# INTRODUCTION

## District Fatehgarh Sahib

### Physical Aspect.

*Name and derivation.*

The District takes its name after the Shrine of Fatehgarh Sahib and the Gurdwara Fatehgarh Sahib standing by it. These places are situated at a distance of two miles from the town of Sirhind and are connected with it both by rail and road. The town of Basi Pathanan or Amar Garh, five miles to the North of Sirhind, and a railway station on the Sirhind-Nangal Dam Railway line, is actually the administrative head quarters of the District Fatehgarh Sahib. The district was founded as a result of the constituting of the Patiala and East Punjab States Union in May 1948.

*Situation.*

The district lies between 30° 23′ 15″ and 30° 53′ 25″ North and 75° 55′ 25″ and 76° 38′ 25″ East.

*Area.*

The area of the district, according to the figures supplied by the Survey of India Department, is 525·7 square miles.

*Boundaries.*

To its North lie the Ambala and Ludhiana districts, to the South Ambala and Patiala districts, to the East Ambala and Patiala districts and to the West Ludhiana district. It has a peculiar shape. In its North-East a part of its territory with Gharuwan as one of its noted villages, wedges into the Kharar Tehsil of the Ambala District. In its North-Western side, the Doraha territory resembling a wedge, penetrates far into the territory of Ludhiana district. The greatest length of the district from East to West, is 45 miles and the greatest width, from North to South, 30 miles.

The district falls within the Pepsu Plains Division of the Trans-Gangetic West Natural Sub-Rigion of the Trans-Gangetic Plains Region.

*Rivers and Streams.*

No river flows in the district. There are, however, two torrents called the Sunamwala Choa, and the Jhambowali Choi,

the former has its source near Rupar in the waters which get accumulated in the rainy season, flows by Sirhind, Patiala and Sunam, and gets lost in the sands of Hissar; the latter starts from near Chanarthal and joins Ghagar near Munak.

The Sirhind canal enters the district near Doraha and after traversing it over a considerable length, is divided into different branch canals the Abohar, the Bhatinda, the Kotla, the Ghaggar and the Choa Branch Canals.

There is also a seasonal canal called the Banur Canal. The main line of the Bhakra canal will be passing through this district a few miles West of Sirhind.

**Geology.**

The entire district is an alluvial plain and has not much importance geologically.

**Climate and rain fall.**

There are extremes of seasons-the district is very hot in summer and very cold in winter. The rainfall decreases from East to West. The average rainfall of the district is 27·21 inches. The tehsilwise annual rainfall is as under :—

Sirhind ..... 28·58".

Payal ..... 26·62".

Amloh ..... 26·43".

The Lalru and Banur areas get malarial during the rainy season-

**History.**

In 1762, the Sikhs established their sway over it killing the then Governor, Zain Khan at Manhera, near Sirhind. Subsequently Sirhind and adjoining areas became part of earstwhile Patiala State and it shared the fortunes of the Patiala Dynasty till may, 1948, when Patiala State alongwith other states, was integrated to form the Patiala and East Punjab States Union.

**Population.**

**Places of interest.**

*Basi.*

It lies on the Sirhind-Nangal Dam Railway as well as the Sirhind-Rupar road and is the headquarters of the district. It has a great historical importance attached to it. There is a grain-market and a railway station presenting a pleasing scenery. The bungalow of Mohd Halim is very nicely built.

*Sirhind.*

Sirhind is situated on the main Northern Railway line and is Railway Junction for Rupar. It is a town of considerable antiquity and its history is not easily traced. In 1415, it was the seat of the Mohammadan Governor and remained in the possession of the Mohammadans till 1762 when Maharaj Ala Singh attacked Sirhind and killed Zain Khan, the then Governor of Sirhind. A note about the historical places at Sirhind is reproduced from the Gazetteer of Phulkian States, 1904, which runs as under:—

"The ruins of Sirhind contain the mausoleum of Mujaddid-Alf i-Sani which is a fine building to which Mohammadans in general and the nobility of Kabul in particular pay visits as a pilgrimage. Near it is the mausoleum of Rafi-ud-Din, an ancestor of Mujaddid-Alf-i-Sani close to which is the Rauza of Khuaja Masum, son of Mujaddid Alf-i-Sani, and which is commonly known as Rauza Chini on account of its excellant mosaic work. The mausoleum of Shah Zaman of Kabul contains the tomb of his Begam also. It is unknown whose ashes the two Rauza of Ustad and Shagird contain; it is said that one of them was built by a master (Ustad) mason and the other by his apprentice (Shagird). There are two small mausoleums near the village Dera Mir Miran known as Haj-o-Taj. It is said that two Begams (queens) named Haj-ul-Nisa and Taj-ul-Nisa of a king were interred there. Close to it is the Rauza of the daughter of Bahlol Lodhi containing inscription which shows that she died in 901 A. H. in the time of Sikandar Lodhi. Gurdwara Fatehgarh (where the two sons of Guru Gobind Singh were buried alive) and Gurdwara Joti Sarup (where they were afterwards burnt) are other places worth notice. There is also a large mosque begun by Sadhna a Qasai the famous Bhagat, but never completed. Here is also a Jahazi Haveli built on the model of a ship. The extensive garden called the Am-o-Khas is

