POTHANA – THE GREAT DEVOUT POET

The motif presented on the cover page represents Bammera Pothana, also called Pothanamatya, a devout poet belonging to the 15th century A. D. said to have hailed from the village Bammera near Warangal. The spiritual history of India is replete with devotional poetry and it was termed as BHAKTI movement, the 'CULT OF DEVOTION'. The SRIMADANDHRA MAHA-BHAGAVATHAM rendered in Telugu by Pothana gave necessary fillip to this movement And nay! he could be treated as a progenitor of this movement. Pothana started this movement even before Chaitanya started the same movement in Bengal and Vallabhacharya in Gujarat. In the Telugu country, this movement was taken to great heights by Saints and lyricists like Annamacharya, Kshetrayya and Ramadas of Bhadrachalam fame. Besides Bhagavatham, Pothana wrote VEERABHADRA VIJAYAM in praise of Lord Siva, which could be considered almost a Saivaite AGAMA SASTRA, BHOGINI DANDAKAM and NARAYANA SATAKAM, a devotional composition in praise of Lord Narayana or Vishnu.

Pothana was a great poet of aesthetic eminence and his style was so simple and attractive to the common people as well as pedants. It is charming and sweet, and it won the hearts of the Telugu speaking people in a great sweep. He was one among the three or four top ranking Telugu poets of those days and even today. He shunned royal patronage and temptation for wealth and affluence. He was himself a cultivator and tilled the lands with his own hands and derived satisfaction from what all he could get from his small bit of farm land. He dedicated his BHAGAVATHAM to none other than Lord Sri Rama, the God of his choice. He proclaimed that he was instrumental in his composition and it was Lord Rama who possessed him and got the MAHAKAVYA written and that it could obtain great sanctity through his writings because it was not he, but Lord Rama was responsible for its outcome. BHAGAVATHAM means which is related to BHAGAWAN or God. Puranas say BHAKTI, JNANA, VAIRAGYA (renunciation) which cannot be obtained by the study of GEETA and UPANISHADS can easily be obtained by listening to the stories of BHAGA-VATHAM. BHAGAVATHAM is a classical devotional literature as well as a literary classic. It enunciates the path of devotion through which God is easily accessible in preference to other paths which are not easily accessible to one and all. The style of MAHABHAGAVATHAM is extraordinarily mellifluous though full of Sanskrit words and compounds and it has the natural sweetness of Telugu language and it is a rare and ever shining ornament to the Telugu Muse. It beautifully describes the incarnations of Lord Vishnu, the saviour of his devotees and, childhood pranks of Sri Krishna, the most favoured of the incarnations of Lord Vishnu, the second of the Hindu Trinity.

The Government of Andhra Pradesh declared 1981 as the year of Pothana, being the 500th year of writing 'SRIMADANDHRA MAHABHAGAVATHAM'. Several functions were organised by the public throughout Andhra Pradesh and by the Government of Andhra Pradesh as well. The State Government has also proposed to construct a complex of buildings known as 'Pothana Complex' in Warangal which includes an auditorium wherein a life-size statue of Pothana would be installed in the premises. In Bammera, the native village of Pothana, a memorial has been constructed to commemorate him and also idols of Sri Seeta Ramachandra were installed.

FOREWORD

The district census handbook (DCH), compiled by the Census Organisation on behalf of the State Governments, is one of the most valuable products of the Census. The DCH is constantly referred to by planners, administrators, academicians and researchers. It is *inter alia* used for delimitation of constituencies, formulation of local level and regional plans and as an aid to District administration. The district census handbook is the only publication which provides Primary Census Abstract (PCA) data upto village level for the rural areas and wardwise for each city or town. It also provides data on infrastructure and amenities in villages and towns, etc.

The district census handbook series was initiated during the 1951 Census. It contained important census tables and PCA for each village and town of the district. During 1961 Census the scope of the DCH was enlarged and it contained a descriptive account of the district, administrative statistics, census tables and a village and town directory, including PCA. The 1971 DCH series was planned in three parts. Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. However, in some states it was confined to district census tables and in a few cases altogether given up due to delay in compilation and printing.

While designing the format of 1981 DCH series some new features along with the restructuring of the formats of village and town directory have been attempted. At the same time, comparability with the 1971 data has also been kept in view. All the amenities except power supply in the village have been brought together in the village directory with the instruction that in case an amenity is not available in the referrent village the distance in broad ranges from the nearest place where the amenity is available may be given. The restructuring of the format of the village directory and incorporating more exhaustive data on infrastructure aspect particularly in relation to amenities and land-use pattern is expected to further meet the need of micro level planning for rural areas. It is expected to help not only in local area planning but regulating the provision of goods and services as well so as to minimise the regional imbalances in the process of development. A few new items of information have also been introduced to meet some of the requirements of the Revised Minimum Needs Programme. Such new items of information as adult literacy centres, primary health subcentres, and community health workers in the village have been introduced in the village directory with this objective in mind. The new item on approach to the village is to have an idea about the villages in the district which are inaccessible. A new column, "total population and number of households" has been introduced to examine the correlation of the amenities with the population and number of households they serve Addition of two more appendices listing the villages where no amenities are available and according to the proportion of scheduled caste and scheduled tribe population to the total population has also been made with this view in mind.

The formats of the town directory have also been modified to meet the requirements of the Minimum Needs Programme by providing information on a few new items. A new statement on civic and other amenities in slums in Class I and Class II towns (Statement IV-A) has been introduced with this objective in mind. It is expected that this will help the planners to chalk out programmes on provision of civic amenities for the improvement of slums. The columns on Scheduled Castes and Scheduled Tribes population in Statement IV relating to civic and other amenities and adult literacy classes/centres under educational facilities in statement V are also added *inter alia* with this view. A significant addition is class of town in all the seven statements of the town directory. The infrastructure of amenities in urban areas of the country can be best analysed by taking the class of towns into consideration. The addition of the columns on civic administration status and population in a few statements also serves this purpose.

The format of the primary census abstract for the villages and towns has been formulated in the light of changes in the economic and other questions canvassed through the individual slip of 1981 Census.

In order to avoid delay in publication of 1981 DCH series it has been so designed that Part–A of the volume contains village and town directory and Part–B, the PCA of villages and towns including the Scheduled Castes and Scheduled Tribes PCA upto Taluk/Town levels At the beginning of the DCH a detailed analytical note supported by a number of inset tables based on PCA and non-census data in relation to the infrastructure has been introduced to enhance its value. The district and taluk/town level maps depicting the boundaries and other important features have been inserted at appropriate places, to further enhance the value of the publication.

This publication is a joint venture of the State Government and the Census Organisation. The data have been collected and compiled in the State under the direction of Shri S. S. Jaya Rao, I.A.S., Director of Census Operations, Andhra Pradesh, Hyderabad, on behalf of the State Government which has borne the cost of printing. The task of planning, designing and coordination of this publication was carried out by Shri N.G. Nag, Deputy Registrar General (Social Studies) of my office, Dr. B.K. Roy, Deputy Registrar General (Map) provided the technical guidance in the preparation of the maps. Data received from Census Directorates have been scrutinised in the Social Studies Division at the head-quarters under the guidance of Shri M. M. Dua, Senior Research Officer. I am thankful to all who have contributed in this project.

New Delhi

P. PADMANABHA
Registrar General, India

PREFACE

District Census Handbook is the most important of the local publications brought out by the Census Organisation. This is a joint venture of the State and Central Government. The chapter on HISTORY OF DISTRICT CENSUS HANDBOOK details its history and growth right from the inception of Census in 1872, while the foreword of the Registrar General and Census Commissioner, India highlights the scope and significance of the tremendous improvements brought about from time to time since 1951 to 1981, in the presentation of data so as to meet the demands of planning and administrative needs of the Governments and the data users. Needless to say that it is of immense use to planners, administrators, academicians, scholars, researchers, social workers, etc.

The restructuring of the format of the Village Directory at the 1981 Census has been done particularly to incorporate the exhaustive data on infrastructure in relation to amenities and land use pattern to meet the needs of micro-level and local area planning for rural areas as well as to meet the Minimum Needs and Revised Minimum Needs Programmes of the Planning Commission. It is further intended to help regulating the provision of goods and services and also to enable minimising regional imbalances in the process of development. The formats of the Town Directory have also been modified to meet the requirements of the Minimum Needs Programme, by adding statements on civic and other amenities in slums in Class I and Class II towns, columns on Scheduled Castes and Scheduled Tribes population, adult literacy centres, working women's hostels, etc. In the process of collection of data for this volume, various State and Central Government departments have extended their kind co-operation The District Census Handbook comprises two parts—Part A – Detailed analytical note supported by a number of inset tables based on Census and non-Census data in relation to infrastructure and Part B – Village and Town Directories as well as Primary Census Abstract of Villages and Towns.

In this joint venture of the State and Central Governments, while the collection, processing including compilation. tabulation and finalisation of the write up have been done by the Directorate of Census Operations, Andhra Pradesh, under the Ministry of Home Affairs, Government of India, the paper and printing costs are borne by the Government of Andhra Pradesh State. I offer my grateful thanks to Sri S.R. Rama Murthy, I.A.S. (Retd.), former Chief Secretary of the Government of Andhra Pradesh and Sri M. Appa Rao, Joint Secretary (Retd.), General Administration (Elections) Department for the kind co-operation and encouragement extended by them at the time of 1981 Census. Grateful thanks are also due to Sri Shravan Kumar, I.A.S., the present Chief Secretary, Sri B.N. Jaya Simha I.A.S., Special Chief Secretary, General Administration Department and Chief Electoral Officer who is also in charge of Census and to Sri P.V. Gopala Rao, I.A S., Deputy Secretary, General Administration Department, for extending their kind co-operation. The Director of Printing and Stationery has been helpful in selecting good private presses for printing the Handbooks.

My grateful thanks are due to Sri S.S. Jaya Rao, I.A.S., Director of Census Operations, Andhra Pradesh, under whose direction the entire Census Operations programme was successfully carried out in the State. He has retired from service after superannuation in April, 1984 I am extremely grateful to Sri P. Padmanabha, I.A.S., former Registrar General and Census Commissioner of India whose constant guidance and advice were a source of strength and to Dr. N.G Nag, Deputy Registrar General (Social Studies) who has formulated the contents of the Handbook in detail. Grateful thanks are also due to Dr. B K. Roy, Deputy Registrar General (Map) under whose guidance the Map Division has scrutinised the district map and the taluk maps evincing very keen interest and to Sri M.M. Dua, Senior Research Officer (now Deputy Director), who has scrutinised the data presented here, with very minute care. I feel it a proud privilege and bounden duty to offer my sincere and grateful thanks to Sri V.S Verma, I.A.S , Registrar General and Census Commissioner, India and to Sri V.P. Pandey, Joint Registrar General, India for their constant guidance and advice in both administrative and technical matters.

In the finalisation of the write up, compilation and processing of data for the volume, I have been ably assisted by Sri B. Satyanarayana, as Deputy Director and as Assistant Director of Census Operations, with the assistance of an efficient team led by Smt. P. Lalitha, Investigator who has gained rich experience and specialised this subject. Sri Shyam Deo, Research Officer, ably guided the Map Section in the preparation of various maps included in this publication. I am thankful to all those officials who have contributed in bringing out this voluminous publication.

The following officials who have worked on the present volume of Warangal District Census Handbook deserve my thanks for their contribution.

Sri	N. C. Hanumantha Reddy, Tabulation Officer	Drafting, Scrutiny and Supervision of Printing

CONTENTS

Part-A	Pages
1 Important statistics of the district	ix–x
2 Map of the district	Facing Page [1]
3 Analytical note	
(i) Brief history of the district	[1–8]
(ii) General, physical aspects, hills, rivers, flora, fauna, climate, rainfall, soils, history of district as an administrative unit and changes in its component parts in general and during the decade in particular ...	[9–28]
(iii) Major characteristics of the district particularly in relation to the economic resources namely forestry, minerals and mining, electricity and power, land and land-use pattern, tenancy, agriculture, animal husbandry, fishery, industry, trade and commerce, transport, etc. ...	[29–33]
(iv) Brief description of places of religious, historical or archaeological importance in villages and places of tourist interest in the towns of the district ...	[34–36]
(v) Census concepts of rural and urban areas and other terms namely census house, household, scheduled castes/scheduled tribes, literates, main worker, marginal worker, non-worker, etc. ...	[37–39]
(vi) The history of district census handbook, scope of village directory, town directory statements and PCA ...	[40–50]
(vii) Brief analysis of the village and town directory, PCA data based on inset tables and a note on physically handicapped persons ...	[51–67]
Part-B : Village and Town Directory and Primary Census Abstract	
SECTION I – VILLAGE DIRECTORY	
(i) Note explaining the codes used in the Village Directory ...	1–2
(ii) Village Directory with Taluk Map on facing page of alphabetical list	
1 Chitiyal Taluk	3–11
2 Parkal Taluk	13–23
3 Mulug Taluk	25–31
4 Eturnagaram Taluk	33–47
5 Gudur Taluk	49–63
6 Narasampet Taluk	65–75
7 Warangal (Urban) Taluk	77–79
8 Warangal (Rural) Taluk	81–89

9	Ghanpur Taluk		91–99
10	Cheriyal Taluk		101–111
11	Jangaon Taluk		113–119
12	Kodakondla Taluk		121–127
13	Wardhannapet Taluk		129–137
14	Maripeda Taluk		139–147
15	Mahbubabad Taluk		149–159
(iii)	Appendices (I-IV) to the Village Directory ...		160–185
(iv)	L. C. Nos. for three decades (1961 to 1981) ...		186–231

SECTION II – TOWN DIRECTORY

(i)	Note explaining the codes used in the Town Directory ...	233–234
(ii)	Town Directory statements (I to VI and IV A) ...	236–243

SECTION III – PRIMARY CENSUS ABSTRACT

(i)	District PCA		244–249
(ii)	Taluk-wise PCA		
(a)	1 Chitiyal Taluk		251–255
	2 Parkal Taluk		257–262
	3 Mulug Taluk		263–267
	4 Eturnagaram Taluk		269–281
	5 Gudur Taluk		283–291
	6 Narasampet Taluk		293–298
	7 Warangal (Urban) Taluk		299–303
	8 Warangal (Rural) Taluk		305–309
	9 Ghanpur Taluk		311–315
	10 Cheriyal Taluk		317–323
	11 Jangaon Taluk		325–330
	12 Kodakondla Taluk		331–335
	13 Wardhannapet Taluk		337–341
	14 Maripeda Taluk		343–349
	15 Mahbubabad Taluk		351–361
	(b) Description of Urban Enumeration Blocks ...		362–379
	(c) Appendix to Urban PCA		380–393
(iii)	Special PCA on SC and ST		394–401

ANALYTICAL NOTE

WARANGAL DISTRICT

Based upon Survey of India map with the permission of the Surveyor General of India.

© Government of India Copy

HISTORY

Warangal is an ancient town after which a district and a Commissioner's Division in the former Hyderabad State, and again a district in the present Andhra Pradesh State have been designated. The Warangal division in erstwhile Hyderabad State, formed the eastern portion of the Nizam's Dominions and extended from the river Penganga in the north to the Krishna in the south. It was one of the biggest districts before 1st October, 1953 when a few taluks were separated from it and formed into the Khammam district. The district of Warangal, lies on the north-east of the State, between 17° 19' and 18° 13' north latitude and 78° 49' and 80° 43' east longitude and has a total area of 12,846 sq. kms. The ancient town of Warangal is situated on the Central Railway, about 138 kms. north of Hyderabad City. It lies on the watershed separating the basins of the Godavari and the Krishna in the lower part of their course. The country which surrounds it, consists of large undulating plains of reddish sandy loam and black soils, broken here and there by piles of huge granite boulders and basaltic dykes. From a military point of view, Warangal seems to have occupied an advantageous position, on account of its location. Due to this reason, evidently, and also because of its climate, it must have been selected for building a fort in the ancient days. Great lakes, historical monuments, temples and forts make Warangal an interesting district for the pilgrim, the historian, the archaeologist and the nature lover. Warangal itself is not very ancient but Hanumakonda, and legends surrounding it, seem to link up the area with the great Vishnukundins and other earlier dynasties of the Buddhist and pre-Buddhist periods of Indian history. The district originally formed a portion of the ancient Kingdom of the Andhra kings, who subdued the whole of the Deccan. During the eighth century it was 'Orukal', the capital of Yadava Kings of Tuluva Andhras. For nearly two hundred years, from the middle of the twelfth century, it formed part of the territories of the Kakatiyas of Warangal. Prola Raja is said to have captured the Chalukyan King, Tailapadeva III and successfully waged wars with other kings. His son Rudra I extended his possession while Raja Ganapatideva claims to have defeated the King of Kalinga and to have had the Kings of Southern Gujarat and Bengal as his vassals, ruling as far south as the Nellore district of the present Andhra Pradesh State. Ganapatideva was succeeded in about 1257 A.D. by his daughter Rudrama Devi, who was mentioned as the ruler of the country by Marco Polo.

