

CENSUS OF INDIA 1981

SERIES - 26

CHANDIGARH

PART VI A & B FERTILITY TABLES

ARDAMAN SINGH
Director of Census Operations
Chandigarh

FOREWORD

This volume presents tables in Part-VI A & B of the Tabulation Plan of 1981 Census viz., detailed cross tabulation on Fertility data of the Union Territory of Chandigarh. These tables have been generated on the basis of computerised processing of hundred per cent individual slip records of 1981 Census in respect of the Union Territory. The publication is a culmination of the process which started with field operations of 1981 Census under the inspiring leadership of Shri P. Padmanabha of the Indian Administrative Service who was Registrar General and Census Commissioner, India, during the period from 7th October, 1977 to 6th October, 1983. The 1981 Census of India was ably conducted in the Union Territory by Shri Ardaman Singh.

The work of coding and editing of the Individual Slip records was completed in the Directorate of Census Operations, Delhi and the data entry by the Data Entry Centre, Delhi. Thereafter, the further processes of system design, programming, actual processing on the computer, scrutiny of the computerised tables, writing up of notes and seeing through actual printing of the volume in the press was taken over and seen through by the Office of the Registrar General, India.

This volume is, thus, a product of labours of a team of highly dedicated officers in this organisation. Constraints of space preclude a mention of all the officers at various levels in the various Divisions of the Office of the Registrar General, India who saw this project through its various stages but mention can be made of Wing Commander (later Group Captain) B.B. Adlakha, Director (Electronic Data Processing) in this organisation from 31st August, 1980 to 1st August, 1983, Shri S.N. Chaturvedi, Joint Director (Data Processing), Shri K.R. Unni, Joint Director (Programming) and his colleagues, Shri B.K. Maratha, Deputy Director, and other officers who saw through the work of data entry and processing at various stages.

The Census Division had taken over the responsibility of overall scrutiny of the tables and preparation of notes of this publication and this work was very ably carried out under the supervision of Shri N. Rama Rao, Assistant Registrar General, and Shri Madan Singh, Senior Research Officer. Detailed scrutiny of these tables was done by Shri C.D. Bhatt, Deputy Director of Census Operations, Chandigarh U.T. and this work was completed within a fortnight. The press-ready copy of the manuscript was completed in the second week of March, 1985.

Since the organisation had, under the guidance of Shri V.S. Verma, the present Registrar General, India, set itself the goal of seeing all the volumes, pertaining to Union Territory of Chandigarh and other States and Union Territories in respect of which processing of data was on hundred per cent basis, out by May, 1985, a formidable challange was posed to Shri Tirath Dass, Joint Director and his colleagues in the Printing Division.

I am happy to record that the Printing Division of the organisation as a whole has lived upto this challenge.

New Delhi.
March 20, 1985.

V.P. PANDEY
Joint Registrar General, India

PREFACE

The processing of the data collected during the 1981 Census of India was planned to be carried out on the basis of the mix of manual tabulation and processing on computers. The manual tabulation related mainly to the abstraction of information of what is termed as Primary Census Abstract which present data down to the village level on general population by sex, literacy, distribution by Scheduled Castes and Scheduled Tribes and by the broad working characteristics of cultivator, agricultural labourer, those engaged in household industry and other workers. In addition to the Primary Census Abstract the data on household population by religion of the head of household and household population by language mainly spoken in the household was also compiled manually. The second stage of processing consisted of taking on to tape the data relating to hundred per cent area.

The tables presented in this volume incorporate data relating to Fertility.

The Director of Census Operations, Shri Ardaman Singh under whose guidance the entire operations were carried out deserves all credit for the success of the operations but he had to leave the organisation for taking up other important assignment before the volume in question could be made ready for the press.

I must record my deepest sense of gratitude to Shri P. Padmanabha, Ex-Registrar General, India and Shri V.S. Verma, Registrar General, India, for their valuable guidance and sincere help to us at every stage to bring out this publication in time. I also thank Shri Tirath Dass, Joint Director (Printing) and the staff of Census & Printing Divisions associated with this task.

The processing of the huge data was undertaken by the Data Processing Division of the Registrar General's Office under the leadership of Shri V.P. Pandey, Joint Registrar General, India. S/Shri S.N. Chaturvedi, Joint Director (DP) and K.R. Unni, Joint Director (Programming) have also helped in the processing of data.

The arduous task of scrutiny and compilation of Fertility Tables and the preparation of notes was the responsibility of the Census Division of the Registrar General's Office. This task was accomplished well by the Census Division under the overall guidance of Shri V.P. Pandey, Joint Registrar General, India, ably assisted by Shri N. Rama Rao, Assistant Registrar General (Census and Tabulation) and Shri Madan Singh, Senior Research Officer. S/Shri R.P. Tomar, V.P. Rustogi, Deputy Directors, Mohd. S.H. Mazumdar, Senior Research Officer and Ganesh Dass, Assistant Director have also helped in finalising the tables.

Lastly, in my own office, I received maximum cooperation and assistance at every stage form my staff who worked diligently with devotion.

The list of the names of the officers and staff of this Directorate as well as Data Processing, Census and Printing Divisions associated with this work are given separately.

Chandigarh,
March 20, 1985

C.D. BHATT
Deputy Director of Census Operations
Chandigarh

ACKNOWLEDGEMENT

D.P. Division

1. Shri V.V. Rao, Senior Analyst
2. Shri Himakar, Deputy Director
3. Shri P. Mehra, Deputy Director
4. Shri R.P. Gupta, Deputy Director
5. Shri H.R. Gulyani, Deputy Director
6. Shri B.L. Jain, Assistant Director
7. Shri Y.D. Sharma, Assistant Director
8. Shri Suraj Bhan, Assistant Director
9. Shri R.L. Puri, Assistant Director
10. Shri Raghubansh Prasad, Assistant Director
11. Shri B.K. Rawal, Assistant Director
12. Shri S.R. Garg, Assistant Director
13. Shri Gyan Prakash, Assistant Director
14. Shri R.L. Gupta, Research officer
15. Shri O.P. Ahuja, Assistant Director
16. Shri N.S. Bhatnagar, Assistant Director
17. Shri P.N. Baweja, Assistant Director
18. Shri K.B. Rohtagi, Assistant Director
19. Shri R.S. Lal, Assistant Director

PART VI A & B

FERTILITY TABLES

GENERAL NOTE ON THE FERTILITY TABLES

This part of the volume contains F-Series (fertility) tables. The titles of the tables presented in this volume are as follows :—

Number	*Table Headings*
Table F-1 (Parts A & B)	Ever married and currently married women by present age, age at marriage, religion and scheduled castes (Urban/Rural)
Table F-2 (Parts A & B)	Ever married and currently married women by present age, age at marriage and educational level (Urban/Rural)
Table F-3 (Parts A & B)	Ever married and currently married women by present age, age at marriage and occupation (Urban/Rural)
Table F-4 (Parts A & B)	Currently married women by present age and religion and births to them during the last year by birth order (Urban/Rural)
Table F-5 (Parts A & B)	Currently married women by present age and educational level and births to them during last year by birth order (Urban/Rural)
Table F-6 (Parts A & B)	Currently married women of scheduled castes by present age and births to them during last year by birth order (Urban/Rural)
Table F-7 (Parts A & B)	Currently married women by present age and occupation and births to them during last year by birth order (Urban/Rural)
Table F-8 (Parts A & B)	Currently married women by present age, duration of marriage and religion and births to them during last year (Urban/Rural)
Table F-9 (Parts A & B)	Currently married women by present age, duration of marriage and educational level and births to them during last year (Urban/Rural)
Table F-10 (Parts A & B)	Currently married women of scheduled castes by present age and duration of marriage and births to them during last year (Urban/Rural)
Table F-11 (Parts A & B)	Currently married women by present age, duration of marriage and occupation and births to them during last year (Urban/Rural)
Table F-12 (Parts A & B)	Ever married women by present age, parity and religion and total children ever born to them by sex (Urban/Rural)
Table F-12 (Parts C & D)	Ever married women by present age, number of surviving children and religion and total surviving children of ever married women by sex (Urban/Rural)
Table F-13 (Parts A & B)	Ever married women by present age, parity and educational level and total children ever born to them by sex (Urban/Rural)
Table F-13 (Parts C & D)	Ever married women by present age, number of surviving children and educational level and total surviving children born to them by sex (Urban/Rural)
Table F-14 (Parts A & B)	Ever married women of scheduled castes by present age and parity and total children ever born to them by sex (Urban/Rural)

Table F-15 (Parts A & B)	Ever married women by present age, parity and occupation and total children ever born to them by sex (Urban/Rural)
Table F-16 (Parts A & B)	Currently married women by present age, duration of marriage, parity and religion and total children ever born to them by sex (Urban/Rural)
Table F-17 (Parts A & B)	Currently married women by present age, duration of marriage, parity and educational level and total children ever born to them by sex (Urban/Rural)
Table F-18 (Parts A & B)	Currently married women of scheduled castes by present age, duration of marriage and parity and total children ever born to them by sex (Urban/Rural)
Table F-19 (Parts A & B)	Currently married women by present age, duration of marriage, parity and occupation and total children ever born to them by sex (Urban/Rural)
Table F-20	Currently married women by present age and births to them during last year by birth order
Table F-21	Ever married and currently married women by present age and parity and total children ever born to them by sex
Table F-22	Ever married and currently married women by present age and age at marriage
Table F-23 (Parts A & B)	Currently married women by present age, duration of marriage, number of surviving children and religion and their total suviving children by sex (Urban/Rural)
Table F-24 (Parts A & B)	Currently married women by present age, duration of marriage, number of surviving children and educational level and their total surviving children by sex (Urban/Rural)
Table F-25 (Parts A & B)	Currently married women of scheduled castes by present age, duration of marriage and number of surviving children and their total surviving children by sex (Urban/Rural)
Table F-26 (Parts A & B)	Currently married women by present age, duration of marriage, number of surviving children and occupation and their total surviving children by sex (Urban/Rural)
Table F-27	Ever married women by present age and number of surviving children and their total surviving children by sex.

