SRI VARAHA NARASIMHA SWAMY

The motif presented on the cover page represents the sculptured shrine of the diety 'Sri Varaha Narasimha Swamy" of Simhachalam near Vishakhapatnam city.

Simhachalam is a sacred place of pilgrimage in Vishakhapatnam district and ranks with Benaras and Tirupati. This hill temple is dedicated to Lord Narasimha, the Man-Lion incarnation of Lord Vishnu. In honour of this diety, a number of people of the district are named as Simhachalam, Simhadri, Narasimham and so on.

The way upto the temple runs through terraced fields of pineapples dotted with jack, mango and other trees. It passes up a broad flight of well-kept stone steps, over a thousand in number, on either side of which trees have been planted to provide shade. There is a ghat road from the foot of the hill leading to the temple. Architecturally, the temple deserves high praise. The temple comprises a square shrine, surmounted by a high tower, a portico in front with a small circular tower over it, a square sixteen pillared Mandapam, all made of dark granite richly and delicately covered with conventional and floral ornament and scenes from the Vaishnavite Purana. One of the pillars of the **mandapam** *is called the* **'Kappam Stambham'** *and people believe that, this pillar has the power of curing cattle diseases and also barren women will be blessed with issues.*

The exact age of the temple is not known but the inscriptions engraved on the walls and pillars of this shrine give us a flood of light on the vicissitudes of the temple through history. An inscription dating back to 1099 AD of the great Chola King Kulothunga - I, who conquered the Kalinga land, says the importance of the Shrine even in that period. The kings of later period viz. Velanadu, Eastern Ganga, Gajapathis of Cuttack and Rajas of Vizianagaram made additions like Central Shrine, the **mukhamandapam**, *the* **natyamandapam**, *Verandah, etc., to the temple during the period from 1137 AD to 1713 AD. The Rajas of Vizianagaram had been wardens of the shrine for over two centuries and endowed it with lands. Krishnadevaraya, the famous Vijayanagara emperor visited this temple twice in 1516 and 1519 AD and the jewellery offered by him to the Lord is there still.*

The puranic legend of the temple takes us to the time of Hiranyakasipu and Prahlada, who are famous figures in Indian mythology. Lord Vishnu in his aspect of Narasimha, rescued the great **Bhakta** *- Prahlada at this* **Kshetra** *and in memory of the incident, Prahlada is said to have founded this shrine.*

The image of the deity in the temple of Simhachalam is overcovered with a thick coating of sandal paste, which is said to have appeased the fury of the Lord after the destruction of the Rakshasa King Hiranyakasipu. This coating is removed only once a year, on the Visakha day during May in a function called **'Chandanayatra'** *and that day is considered to be specially sacred. People from all over India visit the shrine on this day to have* **darsan** *of the Lord in* **'Nijaswarupa'** *(original form).*

Simhachalam temple is presently under the control of Endowments Department of the Andhra Pradesh State Government. One can reach Simhachalam either by train which goes upto Simhachalam Railway Station, or more easily by city buses from Vishakhapatnam. The Devasthanam is plying buses from down hill to up hill.

FOREWORD

The district census handbook (DCH), compiled by the Census Organisation on behalf of the State Governments, is one of the most valuable products of the Census. The DCH is constantly referred to by planners, administrators, academicians and researchers. It is *inter alia* used for delimitation of constituencies, formulation of local level and regional plans and as an aid to district administration. The district census handbook is the only publication which provides Primary Census Abstract (PCA) data upto village level for the rural areas and wardwise for each city or town. It also provides data on infrastructure and amenities in villages and towns, etc.

The district census handbook series was initiated during the 1951 Census. It contained important census tables and PCA for each village and town of the district. During 1961 Census the scope of the DCH was enlarged and it contained a descriptive account of the district, administrative statistics, census tables and a village and town directory, including PCA. The 1971 DCH series was planned in three parts. Part-A related to village and town directory, Part-B to village and town PCA and part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages However, in some states it was confined to district census tables and in a few cases altogether given up due to delay in compilation and printing.

