# PREFACE

An independent Establishment Report is one of the new features of the 1971 Census. Analysis of data on manufacturing establishments was a part of the Housing and Establishment Report in 1961. The decision to throw the net wider in order to collect information about units in the unorganised sector-all types of retail and wholesale establishments dealing in items like food-grains, textiles, household goods, hotels, restaurants, petrol pumps, etc., as well as miscellaneous types of establishments like schools, hospitals, godowns, offices, etc. made it obligatory to bring out a separate Establishment Report.

Manufacturing, Trading and Other establishments have been discussed in separate Chapters. The write up has been done, keeping in view the desirability to make it comparable with the 1961 Report, so far as manufacturing establishments are concerned, and to cover all the aspects suggested in the frame circulated by the Registrar-General's office for adoption on all India basis.

Some coding and punching errors came to notice when the tables were being analysed for the detailed write up. Necessary corrections have been carried out, but errors on account of mis-interpretation of concepts are still there, all relating to size-class of trading and other establishments. The number of members, inmates, students, etc., got wrongly treated as number of employees, thus inflating the size-class of the unit. Suitable observations have been made while discussing the size-class of the units in the concerned major-group. But such errors in terms of percentage are negligible and the various E-series tables have made available for the first time very rich and useful information in respect of all types of economic activity carried from within the four walls of a Census house. In other words, all that is left out are open air establishments which cannot be netted with precision in view of their mobility.

Since trading and other establishments have been covered for the first time, only the present position has been discussed. But as regards the manufacturing establishments, an attempt has been made to highlight the changing industrial picture of the State by comparing the 1961 and 1971 position.

Shri R. K. Kulshreshtha, Tabulation Officer, assisted by Shri N. P. Sharma, Statistical Assistant, and Shri J. F. D'Souza, Computor, carried out a number of verification exercises at my behest which helped greatly in pin-pointing the coding and punching errors. They also worked with zeal and speed in preparing the various statements and inset tables that have been included in the descriptive part of the Report. The maps and charts have been prepared by Shri M. G. Mohril, Tabulation Officer, Shri U. K. Trivedi, Deputy Director, exercised over-all supervision in order to keep up the tempo of work. My grateful thanks to each one of the above mentioned persons. But for their help, it would not have been possible for me to complete the write-up of this somewhat complex Report.

I am very much indebted to Shri A. Chandra Sekhar, Registrar-General, Shri R. B. Chari, Deputy Registrar General (Census), Shri S. C. Sharma, Assistant Registrar-General (Data Processing) and Shri G. K. Mehrotra, Senior Research Officer, for their guidance and for suggesting an acceptable solution to the coding and punching errors which came to my notice rather late in the day.

DISTRICT CENSUS OFFICER, HOSHANGABAD, CHECKING ENTRIES IN THE ESTABLISHMENT SCHEDULE.

# CHAPTER 1

## Introductory

An independent and comprehensive establishment schedule was one of the new features of the Centenary Census. Data regarding manufacturing establishments only was collected for the first time in 1961 as a part of the Houselist which is canvassed prior to the main enumeration. Although only one table (E-III) was generated, the wealth of information that was made available in respect of manufacturing establishments prompted the organisers of the 1971 Census to widen the coverage so as to collect data about all types of establishments—industrial, commercial and others. But I must hasten to add that initially, although a separate establishment schedule was contemplated, the coverage was limited to manufacturing establishments only. It was only after the response to the schedule canvassed at the time of the first pre-test was known that a decision was taken to cover all types of establishments. A revised schedule was canvassed at the second pre-test and in the light of experience gained, the format of the establishment schedule was further improved upon. A facsimile of the establishment schedule, as finally adopted, and copy of the instructions how to fill up the various columns of it, may be seen at Appendix-I.

2. The definition of 'establishment' adopted this time was "a place where goods are produced or manufactured not solely for domestic consumption or where servicing and/or repairing is done such as factory, workshop or household industry, or servicing and/or repair workshop, or a place where retail or wholesale business is carried on or commercial services are rendered, or an office, public or private, or a place of entertainment, or where educational, social, religious or entertainment services are rendered. It is necessary that in all these places one or more persons should be actually working. Thus an establishment will cover manufacturing, trade and other establishments where people work." The comprehensive nature of the coverage desired would be obvious from the above definition. As a matter of fact, in the training classes, the enumerators were simply told to treat every place, used wholly or partly for non-residential purposes, as an establishment in case at least one person was working.

3. Apart from wider coverage, the format of the establishment schedule as finally adopted greatly enhanced the content quality of the data that was to become available after processing of the schedule on cent per cent basis. A country wedded to democracy and endeavouring to establish a socialistic pattern of society would naturally like to know the relative roles of the public, private and the co-operative sectors in the various fields. Therefore, column 4 was incorporated to give information on establishments belonging to the government/quasi-government, private and the co-operative sectors.

4. The organised sector, among manufacturing as well as trading establishments, is no doubt covered by the Factories Act, 1948, and the Shops and Establishments Act, 1958. But the information available under the Factories Act, 1948, is limited to factories employing 10 or more workers with the aid of power and 20 or more workers without the aid of power. As for shops and establishments, the Act itself provides exemption to certain categories of persons and establishments. Section 3(1) of the Act runs as follows:

"Nothing in this Act shall apply to :—

(a) persons occupying positions of management or employed in a confidential capacity not exceeding ten per cent of the total number of the employees in the establishment or three in number whichever is less;

(b) persons whose work is inherently intermittent such as a traveller, a canvasser, a watchman or a caretaker;

(c) persons exclusively engaged in preparatory or complementary work, such as clearing or forwarding clerks responsible for the despatch of goods by rail or other means of communication and for customs formalities or messengers;

(d) persons exclusively employed in the collection, delivery or conveyance of goods;

(e) offices of the Union or State Government or of local authorities and of the Reserve Bank of India, the State Bank of India and the Life Insurance Corporation;

(f) establishment for the treatment or the care of the sick, infirm, destitute or mentally unfit;

(g) bazars, fairs or exhibitions for the sale of work for charitable or other purposes from which no profit is derived;

(h) stalls and refreshment rooms at railway stations, or railway dining cars;

(i) establishments run by the Union or the State Government;

(j) clubs not being residential clubs; and

(k) any other class of establishments or class of persons which the Government may, by notification, exempt from the operation of this Act;

Provided that if in the opinion of the State Government the circumstances existing in any particular class or cases hereinbefore mentioned requires that all or any of the provisions of this Act should be extended thereto, the State Government may, by notification, extend to such class of cases all or any of the provisions of this Act and thereupon such provisions shall apply to such class of cases."

Further although the Acts require compulsory registration, it is common knowledge that a large number of factories and shops do not fulfil their legal obligation. One need not dwell on the reasons for this abuse of law in this Report; the intention in highlighting this situation here is to bring to light the fact that Census alone has made available for the first time detailed informtion about all types of establishments, classified by size of employment. As against one table and three subsidiary tables prepared in the 1961 Census, this time there are six main tables and an equal number of subsidiary tables. The broad headings of the six main tables are as under :—

(a) *Table E.I.*—Distribution of establishments by broad types.

(b) *Table E. II(a).*—Distribution of manufacturing, processing, or servicing establishments other than household industries classified by registered factories, unregistered workshops and size of employment.

(c) *Table E. II(b).*—Distribution of manufacturing, processing or servicing establishments other than household industries classified by industry, fuel/power or manual used and size of employment.

(d) *Table E. II(c).*—Distribution of household industry establishments classified by industry, fuel/power used and size of employment.

(e) *Table E. III.*—Distribution of trade/commercial establishments classified by type of business or trade and size of employment.

(f) *Table E. IV.*—Distribution of establishments other than manufacturing/processing or servicing, or business/trade establishments by size of employment.

5. A note of caution at this point is necessary. It would be erroneous to think that the number of all types of establishments in the State are equal to what has been shown in the various tables. Not that Census has left out any type of units and/or areas. The reason for this note of caution is on account of limitation of coverage to establishments located in Census houses only. In other words, the sizeable number of open air establishments and peddlars generally found in cities and towns, were outside the purview of enquiry conducted in this Census. For obvious reasons, the mighty field operation that our Census cannot envelop in its net establishments run by its inherant vendors. Then there is the limitation due to interpretation of a Census house. Difficulties in the field crop up in the shape of an establishment located in more than one Census house and more than one establishment being run from the same Census house. Big factories like the Bhilai Steel Plant, Heavy Electricals, Paper Mills, Textile Mills, etc. are generally located in more than one structure and the possibility of the enumerator having recorded more than one establishment in such cases cannot be ruled out. On the other hand, a household may be running more than one establishment from the same premises, say gas welding and cycle repairing, and it is possible that the enumerator entered only one establishment on the basis of the one which was predominent. The instructions were very clear in respect of both the situations referred to above; in the first case, only one establishment was to be recorded, unless the main unit had established an ancillary unit of its own also, and in the second eventuality two establishments were to be entered. But marginal errors cannot be ruled out. Further, missing of seasonal establishments altogether or recording of lesser number of employees cannot be ruled out. Data in respect of the large and medium factories and establishments can no doubt be cross-checked with what is collected and compiled under the relevant statutes before making use of it. But what is defective or missed in respect of the small units belonging to the unorganised sector is a total loss.

6. The E series tables have been compiled and tabulated on cent per cent basis. The complete information has been computerised for the first time and cross classification and tabulation for even the smallest administrative unit would be possible. A Coding and Punching Cell was established at Bhopal and all the entries of the filled in establishment schedules were first edited in detail before codes were given as per the approved code structure. After editing and coding was completed on manual basis, the information was punched on the cards with I. C. L. machines. The data on the punched cards was checked with the verifying machines before despatching the cards to the Zonal Computor Centre, Bombay and New Delhi for taping. Now mistakes were made and noticed at all levels, i.e., by the enumerators, the manual tabulators (editors and coders) and the machines, both manually operated as well as the electronic Computors.

7. The common errors committed in the manual process were.—(a) Inconsistent entries. What was recorded as a shop in column 6 of the Houselist was entered as a workshop in the Establishment Schedules; (b) Instructions were very clear that columns 6-8, 9-10 and 11 of the establishment schedule were mutually exclusive. Still one did come across cases where entries were made in more than one group of columns. In fact, some filled all the six columns from 6 to 11. Such errors perhaps arose because more than one activity was being carried on in the same census house and the poor enumerator could not remember the instructions which required that when more than one activity, mutually independent, were being carried on from the same census house, each of the activity was to be treated as a separate establishment and entered one below the other with running serial numbers in the establishment schedule, irrespective of weather the owner was the same individual or different persons; (c) Open-air establishments and ruined monuments were wrongly netted; (d) Incorrect response of the informants resulted in mutually contradictory entries. For instance, establishment using power and having more than 10 workers were shown as unregistered workshop; (e) Establishments recorded as household industry was at the same time shown as government/quasi-government. Unfortunately errors of types (d) and (e) persisted even after the entries in the establishment schedules were subjected to a thorough scrutiny in the Coding & Punching Cell. The staff in-charge of editing and coding, and their supervisors, were perhaps not as watchful as one had expected them to be as a result of which the cards got punched incorrectly.

8. Human mistakes apart, there were cases of mechanical failure also. Establishments with 20 employees or below 10, got categorised in size-class 10-19. Mis-classification as between registered factories and unregistered workshops were also noticed. Such errors in the computerised sheets might have crept in due to double punching in the cards not detected by the manually operated verifying machines, or due to high voltage fluctuations.

9. In view of the errors noticed at various stages, perhaps in all the States, the Registrar General's office issued instructions to closely scrutinise the data in the machine sheets in order to ensure internal consistency in the various E-series tables. This work was, of course, done manually and one of the tables, E-II-Part A, underwent wholesale change. First of all, establishments which were wrongly reported as household industry in table E-II-Part C were transferred to table E-II-Part B dealing with non-household industries. After the above corrections were carried out, the next task performed was to transfer establishments having 10 or more workers run with power and 20 or more workers run without power from table E-II-Part B to E-II-Part A. Errors of mis-classification of establishments into different size classes of number of employees were also set right and thereafter the final tables were sent to the Registrar General's office for confirmation.

10. The above narration of errors and the methodology adopted for correcting the defects may raise doubts about the data presented in the various E-series tables. It has to be remembered that a separate, comprehensive establishment schedule and mechanical processing of the information collected were new features of this Census. Errors due to absence of experience were bound to be encountered and all conceivable steps were taken to remove them. The statistics made available in this volume are without parallel and their immense utility is unquestionable despite the various limitations referred to above. In the succeeding chapters, an effort has been made to analyse composition of various establishments in different districts from various aspects.

## CHAPTER 2

### Types of Establishments

11. The total number of establishments of all types in our State, as revealed by the establishment schedules and as in May, 1970 (the houselist and the establishment schedule were canvassed simultaneously in April-May, 1970) are 805, 784. This figure is not comparable with the 1961 Census data because coverage at that time was limited to manufacturing establishments only. However, separate figures for manufacturing establishments are available this time also. The definition of "establishment", so far as manufacturing, processing and servicing units are concerned, has not undergone any significant change. The comparative figures are 405,028 in September-October, 1960, and 406,815 in April-May, 1970. The decadal growth-rate works out of 0.44 per cent only which is very low. A detailed reference to this low growth-rate would be made in the next Chapter. In this Chapter, the discussion is being limited to types of establishments by manufacturing, trading and other establishments, and the relative position of the public, private and co-operative sectors in each type.

12. The distribution of all types of establishments into the three sectors is as under :—

TABLE 1

| Sector (1) | Total (2) | Rural (3) | Urban (4) |
|---|---|---|---|
| Government/Quasi-Government | 71,669 (8.9) | 55,796 (9.9) | 15,873 (6.5) |
| Private . . . . | 730,621 (90·7) | 506,104 (89·8) | 224,517 (92·8) |
| Co-operative . . . | 3,494 (0.4) | 1,883 (0.3) | 1,611 (0·7) |
| TOTAL . | 805,784 (100.00) | 563,783 (100.00) | 242,001 (100·00) |

A lot of talk about nationalisation took place in the past few years and even action was taken in some selected spheres. But how little a dent has been made as yet would be obvious from the above figures. Nine out of every ten units, both in the rural and urban areas, still continue to be in the private sector. The co-operative movement has also not yet made significant inroads. The division of total establishments into rural and urban areas also shows a picture not wholly commensurate with the number of inhabitants living in each area.

TABLE 2

| Sector | (in percentages) | | |
|---|---|---|---|
| | Total | Rural | Urban |
| Government/Quasi-Government | 100.00 | 77.9 | 22.1 |
| Private . . . . | 100.00 | 69.3 | 30.7 |
| Co-operative. . . . | 100.00 | 53.9 | 46.1 |
| TOTAL . | 100·00 | 69·9 | 30·1 |

As against 83.79 percent population living in the rural areas, the percentage of establishments comes to only 69.9. Obviously, agriculture still continues to be the mainstay of rural economy. But what is really surprising is the picture that emerges in respect of the co-operative sector ; almost half of the establishments in the co-operative sector are in urban areas. This seems to be due to a large number of manufacturing and trading establishments in the co-operative sector getting located in urban areas for obvious reasons.

13. Let us now see the picture that is revealed by distribution of establishments according to broad types of activity.

TABLE 3

| Type of activity | Total | Rural | Urban |
|---|---|---|---|
| 1. Manufacturing, Processing and Servicing | 406,815 (50.5) | 324,312 (57.5) | 82,503 (34.1) |
| 2. Trading or business . . | 249,328 (30.9) | 134,948 (23.9) | 114,380 (47.3) |
| 3. Other . . . . . | 149,641 (18.6) | 104,523 (18.6) | 45,118 (18.6) |
| TOTAL . | 805,784 (100·0) | 563,783 (100·0) | 242,001 (100·0) |

Manufacturing establishments account for slightly over 50 percent of the total establishments, but what may really come as a surprise to many is location of nearly three-fourth of them in the rural areas. This is obviously due to counting of every bidi making unit in the villages as a separate household industry. The distribution of trading and business establishments shows an accepted pattern. Location of more than two-thirds of the total establishments in the category "Others" is by and large on account of spread of education and establishment of schools in the countryside.

14. Taking into account together the sector as well as the type of activity, the distribution of establishments gives the following picture :

TABLE 4

| Sector | Total | Manufacturing Processing etc. | Trading | Others |
|---|---|---|---|---|
| 1. Government/Quasi-Govt. | 71,669 (8.9) | 761 (0.2) | 4,090 (1.6) | 66,818 (44.7) |
| 2. Private . . | 730,621 (90.7) | 405,843 (99.8) | 243,234 (97.6) | 81,544 (54.5) |
| 3. Co-operative . | 3,494 (0.4) | 211 (N) | 2,004 (0.8) | 1,279 (0.8) |
| TOTAL . | 805,784 (100.0) | 406,815 (100.0) | 249,328 (100.0) | 149,641 (100.0) |

How very predominent is the share of the private sector in manufacturing, processing and servicing establishments would be clear from the above figures. The total share of the public and co-operative sectors does not come to more than 0.2 percent. The position is only marginally different in respect of trading establishments. The share of the public and co-operative sectors is only 2.4 percent; bulk of the trade is through private establishments which account for 97.6 percent of the total trading and business establishments (The position has changed but only slightly, as a result of nationalisation of 14 major banks after canvassing of the establishment schedule). But the public sector plays a sizeable role in the field of other establishments. Such a situation is very much to be anticipated in a developing country because initial utilisation of available resources is bound to be in the field of social services. Establishment of schools on a very large scale in the wake of attainment of independence about 23 years ago largely explains the public sector accounting for nearly 45 percent of 'Other establishments.

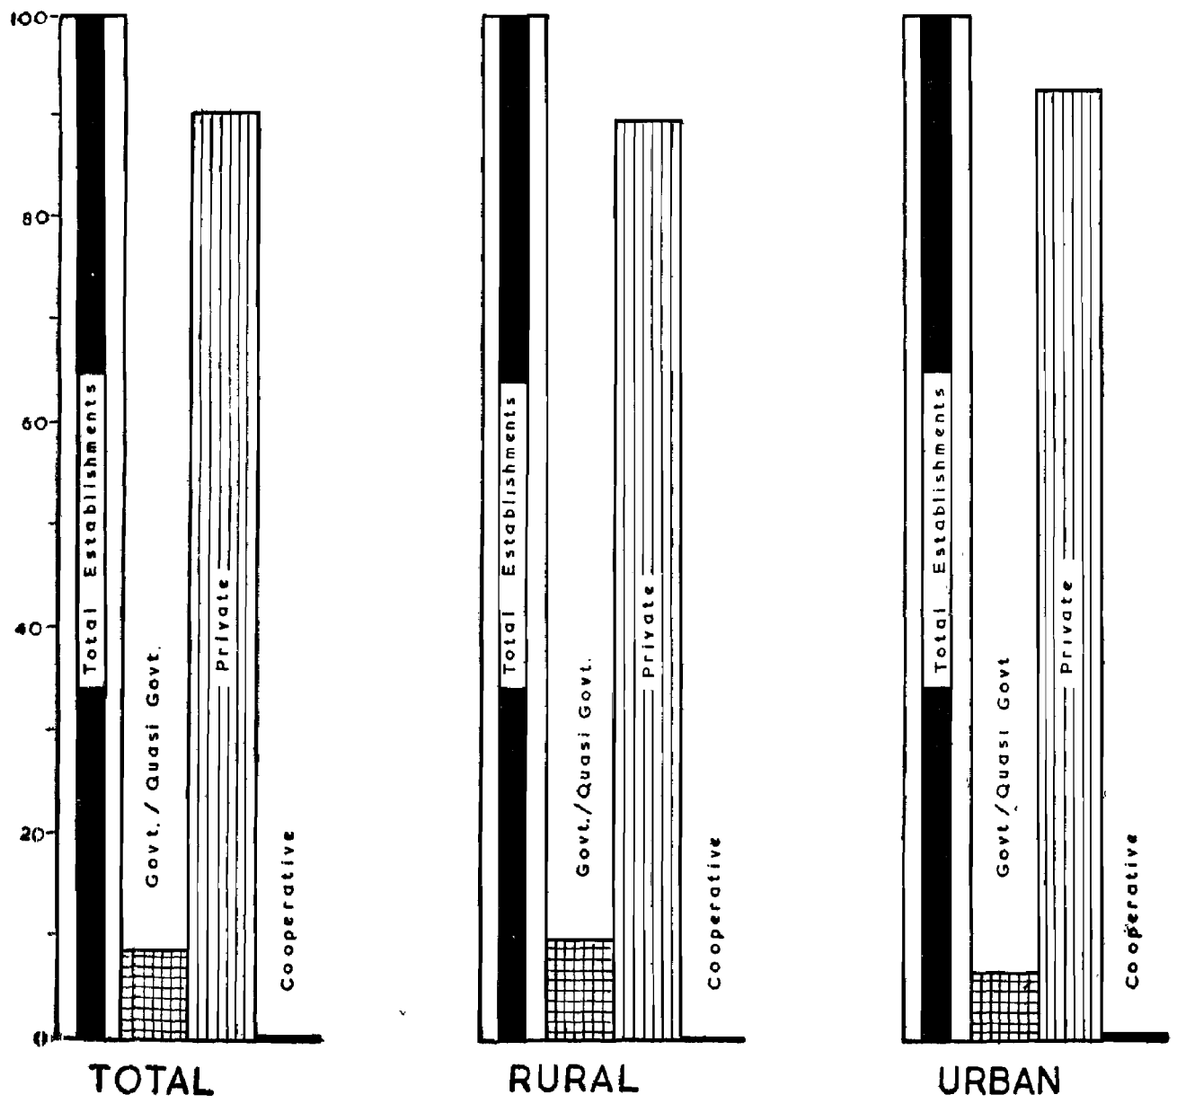

15. A brief reference to districts having the most and few establishments, purely on the basis of number, would not be out of place here.

TABLE 5

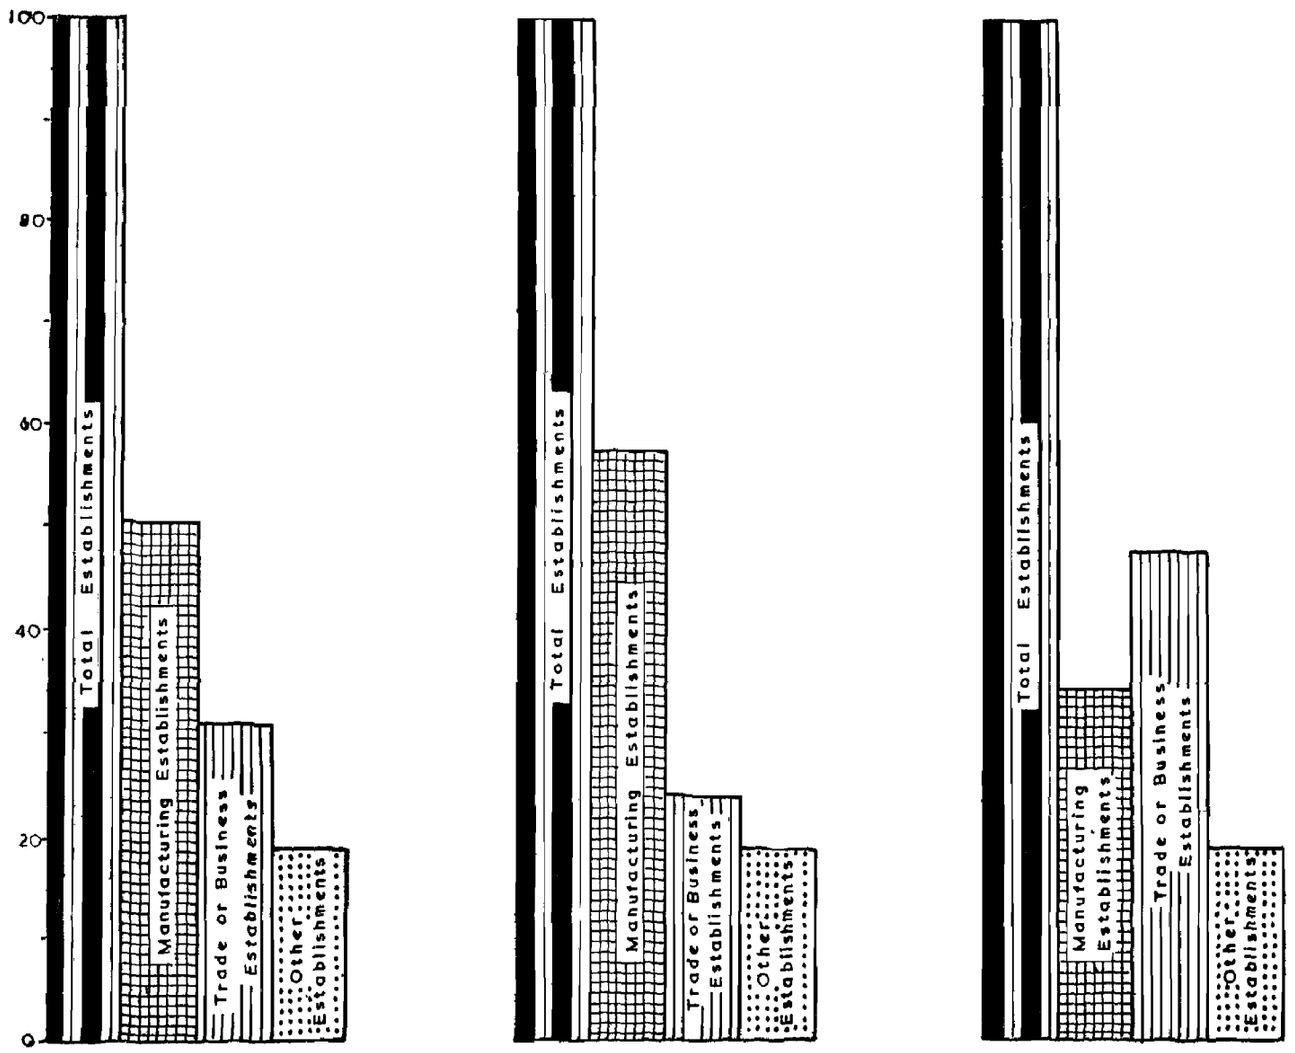

| Most/Few | Manufacturing, Processing etc. | Trading | Others |
|---|---|---|---|
| 1. Most . | Jabalpur (35,239) | Raipur (16,517) | Raipur (8,298) |
| 2. Few . | Datia (2,306) | Panna (1,894) | Panna (1,266) |

But it cannot be said that the districts having a larger number of establishments are relatively more prosperous than those having a few establishments. Size of the districts vary greatly in our State and factors like composition of working population, number of villages, location, availability of facilities etc. would have to be taken into consideration before a clear picture can emerge about the relative prosperity of different districts. In the succeeding Chapters, an analysis on these lines has been attempted.

# DISTRIBUTION OF MANUFACTURING, TRADE OR BUSINESS ESTABLISHMENTS BY GOVT., QUASI-GOVT., PRIVATE & CO-OPERATIVE SECTORS.

# DISTRIBUTION OF MANUFACTURING, TRADE OR BUSINESS AND OTHER ESTABLISHMENTS

## CHAPTER 3

### Manufacturing Establishments

16. In the previous Chapter, the distribution of total establishments by broad types—manufacturing, trading and others—and also by sectors—government of semi-government, private and co-operative—has been discussed In this Chapter, the dispersal of manufacturing establishments from various angles is being attempted.

17. As stated in the earlier Chapter, the total number of manufacturing establishments returned in the 1971 Census are 406,815 as against 405,028 in 1961, revealing a very negligible growth-rate of 0.44 percent in the decade. In other words, the picture revealed shows a more or less static position in the industrial field. It is, therefore, necessary to make a study in a little depth to find out the reasons for this low growth-rate. It would be helpful to first make the study with reference to break-up of manufacturing establishments into various major-groups in rural and urban areas. The position that emerges, after co-relating the 1961 major groups to those adopted in the 1971 Census, is as follows :—

*Statement* 1

*Break up of manufacturing establishments into major groups by rural and urban areas*

| Major group 1971 | | Rural | | | Urban | | |
|---|---|---|---|---|---|---|---|
| | | 1961 | 1971 | Difference | 1961 | 1971 | Difference |
| (1) | | (2) | (3) | (4) | (5) | (6) | (7) |
| 20—21 | Food Products | 34,727 | 37,516 | +2,789 | 12,432 | 14,364 | + 1,932 |
| 22 | Beverages, tobacco products | 60,352 | 3,9411 | —20,941 | 11,405 | 10,540 | — 865 |
| 23 | Cotton Textiles | 21,446 | 14,975 | — 6,471 | 5,618 | 5,461 | — 157 |
| 24 | Wool, Silk & Synthetic | 1,819 | 2,333 | + 514 | 353 | 824 | + 471 |
| 25 | Jute, Hemp & Mesta | 471 | 136 | — 335 | 85 | 11 | — 74 |
| 26 | Textile Other | 19,553 | 30,419 | + 10,866 | 8,612 | 12,977 | + 4,365 |
| 27 | Wood and Wood Products | 57,678 | 60,480 | + 2,802 | 5,430 | 7,098 | + 1,668 |
| 28 | Paper & its produce, Printing & allied | 18 | 48 | + 30 | 581 | 1,046 | + 465 |
| 29 | Leather & fur—its products | 57,989 | 51,263 | — 6,726 | 4,111 | 4,005 | — 106 |
| 30 | Rubber, Plastic, petroleum & coal | 10 | 54 | + 44 | 139 | 414 | + 275 |
| 31 | Chemicals & its products | 359 | 447 | + 88 | 570 | 748 | + 178 |
| 32 | Non-metallic mineral products | 30,267 | 36,219 | + 5,952 | 2,683 | 2,921 | + 238 |
| 33 | Basic Metal & alloy industries | 35,364 | 31,964 | — 3,400 | 4,120 | 4,079 | — 41 |
| 34 | Metal products | | | | | | |
| 35 | Machinery & machine tools other than 36 | 20 | 195 | + 175 | 536 | 811 | + 275 |
| 36 | Electric machinery | | | | | | |
| 37 | Transport Equipment | 1,171 | 352 | — 819 | 3,974 | 197 | — 3,777 |
| 38 | Other manufacturing | 15,682 | 12,766 | + 2,818 | 7,453 | 6,435 | + 9,554 |
| 39 | Repairs | | 5,734 | | | 10,572 | |
| | TOTAL 2 & 3 | 336,926 | 342,312 | —12,614 | 68,102 | 82,503 | +14,401 |

It would be seen from the above statement that whereas there has been a decline of 12,614 manufacturing establishments in the rural areas, there is a corresponding increase of 14,401 manufacturing establishments in the urban areas. Part of the reason for this shift seems to be recognition of 250 places as towns/cities in the 1971 Census as against 219 in the 1961 Census. But the main reason for the minus growth-rate of manufacturing establishments in rural areas appears to be a rapid fall in bidi-making units in the countryside in the wake of nationalisation of 'tendu' leaves in 1965. Difficulties in procurement of 'tendu leaves' must have necessarily resulted in the closure of the household units in the villages, whereas the big urban units more or less continued. If this major-group alone is kept out of consideration, then the rural areas would also show progress, albeit a very nominal growth-rate of about three percent. Rural economy no doubt continues to be highly agricultural in character but what has to be noticed is the shift that

has taken place in the composition of manufacturing establishments in the rural areas. Along with bidi-making units, appreciable fall in the number of manufacturing establishments is seen in major-group 23—Cotton textiles, major-group 29—leather & fur and its products and major-group 34—Metal products. Although no definite reasons can be adduced for heavy decline in major-groups 23 and 29, a plausible reason could be changing habits of the rural people —the coarse cotton cloth and heavy leather chappals/shoes yielding place to synthetic fibres and mill-made varieties of cotton cloth and machine-made leather goods. In other words, the household units manufacturing cotton textiles and leather goods registered a decline in the face of changing habits and competition. As for major-group 34, the decline can be easily attributed to scarce availability of raw materials which were largely controlled.

18. Major groups 22—Beverages, tobacco and its products, 23—cotton textiles, 29 leather and fur and its products and 34—metal products actually account for a total decline of 37,363 manufacturing establishments in the rural areas (over 10 percent of the total manufacturing establishments in the rural areas), whereas the net decline is of 12,614 units only. Thus the picture of growth of manufacturing establishments in the rural areas is not all that bleak. A new dispersal in the composition of manufacturing establishments in the rural areas became necessary, for reasons stated above, and large number of new units got established under major heads 26—textile products, 32—non-metallic mineral products, 38-39—other manufacturing & repairs, 27 —wood & wood products, and 20-21—food products. The increase in the number of manufacturing establishments in the major head 26—textile products is the highest. The number of units have gone up from 19,553 in 1961 to 30,419 in 1971, an increase of over 50 percent. Although data is not available according to minor groups, it can be safely said that the increase is essentially due to tailoring establishments. Sewing machines in the past decade were made available in the rural areas on easy terms through the development blocks. As for major head 32—non-metallic mineral products, the increase in the number of units works out to nearly 20 percent and appears to be on account of units at site for stone-crushing, brick-making and lime extraction. Similar increase is noticed in major head 38-39—other manufacturing & repairs. Miscellaneous repair enterprises and manufacture of items based on local raw-materials, like brooms, brushes, etc., **prima facie** appear to be the reasons for this high growth-rate. It would not be out of place to state here that springing up of a large number of repair units is an indication of growth of economy. Bicycles, watches and foot-wear are certainly to be seen in greater numbers now in the countryside and establishment of repair units is only to be expected. The increase of units under major heads 20-21—food products and 27—wood and wood products also need not come as a surprise to anyone. Local units making wooden furniture, small agricultural implements and utilising available raw-material like cane, bamboo, reed, etc., for making baskets/containers are always to be expected in the context of coming up of the new class of 'rural rich'. Edible oils, grain grinding 'chakkis' and manufacture of gur, khandasari, etc., seem to explain the rise in the number of units under major head 20-21—food products. The area under groundnut and sugar-cane cultivation and annual production have gone up considerably in the past decade and manufacturing units based on them are only a natural corollary.

19. The urban picture, although not highly satisfactory, cannot be said to be unencouraging. The number of units have gone up from 68,102 to 82,503, a total increase of 14,401 units reflecting a 21 percent growth-rate. Decrease in the number of units is very negligible under major heads 22—beverages, tobacco & its products, 23—cotton textiles and 29—leather, fur and its products (all below 10 percent); but there is substantial decline in the number of units under major heads 25—jute, hemp & mesta textiles and 37—transport equipment. As against 85 units in 1961, there are only 11 units in 1971 under major head—25. The two Indo-Pak. wars in the 1961-71 decade easily provide the answer to this enormous reduction in the number of units which is of the order of nearly 86 percent. Raw-jute was mainly coming from that part of Pakistan which is now Bangla Desh and closure of trade in the wake of the wars necessarily resulted in closure of smaller units. Under the major head 37—Transport equipment, the decline is so enormous that it gives an impression as if all the manufacturing units got wiped out in the decade 1961-71. The fall in numbers is to the tune of about 67 percent and 95 percent in rural areas and urban areas, respectively. As the major heads correspond fully, it became necessary to co-relate the minor heads and the answer became readily available. In the 1961 Census, there was no separate major head for repair units and such establishments occur specifically under major heads 31, 38 and 39 in that Census. In the major head 38—Transport equipment of 1961 Census, there are 1104 units in rural areas and 3843 units in urban areas dealing in repair work. If these units are excluded then the negative growth-rate gets converted into a positive growth-rate. It may be mentioned here that over 100 percent growth noticed in major-heads 38-39—other manufacturing and repairs is also not realistic in the sense that repair units are by and large clubbed at one place under major head 39 this time, (only certain types of repair units are included in major groups 35 and 36) whereas such units occur under major heads 31, 38 and 39 in the 1961 Census. Even in respect of those major-groups where no specific minor groups were provided for repair units, in case any repair unit was returned it was accounted for in the concerned major group. Such units, doing only repair work, were no-doubt few but all the same exact figures are not available. Comparability of data has suffered therefore to some extent. A more detailed reference to the resultant problems would be made in the final Chapter, as well as in the discussion on predominent major-groups.

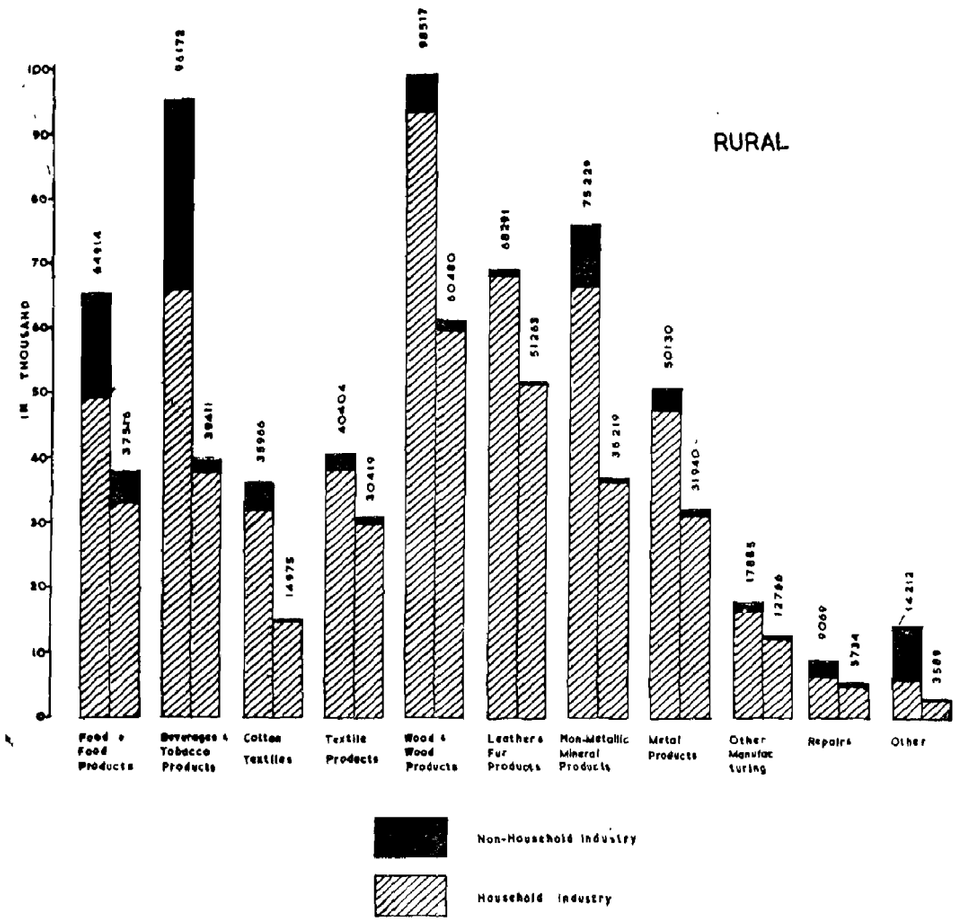

20. In the previous paragraphs, the growth of manufacturing establishments in the rural and urban areas has been discussed, indicating broadly the changes that have occurred under various major groups in the past decade. Before taking up discussion of dispersal of units in the predominant major groups, it would be worthwhile to see which major groups predominate in the 1961 and 1971 Censuses purely on the basis of number of units. The position that emerges is as under :—

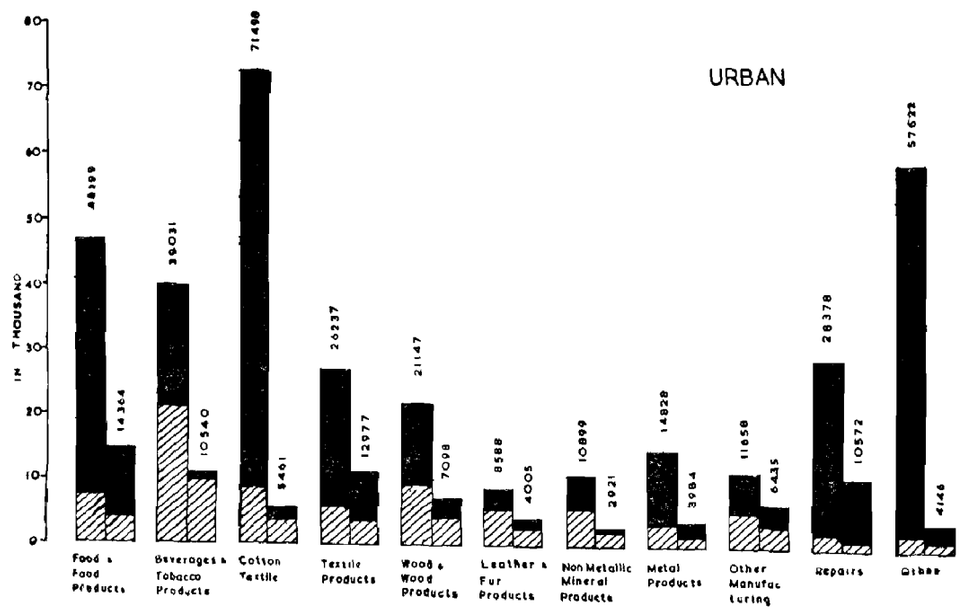

*Statement* 2

*Predominant Major groups in the* 1961 *and* 1971 *Censuses*

| 1961 | | | 1971 | | |
|---|---|---|---|---|---|
| Major group | | No. of units | Major group | | No. of units |
| 22— | Beverages, tobacco & its products | 71,757 | 27— | Wood & wood products | 67,578 |
| 27— | Wood & wood products | 63,108 | 29— | Leather & fur & its products | 55,268 |
| 29— | Leather & fur & its products | 62,100 | 20—21 | Food products | 51,880 |
| 33—34 | Metal products | 39,484 | 22— | Beverages, tobacco & its products | 49,951 |
| 20—21 | Food products | 37,159 | 26— | Textile products | 43,396 |
| 32— | Non-metallic mineral products | 32,950 | 32— | Non-metallic mineral products | 39,140 |
| 26— | Textile products | 28,165 | 33—34 | Metal products | 36,043 |
| 23— | Cotton textiles | 27,064 | 38—39 | Other manufacturing & repairs | 35,507 |
| 38—39 | Other manufacturing & repairs | 23,135 | 23— | Cotton textiles | 20,437 |

## NUMBER OF MANUFACTURING ESTABLISHMENTS AND PERSONS EMPLOYED BY HOUSEHOLD AND NON-HOUSEHOLD INDUSTRY

NOTE — The bar on the left indicates the no of persons while the bar on the right indicates the no of units

21. It would be apparent from the above statement that the predominant major groups have inter-changed their ranks except major group 32 non-metallic mineral products which continues to be at number six in both the Censuses. In a State with a very large area under forests (about 33 percent.), the pride of place by way of largest number of units is naturally with a major group dealing with forest produce. It was 'tendu leaf' in 1961; it is wood as such this time.

22. Having determined the major groups with sizeable number of manufacturing units, it would now be in order to deal with the dispersal pattern of the units in each major group.

23. **Major Group 27—Wood and Wood products.**—The total number of units returned this time are 67,578 as against 63,108 recorded in the 1961 Census. The net increase comes to 4,470 units giving a growth-rate of seven percent. The first ten districts in terms of number of units are as follows :—

TABLE 6

| Name of the district | Total | Non-HHI | H.H.I |
|---|---|---|---|
| (1) | (2) | (3) | (4) |
| Chhatarpur . . . | 2928 | 42 | 2886 |
| Raipur . . . . | 2682 | 296 | 2386 |
| Ujjain . . . . | 2553 | 135 | 2418 |
| Rewa . . . . . | 2469 | 28 | 2441 |
| Jabalpur . . . . | 2457 | 285 | 2172 |
| Bilaspur . . . . | 2398 | 136 | 2262 |
| Guna . . . . . | 2392 | 130 | 2262 |
| Sidhi . . . . . | 2297 | . | 2293 |
| Tikamgarh . . . . | 2233 | 18 | 2215 |
| Sehore . . . . | 2159 | 253 | 1906 |

Four out of seven districts of Rewa division find a place in the first ten districts, while the other six divisions of the State are represented by one district each. Another point to be noted is that in the districts of Rewa division, the household sector relatively accounts for greater proportion of the total units. Although the break-up of the units into household and non-household is not available for 1961 data, we can have some comparative idea on the basis of total number of units in the districts. The first ten districts in the corresponding major group in the 1961 Census were as follows :—

TABLE 7

| Name of the district | Total | Rural | Urban |
|---|---|---|---|
| (1) | (2) | (3) | (4) |
| 1. Jabalpur . . . | 3183 | 2658 | 525 |
| 2. Chhatarpur . . . | 3107 | 2904 | 203 |
| 3. Tikamgarh . . . | 2195 | 2482 | 13 |
| 4. Sagar . . . | 2323 | 2065 | 258 |
| 5. Mandsaur . . . | 2298 | 1907 | 391 |
| 6. Bilaspur . . | 2212 | 2084 | 128 |
| 7. Ujjain . . . . | 2174 | 1928 | 246 |
| 8. Rewa . . . . | 2026 | 1997 | 29 |
| 9. Satna . . . . | 1932 | 1828 | 104 |
| 10. Damoh . . . | 1910 | 1790 | 120 |

It would be seen that in the list of first ten districts, six districts—Chhatarpur, Ujjain, Rewa, Jabalpur, Bilaspur and Tikamgarh—are common, of course, with changed rankings. The new entrants are Raipur, Guna, Sidhi and Sehore at the expense of Sagar, Mandsaur, Satna and Damoh. Another feature to be noticed is that both in 1961 and 1971, four districts of Rewa division find a place in the first ten districts, the only change being replacement of Satna by Sidhi.

24. The entry of Sehore and Raipur need not surprise anyone. The two districts had respectively occupied the twelfth and fourteenth rank in the 1961 Census and the 1961-71 decade witnessed much greater economic activity in these districts as a consequence of completion of the first phase of construction of the giant public sector projects—Bhilai Steel Plant and Heavy Electricals (I) Limited. It would not be out of place to mention here in passing that the impact of the Bhilai Steel Plant has been noticeable more in Raipur district than Durg district where it is located. As for Sehore district, apart from Heavy Electricals (I) Limited, the development of the Capital city of Bhopal has a lot to do with the springing up of new units. But the entry of Guna and Sidhi districts remains largely inexplainable. The number of units have almost doubled—from 1217 to 2392 in Guna district and 1417 to 2297 in Sidhi district. In the absence of details of units into minor groups, it is not possible to say anything about the nature and type of new units that may have come up. Manufacture of agricultural implements and baskets and broomsticks were the predominant minor groups in 1961 and perhaps have continued in the forefront.

25. Coming now to elimination of Sagar, Satna, Mandsaur and Damoh, the fall in total number of units is not very large. In fact, there is an increase of 59 units in Satna district, but the rank has gone down from ninth in 1961 to thirteenth this time. This is because whereas the tenth district had only 1910 units in 1961, there are now 2159 units. The decline in the number of units in Sagar, Mandsaur and Damoh ranges from 200 to 500 units and these districts now occupy the fourteenth, eighteenth and twentieth ranks, respectively. In other words, although they have lost their former ranks, units manufacturing wooden products still continue to occupy a fairly prominent position in the industrial economy of these districts.

26. Although there is no direct co-relation of area under forests and units manufacturing wooden products, it has to be noted that the forest area in the first ten districts is not negligible, except in Ujjain district. Curiously enough, this district finds a place among the first ten districts both in 1961 and 1971. The area under forests is as low as 0.03 percent., but still there were 2174 units in 1961; the figure this time is 2553 out of which 2418 are in the household sector. A study of minor group-wise break up of units returned in 1961 shows that apart from manufacture of agricultural implements, the other important minor group relates to making of hand fans and umbrellas from palm leaves. No reasons are forthcoming as to why such units occupy so prominent a place in this district.

27. The rural-urban composition of the 63,108 total units in this major group in 1961 was 57,678 in rural and 5,430 in the urban areas. The break up of 67,578 units returned this time is 60,480 in rural and 7,098 in urban areas. The growth of units in the urban areas has obviously been more

rapid. The following statement gives the comparative rural-urban picture of districts that are common in the list of first ten districts.

*Statement* 3

| Name of the district | 1961 | | | 1971 | | |
|---|---|---|---|---|---|---|
| | Total | Rural | Urban | Total | Rural | Urban |
| Chhatar-pur | 3107 (100.00) | 2904 (93.47) | 203 (6.53) | 2928 (100.00) | 2680 (91.53) | 248 (8.47) |
| Ujjain . | 2174 (100.00) | 1928 (88.68) | 246 (11.32) | 2553 (100.00) | 2137 (83.71) | 416 (16.29) |
| Rewa . | 2026 (100.00) | 1997 (98.57) | 29 (1.43) | 2469 (100.00) | 2312 (93.64) | 157 (6·36) |
| Jabalpur . | 3183 (100.00) | 2658 (83.51) | 525 (16.49) | 2457 (100.00) | 1980 (80·59) | 477 (19·41) |
| Bilaspur . | 2212 (100.00) | 2084 (94.21) | 128 (5.79) | 2398 (100.00) | 2244 (93.58) | 154 (6·42) |
| Tikamgarh | 2495 (100.00) | 2482 (99.48) | 13 (0.52) | 2233 (100.00) | 2148 (96.19) | 85 (3.81) |

28. It would be seen in the above statement that proportion of units in the urban areas has gone up in all the districts; as a matter of fact,, the number of units in the urban areas have gone up in Chhatarpur and Tikamgarh districts despite a fall in total number of units. Although part of the reason for this may be recognition of more places as urban this time, the phenomenon does indicate two things very clearly.—(i) that industrialisation and urbanisation go together; and (ii) the establishment of greater number of industrial units is not resulting in addition to the net income of the rural people.

29. A total of 119,664 persons are reported as working in the 67,578 manufacturing units in this major group. Apparently, the small units continue to predominate because the ratio of units to workers is 1:1.77. The 1961 and 1971 comparative picture may be seen in the following statement :—

*Statement* 4

| Sector | 1961 | | | 1971 | | |
|---|---|---|---|---|---|---|
| | 1 person | 2—9 persons | 10+ and non-reporting | 1 persons | 2—9 persons | 10+ and non-reporting |
| Rural . | 38,305 (66.4) | 19,294 (33.4) | 79 (0.2) | 33,871 (56.0) | 26,479 (43.8) | 130 (0.2) |
| Urban . | 1,908 (35.1) | 3,319 (61.2) | 203 (3.7) | 2,103 (29.6) | 4,739 (66.7) | 256 (3.7) |

That the size of the units is growing both in the rural and urban areas would be evident from the above statement. The percentage of one person units has gone down and that of 2—9 persons has gone up. The shift is to the extent of 10.4 percent in the rural areas and 5.5 percent in the urban areas. In terms of number of units, manufacturing establishments in the 2—9 persons category (medium units) have recorded a growth of about 40 percent. There is no doubt an increase in the number of large units, both in rural and urban areas, but their percentage to total number of units has not undergone any change in the 1961-71 decade. Here it may be clarified that whereas there are no non-reporting units in the 1961 figures due to imputation, there are 17 and 1 non-reporting units in the rural and urban areas, respectively, in the 1971 figures. However, even if we wholly exclude the above number of units from the 1971 figures, there has been a rise in the number of large establishments in this major-group.

30. In terms of total employment, the first ten districts are as under :—

TABLE 8

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh . . . | 119,664 (100.00) | 98,517 (100.00) | 21,147 (100.00) |
| 1. Raipur . . . . | 7,082 | 5,627 | 1,455 |
| 2. Jabalpur . . . | 5,406 | 3,334 | 2,072 |
| 3. Bilaspur . . . | 4,628 | 4,107 | 521 |
| 4. Ujjain . . . . | 4,475 | 3,274 | 1,201 |
| 5. Chhatarpur . . . | 4,320 | 3,818 | 502 |
| 6. Rewa . . . | 4,200 | 3,780 | 420 |
| 7. Hoshangabad . . | 4,077 | 3,127 | 950 |
| 8. Raigarh . . . | 3,930 | 3,760 | 170 |
| 9. Guna . . . . | 3,739 | 3,323 | 416 |
| 10. Durg . . . . | 3,541 | 2,643 | 898 |
| Total (1 to 10) . . . | 45,398 (37.94%) | 36,793 (37.35%) | 8,605 (40.69%) |

It would be seen that the ten districts account for more than one-third of the total employment in this major-group. Largest employment in the rural and urban areas is in Raipur and Jabalpur districts respectively.

31. In a situation in which the small units predominate, the normal expectation is that the first ten districts in terms of number of units and total employment would be identical. Seven districts—Raipur, Jabalpur, Bilaspur, Ujjain, Chhatarpur, Rewa and Guna are common. But whereas Sidhi, Tikamgarh and Sehore figure in the list based on number of units, they are replaced by Hoshangabad, Raigarh and Durg in the list based on total employment. The reasons are not far to seek. Sehore is eleventh in the list based on total employment and thus misses the placement by only one position. Sidhi and Tikamgarh are predominantly rural in character; persons employed in the urban sector are as low as 11 and 167, respectively, whereas in Hoshangabad and Durg the figures are as high as 950 and 898, respectively. As for Raigarh, its rank in the list based on number of units is eleventh and its case is thus similar to that of Sehore.

32. Units using electricity and other types of fuel power (liquid fuel, coal, wood, bagasse, etc.) have grown considerably in the decade 1961-71. This would be clear from the following statements :—

*Statement* 5(A)
1961

| Sector | Power | | | Non-power | Total |
|---|---|---|---|---|---|
| | Elec. | Others | Total | | |
| Rural . | 22 (N) | 106 (0.2) | 128 (0.2) | 57,550 (99.8) | 57,678 (100.00) |
| Urban . | 500 (9.2) | 125 (2.3) | 625 (11.5) | 4,805 (88.5) | 5,430 (100.00) |

*Statement* 5(*B*)
1971

| | | | | | |
|---|---|---|---|---|---|
| Rural . | 416 (0·7) | 261 (0.4) | 677 (1.1) | 59,803 (98.9) | 60,480 (100.00) |
| Urban . | 1,205 (17.0) | 45 (0.6) | 1,250 (17.6) | 5,848 (82.4) | 7,098 (100.00) |

It would be seen that increase in the number of units using all types of power is more than five-fold in the rural sector, and over 50 percent in the urban sector. The urban increase in terms of units is exactly double. If only electricity is taken into consideration, then the increase in terms of units is about nineteen times in the rural sector and slightly less than two-and-a-half times in the urban sector. The gains in the field of use of electricity and other fuel power may seemingly look impressive, in terms of percentage increases as well as number of units, but one cannot ignore the fact that there is an over-all increase in the number of manually operated units also. As against 57,550 units in rural areas and 4,805 units in urban areas in 1961, there are now 59,803 units in rural areas and 5,848 units in urban areas who do not use any kind of power.

33. A brief reference to the last ten districts in this major group, both in 1961 and 1971 in terms of number of units only, would not be out of place, in order to have an idea about the backward regions. The position is as under :—

*Statement* 6

| Sl. No. | 1961 Name of the district | T | R | U | 1971 Name of the district | T | R | U |
|---|---|---|---|---|---|---|---|---|
| 1. | Durg . | 984 | 811 | 173 | Narsimhapur . | 966 | 888 | 78 |
| 2. | Bhind . | 954 | 905 | 49 | Khargone . | 868 | 671 | 197 |
| 3. | Datia . | 833 | 774 | 59 | Raisen . | 791 | 763 | 28 |
| 4. | Bastar . | 798 | 771 | 27 | Dhar. . | 766 | 689 | 77 |
| 5. | Dhar . | 756 | 651 | 105 | Seoni . | 744 | 671 | 73 |
| 6. | Seoni . | 754 | 689 | 65 | Morena . | 724 | 633 | 91 |
| 7. | Khargone | 735 | 598 | 137 | Bhind . | 578 | 503 | 75 |
| 8. | Gwalior . | 658 | 496 | 162 | Gwalior . | 577 | 369 | 208 |
| 9. | Morena . | 515 | 463 | 52 | Datia . | 559 | 530 | 29 |
| 10. | Jhabua . | 381 | 302 | 79 | Jhabua . | 315 | 228 | 87 |

Eight of the ten districts are common; Durg and Bastar have moved up at the expense of Narsimhapur and Raisen. The location of public sector projects in Durg and Bastar districts in the 1961-71 decade must have necessarily stepped up the need for wooden items. Greater exploitation of forest resources appears to be another reason. The number of units have almost doubled; equally steep is the fall in the number of units in Narsimhapur and Raisen district. The following statement, giving number of units and rank in these four districts would make the position clear.

*Statement* 7

| Name of the District | 1961 No. of units | 1961 Rank | 1971 No. of units | 1971 Rank |
|---|---|---|---|---|
| Durg . . . | 884 | 35 | 1,565 | 23 |
| Bastar . . . | 798 | 37 | 1,436 | 25 |
| Narsimhapur . | 1,647 | 15 | 966 | 34 |
| Raisen . . | 1,317 | 24 | 791 | 36 |

34. The four northern most districts of the State—Morena, Bhind, Gwalior and Datia—all in Gwalior Division, continue to be in the last ten districts. This is not at all surprising. Area under forests is lowest in Gwalior Division and the dacoity menace, more pronounced in Gwalior Division, must be acting as a damper to establishment of units.

35. **Major Group 29—Leather & fur and its products.**— In this major group, the total number of units have gone down from 62,100 in 1961 to 55,268 in 1971. In other words, there has been a decline of 11.00 percent. This could be due to replacement of leather by goods made of canvass, plastic, rubber, etc., especially foot-wear. Further, it has to be noted that in 1961, repair units of leather goods were categorised alongwith the manufacturing units, while this time all types of repair units have been clubbed together under major group 39. The number of repair units of leather goods in 1961 were 1844 and if they are not taken into consideration then the net decline is of 4,988 units, or 8.28 percent. Another reason for decline in the number of units could be lesser availability of raw material as a result of fall in cattle-mortality. Although firm figures are not available, hospital deaths have gone down from 18,938 in 1961-62 to 4,826 in 1970-71.

36. The first ten districts in terms of number of units in this Census are as follows:—

TABLE 9

| Name of the district | Total | H.H.I. | Non-H.H.I. |
|---|---|---|---|
| Shahdol . . . . | 3,815 | 3,799 | 16 |
| Jabalpur . . . . | 3,194 | 3,156 | 38 |
| Sidhi . . . . . | 3,082 | 3,080 | 2 |
| Hoshangabad . . . | 2,795 | 2,767 | 28 |
| Durg . . . . . | 2,166 | 2,139 | 27 |
| Bilaspur . . . . | 2,058 | 2,035 | 23 |
| Shajapur . . . . | 1,791 | 1,770 | 21 |
| Dewas . . . . | 1,781 | 1,751 | 30 |
| Ujjain . . . . . | 1,743 | 1,669 | 74 |
| Chhatarpur . . . | 1,725 | 1,696 | 29 |

Six out of seven revenue divisions of the State get represented in the first ten districts; the only omission is Gwalior division. Another point to be noted is that Rewa division is represented by three of its seven districts, while Bhopal and Indore divisions are represented by two districts each. From the point of view of contiguity, Sidhi, Shahdol, Bilaspur, Durg and Jabalpur districts form one belt, with Shahdol as common link for Bilaspur-Durg and Jabalpur. The other contiguity is formed by Hoshangabad, Dewas, Ujjain and Shajapur districts. If only Narsimhapur district was available as a link between Jabalpur and Hoshangabad then there would have been a contiguous area representing nine of the first ten districts; the only isolated district among the first ten districts is Chhatarpur. Here it would not be out of place to mention that Narsimhapur was a part of Hoshangabad district upto 31st October 1956 and became a separate district on 1st November 1956. Further, the household sector is very predominent.

37. The first ten districts in terms of number of units in 1961 were as follows :—

TABLE 10

| Name of the district | Total | Rural | Urban |
|---|---|---|---|
| Jabalpur . . . . | 4,424 | 4,240 | 184 |
| Hoshangabad . . . | 3,017 | 2,856 | 161 |
| Chhatarpur . . . | 2,670 | 2,573 | 97 |
| Rajgarh . . . . | 2,440 | 2,360 | 80 |
| Shajapur . . . . | 2,324 | 2,206 | 118 |
| Sidhi . . . . . | 2,201 | 2,200 | 1 |
| Shahdol . . . . | 2,200 | 2,166 | 34 |
| Sehore . . . . | 2,110 | 1,912 | 198 |
| Dewas . . . . | 2,063 | 1,903 | 160 |
| Mandsaur . . . . | 2,060 | 1,727 | 333 |

Seven districts—Shahdol, Jabalpur, Sidhi, Hoshangabad, Shajapur, Dewas and Chhatarpur—are common in the list of first ten districts in 1961 and 1971. Durg, Bilaspur and Ujjain districts have come in this time, displacing Rajgarh, Sehore and Mandsaur. The exit of Rajgarh and Sehore districts, and entry of Ujjain district are easily explainable. Rajgarh and Sehore districts occupy the eleventh and thirteenth ranks, respectively, this time, whereas Ujjain was at fourteenth position in 1961. The movement in either direction is negligible. Entry of Durg and Bilaspur districts also need not come as a surprise. Apart from the fact that these districts were at the seventeenth and eighteenth position in 1961, the impetus for establishment of new units must have come from the large public sector projects located in these districts. Besides, the cattle population, as well as total population and composition of Scheduled Castes population, is very high in these districts. No explanation is readily forthcoming for the exit of Mandsaur district where the total number of units have gone down from 2060 in 1961 to 1338 this time. A study of minor-group-wise break-up of 2060 units of 1961 shows that the percentage of repair units (minor group 314 of 1961) was as high as 22.03; if we inflate 1338 units returned this time by the same percentage, the total number of units would come to 1633 giving the district the thirteenth rank. The only other district which had a very high percentage of repair units in 1961 was Rajgarh (23.85) which too has been displaced this time. Its rank would come to sixth if we inflate the 1702 units returned this time by the above percentage. High percentage of repair units, which could be due to non-availability of leather in adequate quantity for manufacturing purposes, is a phenomena peculiar to these two districts which are very near to each other (separated by small portion of Rajasthan State). The intervening district of Shajapur within the State had returned percentage of repair units as 11.66; elsewhere it was much below ten percent and the proportion was as low as 5 out of 1572 in Durg district and 23 out of 1539 in Bilaspur district, the two districts that have entered the list of first ten district this time.

