The arenaceous (sandy soil) is found on the coastal taluks of Narsapur and Bheemavaram.

Land utilisation :

The following statement shows the pattern of land utilisation in the district during 1960–61. The total geographical area of the district both according to the professional survey as well as by village papers is 19,31,830 acres.

STATEMENT I-2

Classification of area (1)	Area in acres (2)	Percentage to the total area (3)
Forests	1,97,215	10.2
Barren and uncultivable land	1,63,561	8.5
Land put to non-agricultural uses	1,85,283	9.6
Cultivable waste	1,43,079	7.4
Permanent pastures & other grazing lands	70,844	3.7
Land under miscellaneous tree crops & groves not included in the area sown	16,151	0.8
Current fallows	1,19,589	6.2
Other fallow lands	56,309	2.9
Net area sown	9,79,799	50.7
Area sown more than once	2,50,246	13.0
Total cropped area	12,30,045	63.7

The net area sown under all crops forms 50.7% of the district area. Forests account for 10.2% of the district area while barren and uncultivable land covers 8.5% of the district total area. The area put to non-agricultural uses such as for buildings, roads, etc., covers 9.6% of the district's total area. The fallow land during this year accounts for 16.5% of the total area; the fallow land consists of current fallows (*i.e.*, land left fallow in the current year only) which cover 6.2%, other fallow land (*i. e.*, land left fallow more than one year but less than five years) covers 2.9% and cultivable waste lands (*i e.*, lands left fallow for more than five years) account for 7.4% of the total area of the district. During this year permanent pastures accounted for 3.7% while the area under miscellaneous tree crops and groves formed 0.8% of the district. As already stated the net area under cultivation is 50.7% of the total geographical area of the district while the area sown more than once represented the very high proportion of 13.0% which may largely be due to the benefits of the splendid Godavari Anicut scheme, the Krishna-Eluru canal and other irrigation facilities in the district. In fact the district is popular as one of the canal irrigation districts of Andhra Pradesh.

Agriculture :

The crops grown in this district are of three classes, *punasa* or early crop such as korra, sajja etc., which are sown in June or July; chief cereal crops such as paddy, jonna etc., which are sown during July to September and *pairu* or the late crops such as ragi, tobacco, chillies etc., which are sown in November and December. *punasa* or early crops are always uncertain, being entirely dependent on the rainfall at the beginning of the south-west monsoon. Jonna and cotton are raised on black cotton soil and are unirrigated.

Paddy is both a wet and a dry crop in this district and is the chief food crop in all the taluks. The dry variety is locally known as 'Budama' which is raised on dry lands not possessing adequate irrigation facilities. This is of three months duration and is sometimes raised as a mixed crop with redgram. The wet paddy crop is popular and is raised in all places where irrigation facilities are available and where there is assured supply of water. Bheemavaram taluk has the largest area under paddy while in Kovvur, Chintalapudi and Polavaram taluks which are upland taluks where the principal sources of irrigation are river channels and tanks, the extent is not quite significant. Tadepalligudem is a very important paddy marketing centre in this district.

The dry paddy varieties namely the Budama and Jilama and the wet varieties such as Basangi, Rasangi, Akkullu, Lambadi, Kusuma, Kichili, Samba, Atragada, Konamani, Krishnakatukulu, Delhibhogam, Vankasannam or Resipichodi, Garikasannam, Nallarlu and new departmental strains like M. T. U. Nos. 1, 2, 3, 4, 5, 8, 9, 10, 11, 14, 15, 18, G. B. 24 etc., are some of the varieties of paddy grown in the district. Among the wet varieties,

Basangi, Rasangi, Vankasannam, Garikasannam and Nallarlu are short term varieties and the rest are long term varieties. Garikasannam and Nallarlu are generally grown in the second crop season only. Of the pairu or late crops, variga, horsegram and other pulses are essentially dry crops requiring no irrigation while ragi, tobacco and chillies require to be irrigated either occasionally or systematically. Irrigation of these crops is generally done by lift system from wells. A second wet crop in the Krishna Eastern Delta is not raised owing to the inadequate supply of water in the Krishna canal during the second crop season. Under the Godavari delta there are permanent second crop zone lands. In these lands second crop is raised by dalwa paddy which comes for harvest towards the end of April or early in May. In the excluded lands *i.e.*, the lands under the closed channels, gingelly, groundnut, onions and similar dry crops are raised in the second crop season.

Jonna (jowar), sajja (bajra) and ragi are also raised during south-west monsoon in the taluks of Chintalapudi, Polavaram, Kovvur and upland tracts of Eluru and Tadepalligudem. Besides these the district grows pulses, oil seeds, tobacco, sugarcane, chillies, fruits and a variety of vegetables. Sugarcane is grown to a considerable extent in Tanuku, Kovvur, Eluru and Narsapur taluks. The area under condiments and spices is the largest in Kovvur followed by Tanuku; however the area under turmeric is the largest in Tanuku. Casuarina gardens grow luxuriantly in the coastal villages of Narsapur and other villages bordering Upputeru in Bheemavaram taluk. Fruits and vegetables cover a fairly large extent in Tanuku taluk, plantain gardens accounting for a major proportion of this area.

The district is thus agriculturally rich and important and has rightly won the reputation of being "the granary of South India". Details of area and production under different crops and the agricultural schemes implemented during the Five Year Plans are discussed later in the chapter on Agriculture.

Forests :

The West Godavari Lower Division forest area largely covers Polavaram taluk and contains bamboos, fuel and timber trees. In the forests of Chintalapudi and Eluru taluks mostly scrub jungle is found. A detailed note on forests is given in the Chapter on Forests.

Communications :

The district has good transport and communication facilities. The Madras-Waltair line (Broad Gauge) of the Southern Railway passes through Eluru, Tadepalligudem and Kovvur taluks. The branch lines like the Bheemavaram-Gudivada-Vijayawada line and the Narsapur-Bheemavaram-Nidadavole line of the Southern Railway serve this district well with quite a number of stations. As regards the road communications, the G. N. T. road and the State Highway pass through this district both touching the district headquarters and many villages also. The major district roads connect almost all the important villages with the taluk headquarters of the district. However, except for about two or three dry months when Dowleshwaram Anicut is closed and the causeway at the foot of the Anicut is thrown open for vehicular traffic, the district is cut off from the south for direct road transport during the rest of the year by the four miles wide Godavari river. The canals are navigable and river boats ply regularly providing a popular and cheap method of transporting goods. The canal wharfs are the scenes of hectic activity with boats being endlessly loaded or unloaded or the lorries being packed to capacity for export to distant places. There are also regular ferry services at all the important points across the Godavari and Kovvur is a river port situated on the right bank of the river Godavari directly opposite to Rajahmundry which stands on the left bank of the river.

Industries :

The district contains large rice mills all over, five sugar factories, a textile mill at Tanuku and a jute mill at Eluru which manufactures gunny bags, besides cigar manufacturing units, tobacco curing and re-drying units of I. L. T. D. and British India Tobacco Corporation, cement goods manufacturing units in Kovvur, Narsapur and Bheemavaram and lock manufacturing units at Penugonda, Tanuku, Tadepalligudem and Eluru. Handloom weaving is the chief cottage industry that is carried on in a good number of villages in the district. The woollen pile carpets of Eluru and the crochet lace works of Narsapur and Palacole are really the pride of Andhra Pradesh.

Places of interest :

A brief account of each of the towns and places of religious or other importance is given talukwise in the last Chapter of this part and may be referred to.

Geology :

A brief account of the Geology and Mineral Resources of West Godavari district furnished by the officers of the Geological Survey of India, Andhra Pradesh Circle is reproduced below:

The earliest reference to the geology of this region dates as far back as 1837. Dr. Benjamin Hoyne, Dr. P.M. Benza, Captain Newbold and others examined the country. Subsequent researches conducted by the Reverend Hislop and W. T. Blanford rendered the Godavari district a classic one. The later work of greater significance on the geology of this district was carried out by W. King of the Geological Survey of India in the year 1880. The results of this work have been published in the Memoir XVI Part III of the Geological Survey of India entitled "On the Upper Gondwanas and other formations of the Coastal region of the Godavari district." In this publication, he has dealt with the classification of the coastal sedimentary formations and the associated traps with a brief reference to the crystallines of the eastern coast.

In recent years the region near Kovvur has been examined in detail by Dr. M. S. Krishnan for its limestone occurrence with a view to assessing their suitability for cement manufacture.

Rocks belonging to Archaeans, Lower and Upper Gondwana ages constitute the rock formations of the district. The detailed classifications of the rock types as recognised are presented below in the order of superposition.

Recent		Alluvium
Miocene		Rajahmundry sandstones, Brick-red sandstones and the associated clays, Laterites etc.
Deccan traps		Inter-trappeans
		Infra-trappeans
Upper Gondwanas		Tirupati sandstones
		Raghavapuram shales
		Gollapilli sandstones
Lower Gondwanas		Chintalapudi sandstones
Archaeans		Pegmatite, quartz vein and granitic injections, charnockite series, pyroxene granulite
	Calc silicate Group	Diopside-rock, calc-granulite, Calc-gneiss and crystalline Limestone
	Quartzite Group	Quartzite, garnetiferous quartzite, garnet-sillimanite-quartzite, garnet-graphite-quartzite.
Archeans —*Concld.*	Gneissic Group	Granitic gneiss, garnetiferous gneiss, garnet-sillimanite-gneiss, garnet-graphite-gneiss, and khondalite, magnetite-sillimanite, cordierite, gneiss. — Khondalite Series

Gneissic Group : The oldest formation met with in the district is probably the gneisses together with the quartzite and the calc-silicate rocks. The gneisses may be divided into about five different types mainly on the basis of mineral assemblages. These give rise to prominent hill features, especially near Dondapudi, where they attain the peak of their development and form a long range. Some of the conical hills such as Palkonda, Komal Konda Sap Konda, Sudi Konda, Somal Konda, Rasukula Konda, Dimmakonda and Mallu Konda.

The granitic type is the simplest type, made of quartz and felspar. A few crystals of garnet are often present.

The garnetiferous gneiss is widely distributed and is essentially composed of brownish red garnets of varying sizes with felspar. The major outcrop of this rock type occurs north-east and south-west of Vijayarayi in the Ellore taluk, near Pragadavaram in Chintalpudi taluk and north-east of Ankagudem in Polavaram taluk.

The garnet-sillimanite-gneiss forms the second commonest variety amongst the gneisses and is characteristic as the name itself suggests by containing sillimanite. Occurrences of this rock are reported from north-east and south-east of Puliramudugudem and near Dundapudi.

Graphite is present in small, thin scales in the garnet-graphite gneiss. The rock is rather fine-grained and fairly compact.

Khondalites : The name Khondalite was given by T. L. Walker to the graphitic garnet-sillimanite-rock which is generally coarse-grained and contains light blue quartz, pink orthoclase, rounded crystals of garnet, sillimanite and bright lustrous graphite. Biotite and magnetite may be present in subordinate quantities. They form large hill masses of an average height of 1500 ft. to the north-east and north of Mautagudem and along the Papikonda range. They are also well developed near Polavaram. The Khondalites are highly folded and contorted with a regional north-east, south-west strike and a high dip from 60° to 80°. They are traversed by younger granitic dykes as well as pegmatites and quartz veins.

The magnetite-sillimanite-cordierite-gneiss is brownish black in colour, heavy and shows gneissic structure. Sometimes it is massive. The rock is traced near Polavaram and in the hill ranges forming part of Eastern Ghats.

Quartzite Group: Amongst the crystallines, quartzites from an important group which are usually massive but may occasionally show gneissic and schistose tendencies.

The most common member in this group is the quartzite composed of white quartz containing small specks of graphite and biotite. Sometimes they show banding. Garnet is occasionally present and its proportion may vary considerably.

The garnet - graphite and garnet - sillimanite quartzite are of limited distribution and occur in the Darakonda and Ada Konda range of hills to the north-north-west of Laxmipuram in the Kovvada Reserve Forest. Graphite is present in small elongated scales and the sillimanite occurs as needles.

Calc-silicate-rocks: These rocks occur closely associated with the gneiss and the quartzites along with the charnockites in small bands generally about six to eight feet thick. They are prominent around Puliramudugudem in the low hills west of Gutala, south of Pochavaram in the Gummadikonda, Kumarigudikonda and Mallu Konda hills.

The diopside-rock is the most predominant one and is rather dense, compact and comprises coarsely crystallised dark diopside.

The calc-gneiss exhibits perfect gneissic texture and is fine-grained. A fairly long band of calc-gneiss occurs associated with the quartzites in the hills south of Ipalpadu. It exhibits a well-defined banded structure and is coarsely crystalline. Occassional presence of graphite is also noticed in some of the rocks.

Crystalline limestone: The rock is medium-grained and consists of calcite, dolomite and forsterite which is cracked in the characteristic manner. Small pockets of these rocks are seen scattered near hill north-west of Koya Nagupalem. The rock easily weathers and crumbles into powder on breaking. The calc-granulite is fine to medium-grained, granular and at times gneissic in texture. The fine-grained variety resembles charnockite in hand specimens. The rock is very hard and compact. Outcrops of this rock are noticed south-west of Pattapattesam near the right bank of Godavari.

The pyroxene-granulites are coarse-grained and consist of quartz, plagioclase and diopside with a little hypersthene. On weathering the rock peels off in concentric layers and subsequently gives rise to regar.

The charnockites cover a wide area forming bands and great massifs in the gneissic region, They are prominently exposed on the eastern flank of Malakonda, Kumarigudikonda, Balikonda, Pothnakonda, Puliramudugudem.

Pegmatites, quartz vein and granitic injections: The metamorphic books of the district are traversed by veins of pegmatite and quartz as well as granite dykes, the former occurring in plains and the latter in the hilly areas.

Pegmatites with muscovite books are not uncommon. One occurrence with good workable muscovite content can be noticed at Pochavaram (17° 9′ : 81° 39′). It is intrusive into the mica schist with a north-east to south-west trend.

Numerous quartz veins are noticed in the granitic region mostly composed of white quartz.

Gondwanas:

The Gondwanas system is represented by the Chintalapudi sandstone, the Gollapalli sandstone, Raghavapuram shales and Tirupati (Tripetty) sandstones. The Gondwana system is divided into lower and upper.

Lower Gondwanas:

Chintalapudi sandstones: Overlying the gneissic group of rocks there occurs a set of sandstones belonging to lower Gondwanas over a large area to the east, south-east and south of Chintalapudi. They vary from even-grained rather unconsolidated white sandstones, through reddish brown, somewhat ferruginous gritty beds to loose pebbly sandstones. These rocks constitute the main body of the hill range between Chintalapudi and Kamavarapukota. The village of Koyyalagudem and Zangareddigudem stand on the Chintalapudi beds.

The white sandstone owes its colour to the kaolinisation of felspars contained therein, a fair amount of kaolin being distributed very evenly

throughout the rock. Owing to this property, the rock is called "Sudda" and is being quarried for household purposes.

The pebbly sandstone beds are met with at two horizons in the Chintalapudi group; one being towards the bottom portion and the other at the top. They are variegated, being of buff or creamy to light pink and less often brownish colours. The pebbles are of different sizes and are made up of quartz, quartzite, garnetiferous gneiss etc. A few beds of calcareous sandstone of purple brown colour and hard clayey sandstone are also found. The former is a fine-grained hard compact rock and according to W. King, it is a fossil-bearing horizon containing Glossepteris, Vertebraria and Phyllotheca.

Upper Gondwanas :

Gollapilli sandstones : These constitute the oldest division of Upper Gondwanas seen around Gopalapuram (16° 54′ : 81° 23′) in this district. They strike north-east to south-west direction and are composed of dark brown to yellowish red sandstones, grit and conglomerates. The beds are about 80 to 100 ft. thick and are often horizontal, occasionally dipping at 10° to 20°. This group has not yielded any fossils.

Tirupati sandstones : The Gollapilli beds directly underly the Tirupati beds which occur in the low hillocks such as Errampalle Metla △·311 about east of Gollagudem and other places.

The Tirupati sandstones are generally soft and crumbling and give rise to accumulation of red-stained sands on their outcrops though there are some hard bands which are worked for local use as building stones near Devarapalle.

Deccan Traps : The Tirupati sandstones are overlain on the south by the volcanic flows, the Deccan Traps, which give rise to prominent hillocks. The Trap exposure is on an average about a mile wide and curves round southward south of Devarapalle (17° 2′ : 81° 33′). The trap is dark greenish to black in colour, compact to vesicular in texture and doleritic or basaltic in composition. At least three flows of trap can be made out, the lowest resting on the infra-trappean marls and containing in its upper part amygdaloidal cavities with agate and chalcedony. The junction between the lower and the middle flows is marked by a bed of limestone (inter-trappean).

Infra-trappean limestone : These limestones overlie the Tirupati sandstones and underlie the traps. They are well exposed just south of Dudduku ru and Devarapalle. Because of this position below the traps they are called infra-trappean beds. The maximum width of these beds is about 5 furlongs and they thin down both to the east and west. Some of the exposures contain gastropods (Turritella ?) and other forms as well as Cardita.

Inter-trappeans : The limestone beds occuring between the lower and middle trap flows, known as the inter-trappean beds are important in view of their utility. They are at present being quarried in several places and transported by canal for the manufacture of lime.

These trap flows are noticed to occur in Linga Konda and in western and north-western flank of Pusala konda to south of Duddukuru. They are also known to occur a couple of miles north of Rajahmundry. A large number of quarries are found here, most of them abandoned.

The inter-trappeans are 10 to 25 ft. thick in different sections and are almost horizontal. The limestone is of varied nature and contains numerous almost perfect shells of Ostrea, Turritella and several Molluscan fossils. The limestone is buff coloured, generally massive and occasionally crystallised with a fibrous habit. It is somewhat poor in calcium content being rather argillaceous.

Rajahmundry sandstones : These are the youngest rock types in the series seen overlying unconformably the traps. The sandstone embraces a large area from Bhimadole (16° 48′ 30″ : 81° 16′) in the west to Chagallu (16° 59′ 30″ : 81° 40′) in the east. In the western portion the group overlies the Gondwana beds and in the eastern portion it overlies the Deccan trap. The boundary between these beds and the Gondwanas tends to be rather ill-defined as a greater part of the region is covered by sandy soil.

Under the head "Rajahmundry sandstone" as designated by King, three different kinds of beds can be recognised. One of the beds is the conglomerate and the ferruginous sandstone which appears to be the oldest bed of the group seen overlying the Deccan trap. The conglomerate is about two to

three feet in thickness and is composed of pebbles of quartz and quartzite varying from four inches in diameter to less than an inch.

The ferruginous sandstone is rather coarse-grained, hard and compact. This particular bed encloses pockets of fine-grained, somewhat soft and cherry red sandstone.

The Rajahmundry sandstone proper which appears to have succeeded the conglomerate through a transition bed of pebbly sandstone is brick-red in colour and occasionally yellowish containing nodules of clay or decomposed felspar. Being less consolidated and easily susceptible to weathering outcrops of the sandstones are either rare or absent.

The third important member of the group is a set of clay beds of varying colour and thickness. They are black, grey, white as well as purple and vary in thickness from 10 to 20 ft. to 100 ft. or more. The clays appear to occur as definite beds or lenticular bodies alternating with sandstone beds of upper horizon.

Laterite: The area occupied by quartzite and gneisses is sporadically covered with a thin capping of laterite which contain ferruginous concretions of large size. The lateritisation is intense in places where the water table is high and the laterite has attained a thickness of 15 to 20 ft. in such places.

Alluvium: The Rajahmundry beds are overlain by a long stretch of alluvium deposited by the Godavari river towards their southern and eastern margins. The alluvium contains small pieces and nodules of kankar.

Mineral resources :

Building stones and road metal : The Chintalapudi and Rajahmundry sandstones are particularly suitable for building purposes and are being quarried extensively. The Deccan trap, Laterite, Khondalites and Charnockites are also being quarried to be used as road metal.

Clay : Dwaraka Tirumala (16° 51′ : 81° 15′30″). The clay occurs here in the Raghavapuram shale stage and varies in quality from soft plastic clay and laminated soft shale to harder stuff. Good clay is being won from a depth of 20 ft. and shows greyish white colour. The reserves are large and may amount to 3.7 million tons within 25 ft. depth.

The clay is plastic and burns bluish white and hard, vitrifying at 1250°c. It is of ball clay type and can be used for making white-ware and stone-ware.

Analysis: SiO_2-57.36, TiO_2–1.35, Al_2O_3–27.76, Fe_2O_3 – 1.19, FeO - 0.25, MnO_2 - 0.01, CaO – 0.63, MgO–022, K_2O–0.71, Na_2O–0.40. loss 10.06, moisture 2.40, plasticity-very good, water of plasticity 38.0.

Good clay is also reported from near Kuchimpudi (16° 51′ : 80° 07′) and Kottapalle (17°00 : 81°19′). The clay occurs in Chintalapudi sandstones of the Lower Gondwanas as irregular beds. An estimated reserve of 1.1 million tons has been reported from Kuchimpudi area.

These clays have been exploited during the last 50 years or more mainly for the manufacture of "Namakkatti" (caste marking medium). In recent times there has been a demand for these clays from a few pottery and ceramic concerns and the clays are sent to Bhimadole for sale.

Coal : Fragments of coal were first noticed by P. W. Wall in 1857 in the bed of the Godavari river near Lingala (18° 0′30″ : 80° 50′) near the junction of the Godavari and the Talperu. About a decade later, Dr. W. T. Blanford found Lower Gondwana rocks which resulted in the discovery of four seams concealed in the sands of the river bed. In 1891 the Godavari Coal Co., put down a trial pit to a depth of 11 ft. near Lingala and raised 70 tons of good quality coal from a five foot seam.

Several bore holes were put down near Totapalle (17° 37′30″ : 81° 3′40″) close to Gaviridevipeta (17° 37′30″ : 81° 5′) in 1870–71. A number of thin seams were intercepted.

The Godavari Coal Co., conducted mining in this area between 1,890 and 1895 and raised 3,657 tons of fairly good coal suitable for steam raising.

Rocks of Barakar facies are known to occur in and around Bedadanuru (17°14′ 30″ : 81°14′) in the Polavaram agency. Sixteen bore holes were put down near Bedadanuru between 1874 and 1876 and six seams are reported to have been met.

In 1922–23, the Hyderabad (Deccan) Co., sank four holes in the neighbourhood of Swarnavarigudem (17° 9′ : 81° 14′) about eight miles south of

Bedadanuru. A coal seam of 10 ft. 6 inches was met of poor quality.

Some prospecting work has also been done by means of bore holes in the area near and east of Koyyalagudem (17° 8′ : 81° 26′). No workable coal seems to have been met.

Drilling for coal is in progress near Bedadanuru by Geological Survey of India.

Graphite : The graphite deposit near Reddi Bodair is being worked by the Indian Plumbago Co., of Zangareddigudem. The mine is about 250 ft. long and 50 ft. wide and has been extended to a depth of 112 ft. The graphite is found as veins in Khondalites which strike north-east-south-west. The width of the veins varies from 6 inches to 4 ft.

The graphite is of a fairly high grade. After preliminary dressing at the mines, it is transported to Zangareddigudem about 14 miles south of Reddi Bodair where it is pulverised and refined. The average output is reported to be nearly 150 tons per annum from the present workings.

Limestone : Inter-trappean limestone is seen in Kovvur taluk extending over a length of 4 miles or more from the Linga Konda near Pangudi (17° 1′ : 81° 39′) in the east to near Devarapalle (17° 2′ : 81° 35′) on the west, a short distance south of the trunk road joining Eluru and Kovvur.

The band has a maximum thickness of about 25 ft. but thins down to 3 or 4 ft. at and near the ends. The quantity available has been estimated to be of the order of 3.4 million tons. As the limestone is high in magnesia, it is estimated that the deposit would yield only a little over 1½ million tons suitable for cement manufacture.

Mica : Minor amounts of greenish grey Muscovite Mica are seen near Bothappagudem to very near Ankanagudem in the large feeder joining the Mani Vagu about 3/4 mile north-west of Bothappagudem. The quality and quantity are not encouraging.

The pegmatite lens near Pochavaram has yielded muscovite books measuring 3 to 12 inches across. The available mica is of ruby quality and it was worked during the war in 1943-44.

Four to five shallow mines seem to have been worked for mica about 5 to 6 furlongs north of Kovvurupadu village (17° 11′ : 81° 32′) between 1917 and 1924. Pegmatite lenses here are upto 20 ft. wide and are said to have yielded good Muscovite, 9 to 10 inches across.

Few old workings for mica are also noticed near Nandigudem (17° 9′30″ : 81° 30′).

Mineral pigments : Red and green Ochre occur amidst inter-trappean beds near Duddukuru, where it is being mined. It can be used as colour wash and for making cheap paints as the colour is not very attractive.

Beds of rather soft limonitic material occur in association with the white clays near Dwaraka Tirumala which are being mined. The limonitic material could be used as a pigment.

Pyrite : Minor occurrences of Pyrite are seen near the banks of Baineru Vagu, about two furlongs south-east of Rasur and the place smells strong of sulphur dioxide. The bands are not large enough for being worked on a commercial scale.

Chromite : Low grade Chromite is reported to occur near Enuconda. No further details are available regarding this occurrence.

CHAPTER II

HISTORY

The earliest known rulers of the district were of the Buddhist dynasty of the Andhras who built the stupa at Amaravati and whose curious odd leaden coins are occasionally found. The Buddhist dynasty of the Andhra rulers also occurs in the inscriptions of Asoka, the Buddhist ruler of the great Mauryan Empire, the capital of which was at Pataliputra, the modern Patna. In 260 B. C. this monarch conquered the Kingdom of Kalinga and claims to have subdued the Andhras, a dynasty whose sway apparently extended as far north as the Godavari river. But this conquest of the Andhras by no means terminated the existence of that dynasty. For long after Asoka's reign they retained and probably increased their power. Pliny mentions them as a strong people with30 fortified cities, 100,000 infantry, 2,000 cavalry and 1,000 elephants. Their conquests extended far to the north and even to the western coast of the peninsula for one of their earlier kings, Srimukha covered the walls of the large cave at Nanaghat (50 miles north-west of Poona) with inscriptions recording his sacrifices and his successors have left evidences by their coins and in their inscriptions in the cave temples at Nasik, Karle and Kanheri that they extended their power to Malwa and the border of Gujarat. Towards the south their dominions included parts of Mysore. Their capital was at first at Srikakulam on the Krishna 19 miles west of Masulipatnam, but was afterwards removed to Dharanikota near Amaravati. From coins, inscriptions and other material the names and dates of kings of the line who ruled about 110 to 220 A. D. have been ascertained.

Following them came, about the beginning of 7th century A. D., the Brahmanical Eastern Chalukyas, the excavators of the cave temple at Undavalle and other rock-cut shrines, who possessed a large empire in central and western India, the capital of which was Badami in Maharashtra came into prominence. They were Vaishnavites by creed. The famous among the Eastern Chalukyas was Pulakesin II (609–42) who extended his conquests as detailed in a stone inscription at Aihole in which he mentions the reduction of Pithapuram and Ellore. It took place about 615 A. D. During his absence on this campaign, Pulakesin had made his younger brother Vishnu Vardhana I his regent at his capital of Badami and on his return he deputed him to govern the country he had conquered. By 632 A.D. Vishnu Vardhana had established himself in these new territories as an independent sovereign of the Kingdom of Vengi, the capital of which was at Pedda Vengi near Ellore and he founded the Eastern Chalukya dynasty, which held that country for at least five centuries and remained throughout distinct from and independent of the Western Chalukyas.

Hiuen Tsang visited this kingdom also. He describes it "as being nearly 1,000 miles in circuit and its capital as some seven miles round but the country was thinly populated – possibly owing to its recent conquest."

The genealogy and some of the acts of the Eastern Chalukya Kings of Vengi are given with great chronological distinctness in the various grants of the dynasty that have come down. In the early part of the eighth century Udayachandra, the General of the Pallava King Nandi Varman, claims that he subdued the Eastern Chalukya King Vishnu Vardhana III (709-46) but this reconquest by the ancient owners of the country seems to have been short-lived. Vijayaditya II (799–843) had to defend himself against his neighbours on the West, the Rashtrakutas of Malkhed (90 miles West by South of Hyderabad), who had subdued and taken the place of the Western Chalukyas. The result of the fighting is not clear. Vijayaditya II relates how during 12 years by day and night he fought a hundred and eight battles with the armies of the Gangas and the Rattas (*i. e.*, the Rashtrakutas); but his Rashtrakuta contemporary, Govinda III, boasts that he ordered the King of Vengi into his presence and made him assist in building and fortifying a city.

About 999 A. D. they in their turn were supplanted by the Cholas. The mighty Rajaraja I, who had laid the foundations of a great Chola Empire with its capital at Tanjore, conquered the Eastern Chalukya country. He seems to have appointed a prince of the fallen line (Saktivarman 999-1011) as

king (or perhaps feudatory) in Vengi. His brother and successor Vimaladitya (1011–22) though married a Chola princess, apparently attempted to throw off his allegiance for Rajaraja's son Rajendra Chola (1011–44) and again invaded the Vengi country and advanced as far as Mahendragiri in Ganjam, where he planted a pillar of victory. Vimaladitya was not deposed, however, and was succeeded by his son Rajaraja (1022-62) who also married a princess of Chola royal house. This king fixed his capital at Rajahmundry and it was during his reign that the Mahabharata was translated into Telugu.

His son Kulottunga afterwards the famous Kulottunga Chola I, who, though belonging on his father's side to the ancient line of Vengi, claimed to succeed to the Chola throne at Tanjore through his mother and his grand-mother, and ultimately founded a new Chola dynasty in the South. While he was heir apparent to the Vengi throne, he distinguished himself by capturing elephants and defeating a king, but when his father Rajaraja died he was ousted from the succession by his paternal uncle Vijayaditya VII.

The latter's rule appears to have been disturbed by invasion. The Western Chalukya Kingdom had revived after the fall of the Rashtrakutas and its great monarch Vikramaditya VI whose capital was at Kalyani, was by this time harassing both the Chola and the Vengi countries. He twice invaded the latter, but was however defeated by the Chola King, who re-established his authority in Vengi and restored Vijayaditya VII to his throne there. He crossed even Kalinga and beyond it despatched for battle his invincible army as far as the further end of Chakrakota. He reconquered the good country of Vengi and bestowed it on Vijayaditya, whose broad hands held weapons of war and who had taken refuge at his lotus feet.

About 1069 the then Chola King died and his son secured the throne with the help of the Western Chalukya King Vikramaditya VI. The Kulottunga already mentioned above claimed, however, to succeed as both grandson and adopted son of a former Chola ruler. He took up arms, slew the new king and entered on a fierce conflict with Vikramaditya VI. The accounts given by the two monarchs of the events which followed are widely different; but victory finally rested with Kulottunga, who made himself king of the Chola country and overlord of Vengi, and ruled till A. D. 1118 with the title of Kulottunga Chola I.

He magnanimously allowed his uncle Vijayaditya VII, who had before supplanted him, to continue in-charge of Vengi and appears to have treated him with cordiality; when this man died in 1077, Kulottunga appointed his own second son Rajaraja II as Viceroy of Vengi. The latter seems to have been uncomfortable and insecure in his position. An inscription of this date says that finding a Kingdom not such a pleasure as the worship of the illustrious feet of the elders, he returned to his parents, after having ruled over Vengi for one year. He was replaced in 1078 by his younger brother Vira Choda, the brave prince, the incarnation of valour, who joyfully put on the tiara of the world. This prince was superseded in 1084 by Kulottunga's eldest son Rajaraja Choda Ganga, but was reinstated in 1088–89 and continued to rule till at least 1092–93. He was then succeeded by another and better known brother Vikrama Chola who ruled the Vengi country till about 1118. The reasons for these constant changes are nowhere stated but it would appear that Kulottunga placed no great reliance on his son's loyalty to himself.

The only event of importance in this period is the conquest of Kalinga which was achieved by Kulottunga some time before 1095–96. Kalinga was feudatory to Vengi and had withheld tribute for two years. Vikrama Chola also claims to have effected this victory and it was perhaps achieved during his Viceroyalty. He governed the Vengi country for some 20 years, and in 1118 he was called to the south to become Co-Regent with, and shortly afterwards the successor of Kulottunga who seems to have died in that or the following year. On his departure a certain Choda, the son of Gonka was appointed as Viceroy of Vengi and was even honoured with the adoption into Kulottunga's family.

The Chola supremacy in Vengi was at this point disturbed for a few years by the aged Western Chalukya King Vikramaditya VI, who took advantage of the departure of Vikrama Chola and the death of his old enemy Kulottunga to invade this northern province of theirs. The Viceroy Choda submitted to him and from 1120 to 1124 Vikramaditya was the undisputed king of Vengi. His rule cannot have lasted long, as inscriptions of Vikrama Chola dated 1127 and 1135 respectively occur in Krishna. Neither he nor his successors took an active part in governing Vengi. Occupied with their own troubles in the south, the Cholas gradually lost their influence in that province.

Choda, who belonged to the Velanadu family which was the most important among the petty rulers and apparently the admitted suzerains over the others was adopted into Kulottunga's family and left as Viceroy of Vengi when Vikrama Chola went in 1118 to join his father in the south. Velanadu is said to be an old name for the Chandhavolu country (*i.e.*, the Western part of the Krishna delta) where the family appears to have been long established and to have ruled as feudatories of the Eastern Chalukyas. Choda's father, Gonka I, seems to have ruled 'the Andhra country' under Kulottunga I, and is mentioned in an inscription at Chebrolu in the Krishna district dated 1076. A cousin of his by name Vedura was a minister of Kulottunga's son, Vira Chola when he was Viceroy of Vengi; and, in recognition of his services against 'a Pandyan King', he was given the overlordship of the country between the Krishna and the Godavari. It was however under Choda that the Velanadu family first attained the position of Viceroys of the Vengi country. He and his successors wielded considerable power. Choda, as has been seen, bowed the neck to Vikramaditya VI, but his son Gonka II (*alias* Kulottunga Choda Gonka) claims to have ruled from Kalahasti to Ganjam. The Queen of the latter's grandson, Gonka III (1137–56 A. D.), covered with gold the idol at Simhachalam near Visakhapatnam. The last of them who is known to history was Prithisvara, the son of Gonka III, who ruled from 1163 A. D. to atleast 1186 A. D. The family seems to have been suppressed by the Kakatiyas of Warangal, who forced their way into the country south of the Godavari at the beginning of the thirteenth century.

The Cholas after many centuries gave place to the Ganapatis of Warangal. About 1162 A. D., king Rudra Deva conquered the whole country as far as Srisailam in Kurnool district in the south and upto the salt sea on the coast. The first indubitable inscription of the dynasty found in the Vengi country is one of Rudra Deva's son Ganapati at Chebrolu dated 1213–14 and that this king overcame the Velanadu chieftains is indicated by the existence of an inscription of his at Chandavolu, their capital.

Ganapati Deva reigned at Warangal from 1190 to 1258 A. D. and built round Warangal the single stone wall, which gave it the name of 'Eka Sila Nagaram' or in its Tamil form, Orukkal. Possibly he may have married his only daughter to the Jain Kinglet of Dharanikota for political reasons, to absorb in his kingdom the territory of this petty ruler and Pratapa Rudra was the son born of this marriage. After the death of Ganapati Deva in 1258, the government was assumed by his widow, Rudramma, one of the many women in Indian history who are reputed as skilful rulers. It was during the regency of this widowed queen that the Venetian traveller, Marco Polo, visited this country about the year 1290.

This Queen Rudramma transferred the royal authority to her daughter's son, Pratapa Rudra, in the year 1292 or 1295. Tradition and some inscriptions have doubtless recorded the extent of this prince's territories in saying that they extended from the Godavari to Cape Comorin and that he held an unbroken sway from sea to sea.

In 1296 Alla-ud-din Khilji in Delhi assassinated his own uncle Jalal-ud-din Khilji and thus seized the throne on the steps of blood and gold, which he distributed to appease the wrath he incurred in the Court. He had long been jealous of the growing power of the Kakatiyas. As such his first expedition was despatched in 1303 against the Kakatiyas of Warangal, who had been established since the middle of the 12th century. This having failed, he sent a second expedition under his famous general Malik Kafur in 1310, who captured Warangal, but Pratapa Rudra soon recovered his independence. Again Ulugh Khan, who afterwards ruled at Delhi as Muhammad-bin-Tughlak, conducted a later campaign against Warangal and finally broke the Kakatiya power in about 1323 though not without a prolonged struggle. Pratapa Rudra was taken as captive by the Muslims to Delhi and this was an irretrievable disaster, for his son Vira bhadraya who asserted his independence failed to continue Thus the captivity of Pratapa Rudra in 1323 left his Kingdom without ruler.

The district then came under the dual sway of the Orissa Kings ruling the northern part, while the south fell into the hands of a line of cultivators who rose to considerable power and are known to history as the Reddi Kings of Kondavidu. The Reddis of Kondavidu were cultivators but the family seems to have been in the services of the Kings of Warangal. The founder of this family was Donti Aliya Reddi, a cultivator of Hanumakonda who amassed enormous wealth, tradition says by discovering the alchemists'

secret of the process of transmuting metals into gold, and migrated to Kondavidu. His eldest son Pulaya Vema Reddi found himself independent and established himself in the hill-fort of Kondavidu, which had doubtless been a stronghold. He also possessed himself the fortresses of Bellamkonda, Vinukonda and Nagarjunakonda in Palnad. It is Pulaya Vema Reddi who founded his Kingdom on the ruins of the Warangal power. His brother Anavema Reddi extended his dominions upto Rajahmundry on the north, Kanchi on the south and Srisailam on the west. Kondapalle hill fort is said to have been built in his reign. An inscription at Amareswaram dated 1361 states that Anavema Reddi was in possession of Kondavidu, Addanki and Raichur and that he repaired the temple of Amaravati and the causeway at Srisailam and that he defeated various Rajas including the Kings of Warangal. This last boast probably relates to the unsuccessful efforts of Virabhadraya the son of Pratapa Rudra in 1344. The Kondavidu Reddis were great patrons of Telugu literature. The famous poet Srinadha flourished at their court and sang their praises.

In 1515 Krishna Deva Raya known as the great Karnataka King and popular as the greatest of the kings of the Hindu Empire of Vijayanagar, the capital of which was at Hampi, and which was at the zenith of its power, marched northwards in great strength. He took the fort of Udayagiri in Nellore after siege of a year and a half and then invested Kondavidu. The King of Orissa, Pratapa Rudra, came in south to relieve the latter place and Krishna Deva Raya quitted the siege and advanced to meet him. The two armies came face to face at a large river crossed by a ford (presumably the Krishna) and Krishna Deva Raya offered to retire six miles so that his adversary might cross the river unmolested and they might then fight on equal terms. Receiving no reply, he forded the river himself in face of the Orissan army, losing heavily in the operation, engaged the enemy on the other side and won a complete victory. He took Kondapalle after a siege of three months, escaladed Kondavidu (capturing there the wife and son of the Orissan king and many of his nobles) and then advanced as for north as Potnuru in the Visakhapatnam district, where he set up a pillar of victory. From this place he despatched several challenges to Pratapa Rudra, daring him to come and fight and when these met with no response he eventually returned south to his own capital. He subsequently sent back Pratapa Rudra's queen and married his daughter. The decline of Vijayanagar Empire commenced from the reign of Achyuta Raya (1530-42). He alienated his best friends by his violent despotism till finally Rama Raya, Tirumala and Venkatadri, all three brothers combined and took away effective power from his hands. Rama Raya was virtually the King of Vijayanagar during the last part of Achyuta's reign and also during the reign of the next ruler Sadasiva.

Before many years had passed the Muslims again attacked the country. The invader this time was the first king of the new dynasty of Golconda, Qutub Shah (1512–43), the Qutub-ul-mulk. The Qutub-ul-mulk, Sultan Quli, a Turk of noble family, who was governor of the Golconda province under the Bahmanis, took advantage of the distracted state of the Kingdom under Mahmad Shah and declared his independence establishing the Qutub Shahi dynasty, which reigned here from 1512 to 1687. The cause of the war was the assistance given by the house of Orissa to a rebellious feudatory of Golconda. The large forces of the Hindus were routed by the fanatical courage of the Muslims who took Kondapalle and won a battle in the neighbourhood of Rajahmundry. The King of Orissa sued for peace and consented to surrender to Golconda the whole of the territory between the Krishna and Godavari rivers. On account of the domestic revolutions and unforeseen mishaps the Kingdom of Orissa was weakened and fell finally into the hands of the Muslim Kings of Golconda.

Fearing the further growth of power and influence of the Vijayanagar Empire, the Muslim Kings and Chieftains of the Deccan shelved their mutual rivalries, formed into a general league of the faithful and marched against the Vijayanagar King in a joint attack which resulted in the overthrow of that Empire in the fateful battle of Talikota, north of the Krishna river, in 1565. It was one of the most decisive battles ever fought in the history of South India. The Vijayanagar army was defeated, and the troops seized by panic, broke and fled, after suffering very heavy losses. Rama Raya and Venkatadri were slain in the battle. Tirumala, the only surviving brother, hastily returned to Vijayanagar and together with the puppet king of Sadasiva fled to the hill fort of Penukonda. The fleeing monarch with a few followers took with him a convoy of 550 elephants laden with treasure in the shape of gold, diamonds and

precious stones valued at more than 100 million sterling and also the State *Insignia* and the celebrated jewelled throne. The city of Vijayanagar which was thus left undefended was destroyed by the invaders so completely that it could never again be inhabited. Thus with the downfall of the Vijayanagar Empire the district came under the control of the Qutub Shahi line of Golconda.

The control of the new possessions of the Qutub Shahi was apparently far from firm and disorders and outbreaks were continued. The Reddis of the hills, for example, plundered Ellore and Nidadavole and for some time kept up a desultory resistance against the forces sent to suppress them. When attacked, they dispersed, only to reassemble in difficult passes and ravines and it was with difficulty that tranquility was restored. A standing militia appears to have been maintained; but its efforts to keep order were not always successful, and its exactions from the inhabitants increased the miseries of the country. Mir Jumla, the minister of Abdullah Qutub Shah, appealed to Aurangazeb for help against his master in 1655 on account of the difference of opinion between them and this afforded a pretext for Aurangazeb to invade the territory, but Abdullah sued for peace and paid arrears of tribute. He died in 1674 and was succeeded by his nephew Abul Hasan, also called Tana Shah. After the fall of Bijapur in 1686, Aurangazeb turned his attention to Golconda, which was taken in the following year. Tana Shah was made prisoner who died at Daulatabad in 1704 and with him ended the line of the Qutub Shahi Kings and the district passed direct under the imperial sway of the Great Moghal Emperor, Aurangazeb. He appointed Asaf Jah as Viceroy who was known as the Subedar of the Deccan with the title of Nizam-ul-mulk, which became the hereditary title of the family. The Subedari consisted of 22 provinces of which Rajahmundry and Srikakulam were two; with the provinces of Kondapalle, Ellore and Guntur they formed what were known as the Northern Circars.

Europeans had by this time been long established in the district in the guise of merchants. In 1611 the English founded their second settlement in India at Masulipatnam; which place continued to be their headquarters until these were finally removed to Madras in 1641. Three years after the founding of the English settlement came the Dutch and in 1669 the French followed and secured Masulipatnam and the adjacent country and Bussy, the French General sent M. Marconi to be the officer-in-charge at Masulipatnam. The English followed with settlements at Madapollam included in the Narsapur taluk and at Viravasaram. About the same time the French possessed themselves of Yanam. In 1748 the Subedar of the Deccan died and a great struggle followed for his place. The French and the English each took different sides and after many vicissitudes Salabat Jung became Subedar in 1751, through the influence and aid of the French. It was not, however, till the year 1751 that any of the European powers exerted any political influence in the district. The Subedar of the Deccan, Salabat Jung, in his gratitude for their help granted Narsapur and ceded Kondavidu country to the French. In 1753 the rest of the Northern Circars were also ceded to them and it was from them that this tract finally passed to the English. The following year on the outbreak of hostilities with French an expedition under Colonel Forde who was sent by Clive from Bengal defeated the French at Condare (Chandurti) near Pithapuram and following them into Masulipatnam besieged them there. Faced by a strong garrison in front and hemmed in behind by the Subedar of the Deccan who was an ally of the French, Colonel Forde, as a counsel of despair, at length made a gallant and almost desparate night attack upon the Masulipatnam fort and captured it. As a consequence of this victory, first the divisions of Masulipatnam, Nizampatnam and the part of Kondavidu and later the whole of Circars which also included Rajahmundry and Ellore passed by a grant from the Subedar of the Deccan to the East India Company. With the cession of the Palnad in 1801 by the Nawab of Arcot the entire area finally became British territory. Thus the English secured supremacy in the Circars. At first it was administered by a Chief Council at Masulipatnam, but in 1794, Collectors who were made directly responsible to the Board of Revenue were appointed at Guntur and Masulipatnam. Several changes were made in this arrangement until, in 1859, the districts of Rajahmundry, Masulipatnam and Guntur were reformed into the Godavari and Krishna districts. Subsequent to this change the construction and extension of the great irrigation system of the Godavari and Krishna rivers and the increase in work in all kinds as a result of improvement in the methods of administration, rendered the task of efficiently controlling these two wealthy areas more than one Collector could compass. The two districts of Krishna and Godavari had to be again readjusted. Consequently a new district, Guntur was constituted in 1904. The

Godavari district was accordingly lightened by the transfer to Krishna of the taluks of Yernagudem, Eluru, Tanuku, Bheemavaram and Narsapur (excluding Nagaram island) while Krishna was relieved of the taluks of Tenali, Guntur, Sattenapalle, Palnad, Bapatla, Narsaraopet, and Vinukonda which with Ongole taluk of Nellore district was formed into a new Guntur district in 1904. In 1925 Krishna district was further bifurcated and the West Godavari district was newly constituted therefrom with the following seven taluks *viz.*, 1. Eluru, 2. Chintalapudi, 3. Kovvur, 4. Bheemavaram, 5. Tadepalligudem, 6. Narsapur and 7. Tanuku. In 1942 Polavaram, an Agency taluk was transferred from East Godavari district to this district. The jurisdiction of the district remained unchanged during the decade 1951-61. The district is now divided into three Revenue Divisions for the purposes of Revenue administration as indicated below :

STATEMENT II-1

Name of the Revenue Division (1)	Headquarters of the Revenue Division (2)	Taluks in the Revenue Division (3)
Eluru	Eluru	Eluru Chintalapudi Tadepalligudem
Kovvur	Kovvur	Kovvur Polavaram
Narsapur	Narsapur	Tanuku Bheemavaram Narsapur

Each of the above divisions is being administered by a Revenue Divisional Officer under the control of the District Collector at the district headquarters.

The following are some of the more important personalities of this district:

Alluri Sitharamaraju 1897-1924 : Sri Alluri Sitharama Raju was one of the greatest heroes of Andhra who offered very stiff resistance to the establishment of British power in the Agency areas of Godavari and Visakhapatnam districts. He made history in the short span of his life and there is no Andhra who does not know about him. He was an excellent horseman, a talented figure and good marksman and by birth a daring personality. He was regarded as a leader and a saint and enjoyed great popular support among the hill-tribes of Godavari district specially Koyas.

Born in 1897 as the last son to Sri Venkata Rama Raju at Mogallu village of Bheemavaram taluk he belonged to the Kshatriya clan (Royal Warring Clan). He studied for some time in Mrs. A. V. N. College, Visakhapatnam and Taylor's High School at Narsapur but could not show any promise in education. He was later sent to Tuni where his uncle was transferred as Deputy Tahsildar. Even there he could not prove better. Though he could not render a good account of himself in English education he was proficient in several languages besides knowing palmistry and indigenous medicine. He was also known to be a good astrologer. He constructed a Sri Rama temple at Krishnadevipet, an Agency village of Narsapatnam taluk of Visakhapatnam district in 1921-22 and lived there for some time during which period he attained supernatural powers by doing penance. The Non Co-operation Movement led by Mahatma Gandhi was then in full swing and the people were boycotting to go to the courts. Under the leadership of Sri Alluri Sitharama Raju the people of Rampa and Pedavarla villages established their own Panchayati courts (People's courts) and boycotted the Government courts. He was, therefore, treated as a traitor and was taken to custody but had to be released after six weeks imprisonment as the people did not come forward to give evidence. He was then kept under watch by the Government. He could not tolerate the Police vigilance on him and represented to the Magistrate of Polavaram that he was being watched like a thief. The people of Gudem taluk having known this, were planning to revolt against the Government. The Government therefore ordered that his movements should be confined to Paidiputtu village limits and gave him a house and about 30 acres of land. After some time the Government lifted the restrictions on his movements. The atrocities committed by the Deputy Tahsildar of Gudem like ill-treatment of the coolies, obtaining forced labour, restrictions in podu cultivation etc. enraged Sri Alluri Sitharama Raju and consequently he led a serious revolt in the Gudem limits of the Vizagapatam Agency. He gathered a band of followers, raided Police Stations, secured carbines and large quantity of ammunition. His revolts were confined mostly to the attacks on Police. The rebels moved from place to place obtaining provisions and evading forces operating against them. Their itinerary included Addateegala, Rajavommangi, and several villages in Yellavaram, Rampachodavaram and Chodavaram taluks. He received willing assistance

from the people on account of his saintly qualities and the right cause for which he was fighting. The Police were ambushed more than once in his struggle. A considerable body of the Malabar Special Police was brought into the Agency and in the first week of December, 1922 two detachments of this force succeeded in getting into touch with the rebels and forcing two engagements. Sri Sitharama Raju and his followers escaped by scattering themselves and nothing was known about their activities till April 1923. In the meantime a part of this Police force operating in the Agency was withdrawn. Sri Sitharama Raju and his followers, probably in increased strength, intensified their activities and on April 17, 1923 visited Annavaram and searched a Police Station unsuccessfully for arms and ammunitions. The Police was, therefore, reinforced again and the Malabar Police was recalled. The police could not succeed in their attempts due to the unwillingness of the local inhabitants to co-operate in any way with the Government or to give information about the movements of the rebels. The nature of the country and the great difficulty in maintaining the required strength of Police force on account of frequent cases of sickness due to the unhealthy region added to the magnitude of the task of the Government. However, the police forces were strengthened from time to time, a punitive tax was imposed on certain areas and the village officers suspected to have assisted the rebels were also punished but no great change in the attitude of the police was effected till the end of the year. After a series of brushes that occurred with the rebels from May to December, 1923 the Government decided to reinforce the police by a strong detachment of Assam Rifles to bring the operations to a speedy conclusion. A strong detachment of Assam Rifles was accordingly brought on the scene in January, 1924 and it was employed for systematically searching the country above the ghats while the Police forces continued to operate in the country below. The chief obstacle to the Government forces was the active or passive sympathy shown by the inhabitants of the area to the rebels. Mr. T. G. Rutherford, I.C.S., was appointed Special Commissioner in charge of the operations. He announced cash awards of Rs. 1,500 and Rs. 10,000 respectively to those who captured and made over the rebel leaders and Alluri Sitharama Raju to the Police. He also brought in one more detachment of Assam Rifles and made all possible efforts to clear up the situation before the break of the monsoon. In the course of thorough combing of the country by the troops, a band of rebels was met in action and was defeated on 6th May, 1924 and on the next day Sri Sitharama Raju was captured. He was brought before the Commanding Officer of the Assam Rifles but was shot shortly after while attempting to escape.

Vanguri Subba Rao 1886–1923: Vanguri Subba Rao was born at Siddantam in Tanuku taluk and had his early education in the High School at Tanuku. During the National Movement he went to Calcutta at the teen age of twenty to learn some of the cottage industries like the manufacturing of soaps and candles. After his return from Calcutta he started "The Godavari Soaps and Candles Manufacturing Company". Later he went to Masulipatnam and established the "Nauroji Company" for manufacturing hair oils, scents, and tooth pastes besides trading in cycles and watches. He also started a book publishing unit by name Kamala Kuteeramu. Subba Rao was also much interested in Telugu literary activities. He was a voracious reader and a great scholar. For some time he was both publisher and editor for a paper called Vasundhara and further contributed articles to Andhra Patrika under the column 'Vasanthalekhalu' for some time. He wrote many Telugu books of which Andhra Vangmaya Charitra' and 'Satakakavula Charitra', are more important. He laboured hard to publish many ancient works. Indeed but for him many of unpublished old works would not have seen the light of day.

Adivi Bapiraju 1895–1952: Born at Bheemavaram, Sri Adivi Bapiraju became a great novelist and writer in Telugu and an equally talented artist. In fact he was one of the very few talented poets and writers and was familiarly known as 'Bapi-Bava'. He wrote many short stories and folk songs. The social novel 'Narayana Rao' and the portrait of 'Tikkana' were awarded prizes by the Andhra University and are very famous. During the political struggle for the Independence of India he boldly came forward and participated in it actively on account of which he was imprisoned for one year in 1922 and even in the jail he wrote many poems which were subsequently published in a book named 'Tolakari'. Later he passed the law examination and practised as a lawyer for about 4 years in Bheemavaram. In 1934 he accepted appointment in the Andhra Jatiya Kalasala at Masulipatnam. During his stay of 4 years there he wrote some short stories like 'Silpabala', 'Veena', 'Himalayarasmi'. In 1939 he entered the cinema field and attained eminence as an Art Direc-

tor in the Telugu pictures like 'Anasuya' 'Dhruva Vijayamu','Meerabai'. In 1944 he shifted to Hyderabad and worked as an editor of the daily 'Mizan' for a period of three years. During this period he wrote some novels like 'Konangi', 'Toofan', 'Gona Ganna Reddi' and also some short stories.

Chilakamarthi Lakshminarasimham 1867 - 1945: Born at Khandavalli, Tanuku taluk in 1867 Sri Chilakamarthi Lakshminarasimham had his early education at Kondapalle, Tanuku and Rajahmundry. He was unsuccessful in the F. A. examination held in 1892 and did not therefore, pursue higher studies. He then entered the teaching profession. He acquired good knowledge both in Telugu and Sanskrit. He was a great patriot and his historical poem 'Bharata Khandamu Chakkani Padiyavu' is one of the earliest in National Literature. As a dramatist he translated many Sanskrit dramas of which 'Parvathi Parinayamu' and the dramas of Bhasa are popular. 'Gayopakhyanamu' and 'Draupadi Parinayamu' are among his famous dramas besides other works like 'Ramachandra Vijayamu', 'Hemalata', 'Ahalya Bai', 'Karpuramanjari' and 'Saundarya Tilaka'. He won many prizes for his literary talents and the Andhra University honoured him with the title 'Kalaprapurna'.

Sonti Kamesam 1890-1954: Born at Narsapur in 1890, Sri Kamesam belonged to an educated and cultured family. He had his education at Visakhapatnam and Madras. Later he studied in the Engineering College, Guindy and entered service in the Forest Research Centre at Dehra dun. During the British reign he was appointed as an expert in charge of wood preservation and was sent to America and Germany for advanced research. In Germany he worked in collaboration with Dr. Faulk and evolved Faulk-Kamesam formula for the protection of wood works, which was later known as 'Ascu' process. After leaving the Forest Research Centre he worked for some time as Director of Development in Travancore State and later settled at Bangalore as Consulting Engineer. He was successful in preparing the San-Steel plates which were made up of bamboos and cement and without using any steel. In recognition of his merit and commendable service to the country at large, the Andhra University awarded him the honorary degree of D.Sc. As an engineer he constructed many buildings and anicuts and invented San-Steel cement plates and distinguished himself as a great scientist.

Nanduri Venkata Subba Rao 1884–1957: Born at Vasantavada, Eluru taluk in 1884. Sri Subba Rao had his early education in Eluru and collegiate education in Kakinada and Madras. After passing the law examination he started his career as a lawyer in 1926 at Eluru. He developed his literary taste and talent in Telugu which he had from his boyhood. He became famous in composing folk songs, and his 'Yenkipatalu' are very popular among the Andhras.

Some of the other important personalities of this district are Karuna Kumara, Chilukuri *Chathushtyam*, Chilukuri Veerabhadra Rao and Alluri Satyanarayana Raju.

After independence the first General Elections were conducted in January, 1952 for both the House of People and the Legislative Assembly. The tenure of office of Members of both the Houses was five years. But due to the failure of the State Government, mid-term elections were conducted during February, 1955 for the State Legislative Assembly. The district was divided into 16 Assembly Constituencies and two Parliamentary Constituencies to elect 16 Members of the Legislative Assembly and two Members of Parliament as shown below according to the Delimitation of Parliamentary and Assembly Constituencies Order, 1954.

The country again went to polls during 1957. But as mid-term elections for Andhra State Legislative Assembly were conducted during 1955 the Government extended the term of office of the M. L. As. of the Andhra region of the State for a further period of 5 years from 1957 and hence the Members elected to the Legislative Assembly continued as M. L. As. upto 1962. So the elections conducted in 1957 were confined to Assembly Constituencies of Telangana region and Parliamentary Constituencies in both Andhra and Telangana regions. During these elections the Parliamentary and Assembly constitutencies remained unchanged. The successful candidates for the West Godavari district Parliamentary Constituencies were:

1. Sri Uddaraja Ramam
2. Kumari Mothey Veda Kumari

Due to the abolition of the two member constituencies the district was again divided into two Parliamentary and 16 Assembly Constituencies under the Delimitation of Parliamentary and Assembly Constituencies Order, 1961. The extent of each Parliamentary and Assembly Constituency and the names of successful candidates in the 1962 Elections are given below :

STATEMENT III-3

Name of the Constituency	Extent of the Constituency	Name of the successful candidate

CHAPTER III
POPULATION AND HOUSING

In this Chapter a brief review is made of demographic, economic and social characteristics of the population as revealed by the 1961 Census count. The detailed tables relating to population data are given in the third part of this Handbook.

The following statement gives an idea of where the district stands in comparison with the other districts of the State in respect of certain basic demographic data.

