ACKNOWLEDGEMENTS

At the 1961-Census information for all manufacturing, servicing, repairing establishments and establishments engaged in plantation, livestock production, hunting, fishing and mining as Household Industry only was collected within the houselist form on a limited basis. It was not a detailed information and was restricted to above-mentioned industries only. In the 1971-Census it is for the first time that an elaborate attempt has been made to collect detailed information about all types of establishments on a special schedule. The valuable guidance given by Shri A. Chandra Sekhar, Ex-Registrar General, India, helped us to complete the field work during houselisting operations without any difficulties and as per the time schedule. In order to complete the voluminous data collected during houselisting operation in the shortest time the Registrar General, India, arranged the processing of the data on electronic computors. The zeal with which Shri K.K. Chakravorty arranged scrutiny of the schedules and the scrutiny of the final tables deserves appreciation. The processing of the schedules was carried out in the data processing unit of the Registrar General's office. I am grateful to Shri A. Chandra Sekhar, Shri K.K. Chakravorty and Shri S.C. Sharma for their guidance and getting the work completed in the shortest possible time. I am also grateful to my colleagues Sarvshri S.L. Dhani, J.L. Arora Deputy Directors and Shri K.C. Suri, Assistant Director who were responsible for getting the work completed according to the Census calendar. I also acknowledge with gratitude valuable contribution made by the following officials of this Directorate in bringing out this publication :—

INTRODUCTION

In the Centennial Census history of India, it is for the first time that an attempt has been made to collect detailed data on establishments, embracing manufacturing, trading as well as all other types of establishments located in the buildings, where people work in productive activities. Open air establishments or itinerant vendors have, however, been excluded from the scope of the present study for obvious difficulties. In 1961, some particulars of manufacturing establishments only were collected in the houselist form itself but in the present Census, a separate Establishment Schedule was developed and canvassed alongwith the Houselist in February, 1970 with a view to collecting maximum information, not only for manufacturing establishments but for all other types of establishments too. Another novel feature of the Establishment Schedule introduced at the 1971-Census was the collection and presentation of data on the different types of establishments by the three sectors *viz.*, (i) Government or Quasi-Government, (ii) Private, and (iii) Co-operative in addition to the information regarding size of employment in each type of establishment classified according to the National Industrial Code and type of fuel or power used in different types of factories, unregistered workshops and household industries. It will be noticed that a little more than 90 per cent of the total establishments in Haryana State are owned and managed by private individuals or corporate bodies not being Co-operative institutions or Government or Quasi-Government institutions. This figure is as high as 99.2 per cent for manufacturing establishments and 98 per cent for trading establishments—the two vital fields of the economy. The utility of the data yielded is, thus, particularly significant to the Government in formulating various economic and social policies regarding regulation of industry, trade or business, setting up of educational, medical and public health institutions, creation of employment opportunities, price control and fiscal decisions etc., and to the public at large in tapping the unexplored fields of the economy. In addition, the present Establishment Schedule helped to collect valuable information on the small establishments in the unorganised Sector *i.e.*, unregistered workshops, household industries, small business houses and other similar establishments in respect of which there was hardly any reliable data though this absorbed a considerable section of the labour force and played vital role in the economy of the State.

2. The data on Establishments has been processed and presented on full count basis and is, therefore, fairly accurate and dependable. The Report on Establishments in Haryana has been bound in two separate books. The present book Part III-B embodies the six Main Establishment Tables E-I to E-IV, with Table E-II divided into three parts, each forming a full fledged separate Table. In Part III-A, the data collected in the Main Establishment Tables have been analysed and presented in a narrative form. This part also contains Subsidiary Tables, expressing the data of the Establishments in terms of percentages or proportions and other statements, to facilitate the study of distribution of establishments and comparison or correlation of various characteristics between districts, cities and 1961 and 1971 Censuses.

3. The editing of the entries in the Establishment Schedules was done in the Directorate. The coding of the entries in the Schedules was done in the Mechanical Tabulation Unit of the Office of the Registrar General of India. Thereafter, the cards were punched and data transferred to tapes on computors in that office.