38. The rural-urban break up of the 62,100 units returned in 1961 was 57,989 in the rural areas and 4,111 in the urban areas. In this Census, the 55,268 units in this major-group are divided into 51,263 units in the rural areas and 4,005 units in the urban areas. It is apparent that almost the entire decline of 6,832 units is in the rural areas, the share of urban areas being 106 units only. If we take into consideration the non-inclusion of repair units this time (see para. 35), then in fact the decline in the number of units is only 51 because a total of 55 repair units formed part of 4,111 units returned in urban areas in the 1961 Census. The rural-urban break up of units in the seven common districts is as under:—

*Statement* 8

| Name of the district | 1961 | | | 1971 | | |
|---|---|---|---|---|---|---|
| | T | R | U | T | R | U |
| Shahdol . | 2,200 (100·00) | 2,166 (98·45) | 34 (1·55) | 3,815 (100·00) | 3,703 (97·06) | 11 (2·94) |
| Jabalpur . | 4,424 (100·00) | 4,240 (95·84) | 184 (4·16) | 3,194 (100·00) | 3,106 (97·24) | 88 (2·76) |
| Sidhi . | 2,201 (100·00) | 2,200 (100·00) | 1 (N) | 3,082 (100·00) | 3,081 (100·00) | 1 (N) |
| Hoshangabad | 3,017 (100·00) | 2,856 (94·66) | 161 (5·34) | 2,795 (100·00) | 2,650 (94·81) | 145 (5·19) |
| Shajapur | 2,324 (100·00) | 2,206 (94·92) | 118 (5·08) | 1,791 (100·00) | 1,720 (96·04) | 71 (3·96) |
| Dewas . | 2,063 (100·00) | 1,903 (92·24) | 160 (7·76) | 1,781 (100·00) | 1,639 (92·03) | 142 (7·97) |
| Chhatarpur | 2,670 (100.00) | 2,573 (96·37) | 97 (3·63) | 1,725 (100·00) | 1,644 (95·30) | 81 (4·70) |

The proportion of urban units has gone up in four out of 7 districts. It continues to be negligible in Sidhi and has gone down in Jabalpur and Shajapur districts. No ready explanation is forthcoming for the relatively greater fall in the number of units in the urban areas of Jabalpur and Shajapur districts. All the same, the general pattern is bound to be preponderance of pure repair units in the urban areas vis-a-vis rural areas. In the context of separate major group for all types of repair units in this Census, the apparent fall in the number of units in comparison to the 1961 figures is, therefore, likely to be reflected more in the urban areas than rural areas. Similarly, no plausible reasons can be given for the phenomenal growth of leather units, in the face of over-all decline, in Shahdol and Sidhi districts. May be the coal-mine labour, due to the nature of work, perforce uses heavy leather shoes and chappals but this is only a conjecture.

39. The small units predominate in this major group also. A total of 76,879 persons only are employed in the 55,268 units. The ratio of units to persons works out to 1:1.39. The distribution of the total number of units into size classes of persons employed in the 1961 and 1971 Censuses is as under :—

*Statement 9*

| Sector | 1961 | | | 1971 | | |
|---|---|---|---|---|---|---|
| | 1 person | 2—9 persons | 10+ and non-reporting | 1 person | 2—9 persons | 10+ and non-reporting |
| Rural . | 48,212 | 9,749 | 28 | 37,821 | 13,397 | 45 |
| | (83.1) | (16.9) | (N) | (73.8) | (26.2) | (N) |
| Urban . | 2,229 | 1,849 | 33 | 1,635 | 2,344 | 26 |
| | (54.2) | (45.0) | (0.8) | (40.8) | (58.6) | (0.6) |

It would be seen that units in the size-class 2—9 persons have grown in the 1961-71 decade at the expense of the one-person units. The movement is to the extent of 9.3 percent in the rural areas and 13.6 percent in the urban areas. In terms of number of units, the medium size units have recorded an over-all growth-rate of over 35 percent, despite fall in the total number of units. Large units continue to be insignificant in number and what is surprising is that the growth-rate of medium and large units is higher in the rural areas than in the urban areas. As a matter of fact, the number of large units have gone down in the urban areas from 33 to 26, whereas there is an increase of 17 units in the rural areas. As stated in para. 25, there are non-reporting units in the figures of 1971 but the figures of 1961 indicate actual figures after imputation. In this major-group, there are 21 and 1 non-reporting units in the rural and urban areas, respectively. In other words, the growth of large units in the rural areas may not be all that spectacular because non-reporting units may be of any size-class. As for fall in the number of units in the urban areas, the explanation perhaps lies in the fact that shops of Bata and the like having a repair wing perhaps got included in the 1961 figures, but were either recorded as a retail trading establishment and/or as a repair unit in major group 39.

40. As regards total employment, the first ten districts are as under :

TABLE 11

| State/district (1) | Total (2) | Rural (3) | Urban (4) |
|---|---|---|---|
| Madhya Pradesh . . . | 76,879 | 68,291 | 8,588 |
| Shahdol . . . . | 4,636 | 4,493 | 143 |
| Hoshangabad . . . | 3,998 | 3,746 | 252 |
| Jabalpur . . . . | 3,736 | 3,604 | 132 |
| Durg . . . . | 3,503 | 3,333 | 170 |
| Sidhi . . . . . | 3,488 | 3,487 | 1 |
| Bilaspur . . . . | 3,233 | 3,101 | 132 |
| Dewas . . . . | 2,687 | 2,365 | 322 |
| Ujjain . . . . . | 2,490 | 1,822 | 668 |
| Shajapur . . . . | 2,414 | 2,262 | 152 |
| Rajgarh . . . . | 2,374 | 2,108 | 266 |
| Total (1 to 10) . . . | 32,559 (42.35) | 30,321 (44.40) | 2,238 (26.06) |

The above figures show that the first ten districts account for over 40 percent of total employment in this major-group. There is greater employment concentration in the rural areas where the percentage of the ten districts is nearly 45. There is even spread of employment in the urban areas because the ten districts have only 26.06 percent of total employment in the urban areas. Largest employment in the rural and urban areas is in Shahdol and Ujjain districts, respectively, so far as the above ten districts are concerned. Mandsaur district does not find a place in the first ten districts in terms of total employment, but has the highest urban employment figure of 797.

41. Nine of the first ten districts are common in the lists based on total number of units and total employment. Only Chhatarpur district which is in the first ten districts on the basis of total number of units is replaced by Rajgarh district in the list based on total employment. Obviously the size of the units is bigger in Rajgarh district, as would be clear from the following table ; even otherwise, Rajgarh district is at the eleventh position in terms of total number of units.

TABLE 12

| Name of the District | Rural | | Urban | |
|---|---|---|---|---|
| | No. of units | Persons employed | No. of units | Persons employed |
| Rajgarh . . | 1,567 | 2,108 | 135 | 266 |
| Chhatarpur . | 1,644 | 1,737 | 81 | 98 |

42. Electricity and other types of fuel power have not made any significant impact in this major group. The comparative 1961 and 1971 picture is as under :—

*Statement 10 (a)*

1961 Census

| Sector | Power | | | Non-power | Total |
|---|---|---|---|---|---|
| | Elec. | Others | Total | | |
| Rural . . . | .. | .. | .. | 57,989 (100·00) | 57,989 (100·00) |
| Urban . . . | 3 (0.1) | .. | 3 (0.1) | 4,108 (99.9) | 4,111 (100·00 |

*Statement 10 (b)*

1971 Census

| Sector | Power | | | Non-power | Total |
|---|---|---|---|---|---|
| | Elec. | Others | Total | | |
| Rural . . . | 8 (N) | 198 (0.4) | 206 (0.4) | 51,057 (99.6) | 51,263 (100.00) |
| Urban . . . | 10 (0.3) | 9 (0.2) | 19 (0.5) | 3,986 (99.5) | 4,005 (100·00 |

In terms of number of units, the gains made in the field of use of electricity and other fuel power may look impressive, because as against nil in 1961 there are now 206 units in the rural areas using electricity or other types of fuel power, primarily coal, wood, bagasse (194 out of 198 units). The figure in the urban areas has gone up from 3 to 19. But units using electricity are still very negligible and in terms of percentage 99.6 and 99.5 percent of units in rural and urban areas, respectively, continue to be manually operated.

43. The ten districts at the bottom of the list in this major-group in the 1961 and 1971 Censuses are as follows :—

*Statement* 11

| Sl. No. | 1961 Name of the district | T | R | U | 1971 Name of the district | T | R | U |
|---|---|---|---|---|---|---|---|---|
| 1. | Betul | 833 | 766 | 67 | Shivpuri | 662 | 614 | 48 |
| 2. | Surguja | 826 | 817 | 9 | Sagar | 618 | 533 | 85 |
| 3. | Balaghat | 681 | 658 | 23 | Vidisha | 533 | 331 | 202 |
| 4. | Jhabua | 410 | 340 | 70 | Jhabua | 406 | 345 | 61 |
| 5. | Datia | 285 | 172 | 113 | Morena | 212 | 82 | 130 |
| 6. | Bhind | 261 | 182 | 79 | Raigarh | 203 | 176 | 27 |
| 7. | Gwalior | 249 | 45 | 204 | Datia | 194 | 96 | 98 |
| 8. | Raigarh | 195 | 170 | 25 | Bhind | 170 | 83 | 87 |
| 9. | Morena | 155 | 110 | 36 | Gwalior | 164 | 17 | 147 |
| 10. | Bastar | 40 | 40 | .. | Bastar | 129 | 12 | 45 |

Seven of the ten districts are common in 1961 and 1971, all holding the last seven places from the thirtyfourth to the forty-third position. Betul, Surguja and Balaghat districts are no more in the last ten places, although Betul and Balaghat districts continue to be in the bottom half with the thirty-first and thirtieth rank, respectively. Surguja district has recorded a growth of about 60 percent in the number of units and has moved up to the twentieth place. As against 826 units in 1961, there are now 1329 units. The reason for this high growth seems to be the same as stated in respect of Shahdol and Sidhi districts in para 38, i.e., the coal mine labour prefers heavy leather shoes due to the nautre of their work. It is no doubt a fact that large-scale exploitation of the coal resources has been done in the 1961-71 decade in this district. In view of steep fall in the number of units in the 1961-71 decade, Shivpuri, Sagar and Vidisha districts are now in the last ten places. This would be clear from the following statement :—

*Statement* 12

| Name of the District | 1961 No. of units | 1961 Rank | 1971 No. of units | 1971 Rank |
|---|---|---|---|---|
| Shivpuri | 1,591 | 16 | 662 | 34 |
| Sagar | 1,466 | 20 | 618 | 35 |
| Vidisha | 1,238 | 27 | 533 | 36 |

No plausible reasons are forthcoming for the over hundred percent fall in the number of units in the above mentioned three districts. Absence of repair units in the 1971 figures cannot be the cause because it is common to all the districts. Even otherwise, manufacture of shoes, etc., and flaying units were over 99 percent in 1961.

44. In view of a big government leather factory at Gwalior, its presence in the list of last ten districts, both in 1961 and 1971, may come as a surprise to many. This is on account of the fact that majority of units in the Gwalior district are in the urban areas, especially Gwalior city, and are large in *size*. This would be evident when one examines the position from the point of view of employment. The district, with 596 persons employed ranks third after Mandsaur and Ujjain districts in urban employment, but the ratio of units to persons employed is highest in the State. This would be clear from the following relative position of the first three districts.

TABLE 13

1971 CENSUS URBAN

| Name of the district | No. of units | Persons employed | Ratio |
|---|---|---|---|
| Mandsaur | 355 | 797 | 1:2·25 |
| Ujjain | 287 | 668 | 1:2·33 |
| Gwalior | 147 | 596 | 1:4·05 |

*Major-group* 20-21: *Manufacture of Food products* :—

45. The number of units in this major-group have gone up from 47,159 in 1961 to 51,880 in 1971. The growth-rate thus works out to 10.01 percent.

46. The first ten districts in this major group this time are as follows :—

TABLE 14

| Name of the district (1) | Total (2) | H.H.I. (3) | Non-H.H.I. (4) |
|---|---|---|---|
| Raipur | 4,893 | 4,264 | 629 |
| Bilaspur | 3,550 | 3,116 | 434 |
| Raigarh | 2,838 | 2,713 | 125 |
| Durg | 2,233 | 1,926 | 307 |
| Balaghat | 1,937 | 1,673 | 264 |
| Sidhi | 1,878 | 1,848 | 30 |
| Jabalpur | 1,605 | 858 | 747 |
| Mandsaur | 1,571 | 659 | 912 |
| Gwalior | 1,391 | 294 | 1,097 |
| Shahdol | 1,390 | 1,182 | 208 |

47. Food grains are basic products and it is, therefore, not surprising to find six of the seven revenue divisions represented in the first ten districts. The only missing division is Bhopal, probably due to the population and cultivated area of the districts in this division being less than that of

nine of the first ten districts. As for Gwalior district, its predominant urban character seems to be the cause of its entry in the first ten districts. Another point to be noted is that in this major group the composition of household or non-household sector in the first ten districts follows generally their rural-urban patterns

48. The first ten districts in terms of number of units in the 1961 Census were as follows :—

TABLE 15

| Name of the district | Total | Rural | Urban |
|---|---|---|---|
| Raipur . . . . . | 3,818 | 3,187 | 631 |
| Raigarh . . . . . | 3,018 | 2,863 | 155 |
| Balaghat . . . . . | 1,886 | 1,749 | 137 |
| Jabalpur . . . . . | 1,641 | 834 | 807 |
| Chhindwara . . . . . | 1,637 | 1,327 | 310 |
| Bilaspur . . . . . | 1,623 | 1,146 | 477 |
| Sidhi . . . . . | 1,558 | 1,528 | 30 |
| Mandsaur . . . . . | 1,554 | 924 | 630 |
| Chhatarpur . . . . | 1,527 | 1,336 | 191 |
| Rewa . . . . . | 1,492 | 1,414 | 78 |

Seven districts—Raipur, Bilaspur, Raigarh, Balaghat, Sidhi, Jabalpur and Mandsaur—are common in 1961 and 1971 lists. Chhindwara, Chhatarpur and Rewa districts have been replaced in this Census by Drug, Gwalior and Shahdol. The rise or fall in the number of units in five of the above mentioned six districts ranges from 200 to below 500. The districts entering this time in the list of first ten districts were within the first twenty in 1961 and similarly the districts not finding a place in the first ten districts this time are still within the first twenty. In other words, the movement either way is negligible. Only in Durg district the number of units have gone up from 1451 in 1961 to 2233 this time. The impact of Bhilai Steel Plant on the demand for food products is clearly visible. Even otherwise Durg district was at the eleventh position in 1961 and its entry this time need not surprise anyone.

49. The rural-urban break-up of the units in this major-group was 34,727 in rural and 12,432 in urban in 1961, whereas it is 37,516 in rural and 14,364 in urban this time. The growth-rates thus work out to 8.03 percent in rural and 15.54 percent in urban. The rural-urban position in the seven common districts of 1961 and 1971 Censuses is as under :—

*Statement* 13

| Name of the district | 1961 | | | 1971 | | |
|---|---|---|---|---|---|---|
| | Total | Rural | Urban | Total | Rural | Urban |
| Raipur . | 3,818 | 3,187 | 631 | 4,893 | 4,321 | 572 |
| | (100·00) | (83.47) | (16.53) | (100·00) | (88·31) | (11·69) |
| Bilaspur . | 1,623 | 1,146 | 477 | 3,550 | 3,135 | 415 |
| | (100.00) | (70.61) | (29.39) | (100·00) | (88·31) | (11·69) |
| Raigarh . | 3,018 | 2,863 | 155 | 2,838 | 2,737 | 101 |
| | (100.00) | (94.86) | (5.14) | (100.00) | (96·44) | (3·56) |
| Balaghat . | 1,886 | 1,749 | 137 | 1,937 | 1,794 | 143 |
| | (100.00) | (92.74) | (7.26) | (100.00) | (92.62) | (7·38) |
| Sidhi . | 1,558 | 1,528 | 30 | 1,878 | 1,841 | 37 |
| | (100.00) | (98.07) | (1.93) | (100·00) | (98·03) | (1·97) |
| Jabalpur . | 1,641 | 834 | 807 | 1,605 | 742 | 863 |
| | (100.00) | (50.82) | (49.18) | (100.00) | (46·23) | (53·77) |
| Mandsaur | 1,554 | 924 | 630 | 1,571 | 922 | 649 |
| | (100.00) | (59.46) | (40.54) | (100·00) | (58·69) | (41·31) |

The growth of units is more or less evenly divided between the rural and urban areas so far as the above seven districts are concerned. There is faster growth in the rural areas of Raipur, Bilaspur and Raigarh districts, while in Balaghat, Sidhi, Jabalpur and Mandsaur districts, the growth rate is higher in the urban areas. The higher growth-rate in the rural areas of the two Chhattisgarh districts—Raipur and Bilaspur—is easily explainable. Indroduction of improved varieties of paddy and greater use of chemical fertilisers has resulted in pushing up the production of paddy in these two districts, which are parts of the rice bowl in the State, by about 21 percent and location of units in the countryside for manufacture of 'poha' and 'murmura' is understandable. But what is not readily explainable is the fall in the number of units in the urban areas of these two districts despite sizeable rise in the number of units. Similarly, the fall in the number of units in Raigarh district, both in the rural and urban areas, is not easily understandable.

50. Although the per unit average employment is higher in this major-group than in major-groups 27 and 29, the small units still seem to be slightly more predominent because the total employment is 111,113 persons in 51,880 units. The ratio of units to persons employed thus comes to 1 : 2.14 In the following statement may be seen the comparative picture of size of units in the 1961 and 1971 Censuses :

*Statement* 14

| Sector | 1961 | | | 1971 | | |
|---|---|---|---|---|---|---|
| | 1 person | 2—9 persons | 10+ and non-reporting | 1 person | 2—9 persons | 10+ and non-reporting |
| Rural . | 23,174 | 11,469 | 84 | 20,429 | 16,855 | 232 |
| | (66.7) | (33.00) | (0.3) | (54.5) | (44.4) | (1.1) |
| Urban . | 4,878 | 7,195 | 359 | 5,528 | 8,281 | 555 |
| | (39.2) | (57.9) | (2.9) | (38.5) | (57.6) | (3.9) |

It would be seen in the above statement that gradually one-person units are giving place to units in the size-class 2-9 persons. The 1961 difference of 9,388 units has got reduced to only 821 units this time. The shift in the rural areas is of the order of about 12 percent, while in the urban areas it is of only 0.7 percent and that too in favour of large units. This is because units in the size-class 2-9 persons have been predominent right from 1961. In terms of number of units, there is an increase of about 50 percent in the size-class 2—9 persons and of over hundred percent in the size-class 10+, even after reducing the 1971

figure by 30 which are the non-reporting units, in the rural areas. Expectedly, the increase is greater in the size-class 10+ than 2-9 persons in the urban areas; the respective percentage increases in terms of number of units comes to about 50 and 15. Obviously, economy of scale is very much in evidence in this major group.

51. From the point of view of total employment, the first ten districts in this major group are as follows :—

TABLE 16

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh . . . | 111,113 | 64,914 | 46,199 |
| 1. Raipur . . . | 12,300 | 8,121 | 4,179 |
| 2. Bilaspur . . . | 7,945 | 6,363 | 1,582 |
| 3. Raigarh . . . | 5,473 | 4,846 | 627 |
| 4. Indore . . . . | 4,994 | 827 | 4,167 |
| 5. Gwalior . . . | 4,943 | 562 | 4,381 |
| 6. Durg . . . . | 4,730 | 3,020 | 1,710 |
| 7. Balaghat . . . | 4,128 | 3,698 | 520 |
| 8. Mandsaur . . . | 3,724 | 2,383 | 1,341 |
| 9. Ratlam . . . | 3,560 | 664 | 2,896 |
| 10. Sehore . . . . | 3,545 | 832 | 2,714 |
| Total (1 to 10) . . . | 55,432 | 31,316 | 24,117 |
| | (49.89) | (48.24) | (52.20) |

The first ten districts account for about 50 percent of the total employment, both in the rural and urban areas. The highest employment in the rural and urban areas is in Raipur and Gwalior districts, respectively. The rural-urban employment pattern more or less follows the known economic trends of the districts.

52. A comparison of the first ten districts in terms of number of units and total employment shows that seven districts Raipur, Bilaspur, Raigarh, Durg, Balaghat, Mandsaur and Gwalior—are common. Sidhi, Shahdol and Jabalpur districts, which are there in the list based on number of units, get replaced by Indore, Ratlam and Sehore in the list prepared on the basis of total employment. Jabalpur and Sidhi districts are eleventh and thirteenth, respectively, in terms of total employment, whereas Indore district is twelfth in terms of number of units. Their exclusion in one or the other list is thus marginal only. Ratlam district is urban in character with medium to large size units in the urban areas. Although ninth in terms of units in the urban areas, it occupies the fourth position in terms of employment in the urban areas. The unit-employment ratio is next only to Raipur district, ahead of Gwalior and Indore districts, as would be clear from the following :—

TABLE 17

1971 Census Urban

| Name of the district | No. of units | Total employment | Ratio |
|---|---|---|---|
| Raipur. . . . . | 572 | 4,179 | 1 :7.3 |
| Ratlam . . . . . | 510 | 2,896 | 1 :5.7 |
| Indore . . . . . | 921 | 4,167 | 1 :4.5 |
| Gwalior . . . . . | 1,094 | 4,381 | 1 :4.0 |

Food processing units and employment in them has some relation to total population and here Shahdol and Sehore districts occupy the eleventh and ninth positions, respectively. Therefore, their inclusion need not surprise anyone. But no definite reasons are forthcoming for their exclusion in terms of employment and units ,respectively. They occupy the seventeenth and eighteenth position in the list in which they are not in the first ten districts.

53. There is a phenomenal increase in the number of units making use of electricity and other types of fuel power during the 1961-71 decade, as would be evident from the following statements :—

*Statement* 15 (*A*)

1961 CENSUS

| Sector | Power | | | Non-power | Total |
|---|---|---|---|---|---|
| | Elec. | Others | Total | | |
| Rural . | 340 | 5,978 | 6,318 | 28,409 | 34,727 |
| | (1.0) | (17.2) | (18.2) | (81.8) | (100.00) |
| Urban. | 2,709 | 1,281 | 3,990 | 8,442 | 12,432 |
| | (21.8) | (10.3) | (32.1) | (67.9) | (100.00) |

*Statement* 15(*B*)

1961 Census

| | | | | | |
|---|---|---|---|---|---|
| Rural . | 4,858 | 31,744 | 36,602 | 914 | 37,516 |
| | (12.9) | (84.7) | (97.6) | (2.4) | (100.00) |
| Urban . | 7,363 | 6,172 | 13,535 | 829 | 14,364 |
| | (51.3) | (42.9) | (94.2) | (5.8) | (100.00) |

In terms of percentages, the increase in the use of electricity and other fuel power is more than five fold in the rural areas and a little below three times in the urban areas; if the number of units are taken into account, the increase is slightly less than six times in the rural areas and over four times in the urban areas. Hardly any units were recorded as using coal, wood, bagasse, or in the category of 'Other power', in the 1961 Census, wheras this time the above referred two categories account for 25,172 (67.2 per cent) units in the rural areas and 6,051 (42.1 percent) units in the urban areas. It is obvious that the phenomenal rise noticed is due to the above mentioned reason; it is possible that there was some error in classification of units in the 1961 Census.

54. An interesting feature in the matter of use of electricity and other fuel power is that the percentage of units is higher in the rural areas than in the urban areas. This is not on account of electricity as such, but because of much greater use of liquid fuel and 'other power' in the rural areas.

55. The last ten districts in this major-group in the 1961 and 1971 Censuses have been as under :—

*Statement* 16

| Sl. No. | 1961 Name of the district | T | R | U | 1971 Name of the District | T | R | U |
|---|---|---|---|---|---|---|---|---|
| 1. | Panna . | 634 | 545 | 89 | Vidisha | 666 | 352 | 314 |
| 2. | Damoh. | 568 | 436 | 132 | Dewas . | 639 | 384 | 255 |
| 3. | Vidisha. | 526 | 313 | 213 | Narsimhapur | 573 | 381 | 192 |

*Statement* 16—*concld.*

| S. No. | 1951 Name of the district | T | R | U | 1971 Name of the district | T | R | U |
|---|---|---|---|---|---|---|---|---|
| 4 | Mandla | 521 | 399 | 122 | Raisen | 550 | 488 | 62 |
| 5 | Guna | 494 | 287 | 207 | Panna | 528 | 377 | 151 |
| 6 | Datia | 471 | 336 | 135 | Bastar | 514 | 421 | 93 |
| 7 | Raisen | 456 | 371 | 85 | Surguja | 478 | 358 | 120 |
| 8 | Jhabua | 455 | 222 | 233 | Mandla | 454 | 377 | 77 |
| 9 | Bastar | 277 | 215 | 62 | Datia | 402 | 251 | 151 |
| 10 | Surguja | 270 | 207 | 63 | Jhabua | 368 | 178 | 190 |

There is hardly any change in the decade so far as backward districts in this major-group are concerned. Eight of the ten districts are common, and although Damoh and Guna districts have moved up at the expense of Dewas and Narsimhapur districts the relative position of the four districts in the two Censuses has not been very different as would be evident from the following :—

*Statement* 17

1971 Census

| Name of the district | 1961 No. of units | 1961 Rank | 1971 No. of units | 1971 Rank |
|---|---|---|---|---|
| Damoh | 568 | 35 | 667 | 33 |
| Guna | 494 | 38 | 696 | 32 |
| Narsimhapur | 714 | 30 | 573 | 36 |
| Dewas | 640 | 33 | 639 | 35 |

The rise or fall in the number of units and/or rank is negligible. And since food-grains and food processing units have got to be widely dispersed, we find all the revenue divisions of the State represented in the last ten districts. In other words, no particular region can be called prosperous or backward in this major-group.

**Major-Group 22—Beverages, tobacco and its products :—**

56. This major group has witnessed the biggest decline in the number of units in the 1961-71 decade. From 71,757 units in 1961, there are now only 49,951 units. In other words, the decline has been of the order of 30.4 percent. As stated in para 2, nationalisation of the 'tendu leaf' trade seems to have resulted in the closure of a large number of household units in the rural areas. The first ten districts in this major group are as under :—

TABLE 18

| State/District | Total | Non-H.H.I. | H.H.I. |
|---|---|---|---|
| Madhya Pradesh | 49,951 | 2,688 | 47,263 |
| 1. Jabalpur | 19,620 | 235 | 19,385 |
| 2. Sagar | 10,352 | 775 | 9,577 |
| 3. Damoh | 6,883 | 272 | 6,611 |
| 4. Balaghat | 4,047 | 113 | 3,934 |
| 5. Satna | 2,034 | 294 | 1,740 |
| 6. Raipur | 1,178 | 99 | 1,079 |
| 7. Durg | 1,102 | 42 | 1,060 |
| 8. Guna | 958 | 42 | 916 |
| 9. Bilaspur | 782 | 83 | 699 |
| 10. Rewa | 542 | 20 | 522 |
| Total (1 to 10) | 47,498 (95.09) | 1,975 (73.47) | 45,523 (96.32) |

Although five of the seven divisions are represented in the first ten districts, the concentration of units in this major group in certain districts would be obvious from the above table. The first ten districts account for 95.09 percent of the total units and the first five for as many as 85.96 percent of the total units. The dispersal of the units is in two patches of contiguous districts, the one covering the districts of Guna, Sagar, Damoh, Jabalpur, Satna and Rewa and the other the districts of Balaghat, Durg, Raipur and Bilaspur. Availability of raw-material and tobacco chewing habits of the people appear to be the two guiding considerations for the location of the units in the above mentioned ten districts. Another point to be noted is that bidi-rolling is a family enterprise in the rural areas and this explains the predominance of household units which account for 95.88 percent of the total units.

57. The first ten districts in the 1961 Census were as follows :—

TABLE 19

| Name of the district | Total | Rural | Urban |
|---|---|---|---|
| 1. Sagar | 35,439 | 27,796 | 7,643 |
| 2. Jabalpur | 25,097 | 23,726 | 1,371 |
| 3. Damoh | 6,763 | 6,254 | 509 |
| 4. Raisen | 996 | 220 | 776 |
| 5. Satna | 450 | 368 | 82 |
| 6. Balaghat | 422 | 403 | 19 |
| 7. Rewa | 363 | 306 | 57 |
| 8. Durg | 275 | 196 | 79 |
| 9. Raipur | 239 | 155 | 84 |
| 10. Bilaspur | 230 | 118 | 112 |

58. A comparison of the first ten districts in the 1961 and 1971 Censuses makes an interesting study. Nine out of ten districts are common. The only difference is replacement of Raisen districts by Guna district this time. Guna district was seventeenth in the 1961 Census, while Raisen dis-

trict is twenty-fifth this time. The rise and fall in the number of units in these two districts is very steep as would be obvious from the following statement.

*Statement* 18

| District | 1961 | | 1971 | |
|---|---|---|---|---|
| | No. of units | Rank | No. of units | Rank |
| Raisen . . | 996 | 4 | 45 | 25 |
| Guna . . . | 74 | 17 | 958 | 8 |

Both the districts adjoin Sagar district and no plausible reasons are forthcoming for their reverse positions. As a matter of fact, even in the fact of an over-all decrease in the total number of units, especially heavy in Sagar and Jabalpur districts, there has been a rise in the total number of units in Damoh, Balaghat, Satna, Raipur, Durg, Bilaspur and Rewa district. The rise varies from nearly fifty percent in Rewa district to about one thousand percent in Balaghat district. It appears that whereas the fall in the total number of units in this major group is attributable to difficulties in the procurement of raw-material consequent to nationalisation of the 'tendu leaf' trade, the wider dispersal of the existing units seems to be on account of (i) depletion of good quality leaf in Sagar and Jabalpur districts; and (ii) more even exploitation of available leaf in the scheme of nationalisation. Shri Chintaman Rao of Gondia, a big bidi magnate working in Sagar and Balaghat districts, also appears to have shifted a sizeable part of his trade from Sagar to Balaghat district, which adjoins Gondia, during the 1961-71 decade on operational and personal considerations and this may partly explain the steep fall and rise in the total number of units in Sagar and Balaghat districts.

59. The rural-urban composition of the 71,757 units in 1961 was 60,352 in the rural areas and 11,405 in the urban areas. The break up of the existing 49,951 units is 39,411 units in the rural areas and 10,540 units in the urban areas. It would be apparent that bulk of the fall in the total number of units is in the rural areas. The following statement would make the position clear.

*Statement* 19

| District | 1961 | | | 1971 | | |
|---|---|---|---|---|---|---|
| | Total | Rural | Urban | Total | Rural | Urban |
| Jabalpur . | 25,097 (100.00) | 23,726 (94.54) | 1,371 (5.46) | 19,620 (100.00) | 18,923 (96.45) | 697 (3.55) |
| Sagar . | 35,439 (100.00) | 27,796 (78.43) | 7,643 (21.57) | 10,352 (100.00) | 6,916 (66.81) | 3,436 (33.19) |
| Damoh . | 6,763 (100.00) | 6,254 (92.47) | 509 (7.53) | 6,883 (100.00) | 4,761 (69.17) | 2,122 (30.83) |
| Balaghat . | 422 (100.00) | 403 (95.50) | 19 (4.50) | 4,047 (100.00) | 3,945 (97.48) | 102 (2.52) |
| Satna . | 450 (100.00) | 368 (81.78) | 82 (18.22) | 2,034 (100.00) | 1,146 (56.34) | 888 (43.66) |
| Raipur . | 239 (100.00) | 155 (64.85) | 84 (35.15) | 1,178 (100.00) | 488 (41.43) | 690 (58.57) |
| Durg . | 275 (100.00) | 196 (71.27) | 79 (28.73) | 1,102 (100.00) | 837 (75.95) | 265 (24.05) |
| Bilaspur . | 230 (100.00) | 118 (51.30) | 112 (48.70) | 782 (100.00) | 642 (82.10) | 140 (17.90) |
| Rewa . | 363 (100.00) | 306 (84.30) | 57 (15.70) | 542 (100.00) | 448 (82.66) | 94 (17.34) |

The proportion of urban units has gone up in Sagar, Damoh, Satna, Raipur and Rewa districts, while it has gone down in Jabalpur, Balaghat, Durg and Bilaspur districts, although the number of units in the urban areas of three latter districts have gone up.

60. A total of 135,203 persons are reported to be working in the 49,951 units. The ratio of units to persons employed comes to 1:2.7. Rural employment is to the extent of 96,172 persons in 39,411 units in 10,540 urban units there are 39,031 persons working. Obviously the size of the urban units is bigger. The following statement gives the size of the units in the rural and urban areas in the 1961 and 1971 Censuses :—

*Statement* 20

| Sector | 1961 | | | 1971 | | |
|---|---|---|---|---|---|---|
| | 1 person | 2—9 persons | 10+ and non-reporting | 1 person | 2—9 persons | 10+ and non-reporting |
| Rural . | 32,903 (54.5) | 26,528 (44.0) | 921 (1.5) | 18,102 (45.9) | 20,116 (51.2) | 1,143 (2.9) |
| Urban . | 4,139 (36.3) | 6,877 (60.3) | 389 (3.4) | 3,167 (30.1) | 6,798 (64.5) | 575 (5.4) |

61. The growth in the size of the units in the past decade in this major-group would be evident from the above statement. There are only 6 and 5 units in the rural and urban areas, respectively, which are non-reporting this time and, therefore, the above picture is a true index of growth. In the rural area, one person units have declined by 8.6 percent; it is 6.21 percent in the urban area. The percentage gains are in the size class 2—9 persons as well as 10+. What is really significant is that despite an over-all decrease in the total number of units, the number of units in the size-class 10+ have gone upon rural as well as urban areas. If the non-reporting units are not taken into account, then the increase in the number of units in the size-class 10+ is 216 units in rural areas and 181 units in urban areas. In terms of percentages, the above increases work out to 23.45 percent and 46.53 percent, respectively.

62. In terms of total employment, the first ten districts in this major-group are as under :—

TABLE 20

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh . . . | 135,203 | 96,172 | 39,031 |
| 1. Jabalpur . . . | 37,783 | 33,205 | 4,578 |
| 2. Sagar . . . . | 31,666 | 21,427 | 10,239 |
| 3. Damoh . . . | 16,794 | 10,980 | 5,814 |
| 4. Balaghat . . . | 11,940 | 11,556 | 384 |
| 5. Satna . . . . | 9,714 | 6,542 | 3,172 |
| 6. Raipur . . . . | 3,714 | 1,685 | 2,029 |
| 7. Durg . . . . | 2,995 | 1,978 | 1,017 |
| 8. Bilaspur . . . | 2,640 | 1,874 | 766 |
| 9. Guna . . . . | 2,477 | 220 | 2,257 |
| 10. Raigarh . . . | 1,736 | 1,426 | 310 |
| Total (1 to 10) . . | 121,459 (89 83) | 90,893 (94.51) | 30,566 (78.31) |

The location of bidi-rolling units in certain specified districts would be obvious from the above table also. Bulk of the rural and urban employment is in the first ten districts.

63. A comparison of first ten districts in terms of units and from the point of view of total employment shows that the first nine districts are common. At the tenth place, Rewa district is in the list in terms of units and Raigarh district in the list on the basis of total employment. Obviously, the size of the units is larger in Raigarh district, as would be clear from the following :—

TABLE 21

1971 *Census*

| District | No. of units | Total employment | Ratio |
|---|---|---|---|
| Raigarh . . . . . | 129 | 1,736 | 1:13.5 |
| Rewa . . . . . | 542 | 1,251 | 1:2.3 |

As a matter of fact, the unit-employment ratio is the second highest in Raigarh district in the State, primarily because of predominence of units in the non-household sector employing on an average over 18 persons in the rural areas and over 11 persons in the urban areas. The highest unit-employment ratio in the non-household sector, as well as in rural and urban areas separately, is surprisingly in Indore district which does not figure as one of the first ten districts either in terms of units, or in terms of total employment. Obviously, it is the household sector with low unit-employment ratio which is predominent in the first nine districts, whereas large-sized units in the non-household sector have pushed up the unit-employment ratio in Indore and Raigarh districts.

64. There is hardly any change in the decade in the matter of use of electricity and other fuel power in this major group. This is hardly surprising because bidi-rolling is essentially a manual process. The following statements would make the position clear.

*Statement* 21 (A)

1961 *Census*

| Sector | Power | | | Non-power | Total |
|---|---|---|---|---|---|
| | Elec. | Others | Total | | |
| Rural . | 3 | 1 | 4 | 60,348 | 60,352 |
| | (N) | (N) | (N) | (100.00) | (100.00) |
| Urban . | 111 | 37 | 148 | 11,257 | 11,405 |
| | (1.0) | (0.3) | (1.3) | (98.7) | (100.00) |

*Statement* 21 (B)

1971 *Census*

| Sector | Power | | | Non-power | Total |
|---|---|---|---|---|---|
| | Elec. | Others | Total | | |
| Rural . | 9 | 493 | 502 | 38,909 | 39,411 |
| | (N) | (1.3) | (1.3) | (98.7) | (100.00) |
| Urban . | 70 | 40 | 110 | 10,430 | 10,540 |
| | (0.6) | (0.4) | (1.00) | (99.00) | (100.00) |

In terms of precentages, there is hardly any progress—only 1.3 per cent in the rural areas. But in terms of number, the shift is significant in the rural areas. Despite a fall in the total number of units by as much as 20,941 units, the number of units using electricity and other fuel power (mostly coal, wood, bagasse) have gone up from 4 in 1961 to 502 this time.

65. There are very few units in the remaining 33 districts, but all the same identification of the last ten districts in terms of number of units would not be meaningless. The compartive 1961 and 1971 position may be seen in the following statement :—

*Statement* 22

| | District | 1961 T | 1961 R | 1961 U | District | 1971 T | 1971 R | 1971 U |
|---|---|---|---|---|---|---|---|---|
| 1. | Chhindwara | 15 | 4 | 11 | Ujjain . . | 17 | 1 | 16 |
| | Ratlam . | 15 | .. | 15 | Chhindwara . | 15 | 4 | 11 |
| 2. | Seoni . . | 9 | 5 | 4 | Dewas . . | 13 | 7 | 6 |
| 3. | Tikamgarh . | 8 | 5 | 3 | Shivpuri . | 11 | 9 | 2 |
| 4. | Shivpuri . | 8 | 6 | 2 | Rajgarh. . | 10 | 1 | 9 |
| 5. | Betul . . | 7 | 3 | 4 | Jhabua . . | 8 | 2 | 6 |
| 6. | Dhar . . | 7 | .. | 7 | Dhar . . | 7 | 2 | 5 |
| 7. | Morena . | 5 | 1 | 4 | Seoni . . | 5 | 1 | 4 |
| 8. | Shajapur . | 4 | 3 | 1 | Shajapur . | 3 | .. | 3 |
| 9. | Jhabua . | 3 | .. | 3 | Bhind . . | 2 | 1 | 1 |
| 10. | Bhind . . | 3 | 1 | 2 | | | | |

As the number of units were identical in Chhindwara and Ratlam districts in 1961, there are eleven districts in column (1). Seven districts are common. Ratlam, Tikamgarh, Betul and Morena districts are no more in the last ten districts. Instead we find Ujjain, Dewas and Rajgarh districts. There were only 40, 23 and 16 units, respectively, in these three districts and, therefore, their relegation to the last ten districts need not surprise anyone. Similarly, Ratlam and Betul districts are at the thirtyfirst and thirtythird rank, respectively, this time. What is not readily explainable, however, is the sudden spurt in the number of units in Tikamgarh and Morena districts—from 8 to 296 in Tikamgarh district and from 5 to 90 in Morena district.

66. **Major Group 26—Textile Products.**—The total number of units in this major group have gone up from 28,165 in 1961 to 43,396 in this Census. The rate of growth comes to 54.08 percent.

67. The first ten districts in terms of number of units are as under :—

TABLE 22

| State/District | Total | Non-H.H.I. | H.H.I. |
|---|---|---|---|
| Madhya Pradesh . . . | 43,396 | 10,249 | 33,147 |
| 1. Durg . . . . | 4,040 | 417 | 3,623 |
| 2. Raipur . . . . | 3,651 | 449 | 3,202 |

TABLE 22—*Concld.*

| State/District | Total | Non-H.H.I. | H. H.I. |
|---|---|---|---|
| 3. Bilaspur . . . | 2,193 | 274 | 1,919 |
| 4. Indore . . . . | 1,696 | 934 | 762 |
| 5. Khargone . . . | 1,685 | 286 | 1,399 |
| 6. Jabalpur . . . | 1,648 | 661 | 987 |
| 7. Sehore . . . . | 1,592 | 632 | 960 |
| 8. Mandsaur . . . | 1,550 | 626 | 924 |
| 9. Balaghat . . . | 1,540 | 86 | 1,454 |
| 10. Khandwa . . . | 1,508 | 302 | 1,206 |
| Total (1 to 10) . . . | 21,103 | 4,667 | 16,436 |

Like food-grains, textile products are required everywhere and, therefore, one finds five of the seven revenue divisions represented in the first ten districts who account for less than fifty percent of the total units. The cotton-growing Indore division, which is relatively more urbanised, is represented by four districts. There is no district from Gwalior and Rewa divisions. The household sector is no doubt more predominent, but only in the rural areas as would be obvious from the following :—

TABLE 23

| Sector | Non-H.H.I. | H.H.I. | Total |
|---|---|---|---|
| Rural . . . . . | 921 | 29,498 | 30,419 |
| Urban . . . . . | 9,328 | 3,649 | 12,977 |
| Total . . . . . | 10,249 | 33,147 | 43,396 |

The above pattern is understandable because whereas tailoring and ready garments units are generally on household basis in the rural areas, it has a non-household character in the urban areas.

68. The first ten districts in the 1961 Census were as follows :—

TABLE 24

| District | Total | Rural | Urban |
|---|---|---|---|
| 1. Raipur . . . | 2,065 | 1,813 | 252 |
| 2. Durg . . . . | 1,776 | 1,346 | 430 |
| 3. Bilaspur . . . | 1,515 | 1,258 | 257 |
| 4. Balaghat . . . | 1,272 | 1,170 | 102 |
| 5. Jabalpur . . . | 1,261 | 766 | 495 |
| 6. Mandsaur . . . | 1,198 | 757 | 441 |
| 7. Khargone . . . | 1,190 | 802 | 388 |
| 8. Chhindwara . . . | 1,111 | 836 | 275 |
| 9. Indore . . . . | 1,088 | 294 | 794 |
| 10. Sehore . . . . | 1,037 | 561 | 476 |

Nine of the ten districts are common. The only change is entry of Khandwa district and exit of Chhindwara district in the 1971 Census. The movement either way is negligible in the sense that : (i) number of units have gone up in both the districts, and (ii) whereas Khandwa district was twelfth in the 1961 Census, it is the turn of Chhindwara district to hold the same position in this Census.

69. The growth of units in the rural and urban areas has been more or less identical in this major group. The break-up of 28.165 units in 1961 was 19,553 units in rural and 8,612 units in the urban areas, whereas this time we have 30.419 units in the rural and 12.977 units in the urban areas. The growth-rate is slightly over 50 percent in both the sectors. A study of distribution of units in the rural and urban areas in the nine common districts of the 1961 and 1971 Censuses would be worthwhile and may be seen in the following statement :—

*Statement* 23

| District | 1961 | | | 1971 | | |
|---|---|---|---|---|---|---|
| | Total | Rural | Urban | Total | Rural | Urban |
| (1) | (2) | (3) | (4) | (5) | (6) | (7) |
| 1. Durg . | 1,776 | 1,346 | 430 | 4,040 | 3,429 | 611 |
| | (100.00) | (75.79) | (24.21) | (100.00) | (84.88) | (15.12 |
| 2. Raipur | 2,065 | 1,813 | 252 | 3,651 | 3,103 | 548 |
| | (100.00) | (87.80) | (12.20) | (100.00) | (84.99) | (15.01) |
| 3. Bilaspur | 1,515 | 1,258 | 257 | 2,193 | 1,871 | 322 |
| | (100.00) | (83.04) | (16.96) | (100.00) | (85.32) | (14.68) |
| 4. Indore | 1,088 | 294 | 794 | 1,696 | 500 | 1,196 |
| | (100.00) | (27.02) | (72.98) | (100.00) | (29.48) | (70.52) |
| 5. Khargone | 1,190 | 802 | 388 | 1,685 | 1,241 | 444 |
| | (100.00) | (67.39) | (32.61) | (100.00) | (73.65) | (26.35) |
| 6. Jabalpur | 1,261 | 766 | 495 | 1,648 | 849 | 799 |
| | (100.00) | (60.75) | (39.25) | (100.00) | (51.52) | (48.48) |
| 7. Sehore | 1,037 | 561 | 476 | 1,592 | 884 | 708 |
| | (100.00) | (54.10) | (45.90) | (100.00) | (55.53) | (44.47) |
| 8. Mandsaur | 1,198 | 757 | 441 | 1,550 | 972 | 578 |
| | (100.00) | (63.19) | (36.81) | (100.00) | (62.71) | (37.29) |
| 9. Balaghat | 1,272 | 1,170 | 102 | 1,540 | 1,398 | 142 |
| | (100.00) | (91.98) | (8.02) | (100.00) | (90.78) | (9.22) |

The proportion of urban units has gone up in Raipur, Indore, Jabalpur and Balaghat districts in 1961-71 decade, while it is more in favour of rural units in Durg, Bilaspur, Khargone, Sehore and Mandsaur districts. The number of units have gone up in all the districts in rural as well as urban areas. More rapid urbanisation perhaps explains increases in proportion of urban units in Raipur, Indore and Jabalpur districts. As for Balaghat district, the number of urban units were very few in 1961 and hence in terms of percentages, the increase appears to be more in the urban sector; if one considers the number of units then the increase is of 228 units in the rural areas and only 40 units in the urban areas.

70. Small units predominate in this major-group as there are only 66,641 persons employed in 43,396 units. The unit-employment ratio is only 1:1.54. The following com-

parative picture regarding the size of the units in the 1961 and 1971 Censuses would make the position clear:—

*Statement* 24

| Sector | 1961 | | | 1971 | | |
|---|---|---|---|---|---|---|
| | 1 person | 2—9 persons | 10+and non-reporting | 1 person | 2—9 persons | 10+ and non-reporting |
| Rural . | 16,016 (81.9) | 3,520 (18.00) | 17 (0.1) | 23,650 (77.7) | 6,710 (22.0) | 59 (0.3) |
| Urban . | 5,095 (59.2) | 3,454 (40.1) | 63 (0.7) | 6,544 (50.4) | 6,334 (48.8) | 99 (0.8) |

The shift from one-person units to medium and large units is negligible; only 4.2 percent in rural areas and 8.8 percent in urban areas. In terms of number of units, there is no doubt an increase of about 45 percent in the size-class 2—9 persons, both in rural and urban areas, but at the same time there is an increase of nearly 50 percent in one-person units in the rural areas and about 30 percent in urban areas. Large size units have nearly trebled in the rural areas (even if 13 non-reporting units are excluded), but their number is still only 46 out of 30,419 units. If the 15 non-reporting units in urban areas are not considered, the growth of large size units in the decade in the urban areas is of only 21 units.

71. The first ten districts from the point of view of total employment are as under :—

TABLE 25

| State/District (1) | Total (2) | Rural (3) | Urban (4) |
|---|---|---|---|
| Madhya Pradesh . . . | 66,641 (100.00) | 40,404 (100.00) | 26,237 (100.00) |
| 1 Durg . . . . | 5,258 (7.89) | 3,975 (9.84) | 1,283 (4.89) |
| 2. Raipur . . . | 4,846 (7.27) | 3,743 (9.26) | 1,103 (4.20) |
| 3. Bilaspur . . . | 4,108 (6.16) | 3,410 (8.44) | 698 (2.66) |
| 4. Indore . . . . | 3,697 (5.55) | 843 (2.09) | 2,854 (10.88) |
| 5. Khandwa . . . | 3,424 (5.14) | 1,647 (4.08) | 1,777 (6.77) |
| 6. Jabalpur . . . | 2,658 (3.99) | 1,070 (2.65) | 1,588 (6.05) |
| 7. Sehore . . . . | 2,504 (3.76) | 1,139 (2.82) | 1,365 (5.20) |
| 8. Khargone . . . | 2,370 (3.55) | 1,610 (3.98) | 760 (2.90) |
| 9. Ujjain . . . . | 2,345 (3.52) | 860 (2.13) | 1,485 (5.66) |
| 10. Mandsaur . . . | 2,231 (3.35) | 1,301 (3.22) | 930 (5.55) |
| Total (1 to 10) . . . | 33,441 (50.18) | 19,598 (48.51) | 13,843 (52.76) |

The first ten districts account for almost half of the total employment, both in rural and urban areas. The highest employment in rural and urban areas is in Durg and Indore districts, respectively.

72. Since the small size units predominate in this major group, nine of the first ten districts in terms of total number of units and total employment are common. The only difference is replacement of Balaghat district by Ujjain district; the former has more units, while more persons are employed in the latter district. Both the districts occupy the thirteenth position in the list in which they are not in the first ten districts and thus omission is marginal.

73. In this major group, bulk of the units are tailoring establishments, or making ready-made garments. Therefore, there is very little progress towards use of electricity because most of the processes involved in the two above mentioned types of units are manual in character. This would be obvious from the following statements.

*Statement* 25(A)

1961 Census

| Sector | Power | | | Non-power | Total |
|---|---|---|---|---|---|
| | Elec. | Others | Total | | |
| Rural . . | .. | .. | .. | 19,553 (100.00) | 19,553 (100.00) |
| Ubran . . | 48 (0·6) | .. | 48 (0.6) | 8,564 (99.4) | 8,612 (100.00) |

*Statement* 25(B)

1971 Census

| Sector | Power | | | Non-power | Total |
|---|---|---|---|---|---|
| | Elec. | Others | Total | | |
| Rural . . | 40 (0·1) | 42 (0·2) | 82 (0·3) | 30,337 (99·7) | 30,419 (100·00) |
| Urban . . | 143 (1·1) | 12 (0.1) | 155 (1·2) | 12,822 (98.8) | 12,977 (100.00) |

The increase in the use of electricity and other fuel power is less than one percent in the decade, both in the rural and urban areas. The only point to be noted is that in terms of units, there are now forty establishments as against zero in 1961 in the rural areas making use of electricity; in the urban areas the rise is threefold.

74. The last ten districts in the 1961 and 1971 Censuses in this major group are as follows :—

*Statement* 26

| District | 1961 | | |
|---|---|---|---|
| | T | R | U |
| 1. Satna . . . . | 302 | 244 | 58 |
| 2. Panna . . . . | 293 | 247 | 46 |
| 3. Mandla . . . . | 291 | 204 | 87 |
| 4. Jhabua . . . . | 228 | 85 | 143 |

*Statement 26—Concld.*

| District | 1961 T | 1961 R | 1961 U |
|---|---|---|---|
| 5. Morena | 190 | 116 | 74 |
| 6. Sidhi | 184 | 166 | 18 |
| 7. Shahdol | 174 | 89 | 85 |
| 8. Bastar | 108 | 53 | 55 |
| 9. Surguja | 40 | 32 | 8 |
| 10. Datia | 27 | 8 | 19 |

| District | 1971 T | 1971 R | 1971 U |
|---|---|---|---|
| 1. Raisen | 465 | 385 | 80 |
| 2. Panna | 417 | 342 | 75 |
| 3. Mandla | 397 | 281 | 116 |
| 4. Morena | 383 | 227 | 156 |
| 5. Sidhi | 366 | 338 | 28 |
| 5. Bastar | 357 | 255 | 102 |
| 7. Bhind | 319 | 216 | 103 |
| 8. Jhabua | 304 | 155 | 149 |
| 9. Surguja | 300 | 198 | 102 |
| 10. Datia | 204 | 126 | 78 |

Eight of the ten districts are common. Satna and Shahdol districts have moved up at the expense of Raisen and Bhind districts. The relative 1961 and 1971 position of these four districts may be seen in the following statement.

*Statement 27*

| District | 1961 No. of units | 1961 Rank | 1971 No. of units | 1971 Rank |
|---|---|---|---|---|
| Satna | 302 | 34 | 561 | 29 |
| Shahdol | 174 | 40 | 662 | 24 |
| Raisen | 455 | 26 | 465 | 34 |
| Bhind | 332 | 31 | 319 | 40 |

It would be seen that the position regarding the number of units has remained more or less static in Raisen and Bhind districts leading to their relegation to the list of the last ten districts. Satna and Shahdol districts are industrially more advanced and witnessed greater economic activity during the decade, especially in the field of mining, resulting in their moving up in this major group.

75. **Major group 32—Non-metallic Mineral products :—**

The total number of units in this major group have increased by 18.79 percent—from 32,950 in 1961 to 39,140 in this Census. The first ten districts in terms of number of units are as under :—

TABLE 26

| State/District | Total | Non-HHI | H.H.I. |
|---|---|---|---|
| Madhya Pradesh | 39,140 | 1,009 | 38,131 |
| 1. Jabalpur | 2,350 | 99 | 2,251 |
| 2. Raipur | 2,099 | 69 | 2,030 |
| 3. Shahdol | 1,996 | 12 | 1,984 |
| 4. Rewa | 1,820 | 2 | 1,818 |
| 5. Chhatarpur | 1,618 | 6 | 1,612 |
| 6. Durg | 1,583 | 34 | 1,549 |
| 7. Sidhi | 1,486 | 1 | 1,485 |
| 8. Raigarh | 1,408 | 16 | 1,392 |
| 9. Satna | 1,402 | 48 | 1,354 |
| 10. Bilaspur | 1,397 | 13 | 1,384 |
| Total (1 to 10) | 17,159 (43.84) | 300 (29.73) | 16,859 (44·21) |

The type of units included in this major group include manufacture of bricks, tiles, cement, clay products, mica products, cement products, stone products, stone-crushing, etc. Whereas concentration of units is likely to be there in districts where there are very many quarries, some units are found to be there in every district. Therefore, we find that the first ten districts do not account for more than 43.84 percent of the total number of units. Concentration of units is also in evidence in the above table. Five of the seven districts of Rewa division and four of the six districts of Chhattisgarh region (Raipur and Bilaspur divisions) are in the first ten districts. Jabalpur district, whose northern borders touch Rewa division, finds a place at the top in view of large-scale availability of lime-stone and soap-stone. Three divisions—Gwalior, Indore and Bhopal—are not represented. By and large, the quarries are located in rural areas and the process of manufacture of various articles is carried on by members of the family. In view of this we find predominence of household sector in this major group.

76. The first ten districts in the 1961 Census were as under :—

TABLE 27

| | District | Total | Rural | Urban |
|---|---|---|---|---|
| 1 | Jabalpur | 2,524 | 2,105 | 419 |
| 2 | Raigarh | 1,487 | 1,457 | 30 |
| 3 | Raipur | 1,474 | 1,403 | 71 |
| 4 | Rewa | 1,378 | 1,376 | 2 |
| 5 | Chhatarpur | 1,324 | 1,273 | 51 |
| 6 | Bilaspur | 1,309 | 1,154 | 155 |
| 7 | Satna | 1,270 | 1,220 | 50 |
| 8 | Shahdol | 1,109 | 1,063 | 46 |
| 9 | Tikamgarh | 1,108 | 1,064 | 44 |
| 10 | Durg | 1,064 | 955 | 109 |

The earlier contention that there is bound to be regional concentration of units in this major group on account of larger number of quarries gets further support when one compares the first ten districts of 1961 and 1971 Censuses. Nine of the ten districts are common, albeit with changed rankings. And the difference in respect of one district is limited to Rewa division only—Sidhi district replacing Tikamgarh district. Significantly, the number of units have gone up in both the districts, and both occupy the eleventh position, the former in 1961 and the latter in 1971.

77. In para 75, it was stated that by and larger the quarries are located in the rural areas. It follows that the rural sector will be more predominent in this major group. This would be clear when one studies the rural-urban break-up of total number of units. In 1961, there were 30,267 rural and 2,683 urban units out of a total of 32,950 units. In this Census, the break up of 39,140 units is 36,219 in the rural areas and 2,921 in urban areas. The growth of units has been higher in rural areas. A comparison of rural-urban composition of total units in the nine common districts in the 1961 and 1971 reveals the following picture:—

*Statement* 28

| District | 1961 | | | 1971 | | |
|---|---|---|---|---|---|---|
| | T | R | U | T | R | U |
| 1. Jabalpur | 2,524 (100·00) | 2,105 (83·40) | 419 (16·60) | 2,350 (100·00) | 2,054 (87·40) | 296 (12·60) |
| 2. Raipur | 1,474 (100·00) | 1,403 (95·18) | 71 (4·82) | 2,099 (100·00) | 1,955 (93·14) | 144 (6·86) |
| 3. Shahdol | 1,109 (100·00) | 1,063 (95·85) | 46 (4·15) | 1,996 (100·00) | 1,862 (93·29) | 134 (6·71) |
| 4. Rewa | 1,378 (100·00) | 1,376 (99·85) | 2 (0·15) | 1,820 (100·00) | 1,757 (96·54) | 63 (3·46) |
| 5. Chhatarpur | 1,324 (100·00) | 1,273 (96·15) | 51 (3·85) | 1,618 (100·00) | 1,525 (94·25) | 93 (5·75) |
| 6. Durg | 1,064 (100·00) | 955 (89·76) | 109 (10·24) | 1,583 (100·00) | 1,473 (93·05) | 110 (6·95) |
| 7. Raigarh | 1,487 (100·00) | 1,457 (97·98) | 30 (2·02) | 1,408 (100·00) | 1,385 (98·37) | 23 (1·63) |
| 8. Satna | 1,270 (100·00) | 1,220 (96·06) | 50 (3·94) | 1,402 (100·00) | 1,351 (96·36) | 51 (3·54) |
| 9. Bilaspur | 1,309 (100·00) | 1,154 (88·16) | 155 (11·84) | 1,397 (100·00) | 1,307 (93·56) | 90 (6·44) |

The proportion of rural units has gone up in Jabalpur, Durg, Raigarh, Satna and Bilaspur districts. Even in Raipur, Shahdol, Rewa and Chhatarpur districts, where the proportion of urban units has gone up, it is so because the number of urban units in 1961 were very few and the multiple gives a higher proportion; strictly in terms of numbers, the rise in rural areas is very large, varying from 252 units in Chhatarpur district to 799 units in Shahdol district.

78. A reference to the type of units included in this major group was made in para 75. It would be apparent that generally the size of the units should be large, especially in the non-household sector. This is so because a total of 86,128 persons are employed in 39,140 units, giving unit-employment ratio of 1 : 2.20. If one considers only the non-household sector, then there are 14,777 persons employed in only 1009 units; the unit-employment ratio comes to 1 : 14.65. In the following statement may be seen the break-up of the units according to persons employed.

*Statement* 29

| Sector | 1961 | | |
|---|---|---|---|
| | 1 person | 2-9 persons | 10 and non-reporting |
| Rural | 18,469 (61·0) | 11,715 (38·7) | 83 (0·3) |
| Urban | 1,080 (40·2) | 1,523 (56·8) | 80 (3·0) |

*Statement* 29—*concld.*

| Sector | 1971 | | |
|---|---|---|---|
| | 1 person | 2-9 persons | 10 and non-reporting |
| Rural | 14,544 (40·2) | 21,465 (59·3) | 210 (0·5) |
| Urban | 727 (24·9) | 2,121 (72.6) | 73 (2·5) |

The shift from small size units to medium and large units, both in terms of percentage as well as number of units, is significant. It is over 20 percent in the rural areas and over 15 percent in urban areas. The earlier premises of predominence and faster growth of units in the rural areas gets further support in the above statement. The large units have more than doubled in the decade in the rural areas even when one reduces the figure of 210 units by 11 which are non-reporting units. The only inexplanable phenomena one notices is the reduction in the number of large units in the urban areas despite an over-all increase, albeit very negligible, in the total number of units in the urban areas.

79. From the point of view of total employment, the first ten districts in this major-group are as under :—

TABLE 28

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh . . | 86,128 | 75,229 | 10,899 |
| 1. Raipur . . . | 7,203 | 6,802 | 401 |
| 2. Jabalpur . . . | 6,487 | 4,567 | 1,920 |
| 3. Durg . . . | 6,178 | 5,634 | 544 |
| 4. Shahdol . . . | 4,090 | 3,248 | 842 |
| 5. Satna . . . | 3,541 | 2,745 | 796 |
| 6. Rewa . . . | 3,385 | 3,255 | 130 |
| 7. Bilaspur . . . | 3,241 | 2,985 | 256 |
| 8. Raigarh . . . | 2,733 | 2,664 | 69 |
| 9. Chhatarpur . . | 2,551 | 2,340 | 211 |
| 10. Bastar . . . | 2,347 | 2,347 | .. |
| Total (1 to 10) . . | 41,756 | 36,587 | 5,169 |
| | (48.48) | (48.63) | (47.43) |

The first ten districts account for 48.48 percent of total employment although in terms of units the percentage of the first ten districts is only 43.84. This also indicates the comparatively larger size of units in this major group. The highest employment in the rural and urban areas is in Raipur and Jabalpur districts, respectively. It is interesting to note that the entire employment in Bastar district is in the rural sector.

80. A comparison of the first ten districts in terms of units and total employment shows that nine of the ten districts are common. The only difference is that whereas Sidhi district has more units, more persons are employed in Bastar district. But the difference is marginal as would be clear from the following statement :—

TABLE 29

1971 Census

| District | No. of units | Rank | Persons employed | Rank |
|---|---|---|---|---|
| Sidhi . . . | 1,486 | 7 | 2,136 | 13 |
| Bastar . . . | 944 | 17 | 2,347 | 10 |

81. The use of electricity and other fuel power has shown an increase in this major-group during the 1961-71 decade. This would be clear from the following statements :—

*Statement* 30 (A)

1961 Census

| Sector | Power | | | Non-power | Total |
|---|---|---|---|---|---|
| | Elec. | Others | Total | | |
| Rural . | 7 (N) | 14 (0.1) | 21 (0.1) | 30,246 (99.9) | 30,267 (100·00) |
| Urban . | 28 (1·0) | 20 (0·8) | 48 (1·8) | 2,635 (98·2) | 2,683 (100·00) |

*Statement* 30 (B)

1971 Census

| Sector | Power | | | Non-power | Total |
|---|---|---|---|---|---|
| | Elec. | Others | Total | | |
| Rural . | 76 (0.2) | 173 (0.5) | 249 (0·7) | 35,970 (99.3) | 36,219 (100·00) |
| Urban . | 55 (1.9) | 64 (2.2) | 119 (4.1) | 2,802 (95.9) | 2,921 (100·00) |

In terms of percentages as well as number of units, the increase in the use of electricity and fuel power is more than double. It is not spectacular, but then it has to be noted that the increase is alongwith an increase in the total number of units.

82. The last ten districts in this major group in the 1961 and 1971 Censuses may be seen in the following statement. But the differences are marginal in view of the fact that every district is bound to have a reasonable number of units in this major group.

