CENSUS OF INDIA, 1971

PART III

ESTABLISHMENTS REPORT

AND TABLES

ORISSA

PREFACE

1971 Census expanded the scope of the Houselisting Schedule to include information relating to establishments in the country about which comprehensive data were hitherto not available. In 1961 Census, an attempt was made to collect data regarding manufacturing, processing or servicing establishments only. The Establishment Schedule of 1971 Census, which was canvassed during the Houselisting operation in 1970, was a more comprehensive document and covered all types of establishments. Though data on registered factories might be available from the several returns Government collect from such establishments, reliable data relating to the unorganised sector were not available at all. The chief merit of the Establishment Schedule of 1971 Census is that it attempts to fill this gap.

The data canvassed in the Establishment Schedules were processed mechanically in the Data Processing Division of Registrar General's Office and the Tables generated therefrom have been analysed in this volume. The main Establishment Tables E-I, E-II Parts A, B and C, E-III and E-IV together with the Subsidiary Tables representing the essence of the Establishment Schedule are presented in this volume separately, while a number of inset statements further distilled from the main and subsidiary tables find place in the body of the Report. This volume, it is hoped, will meet the long-felt need of authentic data on all types of establishments and will provide good source material to the planners and administrators and research workers.

B. Tripathi

ACKNOWLEDGEMENTS

I would like to place on record my gratitude to Shri A. Chandra Sekhar, I. A. S., Registrar General and Census Commissioner of India and Shri K. D. Ballal, I. A. S., Deputy Registrar General of India, Shri K. K. Chakravorty, Central Tabulation Officer and Shri S. C. Sharma, Assistant Registrar General of India (Data Processing Division) for their constant guidance and help at different stages.

I would also like to place my deep sense of appreciation for the valuable assistance rendered by Shri S . R. Patnaik and Shri P. C. Roy, Deputy Directors in finalising the Report. My warm thanks are due to Investigator Shri S. K. Swain for his effective supervision and constant guidance of the works of coding, punching of Establishment data and preparation of Subsidiary Tables from the Main Establishment Tables received from Registrar General's Office. I owe a great deal also to the following members of staff of my office who have rendered valuable contribution to bring out this important publication.

Mechanical Tabulation Unit

1.	Shri N. Mohanty	...	Tabulation Officer
2.	Shri A. K. Paul	...	Statistical Assistant
3.	Shri N. N. Samal	..	Statistical Assistant
4.	Shri K. C. Swain	...	Computor
5.	Shri J. Pati	...	Computor
6.	Shri C. R. Mishra	...	Computor

Map Section

1.	Shri A. C. Panda	...	Senior Draftsman
2.	Shri M. N. Das	...	Draftsman
3.	Shri S. Mulia	...	Draftsman

Printing Section

1.	Shri A. K. Mishra	...	Printing Inspector
2.	Shri B. B. Mohanty	...	Statistical Assistant
3.	Shri B. K. Sahu	...	Proof Reader
4.	Shri D. Prusty	...	Proof Reader

Report Writing Cell

1.	Shri R. N. Panigrahi	...	Statistical Assistant
2.	Shri S. N. Seth	...	Assistant Compiler
3.	Shri N. K. Nayak	...	Assistant Compiler
4.	Shri P. Behera	...	Artist
5.	Shri J. K. Bose	...	Stenographer
6.	Shri M. N. Nayak	...	Stenographer

1971 CENSUS PUBLICATIONS—ORISSA

(All the Census Publications of this state will bear Series No. 16)

PART I	...	General Report on the Census, subdivided into three sub-parts, viz.,
Part I-A	...	First part of the General Report covering distribution, growth and density of population, sex ratio, Rural and Urban differentials, broad literacy rates, population of Scheduled Castes and Scheduled Tribes, broad economic categories, etc.
Part I-B	...	The second part covering detailed analysis of the demographic, social, cultural and migration patterns
Part I-C	...	Subsidiary Tables
PART II	...	Census Tables on Population subdivided into :
Part II-A	...	General Population Tables
Part II-B	...	Economic Tables
Part II-C (*i*)	...	Tables showing distribution of population by Mother-tongue and Religion, Scheduled Castes and Scheduled Tribes
Part II-C (*ii*)	...	Other Social and Cultural Tables and Fertility Tables
Part II-D	...	Migration Tables
PART III	...	Establishments Report and Tables (*the present volume*)
PART IV	...	Housing Report and Tables
PART V	...	Special Tables and Ethnographic Notes on Scheduled Castes and Scheduled Tribes (All India Publication)
PART VI	...	Town Directory, Survey Reports on Towns and Villages subdivided into :
Part VI-A	...	Town Directory
Part VI-B	...	Special Survey Reports on selected towns
Part VI-C	...	Survey Reports on selected villages
PART VII	...	Special Report on Graduates and Technical personnel (All India Publication)
PART VIII	...	Administration Report (for official use only) subdivided into :
Part VIII-A	...	Administration Report—Enumeration
Part VIII-B	...	Administration Report—Tabulation
PART IX	...	Census Atlas and Administrative Atlas
PART X	...	District Census Handbook (a State Government Publication) subdivided into :
Part X-A	...	Village and Town Directory
Part X-B	...	Village and Townwise Primary Census Abstract
Part X-C	...	Analytical Report and Administration Statements and District Census Tables .....(*for thirteen districts*)
Miscellaneous	...	Special Studies and other Reports and Tables (will be published as special papers as and when they are ready.)

CHAPTER I

INTRODUCTORY

Background

As is well-known, the aim of Census is to take a count of population and obtain important demographic, social, cultural and economic characteristics of each person so counted in order to tabulate and bring out vital statistical data for the purposes of planning. While this happens to be the main concern of Census, the preliminary operation, *viz.*, houselisting which leads to the final population count, has itself been highly productive of rich and valuable data. The Report on Housing is the fruit of the houselisting operation. It was in 1961 that this operation started on a more detailed basis. It became, in fact, an inventory of all structures used for different purposes, residential or otherwise. Thus, the 1961 houselisting operation virtually became the first Housing Census. The houselist schedule in 1961 also included provision for obtaining data regarding manufacturing, processing or servicing establishments and a short chapter on such establishments which was rather limited in scope was included in the 1961 Housing Report.

In 1971 Census, however, it was decided to canvass during the houselisting operation a separate schedule known as Establishment Schedule which was a more comprehensive document covering all kinds of establishments and not merely manufacturing, processing or servicing establishments.

A proforma of the Establishment Schedule and the instructions issued to enumerators for filling this form are given in Appendix I. It was the duty of the enumerator who visited every census house in his block in February, 1970 to carefully inquire and record in the houselist form whether the census house was used either partly or wholly as an establishment. If so, he was required to fill in the Establishment Schedule separately.

Definition of Establishment

An establishment is defined as a place where goods are produced or manufactured not solely for domestic consumption or where servicing and/or repairing is done such factory, workshop or household industry or a place where retail or wholesale business is carried on or commercial services are rendered or an office—public or private or a place of entertainment or a place where educational, religious, social or entertainment services are rendered. It is an indispensable condition to qualify as an establishment that one or more persons should be actually working in such a place.

Limitations of definition

The main limitation imposed by the aforesaid definition is that the data relates only to establishments located in buildings. As a result, open-air establishments and itinerant pedlars/ workers do not come within the purview of the Establishment Schedule.

Other limitations

While the enumerator generally got correct and satisfactory answers in respect of the smaller establishments, he had to face certain difficulties with regard to large establishments. For example, it was difficult on his part to arrive at a correct average number of persons working in such an establishment daily during the preceding week or in the preceding working season. Such data deficiencies relating to such large establishments in Orissa may be few and far between and would certainly be supplemented by authentic data submitted to the Government by the registered factories. The chief

merit of the Establishment Schedule of 1971 Census lies in the fact that it has helped to collect exhaustive data on the small establishments in the un-organised sector spread throughout the country and for which no authentic data were available before. Since even dak bungalows, temples and the like also qualify to be treated as establishments in terms of the definition, the enumerator could not help taking stock of even such places, which are included in the 'Others' category.

Processing of data

The Establishment Schedules were processed cent per cent unlike the houselist for which a 20 per cent sample was taken. The Establishment Schedules were processed mechanically. The data on the schedules were coded and transferred on to punch cards in our Coding and Punching Cell. After punching, the data on cards were transferred to magnetic tapes using IBM 1401. The magnetic tapes were sent to the Data Processing Division of the Registrar General's Office for generating the tables. The procedure adopted in processing the data may now be outlined.

Editing

A thorough scrutiny of the schedules formed the first stage of tabulation. Instances of some important aspects of editing are as follows :

The omission of location code component, if any, was supplied with reference to the Charge list. Column 6 (Purpose for which census house is used) and 7 (Is it used wholly or partly as an establishment) of the houselist were scrutinised with reference to the corresponding entries in the Establishment Schedules of a block since a house noted as used as an establishment in Col. 7 of the houselist should find place in the Establishment Schedule. Suitable entries were made wherever necessary.

In cases where Col. 4 of the Establishment Schedule (Is the Establishment (*a*) Government/ Quasi-Government (*b*) Private or (*c*) Co-operative institution) was left blank, the entries in Col. 3 (Name of the establishment) were used for guidance in making appropriate imputation. It was checked up whether (*i*) Cols. 6, 7, 8 relating to manufacturing, processing or servicing (*ii*) Cols. 9 and 10 relating to trading establishment and (*iii*) Col. 11 pertaining to other establishment, were mutually exclusive.

The consistency in respect of Col. 5 (Average number of persons working), Col. 6 (Is it a household industry, registered factory or unregistered workshop) and Col. 8 (Type of fuel used) was checked up in respect of registered factories. The edit instructions in this regard were based on the definition of a factory under Section 2(m) of the Indian Factories Act, 1948.

If Col. 7 (Description of the products or Processing or Servicing done), Col. 9 (Description of goods bought/sold) and Col. 11 (Description of other establishment) are not filled in, Col. 3 was referred to for any possible clue. The editing of the Establishment Schedule on the whole proved useful in that it enabled quick processing in later stages.

Coding

The Code structure prepared by the Office of the Registrar General (*Vide* Appendix II) was used for the purpose of coding the Establishment Schedules. Apart from the location particulars, the columns coded are : 4, 6, 7 (or 9 or 11) and 8.

The coding of Col. 7 (or 9 or 11) was according to the National Industrial Classification of Industries, 1970, which is given in Appendix III. The National Industrial Classification coding called for intensive training of staff and strict supervision.

For a number of establishments the code number could not be found straightaway in the N.I.C. booklet. Efforts were therefore made in respect of these cases to find out the code number which would be as nearly applicable as possible to the description given in the schedule. The Office of Registrar General also circulated a list of common household Industries and some select industries with their N.I.C. codes.

Since N.I.C. coding involved subjective judgement, an alphabetical list of industries with their code numbers was prepared at the Coding and Punching Cell incorporating the rulings from

Registrar General and common establishments found in the State, for the use of the staff. This helped maintain uniformity and speed in this important phase of data processing.

Punching

The punching of cards from the Establishment Schedules was taken up in August, 1970 and completed by the end of the March, 1971. In all, 105,967 cards were punched. The taping operations were completed in the same month and the tapes were sent immediately thereafter to the Data Processing Division of the Registrar General's Office for further processing.

The Establishment Schedules were processed for the following operational units : (1) Police Station for rural areas (2) Class-I City, *i.e.*, towns with more than a lakh of population, and (3) Non-city urban areas of a district. There were 301 rural operational units, one city operational unit and 80 non-city urban units. The data on the tape can give particulars not only for a town or a village but also for a small unit like the Enumerator Block.

Establishment Tables

In 1961 only one table was prepared (Table E-III) which related to factories and workshops classified by kind of fuel or power used and size of employment. In this Census, the following six tables have been generated from the data processed : E-I, E-II Part A, E-II Part B, E-II Part C, E-III and E-IV. Figures have been presented in all these tables for total, rural and urban areas of districts and for Cuttack City (the only urban unit having more than one lakh population as per 1961 Census). A brief description of the contents of the tables is given below :

Table E-I—This table relating to "Distribution of Establishments by broad types" has been prepared for the first time at this Census. It gives the distribution of all establishments by the following three broad types : (*a*) Manufacturing, processing or servicing (*b*) Trade or business and (*c*) Others, in each of the sectors of economy, namely, Government/ Quasi-Government, Private and Co-operative. The manufacturing, processing or servicing establishments are further classified as registered factories, unregistered workshops and household industries. The trade or business establishments are classified as wholesale, retail and others. The other establishments are classified as educational institutions, public health institutions and 'others'.

Table E-II Part A—This table relates to "Distribution of Manufacturing, processing or servicing establishments other than Household Industries classified by registered factories, unregistered workshops and size of employment". This gives useful information about the size of employment and the number of units under each of the categories, (*a*) registered factories, and (*b*) unregistered workshops in each Division/Major group of N.I.C., 1970.

Table E-II Part B—This table gives the "Distribution of Manufacturing, processing or servicing establishments other than Household Industries classified by Industry, fuel/ power used and size of employment". In this table the number of factories and workshops are presented by Division/Major group of N.I.C., 1970 and by size of employment. This gives information about the kind of fuel or power used in the industries.

Table E-II Part C—This deals with the "Distribution of Household Industry establishments classified by Industry, fuel/power used and size of employment". It gives information about the Household Industry establishments by Division and Major group of N.I.C., 1970 and the kind of fuel or power used by broad employment size groups. All these Tables, E-II (Parts A, B & C) correspond to Table E-III of 1961 Census.

Table E-III—This is a new table for 1971 giving the "Distribution of Trade/Commercial establishments classified by the type of business or trade and size of employment". It has been prepared for the Trade/Commercial establishments classified by the type of business or trade and size of employment. All Trade/Commercial establishments are further classified under each Division/ Major group of N.I.C., 1970.

Table E-IV—This table gives the "Distribution of establishments (Other than manufacturing,

processing or servicing or business and trade establishments) by size of employment". All establishments (Other than manufacturing, processing or servicing or business or trade) in each Division/Major group of N.I.C., 1970 are distributed by size of employment. This table, attempted for the first time in 1971 Census also provides frame for the establishments not covered by Tables E-II (Parts A & B) and E-III.

Subsidiary Tables

E-I.1—This subsidiary table is prepared on the basis of the data as per main table E-I. This subsidiary table gives the distribution of 1,000 Establishments (all categories) by broad types, *viz.*, (*a*) Government or Quasi-Government, (*b*) Private and (*c*) Co-operative sectors in (*i*) Manufacturing, processing or servicing, (*ii*) Trade or business and (*iii*) Other establishments further subdivided by registered factories, unregistered workshops and Household Industries for Industrial establishments ; wholesale, retail and others for Trade or business establishments ; and educational institutions, public health institution and others for all other types of establishments.

This table gives figures for Rural and Urban areas of the State and each district and for Cuttack City.

E-II Part A.1—This subsidiary table is prepared on the basis of the data as per main table E-II Part A. This subsidiary table gives distribution of 1,000 Manufacturing, processing or servicing (Other than Household Industry) establishments in each Division/Major groups of N.I.C. and by size of employment in Rural and Urban areas separately.

This table gives figures for the State and each district and for Cuttack City.

E-II Part B.1—This subsidiary table is prepared from the data contained in main table E-II Part B. This subsidiary table gives distribution of 1,000 Manufacturing, processing or servicing establishments (Other than Household Industries) in each Division/Major group of N.I.C. by kind of fuel/power used and size of employment.

This table gives figures for the State and each district separately for Total, Rural and Urban. Similar figures for Cuttack City are also given.

E-II Part C.1—This subsidiary table is based on the data as per main table E-II Part C. This subsidiary table gives distribution of 1,000 establishments which are Household Industries in each Division/Major group of N.I.C. by kind of fuel/power used and size of employment.

This subsidiary table gives figures for the State, Districts and Cuttack City separately for Total, Rural and Urban.

E-III.1—This subsidiary table is prepared from the data contained in main table E-III. It gives distribution of 1,000 Trade/Commercial establishments in each Division/Major group of N.I.C. by size of employment in Rural and Urban areas separately.

It gives figures for the State, Districts and Cuttack City.

E-IV.1—This subsidiary table is prepared from the data on main table E-IV. It gives distribution of 1,000 establishments (Other than Manufacturing, processing or servicing and business or trade establishments) in each Division/Major group of N.I.C. by size of employment in Rural and Urban areas separately.

It gives figures for the State, Districts and for Cuttack City.

CHAPTER II

TYPE OF ESTABLISHMENTS

This chapter is based on Establishment Table E-I (Distribution of establishments by broad types) and its subsidiary Table E-I.1 (Distribution of 1,000 establishments by broad types in rural and urban areas separately).

The three broad types of establishments shown in this table are :

1. Manufacturing, processing or servicing establishments
2. Trade or business establishments
3. Other establishments

While presenting the data each of the above broad categories of establishments has been further subdivided as follows :

Manufacturing, processing or servicing establishments :

1. Registered factories
2. Un-registered workshops
3. Household Industry

Trade or business establishments:

1. Wholesale
2. Retail
3. Others

Other establishments:

1. Educational Institutions
2. Public Health Institutions
3. Others

The figures relating to the number of establishments have been presented in this table for each of the different types of establishments cross-classified by (*a*) Government or puasi-Government, (*b*) Private and (*c*) Co-operative.

For an understanding of the concept and definition of the various types of establishments mentioned above, the reader is referred to the Appendix I.

Distritbution of Establishments into three broad types

The following statement gives the break-up of establishments into three broad categories for the State and districts.

STATEMENT II. 1

Distribution of establishments by three broad types

State / District	Total number of Establishments	Manufacturing, Processing or Servicing Establishments	Trade or Business Establishments	Other Establishments
1	2	3	4	5
ORISSA	(*a*) 428,067	138.080	144,941	145,046
	(*b*) 100·00	32·26	33·86	33·88
Sambalpur	(*a*) 48,154	24,596	12,554	11,004
	(*b*) 100·00	51·08	26·07	22·85

STATEMENT II·1 (*Concld.*)

State/District	Total number of Establishments	Manufacturing, Processing or Servicing Establishments	Trade or Business Establishments	Other Establishments
1	2	3	4	5
Sundargarh	(*a*) 18,222	5,851	6,911	5,460
	(*b*) 100·00	32·11	37·93	29·96
Keonjhar	(*a*) 13,317	3,881	4,393	5,043
	(*b*) 100·00	29·14	32·99	37·87
Mayurbhanj	(*a*) 21,546	10,573	5,215	5,758
	(*b*) 100·00	49·07	24·20	26·73
Balasore	(*a*) 34,957	8,134	12,722	14,101
	(*b*) 100·00	23·27	36·39	40·34
Cuttack	(*a*) 83,674	19,969	31,802	31,903
	(*b*) 100·00	23·86	38·01	38·13
Dhenkanal	(*a*) 22,723	5,803	9,778	7,142
	(*b*) 100·00	25·54	43·03	31·43
Baudh-Khondmals	(*a*) 11,790	4,232	2,910	4,648
	(*b*) 100·00	35·90	24·68	39·42
Bolangir	(*a*) 27,714	14,301	5,614	7,799
	(*b*) 100·00	51·60	20·26	28·14
Kalahandi	(*a*) 15,688	6,466	3,486	5,736
	(*b*) 100·00	41·22	22·22	36·56
Koraput	(*a*) 24,847	6,984	8,438	9,425
	(*b*) 100·00	28·11	33·96	37·93
Ganjam	(*a*) 49,336	15,426	19,320	14,590
	(*b*) 100·00	31·27	39·16	29·57
Puri	(*a*) 56,099	11,864	21,798	22,437
	(*b*) 100·00	21·15	38·86	39·99

(*a*)=Absolute figures (*b*)=Percentage distribution

A glance of the above table would show that the establishments in the State as a whole are distributed almost equally among the three categories. Establishments under the category 'Others' (33·88 per cent) which come first have a slight edge over trade or business establishments (33·86 per cent) while manufacturing, processing or servicing establishments come close behind with a proportion of 32·26 per cent.

Picture in the districts

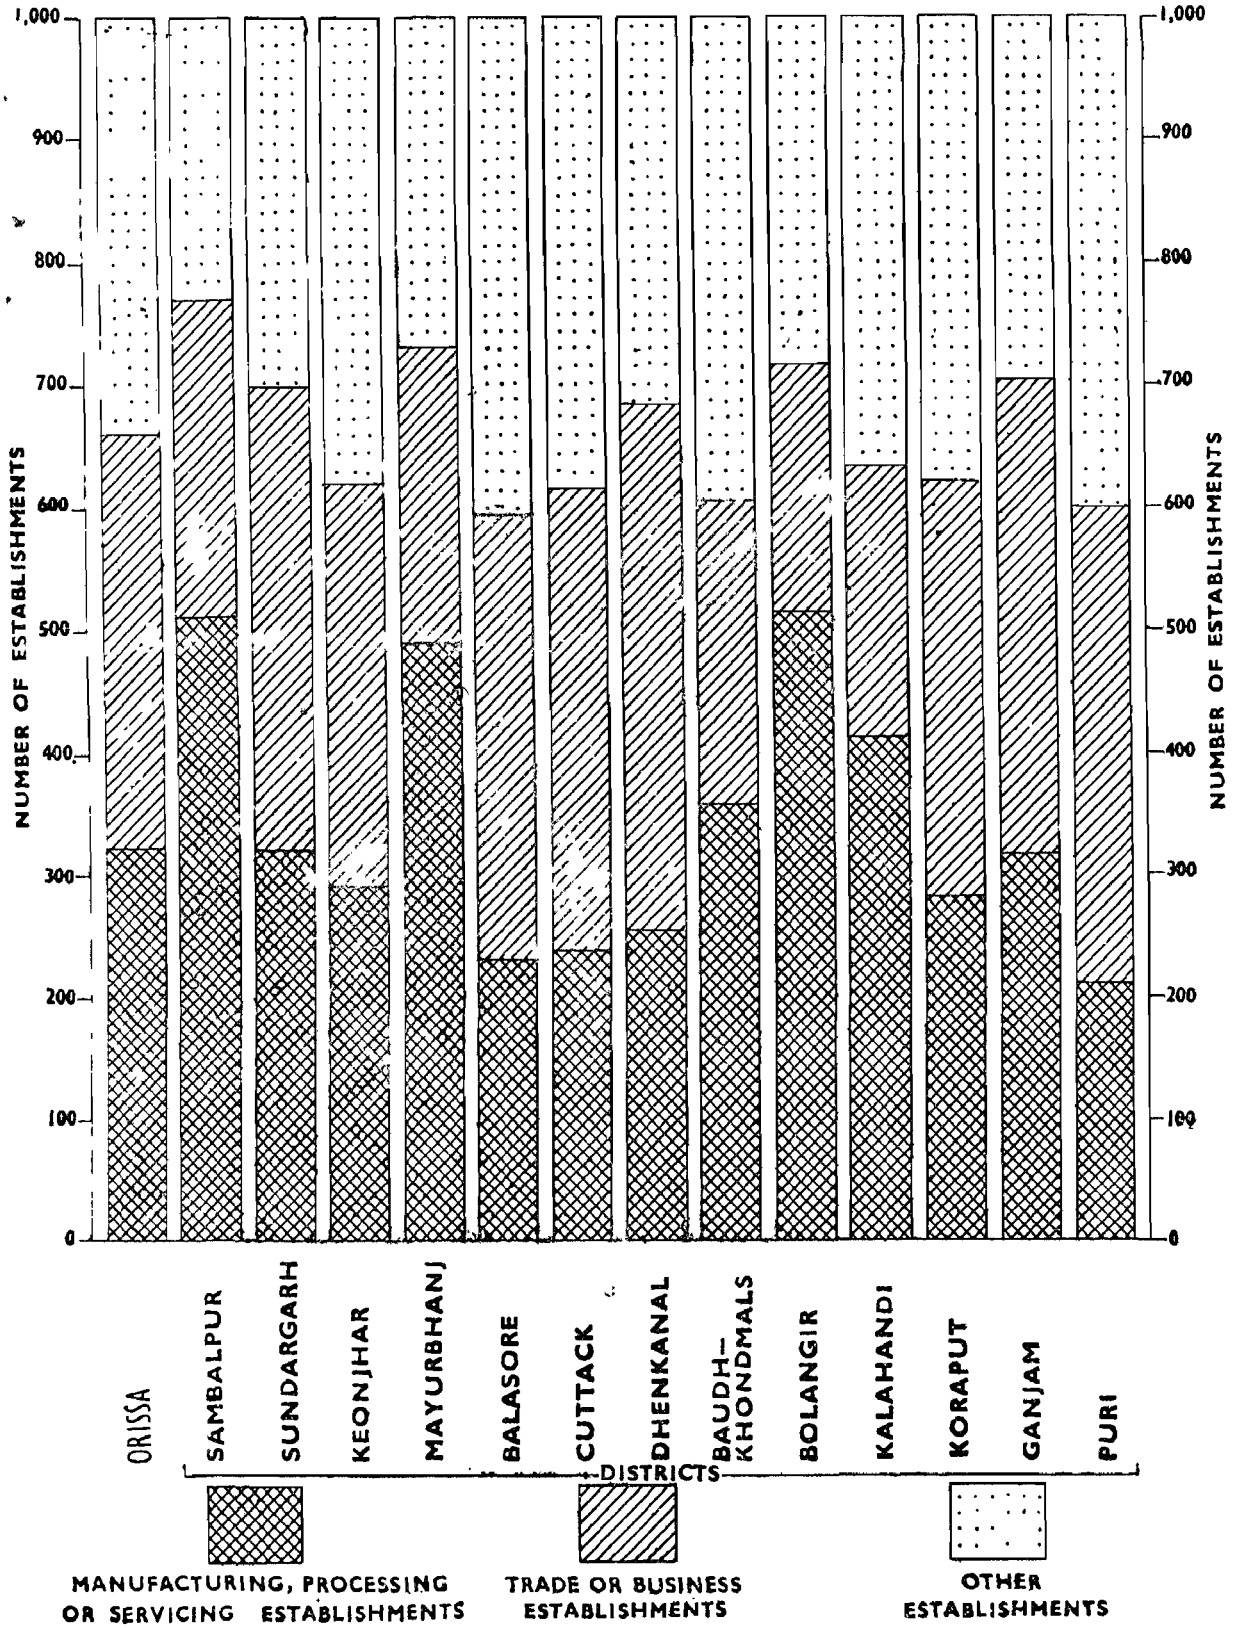

Among the districts in the State, Sambalpur has the highest number (24,596) of manufacturing, processing and repairing establishments followed by Cuttack (19,969), Ganjam (15,426), Bolangir (14,301) and Puri (11,864). Keonjhar district has only 3,881 industrial establishments which is the lowest compared to other districts.

Of trade and business establishments, Cuttack has the largest number (31,802) followed by Puri (21,798), Ganjam (19,320), Balasore (12,722) and Sambalpur (12,554). Baudh-Khondmals has the lowest number (2,910) of this category of establishment.

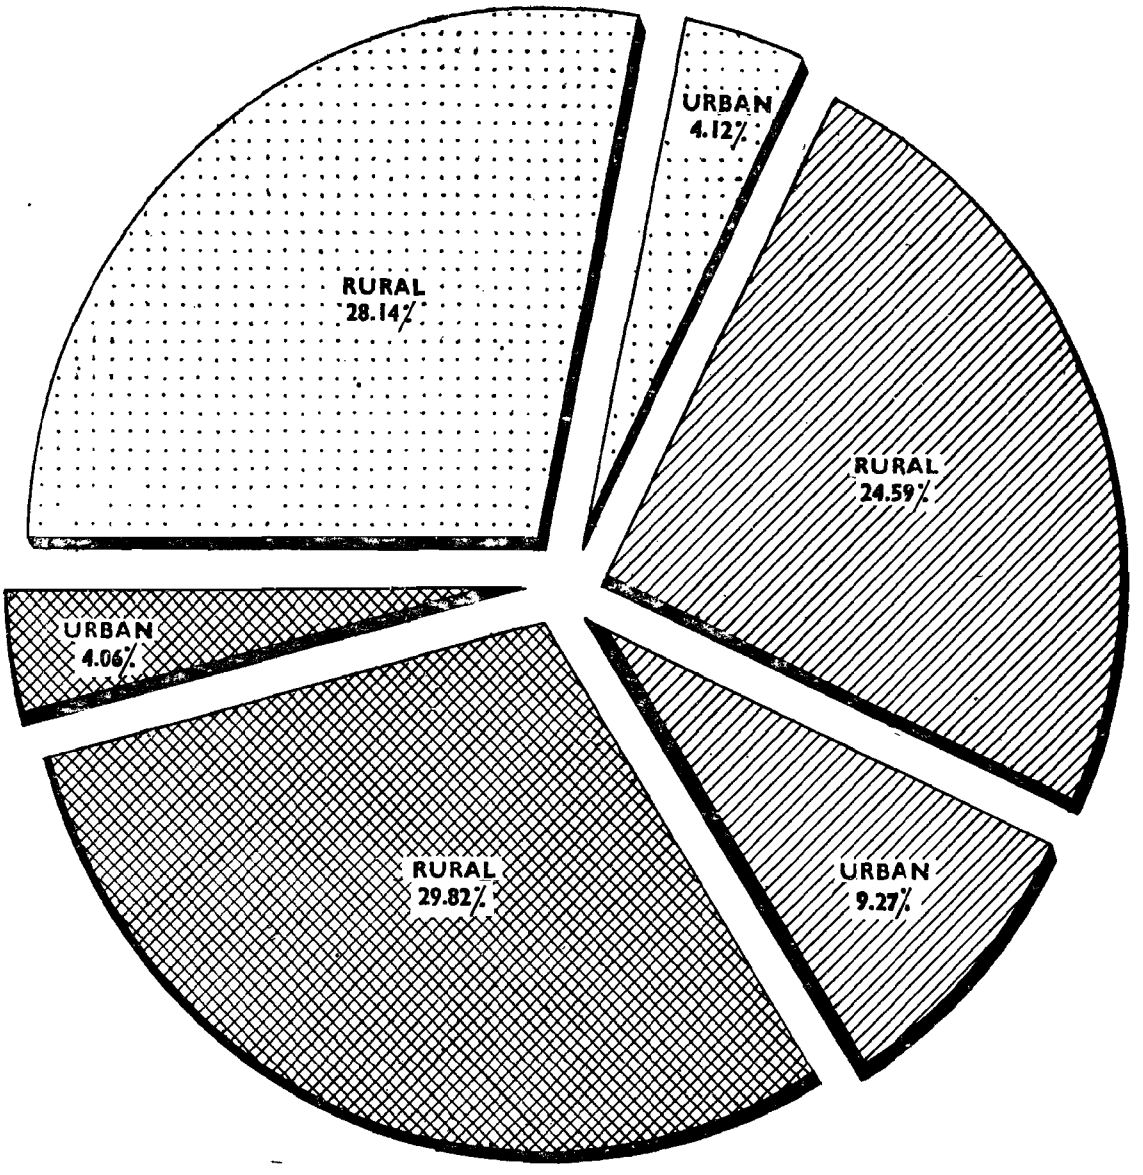

Of "Other establishments" also Cuttack district has the highest number (31,903). The districts

DISTRIBUTION OF ALL ESTABLISHMENTS BY BROAD TYPES

IN THE STATE AND IN EACH DISTRICT

PROPORTION OF ALL ESTABLISHMENTS BY THREE BROAD TYPES BY RURAL AND URBAN BREAK UP IN THE STATE OF ORISSA

INDUSTRIAL ESTABLISHMENTS		TRADE OR BUSINESS ESTABLISHMENTS		OTHER ESTABLISHMENTS	
RURAL	120,444	RURAL	105,242	RURAL	127,661
URBAN	17,636	URBAN	39,699	URBAN	17,385
TOTAL	138,080	TOTAL	144,941	TOTAL	145,046

next in order of ranking are Puri (22,437), Ganjam (14,590), Balasore (14,101) and Sambalpur (11,004). Baudh-Khondmals district comes last with 4,648 establishments under this category.

Arrangement of the first five districts in order of ranking according to the highest number of establishments in each of the three categories gives the following picture :

Manufacturing, processing or servicing establishments		Trade or business establishments		Other establishments	
	No.		No.		No.
1. Sambalpur	(24,596)	1. Cuttack	(31,802)	1. Cuttack	(31,903)
2. Cuttack	(19,969)	2. Puri	(21,798)	2. Puri	(22,437)
3. Ganjam	(15,426)	3. Ganjam	(19,320)	3. Ganjam	(14,590)
4. Bolangir	(14,301)	4. Balasore	(12,722)	4. Balasore	(14,101)
5. Puri	(11,864)	5. Sambalpur	(12,554)	5. Sambalpur	(11,004)

It is seen that the districts of Cuttack, Puri, Ganjam, Balasore, Sambalpur and Bolangir have the largest number of establishments.

Relative predominance of different types of establishments in the districts

When we examine the relative predominance between the three different types of establishments, namely, (*i*) Manufacturing, processing or servicing, (*ii*) Trade and business and (*iii*) Other establishments according to their relative proportion in each of the districts separately, we get a different picture from that of the State as a whole. In the State as a whole, the three broad types of establishments have almost equal proportions ; but in the districts it is one type of establishment that predominates over the other types. The manufacturing, processing or servicing establishments are most predominant in Bolangir district, where 51·60 per cent of all the establishments in the district come under this type of establishments. Other districts where establishments of this type have preponderance over other types are Sambalpur (51·08 per cent), Mayurbhanj (49·07 per cent) and Kalahandi (41·22 per cent). The districts where the trade and business establishments are most predominant are Dhenkanal (43·03 per cent), Ganjam (39·16 per cent) and Sundargarh (37·93 per cent). 'Other establishments' are most predominant in the districts of Balasore (40·34 per cent), Puri (39·99 per cent), Baudh-Khondmals (39·42 per cent), Cuttack (38·13 per cent), Koraput (37·93 per cent) and Keonjhar (37·87 per cent).

Taking each district as a unit, it might be interesting to find out the orientation of its economy on the basis of the predominance of a particular type of establishment. Such a study would of course show no more than the broad characteristics and it might not be possible to come to any rigid conclusions on the basis thereof.

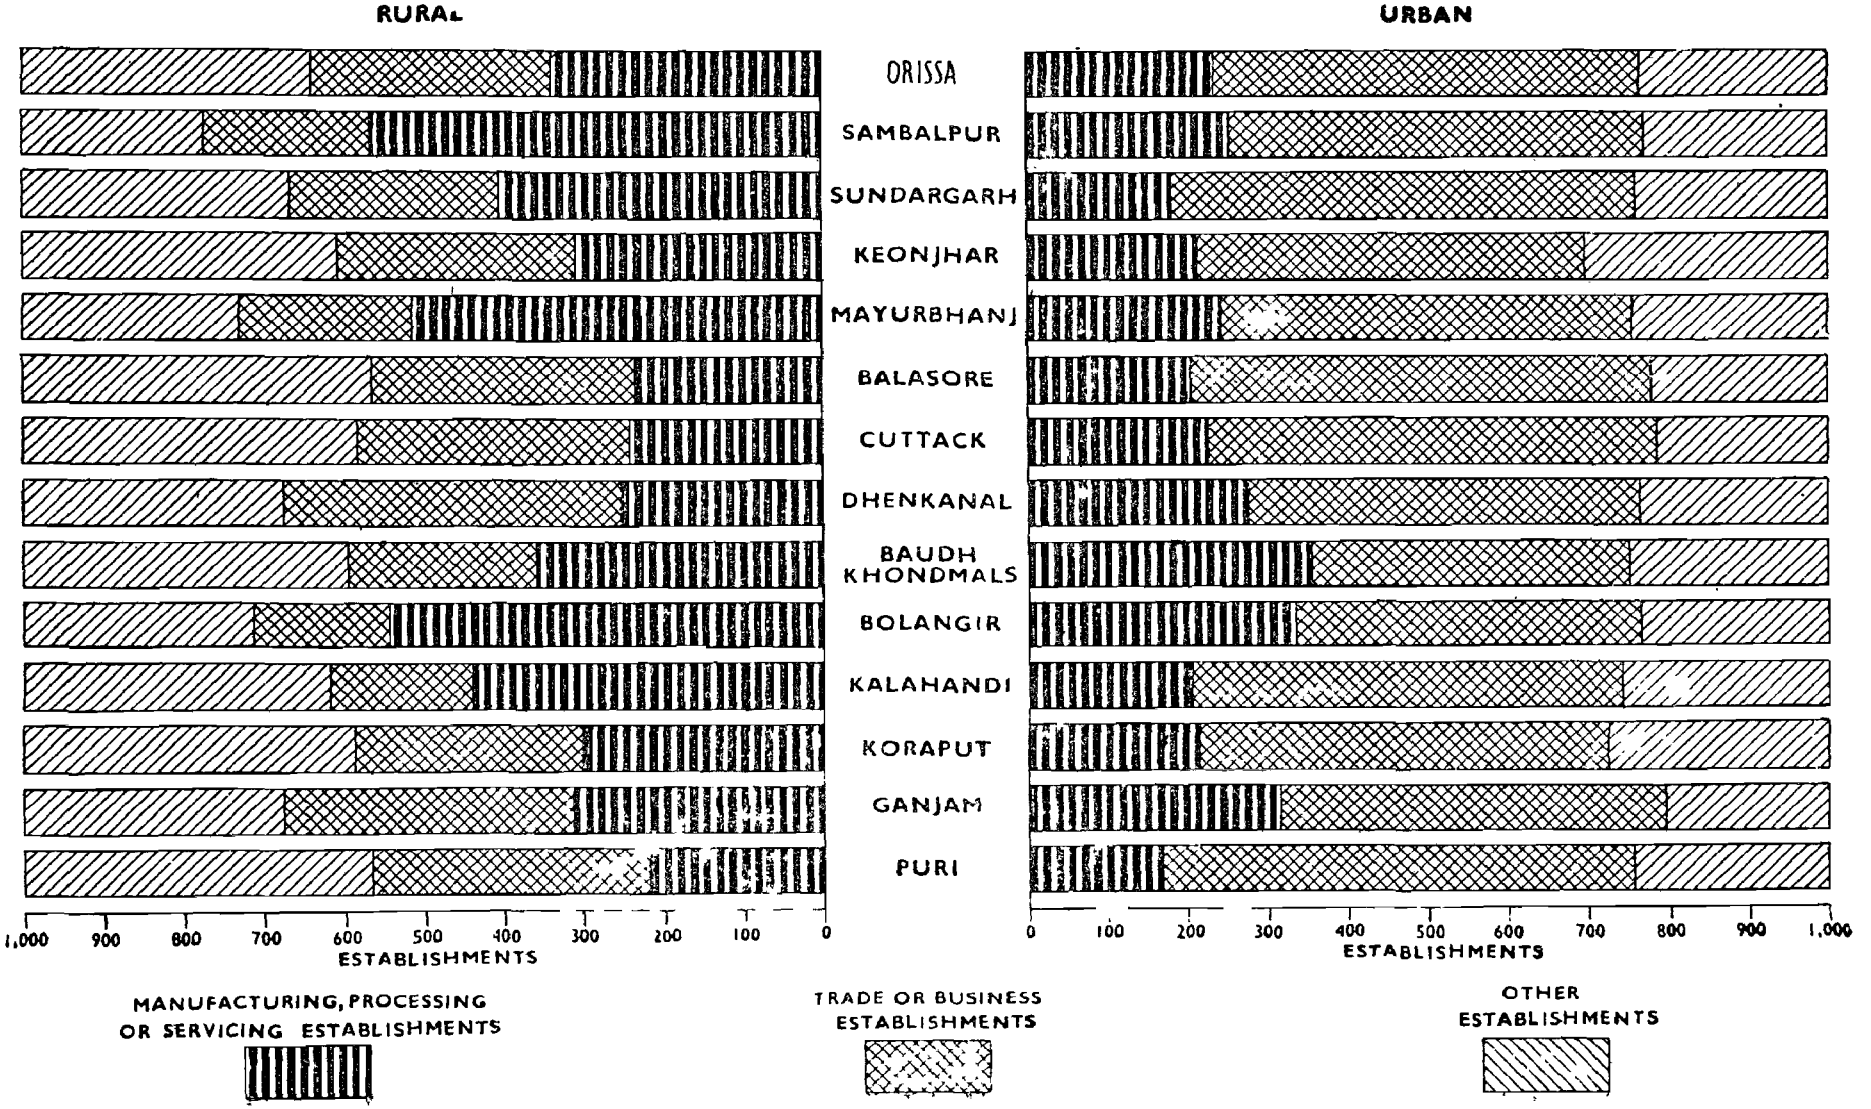

SAMBALPUR DISTRICT

Total number of establishments	48,154	100·00
Manufacturing, processing or servicing establishments ...	24,596	51·08%
Trade or business establishments	12,554	26·07%
Other establishments ...	11,004	22·85%

In this district, the largest proportion of establishments belong to the category manufacturing, processing or servicing while those under 'trade and establishments' and 'other establishments' trail far behind. This predominance of manufacturing, processing or servicing establishments in this district can be explained by the concentration of handloom weavers. Sambalpur is renowned for its handloom fabrics not merely in the country but also abroad. Besides, a large number of medium and

DISTRIBUTION OF 1,000 ESTABLISHMENTS BY THREE BROAD TYPES

IN THE RURAL AND URBAN AREAS SEPARATELY

small scale and village industries have come up in this district in and around Hirakud, Jharsuguda, Brajrajnagar, Bargarh, etc. Owing to the availability of irrigation all the year round from Hirakud, the agricultural production in this district has increased by leaps and bounds and has given rise to a large number of agricultural processing units. It would, therefore, be perhaps possible to conclude that the economy of the district of Sambalpur revolves around manufacturing, processing or servicing in addition to agriculture.