4. The nature of the Main Establishment Tables has been given in the contents. Each table in this report is preceded by a fly-leaf explaining the columns.

Distribution of Establishments By Broad Types

TABLE E-I

DISTRIBUTION OF ESTABLISHMENTS BY BROAD TYPES

Flyleaf

This is a new table for the 1971-Census and has been prepared for (i) total, (ii) rural, and (iii) urban areas of the State and each district, and for the two cities of Ambala Cantonment and Rohtak. It furnishes the distribution of all establishments by three broad types *viz.*, manufacturing, processing, servicing or repairing establishments ; trade or business establishments; and other establishments in each of the government or quasi-government, private and Co-operative sectors of the economy. The manufacturing, processing, servicing or repairing establishments have been further classified as (i) registered factories, (ii) unregistered workshops and (iii) household industries in columns 4, 5 and 6, respectively. The trade or business establishments have been classified as (i) wholesale, (ii) retail, and (iii) others in columns 7, 8 and 9, respectively. Lastly, the "other establishments" have been classified as (i) educational institutions, (ii) public health institutions, and (iii) others in columns 10, 11 and 12, respectively. The total number of establishments have been given in col. 3. The concepts involved in the schedule have been mentioned below:—

Establishment.—Establishment is a place where goods are produced or manufactured not solely for domestic consumption or where servicing and/or repairing is done such as factory, workshop or household industry or servicing and/or repair workshop or a place where retail or wholesale business is carried on or commercial services are rendered or an office, public or private or a place of entertainment or where educational, religious, social or entertainment services are rendered. It is necessary that in all these places one or more persons should be actually working. Thus an establishment will cover manufacturing, trade and other establishments where people work.

Government/Quasi-Government.—Government& Quasi-Government establishment is an institution where the Central or State Government or a Local Authority such as the Municipality, Cantonment Board, Notified Area Committee, Zila Parishad, Village Statutory, Panchayat etc., completely owns or has a majority of shares as to control the management of the establishment.

Private.—Private establishments are those owned and managed by private individuals or corporate bodies not being Co-operative Institution or Government or Quasi-Government Institution.

Co-operative.—Co-operative establishments refer to those enterprises which are registered under the Co-operative Societies Registration Act of the State.

Registered Factory.—Registered Factory is that which is registered under the Indian Factories Act.

Unregistered Workshop.—Unregistered Workshop is a place where some kind of production, processing, servicing or making of goods for sale is going on and which is neither a household industry nor registered under the Indian Factories Act.

Household Industry.—Household Industry is defined as an industry conducted by the head of the household himself/herself and/or mainly by the members of the household at home or within the village in rural areas, and only within the premises of the house where the household lives in urban areas. The industry should not be run on the scale of a registered factory.

Other Trade.—Other Trade covers those establishments which render commercial services, *e.g.*, Banks, money lending firms, pawn shops, etc., and those which could not be distinctly classified under wholesale or retail trade.

Public Health.—Public Health Institutions also include medical institutions such as hospitals, health centres, doctor's clinics, dispensaries, etc.

Others.—'Other establishments' cover a large variety of establishments which are neither manufacturing nor trading establishments and which also do not fall under the categories of educational or public health institutions, *e.g.*, government or private offices, railway stations, barber's saloon, cinema houses, hotels, tea shops, etc.

TABLE E-II PART A

DISTRIBUTION OF MANUFACTURING, PROCESSING OR SERVICING ESTABLISHMENTS OTHER THAN HOUSEHOLD INDUSTRIES CLASSIFIED BY REGISTERED FACTORIES, UNREGISTERED WORKSHOPS AND SIZE OF EMPLOYMENT

Fly-leaf

The Table presents distribution of manufacturing, processing. servicing and repairing establishments other than household industries for total, rural and urban areas of the State and each district separately, and for Ambala Cantonment and Rohtak City. The table gives a two-fold classification. Firstly, registered factories and unregistered workshops are classified by industry according to the Divisions and Major Groups adopted in the National Industrial Classification, 1970. The digits given under column 1 of the Table are explained in Annexure III. Secondly, registered factories and unregistered workshops have been distributed according to the size of employment *i.e.*, 1 person, 2—4 persons, 5—9 persons, 10—19 persons, 20—49 persons, 50—99 persons, 100—299 persons, 300—499 persons, 500+persons and persons unspecified. It gives valuable information about (i) number of units and (ii) number of persons employed in registered factories and unregistered workshops separately in each Division/Major Group of National Industrial Classification 1970 in each size group of employment.

