PREFACE

The reference date for the 1971 Census of India was the sun-rise of April 1, 1971. The provisional population totals, giving the population by sex and the literates, were released on April 15, 1971, through Paper No. I of 1971 (Punjab Series) and a Supplement giving the rural/urban break-up of the population and a broad picture of total workers was released on May 5, 1971. After the complete sorting of the Census Individual Slips, the final population figures, giving the distribution of population among the administrative units down to the level of tahsils and towns in the State and also important Scheduled Caste population in each of these administrative units were released through General Population Tables—PartII-A-Series-17—Punjab. The distribution of population by workers and non-workers and the break-up of the workers according to the nine broad industrial categories was also presented in Part II-A for each of the aforesaid administrative units.

We are now releasing Part II-B, containing all the Economic Tables, through this single volume. These tables, 19 in number, have been listed in the introductory part of this volume. Out of these, two tables (B-I Part A and B-II) are based on full count and the rest on a 10 per-cent rural and 20 percent urban sample. The age-groups adopted in 1961 Census were 0—14, 15—34, 35—59 and 60+. The 1971 economic data, however, have been presented by eight age-groups, *viz.*, 0—14, 15—19, 20—24, 25—29, 30—39, 40—49, 50—59 and 60+ ,which should be of special significance to researchers for demographic studies.

The data presented in this volume reveal that only 28·87 per cent of the total population of the State are workers while the national average is 32·92 per cent. Of the total workers in Punjab, males represent 98·11 per cent and females 1·89 per cent. Significantly, non-workers constitute 71·13 per cent of the total population. Among the males, the crude work participation rate is 52·82 per cent while among females 1·18 per cent. Cultivators constitute the largest proportion, 42·56 per cent, of the total workers and the second largest proportion is accounted for by agricultural workers, 20·11 per cent. Nearly two out of every three workers in Punjab continue to depend on agriculture (Primary sector) despite the phenomenal growth of the small industry sector, trade, commerce etc. The proportion of workers in the secondary sector works out to 13·28 per cent and in the tertiary sector to 23·09 per cent. Punjab's man-power in agriculture is thus characterised by two prominent features : (*i*) female cultivators as well as agricultural labourers have declined in numbers and (*ii*) male cultivators as well as agricultural labourers have increased in the decade 1961-71 and the rate of increase in the later category is almost spectacular, 135·11 per cent.

Punjab's overall work participation rate has gone down from 31·13 per cent to 28·87 per cent in the last decade partly due to the definitional change of 'work' and partly because the growth rate of the economy in the non-agricultural sector has not kept pace with the growth rate of population. The traditionally lowest work participation rate among the females in Punjab continues to have a sagging impact on the overall work participation rate in Punjab *vis-a-vis* some of the other states. Punjabis are still not progressive enough, particularly in the rural areas, to assign any economic activity to their women-folk and this obviously has resulted in the lowest ever work participation rate of females. We have tried to furnish answers to various questions that have cropped up in analysing these date. All the same demographers and man-power planners are welcome to go deeper into these questions for the benefit of the people of this State.

It will be observed that the male work participation rate in Punjab is not in any way poorer compared to that of some of the other states. We have certainly not been able to provide jobs to all those who have entered the labour market in the last decade in the wake of the 'population explosion' which is neutralizing our attempts to stabilise the employment situation in the State. The inflow of labour to the modern sector has actually been more than it can handle, a characteristic of our labour surplus economy. Those formerly in disguised

unemployment in the rural sector have, in effect, transformed into visible unemployment in the modern sector. We must, therefore, remove the causes of rural 'supply push' and help contain the labour force in the rural areas. A full-scale programme of rural development is needed to absorb and retain large amounts of man-power. If the rural to urban migration is to be reduced, it is necessary to modify policies that have turned the terms of trade against the agricultural sector. Efforts will also have to be made to disperse some of the public services now concentrated in urban areas to the rural sector, like ruralization of medical and health services. In the present context of growing population, "human resources are both a challenge and an opportunity." Success depends on how well they perform and contribute to the achievement of the specific objectives. In short, we must recognize the fact that we are in an "anxious race between demography and development." Punjab is faring somewhat better than the other states in this race because there have been relatively more job opportunities in the agrarian and small industry sectors. But all said and done in the words of our Prime Minister, Smt. Indira Gandhi : "We must now act decisively and bring down the birth rate speedily to prevent the doubling of our population in mere 28 years. We should not hesitate to take steps which can be described drastic. Some personal rights have to be kept in abeyance for the human rights of the nation.....the right to live, the right to progress." This is perhaps the most significant step to meet the challenge of unemployment.

The preparation of these tables has involved participation of a large number of workers right from the sorting of individual slips to the striking of final totals and making cross-tabulations. It is difficult to single out individual workers to express our gratitude for their undivided attention and patience for this kind of an arduous work. We place on record our deep sense of appreciation for all those who have contributed generously towards the completion of these tables. In particular, we acknowledge gratefully the valuable help given by our colleague Shri J.C. Kalra, then Assistant Director of Census Operations and who was assisted ably by Shri D. P. Jain, Tabulation Officer in the completion of this task.

We owe a debt of gratitude to the master planners and architects of the 1971 Census, Shri A. Chandra Sekhar, Registrar General, India and Shri R.B. Chari, currently Registrar General, India for their valuable guidance and encouragement in the production of this volume. To Shri K.K. Chakravorty, Assistant Registrar General (Census) we are equally indebted for the patience and industry shown by him in arranging for the scrutiny of these voluminous tables to ensure their accuracy and quality. We are grateful to Shri V. J. Kishore, Assistant Manager, Government of India Press., Simla for his help in the printing of this report with good speed and care.

INTRODUCTION

The present volume presents the basic economic characteristics of the population as revealed through the decennial Census of 1971. The scope of collection of economic characteristics came in for reappraisal—as at the past Censuses—at the 1971 Census. The concepts and definitions also underwent changes though efforts were made at maintaining continuity to the extent possible. In India at each Census an effort has been made to benefit from the shortcomings of the previous definitions and to evolve a realistic definition of 'worker'. Information on the basic economic characteristics of the population has been gathered, through Census, since 1872. In 1872, an attempt was made to collect data on occupation. In the 1881 Census, no distinction was made between 'earner' and 'dependent workers' or 'non-workers'. The occupation of every person who actually did work and the chief source of income of their having any occupation were recorded. In the 1891 Census, data were collected for both workers and those dependent upon them. If a person had no regular work, the means on which he depended such as rents, pension etc., was recorded. In the case of non-working children and women, occupation of those who supported them was recorded. At the 1901 Census actual 'workers' and 'dependents' were recorded. In 1911 and 1921, no change was effected except that in 1921 women and children were also classified as workers if they did any work which contributed to the family income. In 1931 Census, for the first time a person was classified as an 'earner' or 'dependent' within an intermediary category of 'working dependent'. In the 1941 Census, the term 'earner' was given up and the concepts of 'fully dependent' and 'partly dependent' were introduced, but tables were not published for a larger part of the country owing to the pre-occupation of the then rulers with the Second World War. In the 1951 Census the concepts of 'self-supporting persons' and 'earning dependents' were introduced. In the 1961 Census the categorization was on the basis of 'workers' and 'non-workers'. For the first time information on non-workers was also collected. In the 1971 Census, in addition to this categorization, the concept of 'Main Activity' was evolved.

In none of the Censuses there were any directions regarding priority of questions in the Census Schedules except in 1971 when instructions were issued that question-17 should only follow after question 16. In the 1961 Census it was stipulated that all the four questions (Questions : 8, 9, 10 and 11) had to be canvassed first before a person was to be recorded as a 'non-worker' in question-12. To sum up, from 1901 to 1951 we had the 'means of livelihood' approach according to which a person was classified into categories roughly corresponding to what is now labelled as 'workers' if he reported his usual status as one of earning or assisting in the earning of livelihood. In the 1961 and 1971 Censuses, however, it was decided to shift to the 'labour force' approach in which a person qualifies as a 'worker', if his activity for the reference period is in the nature of productive work. The rubrics used were 'workers' and 'dependents' from 1901 to 1921; 'earners', 'working dependents' and 'non-working dependents' in 1931; 'self-supporting persons', 'earning dependents' and 'non-earning dependents' in 1951 and 'workers' and 'non-workers' in both 1961 and 1971. Persons at the 1971 Census have been classified according to their activity status in the reference period (and not usual status as in the earlier Censuses) and they qualified themselves for the category of 'workers' if they were engaged in productive work during the reference period.

It was the opinion of the experts that the 1961 definition of 'work' was on the liberal side which had exaggerated the participation rates. At that Census a person was categorized basically as an economically active worker even if such a person's contribution to work was extremely marginal. In respect of seasonal work like agriculture or household industry, if a person had put in an hour's work a day during the major part of the working season, such a person was treated basically as an economically active worker. So much so if a woman who is basically engaged in attending to household duties, went to her husband's field taking his lunch and for about an hour or so she tended the cattle she was straightaway treated as engaged in cultivation. Similarly a full-time student if he sat for a little time, however short the period might have been, in his father's shop even on a single day in a fortnight, he was treated as an economically active worker and his basic characteristic as a wholetime student was ignored. Besides, the sequence of questioning to ascertain the economic activity at the 1961 Census was : every person was compulsorily asked if he was engaged in (*i*) cultivation, (*ii*) in agricultural labour, (*iii*) at household industry (*iv*) in any other work in the above order. A person who is basically agricultural labourer even if he cultivated just a couple of cents of land in his backyard declared himself first as cultivator and then a agricultural labourer. No doubt, instructions were issued at the later stage that after ascertaining the economic activity under the four items referred to

above, enumerators were required to put a circle against the question which represented the main work i.e. the one on which the person spent most of his time and to tick the entry relating to the item that formed secondary work. But it so happened that several enumerators could not follow these instructions either due to delayed receipts of instructions or on account of non-appreciation of the concepts. At the stage of editing the schedules in the tabulation offices subsequently, the instructions were to the effect that where economic activity was recorded against cultivation, agricultural labour and household industy and if there was no indication of which among them formed the main acitivity, cultivation was treated as the main activity. This introduced a definite bias in favour of persons being categorized as cultivators. Therefore, the participation rate in cultivation at the 1961 Census got inflated. There were also instructions to the effect that if a person besides attending to any economic activity was also attending to household duties, the fact of such a person being engaged additionally as a house-wife should also be recorded in parenthesis. The intention apparently was to bring out the picture of such of the workers who might have been basically house-wives but participated in work marginally. But unfortunately no tabulation was attempted of the cases where a person was basically housewife or wholetime student but had been noted as economically active worker for classification. This deficiency in 1961 Census concept was sought to be rectified by adopting a different approach at the 1971 Census.