*Statement* 31

| District | 1961 | | | District | 1971 | | |
|---|---|---|---|---|---|---|---|
| | T | R | U | | T | R | U |
| 1. Hoshangabad. | 409 | 371 | 38 | Jhabua . | 414 | 260 | 154 |
| 2. Morena | 391 | 370 | 21 | Raisen . | 412 | 396 | 16 |
| 3. Indore . | 388 | 302 | 86 | Khargone | 361 | 256 | 105 |
| 4. Jhabua. | 377 | 224 | 153 | Datia . | 347 | 327 | 20 |
| 5. Datia . | 362 | 344 | 18 | Gwalior | 344 | 300 | 44 |
| 6. Chhindwara. | 339 | 264 | 75 | Khandwa | 341 | 309 | 32 |
| 7. Seoni . | 317 | 307 | 10 | Chhindwara. | 341 | 287 | 54 |
| 8. Khandwa | 311 | 275 | 36 | Narsimhapur. | 333 | 320 | 13 |
| 9. Betul . | 310 | 244 | 66 | Seoni . | 315 | 292 | 23 |
| 10. Gwalior | 301 | 241 | 60 | Betul . | 310 | 243 | 67 |

Seven of the ten districts—Jhabua, Datia, Chhindwara, Seoni, Khandwa, Betul and Gwalior—are common. Hoshangabad, Morena and Indore districts have moved up and their places have been taken by Raisen, Khargone and Narsimhapur districts. The movement in terms of units or rank is not very

significant, except in the cases of Morena and Narsimhapur districts, as would be obvious from the following :—

*Statement* 32

| District | 1961 | | 1971 | |
|---|---|---|---|---|
| | No. of units | Rank | No. of units | Rank |
| Hoshangabad | 409 | 34 | 445 | 32 |
| Morena . . | 391 | 35 | 775 | 24 |
| Indore . . | 388 | 36 | 445 | 33 |
| Raisen . . | 460 | 30 | 412 | 35 |
| Khargone . . | 411 | 33 | 361 | 36 |
| Narsimhapur . | 478 | 28 | 333 | 41 |

The number of units have almost doubled in Morena district, whereas the fall in Narsimhapur district is of about 30 percent. No reasons are readily forthcoming for the above mentioned increase/decrease in the number of units in Morena and Narsimhapur districts.

**Major Groups 33-34 : Metal Products**

83. The total units in this major group have gone down from 39,484 units in 1961 to 36,043 units in this Census. In other words, the decline comes to 8.71 percent. As stated in para. 17, the decrease in the number of units appears to be due to non-availability of raw-materials most of which, like copper, zinc, special steels, etc., are in short supply and controlled.

84. The first ten districts in this major group are as under :—

TABLE 30

| State/District | Total | Non-HHI | H.H.I |
|---|---|---|---|
| Madhya Pradesh . . . | 36,043 (100·00) | 3,523 (100·00) | 32,520 (100·00) |
| 1. Durg . . . | 2,270 | 99 | 2,171 |
| 2. Raipur . . . | 1,868 | 168 | 1,700 |
| 3. Bilaspur . . . | 1,843 | 143 | 1,700 |
| 4. Shahdol . . . | 1,781 | 42 | 1,739 |
| 5. Raigarh . . . | 1,774 | 38 | 1,736 |
| 6. Bastar . . . | 1,675 | 49 | 1,626 |
| 7. Mandla . . . | 1,491 | 98 | 1,393 |
| 8. Surguja . . . | 1,443 | 45 | 1,398 |
| 9. Balaghat . . . | 1,437 | 29 | 1,408 |
| 10. Chhindwara . . | 1,434 | 133 | 1,301 |
| TOTAL (1 to 10) . . | 17,016 (47·21) | 844 (23.96) | 16,172 (49·73) |

One can notice the complete absence of districts from Gwalior, Bhopal and Indore divisions in the above table. This is because the rural area and the household sector predominate in this major group and the districts of Raipur, Bilaspur, Jabalpur and Rewa divisions have a relatively greater proportion of rural population. They are bigger in area and population also. Further, manufacture of iron, brass, copper and bell-metal articles is widely prevalent in the rural areas of Chhattisgarh (Raipur-Bilaspur divisions), Jabalpur division and, to a somewhat lesser extent, in Rewa division. In view of the above, one finds the names of industrially backward districts of Bastar, Surguja, Raigarh and Mandla in the above table.

85. The first ten district in the 1961 Census were as under :—

TABLE 31

| District | Total | Rural | Urban |
|---|---|---|---|
| 1. Durg . . . . | 2,566 | 2,477 | 89 |
| 2. Raipur . . . | 2,257 | 2,070 | 187 |
| 3. Bilaspur . . . | 2,185 | 2,024 | 161 |
| 4. Raigarh . . . | 1,681 | 1,645 | 36 |
| 5. Balaghat . . . | 1,576 | 1,535 | 41 |
| 6. Chhindwara . . . | 1,552 | 1,451 | 101 |
| 7. Jabalpur . . . | 1,547 | 1,321 | 226 |
| 8. Mandla . . . | 1,366 | 1,308 | 58 |
| 9. Satna . . . | 1,301 | 1,143 | 158 |
| 10. Surguja . . . | 1,190 | 1,183 | 7 |

The picture is not very different from the 1971 Census. The divisions represented are the same; the only difference is that whereas Jabalpur and Satna districts were in the first ten districts in the 1961 Census, they are replaced by Shahdol and Bastar districts in this Census. The movement in terms of number of units either way among the four districts is substantial, although if one considers change in ranks only, it is negligible, as would be clear from the following:—

*Statement* 33

| District | 1961 | | 1971 | | (+) in (—)units |
|---|---|---|---|---|---|
| | No. of units | Rank | No. of units | Rank | |
| 1. Jabalpur . | 1,547 | 7 | 1,145 | 13 | —402 |
| 2. Satna . . | 1,301 | 9 | 943 | 16 | —358 |
| 3. Shahdol . . | 1,122 | 14 | 1,781 | 4 | +659 |
| 4. Bastar . . | 990 | 17 | 1,675 | 6 | +685 |

The decline in the number of units in Jabalpur and Satna districts is over 25 percent, whereas the increase in the number of units in Shahdol and Bastar districts is over 50 percent. The decrease/increase in the number of units is by and large in the rural areas and no positive reasons are forthcoming for this position.

86. The rural-urban break up of 39,484 units in 1961 Census was 35.364 units in rural areas and 4.210 units in urban areas. In this Census, the division of 36,043 units is

31.964 in rural areas and 4,079 in urban areas. Apparently, the decline is largely in rural areas, perhaps due to non-availability of scarce raw-materials which do find entry in urban areas somehow, albeit at exhorbitant prices. A study of rural-urban composition of units in the common districts of the 1961 and 1971 Censuses reveals the following picture :—

*Statement* 34

| District | 1961 | | | 1971 | | |
|---|---|---|---|---|---|---|
| | T | R | U | T | R | U |
| 1. Durg | 2,566 (100·00) | 2,477 (96·53) | 89 (3·47) | 2,270 (100·00) | 2,181 (96 08) | 89 (3·92) |
| 2 Raipur | 2,257 (100·00) | 2,070 (91 71) | 187 (8·29) | 1,868 (100·00) | 1,693 (90 63) | 175 (9·37) |
| 3 Bilaspur | 2,185 (100·00) | 2,024 (92·63) | 161 (7 37) | 1,843 (100·00) | 1,678 (91·05) | 165 (8·95) |
| 4 Raigarh | 1,681 (100·00) | 1,645 (97·86) | 36 (2·14) | 1,774 (100·00) | 1,743 (98·25) | 31 (1·75) |
| 5. Mandla | 1,366 (100·00) | 1,308 (95·75) | 58 (4·25) | 1,491 (100·00) | 1,470 (98·59) | 21 (1·41) |
| 6. Surguja | 1,190 (100·00) | 1,183 (99·41) | 7 (0·59) | 1,443 (100·00) | 1,427 (98·89) | 16 (1·11) |
| 7. Balaghat | 1,576 (100·00) | 1,535 (97·40) | 41 (2·60) | 1,437 (100·00) | 1,411 (98·19) | 26 (1·81) |
| 8. Chhindwara | 1,552 (100 00) | 1,451 (93·49) | 101 (6·51) | 1,434 (100·00) | 1,362 (94·98) | 72 (5·02) |

An interesting picture is revealed in the above statement. The earlier observation of decline generally in the rural areas is true of Durg, Raipur and Bilaspur districts. But in Raigarh and Mandla districts, the number of units have gone up in rural areas and declined in urban areas. There is an over-all increase in the number of units in these two districts despite a fall in the number of units in the State in this major group. No ready answer is forthcoming tor this phenomenon. In Surguja district, the number of units have gone up in both rural as well as urban areas, while in Balaghat and Chhindwara districts, there is greater percentage decline in urban areas than rural areas.

87. A total of 75,761 persons are employed in 36,043 units in this major-group. The unit-employment ratio comes to 1 : 2.10, indicating that the small and medium units predominate. The break up of the units according to the size of employment in the 1961 and 1971 Censuses may be seen in the following statement.

*Statement 35*

| Sector | 1961 | | | 1971 | | |
|---|---|---|---|---|---|---|
| | 1 person | 2-9 Persons | 10+ and non-reporting | 1 person | 2-9 persons | 10+ and non-reporting |
| Rural | 21,740 (61.5) | 13,566 (38.3) | 58 (0.2) | 17,691 (55.3) | 14,199 (44.5) | 74 (0.2) |
| Urban | 1,778 (43.2) | 2,193 (53.2) | 149 (3.6) | 1,417 (34.7) | 2,469 (60.3) | 202 (5.00) |

In terms of percentages, one person units have gone down by 6.12 percent and there is a corresponding increase in the number of medium units in the rural areas. The shift in the urban areas is to the extent of 8.5 percent with a further difference that there is an increase in large units also, even when the number of non-reporting units, which are only three, are reduced from 202 units. But what is more significant is the fact that despite a fall in the total number of units in this major group, the number of units in the medium and large size-classes have actually gone up in the 1961-71 decade. In other words, it is the small units that have disappeared due to scarce availability of controlled raw-materials, the medium and large units somehow managing to procure the raw-material at higher prices.

88. From the point of view of total employment, the first ten districts in this major group are as under :—

TABLE 32

| S ate/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh | 75,761 (100·00) | 50,966 (100·00) | 24,795 (100·00) |
| 1. Durg | 12,220 | 3,532 | 8,688 |
| 2. Raigarh | 3,664 | 3,579 | 85 |
| 3. Raipur | 3,631 | 3,002 | 629 |
| 4. Bilaspur | 3,607 | 2,823 | 784 |
| 5. Sehore | 3,407 | 574 | 2,833 |
| 6. Bastar | 3,372 | 3,345 | 27 |
| 7. Indore | 3,115 | 308 | 2,807 |
| 8. Surguja | 2,885 | 2,848 | 37 |
| 9. Mandla | 2,778 | 2,185 | 593 |
| 10. Shahdol | 2,668 | 2,557 | 111 |
| TOTAL (1 to 10) | 41,347 (54·58) | 24,753 (48·57) | 16,594 (66·92) |

The shift towards medium and large units, referred to in para 87, is further borne out by the above figures. The first ten districts account for 54.58 percent of total employment in this major group. It is as high as 66.92 percent in the urban areas. The highest employment in the rural and urban areas is to be found in Raigarh and Durg districts, respectively. The very large employment in the urban areas in Durg district need not surprise anyone because here we see the impact of the Bhilai Steel Plant which has resulted in establishment of foundries and structural metal products manufacturing units. The higher proportion of urban employment in Sehore district is due perhaps to Heavy Electricals (I) Ltd. and the capital city of Bhopal. No explanation is necessary for Indore district which is urban in character. In the rural areas, the employment is concentrated in the six Chhattisgarh districts and the two adjoining districts of Mandla and Shahdol.

89. A comparison of the first ten districts in terms of total units and total employment shows that eight districts are common. Balaghat and Chhindwara district get replaced by Sehore and Indore districts in terms of employment. This is because the size of the units is comparatively bigger in Sehore and Indore districts. But it must be stated here that Chhindwara and Balaghat districts are at the twelfth and thirteenth places, respectively, in terms of total employment.

90. There is a tremendous change in the matter of use of electricity and other fuel power in this major group as would be clear from the following statements :—

*Statement* 36 (*A*)

1961 Census

| Sector | Power | | | Non-power | Total |
|---|---|---|---|---|---|
| | Elec | Others | Total | | |
| Rural . . | 9 (N) | 2 (N) | 11 (N) | 35,353 (100·00) | 35,364 (100·00) |
| Urban . . | 315 (7·6) | 16 (0·4) | 331 (8·00) | 3,789 (92·0) | 4,120 (100·00) |

*Statement* 36 (*B*)

1971 Census

| Sector | Power | | | Non-power | Total |
|---|---|---|---|---|---|
| | Elec. | Others | Total | | |
| Rural . . | 72 (0·2) | 30,714 (95 1) | 30,786 (96 3) | 1,178 (3·7) | 31,964 (100·00) |
| Urban . . | 763 (18·7) | 1,995 (48 9) | 2,758 (67·6) | 1,321 (32·4) | 4,079 (100·00) |

Non-power units which were predominent in 1961 are insignificant now. Apart from gains in the matter of use of electricity as such, the tremendous shift from manual to power units is primarily due to use of coal and wood as fuel power. No less than 30,692 units in rural areas and 1,927 units in urban areas make use of coal and wood as fuel power. The non-use of coal and wood as a fuel power even by a single unit in the rural areas in 1961 is not easily understood. Perhaps there is some error of interpretation in the sense that whereas manufacture of the product may be by hand instead of by machines, some fuel power is used to melt the raw material as a part of the manufacturing process. Whereas in 1961 all the units were perhaps classified as manual, they have been treated as 'other power' in this Census.

91. The last ten districts in this major-group in the 1961 and 1971 Censuses have been as under :—

*Statement* 37

| 1961 | | | | 1971 | | | |
|---|---|---|---|---|---|---|---|
| District | T | R | U | District | T | R | U |
| 1. Rajgarh | 496 | 448 | 48 | Rajgarh | 374 | 341 | 33 |
| 2. Dewas . | 485 | 381 | 104 | Jhabua . | 302 | 221 | 81 |
| 3. Bhind . | 390 | 342 | 48 | Gwalior | 301 | 132 | 169 |
| 4. Dhar . | 367 | 285 | 82 | Guna . | 287 | 232 | 55 |
| 5. Gwalior | 355 | 165 | 190 | Narsimhapur | 275 | 255 | 20 |
| 6. Vidisha | 351 | 304 | 47 | Raisen . | 233 | 221 | 12 |
| 7. Guna . | 330 | 292 | 38 | Datia . | 209 | 190 | 19 |
| 8. Jhabua | 278 | 199 | 79 | Bhind . | 196 | 142 | 54 |
| 9. Datia . | 258 | 231 | 27 | Morena | 173 | 150 | 23 |
| 10. Morena | 153 | 124 | 29 | Vidisha | 166 | 102 | 64 |

Eight of the ten districts are common. Dewas and Dhar districts have moved up at the expense of Narsimhapur and Raisen districts. The upward or downward movement in respect of Dewas, Dhar and Raisen districts is marginal, but is considerable in the case of Narsimhapur district as would be clear from the following :—

*Statement* 38

| District | 1961 | | 1971 | |
|---|---|---|---|---|
| | No. of Units | Rank | No. of Units | Rank |
| Dewas . . . . | 485 | 35 | 323 | 31 |
| Dhar . . . . | 367 | 37 | 317 | 33 |
| Narsimhapur . . . | 788 | 19 | 275 | 38 |
| Raisen . . . . | 536 | 30 | 233 | 39 |

No reasons are forthcoming for the heavy decline in the number of units in Narsimhapur district.

**Major Groups 39-39 : Other Manufacturing and Repairs**

92. The total number of units have gone up from 23,135 in 1961 to 35,507 in this Census. As stated in para 19, the comparison is not realistic in the sense that repair units were included in the respective major-groups in the 1961 Census, whereas they have been by and large clubbed together under major-group 39 in 1971 Census. The apparent growth-rate of 53.48 percent is, therefor, to be considered in the light of the above position.

93. The first ten districts in this major group in this Census in terms of units, are as under :—

TABLE 33

| State/District | Total | Non-HHI | H.H.I. |
|---|---|---|---|
| Madhya Pradesh | 35,507 (100.00) | 13,418 (100.00) | 22,089 (100.00) |
| 1. Jabalpur | 2,189 | 1,240 | 949 |
| 2. Bilaspur | 2,151 | 432 | 1,719 |
| 3. Raipur | 2,146 | 801 | 1,345 |
| 4. Mandsaur | 1,791 | 862 | 929 |
| 5. Indore | 1,743 | 1,253 | 490 |
| 6. Durg | 1,727 | 582 | 1,145 |
| 7. Sehore | 1,320 | 920 | 400 |
| 8. Rajgarh | 1,279 | 131 | 1,148 |
| 9. Gwalior | 1,061 | 910 | 151 |
| 10. Balaghat | 1,060 | 152 | 908 |
| TOTAL (1 to 10) | 16,467 (46.38) | 7,283 (54.28) | 9,184 (41.58) |

The fact that miscellaneous manufacturing and repair units would be generally dispersed all over the State and likely to have non-household urban character is borne out by the above figures. The first ten districts account for only 46.38 percent of the units and nearly 40 percent of the units are in the non-household sector primarily due to Jabalpur, Indore, Sehore and Gwalior districts each having a big city. Six of the seven divisions are represented in the first ten districts. No district from Rewa division finds a place because of absence of a city in any of the districts in that division.

94. The first ten districts in the 1961 Census were as under :—

TABLE 34

| District | Total | Rural | Urban |
|---|---|---|---|
| 1. Bilaspur | 1,896 | 1,548 | 348 |
| 2. Jabalpur | 1,214 | 776 | 438 |
| 3. Raipur | 1,141 | 894 | 247 |
| 4. Raigarh | 1,111 | 1,019 | 92 |
| 5. Balaghat | 1,077 | 1,027 | 50 |
| 6. Mandsaur | 952 | 475 | 477 |
| 7. Satna | 947 | 805 | 142 |
| 8. Rewa | 922 | 765 | 157 |
| 9. Durg | 851 | 544 | 307 |
| 10. Sagar | 775 | 269 | 506 |

A comparison of the first ten districts in the 1961 and 1971 Censuses has been rendered meaningless because of what has been stated in para 92. Otherwise, how can one explain absence of Indore, Gwalior and Sehore districts in the 1961 list? Repair units are bound to be varied in these districts and that explains their entry in this Census. Raigarh, Rewa, Satna and Sagar districts are at the eleventh, thirteenth, fifteenth and seventeenth places in 1971, while Rajgarh district was at the seventeenth place in 1961. The upward/downward movement is not very substantial in respect of these five districts.

95. The rural-urban break-up of 23,135 units in 1961 was 15,682 units in rural areas and 7,453 units in urban areas. The composition of 35,507 units this time is 18,500 units in rural areas and 17,007 units in urban areas. The growth of units is more than five times in urban areas and supports the earlier contention of non-household, urban character of units in this major-group. A comparison of the six common districts of 1961 and 1971 Censuses reveals the following position.

*Statement* 39

| District | 1961 T | 1961 R | 1961 U | 1971 T | 1971 R | 1971 U |
|---|---|---|---|---|---|---|
| 1. Jabalpur | 1,214 (100·00) | 776 (63·92) | 438 (36·08) | 2,189 (100·00) | 742 (33·90) | 1,447 (66·10) |
| 2. Bilaspur | 1,896 (100·00) | 1,548 (81·65) | 348 (18·35) | 2,151 (100·00) | 1,478 (68·71) | 673 (31·29) |
| 3. Raipur | 1,141 (100·00) | 894 (78·35) | 247 (21·65) | 2,146 (100·00) | 1,214 (56·57) | 932 (43·43) |
| 4. Mandsaur | 952 (100·00) | 475 (49·89) | 477 (50·11) | 1,791 (100·00) | 1,004 (56·06) | 787 (43·94) |
| 5. Durg | 851 (100·00) | 544 (63·92) | 307 (36·08) | 1,727 (100·00) | 916 (53·04) | 811 (46·96) |
| 6. Balaghat | 1,077 (100·00) | 1,027 (95.36) | 50 (4·64) | 1,060 (100·00) | 873 (82·36) | 187 (17·64) |

Except in Mandsaur district, the proportion of urban units has gone up in all the other five districts. As for total number of units, the increase is noticed in all the districts, except Balaghat. No reasons are readily forthcoming for the fall in the total number of units in Balaghat district and higher growth-rate in rural areas of Mandsaur district.

96. In all, 66,990 persons are employed in 35,507 units. The unit-employment ratio works out to 1:1.89. The small and medium units apparently predominate in these major-groups, as would be clear from the following :—

*Statement* 40

| Sector | 1961 | | | 1971 | | |
|---|---|---|---|---|---|---|
| | 1 Person | 2—9 Persons | 10+ & non-reporting | 1 Person | 2—9 Persons | 10+ & non-reporting |
| Rural | 12,070 (77.0) | 3,584 (22.8) | 28 (0.2) | 13,469 (72.8) | 4,945 (26.7) | 86 (0.5) |
| Urban | 4,592 (61.6) | 2,808 (37.7) | 53 (0.7) | 9,175 (53.9) | 6,598 (38.8) | 1,234 (7.3) |

The shift from one person units in rural areas is of only 4.2 percent and largely towards medium units. But in urban areas, the shift of 7.7% units is in favour of large units. This is not unexpected because in cities one does come across large repair workshops. No comparison in terms of units is being made here as it would be unrealistic for reasons stated in para 92. Even if 18 non-reporting units each in rural and urban areas are taken out of consideration, the growth-rates work out very high in respect of large units.

97. From the point of view of total employment, the first ten districts in these major groups are as follows :—

TABLE 35

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh | 66,990 | 26,954 | 40,036 |
| 1. Durg | 5,521 | 1,707 | 3,814 |
| 2. Raipur | 5,082 | 2,306 | 2,776 |
| 3. Indore | 4,637 | 499 | 4,138 |
| 4. Jabalpur | 3,910 | 1,049 | 2,861 |
| 5. Bilaspur | 3,739 | 2,215 | 1,524 |
| 6. Ratlam | 3,386 | 443 | 2,943 |
| 7. Mandsaur | 2,905 | 1,420 | 1,485 |
| 8. Sehore | 2,790 | 424 | 2,366 |
| 9. Gwalior | 2,366 | 127 | 2,239 |
| 10. Rewa | 1,892 | 998 | 894 |
| TOTAL (1 to 10) | 36,228 (54.08) | 11,188 (41.51) | 25,040 (62.54 |

The first ten districts account for 54.08 percent of total employment but the rural-urban differential is substantial. This is not at all surprising because the size of the repair units is bound to be very much larger in the urban areas. The highest employment, in the rural and urban areas is in Raipur and Durg districts, respectively.

98. A comparison of the first ten districts in terms of number of units and total employment shows that eight of the ten districts are common. Rajgarh and Balaghat districts, who are in the first ten in terms of units, are displaced by Ratlam and Rewa districts in terms of employment. The movements in either direction are marginal as would be clear from the following :—

TABLE 36

| District | No. of Units | Rank | Persons employed | Rank |
|---|---|---|---|---|
| Rajgarh | 1,279 | 8 | 1,641 | 14 |
| Balaghat | 1,060 | 10 | 1,760 | 11 |
| Ratlam | 933 | 14 | 3,386 | 6 |
| Rewa | 1,027 | 13 | 1,892 | 10 |

Comparatively heavy employment in Ratlam district is due to repair units of the railways.

99. In this major group some progress is noticeable in the matter of use of electricity and other fuel power, both in rural and urban areas, as would be evident from the following statements :—

*Statement* 41 (*a*)
1961 Census

| Sector | Power | | | Non-power | Total |
|---|---|---|---|---|---|
| | Elec. | Others | Total | | |
| Rural | 2 (N) | 35 (0.2) | 37 (0.2) | 15,645 (99.8) | 15,682 (100.00) |
| Urban | 117 (1.6) | 17 (0.2) | 134 (1.8) | 7,319 (98.2) | 7,453 (100.00) |

*Statement* 41 (*b*)
1971 Census

| Sector | Power | | | Non-Power | Total |
|---|---|---|---|---|---|
| | Elec. | Others | Total | | |
| Rural | 57 (0.3) | 640 (3.5) | 697 (3.8) | 17,803 (96.2) | 18,500 (100.00) |
| Urban | 706 (4.1) | 409 (2.5) | 1,115 (6.6) | 15,892 (93.4) | 17,007 (100.00) |

Both in terms of percentages and number of units, the rise in the matter of use of electricity and other fuel power cannot be said as unsatisfactory. This is only to be expected because repair units dealing in works like welding, vulcanising, etc., do make use of some fuel power. A note of caution is again called for at this point. In terms of units, the rise is almost 19 times and 8 times in rural and urban

areas, respectively. The 1961 figures do not include all the repair units and, therefore, the actual rise is certainly less than what is reflected in the above statements.

100. The last ten districts in this major group may be seen in the following statement :—

*Statement* 42

| 1961 | | | | 1971 | | | |
|---|---|---|---|---|---|---|---|
| District | T | R | U | District | T | R | U |
| 1. Tikamgarh. | 266 | 219 | 47 | Morena | 454 | 188 | 266 |
| 2. Morena | 256 | 111 | 145 | Surguja | 406 | 246 | 160 |
| 3. Bhind . | 242 | 157 | 85 | Seoni | 396 | 188 | 208 |
| 4. Mandla | 231 | 164 | 67 | Vidisha | 387 | 112 | 275 |
| 5. Vidisha | 219 | 111 | 108 | Narsimhapur. | 352 | 174 | 178 |
| 6. Raisen . | 213 | 184 | 29 | Mandla | 340 | 221 | 119 |
| 7. Bastar . | 183 | 157 | 26 | Bhind . | 312 | 147 | 165 |
| 8. Datia . | 183 | 79 | 104 | Datia | 246 | 103 | 143 |
| 9. Surguja. | 181 | 138 | 43 | Raisen | 238 | 170 | 68 |
| 10. Jhabua | 173 | 43 | 130 | Jhabua | 187 | 52 | 135 |

Eight of the ten districts are common and thus it can be said that the backward regions have hardly made any progress. Only Tikamgarh and Bastar districts have moved up at the expense of Seoni and Narsimhapur districts. Whereas the upward movement in terms of rank is nominal in the case of Tikamgarh and Bastar districts, the fall, both in terms of number of units and rank, is significant in Seoni and Narsimhapur districts, as would be evident from the following :—

*Statement* 43

| District | 1961 | | 1971 | |
|---|---|---|---|---|
| | No. of Units | Rank | No. of Units | Rank |
| Tikamgarh . . . | 266 | 34 | 496 | 27 |
| Bastar . . . . | 183 | 40 | 472 | 32 |
| Seoni . . . . | 447 | 20 | 396 | 36 |
| Narsimhapur . . . | 446 | 21 | 352 | 38 |

The fall in the number of units is termed as significant because larger categories of repair units have been included in the 1971 figures.

No ready explanation is available as to why the number of units have gone down in Seoni and Narsimhapur districts.

**Major Group 23-Cotton Textiles :**

101. There is a negative growth-rate in this major-group. The total number of units have gone down from 27,064 in the 1961 Census to 20,436 in this Census. The decline in the number of units works out to 24.5 percent. *Prima facie*, the reason for the decrease in the number of units appears to be the inroads made by synthetic fibres like, nylon, terrylene, terrycot, etc. One does notice increased use of garments made of these fibres in the rural areas also. In 1961, minor group 234 (cotton cloth weaving in power-looms) and 235 (cotton cloth weaving in hand-looms) accounted for 721 (2.66%) and 23,730 (87.68%) of the total number of units in this major group. Power-loom units were all in the urban areas. Since the total number of units in this major group this time are less than the number of hand-loom units in 1961, it can be safely said that this cottage industry is fast losing its place in the rural economy in the face of competition of mill made varieties of cloth.

102. The first ten districts in this major-group are as under:—

TABLE 37

| State/District | Total | Non-HHI | H.H.I. |
|---|---|---|---|
| Madhya Pradesh . . . | 20,436 | 2,259 | 18,177 |
| 1. Raipur . . . . | 2,756 | 175 | 2,581 |
| 2. Bilaspur . . . | 2,461 | 110 | 2,351 |
| 3. Bastar . . . . | 2,145 | 6 | 2,139 |
| 4. Raigarh . . . . | 1,975 | 16 | 1,959 |
| 5. Durg . . . . | 1,844 | 51 | 1,793 |
| 6. Khandwa . . . | 1,085 | 606 | 479 |
| 7. Surguja . . . . | 845 | 3 | 842 |
| 8. Chhindwara . . . | 747 | 39 | 708 |
| 9. Jabalpur . . . | 614 | 305 | 309 |
| 10. Balaghat. . . . | 568 | 9 | 559 |
| TOTAL (1 to 10) | 15,040 (73.59) | 1,320 (58.43) | 13,720 (75.48) |

The normal expectation that there will be concentration of units in areas where cotton is a principal crop does not get support from the above picture. The presence of all the six districts of Chhattisgarh is bound to be a surprise to many, because cotton is rarely grown in these districts. The explanation perhaps lies in consumer preference for locally woven handloom cloth having traditional colours and designs made from yarn brought from outside. All the same, concentration of units is still noticeable in this major-group in the sense that the first ten districts account for nearly three-fourth of the total number of units which are located primarily in Raipur, Bilaspur and Jabalpur divisions. There is only one district—Khandwa—representing Indore division. No district from Gwalior, Rewa and Bhopal divisions finds a place. The household sector is predominent in eight of the first ten districts, the exceptions being Khandwa and Jabalpur, where in view of (i) location of majority of units in urban areas, and (ii) employment of outside workers, the non-household sector is equally, if not more, predominent.

103. The first ten districts in the 1961 Census were as under :—

TABLE 38

| District | Total | Rural | Urban |
|---|---|---|---|
| 1. Raigarh | 4,327 | 4,051 | 276 |
| 2. Bilaspur | 4,162 | 3,549 | 613 |
| 3. Raipur | 3,895 | 3,775 | 120 |
| 4. Durg | 1,810 | 1,703 | 107 |
| 5. Bastar | 1,254 | 1,252 | 2 |
| 6. Surguja | 1,105 | 1,104 | 1 |
| 7. Khandwa | 1,084 | 78 | 1,006 |
| 8. Chhindwara | 947 | 321 | 626 |
| 9. Balaghat | 830 | 662 | 168 |
| 10. Mandsaur | 618 | 436 | 182 |

TABLE 38—*concld.*

A comparison of the first ten districts in the 1961 and 1971 Censuses would show that Mandsaur district has been replaced by Jabalpur district this time, the other nine districts being common. The movement in respect of Mandsaur and Jabalpur districts is very marginal in that whereas Mandsaur district is at the twelfth place in this Census, Jabalpur district was at the eleventh rank in 1961.

104. The rural-urban composition of 27,064 units in 1961 was 21,446 units in rural areas and 5,618 units in urban areas. This time the 20,436 units are divided into 14,975 units in rural areas and 5,461 units in urban areas. It would be seen that almost the entire decline in the total number of units is in the rural areas. This would be clear from the following statement in respect of the nine common districts.

*Statement* 44

| District | 1961 | | | 1971 | | |
|---|---|---|---|---|---|---|
| | T | R | U | T | R | U |
| 1. Raipur | 3,895 (100·00) | 3,775 (96·92) | 120 (3·08) | 2,756 (100·00) | 2,600 (94·34) | 156 (5·66) |
| 2. Bilaspur | 4,162 (100·00) | 3,549 (85·27) | 613 (14·73) | 2,461 (100·00) | 2,041 (82·93) | 420 (17·07) |
| 3. Bastar | 1,254 (100·00) | 1,252 (99·84) | 2 (0·16) | 2,145 (100·00) | 2,139 (99·72) | 6 (0·28) |
| 4. Raigarh | 4,327 (100·00) | 4,051 (93·62) | 276 (6·38) | 1,975 (100·00) | 1,794 (90·84) | 181 (9·16) |
| 5. Durg | 1,810 (100·00) | 1,703 (94·09) | 107 (5·91) | 1,844 (100·00) | 1,727 (93·66) | 117 (6·34) |
| 6. Khandwa | 1,084 (100·00) | 78 (7·20) | 1,006 (92·80) | 1,085 (100·00) | 48 (4·42) | 1,037 (95·58) |
| 7. Surguja | 1,105 (100·00) | 1,104 (99·91) | 1 (0·09) | 845 (100·00) | 841 (99·53) | 4 (0·47) |
| 8. Chhindwara | 947 (100·00) | 321 (33·90) | 626 (66·10) | 747 (100·00) | 160 (21·42) | 587 (78·58) |
| 9. Balaghat | 830 (100·00) | 662 (79·76) | 168 (20·24) | 568 (100·00) | 440 (77·46) | 128 (22·54) |

In six districts, the total number of units have gone down in the 1961-71 decade. But in each of them the proportion of urban units have gone up. As a matter of fact, despite a fall in the total number of units in Raipur and Surguja districts, the number of urban units have gone up in these districts. In Bastar, Khandwa and Durg districts, the total number of units have gone up as well as proportion of urban units, although it must be conceded that the proportion of urban units continues to be negligible in Bastar district. The rise in the number of units in Khandwa and Durg districts is marginal, but is of the order of over 70 percent in Bastar district. In the context of a change in the pattern of clothing from 'nothing to something', the rise in the number of units need come as a surprise. A total of 107,464 persons are employed in 20,436 units, giving a unit-employment ratio of 1:5.26. This gives an indication that the medium and large units predominate in this group. Perhaps the high employment ratio is on account of big textile mills located in urban centres in the neighbourhood of cotton growing areas. The following statement would give

an idea about the changing pattern of units from the point of view of persons employed.

*Statement* 45

| Sector | 1961 | | | 1971 | | |
|---|---|---|---|---|---|---|
| | 1 Person | 2—9 Persons | 10+ & non-reporting | 1 Person | 2—9 Persons | 10+ & non-reporting |
| Rural . | 7,555 | 13,823 | 58 | 3,450 | 11,391 | 134 |
| | (35.3) | (64.5) | (0.2) | (23.0) | (76.0) | (1.0) |
| Urban . | 1,779 | 3,708 | 131 | 1,331 | 3,770 | 360 |
| | (31.7) | (66.0) | (2.3) | (24.4) | (69.0) | (6.6) |

The dominance of medium and large units would be obvious from the above statement. During the 1961-71 decade, the shift from one person units to medium and large units has been to the extent of 12.3 percent in rural areas and 7.3 percent in urban areas. Even if the 3 and 18 non-reporting units in the rural and urban areas, respectively, are not taken into consideration, the number of large units, despite a fall in the total number of units, have nearly trebled. The phenomenon is natural. In the face of competition from other fibres, the small uneconomic units have yielded place to large units.

105. The first ten districts in this major-group in terms of total employment are as under :—

TABLE 39

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh . . . | 107,464 (100.00) | 35,966 (100.00) | 71,498 (100.00) |
| 1. Indore . . . . | 20,130 | 249 | 19,881 |
| 2. Khandwa . . . | 10,439 | 370 | 10,069 |
| 3. Durg . . . . | 8,628 | 4,425 | 4,203 |
| 4. Gwalior . . . . | 8,120 | 48 | 8,072 |
| 5. Raipur . . . . | 7,406 | 7,015 | 391 |
| 6. Bilaspur . . . | 7,302 | 5,709 | 1,593 |
| 7. Ujjain . . . . | 7,084 | 179 | 6,905 |
| 8. Bastar . . . . | 4,344 | 4,201 | 143 |
| 9. Raigarh . . . . | 3,994 | 3,436 | 558 |
| 10. Ratlam . . . . | 3,538 | 118 | 3,420 |
| TOTAL (1 to 10) . | 80,985 (75.36) | 25,750 (71.60) | 55,235 (77.25) |

Like units, employment is also concentrated with the first ten districts accounting for more than three-fourths of the total employment in this major group. The highest rural and urban employment is to be found in Raipur and Indore districts, respectively. The rural-urban employment pattern noticed in the above table confirms the earlier observation that high unit employment ratio is likely in the urban areas of cotton-growing districts—Indore, Khandwa, Ujjain and Ratlam. Sizeable urban employment in Gwalior, Durg and Bilaspur districts is because of existence of a big cotton textile unit in each of the three districts.

106. A comparison of the first ten districts in terms of total units and total employment reveals an interesting picture. Surguja, Chhindwara, Jabalpur and Balaghat districts, which have more units, are replaced by Indore, Gwalior, Ujjain and Ratlam districts on the basis of total employment. This is not surprising because of big textile units with very large employment in the latter four districts.

107. Use of electricity and other fuel power has made progress in this major group during the decade, as would be evident from the following statements.

*Statement* 46 (*A*)
1961 *Census*

| Sector | Power | | | Non-power | Total |
|---|---|---|---|---|---|
| | Elec. | Others | Total | | |
| Rural . . | 8 | 90 | 98 | 21,348 | 21,446 |
| | (N) | (0.4) | (0.4) | (99.6) | (100.00) |
| Urban . . | 863 | 129 | 992 | 4,626 | 5,618 |
| | (15.4) | (2.3) | (17.7) | (82.3) | (100.00) |

*Statement* 46 (*B*)
1971 *Census*

| Sector | Power | | | Non-power | Total |
|---|---|---|---|---|---|
| | Elec. | Others | Total | | |
| Rural . . | 104 | 90 | 194 | 14,781 | 14,975 |
| | (0·7) | (0·6) | (1·3) | (98·7) | (100·00) |
| Urban . . | 1,961 | 102 | 2,063 | 3,398 | 5,461 |
| | (35·9) | (1·9) | (37·8) | (62.2) | (100.00) |

In terms of percentage, the increase in the use of electricity and other fuel power in the rural areas may appear negligible, but the number of units have almost doubled. In the urban areas the gain is of 20.1 percent and the number of units have more than doubled. What is most significant is that the increases are due to use of electricity as such and not other types of fuel power.

108. The last ten districts in the 1961 and 1971 Censuses in this major-group are as under :—

*Statement* 47

| 1961 | | | | 1971 | | | |
|---|---|---|---|---|---|---|---|
| District | T | R | U | District | T | R | U |
| 1. Datia . | 117 | 100 | 17 | Raisen . | 70 | 67 | 3 |
| 2. Raisen . | 102 | 100 | 2 | Gwalior | 70 | 28 | 42 |
| 3. Satna . | 89 | 84 | 5 | Sagar . | 66 | 30 | 36 |
| 4. Sidhi . | 76 | 76 | .. | Datia . | 46 | 38 | 8 |

*Statement 47—Concld.*

| 1961 | | | | 1971 | | | |
|---|---|---|---|---|---|---|---|
| District | T | R | U | District | T | R | U |
| 5. Gwalior | 75 | 39 | 36 | Vidisha | 42 | 11 | 31 |
| 6. Jhabua | 65 | 39 | 26 | Damoh | 37 | 28 | 9 |
| 7. Sagar . | 64 | 31 | 33 | Panna . | 35 | 32 | 3 |
| 8. Panna . | 59 | 58 | 1 | Sidhi . | 35 | 33 | 2 |
| 9. Rewa . | 27 | 25 | 2 | Satna . | 29 | 22 | 7 |
| 10. Vidisha | 18 | 12 | 6 | Rewa . | 8 | 6 | 2 |

Nine of the ten districts are common. The relative position of the two uncommon districts, given in the following statement, would clearly show that the movement by both is marginal.

*Statement 48*

| | 1961 | | 1971 | |
|---|---|---|---|---|
| | No. of units | Rank | No. of units | Rank |
| Jhabua . . . . | 65 | 39 | 90 | 32 |
| Damoh . . . . | 122 | 33 | 37 | 39 |

Although the movement in terms of ranks is marginal, the increase/decrease in the number of units is quite a bit. Jhabua district is in the cotton-growing area and that may explain the increase in the number of units, albeit in the small sector. No ready explanation is forthcoming for the appreciable fall in the number of units in Damoh district; similarly, there is a sizeable fall in the number of units in Datia, Raisen, Satna, Sidhi, Panna and Rewa districts, all of which continue to be in the last ten districts. The reason could be decrease in the demand of locally manufactured cloth as a result of consumer preference for mill-made fabrics.

**Other Major Groups**

109. In the previous paragraphs, a detailed reference has been made in respect of those major groups where the total number of units in the State as a whole is over 20,000. A reference in passing will now be made to those major groups where the total number of units in the State are below this figure.

**Major Group 24—Wool, Silk and Synthetic Fibre Textiles**

110. The total number of units have gone up from 2172 in 1961 to 3157 this time. The growth-rate works out to 45.45 percent. The household sector is predominent and accounts for 97.18 percent of the total units. A comparison of the first five districts in the 1961 and 1971 Censuses reveals the following position.

*Statement 49*

| 1961 | | 1971 | |
|---|---|---|---|
| District | No. of units | District | No. of units |
| 1. Durg . . | 266 | Durg . . . | 676 |
| 2. Bilaspur . . | 242 | Guna . . . | 422 |
| 3. Raipur . . | 193 | Raipur . . . | 295 |
| 4. Shahdol . . | 160 | Mandsaur . . | 270 |
| 5. Satna . . | 148 | Shahdol . . | 251 |

Three of the five districts are common and the number of units have gone up in all the districts. There is concentration of units in the sense that the first five districts account for 60.6 percent of the total number of units. The comparative position of the uncommon districts may be seen in the following statement.

*Statement 50*

| District | 1961 | | 1971 | |
|---|---|---|---|---|
| | No. of units | Rank | No. of units | Rank |
| Bilaspur . . | 242 | 2 | 133 | 7 |
| Satna . . . | 148 | 5 | 43 | 14 |
| Guna . . . | 57 | 13 | 422 | 2 |
| Mandsaur . . | 144 | 6 | 270 | 4 |

The increase/decrease in the number of units in all the four districts is substantial, although in terms of rank the gain/loss of Mandsaur and Bilaspur districts is nominall. The growth of silk units in Guna district and of wool spinning and weaving units in Mandsaur district explains their entry in the first five districts. A total of 12,180 persons are employed in this major group. The unit-employment ratio comes to 1:3.86.

**Major Group 25—Jute, Hemp & Mesta Textiles**

111. The total number of units have gone down from 557 units in 1961 to 147 in this Census. As stated in para 19, the reasons for negative growth-rate of 73.56 percent seems to be non-availability of jute in adequae quantity as a consequence of the two Indo-Pak wars. The first five districts in this major-group in the 1961 and 1971 Censuses were as under :—

*Statement 51*

| 1961 | | 1971 | |
|---|---|---|---|
| District | No. of units | District | No. of units |
| 1. Narsimhapur . | 83 | Shahdol . . | 54 |
| 2. Satna . . | 81 | Seoni . . . | 36 |
| 3. Jabalpur . . | 71 | Panna . . . | 25 |
| 4. Raigarh . . | 71 | Hoshangabad. . | 9 |
| 5. Khandwa . . | 34 | Sagar . . . | 7 |

None of the first five districts are common and this is a peculiar phenomenon. What is more surprising is that the first five districts of 1961 Census have this time returned either nil unit, or only one or two. On the other hand, Shahdol and Panna districts, which had no units in 1961, have this time returned 54 and 25 units, respectively. In Seoni district, the number of units have gone up from 8 to 36. No reasons are readily forthcoming for what has been stated and perhaps only a detailed survey in the concerned districts can throw some light.

**Major Groups 28—Paper, Paper Products and Printing**

112. Dissemination of knowledge is an index of growth and it is, therefore not surprising that the number of units in this major-group have registered an almost hundred percent

growth. The total number of units have gone up from 599 in 1961 to 1094 this time. In keeping with the nature of work, the non-household sector predominates. The first five districts in the 1961 and 1971 Censuses were as under :—

*Statement* 52

| 1961 | | 1971 | |
|---|---|---|---|
| District | No. of units | District | No. of units |
| 1. Indore . . | 118 | Indore . . . | 219 |
| 2. Jabalpur . . | 72 | Jabalpur . . | 102 |
| 3. Sehore . . | 60 | Gwalior . . | 91 |
| 4. Gwalior . . | 52 | Sehore . . . | 75 |
| 5. Khandwa. . | 24 | Raipur . . . | 51 |

Four of the five districts are common. each having a big city. Replacement of Khandwa district by Raipur district is not surprising because (i) Raipur district is the centre of activity in Chhattisgarh region ; and (ii) the movement is marginal, as would be evident from the following :—

*Statement* 53

| District | 1961 | | 1971 | |
|---|---|---|---|---|
| | No. of units | Rank | No. of units | Rank |
| Khandwa . . | 24 | 5 | 32 | 8 |
| Raipur . . | 20 | 9 | 51 | 5 |

The total number of units have gone up in both the districts; only the growth has been faster in Raipur district. A total of 9970 persons are employed; the unit-employment ratio comes to 1:9.11. There is concentration of units because the first five districts account for nearly half of the total number of units.

**Major-Group 30—Rubber, Plastic, Petroleum and Coal Products**

113. The total number of units have gone up from 149 in 1961 to 468 in this Census. The non-household sector, in urban areas predominates and this is in keeping with the nature of articles manufactured in this major-group. The first five districts in the 1961 and 1971 Censuses are as under :—

*Statement* 54

| 1961 | | 1971 | |
|---|---|---|---|
| District | No. of units | District | No. of units |
| Indore . . . | 30 | Indore . . . | 68 |
| Jabalpur . . . | 14 | Jabalpur . . | 51 |
| Sehore . . . | 13 | Raipur . . . | 33 |
| Gwalior . . | 12 | Sehore . . . | 31 |
| Raipur . . . | 11 | Gwalior . . | 29 |

All the five districts are common and have a city. The number of units have gone up in all the districts ; only the growth has been faster in Raipur district, perhaps due to location of three big public sector projects in the Chhattisgarh region. In all, 2209 persons are employed in the State in this major-group. The unit-employment ratio comes to 1 : 4.72. The first five districts have over 45.30 percent of the total units.

**Major Group 31—Chemicals and Chemical Products**

114. In this major group, the total number of units have gone up from 929 in 1961 to 1195 in this Census. The number of units are slightly more in the non-household sector, perhaps due to location of larger number of units in the urban areas. The first five districts in the last two Censuses are as under :—

*Statement* 55

| 1961 | | 1971 | |
|---|---|---|---|
| District | No. of units | District | No. of units |
| Indore . . . | 90 | Indore . . | 134 |
| Jabalpur . . . | 77 | Gwalior . . | 83 |
| Gwalior . . . | 57 | Raipur . . . | 77 |
| Raipur . . . | 55 | Jabalpur . . | 75 |
| Sagar . . . | 40 | Ujjain . . . | 5 |

The only change in the decade is replacement of Sagar district by Ujjain district. Whereas Sagar district has remained more or less static in 1961-71 decade, the number of units have more than doubled in Ujjain district resulting in its replacing Sagar district. All the same, the movement in terms of rank is nominal as would be clear from the following :—

*Statement* 56

| District | 1961 | | 1971 | |
|---|---|---|---|---|
| | No. of units | Rank | No. of units | Rank |
| Sagar . . . . | 40 | 5 | 44 | 7 |
| Ujjain . . . . | 23 | 11 | 57 | 5 |

The number of units have gone up in all the districts, except Jabalpur district where there is a nominal fall by 2 units. A total of 7645 persons are employed in the State ; the unit-employment ratio works out to 1:6.40. The first five districts account for only 35.6 percent of the total number of units.

**Major Groups 35-36—Machinery and Machine Tools**

115. (i) The total number of units in these major-groups have nearly doubled during the decade from 556 in 1961 Census to 1006 this time. In consonance with the items of manufacture, the non-household sector is predominent with over 70 percent of the total number of units. The first five districts in the 1961 and 1971 Censuses are as under :—

*Statement* 57

| 1961 | | 1971 | |
|---|---|---|---|
| District | No. of units | District | No. of units |
| Indore . . . | 95 | Indore . . . | 115 |
| Sehore . . . | 59 | Sehore . . . | 83 |
| Jabalpur . . . | 46 | Jabalpur . . . | 69 |
| Gwalior . . . | 38 | Gwalior . . . | 60 |
| Durg . . . | 33 | Khandwa . . | 55 |

Four districts are common. Replacement of Durg district where the Bhilai Steel Plant is located, by Khandwa district, is rather surprising. No reasons are readily forthcoming, although it must be added that the total number of units have gone up in both the districts and the movement in terms of rank is nominal, as would be evident from the following :—

*Statement* 58

| District | 1961 | | 1971 | |
|---|---|---|---|---|
| | No. of units | Rank | No. of units | Rank |
| Durg . . . . | 33 | 5 | 44 | 9 |
| Khandwa . . . . | 22 | 8 | 55 | 5 |

(ii) A total of 20,699 persons are employed in these major-groups in 1006 units in the State. Obviously the size of the units is relatively large. The first five districts account for only about 38 percent of the total number of units in these major groups.

**Major Group 37—Transport Equipment & Parts**

116. There is a phenomenal decrease in the number of units—from 5145 in 1961 to 549 in this Census. This is actually due to non-inclusion of repair units in the 1971 Census for reasons stated in part 92. The first five districts in this major group in the last two Censuses are as under:—

*Statement* 59

| 1961 | | 1971 | |
|---|---|---|---|
| District | No. of units | District | No. of units |
| Indore . . . | 544 | Shivpuri . . . | 98 |
| Jabalpur . . | 482 | Raipur . . . | 66 |
| Raipur . . . | 411 | Morena . . . | 43 |
| Bilaspur . . . | 293 | Durg . . . | 40 |
| Gwalior . . . | 284 | Indore . . . | 38 |

The exit of Jabalpur and Bilaspur districts and entry of Shivpuri and Morena districts is a little difficult to explain. As for Durg district coming in place of Gwalior district, this is understandable because the former district has witnessed much greater industrial activity in the 1961-71 decade due to the Bhilai Steel Plant. Manufacture of bullock carts is also a part of this major-group and Durg district is very much bigger than Gwalior district in terms of area, population as well as number of rural habitations. But no plausible reasons are forthcoming for entry of Morena and Shivpuri districts.

117. Before concluding the discussion on the basis of major groups, it would be worthwhile to compare the rankings of the predominent nine major groups in terms of total units and total employment in the State and in the rural and urban areas—separately. The picture that emerges is given in the following statements.

TABLE 40(A)

State (Total)

| Major Group | | Establishments | | Persons employed | |
|---|---|---|---|---|---|
| | | Percentage | Rank | Percentage | Rank |
| 27— | Wood & Wood Products. | 16.6 | 1 | 13.2 | 2 |
| 29— | Leather & fur Products. | 13.6 | 2 | 8.5 | 8 |
| 20—21 | Food Products . | 12.8 | 3 | 12.3 | 3 |
| 22— | Beverages & Tobacco & its products. | 12.3 | 4 | 14.9 | 1 |
| 26— | Textile Products. | 10.7 | 5 | 7.3 | 9 |
| 32— | Non-metallic mineral products | 9.6 | 6 | 9.5 | 5 |
| 33—34 | Basic metal and metal products. | 8.8 | 7 | 8.4 | 7 |
| 38—39 | Other manufacturing and repairs. | 8.7 | 8 | 7.4 | 6 |
| 23— | Cotton Textiles . | 5.0 | 9 | 11.9 | 4 |
| Other major groups . | | 1.9 | .. | 6.6 | .. |
| | TOTAL . | 100.0 | | 100.0 | |

The percentage of employment is more than the percentage of units in major groups 22 and 23 only. It can, therefore, be concluded that the size of the units is comparatively larger in these major groups.

TABLE 40(B)

State (Rural)

| Major Group | | Establishments | | Persons employed | |
|---|---|---|---|---|---|
| | | Percentage | Rank | Percentage | Rank |
| 27— | Wood & Wood products. | 18.6 | 1 | 17.3 | 1 |
| 29— | Leather & fur products. | 15.8 | 2 | 12.0 | 4 |
| 22— | Beverages, Tobacco & its products. | 12.2 | 3 | 16.9 | 2 |
| 20—21 | Food Products . | 11.6 | 4 | 11.4 | 5 |
| 32— | Non-metallic mineral products | 11.2 | 5 | 13.2 | 3 |
| 33—34 | Basic metal and metal products. | 9.8 | 6 | 8.9 | 6 |
| 26— | Textile products . | 9.4 | 7 | 7.1 | 7 |
| 38—39 | Other manufacturing & repairs. | 5.7 | 8 | 4.7 | 9 |
| 23— | Cotton Textiles . | 4.6 | 9 | 6.3 | 8 |
| Other major groups . . | | 1.1 | .. | 2.2 | .. |
| | TOTAL . | 100.0 | | 100.0 | |

The percentage of employment is more than the percentage of units in major groups 22, 32 and 23. The only addition is major groups 32. Perhaps the explanation lies in fact that the whole family assists in the manufacture of clay products like utensils. Another fact to be noted is that in terms of units major groups 22, 32 and 33-34 have higher ranks in the rural areas than in the State as a whole. As for employment, major groups 27, 29, 32, 33-34 and 26 have higher ranks vis-a-vis State Total. This is not surprising because so far as units are concerned, processing of food products

and manufacture of ready-made garments cannot have the same importance in State Rural as in State Total. As regards employment, units relating to major groups 27, 29, 32, 33-34 and 26 are generally run on household basis in the rural areas. This naturally pushes up the figures of employment in these major groups in the rural areas because question of payment of wages does not arise.

TABLE 40(C)

| Major Group | Establishments | | Persons employed | |
|---|---|---|---|---|
| | Percentage | Rank | Percentage | Rank |
| 38—39 Other manufacturing & repairs. | 20.6 | 1 | 11.9 | 3 |

| 32— Non-metallic mineral products. | 3.6 | 9 | 3.2 | 8 |
| Other major groups . . | 4.8 | .. | 14.2 | .. |
| TOTAL . | 100.00 | | 100.00 | |

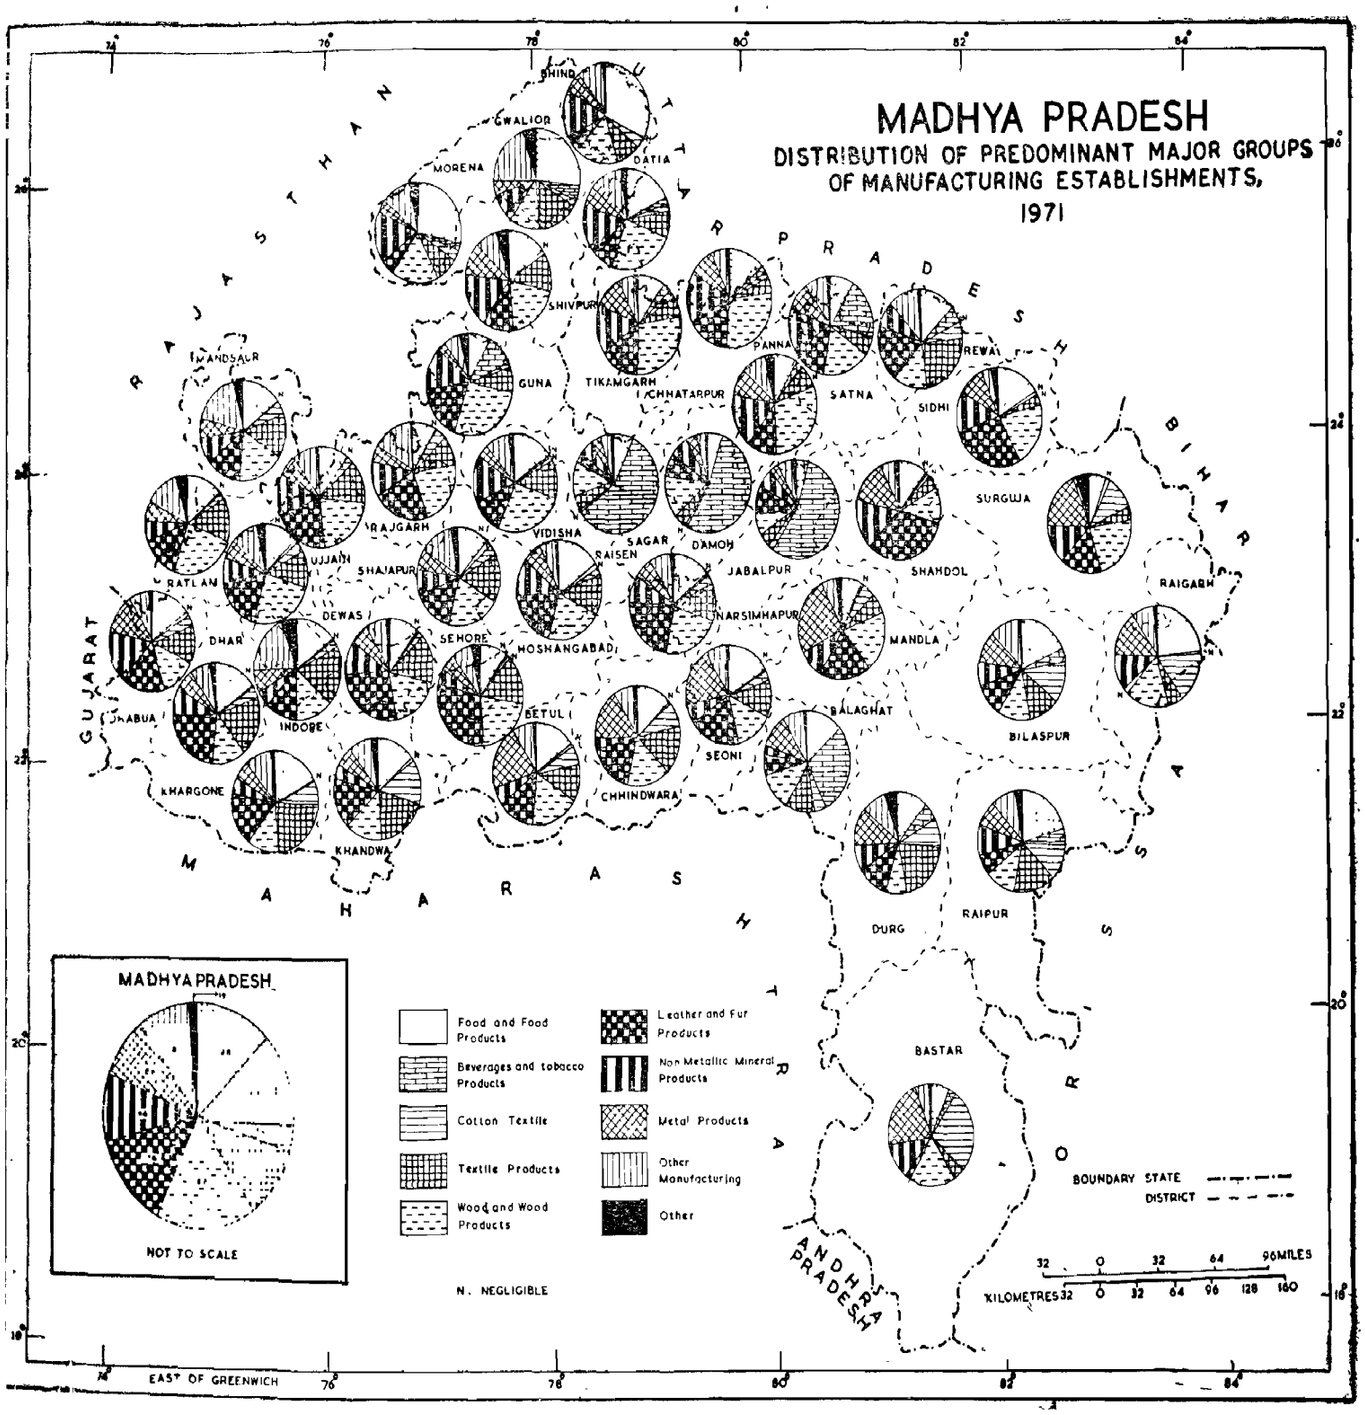

Only in major-groups 23 and 33-34 are the percentages of units higher than that of employment. As regards rankings of major groups in terms of units and employment, the picture in State Urban is quite different. Major groups 38-39, 20-21, 26 and 23 have higher ranks in comparison to State Rural as well as State Total so far as units are concerned. This is not surprising because miscellaneous manufacture and repairs, processing of food grains, manufacture of cloth and preparation of ready-made garments are essentially urban activities. In employment, whereas major group 27 was predominent in State Rural and major-group 22 in State Total in State Urban major group 23 has the highest percentage of employees. The household character of handloom and power loom units and heavy employment in textile mills easily explains the primary position of major-group 23 in State Urban so far as percentage of employees is concerned.

118 In the previous paragraphs the dispersal of manufacturing establishments has been discussed according to major-groups and within each major-group the *inter se* position of districts has been discussed, as also employment and place of electricity and other fuel power in each major group. In what follows the dispersal of manufacturing establishments would be studied from various other angles, districtwise, in order to pin-point the areas that are relatively ahead in the field of industrialisation. Wherever possible, the present position would be compared with that of a decade earlier.

119. In terms of total number of units the district-wise position that emerges is as under :—

*Statement* 60

| State/Division/ District | No. of units | | Increase/ Decrease | Growth-Rate (%) |
|---|---|---|---|---|
| | 1960 | 1970 | | |
| (1) | (2) | (3) | (4) | (5) |

| 34. Mandla . | 5,568 (1.37) | 6,015 (1.48) | + 447 | +8.03 |
| 35. Chhindwara . | 9,105 (2.25) | 8,847 (2.18) | — 258 | — 2.83 |
| 36. Seoni . . | 5,472 (1.35) | 5,195 (1.28) | — 277 | — 5.06 |
| 37. Balaghat . | 9,684 (2.39) | 13,806 (3.39) | + 4,122 | +42.57 |
| VI. Bilaspur Division | 37,087 (9.16) | 39,057 (9.60) | + 1,970 | +5.31 |
| 38. Surguja. . | 5,448 (1.35) | 7,827 (1.92) | + 2,379 | +43.67 |
| 39. Bilaspur . | 17,282 (4.27) | 19,040 (4.68) | + 1,758 | +10.17 |
| 40. Raigarh: . | 14,357 (3.54) | 12,190 (3.00) | — 2,167 | —15.09 |
| VII. Raipur Division. | 35,924 (8.87) | 50,544 (12.43) | + 14,620 | +40.70 |
| 41. Durg . . | 12,972 (3.20) | 19,393 (4.77) | + 6,421 | +49.50 |
| 42. Raipur . . | 18,625 (4.60) | 23,241 (5.71) | + 4,616 | +24.78 |
| 43. Bastar . . | 4,327 (1.07) | 7,910 (1.95) | + 3,583 | +82.81 |

120. It would be seen in the above statement that but for Jabalpur and Bhopal divisions, the growth of industries in the other divisions ranges from 5.31 percent in Bilaspur division to 40.70 percent in Raipur division. The fall in Bhopal division is negligible and, therefore, it can be said that the nominal growth-rate of 0.44 percent in the State is due to Jabalpur division where the number of units in the 1961-71 decade have gone down by 24.06 percent. This is primarily due to decline in the number of bidi-manufacturing units which were, by and large, concentrated in Jabalpur division.