The name of Warangal is said to be a corrupt form of Orukal which was probably the original designation of the old town. This seems to have been adopted by the early Muslim historians of India. Orangallu and Orugallu are the two variants of this appellation[1]. All these terms refer to the solitary cliff, which stands at the centre of the fort of Warangal which has, evidently given its name to the locality. There is also a divergence of opinion regarding the origin of the Kakatiyas, the ruling dynasty of Warangal. According to one opinion based on the Hanumakonda inscriptions, they came from the Chola Dynasty. The other opinion is that the Kakatiyas were of Chalukyan blood and had only matrimonial relations with the Rajas of Chola. The family name of Kakatiya is derived from the local appellation of the Goddess Durga[2]. In view of these two conflicting evidences it is difficult for us to decide as to what dynasty the Kakatiyas originally belonged to. However, Dr. Yazdani's following translation seems to be more authentic as most of the scholars have accepted it. *"At first Betal and after him his son Prola I remained firmly loyal to the Western Chalukyan standard and thus won the affection and favour of their overlords. Delighted by the military ability and unswering loyalty of Prola I, the Emperor Ahavamalla Someswara I, granted him Anumkonda-Vishaya as a permanent fief. Prola I, thus became the founder of the Kakatiya principality, which under his ambitious successors grew into a powerful Kingdom embracing the whole of the country."* The Kakatiya line

seems to have been in existence even earlier to the middle of the seventh century A.D. because the Chinese pilgrim Hieun Tsang mentions the Kingdom of Dana Kakatiya in the south. The Rajas of Warangal in the beginning were vassals of the Chalukya Kings of Vatapi but in the eighth century A.D. When the latter dynasty became extinct and the sovereignty of the Deccan passed to the Rashtrakutas, the Warangal Kings assumed independence and the dynasty gradually rose into power. The first important king of the family was Prola Raja who reigned from 1150-1163 A.D. Prola Raja was the father of Rudra Deva I, the founder of the well known Hanumakonda temple. It may, however, be incidentally remarked that the fort of Warangal was founded by the Kakatiya King Ganapatideva[1] (1199-1200 to 1260-61 A.D.) and was completed by his daughter Rudrama Devi who succeeded her father in the absence of a male issue[2]. This talented lady was styled Raja or King and was called Maharaja Rudradeva i.e , the great King Rudradeva, on account of the manly qualities she possessed just as Razia, the gifted and famous daughter of Sultan Ultamish of the slave dynasty was called Sultan. She built the massive outer mud wall around the fort[3] and completed the inner stone wall which was commenced by her father[4]. The outer mud wall is 72 feet wide and 56 feet deep. Traces of a third earthen wall are visible near the villages of Thimmapur and Narasimalingudem, six miles south of Hanumakonda. This wall is said to have had a circumference of thirty miles, the largest in India. A large temple in the centre of the fort which was presumably under construction, has been excavated. The boundary of the original temple was marked by four large elaborately carved gateways facing the four cardinal points. They bear a striking similarity to the famous gateways of Sanchi and are very imposing to look at. There are a number of temples, dedicated to Narasimhaswami, Padmakshi and Govindarajulu Swami, which are of great sanctity. The last named temple is perched on a hillock near the Warangal Railway Station, commanding a panoramic view of the entire city and its surroundings. Very beautiful and artistic is the modern Siva temple constructed by a rich merchant of the city with pure white marble idols and walls inlaid with coloured porcelain. Warangal remained under the Kakatiyas for a couple of hundred years from about the middle of the twelfth to about the middle of the fourteenth century A.D. Prataparudra was the last two ruling chief of this dynasty about whom there is definite inscriptional evidence. He is said to have died in 1325 A D. What happened to his dominions after his death is not known. As the late Rai Bahadur Venkayya pointed out long ago[5] an inscription at Upparapalle in the Cuddapah district refers to a son of Prataparudra named Juttaya. According to Sir Walter Elliot[6] Virabhadra was Prataparudra's successor who had to retire to Kondavidu. The late Mr. Sewell said that it was Krishna who succeeded Prataparudra but with a much reduced Kingdom[7]. Mr Venkayya, writer of that period, states that Muslim writers spoke of Vinayakadeva, alias Nagadeva, as the son of Prataparudra[8] though he did not quote any authority for this statement. The absence of inscription of these persons, namely, Virabhadra, Krishna, Juttaya and Vinayakadeva alias Nagadeva, is significant and would lead us to surmise that the Kakatiya dynasty had dwindled into insignificance or to a secondary position and must have gradually disappeared from the scene. It is worthwhile to make it clear here briefly as to how and when the Warangal fort came into the hands of the Muslim rulers. It is evident from history that the Muslim armies first made their appearance in the Deccan about the middle of the thirteenth century. The first expedition, therefore, against Telangana took place in A.D. 1303 by Alauddin Khilji and in 1310 Malik Kafur led an expedition on Warangal and seized the hill of Hanumakonda. Consequently, subordinate chiefs and the distinguished nobles of the Kakatiya Kingdom took up their residence with the king in the inner citadel, built of stone. The

condition of the besieged in the inner fort became increasingly difficult owing to the lack of accommodation and at last Prataparudra could hold out no longer[1]. Thereupon he sued for peace and Malik Kafur agreed to raise the siege on condition that Prataparudra should promise to the Sultan annually a stipulated sum of money and send a contingent of elephants as tribute[2]. Prataparudra accepted those conditions and discharged his obligations faithfully. After the death of the Sultan there were political disturbances in the country and ultimately Ghiyasuddin Tuglaq, ascended the throne and proclaimed himself Sultan in 1320. As a result of these disturbances Prataparudra refused to pay the annual tribute to Ghiyasuddin Tuglaq. After consolidating his authority Sultan Ghiyasuddin turned his attention to the south, and in 1323 sent an expedition against the Telangana under his son Mohammed Bin Tuglaq who finally captured the fort and Prataparudra was taken prisoner. It was considered unsafe by the conquerors to keep him in the country, where his presence might lead to political complications and therefore Prataparudra was despatched to Delhi with all the members of his family under Khadir Khan and Khaja Haji, two trusted officers of the Imperial Army. They were not however destined to bring the fallen monarch into the metropolis, for he had expired far before reaching Delhi. The circumstances under which he died are not however clear. But, according to the inscriptions of 1330, it is stated that Prataparudra while being carried away as captive to Delhi died on the banks of the river Somadhbana i.e , Narbada[3]. While returning to Delhi Mohammed Bin Tuglaq appointed Malik Maqbool as the Governor of Telangana under whom Kapaya Nayaka was ruling over Warangal independently. On 3rd August 1347, Zafar Khan, one of the military officers who had rebelled against Mohammed Bin Tuglaq, declared himself to be the king of the Deccan under the title of Alauddin Shah Bahmani and subsequently Malik Maqbool was removed from the Governorship.

It is a well known fact that at the time of the rise of the Bahmani Kingdom, Warangal was independent under the rule of Kapaya Nayaka[4]. This ruler was on friendly terms with the Bahmani King, and even furnished him with elephants, on the latter's request. Of course, we hear of the Sultan setting out on an expedition to conquer Telangana, but it related only to the region around Bhongir and not Warangal. However, hostilities arose between these two kingdoms before long, and the expansion of the Bahmani Kingdom eastwards was regarded by the Warangal ruler to be an encroachment on his own territory. Warangal began to act in concert with Vijayanagar, and in the reign of Mohammed Shah Bahmani I, 1358–1373, war commenced which ultimately ended in the submission of the Warangal Kingdom. Peace was restored on the payment of a large sum of money to the Bahmani ruler as indemnity and Golconda and its dependencies had to be ceded besides presenting a rich and a valuable throne[5], It is not clearly stated whether Warangal retained its independence after this. The Burhan-i-Masir states[6] that in the latter days of his reign i.e., the reign of Mohammed Shah Bahmani I, (1358–1373) being seized with the desire of conquerring Telangana, he brought the country into the possession of the agents of his Government. This statement might imply that Warangal was made a feudatory State but it seems probable that till at least the beginning of the reign of Ahmed Shah Bahmani (1422-1435) Warangal remained independent intriguing with Vijayanagar against the Bahmani Kingdom, and proving itself a veritable thorn on the side of the Bahmani Kingdom. Soon after his accession, Ahmed Shah Bahmani proceeded against Telangana. According to Firishta[7], Khan Azam who had proceeded against Warangal in advance with a small army defeated and slew the King of Warangal and obtained possession of the place. The king moved to Warangal and took possession of those treasures, the accumulation of ages which had till then been preserved from plunder. The king then

rewarded Khan Azam suitably and detached him to reduce the remainder of Telangana, which he effected in the span of four months and returned to join the King at Warangal. Khan Azam was now left to reduce some strong posts in possession of the deceased Rajah's heirs, while the king proceeded to Gulbarga. These events are dated as 1424 A. D.

The campaign described above by Firishta is a specific attack on Warangal as a punishment for helping the Kingdom of Vijayanagar.

The Kingdom of Warangal completely lost its individuality in 1430 during the reign of Alauddin Bahmani. This Sultan after capturing Warangal left behind him his trusted Minister Mahmood Gawan to protect the Telangana. Later Mahmood Gawan returned to the capital Gulbarga and his place at Warangal was taken by yet another trusted subject by name Sarang Khan.

On the break-up of the Bahmani Kingdom, Warangal fell to the share of the Qutub Shahis of Golconda. Shitab Khan became the Governor of Warangal under the Qutub Shahis of Golconda[1]. The Durbar Hall of Shitab Khan still standing in the fort of Warangal indicates that this man of fortune must have won the kingship attributed to him in the record under Qutub Shahi Kings[2]. This Durbar Hall, as Mr. Yazdani has pointed out is a spacious building of the true Pathan style which stands near the western gateway of the central shrine in the fort To establish his identity we have to refer not only to the accounts given by the Muslim historians and in the Kaifiyat preserved in the Government Oriental Manuscripts Library at Madras but also to some Telugu books as well. The History of Sultan Quli Qutub Shah[3] would show that Shitab Khan was in the possession of the strong forts of Warangal, Khammameth and Bellamkonda. Obviously, then, he must have governed the tracts between Warangal and Guntur on both sides of Krishna river. He took great interest in developing the fort by constructing a few buildings for his subjects. These buildings are no longer in existence. Only the ruins of these can be seen.

Under the Qutub Shahi period Warangal remained as the second city of the Kingdom. In 1687 when Golconda was captured by Aurangazeb, Warangal too automatically got annexed to the Kingdom of Delhi. Rohilla Khan was entrusted with the administration of Golconda and Hyderabad and later Mubaraz Khan took his place and was the Subedar till 1724. In that year he was defeated and killed in the battle of Shaker Khere in the Berar by Nizam-ul-Mulk Asif Jah I. The latter declared himself independent of the Kingdom of Delhi and ruled the Deccan. Thus Warangal came under the sway of the Nizam's dominions.

In the administrative set up of the erstwhile Hyderabad State, Warangal was first made the headquarters of a taluk and later the headquarters of a district and a Suba, with the Subedar residing at Warangal. After the Police Action and the merger of the Hyderabad State with the Indian Union in 1948, the Subedarship was abolished and Warangal continued to be the headquarters of a district.

Kakatiya Glories

Temples : The Kakatiyas were magnificient builders and in their structures one notices vigour and loftiness, as also a sense of proportion, qualities which unfortunately are seldom observed in similar structures in other parts of the country. The massiveness of the pillars at Hanumakonda, Warangal and Palampet is in due proportion to the altitude of the buildings and to the heavy superstructure and in spite of their thickness, the pillars have an extremely symmetrical form and rise to considerable height, giving a general air of loftiness to the whole building. The interiors of the temples are spacious, thus admitting more light and air than is commonly the case in Hindu edifices. The pillars, doorways and screens are profusely decorated, the arrangement and style of the carvings being highly refined and appropriate. The temples represent the full development of the Chalukyan style and as such form important landmarks in the history of the Hindu architecture and sculpture.

The thousand pillared temple of Hanumakonda is the best example of architecture that flourished during the Kakatiya period. The main block of the temple consisting of the three shrines and the hall, belongs to the period of the incriptions i. e.,

3. Trans. Briggs, Vol. III, P-360

1162–63 A. D., while the prolongation of the porch, with the Nandi pavilion and detached pillared hall, is a later addition. The temple, as is recorded in the inscription. was dedicated to the Triad, Siva, Vishnu and Surya and their figures are beautifully carved over the doorways of their respective shrines. The northern and eastern shrines originally had images of Vishnu and Surya; the recesses which accommodated the images and the overshadowing canopies are still in evidence. But it seems that once the temple came into the hands of the Saivaites, they removed the images from their shrines and replaced them by Salankas which exist now. The most notable features of this temple are the richly carved pillars and lintels, the delicate screens and the most carefully finished sculptures consisting of dwarapalas (security guards) etc. But hardly less striking is the massive yet lofty style of the architecture characterised by the extra-ordinary height of the plinth, the majestic pillars and the ponderous beams and ceiling slabs. The Nandi pavilion and the detached pillared hall are comparatively plain and devoid of ornament, but the Nandi itself is a splendid specimen of a monolith[1]. It reveals the genealogy of the Kakatiya Kings.

Another important architectural form of the Kakatiya dynasty is found in the temples of Palampet, a small village in the Mulug taluk, 64 kms. from Warangal. On the shores of Ramappa lake. are the remains of temples, described as the brightest stars in the galaxy of medieval temples of the Deccan. The pillars and ceilings are full of ornamentation and scenes from the Ramayana and the Mahabharata are sculptured everywhere. Long panels of figures of Gods, Goddesses, warriors, acrobats, musicians and dancing girls in different poses decorate the outer walls while female figures in extremely graceful postures almost lifelike and made of highly polished black basalt stone are arranged in pairs in the form of brackets. They represent the Yakshis, female spirits, in technical dance poses serving as guards of the doors.

Telugu literature flourished under the patronage of the Kakatiya Kings. Somana, Thikkana and Maranna were poets of great merit and the greatest among them was Thikkana who rendered Mahabharatha into Telugu.

Irrigation Works : Of the best irrigation works of the area which stood the test of time are the Pakhal, Ramappa and Laknavaram lakes. Pakhal lake is situated about 51 kms east of Warangal town. It was constructed about 700 years ago, Pakhal is a large artificial sheet of water formed by a 2000 yards dam across the Pakhal river at a place where it cuts its way through two low hills. The water covers an area of 33 sq. kms. when the lake is full, with an average depth of 30 to 40 feet. It has a catchment area of 265 sq. kms. and is capable of irrigating 17,000 acres though the settled ayacut is roughly 9,000 acres, the rest being reserved as Shikargah. The Ramappa lake not far from Mulug and at a distance of 70 kms. to the north-east of Warangal, is another most magnificent example of the old irrigation works constructed by the Kings of Kakatiya dynasty. A reference to this tank is made in an inscription at Palampet according to which this lake was constructed in 1213 A.D., when the Kakatiya King, Ganapatideva was ruling. It has a catchment area of about 212 sq. kms. and four main distributory channels. It is capable of irrigating about 3642 hectares. The Laknavaram lake is 21 kms. from Mulug and is regarded as a sister to Ramappa tank. The lake is formed by shutting up three narrow villages with short bunds. It has a catchment area of 194 sq. kms. and three main distributories, irrigating about 5,260 hectares.

Commerce: To maintain a well balanced economic prosperity throughout the country, the Kakatiya Rulers had friendly trade relations with foreign countries. The records of the Kakatiyas speak of merchants of the home country, merchants of another country and merchants from different countries. The first were the local merchants organised in local guilds. The second were like the first except that they came from another country; the last were the powerful guilds' including merchants from all countries playing a prominent part in the foreign trade of the country as a whole. They specially traded in elephants, saphires, moonstones, pearls, rubies, diamonds, topaz and other precious articles, cardamoms, cloves, sandal, musk, saffron and other spices and perfumes. They either sold them wholesale or hawked them about. The Motupalle inscription of King Ganapati gives some idea of the conditions of maritime trade. Trade, both inland and foreign was well organised and briskly carried on throughout the period. The great port cities like Masulipatam were the emporia of foreign trade. The extensive bazaar of that great city (Warangal) was full of tall mansions of many apartments each with

1. History of Indian Architecture Vol. I, PP. 432-33 and A.S.R. Western India (1894-95) PP. 11-12

doorways, wide verandahs and corridors. The merchants lived with their families on the upper storey while the lower ones were set apart for conducting business. The impressions gathered by Marco Polo, a medieval traveller, throws more light on the industries when he remarks -" in this Kingdom also are made the best and most delicate buckrams and those of the highest price; in short they look like tissue of spider's web. There is no king nor queen in the world but might be glad to wear them. The people also have the largest sheep in the world and great abundance of all the necessaries of life". In most of the common industries the rule was production for the local market; but the movements of the individual merchants from one part of the country to another and the highly developed organisation of mercantile corporations in different parts of it, provide adequate evidence of a brisk internal trade in certain sorts of goods. Spinning and weaving formed a major industry which occupied considerable numbers and guilds of weavers were generally in a flourishing condition and took an active part in many local concerns. The export of the finer varieties of cloth from various parts of the country is proved by records. Warangal itself specialised in the manufacture of carpets which were much sought after. Important trade centres were connected by roads for the movement of goods.

Administration : When Prataparudra Deva II succeeded his grandmother in 1295, certain administrative reforms were introduced throughout the country. He devided the whole kingdom into 77 Nayakships, confining recruitment there to the Padmanayaka sect of Velama community and thoroughly overhauling the staff of Nayakas. Some of the great Nayakas, like Kapaya Nayaka who later played a great part in resisting the Muslim invasions were the products of this system which incidentally, was later adopted and elaborated by the rulers of the Vijayanagar.

Society and Culture : There is no authentic record giving a reliable estimate of the population during this long period. In the sea ports, and in the capital of the kingdom there were undoubtedly considerable numbers of foreigners including Arabs, Chinese and Persians. The bulk of the population was constituted of Hindus organised in castes. The role of women in high society was varied, important and generally speaking, pleasant. Princesses of the Royal family received good education in literature and the fine arts; some were quite equal on occassion, to the tasks of administration and war. The Kakatiya princess Rudrama Devi carried on the administration of the kingdom and took part in wars personally and actively. In civil life the Brahmins occupied a highly respected position. With the exception of the few who entered the State service in the army and elsewhere, they generally devoted themselves to religious and literary pursuits and stood outside the race for wealth and power. Hundreds of inscriptions in and around Warangal proclaim the continued solicitude of kings, nobles and merchants for the maintenance and encouragement of a class of men who devoted themselves exclusively to intellectual pursuits.

Growth of Warangal City : The city of Warangal, although comparatively more ancient than some other cities of India, has however been so much influenced by political and historical factors in its growth, right from its inception, that the study of its growth and development in its true historical perspective will be more helpful in explaining the other factors that might have been functionally associated with its growth. It seems therefore logical to study the growth of this city through its various historical stages. The historical periods chosen are not just convenient dates but representative landmarks in the history of its development. Either they indicate a significant historical event which had a marked influence on the form and function of the city or the inauguration of a new economic force into the fabric of city life.

