B—GENERAL ECONOMIC TABLES

INTRODUCTORY NOTE

Economic Tables of 1961 Census are more elaborate and cover a wider field than those of 1951 Census. A noteworthy feature of the 1961 Census Economic Tables is that in the past the test applied was income or economic independence. Economic activity used to be interpreted in such terms as economically independent, semi-dependant, earning dependant or non-earning dependant. Economically independant and economically dependant persons were called 'earners' and 'dependants'. An intermediate category of economic semi-independence was introduced in 1931, and continued till 1951. Such persons were called working dependants in 1931, partly dependants in 1941, and earning dependants in 1951. Unlike the 1951 Census wherein this economic classification was applied to the eight livelihood classes, the emphasis at the 1961 Census has shifted to the concept of work, the entire population being divided into (i) Workers and (ii) Non-workers. This is a significant departure. All working persons, irrespective of whether they actually derive any income or not—for example, an apprentice or family worker, or working juveniles who cannot earn enough for their maintenance—have been treated as *Workers* and classified according to their primary work. Person, even though they may be having an income who are engaged in any productive work have been treated as *Non-workers*. For example, beggars, vagrants, agricultural or non-agricultural royalty, rent or dividend receivers, pensioners, etc., who may be earning an income but do not participate in any productive work, have not been treated as working. Even Non-workers have been distributed into eight categories according to the nature of their activities. This change from *income* to *work* is expected to help in obtaining a realistic picture of the economic activity of important sections of the household workers who used to be left out of account in the past.

2. Part II-B of the 1961 Census publications contains 9 Economic Tables based on total count, which are listed below:

Table B-I	Workers and Non-workers classified by Sex and Broad Age-Groups.
Table B-II	Workers and Non-workers in Cities, Town-Groups and Towns arranged territorially classified by Sex and Broad Age-Groups.
Table B-III(A)	Industrial Classification of Workers and Non-workers by Educational Levels in *Urban Areas only.*
Table B-III(B)	Industrial Classification of Workers and Non-workers by Educational Levels in *Rural Areas only.*
Table B-IV(A)	Industrial Classification by Sex and Class of Worker of persons at Work at Household Industry.
Table B-IV(B)	Industrial Classification by Sex and Class of Worker of persons at Work in Non-Household Industry, Trade, Business, Profession or Service.
Table B-IV(C)	Industrial Classification by Sex and Divisions, Major Groups and Minor Groups of Persons at Work other than Cultivation.
Table B-V	Occupational Classification by Sex of Persons at Work other than Cultivation.
Table B-VI	Occupational Divisions of Persons at Work other than Cultivation classified by Sex, Broad Age-Groups and Educational Levels in *Urban Areas only.*
Table B-VII(A)	Persons working principally (i) as Cultivators, (ii) as Agricultural Labourers or (iii) at Household Industry classified by Sex, and by Secondary work (i) at Household Industry, (ii) as Cultivator or (iii) as Agricultural Labourer.
Table B-VII(B)	Industrial Classification by Sex of Persons working in Non-Household Industry, Trade, Business, Profession or Service who are also engaged in Household Industry.
Table B-VIII(A)	Persons Unemployed aged 15 and above by Sex, Broad Age-Groups and Educational Levels in *Urban Areas only.*
Table B-VIII (B)	Persons Unemployed aged 15 and above by Sex and Educational Levels in *Rural Areas only.*
Table B-IX	Persons not at Work classified by Sex, Broad Age-Groups and Type of Activity.

Since these Tables run into a very large number of pages, this Part is being published in six books. Book I contains Tables B-I, B-II, B-IIIA and B, B-IV A and B; Book II Table B-IV C; Books III and IV Table B-V; Book V Tables B-VI, B-VII A, B-VIII A and B, B-IX; and Book VI Table B-VII B.

3. The above Tables give data on (1) population classified in the 9 categories of workers and non-workers by broad age-groups, and educational levels separately;

(*ii*) persons engaged in different Divisions and Major Groups of household industry, non-household industry, trade, business, profession or service by their status of employment; (*iii*) distribution of workers other than cultivators and agricultural labourers by detailed branches of industry as classified in *A Standard Industrial Classification*; (*iv*) distribution of workers other than cultivators and agricultural labourers by occupations as classified in the *National Classification of Occupations*; (*v*) persons, of *urban areas only* working in different Occupational Divisions classified by broad age-groups and educational levels; (*vi*) a cross-tabulation of persons working principally as cultivators, or agricultural labourers or at household industry by their secondary work in the remaining two activities out of these three; (*vii*) a cross-tabulation of the non-household industry, trade, business, profession or service by household industry for persons with former categories as principal and household industry as secondary work; (*viii*) distribution of unemployeds 15 and above by broad age-groups and educational levels; and (*ix*) non-workers classified by broad age-groups and their activity.

4. Table B-II of 1961 Census deals exclusively with urban areas, and is an enlarged form of Table A-V of 1951 Census. The following kinds of places have been treated as **Urban:**

(*a*) All Municipal Corporations, Municipal Boards, Notified Areas and Cantonments,

(*b*) All localities, though not in themselves local bodies, yet forming part of a Town-Group and

(*c*) All places which satisfy the undermentioned three conditions—

(*i*) a population of 5,000 and above,

(*ii*) atleast three-fourth of the workers engaged in non-agricultural pursuits, and

(*iii*) density of population to be above 1,000 persons per square mile.