SUNDARGARH DISTRICT

Total number of establishments	18,222	100·00
Manufacturing, processing or servicing establishments ...	5,851	32·11%
Trade or business establishments	6,911	37·93%
Other establishments ...	5,460	29·96%

In this district, the three types of establishments appear to be fairly evenly distributed, though trade or business establishments (37·93 per cent) are slightly ahead of manufacturing, processing or servicing establishments (32·11 per cent). Such a phenomenon can be attributed to the intensification of secondary activity which is a direct result of the existence of the giant steelplant and fertiliser plant in Rourkela as also the large industries located in Kansbahal, Rajgangpur, Birmitrapur and other places.

KEONJHAR DISTRICT

Total number of establishments	13,317	100·00
Manufacturing, processing or servicing establishments ...	3,881	29·14%
Trade or business establishments	4,393	32·99%
Other establishments ...	5,043	37·87%

This district presents a somewhat different picture in that the proportion of other establishments (37·87 per cent) is the highest followed by trade or business establishments (32·99 per cent). The proportion of manufacturing, processing or servicing establishments at 29·14 per cent is also not insignificant. The first named category consists mostly of Government establishments supplemented by those connected with forestry, livestock and fishing and mining. The proportion of trading or business establishments is also significant as this is a mining district and is also adjacent to the State of Bihar with which trade and commerce is brisk.

MAYURBHANJ DISTRICT

Total number of establishments	21,546	100·00
Manufacturing, processing or servicing establishments ...	10,573	49·07%
Trade or business establishments	5,215	24·20%
Other establishments ...	5,758	26·73%

It would be seen that in this district nearly half of the total establishments belong to the category of manufacturing, processing or servicing while the other half is more or less equally distributed between trade or business establishments and other establishments. The preponderance of the former category is mainly due to the large number of household industries in this district which specialise in rope-making and relating to other forest products.

BALASORE DISTRICT

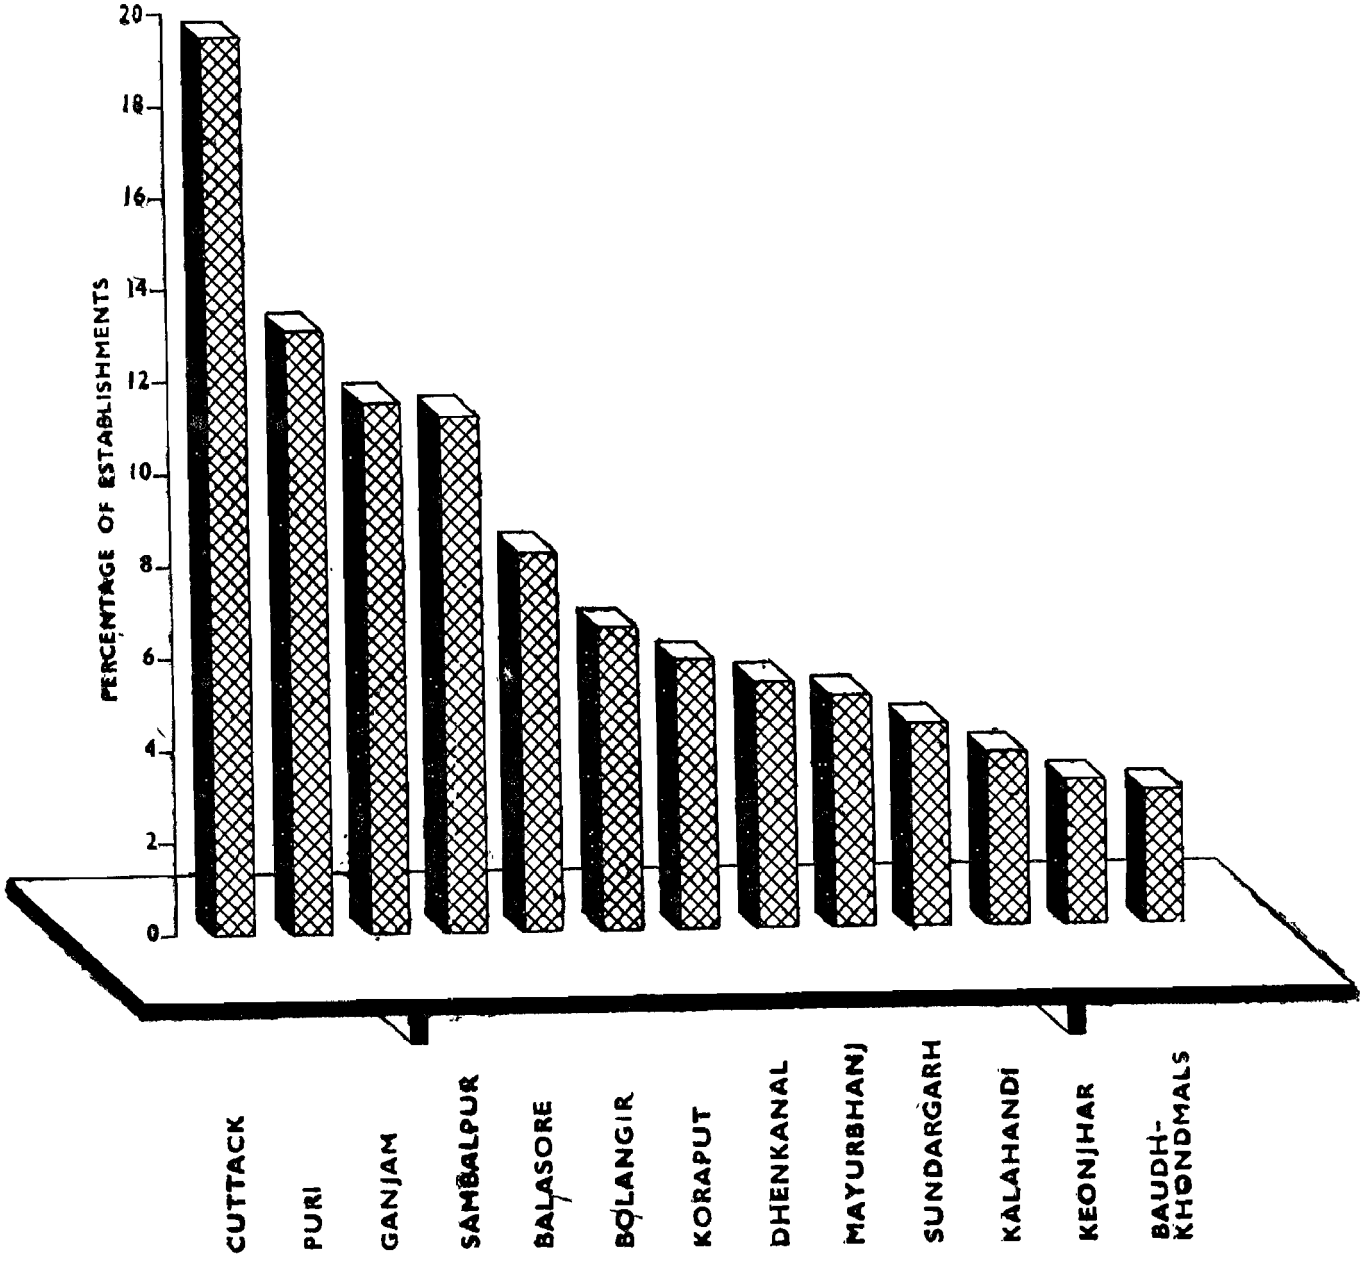

Total number of establishments	34,957	100·00
Manufacturing, processing or servicing establishments ...	8,134	23·27%
Trade or business establishments	12,722	36·39%
Other establishments ...	14,101	40·34%

The coastal district of Balasore presents a somewhat different picture ; other establishments in this district account for the largest proportion (40·34 per cent) while trade or business establishments come next with 36·39 per cent and manufacturing, processing or servicing establishments are far behind with a proportion as low as 23·27 per cent. The bulk of the other establishments is accounted for by those rendering social service like schools, hospitals, community centres, etc.

ORISSA

DISTRIBUTION OF ALL ESTABLISHMENTS

AMONG THE DISTRICTS

CUTTACK DISTRICT

Total number of establishments	83,674	100·00
Manufacturing, processing or servicing establishments ...	19,969	23·86%
Trade or business establishments	31,802	38·01%
Other establishments ...	31,903	38·13%

Cuttack, another coastal district which is the most advanced among all the districts in the State has almost an equal proportion of establishments under the categories trade or business and other establishments while the proportion under manufacturing, processing or servicing is comparatively small at 23·86 per cent. The near parity between other establishments and trade or business establishments denotes the progress of this district in the spheres of trade and commerce as well as education, public health, Government offices, etc. Establishments under manufacturing, processing or servicing no doubt account for a low proportion of the total establishments in this district, but the number of such establishments is quite large (19,969) coming only second to the district of Sambalpur. Another feature may be noticed is that the district of Cuttack has the largest number of establishments (83,674) among the districts of the State leading even Sambalpur, the second rank district by nearly 35 thousand. This is a pointer to the advancement of the district in the sphere of economic and social activity.

DHENKANAL DISTRICT

Total number of establishments	22,723	100·00
Manufacturing, processing or servicing establishments ...	5,803	25·54%
Trade or business establishments	9,778	43·03%
Other establishments ...	7,142	31·43%

In this district the highest proportion of establishments (43·03 per cent) are trade or business establishments followed by other establishments (31·43 per cent) and manufacturing, processing or servicing establishments (25·54 per cent) in that order. It would thus appear that the majority of establishments in this district are connected with trade and commerce consisting predominantly of wholesale and retail establishments, hotels and restaurants.

BAUDH-KHONDMALS DISTRICT

Total number of establishments	11,790	100·00
Manufacturing, processing or servicing establishments ...	4,232	35·90%
Trade or business establishments	2,910	24·68%
Other establishments ...	4,648	39·42%

In this backward district the proportion of other establishments is the highest at 39·42 per cent closely followed by manufacturing, processing or servicing establishments (35·90 per cent) whereas the proportion of trade or business establishments is rather low at 24·68 per cent. The backwardness of this district would be evident from the fact that the other establishments almost exclusively consist of Government offices, hospitals, schools, etc., while manufacturing, processing or servicing establishments are mostly household industries connected with forest products (mat-making, broom-making, handloom, pottery, etc.). Incidentally the number of establishments in this district which stands at 11,790 is the lowest for any district in the State.

BOLANGIR DISTRICT

Total number of establishments	27,714	100·00
Manufacturing, processing or servicing establishments ...	14,301	51·60%
Trade or business establishments	5,614	20·26%
Other establishments ..	7,799	28·14%

Bolangir district has the distinction of having the highest proportion (51·60 per cent) of establishments under manufacturing, processing and servicing for any district in the State (Sambalpur comes a close second 51·08 per cent). Other establishments account for 28·14 per cent while trade or business establishments comprise 20·26 per cent of the total establishments respectively. This district is renowned for its handloom industry. The bulk of the establishments under manufacturing, processing or servicing

are therefore accounted for by handloom industries. Bell-metal industries for which this district is well known, also contribute considerably to the total establishments under manufacturing, processing or servicing.

KALAHANDI DISTRICT

Total nun.ber of establishments	15,688	100·00
Manufacturing, processing or servicing establishments ...	6,466	41·22%
Trade or business establishments	3,486	22·22%
Other establishments ...	5,736	36·56%

In this district again the highest proportion of establishments belong to the category of manufacturing, processing or servicing covering 41·22 per cent of total establishments. Next comes the category of other establishments (36·56 per cent) while trade or business establishments at 22·22 per cent come last. The manufacturing, processing or servicing establishments mainly consist of traditional household industries like handloom, pottery, confectionary (gudia), etc. The other establishments predominantly consist of Government offices, educational institutions, public health institutions, etc.

KORAPUT DISTRICT

Total number of establishments	24,847	100·00
Manufacturing, processing or servicing establishments ...	6,984	28·11%
Trade or business establishments	8,438	33·96%
Other establishments ..	9,425	37·93%

In this district the highest proportion goes under other establishments accounting for 37·93 per cent of the total establishments. These mainly consist of educational institutions, Government offices, hospitals, dispensaries, etc. Trade or business establishments come second with 33·96 per cent while manufacturing, processing or servicing establishments come last with a proportion of 28·11 per cent.

GANJAM DISTRICT

Total number of establishments	49,336	100·00
Manufacturing, processing or servicing establishments ...	15,426	31·27%
Trade or business establishments	19,320	39·16%
Other establishments ...	14,590	29·57%

This district has the third largest number (49,336) of establishments among the districts of the State, the highest proportion (39·16 per cent) of which are trade or business establishments. Next in order come manufacturing, processing or servicing establishments with a proportion of 31·27 per cent while other establishments occupy the third position with a percentage of 29·57. The low proportion of other establishments in this district as compared to the corresponding proportion in other advanced districts like Cuttack, Balasore and Puri appear somewhat unusual.

PURI DISTRICT

Total number of establishments	56,099	100·00
Manufacturing, processing or servicing establishments ...	11,864	21·15%
Trade or business establishments	21,798	38·86%
Other establishments ...	22,437	39·99%

Puri is coastal district and as such is one of the advanced districts in the State. It also has the distinction of having the second largest number of establishments (56,099) in the State. Of the three kinds of establishments, the other establishments claim the highest proportion in this district (39·99 per cent). Most of these establishments happen to be educational institutions, Government offices, medical institutions, etc. The high proportion of this category of establishments can be explained by the fact that Bhubaneswar, the State's capital is located within the jurisdiction of this district. Trade or business establishments also are very close behind with a percentage of 38·86. This relatively high proportion could be due to the concentration of a large number of shops and eating houses in the pilgrim towns of Puri and Bhubaneswar.

From the foregoing analysis, it would be safe to assume that no pattern of any kind emerges and that the distribution of establishments under the main three categories in a district is influenced solely by the peculiarities of that district.

Distribution of Establishments in (*a*) Government or Quasi-Government, (*b*) Private and (*c*) Co-operative Sectors

The establishments in the State which have been broadly divided into three categories on the basis of their predominant function may be further examined from the angle of the ownership thereof. For this purpose the establishments in the State may be divided into (*a*) Government or quasi-Government establishments, (*b*) Private establishments and (*c*) Co-operative establishments. The definition of each category may be found in Appendix I.

The following statement gives the distribution of establishments under each broad type by three broad sectors for the State as a whole.

STATEMENT II.2

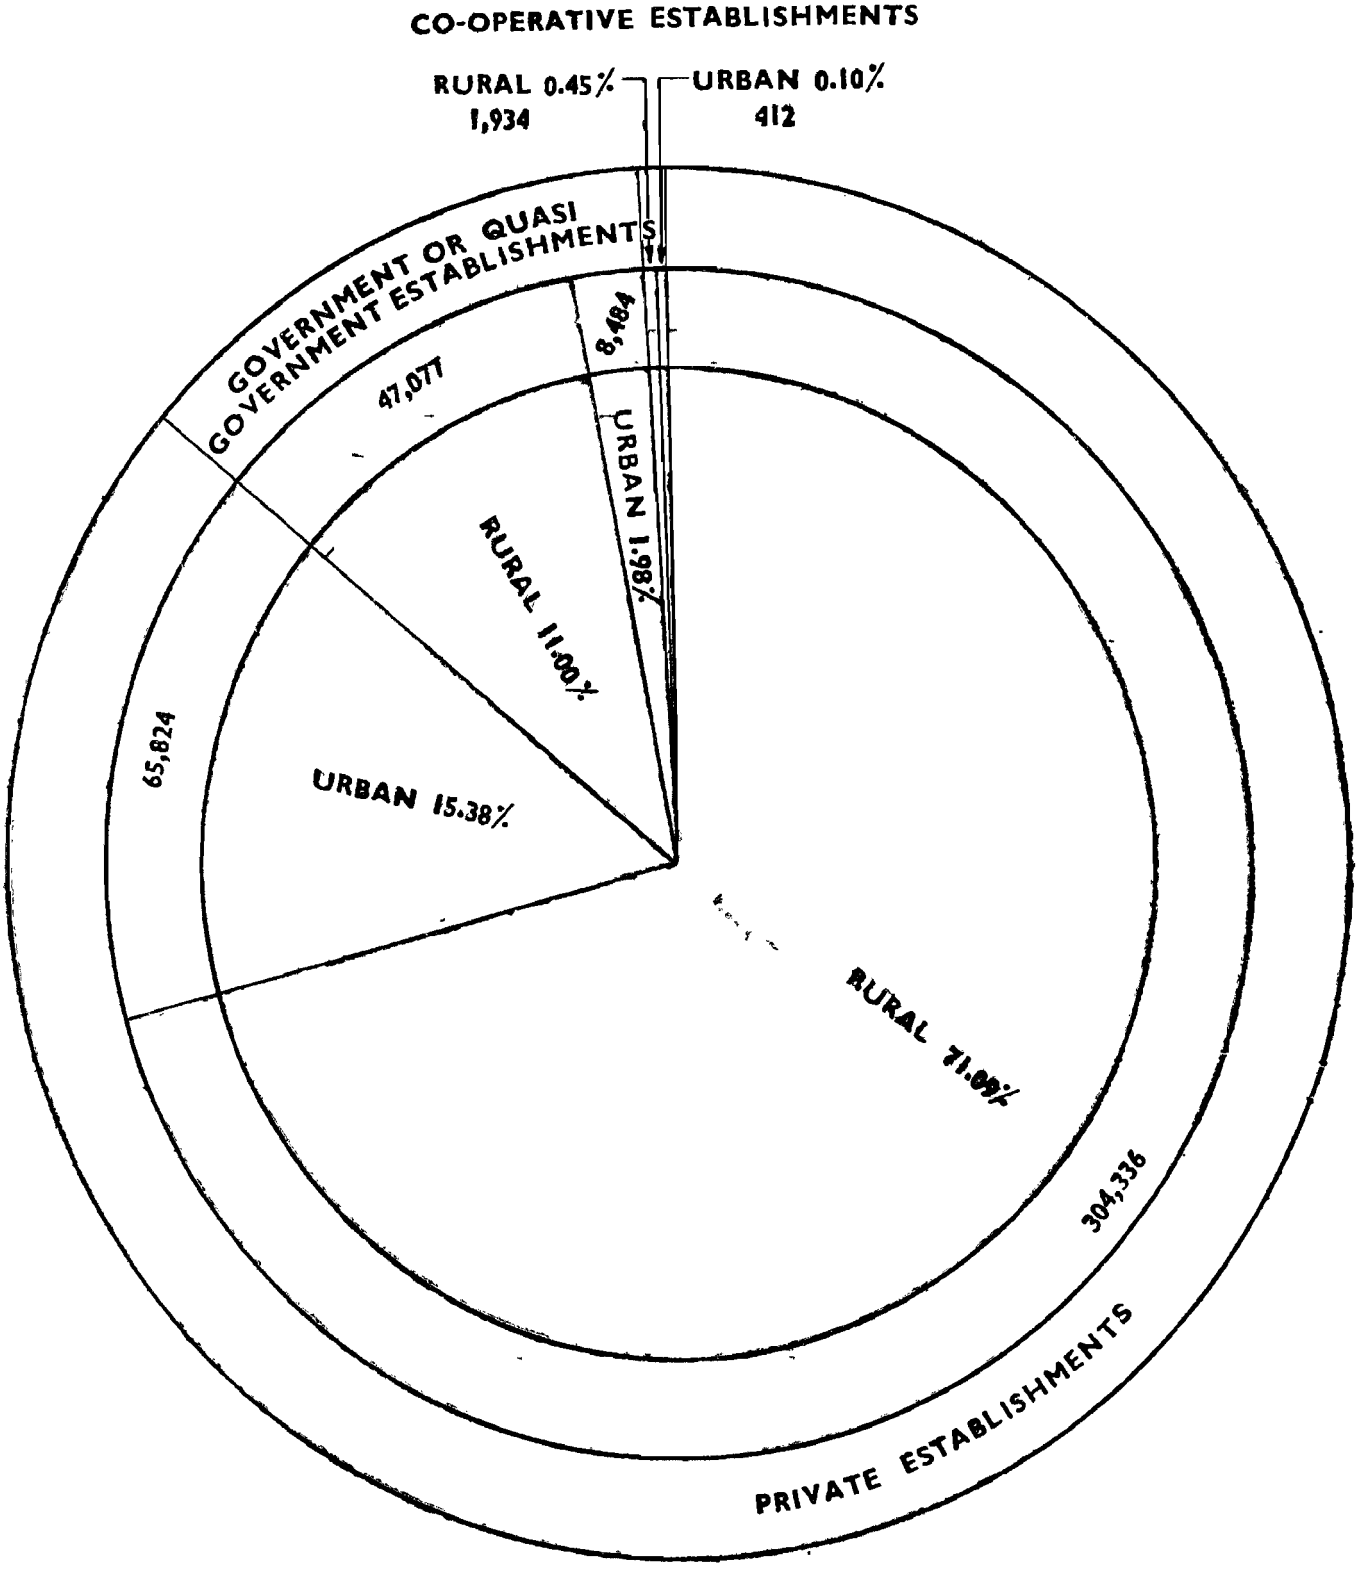

Distribution of Establishments under each broad type by three broad sectors

Broad sector of Establishments	Broad type of Establishments					
	Manufacturing, processing or servicing Establishments		Trade or Business Establishments		Other Establishments	
	Number	Percentage distribution in each sector	Number	Percentage distribution in each sector	Number	Percentage distribution in each sector
1	2	3	4	5	6	7
TOTAL	138,080	100·00	144,941	100·00	145,046	100·00
Government or quasi-Government Establishments	717	0·52	4,518	3·12	50,326	34·70
Private Establishments	137,158	99·33	138,586	95·61	94,416	65·09
Co-operative Establishments	205	0·15	1,837	1·27	304	0·21

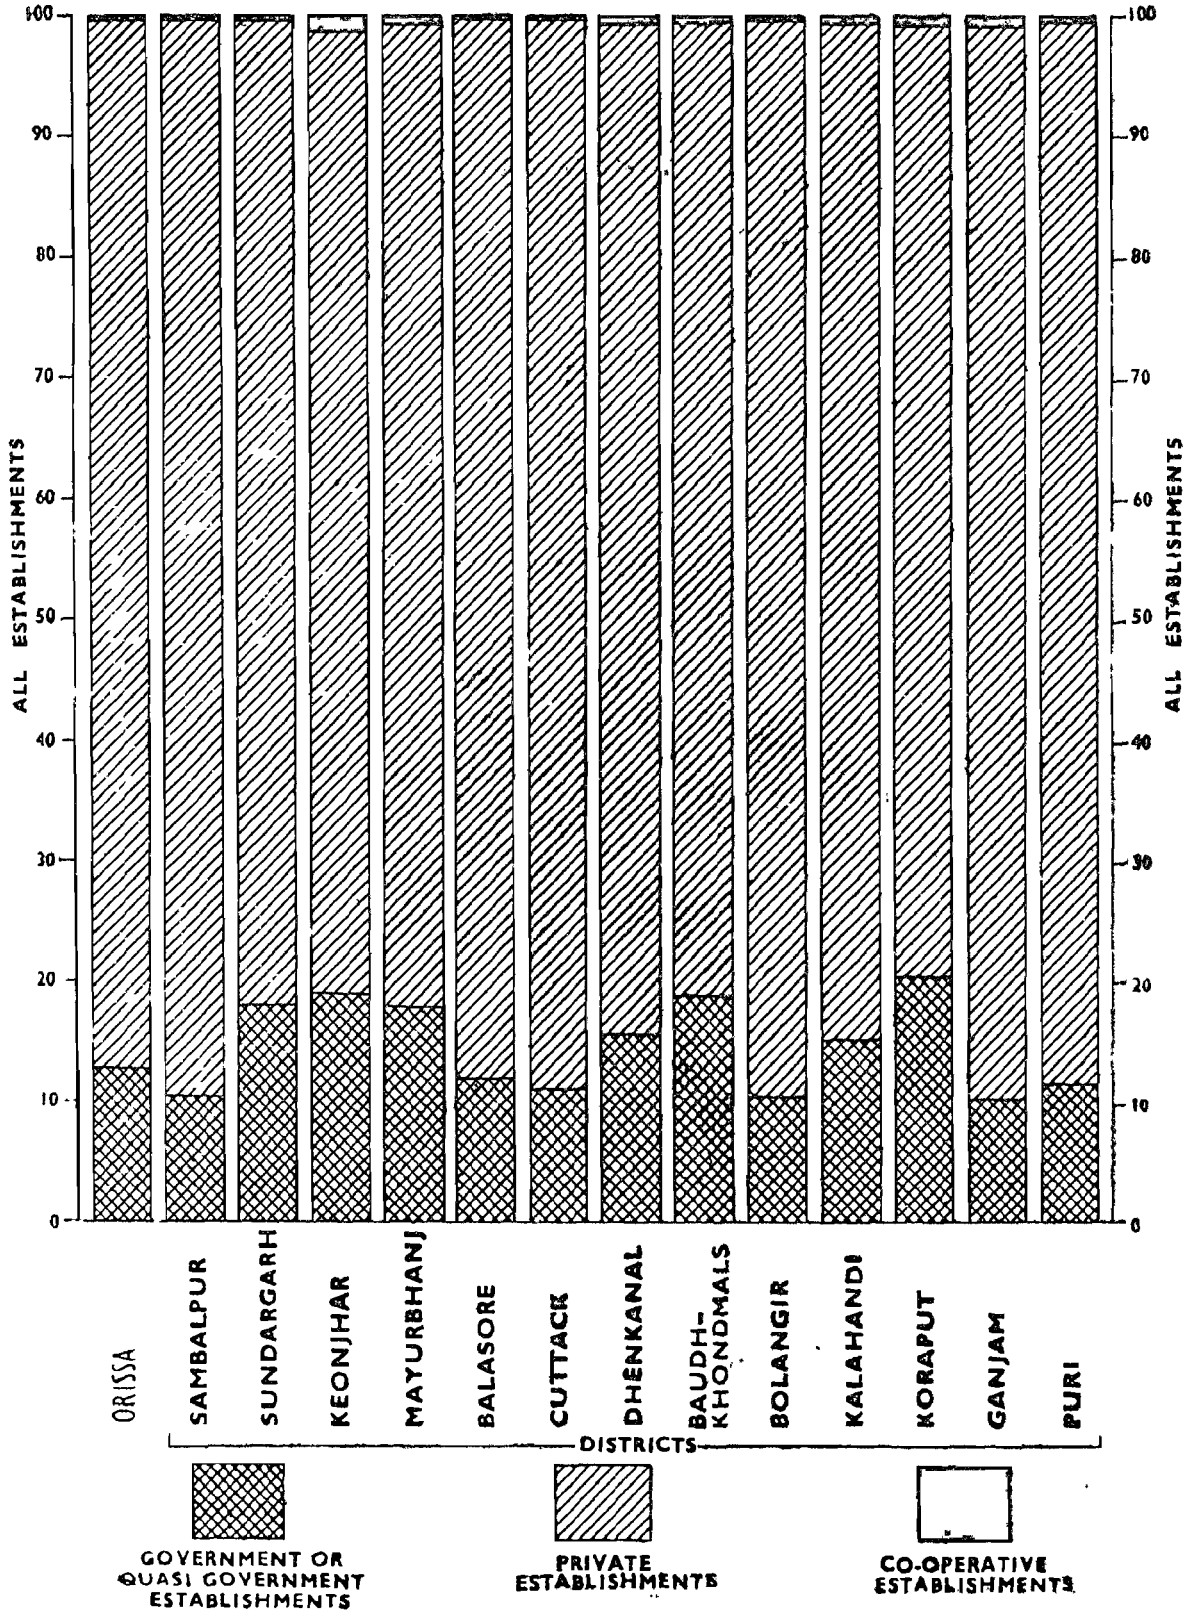

It would be noticed that an overwhelming proportion (137,158 or 99·33 per cent) of a total of 138,080 establishments engaged in manufacturing, processing or servicing are in the private sector. Government and quasi-Government establishments of this type account for a total of 717 making a low proportion of 0·52 per cent. Such establishments in the co-operative sector are still fewer (205) making as little as 0·15 per cent of the total establishments of this type.

Under trade or business establishments, the position does not seem to be any different in as much as 138,586 or 95·61 per cent of the total establishments of this type again are in the private sector while Government or quasi-Government establishments stand at 4,518 making 3·12 per cent. Co-operative establishments in this type again come last with a proportion of 1·27 per cent (1,837). It would be recalled that under this type of establishment come Government offices, educational institutions like schools and colleges ; public health institutions like hospitals, primary health centres and dispensaries and such miscellaneous establishments as laundries, hair-cutting saloons, cinema houses, temples, etc. Out of a total number of 145,046 establishments of this type, the proportion in the private sector is only 65·09 per cent or 94,416. The proportion in the Government or quasi-Government sector is considerably higher at 34·70 per cent than in the other two types. The proportion of co-operative sector again is as low as 0·21 per cent in this type of

PROPORTION OF ALL ESTABLISHMENTS BY GOVERNMENT OR QUASI GOVERNMENT, PRIVATE & CO-OPERATIVE BY RURAL AND URBAN BREAK UP IN THE STATE OF ORISSA

DISTRIBUTION OF ALL ESTABLISHMENTS BY GOVERNMENT OR QUASI GOVERNMENT, PRIVATE AND CO-OPERATIVE SECTORS IN THE STATE AND IN EACH DISTRICT

establishment. The higher contribution of the Government/quasi-Government sector in this type of establishment is explained by the fact that most of the educational and medical institutions in the State are wholly owned by the Government or are aided by it.

It would be interesting to view the distribution of establishments under each sector into three broad categories of establishments. The following statement may be studied.

STATEMENT II. 3

Distribution of Establishments under each sector by broad types

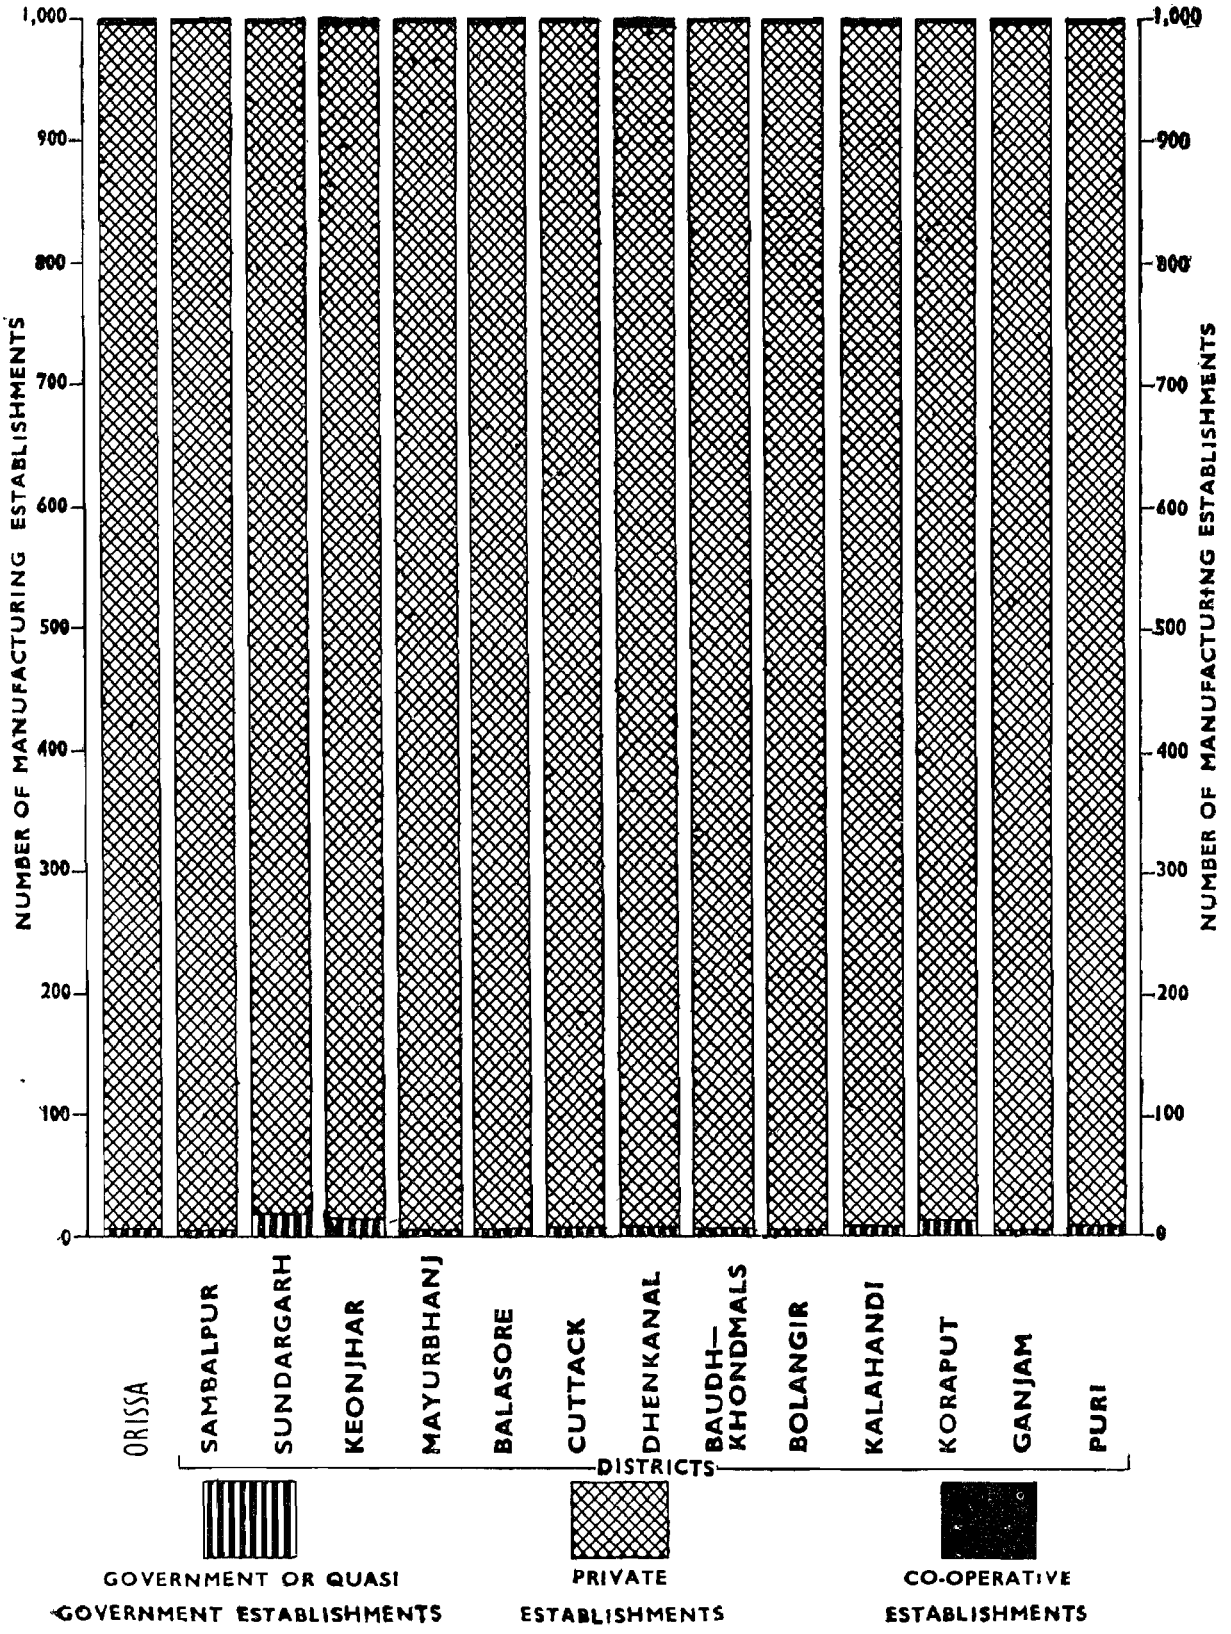

oard type of Establishments	Broad sector of Establishments					
	Government or quasi-Government Establishments		Private Establishments		Co-operative Establishments	
	Number	Percentage distribution in each type	Number	Percentage distribution in each type	Number	Percentage distribution in each type
1	2	3	4	5	6	7
TOTAL	55,561	100·00	370,160	100·00	2,346	100·00
Manufacturing, processing or servicing	717	1·29	137,158	37·05	205	8·74
Trade or business	4,518	8·13	138,586	37·44	1,837	78·30
Other establishments	50,326	90·58	94,416	25·51	304	12·96

Out of 55,561 Government/quasi-Government establishments, the highest proportion (90·58 per cent) is claimed by 'other establishments'. Trade or business establishments come next with a proportion of 8·13 per cent of the total Government establishments while manufacturing, processing or servicing establishments form as low a proportion as 1·29 per cent. The distribution of private establishments into the three categories appears to be somewhat more balanced. Trade or business establishments claim the highest proportion (37·44 per cent) closely followed by manufacturing, processing or servicing establishments (37·05 per cent). 'Other establishments' also have a fairly substantial representation in the private sector contributing 25·51 per cent to the total private establishments. Co-operative establishments, which are of a fairly recent origin number as few as 2,346. Of these, 1,837 or 78·30 per cent are trade or business establishments while 304 (12·96 per cent) are other establishments. Manufacturing, processing or servicing establishments comprise a low 8·74 per cent in the co-operative sector.

From the above analysis it would be evident that the major proportion of establishments is in the private sector, the contribution of Government/quasi-Government and co-operative sectors being low. Another significant point that is evident is that the manufacturing, processing or servicing establishments are predominantly in the private sector. Even other establishments (in which the contribution of Government/quasi-Government sector is comparatively higher), are found to be mostly in the private sector.

The distribution of manufacturing, processing and repairing establishments by public, private and co-operative sectors in each of the districts of the State may now be studied.

	(b)	100·00	0·57	99·18	0·25

(a)=Absolute figures (b)=Percentage distribution

The pattern of distribution for the State as a whole applies more or less to all the districts with only slight variation. Thus the proportion of this category of establishments in the private sector ranges from 99·68 per cent to 98·08 per cent in the different districts; in the co-operative sector it varies from 0·06 per cent to 0·31 per cent while in the public sector from 0·19 per cent to 1·85 per cent. Excepting three districts, *viz.*, Sundargarh, Koraput and Keonjhar, the proportion of these establishments in the public sector in all the other districts is less than 1 per cent, the State average being 0·52 per cent. The proportion in Sundargarh district is 1·85 per cent, in Koraput 1·08 per cent and that in Keonjhar 1·29 per cent. Among the important public sector industries in Sundargarh district are the Steel Plant and Fertiliser Plant at Rourkela. Location of these major industries in Sundargarh district has naturally led to the growth of a large number of ancillary industries, both in the public and private sectors for the purpose of supplying the requirements of the Steel Plant, also making use of the by-products of the Steel Plant. In Keonjhar district the most important public sector industry is the low shaft pig iron plant at Barbil, run by the State Industrial Development Corporation.