STATEMENT III-1

State/District	Area (in sq. miles)	Population	Density of population (per square) mile)	Percentage of growth of population 1951-61	Percentage of Urban population	Sex ratio (females per 1,000 males)
(1)	(2)	(3)	(4)	(5)	(6)	(7)

Population

West Godavari district has a population of 1,978,257 persons consisting of 993,020 males and 985,237 females according to the 1961 population Census. A portion of Polavaram taluk in the northern part of the district covering an area of 491.3 sq. miles is Agency area. 46,175 persons (23,061 males and 23,114 females) are living in this Agency area. The entire Agency portion is rural. The majority of the population even in the plains live in the rural areas as in other districts of the State. 1,664,284 persons or nearly 84.13% of the total population of the district belong to the rural areas while 313,973 persons or 15.87% of the population live in the urban area. This district comprising 8 taluks has an area of 3,009.8 sq. miles, of which 56.8 sq. miles is covered by urban units and the rest is rural. There are in all 883 villages (781 villages in plains and 102 villages in Agency) and 10 towns (all in plains) in the district.

Among the ten towns in the district Eluru city which is the district headquarters, is the largest urban unit having a population of over 1 lakh and is therefore, a Class I town or city. Its population as per 1961 Census count is 108,321 persons. Bheemavaram, Narsapur, Palacole, Tadepalligudem and Tanuku come next in order and fall under Class III towns with a population ranging between 20,000–49,999 persons, while Nidadavole, Kovvur and Penugonda are Class IV towns with a population ranging between 10,000–19,999 persons. Maruter is the only Class V town in the district with a population ranging between 5,000–9,999 persons It is the smallest urban unit from the population point of view with 5,296 persons. According to area the largest town in the district is Nidadavole with 10.88 sq. miles followed by Bheemavaram occupying 9.00 sq. miles. The smallest town according to area is Maruter with 1.14 sq. miles.

Rural areas

Among the 883 villages in the rural area of the district 826 are inhabited and 57 are uninhabited. These villages are spread over both in the Plains and in the Agency portion. The plains portion of the district extends over an area of 2,518.5 sq. miles and comprises 781 villages—730 inhabited and 51 uninhabited. The remaining 102 villages—96 inhabited and 6 uninhabited villages lie in the Agency portion. Eluru taluk contains 144 villages, the largest number in any taluk of the district. Narsapur and Bheemavaram contain the smallest number of villages *i.e.*, 87 villages. 140 villages or 16.95% of the total number of inhabited villages in the district belong to the population size 500–999 persons. 216 villages or 26.15% of the total number of inhabited villages in the district belong to the population size of 1,000–1,999 persons. 242 villages or 29.30% of the total number of inhabited villages in the district belong to the population size of 2,000–4,999 persons. Fifty eight villages or 7.02% of the total number of inhabited villages in the district belong to the population size 5,000–9,999. Seven villages or 0.85% of the total number of inhabited villages have a population of 10,000 or more and are distributed among Bheemavaram, Narsapur and Tanuku taluks. In many taluks the number of villages belonging to the population size of 2,000–4,999 is considerably higher than the number of villages in any other category.

Occupied Residential Houses

The total population of 1,978,257 persons in the district occupied 354,860 residential houses constituting 437,061 households. Thus on an average each household contains approximately five persons in West Godavari district.

STATEMENT III-2

District/Taluk	No. of persons	
	Per Census House	Per Census Household
(1)	(2)	(3)
West Godavari District	5.57	4.53
Eluru Taluk	5.30	4.61
Chintalapudi Taluk	5.33	4.78
Polavaram Taluk	5.29	4.57
Kovvur Taluk	5.96	4.53
Tadepalligudem Taluk	5.87	4.57
Tanuku Taluk	5.67	4.39
Narsapur Taluk	5.41	4.46
Bheemavaram Taluk	5.67	4.51

Density of population

For the district as a whole the density of population is 657 persons per sq. mile, the rural and urban figures being 564 and 5,526 persons respectively. Compared to 1951 Census the density of population in the district has increased from 568 persons per sq. mile in 1951 to 657 persons per sq. mile in 1961. West Godavari district is one among the thickly populated districts in the State along with Srikakulam, East Godavari, Krishna and Hyderabad districts. Among the districts which have recorded a density of

more than 600 persons per sq. mile, West Godavari district occupies the second place, the first being Hyderabad with a density of 688 persons per sq. mile. In the plains portion the density is 767 persons per sq. mile and in the Agency the density is 94 persons per sq. mile. Coming to the taluks in the district, Tanuku taluk has the highest density of 1,475 persons per sq. mile followed by Narsapur with 1,207 persons and Bheemavaram 952 persons; Tadepalligudem, Kovvur and Eluru taluks come next in the order with a density lying between 610 and 700 persons per sq. mile. Chintalapudi taluk recorded a density of 291 persons per sq. mile. As a major portion of Polavaram taluk is covered by Agency area, the density of population in this taluk is naturally the lowest in the district, being only 215 persons per sq. mile.

Eluru city recorded the highest density of 23,345 persons per sq. mile. Among the other towns Palacole town recorded the highest density of 15,735 persons per sq. mile while Narsapur town recorded a density of 6,895 persons per sq. mile. Bheemavaram, Maruter and Kovvur towns recorded a density between 4,000 and 5,000 persons per sq. mile while Tanuku and Tadepalligudem recorded a density between 3,000 and 4,000 persons per sq. mile. The other two towns in the district *viz.* Penugonda and Nidadavole recorded densities of 2,065 and 1,548 persons per sq. mile respectively. But too much reliance cannot be placed on the urban density figures because it is not definitely known whether the area used for habitation purposes alone or even the agricultural lands lying in the limits of the towns have been included in the area figures furnished by the respective municipalities or panchayats.

As has been already indicated more than 84% of the population of the West Godavari district live in the rural areas. Chintalapudi and Polavaram taluks are purely rural since no urban units have been recognised in these two taluks. All the other taluks excepting Eluru taluk *i.e.*, Kovvur, Tadepalligudem, Tanuku, Narsapur and Bheemavaram taluks have recorded more than 80% of the population living in the rural areas. Even in Eluru taluk that has recorded the highest proportion of urban population in the district, the rural population constitutes 65.35% of the total population.

Sex Ratio

In the district as a whole there are 992 females per 1,000 males and the sex ratio ranges between 958 in Chintalapudi taluk and 1,012 in Narsapur taluk. There are 992 females per 1,000 males in the rural areas while the corresponding figure for the urban areas is 994 females. The sex ratio is naturally more uneven in taluks which have a higher proportion of urban population. Thus there are 981 females per 1,000 males in Eluru taluk. However, in the case of Narsapur taluk which contains a fairly large proportion of urban population the urban sex ratio is 1,028 females per 1,000 males and is higher than the corresponding rural sex ratio of 1,009 females.

The sex ratios in the total, rural and urban areas of each taluk in the district are given below :

STATEMENT III-3

District/Taluk (1)	Total (2)	Rural (3)	Urban (4)
West Godavari District	**992**	**992**	**994**
Eluru Taluk	981	969	1,004
Chintalapudi Taluk	958	958	...
Polavaram Taluk	983	983	...
Kovvur Taluk	986	981	1,017
Tadepalligudem Taluk	986	989	963
Tanuku Taluk	1,010	1,014	983
Narsapur Taluk	1,012	1,009	1,028
Bheemavaram Taluk	991	1,001	940

The following statement indicates the proportion of persons, males and females in different age-groups in West Godavari district.

STATEMENT III-4

Age-groups	Percentage of population (persons, males and females) in different age-groups		
	Persons	Males	Females

N: Negligible

Infants and children in the age-group 0-14 years from 38.17% of the total population while old people

aged 55 years or more account for 7.84% of the total population. The population in the working age-group of 15–54 years constitutes the majority (53.99%) of the total population. The population coming under the category of 'age not stated' represents those persons who could not or did not furnish the age particulars to the Census enumerators and the population in this category is quite negligible.

The proportion of males in the age-group of 10–14 is slightly higher than the corresponding proportion of females. In the working age-group of 15–54 years the proportion of females is slightly higher than that of males which is 53.83%; the higher proportion of females in the sub-groups 20–24 and 25–29 years seems to have been responsible for the slightly higher proportion of females in the working age-group. In the higher age-groups from 40–44 to 60–64 years the proportion of males is slightly higher than the corresponding proportion for females. However, the proportion of females in the advanced ages of 65 years or more is higher than that of males in these age-groups, in conformity with the fact that in advanced ages mortality among women is generally lower than among men.

The variation in the proportion of persons in different age-groups in the rural and urban areas of the district can be seen from the following statement.

STATEMENT III-5

Age-groups	Percentage of population in different age-groups	
	Rural	Urban
(1)	(2)	(3)
0–14	38·28	37.58
15–54	53·64	55.83
55+	8·08	6.59
Age not stated	N	N
All ages	100	100

N: Negligible

Marital Status

Of the total population of 1,978,257 persons in the district 884,419 persons have never married and 1,093,835 were married including those who are widowed, divorced or separated. The number of widowed, divorced or separated is 166,936 persons. Thus 55.29% of the total population were married sometime or the other. 8.44% of the total population are either widowed, divorced or separated.

Child marriages also seems to be prevalent to some extent in this district. About 10% of the females in the age-group of 10–14 years are married but the corresponding proportion in the case of males is much smaller being only 0.61%. Among 1,000 married males there are roughly 2 in the age-group of 0–14, while among females 17 out of every 1,000 married females belong to this age-group. It may be noted in this connection that children below nine years were treated as unmarried for Census purposes.

In the higher age-groups naturally fewer women remain unmarried.

The following statement indicates the proportion of never married persons in the total population and in the population aged 10-14 years in West Godavari district and in each taluk.

STATEMENT III-6

District/Taluk	Percentage of never married persons to total population	Percentage of never married persons in the age-group 10-14 to the total population in the age-group 10–14
(1)	(2)	(3)
West Godavari District	**46.48**	**96·45**
Eluru taluk	56·53	94.10
Chintalapudi taluk	47·54	95·15
Polavaram taluk	45·43	93.78
Kovvur taluk	43·87	95·04
Tadepalligudem taluk	42.27	93·25
Tanuku taluk	43.15	94.50
Narsapur taluk	43·95	95.67
Bheemavaram taluk	44·48	94·71

There is not much variation in the proportion of persons who are never married between the taluks excepting in Tadepalligudem, Chintalapudi and Eluru taluks. In Eluru and Chintalapudi taluks the proportion of never married persons is higher, while in Tadepalligudem taluk this proportion is relatively low. Consequently in this taluk the proportion of married persons is high. It is also observed that a comparatively higher proportion of child marriages is recorded with over 6% of the population in the age-group of 10–14 being returned as married in Tadepalligudem taluk. Narsapur and Chintalapudi taluks have recorded a relatively low proportion of married persons in the age-group 10-14. In fact not even 5% of the population in the age-group of 10–14 are married in these taluks.

Literacy by age-groups

The following statement gives the percentage of literates in different age-groups among persons, males and females in the rural and urban areas of West Godavari district.

STATEMENT III-7

PERCENTAGE OF LITERATES BY AGE-GROUPS

Age-group	Persons			Males			Females		
	Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)
All ages	30.76	27.77	46.62	38.12	34.73	56.06	23.35	20.75	37.13
0- 4	...	...	...	...	...	...	...	...	...
5- 9	26.36	23.45	42 91	28.33	25.25	46.45	24.43	21.67	39.63
10-14	50.87	46.67	72.68	54.71	50.43	77.45	46.70	42.58	67.69
15-19	48.60	44.34	69.47	55.01	50.35	78.04	41.95	38.08	60.71
20-24	42 97	39.17	61 69	54.61	50.38	74 22	32.82	29.59	49.63
25-29	37.91	34.48	55.10	48 76	44.64	69.34	27.70	24.93	41.64
30-34	35.91	32.42	52.71	46.77	42.25	69.00	24.46	22.00	36.10
35-44	31 76	28.52	48 58	43 39	39.53	63.48	19 50	16.92	32.91
45-59	25.49	22 84	41.07	37 48	34 43	55.42	12.82	10.56	26.01
60+	18 24	16.20	31 41	29.67	26.91	48.18	7.08	5.65	16.02
Age not stated	34.07	33 33	37.50	39.22	36 36	57.14	27.50	29.03	22.22

Note: Persons of age-group 0-4 are treated as illiterates

It is seen from the above Statement that in the higher age-groups from 15-19 onwards, the proportion of literates begins to decline both in the cases of males and females. This would indicate that children have started attending schools in recent years, while those in the higher age-groups did not get themselves educated in their younger age either because there were no educational facilities or out of their disinclination to attend schools. It is also observed that the proportion of literates in the age-group 10-14 is higher than the corresponding proportion in the age-group 5-9 among persons, males and females both in rural and urban areas. In the urban areas the percentage of literates is the highest in the age-group 15-19 for males while the highest percentage of literates among females is recorded in the age-group 10-14. In the rural areas the percentage of literates is the highest in the age-group of 10-14 both for males and females. Even in the higher age-groups the proportion of literates among males in the rural areas is generally higher than the district average. This may probably be due to the different adult education programmes implemented in the community development blocks. However, in the case of females in the rural areas the impact of the adult literacy programmes does not appear to be as significant as in the case of males.

Workers and Non-Workers

The entire population was divided broadly into two categories *viz.*, Workers and Non-Workers, at the 1961 population Census. A person who was actually engaged in some productive work or in supervising or directing the operations thereof was treated as a worker irrespective of the fact whether he earned an income thereby or not. The concept of dependency adopted at the earlier Census was given up at this Census. In the case of regular employment in any trade, profession, service, business or commerce, a person was treated as a worker if he was employed during any of the fifteen days preceding the day on which he was enumerated. A person who had regular employment but was temporarily absent from work due to illness or other causes was also treated as a worker. Persons under training as apprentices with or without stipend or wages were regarded as workers. Undertrial prisoners, temporary inmates of hospitals or other similar institutions were treated as workers if they were workers before they were admitted to these institutions. In the case of seasonal work like cultivation, livestock rearing, dairying, household industry, a person was treated as worker if he had some regular work of more than one hour a day throughout the greater part of the working season. Family workers, *i.e.*, those who do not directly receive any income but attend to work along with other members of the family are also treated as workers. All other persons, who did not satisfy these criteria laid down for workers, like beggars, pensioners, agricultural or non-agricultural royalty, rent or dividend receivers, fulltime students, infants who did not participate in any productive work were considered as non-workers even if they were earning some income otherwise. An adult woman who was engaged in household duties and did no other productive work was treated as a non-worker. If, however, in addition to her household work she engaged herself in work such as rice pounding for sale or wages or minding cattle or selling firewood or making and selling cowdung

cakes or grass or in domestic service for wages for others or any such productive work, she was treated as a worker.

On the basis of these criteria 47.7% of the population of West Godavari district constitute workers, while the remaining 52.3% form the non-working population. The following Statement shows the distribution of 1,000 persons according to the nine industrial categories of workers and non-workers in total, rural and urban areas of Andhra Pradesh and West Godavari district.

STATEMENT III-8

State/District		Total population	Total workers	Workers in Industrial Category									Non-workers
				I	II	III	IV	V	VI	VII	VIII	IX	
(1)		(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)	(12)	(13)
Andhra Pradesh	T	1,000	519	208	148	16	51	13	6	22	7	48	481
	R	1,000	552	246	173	17	52	7	4	15	2	36	448
	U	1,000	360	29	31	10	43	45	14	53	28	107	640
West Godavari	T	1,000	477	128	198	15	39	13	4	22	7	51	523
	R	1,000	497	148	227	17	38	6	3	15	4	39	503
	U	1,000	375	24	47	5	43	51	8	58	26	113	625

(I—Cultivation; II—Agricultural labour; III—Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities; IV—Household Industry; V—Manufacturing other than Household Industry; VI—Construction; VII—Trade and Commerce; VIII—Transport, Storage and Communications; IX—Other Services)

It is seen that agricultural workers (Categories I and II) constitute 32.6% of the total population in West Godavari district—37.5% in the rural areas and about 7% in the urban areas as against the corresponding proportions of 35.6%, 41.9% and 6% respectively for the State. Agricultural workers form more than 68% of the total workers in West Godavari district and 69% in the State. In the rural areas of this district this proportion is as high as 75% as against the corresponding figure of 75.8% for the State. Household industry is the next important sector which provides employment to about 4% of the population in West Godavari district while for the State as a whole the proportion is slightly more than 5%. The proportion of workers in household industry is higher in the urban areas being slightly more than 4% compared to 3.8% in the rural areas. Perhaps there is a tendency among the artisans and craftsmen to move from the rural areas to the urban areas partly because of the inadequate returns accruing from household and cottage industries in the rural areas and to some extent due to the lack of development of large scale industries even in the urban areas of the district. This is true of many other districts in the State and hence the same phenomenon is reflected in the figures for the State also. Workers in category IX 'Other Services', which includes public services under the State and Central Governments, educational and scientific services, medical and health services, religious and welfare services, local and business services, personal services, etc., form 5% of the total population in West Godavari district and their proportion is naturally higher in the urban areas, the figure being 11.3% as against the corresponding figure of 3.9% for the rural areas. Workers in the remaining industrial categories account for less than one per cent each of the total population except in trade and commerce, mining and quarrying and manufacturing other than household industry which claim 2.2%, 1.5% and 1.3% respectively of the population of the district. The following statement shows the distribution of 1,000 males and 1,000 females among the nine industrial categories of workers and non-workers for the total, rural and urban areas of the State and West Godavari district and for the rural areas of each taluk of West Godavari district.

STATEMENT III-9

DISTRIBUTION OF 1,000 MALES & 1,000 FEMALES BY EACH INDUSTRIAL CATEGORY OF WORKERS AND NON-WORKERS

N: Negligible

Male agricultural workers constitute 47.1% of the male population in the rural areas of the district, and this proportion is maintained generally in all the taluks except in Narsapur taluk where the proportion is slightly less than 44%. In Chintalapudi taluk they constitute 50.1% which is the highest proportion of the male agricultural workers in any taluk of the district. Incidentally the highest proportion of non-workers, nearly 37% among males is recorded in Narsapur taluk. Also the proportion of male workers in household industry is relatively high in Chintalapudi, Tanuku and Kovvur taluks. Tanuku taluk recorded the highest proportion of male workers (3.3%) in Trade and Commerce followed by Kovvur and Bheemavaram with 2.6% and 2.5% respectively. As there is no significant development of large scale industries in this district, the proportion of workers in Manufacturing other than Household Industry (Category V) is very low. Only Tanuku, Kovvur and Bheemavaram taluks have recorded a proportion of 1% of the population as workers in this category. Excepting in Polavaram and Bheemavaram taluks, workers in household industry account for nearly 5% of the male population in all the taluks, while in the case of females the proportion varies from one per cent in Polavaram taluk to 6 per cent in Narsapur taluk. The proportions for both the sexes are relatively high in Narsapur, Eluru, Tadepalligudem, Tanuku and Kovvur taluks. The proportion of female workers is less than the proportion of male workers in all the industrial categories except Category II in several taluks. This is generally true of all the districts in the State obviously because quite a number of female workers participate in agricultural operations such as sowing, transplanting, weeding and harvesting. Apart from the industrial classification discussed above particulars relating to occupational classification of persons at work other than cultivation were also collected and tabulated at the 1961 Census. The occupational classification is quite distinct from the industrial classification. Occupational classification relates to the actual work a person does irrespective of the industry in which he is engaged *e. g.*, a person who is a clerical worker in occupational classification may be connected with industry, trade or service. Conversely in the same industrial category there may be persons following different occupations such as technicians, managerial workers, clerical workers etc. The occupational particulars are given in the Table B–V printed in Part III–Statistical Tables in this Book.

According to the 1961 Census returns there are 254 Civil Engineers, 61 Mechanical Engineers, 35 Chemical Engineers, 4 Metallurgical Engineers, 101 Surveyors in the engineering field. On the medical side there are 2,024 Physicians, Surgeons and Dentists in this district besides 2,048 persons working as Nurses or Pharmacists or other Medical and Health Technicians. 9,510 persons are working as teachers. 33,541 persons are working as retail trade proprietors while 1,008 persons are working as wholesale trade proprietors. 16,523 persons are working as Farm Managers etc., while 15,900 are Farm workers; 5,969 persons are engaged in Fishing occupation. 6,142 persons have returned their occupation as Drivers of Road Transport. 26,787 are weavers or spinners in this district and about 10,846 are engaged in tailoring. 8,219 persons are working as Carpenters etc., while 6,185 are engaged in masonry. Millers and allied categories account for 11,335. Laundrymen, washermen and dhobies account for 29,862 persons.

The following Statement shows the broad age distribution of 1,000 workers of each sex under the different industrial categories in the total, rural and urban areas of West Godavari district.

[*STATEMENT*]

N: Negligible

It is observed that 49% of the workers are concentrated in the age-group 15–34 years; the figures for the urban areas being slightly higher (about 51%). The proportion of female workers in this age-group is a little higher than the corresponding proportion for male workers. The higher proportion of female workers is mainly due to preponderance of female workers in livestock, fishing, plantations (Category III), household industry (Category IV) and to some extent among cultivators, agricultural labourers and construction workers. The age-group 35–59 years accounts for 35% of the total workers. Workers in the age-group 0-14 form about 9% of the total workers and are found mostly in livestock, forestry, fishing, hunting etc., in household industry and among agricultural labourers. However, the proportion of workers in this age-group is relatively low in the urban areas, the figure being roughly 6%. In the

urban areas the age-groups 15–34 and 35–59 years together account for 89% among workers as against 84% in the rural areas. However, there is no significant variation in the proportions of workers in these two age-groups between rural and urban areas in the different industrial categories. The same phenomenon is observed in the case of the age-group 60 years or more also. Though the concentration of the workers in the age-groups 15–34 and 35–59 is natural, the development of particular industries in the rural or the urban areas generally results in some significant variation in the proportion of workers in different industrial categories in the rural and urban areas. But in West Godavari district this feature is not observed, because there is no marked difference between the rural and the urban economy.

The non-working population of West Godavari district is 10.34 lakhs persons consisting of 3.65 lakhs males and 6.69 lakhs females. The non-workers constitute 52.3% of the total population. 36.8% of the males and 67.9% among females in the district are non-workers. The proportion of non-workers in the urban areas is naturally higher than in the rural areas. The non-workers constitute 62.5%, 43.9% and 81.2% among total persons, males and females respectively in the urban areas of West Godavari district compared to the corresponding figures of 50.3%, 35.4% and 65.4% in the rural areas of the district. The following Statement shows the distribution of 1,000 Males and 1,000 Females among the non-working population according to the eight categories of non-workers based on the type of activity.

STATEMENT III-11

Total Rural Urban	Total Non-Workers		Fulltime Students		House-hold duties		Dependants, infants and disabled		Retired, rentier or independent means		Beggars, vagrants etc.		Inmates of penal, mental or charitable institutions		Persons seeking employment for the first time		Persons employed before but now out of employment and seeking work

The category of dependants, infants and disabled constitutes the largest proportion of male non-workers while among female non-workers those engaged in house-hold duties naturally form the highest proportion both in the rural and urban areas. Among male non-workers the category of fulltime students occupies the second place. The last two categories which together represent the total unemployed in the district account for only 0.6% among the male non-workers in the rural areas and 1% in the urban areas. Among the female non-workers the proportion of unemployed is negligible both in the rural and urban areas mainly because they do not generally seek any work apart from household duties.

Household Schedule

A special feature of the 1961 Census was the introduction of the household schedule in addition to the individual slip. This schedule is primarily intended to collect data on cultivation and household industry of the household *i. e.*, as one identifiable Socio-Economic unit distinct from the individual on which the population Census is generally based. It is well known that cultivation or household industry involves more of household effort than individual

labour or supervision and therefore the data based on the household as a unit of measurement are very useful. The Household Economic Tables prepared on the basis of a 20% sample of the household Schedules are published in a separate volume "Census of India 1961 - Volume II, Andhra Pradesh, Part III - Household Economic Tables". However, one of these tables, namely, "Sample Households in Cultivation classified by interest in land and size of land cultivated in total, rural and urban areas" of West Godavari district is given below, because it contains very useful information about the size of holdings and will also give a rough idea about the extent of tenancy that is still prevalent.

STATEMENT III-12

SAMPLE HOUSEHOLDS ENGAGED IN CULTIVATION CLASSIFIED BY INTEREST IN LAND AND SIZE OF LAND CULTIVATED

Migration

Of the 19.78 lakhs of persons that constitute the total population of the district 11.95 lakhs or 60.42% are born in the place of enumeration. 5.78 lakhs persons or 29.24% of the district population are born in the district itself but not at the place of enumeration. 1,99,651 persons or 10.09% of the total population are born in other districts of the State. Thus about 89.7% of the population represents those born within the district. Persons born in other States of India number only 4,200 persons forming merely 0.21% of the population of the district. It is significant to note that among those born in the district but outside the place of enumeration and those born in other districts of the State, the females far out number the males, the proportion of females being about 64% and 56% respectively of the total number in each case. This indicates that a large number of females from outside the place of enumeration in the district, and from other districts have moved in through marriage alliances. Among the other districts of the State East Godavari, Krishna, Visakhapatnam, Guntur and Khammam have sent considerable number of females into West Godavari district. There are 53,989 females born in East Godavari district and enumerated in West Godavari District. Likewise 27,996 females from Krishna and 1,879 females from Khammam are enumerated in West Godavari district and the number of female migrants from these districts far exceeds the corresponding number of male migrants. Taking all the other districts of the State together, 112,676 females have moved into West Godavari district from these districts as against 86,975 males. Of the 1,638 females who have moved into the district from the other States of India as many as 775 females have moved into the district from Madras, 192 females from Mysore and 174 females from Kerala. This phenomenon is mostly due to the age long custom of marriage alliances with females of Madras State of which this district was a part till the reorganisation of States in 1956. The number of persons born outside India is 702 forming a very insignificant proportion of the population of the district. 597 of these foreign migrants are from countries in Asia beyond India, 47 from countries in Europe, 27 from countries in Africa, 22 from America and 9 from countries in Oceania. The pattern of distribution of persons according to birth place is more or less similar in the case of the rural and urban areas of the district except that those born outside the State of enumeration and in other districts of the State constitute a higher proportion of the urban population compared to the corresponding proportion in the rural areas though in terms of absolute numbers such migrants are more numerous in the rural areas.

The following statements show the number of persons born in other districts of the State and enumerated in West Godavari district (Immigration) and those born in West Godavari district and enumerated in other districts of the State (Emigration).

T: Total, R: Rural, U: Urban, UC: Unclassifiable

It is seen that those who have gone out from the West Godavari district are less in number than those who have moved into West Godavari district from other districts of the State. Among those who have come into West Godavari district *i. e.*, immigrants, the majority are from East Godavari, Krishna, Visakhapatnam, and Guntur districts and so is the case with the emigrants from this district to other districts of the State. Among these districts, East Godavari and Krishna districts standout prominently both in respect of immigration and emigration. Thus there seems to be considerable social and cultural affinity between West Godavari and East Godavari and Krishna districts which is only natural as they are all adjoining districts.

Religion

Hindus constitute 91.31% of the total population of the district—91.72% in the rural areas and 89.15% in the urban areas. The next numerous religious group is represented by Christians who form 6.62% of the population of the district—6.86% in the rural areas and 5.34% in the urban areas. The remaining population is almost entirely accounted by Muslims who form about 2.06% of the total population representing 1.41% in the Rural areas as against 5.46% in the urban areas of the district. Followers of other religions in the district comprise 170 Jains, 7 Buddhists and 4 Sikhs.

Scheduled Castes and Scheduled Tribes

Scheduled Castes: The total Scheduled Castes population of the district is 3.04,578 persons representing 15.40% of the total population of the district. This proportion is higher in the rural areas (16.80%) compared to only 7.95%in the urban areas of the district. Among the taluks the proportion of

Scheduled Castes varies from 8.56% in Bheemavaram taluk to 23.88% in Kovvur taluk. In the Agency taluk of Polavaram the proportion of Scheduled Castes Population is 14.68% of its total population. The Scheduled Caste 'Adi Andhra' with a population of 116,711 persons is the most numerous caste accounting for 38.32% of the total Scheduled Castes population in the district. The next numerous caste is represented by Mala which has recorded a population of 88,207 persons constituting about 28.96% of total population of Scheduled Castes in the district. The third numerous caste is Madiga with a population of 60,830 persons. Arundhatiyas account for 25,301 persons. The other castes namely Jambuvulu, Mala Dasu and Relli, account for more than 1,000 persons each while Panchamas or Pariahs number 5,460 persons. The percentage of literacy among the Scheduled Castes is 12% of their total population in the district—23.57% in the urban and 13.27% in the rural areas.

Scheduled Tribes : The Scheduled Tribes population in the district is 44,058 persons forming 2.23% of the district population. A majority of them are found mostly in the rural areas of Polavaram and Chintalapudi taluks. In Polavaram taluk 24.61% of the population is accounted by the Scheduled Tribes and 3.02% in Chintalapudi taluk. They are also found in the urban areas of Tanuku and Bheemavaram taluks forming 1.39% and 1.33% of their urban population respectively. The Koyas constitute the majority among the Scheduled tribes with a population of 24,084 persons. Apart from Koyas, there are 3,970 Konda Reddis, 2,650 Sugalis, 7,057 Yerukulas, 2,815 Yenadis and 1,309 Konda Dhoras. Only 5.49% of the Scheduled Tribes are literate—5.47% in the rural areas and 5.74% in the urban areas. As in the case of Scheduled Castes a very large proportion of workers among Scheduled Tribes is found among agricultural labourers and cultivators.

Further details about Scheduled Castes and Scheduled Tribes in the district are given in the Special Tables for Scheduled Castes and Scheduled Tribes under S. C. T. Series in Part-III Statistical Tables in this book.

Variation in Population during 1901–61

The following statement shows the absolute change and percentage variation from decade to decade in the population of each taluk in West Godavari district during 1901–61.

	1911	133,898	+ 17,622	+ 15.16	64,918	68,980
	1921	144,640	+ 10,742	+ 8·02	70,710	73,930
	1931	174,083	+ 29,443	+ 20.36	85,104	88,979
	1941	202,363	+ 28,280	+ 16·25	102,209	100,154
	1951	236,092	+ 33,729	+ 16.67	118,462	117,630
	1961	276,221	+ 40,129	+ 17.00	138,749	137,472

It is seen that only three, taluks in the district *viz.*, Eluru, Chintalapudi and Bheemavaram taluks besides the plains of Polavaram have recorded population growth higher than the district average of 16.52% or the State average of 15.65% during the decade 1951-61; the highest growth rate of 41.55% in the district is observed in the plains portion of Polavaram taluk, which is nearly thrice the increase of 14.38% recorded during 1941-51. While there has been a fall in population of 0.36% in the Agency areas of the same taluk. The development of tobacco cultivation and grading factories *etc.*, in the plains area appears to have led to the migration of population from the Agency villages to the Plains. Chintalapudi taluk comes next in order with a growth rate of 21.60% of during 1951-61. Industrial development in Eluru town seems to have been responsible for the fairly high growth rate of 19.97% in Eluru taluk. The delta taluks which are densely populated show a relatively low growth rate except Bheemavaram which recorded a population growth of 17.00% during 1951-61. The very high growth rate of 41.69% recorded by Bheemavaram town, the taluk headquarters which is an important commercial centre, is mainly responsible for the relatively high growth rate in Bheemavaram taluk. In other delta taluks *viz*, Narsapur taluk and Tadepalligudem as also Kovvur taluk which are predominantly agricultural and with the present pressure on land, no significant increase in population can be foreseen. In the last three decades, the decennial growth rate of population has varied but little in all these taluks.

Housing

During the 1961 Census an attempt was made for the first time in the history of Indian Census to collect Housing statistics, the lack of which has been keenly felt, on a uniform basis throughout the country. Not only residential houses but also houses used for non-residential purposes such as workshops, schools, hospitals, restaurants were covered under the scheme thus providing a complete inventory of all types of houses. Data on the different uses to which occupied houses were put to, tenure status, wall and roof material, number of rooms and average daily employment along with the particulars of products made or serviced in the case of workshops and factories were collected. These data are analysed and discussed in detail in Part IV-A Report on Housing and Establishments of the State. Some of the important features are briefly discussed here.

There are 457,470 Census houses in West Godavari district of which more than 85% are in the rural areas. Not all these houses are occupied; 14,718 houses in the district were reported as vacant at the time of Houselisting. Thus about 96.8% of the houses were occupied. The proportion of vacant houses is higher than the district average of 3.2% in Eluru and Chintalapudi taluks which recorded a proportion of 5.7% and 3.4% respectively.

Dwellings: Houses used wholly or partly for dwelling purposes constitute 84.8% of the total number of houses in the district. The houses used

purely for dwelling purposes account for 84.1% of the total number of houses while shop-*cum*-dwellings and workshop-*cum*-dwellings form less than one percent of the total houses. Shop-*cum*-dwellings and workshop-*cum*-dwellings are naturally more common in the rural areas, because petty traders and artisans and craftsmen engaged in traditional household industries like weaving, carpentry, pottery goldsmithy, and cobbling cannot afford to maintain separate and distinct establishments for trade or industry, away from the dwelling houses, nor do the scale and size of the trade or industry warrant such maintenance. The proportion of shop-*cum*-dwellings varies from 0.2% in Narsapur taluk to 0.5% in Kovvur and Tadepalligudem taluks, the variation between taluks being insignificant. However, in the case of workshop-*cum*-dwellings the variation between taluks is more pronounced; the proportion of workshop-*cum*-dwellings range from 0.1% in Chintalapudi, Polavaram, Kovvur and Bheemavaram taluks to 0.7% in Eluru taluk. Only Eluru city has recorded a high proportion of about 2% of the houses under workshop-*cum*-dwellings.

Hotels, Sarais, Dharmashalas, Tourist Homes and Inspection Houses: Houses belonging to this category are very few in number in the district as a whole forming only 0.1% of the total number of houses. The proportion is naturally higher in the urban areas of the district and Eluru city contains 0.2% of the houses used as such. Only in Tanuku taluk the proportion of houses under this category is more than the district average of 0.1%.

Shops excluding Eating Houses: Shops constitute only 1.6% of the total number of houses in the district. However, with the exception of Chintalapudi and Polavaram taluks all the taluks have recorded more than one percent under this category. In Narsapur taluk the proportion of houses under this category is higher than the district average perhaps indicating that this taluk is commercially important.

Business Houses and Offices: The proportion of houses under this category is quite low in all the taluks. Only 0.3% of the houses in the district are being used for business houses and offices. Eluru taluk recorded the highest proportion of 0.4% of this type of houses. However, 0.8% of the houses in Eluru city belong to this category because it is the district headquarters and has naturally a higher number of Government offices and other business houses than elsewhere.

Factories, Workshops and Worksheds: Houses used as factories, workshops and worksheds in this district form 0.8% of the total number of houses. Only in Eluru taluk the proportion of such houses is 1.2% exceeding the district average and in Eluru city the highest proportion of 2.7% is recorded.

Schools and other Educational Institutions: Taking the entire district houses under this category constitute 0.5% of the total number of houses and their proportion at the taluk level is also uniformly 0.5% in all the taluks with the exception of Polavaram, Tanuku and Kovvur taluks. In the Agency taluk of Polavaram the proportion of houses belonging to this category is 0.7%, *i.e.*, higher than the district average of 0.5%, probably due to a number of Primary Schools being opened under the tribal welfare schemes. Tanuku and Kovvur each recorded a proportion of 0.4% of such houses.

Restaurants, Sweetmeat Shops and Eating Places: Houses under this category are naturally more numerous in the urban areas than in the rural areas. In the district as a whole the proportion of such houses is only 0.2% and the same proportion is also maintained in all the taluks excepting Narsapur and Eluru taluks. In Eluru city houses under this category constitute 0.7% of the total number of houses.

Places of Entertainment and Community gatherings (Panchayat Ghar) etc.: Houses belonging to this category constitute more than one percent of the total number of houses in the disrict and all the taluks excepting Tanuku have uniformly more than one percent of such houses. Narsapur taluk and Eluru city have each a comparatively lower proportion of 0.9% of houses in this category.

Public Health and Medical Iustitutions etc.: The proportion of houses under this category is almost insignificant being only 0.1% in all the taluks. Considering the fact that about 6,500 persons in the rural areas and about 1,300 persons in the urban areas have to be served, by each medical or health institution in the district, it is obvious that the extent of medical aid in the district is not adequate.

Others: The proportion of houses under this category which includes cattle sheds, garages, engine rooms *etc.*, is 7.3% of the total number of houses in the district. This proportion is naturally higher in the rural areas in view of the large number of cattle sheds that are common. Houses under this category form more than 20% of the total number of houses in Chintalapudi taluk.

Proportion of owned and rented houses

Generally most of the dwellings and other types of houses in the rural areas are owned.

STATEMENT III-16
PROPORTION OF OWNED AND RENTED HOUSES

	Proportion of owned Houses (1)	Proportion of rented Houses (2)
Total .	**88.86**	**11·14**
Rural .	93.08	6·92
Urban .	63 72	36·28

Wall and Roof Material of Houses :

Wall material : The distribution of 1,000 households living in Census houses used wholly or partly for dwelling purposes according to predominant wall material in the rural and urban areas of the district is given below :

STATEMENT III-17

	No. of Houses using wall material					
	All materials	Mud	Stone	Grass, leaves, bamboos etc.	Bricks	Others
	(1)	(2)	(3)	(4)	(5)	(6)
Rural .	1,000	557	15	146	278	4
Urban .	1,000	357	11	141	485	6

Mud is the most common wall material in the rural areas of all taluks and the proportion of houses with mud walls ranges from 40.6% in Tanuku to 78.7% in Eluru taluk. Grass, leaves, reeds or bamboo are used to a considerable extent in all the taluks and the highest proportion of 27% of houses with such walls is recorded in the Agency taluk of Polavaram. Brick is a very important wall material in all the urban areas of the district and the proportion of houses with brick walls ranges from 38.4% in the urban areas of Bheemavaram to 65.6% in the urban areas of Kovvur. Stone is used as wall material to a significant extent in the rural areas of Kovvur taluk which has about 7% of such houses. The rural and urban areas of Eluru taluk and the rural areas of Polavaram and Chintalapudi taluks have 2% of the houses with stone walls. In all the taluks the proportion of houses with mud walls is higher in the rural areas than in the urban areas.

Roof material : The distribution of 1,000 households living in Census houses used wholly or partly as dwellings according to the predominant roof material in the rural and urban areas of district is given below:

STATEMENT III-18

	Number of houses using roof material						
	All materials	Grass, leaves, thatch, etc.	Tiles etc.	Brick and lime	Concrete and stone slabs	C·I Zinc or other metal sheets	Other materials
	(1)	(2)	(3)	(4)	(5)	(6)	(7)
Rural . .	1,000	788	198	11	1	1	1
Urban . .	1,000	538	370	78	5	7	2

The predominant roof material is generally the paddy hay, both in the rural and urban areas, which is available in plenty in this delta district. The paddy hay is neatly arranged to form the roof and is secured well by running across ropes which are also made by turning paddy straw. Houses with this type of roofs are predominant and their proportion ranges from 69.1% in the rural areas of Tanuku to 92% in the rural areas of Chintalapudi closely followed by Polavaram with 90%. Again in the urban areas their proportion varies from 43.3% in Narsapur taluk to 66.6% in the Bheemavaram taluk. The next important roof material is tiles which are common both in the Rural and Urban areas of the district which have 19.8% and 37.0% tiled houses respectively. In the urban areas of Eluru and Narsapur tiled houses are quite common and the proportion of such houses being 42.2% and 48.4% respectively. Barring the completely rural taluks of Chintalapudi and Polavaram which have a relatively low proportion of 7% and 9% respectively of houses with tiled roofs, the proportion of this type of houses ranges from 10.3% in the rural areas of Eluru taluk to 28.9% in the rural areas of Tanuku taluk. Houses with roofs made of brick and lime form only one percent of the houses in the rural areas of the district as against 7.8% in the urban areas. The highest proportion of such houses (10%) is found in the urban areas of Kovvur taluk. Besides the types of houses described above, the so called modern type of house with pucca roof of R. C. C. is also found in some of the urban areas, though the proportion of such houses is not significant.

Distribution of Households according to the number of rooms occupied

The following statement shows the distribution of 1,000 households according to the number of rooms occupied in each taluk of West Godavari district :

STATEMENT III-19

District/Taluk	No. of Households occupying				
	One Room	Two Rooms	Three Rooms	Four Rooms	Five Rooms and more
(1)	(2)	(3)	(4)	(5)	(6)
WEST GODAVARI DISTRICT	**518**	**301**	**86**	**50**	**45**
Eluru Taluk	580	256	90	39	35
Chintalapudi Taluk	725	180	48	27	20
Polavaram Taluk	698	193	46	29	34
Kovvur Taluk	522	292	79	58	49
Tadepalligudem Taluk	470	333	99	50	48
Tanuku Taluk	453	349	94	57	47
Narsapur Taluk	464	345	86	56	49
Bheemavaram Taluk	467	315	97	63	58

About 52% of the households in the district occupy only one room. This proportion varies from 45% in Tanuku taluk to 73% in Chintalapudi taluk. Households occupying two rooms constitute 30% of the total number of households in the district and their proportion varies from 18.0% in Chintalapudi taluk to 35% in Tanuku and Narsapur taluks. The proportion of households occupying three rooms is 9% for the district as a whole and it is nearly 10% in Tadepalligudem and Bheemavaram taluks, while in all other taluks the proportion of such houses varies from 5% in Chintalapudi and Polavaram taluks to 9% in Eluru, Tanuku and Narsapur taluks. The proportion of households with 4 rooms or more is 9.5% for the district. Chintalapudi and Polavaram taluks which are relatively backward recorded very low proportion of households under this category.

The number of persons per room in households occupying 1 room, 2 rooms, 3 rooms, 4 rooms and 5 rooms or more, respectively in total, rural and urban areas of West Godavari district is given in the following statement :

STATEMENT III-20

District		All Households	Households occupying				
			One Room	Two Rooms	Three Rooms	Four Rooms	Five Rooms and more
		No. of Persons	No. of Persons	No. of Persons	No. of Persons	No. of Persons	No. of Persons
(1)		(2)	(3)	(4)	(5)	(6)	(7)
West Godavari	T	2·52	3·99	2.44	1·91	1·65	1·21
	R	2·59	4·01	2.44	1.93	1·65	1.23
	U	2.19	3.81	2·40	1·84	1.65	1·18

Considering more than two persons per room as representing over-crowding, it will be observed that in households occupying 4 rooms or more both in the rural and urban areas of the district, the housing conditions seems to be satisfactory, while there is over-crowding in other categories of households both in the rural and urban areas and particularly in the case of households occupying two rooms or less.

CHAPTER IV

AGRICULTURE

Rainfall

The annual rainfall of the district amounts on the average to about 44.58 inches and is received mostly during June to September. The figures of annual average rainfall for each of the years during 1951–52 to 1960–61 are given below :

STATEMENT IV-1

ANNUAL RAINFALL

(in inches)

Year	Total Rainfall	South-West monsoon period (June-September)	North-East monsoon period (October-December)	Winter period (January-February)	Hot Weather period (March-May)
(1)	(2)	(3)	(4)	(5)	(6)
1951—52	41·50	33.8	4·8	0·6	2·3
1952—53	28.60	18.1	8.9	0·3	1·3
1953—54	41·20	29·6	10·2	Nil	1·4
1954—55	53·60	40·2	9 5	Nil	3.9
1955—56	46·50	27·2	14. 1	0·1	5.1
1956—57	47.80	31.1	15·2	Nil	1.5
1957—58	35.40	29.3	1.7	0.2	4.2
1958—59	52.10	30·3	17·2	1.2	3.4
1959—60	52·20	41.3	9·2	Nil	1.7
1960—61	44·70	34·7	6·4	2·8	0.8

The South-West monsoon generally sets in by the second week of June contributing a fair amount of rainfall during the month. The period from July to October is the heaviest monsoon season. November is a partly wet month and December is a comparatively dry month. The figures of average monthly rainfall during each of the years during the period 1951-60 are as follows :

STATEMENT IV-2

MONTHLY RAINFALL FROM 1951–60

(in Inches)

Year	Total annual rainfall	Monthly Rainfall											
		January	Feb-ruary	March	April	May	June	July	August	Septem-ber	Octo-ber	Novem-ber	Decem-ber

1959	52.2	Nil	Nil	1·1	Nil	0·6	6·0	15·4	12·8	7·1	9.0	0·1	0.1
1960	44.7	0.1	2·7	Nil	Nil	0·8	7.2	12.5	3·2	11.8	5·0	0·6	0.8

Agricultural practices

The ryots in this district are generally taking up improved methods of cultivation. Cultivation is being done by iron ploughs and tractors by big ryots of upland areas and the wooden ploughs are being used in deltaic tracts. There has been a considerable increase in the demand for improved seeds and chemical fertilisers in this district. The use of chemical manures like nitrogenous fertilizers, phosphatic fertilizers, is being popularised by the staff of the Department of Agriculture. Pillipesara, and sunnhemp and daincha are being raised for manurial as well as fodder purposes. The local manure consists of cattle dung, house sweeping, compost and tank silt, cattle and sheep pasturing. Improved methods of preserving cattle manure and urine by dry earth and pit systems are being followed to a large extent.

Soils

There are three main classes of soil in this district, namely (i) alluvial; (ii) black regar and (iii) red ferruginous. There is also a small belt of arenaceous soil fringing the coast but it occupies only a very small percentage of the total land area. The lanka and the padugai lands lying in Narsapur, Tanuku and Kovvur lands which are included under the category of alluvial, are the richest of all the lands in the district. Alluvial soil forms 54.90%, 42.49%, 30.97%, 26.13% and 7.50% respectively of the total area of Narsapur, Bheemavaram, Tadepalligudem, Kovvur and Eluru taluks. Almost the entire land in Tanuku taluk is of alluvial soil. Black regar soil is the next largest in extent and occurs in all the taluks except Tanuku. It is most predominant in Eluru (68.56%); Bheemavaram (57.04%), Narsapur (24.09%) Kovvur (23.83%), Tadepalligudem (20.42%), Chintalapudi (7.96%) and Polavaram (0.2%) come next in order. The red ferruginous soil is found in the uplands only, *i.e.*, in Eluru, Tadepalligudem, Kovvur, Chintalapudi and Polavaram taluks. The arenaceous or sandy soil borders on the sea and is found in Narsapur and Bheemavaram taluks. Paddy is extensively grown in alluvial and black regar soils while tobacco, gingelly, groundnut and chillies are the important crops grown in ferruginous soils. In the arenaceous soils fringing the coast, casuarina plantations are usually raised. Mango and cashewnut gardens occur extensively in the northern portions of Chintalapudi, Kovvur and Tadepalligudem taluks which contain red and sandy soils.

Land utilisation

The land utilisation particulars for the year 1960-61 are given below:

STATEMENT IV-3
LAND UTILISATION

Category (1)	Acreage (2)	Percentage to total area (3)
	Acs.	
Forests	1,97,215	10.2%
Barren and cultivable land	1,63,561	8.5%
Land put to non-agricultural uses	1,85,283	9.6%
Cultivable waste	1,43,079	7.4%
Permanent pastures	70,844	3.7%
Miscellaneous tree crops and groves not included in net area sown	16,155	0.8%
Current fallows	1,19,585	6.2%
Fallow land other than current fallows	56,309	2.9%
Net area sown	9,79,799	50.7%
Geographical area (by village papers)	19,31,830	...
Area sown more than once	2,50,246	13.0%
Total cropped area	12,30,045	63.7%

The net area sown with crops was 50.7% of the total area during 1960-61, the important crops being rice, sugarcane, tobacco and seasamum. The aggregate area irrigated including area irrigated more than once under different crops was 9,51,802 acres or 77.4% of the total cropped area (including area sown more than once). The main irrigation sources in the district are the Government canals and tanks. The figures of net area irrigated by different sources are given below for the year 1960-61:

STATEMENT IV-4
IRRIGATION SOURCES

Irrigation sources (1)	Area irrigated (in acres) (2)
Government canals	5,26,656
Private canals	...
Tanks	1,66,778
Tube wells	96
Other wells	14,747
Other sources	18,500
Total	**7,26,777**
Area irrigated more than once	2,25,025
Gross area irrigated	9,51,802

The area under food crops in relation to the gross cropped area during the year 1960-61 was 89.6%, being the second highest proportion in Andhra Pradesh.

The extent under fruits and vegetables is the largest in Tanuku taluk, followed by Kovvur taluk. Tanuku taluk is noted for its plantain gardens while Kovvur taluk has considerable area under mangoes. Plantains, batavias, oranges and limes are grown in Narsapur taluk. Condiments and spices are grown to a considerable extent in Kovvur and Tanuku taluks. Tanuku taluk has the largest area under turmeric. Casuarina gardens are grown extensively in the coastal villages of Narsapur and in the villages bordering Upputeru in Bheemavaram taluk. The figures of area under different food and non-food crops during the years 1950-51 to 1960-61 are given below :

STATEMENT IV-5

AREA UNDER FOOD AND NON-FOOD CROPS

Crops	Acreage during										
	1950-51	1951-52	1952-53	1953-54	1954-55	1955-56	1956-57	1957-58	1958-59	1959-60	1960-61

Tobacco (Virginia)	27,795	23,013	23,657	20,226	18,259	23,265	18,645	13,962	18,861	13,333	33,989
Tobacco (all other varieties	13,540	10,891	11,826	13,386	12,190	15,928	19,432	17,094	14,512	19,105	...

The area under paddy was 8,87,088 acres in 1960-61 as against 7,61,393 acres in 1950-51 showing an increase of 1,25,695 acres or nearly 17% over 1950-51. The area under paddy in district was about 72% of the gross area sown during 1960-61. The area under jowar was 38,725 or 3.1% of the total area sown. Tobacco, gingelly and sugarcane are important among the other crops, each crop being sown to an extent of more than 30,000 acres. It is seen that the area under groundnut and sesamum and castor has been decreasing from year to year while in the case of tobacco and sugarcane crops there has been an increase generally. West Godavari district stands second in respect of the area under irrigated paddy and sugarcane in Andhra Pradesh and consequently stands second in the area under irrigated foodgrains. This district stands first in the area under irrigated tobacco. It has the largest area under paddy in Andhra Pradesh and stands second and third in the area under tobacco and sugarcane respectively in Andhra Pradesh. The talukwise distribution of area under important crops for the year 1959-60 is given below :

STATEMENT IV-6

TALUKWISE DISTRIBUTION OF IMPORTANT CROPS

District/Taluk	Area under crops in acres				
	Rice	Jowar	Tobacco	Sugarcane	Chillies
(1)	(2)	(3)	(4)	(5)	(6)
WEST GODAVARI DISTRICT	**8,75,152**	**42,130**	**32,438**	**28,130**	**9,506**
Eluru Taluk	1,40,175	1,760	2,350	3,419	210
Chintalapudi Taluk	43,739	9,426	4,114	5	1,142
Polavaram Taluk	33,022	13,013	5,447	8	1,608
Kovvur Taluk	53,435	10,964	16,409	4,022	5,896
Tadepalligudem Taluk	1,36,730	4,719	2,001	866	98
Tanuku Taluk	1,14,478	1,366	1,456	14,675	368
Narsapur Taluk	1,53,439	875	661	3,551	175
Bheemavaram Taluk	2,00,134	7	...	1,584	9

Bheemavaram, Narsapur, Eluru, Tadepalligudem and Tanuku taluks have an area of more than one lakh acres each under paddy, Bheemavaram taluk claiming the pride of place with more than 2 lakhs acres under the crop. Jowar is grown only in Polavaram and Kovvur taluks to the extent of more than 10,000 acres in each under tobacco, Kovvur taluk has the largest area of 16,409 acres or 50% of the total area under tobacco in the district. Regarding sugarcane, Tanuku taluk has the maximum area of 14,675 acres or more than 50% of the total area under sugarcane in the district. Chillies are grown in Kovvur taluk to the extent of 5,896 acres or about 62% of the total area under chillies in the district.

The yield per acre of important crops are given below for each of the years 1950-51 to 1960-61 :

STATEMENT IV-7

YIELD RATES OF IMPORTANT CROPS PER ACRE

(in Lbs.)

Year	Paddy	Jowar	Bajra	Ragi	Redgram	Horsegram
(1)	(2)	(3)	(4)	(5)	(6)	(7)
1950-51	1,554	560	568	767	380	160
1951-52	1,647	562	536	724	368	170
1952-53	1,720	548	442	724	340	160
1953-54	1,931	702	568	809	400	170
1954-55	1,811	702	599	792	400	200
1955-56	1,805	388	485	731	500	162
1956-57	1,665	615	558	971	380	160
1957-58	1,932	448	489	663	328	160
1958-59	1,853	767	572	780	344	170
1959-60	1,631	510	497	1,006	320	180
1960-61	1,769	588	486	778	365	180

STATEMENT IV-7—*Concld.*

YIELD RATES OF IMPORTANT CROPS—*Concld.*

Year	Sugarcane (gur in lbs.)	Groundnut	Gingelly	Castor	Tobacco (Virginia)	Tobacco (other varieties)
(1)	(8)	(9)	(10)	(11)	(12)	(13)
1950-51	8,534	1,064	269	213	638	900
1951-52	8,534	1,008	269	225	675	900
1952-53	8,534	840	269	188	563	850
1953-54	8,534	952	319	213	713	1,000
1954-55	6,896	1,008	336	225	713	900
1955-56	8,384	1,008	319	238	675	950
1956-57	7,862	907	269	225	698	930

1959-60	6,608	952	302	238	675	7,600
1960-61	8,010	951	303	240	743	800

Agricultural implements

The following statement gives the number of Agricultural implements in West Godavari district as per the quinquennial Livestock Census held in 1956 and 1961 :

STATEMENT IV-8

AGRICULTURAL IMPLEMENTS

Name of Agricultural implement	Year 1956	1961
(1)	(2)	(3)
Ploughs :		
Wooden	1,45,125	1,52,155
Iron	1,167	1,599
Total ploughs	1,46,292	1,53,754
Carts used for Agricultural purposes	50,693	51,707
Sugarcane crushers	862	577
Water Pumps with Oil Engines	1,079	2,781
Water Pumps with Electric Motors	216	942
Tractors	104	319
Oil Engines	671	626

Rapid strides have been made in the use of improved agricultural implements during the period 1956-1961 rural electrification has contributed to the substantial increase in the area under paddy and also the total cropped area. The number of agricultural pump sets for which electricity has been supplied increased from 356 during 1956-57 to 1,116 by 1960-61. Rural electrification has brought prosperity to the upland taluks particularly to the belt comprising the northern portion of Eluru taluk and the southern portion of Chintalapudi taluk. The northern portion of Eluru and Tadepalligudem taluks and part of the upland areas in Kovvur taluk are also greatly benefited by the supply of electricity for lifting water from irrigation wells. With the aid of electric motors fitted to tube wells and irrigation wells, two crops *viz.*, first crop paddy, second crop groundnut are being raised in the sub-artisan belt to the north of Eluru canal in Kovvur, Tadepalligudem and Eluru taluks.

The time table of agricultural operations in a normal year in the district is given below :

STATEMENT IV-9

TIME TABLE OF AGRICULTURAL OPERATIONS

Name of the crops	Months: January	February	March	April	May	June	July	August	September	October	November	December
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)	(12)	(13)

The effects of unseasonal or abnormal weather conditions on the various crops during each month are described below :

STATEMENT IV-10

Month	Normal weather	Effects of unseasonal or abnormal weather on the various crops
(1)	(2)	(3)
January	Dry month; warm days and cold nights; dewy season	There will be no rain in this month. Dry weather facilitates to harvest wet paddy, jowar *etc.* Heavy showers affect standing crops and retard the harvesting of paddy *etc.* Moderate rainfall helps garden crops and transplantation of second crop paddy
February	Days grow hot but nights continue to be cool	There will be no rain in this month also. Dry weather facilitates the harvest of dry crops. Transplantation of second crop paddy will be carried on Heavy rain affects the harvesting and threshing of paddy and tobacco and chillies will be seriously damaged Moderate rains delay the harvest of crops like jonna and beneficial to second crop paddy and tobacco Absence of rainfall is favourable to the harvest of paddy, tobacco and chillies; cloudy weather brings disease to mango crop
March	Hot weather commences; Hot days and moderate nights; dew decreases	There will be no rain. Dry weather facilitates the harvest of tobacco Rains damage the tobacco crops and helps second crop paddy and planting of sugarcane Absence of rainfall favours tobacco harvesting
April	Very hot days and nights with occasional showers	Continuous or excessive rains damage the second crop paddy, gingelly (second crop) and onions Moderate rains help the second crop paddy and sugarcane Absence of rain facilitates the harvest of gingelly and dry crops
May	Hottest month of the year; rainfall commences; days and nights are hot	Excessive rainfall changes the second crop paddy and gingelly Moderate rainfall also damages the second crop paddy and gingelly and facilitates raising of dry crops Absence of rainfall post pones ploughing of dry lands and sowings of bajra and gingelly
June	Hot weather continues; high winds; light showers; South-West monsoon sets in by the second week	Transplantation of wet paddy commences Excessive rainfall is injurious to first crop paddy seed beds and interferes with the sowing of gingelly, bajra, ragi *etc.*, facilitates all agricultural operations and also help sugarcane
July	South-West monsoon in progress	There will be heavy rains in this month and result in the submersion of low lying lands. Excessive rainfall is prejudicial to both wet and dry crops sown in this month and beneficial to upland tracts. Moderate rainfall is beneficial to the tender standing crops and transplantation of paddy Absence of rainfall postpones transplantation of wet paddy in the delta and dry crops
August	South-West monsoon in progress; Hot and cold weather with heavy rains	Heavy or continuous rainfall is prejudicial to the crops sown in the previous months Heavy rains beneficial to uplands as they provide full supply to minor irrigation tanks

STATEMENT IV-10—*Contd.*

Month	Normal weather	Effects of unseasonal or abnormal weather pn the various crops
(1)	(2)	(3)
April—*Concld.*		Moderate rains help the second crop paddy and sugarcane Absence of rain facilitates the harvest of gingelly and dry crops
May	Hottest month of the year; rainfall commences; days and nights are hot	Excessive rainfall changes the second crop paddy and gingelly Moderate rainfall also damages the second crop paddy and gingelly and facilitates raising of dry crops Absence of rainfall post pones ploughing of dry lands and sowings of bajra and gingelly
June	Hot weather continues; high winds; light showers; South-West monsoon sets in by the second week	Transplantation of wet paddy commences Excessive rainfall is injurious to first crop paddy seed beds and interferes with the sowing of gingelly, bajra, ragi *etc.*, facilitates all agricultural operations and also help sugarcane
July	South-West monsoon in progress	There will be heavy rains in this month and result in the submersion of low lying lands. Excessive rainfall is prejudicial to both wet and dry crops sown in this month and beneficial to upland tracts. Moderate rainfall is beneficial to the tender standing crops and transplantation of paddy Absence of rainfall postpones transplantation of wet paddy in the delta and dry crops
August	South-West monsoon in progress; Hot and cold weather with heavy rains	Heavy or continuous rainfall is prejudicial to the crops sown in the previous months Heavy rains beneficial to uplands as they provide full supply to minor irrigation tanks

STATEMENT IV-10—*Concld.*

Month	Normal weather	Effects of unseasonal or abnormal weather on the various crops
(1)	(2)	(3)
August—*Concld.*		Moderate rainfall is useful for tender crops
		Absence of rainfall postpones the transplantation of wet paddy under minor irrigation tanks
September	South-West monsoon is active in this month also	Excessive rains damage the wet paddy and dry crops such as gingelly, bajra and effect the sowing of ragi, jowar *etc.* Moderate rains are useful for standing crops and retard the harvest of gingelly
		Absence of rains will be beneficial for the harvest of early dry crops
October	North-East monsoon begins in the month; days become cool	Excessive rainfall retards the sowing of late dry crops jowar and affects the wet and dry crops.
		Moderate rainfall is conducive to the standing crop and beneficial to the sowing of dry crop
		Absence of rainfall facilitates the harvest of short term wet paddy and dry crops
November	North-East monsoon active; cold weather commences	Stormy weather and rain during month; Heavy rains are prejudicial to the standing crops ready for harvest
		Moderate rainfall facilitates the transplantation of tobacco and is beneficial to standing crops
		Absence of rainfall facilitates the harvest of wet paddy and dry crops
December	North-East monsoon closes; nights are cold and dew begins to fall	There is little rainfall in this month. Excessive rainfall affects the harvest of wet paddy and dry crops
		Moderate rainfall facilitates the transplantation of tobacco and is beneficial to standing crops
		Absence of rainfall facilitates the harvest of wet paddy crop

The crops grown in this district may be classified into three groups *viz.* :

(i) Punasa or early crops like korra, sajja which are sown in June and July

(ii) Chief crops like paddy and jonna which are sown during July to September; and

(iii) Pairu or late crops like ragi, chillies, tobacco etc., which are sown in November and December.

