THE CHARMINAR

The Charminar was built in 1591 A.D., by Sultan Mohamed Quli Qutb Shah, fifth in descent from Sultan Quli Qutb Shah, the founder of the Qutb Shahi dynasty of Golconda. Charminar has rightly been described as the masterpiece of Qutb Shahi architecture. It occupies a central position in the city with four roads radiating in four directions from its base. The minarets, 180 feet high, spring from the abutments of open arches facing the cardinal points. During the Moghul occupation *i.e.*, in 1687 A.D., one of the minarets was struck down by lightning and it was reconstructed at a cost of Rs. 60,000. Monsieur Bussy, a French General and his troops occupied this building in 1756 A.D. As early as the middle of the seventeenth century the French traveller Thevenot visited Hyderabad and was struck by the beauty of 'that which is called Four Towers'. This building was thoroughly renovated by Sir Salar Jung, a few years before his death.

PREFACE

It is the pleasant duty of a Director of Census Operations of any State to present the information he got collected during Census from the public to the public again in an analytical form.

Tabulation of the Census data collected in the different schedules canvassed during the Census Enumeration is as arduous as the enumeration itself. Scrutiny of all the schedules received from the field and editing them before sorting is also a huge task. Sorting of 43.5 million individual slips relating to each individual in the State who was alive at the sunrise of 1st April, 1971 is a tremendous task involving lot of man power. This volume is the result of such effort.

Sorting and tabulation of Census data either on full count for basic particulars or on sample basis for some of the items was done manually up to 1961. At that time the data in the household schedules were tabulated on a 20% sample basis on the Computer in the Gokhale Institute of Economics and Politics, Poona in respect of Andhra Pradesh and at a few other centres for other States. At the 1971 Census, however, it was decided to confine manual sorting to the basic Census data only and to undertake the entire sample tabulation in the urban areas on the Computer. The 100% sorting and tabulation of 10% rural slips was taken up by the seven Regional Tabulation Offices established for this purposes in convenient centres in the State. The Urban Tabulation Office located in Hyderabad was responsible for the 100% tabulation of basic Census data for all urban areas and for punching of data on cards in respect of 20% sample urban slips for further processing at the Zonal Computer Centre at Madras/Hyderabad and finally for preparation the required tables in the Registrar General's Office, New Delhi.

The present volume *i.e.*, Part II – A – General Population Tables, contains basic Census data tabulated on full count such as area, population by sex, number of houses and households, workers and non-workers and further distribution of workers by different industrial categories, variations in population from 1901 to 1971 for the State and for each district/taluk and town in the State. The following Tables are presented in this volume.

1. A– I Area, Houses and Population.
2. A– II Decadal Variation in Population since 1901.
3. A– III Villages classified by Population.
4. A– IV Towns and Urban Agglomerations classified by Population in 1971 with variation since 1901.
5. A– V Standard Urban Areas, and
6. Primary Census Abstract.

All these tables were built up in the main Census Office based on the Primary Census Abstracts prepared in the different Regional Tabulation Offices for their respective jurisdictions. I am sure that early release of this amount of data collected,

analysed and presented in this volume will meet with the immediate requirements of scholars, administrators, businessmen, research workers and demographers.

I am deeply indebted to Sri A. Chandra Sekhar, I.A.S., Registrar General, India, for his valuable suggestions and guidance at all stages of Census enumeration, processing, compilation and analysis of data. I am grateful to Sri K. D. Ballal, I.A.S., Deputy Registrar General, India, who was always very helpful in all matters, both administrative and technical. I am also thankful to Sri K. K. Chakravorty, Central Tabulation Officer, who got the tables presented in this volume checked up for their accuracy and made useful suggestions for improvement of this volume.

My Office staff worked hard in all stages for compilation and preparation of tables given in this volume. I should particularly mention Sri P. S. R. Avadhany, Deputy Director who with his rich experience in the Census Organisation rendered valuable assistance in bringing out this volume.

The main tables, inset statements and fly leaves were prepared by Sarvasri C. S. Bose, Tabulation Officer, and K. Srimannarayana, Statistical Assistant and other members of the General Section, of my office under the guidance of Sri Yadgir Reddy, Assistant Director. The Primary Census Abstracts were carefully scrutinised and compiled by Sarvasri K. K. Sarma, Tabulation Officer, and V. Hanumantha Rao, Statistical Assistant and other members of the Tabulation Section under the supervision of Sri K. Narasimha Murthy, Assistant Director. The maps and charts that are included in this volume were prepared by Sri M. Ram Mohan, Artist, Sri Syed Ahmad, Senior Draughtsman and other members of the Mapping Section of my Office. Sarvasri A. V. Krishna Reddy, Computor, and B. L. Ram Gopal, Assistant Compiler supervised the printing work.

I am also thankful to M/s. Boys Town Press for printing this volume very neatly.

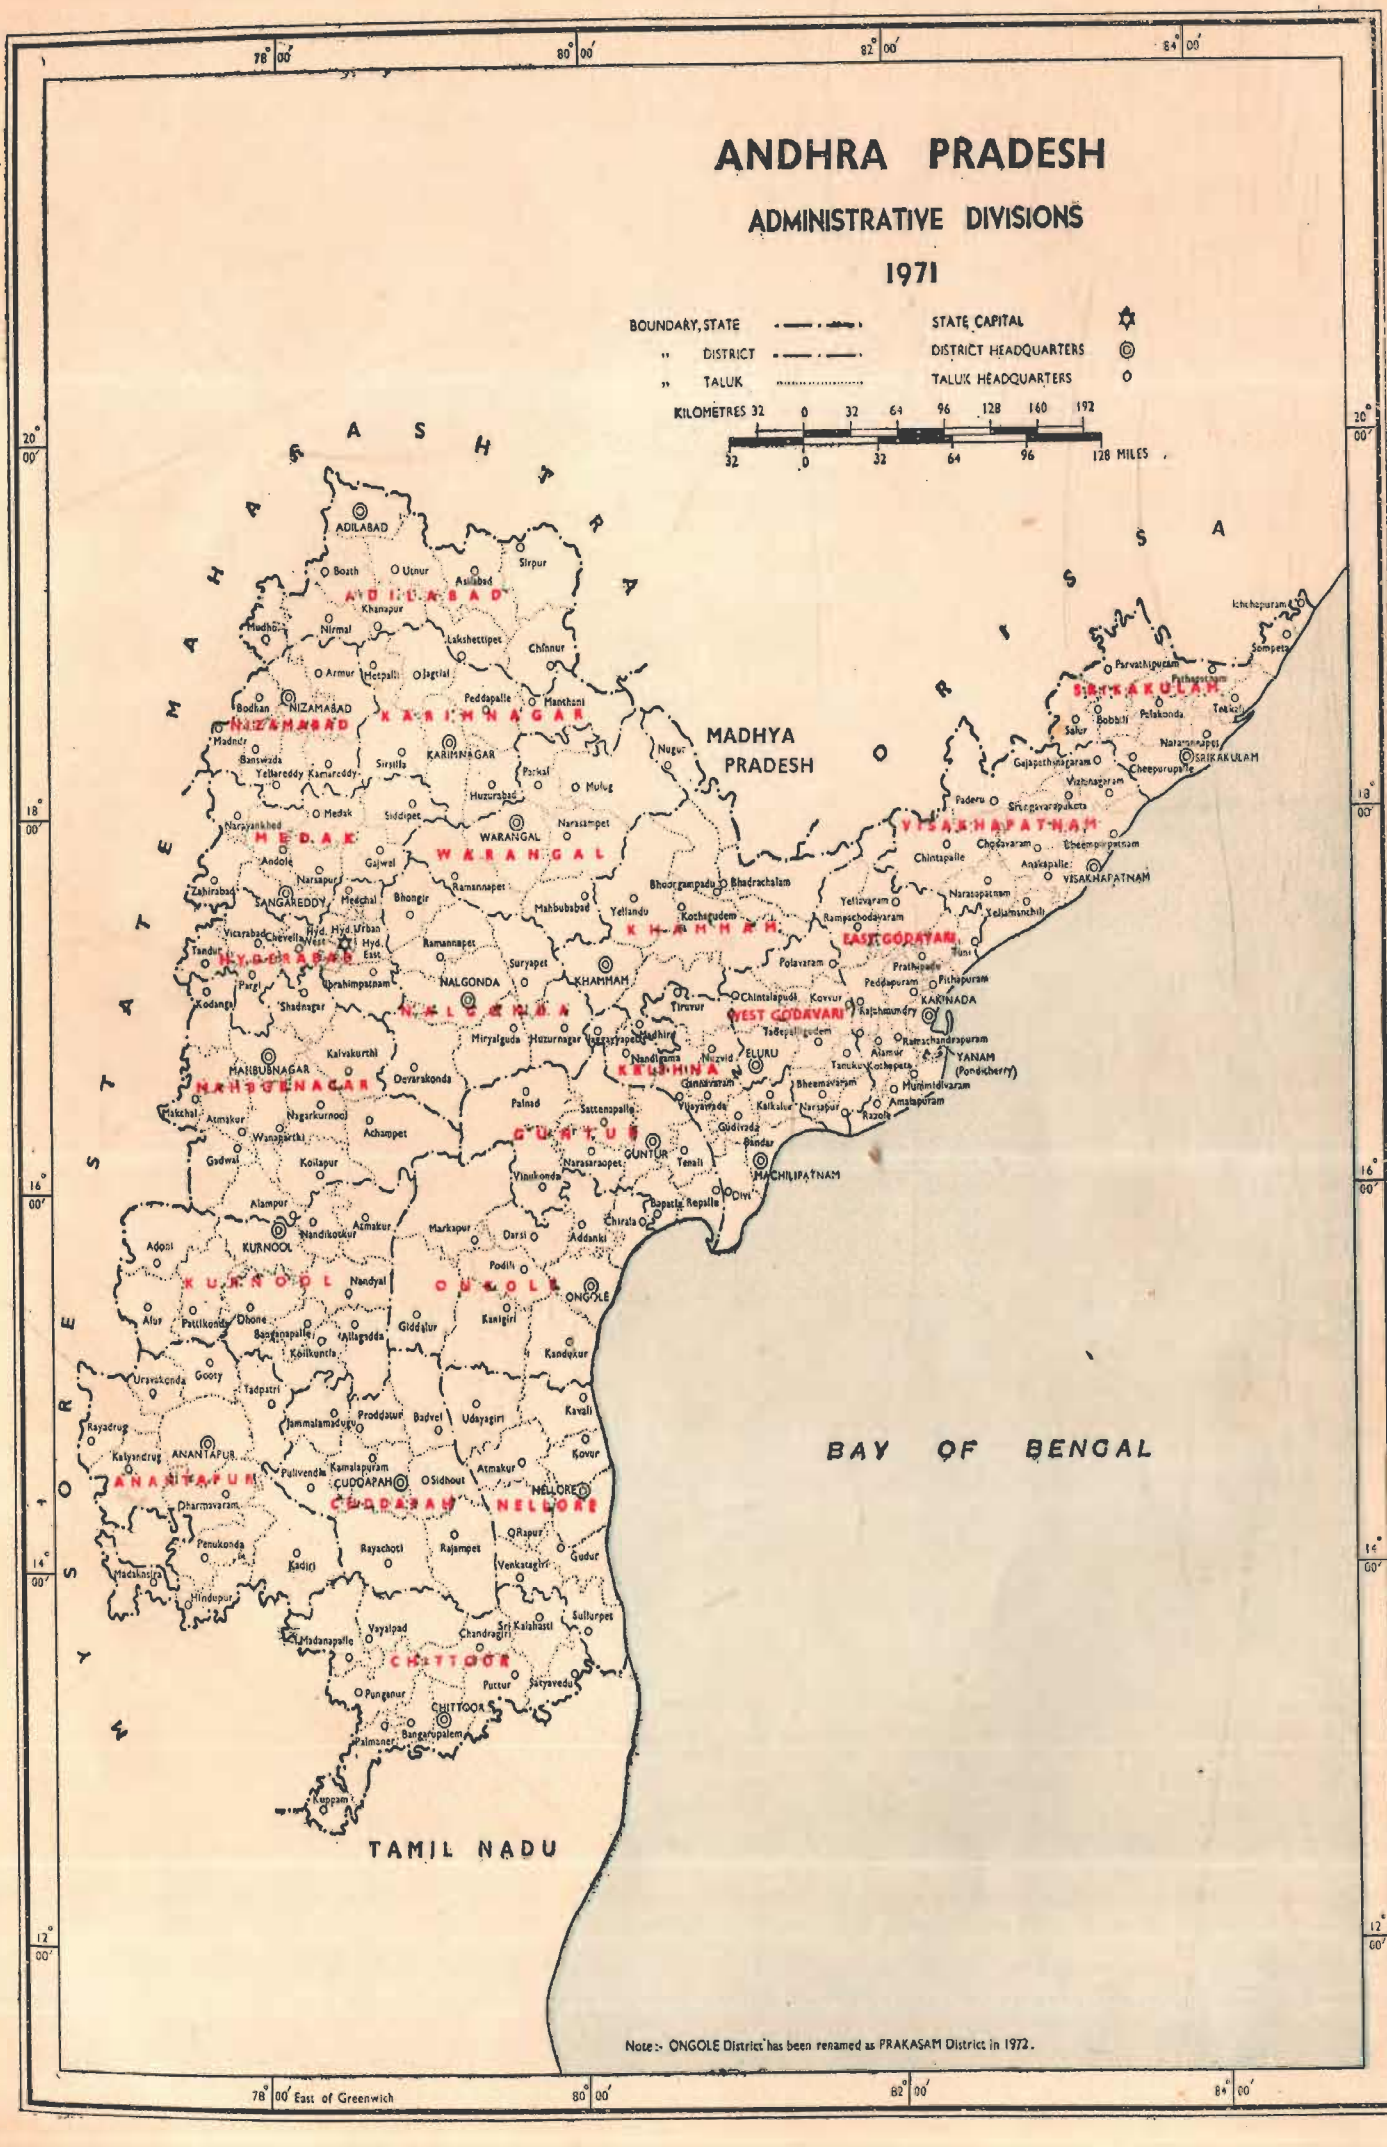

Hyderabad,
Dated : 26-12-1972.

T. VEDANTAM,
Director of Census Operations.

INTRODUCTION

INTRODUCTION

1. Introductory.

1.1 This volume contains the basic Census data tabulated on full count. The data are presented in six tables, five under 'A' Series (*viz.*, Table A.I, Table A.II, Table A.III, Table A.IV and Table A.V) and one under the Primary Census Abstract. These tables relate to (i) taluk-wise and town-wise data on area, houses and population, (ii) growth of population since 1901, district-wise, (iii) villages classified by population, (iv) population of Towns and Urban Agglomerations since 1901, (v) data on Standard Urban Areas and (vi) Primary Census Abstract. The Primary Census Abstract given at the end of this volume is the basic table prepared on full count giving essential information down to the level of a taluk and a town. Particulars relating to the total number of Scheduled Castes' and Scheduled Tribes' persons, literate and educated persons, workers classified under broad industrial categories and non-workers are presented in this table for each taluk / town in addition to figures of area, occupied residential houses, households and population by sex. Similar information upto the village level is given in the District Primary Census Abstract in Part B of the District Census Handbook for each district. The concept of Standard Urban Area is a new feature introduced in the 1971 Census. The significant features of each of these tables are explained in the fly-leaf to the concerned table.

1.2. Some of the salient points about the conduct of the 1971 Census, important concepts and definitions adopted are explained below for the benefit of the readers.

2. The 1971 Census Count :

2.1. It was first decided to take the Census count from 10th February to 28th February, 1971 with Sunrise of 1st March, 1971 as reference date. But, due to Mid-term Parliamentary Polls the taking of Census had to be postponed to 10th March – 31st March 1971 with Sunrise of 1st April 1971 as the reference date. Hence the Census count commenced on the morning of 10th March, 1971 and ended at Sunrise of 1st April 1971. The revisional round was conducted from 1st April, 1971 to 3rd April, 1971. The enumerator called at every household or on every human being in his jurisdiction during this period and recorded particulars relating to every individual in the appropriate schedules. Each enumerator was required to complete his work which consisted of filling up of certain prescribed particulars for each living human being on Individual Slip, filling up of Population Record for each household and preparation of (i) Enumerator's Daily Posting Statement for males and females separately, (ii) Enumerator's Abstract and (iii) a sketch indicating the lay out of the houses within his jurisdiction comprising roughly 120 – 150 households. The canvassing was done only for the Individual Slips and the other schedules were filled up on the basis of information gathered in the Individual Slips . The Sunrise of 1st April, 1971 was the reference date which meant that all births and deaths occurring between the time the count was taken and the Sunrise of 1st April, 1971 and detected during the revisional round between 1st April, 1971 and 3rd April, 1971 were to be accounted for. The enumerator was also required to enumerate any person found in a household during the revisional round who had not been enumerated elsewhere during the enumeration period. Thus the 1971 Census included all persons who were alive at Sunrise of 1st April, 1971.

2.2. As a general rule, every person has been enumerated at his normal place of residence, except those who were away from their normal places of residence throughout the enumeration period. These persons were enumerated at the places where they were first found by an enumerator during the enumeration period or during his revisional round. Houseless persons were enumerated at the places they were found on the night of 31st March, 1971.

2.3. In the Agency areas which are not accessible easily, and where suitable and qualified personnel were not available in adequate numbers for appointment as enumerators and supervisors, it was felt difficult to complete the enumeration within the limited period prescribed for the non-Agency areas. Hence the enumeration period in the Agency areas was advanced as follows :–

1.	Certain Agency areas of Srikakulam and Visakhapatnam Districts	1-12-1970 to 31-1-1971
2.	Certain inaccessible areas of Mulug and Narasampet Taluks in Warangal District	1-12-1970 to 31-1-1971
3.	Certain Agency areas of Khammam District	1-12-1970 to 31-1-1971
4.	Certain Agency areas of East Godavari and West Godavari Districts	1-2-1971 to 28-2-1971

No revisional round was done in these inaccessible areas in view of obvious practical difficulties.

3. Preparatory Measures :

3.1. Census questionnaires were evolved after careful planning and extensive consultations by the Registrar General, India with the Census data users such as Planning Commission, Ministries of Central Government, the State Governments, Central Statistical Organisation, Director General of Employment and Training, Social Welfare Organisations, Universities and other Research Institutions and individual scholars. The recommendations of the United Nations and ECAFE also, provided valuable guidance. The various concepts were minutely discussed and developed to suit local conditions. Preparations in this regard were started in 1968.

3.2. The first draft schedules were pre-tested in the field by the State Census Offices in different areas towards the end of 1968 and after considering the field experience, the second revised draft schedules were developed and pre-tested again in March - April, 1969 and then the schedules were finalised after further final discussions with the State Directors of Census. The Census schedules finally adopted for the 1971 Census are :

(i) Houselist
(ii) Establishment Schedule
(iii) Individual Slip
(iv) Population Record

These schedules together with the instructions for filling them up are given at Annexure "A".

4. Census Schedules :

4.1. *The Houselist* : This schedule is intended to provide a complete list of all Census houses and households in every village and town and also the approximate population. This schedule was canvassed during February, 1970 and this was the basis for demarcating the Census enumerators' blocks for the 1971 Census count in such a way as to ensure complete coverage without any omission or overlapping of the households and also to ensure equitable distribution of work load among the enumerators. This houselist has also served as a kind of Housing Census schedule since the 1961 Census. Particulars of the purposes for which census houses are used, the material of wall and roof of each Census house, if the Census house is used as residential, whether the Census households lived in owned or rented houses, the number of living rooms, the name of head of household and the number of members in each household and whether the household belonged to Scheduled Caste or Scheduled Tribe were collected. The houselist of 1971, by and large followed the pattern of the 1961 Census houselist. The improvements are (i) that in respect of vacant houses, the reasons for vacancy were ascertained at the 1971 Census Houselisting. At the 1961 Census a number of dilapidated houses and some times even vacant sites were allotted house numbers and shown as vacant which gave a misleading impression that a large number of houses were vacant, (ii) if the Head of the household belonged to a Scheduled Caste or Scheduled Tribe, it was specifically recorded, (iii) households engaged in cultivation were recorded as such so that the list may form a frame for any sample surveys of agricultural households in future.

4.2. In the 1961 Houselist, some simple data on houses used as factories or work-shops were collected. At the 1971 Census a separate schedule called the Establishment Schedule was canvassed along with houselisting and its scope is much larger covering all establishments as explained below.

4.3. *The Establishment Schedule* : This is a new schedule developed for the 1971 Census. It covers all establishments, manufacturing, trade or other establishments where people work. An establishment is defined as a place where goods are produced or manufactured not solely for domestic consumption or where servicing and / or repairing is done such as a factory, workshop or household industry or a place where retail or wholesale business is carried on or commercial services are rendered or an office – public or private or a place of entertainment or where educational, religious, social or entertainment services are rendered. It is necessary that in all these places one or more persons should be actually working.

4.4. The establishment schedule contains particulars on whether the establishment is a Government, Quasi-Government, private or co-operative institution, average number of persons working, if used as a manufacturing establishment. If it was a household industry, registered factory or unregistered workshop, the description of products processed or servicing done, type of power used, if it is a trading establishment, the description of goods bought or sold and if retail or wholesale and if used as other establishment its description such as an office, hotel, theatre etc.

4.5. This schedule is designed to yield very useful data particularly in regard to the unorganised sector, classifying the establishments by the size of employment and the industrial or trading categories, correlating the power used and the size of employment ; indicating public or private or co-operative institutions by the size of employment. The establishment schedule will also serve as a very good frame for any type of future sample surveys. It may, however, be remembered that the establishment schedule covers only the establishments run within a building which is listed and will not cover open air establishments or itinerant establishments with no regular building in which located.

4.6. *The Individual Slip* : This is the basic schedule of the 1971 population Census. It contains 17 questions. It is a fairly comprehensive schedule covering all essential demographic, social and economic characteristics of every individual that can possibly be collected at an operation of this nature. Any attempt to collect more would be beyond the capacity of the present Census agency. The concepts have to be as simple as possible which could be easily understood and applied by the Census enumerator who is basically a primary school teacher. The Census questions also should be simple, which would not require deep probes.

4.7. The new features of the 1971 Census Individual Slip as compared to that of the 1961 Census are (i) an attempt is made to collect data on current fertility, (ii) migrational particulars with reference to the place of last residence are collected which are expected to yield valuable and realistic data on internal migration, (iii) considerable departure is made in respect of the economic questions. The main activity and secondary activity, if any of a person are ascertained according to as he spends his time basically as worker producing goods and services or as a non-worker. For regular work in industry, trade or service the reference period is the week prior to the enumeration and for seasonal work such as agriculture the last one year. The person is categorised according to the main activity returned by him or her. Where a person, who is basically a non-worker such as student or housewife, does make some marginal contribution to work, that secondary work is recorded in question 17. Experience of the 1961 Census has shown that Census is not a proper agency to collect reliable data on unemployment as such. Therefore the 1971 Census did not ask a question on unemployment directly but the unemployed are expected to fall in the residuary category of non-workers and data in respect of them will be provided which has to be utilized subject to all its limitations.

4.8. *The Population Record* : In the Population Record which is to be filled in separately for each household, certain basic particulars of every member of a household are copied out from the individual slips. The Population Record helps to give a good picture of the composition of the households and these schedules which will be maintained in convenient books for each administrative unit will serve as a good frame for future surveys.

4.9. At the 1961 Census, on the obverse of the Population Record there was a household schedule in which certain particulars of the holdings and land rights of agricultural households were recorded as also details of the household industry. Since an Agricultural Census was being conducted by the Government as recommended by the Food and Agriculture

Organisation it was felt wise not to attempt collection of any data on holdings, land rights etc., at the population Census, lest it may give rise to confusion on account of conflict of concepts and so on. The household schedule of 1961 Census was therefore not adopted for the 1971 Census.

5. Translation and Printing of Census Schedules and Instructions :

5.1. The requirements of schedules and instructions were carefully assessed having due regard to the anticipated population size and providing for sufficient reserve to meet unforeseen demands and also the various language versions required. The schedules were got translated into regional languages very carefully, in order to see that the nuances in the translated versions are correct and easily understood. About 3,500 tonnes of paper had to be procured by the Registrar General to print these millions of schedules and instructions required for the whole country. The paper required had to be manufactured specially by the mills in quick time. The full printing capacity of a number of Government of India Presses and State Government Presses had to be completely utilised in order to ensure that the schedules and instructions reach every enumerator well in advance for training and to commence Census enumeration promptly by the due date.

6. Maps :

6.1. It is primary objective of the Census that every person in the country is enumerated but only once and without any omission. In order to achieve this, maps for all districts and taluks were prepared and ultimately for every village in rural areas and town in urban areas. For this purpose, the up-to-date administrative boundaries were marked on maps taking into consideration all changes that had taken place after 1961. The boundaries are generally freezed a year in advance of the Census enumeration. Having identified and marked off every village and town on a taluk map, the Census organisation allots code numbers to every one of these units which are to be fully accounted for at the census. Then in each village and town every house is located and numbered and all the houses and ultimately every household *i.e.*, each group of persons living together and having their food from a common kitchen are listed in the houselist schedule referred to earlier. Simultaneously notional maps of every village and every ward or block of a town are prepared showing the location of every Census house. These are extremely valuable maps which will help to locate every house for Census enumeration apart from serving as a frame for all types of surveys and can meet various administrative needs. 1971 Census can claim to have produced excellent detailed notional maps for all villages and towns throughout the country. These maps are prepared a few months in advance of Census enumeration. They serve as the frame for the clear demarcation of the enumerators' jurisdictions and enable the enumerator to cover every household in his block and take note of additions that might have taken place after the preparation of the notional map. Complete coverage of areas is thus ensured.

7. Demarcation of Rural and Urban areas :

7.1. Village or town is recognised as the basic area of habitation. In all Censuses throughout the world this dichotomy of rural and urban areas is recognised and the data are generally presented for the rural and urban areas separately. In the rural areas, the smallest unit of habitation is the revenue village which is recognised as the lowest unit for the normal district administration. The revenue village need not necessarily be a single agglomeration of the habitations. But the revenue village has a definite surveyed boundary and each village is a separate administrative unit with separate village accounts. It may have one or more hamlets. The entire revenue village is one unit. There may be unsurveyed villages in the forests etc. In such cases the locally recognised boundaries of each habitation area is followed.

7.2. It is in defining urban area that problems generally arise. However, for the 1971 Census the definition adopted for an urban area was the same that was followed during the 1961 Census. Places which satisfied the following criteria were treated as urban units.

(a) all places with a Municipality, Corporation or Cantonment or notified town area

(b) all other places which satisfied the following criteria :

(i) a minimum population of 5,000

(ii) at least 75% of the male working population was non-agricultural

(iii) a density of population of at least 400 per sq. km. (*i.e.*, 1,000 per sq. mile).

7.3. The Director of Census, however, was given discretion to include places that had other distinct urban characteristics and to exclude undeserving cases in consultation with the State Government.

7.4. *Standard Urban Areas* : One of the difficulties in comparing the urban population and its characteristics between one Census and another, apart from the changes in the list of certain units at each Census, had been the change in the jurisdictions of the urban units from Census to Census. The concept of a Standard Urban Area has been introduced at the 1971 Census with a view to obviating this difficulty to some extent. The essentials of a Standard Urban Area are (i) it should have a core town of a minimum population size of 50,000, (ii) the contiguous areas made up of other urban as well as rural administrative units should have close mutual socio-economic links with the core town and (iii) the probabilities are that this entire area will get fully urbanised in a period of two or three decades. The idea is that it should be possible to provide comparable data for a definite area of urbanisation continuously for three decades which would give a meaningful picture. This replaces the concept of town-group which was introduced in the 1961 Census. The town-group was made up of independent urban units not necessarily contiguous to one another but were to some extent inter-dependent. The data for such town-groups become incomparable from Census to Census as the boundaries of the towns themselves change and the intermediate areas are left out of account. Thus the concept of Standard Urban Area came to be developed for adoption at the 1971 Census. In Andhra Pradesh, the following 29 urban units are selected for demarcating Standard Urban Areas. The necessary data will be compiled for these units also during the next two or three successive Censuses in order to study urbanisation around large nuclei.

1. Srikakulam
2. Vizianagaram
3. Visakhapatnam
4. Anakapalle
5. Kakinada
6. Rajahmundry
7. Eluru
8. Bhimavaram
9. Machilipatnam
10. Gudivada
11. Vijayawada
12. Guntur
13. Tenali
14. Chirala
15. Nellore
16. Tirupati
17. Chittoor
18. Cuddapah
19. Proddatur
20. Anantapur
21. Guntakal
22. Nandyal
23. Kurnool
24. Adoni
25. Mahbubnagar
26. Nizamabad
27. Warangal
28. Kothagudem
29. Hyderabad

7.5. The constituent units of these Standard Urban Areas are indicated in Table A-V relating to Standard Urban Areas.

7.6. Another new feature of the 1971 Census is the presentation of data for urban agglomerations. The concept of an urban agglomeration is explained below.

7.7. *Urban Agglomeration*: In several areas, around a core city or statutory town have come up fairly large well recognised railway colonies, universty campuses, port areas, military camps etc., and even though these are outside the statutory limits of a Corporation, Municipality or Cantonment, they fall within the revenue boundary of the place by which the town itself is known. It may not be altogether realistic to treat such areas lying outside the statutory limits of a town as rural units and at the same time each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit. Such areas deserve to be reckoned along with the main town and the continuous spread including such urban out-growths would deserve to be treated as an integrated urban area which is being called Urban Agglomeration at the 1971 Census. The following are different situations in which urban agglomerations would be constituted;

(a) a city with continuous out-growth (the part of out-growth being out of the statutory limits but falling within the boundaries of the adjoining village or villages)

(b) one town with similar out-growth or two or more adjoining towns with their out-growths as in (a) and

(c) a city and one or more adjoining towns with their out-growths all of which forming a continuous spread.

7.8. The following four Urban Agglomerations are constituted in Andhra Pradesh at the 1971 Census.

1. Hyderabad city Urban Agglomeration
2. Vijayawada city Urban Agglomeration
3. Rajahmundry city Urban Agglomeration
4. Visakhapatnam city Urban Agglomeration

7.9. The constituents of each of these urban agglomerations are indicated in Table A.IV Towns and Urban Agglomerations classified by population in 1971 with variations since 1901.

8. Housenumbering and Houselisting:

8.1. It is important to list all the houses and households and provide them with some distinguishing mark so as to facilitate complete coverage at Census enumeration. Firstly in every village and town all the houses, residential as well as non-residential were numbered according to a systematic scheme of house numbering and the number allotted to each house was fixed or painted prominently on the door of each house. A notional map was prepared showing the location of each house. If only one household lived in a house, it was identified by that house number. If there were more than one household in a house, each of the households was identified by an alphabetical suffix to the house number of the house in which the households lived. Then all the houses and the households were listed in a uniform schedule i.e., Houselist. This schedule, as explained earlier, provides the frame for the demarcation of the Census enumerators' blocks in a way that a fairly uniform work load is put on the Enumerators. Along with the houselisting all the establishments were also listed on a separate schedule as already indicated.

8.2. The housenumbering and houselisting operations were taken up and completed during February, 1970 throughout Andhra Pradesh except in Hyderabad city where it was completed by April-May, 1970. The notional maps prepared along with the houselisting were used for locating the houses at the time of enumeration during March, 1971.

9. Enumeration Agency:

9.1. With the help of the houselists, the Census organisation was able to determine the actual number of Census enumerators and supervisors needed for final enumeration, each enumerator being required to cover about 600-750 population and each supervisor to look after 4 to 6 enumerators. The normal administrative machinery of the district was utilised at the supervisory levels and at the level of enumerators, mostly the school teachers were appointed. The school teachers are depended upon because of the fact that the schools are widely spread out in the countryside and the teacher is a respected individual in the villages commanding the confidence of the people and can thus succeed in getting correct response to the Census questionnaire. Teachers are found to generally follow the printed instructions to enumerators conscientiously. It was found sometimes necessary to supplement the strength of enumerators by appointing village officials, employees of local bodies and also clerical staff of the State Government offices. The enumeration staff performs its duties largely as a labour of love. Till the last Census, the enumerators were not paid anything at all. But in 1961 a small honorarium of about Rs. 15–20 per enumerator including the cost of the housenumbering material and about Rs. 25 per supervisor was paid. This small sum hardly met the extra expenses that the enumerator is put to by his having to attend a minimum of half a dozen training classes, sometimes having to travel considerable distance, though generally it is ensured that the enumerator need not go more than five miles to attend to the enumeration

work. But it is a tribute to the Census enumerators that they had fulfilled their responsibilities fully at considerable inconvenience and expense to themselves for no other reasons than their realisation that they are entrusted with a vital national task. For the 1971 Census, the rate of honorarium was raised to Rs. 40 per enumerator and supervisor. The sum of Rs. 40 is made up of Rs. 15 for housenumbering and houselisting work and Rs. 25 for census enumeration. This certainly provided some relief to the enumerator though it can not be considered as a remuneration commensurate with the work turned out. Our country can ill afford to have a fully paid enumeration agency. The magnitude of the Census Operations is such that even the small honorarium that is paid costs the exchequer well over Rs. 4 crores. This incidence of the cost of honoraria to the enumeration agency works out to only about 7 paise per head of population, perhaps, the lowest in the world.

9.2. *Training*: In an operation of the nature of a population Census, nothing is more important than the intensive training of the enumeration agency. Complete training of the huge army of the enumeration personnel was a challenging task. The various concepts of the Census questionnaires were to be correctly understood by every single enumerator. For this purpose, training seminars were organised by the Census Commissioner, India at which Census Directors and the Deputy Directors etc., were trained. The pre-test operations at the State level also gave valuable field experience. The Director and the Deputy Directors of Census Operations took up the training of the District Officers as well as of all urban and rural Census Charge Officers. The latter in turn served as trainers to train up the enumerators and supervisors. Thus it was ensured that the instructions for filling the Census questionnaires permeated down to the enumerator's level. Each enumerator was expected to attend a minimum of a half a dozen training classes, which included a couple of practical enumeration classes as well. A detailed programme of training was developed at all levels in the State. The Census enumeration agency was brought upto a stage of perfect readiness before launching on the actual Census enumeration. The enumerator was fully equipped with pads of Census schedules, booklet of instructions, his official appointment order etc., by the time he commenced the enumeration work.

9.3. *Census Enumeration*: The Census enumeration was postponed for a period of one month on account of mid-term poll held for Lok Sabha during March, 1971. The Census enumeration was actually started on 10th March and continued till 31st March, 1971 and the reference date was fixed as the Sunrise of 1st April, 1971. All persons were enumerated at the places where they reside *i.e.*, at their houses and not at the places of their work such as in offices, factories or shops. All houseless persons and boat dwellers etc., were enumerated on the night of 31st March, 1971. During the subsequent three days *i.e.*, 1st April to 3rd April, 1971 the enumerator made a quick re-visit to all households and brought the enumeration up-to-date as at Sunrise of 1st April, 1971.

9.4. Unlike in some Western countries where householder method of enumeration takes place *i.e.*, the Census schedules are delivered to the heads of households who are expected to fill the schedules relating to all members of the household, in India the canvasser method of enumeration is adopted. A trained enumerator visits every household in the area allotted to him and questions the members of the household and he himself fills up the schedules. Since the entire country is mapped and every smallest unit of habitation located in advance on the notional maps, the canvasser method has resulted in complete coverage.

10. Provisional Totals :

10.1. The last item of Census enumeration was the communication of provisional figures from the enumerator onwards to the Director of Census Operations and thereon to the Registrar General, India by the quickest possible means.

10.2. Immediately after the revisional round was completed the enumerator prepared an abstract of the population covered by him and handed over to the supervisor. The Charge Superintendents made all arrangements to collect the data from the supervisors and communicated the Charge totals to the Director of Census Operations and the District Census Officer quickly. The information from all parts of State was received by the Director of Census Operations by 4th April, 1971 and on the same night the State totals were communicated to the Registrar General. Incidentally Andhra Pradesh was the first State in the country to communicate the provisional totals to the Registrar General, India during the 1971 Census also, thus keeping up the tradition started at the 1961 Census. The Registrar General in turn consolidated and released the All India provisional totals on 12th April, 1971. Soon after the release of All India figures, the State totals for Andhra Pradesh were released on 14th April, 1971.

10.3. The actual organisation of the Census operations month by month has been given in the form of a Census calendar which is reproduced in Annexure "B" of this volume.

11. The Census Law :

11.1. A permanent Census Law was placed on the Statute Book in 1948. A copy of the Indian Census Act (Act. No. XXXVII of 1948) is reproduced at Annexure 'C'. This Act empowers the Central Government to notify and conduct Census in the whole or part of the country. The Census Commissioner of India and the Directors of Census Operations of States are appointed by the Central Government under this Act to supervise the taking of Census. The Act empowers the State Governments or such authority to whom the State Governments delegate powers to appoint a series of Census officers at various levels to aid in, supervise and take the Census. Thus the entire Census Organisation is created under the provisions of this Act which authorises the Census takers to ask the prescribed Census questionnaires and legally compels all persons to answer the questions truthfully. The Law guarantees that the information collected at the Census will be used only for statistical purposes and that the information about individuals will be kept confidential and can not be used as evidence even in a Court of Law. The Act provides a legal backing to the entire Census Operations and it gives extra-ordinary powers to secure all types of assistance from the local bodies or any other persons in order to get through this onerous task.

12. Ancillary Studies :

12.1. It is the Indian Census tradition that apart from the collection, processing and publication of the demographic data, the Census organisation takes up, on its own initiative several

ancillary studies in order to give a fuller picture of the life and economy of the people of the country. The early Censuses gave very rich ethnographic accounts of the people and those reports still serve as some of the most valuable sources of information on religion, castes, traditional occupation etc. In the 1961 Census the main plank of the ancillary studies was the socio-economic survey of some selected villages. Considering the fact that India is at present at an interesting stage of development, and in due course urbanisation on a large scale is bound to occur, at the 1971 Census, the ancillary studies will be focussed on survey of some selected towns. Besides, various other types of projects such as a re-survey of a few selected villages previously covered to reflect the trends of change and ethnographic survey of the Scheduled Castes and Scheduled Tribes will be undertaken.

12.2 The Indian Census will try to justify its reputation of being the richest single source of information on the people of the country.