These stages are :

Kakatiya stage	1260–1422
Transition stage	1422–1725
Asif Jahi stage	1725–1948
Modern stage	1948 onwards.

The Kakatiya stage–1260–1422 : The kingdom of Kakatiya, of which Warangal was the capital, was ruled by the Kakatiya dynasty from 1150 to 1422. In 1422 the Kingdom was annexed into the Bahmani and then fell to the Qutub Shahis of Golconda. Since then this independent kingdom became a peripheral province of vast Qutub Shahi Empire. It thus lost its individuality and the forces that had contributed to make Warangal a great kingdom ceased to exist. In the absence of contemporary accounts it is difficult to estimate in which direction the growth of city took place. However, it must be pointed out that the direction of the growth of the city was well anticipated by Rudra Deva I and he had made it all the more

possible by constructing a thousand pillared temple four miles west of Warangal. The recent excavations of the Archaeological Department in and around the Warangal fort throw a good deal of light on the origin of the city and its early period of growth. These reports of excavations contain a detailed chronological account of the various temples and buildings and serve a useful purpose to form a better picture of the city as it had then existed. The temples remind us that devotion to God was the first concern of the King and his subjects. The remarks of Malik Fakruddin Juna, a Commander of Sultan Alauddin's army while marching towards Warangal fort throw much light on the built up area of the city when he says "when this force reached the Gardens of Arangal, the iron of their horseshoes turned green from walking over the grass. Two famous officers and forty horsemen went forward and reached the summit of the Anamkonda Hill from where they could see all the suburbs and gardens of Arangal[1]. The same Commander further speaks of "*a fort, the like of which is not to be found on the face of earth. Its wall, though of mud, was so hard that a spear of steel could make no impression upon it, if a maghrabi-stone were to strike it, it would rebound like a nut thrown by a child*[2]". In the absence of contemporary accounts it may, however, be said that in this period the settlement and built up area might have been within the fortress of Warangal. A few hamlets namely, Hanumakonda, Mathwada and Girmajipet were existing as religious centres and most of the open area was confined for the cultivation of various products[3]. Thus three hamlets were situated along the main roads leading to Golconda fortress[4]. Even today we find some old temples in these hamlets in a dilapidated condition testifying to their past glories.

Transition stage–1422–1725 : This period may rightly be termed as transitional in the history of the growth of this city. It was divested of the status of a capital city. Its economy was disturbed. Its political ownership was unsettled. Things however, calmed down towards the end of 1725 when the control of the city of Warangal passed into the hands of Nizam-ul-mulk Asif Jah, the founder of the Asif Jahi dynasty. This long transitional period also recorded two significant events in the history of the city. Permanently the city lost its capital status and became the third city of the region the first two being Hyderabad and Aurangabad (now in Maharashtra State). It had become a part of the province of the Deccan of the Asif Jahi Kingdom. It was during this period that more people began to settle down outside the fortress of Warangal. Corroborating this, Bilgrami and Wilmot write "a group of men called Shaiks who were well-known carpet merchants settled down permanently a mile from the fortress of Warangal[5]. This area now called Denshahipet is noted for carpet industry. However, the population on the north along the fortress wall, towards the south and west, was expanding and new northern, southern and western suburbs like Ramannapet, Rangashahipet also known as Rangasayipet and Lakshmipura (Hanamakonda) had come into existence. Lakshmipura and Hanamakonda had virtually become the greatest religious centres of the city. A unique feature of the development of the city right from its inception is the ribbon like development along the road to Hyderabad. The axis of growth, however, was oriented towards the west.

The Asif-Jahi stage–1422–1948 : This period in the growth of Warangal city was characterised by three distinct phases (a) construction of Subedari buildings, (b) construction of Railway Stations, (c) appearance of a cotton mill. The three factors combined to change the axis of growth of Warangal and added new dimensions to its landscape. The plan for constructing Government buildings for offices and residential quarters for officers was mooted in 1923 but it was completed in 1926 when Warangal, was declared as the headquarters of the Subah by Salar Jung, the then Prime Minister of Hyderabad under the administrative reforms of Hyderabad State. Prior to this there were no buildings. The construction of these buildings was not so important as the consequence since in the wake of its construction there came into existence around the buildings a cluster of shops and dwelling houses. This nucleus settlement now forms a part of the locality called Subedari and Lakshmipura at Hanamakonda. Another factor which contributed to the growth of the city was the construction of railway stations connecting the railway lines between Hyderabad–Delhi and Hyderabad–Madras

1. Burhave Masir P-260
2. *Khain-ul-Azani - Translated by Prof. Habib of the Aligarh University, 1925*
3. Reports of Archaeological Department, 1918 and 1919
4. Tarikh Khutub Shahi - P-299
5. Bilgrami & Wilmot-Historical and descriptive sketch of the Nizam's Dominion-Times of India Press, Bombay 1883

in the nineteenth century. Two railway stations within a distance of 13 kms. were constructed at Warangal and Kazipet respectively. This factor gravitated population on a large scale and soon the built up area from Kumarpalle and Lashker Singaram bended its way towards the railway station and within the course of twenty years a densely populated locality at Kazipet came into existence. The Azam Jahi Mills north of Mathwada, the rice mills in the south and the oil mills north-west of the fort were the chief organised industrial units of Warangal and were all established between 1931 and 1948. The establishment of a textile mill and its workshops in the north of Mathwada gave great impetus to the growth of that small hamlet. In fact it formed the nucleus around which the built-up area developed extensively. The rice mills and oil mills attracted a large growth along the main road from the fortress to the Railway gate. Besides this, other industries like tanning etc., also developed not only in the built up area but also in the surrounding villages namely, Vedeyapalle, Mamla and Rangshahipet. Thus it is found that the city of Warangal is not a product of an evolutionary process of urbanisation but the result of piecemeal development. It was during the period of Rai Murlidhar Bahadur (1340 F) the then subehdar of the Warangal that the limits of the city were determined by a complete survey of the city. These limits of course draw the boundary of the city and roughly determine also the extension of the built up area.

The modern stage–1948 onwards : This tremendous and piecemeal development of the city was in the main haphazard, unco-ordinated and unplanned. As a result, several glaring defects and deficiencies have developed. To cope with the situation and remedy the defects, the municipality took keen interest in preparing the Master Plan with the collaboration of the Town Planning Department in 1949. The Plan has both a negative and a positive aspect. By controlling and fixing the land uses, the municipality seeks to prevent haphazard and confused growth. By reservation of lands for various public uses such as recreation grounds, schools, hospitals etc., it seeks to ensure that adequate land for these purposes is kept available for being utilised in future. The plan has already been implemented and according to it the Regional Engineering College Building, Kakatiya Medical College Building and a few other structures have been constructed.

PHYSICAL ASPECTS

This district derived its name from Warangal, its headquarters city. The place was founded in the twelfth century by Prola Raja I of the Kakatiya dynasty. The name of Warangal is said to be another form of Orukal which was probably the old name of the old town. Warangal was one of the largest districts in the erstwhile Hyderabad State. Its bifurcation in 1953 led to the formation of Khammam district. Warangal district lies between the northern latitudes of 17° 19' and 18° 36' and the eastern latitudes of 78° 49' and 80° 43' and has a total area of 12,846 sq. kms. It is bounded on the north by Karimnagar district, on the west by Medak district, on the south by Nalgonda district and on the West and southeast by Khammam district.

Hills: The area around Hanumakonda is 518.16 metres above the sea level, while the average elevation of the district is about 265.48 metres. A range of hills stretches from Parkal and Singareni to Aswaraopet in Khammam district in the south-east bounding the lower Godavari valley. A hill range known as the Kandikalgutta extends from the southeast to Chinnur (Adilabad District.) The Chandragiri hills and the famous iron hills of Hasanparthi lie 16 kms. and 22 kms. respectively to the northwest of Warangal.

Rivers: The irrigation works in the district are the lakes of Pakhal, Laknavaram, Ramappa and Ghanapur (Ghanpur). These lakes command an ayacut of 11,219 hectares. These are the examples of the old irrigation works constructed by the kings of Kakatiya dynasty.

The Pakhal lake is situated in the revenue village of Pakhal in ~~Narasampet~~ Gudur taluk and is 11.27 kms. to the east of Narasampet and 45 kms. east of Warangal. Pakhal is an artificial sheet of water and is formed by a 2,000 yards dam across the Pakhal river. When the lake is full, the water covers an area of 33.67 sq. kms, with an average depth of 30 to 40 feet. It has a catchment area of 268.80 sq. kms. and has the capacity of irrigating roughly 6,879.64 hectares. It gives vent to five irrigation channels known as the Sangam channel, Jalabandam channel, Thungabandam channel, Pasnoor channel and Mott Veeraram channel.

The Laknavaram lake lies in the limits of Laknavaram village in Mulug taluk. This lake is at a distance of 69.23 kms. from Warangal. The surplus water of this lake ultimately joins the Godavari. This lake was formed by closing three narrow valleys each with a short bund. Its catchment area extends to about 195 sq. kms. and it irrigates about 5,260.90 hectares.

The Ramappa lake is situated in the northeast of Warangal, at Palampet in Mulug taluk. It was formed by laying bunds across the Medivagu and Rallavagu. Its catchment area is 183.89 sq. kms. and it has four main distributories known as the Voger channel, Veerla channel, Burugu and Somi channels. The lake has an ayacut of 1,863 hectares.

The Ghanapur lake which lies in Mulug taluk is situated in Ghanapuram village. It has a catchment area of 100.36 sq. kms. The lake serves an ayacut of nearly 1,620 hectares.

In addition to the above lakes, there are some important tanks at Nagaram, Wardhannapet, Arjunpatla, Katakshapuram etc.

Climate and rainfall: The district being situated at a considerable distance from the sea coast, its climate generally tends to be dry and there is not much fluctuation in the temperature. The year may be divided into four seasons. The winter season from December to February in which period, the temperature drops slightly followed by the summer season from March to May. The hottest month in this season is May. The period from June to September is the southwest monsoon season. October and November constitute the post monsoon or retreating monsoon season.

The rainy season commences with the onset of the south-west monsoon in the later part of the month of June and ends with the month of October with the closure of the south-west monsoon. About 81% of the annual rainfall is received during the south-west monsoon season. Rainfall, generally in the form of thunder showers is received in the later half of the summer season and in the post monsoon season. The normal annual rainfall of the district is 987.3 mm.

Soil: The soils of the district are susceptible to erosion due to its slopy and undulating topography. The steep slopes and marginal lands bordering hillocks face acute erosion in times of heavy rains. The lands alongside the Godavari are silted heavily when the Godavari overflows its banks. The soil in this district can be divided into loams, red loams, clayey loams, sandy loams, black cotton soil, alluvial and rocky. The taluks of Mahbubabad, Mulug and Narasampet contain loamy soils. Sandy loams predominate in the taluks of Jangaon, Parkal, Warangal and Narasampet. Black cotton soils constitute 20% of the area in the taluks of Mulug, Parkal and Warangal. The soils in general are found deficient in nitrogen and phosphoric acid.

Flora: The forests of the district come under the category of tropical, dry, deciduous and tropical thorny forest types. During the warm weather most of the trees become leafless. It is quite common to find good quality of valuable teak, adjacent to or mixed up with valueless types of poor quality forests. The height of the trees varies from 15 feet to 80 feet. The important and valuable species commonly found are the teak, bijasal, nallamaddi, boja, channangi, tiruwam, shisham, bamboo etc.

Fauna: Nearly one third of the district area comprises forests containing wild life of all categories. Indiscriminate shooting has considerably changed the picture of wild life in the forests of the district. Leopards and elephants among big animals and bustard, florican and flamingo in the ave (bird) fauna have disappeared, while the other game has considerably depleted. Two game sanctuaries, one at Eturnagaram and the other at Pakhal were formed to protect wild life. The Eturnagaram sanctuary is situated about 112 kms. from Kazipet railway station. It is connected by a metalled road and has two forest rest houses. The area of this game sanctuary is 811 sq. kms. The sanctuary at Pakhal is situated about 50 kms. from Kazipet Railway Station. The area of this sanctuary is 902 sq. kms. Shooting was prohibited throughout the district but there are about 24 shooting blocks open to the true sportsmen. These blocks are opened for shooting once in three years.

Changes in administrative units and component parts: The district was not a homogeneous administrative unit in the past and its component parts were under the control of different dynasties at different periods of time, namely, the Satavahanas, Eastern Chalukyas, Rashtrakutas, Western Chalukyas of Kalyani, Kakatiyas, Musunuri Chiefs, Recherla Chiefs, Bahmanis, Qutub Shahis, Mughals and Asaf Jahis who held sway over portions of the Deccan of which Warangal formed part. Warangal originally formed part of Khammam district. In 1905, the headquarters of the district was shifted to Warangal and the reconstituted district consisted of the taluks of Warangal, Pakhal, Mulug, Khammam (Khammamett), Yellandu (Yellandlapad), Mahbubabad, Madhira (Madhra) and Palwancha, (Paloncha), besides the Paloncha Samsthanamu and other larger jaghirs. The district was the largest in the erstwhile Hyderabad State. The constituent taluks of the district remained intact though there were some minor changes by way of transfer of a few villages from one taluk to another within the district till 1953. As it was difficult to administer this extensive district, it was deemed necessary to bifurcate it for effective administration. Accordingly this district was bifurcated on the 1st of October, 1953 leading to the formation of Khammam district with the taluks of Khammam, Yellandu, Madhira, Bhoorgampadu (Borgampad) and Palwancha. Consequently, the district of Warangal was left with the taluks of Warangal, Mulug, Mahbubabad and Pakhal. At the same time the districts of Karimnagar and Nalgonda were deprived of the taluks of Parkal and Jangaon respectively which were added to Warangal district. In the process of these transfers, Jangaon taluk of Nalgonda district lost the village of Tigul Narsapur (1953) to Gajwel taluk of Medak district, while Khammam taluk lost Sirivole and Kamepalle villages to Mahbubabad taluk of Warangal district. In 1960–61, the name of the taluk of Pakhal was changed to that of Narasampet with headquarters at Narasampet. Thus the district consisted of 6 taluks viz:- Warangal, Jangaon, Parkal, Mahbubabad, Mulug and Narasampet. Henceforth, the district did not undergo any territorial changes and both at 1961 and 1971 it consisted of 6 taluks grouped under two revenue divisions as shown under.

S. No.	Name of the Revenue division	Constituent taluks
(1)	(2)	(3)
1	Warangal (Hanumakonda)	1 Warangal
		2 Jangaon
		3 Parkal
2	Mahbubabad	1 Mahbubabad
		2 Mulug
		3 Narasampet

According to 1981 census there are 15 taluks which have been grouped under three revenue divisions as shown below :

STATEMENT SHOWING THE REVENUE DIVISIONS IN WARANGAL DISTRICT, 1981

Sl. No.	Name of Sub-division/ Revenue division	Name of Taluk	Name of Town (M)/(P)
1	2	3	4
1	Warangal	1 Warangal (U)	1 Warangal (M)

	Total	**12,846.0**	**4**	**1,083**	**989**	**94**	**15**	**5**

Note: 1 The district "Geographical Area" figures are as supplied by the Surveyor General, India.

2 The total of the area figures of taluks, will not tally with the district area figures because the former represent land use area and are derived from the figures supplied by the State Survey Department.

3 Villages shown under column 5 do not include the villages given under column 8.

MAJOR CHARACTERISTICS

Forestry*: The total area under forests in the district spread over the two forest divisions, namely, Warangal and Mahbubabad 3,137.13 sq. *kms. while its geographical area is 12,846.00 sq kms.* The forests of the district come under the category of tropical dry deciduous and tropical thorny forest types.

Till 1964 the division was spread over the whole revenue district Warangal and has rich and valuable tree growth. Subsequently from the protection point of view the Warangal division was bifurcated into Warangal and Mahbubabad forest divisions vide G.O.Ms. No. 2504 F&A (For-1) department dated 4-12-1963. In accordance with the above government order the forests of Mahbubabad and Narasampet taluks were brought under the administrative control of the newly formed Mahbubabad division and rest of the forest area mainly of Mulug, Warangal and partly Parkal taluks were placed under the jurisdiction of Warangal division with effect from 16-1-1964. The forest area once covered by Mangapet range of Palwancha division (Khammam district) was later on transferred to Warangal Division on 1-4-1969. Again the boundaries of Forest Division were re-organised based on the Revenue District boundary under six point formula in 1976-77. With the result the forest area of Jangaon and partly of Parkal taluks which were hither to under the control of Nalgonda Division and of Hyderabad Circle, were added to the Forest area of Warangal north division.

Minerals and Mining : The Warangal district mainly composed of rock types of granites. Parts of the district consists of Pakhals and relevant lateritic formations.

The granite rocks are being intruded by dolerite dykes, quartz veins (amethyst quartz) etc. The granite formations are exposed in the form of hills, hillocks and small outcrops They are found in different colours, grey, pink and dark grey. Phorpharitic (multi-coloured) granite is also available. The ordinary *granite available in the* district is used as road metal and building stone. The dolerite dykes are being used at number of places. This stone (black granite) is mainly used for memorials and in other decorative constructions. The stone is exported to Japan, Germany and other countries. The different colours of *granite available in the district are also praised for* their export quality. Besides this the other minor minerals such as brick earth and sand is available in plenty to meet the construction works in the district.

Major potential minerals are not available except laterite, amethyst quartz, low grade steatite and white clay. The laterite deposit at Advimallampally scattered in vast area occur in the form of pockets and lenses which are mainly confined to elevated places of that locality. This mineral is utilised in the manufacture of portland cement. Occurrence of amethyst quartz veins are found near and around Abdulnagaram (village) of ~~Jangaon~~ taluk. This mineral is used as semi-precious stone in jewellery. Low grade steatite occur in and around Dammannapet village of Warangal taluk. This is used in manufacture of pesticides and insecticides. White clay deposits are available in a vast area in the reserve forest of Madigudem (village) of ~~Narasampet~~ taluk. This mineral is used in ceramics, stoneware pipes and fire bricks industries. Occurrence of low grade iron-ore and Pakhal shales in reserve forests of Pakhals are noticed at different places. Both the minerals are not economical.

