PREFACE

More elaborate economic data have been collected and tabulated in 1961 than in any previous Indian Census. The population has been divided into workers and non-workers. The workers have been classified according to the nine industrial categories adopted for the Census which have further been classified by broad age groups, educational levels and according to the major and minor groups of the Indian Standard Industrial Classification. Persons at work other than in cultivation have been classified according to divisions, groups and families of the occupational classification and workers in broad occupational divisions in urban areas have been further classified by broad age groups and educational levels. Persons who are engaged in more than one work and working principally as (1) cultivators, (2) agricultural labourers or (3) at household industry have been cross-classified by the secondary work if it is (1) at household industry, (2) at cultivation or (3) agricultural labour. Further, persons who are engaged in non-household industry, trade, business, profession or service and also in household industry have been cross-classified according to their non-household industry and household industry. Workers in cities, towns and towngroups have been classified according to the nine industrial categories and by broad age groups. The non-workers have been divided by broad age groups and type of activity. Among the non-workers persons unemployed aged 15 and above have been classified by broad age groups and educational levels

For all-India the figures are given for India, zones and States and for States figures are given for State, division and district.

In the case of all-India there will be three sub-parts. In the case of most of the States there will be only one part but in the case of big States this part may be split up into two sub-parts. The introduction at the beginning of each table in the fly-leaf should be helpful in the study of the data which have been presented here.

I would like to convey my warm thanks to Shri Asok Mitra, ICS, Registrar-General, India. It is entirely because of his keen interest that these publications are containing such a variety of information.

ACKNOWLEDGEMENTS

It is a very pleasant task to offer my acknowledgements to my colleagues here who put in hard work to complete this book. There are several hundreds of Government servants who had also helped us in collecting the material at the initial stages. Then there were officials appointed here for a short while who carried out tabulation work. My gratitudes to them. A deep gratitude I do sincerely offer to Shri Asok Mitra, ICS, Registrar General, India who gave us every possible guidance and help. Shri D. Natarajan, Deputy Registrar General India has always been very helpful to us in his own unassuming ways. I convey my gratitude to him. Shri K. D. Ballal, Central Tabulation Officer very carefully scrutinised accuracy of the tables and suggested improvements wherever they were necessary.

Durga Singh, Office Superintendent here has been a great asset to me from the very beginning. He has been associated with me in this organisation so closely for about 5 years, and has put in hard work in preparing this volume. Other colleagues of mine who helped me in preparing portions of this Report are:—

1. Het Ram Gupta, Tabulation Officer.
2. S. S. Sarwal, Statistical Assistant.
3. S. P. Shabi, Statistical Assistant.
4. Bishan Dass Sharma, Statistical Assistant.
5. R. C. Sharma, Statistical Assistant.
6. H. S. Verma, Statistical Assistant.

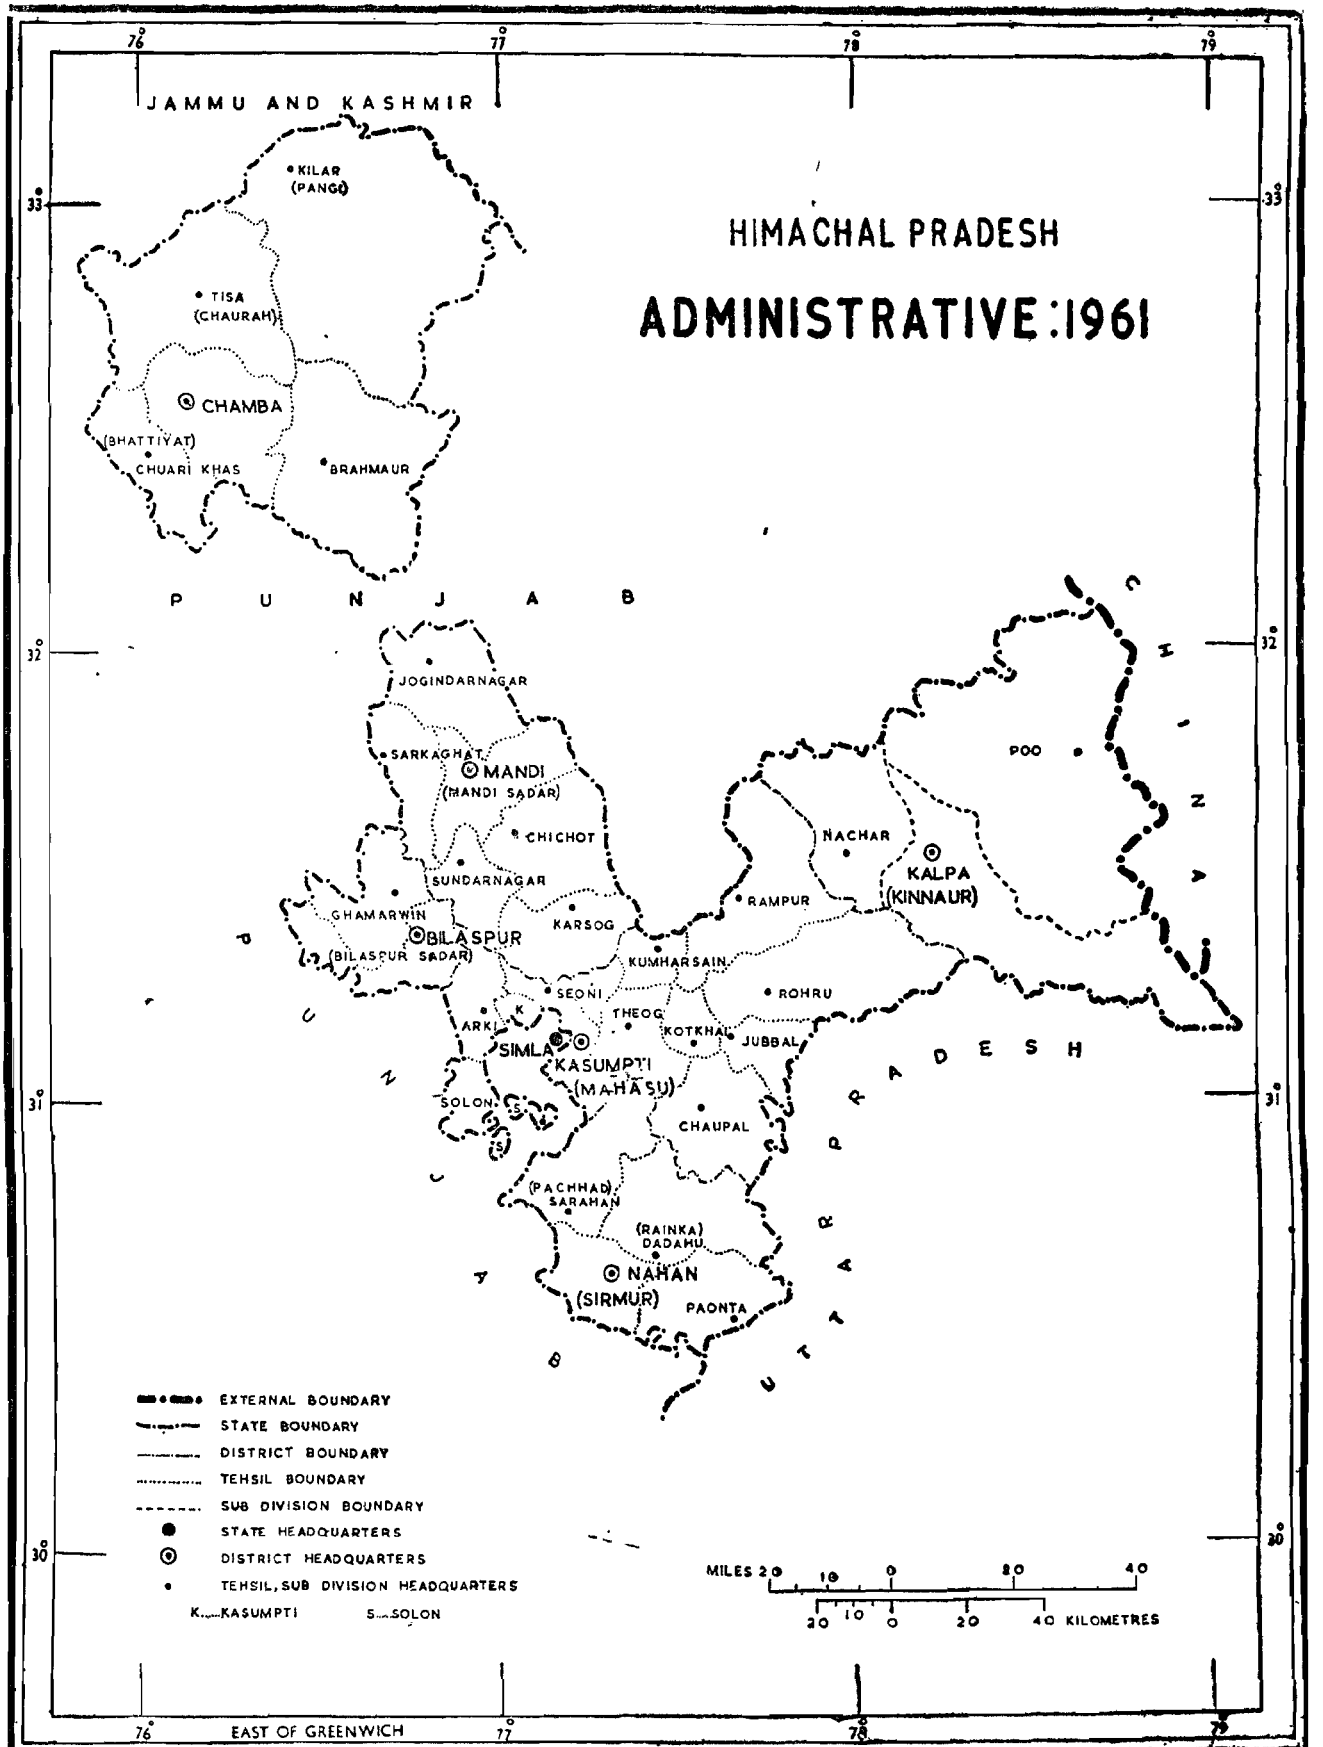

The proofs have been carefully and patiently read by O. N. Bhutani, P. N. Sharma, Om Parkash and Karam Chand. I would like to convey my gratitude to them.

A final word of thanks to Shri Ramachandran, Manager and Shri N. K. Mudaliar, Asstt. Manager (T), Government of India Press, for their patience and interest in dealing with us and our material.

Census Count 1961

The 1961 Census started in Himachal Pradesh from 10th of February and ended at sun rise of 1st March, 1961. The census in the snowbound areas took place earlier in September-November, 1960.

The census was taken on the *dejure canvasser* method. The Enumerator called at every household or on every human being and counted each individual. Returns were recorded in prescribed individual slips and household schedules. A sample of the individual slip relevant to this report—Part II-B Economic Tables, is reproduced on the next page.

In the individual slip essential demographic data like relationship to Head of household, sex, age, marital status and birth place and social and cultural data like nationality, religion, literacy and mother tongue were collected *besides economic data like occupation, industry, class of worker and activity, if not working, which forms the basic subject matter of this census report Part II-B.*

Economic Questions on Individual Slip

Five economic questions, of course with a number of supplementaries, were put to every individual. The questions may be seen in the individual slip at Nos. 8 to 12. On the basis of these questions and the entries recorded for them, Economic Tables have been prepared. The instructions to the enumerator on the mode of recording the entries were:

INSTRUCTIONS

"*Qs.* 8 to 11 *Working*—These questions apply only to workers. A person who is working may be working as a Cultivator, as an Agricultural Labourer, at a Household Industry or may be doing any other work. You have to record the answer in questions 8, 9, 10 and 11 according as the person is working as a Cultivator or as an Agricultural Labourer or at Household Industry or doing any other work. He may be engaged in only one of the above four categories or in more than one. Thus a person can be working both as a Cultivator and an Agricultural Labourer, in which case he should be entered both in Q. 8 and Q. 9. Or, he may be working both as Cultivator and at Household Industry in which case he will be entered in Q. 8 and Q. 10. Or, he may be working in any possible combination of 8, 9, 10 and 11, in which case he will be entered in the appropriate places. Or, he may be doing just one kind of work in which case he will be entered in only one of the four Questions 8 to 11.