The terms registered factories and unregistered workshops have already been explained.

TABLE E-II PART B

DISTRIBUTION OF MANUFACTURING, PROCESSING OR SERVICING ESTABLISHMENTS OTHER THAN HOUSEHOLD INDUSTRIES CLASSIFIED BY INDUSTRY, FUEL/POWER OR MANUAL USED AND SIZE OF EMPLOYMENT

Flyleaf

In this Table also , the number of registered factories and unregistered workshops have been presented for total, rural and urban areas of the State and each district separately and for cities and by Division/Major Group of National Industrial Classification, 1970 and by size of employment as in Table E-II part A. This Table furnishes additional information about the kind of fuel or power used in the industries.

The power of fuel has been classified into four categories as under in case the machinery is employed.

(a) Electricity ;

(b) Liquid Fuel ;

(c) Coal, Wood and Bagasse ;

(d) Other Power.

All such factories and workshops where no machinery is employed or where the machinery is propelled manually have been classified separately under "Manual" power.

TABLE E-II PART-C

DISTRIBUTION OF HOUSEHOLD INDUSTRY ESTABLISHMENTS CLASSIFIED BY INDUSTRY, FUEL/POWER USED AND SIZE OF EMPLOYMENT

Flyleaf

This table furnishes similar information about Household Industry Establishments as in the case of Factories and Workshops in Table E-II Part B. The presentation according to area units is also the same.

This table gives a three-fold classification. Firstly, Household Industry Establishments have been classified by Division and Major Group of National Industrial Classification, 1970. Secondly, such Establishments are distributed according to the power or fuel used *viz*, electricity; liquid fuel; coal, wood and bagasse; other power and manual. Thirdly, these Establishments have been distributed according to the size of employment *i. e.*, 1 person, 2-4 persons, 5-9 persons, 10-19 persons, and persons unspecified.

ANNEXURES

ANNEXURE I

Instructions to Enumerators for filling up the Establishment Schedule

1. Instead of loading the main Houselist form itself with questions pertaining to Establishments, it has been decided to have a separate schedule in which particulars of each establishment are to be recorded. (See the Establishment Schedule given as Annexure II)

2. An "Establishment" is a place where goods are produced or manufactured not solely for domestic consumption or where servicing and/or repairing is done such as factory, workshop or household industry or servicing and/or repair workshop or a place where retail or wholesale business is carried on or commercial services are rendered or an office, public or private or a place of entertainment or where educational, religious, social or entertainment services are rendered. It is necessary that in all these places one or more persons should be actually working. Thus an establishment will cover manufacturing, trade and other establishments where people work.

Examples :

A factory or a workshop or workshop-*cum*-residence or a trading or other establishment, *i.e.* where some kind of production, processing, repair or servicing is undertaken or where goods or articles are made and sold, or some business is being carried on such as a grocery shop, a *pan* shop, restaurant, bank, hotel, or an office is functioning such as Government office commercial office, or an institution is being run such as school, college, hospital, dispensary, etc., and where one or more persons are working.

An Establishment may occupy a census house or a group of census houses or a part of a census house.

3. *The respondents should be fully assured that the information collected in these schedules will be treated as completely confidential and is meant for statistical purposes and will not be used as evidence against any individual or establishment for any purpose. The respondents should be encouraged to furnish truthful replies without any reservation.*

4. At the top of the schedule provision is made for noting the Location Code No. and name of the areas concerned. This should be the same as those noted on the top of the Houselist which you will be canvassing simultaneously. You should fill the Location Code Nos. etc., correctly.