All places of the kinds mentioned above are deemed to be *towns* and such of them as have a population of 100,000 and above deemed to be *Cities.*

5. The abbreviations used to denote the civic status of urban areas are given below :

M.C.	Nagar Mahapalika or Municipal Corporation	N.A.	Notified Area
		T. A.	Town Area
M. B.	Municipal Board	Cantt.	Cantonment

6. The economic questions asked at the 1961 Census are Questions 8 to 12 of the Enumeration Slip, Questions 8 to 11 relate to work and instructions regarding them are summarised below :

Questions 8 to 11—Working

These questions apply only to workers. A person may be working as a Cultivator, as an Agricultural Labourer, at Household Industry or may be doing any other work. Entry is to be recorded against questions 8, 9, 10 and 11 according as the person is working as a Cultivator, or as an Agricultural Labourer, or at Household Industry, or is engaged in any other work. He may be engaged in only one or more than one of the above four categories. Thus a person can be working both as a Cultivator and an Agricultural Labourer, in which case he should be entered both against Questions 8 and 9. Or he may be working both as Cultivator and at Household Industry, in which case he should be shown against Quesions 8 and 10. He may, instead, be working in any possible combination of Questions 8, 9, 10 and 11, in which case he will be entered at the appropriate places. If he is engaged in just one kind of work, entry will be made against only one of the four Questions 8 to 11.

The basis of work will be satisfied in the case of seasonal work like cultivation, livestock, dairying, household industry, etc., if the person has had some *regular work of more than one hour a day throughout the greater part of the working season.* In the case of regular employment in any trade, profession, service, business or commerce the basis of work will be satisfied, if the person was employed during the 15 days preceding the day on which the enumerator visited the household. If on check or revisional round such a person has been found to be unemployed, no change in the original entry need be effected. A person who is working, but has been absent from his work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other causes, should be treated as a *worker.* A person who has been offered work, but has not actually joined will be treated as *non-worker. Work includes not only actual work, but also effective supervision and direction of work.*

Persons under training as apprentices with or without stipend or wages will be treated as workers.

An adult woman who is engaged in household duties *but doing no other productive work* to augment the family's resources will not be considered as working. If, however, in addition to her household work, she engages herself in work such as rice pounding for sale or wages, or in domestice services for wages for others, or minding cattle, or selling firewood, or making and selling cowdung cakes, grass, etc., she will be treated as a worker.

Persons like beggars, vagrants, pensioners, agricultural or non-agricultural royalty, rent or dividend receivers, who may be earning an income, but who are not participating in any productive work will not be treated as working, unless they are also found to be gainfully employed.

A public or social service worker who is actively engaged in public service utility, or a political worker who is actively engaged in politics should be regarded as a worker and entered against Question 11.

7. Detailed instructions how the answers should be recorded for the individual questions are given below :

(i) Question No. 8—Working as Cultivator

For a person working as Cultivator 'C' is to be written and for all others 'X'. A person is working as a Cultivator, if he or she is engaged either as an employer, single worker or family worker in (*i*) cultivation of land or effective direction or supervision of cultivation of land owned or held from Government, and (*ii*) cultivation of land or supervision or direction of cultivation of

land held from private persons or institutions for payment in money, kind or share. Cultivation does not include horticulture, orchards, groves and plantations like tea, coffee, rubber, cinchona and other medicinal plants. Those engaged in fruit-growing, etc., will be recorded against Question 11. If a person has let out his land to others and does not *even* supervise or direct cultivation of land, he will not be deemed to be a Cultivator. Similarly, a person working in another person's land only as a labourer having no right of lease or contract on land on which he works, nor responsible for taking decisions or risks in cultivation and paid wages in cash, kind or share will not be treated as a Cultivator.

(ii) Question No. 9—Working as Agricultural Labourer

For a person working in someone else's cultivation on wages in cash or kind 'A.L.' will be recorded and for all others 'X'.

(iii) Question No. 10—Working at Household Industry

Industry means production, fabrication, processing, repairs or servicing (of machines). Household industry is one which is not on the scale of a registered factory and is conducted by one or more members of the household with or without hired labour. In rural areas it can be located anywhere in the village in which the household lives, but in urban areas it *must be located at home.* A person might be working in household industry of another household. He is also to be treated as a worker in household industry.

(*a*) *Nature of Work*—If a person is engaged in a Household Industry the actual work performed by him is to be written. Otherwise 'X' will be put.

(*b*) *Nature of Household Industry*—The name of the household industry in detail has to be recorded mentioning the articles produced, fabricated, processed, repaired or serviced. If the person is not engaged in a household industry 'X' will be put.

(*c*) *If Employee*—If the person concerned is an employee in household industry of another household 'E.E.' will be recorded within the triangle provided, otherwise 'X'.

(iv) Question No. 11—Doing work other than 8, 9 or 10

If not doing any such work 'X' will be recorded against sub-questions (*a*), (*b*), (*c*) and (*d*). Industry (other than household industry), profession, trade, service, raising of cattle, planting of orchards, groves and other plantations are included in this question. If a person is engaged in more than one work, mention the work on which he spends most time.

(*a*) *Nature of Work*—The actual work performed by a person is to be recorded in detail.

