FOREWORD

The Primary Census Abstract (PCA) of the 1981 Census for the State of Bihar is now ready for final publication. The Primary Census Abstracts for the general population and for the Scheduled Castes and the Scheduled Tribes shall be presented separately in one volume known as "Part II-B—Primary Census Abstract" in the regular series of publications relating to the 1981 Census.

The preparation of the Primary Census Abstract marks the culmination of the ceaseless efforts of more than 2,500 persons, who were employed in the various regional and urban tabulation offices for more than a year. The manual compilation of the Primary Census Abstract involved editing, matching, checking and posting of figures relating to more than 1,25,000 Enumeration Blocks and aggregating them so as to arrive at figures for the various administrative units, such as Villages, Towns, Community Development Blocks, Subdivisions, Districts and finally the State.

The publication of Part II-B will take some time to come out, but since the State Government and other official organisations are urgently in need of certain important population statistics, it has been decided to bring out, as quickly as possible, a small paper. This paper presents Primary Census Abstract for total, rural and urban areas in respect of the State of Bihar and 31 districts and (*a*) Total population, (*b*) Scheduled Caste population, and (*c*) Scheduled Tribe population in respect of each territorial unit for various administrative purposes, i.e., District, Community Development Block, City, Urban Agglomeration and Town.

It may be noted that the territorial units for which the data are presented in this paper conform to the position as on the reference date of the 1981 Census, i.e., the 1st March 1981 and subsequent jurisdictional changes have not been taken into account. Similarly, Urban/Village PCA is not being presented in this paper. It is proposed to publish it in the form of a District Census Handbook for each district sometime later.

B. B. LAL,
Director of Census Operations, Bihar.

PATNA:
4th September, 1982.

INTRODUCTORY NOTE

This paper is the third in series based on 1981 Census. The first two, viz., Paper I and Supplement to Paper I were both published in 1981 and based on provisional figures. The present paper is, however, based on final figures and is, therefore, the first publication of its kind. As mentioned in the Foreword, this paper presents Primary Census Abstract for the State and the 31 districts and a table containing figures of total population and the population of the Scheduled Castes and the Scheduled Tribes for each Community Development Block and Town. The Community Development Blocks have been arranged in the ascending order of their Location Code numbers within the district. Towns falling in a C.D. Block have been shown immediately following the entries for the total, rural and urban areas of the C.D. Block. The figures relating to urban agglomerations comprised within one C.D. Block have been shown just after the entries for the total, rural and urban areas of the C.D. Block. However, 5 urban agglomerations, viz., Patna, Purnia, Dhanbad, Ramgarh and Jamshedpur extend over more than one C.D. Block. The figures in their case have been presented immediately after the entries for total, rural and urban areas of the district and the figures relating to their constituent units have been shown after the entries for the total, rural and urban areas of the C.D. Blocks within which they are comprised.

Some of the important Census terms used in the paper are explained below:

Primary Census Abstract

The Primary Census Abstract gives area figures, number of occupied residential houses, number of households, total population by sex, population by sex of Scheduled Castes and Scheduled Tribes, of literates, of workers classified into the following 4 (the corresponding industrial categories are indicated in Roman numerals in parentheses) categories of Marginal Workers and Non-Workers of the State and districts :

(1) Cultivators—(I)

(2) Agricultural Labourers—(II)

(3) Household Industry—Manufacturing, Processing, Servicing and Repairs—[V(*a*)]

(4) Other Workers—[III,IV,V(*b*) & VI to IX]

In the 1971 Census, workers were classified into 9 Industrial Categories in the Primary Census Abstract whereas in the 1981 Census workers belonging to the Industrial Categories III—Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities, IV—Mining and Quarrying, V(*b*)—Manufacturing, Processing, Servicing and repairs other than Household Industry, VI—Construction, VII—Trade and Commerce, and VIII—Transport, Storage and Communications have all been grouped under Category IX—Other Workers, for the purpose of preparation and presentation of the Primary Census Abstract.

Definition of work—'Work' may be defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not merely actual work but also effective supervision and control and direction of work. According to this definition, the entire population has been classified into three main categories, viz., Main workers, Marginal workers and Non-workers.

Main Workers

Main workers are those who have worked for the major part of the year preceding the date of enumeration, i.e., those who were engaged in any economically

productive activity for 183 days or 6 months or more during the year, have been categorised as Main workers in 1981 Census.

Marginal Workers

Marginal workers are those who have worked any time at all in the year preceding the enumeration but have not worked for the major part of the year.

Non-Workers

Non-workers are those who have not worked any time at all in the year preceding the date of enumeration.

Thus the total and sexwise population shown under column headings 'Total Main workers', 'Marginal workers' and 'Non-workers' will add up to the total population and population by sex shown under columns 7, 8 and 9 of the Primary Census Abstract respectively. The figures shown under columns 19, 20 and 21 under 'Total Main workers' will be sum total of the figures shown under column headings—(1) Cultivators, (2) Agricultural Labourers, (3) Household Industry and (4) Other workers.

Cultivator

A person is regarded as cultivator if he or she is engaged either as an employer, single worker or family worker in the cultivation of land owned or held from Government or held from private persons or institutions for payment in money, kind or share. Cultivation includes supervision or direction of cultivation.