Late Professor D.R. Gadgil, the then Vice-Chairman of the Planning Commission called a special meeting of the Planning Commission to consider the scope and concepts for the 1971 Census as the Planning Commission was the largest user of the Census data. As a result of the deliberations of this meeting the following decisions were taken :

(*i*) Every person will be categorized with respect to the main activity as reported by him. [The concept of main activity has been introduced for the first time in the history of Census.]

(*ii*) Persons who are basically students, house workers and rent receivers, etc., will be classified accordingly for their main activity. Any gainful activity that these individuals may have but not on the scale of full-time workers will be shown under secondary work.

(*iii*) Census data may not provide data on under or unemployment as such.

It was after deep consideration and with expert advice that the present concept of 'worker' and 'non-worker' came to be adopted for the 1971 Census of India. At this Census every individual was required to declare himself what according to him was his main activity. If his answer indicated that he was an economically active worker, he was classified as working as a cultivator or as an agricultural labourer or at household industry or any other work, such as forestry, mining, manufacture, trade, transport, service etc. If a person returned himself basically as not engaged in any economic activity, such a person was required to state if he/she was engaged in household duties or was a student, retired person or a rentier, a dependent, a beggar or vagrant, inmate of a charitable or penal institution or other non-worker as being mostly an unemployed person. In addition, at this Census everyone was also asked to state if he/she attended to any secondary work so as to get an account also of the marginal contribution to work made by persons who had declared themselves basically as a housewife or a full-time student etc.

A 'worker' according to 1971 Census, is a person whose main activity is participation in any economically productive work by his physical or mental activity. Work involves not only actual work but also effective supervision and direction of work. The reference period is one week prior to the date of enumeration in the case of regular work, in trade, profession, service or business. If a person had participated in any such regular work on anyone of the days during this reference period and this had been returned as his main activity, the person was categorised accordingly. A person who normally worked but had been absent from work during this reference period on account of illness or travel, holiday, temporary break down, strikes etc., the person was treated as engaged in regular work in which he would have been employed but for his temporary absence. Persons under training such as apprentices with or without stipends or wages have been considered as economically active and recorded as 'working'. A person who has merely been offered work but had not joined it, was not treated as engaged in work. There are certain types of work which are not carried out throughout the year such as cultivation, livestock, keeping, plantation work, some types of household industry etc. A person's main activity was ascertained with reference to such work in the last one year even if he was not economically active in the week prior to enumeration. It is likely that even when a person is engaged in some other work, during the period of reference, prior to the date of enumeration, the main activity of the person may be cultivation agricultural labour or some other work attended

to normally by him in the course of the year. Care was to be taken to see that the main activity was properly ascertained in such cases, e.g., a person's main activity may be agriculture labour and in the week prior to enumeration he may be engaged as a sugarcane factory labourer or as a road coolie. He was categorized for his main activity as agricultural labourer only as returned by him as he engaged himself mostly in that work and the other work was treated as his subsidiary work. A man or women who were engaged primarily in household duties such as cooking for own household or performing one's own household duties or a boy or girl who was primarily a student attending institution, even if such a person had helped in the family economic activity but not as a full time worker was not treated as a worker for the main activity. On the other hand if a person was primarily engaged in some economic activity but at the same time also attended to some household chores or attended a night school etc., he or she was treated basically as a worker for the main activity and categorized accordingly. A person who merely received an income such as a rent receiver or a pensioner who did not have to work for receiving the income was not treated economically active unless the person was also engaged in some economic activity and if that activity was returned as the main activity of the individual.

According to 1961 Census, the basis of work was satisfied in the case of seasonal work like cultivation, livestock, dairying, household industry etc. if a person had some regular work of more than one hour a day throughout the greater part of the working season. In the case of regular employee in any trade, profession, service, business or commerce, the basis of work was satisfied if a person was employed during any of the 15 days preceding the day on which the household was visited.

The following economic questions were asked at the 1971 Census in the order they are presented :

Q. 16. Main Activity

(*a*) Broad category

(*i*) Worker

(*ii*) Non-worker

(*b*) Place of work
(Name of village/town)

(*c*) Name of Establishment

(*d*) Nature of Industry, Trade, Profession or Service.

(*e*) Description of work

(*f*) Class of worker

Q. 17. Secondary Work

(*a*) Broad category

(*b*) Place of work
(Name of village/town),

(*c*) Name of Establishment

(*d*) Nature of Industry, Trade, Profession or Service

(*e*) Description of work

(*f*) Class of worker

The instructions to enumerators for recording replies of the informants to these questions have been reproduced in Appendix I.

Non-workers were treated as those whose main activity, by definition, was not economically productive. There are seven broad types of non-workers and these are covered in household duties, students, retired persons or rentiers, dependants, beggars, persons living in institutions and other non-workers.

Workers have been classified into four broad categories :

(*i*) Cultivators

(*ii*) Agricultural Labourers

(*iii*) Household Industry

(*iv*) Other Workers

All persons who were workers but not engaged in cultivation, agricultural labour or household industry have been classified as 'Other Workers'. This would include factory workers, those working in trade, transport, all government servants, municipal employees, teachers, mining workers, political and social workers, building labourers etc. In effect all types of economic activity not being covered by cultivation, agricultural labour or household industry comes under this category. Workers engaged in plantation or forestry have not been treated as cultivators or agricultural labourers but as 'Other' category of workers.

For the purpose of presentation of Census data, all workers have been classified into nine broad Industrial categories :

Category :

I	Cultivators
II	Agricultural Labourers
III	Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities.
IV	Mining and Quarrying

V Manufacturing, Processing, Servicing and Repairs :
(a) Household Industry
(b) Other than Household Industry

VI Construction

VII Trade and Commerce

VIII Transport, Storage and Communications

IX Other Services

Non-workers have been classified in Category X.

The classification of the workers by different industrial categories follows almost the classification adopted at the 1961 Census except for two minor changes (*i*) Mining and Quarrying Category has been taken cognizance and given separate recognition at the 1971 Census and is constituted into a separate category of Mining and Quarrying, *i.e.*, Category IV as against a combined category of Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities—Category III in the 1961 Census; (*ii*) the 1961 Census Category IV of 'Household Industry' is included in Category V—Manufacturing etc. and treated as a sub-category V(a). At the 1961 Census 'Household Industry' covered establishments falling under Division 0 and 1 of the National Industrial Classification, for example, cattle rearing, orchards, plantations etc. apart from Divisions 2 and 3. At the 1971 Census, 'Household Industry' is confined to Divisions 2 and 3 only *i.e.*, it covers Manufacturing, Processing, Servicing or Repairing only.

The Industrial Category I to IX adopted for the tabulation are linked with the National Industrial Classification, 1970 (N.I.C.). The N.I.C. consists of 10 Divisions, 66 Major Groups and 385 Minor Groups which are distributed among the nine Industrial Categories of the Census.

The data on workers and non-workers have been classified into eight age-groups : 0-14, 15-19, 20-24, 25-29, 30-39, 40-49, 50-59, 60+. It departs from the 1961 Census in the formation of age-groups. The age-groups adopted at the 1961 Census were 0-14, 15-34, 35-59 and 60+. The newly adopted sub-age-groups are provided with a view to giving better and more comprehensive insight into advanced demographic studies.

The main Census tables that have been built up, giving the economic characteristics of the population, are listed below.

B-I Part A : Workers and Non-Workers according to main Activity classified by Sex and Age-groups.

B-I Part B : Female Workers and Non-Workers according to main Activity classified by Marital Status and Age-groups.

B-II : Workers and Non-Workers in cities and non-city urban areas according to main Activity classified by Sex and Age-groups.

B-III Part A : Classification of Workers and Non-Workers according to main activity by Educational levels in Urban Areas only.

B-III Part B : Classification of Workers and Non-Workers according to main activity by Educational levels in Rural areas only.

B-IV Part A : Industrial classification of Persons at work other than at cultivation as main activity by sex and Division, Major groups and Minor groups.

Appendix : Industrial classification of Persons at work other than at cultivation as main activity by sex and Division, Major groups and Minor groups. Distribution of workers in Manufacturing, Processing, Servicing and Repairs by Household Industry and Non-Household Industry.

B-IV Part B : Industrial classification of Workers in Manufacturing, Processing, Servicing and Repairs on Household Industry basis as main activity by Sex and Class of Workers.

B-IV Part C : Classification of Workers in Non-household Industry, Trade, Business, Profession or Service as main Activity by class of Workers, Age and Sex.

B-IV Part D : Industrial classification by Sex and class of workers of Persons at work in Non-Household Industry, Trade, Business, Profession or Service as main activity.