(*b*) *Nature of Industry, Business, Trade, Profession or Service*—Sufficient details of industry, profession, trade, or service should be recorded to enable correct classification. The names of articles produced, processed, serviced or repaired in case of industry, the name of calling in case of profession, names of articles bought and sold in case of business or trade, are to be recorded. In the case of service describe the nature of the service to which the person's work belongs. Vague terms should be avoided. In the case of a person for whom an 'X' has been put in Question 11 (*a*), put an 'X' in this question also.

Important points in Questions 11 (*a*) *and* 11 (*b*)

Women or children who help with work, such as rice pounding or doing domestic service for wages or minding cattle or selling firewood or making and selling cowdung cakes, grass, etc., should be described fully, even if they work part-time. *In the case of married or grown-up women who do any of the work mentioned above in addition to the usual household duties such work should be fully described and 'HW' written in brackets after the full description.*

If a person makes the articles he sells, he should be entered as maker and seller of them.

Wherever convenient, for complete description, the work should be expressed by the local name by which it is known.

The following are too vague and must not be used by themselves :

Scientist, technician, civil servant, clerk, engineer, inspector, checker, foreman, overseer, supervisor, labourer, machinist, assistant, contractor, polisher.

Labourers—For an unskilled labourer usually employed on one sort of work alone, give also the sort of work done, e.g., railway porter, market or bazar porter, labourer employed on road digging, bricklayer's labourer. If accustomed to work on various jobs, write general labourer.

Machine Operators—Always state the kind of machine which he operates giving its recognized name, if any.

Shop-keepers, Retail Dealers, Shop Assistants—If wholly or mainly engaged in selling, write, 'Dealer' (if principal) or, 'Shop Assistant' or 'Salesman' (if assisting) and state whether the business is wholesale or retail or both. For Shop Assistants and Salesmen in stores with several departments, state the particular department in which engaged (e.g., ship and railway parts, fans and sewing machines, grocers and confectioners).

Transport Workers—Describe fully the nature of the transport, e.g., air transport, rail transport, transport by motor car or motor cycle, or vehicles drawn by horse, etc.

Services—For a person engaged in the Defence Services, write 'Service of Central Government'.

If the job is known in the trade or industry by a special name, use that name. Manager, Foreman, etc., should be given the department/branch wherever applicable, e.g., Sales Manager or a 'Manager' of Hardware Department, 'Machine Shop Foreman' or 'Boiler Room Foreman', etc. The following terms are insufficient by themselves :

Manufacturer, merchant, agent, broker, refractor, dealer, engineer and iron worker, etc.

Domestic Sevices—In the case of any private servant, e.g., a cook or domestic servant, write

only private cook or domestic servant. There is no industry in his case, but in the case of persons employed in hotels, restaurants, boarding houses, institutions, etc., the words hotel, restaurant, etc., should be added.

For persons in the employ of firms carrying on two or more businesses, if the businesses are carried on in separate premises then the business carried on at the premises in which the person is employed should be given. If the businesses are carried on in the same premises but each has a separate organisation (i.e., they have separate records of employment, production, etc.) then the appropriate business should be quoted. If, however, the two activities are carried on side by side then the major activity of the firm or establishment should be given.

Commerce—Special care should be taken to see that the distinction between retail and wholesale business is clear. As in industries, the goods handled should be clearly indicated.

(*c*) *Class of Worker*—For a person who is :

(1) *an Employer*, that is, who hires one or more persons in his work described in Q. 11 (*a*), write. . . . . MR

(2) *an Employee*, that is, who does his work described in Q. 11 (*a*) under others for wages or salary in cash or kind, write. . EE

(3) *a Single Worker*, that is, who is doing his work described in Q. 11 (*a*) without employing others and without the help of other members of the family, except casually, write. . . . . SW

This will include workers working as members of co-operatives.

(4) *a Family Worker*, that is, who is doing his work described in Q. 11 (*a*) in own family without wages or salary in cash or kind, write. . . . . FW

For a person for whom an 'X' is put in Qs. 11(*a*) and (*b*) put 'X' in this question also.

Explanation :

(*i*) An Employer is a person who has to employ other persons in order to perform the work entered in Q. 11 (*a*). That is to say, such a person is not only responsible for his own personal work but also for giving work to others in the business mentioned in Q. 11 (*a*). But a person who employs domestic servants for household duties or has subordinates under him in an office where he is employed by others is not an employer, even if he has the power to employ another person in his office on behalf of his employer or employers.

(*ii*) An Employee is a person who usually works under some other person for salary or wages in cash or kind. There may be persons who are employed as managers, superintendents, agents, etc., and in that capacity employ or control other workers on behalf of their employers. Such persons are only employees, as explained above, and should not be regarded as employers.

(*iii*) A Single Worker for the purpose of Q. 11 (*c*) is a person who works by himself. He is not employed by any one else and in his turn does not employ anybody else, not even members of his household, except casually. This definition of a *Single Worker* will include a person who works in joint partnership with one or several persons engaging no employees, and also a member of a producer's co-operative. Each one of the partners or members of such producer's co-operatives should be recorded as 'Single Worker'.