Detailed instructions as to how the answers should be recorded in the individual questions are given against those questions below. You should carefully study them before recording the answers. For an undertrial prisoner enumerated in a jail he should be recorded for the work or kinds of work he was doing before he was apprehended. Similarly, for a person temporarily in a hospital or similar institution he should be recorded for the kind of work he was doing before he was admitted into hospital or institution. But for a convict in a prison or for long term inmates of penal or charitable or mental institutions, the person's previous work should not be recorded but 'I' should be recorded in Q. 12 below.

The basis of work will be satisfied in the case of seasonal work like cultivation, livestock, dairying, household industry etc., if the person has had some regular work of more than one hour a day throughout the greater part of the working season. In the case of regular employment in any trade, profession, service, business or commerce the basis of work will be satisfied if the person was employed during any of the fifteen days preceding the day on which you visited the household. If on the check or revisional round such a person is found to be unemployed no change in the original entry should be made. A person who is working but was absent from his work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other cause should be treated as *worker.* A person who has been offered work but has not actually joined should be treated as *non-worker. Work includes not only actual work but effective supervision and direction of work.*

Persons under training as apprentices with or without stipend or wages will be regarded as working.

work to augment the family's resources should not be considered as working for purposes of this question. If, however, in addition to her household work she engages herself in work such as rice pounding for sale or wages, or in domestic services for wages for others or minding cattle or selling firewood or making and selling cowdung cakes or grass etc., or any such work she should be treated as a worker.

Persons like beggars, pensioners, agricultural or non-agricultural, royalty, rent or dividend receivers, who may be earning an income but who are not participating in any productive work should not be treated as working unless they also work in cultivation, industry, trade, profession, business or commerce.

A public or social service worker who is actively engaged in public service activity or a political worker who is also actively engaged in furthering the political activity of his party will be regarded as a worker and entered fully in Q. 11.

After you have filled up the answers to questions 8 to 11 if you find that in the case of any person more than one productive activity has been recorded, *i.e.*, more than one of the questions 8, 9, 10 or 11, has been filled up by some work you should ask him which one of the activities that has been recorded for him is his principal work. The principal work is the one on which the person spends most time. Put a ring round the number of the question 8, 9, 10 or 11, according to the work on which the person says he spends most time. You should invariably ask for the principal work where more than one work is recorded and put a ring round the question relating to the principal work.

It may be that in a few cases you find that you have recorded more than two productive activities in questions 8 to 11, *i.e.*, more than two of the questions, 8 to 11 would have been filled up by some work. In such cases you should first ascertain the principal work *i.e.*, the one on which the person spends most time and put a ring round the number of the question. You should then ascertain the work which is the next in importance to his principal work *i.e.*, the work after his principal work which occupies most time. You should put a tick against the question number of that work on the left hand side of the question number. The ring and the tick should be put clearly so that any difficulty will not be felt to recognise them clearly.

The following classification illustrates as to which answers should be entered under Q. 8 and which others under Q. 11.

Under Q. 8: Cultivation involving ploughing, sowing and harvesting—1. Production of cereal crops (including Bengal gram), such as rice, wheat, *jowar, bajra,* maize, roots and tubers like potato, yam, beet etc., sugarcane etc.

2. Production of pulses, such as *arhar, moong, masur, urd, khesari,* other gram.

3. Production of raw jute and kindred fibre crops.

4. Production of raw cotton and kindred fibre crops.

Under Q. 11—Other Field Produce, Plantation Crops.

A. *Other Field Produce*—1. Production of other crops including vegetables not covered in Q. 8.

2. Production of fruits and nuts in plantations, vines and orchards (like cocoanut, arecanut etc.).

3. Production of wood, bamboo, cane reeds, thatching grass etc.

4. Production of juice by tapping palms.

5. Production of other agricultural produce (including fruits and nuts not covered by sl. no. 2 and flowers) not covered above.

B. *Plantation Crops*—1. Production of tea in plantation.

2. Production of coffee in plantation.

3. Production of rubber in plantation.

4. Production of tobacco in plantation (does not include tobacco which is cultivated in rotation with other cereal crops, in which case it would go under cultivation).

5. Production of *ganja,* cinchona, opium, poppy, saffron etc.

6. Production of other plantation crops not covered above.

Q. 8 Working as Cultivator—For a person working as cultivator write C. For a person not working as cultivator and for a person not working at all put 'X'.

For purposes of the census a person is working as cultivator if he or she is engaged either as employer, single worker or family worker in (a) cultivation of land or supervision or direction of cultivation of land owned or held from Government and (b) cultivation of land or supervision or direction of cultivation of land held from private persons or institutions for payment in money, kind or share.

Cultivation involves ploughing, sowing and harvesting and does not include fruit growing or keeping orchards or groves or working for plantations like tea, coffee, rubber, cinchona and other medicinal plantations. Persons engaged in fruit growing or orchardry or plantations like tea, coffee, rubber, cinchona and other medicinal plantations should be entered in Q. 10 or Q. 11 as the case may be.

A person who has given out his land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, will not be treated as working as cultivator. Similarly, a person working in another person's land only as a labourer and has no right or lease or contract on land on which he works, nor is responsible for taking decisions as to which crops to sow and when, or taking the risks of cultivation and is paid for wages in cash, kind or share such as share of the produce (agricultural labourer) will not be treated as cultivator in this question.

Q. 9. Working as Agricultural Labourer—Write 'AL' for a person working as agricultural labourer, *i.e.*, a person who works in another person's land only as a labourer without excercising any supervision or direction in cultivation, for wages in cash, kind or share such as share of produce. For others put 'X'. The labourer should have no right or lease or contract on land on which he works, nor should he be responsible for taking decision as to which crops to sow and when, or taking the risks of cultivation. A share of the produce goes to him only as wages. He should have been working as Agricultural Labourer in the last or current cultivating season.

Qs. 10(a) & 10(b) Household Industry—If a person is working in a Household Industry write (1) the nature of work done by him in the Household Industry against question 10(a) and (2) the nature of the Household Industry against question 10(b). Otherwise put 'X' in both questions 10(a) and 10(b). A Household Industry is defined as an industry conducted by the Head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of a registered factory. Thus the main criterion for a Household Industry is the participation of one or more members of a household in rural areas. In the urban areas the industry should be confined to the house. You should carefully keep in mind the definition of Household Industry in the rural area if you are enumerating a rural area and the definition in the urban area if you are enumerating an urban area.

A Household Industry should relate to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as pleader or doctor or barber or waterman or astrologer.

A person though he may not be working in his own Household Industry may be working as a paid employee in another Household Industry. You should, therefore, enquire whether the person who is not working in his own Household Industry is working in any other Household Industry and if so, write the nature of the work done by him against question 10(a) and the nature of the household industry against 10(b).

Q. 10(c) If Employee in Household Industry—This question will be filled up only for a person who is working as a paid employee in another person's Household Industry. In his or her case write 'E.E.' For all others put 'X'.

The following examples will illustrate how questions 10(a) to 10(c) should be filled up for persons working at Household Industry:

Q. 10—Working at Household Industry

(a) Nature of work	(b) Nature of Household Industry	(c) If Employed
1. Spinning yarn	Spinning yarn in *Ambar Charkha*	X
2. Dyeing and printing yarn	Handloom weaving	X
3. Thrashing and cleaning grain	Flour making *chakki*	X
4. Labourer employed for crushing oil	Oil *ghani*	E.E.
5. Tempering and polishing implements	Blacksmithy making agricultural implements	X
6. Labourer employed for making and firing kiln	Earthenware pottery	E.E.
7. Throwing and Turning pottery	Earthenware pottery	X
8. Making wooden doors and windows	Carpentry	X
9. Filling gold Ornaments with lac	Goldsmithy	X

(a) Nature of work	(b) Nature of Household Industry	(c) If Employed
10. Labourer working hosiery machine	Hosiery	E.E.
11. Keeping accounts	Hosiery	X
12. Polishing and Scraping metal	Electroplating	X
13. Labourer employed for putting iron hoop on cartwheels	Cartwheelwright	E.E.
14. Repairing of guns	Gunsmithy	X
15. Bee Keeping	Production of honey	X
16. Tending cattle	Livestock raising	X

Q. 11 *Doing Work other than* 8, 9 *or* 10—If a worker is not working as a Cultivator or as an Agricultural Labourer or at any Household Industry write the actual work he is doing. If a person is working as a Cultivator or as an Agricultural Labourer or at Household Industry and also does some other work (including dairying or livestock raising, orchard or plantation etc., as distinct from cultivation of crops) which does not relate to any of the above categories, write the other work he does in this question. If he is engaged in more than one work and neither of them relates to any of the three categories mentioned above write here the work on which he devotes more time.

In the case of persons not working or who work only as Cultivator or as Agricultural Labourer or at Household Industry, put 'X'.

Q. 11(*a*) *Nature of Work*—Describe fully the nature of the work done by the person himself. Full and precise information as to the nature of work done by the person should be given either in the vernacular or in English or in vernacular transliteration of English. At previous censuses much trouble has been caused by inadequate answers, and if you do not succeed in obtaining satisfactory information on the individual slips, you will be required to make a further visit for that purpose.

In the case of a person who is working and the nature of whose own work has been recorded in Question 11(a), you should write here the nature of industry, business, trade, profession or service in which the person works.

Q. 11(*b*) *Industry, Business, Trade, Profession or Service*—As in the case of Question 11(a), you should describe in detail the nature of industry, business, trade, profession or service in which the person works. Vague answers should be avoided. In the case of industries, the articles which are produced or serviced or repaired, should be given. If more than one article is produced the chief article produced or serviced or repaired should be given. In the case of business or trade the principal article of trade should be described. In the case of service described the nature of the service to which the person's work belongs. The description should be such that it would be possible to classify the establishment in which the person is working for purposes of industrial classification of the population. The description should be either in the vernacular or in English or in vernacular transliteration of English.

In the case of a person for whom an 'X' is put in Question 11(a), put an 'X' in this question also.

Important points to remember in Questions 11(*a*) and 11(*b*)—1. Women or children who help with work, such as rice pounding or doing domestic service for wages or minding cattle or selling firewood or making and selling cowdung cakes, grass, etc., should be described fully even if they work part-time. *In the case of married or grown-up women who do any of the work mentioned above in addition to the usual household duties such work should be fully described and 'HW' written in brackets after the full description.*

2. If a person makes the articles he sells, he should be entered as maker and seller of them.

3. Wherever convenient, for complete description, the work should be expressed by the vernacular name by which it is known.

4. The following are too vague and must not be used by themselves:

Scientist, technician, civil servant, clerk, engineer, inspector, checker, foreman, overseer, supervisor, labourer, machinist, assistant, contractor, polisher.

5. *Labourers*—For an unskilled labourer usually employed on one sort of work alone,

give also the sort of work done, *e.g.*, railway porter, market or bazar porter, labourer employed on road digging, brick-layer's labourer. If accustomed to work on various jobs, write general labourer.

6. *Machine Operators*—Always state the kind of machine giving its recognized name, if any.

7. *Shop-keepers, Retail dealers, Shop Assistants*—If wholly or mainly engaged in selling, write, 'Dealer' (if principal) or, 'Shop Assistant' or 'Salesman' (if assisting) and state whether the business is wholesale or retail or both. For shop assistants and salesmen in stores with several departments, state the particular department in which engaged (*e.g.*, Ship and Railway Parts, Fans and Sewing Machines, Grocers and Confectioners).