Only two Mining Leases were in force upto 1980 and both of them were non-working. In 1977 the powers were delegated to this Department to grant Quarry Leases and to collect the Mineral Revenue thereon.

Electricity and Power : Rural electrification has been undertaken in a big way during the decade from 1971 to 1981 and it was found to be essential for the economic development of the villages. As on 31-12-79, 748 out of 989 inhabited revenue villages were electrified forming 75.63% of the total villages in the district. The length of transmission lines is given below.

132 KV. line	356.8 KM.
33 KV. ,,	436.1 ,,
11 KV. ,,	3,462.0 ,,
L. T. line	7,328.0 ,,

* *Source* : District Forest Department

The power sold in the district category-wise during the year 1980-81 is detailed below :

	Category	Power sold during the year 1980-81 (KW)
1	Domestic	16,140,991
2	Non-domestic	6,394,647
3	Railway lighting	7,885,898
4	Industrial	7,365,764
5	Cottage Industries	462,103
6	Agricultural	68,100,999
7	Public lighting	1,668,659
8	General purpose	155,614
9	Temporary L. T.	17,875
10	H. T.	16,270,953
11	Temporary H. T.	87,855,839
	Total	212,319,342

Land utilisation*: The land utilisation statistics of the district as on 1981 are furnished hereunder:

Sl. No.	Land use	Area in Hectares	Percentage
1	Total Geographical Area	1,283,552	100·00
2	Forests	371,313	28·93
3	Barren and uncultivatable land	49,910	3.89
4	Land put to non-agricultural uses	69,682	5.43
5	Permanent pastures and other grazing lands	45,177	3.52
6	Cultivable waste	10,166	0.79
7	Other fallow lands	180,309	14.05
8	Miscellaneous tree crops and groves not included in net area sown	7,956	0.62
9	Current fallows	92,432	7.20
10	Net area sown	456,607	35.57
11	Gross area sown	544,101	..
12	Area sown more than once	87,494	..

Agriculture: Warangal is predominantly an agricultural district with large number of artificial lakes and river Godavari. The net area sown in the district during 1982-83 is 4,93 lakh hectares which accounts for 39.40 per cent of the total geographical area. The predominant crop grown in the district is paddy which accounts for 34% of the total cropped area. Pulses accounts for 23.52 and the cash crop accounts for 23.57% of the total cropped area.

Animal Husbandry : The livestock population in the district as per 71 & 77 censuses is detailed.

	1971 Census	1977 Census
Cattle	790,515	847,159
Buffaloes	275,622	315,624
Sheep	419,405	522,565
Goat	169,288	198,465
Pigs	31,947	38,929
Poultry	902,732	1,030,029
Total	2,589,509	2,952,771

Most of the cattle are of non-descriptive type and serve dual purpose i. e., ploughing and milk The average milk yield in cattle was only 2 to 4 litres per day and in buffaloes 2 to 6 litres per day.

During the year 1977-78 re-organisation of the department has taken place. Before re organisation each veterinary institution covered a bovine population of 19,000 and total livestock population of 45,430 whereas after re-organisation each veterinary institution covered a bovine population of 8,000 and livestock population of 16,000. The following programmes were executed during the decade in the district

1 Control of epidemics in various livestock

2 Treatment to ailing animals.

3 Castrations of scrub bulls.

4 Upgrading of local breed with artificial insemination. (Jersey to white cattle and Murrah to local buffaloes).

5 Fodder development.

6 Follow up of livestock supplied through various agencies like D.R D.A , S.C.B.C. Corporation. I T. D. A. and others

7 Propaganda work on management in health coverage etc.,

8 During the year 1981-82 frozen semen was started in 16 centres. It is proposed to open 50 frozen semen centres during the year 1982-83

*Source : Bureau of Economics and Statistics of A.P.

Fisheries : The district with 3,600 tanks of short seasonal, long seasonal and perennial waters, as also the reservoirs like the Pakhal, Ramappa, Laknavaram, Ghanpur and Silavagu and the Godavari at Eturnagaram and Mangapet is self-sufficient in its fishery requirements. Practically this district has neither import nor export of fish. There are about 700 tanks that are being maintained by the Fisheries department with an ayacut of above 40.47 hectares The total water spread area of these tanks comes to 25,900 hectares of which 6,475 hectares is effective water spread area. The rest of the tanks are under the control of respective Gram Panchayats.

There are four fish rearing farms at the following different places in the district with total nursery space of 31 cents.

1.	Fish Seed Farm	–	Hanamkonda
2.	Fish Seed Farm	–	Jangaon
3.	Fish Seed Farm	–	Ashoknagar
4.	Fish Seed Farm	–	Palampet

The above rearing farms are constructed long back by Panchayat Samithis (except fish seed farm at Hanamkonda) and handed over to the department. They are not in accordance with the norms required for the seed production or rearing in relation to breeders space, rearing space and nurseries. The most important handicap with the above farms is that though there is assured water supply, the area is also not sufficient to take up the seed production activities as per requirements. Hence it is proposed to establish a full fledged fish seed farm in the district under Kakatiya canal in an extent of about 19.42 hectares where the water supply is assured. The estimated cost of the farm is about 30 lakhs and the anticipated fish production will be more than one crore. There are 96 primary fishermen co-operative societies and one district fishermen co-operative marketing society of Warangal with a membership of 9,339 and paid up share capital amount is Rs. 98,457–00. Out of 96 societies 2 societies are exclusively registered for weaker sections and four for tribals.

During the year 1978-79 an amount of Rs. 15,800 was sanctioned to 20 Fishermen Co-operative Societies from N.C.D.C. for the purchase of fish seed, nylon yarn and for the lease of tanks. During the year 1980–81 an amount of Rs. 26,000/– from N.C.D.C. was sanctioned to Fishermen Co-operative Society, Jangaon. During the year 1979–80 an amount of Rs. 46,000/– was sanctioned to Weaker Sections Fishermen Co-operative Society, Kamareddipalli for purchase of nylon yarn, deepening of tanks and stipend for trainees trained at Inland Fisheries Training Centre, Warangal.

During the year 1979–80 an amount of Rupees 42,000 was sanctioned to two Scheduled Tribe Fishermen Co-operative Societies under Integrated Tribal Development Agency towards the cost of fish seed, cost of fish feeding, cost of nylon yarn and stipend for twenty tribal candidates at Inland Fisheries Training Centre, Warangal.

The department has a Inland Fisheries Training Centre at Warangal established during the year 1970. The centre aims to improve the efficiency of inland fishermen in fishing operations and the usage of latest techniques in seed production under employment of effective fishing gear. Three batches of trainees undergo the training for 3 months duration in a year. Thirty four batches have been completed successfully upto the end of 1980–81. The particulars of trainees trained upto 1980–81 are as follows :

1.	Stipendary trainees at Rs. 75/– P.M.	671
2.	Non-Stipendary trainees	46
3.	Scheduled Castes	16
4.	Scheduled Tribes	27

Industry : It appears that Warangal district is rather poor both in respect of large scale and small scale industries There are altogether five large and medium scale industries providing employment to 5,912 persons with a total investment of Rs. 4,337 lakhs in the district. With a total investment of Rs, 1,034 lakhs, 1,344 Small Scale Industries units have been commissioned generating employment to 9,318 persons. Under self employment programme, 255 industrial units and 88 business units were grounded for which the department had released 7.72 lakhs towards margin money loan. Under S. E. S. 340 schemes costing Rs. 76.28 lakhs were put on ground providing employment to 1,020 persons. A margin money of Rs. 7.68 lakhs was released for setting up of these sehemes.

22 units were sanctioned and an amount of Rs. 10,000/- was sanctioned towards power connection subsidy under Rural Artisans' programme, 4 units were sanctioned under Rural Artisans' programme with Rs. 11,250/- towards works-shed and subsidy. Tool kits worth Rs. 17,500/- were supplied to 108 rural artisans on 100% subsidy

under rural artisans programme 4 industrial co-operative societies were sanctioned. Managerial subsidy to a tune of Rs. 6,400 under Rural Artisans Programme 213 S. S. I. units were sanctioned with Rs. 84.66 lakhs under central subsidy scheme. An amount of Rs. 1.12 lakhs was provided to four units towards refund of sales tax, and interest free loan to a tune of Rs. 11.59 lakhs under New Incentive Scheme was provided to other four units. Under I.R.D.P. 440 artisans were assisted and this agency released subsidy to a tune of Rs. 12.83 lakhs.

Apart from this. the agency has given training to 1,911 rural unemployed youths (under *Trysem programme*) and an amount of Rs. 18.93 lakhs has been released towards stipend as detailed below.

Year	No. of candidates
1980-81	103
1981-82	751
1982-83	361
1983-84	318
1984-85	378
Total	1,911

Trade and Commerce : Marketing department operating as Liaison Department between the agricultural producer and the consumer had established marketing activity by bringing in regulated markets at the trade centres of Warangal, Jangaon, Mahbubabad, Kesamudram, Ghanpur and Parkal,

Subsequently the following thirteen centres were declared as having regulated markets namely Nekkonda, Narasampet, Cheriyal, Mulug, Eturnagaram, Thorrur, Ghanpur, Chitiyal, Govindaraopet, Illenda, Dornakal, Shayampet, Hasanparty.

Warangal distriet produces the commodities like paddy, jowar, maize, redgram, greengram, horsegram, blackgram, groundnut, tilseed, castor seed, cotton, chillies, coriander and onions.

The following table illustrates business transacted during the decade of 1971-80 in terms of arrivals of various commodities and their value at each of the marketing centres.

Value by Rupees in Lakhs

Transport: During 1971 to 1981, there has been two fold growth in the vehicular strength. There were a total number of about 2,000 vehicles on roll in 1971 whereas there were nearly 5,000 vehicles in 1981. During the decade nearly 135 additional buses have been introduced in different routes. The Andhra Pradesh Road Transport Corporation is mainly operating on almost all the passengers transport vehicles with four depots in the district with headquarters at Hanamkonda, Warangal, Narasampet and Jangaon. Wherever the A. P, S. R. T. C, is unable to cater the needs of country routes, i. e. cart tracks linking the interior villages private operators are catering the needs.

Under village link transport scheme introduced in 1979, the programme of extending passenger services to rural areas was briskly taken up and as many as 340 villages which were hitherto unconnected by transport facilities were connected by introducing of new routes and by rescheduling the existing routes. There are still many villages to be linked with passengers transport. Every effort is being made to reach the nook and corner of the district by road transport and to provide more transport facilities for the travelling public.

PLACES OF INTEREST

Places of Religious, Historical or Archaelogical importance: Places of religious institutions (temples) and mutts and of historical or archaeological importance in the district are presented in the following statement for the convenience of the reader.

STATEMENT SHOWING THE MONUMENTS/TEMPLES AND MUTTS IN WARANGAL DISTRICT

Sl. No.	Taluk	Name of the town/ village	Name of the Monuments/ Temples /Mutts
1	2	3	4
1	Mulug	1 Ghanpur	Temples and Sculptures of 13th century
		2 Anpalli	Cairns - Megalithic burials
		3 Mulug Road	Cairns - Megalithic burials
		4 Katachpur	1 Hindu Temples and Sculptures of 13th Century of Kakatiya style.
			2 Flakes, cover neolithics, Neolithic implements, Megalithic burials.
			3 Dolments - Megalithic burials.
2	Eturnagaram	Medaram	+ Sri Sammakka Saralamma Ammavaru
3	Warangal	1 Warangal	Shitab Khan's inscriptions
		2 Hanamkonda	Cairns -- Pre-historic burials
		3 Ailoni	Temple and inscriptions — Kakatiya Temple built during 12-13th Centuries
		4 Sidapur	Stone Circles-Megalithic burials
4	Ghanpur	1 Tatikonda	Fort
		2 Zafargadh	Fort
5	Cheriyal	Komaravelle	* Sri Mallikharjuna Swamy
6	Jangaon	1 Yellamla	Sri Bhairagi Raghavadas Mutt
		2 Pembarthy	Sri Bhairagi Jagannadhadas Mutt
		3 Nandikonder	Hindu Temples, inscriptions and sculptures of 13th century in Chalukyan style
7	~~Kodakondla~~	Pakhal	Lake and inscriptions and sculptures of 12th Century. The dam of the lake is 800 years old
8	Wardhannapet	1 Inole	* Sri Mallikharjuna Swamy
		2 Wardhannapet	Fort — said to have been built by Zafarudowla in 18th Century
		3 Alipur	Stone circles — pre-historic burials
		4 Kondiparti	Cairns — Megalithic burials
		5 Dongatogu	Cremlechs — Megalithic tombs
9	Maripeda	Narasimlapet	Sri Venkateswara Swamy
10	Mahbubabad	1 Kurvi	+ Sri Virabhadra Swamy
		2 Dornakal	Flakes, Cores & Neolithic

* Religious institutions which are having an income of Rs. one lakh and above.

\+ Religious institutions which are having an income of Rs. twenty thousand and above.

Places of Tourist Interest :

Warangal : Warangal city is the headquarters of the district of the same name and lies on the Vijayawada-Hyderabad section of the South Central Railway. It is 148 kms. by road from Hyderabad, the State Capital. Once the capital of great Kakatiya kingdom, Warangal earlier known as Orukallu or Ekasilanagaram, still retains its importance as the cultural centre of Telangana region of Andhra Pradesh. Like Rajamahendravaram of Andhra region which gave birth to Mahabharata in Telugu by Adikavi Nannaya, Warangal could claim equal importance of having created a landmark in Telugu literature through the great poet Pothana, the author of immortal Bhagavatam, the finest creation of classical Telugu. Next to Hyderabad, Warangal is the most important place in the Telangana region of Andhra Pradesh State. Warangal with its historic monuments, fort and temples with excellent piece of architecture attracts a wide variety of people including pilgrims, historians and archaeologists. There are several places of interest in the city and important places are as given below :

Thousand Pillar Temple : The thousand pillared temple at Hanamkonda, built by Rudradeva belongs to the period 1162–63 A.D. It is situated at a distance of 4 kms. from Hanamkonda chowrastha. It is the best example of architecture that flourished during the Kakatiya period. This temple dedicated to Siva, Vishnu and Surya, is starshaped. The shrines have no deities except for a 'Lingam' in one of them. The other interesting features of this temple are the richly carved pillars and lintels, the beautiful sculptures, the huge granite Nandi, which is a splendid specimen of a monolith. The Nandi figure measuring six feet in height presents itself in beautiful form with exquisitely chiselled ornaments and garlands.

Bhadrakali Temple : It is situated on the top of a hillock between Warangal and Hanamkonda. The main attraction of the temple is the stone image of the deity in human form in sitting posture wearing a crown with eight hands holding weapons. The height of the deity is 2.7 metres and width is 2.7 metres.

Warangal fort : It is located at 12 kms. distance from Hanamkonda. It was started by King Ganapathideva in 1199 A. D. and completed by his daughter Rudramadevi in 1261 A. D. It has two walls, the inner one being made of stone and the outer one is of mud wall. It is 56 feet high and 72 feet wide. Near the villages of Thimmapur and Narasimalingudem, 9.65 kms. south of Hanamkonda, traces of a third eastern wall with a circumference of 128 kms. is also visible. A large temple in the centre of the fort which was presumably under construction has been excavated. Four large, elaborately carved gateways called 'Kirti Stambhas' facing the four cardinal points mark the boundary of the original temple. In their design, the gateways are reminiscent of the 'Toranas' of the great stupa at Sanchi. The floor of the temple is beautifully polished and shines like a mirror.

Ranganathaswamy Temple : Popularly known as Kasibugga Ranganathaswamy, this temple at Warangal was originally a Siva temple. The idol of the present God rests on a high pedestal which indicates the original seat of a Sivalingam. To the north of the temple, there is a small spring which according to the legend is an Antharvahini (underground current) of the sacred river Ganga and therefore, the temple is called Kasibugga Ranganathswamy temple. The present idol of Ranganathaswamy was installed obviously after the downfall of the Kakatiyas and a local chief built the temple as per his wife's desire.

Shambhu Lingeswara or Swayambhu Temple : Before the advent of the Kakatiyas, a big temple dedicated to lord Shambhu Lingeswara with walls covering an area of about 10.36 sq. kms. was constructed in the place on which the present historical monuments are found. During the 13th century, A. D Kakatiya Ganapathideva and his daughter Rani Rudrama Devi built a fortress around the temple. Inside the fortress, Lord Shambhu Lingeswara temple with four gateways and great arches with elegant carvings though presently in ruins should attract the attention of all the tourists.

Padmakshi Temple : It was also constructed during Kakatiya region having religious importance. It is on the hillock. On the bottom there is pond called Padmakshamma gundam.

Pakhal lake : Situated in the revenue village of Pakhal in Narsampet taluk it was also constructed during the period of Kakatiyas about the year 1213 A D. There is a wild life sanctuary being developed by the forest department.

Ingurthi : Ingurthi, an ancient village of some historical significance, was under the reign of the Kakatiya Kings. A reservoir called the Gunti

Cheruvu, which is said to have been constructed by Kakatiya Prola (A.D. 1117) can still be seen in this village. The first Telugu weekly from Telangana, namely, the Telugu Patrika was started and edited from this place for some years.

Ghanapuram : It is located 22.5 kilometres north of Mulug, the taluk headquarters. A big tank with a catchment area of 64 sq. kms. known as Ghanapuram tank and a Siva temple are the important places in this village. Both these were constructed by the Kakatiya Kings. The place is also famous for an excellent variety of rice.

Kazipet : Kazipet is situated at a distance of about 14 kms. from Warangal. It is a big railway junction. This place is famous for the tomb of Afzal Shah Biyabani, the Qazi of Warangal during the time of Nizam Ali Khan Asaf Jah II. This place is also famous for the Urs held in honour of Afzal Shah Biyabani from the 21st to the 28th of Safar (June-July) when more than 10,000 people from all over India congregate. There are two inscriptions in the Dargah of Afzal Shah Biyabani. This place is also noted for the Christian festival of Lady Fatima.