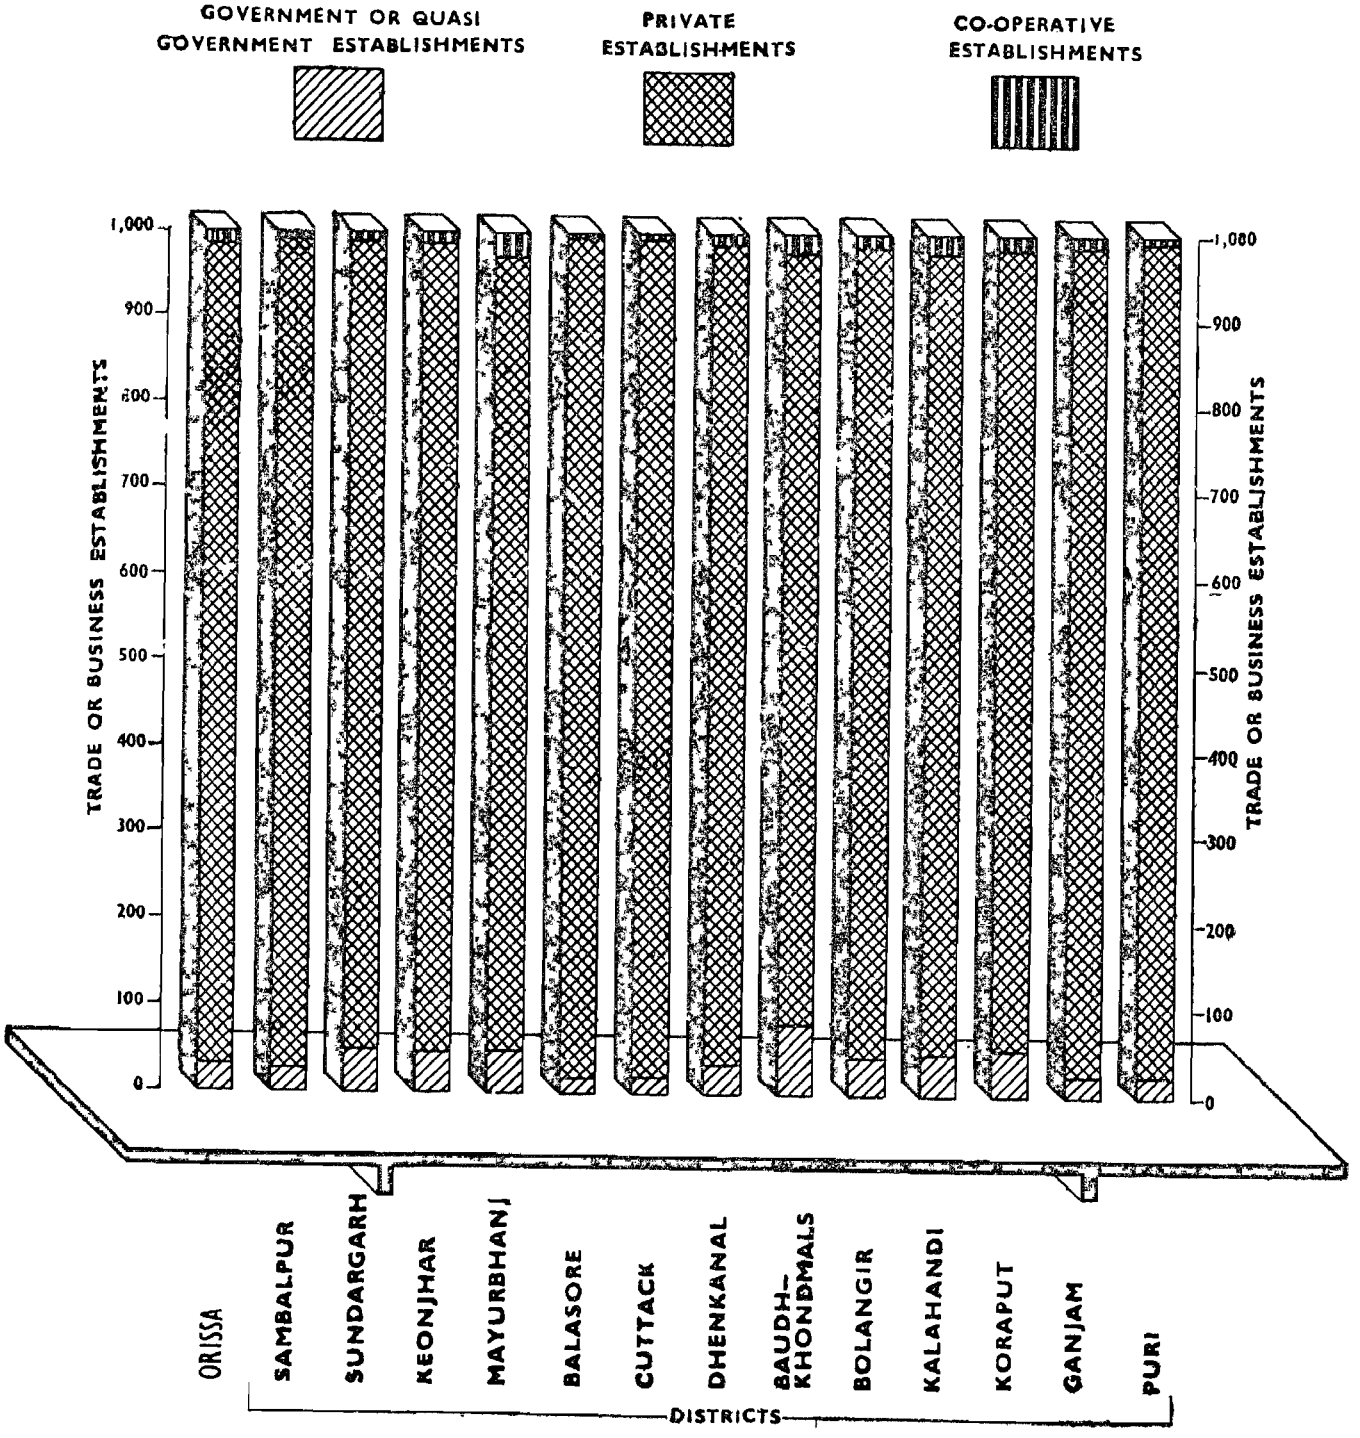

The districtwise distribution of Trade and business establishments by the three sectors is given in the following statement.

STATEMENT II.5

Puri	(a)	21,798	520	21,067	211
	(b)	100·00	2·38	96·65	0·97

(a)=Absolute figures (b)=Percentage distribution

As in case of manufacturing, processing and repairing establishments, the private sector owns most of the trade and business establishments too.

Looking at the districts we find that the position is almost uniform in respect of the proportion of the private sector, which varies between 97·48 per cent (Balasore district) and 89·48 per cent (Baudh-Khondmals district). The proportion in the other districts is invariably above 90 per cent. The Government/quasi-Government sector comes a very distant second with a proportion varying between 5·52 per cent in Koraput district and 1·81 per cent in Balasore district. The proportion in the district of Baudh-Khondmals appears particularly prominent with a high figure of 8·11 per cent. This is probably due to the fact that trade and business under Government auspices or under the Government encouragement in backward district is being encouraged to save the adibasis from exploitation. This assumption gains further support when we consider the proportion of the co-operative sector in the districts. The highest proportion is claimed by the adibasi districts of Mayurbhanj (3·05 per cent) and Baudh-Khondmals (2·41 per cent) where the co-operative movement in trade and business is being assiduously nourished under Government assistance with a view to improving the economic condition of the adibasis. The proportion in the other districts in the co-operative sector is not very significant and hovers around 1 per cent.

The districtwise distribution of 'Other establishments' by the three sectors is given in the following statement.

STATEMENT II.6

Distribution of Government or quasi-Government, Private and Co-operative sector of establishments in the category of 'Other establishments'

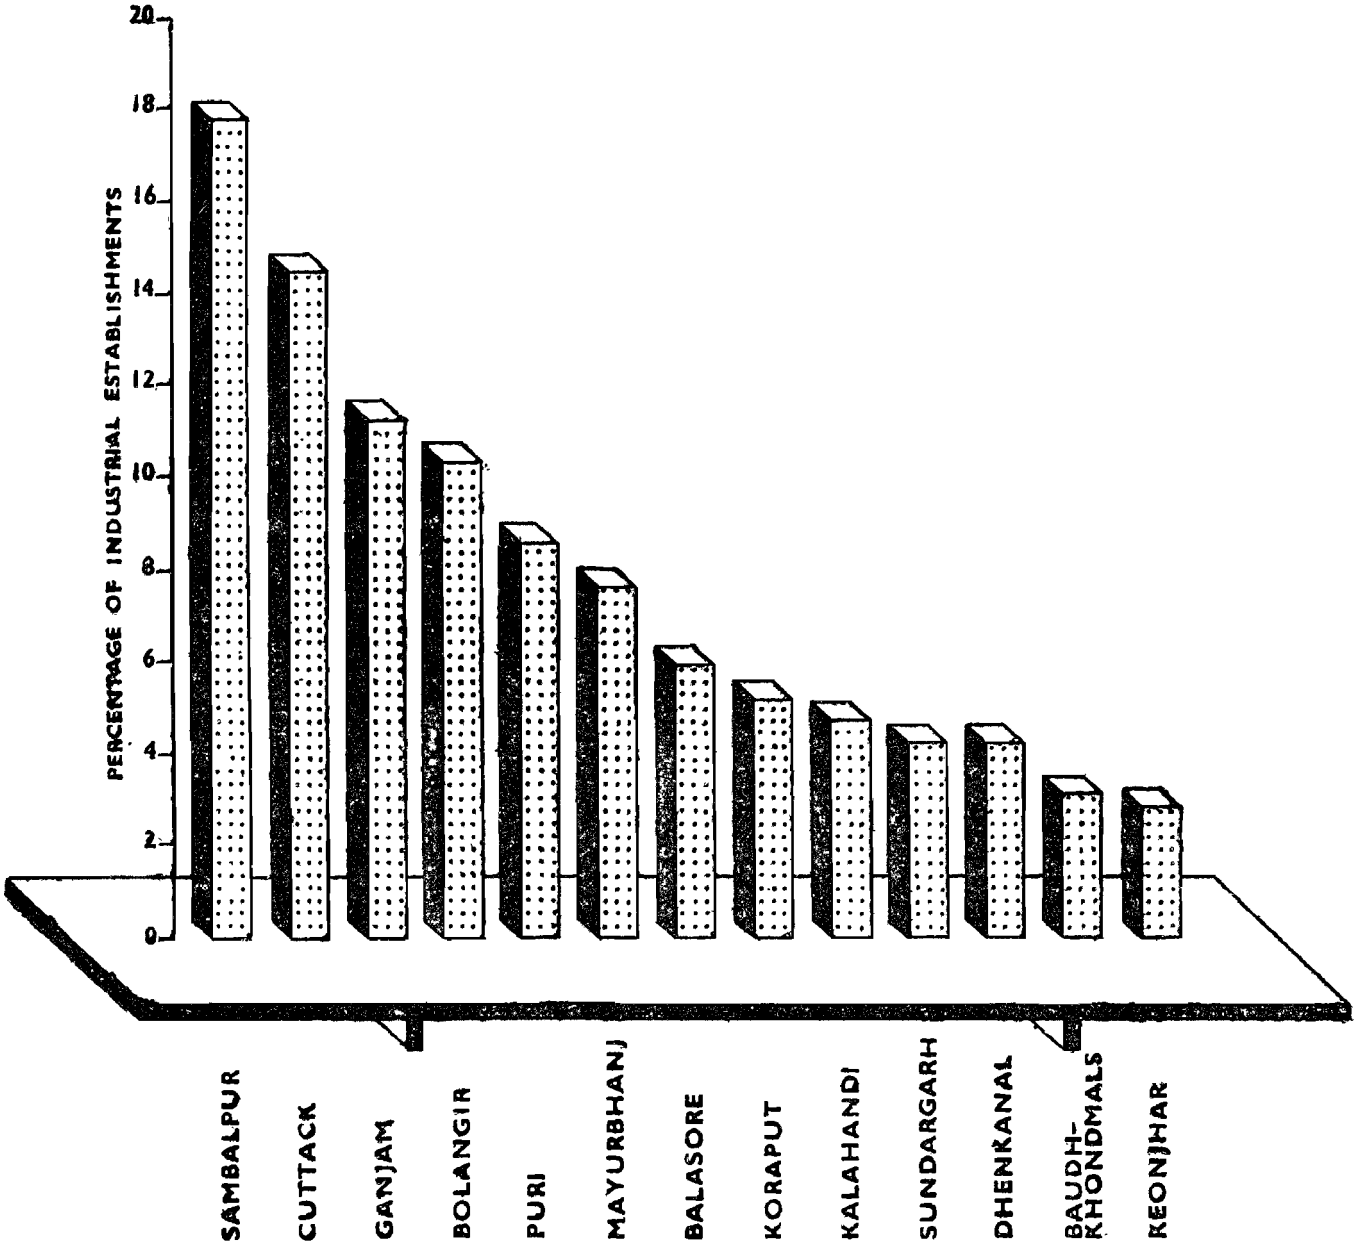

State/ District		Total No. of other establish-ments	Government and quasi-Government establish-ments	Private establish-ments	Co-ope-rative establish-ments

	(b)	100·00	32·04	67·67	0·29
Puri	(a)	22,437	5,928	16,492	17
	(b)	100·00	26·42	73·50	0·08

(a)=Absolute figures (b)=Percentage distribution

We have seen that for the State as a whole, the proportion of other establishments in the Government/quasi-Government sector is significantly higher than the corresponding proportion in the other two categories of industries, *viz.*, manufacturing, processing or servicing and trade or business establishments, even though the major portion is still in the private sector. Looking at the distrists, this position more or less remains the same with the exception of Mayurbhanj and Sundargarh districts. Out of 5,758 other establishments in Mayurbhanj

ORISSA

DISTRIBUTION OF INDUSTRIAL ESTABLISHMENTS
(INCLUDING HOUSEHOLD INDUSTRY)
AMONG THE DISTRICTS

district, as many as 3,486 covering 60·54 per cent are found in the Government/quasi-Government sector whereas those under the private sector are only 2,255 or 39·16 per cent. The second district of this nature is Sundargarh where 51·61 per cent of other establishments are under the public sector and only 48·26 per cent under the private sector. These are the only two districts in which the general pattern, *viz.*, the predominance of the private sector over that of the Government/quasi-Government or co-operative sector does not hold good. The reason is perhaps traceable to the fact that both these districts are largely inhabited by the Scheduled Tribes and most of the offices, schools, hospitals, etc., have been promoted by the Government. By the same token, it can be seen that the proportion of 'other establishments' in the public-sector in the other Adibasi-predominant districts, *viz.*, Koraput, Baudh-Khondmals, Keonjhar and Dhenkanal, though not exceeding half, is significant. In the coastal districts like Balasore, Cuttack and Puri, the pattern is entirely different in that more than 70 per cent of the 'other establishments' are in the private sector with a correspondingly low figure in the public sector. So far as 'other establishments' in the co-operative sector are concerned, the proportion is so low in all the districts that no meaningful analysis can be attempted.

Manufacturing, processing or servicing establishments

It may be interesting to take the manufacturing, processing or servicing establishments separately and analyse the data from different angles. The following statement shows the distribution of such establishments among the districts of Orissa.

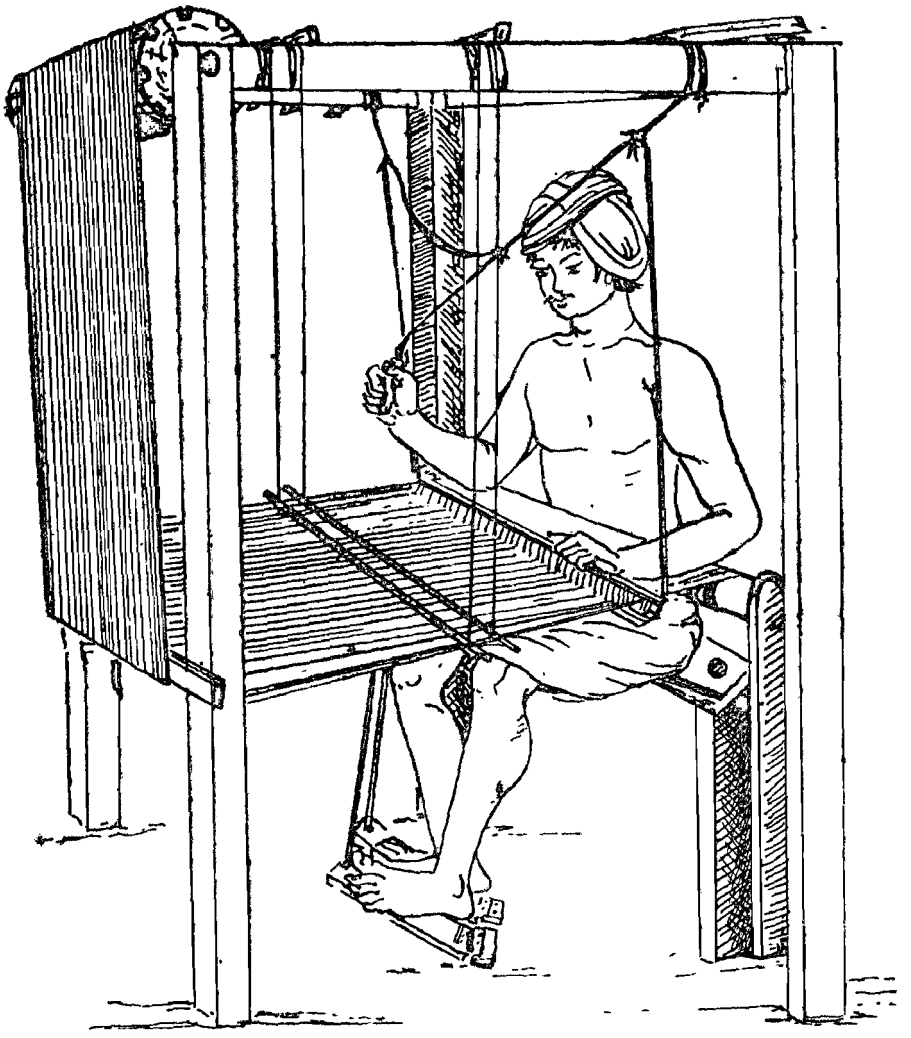

STATEMENT II.7

Distribution of manufacturing, processing or servicing establishments among the districts

State/District	Number of Establishments	Proportion of industrial establishments of each district to total industrial establishments of the State
1	2	3
ORISSA	138,080	100·00
Sambalpur	24,596	17·81
Sundargarh	5,851	4·24
Keonjhar	3,881	2·81
Mayurbhanj	10,573	7·66
Balasore	8,134	5·89
Cuttack	19,969	14·46
Dhenkanal	5,803	4·20
Baudh-Khondmals	4,232	3·07
Bolangir	14,301	10·36
Kalahandi	6,466	4·68
Koraput	6,984	5·06
Ganjam	15,426	11·17
Puri	11,864	8·59

Of all manufacturing, processing or servicing establishments numbering 138,080 in the State, Sambalpur district alone accounts for 17·81 per cent, which is the highest among all the districts, followed by Cuttack (14·46 per cent), Ganjam (11·17 per cent) and Bolangir (10·36 per cent). Keonjhar and Baudh-Khondmals districts have recorded the lowest proportion at 2·81 per cent and 3·87 per cent respectively.

The Establishment Schedule provides for classification of the manufacturing, processing and servicing establishments into three subdivisions, *viz.*, (*i*) Registered factories, (*ii*) Unregistered workshops and (*iii*) Household industries. While districtwise details of distribution of manufacturing, processing and servicing establishments in terms of these subdivisions are set out in Table E-I, the broad distribution of such establishments between the districts in absolute numbers and percentages is shown in the following statement.

The rural Handloom weaver is busy in weaving of textiles
(Manufacturing establishments)

Potter making earthen ware and earthen pottery

STATEMENT II.8

Distribution of registered factories, unregistered workshops and household industries among the districts

State/District	Registered factories		Unregistered workshops		Household Industries	
	Number	Percentage distribution in each district	Number	Percentage distribution in each district	Number	Percentage distribution in each district
1	2	3	4	5	6	7
ORISSA	1,442	100·00	24,573	100·00	112,065	100·00
Sambalpur	205	14·22	2,830	11·52	21,561	19·24
Sundargarh	156	10·82	1,137	4·63	4,558	4·07
Keonjhar	47	3·26	754	3·07	3,080	2·75
Mayurbhanj	66	4·58	1,139	4·63	9,368	8·36
Balasore	90	6·24	2,553	10·39	5,491	4·90
Cuttack	256	17·75	5,992	24·38	13,721	12·24
Dhenkanal	109	7·56	1,249	5·08	4,445	3·97
Baudh-Khondmals	13	0·90	288	1·17	3,931	3·51
Bolangir	89	6·17	1,145	4·66	13,067	11·66
Kalahandi	65	4·51	729	2·97	5,672	5·06
Koraput	119	8·25	988	4·02	5,877	5·24
Ganjam	104	7·21	2,670	10·87	12,652	11·29
Puri	123	8·53	3,099	12·61	8,642	7·71

The important point which the above statement brings into relief is the overwhelming predominance (112,065) of Household Industries as compared to Unregistered workshops (24,573) and Registered factories (1,442). The last named category of establishments are indeed but an insignificant proportion (1·04 per cent) of the total manufacturing, processing or servicing establishments in the State.

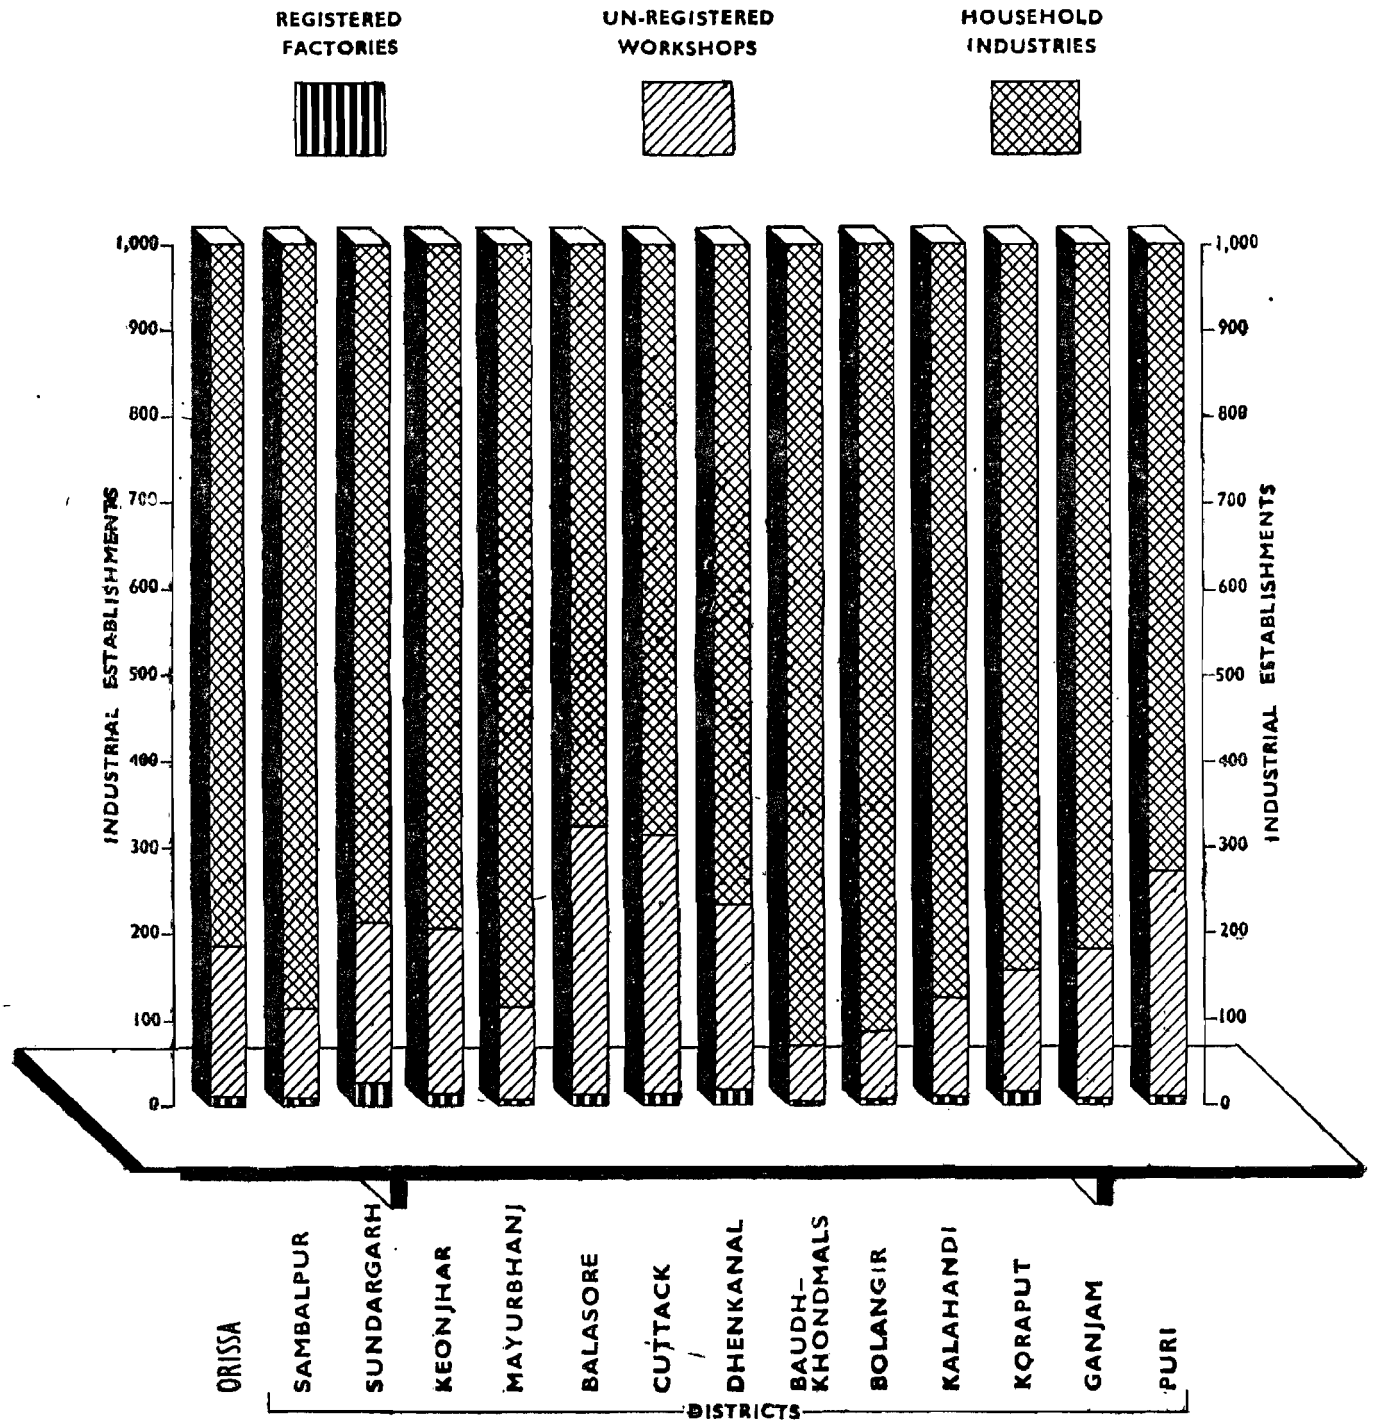

Coming to the districts, the proportion of **Household Industry** is the highest (19·24 per cent) in Sambalpur district followed by Cuttack (12·24 per cent), Bolangir (11·66 per cent) and Ganjam (11·29 per cent). The proportion of the other districts is comparatively very low, Keonjhar (2·75 per cent), Baudh-Khondmals (3·51 per cent) and Dhenkanal (3·97 per cent) showing a particularly small proportion.

So far as Unregistered workshops are concerned, the district of Cuttack contributes nearly a fourth (24·38 per cent) of such establishments. The distribution in the other districts shows wide variations. For example, the only other districts having more than 10 per cent each of this category of establishments are Puri (12·61 per cent), Sambalpur (11·52 per cent), Ganjam (10·87 per cent) and Balasore (10·39 per cent). In the rest of the districts, the proportion is very low, the lowest being in Baudh-Khondmals (1·17 per cent) and Kalahandi (2·97 per cent).

Registered factories which number as few as 1,442 in the entire State have the highest representation in Cuttack district (17·75 per cent), Sambalpur district (4·22 per cent) and Sundargarh district (10·82 per cent) in that order. The representation in the districts of Baudh-Khondmals (0·90 per cent) and Keonjhar (3·26 per cent) appears to be particularly poor.

The high proportion of Registered factories in Cuttack district is due to the location of large industries like Orissa Textile Mills, Kalinga Tubes, Titaghur Paper Mills and other large and medium industries at Chowdwar and concentration of small scale industries in Cuttack, Jagatpur, Jajpur, Kendrapara and a glass factory at Barang, all in Cuttack district. In Sambalpur district also have come up some large and medium industries like Bargarh Cement Factory, Hirakud Aluminium Factory, the refractory at Belpahar, Paper Mill at Brajrajnagar, etc. In the district of Sundargarh also within its jurisdiction the

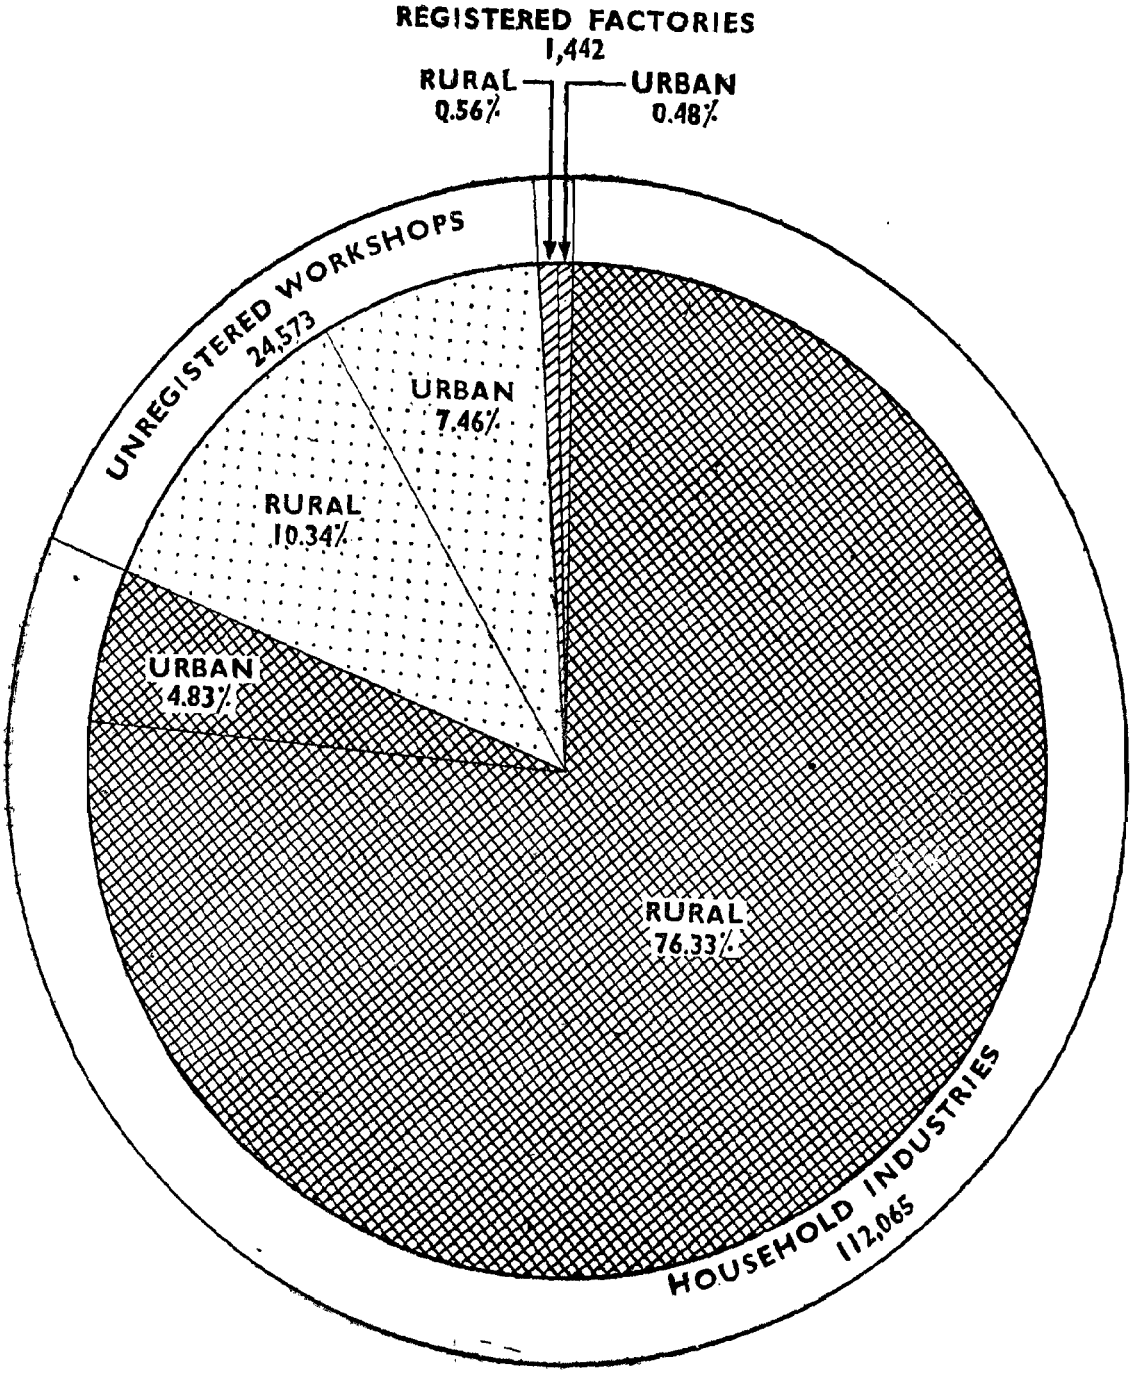

DISTRIBUTION OF MANUFACTURING, PROCESSING OR SERVICING ESTABLISHMENTS BY REGISTERED FACTORIES, UN-REGISTERED WORKSHOPS AND HOUSEHOLD INDUSTRY IN THE STATE AND IN EACH DISTRICT .

Manufacturing of bamboo products

PROPORTION OF REGISTERED FACTORIES, UNREGISTERED WORKSHOPS AND HOUSEHOLD INDUSTRY OUT OF ALL MANUFACTURING ESTABLISHMENTS BY RURAL AND URBAN BREAK UP IN THE STATE OF ORISSA

giant steel plant at Rourkela, some medium and large industries at Kansbahal and cement factory at Rajgangpur. The district of Koraput has the aeroengine factory of H. A. L., paper mill, sugar factory and ferro-silicon plant in and around Rayagada and some small scale industries promoted by the Dandakaranya project and the State Government. How far location of large industries in backward districts like Sundargarh and Koraput has been responsible to generate any appreciable economic progress in the areas is yet difficult to say ; the industries in these districts were mostly located on the considerations of availability of land, raw materials, electricity, etc. In the case of Cuttack and Sambalpur districts, enterprise of the local people might have played and additionally important part in locating industries. On the other hand traditional Household Industries which, atbest, enable the village artisans to live at the subsistence level, abound in all the districts, the proportion in a few districts like Sambalpur (handloom weavers), Cuttack (silver filigree, horn workers and handloom weavers) and Bolangir (handloom weavers, bell-metal workers, etc.) being particularly high.

Industrial establishments in Rural and Urban areas

The rural-urban distribution of manufacturing establishments in the State of Orissa and the districts is given in the following statement.