5. The columns of the Establishment Schedule can be classified into four broad groups :

(i) Columns 1 to 5 are of uniform applicability and entries have to be made in respect of all the establishments ;

(ii) Columns 6 to 8 pertain to manufacturing, processing, etc.—establishments ;

(iii) Columns 9 to 10 relate to trading establishments; and

(iv) Column 11 refers to "other Establishments" which are not covered in columns 6 to 10.

Thus, it will be seen that the columns falling within groups, (ii) to (iv) are mutually exclusive, while those in group (i) are common to all.

Col. 1 : Sl. No.

6. In this column the establishments are to be entered one after another serially. Arabic numerals should be used for this purpose, *i. e.*, 1, 2, 3, etc.

Col. 2 : Census House No.

7. The Census house number to be noted is the same as that in column 3 of the Houselist and against which 'Yes' is written in column 7 of the Houselist indicating that the Census house is used as an establishment.

8. A point to be noted here is that it is likely that a single factory or workshop may be spread over more than one Census house adjoining one another. Therefore, while in Col. 2 of this schedule a number of Census houses may be noted in respect of that particular unit of production, processing or repairing, trade or business etc., the entries in Col. 3 onwards will be one only for that group of houses covered by a single unit of production or business etc., establishment. For example, if a single tea factory in Assam or business establishment in Calcutta should be spread over two or three adjacent buildings, each of the buildings should not be shown as a separate factory or establishment but the House Nos. of all these buildings shown in Col. 2 should be bracketted together and the particulars of the single tea factory or establishment entered in the subsequent columns against this group of houses. If on the other hand the activities of a large firm or an office are carried on in buildings located far away in different localities each of the Census houses, in the different localities will have to be treated as a separate establishment and the particulars of the establishment relating to that particular Census house should be listed in this schedule.

Col. 3: Name of the Establishment or of the proprietor

9. In this column write the name of the establishment in the case of factories, large manufacturing concerns, a shop or business establishment, banks, office etc. which usually bear a distinct name. Where an establishment has no separate name as in the case of small workshops and establishments like confectionaries, small tea shops, Dhobi's establishment, household industries etc., write the name of the owner as "So and so's Halwai shop" etc. This is to help easy identification.

Col 4 : Is the Establishment—(a) Govt. /Quasi Govt. (b) Private (c) Co-operative Institution.

10. Enter here whether establishment enumerated belongs to public sector *i. e.*, Govt./Quasi Govt. managed, including establishments run by local authorities, or to private sector, or a co-operative enterprise. Please do not write in the column only (a) or (b) or (c) but write

(1) "Govt.—Public Sector, or Quasi Govt.—Public Sector, or Local Authority—Public Sector".

(2) Private

or

(3) Co-operative.

There may be many schools or libraries etc., which are not owned by any particular individual or group of individuals. These may be owned by people in general and managed by Managing Committees. Such establishments should be treated as "private" as distinguished from Govt./Quasi Govt. or run by local authorities or co-operative enterprises.

11. An establishment will be treated as a Govt./Quasi Govt. institution if the Central or State Govt. or a Local Authority such as the Zila Parishad, City Corporation or Municipality etc., completely owns or has a majority of shares as to control the management of the establishment.

12. Private establishments are those owned and managed by private individuals or corporate bodies not being co-operative institution or Govt. or Quasi Govt. Institutions.

13. Establishments registered under the co-operative Societies Registration Law of the State, alone fall in the category of "Co-operative".

Col. 5 : Average number of persons working daily last week or in the last working season, including proprietors and /or family workers.

14. In this column, the information has to be entered relating to the total number of workers including the apprentices, paid or unpaid and also including owner(s) or proprietor(s) of the establishment and any of their family members if they also work in the establishment and also the hired worker, if any. It is not necessary that an establishment should necessarily have paid workers. A small shop run in the same house where the owner lives and the business is attended to by just one person of the household is also an establishment. The average number of persons working per day in the establishment during the week preceding the day of your visit should be recorded. For computing the average number of persons working per day, if the establishment remained closed owing to holiday etc.,such day(s) should be ignored and only the 'days' on which the establishment worked should be taken into account. If during the week preceding your visit, the establishment remained closed either due to strike or lock-out, the week during which the establishment worked preceding such strike or lock-out should be taken into account for reckoning the average number of persons working. The hired workers should normally be in full time employment.