The fertility tables were an innovation in 1971 Census. In the Individual Slip of 1971 Census, two new questions were canvassed viz. (a) age at marriage, (b) any child born during the last one year from each currently married woman. Based on these two questions, five tables were produced, which showed the distribution of the currently married women and their related births by present age, age at marriage, educational level and religion. These fertility tables were of immense use to the planners and research scholars connected with family welfare.

1981 Census collected data on children ever born and children surviving from each ever married woman for the first time in addition to the questions in 1971 Census. This information is extremely useful in estimating the cumulated fertility as well as child mortality from indirect methods. The fertility and migration questions in 1981 Census were included in the sample Individual Slip while the

Universal Individual Slip followed the same pattern as in 1971 Census in respect of demegraphic, social and cultural items. The Sample Individual Slip was canvassed in 20% sample of enumeration blocks in all States except smaller States like Jammu & Kashmir, Meghalaya, Manipur, Himachal Pradesh, Sikkim, Nagaland and Tripura and the Union Territories where it was canvassed in 100% areas. At the 1971 Census, the fertility tables were produced on the basis of 10% rural and 20% urban slips except in the States of Himachal Pradesh, Jammu & Kashmir, Manipur, Meghalaya, Nagaland, Sikkim and Tripura and the Union Territories where the data were processed on full count.

The F-series tables in 1981 Census are based on the response to the Questions 5 and 6 of the Sample Individual Slip. The data have been cross-classified by present age, age at marriage, marital status, religion, educational levels and occupation.

Tables presented in this volume are based on full count.

The processing of the 1981 Census data consisted of two stages—first hundred pre cent manual tabulation for the P.C.A. and later on the computer. The present tables processed on the computer were adjusted so as to conform to the earlier P.C.A. figures by applying a suitable correction factors. The marginal totals may, therefore, not tally in all the cases due to rounding off.

ANNEXURE-II

INSTRUCTIONS FOR FILLING UP OF RELEVANT QUESTIONS OF INDIVIDUAL SLIP (UNIVERSAL)

Question 3 : Male (1)/Female (2)

For male, write '1' and for female, write '2' in the box provided against this question. For eunuchs and hermaphrodites, write '1' in the box. Verify with reference to the name and relationship to head recorded under columns 2 and 3 respectively of the Population Record that you have noted the sex correctly.

Question 4 : Age

Record the age of the person in total years completed last birthday in the rectangle provided against this question. The age should be recorded in international numerals. Very often, there is a tendency on the part of individuals to return 'years running' rather than 'years completed'. Make sure that only the actual number of years completed is recorded. In respect of infants who might not have completed one year by the day of enumeration, their age in completed years must be shown as '0' as they have not yet completed one year of age. Make sure that infants even if one day old are invariably enumerated. You should not enter the age in months. The age of an infant who has not yet completed one year should invariably be noted as '0' only.

Question 5 : Marital Status

In answering this question use, the following abbreviations :

NM : Never married ;

M : Currently married ;

W : Widowed ;

S : Separated or Divorced

The entry is to be made in the manner indicated below.

(a) For a person who has never been married at any time before write 'NM'.

(b) For a person currently married, whether for the first or another time and whose marriage is subsisting at the time of enumeration with the spouse living, write 'M'. Write 'M' also for persons who are recognised by custom or society as married and for the persons in stable *de facto* union. Even if a marriage is disputed in the locality, write 'M' if the person concerned says he or she is married or is in stable *de facto* union.

(c) For a widowed person whose husband or wife is dead, and who has not been married again, write 'W'.

(d) For a person who has been separated from wife or husband and is living apart from with no apparent intention of living together again or who has been divorced either by decree of a law court or by an accepted social or religious custom but who has not re-married, write 'S'.

(e) For an independent woman return her marital status as declared by her.

This question must be answered for all persons irrespective of age. For very young children, though we may know that they are not married, the appropriate abbreviation must be entered.

'M' is the abbreviation for 'currently married'. The word 'currently' does not mean 'recently'. It only means 'at present'. For example, a man may be 80 years old and may have been married 50 years ago, if his wife is still alive and the marriage subsists, they are 'currently married'.

The only conditions for the marital status to be reckoned as 'currently married' are that the man and woman are both alive and that their marriage subsists, i.e., they are not divorced or separated. Please note that we are not concerned with the legality of a union.

Question 8 : Religion

In answering this question, use the following abbreviations :

For Hindus, write 'H'

For Muslims, write 'M'

For Christians, write 'C'

For Sikhs, write 'S'

For Buddhists, write 'B'

For Jains, write 'J'

For the others, record the actual religion as returned fully.

If the person says that he has no religion this answer may be recorded accordingly. Do not mistake religion for caste which will not be recorded here. You should also not try to establish any relationship between religion and mother tongue. Do not write any thing in the dotted boxes, but write on the line.

Question 9 : Whether S.C. (1)/S.T. (2)

You have been furnished with a list of Scheduled Castes and Scheduled Tribes in relation to your State/Union Territory. Ascertain if the person enumerated belongs to a Scheduled Caste or a Scheduled Tribe and if he does, write '1' for Scheduled Caste and '2' for Scheduled Tribe in the box provided against this question. For a person who is not a member of any Scheduled Castes or Scheduled Tribes, put '×' in the box.

If the person belonging to a Scheduled Caste or a Scheduled Tribe returns his/her caste or tribe by synonym or generic name of a caste or a tribe, it should be reckoned as Scheduled Caste or Scheduled Tribe only if the name finds place in the list furnished to you. Similarly, if the answer to this question is in general terms, like Harijan/Girijan or Acchut/Adivasi, you should not reckon the person enumerated as belonging to Scheduled Caste/Scheduled Tribe, as the case may be. In such a case, you should ascertain the name of the caste/tribe fully and if that name finds place in your list, you should reckon the person as belonging to Scheduled Caste or Scheduled Tribe, as the case may be. If a person is negligent and insists on calling himself/herself merely 'Harijan' or 'Achhut' or 'Adivasi' or 'Girijan', as the case may be, or repeats the synonym or generic name of a caste or tribe, please tell him/her that this description is not adequate for census purposes and persuade him/her to give the actul name of the Scheduled Caste or Scheduled Tribe. This may bring out the actual name of the Scheduled Caste or Scheduled Tribe, as the case may be, and record '1' or '2' in the box as may be applicable. If the person merely claims to be a Scheduled Caste or Scheduled Tribe, but says that he/she does not belong to any of the notified communities applicable to the area, as reflected in the list supplied to you, he/she will not be reckoned as belonging to a Scheduled Caste or a Scheduled Tribe.

Scheduled Castes can belong to Hindu or Sikh religion. If a person belongs to S.C., he/she will be either 'H' or 'S' in the answer to Question 8 : Religion. Scheduled Tribes can belong to any religion.

Question 11 : Literate (1)/Illiterate (2)

Definition of a literate : A person who can both read and write with understanding in any language is to be taken as literate. A person who can merely read but cannot write, is not literate. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard.

For a person who is literate, i.e., who can both read and write with understanding in any language write '1' in the box provided against this question. If there is any doubt about a person's ability to read or write, the test that may be applied for reading is his/her ability to read any portion of the printed matter in the Enumerator's Instruction Booklet (provided the person is familiar with the language used in the booklet) and similarly, for writing, he/she should be able to write a simple letter. Ability merely to sign one's name is not adequate to qualify a person as being able to write with understanding. If a person claims to be literate in some other language with which the enumerator is not acquainted, the respondent's word has to be taken as correct. Other members of the household may also be able to testify to the literacy of the person enumerated.

For a person who is illiterate, i.e., who can neither read nor write or can merely read but cannot write in any language, write '2' in the box against this question. All children of the age of 4 years or less should be treated as illiterate even if the child is going to a school and may have picked up reading and writing a few odd words.

Question 12 : Educational attainment

This question will be asked to only those who are literate and for whom '1' has been recorded against Question 11. For a person who is illiterate and for whom '2' has been recorded in the answer to Question 11, there is no question of ascertaining the educational attainment even if he/she had at some stage attended school and passed a standard and had relapsed into illiteracy. In such a case, you should put a dash (—). We are insisting that a dash (—) should be put if there is no educational attainment and *not* a cross (×), because we want to avoid confusion with 10th standard which a cross may signify. You will have to ascertain and record the highest educational level attained by a person for literate, i.e., for whom '1' is recorded in answer to Question 11.

For a person who is still studying in a particular class, the highest educational level attained by him/her will be one that he/she has actually passed and not one in which he/she is studying. For example, a person studying in Ist year B.A. should be recorded as only 'PUC' or 'Higher Secondary', as the case may be. Similarly, for a person studying, say, in the 4th year of M.B.B.S., his/her educational attainment should be 3rd year of M.B.B.S., which is the highest level he/she has actually attained. You must record the actual standard passed such as, III standard, VIII standard, Ist year B.Com., etc. However, if a person merely says that he/she has passed primary, middle, matriculation, school final, secondary or other definite levels record, him/her as such.