Punasa crops are dependent on the rainfall at the beginning of the south-west monsoon. Of the chief crops jonna and cotton are raised on black cotton soils and are unirrigated. Dry paddy known as budama is raised on the dry lands and sometimes raised as a mixed crop with redgram, It is of three months duration. Wet paddy is grown in all places where irrigation facilities are available. The important varities of dry paddy are budama and jilama while those of wet paddy are basangi, akkullu, lambadi, kusuma, kichli, samba, atragada; krishna katukulu, Delhi bhogam, konamani, garigasannam and nallarlu and improved varieties like MTU Nos. 1, 2 . . . . and G. E. B. 24. Among the wet varieties basangi, rasangi, vankasannam, garikasannam and nallarlu are short term varieties and the remaining are long term varieties. Nallarlu which has the capacity to resist salinity is grown extensively in collair region as a second crop. Under the Godavari delta there are permanent second crop zone lands where paddy is grown as second crop and some lands get water by rotation, or by the special sanction of the Collector.

Activities of the Agriculture Department

Agricultural Research being the corner stone of all agricultural improvements and forming a vital element of the department, is carried on at the two Agricultural Research Stations in the district located at Mantada and Tanuku.

Plant Protections

A unique feature in the plant protection activities of the department has been the commissioning of self contained mobile plant protection vans which carry not only pesticides but also required personnel to pest affected areas. Substantial work was done in spraying the paddy fields with endrin.

Tobacco Extension Scheme

This scheme was started first in Guntur district with a view to imparting practical knowledge to

growers of virginia tobacco to increase the quality and the yields of tobacco through better methods of cultivation and the scheme was later extended to West Godavari district. Improved seeds are being distributed and plant protection measures are being carried out under the scheme. Besides these activities varietal plots, manurial plots and cultural plots are also being laid under demonstration plots. Curing and grading demonstrations are also being held to instruct the cultivators.

Sugarcane Development work :

The Sugarcane Liaison Farm at Tanuku tested the results of research achieved at the Central Sugarcane Research Station Anakapalle and also helped to solve the local problems connected with the cultivation of sugarcane. Laying of demonstration plots, manuring with optimum quantity of fertilizers and adoption of plant protection measures, plantation with selected seed material and advocation of other improvements are being undertaken by the sugarcane development staff.

Rural Compost :

With the object of increasing the rate of production and quality of rural compost, farmers are being trained and compost pits are being prepared under this scheme.

Loans :

With a view to providing necessary credit facilities to the cultivators for the various items of improvement, the department has been issuing taccavi loans for the purpose of seeds, manures and agricultural implements. Loans were granted on easy terms to the cultivators for the purchase of oil engines and electric motor pump sets. The schemes taken up under the Second Five Year Plan are described below :

Scheme for sinking of filter point tube wells : Under this scheme loans are granted upto a maximum of Rs. 2,500 for each individual to enable him to purchase the necessary pumping equipment. An amount of Rs. 3,64,000 was spent for sinking 149 filter point tube wells in this district.

Scheme for purchase and distribution of oil engines and electric motors under hire purchase system : Under this scheme oil engines and electric motor pump sets are supplied to agriculturists on hire purchase system subject to a maximum of Rs. 2,000 for erecting a motor pump set and Rs. 4,000 in respect of an oil engine pump set. An amount of Rs. 3,15,298 was spent for the distribution of 98 oil engines and electric motors.

Scheme for sinking of artisan tube wells: An amount of Rs. 1,14,000 was spent for sinking 29 artisan tube wells with the aid of hand boring sets and power drills.

Land development scheme for reclamation of land by mechanical cultivation : An amount of Rs. 1,29,863 was spent to assist the land holders in bringing under cultivation, waste and virgin lands by supplying bull-dozers and other mechanical equipment on hire on easy terms.

Scheme for the supply of improved agricultural implements under hire purchase system : An amount of Rs. 28,800 was incurred and 34 improved agricultural implements like sugarcane crushers, Archemedean screws, winnowing fans, threshing machines etc., were distributed on hire purchase system.

Scheme for the distribution of sprayers and dusters: An amount of Rs. 13,725 was spent and 77 hand operated sprayers and dusters for spraying pesticides and fungicides were supplied to the cultivators.

Scheme for subsidised distribution of rotary push-hoes : An amount of Rs. 18,282 was spent and 800 rotary push-hoes were distributed to the cultivators.

Scheme for the purchase and distribution of tractors under the hire purchase system : An amount of Rs. 6,32,328 was spent and 40 tractors were supplied on hire purchase system to the cultivators.

Scheme for multiplication and distribution of improved seeds :

(a) SEED FARMS : 18 seed farms were established for the development and distribution of improved seeds under food crops and an amount of Rs. 3,46,344 was spent.

(b) SEED STORES : An amount of Rs. 2,50,614 was spent for the establishment of 25 seed stores and for maintaining them in the subsequent years.

Fruit Development Scheme : Long term and short term loans are being granted to the cultivators desirous of raising fruit gardens or improving the

existing gardens. Short term loans are granted at the rate of Rs. 15 per acre and long term loans at the rate of Rs. 300 per acre. 136 long term and 39 short term loans were sanctioned and an amount of Rs. 11,000 was spent during the Second Plan period.

Scheme for issue of cashewnut loans: An amount of Rs. 22,300 was spent and 26 loans were granted to cultivators of cashewnut gardens for the development of their gardens.

Research Schemes

Agricultural Production : An amount of Rs. 14,899 was spent for evolving improved strains of Akkullu variety of paddy which gives a high yield and also checks premature lodging due to vegetative growth.

Coconut extension and development scheme: An amount of Rs. 69,000 was spent for pushing up the yield of coconuts by introducing improved strains suitable for the several regions.

Scheme for doubling the production of coconut seedlings: An amount of Rs. 10,993 was spent and 10,000 processed seed nuts were planted in the nursery and 7,502 selected seedlings were distributed to the ryots during the Second Plan period.

Banana Research Scheme: An amount of Rs. 76,839 was spent towards the establishment of the Banana Research Station at Tanuku in order to evolve new varieties of Bananas to suit different localities and also to study the best cultural practices and manurial dose to Banana crops and recommend the same to the ryots.

Co-ordinated scheme for the evolution of rice strains resistant to diseases and scheme for work on spring rice in the flooded areas of Kollair: An amount of Rs. 23,000 was spent towards the establishment of a research station at Pulla, Eluru Taluk for evolving paddy strains which ensure rapid growth consistent with the conditions in Kollair floods and also to evolve a special variety of second crop which ripens before April, as water will not be available in Kollair region beyond April every year.

Scheme for research on bee-keeping: An amount of Rs. 5,205 was spent towards research for improvement of honey yields by conducting experiments at Tanuku and Khandvalli centres.

Training Schemes :

Scheme for training of fieldmen and demonstration maistries : An amount of Rs. 17,837 was spent towards agricultural training of candidates recruited as fieldmen and demonstration maistries in the Agricultural Department. 99 candidates were trained during the Second Plan period.

Scheme for training in Basic Agriculture in the Gram Sevaks Training Centre, Gopannapalem : An amount of Rs. 89,776 was spent and 147 trainees underwent training in Basic Agriculture at Gram Sevaks Training Centre at Gopannapalem. This scheme was started in the year 1956-57 and continued upto 31–12–1958 when it was merged in the integrated training course which is a combination of Basic Agriculture training and also training in Extension methods.

Scheme for Extension Training in the Gram Sevaks' Training Centre, Gopannapalem : This training was started in the year 1956-57 along with the basic agricultural training and was merged with the integrated course started in the centre from 1-1-1959. An amount of Rs. 3,11,832 was spent and 179 candidates were trained.

Scheme for Integrated Training Course in the Gram Sevaks' Training Centre, Gopannapalem: This scheme was started from 1-1-1959 and the schemes of training in Basic Agriculture and Extension Training conducted in the centre were merged into this scheme. An amount of Rs. 3,39,921 was spent and 406 candidates were trained.

Staff Schemes :

Comprehensive staff scheme: One Additional District Agricultural Officer and the required component of ministerial staff were appointed for attending to the increased correspondence on account of implementation of several plan schemes in the district. An amount of Rs, 26,640 was spent.

Sugarcane Development Scheme: An amount of Rs. 80,316 was spent towards the improvement in the yields of cane and quality of juice.

Scheme for intensive manuring of sugarcane : An amount of Rs. 9,148 was spent and an extent of 5555 acres was manured with Nitrogen at the rate of 150 lbs. acre for the development of the yield of sugarcane and improvement of the quality of juice.

Scheme for protection of sugarcane crop against pests and diseases: An amount of Rs. 3,127 was spent and an extent of acres 2,016 was sprayed with insecticides and an extent of 2597 acres was rescued from smut. Endrine or D.D.T. was distributed at 50% cost to cultivators of sugarcane.

Scheme for distribution of manure free of cost for sugarcane development: An amount of Rs. 75 was spent towards the distribution of manure free of cost to the cultivators of sugarcane crop.

Tobacco Extension Scheme : An amount of Rs. 1,20,000 was spent towards the improvement of quality and yield of tobacco crop by educating the ryots in the scientific methods of cultivating the crop by regular demonstrations.

Scheme for the development of local manurial resources: An amount of Rs. 46,325 was spent to educate the ryots in the proper preparation of organic manure like compost, utilising the sweepings of cattle yards, cowdung etc., available in the villages and increase the present production of manure to 2 tons per adult cattle and its nitrogen content from 0.5% to 1%.

Statewide Schemes :

Rabi Campaign : This scheme was implemented in the years 1958-59 and 1959-60 and an amount of Rs. 9,720 was spent.

Kharif Campaign : This scheme was implemented in the year 1959-60 and an amount of Rs. 8,073 was spent.

Scheme for the control of pests and diseases of Crops: An amount of Rs. 3,04,650 was spent towards the control of pests and diseases of crops by spraying and dusting of fungicides and pesticides and by treating the seeds with chemicals like Agroson before sowing.

Scheme for evolution of cotton variety suitable for rice fallows : An amount of Rs. 5,000 was spent towards research work for evolving a suitable strain of cotton, which can be grown on lands where paddy was grown in the field crop season.

Intensive Agricultural District Programme :

In January 1959, an Agricultural Production Team, sponsored by the Ford Foundation, was invited to study the country's food production problems and to make recommendations for a co-ordinated effort to increase production on an emergency basis. The team submitted its report entitled "India's Food Crisis and steps to meet it," in April 1959. The team recommended that instead of spreading the developmental efforts more or less on a uniform basis throughout the country without getting any striking results intensive efforts for production should be undertaken with a combination of all the technological improvements and concentration of manpower and resources in selected areas which had optimum conditions for stepping up production without at the same time affecting the normal efforts in other areas. To give a precise shape to the recommendation, a second team of Agricultural Experts sponsored by the Ford Foundation, visited this country in October, 1959. This team made a rapid survey of a few selected areas in various States and developed a programme for an intensive and co-ordinated approach to agricultural production. This programme had the four-fold purpose of :—

(a) determining how rapid increases in food production could be achieved so as to provide experience for adoption in other areas;

(b) increasing the income of the cultivator and his family;

(c) helping to improve the economic resources of the village and

(d) providing an adequate agricultural base for more rapid economic development and social betterment.

The Intensive Agricultural District Programme popularly known as "Package Programme" has been developed and it seeks to achieve rapid increase in the level of agricultural production through a concentration of financial, technical, extension and administrative resources. In the districts selected for implementation of the Intensive Agricultural Demonstration Programme all the elements required for increasing production are to be simultaneously provided.

These include :

(a) Adequate and timely supply of credit based on the production plans and made available through strengthened co-operative societies;

(b) Adequate and timely supply of production requisites, such as fertilizers, pesticides,

implements etc., to be channelled mainly through co-operatives;

(c) Arrangements for marketing and other services through co-operatives so as to enable the cultivators to obtain full market price for their marketable surplus ;

(d) Adequate storage facilities for supplies, such as seeds, fertilizers, implements and pesticides and for the farm produce, so that the cultivators do not have to travel long distances to procure supplies and market their produce;

(e) Intensive educational efforts, particularly through scientific demonstrations, for dissemination of improved agricultural practices, through existing and additional trained staff who will also be concerned with the operation and follow-up of production plans;

(f) Strengthening of transport arrangements to ensure mobility of supplies and staff;

(g) Village planning for increased production, including livestock improvement programmes and strengthening of village organisations like co-operatives and panchayats, the primary emphasis being on the production of rice and other major foods crops ;

(h) Analysis and evaluation of the programme from its initiation to its completion ;

(i) Establishment of workshops for agricultural implements, seed and soil-testing laboratories and implementation of local works programmes having a direct bearing on production increase;

The programme is to be carried out for a period of about five years subject to the following conditions :

(a) The selected district should, as far as possible have assured water supply ;

(b) It should have a minimum of natural hazards, *i.e.*, there should not be problems requiring long term attention, such as susceptibility to floods, drainage problems, acute soil conservation problems etc;

(c) It should, as far as possible, have well developed village institutions like co-operatives and panchayats ; and

(d) It should have maximum potentialities for increasing agricultural production within a comparatively short time.

The Andhra Pradesh State Government selected the predominantly rice growing district of West Godavari for the implementation of the programme. West Godavari may be considered to be fairly advanced in respect of both agricultural production and co-operative development. This has the advantage of a high proportion of 75% of the area being under assured irrigation. The cultivators in this district are, by and large fertilizer minded ; and a fair level of fertilizer consumption had been reached before the introduction of the programme. The district produces sizeable marketable surplus every year and the farmers have long experience in marketing of crops. The work under this programme was started during October 1960 (Rabi 60-61) in this district.

The responsibility for the implementation of the programme rests with the State Government and the Department of Agriculture has been placed incharge of the programme. At the district level, the overall responsibility rests with the Collector, assisted by the Project Officer. Further the staff consists of 3 to 4 subject matter specialists in fields like Agronomy, Farm Management, Plant Protection and Soil Conservation. The Deputy Registrar of Co-operative Societies is responsible for credit, supply and marketing arrangements under the programme. For the purpose of proper co-ordination of efforts between the various departments and agencies connected with the programme such as Agriculture, Co-operation, Panchayats, Irrigation, Revenue, and Panchayati Raj Institutions the State Government set up co-ordinative committees at State and District levels under the chairmanship of the Member, Board of Revenue (Incharge of Irrigation) and the District Collector respectively.

Initially 170 villages spreaded over 20 Blocks were taken up during the second crop season of 1960-61 and the programme was extended to 675 villages by Rabi 1962-63.

Farm planning forms the core of the Intensive Agricultural Demonstration Programme. The important factors are :

(1) The farm plan must emphasize the added costs and added returns for each crop due to improved practices. The cash costs and cash income need to be stressed at this stage.

(2) Production factors, such as improved seeds, chimical fertilizers, plant protection materials and others will be made available on the basis of the estimates worked out in the farm plan.

(3) The co-operative societies are expected to provide the needed short term production credit based on the production plan.

With a view to strengthening the seed programme in the package districts to enable it to make the necessary impact on stepping up production, a scheme for seed multiplication and distribution was circulated to the State Governments. It included selection of a few superior varieties of major crops by a small representatives committee; production of breeders, foundation and certified seeds under proper supervision with certain minimum specifications and distribution of certified seeds through co-operatives and panchayats. Each package district was supplied with 3 to 4 sets of seed processing and cleaning equipments. The additional staff provided are one Seed Development Officer and 3 to 5 Seed Development Inspectors.

Fertilizers and Manures :

The measures taken in this direction consist of organisation of field demonstrations on a larger scale than hitherto, mounting of an intensive educational drive, creation of adequate storage facilities through construction of rural godowns, building up a large number of distribution points in the interior within easy reach of cultivators and stocking of various types of fertilizers well in advance to meet the requirements of the district in full.

Plant Protection Measures :

The cultivators in this district are being educated in planning for preventing pests and disease attacks both by cultural and chemical methods. The use of disease-free seeds, systematic roguing to enable the selection of the best seed material, observance of cultural and agronomic practices for minimising or prevention of incidence of diseases and pests, crop rotation, and cleaning and treating of godowns for grain storage are being advocated. Generally, the following steps have been taken in the district.

(i) Plant protection equipment and materials have been stocked in adequate quantities in the various depots for timely use.

(ii) Efforts are being made for prophylactic treatment of seeds and crops on an areawise basis to ward off attacks of insects and diseases.

Improved Agricultural Implements :

The object of this programme is to assist the farmer to adopt and use the kind of implements or equipment and power that will enable him to increase his production and his economy. Workshops for implements are being established to give a push to the fabrication, popularisation and demonstration of improved implements. Implements to be developed will be designed to meet the immediate requirements of the cultivators for better and timely preparation of seed beds, land shaping and levelling devices for better distribution of irrigation water, proper placement of seed and fertilizers, uniform placement of insecticides and pesticides, besides the need for increased power and more efficient equipment for harvesting and threshing.

Soil Testing :

The Intensive Agricultural Demonstration Programme provides for the establishment of a soil testing laboratory to provide information on soil analysis and information on irrigation-water analysis.

Agricultural Credit, Marketing and Storage :

One of the basic requirements of the package programme is the provision of adequate and timely credit to the farmers, based on the production plans. Credit under this programme is production-based and production-oriented. It is insisted that loans can be sanctioned only against production plans to the participating members. The factors are land and crop under cultivation, cost of implementing package of practices recommended, resources (in value) already available, value of crops to be raised and requirements in cash and kind (fertilizers, seeds, pesticides etc).

Marketing :

It was envisaged that efforts should be made to develop on a systematic basis co-operative marketing of produce in the district so as to ensure a fair return to the cultivator for his produce as well as to enable him to repay the loans to the co-operative societies.

Storage :

The co-operatives in the Intensive Agricultural Demonstration Programme district have taken up

the function of distribution of various wherewithals of production, such as fertilizers, seeds etc. In order to make the supplies available within easy reach of farmers there is a programme of construction of godowns with an approximate capacity of 100 Tons.

Agricultural Information and Extension Education activities :

The agricultural information and extension education activities being undertaken in the Intensive Agricultural Demonstration Programme district can be classified into (a) Dissemination of information through the use of various media of information and publicity ; and (b) field demonstrations.

Under the information programme, a nucleus information unit, called the District Agricultural information Unit, would work under the close guidance of the Project Officer and Collector. The information plan drawn up for the district would include the utilisation of all the information/ communication media such as press, publication, radio motion pictures and exhibits.

Field demonstrations constitute the most effective tool for motivating cultivators to adopt improved production practices.

Assessment and Evaluation :

Under the programme of analysis and evaluation two types of investigation are being carried out : (i) Resource and production bench-mark survey just prior to or at the commencement of the programme and assessment surveys in successive crop seasons and, (ii) Special studies on operational and analytical problems arising in the course of the implementation of the programme. The bench-mark and assessment surveys are organised with the object of assessing the changes being brought about in the agronomic practices followed by the cultivators to the extent to which new and better farming practices are being adopted by them and the consequent improvements in their yields. Trends in the yield rates of principal crops grown are also being studied by conducting a large number of crop cutting experiments in every season. The field work consists of (a) agronomic and agro-economic enquiry in sample villages for sample cultivators' holdings within these villages and (b) crop cutting experiments on important food and cash crops grown in the district in randomly selected fields. The agronomic and agro-economic data collected include (1) cropping pattern (2) irrigation, manuring, disease and pest control and other improved agronomic practices followed by the farmers, (3) production supplies such as fertilizers, improved seeds, pesticides etc., actually received by the farmers and rates of their application to different crops (4) method of disposal of agricultural produce by the farmers (5) credit and (6) co-operative and marketing facilities available to the farmers.

Control areas :

Control areas have been selected in such a way that they are as similar as possible to the programme district in respect of (i) land utilisation (ii) rainfall and irrigation (iii) soil types (iv) cropping pattern (v) level of production of principal crops and trends of changes in them (vi) agricultural credit and marketing facilities (vii) general agricultural practices followed, and (viii) nature and extent of past development activities pertaining to agriculture. Some Blocks of West Godavari were selected as control areas.

The particulars relating to different items under the programme are given below :

Co-operative Credit Societies

Year	No. of Primary credit societies	Membership	Share capital (in Rs.)	Working capital (in Rs.)
(1)	(2)	(3)	(4)	(5)
1959-60	374	1·47 lakhs	52·00 lakhs	3.38 crores

The composition of co-ordination committees at the State level and District level is given below :

State Level :

1. Member, Board of Revenue incharge of Irrigation (Chairman)
2. Irrigation Adviser and Consulting Engineer
3. Director of Agriculture
4. Registrar of Co-operative Societies
5. Collector of West Godavari
6. Regional Officer of the Reserve Bank of India
7. Financial Adviser (Agriculture)
8. Additional Development Commissioner or his nominee
9. Deputy Secretary to Government (Agriculture Department)
10. Director, Bureau of Economics and Statistics
11. President, Andhra State Co-operative Bank Ltd., Vijayawada
12. Chairman, Zilla Parishad, Eluru, West Godavari
13. State Level Project Officer (Convenor)

District Level :

1. Collector (Chairman)
2. Chairman, Zilla Parishad
3. Presidents of Panchayat Samithis
4. Block Development Officers of Non-Samithi Blocks
5. District Statistical Officer
6. Deputy Registrar of Co-operative Societies
7. Executive Engineer, P.W.D.
8. Project Officer, Eluru
9. President, District Co-operative Central Bank, Eluru
10. President of District Marketing Federation

CHAPTER V

IRRIGATION AND POWER

Irrigation

The total area irrigated in West Godavari district during 1960-61 both for the first and second crops from all sources is about 9,51,802 acres. The proportion of net area irrigated to net area sown is 74.2%, which is the highest figure for any district in Andhra Pradesh. The Godavari river which flows along the eastern boundary of the district, constitutes the main source of irrigation. The delta area of the district consists of two segments *viz.*, the Godavari Western Delta and the Krishna Eastern Delta. The former covers 4.8 lakhs of acres and comprises the taluks of Narsapur, Tanuku, Bheemavaram and portions of Eluru, Tadepalligudem and Kovvur taluks and is served by the Godavari Main Canal taking off from the Anicut at Vijjeswaram. The latter covers 0.43 lakhs of acres in Eluru taluk and is irrigated by Eluru Canal which takes off from the anicut across the Krishna river at Vijayawada. A map showing the important canals under the delta system is given on the opposite page. In addition to these two canal systems there are a few hill streams which drain off water from the upland taluks and are also used for irrigation. Of these hill streams, the Tammileru flowing through Chintalapudi and Eluru taluks and the Yerrakalva which flows through Chintalapudi, Kovvur, Tadepalligudem and Bheemavaram taluks are worth mentioning. Gunderu and Byneru flowing through Eluru and Polavaram and Kovvur taluks respectively also provide irrigation facilities to some extent. The total area covered by the Godavari and Krishna Deltas in this district is 5.23 lakhs of acres. In the uplands there is some irrigation under tanks, spring channels and wells.

The figures of area irrigated by different sources during 1960-61 are given in the following statement.

STATEMENT V-1

Source	Area irrigated (in acres)	Percentage to the total irrigated area
(1)	(2)	(3)
Government canals	5,26,656	72%
Tanks	1,66,778	23%
Tube Wells	95	N.
Other wells	14,747	2%
Other sources	18,500	3%
Total	**7,26,777**	**100%**
Area irrigated more than once	2,25,025	
Gross area irrigated	9,51,802	

N: Negligible

The total number of minor irrigation sources in the district is 1,078 and they serve an ayacut area of 45,884 acres. The following is the distribution of these minor irrigation sources together with the corresponding ayacut, talukwise.

STATEMENT V-2

Name of Taluk	No. of Minor Irrigation Sources	Ayacut area (in acres)
(1)	(2)	(3)
Eluru	327	15,581
Chintalapudi	401	15,328
Tadepalligudem	106	4,801
Kovvur	114	4,621
Polavaram	133	5,553
Total	**1,078**	**45,884**
Government Canals (mileage)		465
No. of tube wells		
(i) Government		3
(ii) Private		130
No. of other wells used for irrigation		
(i) Government — Masonry		532
(ii) Government — Non-masonry		96
(iii) Private — Masonry		5,650
(iv) Private — Non-masonry		254
No. of tanks with ayacuts		
(i) 100 acres or more		189
(ii) Less than 100 acres		866
No. of oil engines		278

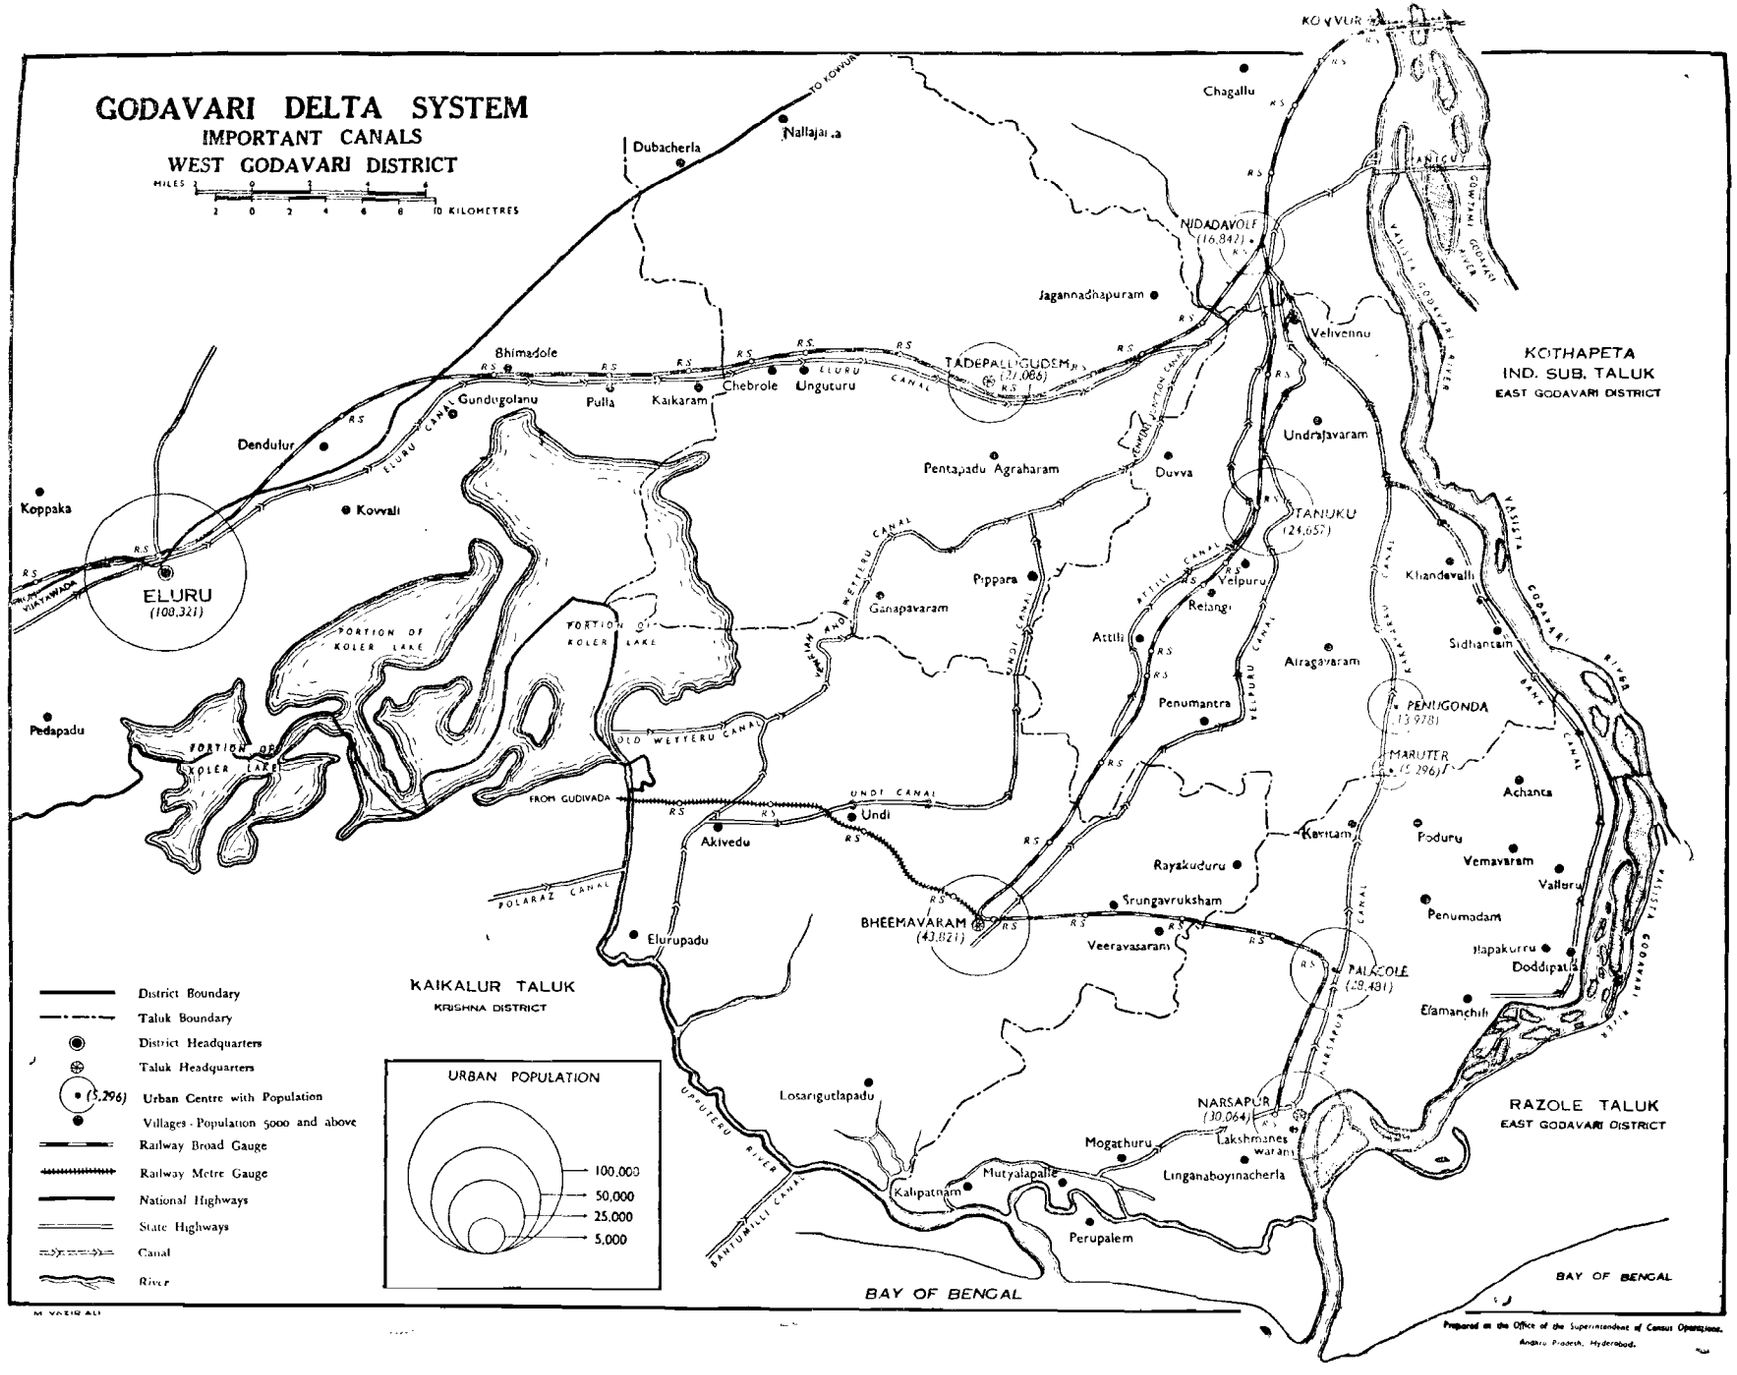

It is seen that the bulk of the irrigated area *i.e.*, 5,26,656 acres or 72% of the total irrigated area is fed by Government canals. Tanks form the next important source irrigating an area of 1,66,778 acres or 23% of the net area irrigated. Well irrigation is not an important source of irrigation in this district.

Achievements under Five Year Plans

MEDIUM IRRIGATION PROJECTS

The Medium Projects executed or under investigation during the First Five Year Plan in West Godavari district are described below:

1. Remodelling of Bandakattu channel system: This scheme is meant for remodelling the Bandakattu canal system under the existing anicut across Byneru river at mile 23/2 of Polavaram–Ganapavaram-Buttayyagudem road, to ensure equitable supply in all the channels under the system, and under seven

Government and two Zamin tanks. The work has been completed.

Estimated cost	:	Rs. 2.65 lakhs
Area benefited	:	2,500 acres (existing)

2. *Byneru Reservoir:* This is another reservoir with a storage capacity of 1.200 M. Cft. to relieve submersion by floods in Yerrakalva and Byneru. The latter is a tributary of the former.

Estimated cost	:	Rs. 49·44 lakhs
Area benefited	:	5,250 acres (new)

3. *Upputeru Block II Scheme (Irrigation and drainage facilities):* The scheme seeks to provide irrigation and drainage facilities to lands in Block II or the Upputeru Reserve Forest and adjoining lands by straight cutting and banking the existing Rudrayakodu, Mogadindi and Bondada drains and by extending and remodelling the Bondada and Annakoderu channels and improving Undi canal *etc.* This is under detailed investigation by special staff.

Estimated cost	:	Rs. 13.47 lakhs
Area benefited	:	2,658 acres (existing)
		10,820 ,, (new)

4. *Yerrakalva Reservoir:* The proposal is to construct a reservoir on the Yerrakalva on the Eluru–Jangareddigudem road with a capacity of 6,000 M. Cft. to relieve submersion.

Estimated cost	:	Rs. 91·0 lakhs
Area benefited	:	26,000 acres (new)

MINOR IRRIGATION PROJECTS

The Minor Irrigation schemes under execution during the First Five Year Plan consist of the Pulivagu scheme which contemplates restoration of Andanalacheruvu of Krishnampalem village, hamlet of Ketavaram village in Kovvur taluk at a cost of Rs. 3,35,600 to bring an additional area of 720 acres (other than existing ayacut), besides the works listed out below:

STATEMENT V-3—*Concld.*

Name of the Work	Estimated cost (in Rs.)	Additional ayacut (in acres)
(1)	(2)	(3)
Restoration of Chandravemikunta Dasavaram	24,000	...
Veerayya tank of Narasannapalem	10,000	...
Ramaraju tank of Chinnakadiyam	18,000	...
Voticheruvu of Kadavalapalem	10,000	...
Kothacheruvu of Gajjavaram	5,000	...

The list of Minor Irrigation schemes under consideration during the First Five Year Plan is as follows:

	Estimated cost (in Rs.)	Ayacut (in acres)
1. Constructing a reservoir across Kovvada Kalva	3,46,000	4,000 (new)
2. Jalleru Anicut scheme	3,58,000	2,400 (new) 1,600 (existing)
3. Constructing a regulator across Pattayyakodu, 4 furlongs above its infall into Budameru and providing additional supply channel	50,000	2,000 (existing)
4. Extension of irrigation under Julipudi sluice	50,000	800 (new)
5. Extension of Chataparru channel	50,000	524 (new)
6. Extension of Gogunta channel	60,000	800 (new)

Flood Control Schemes:

1. Flood warning system: The proposal contemplates installation of new gauge stations on the Godavari, Krishna and Pennar rivers. Estimates for the installation of these new gauge stations have been sanctioned in G. O. Ms. Nos. 1187, P. W. & T. dated 7-8-1954; 1055 P.W. & T., dated 25-5-1955 and 1593, P. W. & T., dated 4-5-1955 for Rs. 2.38 lakhs. These works are under execution. The proposals also contemplate installation of a V. H. F. Radio Telephone link between Dummagudem, Kunavaram and Dowleshwaram and they are under consideration. The estimated cost is Rs. 2,38,000.

2. Budameru Diversion Channel: This scheme aims at diverting 7,500 cusecs of flood discharge of Budameru river into Krishna river thus relieving 23,000 acres in Kollair area from submersion. This scheme was approved by Government of India for loan assistance and sanctioned by the State Government in G. O. Ms. No. 559, dated 1-3-1956 and it is under execution. The estimated cost is Rs. 34,78,900 and an extent of, 23,000 acres is likely to be benefited by this scheme.

3. Tammileru Reservoir Scheme: The proposal is for forming a reservoir across Tammileru at Errampalle and to relieve an extent of 7,680 acres from submersion besides bringing into cultivation an extent of 16,000 acres. The estimated cost is Rs. 38,00,000 and the area likely to be benefited is 23,680 acres.

4. Flood banks to Tammileru: This scheme is designed to relieve submersion over an extent of 6,000 acres of wet lands in West Godavari district by forming flood banks to Tammileru from below the site of the Reservoir to Kollair Lake. The estimated cost is Rs. 9,00,000 and the area i.e., likely to be benefited is 6,000 acres.

5. Improvements to Upputeru: The proposal is to widen and deepen the Upputeru River. The only outlet from Kollair into Bay of Bengal is Upputeru, which lies along the border of Krishna and West Godavari Districts and runs for a length of 27 miles. These improvements will relieve 28,660 acres of ayacut from submersion. It is also proposed to bring into cultivation an area of 10,670 acres under the scheme.

Achievements under Second Five Year Plan

The particulars of expenditure and the target achieved in respect of the schemes taken up during the Second Five Year Plan are given below:

STATEMENT V-4

Name of the Scheme	Expenditure (in Rs.)	Targets achieved
(1)	(2)	(3)
I. Medium Irrigation Projects		
Remodelling of Bandakattu channel system	53,000	Work completed
II. Minor Irrigation Projects		
Pulivagu scheme (Restoration of Andanala cheruvu of Krishnampalem)	54,000	Work completed
Scheme for construction of Anicut across Yerrakalva at Lakkavaram	92,000	Earth work in foundations, masonry core wall, solid apron portion are completed. Shutters have been fixed. Earth work in leafing channels and revetment works are in progress

STATEMENT V-4—*Concld.*

Name of the Scheme (1)	Expenditure in Rs. (2)	Targets achieved (3)
Dendulur Pumping Scheme	3,73,905	The scheme is almost completed except for certain minor items of work
Formation of a detention reservoir across Tammileru river at Errampalle	1,74,937	Preliminary work is taken up in II Plan. The work is in progress
Construction of reservoir across Yerra Kalva at Appalarajugudem	1,91,715	Preliminary work is taken up in II Plan The work is in progress
Provision of irrigation facilities to Block II of Upputeru Reserve Forest on the eastern side of old Yenamadurru drain	1,55,891	Excavation of channels and distributaries and formation of flood banks are mostly completed. Cross masonry works are in progress
Provision of irrigation facilities to Block II of Upputeru Reserve Forest on the western side of old Yenamadurru drain	2,44,100	Work in progress
Formation of a flood bank from below Narsapur revetment along the Vasista Right Bank Channel margin	1,88,364	Work completed
Formation of a dowel bank on Akhanda Godavari Right Bank from 0/0 to 25/0	4,99,743	Work in progress
G. I. V. Canal lock in Somaraju Illindalapadu	1,88,305	The work was completed in 1959-60
Total Expenditure	**23,15,960**	

Power :

The major sources of power supply to this district are Machkund Hydro Electric Project and Sileru Hydro Electric Project.

Under Rural Electrification scheme it was proposed to extend power supply to rural areas by laying additional transmission lines and erecting the varied number of sub-stations. The number of villages electrified during the Second Five Year Plan (1956-61) in different taluks of West Godavari District is given below :

Taluk (1)	No. of villages electrified 1956-57 (2)	1957-58 (3)	1958-59 (4)	1959-60 (5)	1960-61 (6)	Total (7)
1. Kovvur	8	2	6	4	16	36
2. Tanuku	1	1	21	10	10	43
3. Tadepalligudem	4	11	4	8	8	35
4. Bheemavaram	2	...	8	17	2	29
5. Narsapur	8	4	1	2	4	19
6. Polavaram	2	...	...	...	...	2
7. Eluru	...	1	2	13	11	27
8. Chintalapudi	...	...	1	2	6	9
Total	**25**	**19**	**43**	**56**	**57**	**200**

An amount of Rs. 73,67,300/- was spent during the Second Five Year Plan for electrifying 198 villages. Besides the 200 villages, 64 villages were given service connection by the Operative Division, Electricity Department under minor works. An amount of Rs. 27,43,100/- was spent towards service connections during the Second Five Year Plan period.

Particulars relating to the length of lines, service connections etc., are given below :

Particulars (1)	As on 31-3-1957 (2)	Effected during the period from 1-4-1957 to 30-3-1961 (3)	As on 31-3-1961 (4)
H. T. Lines emergized :			
132 KV Line	57.51 miles	...	57.51 miles
33 KV Line	67.61 miles	...	67.61 miles
33/11 KV Line	28.42 miles	...	28.42 miles
11 KV Line	196.564 miles	214.517 miles	411.081 miles
L.T. Line	257.681 miles	341.511 miles	599.192 miles
Domestic connections (HSCS)	6276 Nos.	6153 Nos.	12429 Nos.

CHAPTER VI

FORESTS

Forests are not only useful in preventing soil erosion and in helping the climatic conditions but also serve as good reserve for fuel, pasture and timber. The forest department was created as early as 1856 in the former Madras Presidency and actual operations began when a Conservator of Forests was appointed for the first time, for protecting and scientifically working the forest wealth.

The Godavari Division came into existence on 18th December 1882 and it was subsequently divided into Upper and Lower Godavari Forest Divisions with effect from 1st July 1906. The present Lower Godavari Division with headquarters at Kakinada extends over three Revenue districts covering parts of Visakhapatnam and East Godavari districts and the whole of West Godavari district.

The forests of the district cover an area of 309.24 square miles accounting for about 10% of the total area of the district. The forests in this district come under three ranges *viz.*, Polavaram Range, Eluru Range and part of River Range (Jangareddigudem). Each of these Ranges have about 100 square miles of forest area, Jangareddigudem having a slightly larger area than the other two. The following is the distribution of reserves in West Godavari district in each range.

Name of the Range (1)	No. of Reserves (2)
Polavaram Range .	8 Reserves
Eluru Range .	46 Reserves
River Range (Jangareddigudem) .	23 Reserves

Composition and condition of the crops :

For the purpose of the working plan the forests in West Godavari District are divided into the following categories :

(i) Regular Reserves

(ii) Panchayat Reserves (Panchayat Reserves taken over by the Department as per G. O. Ms. No. 4503 dated 11th October 1951)

and (iii) Estate or Zamindari Forests (Estate Forests taken over by the Forest Department under the Estates Abolition Act).

Regular Reserves : The two types are (i) the South Indian Dry Mixed Deciduous Forests and (ii) the Moist Tropical Seral Forests, the sub-types occuring locally being,

(a) Beach forests and

(b) Tidal or Mangrove forests

The South Indian dry mixed deciduous Forests : This type occurs in the uplands and in the Agency. The greater part of these forests is situated on hill sides with shallow stony soil and the growth is more or less of one type. The remaining forests are situated in shallow valleys and on flat or gently sloping ground and the growth varies with the configuration and soil. These forests can be described as :

(a) *Bamboo forests* : The hill side forests of Polavaram range support chiefly bamboos *(Dendrocalamus strictus)* with an open overwood which varies greatly in composition, density and quality. Bamboos constitute about fifty per cent of the crop and *Anogeissus latifolia* (Yelama) is the chief species in the overwood.

(b) *Fuel forests* : Marlagudem and the southern half of Bedadavole reserve forest in Polavaram Range support this type of forest. The common species are *Chloroxylon swietenia* (Billudu) *Erythroxylon monogynum* (Devadari), *Zizyphus Xylopyrus* (gotti), *Albizzia amara* (chigana), *Cassia fistula* (Rella), *Bauhinia racemosa* (Are) *Wrightia tinctoria* (Ankudu), *Zizyphus jujuba* (Regu) *Caesalpinia Coriaria* (Dividivi), *Acacia leucophloea* (Tellathumma), *Acacia ferruginea* (Vanna-sundra), *Cascaria tomentosa* (Giruguday), *Gurelina asiatica* (Kavva-Gummadi), *Emblica Officinalis* etc.

(c) *Timber forests* : The timber forests are of three types ; The teak forests, the *Terminalia* forests and the *Xylia* forests. Only Teak forests are existing in this district.

The teak forests are found mainly in *lankas* in the northern half of Bedadavole reserve forests. The common associates are *Anogeissus lalifolia* (Yelama), *Lagerstroemia pavriflora* (Chimnangi), *Terminalia tomentosa* (Maddi), *Cleistanthus collinus* etc.

(d) *Moist Tropical Seral forests*: (Tidal or Mangrove forests): The coastal reserves of Upputeru Block I support this type of forests.

Panchayat Reserves :

The forests of the Panchayat Reserves belong to the following types :

(i) *Moist Tropical Seral Forests (the sub-type occuring locally being Tidal or Mangrove forests)*: This type occurs only in Upputeru Block I in Eluru Range. The common species are Till and Thanduga, which form 90% of the growing stock. The associate species are guggilam, gangaravi and pariviti. The growth occurs in strips of varying width along the main creek which runs right through the middle of the reserve, north to south, and the rest of the reserve is all a blank, which becomes a swamp during the rains; as the water recedes a fine crop of grass comes up and in the hot weather the blanks are parched and cracked fields of clay are found.

(ii) *Inferior Deciduous Forests*: This type occurs in Bavinkalapadu, Jilugumilli and Dharbagudem Panchayat Reserves in Polavaram Range and Erragutapalle, Barrikonda and Baredamcherla Panchayat Reserves in Eluru Range.

The common fuel species are Chirumanu, Nallamaddi, Bikudu, Yegiri, Tooki, Nallaregu, Alli, Ari, Loluga, Musti, Chinduga, Pachari, Garugagadha, Adivinimma, Kunkudu, Chinta, Gumpena, Vepa, Pala, Akupala, Tella Tumma, Dirisanam, Bavimki, Rela, Sandra forming the overwood, thorny bushes such as Balusu, Manga, Gotti, Vika, Vauregu, Pariki, Regu, Kudera Kampa, Pisinika Siki, Korinda etc., and non-thorny bushes such as Tangedu forming the under growth. The general height of the forest is about 20 ft. and average girth 24 inches. The density of crop seldom exceeds 0.6 and canopy is invariably open.

(iii) *Thorn scrubs*: Unguturu Block I, Unguturu Block II, Nallajerla and Ramasingavaram Panchayat Reserves in Eluru Range support this type of forest. One difference between this and the above type *viz.*, Inferior Deciduous Forests, is the prevalence of a larger percentage of thorny shrubs in this type and the presence of species like Chirumanu, Nallamaddi Billudu, Yegisi, Tooki and Chennangi in lesser number than in the inferior deciduous forest.

(iv) *Hardwickia binata forests*: These forests are characterised by an open crop of Yepi (Hardwickia binata) widely scattered on hard gravelly soils with quartzite as the underlying rock with scattered shrubs of *Alli* and a few thorny species. These forests exist in Chintalapudi Reserve and to a negligible extent in Velagapalle Reserve of Eluru Range. The Yepi trees in these forests are all malformed, crooked and unfit to be used as timber.

Estate Forests :

The forests of the estates belong to the following types :

(a) *Inferior Deciduous Forests*: This type is characterised by the presence in large numbers of fuel species. It occurs on light sandy soils with sand stone as the underlying rock. It is composed of species like Nallaregu, Vepa, Musti, Kunkudu, Packani, Gumpina, Chinta, Velaga, Dirisinam, Barrinki, Alli, Ari, Loluga, Chinduga, Garugu, Gadha, Adivinimma, Pala, Akupala, Tellatumma, Palmyrah, Naramamidi, Pela and occasional Sandra forming the overwood, thorny under shrubs like Balusu, Gotti, Vaka, Kauregu, Pariki, Regu, Undrakampa, Pisiniki, Siki, Korinda, etc., and non-thorny shrubs like Thangedu, Karwepaku-Addasaram, Bandedu etc. The forests rarely obtain a height or more than 15' to 20' on the average. All the upland plain estate forests included in Polava, ram and Eluru Ranges belong to this type.

(b) *South Indian Moist Deciduous Forests*: This type occurs on hill slopes 100' to 3000' elevation with gneiss as the underlying rock on either side of the Godavari in Polavaram Taluk. (Polavaram A), Vinjaram (Polavaram B), Pydipaka, Kothamadigondi and Tallavaram, Geddepalle and Aravidukota, Sriramavaram and Sirivaka estate forests in Polavaram taluk support this type of forest. Konda Thangedu forms 30 to 50% of the crop, Maddi 15 to 30% and Yegisi 10 to 20%. Chennangi, Buruga, Bandaru and Yepi also occur in scattered position. These forests are being destroyed by extensive Podu cultivation in areas like Polavaram A and Polavaram B. Here we find a good cover of soft wood like Buruga, Pachari, Pasi, Kondagogu, Tellagoliki, etc., in the young coppice of hard wood struggling for existence. Bamboo is very common. The best

growth is in Gaddepalle block of forest. Portions like Pandya lanka and the forest near Gaddepalle and Gimipalle support an excellent coppice growth of teak.

Game

Spotted deer and barking deer appear to be fairly common in Polavaram Range. Partridge and quail are not uncommon in the dry deciduous forests in Eluru range. The most interesting animals in the mangrove forests are the water dog and the fishing cat.

Forest Produce

The chief minor forest products are tamarind, tooki leaves, adda leaves, tangedu bark, rela bark, musti seeds, kanuga seeds, gedara bark, soapnuts, vasanthagundu, jaji leaves, and wood apart from stones from quarries. The chief demands for forest produce are large timber for house construction, carts and boats, small timber for huts and agricultural implements, fuel for domestic purposes, bamboos for sugarcane crop, house building and other purposes.

Forest produce is transported by rail, road and water. The main water routes for the transport of forest produce are :

(a) Godavari river

(b) Upputeru river

(c) Bheemavaram Canal and

(d) Narsapur Canal

The principal local markets for timber and bamboos are Eluru, Tadepalligudem, Nidadavole and Bheemavaram. The fuel from Kovvada Block I, Marlagudem, Kopalle and Bedadavole Reserves is sold mainly at Eluru, Kovvur and Tadepalligudem. The fuel from the Upputeru mangrove forests is exported mostly to Penukonda, Palacole and Bheemavaram etc.

The works executed under the Five Year Plans are described below:

(i) *Forest Regeneration:* With a view to improving the productive capacity of denuded and degraded Panchayat and Estate forests taken over by the Forest Department and to reclothe the denuded open areas in departmental forests, regeneration plots with small timber, fodder and fuel species were proposed to be raised. The yearwise achievements during the First and Second Five Year Plan periods are given below :

STATEMENT VI-1

Years	Name of Crop	Extent (in acres)	Expenditure (in Rs.)
(1)	(2)	(3)	(4)
1950-51	Teak	70.25	2,287
1951-52	Teak	70.00	2,550
1952-53	Teak	76.00	482
1953-54	Teak	58.00	969
1954-55	Neem or Kanuga	150.00	...
	Teak	25.00	3,184
	Miscellaneous	200.00	3,248
1955-56	Teak	42.00	1,761
	Miscellaneous	200.00	3,518
1956-57	Teak	48.00	1,670
	Miscellaneous	100.00	2,309
1957-58	Teak	40.00	564
	Cashew	2.00	40
1958-59	Teak	60.00	3,364
	Cashew	106.00	27,147
1959-60	Teak	72.00	4,905

(ii) *Roads in the Agency areas:* In order to improve the road system in the Agency tracts with a view to enabling the department to exploit the interior forests and to improve the relations between the tribals and the plains people, construction of new roads and improvement of existing roads were undertaken as indicated below :

STATEMENT VI-2

Year	Item of Work	Length	Expenditure (in Rs.)
(1)	(2)	(3)	(4)
1958-59	Formation and improvements to Khandrikagudem to Kotrupalle Road . .	13M - 5F	68,662
1959-60	Improvements to the above Roads . .	13M - 5F	18,159

(iii) *Extension of Casuarina Plantations :* In order to meet the increasing demand for fuel from towns it was proposed to raise casuarina plantations. The following statement gives the area planted and the expenditure incurred during each year from 1958-59 to 1960-61 :

STATEMENT VI-3

Year	Area Planted (in acres)	Expenditure (in Rs.)
(1)	(2)	(3)
1958-59 .	102 .	7,364
1959-60 .	154 .	10,547
1960-61 .	63 .	6,967

(iv) *The achievements under the scheme of Forest Regeneration*: The following Statement gives the yearwise achievements under this Scheme:

STATEMENT VI-4

Year	Crop	Area Planted (in acres)	Expenditure (in Rs.)
(1)	(2)	(3)	(4)
1958-59	Cashew	183 (Including preliminary operations for 105 Acs.)	17,712
1958-59	Eucalyptus	87	3,638
1959-60	Eucalyptus	110 (Including preliminary operations and maintenance of old plantations)	16,329
1960-61	Eucalyptus Cashew Maintenance Preliminary operations	98 30 109 264	17,454

(v) *Construction of Range Clerk's Quarters at Polavaram:* An amount of Rs. 6,783 was spent on this item during 1959-60.

CHAPTER VII

CO-OPERATION

The Co-operative Movement in the country chiefly aims at the elimination of middlemen between the actual producer and consumer besides protecting the ryots from the rapacity of money lenders. After the country attained independence the Co-operative Movement has come to occupy a prominent place in the social and economic life of the country and accordingly a great deal of impetus has been given to this movement in Andhra Pradesh also. The movement has come into being about sixty years ago after the passing of the Co-operative Credit Societies Act, of 1904.

At first the Credit Societies were started—the Societies in the rural areas were established on unlimited liability basis and those in the urban areas on limited liability basis. Subsequently non-credit societies were also started in various forms like Consumer's Co-operatives, Loan and Sale or Marketing Societies, Weavers' Societies etc., after the passing of the Co-operative Societies Act of 1912. There was a spurt in the growth of the Consumer's Co-operatives due to the scarcity conditions existing consequent on the Second World War for consumer goods. A number of Handloom Weaver's Co-operatives were also organised in the State to relieve the distress of the weavers.

During the decade 1951-61 the Co-operative Movement registered considerable expansion in all fields of its activities. The progress was more marked in the Second Five Year Plan period (1956-61). In order to give new impetus to the Co-operative Movement in the Second Five Year Plan period the National Development Council adopted a new policy according to which co-operatives had to be organised on the basis of Village Community and to revitalise them ensuring effective functioning. The policy is also intended to secure universal membership and make substantial increase in the credit facilities, to expand facilities for co-operative marketing, storage, ware-housing, processing, farming and training. To achieve all these it was decided to simplify the laws, rules and procedures and to remove rigidity by decentralising and delegating powers to lower authorities.

The schemes implemented during the Second Five Year Plan are described below :

Expansion of Rural Credit Societies

It was proposed to establish 67 Large Sized Co-operative Societies and 61 Small Societies and Rural Banks and to revitalise 112 small Societies for stepping up the short term and medium term finances to the tune of Rs. 828.77 lakhs. The scheme also envisaged increasing the membership of Co-operative Societies by 47,000. An amount of Rs. 72,020 was incurred as against a provision of Rs. 54,511. The physical achievements were in excess of the corresponding targets regarding the establishment and revitalisation of the large scale and small societies and rural banks and enrolment of new members. The grant of loans through co-operatives fell short of the target by 4%, the achievement being Rs. 798.93 lakhs.