121. The distribution of districts, according to various ranges of growth-rates, is as under:—

TABLE 41

| PLUS | | | | MINUS | | |
|---|---|---|---|---|---|---|
| 40% and over (1) | 20% to 39% (2) | 10% to 19% (3) | Below 10% (4) | Upto 10% (5) | 10% to 19% (6) | 20% and over (7) |
| 1. Morena | 1. Gwalior | 1. Ujjain | 1. Tikamgarh | 1. Chhatarpur | 1. Datia | 1. Bhind |
| 2. Guna | 2. Sidhi | 2. Dhar | 2. Panna | 2. Mandsaur | 2. Shivpuri | 2. Raisen |
| 3. Shahdol | 3. Ratlam | 3. Khandwa | 3. Satna | 3. Jhabua | 3. Vidisha | 3. Sagar |
| 4. Balaghat | 4. Indore | 4. Shajapur | 4. Rewa | 4. Dewas | 4. Jabalpur | 4. Narsimhapur |
| 5. Surguja | 5. Raipur | 5. Sehore | 5. Khargone | 5. Betul | 5. Raigarh | |
| 6. Durg | | 6. Hoshangabad | 6. Raigarh | 6. Damoh | | |
| 7. Bastar | | 7. Bilaspur | 7. Mandla | 7. Chhindwara | | |
| | | | | 8. Seoni | | |

122. It is interesting to note that the highest growth rates have been returned by two widely separated districts—Baster and Morena—the former adjoining Andhra Pradesh in the south and the latter having its borders with Rajasthan in the north ! On the other hand, three of the four districts that have returned maximum negative growth-rates—Sagar, Narsimhapur and Raisen adjoining one another.

123. The inter-se position of districts on the basis of ratio of persons employed to units in major groups 2 and 3 reveals an interesting picture and may be seen in the following statement :—

*Statement* 61

| State/Division/District | 1961 | | | 1971 | | |
|---|---|---|---|---|---|---|
| | Units | Workers | Ratio | Units | Workers | Ratio |
| (1) | (2) | (3) | (4) | (5) | (6) | (7) |
| Madhya Pradesh | 405,028 | 892,136 | 2.2 | 406,815 | 906,874 | 2.2 |
| I. Gwalior Division | 26,203 | 54,873 | 2.09 | 30,310 | 70,366 | 2.3 |

| 29. Betual | 6,334 | 14,204 | 2.2 | 5,948 | 11,028 | 1.8 |
| V. Jabalpur Division | 136,663 | 310,733 | 2.2 | 103,776 | 216,778 | 2.1 |
| 30. Sagar | 44,061 | 104,001 | 2.3 | 17,662 | 44,994 | 2.5 |
| 31. Damoh | 13,081 | 28,440 | 2.1 | 12,845 | 25,137 | 1.9 |
| 32. Jabalpur | 42,297 | 94,099 | 2.2 | 35,239 | 73,755 | 2.1 |

*Statement* 61—*Concld.*

| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
|---|---|---|---|---|---|---|
| 33. Narsimhapur . . . | 7,395 | 13,479 | 1.8 | 4,167 | 7,575 | 1.8 |
| 34. Mandla . . . . | 5,568 | 12,942 | 2.3 | 6,015 | 11,115 | 1.8 |
| 35. Chhindwara . . . . | 9,105 | 18,944 | 2.0 | 8,847 | 16,148 | 1.8 |
| 36. Seoni . . . . . | 5,472 | 11,048 | 2.0 | 5,195 | 8,760 | 1.7 |
| 37. Balaghat . . . . | 9,684 | 27,780 | 2.8 | 13,806 | 29,294 | 2.1 |
| VI. Bilaspur Division . . . | 37,087 | 94,297 | 2.5 | 39,057 | 81,277 | 2.1 |
| 38. Surguja . . . . | 5,448 | 11,941 | 2.1 | 7,827 | 14,854 | 1.9 |
| 39. Bilaspur . . . . | 17,282 | 45,478 | 2.6 | 19,040 | 41,215 | 2.2 |
| 40. Raigarh . . . . | 14,357 | 36,878 | 2.5 | 12,190 | 25,179 | 2.1 |
| VII. Raipur Division . . . | 35,924 | 100,999 | 2.8 | 50,544 | 134,297 | 2.7 |
| 41. Durg . . . . . | 12,972 | 36,647 | 2.8 | 19,393 | 59,427 | 3.1 |
| 42. Raipur . . . . | 18,625 | 53,047 | 2.8 | 23,241 | 56,550 | 2.4 |
| 43. Bastar . . . . | 4,327 | 11,305 | 2.6 | 7,910 | 18,320 | 2.3 |

124. Higher the ratio of persons to units, larger will be the size of the units. The above statement clearly bears this out because heavy industries in the public and private sectors are, by and large, located in Indore, Raipur and Gwalior divisions. Rewa division is understandably at the bottom because there are hardly any large manufacturing units. Indore district with unit-employment ratio of 5.5 and Sidhi district with 1.3 are at the top and bottom, respectively. The distribution of the districts in various ranges of unit-employment ratio is as under :—

TABLE 42

| upto 1.5 | 1.6 to 2.0 | 2.1 to 2.5 | 2.6 to 3.0 | Over 3 |
|---|---|---|---|---|
| 1. Shivpuri | 1. Morena | 1. Satna | 1. Ratlam | 1. Gwalior |
| 2. Tikamgarh | 2. Bhind | 2. Mandsaur | 2. Ujjain | 2. Indore |
| 3. Chhatarpur | 3. Datia | 3. Jhabua | 3. Sehore | 3. Khandwa |

| | 16. Mandla | | | |
| | 17. Seoni | | | |
| | 18. Chhindwara | | | |
| | 19. Surguja | | | |

125. Although comparable data of 1961 is not fully available, a study of dispersal of total manufacturing units into registered factories, unregistered workshops and household units would still be worth-while. The predominent position of household units would be clearly evident from the fact that no less than 349,119 units out of a total of 406,815 units are small family enterprises with an average employment of below 2 persons per unit. The relative position may be seen in the following table.

TABLE 43

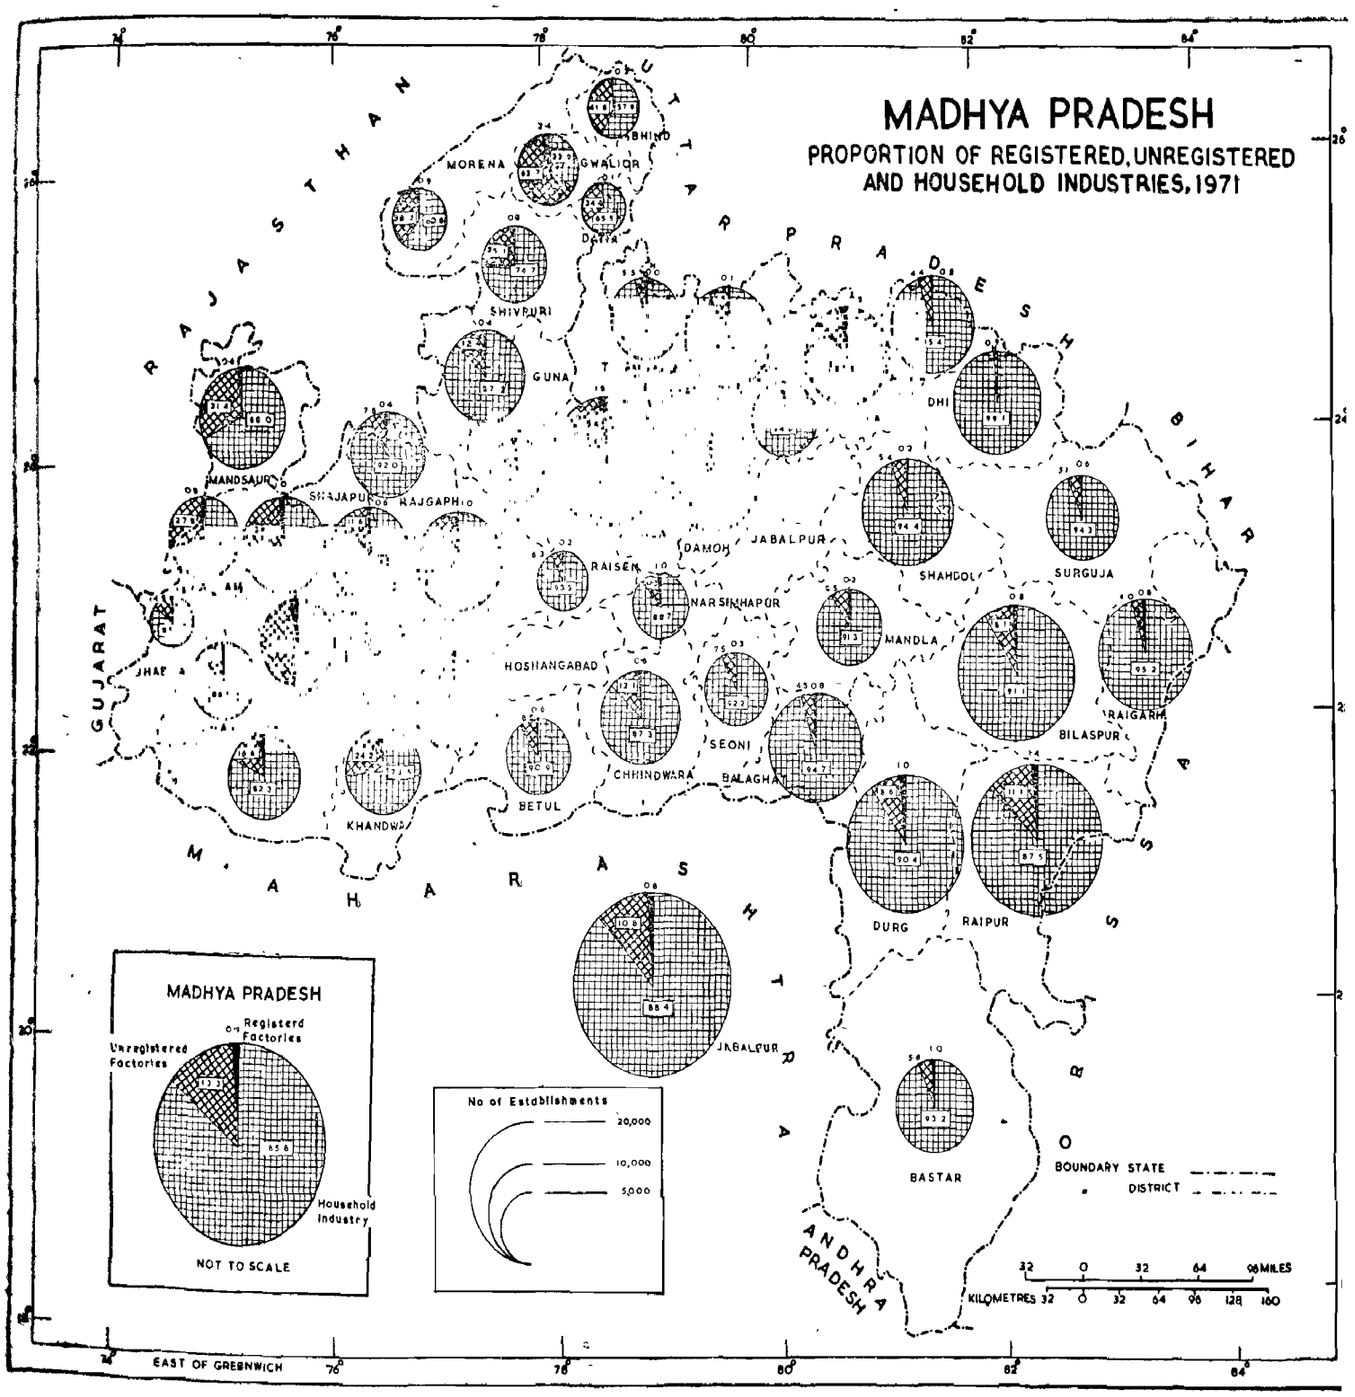

| Type | Units | Employment |
|---|---|---|
| Total | 406,815 (100.00) | 906,874 (100.00) |
| Registered Factories | 3,466 (0.85) | 217,225 (23.95) |
| Unregistered Workshops | 54,230 (13.33) | 126,596 (13.96) |
| Household Units | 349,119 (85.82) | 563,053 (62.09) |

But 85.82 percent of total units account for only 62.09 percent of total employment. Unregistered workshops have slightly over 13 percent of units as well as employment. Registered factories with less than one percent of total units account for as much as 23.95 percent of total employment. The average employment in registered factories is over 62, while it is slightly more than 2 in unregistered workshops.

126. The growth of registered factories in the 1961-71 decade can be studied on conceptual basis by treating all units having returned employment of 10+ with power and 20+ without power in the 1961 Census as registered factories. The total number of such units were 1943 with 632 in the rural areas and 1311 in the urban areas. The number of units returned as registered factories this time is 3466 and thus the rate of growth comes to 78.38 percent. The 1961 and 1971 position may be seen in the following statement :—

127. A higher growth-rate need not necessarily mean that the division/district concerned has in effect made more rapid progress in comparison to other divisions/districts. Increase in the number of units would perhaps be a better indicator. What has been stated above would be obvious when one analyses the figures in the last column of the above table. Jhabua and Betul districts have returned a four-figure growth-rate, closely followed by Shajapur district with 840 percent. Sidhi district's growth-rate is infinite. These four districts cannot be considered more advanced industrially than say districts like Indore, Raipur, Durg, Gwalior, Ujjain etc. The maximum increase in the number of registered factories has been recorded in Sagar district. The number of units have gone up from 81 in 1961 to 320 this time, primarily due to increase of 219 units in the rural areas under major group 22. This is not surprising in the context of a heavy decline in the total number of units of all types in this major-group in Sagar district during the 1961-71 decade. As observed in para 17, the smaller units went out of existence and amalgamation of units seems to have resulted in proliferation of units in the size-class 20-49 persons which have been conceptually treated as registered factories. The next four districts from the point of view of increase in the number of registered factories are Indore (139), Raipur (118), Khandwa (116) and Satna (113). Indore and Raipur districts are industrially advanced but presence of Khandwa and Satna districts in the first five districts may come as a surprise to some. The explanation for Satna district is simple. The number of units in major group 22 in the rural areas have increased from 368 in 1961 to 1146 in 1971 and, therefore, increase of 80 registered factories in the rural areas of this district is not surprising. But in Khandwa district, the increase is on account of rise in the number of persons employed. The relevant major group is 23 which is not surprising because power looms are in plenty in Burhanpur town of Khandwa district. The number of units in the size-class 10-19 persons using power have gone up from 16 in 1961 to 74 this time. This has resulted in the increase in the number of registered factories although the overall increase in the number of units in this major group is of one only.

128. The normal expectation is that there will not be a negative growth-rate in the matter of number of registered factories. Shift from rural to urban and *vice versa* is possible due to recognition or de-recognition of places as towns, but an actual fall in the number of units is hard to explain. In Mandla district, the numbtr of registered factories have gone down from 14 to 11. A comparison of the 1961 and 1971 data shows that whereas seven units were returned under major group 32, dealing in manufacture of lime of 1961, no unit has been returned this time. It is possible that the units closed down on expiry of mining leases. But the fall in the number of registered factories in Balaghat district, 53 units to exact, relates to major group 22, manufacture of bidi and is difficult to understand, especially in the context of phenomenal rise in the number of units in the district in this major group from 422 in 1961 to 4047 this time. Deliberate suppression of employment figures seems to be the only plausible reason in order to avoid registration under the Factories Act.

129. The dispersal of unregistered workshops in the districts of the State along with employment figures, is as under :—

TABLE 44

| State/Division/ District | Units | Persons employed | Ratio |
|---|---|---|---|
| (1) | (2) | (3) | (4) |
| Madhya Pradesh | 54,230 (100.00) | 126,596 (100.00) | 1:2.33 |

| 13. Sidhi | 100 | 200 | 1:2.00 |
| III. Indore Division | 16,643 (30.69) | 36,010 (28.44) | 1:2.16 |
| 14. Mandsaur | 3,275 | 5,792 | 1:1.77 |
| 15. Ratlam | 1,900 | 3,600 | 1:1.89 |
| 16. Ujjain | 2,383 | 5,123 | 1:2.15 |
| 17. Jhabua | 351 | 786 | 1:2.24 |
| 18. Dhar | 768 | 1,527 | 1:1.99 |
| 19. Indore | 4,112 | 10,545 | 1:2.56 |
| 20. Dewas | 814 | 1,588 | 1:1.95 |
| 21. Khargone | 1,190 | 2,373 | 1:1.99 |
| 22. Khandwa | 1,850 | 4,676 | 1:2.53 |
| IV. Bhopal Division | 7,116 (13.12) | 15,132 (11.95) | 1:2.13 |
| 23. Shajapur | 959 | 1,895 | 1:1.98 |
| 24. Rajgarh | 594 | 1,268 | 1:2.13 |
| 25. Vidisha | 688 | 1,393 | 1:2.02 |
| 26. Sehore | 2,981 | 6,486 | 1:2.18 |
| 27. Raisen | 223 | 510 | 1:2.29 |
| 28. Hoshangabad | 1,163 | 2,527 | 1:2.17 |
| 29. Betul | 508 | 1,053 | 1:2.07 |
| V. Jabalpur Division | 9,676 (17.84) | 25,570 (20.20) | 1:2.64 |
| 30. Sagar | 2,154 | 7,044 | 1:3.27 |
| 31. Damoh | 713 | 2,429 | 1:3.41 |
| 32. Jabalpur | 3,793 | 9,227 | 1:2.43 |
| 33. Narsimhapur | 430 | 1,022 | 1:2.38 |
| 34. Mandla | 512 | 1,119 | 1:2.19 |
| 35. Chhindwara | 1,069 | 2,149 | 1:2.02 |
| 36. Seoni | 391 | 819 | 1:2.09 |
| 37. Balaghat | 614 | 1,761 | 1:2.87 |
| VI. Bilaspur Division | 2,434 (4.49) | 7,418 (5.86) | 1:3.05 |
| 38. Surguja | 400 | 1,136 | 1:2.84 |
| 39. Bilaspur | 1,542 | 4,865 | 1.3.15 |
| 40. Raigarh | 492 | 1,417 | 1:2.88 |
| VII. Raipur Division | 4,707 (8.68) | 13,446 (10.62) | 1:2.86 |
| 41. Durg | 1,674 | 4,155 | 1:2.48 |
| 42. Raipur | 2,572 | 7,772 | 1:3.02 |
| 43. Bastar | 461 | 1,519 | 1:3.30 |

130. The number and size of the small unregistered workshops is a fairly correct indicator of industrial progress. This is amply borne out in the above table, as also the fact that workshops are generally located in urban centres. It is well known that State patronage was available in plenty for locating industries in areas that were formerly known as Madhya Bharat. As a result of it, the Indore and Gwalior divisions today account for 48.83 percent of units and 44.19 percent of total employment. Jabalpur division occupies the second position because of the city districts of Jabalpur and Sagar, while some impact of the Bhilai Steel Plant and Heavy Electricals (I) Ltd. can be seen in the figures of Raipur, Durg and Sehore districts. The unit-employment ratio varies only between 1.66 in Shivpuri district to 3.41 in Damoh district and because of this small range nine of the first ten districts are common in terms of units as well as employment, as would be clear from the following :—

TABLE 45

| District | No. of units | Rank | Persons employed | Rank |
|---|---|---|---|---|
| (1) | (2) | (3) | (4) | (5) |
| 1. Indore | 4112 | 1 | 10,545 | 1 |
| 2. Jabalpur | 3793 | 2 | 9,227 | 2 |
| 3. Gwalior | 3382 | 3 | 7,471 | 4 |
| 4. Mandsaur | 3275 | 4 | 5,792 | 7 |
| 5. Sehore | 2981 | 5 | 6,486 | 6 |
| 6. Raipur | 2572 | 6 | 7,772 | 3 |
| 7. Ujjain | 2383 | 7 | 5,123 | 8 |
| 8. Sagar | 2154 | 8 | 7,044 | 5 |
| 9. Ratlam | 1900 | 9 | 3,600 | 12 |
| 10. Khandwa | 1850 | 10 | 4,676 | 10 |

The ninth position in terms of employment is with Bilaspur district; its position in terms of units is twelfth. Durg district occupies the eleventh position. All the above referred twelve districts are either city districts, or very much urban in character. Mandsaur district has one dozen towns and all the other districts have a city, i.e., a town with a population of more than one lac.

131. By its very nature, the household units have got to be small in size. The average employment is only 1.6 per unit. It would, therefore, be better to study the inter-se position of the districts in terms of number of units only and that too by ranges. The picture that emerges is as under (figures in brackets are number of units) :—

TABLE 46

| 10,000 and above | 7,500 to 9,999 | 5,000 to 7,499 | 2,000 to 4,999 | Below 2,000 |

| | | 11. Panna . . (5,552) | | |
| | | 12. Mandla . . (5,492) | | |
| | | 13. Betul . . (5,405) | | |
| | | 14. Dhar . . (5,119) | | |

Merely on the basis of the number of household units in a district, it cannot be said that certain districts are relatively ahead. Size of the districts, both in area and population, vary widely. For household units, area and population are relevant factors, along with local peculiarities. That is why one finds Gwalior and Indore districts in the lower ranges and Damoh district in the highest class because of bidi industry. All that one can say readily is that if a small size district finds a place in the higher range, it is relatively more advanced industrially.

132. The inter-se position of districts on the basis of use of electricity and other power makes an interesting study. As against only 3.47 percent of the total number of units using electricity and other fuel power in 1961, the percentage has gone up to 22.81 this time. The increase is largely due to other fuel power because the share of electricity as such is only 4.73 percent. The table below gives the comparative 1961 and 1971 position regarding type of power used by manufacturing establishments, and the change that has come about during the decade in terms of ratio :—

*Statement* 63

*No. of Establishments by type of power used*

| Type of power | Total | | | Rural | | | Urban | | |
|---|---|---|---|---|---|---|---|---|---|
| | 1961 | 1971 | Ratio | 1961 | 1971 | Ratio | 1961 | 1971 | Ratio |
| 1. Electricity . . . . | 6,111 | 19,257 | 1:3 | 405 | 5,728 | 1:14 | 5,706 | 13,529 | 1:2 |
| 2. Liquid Fuel . . . . | 7,843 | 7,041 | 1:9 | 6,225 | 6,813 | 1:1 | 1,618 | 228 | 1:.1 |
| 3. Coal, Wood & Bagasse . . | 68 | 55,284 | 1:813 | 10 | 47,018 | 1:4701 | 58 | 8,266 | 1:142 |
| 4. Other power . . . . | 22 | 11,235 | 1:511 | 1 | 10,639 | 1:10639 | 21 | 596 | 1:28 |
| 5. Manual . . . . . | 390,984 | 313,998 | 1:8 | 330,285 | 254,114 | 1:.8 | 60,699 | 59,884 | 1:98 |
| 6. Total . . . . . | 405,028 | 406,815 | 1:1 | 336,926 | 324,312 | 1:.9 | 68,102 | 82,503 | 1:12 |

133. If use of electricity only is taken into consideration, the first ten districts in the 1961 and 1971 Censuses were as under :—

*Statement* 64

| 1961 | | 1971 | |
|---|---|---|---|
| District | % of units using electricity | District | % of units using electricity |
| Indore . . | 11·35 | Gwalior . | 18.53 |
| Khandwa . . | 8·65 | Indore . . | 18·16 |
| Gwalior . . | 7·80 | Khandwa . . | 17·70 |
| Sehore . . | 3·98 | Morena . . | 13·92 |

| Raipur . . | 2·58 | Ujjain . . | 10·02 |
| Durg . . . | 2·40 | Sehore . . | 8·09 |
| Jabalpur . | 2·36 | Narsimhapur . | 6·79 |
| Ratlam . . | 2·02 | Mandsaur . . | 6·36 |
| Chhindwara . | 1·71 | Ratlam . . | 6·19 |

Six districts are common and replacement of Raipur, Durg, Jabalpur and Chhindwara districts by Morena, Bhind, Narsimhapur and Mandsaur districts may come as a surprise to many. An analysis of units using electricity according to major-groups esily explains the above phenomenon. Increase in the use of electricity is primarily in major-groups 20-21 (manufacture of food products). Morena, Bhind, Narsimhapur and Mandsaur districts are wheat-growing areas and it seems that the flour mills switched over to use of electricity in the 1961-71 decade (in mills, paddy husk is generally used as fuel in preference to electricity). The growth-rate of units using electricity in these major-groups works out of 3735.71, 1621.74, 542.86 and 818.37, respectively, in the above mentioned four districts.

134. If use of electricity and other fuel power are considered jointly, then the first ten districts in the 1961 and 1971 Censuses are as under :—

*Statement* 65

| 1961 | | 1971 | |
|---|---|---|---|
| District | % of units using power | District | % of units using power |
| 1. Indore . . | 13·76 | Bhind . . | 38·28 |
| 2. Khandwa . | 13·74 | Raigarh . . | 38·20 |
| 3. Gwalior . | 11·25 | Seoni . . . | 36·65 |
| 4. Morena . . | 8·17 | Gwalior . . | 35·05 |
| 5. Khargone . | 7·98 | Betul . . . | 34·63 |
| 6. Dhar . . | 7·01 | Khandwa . . | 33·69 |
| 7. Ujjain . | 6·25 | Mandla . . | 32·73 |
| 8. Betul . . | 6·08 | Morena . . | 32·70 |
| 9. Bhind . . | 5·88 | Raipur . . | 29·87 |
| 10. Mandsaur, Ratlam | 5·45 | Chhindwara . . | 29·85 |

By and large, the predominent districts from the point of view of use of electricity and other fuel power have sizeable forest or coal bearing areas thereby facilitating use of wood or coal as fuel.

135. A study of inter-se position of the revenue divisions would not be out of place. The picture that emerges is as under :—

*Statement* 66

| 1961 | | 1971 | |
|---|---|---|---|
| Division | % of units using power | Division | % of units using power |
| 1. Indore . . | 7·72 | Bilaspur . . | 31·23 |
| 2. Gwalior . | 5·11 | Raipur . . | 27·46 |
| 3. Bhopal . . | 4·23 | Gwalior . | 25·07 |
| 4. Raipur . . | 3·74 | Indore . . | 24·18 |
| 5. Jabalpur . | 2·44 | Rewa . . . | 22·41 |
| 6. Bilaspur . | 1·57 | Bhopal . . | 20·78 |
| 7. Rewa . . | 1·23 | Jabalpur . . | 17·10 |

The above pattern is not difficult to understand. It more or less follows the extent of industrialisation achieved upto 1961 and the greater availability of power in Raipur and Bilaspur divisions by 1971 due to expansion of the Korba Thermal plant. Jabalpur division figures at a low rank in 1961 and at the bottom in 1971 because of the nature of the units in that division. Bidi-rolling is a manual process and Jabalpur division abounds in it.

136. Use of electricity is directly related to availability of electricity. Since every place treated as a town has electricity, the study is being limited to the rural areas by comparing the percentage of villages having electricity with the percentage of units in the rural areas using electricity. There is no direct co-relation, factors like type of units, processes involved etc. being relevant, but generally in case the percentage of villages having electricity is greater than the percentage of units using electricity, then it can be said that full use is not being made of availability of electricity by the industrial units. The following table gives the district-wise position.

TABLE 47

| State/District | % of villages having electricity to total villages (1969) | % Of Units using electricity to total units in rural areas (1970) |
|---|---|---|
| 1 2 | 3 | 4 |
| Madhya Pradesh | 7.4 | 1.8 |
| 1. Morena | 8.7 | 9.4 |
| 2. Bhind | 10.4 | 9.3 |
| 3. Gwalior | 6.6 | 5.4 |
| 4. Datia | 9.7 | 2.5 |
| 5. Shivpuri | 3.7 | 1.1 |
| 6. Guna | 1.7 | 0.8 |
| 7. Tikamgarh | 5.0 | 1.0 |
| 8. Chhatarpur | 3.3 | 1.3 |

TABLE 47—*Concld.*

| 1 | 2 | 3 | 4 |
|---|---|---|---|
| 9. | Panna | 2.9 | 0.7 |
| 10. | Satna | 6.5 | 1.7 |
| 11. | Rewa | 4.6 | 1.3 |
| 12. | Shahdol | 2.4 | 0.4 |
| 13. | Sidhi | 3.4 | 0.4 |
| 14. | Mandsaur | 11.7 | 4.0 |
| 15. | Ratlam | 15.5 | 2.1 |
| 16. | Ujjain | 17.0 | 3.9 |
| 17. | Jhabua | 6.3 | 2.1 |
| 18. | Dhar | 7.5 | 3.1 |
| 19. | Indore | 37.2 | 7.9 |
| 20. | Dewas | 10.8 | 2.1 |
| 21. | Khargone | 7.0 | 2.1 |
| 22. | Khandwa | 9.5 | 3.2 |
| 23. | Shajapur | 9.0 | 2.6 |
| 24. | Rajgarh | 3.6 | 1.2 |
| 25. | Vidisha | 2.1 | 1.8 |
| 26. | Sehore | 5.6 | 2.9 |
| 27. | Raisen | 3.8 | 3.1 |
| 28. | Hoshangabad | 11.3 | 1.6 |
| 29. | Betul | 9.7 | 3.9 |
| 30. | Sagar | 5.0 | 0.8 |
| 31. | Damoh | 6.0 | 0.4 |
| 32. | Jabalpur | 11.8 | 0.7 |
| 33. | Narsimhapur | 12.9 | 3.8 |
| 34. | Mandla | 3.4 | 0.7 |
| 35. | Chhindwara | 10.6 | 2.8 |
| 36. | Seoni | 11.2 | 2.2 |
| 37. | Balaghat | 7.6 | 0.9 |
| 38. | Surguja | 3.1 | 0.6 |
| 39. | Bilaspur | 12.4 | 1.9 |
| 40. | Raigarh | 5.7 | 0.6 |
| 41. | Durg | 12.6 | 1.8 |
| 42. | Raipur | 5.6 | 2.0 |
| 43. | Bastar | 2.5 | 0.8 |

In terms of ratio, relatively better use of available electricity is to be seen in Morena, Bhind, Gwalior, Vidisha and Raisen districts. This is mainly due to these districts being wheat growing areas and use of electricity by the 'atta-chakkis' in the rural areas. Further, the total number of units in the rural areas of these districts is not very large, i.e., industrially these districts are backward, as a result of which the percentages work out high. The utilisation ratio is poor in Ratlam, Hoshangabad, Sagar, Damoh, Jabalpur, Seoni, Balaghat, Bilaspur, Raigarh, and Durg districts. No plausible reasons are forthcoming for Ratlam and Hoshangabad districts. As for the rest, bidi-rolling and rice-milling units, which predominate in the rural areas, do not require use of electricity and hence the utilisation ratio appears to be poor.

137. Before concluding this Chapter, it would not be out of place to refer here to some of the observations made by my predecessor in his Report. Some of the points raised by him can be answered, but those relating to performance of certain types of units discussed on the basis of minor groups, will have to go unanswered because this time data has not been compiled according to minor-groups.

138. On the question of comparability of figures, my predecessor has observed thus : *"It is important to remember two things in studying the figures in this table. First, the basic unit here is the 'Census house' and not the workshop or factory. The implication of this approach is that where a factory is situated in more than one building, it will not appear as a single unit in these tables and, where more than one workshop was found in the same Census house, they were all entered but, at the time of tabulation, only the most/more important was taken into consideration, the other being ignored. It follows that complete agreement cannot be expected between these figures and those compiled by the Chief Inspector of Factories (who naturally, treats the factory as a unit) even in respect of those establishments that apparently come within the purview of the definition of 'factory' in the Factories Act. This is one reason for the lack of agreement; the other is that many establishments—particularly those run without power-escape registration." This observation very much stands true this time also in the sense that as against 3003 working registered factories on the books of the Chief Inspector of Factories, Madhya Pradesh, as on 31-12-70, the Census figures show 3466 registered units in April-May, 1970. The variation is over ten percent, presumably due to non-registration to escape the provisions of the Act, because the instructions this time were to record different shops of a big factory as one unit, as would be clear from the following passage of Instructions to Enumerators for filling up the Houselist and Establishment Schedule : "It is likely that a single factory or workshop may be spread over more than one Census house adjoining one another. Therefore, while in column 2 of this schedule a number of Census houses may be noted in respect of that particular unit of production, processing or repairing, trade or business etc., the entries in column 3 onwards will be only one for that group of houses covered by a single unit of production or business etc." All the same, the possibility of different shops of units like the Bhilai Steel Plant, Heavy Electricals (I) Ltd., etc., getting recorded as separate establishments cannot be ruled out this time also. Perhaps there is nothing wrong in this approach because the various items of manufacture, by-products etc., are in essence separate, in different Census houses, and can rightly be treated as independent establishments, although under the Factories Act the unit may be treated as one only.

139. The predominent place of single person units in the industrial economy of the State was highlighted by my predecessor in para 65 of his Report. The comparative 1961 and 1971 position may be seen in the following statement.

*Statement 67*

| 1961 | | | 1971 | | |
|---|---|---|---|---|---|
| 1 Person | 2—9 Persons | 10+ and Non-reporting | 1 Person | 2—9 Persons | 10+ and Non-reporting |
| 250,993 | 150,662 | 3,373 | 217,200 | 184,624 | 4,991 |
| (61·97) | (37·20) | (0·83) | (53·39) | (45·38) | (1 23) |

*G. Jagathpathi : Housing and Establishment Report, Part IV-A : Para 63, Page 33.

The percentage of one person units has gone down by 8.58 percent primarily due to fall in the number of units in major group 22. As a matter of fact, bidi making is the predominent occupation in Jabalpur division as a result of which it had 33.74 percent of total manufacturing units in the State in 1961. About this regional pattern, my predecessor had made the following comment in his Report : "while purely from the point of view of the economy, it is to be hoped that nothing adverse to this widespread occupation would occur, it is impossible to be certain that considerations of health will not supervene as some time or the other as currenty is happening in the case of cigarette smoking. Any substantial decline in the demand for bidis will create in this region an extensive 'depressed area' the re-development of which will be a very difficult problem. For, bereft of bidi-making, the economy of Jabalpur division is not particularly impressive compared with other divisions (para 65. page 34)." Now figures of sale of bidis are not available, but this much is a fact that the number of units have gone down as a result of which Jabalpur division is fast losing its primary place. It has now only 25.11 percent of the total manufacturing units in the State as against 33.74 percent in 1961. All the other divisions have gained except Bhopal division where there is a nominal fall of .09 percent. Rewa division continues to be at the second place with 16.72 percent. And even if only major group 22 is considered, within the division its share has gone down from 49.58 percent to 39.52 percent. In the State, as against 95.48 percent in 1961, Jabalpur division now accounts for only 82.08 percent of the total units in this major group. In other words, quite apart from fall in the number of bidi-making units, there is either a shift in the location of such units in the State, or very much larger percentage of such units have closed down in this division in the 1961-71 decade. Prima-facie health hazard does not appear to have resulted in reduction in the number of units. As stated in para 17, amalgamation of units and shift in location due to greater exploitation of 'tendu leaf' in the other areas of the State (Satna, Guna, Raipur, Durg) seem to have hit the economy of Jabalpur division.

140. Although, as stated earlier, it would not be possible to answer observations relating to certain industries analysed according to minor groups, it would still be useful to serialise them here for no other reason than to highlight the necessity of data according to minor-group. (i) mg. 231-cotton spinning by charkha and takali, and mg. 236-manufacture of khadi textile in handlooms, are both industries whose long term future is very dim if left unprotected from competition by special patronage of government: their economic importance is slight (Para 75. page 47); (ii) so far as rural areas are concerned, MG 27 (Textile miscellaneous) is a monopoly of the tailor; 18,901 (or 96.67%) of the 19,553 establishments in this Major Group are in mg. 274.4 (making of textile garments including raincoats and headgear not elsewhere classified) .....Its distribution among divisions cannot be directly proportional to population; a number of factors are obviously important. The greater the area, the greater has to be the number of establishments though average size may decrease ; similarly, the greater the number of workers and the greater the number of adults, the larger has to be the number of tailoring establishments. This is as far as quantitative indices can go. Thereafter, factors like customs relating to dress, the manner in which the demand for clothing changes as income changes, etc., intervene which are either not measurable. or to measure which no attempt has been made (para 76, page 48) ; (iii) The rural areas of Datia district have not returned a single establishment (in mg 273.4) which is probably an error in enumeration (para 76, page 48) ; (iv) mg 393.2. —goldsmithy, 393:3—manufacture of jewellery, silverware and wares using gold and other precious metal and semi-precious stones, and 393.9—manufacture of jewellery, silverwares, etc., not elsewhere classified. The divisional distribution of establishments in minor groups relating to precious metals and stones, however, is somewhat different ; Jabalpur 23.20% ; Rewa 20.95% ; Bilaspur 16.91% ; Bhopal 11.54%); Raipur 10.77% ; Indore 10.73% ; and Gwalior 5:84%. It has not been possible to explain this distribution by reference to some other factor like population, proportion of workers, etc., it may be that the distribution of these establishments among divisions is some indication of the degree of inequality in the distribution of wealth—the higher this degree, the larger (probably) is the number of establishments in these occupations. On this view, Satna and Rewa which have abnormally large numbers of these establishments would qualify as the areas with the most unequal distribution of wealth, but there is little other evidence to support this proposition. The banning of gold purer than 14 carat gold has of course adversely affected the future of these occupations and, unless the workers are able to devise ways and means of working with 14 carat gold, the numbers engaged in these occupations would gradually decline (para 77, page 49) ; (v) The next important in MG 39 in mg 394 (manufacture, repairing and tuning of musical instruments) with 287 establishments of which 251 are in Bilaspur and Raipur divisions. This peculiar distribution is due to the fact that it is in this area that we find a concentration of three castes—Ghasia, Dom and Dhanwar—members of which have been traditionally functioning as village musicians at festivals (para. 77, page 49) ; (vi) The last of the major groups to be considered is 25 which, however, is practically completely represented by mg 255 (weaving of woollen cloth in handloom such as blankets, rugs, pashmina, thulma, gudma, etc.) which has 99.61% of the establishments in the major group ..... The industry is mostly limited to the production of blankets on a cottage industry scale ..... It does not appear that the question of reserving certain lines of production for the handloom woollen industry has been so far considered but clearly this industry faces severe competition from mills as a result of which either the industry will become extinct in due course, or earnings will become abnormally depressed (para. 78, pages 49-50); (vii) In MG 38, the most important is mg 388 (repair of cycle and rickshaw) with 1070 establishments (or 91·37% of those in the major group). The number of rickshaws in rural areas is of course negligible but that of cycles has increased tremendously during the last decade or so. A cycle repair shop is found practically in every big village ; there are in this State 815 villages with a population of over 2000 each (para 79, page 50); (viii) mg. 212:1 (production of indigenous liquor such as liquor, toddy, neera from mahua and palm trees) is the most important minor group in MG 21 (Beverages) ; it is important only in a few districts in the east and south-east ; Shahdol (19), Sidhi (39), Mandla (58), Surguja (107), Bilaspur (19), Raigarh (51), Raipur (35) and Bastar (134), which account for 462 out of 479 establishments in the minor-group and of the 503 establishments in the major groups (para. 79, page 50).

141. A study of the above extracts, taken from the 1961 Housing and Establishment Report, Part IV-A, clearly highlights the necessity of data according to minor-groups. Rural economy is no doubt very much agricultural in character now, but certain types of small industrial units have been existing for long. The impact of the Industrial Policy, whether it is assisting in the growth of cottage and small-scale units or resulting in their extinction gradually, as also the regional pattern, can be best studied with the help of details of manufacturing units according to minor-groups. If the data was available. the various observations of my predecessor, serialised in the preceding para, could be tested and the trend ascertained. Unfortunately this is not possible. One can only hope that this lacuna would be removed at the next Census.

## CHAPTER 4

*Trading Establishments*

142. The discussion in this Chapter is in respect of divisions 6 and 8 of the National Indutrial Classification, 1970, so far as number of units is concerned. As regards figures of employment, it is limited to category VII which covers, as per edit instructions, everyone employed in units relating to divisions 6 and 8.

143. There are in all 249,328 units in the State employing a total of 420,415 persons. The rural-urban break up may be seen in the following table.

TABLE 48

| Units/Persons | Total | Rural | Urban |
|---|---|---|---|
| Units . . . | 249,328 | 134,948 | 114,380 |
| | (100·00) | (54·10) | (45·90) |
| Persons . . . | 420,415 | 188,051 | 232,364 |
| | (100·00) | (44·73) | (55·27) |

The highly urban character of trading establishments would be clear from the above table. Although 83.71 percent of the population lives in rural areas, only 54.1 percent of the trading establishments are in rural areas employing a total of 44.73 ptrcent only of total workers in category VII. This is not surprising because the size and number of trading units in the countryside is generally small and one often sees the villager making his purchases in the tahsil headquarter/district headquarter town.

144. The break up of the trading establishments in the State into wholesale, retail and others may be seen in the following table. Here it would not be out of place to clarify that by 'others' are meant units in major group 69 (Restaurants & hotels) and the entire division 8 and it should not be confused with all the units entered in column 11 of the Establishment Schedule.

TABLE 49

| Sector | Total Units | Wholesale | Retail | Others |
|---|---|---|---|---|
| (1) | (2) | (3) | (4) | (5) |
| Total . . | 249,328 | 6,334 | 202,796 | 40,198 |
| | (100·00) | (2.6) | (81·3) | (16·1) |
| Rural . . | 134,948 | 894 | 115,002 | 19,052 |
| | (100·00) | (0·7) | (85·2) | (14·1) |
| Urban . . | 114,380 | 5,440 | 87,794 | 21,146 |
| | (100·00) | (4·8) | (76·8) | (18·4) |

The picture that emerges in the above table is not surprising. The preponderance of retail trade units is only to be expected. A 'kirana shop' in a village (more in bigger villages) is generally seen. Further, tea drinking is on the increase in the rural areas as also wayside eating houses in villages on trunk routes and that is why one finds more retail units in rural areas, although in terms of rural-urban population and number of villages/towns, it is less. Similarly, sizeable units in divisions 0, 1 and 9 are to be expected in the villages and that is why one finds nearly half of 'other' establishments in the rural areas. That wholesale trade is primarily concentrated in urban areas also becomes evident in the above table. The table given below explains better what has been stated above.

TABLE 50

| Sector | Wholesale | Retail | Others |
|---|---|---|---|
| Total . . . . | 6,334 | 202,796 | 40,198 |
| | (100·00) | (100·00) | (100·00) |
| Rural . . . . | 894 | 115,002 | 19,052 |
| | (14·11) | (56·71) | (47·40) |
| Urban . . . . | 5,440 | 87,794 | 21,146 |
| | (85·89) | (43·29) | (52·60) |

145. Before taking up discussion of the predominent major groups, it would first be necessary to give break up of the total units according to divisions and major groups. The position is as under :—

TABLE 51

| Division/MG | Total | | Rural | | Urban | |
|---|---|---|---|---|---|---|
| | Units | Persons | Units | Persons | Units | Persons |
| (1) | (2) | (3) | (4) | (5) | (6) | (7) |
| 6+8 . . . . . | 249,328 | 420,415 | 134,948 | 188,051 | 114,380 | 232,364 |
| | (100.00) | (100.00) | (100.00) | (100.00) | (100.00) | (100.00) |
| 6 . . . . . | 241,161 | 386,754 | 132,737 | 181,316 | 108,424 | 205,438 |
| | (96.7) | (92.0) | (98.4) | (96.4) | (94.8) | (88.4) |

Table 51—*Concld.*

| (1) | (2) | (3) | (4) | (5) | (6) | (7) |
|---|---|---|---|---|---|---|
| 60 | 5,041 (2.0) | 16,017 (3.8) | 714 (0.5) | 1,806 (1.0) | 4,327 (3.8) | 14,211 (6.1) |
| 61 | 455 (0.2) | 1,375 (0.3) | 40 (N) | 67 (N) | 415 (0.3) | 1,308 (0.6) |
| 62 | 249 (0.1) | 765 (0.2) | 44 (N) | 128 (0.1) | 205 (0.2) | 637 (0.3) |
| 63 | 78 (N) | 253 (0.1) | 6 (N) | 7 (N) | 72 (0.1) | 246 (0.1) |
| 64 | 511 (0.2) | 1,614 (0.4) | 90 (0.1) | 406 (0.2) | 421 (0.4) | 1,208 (0.5) |
| 65 | 145,018 (58.2) | 199,004 (47.3) | 95,718 (70.9) | 123,333 (65.6) | 49,300 (43.1) | 75,671 (32.6) |
| 66 | 22,172 (8.9) | 36,968 (8.8) | 9,355 (7.0) | 13,380 (7.1) | 12,817 (11.2) | 23,588 (10.1) |
| 67 | 21,981 (8.8) | 35,427 (8.4) | 6,535 (4.4) | 8,542 (4.5) | 15,446 (13.5) | 26,885 (11.6) |
| 68 | 13,627 (5.5) | 23,773 (5.7) | 3,396 (2.5) | 4,581 (2.4) | 10,231 (8.9) | 19,192 (8.2) |
| 69 | 32,029 (12.8) | 71,558 (17.0) | 16,839 (12.5) | 29,066 (15.5) | 15,190 (13.3) | 42,492 (18.3) |
| 8 | 8,167 (3.3) | 33,661 (8.0) | 2,211 (1.6) | 6,735 (3.6) | 5,956 (5.2) | 26,926 (11.6) |
| 80 | 2,091 (0.9) | 17,355 (4.1) | 1,029 (0.8) | 3,921 (2.1) | 1,062 (0.9) | 13,434 (5.8) |
| 81 | 56 (N) | 1,043 (0.3) | 1 (N) | 1 (N) | 55 (0.1) | 1,042 (0.5) |
| 82 | 4,694 (1.9) | 13,020 (3.1) | 1,019 (0.8) | 2,690 (1.4) | 3,585 (3.1) | 10,330 (4.4) |
| 83 | 1,326 (0.5) | 2,243 (0.5) | 72 (N) | 123 (0.1) | 1,254 (1.1) | 2,120 (0.90) |

In division 6, the predominent major-groups are 60, 65, 66, 67, 68 and 69, while in division 8 they are 80 and 82. More than fifty percent of the total trading establishments belong to major group 65, which is not at all surprising as it relates to retail trade in food and food articles, beverage, tobacco and intoxicants. The consumption of articles covered in this major group is bound to be very high both in the rural and urban areas and that is why one finds over 60 percent of the total establishments in this major group in the rural areas. Having now established the predominent major-groups, it would now be in order to study them in detail and discuss the inter-se position of the districts.

**Major Group 60: Wholesale Trade in Food, Tertiles, etc.**

146. There are in all 5,041 units in this major group in the State. The rural-urban break up of total units and persons employed follows the expected pattern of wholesale trade, as would be clear from the following table :—

TABLE 52

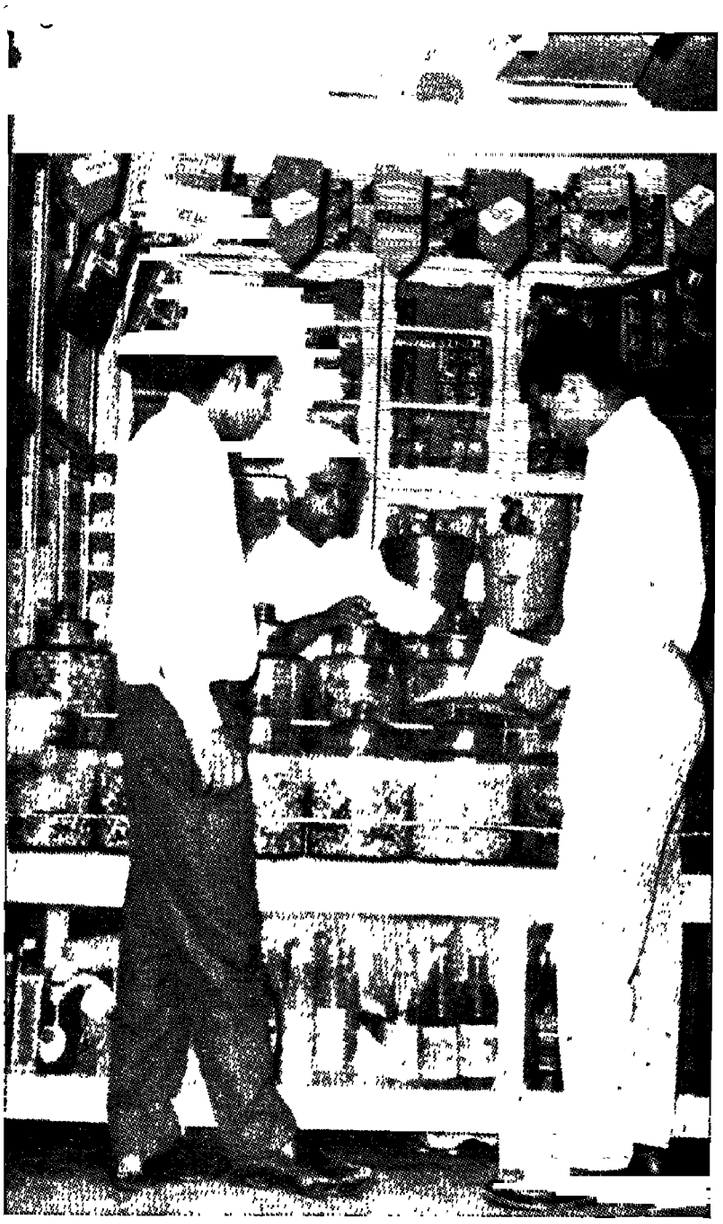

| Sector | Units | Persons employed | Ratio |
|---|---|---|---|
| Total | 5,041 (100·00) | 16,017 (100·00) | 3·18 |
| Rural | 714 (14·16) | 1,806 (11·28) | 2·53 |
| Urban | 4,327 (85·84) | 14,211 (88·72) | 3·28 |

Over eightyfive percent of the units and employees are in the urban areas as is only to be expected because wholesale trade involves blocking of sizeable amount of capital. But there is negligible difference regarding the size of the units. Wholesale trade follows a uniform pattern and that perhaps explains the narrow range in the matter of size of the units in the rural and urban areas.

147. The first ten districts in this major-group in terms of number of units are as under :—

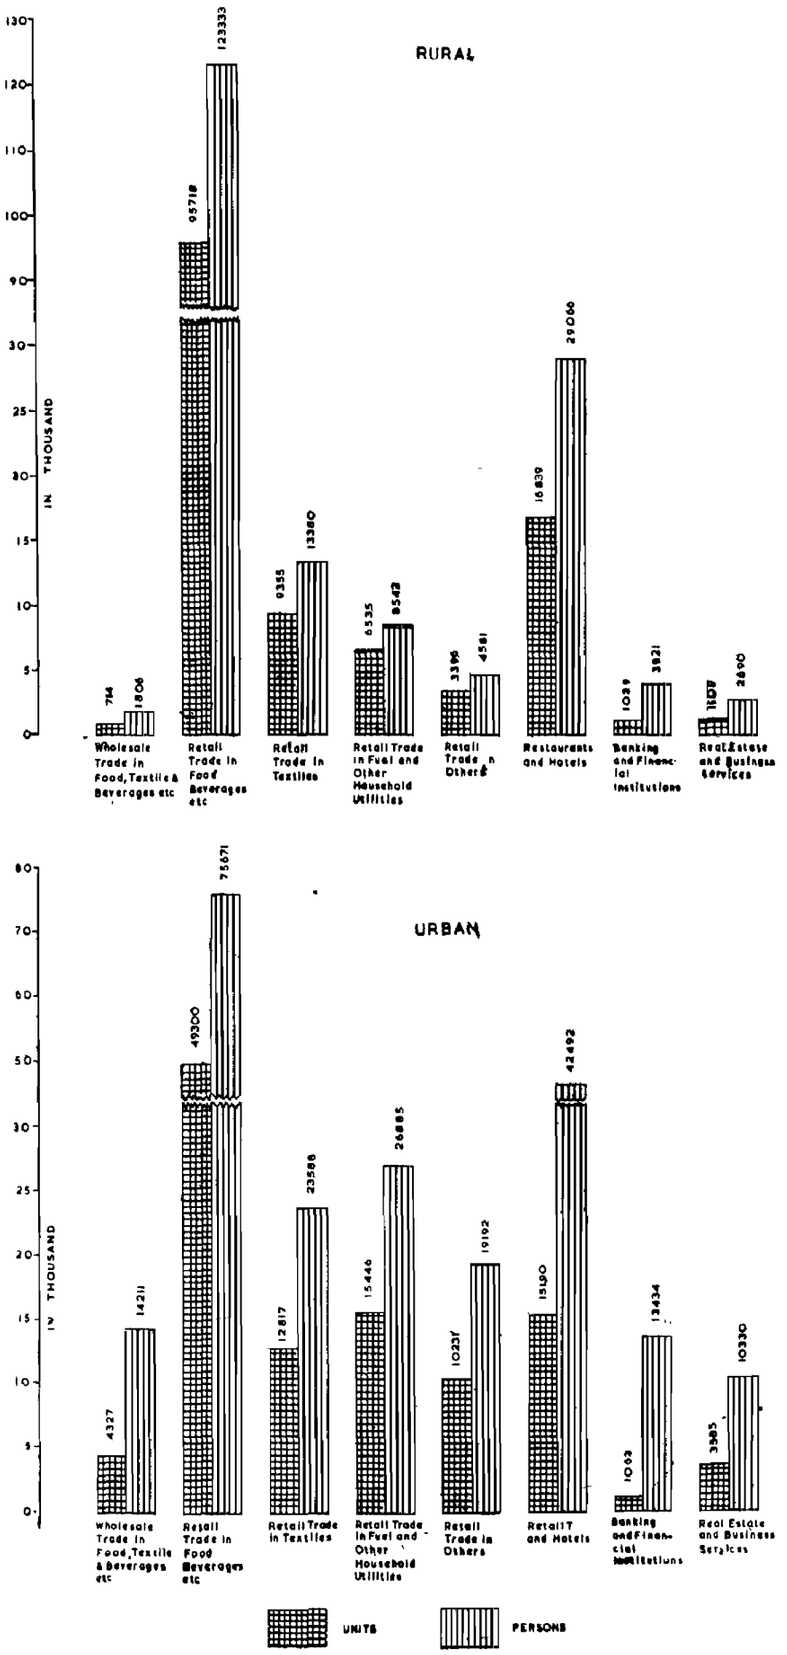

TABLE 53

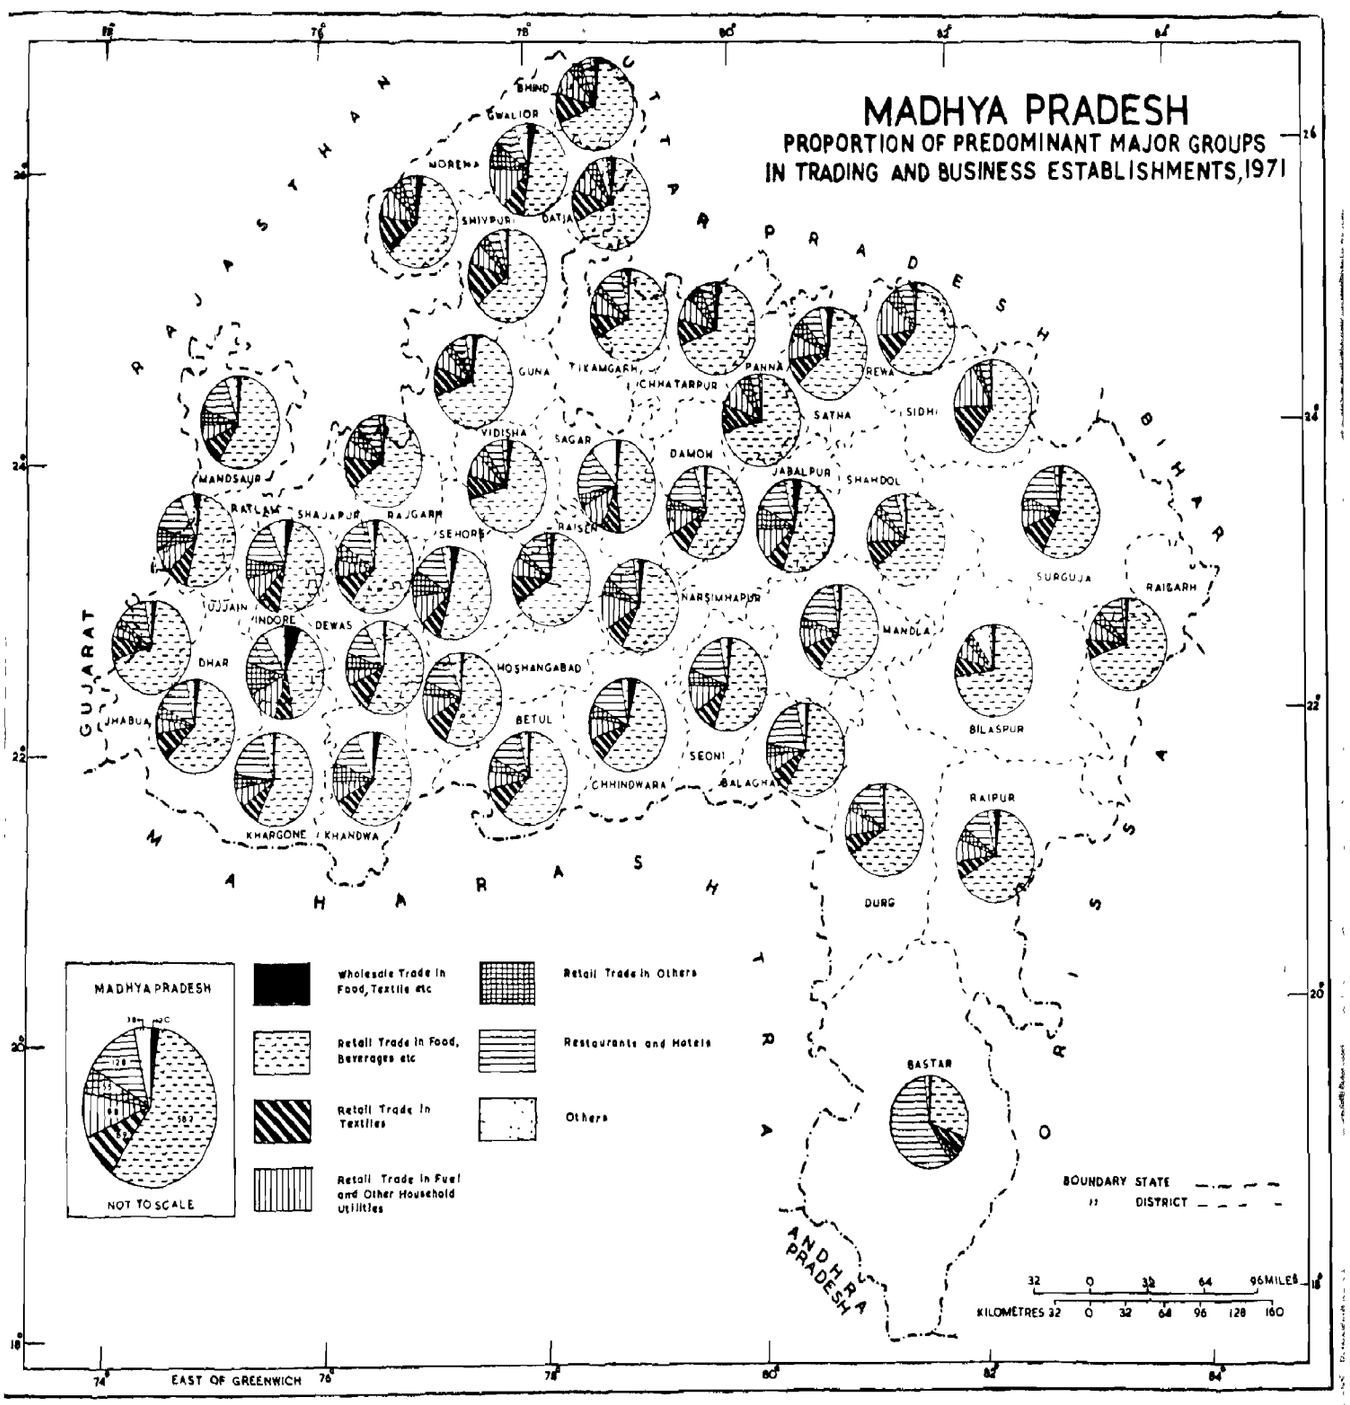

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh | 5,041 (100·00) | 714 (100·00) | 4,327 (100·00) |

EAST OF GREENWICH

There is nothing surprising in the above list of the first ten districts. All are city districts, except Chhindwara, which has over a dozen towns. Relatively larger number of units in the rural areas of Durg, Raipur and Bilaspur districts is understandable, because, apart from being located in the 'rice-bowl' zone of the State, they are also the three biggest districts in the State in terms of population. In wholesale business, concentration is only to be expected, at least in urban areas, and that is why the first ten districts account for as much as 60.78 percent of the total units, and 64.71 percent of the total urban units.

148. The pattern of units is to be seen in respect of employment also. Nine districts are common, as would be clear from the following:—

TABLE 54

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh . . . | 16,017 (100·00) | 1,806 (100·00) | 14,211 (100·00) |
| 1. Indore . . . | 2,501 | 35 | 2,466 |
| 2. Jabalpur . . . | 1,502 | 56 | 1,446 |
| 3. Raipur . . . | 1,024 | 151 | 873 |
| 4. Sehore . . . | 963 | 30 | 933 |
| 5. Gwalior . . . | 928 | 3 | 925 |
| 6. Ujjain . . . | 755 | 62 | 693 |
| 7. Chhindwara . . | 743 | 19 | 724 |
| 8. Bilaspur . . . | 580 | 147 | 433 |
| 9. Durg . . . | 567 | 171 | 396 |
| 10. Sagar . . . | 550 | 31 | 519 |
| Total (1 to 10) . . | 10,113 (63·14%) | 705 (39·04%) | 9,408 (66·20%) |

149. The uncommon district is Sagar which occupies the eleventh place in terms of units. Perhaps the size of units dealing in wholesale trade in tobacco and tobacco products remains large; all the same, the upward/downward movement of the two uncommon districts is marginal only as would be obvious from the following :—

TABLE 55

| District | Units | Rank | Persons employed | Rank |
|---|---|---|---|---|
| Khandwa . | 172 | 8 | 468 | 12 |
| Sagar . . | 150 | 11 | 550 | 10 |

150. The size of the units in this major group is, by and large, small. Over 80 percent of the units employ less than 5 persons, as would be clear from the following :—

TABLE 56

| Total | 1 Persons | 2-4 Persons | 5-9 Persons | 10-19 Persons | 20-49 Persons | 50-99 Persons | 100+ | Unspecified |
|---|---|---|---|---|---|---|---|---|
| 5,041 . . . | 1,192 | 2,939 | 728 | 145 | 23 | 2 | 1 | 11 |
| (100.00) . . . | (23.7) | (58.3) | (14.4) | (2.9) | (0.5) | (N) | (N) | (0.2) |

Units in the size-classes 50-59 and 100 + appeared to be improbable and therefore a verification with the original record was made. An error of concept came to light in the sense that the solitary unit of 100+ and one in 50-99 returned from Balaghat urban are in fact cooperative Grain Mandis. The strength of members of the mandis have obviously been treated as number of employees.