The highest educational level attained by the person enumerated should be recorded. When a person holds both general and technical qualifications both of which are of equivalent level or of varying levels such as B.Sc. (Zoology) and M.B.B.S. or B.A. (Maths) and B.E. (Bachellor of Engineering), both the technical and general qualifications should be recorded against this question. In the case of pass courses, indicate the degree only.

In recording the educational level of a graduate or a post-graduate, the major subject such as B.Sc. (Maths), M.A. (Economics), M.Sc. (Botany), B.Sc. (Agriculture), etc., should be noted. You

should not use abbreviations which are not in common use. In such cases, the degree or diploma should be spelt out fully. For example, M.A. (Hindi) and Diploma in Library Science or M.A. (Soc.) and Diploma in Labour Relations. Adequate space has been provided in the slip and you are urged to record the qualification accurately and in sufficient detail. This information is vital for manpower planning and should receive your careful attention.

ECONOMIC QUESTIONS

In the 1981 Census we intend collecting information regarding the economic activity of the people in great detail so that those who use these data have the type of information they want. The economic questions consist of three parts,namely :

I Q. 14A Worked any time at all last year ? Yes / No (H/ST/D/R/B/I/O)

Q. 14B If yes in 14A, did you work for major part of last year ? Yes (1)/No (2)

II Q. 15A Main activity last year ? Yes in 14B (C/AL/HHI/OW) / No in 14B (H/ST/D/R/B/I/O)

Q. 15B 14B Yes—Any other work any time last year ? Yes (C/AL/HHI/OW)/No
14B No—Work done any time last year ? (C/AL/HHI/OW)

III Q. 16 If No in 14A or 14B seeking/available for work ? Yes (1)/No (2)

These questions must be canvassed for every person, irrespective of age or sex. Every person must be asked Question 14A, including the very young or very old and the answer to this question must be filled in. The other questions will have to be filled in the case of those to whom they are applicable. The instructions for filling these questions follow.

These questions are meant to get details of the work done by the people with reference to last year. We may, therefore, first consider what is meant by 'work' and what the 'reference period' is.

Definition of work

Work may be defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work.

Reference period

In all the questions, the reference period is the one year preceding the date of enumeration. Certain types of work such as agriculture, household industry like, gur making, etc., are carried on either throughout the year or only during certain seasons or parts of the year, depending on the local circumstances. In such cases what we are concerned with is the broad time-span of the agricultural seasons preceding the enumeration.

Explanation

There should be no confusion regarding these questions. What we are trying to find out is the number of workers and since workers can be full-time workers or seasonal workers or marginal workers, it is necessary to collect data that will give us the correct picture. This is what Questions 14A and 14B and Questions 15A and 15B seek to do. The detailed explanation and instructions for each of these questions are given separately but it will be useful if we look at these together to understand their purpose better.

Question 14A seeks to find out if a person has done any work at all during the last year or whether he or she did not work at all and if it is the latter, how the person spent his/her time as a non-worker. Then Question 14B seeks to find out who among the persons returning 'Yes' in Question 14A had worked for the major part of the year. By major part of the year, it is intended to find out how many had worked for 183 days or more or in other words, worked for 6 months or more. Those who have worked for 183 days or more, will answer 'Yes' for Question 14B. For them code '1' has to be recorded in the box. But those who have worked for less than six months or 183 days will say 'No', and for them code '2' is to be recorded in the box for this question. Question 15A seeks to elicit information on the main activity of the workers in Question 14B, i.e., those for whom '1' has been recorded in the box. It will also elicit information about the main activity of the 'marginal workers' covered in Question 14B i.e., those who have returned 'No' and for whom '2' has been recorded in the box against Question 14B.

The person may have worked for six months or 183 days or more in more than one activity. For example, he/she may have worked for 3 months in cultivation, one month in gur making and 3 months as an agricultural labourer. In Question 15A, he/she is required to indicate which of these three activities according to him/her was his/her main activity i.e., in which capacity he/she spent more time. In the instant case since the person has spent three months each in cultivation and as agricultural labourer the choice as to which of these two would be his/her main activity should be left to him/her. Those who have returned 'No' for Question 14B, i.e., those who have worked for less than six months or 183 days during the last year and for whom code '2' has been recorded in the box, will have to state whether according to them, they were engaged mainly in household duties, or as student, or dependent or as retired person, rentier, or beggar or inmates of institutions, and if not in any of these categories, the person(s) should be put under 'Others' in Question 15A.

In Question 15B details of secondary work or marginal work are sought to be obtained. Those who have worked for the major part of the year, i.e., those for whom '1' has been recorded in the box against Question 14B, may have had secondary work and this should be entered in Question 15B. Those who have not worked for the major part of the year and for whom code '2' has been recorded in the box against Question 14B, must have done some marginal work and these details will be entered in Question 15B. It is important that probing questions are asked to elicit correct information in this question.

It will thus be seen that these questions on economic aspects have been so designed as to identify all the workers, regular or seasonal, and non-workers with reference to the activities during the last one year prior to the date of enumeration. It is very important to remember that the period referred to in Questions 14A, 14B, 15A and 15B is one year preceding the enumeration. Thus, if in some areas, a person has been a cultivator or an agricultural labourer, or has worked in an industry, *etc.*, only in one season, *i.e.*, less than 6 months/183 days, he/she is not to be treated as a worker for Question 14B. His/her economic activity will be reflected in Question 15B. Thus, all those returning 'Yes' in Question 14A must be netted as 'Yes' in Question 14B or in 15B or both.

Certain important points that need special emphasis are the following and these should be kept in mind :

(i) A person who normally works but has been absent from work during the reference period on account of illness, holiday, temporary closure, strike, *etc.*, must be treated as engaged in the work he/she would otherwise have been doing but for his/her temporary absence.

(ii) Persons under training such as apprentices, with or without stipends or wages, should be treated as workers.

(iii) A person who has merely been offered work but has not actually joined yet, should not be treated as engaged in this work.

(iv) A man or woman who is engaged primarily in household duties such as cooking for own household or performing one's own household duties or a boy or a girl who is primarily a student, even if such a person helps in the family economic activity but not as a full time worker should not be treated as a worker for Question 14B, even though he or she may be recorded as 'Yes' in Question 14A. On the other hand, if a person is primarily engaged in some economic activity for major part of the year but at the same time does also attend to some household chores or attends a night school, *etc.*, he or she would be treated basically as a worker for Question 14B and categorised suitably in Question 15A.

(v) A person, who merely receives an income, such as a rent receiver or a pensioner who does not have to work for receiving the income, will not be treated as economically active unless the person is also engaged for some part of the year in some economic activity. Similarly, beggars, pensioners, receivers of agricultural or non-agricultural royalty or of rents or dividends who may be earning an income but who are not participating in any productive work should not be treated as working unless they also work in cultivation, industry, trade, profession, business or commerce.

(vi) An adult women who is engaged in household duties but doing no other productive work to augment the family's resources should not be considered as working for purpose of this question. If, however, in addition to her household work she engages herself in work, such as rice pounding for sale or wages, or in domestic services for wages for others or minding cattle for wages or selling firewood or making and selling cowdung cakes or grass, *etc.*, or any other work like cultivation, *etc.*, she should be treated as working under Question 14A.

(vii) A man or a woman who is doing household duties may be producing or making something *only* for the domestic consumption of the household and not for sale. Such a person is not a worker, even though from his or her point of view the activity is productive.

(viii) For an undertrial prisoner enumerated in a jail, he/she should be recorded for the work he/she was doing before he/she was apprehended. Similarly, for a person temporarily in a hospital or similar institution he/she should be recorded for the kind of work he/she was doing before he/she was admitted into hospital or institution. But for a convict in a prison or for long-trem inmates of penal or charitable or mental institutions, the person's previous work should not be recorded, but 'I' should be recorded. A question arises as to what should be deemed to be long-term. For census purposes, inmates of penal or charitable or mental institutions if detained for 6 months or more should be recorded as 'I'.

(ix) A full-time public or social service worker who is actively engaged in public service activity or a full-time political worker who is also actively engaged in furthering the political activity of his/her party will be recorded as a worker and entered accordingly. Such persons will include members of Parliament, State Legislatures, Local authorities, *etc.*

Question 14A : Worked any time at all last year ? Yes / No(H/ST/D/R/B/I/O)

This question is intended to divide the population into two broad streams on the basis of a liberal definition of work. The reference period is one year. This question is expected to net all workers irrespective of the amount of time they have spent on work. In other words, this question

will find out the number of all workers which will include full-time workers, part-time workers, marginal workers and even workers whose contribution would otherwise be considered insignificant.

The reference period is one year and this includes the agricultural seasons also. A person may have worked as a cultivator or as an agricultural labourer throughout the year or in some season such as only *kharif* or *rabi*, or only for a few days. In all these cases this person has worked at some time in the year and the answer to this question should be 'Yes'. 'Yes' should be written on the line and *not* in the dotted box. One may have been a cultivator, an agricultural labourer, or engaged in a household industry or any other work. The definitions of these terms are given later, but the important point is that we are determining the fact that one has done some work some time during the last one year.