Zafargadh: This village is situated about 40 kilometres south of Warangal city. It is an important historical village named after Zafaruddoula, a Subedar of the Golkonda rulers, who constructed an impregnable bastille for defence. Traces of fortifications can still be seen on the hills called the Virabhadra hill and the Narasimha Swami hill.

Ramappa Temple : The ancient Ramappa temple at Palampet in Mulug Taluk, 77 kms. from Warangal and reached by an easy communication system is a great tourist attraction. Ramappa temple aptly described as the "Brightest star in the galaxy of medieval temple architecture of the Deccan" and constructed during 1213 A. D. to 1234 A. D. by Recherla Rudra a subordinate king to Ganapathi Deva.

The pillars in the Ramappa temple made of black basalt are so exquisitely polished that they actually glisten like mirrors. The panels in the pillars are the finest examples of art and beauty. There is a Nandi (bull god) carved out of a single stone and luxuriously ornamented at the eastern portico of the temple. The sanctum sanctorum has a lingam erected on a high pedestal and at the entrance is an elaborately carved doorway.

Ramappa festival is celebrated on Magha Bahula Trayodasi and Chaturdasi (February - March) during Mahasivaratri. The temple attracts a large number of devotees.

CENSUS CONCEPTS

Rural and urban areas : It is customary to classify the population of every country at each census as Rural and Urban. Such a classification has considerable importance and is necessary from the point of assessing the differentials in the social, economic, cultural and demographic characteristics of the population. Hence, at the beginning of each census, the criteria for treating a place as a town i.e., urban are evolved and the areas are then classified according to the definition so evolved. The census definition of a town in this country was more or less the same from 1891 to 1941. The towns broadly comprised all municipalities irrespective of the population size and every other continuous collection of houses permanently inhabited by not less than 5,000 persons while provincial Directors of Census Operations having regard to the character and relative density of population, their importance as centres of trade decide them to be towns. In the application of this definition there was some variation from State to State according to the local conditions. It was only at the 1961 census that a fairly strict definition was sought to be applied throughout the country in order to determine a place as an urban unit. The same definition was followed at the 1971 and 1981 Censuses also. The Director of Census Operations, however, was given discretion to include places that had other distinct urban characteristics and to exclude undeserving cases in consultation with the State Government. The following criteria are adopted for treating a place as urban at the 1981 Census.

i) A minimum population of 5,000,

ii) Atleast 75% of the male working population is in non-agricultural pursuit.

iii) A density of population of atleast 400 persons per sq. km.

The urban criterion of 1981 varies slightly from that of 1961 and 1971 Censuses, in which the males working in activities such as fishing, logging, etc., were treated as engaged in non-agricultural and therefore contributed to the 75% criterion in 1961 and 1971 Censuses, whereas in the 1981 Census these activities are treated as on par with cultivation and agricultural labour for the purpose of this criterion.

The towns are distributed into six classes as detailed below :

Classification of towns	Population size
Class I	100,000 and above
Class II	50 000 – 99,999
Class III	20,000 – 49,999
Class IV	10,000 – 19,999
Class V	5,000 – 9,999
Class VI	below 5,000

The class I towns are termed as cities.

Standard Urban Areas : Besides classification of all places into rural and urban areas, two more concepts viz., Urban Agglomeration and Standard Urban Area were evolved from the 1971 Census. One of the difficulties in comparing the urban population and its characteristics between one census and another, apart from the changes in the list of certain units at each census, had been the change in the jurisdictions of the urban units from census to census. The concept of Standard Urban Area had been introduced at the 1971 census and same was followed in 1981 with a view to obviating this difficulty to some extent. The essentials of a Standard Urban Area are: (i) that it should have a core town of a minimum population size of 50,000, (ii) that the contiguous areas made up of other urban as well as rural administrative units should have close mutual socio-economic links with the core town and (iii) that there are probabilities of this entire area getting fully urbanised in a period of two or three decades. The idea is that it should be possible to provide comparable data for a definite area of urbanisation continuously for three decades which would give a meaningful picture. This replaced the concept of town-group which was introduced in the 1961 Census. The town-group was made up of independent urban units not necessarily contiguous to one another but were to some extent inter-dependent. The data for such town groups become incomparable from census to

census as the boundaries of towns themselves change and the intermediate areas are left out of account. Thus the concept of Standard Urban Area came to be developed for adoption at the 1971 Census. In Andhra Pradesh, 31 units have been selected for demarcating Standard Urban Areas. The necessary data will be compiled for these units also during the next two or three successive censuses in order to study urbanisation around a large nuclei. The Standard Urban Area is identified by the administrative units that it encompasses namely the city, the town and the villages. The boundaries of the Standard Urban Area are the administrative boundaries of the peripherial units.

Urban Agglomeration : Apart from town/city, the 1971 concept of Urban Agglomeration has also been adopted for the 1981 Census. An Urban Agglomeration constitutes :

a) A city with continuous outgrowth (the part of outgrowth being out of the statutory limits but falling within the boundaries of adjoining village or villages);

b) One town with similar outgrowth or two or more adjoining towns with their outgrowths as in (a);

c) A city and one or more adjoining towns with their outgrowths all of which form a continuous spread. There are only 4 urban agglomerations in the State viz., Vishakhapatnam, Rajahmundry, Vijayawada and Hyderabad.

Census House : A census house is a building or part of a building having a separate main entrance from the road or common courtyard or staircase etc., used or recognised as a separate unit. It may be inhabited or vacant.

Household : A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be one member household, two member household or multi-member household. For census purposes each one of these types is regarded as household. Again, there may be household of persons related by blood or household of unrelated persons or even of mixed type. Examples of unrelated households are boarding houses, hostels, residential hotels, orphanages, rescue houses, ashrams, etc. These are called institutional households.

Scheduled Castes/Scheduled Tribes : Scheduled Castes and Scheduled Tribes are those notified under Article 341 of the constitution according to which the President may with respect to any State or Union Territory and where it is State after consultation with the Governor thereof, by public notification, specify the castes, races or tribes which shall for the purpose of the constitution be deemed to be Scheduled Castes/Scheduled Tribes in relation to that State or Union Territory, as the case may be.

For the purpose of 1981 Census, the Scheduled Castes and Scheduled Tribes orders (Amendment) Act, 1976, notified under the Government of India, Ministry of Home Affairs. Notification No. BC 12016/34/76-SCT-V dated 27-7-1977 was adopted. A copy of the list of Scheduled Castes and Scheduled Tribes in Andhra Pradesh is given under the note on Primary Census Abstract.

Literates: A person who could both read and write any language with understanding was treated as a literate at the 1981 Census. A person who could merely read but could not write or vice versa was not treated as literate. The test for reading was ability to read any simple letter either in print or in manuscript. Children aged 4 years and below were treated as illiterates. The test for education was that a person should have passed a recognised written examination or examinations as proof of educational level attained. The highest examination passed was taken as the level of education.

Worker : The definition of work adopted in 1981 Census is as follows :

> "Work may be defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work".

In the concept of work, a significant departure is made at the 1981 Census. At the 1971 Census, the main activity of a person was initially enquired according as he spent his time basically as a 'worker', engaged in production of goods and services or as a non-worker. For regular work in organised sector, the reference period was the week prior to enumeration, and for seasonal work such as agriculture, etc., the last one year. Persons engaged atleast for a day in regular (non-seasonal) work during the preceding week were treated as

workers. The work of a person who was basically a non-worker, such as a student, or housewife but had made some marginal contribution to work was classified as secondary work and this was recorded separately.

At the 1981 Census it was considered desirable to have a detailed profile of the working population as possible, maintaining the comparability with 1961 and 1971 data. An attempt was made to find out if a person had done any work at all during the last year. It will thus be seen that the questions on economic approach have been designed to distinguish all the workers, regular or seasonal and non-workers with reference to the last one year prior to the date of enumeration. It was intended to find out how many had worked for 183 days or more i. e., 6 months or more and information regarding the secondary work done by regular workers and also the marginal work done by the non-workers was collected. It was felt in the present context that the usual status of worker was more appropriate when compared with the approach of current status of worker followed earlier. The broad classification of workers is explained under the note on the Primary Census Abstract.

Non-workers: All others who did not do any productive work irrespective of whether they derived some income such as through pension, rents etc., or did not derive any income were classified under category (X) non-workers.

The non-workers are divided into the following seven categories;

1. Household duties i. e., all those persons basically engaged in unpaid home duties doing no other work;
2. Students i. e., all full-time students or children attending school;
3. Retired persons or a rentier i. e., a retired person not employed again or rentier or royalty receiver or any other person of independent means for securing which he does not have to work and who does no other work;
4. Dependent i. e., an infant or child not attending school, a person permanently disabled from working due to illness or old age or if able bodied who have no other activity and who are not seeking any work either, but are purely dependent;
5. Beggars, etc., i. e., beggars, vagrants or an independent woman without indication of source of income and those of unspecified source of subsistence and who are not engaged in any economically productive work;
6. Institutional inmates i. e., a convict in a jail or an inmate of penal, mental or charitable institution; and
7. Other non-workers — all non-workers who may not come under any of the above six categories.

Marginal workers: A significant feature of the 1981 Census was the collection of information on marginal workers who had done some work for a period of less than 6 months during the reference year prior to census taking. At the 1971 Census though this concept was not introduced there was a comparable category called non-workers with secondary work.

HISTORY OF DISTRICT CENSUS HANDBOOK

District manuals compiled and published prior to 1905 by the erstwhile composite Madras Government contained not only particulars of items of more or less a permanent character such as physical characteristics, history, religion and ethnography, but also a few statistical tables including those relating to population which became obsolete within a few years of publication. Later, the Madras Government replaced the District manuals by another publication viz., the District Gazetteer consisting of two volumes A and B. Volume A contained descriptive and such general tables as might be necessary to explain the text and Volume B contained detailed statistics. It was decided that Volume B should be brought out periodically after each Decennial Census so that they contain the latest statistics. Volume A was published for some districts between 1905 and 1927 in the composite Madras State. The publication of Volume A was discontinued in 1927. Volume B was published for all the districts of the composite Madras State between 1906 and 1915. The publication of Volume B was also stopped after 1931 Census. Due to the world war II, they were not published after the 1941 Census.

Similarly in the erstwhile Hyderabad State also the Gazetteer volumes were brought out for some of the districts.

The scheme of publication of revised District Gazetteers was started in 1958 by the State Governments and in this State, the Gazetteers of all the districts except Hyderabad and Ongole have been published.

The Village Statements: Apart from the District Manual and Gazetteers the Census data upto village level used to be published in a brochure called 'Village Statement' for each District immediately after every census from 1872 upto 1941.

The village statements presented only the number of occupied houses and population by religion of each village and town. From 1951 Census, the Village Statements were replaced by the District Census Handbooks.

District Census Handbooks : Sri R. A. Gopala Swamy, I. C. S., the then Registrar General, India and Ex-officio Census Commissioner of India pioneered the idea of compiling the District Census Handbooks for each district and introduced the same in 1951 Census. This was envisaged as part of the plan intended to secure an effective method of preserving the census records prepared for areas below the district level. He proposed that all the District Census Tables and Census Abstracts prepared during the process of sorting and compilation, should be bound together in a single manuscript volume called the 'District Census Handbook' and suggested to the State Governments that the Handbook with or without the addition of other useful information relating to the District should be printed and published at their own cost, in the same manner as the village statistics of the last censuses. This suggestion was accepted by most of the State Governments. Both the composite Madras State and the erstwhile Hyderabad State accepted this suggestion and published the District Census Handbooks for each district at their own cost. In the erstwhile Hyderabad State, the District Census Handbooks were brought out in two parts, Part I containing the administrative statistics and Part II the census tables whereas in composite Madras State the Handbooks were brought out in one single volume for each district.

Pattern of District Census Handbooks at 1961 : At the 1961 Census, the scope of the District Census Handbooks was enlarged significantly by Sri Ashok Mitra, I. C. S., the then Registrar General, India. District Census Handbooks of 1961 of Andhra Pradesh included four parts. The first part contained narrative description of the physical features, history, social, economic and demographic characteristics, the progress made in each field of administration over the past decades and a brief gazetteer of places. The second part contained the administrative statistics of various departments. The third part contained the 1961 Census tables viz., General population tables, economic tables on Scheduled Castes and Scheduled Tribes The fourth part consisted of village and town directory which was the most vital part

of the Handbook, giving the villagewise and town-wise primary census abstract i. e., particulars of area, households, population, scheduled castes, scheduled tribes, literacy, broad categorisation of working population, etc. Important amenities such as educational, medical, public health and communication facilities available were also indicated against each village and town. Nine such tables containing village-wise particulars such as irrigation sources, important crops raised, value of land, co-operative societies, industrial establishments, police stations, list of skilled craftsmen, etc., were given after village and town directory. A statement on fairs and festivals in the district was given at the end of the volume. All these four parts were bound in a single volume and published at the cost of the State Government.

Pattern at 1971 Census : At the 1971 Census it was decided to enlarge the scope, in view of its usefulness to the official users of the census data and the increased demand among the public. There was some delay in the publication of District Census Handbooks at 1961 Census due to two reasons - 1) inadequate printing facilities and 2) delay in the preparation of District Census Handbook which contained four parts. In order to avoid delay in the publication and to make available the more important data to the planners at the earliest, the District Census Handbook was prepared in 3 parts viz,, Part A, Part B and Part C as shown below.

Part - A : Village and Town Directory

Part - B : Village and Town Primary Census Abstract

Part - C : Administrative Statistics and Report

Parts A and B were bound in a single volume and were published for all the districts as early as in 1974. However, the printing of Part C was given up.

Pattern at 1981 Census : At the 1981 Census, the format of village directory and statements of town directory are almost similar to those adopted for 1971. The District Census Handbook of 1981 Census comprises of the following two parts brought in single volume, the grouping of which would enhance the value of publication as the data given therein are closely interrelated.

Part A : Analytical note

Part B : Village and Town Directory and Village and Town-wise Primary Census Abstract

It has been decided not to go in for administrative statistics that is part - C as it was our experience during 1971 Census that there was inordinate delay in collecting the administrative statistics pertaining to various departments with the result that the publication of this part of District Census Handbook was dropped in Andhra Pradesh State. Other reason for dropping the publication is that administrative statistics, would be available to the data users in the publications of the State by Bureau of Economics and Statistics and the concerned departments.

The formats of village directory and of seven statements on town directory are on the same pattern canvassed in 1971 Census except for a few additional columns. These additional columns are introduced to throw more insight into the infrastructure of the villages and towns. A feature of 1981 pattern is the restructuring of all the amenities except power supply in the villages and to bring them together, with the corollary that in case any amenity is not available in the village, the distance of the nearest place where the facility is available is presented. Similar method is followed in respect of towns where educational and medical facilities are not available. While presenting the additional columns of Town Directory, the Minimum Needs Programme of the Planning Commission is kept in view. The scope of village directory, town directory statements and primary census abstract along with the codes used under each column are explained hereunder.

Scope of Village Directory : As was done in the past, the village directory has been prepared for all the villages in the State and these are presented taluk-wise in the District Census Handbook, (D. C. H). For convenience of references, an alphabetical list of villages in respect of each taluk precede the village directory for that taluk. This is done for easy location of any village in the directory since the information is arranged in ascending order of the location codes of the villages.

In the village directory, various amenities and other data have been indicated by codes. These include, area of the village, total population with number of households at 1981 Census, availability of amenities such as educational, medical, drinking water and P & T facilities, communication facilities, type of approach to village and the distance of nearest town, power supply and land use particulars. There are 20 columns in the village directory covering the above aspects.

Columns 1 to 3 relate to the location code number, name and total area of the village. The area given under column 3 is as per the data collected from the State Survey Department. Wherever the figures are not available from the State Survey Department, the figures furnished by the Tahsildars have been adopted. Cols. 4A and 4B provide the number of households and population of the village as per 1981 Census. Columns 5 to 11 and 13 list out the basic amenities available in the village such as educational, medical, drinking water, postal, day of the market, communications, approach to the village and electricity.

In order to indicate the food habits, information on the staple food of the majority during the major portion of the year was collected under column 14. Wherever it was difficult to clearly determine a particular grain as staple food, the combination of grains mainly used as staple food has been indicated.

Columns 15 to 19 pertain to the land use pattern in the village. The extent of forest area has been given in column 15 while in columns 16 and 17 the extent of cultivated area in the village has been given. The extent of irrigated area together with different irrigational sources has been indicated in column 16. The extent of culturable waste has been shown in column 18 while the area not available for cultivation such as village site, road and railways or underwater, etc., has been indicated under column 19.

The concepts of various types of land use given under each of the columns 15 to 19 are explained below :

1. Forests (Col. 15) : These include all actually forested areas and the lands classed or administered as forests under any legal enactment dealing with forests whether State owned or private. If any portion of such land is not actually wooded but put to some agricultural use, that portion is included under the appropriate heading of cultivated or uncultivated land.

2 Cultivated area with break-up irrigated and unirrigated (Cols. 16 & 17) This includes the land under the following three categories.

(i) Net area sown :

The net area sown represents the area sown to crops counting areas sown more than once in the same year, only once.

(ii) Other fallows :

This includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years. The reasons for keeping such lands fallow may be either due to poverty of the cultivators or inadequate supply of water or malarial climate or silting of canals or rivers or unremunerative nature of farming, etc.

(iii) Current fallows :

This class comprises cropped areas which are kept fallow during the current year. If any seedling area is not cropped again in the same year, it is also treated as current fallow.

3. Culturable Waste: (Column 18) This includes the land under the following three categories.

(i) Permanent pastures and other grazing lands :

These cover all grazing lands whether they are permanent pastures and meadows or not. Village common and grazing lands within forest areas are included under this head.

(ii) Miscellaneous tree crops, groves not included in the area sown :

Under this class is included all cultivable land which is not included under net area sown but is put to some agricultural use. Lands under casuarina trees, thatching grass, bamboo bushes and other groves for fuel, etc., which are not included under 'Orchards' are classed under this category.