151. As stated earlier, wholesale trade requires investment of sizeable amount of capital and, therefore, in small, backward areas, negligible number or complete absence of such units is possible. This would be obvious from the following list of the last ten districts in this major-group where also larger number of units are in the urban areas:—

TABLE 57

| District | Total | Rural | Urban |
|---|---|---|---|
| 1. Panna . . . | .. | .. | .. |
| 2. Sidhi . . . | 1 | .. | 1 |
| 3. Tikamgarh . . | 18 | 4 | 14 |
| 4. Shivpuri . . . | 27 | 5 | 22 |
| 5. Rewa . . . | 27 | 6 | 21 |
| 6. Shahdol . . . | 27 | 9 | 18 |
| 7. Betul . . . | 27 | 4 | 23 |
| 8. Rajgarh . . . | 28 | 15 | 13 |
| 9. Bastar . . . | 34 | 18 | 16 |
| 10. Mandla . . . | 36 | 13 | 23 |

**Major Group 65 : Retail Trade in Food, Beverage, etc.**

152. This major-group accounts for the largest number of trading establishmtnts—145,018 units which comes to 58.2 percent. The rural-urban break up is as follows:—

TABLE 58

| Sector | Units | Persons employed | Ratio |
|---|---|---|---|
| Total . . . . | 145,018 (100·00) | 199,004 (100·00) | 1·37 |
| Rural . . . . | 95,718 (66·00) | 123,333 (61·98) | 1·29 |
| Urban . . . . | 49,300 (34·00) | 75,671 (38·02) | 1·53 |

The position is radically different from what was seen in major-group 60. Larger number of units and employment is to be seen in the rural areas. This is not understandable because sale to the consumer has got to be as near the place of his habitation as possible. Admittedly, the percentages of units and persons employed is not fully relatable to the percentages of persons living in the rural and urban areas, but this is due to the scattered nature of habitations in the rural areas and factors like density of population, purchasing power, etc.

153. The first ten districts in terms of number of units are as under :—

TABLE 59

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh . . . | 145,018 (100·00) | 95,718 (100·00) | 49,300 (100·00) |
| 1. Raipur . . . | 10,828 | 8,187 | 2,641 |
| 2. Durg . . . | 9,914 | 6,875 | 3,039 |
| 3. Bilaspur . . . | 9,642 | 7,763 | 1,879 |
| 4. Jabalpur . . . | 7,067 | 2,872 | 4,195 |
| 5. Mandsaur . . . | 5,525 | 3,759 | 1,766 |
| 6. Sehore . . . | 5,017 | 2,022 | 2,995 |
| 7. Indore . . . . | 4,868 | 1,303 | 3,565 |
| 8. Khargone . . . | 4,267 | 2,935 | 1,332 |
| 9. Gwalior . . . | 4,074 | 1,353 | 2,721 |
| 10. Sagar . . . . | 3,864 | 1,981 | 1,883 |
| TOTAL (1 to 10) . . | 65,066 (44·86) | 39,050 (40·79) | 26,016 (52·77) |

In the context of the earlier observation that the retail units are, by and large, likely to be located near to the consumers, it may look odd that the first ten districts (less than 25 percent of the total districts in the State) account for nearly half of the total units in this major-group. But then it has to be remembered that the above mentioned ten districts account for 33.37 percent of rural population and 56.63 percent of urban population of the State.

154. The first ten districts from the point of view of employment are as under :—

TABLE 60

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh . . . | 199,004 (100·00) | 123,333 (100·00) | 75,671 (100·00) |
| 1. Raipur . . . | 15,821 | 11,410 | 4,411 |
| 2. Durg . . . | 13,915 | 8,990 | 4,925 |
| 3. Bilaspur . . . | 13,382 | 10,404 | 2,978 |
| 4. Jabalpur . . . | 10,257 | 3,754 | 6,503 |
| 5. Mandsaur . . . | 7,189 | 4,629 | 2,560 |
| 6. Indore . . . | 7,158 | 1,605 | 5,553 |
| 7. Sehore . . . | 6,941 | 2,417 | 4,524 |
| 8. Khargone . . . | 6,159 | 3,793 | 2,366 |
| 9. Gwalior . . . | 5,550 | 1,531 | 4,019 |
| 10. Ujjain . . . | 5,258 | 1,851 | 3,407 |
| TOTAL (1 to 10) . . | 91,630 (46·04) | 50,384 (40·85) | 41,246 (54·50) |

The first nine districts are common with a marginal change in the ranks of Sehore and Indore districts. In the tenth place, Sagar district is displaced by Ujjain district. But the movement is very nominal in the sense that both are at the eleventh place in the list in which they are missing.

155. Exactly ninetynine percent of the units employ less than five persons. This is not at all surprising because even in fairly big retail shops, one does not find more than 3 to 4 persons in addition to the proprietor and his family members. The complete break up of the total units according to size-class is as under :—

TABLE 61

| Total | 1 Person | 2–4 Persons | 5–9 Persons | 10–19 Persons | 20–49 Persons | 50–99 Persons | 100+ Persons | Unspecified |
|---|---|---|---|---|---|---|---|---|
| 145,018 | 105,022 | 38,564 | 1,024 | 124 | 22 | 2 | 1 | 259 |
| (100.00) | (72.4) | (26.6) | (0.7) | (0.1) | (N) | (N) | (N) | (0.2) |

Mistakes similar in nature to those found in respect of major group 60 were detected here also. It is quite common for large number of retailers in vegetables, fruits, meat, etc., to sit in one big market and transact their business. The unit has been treated as one and separate retailers as number of employees of a single establishment.

156. Some units are bound to be there in this major group in every district because even with nominal capital the unit can sustain itself on daily turn over. This would be clear from the following table which shows that the last ten districts in this major group also account for over ten percent of the total units in this major-group :—

TABLE 62

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh . . . | 145,018 (100·00) | 95,718 (100·00) | 49,300 (100·00 |
| 1. Seoni . . . . | 1,283 | 895 | 388 |

TABLE 62—*Concld.*

| State/District | Total | Rural | Urban |
|---|---|---|---|
| 2. Panna . . . | 1,347 | 1,133 | 214 |
| 3. Datia . . . . | 1,372 | 1,074 | 298 |
| 4. Mandla . . . | 1,424 | 1,104 | 320 |
| 5. Sidhi . . . . | 1,441 | 1,369 | 72 |
| 6. Betul . . . | 1,447 | 950 | 497 |
| 7. Narsimhapur . . | 1,582 | 982 | 600 |
| 8. Jhabua . . . | 1,716 | 1,182 | 534 |
| 9. Raisen . . . | 1,751 | 1,540 | 211 |
| 10. Tikamgarh . . | 1,802 | 1,629 | 173 |
| TOTAL (1 to 10) . . | 15,165 (10·46) | 11,858 (12·39) | 3,307 (6·71) |

**Major Group 66 : Retail Trade in Textiles**

157. Third largest in terms of number of units in divisions 6 and 8, this major-group accounts for a total of 22,172 units with a total employment of 36,968 persons. The predominent urban character of the units would be obvious from the following table :—

TABLE 63

| Sector | Units | Persons employed | Ratio |
|---|---|---|---|
| Total . . . . . | 22,172 (100·00) | 36,968 (100·00) | 1·67 |
| Rural . . . . . | 9,355 (42·19) | 13,380 (36·19) | 1·43 |
| Urban . . . . . | 12,817 (57·81) | 23,588 (63·81) | 1·84 |

Concentration of units in the urban areas is only to be expected because the more affluent population lives in the towns and cities. Some cloth is no doubt required by everyone but the demands of the rural population are very few, especially of the tribals who make do with a single garment only. And the population of the scheduled tribes is not insignificant in our State. They form 20.14 percent of total population and 23.64 percent of rural population.

158. The first ten districts in this major-group in terms of total number of units may be seen in the following table. The figures bear ample testimony to the earlier observations regarding urban character and requirement of cloth in some degree in each district. The first ten districts account for units more or less in proportion to the percentages of rural and urban population living in it (rural 32.74% ; urban 55.46%).

TABLE 64

| State/District | Total | Rural | Urban |
|---|---|---|---|
| (1) | (2) | (3) | (4) |
| Madhya Pradesh . . . | 22,172 (100·00) | 9,355 (100·00) | 12,817 (100·00) |
| 1. Jabalpur . . . | 1,117 | 290 | 827 |
| 2. Drug . . . | 1,070 | 451 | 619 |

TABLE 64—*Concld.*

| State/District | Total | Rural | Urban |
|---|---|---|---|
| 3. Raipur . . . | 972 | 397 | 575 |
| 4. Indore . . . | 927 | 75 | 852 |
| 5. Bilaspur . . . | 910 | 446 | 464 |
| 6. Mandsaur . . . | 905 | 345 | 560 |
| 7. Sehore . . . | 851 | 207 | 644 |
| 8. Morena . . . | 811 | 338 | 473 |
| 9. Gwalior . . . | 769 | 65 | 704 |
| 10. Sagar . . . | 728 | 277 | 451 |
| TOTAL (1 to 10) . . | 9,060 (40·86) | 2,891 (30·90) | 6,169 (48·13) |

The rural-urban break up in the first ten districts generally follows the accepted position of the cities in the State. The order that emerges is Indore, Jabalpur, Gwalior, Sehore (due to Bhopal city), Durg (because of Bhilainagar), Raipur, Mandsaur, Morena, Bilaspur and Sagar. The *inter-se* position of the last four districts in terms of number of urban units requires a little explaining as it does not follow the pattern that emerges on the basis of percentages of urban population which is : Mandsaur (20.23%); Morena (10.45%); Bilaspur (10.82%) and Sagar (24.50%). There is only a marginal difference between Morena and Bilaspur districts and no direct relationship can be established between number of urban units and percentage of urban population because factors like habits and purchasing power of the population also require consideration. But Sagar district with the highest percentage of urban population is at the bottom. Perhaps the explanation lies in the fact that (i) sizeable population of railway and defence personnel gets its requirement from purchases made on all-India basis ; and (ii) the urban economy is bidi-oriented accounting for 10,239 workers who perhaps look after over 50,000 population (on the basis of average of 5 persons per family). The bidi workers are not highly paid and keeping in view the conditions of work perhaps do not go in for very many clothes.

159. The first ten districts in terms of persons employed are generally the same. Nine districts are common as would be apparent from the following :—

TABLE 65

| State/District (1) | Total (2) | Rural (3) | Urban (4) |
|---|---|---|---|
| Madhya Pradesh . . | 36,968 (100·00) | 13,380 (100·00) | 23,588 (100·00) |
| 1. Raipur . . . | 1,959 | 698 | 1,261 |
| 2. Indore . . . | 1,939 | 108 | 1,831 |
| 3. Durg . . . | 1,890 | 711 | 1,179 |
| 4. Jabalpur . . . | 1,862 | 383 | 1,479 |
| 5. Bilaspur . . . | 1,611 | 695 | 916 |
| 6. Gwalior . . . | 1,514 | 84 | 1,430 |
| 7. Mandsaur . . . | 1,513 | 481 | 1,032 |
| 8. Sehore . . . | 1,449 | 266 | 1,183 |
| 9. Morena . . . | 1,364 | 442 | 922 |
| 10. Ujjain . . . | 1,146 | 152 | 994 |
| TOTAL (1 to 10) . . | 16,247 (43·92) | 4,020 (30·00) | 12,227 (51·84) |

The only change is replacement of Sagar district by Ujjain district. The upward/downward movement is nominal in the sense that both are at the twelfth place in the other list.

160. The unit size is small in this major group also. As a matter of fact, unit size is not likely to be high in retail trade generally. The position in this major-group is as under :—

TABLE 66

| Total | 1 Person | 2—4 Persons | 5—9 Persons | 10—19 Persons | 20—49 Persons | 50—99 Persons | 100+ Persons | Unspecified |
|---|---|---|---|---|---|---|---|---|
| 22,172 | 12,260 | 9,459 | 399 | 27 | 2 | .. | .. | 25 |
| (100.00) | (55.3) | (42.7) | (1.8) | (0.1) | (N) | | | (0.1) |

Ninetyeight percent of the units employ below 5 persons. There are only two units in the State employing 20 or more persons, one each in Gwalior and Raipur districts.

161. As in the case of retail trade in food grains, etc., some units are bound to be there in every district in this major-group. That is why the last ten districts account for over ten percent of the total units in this major-group. The position is as under :

TABLE 67

| State/District (1) | Total (2) | Rural (3) | Urban (4) |
|---|---|---|---|
| Madhya Pradesh . . . | 22,172 | 9,355 | 12,817 |
| | (100·00) | (100·00) | (100·00) |
| 1. Panna . . . | 185 | 130 | 55 |
| 2. Betul . . . | 213 | 145 | 68 |
| 3. Jhabua . . . | 214 | 86 | 128 |
| 4. Datia . . . | 226 | 86 | 140 |
| 5. Seoni . . . | 232 | 125 | 107 |
| 6. Narsimhapur . . | 242 | 102 | 140 |
| 7. Tikamgarh . . | 243 | 165 | 78 |
| 8. Mandla . . . | 255 | 141 | 114 |
| 9. Raisen . . . | 276 | 205 | 71 |
| 10. Bastar . . . | 301 | 217 | 84 |
| TOTAL (1 to 10) . . | 2,387 | 1,402 | 985 |
| | (10·77) | (14·99) | (6 98) |

162. **Major Group 67 : Retail Trade in fuel, Other Household Utilities and Durables.**—The total number of units in this major-group are 21,981 and the highly urban character of the units would be obvious from the following table :—

TABLE 68

| Sector | Units | Persons employed | Ratio |
|---|---|---|---|
| Total . . . . . | 21,981 | 35,427 | 1.61 |
| | (100·00) | (100·00) | |
| Rural . . . . . | 6,535 | 8,542 | 1.31 |
| | (29.73) | (24.11) | |
| Urban . . . . . | 15,446 | 26,885 | 1.74 |
| | (70.27) | (75.89) | |

The urban character is more pronounced in the matter of employment, there being a further shift of about 5 percent from rural to urban sector, which goes to show that the size of the units is relatively larger in the urban areas which is very much in keeping with the pattern of trade that one witnesses in the field.

163. The first ten districts in this major-group in terms of number of units are as under :—

TABLE 69

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh . . . | 21,981 | 6,535 | 15,446 |
| | (100.00) | (100.00) | (100.00) |
| 1. Jabalpur . . . | 1,581 | 292 | 1,289 |
| 2. Indore . . . | 1,493 | 46 | 1,447 |
| 3. Durg . . . | 1,391 | 575 | 816 |
| 4. Raipur . . . | 1,325 | 429 | 896 |
| 5. Gwalior . . . | 1,261 | 44 | 1,217 |
| 6. Sehore . . . | 1,021 | 93 | 928 |
| 7. Sagar . . . | 863 | 237 | 626 |
| 8. Bilaspur . . . | 839 | 320 | 519 |
| 9. Ujjain . . . | 735 | 46 | 689 |
| 10. Mandsaur . . | 624 | 98 | 526 |
| TOTAL (1 to 10) . . | 11,133 | 2,180 | 8,953 |
| | (50.65) | (33·36) | (57.96) |

The proportion of rural-urban units is generally in accordance with the greater/lesser percentage of urban population to total population in the above districts. The items of sale covered in this major group—coal, fire-wood, kerosene, utensils, foot-wear, electrical goods, crockery, etc.,—are such that some units are bound to be there everywhere and that is why the first ten districts account, more or less, for only that percentage of rural and urban units which is in keeping with their share of rural and urban population.

164. From the point of view of employment, the first ten districts are as under :—

TABLE 70

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh . . . | 35,427 | 8,542 | 26,885 |
| 1. Indore . . . | 2,853 | 69 | 2,784 |
| 2. Jabalpur . . . | 2,758 | 397 | 2,361 |

TABLE 70—*Concld.*

| State/District | Total | Rural | Urban |
|---|---|---|---|
| 3. Raipur | 2,476 | 637 | 1,839 |
| 4. Gwalior | 2,266 | 49 | 2,217 |
| 5. Durg | 2,105 | 738 | 1,367 |
| 6. Sehore | 1,686 | 112 | 1,574 |
| 7. Bilaspur | 1,384 | 421 | 963 |
| 8. Sagar | 1,181 | 295 | 886 |
| 9. Ujjain | 1,172 | 54 | 1,118 |
| Ratlam | 1,033 | 36 | 997 |
| TOTAL 1 (of 10) | 18,914 (53.39) | 2,808 (32.87) | 16,106 (59.91) |

The only uncommon district is Ratlam which has found a place at the expense of Mandsaur district; the other nine districts in terms of units as well as employment are common. The upward/downward movement is not very great; both the districts are at the thirteenth place in the list in which it is absent as one of the first ten districts.

165. In conformity with the observation made in para. 161, the size of the units is small in this major group also. Nearly 60 percent are single person units and a further 38 percent below 5 persons. The complete picture is as follows :—

TABLE 71

| Total | 1 Person | 2—4 Persons | 5—9 Persons | 10—19 Persons | 20—49 Persons | 50—99 Persons | 100+ Persons | Unspecified |
|---|---|---|---|---|---|---|---|---|
| 21,981 | 13,153 | 8,323 | 418 | 54 | 4 | .. | .. | 29 |
| (100.00) | (59.8) | (37.9) | (1.9) | (0.3) | (N) | | | (0.1) |

The 4 units in the size-class 20-49 persons are one each in Gwalior (city), Raipur (city) and two in Jabtlpur (city).

166. The last ten districts in this major-group are as under :—

TABLE 72

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh | 21,981 (100.00) | 6,535 (100.00) | 15,446 (100.00) |
| 1. Jhabua | 87 | 10 | 77 |
| 2. Betul | 151 | 75 | 76 |
| 3. Datia | 172 | 53 | 119 |
| 4. Raisen | 177 | 124 | 53 |
| 5. Bastar | 185 | 107 | 78 |
| 6. Panna | 185 | 131 | 54 |
| 7. Mandla | 197 | 85 | 112 |
| 8. Tikamgarh | 205 | 140 | 65 |
| 9. Dewas | 213 | 30 | 183 |
| 10. Seoni | 240 | 125 | 115 |
| TOTAL (1 to 10) | 1,812 (8.24) | 880 (13.47) | 932 (6.03) |

The general pattern of retail trade, that a few units are bound to exist everywhere, can be seen in the above table. Although not equal to their share of rural and urban population, the last ten districts still account for over eight percent of the total units in this major group.

167. **Major Group 68 : Retail Trade in Others.**—This major group covers medical shops, book-sellers and stationers, dealers in building material and/or transport equipment, petrol-filling stations, etc. There are 13,627 units in all in the State with the following rural-urban break up.

TABLE 73

| Sector | Units | Persons employed | Ratio |
|---|---|---|---|
| Total | 13,627 (100.00) | 23,773 (100.00) | 1.74 |
| Rural | 3,396 (24.92) | 4,581 (19.27) | 1.35 |
| Urban | 10,231 (75.08) | 19,192 (80.73) | 1.88 |

The pronounced urban bias can be readily seen. Among the various major-groups of division 6 relating to retail trade, this major group has the highest percentage of urban units. The position is in keeping with the low level of literacy, use and availability of medical facilities, construction activity, etc., in the rural areas.

168. The first ten districts in terms of number of units in this major group are as follows :—

TABLE 74

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh | 13,627 (100.00) | 3,396 (100.00) | 10,231 (100.00) |
| 1. Indore | 1,369 | 77 | 1,292 |
| 2. Jabalpur | 1,085 | 115 | 970 |
| 3. Sehore | 931 | 105 | 826 |
| 4. Gwalior | 805 | 43 | 762 |
| 5. Raipur | 754 | 197 | 557 |
| 6. Durg | 574 | 131 | 443 |
| 7. Mandsaur | 542 | 163 | 379 |
| 8. Bilaspur | 508 | 227 | 281 |
| 9. Ujjain | 502 | 24 | 478 |
| 10. Khandwa | 396 | 58 | 338 |
| TOTAL (1 to 10) | 7,466 (54.79) | 1,140 (33.57) | 6,326 (61.83) |

The above figures lend weight to the general feeling that Indore district is relatively ahead of other districts in the matter of educational and medical facilities. Even with lesser total population, it has more units than Jabalpur, Sehore, Raipur, Durg and Bilaspur districts. The rural-urban break up of units in each district generally follows the higher/lesser percentage of urban population to total population in each district.

169. The first ten districts from the point of view of total employment are the same, with very minor variation in the ranking of the districts, as would be apparent from the following table :—

TABLE 75

| State/District | Total | Rural | Urban |
|---|---|---|---|
| 1 | 2 | 3 | 4 |
| Madhya Pradesh . . . | 23,773 (100.00) | 4,581 (100.00) | 19,192 (100.00) |
| 1. Indore . . . | 2,939 | 169 | 2,770 |
| 2. Jabalpur . . . | 1,909 | 184 | 1,725 |
| 3. Raipur . . . | 1,624 | 271 | 1,353 |
| 4. Sehore . . . | 1,584 | 120 | 1,464 |
| 5. Gwalior . . . | 1,559 | 53 | 1,506 |
| 6. Durg . . . | 1,037 | 182 | 855 |
| 7. Bilaspur . . . | 930 | 299 | 631 |
| 8. Mandsaur . . | 847 | 219 | 628 |
| 9. Ujjain . . . | 843 | 29 | 814 |
| 10, Khandwa . . . | 711 | 89 | 622 |
| TOTAL (1 to 10) . . | 13,983 (58.82) | 1,615 (35.25) | 12,368 (64.44) |

170. The unit size is not large in this major-group also. Over ninetysix percent of the units have less than 5 persons, including the proprietor. The complete position is as under :

TABLE 76

| Total | 1–1 Person | 2–4 Persons | 5–9 Persons | 10–19 Persons | 20–49 Persons | 50–99 Persons | 100+ Persons | Unspecified |
|---|---|---|---|---|---|---|---|---|
| 13,627 (100.00) | 7,733 (56.7) | 5,367 (39.4) | 416 (3.1) | 39 (0.3) | 6 (N) | 1 (N) | .. | 65 (0.5) |

The solitary unit employing 50 or more persons is in Indore district.

171. The last ten districts in this major group in terms of units are as follows :—

TABLE 77

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh . . . | 13,627 (100.00) | 3,396 (100.00) | 10,231 (100.00) |
| 1. Sidhi . . . | 67 | 43 | 24 |
| 2. Mandla . . . | 79 | 28 | 51 |
| 3. Raisen . . . | 79 | 58 | 21 |
| 4. Jhabua . . . | 80 | 41 | 39 |
| 5. Tikamgarh . . | 93 | 54 | 39 |
| 6. Panna . . . | 94 | 56 | 38 |
| 7. Datia . . . | 94 | 23 | 71 |
| 8. Betul . . . | 119 | 51 | 68 |
| 9. Seoni . . . | 132 | 60 | 72 |
| 10. Damoh . . . | 144 | 38 | 106 |
| TOTAL (1 to 10) . . | 981 (7·20) | 452 (13·31) | 529 (5·17) |

The share of the last ten districts is less than their share of total rural and urban population. The short-fall is greater in the rural sector. This is to be expected because more backward an area, lesser are the possibilities of units dealing in items like stationery, books, construction material, petrol-filling stations, etc.

172. **Major Group 69 : Restaurants and Hotels.**—As observed in para. 145, tea shops and eating houses in villages on National/State highways are on the increase. Therefore, it is not at all surprising to find more than half of the 32,029 units in this major-group in the rural areas ; of course, the share of employees is much more in the urban areas as is only to be expected. The following table gives the break up of units and persons employed in the rural and urban areas :—

TABLE 78

| Sector | Units | Persons employed | Ratio |
|---|---|---|---|
| Total . . . . . | 32,029 (100.00) | 71,558 (100.00) | 2.23 |
| Rural . . . . . | 16,839 (52.57) | 29,066 (40.62) | 1.73 |
| Urban . . . . . | 15,190 (47.43) | 42,492 (59.38) | 2.80 |

173. The first ten districts in this major-group in terms of number of units are as under :—

TABLE 79

| S ate/District | Total | Rural | Urban |
|---|---|---|---|
| M dhya Pradesh . . . | 32,029 | 16,839 | 15,190 |
| | (100.00) | (100.00) | (100.00) |
| 1. Bastar . . . | 3,801 | 3,631 | 170 |
| 2. Du g . . . | 2,005 | 1,009 | 996 |
| 3. Raipur . . . | 1,831 | 1,022 | 809 |
| 4. Jabalpur . . . | 1,816 | 396 | 1,420 |
| 5. Khargone . . . | 1,360 | 805 | 555 |
| 6. Sehore . . . | 1,350 | 261 | 1,089 |
| 7. Indore . . . | 1,343 | 382 | 961 |
| 8. Sagar . . . | 1,341 | 624 | 717 |
| 9. Mandsaur . . | 1,259 | 617 | 642 |
| 10. Ujjain . . . | 1,151 | 294 | 857 |
| TOTAL (1 to 10) . . | 17,257 | 9,041 | 8,21 6 |
| | (53.88) | (53.69) | (54.09) |

The placement of all the three districts of Raipur division at the top with a rural bias may come as a surprise to many. But the explanation is not far to seek. Conventionally the villagers of these districts, with a sizeable percentage of scheduled tribes, build a resting place for the visitors called Thana-gudi and this seems to have resulted in proliferation of units in these districts. The other districts are either large in size or highly urban in character. (See appendix III for a note on Thana-gudi).

174. From the point of view of total employment, the first ten districts are as follows :—

TABLE 80

| State/District 1 | Total 2 | Rural 3 | Urban 4 |
|---|---|---|---|
| M dhya Pradesh . . . | 71,558 | 29,066 | 42,492 |
| | (100.00) | (100.00) | (100.00) |
| 1. Bastar . . . | 5,954 | 5,377 | 577 |

TABLE 80—*Concld.*

| 1 | 2 | 3 | 4 |
|---|---|---|---|
| 2. Drug . . . | 5,747 | 2,215 | 3,532 |
| 3. Raipur . . . | 4,927 | 2,200 | 2,727 |
| 4. Jabalpur . . . | 4,361 | 631 | 3,730 |
| 5. Indore . . . | 3,958 | 655 | 3,303 |
| 6. Sehore . . . | 3,754 | 367 | 3,387 |
| 7. Sagar . . . | 3,431 | 834 | 2,597 |
| 8. Khargone . . . | 3,076 | 1,375 | 1,701 |
| 9. Bilaspur . . . | 3,016 | 1,219 | 1,797 |
| 10, Ujjain . . . | 2,704 | 456 | 2,248 |
| TOTAL (1 to 10) . . | 40,928 | 15,329 | 25,599 |
| | (57.20) | (52.74) | (60.24) |

The first ten districts account for a greater percentage of total employment than total units; more so in the urban areas. This is only to be expected because the size of restaurants and hotels is bigger in towns/cities than in the villages.

175. Nine of the first ten districts are common in terms of units as well as employment. The only change is replacement of Mandsaur district by Bilaspur district in the matter of employment. But the upward/downward movement is negligible as would be clear from the following table :—

TABLE 81

| District | Units | Ranks | Persons employed | Rank |
|---|---|---|---|---|
| Mandsaur . . | 1,259 | 9 | 2,018 | 12 |
| Bilaspur . . | 1,061 | 11 | 3,016 | 9 |

176. The size of the units is comparatively larger in this major-group in that over 2000 units employ five or more persons. The complete position is as follows :—

TABLE 82

| Total | 1 Person | 2—4 Persons | 5—9 Persons | 10—19 Persons | 20—49 Persons | 50—99 Persons | 100+ Persons | Unspecified |
|---|---|---|---|---|---|---|---|---|
| 32,029 | 15,209 | 14,271 | 1,773 | 327 | 128 | 15 | 11 | 295 |
| (100.00) | (47.5) | (44.6) | (5.5) | (1.0) | (0.4) | (0.1) | (N) | (0.9) |

It has to be noted that the largest number of units with unspecified number of employees are in this major group. The units in the size-classes 50-99 and 100+ are mostly mistakes of concept. The strength of hostels and camps was taken as number of employees.

177. The last ten districts in this major group are as under :—

TABLE 83

| State/District | Total | Rural | Urban |
|---|---|---|---|
| M dhya Pradesh . . . | 32,029 | 16,839 | 15,190 |
| | (100·00) | (100·00) | (100·00) |
| 1. Panna. . . . | 69 | 58 | 11 |
| Dvia . . . | 106 | 58 | 48 |

TABLE 83—*Concld.*

| State/District | Total | Rural | Urban |
|---|---|---|---|
| 3. Sidhi . . . | 120 | 105 | 15 |
| 4. Bhind . . . | 158 | 78 | 80 |
| 5. Shivpuri . . . | 213 | 119 | 94 |
| 6. Chhatarpur . . | 218 | 76 | 142 |
| 7. Tikamgarh . . | 263 | 154 | 109 |
| 8. Rewa . . . . | 265 | 140 | 125 |
| 9. Morena . . . | 291 | 153 | 138 |
| 10. Jhabua . . . | 297 | 162 | 135 |
| TOTAL (1 to 10) . | 2,000 | 1,103 | 897 |
| | (6·24) | (6·55) | (5·91) |

178. **Major Group 80: Banking and Similar Financial Institutions.**—It would not be out tf place to mention at the very outset that the number of persons dealing in work covered by this major-group are more than what has been returned in the Census. This is because not every money-lender maintains an establishment and not many get themselves registered under the Act. A total of 2,091 units have been returned employing 17.355 persons with the following rural-urban breakup :—

TABLE 84

| Sector | Units | Persons employed | Ratio |
|---|---|---|---|
| Total . . . . | 2,091 (100·00) | 17,355 (100·00) | 8·30 |
| Rural . . . . | 1,029 (49·21) | 3,921 (22·59) | 3·81 |
| Urban . . . | 1,062 (50·79) | 13,434 (77·41) | 12·65 |

The above picture is understandable. Banks are usually in urban areas and majority of money-lenders in the rural areas. This largely explains parity in the units and disparity in employment in the rural and urban areas. Almost half the number of total units account for less than one-fifth of total employment in the rural areas.

179. The first ten districts in this major-group in terms of number of units are :—

TABLE 85

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh . . . | 2,091 (100·00) | 1,029 (100·00) | 1,062 (100·00) |
| 1. Mandsaur . . . | 135 | 70 | 65 |
| 2. Indore . . . | 134 | 31 | 103 |
| 3. Khandwa . . . | 118 | 72 | 46 |
| 4. Raipur . . . | 112 | 54 | 58 |
| 5. Khargone . . . | 88 | 43 | 45 |
| 6. Dewas . . . | 78 | 36 | 42 |
| 7. Ujjain . . . | 77 | 30 | 47 |
| 8. Shajapur . . . | 77 | 51 | 26 |
| 9. Bilaspur . . . | 74 | 39 | 35 |
| 10. Ratlam . . . | 73 | 41 | 32 |
| Total (1 to 10) . . | 966 (46·20) | 467 (45·38) | 499 (46·99) |

The above figures clearly show how evenly distributed are the credit institutions as between rural and urban areas. But what is more significant is the fact that eight of the ten districts are contiguous and seven of them are in Indore division! Either the region covered by the eight contiguous districts is relatively prosperous involving greater economic activity and more flow of money, or the population is heavity in debt. It is also possible that both the alternatives apply equally.

180. In terms of total employment, the first ten districts are as under :

TABLE 86

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh . . . | 17,355 (100·00) | 3,921 (100·00) | 13,434 (100·00) |
| 1. Indore . . . | 2,146 | 85 | 2,061 |
| 2. Durg . . . | 922 | 252 | 670 |
| 3. Sehore . . . | 909 | 49 | 860 |
| 4. Jabalpur . . . | 890 | 99 | 791 |
| 5. Bilaspur . . . | 831 | 265 | 566 |
| 6. Raipur . . . | 826 | 227 | 599 |
| 7. Gwalior . . . | 697 | 29 | 668 |
| 8. Ujjain . . . | 624 | 86 | 538 |
| 9. Khargone . . . | 613 | 142 | 471 |
| 10. Khandwa . . . | 612 | 204 | 408 |
| Total (1 to 10) . . | 9,070 (58·05) | 1,438 (36·67) | 7,632 (56 81) |

Only six districts are common when one compares the above list with that in Table No. 85. Mandsaur, Dewas, Shajapur and Ratlam districts are replaced by Durg, Sehore, Jabalpur and Gwalior districts. This is not surprising in the context of wide variation in empovment in rural and urban areas because non-city districts (the only exception is Ratlam) are pushed out by city districts. It is common knowledge that bigger a city, more chances there are of branches of big banks with sizeable number of employees.

181. In the light of high unit-employment ratio (next only to major-group 81 where there are only 56 units) it is not at all surprising to find that nearly half of the units employ more than five persons. Single person units are less than one-fourth. The complete position is as under :—

TABLE 87

| Total | 1 Person | 2—4 Persons | 5—9 Persons | 10—19 Persons | 20—49 Persons | 50—99 Persons | 100+ Persons | Unspecified |
|---|---|---|---|---|---|---|---|---|
| 2,091 (100.00) | 502 (24.0) | 666 (31.8) | 361 (17.3) | 272 (13.0) | 182 (8.7) | 44 (2.1) | 8 (0.4) | 56 (2.7) |

The entries in size-classes 50-99 and 100+ were subjected to a sample check in view of the large number of units returned. Most of the units are head offices or branches of banks.

182. The last ten districts in this major-group are as follows :—

TABLE 88

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh . . . | 2,091 (100·00) | 1,029 (100·00) | 1,062 (100·00) |
| 1. Datia . . . . | 8 | 4 | 4 |
| 2. Panna . . . | 9 | 5 | 4 |
| 3. Sidhi . . . . | 11 | 7 | 4 |
| 4. Rewa . . . | 15 | 11 | 4 |
| 5. Raisen . . . | 16 | 10 | 6 |
| 6. Narsimhapur . . | 19 | 3 | 16 |
| 7. Shahdol . . . | 19 | 9 | 10 |
| 8. Mandla . . . | 23 | 11 | 12 |
| 9. Seoni . . . | 26 | 18 | 8 |
| 10. Betul . . . | 26 | 15 | 11 |
| Total (1 to 10) . . | 172 (8·23) | 93 (9·04) | 79 (7·44) |

The spread of rural-urban units is more or less in conformity with the greater/lesser share of rural and urban population to total population in the obove districts, except in the case of Mandla district.

163. **Majtr Group 82 : Real Estate and Business Services.**—The type of units covered in this major group relate to purchase, sale and/or letting of real estate, auctioneering, accounting and auditing, data-processing, architectural and technical services, advertising, news agencies, etc., etc. It would thus be apparent that units in this major-group are likely to have a predominent urban bias because the related activities are generally found in the towns. More than three-fourths of the units and employment are to be seen in the urban areas. The complete position is as under :—

TABLE 89

| Sector | Units | Persons employed | Ratio |
|---|---|---|---|
| Total . . . . | 4,694 (100·00) | 13,020 (100·00) | 2·77 |
| Rural . . . . | 1,109 (23·63) | 2,690 (20·66) | 2·43 |
| Urban . . . . | 3,585 (76·37) | 10,330 (79·34) | 2·88 |

184. The first ten districts in this major-group in terms of number of units are as follows :—

TABLE 90

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh . . . | 4,694 (100·00) | 1,109 (100·00) | 3,585 (100·00) |
| 1. Sagar . . . . | 830 | 543 | 287 |
| 2. Indore . . . | 535 | 55 | 480 |
| 3. Ujjain . . . | 299 | 5 | 294 |
| 4. Jabalpur . . . | 257 | 80 | 177 |
| 5. Gwalior . . . | 240 | 4 | 236 |
| 6. Mandsaur . . . | 212 | 29 | 183 |
| 7. Khandwa . . . | 205 | 13 | 192 |
| 8. Khargone . . . | 204 | 15 | 189 |
| 9. Raipur . . . | 198 | 50 | 148 |
| 10. Hoshangabad . . | 197 | .. | 197 |
| Total (1 to 10) . . | 3,177 (67·68) | 794 (71·60) | 2,383 (66·47) |

Since the type of services covered by this major-group is, by and large, specialised in nature, the first ten districts account for more than two thirds of the total units. Greater proportion of rural units is also understandable because whereas more towns/cities may have specialised services, not many villages are likely to have them. Placement of Sagar district at the top may come as a surprise but perhaps the explanation lies in return of a large number of 'bidi'-Sattedars' who seem to have been rightly treated as agents. Then there is a railway junction at Bina in Sagar district and Itarsi in Hoshangabad district. Railway commission agents might have been coded in this major-group and that may be partly responsible for Sagar district having about fifty percent more units than the second best district and entry of Hoshangabad district in the first ten district.

185. From the point of view of employment, the first ten districts are as under :—

TABLE 91

| State/District 1 | Total 2 | Rural 3 | Urban 4 |
|---|---|---|---|
| Madhya Pradesh . . . | 13,020 (100·00) | 2,690 (100·00) | 10,330 (100·00) |
| 1. Sagar . . . . | 1,853 | 1,066 | 787 |
| 2. Indore . . . | 1,580 | 334 | 1,246 |
| 3. Hoshangabad . . | 779 | .. | 779 |
| 4. Ujjain . . . | 749 | 40 | 709 |
| 5. Khandwa . . . | 673 | 29 | 644 |
| 6. Gwalior . . . | 647 | 27 | 620 |
| 7. Jabalpur . . . | 647 | 194 | 453 |
| 8. Raipur . . . | 598 | 88 | 510 |

TABLE 91—*Concld.*

| 1 | 2 | 3 | 4 |
|---|---|---|---|
| 9. Damoh . . . | 588 | 334 | 254 |
| 10. Khargone . . . | 524 | 18 | 506 |
| Total (1 to 10) . . | 8,793 | 2,130 | 6,663 |
| | (67·53) | (79·18) | (64·50) |

Nine districts are the same as were listed in terms of number of units in Table No. 90. The only new entrant is Damoh district at the expense of Mandsaur district. The bidi industry has a firm base in Damoh district also and it is possible that the unit size of 'bidi-Sattedars' is usually larger than that of other agents. Even otherwise, the upward/downward movement is only marginal as would be obvious from the following :—

TABLE 92

| District | Unit | Rank | Persons employed | Rank |
|---|---|---|---|---|
| Mandsaur . | 212 | 6 | 484 | 12 |
| Damoh . . | 130 | 14 | 588 | 9 |

186. Although the size of the units in this major group is not very large since over 85 percent of the units employ less than 5 persons, it has to be noted that as many as 576 units employ more than 5 persons. The complete break up is as under :—

TABLE 93

| Total | 1 Person | 2—4 Persons | 5—9 Persons | 10—19 Persons | 20—49 Persons | 50—99 Persons | 100+ Persons | Un-specified |
|---|---|---|---|---|---|---|---|---|
| 4,694 | 1,893 | 2,201 | 399 | 123 | 45 | 8 | .. | 25 |
| (100.00) | (40.3) | (46.9) | (8.5) | (2.6) | (1.0) | (0.2) | | (0.5) |

The eight units in the size-class 50-99 persons are two each in Raipur and Sagar districts, and one each in Ratlam, Khandwa and Shahdol districts, all in the urban areas, and one in rural area of Sagar district.

187. As stated in para 185, the type of activities covered in this major-group are specialised in nature and therefore it is not at all surprising to find that the last ten districts account for as little as 1.75 percent of the total units. No unit has been returned from Panna district and the figure is below double figure in five more districts. The following table gives the complete position.

TABLE 94

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh . . . | 4,694 (100·00) | 1,109 (100·00) | 3,585 (100·00) |
| 1. Panna . . . | .. | | .. |
| 2. Sidhi . . . . | 1 | .. | 1 |
| 3. Chhattarpur . . | 3 | 1 | 2 |
| 4. Rewa . . . | 4 | 2 | 2 |
| 5. Raisen . . . | 5 | 3 | 2 |
| 6. Vidisha . . . | 6 | .. | 6 |
| 7. Jhabua . . . | 13 | 7 | 6 |

TABLE 94—*Concld.*

| District/State | Total | Rural | Urban |
|---|---|---|---|
| 8. Tikamgarh . . | 13 | 4 | 9 |
| 9. Surguja . . . | 18 | 6 | 12 |
| 10. Rajgarh . . . | 19 | 4 | 15 |
| Total (1 to 10) . . | 82 (1·75) | 27 (2·43) | 55 (1·53) |

188. **Other Major Groups.**—In the preceding paragraphs the predominent major-groups relating to trading establishments (division 6 and 8) have been discussed in some detail. A reference in passing to the other major-groups of the above referred two divisions would not be out of place.

189. **Major-Group 61 : Wholesale Trade in fuel, Light Chemical perfumery, Ceramics, Glass.**—(i) There are only 455 units in the State employing only 1375 persons. Over ninety percent of the units and employment are in the urban sector.

(ii) The first five districts in this major group in terms of number of units are : Indore (136), Raipur (57), Jabalpur (44), Sehore (25) and Bilaspur (17). These five districts account ftr 61.32 percent of total units and 65.16 percent of total employment in this major-group.

(iii) The unit-employment ratio is 3.02. Size-class 2-4 persons predominates. The complete position is as under:—

TABLE 95

| Total | 1 Person | 2—4 Persons | 5—9 Persons | 10—19 Persons | 20—49 Persons | 50—99 Persons | 100+ Persons | Un-specified |
|---|---|---|---|---|---|---|---|---|
| 455 | 137 | 244 | 56 | 14 | 2 | .. | .. | 2 |
| (100.00) | (30.1) | (53.6) | (12.3) | (3.2) | (0.4) | | | (0.4) |

The two units in size-class 20-49 are in Jabalpur city dealing in medicines and toilets, respectively.

190. **Major-Group 62 : Wholesale Trade in Wood, paper Other Fabrics and Skin and Inedible Oils :**—(i) A total of 249 units in the State employ 765 persons. There is a predominent urban bias in the sense that 82.23 percent of the total units are located in towns/cities.

(ii) The first five districts are Indore (48), Sehore (37), Shahdol (16), Raipur (14) and Dewas (13). They account for 51.41 percent of total units and 48.37 percent of total employment.

(iii) The unit-employment ratio is slightly over 3 at 3.07. Almost seventyfive percent of the units are multi-person units. The break up is as under :—

TABLE 96

| Total | 1 Person | 2—4 Persons | 5—9 Persons | 10—19 Persons | 20—49 Persons | 50—99 Presons | 100+ Persons | Un-specified |
|---|---|---|---|---|---|---|---|---|
| 249 (100.00) | 68 (27.3) | 135 (54.2) | 33 (13.3) | 10 (4.0) | 1 (1.04) | .. | .. | 2 (0.8) |

191. **Major-Group 63 : Wholesale Trade in Machinery and Equipment :**—(i) There are only 78 units in the State employing 253 persons All but 6 are in the urban areas. In other words, 92.32 percent of units and 97.23 percent of employment is in the urban areas.

(ii) The first five districts in this major-group are Raipur (18), Indore (13), Sehore (9), Jabalpur (8) and Gwalior (5). These five districts account for 67.95 percent of total units and as high as 81.42 percent of total employment.

(iii) The unit-employment ratio is 3.24. Only about one-fifth of the total units are single person units. The complete position is as follows :—

TABLE 97

| Total | 1 Person | 2—4 Persons | 5—9 Persons | 10—19 Persons | 20—49 Persons | 50—99 Persons | 100+ Persons | Un-specified |
|---|---|---|---|---|---|---|---|---|
| 78 (100.00) | 16 (20.5) | 47 (60.3) | 12 (15.4) | 3 (3.8) | .. | .. | .. | .. |

This is the only major group in divisions 6 and 8 where every unit has disclosed some number of employees.

192. **Major Group 64 : Wholesale Trade in Miscellaneous Manufacturing :**—(i) Among the non-predominent major-groups pertaining to wholesale trade, this major group has the largest number of units. There are in all 511 units employing 1,614 persons. Like all the major groups relating to wholesale trade, there is an urban bias. About 80 percent of units and 70 percent of employment are in the urban areas.

(ii) The first five districts are Indore (91), Jabalpur (63), Raipur (50), Satna (32) and Ujjain (28). They account for 51.66 percent of total units and 47.00 percent of total employment.

(iii) The unit employment ratio is 3.16. As in other major groups of wholesale trade, the size-class 2-4 persons predominates. The break up is as follows :—

TABLE 98

| Total | 1 Person | 2—4 Persons | 5—9 Persons | 10—19 Persons | 20—49 Persons | 50—99 Persons | 100+ Persons | Unspecified |
|---|---|---|---|---|---|---|---|---|
| 511 (100.00) | 166 (32.5) | 270 (52.8) | 40 (7.8) | 24 (4.7) | 6 (1.2) | 1 (0.2) | .. | 4 (0.8) |

The solitary unit in the size-class 50-99 persons is in Durg-Bhilainagar urban agglomeration, dealing in trade in scrap material.

193. **Major Grup 81 : Providents and Insurance.**—(i) There are only 56 units in this major group and all but one are in the urban areas. The total employment is 1043 persons. The solitary rural unit is a single person unit.

(ii) The first five districts are Indore (20), Jabalpur (9), Gwalior (7), Sehore (4) and Satna/Mandsaur/Raigarh each having two units. They account for three-fourths of total units and 92.13 percent of total employment.

(iii) Medium to large units predominate in this major-group. The full break up is as under :

TABLE 99

| Total | 1 Person | 2—4 Persons | 5—9 Persons | 10—19 Persons | 20—49 Persons | 50—99 Persons | 100+ Persons | Un-specified |
|---|---|---|---|---|---|---|---|---|
| 56 (100.00) | 5 (8.9) | 25 (44.6) | 4 (7.1) | 9 (16.1) | 7 (12.5) | 1 (1.8) | 2 (3.6) | 3 (5.4) |

194. **Major Group 83 : Legal Services :**—(i) In all there are 1326 establishments with an employment of 2243 persons. Since courts are located in towns/cities, urban bias is obvious. Almost 95 percent of the units and employment are in the urban areas

(ii) The first five districts in terms of number of units are Indore (152), Mandsaur (113), Ujjain (108), Dhar (61) and Khargone (57). These five districts account for only 37.02 percent of units and 33.97 percent of employment which is not surprising because advocates, pleaders, mukhtiars, etc., are bound to be dispersed all over the State. What is really surprising is absence of Jabalpur, Gwalior and Sehore districts (seats of High Court, Board of Revenue and State Capital, respectively) among the first five districts which could be due to all or any of the following reasons.— (a) the establishments are usually part of the residence and require probe for netting. In big cities the absence of the busy advocates/pleaders may have resulted in omission of the establishments; (b) in the districts covered by Indore revenue division of erstwhile Madhya Bharat, there was a regular examination for registration of mukhtiars who could appear and plead in the courts although they were not law graduates; (c) relatively larger litigation minded public in the districts of Indore division seeking cheap legal service.

(iii) The unit-employment ratio has got to be low. It is only 1.69. Almost 97 percent of the units employ below 5 persons.

195. In para 144 the inter-se position of wholesale, retail and other establishments in the State as a whole has been discussed. In the subsequent paragraphs the inter-se position of the districts in the predominent as well as other major-groups has been highlighted. It would now be in order to discuss separately the inter-se position of the districts in wholesale, retail and other establishments.

196. **Wholesale Establishments :**—(i) The relevant major groups are 60 to 64 of division 6. The first ten districts in terms of number of units are as under :—

TABLE 100

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh . . . | 6,334 (100·00) | 894 (100·00) | 5,440 (100·00) |
| 1.Indore . . . | 1,015 | 11 | 1,004 |
| 2. Jabalpur . . . | 531 | 17 | 514 |
| 3. Sehore . . . | 449 | 15 | 434 |
| 4. Raipur . . . | 442 | 81 | 361 |
| 5. Gwalior . . . | 339 | 6 | 333 |
| 6. Ujjain . . . | 334 | 17 | 317 |
| 7. Durg . . . | 229 | 77 | 152 |
| 8. Khandwa . . . | 207 | 28 | 179 |
| 9. Bilaspur . . . | 204 | 61 | 143 |
| 10. Chhindwara . . | 189 | 14 | 175 |
| Total (1 to 10) . . | 3,939 (62·19) | 327 (36·58) | 3,612 (66·40) |

Concentration of wholesale trade, at least in the urban areas, is only to be expected and that is why the first ten districts account for as much as 66.40 percent of total urban units, although the urban population represented by these districts is only 57.24 percent.

(ii) In terms of total employment, the first ten districts are as under :—

TABLE 101

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh . . . | 20,024 (100·00) | 2,414 (100·00) | 17,610 (100·00) |
| 1. Indore . . . | 3,412 | 37 | 3,375 |
| 2. Jabalpur . . . | 1,948 | 65 | 1,883 |
| 3. Raipur . . . | 1,520 | 280 | 1,240 |
| 4. Sehore . . . | 1,274 | 33 | 1,241 |
| 5. Gwalior . . . | 1,087 | 24 | 1,063 |
| 6. Ujjain . . . | 879 | 62 | 817 |
| 7. Chhindwara . . | 795 | 27 | 768 |
| 8. Durg . . . | 685 | 181 | 504 |
| 9. Bilaspur . . . | 682 | 195 | 487 |
| 10. Sagar . . . | 625 | 32 | 593 |
| Total (1 to 10) . . | 12,907 (64·46) | 936 (38·77) | 11,971 (67·98) |

The employment percentage is still higher and supports the contention that wholesale trade is concentrated in few areas. Nine districts are common in terms of units as well as employment. The only change is entry of Sagar district at the cost of Khandwa district and this again supports the observation made in para. 150 that the size of wholesale units dealing in tobacco and tobacco products is perhaps larger as a result of which Sagar district displaces Khandwa district in terms of employment. But it has to be noted that both the districts are at the twelfth place in the list in which its name is missing. In other words, the upward/downward movement is marginal.

(iii) The last ten districts in terms of units are Panna (4), Sidhi (6), Rajgarh (31), Tikamgarh (31), Betul (34), Shivpuri (39), Raisen (42), Bastar (44), Rewa (44) and Mandla (45). These districts account for only 5.05 percent of total wholesale trade units in the State.

(iv) The predominent role of the private sector in wholesale trade (for that matter in all trading establishments) would be obvious from the following :—

TABLE 102

| Sector | Total | Rural | Urban |
|---|---|---|---|
| Govt./Quasi-Govt. . . | 99 (1·56) | 44 (4·92) | 55 (1·01) |
| Private . . . | 6,144 (97·00) | 815 (91·16) | 5,329 (97·96) |
| Co-operative . . . | 91 (1·44) | 35 (3·92) | 56 (1·03) |
| Total . . . . | 6,334 (100·00) | 894 (100·00) | 5,444 (100·00) |

(v) In wholesale trade, proportion of single-person units is generally less, more so in urban areas. This would be clear from the following :—

TABLE 103

| Size-class of employment | Total | Rural | Urban |
|---|---|---|---|
| 1 Person . . . | 1,579 (24·93) | 372 (41·61) | 1,207 (22·19) |
| 2—4 persons . . . | 3,635 (57·39) | 399 (44·63) | 3,236 (59·48) |
| 5—9 persons . . . | 869 (13·72) | 75 (8·39) | 794 (14·60) |
| 10—19 persons . . | 196 (3·10) | 34 (3·80) | 162 (2·98) |
| 20—49 persons . . | 32 (0·52) | 7 (0·78) | 25 (0·46) |
| 50—99 persons . . | 3 (0·04) | .. | 3 (0·05) |
| 100+ persons . . . | 1 (0·01) | .. | 1 (0·02) |
| Unspecified . . . | 19 (0·30) | 7 (0·79) | 12 (0·22) |
| Total . . . . | 6,334 (100·00) | 894 (100·00) | 5,440 (100·00) |

**Retail Establishments**

197. (i) The discussion here pertains to major-groups 65 to 68 of division 6. In all there are 202,798 units in the State. The first ten districts in terms of number of units are as under :—

TABLE 104

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh . . . | 202,798 (100·00) | 115,004 (100·00) | 87,794 (100·00) |
| 1. Raipur . . . | 13,879 | 9,210 | 4,669 |
| 2. Durg . . . | 12,949 | 8,032 | 4,917 |
| 3. Bilaspur . . . | 11,899 | 8,756 | 3,143 |
| 4. Jabalpur . . . | 10,850 | 3,569 | 7,281 |
| 5. Indore . . . | 8,657 | 1,501 | 7,156 |
| 6. Sehore . . . | 7,820 | 2,427 | 5,393 |
| 7. Mandsaur . . . | 7,596 | 4,365 | 3,231 |
| 8. Gwalior . . . | 6,909 | 1,505 | 5,404 |
| 9. Sagar . . . | 5,828 | 2,558 | 3,270 |
| 10. Ujjain . . . | 5,722 | 1,776 | 3,946 |
| Total . . . . (1 to 10) | 92,109 (45·42) | 43,699 (38·00) | 48,410 (55·14) |

That retail trade units are likely to be more dispersed in order to make available articles of daily consumption more or less at the doorstep, as observed earlier in para. 152, is amply borne out by the above figures. In contradistinction to the position in respect of wholesale trade units [para 196 (i)], the percentage of urban units accounted for by the first ten districts is less than the percentage of urban population living in it which works out to 58.46.

(ii) From the point of view of total employment, the first ten districts are as under :—

TABLE 105

| State/District | Total | Rural | Urban |
|---|---|---|---|
| (1) | (2) | (3) | (4) |
| Madhya Pradesh . . . | 295,172 (100·00) | 149,836 (100·00) | 145,336 (100·00) |
| 1. Raipur . . . | 21,880 | 13,016 | 8,864 |
| 2. Durg . . . | 18,947 | 10,621 | 8,326 |
| 3. Bilaspur . . . | 17,307 | 11,819 | 5,488 |
| 4. Jabalpur . . . | 16,736 | 4,718 | 12,018 |
| 5. Indore . . . | 14,889 | 1,951 | 12,938 |
| 6. Sehore . . . | 11,660 | 2,915 | 8,745 |
| 7. Gwalior . . . | 10,889 | 1,717 | 9,172 |
| 8. Mandsaur . . . | 10,524 | 5,452 | 5,072 |
| 9. Khargone . . . | 8,852 | 4,373 | 4,479 |
| 10. Ujjain . . . | 8,419 | 2,086 | 6,333 |
| Total (1 to 10) . . | 140,103 (47·46) | 58,668 (39·15) | 81,435 (56·07) |

The percentage of total urban employment covered by the first ten districts, although higher than total urban units, is still below the percentage of urban population residing in these districts. The gap is nodoubt negligible (below 2 percent) but all the same the contention that retail trade units are generally evenly dispersed is fully supported. Nine out of the above ten districts are the same as in Table No. 104. The only change is displacement of Sagar district by Khargone district. The shift is nominal in that both are at the eleventh place in the missing list.

(iii) The last ten districts account for slightly over ten percent of the total units. The position is as under :—

TABLE 106

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh . . . | 202,798 (100·00) | 115,004 (100·00) | 87,794 (100·00) |
| 1. Panna . . . | 1,811 | 1,450 | 361 |
| 2. Datia . . . | 1,864 | 1,236 | 628 |
| 3. Seoni . . . | 1,887 | 1,205 | 682 |
| 4. Betul . . . | 1,930 | 1,221 | 709 |
| 5. Mandla . . . | 1,995 | 1,358 | 597 |
| 6. Jhabua . . . | 2,097 | 1,319 | 778 |
| 7. Sidhi . . . | 2,261 | 2,036 | 225 |
| 8. Raisen . . . | 2,283 | 1,927 | 356 |
| 9. Tikamgarh . . | 2,343 | 1,988 | 355 |
| 10. Narsimhapur . . | 2,353 | 1,324 | 1,029 |
| Total (1 to 10) . . | 20,784 (10·25) | 15,064 (13·10) | 5,720 (6·51) |

(iv) Whereas the government, quasi-government and the co-operative sectors account for three percent of total and over eight percent of rural units relating to wholesale trade, their share of retail trade is hardly one percent as would be clear from the following :—

TABLE 107

| Sector | Total | Rural | Urban |
|---|---|---|---|
| Govt./Quasi-govt. . . . | 758 (0·37) | 454 (0·39) | 304 (0·34) |
| Private . . . . | 200,937 (99·08) | 114,033 (99·16) | 86,90) (98·99) |
| Co-operative . . . | 1,103 (0·55) | 517 (0·45) | 586 (0·67) |
| Total . . . . | 202,798 (100·00) | 115,004 (100·00) | 87,794 (100·00 |

(v) The size of the units in retail trade is generally small. That is why single person units predominates as would be apparent from the following table :—

TABLE 108

| Size-class of employment | Total | Rural | Urban |
|---|---|---|---|
| 1 Person . . . . | 138,168 (68·13) | 86,989 (75·64) | 51,179 (58·29) |
| 2-4 persons . . . . | 61,713 (30·43) | 27,306 (23·74) | 34,407 (39·19) |
| 5-9 persons . . . . | 2,257 (1·11) | 426 (0·37) | 1,831 (2·09) |
| 10-19 persons . . . | 244 (0·12) | 44 (0·04) | 200 (0·23) |
| 20-49 persons . . . | 34 (0·02) | 7 (0·01) | 27 (0·03) |
| 50-99 persons . . . | 3 (N) | 2 (N) | 1 (N) |
| 100 + persons . . . | 1 (N) | .. | 1 (N) |
| Unspecified . . . | 378 (0·19) | 230 (0·20) | 148 (0·17) |
| Total . . . . | 202,798 (100·00) | 115,004 (100·00) | 87,794 (100·00) |

**Other Establishments**

198. (i) Major Group 69 of division 6 and division 8 are covered in other establishments. In all there are 40,196 in the State. The first ten district in terms of number of units are as under ;—

TABLE 109

| State/District | Total | Rural | Urban |
|---|---|---|---|
| (1) | (2) | (3) | (4) |
| Madhya Pradesh . . . | 40,196 (100·00) | 19,050 (100·00) | 21,146 (100·00) |
| 1. Bastar . . . | 3,889 | 3,682 | 207 |
| 2. Sagar . . . | 2,251 | 1,184 | 1,067 |
| 3. Jabalpur . . . | 2,200 | 500 | 1,700 |
| 4. Raipur . . . | 2,196 | 1,133 | 1,063 |
| 5. Indore . . . | 2,184 | 469 | 1,715 |
| 6. Durg . . . | 2,162 | 1,036 | 1,126 |
| 7. Mandsaur . . | 1,721 | 719 | 1,002 |
| 8. Khargone . . . | 1,709 | 869 | 840 |
| 9. Ujjain . . . | 1,635 | 329 | 1,306 |
| 10. Sehore . . . | 1,616 | 284 | 1,332 |
| Total (1 to 10) . . | 21,563 (53·64) | 10,205 (53·57) | 11,358 (53·71) |

The distribution of units as between urban and rural areas is even, but at this point the similarity ends. The first ten districts account for urban units more or less in proportion to their share of urban population (51.57%). But in respect of rural units, the share is very much larger since they account for only 31.72 percent of total rural population. One can clearly see in this phenomenon the relatively greater influence of urban habits on the rural population. Bastar district is at the top for reasons mentioned in para 174.