(*iv*) A Family Worker is a member who works, without receiving wages in cash or kind, in an industry, business or trade conducted mainly by members of the family and ordinarily does at least one hour of work every day during the working season. For the purpose of the entire Q. 11, such an industry should be on a scale larger than what has been covered in 'Household Industry' in Q. 10 whether run at home or away from home in town or village and even away from village in rural area and should ordinarily be in the nature of a recognised partnership, joint stock company or registered factory. For the purpose of this definition members of a family may be drawn from beyond the limits of the household by ties of blood or marriage. The family worker may not be entitled to a share of the profits in the work of the business carried on either by the person or head of the household or other relative.

Members of the household who help solely in household duties should not be treated as family workers.

(*d*) *Name of Establishment*—The name of the factory, workshop, shop, office, etc., together with the name of the place where located should be recorded. If a person has no fixed place of work write 'No fixed place of work.'

Important—If in respect of any person there are entries against more than one question out of questions 8 to 11, he has to be asked as to which one of these is his principal work. *Principal work is that on which he spends most time.* The serial number of the question against which his principal work is recorded should be encircled, e.g., (10). If there are entries against more than two questions he has further to be asked as to which one is his next work on which he spends the second largest amount of time. The serial number of the question against which this work is recorded should be ticked, e.g., 8.✓

Question No. 12—Activity, if Not Working

Entry will be made against this question in the *parallelogram* provided only when X's (crosses) have been put against Questions 8, 9, 10 (*a*), (*b*), (*c*) and 11 (*a*), (*b*), (*c*) and (*d*), otherwise 'X' will be put here.

If a person is not doing any kind of work contemplated in Questions 8, 9, 10 or 11 he/she will be recorded as follows :

(1) For a full-time student or child attending school who does no other work, such as make articles at home for sale, nor even help part-time in his own family cultivation, industry, trade or business, write . . . ST

(2) For a person engaged in unpaid home duties (like housewife or other adult female) who does no other work, such as make articles at home for sale or wages, nor help regularly even part-time in family cultivation, industry, trade or business, write. . . . . HW

(3) For any dependent, including an infant or child not attending school, a person permanently disabled from work because of illness or old age, write. . . D

(4) For a retired person who is not employed again, rentier, person living on agricultural or non-agricultural royalty, rent or dividend or any other person of independent means for securing which he does not have to work and who does no other work, write. . . R

(5) For a beggar, a vagrant or an independent woman without indication of source of income and others of unspecified source of existence, write. . . B

(6) For a convict in jail (an undertrial prisoner will be shown as a worker if he used to work before he was apprehended) or an inmate of a penal, mental or charitable institution, write. I

(7) For a person who has not been employed before but is seeking employment for the first time write ... NE

(8) For a person employed before but now out of employment and seeking employment, write. . . UN

Explanation—If a person, who does not work, cannot be readily classified in any of the above categories, put him in category (5) and write 'B' against this question. A retired person who has taken up regular work again should not be entered in this question, as he would have been entered for his new work in Questions 8 to 11.

A person who is not working but has been offered work which he has not joined should be included in item 3 and 'D' should be written. He should not be included in item 7 or 8.

Industrial and Occupational Classification

8. The categories of workers other than Cultivators and Agricultural Labourers have been determined in accordance with the *A Standard Industrial Classification* in the following manner :

Category	Division of I.S.I.C.
III	Industrial Division 0 (except Minor Groups 000 to 004 and 005 (partly) and 1, if the industry is not a Household Industry.
IV	Industrial Division 0 (except Minor Groups 000 to 004 and 005 (partly), 1 and 2 and 3 if the industry is a Household Industry.
V	Industrial Divisions 2 and 3 if the industry is not a Household Industry.
VI	Industrial Division 4
VII	Industrial Division 6
VIII	Industrial Division 7
IX	Industrial Divisions 5, 8 and 9 (except Minor Group 999)

9. These Tables are the pioneers in the Indian Census history because of a complete departure from the economic data presented hitherto. The presentation of population by eight livelihood classes with further subdivisions into self-supporting persons, earning dependants and non-earning dependants has been replaced by workers and non-workers, the former divided into nine categories and the latter into eight types of activities. Further, the economic classification has been completely revised and replaced by '*A Standard Industrial Classification*' and '*National Classification of Occupations*' with minimum modifications within the framework. *The Indian Census Economic Classification* adopted at the 1951 Census was neither a purely industrial nor a purely occupational classification of the population but a combination of both. There were only 10 Divisions and 88 Sub-divisions of industries and services. In the classifications now adopted there are more than 300 occupational families and industrial minor groups. The slips have been pre-coded for both occupational and industrial classifications before being subjected to manual sorting.

10. Thus a two-way classification of the workers has been made, first with reference to the goods produced or the nature of services rendered by the worker or the establishment with which he is connected irrespective of the nature of work he does in that establishment and secondly with reference to the occupation, i.e., the actual nature of work that a person performs irrespective of the industry or business or service in which he may be engaged. The first has been classed Industrial Classification, and the second Occupational Classification.