8. *Transport Workers*—Describe fully the nature of the transport, *e.g.*, air transport, rail transport, transport by motor car or motor cycle, or vehicles drawn by horse, etc.

9. *Services*—For a person engaged in the Defence Services write 'Service of Central Government'.

10. If the job is known in the trade of industry by a special name use that name. Managers, Foreman, etc., should be given the department/branch wherever applicable *e.g.*, Sales Manager or a Manager of Hardware Department, Machine Shop Foreman or Boiler Room Foreman, etc. The following terms are insufficient by themselves:—

> Manufacturer, merchant, agent, broker, refractor, dealer, engineer and iron works, etc.

11. *Domestic services*—In the case of any private servant *e.g.*, a cook or domestic servant, write only 'private cook or domestic servant'. There is no industry in his case but in the case of persons employed in hostels, restaurants, boarding houses, institutions, etc., the words hotel, restaurant, etc., should be added.

For persons in the employ of Firms carrying on two or more business, if the businesses are carried on in separate premises then the business carried on at the premises in which the person is employed should be given. If the businesses are carried on in the same premises but each has a separate organisation (*i.e.*, they have separate records of employment, production, etc.) then the appropriate business should be quoted. If, however, the two activities are carried on side by side then the major activity of the firm or establishment should be given.

12. *Commerce*—Special care should be taken to see that the distinction between retail and wholesale business is clear. As in industries, the goods handled should be clearly indicated.

Q. 11(c) *Class of Worker*—For a person who is:

1. an *Employer*, that is, who hires one or more persons in his work described in Q. 11(a)—write MR.
2. an *Employee*, that is, who does his work described in Q. 11(a) under others for wages or salary in cash or kind—write EE.
3. a *Single Worker*, that is, who is doing his work described in Q. 11(a) without employing others, except casually and without the help of other members of the family except casually. This will include workers working as members of co-operatives—write SW.
4. a *Family Worker*, that is, who is doing his work described in Q. 11(a) in own family without wages or salary in cash or kind—write FW.

For a person for whom an 'X' is put in Qs. 11(a) and 11(b) put an 'X' in this question also.

Explanation

(i) An *Employer* is a person who has to employ other persons in order to perform the work entered in Q. 11(a). That is to say, such a person is not only responsible for his own personal work but also for giving work to others in the business mentioned in Q. 11(a). But a person who employs domestic servants for household duties or has subordinates under him in an office where he is employed by others, is not an employer, even if he has the power to employ another person in his office on behalf of his own employer or employers.

(ii) An *Employee* is a person who usually works under some other person for salary or wages in cash or kind. There may be persons who are employed as managers, superintendents, agents, etc., and in that capacity employ or control other workers on behalf of their own employers. Such persons are only employees, as explained above, and should not be regarded as employers.

(iii) A *Single Worker* for the purpose of Q. 11(c) is a person who works by himself but not as Head of household in a Household Industry. He is not employed by any one else and in his turn does not employ anybody else not even members of his household except casually. This definition of a *Single Worker* will include a person who works in joint partnership with one or several persons hiring no employees, and also a member of a producers' co-operative. Each one of the partners or members of such producers' co-operatives should be recorded as 'Single Worker'.

(iv) *Family Worker* is a member who works, without receiving wages in cash or kind, in an industry, business or trade conducted mainly by members of the family and ordinarily does at least one hour of work everyday during the working season. For the purpose of the entire Q. 11, such an industry should be on a scale larger than what has been covered in 'Household Industry' in Q. 10 whether run at home or away from home in town or village and even away from village in rural area and should ordinarily be in the nature of a recognised partnership, joint stock company or registered factory. For the purpose of this definition members of a family may be drawn from beyond the limits of the household by ties of blood or marriage. The family worker may not be entitled to a share of the profits in the work of the business carried on either by the person or head of the household or other relative.

Members of the household who help solely in household duties should not be treated as family workers.

Q. 11(d) Name of Establishment—Describe in detail the name of the factory, workshop, business house, company, shop, etc. If a person has no fixed place of work, write 'No fixed place of work'.

For a person for whom an 'X' is put in Qs. 11(a), 11(b) and 11(c) put an 'X' in this question also.

The following examples will illustrate how Qs. 11(a) to 11(d) should be filled up for persons doing work other than 8, 9 or 10.

Q. 12 Activity, if not working—This question will apply to a person NOT working. Write 'X' in this question for a person who is working, that is, for whom you have recorded work in any of the questions 8 to 11 above.

The following activities should be recorded in the case of persons NOT working:

	Write
1. For a full-time student or child attending school who does no other work, such as make articles at home for sale, nor even help part-time in his own family cultivation, industry, trade or business	ST
2. For a person engaged in unpaid home duties (like house wife or other adult female) who does no other work, such as make articles at home for sale or wages, nor help regularly even part-time in family cultivation, industry, trade, business	HW
3. For any dependent, including an infant or child not attending school, a person permanently disabled from work because of illness or old age	D
4. For a retired person who is not employed again, rentier, person living an agricultural or non-agricultural royalty, rent or dividend or any other person of independent means for securing which he does not have to work and who does no other work	R
5. For a beggar, vagrant or independent woman without indication of source of income and others of unspecified source of existence	B
6. For a convict in jail (an undertrail prisoner will be shown as a worker if he used to work before he was apprehended) or an inmate of a penal, mental or charitable institution	I
7. For a person who has not been employed before but is seeking employment for the first time	NE
8. For person employed before but now out of employment and seeking employment	UN

Explanation

If a person, who does not work, is readily classified in any of the above categories, put him in category 5 and write 'B' in this question. A retired person who has taken up regular work again should not be entered in this question as he would have been entered for his new work in Questions 8 to 11.

A person who is not working but has been offered work which he has not joined should be included in item 3 and 'D' should be written. He should not be included in items 7 or 8.

Economic Classification in the Past Censuses

Questions 8 to 12 of the individual slip in 1961 Census were framed to cover the economic characteristics of the person enumerated—activity, if working and activity, if not working. In other words, the 1961 Census population for economic classification has been divided into (1) Workers and (2) Non-workers. Before 1961, economic classification was done in the past census in terms of categories like economically independent or economically dependent, semi-dependent, earning dependent, or non-earning dependent. A chart comparing the economic census questionnaires of the past with the 1961 census is given below:

Chart comparing the census questionnaires prescribed for enumeration in Indian Censuses from 1901 to 1961

1901 (Census Schedule)	1911 (Census Schedule)	1921 (Census Schedule)	1931 (Census Schedule)
9. & 10. Occupation of Means or subsistence of actual workers	9. & 10. Occupation or Means of subsistence of actual workers	9. Principal Occupation of actual workers	9. Earner or dependent
9. Principal	9. Principal Occupation	10. Subsidiary Occupation of actual workers	10. Principal Occupation
10. Subsidiary	10. Subsidiary Occupation, if any	11. Means of subsistence of dependants	11. Subsidiary Occupation
11. Means of subsistence of Dependents on Actual workers	11. If dependant, principal occupation or means of subsistence of actual worker on whom dependant		12. Industry in which employed

1941 (Individual Slip)	1951 (Individual Slip)	1961 (Individual Slip)
9. Wholly or partly dependant	9. Economic Status Part One. Dependency	8. Working as cultivator
10. Means of livelihood of persons on whom dependant	Part Two, Employment	9. Working as Agricultural labourer
11. Paid assistants employed, etc.	10. Principal means of livelihood	10. Working at Household Industry (a) Nature of work (b) Nature of Household Industry (c) If Employee
12. In employment or not	11. Secondary means of livelihood	
13. Search of employment		11. Doing work other than 8, 9 or 10 (a) Nature of work (b) Nature of Industry, Business, Trade, Profession or Service (c) Class of worker (d) Name of Establishment
14. Means of livelihood		
15. Proportion of year in which means of livelihood is exercised		
16. Nature of employer's business		12. Activity, if not working

From the chart it is clear that in the 1901 to 1921 Censuses there were three questions on occupation; two questions were on the principal and subsidiary occupation of actual workers and the third question was for recording in the case of dependents the occupation of the persons on whom they were dependent. In all these Censuses the term

'actual worker' included persons who were receiving income without doing work such as rentiers, etc.

In the 1931 Census instead of the actual workers the term 'earner' was used. The population was classified into earners and dependents. Among the dependents a distinction was made between 'working dependents'. Though dependent nevertheless they worked and had an occupation, and other dependents who did not do any work and had no occupation. The principal occupation was recorded in the case of an earner as well as a dependent. It was the actual occupation in the case of the earner and the occupation of the person on whom he was dependent in the case of a dependent. In the column relating to subsidiary occupation, any other occupation apart from the principal occupation of an earner as well as the actual occupation of the working dependent was recorded. There was a question on industry in the 1931 Census.

In the 1941 Census there were eight economic questions. At the outset the population was divided into three categories, viz., wholly dependent, partly dependent and independent. The concept of occupation or means of subsistence was adopted but the term 'occupation' was dropped and only 'means of livelihood' was used. In the case of persons who were wholly or partly dependent the means of livelihood of the person on whom they were dependent was recorded. In the case of persons who were not dependent either wholly or partly, their own means of livelihood was recorded. In addition to the recording of these primary economic data there were questions on paid assistants employed, unemployment, search for employment, seasonal employment and industry.

In the 1951 Census the concepts adopted were the same as in the 1941 Census, the terms used being self-supporting, earning dependent and non-earning dependent, corresponding to the independent, partly dependent and wholly dependent of the 1941 Census. In the case of self-supporting persons their means of livelihood was recorded. Provision was made for the recording of a principal and secondary means of livelihood. In the case of earning dependents the means of livelihood of the person on whom they were dependent was recorded under principal means of livelihood and their own means of livelihood under secondary means of livelihood. In the case of non-earning dependents, the means of livelihood of the person on whom they were dependent was recorded under the principal means of livelihood.

In the 1961 Census a worker was to be recorded as working as cultivator, or as agricultural labourer or at household industry or doing any other work according to his vocation. If he was working at more than one of the above categories, he was so recorded. In the case of a person working at household industry, the nature of his work, the nature of the household industry and whether he was an employee was also recorded. In the case of a person who was doing other work than as cultivator or as agricultural labourer or at household industry, the nature of his work, the nature of industry, profession, trade or service in which he was employed was recorded. In addition, whether he was an employer, employee, single worker or family worker was recorded. The name of the establishment in which he was working was also recorded. In the case of those who were not working, their activities were returned under the eight categories specified in the instruction laid down for Q. 12.

For economic classification of the population, the emphasis was laid on work. All those who worked, even if a worker derived no income for himself, such as an apprentice without stipend or wages, were workers. Exception was made for an adult woman who was engaged in household duties but doing no other productive work to augment the family resources. Even part-time workers such as women or children, who were engaged in work, such as rice pounding for sale or wages, or in domestic services for wages for others or minding cattle or selling fire wood or making and selling cowdung cakes or grass etc., or any such work, were treated as workers. Work included not only actual work but effective supervision and direction of work. Though a person was deriving an income, but doing no productive work, such as a retired person receiving a pension and not employed again, or a rentier or a person living on agricultural or non-agricultural royalty, rent or dividend for securing which he did not have to work and who did no other work, was a non-worker.

All the working population engaged in any branch of productive work are primarily termed as 'Workers' and all others not engaged in any productive work were treated as 'Non-worker' in 1961 Census econo-

mic classification. The 'Workers' have further been classified into nine broad categories, about which a detailed reference will be found in Table B-I. The categories of 'Non-workers' have been referred to already.