Obviously, probing questions will have to be asked specially in the case of those who are not regular workers. *It is particularly important to ask such probing questions regarding the work done at any time last year or any of the seasons in the reference period in the case of women and children in the rural areas.* Women and children in the rural areas work in the fields in the sowing, harvesting or other seasons and this may be on their own land or as labourers on someone else's land. This is usually seasonal work only, while they run the house and do all the household work. Unless questions are asked about such work, the usual answer may be that they do only household work.

It must be remembered that a man or a woman who is doing only household duties or making something only for domestic consumption (and *not* for sale) is not doing any work in census terminology. It is true that a housewife may be working harder than the others in the home because she has to cook, look after the children, run the house, *etc.*, but for the purposes of census, she is not a worker.

In this question every worker (even marginal workers) will be identified and in their cases the answer will be 'Yes'. You must enquire regarding each person that you enumerate, whether he or she has worked any time at all during the last year. Even if the person has worked only for a few days, you have to record him/her as 'Yes', against this question.

If the individual has not worked at all during the last year, the answer will be 'No'. Then ascertain how he or she spent his or her time and record 'H' or ST or 'D' or 'R' or 'B' or 'I' or 'O', as the case may be, below the line against this question.

Question 14B : If yes in 14A, did you work for major part of last year ? Yes (1)/No (2)

As mentioned earlier, through Question 14A you have classified all people into two broad streams of workers and non-workers. In doing so, workers would include all those who have worked irrespective of the quantum of their contribution to the economy. Even marginal workers are categorised as workers in Question 14A.

Having found out that the person had worked any time at all during the last year (Yes in 14A), you have now to ascertain whether the person worked for the major part of last year. By major part of last year, is meant that the person had worked for 183 days or more, or in other words worked for six months or more. If the answer to this question is in the affirmative you should record '1' in the box against Question 14B. If the person has worked for less than six months or 183 days during the last year, you should record '2' for that person in this question.

A person may have worked in different capacities during last year. For example, he/she may have worked as a daily wage labourer for 4 months, as an agricultural labourer for 1 month and as a cultivator for 2 months. There could even be breaks in between the different types of work performed

by him/her. In computing whether the person worked for major part of the year, you should reckon all the three spells of economic activity and if it satisfies the concept of work for major part of the year, treat him/her as 'Yes' for Question 14B and record '1' in the box. Similarly if the total period of work falls short of six months or 183 days, treat him/her as 'No' and record '2' in the box for that person.

Question 15A : Main activity last year ? $\frac{\text{Yes in 14B (C/AL/HHI/OW)}}{\text{No in 14B (H/ST/D/R/B/I/O)}}$

In Question 14B you would have ascertained whether a person had worked for major part of the year or not. Now in Question 15A, you will be required to ascertain his or her main activity during last year. That is to say how he or she engaged himself or herself mostly. Main activity of a person who was engaged in more than one activity will be reckoned in terms of time disposition. For example, if a person has worked as a daily wage labourer for 4 months, as an agricultural labourer for 1 month and as cultivator for 2 months and for him/her, you have recorded '1' in the box against Question 14B, then that person will be reckoned as daily wage labourer for Question 15A and you will record 'OW' on the line (and *not* in the box), since he/she spent more time in this activity than as a cultivator or agricultural labourer. Similarly, for a person for whom you have recorded '2' in the box in Question 14B, you should ascertain how he or she spent his/her time mostly as a non-worker and record the appropriate symbol below the line in the space provided and *not* in the box.

The main activity of workers is classified into four categories, *viz.* cultivator, agricultural labourer, household industry and other work. These terms are explained below.

Cultivator

For purposes of the census a person is working as Cultivator if he or she is engaged either as employer, single worker or family worker in cultivation of land owned or held from Government or held from private persons or institutions for payment in money, kind or share. Cultivation includes supervision or direction of cultivation.

A person who has given out his/her land to another person or persons for cultivation for money, kind or share of crop ond who does not even supervise or direct cultivation of land, will not be treated as cultivator. Similarly, a person working in another person's land for wages in cash or kind or a combination of both (agricultural labourer) will not be treated as cultivator in this question.

Cultivation involves ploughing, sowing and harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi *etc.*, and other crops such as sugarcane, ground-nuts, tapioca *etc.*, and pulses, raw jute and kindred fibre crop, cotton, *etc.*, and *does not* include fruit growing, vegetable growing or keeping orchards or groves or working of plantations like tea, coffee, rubber, cinchona and other medicinal plantations. For a person who is a cultivator, write 'C' in the space provided.

Agricultural labourer

A person who works in another person's land for wages in money, kind or share should be regarded as an agricultural labourer. He or she has no risk in the cultivation but he/she merely works in another person's land for wages. An agricultural labourer has no right of lease or contract on land on which he/she works.

For a person who returns his/her economic activity as agricultural labourer, write 'AL' in the space provided.

Important

For certain reasons, the growing of certain crops is not considered as agriculture. If a person is engaged in the growing of such crops he or she will *not* be considered as a cultivator or agricultural labourer.

You must remember that a person can be classified as a cultivator or as an agricultural labourer *only on the basis of the crops grown.* The growing of the following crops is considered as cultivation. Therefore, a person who grows these crops or who works on land on which these crops are grown can be classified either as a cultivator or an agricultural labourer as the case may be.

(i) **Cereal and millet crops** : Paddy, wheat, jowar, bajra, maize, ragi, barley, gram, *etc.*

(ii) **Pulses** : Arhar, moong, masur, urd, khesari, *etc.*

(iii) **Fibre crops** : Raw cotton, jute, mesta, sunhemp and kindred fibre crops

(iv) **Oil seeds** : Sesamum, ground-nut, rape, mustard, linseed, castor, *etc.*

(v) **Cash crops** : Sugarcane.

The growing of the following crops *will not be considered as cultivation* :

(i) **Plantation crops** : Tea, coffee, rubber, tobacco, pepper cardamom, *etc.*

(ii) **Edible nuts (other than ground-nut)** : Walnut, almond, cashewnut, *etc.*

(iii) **Fruits** : Bananas, apples, grapes, mangoes, oranges, *etc.*

(iv) Coconut

(v) Ganja, cinchona, opium and medicinal plants

(vi) Betal-nuts (areca)

(vii) Flowers

(viii) Roots and tubers, chillies and spices (other than pepper and cardamom)

(ix) Vegetables

(x) Other crops not specifically included under cultivation.

Please remember that you must use the abbreviations given in the instructions, namely, 'C' or 'AL'. It will be evident that you will have to ask a specific question regarding the crops grown in all cases where one merely says he/she is a cultivator or an agricultural labourer.

Household industry

For a person who returns his/her main activity as engaged in some production, processing, servicing or repair of articles or goods such as handloom weaving, dyeing, carpentry, *bidi* rolling, pottery manufacture, bicycle repairing, blacksmithy, tailoring, *etc.*, it has to be ascertained if it is a household industry, and if so, it should be indicated by the abbreviation 'HHI' in the space provided.

Household Industry is defined as an industry conducted by the head of the household himself/herself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in a household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act.

There may be an industry which is being run by a large joint family of more than 10 persons and where power is used or more than 20 persons where power is not used. In such cases, though

only family members are involved this, will not be treated as 'HHI'. Thus, the meaning of the term 'run on the scale of a registered factory' refers to such cases even if these are not registered as such.

The main criterion of a Household Industry is the participation of one or more members of a household. This criterion will apply in urban areas too. Even if the industry is not actually located at home in rural areas there is greater possibility of the members of the household participating even if it is located anywhere within the village limits. In the urban areas where organised industry takes greater prominence, the Household Industry should be confined to the precincts of the house where the participants live. In urban areas even if the members of the household by themselves run an industry but at a place away from the precincts of their home, it will not be considered a Household Industry. It should be located within the precincts of the house where the members live in the case of urban areas.

A Household Industry should relate to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. It does not include professions such as a Pleader or Doctor or Barber, Musician, Dancer, Waterman, *Dhobi*, Astrologer, *etc.*, or merely trade or business even if such professions, trade or services are run at home by members of the household. A list of a few typical Household Industries is appended to these instructions at Appendix II.

Sometimes it is likely that the person who may not be working in his/her own Household Industry may be working in another Household Industry. You should, therefore, enquire whether the person who is not working in his/her own Household Industry is working in any other Household Industry and record as per instructions given above.

As mentioned earlier, a Household Industry should relate to production, processing, servicing, repairing, or making and selling of goods. However, a household can be engaged in certain other activities collectively but these may not qualify for being considered as Household Industries.

Certain activities even though conducted by members of the same household will not constitute a Household Industry. These are indicated below and therefore the members of the family working in such industries will be classified considered as 'OW' and *not* 'HHI'.

(i) Plantation work

(ii) Livestock maintenance and production such as cattle, goats, sheep breeding, poultry farms, bee-keeping, rearing of silk worm and production of cocoons aud *raw silk*, production of milk, eggs, honey, wax, bones, *etc.*

(iii) Hunting, trapping and selling of the catch

(iv) Forestry and logging : log, fuel, charcol production, gathering and selling of fodder and other forest produce, *etc.*

(v) Fishing including rearing of fish, collection of pearls, shells, sea products, *etc.*

(vi) Mining and quarrying.

In our country Household Industry is a very important part of our economy. We must get accurate data regarding those engaged in 'HHI'. You must carefully read these instructions and under stand them. The main points are again indicated below.

'HHI' stands for worker in Household Industry. The main characteristics of the Household Industry are the following :

(a) **One or more members of the household must participate. Participation by hired labour must be minimum.**

(b) **The activity should relate to some production, processing, servicing, repairing or making and selling of goods.**

(c) The goods produced should not be for consumption by the household itself but should be wholly or partly for sale.