STATEMENT II.9

Distribution of Industrial Establishments between Rural and Urban in the State and different districts

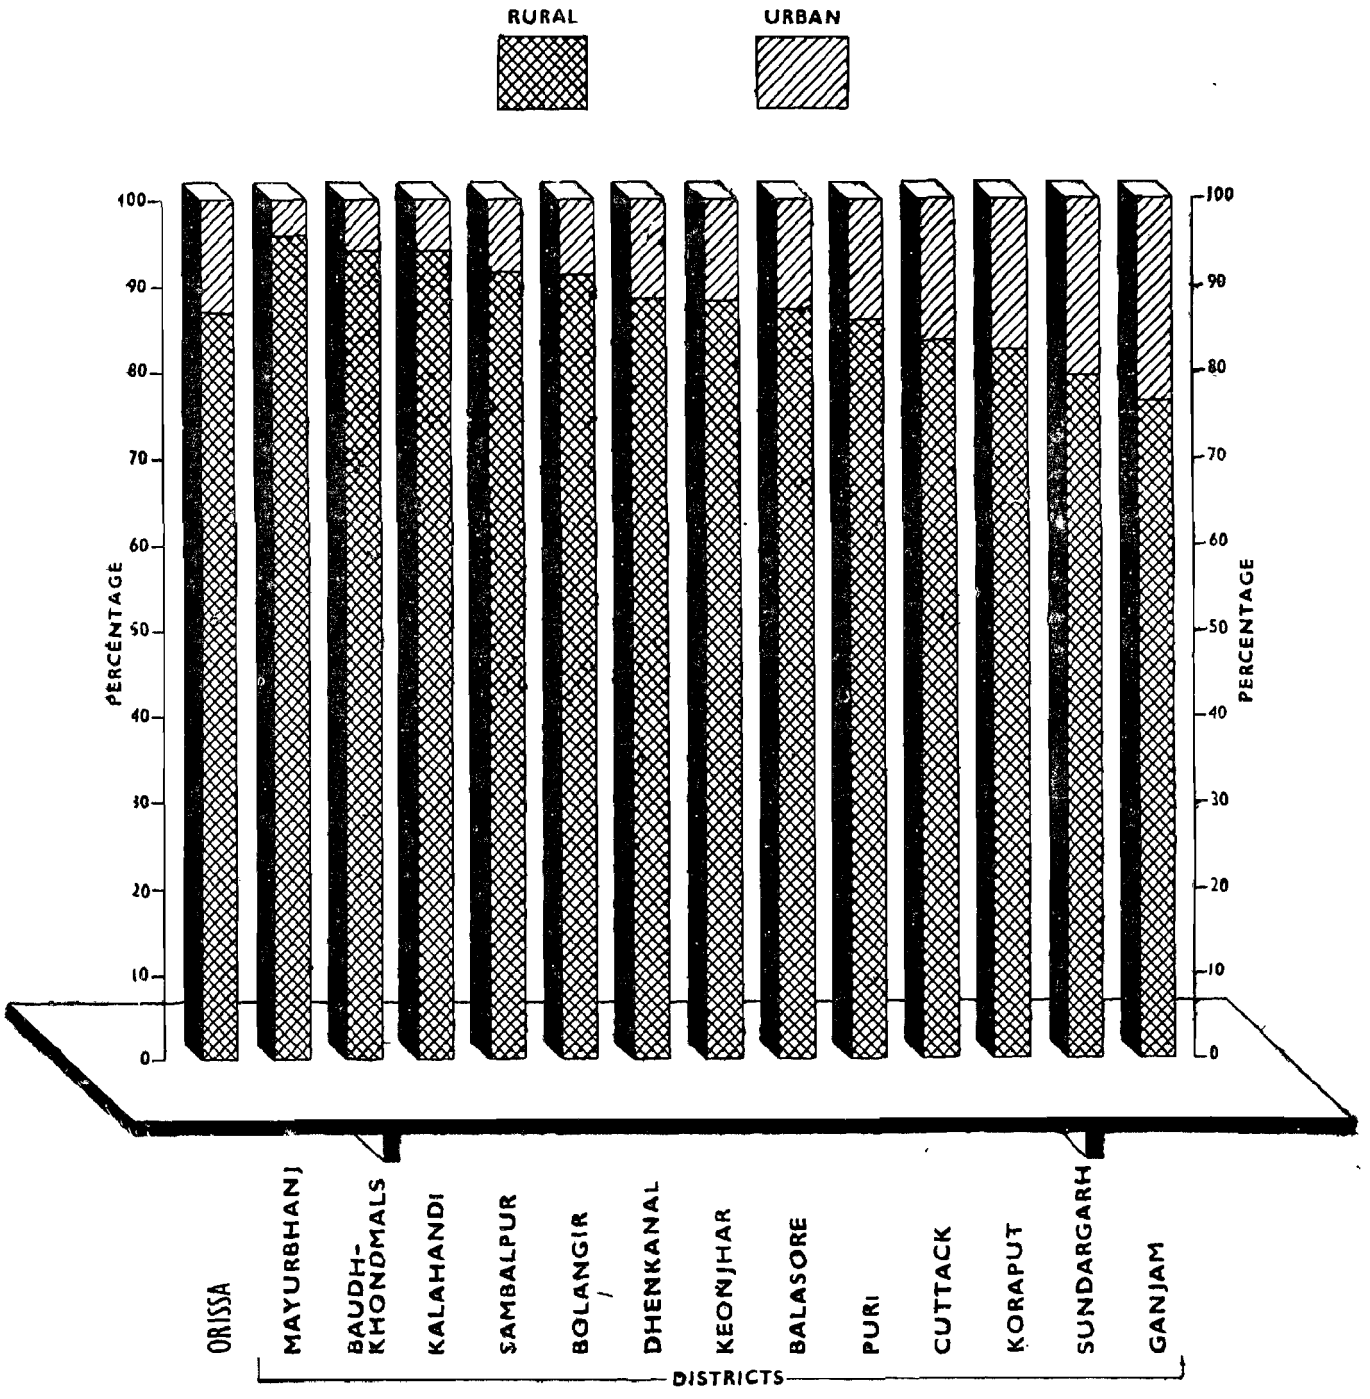

State/District		Total	Rural	Urban
1		2	3	4

	(b)	100 00	76·23	23·77
Puri	(a)	11,864	10,208	1,656
	(b)	100·00	86 04	13·96

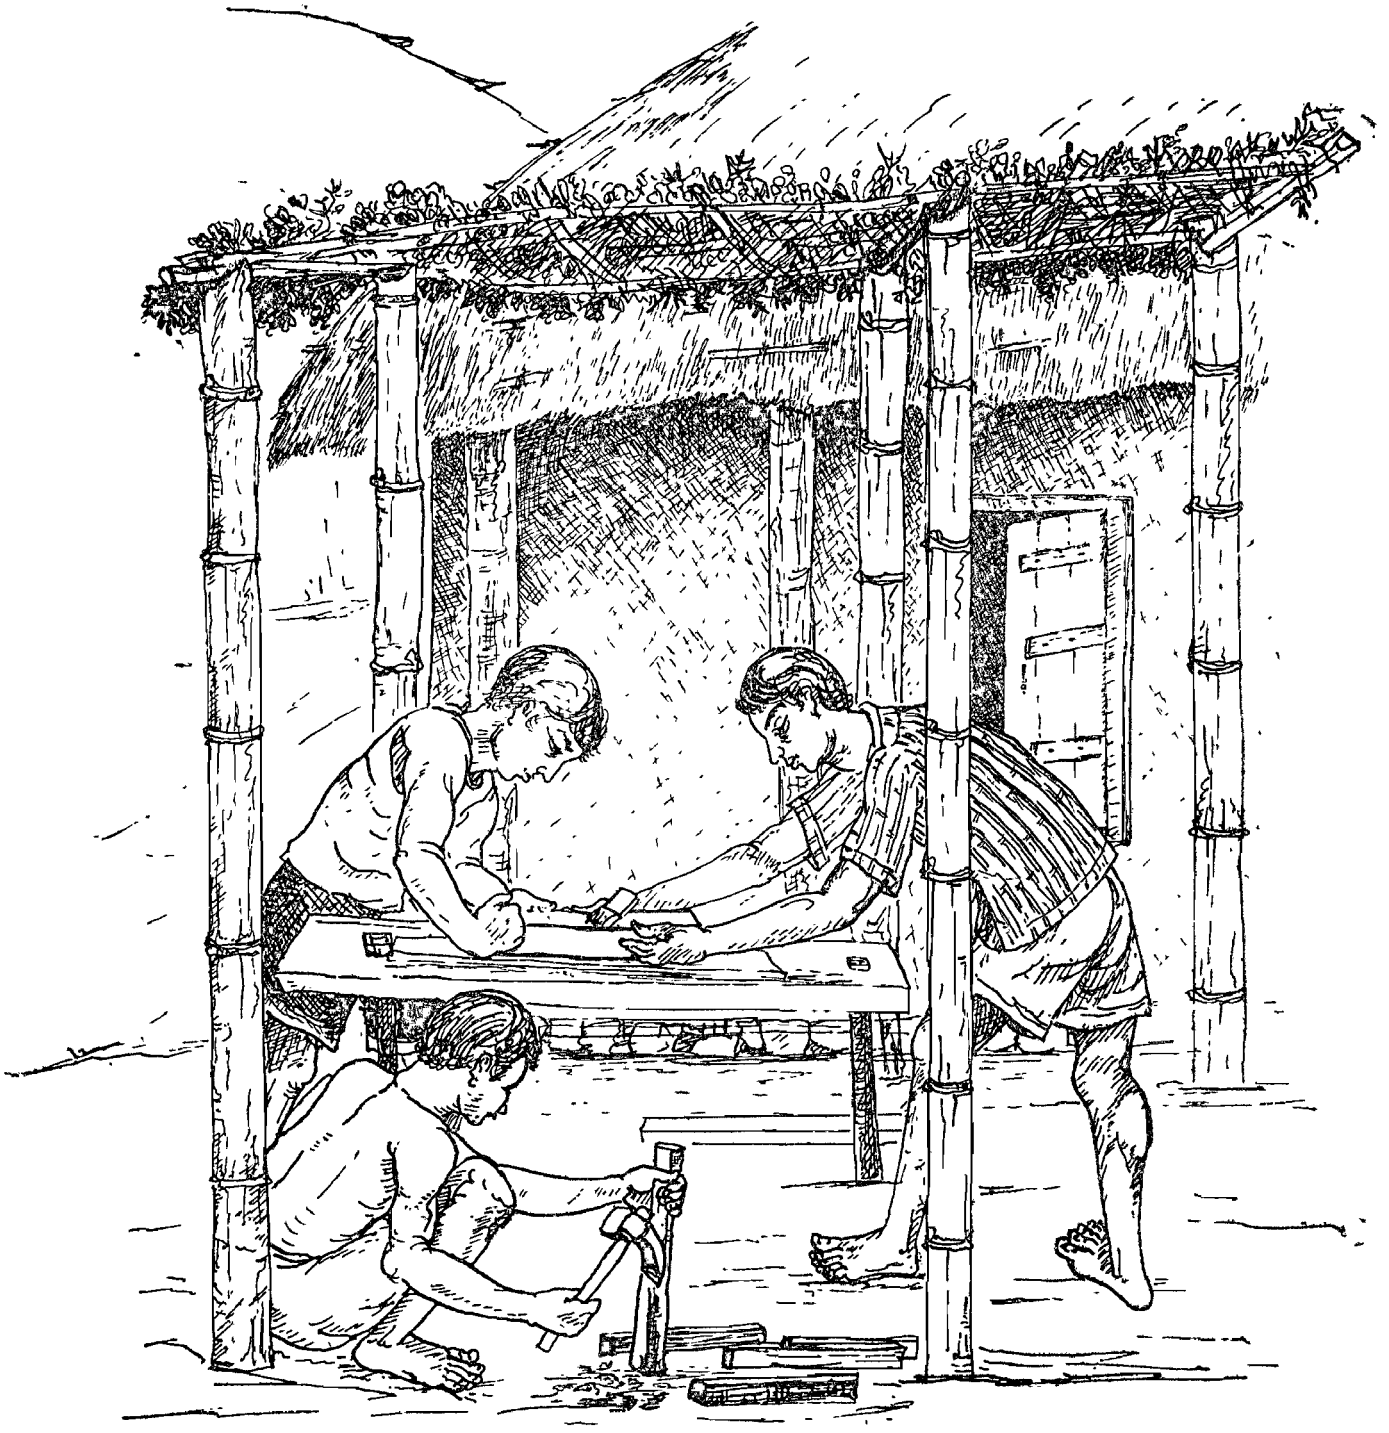

(a) Absolute figures (b) Percentage distribution

87·23 per cent of the industrial establishments of the State as would be seen from the above, are located in rural areas and the remaining 12·77 per cent in the urban areas. In view of the fact that the State's urban population is only 8 per cent of its total population, even its share of 12·77 per cent of the industrial establishments is by no means a low figure. The household industries which constitute the bulk of the industrial establishments are concentrated more in the rural areas, whereas registered factories and unregistered workshops are commonly located in the urban areas. The fact that the term household industry brings within its scope such economically unimportant activities as preparation of cowdung cake as fuel or processing of mudhi when meant for sale, probably explains the preponderance of this kind of establishment in the rural areas.

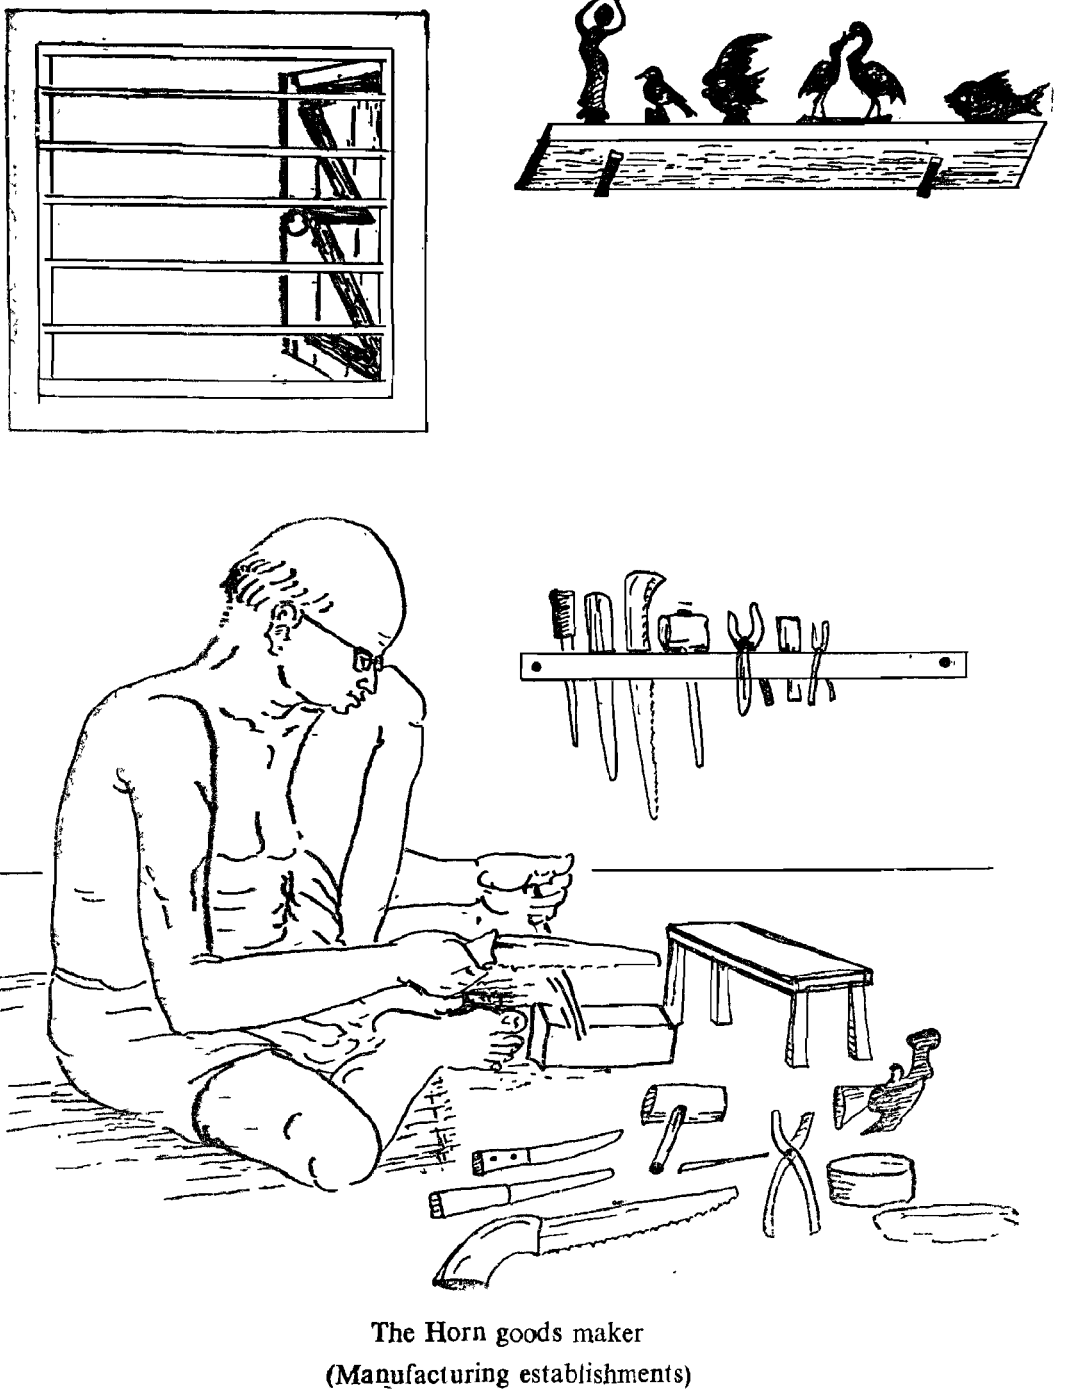

It might be reasonable to expect that districts which are relatively more industrially advanced should have a higher proportion of industrial establishments in their urban areas than the corresponding State average figure. Ganjam is one of these districts, where the proportion of industrial establishments in the urban areas is 23·77 per cent which is highest among all the distircts (as against the State average figure of 12 ·77 per cent). Other districts with a high proportion of such establishments in urban areas are Sundargarh (20·68 per cent), Koraput (17·73 per cent), Cuttack (16·43 per cent) and Puri (13·96 per cent). The districts where the proportion of industrial establishments in the urban areas is very low are Mayurbhanj (4·14 per cent), Baudh-Khondmals (6·03 per cent) and Kalahandi (6·05 per cent) in that order.

DISTRIBUTION OF INDUSTRIAL ESTABLISHMENTS BETWEEN RURAL AND URBAN AREAS IN THE STATE AND DIFFERENT DISTRICTS

Carpenters busy in wood work
(Manufacturing establishments)

The Horn goods maker
(Manufacturing establishments)

That the preponderance of industrial establishments *ipso facto* is not synonymous with economic prosperity amply becomes evident from the above analysis. This is particularly so in a State like Orissa which abounds in traditional cottage and village industries which, at best, enable the artisan to eke out a precarious existence.

It would now be interesting to examine any possible relationship between the proportion of industrial establishments in the State and the proportion of workers in categories V (a) and V (b). The following statement may be studied.

STATEMENT II.10

Percentage distribution of Industrial Establishments among the districts and percentage distribution of workers in manufacturing, processing, servicing and repairs as per 1971 Census enumeration among the districts

State/District	Number of Industrial Establishments	Percentage of Industrial Establishments of each district to total Industrial Establishments of the State	Ranking in number of Establishments	Number of workers in categories V(*a*) and V(*b*) as per 1971 Census Enumeration	Percentage of workers in categories V(*a*) and V(*b*) of each district to total workers of the State in categories V(*a*) and V(*b*) of 1971 Census Enumeration	Ranking according to distribution of workers in categories V(*a*) and V(*b*) of the State among districts

Puri	11,864	8·59	5	36,796	9·06	5

We would expect a close correspondence between the distribution of industrial establishments and the distribution of workers in catergories V (a) and V (b) as revealed through the 1971 population Census enumeration in each of the districts even though the two sets of data relate to two different points of time. Similarly, some correlation between the ranking of each district in the proportion of industrial establishments and the ranking of the same district in the distribution of workers in categories V(a) and V(b) could also be expected.

We find from the statement that industrial establishments in a district and the proportion they

bear to the total industrial establishments in the State have a fair degree of correlation with the workers [categories V(a) and V(b)] under industry in each district and proportion they bear to the total number of workers in industry [categories V(a) and V(b)] in the State. This correspondence is particularly clear in case of eight districts, namely, Sambalpur, Keonjhar, Mayurbhanj, Cuttack, Baudh-Khondmals, Koraput, Ganjam and Puri.

The districts of Sundargarh and Bolangir are, however, marked out for the wide disparity between these two sets of figures. In the former, the proportion of the industrial establishments to total industrial establishments in the State is 4·24 per cent, while that of industrial workers to total industrial workers in the State as high as 10·71 per cent. This brings into relief the fact that in Sundargarh district the average workers per industrial establishment are higher than the State average or that in other districts. Such a phenomenon in Sundargarh district is not difficult to understand when we take into account the existence of the giant steel plant (Rourkela) in this district on the one hand and the small number of household industries on the other. The position in Bolangir district, where the proportion of industrial establishments (10·36 per cent) is more than the proportion of workers (6·20 per cent) is just the reverse ; which indicates that here the average number of workers per industrial establishment is less than the State average figures as well as the average figures of the other districts. This might be due to the large number of household industries in this district. These observations are borne out by the following statement.

STATEMENT II.11

Distribution of Industrial Establishments and number of persons working in Manufacturing, processing, servicing and repairs at Household Industry and other than Household Industry

State/District	Number of Industrial Establishments	Number of persons engaged as per 1971 Census Enumeration—Categories V(*a*) & V(*b*)	Average size of an Industrial Establishment
1	2	3	4
ORISSA	138,080	405,954	2·9
Sambalpur	24,596	64,163	2·6
Sundargarh	5,851	43,475	7·4
Keonjhar	3,881	11,989	3·1
Mayurbhanj	10,573	25,893	2·4
Balasore	8,134	15,058	1·9
Cuttack	19,969	70,633	3·5
Dhenkanal	5,803	19,820	3·4
Baudh-Khondmals	4,232	9,046	2·1
Bolangir	14,301	25,172	1·8
Kalahandi	6,466	14,290	2·2
Koraput	6,984	25,284	3·6
Ganjam	15,426	44,335	2·9
Puri	11,864	36,796	3·1

Some correlation is also discernible in the ranking of the districts in the proportion of industrial establishments and in the proportion of industrial workers. Cuttack and Sambalpur have taken the first two positions in rank, Sambalpur having the highest proportion of Establishments, followed by Cuttack; and Cuttack having the highest proportion of workers, followed by Sambalpur. Three of the districts have got the same ranking in the proportion of industrial establishments and in the proportion of workers to total workers : Ganjam ranks third, Puri fifth and Mayurbhanj sixth. Keonjhar and Baudh-Khondmals between themselves occupy the last two positions among the districts in both counts.

Trade Establishments

The trade and business establishments may now be taken up. The following statement presents the distribution of such establishments in the districts of Orissa.

STATEMENT II.12

Distribution of Trade and business establishments among the districts

State/District	Trade and business establishments	
	Number	Percentage to total trade and business establishments of the State
1	2	3
ORISSA	144,941	100·00
Sambalpur	12,554	8·66
Sundargarh	6,911	4·77
Keonjhar	4,393	3·03
Mayurbhanj	5,215	3·60
Balasore	12,722	8·78
Cuttack	31,802	21·94
Dhenkanal	9,778	6·75
Baudh-Khondmals	2,910	2·01
Bolangir	5,614	3·87
Kalahandi	3,486	2·40
Koraput	8,438	5·82
Ganjam	19,320	13·33
Puri	21,798	15·04

The four coastal districts of the State, namely, Cuttack, Puri, Ganjam and Balasore appear, on the evidence of these figures, to be more advanced in trade and business than the other districts of the State. Cuttack district has the highest proportion (21·94 per cent) of trade and business establishments in the State, followed by Puri (15·04 per cent), Ganjam (13·33 per cent) and Balasore (8·78 per cent). Among the other districts, Sambalpur alone comes close to Balasore district in having a proportion of 8·66 per cent of trade and business establishments of the State. The last three districts according to the ranking are Baudh-Khondmals (2·01 per cent), Kalahandi (2·40 per cent) and Keonjhar (3·03 per cent), which are known to be economically backward.

Trade and business establishments in Rural and Urban areas

It would be instructive to study the rural-urban distribution of trade and business establishments. The following statement may be seen.

STATEMENT II.13

Distribution of Trade and Business Establishments between Rural and Urban areas

State/District		Total	Rural	Urban
1		2	3	4
ORISSA	(*a*)	144,941	105,242	39,699
	(*b*)	100·00	72·61	27·39

	(*b*)	100·00	64·87	35·13
Ganjam	(*a*)	19,320	13,738	5,582
	(*b*)	100·00	71·11	28·89
Puri	(*a*)	21,798	15,965	5,833
	(*b*)	100·00	73·24	26·76

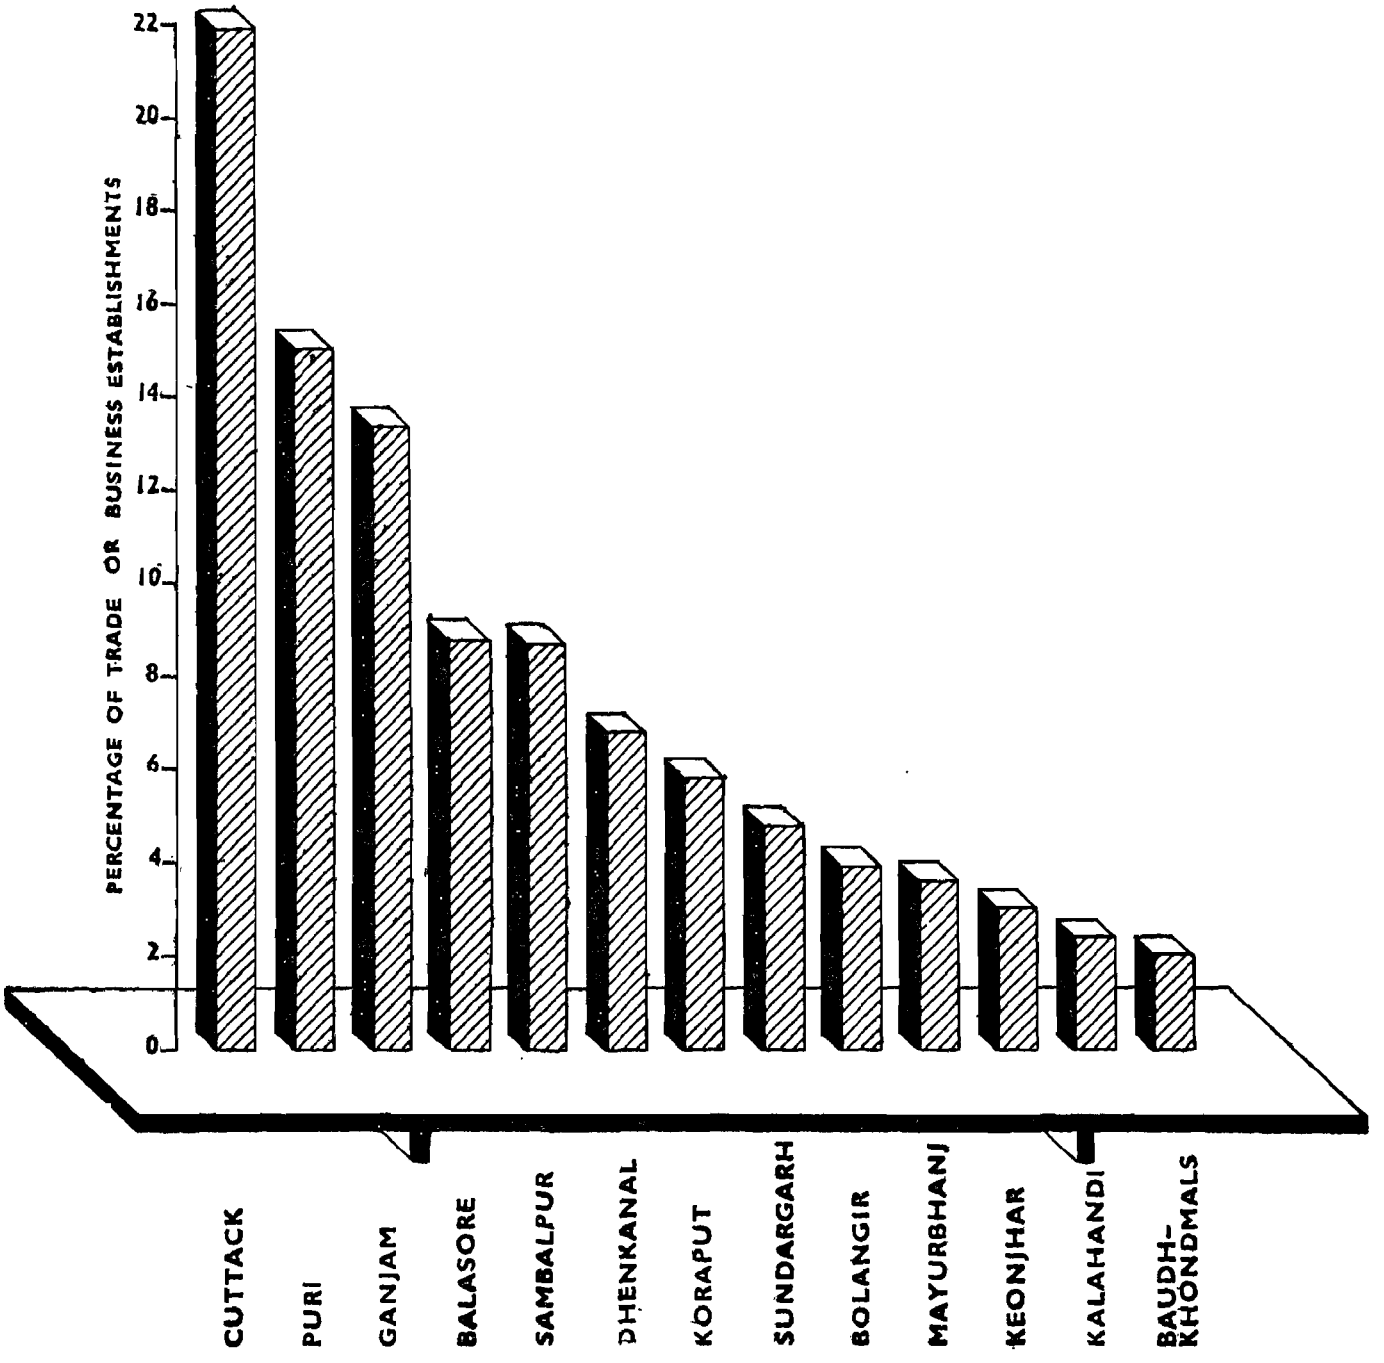

(*a*)- Absolute figures (*b*) Percentage distribution

The pattern of distribution of trade and business establishments between rural and urban areas varies widely in the districts. The proportion of these establishments in the urban areas to the district total in Sundargarh district is 56·74 per cent, which is the highest figure among all the districts. Second in rank is Koraput district having 35·13 per cent of all the trade and business establishments of the district in its urban areas, followed by Sambalpur (34·20 per cent), Kalahandi (29·55 per cent), Ganjam (28·89 per cent) and Bolangir (28·29 per cent). In the back-ground of a very large rural population compared to urban population, the high proportion of trade and business establishments in the urban areas in these districts leads to the conclusion that

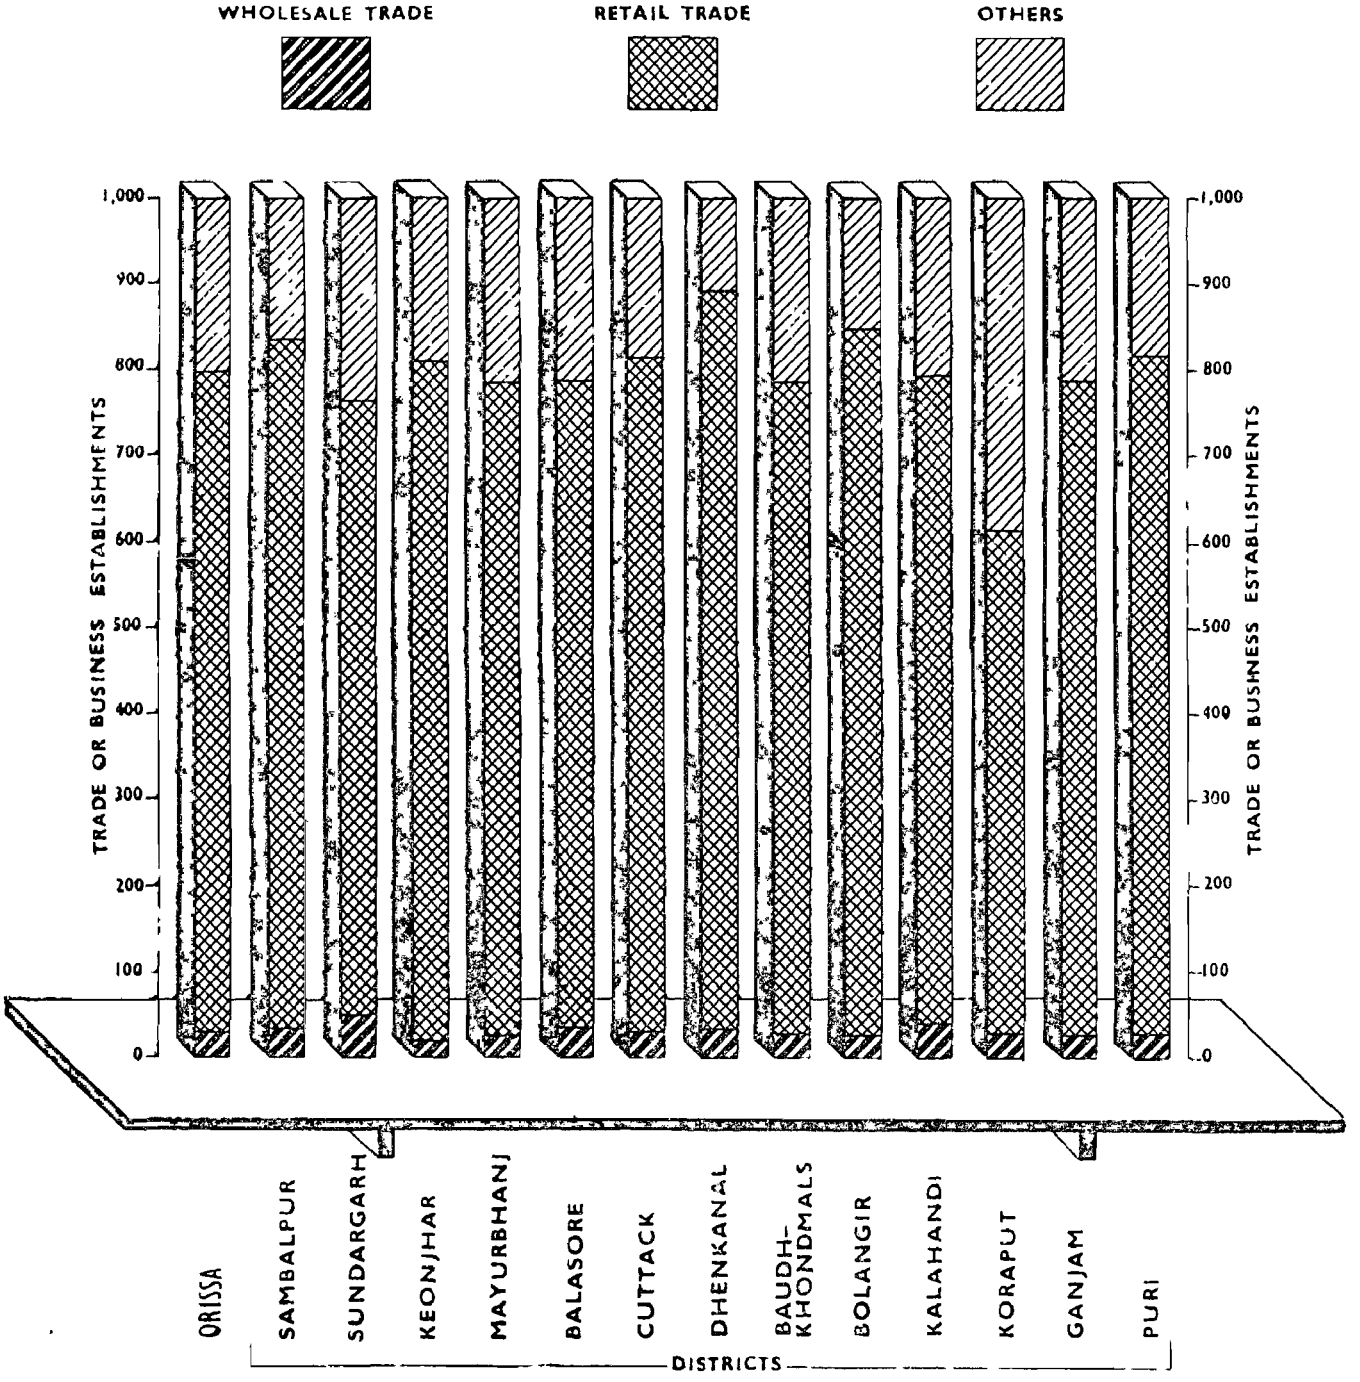

ORISSA

DISTRIBUTION OF TRADE OR BUSINESS ESTABLISHMENTS

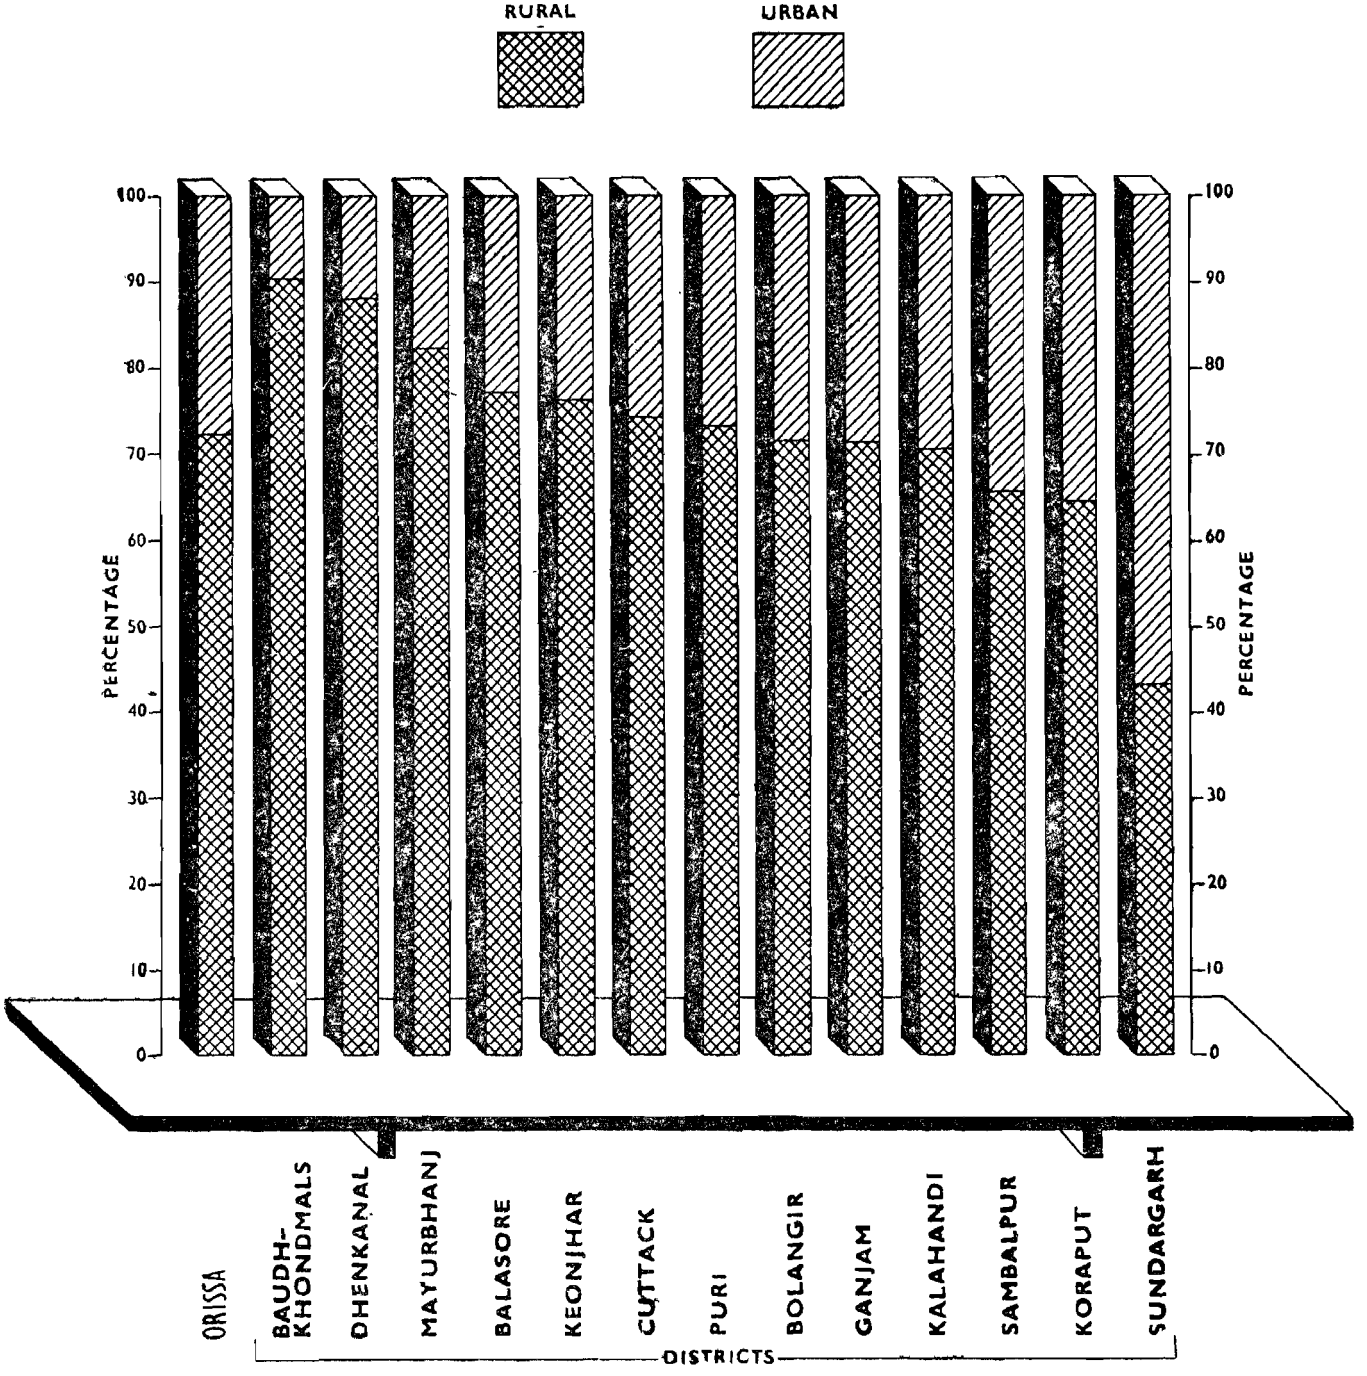

AMONG THE DISTRICTS

DISTRIBUTION OF TRADE OR BUSINESS ESTABLISHMENTS BY WHOLESALE TRADE, RETAIL TRADE AND OTHERS IN THE STATE AND DIFFERENT DISTRICTS

DISTRIBUTION OF TRADE OR BUSINESS ESTABLISHMENTS BETWEEN RURAL AND URBAN AREAS IN THE STATE AND DIFFERENT DISTRICTS

while the urban areas of these districts have witnessed a rapid growth of trade and business activities, the rural areas have not kept pace with it. The last two districts in respect of the total trade and business establishments in the urban areas are Baudh-Khondmals (9·66 per cent) and Dhenkanal (11·96 per cent).

