PREFACE

Part III-B—Establishments Tables is a companion volume of Part III-A—Report on Establishments, published earlier under the 1971 Census publication programme. The present volume contains four main tables (E series) prepared from the statistics collected in the Establishment Schedules canvassed as part of the 1971 Census Houselisting Operations, conducted in February, 1970. The data collected in the Establishment Schedules were mechanically processed on a cent per cent basis in my office and computer tables were generated on the Electronic Data Processing system of the Registrar General, India. While Part-A contains narrative report on the establishments enumerated, Part-B presents absolute numbers of establishments classified by nature of industry, manpower engaged as well as the type of fuel/power used in the establishments.

The following are the Tables published in this volume.

E- I	Distribution of Establishments by broad types.
E-II Part-A	Distribution of Manufacturing, Processing or Servicing Establishments other than Household Industries classified by Registered Factories, Unregistered Workshops and size of Employment
E-II Part-B	Distribution of Manufacturing, Processing or Servicing Establishments other than Household Industries classified by Industry, Fuel/Power or Manual used and size of Employment
E-II Part-C	Distribution of Household Industry Establishments classified by Industry, Fuel/Power used and size of Employment
E-III	Distribution of Trade, Commercial Establishments classified by the Type of Business or Trade and size of Employment
E-IV	Distribution of Establishments (other than Manufacturing, Processing or Servicing or Business and Trade Establishments) by size of Employment

Each of these Tables presents the data for the State/District with rural-urban break-up and for each City. The main table is preceded by a Fly Leaf explaining the statistics presented in the succeeding table.

It is hoped that the data compiled and presented in these Tables would be useful to one and all interested in the economic activity of the country.

TABLE E-1—DISTRIBUTION OF ESTABLISHMENTS BY BROAD TYPES

FLY LEAF

This Table gives the distribution of all establishments. The definition of establishment adopted in the Census of 1971 is given below :—

"An 'establishment' is a place where goods are produced or manufactured not solely for domestic consumption or where servicing and or repairing is done such as factory, workshop or household industry or servicing and/or repair workshop or a place where retail or wholesale business is carried on or commercial services are rendered or an office, public or private or a place of entertainment or where educational, religious, social or entertainment services are rendered. It is necessary that in all these places one or more persons should be actually working. Thus, an establishment will cover manufacturing, trade and other establishments where people work."

The establishments have been classified into three broad types according to the activity, viz.,—(a) manufacturing, processing or servicing establishments ; (b) trade or business establishments and (c) other establishments. The establishments have also been classified under three sectors of economy—(i) Government or Quasi-Government, (ii) Private and (iii) Co-operative. The establishments coming under manufacturing, processing or servicing have been classified as Registered factories, Unregistered workshops and Household industries. Trade or business establishments have been categorised as Wholesale, Retail and Others. Other establishments have been classified as Educational Institutions, Public Health Institutions and Others. The statistics of all establishments under the details mentioned above are presented separately for the State and the Districts with break-up figures for rural and urban areas and for each City.

TABLE E-II—PART A—DISTRIBUTION OF MANUFACTURING, PROCESSING OR SERVICING ESTABLISHMENTS OTHER THAN HOUSEHOLD INDUSTRIES CLASSIFIED BY REGISTERED FACTORIES, UNREGISTERED WORKSHOPS AND SIZE OF EMPLOYMENT

FLY LEAF

In this Table, establishments engaged in manufacturing, processing or servicing and run as Non-household industry have been classified by size of employment. The manufacturing, processing or servicing establishments have been divided into two broad groups i.e., Registered Factories and Unregistered Workshops.

A factory, registered under the Indian Factories Act is treated as a Registered Factory, whereas a workshop merely licensed by the Municipal or any other Local Authority or registered for any other purpose is not treated as a Registered Factory unless it is registered under the Indian Factories Act. For Registration under the Indian Factories Act, 1948 a factory should employ more than 20 persons if not using power and more than 10 persons if using power. A Workshop is a place where some kind of production, processing, servicing, repairing or making of goods for sale is done. A Workshop, registered under the Indian Factories Act, is treated as a Registered Factory and others as Unregistered Workshops. Workshop run as household industry is treated as Household Industry.

The following are the sizes of employment adopted for presentation of data.