11. The following statement gives the categories of industrial workers adopted in 1961 Census and the eight livelihood classes of 1951 :

1961 *Industrial Categories*	1951 *Means of Livelihood Agricultural Classes*
1 As Cultivator	I Cultivators of land wholly or mainly owned and their dependants.
II As Agricultural Labourer	II Cultivators of land wholly or mainly unowned and their dependants
III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied Activities	III Cultivating labourers and their dependants
IV At Household Industry	IV Non-cultivating owners of land, agricultural rent receivers and their dependants
V In Manufacturing other than Household Industry	*Non-Agricultural Classes*
VI In Construction	Persons (including dependants) who derive their principal means of livelihood from :
VII In Trade & Commerce	V Production other than cultivation
VIII In Transport, Storage and Communications	VI Commerce

IX	In Other Services	VII	Transport
X	Non-workers	VIII	Other Services and Miscellaneous sources

12. It would be worthwhile to give a brief description of each of these categories.

Category I

It includes both owner cultivators and tenant cultivators engaged either in actual cultivation or in active supervision. It, however, excludes the keeping of orchards, and groves, plantations, etc. All persons under this category should have some right on land.

Category II

All persons working on land as labourers on wages, cash, kind or share of produce, without holding any right upon the land and without exercising any supervision or direction in cultivation, are classed as Agricultural Labourers.

Category III

Workers engaged in mining and quarrying, rearing and keeping of livestock and poultry, forestry and fishing, keeping orchards and groves or working in plantations like tea, coffe , rubber, etc., have been included in it.

These correspond to Divisions 0 (except minor-groups 000 to 004 and 005 partly) and 1 of *A Standard Industrial Classification*, provided the industry is not a Household Industry.

Category IV

Persons engaged in household industry are classed in this category. The test for a Household Industry is three fold:

(i) It should be conducted at home in the urban areas or within the village in rural areas by the head of the household himself and/or mainly by members of the household. A person working as an employee in another person's household industry has also been treated as working at household industry.

(ii) It should not be on the scale of registered factory, but may use machinery and employ power.

(iii) It includes manufacture, processing, or repairing of goods and servicing of machines and may include sale, but it is not confined simply to buying and selling. At least part of the goods offered for sale should be manufactured or processed by members of the household.

This category may cover those falling under Divisions 0 (except minor groups 000 to 004 and 005 partly), 1, 2 and 3 of *A Standard Industrial Classification*, provided the work is carried on Household Industry basis.

Category V

Manufacturing includes all types of production, processing, servicing or repairing of goods not included in Category IV. Persons employed in registered factories thus form part of this category.

This category covers Divisions 2 and 3 of *A Standard Industrial Classification* provided the industry is not a Household Industry.

Category VI

Workers engaged in construction and maintenance of buildings, roads, railways, bridges, tunnels, telegraph and telephone lines, waterways and water reservoirs, such as bunds, embankments, dams, canals, tanks, wells, etc., are included, and take into account Division 4 of *A Standard Industrial Classification*.

Category VII

Workers engaged in any capacity in wholesale or retail trade, commercial transanctions such as imports and exports, banking, insurance, auctioneering, money lending, stocks and shares, etc., are classed under this category.

This category covers Division 6 of *A Standard Industrial Classification.*

Category VIII

Those engaged in transport activities by air, rail, road and water and in services incidental to transport such as packing, carting, loading, unloading, etc. Persons participating in storage, warehousing activities, communications services such as Postal, Telegraphic, Telephone, Wireless, Signalling, Information and Broadcasting are also included.

This category corresponds to Division 7 of *A Standard Industrial Classification*

Category IX

This category includes (i) Public Utility Services like electricity, gas, water supply and sanitary services; (ii) Central Government, State Government, quasi-Government or Municipal Employees in administrative departments or offices; (iii) professional services, such as educational, scientific, medical and health, legal, and business and personal services and religious and welfare services; (iv) trade and labour associations, recreational services, etc. It thus practically covers all workers who do not fall under any of the industrial categories mentioned earlier; and also those whose activities have not been adequately described. General labourers who engage themselves on various miscellaneous jobs are also classified in this category.

It thus covers Divisions 5, 8 and 9 (except minor group 999) of *A Standard Industrial Classification.*

Category X—Non-Workers

The non-working population is distributed separately for the first time according to eight types of activities, viz., (i) full time students or children attending school who do no other work, (ii) housewives and persons engaged in unpaid home duties, (iii) infants and other dependants including permanently disabled or old persons, (iv) retired persons, rentiers and others who are in receipt of income without doing any work, (v) beggars, vagrants and others of unspecified source of existence, (vi) convicts in jails or inmates of peral, mental or charitable institutions, (vii) persons not employed before, but seeking employment for the first time, and (viii) persons employed before but now out of employment and seeking employment.

13. The following statement will show the ten broad industrial categories on economic activity adopted in the 1961 Census and the corresponding grouping of workers and non-workers for the earlier Censuses since 1901.

TABLE B-I WORKERS AND NON-WORKERS CLASSIFIED BY SEX AND BROAD AGE-GROUPS

Fly-Leaf

It is the basic Economic Table. It gives the distribution of workers and non-workers by ten industrial categories and four broad age-groups, viz., 0-14, 15-34, 35-59 and 60+. These broad age-groups correspond to the different stages of normal life which have special significance with regard to capacity for work, viz., children, young, middle aged and elderly. The Table presents data for the State, Divisions and Districts for their total, rural and urban population separately.

2. It departs from Table B-I of 1951 Census in two ways. First, in 1951 workers and non-workers together had been classified by eight livelihood classes with further subdivisions into self-supporting, earning dependants and non-earning dependants; while in 1961 non-workers have been treated separately from workers and the workers themselves have been classified by the nine industrial categories which correspond closely to the nine broad sectors of employment, viz., (I) As Cultivators; (II) As Agricultural Labourers; (III) In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities; (IV) At Household Industry; (V) In Manufacturing other than Household Industry; (VI) In Construction; (VII) In Trade and Commerce; (VIII) In Transport, Storage and Communications; and (IX) In Other Services. Secondly, data of workers in each category and of non-workers have further been stratified by broad age-groups to provide a wider analytical spread.