B-V Part A :	Occupational classification by sex of Persons at work according to main activity other than cultivation.
B-V Part B :	Occupational classification by Sex and Class of workers in Non-household Industry, Trade, Business, Profession or Service as main activity.
B-VI Part A(*i*) :	Occupational classification of persons at work according to main activity other than cultivation classified by Sex and Age-groups in Urban Areas only.
B-VI Part A(*ii*) :	Occupational classification of persons at work according to main activity other than cultivation classified by sex and Educational levels in Urban Areas only.
B-VI Part B(*i*) :	Occupational classification of persons at work according to main activity other than cultivation by Sex and Age-groups in Rural areas only.
B-VI Part B(*ii*) :	Occupational classification of persons at work according to main activity other than cultivation classified by sex and Educational levels in Rural Areas only.
B-VII :	Secondary work *i.e.*, Persons having main activity (*i*) Cultivators (*ii*) Agricultural Labourers (*iii*) Household Industry (*iv*) Non-household Industry, Trade, Business or service and (*v*) Non-Workers classified by Sex and by secondary work (*i*) Cultivators (*ii*) Agricultural Labourers (*iii*) House hold Industry (*iv*) Non-Household Industry, Trade Business or Service.
Appendix	Do.
	Distribution of persons having secondary work as Non-household industry.
B-VIII :	Persons classified as Non-workers according to main activity cross-classified by Sex, Age-groups and type of Activity.
B-IX Part A :	Non-workers categorised as others aged 15 and above classified by Sex, Age-groups and Educational levels in Urban Areas only.
B-IX Part B :	Non-workers categorised as others aged 15 and above classified by Sex Age-groups and Educational levels in Rural areas only.

Out of these nineteen tables, two are based on full count and the rest are on a 10% rural and 20% urban sample. The two tables which are based on full count are B-I Part A and B-II. The tables prepared from 10 per cent rural and 20 per cent urban sample slips have been inflated to give the final estimated tables. Though multiplication of each of the cells of the sample tables by 10 in case of rural areas and by 5 in case of urban areas uniformly provides what are called unbiased estimates of their frequencies, improved estimates have been obtained by making use of the cell frequencies (familiarly known as control figures or simply 'controls') available from the tables prepared on full count basis; namely Primary Census Abstract and Table B-I Part A in the main. It was ensured that marginal totals of estimated cell frequencies in any of the final census tables tally with the corresponding cell frequencies of the full count tables. Further in order to ensure as much consistency as possible between the tables in respect of other characteristics, it was found necessary to use the estimated frequencies of a few of the final tables as controls for estimating some cells of certain other tables.

A note on the sampling procedure adopted in the 1971-Census and expected size of universe required for estimating proportions based on a 10 per cent and 20 per cent sample, at pre-assigned levels of precision, received from Registrar General's office is reproduced as Appendix II.

Each table presented in this report is preceded by a fly-leaf which explains in brief the broad features of the table and mode of presentation of data in that table.

APPENDIX I

INSTRUCTIONS TO ENUMERATORS REGARDING RECORDING OF MAIN ACTIVITY

Question 16 : Main Activity

"Every person will be asked what his main activity is, that is, how he engages himself mostly. For the purpose of this question, all persons will get themselves divided into two broad streams of main activity namely, (1) as workers and (2) as non-workers according as the type of main activity that the person returns himself as engaged in mostly.

'Worker' defined : A worker is a person whose main activity is participation in any economically productive work by his physical or mental activity. Work involves not only actual work but effective supervision and direction of work.

Reference Periods : The reference period is one week prior to the date of enumeration in the case of regular work in trade, profession, service or business. If a person had participated in any such regular work on any one of the days during this reference period and this has been returned as his main activity, the person will be categorised accordingly. A person who normally works but had been absent from work during this reference period on account of illness or travel, holiday, temporary breakdown, strike etc., the person should be treated as engaged in regular work in which he would have otherwise been employed but for his temporary absence. Persons under training such as apprentices with or without stipends or wages should be considered as economically active and recorded as working. A person who has merely been offered work but has not actually joined it, is not to be treated as engaged in work.

There are certain types of works which are not carried on throughout the year such as cultivation, livestock keeping, plantation work, some types of household industry, etc. A person's main activity should be ascertained with reference to such work in the last one year even if he was not economically active in the week prior to enumeration. It is likely that even when a person is engaged in some other work during the period of one we prior to the date of enumeration, the main activity of the person may be cultivation, agricultural labour or some other work attended to normally by him in the course of the year. Care must be taken to see that the main activity is properly ascertained in such cases. For example a person's main activity may be agricultural labour and in the week prior to enumeration he may be engaged as a sugar-cane factory labourer or as a road cooly. He should be categorised for his main activity as agricultural labourer only as returned by him as he engaged himself mostly in that work and the other work should be treated as his subsidiary work.

A man or woman who is engaged primarily in household duties such as cooking for own household or, performing one's hown use-hold duties or a boy or a girl who is primarily a student attending institution, even if such a person helps in the family economic activity but not as a full time worker should not be treated as a worker for the main activity. On the other hand, if a person is primarily engaged in some economic activity but at the same time does also attend to some household chores or attends a night school etc., he or she should be treated basically as a worker for the main activity and categorised accordingly.

A person who merely receives an income such as a rent receiver or a pensioner who does not have to work for receiving the income, will not be treated as economically active unless the person is also engaged in some economic activity and if that activity is returned as the main activity of the individual.

Question 16 (a) (i) : Worker (C, AL, HHI, OW)

The enumerators were further instructed that "where the main activity of a person qualifies him to be treated as a worker he should be further categorised according to the type of work and one of the appropriate abbreviations indicated against his question should be entered in the box provided for the purpose. If the person is not engaged in any economic activity an 'X' should be noted in the box. The abbreviations to be used for workers are explained below :

C : *Cultivator*

For a person who returns his main activity as working as a cultivator, the abbreviation 'C' should be used.

AL : *Agricultural Labourer*

A person who returns his main activity as engaged as agricultural labourer, the abbreviation 'AL' should be used in the box.

H.H.I :*Household Industry*

For a person who returns his main activity as engaged in some production, processing, servicing or repair of goods such as, say handloom weaving, dyeing, carpentry, bidi rolling, pottery manufacturer, bicycle repairing, blacksmithy, tailoring etc., it has to be ascertained if it is a household industry, and if so, it should be indicated by the abbreviation 'HHI' in the box.

OW : *Other Workers*

If a person gives his main activity as engaged in any other work which is not cultivation, agricultural labour or household industry, this may be indicated by merely noting 'OW' in the box. The type of workers that may come under the 'Other Workers' category are factory workers, those working in trade or transport, all Government servants, Municipal employees, teachers, mining workers, political or social workers, building labourers, etc. etc. In effect all types of economic activity not covered by cultivation, agricultural labour or household industry will come under this residual category. Workers engaged in plantation or forestry should not be treated as cultivators or agricultural labourers but as 'Other Workers'.

Question 16(a) (ii): Non-Worker (H, ST, R,D,B,I,O.)

This question was designed to categorise those whose main activity is not engaged in any economically productive work but are basically non-workers. These were categorised under seven broad heads whose abbreviations were indicated against this question. The appropriate abbreviation was to be entered in the box provided. The abbreviations were explained as below :

H : *Household Duties*

his covers all those persons basically engaged in unpaid home duties doing no other work or even if such a person may also be participating in some other work, it is not to the same extent as a whole time worker and if the person has returned his or her main activity as attending to household duties. The main activity of such a person should be entered as 'H'. If a person whose main activity is attending to household duties, also engages oneself in some other economic activity such as helping in family cultivation or preparing cowdung cakes at odd times for sale etc., that economic activity will be covered as secondary work under question 17. On the other hand, a woman who works primarily as a factory worker or a plantation labourer or an agricultural labourer or in some office or shop etc., and also attends to household duties, obviously her main activity will be the economic activity in which she is mostly engaged in and should not be categorised as 'H' for her main activity in this question. She should have been treated basically as a worker and her main economic activity should have been recorded against 16 (*a*) (*i*).

ST : *Student*

This refers to those whose main activity is returned as a student. This will cover all full time students or children attending school. Even if such persons participated in some work but not to the same extent as a full time worker, by merely helping casually as an unpaid family worker in family cultivation, household industry, trade or business, they should be treated primarily as students, if that is their main activity. 'ST' should be entered in the box. The other economic activity, if any, that such persons attend to will be reflected under question 17 as secondary work

R : *Retired Person or a Rentier*

A person who has retired from service and is doing no other work i.e., not employed again in some full-time work or does not engage himself in some other work as cultivation, in business, trade etc., or a person who is a rentier or living on agricultural or non-agricultural royalty, rent or dividend or any other person of independent means for securing which he does not have to work, will come under this category. 'R' should be noted in the box for a person coming under this category.

D : *Dependent*

This category will include all dependents such as infants or children not attending school or a person permanently disable from work because of illness or old age. If a girl or an old woman attends to household duties she should be categorised under 'H' for her main activity rather than D.

Dependents will include all non-workers even if able-bodied who have no other activity coming under any of the categories of non-workers and who are not seeking any work either but are purely dependent.

B : *Beggars etc.*

This will cover beggars, vagrants or such cases as independent women without indication of source of income and those of unspecified sources of subsistence and who are not engaged in any economically productive work.

I : *Institutions*

This will cover convicts in jails or inmates of penal, mental or charitable institution, even if such persons are compelled to do some work such

as carpentry, arpet weaving, vegetable growing etc., in such institutions. An under-trial prisoner in a jail should not, however, be brought under this category but has to be indicated according to the main activity he was engaged in before he was apprehended. Inmates of such institutions will be noted as 'I'.

O : *Other Non-workers*

This will include all non-workers who may not come under any of the six categories above but are seeking work, they should be noted as 'O' in the box. A boy or girl who has completed education or has stopped studying and is seeking work, will come under this category. If a person is merely spending his time at home as a dependent and is not doing any work and is not seeking any work will come under 'D' rather than 'O'. A person irrespective of age and whether educated or not, if he reports that he is not engaged in any other activity but is seeking work will come under this category.

If the main activity of the person who is enumerated does not qualify a person to be treated as a worker and he does not fall under any of the four broad categories of workers covered by 16(*a*)(*i*) and an 'X' has been put in the box against that question, then he must necessarily be categorised under any one of the seven broad types of non-workers and the appropriate abbreviation entered in the box opposite to question 16 (*a*)(*ii*). Conversely if a person has already been treated as a worker and his main activity has been in the box against question 16(*a*)(*i*), then question 16(*a*)(*ii*) will not apply to the person and an 'X' should be put in the box against question 16(*a*)(*ii*). Thus 16(*a*)(*i*) and 16(*a*)(*ii*) are mutually exclusive.