(iii) Culturable waste :

This includes lands available for cultivation but not taken up for cultivation or abandoned after a few years for one reason or other. Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. They may be assessed or not assessed and may lie in isolated blocks or within cultivated holdings. Land once cultivated but not cultivated for five years in succession is also included in this category.

4. Area not available for cultivation. (Col. 19) : This includes the land under the following two categories.

(i) *Land put to non-agricultural uses:*

All lands occupied by buildings, roads and railways or underwaters, e. g., rivers and canals and other lands put to uses other than agricultural.

(ii) *Barren and uncultivable land :*

This covers all barren and uncultivable land like mountains, etc., i.e., which cannot be brought under cultivation unless at a high cost whether such land is in isolated blocks or within cultivated holdings.

Column 20 is for recording remarks, if any, on matters like place of religious, historical or archaeological interest and for information on the number of copies of newspapers circulated in the village, and the number of motor cycles/scooters, cars/jeeps and tractors available in the village.

All the above particulars are based on the data received from the concerned departments like education, medical, postal and electricity and also from the Tahsildars concerned.

In the Appendix to the village directory taluk level totals of the amenities have been furnished which gives the picture for the district as a whole. At the 1981 Census, additional items viz., total population and number of households and approach to village have been introduced. Information on population and number of households will be useful as ready reference for analysing the data.

Item on communications has been singled out to spell in terms of availability of the public transport system. This is intended to see whether the village is served by any mode of transport such as bus or rail or waterway. It is against this background that the item on approach to village has been listed separately. This refers to road, etc., leading to the village and is to indicate whether the village is approachable both in fair and foul weather and whether it is inaccessible for all time or only some time in the year. Adult literacy class/centre under item on 'Education' and primary health centre and community health worker under item 'Medical' of village directory are included to indicate statistics on the Minimum Needs Programme of the Planning Commission.

Scope of Town Directory : There are seven statements in the Town Directory which include several particulars relating to the towns arranged as per the alphabetical order of their names. These statements are almost similar to those adopted in 1971 Census except for a few additional columns. The titles of the statements are as follows :

Statement I : Status and growth history

Statement II : Physical aspects and location of towns, 1979

Statement III : Municipal Finance, 1978-79

Statement IV : Civic and other amenities, 1979

Statement IVA : Civic and other amenities in notified slums, 1979

Statement V : Medical, Educational, recreational and cultural facilities, 1979

Statement VI : Trade, Commerce, Industry and Banking, 1979.

With a view to facilitate analysis of data, a few new columns have been introduced. The column-class of town in every statement is a significant addition. By taking the class of town into consideration the infrastructure of amenities and facilities available in urban areas can best be analysed. The addition of civic administrative status in statements III and IV and population in statements IV and V also serve the same purpose. The formats of Town Directory have been devised to suit the Minimum Needs Programme of the Planning Commission. As a sequel to this programme, the columns scheduled castes and scheduled tribes population in statement IV and Adult Literacy Classes/centres in statement V are identical.

In case such of the amenity as Fire Fighting Service in statement IV the Educational Facility in statement V is not available in the town, the name of the nearest place if in the same district or the name of the nearest district if in the same state or other state where available along with its distance from the referrent town has been given. This is a new feature of 1981 Census as it is necessary to identify the areas that have no specific facility in the district.

Statement VII i. e., population by Religion and Scheduled Castes/Scheduled Tribes in towns of 1971 census was discontinued at the 1981 Census and a new statement IVA has been introduced to explore the possibility of civic and other amenities available in notified slums in Class I and class II towns only.

The following four places are urban areas in Warangal District at the 1981 Census.

1. Dornakal
2. Jangaon
3. Mahbubabad
4. Warangal

Of these four places, Jangaon and Warangal are municipalities and Dornakal and Mahbubabad are panchayat towns.

Warangal, Mahbubabad, Jangaon and Dornakal were classified as towns from 1901, 1931, 1941 and 1951 respectively.

None of the towns in this district has been treated as Urban Agglomeration. Warangal city with some of its surrounding villages as given below is treated as standard Urban Area in this district.

Standard Urban Area	Component units	
	Urban	Rural
1	2	3
Warangal	1 Warangal (M)	1 Madikonda (R)
		2 Waddepalle (R)
		3 Kumarpalle (R)
		4 Gorrekunta
		5 Warangal Fort (R)
		6 Kadipikonda
		7 Gopalpur
		8 Enmamula

Warangal is the class I town, i. e., town with a population of one lakh and above. There are no Class II towns i. e., with a population of 50,000 to 99,999. Jangaon and Mahbubabad are Class III towns whose population ranges from 20,000 to 49,999. Dornakal is the Class IV town the population of which ranges from 10,000 to 19,999. There are no Class V and Class VI towns i. e., towns with a population of 5,000 to 9,999 and less than 5,000 respectively in the district. The urban population of the district is 396,474 persons constituting 17.24% of the total population. The corresponding urban population in 1971 was 251,249 persons constituing 13.42% of the total population of the district. Warangal, the district headquarters town, with a population of 335,150 persons and an area of 54.98 sq. kms. is the largest town in this district from the point of view of population and area.

Statement I : Status and Growth History

This statement provides basic information on civic status, population with decadal growth rate from 1901 to 1981, density for 1981 Census and sex ratio from 1961 to 1981 Censuses of each town in columns 2 to 19.

In this as well as in all other Town Directory Statements, columns 1 & 2 relate to serial number and class, name and civic administrative status of the town. Class of town has been introduced to facilitate analysis of Town Directory data at the State and all India levels. This is presented according to 1981 population of the core town as per the population size classification.

Population	Class
100,000 and above	I
50,000 – 99,999	II
20,000 – 49,999	III
10,000 – 19,999	IV
5,000 – 9,999	V
Below 5,000	VI

The civic administrative status of the town is indicated in brackets by abbreviated letters like 'M' for Municipality and 'P' for Panchayat. The location code number under Col. 3 for the town was framed to follow the alphabetical order of the towns in the district. This also facilitates easy location of the town in the map. The name of taluk where the town is located is given to facilitate analysis of data at State and all India level. Area in sq. kms. and number of households including houseless households for each town is included in the Town Directory for the first time in 1981 Census. The population of the town with decadal growth rate from 1901 Census to 1981 is given in columns 7 to 15. The percentage growth rate is indicated below the population in brackets. Density for 1981 is a new Column (col. 16) introduced to facilitate analysis of Town Directory data. It has been calculated taking into account the area and the population of 1981 Census of town and presented per sq. km. Sex ratio from 1961 to 1981 censuses has been given in Cols 17 to 19. This is also a new addition to facilitate analysis of Town Directory data. Sex ratio defined here is number of females per 1,000 males.

All the towns in this district except Warangal have a continuous and steady growth in their population. There was an unusual growth in the population of Warangal during the decade 1901 to 1911 and a decrease during the decade 1911 to 1921 due to the epidemic of influenza at that time throughout the Telangana area

Of the four towns in the district, Warangal is the largest town having an area of 54.98 sq. kms. Next to it comes Mahbubabad (17 61 sq. kms.)

Warangal municipality with an area of 54.98 sq. kms. records the highest density of 6,096 persons per sq. km. as against the district average density of 179 persons per sq km.

Statement II: Physical aspects and location of towns, 1979

This statement has 12 columns and depicts physical aspects and location of towns in the district. The asterisk mark in Col. 3 indicates that the data published in Statistical supplement to part II of the Andhra Pradesh Gazette for the year 1978 has been given. The rainfall for the rest of the towns and maximum and minimum temperature under Columns 4 & 5 for all the towns recorded in 1971 Census were given. If this information was not available for any town, then the particulars available for the nearest town have been given against such town.

The district has a satisfactory net work of road and rail communications. All the four towns are connected by buses. The broad guage line of Secunderabad to Delhi and Vijayawada passes through the district. All the four towns in the district are directly connected by rail communication.

There is no navigable river/canal in the district for providing cheap navigational facilities.

Statement III: Municipal Finance, 1978-79

The data for inclusion in this statement was obtained from the respective statutory and non-statutory bodies from their budgets and accounts.

The statement shows that no town has an excess of expenditure over income. In all the towns the amount spent on public health and conveniences and public works vary from 13.84 to 25.38% and from 11.73 to 31.52% respectively in their total expenditure. For public institutions like schools and libraries the amount spent by Warangal town is 0.84% of total expenditure. The remaining towns Dornakal, Jangaon and Mahbubabad have spent nothing from their incomes.

Statement IV : Civic and other amenities, 1979

As the title itself reveals, this statement deals with the facilities provided to the people in urban areas of the district.

The most striking feature is the availability of facility of sewerage and open surface drains in all the towns. All the towns have protected water supply. Of the four towns. only Warangal city has the facility of fire fighting service.

All the four towns have electric supply for domestic as well as industrial purposes.

In Andhra Pradesh domestic service includes supply of energy for lighting, fans and domestic purposes in domestic premises and supply in poultry farming units up to 100 birds. Industrial service means supply for purposes of manufacturing, processing and/or preserving goods for sale, rice mills, oil mills, flour mills, ginning mills, decorticating mills, dal and gram mills, stone crushers, water works and sewerage pumping stations operated by local authorities or Government departments or Co-operative house building societies and pumpsets of railways for whatever purpose they may be used. Commercial service includes the supply of energy for lights, fans for non-domestic and commercial purposes. Road lighting service includes supply of energy for lighting on public roads, streets, thorough fares including parks, markets. cart stands, bridges and for traffic signalling. Supply of energy to places of worship like churches, temples, mosques, gurudwaras, educational institutions, student hostels, municipal guest houses, T. Bs, circuit houses of the Government, charitable institutions and recognised service institutions are included in 'Others'.

Warangal has the highest number of industrial (600), commercial (4,956) connections and road lighting points (3,975) followed by Jangaon.

Statement IV A: Civic and other amenities in notified slums, 1979

This is a new statement on civic and other amenities provided to the people living in notified or recognised slums in Class I and II towns. Since the magnitude of slum is greater in respect of Class I and II towns, presentation of data on slums is limited to class I and II towns only. Warangal is the only class I town and there is no class II Town in the district.

Statement V : Medical, Educational, Recreational and Cultural facilities in towns, 1979

In this statement, the magnitude of facilities on medical, educational, recreational and cultural aspects with reference to population of 1981 has been detailed in respect of the various towns in the district. All the towns in the district have hospitals and all of them together have 41 medical institutions which include hospitals, dispensaries, T.B. clinic, maternity and child welfare centre and leprosy hospital. The total bed strength available in all the 41 medical institutions is 1.215 to cater the medical needs of the entire urban population of 396,474 persons in the district.

Institutions covering all systems of medicine have been included in the statement. Warangal town has a bed strength of 1,056 constituting of 86.91% of the total bed strength available in all the urban areas of the district.

There are two Medical Colleges, one Engineering College and one Polytechnic College at Warangal.

There are 9 Degree Colleges, eight in Warangal and one at Jangaon.

There are 13 Junior Colleges or Higher Secondary Schools, 57 Secondary or High Schools, 90 Junior Secondary or Middle Schools and 104 Primary Schools in all the towns put together in the district. A different method has been adopted in presenting the number of educational institutions. Composite schools like middle schools with primary classes or secondary schools with middle classes have been included in the number of primary and middle schools respectively. For example, if in a town there are two primary schools upto say class IV and one high school from class I to class X, the number of primary schools in the town is given as three and that of middle school as one and secondary schools as one even though there are physically only three educational institutions. Again a composite school having classes up to class XII has been divided as shown below :

Class I to IV : Primary
Class V to VIII : Middle
Class IX to X : Secondary
Class XI to XII : Higher Secondary

Thus the number of educational institutions physically existing within a town has not been presented but has been presented by the grouping of the classes in the institutions and treating each group as a school of its kind. This grouping holds true irrespective of educational institutions they belong to. For instance, the grouping marked as Higher Secondary i.e., Class XI and XII may physically belong to a college but for the purpose of town directory these two classes put together constitute one unit of a Higher Secondary School and the rest of the college has been treated as a college.

There is only one stadium in the district at Warangal town. Regarding recreational and cultural aspects there are 21 cinema halls, 6 auditoria and 13 public libraries/reading rooms in all the four towns put together.

Statement VI : Trade, Commerce, Industry and Banking, 1979

Warangal district is one of the backward districts in respect of major industries. The Azam Jahi Textile Mill is the important large scale industry in the district located in Warangal town. There are small scale industrial units in the district. The important are, manufacturing of Barium Salt unit in Dornakal, leather tanning units at Warangal and Jangaon, bone crushing unit, Indian Hume Pipe Company and saw mills spread over Warangal, Mahbubabad and Jangaon. Manufacture of furniture and other wood product units, bicycle assembling unit, Sadhana Paints factory, Steel trunk and plastic bangles manufacturing units are located in Warangal town. There are two industrial estates one at Warangal and other at Jangaon, to promote the industrial activity of the district. In addition to these industries, cottage and village industries are well spread over the district.

The district is served by a net work of 33 banks of which 24 are in Warangal, 4 each in Jangaon and Mahbubabad and one at Dornakal.

Hundred and sixty eight Agricultural Credit Societies and 88 Non-agricultural Credit Societies are serving the total urban population of the district.

PRIMARY CENSUS ABSTRACT

The Primary Census Abstract provides the most important statistics relating to residential houses, households and population and its characteristics down to the village/ward levels in rural/urban areas respectively. The Primary Census Abstract and some other tables till the 1971 Census, were generated by breaking the Individual Slip pads and sorting them manually. As a distinct departure from this procedure, the system of 1981 Census tabulation avoided breaking of the pads and manual sorting of the Individual Slips. The data on Primary Census Abstract was obtained by compilation of data available in Part-II of the Household Schedule, namely Population Record.

Primary Census Abstract of 1981 Census has been presented on the following aspects for each revenue village in respect of rural areas and for each ward/locality/block of a town in urban areas.

1. Location Code number and name of village/town and area.
2. Total number of occupied residential houses and total number of households.
3. Total population and its sex breakup.
4. population of Scheduled Castes and Scheduled Tribes by sex breakup.
5. Literate persons by sex.
6. Total main workers (I to IX categories) and the breakup of the workers into four broad categories, viz. :

Category I : Cultivators

Category II : Agricultural Labourers

Category V (a): Household Industry

Category III, IV, V (b) & VI to IX : Other workers and also the marginal workers and non-workers by sex.

The column 'Marginal Workers' is an addition to the Primary Census Abstract in 1981 Census and was not there in the previous censuses. The marginal worker is defined as a person who has worked in any economic activity for less than 183 days or 6 months in a year Thus he would be basically classified as a non-worker for the major part of the year.

While presenting the data in the Primary Census Abstract, villages and towns have been arranged in the ascending order of their L. C. Nos. The wards in each town have also been arranged similarly. The uninhabited villages and villages fully included in a town have been indicated accordingly in the rural Primary Census Abstract. In case of villages which are partly included in towns the word 'Rural' has been added in brackets after the name of the village and the particulars relating to the rural portion only have been presented against such villages. An alphabetical list of villages together with their respective L. C. Numbers is given at the beginning of each taluk, which helps the reader to locate the village for which data on the Primary Census Abstract is required.

The basic characteristics of such of those persons who were alive at the sunrise on 1st March, 1981 whether they lived in normal residential houses or huts or in institutions like hospitals, hostels, asylums, boarding houses, hotels, etc., or houseless persons like the wandering tribes, pavement dwellers have been presented in 28 columns of the Primary Census Abstract.

As per the 1981 Census count the population of Warangal district is as follows:

	Persons	Males	Females
Total	2,300,295	1,171,482	1,128 813
Rural	1,903,821	966,467	937.354
Urban	396,474	205,015	191,459

Cols. No. 1 & 2 indicate L.C. No. and name of village/town/ward. Location Code is a device by which every village or town in a taluk of every district in a State is identified by a combination of numbers. Districts in the State are serially numbered in a clockwise direction starting from Srikakulam district and ending with Nalgonda district. In this process Warangal district was allotted L.C. No. 21. Likewise the taluks in each district were given numbers serially in a clockwise order and the villages in each taluk were assigned serial numbers in serpentine order. Unlike the

districts, taluks and villages, the towns in each district were given numbers in alphabetical order. L.C. Nos. of villages were given in Arabic numerals while those of towns in Roman numerals.

Col. 3: This column shows the area of villages in hectares while the area of town is given in sq. kms. based on the information furnished by the respective State agencies. Where the area of a particular village/town was not available, the fact was noted as N.A. against that village/town. The area of all the villages and towns put together may not be equal to the area of the taluk since the area of the taluk includes area of villages, reserve forests, rivers and hills within the taluk. Rural area of a taluk presented in P.C.A. is obtained by deducting urban area from the total area of the taluk as furnished by the State Survey Department. Similarly, the rural area of a district can be obtained by deducting the total urban area of all the towns from the total area of the district. The area figures of the districts in the State are those supplied by the Surveyor General of India. Hence the total area of all the taluks in a district put together may not tally with the district area figures.

Col. 4: Number of occupied residential houses in a village/town includes partly residential houses also.

Col. 5: This column includes houseless households and institutional households as well.

Cols. 6 to 8: Total population includes houseless and institutional population with sex break up.

Cols. 9 to 12: Under these columns the population of S.Cs. and S.Ts. by sex is given. A copy of the list of S.Cs. and S.Ts in Andhra Pradesh as notified in Presidential Order No. BC 12016/34/76-SCT V dated 2-7-1977 is appended below.

31 Valmiki (in the Agency tracts)
32 Yenadis
33 Yerukulas

Cols. 13 & 14: Literate persons are shown under these columns. A person who can both read and write with understanding in any language is taken as literate. A person who can merely read but cannot write is not a literate. All children of the age of 4 years or less are treated as illiterate even if the child is going to school and may have picked up reading and writing a few odd words.

Cols. 15 to 28 : At the 1981 Census, population has been broadly divided into three sections based on main activity viz., workers, marginal workers, non-workers Their details are shown under these columns.