Development of Co-operative Marketing

An amount of Rs. 21,07,996 was spent as against a provision of Rs. 18,62,855 towards development of agricultural marketing through Co-operative Societies on an enlarged scale by (i) issuing loans against agricultural produce, construction of storage godowns and provision of ware-housing facilities at all important mandi centres and in central villages; (ii) assistance to marketing co-operatives in setting up processing plants with State assistance; and (iii) provision of financial aid to societies in employing trained personnel for management. Under this scheme construction of 86 godowns, installation of sugarcane crushers and three processing plants and issue of produce loans to the extent of Rs. 110 lakhs were achieved.

Education of members and office bearers of Co-operative Societies

A scheme to impart training to the Panchayatdars for one week and office bearers for about six weeks in the principles and practice of co-operation and management of institutions and maintenance of accounts etc., and to the ordinary members of the village co-operatives for three days in co-operative principles was implemented in this district. The scheme was implemented through the State Co-operative Union, Rajahmundry and peripatetic units were opened in this district for giving training. 85 office bearers, 486 panchayatdars and 8,032 members of co-operative societies were trained and an expenditure of Rs. 7,250 was incurred.

Organisation of a separate wing in the Co-operative Departmnet for research, survey and statistics

A separate wing for research, survey and statistics was established in the Office of the Registrar of Co-operative Societies and a Senior Inspector was appointed in each Deputy Registrar's Circles for the collection and compilation of statistics and for studying the benefits derived by the public through co-operative methods and analysing the results of the several schemes implemented by the department and for advising the concerned authorities in formulating policies and devising remedial measures for eliminating bottlenecks etc. An amount of Rs. 7,261 was spent towards the appointment of the Senior Inspectors in this district.

Resettlement of landless agricultural labourers on lands taken up for co-operative farming

The collective farming societies, one at Thokalapalle in the Kollair lake area and the other at Sankhuchakrapuram village in Chintalapudi taluk were organised. Waste lands in Kollair bed were granted to the Society at Thokalapalle and the Society at Sankhuchakrapuram had 56 land owners covering a total extent of 290 acres. An allotment of Rs. 22,572 was sanctioned for providing financial assistance to the members by way of loans and subsidies towards share capital, purchase of seed and manure, reclamation etc.

Pilot Scheme of Integrated Rural Credit

An amount of Rs. 4,69,531 was spent for organising large sized co-operative societies in Eluru and Tadepalligudem taluks and for construction of godowns. This scheme was recommended by the All India Rural Credit Survey Committee and was implemented as a pilot scheme.

Share capital and working capital loans to Primary Societies of Weavers

An amonnt of Rs. 99,306 was spent for advancing loans to weavers to enable them to buy shares in the weaver's co-operative societies and become members and also to grant loans towards the working capital of the societies.

Grant of rebate on handloom cloth

An amount of Rs. 3,92,610 was spent towards rebate of 5 paise per rupee on the sales of handloom cloth by the depots of Andhra Handloom Weaver's Co-operative Society and other agencies dealing exclusively in handloom cloth to stimulate the sales of handloom cloth.

Improvement of housing conditions

An amount of Rs. 70,500 was spent in Eluru circle for the construction of houses in rural as well as urban areas by granting loans and an expenditure of Rs. 2,89,800 was incurred in Bheemavaram circle for the construction of 37 houses by granting loans.

Low Income Group Housing : An amount of Rs. 3,24,400 was spent towards Low Income Group Housing Scheme in this district.

Middle Income Group Housing : An amount of Rs. 6,000 was spent towards Middle Income Group Housing Scheme.

Formation of Housing colonies for weavers : An amount of Rs. 48,000 was spent for the formation of two housing colonies for weavers.

Establishment of Co-operative Sugar Factory at Palacole

Four Co-operative Sugar Factories were proposed to be started in the State one of which was located at Palacole in this district. The State Government contributed a sum of Rs. 20,00,000 towards the share capital and a further allotment of staff for the organisation of the factory and the preliminary work. The Industrial Finance Corporation sanctioned loans to the extent of Rs. 75,00,000 and is considering the sanction of additional loans of Rs. 15,00,000. The factory has entered into agreements with Sugar Plant Manufacturing Consortiums for the supply of plant and machinery and the installation work which is progressing is expected to be completed shortly. Against the financial provision of Rs. 20,36,000 there was an expenditure of Rs. 20,18,346.

The following statement indicates the position of different kinds of Co-operative Societies during 1960-61 :

Categories of Societies	No. of societies	No. of members	Paid-up capital (in '000 Rs.)	Working capital
(1)	(2)	(3)	(4)	(5)
Co-operative Societies	818	2,67,142	16,346	1,01,965
Industrial Co-operatives	43	2,397	51	310
Weavers' Co-operative Societies	53	9,861	577	1,895
Total	**914**	**2,79,400**	**16,974**	**1,04,170**

The total number of Primary, Agricultural and Multipurpose Co-operative Societies, their membership, paid up Capital etc., are given below :

No. of Societies	394	Borrowings	Rs. 2,65,34,000
No. of Members	1,56,729	Working capital	Rs. 3,68,44,000
Paid up capital	Rs. 56,62,000	Loans :	
Deposits	Rs. 25,59,000	Advanced	Rs. 3,13,67,000
		Recovered	Rs. 2,94,18,000
		Outstanding	Rs. 3,12,74,000
		Overdue	Rs. 33,26,000

Source : Review of Second Five Year Plan, West Godavari district, 1956-61

CHAPTER VIII

INDUSTRIES

West Godavari is a prosperous agricultural coastal deltaic district of Andhra Pradesh covering an area of 2,980 square miles. The district is an intensive agricultural area with a surplus production of rice. Though there are good facilities like water supply, electricity, communications, canal and rail transport etc., required for industrial development in this district, the district did not record any significant development industrially upto the end of First Five Year Plan, perhaps because the traditionally conservative agriculturists were content with the adequate returns from the rich delta lands and were not interested in other economic activities.

There are a few large and medium industries which are mostly Agro-based and evidently a large majority of the small scale industries in the district depend on agricultural products to a large extent. The important large and medium industrial establishments which are only ten in number are located in the taluks of Tanuku, Kovvur, Eluru, Tadepalligudem and Narsapur, the maximum number being found in Tanuku taluk. Of these establishments three are sugar factories and the remaining units consist of one Power Alcohol Factory, one Textile Factory, one Jute Factory, one C.I. Spun Pipe Factory, one unit manufacturing agricultural implements, one machinery factory and one Organic Chemical Factory. Tanuku and Palacole have one sugar factory each. The names of these establishments, their location and capacity, are given in the following statement.

STATEMENT VIII—1

LARGE AND MEDIUM INDUSTRIAL ESTABLISHMENTS

Name of Industry/Establishment (1)	Location (2)	Production Capacity (3)
I *Sugar Factories*		
Messrs Andhra Sugars Ltd.	Tanuku	1,000 tons per day
Messrs V. V. S. Sugars Ltd.	Chagallu	1,250 do
Messrs Palacole Co-operative Agricultural & Industrial Society Ltd.	Palacole	1,000 do
II *Power Alcohol Factories*		
Messrs Andhra Sugars Ltd.	Tanuku	8,00,000 gallons per annum
III *Textile Factories*		
Messrs Akkamamba Textiles Ltd.	Tanuku	17,200 spindles
IV *Jute Factories*		
Messrs Krishna Jute Mills	Eluru	4,500 tons per annum (Gunny cloth)
V *Factories manufacturing C.I. Spun Pipes*		
Messrs Andhra Sugars Ltd.	Kovvur	12,000 tons per annum
VI *Factories manufacturing Agricultural implements & Machinery*		
Messrs Andhra Sugars Ltd.	Tanuku	6,000 Sugar Mill machinery
VII *Organic Heavy Chemical Factories*		
Messrs Andhra Sugars Ltd.	Tanuku	1,080 tons of Acetic acid per annum
		720 tons of Acetic Anydride per annum
Messrs Krishna Industrial Corporation Ltd.	Tadepalligudem	16,500 tons of Sulphuric Acid per annum
		50,000 tons of Superphosphate per annum

Small Scale Industries

The predominantly agricultural character of the district and the lack of many large and medium scale industries is reflected even in the feeble growth of small scale industries in this district. Most of the small scale industries that have come up relate to processing agricultural produce such as rice mills, flour mills, oil mills etc. This is evident from the fact that the number of units processing agricultural produce contribute nearly 70% of the total number

of small scale industrial establishments as will be seen from the distribution of small scale industrial establishments given in the statement below :

STATEMENT VIII—2

DISTRIBUTION OF SMALL SCALE INDUSTRIAL ESTABLISHMENTS
(As in 1959)

Name of Industry (1)	No. of establishments (2)
I. *Agro-Industries*	354
Rice Mills	302
Flour Mills	9
Oil Mills	12
Rice & Flour Mills	14
Rice & Oil Mills	12
Rice, Flour & Oil Mills	2
Bone Mills	2
Others	1
II. *Wood Based Industries*	23
Saw Mills	22
Miscellaneous wood based industries	1
III. *Ceramics*	11
Cement concrete products, mosaic tiles and hume pipes	6
Stoneware and Refractory products	3
Miscellaneous ceramic products	2
IV. *Chemical Industries*	2
Common and Table Salt	1
Miscellaneous Chemical Industries	1
V. *Printing & Stationery*	16
Printing Presses	16
VI. *Light Engineering Industries*	45
General Engineering Workshops and Foundries	24
Sheet Metal Workshops	5
Automobile Repairing and Body building	2
Fountain Pen	3
Agricultural Implements	2
Miscellaneous Light Engineering Industries	9
VII. *Non-Ferrous Metal Industries*	14
Aluminium Products	6
Brass and Copperware	8
VIII. *Miscellaneous Industries*	11
Coffee Grinding	3
Paper, Card Board and Allied products	1
Hair oil, perfumes and scents	1
Yarn and yarn products	3
Miscellaneous	3

The rice mills, flour mills and oil mills are concentrated in Bheemavaram, Tadepalligudem, Tanuku, Eluru and Narsapur taluks. Generally most of the establishments are rice and oil mills rather than rice mills or oil mills. Eluru taluk has the largest number of such units followed by Bheemavaram and Tadepalligudem. However, there is a considerable number of oil mills in Tanuku and Eluru taluks. There are six saw mills in Eluru taluk while Tadepalligudem, Bheemavaram, Narsapur and Tanuku also have each a few such units. Tobacco factories are concentrated mainly in Kovvur taluk while Eluru has a few establishments making beedis, cigars and other miscellaneos tobacco products. Kovvur, Tanuku and Bheemavaram taluks contain the establishments manufacturing ceramic and stoneware products. The establishments manufacturing brass, copper and aluminium products are located in Eluru and Tanuku taluks. There has been further development of small scale industries and an idea of the increase in the number of units under different industries can be had from the following statement which represents the position at the beginning of 1963.

STATEMENT VIII—3

Name of Industry (1)	No. of Units (2)
1. Light Engineering	33
2. Agricultural implements and hardware	41
3. Steel trunks	10
4. Domestic utensils (brass and copper)	21
5. Hosiery	2
6. Leather tanning	7
7. Cement pipe manufacture	9
8. Steel furniture	5
9. Fountain Pen making	2
10. Saw mills	18
11. Printing Presses	31
12. Chemical Industries	2
13. Furniture and Wood working	32
14. Ceramic products	3
15. Khandsari sugar	2
16. Fertilizer making	2
17. Polythene tubings	1
18. Cycle assembling	1
19. Confectionery	2

The steel trunk manufacturing units are mainly concentrated at Penugonda of Tanuku taluk. Most of the establishments making brass and copper utensils are located at Ajjaram of Tanuku taluk. A re-rolling mill was also set up at Peravali near Ajjaram for manufacturing non-ferrous sheets and circular plates to meet the needs of the units at Ajjaram. The two hosiery making establishments are located one each at Tanuku and Palacole. All the leather tanning units are found in Eluru. The cement pipe manufacturing units are distributed over Nidadavole,

Palacole, Kovvur, Bheemavaram and Eluru towns while most of the steel furniture making establishments are concentrated at Bheemavaram.

Consequent on the steps taken by the Industries Department during the Second Five Year Plan period for encouraging the establishment of Small Scale Industries in the private sector and establishing Training-*cum*-Production Units on small scale basis, the district has achieved considerable progress in the industrial development programme.

An account of the Training-*cum*-Production Centres started on small scale basis under the auspices of the Industries Department in the Second Plan period with a view to imparting training to the artisans in the respective trades on improved methods and techniques and to encourage the private industrialists for establishing similar industries in the district, is given below.

(i) *Carpentry Production-cum-Training Centre, Eluru :* This scheme sanctioned in 1955, was actually implemented in 1956-57 to impart training in improved methods relating to carpentry and usage of modern machinery and equipment to candidates belonging to village carpentry artisans families. The candidates are paid a stipend of Rs. 30 per month each. This production-*cum*-training centre is equipped with modern machinery and equipment. The trainees are imparted training in the modern pattern of cabinet works. The centre has trained 80 candidates, each for a period of 11 months.

A production wing attached to the Carpentry Centre, Eluru was sanctioned during 1960, to meet the heavy demand for items of quality furniture, by employing skilled workers drawn from trained artisans. The centre switched on to production with effect from 10th January, 1962.

(ii) *Blacksmithy Production-cum-Training Centre, Eluru :* This scheme was implemented during 1956-57 to impart training in improved methods of blacksmithy to candidates of artisan families of village blacksmiths. This unit is a training-*cum*-production centre equipped with modern tools and implements. The centre has trained 81 candidates, each for a period of 11 months. Every trainee was paid a stipend of Rs. 30 per month. The trainees at this centre are imparted training in the manufacture of gas plant drums, improved agricultural implements, angular and tubular trusses, iron grills and other structural items.

(iii) *Coir Production-cum-Training Centre, Mogalthuru :* The centre at Mogalthuru in Narsapur Taluk was established with a view to imparting training to the village artisans to make the best use of the coconut husk available in the surrounding places, usually consumed by the villagers as fuel and to impart training to the village artisans in the retting process of the husk etc., involved in the making of fibre, yarn and manufacture of quality coir products such as door mats, floor matting and coir rope of different varieties. The trainees are paid a stipend of Rs. 20 each. Sixty eight candidates were imparted training at the centre.

(iv) *Production-cum-Tranining Centre for training and manufacturing of Foot-wear at Eluru* : This scheme was implemented with the object of setting up a model tannery and a foot wear manufacturing unit for manufacturing leather and leather products on improved lines and to train candidates from hereditary artisan families in the manufacture of improved leather and its products. This unit is equipped with modern foot wear machinery and a show room and sales depot are also attached to it. The centre has trained 94 candidates each of whom was granted a stipend of Rs. 25 per month.

A General Purpose Engineering Workshop at Tadepalligudem was established to undertake repairs and servicing of old engines, pumps and automobiles and to manufacture simple equipment and implements like pistons, liners, sugarcane juice pans, casting of all cast iron and gun metal products and fabrication of angular and tubular trusses, tractor trailers, platforms, window grills, water tanks etc. The unit actually went into production from 18th April, 1953. The Administrative control of this unit has been transferred to Small Scale Industrial Development Corporation Limited, Hyderabad with effect from 1st July, 1962.

Handicrafts

The story of Indian Handicrafts is as old as the story of man. These crafts too have had their trials and tribulations through a chequered course of centuries of development and have come to us as a precious heritage. The crochet lace industry of Narsapur and the Pile carpet industry of Eluru have been famous for a long time.

Carpet making

Like the silk, and cotton fabrics of these parts, the woollen pile carpets of Eluru

made a name abroad for their quality, colours and designs. The carpets of Eluru are a priced luxury for fashionable people all over the world. "The indigenous weavers make excellent carpets in fine mingled colours, some of them more than 3 yards broad and of great length. They also make other richer carpets of silk or of artificially mixed silk and wool with lovely representations of flowers and figures. The grounds of some rich carpets are even in silver and gold with flowers and figures most excellently disposed. ... The rugs from Eluru were universally admired for their beautiful oriental pattern, fine weave and rich artistic colouring. They seem well adopted to find ready sale in Europe" * was the testimony of Mr. Forbes Royal on the samples sent to the great London Exhibition in 1851. The Eluru carpets were mostly the products of the indigenous wool of the sheep grazed in the deltas of the Godavari and Krishna. However a good portion of the wool required by carpet industry of Eluru comes from Warangal. "Farishkhan" was the most popular designs and the most expensive to make. "Ashunkhani" was also another popular design. The other important varieties are Gulbandi, Navaskhani and Gopalraokhani. The greatest demand in the English markets was for the first two varieties. Even now this industry is concentrated in the vicinity of Eluru town. The industry for the most part is under private management. There is also a Co-operative Society *viz.*, The Eluru Pile Carpet Weavers' Co-operative Purchase and Sales Society Limited, with 200 members and a share capital of Rs. 3,823.50. The main object of the society is to eliminate middle men in the industry and produce quality goods. The Society was recognised by the State Industries Department during 1958. Since then the Government have been giving various forms of assistance to the Society intended for the development of this handicraft.

A scheme for quality marking of woollen pile carpets at Eluru was introduced during 1961 to ensure production of good quality carpets and improve market prospects for the pile carpets in India and abroad. The draft specifications drawn by the Indian Standards Institution are being adopted for the purpose of testing and checking of woollen pile carpets. Five firms have come under the purview of this scheme so far. A well equipped laboratory for testing raw materials utilised in the manufacture of woollen pile carpets has also been established at Eluru.

A wool dyeing and calendaring unit started functioning at Eluru from 7th April, 1958. This is attached to the Eluru Pile Carpet Weavers' Co-operative Production and Sales Society. A working capital loan of Rupees one lakh has been given to the Society besides a non-recurring grant of Rs. 18,500 towards purchase of tools and equipment. A recurring grant of Rs. 59,458 was sanctioned by the Government during the period from 1957–58 to 1961–62 towards managerial expenses including the cost of maintaining technical staff of a Designer and a Dyer. The scoured wool is being supplied to the member workers who in turn supply the carpets manufactured by them to the Pile Carpet Weavers' Co-operative Production and Sales Society Ltd., for sale. Permanent buildings have been constructed for locating the Common Facility Centre for Carpet Industry, Eluru, with an estimated cost of Rs. 26,000.

It may also be mentioned in this connection that *cumbli* weaving is an important industry in the upland taluks of Chintalapudi and in the upland portion of Eluru and Tadepalligudem taluks, where sheep are reared in large numbers.

Crochet Lace Industry

The Crochet Lace Industry at Narsapur owes its origin to the Irish Missionaries who introduced it in the first decade of the 20th century. The laces are, therefore, also known as Irish laces. Various designs of laces such as circular, oval, square and oblong dinner sets and of various sizes ranging from 6 to 72 inches in diameter are being produced. This industry is carried on extensively in Narsapur and Palacole areas of West Godavari district and also in parts of Razole taluk of East Godavari district. The laces are being manufactured as table centres, table runners and table mats fixed under glass sheets, luncheon sets, doilies, bed sheets, window curtains and lace collars etc. The Irish Missionaries used to send these laces in the initial stages as gifts and for collection of donations to some prominent persons in foreign countries. Later the enterprising Joseph and Jonah organised this industry on commercial lines, exporting the laces to the foreign countries. They provide part time work to the lower classes especially for women in this area. The handmade crochet laces of Narsapur find a good market in Australia, New Zealand, Canada and South Africa and earn some foreign exchange. It is estimated that during 1961–62, laces worth Rs. 30 lakhs were exported mainly from Narsapur, Palacole and Seetharampuram.

*Henry T. Havis – Monograph on the Carpet Weaving Industry in South India, 1908 quoted in the "Economic Development of Andhra Pradesh" by A. V. Raman Rao.

A scheme to provide technical supervision and marketing facilities to the existing lace industry was sanctioned during 1960 by the Government of Andhra Pradesh in consultation with the All India Handicrafts Board, New Delhi. The scheme is rendering service to the industry in the direction of supplying new designs, canvassing for sales, execution of export orders through the All India Crochet Lace Exporters' Association and arranging publicity for the industry in different parts of India and abroad.

Another scheme for undertaking quality marking of lace goods at Narsapur was also introduced in 1961. The Technical Committee on Quality Control, All-India Handicrafts Board, New Delhi drafted standard specifications for testing and inspection of handmade crochet laces in consultation with the All India Handmade Crochet Lace Exporters' Association, Narsapur and the specifications recommended by the Technical Committee are being adopted for testing and inspection of crochet lace. Thirty two exporting firms have joined the Quality Marking Scheme.

Sericulture

Sericulture in Andhra Pradesh is an ideal cottage industry closely associated with agricultural activities. A scheme to promote silk industry in this district by conducting demonstrations and encouraging the ryots to grow mulberry gardens was sanctioned by the Government. A silk farm has been established at Chintalapudi under this scheme. In a plot of land measuring 4.08 acres taken on lease by the Government the methods of growing mulberry gardens and sericultural operations like rearing cocoons and reeling silk etc., are demonstrated so that the ryots could rear silk worms and produce cocoons and sell them to the silk farm for producing yarn. A Washpa boiler and a Reeling machine have been installed in the unit to facilitate the reeling operations of the cocoons harvested in the silk farm as well as cocoons harvested by the private growers in an area of about 24 acres at present. One diesel engine with pump set was also purchased to provide irrigation facilities to the Government Silk Farm and also to private mulberry garden growers by allowing its use free of charge.

Assisted Private Industrial Estate, Eluru

Owing to the popularity achieved by the Industrial Estates, there has been a wide spread demand for the establishment of Industrial Estates throughout the State. The Industrial enterpreneurs in this district came forward to establish new small scale industries in the Industrial Estates, if they were located at Eluru, Tanuku or Palacole. However, owing to the limited financial resources available the Government sanctioned a scheme for the establishment of the Assisted Private Industrial Estates at Eluru and Palacole during 1960-61. Under this scheme, the Estate is set up as a joint venture between the Government and the private industrialists. The Government will finance the cost of all common items like the acquisition of land, provision of water supply, drainage, sanitary facilities, electric mains and construction of roads. The occupant industrialists will have to construct the factory buildings on the allotted sites according to approved type designs and install the required machinery and equipment. The industrialists can avail themselves of the liberalised loan assistance upto 60% towards cost of building and 75% towards cost of machinery offered by the Andhra Pradesh State Financial Corporation. These Assisted Estates will enjoy all the privileges of tenants of the conventional estates and will have all the common facilities also such as tool room, raw material depot etc.

A private site measuring about 22.38 acres situated in between Satrampadu and Vatluru villages, abutting the G. N. T. road was acquired for locating the Industrial Estate, at Eluru. Similarly a site measuring 19.00 acres in Pulapalle, hamlet of Palacole, is being acquired. Fully developed plots on the Industrial Estate are allotted to the participants who are required to remit an amount of Rs. 500 towards earnest money deposit as an evidence of their participation in the scheme. The plots are allotted on long lease (50 years) basis. Construction of tube wells, erection of steel overhead tank of 10,000 gallons capacity, formation of approach roads and the construction of administrative building etc., were completed. An amount of Rs. 1,19,719.12 has been spent so far for providing common services and maintenance charges of the Industrial Estate, Eluru.

The following establishments were set up by the participants of the scheme at Eluru.

STATEMENT VIII—4

Name of Establishment (1)	Date of starting (2)	Items manufactured and production capacity (3)
Messrs Annapurna Pulverising Mills, Eluru	14—1—1963	Insecticides, pesticides and industrial minerals - 9½ tons B·H·C. and D·T· and industrial minerals per day
Messrs Venkatesh Electronics	15—4—1962	Transistor Radios and Amplifiers - 250 Radio sets and 50 Amplifiers per month

STATEMENT VIII—4—*Concld.*

Name of Establishment (1)	Date of starting (2)	Items manufactured and production capacity (3)
Messrs Vani Industries, Eluru	25—3—1963	Wire drawing - 3 tons of wire per day ; ½ ton of bandsaw blades
Messrs Vijaya Plastics, Eluru	31—3—1962	Plastic cane and products there of - 1·500 million tons of cane, 0·500 million tons of tubes and 0·500 million tons of plastic articles per month
Messrs Ambica Aromatics, Eluru	1—1—1962	Synthetic essential oils and blending compounds - 200 cwts. of Synthetic essential oils and blending compounds per month
Messrs Venkateswara Industries, Eluru	N.A.	Machine screws
Messrs The Eluru Cement Pipes & Iron Works, Eluru	N.A.	Cement pipes and structural works
Messrs The Eluru Soap Workers Co-operative Society, Eluru	N.A.	Soaps, phenyle etc.
Messrs Balaji Industries, Eluru	N.A.	General Engineering Workshop

The first five establishments have already started production in their units at the Industrial Estate, Eluru. The Assisted Private Industrial Estate at Palacole is taking shape and the industrial entrepreneurs desirous of participating in this scheme have formed themselves into an association *viz.* The Palacole Industrial Estate Promotion Committee.

Development of Village Industries in Blocks

There are about 24 units offering training demonstrations on common facility in different trades as carpentry, blacksmithy, fruit and vegetables preservation etc., in Block areas. The following statement shows the places where these units are located :

STATEMENT VIII-5

Name of Trade (1)	Location (2)
Common Facility Centre, Carpentry/Blacksmithy or both	Gopalapuram Polavaram Jangareddigudem Ganapavaram Akiveedu Mogalthuru Bhimadole Alampuram
Rural Community Workshop	Nidadavole Kovvur Nallajerla
Production-*cum*-Training Centre (Carpentry)	Koyyalagudem
Peripatetic Demonstration Centre in Tape weaving	Pedapadu Chagallu Kommara Kovvali Singaram Katamreddipalem
Common Facility Centre, Brick making	Kunchenapalle
Demonstration Servicing Centre Book binding	Pentapadu
Demonstration-*cum*-Training Centre-*Cumbli* weaving	Kalaparru
Fruits and Vegetable Preservation	Chintalapudi
Common Facility Centre for Coir Industry	Seetharampuram
Peripatetic Demonstration Units in palmyrah and brush making	Bandapuram

In addition to the above centres there are fourteen tailoring and dress-making centres for women and a few other schemes are also under implementation.

Industrial Co-operatives

The emphasis placed in the Second Five Year Plan on the Industrial Co-operatives as a means of promoting Village and Cottage Industries and the liberal financial assistance afforded by the Khadi and Village Industries Commission and other All India Boards besides the assistance of the State Government have given impetus for the formation of a large number of Industrial Co-operatives in the State. These factors have accelerated the pace of progress in the matter of registration of societies in West Godavari district where the number of such of societies increased from 20 at the end of the Second Plan period to 55 by 30th June, 1963. Fifty one of these Societies come under the purview of the Khadi and Village Industries Commission or the State Khadi and Village Industries Board, which are the main financing agencies. Now, the Khadi and Village Industries Board, Hyderabad is financing all the societies which come under the purview of the Khadi schemes to the extent of the pattern fixed by the Board. The following statement indicates the amount of loans and grants provided to the Industrial Co-operatives, trusts and registered institutions by the State Khadi Board during the financial year 1960–61.

STATEMENT VIII-6

	Name of Industry (1)	Loans (in '000 Rs·) (2)	Grants (in '000 Rs.) (3)
1.	Village Oil Industry	22·17	6·39
2.	Hand-pound Rice Industry	3·00	6.12
3.	Non-edible Oils and Soap Industry	10.25	6·15
4.	Village Leather Industry	...	2.96
	Total	**35·42**	**21.62**

To overcome the defects involved in the organisation of Industrial Co-operatives at the village level, it has been proposed to promote large sized

units at the Block level or Shadow Block level as the case may be. The existing Societies of different types will be strengthened adequately by enlarging the area of operation of each such society. If there are two or more small societies they will be amalgamated with the voluntary consent of the general body members of the societies. A statement showing the number of Industrial Co-operative Societies functioning as on 30th June, 1961 is given below:

STATEMENT VIII-7

Name of Industry (1)	No. of Industrial Co-operatives (2)
Tanning and Leather Industry	5
Village Oil Industry	8
Blacksmithy and carpentry	1
Brick and pottery Industry	3
Hand-pounding of Rice Industry	15

A short report on the area survey of West Godavari district conducted under the economic investigation scheme of the Small Industries Service Institute, Government of India, during August-September, 1961 gives an account of the existing industries and suggestions for developing new industries keeping in view the resources available in the district. The entire report is reproduced below for the benefit of the readers.

I. New Industrial Possibilities

1. *Rubberised Coir:*

Rubberised coir is a good substitute for rubber foam.

As coir is available in the district, there are good possibilities for developing this industry.

At present there are no manufacturers of rubberised coir.

The consumption of foam rubber in the State is estimated at Rs. 5 to 6 lakhs per annum.

Though there will be keen competition from the existing manufacturers of foam rubber, it can be expected that rubberised coir will have good market as the blending of rubber and coir gives additional strength to the final product to withstand wear and tear.

2. *Straw Board:*

Paddy straw is available in large quantities in the district.

This can be used for the manufacture of straw board.

There is good demand for straw board.

The annual consumption of card board in the district is estimated at Rs. 1.75 lakhs.

Good growing demand for the product and the availability of raw materials are factors which favour the location of the industry in the area.

3. *Glue:*

Glue manufactured from animal waste is a popular adhesive.

The waste available from tanneries at Eluru can form the basic raw material for glue manufacturing.

The demand for glue arises mainly from Wood Working and Book Binding industries.

A unit for manufacturing glue can be established at Eluru.

4. *Fruit Preservation Industry:*

Fruits can be preserved in the form of chutneys, jams, jelleys, pickles, squashes, etc.

The preserved fruit products have a good market throughout the country.

Bananas, mangoes and citrus fruits are available in plenty in the district.

There is good scope for developing this industry in the district.

5. *Pesticides:*

Pesticides or insecticides have good demand in the district for purposes of plant protection.

Pesticides can be manufactured in the small scale sector.

With the progress in the implementation of the programmes for the development of agriculture, the demand for pesticides may go up further.

There is good scope for establishing this industry in the district.

6. *Canning of Prawns:*

Canned prawns have become quite popular as it is difficult to get fresh prawns at all places.

Prawns are available in plenty in the district in Kollair and Upputeru areas.

There is a good export market available for canned prawns.

There are good possibilities for establishing this industry in the district.

7. *Graphite refining:*

Graphite deposits are found in the district.

The graphite available contains impurities and if refined, this can be used for the manufacture of many items.

Graphite in refined form is required by Graphite Crucible Manufacturers at Rajahmundry.

8. *Dye stuffs:*

Dye stuffs are consumed by woollen pile carpet manufacturers and handloom weavers in the district.

These dyes are at present imported into the district from other manufacturing centres.

There is very good demand for dye stuffs in the State, due to the existence of a large number of handloom weavers.

There is good scope for starting this industry in the area.

9. *Sugarcane wax:*

Sugarcane wax is a subsidiary product of sugarcane processing industry.

Sugarcane wax is a relatively new material and its importance is only being realised by the consumers.

The industry will have to be established beside a sugar mill as to avoid difficulties in transporting raw materials.

The economics of production will have to be worked out in detail, before taking up this industry.

10. *Holdalls:*

With the growth of trade and commerce, there has been an increase in the demand for holdalls due to the increase in the number of travelling public.

There is no unit in the district manufacturing holdalls.

The demand for holdalls is expected to show further increase in the coming years.

The demand for holdalls in the district in 1960 is estimated at Rs. 75,000.

There is good scope for developing this industry in the district.

11. *Paints and Varnishes:*

There is a unit in the cottage sector in West Godavari district manufacturing paints and varnishes.

Besides the production in the district, there are considerable imports of these items for local consumption.

The demand for paints and varnishes in the district in 1961 is placed at Rs. 4.5 lakhs.

The dealers have estimated the demand to rise at an average annual rate of 10 per cent.

There are good possibilities for developing this industry in the district.

12. *Lead Seals:*

Lead seals are used by the Super Phosphate factory at Kovvur for sealing the bags.

These seals are at present imported into the district from Calcutta.

These seals can also be manufactured out of tin scrap.

As the current demand for these seals is not very much, any of the units engaged in the light engineering industry can take up the manufacture of this item.

II. Existing Industries

1. *Light Engineering Industry:*

There are 35 light engineering units in West Godavari district.

The aggregate output of the industry in 1961 is placed at Rs. 11.32 lakhs.

The items generally manufactured by them are rice and oil mill parts, sugarcane crusher parts, etc.

The demand for light engineering items is expected to show considerable increase in the coming years.

The industry has excellent possibilities for development.

2. *Agricultural Implements and Hardware items* :

These items are mostly produced in the district by the traditional blacksmiths.

The aggregate output of the industry in 1961 is placed at Rs. 11 0 lakhs.

Nearly 70 per cent of the total output forms agricultural implements and the rest builders' hardware items.

The demand for agricultural implements and builders hardware items is expected to increase in coming years.

This industry has excellent prospects for development.

3. *Steel Trunks* :

The industry manufacturing steel trunks is fairly well developed in the district.

The aggregate output of the industry in 1961 is estimated at Rs. 6.61 lakhs.

The local manufacturers are selling these items even outside the district.

This industry has moderately good prospects for development.

4. *Domestic Utensils* :

Many types of domestic utensils are being manufactured by the units in the district.

Brass vessels manufactured at Ajjaram are popular in and around the district.

The total production of the industry in 1961 is placed at about Rs. 40 lakhs.

The demand for domestic utensils can be expected to increase further in the coming years.

There are moderately good prospects for developing this industry.

5. *Hosiery Industry* :

There are two units in the district manufacturing hosiery products.

The aggregate output of the industry in 1961 is estimated at Rs. 3.90 lakhs.

The industry is utilising nearly 72% of its installed capacity.

There are fairly good prospects for developing this industry.

6. *Leather Tanning* :

Eluru is the important centre in the district for leather tanning industry.

The total output of the industry is valued at Rs. 70 lakhs.

There is good demand for tanned leather both for internal use as well as export purposes.

Because of the existing idle capacity, this industry is considered as one having moderately good prospects for development.

7. *Cement Products* :

There are nine Small Scale Units in the district manufacturing cement products.

The products manufactured are pipes, poles, slabs. etc.

The main raw materials used are cement and steel wire.

The units in the district are in a position to step up their production as to meet any increase in demand.

8. *Steel Furniture* :

The steel furniture industry is fairly well developed in the area.

The total production of the steel furniture industry in 1960 is placed at Rs. 1.52 lakhs.

The consumption of steel furniture within the district is estimated at Rs. 5 lakhs.

There is a growing demand for steel furniture items.

There are excellent possibilities for developing this industry.

9. *Fountain Pens* :

There are few units manufacturing fountain pens in the district.

The total annual demand for fountain pens within the district is estimated at Rs. 0.80 lakhs.

The existing units meet only a small share of the local demand and they can further increase their production.

10. *Saw Mills* :

There are 18 saw mills in the district.

The total output of the industry in 1961 is estimated at Rs. 2.31 lakhs.

The demand for sized wood is expected to increase considerably in the coming years.

The industry has moderately good prospects for development.

11. *Furniture and Wood Working*:

The units engaged in this industry are manufacturing wooden furniture, building materials, electrical castings, etc.

The aggregate output of industry in 1961 is estimated at Rs. 3.46 lakhs.

The demand for wooden furniture is expected to increase in the coming years.

This industry has moderately good prospects for development.

12. *Printing Press* :

There are 21 Printing Presses in the district.

Some of the presses undertake printing of educational publications.

There are possibilities for getting new job orders in future.

There are moderately good chances for developing this industry.

13. *Chemical Industry* :

Some basic inorganic chemicals are manufactured in the district.

The aggregate production of the industry in 1961 is estimated at Rs. 3.00 lakhs.

The chemicals manufactured by the units in the district have good demand.

The industry has excellent prospects for development.

14. *Fertilizer mixing* :

There are two units in the district manufacturing mixed fertilizers.

The production of the industry in 1961 is placed at Rs. 10.6 lakhs.

Mixed fertilizers have excellent demand in the district.

There are very good opportunities for developing this industry.

15. *Ceramic Industry* :

There are three units in the district manufacturing mostly pickle jars.

The ball clay required for this purpose is available in the district.

The total output of the industry in 1961 is estimated at Rs. 1.60 lakhs.

The industry has moderately good prospects.

16. *Khandasari Sugar* :

There is one unit manufacturing Khandasari Sugar and a second unit is expected to go into production.

The Khandsari Sugar is sold at different centres outside the district.

There are limited possibilities for developing this industry.

17. *Confectionery*:

There is one organised unit in the district manufacturing confectionery items.

There is very good demand for confectionery products.

The annual demand in the district is estimated at Rs. 2.7 lakhs.

There are excellent possibilities for developing this industry.

III: Other Industries:

Polythene tubing

Bicycle assembly and manufacture of components

Wire nails

Agarbathi

III. Other Industries :--*Concld.*	IV. Cottage Industries
Sheet rolling	Woollen carpets
Beedi factory	Laces
Leather foot wear	Boat building

CHAPTER IX

TRANSPORT

The district has good facilities for the transport of passengers and goods by rail as well as road and canals. The east coast line of the Southern Railway runs through the district in a northern direction. From Nidadavole a branch line goes to Narsapur connecting Tanuku and Bheemavaram. Another branch line which starts from Gudivada of Krishna district goes upto Bheemavaram. Thus the delta area of the district is covered by a good net work of railways. The district has a total railway mileage of 122 miles of Broad Gauge. All the taluks with the exception of Chintalapudi and Polavaram are connected by railways. The main Broad Gauge line was constructed during 1893,Gudivada-Bheemavaram Metre Gauge line during 1929, and Narsapur-Nidadavole line during 1930. The Metre Gauge line between Gudivada and Bheemavaram was subsequently converted into Broad Gauge line.

The district has a road mileage of 1,237 miles of which 40 miles consist of National Highways and 507 miles of State Highways. Particulars regarding the National Highways, State Highways, Major District Roads and Other District Roads are given in Table 9.1 in Part II of this Handbook.

The following statement gives the number of motorvehicles registered and on the road for each of the years during 1956-57 to 1960-61.

STATEMENT IX-1

MOTOR VEHICLES REGISTERED AND ON ROAD

Year	Stage Carriages on		Goods Vehicles on		Cars on		Motor Cycles on		Taxis on		Others on	
	Rolls	Road	Rolls	Road	Rolls	Road	Rolls	Road	Rolls	Road	Rolls	Road
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)	(12)	(13)
1956-57	395	395	230	230	526	526	228	228	4	4	556	556
1957-58	415	415	261	261	564	564	254	254	4	4	615	615
1958-59	363	257	274	186	572	511	184	128	5	3	487	327
1959-60	364	241	292	204	642	566	210	148	5	2	543	380
1960-61	365	203	316	211	739	242	233	39	5	2	624	615

The Road Transport Office, Eluru was started as a separate office in the year 1953. Prior to 1953 it was attached to the Regional Transport Office, Rajahmundry which was functioning as the Transport Authority at the district level, for five districts as a whole. Then the Superintendent of Police was the licensing authority empowered to issue driving licences and conductor's certificates and also the Registering Authority empowered to register motor vehicles under the Motor Vehicles Act 1939. These items of work were transferred to the Road Transport Authority in the year 1956. Taxation work was entrusted to the Treasuries which was transferred to this department in the year 1960. In the year 1952, a new tax on motor vehicles (transport vehicles) under the M.M.V. (T. P. & G.) Act, 1952 was introduced and this resulted in considerable increase of work in Regional Transport Offices. There has also been continuous increase in the strength of motor vehicles and this necessitated the establishment of a Regional Transport Office for each district in the year 1953.

It has been the policy of the Government to increase transport facilities to meet the growing demands of the public by granting more and more permits liberally for goods vehicles, contract carriages, stage carriages etc., at the same time keeping in view the business interests of the operators by avoiding unhealthy competition. Twenty four new routes were opened in this district and stage carriages were introduced to facilitate passenger transport during the First Five Year Plan. During the Second Five Year Plan eleven new routes were opened. The sanctioned strength of public carriers was also raised to 400 and permits were granted liberally to all applicants interested in providing goods transport. The Statement IX-2 on the next page indicates the achievements during the first two Five Year Plans :

STATEMENT IX-2

Category of Vehicles (1)	No. as on 1-4-1951 (2)	Increase during the First Plan period (3)	No. as on 1-4-1956 (4)	Increase during the Second Plan period (5)	No. as on 1-4-1961 (6)
Stage Carriages	221	28	226	11	205
Public Carriers	117	7	124	93	217
Private Carriers	48	...	29	14	43
Taxis	4	...	...	2	2

Though 28 permits were added as specified under column 3 during the First Plan period, the strength of the vehicles as on 1st April 1956 was only 226 instead of 249, because of the cancellation of permits which were surrendered. Though 11 more new buses were introduced on new routes as specified under column 5 during the Second Plan period, the number of buses as on 1st April 1961 was only 205 again due to the cancellation of permits on surrender. The following statement shows the particulars relating to new routes opened during the First and Second Plan periods.

STATEMENT IX-3

Name of the Route (1)	Date of opening (2)	No. of buses introduced (3)	Distance (in Miles) (4)
List of new routes opened during the first Plan period			
Eluru to Polavaram *via* Jangareddigudem	28—5—1951	1	64

Mogalthuru to Siddantham	25—4—1960	1	29

The State Transport authority has no original functions in the district. It is the Regional Transport Authority which is functioning in the district under the directions of the State Transport Authority and the Government. The Regional Transport Authority consists of three official members and one non-official member. The official members are the Collector (Chairman), Superintendent of Police and the Divisional Engineer, Highways. All important decisions relating to motor transport in the district are taken by the Board at its meetings held periodically. The Regional Transport Authority has to meet atleast once in two months. The Secretary, Regional Transport Authority and Regional Transport Officer is the Executive Officer of the Board and he executes all the orders passed by it. He can issue temporary permits to transport vehicles, permits to contract carriages subject to ratification of the Board. But generally work like the grant of stage carriage permits, opening of new routes, granting of public carrier permits is done by the Regional Transport Authority at its meeting. Passenger transport (stage carriages) in the district has been completely nationalised by October, 1960 commencing from 1st June 1960.

The road works undertaken in the district during the Second Plan period are described below :

(1) *Forming uniformed portions of Pothavaram-Koyyalagudem Road including the metalling of unmetalled portions*: An amount of Rs. 2,01,766 was spent towards metalling of 8 miles and 3 furlongs of unmetalled portion between Pothavaram and Koyyalagudem.

(2) *Black topping of Koderu—Nallajerla Road from Maruteru to Pippara Road* : An amount of Rs. 3,62,957 was spent towards black topping of 16 miles of Koderu—Nallajerla Road from Maruteru to Pippara road.

(3) *Reconstructing the bridge at mile 59/3 of Pamarru-Palacole Road*: An expenditure of Rs. 2,53,275 was incurred towards the reconstruction of bridge at mile 59/3 of Pamarru—Palacole road.

(4) *Providing black topping to the G. N. T. Road from Gundugolanu to Kovvur*: An amount of Rs. 2,39,340 was spent towards black topping of 10 miles of G. N. T. Road from Gundugolanu to Kovvur.

(5) *Black topping of Tanuku-Attili Road from mile 0/0 to 9/0*: An amount of Rs. 2,07,201 was spent towards black topping of 9 miles of Tanuku—Attili road.

(6) *Black topping of Narasapur—Prakkilanka Road in portions mile 0/0 to 52/0* : An amount of Rs. 1,36,479 was spent towards widening of the road to a length of 4 miles and 6 furlongs and black topping of 4 miles and 2 furlongs of Narsapur—Prakkilanka road.

(7) *Polavaram—Aswaraopet Road—Widening and black topping in the village limits of Jeelugumilli and Jangareddigudem* : An expenditure of Rs. 1,17,369 was incurred towards the widening of the road on both sides in the reach M 31/2 to M 34/0 of Polavaram—Aswaraopet road

(8) *Reconstruction of weak bridge at Brahmanacheruvu on Maruteru—Pippara and Chilakampudi-K. N. Road*: The expenditure on this scheme was Rs. 12,138. The work is still in the initial stages.

(9) *Construction of bridges and culverts on Narsapur-Prakkilanka Road*: An amount of Rs. 7,545 was spent towards the construction of bridges and culverts on Narsapur—Prakkilanka road. The work is yet to be started after settlement of tenders.

(10) *Black topping of Eluru—Chintalapudi Road*: An expenditure of Rs. 1,03,757 was spent towards the black topping of Eluru—Chintalapudi Road. The earth-work has been completed and collection of materials in the 28th and 29th miles is in progress.

(11) *Black topping of Koderu—Nallajerla Road from Tadepalligudem to Nallajerla*: The expenditure on this scheme was Rs. 92,936. Though this scheme was not originally proposed under the Second Five Year Plan, the work has been taken up.

UPGRADING OR ROADS TAKEN OVER FROM THE LOCAL BODIES :

(12) *Construction of bridges and culverts on road from Chintalapudi—Medisettivaripalem Via., Allipalle* : An amount of Rs. 26,599 was spent towards the construction of 5 culverts on Chintalapudi—Medisettivaripalem *Via.*, Allipalle road.

(13) *Improvements to Nallajerla--Pothavaram Road*: An expenditure of Rs. 44,495 was incurred for metalling the road of 4½ miles including the earth work. Collection of metal in 1st and 2nd miles has been completed.

(14) *Improvement of geometrical features on Dammanur—Lankalakoderu Road* : The expenditure on this scheme was Rs. 33,524. Collection of materials is in progress in miles 0/0 to 5/7.

(15) *Upgrading of Dammanur—Lankalakoderu Road Miles 7/0 to 25/4* : An amount of Rs. 2,06,906 was spent towards upgrading Dammanur—Lankalakoderu road. Collection of materials in 7/4 to 26/7 for black topping work has been completed.

(16) *Construction of bridges and culverts on Eluru—Chintalapudi Road* : An amount of Rs. 72,574 was spent towards this scheme.

(17) *Construction of a bridge in Mile 1/1 of Narasapur-Prakkilanka Road :* The expenditure on this scheme was Rs. 81,486.

(18) *Black topping of Pamarru—Palacole Road in appropriate reaches :* The total cost of this scheme was Rs. 99,052.

(19) *Black topping Undi--Pippara Road from M 0/0 to 14/1 in appropriate reaches* : An amount of Rs. 40,009 was spent towards black topping of road of length one mile of Undi-Pippara road.

(20) *Black toppingKoderu--Nallajerla Road M 0/0 to 8/3* : The expenditure on this scheme was Rs. 72,804.

(21) *Cement concreting Pamarru—Palacole Road between M 51/2 to 52/0 in Bheemavaram Municipal Limits* : An amount of Rs. 54,351 was spent on this scheme.

(22) *Forming the road from Mogalthuru to Mallaparupalem hamlet of Perupalem* : An amount of Rs. 25,146 was spent towards the formation of road of one mile between Mogalthuru and Mallaparupalem.

Maintenance of District Board Roads taken over by the Government :

An amount of Rs. 1,81,849 was spent towards maintenance of roads of length 53 miles and 7 furlongs of District Boards taken over by Government. The expenditure incurred on the maintenance of those roads is as follows :

STATEMENT IX-4

Name of the Road (1)	Length (2)	Expenditure Incurred (3)
	M.F.	Rs.
Maintenance of Chintalapudi—Medisettivaripalem Road *via.* Allipalle	15-5	17,256
Maintenance of Tanuku-Attili Road	9-2	44,116
Maintenance of Bheemavaram—Pippara Road	10-5	11,667
Maintenance of Road from Dammanuru to Tanuku	5-7	15,089
Maintenance of Penumantra—Veeravasaram Road	7-6	60,908
Maintenance of Devarapalle Gopalapuram Road	4-6	32,813
Total	**53-7**	**1,81,849**

Spill over schemes—Other Roads :

The following eight schemes left unfinished in the First Plan period were taken up as spill over works under the Second Five Year Plan.

(1) *Forming a Road from Vegavaram-Pedavegi—Ramasingavaram—Badarala Road* : An amount of Rs. 11,817 was spent towards formation of road from Vegavaram--Pedavegi-Ramasingavaram-Badarala.

(2) *Forming a Road from Krovvidi to Chinakapavaram :* The expenditure on this scheme was Rs. 2,805.

(3) *Forming a Road from Cherukuvada to Athamur* : An amount of Rs. 2,496 was spent towards this scheme.

(4) *Metalling Moparru Village Road :* The expenditure on this scheme was Rs. 2,715.

(5) *Metalling Akividu--Chinkapavaram Road :* An amount of Rs. 76,574 was spent towards metalling of Akividu-Chinakapavaram Road and the work has been completed.

(6) *Metalling Krovvidi--Ganapavaram Road :* An expenditure of Rs. 58,344 was incurred on this scheme.

Spill over Schemes–State Roads :

(1) *Metalling the road from Devulapalle to Dubacherla* : An amount of Rs. 22,542 was spent towards construction of culverts and road dam between Devulapalle and Dubacherla.

(2) *Widening and metalling the Godavari Flood Bank from Kovvur to Tallapudi* : The expenditure on this scheme was Rs. 30,199.

CHAPTER X

HEALTH

The climate is generally healthy throughout the district. The hilly areas of the Polavaram taluk are a little cooler than the plains in the months of December and January. Cholera and Smallpox are the two major communicable diseases prevalent in this district. Leprosy and Guinea-worm infection (*Dracontiasis*) are also noticed in a few taluks.

Births and deaths :

Births and deaths registration is compulsory throughout the district with the exception of Polavaram taluk. The registration is usually being done by Village Munsiffs who are designated as Births and Deaths Registrars under the provision of Births and Deaths Registration Act (Act III of 1899) as modified upto 31st March 1963. But the Government in consultation with the Board of Revenue and the Inspector General of Local Administration have directed the Executive Officers of notified Panchayats to undertake the work relating to the registration of Vital Statistics in their respective areas. The village vital statistics returns are being scrutinised by the Health Inspectors of the respective taluks and forwarded to the Director of Public Health, Hyderabad. The following statement gives the number of registered births and deaths and the birth and death rates for the years 1951 to 1960, as furnished by the State Public Health Department, separately for the Plains and Agency portions of the district.

STATEMENT X-1

Year	No. of births	Birth rate per 1,000 population	No. of deaths	Death rate per 1,000 population
(1)	(2)	(3)	(4)	(5)
		Plains		
1951	41,558	25.85	26,556	16·52
1952	44,383	27·23	26,705	16·38
1953	45,675	27·65	26,963	16.32
1954	45,500	27.18	24,634	14.72
1955	44,390	26·18	21,833	12.87
1956	47,324	27·55	21,821	12·70
1957	42,644	24·51	20,010	11·50
1958	40,934	23·23	20,877	11·85
1959	40,297	22.59	16,362	9·17
1960	40,401	29.37	17,101	9·47
		Agency		
1951	2,825	28·83	1,955	19·95
1952	3,287	33.24	1,963	19·85
1953	3,614	36·11	1,876	18·74
1954	3,077	30.37	1,574	15.54
1955	3,493	34.07	1,506	14·69
1956	3,393	32·70	1,548	14·92
1957	2,252	21.45	1,155	11.00
1958	2,680	25·23	1,315	12.36
1959	2,301	21·42	1,044	9·72
1960	730	6·73	319	2·94

In view of the well known defects in the registration of Vital Statistics and the consequent inaccuracies in the published data, no detailed analysis of the birth and death rates is worthwhile. However, it may be observed that even though a consistent declining trend is not observed in the birth rate, such a tendency is clearly discernible in the matter of death rates.

The following statement illustrates infantile mortality rate and maternal mortality rate yearwise *from 1951 to 1960.*

STATEMENT X-2

Year	Infantile mortality rate: No. of infant deaths per 1,000 live births	Infantile mortality rate: No. of still births per 1,000 births	No. of live births per 1,000 births	Maternal mortality rate: No. of maternal deaths per 1,000 births (Live and still)
(1)	(2)	(3)	(4)	(5)
		Plains		
1951	148.44	N·A·	N·A·	7·40
1952	143·77	N·A.	N.A·	9·25
1953	138.24	N·A·	N.A·	8·11
1954	143.23	9.20	990.80	7·10
1955	136·00	10·01	989.99	5.42
1956	133·40	9·50	990,50	5.11
1957	114·62	9.20	990·80	5.88
1958	101.16	10.30	987.70	4.76
1959	93.73	11·36	989.64	4·34
1960	105.29	12.30	987.70	4·18
		Agency		
1951	149.38	N.A.	N·A·	10.56
1952	148.16	N·A·	N·A.	10.58
1953	124·79	N.A.	N·A.	8·72
1954	135·20	6·4	993·6	9.69
1955	107.64	6.8	993·2	6.54
1956	142·35	4·1	995.9	9·98
1957	111.46	Nil	1,000.0	13.77
1958	73.13	1.9	998.1	5.96
1959	97.78	3·03	996·9	6·50
1960	90·41	Nil	1,000·00	2.74

It is observed from the above figures that there has been a noticeble decline in the infant mortality rate and maternal mortality rate both in the Plains and Agency areas of the district which can be mainly attributed to the effective implementation of several plan schemes under Health and Medical Services.

Control of Communicable diseases :

Cholera : The main reason for the incidence of cholera is the absence of protected water supply schemes in almost the entire district. The disease is more or less restricted to the deltaic taluks of Bheemavaram, Tanuku, Narsapur and Tadepalligudem where, sources of drinking water are mainly canals, irrigation channels and tanks. In these taluks the sub-soil water level is high and is subject to pollution by outside contamination. Further, the water tapped from bore-wells is also brackish and is not used by the people for drinking purposes.

Cholera was prevalent in a very severe form during the years 1953 and 1954 and resulted in a large number of attacks and a considerable number of deaths. It was also prevalent in an epidemic form in the years 1956, 1958 and 1959. In the remaining years of the decennium ending 1961 the disease was prevalent in a sporadic form. All preventive measures such as isolation and treatment of the patients, disinfection of the infected houses and thorough and systematic chlorination of water supplies were organised to bring the disease under control Preventive inoculations were also administered on a mass scale in the affected villages. Particular care was taken during the transplantation and harvesting seasons when a large number of agricultural labourers migrate to the district from outside. The following statement shows the number of deaths due to cholera during 1951–60.

STATEMENT X-3

Year	Deaths due to Cholera in	
	Plains	Agency
(1)	(2)	(3)
1951	131	16
1952	128	3
1953	412	7
1954	332	...
1955	2	13
1956	252	7
1957	70	...
1958	309	10
1959	122	...
1960	3	...

Smallpox : Smallpox was prevalent in a severe form in the years 1951 and 1958 and resulted in a very large number of attacks and relatively heavy mortality. Preventive measures such as isolation of the attacked persons, disinfection of infected clothing and mass vaccination were carried out to bring the disease under control. A smallpox pilot project scheme was sanctioned in this district during 1960-61 and the entire district was taken up for vaccination. On the average 70% of the population was covered by this scheme. A statement showing the number of deaths due to smallpox yearwise during 1951–60, is given below :

STATEMENT X-4

Year	Deaths due to smallpox in	
	Plains	Agency
(1)	(2)	(3)
1951	461	38
1952	169	2
1953	113	3
1954	156	4
1955	60	7
1956	191	8
1957	199	18
1958	365	2
1959	170	6
1960	63	...

Leprosy : It is prevalent in Narsapur and Tanuku deltaic taluks wherein facilities for treatment are provided in the respective taluk headquarters hospitals. There is one Leprosy Subsidy Centre maintained by the Government at Tanuku. There is one Bethedsa Leprosy Hospital at Narsapur with 200 beds. It is maintained by a Christian Mission. The State Government are helping the institution by granting a capitation grant of Rs. 9 per month for each patient.

Guinea-worm : Guinea-worm infection is prevalent in Tadepalligudem, Kovvur, Eluru and Chintalapudi taluks where the biological method of control of Guinea-worm infection is in progress under the direct supervision of the District Health Officer.

Maternity and Child Health Services :

There are 46 Maternity and Child Health Centres in the district which are rendering skilled Maternity and Child Health Services and are functioning under the administrative control of the Zilla Parishad, Panchayat Samithis, Municipalities, Panchayat Boards etc., and the Agency Development Scheme, "A plan for each family" scheme under Mahila Mandalis and Rural Backward Areas Scheme. Some

Maternity and Child Health Centres attached to Primary Health Centres are also functioning in this district. The following is the breakup of Maternity and Child Health Centres under different heads in the district.

Under Zilla Parishad	2
Under Panchayat Samithis	16
Rural Backward Area Scheme	1
A Plan for each family Scheme	1
Under Municipalities	5
Under Panchayat Samithis	7
Agency Development Scheme	2
Under Mahila Mandali with the aid of Social Welfare Department	1
Attached to Primary Health Centres	11
Total	46

Primary Health Centres :

In the 20 Panchayat Samithi Blocks formed upto the end of 1961, 14 Primary Health Centres were established and were functioning satisfactorily. These Primary Health Centres are under the charge of Medical Officers for rendering medical aid, Health Visitors for Maternity and Child Health Services and Family Planning and Health Inspectors and Health Assistants for Public Health work. For the benefit of the people drugs and diet supplements, equipment and milk powder are being supplied to Primary Health Centres under UNICEF aid. Three Primary Health Centres at Bhimadole, Gopalapuram and Koyyalagudem are supplied with UNICEF vehicles for the transport of Medical, Health and Public Health personnel and drugs and disinfectants to the interior villages. The list of Primary Health Centres with their location, year of inauguration and names of the Blocks in which they are situated is given below :

STATEMENT X-5

Taluk	Location	Date of inauguration	Name of the Block
(1)	(2)	(3)	(4)
Eluru	Dendulur	1961	Dendulur
	Bhimadole	1961	Bhimadole
	Pedapadu	1961	Pedapadu
Tadepalligudem	Mudunuru	1960	Pentapadu
	Peda Nindrakolanu	1961	Ganapavaram
	Venkatramannagudem	1961	Nallajerla
Kovvur	Malakapalle	1961	Kovvur
	Gopalapuram	1958	Gopalapuram
Polavaram	Koyyalagudem	1959	Koyylagudem
Bheemavaram	Kalla	1960	Akividu
Narsapur	Mogalthuru	1959	Mogalthuru
	Medapadu	1961	Narsapur
Tanuku	Manchili	1961	Attili
Chintalapudi	Dharmajigudem	1958	Chintalapudi

School Health Services :

This scheme is not functioning in this district. But the medical officers of Public Health Centres and Public Health staff of this district are advising the teachers and pupils about sanitation, upkeep of the schools and health of the children from the point of personal cleanliness and food nutrition during their routine visits.