(d) In an urban area the industry must be carried on *in the precincts of the house in which the household lives.* In the rural areas, the industry may be anywhere within the limits of the village.

(e) The activity should not be on the scale of a Registered Factory.

(f) Professions such as those practised by Pleader, Doctor, Barber, Musician, Dancer, *Dhobi* Astrologer, *etc.* will not be 'HHI'.

Other workers

All workers, *i.e.*, those who have been engaged in some economic activity during the last one year, who are not cultivators or agricultural labourers or in Household Industry, are 'Other Workers'—'OW'. The type of workers that come under this category of 'OW' include factory workers, plantation workers, those in trade, commerce, business, transport, mining, construction, political or social work, all government servants, municipal employees, teachers, priests, entertainment artists, *etc.* In effect, all those who work in any field of economic activity other than cultivator, agricultural labourer or household industry, are 'Other Workers'. They will be entered as 'OW'.

INSTRUCTIONS TO ENUMERATORS FOR RECORDING THE ANSWERS TO QUESTION NUMBERS 5 AND 6 OF INDIVIDUAL SLIP (SAMPLE)

Question 5 : For all ever-married women only

This question will be asked in the case of all ever-married women. It will not be asked for a woman who has never been married. Please note that the term 'ever-married' does not necessarily mean 'currently married'. The 'ever-married' would include all women who may be currently married, the widowed, the separated and the divorced. This question, in other words, will be asked of all women except those who are 'Never Married'. For all women for whom 'M' or 'W' or 'S' is entered in question 5 of the Universal Slip, this question will be asked. In the case of women who are 'NM' in question 5 of the Universal Slip, put '×' in all parts of question.

Question 5 (a) : Age at marriage

You should ascertain the age at which the women, whom you are enumerating, was married and record that age in completed years. If a woman has been married more than once, the age at which she got married for the first time should be recorded.

Question 5(b) : Number of children surviving at present

In this question, you will have to find out how many of the children born are still surviving, i.e., at the time of enumeration.

Please note that the children need not necessarily be staying with the mother, i.e., the woman you are enumerating. They may be elsewhere due to any reason. What is important is whether they

are alive, not where they live. They may be anywhere, even outside the country. The important point is the number alive.

Having ascertained this number, enter the details by sex and total in the boxes provided.

If there are no male or female children surviving at the time of enumeration, write 'C' in the appropriate box or boxes.

Question 5(c) : Number of children ever born alive

You should ascertain the total number of children that the woman you are enumerating gave birth to from the time she got married. If married, more than once, all the children born to her should be ascertained.

The number of children born would include all children born alive, even if later unfortunately any child died. Many persons, specially older people may only count children living with them. It is therefore, essential to enquire about the number of children living at home, those living elsewhere and also those who are born alive but who are unfortunately not alive now. Even if the child died within a few hours of his/her birth, he/she should be included in the count. Still births, i.e., children born dead should not be included in counting this number of children ever born. You will have to ask politely but appropriate questions for getting this information.

You should ensure that all live births are ascertained irrespective of whether the children are alive now.

It is our experience that the births of a child may not be reported readily if the child is not actually living at the time of enumeration. The children who are born but may have died before the enumeration may not be indicated by the respondent unless you make detailed enquiries. This would be particularly true in the case of children who may have died as infants. There is, therefore, need for a detailed probe to ensure that you get the correct number.

Ascertain the number of children ever born alive by sex and write the figures in international numerals in the boxes provided. Also, give the total in the box provided.

If the woman reports that she has had no male or female children born alive, write, 'O' in the appropriate box or boxes.

Question 6 : For currently married women only

This question has to be answered in respect of all currently married women only, i.e., all women whose marital status is shown as 'M' against question 5 of the Universal Slip. For all others, a cross (×) may be put against this question on the line.

Any child born alive during last one year

You should ascertain if the currently married woman, whom you are enumerating, gave birth to a child in the last one year prior to the date of enumeration. If the respondent is not able to rockon one year, you can find out if a child was born alive in 1980 to the woman you are enumerating on or after any of the festival indicated to you by the Director of Census Operations. Only if the child was born alive, and even if the child had died soon after birth, the answer should be 'Yes', to this question. Still birth, i.e., a child which is born dead should not be taken into account for this purpose. So while you should make sure that every case of birth of child born alive, even if it is not alive on the date of enumeration, is reported, you should not reckon it if the child was born lifeless.

It is common experience that the birth of the child may not be reported readily if the child is not actually surviving at the time of enumeration. Infant deaths are still high in the country. There is a change of a number of such cases being missed unless specifically questioned about. It is necessary to record all live births even if the child had died soon thereafter or had not survived to the day of enumeration. Therefore, where the initial answer to this question is 'No' you should ask a specific question if there has been case of a child having been born alive in the last one year and later dying before the enumeration date. This is a delicate question and should be asked with tact in a manner not to offend the sentiments of the respondent. Where a currently married woman first answers that she had no child born in the last one year, you may perhaps question her as follows :

"It has been found in some houses that a child was born and had died soon after or a few days or months later and such cases had not been reported. It is my hope that there are no such cases here. Am I right ?"

This may bring in the required response. If she reports 'No' then you can be sure that no birth has been missed. You have to make sure that any live birth that has occurred to the currently married woman in the last one year is netted whether the child is surviving till the date of enumeration or not. A similar probe to eliminate still births may also be necessary. For example, when the answer is 'Yes' under this question, you might ask if the child is here in the house. If the answer is 'Yes', no further question is needed. If 'No', you might ask where the child has gone. The answer may be 'dead' or that it has gone elsewhere. If dead, then you mignt ask when the child died and this will bring out the fact whether or not it was a still birth. If the answer is 'Yes' then enter 'Yes' in the space below the question; if the answer is No' enter 'No' in the space. Do not write in the dotted box.

In a case where the woman has had twins or multiple births, please write 2, 3 etc., next to 'Yes' as the case may be, thus 'Yes' (2) or 'Yes' (3).

F-1 EVER MARRIED AND CURRENTLY MARRIED WOMEN BY PRESENT AGE, AGE AT MARRIAGE, RELIGION AND SCHEDULED CASTES *(URBAN/RURAL)*

NOTE

This table has been prepared in two parts. Part A relates to urban areas and Part B to rural areas for the Union Territory as a whole. It gives the distribution of ever married and currently married women by religion, scheduled castes, present age and age at marriage of the mother.

The present age of the mother has been given for the age groups less than 20, 20—29, 30—39 and 40+. The figures of 'age not stated' have not been shown separately in this table but have been included under 'all ages'.

Age at marriage of the mother has been shown for age groups 10—11, 12—13, 14—15, 16—17, 18—19, 20—21, 22—23 and 24+. The figures of 'age at marriage not stated' have also not been shown separately in this table but included under 'all ages'.

The table presents data for only those main religions which have 500 or more ever married women in the Union Territory. The figures of other main religions having less than 500 ever married women and also of 'religion not stated' have not been presented separately but included under 'all religions'. In addition to this, the table also presents data for scheduled castes provided the no. of ever married women belonging to SC is 500 or more in the Union Territory.

The table presents data for only those main religions, viz., Hindus, Muslims Christians, and Sikhs, Buddhists, Jains and also for others. The figures of 'religion not stated' have not been presented separately in this table but included under 'all religions'. In addition to this, the table also presents data for scheduled castes.

The data on present age, marital status, age at marriage, religion and scheduled caste have been compiled from the answers recorded against question numbers 3, 4, 5, 8 and 9 of Individual Slip (Universal) and question number 5 of the Individual Slip (Sample).

The table gives data which will help in deriving differentials in age at marriage for broad age Cohorts of ever married and currently married women for religion and scheduled castes.

The relevant instructions given to the enumerators for filling up related questions are given in the general note on the Fertility Tables, given earlier.

F-2 EVER MARRIED AND CURRENTLY MARRIED WOMEN BY PRESENT AGE, AGE AT MARRIAGE AND EDUCATIONAL LEVEL *(URBAN/RURAL)*

NOTE

This table has been prepared in two parts. Part A relates to urban areas and Part B to rural areas for the Union Territory as a whole. It gives the distribution of ever married and currently married women by education, present age and age at marriage of the mother.

The age groups in regard to present age and age at marriage of the mother are same as those in Table F-1.

In both parts A & B of this table, data are presented for :

(i) Illiterate

(ii) Literate but below middle

(iii) Middle but below matric

(iv) Matric but below graduate

(v) Graduate and above

The figures for educational levels not classifiable have been included under 'Literate but below middle' and the figures for 'educational level not stated' have not been presented separately but included under 'total'.

The data on present age, marital status, age at marriage and the level of education have been compiled from the answers recorded against question numbers 3, 4, 5, 11 and 12 of the Individual Slip (Universal) and question numbers 5 of the Individual Slip (Sample).

This table gives data which will help in deriving differentials in age at marriage for ever married and currently married women by present age and educational level.

F-2 PAPT A EVER MARRIED AND CURRENTLY MARRIED WOMEN BY

F-3 EVER MARRIED AND CURRENTLY MARRIED WOMEN BY PRESENT AGE, AGE AT MARRIAGE AND OCCUPATION *(URBAN/RURAL)*

NOTE

This table has been prepared in two parts. Part A relates to urban areas and Part B to rural areas for the Union Territory as a whole. It gives distribution of ever married and currently married women by occupation, present age and age at marriage of the mother.