Other Establishments

So far as 'Other establishments' are concerned, we have already seen that these include a number of miscellaneous institutions, the most important of which are Government offices, educational institutions and medical institutions.

The distribution of 'Other establishments' between the different districts of the State is shown in the following statement.

STATEMENT II.14

Distribution of 'Other Establishments' among the districts

State/District	Number of Establishments	Percentage of 'other establishments' of each district to total 'other establishments' of the State
1	2	3
ORISSA	145,046	100·00
Sambalpur	11,004	7·59
Sundargarh	5,460	3·76
Keonjhar	5,043	3·48
Mayurbhanj	5,758	3·97
Balasore	14,101	9·72
Cuttack	31,903	22·00
Dhenkanal	7,142	4·92
Baudh-Khondmals	4,648	3·20
Bolangir	7,799	5·38
Kalahandi	5,736	3·95
Koraput	9,425	6·50
Ganjam	14,590	10·06
Puri	22,437	15·47

As in case of business and trade establishments, so in case of 'Other establishments' also, the four coastal districts—Cuttack, Puri, Ganjam and Balasore account for a bulk of the establishments. Taking the total of 'Other establishments' of the State, Cuttack district has the highest proportion (22·00 per cent) followed by Puri (15·47 per cent), Ganjam (10·06 per cent) and Balasore (9·72 per cent) districts. It is to be expected that Puri district in which Bhubaneswar, the State capital is situated, would have a large share of the Government offices, thereby swelling its proportion of the 'Other establishments'. Though not the State headquarters, yet Cuttack City still has a large number of State level offices such as the Board of Revenue, High Court, State Police Headquarters and quite a number of Central Government Offices. Therefore, it comes first in rank among all the districts in the State.

The districts of Ganjam, Balasore and Sambalpur, in that order, also claim a significant proportion of these institutions. As for the remaining 8 districts, the proportion of other institutions is relatively small, the lowest being in Baudh-Khondmals (3·20 per cent) and Keonjhar (3·48 per cent).

The rural-urban distribution of 'other establishments' may now be studied. The following statement gives the relevant figures.

STATEMENT II.15

Distribution of 'Other Establishments' between rural and urban areas

ORISSA

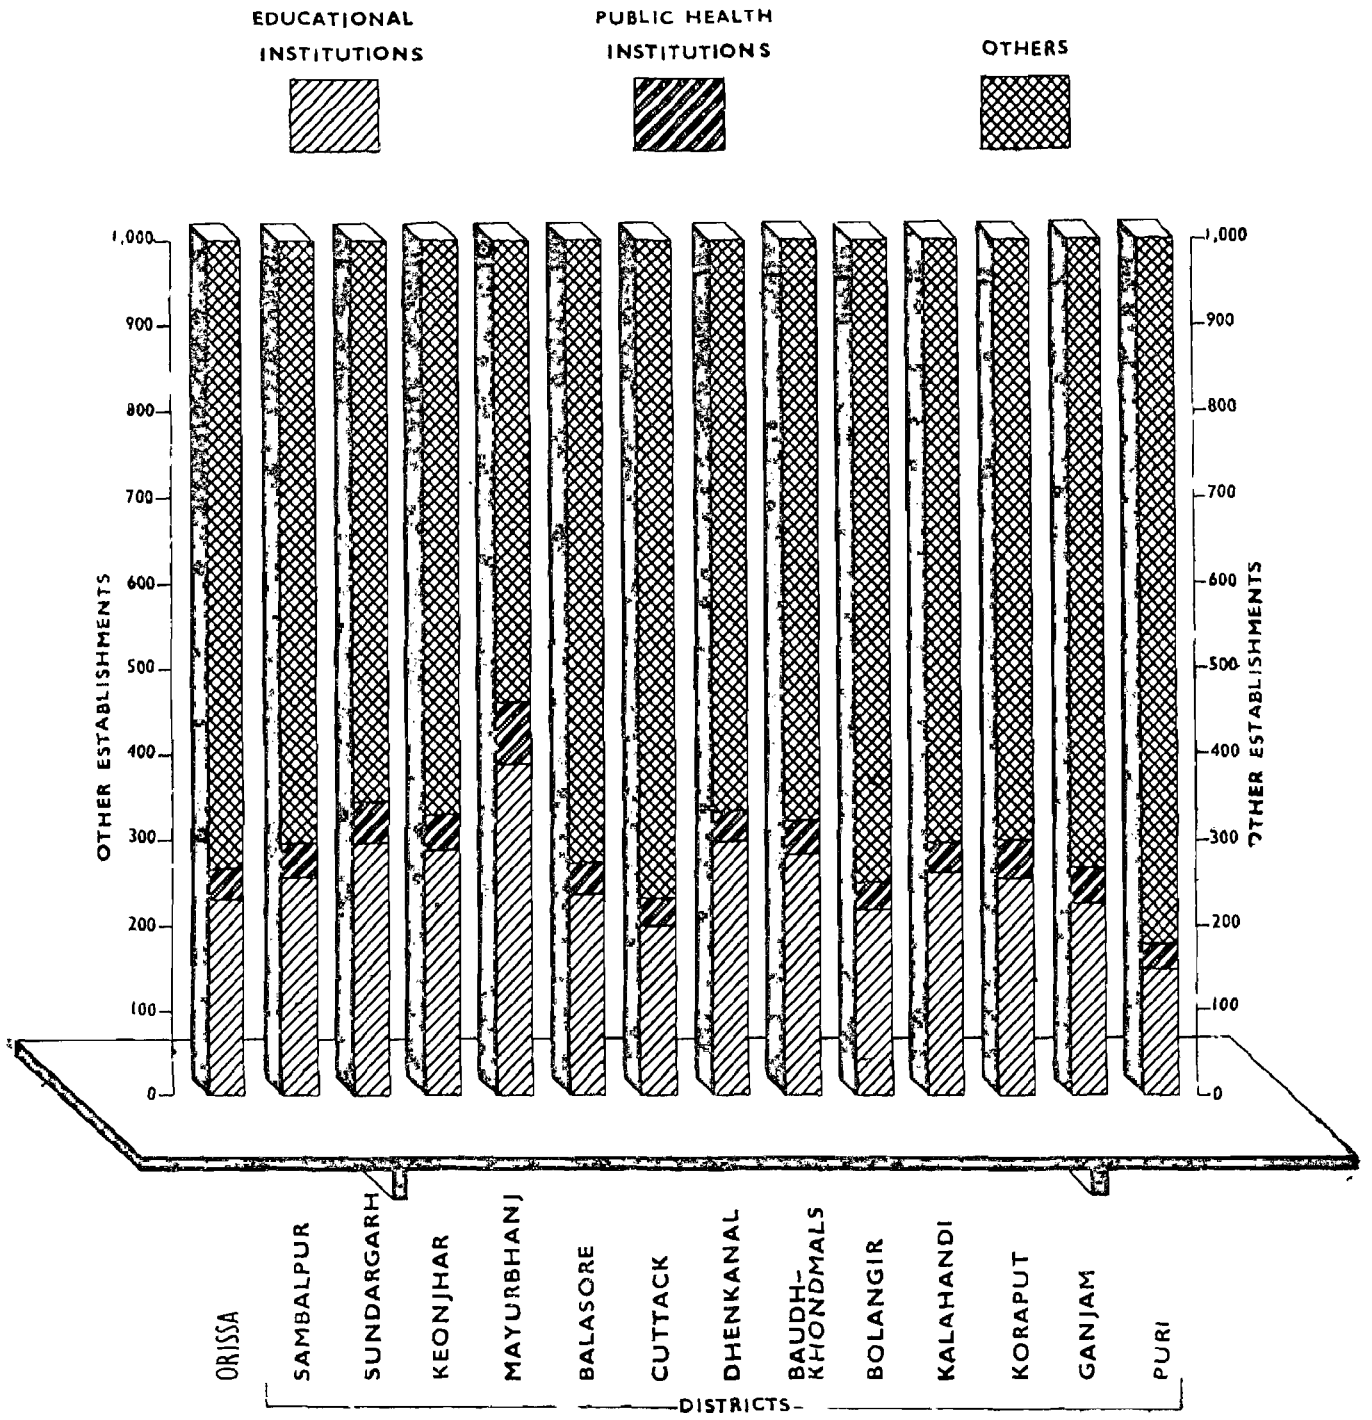

DISTRIBUTION OF OTHER ESTABLISHMENTS

(OTHER THAN MANUFACTURING AND TRADE OR BUSINESS)

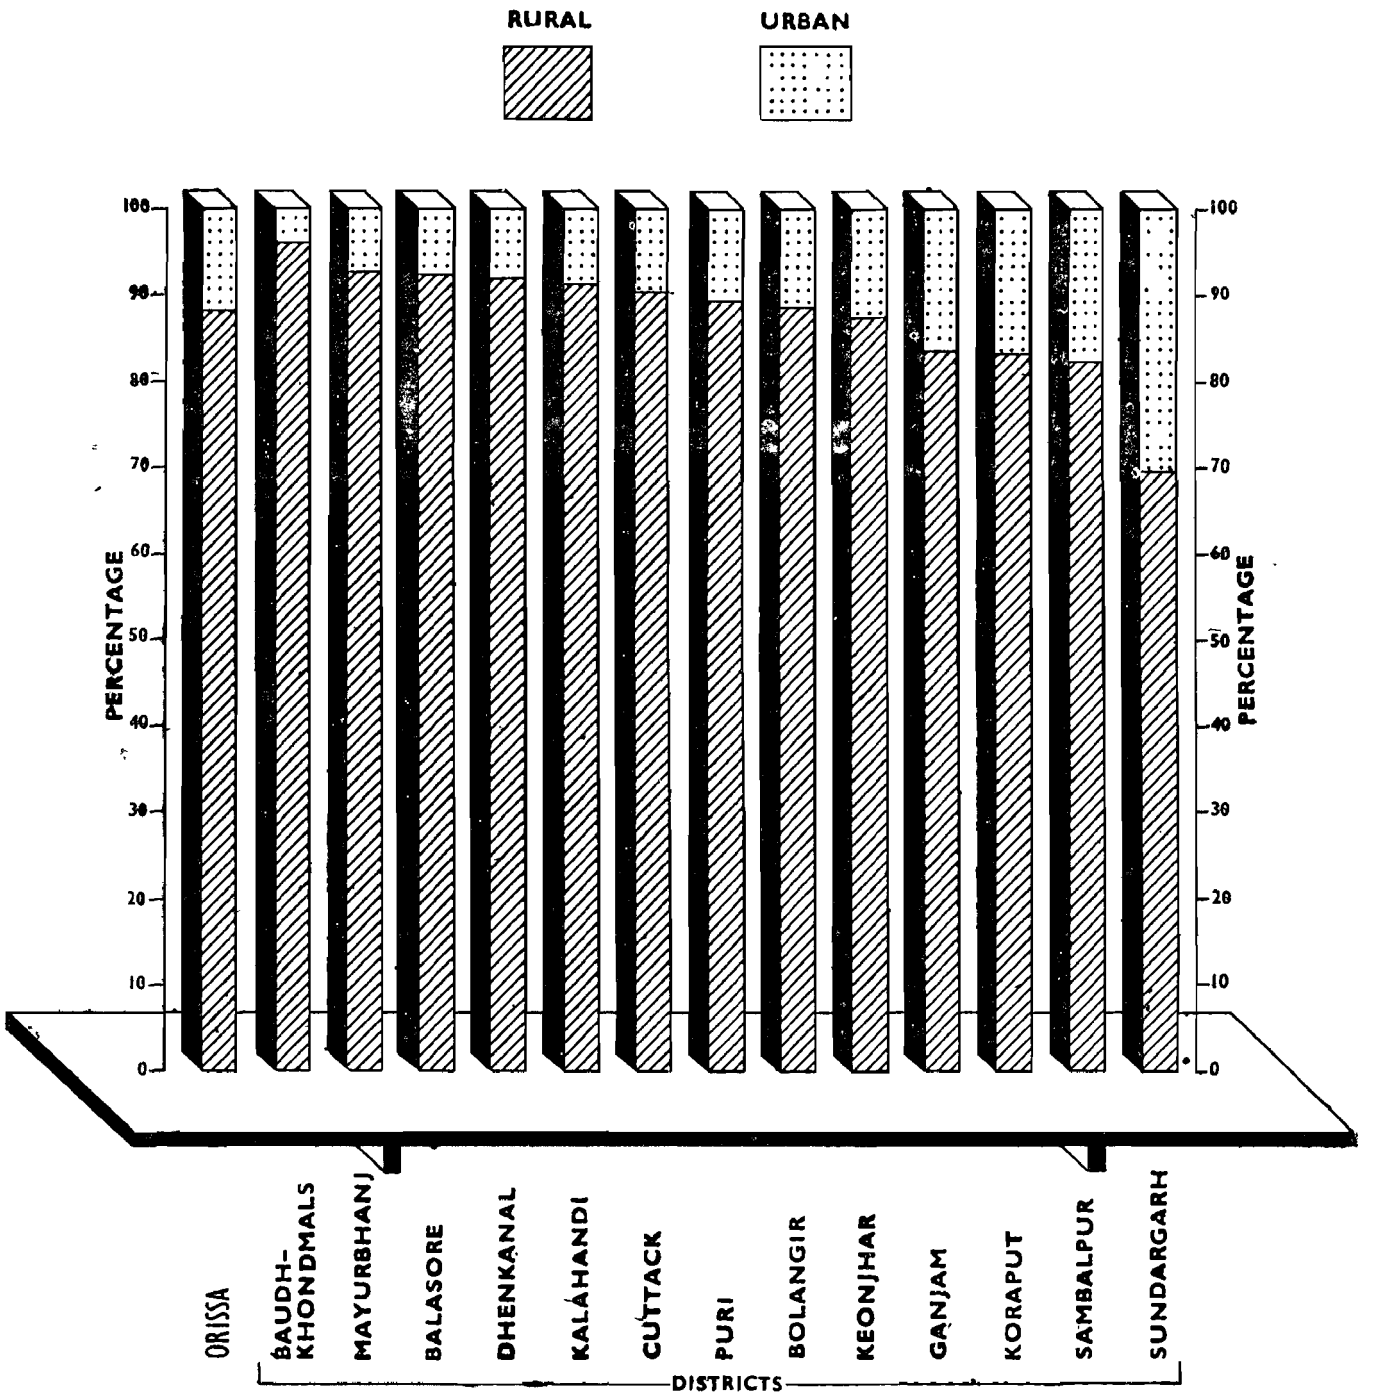

AMONG THE DISTRICTS

DISTRIBUTION OF OTHER ESTABLISHMENTS
(OTHER THAN MANUFACTURING AND TRADE OR BUSINESS)
BY EDUCATIONAL & PUBLIC HEALTH INSTITUTIONS AND OTHER TYPES
IN THE STATE AND DIFFERENT DISTRICTS

DISTRIBUTION OF OTHER ESTABLISHMENTS
(OTHER THAN MANUFACTURING AND TRADE OR BUSINESS)
BETWEEN RURAL AND URBAN AREAS
IN THE STATE AND DIFFERENT DISTRICTS

It would appear from the figures of this statement that the proportion of the 'Other establishments' in the urban areas to the total establishments of this category in the district is highest (30·05 per cent) in Sundargarh district, followed by Sambalpur (17·47 per cent), Koraput (16·73 per cent) and Ganjam (16·13 per cent). Baudh-Khondmals (3·87 per cent) is particularly deficient in 'other establishments' in urban areas with a proportion as low as 3·87 per cent. This is particularly evident when we see that the second lowest (Mayurbhanj district) happens to have a proportion of 7·55 per cent. It is possible that in the coastal districts of Cuttack, Puri and Balasore, the comparatively high percentage of 'other establishments' in the rural areas is due to the relative prosperity of the rural areas in these districts.

Educational Institutions and literacy rates in districts

While discussing about 'Other establishments', it might be in order to separately examine the distribution of educational institutions among the districts and any relationship that might exist between such figures and the literacy of the district. The following statement gives the necessary data.

STATEMENT II.16

Distribution of Educational Institutions among the districts and the literacy rates revealed at the 1971 Census

Name of District	Number of Educational Institutions	Percentage of Educational Institutions of each district to total educational institutions of the State	Literacy rates as revealed at the 1971 Census	Percentage of literate and educated persons of each district to total literates and educated persons of the State
1	2	3	4	5
ORISSA	33,510	100·00	26·18	100·00
Sambalpur	2,818	8·41	27·12	8·71
Sundargarh	1,629	4·86	26·47	4·75
Keonjhar	1,466	4·37	21·25	3·53
Mayurbhanj	2,242	6·69	18·05	4·51
Balasore	3,340	9·97	33·71	10·74
Cuttack	6,397	19·09	36·43	24·27
Dhenkanal	2,125	6·34	27·76	6·25
Baudh-Khondmals	1,311	3·91	19·79	2·14
Bolangir	1,698	5·07	19·92	4·38
Kalahandi	1,494	4·46	13·85	2·81
Koraput	2,365	7·06	10·58	3·76
Ganjam	3,294	9·83	24·42	9·75
Puri	3,331	9·94	35·34	14·40

From the figures given in this statement, while no relationship can be established between the figures showing distribution of educational institutions among the districts and the literacy rates in the districts on account of unequal population size of the districts, a fair degree of correlation can be noticed between the two sets of figures given under columns 2 and 4 of the statement, *i.e.*, percentage distribution of educational institutions to total educational institutions in the State and percentage of literate and educated persons of each district to total literates and educated persons of the State. It is interesting to note that in case of Sambalpur, Sundargarh, Dhenkanal and Ganjam districts where the literacy rate does not differ much from the literacy rate of the State as a whole (26·18 per cent), the difference between the two sets of figures under Columns 2 and 4 is marginal. In case of the districts of Puri, Cuttack and Balasore where the literacy rate is much higher than the State average figure, the figures under Column 4 is markedly higher than that under column 2. On the other hand, in the districts of Keonjhar, Mayurbhanj, Baudh-Khondmals, Bolangir, Kalahandi and Koraput, where the literacy rates are far below the State average, the figures under Column 4 are also conspicuously lower than that under Column 2. In case of Koraput district, where the literacy rate is lowest (10·58 per cent) among all the districts, the gap between the figures under Columns 2 and 4 is very wide.

The following statement which gives the distribution of educational institutions and population of the State among different districts and the number of educational institutions per 1,000 population, might be instructive and enable us to ascertain the adequacy of educational institutions in different districts.

STATEMENT II.17

Distribution of every 100 Educational Institutions and 100 population of the State among the districts and average number of Educational Institutions per 1,000 population in the State and in each district

State/District	Distribution of total Educational Institutions among the districts	Distribution of total population among the districts	Number of Educational Institutions per 1,000 population
1	2	3	4
ORISSA	100·00	100·00	1·5
Sambalpur	8·41	8·41	1·5
Sundargarh	4·86	4·70	1·6
Keonjhar	4·37	4·35	1·5
Mayurbhanj	6·69	6·54	1·6
Balasore	9·97	8·34	1·8
Cuttack	19·09	17·44	1·7
Dhenkanal	6·34	5·90	1·6
Baudh-Khondmals	3·91	2·83	2·1
Bolangir	5·07	5·76	1·3
Kalahandi	4·46	5·30	1·3
Koraput	7·06	9·31	1·2
Ganjam	9·83	10·45	1·4
Puri	9·94	10·67	1·4

The average number of educational institutions per 1,000 population in the State as a whole is 1·5. In six out of 13 districts of the State, *viz.*, Sundargarh, Mayurbhanj, Balasore, Cuttack, Dhenkanal and Baudh-Khondamals the average number of educational institutions per 1,000 population is higher than the State average figure. In Baudh-Khondmals district this figure (average number of educational institutions per 1,000 population) is the highest (2·1) among all the districts. Balasore ranks second with an average number of 1·8 schools per 1,000 population and Cuttack ranks third, its average number being 1·7. Sundargarh, Mayurbhanj and Dhenkanal has each 1·6 educational institutions on the average per 1,000 population. The average figures for Sambalpur and Keonjhar equal the State average (1·5). The districts that have a lower average figure than the State average are Puri (1·4), Ganjam (1·4), Kalahandi (1·3), Bolangir (1·3) and Koraput (1·2). The last mentioned, *i.e.*, Koraput district has the lowest number of educational institutions per 1,000 population.

The figures in Columns 2 and 3 would indicate a striking parity between the distribution of educational institutions and the distribution of population among different districts. It is evident that by and large the distribution of educational institutions on the basis of population in the districts has been uniform and even. The cases in which there has been a slight deviation are Cuttack, Balasore, Dhenkanal and Baudh-Khondmals districts in which the educational institutions slightly out-number the population and the districts of Kalahandi, Koraput, Ganjam and Puri where the situation is the reverse.

Distribution of Educational Institutions—Rural-Urban differential

The following statement gives the number of educational institutions per 1,000 populations in the urban and rural areas of the State and each district. It also shows the distribution of 100 educational institutions by rural urban and distribution of population in the rural urban areas.

STATEMENT II. 18

Distribution of Educational Institutions, population between Rural and Urban areas and number of Educational Institutions per 1,000 population in Rural and Urban areas

State/District	Percentage of educational institutions to total educational institutions in each district and State		Percentage of population to total population in each district and State		Average number of educational institutions per 1,000 population	
	Rural	Urban	Rural	Urban	Rural	Urban
1	2	3	4	5	6	7
ORISSA	93·83	6·17	91·6	8·4	1·56	1·12
Sambalpur	91·98	8·02	88·0	12·0	1·60	1·02
Sundargarh	89·38	10·62	76·7	23·3	1·84	0·72
Keonjhar	93·32	6·68	93·0	7·0	1·54	1·46
Mayurbhanj	97·50	2·50	97·2	2·8	1·57	1·40
Balasore	95·75	4·25	94·5	5·5	1·85	1·42
Cuttack	94·83	5·17	92·0	8·0	1·72	1·08
Dhenkanal	96·00	4·00	96·0	4·0	1·64	1·64
Baudh-Khondmals	98·09	1·91	96·9	3·1	2·14	1·28
Bolangir	93·93	6·07	93·1	6·9	1·36	1·19
Kalahandi	95·05	4·95	95·1	4·9	1·28	1·31
Koraput	91·88	8·12	91·8	8·2	1·16	1·15
Ganjam	90·86	9·14	88·7	11·3	1·47	1·16
Puri	92·16	7·84	90·2	9·8	1·45	1·14

There are more educational institutions per 1,000 population in the rural areas than in the urban areas of the State as well as of each district; the only exception being Dhenkanal district where the average is identical both for the rural and urban areas and Kalahandi district where the average in the urban areas is slightly higher.

If a comparative study of the distribution of population and distribution of educational institutions in the rural and urban areas is taken up, it is found that the rural areas claim a higher proportion of educational institutions both at the State level and in the districts—this proportion being invariably higher than the corresponding figure of their respective rural populations. By the same token, the proportion of educational institutions in the urban areas in the State and districts is found to be lower than the percentage of population in the urban areas. The only exception of this rule, as we have found earlier, are the districts of Dhenkanal and Kalahandi.

As against the State average figure of 1·12 for the number of educational institutions per 1,000 population in the urban areas, the figure for Sundargarh district is only 0·72 which is the lowest among all the districts. Compared to the State average figure, the figure for the urban areas of Cuttack (1·08) and Sambalpur (1·02) are also significantly low. The urban area figures of other districts range from 1·64 to 1·14. A greater concentration of educational institutions in the rural areas than in the urban areas may not necessarily indicate a greater educational facility in the rural parts. Due to high density of population in the compact area of a town or city, an educational instituion in the urban areas has generally a higher student strength than one in the rural area. The real criterion to determine the adequacy of educational facilities provided is not therefore, the number of educational institutions, but the number of students in the educational institutions in every 1,000 population.

Distribution of Public Health Institutions among the Districts

The following statement gives the distribution of public health institutions and the average number of public health institutions per 10,000 population in the State and in each district.

STATEMENT II. 19

Distribution of every 100 Public Health Institutions and every 100 population of the State among the districts and the average number of Public Health Institutions per 10,000 population in the State and in each district

State/District	Number of Public Health Institutions	Distribution of total public health institutions among the districts	Distribution of total population among the districts	Average number of public health institutions per 10,000 population
1	2	3	4	5
ORISSA	5,552	100·00	100·00	2·53

Mayurbhanj	417	7·51	6·54	2·91
Balasore	520	9·37	8·34	2·84
Cuttack	1,045	18·82	17·44	2·73
Dhenkanal	266	4·79	5·90	2·06
Baudh-Khondmals	193	3·48	2·83	3·10
Bolangir	236	4·25	5·76	1·87
Kalahandi	216	3·89	5·30	1·86
Koraput	461	8·30	9·31	2·26
Ganjam	594	10·70	10·45	2·59
Puri	656	11·82	10·67	2·80

There are, on the average, 2·53 public health institutions per 10,000 population for the State as a whole. The figure is higher than the State average in 7 dis'ricts, namely, Baudh-Khondmals (3·10), Mayurbhanj (2·91), Balasore (2·84), Puri (2·80), Cuttack (2·73), Sundargarh (2·66) and Ganjam (2·59) in that order. In the other 6 districts this figure is lower than the State average. Baudh-Khondmals among the districts has the highest number of public health institutions per 10,000 population, while Kalahandi has the lowest (1·86).

Distribution of Public Health Institutions—Rural-Urban differential

The following statement shows the number of public health institutions per 10,000 population separately for the rural and urban areas of the State and districts as also the percentage distribution of population and of public health institutions among the rural and urban areas of the State and in each district.

STATEMENT II.20

Percentage distribution of Public Health Institutions and population among Rural and Urban areas and average number of Public Health Institutions per 10,000 population in Rural and Urban areas

State/District	Percentage distribution among rural and urban areas				Average number of Public Health Institutions per 10,000 population	
	Public Health Institution		Population			
	Rural	Urban	Rural	Urban	Rural	Urban
1	2	3	4	5	6	7
ORISSA	78·03	21·97	91·6	8·4	2·16	6·61
Sambalpur	73·76	26·24	88·0	12·0	2·11	5·50
Sundargarh	69·34	30·66	76·7	23·3	2·40	3·50
Keonjhar	88·04	11·96	93·0	7·0	2·07	3·71
Mayurbhanj	90·41	9·59	97·2	2·8	2·70	10·01
Balasore	84·81	15·19	94·5	5·5	2·55	7·89
Cuttack	75·50	24·50	92·0	8·0	2·24	8·38
Dhenkanal	82·33	17·67	96·0	4·0	1·76	9·07
Baudh-Khondmals	92·75	7·25	96·9	3·1	2·97	7·15
Bolangir	78·81	21·19	93·1	6·9	1·58	5·77
Kalahandi	80·56	19·44	95·1	4·9	1·57	7·43
Koraput	77·44	22·56	91·8	8·2	1·90	6·22
Ganjam	65·32	34·68	88·7	11·3	1·91	7·93
Puri	76·98	23·02	90·2	9·8	2·39	6·59

A study of the above table reveals an interesting fact. Not merely for the State on the whole but for every district, there are a large number of public health institutions in the urban areas than warranted by the distribution of urban population. This may be seen from the fact that urban population in the State accounts for only 8·4 per cent of the total population of the State while the public health institutions in the urban areas account for 21·97 per cent of the total number of such institutions in the State. This distribution is in sharp contrast to the distribution of eductional institutions. In the latter case we found that it was the rural areas which claimed a larger population of educational institutions as compared to the urban areas, both at the State level as well as in the districts. This brings into focus the wide gap that exists between the distribution of educational institutions and public health institutions on the basis of population.

For the State as a whole, the average number of public health institutions per 10,000 population stands at 6·61 in the urban areas. In other words, there is one public health institution for every 1,513 persons in the urban areas of the State. As for the rural areas, the number of such institutions on the average is only 2·16 per 10,000 population for the State as a whole, which means that there is one public health institution for every 4,640 persons in the rural areas. Apart from the numerical superiority of such institutions in the urban areas as compared to the rural areas, one also should take into consideration the fact that qualified doctors and specialists are by and large concentrated only in the urban areas whereas in the rural sector even the existing public health institutions, in many cases go without qualified personnel.

Coming to the districts, it is seen that so far as rural areas are concerned, Baudh-Khondmals district has the largest (2·97) number of public health institutions per 10,000 people followed by Mayurbhanj (2·70), Balasore (2·55) and Sundargarh (2·40). At the other end of the table Kalahandi has the lowest number (1·57) of such institutions per 10,000 population. In the urban areas, it is the district of Mayurbhanj which with 10·01 institutions per 10,000 population comes first followed by Dhenkanal (9·07), Cuttack (8·38) and Ganjam (7·93). The districts of Sundargarh (3·50) per 10,000 population and Keonjhar (3·71) per 10,000 population come last.

CHAPTER III

SIZE OF EMPLOYMENT AND TYPES OF POWER OR FUEL USED

The contents of this chapter are drawn mainly from Table E-II Parts A, B and C, Table E-III and Table E-IV as also from their subsidiary tables.

These tables enable us to ascertain the employment provided by various types of establishments which have been classified into different major groups of N. I. C. under the various divisions. They also give a picture of the distribution of employment among the various size classes of establishments. The type of fuel and power used by different types of industrial establishments is also contained in Table E-II Parts B and C.

INDUSTRIAL ESTABLISHMENTS

Section A—Size of employment in Industrial Establishments

The relative importance of any kind of industry in the economy of the State can be gauged from three factors, *viz.*, (*i*) the number of industrial units in that category, (*ii*) the size of employment it provides and (*iii*) the productive capacity. The statistics on the first two factors are available in Table E-II Parts A, B and C. Before proceeding to analyse the industry-wise analysis, it may be appropriate to tempt a study of the employment size provided by at three kinds of industrial establishments, *viz.*, registered factories, unregistered workshops and household industries.

The following Table gives the necessary data.

STATEMENT III.1

Employment provided by Registered factories, Unregistered workshops and Household Industries in the State

Types of Industrial Establishments	Number of Establishments		Number of persons engaged		Average number of persons per Establishment
	Number	Proportion	Number	Proportion	
1	2	3	4	5	6
Total Industrial Establishments	138,080	100·00	337,823	100·00	2·45
A. Registered Factories	1,442	1·04	80,024	23·69	55·50
B. Unregistered Workshops	24,573	17·80	52,034	15·40	2·12
C. Household Industries	112,065	81·16	205,765	60·91	1·84

It would be noticed that in the entire State of Orissa 337,823 persons are employed in the industrial establishments. Of these persons, the household industrial establishments account for a very high proportion (60·91 per cent) covering 205,765 persons. Coming second but trailing far behind are the registered factories accounting for 80,024 persons comprising 23·69 per cent of the total persons employed in industrial establishments. Lastly come the unregistered workshops which employ 52,034 persons (15·40 per cent).

The second point that comes out of the above study is that nearly four-fifths of the population employed by industrial establishments work in the unorganised sector, that is to say in household industries and unregistered workshops. Conversely, one-fifth of the persons employed in industrial establishments belong to the organised sector.

Another aspect that is of interest relates to the average number of persons employed in each establishment. While for all industrial establishments

the average works out to 2·45 per establishment, there is a very wide divergence between the average figures of registered factories and household industries. The former employees as many as 55·50 persons per industrial establishment while in the latter case the figure is as low as 1·84. This position is in direct contrast to the number of establishments under these two categories. The average employment per industrial establishment provided by unregistered workshops (2·12) appears no better than that under household industries.

While discussing the question of employment provided by industrial establishemts, it would be interesting to look at the postition according to major groups of industrial establishments classified as per National Industrial Classification.

The following table gives the data in respect of important major groups.

STATEMENT III.2

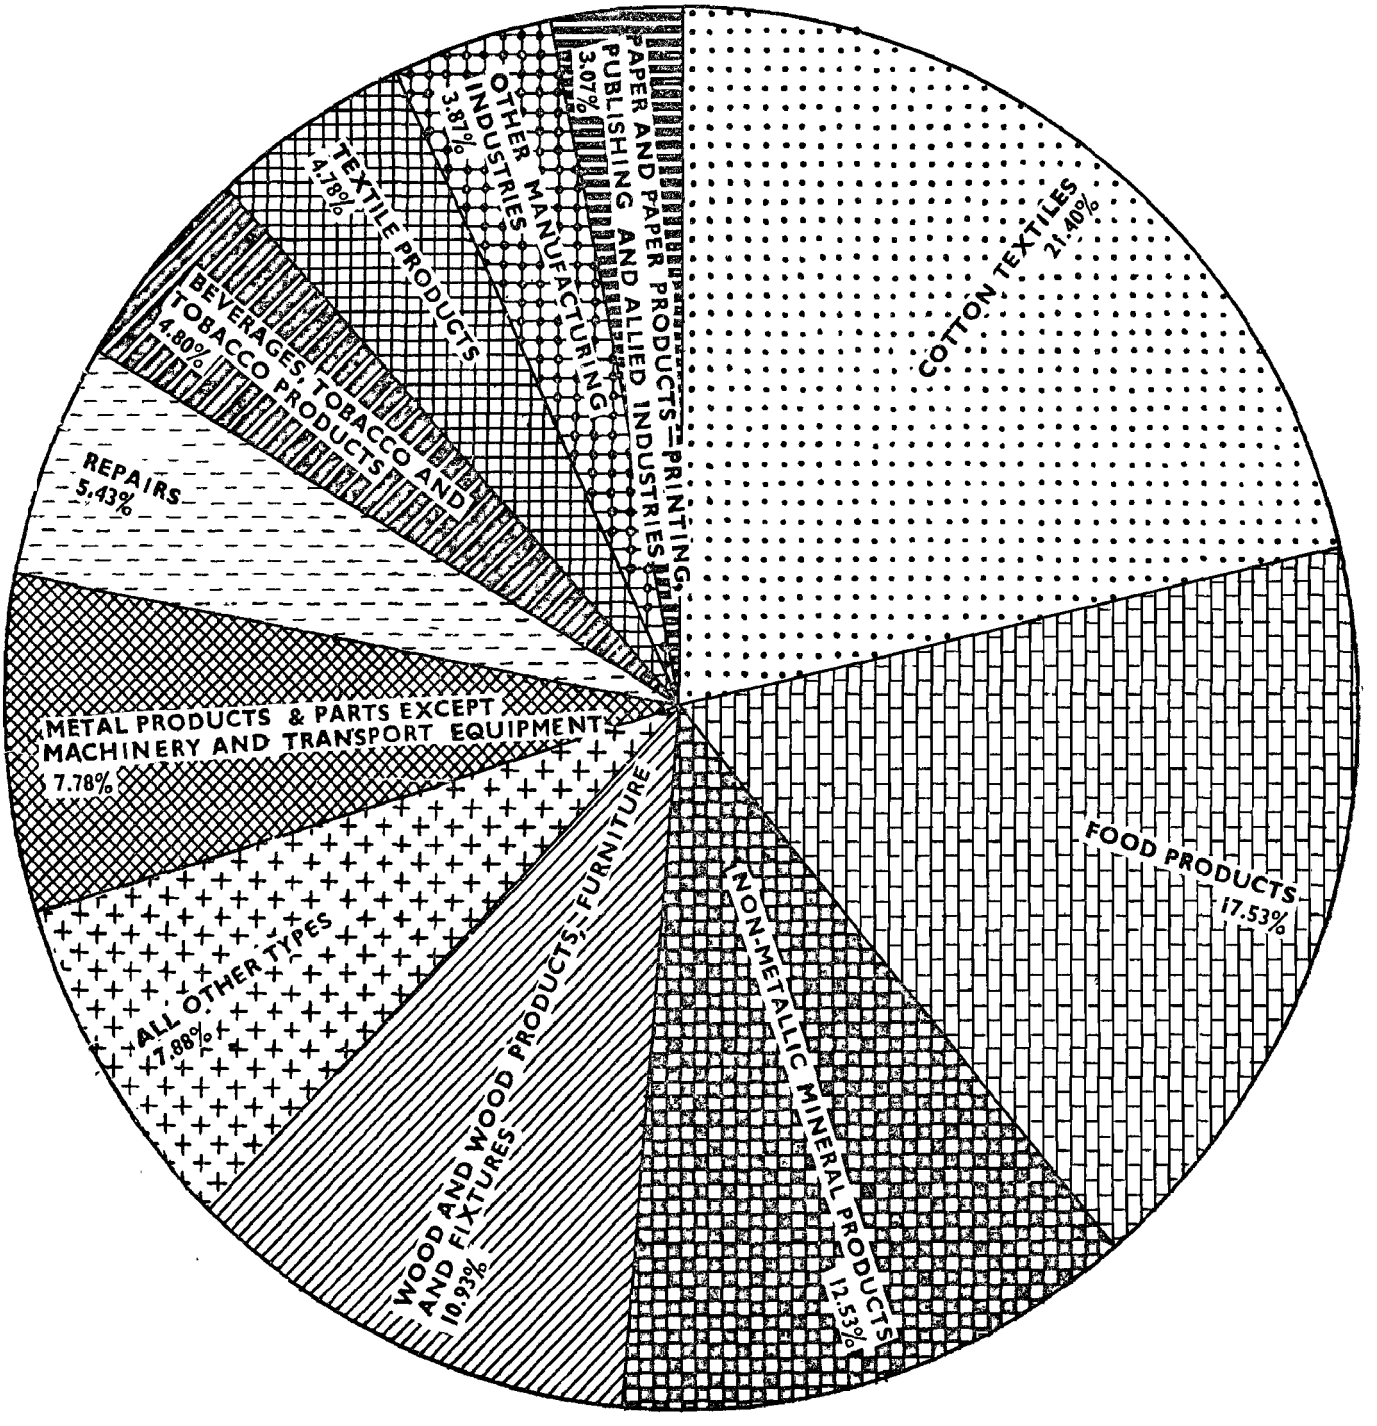

Important Indusrties (according to major group of N. I. C.) providing substantial employment

Industrial Establishments (Major group of N.I.C.—1970)		Total number of units	Persons engaged	Ranking according to size of employment
1		2	3	4
All Industrial Units		138,080 (100·00)	337,823 (100·00)	...
Major Group 23	Manufacture of cotton textiles	32,874 (23·81)	72,279 (21·40)	1
Major Groups 20-21	Manufacture of food products	26,990 (19·55)	59,216 (17·53)	2
Major Group 32	Manufacture of non-metallic mineral products	18,992 (13·75)	42,323 (12·53)	3
Major Group 27	Manufacture of wood and wood products	17,547 (12·71)	36,931 (10·93)	4
Major Group 34	Manufacture of metal products and parts except machinery and transport equipments	12,173 (8·82)	26,296 (7·78)	5
Major Group 39	Repair	7,024 (5·09)	18,357 (5·43)	6
Major Group 22	Manufacture of beverages, tobacco and tobacco products	2,886 (2·09)	16,196 (4·80)	7
Major Group 26	Manufacture of textile products (including wearing apparel other than footwear)	8,060 (5·84)	16,153 (4·78)	8
Major Group 38	Other manufacturing industries	8,139 (5·89)	13,084 (3·87)	9
Major Group 33	Basic metal and alloys industries	136 (0·10)	12,859 (3·81)	10

Figures in brackets indicate percentage in each major group

The Major group 23—manufacture of cotton textiles is the largest industrial employer, employing 72,279 persons, who constitute 21·40 per cent of all industrial employees. The next in the scale are Major groups 20-21—manufacture of food products which provides employment to 59,216 persons or

DISTRIBUTION OF EMPLOYMENT UNDER INDUSTRIAL ESTABLISHMENTS (INCLUDING HOUSEHOLD INDUSTRY) BY DIFFERENT MAJOR GROUPS OF N.I.C (1970)

17·53 per cent, Major group 32—manufacture of non-metallic mineral products employing 42,323 persons (12·53 per cent) and Major group 27—manufacture of wood and wood products employing 36,931 persons (10·93 per cent). Other major groups each of which provides employment to persons numbering from 12,000 to 27,000 are Major group 34 (7·78 per cent), Major group 39 (5·43 per cent), Major group 22 (4·80 per cent), Major group 26 (4·78 per cent), Major group 38 (3·87 per cent) and Major group 33 (3·81 per cent).