Environmental Sanitation :

Public Health Act is in force in all the taluks of the district excepting Polavaram taluk. There are rural sanitation maistries appointed one for each taluk to propagate the utility of private and public latrines. They also attend to the construction of borehole leach type and septic tank latrines to mitigate the soil infection and thus avert the spread of infection.

Food Nutrition and Food Adulteration :

The expanded nutrition programme was organised with effect from 1st April 1962 in this district in Primary Health Centre, Malakapalle, Kovvur taluk. The aims of the Project are to increase village and home production of nutritionally valuable foods such as poultry, eggs, fish, fruit and vegetables and distribution of nutritious food by the women committees or by other appropriate community groups to improve the health of pregnant women and nursing mothers and young children in the houses.

Food Adulteration Act has been extended to all the five Municipalities of this district and five Panchayats of the district *viz.*, Polavaram, Tanuku, Kovvur, Nidadavole and Akividu. Samples of food articles intended for human consumption are being collected and sent to the Government Analyst for chemical examination.

Health Education and Propaganda :

Health education and propaganda in the district is being attended to by the Public Health staff by means of talks and lectures on different health subjects. Exhibitions are being held in connection with Children's Day and Family Planning Day. An exhibition was held during the 13th All India Sarvodaya Sammelan in this district in 1961. It attracted a large number of people.

Family Planning :

In pursuance of the decision of the Government of India to include Family Planning Programme in

the Second Five Year Plan, four Family Planning Clinics were opened at Koyyalagudem, Dharmajigudem, Bhimadole and Gopalapuram. During 1960-61, seven Centres were opened in the following places:

1. Mogalthuru
2. Kalla
3. Peda Nindrakolanu
4. Malakapalle
5. Venkatramannagudem
6. Mudunuru
7. Denduluru

During the year 1961-62 seven more Centres were opened in the following places:

1. Manchili
2. Kamavarapukota
3. L.N.D. Peta
4. Buttayagudem
5. Tademalla
6. Pedapadu
7. Medapadu

Family Planning Centres at Dharmajigudem, Bhimadole, Koyyalagudem and Gopalapuram were handed over to the respective Panchayat Samithis with effect from 1st April 1961. The remaining Family Planning Clinics excepting those at Buttayagudem, Kamavarapukota are attached to Primary Health Centres. Each Family Planning Centre is manned by one Health Visitor and one Ayah.

Water Supply Schemes:

Eluru and Palacole Municipalities have protected water supply. Schemes for providing protected water supply in the remaining three municipalities *viz.*, Narsapur, Bheemavaram and Tadepalligudem are being investigated. Protected water supply schemes were also executed in Village Panchayats like Pandithavilluru, Akividu, and Ganapavaram, Peda Nindrakolanu. Construction of drinking water wells, repairs to the existing wells and tanks are being undertaken by the Panchayat Samithis. During the year 1961, 57 new wells were constructed and 203 wells and tanks repaired in this district.

In addition to the above schemes, the following schemes are also being implemented in this district.

A Plan for each family:

This scheme is being organised in Tadupudi village of Polavaram taluk (Koyyalagudem Panchayat Samithi). The object of this programme is to inculcate in every person the civic sense for making each dwelling well ventilated and spacious and to provide soakpits and smokeless chullas and to provide facilities for the removal of garbage and provision of latrines. Further, the programme contemplates vaccination against smallpox and inoculation against cholera.

Agency Development Scheme:

This scheme is functioning in Koruturu and Kondrukota villages of Polavaram taluk in order to render skilled Maternity and Child Welfare *Service to the hill tribes.*

Rural Backward Areas Scheme:

This scheme is implemented in Polavaram, L. N. D. Peta, Puliramudugudem and Ramannagudem to render skilled maternity and child health services and for the distribution of milk powder, drugs and diet supplements supplied under UNICEF aid.

Dais Training Programme:

This scheme is intended for giving training to Dais in skilled maternity and child health services on remuneration basis. Training was imparted to Dais in the following places.

STATEMENT X-6

Name of Training Centre (1)			No. of Dais trained (2)
Primary Health Centre,	Bhimadole	...	30

Training of Additional Compounders : It was proposed to train additional compounders in order to meet the requirements of Primary Health Centres and other medical institutions proposed to be set up in this district. During the Second Plan period 112 compounders were trained and an expenditure of Rs. 5,472 was incurred.

Training of Additional Midwives and Auxiliary Nurse Midwives : Under this scheme 25 midwives and 78 auxiliary nurse midwives were trained and an amount of Rs. 1,04,562 was spent during the Second Plan period.

Establishment of a Tuberculosis Clinic at Headquarters Hospital, Eluru : One Tuberculosis Clinic was established at Eluru with a bed strength of 40 and at an expenditure of Rs. 42,118.

Family Planning Clinic : As against two Family Planning Clinics proposed at Eluru during the Second Plan period only one Clinic was started at Eluru at an expenditure of Rs. 20,841.

E.N.T. Clinic : An E.N.T. Clinic was started at the District Headquarters Hospital, Eluru at an expenditure of Rs. 16,654.

Venereal Diseases Clinic, Eluru : A Venereal Diseases Clinic was started at Eluru and an expenditure of Rs. 21,995. was incurred on this account.

Eye Clinic, Eluru : The existing Eye Clinic was upgraded at an expenditure of Rs. 16,101.

Establishment of District Laboratories : A district laboratory was established at Eluru during the year 1958-59 to carry out analysis of water, food and drugs etc., at an expenditure of Rs 22,497.

Opening of Dental Clinic, Eluru : A dental clinic was opened at the District Headquarters Hospital, Eluru during the year 1959-60 at an expenditure of Rs. 24,989.

Establishment of a Blood Bank at Eluru : A Blood Bank was established in the District Hospital at Eluru at an expenditure of Rs. 9,827.

Provincialisation of Local Fund Hospitals : As the Local Fund Hospitals situated at the taluk headquarters are not well equipped, Government proposed to take over these institutions and upgrade them. During the Second Plan period, the Local Fund Hospitals at Tadepalligudem and Nidadavole were provincialised with a total expenditure of Rs. 63,543 in 1956-57 and 1957-58.

Control of Leprosy (Leprosy Subsidiary Centre and Skin Clinic at Tanuku): A Leprosy subsidiary Centre and Skin Clinic were started at Tanuku during the Second Plan Period at an expenditure of Rs. 1,05,265.00 in the year 1957-58.

Establishment of Primary Health Centres : Three Primary Health Centres at Malakapalle, Gopalapuram and Venkataramannagudem were established and the Medical Officers' quarters were constructed. The total expenditure under this scheme was Rs. 71,000.

Buildings :

The following building schemes were sanctioned during the Second Five Year Plan period :

(i) *Construction of buildings for new Headquarters Hospital at Eluru* : An amount of Rs. 3,57,000 was spent under this item.

(ii) *Construction of a second floor in Men's Ward of new Headquarters Hospital to serve as quarters for 25 internee students* : An expenditure of Rs. 70,000 was incurred under this item.

(iii) *Providing a cement pavement drain from 'A' Block to 'B' Block in the Headquarters Hospital, Eluru* : An expenditure of Rs. 7,000 was incurred under this item.

(iv) *Construction of buildings for the Government Dispensary and quarters for staff at Jeelugumilli* : Construction of a ward with four beds and quarters for Civil Assistant Surgeon, Compounders and Midwives was completed and the building for Out Patient Dispensary was nearing completion by the end of 1960-61. An amount of Rs. 71,000 was spent under this scheme.

(v) *Improvements to Government Hospital at Polavaram* : The work was completed and an expenditure of Rs, 39,000 was incurred under the Agency Development Scheme. A Maternity Ward of four beds and an Operation Theatre were constructed in the Government Hospital, at Polavaram.

(vi) *Construction of quarters for the Medical Officers at Koyyalagudem* : The work was completed and the expenditure on this account was Rs. 9,052.

(vii) *Construction of Maternity Ward of eight beds in the Government Hospital, Bheemavaram* : Construction of R.C.C. Roof slab over the entire ward was completed by 1960-61 and

an expenditure of Rs. 62,113 was incurred. The remaining construction work was expected to be completed shortly.

Increase in bed strength during the Second Plan period :

The bed strength was increased from 95 to 200 in the Government Headquarters Hospital, Eluru; from 30 to 50 in the Government Hospital, Tanuku; from 20 to 32 in the Government Hospital Kovvur; and from 8 to 16 in the Government Hospital, Bheemavaram.

Other important improvements in medical aid in the district include the E.S.I. Dispensary with one Civil Assistant Surgeon and a Woman Assistant Surgeon functioning at Eluru and the two Mobile Medical Units started at Kamavarapukota and Polavaram to provide medical facilities in the backward areas.

CHAPTER XI

EDUCATION

A person who could both read and write any language was treated as a literate at the 1961 Census. A person who could merely read but could not write was not treated as a literate. The test for reading is the ability to read any simple letter either in print or in manuscript. The test for writing is the ability to write a simple letter. Children aged 4 years and below were treated as illiterates. If a person had been successful in a recognised examination or examinations, the highest qualification so obtained was taken as the level of education of that individual. A statement showing the 1961 Census data relating to total population, literate and educated persons and percentage of literates and educated persons to the corresponding population in case of males and females in rural and urban areas talukwise is given below :

STATEMENT XI-1

District/Taluk		Total population			Literates			Percentage

West Godavari district ranks quite high among the districts of the State in the matter of literacy. It stands third among the districts, the top two being Hyderabad and Krishna districts. In regard to female literacy this district is even more prominent occupying the second place among the districts of the State. The number of schools and colleges of different types, number of scholars and number of teachers as on 31st March 1961 are as given in the following statement :

STATEMENT XI-2

Type of Institute	No.	Scholars		Teachers	
		Boys	Girls	Men	Women
(1)	(2)	(3)	(4)	(5)	(6)
Pre-Primary Schools	14	283	335	8	9

The distribution of the literate and educated persons in this district according to different age-groups and educational levels is given in Table C-III printed in Part III of this Handbook.

Considerable attention has been paid to the subject of education under the Five Year Plans, particularly in regard to basic education, social education and compulsory primary education. The system of universal free and compulsory education was introduced in this district during 1960-61 and an intensive drive for enrolement of children in the age-group 6-11 years was undertaken. During the Second Plan period an additional post of District Educational Officer was created and a new office was set up at Tanuku with effect from 15th May 1959. The schemes implemented in the district during the Second Plan period are described below :

Development of Pre-Primary Education :

An amount of Rs. 18,320 was spent towards opening of a Pre-Primary School and Pre-Primary Training sections for training of teachers in the Basic Training School at Pentapadu. Though the total allotment was Rs. 73,300 the actual expenditure worked out to 25% of the financial target while the physical target was achieved in full.

Development of Primary Education :

For the development of primary education it was proposed to open 80 new Primary Schools, 40 Basic Type Schools, 40 Non-Basic Type Schools and 5 new Middle Schools besides opening 137 new sections in the existing Middle Schools in the district. The scheme comprises (a) enrolment of pupils of 6-11 Age-group and (b) enrolment of pupils of 11-14 Age-group.

(a) ENROLMENT OF PUPILS OF 6-11 AGE-GROUP :

(i) *Grant-in-aid to Aided Primary Schools opened and additional teachers appointed :* An amount of Rs. 39,513 was spent towards grant to six Primary Schools.

(ii) *Grant-in-aid to Aided Junior Basic Schools opened and additional teachers appointed :* An expenditure of Rs. 86,239 was incurred and twenty four Junior Basic schools received grants under this scheme.

(iii) *Appointment of additional teachers in the existing Elementary Schools* : Four additional teachers were appointed and the expenditure incurred was Rs. 21,890.

(iv) *Supply of free mid-day meals to Primary School Children* : Fourteen Blocks were fully covered under this scheme and an amount Rs. 18,247 was spent for the purpose.

(b) ENROLMENT OF PUPILS 11–14 AGE-GROUP :

(i) *Opening of a new Middle School at Jeelugumilli* : A Middle School was opened at Jeelugumilli in the year 1958–59 and an expenditure of Rs. 40,930 was incurred.

(ii) *Improvement of salaries of teachers in Primary and Middle Schools* : An amount of Rs. 61,558 was spent for this item.

(iii) *Grant-in-aid to Local Board Middle Schools and opening of additional sections* : An amount of Rs. 9,869 was spent towards opening of additional sections in the Local Board Middle Schools.

(iv) *Grant-in-aid to Higher Elementary Schools converted into Aided Middle Schools* : Under this scheme an amount of Rs. 17,940 was spent towards converting two Higher Elementary Schools into Aided Middle schools.

Development of Secondary Education :

(i) *Opening of additional sections in Government High Schools* : An amount of Rs. 10,318 was spent towards opening of additional sections in two Government High Schools.

(ii) *Improvement of salaries of Secondary School Teachers and Deputy Inspectors* : The expenditure for this purpose was of Rs. 1,46,119 and all the Secondary School Teachers and Deputy Inspectors of Schools in the district were benefited.

(iii) *Sanction of stipends to girls in classes X and XI* : An amount of Rs. 17,358 was spent towards grant of stipends to 230 girl students.

(iv) *Relief to economically backward classes by refund of S.S.L.C. Examination fees* : The expenditure incurred on this scheme was Rs. 7,000.

(v) *Free education upto Third Form–payment of compensatory grants to managements* : Under this scheme all the Secondary Schools were given compensatory grants amounting Rs. 4,92,113.

(vi) *Appointment of Physical Directors in Government Higher Secondary Schools* : An amount of Rs. 3,520 was spent towards the appointment of one Physical Director in the Government Higher Secondary School, Polavaram during 1959–60.

Development of Technical and Vocational Education (Non-University Training Schools) :

(i) An amount of Rs. 1,727 was spent towards filling up the post of a Craft Inspector in the Government Basic Training School for Women, Narsapur.

(ii) Three peons were appointed in three Government Basic Training Schools at the rate of one in each school and the expenditure on this account was Rs. 1,384.

(iii) An amount of Rs. 8,613 was spent towards appointment of the teachers in the Government Basic Training School, Narsapur and opening of one Higher Elementary Grade Training Section.

(iv) An expenditure of Rs. 2,125 was incurred towards supply of craft equipment to all Basic Schools.

(v) An amount of Rs. 1,798 was spent towards upgrading of the post of Headmaster in the Government Basic Training School Gopannapalem.

Development of Higher Professional and Technological Education :

An amount of Rs. 41,861 was spent towards the appointment of drawing masters and part-time Hindi teachers and upgrading the posts of Headmasters in Government Training Schools.

The particulars of miscellaneous schemes undertaken for the development of education are given in the statement XI–3 on the next page.

STATEMENT XI-3

Scheme (1)	Expenditure (in Rs.) (2)
Appointment of additional clerks .	8,759
Appointment of additional Deputy Inspectors . . .	12,699
Appointment of additional staff in District Educational Officer's Office .	4,578
Appointment of additional staff in District Educational Officer's Office for implementation of free education upto Third Form . .	4,958
Appointment of 56 candidates as teachers for relieving educated unemployment . .	22,243
Appointment of a Special Deputy Inspector . . .	5,169
Appointment of additional District Educational Officer in the headquarters at Tanuku . .	71,827
Maintenance of Jeep supplied to District Educational Officers, Eluru and Tanuku . .	5,364
Attendance scholarships for 2,775 girl students in Classes I to VIII .	29,990
Reorganisation of offices of Deputy Inspectors on Block basis .	2,403

Educational Schemes implemented in the Agency Areas :

(i) An amount of Rs. 13,848 was incurred towards opening of 10 sheds for Elementary Schools in the Agency areas.

(ii) An amount of Rs 24,541 was spent towards construction of Government Elementary Schools in the Agency areas.

(iii) Pucca buildings for schools were constructed in the Agency area at a cost of Rs. 82,896.

(iv) Books, slates and clothing were distributed free of cost to 14,638 tribal children attending schools in the Agency areas ; the expenditure on this account was 73,130.

(v) An expenditure of Rs. 2,120 was incurred towards payment of an increased rate of boarding charges at 9 pies per boarder.

(vi) An amount of Rs. 10,500 was spent towards opening of a Deputy Inspector's Office at Buttayagudem.

(vii) An expenditure of Rs. 2,062 was incurred towards increasing the number of boarders in the Government Primary Boarding Home at Kondrukota.

(viii) A new mid-day meals centre was opened at Pidathamamidi at a cost of Rs. 1,325.

Development of University Education :

Under this scheme a provision of Rs. 82,000 was made for improving the Arts and Science Colleges in the district. An expenditure of Rs. 40,000 for providing additional staff on account of the opening of new courses, Rs. 2,000 towards direct grants to Non-Government Arts Colleges for buildings and Rs. 40,000 for providing furniture and equipment was incurred.

Technical Education :

An amount of Rs. 4.00 lakhs was spent towards the establishment of a private polytechnic at Tanuku and the institution began functioning from the year, 1958–59.

CHAPTER XII

SOCIAL WELFARE

Social Welfare is of paramount importance in any Welfare State especially in the programme of planned development. Hence, due share has been given in the Five Year Plans for the Social Welfare programmes. The aim of the social Welfare Programme is to improve the economic and social conditions of the backward sections of society and establish an equilibrium in the structure of the society. Particular emphasis is therefore laid on promoting the educational and economic interests of backward communities, particularly the Scheduled Castes, Scheduled Tribes and Vimukta Jathis (Ex-Criminal Tribes) and other Backward Classes and protecting them from social injustices. The Scheduled Castes have been suffering from the stigma of untouchability and are victims of extreme social and economic backwardness. The Scheduled Tribes living in their traditional life mostly in the forest and hilly areas are economically very backward and most of them are still leading a primitive type of life. The Social Welfare Department has therefore been specially constituted to implement the social welfare programmes of the Government. There is a District Social Welfare Officer in each district with the necessary ancillary staff for this purpose. Consequent upon the creation of Zilla Parishads and Panchayat Samithis in 1959 all schemes concerning the Scheduled Castes, and other Backward Classes have been transferred to the Panchayat Samithis and Zilla Parishads but the overall responsibility continues to be vested with the Director of Social Welfare.

Various ameliorative measures for the welfare of the Scheduled Castes, Scheduled Tribes, Vimukta Jathis (Ex-Criminal Tribes) and other Backward Classes were taken up both under State Schemes and under the Centrally Sponsored Schemes during the first Five Year Plan and such schemes were intensified during the Second Five Year Plan. The schemes undertaken during the Second Plan period are briefly explained below :

Grant-in-Aid Schemes :

Construction of Government Hostels and school buildings, provision of sanitary amenities like pathways, latrines etc., acquisition of house sites, construction of houses and drinking water wells, financial assistance to develop cottage industries, provision of medical aid and mid-day meals etc., were undertaken as grants-in-aid schemes to ameliorate the conditions of Scheduled Castes, Denotified Tribes (Vimukta Jathis) and other Backward Classes.

Schemes for Scheduled Castes : During the Second Plan period 27 Government Hostels, 34 school buildings, 324 residential houses for Harijans, 40 residential houses for Scheduled Tribes such as Yerukalas and Sugalis, and 44 drinking water wells were constructed. Thirtysix *cheris* were provided sanitary amenities and an amount of Rs. 3,50,313 was expended for the acquisition of house sites.

Scheme for Denotified Tribes (Vimukta Jathis) : Slates and books were provided free of cost to 190 children and clothing to 280 children of the Denotified Tribes. 107 families were given financial assistance to develop cottage industries and 17 families to develop agricultural activities. Three hundred and twenty six persons were given financial assistance to construct or repair their huts. Sixteen persons were given medical aid.

Schemes for Backward Classes : In order to provide mid-day meals to Backward Class children a sum of Rs. 9,543 was expended. Backward class students studying in High Schools and Colleges were given boarding grants in subsidised hostels at the rate of Rs. 150 per annum per boarder.

Centrally Sponsored Schemes :

Apart from the grants-in-aid schemes mentioned above some more schemes were undertaken as Centrally Sponsored Schemes to ameliorate the conditions of the Scheduled Castes, Scheduled Tribes and Backward Classes as detailed below.

Schemes for Scheduled Castes : During the Second Plan period twenty-nine drinking water wells were constructed and one dress making centre was opened and 160 residential houses were constructed for the Scheduled Castes.

Schemes for Scheduled Tribes : Three hundred persons were supplied clothing free of cost and twenty house sites were acquired during the Second Plan period. Nineteen bulls were supplied under the scheme of supplying better breeds of livestock in the Agency areas where there is plenty of pasture land.

Hundred and twenty members were given vocational aid. Eight Co-operative Societies were organised. Five drinking water wells and forty two residential houses were constructed.

Schemes for the Backward Classes : Financial assistance was given to 100 families belonging to the Backward Classes to develop the cottage industries. Thirtysix residential houses and two drinking water wells were constructed. Thirtyfour bulls were supplied during the Second Plan period.

The following statement gives the financial and physical targets and the achievements during the Second Five Year Plan under the various schemes undertaken both as Grants-in-Aid Schemes and as Centrally Sponsored Schemes.

Women's Welfare

The programmes for the improvement of economic, social and cultural status of women are being implemented by the Women's Welfare Department headed by the Director of Women's Welfare. The programmes include varried activities like adult literacy campaign, cottage industries, rehabilitation of destitute women, child welfare, welfare of Tribal Women etc. At the district level there is an District Women's Welfare Officer with suitable ancillary staff to implement the programmes. The activities of this department are briefly explained below :

The Office of the Dist. Women's Welfare Officer with jurisdiction over West Godavari and Krishna districts was first created during the First Five Year Plan. She was to supervise and check only the women's welfare centres situated in both the districts.

The Department of Women's Welfare assumed greater and new responsibilities during the Second Five Year Plan. In order to cope up with the increased work, a separate office of the Dist. Women's Welfare Officer for West Godavari District with headquarters at Eluru was created in December 1957. A Women's Welfare Branch also was started simultaneously at Eluru along with the office. The Women's Welfare Branches at Mundur, Gopannapalem and Kannapuram that were functioning in West Godavari district under the control of the Dist. Women's Welfare Officer, Krishna were transferred to the jurisdiction of the newly created office at Eluru. In

order to intensify the Women's Welfare activities in the Agency areas of East Godavari and West Godavari districts an office of the Dist. Women's Welfare Officer (Agency) with headquarters at Kannapuram was established in November 1958. The six Women's Welfare Centres in East Godavari and West Godavari districts (three centres at Kannapuram, Buttayyagudem and Repalliwada in West Godavari district and three centres at Rampachodavaram, Addathigala and Rayapalle in East Godavari district) were transferred to the jurisdiction of the newly created Agency Dist. Women's Welfare Officer. The posts of District Women's Welfare Officers of Agency areas have since been abolished and the District Women's Welfare Officer, Eluru is looking after the work in the Agency areas. The activities of the Women's Welfare Department received impetus under the Second Five Year Plan specially from 1958 onwards. All the Mukhya Sevikas working in various Blocks were brought under the control of this department. Consequently the District Women's Welfare Officer became the head of the district and controlling authority incharge of all the Women's Welfare schemes implemented through the Block agency, in the district. The Dist. Women's Welfare Officer is now responsible for fixing the targets for various Blocks every year and directs and helps the Mukhya Sevikas to achieve the targets. She tours the entire district to effectively supervise the Women's Welfare activities implemented by the respective Mukhya Sevikas.

The Maternity Assistants of the Women's Welfare Centres in rural areas attend to the maternity facilities of the village female folk. In the Women's Welfare Branches pre-basic classes for children and community service centres for adult women are conducted and women of the poor and middle class families are taught tailoring, embroidery and various other useful crafts for subsidising their family incomes. The Grama Sevikas attached to the Blocks attend to the implementation of women's and child welfare programmes in the rural areas.

A Liaison Officer for each district in the State was sanctioned in 1961. The Liaison Officer is intended to assist the Asst. Women's Welfare Officer both in the office work as well as in the executive work. Therefore, she (Liaison Officer) has also to visit different places in the district for about a minimum of 8 and a miximum of 10 days in a month in order to exercise close supervision over the implementation of the Women's Welfare Schemes in the various Panchayat Samithis.

Prior to the establishment of the office of the Assistant Women's Welfare Officer at Eluru in December 1957 there were three Women's Welfare Branches at Mundur, Gopannapalem and Kannapuram in this district. In December 1957 one more Women's Welfare Branch was opened at Eluru.

Achievements under Five Year Plans in Women's Welfare Programmes

District Shelter Home for destitute women : Under the Second Five Year Plan Schemes one District Shelter Home at Eluru for destitute and shelterless women was started in December 1957 but it actually commenced to work only from April 1958 onwards. This scheme was sponsored by the Central Social Welfare Board in order to provide protection to destitute women and to house them for a temporary period pending their transfer to the State Shelter Home. The Home is manned by one Superintendent, one Craft Instructor, one Matron, one Peon and one Night Watchman. So far 214 candidates were admitted into this Home out of whom 110 were sent to different service Homes and State After Care Homes of Women's Welfare Department. About 41 were rehabilitated through this Home by securing jobs like midwives, craft teachers etc. Fifty candidates were returned to their nearest relatives by convincing them about the importance of family relationship. The strength of this Home in 1963 was 13 only. The above District Sheltor has since been wound up during 1966-67.

Vocational Training Centre for Women at Eluru : One Vocational Training Centre for Women with a sanctioned strength of one manager-*cum*-tutor, two tutors, one lower division clerk, which has since been abolished one matron for hostel, one peon, one night watchman, one kitchen assistant and one sweeper-*cum*-water carrier, was started at Eluru on 3rd October 1958. This centre was started with the object of training women in technical courses like stenography etc. Till 1963 one hundred and five candidates were trained in five batches. Deserving candidates were paid Rs. 30 per month towards non-residential scholarships. The hostel attached to this centre was started in March 1960 and twenty residential scholarships were sanctioned at Rs. 30 per month per head.

Balavihars : Under the Third Five Year Plan one Balavihar with one teacher and one Sevika was started in September 1961 for meeting the educa-

tional, recreational and cultural requirements of the poor and middle class children of the age-group 4-14 years. About 50 boys and girls are attending the institution.

The following statement gives the financial and physical targets and achievements under the different schemes during the Second Five Year Plan period.

STATEMENT XII-2

TARGETS AND ACHIEVEMENTS MADE BY WOMEN'S WELFARE DEPARTMENT DURING SECOND FIVE YEAR PLAN PERIOD

Sl. No.	Name of the Scheme	Financial Achievements		Physical Achievements			
		Target	Total Expenditure	Item	Unit	Target	Total achievements
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)
1	Vocational Training Centre, Eluru	Rs. 41,935	Rs. 24,225	Trainees	No.	105	56
2	Hostels for Vocational Training Centre, Eluru	22,276	6,924	Maintenance of Hostel	...	...	46 (Inmates)
3	Improvement of Existing Branches	2,600	2,295	Equipment	(Purchase of sewing machines, equipment, toys and chairs for children)		
4	Expansion of Administration	5,302	4,726	U. D. Clerk	(Appointment and continuance of one U. D. Clerk)		
5	District Shelter Home, Eluru	51,070	38,668	Girls	No.	(Girls admitted) (Girls discharged)	117 99
6	Construction of Service Home for Women at Kannapuram	90,000	90,000	Construction	(Construction of main Block is completed; B and C Blocks and quarters for Superintendent are in progress)		

National Employment Scheme

At the close of World War II in 1945 a net work of Employment Exchanges was set up in the country by the Government of India to aid in the orderly absorption of demobilised soldiers in civil employment. The District Employment Exchange, Eluru was opened on 1st January 1947. In 1948 the scope of the Employment Exchanges was extended to all categories of employment seekers.

No employment schemes were implemented in West Godavari District during First Five Year Plan. During the Second Five Year Plan two schemes viz., (1) Employment Market Information Scheme and (2) Vocational Guidance, were implemented.

Employment Market Information

Employment Market Information Scheme was implemented with effect from 30th September 1958. Under this scheme quarterly reports about the employment position and requirements are collected from establishments in the Public Sector. The scheme was extended to the private sector with effect from 30th September 1960. One Statistical Assistant and one Lower Division Clerk have been provided for this scheme.

Vocational Guidance Scheme

This second scheme of Vocational Guidance which is meant to give proper guidance and assistance to the employment seekers to find suitable employment in this district started functioning with effect from 1st August 1962 with one Gazetted District Employment Officer, one Lower Division Clerk and one Peon.

The employment situation from 1951 to 1961 as per the records maintained by the District Employment Officer is given in the following statement :

CHAPTER XIII

PANCHAYATI RAJ

Historical Retrospect

Local Boards were non-existent till the middle of the 19th century when Road Funds were created by an executive order for the upkeep of roads, other than trunk roads and important district roads. The Collector and the District Engineer were placed in charge of these works. This arrangement was put on a statutory basis by the District Road Cess Act, 1866, which authorized the levy of a cess of half an anna in the rupee on the rent value of occupied land for the construction and maintenance of local roads.

The origin of the District Boards may be traced to the Local Fund Act of 1871, which was the outcome of the desire on the part of the Government to provide sound elementary education to the masses. The Act made specific provisions for declaring a district or part of a district as a circle and for constituting a Local Fund Board for every such circle, consisting of three or more non-official members, nominated by the Government and an equal number of official members appointed by the Government. The term of office of members was for three years. The non-official members were chosen from among owners or occupiers of lands or persons carrying on business and residing in the circle. The Collector of the district was the Ex-Officio President of the Board situated within his jurisdiction. Some of the important functions of the Board were as follows:

(1) the maintenance of public roads or streets;

(2) management of hospitals, schools, choultries and markets; and

(3) the employment and training of health staff, the inspection of sanitation in towns and villages and the upkeep of other local works of public utility calculated to promote health and comfort of the people.

The Act authorized the levy and collection of land cess (at the rate not exceeding one anna in the rupee on the annual rental value of all occupied land), house tax (in villages or groups of villages or townships in which a school supported by Government grants-in-aid existed) and tolls on carriages, carts or animals making use of the roads within the circle.

Local Self-Government as a conscious process of administrative devolution and political education dates back from the final reforms of Lord Mayo's Government. By a Resolution No. 3334, dated 14th December, 1871, the Government of India made over to the Provincial Governments certain departments of which, education, medical services and roads, deserve particular mention, as they still constitute the principal activities of Local Bodies. The beginnings of a system of Local finances were to be found in the new scheme of Provincial finances and many of the present day problems of Local finance vis-a-vis Provincial finance are similar to those which Provinces had to face in their dealings with the Government of India. Lord Ripon's Government desired that Provincial Governments should apply to their financial relations with Local Bodies, the principle of financial decentralization which had worked so satisfactorily between the Government of India and the Provinces. The more important services that were entrusted to the rural bodies were communications, education and sanitation.

The Madras Local Boards Act, 1884, conferred additional responsibilities on the Local Boards which for the first time came to be known as the 'District Boards' instead of the 'Local Fund Boards'. Under this Act, three classes of Local Boards, came into existence, viz., District Boards, Taluk Boards and Unions. The Unions were of two classes—Major and Minor. The administration of local affairs was vested in the District Boards constituted for each of the revenue districts consisting of not less than 24 members who might all be appointed by the Government or might be partly so appointed and partly elected by the members of the newly created Taluk Boards from among their members or by the Union Boards and by the tax payers of the rural parts of the district. The Collector continued to be the Ex-Officio President. The Act also provided for the election of the President of the District Board, from among the members of the District Board, if the Government so directed. The members were to hold office for three years. All the Revenue Divisional Officers were made Ex-Officio members. The Local Boards were empowered to levy with the approval of the Government any of the taxes authorized under the Act.

A Taluk Board consisting of a President and not less than 12 members was constituted for each taluk

or group of taluks. The term of office of the members was for three years. The Revenue Divisional officer was made an Ex-Officio member and President of the Board. The Taluk Board funds consisted of one-half of the proceeds of the tax levied by the District Board in the area and transferred to the Taluk Boards by the District Board and other fees such as licence for markets etc., collected within the area of the Taluk Board. The revenues of the District Boards and the Taluk Boards were derived from land cess, from fees for the use of cart-stands, markets, slaughter-houses, etc., and from tolls in the case of the maintenance of roads, bridges and other means of communications. The chief functions of these institutions as has been stated earlier were the construction and maintenance of hospitals and dispensaries, the diffusion of education, the enforcement of measures relating to sanitation and public health and the establishment and maintenance of relief works in times of famine and scarcity conditions.

Union Boards were constituted for each village or for groups of villages. They consisted of not less than five persons, the headmen of the villages constituting the Union being Ex-Officio members. The Board levied house-tax varying from 4 annas to 4 rupees according to the classification of the house. The duties and responsibilities of this Board were lighting and cleaning of public roads, maintenance of drains, wells and other public places, establishment and maintenance of dispensaries and schools etc.

In 1907 the entire subject of Local Self-Government was taken up for consideration by the Royal Commission on Decentralization. The Commission brought to light that the resources of the Local Bodies were not sufficient for the proper discharge of the duties assigned to them. In order, therefore, to make Local Self-Government really effective and responsible, the Montague-Chelmsford Report suggested that there should be as far as possible complete popular control in the affairs of the Local Bodies and the largest possible independence from outside control. In regard to rural boards the report stated that they should have full liberty to improve and alter taxation within the limits laid down by law. It further stated that whenever a board paid for a service, it should also control that service. If it was considered that control should be largely in the hands of the Government, then in such a case the service should be provincialized.

In the Government of India Resolution of the 16th May, 1918, the Government reviewed the question of Local Self-Government and expressed the view that in order to give effect to the new policy, Local Bodies should be as representative as possible of the people whose affairs they were called upon to administer, the authority in the matter entrusted to them should be real and not nominal and that they should not be subject to unnecessary control but should learn, if necessary, by making mistakes and profiting by them.

With the coming into force of the Government of India Act, 1919, Local Self-Government became a transferred subject and the implementation of the policy and the principles formulated in the Resolution of May, 1918, thereupon devolved on the elected members.

Several amending Acts were passed by the State Legislature from time to time with a view to rectifying defects which were brought to light in the working of the Madras Local Boards Act, 1884. In 1920, the State Government thought that it was necessary to have a comprehensive legislation to give effect to the new policy of the Government and to consolidate and amend the law relating to the District Boards and this resulted in the passing of the Madras Local Boards Act (Act XIV of 1920). The Act gave an independent status to each class of Local Boards and increased not only their strength but also the proportion of elected members, their resources and their powers. The taxation powers of all the three categories of Local Boards were enlarged. The Boards were authorized to levy the pilgrim tax and also the profession tax on companies and firms. They were given a free hand in framing their budgets. Provision was also made for the appointment of a District Board Engineer and a District Health Officer. The Local Boards thus became more or less autonomous and the Collector and the Government were empowered to interfere only in cases of emergency and maladministration. In the same year, the Madras Village Panchayats Act was also passed with the object of developing the system of Self-Government in rural areas. This Panchayats Act was, however, repealed in 1930 with the passing of the Madras Act XI of 1930 which amended the Madras Local Boards Act, 1920, and was also comprehensive enough to include even the Panchayats

constituted before the repeal of the Madras Village Panchayats Act, 1920. The Madras Local Boards Act 1920, has been amended since then several times; the Taluk Boards having been abolished in 1934 and the Panchayats having been taken away from the ambit of the Act by the Madras Village Panchayats Act, 1950.

The following paragraphs illustrate in brief the trend in the amendments to the 1920 Act.

Provision was made for taking of oath by members of Local Boards. All roads and public markets were open to all persons of whatever caste or creed. The main changes introduced by the amendment Act of 1930 were :

(i) inclusion of Village Panchayats within the scope of the Act, conversion of Union Boards into Panchayats and the repeal of the Madras Village Panchayats Act, 1920;

(ii) abolition of the system of nomination to Local Boards;

(iii) direct elections to District Boards;

(iv) general triennial elections to Local Boards;

(v) provision for a vote of no-confidence in Presidents and Vice-Presidents and for the removal of Presidents and Vice-Presidents by Government;

(vi) election of Presidents of District Boards;

(vii) empowering the Government to provincialize the services of officers and servants of Local Boards;

(viii) alterations in the provisions relating to taxes and tolls with special emphasis on the levy of any tax suitable to the village with the sanction of the Panchayat; and

(ix) more effective supervision over the adjudication of disputes between local authorities inter-se, including, in particular, the vesting of power in the Local Government to constitute joint committees of local authorities for the purpose.

The levy of tolls and taxes on motor vehicles by Local Boards was abolished in 1931. Specific provision was made for the constitution of District Boards, for altering their jurisdiction and for their abolition. The majority required for the passing of motion of no-confidence in Presidents and Vice-Presidents was reduced from 2/3 to 3/5. Provision was made for the reservation of seats for Muslims and Indian Christians besides members of the Scheduled Castes. The Government took power to appoint District Engineers, Health Officers and Panchayat Officers. The amendment Act of 1934 abolished the Taluk Boards, the Village Development Fund, and made a provision for the splitting up of District Boards. The jurisdiction of courts to grant injunctions in election proceedings of Local Boards was taken away by the amending Act of 1936. The amalgamation of bifurcated District Boards was made possible by the amending Act of 1937. The Act of 1938 provided for the inclusion of the names of persons found in the electoral rolls of the Madras Legislative Assembly Constituencies in the rolls prepared for Local Boards. Failure to pay arrears of any kind due to the Local Boards was made a disqualification for candidates standing for elections or for members continuing in office.

Certain safeguards were provided by the amending Act of 1942 in regard to the removal or the dismissal of Government servants employed by Local Boards. Act X of 1945 increased the rate of land cess leviable by Local Boards from 1½ annas to 2 annas in the rupee. In the same year, provision was made in the Act for the levy of duty on transfers of property in the form of surcharge on stamp duty in respect of immovable property situated in the area under the jurisdiction of Local Boards. The formation of the Highways Department in 1946 resulted in certain amendments to the Act in that year. In 1947 provision was made for the inclusion in the electoral rolls of Local Boards of persons who were qualified to be included but were omitted to be included in the Assembly electoral rolls. The levy of duty on transfers of property in respect of leases in perpetuity of immovable property and exchange of immovable property was made possible by the Madras Act VII of 1950. The Madras Village Panchayats Act, 1950 removed Village Panchayats from the ambit of the Madras Local Boards Act, 1920, after which the provisions of the latter Act, which formerly related to Panchayats were restricted to Non-Panchayat areas. The name of the Madras Local Boards Act was altered into the Madras District Boards Act, 1920. The provision for the reservation of seats for Muslims, Indian Christians and Europeans in the Act was omitted by the amending Act of 1951. The Act also limited the total number of reserved seats for the members of the Scheduled Castes, Anglo-Indians and women to one-fourth of the strength fixed for the District Board. By another Act of

1951, the adoption of Madras Legislative Assembly electoral rolls and the alteration thereto for purposes of elections to District Boards was provided for. Certain provisions of the Representation of the People Act, 1950, regarding the conduct of elections were embodied in the Madras District Boards Act by an Act of 1954.

The First Five Year Plan for the country was introduced in 1951. Planning led to an enormous increase in the activities of the Government. Large sums of money had to be spent on various schemes in short periods. It was, therefore, found essential that those who were to be benefited by these schemes should also have a say in their formulation. They must learn to express their felt needs and get them translated into programmes that can be implemented. Thus, the idea of the "Panchayati Raj" slowly began to take shape.

Panchayati Raj in Andhra Pradesh can, however, be said to have had its roots nearly one and a half decades ago. It is based on the Gandhian principle of rural rejuvenation to usher in a balanced development of the countryside. This idea was given effect to by late Sri T. Prakasam, the then Chief Minister of the Composite Madras State by his promulgation of the "Firka Development Scheme" in 1946. This was subsequently converted to the "Rural Welfare Scheme" in 1950. Besides the rural reconstruction work this scheme also covered Harijan Uplift Programmes as well as the Khadi Schemes. The three-pronged drive that this scheme gave to the economic and social reconstruction of rural life was in the direction of self-help, co-operative approach and State aid. As in all nascent institutions, the issues at the beginning were not so clearly defined and so well crystallised as in the case of the Panchayati Raj institutions, but however, they formed the forerunners of a movement which has now got itself fully entrenched in the institution of the Panchayati Raj.

Community Development Programmes

The pattern of Community Development inaugurated on the 2nd of October, 1952 has been gradually modified to suit the needs of our rural communities. The central object of the Community Development Programme was to secure the fullest development of material and human resources of the local areas based on the fact that all aspects of rural life are inter-related and that no lasting results can be achieved if individual aspects of it are to be dealt in isolation. The approach was to step up the co-operative principle in its infinitely ranging forms for solving all problems of rural life. The experiment, therefore, in Community Development was started with the introduction of the Community projects in the wake of the Rural Development Schemes. These Projects in a very short period achieved great popularity and people everywhere in other areas started to clamour for similar benefits in their respective villages. On account of these public demands and also considering the limited resources at the disposal of the Government, the pattern of Community Projects had to be gradually changed over, to cover similar and lesser expensive projects. These were known as the National Extension Service Blocks each covering an area of about 150 to 170 square miles and involving an outlay of about Rs. 4.50 lakhs. The normal operational period of each of the N. E. S. Blocks was to be for three years. Any time within that period depending on the performance in the realm of people's participation, physical attainment and expenditure, the N. E. S. Block got converted into a Community Development Block with a bigger outlay of Rs. 15 lakhs which also included the expenditure incurred during the N. E. S. stage. In June, 1957, the National Development Council decided that the Block should be treated as an unit for the purpose of planning and development and it should be made the agency through which the resources of the Government should flow to the people.

The study team for Community Development and National Extension Service headed by Sri Balwant Rai G. Mehta recommended certain changes in the pattern of Community Development. The Ministry of Community Development accepted these proposals and accordingly removed the distinction between the different types of Blocks and introduced the two stage system. Stage I was to be the intensive development phase with a provision of Rs. 12 lakhs and Stage II was to be the post intensive phase with a provision of Rs. 5 lakhs. Both stages were to be of a duration of 5 years each. Great emphasis was laid on agriculture, and therefore, each Block had to pass through a Pre-Extension Stage of one year devoted exclusively to agricultural development. On completion of this Pre-Extension Stage of one year the Block automatically entered the Stage I period.

With a view to achieving economy in expenditure consistent with efficiency in administration, without

adversely affecting the tempo of developmental activities, a High Power Committee was appointed in October 1963 to go into the question of reorganisation of Panchayat Samithi Blocks and allied matters. Pursuant to the recommendations of the High Power Committee, the then existing 447 Blocks in the State have been reduced to 321. With the reorganisation of Blocks on the lines recommended by the High Power Committee, the distinction between Stage–I, Stage–II and Post Stage–II of the Blocks has disappeared with effect from 1-7-1964.

With the disappearance of schematic budgets of Blocks of various stages, a new and more rational method of distribution of funds has been envisaged. As per the recommendations of the Committee, the Blocks have been categorised as 'Advanced', 'Ordinary', 'Backward' and 'Tribal' Blocks, on the basis of the following criteria with the weightages indicated against each :

		Weightage
(a)	Per capita land revenue assessed within the Block	15
(b)	Percentage of irrigated area to cultivated area	25
(c)	Percentage of children of the age-group 6–11 attending schools	10
(d)	Districtwise Literacy	10
(e)	Districtwise National Income	15
(f)	Road mileage for 100 sq. miles within the Block	25
	Total	**100**

The Community Development and other funds, after excluding establishment charges, are being released to Blocks on a varying per capita basis in inverse proportion to the level of development of each Block, so that Blocks which are less developed will get larger funds compared to others which are better off, as shown below :

		Rs. per head of population in the Block
(a)	Advanced Blocks	¾
(b)	Ordinary Blocks	1
(c)	Backward Blocks	1¼
(d)	Tribal Blocks	2

Decentralisation :—Decentralisation of authority and the participation of people in administration have always been considered by great thinkers from the time of Socrates, as the chief embodiments of any democracy. In order that these two essential requisites find place in the fabric of the Indian democracy, on the recommendations of Sri Balwant Rai G. Mehta Committee team, Panchayat Samithis were constituted for each of the Community Development Blocks, wherein the people are provided opportunities for participating in the process of administration. All developmental works beneficial to the community and coming within the ambit of Community Development were entrusted to the people's own elected representatives.

The idea of democratic decentralisation was thus conceived and the nucleus for this revolutionary movement was the age old village panchayat. The three tier system in which the Panchayati Raj institutions are linked one with other consisting of the Gram Panchayat at the village level with its directly elected Sarpanch and Members, the Panchayat Samithi at the Block level with the Sarpanches of Gram Panchayats, the Legislators of the State and six others to be elected in the prescribed manner as its Members, and the Zilla Parishad at the district level consisting of the Presidents of all the Panchayat Samithis within the district, the District Collector and the Legislators of the State and the Centre and six others to be elected in the prescribed manner, was evolved as the institutions in which the people's participation in the formulation and execution of policies and programmes will be beneficial to the Community. The constitution of Gram Panchayats was, therefore, speeded up in order that the entire rural areas comes under one or the other of the Gram Panchayats.

The Andhra Pradesh Panchayat Samithis and Zilla Parishads Act was enacted in 1959 and except the areas within the jurisdiction of the Municipalities in the Andhra area, the areas within the jurisdiction of the City Municipalities in the Telangana area, the area within the jurisdiction of the Municipal Corporation of Hyderabad, and the area within the jurisdiction of Secunderabad Cantonment Board, the rest of the area constituting the State of Andhra Pradesh was brought under the ambit of this Act.

Panchayat Samithis :—The Sarpanches of all the Gram Panchayats in a Block constitute the members of the Panchayat Samithi besides two women members, one representative of the Scheduled Castes, one representative of the Scheduled Tribes

if their population in the Block is not less than 5% of the total population of that Block and if not, one more representative of the Scheduled Castes, and two persons interested in rural development. Apart from these members, the Members of the Legislative Assembly of the State representing a constituency which comprises the Block are also Members of the Panchayat Samithis. A Member of the Legislative Assembly representing a constituency which comprises more than one Block including a portion of any Block will be a member of the Panchayat Samithi of only one such Block which he chooses; and he will have the right to speak in, and otherwise to take part in the proceedings of a meeting of any Standing Committee of such Panchayat Samithi, but he is not entitled to vote at a meeting of such Standing Committee unless he is also a member of that Committee. He will also have the right to speak in and otherwise to take part in the proceedings of a meeting of any Panchayat Samithi or any Standing Committee thereof constituted for the other Blocks comprising within the constituency, but he is not entitled to vote at any such meeting. The Members of the Legislative Council of the State specified by Government as members of the Zilla Parishads will become members of the Panchayat Samithis in the District. Such Member of the Legislative Council will be a member of only one Panchayat Samithi in such district; and where he is a registered voter in any Block in such district, he will be a member of the Panchayat Samithi of only that Block; but if he is not a registered voter in any Block in the district, he will be a member of only one Panchayat Samithi of his choice in such district. Similarly the Revenue Divisional Officer, the District Collector and such other officers as the Government may, by order, specify, have got the right to speak in, and otherwise to take part in the proceedings of any meeting of a Panchayat Samithi or any Standing Committee thereof functioning within the local limits of their respective jurisdictions but they are not entitled to vote at any such meeting.

The Panchayat Samithi has been placed in complete charge of the implementation of the Community Development Programmes and in addition the Government have also entrusted to it the extension activities of the various development departments of the Government such as Agriculture, Animal Husbandry, Fisheries, Industries, Education, Co-operation, Social Welfare, Women's Welfare, etc.

Every Panchayat Samithi has seven standing committees each of which has been placed in charge of a few specified subjects. The Panchayat Samithi with the approval of the State Government, is empowered to constitute one or more Standing Committees if necessary, for attending to any specific items of work. All the Standing Committees have independent powers of sanction within specified financial limits and may also execute works and schemes within those limits.

The Block Development Officer is the chief executive officer of the Panchayat Samithi and he is assisted by the Extension staff. The President of the Panchayat Samithi exercises administrative control over the Block Development Officer for the purpose of implementation of the resolutions of the Panchayat Samithi and its Standing Committees.

Zilla Parishad: At the District level there is Zilla Parishad comprising the Presidents of all the Panchayat Samithis in the district, the District Collector, the Members of the Legislative Assembly of the State elected from the district, such Members of the Legislative Council of the State as the Government may by order specify, the Members of the House of the People elected from the constituency which forms part of the district, and such Members of the Council of States as the Government may by order specify. Two women, one representative of the Scheduled Castes, and one representative of the Scheduled Tribes, if their population in the district is not less than five per cent of the total population of that district, and if the population of the Scheduled Tribes is less than such percentage, another representative of the Scheduled Castes, two persons interested in Rural Development have to be elected by the above categories of members.

The Chairman and the Vice-Chairman are to be elected by the members from among the non-officials who are not Legislators. The President of any Panchayat Samithi if elected as the Chairman of the Zilla Parishad will automatically cease to be the President of that Panchayat Samithi, and his right of membership on the Panchayat Samithi, will not be affected. A Secretary, appointed by the Government functions as the executive head of this organisation. He is entitled to attend the meetings of the Zilla Parishad or any of its Standing Committee meetings, and can take part in discussions,

but is not entitled to vote. Like the Panchayat Samithis the Zilla Parishad also functions through its seven Standing Committees. In addition to these seven Standing Committees, the Zilla Parishad may, with the approval of the Government, constitute one or more Standing Committees, if necessary, for specified purposes. The Chairman of the Zilla Parishad and the District Collector are Ex-Officio members of all Standing Committees while the remaining members are to be elected in the prescribed manner by the members of the Zilla Parishad from among themselves. The District Collector is the Chairman of all the Standing Committees. The President or Chairman of the District Co-operative Bank or the Central Bank and President of the District Marketing Society in the district have the right to speak in and otherwise to take part in the proceedings of any meeting of the Zilla Parishad but are not entitled to vote at any such meeting. The District Officers of various development departments, Regional and State Officers in charge of development activities who are specified by the Government by an order have the right to speak in and otherwise to take part in the proceedings of any meeting of the Zilla Parishad or any Standing Committee thereof functioning within the local limits of their respective jurisdiction but they however, have no right to vote.

The Zilla Parishad co-ordinates and consolidates plans prepared in respect of all the Blocks in the District and prepares plans in respect of entire district, supervises generally the activities of the Panchayat Samithis in the district. It also examines and approves the budgets of the Panchayat Samithis in the district.

The chief sources of finance for the Zilla Parishad are the Central and the State Government funds allotted to it; grant from All India Bodies and Institutions for the development of Cottage, Village and Small Scale Industries; such share of the land cess or local cess, State taxes or fees as may be prescribed; proceeds from taxes or fees which the Zilla Parishad may, under any law, levy; income from Endowments or Trusts administered by the Zilla Parishad; such income of the District Board as the Government may, by order, allot to it; donations and contributions from Panchayat Samithis or from the public in any form; and such contributions as the Zilla Parishad may levy from the Panchayat Samithis with the previous approval of the State Government.

Growth of Community Development Programme in West Godavari District

The Community Development Programme was first started in West Godavari District in the year 1954. Bhimadole and Chintalapudi National Extension Service Blocks were the first to be started in this district on 4th April 1954. In the same year one more N.E.S. Block viz., Koyyalagudem was inaugurated on 2nd October 1954. Bhimadole N.E.S. Block was converted into a Community Development Block on 1st April 1955. During 1956–57 four N.E.S. Blocks viz., Malakapalle (later known as Kovvur Block), Ganapavaram, Gopalapuram and Nallajerla (later known as Tadepalligudem Block) were inaugurated (two on 1st April '56 & another two on 2nd Oct. '56). These, seven blocks that were functioning on 31st March '57 covered 443 villages having a population of 5,94,857 persons and an area of 1,376.20 sq. miles. The programme was intensified during the Second Five Year Plan. Three N.E.S. Blocks viz., Pentapadu-Akividu and Mogalthuru were constituted during 1957–58. As the pattern of the Community Development Programme was changed from April 1958 in the State based on the recommendations of the Sri Balwant Rai G. Mehta's Committee the new classification of Pre-extension, Stage I and Stage II Blocks emerged and the existing Blocks referred to above were re-classified under the new pattern. The seven N.E.S. Blocks were classified as Stage I Blocks, while Bhimadole Community Development Block was bifurcated into two Blocks from 1st April '58 with Bhimadole and Dendulur and they were classified as Stage II Blocks. Koyyalagudem and Chintalapudi were continued to be treated as Community Development Blocks during 1958–59 and in 1959–1960 these two blocks were also classified as Stage II Blocks. One Stage I Block viz., Pedapadu and one Pre-Extension Block viz., Nidadavole were inaugurated during 1958–59. During 1959–60 Nidadavole Pre-Extension Block was upgraded into a stage I Block and two Pre-Extension Blocks viz., Attili and Narsapur were inaugurated. These two Pre-Extension Blocks were upgraded into Stage I Block during 1960–61. Thus by the end of the March 1961 i.e., by the end of Second Five Year Plan there were 20 Blocks in West Godavari district covering 775 villages with a population of 11,51,633 % and an area of 2,225.18 sq. miles. During the Third Five Year Plan period the Community Development Programme gained further momentum. The following

statement gives the particulars regarding the date of inception, present stage (as on 1st April 1961), number of villages covered and the area of each Block in the district.

STATEMENT XIII-1

Sl. No.	Name of the Block	Date of inauguration of the present Block	Present Stage (as on 1-4-1961)	No. of Villages in the Block	Area in (sq. miles)

*This is formed from Bhimadole Block which was normalised on 1-4-1958

P. E.—Pre-Extension Block

During the reorganisation of the Community Development Blocks done in 1964 all the above 25 Blocks were reconstituted into 16 Blocks viz., Bhimadole Peddapadu, Chintalapudi, Nallarjerla, Ganapavaram, Nidadavole, Gopalapuram, Peravali, Penumantra, Koyyalagudem, Polavaram, Buttayagudem, Mogalthuru, Podur, Akividu and Vissakoderu covering the entire district [vide G.O. Ms. No. 532, Panchayati Raj (Samithi-I) Department dated 15-5-1964.]

The Panchayat Samithis were first constituted in the district on 1st November 1959 and the Zilla Parishad was constituted on 1st December 1959 on a statutory basis. Therefore with the introduction of democratic decentralisation set up at the district, Block and Village levels, the responsibility, initiative in economic and social development in rural areas vested with the popular institutions-the Zilla Parishad at the district level and Panchayat Samithi at the Block level and Village Panchayat at the Village level. The people are also getting themselves educated in the proper functioning of these institutions. Their interest is quite evident from the Panchayat elections held in the district in 1964. Out of the 666 village Panchayats constituted in the district 292 Panchayats have elected both their members and Sarpanches unanimously during 1964 Panchayat elections; 539 Panchayats have elected their Sarpanches only uncontested. Four of the Panchayat Samithis have also elected their co-opted members and Presidents unanimously. The expenditure incurred in each of the C.D. Blocks and the Blockwise physical achievements are given under Administrative Statistics in Part II of this Book and may be referred to.

CHAPTER XIV

GAZETTEER

ELURU TALUK

This taluk comprising an area of 509.9 square miles lies towards the south-west corner of the district bounded by the Chintalapudi taluk on the north and Tadepalligudem taluk on the east. On the south and west it adjoins of the Krishna district. According to the 1961 Census count the taluk supports a population of 312,636 persons as against 260,599 persons recorded in the 1951 Census. The density of population of the taluk is 613 persons per square mile. There are altogether 135 inhabited and 9 uninhabited villages. Eluru the district headquarters is the only urban area in this taluk.

The following statement shows the number of inhabited villages in this taluk, arranged according to the various population sizes :

Less than 200	11
200 - 499	26
500 - 999	31
1,000 - 1,999	35
2,000 - 4,999	24
5,000 - 9,999	8
10,000 and above	...
Total inhabited villages	135

The eight villages having more than 5,000 population are Koppaka (5,805), Pedapadu (8,464), Kaikaram (6,244), Pulla (8,708), Bhimadole (6,640), Gundugolanu (6,242), Dendulur (6,933) and Kovvali (5,819). The places of interest among these villages are described in the succeeding pages.

The taluk is drained and watered by two rivers called the Gunderu and the Tammileru which are helpful sources of irrigation and they feed some of the minor irrigation tanks. A small bit of Reserve Forest area exists in the southern part of the taluk. The soil in this taluk is made up of three types, viz., the black regar, the red ferruginous and the alluvial. Wet paddy is the chief food crop cultivated in considerable extents in the Plains, fed by the canals which take off from the Godavari and Krishna Anicut systems. A portion of the taluk lies in the eastern delta and is irrigated by the Krishna-Eluru canal. As the taluk is situated at the tail end of both the systems, it sometimes faces shortage of water supply. Parts of the taluk in the north lie in the upland area where irrigation sources generally consist of rainfed tanks. Cholam, gingelly and horsegram are usually raised in the uplands besides country tobacco which is an important commercial crop. The Colair lake in the south of this taluk is also an important source of irrigation as its water is pumped out for irrigation purposes and in the Colair region there considerable expansion of paddy cultivation. The lake abounds in fish and naturally fishing is the main source of livelihood for the people residing in villages nearby the lake. Large quantities of fish are exported to Calcutta and other important markets in the district. Duck rearing is an important subsidiary occupation for the people in this region.

As regards transport and communication facilities, the Madras-Waltair Broad Gauge Railway line of the Southern Railway passes through this taluk from west to east with its stations at Vatlur, Powerpet, Eluru, Dendulur, Sitampet, Bhimadole, Pulla, Kaikaram and Chebrole. Close on the same direction the G. N. T. Road also passes through this taluk and from the north of this taluk the State Highways road joins Eluru. The Krishna-Eluru canal also runs all along the Railway line, providing facilities for transport by water. In addition to these the taluk is well connected by major district roads on which buses ply regularly and all these roads as well as the Krishna-Eluru canal converge at Eluru placing it in direct communication not only with most of the villages of the taluk but also the neighbouring taluks of the entire district.

