PREFACE

Some vital informations about all types of establishments were collected in the Establishment chedule during 1971 Census. During 1961 Census only manufacturing, processing and servi-Sing establishments had been covered; but in 1971 the scope of enquiry was extended to trading and other establishments as well. Though sample surveys have been carried on from time to time the enquiry on full count basis during 1971 Census was the first venture of its kind in this country. The methodology of the survey and the various phases of its organisation have been explained in detail in Part III-A (Report on Establishments) of our publications. This volume which is numbered as Part III-B contains only the tables prepared on the basis of the data contained in the Establishment Schedule. Flyleaf has been given before each table explaining the various terms used in its format and other important features. Proportional tables and analysis of data have been given in Part III-A.

To have a complete picture of establishments it is necessary to have an idea of capital investment and output or turnover. But obviously in an operation like census where each house was sought to be covered and, therefore, about one lakh enumeration and supervisory personnel were engaged in the work it was risky to introduce such concepts like capital or output. The informations on these points would not be readily forthcoming and the enumerating personnel, though fully trained to do their work, were not in many cases, adequately equipped with the academic background and experience needed in a sophisticated economic survey. However this deficiency does not detract from the immense value of the data collected and presented through these tables which cover other aspects of the establishments. The main importance and uniqueness of these data lie in the fact that these are the only sources of information at least in respect of the unorganised sector of industry and trade and services collected in a full count survey.

Vast effort has naturally gone into this gigantic operation with numerous persons quietly doing their work in different stages. Thousands of enumerators and supervisors and hundreds of Charge Superintendents aided by their own organisations have toiled through the gruelling summer of May, 1970 in collecting informations about the establishments. The Subdivisional Officers and the District Officers ably assisted by their respective Subdivisional Census Officers and District Census Officers and other staff of Census Office provided guidance and supervision. I am grateful to all of them.

At the headquarters Shree U. P. Shrivastava organised editing of the schedules and Shree K. M. Sinha who had been put in charge of coding and punching cell organised with the assistance of Shree G. C. Mishra, Tabulation Officer, the coding and punching. A large number of editors, coders, code-checkers, punch-operators, verifier operators along with the supervisors in various sections worked hard under the able guidance of respective Tabulation Officers, I am grateful to them.

I am obliged to the State Government particularly to Shree S. N. Sinha and Shree R.S. Mandal who were Chief Secretaries during the period of census operations.

It is difficult to express adequately my gratitude to Shree A. Chandra Sekhar, Registrar General and *ex-officio* Census Commissioner of India whose inspirations and guidance lay behind every action that we took to discharge our duties. I am also grateful to Shree K. D. Ballal, Deputy Registrar General, Shree K. K. Chakravorty, Central Tubulation Officer, Shree S. Raghavachari, Assistant Registrar General in charge of Sampling and Shree S. C. Sharma, Assistant Registrar eneral in charge of Data Processing division.

I am grateful to Shree S. R. Sethi, Manager, Government of India Press, Nasik for printing this volume and to Shree R. B. Chari, Director of Census Operations, Maharashtra and Shri D.V. Rangnekar, Deputy Director of Census Operations, Maharashtra for helping us with the printng paper and binding materials and giving us their time in looking after our printing in Nasik Press.

INTRODUCTORY NOTE

Listing of houses is an essential part of Census as it provides a frame for enumeration. Till 1951 houses used as dwelling were listed essentially for this purpose. Later it was felt that the house-listing operation could simultaneously be utilised in collecting some useful data about houses, e.g., the materials of the wall and the roof, the use to which the house is put, the size of the household living in the house, the number of rooms in occupation of the household, etc. Thus in 1961 the houselisting operation was conducted as a full-fledged housing census. Data on houses, households and industrial establishments were collected. The main tables on housing and establishments were presented in Part IV-B of the publications of 1961 and analytical notes as well as the subsidiary tables were given in Part IV-A. The main tables in 1961 were the following:

(i) E-I—Census Houses and the uses to which they are put.

(ii) E-II—Tenure Status of Sample Census Households living in Census Houses used wholly or partly as dwellings (Based on 20% sample).

(iii) E-III—Census Houses used as Factories and Workshops classified by Industry, Power and No Power used and size of employment.

(iv) E-IV—Distribution of Sample Households living in Census Houses used wholly or partly as dwelling by predominant material of wall and predominant material of roof (Based on 20% sample).