13. Census Publications :

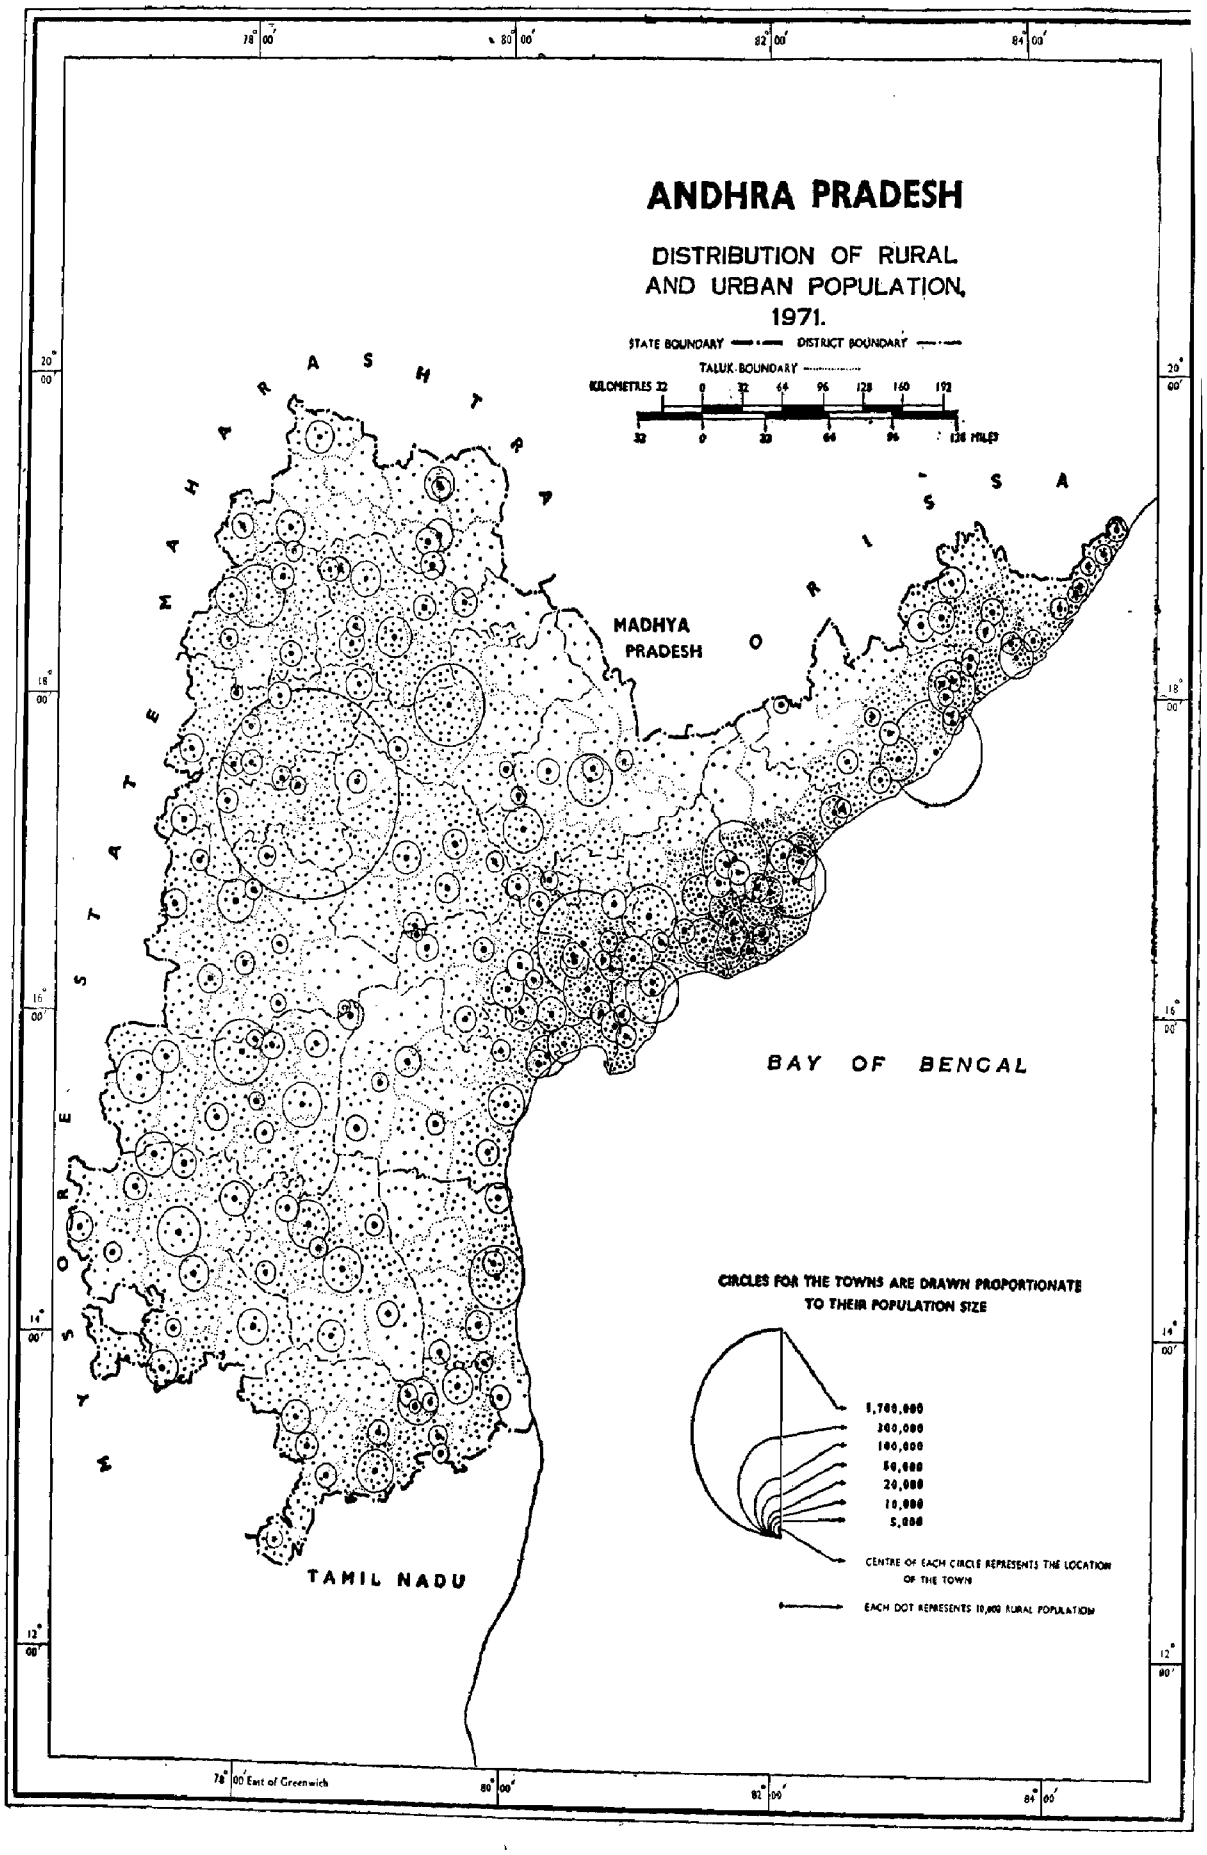

13.1. The 1971 Census Publication series of this State will bear Series No. 2 and will consist of the following parts.

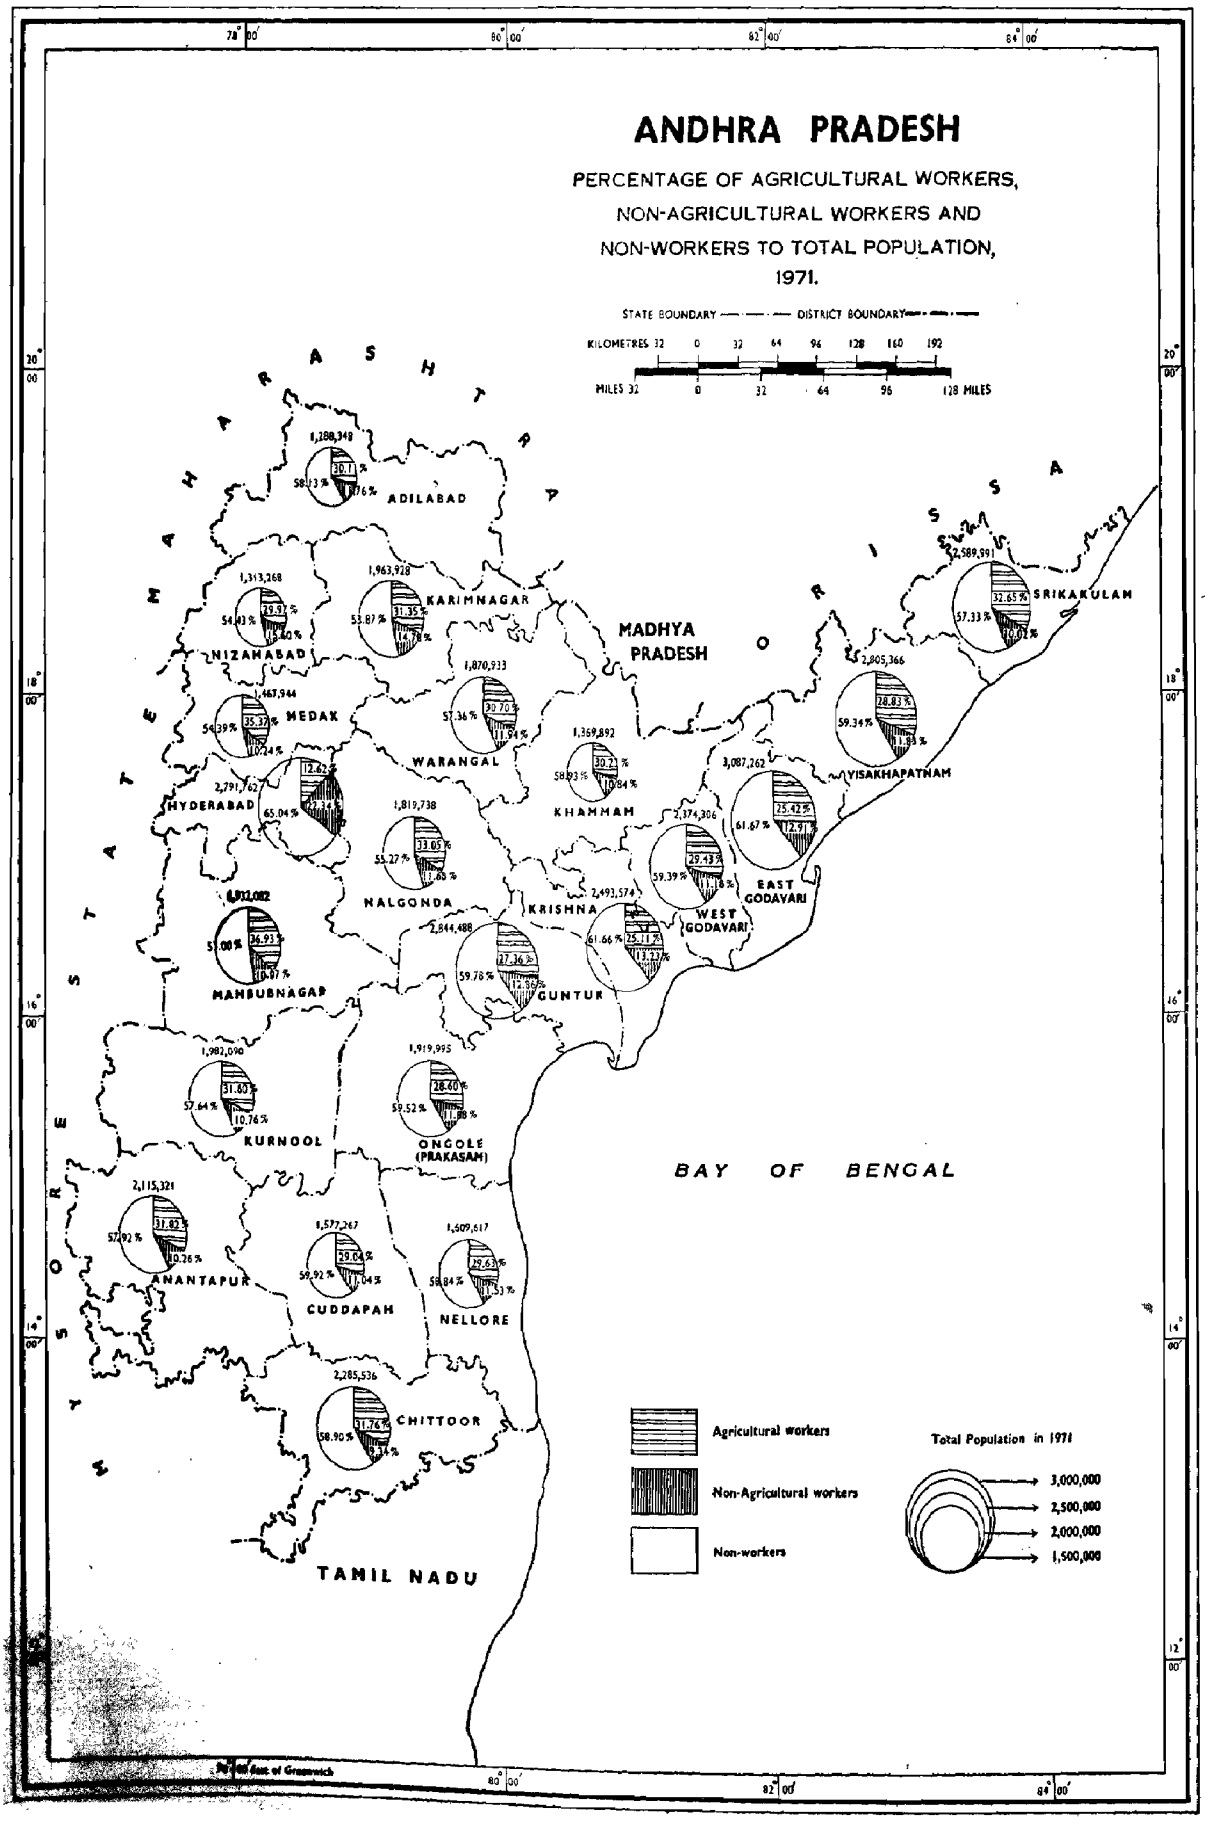

1.	Part I	.. General Report
2.	Part II	.. Census Tables on Population
3.	Part III	.. Establishments Report and Tables
4.	Part IV	.. Housing Report and Tables
5.	Part V	.. Special Tables and Ethnographic Notes on Scheduled Castes and Scheduled Tribes
6.	Part VI	.. Town Directory, Survey Reports on Towns and Villages
7.	Part VII	.. Special report on Graduates and Technical personnel (to be published by the Registrar General, India)
8.	Part VIII	.. Administration Report (for official use only)
9.	Part IX	.. Census Atlas
10.	Part X	.. Special Monographs
11.	Miscellaneous	.. Special Papers (will be published in each year as and when ready)
12.		.. District Census Hand Books (one for each district)

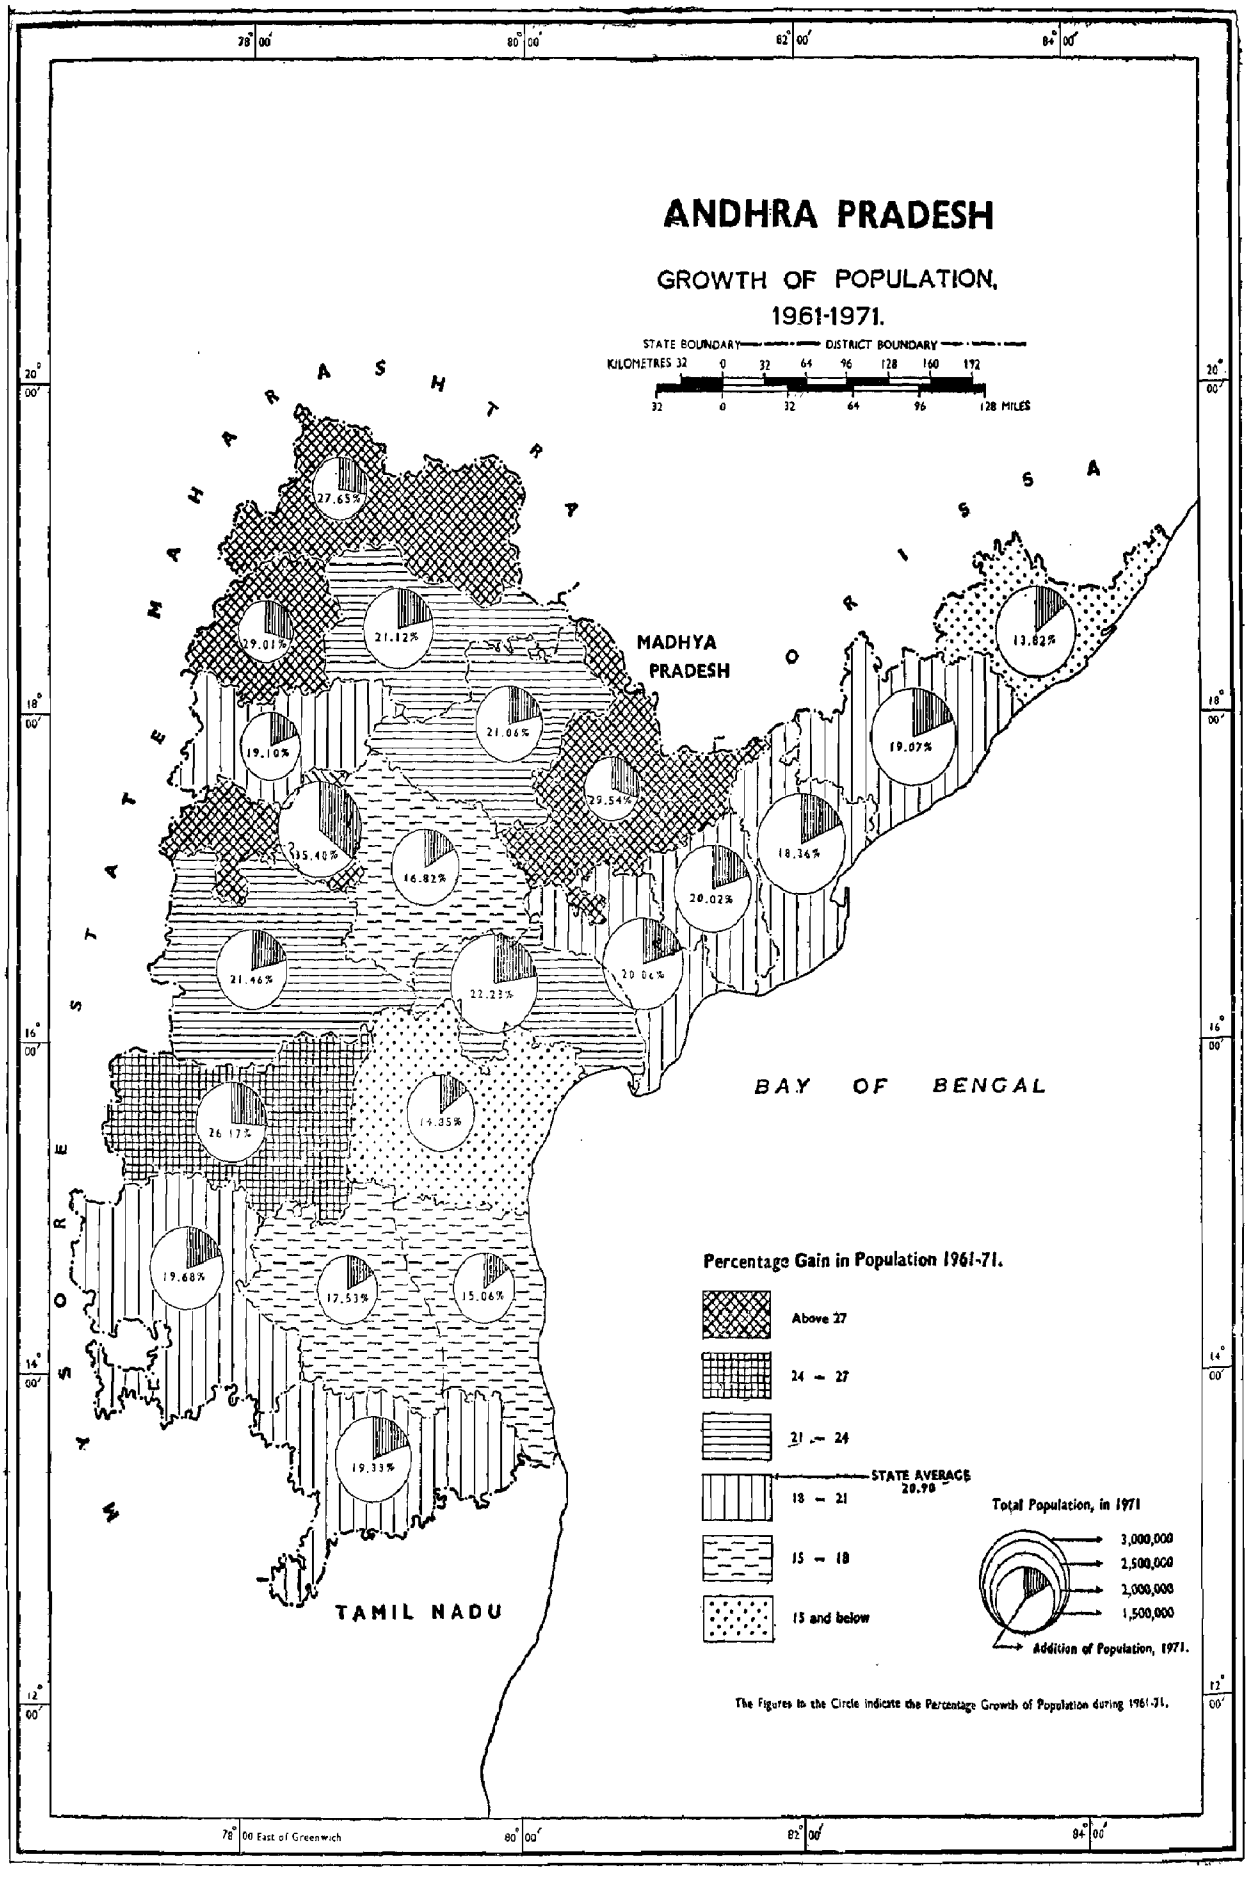

13.2. Miscellaneous publications on special studies taken up by Directors of Census Operations, Language Survey Reports, Post Enumeration Check, Age Tables, Life Tables, Special area surveys etc., will be brought out as special papers as and when they are ready.

TABLE A–I

AREA, HOUSES AND POPULATION

TABLE A-I

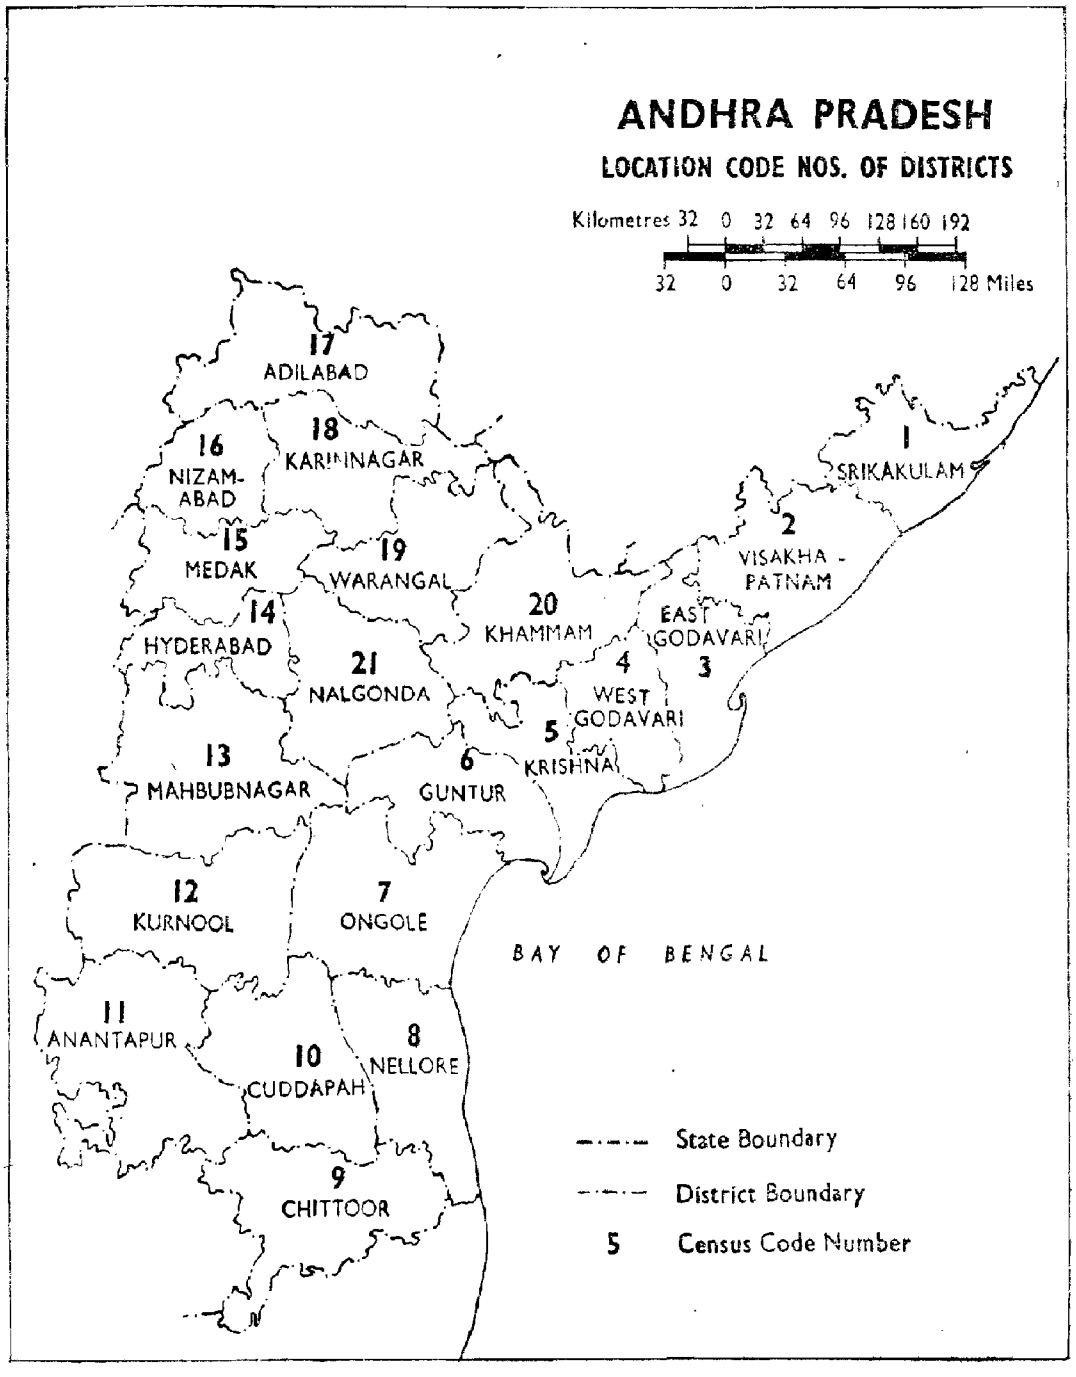

AREA, HOUSES AND POPULATION

1. Introductory :

1.1. In this table the particulars of area, number of inhabited and uninhabited villages, number of towns, density of population per sq. km., number of occupied residential houses, total population with sex break up are given upto district level in the Union table and upto taluk/town level in the State table. This table is followed by three appendices wherein greater details on certain aspects are given.

1.2. All the twenty-one districts in the State were allotted location code numbers at the 1971 Census in a cleck-wise order starting with the location code number 1 to the district of Srikakulam lying on the north-eastern tip of the State and the rest of the districts have been numbered off continuously. Unlike the alphabetical order, this system is found more convenient as it ensures continuity of location code numbers for contiguous districts.

1.3. The location code numbers allotted to each of the 21 districts of Andhra Pradesh are indicated in the following outline map.

1.4. Every taluk within each district was numbered in a separate series starting with the Location Code No. 1 for the taluk where the Headquarters of the district is located. The remaining taluks were numbered continuously in a clock-wise order. Independent sub-taluks were also treated as independent units on par with other taluks of the district. Within the taluk, all the villages were numbered serially starting from the north-west corner and ending in south-east corner in a serpentine manner.

1.5. At the 1961 Census the urban areas were given location code numbers taluk-wise in each district. But at the 1971 Census this procedure was slightly modified and the urban areas were assigned location code numbers in one continuous series for each district instead of for each taluk. Thus the towns within each district are numbered by a separate series starting with the town in which the district headquarters lies and following in the ascending order of the taluk location code and exhausting all the towns in each taluk one by one. If there are more towns than one in a taluk, the taluk Headquarters, if it is declared as town, is first assigned location code number and thereafter the other towns in that taluk are assigned location code numbers in a clock-wise order. The code numbers of the towns are indicated in Roman figures to distinguish them from the code numbers (in Arabic numerals) allotted to the rural villages.

1.6. Thus the location code numbers allotted for rural and urban areas will be as follows :

For Rural Areas :

8 / 8 / 70 means village number 70 in taluk bearing location code number 8 (Kavali taluk) in district bearing location code number 8 (Nellore district).

For Urban Areas :

9 / VIII means town number VIII (Tirumalai) in District number 9 *i.e.*, Chittoor district.

1.7. By this location code system it is possible to indicate numerically even the smallest administrative unit on the Census schedules saving considerable time, space and labour.

2. Changes in area of State and Districts :

2.1. As per the Andhra State Act the first linguistic State of Andhra in the country was formed on 1st October, 1953 comprising 11 districts *viz.*, Srikakulam, Visakhapatnam, East Godavari, West Godavari, Krishna, Guntur, Nellore, Chittoor, Cuddapah, Anantapur and Kurnool from the predominantly Telugu speaking areas of composite Madras State. Again on 1st November, 1956 in accordance with the States' Reorganisation Act the nine Telugu districts of erstwhile Hyderabad State *viz.*, Mahbubnagar, Hyderabad, Medak, Nizamabad, Adilabad, Karimnagar, Warangal, Khammam and Nalgonda were added on to the State of Andhra bringing into existence the enlarged State of Andhra Pradesh. Consequent on the implementation of Pataskar Award some territorial adjustments in the boundaries of Chittoor district by mutual transfer of villages with Madras State were made.

3. Inter-State Territorial Transfers :

3.1. No major inter-State transfers took place during 1961-71. Only a small extent of 0.03 Sq.Kms. of vacant land (Survey No. 19) of Abakavaripalle village of Bagepalle taluk of Kolar District, Mysore State was transferred to Hindupur taluk of Anantapur District on 1-10-1968.

3.2. During this decade the Government of Orissa laid claim to a group of villages called the Kotiya Group of villages lying in the Agency portion of Salur taluk of Srikakulam district and also contended that they were under their administrative control. The basis for this claim is stated to be that these Kotiya group of villages lie within Orissa State boundaries according to the boundary line defined in the Orissa State Formation Act of 1936. This contention was not accepted by the Government of Andhra Pradesh. Hence, the Government of Orissa filed a suit in the Supreme Court against the Government of Andhra Pradesh. The Supreme Court issued an interim injunction maintaining *status quo ante* pending final disposal of the suit. As the Court did not give its final verdict by the time the 1971 Census Enumeration had to be conducted, the Registrar General, India advised the Directors of Census Operations of Andhra Pradesh and Orissa to get the Census count done in the disputed area lying in their respective jurisdictions. Accordingly enumeration was conducted in the disputed area by the respective Directors of Census Operations through the respective State Agencies. A comparative list of villages as claimed to be in dispute by the Governments of Andhra Pradesh and Orissa together with the 1971 Census Population of each village as recorded in both the States is given in the following Statement :

Sl. No.	Name of Village (*a*) as spelt in Andhra Pradesh list (*b*) as spelt in Orissa list	Location Code No. (*a*) Andhra Pradesh (*b*) Orissa	Population, 1971 Andhra Pradesh	Population, 1971 Orissa	Remarks
(1)	(2)	(3)	(4)	(5)	(6)
1.	(*a*) Kotiya (*b*) Kotiya	(*a*) 36 (*b*) 24	289	341	
2.	(*a*) Tadivalasa h/o Kurukutti* (*b*) Tadivalasa	(*a*) 115 (*b*) 38	N.A.	60	* The population of the entire village Kurukutti is 1,573.
3.	(*a*) Dhulibhadra, Boddapadu and Paniki † (*b*) Dhulipadar and Paniki	(*a*) 39 (*b*) 34 and 40	765	74 and 124	† Boddapadu and Paniki are hamlets of Dhulibhadra.

16. (a) Panasalavalasa	(a) 23	59	..		
(b) ..	(b) ..				
17. (a) ..	(a) ..	..	34		
(b) Mohipani	(b) 25				
18. (a) ..	(a) ..	..	130		
(b) Hermandig	(b) 27				
19. (a) ..	(a) ..	..	28		
(b) Arjuvalasa	(b) 37				

3.3. It is evident from the above statement that the villages and the jurisdictions under dispute are not exactly identical in the list furnished by the Andhra Pradesh and Orissa State Governments. Hence it should not be construed that the population figures as per the Andhra Pradesh list or the Orissa list represent the total population of the disputed area. As the dispute is not yet settled, the population of the villages as recorded in Andhra Pradesh and Orissa have been included in the population of Andhra Pradesh and Orissa respectively at the Taluk, District and State level.

4. Inter-District Transfers :

4.1. One of the major changes in the internal set up of the State during the decade 1961-71 is the formation of a new district of Ongole by an Act of Andhra Pradesh Legislature (Act No. 2 of 1970). This new district came into existence from 2nd February, 1970. It was carved out of portions of Guntur, Nellore and Kurnool districts as indicated below :

From Guntur District :	Entire Ongole taluk, 41 villages of Narasaraopet taluk and 44 villages of Bapatla taluk
From Nellore District :	Entire taluks of Kandukur, Kanigiri, Darsi and Podili
From Kurnool District :	Entire taluks of Giddalur and Markapur

The district was renamed as Prakasam district subsequently.

4.2. In Visakhapatnam district a new taluk *i.e.*, Gajapathinagaram was constituted with 44 villages transferred from Bobbili taluk and 58 villages from Salur taluk of Srikakulam district and 70 villages from Vizianagaram taluk of Visakhapatnam district. Two new Independent Sub-Taluks *viz.*, Mummidivaram and Alamur were formed in East Godavari district with portions of Amalapuram and Ramachandrapuram taluks respectively.

4.3. In Hyderabad district a new taluk *viz.*, Hyderabad Urban Taluk was carved out with portions of Medchal Taluk (7 villages), Hyderabad East Taluk (Malkajgiri town and 4 villages) and Hyderabad West Taluk (67 villages).

4.4 Apart from the above, some minor inter-district and inter-taluk changes took place during the decade 1961-71 and all such changes are discussed in detail, district-wise in the fly leaf to Table A-II.

5. Area figures supplied by the Surveyor General, India :

5.1. A list of the districts showing the geographical area figures supplied by the Surveyor General of India is given below :

L.C. No.	State/District	Provisional area figures as furnished by the Surveyor General of India in Sq. Kms.
1	2	3
	ANDHRA PRADESH	**276,754.0**
1	Srikakulam	9,743.0
2	Visakhapatnam	13,739.0
3	East Godavari	10,940.0
4	West Godavari	7,780.0
5	Krishna	8,734.0
6	Guntur	11,377.0
7	Ongole (Prakasam)	17,620.0
8	Nellore	13,058.0
9	Chittoor	15,763.0
10	Cuddapah	15,356.0
11	Anantapur	19,125.0
12	Kurnool	18,799.0
13	Mahbubnagar	18,419.0
14	Hyderabad	7,707.0
15	Medak	9,685.0
16	Nizamabad	7,969.0
17	Adilabad	16,133.0
18	Karimnagar	11,824.0
19	Warangal	12,875.0
20	Khammam	15,866.0
21	Nalgonda	14,242.0

5.2. The latest total area of Andhra Pradesh works out to 276,754.0 Sq. Kms. The district area figures given in col. 3 of Table A–I. are those as supplied by the Surveyor General, India and represent 'Geographical Area'. The district 'Urban' area is arrived at by adding the areas of all towns (and cities, if any) in the district as supplied by the local bodies. The district 'Rural' area figures are derived by subtracting the district urban area figures (supplied by local bodies) from the total district area figures (supplied by the Surveyor General). As regards taluks, the area shown, against 'Total' is that supplied by the State Director of Survey, Settlement and Land Records and the urban area is the total of the areas of urban units

within the taluk, supplied by the local bodies concerned. The 'rural' area of the taluk is obtained after subtracting the total urban area of the taluk from the total area of the taluk (supplied by the Director of Survey, Settlement and Land Records). Thus the total of area figures of all the taluks in a district will not tally with the total area of the district, as the former are 'land use' figures supplied by the Director of Survey, Settlement and Land Records.

6. Rural and Urban Population :

6.1. *Definition of Village* : The Revenue village is a permanent unit with definite, surveyed and fixed boundaries. As at the 1961 Census the Revenue village is taken as the smallest unit for assigning location code numbers for 1971 Census purposes as often times the Panchayat jurisdictions are subjected to changes on political considerations. Basically it may be taken that the Revenue village represents the rural unit for the 1971 Census.

(*Note* : Where an urban unit is constituted by parts of villages being combined together, the portions of each of such Revenue villages not falling within the limits of urban units were independently recognised as separate rural units for the purpose of 1971 Census).

6.2. For the purpose of ensuring complete coverage of area, even the uninhabited villages were taken as rural units so that by any chance any habitation or houseless persons temporarily located in such villages may not be missed out at the Census. If no such contingency was found in any of those villages, such villages were shown as "uninhabited".

6.3. As stated in the preceding paras all the villages including uninhabited villages in each taluk are assigned with location code numbers and are accounted for to ensure full coverage at the Census.

6.4. *Definition of Urban Area* : For the first time at the 1961 Census, uniform and somewhat rigid tests were applied throughout the country for recognising an area as an urban unit. The same procedure was adopted at the 1971 Census also. All places with a Municipality, Corporation or Cantonment or Notified area were treated automatically as towns. All other places which satisfied the following criteria were considered also as towns :

(i) a minimum population of 5,000
(ii) at least 75% of the male working population is non-agricultural
(iii) a density of population of at least 400 per sq. km.

6.5. A few places which did not satisfy all these criteria were also treated as towns in consultation with the State Government in view of their other predominant urban characteristics such as existence of good educational and medical facilities, electricity, telegraph and telephone facilities, commercial and marketing facilities, communication and recreational facilities etc. After a close examination of each and every case the list of towns for Andhra Pradesh was finalised. Ultimately 224 places (including 13 units shown under Hyderabad Urban Agglomeration; 1 unit under Visakhapatnam Urban Agglomeration; 1 unit under Rajahmundry Urban Agglomeration and 2 units under Vijayawada Urban Agglomeration) were recognised as towns for the 1971 Census with the concurrence of the Andhra Pradesh State Government. Even though the minimum population criterion *i.e.*, 5,000 population was not fulfilled, four places *viz.*, Upper Sileru Project Site Camp (Visakhapatnam district), Shankarampet (Medak district), Srisailam Project Left Flank Colony (Mahbubnagar district) and Pochampad Project Left Flank Colony (Adilabad district) were declared as towns for the first time at the 1971 Census as they had other distinct urban characteristics.

The distribution of all the towns in Andhra Pradesh according to the population size is as follows :

Class of Town	Population Range	No. of Towns
I	100,000 and over (generally referred to as Cities)	13
II	50,000 to 99,999	17
III	20,000 to 49,999	59
IV	10,000 to 19,999	76
V	5,000 to 9,999	38
VI	Less than 5,000	4
	Total	207

Note :—The above number excludes 17 towns included in 4 Urban Agglomerations in the State.

6.6. By a more rigorous application of the criteria prescribed for a town as many as 37 places which were recognised as towns at the 1961 Census became disqualified for being recognised as towns at the 1971 Census. Thus six towns of Class IV involving a total population of 75,728, twenty-nine towns of Class V involving a total population of 224,220 and one town of Class VI (this town, Kandikal was not declared as such, as it was included under Hyderabad town group at the 1961 Census) involving a total population of 182 as per 1961 Census had to be deleted.

6.7. The following table gives the 1961 and 1971 population of the 37 towns which were declassified as rural units at the 1971 Census :

STATEMENT 1

LIST OF URBAN AREAS OF 1961 CENSUS WHICH HAVE BEEN ELIMINATED AS URBAN AREAS AT THE 1971 CENSUS

9. Census House and Household :

9.1. At the 1971 Census the following definitions were adopted for a Census House and Census Household.

9.2. *Census House* : A Census House is a building or part of a building having a separate main entrance from the road or common court-yard or stair-case etc., used or recognised as a separate unit. It may be inhabited or vacant. It may be used for residential or non-residential purpose or both.

9.3. If a building has a number of flats or blocks which are independent of one another having separate entrances of their own from the road or a common court-yard leading to a main gate, they will be considered as separate Census houses. If within a large enclosed area there are separate buildings, then each such building will be one or more separate Census houses. If all the structures within an enclosed compound are together treated as one building then each structure with a separate entrance should be treated as a separate Census house.

9.4. *Census Household* : A household is a group of persons who commonly live together and would take meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be one-member household, two-member household or multi-member household. For Census purposes each one of these types is regarded as a household. Again, there may be a household of persons related by blood or household of unrelated persons, the latter are boarding houses, hostels, residential hotels, orphanages, rescue homes, ashrams etc. They are called "Institutional Households".

10. Occupied Residential Census House :

10.1. If a Census house is used wholly or partly for the purpose of residence by one or more households such house is called as an occupied residential Census house.

10.2. For the purpose of Table A–1 only the occupied residential Census houses have been exhibited in each Town / Taluk / District and State.

11. Density of persons per Occupied Census House, Sex-Ratio, percentage of rural/urban population, Density per sq. kilometre :

11.1. The following statement gives the number of persons per occupied residential Census house, sex ratio, percentages of rural / urban population to total population and density of persons per sq. kilometre in total, rural and urban areas districtwise of Andhra Pradesh State.

STATEMENT 5

PERSONS PER OCCUPIED CENSUS HOUSE, NUMBER OF FEMALES PER 1,000 MALES, PERCENTAGE OF RURAL AND URBAN POPULATION TO TOTAL POPULATION AND DENSITY PER SQUARE KILOMETRE, 1971

11.2. The four items shown in the above Table are discussed briefly here under :

(a) *Persons per Occupied Census House :*

11.3. Cols. 3 to 5 of the above statement give the average number of persons per occupied residential Census house in Total, Rural and Urban areas of Andhra Pradesh State as well as of each of the 21 districts. In the State as a whole, the average number of persons residing in an occupied Census house is 5.41 whereas in the urban areas of the State the average is 6.12 persons which indicates the pressure for accommodation in urban areas. Naturally the average size of the occupied residential house in urban areas is larger than in rural areas where it is 5.26 persons. It may be noticed that more than 5 persons are found living in an occupied Census house in the State. It may be noticed from the table given above that in the urban areas of Hyderabad district the pressure on housing is very high. Evidently this is due to the congestion in the capital city of Hyderabad. The average of more than six persons per occupied residential house is also noticed in the urban areas of East Godavari, West Godavari, Krishna, Warangal and Chittoor districts while the lowest average of 4.85 persons is found in the urban areas of Ongole district. Nowhere in the rural areas of the State the average crossed six persons per residential house. The pressure on housing is high in the rural areas of Medak district where the average number of persons per residential house is 5.93.

11.4. The following statement gives the average number of persons per Census house from 1911 onwards in the country as a whole and in Andhra Pradesh State.

Year	*India*	*Andhra Pradesh*
1911	4.9	5.12 *
1921	4.9	4.61 *
1931	5.0	4.69 *
1941	5.1	4.79 *
1951	5.3	5.36
1961	5.6	5.16
1971	N.A.	5.41

(N.A. : Not available; * The figures are approximate)

11.5. The above statement clearly shows that increase in the number of houses has not kept pace with the growth of population. Further there are about 51,611 houseless households in the State. The problem of housing will be accentuated if suitable housing facilities are to be provided to these houseless households comprising 198,080 persons. Even in the case of

occupied residential houses the housing pattern is not uniform throughout the State. A large pucca building as well as a tottering thatched hut is treated as Census house for Census purposes. Most of the rural habitations largely consist of small katcha enclosures which are called houses only because human beings are found living in them. More details about the housing pattern, types of houses etc., will be found in Part IV-Housing Tables and Housing Report volume of Andhra Pradesh State.

(b) *Sex - Ratio :*

11.6. The second aspect in the table given above is the sex-ratio *i.e.*, females per 1,000 males.

11.7. A comparative picture of the number of females per 1,000 males, districtwise from 1901 to 1971 is given in the following statement.

STATEMENT 6

CHANGES IN THE PROPORTION OF THE SEXES, 1901—1971

11.8. It may be seen from the above statement that there are only 977 females per 1,000 males in the State as a whole in 1971 as against 985 in 1901 indicating that the disparity in the number of males and females in the population of the State has increased to some extent. The trend in the intermediary decades is fluctuating.

11.9. Among the districts, Srikakulam recorded the highest sex-ratio of 1,025 persons while Hyderabad district has the lowest sex-ratio of 936 females per 1,000 males. Out of 21 districts of Andhra Pradesh, 10 districts *viz.*, Srikakulam, Visakhapatnam, East Godavari, West Godavari, Ongole (Prakasam), Nellore, Mahbubnagar, Medak, Nizamabad and Karimnagar recorded higher sex-ratios than the State average of 977 females per 1,000 males. Incidentally, West Godavari district recorded an even sex-ratio of 994 females both in the rural and the urban areas of the district. The pattern of sex-ratio is not so even in the rural and urban areas of Visakhapatnam, Mahbubnagar, Hyderabad, Nizamabad, Adilabad, Karimnagar and Nalgonda districts.

11.10. Considering the rural areas separately the highest sex-ratio of 1,027 females per 1,000 males is recorded in Srikakulam district as against the State average of 983 females. Visakhapatnam and Nizamabad districts have also recorded a sex-ratio of more than 1,000 females *i.e.*, more than the State average. The lowest sex-ratio of 950 females in the rural areas of the State is recorded in Anantapur district.

11.11. Among urban areas in the State Srikakulam district has again topped the list with 1,006 females per 1,000 males as against the State average of 949 females. The lowest sex-ratio of 913 females per 1,000 males is recorded in the urban areas of Nalgonda district.