The data collected in response to the economic questions in 1961 Census has been tabulated in the following Economic Tables: In the data collected in the case of any person more than one/two productive activity/activities or work/works could have been recorded. In such cases his principal and secondary works were clearly recorded with the help of significant symbols. The principal work was the one on which he spent the most time and the secondary work was the next importance to his principal work. In all such cases, the principal works have been taken into account for the Tables. Table B-VII also gives account of secondary works.

Industrial and Occupational Classification

The scope of each of the 1961 Census Economic Tables has been explained in the fly leaf that precedes each Table. A note-worthy feature is the adoption of the systematic classification of industries and occupations. Each economically active person engaged in productive work, has been industrially and occupationally classified according to the nature of industry in which he is working and by nature of work (occupation) he is doing in that industry. The Indian Standard Industrial Classification (I.S.I.C.) has been adopted for classification of the industries and the National Classification of Occupations (N.C.O) has been adopted for the classification of occupations. The description of the Divisions, Major Groups and Minor Groups of I.S.I.C. has been given in the fly leaf to Table B-IV Part B, and the description of Occupational Divisions, Groups and Families of N.C.O. has been reproduced in the fly leaf to Table B-V.

It may be mentioned here that according to 1961 Census Tabulation Plan there are 17 'B' Series Tables (B-I to B-XVII). Tables B-I to B-IX compiled on the basis of data collected in the individual slips, are styled and printed as Part II-B, Economic Tables in the present publication. The Tables B-X to B-XVII prepared from another census schedule called the "Household Schedule" will be printed as a separate publication—Part III—Household Economic Tables. They relate to land under cultivation by households and household industries. In the first publication—Part II-B, the individuals—the population are the subject of economic classifications and in the later—Part III, the households.

Coverage

The data in the Economic Tables, except for Table B-II, has been presented for administrative divisions upto the district level that existed at the time of taking the census. This is for the rural and urban areas separately. In the Table B-II the presentation is for each town separately, arranged district-wise. The administrative divisions are listed below, as also the towns. A map of Himachal Pradesh showing the administrative divisions has been printed in this publication facing the preface page.

Definitions

Workers—All the working individuals—population engaged in any branch of productive work were reckoned as 'Workers'. Work included not only actual work but effective supervision and direction of work. The instructions reproduced earlier against 'Qs. 8 to 11 Working' in the 'Introduction' to this Report may be referred to grasp fully the concept of 'Workers', and 'Non-workers'.

Non-workers—All those persons who were not engaged in any productive activity were treated as 'Non-workers' in the light of instructions prescribed in reference to "Q. 12 Activity, if Not Working" of the Individual Slip.

Sex—Males (M) and Females (F). Eunuchs and hermaphrodites were counted as Males (M).

Age—Age in years completed last birthday was recorded for every individual enumerated during the census count. For infants below one year of age '0' was recorded.

Scope of the Table B-I

This is the basic Economic Table. In it the distribution of the 1961 total population of Himachal Pradesh into 'Workers' and 'Non-workers', by sex, according to the four broad age-groups, *viz.*, '0—14', '15—34', '35—59' and '60+' for total, rural and urban areas upto district level separately, has been shown. The broad age-groups, into which the distribution of the 'Workers' and 'Non-workers' has been shown, are of special import, particularly *with reference to 'Workers'. The age-groups* correspond to different stages of life—'0—14 =children'. '15—34=young persons', '35—59 =middle-aged persons' and '60+ =elderly persons'. The capacity and capability of 'Workers' in these different stages of life can be different.

Workers Classified into nine broad Categories

The economic classification of the 1961 Census population is based on the Indian Standard Industrial Classification and the National Classification of Occupation, adopted by the Government of India. The industrial classification of the workers according to the different sectors of economic activities with which they are connected and the occupational classifications according to exact functions performed in those sectors of economic activities are presented in different tables. The present Table B-I relates to the broad industrial categorisation of the workers. They have been classified or grouped into the following nine broad industrial categories.

Workers' Broad Industrial Categories		Indian Standard Industrial Classifications Division related to the Broad Industrial Categories
	1	2
I	Workers As Cultivators	Division 0
II	Workers As Agricultural Labourers . . .	Division 0
III	Workers In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities	Divisions 0 and 1
IV	Workers At Household Industry . . .	Divisions 0, 1, 2 and 3, provided the work is carried on a Household Industry basis.
V	Workers In Manufacturing other than Household Industry	Divisions 2 and 3
VI	Workers In Construction	Division 4
VII	Workers In Trade and Commerce . . .	Division 6
VIII	Workers In Transport, Storage and Communication	Division 7
IX	Workers In Other Services	Divisions 5, 8 and 9

It will be observed from the categorisation of workers that many of the I.S.I.C. Divisions related to more than one category of workers. The brief description of each of the nine categories that follow will explain what each category covers.

Category I As Cultivator—Question 8 of the Individual Slip and the relevant instructions already reproduced earlier, may be referred to. This category includes cultivators of land. A person was considered working as a cultivator if engaged as employer, single worker, or family worker in (a) cultivation of land or supervision or direction of cultivation of land owned or held from Government and (b) cultivation of land or supervision or direction of cultivation of land held from private persons or institutions for payment in money, kind or share.

Points of significance to note are that—

(i) an agricultural labourer was not a cultivator (see category II below);

(ii) a person engaged in fruit growing or orchardry or plantations like tea, coffee, rubber, cinchona and other medicinal plantations was not a cultivator.

(iii) a person who had given out his land to another person or persons for cultivation for money, kind or share of crop and who did not even supervise or direct cultivation of land, was not a cultivator.

Category II As Agricultural Labourer—Question 9 of the Individual Slip and the relevant instructions thereof refer. This category includes all those persons who worked in another person's land only as labourers without exercising any supervision or direction in cultivation, for wages in cash, kind or share such as share of produce.

NOTE:—*Particulars of 'Workers' classified into categories III and V to IX were recorded against Q.* 11 *in the Individual Slips. The relevant instructions therefor reproduced earlier may be referred.*

Category III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting & Plantations, Orchards & Allied activities:—This category includes:—

(i) persons working in mining and quarrying but not on the basis of household industry basis (see Category IV below);

(ii) persons engaged in the economic activity of livestock and hunting not on the basis of household industry basis;

(iii) persons engaged in the economic activity of forestry and fishing not on the basis of household industry basis; and

(iv) persons engaged in plantation of crops, fruit growing or orchardry and allied activities not on household industry basis.

Category IV At Household Industry:—Question 10 of the Individual Slip and the relevant instructions thereof refer:

A household industry was not to be on the scale of registered factory. It should have been conducted by the Head of the household himself and/or mainly member of the household at home or within the village in rural areas and only at home in urban areas. Main criterion for a household industry was the participation of one or more members of a household in rural areas. In the urban areas the industry should have been confined to the house. A household industry related to production, processing, servicing, repairing or making and selling of goods. It did not include professions such as pleader or doctor or barber or waterman or astrologer. Persons working at household industry, as defined above, are classified in this category of workers.

Persons not working in their own household industries but working as paid employees in another person's household industry are also included in this category IV.

Category V In Manufacturing other than Household Industry—Persons working in the registered factories are included in this category. It includes all persons engaged in processing, manufacture and repairing not included in category IV.

Category VI In Construction—All persons engaged in construction and maintenance of buildings including erection, flooring, decorative construction, electrical and sanitary installations are included in this category. This includes persons engaged in construction and maintenance of roads, railways, bridges, tunnels, telegraph & telephone lines, water ways & water reservoirs such as bund, embankments, dam, canal, tank, tubewells, wells.

Category VII In Trade and Commerce—All persons engaged or employed in trade—retail or wholesale are included in this category. It includes persons employed or engaged in other commercial activities like importing and exporting of goods and commodities, stocks, shares, insurance, money lending, banking and similar type of financial operations, auctioneering, distribution of motion pictures, and all other activities connected with trade and commerce, including hiring out of durable goods such as electric fans, microphone, rickshaw etc.

Category VIII In Transport, Storage and Communications—All persons engaged or employed in any form or mode of transport, storage and warehousing activities, and communications such as postal, telegraphic, wireless, signal, telephone, information and broadcasting are included in this category.

Category IX In Other Services—Persons employed in electricity, gas, water and sanitary services, public services, educational and scientific services, medical and health services, religious and welfare services, legal services, business services, community services and trade and labour associations, recreation services, personal services, services not elsewhere classified, and in activities not adequately described, are included in this category. Generally labourers, accustomed to work on various miscellaneous jobs, are classed in this category.

Economic Classification in the basic Economic Tables in the present and past Censuses—Comparative Study.

In 1961, Census, for economic classification, the population has been classed or distinguished fundamentally into 'Workers' and 'Non-Workers'. Before 1961, distinction was drawn between 'Economically independent' and 'Economically dependent'. An intermediate category of 'Working dependent' was introduced in 1931 Census, of 'Partly dependent' in 1941 Census, and of 'Earning dependent' in 1951 Census.

In 1961, each economically active person, *i.e.*, a worker engaged in productive work, has been industrially and occupationally classified according to the nature of industry in which he is working and by the nature of work (occupation) he is doing in that industry. The Indian Standard Industrial Classification (I.S.I.C.) has been adopted for the classification of industries and the National Classification of Occupations (N.C.O.) for the classification of occupations. In the basic economic Table B-I of 1961 Census, all the workers are classified into nine broad industrial categories.

In 1911, the occupations or means of livelihood were categorised into four main classes, which were sub-divided into 12 sub-classes, 55 orders and 169 occupational groups. In 1921 and 1931 the classes and the sub-classes remained the same but the number of orders and occupational groups varied. The four classes and sub-classes were as under:—

Class A—Production of Raw Materials.

Sub-Class I—Exploitation of the surface of the earth (1911).

Exploitation of animals and vegetation (1921, 1931).

Sub-Class II—Extraction of minerals.

Class B—Preparation and Supply of Material Substances.

Sub-Class III—Industry.

Sub-Class IV—Transport.

Sub-Class V—Trade.

Class C—Public Administration and Liberal Arts.

Sub-Class VI—Public force.

Sub-Class VII—Public administration.

Sub-Class VIII—Profession and liberal arts.

Sub-Class IX—Persons living on their incomes (1911, 1921).

Persons living principally on their income (1931).

Class D—Miscellaneous.

Sub-Class X—Domestic Service.

Sub-Class XI—Insufficiently described occupations.

Sub-Class XII—Unproductive.

In 1911 and 1921 the population was classed into two categories, for economics status viz., (i) actual workers, partial agriculturists amongst them and (ii) dependents. Accordingly the number of (i) actual workers, partial agriculturists amongst them, and (ii) the number of dependents was shown under each occupational groups, order, sub-class and class. Table XV—'Occupational or Means of Livelihood, Part A General Table' of 1911 and Table XVII—'Occupation or Means of Livelihood—General Table' of 1921 may be consulted for details.

In 1931, for economic status, population was classed into three categories viz., (i) earners (principal occupation), (ii) working dependents and (iii) non-working dependents. Accordingly the number of (i) earners (principal occupation), (ii) working dependents and (iii) non-working dependents was shown under each occupational groups, order, sub-class and class. Earners with subsidiary occupation were also classified under each of the occupational categories. Table X—'Occupation or Means of Livelihood—General Table' may be consulted for details.

In 1941, due to war, no tables were prepared.

In 1951, the population was basically classified into two broad categories, viz., Agricultural and the Non-Agricultural, with four livelihood classes under each of them as detailed below:—

AGRICULTURAL

Livelihood Class I—Cultivators of land, wholly or mainly owned and their dependants.

Livelihood Class II—Cultivators of land, wholly or mainly un-owned and their dependants.

Livelihood Class III—Cultivating labourers and their dependants.

Livelihood Class IV—Non-cultivating owners of land, agricultural rent receivers and their dependants.

NON-AGRICULTURAL

Livelihood Class V—Production other than cultivation—Persons (including dependants) who derive principal means of livelihood from.

Livelihood Class VI—Commerce—Persons (including dependants) who derive their principal means of livelihood from.