The age groups in regard to present age and age at marriage of the mother are same as those in Table F-1.

Part A of this table presents data for main workers and marginal workers (classified by manual and non-manual) and non-workers. Part B presents data for main workers and marginal workers (classified by cultivators, agricultural labourers, household industry and other workers) and non-workers.

The data on present age, marital status, age at marriage and occupation have been compiled from the answers recorded against question numbers 3, 4, 5, 14 & 15 of the Individual Slip (Universal) and question number 5 of the Individual Slip (Sample).

This table gives data which will help in deriving differentials in the age at marriage for ever married and currently married women by present age and occupation.

F-3 PART A EVER MARRIED AND CURRENTLY MARRIED WOMEN BY

F-4 CURRENTLY MARRIED WOMEN BY PRESENT AGE AND RELIGION AND BIRTHS TO THEM DURING THE LAST YEAR BY BIRTH ORDER *(URBAN/RURAL)*

NOTE

This table has been prepared in two parts. Part A relates to urban areas and Part B to rural areas for the Union Territory as a whole. It gives the births of last year by birth order and present age and religion of mother. The currently married women by present age and religion have also been presented in the table.

The present age of the mother has been given for the age groups less than 15, 15—19, 20—24, 25—29, 30—34, 35—39, 40—44, 45—49 and 50+. The figures of 'age not stated' have not been shown separately in the table but have been included under 'all ages'.

The last year's births have been presented for the birth order 1, 2, 3, 4+ and 'not stated'.

The table presents data for only those main religions which have 500 or more ever married women in the Union Territory in table F-1 irrespective of the no. of currently married women in each religion.

The data on present age, marital status, religion and children born alive to currently married women during last one year have been compiled from the answers recorded against question numbers 3, 4, 5 and 8 of the Individual Slip (Universal) and question numbers 5 and 6 of the Individual Slip (Sample).

The table gives data which will help in deriving the age-specific current fertility differentials by religion and also their birth order patterns.

F-5 CURRENTLY MARRIED WOMEN BY PRESENT AGE AND EDUCATIONAL LEVEL AND BIRTHS TO THEM DURING LAST YEAR BY BIRTH ORDER *(URBAN/RURAL)*

NOTE

This table has been prepared in two parts. Part A relates to urban areas and Part B to rural areas for the Union Territory as a whole. It gives the births of last year by birth order and present age and educational level of mother. The currently married women by present age and educational level have also been presented in the table.

The age groups in regard to present age of the mother are same as those of table F-4 and the educational levels are same as those in table F-2.

Last year's births have been classified by birth order 1, 2, 3, 4+ and 'not stated' as in table F-4.

The data on present age, marital status, educational level and children born alive to currently married women during last one year have been compiled from the answers recorded against question numbers 3, 4, 5, 11 and 12 of the Individual Slip (Universal) and question numbers 5 and 6 of the Individual Slip (Sample).

The table gives data which will help in deriving the age-specific current fertility differentials by educational levels and also their birth order patterns.

F-6 CURRENTLY MARRIED WOMEN OF SCHEDULED CASTES BY PRESENT AGE AND BIRTHS TO THEM DURING LAST YEAR BY BIRTH ORDER *(URBAN/RURAL)*

NOTE

This table has been prepared in two parts. Part A relates to urban areas and Part B to rural areas for the Union Territory as a whole. It gives the births of last year by birth order and present age of the mother for scheduled castes. The currently married women by present age and scheduled castes have also been presented in the table. The scheduled castes with less than 500 ever married women in the Union Territory will not appear in this table.

The age groups in regard to present age of the mother and last year's births of order are similar to those of table F-4.

The data on present age, marital status, scheduled caste and the children born alive to currently married women last year have been compiled from the answers recorded against question numbers 3, 4, 5 and 9 of the Individual Slip (Universal) and question numbers 5 and 6 of the Individual Slip (Sample).

The table gives data which will help in deriving the age-specific current fertility for scheduled castes and its birth order patterns.

F-7 CURRENTLY MARRIED WOMEN BY PRESENT AGE AND OCCUPATION AND BIRTHS TO THEM DURING LAST YEAR BY BIRTH ORDER *(URBAN/RURAL)*

NOTE

This table has been prepared in two parts. Part A relates to urban areas and Part B to rural areas for the Union Territory as a whole. It gives the births of last year by birth order and present age and occupation of mother. The currently married women by present age and occupation have also been given in the table.

Same occupation groups as in table F-3 Parts A & B have been adopted for this table and last year's births have been classified by birth order 1, 2, 3, 4+ and 'not stated' as in table F-4.

The age groups in regard to present age of the mother are same as those in table F-4.

The data on present age, marital status, occupation and child/children alive to currently married women during last one year have been compiled from the answers recorded against question numbers 3, 4, 5, 14 and 15 of the Individual Slip (Universal) and question numbers 5 and 6 of the Individual Slip (Sample).

This table gives data which will help in deriving the age-specific current fertility differentials by occupation and also their birth order patterns.

F-8 CURRENTLY MARRIED WOMEN BY PRESENT AGE, DURATION OF MARRIAGE AND RELIGION AND BIRTHS TO THEM DURING LAST YEAR *(URBAN/RURAL)*

NOTE

This table has been prepared in two parts. Part A relates to urban areas and Part B to rural areas for the Union Territory as a whole. It gives the distribution of currently married women and last year births by present age, duration of marriage and religion of the mother.

The age groups in regard to present age of the mother are the same as those used in table F-4. The duration of marriage has been given as 0—4, 5—9, 10—14, 15—19, 20—24, 25—29, 30—34, 35+. The figures of 'unspecified duration' have not been presented separately, in the table but included under 'all durations'.

The data have been presented only for those main religions which have more than 500 ever married women in the Union Territory as in Table F-1 irrespective of the no. of currently married women in each religion.

The data on present age, marital status, duration of marriage religion and child/children born alive to currently married women during last one year have been compiled from the answers recorded against question numbers 3, 4, 5 and 8 of the Individual Slip (Universal) and question number 6 of the Individual Slip (Sample).

The table gives data which will help in deriving the age and marriage duration-specific current fertility differentials by religion.

F-9 CURRENTLY MARRIED WOMEN BY PRESENT AGE, DURATION OF MARRIAGE AND EDUCATIONAL LEVEL AND BIRTHS TO THEM DURING LAST YEAR *(URBAN/RURAL)*

NOTE

This table has been prepared in two parts. Part A relates to urban areas and Part B to rural areas for the Union Territory as a whole. It gives the distribution of currently married women and the last year's births by present age, duration of marriage and educational level of the mother.

The age groups in regard to present age of the mother are the same as those used in table F-4 and the duration of marriage groups are the same as those used in table F-8. The educational levels adopted for this table are same as those in table F-2.

The data on present age, marital status, educational level and child/children born alive to currently married women during the last one year have been compiled from the answers recorded against question numbers 3, 4, 5, 11 and 12 of the Individual Slip (Universal) and question number 6 of the Individual Slip (Sample).

The table gives data which will help in deriving the age and marriage duration-specific current fertility differentials by educational level.

F-9 PART A CURRENTLY MARRIED WOMEN BY PRESENT AGE, DURATION OF MARRIAGE

F-10 CURRENTLY MARRIED WOMEN OF SCHEDULED CASTES BY PRESENT AGE AND DURATION OF MARRIAGE AND BIRTHS TO THEM DURING LAST YEAR *(URBAN/RURAL)*

NOTE

This table has been prepared in two parts. Part A relates to urban areas and Part B to rural areas for the Union Territory as a whole. It gives the distribution of currently married women and the last year's births by present age, duration of marriage for scheduled castes.

The age groups in regard to present age of the mother are the same as those used in table F-4 and the duration of marriage groups are the same as those used in table F-8.

The data have been presented for scheduled castes which have 500 or more ever married women in the Union Territory irrespective of the number of currently married women belonging to scheduled castes as in Table F-1.

The data on present age, marital status, scheduled castes and child/children born alive to currently married women during last one year have been compiled from the answers recorded against question numbers 3, 4, 5 and 9 of the Individual Slip (Universal) and question number 6 of the Individual Slip (Sample).

The table gives data which will help in deriving the age and marriage duration-specific current fertility of scheduled castes.

F-11 CURRENTLY MARRIED WOMEN BY PRESENT AGE, DURATION OF MARRIAGE AND OCCUPATION AND BIRTHS TO THEM DURING LAST YEAR *(URBAN/RURAL)*

NOTE

This table is also prepared in two parts. Part A relates to urban areas and Part B to rural areas for the Union Territory as a whole. It gives the distribution of currently married women and last year's births by present age and duration of marriage and occupation.

Same occupation groups as in table F-3 Parts A & B have been adopted for this table. The age group in regard to present age of the mother are same as adopted for Table F-4. The duration of marriage groups are also same as adopted in Table F-8.

The data on present age, marital status, occupation and child/children born alive to currently married women during last one year have been compiled from the answers recorded against question numbers 3, 4, 5, 14 and 15 of the Individual Slip (Universal) and question number 6 of the Individual Slip (Sample).

This table gives data which will help in deriving the age and marriage duration-specific current fertility differentials by occupation.