11.12. Another interesting feature that may be noticed from the above statement is that the districts of Srikakulam, Visakhapatnam, East Godavari, West Godavari have recorded sex-ratios of more than 1,000 females per 1,000 males continuously from 1901 to 1941 both in the rural as well as in the urban areas. After 1941 there is some fluctuation in the sex-ratios in these districts. But in the rural areas of Srikakulam, Visakhapatnam and Nizamabad districts the sex-ratio continues to be more than 1,000 females per 1,000 males since 1901.

11.13. The following statement gives a comparative picture of sex-ratio in different States in India.

SEX-RATIO IN DIFFERENT STATES

Sl. No.	Name of the State/ Union Territory	Total	Rural	Urban
1	2	3	4	5
1	Andhra Pradesh	977	983	949
2	Assam	897	913	749

(c) *Percentage of rural and urban population to total population*

11.14. The third aspect that the table presents is the percentage of rural and urban population to the total population, district-wise.

11.15. As per the present Census 80.69% of the total population of the State live in rural areas and 19.31% in urban areas as against 82.56% in rural and 17.44% in urban areas respectively in 1961. Thus there is a slight increase in the proportion of urban population in 1971 compared to 1961. Another feature that may be noticed from the above is that the population of the State is predominantly rural. Only five districts *viz.*, Visakhapatnam, Krishna, Guntur, Kurnool and Hyderabad have recorded rural population below the State average of 80.69%. The highest percentage of rural population in the State has been recorded in Nalgonda district (93.31%) while the lowest (34 12%) in Hyderabad district.

11.16. In the following five districts the percentage of urban population is higher than the State average 19.31%.

Visakhapatnam	22.30 %
Krishna	27.25 %
Guntur	24 98 %
Kurnool	20.30 %
Hyderabad	65.88 %

11.17. All the above districts contain at least one city each having a population of over 100,000 persons. The highest percentage of urban population is recorded in Hyderabad district (65 88%). The reasons are obvious. Being the capital of the State, Hyderabad city has been attracting a good number of people from various parts of the State and also from outside the State. The lowest percentage of urban population is noticed in Nalgonda district (6.69%). There is a decline in the proportion of urban population in 1971 compared to 1961 in this district mainly due to migration of a large number of families from Vijayapuri to other parts of the State after completion of construction works of Nagarjuna Sagar Project and due to the transfer of Vijayapuri South township to Guntur district. Only 3 districts in the State *viz.*, Mahbubnagar, Medak and Nalgonda districts have recorded urban population below 9%.

(d) *Density per Square Kilometre*

11.18. The last aspect presented in the table is the density of population per square kilometre in total, rural and urban areas, district-wise.

11.19. The density figures per square kilometre for urban areas have been worked out by using the area figures corrected upto two places of decimals, obtained by adding the area of individual towns in respective units and not by using the area figures shown against urban for State / District / Taluk concerned in the Table A–1. For 'total' and 'rural' the density is worked out on area figures corrected upto one place of decimal.

11.20. The average density of persons per square kilometre for the State as a whole is 157 persons, the urban density is 2,360 persons and the rural density is 128 persons per square kilometre.

11.21. In the following 12 districts, the density is below the State average of 157 persons per square kilometre.

Ongole (Prakasam)	109	persons
Nellore	123	,,
Chittoor	145	,,
Cuddapah	103	,,
Anantapur	111	,,
Kurnool	105	,,
Mahbubnagar	105	,,
Medak	152	,,
Adilabad	80	,,
Warangal	145	,,
Khammam	86	,,
Nalgonda	128	,,

11 22. The highest density of 362 persons per square kilometre is recorded in Hyderabad district while the lowest density of 80 persons is recorded in Adilabad district and the next lowest density in Khammam district (86 persons).

11.23. In the rural areas of the State the highest density of 256 persons per square kilometre is noticed in West Godavari district as against the State average of 128 persons. There are 11 districts in the State where the density of population in rural areas is less than the State average. The lowest density of 68 persons per square kilometre is found in the rural areas of Adilabad district.

11.24. Among the urban areas of the State, Hyderabad district recorded the highest density of 5,510 persons per square kilometre. While the lowest density of 1,027 persons is found in Anantapur district as against the State average of 2,360 persons per square kilometre. A density of more than 3,000 persons per square kilometre in the urban areas is noticed in the districts of West Godavari, Guntur, Nellore, Kurnool and Hyderabad.

11.25. All these four aspects are discussed in greater detail in the General Report Part I-A volume of this State.

11.26. The maps given at the beginning of this volume illustrate the distribution of rural and urban population, growth of population and distribution of persons among workers and non-workers, district-wise.

UNION TABLE A-I

£ These figures represent 'Geographical area figures' supplied by the Surveyor General,India. Figures for Urban areas are those supplied by the local bodies. Area figures for Rural areas are derived by subtracting the total Urban area of the district from the total area of the district.

NOTE : (1) The density figures per Sq. Km. shown under Col. 4 for Urban area of State/District are worked out by using area figures corrected upto two places of decimals obtained by adding the area of individual towns in the respective units and not using the area figures shown against urban for State/District concerned. For 'Total' and 'Rural' the density is worked out on area figures corrected upto one place of decimal.

(2) The State Survey Department has furnished the taluk area as well as the area of the Agency portions. The Plains area has been derived by subtracting the Agency area from the total area of the Taluk. The Agency and Plains area figures of all the Taluks in the District have been totalled and shown against the Agency and Plains area figures of the concerned District. The total area figures of Agency and Plains portions given for the District which are based on the State Survey Department figures will not, therefore, agree with the District total area figures supplied by the Surveyor General, India.

AREA, HOUSES AND POPULATION

State/District/Taluk/ Urban Agglomeration/ City/Town	Total Rural Urban	Area in Sq. Kms.	Population per Sq. Km.	Number of Villages		No. of Towns	No. of Occupied Residential Houses	No. of House-holds	Population		
				Inhabited	Uninhabited				Persons	Males	Females
1	2	3	4	5	6	7	8	9	10	11	12
7 Ramannapet Taluk ..	T	1,772.1	127	144	2	..	41,925	45,258	224,805	112,529	112,276
	R	1,772.1	127	144	2	..	41,925	45,258	224,805	112,529	112,276
	U	..	..	..	..	..	..	..	..	..	..

Towns treated as such for the first time in 1971 are printed in italics.

* Denotes Towns treated as such for the first time in 1961 and continuing as towns in 1971.

NOTE :—(*i*) The density figures per sq. km. shown under Col. 4 for Urban Area of State/District/Taluk are worked out using the area figures corrected upto two places of decimals obtained by adding the area of individual towns in the respective units and not using the area figures shown against urban for State/District/Taluk concerned. For 'Total' and 'Rural' the density is worked out on area figures corrected upto one place of decimal.

(*ii*) The State Survey Department has furnished the Taluk area as well as the area of the Agency portions. The Plains area has been derived by subtracting the Agency area from the total area of the Taluk. The Agency and Plains area figures of all the Taluks in the district have been totalled and shown against the Agency and Plains area figures of the concerned District. The total area figures of Agency and Plains portions given for the District which are based on the State Survey Department figures will not agree therefore with the District total area figures supplied by the Surveyor General, India.

£ These represent 'geographical area' supplied by the Surveyor General, India. Figures for urban area are those supplied by the Local Bodies. Area figures for Rural area are derived by subtracting the total urban area of the district from the total area of the district. The total of the area figures of the Taluks will not tally with the district area figures because the former represent land use area and are derived from the figures supplied by the State Survey Department.

APPENDIX I TO TABLE A-I

1. This Appendix gives all the 1961 Census territorial units which constitute the present set-up of each district / taluk of the State. It lists out the names of the units and their areas that are affected during 1961–1971 to make the present set-up of districts and taluks in the State.

2. The major territorial change that took place during the decade 1961-1971 was the formation of Ongole district later on renamed as Prakasam district. Ongole (Prakasam) district was formed by transferring the entire Ongole taluk comprising an area of 2,124.3 Sq. Kms., 41 villages comprising 643.4 Sq. Kms. of Narasaraopet taluk and 44 villages with an area of 782.2 Sq. Kms. of Bapatla taluk from Guntur district, entire taluks of Kandukur, Darsi, Podili and Kanigiri from Nellore district comprising an area of 7,603.8 Sq. Kms. and entire taluks of Giddalur and Markapur with an area of 6,250.7 Sq. Kms. from Kurnool district.

3. A new taluk of Gajapathinagaram was formed in Visakhapatnam district by transferring 44 villages with an area of 123.8 Sq. Kms. of Bobbili taluk and 58 villages comprising an area of 285.7 Sq. Kms. of Salur taluk of Srikakulam district and 70 villages with an area of 254.4 Sq. Kms. of Vizianagaram taluk of Visakhapatnam district.

4 Two new Independent Sub-Taluks – Mummidivaram and Alamur were also formed in East Godavari district by transferring 36 villages with an area of 356.2 Sq. Kms. from Amalapuram taluk and 43 villages with an area of 311.4 Sq. Kms. from Ramachandrapuram taluk respectively of the same district.

5. In Hyderabad district a new taluk by name Hyderabad Urban was formed during this decade 1961 – 1971 by transferring 7 villages with an area of 23.7 Sq. Kms. from Medchal taluk, 4 villages and one town consisting of an area of 70.64 Sq. Kms. from Hyderabad East taluk and 67 villages with an area of 258.1 Sq. Kms. from Hyderabad West taluk.

6. Apart from these major changes, some more inter-district and inter-taluk changes that have taken place from 1961 are clearly set out in this Appendix.

7. The area of the territories involved in the transfers given in this Appendix is based on the area figures furnished by the State Survey Department and published in 1961 District Census Hand Book of the concerned district.

8. The details of changes and the authority therefor are indicated in the footnote to Appendix to Table A.II.

9. The small Sub-Appendix to Appendix I to Table A-I shows the areas for 1961 and 1971 of those towns that have undergone changes in jurisdiction since the last Census. There are also some variations in the area figures of 1961 and 1971 of other towns which are due to revised computation of areas by the concerned local bodies.

TABLE A-I AREA, HOUSES AND POPULATION

SUB-APPENDIX TO APPENDIX I

Statement showing the areas for 1961 *and* 1971 *for those Towns which have undergone changes in area since* 1961 *Census and population of* 1961 *and* 1971 *for the transferred area*

Name of Town	District	Area in Sq. Kms. 1961	Area in Sq. Kms. 1971	Population for the transferred area	
				1961	1971
1	2	3	4	5	6
Srikakulam (M)	Srikakulam	13.60	11.34	4,012	5,599
Visakhapatnam (M)	Visakhapatnam	29.14	76.32	42,511	N.A.
Bheemunipatnam (M)	Visakhapatnam	2.59	10.88	N.A.	N.A.
Kakinada (M)	East Godavari	24.53	30.51	6,872	10,177
Samalkot (M)	East Godavari	9.06	12.07	N.A.	N.A.
Peddapuram (M)	East Godavari	5.21	63.45	188	N.A.
Eluru (M)	West Godavari	12.02	14.38	N.A.	N.A.
Bheemavaram (M)	West Godavari	23.31	25.64	N.A.	N.A.
Vijayawada (M)	Krishna	24.14	29.40	3,977	N.A.
Gudivada (M)	Krishna	6.97	6.94	N.A.	N.A.
Tenali (M)	Guntur	6.94	7.90	N.A.	N.A.
Tirupati (M)	Chittoor	4.40	19.74	N.A.	N.A.
Sangareddy (M)	Medak	7.64	10.49	1,814	N.A.
Kagaznagar	Adilabad	14.79	8.32	10,913	11,567
Vijayapuri	Nalgonda	9.30	4.15	17,204	5,160

NOTE : (*i*) The population particulars for some of the transferred areas are not available separately as no separate entity for these areas was maintained. N. A. has been given in such cases. (N. A. : Not Available).

(*ii*) The variation in area figures furnished under Columns 3 and 4 is partly due to jurisdictional changes in towns and partly due to revised computation.

APPENDIX II TO TABLE A-I

1. This Appendix gives the number of villages with a population of 5,000 or more and towns with a population below 5,000 for the State, District and Taluk. One of the criteria for a place to be declared as town is that it should normally have a population of 5,000 or more. But there are several villages with more than 5,000 population which did not satisfy the other criteria for being treated as urban units at present and hence are not treated as towns, while some places with less than 5,000 population are treated as towns because of their other predominant urban characteristics.

2. There are as many as 804 villages with a population of 5,000 and over in Andhra Pradesh. The largest number of 129 of such villages is found in East Godavari district followed by Guntur district with 112 villages, West Godavari district with 90 and Krishna district with 61 villages.

3. There are only 4 towns with a population below 5,000 at the present Census. They are (1) Upper Sileru Project Site Camp Township with a population of 4,901 persons in Visakhapatnam district, (2) Srisailam Project Township Left Flank Colony with a population of 3,128 persons in Mahbubnagar district, (3) Shankarampet town with a population of 4,837 in Medak district and (4) Pochampad Project Township Left Flank Colony with a population of 2,439 persons in Adilabad district. The particulars of area and population of these 4 places are shown in the List 'A' to Appendix I to Table A-IV.

4. There was only one such town *i.e.*, Mokhasa Mutyalampadu with a population of 3,963 persons at the 1961 Census. Subsequently this has been merged with Vijayawada municipality.

APPENDIX III TO TABLE A-I

1. This Appendix gives the figures for the number of houseless and institutional households and houseless and institutional population by sex for the State, District, Taluk and cities with a population of 100,000 or more and separately for Total, Rural and Urban.

2. Houseless population represents those who have no fixed place of residence and no regular house to live in. This includes beggars, sadhus, nomads, mendicants, vagrants, vagabonds, tramps etc., and also population living in boats plying on rivers, canals or lakes. All such persons were enumerated at the places where they normally slept on the night of 31st March, 1971.

3. An Institutional household for the purpose of Census, is a group of unrelated persons living together under the management of the Head of the household appointed either by the rules regulating the Institution like a warden, superintendent or manager etc., or by common consent of its members, Institutional population, therefore, includes such persons as those living in hostels, boarding homes, hotels with lodging and boarding facilities, in-patients of hospitals, sanatoria, leper asylums, nursing homes etc., inmates of jails, mental institutions, borstal schools, beggar homes, orphanages, charitable institutions, asharams, convents etc.

TABLE A-II

DECADAL VARIATION IN POPULATION SINCE 1901

TABLE A-II

DECADAL VARIATION IN POPULATION SINCE 1901

1. Introduction :

1.1. This table furnishes data on adjusted population for eight Censuses from 1901 to 1971 for the State and districts conforming to the present jurisdiction. Decade variation of population is shown in actual figures in column 4 and in percentages in column 5. There have been many changes in the State and district boundaries since 1901. The figures shown in column 3, 6 and 7 for the earlier Censuses have been adjusted for the present boundaries and areas of the State and districts. The table, therefore, contains comparable figures for a study of growth of population during the last 70 years. In the absence of reliable data on vital statistics, this table and the migration tables generated from Census data are the main sources for preparing estimates for future population.

1.2. Ongole district was newly constituted on 2nd February, 1970 with certain areas transferred from Guntur, Nellore and Kurnool districts after the 1961 Census and hence it is shown in italics. Subsequently this district was re-named as Prakasam district.

2. Adjustment of population from 1901–1961 :

2.1. The recast of population of earlier Censuses from 1901 to 1961 for the districts and taluks to conform to the present jurisdiction was made as follows : The information relating to the territorial changes that had taken place during 1961-1971 was first collected. Then the population of the transferred territories according to the 1951 and 1961 Censuses was obtained from the concerned Census reports. The population particulars of the unaffected districts and taluks for the previous Censuses were adopted as given in the concerned Census Report of 1961 Census. As regards the villages transferred, the population particulars with sex-break-up of these villages published in the Primary Census Abstract in the District Census Handbooks of 1951 and 1961 were taken. The population of the transferred areas according to the 1961 Census so obtained was subtracted from the 1961 Census population of the taluk / district from which the area was transferred and added to the 1961 Census population of the taluk or district to which the area was tagged on and thus the 1961 adjusted population of each taluk or district to conform to the present jurisdiction was obtained. The same procedure was also adopted for adjusting the 1951 Census figures to the present jurisdiction. The adjustment of the population for the Censuses earlier to 1951 was then taken up. There was some difficulty in adjusting the figures for the Censuses earlier to 1951 as village statistics of earlier Censuses were not readily available for the affected districts. Wherever the village statistics were not available for the earlier Censuses the population of the transferred areas for the Censuses prior to 1951 has been estimated assuming that the proportion of the population of such areas to the concerned taluk population would have been the same as in 1951.

2.2. The total of the population of all the districts of Andhra Pradesh for 1901, 1911, 1921 and 1931 given in Table A-II does not tally with the total population of the State. The difference between the figures given for the State as a whole on the one hand and the sum of totals of individual districts on the other hand varies slightly from Census to Census *i.e.*, – 21,599 for 1901 ; – 70,744 for 1911 ; +16,456 for 1921 and +8,240 for 1931. This difference existed in 1951 Table A–II for Hyderabad State and was due to an error that had occurred in the recasting of Table A-II in 1941, when the population of Medak and Nizamabad districts was recast in accordance with certain inter-district transfers that had taken place between Medak and Nizamabad districts of former Hyderabad State in the decade 1931 – '41.

2.3. The Appendix to this table gives details of changes of boundaries or areas in the jurisdiction of each district during 1961 - 1971. Areas and population affected by each change have been shown in the Appendix and suitable foot notes have been added to explain each such change.

2.4. The following is a brief account of district-wise changes that have occurred in their boundaries from time to time.

1. *Srikakulam District* : After the formation of Orissa State in 1936 the areas of Ganjam district retained in composite Madras State were included in Visakhapatnam district which was already a big district. The Visakhapatnam district, had therefore become very unwieldy for administration and it was therefore bifurcated into Srikakulam and Visakhapatnam districts in the year 1950. The northern half of the old Visakhapatnam district was included in Srikakulam district with headquarters at Srikakulam, and the southern half was constituted into Visakhapatnam district with headquarters at Visakhapatnam. The Srikakulam district thus formed in the year 1950 remained unaffected till the 1961 Census. During September, 1969 forty-four villages of Bobbili taluk and fiftyeight villages of Salur taluk were transferred to the newly formed Gajapathinagaram taluk of Visakhapatnam district.

2. *Visakhapatnam District* : The Visakhapatnam district after bifurcation in 1950 remained unchanged till the 1961 Census. During September, 1969 when Gajapathinagaram taluk was newly formed in this district, 102 villages were transferred from Bobbili and Salur taluks of Srikakulam district to this district.

3. *East Godavari District* : The Godavari district was expanded in area by the addition of Bhadrachalam taluk in 1874 and two muttas of Golgonda Agency in 1881. In 1904 a portion of it which lay south and west of Godavari river (with the single exception of the then Polavaram division) was

transferred to the Krishna district. In 1909 Nugur Independent sub-taluk was transferred to this district from the Central Provinces. In 1942 Polavaram Agency taluk was transferred from this district to West Godavari district. During the decade 1951-1961 a few territorial changes occurred in the composition of the district. Bhadrachalam and Nugur taluks comprising an area of 1,504 square miles were transferred to Khammam district in 1959 vide G.O.Ms. No. 2384, dated 17th November, 1959 for convenience of administration.

4. *West Godavari District*: This district was formed in 1925 out of the old Krishna district and in 1942 the Agency taluk of Polavaram was transferred to this district from East Godavari district. This district did not undergo any changes thereafter.

5. *Krishna District*: Krishna district was one of the oldest British administered areas of Andhra Pradesh. It was formerly called Machilipatnam district and in 1859 when the then Guntur district was abolished, certain taluks thereof were added to this district and it was renamed as Krishna district, after the mighty river Krishna. In 1904 this enlarged Krishna district was bifurcated into Krishna and Guntur districts. Again in 1925 the Krishna district was further divided into Krishna and West Godavari districts. In 1950 the district had undergone some minor changes in its territorial limits on account of the exchange of certain enclave villages between the former Hyderabad State and the composite Madras State. Again in 1959 the Munagala Paraganah which was an enclave was transferred from this district to Nalgonda district for administrative convenience and Potharlanka and Gajullanka villages of Divi taluk were transferred to Guntur district.

6. *Guntur District*: The old Guntur district was abolished and a part of it was merged in Machilipatnam district and the remaining portion in Rajahmundry district in 1859. The present Guntur district was constituted on the 1st of October, 1904 comprising the taluks of Tenali, Bapatla, Guntur, Sattenapalle, Narasaraopet, Palnad and Vinukonda of the Machilipatnam district and the Ongole taluk of Nellore district. During the decade 1951 – 1961 Potharlanka and Gajullanka villages of Divi taluk of Krishna district and Katikalpudi village of Darsi taluk of Nellore district were transferred to this district. Krishnapuram, Pedda Uyyalawada and Chinna Uyyalawada villages of Ongole taluk and a small forest area of Palnad taluk were transferred from this district to Nellore and Nalgonda districts respectively. In 1964 Vijayapuri South town of Miryalguda taluk of Nalgonda district was transferred to Palnad taluk of Guntur district vide G.O. Ms. No. 1648, dated 21st October, 1964. The most important territorial change occurred after 1961 Census was the transfer of the entire Ongole taluk, 41 villages of Narasaraopet taluk and 44 villages of Bapatla taluk to the newly formed Ongole district later renamed as Prakasam district under the Gajapathinagaram taluk and Ongole district (Formation) Act, 1970 (Act 2 of 1970).

7. *Ongole (Prakasam) District*: This district was newly formed on 2nd February, 1970 with headquarters at Ongole under the Gajapathinagaram and Ongole district (Formation) Act 1970 (Act 2 of 1970). It has been subsequently renamed as Prakasam district in 1972 after the name of the great Andhra leader Sri Tanguturi Prakasam familiarly known as 'Andhra Kesari'. The following areas are included in the new district.

(i) Ongole taluk, 41 villages of Narasaraopet taluk and 44 villages of Bapatla taluk transferred from Guntur district.

(ii) Podili, Darsi, Kandukur and Kanigiri taluks transferred from Nellore district.

(iii) Markapur and Giddalur taluks transferred from Kurnool district.

The areas transferred from Guntur district were constituted into three taluks viz., Ongole, Addanki and Chirala taluks.

8. *Nellore District*: After the district came under the British Administration the jurisdiction of the district did not undergo any major changes but for the transfer of Ongole taluk in 1904 to Guntur district when it was newly constituted. During the decade 1941-1951 there was a transfer of few border villages between this district and Chingleput district. During the decade 1951-61 three villages *viz.*, Krishnapuram, Pedda Uyyalawada and Chinna Uyyalawada of Ongole taluk of Guntur district were transferred to Darsi taluk and Katikalpudi village of Darsi taluk was transferred to Ongole taluk. On 2nd February, 1970 Kandukur, Darsi, Podili and Kanigiri taluks were transferred completely to the newly formed Ongole district. Two villages of Sullurpet taluk were transferred to Sri Kalahasti taluk of Chittoor district and three villages of Sri Kalahasti taluk were transferred to Sullurpet taluk of this district.

9. *Chittoor District*: Chittoor district was first constituted on 1st April, 1911 comprising the taluks of Chittoor, Palmaner and Chandragiri transferred from North Arcot district, Madanapalle and Vayalpad taluks from Cuddapah district and Ex-Zamindari areas of Punganur, Kalahasti, Puttur and old Karvetinagar Estate (Tiruttani). Kangundi taluk of North Arcot district with the exception of 22 villages was transferred to Palmaner taluk on 1st December, 1928. Eight villages which were enclaves of Mysore State were also transferred to Palmaner taluk. The next major change in this district occurred on 1st April, 1960 as a result of the implementation of Pataskar Award consequent on the re-organisation of the States. A major portion of Tiruttani taluk made up of 282 villages, 2 towns *viz.*, Tiruttani and Proddaturpet and part of one village (Vyasapuram) were transferred from this district to Chingleput district of Madras State. Satyavedu taluk, comprising 76 villages of Tiruvallur taluk, 72 villages of Ponneri taluk both in Chingleput district and 17 villages of Puttur taluk and 19 villages of Tiruttani taluk of Chittoor district was newly constituted and added to Chittoor district. Other changes that took place according to this Award were (i) 21 villages from Chittoor taluk were transferred to Walajahpet taluk of North Arcot district, (ii) 8 villages from Chittoor taluk were transferred to Gudiyattam taluk of North Arcot district in Madras State, (iii) 3 villages and part of one village (Vyasapuram) of Tiruttani taluk were transferred to Arkonam taluk of North Arcot district, (iv) a small forest area in Palmaner taluk was also transferred to Tirupattur taluk of North Arcot district, (v) one village by name Gopalkrishnapuram from Puttur taluk was transferred to Chingleput district in Madras State, (vi) Kuppam and Bangarupalem independent sub-taluks were constituted in Chittoor district with effect from 1st April, 1960. Kuppam independent sub-taluk was formed out of 220 villages transferred from Palmaner taluk and 3 villages from Krishnagiri taluk in Salem district of Madras State. Bangarupalem independent sub-taluk was formed out of 145 villages transferred from Chittoor taluk.

10. *Cuddapah District*: About the middle of the nineteenth century, the district comprised the taluks of Jammalamadugu, Duvvuru, Koilkuntla, Chitvel, Siddhavattam, Chennuru, Kamalapuram, Gurramkonda (Vayalpad), Madanapalle, Pulivendla, Rayachoti, Cumbum, Dupadu and Badvel with a population of 1,451,921. In 1856 Pulivendla taluk was split up into Pulivendla and Kadiri taluks for administrative convenience. In 1856 Cumbum, Koilkuntla and Dupadu taluks were taken away from Cuddapah district for being constituted separately along with certain other areas into the Kurnool district. On 1st October, 1910 the taluk of Kadiri was transferred to Anantapur. On 1st April, 1911 the taluks of Madanapalle and Vayalpad were also separated from Cuddapah to form part of the district of Chittoor. During 1951-1961 two villages of Allagadda taluk of Kurnool district were transferred to Proddatur taluk.

11. *Anantapur District*: Anantapur district was created purely for administrative convenience. In 1882 it was separated from Bellary district as the latter was found to be a very heavy charge. The district was further expanded in the year 1910 by the addition of Kadiri taluk from Cuddapah district. The formation of Andhra State in 1953 gave this district another taluk *viz.*, Rayadrug taluk of Bellary district. During 1961 - 1971 a part of Abakavaripalli village of Bagepalle taluk of Kolar district of Mysore State was transferred to Hindupur taluk.

12. *Kurnool District*: Kurnool is one of the four districts ceded by the Nizam to the British in the year 1800. On the formation of Andhra State in 1953 the western boundary of this district was extended by the addition of Adoni and Alur taluks of Bellary district. During the decade 1951 - 1961 two villages *viz.*, Daddanala and Kallur were transferred from Allagadda taluk of this district to Proddatur taluk of Cuddapah district. On 2nd February, 1970 the entire taluks of Giddalur and Markapur were transferred to the newly constituted Ongole district, later on renamed as Prakasam district.

13. *Mahbubnagar District*: Early in the 18th Century the district was included in the Nizam's Dominions on the formation of Hyderabad State. According to 1901 Census, this district consisted of 10 taluks *viz.*, (1) Mahbubnagar, (2) Jadcherla, (3) Ibrahimpatnam, (4) Kalwakurthi, (5) Amarabad, (6) Nagarkurnool, (7) Makthal, (8) Narayanpet, (9) Koilkonda and (10) Pargi. Except for some changes only in the names of taluks, the district did not undergo major jurisdictional changes till the re-organisation of the States in 1956 when Pargi taluk of this district was transferred to Hyderabad district and Alampur and Gadwal taluks from Raichur district along with Kodangal taluk from Gulbarga district were added to Mahbubnagar.

14. *Hyderabad District*: Hyderabad district was carved out of the Sarf-i-Khas Illaquas, familiarly known as the Atraf-i-Balda and the district of Baghat around the year 1948, when Hyderabad State passed under the Central Administration subsequently leading to the installation of a popular Government. The district was a part of the erstwhile Hyderabad State which was trifurcated during the States Reorganisation in November, 1956. Since then it forms part of the enlarged State of Andhra Pradesh along with the other eight predominantly Telugu speaking districts of the Telangana region of former Hyderabad State.

During the decade 1951 - '61 this district had gained considerably as a result of administrative re-organisation of the districts and the re-adjustment of taluks on account of the implementation of the States Re-organisation Act. Pargi taluk of Mahbubnagar district and Vicarabad taluk of Medak district were transferred to Hyderabad district. Tandur taluk of Gulbarga district which now forms part of Mysore State was tagged on to Hyderabad district on 1st November, 1956. Eleven villages of Sangareddy taluk of Medak district and Hafeezpuram village of Ramannapet taluk of Nalgonda district were added in July, 1958 to Chevella and Ibrahimpatnam taluks respectively of this district. The district also lost nine villages of Chevella taluk to Shadnagar taluk of Mahbubnagar district. On 1st February, 1969 two villages of Vicarabad taluk of Hyderabad district were transferred to Sangareddy taluk of Medak district. On 1st April, 1965 a new taluk *viz.*, Hyderabad Urban taluk was formed out of certain areas from Medchal, Hyderabad East and Hyderabad West taluks.

15. *Medak District*: At the beginning of the eighteenth century when Hyderabad State was formed, Medak district was included under the Nizam's Dominions. It continued to be part of the former Hyderabad State till 1956 and during the re-organisation of States in November, 1956 it was transferred to Andhra Pradesh along with the eight other districts of the Telangana region. During the decade 1951-'61 Vicarabad taluk and 11 villages of Sangareddy taluk were transferred to Hyderabad district and Sawargaon village to Nizamabad district. Against this loss, Narayankhed taluk, Jharasangam, Kohir and Zahirabad circles of Zahirabad taluk, Nyalkal circle of Bidar taluk were transferred from Bidar district and Theegalanarsapuram village from Warangal district to this district. The circles of Zahirabad, Kohir, Jharasangam and Nyalkal transferred from Bidar district were constituted into a new Zahirabad taluk. During the decade 1961-1971 two villages of Vicarabad taluk of Hyderabad district and 3 villages of Banswada taluk of Nizamabad district were transferred to this district.

16. *Nizamabad District*: Prior to 1905 this district was known as Indur district. In 1905 when the administrative units of erstwhile Hyderabad State were re-constituted the name of Indur district was changed into that of Nizamabad district. Nirmal and Narsapur taluks of this district were transferred to Adilabad district. At the time of re-organisation of States, Bichkonda and Jukkal circles of Deglur taluk of Nanded district were transferred to Andhra Pradesh and included in this district. In 1958 they were constituted into a new independent sub-taluk called the Madnur independent sub-taluk. During November, 1963 three villages of Banswada taluk were transferred to Narayankhed taluk of Medak district.

17. *Adilabad District*: This district was known prior to 1905 as Sirpur - Tandur Sub - District. It consisted of three taluks Edulabad, Rajura and Sirpur besides some Jagir villages. In 1905 a general re-constitution of divisions and districts was effected in the erstwhile Hyderabad State and during this re-organisation this district was upgraded into an independent district and the name of the district was also changed into Adilabad district. In this re-organisation this district gained Narsapur and Nirmal taluks from Nizamabad (Indur) district and Chinnur and Lakshettipet taluks from Karimnagar (Elgandal) district. On 1st November, 1956 when Andhra Pradesh was formed under

the States Re-organisation Act 1956, this district lost the predominantly Marathi speaking taluks of Rajura, Kinwat and Islapur circles of Boath taluks to Maharashtra State against which it gained the revenue circles of Mudhol, Kuber and Bhainsa from Mudhol taluk of Nanded district.

18. *Karimnagar District*: Karimnagar district till 1905 was known as Elgandal district with headquarters at Elgandal, a place about four miles from Karimnagar. In 1905 the district headquarters was changed from Elgandal to Karimnagar and along with it the name of the district was also changed into Karimnagar district. During the re-organisation of the districts in the erstwhile Hyderabad State in 1905 two taluks *viz.*, Lakshettipet and Chinnur were transferred to Adilabad district and Siddipet taluk to Medak district. Parkal taluk was added to this district from Warangal district thereby constituting in all seven taluks. But again in October, 1953 at the time of the formation of Khammam district, Parkal taluk was transferred back to Warangal district.

19. *Warangal District*: Warangal is an ancient town after which a district and a Commissioner's Division in the former Hyderabad State and again a district in the present Andhra Pradesh State have been designated. The Warangal division in erstwhile Hyderabad State formed the eastern portion of the Nizam's Dominions and extended from the river Penganga in the north to the Krishna in the south. Prior to 1st October, 1953 it was one of the biggest districts in the erstwhile Hyderabad State. On 1st October, 1953 five taluks were separated from it and formed into a new district called Khammam district and Jangaon and Parkal taluks were transferred to this district from Nalgonda and Karimnagar districts respectively.

20. *Khammam District*: Khammam district was constituted for the first time on Ist October, 1953 with five taluks of Warangal district, as it had been felt for a long time that Warangal district was administratively too extensive and unwieldy, being the largest district of Hyderabad State. Accordingly bifurcation took place and the following taluks were demarcated as Khammam district with headquarters in the ancient town of Khammam.

(i) Khammam taluk (except Kamepalle and Siruvole villages),
(ii) Yellandu taluk,
(iii) Madhira taluk,
(iv) Bhoorgampadu taluk and
(v) Palwancha taluk (now known as Kothagudem taluk).

Subsequently in 1959, Bhadrachalam and Nugur taluks were transferred to this district from East Godavari district.

21. *Nalgonda District*: On the formation of Hyderabad State in the early part of the 18th Century the district was included in the Nizam's Dominions. The district did not appear to have undergone any major changes in jurisdiction from 1901 till 1951 except for the absorption of some estate and enclave villages. During the decade 1951-1961 the district underwent certain changes in its territorial jurisdiction. Jangaon taluk was transferred to Warangal district in 1953 on the eve of the formation of Khammam district. In 1958 Hafeezpuram village was transferred from Ramannapet taluk to Ibrahimpatnam taluk of Hyderabad district. Against this loss in territory the district gained Munagala Paraganah comprising 23 villages from Krishna district, Madnapur village from Kalvakurthi taluk of Mahbubnagar district and a small forest area from Palnad taluk of Guntur district on which Vijayapuri South Township was built. During October, 1964 Vijayapuri South was again transferred back to Palnad taluk of Guntur district.

3 Variation of Population :

3.1. The population of Andhra Pradesh has more than doubled (128%) in the last seventy years. The decade growth rate has been generally rising after 1921. The rate of increase is lowest in Srikakulam district (67%) and less than 100% in Visakhapatnam, Ongole (Prakasam), Nellore, Cuddapah and Nizamabad districts between 1901 and 1971. In Hyderabad and Khammam districts the increase is more than 200% during the last seventy years. And the other districts have shown an increase ranging between 100 – 200% during 1901 – 1971.

3.2. The following statement shows the percentage variation of population from 1901 to 1971 and for each decade during this period for the State and districts. This variation is also shown for total, rural and urban areas separately.

STATEMENT 1

PERCENTAGE OF VARIATION OF POPULATION 1901—1971

Note : Districts newly constituted after 1961 Census are shown in italics.

3.3. In Andhra Pradesh, Hyderabad district has recorded the highest growth rate of 35.4% during the decade 1961 - 1971, while Srikakulam district has recorded the lowest growth rate of 13.8%, Nellore and Ongole districts have also registered low growth rates of about 15% during 1961 - 1971. The decennial growth rate during 1961 - 1971 in all other districts is between 16% and 30%.

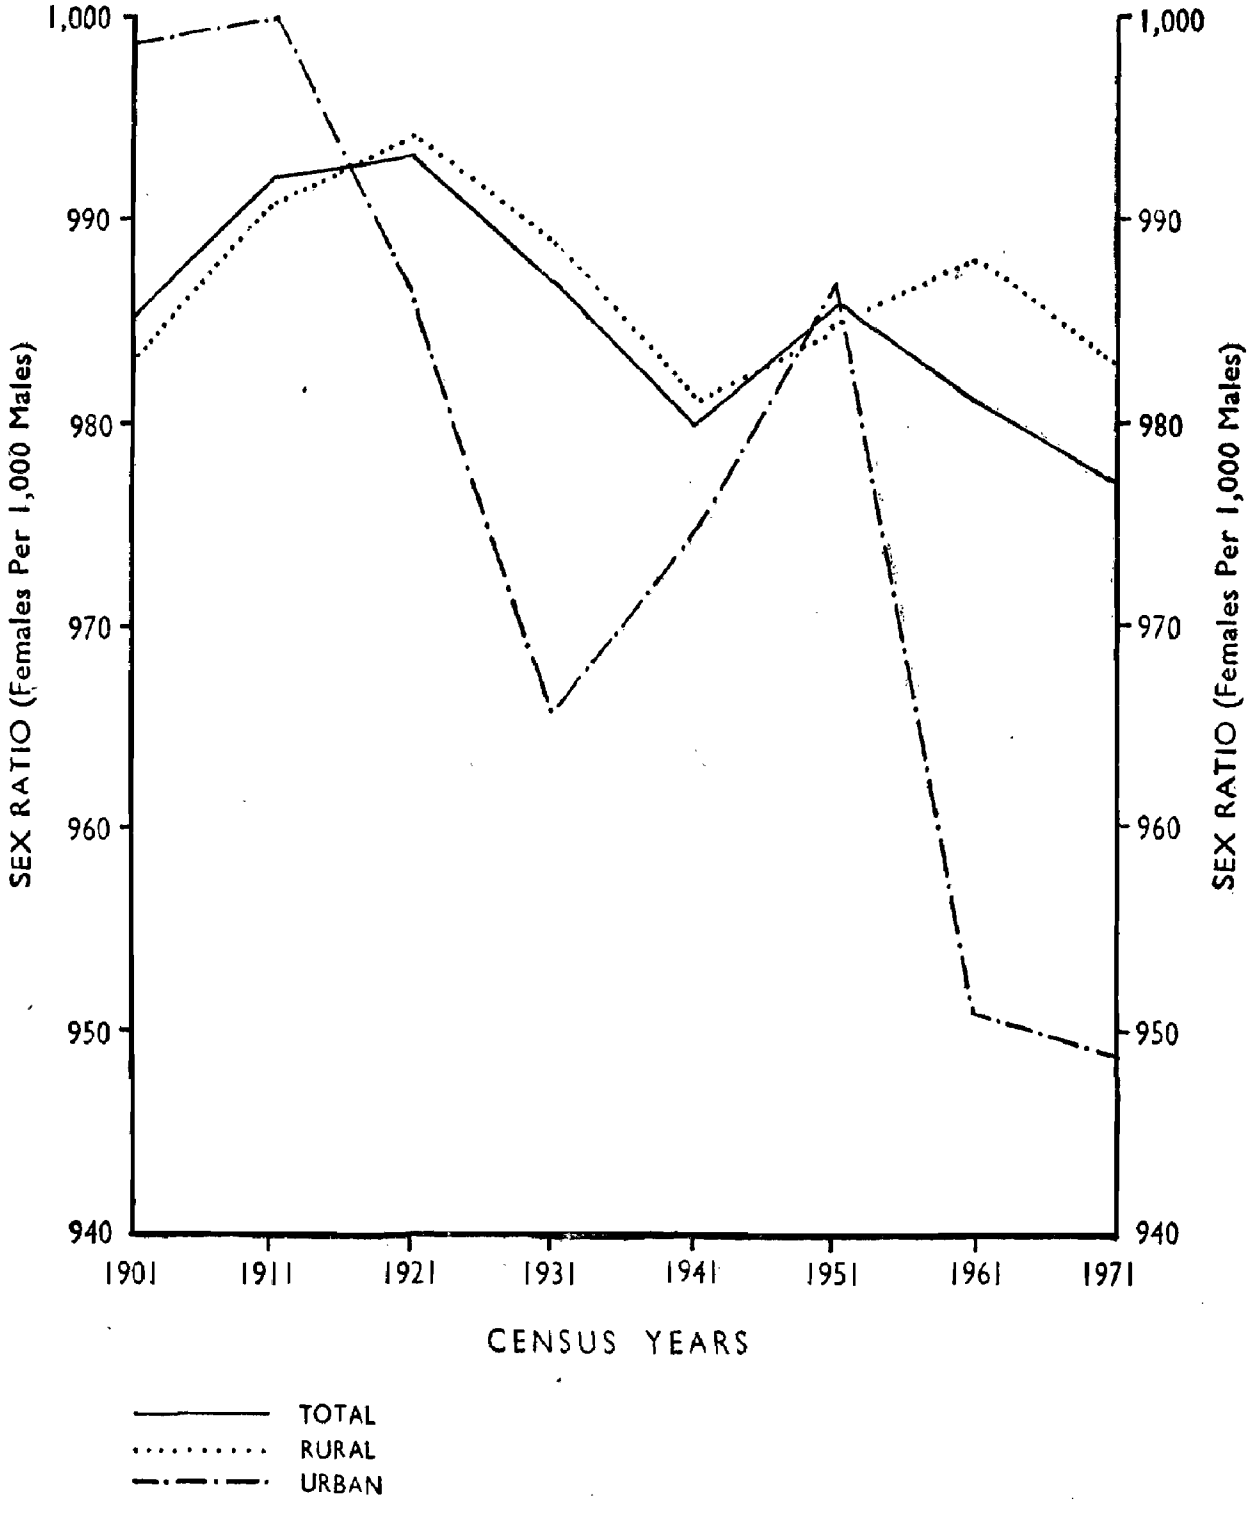

4. Sex-ratio 1901-1971 :

4.1. The graph on the opposite page and the statement 2 given thereafter show the sex-ratio (females per thousand males) for the State and districts during the last 70 years. The figures are given for the rural and urban areas also separately.

4.2. The sex-ratio for Andhra Pradesh as a whole has increased from 985 in 1901 to 993 in 1921 and has shown a declining trend thereafter though the decrease is not uniform or gradual. According to the 1971 Census the sex-ratio for the State as a whole is 977. Srikakulam district has the highest sex-ratio *i.e.*, 1,025 in the State according to the 1971 Census figures. But even in this district the ratio has declined from the earlier decades. In Visakhapatnam district the ratios though declining, continued to be above 1,000 till 1961 and for the first time it has fallen to 997 in 1971. In the rural areas of this district, however, the ratio is still above 1,000. Similarly in Godavari districts the ratio has been above 1,000 till 1951 and now it has come down to 996 and 994 in East and West Godavari districts respectively. Mahbubnagar and Nizamabad districts had some excess of females over Males in 1961, but in 1971 these districts also followed more or less the pattern of other districts. The lowest sex-ratio of 936 females per 1,000 males is recorded in Hyderabad, obviously due to the low sex-ratio in Hyderabad city. Thus Andhra Pradesh State reflects a static state of society in the present Census. Further details about sex-ratios are dealt with in chapters of Part I – A, General Report of Andhra Pradesh.