While designing the format of 1981 DCH series, some new features along with the restructuring of the formats of village and town directory have been attempted. At the same time, comparability with the 1971 data has also been kept in view. All the amenities except power supply in the village have been brought together in the village directory with the instruction that in case an amenity is not available in the referrent village the distance in broad ranges from the nearest place where the amenity is available may be given. The restructuring of the format of the village directory and incorporating more exhaustive data on infrastructure aspect particularly in relation to amenities and land-use pattern is expected to further meet the need of micro level planning for rural areas. It is expected to help not only in local area planning but in the regulating the provision of goods and services as well so as to minimise the regional imbalances in the process of development. A few new items of information have also been introduced to meet some of the requirements of the Revised Minimum Needs Programme. Such new items of information as adult literacy centres, primary health subcentres and community health workers in the village have been introduced in the village directory with this objective in mind. The new item on approach to the village is to have an idea about the villages in the district which are inaccessible. A new column, "total population and number of households" has been introduced to examine the correlation of the amenities with the population and number of households they serve. Addition of two more appendices listing the villages where no amenities are available and according to the proportion of scheduled caste and scheduled tribe population to the total population has also been made with this view in mind.

The formats of the town directory have also been modified to meet the requirements of the Minimum Needs Programme by providing information on a few new items. A new statement on civic and other amenities in slums in Class I and Class II towns (Statement IV–A) has been introduced with this objective in mind. It is expected that this will help the planners to chalk out programmes on provision of civic amenities for the improvement of slums. The columns on Scheduled Castes and Scheduled Tribes population in Statement IV relating to civic and other amenities and adult literacy classes/centres under educational facilities in Statement V are also added *inter alia* with this view. A significant addition is class of town in all the seven statements of the town directory. The infrastructure of amenities in urban areas of the country can be best analysed by taking the class of towns into consideration. The addition of the columns on civic administration status and population in a few statements also serves this purpose.

The format of the primary census abstract for the villages and towns has been formulated in the light of changes in the economic and other questions canvassed through the individual slip of 1981 Census.

In order to avoid delay in publication of 1981 DCH series it has been so designed that Part-A of the volume contains village and town directory and Part-B, the PCA of villages and towns including the Scheduled Castes and Scheduled Tribes PCA upto Taluk/Town levels. At the beginning of the DCH a detailed analytical note supported by a number of inset tables based on PCA and non census data in relation to the infrastructure has been introduced to enhance its value. The district and taluk/town level maps depicting the boundaries and other important features have been inserted at appropriate places, to further enhance the value of the publication.

This publication is a joint venture of the State Government and the Census Organisation. The data have been collected and compiled in the State under the direction of Shri S.S. Jaya Rao, I.A.S, Director of Census Operations, Andhra Pradesh, Hyderabad, on behalf of the State Government which has borne the cost of printing. The task of planning, designing and coordination of this publication was carried out by Dr. N. G. Nag, Deputy Registrar General (Social Studies) of my office, Dr. B. K. Roy, Deputy Registrar General (Map) provided the technical guidance in the preparation of the maps. Data received from Census Directorates have been scrutinised in the Social Studies Division at the head-quarters under the guidance of Shri M.M. Dua, Senior Research Officer. I am thankful to all who have contributed in this project.

PREFACE

District Census Handbook is the most important of the local publications brought out by the Census Organisation. This is a joint venture of the State and Central Governments. The chapter on HISTORY OF DISTRICT CENSUS HANDBOOK details its history and growth right from the inception of Census in 1872, while the foreword of the Registrar General and Census Commissioner, India highlights the scope and significance of the tremendous improvements brought about from time to time since 1951 to 1981, in the presentation of data so as to meet the demands of planning and administrative needs of the Governments and the data users. Needless to say that it is of immense use to planners, administrators, academicians, scholars, researchers, social workers, etc.

The restructuring of the format of the Village Directory at the 1981 Census has been done particularly to incorporate the exhaustive data on infrastructure in relation to amenities and land-use pattern to meet the needs of micro-level and local area planning for rural areas as well as to meet the Minimum Needs and Revised Minimum Needs Programmes of the Planning Commission. It is further intended to help regulating the provision of goods and services and also to enable minimising regional imbalances in the process of development. The formats of the Town Directory have also been modified to meet the requirements of the Minimum Needs Programme, by adding statements on civic and other amenities in slums in Class I and Class II Towns, columns on Scheduled Castes and Scheduled Tribes population, adult literacy centres, working women's hostels, etc. In the process of collection of data for this volume, various State and Central Government departments have extended their kind Co-operation. The District Census Handbook comprises two parts —Part A - Detailed analytical note supported by a number of inset tables based on Census and non-Census data in relation to infrastructure and Part B - Village and Town Directories as well as Primary Census Abstract of Villages and Towns published in one volume each for all the districts except for Vishakhapatnam district. It is felt that if this District Census Handbook is published in one volume, it would be unweildy. Hence, it is being published in two volumes – part XIII A & B (i) and part XIII-A & B (ii). The first volume contains part XIII A & B (i) - Village Directory, Town Directory and Appendices, and the second volume part XIII-A & B (ii) Analytical Note, Village Primary Census Abstract & Town Primary Census Abstract.