The definitions and concepts adopted in the economic classification of population at the 1981 Census are given under item Analytical Note.

Work : Work is defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work, A man or a woman who is doing only household duties or making something only for domestic consumption (and not for sale) is not doing any work in census terminology. The reference period is the one year preceding the date of enumeration. Persons who had worked for 183 days or more, in other words worked 6 months or more are classified under cultivator, agricultural labourer, household industry and other workers according to the nature of work one did. Such of those persons who had worked for less than 183 days or 6 months are shown as marginal workers.

Cultivator : For purposes of census a person is working as cultivator if he or she is engaged either as employer, single worker or family worker in cultivation of land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes supervision or direction of cultivation.

Agricultural labourer: A person who works in another persons land for wages in money, kind or share is regarded as agricultural labourer. An agricultural labourer has no right of lease or contract on land on which he/she worked.

Household Industry : Household industry is defined as an industry conducted by the head of the household himself/herself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The large proportion of workers in a household industry should consist of members of the household including the head. The industry should not be run on the scale of registered factory which would qualify or has to be registered under the Indian Factories Act.

Other Workers : All workers who are not cultivators or agricultural labourers or in household industry are other workers. The type of workers that come under this category include factory workers, plantation workers those in trade, commerce, business, transport, mining, construction, political or social work, all government servants, municipal employees, teachers, priests entertainment artists, lawyers, barbers, dhobis etc.

According to the 1981 Census there are 431,339 occupied residential houses and 457,763 households in Warangal district compared to 342,639 residential houses and 376,285 households in 1971 registering an increase of 25.89% in number of residential houses and 21.65% in number of households.

The total number of persons returned at the 1981 Census in Warangal district is 2,300,295 as against 1,870,933 in 1971 Census thus recording an increase of 22.95% as against the states growth rate of 23.10%. The proportion of rural and urban population to the total population in the district works out to 82.76% and 17.24% respectively in 1981 Census compared to 86.57% and 13.43% in 1971 Census. There are 964 females per every 1,000 males at the 1981 Census when compared with State index of 975 females per 1,000 males. The ratio of 956 females per every 1,000 males was recorded at 1971 Census.

Warangal district returned 541,618 literates at 1981 Census forming 23.55% of the total population of the district compared with 338,837 literates constituting 18.11% at 1971 Census. The sex break up of literacy rates during 1981 is 33.12% among males and 13.61% among females. Rural-urban break up of literacy rates indicate 17.75% of population are literates in rural, while this is 51.38% in urban population. The corresponding rural and urban rates of literacy at 1971 are 13.95% and 44.93% respectively.

In Warangal district there are 1,098,602 workers constituting 47.76% of the total population as against 797,723 workers forming 42.64% in 1971 Census. Among males the workers constituted 57.00% while among females 38.17% are workers.

BRIEF ANALYSIS OF THE VILLAGE & TOWN DIRECTORY AND PRIMARY CENSUS ABSTRACT DATA

There are 1,074 villages in the district at the 1981 Census as against 1085 at 1971*. Out of the 1,074 villages, 989 are inhabited while 85 villages are uninhabited. 5 inhabited villages are reported as partly included in different towns of the district. 15 villages which are fully included in urban areas are not taken into consideration in arriving the total number of villages in the district. The following table gives the population of taluks by total/rural/urban with sex break-up. The number of villages and towns in each of the taluks is also indicated in this table.

Urban population of the total 15 taluks returned only in three taluks. Warangal urban taluk has more urban population as per 1981 Census amongst the three taluks. The remaining 12 taluks are reported as exclusively rural taluks.

Table 1

POPULATION, NUMBER OF VILLAGES AND TOWNS, 1981

Sl. No.	Name of Taluk	Population									No. of Villages		No. of Towns
		Total			Rural			Urban

Note : * Decrease is due to merger of 9 villages with other main revenue villages and two villages are reported as fully included in their respective urban areas by loosing their rural character during the decade.

The following table compares the taluk-wise population from 1971 and 1981 Censuses for total, rural and urban areas. Warangal urban taluk has recorded the highest growth rate of 47.91% during the decade 1971-81, while Ghanpur taluk has recorded the lowest growth rate of 9.77%. Negative growth rate (-7.48%) is recorded in Maripeda taluk.

Table 3 shows the total number of inhabited villages in the district classified by population into six broad ranges. In computing the number of villages in a taluk, the villages which are either completely included in an urban unit or returned uninhabited are not taken into account. Maximum number of villages are in the size group of 500-1,999 population and form 44.89% of total villages in this district

Table 3

DISTRIBUTION OF VILLAGES BY POPULATION RANGES

Range of population	No. of villages in each range	Percentage of villages in each range
1	2	3
- 199	86	8.70
200 - 499	89	9.00
500 - 1,999	444	44.89
2,000 - 4,999	316	31.95
5,000 - 9,999	50	5.06
10,000 +	4	0.40
Total	**989**	**100.00**

Table 4 presents the distribution of villages by density into nine ranges and also the percentage of villages in each range. The density figures per sq. km. of each village have been worked out by using the area figures corrected upto two places of decimal. The highest proportion of villages is observed in the density range of 101–200. More than 85% of villages come under density group 101 and above. This district has returned a density of 179 persons per square kilometre as against 195 persons for the State.

Table 4

DISTRIBUTION OF VILLAGES BY DENSITY

Range of density (per sq. km.)	Total No. of villages in each density range	Percentage of villages in each density range
1	2	3
- 10	16	1.62

201 - 300	283	28.61
301 - 500	125	12.64
501 +	48	4.85
Not known	25	2.53
Total	**989**	**100.00**

According to 1981 Census the population of Scheduled Castes in Warangal district is 383,770 accounting for 16.68% of the total population of the district. Scheduled Caste population in this district forms 4.82% of the total Scheduled Caste population in the State. The proportion of Scheduled Caste population to total population in the villages is calculated for all the villages in the district and arranged in seven ranges together with percentage of villages in each range. 69.56% of the villages have Scheduled Caste population in a percentage range above 11. Only 9.81% of villages are without Scheduled Caste population.

Table 5

PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN THE VILLAGES

Percentage range of Scheduled Castes population to total population	No. of villages in each range	Percentage of villages in each range
1	2	3
Nil	97	9.81
5 or less	62	6.27
6 - 10	142	14.36
11 - 15	184	18.60
16 - 20	213	21.54
21 - 30	203	20.52
31 and above	88	8.90
Total	**989**	**100.00**

The Scheduled Tribes population in the district is only 292,772 persons forming 12.73% of the total population of the district. 33 87% of the total villages in the district have returned the proportion of Scheduled Tribe population less than 5% range, which excludes 13.14% of the total number of villages which have no Scheduled Tribe population. Among the taluks, highest proportion of Scheduled Tribe population is returned in Gudur taluk accounting for 13.70% of the total Scheduled Tribe population in the district.

Table 6

PROPORTION OF SCHEDULED TRIBE POPULATION TO TOTAL POPULATION IN THE VILLAGES

Total	**989**	**100.00**

Table 7 provides the total population, scheduled caste and scheduled tribe population and the percentage of scheduled caste and scheduled tribe population to the total population of the towns in the district.

The total scheduled castes population in urban areas of the district at 1981 census was 49,935 persons representing 12.59% of the total urban population. Among the towns, proportions of scheduled castes population varies from 8.35% in Mahbubabad town to 19.72% in Dornakal town.

Total scheduled tribes population in urban areas of the district according to 1981 census was 10,695 persons constituting 2.70% of the total urban population. The proportion of Scheduled tribes population varies from 1.21% in Jangaon town to 14.85% in Dornakal town.

Table 7

PROPORTION OF SCHEDULED CASTES/SCHEDULED TRIBES POPULATION IN TOWNS

Name of the Town	Total Population	Total Scheduled Caste Population	Total Scheduled Tribe Population	Percentage of Scheduled Caste Population to total population	Percentage of Scheduled Tribe Population to total Population
1	2	3	4	5	6
Dornakal (P)	14,558	2,871	2,162	19.72	14.85
Jangaon (M)	25,112	2,813	305	11·20	1.21

Warangal (M)	335,150	42,442	5,714	12.66	1·70
All Towns	**396,474**	**49,935**	**10,695**	**12.59**	**2.70**

The following Table 8 gives the literacy rates by population ranges of villages in the District. Warangal district occupies 13th rank in literacy amongst the districts in Andhra Pradesh State. The proportion of literates of this district constitutes 3.39% of the total Andhra Pradesh literates.

Highest literacy rate of 37.11% is found in villages with 10,000+ population.

Table 8

LITERACY RATES BY POPULATION RANGES OF VILLAGES

Range of Population	No. of villages in each range	Literacy rate
1	2	3
Below - 200	86	8.04
200 - 499	89	9.65
500 - 1,999	444	15.22
2,000 - 4,999	316	17.08
5,000 - 9,999	50	22.27
10,000 - +	4	37.11
Total	**989**	**17.75**

Table 9 shows the literacy rates for the towns in the district as per 1981 census.

The literates in all the four urban areas in the district together constitute 203.715 persons forming 51.38% of the urban population. Among the towns the literacy rate varies from 47.34% in Mahbubabad town to 51.69% in Warangal, the district headquarters town.

Table 9

LITERACY RATES FOR TOWNS

Name of the Town	Literacy Rate
1	2
Dornakal (P)	49.96
Jangaon (M)	51.56
Mahbubabad (P)	47·34
Warangal (M)	51.69
All Towns	**51.38**

Table 10 presents the proportions of literates, workers, non-workers, scheduled castes/scheduled tribes population to the total population, giving break-up by taluk (total/rural/urban) and by sex. There is a highest concentration of scheduled castes and scheduled tribes population in the rural areas than in the urban areas. Warangal district has returned 23 55% of the total population of the district as literates. Warangal (U) taluk has returned 50.25% of literates and this is the highest in the district. Mahbubabad taluk has returned the largest number of workers 98,693 in its rural areas accounting for 10.05% of the total rural workers of the district and 51.11% of the total rural population of the taluk. Chitiyal taluk stands first among the taluks in the district in the proportion of workers to total population. Warangal (R) taluk has returned 22.60% of scheduled caste population while the least is in Gudur taluk with 8.47%. In rural areas of taluks, Warangal (U) taluk with 32.13% stands the highest while Gudur recorded the last position with 8.47%. The percentage of scheduled caste population in urban areas range between 11.20% to 12.92% among the taluks. Gudur taluk has recorded highest proportion of scheduled tribe population with 38.96% while Warangal (U) taluk has the least proportion of scheduled tribe population with only 1.70%. Warangal (U) taluk tops the list in literacy rates among the total, male and female population as well as in rural and urban pockets. The literacy rates recorded in this taluk are higher than the district and State averages, in the case of both sexes.

(Table 10 overleaf)

Distribution of villages according to the availability of different amenities by taluks is presented in this Table. As seen from the table, drinking water facility is available in all the villages, while amenities of education, power supply, P & T, approach by pucca road and communications are available in respect of 88.98%, 75.63%, 69.16%, 42.87% and 42.06% of villages respectively Medical and market facilities are inadequate and only a meagre proportion of villages have these facilities viz., 24.97% of villages have medical facility 2.12% of villages have market facilities.

The table clearly sets out the taluk-wise position of various amenities.

Table 11

DISTRIBUTION OF VILLAGES ACCORDING TO THE AVAILABILITY OF DIFFERENT AMENITIES

Sl.No.	Name of Taluk	No. of inhabited villages	No. (with percentage) of villages having one or more of the following amenities

Table 12 gives the proportion of rural population served by the different amenities and also provides this information taluk-wise.

40.06 per cent of population has only medical facilities while 6% of the population only has access to market facilities. More than 60% of the population has education, power supply, P & T, approach by pucca road and communication facilities, while almost 100% of the population has access to drinking water.

Table 12

PROPORTION OF RURAL POPULATION SERVED BY DIFFERENT AMENITIES

The following table 13 gives the distribution of villages not having certain amenities arranged by three distance ranges from the places where these are available. There are no villages in this district which do not have drinking water facility. Only 109 villages do not have education facility within the village, but these are available at different distance ranges. Large number of villages do not have market, medical, communication and P & T facilities within the village, but they are available at different distance ranges.

Table 13

DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE

Villages not having the amenity of	Number of villages where the amenity is not available and available at distance of			
	-5 kms.	5-10 kms.	10+kms.	Total (Cols.2-4)
1	2	3	4	5
1. Education	70	30	9	109
2. Medical	214	225	303	742
3. P & T	191	86	28	305
4. Market	63	136	667	866
5. Communication	216	192	165	573

Table 14 illustrates the distribution of villages according to the distance from the nearest town and availability of different amenities.

3% of the villages have town within the range of 5 kms. About 12 per cent of the villages have towns within a range of 6–15 kms., while the balance, viz., 75% and 10% have nearest town located within 16–50 kms. and 51 kms. respectively.

As given in other tables on amenities, medical and market facilities are far below the levels attained by other amenities.

Table 14

DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST TOWN AND AVAILABILITY OF DIFFERENT AMENITIES

Distance range from the nearest town (in Kms.)	No. of inhabited villages in each range	Number (with percentage) of villages having the amenity of

16-50	743 (75.13)	673 (90.58)	205 (27.59)	743 (100·00)	528 (71.06)	19 (2.56)	311 (41.86)	319 (42.93)	585 (78.73)
51 +	97 (9·81)	65 (67.01)	8 (8.25)	97 (100.00)	40 (41.23)	..	7 (7.22)	7 (7.22)	28 (28·87)
Total	**989**	**880 (88.98)**	**247 (24.97)**	**989 (100.00)**	**684 (69.16)**	**21 (2.12)**	**416 (42.06)**	**424 (42.87)**	**748 (75.63)**

Table 15 sets out the amenities available in the villages by distributing the villages according to the population range. The population ranges of less than 500, 500–1,999, 2,000-4,999 and 5,000+ are considered and the villages are distributed in these ranges. About 45% of the villages are in the range of 500–1,999, while the villages less than 500 and those in the range of 2,000–4,999 form 18% and 32% respectively. Only 5% of the villages are in the category of 5,000+. It is interesting to note that as the population range increases, the amenities available in the villages falling in these ranges are also on the increase. As has been observed earlier only the medical and market facilities are not adequate in the villages falling in the ranges other than 5,000+.

Table 15

DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGE AND AMENITIES AVAILABLE

Population range	No. of inhabited villages in each range	Number (with percentage) of villages having the amenity of							
		Education	Medical	Drinking Water	Post & Telegraph	Market	Communi-cations	Approach by Pucca Road	Power Supply

Total	**989**	**880 (88.98)**	**247 (24.97)**	**989 (100.00)**	**684 (69.16)**	**21 (2.12)**	**416 (42.06)**	**424 (42.87)**	**748 (75.63)**

The staple food in the majority of villages in each taluk is given in this table.

Rice and jowar are the two staple foods in the villages in this district.

Table 16

MAIN STAPLE FOOD IN THE MAJORITY OF VILLAGES IN EACH TALUK

Sl.No.	Name of Taluk	Main Staple Food
(1)	(2)	(3)
1	Chitiyal	Rice,Jowar
2	Parkal	Rice,Jowar

7	Warangal (Urban)	Rice,Jowar
8	Warangal (Rural)	Rice,Jowar
9	Ghanpur	Rice,Jowar
10	Cheriyal	Rice,Jowar
11	Jangaon	Rice,Jowar
12	Kodakondla	Rice,Jowar
13	Wardhannapet	Rice,Jowar
14	Maripeda	Rice,Jowar
15	Mahbubabad	Rice,Jowar

Table 17 presents the land use pattern giving the proportion of cultivable area to the total area and the irrigated area to the cultivable area. It is seen from the table that 62.36% of the total area is accounted for as cultivable area of the district. Of the total cultivable area of 742,925.24 hectares 132,040.47 hectares forming 17.77% is only tenable. Kodakondla taluk has the largest percentage of cultivable area of 88.80% while the irrigated area is only about 3.88% of cultivable area. Mulug taluk has the least proportion of cultivable area of 25.24% but in case of percentage of irrigated area it occupies 2nd place in the list. Among the taluks in the district Gudur taluk has the highest percentage of 47.58% irrigated area to total cultivable area of the taluk.

Table 17

DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE

Sl. No.	Name of Taluk	No. of inhabited villages	Total area in hectares	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area

b) Declassified	Nil

Table 20 deals with the finances indicating the receipt and expenditure in towns in the district as on 1979.

Of the four urban areas in the district, the highest per capita receipt is noticed in warangal Municipality (Rs. 58.68) and the lowest per capita receipt is recorded in Dornakal Panchayat (Rs. 5.60) and similar is the case in respect of per capita receipt through taxes and from all other sources with Rs. 23.40, Rs. 3.27 and Rs. 35.28, Rs. 2.33 respectively.

Warangal Municipality stands first among the urban areas of the district with its per capita expenditure of Rs. 54.86 while this is lowest in Dornakal. The per capita expenditure of Rs 8.95 on public health and conveniences in Warangal is the highest among the towns while Dornakal has the minimum of Rs. 1.25. The per capita expenditure of Rs 0.46 on public institutions like schools and libraries is recorded by Warangal Municipality. No expenditure is incurred by Dornakal, Jangaon and Mahbubabad towns for this purpose.

All the civic bodies are running on sound lines with surplus budget.

Table 20

PER CAPITA RECEIPT AND EXPENDITURE IN TOWNS

	PER CAPITA								
	RECEIPT			EXPENDITURE					
Class, name and civic status of the town	Total receipts	Receipt through taxes	Receipt from all other sources	Total expenditure	General administration	Expenditure on public health and conveniences	Public works	Expenditure on public institutions	Other aspects

Table 21 provides the data relating to the availability of educational facilities in different categories per 10,000 population.

It may perhaps be mentioned here that data presented refers generally to the institutions that have been recognised by the State Government and are authorised to teach the students for appearing the different grades of examinations conducted by the concerned examination board periodically.

There are 104 primary schools, 90 upper primary schools, 57 high schools and 13 junior colleges in all the urban areas of the district.