TABLE A-II

DECADAL VARIATION IN POPULATION SINCE 1901

	1971	1,819,738	+ 261,996	+ 16.82	926,177	893,561

Names of Districts formed after 1961 Census are printed in italics.

The totals of population of all the Districts of Andhra Pradesh for 1901, 1911, 1921 and 1931 Censuses do not tally with the total population of the State for the concerned year. The difference between the figures given for the State total and the totals of all the districts is —21,599 for 1901, —70,744 for 1911, +16,456 for 1921 and +8,240 for 1931. This difference is due to an error that has occurred in the Table A-II of 1941, when the population data of Medak and Nizamabad Districts were recast in 1941 in accordance with certain inter-district transfers that had taken place between Medak and Nizamabad Districts of the erstwhile Hyderabad State during the decade 1931-41.

TABLE A-II DECADAL VARIATION IN POPULATION SINCE 1901

APPENDIX

STATE AND DISTRICTS SHOWING 1961 POPULATION ACCORDING TO THEIR TERRITORIAL JURISDICTION IN 1961
CHANGES IN AREA AND THE POPULATION OF 1961 ADJUSTED TO JURISDICTION OF 1971

State/District	Area in 1971 (Sq. Kms.)	Population 1971	Area in 1961 (Sq. Kms.)	1961 Population according to jurisdiction prevailing in 1961	Population in 1961 adjusted to jurisdiction of 1971	Net increase or decrease between Cols. 5 & 6

Nalgonda (*k*)	14,242.0	1,819,738	14,201.0	1,574,946	1,557,742	— 17,204

† A portion of Abakavaripalli Village bearing Survey No. 19 of Bagepalle Taluk of Kolar District of Mysore State comprising an area of 0.03 Sq. Kms., consisting of vacant land was transferred to Hindupur Taluk of Anantapur District of this State with effect from 1-10-1968 under the Andhra Pradesh and Mysore (Transfer of Territory) Act, 1968 (Act 36 of 1968.)

(*a*) 44 Villages with an area of 123.8 Sq. Kms. from Bobbili Taluk and 58 Villages with an area of 285.7 Sq. Kms. from Salur Taluk of Srikakulam District were transferred to the newly constituted Taluk of Gajapathinagaram in Visakhapatnam District on 15th November, 1969 *vide* G.O. Ms. No. 902, (Revenue Department), dated 20th September, 1969 issued by Government of Andhra Pradesh.

(*b*) The details are as given against symbol (*a*) above.

(*c*) (i) Entire Ongole Taluk comprising an area of 2,124.3 Sq. Kms., 41 Villages of Narasaraopet Taluk with an area of 643.4 Sq. Kms., and 44 Villages with an area of 782.2 Sq. Kms. from BapatlaTaluk of Guntur District were transferred to newly formed Ongole District on 1-2-1970 under the Gajapathinagaram Taluk and Ongole District (Formation) Act, 1970 (Act 2 of 1970).

(ii) Vijayapuri South comprising an area of 5.2 Sq. Kms., of Miryalguda Taluk of Nalgonda District was transferred to Palnad Taluk of Guntur District *vide* G.O. Ms. No. 1648, dated 21st October, 1964 issued by Government of Andhra Pradesh.

(*d*) This district was newly formed in 1970. The details are as given against symbols (*c*) *i*, (*e*) *i*, & (*g*).

(*e*) (i) Entire Kandukur Taluk with an area 2,022.8 Sq. Kms., Darsi Taluk with an area 1,530.2 Sq. Kms., Podili Taluk with an area 1,460.8 Sq. Kms. and Kanigiri Taluk with an area 2,590.0 Sq. Kms. were transferred to Ongole District on 1-2-1970 under the Gajapathinagaram Taluk and Ongole District (Formation) Act, 1970 (Act 2 of 1970).

(ii) 2 Villages with an area 11.2 Sq. Kms., from Sullurpet Taluk were transferred to Sri Kalahasti Taluk of Chittoor District *vide* G.O.Ms. No. 1903, dated 24-11-1965.

(iii) 3 Villages with an area 4.0 Sq. Kms., from Sri Kalahasti Taluk of Chittoor District were transferred to Sullurper Taluk of Nellore District *vide* G. O. Ms. No. 572, dated 1-4-1964.

(*f*) The details are as given against symbols (*e*) (*ii*) and (*e*) (*iii*)

(*g*) Entire Giddalur and Markapur taluks comprising an area 2,713.5 Sq. Kms, and 3,537.2 Sq. Kms., respectively of Kurnool District were transferred to Ongole District on 1-2-1970 under the Gajapathinagaram Taluk and Ongole District (Formation) Act, 1970 (Act 2 of 1970).

(*h*) 2 Villages with an area 9.8 Sq. Kms., of Vicarabad Taluk of Hyderabad District were transferred to Sangareddy Taluk of Medak District *vide* G.O. Ms. No. 85, dated 1st February 1969.

(*i*) (*i*) The details are as given against symbol (*h*).

(*ii*) 3 Villages with an area 47.0 Sq. Kms., of Banswada Taluk of Nizamabad District were transferred to Narayankhed Taluk of Medak District *vide* G. O. Ms. No. 2034, dated 28th November 1963.

(*j*) The details are as given against symbol (*i*) (*ii*).

(*k*) The details are as given against symbol (*c*) (*ii*).

* Though there are no jurisdictional changes between 1961-71, there is variation in area furnished in 1961 and 1971. The variation is due to revised computation. Even in the districts where jurisdictional changes occurred there is variation in the area as furnished for 1961 and 1971 and it is partly due to the jurisdictional changes and partly due to the revised computation.

TABLE A-III

VILLAGES CLASSIFIED BY POPULATION

TABLE A III

VILLAGES CLASSIFIED BY POPULATION

1. Introduction :

1.1. The Union Table gives the total number of inhabited villages classified by seven broad population sizes *viz.*, (1) less than 200, (ii) 200-499, (iii) 500-999, (iv) 1,000-1,999, (v) 2,000-4,999, (vi) 5,000-9,999 and (vii) 10,000 and above indicating therein the total rural population by persons, males and females for the whole State, as well as for each district. The State Table gives similar classification for each district followed by similar details for each taluk in the district. An Appendix is added to show sub-totals upto district level for broader population size groups.

2. Definition of Village :

2.1. The term 'Village' has been defined in detail earlier, in the fly leaf to Table A-I. To state briefly, the village for the purpose of Census is the Revenue Village with a definite name and boundaries which contains the main village together with its hamlets, if any.

2.2. The following statement gives the percentage of 1971 rural population living in villages of various size groups for each district. For the purpose of easy reference these categories of villages are named as follows.

Population Size :

1.	Less than 200 persons	..	Diminutive village
2.	200-499 persons	..	Very small village
3.	500-999 persons	..	Small village
4	1,000-1,999 persons	..	Medium village
5.	2,000-4,999 persons	..	Large village
6.	5,000-9,999 persons	..	Very large village
7.	10,000 persons & above	..	Special village

[*STATEMENT*

PERCENTAGE OF POPULATION LIVING IN VILLAGES OF VARIOUS POPULATION SIZES

STATE/DISTRICT	Total No. of Villages	Less than 200 (Diminutive)		200—499 (Very Small)	
		Percentage of Population	No. of Villages	Percentage of Population	No. of Villages
1	2	3	4	5	6
ANDHRA PRADESH	**27,221**	**1.37**	**5,352**	**4.25**	**4,383**
1 SRIKAKULAM	2,865	3.11	657	10.92	747
2 VISAKHAPATNAM	4,184	8.67	2,671	6.03	421
3 EAST GODAVARI	1,344	1.42	363	2.40	195
4 WEST GODAVARI	841	0.34	72	1.36	81
5 KRISHNA	939	0.19	32	1.66	81
6 GUNTUR	688	0.07	11	0.35	21
7 ONGOLE (PRAKASAM)	1,005	0.51	91	2.80	135
8 NELLORE	1,050	0.94	114	5.38	207
9 CHITTOOR	1,277	0.49	93	3.20	182
10 CUDDAPAH	896	0.58	70	4.16	166
11 ANANTAPUR	930	0.28	48	1.51	75
12 KURNOOL	898	0.24	33	2.04	91
13 MAHBUBNAGAR	1,459	0.61	85	4.98	246
14 HYDERABAD	951	1.37	111	8.16	219
15 MEDAK	1,228	0.51	56	6.68	251
16 NIZAMABAD	863	0.57	59	5.59	175
17 ADILABAD	1,556	3.59	347	15.31	491
18 KARIMNAGAR	1,051	0.26	41	2.34	118
19 WARANGAL	981	0.72	103	2.03	96
20 KHAMMAM	1,100	2.27	252	7.11	258
21 NALGONDA	1,115	0.31	43	2.66	127

2.3. About two thirds of the rural population of the State lives in medium (1,000-1,999) and large (2,000-4,999) villages. In East Godavari, West Godavari and Guntur districts more than 70% of the population lives in villages with population size of above 2,000 persons each. 60-70% of the population in Srikakulam, Visakhapatnam, Krishna, Ongole (Prakasam), Nellore, Cuddapah, Mahbubnagar, Hyderabad, Medak, Nizamabad and Khammam districts and 70-80% of population in Chittoor, Anantapur, Kurnool, Karimnagar, Warangal and Nalgonda districts lives in medium and large sized villages.

2.4. About 20-25% of population lives in small villages of 500-999 population in Srikakulam, Mahbubnagar, Hyderabad, Medak and Adilabad districts. In the very small villages of less than 500 population about 14% of the people live in Srikakulam and Visakhapatnam districts, 19% in Adilabad district and less than 10% in all other districts. It should be noted that in Visakhapatnam district 9% of the population lives in the villages of less than 200 population. Such villages are found mostly in the Agency areas of Srikakulam, Visakhapatnam, East Godavari, Adilabad and Khammam districts. About 100 each of this type of villages are also found in parts of Nellore, Hyderabad districts and the forest areas of Warangal district.

MENT I

WITH REFERENCE TO TOTAL RURAL POPULATION IN EACH DISTRICT IN 1971

2.5. The following statement gives the percentage of villages and population by class of villages for 1961 and 1971 for Andhra Pradesh State and all the districts. It would be seen that the smaller village groups are losing both in numbers and percentage of population. This is natural, as with the growth of population the villages move up in the classification by population size. It cannot be said, however, whether the growth of rural population has been uniform over all classes of villages.

STATE

PERCENTAGE OF VILLAGES AND POPULATION

STATE/DISTRICT	Year	I—Villages with less than			
		Less than 500		500—999	
		Percentage of No. of Villages in this Class to Total No. of Villages	Percentage of Population in this Class to Total Rural Population	Percentage of No. of Villages in this Class to Total No. of Villages	Percentage of Population in this Class to Total Rural Population
1	2	3	4	5	6
20 KHAMMAM	1961	52.47	12.61	18.68	15.88
Agency		87.45	57.97	9.31	22.03
Plains		26.82	5.48	25.56	14.91
	1971	46.36	9.38	17.73	11.83
Agency		81.41	46.96	14.32	28.03
Plains		20.41	3.58	20.25	9.33
21 NALGONDA	1961	19.48	4.59	29.54	17.36
	1971	15.25	2.97	25.38	12.35

2.6. In Andhra Pradesh the percentage of number of villages has gone down in the first two classes of villages *viz.*, less than 500 and 500-999 compared to 1961. The same phenomena is observed in eleven districts *viz.*, Srikakulam, Ongole (Prakasam), Nellore, Chittoor, Cuddapah, Kurnool, Mahbubnagar, Medak, Nizamabad, Khammam and Nalgonda. A decrease in villages of the first category only is found in Hyderabad and Adilabad districts. In more populated districts like East Godavari, West Godavari, Krishna, Guntur, Karimnagar and Warangal the number of villages has decreased in the first three groups of villages *viz.*, less than 500, 500-999 and 1,000-1,999. In Anantapur district the situation is different – the proportion of villages has decreased in the first and third categories of villages. The proportion of the smallest villages of less than 500 population has increased in Visakhapatnam district due to new villages having sprung up in Paderu taluk during the last decade.

MENT 2 – *Concld.*

BY CLASS OF VILLAGES IN 1961 AND 19 1

2,000 Population		II—Villages with Population of 2,000-9,999				III—Villages with Population of 10,000 and above	
1,000—1,999		2,000—4,999		5,000—9,999		10,000 and above	
Percentage of No. of Villages in this Class to Total No. of Villages	Percentage of Population in this Class to Total Rural Population	Percentage of No. of Villages in this Class to Total No. of Villages	Percentage of Population in this Class to Total Rural Population	Percentage of No. of Villages in this Class to Total No. of Villages	Percentage of Population in this Class to Total Rural Population	Percentage of No. of Villages in this Class to Total No. of Villages	Percentage of Population in this Class to Total Rural Population
7	8	9	10	11	12	13	14
17.95	30.21	9.62	31.71	1.28	9.59	..	..
2.38	10.51	0.87	9.48	..	..	..	..
29.37	33.31	16.03	35.20	2.22	11.10	..	..
19.09	25.28	14.73	39.79	1.82	11.04	0.27	2.68
2.99	11.60	1.07	10.08	0.21	3.34	..	..
31.01	27.39	24.84	44.38	3.01	11.25	0.47	3.10
32.74	35.91	17.35	38.18	0.89	3.97	..	..
34.44	32.08	22.96	44.01	1.79	7.26	0.18	1.33

2.7. The percentage of population living in the first three groups of villages has decreased in the State compared to 1961. The same trend is seen in ten districts *viz.*, Krishna, Kurnool, Anantapur, Cuddapah, Chittoor, Nizamabad, Karimnagar, Warangal, Khammam and Nalgonda. In East Godavari, West Godavari, Guntur and Ongole (Prakasam) districts the proportion of population has come down in the first four categories of villages *viz.*, less than 500, 500-999, 1,000-1,999 and 2,000-4,999. Decrease of population is found only in the first two categories in Srikakulam, Nellore, Mahbubnagar, Hyderabad, Medak and Adilabad districts.

2.8. As there is significant increase in the number of small villages of less than 500 population in Visakhapatnam district the percentage of population in this class of villages has also increased.

TABLE A-IV

TOWNS AND URBAN AGGLOMERATIONS CLASSIFIED BY POPULATION IN 1971 WITH VARIATION SINCE 1901

TABLE A-IV

TOWNS AND URBAN AGGLOMERATIONS CLASSIFIED BY POPULATION IN 1971 WITH VARIATION SINCE 1901

1. Introduction :

1 This is an important Census Table which shows the variation in Urban Population for each town and each class of towns since 1901. The data are not presented in the order of the districts as in Tables A-I., A-II and A-III but they are presented in the order of the population size and class of towns. The towns are classified into the following six classes. The same classification has been used since the 1901 Census.

Class I ..	Population	100,000 and above
Class II ..	,,	50,000 to 99,999
Class III ..	,,	20,000 to 49,999
Class IV ..	,,	10,000 to 19,999
Class V ..	,,	5,000 to 9,999
Class VI ..	,,	Less than 5,000

Class I towns are termed as cities.

1.2. An alphabetical list of all the towns is given at the end of this note to facilitate reference to the entries in the Table. The total urban population of the State for each Census since 1901 to 1971 is given at the beginning of the Table and it is followed by similar figures for Class I total and the towns included in Class I arranged in the order of their population size. Then the total for Class II towns followed by figures for each town included in that class arranged in the order of population and so on are given. The population figures given for the earlier Censuses in this Table are as recorded in the earlier Censuses and not adjusted to conform to the present jurisdictions.

1.3. This Table also gives the particulars of status, area, population and variation in population from Census to Census of each town from 1901. The civic status of all the towns has been indicated by abbreviations against each town in column 5 as 'M' for Municipality, 'P' for Panchayat etc. Where there is no civic status for any urban unit the position has been indicated accordingly.

1.4. The classification of towns in this Table is made on the basis of their 1971 population. Many towns have changed their class since 1901. The class totals shown in the Table for each of the previous Censuses are not the totals of all towns now included in that class but they are the totals of population of all towns which were included in that class in that Census.

1.5. As the Table shows the growth of urban population alone, the figures for previous Censuses against towns which were not treated as towns in those Censuses are not given. If any place was treated as a town in some Censuses and declassified as rural in subsequent Censuses and again now classified as town then in such cases the population particulars are given only for those Censuses in which it was a town and the word "declassified" is recorded against other Census years in which it was declassified.

2. Town—Definition :

2.1. The definition of town is given in the fly leaf to Table A-I. To state briefly the following places were recognised as towns in the 1971 Census.

(a) all places with a Municipality, Corporation or Cantonment or Notified Town Area

(b) all other places which satisfied the following criteria

(i) a minimum population of 5,000

(ii) at least 75% of the male working population was non-agricultural

(iii) a density of population of atleast 400 persons per sq. km. (*i.e.*, 1000 per sq. mile).

2.2. The following 4 places although having less than 5,000 population each were treated as towns in the 1971 Census because of their other predominant urban characteristics.

(1) Upper Sileru project site camp township	Visakhapatnam district
(2) Shankarampet	Medak district
(3) Srisailam project left flank colony	Mahbubnagar district
(4) Pochampad project left flank colony	Adilabad district

2.3. The new concept of Urban Agglomeration introduced in the 1971 Census has already been explained in detail in the introduction to this volume.

2.4. Four Urban Agglomerations were recognised for the 1971 Census in Andhra Pradesh. The constituent units of each of these four Urban Agglomerations are given below :

I. *Hyderabad City Urban Agglomeration*

(a) Hyderabad Municipal Corporation
(b) Secunderabad Cantonment
(c) Malkajgiri
(d) Alwal
(e) Uppal Khalsa
(f) Balanagar

(g) Fatehnagar
(h) Macha Bolaram
(i) Osmania University
(j) Lalaguda
(k) Kukatpalle
(l) Moosapet
(m) Bowenpalle
(n) Zamistanpur

II. *Visakhapatnam City Urban Agglomeration*

(a) Visakhapatnam Municipality
(b) Gopalapatnam town
(c) Gajuvaka out-growth

III. *Vijayawada City Urban Agglomeration*

(a) Vijayawada Municipality
(b) Patamata
(c) Gunadala

IV. *Rajahmundry City Urban Agglomeration*

(a) Rajahmundry Municipality
(b) Rajahmundry Non-Municipal area

2.5. It may be stated here that constitution of Urban Agglomerations has been done in the following situations.

(1) A city with continuous out-growth (the part of out-growth being out of the statutory limits but falling within the boundaries of the adjoining village or villages)

(2) One town with similar out-growth or two or more adjoining towns with their out growths as in (1) above and

(3) A city and one or more adjoining towns with their out-growths all forming a continuous spread.

2.6. In this State no towns other than cities were treated as Urban Agglomerations.

2.7 Appendix I to this Table gives the particulars of area and population of newly added towns in 1971 Census and also the list of declassified towns with the particulars of area and population. A list showing the towns having less than 5,000 population which are treated as towns for the first time in 1971 is also added to this Appendix.

2.8. A list of all such towns which had undergone changes in jurisdiction during 1961-'71 together with the area and population of each such town both in 1961 and 1971 is given in Appendix II to this Table. The reasons for the changes in area are also given in column 7 of this Appendix.

3. Changes in the Class of Towns :

3.1. It is interesting to see how the towns have fared in the classification according to size of population from Census to Census. The following statement shows the changes in the classification of each city or town from 1901 to 1971.

STATEMENT I

CHANGES IN CLASSIFICATION OF TOWNS 1901 TO 1971

Name of the Town	1971	1961	1951	1941	1931	1921	1911	1901
1	2	3	4	5	6	7	8	9
CLASS I TOWNS (CITIES)								
1 Hyderabad City ..	I	I	I	I	I	I	I	I
2 Visakhapatnam ..	I	I	I	II	II	III	III	III
3 Vijayawada ..	I	I	I	II	II	III	III	III

207	*Pochampad Project Township Left Flank Colony*	VI	..	..	..	..	..	..	..

Note: Towns treated as such for the first time in 1971 Census are shown in italics.

3.2. Only Hyderabad city has been a Class I town since 1901 in Andhra Pradesh. In 1901 *i.e.*, about seventy years ago Visakhapatnam, Vijayawada, Guntur, Rajahmundry, Kakinada, Kurnool, Nellore, Eluru and Bandar cities were only Class III towns; Nizamabad and Tenali which have become cities for the first time in 1971 were only Class IV towns in 1901. Warangal was constituted as a Class II town in 1931 by the merging of Mathwada, Hanamkonda, Warangal fort and Urs Karimabad towns.

3.3. Among the present 17 Class II towns, Khammam was recognised as a town in 1911, Guntakal in 1921, Bheemavaram in 1931 and Kothagudem in 1941. In 1901, Vizianagaram and Adoni were Class III towns; Proddatur, Cuddapah, Tirupati, Nandyal, Chittoor, Anakapalle, Chirala, Ongole and Mahbubnagar were Class IV towns; Anantapur and Gudivada were only Class V towns.

3.4. Out of 59 Class III towns now in the State, only Bobbili became a Class III town in 1931, four towns *viz.*, Srikakulam, Samalkot, Salur and Peddapuram in 1941, fifteen in 1951, seventeen in 1961 and twenty-two in 1971. As in the case of Class I and Class II towns, Class III towns also have been growing gradually.

3.5. There are 76 Class IV towns in the State and many have been passing through ups and downs during the past 70 years. A few of them were declassified even at some stage and regained the status of towns later. Narasapatnam, Yellandu, Vijayapuri North * attained the status of Class III towns but came down to Class IV again. Two towns Palakonda and Venkatagiri have been continuing as Class IV towns since 1901.

3.6. There are 38 Class V towns in the State. As in the case of Class IV towns there are many ups and downs among Class V towns. A few of them were declassified at some Censuses. Vemulawada and Penukonda have been continuing as Class V towns since 1901.

3.7 All the four Class VI towns are newly added in 1971. Among them Shankarampet had been a town in 1951 Census also but was declassified into rural in 1961. The other 3 towns in this class are Irrigation or Hydel project towns.

4. Number of Towns of each class from 1901-1971 :

4.1. The following statement shows the number of towns in each class from 1901-1971. Two towns *viz.*, Nizamabad and Tenali became Class I towns (cities) at the present Census. Upto 1941 there was only one Class I town *viz.*, Hyderabad in the whole of Andhra Pradesh. In 1951 five more towns *viz.*, Vijayawada, Guntur, Visakhapatnam, Warangal and Rajahmundry have developed into cities. Kakinada, Eluru, Nellore, Machilipatnam and Kurnool which was the capital of Andhra State attained the status of cities in 1961.

STATEMENT 2

NUMBER OF TOWNS OF EACH CLASS DURING 1901—1971

Class	Number of Towns							
	1971	1961	1951	1941	1931	1921	1911	1901
1	2	3	4	5	6	7	8	9
Class I (Cities) ..	13	11	6	1	1	1	1	1
Class II	17	8	10	10	8	2	1	..
Class III	59	51	34	21	11	13	12	11
Class IV	76	71	82	55	57	46	45	44
Class V	38	70	116	121	78	76	70	60
Class VI	4	1	43	4	21	15	4	..
Total ..	207	212	291	212	176	153	133	116

4.2. In the 1971 Census 40 new towns were added to the list of towns in the State. Of these 40 towns, 8 towns are included in the Urban Agglomerations of Visakhapatnam, Vijayawada, Rajahmundry and Hyderabad. Among the remaining 32 towns, 3 are Class III, 10 Class IV, 15 Class V and 4 Class VI towns.

4.3. 37 towns of 1961 Census have been declassified in 1971. Of these 37 towns, 6 were in Class IV, 29 in Class V and two in Class VI in 1961.

4.4. There had been a noticeable decrease in the total number of towns during 1961 Census compared to 1951. The decrease was a result of the changed definition of town adopted at the 1961 Census and many places of predominantly rural nature were eliminated, which were previously treated as towns. Similarly in 1971 a good number of small places which are almost completely rural in character but were treated as towns earlier have been declassified and almost an equal number of places which were treated as rural in the last Census were recognised as urban in view of their predominantly urban characteristics.

4.5. The following statement shows the percentage of towns in each class to total number of towns and percentage of population in each class to total urban population from 1901 to 1971.

STATEMENT 3

PERCENTAGE OF TOWNS IN EACH CLASS TO TOTAL NUMBER OF TOWNS AND PERCENTAGE OF POPULATION IN EACH CLASS TO TOTAL URBAN POPULATION FROM 1901 TO 1971

Class	1971		1961		1951		1941		1931		1921		1911		1901

Class VI	1.93	0.18	0.47	0.06	14.78	2.31	1.89	0.27	11.93	2.92	9.80	2.63	3.01	0.64	..	..

4.6. The proportion of population living in cities *i.e.*, Class I to total urban population has decreased from 24.38% in 1901 to 17.33% in 1931 but from then onwards it increased and reached 48.36% in 1971. Similarly the percentage of number of Class I towns decreased from 0.86 in 1901 to 0.47 in 1941 obviously because there was only one Class I town upto that time while that total number of towns gradually increased from Census to Census and from 1941 it increased to 6.28 in 1971. Towns with population of 20,000 persons or more are generally used for international comparisons. The proportion of population living in the first three classes of towns to total urban population in Andhra Pradesh has grown from 45% in 1901 to 83% in 1971. The above Statement illustrates the gradual increase of bigger towns from decade to decade and the interesting way the towns develop quickly from the initial stages to Class IV or Class III towns and after a period of consolidation at this stage, enter into the final stage of cities, after a short duration as Class II towns.

4.7 The following statement shows the percentage of areas of towns in each class to total urban area of the State and density of population per sq. km. in each class for 1961 and 1971 Censuses. The density of population increases as towns move from lower to higher classes. This happens because, while the population of a town increases by fresh in-migration etc., the area does not alter much. Hence the obvious increase in the density of population in towns which moved from the lower to the higher classes.

STATEMENT 4

PERCENTAGE OF AREA OF TOWNS IN EACH CLASS TO TOTAL URBAN AREA OF THE STATE AND DENSITY OF POPULATION PER URBAN SQUARE KILO METRE IN EACH CLASS

Class	1971		1961	
	Percentage of area to Total Urban area	Density per Sq. Km.	Percentage of area to Total Urban area	Density per Sq. Km.
1	2	3	4	5
Class I	20.52	5,562	12.46	5,738
Class II	7.85	4,015	4.48	3,170
Class III	28.61	1,725	20.74	1,958
Class IV	29.32	1,079	34.49	769
Class V	13.54	660	27.83	526
Class VI	0.16	2,616	Not available	Not available

4.8. In 1971 the density of population in Class VI towns is more than that in the Class III, IV and V towns. This is because of large concentration of labour, construction and supervisory staff at the project sites of 3 of the 4 Class VI towns.

4.9. In 1971, Class IV towns account for a larger proportion of area to total urban area of the State as in 1961. The proportion of area of Class I towns increased from 12.46% in 1961 to 20.52% in 1971 due to the addition of two new towns *viz.*, Tenali and Nizamabad in this class. Similarly there is an increase in the proportion of area covered by Class II and Class III towns. The number of towns in these two classes increased from 8 and 51 in 1961 to 17 and 59 respectively in 1971.

† (i) Hyderabad city was an artificial unit created for Census purposes and it included Hyderabad Municipal Corporation, Secunderabad Municipal Corporation and Secunderabad Cantonment till 1951. For the years 1901 to 1921 separate population of Secunderabad Cantonment is not available and hence the combined population of Hyderabad Municipal Corporation and Secunderabad Cantonment has been shown against Hyderabad Municipal Corporation.

(ii) In 1931 Census the following towns were merged in Hyderabad Municipality.

(a) Mahammadnagar Municipality with a population of 1,443 (718 M:, 725 F) in 1921 and 1,481 (740 M:, 741 F) in 1911.

(b) Chadarghat Municipality with a population of 149, 348(77, 394 M:, 71,954 F)in 1921, 161,600 (82,853 M:, 78,747 F) in 1911 and 142,263 (here sex break-up not available) in 1901.

(iii) In 1941 Census Hyderabad City Municipality was made into a Corporation and Residency Bazar with a population of 14,472 (8,116 M:, 6,356 F) in 1931, 15,543 (8,227 M; 7,316 F) in 1921, 17,971 (9,504 M:, 8,467 F) in 1911 and 16,904 (sex break-up not available in 1901, was merged in Hyderabad city Corporation.

TABLE A-IV—*Concld.*

TOWNS AND URBAN AGGLOMERATIONS CLASSIFIED BY POPULATION

IN 1971 WITH VARIATION SINCE 1901

Sl. No.	Name of Town/ Urban Agglomeration	Name of District	Year	Status of Town	Area in Sq. Kms.	Persons	Decade variation	Percentage decade variation	Males	Females
1	2	3	4	5	6	7	8	9	10	11
3	*Srisailam Project Left Flank Colony* ..	MAHBUBNAGAR ..	1971	..	N.A.	3,128	..	..	1,704	1,424
4	*Pochampad Project Township Left Flank Colony* ..	ADILABAD ..	1971	..	0.10	2,439	..	..	1,423	1,016

Towns treated as such for the first time in 1971 Census are printed in italics

Towns treated as such for the first time in 1961 Census and which continue as towns in 1971 Census are marked with an asterisk (*) on the left side.

The following abbreviations have been used for the status of a city or town from 1901 to 1971.

M.C.: Municipal Corporation; M: Municipality; P.B.: Panchayat Board; P: Panchayat; C.M.: City Municipality; T.M.: Town Municipality; T.C.: Town Committee.

(..) has been shown under column 5 against the concerned Census year in respect of towns whose civic status is not determined.

The following places which are treated as towns at 1971 Census were not towns in 1961 Census but were treated as towns in Censuses earlier to 1961 as shown below.

Name of the Town	Census year earlier to 1961 in which treated as towns
(1)	(2)
Akiveedu	1951
Challapalle	1951
Shankarampet	1951
Sirpur	1951 and 1931
Palwancha	1941 and 1931
Parasamba *alias* Kasibugga	1951

The area figures for towns under column 6 are given only for 1961 and 1971 and not for the earlier Censuses, as they are not available. N.A. is shown in column 6 wherever the area figures are not available. The area figures of certain towns given in 1971 are varying from the figures given at 1961 Census although there are no jurisdictional changes. Such variations are due to revised computation.

The 1961 towns Kagaznagar and Vijayapuri have been bifurcated and each treated as two separate towns at the 1971 Census *i.e.*, (*i*) Kagaznagar Municipality and Kagaznagar Non-Municipal area, (*ii*) Vijayapuri North and Vijayapuri South.

The total area of all Towns (under all Classes) comes to 3,560.08 Sq. Kms. in Table A-IV, whereas the Total Urban Area given in Table A-I (Union/State) is 3,561.8 Sq. Kms. The difference of 1.72 Sq. Kms. is due to the fact that the area shown in Table A-I has been derived by adding up the Urban Area of each town within a taluk and rounding the same up to one place of decimal.

N.A.: Not Available.

The Towns Malkapuram and Mokhasa Mutyalampadu of 1961 Census have been merged with Visakhapatnam City and Vijayawada City respectively.

* These are newly sprung up Project Towns after 1961 Census.

† The 1971 population of these declassified towns given under col. 8 has been arrived by adding the 1971 population of all the independent rural revenue villages into which they have relapsed at the present Census and not merely of the single village that went by the name of the original Town.

‡ Kagaznagar which was treated as town in 1951 Census and continued as such till 1961 has been bifurcated into two different towns *viz.*, Kagaznagar Non-Municipal area and Kagaznagar Municipality in 1971 Census.

EXPLANATORY NOTE A TO APPENDIX I

TABLE A-V

STANDARD URBAN AREAS

TABLE A-V

STANDARD URBAN AREAS

1. This is a new Table introduced for the 1971 Census. Standard Urban Area is a new concept developed at this Census and it represents spatially contiguous territory of urban-rural settlements. It effectively tackles the problem of furnishing data for the next 20 years or so in respect of urbanisable areas outside the jurisdiction of the existing towns. Since the administrative boundaries of statutory towns changed from time to time the comparability of data from Census to Census was difficult in the past. Standard Urban Area will have a fixed area covering a large core town or a city as well as the adjoining areas delineating contiguous rural and urban areas which are under intensive influence or which are likely to be under intensive influence of the core town. The core town will generally have a population of 50,000 or above. Standard Urban Areas may have any or all of the following characteristics :

(a) Predominant urban land use ;

(b) Intensive inter-action with the urban centres as reflected in commutation for the purposes of work and secondary education facilities ; extension of city bus service ; sale of commodities like milk, dairy products, vegetables (other than those transported by rail or truck-haul) and purchase of food-grains, clothes and general provisions etc., by the consumers directly.

(c) Anticipated urban growth as a result of locational decisions relating to industry, market, transport and communication, administrative and servicing functions.

(d) Existence of big villages with a large proportion of working force engaged in non-agricultural industrial categories.

2. The idea is that it should be possible to provide comparable data for a definite area of urbanisation continuously for three decades which would give a meaningful picture. This concept is different from that of Town-Group adopted in 1961 or the Urban Agglomeration being adopted in 1971. The Town-Group was a cluster of non-contiguous urban units around a large town / city. The Urban Agglomeration has exclusively urban composition while the Standard Urban Area has both urban and rural composition.

3. The following 29 towns with their neighbouring villages have been delineated as Standard Urban Areas in Andhra Pradesh for the 1971 Census.

1. Hyderabad
2. Vijayawada
3. Guntur
4. Visakhapatnam
5. Warangal
6. Rajahmundry
7. Kakinada
8. Eluru
9. Nellore
10. Machilipatnam (Bandar)
11. Kurnool
12. Nizamabad
13. Tenali
14. Vizianagaram
15. Adoni
16. Kothagudem
17. Anantapur
18. Proddatur
19. Cuddapah
20. Guntakal
21. Chittoor
22. Anakapalle
23. Chirala
24. Gudivada
25. Bheemavaram
26. Nandyal
27. Srikakulam
28. Tirupati
29. Mahbubnagar

4. All the above towns have a population of 50,000 or above at the 1971 Census except Srikakulam town. Although Srikakulam town would have normally recorded more than 50,000 population at the 1971 Census, it could not reach this target due to the exclusion of Gujarathipet and Fazulbegpet areas from Srikakulam Municipal limits after the 1961 Census. Although the population mark of 50,000 has not been reached by this town at the 1971 Census yet it is found necessary to delineate it as Standard Urban Area due to certain other special factors, like its importance as district headquarters and the signs of development shown by this town.

In this Table only basic data like area, density, occupied residential houses, houseless and institutional population, total population and population according to the last two Censuses relating to the Standard Urban Areas are presented. The names of each of the constituent units of these 29 Standard Urban Areas are given below :

Name of the Standard Urban Area	*Constituent Units*
1	2
SRIKAKULAM DISTRICT	
Srikakulam ..	*Urban Components :*
	1. Srikakulam
	Rural Components :
	1. Ragolu
	2. Akkivaram
	3. Gudem
	4. Patrunivalasa
	5. Balaga
	6. Fazulbegpeta
	7. Gujarathipeta
	8. Patha Srikakulam
	9. Arasavilli
	10. Peddapadu
	11. Voppangi

Name of the Standard Urban Area	*Constituent Units*
1	2
VISAKHAPATNAM DISTRICT	
Anakapalle ..	*Urban Components:* 1. Anakapalle *Rural Components:* 1. Thummapala 2. Vummalada 3. Pishinikada 4. Kasimkota
Visakhapatnam ..	*Urban Components:* 1. Visakhapatnam 2. Gopalapatnam 3. Gajuvaka out-growth *Rural Components:* 1. Venkatapathirajupet 2. Venkatapuram 3. Vepagunta 4. Adivivaram 5 Yendada 6. Chinagadila 7. Mindi 8. Akkireddipalem 9. Thungalam 10. Nathayyapalem 11. Fakeertekya 12. Vadlapudi 13. Chinagantyada 14. Thokada 15. Yarada
Vizianagaram ..	*Urban Components:* 1. Vizianagaram 2. Kanapaka 3. Gajularega *Rural Components:* 1 Venugopalapuram 2. Kukalametta (Laxmipuram) 3. Vizianagaram Bit. 2 4. Jammunarayanapuram 5. Dharmapuri 6. Vizianagaram Bit. 1 7. Vantithadi Agraharam
EAST GODAVARI DISTRICT	
Kakinada ..	*Urban Components:* 1. Kakinada *Rural Components:* 1. Timmapuram 2. Ramanayyapeta 3. Suryaraopeta 4. Sarpavaram 5. Madhavapatnam 6 Ganganapalle 7. Turangi

Name of the Standard Urban Area	*Constituent Units*
1	2
EAST GODAVARI DISTRICT—*Concld.*	
Rajahmundry ..	*Urban Components:* 1. Rajahmundry (M) 2. Rajahmundry Non-municipal area 3. Dowleshwaram (all of East Godavari Dist.) 4. Kovvur (West Godavari District) *Rural Components:* 1. Torredu 2. Katheru 3. Morampudi 4. Hukumpeta 5. Bommuru
WEST GODAVARI DISTRICT	
Bheemavaram ..	*Urban Components:* 1. Bheemavaram *Rural Components:* 1. Chinamiram 2. Rayalam 3. Pedamiram 4. Vissakoderu
Eluru ..	*Urban Components:* 1. Eluru *Rural Components:* 1. Vatluru 2. Sanivarapupeta 3. Satrampadu 4. Gavaravaram 5. Eluru (R) 6. Madepalle 7. Komadavolu 8. Tangellamudi
KRISHNA DISTRICT	
Gudivada ..	*Urban Components:* 1. Gudivada *Rural Components:* 1. Nagavarappadu 2. Valivartipadu 3. Gudivada (R) 4. Gangadharapuram 5. Billapadu 6. Mandapadu 7. Pedayerukapadu 8. Bethavolu

Name of the Standard Urban Area	*Constituent Units*
1	2
KRISHNA DISTRICT—*Concld.*	
Machilipatnam ..	*Urban Components:* 1. Machilipatnam (Bandar) *Rural Components:* 1. Kara Agraharam 2. Chilakalapudi 3. Bandar (R) 4. Machavaram (R) 5. Arisepalle 6. Sultanagaram (Gollapalem
Vijayawada ..	*Urban Components:* 1. Vijayawada 2. Patamata 3. Gunadala (all of Krishna District) 4. Tadepalle (Guntur District) *Rural Components:* 1. Gollapudi 2. Bhavanipuram 3. Ramavarappadu 4. Prasadampadu 5. Kanuru 6. Enikapadu 7. Yenamalakuduru (all of Krishna District) 8. Undavalli (Guntur District)
GUNTUR DISTRICT	
Guntur ..	*Urban Components:* 1. Guntur *Rural Components:* 1. Pedapalakalur 2. Gorantla 3. Takkellapadu 4. Agathavarappadu 5. Guntur (R) 6 Nallapadu (R) 7. Ankireddipalem 8. Etukur 9. Budampadu
Tenali ..	*Urban Components:* 1. Tenali *Rural Components:* 1. Kathevaram 2. Tenali 3. Angalakuduru 4. Pinapadu 5. Pedaravur 6. Chinaravur

Name of the Standard Urban Area	*Constituent Units*
1	2
ONGOLE (PRAKASAM) DISTRICT	
Chirala ..	*Urban Components:* 1. Chirala *Rural Components:* 1. Chirala (R) 2. Perala (R)
NELLORE DISTRICT	
Nellore ..	*Urban Components:* 1. Nellore 2. Kovur *Rural Components:* 1. Nellore Bit 1 2. Nellore Bit. 2 3. Kondayapalem 4. Allipuram 5. Padarupalle 6. Vedayapalem 7. Gangavaram 8. Pothireddipalem 9. Padugupadu
CHITTOOR DISTRICT	
Chittoor ..	*Urban Components:* 1. Chittoor *Rural Components:* 1. Murakambattu 2. Doddipalle 3. Timmasamudram 4. Mangasamudram 5. Chittoor (R) 6. Iruvaram 7 Greamspet 8. Gandlapalle 9. Kattamanchi
Tirupati ..	*Urban Components:* 1. Tirupati 2. Renigunta 3. Tirupati Non-municipal-area *Rural Components:* 1. Peruru 2. Thummalagunta 3. Avillala Vedantapuram 4. Akkarampalle 5. Thimminaidupalle 6. Mangalam 7. Karakambadi 8. Thukkivakam 9. Tiruchanoor

Name of the Standard Urban Area	*Constituent Units*
1	2
CUDDAPAH DISTRICT	
Cuddapah ..	*Urban Components:* 1. Cuddapah *Rural Components:* 1 Patha Cuddapah 2. Chinna Chowk (R) 3. Gudur (R) 4. Akkayapalle 5. Nagarajupet (R) 6. Viswanathapuram 7. Putlampalle 8. Mamillapalle 9. Utukur 10. Chemmumiahpeta
Proddatur .	*Urban Components:* 1. Proddatur *Rural Components:* 1. Dorasanipalle 2. Rameswaram (R) 3. Bollavaram (R) 4. Kothapalle
ANANTAPUR DISTRICT	
Anantapur ..	*Urban Components:* 1. Anantapur *Rural Components:* 1. Papampeta (R) 2. Anantapur (R) 3. Kakkalapalle (R) 4 Raptad 5 Itikalapalle
Guntakal ..	*Urban Components:* 1. Guntakal *Rural Components:* 1. Guntakal (R) 2. Kasapuram
KURNOOL DISTRICT	
Adoni ..	*Urban Components:* 1. Adoni *Rural Components:* 1 Isvi 2. Sudapuram (R)
Kurnool ..	*Urban Components:* 1. Kurnool

Name of the Standard Urban Area	*Constituent Units*
1	2
KURNOOL DISTRICT—*Concld.*	
Kurnool—*Concld.*	*Rural Components:* 1. Peddapadu 2. Mamidalapadu (R) 3. Kallur (R) 4. Dinnedevarapadu

PRIMARY CENSUS ABSTRACT

PRIMARY CENSUS ABSTRACT

Introduction :

1.1. The Primary Census Abstract gives the basic data of the 1971 Census for the State as well as for each district and taluk with rural and urban break up and also for all cities and towns. For each unit the Table gives the area in Sq. Kms. number of occupied Census houses, number of Census households, total population, population of Scheduled Castes and Scheduled Tribes, number of literate and educated persons and number of workers and non-workers. The workers are further classified and shown separately under the nine industrial categories of workers. The Table is presented in two parts *viz.*, Union Primary Census Abstract and State Primary Census Abstract. In the Union Primary Census Abstract the data are presented upto district level only while in the State Primary Census Abstract the data are presented upto taluk/town level. Data are presented for Urban Agglomerations also. Under each taluk the individual towns have been arranged in the order of their location code numbers.