Livelihood Class VII—Transport—Persons (including dependants) who derive their principal means of livelihood from.

Livelihood Class VIII—Other services and miscellaneous sources—Persons (including dependants) who derive their means of livelihood from.

The economic status of the population in 1951 was determined by three concepts, viz., (i) self supporting persons, (ii) non-earning dependants and (iii) earning dependants. The distribution of the population on the bases of these three concepts under each of the livelihood classes was shown in the Economic Table B-I. The 'Indian Census Economic Classification Scheme', based on the 1931 Census Scheme of Occupation, however, with extensive revision and re-arrangements, was adopted for the classification of self-supporting persons of non-agriculturists classes in the Economic Table B-III.

In 1911 and 1921, the term 'actual worker' included all persons who actually did work or carried on business whether personally or by means of servants or who lived on house rent, pensions, etc. All other persons were treated as dependants. In 1931, 'the earners' were those who earned in cash or kind. The dependants had been classified as (i) 'working dependants' *i.e.*, those who had an occupation but did not earn an income in cash or kind and (ii) 'non-earning dependants', *i.e.*, those who did not work or had no occupation. In 1951, any person whose income, secured in cash or kind, sufficient at least for his/her own maintenance, was regarded as a 'self-supporting person'. Anyone who was not self-supporting in this sense had been regarded as a 'dependant'. A dependant who partly depended upon his earnings and partly on some one else, had been treated as an 'earning dependant', while those who totally depended upon the income of some one else, had been considered as 'non-earning dependant'. In 1961, the economic classification was based on 'work' and not on 'income' and work included not only actual work but effective supervision and direction of work. Any person engaged in any branch of productive work was considered 'worker', irrespective of the fact whether he derived an income or not, *e.g.*, an apprentice, the family worker. A person, even though deriving an income, but not engaged in any productive work was a 'non-worker', *e.g.*, a retired person who was receiving pension and who was not employed again, rentier, person living on agricultural or non-agricultural royalty, rent or dividend or any other person of independant means for securing which he did not have to work and who did no other work. Thus the economic division of the 1961 population is into 'workers' and 'non-workers'.

TABLE B-II

WORKERS AND NON-WORKERS IN CITIES, AND TOWN-GROUPS TOWNS ARRANGED TERRITORIALLY CLASSIFIED BY SEX AND BROAD AGE-GROUPS

FLY-LEAF

Definitions

For definitions of census terms, *viz.*, workers, non-workers, sex and age used in this table please see fly-leaf to Table B-I.

Cities and Town-Groups—Towns of population of 1,00,000 and above are known as cities. There are no cities and town-groups in Himachal Pradesh.

Towns—All localities which had local bodies at the time of taking 1961 Census were treated as towns. Jogindarnagar which had a local body in 1951 was also treated as a town although it does not have a local body now. Thirteen localities were termed as towns, 12 with local body administration and one without. The following abbreviations signify different types of local body administrations and any of them appearing against a town in the table shows its status as such at the time of taking the census.

(M.C.) = Municipal Committee.
(S.T.C.) = Small Town Committee.
(N.A.C.) = Notified Area Committee.

Scope of the Table B-II

The economic data, presented in the Table B-I for all urban areas as a whole in respect of Himachal Pradesh and each district, has been presented in the Table B-II for each of the urban localities separately. This table supplies basic data for classifying each town as industrial or commercial or residential.

TABLE B-III—PART A

INDUSTRIAL CLASSIFICATION OF WORKERS AND NON-WORKERS BY EDUCATIONAL LEVELS IN URBAN AREAS ONLY

FLY-LEAF

Definition

For definition of census terms, viz., workers and non-workers please refer to fly-leaf to Table B-I.

Educational Levels—In 1961 Census, a person who could neither read nor write or could merely read but could not write in any language was considered illiterate. A person who could both read and write with understanding was considered literate. For a person who could both read and write and had passed a written examination or examinations as proof of an educational standard attained, the highest examination passed had been recorded.

Scope of the Table B-III Part A

In this Table B-III Part A, the workers and non-workers of the urban areas have been classified by educational levels or standards. The illiterate workers and non-workers are there, but side by side detailed literacy and educational levels of the population in urban areas under the nine categories of workers and the non-workers have been shown.

The literates have been shown in two categories, (i) those without educational level and (ii) the others who have passed primary or junior basic examination or higher examinations. The former are those who can read and write with understanding and have not passed any written examination and those who have passed examination below that of primary or junior basic examination standard.

The present table may be compared with the Table D-VII of 1951 Census, when for the first time, the distribution of literates only by socio-economic groups and educational standards had been done. The educational levels adopted for classification in 1961 and the educational standards adopted in 1951 are given below for comparison.

TABLE B-III—PART B

INDUSTRIAL CLASSIFICATION OF WORKERS AND NON-WORKERS BY EDUCATIONAL LEVELS IN RURAL AREAS ONLY

FLY-LEAF

Definitions

Workers and Non-workers—For definitions see the fly-leaf to Table B-I.

Educational Levels—See definition in the fly-leaf to Table B-III Part A.

Scope of the Table B-III Part B

This Table B-III Part B relates to rural population only. It is akin to Table B-III Part A, except that the classification of rural workers and non-workers has been done only by the four categories of illiterates, literates (without educational level), primary or junior basic and matriculation and above.

TABLE B-IV—PART A

INDUSTRIAL CLASSIFICATION BY SEX AND CLASS OF WORKER OF PERSONS AT WORK AT HOUSEHOLD INDUSTRY

FLY-LEAF

General Remarks

The Table B-IV furnishes data about employment position in different fields of work other than cultivation according to 1961 Census. During enumeration, as will be observed from the Individual Slip (Enumeration Slip) reproduced in the Introduction of this report, two out of the five economic questions asked, *viz.*, Qs. 10 and 11 related to 'working at household industry' and 'doing work other than working as cultivator, as agricultural labourer and working at household industry'. In respect of the former information was recorded about (a) the nature of work, (b) the nature of household industry, and (c) if the worker was an employee that was also recorded. In respect of the later information was recorded about (a) the nature of work, (b) the nature of industry, profession, trade or service, (c) the class of worker and (d) the name of establishment. The Table B-IV has been compiled on the basis of information collected in reply to these questions. The Table has three Parts—A, B and C. Part A relates to persons at work in household industries, Part B relates to persons working in non-household industries, trade, business, profession or service and Part C is about workers both in household industries and non-household industries.

Scope of the Table B-IV Part A

In Part A of Table B-IV break up of workers in household industries by sex, into different divisions and major groups of the Indian Standard Industrial Classification has been provided. The figures are furnished for total, rural and urban areas separately down to the district level. It is for the first time that economic classification of workers of this type has been made distinctly and separately. It has a special significance. Household industries are contributing substantially for the economic well-being of the people. Production, processing, servicing, repairing or making and selling of goods at household industry level have provided basic knowledge and incentive for many large scale industries culminating in the establishment of factories, mills and establishments. Even after establishment of large scale industries for production, processing, making and selling of certain goods, the household industries doing the same work will continue for varied reasons and then many of the household industrial works will not be possible on a large scale industrial level. Thus the household industries will continue to play an important part in the economy of the country.

Definitions

Workers and Sex—For definitions see the fly-leaf to Table B-I.

Household Industry—A Household Industry is defined as an industry conducted by the Head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of a registered factory. Thus the main criterion for a Household Industry is the participation of one or more members of a household in rural areas. In the urban areas the industry should be confined to the house.

A Household Industry should relate to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as pleader or doctor or barber or waterman or astrologer.

Employee—An employee in the context of household industry was a person who was working as a paid worker in another person's household industry.

INDIAN STANDARD INDUSTRIAL CLASSIFICATION

A list of common household industries in the country with their industrial code numbers is reproduced here. This will be needed for reference in the study of column 1 of the table:

TABLE B-IV—PART B

INDUSTRIAL CLASSIFICATION BY SEX AND CLASS OF WORKER OF PERSONS AT WORK IN NON-HOUSEHOLD INDUSTRY, TRADE, BUSINESS, PROFESSION OR SERVICE.

FLY-LEAF

General Remarks

See general remarks in the fly-leaf to Part A of Table B-IV.

Scope of the Table B-IV Part B

This Table B-IV Part B relates to the industrial classification of workers in non-household industry, trade, business, profession or service, *i.e.*, those workers who stand basically classified in Table B-I under categories III and V to IX. The industrial classification has been done according to the Indian Standard Industrial Classification down to major groups. The distribution of workers has been shown according to class status of workers as employer, employee, single worker or family worker. The figures have been presented for total and urban areas down to the district level. The figures for the rural areas can be deduced by subtracting the urban figures from the total figures.

Definitions

Workers and Sex—For definition see the fly-leaf to Table B-I.

Employer—An Employer is a person who employs other persons to perform his work. Such a person is responsible for his own personal work and for giving work to others in his business establishment. But a person who employs domestic servants for household duties or has subordinates under him in an office where he is employed by others, is not an employer, even if he has the power to employ another person in his office on behalf of his own employer or employers.

Employee—An Employee is a person who usually works under some other person for salary or wages in cash or kind. There may be persons who are employed as managers, superintendents, agents, etc., and in that capacity employ or control other workers on behalf of their own employers. Such persons are only employees.

Single Worker—A Single Worker is a person who works by himself. He is not employed by any one else and in his turn does not employ any body else even members of his household except casually. This definition of a Single Worker will include a person who works in joint partnership with one or several persons hiring no employees, and also a member of a producers' co-operative. Each one of the partners or members of such producers' co-operatives should be recorded as 'Single Worker'.

Family Worker—A Family Worker is a member who works, without receiving wages in cash or kind, in an industry, business or trade conducted mainly by members of the family and ordinarily does at least one hour of work everyday during the working season. The industry should be on a scale larger than what has been covered in 'Household Industry', whether run at home or away from home in town or village and even away from a village in rural area and should ordinarily be in the nature of a recognised partnership, joint stock company or registered factory. For the purpose of this definition members of a family may be drawn from beyond the limits of the household by ties of blood or marriage. The family worker may not be entitled to a share of the profits in the work of the business carried on either by the person or head of the household or other relative.

Members of the household who help solely in household duties should not be treated as family workers.

Indian Standard Industrial Classification

The Standard Industrial Classification adopted by the Government of India, which has been used for classification of the workers, is reproduced here. This will be needed for guidance in the study of the table.

Explanatory Note on the use of Industrial Classification

It is important that the concept of 'industry' should not be confused with that of 'occupation'. 'Industry' means that sector of economic activity in which the earner is engaged, *e.g.*, textile industry, automobile industry, etc., whereas the 'occupation' describes the exact function that an individual performs in that sector *e.g.*, fitter, carpenter, etc.

Code Structure of Industrial Classification

The following system of notation has been adopted in the classification of Industries:

Division:

The entire range of economic activity is divided into nine 'Divisions', and a 'code number' is given to each. The first digit of any code number represents the 'Division' under which that activity is classified, *e.g.*, the number given to the Manufacturing Division and manufacturing activity of any kind will have code numbers beginning with '2' or '3'.

Major Groups:

Each 'Division' is then divided into a number of 'Major Groups' not exceeding ten. The first two digits of any code number together represent the 'Division' and the 'Major Group' under which that activity is classified. Thus the number "20" has been given to the "Production of Foodstuffs" (Major Group) under "Manufacturing" (Division).

Minor Groups:

Each 'Major Group' is again sub-divided into a number of 'Minor Groups' not exceeding ten. The 'Minor Group' is represented by a third digit added to the 'Major Group' code number, *e.g.*, '5' under Major Group 20 relates to production of bread, biscuits, cake, etc. Thus, if we find code No. 205 we know that it means production of bread, biscuits, cakes, etc. (Minor Group) in the 'Foodstuffs Industry' (Major Group) in "Manufacturing" (Division). Again if we find No. 701, we know that it means "Transporting by tramway, and bus service" (Minor Groups) in the "Transport Industry" (Major Group) in the 'Transport, Storage and Communication' (Division).