Table 21

SCHOOLS PER TEN THOUSAND POPULATION IN TOWNS

Class, name and civic status of Town	Number per ten thousand population			
	Higher Secondary/ Inter/PUC/Junior College	Secondary/ Matriculation	Junior Secondary/ Middle	Primary
(1)	(2)	(3)	(4)	(5)
IV Dornakal (P)	0.69	1.37	2.75	2.75
III Jangaon (M)	0·40	1.99	1.99	3·58

I Warangal (M)	0.30	1.43	2.30	2.54
Total	**0.33**	**1.44**	**2.27**	**2.62**

From table 22, it can be seen that the number of beds available in urban areas of this district is low being 3.06 beds per every 1,000 population. Warangal, the district head-quarters town has 86.94% of the total bed strength available in the urban areas of the district. Warangal town has recorded the bed population ratio more than the district average. In all other towns this ratio has been less than the district index.

Table 22

NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS

Class, name and civic status of the town	No. of beds in medical institutions per 1,000 population
(1)	(2)
IV Dornakal (P)	1.65

III Janagaon (M)	Groundnut oil	Rice	Sugar
III Mahbubabad (P)	Paddy	Rice	Sugar
I Warangal (M)	Aluminium Utensils	Chillies	Wheat

Physically Handicapped Persons

Collection of data on physically handicapped persons is a special feature of 1981 Census. Last time this information was collected in 1931 Census. After independence, the data for the physically handicapped persons in our country were collected again for the first time along with the houselisting operations held in May, 1980 and as such, the physically handicapped persons who were available in the census houses were alone covered in the survey. The houseless do not, therefore, find a place in this survey. The physically handicapped persons covered are of three types of disabilities, totally blind, totally crippled and totally dumb. The definition adopted for physically handicapped is as follows:

"The term of totally crippled refers to such persons who have lost their arms or limbs. The loss of arms or legs or all the four limbs refers to loss of both the arms or loss of both legs. It is not necessary that the disabled should have lost both arms and legs. The loss of either of these i.e., both arms or both legs would be sufficient for classification as totally crippled. Loss of only one arm and/or one leg will not classify a person as totally crippled. The loss here refers to the inability to use and not necessarily physical absence. Thus, a paralytic who has lost the use of both the legs or both the arms, will be totally crippled, though the legs or arms as such are still physically present."

In case when a person unfortunately suffered from more than one of the disabilities mentioned above, the person was recorded by the greater disability. For example, if a person was both blind and dumb or blind and crippled, etc., blindness was noted for him as blindness is considered as greater disability than either dumbness or being crippled. Similarly, being crippled was considered a greater disability than being dumb. In an extreme case where a person suffered from all the disabilities was taken under blind since this is certainly the most unfortunate disability.

A statement showing the distribution of physically handicapped persons by taluks in district is given overleaf.

Physically handicapped form 0.16% of the total population in the district, comprising of 0.18% of rural and 0.07% of urban population. Out of the total 3,590 persons recorded as physically handicapped, i.e., totally blind, totally crippled and totally dumb in the district as many as 3,352 persons forming 93.37% are from rural areas only.

Among the total physically handicapped in the district 38.88% are totally blind, 28.36% are totally crippled and 32.76% are totally dumb. The survey revealed that Ghanpur taluk has recorded the highest number of 377 physically handicapped persons, the lowest being Eturnagaram taluk with 78 persons.

PART - B

VILLAGE AND TOWN DIRECTORY AND PRIMARY CENSUS ABSTRACT

SECTION I – Village Directory

SECTION II – Town Directory

SECTION III – Primary Census Abstract

SECTION I

VILLAGE DIRECTORY

Village Directory which provides villagewise information about the amenities and landuse pattern in the villages, consists of 20 columns. The data so collected from the Tahsildars and other officials concerned were scrutinised and presented under certain columns in codes. Such codes will frequently be seen against column numbers 5 to 8, 10, 11, 13, 16 and 20. The following codes have been used against the facilities available in the village.

Educational : (Column No. 5)

P	:	Primary or Elementary School (Upto Class IV)
M	:	Middle School or Junior Secondary (Class V to VIII)
H	:	Matriculation or Secondary School (Class IX and X)
JC	:	Higher Secondary / PUC / Intermediate / Junior College
C	:	College
I	:	Industrial School
Tr	:	Training School
AC	:	Adult Literacy Class / Centre
O	:	Other Educational Institutions which include Sanskrit Pathasala, Senior Basic School

Medical : (Column No. 6)

H	:	Hospital
MCW	:	Maternity and Child Welfare Centre or Maternity and Child Health Centre
MH	:	Maternity Home
CWC	:	Child Welfare Centre
HC	:	Health Centre
PHC	:	Primary Health Centre
PHS	:	Primary Health Sub-Centre
D	:	Dispensary
FPC	:	Family Planning Centre
TB	:	T. B. Clinic
NH	:	Nursing Home
RP	:	Registered Private Practitioner
SMP	:	Subsidised Medical Practitioner
CHW	:	Community Health Worker
O	:	Others

Drinking Water : (Column No. 7)

T	:	Tap
W	:	Well
TK	:	Tank
TW	:	Tube Well
HP	:	Hand Pump
R	:	River
F	:	Fountain
C	:	Canal
L	:	Lake
S	:	Spring
N	:	Nallah
O	:	Others
NA	:	Information not available

Post and Telegraph (Column No. 8)

PO	:	Post Office
TO	:	Telegraph Office
PTO	:	Post and Telegraph Office
Phone	:	Telephone Connection

Communications : (Column No. 10)

BS	:	Bus stop
RS	:	Railway Station
NW	:	Navigable Waterway

Approach to village : (Column No. 11)

PR	:	Pucca Road
KR	:	Kuccha Road
NR	:	Navigable River
NC	:	Navigable Canal
NW	:	Navigable Waterway
FP	:	Foot Path

Power Supply : (Column No. 13)

ED	:	Electricity for domestic purpose
EAG	:	Electricity for Agriculture
EO	:	Electricity for other purposes like industrial, commercial, etc.
EA	:	Electricity for all purposes listed above

Irrigated by source : (Column No. 16)

GC	:	Government Canal
PC	:	Private Canal
W	:	Well (without electricity)
WE	:	Well (with electricity)
TW	:	Tube Well (without electricity)
TWE	:	Tube Well (with electricity)
TK	:	Tank
R	:	River
L	:	Lake
WF	:	Water Fall
O	:	Others
T	:	Total

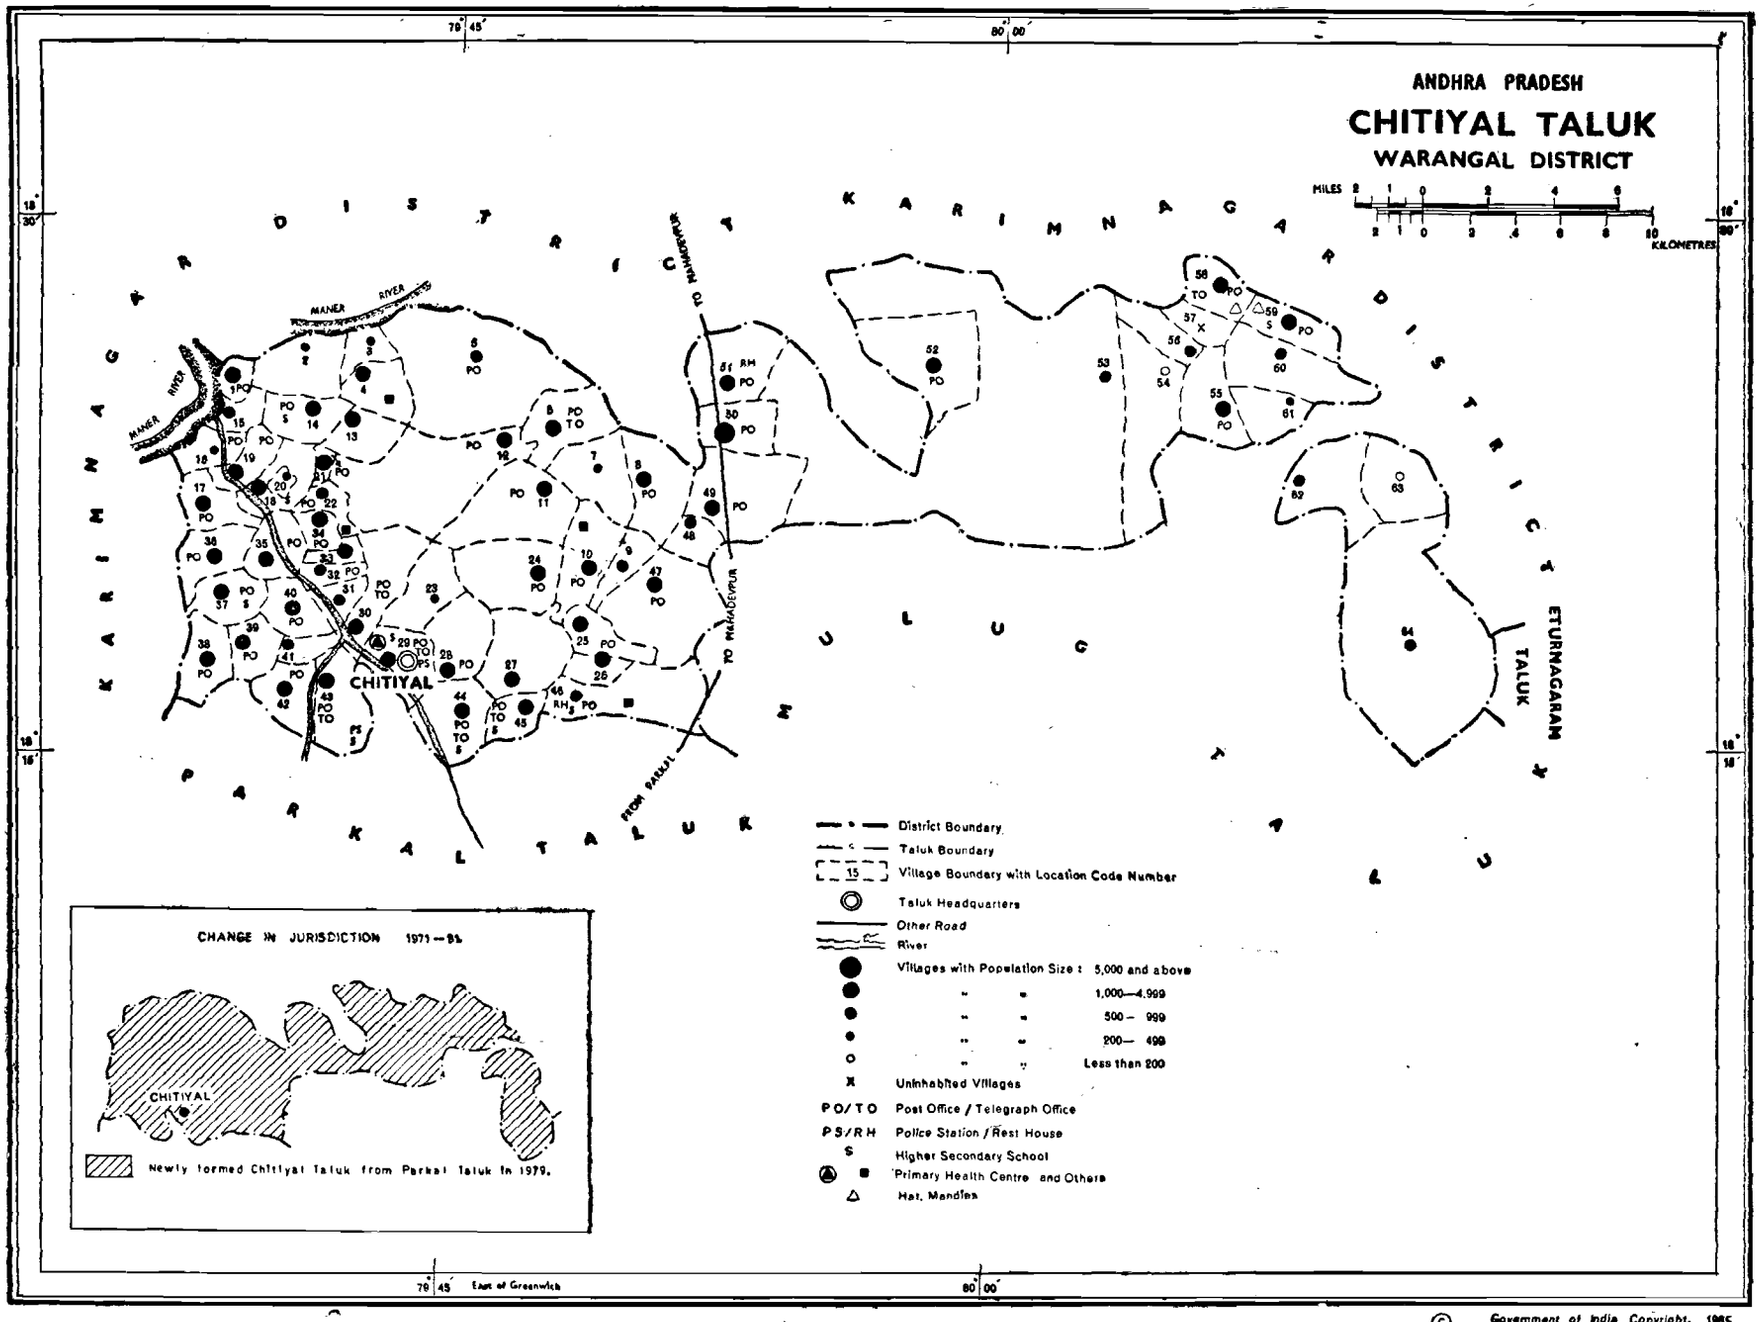

Remarks, etc. : (Column No. 20)

N	:	Copies of the News Papers (coming in the village)
M	:	Motor Cycles/Scooters
C	:	Cars/Jeeps
T	:	Tractors

As an example an entry showing figures like P(2), or D(2), or T(35.21), TK(35.21) would indicate that the village has two primary schools, two dispensaries, extent of total irrigated land in the village is 35.21 hectares and extent of land irrigated by water from tanks is 35.21 hectares.

Where a facility is not available in the village, the distance at which the facility available is shown in broad ranges viz., — 5 Kms., 5–10 Kms. and 10 + Kms. of the nearest place.

SECTION II — Town Directory

SECTION II

TOWN DIRECTORY

Codes used in the seven statements are explained in detail and the expressions for the abbreviations used in Statements are briefly explained herein. Statement I has been compiled in this Office and Statements II to VI by obtaining the data from local authorities having administrative control over the towns.

In the Statement I Col. 2 to denote the civic status of town the codes used are :

Municipal Corporation/ Corporation	M. Corp.
Municipality	M
Cantonment Board/ Cantonment	CB
Notified Area/Notified Area Committee/Notified Committee	NAC
Gram Panchayat/Village Panchayat	P

In Statement IV Col. 6 to differentiate category of road the following abbreviations are used.

Pucca road	PR
Kuccha road	KR

Under Col. 7 to specify the system of sewerage the codes given are :

Sewer	S
Open surface drains	OSD
Box surface drains	BSD
Sylk drains	SD
Cesspool method	CD
Pit System	Pt

In Col. 11 the various prevalent methods of disposal of night soil are given with the following codes.

Head loads	HL
Baskets	B
Wheel barrows	WB
Septic tank latrines	ST
Sewerage	S

Under Cols. 12 & 13, the codes used to state the source of supply and system of storage of protected water supply are as follows:

Overhead tank	OHT
Service reservoir	SR
River infiltration gallery	IG
Borewell pumping system	BWP
Pressure tank	PT
Tubewell Water/ Hand pump	TW
Tap Water	T
Well Water	W
Tank Water	TK

The first five codes relate to the system of storage of water in the town and the remaining four codes represent the different sources of water supply to the inhabitants of a town.

In Statement V under Col. 4 to indicate the type of medical facility available to the citizens, the following codes are used.

Hospital	H
Dispensary	D
Health Centre	HC
Family Planning Centre	FC
T.B. Clinic	TB
Nursing Home	NH
Others	O

If there are more than one institutions of any type, the number of such institutions is noted within brackets eg : D (2); NH (7) etc.

To distinguish the medical institutions as Allopathic or Ayurvedic or Unani or Homoeopathic the following additional codes are used.

Ayurvedic	A
Unani	U
Homoeopathic	Hom.

In case of allopathic no separate code is used. The information on medical facilities is presented horizontally in the same line as illustrated below :

H (A-1,2), D (Hom.-2, U-1)

Here H(A-1, 2), represents one ayurvedic and 2 allopathic hospitals and D (Hom.-2, U-1) represents 2 homoeopathic and 1 unani dispensaries.

The Codes used for the Col. 6 are as follows:

Arts only	A
Science only	S
Arts and Science only	AS
Commerce only	C
Arts and Commerce only	AC
Arts, Science and Commerce	ASC
Law	L

If there are more than one institutions of each type the number is given against each in brackets.

Under Col. 10 the following codes are used to specify the recognised short-hand, typewriting and other vocational training institutions. If there are more than one institution of each type the number is given against each in brackets.

Short-hand	SH
Typewriting	Type
Shorthand & Typewriting	Sh. Type
Others	O

The vocational institutions like Applied Art/ Painting College, Pharmacy College, B.Ed. College, Teacher's Training institutes, Music / Dancing School, Nursing School, etc., are covered under "Others."

Schools upto class IV are treated as Primary or Elementary Schools. These include Nursery Schools, Kinder Garten Schools, Pre-basic Schools, Pre-primary School. Schools upto Class VIII are treated as Junior Secondary or Middle School. Schools upto Class X are treated as Matriculation or Secondary Schools. Schools or Colleges upto Class XI or XII are considered in the Group of Higher Secondary/Intermediate/Pre-University/ Junior College, etc.

Under Col. 20 the abbreviations given are as follows :

Public Library	PL
Reading Room	RR

TOWN DIRECTORY STATEMENTS