1.2. Primary Census Abstracts showing similar summary figures for each village and ward-wise for each town are published in the District Census Handbooks.

1.3. The area figures of the districts are supplied by the Surveyor General India. The State Director of Survey Settlements and Land Records supplied the area figures for taluks. The area figures of the urban units are obtained from the concerned local authorities. The rural area of a district is derived by subtracting the total urban area of the district from the total area of the district. The total of the area figures of all the taluks in the district when added will not tally with the district area figures because the former represent land use area figures supplied by the State Survey Department while the district area adopted is as furnished by the Surveyor General of India.

2. Occupied Residential Houses :

2.1. A Census house is defined at the 1971 Census as a structure or a part of a structure having a separate entrance, whether that entrance leads directly to the street or to a common staircase or a court-yard or a gate. Thatched huts and tents are also treated as structures and therefore also as houses.

2.2. Houses are classified by their use, *e.g.*, as residence, shops, workshops, temples, schools, offices, etc. Some houses are used partly for residential purposes and partly as shops, workshops, offices etc. They are classified as shop-*cum*-residence, workshop-*cum*-residence, office-*cum*-residence etc. Every house where one or more persons were found to be residing (irrespective of the house being used only as a residence or partly as a residence and partly for some other purpose) is classified as an occupied residential house.

2.3. Column 4 of the Primary Census Abstract shows the number of occupied residential houses for each unit. This number includes garages, depots or shops also if one or more persons (may be drivers, watchmen etc.) were found to be residing in them at the time of the Census. It does not on the other hand include houses which are residential but which at the time of the Census were either vacant and which are used completely for non-residential purposes and where no persons were found to be residing.

3. Households :

3.1. Column 5 shows the number of households for each unit. The "household" is slightly different from a 'Family'. A "household" is a group of persons who commonly live together in the same house and take their meals from a common kitchen unless exigencies of work prevented any of them from doing so. A domestic servant residing and eating at the employer's house is a member of the household. Similarly a friend or a guest (related or unrelated) residing and eating with the host and who has been away from his own house during the entire Census period is treated as a member of the household. On the other hand a son or a daughter residing elsewhere in a hostel is not treated as a member of the household.

3.2. The following statement shows the number of households for every 100 occupied residential houses separately for total, rural and urban areas for the State and for each district.

STATEMENT 1

State/District	Number of households per 100 houses		
	Total	Rural	Urban
1	2	3	4
ANDHRA PRADESH ..	**110**	**108**	**123**
1 Srikakulam	102	102	105
2 Visakhapatnam	107	103	122
3 East Godavari	124	120	149
4 West Godavari	123	119	147
5 Krishna	123	117	143
6 Guntur	112	109	125
7 Ongole (Prakasam)	106	105	110
8 Nellore	103	103	105
9 Chittoor	105	103	121
10 Cuddapah	105	104	107
11 Anantapur	104	104	103
12 Kurnool	104	103	105
13 Mahbubnagar	104	103	109
14 Hyderabad	121	107	130
15 Medak	113	113	121
16 Nizamabad	113	111	121
17 Adilabad	105	103	111
18 Karimnagar	110	109	122
19 Warangal	110	108	125
20 Khammam	107	105	119
21 Nalgonda	107	107	117

3.3. There are 110 households per 100 occupied residential houses in the State as a whole. Thus about 10 per cent of households are sharing houses with other households. In East Godavari, West Godavari, Krishna and Hyderabad districts over 20 to 24 per cent of households are sharing houses with other households. Relatively more congestion is apparent both in the rural and urban areas of the first three mentioned districts. The urban areas of East Godavari district have recorded the highest proportion of 149 Census households per 100 Census houses. The urban areas of West Godavari, Krishna, Hyderabad, Guntur and Warangal districts come next in order. Such congestion is normally expected in the thickly populated and the highly developed deltaic regions of the State where land is valuable and there is great pressure on house sites and housing. In Hyderabad district the high proportion is due to congestion in the capital city of Hyderabad.

3.4. The following statement shows the density of households *i.e.*, the number of households per sq. km. for total, rural and urban areas of the State and for each district.

STATEMENT 2

Density of Households per Square Kilometre in Rural and Urban areas of the State and District

State/District		Total	Rural	Urban
1		2	3	4
	ANDHRA PRADESH ..	32.05	26.28	475.26
1	Srikakulam	56.18	51.22	316.51
2	Visakhapatnam	43.58	34.86	566.05
3	East Godavari	60.58	50.11	533.93
4	West Godavari	65.87	55.38	638.12
5	Krishna	60.89	45.62	568.80
6	Guntur	54.07	41.44	798.31
7	Ongole (Prakasam)	22.68	20.13	297.79
8	Nellore	26.15	22.18	713.37
9	Chittoor	28.71	25.07	354.28
10	Cuddapah	21.02	18.22	355.84
11	Anantapur	20.49	17.13	192.68
12	Kurnool	19.95	16.07	776.05
13	Mahbubnagar	20.23	18.56	222.68
14	Hyderabad	65.86	23.73	996.61
15	Medak	29.03	26.56	359.75
16	Nizamabad	33.77	28.72	444.76
17	Adilabad	16.14	13.53	276.37
18	Karimnagar	35.38	32.09	222.84
19	Warangal	29.23	25.46	576.32
20	Khammam	16.81	14.43	253.97
21	Nalgonda	25.81	24.15	370.29

3.5. There are 32 households per sq. kilometre on an average in the State. The highest density of 66 households per Sq. Km. is found in Hyderabad district while the lowest density of 16 households is recorded in Adilabad district – both in the Telangana Region.

3.6. In Andhra Region the highest density is found in West Godavari district with 66 households per Sq. Km. followed by Krishna (61), East Godavari (61), Srikakulam (56) and Guntur (54) districts. Visakhapatnam district is having the lowest proportion of only 44 households in this Region. This may be due to large tracts of Agency areas in this district.

3.7. In Rayalaseema Region the highest density of 29 households per Sq. Km. is observed in Chittoor district.

3.8. In the Telangana Region Karimnagar district with 36 households per Sq. Km. is having the second highest density of households followed by Nizamabad (34), Warangal (29) and Medak (29) districts. These four are comparatively prosperous districts in the Telangana Region. The highest density of about 66 households per Sq. Km. in Hyderabad district is entirely on account of Hyderabad city. The two very low densities in Adilabad and Khammam districts are due to the vast forest lands in these districts.

3.9. The pattern of density of households reflects in a way the general economic condition of the area as well. The better developed deltaic districts show higher density and the less developed districts with vast areas of uninhabited areas obviously show a lower density. In the delta districts where almost all the land is under cultivation, the area available for house sites is not much and the small area that can be spared is inhabited by a large number of households.

3.10. Valid comparison of urban densities is difficult because no uniform standards are adopted in reckoning the actual urban area of each unit. In the case of surveyed Municipal towns only the built up area may have been considered as the area of the urban unit, while in respect of Panchayat towns and towns where no town survey had been conducted, the entire area falling within the village boundaries including the agricultural lands may have been taken as the area of the urban unit. However, the urban densities are higher in districts with large cities or a larger number of towns. Hyderabad again takes the first place in this respect also, followed by Guntur, Kurnool and Nellore districts.

4. Scheduled Castes and Scheduled Tribes :

4.1. The total population particulars of Scheduled Castes are given in columns 9, 10 and 11 and those of Scheduled Tribes in columns 12, 13 and 14 in the Primary Census Abstract by sex for the units indicated in columns 1 and 2.

4.2. Articles 341 and 342 of the Constitution lay down that for certain purposes the President can schedule a number of castes and tribes respectively for specified areas of the country. In exercise of the powers conferred by these Articles of the Constitution, the President of the Indian Union has scheduled certain castes and tribes in Andhra Pradesh. The Scheduled Castes are listed in Part I under 'Andhra Pradesh' to Schedule I of the Scheduled Castes and Scheduled Tribes lists (Modification Order 1956) published in the Notification of the Ministry of Home Affairs, New Delhi dated 29th October, 1956. The list of Scheduled Castes in Andhra Pradesh is given below :

Note : Scheduled Castes are recognised only amongst Hindus and Sikhs. Converts to other religions as Christianity or Islam or Buddhism cease to belong to any Scheduled Caste.

(1) Throughout the State :

(1) Chalavadi
(2) Chamar, Mochi or Muchi
(3) Madiga
(4) Mala

(2) Throughout the State except Hyderabad, Mahbubnagar, Adilabad, Nizamabad, Medak, Karimnagar, Warangal, Khammam and Nalgonda districts :

(1) Adi Andhra
(2) Adi Dravida

(3) Arundhatiya
(4) Bariki
(5) Bavuri
(6) Chachati
(7) Chandala
(8) Dandasi
(9) Dom, Dombara, Paidi or Pano
(10) Ghasi, Haddi or Relli Chachandi
(11) Godagali
(12) Godari
(13) Gosangi
(14) Jaggali
(15) Jambuvulu
(16) Madasi Kuruva or Madari Kuruva
(17) Mala Dasu
(18) Madiga Dasu and Mashteen
(19) Matangi
(20) Mundala
(21) Paky or Moti
(22) Pambada or Pambanda
(23) Pamidi
(24) Panchama or Pariah
(25) Relli
(26) Samban
(27) Sapru
(28) Thoti

(3) In the districts of Hyderabad, Mahbubnagar, Adilabad, Nizamabad, Medak, Karimnagar, Warangal, Khammam and Nalgonda :

(1) Anamuk
(2) Aray (Mala)
(3) Arwa Mala
(4) Beda (Budga) Jangam
(5) Bindla
(6) Byagara
(7) Chambhar
(8) Dakkal (Dokkalwar)
(9) Dhor
(10) Ellamalwar (Yellamalawandlu)
(11) Holeya
(12) Holeya Dasari
(13) Kolupulvandlu
(14) Mahar
(15) Mala Dasari
(16) Mala Hannai
(17) Malajangam
(18) Mala Masti
(19) Mala Sale (Netkani)
(20) Mala Sanyasi
(21) Mang
(22) Mang Garodi
(23) Manne
(24) Mashti
(25) Mehtar
(26) Mitha Ayyalvar
(27) Samagara
(28) Sindhollu (Chindollu)

4.3. The Scheduled Tribes in Andhra Pradesh are those listed in Part I under 'Audhra Pradesh' to Schedule II of the Scheduled Castes and Scheduled Tribes lists (Modification Order 1956) published in the same Notification of the Ministry of Home Affairs, New Delhi, dated 29th October, 1956. The list of Scheduled Tribes in Andhra Pradesh is given below :

Note : Members of Scheduled Tribes may belong to any Religion.

(1) Throughout the State :

(1) Chenchu or Chenchwar
(2) Koya or Goud with its sub-sects Rajah or Rasha Koyas, Lingadhari Koyas (Ordinary), Kottu Koyas, Bhine Koya and Rajkoya.

(2) Throughout the State except Hyderabad, Mahbubnagar, Adilabad, Nizamabad, Medak, Karimnagar, Warangal, Khammam and Nalgonda districts :

(1) Bagata
(2) Gadabas
(3) Jatapus
(4) Kammara
(5) Kattunayakan
(6) Konda Dhoras
(7) Konda Kapus
(8) Kondareddis
(9) Kondhs (Kodi & Kodhu) Desaya Kondhs, Dongria Kondhs, Kuttiya Kondhs, Tikiria Kondhs and Yenity Kondhs
(10) Kotia-Bentho Oriya, Bartika, Dhulia or Dulia, Holva, Paiko, Putiya Sanrona and Sidhopaiko
(11) Kulia
(12) Malis
(13) Manna Dhora
(14) Mukha Dhora or Nooka Dhora
(15) Porja (Parangiperja)
(16) Reddi Dhoras
(17) Rona, Rena
(18) Savaras—Kapu Savaras, Maliya Savaras or Khutto Savaras
(19) Sugalis (Lambadis)
(20) Yenadis
(21) Yerukulas

(3) In the districts of Hyderabad, Mahbubnagar, Adilabad, Nizamabad, Medak, Karimnagar, Warangal, Khammam and Nalgonda :

(1) Andh
(2) Bhil
(3) Gond (including Naikpod and Rajgond)
(4) Hill Reddis
(5) Kolam (including Mannervarlu)
(6) Pardhan
(7) Thoti

(4) In the Agency Tracts :
(1) Gowdu (Goud)
(2) Nayaks
(3) Valmiki

Note : Yerukulas, Yanadis, Sugalis (Lambadis) are recognised as Scheduled Tribes in the Andhra districts only and not recognised as such in the Telangana districts and hence not enumerated as Scheduled Tribes in the Telangana districts though they were enumerated as Scheduled Tribes in the Andhra districts.

4.4. The statements on the next two pages show the percentage of Scheduled Castes' and Scheduled Tribes' population to total males and females by rural and urban areas of State, Districts, Cities and Towns with a population of 50,000 and above.

STATEMENT 3

Percentage of Scheduled Castes' and Scheduled Tribes' Population to total population in total, rural and urban areas of the State and Districts

31	Mahbubnagar	5.59	6.27	N	N

4.5. The Total, Rural and Urban populations of Scheduled Castes and Scheduled Tribes in the State are as follows:

Scheduled Castes:	Total ..	Persons	5,774,548
	..	Males	2,927,416
	..	Females	2,847,132
	Rural ..	Persons	5,092,130
	..	Males	2,580,275
	..	Females	2,511,855
	Urban ..	Persons	682,418
	..	Males	347,141
	..	Females	335,277
Scheduled Tribes:	Total ..	Persons	1,657,657
	..	Males	840,022
	..	Females	817,635
	Rural ..	Persons	1,572,627
	..	Males	795,886
	..	Females	776,741
	Urban ..	Persons	85,030
	..	Males	44,136
	..	Females	40,894

4.6 The percentage of Scheduled Castes' population to the total population of the State is 13.27 while the Scheduled Tribes' population form 3.81% of the total population of the State. Thus the percentage of Scheduled Castes' and Scheduled Tribes' population together works out to 17.08 of the total population.

5. Scheduled Castes:

5.1. The following districts show a higher percentage of Scheduled Castes' population than the State average of 13.27%.

District	*Percentage of Scheduled Castes' Population to total Population*
Nellore	19.73
Karimnagar	18.82
Adilabad	17.62
Chittoor	17.46
Mahbubnagar	16.84
East Godavari	16.77
Nalgonda	15.89
Warangal	15.87
Medak	15.85
Nizamabad	15.23
West Godavari	14.33
Hyderabad	14.07

5.2. As in 1961, Guntur district has recorded the lowest percentage of population of Scheduled Castes *i.e.*, 4.80% in 1971. This might be due to a large proportion of Scheduled Castes' population returning themselves as Christians in this district, thus disqualifying themselves to be treated as Scheduled Castes' population. Incidentally, the proportion of Christians to total population in Guntur district is also highest in 1971 as in 1961.

5.3. There is a greater concentration of the Scheduled Castes' and Scheduled Tribes' population in the rural areas than in urban areas. The Scheduled Castes constitute 14.51% of the total rural population of the State and in the urban population they constitute only 8.12%.

5.4. Among the rural areas of the State the following districts have recorded a higher percentage of Scheduled Castes' population than the State average of 14.58% for males and 14.43% for females.

District	Percentage of Scheduled Castes' Population	
	Males	Females
Nellore	22.05	21.97
Hyderabad	21.42	21.57
Karimnagar	19.93	19.59
Chittoor	19.12	19.16
East Godavari	18.67	18.29
Adilabad	18.26	18.14
Mahbubnagar	17.71	17.75
Warangal	17.01	16.61
Medak	16.63	16.44
Nalgonda	16.45	16.11
Nizamabad	16.42	16.63
West Godavari	16.09	15.65

5.5. In the larger urban units, Secunderabad Cantonment has recorded the largest proportion of 23.08% of the total population under Scheduled Castes followed by Kothagudem with 19.32%. Next in order come Adoni with 11.33% and Guntakal with 11.23%. The lowest percentage of Scheduled Castes' population amongst the larger towns is recorded by Proddatur, the figure being only 3.11% of the total population.

6. Scheduled Tribes

6.1. The Scheduled Tribes' population is more concentrated in the remote areas like Agency tracts of Srikakulam, Visakhapatnam, East Godavari, West Godavari and Khammam districts and also in the forest tracts of Adilabad and Warangal districts. Khammam district has recorded the highest percentage of 14.72% under Scheduled Tribes' population followed by Adilabad district with 13.14%, Visakhapatnam district with 10.69%, Srikakulam district with 8.20%, Nellore district with 8.09% and East Godavari district with 3.86%. By virtue of Yerukulas, Yanadis and Sugalis being enumerated as Scheduled Tribe in the Andhra area, a sizeable proportion of the population had been recorded as belonging to Scheduled Tribes in the districts of Nellore (8.09%), Guntur (3.71%) and Anantapur (3.07%). The Scheduled Tribes constitute 3.81% of total population of the State. In rural areas they constitute 4.48% of total rural population of the State while in urban areas they form only 1.02% of the total urban population. Amongst the cities and larger towns, Nellore city has recorded the larger proportion of Scheduled Tribes' population with 5.67% among males and 5.47% among females. It is well known that this place is an important centre of Yanadi labour. In Tenali city the Scheduled Tribes' population form 3.71% amongst males and 3.51% amongst females. Similarly, Chirala has recorded a percentage of 4.68% amongst male and 4.79% amongst female Scheduled Tribes' population. Kothagudem Town which attracts a good number of Koyas as mining labourers has recorded 1.95% amongst males and 2.16% amongst females. In other towns the percentage of Scheduled Tribes' population is very low.

7. Literacy and Education :

7.1. Columns 16, 17 and 18 of the State Primary Census Abstract give the number of literate and educated persons by sex for each unit.

7.2. The test for literacy as laid down in the instructions to enumerators for the 1971 Census was as follows : A person who can both read and write with understanding in any language is to be taken as literate. A person who can merely read but can not write is not a literate.

7.3. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard.

7.4. If there is any doubt about a person's ability to read or write, the test that may be applied for reading is his/her ability to read any portion of the printed matter in the Enumerator's Instructions and similarly for writing he/she should be able to write a simple letter. Ability merely to sign one's name is not adequate to qualify a person as being able to write with understanding. If a person claims to be literate in some other languages with which the enumerator is not acquainted, the respondent's word has to be taken as correct. Other members of the household may also be able to testify to the literacy of the persons enumerated.

7.5. All children of the age of 4 years or less are treated as illiterates even if they are going to a school and may have picked up reading and writing a few odd words.

7.6. The test for education was that the persons should have passed a recognised written examination or examinations as proof of an educational level attained. The highest examination passed was taken as the level for education.

7.7. The statement below and statement 4-A on the next page show the percentage of literate and educated persons to total population, males and females by rural and urban areas of each district and in cities and towns with population of 50,000 or more.

STATEMENT 4

Percentage of Literate and Educated persons to total population, Males and Females by Total, Rural and Urban areas of each District

23	Bheemavaram	52.11	59.56	44.28
24	Nandyal	43.13	54.17	31.47
25	Chittoor	54.76	64.54	44.43
26	Gudivada	52.33	60.38	44.07
27	Anakapalle	43.57	56.44	31.04
28	Khammam	49.33	59.79	38.15
29	Chirala	45.58	56.86	34.16
30	Ongole	50.49	60.94	39.58
31	Mahbubnagar	52.48	63.42	40.68

7.8. The literacy rate of the total population (including 0-4 age group) in the State in 1971 is 24.57% as against 21.19% during 1961. Andhra Pradesh occupies only the 22nd rank in literacy amongst the States and Union Territories in India. The literacy rates in different States and Union Territories of India are given below:

Rank in 1971	*Name of the State/ Union Territory*	*Percentage of Literacy*
1	2	3
1	Chandigarh	61.56
2	Kerala	60.42
3	Delhi	56.61
4	Andaman & Nicobar Islands	51.15
5	Pondicherry	46.02
6	Goa, Daman & Diu ..	44.75
7	Laccadive, Minicoy & Amindivi Islands ..	43.66
8	Tamil Nadu	39.46
9	Maharashtra	39.18
10	Gujarat	35.78
11	Punjab	33.67
12	West Bengal	33.33
13	Manipur	32.91
14	Himachal Pradesh	31.96
15	Mysore	31.52
16	Tripura	30.98
17	Meghalaya	29.49
18	Assam	28.72
19	Nagaland	27.40
20	Haryana	26.89
21	Orissa	26.18
22	Andhra Pradesh	24.57
23	Madhya Pradesh	22.14
24	Uttar Pradesh	21.76
25	Bihar	19.94
26	Rajasthan	19.07
27	Jammu & Kashmir	18.58
28	Dadra & Nagar Haveli ..	14.97
29	Arunachal Pradesh	11.29
30	Mizoram	Included in Assam

7.9. Among the districts of the State, Hyderabad district records the highest literacy rate of 40.37% which is due to the large number of literates in Hyderabad City, the State's Capital and whose population forms a major portion of the population of the district. The literacy rate in the rural areas of Hyderabad district is only 16.62%. The following districts show a fairly high rate of literacy exceeding the State's average.

District	*Percentage of Literacy*
Krishna	35.17
West Godavari	34.41
East Godavari	30.84
Guntur	30.73
Nellore	26.83
Chittoor	25.40
Cuddapah	24.73

7.10. Adilabad, Karimnagar and Mahbubnagar districts have recorded a very low proportion of literates, the figures being 14.15%, 15.31% and 15.55% respectively.

7.11. The urban population is obviously more literate than rural population because of the need for literates in urban occupations and the availability of greater facilities for education in urban centres. Taking the State as a whole 47.08% of the urban population is literate whereas only 19.19% of the rural population is literate. The urban population of Hyderabad district had recorded the highest literacy of 52.67% closely followed by Krishna district with 52.12%, Nellore district with 50.94% and West Godavari district with 50.27%. The lowest rate of literacy of 34.10% in urban population is found in Adilabad district among the districts of the State.

7.12 As regards literacy in rural areas, it is found that the more advanced delta areas show a distinctly higher percentage of literates. West Godavari district had recorded the highest literacy rate of 31.00% in the rural population. The rural areas of Krishna, East Godavari and Guntur districts have recorded 28.82%, 26.91% and 25.64% literates respectively. Even in the rural areas the literacy rate is the lowest in Adilabad district in the State.

8. Literacy amongst Females :

8.1. The general literacy rate among female population of the State is very poor. Only 10.92% of the female population in the rural areas and 36.31% in the urban areas in the State are literate. The highest literacy rate amongst the rural female population is recorded in West Godavari district with 25.28% followed by Krishna district with 22.69% and East Godavari district with 20.76%. The lowest female literacy rate of only 3.74% is recorded in the rural population of Adilabad district.

9. Literacy in larger Towns :

9.1. The following towns have recorded more than half of their population as literates :

Secunderabad Cantonment	..	61.01%
Machilipatnam (Bandar)	..	56.63%
Anantapur ..	..	56.49%
Nellore ..	..	55.65%
Tirupati ..	..	54.81%
Chittoor ..	..	54.76%
Vijayawada ..	..	54.39%
Rajahmundry ..	..	53.53%
Hyderabad (M.C.) ..	..	52.93%
Mahbubnagar ..	..	52.48%
Gudivada ..	..	52.33%
Bheemavaram ..	..	52.11%
Cuddapah ..	..	52.10%
Visakhapatnam ..	..	51.46%
Tenali ..	..	51.41%
Eluru ..	..	51.32%
Ongole ..	..	50.49%

9.2. The lowest literacy rate of 36.05% among the larger towns is recorded by Adoni town.

10. Workers and Non-workers :

10.1. At the 1971 Census every person was asked what his main activity was, that is, how he engaged himself mostly. All persons were divided into two broad streams of main activity namely, (1) as workers (2) as non-workers according to the type of main activity engaged in mostly by each person.

10.2. *Definition of a 'Worker'*: A 'Worker' is a person whose main activity is participation in any economically productive work by his physical or mental activity. Work involves not only actual work but effective supervision and direction of work.

10.3. The Census enumerator mainly examined what work the person enumerated was doing during the last one week prior to the date of enumeration in the case of regular work in trade, profession, service or business. If a person had participated in any such regular work on any one of the days during this reference period that work was returned as his main activity and the person was categorised accordingly. A person who normally works but had been absent from work during this reference period on account of illness or travel, holiday, temporary breakdown, strike etc., was treated as engaged in regular work in which he would have otherwise been employed but for his temporary absence. Persons under training such as apprentices with or without stipend or wages were considered as economically active and recorded as working. A person who had merely been offered work but had not actually joined it, was not treated as engaged in work. An under trial prisoner though in prison during Census enumeration was also treated as a worker if he did some productive work before he was apprehended. But convicts in prison or long term inmates of hospitals, or mental institutions were not treated as workers. Family workers, *i.e.*, who do not directly derive any income individually but attend to some economically productive work along with other members of the family were treated as workers. In respect of seasonal work like cultivation, livestock keeping, plantation work, some types of household industry, etc., a person's main activity was ascertained with reference to such work in the last one year even if he was not economically active in the week prior to enumeration. In some cases where a person was engaged in some other work during the period of week prior to the date of enumeration, the main activity of the person such as cultivation, agricultural labour or some other work attended to normally by him in the course of the year was treated as his main activity and the other work was treated as his subsidiary work.

10.4. A man or woman who was engaged primarily in household duties such as cooking for his/her own household or performing one's own household duties or a boy or a girl who is primarily a student attending institution, even if such a person helps in the family's economic activity but not as a full time worker was not treated as a worker for the main activity. On the other hand, if a person was primarily engaged in some economic activity but at the same time also attended to some household chores or attended a night school etc., he or she was treated basically as a worker for the main activity and categorised accordingly. A public or social service worker who is actually engaged in public service activity or political activity is taken as a worker. Thus all workers in any branch of productive work are netted as workers. These are all broadly classified under nine basic categories *viz.*, (i) working as Cultivators, (ii) working as Agricultural Labourers, (iii) working in Livestock, Forestry, Fishing, Hunting and Plantation, Orchards and Allied Activities, (iv) working in Mining and Quarrying, (v) (a) working at Household Industry, (v) (b) working in Manufacturing, Processing, Servicing and Repairs – Other than Household Industry, (vi) working in Construction, (vii) working in Trade and Commerce, (viii) working in Transport, Storage and Communications and (ix) working in Other Services. All others who did not do any productive work irrespective of whether they derived some income such as through pension, rents etc., or did not derive any income were classified under category X – 'Non-workers'. These non-workers were further classified into the following 7 categories.

(1) Engaged in Household duties *i.e.*, all those persons basically engaged in unpaid home duties doing no other work

(2) Student *i.e.*, all full time students or children attending school

(3) Retired person or a Rentier *i.e.*, a retired person not employed again, a rentier or royalty receiver, or any other person of independent means for securing which he does not have to work and who does no other work

(4) Dependent *i.e.*, an infant or child not attending school, a person permanently disabled from working due to illness or old age or if able bodied who have no other activity and who are not seeking any work either but are purely dependent

(5) Beggars etc., *i.e.*, beggars, vagrants or independent women without indication of source of income and those of unspecified sources of subsistence and who are not engaged in any economically productive work

(6) Inmates of Institutions *i.e.*, a convict in jail or an inmate of penal, mental or charitable institution

(7) Other non-workers : all non-workers who may not come under any of the above six categories but are seeking work will find place here

10.5. The classification of workers by different industrial categories follows more or less the classification adopted for the 1961 Census except for the following two minor changes (i) Mining and Quarrying category has been taken cognizance of and given separate recognition at the 1971 Census and is constituted into a separate category of Mining and Quarrying *i.e.*, category IV as against a combined category of Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied Activities-category III in the 1961 Census, (ii) The 1961 Census category IV of Household Industry is included in category V-Manufacturing etc., and treated as a sub-category V (a). At the 1961 Census 'Household Industry' covered establishments falling under Division '0' and '1' of the National Industrial classification *e.g.*, cattle rearing, orchards, plantations etc., apart from Division 2 & 3. At the 1971 Census, Household Industry is confined to Division 2 & 3 only *i.e.* it covers Manufacturing, Processing, Servicing or Repairing only.

10 6. Household Industry is defined as an industry conducted by the Head of the household himself/herself and/or mainly by the members of the household at home or within the village in rural areas and only within the premises of the house where the household lives in urban areas. The industry should not be run on the scale of a registered factory. Thus the main criterion for a household industry is the participation of one or more members of the household either in the rural areas or in the urban areas. A household industry should relate to production, processing, servicing, repairing or making and selling of goods. It does not include professions, such as Pleader, Doctor, Barber, Washerman or Astrologer even if such professions are practised within the houses.

10.7. The classification of the working population by the nine broad categories of the Industrial classification and the total number of non-workers are given in the Primary Census Abstract.

10.8. Columns 18, 19 and 20 of the Union and State Primary Census Abstracts give the figures of total number of workers, male workers and female workers respectively and the succeeding columns give the distribution of these workers sex-wise among the nine categories (including the sub-category V (a) separately) of workers. Columns 51, 52 and 53 of the Union and State Primary Census Abstracts give total number of non-workers, male non-workers and female non-workers respectively.

11. Proportionate distribution of Population amongst different categories of Workers and Non-workers :

11.1. The statement on the next four pages gives the distribution of 1,000 persons, males and females among the workers and non-workers and each category of workers in total, rural and urban population of each district and in cities of population 100,000 and over.

11.3. Thus the largest proportion of male workers is found among cultivators, while the largest proportion of female workers is found among agricultural labourers.

11.4. The proportion of male agricultural workers *i.e.*, the first two categories taken together is 378 out of 582 total male workers per 1,000 total male population and the proportion of female agricultural labourers is 200 out of 242 total female workers per 1,000 total female population. That is male agricultural workers constitute nearly 65% of the total male workers while female agricultural workers form about 83% of the total female workers. This high proportion of agricultural workers is quite natural in an agricultural State as Andhra Pradesh.

12. Sex-ratio among Workers and Non-workers :

12.1. The statement on the next two pages gives the sex-ratio (females per 1,000 males) among the total population, total workers, each category of workers and among the non-workers in rural and urban areas of each district and in cities of population 100,000 and over.

STATEMENT 6

Sex-ratio (Females per 1,000 Males) in Total Population, Total Workers, each Category of Workers and among Non-Workers in Rural and Urban Areas of each District and in Cities with Population 100,000 and over

12.2 The sex ratio in the general population has already been discussed in the fly leaf to Table A-I. Among the working population in the State there are 405 female workers per 1,000 male workers. In the rural areas the proportion is somewhat higher being 447 female workers per 1,000 male workers. In the urban areas, naturally they represent a very low proportion of only 200 female workers per 1,000 male workers. Evidently the proportion of female workers to male workers among agricultural labourers is very high, the figure being 922 for the State as a whole, 927 in the rural areas and 802 in the urban areas. The proportion of female workers in the State is less than that of the male workers in all categories

T: Total. R: Rural; U: Urban.

£ These figures represent 'Geographical area figures' supplied by the Surveyor Genral, India. Figures for Urban areas are those supplied by the local bodies. Area figures for Rural areas are derived by subtracting the total Urban area of the district from the total area of the district.

The State Survey Department has furnished the taluk area as well as the area of the Agency portions. The Plains area has been derived by subtracting the Agency area from the total area of the Taluk. The Agency and Plains area figures of all the Taluks in the District have been totalled and shown against the Agency and Plains area figures of the concerned District. The total area figures of Agency and Plains portions given for the District which are based on the State Survey Department figures will not agree therefore with the District total area figures supplied by the Surveyor General, India.

M : Municipality ; P : Panchayat.

Towns treated as such for the first time in 1971 are printed in italics.

* Denotes Towns treated as such for the first time in 1961 and continuing as towns in 1971.

† Towns whose civic status not yet determined.

‡ These towns constitute Hyderabad Urban Agglomeration.

£ These represent 'Geographical area' supplied by the Surveyor General, India. Figures for urban area are those supplied by the Local Bodies. Area figures for Rural area are derived by subtracting the total Urban area of the district from the total area of the district. The total of the area figures of the taluks will not tally with the district area figures because the former represent land use area and are derived from the figures supplied by the State Survey Department.

NOTE : The State Survey Department has furnished the Taluk area as well as the area of the Agency portions. The Plains area has been derived by subtracting the Agency area from the total area of the Taluk. The Agency and Plains area figures of all the Taluks in the district have been totalled and shown against the Agency and Plains area figures of the concerned District. The total area figures of Agency and Plains portions given for the District which are based on the State Survey Department figures will not agree therefore with the District total area figures supplied by the Surveyor General, India.

ANNEXURE A—Contd.

INSTRUCTIONS TO ENUMERATORS FOR FILLING UP THE HOUSELIST AND ESTABLISHMENT SCHEDULE

Instructions—Part I

HOUSELIST

General :

Census is a national undertaking of great importance, indispensable to intelligent and efficient public administration apart from the other multifarious ways it serves the scholar, the businessman, industrialist, the country's planners, the electoral authorities etc. Census has become a regular feature in every progressive country, whatever be its size and political set-up and they are conducted at regular intervals to fulfil well-defined objectives.

2 The job entrusted to you, *viz.,* the housenumbering and houselisting is an essential preliminary step to the population Census. Apart from mere listing of houses, you will be collecting some essential data on housing, as also separately on manufacturing, trading and service establishments which will be useful to the country's planners. You have, therefore, an important role to play. The quality and quantity of your contribution depends on how well you apply yourself to this task, understand the instructions thoroughly and carry out your responsibilities with the care that it demands.

3. You will be required to prepare lay-out sketches showing the location of houses within the area allotted to you and number all the houses, residential or otherwise and list them and fill up some essential particulars in the schedules given to you. The housenumbering sketches prepared by you may form the basis for a permanent system of housenumbering that may be introduced and maintained by the local bodies concerned in future.

Housenumbering and preparation of notional maps :

4. *Rural areas* : The first operation will be allotment of distinguishing numbers to each building, house and household.

5 Before the actual affixing of house numbers on doors an essential step to be taken is to prepare a rough notional map of the entire village and decide on whether the village should be sub-divided into blocks and if so, how? Normally a small village of less than 125 houses need not be sub-divided into blocks. But if a village has one or more hamlets, irrespective of the size, it is desirable to divide the area of the village into blocks so that each hamlet with the adjoining area is recognised as a separate housenumbering block of the village. It is important that the dividing lines between one block and another should be clearly demarcated. Such dividing lines, besides following some natural boundaries wherever possible should also be indicated by the Survey number that fall on either side of the dividing line in cadastrally surveyed villages. In villages which are not cadastrally surveyed, the line can be indicated by the name of the owners of the fields on either side of the line or by the name of the field, if any. A notional map showing the general topographical details of a whole revenue village particularly if a survey map is already available with the village revenue officials, will greatly help. This notional map should indicate the prominent features and land marks such as the village site, roads, cart tracks, hills, rivers, *nallahs*, etc. Clear demarcation lines of blocks are important so that any structure coming anywhere within the boundaries of a particular block is covered by a specific block without giving scope for any doubt. It may be desirable to define at the foot of the map the boundaries of each block clearly.

6. Having thus prepared the village map, each block of the village as demarcated on the village map should be taken up for a detailed sketching of the lay-out. In this detailed sketch the emphasis is mainly on the lay-out of the houses on the village site. The sketch should show all the roads, streets and cart tracks. The names of the streets, if any, should be shown on these sketches. All topographical details, important features and public buildings should be prominently shown. Then every single building or house should be located on this sketch. It will be of advantage if the *Pucca* and *Kachha* houses are shown by some conventional signs like a square □ for a *Pucca* house and a triangle △ for a *Kachha* house, further depicting them as residential or non-residential as follows :

□ *Pucca* residential house ; for *Pucca* non-residential house shade the square

△ *Kachha* residential house ; for *Kachha* non-residential house shade the triangle.

It is difficult to evolve a comprehensive definition of the terms 'Pucca' and 'Kachha' houses to cover different patterns of structures all over the country. The categorisation of the houses as *Pucca* or *Kachha* for the purpose of depicting them on the lay-out sketches is purely to facilitate identification. Als as *Kachha* houses are not likely to be long-lasting, any referring to the lay-out sketches a few years later can easil tinguish settlement areas which are likely to have under

change. For the purpose of the preparation of lay-out sketches, a *Pucca* house may be treated as one which has its walls and roof made of the following materials :

Wall material : Burnt Bricks, stone (duly packed with lime or cement), cement concrete or timber, etc.

Roof material : Tiles, GCI* sheets, asbestos cement sheets, RBC*, RCC* and timber, etc.

Houses, the walls and or roof of which are made of materials other than those mentioned above such as unburnt bricks, bamboo, mud, grass, reeds, thatch etc., or loosely packed stone, burnt bricks etc., may be treated as *Kachha* houses.

7. When once the location of every building/house is fixed on the plan, it will be a simple matter to decide on a convenient method of numbering the buildings/houses in one series following certain principles. No hard and fast rule can be laid as to the direction in which the house numbers should run *i.e.*, left to right or in a clockwise order or north-east to south-west and so on. Much depends on the lay-out. So long as some convenient and intelligible order is followed it should be all right. The numbers allotted to each house should be marked on the sketch and with the help of arrow marks at convenient intervals, the direction in which the house numbers run should be indicated. This is particularly important when streets cut across one another and the housenumbering series along a street get interrupted. It will be of advantage if the numbers are roughly marked in pencil on this sketch and later verified with the actual state of things on ground to see if the order of numbering indicated on the sketch would be convenient or if any slight changes are needed, for, after all the sketch is only a rough one and the actual state of buildings on ground may suggest a more intelligible order of numbering at some places.

8. Where villages are not cadastrally surveyed and the village boundaries not fixed by survey, it is essential that the limits of each village are defined by some permanent features so that it may be known that any house falling in any such areas may be reckoned along with a particular village.

9. In the forest areas, all habitations are not on settled pattern. There are forest villages which may be just like other revenue villages or *mauzas*. For such villages procedure for preparing normal lay-out plan sketches may be followed. But apart from such villages, there would be clusters of habitations spread out in the forest. It will be facilitating, if for the purpose of netting such clusters a lay-out plan is prepared of the forest area comprising the lowest administrative unit (such as, beat of a Forest Guard in some States). Then the clusters should be drawn on the lay-out sketch. Name of the cluster should also be written, if there be one. If there be no name, then it would be necessary to identify it with reference to any known permanent feature such as a hill stream, a range of hills, road and so on. After drawing the boundaries of such clusters on the lay-out, the location of each of the houses should be indicated on it and number assigned to each house. Habitations (clusters) falling within the area of the smallest forest administrative unit should be taken as one village for the purpose of housenumbering and houselisting.

Since it is likely that some of the tribal habitations may change their locations now and then, it is necessary to define the location of a habitation area with reference to any known permanent feature as indicated above in regard to the clusters in forest areas.

10. *Urban Areas* : The preparation of notional maps and the housenumbering sketches in urban areas should essentially follow the same procedure as in the rural areas excepting that in most urban units the draughtsman of the Municipal Administration might have already prepared town maps perhaps even to scale and these may come extremely useful. It has been found from experience that the boundaries of towns are often times loosely defined and not properly demarcated giving rise to several doubts regarding the areas lying on the out-skirts of towns. It is important that the map should very clearly indicate the boundaries by means of definite survey numbers and also other permanent features. Sometimes one side of a road falls within the town limits and the other side excluded as it may be outside the defined boundary of the town. All these should be carefully verified on ground before the maps are certified to be correct by the supervising authorities. Cases of sub-urban growth adjoining the limits of a town and such cases as one side of a street falling outside the limits of a town should be brought to the notice of the superior officers who will have to ensure that such built up areas are properly accounted for within the administrative units in which they fall.

11. But what is essential is that very detailed plans showing the location of every building and Census house along every road and sreet in each ward, locality or *mohalla* of a town should be clearly prepared. In view of the very large number and close location of houses in urban areas it may be necessary to have a large number of sketches each covering a limited area. Each town would probably have already been divided into some permanent *mohallas* or localities or wards. A large map of the entire town indicating the boundaries of each of the sub-units into which the town has been divided should be prepared. On this map, the main roads and other topographical details and important public buildings etc., may be shown for clear identification of the boundaries of each *mohalla*/locality/ward etc. Next, a skeleton map of each locality/ward or block should be prepared in which all the roads and streets should be clearly indicated and their names also written. Then each building and house should be located on this skeleton map. May be that even a locality/ward may be too large an area to indicate all houses on a single map. In such a case a ward map showing the segments and separate lay-out map for each one of the segments may be prepared and on these segments the buildings and houses should be clearly located and the house numbers shown. It may be an advantage if the non-residential houses are distinguished from the residential houses as indicated in para 6 of these instructions. Here again the important permanent buildings may be indicated such as say, town-hall, large office building, court building, post office, hospital, school, church, market building etc.

12. As stated earlier most towns may already be having a satisfactory housenumbering system. This need not be disturbed and may be adopted for the purpose of preparation of the housenumbering maps referred to above. The housenumbering can be brought up-to-date with the help of these lay-out maps. If there be no proper system of housenumbering in the town then you will have to assign numbers to the houses in the

* NOTE : G.C.I. – Galvanised Corrugated Iron, R.B.C. – Reinforced Brick Concrete and R.C.C. – Reinforced Cement Concrete.

lay-out sketch(es) of your jurisdiction in the manner indicated hereafter.

Numbering of Buildings and Census Houses in rural as well as urban areas :

13. You have to give numbers to "Buildings" and "Census Houses" in all areas. The instructions below will guide you to determine what a building and a Census house are for the purpose of houselisting. The building is a readily distinguishable structure or group of structures which is taken as the unit for housenumbering. The entire building may be deemed one Census house or sometimes parts of it, as will be explained. The objective is to ultimately number and list out all physical units of constructions which are used for different purposes, residential or otherwise.

14. *Building* : A "building" is generally a single structure but sometimes made up of more than one component unit, which are used or likely to be used as dwellings (residences) or establishments such as shops, workshops, factories, etc., or as godowns, stores, cattle-sheds etc., or in combination with any of these such as, shop-*cum*-residence or workshop-*cum*-residence etc.