As regards medical relief there is a Government Headquarters Hospital at Eluru. The bed strength of this hospital has been increased in stages from 90 to 200 during the Second Five Year Plan period. Facilities for the treatment of eye, ear, nose, dental and throat diseases and tuberculosis are now provided in this hospital through its special clinics. There is also a Family Planning Clinic attached to this hospital. Training schemes for compounders, midwives and auxiliary nurses have also been implemented. The taluk contains two Primary Health Centres one at Bhimadole and the other at Dendulur. There is protected water supply system in Eluru Municipality. At Jagannadhapuram there is an overhead tank which receives its supply from a well nearby. Water is supplied to this village through pipes connected to the overhead tank.

As regards industries, there is a fairly large jute mill at Eluru employing about 1,200 workers per day. At Bhimadole village there are three ceramic factories with a total annual output worth about Rs. 2.5 lakhs. These ceramic factories manufacture mostly jars and firebricks. There are also about a dozen tanneries at Eluru which are mostly owned by Labbies of Madras. The taluk is famous for woollen pile carpet weaving industry which is already described in the chapter on "Industries".

In the sphere of higher education the taluk has two first grade colleges which are under private management and one of them is for women. There are a good number of High Schools at the taluk headquarters and other important and big villages besides many primary schools in almost all the villages of this taluk.

Eluru—a Municipality, is the headquarters of the district and taluk by the same name with its usual complements of district and taluk offices. It has a population of 108,321 persons as per the 1961 Census count as compared with 87,213 persons recorded at the 1951 Census. The town extends over an area of 4.64 square miles and there are altogether 20,519 occupied residential houses.

About 8 miles north of Eluru at Peda Vegi, are extensive remains which are supposed to mark the site of the capital of the Buddhist Kingdom of Vengi. After over-running the country in 1471, the Mohammadans drew upon the ruins of the old city for materials for their fort at Eluru. The town was afterwards taken over from the Gajapati Kings of Orissa by Krishna Deva Raya of Vijayanagar in 1515 but was recovered by the Qutb Shahi King of Golconda. His lieutenant then withstood a prolonged seize by the Hindu chieftains from the north of the Godavari. With the fall of the Rajahmundry in 1572 Eluru became the capital of the *Circar* of the same name and its history afterwards is uneventful. It was for sometime a cantonment for Company's troops and was later abandoned.

The town is situated on the border of the swamps round the Colair lake and its climate is excessively hot. The East Tammileru branch borders the entire north of the town while the west Tammileru drain flows to the west of it. The Krishna-Eluru canal passes through the heart of the town from south-west towards the north-east. Close on the same direction the Madras-Waltair Broad Gauge line of the Southern Railways runs almost parallel to it in the town and the G. N. T. Road passes through this town cutting the Krishna-Eluru Canal and Rail Road twice in the town. The town is also connected by the State Highways and Major District Roads. Owing to its convenient transport and communication facilities and being surrounded by the rich paddy growing region it is the chief market for the neighbouring areas on all sides. The town is also growing up to be an important centre of education with two colleges *viz.*, the C. R. R. College and the St. Theresa's College for Women, one Municipal Higher Secondary School, one Government Secondary Training School for Women and also another for men and a K. P. D. Theosophical High School and Training School. There is also St. Theresa's High School exclusively for girls. Besides these there are about 40 Municipal Elementary Schools and the S. E. S. D. M. School.

As regards the medical facilities it contains one District Headquarters Hospital, four Municipal Ayurvedic Dispensaries and one Municipal Unani Dispensary. Apart from these there are also several private practitioners. It also contains a Government Veterinary Hospital. The town has protected water supply system and a drainage scheme is being implemented. The civic affairs of this town are managed by the Municipality which was constituted as early as in 1866. The town contains several public parks like Badety Venkataramayya Naidu Park, Mothey Narasimharao Park, Gavaramma Park, Mothey Gangaraju Park, Kambhampati Kanniah Sreshti Park etc. There is also the Y. M. I. A. Hall used as a reading room.

There are two famous temples in the town *viz.*, Sree Janardhanaswamy temple and Sree Jalapahareswaraswamy temple besides a Jumma Mosque, an Indian Christian Church and a Roman Catholic Church.

The chief cottage and small scale industries of this town are woollen carpets weaving, carpentry and the manufacture of paints. The famous woollen pile carpet weaving industry dates back to the middle of the 15th century. The dyes and wool for these are prepared locally and well woven quality carpets of old and modern designs can still be obtained. As regards the Large Scale Industries the town has a fairly large jute mill. There is a Railway Rest House, a Municipal Travellers' Bungalow and a P. W. D. Travellers' Bungalow in the town.

Pedapadu—the Block headquarters, is one of the big villages in the taluk with a population of 8,464 persons. The village covers an area of 10.94 square miles and there are altogether 1,536 occupied residential houses in this village. The village is well-connected by different bus routes namely the Eluru and Vasanthavada routes. Agriculture is the major means of livelihood for a large number of people in this village. There is a Panchayat Samithi Office, a Police Station, a Rural Dispensary and a Veterinary Dispensary. The Post Office in this village has Telegraph facilities also. The village contains a Handloom Weaving Centre and also a public park.

Kaikaram—a village, important due to its Railway Station on the Madras-Waltair line, is accessible by the G. N. T. Road on which buses ply. It extends over an area of 9.47 square miles and supports a population of 6,244 persons. In all it comprises 1,291 occupied residential houses. A large number of people in this village are engaged in agriculture and its allied pursuits. The Krishna-Eluru Canal which branches off from Krishna Delta Anicut system provides irrigation facilities to this place. A rich variety of wet paddy is cultivated here. The village contains a Panchayat Office, a branch of the State Bank of India, an Ayurvedic Dispensary maintained by the Panchayat, a Maternity Centre, a First Aid Centre, a Zilla Parishad High School and a Post Office with Telegraph facilities. It also has a Library maintained by the Zilla Parishad and a Reading Room maintained by the Panchayat for the benefit of the public. The chief cottage and small scale industries of Kaikaram are the coir, winding of jute strings and the curing of fish. A weekly market is held here on every Monday.

Pulla—is the largest populated village (8,708 persons) in this taluk. It occupies an area of 14.47 square miles and in all it comprises 1,578 occupied residential houses. Agriculture is the main stay for the people of this village. In fact the number of agricultural workers in this village is 3,212 persons of whom 1,168 persons are cultivators while the rest 2,044 persons are agricultural labourers. Wet paddy is the chief food crop raised. The Krishna-Eluru Canal provides irrigation facilities to this village also. The village contains a Panchayat Office, a Rural Dispensary, a Veterinary Hospital, a Zilla Parishad High School and a Post Office with Telegraph facilities. A weekly market is held here every Monday.

Bhimadole—a village, occupies an area of 7.79 square miles, comprises 1,227 occupied residential houses and supports a population of 6,640 persons. It is primarily an agricultural village. Wet paddy is the chief food crop raised and irrigation is facilitated by the Krishna-Eluru Canal. The village has a Zilla Parishad High School, a Sub Registrar's Office, a Block Development Officer's Office, a Police Station, a Panchayat Office, a Zilla Parishad Travellers' Bungalow, a Post Office, a Primary Health Centre and a Veterinary Hospital. It is a Railway Station on the Madras-Waltair Broad Gauge line of the Southern Railway and the village is connected by the G. N. T. Road. A ceramic factory is located in this village. A public park and a library are the other amenities it contains. Weekly market is held here on every Monday.

Dendulur—a Railway Station on Madras-Waltair Broad Gauge Railway line of the Southern Railway, has a population of 6,933 persons. The village extends over an area of 11.07 square miles and there are altogether 1,379 occupied residential houses. The total number of agricultural workers in this village is 2,407 persons of whom 1,438 are cultivators while the rest 969 persons are agricultural labourers. The Krishna-Eluru canal and the minor irrigation tanks provide irrigation facilities. Wet paddy is the chief food crop raised. There is a Block Development Office, a Primary Health Centre, a Veterinary Hospital and a Zilla Parishad High School in this village. A weekly market is held here on every Monday.

Dwaraka Thirumala—situated at a distance of 12 miles from Bhimadole Railway Station, is a place of religious importance. It contains a big temple of Lord Venkateswaraswamy. Formerly this village was full of forest. Once Dwaraka Maharshi, a great saint, performed penance facing north for the darshan of Lord Venkateswara. As per the wish of the rishi Lord Venkateswara placed his feet over Dwaraka. Thus the place acquired the name Dwaraka Thirumala. The temple is situated on a hill at a height of 120 feet and a portion of it is carved out of the hill. There is a fleet of steps leading to the temple from below. Thousands of pilgrims visit this place and offer prayers to the God. It has a population of 1,734 persons as per the 1961 Census.

CHINTALAPUDI TALUK

This is an upland taluk and lies towards the north-west corner of the district extending over an

area of 418.3 square miles. It has a population of 121,831 persons as per the 1961 Census count as against 108,187 persons recorded in the 1951 Census. The taluk is bounded on the north by Polavaram taluk and Kothagudem taluk of Khammam district, on the south by Eluru taluk, on the east by Kovvur and Tadepalligudem taluks and on west by Tiruvur taluk of Krishna district. There are altogether 91 inhabited and 10 uninhabited villages.

The following statement shows the number of inhabited villages arranged according to the various population sizes:

Less than 200	14
200 - 499	12
500 - 999	24
1,000 - 1,999	22
2,000 - 4,999	15
5,000 - 9,999	4
10,000 and above	...
Total inhabited villages	91

The four villages having more than 5,000 population are Chintalapudi (9,545), Kamavarapukota (7,256), Tadikalapudi (6,064), Pragadavaram (6,159).

The taluk contains large extents of Reserve Forest area in Badamcherla and Barrikunta which are important and in Makkinavarigudem, Velagalapalle, Tadikalapudi and Kamavarapukota villages which however contain scrub jungles only. The climatic conditions of this taluk are of the extreme kind. During the summer it is very hot while it is quite cold in winter. The average rainfall of this taluk is 1073.6 mm. and it contains red sandy soil predominantly. Irrigation is facilitated in the wet lands of the taluk by minor irrigation tanks and P.W.D. tanks which are rainfed. The rivers Tammileru, Yerrakalva and Jelleru are perennial streams, but there is no facility to use their waters for irrigation as they flow down in deep valleys. There are no drainage facilities except those provided by Yerrakalva through which the surplus waters of tanks go to the delta portion through Kovvur and Tadepalligudem taluks.

As regards the transport and communication facilities, the entire taluk is accessible only by buses and almost all important villages including the taluk headquarters are connected by major district roads. The State Highway passes towards the eastern part of the taluk from north to south touching only a few villages.

As regards the medical facilities, the taluk contains a Government Medical Dispensary at Chintalapudi besides Primary Health Centres at Kamavarapukota and Dharmajigudem maintained by the Panchayat Samithi. There are only two High Schools in this taluk at Chintalapudi, Dharmajigudem. Weaving of *Cumblies* is an important cottage industry in Dharmajigudem.

Chintalapudi—is the headquarters of the taluk and is situated at a distance of about 30 miles from Eluru towards north and these two places are connected by a black topped road on which buses ply regularly. It has a population of 9,545 persons and an area of 16.91 square miles. There are altogether 1,835 occupied residential houses. It contains the usual offices of a tahsil besides several public offices including the Panchayat Samithi Office. There is a Mango Nursery managed by private owners. The Industries Department maintains a silk farm from where cocoons, silk waste and silk thread are supplied to the Silk Assistant at Hindupur in Anantapur district. The total value of the products exported during 1960-61 was Rs. 3,155.93. The village is a marketing centre for the surrounding villages. The headquarters of a Malaria Health Inspector also is located here. There is a Government Hospital and a Veterinary Hospital. The village has a High School also.

Pragadavaram—is situated on Chintalapudi-Kamavarapukota Road at a distance of about 6 miles from Chintalapudi. The population of the village is 6,159 persons. It extends over an area of 18.44 square miles and in all it comprises 1,084 occupied residential houses. Pragadavaram village is the firka headquarters. Agriculture is the major means of livelihood. Rich variety of commercial crops such as tobacco, chillies and elephant-yam and turmeric are raised in this village besides several types of vegetables which are exported throughChintalapudi. Irrigation is facilitated only by tanks and wells. The R. C. Mission maintains a well equipped Hospital at Fatimanagar, a hamlet of this village which is situated on the Chintalapudi-Eluru road. There is a Veterinary Hospital, a High School, a Branch Post Office and a Panchayat Office in this village.

Kamavarapukota—is situated at a distance of about 23 miles from Eluru on the Eluru-Jangareddigudem Road. It has a population of 7,256 persons and an area of 17.27 square miles. There are altogether 1,358 occupied residential houses in this village.

The village is of some historical importance and religious prominence as well. It is said that the Chola Kings once ruled this place and there are only high bunds left of the old fort lying to the east of the village to mark their rule. Subsequently this place was also ruled by the Reddi Kings of Kondaveedu. It is also said that Sri Krishna Devaraya popularly known as 'Andhra Bhoja' captured this part in his famous *Kalinga Digvijaya Yatra.* The village assumes religious importance as it contains a pilgrimage spot called the Vali Sugreeva *Metta* (Hillock) which contains stone images of Vali and Sugreeva (the Vanara Kings of Ramayana) of about 9' in height. There are also caves on the hillock and it is believed that this hillock should have been the abode of Vali and Sugreeva.

The village is accessible by bus. Bhimadole, the nearest Railway Station, is about 16 miles away. There is a Sub Registrar's Office, a Sub Post Office, a Mobile Medical Unit, a Maternity Child Welfare Centre, a Middle School and a Panchayat Library in this village. It is an important marketing centre for the surrounding villages. A fairly busy weekly market is held on every Monday.

Tadikalapudi—is situated at a distance of about 14 miles from Eluru on the Eluru-Jangareddigudem Road and supports a population of 6,064 persons. The village extends over an area of 28.90 square miles. In all it comprises 1,121 occupied residential houses. A very large section of the people in this village are engaged in agriculture and the village is one of the important country tobacco growing centres in this taluk. The village contains a Branch Post Office, a Travellers' Bungalow and a Police Station. It is connected by Eluru-Jangareddigudem bus route. There is an old famous temple of Sri Gangeswaraswamy and the temple bears inscriptions in Telugu akin to Chalukya script.

Guntupalle—is situated on the Chintalapudi-Kamavarapukota Road at a distance of about 14 miles from Chintalapudi and recorded a population of 2,280 persons as per the 1961 Census count. The village occupies an area of 13.81 square miles and there are altogether 435 occupied residential houses. The village assumes historical importance as there are old Buddhist Vihars and caves in a hillock, near Jeelakarragudem, a hamlet of this village. In these caves there are stone built Chaitya Vihars and Stupas etc., built with bricks. It is said that an image of Buddha and a stone box containing a copper vessel, a crystal, a small golden vessel and small gold beads were discovered on excavation of one Stupa and that all of them are now preserved in the Museum at Madras. It is also believed that in those caves an old inscription was discovered which indicated that a Buddhist monk by name Suyagna Nadhudu used to reside in the caves propagating Buddhism. These caves which are supposed to belong to about 105 B.C. are now maintained by the Archaeological Department. It is said that there was a town called Jainapuram on the site of Guntupalle.

POLAVARAM TALUK

This Agency taluk traversed by the Eastern Ghats is situated on the right bank of the River Godavari and is inhabited mostly by hill tribes. At the point where the river enters the taluk stands the Bison Hill which belongs to the Papikonda range running the whole length of the taluk. It supports a population of 118,231 persons as per the 1961 Census count, as compared with 97,245 persons recorded at the 1951 Census in and extends over an area of 548.7 square miles. There are altogether 128 inhabited and 10 uninhabited villages in the taluk.

The following statement shows the number of inhabited villages arranged according to the various population sizes :

Less than 200	44
200 - 499	30
500 - 999	21
1,000 - 1,999	21
2,000 - 4,999	6
5,000 - 9,999	6
10,000 and above	...
Total inhabited villages	128

The six villages having more than 5,000 population are Polavaram Plains (8,943), Gangole (5,247), Gutala (6,293), Buttayagudem (5,698), Jangareddigudem (7,571), Parimpudi (7,165). The places of interest among these villages are described in the succeeding pages.

The distinctive feature of this taluk is that all the Agency area of about 491.3 square miles of the West Godavari district lies in this taluk only. The Plains portion of the taluk consists of 57.4 square miles only. The density of population in the Agency area is 94 persons per square mile as against 1,[illegible]an persons per square mile in the Plains portion.

The forests in this taluk cover an extent of 279.90 square miles, consisting of 104.20 square miles of reserved forest, 70.10 square miles of estate forests taken over by Government and 105.60 square miles of estate forests not yet taken over. The reserved forests in Polavaram taluk contain bamboos, fuel and timber trees. The Byneru, a hillstream, the Bandakattu system and many rainfed tanks form the irrigation sources. Tobacco, chillies and other garden crops are cultivated mostly under wells. The soil in this taluk is predominantly made up of red ferruginous type but the black regar also occurs.

The climate of this taluk is of the extreme kind particularly in the rocky areas i.e., very hot summers and pretty cold winters. In the plains however it is generally healthy. During winter the hilly areas of the taluk are colder than the plains. Most of the rainfall is derived from the south-west monsoon in June and July and a little rain occurs during the north-east monsoon in October and November. The average annual rainfall is about 1,200 mm.

As regards transport and communication facilities the taluk is accessible by buses and it is reported that roads are maintained satisfactorily. The State Highway passes towards the south-west of the taluk from Jangareddigudem to Jeelugumilli and the entire taluk is served by the major district roads and village roads.

As regards the medical facilities there is a Taluk Headquarters Hospital at Polavaram. The taluk contains two Government dispensaries, one at Jangareddigudem and the other at Jeelugumilli and Rural Dispensaries at Gutala and Kannapuram. At Koyalagudem, a hamlet of Parimpudi there is a Mission Hospital while there is a Primary Health Centre at Parimpudi proper. The taluk contains an Ayuredic Dispensary at Hukumpeta. In addition to these, there is one Mobile Medical Unit in Polavaram. The Mobile Unit tours intensively in the interior parts of the Agency area and provides medical aid for the tribals. People in the taluk normally drink water from the draw wells constructed under the Rural Water Supply Scheme.

The chief cottage and small scale industries capable of providing both whole time and part time occupations in the taluk are handloom weaving, vegetable oil pressing, gur manufacture, tobacco products other than beedis, copper, brass and bell metal the[illegible]ks, pottery, basket making, tanning and cartoucry.

Another item of importance in this taluk is a Land Colonisation Society at Jeelugumilli, located for the benefit of the tribal people. It was registered in 1954 under the Madras Co-operative Societies Act. A total extent of Ac. 496.11 under the occupation of this society is allotted to it by the Government. The colonists themselves dug a tank and wet paddy is raised with the aid of the tank water besides dry crops such as cholam, korra, samai, ragi, maize, castor etc. There are also mango, cashew and lime gardens. Poultry, sheep rearing, and tape weaving provide additional employment to the people. Various facilities such as supply of agricultural impelements, improved seeds, drinking water wells, a road, a Government Elementary School, a stud-bull, two double bullock carts for watering community gardens, a Veterinary First Aid Centre and a garden are provided to the people in the above colony.

A Primary Marketing Society is located at Kota Ramachandrapuram which is absorbed into the working of Andhra Pradesh Scheduled Tribes Finance and Development Corporation, Visakhapatnam. The society not only supplies articles of domestic requirements to the tribals but also advances small hand loans to the needy tribals and recovers them. The society possesses three sale depots and a mobile depot. The Society is intended mainly to save the innocent tribals from the fraudulent merchants.

This taluk will have the benefits of Ramapadasagar Project when it is constructed across the River Godavari. The Gutala Pumping Scheme which contemplates pumping of water from the River Godavari is also investigated besides the construction of reservoirs across Kovvadakalva and Byneru hillstreams. At Gangole there is a big irrigation tank fed by Kovvadakalva, which is a hill stream. There is also a mica mine here. At Taduvai there is an ancient Siva temple.

Polavaram—is the headquarters of the taluk by the same name and it is situated on the right bank of the River Godavari. The village has a population of 8,943 persons. Though it is the headquarters of a taluk it is still rural in character and complex, for obvious reasons. The entire village which extends over an area of 4.80 square miles is within the flood bank of the river Godavari and is likely to be submerged during Godavari floods. There are altogether 1,645 occupied residential houses

in this village. The launches which ply from Rajahmundry to Bhadrachalam usually stop here to pick up passengers and goods. This village contains a Sub Registrar's Office, a Police Station, a Sub Post Office, a Block Development Office, a Forest Range Office, a P.W.D. Sub-Divisional Office besides a Government Hospital and a Veterinary Hospital. There is also a Government Higher Secondary School in this village. A weekly market is held here on Thursday.

Jangareddigudem—is the second largest populated village in this taluk with a population of 7,571 persons. The village occupies an area of 0.32 square miles and in all it comprises 1,181 occupied residential houses.

The village is accessible by bus and is growing up to be an important business centre in the taluk. A big weekly market is held on every Thursday wherein particularly all the forest produce is brought for sale. Millets also command a big sale and are brought from the surrounding villages. Pottery, leaf plate making, basket making, fibre making etc., are the chief cottage and small scale industries. There is a Sub Registrar's Office, a Police Station, a Sub-Post Office, a Forest Range Office, a Government Hospital and a Zilla Parishad High School in this village.

Pattisam—is a picturesque village situated on the right bank of the River Godavari at a distance of about two miles from Polavaram. The village has recorded a population of 3,364 persons and an area of 0.70 square miles. There are altogether 661 occupied residential houses in this village.

The village has some religious importance owing to the construction of a temple for Sree Veerabhadraswamy on a hillock in the bed of the river opposite to the village. A festival takes place every year on Mahasivaratri day which is participated by pilgrims from surrounding villages of East and West Godavari districts. A large number of pilgrims generally 4 to 5 thousands, congregate there on that day.

Ganapavaram—a small village in the interior of Polavaram taluk, is situated at a distance of about 7 miles from Jangareddigudem. It has a population of 1,588 persons and extends over an area of 8.80 sq. miles. In all it comprises 297 occupied residential houses. The village contains a Durga temple and a festival for the deity takes place on the full moon day in the Telugu month of *Phalgunam* every year. A large number of Koyas gather there on that day. In olden days people used to sacrifice animals to the deity but the Government have prohibited the sacrifice of the animals and birds under the Protection of Animals and Birds Act.

KOVVUR TALUK

This taluk lies elongated on the right bank of Akhanda Gowtami Godavari River occupying an area of 390.6 sq. miles and supports a population of 247,089 persons as per the 1961 Census count as against 214,522 persons according to the 1951 Census. The density of population of the taluk is 633 persons per sq. mile. There are altogether 102 inhabited and 15 uninhabited villages in the taluk. The distinctive feature of this taluk is that it is entirely an upland area.

The following statement shows the number of inhabited villages arranged according the various population sizes:

Less than 200	3
200 - 499	8
500 - 999	15
1,000 - 1,999	33
2,000 - 4,999	38
5,000 - 9,999	5
10,000 and above	...
Total inhabited villages	102

The five villages having more than 5,000 pupulation are Dommeru (6,416), Yernagudem (6,132), Annadevarapeta (5,058), Lakkavaram (5,554), Chagallu (6,820). The places of interest among these villages are described in the succeeding pages.

The taluk is drained and watered by river Yerrakalva and Rallamadugu which are of some consequence as they feed some of the minor irrigation tanks in the upland area and facilitate irrigation. The Godavari delta system irrigates only a small extent in a few villages of Nidadavole firka in this taluk which also contains as many as 120 minor irrigation sources. There is no forest area worth mentioning except a minor forest of about 200 acres at Bhimole village in which scrub jungle is found mostly. The average annual rainfall of this taluk is about 1,200 mm. Most of the rainfall is received during the south-west monsoon from June to July while only a little

rainfall occurs during the north-east monsoon from October to November. There are three kinds of soils in this taluk namely the alluvial, black regar and red ferruginous, out of which the red ferruginous is the largest in extent followed by the alluvial which is the most valuable of all.

As regards transport and communication facilities, the Madras–Waltair Broad Gauge line of the Southern Railway passes through this taluk with its stations at Nidadavole, Brahmanagudem, Chagallu, Pasivedala and Kovvur. Nidadavole is a junction of Nidadavole-Narsapur branch line (Broad Gauge) and the Madras–Waltair Broad Gauge line of the Southern Railway. The G.N.T. Road cutting across the taluk from west to east passes through this taluk touching several important villages such as Yernagudem, Devarapalle, Duddukuru, Gauripatnam, Isukapatla, Dommeru etc., and the entire taluk is interspersed with major district roads on which buses ply regularly. As the river Godavari is navigable, steam launches and boats ply across the river Godavari between Kovvur and Rajahmundry for transport of goods and passengers. A number of steam launches and boats also ply up the river Godavari as far as Bhadrachalam.

As regards medical facilities there is a Taluk Headquarters Hospital at Kovvur and a Local Fund Hospital at Nidadavole. Besides these there are Primary Health Centres at Malakapalle, and Gopalapuram maintained by the Kovvur and Gopalapuram Blocks.

The educational institutions of this taluk consist of seven High Schools and a Higher Secondary School at Kovvur. In addition to these, there are six Middle Schools for boys, and one Middle School for girls. Elementary Schools are located in almost all villages of this taluk.

The chief cottage and small scale industries of this taluk are carpentry, tannery, tailoring, pottery and tape weaving. As regards the large scale industries there is a fertiliser factory at Kovvur and a sugar factory at Chagallu. A huge Super Sulphate factory is in course of construction at Nidadavole. There is also a cement pipe making company at Nidadavole. Graphite industry is also coming up at Kovvur town. Further the taluk contains two branch depots of I.L.T.D. Company and a branch depot of National Tobacco Company.

Kovvur—a panchayat, is the headquarters of the taluk by the same name and has a population of 15,427 persons. The town is situated on the right bank of the river Godavari and extends over an area of 3.18 sq. miles. There are altogether 2,334 occupied residential houses in the town. It contains the usual offices of a taluk besides a Government Hospital, a Veterinary Hospital, a Sub Post Office etc. Kovvur is a Railway Station on Madras–Waltair Broad Gauge line of Southern Railway. It is a river port and boats and steam launches ply from this place across the river Godavari to Rajahmundry which stands on the left bank of the river and also upto Bhadrachalam. This place assumes religious importance as Gautama did his *tapas* (penance) here to bring down Godavari. There is also a famous temple of Radhakrishna. A few factories manufacturing sulphur, superphosphate, hume pipes etc., also exist. A weekly market is held here on every Sunday.

Nidadavole—a panchayat, situated on the bank of the main irrigation canal of the Godavari Western Delta, extends over an area of 10.88 sq. miles. It has a population of 16,842 persons and contains 2,767 occupied residential houses.

Nidadavole is a junction of Madras-Waltair Broad Gauge line and the Narsapur–Nidadavole Broad Gauge branch line of the Southern Railway. This is the starting place of the Godavari canals which branch off and connect the entire Western Delta by providing inter-water communications. Thus owing to its convenient situation and transport and communication facilities it provides stimulus to trade and infact it is one of the biggest trading centres. The town has a Government Hospital, a Veterinary Dispensary, a Telephone Exchange Office and two Post and Telegraph Offices, a P.W.D. Inspection Bungalow, a Rest House maintained by the Highways and a Zilla Parishad Middle School. It strikes an industrial complex with quite a number of rice mills besides the cement pipe making companies and an iron foundry; a huge supersulphate factory is being constructed under the private sector. A weekly market is held here on every Saturday.

Chagallu—is a fairly big village with a population of 6,820 persons. The village occupies an area of 9.57 sq. miles and has 1,072 occupied residential houses.

The village owes its importance to its Railway Station on the Madras-Waltair Broad Gauge line of the Southern Railway. It contains a famous temple of Subrahmanyaswamy. The deity is said to have been installed 150 years ago. Every year a festival takes place on Subrahmanya Shashti in honour of the deity, which is participated by a large number of people from the neighbouring villages. This deity is believed to grant children to the childless and also cure eye diseases.

TADEPALLIGUDEM TALUK

The taluk is centrally located in the district comprising an area of 359.0 sq. miles surrounded by Eluru, Chintalapudi, Kovvur, Tanuku and Bheemavaram taluks. It has a population of 249,662 persons according to the 1961 Census as compared with 217,123 at the 1951 Census count. The density of population of the taluk is 695 persons per sq. mile. There are altogether 100 inhabited and 12 uninhabited villages in the taluk. Tadepalligudem is the only urban unit in this taluk.

The following statement shows the number of inhabited villages arranged according to the various population sizes :

Less than 200	3
200 - 499	6
500 - 999	18
1,000 - 1,999	28
2,000 - 4,999	35
5,000 - 9,999	10
10,000 and above	...
Total inhabited villages	100

The ten villages having more than 5,000 population are Dubacherla (5,720), Nallajarla (5,036), Pothavaram (5,451), Ananthapalle (5,547), Jagannadhapuram (5,078), Unguturu (7,343), Chebrole (5,642), Pentapadu Agraharam (8,839), Ganapavaram (7,156), and Pippara (5,747). The places of interest among these villages are described in the succeeding pages.

A significant feature of this taluk is that it comes under an upland area of the district.

This taluk is not drained by any worth mentioning rivers. The three canals namely the Krishna-Eluru canal, Venkayya-Weyyeru canal and the Yerrakalva pass through this taluk. In the delta area, irrigation is facilitated by canals and in the upland area irrigation is mostly under minor irrigation tanks where cultivation of wet paddy is also resorted to with considerable ease. The soil in this taluk is made up of three varieties *viz.*, the alluvial, black regar and the red ferruginous out of which the red ferruginous is the largest in extent. The next large extent is under alluvial soil which is fertile and valuable, found mostly in the delta portion of the taluk where the yields of a rich variety of wet paddy reach a maximum of 25 to 30 bags per acre. The soil is rocky and saline in the upland area which depends on rainfed tanks for irrigation.

The forest area of this taluk covers 8,397 acres found exclusively in Nallajarla and Unguturu Reserve forests.

As regards transport and communication facilities they are almost similar to those of Eluru taluk which adjoins it. The G.N.T. Road passes towards the north of this taluk touching Dubacherla, Nallajarla, Anantapalle etc. The Madras-Waltair Broad Guage line of the Southern Railway passes through this taluk with its stations at Chebrole, Unguturu, Badampudi, Tadepalligudem and Nawabpalem. Almost all big villages of this taluk are connected by major district roads. The Godavari canals also provide inter-water communication facilities which are popular and cheap. As such the taluk is well-connected with all the neighbouring taluks and provides stimulus to trade. In fact Tadepalligudem is known to be one of the famous paddy marketing centres in the country.

As regards medical facilities, the taluk contains a Government Headquarters Hospital at Tadepalligudem and Primary Health Centres at Venkataramannagudem, Mudunuru and Peda Nindrakolanu. Besides these there are Local Fund dispensaries in some of the villages of this taluk. People in the taluk drink water normally drawn from wells. The taluk has eight High Schools at Anantapalle, Dubacherla, Tedepalligudem, Madhavaram, Unguturu, Pentapadu Agraharam, Pippara and Ganapavaram. There are elementary schools in almost all villages of the taluk.

Tadepalligudem—a Municipality, is the headquarters of the taluk by the same name with a population of 27,086 persons. The town extends over an area of 7.34 sq. miles and in all it comprises 4,039 occupied residential houses. It is a very important rice milling and marketing centre. Barring the great famine of 1799 the pinch of real famine was never felt in this

place. Apart from the rich harvest of paddy obtained from the greater part of the cultivable area in this taluk, large quantities of paddy from the neighbouring taluks of Tanuku, Narsapur and Bheemavaram also are brought here for marketing.

Tadepalligudem is an important Railway Station on the Madras-Waltair Broad Gauge line of the Southern Railway and is also connected by the Krishna-Eluru Canal which provides inter-water communication facilities which are popular and cheap. There is a Taluk Office, a Sub Registrar's Office, a Judicial Second Class Magistrate's Court, a Police, Station, a Sub Post Office, a Telephone Exchange, an Office of the Deputy Inspector of Schools besides a Government Hospital, a Veterinary Hospital, a P.W.D. Rest House and a High School. The town contains the Vijayasaradhi Banian Knitting Factory, a Government Tailoring Institute, a Government Industrial Institute in Aluminium works etc. A weekly market is held here on every Sunday.

Pentapadu Agraharam—is accessible by bus. It has population of 8,839 persons and an area of 1.40 sq. miles. There are altogether 1,086 occupied residential houses in this village. The majority of the people in this village are engaged in agriculture and its allied pursuits. The total number of agricultural workers of this place is 2,566 persons of whom 1,725 persons are agricultural labourers. Paddy is the principal food crop raised. There is a Panchayat Samithi Office, a Block development office, a High School, a Government Basic Training School, a Government Basic Training College, a Sub Post Office, a Samithi Rural Dispensary, and a Veterinary Hospital.

Ganapavaram—has a population of 7,156 persons and an area of 4.26 sq. miles. There are altogether 1,090 occupied residential houses in this village. This place is gradually developing, with urban characterstics. The village is connected both by road and canal. The canal extends irrigation facilities and also provides a convenient transport system. The village contains a Sub-Registrar's Office, a Police Station, a Sub Post Office, a State Bank of India Pay Office, Village Panchayat Office, besides a Rural Dispensary, a Veterinary Hospital, a High School, a Reading Room and a library maintained by the Panchayat Samithi. A weekly market is held here on every Monday.

TANUKU TALUK

It is one of the rich taluks in the district adjoining the right bank of the River Vasista Godavari, bounded on the north by Kovvur taluk, on the south by Narsapur and Bheemavaram taluks, on the east by the river Vasista Godavari and on the west by Tadepalligudem taluk. The taluk occupies an area of 214.3 sq. miles and has a population of 316,039 persons as per the 1961 Census count as against 278,186 persons recorded at the 1951 Census. In all it comprises 97 inhabited villages and three urban units namely Tanuku, Penugonda and Maruter.

The following statement shows the number of inhabited villages arranged according to the various population sizes :

Less than 200	...
200 - 499	2
500 - 999	5
1,000 - 1,999	37
2,000 - 4,999	43
5,000 - 9,999	7
10,000 and above	3
Total inhabited villages	97

The ten villages having more than 5,000 population and above are Duvva (8,023), Velpuru (13,418), Velivennu (5,484), Undrajavaram (7,375), Sidhantam (6,238), Airagavaram (5,919), Attili (15,074), Relangi (10,225,) Penumantra (7,286) and Khandavalli (7,410). The places of interest among these villages are prescribed in the succeeding pages.

The density of population of the taluk is 1,475 persons per sq. mile. The most striking feature of this taluk is that it is a delta area irrigated by the Godavari canals. The chief canals are the Narasapur Canal, the Gostanadi-Velpuru canal, the Attili Canal and the Bank Canal which branch off from the Nidadavole main canal two miles from Nidadavole in Kovvur taluk and flow from north to south towards Bheemavaram and Narsapur taluks.

The River Vasista which branches off from the main River Godavari at Vijjheswaram enters into the taluk at Kanur and flows along the eastern boundary of the taluk for about 11 miles up to Sidhantam and then borders the Narsapur taluk on the east only to fall into the Bay of Bengal. Besides this the Yerrakalva flows through the taluk for a distance of about eight miles from Duvva to Moyyeru villages almost separating it from the Tadepalligudem

taluk. Floods in the Godavari and Yerrakalva are an annual feature during August and September and people usually are alert during this period and take necessary precautions. The taluk contains a few drains namely Nakkala drain, Gosthanadi drain, Velpuru drain, Arudalakodur drain and the Yenamanduru drain. But the Yenamanduru drain is the main drainage canal. It brings the flood water from Chintalapudi, Polavaram, Tedepalligudem and Kovvur taluks and runs in spate during August and September. Lankas (Small elevated islands) are formed in the Vasista river on account of the accumulation of sand and alluvial soil (silt) brought down by it. These lankas which are very fertile are generally rented out in public auction from year to year and in some cases they are leased out without public auction to the Field Labour Co-operatives.

Forests are conspicious by their absence. Most of the rainfall occurs during the south-west monsoon which sets in generally in the second week of June. July to October is the heaviest monsoon period when all the staple wet and dry crops are raised. Timely rains during this period and adequate supply of water from the Godavari Western irrigation system are conducive to high yields of wet paddy, sugarcane and other garden crops. It is interesting to note that Tanuku is the only taluk in the district which contains alluvial soil throughout. As such the taluk stands as one of the rich taluks in the district. The rainfall which occurs during the north-east monsoon (October and November) is generally low. Any heavy rain during these months is sure to cause damage to the crops ready for harvesting. Cyclones generally occur during the months of October and November and they may cause very heavy damage to the standing crops. Also, as the taluk is situated only about 31 miles from the Bay of Bengal the velocity of the cyclonic winds, which is indeed fierce, can cause comparatively heavy damage to this taluk than the other northern and western taluks.

As regards medical aid there is a Taluk Headquarters Hospital and a Leprosy Clinic at Tanuku. Penugonda, Penumantra, Duvva, Velivennu, Airagavaram, Siddhantham, Undrajavaram and Khandavalle have one Rural Dispensary each. At Manchili a Primary Health Centre is located. Apart from these there are seven big private Hospitals at Tanuku equipped with uptodate facilities like Blood Bank, X-Ray Clinics etc. Further, Vallur village is noted for the local traditional treatment of bone fractures. In almost all the villages there are either tanks or wells for drinking water. People drink water from the Godavari Canals also.

This taluk has about twelve High Schools maintained by the Zilla Parishad and a Polytechnic in Tanuku maintained by Sri M. Harischandra Prasad, M.L.A. It is reported that there are nearly 250 Elementary Schools in the entire taluk.

As regards transport and communication facilities the taluk is thickly interspersed by the major district roads on which quite a number of buses ply regularly connecting the neighbouring taluks. A deluxe bus service is provided to Tanuku from Guntur *via* Vijayawada. The Godavari canals also provide inter-water communication facilities on which boats ply up and down connecting important trade centres of the district *viz.* Palacole, Narsapur, Bhimavaram, Nidadavole, Eluru etc., as there is heavy transport of local produce. The Nidadavole-Narasapur Broad Gauge Line of the Southern Railway passes through this taluk for about 18 miles with its stations at Kaldhari, Satyavada, Tanuku, Velpuru, Relangi, Attili, Manchili and Aravilli.

The chief cottage and small scale industries of the taluk capable of providing both part time and whole time occupations are handloom weaving, cotton dyeing and bleaching, vegetable oil pressing, gur manufacture, tobacco products other than beedis, copper, brass, and bell metal works, pottery, basket making, manufacture of leather chappals and shoes, coach building, and milling of cereals. As regards the large scale industries, the taluk contains sugar factories, a cycle industry, a fertiliser factory and a textile mill at Tanuku which provide employment to thousands of skilled and unskilled workers besides a brass rolling mill at Peravali and a brass utensils industry at Ajjaram. A large number of rice mills are located at Tanuku, Penugonda and Maruter. Further Penugonda stands next to Tanuku by virtue of its having about 20 big rice mills and about 30 concerns engaged in the manufacture of buckets and trunks. There are also khandasari sugar mills at Tanuku, Aitampudi and Manchili. It is interesting to note that the taluk contains several Social Welfare Organisations such as Balasaraswathi Sthree Samajam at Tanuku and other Mahila Samajams at Unikili, Aravilli, Kommara, Palur, Penumantra and Polamur villages. These institutions provide coaching in sewing, music, typewriting, embroidery, spinning on amber charka etc.

Tanuku—a Panchayat, is situated on the banks of Gosthanadi and is the headquarters of the taluk by the same name. It has a population of 24,657 persons and an area of 7.70 sq. miles. In all it comprises 3,621 occupied residential houses.

The town is both industrially and agriculturally important. Several industries such as The Andhra Sugars Ltd., The Jayalakshmi Fertilisers, The Jaya Cycle Industries, The Akkamamba Textiles Ltd., The Gemini Banian Works etc., have sprung up of late and are rapidly making headway. It is agriculturally rich as it is situated in the midst of a very fertile tract producing abundant quantities of paddy and sugarcane besides plantains and other garden crops. It is one of the important Railway Stations on the Narsapur-Nidadavole Broad Gauge branch line of the Southern Railway.

Penugonda—a Panchayat, situated on the bank of Narasapur canal, is another urban unit of Tanuku taluk comprising an area of 6.77 sq. miles and a population of 13,978 persons. There are altogether 2,960 occupied residential houses in this town. It contains a Sub Registrar's Office, a Police Station, an Agricultural Demonstrator's office, an Assistant Commercial Tax Office, a Veterinary Hospital, a High School, a Travellers' Bungalow and a Post Office with separate Telephone and Telegraph Offices. A weekly market (Shandy) is held on every Wednesday during which cattle are also brought for sale and the business turnover is considerable.

Maruter—situated at a distance of one and half miles directly south of Penugonda, has a population of 5,296 persons and extends over an area of 1.14 sq. miles. There are altogether 887 occupied residential houses in this town. It is connected by Koderu-Nallajarla Road and Narsapur–Nidadavole Road on which buses ply regularly. There is an Agricultural farm maintained by the Government for research work on improved strains of paddy.

The town contains a Hospital, a High School, a Post Office with Telegraph facility, a Travellers' Bungalow, a Reading Room and a Public Park. A weekly market is held on every Tuesday which attracts people even from the outlying farms.

Attili :—the largest populated village (15,074 persons) in this taluk,covers an area of 8.37 sq. miles and contains 2,577 occupied residential houses. Agriculture is the major means of livelihood. Paddy is the chief food crop raised besides chillies and pulses. The village contains several rich merchants, who are wholesale dealers in pulses, chillies and tamarind. There is a Panchayat Office, a Sub-Registrar's office, Block Development Office, a Sub-Post Office with Telephone and Telegraph facilities, a Veterinary Dispensary, a P. W. D. Rest House, and a Zilla Parishad High School in this village. It is also an important Railway Station on Nidadavole-Narsapur Broad Gauge branch line of the Southern Railway. A weekly market is held here on every Friday.

NARSAPUR TALUK

This taluk lies towards the south-west corner of the district adjoining the Bay of Bengal. The taluk is bounded on the north by Tanuku taluk, on the south by the Bay of Bengal, on the east by the River Vasista Godavari and on the west by the Bheemavaram taluk. It has a population of 336,548 persons, the largest for any taluk in the district, as per the 1961 Census count as compared with 293,773 persons according to the 1951 Census. It occupies an area of 278.9 sq. miles and its density of population is 1,207 persons per sq. mile. In all it comprises 87 inhabited villages and two urban areas namely Narsapur and Palacole.

The following statement shows the number of inhabited villages arranged according to the various population sizes :

Less than 200	1
200 - 499	...
500 - 999	12
1,000 - 1,999	20
2,000 - 4,999	39
5,000 - 9,999	13
10,000 and above	2
Total inhabited villages	87

The fifteen villages having a population of 5,000 or more are Lakshmaneswaram (7,113), Linganaboyinacherla (5,294), Elamanchili (7,482), Mogalthuru (14,296), Mutyalapalle (5,410), Kalipatnam (6,416), Perupalem (7,594), Valluru (5,552), Doddipatla (8,037), Ilapakuru (6,482), Penumadam (5,533), Kavitam (5,674), Poduru (6,878) Vemavaram (5,531),

and Achanta (12,782). The places of interest among these villages are described in the succeeding pages.

Narsapur is another delta taluk of the district but it contains uncultivable swamps and some forests near the coast of the Bay of Bengal in the south. The River Godavari flanks the entire eastern boundary of the taluk. The total Reserved Forests in this taluk cover an area of only two sq. miles spread over in the villages of Mutyalapalli, Vempa and Mogalthuru. The entire forest area consists of only scrub jungles. The soil in this taluk is made up of alluvial black regar and arenaceous types. Here also irrigation is facilitated entirely by the canals namely the Attili Canal, the Velpuru Canal and the Narsapur Canal of the splendid Godavari Anicut system. Irrigation is also carried on temporarily under the *Doruvu* wells particularly for the dry crops. An extent of about 1,33,559 acres is cultivated by major irrigation sources. Most of the rainfall is derived from the south-west monsoon which sets in June–July. The climate of the taluk is generally healthy throughout except in the marshy areas adjoining the Bay of Bengal which renders the climate moderate.

As regards transport and communication facilities the Narsapur-Nidadavole Broad Gauge line of Southern Railway passes through this taluk with its stations at Lankalakoderu, Palacole, Gorintada and Narsapur. The taluk is thickly interspersed with the major district roads on which buses ply regularly connecting the neighbouring taluks of the district and almost all villages in the taluk.

As regards medical relief there is one Government Hospital, a Mission Hospital and a Leprosy Hospital at Narsapur, the taluk headquarters. In addition to these, the taluk contains Rural Dispensaries at Mogalthuru, Agarru, Palacole and many other big villages. Lakshmaneswaram and Medapadu have each one Maternity Centre maintained by the Panchayat Samithi. There are also Maternity Centres at Narsapur and Palacole maintained by Municipalities. The taluk contains many hospitals either private or public. There is protected water supply system in Palacole maintained by the Municipality. In villages people drink water either from wells or from tanks.

This taluk contains a Higher Secondary School at Palacole maintained by the Palacole Municipality and the other at Jinnuru maintained by the Zilla Parishad. In addition to these Palacole Municipality maintains one High School for boys and one for girls' exclusively. At Narasapur there are two High Schools, one maintained by a private committee and the other by the Christian Missionaries. Mogalthuru, Kummaripurugupalem, Doddipatla, Lankalakoderu, Achanta, Mattavarthipalem and Machapuri and some other big villages have a High School each, maintained by the Zilla Parishad.

The chief cottage and small scale industries of this taluk are coarse rope making industry at Mogalthuru, tape industry at Palacole, and silk production at Dagguluru. As regards large scale industries the construction of a big sugar factory at Palacole is nearing completion.

Finally an interesting feature of economic interest is the big shandy held on every Saturday at Palacole in which the business turnover usually is very high. It is also a big shandy fot cattle.

Narsapur—a Municipality is situated on the right bank of Vasista branch of River Godavari, six miles from the sea, and on the Narsapur canal, 35 miles from Nidadavole comprising an area of 4.36 sq. miles. It has a population 30,064 persons, and contains 5,078 occupied residential houses. It was once a sea port of the Dutch people. Here the coasts are low and the sea at the mouth of the river becomes shallow, so that there is no suitable place for a large, deep harbour and hence it has lost its importance. It was originally famous for ship and boat building. Even now though big ships are not built, the craft is still kept up and small boats are being built. The town has a Sub Collector's Office, a Sub Registrar's Office, a District Munsif's Court, a Judicial second Class Magistrate's Court, a Coconut Development Office, a Taluk Office, a Government Hospital, a Unani Dispensary maintained by the Zilla Parishad, a Maternity Child Welfare Centre and a few private Hospitals. There is also a Veterinary Hospital. The town contains a Rest House maintained by the Highways Department and another maintained by the Municipality and a Park. Hand made crochet lace work is an important and famous cottage industry of this town. A temple of Adikesava Embramannaruswamy is located here. A weekly market is held here on every Sunday. It is an important Railway Station and a terminus on the Nidadavole–Narsapur Broad Gauge line of Southern

Railway. It is also growing to be a centre of education with one private Arts College, two High Schools and a Government Training School for women besides 26 Elementary Schools. The Municipality maintains 22 Elementary Schools.

Palacole—a Municipality, is situated on the Narsapur canal, six miles from Narsapur and 29 miles from Nidadavole and has a population of 28,481 persons and an area of 1.81 sq. miles. In all it contains 5,288 occupied residential houses. The town is progressing not merely because of urbanisation but also because of the productivity of the neighbouring rural tract itself.

The Dutch opened a factory here in the middle of the 17th century and for sometime it was the headquarters of their establishments in this part of the coast. It fell to the English in 1773 but the Dutch retained its possession on payment of a small quit rent till 1804. The place was restored to Holland by the convention of 1814 but was finally ceded to the British in 1825. The most interesting relic of the Dutch occupation is the little cemetery in the heart of the town which contains inscriptions dating back to 1622.

The town is an important Railway Station on Narsapur – Nidadavole Broad Gauge line of the Southern Railway and it is also accessible by bus. The Narsapur – Prakkilanka Road and the Doddipatla – Bhimavaram Road pass through the town on which buses ply regularly. It is also connected by Narsapur canal with Narsapur in the South on one side and Nidadavole in the North on the other. With adequate transport and communication facilities it has developed into a big trading centre and is the seat of several rich merchants and banks as well. The place is famous for oranges (Batavia) and lime gardens and the Palacole Fruit Growers' Society is an important co-operative concern which exports large quantities of limes and oranges. Coconuts are also exported from this town.

The town contains a Police Station, a Sub Registrar's Office, a Sub Magistrate's Court, a Town Police Station, a Rural Police Station, three Sub-Post offices, a Telegraph Office, a Public Call Office a Government Dispensary, a Municipal Maternity Home and a Malaria Eradication Unit. Several private medical practitioners also are available here. The town has protected water supply system. A Municipal Higher Secondary School and two Municipal High Schools out of which one is exclusively for Girls and 22 Elementary Schools maintained by the Municipality provide necessary educational facilities for the town. A weekly shandy is held on every Saturday in this place, which is the biggest in the district. Palacole is a flourshing town and an important market centre in the Western Delta of the Godavari.

Mogalthuru—is the largest populated village with a population of 14,296 persons. The village extends over an area of 11.33 sq. miles and contains 2,538 ocupied residential houses. There is an old fort of the Moghul Rulers which is quite interesting and worthy of a visit. The fort area is still retained by the descendants of the then Moghul Rulers. People who come from distant places do not fail to pay a visit to this fort and other related buildings. The village contains a Police Station, a Sub Post Office, a Block Development Office, a Panchayat Office, a Co-operative Cottage Industries Office, and an Office of the Assistant Inspector of Fisheries. Coir industry is the chief cottage industry of this locality, besides weaving, spinning, carpentry, and pot making which are also popular. There is a Zilla Parishad High School in this village besides a public park and a reading room.

Doddipatla—village is situated on the right bank of the River Vasista Godavari, 7 miles to the east of Palacole and connected by Road. It has a population of 8,037 persons and an area of 4.41 sq. miles. In all it contains 1,516 occupied residential houses. Razole town in East Godavari District is on the other bank of the River Vasista Godavari opposite to Doddipatla. Passengers bound for Razole generally cross the River at this place. On every '*Parvadinam*' (sacred day) a large number of Hindus gather here and take their bath in the River Vasista Godavari. There are luxuriant coconut, plantain and betelvine gardens at this place. The village has a Rural Dispensary, a Sub Post Office, a Panchayat Office, a Zilla Parishad High School and a Library. A weekly market is held on every Friday.

Achanta—the second largest village in the taluk, is situated about 13 miles north-east of Palacole town and connected by road. It has a population of 12,782 persons and an area of 8.12 sq. miles. It contains 2,332 occupied residential houses. A large number of people in this village are engaged in agriculture and

its allied pursuits. The total number of agricultural workers of this place is 4,088 persons of whom 2,653 persons are agricultural labourers while the rest are cultivators. There are two big temples of Achanteswaraswamy and Gopalaswamy. Every year a big festival is held at the former temple on Sivarathri day which attracts a large number of pilgrims.

Kalipatnam—a coastal village, situated 12 miles west of Narsapur, has a population of 6,416 persons and an area of 11.86 sq. miles. There are altogether 1,374 occupied residential houses in this village. In the past it was a Zamindari village of Sri Raja Kandregula family. The village contains a big fish market. The business transaction in dry fish alone is considerable. The village has a Panchayat Office, a Sub Post Office with Telephone and Telegraph facilities and an Oriental High School.

BHEEMAVARAM TALUK

An inland taluk, situated to the south of the district adjoining the Krishna district, extends over an area of 290.1 sq. miles. According to the 1961 Census count the taluk has a population of 276,221 persons as against 236,092 persons recorded at the 1951 Census. The density of population of the taluk is 952 persons per sq. mile. There are altogether 86 inhabited villages and one uninhabited village in the taluk. Bheemavaram is the only urban area it contains.

The following statement shows the number of inhabited villages arranged according to the various population sizes :

Less than 200	1
200 - 499	2
500 - 999	14
1,000 - 1,999	20
2,000 - 4,999	42
5,000 - 9,999	5
10,000 and above	2
Total inhabited villages	86

The seven villages having a population of 5,000 and above are Losarigutlapadu (9,469), Srungavruksham (6,686) Rayakuduru (6,062), Veeravasaram (13,275), Undi (9,046), Akividu (13,061), Elurupadu (6,340).

A significant feature of this taluk is that it is one of the delta taluks of the district and irrigation is facilitated by a net work of canals, *viz.*, the Venkaiah Canal, the Undi Canal and Velpuru Canal under the Godavari Anicut system. There are uncultivable swamps and some forests near the coast in Losarigutlapadu village and parts of this taluk are liable to submersion. The Yenamanduru drain and the Upputeru are the main drainage sources. The soil in this taluk chiefly consists of the alluvial variety and the black regar. A negligible extent of arenacious soil is also found. The Reserve forests in this taluk are of the mangrove type.

As regards transport and communication facilities Bheemavaram is the junction of Gudivada-Bheemavaram Broad Gauge line and the Narsapur – Nidadavole Broad Guage line of the Southern Railway. The Godavari canals also provide inter-water communication facilities. Apart from these the taluk is served by major district roads on which buses ply regularly.

As regards medical relief there is a Taluk Headquaters Hospital and a Mission Hospital at Bheemavaram. The villages Undi, Srungavruksham, Konithiwada, Jakkaram and some other big villages have one Rural Dispensary each.

The educational establishments of this taluk consist of an Arts College at Bheemavaram besides 13 High Schools and 5 Middle Schools in the taluk. There are elementary schools in almost all the villages of the taluk.

Bheemavaram—a Municipality is the headquarters of the taluk by the same name it has a population of 43,821 persons and an area of 9.00 sq. miles. It contains 6,873 occupied residential houses.

Bheemavaram is a town of rising importance, being situated in the midst of delta area which produces rich variety of paddy. In fact it is an important market centre for paddy ; it is a Railway junction of the Nidadavole-Narsapur Broad Gauge line and the Gudivada-Bheemavaram Broad Gauge line of the Southern Railway. The Velpuru canal of the splendid Godavari Anicut system provides inter-water-communication facilities and the town is also well connected by major district roads on which buses ply regularly. The town has a district Munsif's Court, a Taluk Office, Offices of a First Class Magistrate and a Second Class Magistrate besides several important public offices.

It contains a Government taluk headquarters Hospital, a Roman Catholic Hospital and a Key Village Centre. The town is also noted for a large Naturopathic treatment centre with in-patient accomodation, in an extensive garden.

The town is also growing up to be an important centre of education with one first grade college called the W.G.B. College, two Higher Secondary Schools, namely the U.L.C.M. Higher Secondary School and S.Ch.B.R.M. Higher Secondary School and two private High Schools the P.S.M. Girls High School and the S.J.G.M. High School out of which one is exclusively for girls *viz.*, Apart from these the Municipality maintains 22 Elementary Schools and two Higher Elementary Schools. There is a separate Telephone Office besides a Post and Telegraph Office. The town contains two famous temples *viz.*, the Bheemeswaraswamy temple and the Someswaraswamy temple, a P.W.D. Rest House and the Durga Bai Park maintained by the Municipality.

TABLE 2.11 — GOVERNMENT EXPERIMENTAL FARMS

Sl. No.	Name of Farm	Location and distance from Railway Station	Year of Establishment	Whether Research, Multiplication or Demonstration farm	Management *i. e.*, State, University or Private	Annual Rainfall (in inches)	Type of soil	Programme of Research
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)
				WEST GODAVARI DISTRICT				
1	Agricultural Research Station, Maruter	Superintendent, Agricultural Research Station, Maruter; 9 miles from Palacole Railway Station	1925	Research and Multiplication Farm	State	42″	Black Clays	1 Evolution of rice strains suitable for different types of soils, climate and seasons; evolution of special strains like non-lodging strains in rice by hybridisation 2 Evolving improved methods of rice culture 3 Evolving best methods of manuring in rice (quantitative and qualitative) 4 Methods of controlling pests and diseases on rice
2	Sugarcane Liaison Farm, Tanuku	Superintendent, Sugarcane Liaison Farm, Tanuku ; 1½ miles from Tanuku Railway Station	1958-59	Demonstration-*cum*-Research	State	47·21″	Clay Loam	1 Testing of varieties sent from Anakapalle and selecting suitable varieties for early, mid and late seasons 2 Manurial trials to study the optimum dose required and optimum time of application to get better yields in the tract ; studies on the three major nutrients N. P. K. and their methods of application 3 Cultural trials are also conducted to find out better methods suitable to the tract 4 To multiply healthy, disease freed seed material of promising varieties for distribution among cultivators

(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)
3	Banana Research Station, Tanuku	Tanuku, 5 furlongs from Tanuku Railway Station	1958	Research	State, subsidised by Indian Council of Agricultural Research	45″	Black Clay	The station is intended to make a study of the existing banana industry in the State and attempt at improvement of the culture through agronomic, botanic and horticultural means. The scheme is financed partly by the Indian Council of Agricultural Research and was sanctioned at the first instance for 3 years ending March, 1961 1 Collection and study of varieties with a view to classifying the varieties and recommending suitable ones for the State 2 Manurial requirements of different varieties 3 Spacing and other cultural aspects of banana cultivation 4 Irrigational needs of the banana 5 Study of pests and diseases The station is located on leased lands and the experiments are planned and observations are under way
4	Deep Water Rice Research Station Pulla	Pulla, 5 miles from Pulla village in Kolleru Lake and Pulla Railway Station	1950	Research	State	38·4″	Clayey Loam	1 Evolution of deep water strains of paddy to grow under Kolleru Lake conditions by introduction, selection and hybridisation 2 Multiplication of rice strains PLA2, PLA3 and PLA4 released from station

TABLE 4.2—TOTAL NUMBER OF ARTISANS OF EACH CATEGORY WORKING IN THE DISTRICT TOGETHER WITH THEIR DAILY AVERAGE EARNINGS PER WORKER

Class of Workers (1)	No. of Workers (2)	Average daily earnings (3)
WEST GODAVARI DISTRICT		
		Rs.P.
Automobile repairing engineering workers	38	2.50
Ambar spinners	1,787	1.00
Bark cutters	42	N.A.
Basket, mat and rattan workers	3,863	2.50
Bee keepers	322	1.00
Blacksmiths	1,481	3.00
Book binders	13	1.00
Brick makers	1,136	2.00
Cane workers	25	2.00
Canvas cloth weavers	37	1.50
Carpenters	4,212	2.75
Carpenters-*cum*-Blacksmiths	2,303	3 00
Carpets and Drugget makers	97	2.50
Cement workers	3	2.75
Ceramic workers	113	2.00
Charkha spinners	1,023	1.00
Cobblers	1,782	1.25
Coir and Fibre workers	6,845	1.50
Cumbly weavers	315	2.00
Dyers and printers	70	2.00
Electro plating workers	3	1.75
Fish net workers	124	1 00
Gold and silversmiths	1,043	3.50
Gunny weavers	56	1 25
Handstick makers	59	1.25
Iron foundries	52	2 00
Jaggery manufacturers	10,333	1.50
Match workers	62	N.A.