TABLE F-12 PARTS A & B EVER MARRIED WOMEN BY PRESENT AGE, PARITY AND RELIGION AND TOTAL CHILDREN EVER BORN TO THEM BY SEX *(URBAN/RURAL)*

TABLE F-12 PARTS C & D EVER MARRIED WOMEN BY PRESENT AGE, NUMBER OF SURVIVING CHILDREN AND RELIGION AND TOTAL SURVIVING CHILDREN BORN TO THEM BY SEX *(URBAN/RURAL)*

NOTE

This table is in four parts. Parts A & B give the distribution of ever married women by present age, parity and religion in urban and rural areas respectively. The distribution of total number of children by sex ever born to ever married women by present age and religion is also given in these two parts of the table for urban and rural areas respectively. Parts C & D give the distribution of ever married women by present age, number of surviving children and religion in urban and rural areas respectively. These Parts also give the distribution of the total surviving children by sex of ever married women by present age and religion.

The age groups in regard to the present age of the ever married women are same as adopted for table F-4. The table presents data only for those main religions which have 500 or more ever married women in the Union Territory as in Table F-1. The data have been presented for parities 0, 1, 2 3 and 4+ and 'not stated'.

The data on present age, marital status, religion, total number of children ever born to ever married women and total number of surviving children of married women have been compiled from the answers recorded against question numbers 3, 4, 5 and 8 of the Individual Slip (Universal) and question number 5 of the Individual Slip (Sample).

The data in Parts A & B of this table will give the differentials in cumulated fertility at different ages by religion for ever married women whereas the data in Parts C & D of the table will give the differentials by religion in surviving children of ever married women of different ages.

TABLE F-13 PARTS A & B EVER MARRIED WOMEN BY PRESENT AGE, PARITY AND EDUCATIONAL LEVEL AND TOTAL CHILDREN EVER BORN TO THEM BY SEX *(URBAN/RURAL)*

TABLE F-13 PARTS C & D EVER MARRIED WOMEN BY PRESENT AGE, NUMBER OF SURVIVING CHILDREN AND EDUCATIONAL LEVEL AND TOTAL SURVIVING CHILDREN BORN TO THEM BY SEX *(URBAN/RURAL)*

NOTE

This table is in four parts like the previous table F-12. Parts A & B give the distribution of ever married women by present age, parity and educational level. Part A relates to urban areas and Part B to rural areas. These two parts also give the distribution of total number of children by sex ever born to ever married women by present age and educational level. Parts C & D give the distribution of ever married women by present age, number of surviving children and educational level. Part C relates to urban areas and Part D to rural areas. These two parts also give the distribution of total surviving children by sex ever married women by present age and educational level. The table has been prepared as Union Territory level.

The age groups in regard to present age and educational level groups of ever married women are the same as those adopted in Tables F-2 and F-4 respectively.

The data have been presented for parities, no. of surviving children 0, 1, 2, 3 and 4+ and 'not stated'.

The data on present age, marital status, educational level, parity, total number of children ever born to ever married women and total surviving children of ever married women have been compiled from the answers recorded against questions 3, 4, 5, 11 and 12 of the Individual Slip (Universal) and question number 5 of the Individual Slip (Sample).

The data in Parts A & B of the table will give the differentials in cumulated fertility at different ages by educational level for ever married women whereas the data in Parts C & D of the table will give the differentials by educational level in surviving children of ever married women of different ages.

F-14 EVER MARRIED WOMEN OF SCHEDULED CASTES BY PRESENT AGE AND PARITY AND TOTAL CHILDREN EVER BORN TO THEM BY SEX *(URBAN/RURAL)*

NOTE

This table has been prepared in two parts. Part A relates to urban areas and Part B to rural areas for the Union Territory as a whole. It gives the distribution of ever married women by present age and parity for scheduled castes. It also gives the distribution of total number of children by sex, born to ever married women by present age for scheduled castes.

The data have been presented for scheduled castes which have 500 or more ever married women in the Union Territory irrespective of the number of currently married women belonging to scheduled castes as in F-1.

The age groups in regard to the present age of ever married women are same as those adopted in Table F-4.

The data have been presented for parities 0, 1, 2, 3, 4+ and 'not stated'.

The data on present age, marital status, scheduled caste and the total number of children ever born to ever married women have been compiled from the answers recorded against question numbers 3, 4, 5 and 9 of the Individual Slip (Universal) and question number 5 of the Individual Slip (Sample).

The data in this table will give the differentials in cumulated fertility at different ages for ever married women belonging to scheduled castes.

F-14 PART A EVER MARRIED WOMEN OF SCHEDULED CASTES BY PRESENT AGE AND PARITY AND TOTAL CHILDREN EVER BORN TO THEM BY SEK—*URBAN*

F-15 EVER MARRIED WOMEN BY PRESENT AGE, PARITY AND OCCUPATION AND TOTAL CHILDREN EVER BORN TO THEM BY SEX *(URBAN/RURAL)*

NOTE

This table has been prepared in two parts. Part A relates to urban areas and Part B to rural areas for the Union Territory as a whole. It gives the distribution of ever married women by present age, parity and occupation. It also gives the distribution of total number of children by sex, born to ever married women by present age and occupation.

The age groups in regard to the present age and occupational groups of the ever married women are same as adopted in Tables F-3 and F-4 Parts A & B.

The data have been presented for parities 0, 1, 2, 3, 4+ and 'not stated'.

The data on present age, marital status, occupation and the total number of children ever born to ever married women have been compiled from the answers recorded against question numbers 3, 4, 5, 14 and 15 of the Individual Slip (Universal) and question number 5 of the Individual Slip (Sample).

The table gives data which will help in deriving the differentials in cumulative fertility at different ages by occupation for ever married women.

F-16 CURRENTLY MARRIED WOMEN BY PRESENT AGE, DURATION OF MARRIAGE, PARITY AND RELIGION AND TOTAL CHILDREN EVER BORN TO THEM BY SEX *(URBAN/RURAL)*

NOTE

This table has been prepared in two parts. Part A relates to urban areas and Part B to rural areas for the Union Territory as a whole. It gives the distribution of currently married women by present age, duration of marriage, parity and religion. It also gives the distribution of total children by sex, born to currently married women by present age, duration of marriage and religion.

The age groups in regard to the present age of the currently married women are the same as those used in Table F-4 and the duration of marriage groups are the same as those used in Table F-8.

The data have been presented only for those main religions which have 500 or more ever married women in the Union Territory as in Table F-1 irrespective of the number of currently married women in each religion.

The data have been presented for parities 0, 1, 2, 3, 4+ and 'not stated'.

The data on present age, marital status, duration of marriage, religion, parity and total children ever born to currently married women have been compiled from the answers recorded against question numbers 3, 4, 5 and 8 of the Individual Slip (Universal) and question number 5 of the Individual Slip (Sample).

The table gives data which will help in deriving the differentials in marriage duration-specific cumulative fertility at different ages by religion for currently married women.

F-17 CURRENTLY MARRIED WOMEN BY PRESENT AGE, DURATION OF MARRIAGE, PARITY AND EDUCATIONAL LEVEL AND TOTAL CHILDREN EVER BORN TO THEM BY SEX *(URBAN/RURAL)*

NOTE

This table has been prepared in two parts. Part A relates to urban areas and Part B to rural areas for the Union Territory as a whole. It gives the distribution of currently married women by present age, duration of marriage, parity and educational level. It also gives the distribution of total children by sex born to currently married women by present age, duration of marriage and educational level.

The age groups in regard to the present age of the currently married women are the same as those adopted in Table F-4 and the duration of marriage groups are the same as those used in Table F-8. The educational levels of the currently married women are also the same as adopted for Table F-2.

The data have been presented for parities 0, 1, 2, 3, 4+ and 'not stated'.

The data on present age, marital status, duration of marriage, educational level, parity and total children ever born to currently married women have been compiled from the answers recorded against question numbers 3, 4, 5, 11 and 12 of the Individual Slip (Universal) and question number 5 of the Individual Slip (Sample).

This table gives data which will help in deriving the differentials in marriage duration-specific cumulative fertility at different ages by educational level for currently married women.

F-18 CURRENTLY MARRIED WOMEN OF SCHEDULED CASTES BY PRESENT AGE, DURATION OF MARRIAGE AND PARITY AND TOTAL CHILDREN EVER BORN TO THEM BY SEX *(URBAN/RURAL)*

NOTE

This table has been prepared in two parts. Part A relates to urban areas and Part B to rural areas for the Union Territory as a whole. It gives the distribution of currently married women by present age, duration of marriage and parity for scheduled castes. It also gives the distribution of total children by sex born to currently married women by present age and duration of marriage for scheduled castes. The data for scheduled castes will be presented provide the number of ever married women among them is 500 or more as in table F.1.

The age groups in regard to the present age of the currently married women are the same as those used in Table F-4 and the duration of marriage groups are the same as those used in Table F-8.

The data have been presented for parities 0, 1, 2, 3, 4+ and 'not stated'.

The data on present age, marital status, duration of marriage, parity, total children ever born to currently married women and scheduled castes have been compiled from the answers recorded against question numbers 3, 4, 5 and 9 of the Individual Slip (Universal) and question number 5 of the Individual Slip (Sample).

The table gives data which will help in deriving the differentials in marriage duration-specific cumulative fertility at different ages for currently married women of scheduled castes.

F-19 CURRENTLY MARRIED WOMEN BY PRESENT AGE, DURATION OF MARRIAGE, PARITY AND OCCUPATION AND TOTAL CHILDREN EVER BORN TO THEM BY SEX *(URBAN/RURAL)*

NOTE

This table has been prepared in two parts. Part A relates to urban areas and Part B to rural areas of the Union Territory as a whole. It gives the distribution of currently married women by present age, duration of marriage, parity and occupation. It also gives the distribution of total children by sex born to currently married women by present age, duration of marriage and occupation.

