

CENSUS OF INDIA 1981

SERIES—13

MANIPUR

Paper - 1 of 1982

FINAL POPULATION FIGURES

(Total Population, Scheduled Caste Population and Scheduled Tribe Population)

R. K. BIRENDRA SINGH
of the Indian Administrative Service
Director of Census Operations, Manipur.

FOREWORD

The actual enumeration of population of the 1981 Census operations was carried out during the period from February 9 to February 28, 1981. This was followed by a revisional round of five days from March 1 to March 5, 1981. The enumeration agency counted the houseless population on the night of February 28, 1981. The reference date for the 1981 Census was the sunrise of March 1, 1981.

Soon after the field operations were over, this Directorate published Provisional Paper-1 of 1981 Census of Manipur in April, 1981, by compiling some basic data from the abstracts submitted by the District Census Officers, Charge Officers, Supervisors and Enumerators. This Paper furnished some basic provisional data on distribution of population with sex break-up upto the district level. Thereafter a Supplement to Paper-1 of 1981 was published in September, 1981. The Supplement presented more detailed data, though still provisional, on the population of Manipur. It furnished population of the State with sex break-up upto the level of the sub-divisions and of the towns. Some analytical notes on rural urban composition of population workers and non-workers, sex-ratio, literacy and disabled population were also appended to the Supplement.

The massive Census records collected from the field agency have been subjected to close scrutiny in the Regional Tabulation Office set up at Keisamthong, Imphal where various data were processed after matching and editing. Work of this magnitude is naturally time-consuming and, it has taken us quite some time after the actual enumeration of population, to arrive at the final figures of the Census.

This Directorate will be bringing out some useful publications like Part II-A-General Population Tables, Part II-B-Primary Census Abstract, and Part XIII-District Census Handbook, on the basis of the figures collected during the Census of 1981. Compilation and publication of these detailed and bulky volumes will, however, take a long time. In the meantime we are anxious that the final population figures, though in limited detail, should be made available to the data users and the public. It is hoped that this small Paper will be of some use to those who are looking for the final figures of the 1981 Census.

Imphal,
December 9, 1982

R. K. BIRENDRA SINGH