walled in on all sides and contains some fine buildings. It now covers only a small area, but is stocked with various kinds of fruit trees, mangoes and oranges. It was planted by Sultan Hafiz, whose tomb is close by and in the time of Shah Jahan, Kandi Beg brought a canal into it from the Sutlej. Near the garden is a well with 16 Bidhs. It also contains a Bhulbhalayan, 'Labyrinth' since repaired, and a large bridge under which the Sirhind Choa passes. Sirhind was the birth place of the poet Nasir Ali".

**Fatehgarh Sahib.**

Although it is not the head quarters of the district, yet the district has been named after it. It has not historical importance attached to it In 1704 A. D. Bazid Khan, the then Governor of Sirhind bricked up the two young sons of Guru Gobind Singh alive in wall. In 1762, the place again fell into the hands of the Sikhs. The Sikhs consider it to be a place of pilgrimage. Nearby stands the Gurdwara Joti Sarup, where the bodies of the above mentioned young sons were cremated. It also lies on the Sirhind Nangal Dam Railway line and is a railway station. The Sirhind Rupar road also passes by it.

*Lalru.*

It is situated on the Ambala Rupar road at a distance of about 11 miles from Ambala. A police post and a Lower Middle School are the two public places.

*Amloh.*

Amloh is the headquarters of the tahsil of the same name and is situated on the Gobindgarh-Nabha road. A fort of Maharaja Hira Singh is still to be seen at this place. There is a dispensary and a high school in it.

*Mandi Gobindgarh.*

It is connected both by road and rail. It is an industrial centre and a number of cotton ginning and oil crushing factories have sprung up. It is also noted for its iron industry. A Small Town Committee is functioning in the town. It is also a grain market.

*Payal.*

Payal is the head quarters of the tahsil of the same name and is connected by a Pacca road with the Grand Trunk Road. It is also a historical place and an old fort is still to be seen there. It has a High School. The houses are very beautifully built.

*Dorahe.*

It is connected by the Grand Trunk Road as well as by rail· It is famous for its big timber market. A hand pump near the canal bridge provides a very cool and refreshing drink to thirsty travellers. The climate is healthy and the Sirhind canal passes by it.

*Garag.*

It is an old town with a small bazar. It has a public high school as well as a District Board Lower Middle School. The building of the Gurdwara is nicely built and a fair is held here annually.

## STATEMENT EXPLAINING THE TABLES APPEARING IN A DISTRICT CENSUS HANDBOOK.

In the 1951 Census, in addition to the sorting of the slips to produce the tables, essential Census information relating to every person enumerated in every village and every town/ward has been incorporated in a National Register of Citizens wnich has been preserved as an unpublished administrative register for purposes of reference during the inter census decade.

Some changes have been made between the procedures for tabulation adopted at the 1931 and earlier censuses and at the present census. These are explained below :—

### 1. SUBSTITUTION OF ECONOMIC CLASSIFICATION FOR CLASSIFICATION BASED ON RELIGION :—

In the past, Census slips were, at the very out set sorted on the basis of religion, and the figures of population by religion thus obtained were the basis of village statistics. The separation of slips by religion and sex was maintained throughout the sorting operation ; and thus certain Census characteristics were cross tabulated by religion. During the present census, the slips have been sorted in the first instance, into the following eight livelihood classes of the population :—

AGRICULTURAL CLASSES.

I. **Cultivators of land wholly or mainly owned and their dependants.**

II. **Cultivators of land wholly or mainly unowned and their dependants**

III. **Cultivating labourers and their dependants.**

IV. **Non-cultivating owners of land ; agricultural rent receivers and their dependants.**

NON-AGRICULTURAL CLASSES.

Persons (Including dependants) who derive their principal means of livelihood form :—

V. **Production other than cultivation.**

VI. **Commerce.**

VII. **Transport.**

VIII. **Other services and mi scellaneous sources.**

The resulting figures have been given in the Primary Census Abstracts which serve as the basis for village statistics.

## 2. THE CONCURRENT 10% SAMPLE.

The Age (Sample) Tables have been prepared from the enumeration slips by taking a 10% sample, out of the population excluding the displaced persons. Separate figures for displaced persons are given in the Handbook in all important tables.