Registered Factories

1. 10— 19 Persons
2. 20— 49 Persons
3. 50— 99 Persons
4. 100—299 Persons
5. 300—499 Persons
6. 500 and above Persons
7. Persons Unspecified

Unregistered Workshops

1. One Person
2. 2— 4 Persons
3. 5— 9 Persons
4. 10—19 Persons
5. Persons Unspecified

The establishments engaged in manufacturing, repairing or servicing are covered by Division 2 & 3 (Manufacturing and Repair) of the National Industrial Classification. There are 19 Major Groups of industries in this Division. Figures of establishments are presented for the Division and for each Major Group of Industry. The description of the Division and the Major Groups coming under the Division with their code numbers are printed as Appendix to this table.

As in the case of Table E-I, the statistics are presented for the State and Districts, with rural and urban break-up and for each City.

TABLE E-II—PART B—DISTRIBUTION OF MANUFACTURING, PROCESSING OR SERVICING ESTABLISHMENTS OTHER THAN HOUSEHOLD INDUSTRIES CLASSIFIED BY INDUSTRY, FUEL/POWER OR MANUAL USED AND THE SIZE OF EMPLOYMENT

FLY LEAF

This Table presents statistics regarding the number of factories or workshops excluding household industries by size of employment and kind of fuel / power used. The factories/workshops are arranged according to the Division and Major Groups of National Industrial Classification Code Structure and is similar to Table E-II - Part-A in this respect.

The size of employment shown in this Table is as follows :—

1 Person
2 - 4 Persons
5 - 9 Persons
10 - 19 Persons
20 - 49 Persons
50 - 99 Persons
100 -299 Persons
300 -499 Persons
500 + Persons and
Persons Unspecified.

The type of fuel/power used has been classified under four categories, namely,

A — Electricity
B — Liquid Fuel
C — Coal, Wood and Bagasse
D — Other Power

The data has been presented separately for those factories or workshops which use only manual power. The total number of factories and workshops using all kinds of fuel referred to above and manual power are also presented.

The statistics have been presented for the State and Districts with rural and urban break-up and for each City.

TABLE E-II—PART C—DISTRIBUTION OF HOUSEHOLD INDUSTRY ESTABLISHMENTS CLASSIFIED BY INDUSTRY, FUEL/POWER USED AND SIZE OF EMPLOYMENT

FLY LEAF

This Table furnishes information regarding household industry establishments by Division and Major Group of National industrial Classification and kind of fuel/power used, by size of employment for the State and Districts, with rural-urban break-up and for Cities.

The Household Industry is defined as an Industry conducted by the head of the household himself/herself and/or mainly by the members of the household at home or within the village in rural areas, and only within the premises where the household is living in urban areas. It excludes industry run on the scale of a registered factory.

Thus there are four ingredients in the household industry.

(i) Nature of activity
(ii) Participation
(iii) Location
(iv) Size

Nature of activity: The household industry should relate to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. It does not include professions such as Pleader or Doctor or Barber, Musician, Dancer, Washerman, Astrologer etc., or merely trade or business even if such professions, trade or service is conducted at home by the members of household.

Participation: The head of the household and/or one or more members of the household must participate in such an industry. If it is run primarily by the hired labourers, the participation ingredients of the household members will not be satisfied and it will not be a household industry. The industry may run with the help of hired workers but the head and/or members of the household must be mainly participating in the industry and not solely dependent on hired workers. Besides actual work, participation also includes supervision and direction.

Location: The industry should be located within the premises of houses where the household lives in urban areas; if it is situated at a place other than at home, it will not be termed as household industry in urban areas. In rural areas however, the industry should be either at home or anywhere within the village limits. In rural areas, even though the industries are not situated at home, there is a greater possibility of the members of the household participating in it, if it is located within the village limits.

Size: The industry should not be on the scale of a registered factory. Irrespective of the location and participation by the members of the household, if the industry or workshop is registered under the Factories Act, then it will not be a household industry.

The household industries come under Division 2-3 "Manufacturing and Repairing". The industries have been arranged in the order of the Major Groups coming under that Division.

The size of employment is :—

1 Person
2— 4 Persons
5— 9 Persons
10—19 Persons and
Persons Unspecified

As in the case of Table E-II — Part-B, the household industry using fuel/power have been classified as under—

(a) Electricity
(b) Liquid Fuel
(c) Coal, Wood and Bagasse
(d) Other Power

The figures for household industries which are conducted manually have also been given. The total for household industries using power/fuel and manual labour have also been presented.