Question 16(b) to 16(f)

These sub-parts of question 16 were required to be filled only to describe the details of the household industry or other work indicated against question 16(*a*)(*i*). If the main activity has been shown as 'C' or 'AL' against 16(*a*)(*i*), there was no need to give the details of the cultivation or agricultural labour in these sub-sections.

Question 16(b) : Place of work (Name of village/town)

Ascertain from each person who is already taken as a worker other than in cultivation or agricultural labour i.e., question 16(*a*)(*i*) has been answered as HHI or OW, the village or town where he or she works. If the place of work is the same as the village or town of enumeration write 'PL'. In all other cases you should write the name of the place fully. If a person has no fixed place of work such as say, a travelling vendor of vegetables or a pedlar, or a rickshaw puller who may go from one village or town to another, note 'No fixed place of work'. If he works in one particular town or village that should be noted.

Question 16(c) : Name of Establishment

This question and the subsequent sub-sections of question 16 need not be answered for cultivators and agricultural labourers who are already noted as 'C' or 'AL' against question 16(*a*)(*i*).

Record here the exact name of the factory, firm, workshop, business house, company, shop, office etc., and in respect of public offices you should clearly indicate whether they are Central or State Government or local body offices etc. If the establishment does not have any definite name such as, say, in the case of a household industry like hand-ponding of rice, gur making, bee keeping, handloom weaving, potter's house, blacksmithy etc. note 'No particular name'.

Question 16(d) : Nature of Industry, Trade, Profession or Service.

The answer to this question will have to be adequately precise to enable proper classification of the sector of economy in which the person is working. The sector of economy in which a person works may relate to (*i*) Plantation, Forestry, Fishing, Livestock etc., (*ii*) Mining and/or Quarrying (*iii*) Manufacturing (*iv*) Construction (*v*) Electricity, Gas or Water Supply, (*vi*) Transport and Communications (*vii*) Trade and Commerce (*viii*) Professions and Services. Full details of the type of industry, trade, profession or service in which the person is engaged will have to be recorded here.

Question 16(e) : Description of work

This question has to be filled up for all persons for whom the main activity is shown as 'HHI' or 'OW' in question 16(*a*)(*i*) and for whom you should have also to answer the other sub-sections of question 16. Under this question, the description of the actual work that the person enumerated is doing is to be recorded irrespective of which type of industry, trade, profession or service he may be working and which is already recorded under question 16(*d*). His actual work should also be given in sufficient detail. If for example a person is merely recorded as say, clerk with no other details, it will be impossible to properly categorise him as to the type of work he does. He may be a clerk attending to correspondence or book keeping or accounting. Similarly if a person were merely to be recorded as a mechanic, it will not help to determine what

type of mechanic-electrical mechanic, or a motor mechanic or a locomotive mechanic, etc., he is. The description of the actual work done by a person should be ascertained in adequate detail and recorded against this question.

It has been found in the past that substantial number of persons are recorded merely as general labourers. It is necessary to make a probe and find out in which type of work he is mostly engaged as a labourer such as, say, a road coolie, a loader or unloader at a market, a construction labourer, etc.

For those in Military service it is enough if it is merely noted as 'in the service of the Central Government'. Other details need not be given.

Question 16 (f) : Class of Worker

For a person who is :

(*i*) an Employer, that is who hires one or more persons in his work described in question 16(*e*), write.....ER

(*ii*) an Employee, that is, who does his work described in question 16(*e*) under others for wages or salary in cash or kind, write.....EE.

(*iii*) a Single Worker, that is, who is doing his work described in question 16(*e*) without employing others except casually and without the help of other members of the family except casually and participant in work as members of cooperatives, write.....SW.

(*iv*) a Family Worker, that is, who is doing his work described in question 16(*e*) in a family enterprise alongwith other members of the family without wages or salary in cash or kind write.....FW.

For a person for whom an 'X' is put in questions 16(*d*) and 16(*e*) put an 'X' in this question also.

Explanation

An Employer is a person who has to employ other persons in order to perform the work entered in question 16(*e*). That is to say, such a person is not only responsible for his own personal work but also for giving work to others in business mentioned in question 16(*e*). But a person who employs domestic servants for household duties or has subordinates under him in an office where he is employed by other, is not an employer, even if he has the power to employ another person in his office on behalf of his own employer or employers.

An Employee is a person who usually works under some other person for salary or wages in cash or kind. There may be persons who are employed as managers, superintendents, agents, etc., and in that capacity employ or control other work on behalf of their own employers. Such persons are only employees, as explained above, and should not be regarded as employers.

A Single Worker for the purpose of question 16(*f*) is a person who works by himself. He is not employed by any one else and in his turn does not employ anybody else, not even members of his household except casually. This definition of a Single Worker will include a person who works in joint partnership with one or several persons hiring no employees, and also a member of a producers' cooperative. Each one of the partners or members of such producers' cooperatives should be recorded as 'Single Worker'.

A family Worker is a member who works without receiving wages in cash or kind, in an industry, business, trade or service. For example, the working members in a family of Dhobies where they all participate and each does not receive wages separately will be family workers. There may be family workers in industry, trade or professions as well. For the purpose of this definition members of a family may be drawn from beyond the limits of the household by ties of blood or marriage. The family worker may not be entitled to a share of the profits in the work of the business carried on either by the person or Head of the Household or other relative.

Members of the household who help solely in household duties should not be treated as family workers.

In the case of persons engaged in household industry i.e., in the case of persons for whom the answer to question 16(a)(*i*) is 'HHI', there will be three classes of workers viz., Family Worker, Single Worker and Employee. There will be no Employer. Household industry by its very definition is conducted by the head of the household himself or/and other members of the household, the role of hired workers being secondary. If the head alongwith the members of the household is working in a household industry employing hired workers, the head and other members who are working should be treated as 'Family Workers'. If the head alone is working with the assistance of hired worker(s) whose role would be secondary as indicated above, he would be treated as a 'Single Worker'.

Question 17 : Secondary Work

This question was designed to get a measure of the secondary work. The following instructions given to census enumerators in filling this question explain its scope etc. :

This question should be asked of every person whether he has returned some work as his main activity against 16(a)(*i*) or had returned himself under any of the basically non-working categories against question 16(a)(*ii*). As was noted earlier, 16(*a*)(*ii*) will cover cases like persons performing household duties or students who may not be engaged in any other economically productive work at all, as also those who, though basically are performing household duties or students etc., for the purpose of their main activity, still participated in some other economic activity such as helping the household in several items of work, as in cultivation or in household industry or in looking after the cattle, in attending to family business etc. but not to the extent as a full-time worker. Such participation will be considered as secondary work of these persons.

Ask of each person if, besides what he had already returned as his/her main activity against questions 16(a)(*i*) or 16(a)(*ii*), he/she participated in any secondary work. A number of unpaid family workers participating in the household enterprises, who might have returned themselves mainly as 'H' or 'ST' or 'R' under question 16(a)(*ii*) for their main activity will be netted here for their economic activity which is subsidiary. Mere rendering of service for ones own home or production of goods for purely domestic consumption are not to be treated as economic activity. For example, a servant who works as a cook in his or her employer's home for wages will be considered economically active but, a housewife, even if she may work much more than a paid servant, in having to cook for the family or looking after the household will not be treated as economically active for the purpose of this classification. Similarly, women who may produce cloth on a loin loom at home for domestic consumption will not be treated as economically active unless the products are sold and the household derives an income. Participation in work that goes to augment the income of the household will only be treated as economic activity. A boy whose main activity is shown as a student under 16(a)(*ii*), can have the secondary work of say, cultivation if he helped the head of the household in the family cultivation during some parts of the season. But if a girl student, whose main activity is shown as 'ST' under 16(*a*)(*ii*), also helped in weaving cloth purely for domestic consumption on a loin loom at home or helped in attending to household chores, she will not be treated as having any secondary work. Secondary work will be reckoned only if the person is engaged in *some economic activity even if marginal in addition* to whatever is the main activity under question 16. A person whose main activity is shown as, say, a clerk in a Government Office or a teacher under question 16, also attends to some cultivation by his direct supervision or undertakes some tuition, this will be shown as secondary work under question 17. A person's main activity may be cultivation in question 16 and his subsidiary activity money lending in question 17. Again main activity may be agricultural labourer and subsidiary work sugarfactory labourer and so on and so forth.

The instructions for the usage of abbreviations in categorising workers under 16(*a*)(*i*) and filling in the details under 16(*b*) to (*f*), will apply *mutatis mutandis* to question 17(*a*) to (*f*), except that while question 16(*a*)(*i*) will cover the main work, question 17(*a*) is intended to cover secondary work which may be possibly part-time. It may also be noted that the non-working categories of activity will not be reported as secondary work under question 17.

APPENDIX II

A note on the Sampling Procedure adopted in the 1971 Census

Sample Size : From the individual slips relating to the rural parts of a Tahsil/Anchal Police Station, 10% sample of the slips was selected linear systematically with a random start. In the urban part of the district a 20% systematic sample of the individual slips was selected with separate random start. The sample sizes were adopted on consideration of required precision, available resources and operational convenience.

Selection procedure : The sample design adopted in 1971 census was stratified systematic sample of individual slips. For the purpose of sample selection, each district was divided into three such-regions as follows : —

1. Tahsil/Anchal/Police Station (Rural)
2. Non-city Urban district.
3. City (Urban unit with 100,000 and above population).

These sub-regions were termed as operational units. If, however, any of the operational unit was unduly large, it was divided into sub-operational units of at least 20,000 persons. Similarly, small-sized operational units were either clubbed together or tagged on to a continuous larger unit so as to form an "effective operational unit" of the required minimum size. Adoption of these operational units ensured accuracy in sample selection maintaining at the same time stability in the sampling fraction within the tabulated areas. The procedure adopted has ensured effective control over sample selection within each block, as also in the entire operational units.

For the purpose of the Primary Census Abstract (PCA) the individual slips were sorted out according to ten broad industrial categories and nine broad age-groups for each of the sexes. The ten industrial categories of workers were as follows :—

Category

I .. Cultivators.