Class of Workers (1)	No. of Workers (2)	Average daily earnings (3)
WEST GODAVARI DISTRICT—*Concld.*		
		Rs.P.
Mechanical workers	11	2.00
Metal workers	1,003	2.00
Mill workers	555	1.25
Mine workers	70	N.A.
Oil mongers	1,155	2.00
Painters	9	2.00
Palta weaver	12	1.50
Leaf Plate workers	1,111	N.A.
Potters	3,062	1.50
Printers and litho workers	114	1.50
Rice mill workers	647	1.25
Salt producers	1,000	1.25
Saw millers	23	1.50
Stone workers	100	1.50
Tailors	5,016	2.00
Tanners	1,565	2.00
Tanners-*cum*-cobblers	3,098	2.00
Tape weavers	1,998	1.25
Tappers and palm gur workers	909	3.00
Tinsmiths	79	1.50
Toy makers	5	1.50
Trunk workers	6	2.00
Weavers	20,287	1.50
Wool weavers	269	N.A.
Workers engaged in bone crushing	20	1.50
Workers engaged in charcoal burning	13	1.00
Workers engaged in fibre extraction	11,075	1.00
Workers engaged in hand pounding of rice	162	1.50
Workers engaged in hosiery and knitting	16,670	1.50

Note : Due to the introduction of one year P.U.C. course and 3 year degree course in place of 2 year Intermediate and 2 year Degree Courses from 1957–58 the strength under columns 7–10 *i. e.*, P. U. C. course has gone down and the strength under columns 11–14 has gone up from 1958-59. The figures shown up to 1956–57 relate to Intermediate, those for 1957–58 refer to P.U.C. and 2nd year Intermediate and from 1958–59 onwards the figures refer to P.U.C. only.

TABLE 7.2—LIST OF COLLEGES AND TECHNICAL INSTITUTIONS TOGETHER WITH THEIR STRENGTH—*Concld.*

PART III

STATISTICAL TABLES

WEST GODAVARI DISTRICT

(Talukwise Density of Population)

G. P. RANGAM

Prepared in the Office of the Superintendent of Census Operations, Andhra Pradesh, Hyderabad.

EXPLANATORY NOTE

A-SERIES

GENERAL POPULATION TABLES

General Population Tables prepared at the 1961 Census are the basic demographic tables and give information about the total population as recorded at the present Census in the district/taluk/town, the territorial changes that have occured during the last decade from 1951-61, variation of population during the past six decades, distribution of villages and towns by population sizes and trends of urbanisation in the district. The data are presented under the following four tables.

A-I	Area, Houses and Population
A-II	Variation in Population during sixty years (1901-61)
A-III	Villages classified by population
A-IV	Towns (And Town-Groups) Classified by population in 1961 with variation since 1941

All the above Tables pertaining to West Godavari district are reproduced in this Hand Book.

TABLE A-I—AREA, HOUSES AND POPULATION

This Table, the basic population table, gives for the district and for each *taluk as well as* for each town in the taluk, area in square miles and also in square kilometres, persons per square mile, number of villages inhabited and uninhabited, number of towns, number of occupied residential houses, and population by persons, males and females. The figures have been given separately one below the other under Total, Rural and Urban. In this Table as in all other tables, the taluks have been arranged in the order of the Location Code Numbers adopted at the 1961 Census and not in an alphabetical order. For this purpose all the eight taluks in the district have been numbered off continuously in a clockwise order starting from the taluk in which the district headquarters is situated, *i.e.*, from Eluru taluk as indicated below.

Name of Taluk	*Location Code Number*
Eluru	1
Chintalapudi	2
Polavaram	3
Kovvur	4
Tadepalligudem	5
Tanuku	6
Narsapur	7
Bheemavaram	8

One of the main changes in the presentation of this Table since the last Census is that the particulars relating to each of the towns in the taluk are also given underneath the concerned taluk besides giving the number of inhabited and uninhabited villages in each taluk.

The district area shown against (x) in column (3a) is that supplied by the Surveyor-General, India. The difference noticed between the area figures furnished by the Surveyor-General, India and the figures given by the State Survey Department shown against (y) is on account of the different methods of computation of areas adopted by the two authorities. The area figures adopted generally for the district and the taluks are as furnished by the State Survey Department and the area figures of each of the towns are as furnished by the Local Authorities concerned and these are exhibited under column (3a). The urban area of each taluk has been worked out by adding the areas of all the urban units in the taluk and the rural area of the taluk is obtained by deducting the urban area of the taluk from its total area.

The area in square kilometres under column (3b) is obtained by converting the area in square miles, corrected upto two places of decimals, given under column (3a). The area figures for district Total/Rural/Urban, taluk Total/Rural and for each town have been first converted separately. In order to tally the totals of all the taluks with the district total the converted Total/Rural/Urban area figures of the taluks have been suitably adjusted on *prorata* basis according to area ratios of the taluks. The area of each town both in square miles under column (3a) and in square kilometres under column (3b) have been given upto second decimal place while the Total/Rural/Urban areas of the taluks as well as of the district have been given only upto first decimal place.

The density of persons per square mile for the district and for each of the taluks and towns has been worked out according to the area figures exhibited under column (3a).

"Village" referred to in this Table and in all other tables in this book is the Revenue administrative unit with well defined boundaries. A village having one or more groups of habitations is treated as an inhabited village and a village with no habitation at all is treated as an uninhabited village. The number of inhabited and uninhabited villages in each taluk and in the district are shown under columns 5 and 6 of this Table. In computing the number of villages in a taluk, the villages which are either completely included in an urban unit (town) or hamlets to a main Revenue village, are not taken into

account. All the Revenue villages within the taluk are demarcated and numbered off continuously from north-west to south-east. The number so assigned to each village is the 1961 Census Location Code Number, distinct from the Revenue Survey Number and will be referred to hereafter as the Location Code Number.

"Town" is a place usually having not less than 5,000 inhabitants possessing distinct urban characteristics and also satisfying certain criteria prescribed.

For recognition of any place as a town at the present Census it should be either covered by a City Corporation, Municipality or Cantonement Board or it should generally satisfy the following criteria.

(i) It should have a minimum population of 5,000;

(ii) The density of population should not be less than 1,000 per square mile; and

(iii) At least 3/4ths of the adult male population should be non-agricultural.

The total number of towns in each taluk and in the district is exhibited under column 7 of this Table.

A "Census House" is defined for the purpose of 1961 Census as a structure or part of a structure inhabited or vacant, a dwelling, a shop, workshop, or a factory, place of business, a shop-*cum*-dwelling giving on the road or a common stair-case or a common courtyard, leading to a main gate or enjoying a separate entrance. Only houses used wholly or partly for the purpose of residence by one or more households are considered as residential houses and the number of such houses in the town/taluk/district have been given in column 8. Houses utilised wholly for purposes other than for residence are not therefore taken into account in this Table.

The total population figures, by persons, males and females for the district as well as for each taluk and town have been exhibited separately under columns 9, 10 and 11 in this Table.

Besides the main Table, there are also three Appendices to this Table.

Appendix I: In this Appendix the growth of the district and the taluks to the present area since the last Census has been traced by giving the territorial changes that have taken place during the last decade together with the names of the units and the area involved in the changes. The net area gained or lost by each unit is also given in this Appendix. As there are no inter State/District/Taluk changes in this district during the last decade, this Appendix is not given.

Appendix II: One of the criteria for a place to be declared as a town is that it should normally have a population of 5,000 and over. However, some places with a population of 5,000 and over did not qualify to be treated as towns. This Appendix gives the number of such places with their population. There are no towns with population under 5,000 persons at the 1961 Census in this district.

Appendix III: This Appendix shows the taluk-wise figures for the Houseless Population and the Institutional Population separately. Houseless Population comprises groups of people who have no fixed place of residence and no regular home to live in. Institutional Population represents groups of unrelated persons living and messing together, as in the case of boarding houses, messes *etc.*, under the management of a head of the household appointed either by rules governing the institution or by common consent of its members. For the purpose of studying different characteristics, Institutional Population is also considered as Household Population.

TABLE A-II—VARIATION IN POPULATION DURING SIXTY YEARS 1901-1961

This Table compares the population of the district as ascertained at the 1961 Census with the corresponding figures for the six previous Censuses *i.e.*, from 1901. The figures revealed at the previous Censuses have been adjusted for subsequent territorial changes in order to afford a correct basis for comparison.

As this Table gives the growth of population from decade to decade, these data form the main source for the estimation of population in the absence of reliable Vital Statistics. One of the main changes in the presentation of this Table since the last Census is that the percentage of variation is also given from decade to decade. The variation of males and females from decade to decade has been omitted at the present Census. There are no inter-State/District/Taluk changes during the last decade in this district and hence the Appendix to this Table showing the 1951 population according to the territorial jurisdiction in 1961, changes in area and the population involved in the changes that have taken place during the last decade is not given.

TABLE A-III—VILLAGES CLASSIFIED BY POPULATION

This Table shows the total number of inhabited villages in the district, arranged on population basis under the following groups:—

Less than 200 population
200 — 499
500 — 999
1,000 — 1,999
2,000 — 4,999
5,000 — 9,999
10,000 and above

The villages which are either uninhabited or wholly included in urban units are not taken into account in this Table. The following statement gives at a glance the breakup of all the inhabited villages of West Godavari District classified by population in four broad groups *viz.*,

Class	*Number of inhabited villages*		
	Agency	Plains	Total
Villages with population			
Less than 499	71	92	163
500 - 1,999	23	333	356
2,000 - 4,999	1	241	242
5,000 and above	1	64	65
Total inhabited villages	96	730	826

For the definition of "Village" and "Inhabited Village" see Explanatory Note to Table A-I.

TABLE A-IV—TOWNS (AND TOWN-GROUPS) CLASSIFIED BY POPULATION IN 1961 WITH VARIATION SINCE 1941

This Table shows the growth of each town since 1941. The civic status, area both in Sq. miles and Sq. kilometres, population with sex breakup, decade variation in total population and percentage of decade variation have been given for every town in the district.

For the definition of "Town" see Explanatory Note to Table A-I.

The towns have been classified into six classes according to their population in the 1961 Census as detailed below.

Class	*Limits of Population*
I	100,000 and above
II	50,000 - 99,999
III	20,000 - 49,999
IV	10,000 - 19,999
V	5,000 - 9,999
VI	Less than 5,000

Class I towns with a population of 100,000 and above have been treated as cities. The total number of towns under each class in the district at the 1961 Census is given below :—

Class	*Number of Towns*
I	1
II	Nil
III	5
IV	3
V	1
VI	Nil
Total Towns	10

Ten towns *viz.*, Attili, Mogaltur, Velpur, Viravasaram, Akividu, Achanta, Relangi, Undi, Pentapadu Agraharam and Penumantra of 1951 Census have been deleted from the list of towns in the present Census in this district.

Since the prime purpose of this Table is to show the growth of towns as towns and not how certain places have grown into towns from villages, the population of a place which at any particular Census year was not treated as a town is not given in this Table. The population of towns at each of the last seven Census years *i.e.*, since 1901 is, however, given in Table A-IV in Part II-A General Population Tables of Andhra Pradesh (State Volume). The population of towns for previous Censuses are those then recorded. No adjustments have been made for intervening changes in area.

The civic status of every town *i.e.*, whether the town is a Municipality, a Panchayat *etc.*, is indicated after the name of the town in abbreviated letters M., P., *etc.*

One of the main changes in the presentation of this Table since the last Census is that the areas of towns and the percentage of decade variation of the total population of the towns have also been given.

The Appendix to this Table gives the names of towns recognised at the present Census together with the names of villages either fully or partly included in them.

TABLE A-I—*Concld.*

AREA, HOUSES AND POPULATION

District/Taluk/Town	Total Rural Urban	Area in Sq. miles	Area in Sq. Km.	Population per Sq. mile	No. of Villages Inhabited	No. of Villages Uninhabited	No. of Towns	No. of Occupied Residential Houses	Population Persons	Population Males	Population Females
(1)	(2)	(3a)	(3b)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)
8 Bheemavaram Taluk	T	290·1	751·3	952	86	1	1	48,681	276,221	138,749	137,472
	R	281·1	728·0	827	86	1	...	41,808	232,400	116,164	116,236
	U	9.0	23·3	4,859	...	...	1	6,873	43,821	22,585	21,236
Bheemavaram (M).	U	9·00	23·31	4,869	...	...	1	6,873	43,821	22,585	21,236

NOTE :— 1· Under columns (3a) and (3b), (x) represents the area figures furnished by Surveyor-General of India, and (y) represents the area figures furnished by the State Survey Department· The urban areas are based on the area of individual towns furnished by the local authorities· The rural area for the district/taluk is obtained by subtracting the urban area from the total district/taluk areas according to the State Survey Department·

2· The square kilometre and density figures of urban areas of taluk/district are worked out using the area figures in sq. miles corrected upto two places of decimals obtained by adding the areas of the towns in the respective units and not using the area figures given in the table· In addition to this the area figures in square kilometres are further adjusted to make the taluk/district totals tally·

3· The following abbreviations have been used for the status of a town :—

M : Municipality, P : Panchayat

4. Appendix I to Table A-I is omitted for reasons given in the Explanatory Note to this Table.

APPENDIX II TO TABLE A-I

Number of villages with a population of 5,000 and over and towns with a population under 5,000

District/Taluk	Villages with a population of 5,000 and over: Number of Villages	Population	Percentage to total Rural population of the District
(1)	(2)	(3)	(4)
WEST GODAVARI DISTRICT	**65**	**476,800**	**28·65**
Eluru Taluk	8	54,855	3.30
Chintalapudi Taluk	4	29,024	1·74

EXPLANATORY NOTE

B-SERIES

ECONOMIC TABLES

The Economic Tables for the 1961 Census are based on the principal work of a person and the concept of dependancy has been abandoned altogether for economic classification. The entire population has been divided into the following nine categories of Workers, for broad economic classification based on the National Classification of Industries adopted by the Government and the Non-Workers being shown as a separate category.

I Working as Cultivator

II Working as Agricultural Labourer

III Working in Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities

IV Working at Household Industry

V Working in Manufacturing other than Household Industry

VI Working in Construction

VII Working in Trade and Commerce

VIII Working in Transport, Storage and Communications

IX Working in Other Services

X Non-Workers

The following seventeen Economic Tables, nine of which relate to the General Population and the remaining eight relating to a 20% sample of Households, have been prepared at the present Census.

(*i*) *General Economic Tables*

B-I Workers and Non-Workers classified by sex and broad Age-groups

B-II Workers and Non-Workers in cities, town-groups and towns arranged territorially classified by sex and Age-groups

B-III *Part A*-Industrial Classification of Workers and Non-Workers by educational levels in *Urban areas only*

Part B-Industrial Classification of Workers and Non-Workers by educational levels in *Rural areas only*

B-IV *Part A*-Industrial Classification by sex and class of Worker of persons at work at Household Industry

Part B-Industrial Classification by sex and class of Worker of persons at work in Non-Household Industry, Trade, Business, Profession or Service

Part C-Industrial Classification by sex and Divisions, Major Groups and Minor Groups of persons at work other than Cultivation

B-V Occupational Classification by sex of persons at work other than Cultivation

B-VI Occupational Divisions of persons at work other than Cultivation classified by sex, broad Age-groups and educational levels in *Urban areas only*

B-VII *Part A*-Persons working principally (i) as Cultivators (ii) as Agricu ltural Labourers or (iii) at Household Industry classified by sex and by secondary work (i) at Household Industry (ii) as Cultivator or (iii) as Agricultural Labourer

Part B-Industrial Classification by sex of persons working in Non-Household Industry, Trade, Business, Profession or Service who are also engaged in Household Industry

B-VIII *Part A*-Persons unemployed aged 15 and above by sex, broad Age-groups and educational levels in *Urban areas only*

Part B-Persons unemployed aged 15 and above by sex and educational levels in *Rural areas only*

B-IX Persons not at work classified by sex, broad Age-groups and type of activity

(*ii*) *Household Economic Tables*

B-X Sample Households (i) engaged neither in Cultivation nor in Household Industry (ii) engaged either in Cultivation or in Household Industry but not in both and (iii) engaged both in Cultivation and Household Industry

B-XI Sample Households engaged in Cultivation classified by interest in land and size of land cultivated

B-XII Sample Households engaged in Cultivation only classified by size of land cultivated, and number of family workers and hired workers

B-XIII Sample Households engaged both in Cultivation and Household Industry, showing size of land cultivated classified by principal Household Industry

B-XIV *Part A*-Households classified by Major Groups of principal Household Industry and number of persons engaged

Part B-Households classified by Minor Groups of principal Household Industry

B-XV Sample Households engaged both in Cultivation and Household Industry classified by size of land

B-XVI Sample principal Household Industry classified by period of working and total number of workers engaged in Household Industry

B-XVII Sample Households classified by (i) number of male and female members by size of Households and (ii) engagement (a) neither in Cultivation nor in Household Industry (b) in Household Industry only and (c) in Cultivation Sub-Classified by size of land cultivated.

Out of the above seventeen Tables only Tables B-I, B-III, B-IV Part C, B-V, B-VII, B-VIII and B-IX pertaining to West Godavari District are reproduced in this Hand Book.

The Household Economic Tables are a special feature of this Census and are prepared on the basis of a 20% sample of the returns in the Household Schedules filled up at the time of enumeration and are given in a separate volume entitled "Census of India 1961-Vol. II Andhra Pradesh-Part III Household Economic Tables" and may be referred to.

The working population in each of the nine categories of Workers and the Non-Working population are divided by broad Age-groups *viz.*, 0-14, 15-34, 35-59, 60 + and Age not stated, in some of these Economic Tables.

TABLE B-I—WORKERS AND NON-WORKERS CLASSIFIED BY SEX AND BROAD AGE-GROUPS

This Table is prepared separately for Total, Rural and Urban population and is a summary Economic Table for the entire district. It gives the distribution of the population by sex among the nine Industrial Categories of Workers and also Non-Workers by the four broad Age-groups 0-14, 15-34, 35-59 and 60 + years. This is the basic Economic Table and the Age-groups correspond to the different stages of life which have special significance with reference to capacity to work *viz.*, children, young persons, middle-aged persons and elderly persons. The classification of non-working population according to type of activity is made in other succeeding Tables.

This Table is prepared on the basis of the principal work of a person irrespective of the fact that the person may not be self supporting from the income derived by that work. In the case of persons who are engaged in more than one work, which are also productive activities, the principal work is taken as that one which has been declared by the person himself as the work on which he spends the longest time and not necessarily the work from which he derives the largest income. Thus the stress is on the concept of work and not income or dependency. The following explanation makes it clear as to who is treated as a Worker.

Workers

All persons who were engaged in some productive work during any of the 15 days preceding the day on which enumerated, irrespective of the fact whether they derive income or not, are treated as Workers. In respect of seasonal work like Cultivation, Livestock, Household Industry *etc.*, if the person had some regular work for more than one hour a day throughout the greater part of the working season, he is recorded as a Worker. Persons temporarily incapacitated from work at the time of Census enumeration due to illness or other cause are also treated as Workers. An undertrial prisoner in prison during the Census enumeration is also treated as worker if he did some productive work before he was apprehended. Convicts in a prison or long term inmates of hospitals or mental institutions, are not however treated as Workers. Persons under training as apprentices with or without wages are recorded as Workers. Family Workers *i.e.*, those who do not directly receive any income but attend to work along with other members of the family are treated as Workers. An adult woman who is engaged mainly in household duties and in no other economically productive work *i.e.*, a housewife, is not, however, treated as a Worker. Work includes not only actual work but also effective supervision. A public or social service Worker who is actually engaged in public service activity or political activity is taken as a Worker. Thus all workers in any branch of productive work are netted as Workers.

Non-Workers

All persons who are not workers *i. e.*, those falling under the following categories are treated as Non-Workers.

(i) Fulltime students or children attending schools and who do no other work;

(ii) Persons engaged in unpaid home duties such as housewife;

(iii) Any dependant including an infant or child not attending school or a person permanently disabled from work because of illness or old age;

(iv) A retired person who is not employed again, a rentier or royalty receiver or any other person of independent means for securing which he does not have to work and who does no other work;

(v) Beggars, vagrants or independent women without indication of source of income and others with unspecified source of existence;

(vi) A convict in jail or an inmate of a penal, mental or charitable institution;

(vii) Unemployed persons seeking employment for the first time;

(viii) Persons employed before but now out of employment and seeking work.

TABLE B-III—INDUSTRIAL CLASSIFICATION OF WORKERS AND NON-WORKERS BY EDUCATIONAL LEVELS

This Table is divided into two parts. Part A relates to Urban areas and Part B relates to Rural areas. In this Table each of the nine categories of Workers and also the Non-Workers is classified by different educational levels.

In *Part A* which relates to Urban areas only, the data are given for all the Urban areas of the district put together and also for Eluru City separately by the following educational levels.

Illiterate

Literate (without educational level)

Primary or Junior Basic

Matriculation or Higher Secondary

Technical diploma not equal to degree

Non-Technical diploma not equal to degree

University degree or Post-graduate degree other than technical degree

Technical degree or diploma equal to degree or Post-graduate degree

Engineering

Medicine

Agriculture

Veterinary and Dairying

Technology

Teaching

Others

In *Part B* the data which relate to Rural areas only are given for the district, followed by taluks by the following educational levels.

Illiterate

Literate (without educational level)

Primary or Junior Basic

Matriculation and above

A "Literate" is a person who can, with understanding both read and write. He should be able to read any matter in print or manuscript and also be able to write a simple letter. A person who can neither read nor write or can merely read and cannot write is considered as illiterate. All children aged 4 years and below are treated as illiterates. The test for education is that the person should have passed a recognised written examination or examinations as proof of the educational level attained. The highest examination passed is taken as the level of education.

TABLE B-IV—INDUSTRIAL CLASSIFICATION BY SEX AND CLASS OF WORKER OF PERSONS AT WORK OTHER THAN CULTIVATION

This Table is divided into three parts.

Part-A shows Industrial Classification by sex and class of worker of persons at work at Household Industry for Total, Rural and Urban Population. The data are shown first for the Division followed by Major Groups in the order laid down in the Indian Standard Industrial Classification under that Division.

Part-B shows the Industrial Classification by sex and class of worker of persons at work in Non-Household Industry, Trade, Business, Profession or Service for the Total and Urban population. In this part also the data are presented first for the Division followed by the Major Groups in the order laid down in the Indian Standard Industrial Classification.

Part-C shows the Industrial Classification by sex and Divisions, Major Groups and Minor Groups of persons at work other than cultivation for Total and Urban population of the district. The data are presented first for the Division followed by the

Major Groups in the order laid down in the Indian Standard Industrial Classification. Under each Major Group the corresponding Minor Groups are shown.

Only Part-C is reproduced in this Book upto district level. Minor Groups having less than 1% of Workers of the respective Division (0.5% in the case of Division 2 & 3) are not shown in this Table but shown in the Appendix to this Table.

"*Household Industry*" is an industry conducted by the head of the Household himself and/or mainly by members of the Household at home or within the village in the Rural areas and only at home in Urban areas. The industry should not be run on the scale of a registered factory and should relate to production, processing, servicing, repairing or making and selling of goods.

An "*Employer*" is a person who has to employ other persons in order to perform the work. Such a person is not only responsible for his own personal work but also for giving work to others. But a person who employs domestic servants for household duties or has subordinates under him in an office where he is employed by others, is not an employer, even if he has the power to employ another person in his office on behalf of his own employer or employers.

An "*Employee*" is a person who usually works under some other person for salary or wages in cash or kind. Persons who are employed as managers, superintendents, agents, *etc.*, and in that capacity employ or control other workers, on behalf of their own employers are not regarded as employers.

A "*Single Worker*" is a person who works by himself but not as Head of Household in a Household Industry. He is not employed by any one else and in his turn does not employ anybody else, not even members of his Household except casually. Single workers also include persons who work in joint partnership with one or several persons hiring no employees, and also a member of a Producers' Co-operative. Each one of the partners or members of such Producers' Co-operatives is recorded as a "Single Worker".

A "*Family Worker*" is a member who works, without receiving wages in cash or kind, in an Industry, Business or Trade conducted mainly by members of the family and ordinarily does at least one hour of work every day during the working season. Such an Industry, whether run at home or away from home in town or village and even away from village in the Rural areas should ordinarily be in the nature of a recognised partnership, joint stock company or registered factory. Members of a family include those drawn from beyond the limits of the Household by ties of blood or marriage. The family worker may not be entitled to a share of the profits in the work of the business carried on either by the person or Head of the Household or other relative. Members of the Household who help solely in Household duties are not treated as family workers.

Note:—In respect of Household Industry, by the very nature of the participation of the workers in a Household Industry all the four categories of workers are not recognised. Only the "employees", if any, in a Household Industry are categorised as such. The rest are clubbed together as "others".

TABLE B-V—OCCUPATIONAL CLASSIFICATION BY SEX OF PERSONS AT WORK OTHER THAN CULTIVATION

This Table shows, for the Total and Urban Population, the Occupational Classification of persons working in Non-Agricultural occupations. The data are presented first for the Division followed by the Occupational Groups in the order laid down in the National Classification of occupation. Under each Group the detailed occupational Families are shown. Occupational Families, accounting for less than 1% of the workers of the respective Division (less than 0·5% in case of Families under Division 7-8) are not given in this Table, but shown in the Appendix to this Table. The particulars for the district are given down to the Occupational Family, while the talukwise particulars are given upto Division level only. Particulars for Eluru city are also presented upto Division level.

The Occupational Classification given in this Table is quite distinct from the Industrial Classification presented in Table B-IV Part C. Occupational Classification relates to the actual work a person does irrespective of the Industry in which he is engaged *e.g.*, a person who is a clerical worker for Occupational Classification may be connected with Industry, Trade or Service. Conversely in the same Industrial Category there may be persons following different Occupations such as, technicians, managerial workers, clerical workers, watch and ward *etc.* Therefore in this table under each Occupational Division, Group and Family the broad Industrial Category of the worker is also given.

TABLE B-VII *Part A*—PERSONS WORKING PRINCIPALLY (i) AS CULTIVATORS (ii) AS AGRICULTURAL LABOURERS OR (iii) AT HOUSEHOLD INDUSTRY CLASSIFIED BY SEX AND BY SECONDARY WORK (i) AT HOUSEHOLD INDUSTRY (ii) AS CULTIVATOR OR (iii) AS AGRICULTURAL LABOURER

Part B—INDUSTRIAL CLASSIFICATION BY SEX OF PERSONS WORKING IN NON-HOUSEHOLD INDUSTRY, TRADE, BUSINESS, PROFESSION OR SERVICE WHO ARE ALSO ENGAGED IN HOUSEHOLD INDUSTRY

This Table is divided into two parts:

Part-A shows the persons working principally as Cultivators or as Agricultural Labourers or at Household Industry and who have secondary work in the other two alternatives from among Household Industry or Cultivation or Agricultural Labour. The data for the district are given for Total, Rural and Urban population by Industrial Divisions and Major Groups. For the taluk, however, the particulars are given for Rural Population and by Divisions only. Particulars for Eluru City are also presented upto Division level.

Part-B shows the persons working principally in Non-Household Industry, Trade, Business, Profession or Service and also engaged at Household Industry as secondary work by Industrial Divisions and Major Groups. The data for the district are presented for the Total, Rural and Urban population by Divisions followed by the Major Groups of the corresponding Divisions. The talukwise data relating to Rural population and data for Eluru City are given by Industrial Divisions only.

TABLE B-VIII—PERSONS UNEMPLOYED AGED 15 AND ABOVE BY SEX AND EDUCATIONAL LEVELS

This Table shows the distribution of persons unemployed aged 15 and above by sex and educational levels for Urban and Rural areas separately in two parts.

In *Part-A*, which gives data relating to all the Urban areas of the district taken together and separately for Eluru City, the unemployed have been sub-divided into two classes, *viz* , (i) Persons seeking employment for the first time (ii) Persons employed before but now out of employment and seeking employment and the data have been given by broad Age-groups and by educational levels. The first class of unemployed are divided into the Age-groups 15-19, 20-24, 25-29, 30-34, 35+ and Age not stated and the second class into the Age-groups 15-19, 20-24, 25-34, 35-44, 45-59, 60+ and Age not stated.

Part-B relates to Rural areas. The data in this part are given talukwise by educational levels. The data in this Table are not, however, given by Age-groups.

TABLE B-IX—PERSONS NOT AT WORK CLASSIFIED BY SEX, BROAD AGE-GROUPS AND TYPE OF ACTIVITY

This Table shows for the Total, Rural and Urban populations, the persons not at work classified by sex, broad Age-groups and type of activity. The Non-Workers are divided into eight categories according to their activities *viz.*, (i) Fulltime students; (ii) those attending only to Household duties; (iii) Dependants, infants and disabled; (iv) Retired persons, Rentiers or persons of independent means; (v) Beggars, vagrants *etc.*; (vi) Inmates of penal, mental and charitable institutions; (vii) Persons seeking employment for the first time; and (viii) Persons employed before but now out of employment and seeking work, according to their activities. These eight categories are based on the recommendations of the United Nations. This Table provides information about those who have an income without working, about housewives, about school going children, besides other types of non-working population. The data for the district are presented for Total, Rural and Urban population. The talukwise data are, however, presented for the Rural population only and the data for Eluru City have been presented separately.

A total number of 8 males and 7 females in the Age-Group 35-59 were returned as fulltime students in this district. These elderly persons might be pursuing advanced studies in religion such as Christian missionary trainees, or in Vedas, Music or other Fine Arts *etc.*, and hence classified as fulltime students.

STANDARD INDUSTRIAL CLASSIFICATION

This classification groups the industries into

9 Divisions
45 Major Groups
343 Minor Groups

The Divisions and Major Groups with their Code Numbers are listed below.

Divisions

0 *AGRICULTURE, LIVESTOCK, FORESTRY, FISHING AND HUNTING*
1 *MINING AND QUARRYING*
2 & 3 *MANUFACTURING*
4 *CONSTRUCTION*
5 *ELECTRICITY, GAS, WATER AND SANITARY SERVICES*
6 *TRADE AND COMMERCE*
7 *TRANSPORT, STORAGE AND COMMUNICATIONS*
8 *SERVICES*
9 *ACTIVITIES NOT ADEQUATELY DESCRIBED*

Major Groups

DIVISION 0—AGRICULTURE, LIVESTOCK, FORESTRY, FISHING AND HUNTING

00 Field produce and Plantation Crops
01 Plantation Crops
02 Forestry and Logging
03 Fishing
04 Livestock and Hunting

DIVISION 1—MINING AND QUARRYING

01 Mining and Quarrying

DIVISION 2 & 3—MANUFACTURING

20	Foodstuffs
21	Beverages
22	Tobacco Products
23	Textile-Cotton
24	Textile-Jute
25	Textile-Wool
26	Textile-Silk
27	Textile-Miscellaneous
28	Manufacture of Wood and Wooden Products
29	Paper and Paper Products
30	Printing and Publishing
31	Leather and Leather Products
32	Rubber, Petroleum and Coal Products
33	Chemicals and Chemical Products
34-35	Non-Metallic Mineral products other than Petroleum and Coal
36	Basic Metals and their products except Machinery and Transport equipment
37	Machinery (all kinds other than Transport) and Electrical equipment
38	Transport Equipment
39	Miscellaneous Manufacturing Industries

DIVISION 4—CONSTRUCTION

40	Construction

DIVISION 5—ELECTRICITY, GAS, WATER AND SANITARY SERVICES

50	Electricity and Gas
51	Water supply and Sanitary Services

DIVISION 6—TRADE AND COMMERCE

60-63	Wholesale Trade
64-68	Retail Trade
69	Trade and Commerce Miscellaneous

DIVISION 7—TRANSPORT, STORAGE AND COMMUNICATIONS

70-71	Transport
72	Storage and Warehousing
73	Communications

DIVISION 8—SERVICES

80	Public Services
81	Educational and Scientific Services
82	Medical and Health Services
83	Religious and Welfare Services
84	Legal Services
85	Business Services
86	Community Services and Trade and Labour Associations
87	Recreation Services
88	Personal Services
89	Services not elsewhere classified

DIVISION 9—ACTIVITIES NOT ADEQUATELY DESCRIBED

90	Activities unspecified and not adequately described

Minor Groups

Classification and Code Numbers at the 3 digit level in respect of Minor Groups are shown below :

Major Group (Code)	Description	*Minor Group (Code)*
	DIVISION 0—AGRICULTURE, LIVESTOCK, FORESTRY, FISHING AND HUNTING	
00	Field Produce and Plantation Crops	
	Production of cereal crops (including Bengalgram) such as rice, wheat, jowar, bajra, maize	*000*
	Production of pulses, such as arhar, moong, masur, urd, khesari, other Gram	*001*
	Production of raw jute and kindred fibre crops	*002*
	Production of raw cotton and kindred fibre crops.	*003*
	Production of oilseeds, sugarcane and other cash crops	*004*
	Production of other crops (including vegetables) not covered above	*005*
	Production of fruits and nuts in plantation, vines and orchards	*006*
	Production of wood, bamboo, cane, reeds, thatching grass etc.	*007*
	Production of juice by tapping palms	*008*
	Production of other agricultural produce (including fruits and nuts not covered by code number 006 and flowers) not covered above	*009*
01	Plantation Crops	
	Production of tea in plantation	*010*
	Production of coffee in plantation	*011*
	Production of rubber in plantation	*012*
	Production of tobacco in plantation	*013*
	Production of ganja, cinchona, opium	*014*
	Production of other plantation crops not covered above	*015*
02	Forestry and Logging	
	Planting, replanting and conservation of forests	*020*
	Felling and cutting of trees and transportation of logs	*021*
	Preparation of timber	*022*
	Production of fuel including charcoal by exploitation of forest	*023*
	Production of fodder by exploitation of forests	*024*
	Production of gums, resins, lac, barks, herbs, wild fruits and leaves by the exploitation of forests	*025*
	Production and gathering of other forest products not covered above	*026*
03	Fishing	
	Production of fish by fishing in sea	*030*
	Production of fish by fishing in inland waters including the operation of fish farms and fish hatcheries	*031*
	Production of pearls, conch, shells, sponges by gathering or lifting from sea, river, pond	*032*

Major Group (Code)	Description	Minor Group (Code)
04	Livestock and Hunting	
	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat	040
	Rearing of sheep and production of wool	041
	Rearing and production of other animals (mainly for slaughter) such as pig	042
	Production of ducks, hens and other small birds, eggs by rearing and poultry farming	043
	Rearing of bees for the production of honey, wax and collection of honey	044
	Rearing of silk worms and production of cocoons and raw silk	045
	Rearing of other small animals and insects	046
	Trapping of animals or games propagation	047
	Production of other animal husbandry products such as skin, bone, ivory and teeth	048
	DIVISION 1—MINING AND QUARRYING	
10	Mining and Quarrying	
	Mining of coal	100
	Mining of iron ores	101
	Mining of gold and silver ores	102
	Mining of manganese	103
	Mining of mica	104
	Mining of other non-ferrous metallic ores	105
	Mining of crude petroleum and natural gas	106
	Quarrying of stone (including slate), clay, sand, gravel, limestone	107
	Mining of chemical earth such as soda ash	108
	Mining and quarrying of non-metallic products not classified above such as precious and semi-precious stones, asbestos, gypsum, sulphur, asphalt	109
	DIVISION 2 & 3—MANUFACTURING	
20	Foodstuffs	
	Production of rice, atta, flour, etc., by milling dehusking and processing of crops and food-grains	200
	Production of sugar and syrup from sugarcane in mills	201
	Production of indigenous sugar, gur from sugar-cane or palm juice and production of candy	202
	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits	203
	Slaughtering, preservation of meat and fish and canning of fish	204
	Production of bread, biscuits, cake and other bakery products	205
	Production of butter, ghee, cheese and other dairy products	206
	Production of edible fats and oils (other than hydrogenated oil)	207
	Production of hydrogenated oils (Vanaspati)	208
20	Foodstuffs—*Concld.*	
	Production of other food products such as sweet-meat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge	209
21	Beverages	
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery	210
	Production of country liquor	211
	Production of indigenous liquor such as toddy, liquor from mahua, palm juice	212
	Production of other liquors not covered above	213
	Production of aerated and mineral water	214
	Production of ice	215
	Production of ice cream	216
	Processing of tea in factories	217
	Processing of coffee in curing works	218
	Production of other beverages	219
22	Tobacco Products	
	Manufacture of bidi	220
	Manufacture of cigars and cheroots	221
	Manufacture of cigarette and cigarette tobacco	222
	Manufacture of hookah tobacco	223
	Manufacture of snuff	224
	Manufacture of jerda and other chewing tobacco	225
	Manufacture of other tobacco products	226
23	Textile—Cotton	
	Cotton ginning, cleaning, pressing and baling	230
	Cotton spinning (other than in mills)	231
	Cotton spinning and weaving in mills	232
	Cotton dyeing, bleaching	233
	Cotton weaving in power looms	234
	Cotton weaving in handlooms	235
	Manufacturing of khadi textile in handlooms	236
	Printing of cotton textile	237
	Manufacturing of cotton nets	238
	Manufacturing of cotton cordage, rope and twine	239
24	Textile—Jute	
	Jute pressing and baling	240
	Jute spinning and weaving	241
	Dyeing and bleaching of jute	242
	Printing of jute textile	243
	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta	244
25	Textile—Wool	
	Wool baling and pressing	250
	Wool cleaning and processing (scouring)	251

Major Group (Code)	Description	Minor Group (Code)
25	Textile—Wool—*Concld.*	
	Wool spinning and weaving in mill	252
	Wool spinning other than in mills	253
	Wool weaving in power loom	254
	Wool weaving in handloom	255
	Embroidery and art work in woollen textiles	256
26	Textile—Silk	
	Spinning and weaving of silk textile in mill	260
	Dyeing and bleaching of silk	261
	Spinning of silk other than in mills	262
	Weaving of silk textile by power loom	263
	Weaving of silk textile by handloom	264
	Printing of silk textile	265
	Manufacture of silk cordage, rope and twine	266
27	Textile-Miscellaneous	
	Manufacture of carpet and all other similar type of textile products	270
	Manufacture of hosiery and other knitted fabrics and garments	271
	Embroidery and making of crepe lace and fringes	272
	Making of textile garments including raincoats and headgear	273
	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags	274
	Manufacture of waterproof textile products such as oil cloth, tarpaulin	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling	276
	Manufacture of coir and coir products	277
	Manufacture of umbrellas	278
	Processing and manufacture of textile products not covered above	279
28	Manufacture of Wood and Wooden Products	
	Sawing and planing of wood	280
	Manufacture of wooden furniture and fixtures	281
	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows	282
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures	283
	Manufacture of other wooden products such as utensils, toys, art wares	284
	Manufacture of veneer and plywood	285
	Manufacture of plywood products such as tea chest	286
	Manufacture of boxes and packing cases other than plywood	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products	288
	Manufacture of other wood and allied products not covered above	289
29	Paper and Paper Products	
	Manufacture of pulp from wood, rags, waste-paper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill	290
	Manufacture of pulp from wood, rags, waste-paper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade	291
	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp	292
30	Printing and Publishing	
	Printing and publishing of newspapers and periodicals	300
	Printing and publishing of books	301
	All other types of printing including lithography, engraving, etching, block making and other work connected with printing industry	302
	All types of binding, stitching, sizing and other allied work connected with binding industry	303
31	Leather and Leather Products	
	Currying, tanning and finishing of hides and skins and preparation of finished leather	310
	Manufacture of shoes and other leather footwear	311
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur	312
	Manufacture of leather products (except those covered by code Nos. 311, 312) such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles	313
	Repair of shoes and other leather footwear	314
	Repair of all other leather products except footwear	315
32	Rubber, Petroleum and Coal Products	
	Manufacture of tyres and tubes	320
	Manufacture of rubber footwear	321
	Manufacture of rubber goods used for industrial purpose	322
	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat	323
	Production of petroleum, kerosene and other petroleum products in petroleum refineries	324
	Production of coaltar and coke in coke oven	325
	Manufacture of other coal and coaltar products not covered elsewhere	326
33	Chemicals and Chemical Products	
	Manufacture of basic industrial chemicals such as acids, alkalis and their salts not elsewhere specified	330
	Manufacture of dyes, paints, colours and varnishes	331

Major Group (Code)	Description	Minor Group (Code)
33	Chemicals and Chemical Products—*Concld.*	
	Manufacture of fertilizers	332
	Manufacture of ammunition, explosives and fire works	333
	Manufacture of matches	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap	335
	Manufacture of soap and other washing and cleaning compounds	336
	Manufacture of turpentine, synthetic resin, and plastic products and materials (including synthetic rubber)	337
	Manufacture of common salt	338
	Manufacture of other chemicals and chemical products not covered above (including inedible oils and fats)	339
34-35	Non-Metallic Mineral Products other than Petroleum and Coal	
	Manufacture of structural clay products such as bricks, tiles	340
	Manufacture of cement and cement products	341
	Manufacture of lime	342
	Manufacture of structural stone goods, stone dressing and stone crushing	343
	Manufacture of stonewares, other than images	344
	Manufacture of stone images	345
	Manufacture of plaster of paris and its products	346
	Manufacture of asbestos products	347
	Manufacture of mica products	348
	Manufacture of earthenware and earthen pottery	350
	Manufacture of chinaware and crockery	351
	Manufacture of porcelain and its products	352
	Manufacture of glass bangles and beads	353
	Manufacture of glass apparatus	354
	Manufacture of earthen image, busts and statues	355
	Manufacture of earthen toys and artwares except those covered by Code No. 355	356
	Manufacture of glass and glass products except optical and photographic lenses and glass products covered above	357
	Manufacture of other non-metallic mineral products not elsewhere specified	359
36	Basic Metals and their Products except Machinery and Transport Equipment	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods	360
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms	361
	Manufacture of armaments	362
	Manufacture of structural steel products such as joist, rail, sheet, plate	363
	Manufacture of iron and steel furniture	364

Major Group (Code)	Description	Minor Group (Code)
36	Basic Metals and their Products except Machinery and Transport Equipment—*Concld.*	
	Manufacture of brass and bell metal products	365
	Manufacture of aluminium products	366
	Manufacture of metal products (other than of iron brass, bell metal and aluminium) such as tin can	367
	Enamelling, galvanising, plating (including electroplating), polishing and welding of metal products	368
	Manufacture of sundry hardwares such as G. I. pipe, wire net, bolt, screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38 and 39)	369
37	Machinery (All kinds other than Transport) and Electrical Equipment	
	Manufacture and assembling of machinery (other than electrical) except textile machinery	370
	Manufacture and assembling of prime mover and boilers, other than electrical equipment such as diesel engines, road rollers, tractors	371
	Manufacture of machine tools	372
	Manufacture of textile machinery and accessories	373
	Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers	374
	Manufacture of electric lamps and fans	375
	Manufacture of insulated wires and cables	376
	Manufacture of all kinds of battery	377
	Manufacture of electronic equipment such as radio, microphone	378
	Manufacture of electric machinery and apparatus, appliances not specified above	379
38	Transport equipment	
	Manufacture, assembly and repairing of locomotives	380
	Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by code No. 363	381
	Manufacture and assembling of motor vehicles of all types (excepting motor engines)	382
	Manufacture of motor vehicles engines parts and accessories	383
	Repairing and servicing of motor vehicles	384
	Manufacture of bicycles and tricycles and accessories such as saddle, seat frame, gear	385
	Building and repairing of water transport equipment such as ships, boats and manufacture of marine engines	386
	Manufacture and repair of air transport equipment including aeroplanes, aeroengines	387
	Repairing of bicycles and tricycles	388
	Manufacture of other transport equipment not covered above such as animal drawn and hand-drawn vehicles	389

Major Group (Code)	Description	Minor Group (Code)
39	Miscellaneous Manufacturing Industries	
	Manufacture of optical instruments and lenses, opthalmic goods and photographic equipment and supplies	390
	Manufacture of scientific, medical and surgical instruments and equipment and supplies	391
	Assembling and repairing of watches and clocks	392
	Manufacture of jewellery, silverware and wares using gold and other precious metals	393
	Manufacture and tuning of musical instruments	394
	Manufacture of stationery articles not covered elsewhere such as pencil, pen-holder, fountain pen	395
	Manufacture of sports goods	396
	Manufacture and repair work of goods not assignable to any other group	399
	DIVISION 4—CONSTRUCTION	
40	Construction	
	Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical and sanitary installations	400
	Construction and maintenance of roads, railways, bridges, tunnels	401
	Construction and maintenance of telegraph and telephone lines	402
	Construction and maintenance of water ways and water reservoirs such as bund, embankments, dam, canal, tank, tubewells, wells	403
	DIVISION 5—ELECTRICITY, GAS, WATER AND SANITARY SERVICES	
50	Electricity and Gas	
	Generation and transmission of electric energy	500
	Distribution of electric energy	501
	Manufacture of gas in gas works and distribution to domestic and industrial consumers	502
51	Water Supply and Sanitary Services	
	Collection, purification and distribution of water to domestic and industrial consumers	510
	Garbage and sewage disposal, operation of drainage system and all other types of work connected with public health and sanitation	511
	DIVISION 6—TRADE AND COMMERCE	
60-63	Wholesale Trade	
	Wholesale trading in cereals and pulses	600
	Wholesale trading in vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry and other food stuff (not covered elsewhere)	601
	Wholesale trading in all kinds of fabrics and textiles products such as garments, hessian, gunny bag, silk and woollen yarn, shirtings, suitings, hosiery products	602
	Wholesale trading in beverages, such as tea (leaf), coffee (seed and powder), aerated water	603
60-63	Wholesale Trade—*Concld.*	
	Wholesale trading in intoxicants such as wines, liquors	6
	Wholesale trading in other intoxicants such as opium, ganja, etc.	6
	Wholesale trading in tobacco, bidi, cigarettes and other tobacco products	6
	Wholesale trading in animals	6
	Wholesale trading in straw and fodder	6
	Wholesale trading in medicines and chemicals	6
	Wholesale trading in fuel and lighting products such as coke, coal, kerosene, candle	6
	Wholesale trading in toilets, perfumery and cosmetics	6
	Wholesale trading in metal, porcelain and glass utensils, crockery, chinaware	6
	Wholesale trading in wooden, steel and other metallic furniture and fittings	6
	Wholesale trading in footwear	6
	Wholesale trading in tyres, tubes and allied rubber products	6
	Wholesale trading in petrol, mobil oil and allied products	6
	Wholesale trading in other household equipment not covered above	6
	Wholesale trading in bricks, tiles and other building materials	6
	Wholesale trading in wood, bamboo, cane, thatches and similar products	6
	Wholesale trading in paper and other stationery goods	6
	Wholesale trading in agricultural and industrial machinery equipment and tools and appliances other than electrical	6
	Wholesale trading in electrical machinery and equipment like motor, battery, electric fan, bulb	6
	Wholesale trading in all kinds of transport and storage equipment	6
	Wholesale trading in skins, leather and fur	6
	Wholesale trading in clocks, eye glasses, frames	6
	Wholesale trading in hardware and sanitary equipment	6
	Wholesale trading in scientific, medical and surgical instruments	6
	Wholesale trading in precious metals and stones, gold and silverwares and jewellery	6
	Wholesale trading in all goods not covered above	6
64-68	Retail Trade	
	Retail trading in cereals, pulses, vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry	6
	Retail trading in beverages such as tea (leaf), coffee (seed and powder), aerated water	6
	Retail trading in intoxicants such as wines, liquors	6
	Retail trading in other intoxicants such as opium, ganja, etc.	6

Major Group (Code)	Description	Minor Group (Code)
64-68	Retail Trade—*Contd.*	
	Retail trading in tobacco, bidi, cigarettes, and other tobacco products	644
	Retail trading in fuel such as coke, coal, firewood and kerosene	645
	Retail trading in food stuffs like sweetmeat, condiments, cakes, biscuits, etc.	646
	Retail trading in animals	647
	Retail trading in straw and fodder	648
	Retail trading in fibres, yarns, dhoti, saree, ready-made garments of cotton, wool, silk and other textiles and hosiery products; (this includes retail trading in piecegoods of cotton, wool, silk and other textiles)	650
	Retail trading in toilet goods, perfumes and cosmetics	651
	Retail trading in medicines and chemicals	652
	Retail trading in footwear, head-gear such as hat, umbrella, shoes and chappals	653
	Retail trading in tyres, tubes and allied rubber products	654
	Retail trading in petrol, mobil oil and allied products	655
	Retail trading in wooden, steel and other metallic furniture and fittings	660
	Retail trading in stationery goods and paper	661
	Retail trading in metal, porcelain and glass utensils	662
	Retail trading in earthenware and earthen toys	663
	Retail trading in other household equipment not covered above	664
	Retail trading in bricks, tiles and other building materials	670
	Retail trading in hardware and sanitary equipment	671
	Retail trading in wood, bamboo, cane, bark and thatches	672
	Retail trading in other building materials	673
	Retail trading in agricultural and industrial machinery equipment, tools and appliances	680
	Retail trading in transport and storage equipments	681
	Retail trading in electrical goods like electric fan, bulb, etc.	682
	Retail trading in skins, leather and furs and their products excluding footwear and head gear	683
	Retail trading in clock and watch, eye glass, frame	684
	Retail trading in scientific, medical and surgical instruments	685
	Retail trading in precious stones and jewellery	686
	Retail trading in musical instruments, gramophone record, pictures and paintings including curio dealing	687
	Book-selling	688
	Retail trading in goods unspecified	689
69	Trade and Commerce Miscellaneous	
	Importing and exporting of goods and commodities	690
	Real estate and properties	691
	Stocks, shares and futures	692
	Providents and insurances	693
	Money lending (indigenous)	694
	Banking and similar type of financial operation	695
	Auctioneering	696
	Distribution of motion pictures	697
	All other activities connected with trade and commerce not covered above, including hiring out of durable goods such as electric fan, microphone, rickshaw, etc.	699
	DIVISION 7—TRANSPORT, STORAGE AND COMMUNICATIONS	
70-71	Transport	
	Transporting by railways	700
	Transporting by tramway and bus service	701
	Transporting by motor vehicles (other than omnibus)	702
	Transporting by road through other means of transport such as hackney carriage, bullock cart, ekka	703
	Animal transporting by animals such as horses, elephant, mule, camel	704
	Transporting by man such as carrying of luggage, hand cart driving, rickshaw pulling, cycle rickshaw driving	705
	Transporting by boat, steamer, ferry, etc., by river, canal	706
	Transporting by boat, steamer, ship, cargo boat by sea or ocean	707
	Transporting by air	708
	Transporting by other means not covered above	709
	Services incidental to transport such as packing, carting travel agency	710
72	Storage and Ware Housing	
	Operation of storage such as warehouses	720
	Operation of storage such as cold storage	721
	Operation of storage of other type	722
73	Communications	
	Postal, telegraphic, wireless and signal communications	730

Major Group (Code)	Description	Minor Group (Code)
73	Communications—*Concld.*	
	Telephone communication	731
	Information and broadcasting	732
	DIVISION 8—SERVICES	
80	Public Services (This does not include Govt., Quasi-Govt., or local body activities, other than administrative, in such fields as transport, communication, information and broadcasting, education and scientific services, health, industries, production, construction, marketing and operation of financial institution each of which is classified in the appropriate industry groups)	
	Public Services in Union and State army including territorial corps and volunteer corps	800
	Public service in Navy	801
	Public service in Air Force	802
	Public service in Police	803
	Public service in administrative departments and offices of Central Government	804
	Public service in administrative departments and offices of quasi-government organisation, municipalities, local boards, etc.	805
	Public services in administrative departments and offices of State Governments	809
81	Educational and Scientific Services	
	Educational services such as those rendered by technical colleges, technical schools and similar technical and vocational institutions	810
	Educational services such as those rendered by colleges, schools and similar other institutions of non-technical type	811
	Scientific services and research institutions not capable of classification under any individual group	812
82	Medical and Health Services	
	Public health and medical services rendered by organisations and individuals such as by hospitals, sanatoria, nursing homes, maternity and child welfare clinic as also by hakimi, unani, ayurvedic, allopathic and homeopathic practitioners	820
	Veterinary services rendered by organisations and individuals	821
83	Religious and Welfare Services	
	Religious services rendered by religious organisations and their establishments maintained for worship or promotion of religious activities, this includes missions, ashrams and other allied organisations	830
	Religious and allied services rendered by pandit, priest, preceptor, fakir, monk	831
83	Religious and Welfare Services—*Concld.*	
	Welfare services rendered by organisations operating on a non-profit basis for the promotion of welfare of the community such as relief societies, red-cross organisation for the collection and allocation of contributions for charity	832
84	Legal Services	
	Legal services rendered by barrister, advocate, solicitor, mukteer, pleader, mukurie, munshi	840
	Matrimonial services rendered by organisations and individuals	841
85	Business Services	
	Engineering services rendered by professional organisations or individuals	850
	Business services rendered by organisations of accountants, auditors, book-keepers or like individuals	851
	Business services rendered by professional organisations or individuals such as those of advertising and publicity agencies	852
	Business services rendered by professional organisations or individuals such as of those rendered by news-agency, newspaper correspondent, columnist, journalists, editors, authors	853
86	Community Services and Trade and Labour Associations	
	Services rendered by trade associations, chambers of commerce, trade unions and similar other organisations	860
	Services rendered by civic, social, cultural, political and fraternal organisations such as rate payers association, club, library	861
	Community services such as those rendered by public libraries, museums, botanical and zoological gardens, etc.	862
87	Recreation Services	
	Production of motion picture and allied services such as processing, editing, etc.	870
	Recreation services rendered by cinema houses by exhibition of motion pictures	871
	Recreation services rendered by organisations and individuals such as those of theatres, opera companies, ballet and dancing parties, musicians, exhibitions, circus, carnivals	872
	Recreation services rendered by indoor and outdoor sports by organisations and individuals including horse, motor, etc., racing	873
88	Personal Services	
	Services rendered to households such as those by domestic servants, cooks	880
	Services rendered to households such as those by governess, tutor, private secretary	881

Major Group (Code)	Description	*Minor Group (Code)*
88	Personal Services—*Concld.*	
	Services rendered by hotels, boarding houses, eating houses, cafes, restaurants and similar other organisations to provide lodging and boarding facilities	*882*
	Laundry services rendered by organisations and individuals; this includes all types of cleaning, dyeing, bleaching, dry cleaning services	*883*
	Hair dressing, other services rendered by organisation and individuals such as those by barber, hair dressing saloon and beauty shops	*884*
	Services rendered by portrait and commercial photographic studios	*885*
89	Services (not elsewhere classified)	
	Services rendered by organisations or individuals not elsewhere classified	*890*
	DIVISION 9—ACTIVITIES NOT ADEQUATELY DESCRIBED	
90	*Activities unspecified and not adequately described including activities of such individuals who failed to provide sufficient information about their industrial affiliation to enable them to be classified*	*900*

TABLE B-I

WORKERS AND NON-WORKERS CLASSIFIED BY SEX AND BROAD AGE-GROUPS

District	Total Rural Urban	Age-group	Total Population			WORKERS

EXPLANATORY NOTE

C-SERIES

SOCIAL AND CULTURAL TABLES

Social and Cultural Tables prepared at the 1961 Census give information relating to composition of Sample Households, Age, Sex, Marital Status, Education, Mother-Tongue, Bilingualism and Religion of general population and also about Scheduled Castes and Scheduled Tribes classified by literacy and Industrial Category of Workers. The data are presented in eight Tables as indicated below:

C-I	Composition of Sample Households by relationship to head of family classified by size of land cultivated
C-II	Age and Marital Status
C-III	Age, Sex and Education
	Part A—All areas
	Part B—Urban areas
	Part C—Rural areas
C-IV	Single year age Returns
C-V	Mother-Tongue (in alphabetical order)
C-VI	Bilingualism
C-VII	Religion
C-VIII	Scheduled Castes and Scheduled Tribes classified by literacy and Industrial Category of Workers
	Part A—Classification by Literacy and Industrial Category of Workers and Non-Workers *among Scheduled Castes*
	Part B—Classification by Literacy and Industrial Category of Workers and Non-Workers *among Scheduled Tribes*

All the above Tables pertaining to West Godavari district except Tables C-IV Single Year Age Returns and C-VI Bilingualism are reproduced in this book.

TABLE C-I—COMPOSITION OF SAMPLE HOUSEHOLDS BY RELATIONSHIP TO HEAD OF FAMILY CLASSIFIED BY SIZE OF LAND CULTIVATED

This Table, prepared on a 20% sample basis from the Household Schedules filled in at the time of enumeration, gives the composition of Households, separately for Total, Rural and Urban areas in the district. The Households in the Rural areas are further classified into 3 Economic Categories viz., (i) Households engaged neither in Cultivation nor in Household Industry, (ii) Households engaged in Household Industry only and (iii) Households engaged in Cultivation. In respect of the third category of Households the data are furnished separately for each of the eleven classes of Households according to the size of land cultivated viz., (i) Less than one acre, (ii) 1.0-2.4 acres, (ii) 2 5-4.9 acres, (iv) 5.0-7.4 acres, (v) 7.5-9.9 acres, (vi) 10.0-12.4 acres, (vii) 12.5-14.9 acres, (viii) 15.0-29.9 acres, (ix) 30.0-49.9 acres, (x) 50.0 acres and above and (xi) Size of holding unspecified. The composition of the Households is given in terms of the heads of Households, spouces of heads of Households, married sons and other married relations, other relations and unrelated persons. This Table will thus indicate the strength of the joint family system and will therefore be of sociological interest.