15. Some establishments such as a sugar factory, rice mill, etc., may be seasonal in character and may not be actually working at the time of the present listing. You should then ascertain the particulars of such establishments with reference to the last working season.

16. In case more than one product is produced, or more than one item of business is conducted or several types of services are rendered, it is not necessary to enquire the number of persons employed in the production/business/servicing of each type of product, business or service that is covered against that serial number. For example in a large textile mill there may be the weaving section, dyeing section, laboratory, repairing section, sales section etc. It is not necessary to ascertain the employment in each section. The total employment has to be ascertained. The major activity of the establishment will be described in subsequent columns.

"*Columns* 6, 7 *and* 8 :—*If any manufacturing, processing or servicing is done*".

17. These columns relate only to such establishments in which goods are manufactured or some kind of processing or servicing is done and/or repairs are carried on.

Col. 6 : Is it (a) Household Industry (b) Registered Factory (c) Unregistered Workshop.

18. (a) *Household Industry* : *Definition*

A 'Household Industry' is defined as an industry conducted by the Head of the household himself/herself and/or mainly by the members of the household at home or within the village in rural areas, and only within the premises of the house where the household lives in urban areas. The industry should not be run on the scale of a registered factory.

19. Thus, there are four ingredients of a household industry :—

(i) nature of activity

(ii) participation

(iii) location

(iv) size

20. (i) *Nature of activity*.—A Household Industry should relate to production, processing, servicing, repairing, or making and selling (but not merely selling) of goods. It *does not* include professions such as a pleader or doctor or barber, musician, dancer, washerman (Dhobi), astrologer, etc. or merely trade or business even if such professions trade or services are conducted at home by members of household.

21. (ii) *Participation* .—The Head of the household and/or one or more members of the household must participate in such an industry. If it is run primarily by hired labourers, the 'participation' ingredient of the household members will not be satisfied and it will not be a 'Household Industry'. The industry may run with the help of hired workers but the head and/or members of the household must be mainly participating in the industry and not solely dependent on hired workers. Besides "actual work", participation also includes "supervision and direction".

22. (iii) *Location* .—The industry should be located within the premises of the house where the household lives in urban areas; if it is situated at a place other than at home, it will not be termed as household industry in urban areas. In rural areas, however, the industry may be either at home or anywhere within the village limits. In rural areas, even though, the industry is not situated at home, there is a greater possibility of the members of the household participating in it if it is located within the village limits.

23. (iv) *Size* .—The industry should not be on the scale of a registered factory. Irrespective of the location and participation by the members of the household, if the industry or workshop is registered under the Factories Act, then it will not be a household industry.

24. Thus it will be clear that any industry which can be termed as 'Household Industry' must satisfy all the four ingredients mentioned above.

25. (b) *Registered Factory* .—A factory which is registered under the Indian Factories Act should be treated as a "Registered Factory". Any other workshop merely licenced by the Municipal or any other authority or registered for any other purpose should not be treated as a registered factory unless it is registered under the Indian Factories Act.

26. (c) *Unregistered Workshop* .—Workshop is a place where some kind of 'production, processing, servicing, repairing or making of goods for sale' is going on. A workshop which is registered under the Indian Factories Act should be treated as a registered factory and others as unregistered workshops. Workshops which are run as household industry should be treated as household industry and entered as such.

27. When you come across an establishment where some kind of manufacturing, processing or servicing etc., is done, you should ascertain whether it is a household industry or a registered factory or a workshop not registered under the Factories Act and write whatever it actually is in this column. Please note that workshops merely licenced or entered in the registers of a local authority are not to be considered as registered factories unless registered under the Indian Factories Act. All workshops other than household industries and not registered under the Indian Factories Act should be treated as unregistered workshops even if they are merely licenced as workshops by the local authorities. Please do not write (a) or (b) or (c) in the column but write "Household Industry", or "Registered Factory" or "Unregistered Workshop", as the case may be.