(v) E-V—Sample Households classified by number of members and by number of rooms occupied (Based on 20% sample).

1971 Census has continued the tradition in respect of houselisting. It was done in Bihar during May, 1970 except in the sub-divisions of Siwan and Chapra Sadar of Saran district where it was conducted in June, 1970. There were two main schedules to be filled in, viz., (i) Houselist & (ii) Establishment Schedule. The former had the information about the materials of walls and roofs, the use to which the houses are put and certain details about the households living in the houses. The latter contained information about establishments located in the houses.

The information about the industrial establishments, workshops and factories was collected for the first time in the Houselist as a part of House-listing Operation in September-October, 1960 preparatory to the 1961 Census. The scope of House-listing Operation for 1971 Census was enlarged to collect information in respect of all types of establishments located in houses. In case a house was used as an establishment information about the name of the establishment or of the proprietor; whether the establishment was government/quasi-government, private or co-operative institution; and average number of persons working daily was collected. For manufacturing, processing or servicing establishments additional information was collected on the following points :

(i) If the establishment was household industry, registered factory or unregistered workshop;

(ii) Description of the products, processing or servicing done; and

(iii) Type of fuel or power used.

Similarly, for trading and business establishments additional information was collected on the following points :

(i) Description of goods bought/sold;

(ii) Whether the transaction was conducted on wholesale scale or retail scale; and

(iii) Details of the activity if the establishment was rendering commercial services such as banking, commission agency, money lending.

For other establishments information about the nature of activity only was collected.

As detailed information about the establishments had to be collected, a separate Establishment Schedule was introduced for the first time to be filled in during Houselisting Operation in May-June, 1970.

The tabulation of data in the Houselist was done after selecting 20% sample of houses in the list. The tabulation in respect of the Establishment Schedule was, however, done on cent-per-cent count. On the basis of the Houselist four main tables, viz., H-I, H-II, H-III and H-IV were prepared. These are published in Part IV of 1971 publication. The analytical notes and the subsidiary tables are also contained in it.

The data contained in the Establishment Schedule were used in preparing another set of four tables, called the E-Service Tables, viz., E-I, E-II, E-III and E-IV. These tables are presented in this book which has been designated as Part III-B. The analytical notes prepared on the basis of these tables and the subsidiary tables are contained in Part III-A.

The four tables of E-Series are the following:

1. E-I—Distribution of Establishments by broad types.
2. E-II Part A—Distribution of Manufacturing, Processing or Servicing Establishments other than household industries classified by Registered Factories, Unregistered Workshops and size of employment.
3. E-II Part B—Distribution of Manufacturing, Processing or Servicing Establishmnts other than household industries classified by Industry, Fuel/Power or Manual used and size of employment.
4. E-II Part C—Distribution of Household Industry Establishments classified by Industry, Fuel/Power used and size of employment.
5. E-III—Distribution of Trade/Commercial Establishments classified by the type of business or trade and size of employment.
6. E-IV—Distribution of Establishments (other than Manufacturing, Processing, Servicing or Business and Trade Establishments) by size of employment.

The various terms mentioned in these tables have been explained in the brief note preceding each of these tables.

These tables contain data only on establishments which are located in 'houses'. Open air establishments were not covered in the Establishment Schedule.

TABLE E-I

DISTRIBUTION OF ESTABLISHMENTS BY BROAD TYPES

TABLE E-I—DISTRIBUTION OF ESTABLISHMENTS BY BROAD TYPES

FLYLEAF

This table shows the distribution of Establishments by three broad categories, viz., (i) manufacturing, processing or servicing establishments, (ii) trade or business establishments, and (iii) other establishments. Data have been separately presented for each of the sectors of economy, viz., (i) Government or Quasi-Government, (ii) Private and (iii) Co-operative. The manufacturing, processing or servicing establishments have been classified by registered factories, unregistered workshops and household industries; the trade or business establishments by wholesale trade, retail trade and others; and other establishments by educational institutions, public health institutions and others. Figures have been presented separately for Total, Rural and Urban areas of the State and the districts. Figures of each of the 7 cities (according to 1961 Census) have also been shown separately. The urban figures of the State and the districts include the figures of the cities as well.

Concepts and definitions

(*a*) *City*—A 'City' is a town with population 1 lakh and above.