II .. Agricultural labourers.

III .. Livestock, forestry, fishing, hunting and plantations, orchards and allied activities.

IV .. Mining and quarrying.

V(*a*) Manufacturing, processing, servicing and repairs in *household industry*.

V(*b*) Manufacturing, processing, servicing and repairs in *other than household* industry.

VI .. Construction.

VII .. Trade and commerce.

VIII.. Transport, storage and communications.

IX .. Other services

X .. Non-workers.

The nine-age-groups into which the slips belonging to each industrial category were sorted, were 0-14, 15-19, 20-24, 25-29, 30-39, 40-49, 50-59, 60+ and 'age not stated'. Thus, the individual slips of a particular operational unit were sorted out in $11 \times 9 = 99$ cells separately for males and females. Sampling was done in each of the operational units independently by taking separate random starts. The slips were then distributed into 10(or 5) pigeon holes for Rural (Urban) samples and one pigeon hole was selected at random, the slips falling in the selected pigeon hole constituting the sample. For the operational details of the sampling procedure and instructions, 'Manual of instructions on sorting, compilation (manual processing) & sampling procedures' may be consulted.

Estimation procedure : The tables prepared for each of the Districts/States from the 10% rural and 20% urban sample slips have been inflated to give the final estimated tables. Estimates have been obtained by making use of the cell frequencies (usually labelled as 'controls') available from the tables prepared on full count basis, namely, PCA and B-I Part A.

In order to ensure maximum possible inter table consistency, it became necessary to use the estimated frequencies of a few of the final tables as controls for estimating some cell frequencies of other tables.

This way of estimating the cell frequencies ensured marginal totals of estimated tables tally with that of the full-count tables. This is convenient to the user, because after adjustment, the identical marginal totals are found in tables having the same marginal specification. "The adjustment diminishes the sampling variance to some extent; the more the controls the smaller the sampling variance of the adjusted frequencies[1]". Further, adjustment to known control totals has at the same time the effect of eliminating biases in the nature of inherent differences between the sample and complete count.

For the purpose of estimation of final tables, a set of multipliers was prepared for each table. A multiplier is the ratio of full count frequency of some characteristics from PCA or Table B-I Part A (or some estimated frequency from some already estimated table) and the corresponding sample frequency of the same characteristics from the sample table. The following statement gives the level of presentation of the tables and the related controls on which the multipliers are based. The details will be presented in the report on sampling procedures to be published later.

Reliability of the estimates : No exact formula can be given for the precision of the estimates in view of the systematic sampling design adopted. A very rough estimate of the relative standard error on the basis of simple random sample may be estimated as $\sqrt{(1-f)\frac{1-p}{np}}$ where 'f' is the proportion sampled (0·10 in case of rural areas and 9·20 in case of urban areas) and 'p' is the estimated proportion in any cell and 'n' the sample size, being equal to 10% of individual slips in rural areas and 20% in Urban areas. The size of the universe for the various values of the proportion from 0·000001 to 0·9 by percentage relative standard error shown in table I and II will help in deriving quickly an idea of the level of precision of any cell. Since in the present census, slips were sorted by sex, industrial category and age-group before sampling, it is expected that the efficiency must be considerably higher than a simple random sample of identical size. Extensive studies conducted have indicated that systematic sampling of individuals is more efficient than random sampling specially when the slips were pre-sorted for most of the socio-economic characteristics covered in a census[2]. Thus the estimates prepared on the basis of the systematic sampling in the present census can be expected to be quite reliable. Hence the standard error indicated by the table should be treated as an upper limit.

TABLE B-I PART A

WORKERS AND NON-WORKERS ACCORDING TO MAIN ACTIVITY CLASSIFIED BY SEX AND AGE GROUPS

This is the basic Economic Table giving the distribution of workers and non-workers according to main activity classified by sex and broad age-groups. The table is based on full count of the Census and presents data by total, rural and urban population separately for State and Districts.

Workers have been classified into nine categories of main activity : I—Cultivators: II—Agricultural Labourers; III—Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities; IV—Mining and Quarrying; V—Manufacturing, Processing, Servicing and Repairs—(*a*) Household Industry, (*b*) Other Household Industry; VI—Construction; VII—Trade and Commerce; VIII—Transport, Storage and Communications and IX—Other Services.

Except for two minor changes, the classification of workers by different Industrial categories follows almost the same classification as was adopted at the 1961 Census. Mining and Quarrying has been accorded a separate category IV at the 1971 Census while it was only a constituent of category III comprising of Mining, Quarrying, Livestock, Hunting and Plantations, Orchards and allied activities in 1961 census. The Household Industry which formed category IV in its own right for the 1961 Census has been treated as a subcategory V(*a*) of Manufacturing, Processing, Servicing and Repairs in 1971 Census.

Each category of worker and non-workers has been classified into eight age-groups : 0—14, 15—19, 20—24, 25—29, 30—39, 40—49, 50—59, 60+ departing from the broader age-grouping of 0—14, 15—34, 35—59, 60+ for 1961 Census, Splitting of two age-groups of 15—34 and 35—59 into six in 1971 will be of special interest to research scholars for demographic studies.

TABLE B-I PART B

FEMALE WORKERS AND NON-WORKERS ACCORDING TO MAIN ACTIVITY CLASSIFIED BY MARITAL STATUS AND AGE GROUPS

The table is an innovation of the 1971 Census and is intended to show female workers and non-workers according to main activity classified by marital status and age groups—these being the same as in table B-I Part A. The data have been tabulated into : (*i*) Never married, (*ii*) Married, (*iii*) Widowed and (*iv*) Divorced or separated status. Those who did not return their marital status, have been lumped under 'unspecified' status. The information is presented for the State as a whole.

Unlike table B-I Part A and table B-II, this table is based on 20 per cent urban and 10 per cent rural enumeration slips.

With increasing work participation of females in the country's economy the table is likely to be of great interest for future man-power planning.

TABLE B-II

WORKERS AND NON-WORKERS IN CITIES AND NON-CITY URBAN AREAS ACCORDING TO MAIN ACTIVITY CLASSIFIED BY SEX AND AGE-GROUPS

The table based on full count, has been culled out from Table B-I Part A. It displays the same data as is contained in Table B-I Part A, further distributing the total District Urban figures into total District City Urban and total District Non-City Urban figures. These figures have again been distributed into Cities, Towns and Urban Agglomerations arranged according to their population sizes.

The towns taken as such for the first time in 1961 Census which continue as towns in 1971 Census also, are shown with an asterisk(*) on their left. The towns treated as such for the first time in 1971 Census are printed in italics.

This table will be of particular interest to local bodies as it furnishes data on employment by nature of industry in different age groups.

TABLE B-III PART A & B

CLASSIFICATION OF WORKERS AND NON-WORKERS ACCORDING TO MAIN ACTIVITY BY EDUCATIONAL LEVELS IN URBAN/RURAL AREAS

The table gives the distribution of population by level of education for each category of workers and non-workers. This is presented in two parts the first Part A—for urban areas and the other—Part B—for rural areas. Each table gives figures separately for males and females for the State as a whole and for each district separately. The table is a counterpart of its predecessor Table B-III of 1961.

Unlike Table B-I Part A and Table B-II this table is based on 20 per cent urban and 10 per cent rural enumeration slips.

The educational levels adopted for Part A— urban areas are :

Primary;
Middle;
Matriculation or Higher Secondary;
Non-technical diploma or certificate not equal to degree;
Technical diploma or certificate not equal to degree;
Graduate degree other than technical degree;
Post-graduate degree other than technical degree;
Technical degree or diploma equal to degree of post-graduate degree;
Engineering and Technology,
Medicine,
Agriculture, Veterinary and dairying,
Teaching, and
others.

The educational levels adopted for Part B—rural areas are :

Primary;
Middle;
Matriculation or Higher Secondary;
Non-technical diploma or certificate not equal to degree;
Technical diploma or certificate not equal to degree; and
Graduate and above.

This table is useful in so far as it gives a clear position of the educated manpower available and may be utilized for projection of the demand of manpower by qualifications for future.

TABLE B-IV PART A

INDUSTRIAL CLASSIFICATION OF PERSONS AT WORK OTHER THAN AT CULTIVATION AS MAIN ACTIVITY BY SEX AND DIVISIONS, MAJOR GROUPS AND MINOR GROUPS

The table presents the distribution of working population other than that engaged on cultivation by division, major group and minor group of the National Industrial Classification, 1970 (N.I.C.) reproduced on page- -164——to- -177——. A similar tabe B-IV prepared for 1961 Census was based on Indian Standard Industrial Classification (I.S.I.C.) which was evolved by Directorate General of Employment and Training in 1958. Since then different versions of I.S.I.C. came to be used by different data collecting agencies in the country. A technical committee of representatives of the Registrar General, India, Directorate General of Employment and Training, Ministries of Internal Trade and Industry and the Central Statistical Organization was appointed to work out a 3-digit level standard classification of industries which produced the National Industrial Classification of 1970. A statement showing comparative chart of N.I.C. and I.S.I.C. is given on page—178——to—181——.

The figures for the whole of the State and for each district separately have been presented by males, females and persons for the total and urban areas only. These have not been given for rural areas to economise on space and can be obtained by simple substraction.

The table is supplemented by an appendix which corresponds to Table B-IV Part C of 1961. The appendix gives the distribution of workers engaged in maunfacturing, processing, servicing and repairs by household industry and non-household industry. The figures are given for males, females and persons for the State as a whole and for each district separately in respect of total area and urban areas only. The figures for the corresponding rural areas can be obtained by substraction as in the Main Table.

The table will be of great use to the planners as it provides data upto the minor group for various sectors of economy bringing out the differentials at rural/urban, district and sex levels.

33		*Basic Metal and Alloys Industries*
	330	Iron and steel industries.
	331	Foundries for casting and forging iron and steel.
	332	Manufacture of ferro-alloys.
	333	Copper manufacturing.
	334	Brass manufacturing.