In sum, it may be mentioned that handloom industry is the most ubiquitous industry in rural Orissa and as such, provides the largest employment—a fact that we also saw from the study of Statement III.1. The second largest employer in industrial sector as per major group is the 'food products' group which covers the large number of 'Gudias' (village confectioners), Mudhi-shops (parched rice), milkman, etc.

Employment provided by Industrial Establishments of different sizes

The following statement presents industrial establishments on the basis of the size of employment they provide under the nine broad divisios based on the size of employment.

STATEMENT III.3

Industrial Establishments under various size of Employment and the Employment provided under each size

Establishments by various size of Employment	Total number of all industrial establishments			
	Number of Units	Percentage of each size class of Establishment	Number of persons engaged	Percentage of each size class of Establishment
1	2	3	4	5
TOTAL	138,080	100·00	337,823	100·00
1 Person	56,204	40·70	56,204	16·64
2—4 Persons	72,789	52·72	169,391	50·14
5—9 Persons	4,518	3·27	26,757	7·92
10—19 Persons	1,052	0·76	12,860	3·81
20—49 Persons	505	0·37	14,090	4·17
50—99 Persons	153	0·11	9,895	2·93
100—299 Persons	105	0·08	16,360	4·84
300—499 Persons	15	0·01	5,738	1·70
500+ Persons	16	0·01	26,528	7·85
Persons Unspecified	2,721	1·97	...	...

Out of 138,080 industrial establishments in the State, the single group (72,789 units) that provides the largest employment are the industrial establishments employing 2—4 persons. Next come the single person industrial establishments which form 40·70 per cent of the total industrial establishments in the State. But the employment they provide is not commensurate, being only 16·64 per cent of the total industrial employees. The second point, however, is that industrial establishments of the size classes of 1 person and 2—4 persons between themselves account for 93·42 per cent of all the industrial establishments of the State and 66·78 per cent of the industrial employees of the State. The other size class of establishments which provide significant employment are those employing 5—9 persons (employing 7·92 per cent of the industrial workers) and establishments of 500 + class which employ 7·85 per cent of the total industrial employees.

We find that it is the small-sized industrial establishments (employing 1 person and 2—4 persons) which provide the larger total employment among industrial establishments. The bigger industrial establishments employing more persons per unit occur predominantly as registered factories but being very few in number, such establishments absorb only a small proportion of the total industrial employment.

Position in the Districts

Whether the aforementioned phenomenon extends to the districts or not may now be examined. See statement below.

STATEMENT III.4

Distribution of Employment under Industrial Establishment (including Household Industry) among the different size class of establishments in the State and in each district

DISTRIBUTION OF EMPLOYMENT UNDER INDUSTRIAL ESTABLISHMENTS (INCLUDING HOUSEHOLD INDUSTRY) AMONG DIFFERENT SIZE CLASSES OF ESTABLISHMENTS

The single member industrial establishments may first be taken. We find that while establishments of this type for the State as a whole cover 16·64 per cent of the total industrial employees, the position revealed in the districts is somewhat different. Establishments employing 1 person each provide the highest employment in Balasore (23·59 per cent) and Puri (23·53 per cent) districts. The figure in respect of Baudh-Khondmals (20·83 per cent), Bolangir (19·24 per cent) and Ganjam (19·11 per cent) is also significant. It is the lowest in Sundargarh (6·23 per cent) followed by Sambalpur (14·06) per cent), Dhenkanal (14·72 per cent) and Keonjhar (15·35 per cent).

Industrial establishments employing 2—4 persons were found to account for the largest proportion (50·14 per cent) in the State. This position more or less holds good in the districts also. Baudh-Khondmals (68·38 per cent), Mayurbhanj (64·97 per cent) and Bolangir (64·16 per cent) are found to be the districts where establishments of this size employ the largest proportion of industrial workers. The districts which employ a relatively smaller proportion of workers in this size class are Sundargarh (26·13 per cent) followed by Cuttack (40·14 per cent), Keonjhar (48·38 per cent) and Puri (48·89 per cent). Despite these small variations, it might be concluded that establishments of this size class (2—4 persons) account for nearly a half or more of the industrial labour in all the districts of the State barring Sundargarh.

If we combine one-man establishments and 2—4 persons establishments, we find that these two kinds of establishments account for the major proportion of the industrial employment in all the districts excepting Sundargarh, where the proportion these two categories cover, stands at 32·36 per cent.

Districts like Baudh-Khondmals, Bolangir, Mayurbhanj and Kalahandi have the major industrial employment in the 2—4 persons category. This is probably accounted for by the fact that these districts have a relatively backward economy depending mostly on traditional household industries employing members of the household itself.

Establishments of other size classes—particularly those giving employment to 100 persons or more each account for a very low proportion of the industrial employment in all the districts barring Sundargarh where the proportion is the highest at 51·65 per cent. In fact, Sundargarh happens to be the only district of the State where more than half of the industrial workers belong to establishments in the 100+ size class, the district of Cuttack coming a distant second with 22·27 per cent.

Section B—Types of fuel or power used in Industrial Establishments

Out of 26,015 industrial establishments (other than household industry) in the State, 12,794 or 49·18 per cent are operated by power and 13,221 or 50·82 per cent do not use any kind of power. The fact that most of the industries are still run without any kind of power shows that they have not come out of the traditional stage. This is probably because most of the industrial establishments are small-sized ones in which manual labour is cheaper and more convenient.

Correlation between the type of industry, fuel or power used and the size of employment

Use of power or fuel is generally dependent on two factors—the type of industry and the size of the establishments. Certain types of industries such as handloom weaving, pottery, basket-making, rearing of silk worms, tailoring, carpentry, bidi-making, etc., do not require use of any kind of power, whereas with certain other types of industries use of power or fuel is essential. It is also seen that the proportion of establishments using power increase with the size of the establishments.

Correlation between fuel or power used and the type of Establishments

The following statement shows the distribution of every 100 industrial establishments (other than household industry) according to power or fuel used separately for each type of industry.

STATEMENT III.5

Distribution of every 100 Industrial Establishments (Other than Household Industry) by types of Power or Fuel used separately for each type of Industry (Major group of N. I. C.)

Type of Fuel or Power used	Industrial Establishments (excluding Household Industry) by Major groups

II. Manual	8·06	79·73	49·12	4·65	7·36	28·77	26·09	63·89	12·35	80·45

Among all types of industries major group 20-21 (manufacture of food products) has got the highest proportion of establishments (96·81 per cent) using fuel or power. This is what one would naturally expect as preparation of any kind of food products would generally require the use of fuel/power. This major group includes 19 minor groups, the most important of which are 211 (manufacture of other edible oils and fats, e.g., mustard oil, ground-nut oil, til oil, etc.), 207 (production of indigenous sugar boora, khandsari, gur, etc., from sugarcane, palm juice) and 209 (manufacture of cocoa, chocolate and sugar confectionery including sweetmeats). Other major groups which have also a significant proportion of the establishments run with fuel or power are major group 33 (basic metal and alloys industries)—95·35 per cent ; major group 34 (manufacture of metal products and parts except machinery and transport equipment)—92·64 per cent ; major group 30 (manufacture of rubber, plastic, petroleum and coal products)—91·94 per cent ; major grooup 38 (other manufacturing industries)—87·65 per cent ; major group 36 (manufacture of electrical machinery, apparatus, appliances and supplies and parts)—73·91 per cent and major group 35 (manufacture of machinery, machine tools and parts except electrical machinery)—71·23 per cent.

Under Divisions 2 and 3 as a whole, coal, wood or bagasse is the most widely used fuel as a source of power. The next important source of power is electricity. The proportion of establishments using liquid fuel is insignificant except in case of major group 20-21, which has 35·74 per cent of the establishments run with liquid fuel and major group 25 (manufacture of jute, hemp and mesta textiles) which has 20 per cent of its establishments run with liquid fuel. Use of 'other power', which relates to establishments run by animal power such as oil ghani is relatively insignificant.

The industries in which electricity accounts for more than 50 per cent of the establishments belong to major group 33 (67·44 per cent), major group 36 (65·21 per cent), major group 35 (63·01 per cent), major group 30 (56·45 per cent) and major group 28 manufacture of paper and paper products and printing , publishing and allied industries (50·99 per cent). Two other major groups which also have a substantial number of establishments run with electricity are major group 20-21 (manufacture of food products) —33·28 per cent and major group 37 (manufacture of transport equipment and parts)—30·56 per cent.

The major groups in which 'coal, wood and bagasse' is the principal kind of power used are : major group 22 (manufacture of beverages, tobacco, tobacco products) which has 43·06 per cent of the establishments using this kind of fuel, major group 32 (manufacture of non-metallic mineral products)—46·91 per cent, major group 34 (manufacture of metal products and parts except machinery and transport equipment)—84·36 per cent and major group 38 (other manufacturing industries)—64·24 per cent.

Correlation between fuel or power used and the size of employment

The following statement gives the distribution of industrial establishments (other than household industry) together with the different kinds of fuel used as well as the size of employment provided for the State of Orissa.

STATEMENT III.6

Distribution of Industrial Establishments (other than Household Industry) and persons employed according to kind of fuel or power used

Kind of fuel or power used	Number of units and percentage		Total number of persons employed		Number of persons employed per unit
	Number	Percentage	Number	Percentage	
1	2	3	4	5	6
TOTAL	26,015	100·00	132,058	100·00	5
I. All fuels/Power	12,794	49·18	96,408	73·00	8
(*c*) Electricity	3,840	14·76	62,341	47·21	16
(*b*) Liquid fuel	2,994	11·51	10,438	7·90	3
(*c*) Coal, wood and bagasse	5,226	20·09	21,986	16·65	4
(*d*) Other Power	734	2·82	1,643	1·24	2
II. Manual	13,221	50·82	35,650	27·00	3

For the State as a whole, industrial establishments (other than household industries) which use electricity as the modest power constitute only 14·76 per cent of the total establishments. But so far as employment is concerned, such industrial establishments account for as high a proportion as 47·21 per cent of the total industrial workers (other than household industries). On the other hand, industrial establishmets which use coal, wood and bagasse are 20·09 per cent of the total industrial units ; but provide employment to 16·65 per cent of the total working force in the industrial sector (barring household industries). The above two happen to be the principal kinds of power used in industrial establishments. Other types of power, viz., 'liquid fuel and other powers' are relatively of minor importance not only from the point of view of the number but also from that of employment.

Comparison between 1971 and 1961 Census figures

A comparison between the figures of 1971 Census and 1961 Census relating to use of different kinds of fuels and power may give us an idea of the current trend. But the difficulty that arises when such a comparison is attempted is that in 1961 Census no information was compiled for Household Industries and Industries other than Household Industries separately. Therefore, the 1961 Census Establishment Tables combines data for all kinds of industrial units. The data in respect of all industrial units combined for 1961 and 1971 may be studied from the following statement.

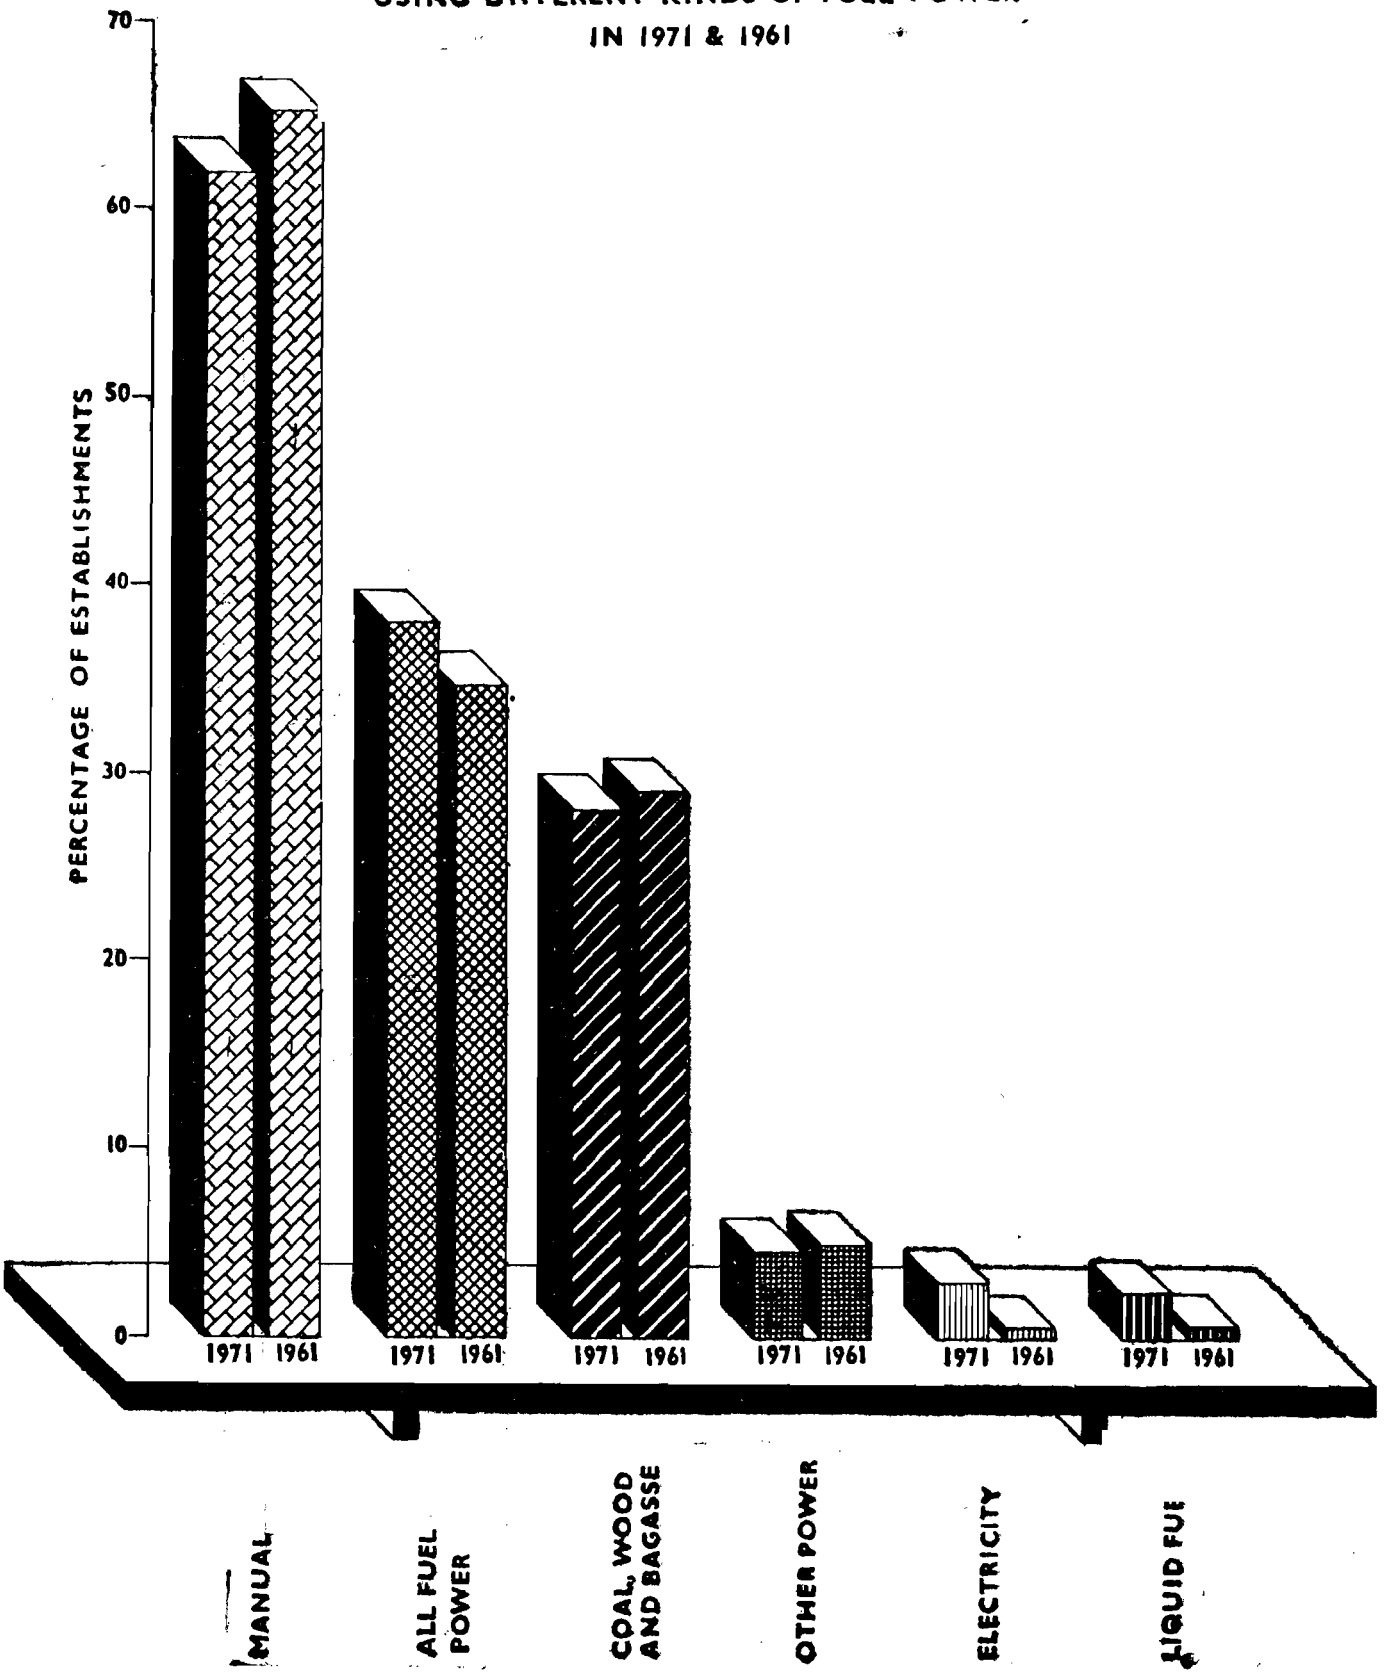

STATEMENT III.7

Percentage Distribution of Industrial Establishments (including Household Industries) of the State classified by Fuel/Power used and size of Employment, for 1971 Census and 1961 Census

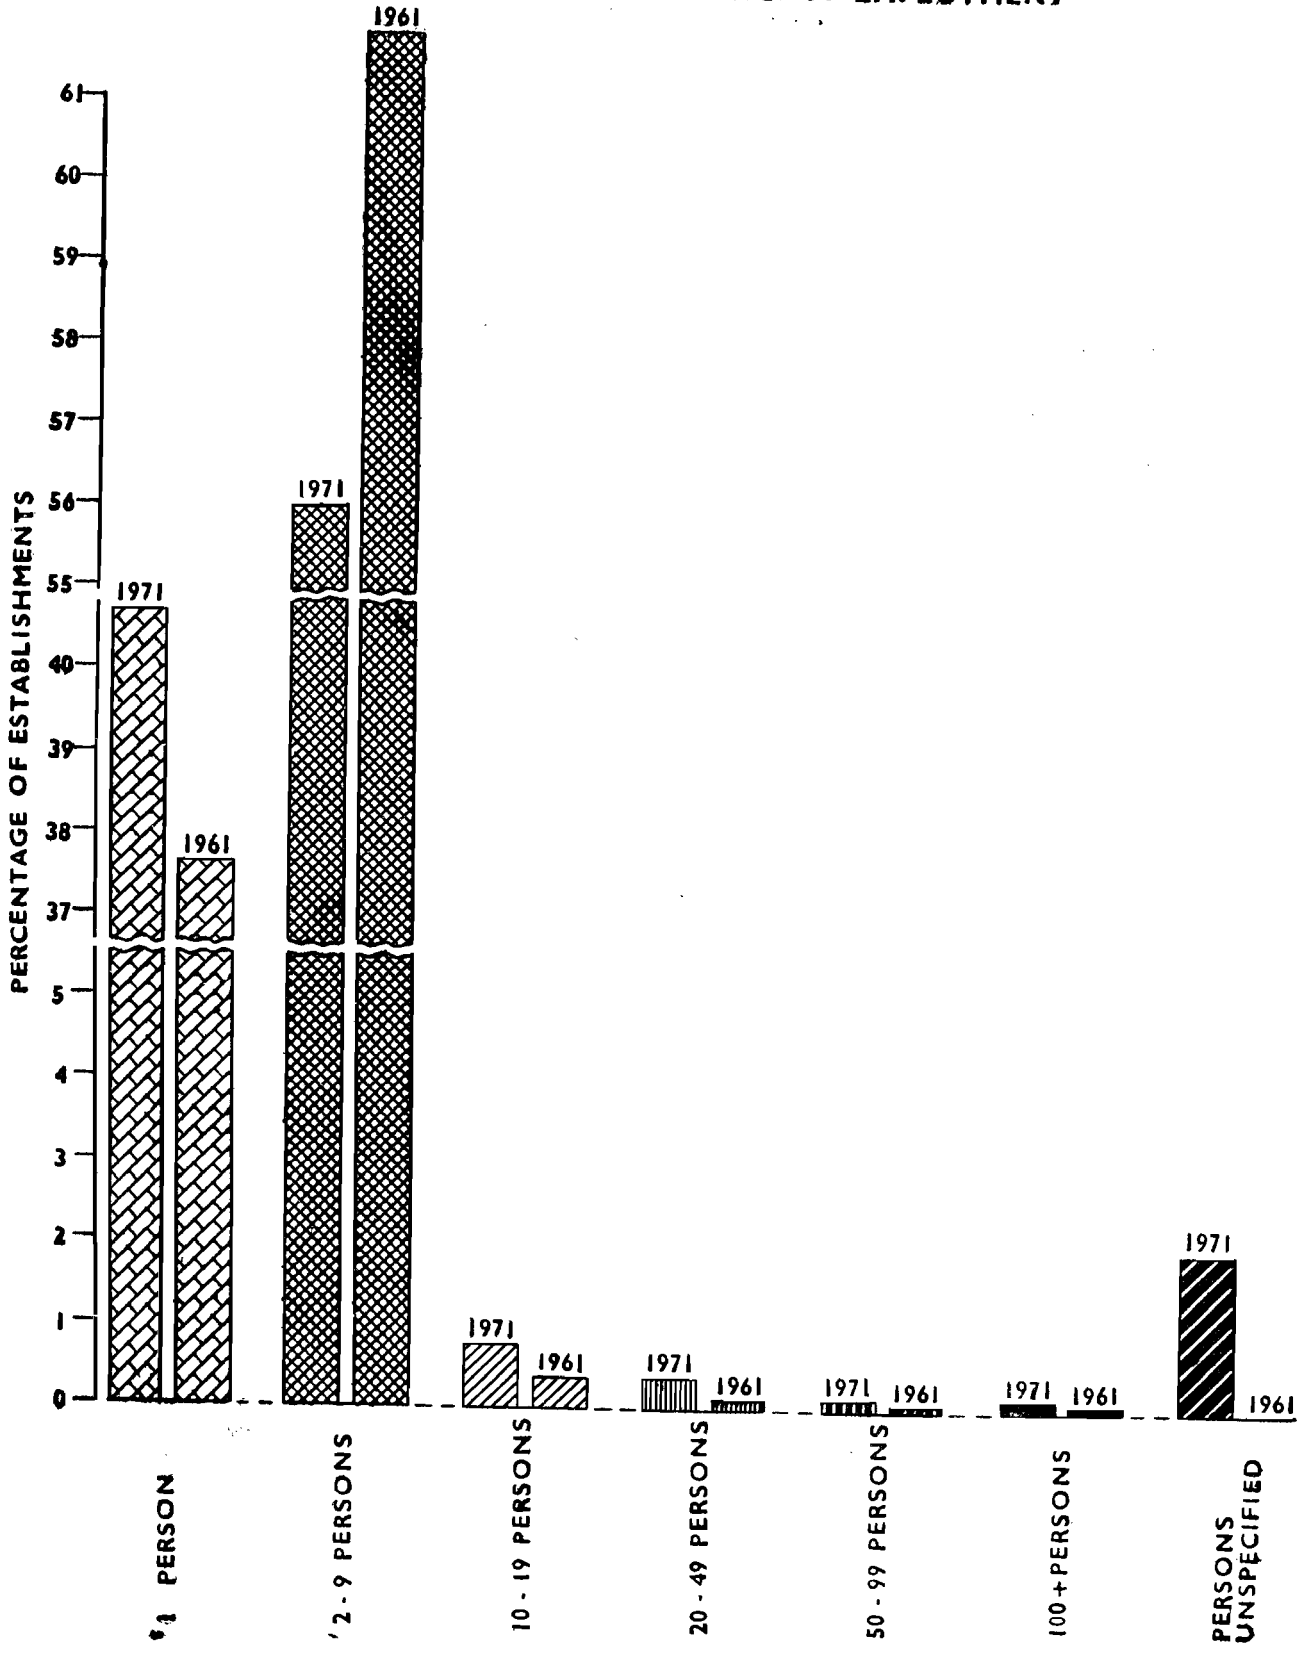

Kinds of Fuel or Power used	Census Year	Number of Factories or Workshops (including Household Industries) by size of Employment and Fuel/Power used

PROPORTION OF INDUSTRIAL ESTABLISHMENTS
(INCLUDING HOUSEHOLD INDUSTRY)
USING DIFFERENT KINDS OF FUEL POWER
IN 1971 & 1961

PROPORTION OF INDUSTRIAL ESTABLISHMENTS (INCLUDING HOUSEHOLD INDUSTRY) UNDER DIFFERENT SIZE CLASSES OF EMPLOYMENT

It would appear from the above statement that the proportion of the industrial units using fuel and power in 1971 has recorded an increase of 3·19 points, over the 1961 figure. While the proportions of the industrial units using electricity and liquid fuel has gone up the proportion of those using coal, wood and bagasse and other power have recorded a slight decrease during the decade 1971 to 1961. The proportion of units using electricity has registered a very steep rise from 0·29 per cent in 1961 to 2·96 per cent in 1971. The proportion of units using liquid fuel has also gone up considerably from 0·52 per cent in 1961 to 2·39 per cent in 1971.

The proportion of the units using coal, wood and bagasse has, however, recorded a decrease of 1·03 points (from 29·15 per cent in 1961 to 28·12 per cent in 1971) and that using other power also recorded a slight decrease from 4·87 per cent in 1961 to 4·55 in 1971.

When we consider the rural and urban areas separately, we find that while in the urban areas the proportion of units run with electricity has more than doubled (from 5·03 per cent in 1961 to 12·29 per cent in 1971), it has had a very significant rise in the rural sector also, having gone up from 0·05 per cent in 1961 to 1·60 per cent in 1971. Use of liquid fuel seems to have found greater favour in the rural areas than in the urban areas, as the increase in proportion during the decade 1961-1971 is 1·87 per cent in the rural areas as against 1·31 per cent in the urban areas. The use of coal, wood and bagasse has considerably decreased in proportion by 6·00 points in the urban areas from 32·19 per cent in 1961 to 26·19 per cent in 1971. In the rural areas this decrease in proportion in the use of coal, wood and bagasse is only 0·59 points (from 28·99 per cent in 1961 to 28·40 per cent in 1971). While proportion of units using other power has slightly increased (from 5·05 per cent in 1961 to 5·07 per cent in 1971) in the rural areas, it has recorded a decrease in the urban areas (from 1·25 per cent in 1961 to 0·97 per cent in 1971).

Household Industries

The following statement gives the distribution of 100 Household Industry establishments by different kinds of fuel or power used for Total, Rural and Urban areas for each of the major groups of N. I. C. separately.

II. Manual	...	84·09	68·28	...	6·56	33·33	...	100·00	8·44	76·29

One important feature that emerges from the above statement is that even in the urban areas, household industries run by electricity are not very prominent. This is an indication that inspite of the fact that electricity is now available in many urban areas, the urban household industries have not taken to electricity to any appreciable degree. The traditional pattern of household industries is still maintained and the conventional type of fuel, viz., coal, wood and bagasse still remains the chief source of power. Barring a few types of industries, which cannot be run without electricity or some kind of fuel, there is a preponderance of the no-power category (or industries run by manual labour) in almost all types of industries. But a comparison of rural and urban data shows that the household industries run by electricity are more numerous in the urban areas.

Among the different types of industries, the major group 30 (manufacture of rubber, plastic, petroleum and coal products) has the highest proportion (64·29 per cent) of units run by electricity. In the urban areas the proportion of units run by electricity for this major group is still higher (71·43 per cent) and in the rural areas it is 57·14 per cent. In use of electricity, the second place is occupied by major group 35(manufacture of machinery, machine tools and parts except electrical machinery), which has 66·67 per cent of establishments run by electricity in the urban areas ; but none of the units of this major group is operated by electricity in the rural areas. Other major groups in which there is a fairly good proportion of household industries run by electricity are major group 39 (repair) having 6·18 per cent of the establishments run by electricity in the urban areas and 1·63 per cent in the rural areas ; major group 20-21 (manufacture of food products) having 3·46 per cent of the establishments run by electricity in the urban areas and 0·77 per cent in the rural areas; major group 28 (manufacture of paper and paper products and printing, publishing and allied industires), having 3·45 per cent of units run by electricity in the urban areas, but not a single unit in the rural areas ; major group 31 (manufacture or chemicals and chemical products except products of petroleum and coal) having 2·27 per cent of units run by electricity in the urban areas and only 0·75 per cent of units in the rural areas.

In short, household industrial establishments, both in the rural and urban areas, are run mostly through manual labour and most of whatever fuel is used consists of coal, wood or bagasse. Electricity as the motive force is of very little significance so far as household industrial units in Orissa are concerned.

The following statement gives the distribution of household industries by different kinds of fuel or power used separately for different size classes.

STATEMENT III.9

Distribution of Household Industries by different kinds of fuel or power used separately for different size classes

Kinds of fuel or power used	Number of Household Industrial estalishments in different size classes											
	Total Establishments		One person		2—4 persons		5—9 persons		10—19 persons		Persons unspecified	
	Number	Percentage	Number	Percentage	Number	Percentage	Number	Percentage	Number	Percentage	Number	Percentage
1	2	3	4	5	6	7	8	9	10	11	12	13
Total	112,065	100·00	45,509	100·00	61,771	100·00	2,755	100·00	172	100·00	1,858	100·00
I. All fuel/power	39,705	35·43	17,843	39·21	20,218	32·73	818	29·69	...	...	826	44·46
(*a*) Electricity	250	0·22	87	0·19	146	0·24	8	0·29	...	...	9	0·49
(*b*) Liquid fuel	301	0·27	129	0·28	143	0·23	10	0·36	...	...	19	1·02
(*c*) Coal, wood and bagasse	33,604	29·99	15,795	34·71	16,504	26·72	759	27·55	...	...	546	29·39
(*d*) Other power	5,550	4·95	1,832	4·03	3,425	5·54	41	1·49	...	...	252	13·56
II. Manual	72,360	64·57	27,666	60·79	41,553	67·27	1,937	70·31	172	100·00	1,032	55·54

It appears from this statement that the larger the size of the household industrial establishments, the lower is the proportion of establishments run by fuel or power and finally in the size class of 10–19 persons which is the highest size for household industry, all the units come under the no-power category. In the size class of single person establishments, 39·21 per cent of the units are run by fuel and power, in the size class of 2—4 persons the proportion of units run by fuel and power comes down to 32·73 per cent, in the size class of 5—9 persons the proportion is reduced further to 29·69 per cent.

'Coal, wood and bagasse' as fuel claims 34·71 per cent of the single person establishments, 26·72 per cent of the establishments in the size class of 2—4 persons, 27·55 per cent of the establishments in the size class of 5—9 persons. The proportion of establishments run by electricity and also liquid fuel in any of the size class of establishments is less than 1 per cent.

From a study of the foregoing statement it becomes clear that the larger the household industrial establishment the greater is its tendency to prefer manual labour. This appears to be understandable because the available manpower in a household industry, which is more readily available and with little or no expense is preferred to other modes of motive power.

TRADE OR BUSINESS ESTABLISHMENTS

Total number of establishments and size of employment in different kinds of trade establishments

Trading or business establishments are broadly classified into three categories, viz., (*a*) wholesale, (*b*) retail and (*c*) others. A trade establishment has been classified as wholesale or retail depending on whether goods are sold/bought in wholesale or in retail in that establishment. Establishments rendering commercial services such as banks, money-lending firms, pawn-shops, etc., have been classified as 'Others'.

From the following statement, which gives the number of establishments and their proportions, the employment size and its proportion in each of the three categories of trade establishments by total, rural and urban for the State as a whole, it may be possible to estimate the relative importance of the different type of trade establishments.

STATEMENT III.10

Number of Establishments and their proportion, number of persons engaged and their proportion in each broad type of Trade or Business Establishments

Total/ Rural/ Urban	Total		Wholesale		Retail		Others	
	Number of trade establishments	Persons engaged	Number of Establishments and their percentage	Persons engaged and their percentage	Number of Establishments and their percentage	Persons engaged and their percentage	Number of Establishments and their percentage	Persons engaged and their percentage
1	2	3	4	5	6	7	8	9
Total	144,941	222,555	4,267	13, 217	111,499	143,963	29,175	65,375
	100·00	100·00	2·94	5·94	76·93	64·69	20·13	29·37
Rural	105,242	135,631	2,074	6,548	82,926	98,387	20,242	30,696
	100·00	100·00	1·97	4·83	78·80	72·54	19·23	22·63
Urban	39,699	86,924	2,193	6,669	28,573	45,576	8,933	34,679
	100·00	100·00	5·53	7·67	71·97	52·43	22·50	39·90

Retail trade forms the mainstay of trade establishments accounting for 111,499 out of 144,941 establishments or 76·93 per cent. This is obviously the most important of the three kinds of trade establishments ; as the numerous shops, varying from a very modern departmental store involving heavy capital investment to a small tea or pawn shop in a hutment situated in a remote village, all cater for the needs of the population. The retail trade establishment is also of considerable importance as it provides means of livelihood to as many as 143,963 persons out of 222,555 persons employed in all kinds of trade establishments which works out to 64·69 per cent.

Next in importance come the kind of trade establishments classified as 'Others' which account for 20·13 per cent of all trade establishments and 29·37 per cent of the persons employed in all kinds of trade establishments.

From the point of view of the number of establishments and the employment size, wholesale trade comes last among the three categories. It accounts for only 2·94 per cent of the trade establishments and 5·94 per cent of the persons employed in all trade establishments.

In the distribution of the trade establishments among the three categories the first point of contrast between the rural and the urban areas relates to the wholesale trade establishments. The proportion of the wholesale trade establishments is comparatively high in the urban areas compared to the rural areas. The proportion of employment in esatablishments of this type is also higher in the urban than in the rural areas. Trade establishments categorised as 'Others' give a higher employment as compared to their incidence both in the urban areas and rural areas.

Distribution position in the Districts

The occurrance of trade establishments of the three categories in the districts together with the degree of employment they provide may be seen in the following statement.

STATEMENT III.11

Distribution of Trade or Business Establishments and the number of persons engaged in each type of Trade establishments both in number and proportion among districts

State / District	All types of Trade or Business Establishments				Wholesale Trade

Koraput	4,947	4·44	7,213	5·01	3,252	11·15	6,575	10·06
Ganjam	14,686	13·17	18,568	12·90	4,175	14·31	7,654	11·71
Puri	17,242	15·46	21,215	14·74	4,020	13·78	11,796	18·04

What strikes one first in this statement is that there is a great deal of similarity in ranking of the districts according to the highest number of trade establishments and the highest number of workers engaged in different kinds of trade establishments.

In wholesale trade, Cuttack district has the highest proportion of establishments (22·50 per cent) followed by Puri (12·56 per cent), Ganjam (10·76 per cent) and Balasore (10·33 per cent). In retail trade the ranking of the first three districts is the same. Cuttack has the highest proportion (22·30 per cent) of retail trade establishments, followed by Puri (15·46 per cent), Ganjam (13·17 per cent) and Sambalpur (9·01 per cent). In the trade establishments categorised as 'Others', Cuttack district again is first in order of ranking as it has the highest proportion (20·51 per cent) of this category of trade establishments. Next three districts in order of ranking are Ganjam (14·31 per cent), Puri (13·78 per cent) and Koraput (11·15 per cent.)

As the figures would show, the districts of Baudh-Khondmals, Kalahandi, Keonjhar and Mayurbhanj are at the bottom.

Distribution of persons employed in trade among the Districts

In wholesale trade, Cuttack district provides employment to the largest number of persons followed by Dhenkanal, Puri and Ganjam. The position in respect of retail trade establishments is more or less the same, Sambalpur district also occupying a high place. In the trade establishments categorised as 'Others', Cuttack district provides employment to the highest number of persons, followed by Puri Ganjam and Koraput. The districts of Baudh-Khondmals, Kalahandi, Keonjhar and Mayurbhanj have very low figures of employment in all the three kinds of trade establishments.

Employment provided by different types of trade establishments in Rural/Urban Sector

The following statement gives the total number of Trade or Business establishments and number of persons employed in the three types of trade establishments and their distribution between the rural and urban sectors. The proportion (per cent) distribution in rural and urban sectors is also given.

STATEMENT III.12

Distribution of Trade or Business Establishments between Rural and Urban areas

Types of Trade or Business Establishments		Total		Rural		Urban	
		Number of establishments	Number of persons engaged	Number of establishments	Number of persons engaged	Number of establishments	Number of persons engaged
1		2	3	4	5	6	7
Wholesale	(*a*)	4,267	13,217	2,074	6,548	2,193	6,669
	(*b*)	100·00	100·00	48·61	49·54	51·39	50·46
Retail	(*a*)	111,499	143,963	82,926	98,387	28,573	45,576
	(*b*)	100·00	100·00	74·37	68·34	25·63	31·66
Others	(*a*)	29,175	65,375	20,242	30,696	8,933	34,679
	(*b*)	100·00	100·00	69·38	46·95	30·62	53·05

(*a*)=Absolute figure
(*b*)=Percentage distribution in Rural and Urban areas

There are relatively much larger number of retail trade establishments and of establishments categorised as 'Others' in the rural areas than in the urban areas. The proportion of retail trade establishments in the rural areas is as high as 74·37 per cent as against only 25·63 per cent in the urban areas. The proportion of the category 'Others' (69·38 per cent) is also higher in the rural areas than the urban areas (30·62 per cent). Though, preponderance of these two types of establishments in the rural areas would point to a corresponding deficiency of the same establishments in the urban areas, actually the position is not so. The average number of persons that a retail trade establishment serves in the rural areas is 242·38, whereas the urban average is 64·59. Similarly, the average number of persons that an establishment of the category 'Others' serves in the rural areas is 992·95 as against the corresponding urban average of 206·58. This shows that from a consideration of the ratio between population and the number of establishments, there is a relatively larger urban concentration of these establishments.

The position is, however, different in case of establishments in wholesale trade, which are in a sense more important as they regulate the supply of consumer goods to the retail shops. The urban sector has a higher proportion (51·39 per cent) of this type of establishments than the rural sector (48·61 percent).

Trade or Business Establishments by different Major groups of N. I. C.

All Trade or Business establishments fall within Divisions 6 and 8 of National Industrial Classification. Division 6 covers wholesale and retail trade and restaurants and hotels, and Division 8 covers financing, insurance, real estate and business services. Divisions 6 and 8 (which cover all trade or business establishments) have a total number of 144,941 establishments in the whole State. Division 6 has 140,485 establishments accounting for 96·93 per cent of all trade or business establishments, and Division 8 has only 4,456 establishments accounting for 3·07 per cent of the establishments.

The following statement gives the number and proportion (per cent) of trade establishments under different major groups for the State as a whole and for Rural and Urban areas separately.

STATEMENT III.13

Trade or Business establishments under different major groups of N.I.C. together with their proportion and the number of persons engaged in each type of Trade establishments and their *proportion to total persons engaged in* Trade or Business establishments

82	8,495	9·77	487	1·23
83	1,147	1·32	184	0·46

Among all the major groups under Divisions 6 and 8, major group 65 (retail trade in food and food articles, beverages, tobacco and intoxicants) has the highest number (89,325) of establishments constituting 61·63 per cent of all trade establishments. The number of persons engaged in these establishments is 110,129 , constituting 49·48 per cent of the total persons engaged in all trade establishments. No other major group under divisions 6 & 8 provides employment to such a large number of persons. As a matter of fact this is one of the most important major groups as it covers retail trade of a wide variety of products that are essential for daily consumption, such as grain and grocery, vegetable and fruit, meats fish and poultry, sweetmeat, bakery products, dairy products and eggs, aerated water, soft drinks and ice cream, wine and liquor and other kinds of food articles, beverages, tobacco and intoxicants.