A one-digit code number represents a division, a two-digit code number represents a major group of industries and a three-digit code number represents a minor group of industries. A classification more detailed than the minor groups (3-digit level) has not been made.

The code number that should be allotted for economic activity connected with repairing or servicing will be the same as the code number provided for manufacturing of the article or product in that branch of industry (for example, Repairing of electric lamps and fans will be classified under 375 and Repairing of radios under 378), unless a code number is specially provided for repairs or servicing under the 'Minor Group' (for example. Repairing of bicycles and tricycles has been classified under 388, and Repairing and servicing of motor vehicles under 384)'.

STANDARD INDUSTRIAL CLASSIFICATION

This classification groups the industries into

9 Divisions
45 Major Groups
343 Minor Groups

The divisions and major groups with their Code numbers are listed below—

DIVISIONS

0	Agriculture, livestock, forestry, fishing and hunting
1	Mining and Quarrying
2 & 3	Manufacturing
4	Construction
5	Electricity, Gas, Water and Sanitary services
6	Trade and Commerce
7	Transport, Storage and Communication
8	Services
9	Activities not adequately described

81 Educational and Scientific Services
82 Medical and Health Services
83 Religious and Welfare Services
84 Legal Services
85 Business Services
86 Community Services and trade and labour associations
87 Recreation Services
88 Personal Services
89 Services (not elsewhere classified)

Division 9—Activities not adequately described

90 Activities unspecified and not adequately described. (This includes new entrants to the labour market.)

MINOR GROUPS

Major Group (Code) 1	Description 2	Minor Group (Code) 3
	Division 0—Agriculture, livestock, forestry, fishing and hunting—	
00	*Field Produce and Plantation Crops—*	
	Production of cereal crops (including Bengal gram) such as rice, wheat, jowar, bajra, maize	000
	Production of pulses, such as arhar, moong, masur, urd, khesari, other gram	001
	Production of raw jute and kindred fibre crops	002
	Production of raw cotton and kindred fibre crops	003
	Production of oilseeds, sugarcane and other cash crops	004
	Production of other crops (including vegetables) not covered above ..	005
	Production of fruits and nuts in plantation, vines and orchards	006
	Production of wood, bamboo, cane reeds thatching grass, etc.	007
	Production of juice by tapping palms ..	008
	Production of other agricultural produce (including fruits and nuts not covered by code number 006 and flowers) not covered above ..	009
01	*Plantation Crops*	
	Production of tea in plantation ..	010
	Production of coffee in plantation ..	011
	Production of rubber in plantation ..	012
	Production of tobacco in plantation ..	013
	Production of ganja, cinchona, opium ..	014
	Production of other plantation crops not covered above	015

03	*Fishing—*	
	Production of fish by fishing in sea ..	030
	Production of fish by fishing in inland waters including the operation of fish farms and fish hatcheries	031
	Production of pearls, conch, shells, sponges by gathering or lifting from sea, river, pond	032
04	*Livestock and Hunting—*	
	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo goat	040
	Rearing of sheep and production of wool	041
	Rearing and production of other animals (mainly for slaughter) such as pig	042
	Production of ducks, hens and other small birds, eggs by rearing and poultry farming	043
	Rearing of bees for the production of honey, wax and collection of honey ..	044
	Rearing of silk worms and production of cocoons and raw silk	045
	Rearing of other small animals and insects	046
	Trapping of animals or games propagation	047
	Production of other animal husbandry products such as skin, bone, ivory and teeth	048
	Division 1—Mining and Quarrying—	
10	*Mining and Quarrying—*	
	Mining of coal	100
	Mining of iron ores	101
	Mining of gold and silver ores ..	102
	Mining of manganese	103
	Mining of mica	104
	Mining of other non-ferrous metallic ores	105
	Mining of crude petroleum and natural gas	106
	Quarrying of stone (including slate), clay, sand, gravel, limestone ..	107
	Mining of chemical earth such as sodaash	108
	Mining and quarrying of non-metallic products not classified above such as precious and semi-precious stones, asbestos, gypsum, sulphur asphalt ..	109

20	*Food stuffs—*	
	Production of rice, atta, flour, etc. by milling, dehusking and processing of crops and food grains	200
	Production of sugar and syrup from sugarcane in mills	201
	Production of indigenous sugar, gur from sugarcane or palm juice and production of candy	202
	Production of fruit products such as jam jelly, sauce and canning and preservation of fruits	203
	Slaughtering, preservation of meat and fish and canning of fish	204
	Production of bread, biscuits, cake and other bakery products	205
	Production of butter, ghee, cheese and other dairy products	206
	Production of edible fats and oils (other than hydrogenated oil)	207
	Production of hydrogenated oils (Vanaspati)	208
	Production of other food products such as sweetmeat and condiments, muri, murki, chira khoi, cocoa, chocolate toffee lozenge	209
21	*Beverages—*	
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery	210
	Production of country liquor	211
	Production of indigenous liquor such as toddy, liquor from mahua, palm juice	212
	Production of other liquors not covered above	213
	Production of aerated and mineral water	214
	Production of ice	215
	Production of ice cream	216
	Processing of tea in factories	217
	Processing of coffee in curing works	218
	Production of other bevorages	219
22	*Tobacco Products—*	
	Manufacture of bidi	220
	Manufacture of cigars and cheroots	221
	Manufacture of cigarette and cigarette tobacco	222
	Manufacture of hookah tobacco	223
	Manufacture of snuff	224
	Manufacture of jerda and other chewing tobacco	225
	Manufacture of other tobacco products	226
23	*Textile—Cotton—*	
	Cotton ginning, cleaning, pressing and baling	230
	Cotton spinning (other than in mills)	231
	Cotton spinning and weaving in mills	232
	Cotton dyeing, bleaching	233
	Cotton weaving in power looms	234

	Printing of cotton textile	237
	Manufacturing of cotton nets	238
	Manufacturing of cotton, cordage rope and twine	239
24	*Textile—Jute—*	
	Jute pressing and baling	240
	Jute spinning and weaving	241
	Dyeing and bleaching of jute	242
	Printing of jute textile	243
	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp mesta	244
25	*Textile—Wool—*	
	Wool baling and pressing	250
	Wool cleaning and processing (scouring)	251
	Wool spinning and weaving in mill	252
	Wool spinning other than in mills	253
	Wool weaving in powerloom	254
	Wool weaving in handloom	255
	Embroidery and art work in woollen textile	256
26	*Textile—Silk—*	
	Spinning and weaving of silk textile in mill	260
	Dyeing and bleaching of silk	261
	Spinning of silk other than in mills	262
	Weaving of silk textile by powerloom	263
	Weaving of silk textile by handloom	264
	Printing of silk textile	265
	Manufacture of silk cordage, rope and twine	266
27	*Textile—Miscellaneous—*	
	Manufacture of carpet and all other similar type of textile products	270
	Manufacture of hosiery and other knitted fabrics and garments	271
	Embroidery and making of crepe lace and fringes	272
	Making of textile garments including rain coats and headgear	273
	Manufacture of made up textile goods except wearing apparel such as curtains materials, mattress textile bags	274
	Manufacture of waterproof textile products such as oil cloth, tarpaulin	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling	276
	Manufacture of coir and coir products	277
	Manufacture of umbrellas	278
	Processing and manufacture of textile products not covered above	279
28	*Manufacture of Wood and Wooden Products—*	
	Sawing and planing of wood	280
	Manufacture of wooden furniture and fixtures	281

Major Group (Code) 1	Description 2	Minor Group (Code) 3
	Divisions 2 & 3—Manufacturing—contd.	
28	*Manufacture of Wood and Wooden Products*—contd.	
	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows	282
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures	283
	Manufacture of other wooden products such as utensils, toys artwares ..	284
	Manufacture of veneer and plywood ..	285
	Manufacture of plywood products such as tea chest	286
	Manufacture of boxes and packing cases other than plywood	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products	288
	Manufacture of other wood and allied products not covered above ..	289
29	*Paper and Paper Products*—	
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill	290
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board hand made	291
	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp	292
30	*Printing and Publishing*—	
	Printing and publishing of newspapers and periodicals	300
	Printing and publishing of books ..	301
	All other types of printing including lithography, engraving, etching, block making and other work connected with printing industry	302
	All types of binding, stitching, sizing and other allied work connected with binding industry	303
31	*Leather and Leather Products*—	
	Currying, tanning and finishing of hides and skins and preparation of finished leather	310
	Manufacture of shoes and other leather footwear	311
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur	312
	Manufacture of leather products (except those covered by code Nos. 311, 312), such as leather upholstery, suitcases, pocket books, cigarette and key case, purses, saddlery, whip and other articles	313
	Repair of shoes and other leather footwear	314
	Repair of all other leather products except footwear	315
	Divisions 2 & 3—Manufacturing—contd.	
32	*Rubber, Petroleum and Coal Products*—	
	Manufacture of tyres and tubes ..	320
	Manufacture of rubber footwear ..	321
	Manufacture of rubber goods used for industrial purpose	322
	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber rain coat ..	323
	Productions of petroleum, kerosene and other petroleum products in petroleum refineries	324
	Production of coaltar and coke in coke oven	325
	Manufacture of other coal and coaltar products not covered elsewhere ..	326
33	*Chemicals and Chemical Products*—	
	Manufacture of basic industrial chemicals such as acids, alkalis and their salts not elsewhere specified ..	330
	Manufacture of dyes, paints, colours and varnishes	331
	Manufacture of fertilizers	332
	Manufacture of ammunition, explosives and fire works	333
	Manufacture of matches	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap	335
	Manufacture of soap and other washing and cleaning compounds ..	336
	Manufacture of turpentine, synthetic, resin, and plastic products and materials (including synthetic rubber) ..	337
	Manufacture of common salt ..	338
	Manufacture of other chemicals and chemical products not covered above (including inedible oils and fats) ..	339
34	*Non-Metallic Mineral Products other than Petroleum and Coal*—	
	Manufacture of structural clay products such as bricks, tiles	340
	Manufacture of cement and cement products	341
	Manufacture of lime	342
	Manufacture of structural stone goods, stone dressing and stone crushing ..	343
	Manufacture of stonewares, other than images	344
	Manufacture of stone images ..	345
	Manufacture of plaster of paris and its products	346
	Manufacture of asbestos products ..	347
	Manufacture of mica products ..	348
35	Manufacture of earthenware and earthen pottery	350
	Manufacture of chinaware and crockery	351
	Manufacture of porcelain and its products	352
	Manufacture of glass bangles and beads	353
	Manufacture of glass apparatus ..	354
	Manufacture of earthen image, busts and statues	355