Major Group	Minor Group	Description
		Division 2 & 3—Manufacturing & Repair—contd.
	335	Aluminium manufacturing.
	336	Zinc manufacturing.
	339	Other non-ferrous metal industries.
34		*Manufacture of Metal Products and Parts except Machinery and Transport Equipment*
	340	Manufacture of fabricated metal products such as metal cans from tin-plate, terne plate or enamelled sheet metal, metal shipping, containers, barrels, drums, kegs, pails, safes, vaults, enamelled, sanitary and all other fabricated metal products not elsewhere classified.
	341	Manufacture of structural metal products.
	342	Manufacture of furniture and fixtures primarily of metal.
	343	Manufacture of hand tools and general hardware.
	344	Enamelling, japanning, lacquering, galvanising, plating and polishing metal products.
	345	Manufacture of metal utensils, cutlery and kitchenware.
	349	Manufacture of metal products except machinery and transport equipment not elsewhere classified, like type-founding.
35		*Manufacture of Machinery, Machine tools and Parts except Electrical Machinery.*
	350	Manufacture of agricultural machinery and equipment and parts.
	351	Manufacture and repair of drills, coal cutting machines, earth moving, lifting and hoisting machinery, cranes, conveyors and road rollers and other heavy machinery and equipment used by construction and mining industries.
	352	Manufacture of prime movers, boilers and steam generating plants such as diesel engines and parts.
	353	Industrial Machinery for Food and Textile Industries.
	354	Industrial Machinery for other than Food and Textiles Industries.
	355	Manufacture of Refrigerators, Airconditioners, and Fire Fighting Equipment, and other parts, components and accessories.
	356	Manufacture, alteration and repair of general items of non-electrical machinery, components, equipment and accessories not elsewhere classified, e.g., manufacture and repair of size reduction equipment like Pentagraph, Mapograph etc., crushers, conveyors, bucket elevators, ship hoist cranes, derricks, etc., mixers and reactors, centrifugal machines, driers, etc., power driven pumps, etc.; air gas compressors & vacuum pumps (excluding electrical furances), etc.
	357	Manufacture of Machine Tools, their parts and accessories.
	358	Manufacture of office computing and accounting machinery and parts.
	359	Manufacture and repair of non-electrical machinery, equipment components and accessories not elsewhere classified, (such as sewing machine, automatic merchandising machines, washing, laundry, dry-cleaning and pressing machines, cooking ranges and ovens, other service industry machines, arms and armaments etc.).
36		*Manufacture of Electrical Machinery, Apparatus, Appliances and Supplies and Parts*
	360	Manufacture of electrical industrial machinery and apparatus and parts (such as electrical motors, generators, transformers, electro-magnetic clutches and brakes etc.).
	361	Manufacture of insulated wires and cables.

Major Group	Minor Group	Description
		Division 2 & 3—Manufacturing & Repair—contd.
	362	Manufacture of dry and wet batteries.
	363	Manufacture of electrical apparatus, appliances and their parts such as lamps, bulbs, tubes, sockets, switches, fans, insulators (except porcelain), conductors, irons, heaters, shavers, vacuum cleaners, etc.,, excluding repairing.
	364	Manufacture of radio and television transmitting and receiving sets including transistor radio sets, sound reproducing and recording equipment including tape recorders, public address systems, gramophone records and pre-recorded magnetic tapes, wire and wireless, telephone and telegraph equipment, signalling and detection equipment and apparatus radar equipment and installations; parts and supplies specially used for electronic apparatus classified in this group.
	365	Manufacture and repair of Radiographic X-ray apparatus and tubes and parts.
	366	Manufacture of Electronic Computers, Control Instruments and other Equipment.
	367	Manufacture of electronic components and accessories not elsewhere classified.
	369	Manufacture of electrical machinery, apparatus, appliances and suplies and parts not elsewhere classified.
37		*Manufacture of Transport Equipment and Parts*
	370	Ship building and repairing.
	371	Manufacture of Locomotives and parts.
	372	Manufacture of Railway wagons and coaches and parts.
	373	Manufacture of other rail-road equipment.
	374	Manufacture of motor vehicles and parts.
	375	Manufacture of motor-cycles and scooters and parts.
	376	Manufacture of bicycles, cycle-rickshaw and parts.
	377	Manufacture of aircrafts and its parts.
	378	Bullock-carts, push-carts, hand carts, etc.
	379	Manufacture of transport eqmipment and parts not elsewhere classified.
38		*Other Manufacturing Industries*
	380	Manufacture of medical, surgical and scientific equipment.
	381	Manufacture of photographic and optical goods (excluding photo chemicals, sensitised paper and film).
	382	Manufacture of watches and clocks.
	383	Manufacture of jewellery and related articles.

NOTE—

1. Importing and exporting of goods and commodities under minor group 690 of S. I. C. 1960 will go under respective minor groups of wholesale and retail trade of commodities concerned.

2. *It may be noticed that the major group 03—Agricultural services—has been included for the first time in the National Industrial Classification of 1970 for which there is no corresponding major group in Standard Industrial Classification of 1960. Hence it is difficult to establish one to one code correspondence in such cases.

TABLE B-IV PART-B

INDUSTRIAL CLASSIFICATION OF WORKERS IN MANUFACTURING, PROCESSING, SERVICING, AND REPAIRS ON HOUSEHOLD INDUSTRY BASIS AS MAIN ACTIVITY BY SEX AND CLASS OF WORKERS

This table gives the distribution of workers engaged in Manufacturing, Processing, Servicing and Repairs on the Household Industry basis. For the purpose of 1971 Census the workers were grouped into four classes of employment status as Employers, Employees, Single Workers and Family Workers. The data in this table is cross tabulated by Division and Major Group of National Industrial Classification on the one side and class of worker on the other. The presentation is by Totals, Employees and Single Workers in respect of class of workers. The number of workers in the 'Family Worker' class can be obtained by subtraction of the employees and Single Workers from the Totals— as there is no question of any individual being classified as Employer for this Industrial Category. Distribution has been displayed at the State level only by Total, Rural and Urban and by Males and Females.

The table corresponds to Table B-IV Part-A of 1961 Census and differs from it to the extent that while in 1961 the class of worker was displayed by Totals, Employees and Others, that for the present table is being displayed by Totals, Employees and Single Workers.

The data is based on 20% urban and 10% rural enumeration slips and the presentation is only at the State level.

TABLE B-IV PART C

CLASSIFICATION OF WORKERS IN NON-HOUSEHOLD INDUSTRY, TRADE, BUSINESS, PROFESSION OR SERVICE AS MAIN ACTIVITY BY CLASS OF WORKERS, AGE AND SEX.

This table gives the distribution of working population by class of workers and age groups for all the industrial categories except workers engaged in cultivation and in household industry. For the purpose of 1971 Census the workers were grouped into four classes of employment status as Employers, Employees, Single Workers and Family Workers. The presentation of the data is by sex and age groups: 0—14, 15—19, 20—24, 25—29, 30—39, 40—49, 50— 59 and 60+.

The data is based on 20 per cent urban and 10 per cent rural enumeration slips and the presentation is only at State level displaying State Total and State Urban separately. The corresponding rural figures can be obtained by subtraction.

Such a table was not prepared for 1961 Census.

TABLE B-IV PART D

INDUSTRIAL CLASSIFICATION BY SEX AND CLASS OF WORKERS OF PERSONS AT WORK IN NON-HOUSEHOLD INDUSTRY, TRADE, BUSINESS, PROFESSION OR SERVICE AS MAIN ACTIVITY

The table gives the distribution of all workers other than those engaged in cultivation and household industry. The data in the table is cross-tabulated by class of workers on one side and the divisions, major groups of National Industrial Classification, 1970 (N.I.C.) on the other. For the purpose of 1971 Census the workers were grouped into four classes of employment status as Employers, Employees, Single Workers and Family Workers.

The table displays figures by males and females for the State as a whole and for each district separately. The presentation is by total and urban area only and the corresponding rural figures can be obtained by subtraction. The data given in the table are based on 20 per cent urban and 10 per cent rural enumeration slips.

This table corresponds to table B-IV Part B of 1961.

TABLE B-V PART A

OCCUPATIONAL CLASSIFICATION BY SEX OF PERSON S AT WORK ACCORDING TO MAIN ACTIVITY OTHER THAN CULTIVATION

The table displays the distribution of all workers other than those engaged in cultivation by their occupation for each of the seven non-agricultural industrial categories of workers.

"Occupation" is the description of actual work that a person enumerated was doing at the time of the census irrespective of the type of industry, trade, profession or service in which he might have been working. Nature of industry, trade, profession or service in which a person was engaged enabled his being classified into the precise sector of economy in which he was working. Thus, while the National Industrial Classification of 1971 (N.I.C.) provided a base for distribution of workers to different sectors of economy; the National Classification of Occupations (N.C.O.) afforded a classification of workers by the exact nature of work done by them. The national classification of occupation 1968 has been fashioned after the second edition of the international standard classification of occupation, 1966 and the relevant part used for the 1971 Census is reproduced on pages 342 to 353

As an illustration, a person engaged in cotton spinning, weaving shrinking, sanforizing, mercerising and finishing of cotton textiles in mills was accorded a N.I.C. code of 231 and was given N.C.O. code 243 if working as manager, 331 if working as cashier, 755 if working as weaver, 752 if working as spinner and so on.

The industrial categories by which the data of this table distributed are :

III— Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities.

IV— Mining and Quarrying.

V— Manufacturing, Processing, Servicing and Repairs.

(*a*) Household Industry.

(*b*) Other than Household Industry

VI— Construction

VII— Trade and Commerce

VIII—Transport, Storage and Communications

IX—Other Services

The data given in the table are based on 20% urban and 10% rural enumeration slips and the presentation is by persons, males and females for total and urban areas of the State as a whole. The corresponding rural figures can be obtained by substraction.

This table corresponds to table B-V of 1961.

681 Fishermen, Inland and Coastal Waters
682 Conch & Shell Gatherers, Sponge & Pearl Divers
689 Fishermen & Related Workers, n.e.c.