Major group 69, which includes restaurants, hotels and other eating and drinking places, rooming houses, camps, lodging places and the like comes second in ranking. It has 24,719 establishments (17·05 per cent) engaging 42,499 persons (19·10 per cent). In the light of the number of establishments and number of persons engaged, the following major groups also appear important.

Major group 68 (retail trade in others—such as medicines, books and stationery, building materials transport equipment, petrol, etc.) with 8,041 establishments (5·55 per cent) engaging 11,758 persons (5·28 per cent) ; major group 66 (retail trade in textiles including ready-made garments) with 7,100 establishments (4·90 per cent) engaging 10,764 persons (4·84 per cent) ; major group 67 (retail trade in fuel and other household utilities and durables including utensils, fancy articles, crockery, glass ware, electrical and electronic goods, furniture, jewellery, footwear, etc.) with 7,033 establishments (4·85 per cent) engaging 11,312 persons (5·08 per cent).

Types of Trade Establishments providing larger employment in the rural areas

In the rural areas, major group 65 (retail trade in food, food articles, beverages,, tobacco and intoxicants) provides the largest employment (82,988 persons) constituting 61·19 per cent of the total persons employed in all kinds of trade establishments. The next in the order of ranking are major group 69 (restaurants and hotels) which provides employment to 22,992 persons constituting 16·95 per cent ; major group 66 (retail trade in textiles) which provides employment to 5,490 persons (4·05 per cent). The proportion of employment provided in the rural areas by all other types of trade establishments is found to be less than 4 per cent.

Types of Trade Establishments providing larger employment in the urban areas

Major group 65 which provides the largest employment in the rural areas is seen to employ the largest persons in the urban areas also. The number of persons working in establishments under this major group is 27,141 which constitutes 31·22 per cent. Other major groups which provide substantial employment in the urban areas are : major group 69, providing employment to 19,507 persons (22·44 per cent) ; major group 82 (real estate and business services) providing employment to 8,495 persons (9·77 per cent) ; major group 67, providing employment to 6,666 persons (7·67 per cent) ; major group 68, providing employment to 6,495 persons (7·47 per cent) and major group 66, providing employment to 5,274 persons (6·07 per cent).

Number of employees in different size classes of Trade or Business establishments

The following statement gives employment under trade or business establishments according to the size class, the number of persons working in each size class and the proportion they constitute to the total employment under trade and business establishments.

STATEMENT III.14

Total number of persons engaged in each size class of trade or business establishments and their proportion (per cent) to the total persons engaged in all size classes of trade or business establishments

Size class of trade establishments	Total		Rural		Urban	
	Persons engaged	Proportion (%) to total persons engaged in all sizes	Persons engaged	Proportion (%) to total persons engaged in all sizes	Persons engaged	Proportion (%) to total persons engaged in all sizes
1	2	3	4	5	6	7
TOTAL	222,555	100·00	135,631	100·00	86,924	100·00
1 person	102,357	45·99	79,872	58·89	22,485	25·87
2—4 persons	75,220	33·80	41,970	30·94	33,250	38·25
5—9 persons	17,893	8·04	6,636	4·89	11,257	12·95
10—19 persons	8,381	3·76	2,586	1·91	5,795	6·67
20—49 persons	7,877	3·54	2,431	1·79	5,446	6·26
50—99 persons	2,755	1·24	956	0·71	1,799	2·07
100+ persons	8,072	3·63	1,180	0·87	6,892	7·93

It would be noticed from the Statement that the lowest two size classes, between themselves, provide employment to the largest proportion of workers (79·79 per cent) under trade and business establishments. The balance is distributed among the other five categories of size classes. Another interesting feature is that as we go from one lower size class to the next higher size class the number of persons employed in that size class goes on decreasing. This holds good up to the size class of 50—99 persons, the proportion of employees in this size class being the lowest (1·24 per cent). In the 100+ size class the figure slightly goes up to 3·63 per cent.

Looking at the rural and urban areas separately, it is noticed that while the combined effect of 1 person and 2—4 persons size classes in regard to the employment remains predominant both in the rural and urban areas, it is the 1 person size class that provides the largest employment in rural areas while in the urban areas the credit goes to the 2—4 persons size class establishments.

We have seen from the preceding statement that while the total employment provided by single person establishments is the highest (45·99 per cent) for the State as a whole and the proportion tends to decrease gradually with the increase in size class of trade and business establishments, it is worth finding out if this pattern remains the same or behaves differently when we consider the situation with reference to the types of trade and business establishments. The following statement may be studied,

STATEMENT III.15

Distribution of employment among different size classes of Trade or Business establishments in the State separately in each Division and Major Group of N.I.C.

Type of Industry (Division and Major Group of N.I.C.—1970)	Total persons engaged	Percentage to total persons in all size class of establishments	1 person		2—4 persons		5—9 persons

83	125	9·55	329	25·13	458	34·99	...	...

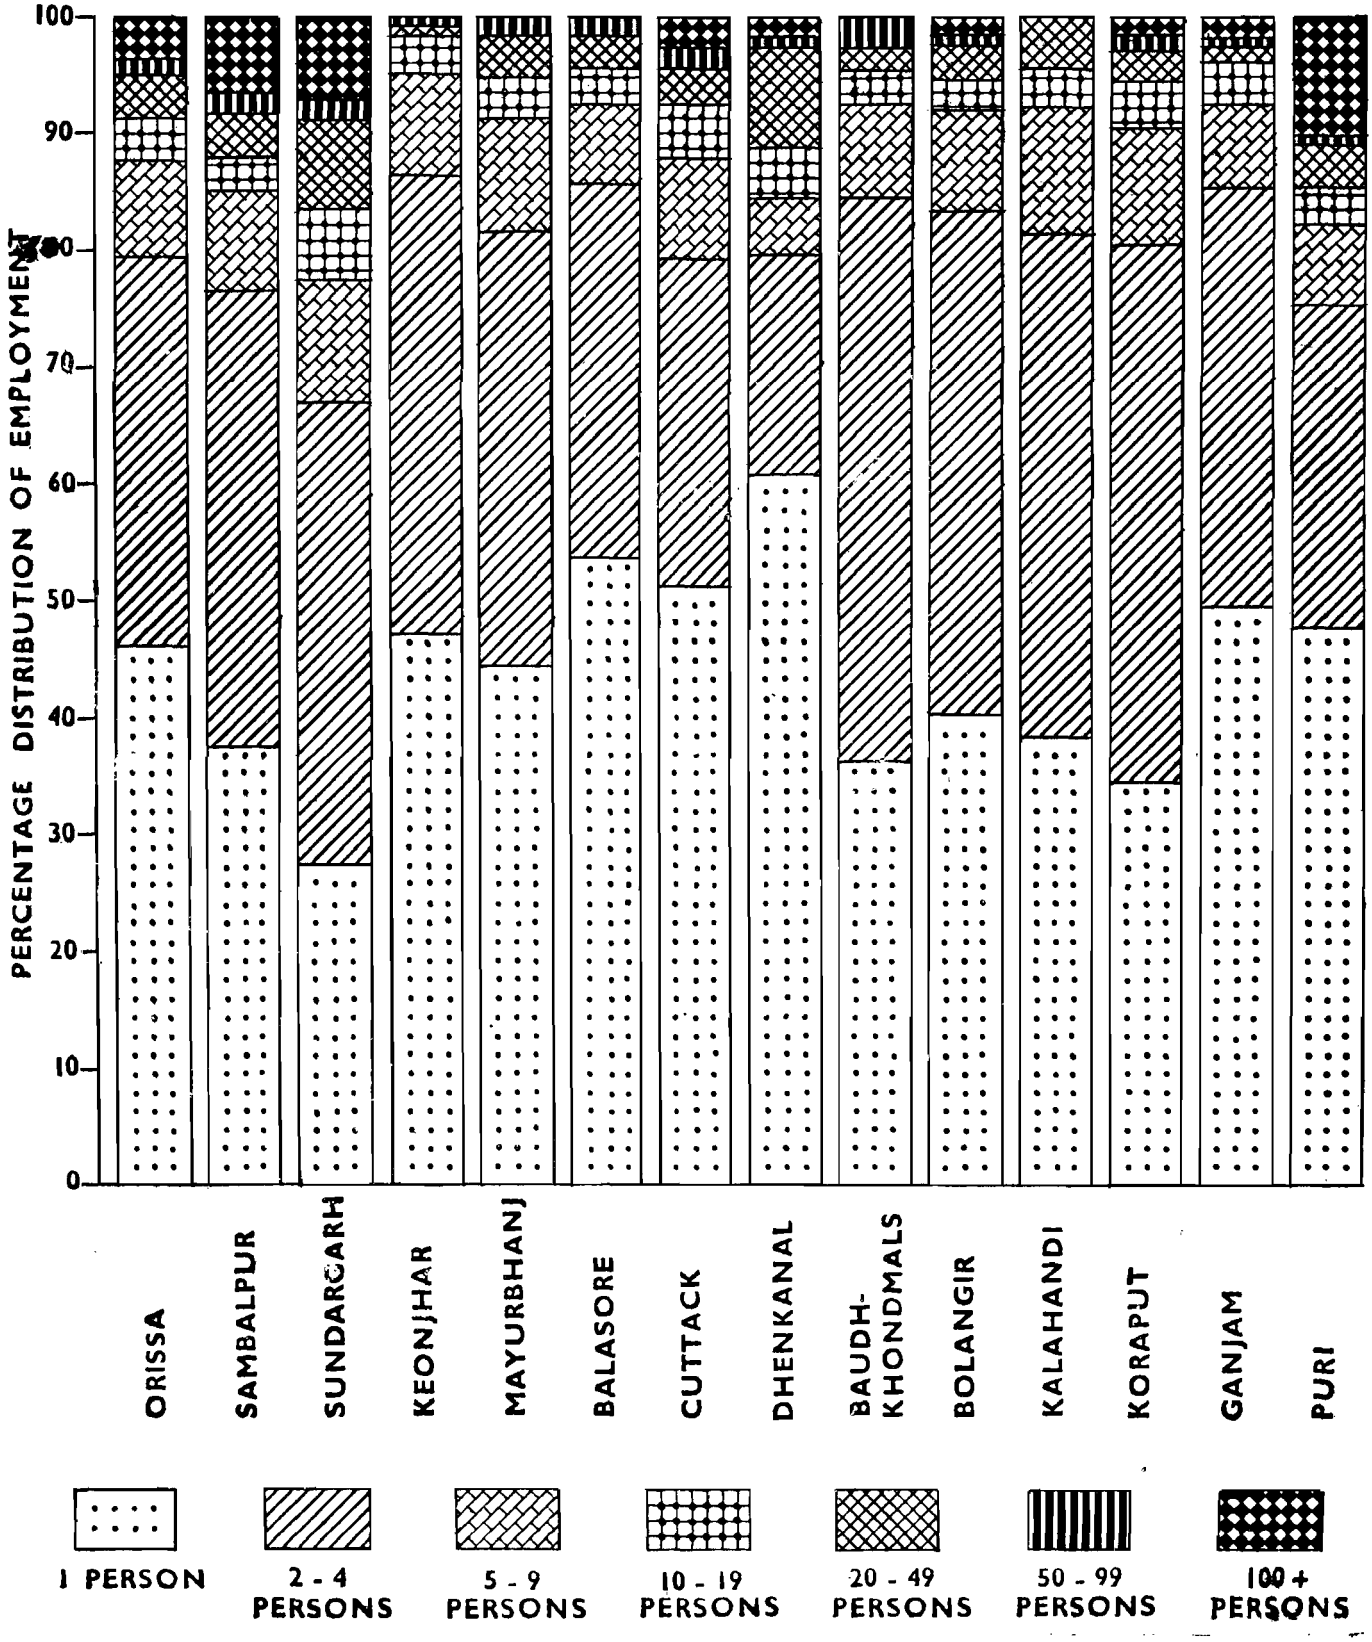

Taking the two broad divisions, viz., divisions 8 and 6, we find that 1 person establishments in division 6 provide the bulk of employment under that division (50·67 per cent) and 2—4 persons establishments account for a further 35·41 per cent. The rest of the size classes cover a very small proportion of the employees under division 6. This shows that the employment provided by different size class of trade and business establishments in division 6 is by and large of the same character as the employment provided by all trade and business establishments. The trade and business establishments under division 8 however seem to present a different pattern. Out of 22,876 persons employed under this division, the bulk (6,688 or 29·24 per cent) are employed in the largest size class of 100+, followed by the 2—4 persons size class which accounts for 19·70 per cent and size class 20 - 49 persons which accounts for a further 16·97 per cent. The employment provided by 1 person establishments in divsion 8 seems to be very small indeed at 5·14 per cent.

Coming to the major groups it is seen that in division 6, the largest employment is provided by major groups 65, 69, 68, 66 and 67 in that order, while the other major groups contribute nominally in 1 person establishments. In division 8, where the largest size class accounts for the highest proportion of employment, the major group 82 contributes the most (5,838 persons out of 6,688 persons). In the 2—4 persons category of establishments which comes next in this division, it is major groups 80 and 82 which contribute the most (3,211 and 1,063 respectively).

Position in the districts

We have already discussed the distribution of employment among different size classes of trade and business establishments for the State as a whole. The following statement shows the distribution of employment among different size classes of trade establishments for the districts.

DISTRIBUTION OF EMPLOYMENT UNDER TRADE OR BUSINESS ESTABLISHMENTS AMONG DIFFERENT SIZE CLASSES OF ESTABLISHMENTS

Puri	1,072	3·11	1,313	3·81	170	0·49	3,547	10·30

As in case of the State as a whole so also in different districts, the single person establishments and the establishments in the range of 2—4 persons together account for the majority (near about 80 per cent) of the persons employed in all trade establishments.

It is however observed that the pattern of distribution of employment among the different size classes of establishments is not the same for all the districts. While the proportion of persons employed in single person establishments in Dhenkanal district is 60·91 per cent, which is highest among all the districts, in Sundargarh district the proportion is as low as 27·15 per cent. Similar variation among the districts is also noticed in the proportion of employment provided by establishments in the range of 2—4 persons. Thus while the proportion of employment provided by establishments of this size class is as high as 48·73 per cent in Baudh-Khondmals district, it is only 18·92 per cent in Dhenkanal district. The disparity between the figures of different districts gradually diminishes in the higher size classes of trade establishments. In the size class of 5—9 persons, the highest proportion (10·77 per cent) of employment has been recorded in Kalahandi district and the lowest (4·93 per cent) in Dhenkanal district. In the size class of 10—19 persons, the highest proportion (6·00 per cent) has been recorded in Sundargarh district and the lowest (2·55 per cent) in Bolangir district. In the size class of 20—49 persons the highest proportion (8·57 per cent) has been recorded in Dhenkanal district and the lowest (0·99 per cent) in Keonjhar district. Kalahandi is the only district which has no establishments of the size class of 50—99 persons. The proportion of employment in this size class is highest (2·78 per cent) in Baudh-Khondmals district and lowest (0·49 per cent) in Puri district. Five districts viz., Keonjhar, Mayurbhanj, Balasore, Baudh-Khondmals and Kalahandi have no establishments of the size class of 100+ persons. The highest proportion (10·30 per cent) of employment in this size elass has been recorded in Puri district and lowest (0·74 per cent) in Dhenkanal district.

'OTHER' ESTABLISHMENTS

Having covered Manufacturing establishments and Trade and Business establishments, that category of establishments known as other establishments may now be taken up for study. Establishments under the category 'Others' are those which are neither manufacturing establishments nor trade or business establishments. Government offices, educational institutions, public health institutions, hotels, cinema houses, barber's saloons, laundries, tea shops, doctors' clinics, orphanages, rescue homes, etc. are some of the types of establishments that come under 'Others'. The number of educational institutions and public health institutions which are the more important establishments in this category are shown separately in the following statement.

STATEMENT III.17

Employment provided by establishments (Educational Institutions, Public Health Institutions and others) other than Industrial and Trade or Business establishments

Different types of other establishments	Total number of other establishments	Total number of persons engaged	Percentage of establishments in each type to total other establishments	Percentage of number of persons engaged in each type to total persons engaged in other establishments
1	2	3	4	5
TOTAL	145,046	389,994	100·00	100·00
1. Educational Institutions	33,510	113,704	23·10	29·15
2. Public Health Institutions	5,552	26,466	3·83	6·79
3. Others	105,984	249,824	73·07	64·06

It would be seen that out of a total of 145,046 'Other establishmets', educational institutions cover 33,510 constituting 23·10 per cent while public health institutions number 5,552 covering 3·83 per cent of the total establishments under the category 'Others'. The employment provided by the educational institutions and public health institutions appear to be relatively high as compared to their incidence.

According to National Industrial Classification (N. I. C.), the category 'Other establishments' comes under the division 0 (Agriculture, hunting, forestry and fishing), division 1 (Mining and quarrying), division 4 (electricity, gas and water), division 5 (construction), division 7 (transport, storage and communications) and division 9 (community, social and personal services). There are altogether 31 major groups under these divisions of N. I. C. Out of these 31 groups, the figures relating to the 15 most important major groups (according to number of persons engaged) are given in the following statement. Other major groups have not been shown because of their relative unimportance.

STATEMENT III.18

Number of establishments (other than manufacturing, processing, or servicing and business or trade establishments) and persons engaged in these establishments in 15 important major groups (in relation to the numerical strength of number of persons engaged) and the figures of their percentage to total number of units and total persons engaged

Type of other establishment (Major Group of N.I.C.—1970)	Number of Units	Percentage to total number of units in other establishments	Number of persons engaged	Percentage to total number of persons engaged in other establishments
1	2	3	4	5
TOTAL	145,046	100·00	389,994	100·00
03	654	0·45	6,989	1·79
05	2,994	2·06	11,757	3·01
40	615	0·42	9,948	2·55
50	491	0·34	10,543	2·70
70	823	0·57	10,784	2·77
74	4,454	3·07	9,104	2·23
75	4,657	3·21	13,890	3·56
90	7,922	5·46	74,681	19·15
91	187	0·13	4,448	1·14
92	33,510	23·10	113,704	29·16
93	5,365	3·70	22,018	5·65
94	67,819	46·76	64,917	16·65
95	9,060	6·25	13,167	3·38
96	4,269	2·94	6,733	1·73
99	1,124	0·78	5,166	1·32

The most important major groups from the point of view of number of establishments is the major group 94 (community services) which has 67,819 establishments or 46·76 per cent of all establishments under the category of 'Other establishments'.

As this major group includes establishments connected with religious services by organisations or individuals, all the temples and other religious institutions that exist almost in every village have naturally a large contribution to this major group ; and this explains the highest numerical strength of this type of establishments. The next largest is major group 92 (education, scientific and research services) which includes all schools and colleges—both technical and non-technical. This major group has as many as 33,510 establishments or 23·10 per cent of the total establishments under the category 'Other establishments'. Other major groups in the order of the numerical strength of the establishments are : major group 95 (recreational and cultural services) having 9,060 establishments (6·25 per cent), major group 90 (public administration and defence services) having 7,922 establishments (5·46 per cent), major group 93 (medical and health services) having 5,365 establishments (3·70 per cent) and major group 75 (communications such as postal, telegraphic, telephonic wireless and signal communications) having 4,657 establishments (3·21 per cent).

When we consider the total number of persons employed, the six major groups discussed in the foregoing para are also found to be the most important of all major groups. But it will be readily noticed that there is no correlation between the ranking of the major groups for the number of establishments and the number of persons employed. Major group 94, which has the highest number of establishments is relegated to the third position in ranking in the number of persons employed; and what is more surprising is that the number of establishments under this major group (94) being 67,819, the number of persons employed is 64,917 which means less than 1 person per establishment as the average—a situation that prima facie militates with the definition of an establishment. This is however explained by the fact that 13,026 units under this major group have returned unspecified number of persons, as a result of which the person working in these units have not been accounted for in the statement.

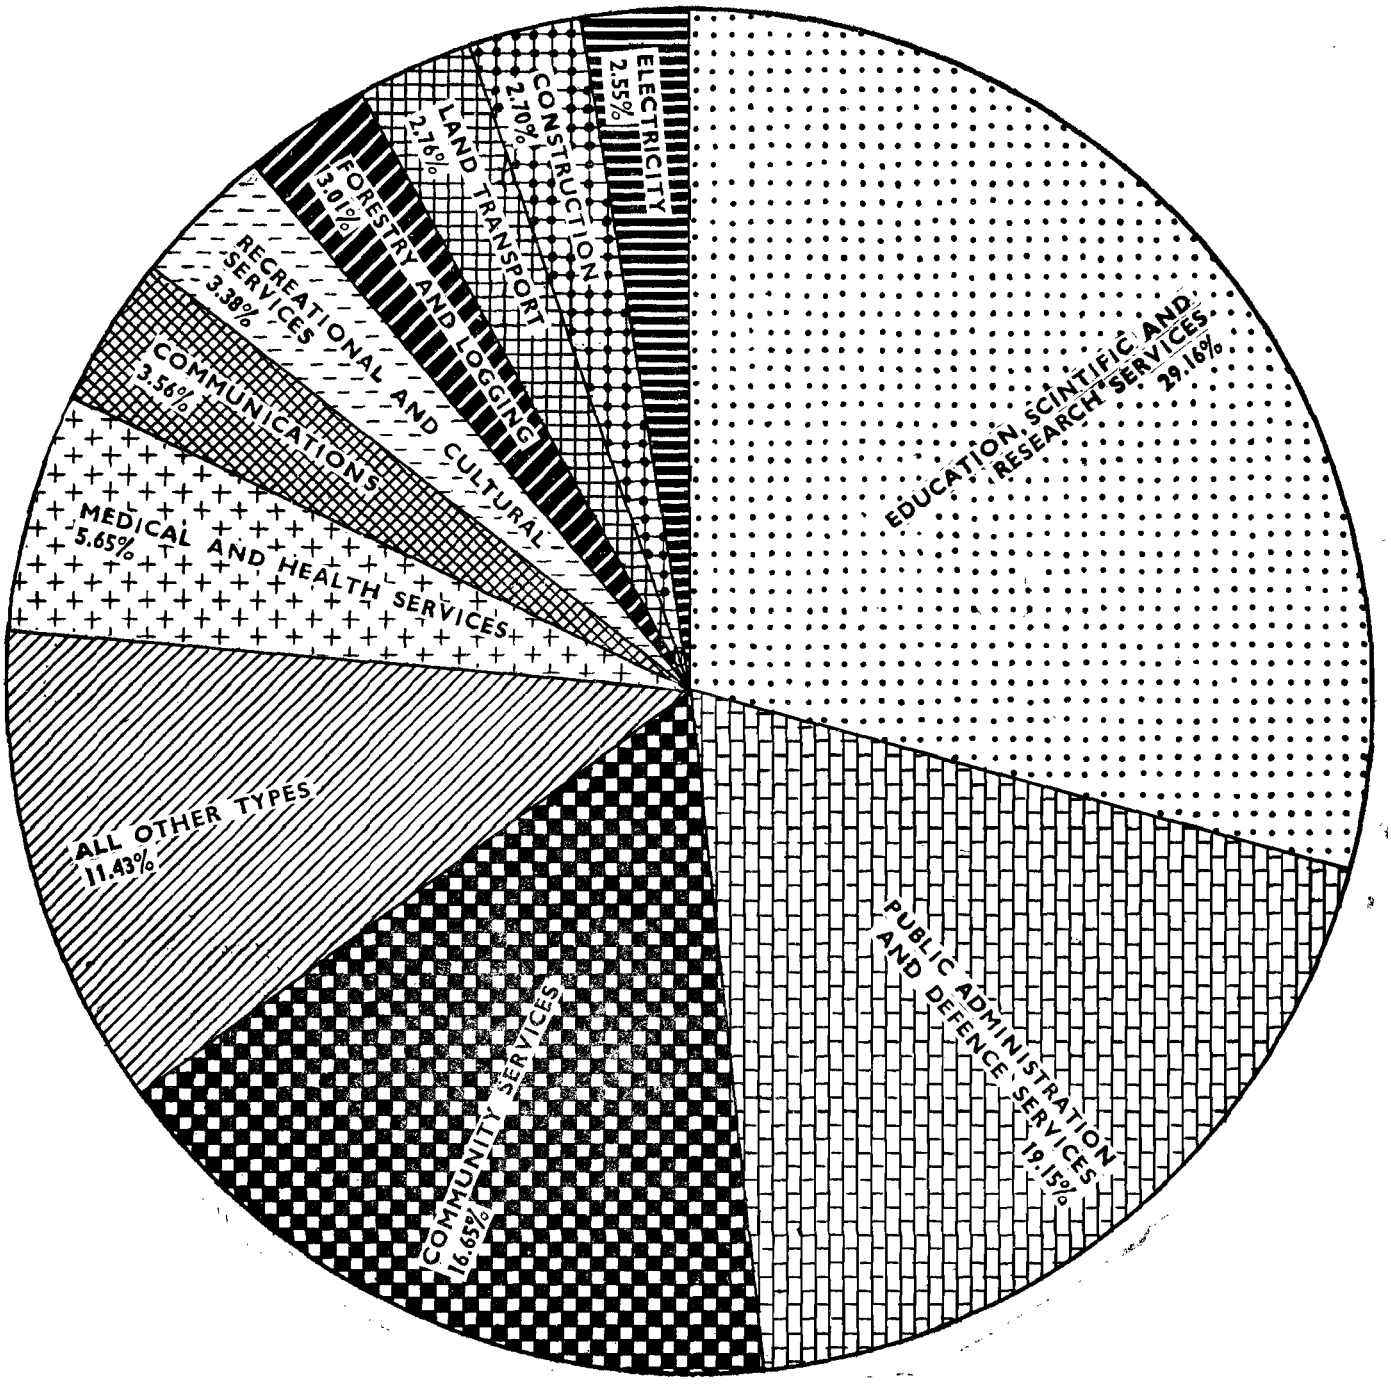

In the matter of the number of persons employed, major group 92 which has 113,704 employees or 29·16 per cent of all employees in the estalishments of the category of 'Other establishments', is the most important among all major groups. The next in importance is the major group 90, which has 74,681 employees or 19·15 per cent of all workers engaged in this category of establishments. Other important major groups in order of ranking are major group 94 with 64,917 employees (16·65 per cent), major group 93 with 22,018 employees (5·65 per cent), major group 75 with 13,890 employees (3·56 per cent), and major group 95 with 13,167 employees (3·38 per cent).

We have already discussed the case of major group 94 in this connection. Major group 92, which is second in importance in number of units becomes the most important of all major groups in the matter of employment to the highest numbr of persons. Third in importance in number of units, major group 95 declines to sixth position in relation to employment. Major group 90 is at fourth positon in number of units, becomes the second most important in relation to employment. No correlation between the number of establishments and employment can therefore be traced.

Different types of 'Other Establishments' by the size class of employment in the State and Districts

It may now be useful to pick out the ten most important types of establishments for the State as a whole (according to the employment they provide) and see how the employment each provides is distributed among the different size classes in the State as well as the districts. The following statement may be studied.

DISTRIBUTION OF EMPLOYMENT UNDER ESTABLISHMENTS OTHER THAN INDUSTRY AND TRADE BY DIFFERENT MAJOR GROUPS OF N.I.C (1970)

STATEMENT

Distribution of employment under each size class of other Establishments by State and the position of these

State as a whole

Major groups 90, 92 and 94 provide larger total employment as compared to other major groups mentioned in the statement. Considering the employment figures in each of the size classes of employment, we find that the highest total employment in each size class of employment is provided by one of the three aforesaid major groups. Thus in single person establishments, major group 94 has the highest proportion (64·46 per cent) of employees and major group 92 has the second highest proportion (14·30 per cent). In the establishments in the range of 2—4 persons the highest proportion of employment (48·09 per cent) is provided by the major group 92 followed by major group 94 (which accounts for 10·00 per cent of the employees of all major groups). In the range of 5—9 persons, the proportion of employees is highest (44·17 per cent) in major group 92 and the next highest (16·26 per cent) in major group 90. In the establishments in the range of 10—19 persons major group 90 has the highest figure of employment (27·60 per cent) followed by major group 92 (24·62 per cent). In the range of 20—49 persons the highest proportion of employment (36·29 per cent) is provided by major group 90, while major group 92 comes second with 18·09 per cent. In the range of 50—99 persons, major gruop 90 has the highest figure of employment (37·23 per cent) and major group 92 comes next (14·11 per cent). In establishments in the range of 100+ persons, major group 92 comes at the top of all major groups by providing employment to 32·04 per cent of the employees and major group 90 having 25·86 per cent of the employees has the second posiition.

Position in the districts

We have seen that for the State as a whole, major groups 90, 92 and 94 provide the highest total employment. Looking at the statements for the different districts, the importance of these very major groups in providing employment is immediately noticed. The only exceptions are the districts of Sambalpur and Sundargarh. In Sambalpur district, though major groups 92 and 90 have respectively the first and second positions in the figures of total employment, major group 05 (forestry and logging) occupies the third position and major group 94 declines to the fourth position. The high employment figure under major group 05 (which includes gathering of forest products and leaves) in Sambalpur district is explained by the fact that this district yields a substantial revenue to Government from Kendu leaf, for collection of which a large number of workers are engaged. In Sundargarh district major group 50 (construction) has a higher employment figure than major group 94. This is perhaps due to the still-expanding constructional activities in that district resulting from the location of the steel Plant at Rourkela.

When we refer to the employment figures in each of the size classes of employment in different districts, some major groups, other than major groups 90, 92 and 94 , as discussed below, become prominent for their high employment figures.

Major group 05 (Forestry and logging)

This major group has the highest figure of employment among all major groups in the establishments in the range of 20—49 persons in the district of Baudh-Khondmals and has the second highest figure of employment in the same size class (20—49 persons) in the districts of Sambalpur and Kalahandi. It has the second highest figure of employment in establishments in the range of 10—19 persons in Sambalpur district. In the establishments in the range of 50—99 persons this major group has the highest figure of employment in the districts of Sambalpur, Dhenkanal and Bolangir. It has also the highest figure of employment in the establishments in the range of 100+ persons in Bolangir district.

Major group 70 (Land transport)

This major group has the second highest figure of employment in the establishments in the range of 50—99 persons in the districts of Sundargarh and Mayurbhanj. It has also the second highest figure of employment in the establishments in the range of 100+ persons in the districts of Kalahandi and Koraput.

Major group 50 (Construction)

In the establishments in the range of 100+ persons, this major group has the highest employment figure in Sundargarh district and second highest figure of employment in Bolangir district. It also commands the second highest employment in Sundargarh district in the 50—99 persons size class.

Major group 93 (Medical and Health Services)

This major group has the second highest figure of employment in the range of 20—49 persons in Keonjhar district, in the range 50—99 persons in Baudh-Khondmals district and the range of 100+

persons in the districts of Cuttack and Baudh-Khondmals. This major group also has the second highest figure in the range of 5—9 persons in Koraput district.

Major group 75 (Communications including postal, telegraphic, wireless, signal and telephone communication)

This major group has the second highest figure of employment in the establishments in the range of 2—4 persons in Balasore, Mayurbhanj and Keonjhar districts.

Major group 95 (Recreational and Cultural services)

This major group has the second highest figure of employment in single person establishments in Puri district.

Major group 40 (Electricity)

This major group has the second highest figure of employment in the establishments in the range of 100 + persons in Dhenkanal and Puri districts.

Distribution of employment in the three broad categories of establishments, viz., Industrial, Trade and Other Establishments

We have discussed earlier in this chapter on the employment provided by each of the categoreis of establishments, viz., Industrial, Trade and business, Other establishments. It would be worthwhile to see if there is any correlation regarding the relative distribution of 'Other estabishments' with trade establishments and the manufacturing establishments.

The following statement gives the distribution of every 1,000 persons (employed in all establishments) among the three broad categories of establishments,

STATEMENT III.20

Distribution of 1,000 persons employed in all establishments by three broad types of establishments

Looking at the figures of different districts, what strikes one is that the relative proportions of employment between the three broad types of establishments vary widely from district to district and no uniform pattern common to all the districts is discernible. Even so it is noticed that the proportion of employees under other establishments is higher than that under trade and business establishments in all the districts and the state as a whole; and also both in the rural and urban areas.

If we make a comparison between the employment provided by the industrial establishments on the one hand and other establishments and trade and business establishments on the other, we find that for the State as a whole as well as in 11 of the 13 districts, the employment in the latter category outweighs the employment in the former, which means that industrialisation in the State is still lagging behind. The only two exceptions are the districts of Sambalpur and Bolangir. In Sambalpur district the superiority of industrial establishments is just marginal at 534 as against 466 under other establishments and trade establishments combined. In Bolangir district too, the postition is nearly the same, the employees under industrial establishments being 549 as against 451 under the other two categories combined. These two districts, it may be noted, have a concentration of handloom industry in the household sector and hence this marginal superiority of the employees under industrial establishments over the employees in other establishments.

DISTRIBUTION OF EMPLOYMENT PROVIDED BY THREE BROAD TYPES OF ESTABLISHMENTS

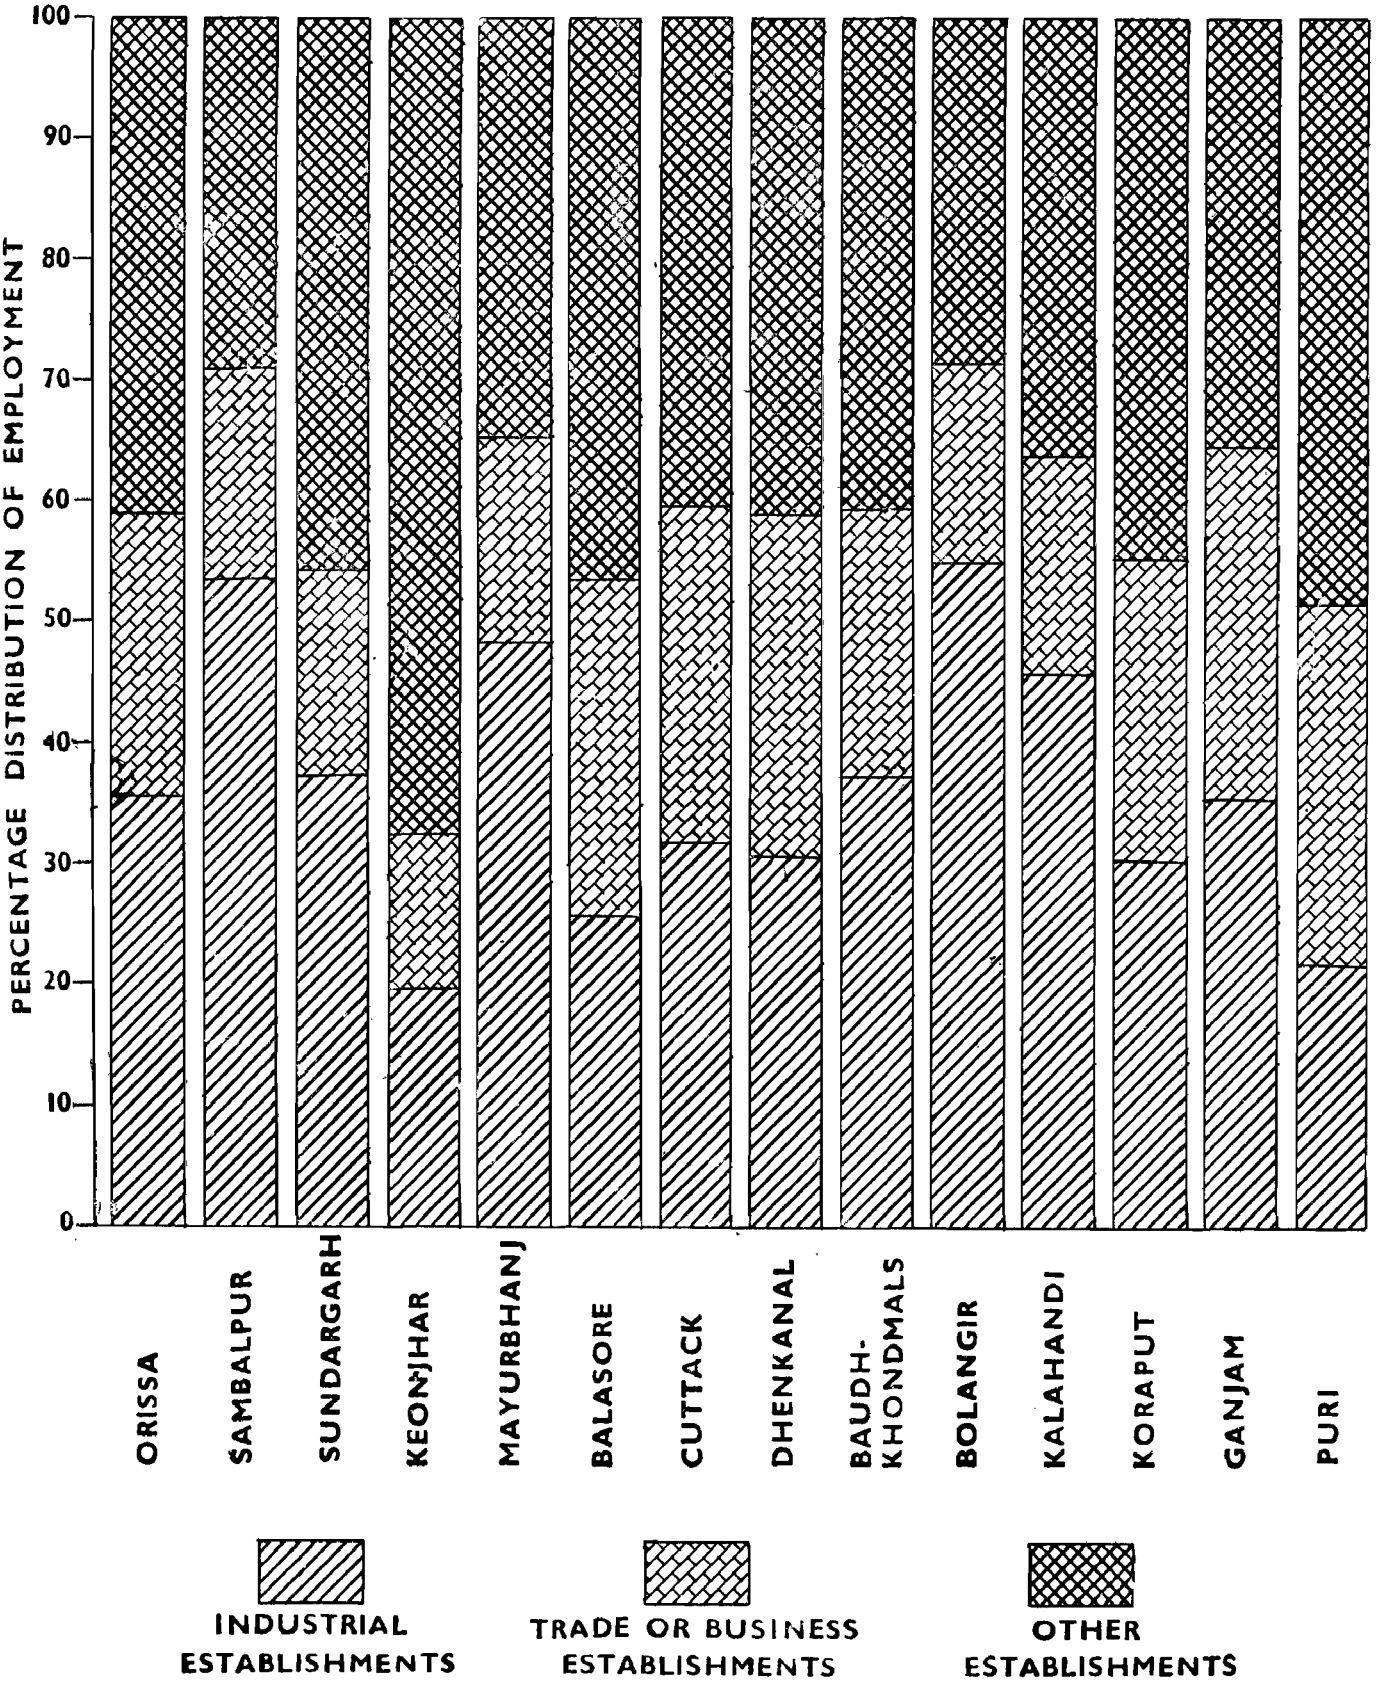

TABLE E-I

DISTRIBUTION OF ESTABLISHMENTS BY BROAD TYPES

APPENDICES

APPENDIX I

ESTABLISHMENT SCHEDULE AND INSTRUCTIONS TO ENUMERATORS FOR FILLING THIS SCHEDULE

Instead of loading the main Houselist form itself with questions pertaining to Establishments, it has been decided to have a separate schedule in which particulars of each establishment are to be recorded. (See the Establishment Schedule given at the end of this Appendix.)