(*b*) *Establishment*—An 'Establishment' is a place where goods are produced or manufactured not solely for domestic consumption or where servicing and/or repairing is done such as factory, workshop or household industry or servicing and/or repair workshop or a place where retail or wholesale business is carried on or commercial services are rendered or an office, public or private or a place of entertainment or where educational, religious, social or entertainment services are rendered. It is necessary that in all these places one or more persons should be actually working. Thus an establishment will cover manufacturing, trade and other establishments where people work.

(*c*) *Government or Quasi-Government*—An establishment is treated as a Government/Quasi-Government institution if the Central or State Government or a Local Authority such as Zilla Parishad, City Corporation or Municipality, etc., completely owns or has a majority of shares as to control the management of the establishment.

(*d*) *Private*—Establishments owned and managed by private individuals or corporate bodies not being co-operative institution or Government or Quasi-Government institutions are treated as Private Establishments.

(*e*) *Co-operative*—Establishments registered under the Co-operative Societies Registration Law of the State, alone fall in the category of "Co-operative".

(*f*) *Registered Factory*—A factory which is registered under the Indian Factories Act is treated as a "Registered Factory". Thus workshops using power (electric or other power) and employing 10 or more persons or those without power employing 20 or more persons are treated as Registered Factories. Any other workshop merely licenced by the Municipal or any other authority or registered for any other purpose is not treated as Registered Factory unless it is registered under the Indian Factories Act. Establishments which are covered by the provisions of the Indian Factories Act under the special orders of the State Government in accordance with section 85 of the Act have not been treated as registered factories if such establishments do not satisfy the basic criteria of size of employment and use of power as laid down in section 2(*m*) of the Act. Thus there is a scope of difference between the number of registered factories as mentioned in this table and as contained in the books of the State Government.

(*g*) *Unregistered Workshop*—A workshop like a factory is a place where manufacturing or servicing or processing activity is going on. A workshop which is not registered under the Indian Factories Act is treated as an Unregistered Workshop. Workshops which are run as household industry are treated as Household Industry.

(*h*) *Household Industry*—A 'Household Industry' is an industry conducted by the Head of the household himself/herself and/or mainly by the members of the household.

In the rural area it is necessary that the household industry is located within the same village where the household is and in the urban area within the same house where the household resides. If an industry does not satisfy this locational restriction or if it is not mainly conducted by a member or members of household it has been classed as unregistered workshop. Another restriction is that the industry should not be run on the scale of a registered factory.

TABLE E-II PART A

DISTRIBUTION OF MANUFACTURING, PROCESSING OR SERVICING ESTABLISHMENTS OTHER THAN HOUSEHOLD INDUSTRIES CLASSIFIED BY REGISTERED FACTORIES, UNREGISTERED WORKSHOPS AND SIZE OF EMPLOYMENT

TABLE E-II PART A—DISTRIBUTION OF MANUFACTURING, PROCESSING OR SERVICING ESTABLISHMENTS OTHER THAN HOUSEHOLD INDUSTRIES CLASSIFIED BY REGISTERED FACTORIES, UNREGISTERED WORKSHOPS AND SIZE OF EMPLOYMENT

FLYLEAF

This table shows the number of manufacturing, repairing, processing or servicing establishments other than household industries classified by registered factories, unregistered workshops and size of employment in each Division/Major Group of N. I. C., 1970. The size of classes of employment are the following:

(*i*) 1 person
(*ii*) 2—4 persons
(*iii*) 5—9 persons
(*iv*) 10—19 persons
(*v*) 20—49 persons
(*vi*) 50—99 persons
(*vii*) 100—299 persons
(*viii*) 300—499 persons
(*ix*) 500 persons and above
(*x*) Persons unspecified.

A complete list of Divisions and Major Groups of N. I. C., 1970 with their Code numbers is given in Appendix to the Introductory Note at the beginning of this volume. As this table relates to manufacturing, processing or servicing establishments other than household industries only Division 2 & 3 of N. I. C., 1970 and its Major Groups are relevant for this table.

The table has been presented separately for the Total, Rural and Urban areas of the State and the districts. The figures relating to each of the 7 cities (according to 1961 Census) have also been presented separately. The urban figures relating to the State and the districts include figures of cities as well.