Division 7-8-9 Production and Related Workers, Transport Eqnipment operators and Labourers

Group 71 Miners, Quarrymen, Well Drillers & Related Workers

Families 710 Supervisors & Foremen, Mining, Quarrying, Well Drilling & Related Activities
711 Miners
712 Quarrymen
713 Driller, Mines & Quarries
714 Shot Firers
715 Miners & Quarrymen, Other
716 Well Drillers, Petroleum and Gas
717 Well Drillers, Other than Petroleum and Gas
718 Mineral Treaters
719 Miners, Quarrymen and Related Workers, n.e.c.

Group 72 Metal Processors

Families 720 Supervisors & Foremen, Metal Smelting, Converting and Refining
721 Metal Smelting, Converting and Refining Furnacemen
722 Metal Rolling Mill Workers
723 Metal Melters & Reheaters
724 Metal Casters
725 Metal Moulders & Core-Makers
726 Metal Annealers, Temperers & Case Hardeners
727 Metal Drawers & Extruders
728 Metal Platers & Coaters
729 Metal Processors, n.e.c.

Group 73 Wood Preparation Workers and Paper Makers

Families 730 Supervisors & Foremen, Wood Preparation and Paper Making
731 Wood Treaters
732 Sawyers, Plywood Makers & Related Wood Processing Workers
733 Paper Pulp Preparers
734 Paper Makers
739 Wood Preparation and Paper Making Workers, n.e.c.

Group 74 Chemical Processors and Related Workers

Families 740 Supervisors & Foremen Chemical, Processing & Related Activities
741 Crushers, Grinders & Mixers
742 Cookers, Roasters & Related Heat Treaters
743 Filter & Separator Operator
744 Still & Reactor Operators
745 Petroleum Refining Workers
749 Chemical Processors & Related Workers, n.e.c.

Group 75 Spinners, Weavers, Knitters, Dyers and Related Workers

Families 750 Supervisors & Foremen, Spinning, Weaving, Knitting, Dyeing & Related Processes
751 Fibre Preparers
752 Spinners and Winders
753 Warpers and Sizers
754 Weaving & Knitting Machine Setters & Pattern Card Preparers
755 Weavers & Related Workers
756 Carpet Makers & Finishers
757 Knitters
758 Bleachers, Dyers & Textile Printers and Finishers
759 Spinners, Weavers, Knitters, Dyers & Related Workers, n.e.c.

Group 76 Tanners, Fellmongers and Pelt Dressers

Families 760 Supervisors & Foremen Taming & Pelt Dressing
761 Tanners & Fellmongers
762 Pelt Dressers
769 Tanners, Fellmongers and Pelt Dressers, n.e.c.

Group 77 Food and Beverage Processors

Families 770 Supervisors and Foremen, Food & Beverage Processing
771 Grain Millers, Parchers & Related Workers
772 Crushers & Pressers, Oil Seeds
773 Khandsari, Sugar & Gur Makers
774 Butchers & Meat Preparers
775 Food Preservers & Canners
776 Dairy Product Processors
777 Bakers, Confectioners, Candy & Sweet Meat Makers & Other Food Processors
778 Tea, Coffee & Cocoa Preparers
779 Brewers & Aerated Water & Beverage Makers

Group 78 Tobacco Preparers & Tobacco Product Makers

Families 780 Supervisors & Foremen Tobacco & Tobacco Product Making
781 Tobacco Preparers
782 Cigar Makers
783 Cigarette Makers
784 Bidi Makers
789 Tobacco Preparers & Tobacco Product Makers, n.e.c.

Group 79 Tailors, Dress Makers, Sewers, Upholsterers & Related Workers

Families 790 Supervisors & Foremen, Tailoring, Dress Making, Sewing & Upholstery work
791 Tailors and Dress Makers
792 Fur Tailors & Related Workers
793 Milliners, Hat & Cap Makers
794 Pattern Makers & Cutters
795 Sewers & Embroiderers
796 Upholsters & Related Workers
799 Tailors, Dress Makers, Sewers, Upholsters & Related Workers, n.e.c.

Group 80 Shoemakers & Leather Goods Makers

Families 800 Supervisors & Foremen, Shoe and Leather Goods making
801 Shoe makers & Shoe Repairers
802 Shoe Cutters, Lasters, Sewers and Related Workers
803 Harness and Saddle Makers
809 Leather Cutters, Lasters and Sewers and Related Workers, n.e.c.

Group 81 Carpenters, Cabinet & related wood Workers

Families 810 Supervisors & Foremen, Carpentry, Cabinet Making & Related Wood Working Processes
811 Carpenters
812 Cabinet Makers
813 Wood Working Machine Operators
814 Cart Builders & Wheel Wright
815 Coach & Body Builders
816 Shipwrights & Boat Builders
819 Carpenters, Cabinet Makers & Related Workers, n.e.c.

Group 82 Stone Cutters and Carvers

Families 820 Supervisors & Foremen Stone Cutting & Carving
821 Stone Cutters & Carvers
829 Stone Cutters and Carvers, n.e.c.

Group 83 Blacksmiths, Tool Makers and Machine Tool Operators

Families 830 Supervisors & Foremen, Blacksmithy, Tool Making & Machine Tool Operation
831 Blacksmiths, Hammersmiths and Forging Press Operators
832 Metal Markers
833 Tool Makers & Metal Pattern Makers
834 Machine Tool Setters
835 Machine Tool Operators
836 Metal Grinders, Polishers & Tool Sharpeners
839 Blacksmiths, Tool Makers & Machine Tool Operators, n.e.c.

Graup 84 Machinery Fitters, Machine Assemblers and Precision Instrument Makers (Except Electrical)

Families 840 Supervisors & Foremen, Machinery Fitting, Assembling, Repairing & Precision Instrument Making (Except Electrical)
841 Watch, Clock & Precision Instrument Makers (Except Electrical)
842 Machinery Fitters & Machine Assemblers
843 Motor Vehicle Mechanics
844 Aircraft Engine Mechanics
845 Mechanics, Repairmen, Other
849 Machinery Fitters, Machine Assemblers & Precision Instrument Makers (Except Electrical), n.e.c.

Group 85 Electrical Fitters & Related Electrical & Electronic Workers

Families 850 Supervisors & Foremen Electrical & Electronic Equipment Fitting, Assembling, Installing and Repairing
851 Electricians, Electrical Fitters & Related Workers
852 Electronic Fitters
853 Electrical & Electronic Equipment Assemblers
854 Radio & Television Mechanics and Repairmen
855 Electrical Wiremen
856 Telephone & Telegraph Installers & Repairmen
857 Electric Linemen & Cable Jointers
859 Electrical Fitters & Related Electrical and Electronic Workers, n.e.c.

Group 86 Broadcasting Station and Sound Equipment Operators and Cinema Projectionists

Families 860 Supervisors, Broadcasting, Audio-Visual Projection and Sound Equipment Operations
861 Radio Broadcasting Television Operators
862 Sound Equipment Operators and Cinema Projectionists
869 Broadcasting Station and Sound Equipment Operators and Cinema Projectionists, n.e.c.

Group 87 Plumbers, Welders, Sheet Metal & Structural Metal Preparers and Erectors

Families
- 870 Supervisors & Foremen, Plumbing, Welding, Structural & Sheet Metal Working
- 871 Plumbers & Pipe Fitters
- 872 Welders and Flame Cutters
- 873 Sheet Metal Workers
- 874 Metal Plate & Structural Metal Workers
- 879 Plumbers, Welders, Sheet Metal & Structural Metal Preparers & Erectors, n.e.c.

Group 88 Jewellery & Precious Metal Workers and Metal Engravers (Except Printing)

Families
- 880 Supervisors, Jewellery & Precious Metal Working
- 881 Jewellers, Goldsmiths & Silversmiths
- 882 Jewellery Engravers
- 883 Other Metal Engravers (Except Printing)
- 889 Jewellery and Precious Metal Workers and Metal Engravers, n.e.c. (Except Printing)

Group 89 Glass Formers, Potters & Related Workers

Families
- 890 Supervisors & Foremen Glass Forming, Pottery & Related Activities
- 891 Glass Formers, Cutters, Grinders & Finishers
- 892 Potters & Related Clay & Abrasive Formers
- 893 Glass & Ceramics Kilnmen
- 894 Glass Engravers & Etchers
- 895 Glass & Ceramics Painters and Decorators
- 899 Glass Formers, Potters and Related Workers, n.e.c.

Group 90 Rubber and Plastics Product Makers

Families
- 900 Supervisors & Foremen, Rubber & Plastics Product Making
- 901 Plastics Product Makers
- 902 Rubber Product Makers (Except Tyre Makers & Vulcanisers)
- 903 Tyre Makers & Vulcanisers
- 909 Rubber and Plastics Product Makers, n.e.c.

Group 91 Paper & Paper Board Products Makers

Families
- 910 Supervisors & Foremen Paper & Paper Board Product Making
- 911 Paper & Paper Board Product Makers
- 919 Paper and Paper Board Products Makers, n.e.c.

Group 92 Printing and Related Workers

- 920 Supervisors & Foremen, Printing & Related Work
- 921 Compositors
- 922 Type Setters & Photo Type Setters
- 923 Printing Pressmen
- 924 Stereo-typers & Electro Typers
- 925 Engravers, Printing (Except Photoengravers)
- 926 Photo Engravers
- 927 Book Binders & Related Workers
- 928 Photographic Darkroom Workers
- 929 Printers & Related Workers, n.e.c.

Group 93 Painters

Families
- 930 Supervisors & Foremen, Painting
- 931 Painters, Construction
- 932 Painters, Spray & Sign Writing
- 939 Painters, n.e.c.

Group 94 Production & Related Workers, n.e.c.

Families
- 940 Supervisors & Foremen, Production & Related Activities, n.e.c.
- 941 Musical Instrument Makers and Tuners
- 942 Basketry Weavers & Brush Makers
- 943 Non-Metallic Mineral Product Makers
- 949 Production & Related Workers, n.e.c.