TABLE C-II—AGE AND MARITAL STATUS

This Table prepared on full count gives the distribution of population both by Age-groups and Marital Status separately for Total, Rural and Urban population in the district, for the Rural population in each of the taluks and for Eluru city. This is a very important demographic Table. A comparison of the data in this Table with corresponding data pertaining to the last Census will give an indication of mortality in different Marital Status and also in different Age-groups. The Age-groups, viz., 0-9, 10-14, 15-19, 20-24, 25-29, 30-34, 35-39, 40-44, 45-49, 50-54, 55-59, 60-64, 65-69, 70 + and Age not stated adopted in this Table conform to international requirements. Age-group 0-9 is automatically treated as 'Never Married' for the purpose of this Table. The proportion of increase or decrease in the various Marital Status since the last Census and the trends in the age at marriage can be studied from this Table. From the data on married females by Age-groups given under column 9 of this Table the future birth rates can also be forecast.

TABLE C-III—AGE, SEX AND EDUCATION

This Table gives the distribution of total population by broad Educational levels, Sex and by broad Age-groups. This Table is divided into three parts.

Part A relates to all areas while *Part B* and *Part C* relate only to Urban and Rural areas respectively. The educational levels given for all areas and Rural areas in *Part A* and *Part C* are the same while in respect of Urban areas in Part B more detailed educational levels have been adopted. These educational levels are the same as those adopted in Table B-III for the Industrial Classification of Workers and Non-Workers by educational levels. This Table is useful in ascertaining the growth of literacy in the total population as well as in the different Age-groups since the last Census.

TABLE C-V—MOTHER-TONGUE

This Table exhibits separately for the Total, Rural and Urban population of the district and only for the Rural population of each taluk and for Eluru City, the number of persons, males and females speaking a particular language as Mother-Tongue. The languages returned at this Census are given in an alphabetical order.

'Mother-Tongue' is the language spoken in Childhood by the person's mother to the person or mainly spoken in the Household, If the mother died in infancy then the language mostly spoken in the Household is the Mother-Tongue. In case of infants and deaf mutes the Mother-Tongue is the language usually spoken by the mother.

This Table is very important in view of the large number of languages and dialects spoken in the country and will be of great assistance for ensuring the implementation of the various safeguards granted to the linguistic minorities under the Constitution.

TABLE C-VII—RELIGION

This Table gives separately the distribution of Total, Rural and Urban population of the district, Rural population only of taluks and of Eluru City according to Religion. In Censuses earlier to 1941 the practice was to show the distribution of population Religion-wise down to the village level. Since the 1951 Census this practice has been discontinued.

TABLE C-VIII—SCHEDULED CASTES AND SCHEDULED TRIBES

Part A—Classification by Literacy and Industrial Category of Workers and Non-Workers *among Scheduled Castes*

Part B—Classification by Literacy and Industrial Category of Workers and Non-Workers *among Scheduled Tribes*

This is a general Table prepared for Scheduled Castes and Scheduled Tribes only and gives separately the total population of Scheduled Castes and Scheduled Tribes and their distribution by literacy and by classification of Workers, into different Industrial Categories and the total number of Non-Workers. This Table is divided into two parts. *Part A* relates to Scheduled Castes and *Part B* relates to Scheduled Tribes. This is the first time that the number of literates amongst the Scheduled Castes and Scheduled Tribes are given separatley. In addition to this Table some more Special Tables for Scheduled Castes and Scheduled Tribes pertaining to West Godavari district have also been prepared and incorporated in this book under the series ":SCT-TABLES".

EXPLANATORY NOTE

D-SERIES

MIGRATION TABLES

The Tables in this series show the migration trends analysed on the basis of the results of the 1961 Census. The data are presented in the following six Tables, which are reproduced upto district level and for all Cities and Town-Groups in the Publication "Census of India 1961-Volume II-Andhra Pradesh-Part II-C Cultural and Migration Tables" and these may be referred to for details.

D-I	Non-Indian Nationals
D-II	Place of Birth
D-III	Migrants classified by place of birth and duration of residence in place of enumeration
D-IV	Migrants to Cities classified by Sex, broad Age groups, Educational levels and in case of Workers also by Occupational Divisions and Groups
D-V	Cities showing population born locally, migrants from Rural areas and migrants from other Towns and Cities
D-VI	Distribution of Industrial categories of Workers and Non-Workers by place of birth

In this Hand Book only Tables D-I and D-II showing the Non-Indian Nationals and other migrants in West Godavari district are reproduced.

TABLE D-I—NON-INDIAN NATIONALS

This Table shows the number of Non-Indian Nationals sexwise in the district. The Non-Indian Nationals for the purpose of presentation of the data have been broadly classified into five groups *viz.*

(i) Nationals of Countries in Asia beyond India (including U.S.S.R.)

(ii) Nationals of Countries in Europe (excluding U.S.S.R.)

(iii) Nationals of Countries in Africa

(iv) Nationals of Countries in two Americas

(v) Nationals of Countries in Oceania

The name of the country of which the person is a National is given separately under each group. The persons who have not recorded any Nationality have been shown separately. Nationals of Goa, Diu, Daman and Pondicherry have been treated as 'born in India'.

TABLE D-II—PLACE OF BIRTH

This Table prepared as in all previous Censuses gives the distribution of population by birth place. The data are presented both by the place of enumeration and by the place of birth classified separately into Rural and Urban areas. An important change in the presentation of the data at the present Census is that the place of birth has been classified separately as Rural and Urban. This two-fold presentation of the data enables one to study the migration trends not only within the district and from outside the district but also from Rural to Urban areas and *vice-versa.*

EXPLANATORY NOTE

E-SERIES

HOUSING TABLES

The Tables in this series give information on Housing. At the present Census when House numbering was done a few months before the general Census enumeration, the various particulars relating to each Census House were collected on a standardised All India Schedule called the 'House List' which is reproduced below :

CENSUS OF INDIA 1961

HOUSE LIST

Name of District.....(Code No.....)

Name of Island/Taluk/Tehsil/Thana/Anchal/Town.....(Code No.....)

Name of Village/Ward/Mohalla/Enumerator's Block.....(Code No.....)

Line No.	Building Number (Municipal or local authority or Census Number, if any)	Building Number (Col. 2) with sub-numbers for each Census House.	Purpose for which Census House used, *e.g.*, dwelling, shop, shop-*cum*-dwelling, business, factory, workshop, school or other institution, jail, hostel, hotel etc.	If the Census House is used as an establishment, workshop or factory			
				Name of establishment or proprietor	Name of product (s), repair or servicing undertaken	Average No of persons employed daily last week (including proprietor, or household members, if working)	Kind of fuel or power if machinery is used
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)

Description of Census House		Sub-number of each Census Household with Census House number (Col. 3)	Name of Head of Household	No. of rooms in Census Household	Does the Household live in own or rented house? (a) Own (O), (b) Rented (R)	No. of persons residing in Census Household on day of visit			Remarks
Material of wall	Material of roof					Males	Females	Total	
(9)	(10)	(11)	(12)	(13)	(14)	(15)	(16)	(17)	(18)

The data have been collected uniformly for the first time at the present Census in the above form and are presented in the following five Tables.

E-I Census Houses and the uses to which they are put

E-II Tenure Status of Sample Census Households living in Census Houses used wholly or partly as dwellings

E-III Census Houses used as factories and workshops classified by Industry, *power* and *no power* used and size of employment

E-IV Distribution of Sample Households living in Census Houses used wholly and partly as dwellings by predominant material of wall and predominant material of roof.

E-V Sample Households classified by number of members and by number of rooms occupied.

All the above Tables give information upto taluk level, (except Table E-III which contains figures upto the district level only) and also in respect of towns having a population of 50,000 and more and are reproduced in the publication "Census of India, 1961 Vol. II—Andhra Pradesh Part IV-B—Housing and Establishment Tables" and it may be referred to for full details. In this Hand book only "Table E-I Census Houses and the uses to which they are put" pertaining to West Godavari district is reproduced.

TABLE E-I—CENSUS HOUSES AND THE USES TO WHICH THEY ARE PUT

This Table shows the number of Census Houses and the different uses to which they are put. The data are given down to taluk level and also for towns having a population of 50,000 and more; the data are presented separately for Total, Rural and Urban areas.

"Census House" is defined in the present Census as a structure, or a part of a structure inhabited or vacant, or a dwelling, or a shop-*cum*-dwelling, or a place of business, workshop, school etc., with a separate entrance. If a building has a number of flats or blocks which have separate entrances of their own and are independent of each other giving on the road or a common stair case, or a common courtyard, leading to a main gate, they are considered as separate Census Houses. If within an enclosed or open compound there are separate buildings then each such building is treated as a separate Census House. If all the structures within an enclosed compound are together treated as one building then each structure with separate entrance is treated as a separate Census House.

TABLE E-I

CENSUS HOUSES AND THE USES TO WHICH THEY ARE PUT

EXPLANATORY NOTE

SCT-SERIES

SPECIAL TABLES FOR SCHEDULED CASTES AND SCHEDULED TRIBES

This series of special Tables for Scheduled Castes and Scheduled Tribes gives the population of each Scheduled Caste and Scheduled Tribe classified by Religion, Age, Marital Status, Education and distributed by Industrial Categories adopted in Table B-I. After the 1931 Census, the population figures of individual Scheduled Castes and Scheduled Tribes are being given only at the present Census. The data are presented in the following five Tables :

SCT-I Industrial classification of persons at work and Non-Workers by sex for Scheduled Castes and Scheduled Tribes

SCT-II Age and Marital status for Scheduled Castes and Scheduled Tribes.

SCT-III Education in Urban and Rural areas for Scheduled Castes and Scheduled Tribes

SCT-IV Religion for Scheduled Castes and Scheduled Tribes

SCT-V Sample Households engaged in Cultivation classified by interest in land and size of land cultivated in Rural areas only for Scheduled Castes and Scheduled Tribes.

All the above Tables except Table SCT-IV are reproduced upto district level in this book.

Besides the above five Tables, the following three Special Tables, relating to either Scheduled Castes or Scheduled Tribes exclusively are reproduced.

SC-I Persons not at work classified by sex, type of activity and educational levels *for Scheduled Castes only*

ST-I Mother-Tongue and Bilingualism *for Scheduled Tribes*

ST-II Persons not at work classified by sex and type of activity *for Scheduled Tribes*

These three special Tables are also reproduced upto district level. The figures in respect of Scheduled Castes are also given in this book for Eluru, Chintalapudi, Kovvur, Tadepalligudem and Narsapur Taluks as their proportion to total rural population exceeds the State average of 14.88%. In thecase of Scheduled Tribes figures are given for Chintalapudi and Polavaram Taluks only where the proportion is higher than the State average.

In view of the safeguards provided in the Constitution for these communities, the Tables in this series will be of much use and guidance, especially when the Government are taking measures for the improvement of the condition of these communities by suitable welfare schemes under the Five Year Plans. The total Scheduled Castes and Scheduled Tribes population is given talukwise separately for Total, Rural and Urban areas and for each Town under the State Primary Census Abstract. The villagewise particulars are given under the Village Directory.

The Scheduled Castes in Andhra Pradesh are those listed in Part I under "Andhra Pradesh" to Schedule I of the Scheduled Castes and Scheduled Tribes lists (Modification Order, 1956) published in the Notification of the Ministry of Home Affairs, New Delhi, dated 29th October 1956. The list of Scheduled Castes in Andhra Pradesh is given below :

Note : Scheduled Castes are recognised only amongst Hindus and Sikhs. Converts to other religions such as Christianity or Islam or Buddhism cease to belong to these castes.

(1) Throughout the State :

1 Chalavadi

2 Chamar, Mochi or Muchi

3 Madiga

4 Mala

(2) Throughout the State except Hyderabad, Mahbubnagar, Adilabad, Nizamabad, Medak, Karimnagar, Warangal Khammam and Nalgonda districts :

1 Adi Andhra

2 Adi Dravida

3 Arundhatiya

4 Bariki
5 Bavuri
6 Chachati
7 Chandala
8 Dandasi
9 Dom, Dombara, Paidi or Pano
10 Ghasi, Haddi or Relli Chachandi
11 Godagali
12 Godari
13 Gosangi
14 Jaggali
15 Jambuvulu
16 Madasi Kuruva or Madari Kuruva
17 Mala Dasu
18 Madiga Dasu and Mashteen
19 Matangi
20 Mundala
21 Paky or Moti
22 Pambada or Pambanda
23 Pamidi
24 Panchama or Pariah
25 Relli
26 Samban
27 Sapru
28 Thoti

(3) In the districts of Hyderabad, Mahbubnagar, Adilabad, Nizamabad, Medak, Karimnagar, Warangal, Khammam and Nalgonda:

1 Anamuk
2 Aray (Mala)
3 Arwa Mala
4 Beda (Budga) Jangam
5 Bindla
6 Byagara
7 Chambhar
8 Dakkal (Dokkalwar)
9 Dhor
10 Ellamalwar (Yellammalawandlu)
11 Holeya
12 Holeya Dasari
13 Kolupulvandlu
14 Mahar
15 Mala Dasari
16 Mala Hannai
17 Malajangam
18 Mala Masti
19 Mala Sale (Netkani)
20 Mala Sanyasi
21 Mang
22 Mang Garodi
23 Manne
24 Mashti
25 Mehtar
26 Mitha Ayyalvar
27 Samagara
28 Sindhollu (Chindollu)

The Scheduled Tribes in Andhra Pradesh are those listed in Part I under "Andhra Pradesh" to Schedule III of the Scheduled Castes and Scheduled Tribes lists (Modification Order, 1956) published in the same Notification of the Ministry of Home Affairs, New Delhi, dated 29th October 1956. The list of Scheduled Tribes in Andhra Pradesh is given below:

Note: Members of Scheduled Tribes may belong to any Religion.

(1) Throughout the State:

1 Chenchu or Chenchwar
2 Koya or Goud with its sub-sects Rajah or Rasha Koyas, Lingadhari Koyas (ordinary), Kottu Koyas, Bhine Koya and Rajkoya

(2) Throughout the State except Hyderabad, Mahbubnagar, Adilabad, Nizamabad, Medak, Karimnagar, Warangal, Khammam and Nalgonda districts:

1 Bagata
2 Gadabas
3 Jatapus
4 Kammara
5 Kattunayakan
6 Konda Dhoras
7 Konda Kapus
8 Kondareddis
9 Kondhs (Kodi and Kodhu), Desaya Kondhs Dongria Kondhs, Kuttiya Kondhs, Tikiria Kondhs and Yenity Kondhs
10 Kotia-Bentho-Oriya, Bartika, Dhulia or Dulia, Holva, Paiko, Putiya Sanrona and Sidhopaiko
11 Kulia
12 Malis
13 Manna Dhora
14 Mukha Dhora or Nooka Dhora
15 Porja (Parangiperja)
16 Reddi Dhoras
17 Rona, Rena
18 Savaras-Kapu Savaras, Maliya Savaras or Khutto Savaras

19 Sugalis (Lambadis)
20 Yenadis
21 Yerukulas

(3) In the districts of Hyderabad, Mahbubnagar, Adilabad, Nizamabad, Medak, Karimnagar, Warangal, Khammam and Nalgonda :

1 Andh
2 Bhil
3 Gond (including Naikpod and Rajgond)
4 Hill Reddis
5 Kolam (including Mannervarlu)
6 Pardhan
7 Thoti

(4) In the Agency tracts :

1 Goudu (Goud)
2 Nayak
3 Valmiki

As would be clear from the Tables, not all the above Castes and Tribes, will be found in all the Taluks of the district.

An abstract of the total Scheduled Castes and Scheduled Tribes population in West Godavari district and their percentage to the total general population is given talukwise in the statement below:

Name of the District/Taluk	Total Rural Urban	General population	Scheduled Castes population together with percentage to general population	Scheduled Tribes population together with percentage to general population

TABLE SCT-I INDUSTRIAL CLASSIFICATION OF PERSONS AT WORK AND NON-WORKERS BY SEX FOR SCHEDULED CASTES AND SCHEDULED TRIBES

This Table shows for the Rural and Urban areas of the district, the population of each Scheduled Caste and Scheduled Tribe classified by Industrial Category of persons at work and Non-Workers by sex. The Table is divided into two parts. *Part A* relates to Scheduled Castes while *Part B* relates to Scheduled Tribes. This Table is important as it gives the strength of each of the Scheduled Castes and Scheduled Tribes, the working population among them and the sector of Industry in which the working population is engaged. The data are presented for the Rural and Urban areas separately.

TABLE SCT-II AGE AND MARITAL STATUS FOR SCHEDULED CASTES AND SCHEDULED TRIBES

This Table shows for each Scheduled Caste and Scheduled Tribe the total population by Age and Marital status. This Table is divided into two parts. *Part A* relates to Scheduled Castes and *Part B* relates to Scheduled Tribes. This Table corresponds to Table C-II for the total population; however, the Age-groups are restricted to 0-14, 15-44, 45+ and Age not stated only in both the parts of this Table. This Table enables us to know the percentage of each of the Scheduled Castes and Scheduled Tribes to the total population in the corresponding Age-group. Such communitywise data by Age and Marital Status for Scheduled Castes and Scheduled Tribes are being given for the first time at the present Census. The Age distribution and Marital Status data will give an indication as to whether the population of a Caste/Tribe is growing or declining.

TABLE SCT-III EDUCATION IN RURAL AND URBAN AREAS ONLY FOR SCHEDULED CASTES AND SCHEDULED TRIBES

This Table shows the literacy and educational levels for each Scheduled Castes and Scheduled Tribes separately for Rural and Urban areas. This Table is divided into Part A (i) and Part A (ii) relating to the Scheduled Castes and Scheduled Tribes respectively in Urban areas and Part B (i) and Part B (ii) relating to the Scheduled Castes and Scheduled Tribes respectively in Rural areas. In the case of Urban areas the educational levels adopted for giving the data are the same as those adopted in Table B-III *Part A* and in the case of Rural areas the data are given as in Table B-III *Part B*. This Table, therefore, enables us to know the proportion of each of the Scheduled Castes and Scheduled Tribes among the total population in different literacy and educational levels.

TABLE SCT-V—SAMPLE HOUSEHOLDS OF SCHEDULED CASTES AND SCHEDULED TRIBES ENGAGED IN CULTIVATION CLASSIFIED BY INTEREST IN LAND AND SIZE OF LAND CULTIVATED IN *RURAL AREAS ONLY*

This Table shows the sample Households engaged in Cultivation classified by interest in land and size of land cultivated in Rural areas only, separately for Scheduled Castes and Scheduled Tribes. The Table is divided into two parts. *Part A* relates to Scheduled Castes and *Part B* relates to Scheduled Tribes. The sizes of landholdings and types of interest in land cultivated, adopted in this Table are the same as those adopted in Table B-XI.

TABLE SC-I—PERSONS NOT AT WORK CLASSIFIED BY SEX, TYPE OF ACTIVITY AND EDUCATIONAL LEVELS FOR *SCHEDULED CASTES*

This Table shows persons belonging to the Scheduled Castes not at work classified by sex, type of activity *viz.*, fulltime students, persons seeking employment for the first time, persons employed before but now out of employment and seeking work and others, by educational levels. The broad educational levels adopted are, illiterate, literate (without educational level), Primary or Junior Basic, Matriculation or Higher Secondary, and above Marticulation or Higher Secondary. This Table is prepared for total Scheduled Castes as a whole and not separately for each individual caste and the figures are exhibited for Total, Rural and Urban population. This Table will be very useful as it clearly illustrates the extent to which the Scheduled Caste children have taken to education and it also helps to plan employment for the unemployed members of the Scheduled Castes.

This Table has been prepared for Rural areas of Eluru, Chintalapudi, Polavaram, Kovvur, Tadepalligudem, Tanuku and Narsapur Taluks as the percentage of Scheduled Caste population in the Rural areas of these Taluks exceeds the State average of 14.88%.

TABLE ST-I—MOTHER-TONGUE AND BILINGUALISM FOR *SCHEDULED TRIBES*

This Table shows exclusively the Scheduled Tribes classified by Mother-Tongue and subsidiary languages spoken by them. The data are given for the Total, Rural and Urban areas in the district and for the Rural areas of Polavaram and Chintalapudi Taluks as the percentage of Scheduled Tribe population in these taluks exceeds the State average of 4.27%. The Scheduled Tribes have their own peculiar languages and dialects and this Table gives the language dialect of each Tribe. In respect of the members of the Scheduled Tribes who have moved out of their homes and as a result of contact with the local population speak some other languages also, those subsidiary languages are also shown in this Table. The number of male and female speakers of the subsidiary language is indicated in brackets after the subsidiary language under column 7 of the Table.

TABLE ST-II—PERSONS NOT AT WORK CLASSIFIED BY SEX AND TYPE OF ACTIVITY FOR SCHEDULED TRIBES

This Table shows for the district the persons not at work classified by sex and type of activity for each individual Scheduled Tribe. The types of activity under which the persons not at work are classified are the same as those adopted in Table SC-I *viz.*, fulltime students, persons seeking employment for the first time, persons employed before but now out of employment and seeking work and others. In this Table the particulars are given for each individual Tribe while in Table SC-I similar particulars in respect of Scheduled Castes are given for Total Scheduled Castes as a whole by educational levels. The present Table however, shows the number of unemployed persons in each individual Tribe without reference to the literacy levels.

The data in this table are presented for the Total, Rural and Urban areas of the district and also for the Rural areas of Polavaram and Chintalapudi Taluks as the percentage of the Scheduled Tribe population exceeds the State average of 4.27% in the Rural areas of these Taluks as may be observed from the statement at the end of the general fly leaf to the SCT-Tables.

PART IV

VILLAGE AND TOWN DIRECTORY

EXPLANATORY NOTE

VILLAGE AND TOWN DIRECTORY

This Directory renders an account of each village, as also each ward and each Enumerator's Block of a town. It gives the Location Code Number and name of each village/town, area of the village/town, and where inhabited, the number of Occupied Residential Houses, Census Households, Total Population, Population of Scheduled Castes and Scheduled Tribes, Literate Population and Workers classified into the following nine Industrial categories of Workers and the Non-Workers :—

I Cultivator
II Agricultural Labourer
III Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities
IV Household Industry
V Manufacturing other than Household Industry
VI Construction
VII Trade and Commerce
VIII Transport, Storage and Communications
IX Other Services; and
X Non-Workers

The data are presented talukwise, first for the rural portion in the "Village Directory" and next for the urban portion in the "Town Directory". In the Village Directory the villages have been arranged in the ascending order of the Location Code Numbers assigned to the villages within the taluk and in the Town Directory, in the ascending order of Location Code Numbers assigned to the towns in the taluk and also by each ward and Enumerator's Block in the ascending order. The Taluk map given at the beginning of the Village Directory of each taluk showing the Location Code Numbers of each village and town and other particulars will help the easy location of the villages.

In the Village Directory, uninhabited villages and villages that have been completely merged in towns have been indicated accordingly. In respect of villages which are partly included within the town limits and partly fall outside the town limits, the particulars for that portion included in the town limits *i. e.*, "Urban Portion" are clubbed with the particulars of the town and given in the Town Directory and for that portion outside the town limits *i.e.*, "Rural Portion" the data are given in the Village Directory along with other villages. The term "Rural" is indicated immediately after the name of such villages to make the position clear. In the presentation of data for the towns the particulars have been exhibited in ascending order of Municipal wards or Blocks and also by Enumerators' Blocks and not according to the villages constituting the town. In order that each Enumerator's Block may be located, the jurisdiction of each Block, *i.e.*, the houses covered by each Enumerator's Block in towns are indicated at the beginning of the Town Directory.

Under column 8 the area is given for the villages and towns in square miles based on the information furnished by the State Central Survey Office, the Tahsildars and by the Municipal authorities concerned. In respect of certain villages for which the area particulars are not available the abbreviation "N. A." has been recorded in this column. As the area of a taluk comprises not only the area of the villages but also the area of Reserved Forests, *etc.*, within the taluk, the areas of all the villages put together may not be equal to the area of the taluk.

Under columns 9 to 41 the total population, Scheduled Castes and Scheduled Tribes population, Literate population, total number of Workers under each of the nine categories and Non-Workers is given by sex for each village/town.

The taluk map found at the beginning of the Village Directory of each taluk shows the boundaries of each village and town, the important roads and railway lines, the rivers, if any, in the taluk. In this map the Location Code Number of each village is shown and the names of the towns and villages having more than 5,000 population, important tourist centres and places of great religious importance, *etc.*, if any, are given. Urban areas have been shown by shading the area covered. Uninhabited villages and villages of different sizes of population *i.e.*, below 2,000, 2,000 - 4,999, 5,000 and above are distinguished by distinct designs. An alphabetical list of villages with the Census Location Code Number indicated against each village is given after the taluk map and before the Village Directory. This list enables one to find out the Location Code Number of any village and thereafter to get the required particulars of the village from the Village Directory.

The information relating to Educational facilities, Medical and Public Health facilities, Drinking Water facilities, Communication and Transport facilities and Electrification is also given villagewise in this section for the first time besides the population data. These facilities are shown by symbols as explained below immediately after the names of the villages under columns 3 to 7.

(i) *Educational facilities are shown by the following symbols under column 3 :—*

P : Primary School

M : Middle School

H : High School

C : Institutions of higher education including Colleges

T : Technical Institutions

(ii) *Medical and Public Health facilities are shown by the following symbols under column 4 :—*

D : Dispensary

Rhc : Rural Health Centre (Primary Health Centre)

Hos : Hospital

Mcw: Maternity Child Welfare Centre

(iii) *Drinking Water facilities are shown by the following symbols under column 5 :*

S : Safe or Protected water supply including Tube wells *etc.*

W : Well

Tk : Tank

Riv : River

C : Canal

(iv) *Communication and Transport facilities are shown by the following symbols under column 6 :—*

Po : Post Office

To : Telegraph Office and Public call Office

Rh : Rest Houses and Choultries

R : Road

Rly : Railway

(v) *Electrification facilities are shown by the following symbols under column 7 :—*

E : Electricity

E(I) : Electricity in Industrial use

E(A): Electricity in Agricultural use

E(D): Electricity in Domestic use

Where figures like 5P, 2H *etc.*, occur they denote that the village or town has 5 Primary Schools, 2 High Schools *etc.*

Besides presenting the information relating to the above facilities in the Village/Town Directory certain other important particulars *viz.*, sources of irrigation, crops raised, value of lands, Co-operative Societies, Police Stations, Veterinary Hospitals, Reading Rooms, Places of Public Entertainments (Cinemas), Industrial Establishments and Rural Handicrafts are also given talukwise in separate Sub-Tables immediately after the Village and Town Directory. The Sub-Tables are numbered as follows.

Sub-Table 1	:	Sources of Irrigation, crops raised and value of land
Sub-Table 2	:	Co-operative Societies
Sub-Table 3	:	Police Stations
Sub-Table 4	:	Veterinary Hospitals
Sub-Table 5	:	Reading Rooms
Sub-Table 6	:	Public Entertainments (Cinemas)
Sub-Table 7	:	Industrial Establishments
Sub-Tables 8, 9 &10	:	Rural Handicrafts

In the Sub-Table 1 relating to the sources of irrigation, crops raised and value of land, the particulars relating to the high and low prices of dry and wet land, the various important crops raised and the sources of irrigation are given villagewise. Only the Location Code Numbers have been given in the Sub-Table without giving the names of the villages. Villages having land of same value are grouped together. The following abbreviations are used in this Sub-Table.

Cereals	*Pulses*
A : Arika	Blg : Blackgram
J : Jonna or Cholam	Gg : Green gram
M : Maize	Hg : Horsegram
P : Paddy	Rg : Redgram
R : Ragi	
S : Sajja	
V : Variga	

Other crops	*Irrigation sources*
Ch : Chillies	C : Canal
Co : Coriander	Riv : River or *Vagu*
Cs : Castor Seeds	Sc : Spring Channel
G : Groundnut	Tk : Tank or Kunta
Ga : Garlic	W : Well
Gi : Gingelly	
O : Onions	
Su : Sugarcane	
T : Tobacco	

In the Sub-Table 2 relating to Co-operative Societies, the various types of Co-operative Societies, functioning in each village have been presented talukwise. The data for the district are given in the beginning followed by the particulars relating to taluk. The abbreviations used for the different types of Co-operative Societies are given below. If a village is served by a Co-operative Society of another village it has been indicated accordingly.

CBCS	Cattle Breeding Co-operative Society
CS	Co-operative Society
DCCS	Depressed Classes Co-operative Society
ECS	Employers' Co-operative Society
FGCS	Fruit Growers' Co-operative Society
FICS	Fishermen's Co-operative Society
FLCS	Field Labourer's Co-operative Society
HBCS	House Building Co-operative Society
JFCS	Joint Farming Co-operative Society
LCCS	Land Colonisation Co-operative Society
LSCS	Large Sized Co-operative Society
LUCS	Local Union Co-operative Society
MCS	Marketing Co-operative Society
MSCS	Milk Supply Co-operative Society
PJCS	Palm Jaggery Co-operative Society
SSCS	Students' Stores Co-operative Society
WCICS	Women's Cottage Industrial Co-operative Society
WCS	Weavers' Co-operative Society

In the other Sub-Tables 3 to 6 relating to Police Stations, Veterinary Hospitals, Reading Rooms and Places of Public Eentertainments (Cinemas) also, the data are presented in the same form as explained above *i. e.*, first for the district and then for each taluk. Only the names of places where such facilities exist are given.

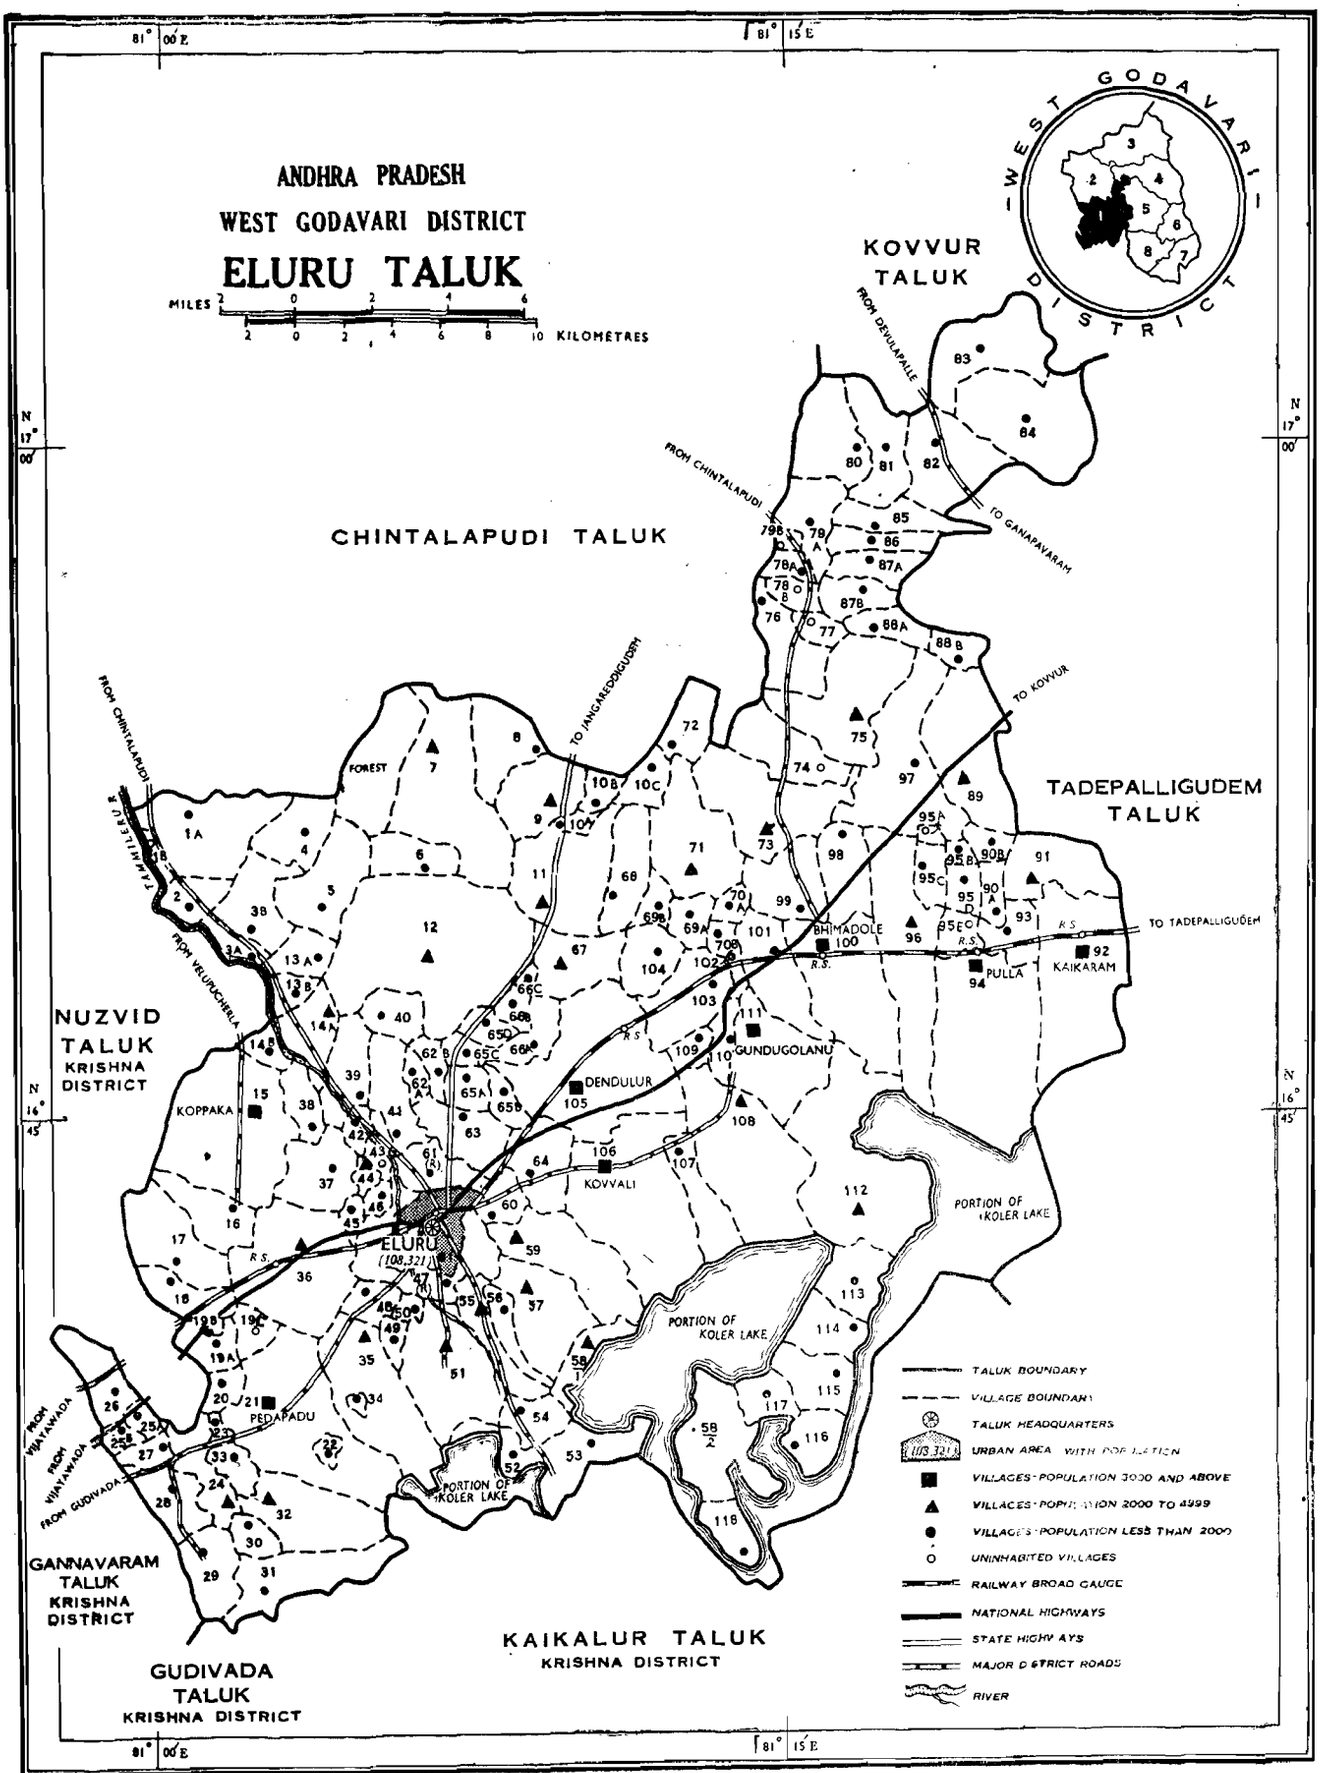

In the Sub-Table 7 relating to Industrial Establishments the number of units under various industries existing in villages and towns are given. These particulars were mainly those collected through a schedule of industries and crafts issued to the village school teachers in connection with the Rural Crafts Survey. In this schedule the data were to be given by the numbers of families; and as such, the families which had members engaged in any of the industries had been taken as units for that industry. In respect of some villages where the schedules had not been answered, the information was compiled from the Houselists. Certain data were taken from other sources as well, such as the Village Directory furnished by the Tahsildars, and the survey of Industries conducted in the Cities. It is, however, quite possible that there may be some villages for which the information could not be presented. Such omissions are, however, likely to be very few. The particulars are given separately for the rural and urban areas. Under the name of the district, the industries are arranged in the ascending order of Minor Groups of the Indian Standard Industrial Classification showing the total number of establishments within brackets next to each Minor Group Code Number, for Total, Rural and Urban separately. Then, the figures for the various taluks are presented showing first the total numbers on the pattern adopted for the district totals, followed by the particulars for the villages and towns in that taluk in the order of the Village Directory. Against each Village/Town are shown the Minor Group Code Numbers of the industries or crafts found in that village/town with the number of units engaged in that Minor Group in brackets against each of the groups.

In the three Sub-Tables 8, 9 and 10 relating to Handicrafts information is given about the various Crafts practised, the number of persons engaged, the distribution of Artisan Communities, the number of families engaged in the Handicrafts, and the names of highly skilled craftsmen of each community, and the distribution of articles of crafts by main material used, source of design, manufature, marketing and earnings. These particulars were mainly collected through a schedule of Industries and Crafts issued to the village school teachers in rural areas and to the Municipal Authorities in the Municipal areas. In respect of Cities the information was collected through the staff of the Census Tabulation Offices specially appointed for the purpose. In respect of some villages where the schedules have not been answered the information was taken from the Houselists prepared at the time of House-numbering in 1960. A detailed report on the Handicrafts Survey is given in "Census of India, 1961 - Volume II-Andhra Pradesh-Part VIIA" and may be referred to.

In the Sub-Table relating to Fairs and Festivals given at the end of this section, the important fairs and festivals that take place in the village, the months in which they take place *etc.*, are given for each village having such importance. A detailed report on the Fairs and Festivals is, however, given in the publication entitled "Census of India 1961 – Volume II – Andhra Pradesh-Part VII B" and may be referred to.

All the information given in the various Sub-Tables in this section are based on the information furnished by the Heads of Departments, the District Officers, the Tahsildars and the Municipal Authorities concerned.

ELURU TALUK

M. A. BADIG

Prepared at the Office of the Superintendent of Census Operations, Andhra Pradesh, Hyderabad.

ALPHABETICAL LIST OF VILLAGES

ELURU TALUK

1961 Location Code No.	Name of Village
112	Agadallanka
91	A. Gokavaram
66C	Akkireddigudem
13B	Alliveedu

Note :— Polavaram taluk partly consists of Agency area and partly plains and the Villagewise data are given in the Village Directory separately for the Agency villages and Plains Villages under the captions "Agency" and "Plains" although the Location Code Numbers for all the villages have been given in one serial order for the whole taluk. The Location Code Numbers that are unaccounted for under "Agency Villages" will therefore be found under "Plains Villages".

KOVVUR TALUK

Prepared at the Office of the Superintendent of Census Operations, Andhra Pradesh, Hyderabad.

ALPHABETICAL LIST OF VILLAGES

KOVVUR TALUK

1961 Location Code No.	Name of Village
49	Ammapalem
64	Ammepalle
7	Annadevarapeta
20	Arikirevula
100	Atlapadu
30	Bandapuram
4	Bhimole
91	Brahmanagudem
78	Chagallu
46	Chakradevarapalle
18	Chidipi
95	Chigurulanka
68	Chikkalapalem
56	Chinnayagudem
6	Chityala
38	Chopparamannagudem
92	Daravaram
27	Decherla
31	Devarapalle
47	Devulapalle
23	Dharmavaram
60	Dhumanthunigudem
99B	D. Muppavaram
21	Dommeru
28	Duddukuru
41A	Eduvadalapalem
9	Gajjavaram
41B	Gangannagudem
37B	Gangavaram
42	Gavaravaram
32	Gopalapuram
93	Gopavaram
24	Gowripatnam
2	Guddigudem
45	Guravayagudem
26	Isukapatlapangidi
37A	Jagannadhapuram
37C	Jagannagudem
103	Jalagamvarikhandrika
104A	Jeedigunta
104B	Jeediguntalanka
99A	Kalavacherla
76	Kalavalapalle
54	Kanakadripuram
39A	Kannayagudem
33	Karicherlagudem
43	Kethavaram
34	Komatigunta
25	Kondagudem
66	Korumamidi
106	Korupalle
80	Kovvur
3	Kovvurpadu
10	Kukunuru
19	Kumaradevam
55	Kuntalagudem
63	Kurukuru
48	Lakkavaram
29	Lakshmipuram

1961 Location Code No.	Name of Village
86	Madduru
96	Maddurulanka
15	Malakapalle
84	Mallavaram
87	Markondapadu

TADEPALLIGUDEM TALUK

M. J. BADIQ

Prepared at the Office of the Superintendent of Census Operations, Andhra Pradesh, Hyderabad.

ALPHABETICAL LIST OF VILLAGES

TADEPALLIGUDEM TALUK

1961 Location Code No.	Name of Village
90	Adivikolanu
111	Agraharagopavaram
48	Akutigapadu
36	Alampuram
78	Amudalapalle
9	Ananthapalle
6	Anumunilanka
19	Apparaopeta
113	Ardhavaram
27	Arugolanu
31	Arulla
4	Avapadu
70	Badampudi
97	Bhuvanapalle
40	B. Kondepadu
38	Bodapadu
69	Bommidi
80	Bynepalle
91	Chanamilli
75	Chebrole
74	Chebrole Khandrika
8	Cheepurugudem
108	Cherukuganuma
77	China Nindrakolanu
94	China Ramachandra-puram
42	Chintapalle
11	Chodavaram (West)
47	Darsiparru
53	Devaracheruvu Khandrika
81	Devaragopavaram
67	Dontavaram
1	Dubacherla
71	Ellamilli
99	Ganapavaram
73	Gopinadhapatnam
64	Gunaparru
10	Gundepalle Choda varam (East)
29	Jagannadhapuram
98	Jagannadhapuram
15	Jaggannapeta
58	Jatlapalem
22	Kadakatla
20	Kadiyedda
68	Kagupadu
96	Kakaramilli
61	Kakarlamudi
114	Kakinada
44	Kasipadu
49	Kasbapentapadu
115	Kesavaram
104	Kommara
18	Kommugudem
32	Konala
23	Kondruprole
41	Korumilli
101	Kothapalle
16	Kunavaram
25	Kunchanapalle
93	Krishnapuram
34	Krishnayapalem
28	Madhavaram
87	Mandalaparru
2	Marellamudi
43	Minavallur
35	Muddapuram
45	Mudunuru
112	Muggulla
88	Naganamilli
5	Nallajarla
3	Nallamadu
30	Nandamuru
85	Narasimhapuram
59	Narasimha Apparao-puram
33	Nawabpalem
86	Nidamarru
57	Padala
62	Padamara Vipparru
50	Parimella
82	Peda Nindrakolanu
89	Peda Ramachandra-puram
54	Pentapadu Agraharam
109	Pippara
7	Pothavaram
12	Prakasaraopalem
26	Prathipadu
37	Racherla
65	Rachuru
39	Ravipadu
66	Ravulaparru
100	Saripalle
92	Sidhapuram
21	Tadepalle
24	Tadepalligudem
13	Telikicherla
55	Thallamudunurupadu
76	Thallapuram
83	Thimmaraogudem
79	Thokalapalle
52	Umamaheswaram
72	Unguturu
107	Vakapalle
105	Valluru
46	Vallurupalle
102	Varadharajupuram Agraharam
17	Veerampalem
106	Veereswarapuram
103	Velagapalle
60	Venkatadri Apparao-puram
84	Venkatapuram
110	Venkatarajapuram
14	Venkatramannagudem
63	Vipparti Khandrika
56	Yagarlapalle
51	Yanalapalle
95	Yenikapalle

TANUKU TALUK

M. HASSAN

Prepared at the Office of the Superintendent of Census Operations, Andhra Pradesh, Hyderabad.

ALPHABETICAL LIST OF VILLAGES

TANUKU TALUK

1961 Location Code No.	Name of Village
80	Ainaparru
59	Airagavaram
53	Aitampudi
42	Ajjaram
87	Alamuru
72	Aravilli
33	Attili
34	Ballipadu
84	Bhatlamogutur
98	Cherukuvada
17	Chilakapadu
15	Chivatam
4	Dammennu
30	D. Kumudavalli
21	Duvva
68	Eduru
54	Eletipadu
38	Goteru
35	Gummampadu
55	Guruvugunta Khandrika
103	Ilaparru
76	Juttiga
43	Kakaraparru
81	Kakileru
40	Kakula Illindalaparru
1	Kaldari
69	Kanchumarru
78	Kantheru
6	Kanuru
7	Kanuru Agraharam
48	Kapavaram
14	Karravari Savaram
83	Kathavapadu
60	Kavalipuram
46	Khandavalli
50	K. Kumudavalli
39	Komaravaram
67	Kommara
29	Kommarru
93	Kothalaparru
79	Kothapadu
47	Kothapalli Agraharam
82	Koyyetipadu
100	Malleswaram
62	Mallipudi
73	Mamuduru
65	Manchili
26	Mandapaka
89	Maruter
5	Mortha
31	Moyyeru
45	Mukkamala
95	Munamarru
32	Muppartipadu
3	Nadupalle
90	Neggipudi
85	Nelamuru
64	N. Rameswaram
56	Ogidi
25	Paidiparru
13	Palangi
63	Pali
66	Paluru
18	Pasalapudi
52	Pekeru
92	Penugonda
75	Penumantra
44	Peravali
77	Podalada
74	Polamuru
99	Pittala Vemavaram
102	Ramannapalem
57	Rapaka
51	Rapaka Khandrika
36	Relangi
23	Sajjapuram
16	Satyavada

NARSAPUR TALUK

Prepared at the Office of the Superintendent of Census Operations, Andhra Pradesh, Hyderabad.

ALPHABETICAL LIST OF VILLAGES

NARSAPUR TALUK

1961 Location Code No.	Name of Village
(1)	(2)
44	Achanta
24	Agarru
1	Aratlakatla
10	Ballipadu
55	Bhimalapuram
59	Burugupalle
6	Chandaparru
48	Chinamallam
71	Chinchinada
77	Chinnamamidipalle
4	Chintaparru
26	Chittavaram
9	Dagguluru
45	Deva
27	Digamarru
60	Doddipatla
70	Elamanchili
74	Gondi
25	Gorintada
41	Gummaluru
58	Gumparru
61	Ilapakurru
38	Jagannadhapuram
34	Jinnuru
72	Kalagampudi
85	Kalipatnam
20	Kamsali Bethapudi
52	Kandaravalli
3	Kapavaram
54	Karugorumilli
37	Kavitam
68	Kaza
49	Kodamanchili
51	Koderu
2	Kommuchikkala
67	Konteru
21	Kopparru
87	Kummarapurugupalem
81	Lakshmaneswaram
7	Lankala Koderu
22	Likhithapudi
82	Linganaboyinacherla
15	Machapuri
16	Machapuripalem
76	Madhavaipalem
14	Mallavaram
33	Mattaparru
66	Medapadu
43	Minimanchilipadu
83	Mogalthuru
46	Mulaparru
84	Mutyalapalle
47	Nadipudi
78	Narsapur
75	Navarasapuram
65	Neredumilli
30	Palacole
8	Palamuru
39	Panditha Villuru
50	Pedamallam
28	Pedamamidipalle
36	Pemmaraju Polavaram
32	Penumadam
53	Penumanchili
63	Penumarru
86	Perupalem
40	Poduru
5	Pollapalle

14	Chilukuru
18	Chinakapavaram
53	Chinamiram
43	China pulleru
24	Dharmapuram
47	Dirusumarru
40	Doddanapudi
25	Dumpagadapa
36	Elurupadu
64	Garagaparru
63	Gollalakoderu
76	Goraganamudi
21	Gummuluru
70	Gunupudi
44	Jakkaram
39	Kalavapudi
5	Kaligotla
30	Kalisipudi
41	Kalla
37	Kallakuru
13	Kolamuru
32	Kolanapalle
22	Kollaparru
1	Kolleru
49	Komarada
10	Kondepadu
79	Kondepudi
83	Konithivada
51	Kopalle
66	Korukollu
62	Kovvada
3	Krovvidi
69	Kumudavalli
33	Kuppanapudi
46	Losarigutlapadu
27	Madivada
85	Madugupolavaram
59	Mahadevapatnam
90	Mentapudi
67	Mogallu
65	Mypa
61	Narasimhapuram
58	Narasimharajapura Agraharam
82	Navudur
84	Nelapogula
68	Palakoderu
17	Pamulaparru
7	Panduvva
8	Panduvvakhandrika
4	Pedakapavaram
56	Pedamiram
31	Pedapulleru
75	Pennada Agraharam
38	Prathallameraka
86	Rayakuduru
54	Rayalam
42	Seesali
23	Sidhapuram
74	Srungavruksham
20	Taratava
72	Thaderu
88	Thokalapudi
81	Tholeru
16	Undi
9	Unudurru
12	Uppuluru
89	Veeravasaram
15	Velivarru
87	Vemavaram
52	Vempadu
77	Vendra
78	Vendra Agraharam
57	Vendram
71	Vissakoderu
48	Yenamadurru
11	Yendagandi

The following abbreviations have been used in the above Village and Town Directories :—

N. A : Not ascertainable

(*i*) *Educational facilities are shown by the following symbols under column 3* :—
P: Primary School, M : Middle School, H : High School, C : Institutions of Higher Education including Colleges, T : Technical Institutions

(*ii*) *Medical and Public Health facilities are shown by the following symbols under column 4* :—
D : Dispensaries, Rhc : Rural Health Centres, Hos : Hospitals, Mcw : Maternity Child Welfare Centres

(*iii*) *Drinking Water facilities are shown by the following symbols under column 5* :—
S : Safe or protected water supply including tube wells etc., W : Wells, Tk : Tank, Riv : River, C : Canal

(*iv*) *Communication and Transport facilities are shown by the following symbols under column 6* :—
Po : Post Office, To : Telegraph Office or Public Call Office, Rh: Rest Houses and Choultries, R : Road, Rly : Railway

(*v*) *Electrification facilities are shown by the following symbols under column 7* :—
E : Electricity, E(I) : Electricity in Industrial use, E(A) : Electricity in Agricultural use, E(D) : Electricity in Domestic use

SUB-TABLE 1 TO VILLAGE & TOWN DIRECTORY

SOURCE OF IRRIGATION, CROPS RAISED AND VALUE OF LAND

The following abbreviations have been used in the above Sub-Table :—

N.A. : Not ascertainable

Irrigation sources

C : Canal
Riv : River
Sc : Spring Channel
Tk : Tank or Kunta
W : Well

Cereals

A : Arika
J : Jonna or Cholam
M : Maize
P : Paddy
R : Ragi
S : Sajja
V : Variga

Pulses

Blg : Blackgram
Gg : Greengram
Hg : Horsegram
Rg : Redgram

Other Crops

Ch : Chillies
Co : Coriander
Cs : Castor Seeds
G : Groundnut
Ga : Garlic
Gi : Gingelly
O : Onions
Su : Sugarcane
T : Tobacco
Bl : Betel Vines

SUB-TABLE 7 TO VILLAGE & TOWN DIRECTORY

INDUSTRIAL ESTABLISHMENTS

WEST GODAVARI DISTRICT

[Note :—In the Sub-Table below relating to Industrial Establishments, the units of various Industries existing in Villages and Towns are given. The particulars are given separately for the Rural and Urban areas. The Industries are arranged, first for the district total in the ascending order of Minor Groups of Industries under the Indian Standard Industrial Classification showing the total number of establishments within brackets next to each Minor Group Code Number, for Total, Rural and Urban separately. The figures for the various taluks are also presented showing first the total numbers on the pattern adopted for the district totals, followed by the particulars for the villages and towns in that taluk in the order of the Village/Town Directory. Against each Village/Town are shown the Minor Group Code Numbers of the Industries or Crafts found in that Village/Town with the number of units engaged in the Minor Group in brackets against each of the Groups.]

Detailed description of Industrial Code (Minor Group) Numbers under which the Industrial Establishments are arranged in the above Sub-Table is given below :

Minor Group No.	Description as per the Indian Standard Industrial Classification
(1)	(2)
044	Rearing of bees for the production of honey, wax and collection of honey
048	Production of other animal husbandry products such as skin, bone, ivory and teeth
200	Production of rice, atta, flour, etc., by milling, dehusking and processing of crops and food grains
201	Production of sugar and syrup from sugarcane in mills
202	Production of indigenous sugar, gur from sugar cane or palmjuice and production of candy
205	Production of bread, biscuits, cake and other bakery products

SUB-TABLE 7 TO VILLAGE & TOWN DIRECTORY—*Contd.*

INDUSTRIAL ESTABLISHMENTS

Minor Group No.	Description as per the Indian Standard Industrial Classification
(1)	(2)
206	Production of butter, ghee, cheese and other dairy products
207	Production of edible fats and oils (other than hydrogenated oil)
209	Production of other food products such as sweet-meat and condiments, murí, murki, chira khoi, cocoa, chacolate, toffee, lozenge
212	Production of indigenous liquor such as toddy, liquor from mahua, palm juice
214	Production of aerated and mineral water
215	Production of ice
216	Production of ice cream
218	Processing of coffee in curing works
220	Manufacture of bidi
221	Manufacture of cigars and cheroots
222	Manufacture of cigarette and cigarette tobacco
224	Manufacture of snuff
226	Manufacture of other tobacco products
231	Cotton spinning (other than in mills)
233	Cotton dyeing, bleaching
235	Cotton weaving in handlooms
236	Manufacturing of Khadi textile in Handlooms
238	Manufacturing of cotton nets
239	Manufacturing of cotton cordage, rope and twine
241	Jute spinning and weaving
244	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta
253	Wool spinning other than in mills
255	Wool weaving in handloom
263	Weaving of silk textile by power loom
265	Printing of silk textile
270	Manufacture of carpet and all other similar type of textile products
271	Manufacture of hosiery and other knitted fabrics and garments
272	Embroidery and making of crepe lace and fringes
273	Making of textile garments including rain coats and head gear
274	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags
277	Manufacture of coir and coir products
280	Sawing and planing of wood
281	Manufacture of wooden furniture and fixtures
282	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows
283	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures
284	Manufacture of other wooden products such as utensils, toys, artwares
287	Manufacture of boxes and packing cases other than plywood
288	Manufacture of materials from cork, bamboo, cane, leaves and other allied products
289	Manufacture of other wood and allied products not covered above
292	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp
301	Printing and publishing of books
302	All other types of printing including lithography, engraving, etching, block making and other work connected with printing industry
303	All types of binding, stitching, sizing and other allied work connected with binding industry
310	Currying, tanning and finishing of hides and skins and preparation of finished leather
311	Manufacture of shoes and other leather foot-wear
313	Manufacture of leather products (except those covered by code Nos. 311, 312) such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles
314	Repair of shoes and other leather footwear
320	Manufacture of tyres and tubes
331	Manufacture of dyes, paints, colours and varnishes
332	Manufacture of fertilizers
335	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap
338	Manufacture of common salt
339	Manufacture of other chemicals and chemical products not covered above (including inedible oils and fats)
340	Manufacture of structural clay products such as bricks, tiles
341	Manufacture of cement and cement products
342	Manufacture of lime

SUB-TABLE 7 TO VILLAGE & TOWN DIRECTORY—*Concld.*

INDUSTRIAL ESTABLISHMENTS

Minor Group No.	Description as per the Indian Standard Industrial Classification
(1)	(2)
343	Manufacture of structural stone goods, stone dressing and stone crushing
345	Manufacture of stone images
350	Manufacture of earthenware and earthen pottery
365	Manufacture of brass and bell metal products
366	Manufacture of aluminium products
367	Manufacture of metal products (other than of iron brass, bell metal and aluminium) such as tin-can
368	Enamelling, galvanising, plating (including electroplating) polishing and welding of metal products
369	Manufacture of sundry hardwares such as G. I. Pipe, wire net, bolt, screw, bucket, cutlery. (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in Major Groups 36, 37, 38 and 39)
374	Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers
377	Manufacture of all kinds of battery
379	Manufacture of electric machinery and apparatus, appliances not specified above
383	Manufacture of motor vehicles, engines parts and accessories
384	Repairing and servicing of Motor vehicles
388	Repairing of bicycles and tricycles
389	Manufacture of other transport equipment not covered above such as animal drawn and hand-drawn vehicles
392	Assembling and repairing of watches and clocks
393	Manufacture of jewellery, silver ware and wares using gold and other precious metals
394	Manufacture and tuning of musical instruments
395	Manufacture of stationery articles not covered elsewhere such as pencil, pen-holder, fountain pen
399	Manufacture and repair work of goods not assignable to any other group