(ii) In terms of total empltyment, tht first ten districts are as under :

TABLE 110

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh . . . | 105,219 (100·00) | 35,801 (100·00) | 69,418 (100·00) |
| 1. Indore . . . | 8,609 | 1,075 | 7,534 |
| 2. Durg . . . | 6,931 | 2,478 | 4,453 |
| 3. Raipur . . . | 6,429 | 2,522 | 3,907 |
| 4. Bastar . . . | 6,404 | 5,614 | 790 |
| 5. Jabalprr . . . | 6,055 | 926 | 5,129 |
| 6. Sagar . . . | 5,823 | 1,955 | 3,868 |
| 7. Sehore . . . | 5,248 | 443 | 4,805 |
| 8. Khargone . . . | 4,289 | 1,543 | 2,746 |
| 9. Ujjain . . . | 4,270 | 582 | 3,688 |
| 10 .Bilaspur . . . | 4,172 | 1,546 | 2,626 |
| Total (1 to 10) . . | 58,230 (55·34) | 18,684 (52.19) | 39,546 (56.97) |

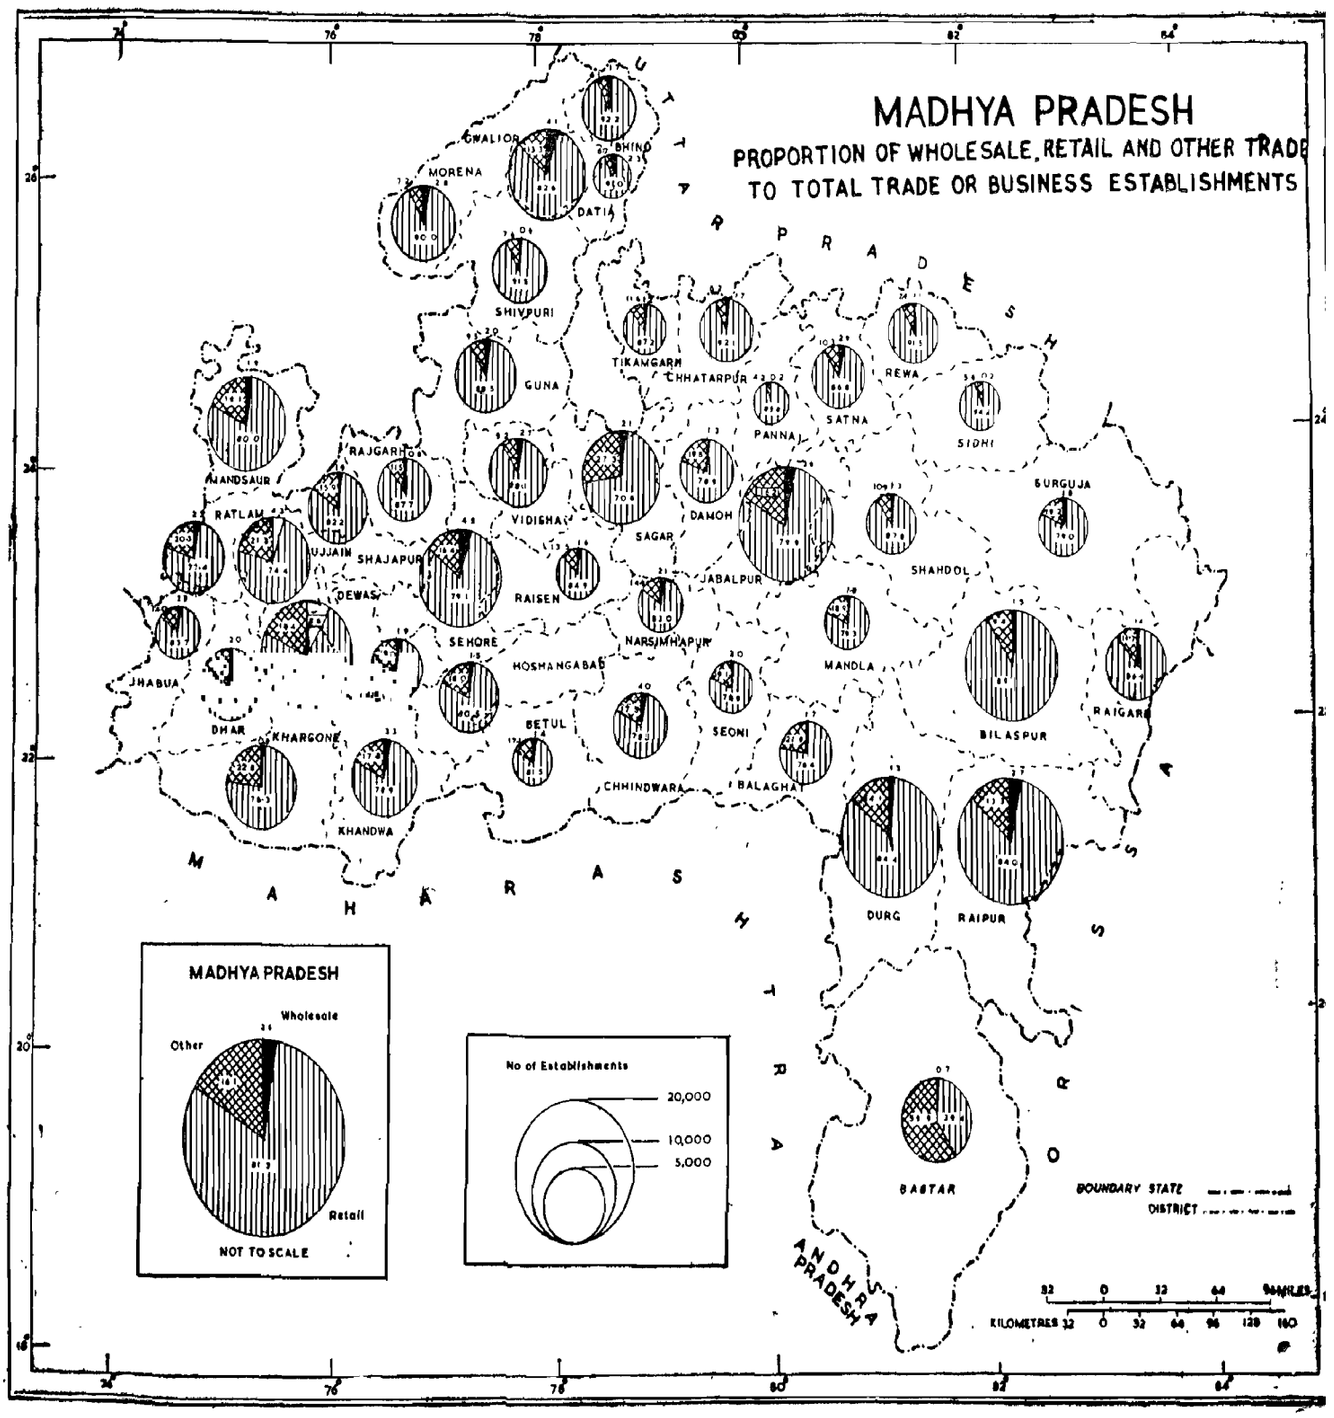

Nine districts are common, as was the case in respect of wholesale and retail establishments. The only change is replacement of Mandsaur district by Bilaspur district in this table. Bilaspur district is at the eleventh place in terms of units, whereas Mandsaur district holds the thirteenth rank in terms of employment. In other words, the movement in the case of both the districts is nominal.

(iii) The last ten districts are Panna (79), Sidhi (132), Datia (137), Chhatarpur (251), Bhind (256), Rewa (287), Tikamgarh (312), Shivpuri (332), Jhabua (350) and Raisen (365). These districts account for 6.24 percent of total other establishments in the State.

(iv) The share of government, quasi-government and co-operative sector in respect of other establishments is higher than even wholesale establishments as would be clear from the following :—

TABLE 111

| Sector | Total | Rural | Urban |
|---|---|---|---|
| Govt./Quasi-government . | 3,233 (8·04) | 2,040 (10·71) | 1,193 (5·64) |

Greater share of Government, quasi-government and co-operative sectors seems to be due to rest-houses, tribal hostels, cooperative credit societies, etc.

(v) Almost ninety percent of the units employ below 5 persons. Higher size-class units are more in the urban areas. This is in conformity with what one sees in the field. The complete breakup is as under :—

TABLE 112

| Size-class of employment | Total | Rural | Urban |
|---|---|---|---|
| 1 Person . . . . | 18,349 (45·65) | 10,850 (56·95) | 7,499 (35·46) |
| 2-4 persons . . . . | 17,707 (44·05) | 7,141 (37·49) | 10,566 (49·97) |
| 5-9 persons . . . . | 2,558 (6·36) | 609 (3·20) | 1,949 (9·22) |
| 10-19 persons . . . | 736 (1·83) | 145 (0·76) | 591 (2·80) |

| 50-99 persons . . . | 69 (0·17) | 7 (0·04) | 62 (0·29) |
| 100+ persons . . . | 21 (0·05) | 1 (N) | 20 (0·09) |
| Unspecified . . . | 392 (0·98) | 211 (1·11) | 181 (0·86) |
| Total . . . . | 40,196 (100·00) | 19,050 (100·00) | 21,146 (100·00) |

199. Before concluding this Chapter, it would be in order to consider the size-class and *inter-se* position of the districts in respect of trading establishments as a whole. In the light of the earlier discussions, it is obvious that in the state of the economy as at present, single person units are bound to have the largest share of total units both in the rural as well as urban areas. But as regards employment, whereas in the rural areas the single person units will no doubt provide more employment, so far as urban areas are concerned, the size-class 2-4 persons is likely to predominate in view of larger daily turn over. The table that follows gives the complete picture :—

TABLE 113

| Size-class of employment | Total | | Rural | | Urban | |
|---|---|---|---|---|---|---|
| | Units | Persons | Units | Persons | Units | Persons |
| (1) | (2) | (3) | (4) | (5) | (6) | (7) |
| Total . | 249,328 (100·00) | 420,415 (100·00) | 134,948 (100·00) | 188,051 (100·00) | 114,380 (100·00) | 232,364 (100·00) |
| 1 Person | 158,096 (63·4) | 158,096 (37·6) | 98,211 (72·8) | 98,211 (52·2) | 59,885 (52·4) | 59,885 (25·8) |
| 2-4 Persons | 83,055 (33·3) | 193,225 (46·0) | 34,846 (25·8) | 77,396 (41·1) | 48,209 (42·1) | 115,829 (49·8) |
| 5-9 persons | 5,684 (2·3) | 33,814 (8·0) | 1,110 (0·8) | 6,508 (3·5) | 4,574 (4·0) | 27,306 (11·7) |
| 10-19 persons | 1,176 (0·5) | 14,734 (3·5) | 223 (0·2) | 2,662 (1·4) | 953 (0·8) | 12,072 (5·2) |
| 20-49 persons | 430 (0·2) | 11,845 (2·8) | 100 (0·1) | 2,625 (1·4) | 330 (0·3) | 9,220 (4·0) |
| 50- 99 persons | 75 (N) | 4,581 (1·1) | 9 (N) | 507 (0·3) | 66 (0·1) | 4,074 (1·8) |
| 100+persons | 23 (N) | 4,120 (1·0) | 1 (N) | 142 (0·1) | 22 (N) | 3,978 (1·7) |
| Unspecified | 789 (0·3) | .. | 448 (0·3) | .. | 341 (0·3) | .. |

200. Determination of *inter-se* position of the districts purely on the basis of number of units or persons employed would not be realistic because of varying sizes of the districts. Retail and other establishments, if not wholesale establishments, have great relevance to population living in an area. Hence bigger the district, greater are likely to be the number of units, and generally persons employed also. Therefore, it would be perhaps more appropriate to consider the *inter-se* position of the districts on the basis of ratio of units to workers in Category VII in respect of the eleven common districts determined on the basis of total units and total employment. Here it may be mentioned that the unit-worker ratio has been arrived at on the basis of figure of 490,162 workers in Category VII in the Primary Census Abstract as against figure of 420,415 persons returned as employed in trading establishments in the E-series tables. The marginal difference in the two figures is due to the fact that the E-series figures are of April-May, 1970, whereas the Primary Census Abstract figures relate to sunrise of April, 1, 1971. The picture that emerges is as under :—

TABLE 114

| District | Ratio | Rank | Units | Rank | Persons employed | Rank |
|---|---|---|---|---|---|---|
| 1. Indore | 3·23 | 1 | 11,856 | 5 | 38,289 | 1 |
| 2. Jabalpur | 2·37 | 2 | 13,581 | 3 | 32,159 | 3 |
| 3. Gwalior | 2·35 | 3 | 8,360 | 8 | 19,609 | 7 |
| 4. Sehore | 2·33 | 4 | 9,885 | 6 | 22,992 | 5 |
| 5. Ujjain | 2·15 | 5 | 7,691 | 10 | 16,557 | 8 |
| 6. Raipur | 2·04 | 6 | 16,517 | 1 | 33,746 | 2 |
| 7. Khargone | 2·04 | 7 | 7,476 | 11 | 15,235 | 10 |
| 8. Sagar . | 1·83 | 8 | 8,254 | 9 | 15,076 | 11 |
| 9. Durg . | 1·82 | 9 | 15,340 | 2 | 27,953 | 4 |
| 10. Bilaspur | 1·67 | 10 | 13,350 | 4 | 22,240 | 6 |
| 11. Mandsaur. | 1·66 | 11 | 9,500 | 7 | 15,809 | 9 |

A perusal of the above table itself would make abundantly clear how very fallacious it would be to determine the *inter-se* position of the districts either in terms of units, or in terms of persons employed. If only the number of units are considered then Durg and Bilaspur districts rank above Indore, Sehore (includes Bhopal city) and Gwalior districts. In terms of employment, Raipur district ranks above Jabalpur district and Durg and Bilaspur districts are ahead of Sehore and Gwalior districts, respectively. This is certainly not a realistic position and the ratio rankings appear to be nearer the factual postion.

**Other Establishments**

201. At the very outset it must be mentioned that the discussion in this Chapter relates to all the divisions of the National Industrial Classification, 1970, except 2, 3, 6 and 8 which have been covered in the earlier two Chapters. Entries in respect of these units were to be made in column 11 of the Establishment Schedule and one should not confuse these units with those referred to as "others" in respect of major group 69 in the Chapter on Trading Establishments.

202. In all there are 149,641 units employing 556,328 persons in divisions 0, 1, 4, 5, 7 and 9. The division-wise break up is as under :—

TABLE 115

| N.I.C.Division | Total | | Rural | | Urban | |
|---|---|---|---|---|---|---|
| | Units | Persons | Units | Persons | Units | Persons |
| Total (0,1,4,5,7,9) | 149,641 (100·00) | 556,328 (100·00) | 104,523 (100·00) | 229,624 (100·00) | 45,118 (100·00) | 326,704 (100·00) |
| 0 . | 544 (0·36) | 1,188 (0·21) | 366 (0·35) | 595 (0·26) | 178 (0·40) | 593 (0·18) |
| 1 . | 88 (0·06) | 3,059 (0·55) | 37 (0·04) | 518 (0·23) | 51 (0·11) | 2,541 (0·78) |
| 4 . | 899 (0·60) | 10,252 (1·84) | 381 (0·36) | 2,135 (0·93) | 518 (1·15) | 8,117 (2·48) |
| 5 . | 44 (0·03) | 2,753 (0·50) | 18 (0·02) | 126 (0·05) | 26 (0·06) | 2,627) (0·81) |
| 7 . | 10,486 (7·01) | 51,754 (9·30) | 4,736 (4·53) | 13,462 (5·86) | 5,750 (12·74) | 38,292 (11·72) |
| 9 . | 137,580 (91·94) | 487,322 (87·60) | 98,985 (94·70) | 212,788 (92·67) | 38,595 (85·54) | 27-,534 (84·03) |

Divisions 0, 1, 4 and 5 have very few units and hence detailed discussion is being limited to predominent major groups of divisons 7 and 9 only. Reference to the remaining major-groups of divisions 7 and 9 would be made in passing in the end alongwith major-groups of divisions 0, 1, 4 and 5. A significant point to be noted here is that in divisions 0 and 9 whereas the number of units are more than double in the rural areas, the figure of persons employed is almost the same in division 0 and more in the urban areas in division 9. In divisions 1, 4, 5 and 7, the number of units are more in the urban areas with a substantially higher proportion of persons employed *vis-a-vis* rural areas. In other words, the size of the units is very much larger in the urban areas.

203. In order to determine the predominent major-groups in divisions 7 and 9, it would first be necessary to study the break up of the total units into major-groups in both the divisions. The position is as follows :—

TABLE 116

| Division/Major Group | Units | Persons employed |
|---|---|---|
| 7 . . . . . | 10,486 (100·00) | 51,754 (100·00) |

TABLE 115—*Concld.*

| Division/ Major/Group | Units | Persons employed |
|---|---|---|
| 70 . . . . . | 1,946 (18·56) | 24,029 (46·43) |
| 72 . . . . . | 10 (0·10) | 54 (0·11) |
| 73 . . . . . | 10 (0·10) | 109 (0·21) |
| 74 . . . . . | 5,700 (54·35) | 13,178 (25·46) |
| 75 . . . . . | 2,820 (26·89) | 14,384 (27·79) |
| 9 . . . . . | 137,580 (100·00) | 487,322 (100·00) |
| 90 . . . . . | 17,137 (12·46) | 189,985 (38·95) |
| 91 . . . . . | 12 (0·01) | 197 (0·04) |
| 92 . . . . . | 39,678 (28.84) | 152,913 (31·38) |
| 93 . . . . . | 11,126 (8·09) | 43,005 (8·82) |
| 94 . . . . . | 47,292 (34·37) | 60,820 (12·48) |
| 95 . . . . . | 2,052 (1.49) | 10,299 (2·11) |
| 96 . . . . . | 20,222 (14·70) | 29,862 (6·13) |
| 98 . . . . . | 4 (N) | 4 (N) |
| 99 . . . . . | 57 7(0402) | (·0C (5.03) |

It would be seen that the predominent major-groups in division 7 are 70, 74 and 75 while in division 9 these are 92 to 96. In what follows, each of the above nine major-groups would be discussed in detail.

204. **Major Group 70: Land Transport:—** The units in this major-group relate to both rail and road transport in respect of passenger as well as goods traffic and services incidental thereto like operation of highway bridges, tolls,

vehicular tunnels, parking lots, etc. In all there are 1,946 units employing 24,029 persons with the following rural-urban break up :—

TABLE 117

| Sector | Units | Persons employed | Ratio |
|---|---|---|---|
| Total | 1,946 (100.00) | 24,029 (100.00) | 12.35 |
| Rural | 903 (46.40) | 4,903 (20.40) | 5.43 |
| Urban | 1,043 (53.60) | 19,126 (79.60) | 18.34 |

The distribution of units is more or less even between the rural and urban areas but the size of the units is bigger by more than three times in the urban areas.

205. In terms of total number of units, the first ten districts in this major-group are as under :—

TABLE 118

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh | 1,946 (100.00) | 903 (100.00) | 1,043 (100.00) |
| 1. Bilaspur | 200 | 29 | 171 |
| 2. Hoshangabad | 127 | 73 | 54 |
| 3. Jabalpur | 117 | 46 | 71 |
| 4. Indore | 102 | 21 | 81 |
| 5. Khandwa | 85 | 33 | 52 |
| 6. Durg | 84 | 43 | 41 |
| 7. Ujjain | 76 | 34 | 42 |
| 8. Mandsaur | 74 | 37 | 37 |
| 9. Sehore | 74 | 14 | 60 |
| 10. Chhindwara | 74 | 40 | 34 |
| TOTAL (1 to 10) | 1,013 (52.06) | 370 (40.97) | 413 (61.64) |

None of the districts in the above table are a surprise. These districts were generally in the forefront in the discussion relating to wholesale and retail trade establishments and, therefore, relative preponderance of units dealing in transportation is only to be expected. Hoshangabad district perhaps finds a place because of the railway junction at Itarsi and sizeable movement of forest produce by road/rail.

206. From the point of view of total employment, the first ten districts are as under :—

TABLE 119

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh | 24,029 (100.00) | 4,903 (100.00) | 19,126 (100.00) |

| 2. Jabalpur | 3,429 | 195 | 3,234 |
| 3. Durg | 2,280 | 626 | 1,654 |
| 4. Khandwa | 1,477 | 172 | 1,305 |
| 5. Indore | 1,272 | 129 | 1,143 |
| 6. Raipur | 1,077 | 190 | 887 |
| 7. Hoshangabad | 984 | 427 | 557 |
| 8. Chhindwara | 847 | 439 | 408 |
| 9. Gwalior | 759 | 73 | 686 |
| 10. Ratlam | 677 | 102 | 575 |
| TOTAL (1 to 10) | 17,820 (74.16) | 2,526 (51.52) | 15,294 (79.96) |

As against 52.06 percent of total units, the first ten districts account for as high as 74.16 percent of total employment. The reason seems to be relatively high employment in establishments of railways and big transport companies. This contention gets support from the fact that Ujjain, Mandsaur and Sehore districts are replaced by Raipur, Gwalior and Ratlam districts in terms of employment. Road transport is well established in Raipur district and Ratlam city has a big railway junction. But it must be mentioned that the movement in the case of all the six districts is nominal, as would be obvious from the following table :—

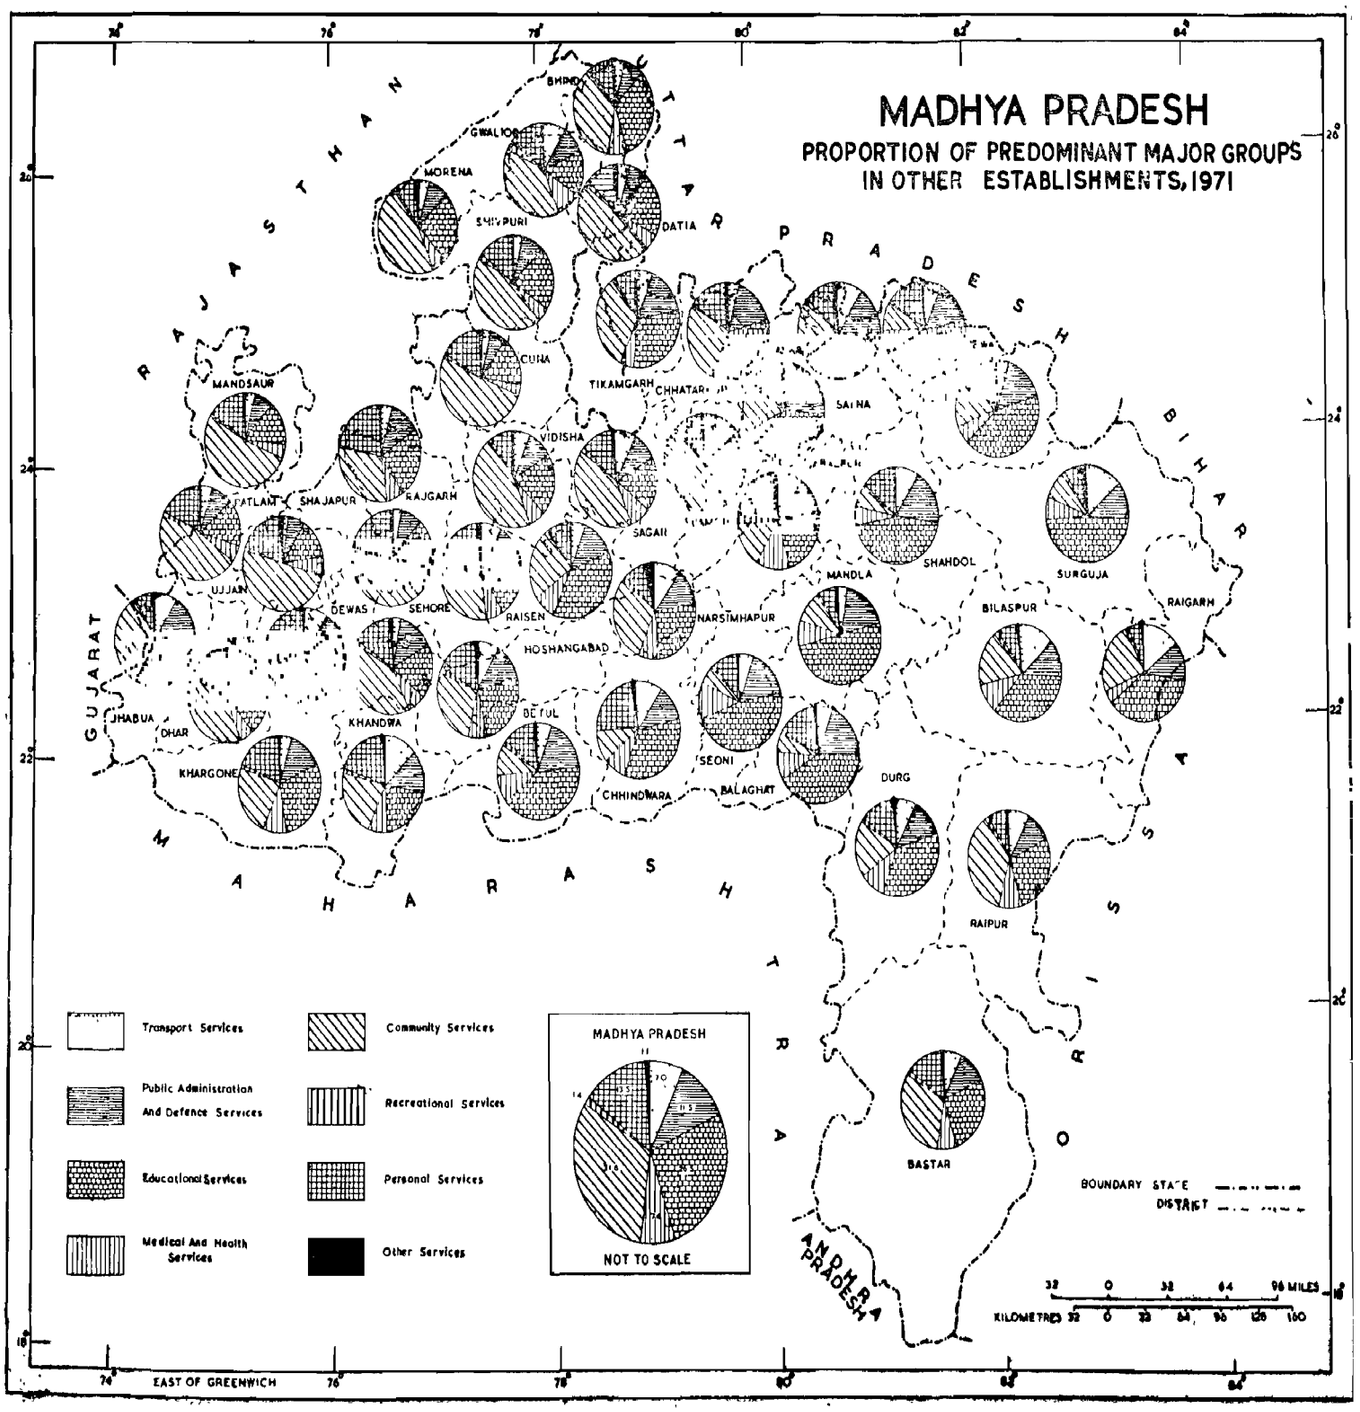

TABLE 120

| District | Units | Rank | Persons employed | Rank |
|---|---|---|---|---|
| Ujjain | 76 | 7 | 577 | 12 |
| Mandsaur | 74 | 8 | 448 | 15 |
| Sehore | 74 | 9 | 495 | 13 |
| Raipur | 67 | 13 | 1,077 | 6 |
| Gwalior | 65 | 14 | 759 | 9 |
| Ratlam | 60 | 15 | 677 | 10 |

207. Although more than half of the total units employ less than 5 persons, there are as many as 431 units employing 10 or more persons. The complete break up is as under :—

TABLE 121

| Total | 1 Persons | 2-4 Persons | 5-9 Persons | 10-19 Persons | 20-49 Persons | 50-99 Persons | 100 + Persons | Unspecified |
|---|---|---|---|---|---|---|---|---|
| 1946 (10.00) | 431 (23.18) | 674 (34.63) | 332 (17.06) | 218 (11.20) | 117 (6.01) | 55 (2.83) | 41 (2.11) | 58 (2.98) |

Most of the 50+ units are railway or Madhya Pradesh Road Transport Corporation offices.

208. The last ten districts account for as low as three percent of total units in this major-group. None of the ten districts have units in double figures. The picture is as under :—

TABLE 122

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh . . . | 1,946 (100.00) | 903 (100.00) | 1,043 (100.00) |
| 1. Sidhi . . . | 1 | 1 | .. |
| 2. Panna . . . | 2 | 2 | .. |
| 3. Chhatarpur . . | 5 | .. | 5 |
| 4. Rajgarh . . . | 6 | 2 | 4 |
| 5. Bhind . . . | 6 | 5 | 1 |
| 6. Mandla . . . | 7 | 2 | 5 |
| 7. Datia . . . | 7 | 5 | 2 |
| 8. Dewas . . . | 8 | 1 | 7 |
| 9. Shivpuri . . . | 8 | 3 | 5 |
| 10. Tikamgarh . . | 9 | 5 | 4 |
| TOTAL (1 to 10) . . | 59 (3.03) | 26 (2.88) | 33 (3.16) |

209. **Major Group 74 : Storage and Ware-housing :—**

By and large the units in this major-group relate to ware-housing and cold storage. In all there are 5,700 units in the State employing 13,178 persons. The rural-urban break up is as follows :—

TABLE 123

| Sector | Units | Persons employed | Ratio |
|---|---|---|---|
| Total . . . . . | 5,700 (100.00) | 13,178 (100.00) | 2.31 |
| Rural . . . . . | 1,826 (32.04) | 4,533 (34.40) | 2.48 |
| Urban . . . . . | 3,874 (67.96) | 8,645 (65.60) | 2.23 |

More units in the urban areas is understandable because storage of goods is bound to be more in towns/cities prior to despatch to consumer centres. The absence of disparity in unit-employment ratio is because of identical nature of work transacted in the ware-houses and cold storages located in the rural and urban areas.

210. In terms of total units, the first ten districts are as under :—

TABLE 124

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh . . . | 5,700 (100.00) | 1,826 (100.00) | 3,874 (100.00) |
| 1. Raipur . . . | 486 | 241 | 245 |

TABLE 124—*concld.*

| District | Total | Rural | Urban |
|---|---|---|---|
| 2. Bilaspur . . . | 442 | 67 | 375 |
| 3. Raigarh . . . | 428 | 119 | 309 |
| 4. Khandwa . . . | 392 | 36 | 356 |
| 5. Indore . . . | 349 | 9 | 340 |
| 6. Jabalpur . . . | 311 | 48 | 263 |
| 7. Gwalior . . . | 303 | 31 | 272 |
| 8. Surguja . . . | 286 | 148 | 138 |
| 9. Sehore . . . | 284 | 35 | 249 |
| 10. Durg . . . | 284 | 70 | 214 |
| TOTAL (1 to 10). . . | 3,565 (62.54) | 804 (44.03) | 2,761 (71.27) |

The first ten districts account for as high as 62.54 percent of total units, presumably on account of higher production of food grains as also greater business activity requiring bank credits against goods mortgaged, in these districts.

211. The first ten districts from the point of view of total employment are as follows :—

TABLE 125

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh . . . | 13,178 (100.00) | 4,534 (100.00) | 8,645 (100.00) |
| 1. Durg . . . | 1,528 | 222 | 1,306 |
| 2. Sehore . . . | 1,269 | 124 | 1,145 |
| 3. Raipur . . . | 1,172 | 702 | 470 |
| 4. Bilaspur . . . | 1,012 | 151 | 861 |
| 5. Jabalpur . . . | 657 | 62 | 595 |
| 6. Bastar . . . | 631 | 288 | 343 |
| 7. Rewa . . . | 580 | 429 | 151 |
| 8. Surguja . . . | 575 | 372 | 203 |
| 9. Indore . . . | 561 | 13 | 548 |
| 10. Raigarh . . . | 548 | 167 | 381 |
| TOTAL (1 to 10) . . | 8,533 (64.75) | 2,530 (55.81) | 6,003 (69.44) |

Eight of the ten districts mentioned in Tables Nos. 124 & 125 are common. In the latter table, Khandwa and Gwalior districts are replaced by Bastar and Rewa districts. The upward/downward movement is nominal so far as Khandwa, Gwalior and Bastar districts are concerned, but is substantial in the case of Rewa district. The following table explains the position better.

TABLE 126

| District | Units | Rank | Persons employed | Rank |
|---|---|---|---|---|
| Khandwa . . | 392 | 4 | 497 | 11 |
| Gwalior . . | 303 | 7 | 448 | 13 |
| Bastar . . . | 253 | 11 | 631 | 6 |
| Rewa . . . | 83 | 19 | 580 | 7 |

212. Single person units predominate in this major group. They account for almost three-fourths of the total units. The full break up is as follows :—

TABLE 127

| Total | 1 Person | 2-4 Persons | 5-9 Persons | 10-19 Persons | 20-49 Persons | 50-99 Persons | 100+ Persons | Unspecified |
|---|---|---|---|---|---|---|---|---|
| 5700 | 4,175 | 1,010 | 203 | 89 | 52 | 21 | 8 | 142 |
| (100.0) | (73.25) | (17.72) | (3.56) | (1.56) | (0.91) | (0.37) | (0.14) | (2.49) |

The 100+ units are stores offices of public sector undertakings.

213. The last ten districts in this major-group account for only 3.75 percent of the total units, as will be seen in the following table :—

TABLE 128

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh . . . | 5,700 (100.0) | 1,826 (100.0) | 3,874 (100.0) |
| 1. Dhar . . . | 12 | 10 | 2 |
| 2. Mandla . . . | 16 | 15 | 1 |
| 3. Chhatarpur . . | 17 | 5 | 12 |
| 4. Rajgarh . . . | 19 | 11 | 8 |
| 5. Bhind . . | 19 | 12 | 7 |
| 6. Datia . . . | 22 | 18 | 4 |
| 7. Damoh . . . | 25 | 9 | 16 |
| 8. Panna . . . | 26 | 19 | 7 |
| 9. Ujjain . . . | 29 | 13 | 16 |
| 10. Raisen . . . | 29 | 24 | 5 |
| TOTAL (1 to 10) . . | 214 (3.75) | 136 (7.45) | 78 (2.01) |

214. **Major Group 75: Communications :—** Generally, units relating to post, telegraph and telephone communication are covered in this major group. The rural-urban break up of 2,820 units having 14,384 persons is as follows :—

TABLE 129

| Sector | Units | Persons employed | Ratio |
|---|---|---|---|
| Total . . . . . | 2,820 (100.0) | 14,384 (100.0) | 5.10 |
| Rural . . . . . | 1,995 (70.74) | 3,916 (27.22) | 1.96 |
| Urban . . . . . | 825 (29.26) | 10,468 (72.78) | 12.69 |

The above picture is easily understandable. Postal facilities are gradually reaching the remote parts and that is why the rural areas account for over 70 percent of the total units. Viewed differently, only 1995 out of 70.830 villages are covered as yet. Perhaps the school buildings utilised by the teachers for postal work in small villages have not been returned as separate establishments. The 1995 units perhaps relate, by and large, to 1386 villages having a population of 2000 or more. Telegraph and telephone facilities are largely concentrated in the urban areas and each unit generally has quite a few employees. That it why the urban areas account for over 70 percent of total employment with less than 30 percent of total units.

215. The first ten districts in this major-group are as under :—

TABLE 130

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh . . . | 2,820 (100.0) | 1,995 (100.0) | 825 (100.0) |
| 1. Mandsaur . . | 123 | 86 | 37 |
| 2. Jabalpur . . . | 107 | 42 | 65 |
| 3. Durg . . . | 107 | 68 | 39 |
| 4. Indore . . . | 99 | 43 | 56 |
| 5. Bilaspur . . . | 99 | 70 | 29 |
| 6. Raipur . . . | 95 | 60 | 35 |
| 7. Bhind . . . | 88 | 79 | 9 |
| 8. Ujjain . . . | 87 | 48 | 39 |
| 9. Khargone . . | 86 | 59 | 27 |
| 10. Sehore . . . | 85 | 44 | 41 |
| TOTAL (1 to 10) . . | 976 (34.61) | 599 (30.03) | 377 (45.70) |

Communication facilities are bound to be dispersed and that is why the first ten districts account for only about one-third of the total units. The urban coverage is no doubt more but still it is more or less in conformity with the proportion of urban population living in these districts. Bhind district's entry in the above table may appear a bit surprising, but then it has to be remembered that large sized villages are many in the dacoity infested districts of Bhind and Morena. As many as 58 villages have a population of 2000+ and 4 villages are in the size-class 5000+. Significantly, Morena district is at the eleventh place. Large-sized villages are to be found in Khargone district also . It has 55 villages in the size-class 2000+and that explains the 59 rural units. The district has a dozen towns also.

216. From the point of view of total employment, the first ten districts are as under :—

TABLE 131

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh . . . | 14,384 (100.0) | 3,916 (100.0) | 10,468 (100.0) |
| 1. Indore . . . | 1,669 | 74 | 1,595 |
| 2. Sehore . . . | 1,362 | 76 | 1,286 |

TABLE 131—*concld.*

| State/District | Total | Rural | Urban |
|---|---|---|---|
| 3. Raipur . . . | 1,026 | 233 | 793 |
| 4. Durg . . . | 813 | 160 | 653 |
| 5. Jabalpur . . . | 783 | 91 | 692 |
| 6. Hoshangabad . . | 716 | 94 | 622 |
| 7. Bilaspur . . . | 604 | 201 | 403 |
| 8. Gwalior . . . | 577 | 52 | 525 |
| 9. Ujjain . . . | 502 | 77 | 425 |
| 10. Sagar . . . | 388 | 78 | 310 |
| TOTAL (1 to 10) . . | 8,440 (58.68) | 1,136 (29.01) | 7,304 (69.77) |

The substantially higher proportion in urban areas in respect of employment as compared to units is obviously due to size of the units in the urban areas. Hoshangabad, Gwalior and Sagar districts have found a place in the above table in place of Mandsaur, Bhind and Khargone districts which were in the first ten districts in terms of units. This is because of larger share of units in urban areas in the former group of districts.

217. Less than 30 percent of the units are single-person units. As many as 227 units employ ten or more persons. The complete break up is as under :—

TABLE 132

| Total | 1 person | 2-4 Persons | 5-9 Persons | 10-19 Persons | 20-49 Persons | 50-99 Persons | 100+ Persons | Unspecified |
|---|---|---|---|---|---|---|---|---|
| 2820 | 829 | 1440 | 235 | 107 | 80 | 25 | 15 | 89 |
| (100.0) | (29.40) | (51.06) | (8.33) | (3.79) | (2.84) | (0.89) | (0.53) | (3.16) |

The large-sized units are post and telegraph offices in cities.

218. Units pertaining to this major-group are bound to be found in every district and that is why the last ten districts also account for 12.23 percent of total units. Their share of total population is only slightly more than this percentage. The districts are Datia (24), Seoni (26), Narsimhapur (27), Damoh (34), Betul (35), Sidhi (35), Panna (36), Jhabua (42), Bastar (43) and Rajgarh (43).

219. **Major Group 90 : Public Administration and Defence Services :—** In this major group are covered all government, quasi-government and local bodies establishments dealing in administration. The 17,137 units in the State employ 189,985 persons with the following rural-urban division :—

TABLE 133

| Sector | Units | Persons employed | Ratio |
|---|---|---|---|
| Total . . . . . | 17,137 (100.00) | 189,985 (100.00) | 11.09 |
| Rural . . . . . | 10,373 (60.53) | 43,561 (22.93) | 4.20 |
| Urban . . . . . | 6,764 (39.47) | 146,424 (77.07) | 21.65 |

Greater share of rural areas in units and of urban areas in employment is not at all surprising. Large-scale opening of works and other facilities in the rural areas as part of plan programmes have pushed up the figure of units, but as the size-class is small, the share in total employment is less. One other point to be noted here is that the Establishment Schedule was not canvassed in military areas and defence establishments.

220. The first ten districts from the point of view of number of units are as under :—

TABLE 134

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh . . . | 17,137 (100.0) | 10,373 (100.0) | 6,764 (100.0) |
| 1. Raipur . . . | 836 | 565 | 271 |
| 2. Drug . . . | 823 | 470 | 353 |
| 3. Sehore . . . | 743 | 267 | 476 |
| 4. Bilaspur . . . | 668 | 363 | 305 |
| 5. Jabalpur . . . | 647 | 283 | 365 |
| 6. Khargone . . . | 578 | 315 | 263 |
| 7. Khandwa . . . | 554 | 382 | 172 |
| 8. Mandsaur . . | 532 | 291 | 241 |
| 9. Bastar . . . | 507 | 377 | 130 |
| 10. Shahdol . . . | 478 | 345 | 133 |
| TOTAL (1 to 10) . . | 6,366 (37.15) | 3,657 (35.25) | 2,709 (40.05) |

Dispersal of units is only to be expected and, therefore, the share of the first ten districts is more or less in conformity with their share of total population. The rural-urban share of units in each of the above districts is generally in accordance with the more or less share of urban population in it .

221. On account of Bhopal city, which is the capital of the State, Sehore district is at the top in the matter of employment in this major-group. More and more large size offices are being located and, therefore, the difference of four times between the first and the tenth district is likely to grow further in the 1971-81 decade. The following table gives the position of the first ten districts :—

TABLE 135

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh . . . | 189,985 (100.00) | 43,561 (100.00) | 146,424 (100.00) |
| 1. Sehore . . . | 24,841 | 703 | 24,138 |
| 2. Durg . . . | 15,779 | 4,803 | 10,976 |
| 3. Bilaspur . . . | 9,767 | 3,277 | 6,490 |
| 4. Gwalior . . . | 9,181 | 621 | 8,560 |

TABLE 135—*concld.*

| State/District | Total | Rural | Urban |
|---|---|---|---|
| 5. Raipur . . . | 9,162 | 2,610 | 6,552 |
| 6. Indore . . . | 8,734 | 524 | 8,210 |
| 7. Jabalpur . . . | 8,370 | 728 | 7,642 |
| 8. Khandwa . . . | 6,528 | 909 | 5,619 |
| 9. Hoshangabad . . | 6,209 | 1,612 | 4,597 |
| 10. Ujjain . . . | 6,203 | 555 | 5,648 |
| TOTAL (1 to 10) . | 104,774 (55.15) | 16,342 (37.52) | 88,432 (60.39) |

Entry of all the above districts is easily explainable. Either a big Central/State project is located, or the districts are head-quarters of divisional and State level offices. Displacement of Khargone, Mandsaur, Bastar and Shahdol districts by Gwalior, Indore, Hoshangabad and Ujjain districts is not at all surprising because of greater proportion of urban population in the latter group of districts.

222 Existence of large number of units in higher size-classes is only to be expected in this major group. What is not understood is return of large number of units in the category of 'unspecified'. The size-class break up is as under :—

TABLE 136

| Total | 1 Person | 2-4 Persons | 5-9 Persons | 10-19 Persons | 20-49 Persons | 50-99 Persons | 100+ Persons | Unspecified |
|---|---|---|---|---|---|---|---|---|
| 17,137 | 6,235 | 4,172 | 2,188 | 1,899 | 1,350 | 385 | 227 | 681 |
| (100.0) | (36.38) | (24.35) | (12.77) | (11.08) | (7.88) | (2.25) | (1.32) | (3.97) |

Most of the units in the size-classes 50-99 and 100+ are government/local body offices like Collectorates, S.P.'s Offices, C.M.Os offices, etc.

223. The last ten districts in this major-group account for only 13.16 percent of the total units. The position is as under :—

TABLE 137

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh . . . | 17,137 (100.0) | 10,373 (100.0) | 6,764 (100.0) |
| 1. Datia . . . | 93 | 53 | 40 |
| 2. Bhind . . . | 205 | 85 | 120 |
| 3. Damoh . . . | 207 | 130 | 77 |
| 4. Raigarh . . . | 212 | 117 | 95 |
| 5. Seoni . . . | 217 | 151 | 66 |
| 6. Raisen . . . | 250 | 201 | 49 |
| 7. Narsimhapur . . | 259 | 178 | 81 |
| 8. Panna . . . | 269 | 228 | 41 |
| 9. Sidhi . . . | 269 | 228 | 41 |
| 10. Shivpuri . . . | 275 | 203 | 72 |
| TOTAL (1 to 10) . . | 2,256 (13.16) | 1,574 (15.17) | 682 (19.08) |

224. **Major Group 92: Education, Scientific and Research Services :**—This major-group accounts for the second largest number of establishments in Division 9. Its share is as high as 28.84 percent of total units in Division 9. In all there are 39,678 units employing 152,913 persons with the following rural-urban break up :—

TABLE 138

| Sector | Units | Persons employed | Ratio |
|---|---|---|---|
| Total . . . . | 39,678 (100.00) | 152,913 (100.00) | 3.85 |
| Rural . . . . | 34,934 (88.04) | 96,393 (63.04) | 2.76 |
| Urban . . . . | 4,744 (11.96) | 56,520 (36.96) | 11.91 |

The efforts made at eradicating illiteracy can be clearly seen in the above figures. Schools have been opened in even remote places in the countryside and that is why we find shares of the rural areas in respect of total units even higher than its share of total population. Of course, size of the units is bigger in urban areas. The number of teaching staff in the schools and colleges located in the urban areas is very much more than in the rural areas and that explains the high unit employment ratio in the urban areas.

225. In terms of number of units, the first ten districts in this major group are as follows:—

TABLE 139

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh . . . | 39,678 (100.00) | 34,934 (100.00) | 4,744 (100.00) |
| 1. Durg . . . | 2,241 | 2,052 | 189 |
| 2. Raipur . . . | 2,237 | 2,034 | 203 |
| 3. Bilaspur . . . | 1,966 | 1,816 | 150 |
| 4. Bastar . . . | 1,570 | 1,532 | 38 |
| 5. Surguja . . . | 1,483 | 1,424 | 59 |
| 6. Raigarh . . . | 1,352 | 1,292 | 60 |
| 7. Khargone . . . | 1,248 | 1,107 | 141 |
| 8. Jabalpur . . . | 1,247 | 841 | 406 |
| 9. Shahdol . . . | 1,159 | 1,081 | 78 |
| 10. Morena . . . | 1,062 | 1,000 | 62 |
| TOTAL (1 to 10) . . | 15,565 (39.23) | 14,179 (40.59) | 1,386 (29·22) |

Concentration of units in certain regions only is not possible in this major-group because schools have been opened even in remote places in every district, as observed earlier. That is why the first ten districts, all large in size in terms of area as well as population, account for only 39.23 percent of total units. Population and distance are the two basic criteria for opening of schools and in the context of it none

of the districts appearing in the above list are a surprise. City districts having high proportion of urban population and large-size educational institutions like Indore, Gwalior, Sehore, Ujjain, etc., are missing in the above table which has number of units, irrespective of size, as its basis. But in terms of persons employed, city districts also find a place in the first ten districts at the expense of relatively backward districts where single teacher or two-teacher schools predominate in the rural areas, as would be seen in the following table:—

TABLE 140

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh | 152,913 (100.00) | 96,393 (100.00) | 56,520 (100.00) |
| 1. Durg | 9,461 | 5,986 | 3,475 |
| 2. Raipur | 9,322 | 7,018 | 2,304 |
| 3. Jabalpur | 7,966 | 2,481 | 5,485 |
| 4. Sehore | 7,761 | 6,207 | 5,154 |
| 5. Bilaspur | 7,313 | 5,307 | 2,006 |
| 6. Khargone | 5,803 | 2,979 | 2,824 |
| 7. Gwalior | 5,263 | 1,239 | 4,024 |
| 8. Indore | 5,033 | 1,617 | 3,416 |
| 9. Ujjain | 4,732 | 1,311 | 3,421 |
| 10. Raigarh | 3,994 | 3,335 | 659 |
| TOTAL (1 to 10) | 66,648 (43.59) | 33,880 (35.15) | 32,768 (57.98) |

226. Whether it is only a coincidence, or some co-relation does exist, it is interesting to note that the first ten district in Tables 139 and 140 account for almost the same percentage of total units and total employment, respectively, as held by them in respect of their share of literates to total literates in the State. If the ranking of the districts is worked out according to percentage of literates to total population, then the first ten districts in the State are Indore (43.49), Durg (37.02), Raipur (36.69), Jabalpur (34.24), Gwalior (33.89)' Sehore (29.67), Hoshangabad (29.56), Narsimhapur (28.77), Ujjain (28.49) and Sagar/Khandwa (27.89). Seven districts are the same as in Table 140. Bilaspur, Khargone and Raigarh districts, which have a fairly high percentage of Scheduled Caste/Scheduled Tribes population are missing and the relatively more enlightened districts of Hoshangabad, Narsimhapur, Sagar and Khandwa find a place. The number of persons covered by an educational institution in each district may be seen in the following table. It may be clarified here that the total population has been taken into consideration. The figure would go down, more or less proportionately in each distrct, if population in the age group 5-24 is only considered, but this data is not available just now.

TABLE 141

*Number of persons covered by an educational institution*

| State/District | Total | Rural | Urban |
|---|---|---|---|
| (1) | (2) | (3) | (4) |
| Madhya Pradesh | 1,050 | 998 | 1,430 |
| 1. Morena | 928 | 822 | 1,661 |
| 2. Bhind | 918 | 883 | 1,498 |
| 3. Gwalior | 1,119 | 856 | 1,571 |
| 4. Datia | 971 | 908 | 1,628 |
| 5. Shivpuri | 1,031 | 987 | 1,657 |
| 6. Guna | 1,196 | 1,153 | 1,615 |
| 7. Tikamgarh | 923 | 906 | 1,469 |
| 8. Chhatarpur | 999 | 986 | 1,112 |
| 9. Panna | 937 | 936 | 952 |
| 10, Satna | 978 | 955 | 1,229 |
| 11. Rewa | 1,100 | 1,097 | 1,134 |
| 12. Shahdol | 889 | 840 | 1,562 |
| 13. Sidhi | 1,095 | 1,103 | 720 |
| 14. Mandsaur | 977 | 1,004 | 884 |
| 15. Ratlam | 949 | 837 | 1,416 |
| 16. Ujjain | 1,032 | 970 | 1,166 |
| 17. Jhabua | 983 | 1,010 | 740 |
| 18. Dhar | 986 | 993 | 931 |
| 19. Indore | 1,289 | 914 | 1,705 |
| 20. Dewas | 1,001 | 987 | 1,078 |
| 21. Khargone | 1,029 | 995 | 1,296 |
| 22. Khandwa | 964 | 893 | 1,298 |
| 23. Shajapur | 1,190 | 1,196 | 1,144 |
| 24. Rajgarh | 1,534 | 1,558 | 1,343 |
| 25. Vidisha | 1,174 | 1,156 | 1,290 |
| 26. Sehore | 1,027 | 813 | 1,639 |
| 27. Raisen | 796 | 778 | 1,282 |
| 28. Hoshangabad | 903 | 852 | 1,154 |
| 29. Betul | 899 | 878 | 1,166 |
| 30. Sagar | 1,278 | 1,237 | 1,422 |
| 31. Damoh | 1,172 | 1,163 | 1,234 |
| 32. Jabalpur | 1,352 | 1,192 | 1,683 |
| 33. Narsimhapur | 995 | 974 | 1,161 |
| 34. Mandla | 918 | 911 | 1,058 |
| 35. Chhindwara | 1,050 | 979 | 1,637 |
| 36. Seoni | 1,092 | 1,079 | 1,320 |
| 37. Balaghat | 1,068 | 1,055 | 1,282 |
| 38. Surguja | 894 | 868 | 1,509 |
| 39. Bilaspur | 1,242 | 1,198 | 1,760 |
| 40. Raigarh | 946 | 931 | 1,265 |
| 41. Durg | 1,098 | 1,006 | 2,101 |
| 42. Raipur | 1,168 | 1,125 | 1,601 |
| 43. Bastar | 965 | 952 | 1,490 |

The above table shows that relatively backward districts have less persons per institution. But this does not mean that educational facilities are better in these districts. More institutions have to be opened keeping in view distance and in sparesly populated areas. This would be obvious when one co-relates low number of persons per institution to density of population. The following table will make the above contention clear.

TABLE 142

| State/District | Persons covered by an educational institution | Density of population |
|---|---|---|
| Madhya Pradesh . . . . . | 1,050 | 94 |
| 1. Raisen . . . . . | 796 | 66 |
| 2. Shahdol . . . . . | 889 | 73 |
| 3. Surguja . . . . . | 894 | 59 |
| 4. Betul . . . . . | 899 | 73 |
| 5. Mandla . . . . . | 918 | 66 |

227. In view of predominence of rural area in respect of total units as well as total emplyoment, the size-class of the units cannot be very large in this major-group. Over eighty percent of the units have less than 5 employees. The complete break-up is as under :—

TABLE 143

| Total | 1 Person | 2-4 Persons | 5-9 Persons | 10-19 Persons | 20-49 Persons | 50-99 Persons | 100+ persons | Unspecified |
|---|---|---|---|---|---|---|---|---|
| 39,678 | 11,756 | 20,317 | 4,219 | 1,833 | 822 | 129 | 52 | 550 |
| (100.00) | (29.63) | (51.20) | (10.63) | (4.62) | (2.07) | (0.33) | (0.13) | (1.39) |

The very large number of units in the 'unspecified' category defies explanation. Units in the size-class 100+ are mostly mistakes of concept on the part of the enumerator. Strength of students in schools has been generally returned as number of employees.

228. The last ten districts in terms of units in this major group are as follows:—

TABLE 144

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh . . . | 39,678 (100.0) | 34,934 (100.0) | 4,744 (100·00) |
| 1. Datia . . . | 263 | 240 | 23 |
| 2. Rajgarh . . . | 420 | 374 | 46 |
| 3. Panna . . . | 458 | 426 | 32 |
| 4. Damoh . . . | 489 | 425 | 64 |
| 5. Narsimhapur . . | 522 | 464 | 58 |
| 6. Vidisha . . . | 561 | 489 | 72 |
| 7. Shivpuri . . . | 570 | 502 | 68 |
| 8. Dewas . . . | 594 | 506 | 88 |
| 9. Seoni . . . | 612 | 579 | 33 |
| 10. Sidhi . . . | 708 | 695 | 13 |
| TOTAL (1 to 10) . . | 5,197 (13·10) | 4,700 (13·45) | 497 (10·48) |

But from the above it cannot be concluded that these districts are backward in the field of education. Number of units depend on population and distance, as observed earlier. Narsimhapur district is actually in the first ten districts in terms of percentage of literates to total population, as stated in para 226. Datia, Dewas, Damoh and Seoni districts also reckon high from this standpoint. If percentage of literates to total population is adopted as the yardstick, then the last ten districts would be Jhabua (8.23), Sidhi (10.90), Surguja (12.77), Tikamgarh (14.05), Shahdol (14.60), Raigarh (14.64), Panna (14.75), Chhatarpur (15.07), Bastar (15.17) and Dhar (16.64).

**Major Group 93 : Medical and Health Services**

229. In addition to all types of medicine—Allopathic, ayurvedic, unani, homoeopathic, etc.,—veterinary services are also included in this major group. The distributon of 11,126 total units employing 43,005 persons is as under :—

TABLE 145

| Sector | Units | Persons employed | Ratio |
|---|---|---|---|
| Total . . . . . | 11,126 (100·0) | 43,005 (100·0) | 3·87 |
| Rural . . . . . | 6,494 (58·37) | 17,627 (40·99) | 2·71 |
| Urban . . . . . | 4,632 (41·63) | 25,378 (59·01) | 5·49 |

More units in rural areas and larger employment in urban areas is on the pattern of educational institutions with this essential difference that the percentage of rural units in this major group is less than what it is in the case of major group 92. In other words the spread of medical facilities in the rural areas is very much less in comparison to educational facilities.

230. In terms of total units, the first ten districts in this major group are as under:—

TABLE 146

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh . . . | 11,126 (100·0) | 6,494 (100.0) | 4,632 (100·0) |
| 1. Raipur . . . | 732 | 467 | 265 |
| 2. Jabalpur . . . | 696 | 194 | 502 |
| 3. Durg . . . | 665 | 451 | 214 |
| 4. Indore . . . | 626 | 137 | 489 |
| 5. Bilaspur . . . | 565 | 370 | 195 |
| 6. Gwalior . . . | 405 | 106 | 299 |
| 7. Sehore . . . | 386 | 169 | 217 |
| 8. Sagar . . . | 360 | 166 | 194 |
| 9. Khargone . . . | 359 | 233 | 126 |
| 10. Ujjain . . . | 344 | 123 | 221 |
| TOTAL (1 to 10) . . | 5,138 (46·18) | 2,416 (37·20) | 2,722 (58·77) |

Greater share of the first ten districts in the urban areas is due to development of specialities in the cities, i.e., Specialist Consultants generally set up their clinics/nursing homes in the cities.

231. The first ten districts from the point of view of total employment are as under:—

TABLE 147

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh . . . | 43,005 | 17,627 | 25,378 |
| | (100·0) | (100·0) | (100.0) |
| 1. Durg . . . | 3,467 | 986 | 2,481 |
| 2. Indore . . . | 3,337 | 382 | 2,955 |
| 3. Sehore . . . | 2,645 | 399 | 2,246 |
| 4. Jabalpur . . . | 2,553 | 451 | 2,102 |
| 5. Raipur . . . | 2,386 | 1,389 | 997 |
| 6. Bilaspur . . . | 2,034 | 978 | 1,056 |
| 7. Gwalior . . . | 1,496 | 272 | 1,224 |
| 8. Khargone . . . | 1,215 | 568 | 647 |
| 9. Ujjain . . . | 1,141 | 289 | 852 |
| 10. Surguja . . . | 1,127 | 603 | 524 |
| TOTAL (1 to 10) . . | 2,140 | 6,317 | 15,084 |
| | (49·76) | (35·84) | (59·44) |

Nine districts in Tables Nos 146 and 147 are common. Entry of Surguja district at the expense of Sagar district is a bit surprising. Perhaps this may be due to a few large sized mission hospitals in Surguja district.

232. Medical units are generally small in size. The share of units below 5 employees is as high as 84.44 per cent. The full break up is as follows:—

TABLE 148

| Total | 1 Person | 2-4 Persons | 5-9 Persons | 10-19 Persons | 20-49 Persons | 50-99 Persons | 100+ persons | Unspecified |
|---|---|---|---|---|---|---|---|---|
| 11,126 | 4,719 | 4,676 | 813 | 414 | 207 | 57 | 24 | 216 |
| (100.0) | (42.41) | (42.03) | (7.31) | (3.72) | (1.86) | (0 51) | (0.22) | (1.94) |

233. From the point of view of number of units, the last ten districts are:—

TABLE 149

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh . . . | 11,126 | 6,494 | 4,632 |
| | (100.0) | (100·0) | (100·0) |
| 1. Panna . . . | 68 | 59 | 9 |
| 2. Datia . . . | 71 | 45 | 26 |
| 3. Sidhi . . | 97 | 91 | 6 |
| 4. Tikamgarh . . | 114 | 101 | 13 |
| 5. Rajgarh . . . | 126 | 92 | 34 |
| 6. Damoh . . . | 147 | 73 | 74 |
| 7. Chhatarpur . . | 150 | 108 | 42 |
| 8. Shivpuri . . . | 150 | 106 | 44 |
| 9. Mandla . . . | 157 | 132 | 25 |
| 10. Raisen . . . | 157 | 128 | 29 |
| TOTAL (1 to 10) . . | 1,237 | 935 | 302 |
| | (11.12) | (14·40) | (6·52) |

234. A study of number of persons served by a medical institution would not be out of place. The following table gives the districts-wise position:

TABLE 150

*Number of persons served by a medical institution*

| State/District | Total | Rural | Urban |
|---|---|---|---|
| (1) | (2) | (3) | (4) |
| Madhya Pradesh . . . | 3,739 | 5,361 | 1,463 |
| 1. Morena . . . | 4,140 | 6,043 | 1,119 |
| 2. Bhind . . . | 3,799 | 5,221 | 1,034 |
| 3. Gwalior . . . | 2,118 | 3,915 | 1,482 |
| 4. Datia . . . | 3,595 | 4,841 | 1,440 |
| 5. Shivpuri . . . | 4,510 | 5,710 | 1,619 |
| 6. Guna . . . | 4,504 | 5,744 | 1,821 |
| 7. Tikamgarh . . | 4,990 | 5,356 | 2,146 |
| 8. Chhatarpur . . | 4,749 | 5,855 | 1,906 |
| 9. Panna . . . | 6,310 | 6,756 | 3,385 |
| 10, Satna . . . | 5,019 | 6,203 | 1,893 |
| 11. Rewa . . . | 6,150 | 7,636 | 1,729 |
| 12. Shahdol . . . | 6,318 | 8,255 | 2,299 |
| 13. Sidhi . . . | 7,846 | 8,252 | 1,560 |
| 14. Mandsaur . . . | 3,033 | 4,285 | 1,409 |
| 15. Ratlam . . . | 2,688 | 4,085 | 1,461 |
| 16. Ujjain . . . | 2,500 | 4,519 | 1,381 |
| 17. Jhabua . . . | 4,023 | 5,074 | 1,109 |
| 18. Dhar . . . | 3,918 | 4,759 | 1,529 |
| 19. Indore . . . | 1,637 | 2,790 | 1,314 |
| 20. Dewas . . . | 2,777 | 3,963 | 1,078 |
| 21. Khargone. . . | 3,579 | 4,729 | 1,451 |
| 22. Khandwa . . | 2,697 | 3,282 | 1,706 |
| 23. Shajapur . . | 3,943 | 5,222 | 1,364 |
| 24. Rajgarh . . . | 5,074 | 6,264 | 1,817 |
| 25. Vidisha . . . | 3,741 | 5,830 | 1,175 |
| 26. Sehore . . . | 2,796 | 3,739 | 2,060 |
| 27. Raisen . . . | 3,522 | 4,080 | 1,06 |
| 28. Hoshangabad . . | 3,211 | 5,084 | 1,381 |
| 29. Betul . . . | 3,854 | 4,879 | 1,253 |
| 30. Sagar . . . | 2,943 | 4,802 | 1,341 |
| 31. Damoh . . . | 3,900 | 6,771 | 1,067 |
| 32. Jabalpur . . . | 2,419 | 5,141 | 1,361 |
| 33. Narsimhapur . . | 3,054 | 3,830 | 1,294 |
| 34. Mandla . . . | 5,564 | 6,249 | 1,948 |
| 35. Chhindwara . . | 3,942 | 5,605 | 1,590 |
| 36. Seoni . . . | 4,177 | 5,079 | 1,177 |
| 37. Balaghat . . . | 4,745 | 5,650 | 1,510 |
| 38. Surguja . . . | 6,227 | 7,932 | 1,562 |
| 39. Bilaspur . . . | 4,320 | 5,883 | 1,354 |
| 40. Raigarh . . . | 7,566 | 9,699 | 1,687 |
| 41. Durg . . . | 3,685 | 4,548 | 1,855 |
| 42. Raipur . . . | 3,570 | 4,900 | 1,226 |
| 43. Bastar . . . | 7,617 | 8,198 | 2,696 |

It would be seen that districts having less number of persons per institution are covered in Tables Nos. 146 and 147, whereas districts with high ratio are appearing in Table 149 relating to the last districts in this major group. This supports the earlier contention that private medical units generally got located in cities as a result of which city districts figure in the category having less persons per medical institution.

235. **Major Group 94 : Community Services :—**

Religious and welfare services, fire brigade services, business, professional and labour organisations, etc., are included in this major-group. In view of the large base, this major-group has the largest number of units in all the divisions pertaining to this Chapter. There are in all 47, 292 units employing 60,820 persons. The rural-urban break up is as under:—

TABLE 151

| Sector | Units | Persons employed | Ratio |
|---|---|---|---|
| Total . . . | 47,292 (100.0) | 60,820 (100.0) | 1.29 |
| Rural . . . | 37,025 (78.29) | 41,495 (68.23) | 1.12 |
| Urban . . . | 10,267 (21.71) | 19,326 (31.77) | 1.88 |

The rural predominence in this major-group is primarily due to much larger number of religious institutions in totally in the countryside. A purohit or a 'mullah' holding religious discourses in the evening on part-time honorary basis is not an uncommon sight and, therefore, even in the matter of total employment, the share of the rural areas is high.