15. Sometimes a series of different buildings may be found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and likely to have been built at different times and owned by different persons. In such cases though the whole structure with all the adjoining units apparently appears to be one building, each portion should be treated as separate building and given separate number.

16. If there are more than one structure within an enclosed or open compound (premises) belonging to the same person *e.g.*, the main house, the servant's quarters, the garage etc., only one building number should be given for this group and each of the constituent separate structures assigned a sub-number like 1(1), 1(2), 1(3) and so on provided these structures satisfy the definition of a 'Census House' given hereafter.

17. The buildings should be numbered as follows :

(i) If the locality consists of a number of streets in a village, the buildings in the various streets in a village, should be numbered continuously. Streets should be taken in uniform order from north-east to south-west. It has been observed that the best way of numbering the buildings is to continue with one consecutive serial on one side of the street and complete the numbering on that side before crossing over to the end of the other side of the street and continuing with the serial, stopping finally opposite to where the first number began.

(ii) In a town/city, enumeration block, the numbering will have to respect the axis of the street and not any preconceived geographical direction like north-east etc.

(iii) Arabic numerals e.g. (1, 2, 3,.....) should be used for building numbers.

(iv) A building under construction, the roof of which has been completed should be given a number in the serial.

(v) If a new building either *Pucca* or *Kachha* is found after the housenumbering has been completed or in the midst of buildings already numbered, it should be given a new number which may bear a sub-number of the adjacent building number, *e.g.* 10/1.....

NOTE : These should not be numbered as 10(1) or 10(2) etc. as such numbering would apply to Census houses within the same building. On the other hand, 10/1 would mean a separate building that has come up after building No. 10.

18. *Census House* : A "Census House" is building or part of a building having a separate main entrance from the road or common court-yard or stair-case etc., used or recognised as a separate unit. It may be inhabited or vacant. It may be used for a residential or non-residential purpose or both.

19. If a building has a number of flats or blocks which *are independent of one another* having separate entrances of their own from the road or a common stair-case or a common court-yard leading to a main gate, they will be considered as separate Census houses. If within a large enclosed area there are separate buildings, then each such building will be one or more separate Census houses. If all the structures within an enclosed compound are together treated as one building then each structure with a separate entrance should be treated as a separate Census house.

20. Each Census house should be numbered. If a building by itself is a single Census house, then the number of the Census house is the same as the building number. But if different parts or constituent units of a building qualify to be treated as separate Census houses, each Census house should be given a sub-number within brackets to the building number as 10(1), 10(2) etc., or 11(1), 11(2), 11(3), etc.

21. The order in which Census houses within a building are to be numbered, should be continuous, preferably clockwise or in any convenient manner if it is difficult to do it clockwise.

22. The definition of Census house may sometimes be difficult of application in its literal sense in the context of varying patterns of structures and their usage. For example, in cities and towns, one does come across a situation when a flat in the occupation of one household as residence may be made up of four rooms or so and all the rooms may have direct entrance from a common court-yard or a stair-case. In terms of the definition of a Census house each of these rooms having entrances from the common stair-case etc., may qualify to be treated as Census houses. But it does not realistically reflect the situation of the number of houses. In such case, 'singleness' of use of these rooms along with the main house by the household should be taken into account and the entire flat comprising four rooms should be treated as one Census house only and assigned one number. If on the other hand each one of these rooms had been separately occupied by independent households and if each portion had separate main entrance then each will be justified to be treated as a separate Census house. In a

hostel building even if the door of each room in which an inmate lives opens on to a common verandah or stair-case as it happens almost invariably, the entire hostel building may have to be treated as one Census house only. In some parts of the country in the rural areas, the pattern of habitation is such that a single household occupies a group of huts within an enclosed fence which has one main entrance. Each of the apparently separate structures is an integral part of the housing unit as such. In such cases it may be more realistic to treat the group as one Census house. Care should be taken to ascertain if only one household occupies such a unit or shared by more than one household. Thus the definition of a Census house will have to be applied having due regard to the actual situation in such exceptional cases.

23. It is usual to find in municipal towns/cities that every site whether built upon or not is numbered by the municipal authorities on property basis. Such open sites even if they are enclosed by a compound wall should not be listed for Census purposes. Only where a structure with four walls and a roof has come up, should it be treated as a Census house and listed. But in some areas the very nature of construction of houses is such that, for example, a conical roof almost touches the ground and an entrance is also provided, and there may not be any wall as such. Such structures should of course be treated as buildings and houses and numbered and listed.

24. *Household*: A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be 'one-member household, two-member household or multi-member household'. For Census purposes each one of these types is regarded as a "Household". Again, there may be a household of persons related by blood or household of unrelated persons; the latter are Boarding Houses, Hostels, Residential Hotels, Orphanages, Rescue Homes, *Ashrams* etc. These are called "Institutional Households".

Each household will be listed according to the instructions that follow (*see* paras 44 & 45) and a distinguishing number allotted to each household. As each household will be related to the physical structure of a Census house, the household number as such need not be painted on the door of each Census house. Only the building and Census house number will be painted.

Houselisting :

25. After the preparation of the notional housenumbering maps and the numbering of the houses, the next step is to list them in the prescribed form (Houselist).

26. At the 1971 Census, a houselist schedule and an establishment schedule will be canvassed on universal basis. Specimen forms of the schedules to be so canvassed are given at the beginning of these instructions.

The following instructions will guide you in filling the houselist:

27. On the top of the houselist form, provision is made to note the name of District with Code No., name of Taluk/Tehsil/Thana/Anchal/Island/Code No., name of Village/Town/Code No., name or No. of Ward, *Mohalla*, Enumerator's Block Code No. The entries here are to be filled in by you very carefully. The Location Code is the method by which every village or town in any tehsil or police station in every district of a State is identified by a combination of numbers. For this purpose every district, tehsil or police station, village or town/ward/*mohalla*/enumerator's block in your State would have been allotted code numbers. Your Charge Superintendent or the Supervisors would have indicated to you the district, tehsil or police station and the village or town/ward/*mohalla*/enumerator's block code numbers pertaining to you. You shall have to enter them in the relevant spaces against the names of the various jurisdictional units. *Please note that the town number is to be given in Roman figures to distinguish it from the village number which will be indicated by Arabic numerals.*

Column 1 : Line Number

28. Every line in the Houselist is to be numbered serially. The line numbers should be continuous for your block. Arabic numerals should be used for this purpose, e.g., 1, 2, 3, 4 etc....

Column 2 : Building No. (Municipal or local authority or Census No.

29. Before you start houselisting, every building will bear a number. Some Municipal towns may have satisfactory system of numbering the buildings and after preparation of the lay-out sketch of your area, you would have given the same number to the building located on the sketch.

30. There would be cases where the Municipal numbers or local authority numbers are not found satisfactory and therefore you would have given numbers to various buildings by way of updating the numbering or revising it. In any case you would have assigned a number to every building in the lay-out sketch. The third contingency is that numbering did not exist earlier and you have numbered the buildings and assigned them the number on the lay-out sketch and marked them on the building itself.

31. The number which has been assigned in the lay-out sketch in any of the three modes described above and marked or put on the building should be written in this column.

32. If the building has a well-known name then the name of the building should also be recorded in this column in addition to the number of the building.

The purpose of this column is to readily identify every building by the number found on it and by local name if any the building may bear.

Column 3 : Census House Number

33. The attributes of a Census house have been described earlier and in accordance with those instructions you would have allotted Census house number to a building or to a part of a building.

34. If there is only one Census house in the building, then the number of the Census house will be the same as the building number, which will be repeated in this column.

35. If there be more than one Census house in a building (as mentioned in paras 19 and 20) *e.g.*, in building No. 10, there are three Census houses – then against the first Census house, you will record "10(1)", for the second "10(2)" and for the third "10(3)" in this column. Column 2, Building number, will be entered in the first line only against which Census house No. 10(1) would have been mentioned in column 3. Column 2 will remain blank against Census house No. 10(2) and 10(3).

NOTE: You should *not* indicate them as 10/1 or 10/2 etc. as that would be followed in the allotment of a number to a new building not previously numbered that has come up after building No. 10.

Columns 4-5: Predominant construction material of Census house.

36. In these columns you will have to note the materials of wall and roof.

Column 4: Material of Wall

37. Under this column, the material out of which the major portion of the walls of the house are made, as for example, grass, leaves, reeds, bamboo, unburnt bricks, mud, burnt bricks, stone, cement concrete, timber etc., should be written. Where a house consists of separate structures each having walls made out of different materials, the material out of which the walls of the main portion of the house mostly used for living or sleeping are made, are to be recorded.

Column 5: Material of Roof

38. The material out of which most of the outer roofs, exposed to the weather and *not the ceiling* is made *i.e.*, tiles, tahtch, corrugated iron, zinc or asbestos cement sheets or concrete, slate, tiles, etc., should be written. In the case of a multi-storeyed building the intermediate floor or floors will be the roof of the lower floor. If the roof is mainly made of bricks, stone etc., and has a mud plaster, cement plaster or lime plaster exposed to the sky, the material of roof in such cases will *not* be "mud", "cement", or "lime" respectively but it will be "bricks", "stone" etc., which constitute the fabric of the roof.

Column 6: Purpose for which Census House is used, e.g., residence, shop, shop-cum-residence, business, factory, workshop, workshop-cum-residence, school, bank, commercial house, office, hospital, hotel, etc. or vacant.

39. The actual use to which a Census house is put is to be recorded here keeping in mind the broad categorisation such as: (these are purely illustrative);

(1) Residence, shop-*cum*-residence, workshop-*cum*-residence.

(2) Factory/workshop and workshed etc. Factory should be written if it is registered under Indian Factories Act. A 'workshop' is a place where any kind of production, repair or servicing goes on or where goods and articles are made and sold, but is not large enough to be a factory. It is not necessary that some machinery should exist. Even a place where some household industry (as defined in Para 78) such as say, handloom weaving, *bidi* rolling, *papad* making, toy making etc., is carried on, it should be noted as a workshop here. If it is also used as a residence it should be noted as workshop-*cum*-residence. Make searching enquiry if a house is used for the purpose of production of any goods or engaged in some processing or repairing even on a Household Industry basis as these are not likely to be apparent to a casual observer.

SHOP:

(3) Shop: A shop is a place where articles are bought and/or sold for cash or for credit.

(4) Office, business house, bank, etc. Business house is that where transactions in money or other articles take place.

(5) Hospital, dispensary, Health centre, Doctor's clinic etc.

(6) School and other educational institution.

(7) Hotel, *sarai*, *dharamshala*, tourist house, inspection house, etc.

(8) Restaurant, sweetmeat shop and eating place. (A sweetmeat shop where sweetmeat is being made and sold should be recorded as a Workshop).

(9) Place of entertainment such as cinema house, theatre, community-gathering (Panchayatghar) etc.

(10) Place of worship *e.g.*, temple, church, mosque, gurudwara, etc.

(11) Institution such as orphanage, rescue home, jail, reformatory, children home, etc.

(12) Others e.g., cattle-shed, garage, godown, laundry, petrol bunk, passenger shelter, etc., the exact use to be fully described.

(13) If the Census house is found vacant, *i.e.*, if no person is living in it at the time of enumeration and it is not being used for any of the purposes listed above, write 'vacant' in this column. If the Census house is locked because the occupants have gone on journey or pilgrimage, then it may *not* be treated as "vacant", but the use to which it is put recorded here and the fact that the occupants have gone on a journey/pilgrimage, noted in the 'remarks' column as "House" locked, occupants on journey/pilgrimage etc."

NOTE: The reason for vacancy such as 'dilapidated' 'under repair', 'incomplete construction', 'want of tenant', etc., may be recorded in the "Remarks" column.

Column 7: Is it used wholly or partly as an Establishment?

Yes or No. If yes, enter further details in the Establishment Schedule and indicate the Serial No. of that entry here

Definition of an Establishment

40. An "Establishment" is a place where goods are produced or manufactured not solely for domestic consumption or where servicing and/or repairing is done such as factory, workshop or household industry or servicing and/or repair workshop or a place where retail or wholesale business is carried on or commercial services are rendered or an office, public or private or a place of entertainment or where educational, religious, social or entertainment services are rendered. It is necessary that in all these places one or more persons should be actually working. Thus an establishment will cover manufacturing, trade and other establishments where people work.

Examples:

A factory or a workshop or workshop-*cum*-residence or a trading or other establishment, *i.e.*, where some kind of production, processing, repair or servicing is undertaken or where goods or articles are made and sold, or some business is being carried on such as a grocery shop, a *pan* shop, restaurant, bank, hotel or an office is functioning such as Government office, commercial office, or an institution is being run such as school, college, hospital, dispensary, etc., and where one or more persons are working.

An Establishment may occupy a Census house or a group of Census houses or a part of a Census house.

41. This column applies only in cases where the Census house is used as an Establishment as defined above. Sometimes the act of production, processing or servicing may not be apparent especially if carried on as a household industry *e.g.*, when a handloom is located inside a house and is not in operation at the time of Enumerator's visit or if some other type of household industry such as *papad* making or toy manufacturing or *bidi* rolling etc., is done, say in some interior portion of the house. You should make searching enquiries to see if any production, processing or servicing is done or any business is carried on or any institution is being run in any part of the house not readily seen from outside.

If 'Yes' is recorded here, go to the Establishment Schedule, and fill up further particulars in that Schedule. Please fill in the Serial No. of the entry as given in the Establishment Schedule in this column after 'Yes'.

42. It is possible that some kind of production or processing is undertaken in the house by the members of the household for *purely domestic consumption*. For example, hand pounding of rice, preparation of spices like, *haldi* (turmeric), chillies, etc., or say, knitting of woollen garments, embroidery work, loinloom weaving and so on, meant for household use only and not for sale. In such cases, the house should not be treated as an 'establishment'.

COLUMNS 8 to 16

43. These columns will relate to Census houses which are used wholly or partly as a residence. If, therefore, a particular Census house is not being used for residential purposes at all even partly, as will be evident from entry in Column 6, put 'X' in each of the columns 8 to 16.

Column 8: Household Number

44. A 'household' is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. It may be made up of related or un-related persons. A cook or a servant living in the house of his employer and taking his food there is part of that household. A hostel where a number of un-related persons live together is an institutional household. So also a Jail.

45. There may be more than one household in a Census house. Each household should be given a separate number. This can be done by using the alphabets as (a), (b), (c), etc., as affixes to the Census house No. For example, if building No. 2 is also a Census house and has three households, the household numbers will be 2(a), 2(b) and 2(c). If building number 4 has two Census houses, the houses will be numbered as 4(1) and 4(2). If within these houses there are respectively 3 and 2 households then, they will be numbered as 4(1)(a), 4(1)(b), 4(1)(c) and 4(2)(a) and 4(2)(b) respectively. If, however, building No. 3 is also a Census house and has only one household, the household No. to be entered in this column will be No. 3 only.

46. In the above cases of households Nos. 2(b), 2(c), 4(1)(b), 4(1)(c) and 4(2)(b), there will be no entries against them in Columns 3 to 7. Columns 3 to 7 will be filled for the entire Census houses, 2,4(1) or 4(2) as the case may be, once. There is no need to repeat Columns 3 to 7 in each line for which entries are made for more than one household against that Census house in Columns 8 to 16.

Column 9: Name of the head of household

47. The name of the Head of each household should be written. The Head of the household for Census purposes is a person who is recognised as such in the household. He is generally the person who bears the chief responsibility for the maintenance of the household and takes decisions on behalf of the household. The Head of the household need not necessarily be the eldest male member, but may even be a female or a younger member of either sex. You need not enter into any long argument about it but record the name of the person who is recognised by the Household as its Head. In the case of institutions like boarding houses, messes, chummeries which should be regarded as households of un-related persons living together and which may be called Institutional Households, the manager or superintendent or the person who has administrative responsibility or who by common consent is regarded as the Head should be recorded as the Head of the household. In the case of an absentee dejure 'Head', the person on whom the responsibility of managing the affairs of the household falls at the time of enumeration, should be regarded as the Head.

Column 10: If S. C. or S. T., write name of caste/tribe .

48. You will have been furnished with a list of Scheduled Castes and Scheduled Tribes notified for your area. Ascertain if the head of the household belongs to a Scheduled Caste or a Scheduled Tribe and check whether the Caste/Tribe is scheduled as per your list. If so,

for Scheduled Caste write "S.C." and record name of caste,

for Scheduled Tribe write "S.T." and record name of tribe
for others write.....X

For a household belonging to Scheduled Caste, check religion of the head of the household. He or she should be either a Hindu or a Sikh. There cannot be a S.C. in any other religion. Scheduled Tribes may belong to any religion.

49. In a case where the head of the household belongs to Scheduled Caste/Scheduled Tribe even if any other member of the household (except institutional households) does not belong to SC/ST then write SC/ST as the case may be and mention the Caste/Tribe to which he belongs. On the other hand if the head does not belong to SC/ST; but any other member of the household does belong to SC/ST; write 'X' in this column.

In the case of all 'Institutional Households' write 'X' in this column irrespective of whether the head belongs to a S.C./S.T. or not.

Column 11: No. of living rooms in the occupation of Census Household

51. A room should have four walls with a door way with a roof over head and should be wide and long enough for a person to sleep in *i.e.*, it should have a length of not less than 2 metres and breadth of at least 1½ metres and 2 metres in height. An enclosed room, however, which is used in common for sleeping, sitting, dining, storing and cooking etc., should be regarded as a room. An unenclosed verandah, kitchen, store, garage, cattle shed and latrine and rooms in which a household industry such as a handloom is located which are not normally usable for living or sleeping etc., are excluded from the definition of a room for the purpose of this column.

52. If there is only one household in a Census house the counting of rooms will not be difficult. But if a Census house consists of a number of households, the number of rooms occupied by each household has to be entered against the name of each Head of household. In cases where a room is occupied by more than one household or they share more than one room, the number of rooms should be given together against a bracket as common to such households.

53. One is likely to come across conical shaped hut or tent in which human-beings reside. In such improvised accommodation, there will be no four walls to a room and, therefore, the above definition would not strictly apply to such types of accommodation. In such cases, the tent or conical hut etc., may in itself be construed to be a room.

Column 12: Does the household live in owned or rented house: (i) Owned (O), (ii) Rented (R)

54. If a household is occupying a Census house owned by itself and is not paying anything to anybody in the form of rent then the household may be considered as living in own house. This should be recorded by 'O'. A household living in a flat or a house taken on 'ownership' basis on payment of instalments, should be regarded as living in its own house, notwithstanding that all instalments have not been paid.

55. If the household lives in rented house write 'R'. A housing unit is rented if rent is paid or contracted for, by the occupants in cash or in kind. Where an owner permits a household to live in a house, rent free even then the household should be treated as living in a rented house. For example, rent free accommodation provided to employees by Government, Institutions, Companies etc. In such cases, you should treat the house as rented and wirte 'R'.

Column 13 to 15: No. of persons normally residing in Census household on day of the visit of the Enumerator

56. Enter the number of males normally residing in the household in column 13; females in column 14 and total number of persons in column 15 (column 13 + column 14).

57. In these columns normal residents are to be recorded even though some of them may be absent on the day of enumerator's visit. Casual visitors should be excluded as they will be considered at their respective places of normal residence. But a person who has stayed with the household for a period of 3 months or more should, however be included. Correspondingly, normal residents absent for over 3 months or more should be excluded from the household in which they normally reside.

Total of these columns should be struck at the end of each page and after completion of houselisting grand total of the block should be struck at the bottom of the last form.

Column 16: Does the household cultivate land? (Yes or No)

58. If the household is cultivating any land then you have to record the answer 'Yes' otherwise 'No'. For determining whether a household is cultivating or not, it should be necessary to ascertain if one or more persons in the household are engaged in cultivation of land or supervision or direction of cultivation of land owned or held from Government or from private persons or Institutions for payment in money, kind or share. Encroachers who cultivate land encroached upon will be regarded as cultivating households for the purposes of this column. If the household has a visitor who cultivates land elsewhere, it can not be deemed that the household as such is a cultivating household, unless the Head/ or other members of the household are engaged in cultivation of their own, the household should not be reckoned as a cultivating household. A household whose members merely work on somebody else's land for wages should not be treated as a cultivating household.

Column 17: Remarks

59. If there is an entry in Column 6 as "Vacant", you have to record the reason such as "dilapidated", "under repair", "incomplete construction", "want of tenant" etc. in this column.

60. After you have completed filling up of the houselist for your block, you will prepare a duplicate copy of the houselist, for which you would be given adequate number of blank forms.

Instructions—Part II

ESTABLISHMENT SCHEDULE

61. Instead of loading the main Houselist form itself with questions pertaining to Establishments, it has been decided to have a separate schedule in which particulars of each establishment are to be recorded. (See the Establishment Schedule given at (page 322).

62. The term "Establishment" has been defined in para 40. You are requested to study it carefully, before filling the 'Establishment Schedule'.

63. *The respondents should be fully assured that the information collected in these schedules will be treated as completely confidential and is meant for statistical purposes and will not be used as evidence against any individual or establishment for any purpose. The respondents should be encouraged to furnish truthful replies without any reservation.*

64. At the top of the schedule provision is made for noting the Location Code No. and name of the areas concerned. This should be the same as those noted on the top of the Houselist which you will be canvassing simultaneously. You should fill the Location Code Nos. etc., correctly.

65. The columns of the Establishment Schedule can be classified into four broad groups :

(i) Columns 1 to 5 are of uniform applicability and entries have to be made in respect of all the establishments;

(ii) Columns 6 to 8 pertain to manufacturing, processing, etc. – establishments;

(iii) Columns 9 to 10 relate to trading establishments; and

(iv) Column 11 refers to "other" Establishments which are not covered in columns 6 to 10.

Thus, it will be seen that the columns falling within groups (ii) to (iv) are mutually exclusive, while those in group (i) are common to all.

Column 1: Serial Number

66. In this column the establishments are to be entered one after another serially. Arabic numerals should be used for this purpose, *i.e.*, 1, 2, 3 etc.

Column 2: Census House Number

67. The Census house number to be noted is the same as that in column 3 of the Houselist and against which 'Yes' is written in column 7 of the Houselist indicating that the Census house is used as an establishment.

68. A point to be noted here is that it is likely that a single factory or workshop may be spread over more than one Census house adjoining one another. Therefore, while in Column 2 of this schedule a number of Census houses may be noted in respect of that particular unit of production, processing or repairing, trade or business etc., the entries in Column 3 onwards will be one only for that group of houses covered by a single unit of production or business etc., establishment. For example, if a single tea factory in Assam or business establishment in Calcutta should be spread over two or three adjacent buildings, each of the buildings should not be shown as a separate factory or establishment but the House Nos. of all these buildings shown in Column 2 should be bracketted together and the particulars of the single tea factory or establishment entered in the subsequent columns against this group of houses. If on the other hand the activities of a large firm or an office are carried on in buildings located far away in different localities, each of the Census houses in the different localities will have to be treated as a separate establishment and the particulars of the establishment relating to that particular Census house should be listed in this schedule.

Column 3: Name of the Establishment or of the proprietor

69. In this column write the name of the establishment in the case of factories, large manufacturing concerns, a shop or business establishment, banks, office etc., which usually bear a distinct name. Where an establishment has no separate name as in the case of small workshops and establishments like confectionaries, small tea shops, Dhobi's establishment, household industries etc., write the name of the owner as "so and so's Halwai shop" etc. This is to help easy identification.

Column 4: Is the Establishment – (a) Government/Quasi Government (b) Private (c) Co-operative Institution

70. Enter here whether establishment enumerated belongs to public sector *i.e.*, Government/Quasi Government managed, including establishments run by local authorities, or to private sector, or a co-operative enterprise. Please do not write in the column only (a) or (b) or (c) but write

(1) "Government – Public Sector, or Quasi Government–Public Sector or Local Authority – Public Sector

(2) Private

or

(3) Co-operative.

There may be many schools or libraries etc., which are not owned by any particular individual or group of individuals. These may be owned by people in general and managed by Managing

Committees. Such establishments should be treated as "private" as distinguished from Government/Quasi Government or run by local authorities or co-operative enterprises.

71. An establishment will be treated as a Government/ Quasi Covernment institution if the Central or State Government or a Local Authority such as the Zilla Parishad, City Corporation or Municipality etc., completely owns or has a majority of shares as to control the management of the establishment.

72. Private establishments are those owned and managed by private individuals or corporate bodies not being co-operative institution or Government or Quasi Government Institutions.

73. Establishments registered under the Co-operative Societies Registration Law of the State, alone fall in the category of "Co-operative".

Column 5: Average number of persons working daily last week or in the last working season, including proprietors and/or family workers

74. In this column, the information has to be entered relating to the total number of workers including the apprentices, paid or unpaid and also including owner(s) or proprietor(s) of the establishment and any of their family members if they also work in the establishment and also the hired workers, if any. It is not necessary that an establishment should necessarily have paid workers. A small shop run in the same house where the owner lives and the business is attended to by just one person of the household is also an establishment. The average number of persons working per day in the establishment during the week preceding the day of your visit should be recorded. For computing the average number of persons working per day, if the establishment remained closed owing to holiday etc., such day(s) should be ignored and only the 'days' on which the establishment worked should be taken into account. If during the week preceding your visit, the establishment remained closed either due to strike or lock-out, the week during which the establishment worked preceding such strike or lock-out should be taken into account, for reckoning the average number of persons working. The hired workers should normally be in full time employment.

75. Some establishments such as a sugar factory, rice mill etc., may be seasonal in character and may not be actually working at the time of the present listing. You should then ascertain the particulars of such establishments with reference to the last working season.

76. In case more than one product is produced, or more than one item of business is conducted or several types of services are rendered, it is not necessary to enquire the number of persons employed in the production/business/servicing of each type of product, business or service that is covered against that serial number. For example in large textile mill there may be the weaving section, dyeing section, laboratory, repairing section, sales section etc. It is not necessary to ascertain the employment in each section. The total employment has to be ascertained. The major activity of the establishment will be described in subsequent columns.

"Columns 6, 7 and 8:–If any manufacturing processing or servicing is done"

77. These columns relate only to such establishments in which goods are manufactured or some kind of processing or servicing is done and/or repairs are carried on.

Column 6: Is it (a) Household Industry (b) Registered Factory (c) Unregistered workshop

78. *Household Industry: Definition*

A 'Household Industry' is defined as an industry conducted by the Head of the household himself/herself and/or mainly by the members of the household at home or within the village in rural areas, and only within the premises of the house where the household lives in urban areas. The industry should not be run on the scale of a registered factory.

79. Thus there are four ingredients of a household industry:–

(i) nature of activity
(ii) participation
(iii) location
(iv) size

80. (i) *Nature of Activity*:–A Household industry should relate to production, processing, servicing, repairing, or making and selling (but not merely selling) of goods. It *does not* include professions such as a pleader or doctor or barber, musician, dancer, washerman (Dhobi), astrologer etc. or merely trade or business even if such professions trade or services are conducted at home by members of household.

81. (ii) *Participation*:–The Head of the household and/or one or more members of the household must participate in such an industry. If it is run primarily by hired labourers, the 'participation' ingredient of the household members will not be satisfied and it will not be a 'Household Industry'. The industry may run with the help of hired workers but the head and/or members of the household must be mainly participating in the industry and not solely dependent on hired workers. Besides "actual work", participation also includes "supervision and direction".

82. (iii) *Location*:–The industry should be located within the premises of the house where the household lives in urban areas; if it is situated at a place other than at home, it will not be termed as household industry in urban areas. In rural areas, however, the industry may be either at home or anywhere within the village limits. In rural areas, even though, the industry is not situated at home, there is a greater possibility of the members of the household participating in it if it is located within the village limits.

83. (iv) *Size*:–The industry should not be on the scale of a registered factory. Irrespective of the location and participation by the members of the household, if the industry or workshop is registered under the Factories Act, then it will not be a household industry.

84 Thus it will be clear that any industry which can be termed as 'Household Industry' must satisfy all the four ingredients mentioned above.

85. (b) *Registered Factory* :—A factory which is registered under the Indian Factories Act should be treated as a "Registered Factory". Any other workshop merely licensed by the Municipal or any other authority or registered for any other purpose should not be treated as a registered factory unless it is registered under the Indian Factories Act.

86. (c) *Unregistered Workshop* :—Workshop is a place where some kind of 'production' processing, servicing, repairing or making of goods for sale is going on. A workshop which is registered under the Indian Factories Act should be treated as a registered factory and others as unregistered workshops. Workshops which are run as household industry should be treated as household industry and entered as such.

87. When you come across an establishment where some kind of manufacturing, processing or servicing etc., is done, you should ascertain whether it is a Household Industry or a registered factory or a workshop not registered under the Factories Act and write whatever it actually is in this column. Please note that workshops merely licensed or entered in the registers of a local authority are not to be considered as registered factories unless registered under the Indian Factories Act. All workshops other than household industries and not registered under the Indian Factories Act should be treated as unregistered workshops even if they are merely licenced as workshops by the local authorities. Please do not write (a) or (b) or (c) in the column but write "Household Industry", or "Registered Factory" or "Unregistered Workshop", as the case may be.

Column 7: Description of the products, processing or servicing done

88. The description of the actual work relating to product, processing and servicing which is done in the Household Industry, factory or workshop that is being listed is to be recorded here, *e.g.*, handloom weaving, lace knitting, *oil ghani* etc., manufacturing of G.I. pipes, electroplating, motor or cycle repairing, iron foundry, paper making or book binding, printing and dyeing, shoe making, sweetmeat making etc. If in any establishment more than one article is produced or more than one kind of processing or servicing or repairing is done, indicate only the major kind of products or processing or repairing or servicing etc.

Column 8: Type of fuel or power used

89. Enter here the description of the power or fuel used for the running of the factory, workshop (or household industry if it is run on power or fuel). The fuels can be kerosene, soft coke, petrol, diesel, gas, coal, wood, etc. Electricity and steam etc. are some of the sources of power. Some units may be run by animal power such as *oil ghani*. Some may be run by merely human energy such as carpet-making, pottery making etc., Enter the description of fuel or power used for the production, processing, servicing etc., that is carried on in the establishment. There may be instances where more than one fuel or power is used, in such cases, only the fuel or power which is used in running the primary unit of the industry will be noted in this column.

90. *Columns 9 and 10 are to be filled in respect of trading establishments or establishments which render commercial services only.*

91. Trading or business establishments are those where some trading *i.e.*, transactions involving sale and/or purchase of goods go on.

Establishments rendering commercial services are the banks, money lending firms, Pawn shops, etc.

Column 9: Description of goods bought/sold

92. If it is a trading establishment, you should ascertain what are the goods bought and/or sold and write the description in this column. If there are more than one type of goods bought/sold by the establishment, you should give description of the main item of goods bought/sold by the establishment.

93. In the case of establishments rendering commercial services such as in the case of Banks etc., you should write the description of the services rendered, as in the case of a bank, you should write "banking services".

Column 10: Whether (a) wholesale or (b) retail

94. For all trading establishments, you should ascertain in respect of the goods mentioned in column 9, whether they are sold/bought in wholesale or in retail and write as the case may be.

95. You may come across certain establishments wherein both types of trade *i.e.*, wholesale and retail go on. In such cases, you should ascertain in which category (*i.e.* wholesale or retail) the volume of trade is greater and record the category accordingly.

96 In the case of establishments rendering commercial services, *e.g.*, bank etc., please do not write any of the two categories *i.e.*, 'wholesale' or 'retail' but put an 'X' in this column.

Column 11: If used as any other establishment, describe e.g., Government Office, School, Hospital, Railway Station, Barber's Saloon, Cinema Theatre, Hotel, Tea Shop, etc.

97. Two specific types of establishments have been covered in columns 6 to 10. Column 11 relates to the remaining types of establishments not covered by columns 6 to 10. You have to describe such establishments in this column, *e.g.*, Government Office, school, hospital, Railway Station, orphanage, Rescue Home, Barber's saloon, cinema, theatre, hotel, tea shop, lawyer's office, doctor's clinic, laundry, etc.

General:

98. It is possible that in a particular establishment, more than one activity is being undertaken within the same premises. For example say in a betel shop, *bidi* rolling is also being undertaken or in a grocery shop a flour mill is also located, or in the doctor's clinic medicines are sold. In such cases, the establishment should be identified having regard to the major activity and recorded as such in the relevant column pertaining to the major activity

99. But if different activities are undertaken in different Census houses quite cut off from one another though under the same title or ownership, each such Census house should be treated as a separate establishment and recorded as such against that Census house in this schedule. It may, however, be noted that where processing for the production of an article is carried on, in separate adjoining Census houses, all the Census houses should be treated as a single establishment and recorded as such. If on the other hand the activities of a large firm or an office are carried on in buildings located far away in different localities, each of the Census houses in the different localities, will have to be treated as a separate establishment and the particulars of the establishment relating to that particular Census house should be listed in this schedule.

100. After you have completed filling up of the Establishment Schedule for your block, you will prepare duplicate copy of the Establishment Schedule, for which you would be given adequate number of blank forms.

ANNEXURE A—Contd.

INSTRUCTIONS TO ENUMERATORS FOR FILLING UP THE INDIVIDUAL SLIP AND POPULATION RECORD

GENERAL

As a Census enumerator, you are performing a duty which is of great national importance. The data you provide through the Census form the basis for the demarcation of electoral constituencies; the national planning largely depends on the accuracy of the Census data. Census data are also depended upon heavily by the public and Government Organisations. You are privileged to be a Census enumerator. At the same time, your responsibilities are also heavy. You have to fulfil them with a sense of pride and devotion to duty.

2. For your information certain provisions of the Indian Census Act which clothes you with the legal power to canvass the Census questionnaire and also prescribes your responsibilities is reproduced in Annexure C.

3. Please take particular note of the provision of sections 11 (1) (a) and (b) of the Census Act which require you to perform your duty as a Census Officer diligently and to keep the information collected at the Census confidential.

4. The Indian Census has a rich tradition and has enjoyed the reputation of being one of the best in the world. It is hoped that you will help in keeping up this good name.

REFERENCE DATE AND ENUMERATION PERIOD

5. The reference date for the population Census of 1971 is the sunrise of 1st April, 1971 *i.e.*, the Census is expected to provide a picture of the population of the country as it exists at sunrise of 1st April, 1971. It is obviously not possible to ascertain the particulars of every individual throughout the length and breadth of the country at this fixed point of time. Therefore, the enumerator will actually commence his work of enumeration on 10th March, 1971 and end it on 31st March, 1971. You will, therefore, have to cover your jurisdiction and enumerate every person as will be explained in the succeeding paragraphs during that period of 21 days. But in order to bring the picture up-to-date as at sunrise of 1st April 1971 *i.e.*, the reference date for the Census, you will have to quickly go round your jurisdiction again on a revisit from 1st to 3rd April, 1971 and enumerate any fresh arrival in your jurisdiction who might not have already been enumerated elsewhere and also take account of any fresh births that might have taken place in any of the households after your previous visit and before the sunrise of 1st April, 1971 and fill in fresh Census schedules to cover such cases. As a corollary you will have to also cancel the Census schedules relating to persons who may have unfortunately died since your last visit to a household but prior to the sunrise of 1st April, 1971. Births or deaths and arrivals of visitors that had taken place after the sunrise of 1st April, 1971 need not be taken note of by you.

PAD NUMBER AND SLIP NUMBER

6. The Census Charge Officer or the Supervisor would have issued the required number of enumeration schedule pads of individual slips to you. Some may be in pads of 100 schedules and some of 25. On the top of the pad, the pad number would have been noted prominently by the Charge Officer. Soon after you receive your pad, you should check them and note on the right hand corner of each individual slip, within each book in the space provided for the purpose, the Pad Number as given on the top of the cover and you should also allot serial number to each schedule. The serial number of the schedules will have to be given by yourself in one sequence starting with one on the first schedule of the pad and ending with 100 in case of pads of 100 schedules and ending with 25 in case of pads of 25 schedules. In some pads the actual number of schedules may by mistake be a little more or little less. The last serial number in such pads may, therefore, vary accordingly. The ultimate idea is that every slip should be allotted the pad number as well as the distinct serial number.

LOCATION CODE AND YOUR JURISDICTION

7. On the top cover page of each book you will also find the location code number of your village or town indicating the district number, the tehsil or thana or town number and the village number. You may find that the district number and the tehsil number have been already stamped on each slip in the rural pads. In the case of urban areas, the town number may also be rubber stamped along with the district number. In rural areas you will have to note in addition the village number and the enumerator Block Number and for towns ward number, if any, and enumerator Block Number. But if on any slip, location code has not been stamped through oversight, you will have to note the combined location code number made-up of the district number, tehsil or thana or town number and the village/ward number and enumerator block number on each schedule on the left hand top corner in the space provided for the purpose. Elements of each code should be separated by oblique strokes. The enumerator block number may be noted within round brackets at the end of the location code. Please also see the instructions in para 22 below. You must get yourself fully acquainted with the complete code numbers allotted to your area. This will be intimated to you by your Census Charge Officer.

8. If you have, by any chance, been put in charge of more than one village or urban block, please make sure that you have separate pads for each village or urban block. Do not enumerate the population of a second village or a second urban block in continuation of the first in a common pad. The enumeration schedule pads of each village or urban block will have to remain separate.

9. Your appointment order would have defined your Census jurisdiction. You must acquaint yourself with your jurisdiction immediately your appointment order is received. You should get to know the relevant house numbers of the houses which you are expected to visit for enumeration. Any new houses that might have come up within the limits of your jurisdiction for which no number had been allotted before, should be indicated by a sub-number to the adjoining house number. You should also know the dividing line between you and the adjoining enumerator. Make sure that he also knows the boundaries of your jurisdictions so that there is no ambiguity, and overlapping or omission. In case of any doubt you should immediately consult your Supervisor or the Charge Officer.

10. Immediately you are appointed a Census Enumerator please prepare a detailed sketch of the area allotted to you showing the streets, other prominent land marks and also the location of the actual houses that you enumerate. This sketch is important in order that your area may be identified by any one even at a later date. This sketch will also ensure complete coverage at the Census. You will be required to give this sketch with your final abstract to your Supervisor immediately after the Census enumeration is completed.

PERSONS TO BE ENUMERATED

11. While your appointment order may indicate all the houses that fall in your jurisdiction you will have to locate every household in your area. A household is defined as 'the entire group of persons who commonly live together and take their meals from a common mess unless the exigencies of work prevent them from doing so'. A household can be either a one person household *i.e.*, a person who makes provision for his own food or other essentials for living without combining with any other person to form part of a multi-person household. It may be a multi-person household *i.e.*, a group of two or more persons who make common provision for food or other essentials for living. They may be related or unrelated persons or a combination of both. Households usually occupy a whole or part of not more than one housing unit but they may also be found living in camps, in boarding houses or hotels or other institutions or they may be homeless.

12. You will have to make note of the areas within your jurisdiction where there is a likelihood of houseless persons such as the pavement dwellers or nomads living. Those houseless persons should all be censused on the night of 31st March, 1971. You will also have to cover that night, persons living in boats, if any, in your jurisdiction.

13. All persons normally residing at a place within your jurisdiction during the Census enumeration period are eligible for enumeration. A person is considered as normally residing there if he normally stays in that place during the enumeration period *i.e.*, from 10th March till 31st March, 1971, and had in fact actually, resided there during any part of the enumeration period. If a person had been away throughout the enumeration period he is not to be considered eligible for enumeration here. He will be enumerated wherever he is actually found during the enumeration period. Similarly, a person who would have normally resided at another place during the enumeration period but in fact was absent during the entire period from that place will be enumerated if he is to be found in any household in your jurisdiction as a visitor. Such persons should, however, be cautioned that they should not get themselves enumerated again in case they may move from this place.

14. Thus when you visit a houschold for the purpose of enumeration, you will enumerate the following persons:

(i) All those who normally stay and are present in that household during the entire period of enumeration *i.e.*, from 10th March to 31st March; (both days inclusive).

(ii) Also those who are known to be normally residing, and had actually stayed during a part of the enumeration period (10-31st March) but are not present at the time of your visit;

(iii) Also those who are known to be normally residing and are not present at the time of your visit but are expected to return before 1st April, 1971 and

(iv) Visitors who are present in household censused by you but had been away from the place(s) of their usual residence during the entire enumeration period. For the purpose of enumeration such visitors will be treated as normal residents of the place (household) where they were actually found during the enumeration period provided they have not been enumerated elsewhere.

15. You should plan out your work in such a way that you wll be able to cover your entire jurisdiction in a systematic manner and you do not leave the work to be accumulated towards the end.

16. Your task is simple. You will be required to canvass only one simple Individual Slip containing 17 questions for each individual to be enumerated in your jurisdiction. You will have to later post some particulars on the Population Record and you have also to prepare an Abstract. You have to record the answers as laid down in the succeeding instructions briefly.

CENSUS SCHEDULE (INDIVIDUAL SLIP)

17. The Census schedule which is called the Individual Slip that you will be required to canvass is given on p. 334.

18. One slip will have to be filled for each individual in each household that you visit in your jurisdiction. You should first enumerate the Head of the household followed by the other members of the household in the most convenient order and ensure that none of the persons in the household is left out. Perhaps it is best that after enumerating the Head of the household, you cover the near relatives first such as, the wife, sons and daughters, son's wife and son's children, daughter's husband and their children forming part of the household, then distant relatives, and domestic servants or other boarders or visitors, forming part of the household and entitled to be enumerated here.

Please make repeated enquiries about infants and very young children for they are often liable to be left out of count.

19. The various items to be canvassed on the Individual Slip are explained in the following instructions :

Pad Number and Slip Number

20. Make sure that the Pad Number and the Slip Number have been noted by you on the top right hand corner of each schedule against the item provided as already indicated earlier under the general instructions. The noting of Pad Number and the Slip Number is necessary for, you will be later required to tabulate in an Abstract certain items of information of each schedule on a separate form where you will have to indicate the Slip Number concerned against which you will be posting the data. The Pad Number is the number already furnished on the top of the enumeration schedule Pad and the Slip Number is the serial number that you will be giving for each schedule in this Pad. You are also advised to use the Pads in a sequence starting with the lowest Pad number.

21. In case your jurisdiction covers more than one village or more than one urban block please ensure that you do not make use of a common pad of schedules for all the villages or urban blocks in your charge. There should be separate pads for each village or urban block even if there were a few blank schedules left over in the pad of a particular village or urban block.