Size of Employment—The relevant instructions to Enumerators on the subject is reproduced below :

"In this column, the information has to be entered relating to the total number of workers including the apprentices, paid or unpaid and also including owner(s) or proprietor (s) of the establishment and any of their family members if they also work in the establishment and also the hired workers, if any. It is not necessary that an establishment should necessarily have paid workers. A small shop run in the same house where the owner lives and the business is attended to by just one person of the household is also an establishment. The average number of persons working per day in the establishment during the week preceding the day of your visit should be recorded. For computing the average number of persons working per day, if the establishment remained closed owing to holiday, etc., such day(s) should be ignored and only the 'days' on which the establishment worked should be taken into account. If during the week preceding your visit, the establishment remained closed either due to strike or lock-out, the week during which the establishment worked preceding such strike or lock-out should be taken into account for reckoning the average number of persons working. The hired workers should normally be in full time employment.

Some establishments such as a sugar factory, rice mill, etc., may be seasonal in character and may not be actually working at the time of the present listing. You should then ascertain the particulars of such establishments with reference to the last working season.

In case more than one product is produced, or more than one item of business is conducted or several types of services are rendered, it is not necessary to enquire the number of persons employed in the production/business/servicing of each type of product, business or service that is covered against that serial number. For example in a large textile mill there may be the weaving section, dyeing section, laboratory, repairing section, sales section, etc. It is not necessary to ascertain the employment in each section. The total employment has to be ascertained. The major activity of the establishment will be described in subsequent columns".

This table corresponds to Table E-III of 1961 Census in which figures relating to all types of industrial establishments including household industries classified by kind of power used were presented without classification by registered factory and unregistered workshop.

TABLE E-II PART B

DISTRIBUTION OF MANUFACTURING, PROCESSING OR SERVICING ESTABLISHMENTS OTHER THAN HOUSEHOLD INDUSTRIES CLASSIFIED BY INDUSTRY, FUEL/POWER OR MANUAL USED AND SIZE OF EMPLOYMENT

TABLE E-II PART B—DISTRIBUTION OF MANUFACTURING, PROCESSING OR SERVICING ESTABLISHMENTS OTHER THAN HOUSEHOLD INDUSTRIES CLASSIFIED BY INDUSTRY, FUEL/POWER OR MANUAL USED AND SIZE OF EMPLOYMENT

FLYLEAF

This table gives the number of factories or workshops excluding household industries classified by the kind of power used and size of employment in each Division/Major Group of N. I. C., 1970. The size classes of employment in this table are the same as in Table E-II Part A.

The table has been presented separately for the Total, Rural and Urban areas of the State and the districts. Figures for each of the 7 cities (according to 1961 Census) have been presented separately. The figures of the urban areas of the State and the districts include the figures of cities also.

As this table relates to manufacturing, processing or servicing establishments other than household industries only Division 2 & 3 of N. I. C. and its Major Groups are relevant for this table. For description of the code numbers of Division and Major Groups a reference may be made to the Appendix to the Introductory Note at the beginning of this volume.

Kind of power used—Industrial Establishments are broadly of two categories—those using power or fuel and those run manually without power. Establishments falling in the former category have further been classified into the following four categories according to the kind of fuel or power used:

(*a*) Electricity
(*b*) Liquid fuel
(*c*) Coal, wood and bagasse
(*d*) Other power

Other power refers to the kind of power derived by the use of grass, leaves, cowdung cake, paddy husks, etc.

Tailoring, weaving, *oil ghani* and spinning in handlooms are a few examples of industries coming under the category Manual.

The instruction to Enumerators for filling in the kind of fuel or power used is reproduced below:

> "Enter here the description of the power or fuel used for the running of the factory, workshop (or household industry if it is run on power or fuel). The fuels can be kerosene, soft coke, petrol, diesel, gas, coal, wood, etc., electricity and steam, etc., are some of the sources of power. Some units may be run by animal power such as *oil ghani*. Some may be run by merely human energy such as carpet making, pottery making, etc. Enter the description of fuel or power used for the production, processing, servicing, etc., that is carried on in the establishment. There may be instances where more than one fuel or power is used, in such cases, only the fuel or power which is used in running the primary unit of the industry will be noted in this column."

This table corresponds to Table E-III of 1961 Census in which figures were presented for all types of industrial establishments including household industries.