Col. 7 : Description of the products, processing or servicing done

28. The description of the actual work relating to product, processing and servicing which is done in the household industry, factory or workshop that is being listed is to be recorded here, *e.g.*, handloom weaving, lace knitting, *oil ghani etc.*, manufacturing of G.I. pipes, electroplating, motor or cycle repairing, iron foundry, paper making or book binding, printing and dyeing, shoe making, sweetmeat making etc. If in any establishment more than one article is produced or more than one kind of processing or servicing or repairing is done, indicate only the major kind of products or processing or repairing or servicing etc.

Col. 8 : Type of fuel or power used

29. Enter here the description of the power or fuel used for the running of the factory, workshop (or household industry if it is run on power or fuel). The fuels can be kerosene, soft coke, petrol, diesel, gas, coal, wood, etc., electricity and steam etc. are some of the sources of power. Some units may be run by animal power such as *oil ghani.* Some may be run by merely human energy such as carpet-making, pottery making etc. Enter the description of fuel or power used for the production, processing, servicing etc. that is carried on in the establishment. There may be instances where more than one fuel or power is used, in such cases, only the fuel or power which is used in running the primary unit of the industry will be noted in this column.

Columns 9 *and* 10 *are to be filled in respect of trading establishments or establishments which render commercial services only.*

30. Trading or business establishments are those where some trading *i.e.*, transactions involving sale and/or purchase of goods go on.

Establishments rendering commercial services are the banks, money lending firms, Pawn shops, etc.

Col. 9 : Description of goods bought/sold

31. If it is a trading establishment, you should ascertain what are the goods bought and/or sold and write the description in this column. If there are more

than one type of goods bought/sold by the establishment, you should give description of the main item of goods bought/sold by the establishment.

32. In the case of establishments rendering commercial services such as in the case of Banks etc., you should write the description of the services rendered, as in the case of a bank, you should write "banking services".

Col. 10 : Whether (a) wholesale or (b) retail

33. For all trading establishments, you should ascertain in respect of the goods mentioned in column 9, whether they are sold/bought in wholesale or in retail and write as the case may be.

34. You may come across certain establishments wherein both types of trade *i.e.*, wholesale and retail go on. In such cases, you should ascertain in which category (*i.e.* wholesale or retail) the volume of trade is greater and record the category accordingly.

35. In the case of establishments rendering commercial services, *e.g.*, bank etc. please do not write any of the two categories *i.e.* 'wholesale' or 'retail' but put an 'X' in this column.

Col. 11 : If used as any other establishment, describe e.g., Govt. Office, School, Hospital, Railway Station, Barber's Saloon, Cinema, theatre, Hotel, Tea shop, etc.

36. Two specific types of establishments have been covered in columns 6 to 10 . Column 11 relates to the remaining types of establishments not covered by columns 6 to 10. You have to describe such establishments in this column *e.g.*, Govt. Office, School, Hospital, Railway Station, Orphanage, Rescue Home, Barber's saloon, cinema theatre, hotel, tea shop, lawyer's office, doctor's clinic, laundry, etc.

General

37. It is possible that in a particular establishment, more than one activity is being undertaken within the same premises. For example, say in a betel shop, *bidi* rolling is also being undertaken or in a grocery shop, a flour mill is also located, or in the doctor's clinic medicines are sold. In such cases, the establishment should be identified having regard to the major activity and recorded as such in the relevant columns pertaining to the major activity.

38. But if different activities are undertaken in different census houses quite cut off from one another though under the same title or ownership, each such census house should be treated as a separate establishment and recorded as such against that census house in this schedule. It may, however, be noted that where processing for the production of an article is carried on, in separate adjoining census houses, all the census houses should be treated as a single establishment and recorded as such. If on the other hand the activities of a large firm or an office are carried on in buildings located far away in different localities, each of the census houses in the different localities will have to be treated as a separate establishment and the particulars of the establishment relating to that particular census house should be listed in this schedule.

39. After you have completed filling up of the Establishment Schedule for your block you will prepare a duplicate copy of the Establishment Schedule for which you would be given adequate number of blank forms.