The present volume is the first part of the District Census Handbook covering Village Directory, Town Directory & Appendices.

In this joint venture of the State and Central Governments, while the collection, processing including compilation, tabulation and finalisation of the write up have been done by the Directorate of Census Operations, Andhra Pradesh, under the Ministry of Home Affairs, Government of India, the paper and printing costs are borne by the Government of Andhra Pradesh State. I offer my grateful thanks to Sri S. R. Rama Murthy, I. A. S. (Retd.), former Chief Secretary of the Government of Andhra Pradesh and Sri M. Appa Rao, Joint Secretary (Retd.), General Administration (Elections) Department for the kind co-operation and encouragement extended by them at the time of 1981 Census. Grateful thanks are also due to Sri Shravan Kumar, I. A. S , the present Chief Secretary, Sri B. N. Jaya Simha, I. A. S., Special Chief Secretary, General Administration Department and Chief Electoral Officer who is also in charge of Census and to Sri P. V. Gopala Rao, I. A. S., Deputy Secretary, General Administration Department, for extending their kind co-operation. The Director of Printing and Stationery has been helpful in selecting good private presses for printing the Handbooks.

My grateful thanks are due to Sri S. S. Jaya Rao, I.A.S., Director of Census Operations, Andhra Pradesh, under whose direction the entire Census Operations Programme was successfully carried out in the State. He has retired from service after superannuation in April, 1984. I am extremely grateful to Sri P. Padmanabha, I. A. S., former Registrar General and Census Commissioner of India, whose constant

guidance and advice were a source of strength and to Dr. N. G. Nag, Deputy Registrar General (Social Studies) who has formulated the contents of the Handbook in detail. Grateful thanks are also due to Dr. B. K. Roy, Deputy Registrar General (Map) under whose guidance the Map Division has scrutinised the district map and the taluk maps evincing very keen interest and to Sri M. M. Dua, Senior Research Officer (now Deputy Director), who has scrutinised the data presented here with very minute care. I feel it a proud privilege and bounden duty to offer my sincere and grateful thanks to Sri V. S. Verma, I.A.S., Registrar General and Census Commissioner, India and to Sri V. P. Pandey, Joint Registrar General, India, for their constant guidance and advice in both administrative and technical matters.

In the finalisation of the write up, compilation and processing of data for the volume, I have been ably assisted by Sri B. Satyanarayana, as Deputy Director and as Assistant Director of Census Operations, with the assistance of efficient team led by Smt. P. Lalitha, Investigator who has gained rich experience and specialised this subject. Sri Shyam Deo, Research Officer, ably guided the Map Section in the preparation of various maps included in this publication. I am thankful to all those officials who have contributed in bringing out this voluminous publication.

The following officials who have worked on the present volume of Vishakhapatnam District Census Handbook deserve my thanks for their contribution.

SECTION I

VILLAGE DIRECTORY

Village Directory which provides villagewise information about the amenities and landuse pattern in the villages, consists of 20 columns. The data so collected from the Tahsildars and other officials concerned were scrutinised and presented under certain columns in codes. Such codes will frequently be seen against column numbers 5 to 8, 10, 11, 13, 16 and 20. The following codes have been used against the facilities available in the village.

Educational : (Column No. 5)

P	...	Primary or Elementary School (Upto Class IV)
M	...	Middle School or Junior Secondary (from Class V to VIII)
H	...	Matriculation or Secondary School (Class IX and X)
JC	...	Higher Secondary/PUC/Intermediate/ Junior College
C	...	College
I	...	Industrial School
Tr	...	Training School
AC	...	Adult Literacy Class/Centre
O		Other Educational institutions which include Sanskrit Pathasala, Senior Basic School

Medical : (Column No 6)

H	...	Hospital
MCW	...	Maternity and Child Welfare Centre or Maternity and Child Health Centre
MH	...	Maternity Home
CWC	...	Child Welfare Centre
HC	...	Health Centre
PHC	...	Primary Health Centre
PHS	..	Primary Health Sub-Centre
D	...	Dispensary
FPC	...	Family Planning Centre
TB	..	T.B. Clinic
NH	...	Nursing Home
RP	...	Registered Private Practitioner
SMP	...	Subsidised Medical Practitioner
CHW	...	Community Health Worker