2. The term "Establishment" has been defined in para 40 of this booklet. You are requested to study it carefully, before filling the 'Establishment Schedule'.

3. The respondents should be fully assured that the information collected in these schedules will be treated as completely confidential and is meant for statistical purposes and will not be used as evidence against any individual or establishment for any purpose. The respondents should be encouraged to furnish truthful replies without any reservation.

4. At the top of the schedule provision is made for noting the Location Code No. and name of the areas concerned. This should be the same as those noted on the top of the Houselist which you will be canvassing simultaneously. You should fill the Location Code Nos., etc., correctly.

5. The columns of the Establishment Schedule can be classified into four broad groups :

(*i*) Columns 1 to 5 are of uniform applicability and entries have to be made in respect of all the establishments;

(*ii*) Columns 6 to 8 pertain to manufacturing, processing, etc.—establishments;

(*iii*) Columns 9 to 10 relate to trading establishments; and

(*iv*) Column 11 refers to "Other" Establishments which are not covered in columns 6 to 10.

Thus, it will be seen that the columns falling within groups (*ii*) to (*iv*) are mutually exclusive, while those in group (i) are common to all.

Col. 1 : Serial Number

6. In this column the establishments are to be entered one after another serially. Arabic numerals should be used for this purpose, i. e., 1, 2, 3, etc.

Col. 2 : Census House Number

7. The Census house number to be noted is the same as that in column 3 of the Houselist and against which 'Yes' is written in column 7 of the Houselist indicating that the Census house is used as an establishment.

8. A point to be noted here is that it is likely that a single factory or workshop may be spread over more than one Census house a ljoining one another. Therefore, while in Col.2 of this schedule a number of Census houses may be noted in respect of that particular unit of production, processing or repairing, trade or business, etc., the entries in Col. 3 on wards will be one only for that group of houses covered by a single unit of production or business, etc., establishment. For example, if a single tea factory in Assam or business establishment in Calcutta should be spread over two or three adjacent buildings, each of the buildings should not be shown as a separate factory or establishment but the House Numbers of all these buildings shown in Col. 2 should be bracketted together and the particulars of the single tea factory or establishment entered in the subsequent columns against this group of houses. If on the other hand the activities of a large firm or an office are carried on in buildings located far away in different localities, each of the Census houses in the different localities will have to be treated as a separate establishment and the particulars of the establishment relating to that particular Census house should be listed in this schedule.

Col. 3 : Name of the Establishment or of the proprietor

9. In this column write the name of the establishment in the case of factories, large manufacturing concerns, a shop or business establishment, banks, office, etc., which usually bear a distinct name. Where an establishment has no separate name as in the case of small workshops and establishments like confectionaries, small tea shops, Dhobi's establishment, household industries, etc., write the name of the owner as "So and so's Halwai shop" etc. This is to help easy identification.

Col. 4 : Is the Establishment (*a*) Government/Quasi Government (*b*) Private (*c*) Co-operative Institution

10. Enter here whether establishment enumerated belongs to public sector, i.e., Government/Quasi Government managed, including establishments run by local authorities, or to private sector, or a co-operative enterprise. Please do not write in the column only (*a*) or (*b*) or (*c*) but write

(1) Government—Public Sector, or Quasi Government—Public Sector, or Local Authority—Public Sector

(2) Private
or
(3) Co-operative.

There may be many schools or libraries, etc., which are not owned by any particular individual or group of individuals. These may be owned by people in general and managed by Managing Committees. Such establishments should be treated as "private" as distinguished from Government/Quasi Government or run by local authorities or co-operative enterprises.

11. An establishment will be treated as a Government/Quasi Government institution if the Central or State Government or a Local authority such as the Zilla Parishad, City Corporation or Municipality, etc., completely owns or has a majority of shares as to control the management of the establishment.

12. Private establishments are those owned and managed by private individuals or corporate bodies not being co-operative institution or Government or Quasi Government Institutions.

13. Establishments registered under the co-operative Societies Registration Law of the State, alone fall in the category of "Co-operative".

Col. 5 : Average number of persons working daily last week or in the last working season, including proprietors and/or family workers

14. In this column, the information has to be entered relating to the total number of workers including the apprentices paid or unpaid and also including owner (s) or proprietor (s) of the establishment and any of their family members if they also work in the establishment and also the hired workers, if any. It is not necessary that an establishment should necessarily have paid workers. A small shop run in the same house where the owner lives and the business is attended to by just one person of the household is also an establishment. The average number of persons working per day in the establishment during the week preceding the day of your visit should be recorded. For computing the average number of persons working per day, if the establishment remained closed owing to holiday, etc., such day (s) should be ignored and only the 'days' on which the establishment worked should be taken into account. If during the week preceding your visit, the establishment remained closed either due to strike or lock-out, the week during which the establishment worked preceding such strike or lock-out should be taken into account for reckoning the average number of persons working. The hired workers should normally be in full time employment.

15. Some establishments such as a sugar factory, rice mill etc., may be seasonal in character and may not be actually working at the time of the present listing. You should then ascertain the particulars of such establishments with reference to the last working season.

16. In case more than one product is produced, or more than one item of business is conducted or several types of services are rendered, it is not necessary to enquire the number of persons employed in the production/business/servicing of each type of product, business or service that is covered against that serial number. For example in a large textile mill there may be the weaving section, dyeing section, laboratory, repairing section sales section, etc. It is not necessary to ascertain the employment in each section. The total employment has to be ascertained. The major activity of the establishment will be described in subsequent columns.

Columns 6, 7 and 8 : If any manufacturing, processing or servicing is done

17. These columns relate only to such establishments in which goods are manufactured or some kind of processing or servicing is done and/or repairs are carried on.

Col. 6 : Is it (*a*) Household Industry (*b*) Registered Factory (*c*) Unregistered workshop

18. (*a*) *Household Industry : Definition*—A 'Household Industry' is defined as an industry conducted by the Head of the Household himself/ herself and/or mainly by the members of the household at home or within the village in rural areas, and only within the premises of the house where the household lives in urban areas. The industry should not be run on the scale of a registered factory.

19. Thus, there are four ingredients of a household industry

(*i*) nature of activity

(*ii*) participation

(*iii*) location

(*iv*) size

20. (*i*) *Nature of activity* —A Household industry should relate to production, processing, servicing, repairing, or making and selling (but not merely selling) of goods. It *does not* include professions such as a pleader or doctor or barber, musician, dancer, washerman (Dhobi), astrologer, etc., or merely trade or business even if such professions trade or services are conducted at home by members of household.

21. (*ii*) *Participation*—The Head of the household and/or one or more members of the household must participate in such an industry. If it is run primarily by hired labourers, the 'participation' ingredient of the household members will not be satisfied and it will not be a 'Household Industry'. The industry may run with the help of hired workers but the head and/or members of the household must be mainly participating in the industry and not solely dependent on hired workers. Besides "actual work", participation also includes "supervision and direction".

22. (*iii*) *Location*—The industry should be located within the premises of the house where the household lives in urban areas; if it is situated at a place other than at home, it will not be termed as household industry in urban areas. In rural areas, however, the industry may be either at home or anywhere within the village limits. In rural areas, even though, the industry is not situated at home, there is a greater possibility of the members of the household participating in it if it is located within the villagelimits.

23. (*iv*) *Size* — The industry should not be on the scale of a registered factory. Irrespective of the location and participation by the members of the household, if the industry or workshop is registered under the Factories Act, then it will not be a household industry.

24. Thus it will be clear that any industry which can be termed as 'Household Industry'must satisfy all the four ingredients mentioned above.

25. (*b*) *Registered Factory*—A factory which is registered under the Indian Factories Act should be treated as a "Registered Factory". Any other workshop merely licenced by the Municipal or any other authority or registered for any other purpose should not be treated as a registered factory unless it is registered under the Indian Factories Act.

26. (*c*) *Unregistered Workshop* — Workshop is a place where some kind of 'production' processing, servicing, repairing or making of goods for sale' is going on. A workshop which is registered under the Indian Factories Act should be treated as a registered factory and others as unregistered workshops. Workshops, which are run as household industry should be treated as household industry and entered as such.

27. When you come across an establishment where some kind of manufacturing, processing or servicing, etc., is done, you should ascertain whether it is a Household Industry or a registered factory or a workshop not registered under the Factories Act and write whatever it actually is in this column. Please note that workshops merely licenced or entered in the registers of a local authority are not to be considered as registered factories unless registered under the Indian Factories Act. All workshops other than household industries and not registered under the Indian Factories Act should be treated as unregistered workshops even if they are merely licenced as workshops by the local authorities. Please do not write (*a*) or (*b*) or (*c*) in the column but write "Household Industry", or "Registered Factory" or "Unregistered Workshop", as the case may be.

Col. 7 : Description of the products, processing or servicing done

28. The description of the actual work relating to product, processing and servicing which is done in the Household Industry, factory or workshop that is being listed is to be recorded here, e. g., handloom weaving, lace knitting, *oil ghani*, etc., manufacturing of G. I. pipes, electroplating, motor or cycle repairing, iron foundry, paper making or book binding, printing and dyeing, shoe making, sweetmeat making, etc. If in any establishment more than one article is produced or more than one kind of processing or servicing or repairing is done, indicate only the major kind of products or processing or repairing or servicing, etc.

Col. 8 : Type of fuel or power used

29. Enter here the description of the power or fuel used for the running of the factory, workshop (or household industry if it is run on power or fuel). The fuels can be kerosene, soft coke, petrol, diesel, gas, coal, wood, etc. Electricity and steam etc. are some of the sources of power. Some units may be run by animal power such as *oil ghani*. Some may be run by n erely human energy such as carpet-making, pottery making, etc. Enter the description of fuel or power used for the production, processing, servicing, etc., that is carried on in the establishment. There may be instances where more than one fuel or power is used, in such cases, only the fuel or power which is used in running the primary unit of the industry will be noted in this column.

30. Columns 9 and 10 are to be filled in respect of trading establishments or establishments which render commercial services only.

31. Trading or business establishments are those where some trading, i.e., transactions involving sale and/or purchase of goods go on.

Establishments rendering commercial services are the banks, money lending firms, Pawn shops, etc.

Col. 9 : Description of goods bought/sold

32. If it is a trading establishment, you should ascertain what are the goods bought and/or sold and write the description in this column. If there are more than one type of goods bought/sold by the establishment, you should give description of the main item of goods bought/sold by the establishment.

33. In the case of establishments rendering commercial service such as in the case of Banks, etc., you should write the description of the services rendered, as in the case of a bank, you should write "banking services".

Col. 10 : Whether (*a*) wholesale or (*b*) retail

34. For all trading establishments, you should ascertain in respect of the goods mentioned in column 9, whether they are sold/bought in wholesale or in retail and write as the case may be.

35. You may come across certain establishments wherein both types of trade, i.e., wholesale and retail go on. In such cases, you should ascertain in which category (i.e., wholesale or retail) the volume of trade is greater and record the category accordingly.

36. In the case of establishments rendering commercial services, e.g., bank, etc., please do not write any of the two categories, i.e., 'wholesale' or 'retail' but put an 'X' in this column.

Col. 11 : If used as any other establishment describe, e.g., govt. office, school, hospital, Railway Station, Barber's Saloon, Cinema, Theatre, Hotel, Tea shop, etc.

37. Two specific types of establishments have been covered in columns 6 to 10. Column 11 relates to the remaining types of establishments not covered by columns 6 to 10. You have to describe such establishments in this column, e.g., Government Office, school, hospital, Railway Station, orphanage, Rescue Home, Barber's saloon, cinema, theatre, hotel, tea shop, lawyer's office, doctor's clinic, laundry, etc.

General

38. It is possible that in a particular establishment, more than one activity is being under taken within the same premises. For example, say in a betel shop, *bidi* rolling is also being undertaken or in a grocery shop a flour mill is also located, or in the doctor's clinic medicines are sold. In such cases, the establishment should be identified having regard to the major activity and recorded as such in the relevant columns pertaining to the major activity.

39. But if different activiites are undertaken in different census houses quite cut off from one another though under the same title or ownership, each such census house should be treated as a separate establishment and recorded as such against that census house in this schedule. It may, however, be noted that where processing for the production of an article is carried on, in separate adjoining census houses, all the census houses should be treated as a single establishment and recorded as such. If on the other hand the activities of a large firm or an office are carried on in buildings located far away in different localities, each of the census houses in the different localities will have to be treated as a separate establishment and the particulars of the establishment relating to that particular census house should be listed in this schedule.

40. After you have completed filling up of the Establishment Schedule for your block, you will prepare a duplicate copy of the Establishment Schedule, for which you would be given adequate number of blank forms.

CENSUS OF INDIA 1971

ESTABLISHMENT SCHEDULE

Name of District.....Code No..... Name of Village or Town.....Code No.....

Name of Taluk/Tehsil/Thana/Anchal/Island.....Code No..... Name or No. of Ward/Mohalla/Enumerator's Block.....Code No.....

APPENDIX II

CENSUS OF INDIA, 1971

CODE STRUCTURE — ESTABLISHMENT SCHEDULE

Description	Column Number in Schedule	Code Number allotted	Where to Code
1	2	3	4
Item	...	Y and 5	...
State	...	Assign code as per Appendix IV.	...
District	Top left	Recode districts 1 to 9 as 01 to 09, rest i.e., 10 onward will remain as it is.	...
Police Station/Town	Second top line on left for Police Station and 1st top line for Town (right)	In case of Town renumber the Roman number into 60 onward after arranging them in the ascending order. Police Station Code 01-59 Town Code 60-89 City Code 90-99 for Police Stations 1 to 9 recode as 01 to 09.	...
Village/Ward	1st top line on right for village; 1st number on 2nd top right line for ward.	Recode village 1 to 9 as 001 to 009 and number 10 to 99 as 010 to 099.	...
Block Number.	In case of village 2nd top line right; in case of ward 2nd number in 2nd top line right.	Recode Block number 1 to 9 as 001 to 009 and number 10 to 99 as 010 to 099.	...
Rural/Urban Non-City/ Urban City	...	Rural 1 Urban Non-City 2 Urban City 3	Code to be given at top left inside a triangle.
Serial number	Col. 1	...	...
Type of Establishment Govt./Private/ Co-operative	Col. 4	Government 1 Private 2 Co-operative 3	Col. 4
Number of persons working	Col. 5	No coding	Col. 5
Type of Manufacturing Establishment	Col. 6	Regd. Factory 1 Unregd. Workshop 2 Household Industry 3	Col. 6
N.I.C. Code of Establishment	Col. 7 or 9 or 11	Code as per N.I.C., 1970 Code structure	Col. 7
Type of fuel or power used	Col. 8	Electricity 1 Liquid Fuel 2 Coal, Wood and Bagasse 3 Other (including animal power) 4 Man power 5	Col. 8

APPENDIX III

CENSUS OF INDIA, 1971

NATIONAL INDUSTRIAL CLASSIFICATION (N. I. C.)—1970

The Divisions, Major Groups and Minor Groups with their code numbers are listed below:

DIVISIONS

(One digit level of classification)

Divisions		
0	...	Agriculture, Hunting, Forestry and Fishing
1	...	Mining and Quarrying
2 & 3	...	Manufacturing and Repair
4	...	Electricity, Gas and Water
5	...	Construction
6	...	Wholesale and Retail Trade and Restaurants and Hotels
7	...	Transport, Storage and Communications
8	...	Financing, Insurance, Real Estate and Business Services
9	...	Community, Social and Personal Services
X	...	Activities not Adequately Defined

MAJOR GROUPS

(Two digit level of classification)

Major Groups		Description
Division 0—Agriculture, Hunting, Forestry and Fishing		
00	...	Agricultural Production
01	...	Plantation
02	...	Livestock Production
03	...	Agricultural Services
04	...	Hunting, Trapping and Game Propagation
05	...	Forestry and Logging
06	...	Fishing
Division 1—Mining and Quarrying		
10	...	Coal Mining
11	...	Crude Petroleum and Natural Gas
12	...	Metal Ore Mining
19	...	Other Mining
Division 2 & 3—Manufacturing and Repair		
20-21	...	Manufacture of Food Products
22	...	Manufacture of Beverages, Tobacco & Tobacco Products
23	...	Manufacture of Cotton Textiles
24	...	Manufacture of Wool, Silk and Synthetic Fibre Textiles
25	...	Manufacture of Jute, Hemp and Mesta Textiles
26	...	Manufacture of Textile Products (including wearing Apparel other than Footwear)
27	...	Manufacture of Wood and Wood Products, Furniture and Fixtures
28	...	Manufacture of Paper and Paper Products and Printing, Publishing and Allied Industries
29	...	Manufacture of Leather, Leather and Fur Products (except repair)
30	...	Manufacture of Rubber, Plastic, Petroleum and Coal Products
31	...	Manufacture of Chemicals and Chemical Products (except Products of Petroleum and coal)
32	...	Manufacture of Non-Metallic Mineral Products
33	...	Basic Metal and Alloys Industries
34	...	Manufacture of Metal Products and Parts except Machinery and Transport Equipment
35	...	Manufacture of Machinery, Machine Tools and Parts except Electrical Machinery
36	...	Manufacture of Electrical Machinery, Apparatus, Appliances and Supplies and Parts
37	...	Manufacture of Transport Equipment and Parts
38	...	Other Manufacturing Industries
39	...	Repair
Division 4—Electricity, Gas and Water		
40	...	Electricity
41	...	Gas and Steam
42	...	Water Works and Supply
Division 5—Construction		
50	...	Construction
51	...	Activities Allied to Construction
Division 6—Wholesale and Retail Trade and Restaurants and Hotels		
60	...	Wholesale Trade in Food, Textiles, Live Animals, Beverages and Intoxicants
61	...	Wholesale Trade in Fuel, Light, Chemicals, Perfumery, Ceramics, Glass
62	...	Wholesale Trade in Wood, Paper, Other Fabrics, Hide and Skin and Inedible Oils
63	...	Wholesale Trade in all types of Machinery Equipment including Transport and Electrical Equipment
64	...	Wholesale Trade in Food and Miscellaneous Manufacturing
65	...	Retail Trade in Food and Food Articles, Beverage, Tobacco and Intoxicants
66	...	Retail Trade in Textiles
67	...	Retail Trade in Fuel and Other Household Utilities and Durables
68	...	Retail Trade in Others
69	...	Restaurants and Hotels

Major Groups	Description
Division 7—Transport, Storage and Communications	
70	Land Transport
71	Water Transport
72	Air Transport
73	Services incidental to Transport
74	Storage and Warehousing
75	Communications
Division 8—Financing, Insurance, Real Estate and Business Services	
80	Banking and Similar Type of Financial Institutions
81	Providents and Insurance
82	Real Estate and Business Services
83	Legal Services
Division 9—Community, Social and Personal Services	
90	Public Administration and Defence Services
91	Sanitary Services
92	Education, Scientific and Research Services
93	Medical and Health Services
94	Community Services
95	Recreational and Cultural Services
96	Personal Services
98	International and other Extra Territorial Bodies Services
99	Services not elsewhere classified
Division X—Activities not Adequately Defined	
X0	Persons without any Affiliation to any particular industry (including fresh entrants to labour force)
X1	Activities not Adequately Defined (Other than that in X0)

MINOR GROUPS

(Three digit level of Classification)

Major Groups	Minor Groups	Description
Division 0—Agriculture, Hunting, Forestry and Fishing		
00		*Agricultural Production*
	000	Cereal Crops (paddy, wheat, jowar, bajra maize, ragi, barley and gram, etc.)
	001	Pulses (arhar, moong, masur, urd and etc.)
	002	Raw cotton
	003	Raw Jute, mesta.
	004	Sann hemp and other kindred fibres.
	005	Production of oilseeds such as seasamum groundnuts, rape, mustard, linseed, castor seeds, etc.
	006	Sugarcane
	007	Roots and tubers, vegetables, pan, singhara, chillies and spices (other than pepper and cardamom) and flowers and parts of plants.
	008	Agricultural production not elsewhere classified.
01		*Plantations*
	010	Tea
	011	Coffee
	012	Rubber
	013	Tobacco
	014	Pepper
	015	Cardamom
	016	Edible nuts (excluding cocoanut and groundnut), walnut, almond, cashewnut, etc.
	017	Production of fruits, cocoanuts e.g. bananas, apples, grapes, mangoes, oranges.
	018	Production of ganja, cinchona, opium, etc.
	019	Crops of Plantations, not elsewhere classified (e. g., Betelnuts etc.)
02		*Livestock Production*
	020	Cattle and goats-breeding, rearing, ranching etc. and production of milk.
	021	Rearing of sheep and production of wool.
	022	Rearing of horses, mules, camels and other pack animals.
	023	Rearing of pigs and other animals.
	024	Rearing of ducks, hens and other birds and production of eggs.
	025	Rearing of bees and production of honey and wax.
	026	Rearing of Silk-worms and production of cocoons and raw silk.
	029	Rearing of livestock and production of livestock products not elsewhere classified.
03		*Agricultural Services*
	030	Pest destroying, spraying, pruning of infected stems.
	031	Operation of irrigation system.
	032	Animal sharing and livestock services (other than veterinary services).
	033	Grading agricultural and livestock products
	034	Horticultural and nursery services
	035	Soil Conservation
	036	Scientific services like soil testing
	039	Agricultural services not elsewhere classified (like land clearing, land draining etc.)
04		*Hunting, Trapping and game Propagation*
	040	Hunting, trapping and game propagation for commercial purposes (other than for sport)
05		*Forestry and Logging*
	050	Planting, replanting and conservation of forests.
	051	Log-felling and cutting of trees and preparation of rough, round, hewn or riven logs (including incidental hauling)
	052	Production of fuel (including charcoal by burning) by exploitation of forests
	053	Gathering of fodder by exploitation of forests.
	054	Gathering of uncultivated materials such as gums, resins, lac, barks, herbs, wild fruits and leaves by exploitation of forests.
	059	Other forests products not elsewhere classified such as munjh.

Major Groups	Minor Groups	Description
06		*Fishing*
	060	Ocean, sea and coastal fishing.
	061	Inland water fishing
	062	Pisciculture—rearing of fish
	063	Collection of pearls, conches, shells, sponge and other sea products.
	069	Fishing and allied activities not elsewhere classified.
		Division 1—Mining and Quarrying
10		*Coal Mining*
	100	Coal
	101	Lignite
11		*Crude Petroleum and Natural Gas*
	110	Crude Petroleum
	111	Natural gas
12		*Metal Ore Mining*
	120	Iron Ore
	121	Manganese
	122	Chromite
	123	Bauxite
	124	Gold and Silver Ores
	125	Copper Ore
	126	Lead and Zinc Ores
	127	Limenite and Rutile
	128	Wolfram
	129	Metal Ores not elsewhere classified
19		*Other Mining*
	190	Stone quarrying, clay and sand pits.
	191	Chemicals and fertilizer mineral ming (such as soda ash, sulphur, phosphates, nitrates, etc.)
	192	Salt mining and quarrying including crushing, screening and evaporating in pans.
	193	Precious and semi-precious stones
	194	Mica
	195	Gypsum
	199	Other mining not elsewhere classified(asbestos, quartz, tale and Soap stone natural abrasives other than sand, graphite, etc.)
		Division 2 & 3—Manufacturing and Repair
20-21		*Manufacture of food Products*
	200	Slaughtering, preparation and preservation of meat.
	201	Manufacture of dairy products
	202	Canning and preservation of fruits and vegetables
	203	Canning, preserving and processing of fish, crustacea and similar foods
	204	Grain mill products
	205	Manufacture of bakery products
	206	Manufacture and refining of sugar (vacuum pan sugar factories).
	207	Production of indigenous sugar boora, khandsari, gur, etc. from sugar-cane, palm juice.
	208	Production of common salt
	209	Manufacture of cocoa, chocolate and sugar confectionery (including sweet meats)
	210	Manufacture of hydrogenated oils, Vanaspati ghee, etc.
	211	Manufacture of other edible oils and fats e.g., mustard oil, ground nut oil, till oil, etc,
	–	(Inedible oils shown under 315).
	212	Tea processing
	213	Coffee curing, roasting and grinding.
	214	Cashewnut processing like drying, shelling, roasting, salting ,etc.
	215	Manufacture of ice.
	216	Manufacture of prepared animal feeds
	217	Manufacture of starch
	219	Manufacture of food products not elsewhere classified.
22		*Manufacture of Beverages, Tobacco and Tobacco Products.*
	220	Distilling, rectifying and blending of spirits.
	221	Wine industries.
	222	Malt liquors and malt.
	223	Production of country liquor and toddy
	224	Soft drinks and carbonated water industries.
	225	Tobacco stemming, redrying and all other operations which are connected with preparing raw leaf tobacco for manufacture.
	226	Manufacture of bidi.
	227	Manufacture of cigars, cigarettes, cheroots and cigarette tobacco.
	228	Manufacture of chewing tobacco, zarda and snuff.
	229	Manufacture of tobacco and tobacco products, not elsewhere classified.
23		*Manufacture of Cotton Textiles*
	230	Cotton ginning, cleaning and baling.
	231	Cotton spinning, weaving, shrinking, sanforizing, mercerising and finishing of cotton textiles in mills.
	232	Printing, dyeing and bleaching of cotton textiles.
	233	Cotton spinning other than in mills (Charkha)
	234	Production of khadi.
	235	Weaving and finishing of cotton textiles in handlooms, other than khadi.
	236	Weaving and finishing of cotton textiles in powerlooms.
	239	Cotton textiles not elsewhere classified.
24		*Manufacture of Wool, Silk and Synthetic Fibre Textiles.*
	240	Wool cleaning, baling and pressing.
	241	Wool spinning, weaving and finishing in mills
	242	Wool spinning and weaving (other than in mills)
	243	Dyeing and bleaching of woolen textile.
	244	Manufacture of wool not else where classified.
	245	Spinning, weaving and finishing of silk textiles.
	246	Printing, dyeing and bleaching of silk textiles.

Major Groups	Minor Groups	Description
	247	Spinning, weaving and finishing of other textiles—synthetic fibres, rayons, nylons, etc.
	248	Printing, dyeing and bleaching of synthetic textiles
	249	Silk and synthetic fibre textiles not elsewhere classified.
25		*Manufacture of Jute, Hemp and Mesta Textiles*
	250	Jute and Mesta pressing and baling.
	251	Jute and Mesta spinning and weaving.
	252	Dyeing, printing and bleaching of jute textiles
	253	Preparing, spinning, weaving and finishing of hemp and other coarse fibres.
	259	Manufacture of jute bags and other jute textiles not elsewhere classified.
26		*Manufacture of Textile Products (including Wearing Apparel other than Footwear)*
	260	Knitting mills
	261	Manufacture of all types of threads, cordage, ropes, twines, nets, etc.
	262	Embroidery and making of crapes laces and fringes.
	263	Weaving carpets, rugs and other similar textile products.
	264	Manufacture of all types of textiles, garments including wearing apparel.
	265	Manufacture of rain coats, hats, etc.
	266	Manufacture of made up textile goods (except garments) such as curtains mosquito nets, etc.
	267	Manufacture of water proof textiles such as oil cloth, tarpauline, etc.
	268	Manufacture of coir and coir-products.
	269	Manufacture of textiles not elsewhere classified like linoleum, padding, wadding, upholstering, filling.
27		*Manufacture of Wood and wood products, Furniture and Fixtures*
	270	Manufacture of veneer, plywood and their products.
	271	Sawing and planing of wood (other than plywood).
	272	Manufacture of wooden and cane boxes, crates, drums, barrels and other wooden containers, baskets and other rattan, bamboo, reed and willow wares made entirely or mainly of cane, rattan, reed, bamboo and willow.
	273	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors and windows (excluding hewing and rough shaping of poles, bolts and other wood material which is classified under logging).
	274	Manufacture of wooden industrial goods, such as bobbins, blocks, handles, saddling and similar equipment and fixtures.
	275	Manufacture of cork and cork-products
	276	Manufacture of wooden furniture and fixtures.
	277	Manufacture of bamboo and cane furniture and fixtures.
	279	Manufacture of wood and reed, bamboo and cane products not elsewhere classified.
28		*Manufacture of Paper and Paper Products and Printing, Publishing and Allied Industries*
	280	Manufacture of pulp, paper and paper board including newsprint.
	281	Manufacture of container and boxes of paper and papar board.
	282	Manufacture of pulp products not elsewhere classified like dolls.
	283	Manufacture of paper and paper board articles not elsewhere classified.
	284	Printing and publishing of newspaper.
	285	Printing and publishing of periodicals, books, journals, atlases, maps, sheet music directories.
	286	Printing of bank notes, currency notes, postage stamps, security presses.
	287	Engraving, etching, block making etc.
	288	Book Binding
	289	Printing, publishing and allied activities not elsewhere classified like envelope printing, picture post card printing, embossing.
29		*Manufacture of Leather and Leather and Fur. Products (except Repair)*
	290	Tanning, curing, finishing, embossing and japanning of leather.
	291	Manufacture of footwear (excluding repair) except vulcanized or moulded rubber or plastic footwear.
	292	Manufacture of wearing apparel like coats, gloves, etc. of leather and substitutes of leather.
	293	Manufacture of Leather Consumer Goods (other than apparel and foorwear).
	294	Scrapping, currying, tanning, bleaching and dyeing of fur and other pelts for the trade.
	295	Manufacture of wearing apparel of fur and pelts.
	296	Manufacture of fur and skin rugs and other articles.
	299	Manufacture of Leather and Fur products not elsewhere classified.
30		*Manufacture of Rubber, Plastic, Petroleum and Coal Products*
	300	Tyre and tube industries
	301	Manufacture of footwear made primarily of vulcanized or moulded rubber and plastic.
	302	Manufacture of rubber products not elsewhere classified

Major Groups	Minor Groups	Description
	303.	Manufacture of plastic products not elsewhere classified (except house furnishing).
	304	Petroleum refineries
	305	Manufacture of products of petroleum not elsewhere classified.
	306	Production of coal tar in coke ovens.
	307	Manufacture of other coal and coal tar products not elsewhere classified.
31		*Manufacture of Chemicals and Chemical Products (except Products of Petroleum and Coal)*
	310	Manufacture of basic industrial organic and inorganic chemicals and gases such as acids alkalies and their salts ; gases like acetylene, oxygen, nitrogen, etc.
	311	Manufacture of fertilisers and pesticides
	312	Manufacture of paints, varnishes and lacquers.
	313	Manufacture of drugs and medicines.
	314	Manufacture of perfumes, cosmetics, lotions, hair dressings, tooth pastes, soap in any form, synthetic detergents, shampoos, shaving products, cleansers, washing and scouring products and other toilet preparations.
	315	Manufacture of inedible oils
	316	Manufacture of turpentine, synthetic resins plastic materials and synthetic fibres like nylon, terylene except glass
	317	Manufacture of matches.
	318	Manufacture of explosives and ammunition and fire works.
	319	Manufacture of chemical products not elsewhere classified (including photochemicals, sensitised films and paper)
32		*Manufacture of Non-Metallic Mineral Products.*
	320	Manufacture of structural clay products.
	321	Manufacture of glass and glass products.
	322	Manufacture of earthen ware and earthen pottery.
	323	Manufacture of China-ware and porcelain-ware.
	324	Manufacture of Cement, lime and plaster
	325	Manufacture of mica products
	326	Manufacture of structural stone goods, stone dressing and stone crushing, stone ware.
	327	Manufacture of earthen and plaster statues and other products.
	328	Manufacture of asbestos, cement and other cement products.
	329	Manufacture of miscellaneous non-metallic mineral products such as slate products, abrasives, graphite products, mineral wool, silica products and other non-metallic mineral products not elsewhere classified.
33		*Basic Metal and Alloys Industries*
	330	Iron and Steel industries.
	331	Foundries for casting and forging iron and steel.
	332	Manufacture of ferro-alloys
	333	Copper manufacturing.
	334	Brass manufacturing.
	335	Aluminium manufacturing.
	336	Zinc manufacturing.
	339	Other non-ferrous metal industries.
34		*Manufacture of Metal Products and Parts except Machinery and Transport Equipment.*
	340	Manufacture of fabricated metal products such as metal cans from tin-plate, terne plate, or enamelled sheet metal, metal shipping containers, barrels, drums, kegs, pails, safes, vaults, enamelled, sanitary and all other fabricated metal products not elsewhere classified.
	341	Manufacture of structural metal products.
	342	Manufacture of furniture and fixtures primarily of metal.
	343	Manufacture of hand tools and general hardware.
	344	Enamelling, japanning, lacquering, galvanising, plating and polishing of metal products.
	345	Manufacture of metal utensils, cutlery and kitchenware.
	349	Manufacture of metal products except machinery and transport equipment not elsewhere classified, like typefounding.
35		*Manufacture of Machinery, Machine tools and parts except Electrical Machinery*
	350	Manufacture of agricultural machinery and equipment and parts.
	351	Manufacture and repair of drills, coal cutting machines, earth moving, lifting and hoisting machinery, cranes, conveyors and road rollers and other heavy machinery and equipment used by construction and mining industries.
	352	Manufacture of prime movers, boilers and steam generating plants such as diesel engines and parts.
	353	Industrial Machinery for Food and Textile Industries.
	354	Industrial Machinery for other than Food and Textiles Industries.
	355	Manufacture of Refrigerators, Air conditioners, and Fire Fighting Equipment, and other parts, components and accessories.
	356	Manufacture, alteration and repair of general items of non-electrical machinery, components, equipment and accessories not

Major Groups	Minor Groups	Description
	356 (*Concld.*)	elsewhere classified, *e.g.*, manufacture and repair of size reduction equipment like Pentagraph, Mapograph, etc., crushers, conveyors, bucket elevators, ship hoist cranes, derricks, etc., mixers and reactors, centrifugal machines, driers, etc., power driven pumps, etc., air gas, compressors and vacuum pumps (excluding electrical furnaces) etc., and Manufacture of ball bearings.
	357	Manufacture of Machine Tools, their parts and accessories.
	358	Manufacture of office computing and accounting machinery and parts.
	359	Manufacture and repair of non-electrical machinery, equipment, components and accessories not elsewhere classified, (such as sewing machines, automatic merchandising machines, washing, laundry, dry-cleaning and pressing machines, cooking ranges and ovens, other service industry machines, arms and armaments etc.)
36		*Manufacture of Electrical Machinery, Apparatus, Appliances and Supplies and Parts.*
	360	Manufacture of electrical industrial machinery and apparatus and parts (such as electrical motors, generators, transformers, electro-magnetic clutches and brakes etc.)
	361	Manufacture of insulated wires and cables
	362	Manufacture of dry and wet batteries.
	363	Manufacture of electrical apparatus, appliances and their parts such as lamps, bulbs, tubes, sockets, switches, fans, insulators (except porcelain), conductors, irons, heaters, shavers, vacuum cleaners, etc. excluding repairing.
	364	Manufacture of radio and television transmitting and receiving sets including transistor radio sets, sound reproducing and recording equipment including tape recorders, public address systems, gramophone records and pre-recorded magnetic tapes, wire and wireless, telephone and telegraph equipment, signalling and detection equipment and apparatus, radar equipment and installations; parts and supplies specially used for electronic apparatus classified in this group.
	365	Manufacture and repair of Radiographic X-ray apparatus and tubes and parts.
	366	Manufacture of Electronic Computers, Control Instruments and other Equipment.
	367	Manufacture of electronic components and accessories not elsewhere classified.
	369	Manufacture of electrical machinery, apparatus, appliances and supplies and parts not elsewhere classified.
37		*Manufacture of Transport Equipment and Parts.*
	370	Ship building and repairing
	371	Manufacture of Locomotives and parts
	372	Manufacture of Railway wagons and coaches and parts.
	373	Manufacture of other rail-road equipment
	374	Manufacture of motor vehicles and parts
	375	Manufacture of motor-cycles and scooters and parts.
	376	Manufacture of bicycles, cycle-rickshaw and parts.
	377	Manufacture of aircrafts and its parts
	378	Bullock-carts, push-carts, hand carts, etc.
	379	Manufacture of transport equipment and parts, not elsewhere classified.
38		*Other Manufacturing Industries*
	380	Manufacture of medical, surgical and scientific equipment, manufacture of Electric Meter, Water Meter and Taxi Meter.
	381	Manufacture of photographic and optical goods (excluding photo chemicals, sensitised paper and film).
	382	Manufacture of watches and clocks
	383	Manufacture of jewellery and related articles
	384	Minting of coins
	385	Manufacture of sports and athletic goods
	386	Manufacture of Musical instrument
	387	Manufacture of stationery articles like fountain pens, pencils, pens, pin cushions, tags, etc. not elsewhere classified.
	389	Manufacture of miscellaneous products not elsewhere classified such as costume jewellery, costume novelties, feather, plumes, artificial flowers, brooms, brushes, lamp shades, tobacco pipes, cigarette holders, ivory goods, badges, wigs and similar articles.
39		*Repair*
	390	Repair of footwear and other leather goods.
	391	Electrical repair shops
	392	Repair of motor vehicles and motor cycles.
	393	Repair of watch, clock and jewellery.
	394	Repair of bicycles and cycle rickshaws
	399	Repair of enterprises not elsewhere classified
		Division 4—Electricity, Gas and Water
40		*Electricity*
	400	Generation and transmission of electric energy.
	401	Distribution of electric energy to household, industrial and commercial and other users.
41		*Gas and Steam.*
	410	Manufacture of gas in gas works and distribution through mains to household, industrial and commercial and other users.

Major Groups	Minor Groups	Description
42		*Water Works and Supply*
	420	Water supply, i.e., collection, purification and distribution of water.
		Division 5—Constructions
50		*Construction*
	500	Construction and maintenance of buildings (including aerodromes).
	501	Construction and maintenance of roads, railways, bridges, tunnels, pipe lines, ports, harbours, runways etc.
	502	Construction and maintenance of telegraph and telephone lines and other communication systems.
	503	Construction and maintenance of water-ways and water reservoirs such as bund, embankments, dams, canals, tanks, wells, tube wells, etc.
	504	Construction of hydro-electric projects.
	505	Construction of industrial plants including thermal plants.
	509	Construction not elsewhere classified.
51		*Activities allied to Construction*
	510	Plumbing.
	511	Heating and air conditioning installation, lift installation, sound proofing etc.
	512	Setting of tile, marble, brick, glass and stone.
	513	Plumber works such as fixing of doors, windows, panels, painting and decorating
	514	Electrical installation.
	519	Other activities allied to construction not elsewhere classified, such as fixing of hand-pumps.
		Division 6—Wholesale and Retail Trade and Restaurants and Hotels
60		*Wholesale Trade (W.T.) in Food, Textile, Live Animals Beverages and Intoxicants*
	600	Wholesale trade in cereals and pulses.
	601	Wholesale trade in Foodstuff other than cereals and pulses.
	602	Wholesale trade in textiles and textile products like all kinds of fabrics, garments, shirtings, suitings, hosiery goods.
	603	Wholesale trade in beverages other than intoxicants, e.g., aerated water.
	604	Wholesale trade in intoxicants like wines and liquors including bottling.
	605	Wholesale trade in intoxicants like opium, ganja, etc.
	606	Wholesale trade in tobacco and tobacco products.
	607	Wholesale trade in animals.
	608	Wholesale trade in straw and fooder.
61		*Wholesale trade in Fuel, Light, Chemicals, Perfumery, Ceramics, Glass*
	610	Wholesale trade in medicines and chemicals.
	611	Wholesale trade in fuel and lighting products.
	612	Wholesale trade in toilets, perfumery and cosmetics.