Location Code :

22. Though this has already been referred to generally earlier, it is worth elaborating. The location code is the method by which every village or town in a tehsil/taluk/police station/ anchal/Island in every district of a State is identified by a combination of numbers. For this purpose, every district, tehsil, taluk, police station, anchal or Island, village or town, in your State would have been allotted code numbers. Your Charge Officer would have indicated to you the district, tehsil, taluk, police station, anchal or Island and the village or town numbers as also the ward number of the town pertaining to your jurisdiction. By a combination of these numbers one can exactly locate your village or town. Thus, a code number running as 10/3/46 would mean village number 46 in Tehsil number 3 of District number 10 of a State, or a code number running as 6/II/5 would mean ward No. 5 in Town number II of District Number 6. Note that the Town Number is given in roman figure to distinguish it from rural code number. At the end of the location code you should add within round brackets the enumeration block number that has been allotted to you by your Charge Officer thus 10/3/46(60) or 6/II/5(4). You will be identified by enumerators' block number and this has to be entered in your Daily Posting Statement. (The enumerators' block numbers will be a continuous number for the tehsil/ taluk/town etc).

23. Make sure that you know the correct location code of the area allotted to you. You should note down the location code on each blank individual slip immediately the enumeration pads are issued to you. This will save you the trouble of noting the location code number later when you actually visit each household within your block for enumeration. When you visit the household you may have to then note only the household number as indicated in the next para by the side of the location code number which you would have already indicated.

Household Number

24. The identifying household number of the household that you are covering at the Census should be noted within the square brackets provided for the purpose. As you may be aware, Houselisting and Housenumbering operation was undertaken during 1970 with a view to numbering each Census house and locating all households living in Census houses. In the course of this operation, each Census house was given a number and households found therein would also have been allotted a number. The Census house numbers would be painted on the houses at prominent place, like the pillar of the main gate, top of the main door etc. Sometimes there may be more permanent housenumbering plates affixed. In the case of thatched houses, numbers may have been written out on a tin plate or wooden board and left with the households with a request to preserve the same. You should use this number.

25. It may happen that when you visit your area for Census taking you may come across some Census houses which did not exist at the time of houselisting and therefore, no numbers had actually been allotted to them. You should allot a number after consulting the order of numbering prevailing in your jurisdiction (Please see Appendix I and locate the households living therein. For example, if in between buildings 9 and 10 another building has come up ; you should allot the number 9/A to this structure and in case more than one building has come up numbers like 9/A, 9/B, 9/C and so on should be used for the new structures then locate the Census houses in accordance with the instructions in Appendix I and thereafter locate the households and allot numbers in the prescribed manner. The household number will be the same as the house number if only one household is living in a house. If there were more than one household then alphabetical sub-numbers within brackets as 19(a), 19(b), etc. will have to be added to the house number to distinguish each household. It may also happen that the number given at the time of houselisting has been obliterated. You should allot the correct number having regard to the preceding and succeeding buildings.

26. For the purpose of conveniently understanding the housenumbering system, the instructions governing the numbering of buildings, Census houses and households are given in Appendix I.

27. *If the household happens to be an institutional household such as a boarding house, hostel, hotel, chummery etc. where a group of unrelated persons stay together then add 'INST' to the household number.*

28 *If you are enumerating the houseless persons, you should record 'O' boldly in the space provided for the household number.*

29 In all the individual slips pertaining to the members of the same household, the household number will be repeated. You will then start recording the particulars of each individual against questions indicated in the Individual Slip according to the instructions that follow.

Please do not write anything in the spaces enclosed by dotted lines in question Nos. 2, 3, 5, 6(b), 7(b), 7(c), 7(d), 8(b), 8(c), 8(d), 9 – 15 16(a), 16(d), 16(e), 16(f), 17(a), 17(d), 17(e) and 17(f). These are meant for writing code numbers in the Tabulation Offices.

Question 1: Name

30. Write the name of the person enumerated. If a woman's name is not given out, describe her as 'so and so's wife, mother or daughter'. By custom if a woman finds it difficult to give the name of her husband and if the man is absent at the time of enumeration but his particulars have to be recorded write 'so-and-so's husband' if you have failed to ascertain the name even from the neighbours.

For newly born infants who have not yet been given the name write "baby" and add father's or mother's name.

Question 2: Relationship to Head

31. In the case of the Head of the household write 'Head'. The Head of the Household for Census purposes is a person who is recognised as such in the household. He is generally the person who bears the chief responsibility for the maintenance of the household and takes decisions on behalf of the household. The Head of the household need not necessarily be the eldest male member, but may even be a female or a younger member of either sex. You need not enter into any long argument about it but record the name of the person who is recognised by the Household as its Head.

32. In the case of institutions like boarding houses, messes or friends living together in one Census house, which should be regarded as households of unrelated persons living together, which may be called Institutional Households, the Manager or Superintendent or the person who has administrative responsibility or who by common consent is regarded as the head should be recorded as the Head of the household.

33. The Manager or Superintendent who does not stay normally in the institution should be enumerated at his place of normal residence. You should make sure before filling up the slip for the Manager or Superintendent etc. of an institutional household that he/she has not been enumerated at any other household.

34. In the case of absence of a normal 'Head', the person on whom the responsibility of managing the affairs of the household falls, should be regarded as the Head.

35. All relationships in this question should be recorded in relation to the Head of the household. Write the relationship in full. Do not use words like 'nephew', 'niece or uncle', but state whether brother's or sister's son or daughter (for nephew or niece) or father's or mother's brother (for uncle), 'Son' will include 'adopted son' or 'step son'; similarly for a daughter. In the case of visitors, boarders, or employees, write 'visitor', 'boarder', or 'employee' as the case may be. In the case of institution, the members should be recorded as 'unrelated'.

36. If on the check of revisional round between 1st and 3rd April, 1971 the Head of the household as recorded previously is found to have died, the person in the household who succeeds him by common consent as head should be recorded as Head and the relationships in all other slips will have to be suitably corrected. The slip of the deceased Head of the household will, of course, be cancelled.

Question 3: Sex

37. For males write 'M' and for females write 'F' within the circle indicated against this question. Even for eunuchs and hermaphrodites, write 'M' only. Verify with reference to the name and relationship to Head against questions 1 and 2 respectively that you have noted the sex correctly.

Question 4: Age

38. Record the age of the person in total years completed last birthday. Very often there is a tendency on the part of the individuals to return 'years running' rather than the 'years completed'. Make sure that only the actual number of years completed is recorded.

39. In respect of infants who *might not have completed one year* by the day of enumeration their age in completed years should be invariably shown as '0' as they have not yet completed one year of age and add 'Infant' in brackets. As was stated under general instructions make sure that infants even if a day old are invariably enumerated. *You should not enter the age in months.* The age of an infant who has not yet completed one year should invariably be noted as '0' only.

40 Age is one of the most important items of demographic data and you should ascertain the age with greatest care. Many persons particularly in the rural areas cannot give their age correctly. They should be assisted to state the correct age by stimulating their memory with reference to any historical event etc., well known in the area. Sometimes the age can be ascertained with reference to the age of another person of a known age that may be in the same household or in the neighbouring household or that of a well known person of the village such as Headman of the village. A person can more easily say whether he was older or younger to such a person and by how many years. This will help you to record the age more accurately.

Question 5: Marital Status

41. In answering this question use the following abbreviations :

NM : Never Married
M : Currently Married
W : Widowed
S : Separated or Divorced

42. For a person who has never been married at any time before, write 'NM'. For a person currently married, whether for the first or another time and whose marriage is subsisting at the time of enumeration with the spouse living, write 'M'. Write 'M' also for persons who are recognised by custom or society as married and for the persons in stable *de facto* union. Even if a marriage is disputed in the locality write 'M' if the person concerned says he or she is married or is in stable *de facto* union. For a widowed person whose husband or wife is dead, and who has not been married again, write 'W'. For a person who has been separated from wife or husband and is living apart with no apparent intention of living together again or who has been, divorced either by a decree of a law court or

by an accepted social or religious-custom but who has not re-married, write 'S'. For a prostitute return her marital status as declared by her.

Question 6: For currently married women only

43. This question has to be answered in respect of all currently married women only *i.e.*, all women whose marital status is shown as 'M' against Q. 5. For all others a cross may be put through the two sub-parts of this question.

6 (a) Age at marriage

44. *Age at marriage:* You should ascertain the age at which the currently married woman whom you are enumerating was married and record that age in completed years. If the currenty married woman had been married more than once, the age at which she got married for the first time should be recorded.

6 (b) Any child born in the last one year

45. *Any child born in the last one year:* You should ascertain if the currently married woman whom you are enumerating gave birth to a child in the last one year prior to the date of enumeration. Since it may be difficult for a person to reckon the exact year with reference to the English calendar dates, the period of one year may be ascertained with reference to a well known festival day which falls close to Feb.-March, as determined by the Census Superintendent of the State. You should ask if a child was born on or after this festival day last year to the date of enumeration. Only if the child was born alive, even if the child had died soon after birth, should the answer be 'Yes', to this question. *Still birth, i.e. a child which is born dead should not be taken into account for this purpose.* So while you should make sure that every case of birth of child born alive, even if it is not alive on the date of enumeration, is reported, you should not reckon it if the child was born lifeless.

46. It is common experience that the birth of the child may not be reported readily if the child is not actually surviving at the time of enumeration. Infant deaths are still high in the country. There is a chance of a number of cases being missed unless specifically questioned about them. It is necessary to record all live births even if the child had died soon thereafter or had not survived to the day of enumeration. Therefore where the initial answer to this question is 'no', you should ask a specific quesion if there has been a case of child having been born alive in the last one year and later dying before the enumeration date. This is a delicate question and should be asked with tact in a manner not to offend the sensibility of the respondent. Where a currently married woman first answers that she had no child born in the last one year, you may perhaps question her as follows:

"It has been found in some houses that a child was born and had died soon after or a few days or months later and such cases not been reported. It is my hope that there are no such cases here. Am I right?"

This may bring in the required response. If she reports 'no' then you can be sure that no birth has been missed. You have to make sure that any live birth that has occurred to the currently married woman in the last one year is netted whether the child is surviving till the date of enumeration or not. Similarly, probe to eliminate still births may be necessary. For example, when the answer is 'yes' under question 6(b) the enumerator might ask if the child is here in this house. If the answer is 'yes', no further question is needed. If 'no', the enumerator might ask where he has gone. The answer may be 'dead' or he has gone elsewhere. If 'dead' then the enumerator might ask when did the child die and this will bring out the fact whether or not it was a still birth.

47. Write 'Yes', if the currently married woman had given birth to a live child from the prescribed festival day last year to the date of enumeration or 'no' if she had not. In case of twin or multiple births, write 2, 3, etc., as the case may be within round brackets after the entry 'Yes'.

Note:—You may find on your revisional round from 1st to 3rd April, 1971 that a child is born to a married woman in a household after your last visit but before the sunrise of 1st April, 1971. You will have to take this into account and correct the answer against the Q. 6 (b) accordingly. You must enquire specifically if any such birth has taken place. While ignoring still births all other births where the child was born alive even if it did not survive long should be taken into account.

Question 7: Birth Place

48. Answer to this question has to be filled with reference to the place of birth of the persons enumerated and the particulars recorded under the four sub-items of this question.

Question 7: (a) Place of Birth

49. Write 'PL' for a person born in the village or town where he is being enumerated. Where 'PL' is noted against this question put 'X' against sub-items (b), (c) and (d).

For those born outside the village or town of enumeration write the actual name of the place against sub-item (a) and fill the other details against sub-items (b), (c) and (d).

Question 7: (b) Rural/Urban

50. For those born outside the village or town of enumeration ascertain if the place of birth was a village or town at the time of his birth. To enable a person to determine whether the place was a town or a village he may be required to indicate the status of the place of birth in comparison with a known town in the neighbourhood of the place of enumeration. You may mention some important urban characteristics to enable the person to make out if the place of his birth was rural or urban *e.g.*, existence of a local administrative body, Industrial townships declared as towns etc.

For a person born in a village, write 'R'.

For a person born in a town/city, write 'U'.

For a person born in a foreign country put 'X' against this sub-item and also against sub-item (c). If all efforts to classify the place of birth as rural/urban fail, write 'not known'.

7: (c) District

51. For a person born outside the village or town of enumeration but within the district of enumeration write 'D'.

For a person born in another district of the State of enumeration, or other State/Union Territory in the country, write the name of the district. If the person cannot name the district, write 'not known'.

7 (d) State/Country

52. For persons born within the State of enumeration write 'X' against this item. Make sure that the earlier entries made in sub-items (a), (b) and (c) are consistent with such an answer; that is 'PL' might have already been written against sub-item (a) or 'D' is written against sub-item (c) or any other district of the State of enumeration is mentioned against sub-item (c).

53. For persons born outside the State of enumeration but within the country, write the name of the State/Union Territory where born.

54. For those born outside India, note merely the name of the country and there is no need to enter the name of the constituent State of the foreign country. Where a person cannot name the country, the name of the continent may be noted.

55. For a person born on sea, record 'born at sea', against this sub-item and put 'X' against sub-items (a), (b) and (c). If a person was born in a train, boat or bus etc., within the country, write the particulars in (a), (b) and (c) with reference to the administrative territory where the event occurred or was registered.

Question 8: Last Residence

56. Answer to this question will have to be filled in respect of every person if he had another place of normal residence irrespective of his place of birth, before he came to the present place where he is enumerated. Even if a person were born at the place of enumeration, by the nature of his work or for studies etc. he had shifted subsequently to another village or town and had come back again to the place of enumeration, he should be deemed to have had another place of residence prior to his enumeration here.

The last previous residence is relevant only if he had been outside the village or town of enumeration and not simply in another house or locality in the same place. For example, if a person born in one part of Bombay City is found residing in another part of Bombay at the time of enumeration, the change of residence should not be treated as change of place of residence because both the areas are comprised in the same City of Bombay. Similarly, a person born in hamlet 1 of village Rampur and found in hamlet 2 of the same village at the time of enumeration, should not be deemed to have had any other place of residence than the village where he is enumerated. Where a person had merely gone out to another place or had been shifting from place to place purely on tour or pilgrimage or for temporary business purposes, he should not be deemed to have had another residence different from the place where he or his family normally resides but if the person had his normal residence, *i.e.*, if his normal home had been elsewhere at any time before he is enumerated at his place of present residence, irrespective of where he was born, such place of his previous residence should be recorded here.

8 (a) Place of last residence

57. For a person who had been in the village or town of enumeration continuously since birth (except for shifting to other places outside the village or town of enumeration for a purely temporary stay) write 'PL' against sub-item (a) and put 'X' against sub-items (b), (c) and (d).

For a person who had had his last previous residence at any place outside the village or town of enumeration (irrespective of his place of birth), write the actual name of the village or town where his last residence was against sub-item (a) and fill the other details against sub-items (b), (c) and (d).

8 (b) Rural/Urban

58. For a person who had previously resided outside the place or enumeration ascertain if the place of last previous residence was rural or urban and record the answer. For a person whose last previous residence was a village write 'R'. For a person whose last previous residence was a town/city write 'U'. For a person who last resided in a foreign country write 'X'. For a person whose last previous residence cannot be classified, write 'Not known'.

Rural or Urban status has to be determined with reference to the time of migration from the place of last previous residence to the place of enumeration.

For helping the person to determine whether a place was rural or urban, you may mention important urban characteristics as indicated in the instructions against item 7(b) in para 50.

8 (c) District

59. For a person who had previously resided in another place, *i.e.*, for whom 'PL' is not written against sub-item (a) you have to fill in this item in the manner indicated below :—

For a person who previously resided in another village or town within the district of enumeration write 'D'. For a person who previously resided in another district of the State/Union Territory of enumeration or of other State/Union Territory in the country, write the name of the district. If he cannot name the district write 'Not known'. For a person whose last previous residence was outside India write 'X' against this sub-item.

8 (d) State/Country

60. For a person whose last previous residence was outside the village or town of enumeration but within the State or Union Territory of enumeration write 'X' against this item but if it was outside the State or Union Territory of enumeration but within the country write the name of the State/Union Territory. For a person whose last previous residence was outside the country write the name of the country and if name of the country is not forthcoming write the name of the continent.

For persons who had not moved out at all from the present place of enumeration from birth (except for purely temporary stay) this sub-item need not be filled and 'X' should be put in respect of persons against this sub-item.

Question 9: Duration of Residence at the village or town of Enumeration

61. Note here the period of the existing continuous residence in the village or town where the person is being enumerated, in completed years. This will apply to even a person born at the place of enumeration. If he had left this village or town and had lived elsewhere for sometime *i.e.*, in Q. 8 another place of last residence is reported and has come back again to this village or town, then the duration of residence to be noted against this question is the period of the last continuous residence. But if a person had been away on a temporary visit or tour etc., that should not be taken as a break in the period of his continuous residence here. If the person was born at the place of enumeration and also had no other place of last residence *i.e.*, 'PL' has been noted in Q. 8(a) then 'X' may be put against Q. 9.

For a person whose duration of continuous residence at the place of enumeration is less than 1 year, it should be noted as 'O'.

Question 10: Religion

62. In answering this question use the following abbreviations :

H : Hinduism
I : Islam
C : Christianity
S : Sikhism
B : Budhism
J : Jainism

For others record the actual religion as returned fully.

63. If a person says that he has no religion it may be recorded accordingly. Do not mistake relgion for caste which will not be recorded here

Question 11: Scheduled Caste or Scheduled Tribe

64. You have been furnished with a list of scheduled castes and scheduled tribes notified for your State. Ascertain if the person enumerated belongs to a scheduld caste or scheduled tribe and if he does, then record the name of the scheduled caste or scheduled tribe which should find place in the list furnished to you. The answer should be recorded against the correct rectangle provided for the purpose against this question. For a person who is not a member of any scheduled caste or scheduled tribe write 'X' in both the rectangles.

65. If the person belonging to a scheduled caste or scheduled tribe returns his caste or tribe by synonym or generic name of a caste or a tribe it should be entered only if it finds a place in the list furnished to you. Do not write the names of scheduled castes in general terms as 'Harijan' or 'Achhut'. You should ascertain the name of the caste when it is returned and write it in the rectangle provided for recording the name. Similarly, do not write the names of scheduled tribes in general term as 'Adivasi'. You should ascertain the name of the tribe when it is returned and write it in the rectangle with broken lines provided for recording the same. If a person is negligent and insists on calling himself merely 'Harijan' or 'Achhut' or 'Adivasi' as the case may be, tell him that this description is not adequate for Census purposes and persuade him to give out the actual name of the caste or tribe. You should make all efforts to ascertain the correct name of the scheduled caste or scheduled tribe as found in the notified list. If the person merely claims to be a scheduled caste or scheduled tribe but says that he does not belong to any of the notified communities applicable to the area, he will not be entered as a scheduled caste or scheduled tribe.

66. Scheduled castes can belong only to the Hindu or Sikh religions. If a person belongs to scheduled caste, there will be either 'H' or 'S' in the answer to question 10. Scheduled tribes may belong to any religion.

Question 12: Literacy (L or O)

67. *Definition of a literate* : A person who can both read and write with understanding in any language is to be taken as literate. A person who can merely read but can not write is not a literate.

68. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard.

69. For a person who is literate *i.e.*, who can both read and write, record 'L' in the triangle against question 12. If there is any doubt about a person's ability to read or write, the test that may be applied for reading is his/her ability to read any portion of the printed matter in the Enumerator's Instructions and similarly for writing he/she should be able to write a simple letter. Ability merely to sign one's name is not adequate to qualify a person as being able to write with understanding. If a person claims to be literate in some other language with which the enumerator is not acquainted, the respondent's word has to be taken as correct. Other members of the household may also be able to testify to the literacy of the person enumerated.

70. For a person who is illiterate *i.e.*, who can neither read nor write or can merely read but cannot write, in any language, write 'O' in the triangle against question 12. All children of the age of 4 years or less should be treated as illiterate even if the child is going to a school and may have picked up reading and writing a few odd words.

Question 13: Educational level

71. This question will be asked of those for whom 'L' has been recorded against question 12. For a person who is illiterate and "O' has been put against him in the answer to question 12, there is no advantage in ascertaining the educational level even if he had at some stage attended school and passed a standard and had relapsed into illiteracy. In such a case you should put 'X'. You have to ascertain and record the highest educational level attained by a person for whom 'L' is recorded in answer to question 12.

72. For a person who is still studying in a particular class, the highest educational level attained by him will be one that he has actually passed and not the one in which he is

studying. For example, a person studying in 1st year B.A. should be recorded as only 'PUC' or 'Higher Secondary' as the case may be. Similarly, a person studying, say, in the 4th year of 'MBBS' should not be noted as 'MBBS' but as 3rd year 'MBBS' which is the highest level he has actually attained. If you are not sure whether a person has passed Primary, Middle, Higher Secondary or other definite levels, you may record the actual standard passed such as say IIIrd standard, VIIIth standard, 1st year B. Com. etc.

The highest educational level attained by the person enumerated should be recorded. When a person holds both general and technical qualifications both of which are of equivalent level such as say B.Sc. (Zoology) and M.B.B.S. or B.A. (Maths.) and B.E. (Bachelor in Engineering), the technical qualification should be given preference in recording the highest educational level attained. Where the general educational level is higher than the technical educational level or where it is not possible to decide which of the two levels is relatively higher, the highest level of education as returned by the person concerned should be recorded.

In recording the highest educational level of a graduate or a post-graduate subject of specialisation such as B.Sc. (Maths), M.A. (Economics), M.Sc. (Botany)', B.Sc. (Agriculture), etc., should be noted. You should not use abbreviations which are not in common use. In such cases, the degree or diploma should be spelt out fully.

73. Whenever you come across graduates or post-graduates as also those with a technical diploma or degree, you will have to issue him a "Degree-holder and Technical Personnel Card" and ask the person concerned to fill it. You should note the location code on the card while issuing it. Put a tick ($\surd$) after noting the educational level against question 13 immediately after you issue a card. When you collect it after some time but before you complete the enumeration of your area, cross the tick and put a circle as (ϕ).

You will have to ensure that the card issued to all the graduates and the technical degree or diploma holders are collected back. The non-crossed tick, if any, against question 13 will show that the card has not been collected.

Question 14: Mother-tongue

74. *Definition*: Mother-tongue is the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother-tongue. In the case of infants and deaf mutes the language usually spoken by other members of the household shall be recorded.

75. Record mother-tongue in full whatever be the name of the language as returned and avoid use of abbreviations. You are not expected to determine if the language returned by a person is the dialect of another major language and so on. You should not try to establish any relationship between religion and mother-tongue. *You are bound to record the language as returned by the person as his mother-tongue and you should not enter into any argument with him and try to record anything other than what is returned.* If you have reason to suspect that in any area due to any organised movement, mother-tongue was not being truthfully returned you should record the mother-tongue as actually returned by the respondent and make a report to your superior Census Officers for verification. You are not authorised to make any correction on your own.

Question 15: Other languages

76. After recording the mother-tongue in question 14 enquire whether the person knows any other language(s), Indian or foreign and record language(s) returned by him against this question. In case he does not know any language apart from his mother-tongue put 'X' against this question.

77. The number of languages recorded under the question need not be more than two. These languages should be other than his mother-tongue and they should be recorded in the order in which he speaks and understands best and can use with understanding in communicating with others. He need not necessarily be able to read and write these languages. It is enough if he has a working knowledge of these subsidiary languages to enable him to converse in that language with understanding.

Question 16: Main Activity

78. Every person will be asked what his main activity is, that is, how he engages himself mostly. For the purpose of this question, all persons will get themselves divided into two broad streams of main activity namely, (1) as workers and (2) as non-workers according as the type of main activity that the person returns himself as engaged in mostly.

79. *'Worker' defined*: A 'worker' is a person whose main activity is participation in any economically productive work by his physical or mental activity. Work involves not only actual work but effective supervision and direction of work.

80. *Reference Periods*: The reference period is one week prior to the date of enumeration in the case of regular work in trade, profession, service or business. If a person had participated in any such regular work on any one of the days during this reference period and this has been returned as his main activity, the person will be categorised accordingly. A person who normally works but had been absent from work during this reference period on account of illness or travel, holiday, temporary breakdown, strike etc., the person should be treated as engaged in regular work in which he would have otherwise been employed but for this temporary absence. Persons under training such as apprentices with or without stipend or wages should be considered as economically active and recorded as working. A person who has merely been offered work but has not acually joined it, is not to be treated as engaged in work.

81. There are certain types of works which are not carried on throughout the year such as cultivation, live-stock keeping, plantation work, some types of household industry, etc. A person's main actvity should be ascertained with reference to such work, in the last one year even if he was not economically active in the week prior to enumeration. It is likely that even when a person is engaged in some other work during the period of one week prior to the date of enumeration, the main activity of the person may be cultivation, agricultural labour or some other work attended to normally by him in the course of the

year. Care must be taken to see that the main activity is properly ascertained in such cases. For example, a person's main activity may be agricultural labour and in the week prior to enumeration he may be engaged as a sugarcane factory labourer or as a road cooly. He should be categorised for his main activity as agricultural labourer only as returned by him as he engages himself mostly in that work and the other work should be treated as his subsidiary work.

82. A man or woman who is engaged primarily in household duties such as cooking for own household or performing one's own household duties or a boy or a girl who is primarily a student attending institution, even if such a person helps in the family economic activity but not as a full time worker should *not* be treated as a worker for the main activity. On the other hand, if a person is primarily engaged in some economic activity but at the same time does also attend to some household chores or attends a night school etc., he or she should be treated basically as a worker for the main activity and categorised accordingly.

83. A person who merely receives an income such as a rent receiver or a pensioner who does not have to work for receiving the income, will not be treated as economically active unless the person is also engaged in some economic activity and if that activity is returned as the main activity of the individual.

Q. 16 (a) Broad Category (i) Worker (C, AL, HHI, OW) (ii) Non-worker (H, ST, R, D, B, I, O).

84. The main activity returned by the person will entitle him to be categorised either as a worker in 16 (a) (i) or as a non-worker under 16 (a) (ii).

16 (a) (i) Worker (C, AL, HHI, OW)

85. Where the main activity of a person qualifies him to to be treated as a worker he should be further categorised according to the type of work and one of the appropriate abbreviations indicated against this question should be entered in the box provided for the purpose. If the person is not engaged in any economic activity an 'X' should be noted in the box. The abbreviations to be used for workers are explained below :

C: Cultivator

86. For a person who returns his main activity as working as a cultivator, the abbreviation 'C' should be used.

87. *Definition of Cultivator* : For purposes of the Census a person is working as Cultivator if he or she is engaged in cultivation by oneself or by supervision or direction in one's capacity as the owner or lessee of land held from Government or as a tenant of land held from private persons or institutions for payment of money, kind or share.

88. Cultivation involves ploughing, sowing and harvesting and production of cereals and millet crops such as wheat paddy jowar, bajra, ragi etc., and pulses, raw jute and kindred fibre crop, cotton etc., and other crops such as sugarcane, groundnuts tapioca, etc., and does not include fruit growing, vegetable-growing or keeping orchards or groves or working of plantations like tea, coffee, rubber, cinchona and other medicinal plantations.

89. A person who merely owns land but has given out land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, will not be treated as working as cultivator. Similarly, a person working in another person's land for wages in cash, kind or share (Agricultural labourer) will not be treated as cultivator in this question.

AL: Agricultural Labourer

90. A person who returns his main activity as engaged as agricultural labourer, the abbreviation 'AL' should be used in the box.

91. *Definition of an Agricultural Labourer* : A person who works in another person's land for wages in money, kind or share should be regarded as an agricultural labourer. He has no risk in the cultivation but he merely works in another person's land for wages. The labourer could have no right of lease or contract on land on which he works.

HHI: Household Industry

92. For a person who returns his main activity as engaged in some production, processing, servicing or repair of articles of goods such as, say, handloom weaving, dyeing, carpentry, *bidi*, rolling, pottery manufacturing, bicycle repairing, blacksmithy, tailoring etc., it has to be ascertained if it is a household industry, and if so, it should be indicated by the abbreviation 'HHI' in the box.

93. *Definition of a Household Industry*

A Household Industry is defined as an industry conducted by the Head of the household himself/herself and/or mainly by the members of the household at home or within the village in rural areas and only within the premises of the house where the household lives in urban areas. The industry should not be run on the scale of a registered factory.

94. The main criterion of a Household Industry is the participation of one or more members of a household. This criterion should apply to urban areas too. Even if the industry is not actually located at home in rural areas there is greater possibility of the members of the household participating even if it is located anywhere within the village limits. In the urban areas where organised industry takes greater prominence, the Household Industry should be confined to the precincts of the house where the participants live. In urban areas even if the members of the household by themselves run an industry but at a place away from the precincts of their home, it will not be considered a household industry. It should be located within the precincts of the house where the members live.

95. A Household Industry should relate to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. It does not include professions such as a pleader or doctor, or barber, musician, dancer, waterman, *dhobi*, astrologer, etc., or merely trade or business, even if such professions, trade or services are run at home by members of household. A list of a few typical Household Industries is appended to these instructions at Appendix II.

96. Sometimes it is likely that the person who may not be working in his own Household Industry may be working

as a petty employee in another Household Industry. You should, therefore, enquire whether the person who is not working in his own Household Industry is working in any other Household Industry as an employee and record as per instructions given above.

OW: Other Workers

97. If a person gives his main activity as engaged in any other work which is not cultivation, agricultural labour or household industry, this may be indicated by merely noting 'OW' in the box. The type of workers that may come under the 'Other Workers' category are factory workers, those working in trade or transport, all Government servants, municipal employees, teachers, mining workers, political or social workers, building labourers, etc. etc. In effect, all types of economic activity not covered by cultivation, agricultural labour or household industry will come under this residual category. Workers engaged in plantation or forestry should not be treated as cultivators or agricultural labourers but as 'Other workers'.

98. Further details pertaining to this 'Other' category of workers, as also those engaged in household industry, will be recorded in the subsequent sub-parts (b) to (f) of question 16.

16 (a) (ii) Non-worker (H, ST, R, D, B, I, O)

99. As was stated earlier, question 16 is intended to ascertain the main activity of every individual whether he or she is economically active or not. While 16 (a) (i) helps to broadly categories all those who have returned some work as their main activity, 16(a)(ii) will help to categorise those whose main activity is not engaged in any economically productive work, but are basically non-workers. These may be categorised under seven broad heads whose abbreviations are indicated against this question. The appropriate abbreviation will have to be entered in the box provided. The abbreviations are explained below :

H: Household Duties

100. This covers all those persons basically engaged in unpaid home duties doing no other work, or even if such a person may also be participating in some other work, it is not to the same extent as a whole-time worker and if the person has returned his or her main activity as attending to household duties. The main activity of such a person should be entered as 'H'. If a person whose main activity is attending to household duties, also engages oneself in some other economic activity such as helping in family cultivation or preparing cowdung cakes at odd times for sale etc., that economic activity will be covered as secondary work under question 17. On the other hand, a woman who works primarily as a factory worker or a plantation labourer or an agricultural labourer or in some office or shop etc., and also attends to household duties, obviously her main activity will be the economic activity in which she is mostly engaged in and should not be categorised as 'H' for her main activity in this question. She should have been treated basically as a worker and her main economic activity should have been recorded against 16 (a) (i).

ST: Student

101. This refers to those whose main activity is returned as a student. This will cover all full-time students or children attending school. Even if such persons participated in some work but not to the same extent as a full-time worker, by merely helping casually as an unpaid family worker in family cultivation, household industry, trade or business, they should be treated primarily as students, if that is their main activity. 'ST' should be entered in the box; The other economic activity, if any, that such persons attend to will be reflected under question 17 as secondary work.

R: Retired Person or a Rentier

102. A person who has retired from service and is doing no other work *i.e.*, not employed again in some full-time work or does not engage himself in some other work as cultivation, in business, trade, etc., or a person who is a rentier or living on agricultural or non-agricultural royalty, rent or dividend, or any other person of independent means for securing which he does not have to work, will come under this category. 'R' should be noted in the box for a person coming under this category.

D: Dependent

103. This category will include all dependents such as infants or children not attending school or a person permanently disabled from work because of illness or old age. If a girl or an old woman attends to household duties she should be categorised under 'H' for her main activity rather than 'D'.

Dependents will include all non-workers even if able-bodied who have no other activity coming under any of the categories of non-workers and who are not seeking any work either but are purely dependent.

B: Beggars etc.

104. This will cover beggars, vagrants or such cases as independent women without indication of source of income and those of unspecified sources of subsistence and who are not engaged in any economically productive work.

I: Institutions

105. This will cover convicts in jails or inmates of a penal, mental or charitable institution, even if such persons are compelled to do some work such as carpentry, carpet weaving, vegetable growing etc., in such institutions. An under-trial prisoner in a jail should not, however, be brought under this category but has to be indicated according to the main activity he was engaged in before he was apprehended. Inmates of such institutions will be noted as 'I'.

O: Other Non-workers

106. This will include all non-workers who may not come under any of the six categories above but are seeking work, they should be noted as 'O' in the box. A boy or girl who has completed education or has stopped studying and is seeking work, will come under this category. If a person is merely spending his time at home as a dependent and is not doing any work and is not seeking any work will come under 'D' rather than 'O'. A person irrespective of age and whether educated or not, if he reports that he is not engaged in any other activity but is seeking work will come under this category.

107. If the main activity of the person who is enumerated does not qualify a person to be treated as a worker and he does not fall under any of the four broad categories of workers covered by 16 (a) (i) and an 'X' has been put in the box against that question, then he must necessarily be categorised under any one of the seven broad types of non-workers and the appropriate abbreviation entered in the box opposite to question 16 (a) (ii). Conversely if a person has already been treated as a worker and his main activity has been indicated in the box against question 16 (a) (i), then question 16 (a) (ii) will not apply to the person and an 'X' should be put in the box against question 16 (a) (ii). Thus 16 (a) (i) and 16 (a) (ii) are mutually exclusive.

Q. 16 (b) to 16 (f)

108. These sub-parts of question 16 will have to be filled only to describe the details of the household industry or other work indicated against question 16 (a) (i). If the main activity has been shown as 'C' or 'AL' against 16 (a) (i), there is no need to give the details of the cultivation or agricultural labour in these sub-sections.

109. Similarly, if the main activity of an individual has been returned as a non-worker against 16 (a) (ii), sub-sections (b) to (f) will not apply and a 'X' may be put right across all these questions.

Q. 16 (b): Place of work (Name of village/town)

110. Ascertain from each person who is already taken as a worker other than in cultivation or agricultural labour *i.e.* question 16 (a) (i) has been answered as HHI or OW, the village or town where he or she works. If the place of work is the same as the village or town of enumeration write 'PL'. In all other cases you should write the name of the place fully. If a person has no fixed place of work such as, say, a travelling vendor of vegetables or a pedlar or a rickshaw puller who may go from one village or town to another, note 'No fixed place of work'. If he works in one particular town or village that should be noted.

Q. 16 (c): Name of Establishment

111. This question and the subsequent sub-sections of question 16 need not be answered for cultivators and agricultural labourers who are already noted as 'C' or 'AL' against question (16) (a) (i).

Record here the exact name of the factory, firm, workshop, business house, company; shop, office etc., and in respect of public offices you should clearly indicate whether they are Central or State Government or local body offices, etc. If the establishment does not have any definite name such as, say, in the case of a household industry like hand pounding of rice, gur making, bee keeping, handloom weaving, potter's house, blacksmithy etc., note 'No particular name'.

Q.16 (d): Nature of Industry, Trade, Profession or Service

112. The answer to this question will have to be adequately precise to enable proper classification of the sector of economy in which the person is working. The sector of economy in which a person works may relate to (i) Plantation, Forestry, Fishing, Livestock etc., (ii) Mining and/or Quarrying (iii) Manufacturing (iv) Construction (v) Electricity, Gas or Water Supply (vi) Transport and Communications (vii) Trade and Commerce (viii) Professions and Services. Full details of the type of industry, trade – profession or service in which the person is engaged will have to be recorded here. To help you to appreciate the details that may have to be furnished to classify the economic activity appropriately, substantial description of various economic activities are furnished in Appendix III categorised under certain broad classifications. The list in Appendix III is not exhaustive. You shall have to describe the nature of Industry, Profession, Trade or Service whatever it is, in as precise a detail as possible.

Q. 16 (e): Description of work

113. This question has to be filled up for all persons for whom the main activity is shown as 'HHI' or 'OW' in question 16 (a) (i) and for whom you should have also to answer the other sub-sections of question 16. Under this question, the description of the actual work that the person enumerated is doing is to be recorded irrespective of which type of industry, trade, profession or service he may be working and which is already recorded under question 16 (d). His actual work should also be given in sufficient detail. If for example a person is merely recorded as say, clerk with no other details, it will be impossible to properly categorise him as to the type of work he does. He may be a clerk attending to correspondence or book keeping or accounting. Similarly if a person were merely to be recorded as a mechanic, it will not help to determine what type of mechanic – electrical mechanic, or a motor mechanic or a locomotive mechanic, etc., he is. The description of the actual work done by a person should be ascertained in adequate detail and recorded against this question.

114. To guide you in answering question 16 (e), the types of particulars that need to be ascertained in respect of a few typical occupations are given in Appendix IV.

Appendix IV is by no means exhaustive. This just illustrates the need to ascertain the full details of the particulars of work performed by an individual for being recorded against question 16 (e).

115. It has been found in the past that substantial number of persons are recorded merely as general labourers. It is necessary to make a probe and find out in which type of work he is mostly engaged as a labourer such as, say, a road coolie, a loader or unloader at a market, a construction labourer etc.

116. For those in Military service it is enough if it is merely noted as 'in the service of the Central Government'. Other details need not be given.

General:

117. There need be no confusion as to the scope of 16 (d) and 16 (e), 16 (d) would represent the nature of industry, trade, profession or service *i.e.*, the field of economic activity in which a person is engaged in work and 16 (e) represents the occupation or the actual work that the person does in the industry, trade, profession or service in which he is engaged. Thus, for example the answer to question 16 (d) may be say Cotton Textile manufacture and the answer to

question 16 (e) may be Chemical Engineer in that industry or a clerk or an accountant in that industry or a labourer in that industry or a truck driver or the Managing Director of that industry and so on. Similarly in question 16 (d) the nature of service may be some department of the State Government Service and in question 16 (e) the description of work may be a clerk or an accountant, a Director of the Department, jeep driver in the Department, etc., etc., Again say, against question 16 (d) the answer may be private medical practice and in 16 (e) may cover orthopaedic surgeon, or nurse or a sweeper etc., working in that private medical practitioner's nursing home. The Industrial and Occupational lists in Appendices III & IV and the instructions given by your superior Census Officers may help you to clear any doubts you may have in your mind regarding the scope of questions relating to Nature of Industry, Trade, Profession or Service covered by question 16 (d) and the description of actual work of the individual enumerated covered by question 16 (e).

Q. 16 (f): Class of Worker

118. For a person who is;

(i) an Employer, that is, who hires one or more persons in his work described in question 16 (e), write ..	ER
(ii) an Employee, that is, who does his work described in question 16 (e) under others for wages or salary in cash or kind, write	EE
(iii) a Single Worker, that is, who is doing his work described in question 16 (e) without employing others except casually, and wihout the help of other members of the family except casually and a partcipant in work as members of co-operatives, write	SW
(iv) a Family Worker, that is, who is doing his work described in question 16 (e) in a family enterprise along with other members of the family without wages or salary in cash or kind write ..	FW

For a person for whom an 'X' is put in questions 16 (d) and 16 (e) put an 'X' in this question also.

Explanation:

119. An Employer is a person who has to employ other persons in order to perform the work entered in question 16 (e). That is to say, such a person is not only responsible for his own personal work but also for giving work to others in business mentioned in question 16(e). But a person who employs domestic servants for household duties or has subordinates under him in an office where he is employed by others, is not an employer, even if he has the power to employ another person in his office on behalf of his own employer or employers.

120. An Employee is a person who usually works under some other person for salary or wages in cash or kind. There may be persons who are employed as managers, superintendents, agents, etc., and in that capacity employ or control other workers on behalf of their own employers. Such persons are only employees, as explained above, and should not be regarded as employers.

121. A Single Worker for the purpose of question 16(f) is a person who works by himself. He is not employed by any one else and in his turn does not employ anybody else, not even members of his household except casually. This definition of a Single Worker will include a person who works in joint partnership with one or several persons hiring no employees, and also a member of a producer's co-operative. Each one of the partners or members of such producers' co-operatives should be recorded as 'Single Worker'.

122. A Family Worker is a member who works without receiving wages in cash or kind, in an industry, business, trade or service. For example, the working members in a family of *Dhobies* where they all participated and each does not receive wages separately will be family workers. There may be family workers in industry, trade or professions as well. For the purpose of this definition members of a family may be drawn from beyond the limits of the household by ties of blood or marriage. The family worker may not be entitled to a share of the profits in the work of the business carried on either by the person or head of the household or other relative.

123. Members of the household who help solely in household duties should not be treated as family workers.

124. In the case of persons engaged in household industry *i.e.*, in the case of persons for whom the answer to question 16 (a) (i) is 'HHI', there will be three classes of workers *viz.*, Family Worker, Single Worker and Employee. There will be no Employer. Household industry by its very definition is conducted by the head of the household himself or/and other members of the household, the role of hired workers being secondary. If the head along with the members of the household is working in a household industry employing hired workers, the head and other members who are working should be treated as 'Family workers'. If the head alone is working with the assistance of hired worker(s) whose role would be secondary as indicated above, he would be treated as a 'single worker'.

Q. 17: Secondary Work

125. This question should be asked of every person whether he has returned some work as his main activity against 16 (a) (i) or had returned himself under any of the basically non-working categories against question 16 (a) (ii). As was noted earlier, 16 (a) (ii) will cover cases like persons performing household duties or students who may not be engaged in any other economically productive work at all, as also those who, though basically are performing household duties or students etc., for the purpose of their main activity, still participated in some other economic activity such as helping the household in several items of work, as in cultivation or in household industry or in looking after the cattle, in attending to family business etc. but not to the extent as a full-time worker. Such

participation will be considered as secondary work of these persons.