PR	...	Pucca Road
KR	...	Kaccha Road
NR	...	Navigable River
NC	...	Navigable Canal
NW	...	Navigable Waterway
FP	...	Foot Path

Power Supply : (Column No. 13)

ED	...	Electricity for domestic purpose
EAG	...	Electricity for Agriculture
EO	...	Electricity for other purposes like industrial, commercial, etc.
EA	...	Electricity for all purposes listed above

Irrigated by source : (Column No. 16)

GC	...	Government Canal
PC	...	Private Canal
W	...	Well (without electricity)
WE	...	Well (with electricity)
TW	...	Tube Well (without electricity)
TWE	...	Tube Well (with electricity)
TK	...	Tank
R	...	River
L	...	Lake
WF	...	Water Fall
O	...	Others
T	...	Total

Remarks, etc. : (Column No. 20)

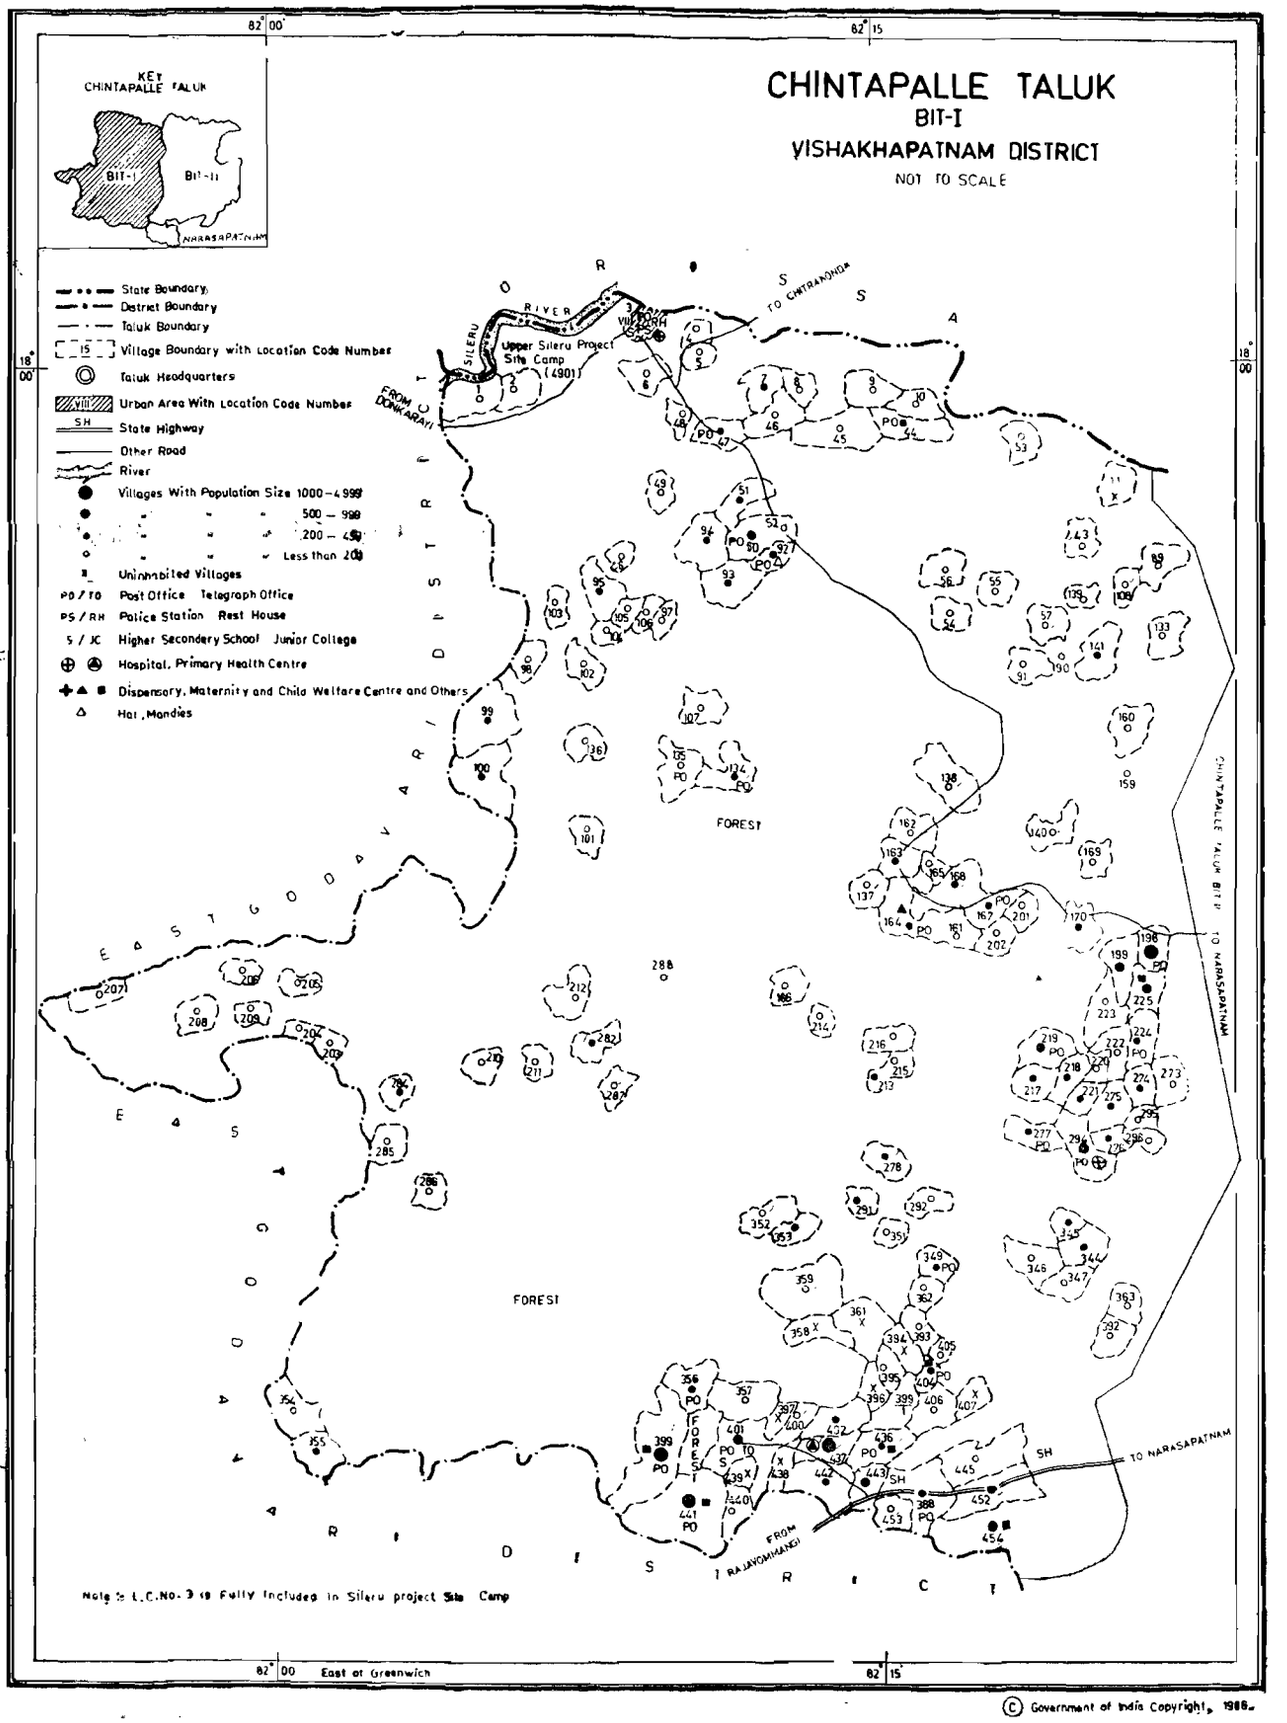

N	...	Copies of the News Papers (Coming in the village)
M	...	Motor Cycles/Scooters
C	...	Cars/Jeeps
T	...	Tractors
NNA :		News papers number not available

As an example an entry showing figures like P(2), or D (2), or T (35.21), TK (35.21) would indicate that the village has two primary schools, two dispensaries, extent of total irrigated land in the village is 35.21 hectares and extent of land irrigated by water from tanks is 35.21 hectares.

Where a facility is not available in the village, the distance at which the facility available is shown in broad ranges viz.,-5 kms., 5–10 kms. and 10+kms. of the nearest place.