236. In terms of total units, the first ten districts in this major-group are as follows :—

TABLE 152

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh | 47,292 (100.0) | 37,025 (100.0) | 10,267 (100.0) |
| 1. Mandsaur . | 3,602 | 2,937 | 665 |
| 2. Ujjain . . | 3,052 | 2,117 | 935 |
| 3. Raipur . . | 2,998 | 2,524 | 474 |
| 4. Bastar . . | 2,898 | 2,779 | 119 |
| 5. Guna . . | 2,131 | 1,874 | 257 |
| 6. Morena . . | 1,966 | 1,699 | 267 |
| 7. Ratlam . . | 1,889 | 1,603 | 286 |
| 8. Sagar . . | 1,887 | 1,473 | 414 |
| 9. Gwalior . . | 1,838 | 1,228 | 610 |
| 10. Indore . . | 1,805 | 1,211 | 594 |
| TOTAL (1 to 10) . | 24,066 (50.89) | 19,445 (52.52) | 4,621 (45.01) |

There can be no co-relation of number of units and size of the districts so far as this major-group is concerned. What matters most is the heritage of the people and their faith in service to the community. Largest number of urban units in Ujjain district and presence of Bastar district in the first ten districts are, however, easily explainable. Ujjain city is known as a centre of religious learning for over 2000 years and the 'ardha-kumbha' is still held there every 12 years. As for Bastar district, there is wide spread existence of community institution by the name of 'ghotul' where unmarried tribal boys and girls spend the night together (See Appendix IV for a note on 'ghotul)

237. From the point of view of total employment, the first ten districts are as under:—

TABLE 155

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh . | 60,820 (100.0) | 41,494 (100.0) | 19,326 (100.0) |
| 1. Mandsaur . | 3,827 | 3,054 | 773 |
| 2. Raipur . . | 3,791 | 2,810 | 981 |
| 3. Ujjain . . | 3,717 | 2,145 | 1,572 |
| 4. Durg . . | 3,552 | 1,172 | 2,380 |
| 5. Bastar . . | 3,437 | 3,220 | 217 |
| 6. Gwalior . . | 2,890 | 1,262 | 1,628 |
| 7. Indore . . | 2,720 | 1,279 | 1,441 |
| 8. Guna . . | 2,403 | 2,072 | 331 |
| 9. Morena . . | 2,302 | 1,995 | 307 |
| 10. Ratlam . . | 2,279 | 1,668 | 611 |
| TOTAL (1 to 10) . | 30,918 (50.84) | 20,677 (49.83) | 10,241 (52.99) |

In view of low unit-employment ratio, there is hardly any difference in the list of first ten districts prepared in terms of total units and total employment. Nine districts are common; in table no 152, Durg district finds a place replacing Sagar district which has more units. The comparative position of the two uncommon districts is as under:—

TABLE 134

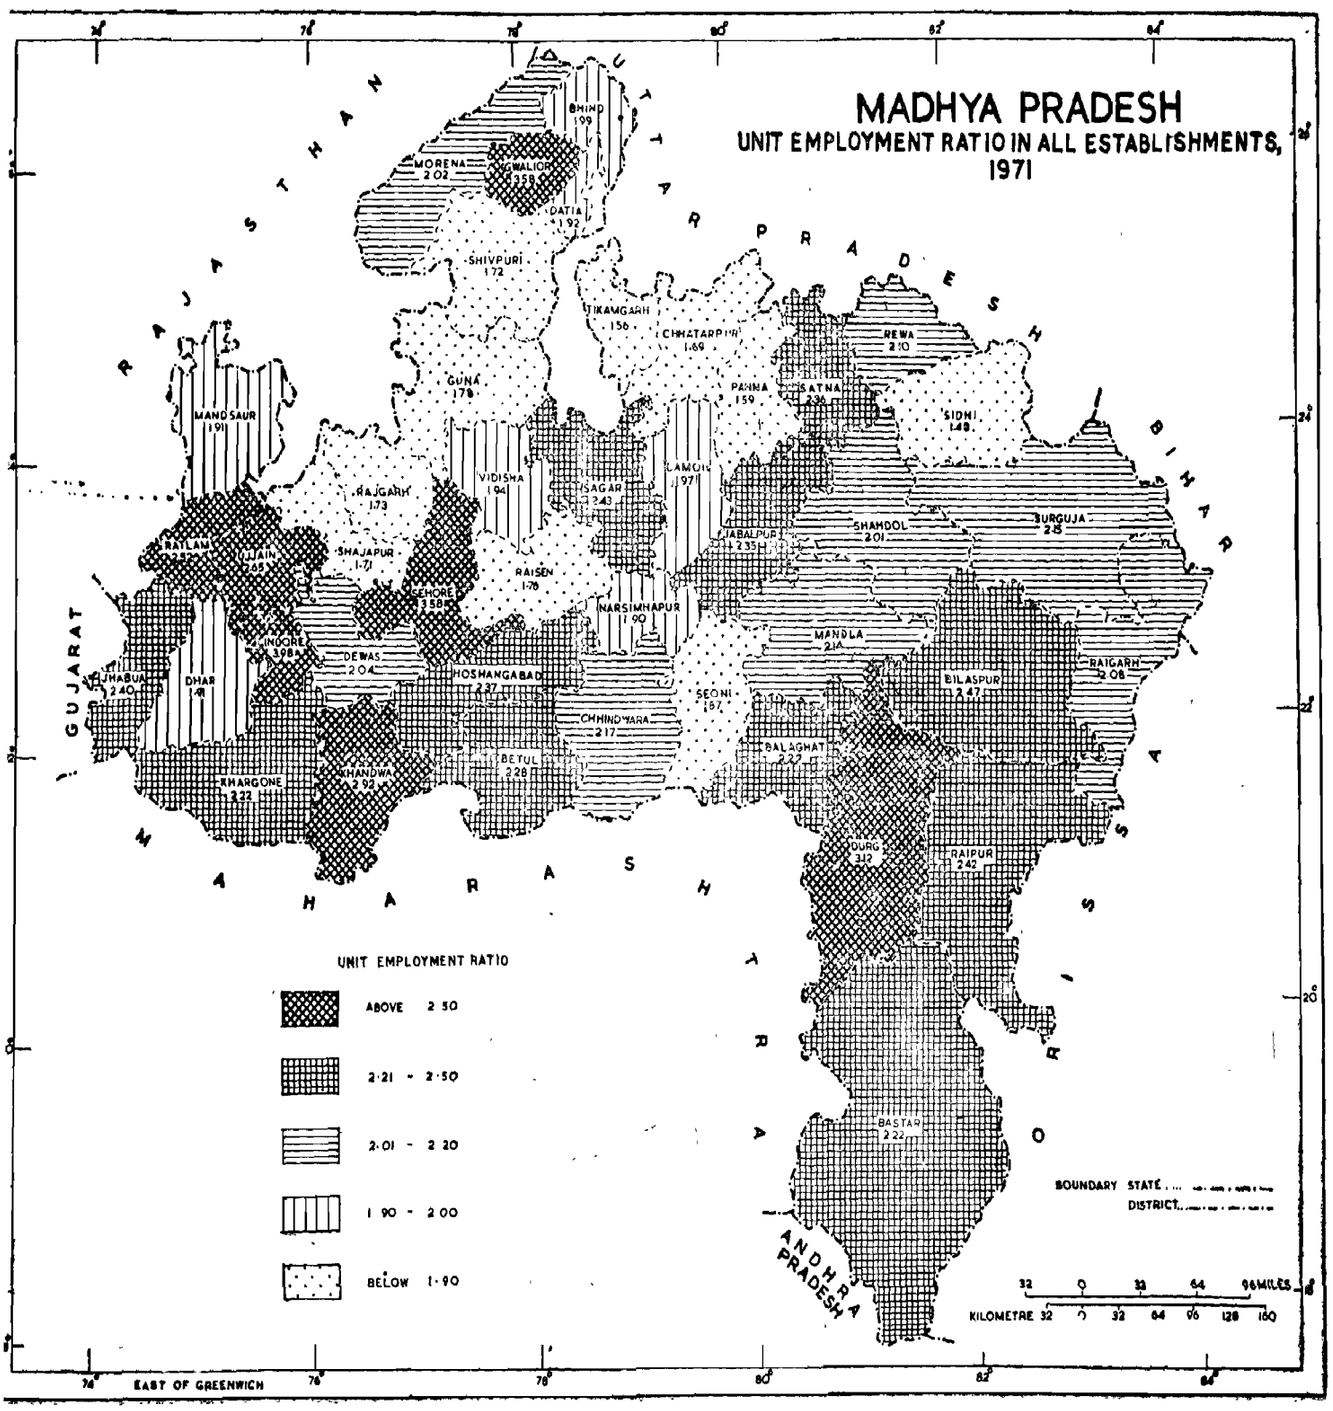

| District | Units | Rank | Persons employed | Rank |
|---|---|---|---|---|
| Sagar . . | 1,887 | 8 | 2,156 | 11 |
| Durg . . | 1,185 | 17 | 3,552 | 4 |

238. As observed in the previous paragraph, the unit-employment ratio is low in this major-group signifying the small size of the units. As many as 92.77 percent of the total units are single person units. The complete break up is as under:—

TABLE 155

| Total | 1 Person | 2—4 Persons | 5—9 Persons | 10—19 Persons | 20—49 Persons | 50—99 Persons | 100+ persons | Unspecified |
|---|---|---|---|---|---|---|---|---|
| 47,292 (100.0) | 43,874 (92.77) | 2,381 (5.03) | 444 (0.94) | 183 (0.39) | 72 (0.15) | 26 (0.06) | 15 (0.03) | 297 (0.63) |

Mistake similar to that committed in respect of major-group 92 has been noticed here also. The number of inmates have been treated as number of employees in a few cases of Durg-Bhilainagar urban agglomeration. Due to this we find relatively high employment figure in Durg district in Table No. 152 and 153.

239. The last 10 districts in terms of total units in this major-group are as follows:—

TABLE 156

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh . | 47,292 (100.0) | 37,025 (100.0) | 10,267 (100.0) |
| 1. Seoni . . | 77 | 43 | 34 |
| 2. Balaghat . | 143 | 77 | 66 |
| 3. Shahdol . . | 173 | 100 | 73 |
| 4. Mandla . . | 193 | 120 | 73 |
| 5. Rewa . . | 201 | 147 | 54 |
| 6. Panna . . | 203 | 120 | 83 |
| 7. Betul . . | 212 | 96 | 116 |
| 8. Sidhi . . | 257 | 257 | X |
| 9. Surguja . . | 279 | 205 | 74 |
| 10. Satna . . | 282 | 151 | 131 |
| TOTAL (1 to 10) . | 2,020 (4.27) | 1,316 (3.55) | 704 (6.86) |

240. **Major Group 95: Recreational and Cultural Services:—**

Cinemas, theatres, independent artists, radio broadcasting, circus, libraries, etc., are included in this major-group. In all there are 2052 units employing 10,299 persons with the following rural-urban break up:—

TABLE 157

| Sector | Units | Persons employed | Ratio |
|---|---|---|---|
| Total . . . | 2,052 (100.0) | 10,299 (100.0) | 5.02 |
| Rural . . . | 508 (24.76) | 1,156 (11.22) | 2.28 |
| Urban . . . | 1,544 (75.24) | 9,143 (88.78) | 5.92 |

In the light of the nature of activities covered in this major-group, the predominant urban bias is easily understandable. The low literacy rate and per capita income does not permit existence of many units in the rural areas.

242. There is no surprise in the first ten districts. They are as under:—

TABLE 158

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh . | 2,052 (100.0) | 508 (100.0) | 1,544 (100.0) |
| 1. Indore . . | 173 | 34 | 139 |

TABLE 158—*Concld.*

| State/District | Total | Rural | Urban |
|---|---|---|---|
| 2. Jabalpur . . | 143 | 13 | 130 |
| 3. Sehore . . | 121 | 17 | 104 |
| 4. Gwalior . . | 117 | 17 | 100 |
| 5. Raipur . . | 107 | 37 | 70 |
| 6. Durg . . | 98 | 10 | 88 |
| 7. Mandsaur . | 77 | 12 | 65 |
| 8. Ujjain . . | 74 | 4 | 70 |
| 9. Sagar . . | 69 | 17 | 52 |
| 10. Bilaspur . . | 66 | 21 | 45 |
| TOTAL (1 to 10) . | 1,045 (50.93) | 182 (35.83) | 863 (55.89) |

242. Nine of the districts in Table 158 find a place in the first ten districts in terms of total employment. The lone new entrant is Ratlam district at the expense of Mandsaur district. The position is as under:—

TABLE 159

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh . | 10,299 (100.0) | 1,156 (100.0) | 9,143 (100.0) |
| 1. Indore . . | 1,048 | 89 | 959 |
| 2. Gwalior . . | 873 | 40 | 833 |
| 3. Jabalpur . . | 728 | 22 | 706 |
| 4. Sehore . . | 611 | 20 | 591 |
| 5. Durg . . | 567 | 39 | 528 |
| 6. Raipur . . | 539 | 85 | 454 |
| 7. Ujjain . . | 481 | 4 | 477 |
| 8. Ratlam . . | 396 | 27 | 369 |
| 9. Bilaspur . . | 362 | 69 | 293 |
| 10. Sagar . . | 352 | 67 | 285 |
| TOTAL (1 to 10) . | 5,957 (57.84) | 462 (39.97) | 5,495 (60.10) |

The upward/downward movement of the two uncommon districts is nominal as would be clear from the following:—

TABLE 160

| District | Units | Rank | Persons employed | Rank |
|---|---|---|---|---|
| Mandsaur . | 77 | 7 | 289 | 12 |
| Ratlam . . | 63 | 11 | 396 | 8 |

243. The unit size is relatively larger in this major-group and that is why as many as 655 units (31.92%) employ 3 or more persons. The following table gives the complete break up.

TABLE 161

| Total | 1 Person | 2—4 Persons | 5—9 Persons | 10—19 Persons | 20—49 Persons | 50—99 Persons | 100+ Persons | Un-specified |
|---|---|---|---|---|---|---|---|---|
| 2,052 (100.0) | 923 (44.98) | 398 (19.40) | 242 (11.79) | 326 (15.89) | 80 (3.90) | 5 (0.24) | 2 (0.10) | 16 (3.70) |

244. In terms of total unit, the last ten district in this Major-group are as under:—

TABLE 162

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh . | 2,052 (100.0) | 508 (100.0) | 1,544 (100.0) |
| 1. Sidhi . . | 8 | 6 | 2 |
| 2. Raisen . . | 10 | 4 | 6 |
| 3. Rewa . . | 10 | 3 | 7 |
| 4. Rajgarh . . | 12 | 3 | 9 |
| 5. Balaghat . | 14 | 4 | 10 |
| 6. Seoni . . | 14 | 3 | 11 |
| 7. Damoh . . | 15 | 1 | 14 |
| 8. Panna . . | 15 | 9 | 6 |
| 9. Chhatarpur . | 15 | 5 | 10 |
| 10. Narsimhapur . | 20 | 6 | 14 |
| TOTAL (1 to 10) . | 133 (6.48) | 44 (8.66) | 89 (5.76) |

245. **Major Group 96 : Personal Services :—**

Domestic, laundry, hair-dressing, photographic and the like services are covered in this major-group. The rural urban break up of 20,222 units employing 29,862 persons is as under :—

TABLE 163

| Sector | Units | Persons employed | Ratio |
|---|---|---|---|
| Total . . . | 20,222 (100.0) | 29,862 (100.0) | 1.48 |
| Rural . . . | 9,611 (47.53) | 12,395 (41.51) | 1.29 |
| Urban . . . | 10,611 (52.47) | 17,467 (58.49) | 1.65 |

Individual barbers are perhaps the reason for rural areas accounting for over 40 percent of total units as well as total employment.

246. The first ten districts in terms of total units in this major-group are as under :—

TABLE 164

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh . | 20,222 (100.0) | 9,611 (100.0) | 10,611 (100.0) |
| 1. Indore . . | 1,396 | 388 | 1,008 |
| 2. Sehore . . | 1,076 | 415 | 661 |
| 3. Ujjain . . | 1,057 | 438 | 619 |
| 4. Mandsaur . | 1,050 | 549 | 501 |
| 5. Jabalpur . . | 1,037 | 248 | 789 |
| 6. Khargone . | 783 | 466 | 317 |
| 7. Khandwa . | 782 | 506 | 276 |
| 8. Durg . . | 781 | 242 | 539 |
| 9. Ratlam . . | 698 | 307 | 391 |
| 10. Gwalior . . | 689 | 68 | 621 |
| TOTAL (1 to 10) . | 9,349 (46.23) | 3,637 (37.74) | 5,722 (53.93) |

In the context of the types of activities covered in this major-group, dispersal of units in rural areas and concentration in cities is an expected pattern and, therefore, there is nothing surprising in the above picture. What is not explainable is existence of larger number of rural units in Indore district *vis-a-vis* Jabalpur and Durg districts.

247. In total employment, the first ten districts are as follows :—

TABLE 165

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh . | 29,862 (100.0) | 12,395 (100.0) | 17,467 (100.0) |
| 1. Indore . . | 2,246 | 507 | 1,739 |
| 2. Sehore . . | 1,674 | 532 | 1,142 |
| 3. Ujjain . . | 1,549 | 534 | 1,015 |
| 4. Jabalpur . . | 1,546 | 300 | 1,246 |
| 5. Mandsaur . | 1,492 | 735 | 757 |
| 6. Durg . . | 1,307 | 360 | 947 |
| 7. Khandwa . | 1,197 | 646 | 551 |
| 8. Raipur . . | 1,133 | 330 | 803 |
| 9. Khargone . | 1,115 | 568 | 547 |
| 10. Ratlam . . | 1,077 | 377 | 700 |
| TOTAL (1 to 10) . | 14,336 (48·01) | 4,889 (39.44) | 9,447 (54·08) |

The uncommon districts in Tables No. 164 and 165 are Gwalior and Raipur. The upward/downward movement is nominal as would be clear from the following table:—

TABLE 166

| District | Units | Rank | Persons employed | Rank |
|---|---|---|---|---|
| Gwalior . | 689 | 10 | 1,003 | 11 |
| Raipur . . | 621 | 13 | 1,133 | 8 |

248. The size of the units is small in this major group. Over 98 percent employ below 5 persons, as would be seen in the following table.

TABLE 167

| Total | 1 Person | 2—4 Persons | 5—9 Persons | 10—19 Persons | 20—49 Persons | 50—99 Persons | 100+ Persons | Un-specified |
|---|---|---|---|---|---|---|---|---|
| 20,222 (100.0) | 13,283 (65.69) | 6,691 (33.09) | 190 (0.94) | 17 (0.08) | 6 (0.03) | .. .. | .. .. | 135 (0.17) |

249. The last ten districts in terms of total units account for only 7.84 percent of total units, but significantly each district has over 100 units. The break up is as under:—

TABLE 168

| State/District | Total | Rural | Urban |
|---|---|---|---|
| Madhya Pradesh . | 20,222 (100·0) | 9,611 (100·0) | 10,611 (100·0) |
| 1. Seoni . . | 128 | 63 | 65 |
| 2. Mandla . . | 136 | 77 | 59 |
| 3. Datia . . | 143 | 61 | 82 |
| 4. Jhabua . . | 145 | 51 | 94 |
| 5. Raisen . . | 154 | 110 | 44 |
| 6. Surguja . . | 162 | 94 | 68 |
| 7. Narsimhapur . | 165 | 41 | 124 |
| 8. Panna . . | 183 | 125 | 58 |
| 9. Tikamgarh . | 183 | 134 | 49 |
| 10. Bastar . . | 187 | 112 | 75 |
| TOTAL (1 to 10) . | 1,586 (7.84) | 868 (9.03) | 718 (6.77) |

250. **Other Major Groups:**—The total number of units in divisions 0, 1, 4 and 5, as also in the remaining major-groups of divisions 7 and 9, are so few that it would not be worthwhile to discuss them, even by way of a passing reference, according to major-groups. It would perhaps suffice to refer to certain broad features and inter-se position of districts according to divisions.

251. **Division 0:**—(i) There are in all 544 units in the State employing 1188 persons. Major-group 02 (Livestock production) accounts for as many as 411 units, followed by major-group 03 (agricultural services) which has 110 units.

(ii) The first five districts for the division as a whole are Narsimhapur (55), Durg (45), Raipur (44) Jabalpur (44) and Sehore (36). These districts account of 41.17 percent of the total units.

(iii) Single person units perdominate, accounting for as much as 69.49 percent. The complete break up is as under :—

TABLE 169

| Total | 1 Person | 2—4 Persons | 5—9 Persons | 10—19 Persons | 20—49 Persons | 50—99 Persons | 100+ Persons | Un-specified |
|---|---|---|---|---|---|---|---|---|
| 544 (100.0) | 378 (69.49) | 112 (20.59) | 30 (5.14) | 7 (1.29) | 3 (0.55) | 3 (0.55) | .. | 11 (0·02) |

252. **Division 1:**—(i) Only 88 units have been returned with an employment of 3059 persons. Since the division relates to mining and quarrying, the high unit-employment ratio is understandable. Major group 10 (coal mining) has 68 units, followed by major group 19 (other mining) with 15 units.

(ii) Mineral deposits are not availbale every-where and hence concentration of units is only to be expected. The first five districts—Chhindwara (34), Surguja (27), Satna (8), Shahdol (8) and Balaghat (3)—account for as high as 90.90 percent of the total units in this division.

(iii) The size of the units is generally large and only about 10 percent are single person units. The full position is as under:—

TABLE 170

| Total | 1 Person | 2—4 Persons | 5—9 Persons | 10—19 Persons | 20—49 Persons | 50—99 Persons | 100+ Persons | Un-specified |
|---|---|---|---|---|---|---|---|---|
| 88 (100.0) | 9 (10.23) | 26 (29.54) | 6 (6.82) | 17 (19.32) | 6 (6.82) | 4 (4.54) | 9 (10.28) | 11 (12.50) |

253. **Division 4 :**—(i) There are in all 899 units in which major group 42 (water-works and supply) has 527 units and major-group 40 (electricity) accounts for 366 units.

(ii) The first five districts are Jabalpur (90), Durg (83), Raipur (73), Sehore (58) and Hoshangabad (43), These districts account for 38.59 percent of the total units in this division.

(iii) The size-class of the units is as under:—

TABLE 17

| Tota | 1 Person | 2—4 Persons | 5—9 Persons | 10—19 Persons | 20—49 Persons | 50—99 Persons | 100+ Persons | Un-specified |
|---|---|---|---|---|---|---|---|---|
| 899 (100.0) | 355 (39.49) | 273 (30.37) | 100 (11.12) | 76 (8.46) | 42 (4.67) | 20 (2.22) | 9 (1.0) | 24 (2.67) |

254. **Division 5 :**—(i) Only 44 units have been returned in the State in this division which relates to constructons. Major-group 50 (construction) has 38 units and major-group 51 (activities allied to construction) only 6 units.

(ii) The first five districts are Gwalior (4), Rewa (4), Durg (4), Chhatarpur (3) and Ujjain (3). These districts account for 40.90 percent of the total units.

(iii) The complete break up of the total units according to size-classes is as under :—

TABLE 172

| Total | 1 Person | 2—4 Persons | 5—9 Persons | 10—19 Persons | 20—49 Persons | 50—99 Persons | 100+ Persons | Un-specified |
|---|---|---|---|---|---|---|---|---|
| 44 | 15 | 11 | 1 | 8 | 2 | 2 | 2 | 3 |
| (100.0) | (34.09) | (25.0) | (2.27) | (18.18) | (4.55) | (4.55) | (4.55) | (6.81) |

255. **Division 7** :—(i) Major-groups 70, 74 and 75 have already been dealt with in detail. Therefore, the discussion here would be limited to the two remaining major-groups of this division, *viz.*, major-group 72 (air transport) and major-group 73 (services incidental to transport, such as packing, crating, travel agency, etc.)

(ii) There are only ten units employing 54 persons in major-group 72. More units in the rural areas need not surprise anyone because it is well located that aerodromes generally located outside the city/town limits. This is in fact that position in respect of aerodromes airstrips in Raipur, Chhatarpur and Surguja districts from where units have been returned. No unit has been returned from Indore district which is an obvious case of enumeration error. There is a regular air service passing through Indore city; it is possible that the concerned patwari, who canvassed the schedule in the rural areas, might have left out the unit thinking that it falls in the jurisdiction of the urban enumerator.

(iii) In major-group 73 also, there are only 10 units in the State employing 109 persons. Nil units in city districts of Indore, Jabalpur, Raipur, Durg, Khandwa and Sagar is surprising and could be due to wrong coding resulting in mis-classification.

(iv) In both major-groups 72 and 73, 4 out of 10 establishments have been returned as single-member units. In the light of nature of activity covered in these Major-groups, this seems to be an error of under-enumeration.

256. **Division 9:**—(i) Major-groups 90, 92, 93, 94, 95 and 96 have been discussed in detail already. Only major-groups 91, 98 and 99 remain in this division. Only 4 units in the State have been returned in major-group 98 (international and other extra territorial bodies services) and hence no discussion is called for.

(ii) Only 12 units in the State have been returned in major-group 91 (sanitary services) and 57 in major-group 99 (services not elsewhere classified). The district-wise break up of the 12 units of major-group 91 suggests that in quite a few cases, the units must have been classified in major-group 90.

(iii) The first five districts in major-group 99 are Tikamgarh (5), Chhatarpur (5), Shivpuri (4), Datia (3) and Gwalior (3). The size-class break up of the 57 units is as under :—

TABLE 173

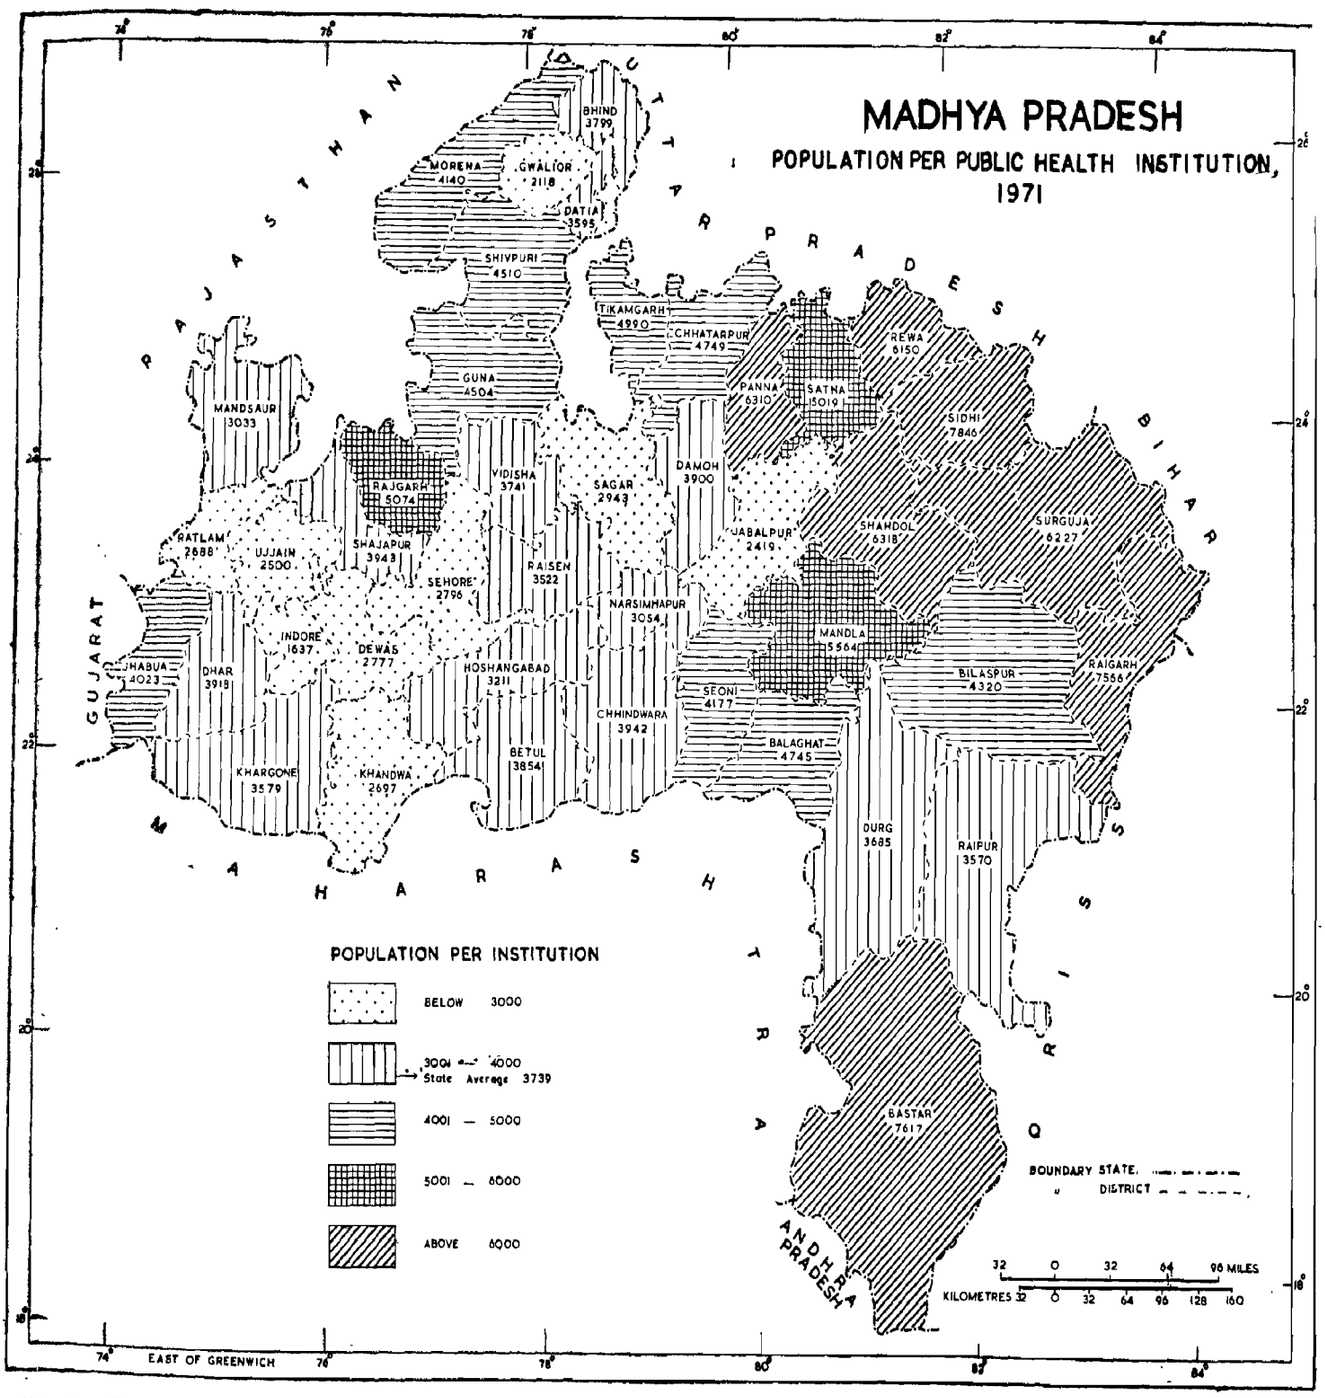

| Total | 1 Person | 2—4 Persons | 5—9 Persons | 10—19 Persons | 20—49 Persons | 50—99 Persons | 100+ Persons | Un-specified |
|---|---|---|---|---|---|---|---|---|
| 57 | 35 | 14 | 3 | 2 | 2 | 1 | .. | .. |
| (100.0) | (61.40) | (24.56) | (5.26) | (3.51) | (3.51) | (1.76) | | |

257. Due to problems of exact co-relation of divisions and Major-groups with the industrial categories, it is not possible to work out *inter-se* position of the districts in terms of ratio of total units in divisions 0, 1, 4, 5, 7 and 9 to total workers. All the same, on the basis of Ratio of units to persons employed in the above divisions, the first ten districts in the State are as shown in the following table:—

TABLE 174

| State/District | Units | Persons employed | Ratio |
|---|---|---|---|
| Madhya Pradesh . | 149,641 (100·00) | 556,328 (100·00) | 3·72 |
| 1. Sehore . . | 5,510 | 43,499 | 7·89 |
| 2. Durg . . | 6,406 | 42,402 | 6·62 |
| 3. Bilaspur . . | 5,510 | 30,424 | 5·52 |
| 4. Jabalpur . . | 5,287 | 28,866 | 5·46 |
| 5. Indore . . | 5,761 | 27,994 | 4·86 |
| 6. Gwalior . . | 4,702 | 22,837 | 4·86 |
| 7. Rewa . . | 2,018 | 9,707 | 4·81 |
| 8. Hoshangabad . | 3,472 | 14,995 | 4·32 |
| 9. Betul . . | 2,023 | 8,613 | 4·26 |
| 10. Shahdol . . | 2,593 | 10,446 | 4·03 |
| TOTAL (1 to 10) . | 43,282 (28·9) | 239,783 (43·1) | 5·547 |

Dispersal of units is only to be expected and that is why the share of the above mentioned ten districts is only 28.9 percent.

1D—Cen. Bhopal/73

## CHAPTER 6

## CONCLUSION

258. In the three previous Chapters, a study of the industrial and trade picture of the State has been attempted. The inter-se position of the districts has been worked out in respect of the predominant major groups in manufacturing, trading and other establishments, as well as the size of the units and use of power in each of the major groups. Study on the above lines has shown a certain trend, but in order to finally determine the relatively progressive and backward areas in the State, it would perhaps be necessary to study the position in terms of unit-employment ratio in its totality. A scheme of weightage, apart from being complicated, would perhaps not work because it is difficult to say with certainty that development in a particular field is more necessary. Existence of manufacturing, trading as well as other (schools, hospitals, etc.) establishments is equally important and hence it woud be best to determine the relatively progressive and backward areas on the basis of unit-employment ratio in each district for total units. Rankings only in terms of units or persons employed would be misleading because, as observed in one of the earlier Chapters, the size of the districts in terms of area and population varies greatly in our State. Large sized districts are bound to have more units and greater employment. The system of unit-employment ratio removes, to a very large extent, disparities likely to arise on account of varying sizes of the districts. The system is certainly not fool-proof because prosperity ultimately depend on monetary turn over and wage-structure of the persons employed, items on which the Census is not able to throw any light in the absence of data on them. All the same, the broad trends can be determined in terms of unit-employment ratio and the picture that emerges is as under:—

TABLE 175

*Districts by ranges of employment ratio*

| Above 2.50 | | 2.21 to 2.50 | | 2.01 to 2.20 | | 1.90 to 2.00 | | Below 1.90 | |
|---|---|---|---|---|---|---|---|---|---|
| 1 | | 2 | | 3 | | 4 | | 5 | |
| 1. Indore | (3·93) | 1. Bilaspur | (2·47) | 1. Chhindwara | (2.17) | 1. Bhind | (1.99) | 1. Seoni | (1·87) |
| 2. Sehore | (3·58) | 2. Sagar | (2·43) | 2. Surguja | (2·15) | 2. Damoh | (1·97) | 2. Guna | (1.78) |
| 3. Gwalior | (3·58) | 3. Raipur | (2·42) | 3. Mandla | (2·14) | 3. Vidisha | (1·94) | 3. Raisen | (1·76) |
| 4. Durg | (3·12) | 4. Jhabua | (2·40) | 4. Rewa | (2·10) | 4. Datia | (1·92) | 4. Rajgarh | (1·73) |
| 5. Khandwa | (2·92) | 5. Hoshangabad. | (2·37) | 5. Raigarh | (2·08) | 5. Mandsaur | (1·91) | 5. Shivpuri | (1·72) |
| 6. Ujjain | (2 65) | 6. Satna | (2·36) | 6. Dewas | (2·04) | 6. Dhar | (1·91) | 6. Shajapur | (1·71) |
| 7. Ratlam | (2·52) | 7. Jabalpur | (2·35) | 7. Morena | (2·02) | 7. Narsimhapur | (1·90) | 7. Chhatarpur | (1·69) |
| | | 8. Betul | (2·28) | 8. Shahdol | (2·01) | | | 8. Panna | (1·59) |
| | | 9. Bastar | (2·22) | | | | | 9. Tikamgarh | (1·56) |
| | | 10. Balaghat | (2·22) | | | | | 10. Sidhi | (1·48) |
| | | 11. Khargone | (2.22) | | | | | | |

City districts, where economic activity is generally greater, are expectedly in the top ranges. Nominal distortions cannot be avoided. For instance, emergence of Jhabua district above Jabalpur district. Such a situation can occur when the number of units are relatively very few and cheap labour is available in plenty, thus pushing up the unit-employment ratio. But, by and large, the inter-se position of the districts that has emerged in the above table correctly reflects the relative prosperity or backwardness of the districts in the State.

259. What has been stated in the previous paragraph gets support from the following table which gives the break-up of total units into size-classes in each district.

TABLE 176

| State/District | 1 Person | 2—4 Persons | 5—9 Persons | 10—19 Persons | 20—49 Persons | 50—99 Persons | 100+ Persons | Persons un-specified | Total |

| 35. Chhindwara . . . | 56.45 | 37·96 | 3·30 | 1.29 | 0.50 | 0·10 | 0.07 | 0.33 | 100·00 |
| 36. Seoni . . . . | 53·63 | 41·87 | 2.58 | 0.72 | 0.24 | 0.07 | .. | 0.89 | 100.00 |
| 37. Balaghat . . . . | 45.69 | 49.91 | 2.63 | 0·80 | 0.58 | 0·15 | 0·05 | 0.19 | 100.00 |
| 38. Surguja . . . . | 49.49 | 44.62 | 3·22 | 1·13 | 0·53 | 0·09 | 0.05 | 0.87 | 100·00 |
| 39. Bilaspur . . . . | 49.93 | 44.11 | 3.50 | 1.29 | 0.63 | 0.19 | 0.10 | 0.25 | 100.00 |
| 40. Raigarh . . . . | 46.93 | 48.18 | 2.79 | 0·85 | 0.52 | 0.09 | 0.02 | 0·62 | 100.00 |
| 41. Durg . . . . | 54.60 | 39.32 | 3.46 | 1.11 | 0.71 | 0.20 | 0.10 | 0.50 | 100.00 |
| 42. Raipur . . . . | 49.13 | 44·24 | 4.21 | 1.25 | 0.64 | 0.21 | 0.08 | 0.24 | 100.00 |
| 43. Bastar . . . . | 48.04 | 46.81 | 3.13 | 0.96 | 0.47 | 0·08 | 0.10 | 0.41 | 100.00 |

It would be seen that 16 of the 18 districts appearing in the two higher ranges in Table 175 are having a higher average than the State average in the two highest size-classes in the above table. It can thus be said that districts appearing in the two higher ranges in Table 175 are relatively better off economically, except for slight distortion in the case of Jhabua district which incidentally does not have an average higher than the State average in the size-class 100+.

APPENDIX—1

## INSTRUCTIONS TO ENUMERATORS FOR FILLING UP THE HOUSELIST AND ESTABLISHMENT SCHEDULE

### INSTRUCTIONS—PART I

### HOUSELIST

**General**

Census is a national undertaking of great importance, indispensable to intelligent and efficient public administration apart from the other multifarious ways it serves the scholar, the businessman, industrialist, the country's planners, the electoral authorities etc. Census has become a regular feature in every progressive country, whatever be its size and political set-up and they are conducted at regular intervals to fulfil well-defined objectives.

2. The job entrusted to you, *viz.*, the house-numbering and houselisting is an essential preliminary step to the population census. Apart from mere listing of houses, you will be collecting some essential data on housing, as also separately on manufacturing, trading and service establishments which will be useful to the country's planners. You have, therefore, an important role to play. The quality and quantity of your contribution depends on how well you apply yourself to this task, understand the instructions thoroughly and carry out your responsibilities with the care that it demands.

3. You will be required to prepare lay-out sketches showing the location of houses within the area allotted to you and number all the houses, residential or otherwise and list them and fill up some essential particulars in the schedules given to you. The house-numbering sketches prepared by you may form the basis for a permanent system of house-numbering that may be introduced and maintained by the local bodies concerned in future.

**House-numbering and preparation of notional maps**

4. *Rural areas:* The first operation will be allotment of distinguishing numbers to each building, house and household.

5. Before the actual affixing of house numbers on doors an essential step to be taken is to prepare a rough notional map of the entire village and decide on whether the village should be sub-divided into blocks and if so, how ? Normally a small village of less than 125 houses need not be sub-divided into blocks. But if a village has one or more hamlets, irrespective of the size, it is desirable to divide the area of the village into blocks so that each hamlet with the adjoining area is recognised as a separate house-numbering block of the village. It is important that the dividing lines between one block and another should be clearly demarcated. Such dividing lines, besides following some natural boundaries wherever possible should also be indicated by the Survey number that fall on either side of the dividing line in cadastrally surveyed villages. In villages which are not cadastrally surveyed, the line can be indicated by the name of the owners of the fields on either side of the line or by the name of the field, if any. A notional map showing the general topographical details of a whole revenue village particularly if a survey map is already available with the village revenue officials, will greatly help. This notional map should indicate the prominent features and land marks such as the village site, roads, cart tracks, hills, rivers, *nallahs,* etc. Clear demarcation lines of blocks are important so that any to define at the foot of the map the boundaries of a particular block is covered by a specific block without giving scope for any doubt. It may be desirable to define at the foot of the map the boundaries of each block clearly.

6. Having thus prepared the village map, each block of the village as demarcated on the village map should be taken up for a detailed sketching of the layout. In this detailed sketch the emphasis is mainly on the lay-out of the houses on the village site. The sketch should show all the roads, streets and cart tracks. The names of the streets, if any, should be shown on these sketches. All topographical details, important features and public buildings should be prominently shown. Then every single building or house should be located on this sketch. It will be of advantage if the *Pucca* and *Kachha* houses are shown by some conventional signs like a square □ for a *Pucca* house and a triangle △ for a *Kachha* house, further depicting them as residential or non-residential as follows :

□ *Pucca* residential house ; for *Pucca* non-residential house shade the square.

△ *Kachha* residential house; for *Kachha* non-residential house shade the triangle.

It is difficult to evolve a comprehensive definition of the terms 'Pucca' and 'Kachha' houses to cover different patterns of structures all over the country. The categorisation of the houses as *Pucca* or *Kachha* for the purpose of depicting them on the lay-out sketches is purely to facilitate identification. Also, as *Kachha* houses are not likely to be long-lasting, any one referring to the lay-out sketches a few years later can easily distinguish settlement

areas which are likely to have undergone a change. For the purpose of the preparation of lay-out sketches, a *Pucca* house may be treated as one which has its walls and roof made of the following materials :

Wall material : Burnt Bricks, stone (duly packed with lime or cement), cement concrete or timber, etc.

Roof Material : Tiles, GCI* sheets, asbestos cement sheets, RBC*, RCC* and timber, etc.

Houses, the walls and or roof of which are made of materials other than those mentioned above such as unburnt bricks, bamboo, mud, grass, reeds, thatch etc., or loosely packed stone, burnt bricks etc. may be treated as *Kachha* houses.

7. When once the location of every building/house is fixed on the plan, it will be a simple matter to decide on a convenient method of numbering the buildings/houses in one series following certain principles. No hard and fast rule can be laid as to the direction in which the house numbers should run *i.e.*, left to right or in a clockwise order or north-east to south-west and so on. Much depends on the lay-out. So long as some convenient and intelligible order is followed it should be all right. The numbers allotted to each house should be marked on the sketch and with the help of arrow marks at convenient intervals, the direction in which the house numbers run should be indicated. This is particularly important when streets cut across one another and the house-numbering series along a street get interrupted. It will be of advantage if the numbers are roughly marked in pencil on this sketch and later verified with the actual state of things on ground to see if the order of numbering indicated on the sketch would be convenient or if any slight changes are needed, for, after all the sketch is only a rough one and the actual state of buildings on ground may suggest a more intelligible order of numbering at some places.

8. Where villages are not cadastrally surveyed and the village boundaries not fixed by survey, it is essential that the limits of each village are defined by some permanent features so that it may be known that any house falling in any such areas may be reckoned along with a particular village.

9. In the forest areas, all habitations are not on settled pattern. There are forest villages which may be just like other revenue villages or *mauzas*. For such villages procedure for preparing normal lay-out plan sketches may be followed. But apart from such villages, there would be clusters of habitations spread out in the forest. It will be facilitating, if for the purpose of netting such clusters a lay-out plan is prepared of the Forest area comprising the lowest administrative unit (such as, beat of a Forest Guard in some States). Then the clusters should be drawn on the lay-out sketch. Name of the cluster should also be written, if there be one. If there be no name, then it would be necessary to identify it with reference to any known permanent feature such as a hill stream, a range of hills, road and so on. After drawing the boundaries of such clusters on the lay-out, the location of each of the houses should be indicated on it and number assigned to each house. Habitations (clusters) falling within the area of the smallest forest administrative unit should be taken as one village for the purpose of house-numbering and houselisting.

Since it is likely that some of the tribal habitations may change their locations now and then, it is necessary to define the location of a habitation area with reference to any known permanent feature as indicated above in regard to the clusters in Forest areas.

10. *Urban Areas:* The preparation of notional maps and the house-numbering sketches in urban areas should essentially follow the same procedure as in the rural areas excepting that in most urban units the draughtsman of the Municipal Administration might have already prepared town maps perhaps even to scale and these may come extremely useful. It has been found from experience that the boundaries of towns are often times loosely defined and not properly demarcated giving rise to several doubts regarding the areas lying on the out-skirts of towns. It is important that the map should very clearly indicate the boundaries by means of definite survey numbers and also other permanent features. Sometimes one side of a road falls within the town limits and the other side excluded as it may be outside the defined boundary of the town. All these should be carefully verified on ground before the maps are certified to be correct by the supervising authorities. Cases of sub-urban growth adjoining the limits of a town and such cases as one side of a street falling outside the limits of a town should be brought to the notice of the superior officers who will have to ensure that such built up areas are properly accounted for within the administrative units in which they fall.

11. But what is essential is that very detailed plans showing the location of every building and census house along every road and street in each ward, locality or *mohalla* of a town should be clearly prepared. In view of the very large number and close location of houses in urban areas it may be necessary to have a large number of sketches each covering a limited area. Each town would probably have already been divided into some permanent *mohallas* or localities or wards. A large map of the entire town indicating the boundaries of each of the sub-units into which the town has been divided should be prepared. On this map, the main roads and other topographical details and important public buildings etc., may be shown for clear identification of the boundaries of each *mohalla/*

*NOTE : G.C.I.—Galvanized Corrugated Iron, R.B.C.—Reinforced Brick Concrete and R.C.C.—Reinforced Cement Concrete.

locality/ward etc. Next, a skeleton map of each locality/ward or block should be prepared in which all the roads and streets should be clearly indicated and their names also written. Then each building and house should be located on this skeleton map. May be that even a locality/ward may be too large an area to indicate all houses on a single map. In such a case a ward map showing the segments and separate lay-out map for each one of the segments may be prepared and on these segments the buildings and houses should be clearly located and the house-numbers shown. It may be an advantage if the non-residential houses are distinguished from the residential houses as indicated in para 6 of these instructions. Here again the important permanent buildings may be indicated such as say, town-hall, large office building, court building, post office, hospital, school, church, market building etc.

12. As stated earlier most towns may already be having a satisfactory house-numbering system. This need not be disturbed and may be adopted for the purpose of preparation of the house-numbering maps referred to above. The house-numbering can be brought up-to-date with the help of these lay-out maps. If there be no proper system of house-numbering in the town, then you will have to assign numbers to the houses in the lay-out sketch(es) of your jurisdiction in the manner indicated hereafter.

**Numbering of Buildings and Census Houses in rural as well as urban areas:**

13. You have to give numbers to "Buildings" and "Census houses" in all areas. The instructions below will guide you to determine what a building and a census house are for the purpose of houselisting. The building is a readily distinguishable structure or group of structures which is taken as the unit for house-numbering. The entire building may be deemed one census house or sometimes parts of it, as will be explained. The objective is to ultimately number and list out all physical units of constructions which are used for different purposes, residential or otherwise.

14. *Building:* A "building" is generally a single structure but sometimes made up of more than one component unit, which are used or likely to be used as dwellings (residences) or establishments such as shops, workshops, factories, etc., or as godowns, stores, cattle-sheds etc. or in combination with any of these such as, shop-*cum*-residence, or workshop-*cum*-residence, etc.

15. Sometimes a series of different buildings may be found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and likely to have been built at different times and owned by different persons. In such cases though the whole structure with all the adjoining units apparently appears to be one building, each portion should be treated as separate building and given separate number.

16. If there are more than one structure within an enclosed or open compound (premises) belonging to the same person *e.g.*, the main house, the servant's quarters, the garage etc., only one building number should be given for this group and each of the constituent separate structures assigned a sub-number like 1(1), 1(2), 1(3) and so on provided these structures satisfy the definition of a 'Census House' given hereafter.

17. The buildings should be numbered as follows:

(i) If the locality consists of a number of streets in a village, the buildings in the various streets in a village, should be numbered continuously. Streets should be taken in uniform order from North-east to South-west. It has been observed that the best way of numbering the buildings is to continue with one consecutive serial on one side of the street and complete the numbering on that side before crossing over to the end of the other side of the street and continuing with the serial, stopping finally opposite to where the first number began.

(ii) In a town/city, enumeration block, the numbering will have to respect the axis of the street and not any preconceived geographical direction like North-east etc.

(iii) Arabic numerals *e.g.* (1, 2, 3,... .... . ..... .....) should be used for building numbers.

(iv) A building under construction, the roof of which has been completed should be given a number in the serial.

(v) If a new building either *Pucca* or *Kachha* is found after the house-numbering has been completed or in the midst of buildings already numbered, it should be given a new number which may bear a sub-number of the adjacent building number, *e.g.* 10/1.....

NOTE: These should not be numbered as 10(1) or 10(2) etc. as such numbering would apply to census houses within the same building. On the other hand, 10/1 would mean a separate building that has come up after building No. 10.

18. *Census House:* A "Census house" is building or part of a building having a separate main entrance from the road or common court-yard or stair-case etc., used or recognised as a separate unit. It may be inhabited or vacant. It may be used for a residential or non-residential purpose or both.

19. If a building has a number of flats or blocks which *are independent of one another* having separate entrances of their own from the road or a common stair-case or a common court-yard leading to a main gate, they will be considered as separate census houses. If within a large enclosed area there are separate buildings, then each such building will be one or more separate census houses. If all the structures within an enclosed compound are together treated as one building then each structure with a separate entrance should be treated as a separate census house.

20. Each census house should be numbered. If a building by itself is a single census house, then the number of the census house is the same as the building number. But if different parts or constituent units of a building qualify to be treated as separate census houses, each census house should be given a sub-number within brackets to the building number as 10(1), 10(2) etc., or 11(1), 11(2), 11(3), etc.

21. The order in which census houses within a building are to be numbered, should be continuous, preferably clockwise or in any convenient manner if it is difficult to do it clockwise.

22. The definition of census house may sometimes be difficult of application in its literal sense in the context of varying patterns of structures and their usage. For example, in cities and towns, one does come across a situation when a flat in the occupation of one household as residence may be made up of four rooms or so and all the rooms may have direct entrance from a common court-yard, or a stair-case. In terms of the definition of a census house each of these rooms having entrances from the common stair-case etc., may qualify to be treated as census houses. But it does not realistically reflect the situation of the number of houses. In such case, 'singleness' of use of these rooms alongwith the main house by the household should be taken into account and the entire flat comprising four rooms should be treated as one census house only and assigned one number. If on the other hand each one of these rooms had been separately occupied by independent households and if each portion had separate main entrance then each will be justified to be treated as a separate census house. In a hostel building even if the door of each room in which an inmate lives opens on to a common verandah or stair-case as it happens almost invariably, the entire hostel building may have to be treated as one census house only. In some parts of the country in the rural areas, the pattern of habitation is such that a single household occupies a group of huts within an enclosed fence which has one main entrance. Each of the apparently separate structures is an integral part of the housing unit as such. In such cases it may be more realistic to treat the group as one census house. Care should be taken to ascertain if only one household occupies such a unit or shared by more than one household. Thus the definition of a census house will have to be applied having due regard to the actual situation in such exceptional cases.

23. It is usual to find in municipal towns/cities that every site whether built upon or not is numbered by the municipal authorities on property basis. Such open sites even if they are enclosed by a compound wall should not be listed for census purposes. Only where a structure with four walls and a roof has come up, should it be treated as a census house and listed. But in some areas the very nature of construction of houses is such that, for example, a conical roof almost touches the ground and an entrance is also provided, and there may not be any wall as such. Such structures should of course be treated as buildings and houses and numbered and listed.

24. *Household:* A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be 'one-member household, two-member household or multi-member household'. For census purposes each one of these types is regarded as a "Household". Again, there may be a household of persons related by blood or household of unrelated persons; the latter are Boarding Houses, Hostels, Residential Hotels, Orphanages, Rescue Homes, *Ashrams* etc. These are called "Institutional Households".

Each household will be listed according to the instructions that follow (*see* paras 44 & 45) and a distinguishing number allotted to each household. As each household will be related to the physical structure of a census house, the household number as such need not be painted on the door of each census house. Only the building and census house number will be painted.

## HOUSELISTING

25. After the preparation of the notional house-numbering maps and the numbering of the houses, the next step is to list them in the prescribed form (Houselist).

26. At the 1971 Census, a houselist schedule and an establishment schedule will be canvassed on universal basis. Specimen forms of the schedules to be so canvassed are given at the end of this book.

The following instructions will guide you in filling the houselist:

27. On the top of the houselist form, provision is made to note the name of District with Code No., name of Taluk/Tehsil/Thana/Anchal/Island/Code No., name of Village/Town/Code No., name or No. of Ward, *Mohalla*, Enumerator's Block Code No. The entries here are to be filled in by you very carefully. The Location Code is the method by which every village or town in any tehsil or police station in every district of a State is identified by a combination of numbers. For this purpose every district, tehsil or police station, village or town/ward/mohalla/enumerator's block in your State would have been allotted code numbers. Your charge Superintendent or the Supervisor would have indicated to you the district, tehsil or police station and the village or town/ward/mohalla/enumerator's block code numbers pertaining to you. You shall have to enter them in the relevant spaces against the names of the various jurisdictional units. *Please note that the town number is to be given in Roman figures to distinguish it from the village number which will be indicated by Arabic numerals.*

NOTE: Please do not write anything in spaces enclosed by dotted lines in column Nos. 4, 5, 6, 10 and 12. These are meant for writing code numbers in the tabulation offices.

28. Every line in the Houselist is to be numbered serially. The line numbers should be continuous for your block. Arabic numerals should be used for this purpose, *e.g.*, 1, 2, 3, 4 etc. .....

Col. 1: Line Number

29. Before you start houselisting, every building will bear a number. Some Municipal towns may have satisfactory system of numbering the buildings and after preparation of the lay-out sketch of your area, you would have given the same number to the building located on the sketch.

Col. 2: Building No. (Municipal or local authority or Census No.)

30. There would be cases where the Municipal numbers or local authority numbers are not found satisfactory and therefore you would have given numbers to various buildings by way of updating the numbering or revising it. In any case you would have assigned a number to every building in the lay-out sketch. The third contingency is that numbering did not exist earlier and you have numbered the buildings and assigned them the number on the lay-out sketch and marked them on the building itself.

31. The number which has been assigned in the lay-out sketch in any of the three modes described above and marked or put on the building should be written in this column.

32. If the building has a well-known name then the name of the building should also be recorded in this column in addition to the number of the building.

The purpose of this column is to readily identify every building by the number found on it and by local name if any the building may bear.

33. The attributes of a census house have been described earlier and in accordance with those instructions you would have allotted census house number to a building or to a part of a building.

Col. 3: Census House Number

34. If there is only one census house in the building, then the number of the census house will be the same as the building number, which will be repeated in this column.

35. If there be more than one census house in a building (as mentioned in paras 19 and 20) *e.g.*, in building No. 10, there are three census houses—then against the first census house, you will record "10(1)", for the second "10(2)" and for the third "10(3)" in this column. Column 2, Building number, will be entered in the first line only against which census house No. 10(1) would have been mentioned in Col. 3. Column 2 will remain blank against census house No. 10(2) and 10(3).

NOTE: You should *not* indicate them as 10/1 or 10/2 etc. as that would be followed in the allotment of a number to a new building not previously numbered that has come up after building No. 10.

Columns 4-5 : Predominant construction material of census house.

36. In these columns you will have to note the materials of wall and roof.

37. Under this column, the material out of which the major portion of the walls of the house are made, as for example, grass, leaves, reeds, bamboo, unburnt bricks, mud, burnt bricks, stone, cement concrete, timber etc., should be written. Where a house consists of separate structures each having walls made out of different materials, the material out of which the walls of the main portion of the house mostly used for living or sleeping are made, are to be recorded.

Col. 4 : Material of Wall.

38. The material out of which most of the outer roofs, exposed to the weather and *not the ceiling* is made *i.e.*, tiles, thatch, corrugated iron, zinc or asbestos cement sheets or concrete, slate, tiles, etc., should be written. In the case of a multi-storeyed building the intermediate floor or floors will be the roof of the lower floor. If the roof is mainly made of bricks, stone etc., and has a mud plaster, cement plaster or lime plaster exposed to the sky, the material of roof in such cases will *not* be "mud", "cement", or "lime" respectively but it will be "bricks", "stone" etc., which constitute the fabric of the roof.

Col. 5: Material of Roof.

Col. 6: Purpose for which Census House is used *e.g.* residence, shop, shop-*cum*-residence, business, factory, workshop, workshop-*cum*-residence, school, bank, commercial house, office, hospital, hotel, etc., or Vacant.

39. The actual use to which a census house is put is to be recorded here keeping in mind the broad categorisation such as: (these are purely illustrative);

(1) Residence, shop-*cum*-residence, workshop-*cum*-residence.

(2) Factory/workshop and workshed etc. Factory should be written if it is registered under Indian Factories Act. A 'workshop' is a place where any kind of production, repair or servicing goes on or where goods and articles are made and sold, but is not large enough to be a factory. It is not necessary that some machinery should exist. Even a place where some household industry (as defined in Para 78) such as say, handloom weaving, *bidi* rolling, *papad* making, toy making etc., is carried on, it should be noted as a workshop here. If it is also used as a residence it should be noted as workshop-*cum*-residence. Make searching enquiry if a house is used for the purpose of production of any goods or engaged in some processing or repairing even on a Household Industry basis as these are not likely to be apparent to a casual observer.

Shop:

(3) Shop: A shop is a place where articles are bought and/or sold or cash or for credit.

(4) Office, business house, bank, etc. Business house is that where transactions in money or other articles take place.

(5) Hospital, dispensary, Health centre, Doctor's clinic, etc.

(6) School and other educational institution.

(7) Hotel, *sarai, dharamshala,* tourist house, inspection house, etc.

(8) Restaurant, sweetmeat shop and eating place. A sweetmeat shop where sweetmeat is being made and sold should be recorded as a Workshop).

(9) Place of entertainment such as cinema house, theatre, community-gathering (Panchayatghar) etc.

(10) Place of worship *e.g.*, temple, church, mosque, gurudwara, etc.

(11) Institution such as orphanage, rescue home, jail, reformatory, children home, etc.

(12) Others *e.g.*, cattle-shed, garage, godown, laundry, petrol bunk, passenger shelter, etc., the exact use to be fully described.

(13) If the census house is found vacant, *i.e.*, if no person is living in it at the time of enumeration and it is not being used for any of the purposes listed above, write 'vacant' in this Col. If the census house is locked because the occupants have gone on journey or pilgrimage, then it may *not* be treated as "vacant". but the use to which it is put recorded here and the fact that the occupants have gone on a journey/pilgrimage, noted in the 'Remarks' column as "House locked, occupants on journey/pilgrimage etc."

NOTE : The reason for vacancy such as 'dilapidated', 'under repair', 'incomplete construction', 'want of tenant', etc., may be recorded in the "Remarks" column.

*Definition of an Establishment*

Col. 7: Is it used wholly or partly as an Establishment ?
Yes or No.
If yes, enter further details in the Establishment Schedule and indicate the Serial No. of that entry here.

40. An "Establishment" is a place where goods are produced or manufactured not solely for domestic consumption or where servicing and/or repairing is done such as factory, workshop or household industry or servicing and/or repair workshop or a place where retail or wholesale business is carried on or commercial services are rendered or an office, public or private or a place of entertainment or where educational, religious, social or entertainment services are rendered. It is necessary that in all these places one or more persons should be actually working. Thus an establishment will cover manufacturing, trade and other establishments where people work.

*Examples:*

A factory or a workshop or workshop-*cum*-residence or a trading or other establishment, *i.e.* where some kind of production, processing repair or servicing is undertaken or where goods or articles are made and sold, or some business is being carried on such as a grocery shop, a *pan* shop, restaurant, bank, hotel, or an office is functioning such as Government office, commercial office, or an institution is being run such as school, college, hospital, dispensary, etc., and where one or more persons are working.

An Establishment may occupy a census house or a group of census houses or a part of a census house.

41. This column applies only in cases where the census house is used as an Establishment as defined above. Sometimes the act of production, processing or servicing may not be apparent especially if carried on as a household industry *e.g.*, when a handloom is located inside a house and is not in operation at the time of enumerator's visit or if some other type of household industry such as *papad* making or toy manufacturing or *bidi* rolling etc., is done, say in some interior portion of the house. You should make searching enquiries to see if any production, processing or servicing is done or any business is carried on or any institution is being run in any part of the house not readily seen from outside.

*If 'Yes' is recorded here, go to the Establishment Schedule, and fill up further particulars in that Schedule.* Please fill in the Serial No. of the entry as given in the Establishment Schedule in this column after 'Yes'.

42. It is possible that some kind of production or processing is undertaken in the house by the members of the household for *purely domestic consumption.* For example, hand pounding of rice, preparation of spices like, *haldi* (turmeric), chillies, etc., or say, knitting of woollen garments, embroidery work, loinloom weaving and so on, meant for household use only and not for sale. In such cases, the house should not be treated as an 'establishment'.

## COLUMNS 8 to 16

43. These columns will relate to census houses which are used wholly or partly as a residence. If, therefore, a particular census house is not being used for residential purposes at all even partly, as will be evident from entry in Col. 6, put 'X' in each of the columns 8 to 16.

Col. 8 : Household No.

44. A 'household' is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. It may be made up of related or un-related persons. A cook or a servant living in the house of his employer and taking his food there is part of that household. A hostel where a number of un-related persons live together is an institutional household. So also a Jail.

45. There may be more than one household in a census house. Each household should be given a separate number. This can be done by using the alphabets as (a), (b), (c), etc., as affixes to the census house No. For example, if building No. 2 is also a census house and has three households, the household numbers will be 2(a), 2(b) and 2(c). If building number 4 has two census houses, the houses will be numbered as 4(1) and 4(2). If within these houses there are respectively 3 and 2 households then they will be numbered as 4(1)(a), 4(1)(b), 4(1)(c) and 4(2)(a) and 4(2)(b) respectively. If, however, building No. 3 is also a census house and has only one household, the household No. to be entered in this column will be No. 3 only.

46. In the above cases of households Nos. 2(b), 2(c), 4(1)(b), 4(1)(c) and 4(2)(b), there will be no entries against them in Cols. 3 to 7. Cols. 3 to 7 will be filled for the entire census houses, 2, 4(1) or 4(2) as the case may be, once. There is no need to repeat Cols. 3 to 7 in each line for which entries are made for more than one household against that census house in Cols. 8 to 16.

Col. 9: Name of the head of household.

47. The name of the Head of each household should be written. The Head of the household for census purposes is a person who is recognised as such in the household. He is generally the person who bears the chief responsibility for the maintenance of the household and takes decisions on behalf of the household. The Head of the household need not necessarily be the eldest male member, but may even be a female or a younger member of either sex. You need not enter into any long argument about it but record the name of the person who is recognised by the Household as its Head. In the case of institutions like boarding houses, messes, chummeries which should be regarded as households of un-related persons living together and which may be called Institutional Households, the manager or superintendent or the person who has administrative responsibility or who by common consent is regarded as the Head should be recorded as the Head of the household. In the case of an absentee *dejure* 'Head', the person on whom the responsibility of managing the affairs of the household falls at the time of enumeration, should be regarded as the Head.

Col. 10: If S.C. or S. T., write name of caste/tribe.