Note: 1. A. N. S. Stands for Age Not Stated.
2. In districts marked §, 'R' is the same as 'T' as there is no urban area.

TABLE B-II WORKERS AND NON-WORKERS IN CITIES, TOWN-GROUPS AND TOWNS ARRANGED TERRITORIALLY, CLASSIFIED BY SEX AND BROAD AGE-GROUPS

Fly-Leaf

In presentation it is the same as Table B-I, but it starts from where Table B-I ends. It gives the districtwise break down of urban figures of Table B-I by their constituent cities, town-groups and towns, arranged territorially. The figures for cities and town-groups have been separately shown, even when a city forms part of a town-group. Thus it provides a detailed distribution of working population and of non-workers in each urban area of the State, by industrial categories and broad age-groups.

TABLE B-III PART A—INDUSTRIAL CLASSIFICATION OF WORKERS AND NON-WORKERS BY EDUCATIONAL LEVELS IN *URBAN AREAS ONLY*

Fly-Leaf

This Table presents a detailed cross-tabulation of literacy and educational levels of population in the *urban areas* for the nine categories of workers and for Non-workers of the State, Divisions and Districts. Children of less than 4 years of age have been treated as illiterate. It corresponds to Table D-VII of 1951 in which the literate and educated population was classified by educational standards and eight livelihood classes. Information contained in this Table will give the number of persons in each industrial category of work by their educational qualifications. Ir 1951, illiterate persons were not classified according to their economic activity, which deficiency has now been made good.

2. In 1951 all degrees and diplomas—technical as well as non-technical—were given under one heading, viz., degree or diploma. This time technical diplomas and degrees have been distinguished from those of non-technical nature.

3. Educational levels shown in Part—A-are (i) Primary or Junior Basic, (ii) Matriculation or Higher Secondary, (iii) Technical Diploma not equal to degree, (iv) Non-technical Diploma not equal to degree, (v) University Degree or Post-Graduate Degree other than Technical Degree, (vi) Technical Degree or Diploma equal to Degree or Post-Graduate Degree with break-down into (a) Engineering, (b) Medicine, (c) Agriculture, (d) Veterinary and Dairying, (e) Technology, (f) Teaching and (g) Others. The qualifications of Pre-University course and Intermediate have been classified under Matriculation or Higher Secondary.

4. In some districts none has been returned with technical degree or diploma equal to degree or post-graduate degree in teaching. This may, perhaps, be due to multiple degrees such as 'B.A.,B.T.' and 'M.A.,B.T.' coded for the initial degree only for the classification by educational levels, in which cases degree or diploma in teaching was not taken note of. It is also likely that in some cases educational levels such as M.Sc. (Eng.), M.Sc. (Tech.), B. Sc. (English), etc., were recorded in the slips were assigned to university degree or post-graduate degree instead of technical degree.

5. The data presented in these tables reveals a few seemingly unusual facets which will bear mention here:

(*a*) There is a preponderence of females over males under the educational level 'Technical diploma not equal to degree' in the districts of Almora and Dehra Dun. This is due to the pooling up of figures for the diplomas as in sewing and tailoring, fruit preservation, etc., which draw more females than males.

(*b*) There are a few degreeholders in Agriculture under categories VI-Construction and VIII-Transport and Communications. A few cases of degree holders in Veterinary Science are found in category VI-Construction. These seem to indicate under-utilisation of technical personnel.

(*c*) In certain districts no degreeholders are reported in Engineering, Agriculture, Veterinary Science and Teaching; in few others no female degreeholders in Medicine have been returned. The absence of these figures is partly explained in para 4 above. Partly, it may be due to the absence of persons concerned at the time of enumeration from the places of their usual residence or due to enumeration error.

TABLE B-III PART B—INDUSTRIAL CLASSIFICATION OF WORKERS AND NON-WORKERS BY EDUCATIONAL LEVELS IN *RURAL AREAS ONLY*

Fly-Leaf

This Table presents a cross-tabulation of Workers in different categories and of Non-workers by educational levels for the *rural areas* of the State, Divisions and Districts, and thus provides detailed information regarding persons in different sectors of economy. Rural areas being predominantly agricultural, the presentation of data by detailed educational levels as was done in the case of urban areas has been considered unnecessary. Only four educational levels have been selected, viz., (i) illiterate, (ii) literate without educational level, (iii) Primary or Junior Basic, and (iv) Matriculation and Above.

2. A study of this Table with connected Tables on industrial classification (Table B-IV Parts A, B and C), occupational classification (Table B-V), and distribution of persons of different educational levels by age-groups (Table C-III Part C) can provide valuable information about rural manpower.