STANDARD INDUSTRIAL CLASSIFICATION—*contd.*
MINOR GROUPS—*contd.*

Major Group (Code) 1	Description 2	Minor Group (Code) 3
	Divisions 2 & 3—Manufacturing—contd.	
35	Manufacture of earthen toys and artwares except those covered by code No. 355	356
	Manufacture of glass and glass products except optical and photographic lenses and glass products covered above	357
	Manufacture of other non-metallic mineral products not elsewhere specified	359
36	*Basic Metals and their Products except Machinery and Transport Equipment*—	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods	360
	Manufacture including smelting, refining of nonferrous metals and alloys in basic forms	361
	Manufactrure of armaments	362
	Manufacture of structural steel products such as joist, rail, sheet, plate	363
	Manufacture of iron and steel furniture	364
	Manufacture of brass and bell metal products	365
	Manufacture of aluminium products	366
	Manufacture of metal products (other than of iron brass, bell metal and aluminium) such as tin can	367
	Enamelling, galvanising, plating (including electroplating) polishing and welding of metal products	368
	Manufacture of sundry hardwares such as G.I. pipe, wire net, bolt, screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38 and 39)	369
37	*Machinery (All kinds other than Transport) and Electrical equipment*—	
	Manufacture and assembling of machinery (other than electrical) except textile machinery	370
	Manufacture and assembling of prime mover and boilers, other than electrical equipment, such as diesel engines, road rollers tractors	371
	Manufacture of machine tools	372
	Manufacture of textile machinery and accessories	373
	Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers	374
	Manufacture of electric lamps and fans	375
	Manufacture of insulated wires and cables	376
	Manufacture of all kinds of battery	377
	Manufacture of electronic equipment such as radio microphone	378
	Manufacture of electric machinery and apparatus, appliances not specified above	379
	Division 3 & 3—Manufacturing—concld.	
38	*Transport Equipment*—	
	Manufacture, assembly and repairing of locomotives	380
	Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by code No. 363	381
	Manufacture and assembling of motor vehicles of all types (excepting motor engines)	382
	Manufacture of motor vehicles engines parts and accessories	383
	Repairing and servicing of motor vehicles	384
	Manufacture of bicycles and tricycles and accessories such as saddle, seat frame, gear	385
	Building and repairing of water transport equipment such as ships, boats and manufacture of marine engines	386
	Manufacture and repair of air transport equipment including aeroplanes, aeroengines	387
	Repairing of bicycles tricycles	388
	Manufacture of other transport equipment not covered above such as animal drawn and hand drawn vehicles	389
39	*Miscellaneous Manufacturing Industries*—	
	Manufacture of optical instruments and lenses opthalmic goods and photographic equipment and supplies	390
	Manufacture of scientific, medical and surgical instruments and equipment and supplies	391
	Assembling and repairing of watches and clocks	392
	Manufacture of jewellery, silverware and wares using gold and other precious metals	393
	Manufacture and tuning of musical instruments	394
	Manufacture of stationery articles not covered elsewhere such as pencil, penholder, fountain pen	395
	Manufacture of sports goods	396
	Manufacture and repair work of goods not assignable to any other group	399
	Division 4—Construction—	
40	*Construction*—	
	Construction and maintenance of building including erection, flooring, decorative constructions, electrical & sanitary installations	400
	Construction and maintenance of roads, railways, bridges, tunnels	401
	Construction and maintenance of telegraph and telephone lines	402
	Construction and maintenance of waterways and water reservoirs such as bund embankments, dam, canal, tank, tubewells, wells	403

TABLE B-IV—PART C

INDUSTRIAL CLASSIFICATION BY SEX AND DIVISIONS, MAJOR GROUPS AND MINOR GROUPS OF PERSONS AT WORK OTHER THAN CULTIVATION

FLY-LEAF

General Remarks

See general remarks in the fly-leaf to Part A of Table B-IV

Scope of the Table B-IV—Part C

This Table B-IV—Part C gives a detailed industrial classification of the workers other than those engaged as cultivators or agricultural labourers, who stand basically classified in Table B-I under categories III to IX. The Indian Standard Industrial Classification (I.S.I.C.) divisions, major groups and minor groups are shown in column 1 of the table and against them is shown the distribution of the workers. The figures have been presented for total and urban areas separately down to the district level. For rural areas, the figures can be ascertained by subtracting figures of urban areas from figures of total areas.

The explanatory note on the use of industrial classification and the classification list giving the description of the divisions, major groups and minor groups, which stand reproduced in the fly-leaf to Table B-IV—Part B, may be consulted for guidance in the study of this Part C of the table.

I.S.I.C. minor groups having less than 1 per cent of workers of the respective division and less than 0.5 per cent in case of minor groups of division 2 and 3 only, have not been shown in Part C of the Table B-IV. They are shown in an appendix to the table in a *run on line* presentation. The divisions thus affected are marked with an asterisk in the table.

APPENDIX TO TABLE B-IV—PART C

INDUSTRIAL CLASSIFICATION BY SEX AND DIVISIONS, MAJOR GROUPS AND MINOR GROUPS OF PERSONS AT WORK OTHER THAN CULTIVATION

FLY-LEAF

I.S.I.C. minor groups having less than 1 per cent of workers of the respective division in case of all divisions excepting division 2 to 3 and less than 0.5 per cent in case of minor groups of division 2 and 3, which have not been shown in the Table B-IV—Part C, are shown in this appendix in a *run on line* presentation. The divisions thus affected have been marked with an asterisk (*) in the table.

In the presentation 'NHI' stands for non-household industry workers, 'HI' for household industry workers, 'M' for males and 'F' for females. The three digit figure before the word 'total' throughout the appendix is indicative of I.S.I.C. minor group. How many males (M) and females (F) workers in the 'total' and 'urban' areas separately or in the total area only, at household industry (HI) level and non-household industry (NHI) level separately or in any one of them only, as the case may be, are shown after every ISIC minor group.

Example: HIMACHAL PRADESH

010 Total HI (M-169, F-23), NHI (M-35, F-41).

The three digit figure 010 before the word 'total' is indication of the I.S.I.C. minor group referring to 'production of tea in plantation' under the I.S.I.C. major group 01 (plantation crops) of I.S.I.C. division 0 (agriculture, livestock, forestry, fishing and hunting). The word 'total' after the minor group figure 010 signifies that the presentation is for total area of Himachal Pradesh. The symbol 'HI' before the brackets stands for 'household industry' and the figures and symbols inside the brackets signify 169 males (M) and 23 females (F) workers in the same. In all, this means that 169 males (M) and 23 females (F), who work at household industry (HI) level in the industrial activity of 'production of tea in plantation' in the 'total' area of Himachal Pradesh, stand classified under the ISIC minor group 010 under major group 01 of division 0. Again there are 35 males (M) and 41 females (F) at work, who stand classified under ISIC minor group 010 'production of tea in plantation' at non-household industry (NHI) level in the 'total' area of Himachal Pradesh.

TABLE B-V

OCCUPATIONAL CLASSIFICATION BY SEX OF PERSONS AT WORK OTHER THAN CULTIVATION

FLY-LEAF

General Remarks

In the 1961 Census the workers have been classified according to Indian Standard Industrial Classification (I.S.I.C.) and National Classification of Occupations (N.C.O.). 'Industry' means that sector of economic activity in which the worker is engaged, *e.g.*, textile industry, automobile industry, etc., whereas the 'occupation' signifies the exact function that a worker performs in the industrial sector, *e.g.*, fitter, carpenter, etc.

Scope of the Table B-V

In this Table B-V, persons at work or rather the workers presented under Categories III to IX in Table B-I are shown classified according to their occupations under each of the categories, indicating the N.C.O's. 'divisions', 'groups' and 'families'.

The data has been presented for total and urban areas separately, down to the district level. Figures for rural areas can be worked out by subtracting urban figures from the total figures.

N.C.O. 'families', having less than 1 per cent of workers of the respective N.C.O. 'division' in the case of all 'divisions', excepting 'divisions' 7 and 8 and less than 0.5 per cent in the case of 'divisions' 7 and 8, have not been shown in the table. Data about them has been presented in an appendix to this table. The 'divisions' thus affected are marked with an asterisk in the table.

National Classification of Occupations

The code structure of the National Classification of Occupations is reproduced here for guidance in the study of the table.

National Classification of Occupations (Code Structure) which classifies occupations into 331 Occupational Families (three-digit code numbers), 75 Occupational Groups (two-digit code numbers) and 11 Occupational Divisions (one-digit code numbers).

APPENDIX TO TABLE B-V

OCCUPATIONAL CLASSIFICATION BY SEX OF PERSONS AT WORK OTHER THAN CULTIVATION

FLY-LEAF

N.C.O.'s 'families' having less than 1 per cent of the workers of the respective 'occupational division', and less than 0.5 per cent in the case of divisions 7-8 only, that have not been shown in the Table B-V, have been shown in this appendix. The divisions thus affected are marked with an asterisk in the table. The data has been presented in a *run on line* presentation in the appendix. The abbreviations and symbols used are explained below:—

(a) The three digit figure before the word 'total' represents code number of 'occupational family', e.g., 000 'architects', 002 'mechanical engineers' and so on. For concept of the individual code number, please refer to N.C.O. code structure.

(b) The words 'total' and 'urban' means that the presentation of the data following them is for total and urban areas separately in respect of the 'occupational family' shown before the word 'total'.

(c) The Roman numerals III, IV, V, etc., are indicative of industrial categories. They stand already described in the fly-leaf to the Table B-I.

(d) Abbreviations 'M' and 'F' are symbolic of males and females respectively and the number shown against them show their number.

Families having less than 1 per cent of the workers of respective divisions and less than 0.5 per cent in case of division 7-8 only, have been shown in this appendix.

The following abbreviations have been used:—

'M' for Males and 'F' for Females.

III—Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantation, Orchard and allied activities

IV—Household Industry

V—Manufacturing other than Household Industry

VI—Construction

VII—Trade & Commerce

VIII—Transport, Storage and Communication

IX—Other Services

ANNEXURE TO TABLE B-V

QUALITY CHECK OF TABLE B-V

Compatibility of Occupational Classification with Industrial Classification

In a quality check of the Table B-V in the Central Tabulation Office of the Registrar General, India, some occupational classifications were pointed out to be incompatible with the industrial classification, *vis-a-vis*, the occupations or the functions that the persons performed in the economic sector of their activity. They are listed in an annexure to the table. As detailed classification of workers for industry and occupations has been undertaken for the first time, incongruities noted in the annexure are likely to occur in the absence of any previous experience about the incompatibility to be guarded against. The incongruities could be removed from the table when these were pointed out by the Central Tabulation Office, but then that would have involved a number of changes, and the working of tables had gone to an advanced stage. It was, therefore, considered apt to print the annexure.

In the annexure two types of incongruities are listed—the *visible* and the *undoubted*. The latter are shown printed in italics. In the case of the former it will be observed that according to the description of the 'occupational families', columns 1 and 2 of the annexure refer, the industrial categories related to them should not be the same as shown in column 3. They should be as pointed out in column 8 of the annexure, and on the face of it, they should be as such. But for the clarifications provided in column 9 of the annexure, the industrial categories, as shown in column 3 are considered in order.

320	Commercial Travellers ..	III	1	..	1	..	This could easily be assigned to category VII-Trade and Commerce.	The figure of 1 male relates to a person employed in a firm engaged in felling and cutting of trees and his occupation is to travel from place to place and to contact timber merchants. Hence industrial category III-Mining, Quarrying, Livestock, Forestry etc.	May be accepted.
331	Hawkers, Pedlars and Street Vendors.	IV	5	1	4	1	These could easily be assigned to category VII-Trade and Commerce.	The figures relate to persons whose occupation is milk vending in the household industry of live stock rearing. Returns against Q·10 of Individual Slip 'Working at Household Industry', hence industrial category IV-Household Industry.	May be accepted.
	Do.	IX	3	..	3	..	These could easily be assigned to category VII-Trade and Commerce.	The figures relate to persons whose occupation is home-delivery of washed clothes, industrial activity being that of laundry services, hence industrial category IX-Other Services.	May be accepted.
402	Farm Managers, Inspectors and Overseers.	IX	8	..	2	..	They could go to category III-Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations etc. or V-Manufacturing other than Household Industry as the case may be.	The figures relate to farm managers engaged by Scientific Research Institutions, hence industrial category IX-Other Services.	May be accepted.