Agricultural Labourer

A person who works in another person's land for wages in money, kind or share should be regarded as Agricultural Labourer. He or she has no risk in the cultivation and he/she merely works in other person's land for wages. An agricultural labourer has no right of lease or contract on the land on which he/she works.

Household Industry

Household Industry is defined as an industry conducted by the head of the household himself/herself and/or by the members of the household at home or within the village in the rural areas and only within the precincts of the house where the household lives in urban areas. A large proportion of the workers in a household industry should consist of members of the household including the head. Industry should not be run on the scale of registered factory, which would qualify or has to be registered under the Indian Factories Act. It should relate to production, processing, servicing or repairs of articles or goods.

Other Workers

Other workers are those who have been engaged in some economic activity during the last one year and who are not cultivator or agricultural labourer or engaged in a household industry.

Rural-Urban Classification

For the purpose of census urban areas have been so defined as to include—

(*a*) all places with Municipal Corporation, Municipality, Notified Area Committee, Cantonment Board, etc., and

(*b*) all other places which satisfy the following criteria—

(*i*) A minimum population of 5,000;

(*ii*) At least 75 per cent of the male working population being engaged in non-agricultural pursuits; and

(*iii*) A density of population of at least 400 persons per sq. km.

Places satisfying the above criteria are identified as census towns or non-statutory towns by the Director of Census Operations in each State and Union Territory. By and large these criteria were followed except in only a very few cases, on account of their administrative importance or their being places of tourist interest. Areas which have neither been notified by the State Government nor identified by the Director of Census Operations as urban have been treated as rural.

Urban Agglomeration

An 'Urban agglomeration' has been defined as "a continuous urban spread constituted of a town and its adjoining urban outgrowths or two or more physically contiguous towns together with continuous well organised urban outgrowths, if any, of such towns". There is considerable socio-economic inter-relationship between such physically contiguous urban units and therefore it has been considered purposeful to group them under one urban agglomeration.

Occupied Residential Houses

A Census house is a building or a part of a building having a separate main entrance from the road or common courtyard or staircase, etc., used or recognised as a separate unit. It may be inhabited or vacant and may be used for residential or non-residential purposes or both. By 'occupied residential house' we mean a census house which is being used for residential purpose either partly or wholly.

Household

A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be a one-member household, two-member household or multi-member household. For census purposes each one of these types is regarded as a household. Again there may be a household of persons related by blood or household of unrelated persons, or having a mix of both. Examples of unrelated households are boarding houses, hostels, residential hotels or orphanages, rescue homes, *ashrams*, etc. These are called institutional households. Again there may be households that do not have a house to live in. Such households may be itinerant in nature consisting of nomadic persons or living in such places which cannot be termed as houses. The figures of the total number of households include all the three kinds mentioned above viz., normal, institutional and houseless households.

Literate

A person who can both read and write with understanding in any language is treated as literate for the purpose of Census. A person who can merely read but cannot write is not literate. It is not necessary that a person, who is literate should have received any formal education or should have passed any minimum educational standard.

Scheduled Castes and Scheduled Tribes

Under Articles 341(1) and 342(1) of the Constitution of India, the castes or tribes to be treated as Scheduled Castes or Scheduled Tribes for a particular State are specified by public notification by the President of India. As per the Government of India, Ministry of Home Affairs, Notification No. SRO 2477A, dated the 29th October, 1956 and the Scheduled Castes and Scheduled Tribes Orders (Amendment) Act, 1976 (No. 108 of 1976), dated the 18th September, 1976, the lists of Scheduled Castes and

Scheduled Tribes for the State of Bihar are given below :

Scheduled Castes

1. Bantar
2. Bauri
3. Bhogta
4. Bhuiya
5. Bhumij
   (excluding North Chotanagpur and South Chotanagpur divisions and Santhal Pargana district).
6. Chamar, Mochi
7. Chaupal
8. Dabgar
9. Dhobi
10. Dom, Dhangad
11. Dusadh, Dhari, Dharhi
12. Ghasi
13. Halalkhor
14. Hari, Mehtar, Bhangi
15. Kanjar
16. Kurariar
17. Lalbegi
18. Musahar
19. Nat
20. Pan, Sawasi
21. Pasi
22. Rajwar
23. Turi

Scheduled Tribes

1. Asur
2. Baiga
3. Banjara
4. Bathudi
5. Bedia
6. Bhumij
   (in North Chotanagpur and South Chotanagpur divisions and Santhal Pargana district).
7. Binjhia
8. Birhor
9. Birjia
10. Chero
11. Chik Baraik
12. Gond
13. Gorait
14. Ho
15. Karmali
16. Kharia
17. Kharwar
18. Khond
19. Kisan
20. Kora
21. Korwa
22. Lohara, Lohra
23. Mahli
24. Mal Paharia
25. Munda
26. Oraon
27. Parhaiya
28. Santal
29. Sauria Paharia
30. Savar

Note : The total area figures given in column 4 against State/District represent 'Geographical area figures supplied by the Surveyor General, India. The urban areas are based on the area figures of individual towns supplied by the local officers. The rural area for a district has been arrived at by subtracting the urban area from the 'Geographical area' supplied by the Surveyor General, India.