48. You will have been furnished with a list of Scheduled Castes and Scheduled Tribes notified for your area. Ascertain if the head of the household belongs to a Scheduled Caste or a Scheduled Tribe and check whether the Caste/Tribe is scheduled as per your list. If so.

for Scheduled Caste write "S.C." and record name of caste,

for Scheduled Tribe write "S.T." and record name of tribe,

for others write "X"

For a household belonging to Scheduled Caste, check religion of the head of the household. He or she should be either a Hindu or a Sikh. There cannot be a S.C. in any other religion. Scheduled Tribes may belong to any religion.

49. In a case where the head of the household belongs to Scheduled Caste/Scheduled Tribe even if any other member of the household (except institutional households) does not belong to SC/ST then write SC/ST as the case may be and mention the Caste/Tribe to which he belongs. On the other hand if the head does not belong to SC/ST but any other member of the household does belong to SC/ST; write 'X' in this column.

In the case of all 'Institutional Households' write 'X' in this column irrespective of whether the head belongs to a S.C./S.T. or not.

Col. 11: No. of living rooms in the occupation of Census Household.

51. A room should have four walls with a door way with a roof over head and should be wide and long enough for a person to sleep in *i.e.*, it should have a length of not less than 2 metres and a breadth of at least 1½ metres, and 2 metres in height. An enclosed room, however, which is used in common for sleeping, sitting, dining, storing and cooking etc., should be regarded as a room. An unenclosed verandah, kitchen, store, garage, cattle-shed and latrine and rooms in which a household industry such as a handloom is located which are not normally usable for living or sleeping etc., are excluded from the definition of a room for the purpose of this column.

52. If there is only one household in a census house the counting of rooms will not be difficult. But if a census house consists of a number of households, the number of rooms occupied by each household has to be entered against the name of each Head of household. In cases where a room is occupied by more than one household or they share more than one room, the number of rooms should be given together against a bracket as common to such households.

53. One is likely to come across conical shaped hut or tent in which human-beings reside. In such improvised accommodation, there will be no four walls to a room and, therefore, the above definition would not strictly apply to such types of accommodation. In such cases, the tent or conical hut etc., may in itself be construed to be a room.

Col. 12: Does the household live in owned or rented house: (i) Owned (o), (ii) Rented (R).

54. If a household is occupying a census house owned by itself and is not paying anything to anybody in the form of rent then the household may be considered as living in own house. This should be recorded by 'O'. A household living in a flat or a house taken on 'ownership' basis on payment of instalments, should be regarded as living in its own house, notwithstanding that all instalments have not been paid.

55. If the household lives in rented house write 'R'. A housing unit is rented if rent is paid or contracted for, by the occupants in cash or in kind. Where an owner permits a household to live in a house, rent free even then the household should be treated as living in a rented house. For example, rent free accommodation provided to employees by Government, Institutions, Companies etc. In such cases, you should treat the house as rented and write 'R'.

Cols. 13 to 15: No. of persons normally residing in census household on day of the visit of the enumerator.

56. Enter the number of males normally residing in the household in column 13; females in col. 14 and total number of persons in column 15 (Col. 13+Col. 14).

57. In these columns normal residents are to be recorded even though some of them may be absent on the day of enumerator's visit. Casual visitors should be excluded as they will be considered at their respective places of normal residence. But a person who has stayed with the household for a period of 3 months or more should, however, be included. Correspondingly, normal residents absent for over 3 months or more should be excluded from the household in which they normally reside.

Total of these columns should be struck at the end of each page and after completion of houselisting grand total of the block should be struck at the bottom of the last form.

Col. 16: Does the household cultivate land? (Yes or No).

58. If the household is cultivating any land then you have to record the answer 'Yes' otherwise 'No'. For determining whether a household is cultivating or not, it should be necessary to ascertain if one or more persons in the household are engaged in cultivation of land or supervision or direction of cultivation of land owned or held from Government or from private persons or Institutions for payment in money, kind or share. Enchroachers who cultivate land encroached upon will be regarded as cultivating households for the purposes of this column. If the household has a visitor who cultivates land elsewhere, it can not be deemed that the household as such is a cultivating household, unless the Head/ or other members of the household are engaged in cultivation of their own, the household should not be reckoned as a cultivating household. A household whose members merely work on somebody else's land for wages should not be treated as a cultivating household.

Col. 17: Remarks.

59. If there is an entry in Col. 6 as "Vacant", you have to record the reason such as "dilapidated", "under repair", "incomplete construction", "want of tenant" etc. in this column.

60. After you have completed filling up of the houselist for your block, you will prepare a duplicate copy of the houselist, for which you would be given adequate number of blank forms.

## INSTRUCTIONS—PART II

## ESTABLISHMENT SCHEDULE

61. Instead of loading the main Houselist form itself with questions pertaining to Establishments, it has been decided to have a separate schedule in which particulars of each establishment are to be recorded. (See the Establishment Schedule given at the end of this book).

62. The term "Establishment" has been defined in para 40 of this booklet. You are requested to study it carefully, before filling the 'Establishment Schedule'.

63. *The respondents should be fully assured that the information collected in these schedules will be treated as completely confidential and is meant for statistical purposes and will not be used as evidence against any individual or establishment for any purpose. The respondents should be encouraged to furnish truthful replies without any reservation.*

64. At the top of the schedule provision is made for noting the Location Code No. and name of the areas concerned. This should be the same as those noted on the top of the Houselist which you will be canvassing simultaneously. You should fill the Location Code Nos. etc., correctly.

65. The columns of the Establishment Schedule can be classified into four broad groups :

(i) Columns 1 to 5 are of uniform applicability and entries have to be made in respect of all the establishments;

(ii) Columns 6 to 8 pertain to manufacturing, processing, etc.—establishments;

(iii) Columns 9 to 10 relate to trading establishments; and

(iv) Column 11 refers to "other" Establishments which are not covered in columns 6 to 10.

Thus, it will be seen that the columns falling within groups (ii) to (iv) are mutually exclusive, while those in group (i) are common to all.

66. In this column the establishments are to be entered one after another serially. Arabic numerals should be used for this purpose, *i.e.*, 1, 2, 3 etc. — Col. 1: Sl. No.

67. The Census house number to be noted is the same as that in column 3 of the Houselist and against which 'Yes' is written in column 7 of the Houselist indicating that the Census house is used as an establishment. — Col. 2: Census House No.

68. A point to be noted here is that it is likely that a single factory or workshop may be spread over more than one Census house adjoining one another. Therefore, while in Col. 2 of this schedule a number of Census houses may be noted in respect of that particular unit of production, processing or repairing, trade or business etc., the entries in Col. 3 onwards will be one only for that group of houses covered by a single unit of production or business etc. establishment. For example, if a single tea factory in Assam or business establishment in Calcutta should be spread over two or three adjacent buildings, each of the buildings should not be shown as a separate factory or establishment but the House Nos. of all these buildings shown in Col. 2 should be bracketed together and the particulars of the single tea factory or establishment entered in the subsequent columns against this group of houses. If on the other hand the activities of a large firm or an office are carried on in buildings located far away in different localities, each of the Census house in the different localities will have to be treated as a separate establishment and the particulars of the establishment relating to that particular Census house should be listed in this schedule.

69. In this column write the name of the establishment in the case of factories, large manufacturing concerns, a shop or business establishment, banks, office etc. which usually bear a distinct name. Where an establishment has no separate name as in the case of small workshops and establishments like confectionaries, small tea shops, Dhobi's establishment, household industries etc. write the name of the owner as "So and so's Halwai shop" etc. This is to help easy identification. — Col. 3: Name of the Establishment or of the proprietor.

70. Enter here whether establishment enumerated belongs to public sector *i.e.*, Govt./Quasi Govt. managed, including establishments run by local authorities, or to private sector, or a co-operative enterprise. Please do not write in the column only (a) or (b) or (c) but write — Col. 4: Is the Establishment— (a) Govt./Quasi Govt. (b) Private (c) Co-operative Institution.

(1) "Govt.—Public Sector, or Quasi Govt.—Public Sector, or Local Authority—Public Sector

(2) Private

or

(3) Co-operative.

There may be many schools or libraries etc. which are not owned by any particular individual or group of individuals. These may be owned by people in general and managed by Managing Committees. Such establishments should be treated as "private" as distinguished from Govt./Quasi Govt. or run by local authorities or co-operative enterprises.

71. An establishment will be treated as a Govt./Quasi Govt. institution if the Central or State Govt. or a Local Authority such as the Zilla Parishad, City Corporation or Municipality etc. completely owns or has a majority of shares as to control the management of the establishment.

72. Private establishments are those owned and managed by private individuals or corporate bodies not being co-operative institution or Govt. or Quasi Govt. Institutions.

73. Establishments registered under the co-operative Societies Registration Law of the State, alone fall in the category of "Co-operative".

**Col. 5: Average number of persons working daily last week or in the last working season, including proprietors and/or family workers.**

74. In this column, the information has to be entered relating to the total number of workers including the apprentices, paid or unpaid and also including owner(s) or proprietor(s) of the establishment and any of their family members if they also work in the establishment and also the hired workers, if any. It is not necessary that an establishment should necessarily have paid workers. A small shop run in the same house where the owner lives and the business is attended to by just one person of the household is able an establishment. The average number of persons working per day in the establishment during the week preceding the day of your visit should be recorded. For computing the average number, of persons working per day, if the establishment remained closed owing to holiday etc., such day(s) should be ignored and only the 'days' on which the establishment worked should be taken into account. If during the week preceding your visit, the establishment remained closed either due to strike or lock-out, the week during which the establishment worked preceding such strike or lock-out should be taken into account for reckoning the average number of persons working. The hired workers should normally be in full time employment.

75. Some establishments such as a sugar factory, rice mill etc. may be seasonal in character and may not be actually working at the time of the present listing. You should then ascertain the particulars of such establishments with reference to the last working season.

76. In case more than one product is produced, or more than one item of business is conducted or several types of services are rendered, it is not necessary to enquire the number of persons employed in the production/business/servicing of each type of product business or service that is covered against that serial number. For example in a large textile mill there may be the weaving section, dyeing section, laboratory, repairing section, sales section etc. It is not necessary to ascertain the employment in each section. The total employment has to be ascertained. The major activity of the establishment will be described in subsequent columns.

*"Columns 6, 7 and 8 :—If any manufacturing processing or servicing is done".*

77. These columns relate only to such establishments in which goods are manufactured or some kind of processing or servicing is done and/or repairs are carried on.

**Col. 6: Is it (a) Household Industry (b) Registered Factory (c) Unregistered workshop.**

78. *Household Industry : Definition*

A 'Household Industry' is defined as an industry conducted by the Head of the household himself/herself and/or mainly by the members of the household at home or within the village in rural areas, and only within the premises of the house where the household lives in urban areas. The industry should not be run on the scale of a registered factory.

79. Thus, there are four ingredients of a household industry:—

(i) nature of activity

(ii) participation

(iii) location

(iv) size

80. (i) *Nature of activity :*—A Household industry should relate to production, processing, servicing, repairing, or making and selling (but not merely selling) of goods. It *does not* include professions such as a pleader or doctor or barber, musician, dancer, washerman (Dhobi), astrologer etc. or merely trade or business even if such professions trade or services are conducted at home by members of household.

81. (ii) *Participation :*—The Head of the household and/or one or more members of the household must participate in such an industry. If it is run primarily by hired labourers, the 'participation' ingredient of the household members will not be satisfied and it will not be a 'Household Industry'. The industry may run with the help of hired workers but the head and/or members of the household must be mainly participating in the industry and not solely dependent on hired workers. Besides "actual work", participation also includes "supervision and direction".

82. (iii) *Location*:—The industry should be located within the premises of the house where the household lives in urban areas; if it is situated at a place other than at home, it will not be termed as household industry in urban areas. In rural areas, however, the industry may be either at home or anywhere within the village limits. In rural areas, even though, the industry is not situated at home, there is a greater possibility of the members of the household participating in it if it is located within the village limits.

83. (iv) *Size*:—The industry should not be on the scale of a registered factory. Irrespective of the location and participation by the members of the household, if the industry or workshop is registered under the Factories Act, then it will not be a household industry.

84. Thus it will be clear that any industry which can be termed as 'Household Industry' must satisfy all the four ingredients mentioned above.

85. (b) *Registered Factory*:—A factory which is registered under the Indian Factories Act should be treated as a "Registered Factory". Any other workshop merely licenced by the Municipal or any other authority or registered for any other purpose should not be treated as a registered factory unless it is registered under the Indian Factories Act.

86. (c) *Unregistered Workshop*:—Workshop is a place where some kind of 'production' processing, servicing, repairing or making of goods for sale' is going on. A workshop which is registered under the Indian Factories Act should be treated as a registered factory and others as unregistered workshops. Workshops which are run as household industry should be treated as household industry and entered as such.

87. When you come across an establishment where some kind of manufacturing, processing or servicing etc., is done, you should ascertain whether it is a Household Industry or a registered factory or a workshop not registered under the Factories Act and write whatever it actually is in this column. Please note that workshops merely licenced or entered in the registers of a local authority are not to be considered as registered factories unless registered under the Indian Factories Act. All workshops other than household industries and not registered under the Indian Factories Act should be treated as unregistered workshops even if they are merely licenced as workshops by the local authorities. Please do not write (a) or (b) or (c) in the column but write "Household Industry", or "Registered Factory" or "Unregistered Workshop", as the case may be.

88. The description of the actual work relating to product, processing and servicing which is done in the Household Industry, factory or workshop that is being listed is to be recorded here, *e.g.*, handloom weaving, lace knitting, *oil ghani* etc., manufacturing of G.I. pipes, electroplating, motor or cycle repairing, iron foundry, paper making or book binding, printing and dyeing, shoe making, sweetmeat making etc. If in any establishment more than one article is produced or more than one kind of processing or servicing or repairing is done, indicate only the major kind of products or processing or repairing or servicing etc.

Col. 7: Description of the products, processing or servicing done.

89. Enter here the description of the power or fuel used for the running of the factory, workshop (or household industry if it is run on power or fuel). The fuels can be kerosene, soft coke, petrol, diesel, gas, coal, wood, etc., Electricity and steam etc. are some of the sources of power. Some units may be run by animal power such as *oil ghani*. Some may be run by merely human energy such as carpet-making, pottery making etc. Enter the description of fuel or power used for the production, processing, servicing etc. that is carried on in the establishment. There may be instances where more than one fuel or power is used, in such cases, only the fuel or power which is used in running the primary unit of the industry will be noted in this column.

Col. 8: Type of fuel or power used.

90. *Columns 9 and 10 are to be filled in respect of trading establishments or establishments which render commercial services only.*

91. Trading or business, establishments are those where some trading *i.e.*, transactions involving sale and/or purchase of goods go on.

Establishments rendering commercial services are the banks, money lending firms, Pawn shops, etc.

92. If it is a trading establishment, you should ascertain what are the goods bought and/or sold and write the description in this column. If there are more than one type of goods bought/sold by the establishment, you should give description of the main item of goods bought/sold by the establishment.

Col. 9: Description of goods bought/sold.

93. In the case of establishments rendering commercial services such as in the case of Banks etc., you should write the description of the services rendered, as in the case of a bank, you should write "banking services".

94. For all trading establishments, you should ascertain in respect of the goods mentioned in column 9, whether they are sold/bought in wholesale or in retail and write as the case may be.

Col. 10: Whether (a) wholesale or (b) retail.

95. You may come across certain establishments wherein both types of trade *i.e.* wholesale and retail go on. In such cases, you should ascertain in which category (*i.e.* wholesale or retail) the volume of trade is greater and record the category accordingly.

96. In the case of establishments rendering commercial services, *e.g.*, bank etc. please do not write any of the two categories *i.e.* 'wholesale' or 'retail' but put an 'X' in this column.

Col. 11 : If used as any other establishment, describe e.g., Govt. office, School, Hospital, Railway Station, Barber's Saloon, Cinema Theatre, Hotel, Tea shop, etc.

97. Two specific types of establishments have been covered in columns 6 to 10. Column 11 relates to the remaining types of establishments not covered by columns 6 to 10. You have to describe such establishments in this column, *e.g.*, Govt. Office, school, hospital, Railway Station, orphanage, Rescue Home, Barber's saloon, cinema theatre, hotel, tea shop, lawyer's office, doctor's clinic, laundry, etc.

General:

98. It is possible that in a particular establishment, more than one activity is being undertaken within the same premises. For example, say in a betel shop, *bidi* rolling is also being undertaken or in a grocery shop a flour mill is also located, or in the doctor's clinic medicines are sold. In such cases, the establishment should be identified having, regard to the major activity and recorded as such in the relevant columns pertaining to the major activity.

99. But if different activities are undertaken in different census houses quite cut off from one another though under the same title or ownership, each such census house should be treated as a separate establishment and recorded as such against that census house in this schedule. It may, however, be noted that where processing for the production of an article is carried on, in separate adjoining census houses, all the census houses should be treated as a single establishment and recorded as such. If on the other hand the activities of a large firm or an office are carried on in buildings located far away in different localities, each of the census houses in the different localities will have to be treated as a separate establishment and the particulars of the establishment relating to that particular census house should be listed in this schedule.

100. After you have completed filling up of the Establishment Schedule for your block, you will prepare a duplicate copy of the Establishment Schedule, for which you would be given adequate number of blank forms.

CENSUS OF INDIA 1971 ENGLISH

HOUSE LIST

Name of District..... Code No..... Name of Village or Town..... Code No.....

Name of Taluk/Tehsil/Thana/Anchal/Island.. ..... Code No..... Name or number of Ward/Mohalla/Enumerator's Block ..... Code No.....

| Line No. | Building No. (Municipal or Local Authority or Census No.) | Census House No. | Predominant construction material of Census House | | Purpose for which Census House is used e. g. residence, shop, shop-*cum*-residence, business, factory, workshop, workshop-*cum*-residence, school, bank, commercial house, office, hospital, hotel etc, or vacant | Is it used wholly or partly as an establishment? Yes or No. If yes, enter further details in the establishment Schedule and indicate the serial No. of that entry here | If used wholly or partly as a residence | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | | | Material of Wall | Material of Roof | | | Household No. | Name of the Head of Household | If S.C. or S.T. write name of Caste/Tribe | No. of living rooms in the occupation of Census Household | Does the household live in owned or rented house? (i)Owned(O) (ii)Rented(R) | No. of persons normally residing in Census Household on day of visit of the enumerator | | | Does the household cultivate Land? (Yes or No) | Remarks |
| | | | | | | | | | | | | M l s | Females | Total | | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 | 13 | 14 | 15 | 16 | 17 |

Signature of Supervisor ..... Date.....

## APPENDIX—II

## NATIONAL INDUSTRIAL CLASSIFICATION, 1970

(As adopted by the office of the Registrar General, India for the Census 1971)

| Major Group | Minor Group | Description |
|---|---|---|
| | | *Division O—Agriculture, Hunting, Forestry and Fishing* |
| 00 | | *Agricultural Production* |
| | 000 | Cereal Crops (paddy, wheat, jowar, bajra, maize, ragi, barley and gram, etc.). |
| | 001 | Pulses (arhar, moong, masur, urd & etc.). |
| | 002 | Raw cotton. |
| | 003 | Raw jute, mesta. |
| | 004 | Sann hemp and other kindred fibres. |
| | 005 | Production of oilseeds such as sesamum, groundnuts, rape, mustard, linseed, castor seeds, etc. |
| | 006 | Sugarcane. |
| | 007 | Roots and tubers, vegetables, pan, singhara, chillies and spices (other than pepper and cardamom) and flowers and parts of plants |
| | 008 | Agricultural production not elsewhere classified. |
| 01 | | *Plantations* |
| | 010 | Tea. |
| | 011 | Coffee. |
| | 012 | Rubber. |
| | 013 | Tobacco. |
| | 014 | Pepper. |
| | 015 | Cardamom. |
| | 016 | Edible nuts (excluding coconut and ground nut), walnut, almond, cashewnut, etc. |
| | 017 | Production of fruits, coconuts e. g. bananas, apples, grapes, mangoes, oranges. |
| | 018 | Production of ganja, cinchona, opium, etc. |
| | 019 | Crops of plantations, not elsewhere classified (e. g. Betelnuts, etc.). |
| 02 | | *Livestock Production* |
| | 020 | Cattle and goats-breeding, rearing, ranching etc. and production of milk. |
| | 021 | Rearing of sheep and production of wool. |
| | 022 | Rearing of horses, mules, camels and other pack animals. |
| | 023 | Rearing of pigs and other animals. |
| | 024 | Rearing of ducks, hens and other birds and production of eggs. |
| | 025 | Rearing of bees and production of honey and wax. |
| | 026 | Rearing of Silk-worms and production of cocoons and raw silk. |
| | 029 | Rearing of livestock and production of livestock products not elsewhere classified. |
| 03 | | *Agricultural Services* |
| | 030 | Pest destroying, spraying, pruning of infected stems. |
| | 031 | Operation of irrigation system. |
| | 032 | Animal sharing and livestock services (other than veterinary services). |
| | 033 | Grading agricultural and livestock products. |
| | 034 | Horticultural and nursery services. |
| | 035 | Soil conservation. |
| | 036 | Scientific services like soil testing. |
| | 039 | Agricultural services not elsewhere classified (like land clearing, land draining etc.). |
| 04 | | *Hunting, Trapping and Game Propagation* |
| | 040 | Hunting, trapping and game propagation for commercial purposes (other than for sport). |

| Major Group | Minor Group | Description |
|---|---|---|
| | | *Division 0—Agriculture, Hunting, Forestry and Fishing*—concld. |
| 05 | | *Forestry and Logging* |
| | 050 | Planting, replanting and conservation of forests. |
| | 051 | Logging-felling and cutting of trees and preparation of rough, round, hewn or riven logs (including incidental hauling). |
| | 052 | Production of fuel (including charcoal by burning) by exploitation of forests. |
| | 053 | Gathering of fodder by exploitation of forests. |
| | 054 | Gathering of uncultivated materials such as gums, resins, lac, barks, herbs, wild fruits and leaves by exploitation of forests. |
| | 059 | Other forests products not elsewhere classified such as munjh. |
| 06 | | *Fishing* |
| | 060 | Ocean, sea and coastal fishing. |
| | 061 | Inland water fishing. |
| | 062 | Pisciculture—rearing of fish. |
| | 063 | Collection of pearls, conches, shells, sponge and other sea products. |
| | 069 | Fishing and allied activities not elsewhere classified. |
| | | *Division 1—Mining and Quarrying* |
| 10 | | *Coal Mining* |
| | 100 | Coal. |
| | 101 | Lignite. |
| 11 | | *Crude Petroleum and Natural Gas* |
| | 110 | Crude Petroleum. |
| | 111 | Natural gas. |
| 12 | | *Metal Ore Mining* |
| | 120 | Iron ore. |
| | 121 | Manganese. |
| | 122 | Chromite. |
| | 123 | Bauxite. |
| | 124 | Gold and Silver Ores. |
| | 125 | Copper Ore. |
| | 126 | Lead and Zinc Ores. |
| | 127 | Ilmenite and Rutile. |
| | 128 | Wolfram. |
| | 129 | Metal Ores not elsewhere classified. |
| 19 | | *Other Mining* |
| | 190 | Stone quarrying, clay and sand pits. |
| | 191 | Chemicals and fertilizer mineral mining (such as soda ash, sulphur, phosphates, nitrates etc.) |
| | 192 | Salt mining and quarrying including crushing, screening and evaporating in pans. |
| | 193 | Precious and semi-precious stones. |
| | 194 | Mica. |
| | 195 | Gypsum. |
| | 199 | Other mining not elsewhere classified (asbestos, quartz, talc and soap stone, natural abrasives other than sand, graphite, etc.) |
| | | *Division 2 & 3—Manufacturing and Repair* |
| 20 & 21 | | *Manufacture of Food Products* |
| | 200 | Slaughtering, preparation and preservation of meat. |
| | 201 | Manufacture of dairy products. |
| | 202 | Canning and preservation of fruits and vegetables. |
| | 203 | Canning, preserving and processing of fish, crustacea and similar foods. |

| Major Group | Minor Group | Description |
|---|---|---|
| | | *Division* 2 & 3—*Manufacturing and Repair*—contd. |
| | 204 | Grain mill products. |
| | 205 | Manufacture of bakery products. |
| | 206 | Manufacture and refining of sugar (vacuum pan sugar factories). |
| | 207 | Production of indigenous sugar, boora, khandsari, gur, etc. from sugar-cane, palm juice. |
| | 208 | Production of common salt. |
| | 209 | Manufacture of cocoa, chocolate and sugar confectionery (including sweetmeats). |
| | 210 | Manufacture of hydrogenated oils, Vanaspati ghee, etc. |
| | 211 | Manufacture of other edible oils and fats e.g. mustard oil, ground nut oil, til oil, etc. (Inedible oils shown under 315). |
| | 212 | Tea processing. |
| | 213 | Coffee curing, roasting and grinding. |
| | 214 | Cashewnut processing like drying, shelling, roasting, salting, etc. |
| | 215 | Manufacture of ice. |
| | 216 | Manufacture of prepared animal feeds. |
| | 217 | Manufacture of starch. |
| | 219 | Manufacture of food products not elsewhere classified. |
| 22 | | *Manufacture of Beverages, Tobacco and Tobacco Products* |
| | 220 | Distilling, rectifying and blending of sprits. |
| | 221 | Wine industries. |
| | 222 | Malt liquors and malt. |
| | 223 | Production of country liquor and toddy. |
| | 224 | Soft drinks and carbonated water industries. |
| | 225 | Tobacco stemming, redrying and all other operations which are connected with preparing raw leaf tobacco for manufacture. |
| | 226 | Manufacture of bidi. |
| | 227 | Manufacture of cigars, cigarettes, cheroots and cigarette tobacco. |
| | 228 | Manufacture of chewing tobacco, zarda and snuff. |
| | 229 | Manufacture of tobacco and tobacco products, not elsewhere classified. |
| 23 | | *Manufacture of Cotton Textiles* |
| | 230 | Cotton ginning cleaning and baling. |
| | 231 | Cotton spinning, weaving, shrinking, sanforizing, mercerising and finishing of cotton textiles in mills. |
| | 232 | Printing, dyeing and bleaching of cotton textiles. |
| | 233 | Cotton spinning other than in mills (charkha). |
| | 234 | Production of khadi. |
| | 235 | Weaving and finishing of cotton textiles in handlooms, other than khadi. |
| | 236 | Weaving and finishing of cotton textiles in powerlooms. |
| | 239 | Cotton textiles not elsewhere classified. |
| 24 | | *Manufacture of Wool, Silk and Synthetic Fibre Textiles* |
| | 240 | Wool cleaning, baling and pressing. |
| | 241 | Wool spinning, weaving and finishing in mills. |
| | 242 | Wool spinning and weaving (other than in mills). |
| | 243 | Dyeing and bleaching of woollen textile. |
| | 244 | Manufacture of wool not elsewhere classified. |
| | 245 | Spinning, weaving and finishing of silk textiles. |
| | 246 | Printing, dyeing and bleaching of silk textiles. |
| | 247 | Spinning, weaving and finishing of other textiles—synthetic fibres, rayons, nylons, etc. |
| | 248 | Printing, dyeing and bleaching of synthetic textiles. |
| | 249 | Silk and synthetic fibre textiles not elsewhere classified. |
| 25 | | *Manufacture of Jute, Hemp and Mesta Textiles* |
| | 250 | Jute and Mesta pressing and baling. |
| | 251 | Jute and Mesta spinning and weaving. |

| Major Group | Minor Group | Description |
|---|---|---|
| | | *Division* 2 & 3—*Manufacturing and Repair*—contd. |
| | 252 | Dyeing, printing and bleaching of jute textiles. |
| | 253 | Preparing, spinning, weaving and finishing of hemp and other coarse fibres. |
| | 259 | Manufacture of jute bags and other jute textiles not elsewhere classified. |
| 26 | | *Manufacture of Textile Products (including Wearing Apparel other than Footwear)* |
| | 260 | Knitting mills. |
| | 261 | Manufacture of all types of threads, cordage, ropes, twines, nets, etc. |
| | 262 | Embroidery and making of crapes, laces and fringes. |
| | 263 | Weaving carpets, rugs and other similar textile products. |
| | 264 | Manufacture of all types of textiles, garments including wearing apparel. |
| | 265 | Manufacture of rain coats, hats, etc. |
| | 266 | Manufacture of made up textile goods (except garments) such as curtains, mosquito nets, etc. |
| | 267 | Manufacture of water proof textiles such as oil cloth, tarpaulin, etc. |
| | 268 | Manufacture of coir and coir products. |
| | 269 | Manufacture of textiles not elsewhere classified like linoleum, padding, wadding, upholstering, filling. |
| 27 | | *Manufacture of Wood and Wood Products, Furniture and Fixtures.* |
| | 270 | Manufacture of veneer, plywood and their products. |
| | 271 | Sawing and planing of wood (other than plywood). |
| | 272 | Manufacture of wooden and cane boxes, crates, drums, barrels and other wooden containers, basked and other rattan, bamboo, read and willow wares made entirely or mainly of cane, rattan, ee bamboo and willow. |
| | 273 | Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors and windows (excluding hewing and rough shaping of poles, bolts and other wood material which is classified under logging). |
| | 274 | Manufacture of wooden industrial goods, such as bobbins, blocks, handles, saddling and similar equipment and fixtures. |
| | 275 | Manufacture of cork and cork products. |
| | 276 | Manufacture of wooden furniture and fixtures. |
| | 277 | Manufacture of bamboo and cane furniture and fixtures. |
| | 279 | Manufacture of wood and reed, bamboo and cane products not elsewhere classified. |
| 28 | | *Manufacture of Paper and Paper Products and Printing, Publishing and Allied Industries.* |
| | 280 | Manufacture of pulp, paper and paper board including newsprint. |
| | 281 | Manufacture of container and boxes of paper and paper board. |
| | 282 | Manufacture of pulp products not elsewhere classified like dolls. |
| | 283 | Manufacture of paper and paper board articles not elsewhere classified. |
| | 284 | Printing and publishing of newspaper. |
| | 285 | Printing and publishing of periodicals, books, journals, atlases, maps, sheet music directories. |
| | 286 | Printing of bank notes, currency notes, postage stamps; security presses. |
| | 287 | Engraving, etching, block making, etc. |
| | 288 | Book Binding. |
| | 289 | Printing, publishing and allied activities not elsewhere classified like envelope printing, picutre post card printing, embossing. |
| 29 | | *Manufacture of Leather and Leather and Fur Products (except Repair).* |
| | 290 | Tanning, currying, finishing, embossing and japanning of leather. |
| | 291 | Manufacture of footwear (excluding repair) except vulcanized or moulded rubber or plastic footwear. |
| | 292 | Manufacture of wearing apparel like coats, gloves, etc. of leather and substitutes of leather. |
| | 293 | Manufacture of Leather Consumer Goods (other than apparel and footwear). |
| | 294 | Scrapping, currying, tanning, bleaching and dyeing of fur and other pelts for the trade. |
| | 295 | Manufacture of wearing apparel of fur and pelts. |
| | 296 | Manufacture of fur and skin rugs and other articles. |
| | 299 | Manufacture of Leather and Fur Products not elsewhere classified. |

| Major Group | Minor Group | Description |
|---|---|---|
| | | *Division 2 & 3—Manufacturing and Repair*—contd. |
| 30 | | *Manufacture of Rubber, Plastic, Petroleum and Coal Products.* |
| | 300 | Tyre and tube industries. |
| | 301 | Manufacture of footwear made primarily of vulcanized or moulded rubber and Plastic. |
| | 302 | Manufacture of rubber products not elsewhere classified. |
| | 303 | Manufacture of plastic products not elsewhere classified (except house furnishing). |
| | 304 | Petroleum refineries. |
| | 305 | Manufacture of products of petroleum not elsewhere classified. |
| | 306 | Production of coaltar in coke ovens. |
| | 307 | Manufacture of other coal and coal tar products not elsewhere classified. |
| 31 | | *Manufacture of Chemicals and Chemical Products (except Products of Petroleum and Coal).* |
| | 310 | Manufacture of basic industrial organic and inorganic chemicals and gases such as acids, alkalines and their salts; gases like acetylene, oxygen, nitrogen, etc. |
| | 311 | Manufacture of fertilisers and pesticides. |
| | 312 | Manufacture of paints, varnishes and lacquers. |
| | 313 | Manufacture of drugs and medicines. |
| | 314 | Manufacture of perfumes, cosmetics, lotions, hair dressings, tooth pastes, soap in any form, synthetic detergents, shampoos, shaving products, cleansers, washing and scouring products and other toilet preparations. |
| | 315 | Manufacture of inedible oils. |
| | 316 | Manufacture of turpentine, synthetic resins, plastic materials and synthetic fibres like nylon, terylene exept glass. |
| | 317 | Manufacture of matches. |
| | 318 | Manufacture of explosives and ammunition and fire works. |
| | 319 | Manufacture of chemical products not elsewhere classified (including photo-chemicals, sensitised films and paper). |
| 32 | | *Manufacture of Non-Metallic Mineral Products.* |
| | 320 | Manufacture of structural clay products. |
| | 321 | Manufacture of glass and glass products. |
| | 322 | Manufacture of earthen ware and earthen pottery. |
| | 323 | Manufacture of china-ware and porcelainware. |
| | 324 | Manufacture of cement, lime and plaster. |
| | 325 | Manufacture of mica products. |
| | 326 | Manufacture of structural stone goods, stone dressing and stone crushing, stoneware. |
| | 327 | Manufacture of earthen and plaster statues and other products. |
| | 328 | Manufacture of asbestos, cement and other cement products. |
| | 329 | Manufacture of miscellaneous non-metallic mineral products such as slate products, abrasives, graphite products, mineral wool, silica products and other non-metallic mineral products not elsewhere classified. |
| 33 | | *Basic Metal and Alloys Industries* |
| | 330 | Iron and Steel industries. |
| | 331 | Foundries for casting and forging iron and steel |
| | 332 | Manufacture of ferro-alloys. |
| | 333 | Copper manufacturing. |
| | 334 | Brass manufacturing. |
| | 335 | Aluminium manufacturing. |
| | 336 | Zinc manufacturing. |
| | 339 | Other non-ferrous metal industries. |
| 34 | | *Manufacture of Metal Products and Parts except Machinery and Transport equipment.* |
| | 340 | Manufacture of fabricated metal products such as metal cans from tin-plate, terne plate or enamelled sheet metal, metal shipping containers, barrels, drums, kegs, pails, safes, vaults, enamelled, sanitary and all other fabricated metal products not elsewhere classified. |
| | 341 | Manufacture of structural metal products. |
| | 342 | Manufacture of furniture and fixtures primarily of metal. |

| Major Group | Minor Group | Description |
|---|---|---|
| | | *Division 2 & 3—Manufacturing & Repair*—contd. |
| | 343 | Manufacture of hand tools and general hardware. |
| | 344 | Enamelling, japanning, lacquering, galvanising plating and polishing metal products. |
| | 345 | Manufacture of metal utensils, cutlery and kitchenware. |
| | 349 | Manufacture of metal products except machinery and transport equipment not elsewhere classified, like type founding. |
| 35 | | *Manufacture of Machinery, Machine tools and Parts except Electrical Machinery.* |
| | 350 | Manufacture of agricultural machinery and equipment and parts. |
| | 351 | Manufacture and repair of drills, coal cutting machines, earth moving. lifting and hoisting machinery, cranes, conveyors and road-rollers and other heavy machinery and equipment used by construction and mining industries. |
| | 352 | Manufacture of prime movers, boilers and steam generating plants such as diesel engines and parts. |
| | 353 | Industrial Machinery for Food and Textile Industries. |
| | 354 | Industrial Machinery for other than Food and Textiles Industries. |
| | 355 | Manufacture of Refrigerators, Air-conditioners, and Fire-Fighting Equipment, and other parts, components and accessories. |
| | 356 | Manufacture, alteration and repair of general items of non-electrical machinery, components, equipment and accessories not elsewhere classified., e.g., manufacture and repair of size reduction equipment like Pentagraph, Mapograph, etc., crushers, conveyors, bucket elevators, ship hoist cranes, derricks etc., mixers and reactors, centrifugal machines, driers, etc., power driven pumps, etc.; air, gas, compressors and vacuum pumps (excluding electrical furnaces), etc. |
| | 357 | Manufacture of Machine Tools, their parts and accessories. |
| | 358 | Manufacture of office computing and accounting machinery and parts. |
| | 359 | Manufacture and repair of non-electrical machinery, equipment, components and accessories not elsewhere classified (such as sewing machines, automatic merchandising machines, washing, laundry, dry-cleaning and pressing machines, cooking ranges and ovens, other service industry machines, arms and armaments etc.). |
| 36 | | *Manufacture of Electrical Machinery, Apparatus, Appliances and Supplies and Parts.* |
| | 360 | Manufacture of electrical industrial machinery and apparatus and parts (such as electrical motors, generators, transformers, electro-magnetic clutches and brakes etc.). |
| | 361 | Manufacture of insulated wires and cables. |
| | 362 | Manufacture of dry and wet batteries. |
| | 363 | Manufacture of electrical apparatus, appliances and their parts such as lamps, bulbs, tubes, sockets switches, fans, insulators (except porcelain), conductors, irons, heaters, shavers, vacuum cleaners, etc. exclududing repairing. |
| | 364 | Manufacture of radio and television transmitting and receiving sets, including transistor, radio sets, sound reproducing and recording equipment, including tape-recorders, public address systems, gramophone records and pre-recorded magnetic tapes, wire and wireless, telephone and telegraph equipment, signalling and detection eqiupment and apparatus, radar equipment and installations; parts and supplies specially used for electronic apparatus classified in this group. |
| | 365 | Manufacture and repair of Radiographic X-ray apparatus and tubes and parts. |
| | 366 | Manufacture of Electronic Computers. Control Instruments and other Equipment. |
| | 367 | Manufacture of electronic components and accessories not elsewhere classified. |
| | 369 | Manufacture of electrical machinery, apparatus, appliances and supplies and parts not elsewhere classified. |
| 37 | | *Manufacture of Transport Equipment and Parts* |
| | 370 | Ship building and repairing. |
| | 371 | Manufacture of Locomotives and parts. |
| | 372 | Manufacture of Railway wagons and coaches and parts. |
| | 373 | Manufacture of other rail-road equipment. |
| | 374 | Manufacture of motor vehicles and parts. |
| | 375 | Manufacture of motor-cycles and scooters and parts. |
| | 376 | Manufacture of bicycles, cycle-rickshaw and parts. |
| | 377 | Manufacture of aircrafts and its parts. |
| | 378 | Bullock-carts, push-carts, hand-carts, etc. |
| | 379 | Manufacture of transport equipment and parts not elsewhere classified. |

| Major Group | Minor Group | Description |
|---|---|---|
| | | *Division* 2 & 3—*Manufacturing & Repair*—concld. |
| 38 | | *Other Manufacturing Industries.* |
| | 380 | Manufacture of medical, surgical and scientific equipment. |
| | 381 | Manufacture of photographic and optical goods (excluding photo chemicals, sensitised paper and film |
| | 382 | Manufacture of watches and clocks. |
| | 383 | Manufacture of jewellery and related articles. |
| | 384 | Minting of coins. |
| | 385 | Manufacture of sports and athletic goods. |
| | 386 | Manufacture of Musical instruments. |
| | 387 | Manufacture of stationery articles like fountain pens, pencils, pens, pin-cushions, tags, etc., not elsewhere classified. |
| | 389 | Manufacture of miscellaneous products not elsewhere classified such as costume jewellery, costume novelties, feather, plumes, artificial flowers, brooms, brushes, lamp shades, tobacco pipes, cigarette holders, ivory goods, badges, wigs and similar articles. |
| 39 | | *Repair.* |
| | 390 | Repair of footwear and other leather goods. |
| | 391 | Electrical repair shops. |
| | 392 | Repair of motor vehicles and motorcycles. |
| | 393 | Repair of watch, clock and jewellery. |
| | 394 | Repair of bicycles and cycle rickshaws. |
| | 399 | Repair of enterprises not elsewhere classified. |
| | | *Division* 4—*Electricity, Gas and Water.* |
| 40 | | *Electricity.* |
| | 400 | Generation and transmission of electric energy. |
| | 401 | Distribution of electric energy to household, industrial and commercial and other users. |
| 41 | | *Gas and Steam* |
| | 410 | Manufacture of gas in gas works and distribution through mains to household, industrial and commercial and other users. |
| 42 | | *Water Works and Supply* |
| | 420 | Water supply *i.e.* collection, purification and distribution of water. |
| | | *Division* 5—*Constructions.* |
| 50 | | *Construction.* |
| | 500 | Construction and maintenance of buildings (including aerodromes). |
| | 501 | Construction and maintenance of roads, railways, bridges, tunnels, pipe lines, ports, harbours, runway, etc. |
| | 502 | Construction and maintenance of telegraph and telephone lines and other communication systems. |
| | 503 | Construction and maintenance of water-ways and water reservoirs such as bund, embankments, dams, canals, tanks, wells, tube wells, etc. |
| | 504 | Construction of hydro-electric projects. |
| | 505 | Construction of industrial plants including thermal plants. |
| | 509 | Construction not elsewhere classified. |
| 51 | | *Activities allied to Construction.* |
| | 510 | Plumbing. |
| | 511 | Heating and air-conditioning installation, lift installation, sound proofing, etc. |
| | 512 | Setting of tile, marble, brick, glass and stone. |
| | 513 | Plumber works such as fixing of doors, windows, panels, painting and decorating. |
| | 514 | Electrical installation. |
| | 519 | Other activities allied to construction not elsewhere classified, such as fixing of handpumps. |
| | | *Division* 6—*Wholesale and Retail Trade and Restaurants and Hotels.* |
| 60 | | *Wholesale Trade (W.T.) in Food, Textiles, Live Animals Beverages and Intoxicants.* |
| | 600 | Wholesale trade in cereals and pulses. |
| | 601 | Wholesale trade in Foodstuff other than cereals and pulses. |

| Major Group | Minor Group | Description |
|---|---|---|
| | | *Division—6 Wholesale and Retail Trade and Restaurants and Hotels*—contd. |
| | 602 | Wholesale trade in textiles and textile products, like all kinds of fabrics, garments, shirtings, suitings, hosiery goods. |
| | 603 | Wholesale trade in beverages other than intoxicants, e.g., aerated water. |
| | 604 | Wholesale trade in intoxicants like wines and liquors including bottling. |
| | 605 | Wholesale trade in intoxicants like opium, ganja, etc. |
| | 606 | Wholesale trade in tobacco and tobacco products. |
| | 607 | Wholesale trade in animals. |
| | 608 | Wholesale trade in straw and fodder. |
| 61 | | *Wholesale trade in Fuel, Light, Chemicals, Perfumery, Ceramics, Glass.* |
| | 610 | Wholesale trade in medicines and chemicals. |
| | 611 | Wholesale trade in fuel and lighting products. |
| | 612 | Wholesale trade in toilets, perfumery and cosmetics. |
| | 613 | Wholesale trade in metal, porcelain and glass utensil crockery and chinaware. |
| 62 | | *Wholesale trade in Wood, Paper, Other Fabrics and Skin and Inedible Oils.* |
| | 620 | Wholesale trade in petrol, mobil oil and allied products. |
| | 621 | Wholesale trade in wood, cane, bamboo, thatches, etc. |
| | 622 | Wholesale trade in paper and other stationery goods. |
| | 623 | Wholesale trade in skin, leather and fur, etc. |
| 63 | | *Wholesale trade in All Types of Machinery, Equipment, including Transport and Electrical Equipment.* |
| | 630 | Wholesale trade in agricultural and industrial machinery, e.g., harvestors, threshers, sowing machines, etc. |
| | 631 | Wholesale trade in electrical machinery and equipment. |
| | 632 | Wholesale trade in transport and storage equipment. |
| 64 | | *Wholesale trade in Miscellaneous Manufacturing* |
| | 640 | Wholesale trade in furniture and fixtures. |
| | 641 | Wholesale trade in rubber and rubber products. |
| | 642 | Wholesale trade in household and equipment not elsewhere classified. |
| | 643 | Wholesale trade in building materials. |
| | 644 | Wholesale trade in clocks, eye-glasses and frames. |
| | 645 | Wholesale trade in hardware and sanitary equipment. |
| | 646 | Wholesale trade in scientific, medical and surgical instruments. |
| | 647 | Wholesale trade in precious metals, stones and jewellery. |
| | 649 | Wholesale trade in goods not elsewhere classified. |
| 65 | | *Retail trade (R.T.) in Food and Food Articles, Beverage, Tobacco and Intoxicants.* |
| | 650 | Grain and grocery store. |
| | 651 | Vegetable and fruit selling. |
| | 652 | Dealers in meat, fish and poultry. |
| | 653 | Dealers in sweetmeat, bakery products, dairy products and eggs. |
| | 654 | Pan, bidi, cigarette shops. |
| | 655 | Dealers in aerated water, soft drinks and ice cream. |
| | 656 | Wine and liquor shops. |
| | 659 | Retail trade in food and food articles, beverage, tobacco and intoxicants not elsewhere classified. |
| 66 | | *Retail trade in Textiles* |
| | 660 | Dealers in textiles (non-ready made). |
| | 661 | Dealers in ready-made garments. |
| 67 | | *Retail trade (R. T.) in Fuel and Other Household Utilities and Durables* |
| | 670 | Dealers in firewood, coal and kerosene oil. |
| | 671 | Utensil shops. |

| Major Group | Minor Group | Description |
|---|---|---|
| | | *Division 6—Wholesale and Retail Trade and Restaurants and Hotels*—concld. |
| | 672 | Fancy stores (including crockery and glassware dealers). |
| | 673 | Dealers in electrical and electronic goods. |
| | 674 | Furniture shops. |
| | 675 | Jewellery marts. |
| | 676 | Footwear shops. |
| | 679 | Retail trade in fuel and other household utilities and durables not elsewhere classified. |
| 68 | | *Retail Trade in Others* |
| | 680 | Medical shops. |
| | 681 | Booksellers and stationers. |
| | 682 | Dealers in buildings material. |
| | 683 | Dealers in transport equipment. |
| | 684 | Petrol fillings stations. |
| | 689 | Retail trade in others not elsewhere classified. |
| 69 | | *Restaurants and Hotels* |
| | 690 | Restaurants, cafes and others eating and drinking places. |
| | 691 | Hotels, rooming houses, camps and other lodging places. |
| | | *Division 7 —Transport, Storage and Communications.* |
| 70 | | *Land Transport* |
| | 700 | Railway transport. |
| | 701 | Passenger transport by tramway and bus-services. |
| | 702 | Passenger transport by other motor vehicles. |
| | 703 | Freight transport by motor vehicles. |
| | 704 | Hackney carriages, bullock-carts, *ekka*, tonga, etc. |
| | 705 | Transport by animals like horses, elephants, mules, camels, etc. |
| | 706 | Transport by man (including rickshaw pullers, hand-cart pullers, porters, coollies, etc.). |
| | 707 | Pipeline transport. |
| | 708 | Supporting services to land transport, like operation of highway bridges, toll roads, vehicular tunnels parking lots, etc. |
| 71 | | *Water-transport* |
| | 710 | Ocean and coastal water transport. |
| | 711 | Inland water transport. |
| | 712 | Supporting services to water-transport like operation and maintenance of piers, docks, pilotage, light houses, loading and discharging of vessels, etc. |
| 72 | | *Air-Transport* |
| | 720 | Air-transport carriers (of passengers and freight). |
| | 721 | Supporting services to air-transport, like operation of airports, flying facilities, radio beacons flying control centres, radar stations, etc. |
| 73 | | *Services Incidental to Transport* |
| | 730 | Services incidental to transport, such as packing, crating travel agency, etc. |
| 74 | | *Storage and Ware-Housing* |
| | 740 | Ware-Housing. |
| | 741 | Cold-Storage. |
| | 749 | Storage and Ware-housing not elsewhere classified. |
| 75 | | *Communications* |
| | 750 | Postal, telegraphic, wireless and signal communication. |
| | 751 | Telephone communication. |
| | 759 | Communication not elsewhere classified. |

| Major Group | Minor Group | Description |
|---|---|---|
| | | *Division 8—Financing, Insurance, Real Estate and Business Services* |
| 80 | | *Banking and Similar Type of Financial Institutions* |
| | 800 | Banking. |
| | 801 | Credit Institutions other than banks, such as saving and loan associations, agricultural credit institution, industrial development banks, etc. |
| | 809 | Other financial institutions such as pawn-brokers, money-lenders, financiers, chit funds, etc. |
| 81 | | *Providents and Insurance* |
| | 810 | Provident Services. |
| | 811 | Insurance carriers, Life. |
| | 819 | Insurance carriers other than life, such as fire, marine, accident, health, etc. |
| 82 | | *Real Estate and Business Services* |
| | 820 | Purchase, sale letting and operating of real estate such as residential and non-residential buildings, developing and sub-dividing real estate into lots, lessors of real property, real estate agents, brokers and managers engaged in renting, buying and selling, managing and appraising real estate on contract or fee basis. |
| | 821 | Purchase and sale, agents and brokers. |
| | 822 | Auctioneering. |
| | 823 | Accounting, auditing and book-keeping services. |
| | 824 | Data processing and tabulating services. |
| | 825 | Engineering, architectural and technical services. |
| | 826 | Advertising and publicity services. |
| | 827 | Machinery and equipment rental and leasing. |
| | 828 | News Agencies e.g., P.T.I. U.N.I. Reuter, etc. |
| | 829 | Business services, except machinery and equipment rental and leasing, not elsewhere classified. |
| 83 | | *Legal Services* |
| | 830 | Legal Services, such as those rendered by advocates, barristers, solicitors, pleaders, mukhtiars, etc. |
| 90 | | *Division 9—Community, Social and Personal Services* |
| | | *Public Administration and Defence Services* |
| | 900 | Public services in the Union Government including Defence Services. |
| | 901 | Public Services in State Governments including Police Services. |
| | 902 | Public Services in local bodies departments and offices engaged in administration like local taxation, business regulations, etc. |
| | 903 | Public Services in Quasi-government bodies. |
| 91 | | *Sanitary Services* |
| | 910 | Sanitation and similar services such as garbage and sewage disposal, operation of drainage systems and all other types of work connected with public health and sanitation. |
| 92 | | *Education, Scientific and Research Services* |
| | 920 | Educational services rendered by technical or vocational colleges, schools and other institutions. |
| | 921 | Educational services rendered by non-technical colleges, schools, universities and other institutions. |
| | 922 | Research and Scientific Services not classified elsewhere such as those renderedby institution and laboratories engaged in research in the biological physical and social sciences, meteorological institutes and medical research organisation, etc. |
| 93 | | *Medical and Health Services* |
| | 930 | Health and medical services rendered by organisations and individuals such as hospitals, dispensaries, sanatoria, nursing homes, maternal and child welfare clinics by allopathic, Ayurvedic, Unani, Homoeopathic, etc. practitioners. |
| | 931 | Veterinary Services. |

| Major Group | Minor Group | Description |

| | | *Division 9—Community, Social and Personal Services*—concld. |
| 94 | | *Community Services* |
| | 940 | Religious services by organisations or individuals. |
| | 941 | Welfare services rendered by organisations operating on a non-profit basis for the promotion of welfare of the community such as relief societies, redresses homes for the aged, blind, fire brigade services, etc. |
| | 942 | Business, professional and labour organisations. |
| | 949 | Community services not elsewhere classified. |
| 95 | | *Recreational and Cultural Services* |
| | 950 | Motion picture production. |
| | 951 | Motion picture distribution and projection. |
| | 952 | Theatrical producers and entertainment services. |
| | 953 | Authors, music composers and other independent artists not elsewhere classified. |
| | 954 | Radio and television broadcasting. |
| | 955 | Operation of circuses and race tracks. |
| | 956 | Libraries, museums, botanical and geological gardens, zoos, game sanctuaries, etc. |
| | 959 | Amusement and recreational services not elsewhere classified. |
| 96 | | *Personal Services* |
| | 960 | Domestic Services. |
| | 961 | Laundries, Laundry services and cleaning and dyeing plants. |
| | 962 | Hair dressing such as those done by barbers, hair dressing saloons and beauty shops. |
| | 963 | Portrait and Commercial Photographic Studios. |
| | 969 | Personal Services not elsewhere classified. |
| 98 | | *International and other Extra Territorial Bodies* |
| | 980 | International and other extra territorial bodies. |
| 99 | | *Services not elsewhere classified* |
| | 990 | Services not elsewhere classified. |
| | | *Division X—Activities not Adequately Defined* |
| XO | | *Persons without any affiliation to any particular industry (including fresh entrants to labour force)* |
| | XOO | Persons without any affiliation to any particular industry (including fresh entrants to labour force). |
| XI | | *Activities not adequately defined (Other than those in XO)* |
| | X10 | Activities not adequately defined (Other than those in XO). |

NOTE:—For Minor Groups X00 and X10 pseudo code 995 has been adopted by the Census.

## APPENDIX III

### *Thana-gudi*

*Thana-gudi* is a village rest house, constructed and maintained by the villagers. It had been a common practice in the tribal villages of Chhattisgarh region of Madhya Pradesh to have a *thana-gudi* for temporary sojourn of visitors—both officials and non-officials. The institution is, however, at a decaying stage. It is recognised by different names in different tribal areas viz., *thana-gudi* or *chavidi*[1] except in *Abujhmar* area of Bastar district, *paik gotul* or *kos gotul*[2] in *abujhmar* area, *gudi-ghar*[3] in Surguja district and by a similar name in Raigarh district.

Every house in the tribal area of Chhattisgarh region is constructed in a rectangular form and so is the *thana-gudi*. It is a one room structure with mud walls on three sides and thatched roof, the fourth side remaining open. Sometimes a partition of the room is made by leaf-thatching so as to make a open verandah or a separate kitchen.

In Bastar district, an *Athpaharia*[4] is appointed by the villagers from among them to look after the visiting officials during their stay in the village. He is required to keep the *thana-gudi* clean by regular sweeping and sometimes daubing with cow-dung. The supply of drinking water and fuel to the visitors is also included in his duties. He is also required to see off the visitors to neighbouring village or to the road from where they could get conveyance. For all such duties he is not required to take any remunerations from the visitors. He is paid annually in terms of grain by the villagers for his duties in *thana-gudi*.

In Surguja district[5], as soon as any visitor arrives and stay in *gudi-ghat*, the *bargah* (the grazier of the village) and kotwar is sent by the *gontia* (Patel or head of the gram sabha of the village) to attend the visitor. The duties of the kotwar are to sweep the *gudi-ghar* and to clean the utensils and that of the *bargah* is to prepare food. In the past, when the days were better, rice and dal were used to be supplied by the *gontia* himself.

## APPENDIX IV

### *The Ghotul*

A very colourful and lively tribe—Muras of Bastar are divided into three divisions—(i) Raja Muria or Jagdalpur Muria; (ii) Jhoria Muria and (iii) Ghotul Muria. The territory north of the Indravati in Bastar district is divided into three administrative divisions. The first, in the north-east, is the Kondagaon tahsil; the second, in the north-west, is the Narayanpur tahsil and the third to the south, is the Jagdalpur tahsil. The first two of these are inhabited by the Ghotul Murias. The names of the tracts inhabitated by the Ghotul Murias as mentioned by Dubey[1] are—Paralkot Kalpatti; Bandadesh; Kirangal; Kalpatti; Surebahi; Bhomra Bandadesh; Antagarh and Amabera and major part of Kondagaon tahsil. These Murias are distinguished by their highly organised Ghotul system a recreational centre, an elaborate scheme of co-education and training, a home of tribal religion and tradition and a dormitory where the unmarried youths and maidens pass their nights.

*Types of Ghotul* :

Elwin[2] mentions in his "The Kingdom of the Young" that two types of Ghotul are prevalent amongst the Murias. The fundamental principle of the first type of Ghotul, which is called the *Jodidar* or yoking ghotul', is that of fidelity to a single partner during the whole of the pre-marital period. In the second type, any kind of lasting attachment between the partners is forbidden. Russell and Hiralal[3] mention a third type of ghotul, built separately for the boys and the girls.

*Organisation* :

The Ghotul is an empire owned by the children of Murias where no adults are permitted. A leader separately for boys and girls is elected. These two guide and control the activities of the boys who are known as cheliks and of the girls who are known as motiaris. Besides the leaders, who are generally known as Sirdar in the case of boys and Belosa for the girls, a number of title-holders of officials are in each Ghotul. The titles of these officials, however, differ from Ghotul to Ghotul. These other officials generally bear the designations of administrative officers, viz., Diwan, Kotwar, Munshi, Jamadar, etc., for boys and Diwanin, Kotwarin etc., for girls. As the members grow older, they are promoted in ranks in the Ghotul hierarchy. The functions of these officials are to guide and control the different activities of the Ghotul. The decisions in the Ghotul are taken by boys and girls sitting together. However, the leaders of each sex have certain influence over the members but this is only due to his/her personal popularity. The Ghotul is a well-knit organised institution based on democratic principles. Shoobert[4] says, "All dormitory boy officials are chosen by a panchayat of all the boys and girls. The senior boys always hold office"

*Location* :

Usually a large hut is built at a picturesque place on the outskirt of the village. It is suitably decorated.

*Aspects of Ghotul life* :

Ghotul life has its varied aspects. It is only in the evenings and nights that there is a rhythm in the Ghotul. However, the activities in the Ghotul start from afternoon when motiaris come to sweep, clean and cow-dung the building and the courtyard. At sunset, someone comes to light the fire. After supper, the cheliks begin to arrive carrying their sleeping mats and their drums. At the same time, motiaris come in a group and gather round their own fire. Discussions then take place on different matters and activities for the next day. The Ghotul officials are little more than prefects and monitors who teach the younger ones the theory and practice of the things that they will have to do when they grow old. In other words, life in the Ghotul is definitely a preparation and training for the home and social life. This includes braiding rope, thatching a house, cutting a tree, preparation of fields, propitiating the gods and revering their ancestors and elders. They are taught partly by precept but largely by examples, and expeditions are made throughout the year. Such expeditions are made for marriages, for festivals of the clan-god and Marhai fairs and for dancing from village to village. At the weddings, the cheliks and motiaris are required to build the weeding *mandap*, collect fuel and leaves for plates and cups and to serve the food to the guests. At the village festivals, they have to collect fuel and leaves for plates and cups and have to dance. The tribal children are hardly taught how to dance. Almost all of them pick it up by instinct. The cheliks and motiaris also undertake dancing expeditions in honour of goods. Elwin[5] says, "In the ceremonial hunts before certain festivals the cheliks play a major part.....". However, Shoobert[6] says, "There is no ceremonial hunting among the cheliks; they do not hunt at all but occasionally cheliks and motiaris go together to catch fish for their ghotul feasts".

The constant association of young people forces them to devise many forms of entertainment which includes wits and games. The wits may include obscene jokes but it is all in good humour. Hide-and-seek and blindman's buff are the usual games played in the Ghotul.

After the discussions are over, guide-lines for future life are imparted, activities for the next day are planned. The defaulters of any allotted duty are then punished by the mebers. Each girl then takes a body and combs his hair and massages his hands and arms to refresh him. One now pulls out a drum and singing and dancing start. Dancing is learnt in the Ghotul by imitation. The boys and girls pick it up by instinct. From the first day of admission into the Ghotul, the novice may drink and dance. This dancing together continues till they are tired. Then the Cheliks and Motiaris pair off and go to bed. It, however, does not mean that a motiari sleeping in the arms of a chelik is prepared to have sexual intercourse with him

*Relation of sexes in the Ghotul:*

Each chelik pairs off with a motiari and the attachment lasts till either of the two leaves the Ghotul on marriage in the *Jodidar* Ghotul; in the second type of Ghotul, no chelik may regard a motiari as 'his'. This is on the principle that everyone belongs to everyone else. A chelik and a motiari may sleep togehter for three nights only and after that they have to change the partner. It is nodoubt true that the cheliks and motiaris by mixing in the Ghotul learn the meaning and functions of sex and co-habit. Pre-marital sex-relations are not discouraged. The underlying idea behind change of partners after three days is perhaps to prevent conception. Such instances are even otherwise very few and

reported from both types of Ghotuls. Unfortunately this aspect of the Ghotul life has been described out of proportion in the book—"The Murias and their Ghotul" by Dr. Verrier Elwin, giving an impression that the Ghotul as an institution is a training centre for orgies and unbridled sex life. Commenting on this, Shri R. P. Noronha,[7] in his article—"The Ghotul Spirit" says, "It is unfortunate that Dr. Verrier Elwin in his book, 'The Murias and their Ghotul' emphasises this aspect of the Ghotul beyond reason. From my own knowledge, I can say that there is no more promiscuity in the Ghotul than there is in a highly civilized, co-educational institute."

Pre-marital sex-relations are even otherwise not looked upon with disfavour in tribal societies. No cognizance of it is taken unless such a union results into pregnancy. A question naturally arises as to why the tribal code in this regard is different from ours? How is it that no value is attached to virginity and premarital sex-relations are not only looked upon with disfavour but are actually quietly promoted? At the face of it this looks strange and no reply for these questions are forthcoming from the leaders of the tribal societies. Therefore, the answers have to be found in the anthropological literature.

Turning over the pages of this literature, we find that not only in India but among many primitive tribes all over the world, the possession of virginity has not always been something to boast of or regarded as being of great value. Among many primitive tribes, the woman who is the possessor of an intact hymen is not wanted as a bride. In this connection George Ryley Scott[8] in his book, "Curious Customs of Sex and Marriage" has stated as follows: "Ignorance and superstitution, which invariably go hand in hand, were and are the causes of this view point. The belief in the pernicious effects of menstrual blood, a belief that persists in many quarters even now, was universal in the early days of civilization as well as among sevage tribes, and the common failure to differentiate between the blood accompanying defloration and the menstrual discharge, led to the belief that defloration itself was injurious to the male. Among these races, in particular where it was considered that such bleeding was due to the presence of, or an attack by, any evil spirit, the risk of intercourse resulting in grave danger, or even death, to the male partner, as a consequence of contact with the female's blood, was ever present. Because of these beliefs, it is unrestandable that a man preferred to take as his wife a female who had already lost her virginity and it may be imagined that, in many cases, the precise manner in which defloration has occurred was, from his point of view, of little moment. Even in those tribes where promiscuity was frowned upon, the bride-groom was nonetheless averse to running the risk which was thought to be connected with defloration."

It is significant to note that the chelik and his motiari must not co-habit in the Ghotul but outside in some secluded spot. The chelik may, however, pair off only with a motiari who is of akomama clan whom he could marry legally.

To sum up, the importance of the Ghotul in Muria life is that it teaches the young boys and girls the way of corporate existence and removes jealousy and sense of ownership. The girls learn the ways of keeping a house clean and how best to serve the society. It is truly an institution based on the principle of "one for all and all for one".