3. Distribution of 1,000 workers of each sex in each industrial category and non-workers by educational levels in *rural areas* of the State is given below:

Industrial Classification	Total		Illiterate		Literate (without educational level)		Primary or Junior Basic		Matriculation & Above	
	M	F	M	F	M	F	M	F	M	F
Total Workers	1,000	1,000	751	982	171	14	62	3	16	1

III	1,000	1,000	707	969	187	24	79	7	27	N
IV	1,000	1,000	725	954	214	36	56	9	5	1
V	1,000	1,000	556	956	274	33	118	7	52	4
VI	1,000	1,000	594	974	244	25	103	1	59	..
VII	1,000	1,000	445	956	397	38	131	5	27	1
VIII	1,000	1,000	526	948	248	38	132	8	94	6
IX	1,000	1,000	653	950	149	23	112	20	86	7
X	1,000	1,000	779	953	151	40	59	7	11	N

N=Negligible

The above Table reveals that out of total number of workers 75 per cent of males and 98 per cent of females are illiterate, 17 per cent males and one per cent females are literate without educational level, and only 8 per cent males and 0·4 per cent females have attained some educational standard. Amongst females in all categories of work the percentage of illiterates is above 94. Only in Category IX, 2·7 per cent females have reached some educational level. The Primary Sector and Household Industry have a very high percentage of illiterate workers in the State. The greatest extent of illiteracy is found among Agricultural Labourers of both sexes. The position, however, differs a little in respect of Categories V and VI where the percentage of illiterates is comparatively low amongst male workers. This is so because in these categories literacy to some extent is essential. In Categories VII and VIII the percentage of male illiterate workers is still lower as these activities require some degree of literacy. In Category IX the percentage of illiterates again shows an increase, because most of them are engaged in pursuits requiring no education. In males the lowest percentage (44) of illiterates is found in Category VII-Trade and Commerce—for obvious reasons, followed by Category VIII-Transport, Storage and Communications. The percentage of illiterates is quite high among non-workers.

Category VIII has the highest proportion of matriculates followed by Category IX.

TABLE B-IV PART A—INDUSTRIAL CLASSIFICATION BY SEX AND CLASS OF WORKER OF PERSONS AT WORK AT HOUSEHOLD INDUSTRY

Fly-Leaf

Persons working at Household Industry were included in one thing or the other in the past Censuses. On the advice of National Income Group, Household Industry has been given special recognition at the 1961 Census in view of its significant role. First it gives the dimension of workers engaged in Household Industry, which would help in estimating their contribution to the National Income. Secondly, it exhibits the sphere of unpaid family workers. The separate categorisation of Household Industry at this Census provides useful data much needed for the under-developed economy of the country.

2. The definition of Household Industry has been given in the Introductory Note to B-Series Tables. Since the distribution presented in this Table is of workers engaged solely in Household Industry, the figures are restricted to Division 0 with its Major Groups 00—04, Division 1 with its Major Group 10 and Divisions 2 and 3 with Major Groups 20-39.

3. This Table presents the distribution of workers engaged in Household Industry by industrial Divisions and Major Groups of the *A Standard Industrial Classification*, with suitable modifications, cross-tabulated by sex and employment status. The data have been presented by State, Divisions and Districts and for total, rural and urban. In general the classification of employment status adopted at the Census is (i) Employer, (ii) Employee, (iii) Single Worker and (iv) Family Worker for non-agricultural categories of workers; but in the case of Household industry only two classes of employment status, namely, 'Employee' and 'Others' have been adopted. 'Employees' are persons working for salary or wages in cash or kind in someone else's household industry. 'Others' are workers who are either employers, single workers or family workers in their own household industry.

4. Out of a total of 1,801,746 workers engaged in Household industry, only 106,011 or 5·88 per cent are working as employees in household industries run by others. The majority of employees engaged in household industry are in rural areas, being 71·5 per cent, and the remaining 28·5 per cent are in urban areas. Among the total Employees, the largest number is in Major Group 20—Food-stuffs. Besides this, Major Group 04 Livestock and Hunting, Major Group 23 Textile-Cotton, Major Group 26 Textile-Silk and Major Group 27 Textile-Miscellaneous the number have more than 10,000 Employees.

5. A List of Common Household Industries under Major Group of industries is given in the Annexure.

TABLE B-IV PART B—INDUSTRIAL CLASSIFICATION BY SEX AND CLASS OF WORKER OF PERSONS AT WORK IN NON-HOUSEHOLD INDUSTRY, TRADE, BUSINESS, PROFESSION OR SERVICE

Fly-Leaf

This Table gives the industrial distribution of workers in Non-Household Industry, Trade, Business, Profession or Service, by industrial Divisions and Major Groups of the *A Standard Industrial Classification* cross-classified by sex and employment status. Workers engaged as Cultivators, Agricultural Labourers and at Household Industry are not included in this Table.

2. This Table gives information for total and urban areas of the State, Divisions and Districts. Since the non-agricultural sector is predominant in the urban areas, the material has been presented for total and urban areas of each unit.

3. In accordance with the recommendations of the U.N.O. Population Commission, data by employment status were collected for the first time in 1951 Census. For this purpose only self-supporting persons had been taken into consideration, and the status of employment was classified as Employer, Employee and Independent Worker. In line with 1951, the Census of 1961 has also collected data for all categories of workers except Cultivators and Agricultural Labourers under four status of employment, viz., Employer, Employee, Single Worker and Family Worker. However, in case of Household Industry the data have been presented for 'Employee' and 'Others'. The Independent Worker of 1951 has been subdivided into Single Worker and Family Worker. In case of Employers and Employees their definitions at the 1961 and 1951 Censuses are, more or less, the same. Their 1961 definitions are given below:—

(i) *Employer* is a person who hires other persons to help him in the economic activity in which he is engaged.