TABLE E-II PART C

DISTRIBUTION OF HOUSEHOLD INDUSTRY ESTABLISHMENTS CLASSIFIED BY INDUSTRY, FUEL/ POWER USED AND SIZE OF EMPLOYMENT

TABLE E-II PART C—DISTRIBUTION OF HOUSEHOLD INDUSTRY ESTABLISHMENTS CLASSIFIED BY INDUSTRY, FUEL/POWER USED AND SIZE OF EMPLOYMENT

Flyleaf

This table gives the distribution of household industries by size of employment, kind of fuel/power used in each Division/Major Group of N. I. C. The types of fuels/power are the same as in Table E-II Part B. The size classes of employment are the following :

(*i*) 1 person (*iii*) 5—9 persons

(*ii*) 2—4 persons (*iv*) 10—19 persons

(*v*) Persons unspecified

By very definition a household industry cannot employ 10 or more persons if using power and 20 or more persons if without power.

The table has been presented separately for the Total, Rural and Urban areas of the State and the districts. The figures relating to each of the 7 cities (according to 1961 Census) have been presented separately. The urban figures of the State and the districts include the figures of the cities as well.

As this table relates to household industry Division 2 & 3 of N. I. C., 1970 and its Major Groups only are relevant for this table. For description of the Codes of Division and Major Groups a reference may be made to the Appendix to the Introductory Note at the beginning of this volume.

For definition of Household Industry a reference may be made to the Flyleaf to Table E-I.

This table corresponds to Table E-III of 1961 in which figures for all industrial establishments including household industries were presented.

TABLE E-III

DISTRIBUTION OF TRADE/ COMMERCIAL ESTABLISH-MENTS CLASSIFIED BY THE TYPE OF BUSINESS OR TRADE AND SIZE OF EMPLOYMENT

TABLE E-III—DISTRIBUTION OF TRADE/COMMERCIAL ESTABLISHMENTS CLASSIFIED BY THE TYPE OF BUSINESS OR TRADE AND SIZE OF EMPLOYMENT

FLYLEAF

This table gives the number of trade/commercial establishments classified by type of business or trade and size of employment in each Division/ Major Group of N. I. C., 1970. The size classes of employment are the following :

(*i*) 1 person
(*ii*) 2—4 persons
(*iii*) 5—9 persons
(*iv*) 10—19 persons
(*v*) 20—49 persons
(*vi*) 50—99 persons
(*vii*) 100 persons and above
(*viii*) Persons unspecified

The table has been presented separately for the Total, Rural and Urban areas of the State and the districts. Separate figures for each of the 7 cities (according to 1961 Census) have also been presented. The figures of cities are, however, included in the urban figures of the State and the districts.

As this table relates to Trade and Commercial establishments Divisions 6 and 8 of N. I. C., 1970 and their Major Group are relevant for this table. For the description of Code numbers of Divisions and Major Groups a reference may be made to the Appendix to the Introductory Note at the beginning of this volume.

Concepts and definitions

"Trading or business" establishments are those where some trading, i.e., transactions involving sale and/or purchase of goods go on. Commercial establishments are those which render commercial services such as banks, money lending firms, pawn shops, insurance companies, etc.

DISTRIBUTION OF ESTABLISHMENTS (OTHER THAN MANUFACTURING, PROCESSING OR SERVICING OR BUSINESS AND TRADE ESTABLISHMENTS) BY SIZE OF EMPLOYMENT

TABLE E-IV—DISTRIBUTION OF ESTABLISHMENTS (OTHER THAN MANUFACTURING, PROCESSING OR SERVICING OR BUSINESS AND TRADE ESTABLISHMENTS) BY SIZE OF EMPLOYMENT

FLYLEAF

This table gives the number of establishments other than manufacturing, processing or servicing or business and trade and commercial establishments classified by size of employment in each Division/Major Group of N. I. C. The size classes of employment are the same as in Table E-III. The table has been presented separately for Total, Rural and Urban areas of the State and the districts. Figures of each of the 7 cities (according to 1961 Census) have been presented separately. The urban figures of the State and the districts, however, include the figures of the cities also.

As this table relates to all the establishments except manufacturing, processing, servicing, trad and commercial establishments, Divisions 0, 1, 4, 5, 7 and 9 of N. I. C., 1970 and their Major Groups are relevant for this table. For the description of Code numbers of Divisions and Major Groups a reference may be made to the Appendix to the Introductory Note at the beginning of this volume.