Group 95 Bricklayers and Other Construction Workers

Families 950 Supervisors & Foremen, Bricklaying & Other Construction Work
951 Brick Layers, Stone Masons & Tile Setters
952 Reinforced Concreters, Cement Finishers & Terrazzo Workers
953 Roofers
954 Parquetry Workers
955 Plasterers
956 Insulators
957 Glaziers
958 Hut Builders & Thatchers
959 Well Diggers and Construction Workers, n.e.c.

Group 96 Stationary Engines & Related Equipment Operators Oiler & Greaser

Families 960 Supervisors & Foremen Stationary & Related Equipment Operation
961 Stationary Engine & Related Equipment Operation
962 Boilermen & Firemen
963 Oilers and Greasers (Including Cleaners, Motor Vehicles)
969 Stationary Engine & Related Equipment Operators, n.e.c.

Group 97 Material Handling and Related Equipment (Operators, Loaders and Unloaders)

Families 970 Supervisors & Foremen, Material & Freight Handling & Related Equipment operators
971 Loaders & Unloaders
972 Riggers & Cable Splicers
973 Crane & Hoist Operators
974 Earth Moving & Related Machinery Operators
975 Checkers, Testers, Sorters, Weighers & Counters
976 Packers, Labellers & Related Workers
979 Material Handling Equipment Operators, n.e.c.

Group 98 Transport Equipment Operators

Families 980 Supervisors & Foremen, Transport Equipment Operation
981 Ship's Deck Ratings, Barge Crews & Boatmen
982 Ship's Engine room Ratings
983 Drivers, Railways
984 Fire Men Railways
985 Pointsmen, Signalmen & Shunters, Railways
986 Tram Car & Motor Vehicle Drivers
987 Drivers, Animal & Animal Drawn Vehicle
988 Cycle Rickshaw Drivers & Rickshaw Pullers
989 Transport Equipment Operators and Drivers, n.e.c.

Group 99 Labourers, n.e.c.

Family 999 Labourers, n.e.c.

TABLE B-V PART B

OCCUPATIONAL CLASSIFICATION BY SEX AND CLASS OF WORKERS IN NON-HOUSEHOLD INDUSTRY, TRADE, BUSINESS, PROFESSION OR SERVICE AS MAIN ACTIVITY.

The table gives the distribution of workers other than those engaged in agricultural activities by Division and Groups of National Classification of Occupations, 1968 (NCO) cross-classified by class of workers : employers, employees, single workers and family workers.

The code structure of the N.C.O. is given on pages 342 to 353 of this publication.

The data presented in the table are based on 20% urban and 10% rural enumeration slips and the presentation is by persons, males and females for total and urban areas of the State as a whole. The corresponding rural figures can be obtained by subtraction.

Such a table was not prepared for 1961 Census.

Note—'All Divisions Totals' relating to Cols. 5 to 12 of this table do not tally with 'All Divisions Totals' in Cols. 5 to 12 of Table B-1V Part D and 'Total' of all ages in cols. 9 to 16 of Table B-1V Part C because different sets of multipliers have been used for estimation of these tables.

TABLE B-VI PART A(*i*), PART A(*ii*), PART B(*i*) AND PART B(*ii*)

OCCUPATIONAL CLASSIFICATION OF PERSONS AT WORK ACCORDING TO MAIN ACTIVITY OTHER THAN CULTIVATION CLASSIFIED BY SEX, AGE-GROUPS AND EDUCATIONAL LEVELS

Table B-VI has four parts. Part A (*i*) and (*ii*) relate to non-agricultural urban workers and Part B (*i*) and (*ii*) to non-agricultural rural workers.

Part A(*i*) and Part B(*i*) display the distribution of non-agricultural workers by age-groups : 0—14, 15—19, 20—24, 25—29, 30—39, 40—49, 50—59 and 60+ for each group of National Classification of Occupation, 1968 (NCO) listed at pages—342—to——353——of this publication. The age distribution has been aggregated and presented for the division level of NCO before its presentation for groups for each of the NCO divisions. The presentation is by males, females and persons for the State as a whole and for each of the districts separately.

Part A(*ii*) and Part B(*ii*) display the distributions of non-agricultural workers by educational levels. The levels of education in respect of Part A(*ii*), dealing with urban areas are :

Primary;

Middle;

Matriculation or Higher Secondary;

Non-technical diploma or certificate not equal to degree;

Technical diploma or certificate not equal to degree;

Graduate Degree other than technical degree;

Postgraduate degree other than technical degree;

Professional degree or diploma equal to degree or postgraduate degree;

Engineering or technology,

Medicine,

Agriculture, Veterinary or Dairying,

Teaching,

Others.

The levels of education in respect of Part B (*ii*) dealing with rural areas are :

Primary,

Middle,

Matriculation or Higher Secondary,

Graduate and above.

In this table Educational levels (*i*) Non-Technical Diploma or Certificate not equal to Degree and (*ii*) Technical Diploma or Certificate not equal to Degree of Table B-III Part B, have been accounted for under level "Matriculation or Higher Secondary".

The distribution of levels of education has been displayed for each of the group of N.C.O. and is preceded by distribution at division level for each of the N.C.O. division. The presentation is by males and females for the State as a whole and for each of the districts separately.

The data presented in the table are based on 20 per cent urban and 10 per cent rural enumeration slips.

In 1961 similar information was contained in table B-VI which gave figures for urban areas only at Division level and by four age-groups: 0-14,15-34, 35-59 and 60+. The broad basing of the table at greater number of educational levels and at a larger number of age-groups affords a subtler understanding of the educated man-power utilization and is likely to be of greater use to the planners.

TABLE B-VII

SECONDARY WORK i.e. PERSONS HAVING MAIN ACTIVITY (i) CULTIVATORS (ii) AGRICULTURAL LABOURERS (iii) HOUSEHOLD INDUSTRY (iv) NON-HOUSEHOLD INDUSTRY, TRADE, BUSINESS OR SERVICE AND (v) NON-WORKERS CLASSIFIED BY SEX AND BY SECONDARY WORK (i) CULTIVATORS (ii) AGRICULTURAL LABOURERS (iii) HOUSEHOLD INDUSTRY (iv) NON-HOUSEHOLD INDUSTRY, TRADE, BUSINESS OR SERVICE

At the 1971 Census a question was asked of every person whether he was engaged in any economically productive work as an ancillary to his main activity, be it economically productive or not. Thus, persons performing household duties or students who might not have been engaged in an economically productive work as main activity and still participated in some economic activity such as helping the household in several items of work as in cultivation or in household industry or looking after the cattle were accounted or as secondary workers. Besides, the persons who had reported themselves as workers for their main activity might have been engaged in a subsidiary work. For instance, a person whose main activity is, say, a clerk in a government office or a teacher may have been attending to cultivation or tuition. Similarly, a person with agricultural labour for his main activity may have reported as labourer in a sugar factory and so on and so forth.

This table gives the distribution of persons engaged in secondary work cross classified by their main activity. The secondary work has been classified by cultivators, agricultural labourers, household industry and non-household industry, trade, business or service.

The presentation of the data is by total, rural and urban for each sex for the State as a whole and for each district separately.

The table is suplemented by an appendix which gives the distribution of secondary workers engaged in non-household industry of two-digit level of NIC. The distribution is displayed separately for persons who have reported cultivator; agricultural labourer; household industry; non-household industry, trade, business or service; and non-workers as their main activity. Unlike the main table the presentation of the data in the appendix is only at the State level.

The table is based on 20% urban and 10% rural enumeration slips.

TABLE B-VIII

PERSONS CLASSIFIED AS NON-WORKERS ACCORDING TO MAIN ACTIVITY CROSS CLASSIFIED BY SEX, AGE GROUPS AND TYPE OF ACTIVITY

The table gives the distribution of non-workers by main activities cross classified by age-groups : 0-14, 15-19, 20-24, 25-29, 30-39, 40-49, 50-59 and 60+. The main activities into which the non-workers have been dispersed are students; household duties; dependents and infants; retired, rentier and persons of independent means; beggars, vagrants etc.; inmates of penal, mental and charitable institutions and others. The last category 'others' comprises mainly of persons seeking work.

The presentation of data is by total, rural and urban for each sex for the State as a whole and for each district separately. The table is based on 20% urban and 10% rural enumeration slips.

The table corresponds to table B-IX of 1961, with two variants. Firstly, the age-groups for the 1961 table were 0-14, 15-34, 35-59 and 60+ and secondly the 'others' category of non-workers for 1971 corresponds to the sum of the two categories "persons seeking employment for the first time" and "persons employed before, but now out of employment and seeking work" of 1961.

TABLE B-IX PART A AND PART B

NON-WORKERS CATEGORISED AS OTHERS AGED 15 AND ABOVE CLASSIFIED BY SEX, AGE GROUPS AND EDUCATIONAL LEVELS IN URBAN/RURAL AREAS

The table presents the distribution of non-workers aged 15 and above categorised as 'others' in cloumns 19 and 20 of Table B-VIII. The non-workers are cross-classified by educational levels on one side and the age-groups on the other. The age-groups by which the data is distributed are: 15-19, 20-24, 25-29 and 30+. The educational levels by which the urban non-workers are displayed are :

Primary;
Middle;
Matriculation or Higher Secondary;
Non-technical diploma or certificate not equal to degree;
Technical diploma or certificate not equal to degree;
Graduate degree other than technical degree;
Postgraduate degree other than technical degree;
Technical degree or diploma equal to degree or post-graduate degree :
  Engineering and technology ;
  Medicine;
  Agriculture, Veterinary and Dairying;
  Teaching
  Others.

For the rural areas the data is dispersed by the educational levels:

Primary;
Middle;
Matriculation or Higher Secondary;
Non-technical diploma or certificate not equal to degree;
Technical diploma or certificate not equal to degree;
Graduate and above.

The presentation is by males and females for the State as a whole. Part A of the table displays data in respect of urban areas while Part B in respect of rural areas.

The data is based on 20% urban enumeration slips and 10% rural enumeration slips.