(ii) *Employee* is a person who usually works under some other person for salary or wages in cash or kind.

(iii) *Single Worker* is a person who works by himself. He is not employed by anyone else and in his turn does not employ anyone, not even members of his household except casually. A person who works in joint partnership with one or several persons without hiring any employee is also a *Single Worker.*

(iv) *Family Worker* is a member who works without receiving wages, in cash or kind, in any industry, business or trade conducted mainly by members of the family and ordinarily does at least one hour of work every day during the working season. Members of the household who help solely in household duties are non-workers, and are not, therefore, treated as *Family Workers.*

4. This type of cross-tabulation of working force by status of employment brings out some important differentials of the socio-economic set up. The following Table for the State giving the number of workers by their status per 1,000 of workers in Non-Household Industry, Trade, Business, Profession or Service reveals the utility of the cross-tabulation resorted to:

Total/ Rural/ Urban	Total Workers	Employers	Employees	Single Workers	Family Workers
Total	1,000	54	442	438	66
Rural	1,000	36	349	526	89
Urban	1,000	76	550	335	39

The above Table reveals that in rural areas the highest proportion (526) is of Single Workers, while in urban areas the highest proportion is of Employees (550). In rural areas the proportion of Employers is the lowest (36) among the four kinds of employment status, while in urban areas that of Family Workers (39). As compared to the proportion of Employers which is 36 in rural areas, it is 76 in urban areas. In both the areas, however, 88 per cent workers are Employees and Single Workers.

STANDARD INDUSTRIAL CLASSIFICATION

This classification groups the industries into

9 Divisions

45 Major Groups

343 Minor Groups (not reproduced here)

The divisions and major groups with their Code numbers are listed below:

DIVISIONS

0	Agriculture, Livestock, Forestry, Fishing and Hunting
1	Mining and Quarrying
2 & 3	Manufacturing
4	Construction
5	Electricity, Gas, Water and Sanitary Services
6	Trade and Commerce
7	Transport, Storage and Communication
8	Services
9	Activities not adequately described

	Dog breeding, rearing of rabbits and guinea-pigs
	Rearing of other small animals and insects n.e.c.
	Collection of bones
	Manufacture of glue from animal carcasses
	Manufacture of gut
	Production of other animal husbandry products such as skin, ivory, teeth and hair, etc.
Major Group 10	**Mining and Quarrying**
	Extraction of chalk
	Quarrying of lime-stone
	Stone and slate quarrying
	Quarrying of sand, clay, gravel, etc., n.e.c.
Major Group 20	**Foodstuffs**
	Production of flour by village chakkies or flour mill by grinding wheat, maize, gram, etc.
	Hand pounding of rice by Dhekhi or Ukhal
	Production of rice by milling, dehusking and processing of paddy by rice mill

Industrial Code Number	Household Industry
Major Group 20	**Foodstuff**—*concld.*
	Grinding of chillies, turmeric, etc.
	Production of pulses
	Parching of grains
	Production and processing of other crops and food grains n.e.c.
	Gur and Khandsari making from sugarcane and palm
	Production of bhoora and candy
	Production of jaggery from coconut and palmyra juice (neera)
	Production of other indigenous products from sugar and jaggery n.e.c.
	Manufacture of achar, pickles, chutney and murabba
	Production of sauce, jam and jelly
	Processing of cashew nut
	Manufacture of kokam products
	Fruit preservation (canning of fruits)
	Making dried vegetables
	Production of other fruit products and preservation of fruits n.e.c.
	Slaughtering, preservation of meat and fish and canning of fish
	Fish currying or curing and salting (currying applies more to skin and hide)
	Production of bread, biscuit, cake and other bakery products

	Manufacture of bidi
	Manufacture of cigars and cheroots
	Manufacture of hookah tobacco
	Manufacture of snuff
	Manufacture of jerda, kimam, khaini and other chewing tobacco
	Manufacture of other tobacco products n.e.c.
Major Group 23	**Textile—Cotton**
	Cotton ginning, cleaning, carding, pressing and baling
	Cotton spinning (by charkha and takali)
	Dyeing of cloth (cotton) and yarn
	Bleaching of cloth (cotton) and yarn
	Tie and dye (bandhani) of cloth and yarn
	Cotton cloth weaving in powerlooms
	Cotton cloth weaving in handlooms
	Manufacture of khadi textile in handlooms
	Printing of cloth (cotton)
	Making of fishing net
	Making of mosquito net
	Making of other nets
	Making of sacred thread
	Making of thread, rope, cordage and twine (cotton)
Major Group 24	**Textile—Jute**
	Jute pressing and baling
	Jute spinning and weaving of mats, asanis, etc.
	Dyeing and bleaching of jute
	Making of rope and cordage, out of hemp
	Making of rope and cordage, out of jute
	Making of rope by palm fibre
	Making of rope by date palm fibre
	Making of fibre, sunn-hemp fibre
	Making of other products from jute and similar fibres such as hemp, mesta

Industrial Code Number	Household Industry
Major Group 25	**Textile—Wool**
	Wool baling and pressing
	Cleaning, sorting, carding, scouring and processing of wool
	Spinning of wool by charkha or takali
	Weaving of woollen cloth in powerloom such as blankets, asanis, etc.