## 3. PRESERVATION OF CENSUS RECORDS OF REGISTERS.

In the past, the abstract (first prepared in the process of sorting and compilation) was used for compiling village statistics, which were retained as unpublished administrative records by same States and printed and published by others. At the present Census, the following *data* are included in the District Census Handbook and printed and published as such :—

i. **Introduction to the District Census Handbook.**

ii. **District Census Tables (furnishing district *data* with break up for Census tracts, within the district).**

iii. **Census Abstracts : (a) Primary Census Abstracts (b) Occupational Abstracts and (c) census abstracts of Small Scale Industries.**

The following tables have been included in the Handbook.

### A. GENERAL POPULATION TABLES.

**1. Area, Houses and Population.**

(The area figures in this table have been supplied by the Deputy Commissioner of the district and hence do not tally with the area figures maintained by the Survey Department : No. of houses are those which were found to be occupied at the time of house numbering by the revenue staff ; un-occupied houses do not figure in the table.)

VARIATION IN POPULATION DURING FIFTY YEARS.

II. (The population figures given in this table for the previous censuses have been adjusted, taking into consideration the adjustment of enclaves during the period 1941-51. Population of area transferred to and/or from each tahsil have been added to or substracted from the population of that tahsil for the census 1901 to 1941.

**III. Towns and villages Classified by Population.**

**IV. Towns Classified by Population with Variation Since 1901.**

**V. Towns arranged territorially with Population by Livelihood Classes.**

(In this table figures for livelihood classes I to III have not been given separately but have been clubbed together.)

## B. ECONOMIC TABLES.

### I. Livelihood Classes and Sub-Classes.

(Non-earning dependants in this table mean economically passive persons *i. e.* who do not earn anything ; and earning dependants implies a person who is semi-active, *i. e.* whose earning do not suffice his living and who has, therefore, to depend upon others ; Self-supporting persons mean economically active persons *i. e.* who do not depend upon others, and are at least able to maintain themselves.)

### II. SECONDARY MEANS OF LIVELIHOOD.

Non-earning dependants do not have secondary means of livelihood. An earning dependant is maintained partly by the income of some other person and partly by his own ; the source which gives him some income is taken to be his secondary means of livelihood for purposes of this table. A self supporting person may have more than one means of livelihood in some cases ; the second best source of income has been given in this table as his secondary means of livelihood.)

### III. EMPLOYERS, EMPLOYEE S AND INDEPENDANT WORKERS.

(The self supporting persons in non-agricultural classes have been classified in this table as Employers, Employees and Independant workers and are distributed in the various Divisions and Sub-divisions of Industries and Services. The fly-leaf of this table gives the number of self-supporting persons who are economically passive *e. g.* persons living principally on pensions, remittance, scholarships and fund, inmates of jails, asylums, almhouses and beggars and vagrants. To economise paper and labour no space has been provided in the table for those divisions and sub-divisions in which no self supporting persons fall.)

## C. HOUSE-HOLD AND AGE (SAMPLE) TABLES.

**I. Household (size and composition).** This table has not been published in the handbook.

**II. Livelihood Classes by age Groups.**

**III. Age and Civil Condition.**

**IV. Age and Literacy.**

**V. Single year age-returns.** (Infants below 1 year of age have been shown under the age " 0 ".)

## D. SOCIAL AND CULTURAL TABLES.

I. **Language.** This table has not been published in the handbook.

II. **Religion.**

III. **Scheduled castes and tribes.** (The fly-leaf of this table gives the number of Anglo-Indians which have been included in the figures of Christians in Table D-II).

IV. **Migrants.** (The fly-leaf of this table gives the number of people born in countries outside India but enumerated in this district.)

V. **Displaced persons.** (For Census purposes, a displaced person was taken to mean any person who has entered India having left or been compelled to leave his home in Western Pakistan on or after the 1st March, 1947, or his home in Eastern Pakistan on or after the 15th October, 1946, on account of civil disturbances or the fear of such disturbances or on account of the setting up of the two Dominions of India and Pakistan. But some persons, who had migarted to India from Western Pakistan even before 1st March, 1947, returned themselves as diplaced persons at the time of census taken for the simple reason that they had left their immovable property in Pakistan : such persons have also been included in the defination of ' Displaced Person ').

## VI. NON-INDIAN NATIONALS.

(This table was not prepared in the previous censuses ; it has been based on a suggestion made by the U. N. population Commission.)

## VII. LIVELIHOOD CLASSES, BY EDUCATIONAL STANDARDS.

(This table is also new and is designed to show the distribution of educated man-power among the different livelihood classes.)

## SUMMARY FIGURES BY DISTRICTS.

(This table furnishes selected *data* by Tahsil/tract in the district. The area figures given in this table have been furnished by the Deputy Commissioner of the district and the 1941 population figures has been given after giving effect to the adjustment of enclaves.)