403	*Planters and Plantation Managers.*	*IV*	*16*	*3*	*10*	*1*	*They could go to category III-Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations etc. or V-Manufacturing other than Household Industry as the case may be.*	*The classification is correct. Returns in individual Slip against Q. 10 'Working, at Household Industry' hence industrial category IV-Household Industry.*	*These should go to category III.*
410	*Farm Machinery Operators* ..	*IV*	*1*	..	..	..	*They could go to category III-Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations etc. or V-Manufacturing other than Household Industry as the case may be.*	*The classification is correct. 411	Farm Workers, Animals, Birds and Insects Rearing.	IX	157	..	16	..	They could go to category III-Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations etc. or V-Manufacturing other than Household Industry as the case may be.	Figures relate to Stock Assistants and Stockmen where industrial affiliation is with veterinary services, hence industrial category IX-Other Services.	The S.C.O.'s comment is plausible.
439	Fishermen and Related Workers n.e.c.	IX	7	..	..	..	This could be assigned to category III-Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations etc.	These persons have affiliation with industrial minor group of Scientific services and Research institutions, hence industrial category IX-Other Services.	May be accepted.

TABLE B-VI

OCCUPATIONAL DIVISIONS OF PERSONS AT WORK OTHER THAN CULTIVATION CLASSIFIED BY SEX, BROAD AGE-GROUPS AND EDUCATIONAL LEVELS IN URBAN AREAS ONLY.

FLY-LEAF

Scope of the Table B-VI

This table tries to establish relationship between the educational levels of the workers and their nature of occupations or functions performed by them and thus gives useful information about those occupations which attract educated personnel. The data has been presented for urban areas only and for 'occupational divisions' and not for 'occupational groups or families'; classified by educational levels—the same as adopted in the Table B-III—Part A, minus the illiterate and broad age-groups—the same as adopted in the Tables B-I and B-II.

Code structure of National Classification of Occupations, reproduced in the fly-leaf to the Table B-V may be consulted for description of the code numbers of 'occupational divisions' given in column 1 of the present table.

FLY-LEAF

General Remarks

In all the Tables B-I to B-VI of this report, the workers or persons at work have been tabulated and classified in relation to their primary or principal work or activity. In this table data is being presented for their secondary or subsidiary activity. The data has been presented for total, rural and urban areas separately down to the district level. Principal or primary work and subsidiary or secondary work were recorded for a worker during enumeration. In case of a worker engaged in more than one productive activity that which occupied most of his time, was recorded as his principal work and the other activity was his secondary work. In case of a worker engaged in more than two productive activities, the work on which he spent most of his time was his primary work and the secondary work was that one which occupied most of his time next to his principal work.

Scope of the Table B-VII—Part A

Part A of the table gives identity of the persons working principally as cultivators who can be classified by sex and by subsidiary work at household industry or as agricultural labourers. Similarly the number of the persons working principally as agricultural labourers are classified by sex and by subsidiary work at household industry or as cultivators and the number of persons working principally at household industry are classified by sex and by subsidiary work as cultivators or as agricultural labourers.

For persons principally working at household industry with secondary work as cultivators or as agricultural labourers, the related figures under the secondary work have been classified by the I.S.I.C. divisions and major groups in reference to their activity at household industry. This helps to establish a relationship between the branch or type of household industry as principal work and the subsidiary work as cultivator or as agricultural labourer.

B-VII—PART A—PERSONS WORKING PRINCIPALLY (i) AS CULTIVATORS (ii) AS AGRICULTURAL LABOURERS OR (iii) AT HOUSEHOLD INDUSTRY CLASSIFIED BY SEX AND BY SECONDARY WORK (i) AT HOUSEHOLD INDUSTRY (ii) AS CULTIVATOR OR (iii) AS AGRICULTURAL LABOURER—contd.

TABLE B-VII—PART B

INDUSTRIAL CLASSIFICATION BY SEX OF PERSONS WORKING IN NON-HOUSEHOLD INDUSTRY, TRADE BUSINESS, PROFESSION OR SERVICE WHO ARE ALSO ENGAGED IN HOUSEHOLD INDUSTRY

FLY-LEAF

General Remarks

See general remarks in Part A of the Table B-VII.

Scope of the Table B-VII—Part B

Part B of the table B-VII shows industrial classification by sex of persons working principally in non-household industry, trade, business, profession or service (Categories III, V to IX of workers) who are also engaged in household industry as a secondary or additional work. Figures of the workers for the principal work (P.W.) have been given for each I.S.I.C. division and major group. Cross tabulation of these figures is given for their subsidiary or additional work (A.W.) at household industry, classified by I.S.I.C. divisions and major groups. The figures are given for total/rural/urban areas down to the district level.

For description of the code numbers of I.S.I.C. divisions and major groups the code structure of the Indian Standard Industrial Classification, reproduced in the fly-leaf to the Table B-IV—Part B, may be consulted.

TABLE B-VIII—PART A

PERSONS UNEMPLOYED AGED 15 AND ABOVE BY SEX, BROAD AGE-GROUPS AND EDUCATIONAL LEVELS IN URBAN AREAS ONLY.

FLY-LEAF

General Remarks

Tables B-VIII and IX of the present report Part II-B Economic Tables relate to non-workers. Definition of non-workers has already been given in the fly-leaf to Table B-I. The non-workers are of the following eight different categories—rather they were classed and enumerated as such during 1961 Census.

1. 'A full-time student or child attending school who does no other work, such as make articles at home for sale, nor even help part-time in his own family cultivation, industry, trade or business'.
2. 'A person engaged in unpaid home duties (like house-wife or other adult female) who does no other work, such as make articles at home for sale or wages, nor help regularly even part-time in family cultivation, industry, trade or business'.
3. 'Any dependent, including an infant or child not attending school, a person permanently disabled from work because of illness or old age'.
4. 'A retired person who is not employed again, rentier, person living on agricultural or non-agricultural royalty, rent or dividend or any other person of independent means for securing which he does not have to work and who does no other work'.
5. 'A beggar, vagrant or independent woman without indication of source of income and others of unspecified source of existence'.
6. 'A convict in jail (an undertrial prisoner will be shown as a worker if he used to work before he was apprehended) or an inmate of a penal, mental or charitable institution'.
7. 'A person who has not been employed before but is seeking employment for the first time'.
8. 'A person employed before but now out of employment and seeking employment'.

Scope of the Table B-VIII—Part B

The Part A of the Table B-VIII gives account of the last two categories of non-workers mentioned above, termed as 'persons unemployed'. The presentation of the data is for urban areas only. It gives classification of the two categories of unemployed persons, by their educational levels and age-groups. The age-groups given in the case of (i) those persons who have not been employed before but are 'seeking employment for the first time', are 15—19, 20—24, 25—29, 30—34, 35+ and in the case of (ii) 'persons employed before but now out of employment and seeking work' are 15—19, 20—24, 25—34, 35—44, 45—59 and 60+. The smaller age-groups have been adopted in the case of persons seeking employment for the first time, because such unemployed persons will mostly be covered under these age-groups.

The educational levels adopted in this part A of Table B-VIII are the same as in Table B-III—Part A.

TABLE B-VIII—PART B

PERSONS UNEMPLOYED AGED 15 AND ABOVE BY SEX AND EDUCATIONAL LEVELS IN RURAL AREAS ONLY

FLY-LEAF

General Remarks

See general remarks in the fly-leaf to the Part A of Table B-VIII.

Scope of the Table B-VIII—Part B

Part B of the Table B-VIII presents data about the unemployed persons aged 15 and above in rural areas. The unemployed persons are classified by illiterates, and educational levels, *viz.*, literate (without educational level), primary or junior basic, and matriculation and above.

TABLE B-IX

PERSONS NOT AT WORK CLASSIFIED BY SEX, BROAD AGE-GROUPS AND TYPE OF ACTIVITY

FLY-LEAF

General Remarks

During 1961 Census the population has been, from the economic point of view, basically classified into workers and non-workers. The emphasis is on the productive work for considering one as a worker and not on income or dependence for livelihood like 1951 Census. Persons, though deriving an income like beggars, pensioners, agricultural or non-agricultural royalty, rent or dividend receivers, but not engaged or participating in any productive work, such as in cultivation, industry, trade, business, profession, commerce, service etc., were reckoned as non-workers. The Table B-I to VII of this report gave account of the working population. In the present Table B-IX, as also in the Table B-VIII earlier, data about the activities of non-workers has been presented.

Scope of the Table B-IX.

The non-workers in 1961 Census were classed into eight different categories and enumerated as such. The details of these categories have been provided in the fly-leaf to the Table B-VIII—Part A. The non-workers, though not engaged in any productive activities, were still active. In this Table B-IX, the non-workers are shown classified by sex, broad age groups and type of activity. For purposes of classification and tabulation in the table the activities of the non-workers, in conformity with the details of their eight categories referred above, are broadly termed as follows:—

NON-WORKERS

(1) Full time students.

(2) Household duties.

(3) Dependents, infants and disabled.

(4) Retired, rentier or independent means.

(5) Beggars, vagrants, etc.

(6) Inmates of penal, mental and charitable institutions.

(7) Persons seeking employment for the first time.

(8) Persons employed before but now out of employment and seeking work.

The broad age-groups adopted for classification of the non-workers are 0—14, 15—34, 35—59 and 60+. The data has been tabulated for total rural and urban areas separately down to the district level.

Points Pertinent—Worthy of Note

The quality check of the table in the Central Tabulation Office of the Registrar General, India, has pointed out certain unusual figures in regard to:—

(a) Full time students.

(b) Household duties.

(c) Student population of 0—14.

(a) FULL TIME STUDENTS

It will be observed from the table that the number of full time students have been shown in the age-groups 35—59 and 60+. There are 5 males and 1 female in the first age-group and 1 male in the latter age-group. Although these figures are very small but they appear to be unusual as normally there can hardly be persons of this age especially in rural areas who are prosecuting studies so as fall into the full time students category according to census definition. Here the general impression about the age-group of persons being full time students seems to be completely belied.

While it might appear unusual to have full time students in the age groups 35—59 and 60+, but they appear to relate to aged persons, doing no productive work and attending adult literacy classes. This is the explanation for the unusual figures of aged full time students.

(b) HOUSEHOLD DUTIES

According to the table 94 males are shown engaged in the non-productive activity of household duties.

Though it is the women-folk who generally attend to household duties, men-folk cannot be entirely ruled out from this type of activity. Aged males of 60 and above are engaged in unpaid home duties, such as looking after or minding the infants or small children in their own households or guarding the houses when other adult members of the households are away on work, especially in rural areas. There are 42 males out of 94 shown in the table who may be engaged as such. Similarly boys within the age-group of 0—14 and 15—34 have been found to be minding their infant sisters or brothers and their houses, when other adult members are away on work. There are 14 boys in the age-group of 0—14 who may be engaged as such. As regards age-group 15—34, there is a return of 30 males, and probably they may be all boys of 15 -17 or many of them may be boys engaged in the activity stated above. The other adults may be engaged in domestic work in their own households, such as fetching water or firewood from jungle. Cooking of meals is probable.

In the age-group of 35—59 there is a return of 8 males. All of them or some of them can be aged males of 58 or 59 and may be engaged in looking after infants and children and guarding their houses. Or they may be engaged in other domestic works in their own households, and thus classified in the non-worker's category of 'household duties'.

(c) STUDENT POPULATION OF 0—14.

Two types of cases have come to light.

1st type: Bilaspur District (urban males and females)—The student population (M 564, F 470—Table B-IX) in the age-group 0—14 is more than the literate population (M 490, F 347—Table C-III-B) in the age-group 5—14.

The excess in the student population over the literate population can be attributed to the fact that student population includes persons who are students of first stage of primary, nursery or kindergarten, but who have not been reckoned as literates.

2nd type: Mandi District (Rural females), Mahasu District (Rural females)—The student population (Mandi F 4,482, Mahasu F 4,402—Table B-IX) in the age-group 0—14 is less than the literate population (Mandi F 5,259, Mahasu F 5,209—Table C-III-C) in the age-group 5—14.

The excess in the literate population over the student population is in the category of females only. This can be so because after attaining literacy, *i.e.*, ability to read and write with understanding, schooling is given up in many places and the girls are engaged in household duties.