The age groups in regard to the present age, duration of marriage groups and occupation of the currently married women are the same as those used in Tables F-4, F-8 and F-3 Parts A & B respectively.

The data have been presented for parities 0, 1, 2, 3, 4+ and 'not stated'.

The data on present age, marital status, duration of marriage, occupation, parity and total children ever born to currently married women have been compiled from the answers recorded against question numbers 3, 4, 5, 14 and 15 of the Individual Slip (Universal) and question number 5 of the Individual Slip (Sample).

This gives data which will help in deriving the differentials in marriage duration-specific cumulative fertility at different ages by occupation for currently married women.

F-20 CURRENTLY MARRIED WOMEN BY PRESENT AGE AND BIRTHS TO THEM DURING LAST YEAR BY BIRTH ORDER

NOTE

This table gives the distribution of births of last year to currently married women by birth order and present age. It also gives the distribution of currently married women by present age.

The age groups in regard to the present age of the currently married women are the same as those adopted in Table F-4. The births in this table have been classified by birth orders 1, 2, 3, 4+ and 'not stated'.

The table is presented for the Union Territory and the districts separately for rural and urban areas.

The data on present age, marital status and number of births last year to currently married women have been compiled from the answers recorded against question numbers 3, 4 and 5 of the Individual Slip (Universal) and question numbers 5 and 6 of the Individual Slip (Sample).

The table gives data which will help in deriving the age specific-fertility levels and their births order pattern for the currently married women.

Note :—1. 'All ages' includes 'Age not stated'.

2. It being a uni district Union Territory the data for Chandigarh district is the same as for the Union Territory.

F-21 EVER MARRIED AND CURRENTLY MARRIED WOMEN BY PRESENT AGE AND PARITY AND TOTAL CHILDREN EVER BORN TO THEM BY SEX

NOTE

This table gives the distribution of ever married and currently married women by present age and parity. The table also gives the total children by sex ever born to ever married and currently married women by present age. The data are presented separately for rural and urban areas and for parities 0, 1, 2, 3, 4+ and 'not stated' for the Union Territory and the districts.

The age groups in regard to the present age of ever married/currently married women are the same as those adopted in Table F-4.

The data on present age, marital status and total children ever born to ever married/currently married women have been compiled from the answers recorded against question numbers 3, 4 and 5 of the Individual Slip (Universal) and question numbers 5 and 6 of the Individual Slip (Sample).

The table gives data which will help in deriving cumulative fertility at different ages for ever married women and currently married women.

F-22 EVER MARRIED AND CURRENTLY MARRIED WOMEN BY PRESENT AGE AND AGE AT MARRIAGE

NOTE

This table gives the distribution of ever married and currently married women by present age and age at marriage for Union Territory and the districts. The data are presented separately for rural and urban areas.

The age groups in regard to present age and age at marriage of ever married/currently married women are the same as those in Table F-1.

The data on present age, marital status and age at marriage of the currently married/ever married women have been compiled from the answers recorded against question numbers 3, 4 and 5 of the Individual Slip (Universal) and question number 5 of the Individual Slip (Sample).

The data in this table will help in deriving the age at marriage pattern for ever married and currently married women of broad age cohorts.

F-23 CURRENTLY MARRIED WOMEN BY PRESENT AGE, DURATION OF MARRIAGE, NUMBER OF SURVIVING CHILDREN AND RELIGION AND THEIR TOTAL SURVIVING CHILDREN BY SEX *(URBAN/RURAL)*

NOTE

This table has been prepared in two parts. Part A relates to urban areas and Part B to rural areas for the Union Territory as a whole. This gives the distribution of currently married women by present age, duration of marriage, number of surviving children and religion. The table also gives the total, male and female surviving children of currently married women by present age, duration of marriage and religion.

The age groups in regard to the present age and duration of marriage groups are the same as those adopted in tables F-4 and F-8 respectively.

The data have been presented for those main religions which have 500 or more ever married women in the Union Territory as in table F-1 irrespective of the number of currently married women in each religion.

The data have been presented for parities 0, 1, 2, 3, 4+, and 'not stated'.

The data on present age, duration of marriage, marital status, total surviving children and religion of currently married women have been compiled from the answers recorded against question numbers 3, 4, 5 and 8 of the Individual Slip (Universal) and question number 5 and 6 of the Individual Slip (Sample).

The table gives data which will help in deriving the differentials by religions in surviving children of currently married women of different ages and duration of marriage.

F-24 CURRENTLY MARRIED WOMEN BY PRESENT AGE, DURATION OF MARRIAGE, NUMBER OF SURVIVING CHILDREN AND EDUCATIONAL LEVEL AND THEIR TOTAL SURVIVING CHILDREN BY SEX—*(URBAN/RURAL)*

NOTE

This table has been prepared in two parts. Part A relates to urban areas and Part B to rural areas for the Union Territory as a whole. It gives the distribution of currently married women by present age, duration of marriage, number of surviving children and educational level. The table also gives the total, male and female surviving children of currently married women by present age, duration of marriage and educational level.

The age groups in regard to the present age, duration of marriage groups and educational levels of the currently married women are the same as those adopted in tables F-4, F-8 and F-2 respectively.

The data have been presented for the surviving children 0, 1, 2, 3, 4+ and 'not stated'.

The data on present age, marital status, duration of marriage, educational level, total surviving children of the currently married women have been compiled from the answers recorded against question numbers 3, 4, 5, 11 and 12 of the Individual Slip (Universal) and question numbers 5 and 6 of the Individual Slip (Sample).

This table gives data which will help in deriving the differentials by educational levels in surviving children of currently married women of different ages and durations of marriage.

F-25 CURRENTLY MARRIED WOMEN OF SCHEDULED CASTES BY PRESENT AGE, DURATION OF MARRIAGE AND NUMBER OF SURVIVING CHILDREN AND THEIR TOTAL SURVIVING CHILDREN BY SEX—*(URBAN/RURAL)*

NOTE

This table has been prepared in two parts. Part A relates to urban areas and Part B to rural areas for the Union Territory as a whole. It gives the distribution of currently married women of scheduled castes by present age, duration of marriage and number of surviving children. The table also gives the total, male and female surviving children of currently married women of scheduled castes by present age and duration of marriage. Scheduled Tribes are not recognised in the Union Territory of Chandigarh

The age groups in regard to the present age and duration of marriage groups of the currently married women are the same as those adopted in Tables F-4 and F-8 respectively.

The data have been presented for surviving children 0, 1, 2, 3, 4+ and 'not stated'.

The data on present age, marital status, duration of marriage, scheduled caste and total number of surviving children of currently married women have been compiled from the answers recorded against question numbers 3, 4, 5 and 9 of the Individual Slip (Universal) and question number 5 of the Individual Slip (Sample).

The table gives data which will help in deriving the differentials in surviving children of currently married women of different ages and durations of marriages among scheduled castes.

F-25 PART A CURRENTLY MARRIED WOMEN OF SCHEDULED CASTES BY CHILDREN AND THEIR TOTAL

F-26 CURRENTLY MARRIED WOMEN BY PRESENT AGE, DURATION OF MARRIAGE, NUMBER OF SURVIVING CHILDREN AND OCCUPATION AND THEIR TOTAL SURVIVING CHILDREN BY SEX—*(URBAN/RURAL)*

NOTE

This table has been prepared in two parts. Part A relates to urban areas and Part B to rural areas for the Union Territory as a whole. It gives the distribution of currently married women by present age, duration of marriage, number of surviving children and occupation. The table also gives the total, male and female surviving children of currently married women by present age, duration of marriage and occupation.

The groups in regard to the present age, duration of marriage and occupation of the currently married women are the same as those adopted in Tables F-3, F-4 and F-8 Parts A & B respectively.

The data have been presented for surviving children 0, 1, 2, 3, 4+ 'not stated'.

The data on present age, marital status, duration of marriage, occupation and total surviving children of the currently married women have been compiled from the answers recorded against question numbers 3, 4, 5, 14 and 15 of the Individual Slip (Universal) and question number 5 of the Individual Slip (Sample).

This table gives data which will help in deriving the differentials by occupation in surviving children of currently married women of different ages and durations of marriage.

F-27 EVER MARRIED WOMEN BY PRESENT AGE AND NUMBER OF SURVIVING CHILDREN AND THEIR TOTAL SURVIVING CHILDREN BY SEX

NOTE

The table gives the distribution of ever married women by present age and number of surviving children for the Union Territory and the districts for rural and urban areas separately. It also gives the total, male and female surviving children of ever marrried women by present age.

The age groups in regard to the present age of the ever married women are the same as adopted in Table F-4. The data have been presented for 0, 1, 2, 3, 4+ and 'not stated' surviving children.

The data on present age, marital status and total surviving children of ever married women have been compiled from the answers recorded against question numbers 3, 4 and 5 of the Individual Slip (Universal) and question number 5 of the Individual Slip (Sample).

The data in the table will give the pattern of surviving children at different ages for ever married women.

F-27 EVER MARRIED WOMEN BY PRESENT AGE AND NUMBER OF

Rural/ Urban	Present Age	Total Ever Married Women	Ever Married Women with number of Surviving Children		
			0	1	2
1	2	3	4	5	6
		CHANDIGARH U.T.