126. Ask of each person if, besides what he had already returned as his/her main activity against questions 16 (a) (i) or 16 (a) (ii) he / she participated in any secondary work. A number of unpaid family workers participating in the household enterprises, who might have returned themselves mainly as 'H' or 'ST' or 'R' under question 16 (a) (ii) for their main activity will be netted here for their economic activity which is subsidiary. Mere rendering of service for ones own home or production of goods for purely domestic consumption are not to be treated as economic activity. For example, a servant who works as a cook in his or her employer's home for wages will be considered economically active but, a housewife, even if she may work much more than a paid servant, in having to cook for the family or looking after the household will not be treated as economically active for the purpose of this classification. Similarly, women who may produce cloth on a loin loom at home for domestic consumption will not be treated as economically active unless the products are sold and the household derives an income. Participation in work that goes to augment the income of the household will only be treated as economic activity. A boy whose main activity is shown as a student under 16 (a) (ii), can have the secondary work of say, cultivation if he helped the head of the household in the family cultivation during some parts of the season. But if a girl student, whose main activity is shown as 'ST' under 16 (a) (ii), also helped in weaving cloth purely for domestic consumption on a loin loom at home, or helped in attending to household chores, she will not be treated as having any secondary work. Secondary work will be reckoned only if the person is engaged in some economic activity even if marginal in addition to whatever is the main activity under question 16. A person whose main activity is shown as, say, a clerk in a Government Office or a teacher under question 16, also attends to some cultivation by his direct supervision or undertakes some tuition, this will be shown as secondary work under question 17. A person's main activity may be cultivation in question 16 and his subsidiary activity money lending in question 17. Again main activity may be agricultural labourer and subsidiary work sugar factory labourer and so on and so forth.

127. The instructions for the usage of abbreviations in categorising workers under 16 (a) (i) and filling in the details under 16 (b) to (f) will apply *mutatis mutandis* to question 17 (a) to (f), except that while question 16 (a) (i) will cover the main work, Q. 17(a) is intended to cover secondary work which may be possibly part-time. It may also be noted that the non-working categories of activity will not be reported as secondary work under question 17.

POPULATION RECORD

129. Soon after you complete the enumeration of all the persons in the household you are expected to transfer certain items of information of all the individual members of each household to the Population Record. Population Record form is reproduced at the beginning of these instructions. If you feel that the filling of the Population Record in the field is likely to take considerable time there is no objection to the details being posted by you later at home at the end of the day. However soon after you complete the enumeration of all the persons in a household you must note down the Location Code No. and the Household No. on the Population Record and also copy out in Col. 2 all the names of the persons enumerated in the household. This will help you to check with the members of the household and verify if all the persons qualified to be enumerated in the household have been fully enumerated.

The Population Record forms would have been supplied to you in convenient books and each page will normally take the entries of one household. However, if in a large household there are more number of persons than what a single Population Record form can accommodate, you may continue the entries on the next form but note boldly on the top of the continued Population Record as "Continued".

The Population Record hardly calls for any detailed explanation. On the top of each form please note correctly the Location Code No. and the Household No. It is important that you note the Household No. correctly as has been explained in paragraphs 24 to 28 of these instructions. Do not fail to note boldly "INST" in respect of institutional households as explained in paragraph 27 and "O" in respect of houseless households as explained in paragraph 28.

You will be required to furnish information in the Enumerator's Abstract on the total number of occupied residential houses, the Census households, the institutional households and houseless households in your block with reference to the entries made in this Population Record. So please make sure that you have entered the Household No. correctly as this will guide you in posting the required particulars in the Enumerator's Abstract. At the right hand side below the Household No., you will have to record information if the household belongs to S.C./S.T. You would have already ascertained if the head of the household belongs to a Scheduled Caste/Scheduled Tribe with reference to Question 11 of the Individual Slip. If the head belongs to any S.C./S.T., write S.C./S.T. as the case may be and also the name of S.C./S.T. to which the head of the household belongs.

The columns in the main body of the Population Record are self-explanatory. You have to post them with reference to the information you have collected of each member of the household in the Individual Slip against the relevant questions. However, column 9 of the Population Record may require some explanation. For those who have returned themselves as workers for their main activity against Question 16(a) (i) of the Individual Slip, while you may note 'C', 'AL' as the case may be, as recorded in the box against Question 16 (a) (i), in respect of those other than cultivators and agricultural labourers, you may please indicate briefly the description of work as recorded in Question 16(e) of the Individual Slip. For those who have returned themselves as non-workers for their main activity you may note the same abbreviation as recorded against Question 16 (a) (ii).

ENUMERATION OF HOUSELESS POPULATION

130. You must complete the enumeration of all the persons in all the households in your jurisdiction between 10th March and 31st March, 1971. During this period you should also take note of the possible places where homeless population is

likely to live such as on the road side, pavements or in open temple mandapas and the like. On the night of 31st March, 1971 you will have to quickly cover all such houseless population and enumerate them. If there is likely to be a very large number of houseless persons in your jurisdiction whom you may not be able to enumerate single handed in one night you should report to your supervisor so that one or more extra enumerators may be deputed to assist you in the one night enumeration of such houseless persons. You should keep particulars watch on the large settlements of nomadic population who are likely to camp on the outskirts of villages. These people will have to be covered on the 31st March. You should of course make sure that they have not been enumerated elsewhere. As per instructions in para 28 you should record 'O' in bold letters for houseless persons in the space provided for household number.

REVISIONAL ROUND

131. In the next three days, *i.e.*, from 1st April, 1971 to 3rd April, 1971, you will have to revisit all the households in your jurisdiction and enumerate any new births that had taken place after your last visit but before the sunrise of 1st April, 1971 and any visitor(s) that had moved into the household and who had been away from his/their place of normal residence throughout the enumeration period *i.e.*, from 10th March to 1st April, 1971 or an entire household that has moved into your jurisdiction during this period and had not been enumerated anywhere before. In respect of every new birth make sure that you correct the entry in question 6 (b). Please also see the note under para 47.

You will have to ascertain if any death(s) had taken place in any of the households between your last visit and the sunrise of 1st April, 1971, and cross out the individual slip of the dead person writing boldly across it as 'Died'.

If such a deceased person was recorded as 'Head of the Household' then you will have to find out who is recognised as 'Head' in that household after the deceased person. Accordingly, you will have to put 'Head' in Q. 2 in the individual slip of the person who is now recognised as 'Head' and correct the relationship of all members of the household in their respective individual slips, with reference to their relationship with 'Head' now recognised.

Consequential changes in the Population Record shall also have to be made by you. If you have exhausted the entire population record for recording the particulars of any household and it becomes necessary to record a new birth or any visitor you will fill in another population record form in continuation taking care that the location code etc., are noted on the second form properly. The serial numbering in the succeeding form for the household should be in continuation of the last serial number of the earlier sheet relating to that household.

ENUMERATOR'S DAILY POSTING STATEMENT

132. Each day you will have to carefully post the information on certain items of each Individual Slip in the prescribed posting forms which have been supplied to you. Do not allow this work to fall into arrears. You are likely to commit errors if you tried to post particulars of a large number of persons after the lapse of more than one day. You will have to total up the columns of the statements and put the information in an Abstract and hand it over along with the complete schedules to your Supervisor. The posting statements should be filled at the end of each day soon after completion of the enumeration for the day. This will make your work lighter and avoid accumulation and pressure of work at the end and consequent errors in posting. Separate posting forms have been provided for Males and Females and you should take care to post particulars of a person in the right form. This will make it easier to strike the totals of each sex and post the statements. The totals can be struck after the entries are brought up-to-date soon after you complete the enumeration of houseless persons and you have also accounted for the births and deaths since your last visit at the revisional round. You will observe that the information to be posted pertains to the items against which geometrical designs are found in the Individual Slip such as the one relating to Q. 3 Sex, Q. 11 Scheduled Caste/Scheduled Tribe. Q. 12 Literacy, Q. 16 (a) (i) and 16 (a) (ii) Worker or Non-worker. It is necessary that you should fill the Posting Statement with the greatest care.

133. First of all you should enter Location Code, Name of the village/town, Enumerator's Block No. (No. allotted to you) and your name (enumerator's) in all the Posting Statements. Then start making relevant entries in the Posting Statements taking care that you enter particulars for 'males' in Males Posting Statement (Form M) and for 'females' in Females Posting Statement (Form F).

134 You are advised to make entries in a sequence starting with lowest Pad No. used by you starting with Slip No. 1 in each Pad so as to avoid duplication or missing of any entries. Both the statements are similar except that one is meant for Males and the other for Females. You should not fill up col. 1 (Final Serial No.) at the first instance. This col. will be filled after the revisional round *i.e.*, after you have brought the count up-to-date with reference to sunrise of 1st April, 1971 (see para 131) and also after you have struck the grand total of cols. 4 to 13. In cols. 2, 3 and 4 you have to copy Pad No., Slip No. and sex as recorded by you in the slips. Even though there are separate forms of Posting Statements for males and females, yet you are required to copy the sex in col. 4 from the Individual Slip as this will help as a check in avoiding mistakes in posting. In the remaining columns a tick ✓ may be put against the appropriate columns, wherever information is found against the relevant question and a dash (—) may be put where it is not applicable.

135. Cols. 5 and 6 are to be posted with reference to the entries against Q. 11 of the Individual Slip. If a person is noted as belonging to a Scheduled Caste put a tick under Col. 5 and a dash in Col. 6. If a Scheduled Tribe, put the tick in Col. 6 and dash in Col. 5. If the person is neither a Scheduled Caste nor Scheduled Tribe put a dash under Cols. 5 and 6 of the Posting Statement.

136 Cols. 7 and 8 of the Posting Statement have to be filled with reference to the answer to Q. 12 of the Individual Slip. A person can be either 'L' or 'O'. Put the tick or dash in the corresponding column accordingly. It must be noted that there cannot be a dash in both the columns.

137. Cols. 9-13 must be posted with some care. For a person for whom 'C' has been entered in the box against Q. 16(a) (i) a tick ✓ should be put under col. 9 and dash (–) under cols. 10 to 13. Similarly for a person for whom 'AL', or 'HHI' or 'OW' or 'X' has been recorded against Q. 16(a)(i) a tick ✓ may be put under col. 10 or 11 or 12 or 13 respectively and dash (—) under remaining cols. from 9–13. You may please note that where a tick is put in col. 13 it means the person is a non-worker and there must be a dash in cols. 9 to 12. As you are likely to use more than one Posting Statement you are advised to strike totals by counting the number of ticks ✓ in the relevant column(s) as soon as you have completed entries in one form and strike the grand totals after the Revisional Round. Now proceed to fill up col. 1 in a continuous manner starting with the first entry in the posting statement, while assigning serial number in col. 1, you should ignore scored-out lines. Thus the grand total of col. 4 will be the last serial number in col. 1.

ENUMERATOR'S ABSTRACT

138. After striking the grand totals in Enumerator's daily posting statement you have to fill in another form called Enumerator's Abstract. It is most important that this should be done with the greatest care. These abstracts will form the basis of the publication of the first results of the Census. In the past Censuses the enumerators had given very accurate abstracts and there was hardly any difference between the finally tabulated figures and those furnished in the abstract. You should post these abstracts with care and pass on to your Supervisor as quickly as possible. You should hand over the enumeration pads neatly bundled along with a sketch of your Enumeration Block as prescribed in para 10 and the posting statements and the abstract the very next day after the completion of the enumeration. Your work in the posting of the abstracts will be closely checked by your Supervisor. Any carelessness on your part will be taken serious notice of.

With the completion of enumeration and the handing over of the posting statements and the abstract and the Census schedule pads your burden is over. If you have done your work well you can have the satisfaction that you have made your humble but invaluable contribution to a vital national task.

APPENDIX I

PRINCIPLES OF HOUSENUMBERING

Building :

"Building" is generally a single structure but sometimes made up of more than one component units, which is used or likely to be used as dwellings (residences), or establishments such as shops, workshops, factories, etc., or as godowns, store, cattle sheds etc., or in combination with any of these such as shop-*cum*-residence or workshop-*cum*-residence, etc.

2. Sometime a series of different buildings may be found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and likely to have been built at different times and owned by different persons. In such cases though the whole structure with all the adjoining units apparently appears to be one building, each portion should be treated as separate building and given separate numbers.

3. If there are more than one structure within an enclosed or open compound (premises) belonging to the same person *e.g.*, the main house, the servants' quarters, the garage etc., only one building number should be given for this group and each of the constituent separate structure assigned a sub-number like 1/1, 1/2, 1/3 and so on provided these structures satisfy the definition of a 'Census House' given hereafter.

4 The buildings should be numbered as follows :

(i) If the locality consists of a number of streets in a village, the buildings in the various streets in a village, should be numbered continuously. Streets should be taken in uniform order from North-East to South-West. It has been observed that the best way of numbering the buildings is to continue with one consecutive serial on one side of the street and complete the numbering on that side before crossing over to the end of the other side of the street and continuing with the serial stopping finally opposite to where the first number began.

(ii) In a town/city, enumeration block, the numbering will have to respect the axis of the street and not any pre-conceived geographical direction like North-East etc.

(iii) Arabic numerals (e.g., 1, 2, 3,.....) should be used for building numbers.

(iv) A building under construction which is likely to be completed within about a year's time should also be given a number in the serial.

(v) If a new building either pucca or kachha is found after the house numbering has been completed or in the midst of buildings already numbered, it should be given a new number which may bear an alphabetical sub-number of the adjacent building number, *e.g.*, 10 A.....

NOTE : These should not be numbered as 10/1 or 10/2 etc., as such numbering would apply to Census houses within the same building. On the other hand 10 A would mean a separate building that has come up after building No. 10.

Census House No.

5. A Census house is a building or part of a building having a separate main entrance from the road or common courtyard or stair-case etc., used or recognised as a separate unit. It may be inhabited or vacant. It may be used for a residential or non-residential purpose or both.

6. If a building has a number of flats or blocks which are independent of one another having separate entrances of their own from the road or a common stair-case or a common courtyard leading to a main gate, they will be considered as separate Census houses. If within a large enclosed area there are separate buildings, then each such building will also be a separate Census house. If all the structures within an enclosed compound are together treated as one building then each structure with a separate entrance should be treated as a separate Census house.

7. Each Census house should be numbered. If a building by itself is a single Census house, then the number of the Census house is the same as the building number. But if different parts or constituent units of a building qualify to be treated as separate Census houses, each Census house should be given a sub-number within brackets to the building number as 10|1, 10|2, etc. or 11|1, 11|2, 11|3, etc.

8. The order in which Census houses within a building are to be numbered, should be continuous, preferably clock-wise or in any convenient manner if it is difficult to do it clock-wise.

9. The definition of Census house may sometimes be difficult of application in its literal sense in the context of varying patterns of structures and their usage. For example, in cities and towns, one does come across a situation when a flat in the occupation of one household as residence may be made up four rooms or so and all the rooms may have direct entrance from a common courtyard, or a stair-case. In terms of the definition of a Census house each of these rooms having entrances from the common stair-case etc., may qualify to be treated as Census houses. But it does not realistically reflect the situation of the number of houses. In such case, 'singleness' of use of these rooms along with the main house by the household should be taken into account and the entire flat comprising four rooms should be treated as one Census house only and assigned one number. If on the other hand each one of these rooms had been separately occupied by independent households and if each portion had separate main entrance then each will be justified to be treated as a separate Census house. In a hostel building even if the door of each room in which an inmate lives opens on to a common verandah or stair-case as it happens almost invariably, the entire hostel building may have to be treated as one Census house only. In some parts of the country in the rural areas, the pattern of habitation is such that a single household occupies a group of huts within an enclosed fence which has one main entrance. Each of the apparently separated structures is an integral part of the housing unit as such. In such cases it may be more realistic to treat the group as one Census house. Care should be taken to ascertain if only one household occupies such a unit or shared by more than one household. Thus the definition of a Census house will have to be applied having due regard to the actual situation in such exceptional cases.

10. It is usual to find in municipal towns/cities that every site whether built upon or not are numbered by the municipal authorities on property basis. Such open sites even if they are enclosed by a compound wall should not be listed for Census purposes. Only where a structure with four walls and a roof has come up should it be treated as a Census house and listed. But in some areas the very nature of construction of houses is such that for example, a conical roof almost touches the ground and an entrance is also provided, and there may not be any wall as such. Such structures should of course be treated as buildings and houses numbered and listed.

Household No.

A Household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. It may be made up of related or unrelated persons. A cook or a servant living in the house of his employers and taking his food there is to be considered as a member of the master's household. A hotel where a number of unrelated persons live together is an institutional household. So is a jail.

11. There may be one or more households in a Census house. If there are more than one household, each of them should be given a separate identifying number. This can be done by using the alphabets as (a), (b), (c), etc., affixed to the Census house number. For example if building No. 2 is also a Census house and has three households, the household numbers will be 2 (a), 2 (b) and 2 (c). If building number 4 has two Census houses, the houses will be numbered as 4|1 and 4|2. If within these houses there are respectively 3 and 2 households then they will be numbered 4|1(a), 4|1(b), 4|1(c) and 4|2(a) and 4|2 (b) respectively. If however, building No. 3 is also a Census house and has only one household the number to be entered will be 3.

APPENDIX II

LIST OF A FEW TYPICAL INDUSTRIES THAT CAN BE CONDUCTED ON A HOUSEHOLD INDUSTRY BASIS

(See paras 92 - 95)

Foodstuffs

Production of flour by village chakkis or flour mills, milling or dehusking of paddy, grinding of chillies, turmeric, etc., production of gur, khandsari, boora, etc., production of pickles, chutney, jams, etc., processing of cashew nuts, making of dried vegetables, manufacture of sweetmeats and bakery products

production of butter, ghee, etc., slaughtering and preservation of meat and fish, fish curing, etc., oil pressing ghani.

Beverages

Manufacture of country liquor, toddy, production of soda water, ice, ice-cream, sharbats, etc. processing of coffee etc. :

Tobacco Products

Manufacture of bidi, cigars, cherroots, tobacco, snuff etc.

Textile Cotton

Cotton ginning, carding, pressing and baling, spinning, etc. dyeing and bleaching of cloth, weaving in handlooms or power-looms or manufacture of khadi, cloth printing, making of fishing nets, mosquito nets, cotton thread, rope, twine, etc.

Textile Jute, Wool or Silk

Similar type of production or processing as mentioned under Textile cotton but pertaining to the material concerned.

Textile Miscellaneous

Making of durries, carpets, hoisery, embroidery, chrochet work, lace garland making, manufacture of headgear, making of *newar*, bed covers, (curtains, pillow, pillow cases, etc., making of mattress, quilt (rezai), etc., making of namda felt, coconut fibre for upholstery, making of brushes, brooms etc., from coconut fibres, coir spinning, manufacture and repair of umbrellas, manufactnure of dolls and toys (rags and cotton) etc.

Manufacture of Wood and Wood Products

Sawing and planing of wood, manufacture of wooden furniture, structural goods like beams, door and window frames, etc., wooden agricultural implements and their repair, wooden lacquerware, wooden toys, wood carving, sawdust and plaster figure making, inlay work, match splinters, plywood and veneers, etc., making palm leaf mats, fans, umbrellas, etc., baskets and broomsticks, caning of chairs, making of chicks and khas khas tatties, making of cart wheels, wooden-sandals, etc.

Paper and Paper Products

Manufacture of pulp and paper by hand, making of envelopes, paper made articles, card board boxes, paper flower, paper kites, toys, etc.

Printing and Publishing

Printing works, lithography, block making, book binding, etc.

Leather and Leather Products

Flaying and processing of hides and skins, making leather footwear, wearing apparel of leather and fur, repair of shoes or other leather products.

Rubber, Petroleum and Coal Products

Vulcanising tyres and tubes, manufacture of chappals from torn tyres and other rubber footwear, manufacture of rubber products from natural and synthetic rubber.

Chemicals and Chemical Products

Manufacture of toys, paints, colours, etc., manufacture of mathches, fireworks, perfumes, cosmetics, manufacture of ayurvedic medicines, soap, plastic products, celluloid goods, manufacture of ink, candles, boot polish, etc.

Non-metallic Mineral Products and other than Petroleum and Coal

Making of bricks, roofing tiles, sanitary fittings, cement statues, stone or marble carvings, manufacture of stone structurals, stone dressing and stone crushing, mica splitting and manufacture of other mica products, making of earthenware and pottery, crockery, glass beads and bangles, earthen toys, manufacture of glass products, etc.

Basic Metals and their Products except Machinery and Transport Equipment

Manufacture of iron arms and weapons and their service and repair, iron and steel furniture, brass, bell-metal utensils, aluminium utensils, tin utensils, copper utensils, etc., nickeling and electroplating, blacksmithy, manufacture and repair of agritural implements such as ploughshare, etc., making and repairing of locks and trunks, cutlery, manufacture of scales, weights and measures and foundry industry, etc.

Machinery (all kinds other than Transport) and Electrical Equipment

Manufacture of small machine tools and parts, repairing and servicing of fans, radios, domestic electrical appliances, etc.

Transport Equipment

Repairing and servicing of automobiles, manufacture of cycle parts, rickshaw parts, boats and barges, manufacture of animal-drawn and hand-drawn vehicles such as bullock carts, wheel barrow, etc.

Miscellaneous Manufacturing Industries

Repair of spectacles, photographic equipment, goldsmithy, silver filgree industry, gold covering work, bidriware, musical instruments, fountain pens, making of cow-dung cakes, manufacture of sports goods, repairing of petromax lights, making of buttons and beads from conch-shell and horn goods.

APPENDIX III

CLASSIFIED LIST OF ECONOMIC ACTIVITIES

(See para 112)

AGRICULTURE, HUNTING, FORESTRY & FISHING

(Do not merely say plantation or fishing etc. but indicate the appropriate details as given here).

Plantation Crops

Indicate the type of plantation such as tea, coffee, rubber, tobacco, edible nuts, fruits, ganja, betal nuts, etc.

Livestock Production

Indicate what kind of livestock is reared such as goats, sheep, horses, pigs, ducks, bees, silk worm, etc. Production of wool, raw silk, etc. are also covered in this.

Agricultural Services

Indicate what type of agricultural service, *e.g.*, pest destroying, spraying, operation of irrigation system, animal shearing and livestock services (other than veterinary services), grading agricultural and livestock products, soil conservation, soil testing etc.

Hunting

Indicate hunting, trapping and game propagation for commercial purpose only.

Forestry and Logging

Apart from planting and conservation of forests, felling and cutting of trees, etc., this would cover production of fuel, gathering of fodder, gums, resins, lac, etc.

Fishing

Sea, coastal and inland water, fishing; pisciculture, collection of pearls, conches, shells, sponges, etc.

MINING AND QUARRYING

(Do not merely say mining or quarrying but indicate further details). Indicate what is mined such as coal, lignite, crude petroleum, natural gas, iron ore, manganese, gold, silver, copper ore, quarrying of stones, clay and sand pits, precious and semi-precious stones; mica, gypsum, etc.

MANUFACTURING AND REPAIR

(Do not merely say engaged in a factory, but indicate what the manufacturing is concerned with as detailed here).

Manufacture of Food Products

Slaughtering, preparation and preservation of meat; dairy products; canning and preservation of fruits and vegetable; fish, grain mill products; bakery products; sugar; boora; common salt; edible oils including vanaspati; processing of tea or coffee; manufacture of ice; animal feeds, starch, etc.

Manufacture of Beverages, Tobacco and Tobacco Products

Rectifying and blending of spirits; wine industries; country liquor and toddy; carbonated water industries; bidi; cigar, cigarettes, zerda, snuff, etc.

Manufacture of Cotton Textiles

Cotton ginning, cleaning and baling; spinning weaving and finishing of cotton in textiles mills; printing; dyeing and bleaching of cotton textiles; cotton spinning other than in mills (charkha); khadi production; weaving, etc. in handlooms and powerlooms; etc.

Manufacture of Wool, Silk and Synthetic Fibre Textiles

Wool cleaning, baling and pressing; weaving and finishing in mills and other than in mills; dyeing and bleaching; printing of silk, synthetic textiles; etc.

Manufacture of Jute, Hemp and Mesta Textiles

Spinning and pressing and baling of Jute and Mesta; dyeing; printing and bleaching of jute textiles and manufacture of jute bags are also covered in this.

Manufacture of Textile Products

(Including wearing apparel other than footwear) knitting mills; manufacture of all types of threads, cordage, ropes, etc; embroidery; carpets; rain coats; hats; made up textiles goods (except garments) Oil cloth, tarpaulin; coir and coir products; linoleum, padding, wadding, etc. are also covered in this.

Manufacture of Wood and Wood Products Furniture and Fixtures

Manufacture of veneer, plywood and their products; sawing and planing of wood; wooden and cane boxes, crats, drums, barrels, etc. beams, posts, doors and windows; wooden industrial goods like blocks, handles; etc.; cork products; wooden, bamboo and cane furniture and fixture, etc.

Paper and Paper Products and Printing, Publishing and allied Industries

Manufacture of pulp; paper, paper boards and newsprints; container and paper boxes; printing and publishing of newspapers; periodicals, books, etc; engraving, block making, book binding, etc.

Leather and Fur Products

Training, currying, etc. of leather; footwear (excluding repair); coats, gloves, currying, dyeing, etc. of fur, fur and skin rugs, etc.

Rubber, Plastic, Petroleum and Coal Products

Tyre and tubes industries, foot wear made of vulcanized or moulded rubber; rubber and plastic products; petroleum refineries, production of coaltar in coke ovens, etc.

Chemicals and Chemical Products

Manufacture of gases such as acids, alkalis, Oxygen, etc.; fertilisers and pesticides; paints, varnishes; drugs and medicines; perfumes, cosmetics, lotions; synthetic resins, etc., explosive and ammunition and fireworks, etc.

Non-metalic Mineral Products

Structural clay products; glass and glass products; earthern ware and earthern pottery; china ware and porcelain ware; cement, lime and plaster; asbestos, cement, etc.

Basic Metal and Alloys Industries

Iron and Steel Industries; casting foundries; ferro-alloys; copper, brass, zinc and brass manufacturing, etc.

Metal Products and Parts except Machinery and Transport Equipment

Metal cans from tin-plate, sheets metal, barrels,, drums pails, safe, etc.; structural metal products; metal furniture and fixture; hand tools; utensils, cutlery, etc.

Machinery, Machine tools and parts except Electrical Machinery

Agricultural machinery; cranes; road rollers, boilers, diesel engine; refrigerators, air conditioners, etc.

Electrical machinery, Apparatus, Appliances and Supplies and parts

Electrical motors, generators, transformers; insulated wires and cables; dry and wet batteries; radio, television, etc.; X-ray apparatus; electric computors, etc.

Transport equipments and parts

Ship building and repairing locomotives and parts; Railway wagons; coaches, etc.; rail road equipment; motor vehicles; bicycles; aircrafts; push-carts and hand carts, etc.

Other Manufacturing Industries

Do not say other manufacturing industries but write clearly what is being manufactured like manufacture of medical, surgical and scientific equipments; photographic and optical goods; watches; minting of coins; musical instruments, etc.

ELECTRICITY, GAS AND WATER

Indicate if generation and transmission of electric energy or distribution is involved, *e.g.*, manufacture of gas in gas works and its distribution; water supply, *i.e.*, collection, purification and distribution of water, etc.

CONSTRUCTION

(Do not merely say engaged in construction but give further particulars. Clear details of the type of construction and maintenance such as buildings, road, railway, telegraph, telephone, water ways and water reservoirs, hydro electric projects, industrial plants, activities allied to construction such as plumbing, heating and air conditioning installation, setting of tiles, marble, brick, etc.; construction of electrical installations, etc. should be given.

WHOLESALE AND RETAIL TRADE & RESTAURANTS AND HOTELS

Food, Textiles, Live Animals, Beverages and Intoxicants

Indicate clearly that the wholesale trade is done in cereals, pulses; foodstuff; textiles and textiles products; *e.g.*, garments, shirtings etc.; beverages, intoxicants like wines, opium, ganja, tobacco, etc.; wholesale trade in animals, straw and fodder is also covered in this.

Fuel, Light, Chemicals, Perfumery, Ceramics, Glass

Wholesale trade in medicines, chemicals; fuel lighting products; toilets; porcelain, glass utensil, crockery, etc.

All types of Machinery, Equipment, including Transport and Electrical Equipment

Agricultural and industrial machinery, e.g., harvestors, threshers, etc.; electrical machinery; transport equipments, etc.

Miscellaneous Manufacturing

Wholesale trade in furniture, rubber and rubber products; building materials; clocks, etc.; eye-glasses, etc.; medical and surgical instruments; precious metals, stones and jewellery, etc.

Retail Trade in food and food articles, beverage, tobacco and intoxicants

Indicate clearly that the retail trade is carried in grocery, vegetables, fruit selling, meat, poultry, bakery products, dairy products, pan, bidi, aerated water, etc.

Retail Trade in Textiles

Do not merely say engaged in retail trade in textile, but indicate clearly what the retail trade is concerned with Dealers in textiles (non-ready made), ready-made garments, are some examples.

Retail Trade in Others

Indicate clearly what kind of retail trade it is like, medical shops, booksellers, building material, etc.

Restaurants and Hotels

Restaurants, cafes and other eating places, hotels, rooming houses, camps and other lodging places.

TRANSPORT, STORAGE AND COMMUNICATION

(Do not merely say engaged in land, water, air transport but give further particulars). Indicate what kind of transport such as packing, crating, travel agencies, etc. It also lock carts, *ekka*, tonga, etc; ocean and coastal water, inland water transport, air transport, services rendered to transport such as packing, crating, travel agencies, etc. It also includes storage, warehousing, communication such as postal telegraph, wireless, telephone, etc.

FINANCING, INSURANCE REAL ESTATE AND BUSINESS SERVICES

Indicate clearly whether services belong to Banking; credit institutions other than banks, *e.g.*, loan societies, agricultural credit institutions, etc.; money lenders, financiers, etc., provident services; insurance carriers life; fire marine accident, health, etc. It also includes business services *e.g.*, purchase and sale agents and brokers; auctioneering, accounting; data processing; engineering; advertising services, etc.; legal services rendered by advocates, barristers, pleaders, etc.

COMMUNITY, SOCIAL AND PERSONAL SERVICES

It should be clearly indicated whether service belongs to public administration, union government, state government, police service, quasi-government bodies, sanitary services, education, scientific and research, etc.

Personal Services

Do not merely say engaged in personal service but indicate clearly whether it is domestic service, services relating to laundries, cleaning and dyeing plants, hair dressing, photographic studios, international and other extra territorial bodies, etc.

APPENDIX IV

Classified List of Occupations *i. e.* Description of Work

(*Q.* 16 (*e*) *and* 17 (*e*) *See Paras* 113–114)

Professional, Technical and Related Workers

(Do not merely say an Engineer, Doctor, Teacher etc., in describing the work of an individual but furnish more precise particulars as given below). Indicate clearly in respect of engineers to what branch they belong such as civil, mechanical, electrical, metallurgical, mining etc. In respect of physicians, state if they are allopathic, ayurvedic, homoeopathic, etc. Physiologists and dentists etc., should be recorded. As regards teachers, state if they are university teachers, secondary school, middle school primary school or kindergarten teachers. There are various other types of chemists, physicists, archaeologists, nurses, pharmacists, health technicians, jurists, social scientists such as economists, statisticians, geographers, historians, anthropologists, etc., as also artists, writers painters sculptures actors etc., draughtsmen, laboratory assistants, librarians, ordained religious workers, astrologers etc., who will have to be recorded with particulars of their work.

Administrative, Executive and Managerial Workers

(Do not merely say Government Officer, an officer in a private firm or concern but give further particulars). They may be in Government service or under a local body or in a business firm, manufacturing establishment or a catering establishment or a transport company and so on. Their full description should be recorded such as for example, Secretary to the Government of India, District Collector, Municipal Commissioner, Executive Officer of a Panchayat, Director of a firm, Manager of a business concern, Proprietor and Manager of a hotel, elected and legislative officials, aircrafts and ships officers, etc.

Clerical Workers

(Do not merely denote the work of a person as a clerk or office worker but furnish further particulars). State clearly the type of work done such as cashier, accountant, stenographer, typist, computing clerk, key punch operator, office assistant, guard, brakesman traffic controller, railway ticket inspector, postman, telephone/teleprinter/wireless operator, record keeper, despatcher, etc., office workers would also include peons, daftaries etc.

Sale Workers

(Do not merely say a worker in a shop but give details). It should be clearly recorded whether the proprietor of a business concern engages himself in wholesale or retail trade. Salesman or shop assistants, agents of insurance, brokers in share, auctioneers, commercial, travellers, hawkers and street vendors, money lenders, pawn brokers etc., will also be covered.

Service Workers

(There are all types of service workers such as those engaged as domestic servants or in personal services or in police service or watch and ward etc. Give precise particulars). Hotel and restaurant keepers, house-keepers, matrons, and stewards (domestic and institutional), cooks, waiters, bartenders and related workers (domestic and institutional) maids and housekeeping service workers, building caretakers, sweepers, cleaners, related and related workers, launderers, dry cleaners and pressers, hair dressers, beauticians and related workers, protection service workers, such as watchmen, chowkidars, gate-keepers, etc., other service workers.

Farmers, Fishermen, Hunters, Loggers etc., and Related Workers

Deep sea fishermen, inland or river water fishermen, shell gatherers, forest rangers, charcoal burners, forest produce gatherers, plantation managers, farm machine operators, gardeners, toddy tappers, rubber tappers, hunters, bird trappers, etc. will be covered.

Production and other Related Workers, Transport Equipment Operators and Labourers

(This may cover a very large variety of craftsmen and operators etc., whose work will have to be given in adequate detail). Examples: miners, quarrymen, well drillers, cotton ginners, spinners, dyers, knitters, lace makers, carpet makers, etc., tailors, cutters, hat makers, embroiderers, shoe makers or repairers, saddle makers, leather cutters etc., blacksmiths, furnacemen, moulders, etc., cart builders, wheel wrights, cabinet makers, etc., stone cutters, bricklayers, masons, hut builders, thatchers, well diggers, etc., jewellers, goldsmiths, watch and clock makers or repairers, welders and plate cutters, sheet metal workers, machine tool operators, electricians, electrical and electronic wire fitters, radio mechanic, electric linesmen, cable jointers, carpenters, joiners, sawers, etc., printing type machine operators, proof readers, photo-litho operators, book binders, potters, moulders, firemen, kilnsmen, blowers and makers of glass, millers, bakers, confectioners, sweetmeat makers, food canners, coffee or tea planters, tobacco curers, graders and blenders of tobacco, bidi or cigar makers, snuff or zarda makers, tyre builders, crane or hoist operators, loaders and unloaders, etc.

ANNEXURE B

CENSUS CALENDAR FOR ANDHRA PRADESH FOR 1971 CENSUS

March and April, 1969

Preliminary discussions with the State Government regarding appointment of Census Officers.

June, 1969

Arrangements for Preparations of up-to-date town/city/taluk and district maps.

July and August, 1969

1 Recognition of new towns that qualify and declassification of existing ones if they did not satisfy the definition of a town.

2 Checking of Taluk etc., maps with village lists and assigning of location code numbers to all units.

3 Preparation of General Village Register and Town Register (Location Code Statements).

4 Collection of area figures from the Director Land Records/ Local Bodies in respect of Districts/Tahsil/Cities/Towns—Reconciliation of district totals—Rural/Urban areas.

5 Collection of administrative statistics from various agencies (non-census data) for Part I of the Town and Village Directories, (This has to be completed by October, 1969. The consolidation and compilation of the Directory will be completed June, 1970).

6 Delineation of Standard Urban Areas in terms of Rural and Urban Units.

September, 1969

1 Notification of Census questionnaires and instructions in the Gazette as required by the Census Act.

2 Appointment of District Census Officers and Charge Officers.

3 Issue of instructions to all Census Officers explaining the scope of 1971 Census (Circular No. 1).

October, 1969

1 Issue of instructions regarding the places declared as Urban areas for 1971 Census (Circular No. 2).

2 Issue of instructions regarding assignment of Location Code Numbers for the 1971 Census (Circular No. 3).

3 Issue of instructions explaining house numbering operations (Circular No. 4).

4 Issue of instructions regarding the house listing (Circular No. 5)

5 Constitution of Blocks and Supervisors Circles for the purpose of Housenumbering and Houselisting.

November and December, 1969

1 Training classes for District Census Officers and Charge Officers in Housenumbering, Houselisting and filling up of Establishment Schedules.

2 Appointment of Enumerators and Supervisors for Housenumbering and Houselisting Operations.

3 Drawing up of a training programme for Enumerators and Supervisors for Houselisting.

4 Publicity for Houselisting.

5 Despatch of Houselist, Establishment Schedules, Enumerators Abstracts and Instructions Booklets to District Officers.

January, 1970

1 Training classes for the Enumerators and Supervisors for Housenumbering and Houselisting operations including canvassing of houselists and Establishment Schedules as a practical exercise through training schedules.

2 Publicity for Houselisting.

1st to 28th February, 1970

Housenumbering, Houselisting and canvassing of Establishment Schedules and preparation of notional maps showing the lay-out of house and the numbers allotted to them. (Recruitment and training of Key Punch Operators and Supervisory Staff to be done in February, March, 1970.

1st March, 1970 to 3rd March, 1970

Preparation of Enumerator's Abstract.

3rd March, 1970 to 7th March, 1970

Arrival of the Houselists and Establishment Schedules at the District Headquarters.

8th March, 1970 to 15th March, 1970

Arrival of these schedules at the headquarters of the Superintendent of Census Operations.

15th March, 1970 to 15th April, 1970

Checking of the Houselists for completeness, sampling of Houselists, coding and punching of houselists and establishment schedules commence in the Tabulation offices (separate programme drawn up for setting up of the Tabulation Offices and completion of Tabulation Operations).

1st April, 1970 to 31st May, 1970

1 Issue of instructions regarding the formation of Census Divisions, Supervisors Circles and Enumerator Blocks and preparation of Charge lists (Circular No 6).

2 Preparation of Charge lists, delineation of Enumerators' Blocks and Supervisors' Circles on the basis of 1971 (1970) Houselists by the Charge Superintendents.

June and July, 1970

1 Selection and earmarking of Census Enumerators and Supervisors in each Charge.

2 Scrutiny of Charge lists.

August, 1970

1 Detailed instructions formulating the training programme of Census Officers at all levels including Enumerators and Supervisors (Circular No. 7).

2 Detailed instructions regarding the conduct of 1971 Census enumeration (Circular No. 8).

3 Compilation of Part I (Non-Census data) of the Village and Town Directories.

4 Preparation of data for A-Series tables for columns other than those which relate to 1971 Census data.

September and October, 1970

1 Issue of detailed instructions regarding the compilation of provisional totals and despatch of Census Schedules to Tabulation Offices (Circular No. 9).

2 Training of District Census Officers and Charge Superintendents for filling up the individual slips and population records.

3 Appointment and training of Enumerators and Supervisors employed in the Special areas for advance enumeration.

4 Despatch of Training Enumeration slips and instructions to all districts.

PUBLICITY MEASURES.

October, 1970 to January, 1971.

1 Despatch of individual slips, population records etc., to district headquarters.

2 Re-assessment of blocks and circles constituted and finalisation of charge lists by Charge Superintendents.

Advance enumeration in special areas.

1st November, 1970 to 31st December, 1970.

Agency areas of Srikakulam and Visakhapatnam districts.

Agency areas of East Godavari, West Godavari, Warangal and Khammam districts.

November, 1970 to 15th January, 1971.

1 Intensive training of Enumerators and Supervisors including practical exercise in enumeration on training schedules.

2 Copying of abstracts of the Houselist for each Enumerator's Block.

January, 1971

1 Issue of appointment letters to Enumerators and Supervisors.

2 Issue of schedules etc., by the Charge Superintendents to the Census Enumerators.

3 Setting up of regional tabulation offices for receiving and tabulating the Census schedules relating to special areas

4 Role of supervision (Circular No. 10).

March, 1971

Instructions regarding recognition of good work done by Census personnel (Circular No. 11).

10th March, 1971 to 31st March, 1971

Census Enumeration.

31st March; 1971 Night

Enumeration of Houseless population.

1st April 1971 to 3rd April, 1971

Revisional Round.

3rd April, 1971 to 6th April, 1971

Compilation and reporting of Provisional totals.

10th April, 1971 to 15th April, 1971

Despatch of Census Schedules to Regional Tabulation Offices and Urban Tabulation Office by Charge Superintendents.

TABULATION

February-March, 1970

Setting up of Key punching unit in the main Census Office

15th April 1970 to 31st December, 1970

Tabulation of Houselists in the main office.

April, 1971

1 Setting up of Regional Tabulation Offices with enlarged staff.

2 Receiving the schedules from the Charge Superintendents and their verifications.

April, 1971 to September, 1971

Sorting and Tabulation of Schedules in the Tabulation Offices.

1st September, 1971 to 31st December, 1971

Compilation of tables.

31st December, 1971

Winding up of Tabulation Offices.

1st January, 1972

Establishment of Central Tabulation Unit in the Main Census Office.

January to March, 1972

Compilation of State Tables.

1st April, 1972 to 28th February, 1974

Preparation and publication of prescribed Census reports (by stages).

ANNEXURE - C

THE CENSUS ACT, 1948, ACT NO. XXXVII OF 1948

AN ACT TO PROVIDE FOR CERTAIN MATTERS IN CONNECTION WITH THE TAKING OF CENSUS

3rd SEPTEMBER, 1948

WHEREAS it is expedient to provide for the taking of Census in India or any part thereof whenever necessary or desirable and to provide for certain matters in connection with the taking of such Census :

It is hereby enacted as follows :

Short title and extent

1 (1) This Act may be called the Census Act, 1948.

(2) It extends to the whole of India.

Rule of construction respecting enactments not extending to Jammu and Kashmir

2. Any reference in this Act to the Indian Penal Code or the Indian Evidence Act, 1872, shall, in relation to the State of Jammu and Kashmir be construed as a reference to the corresponding enactment in force in that State.

Central Goverment to take census

3. The Central Government, may, by notification in the official Gazette, declare its intention of taking a Census in the whole or any part of the territories to which this Act extends, whenever it may consider it necessary or desirable so to do, and thereupon the Census shall be taken.

Appointment of Census staff

4. (1) The Central Government may appoint a Census Commissioner to supervise the taking of the Census throughout the area in which the Census is intended to be taken, and Superintendents of Census Operations to supervise the taking of the Census within the several States.

(2) The State Government may appoint persons as Census Officers to take, or aid in, or supervise the taking of, the Census within any specified local area and such persons, when so appointed, shall be bound to serve accordingly.

(3) A declaration in writing, signed by any authority authorized by the State Government in this behalf, that any person has been duly appointed a Census Officer for any local area shall be conclusive proof of such appointment.

(4) The State Government may delegate to such authority as it thinks fit the power of appointing Census Officers conferred by sub-section (2).

Status of Census authorities as public servants

5. The Census Commissioner, all Superintendents of Census Operations and all Census Officers shall be deemed to be public servants within the meaning of the Indian Penal Code.

Discharge of duties of Census Officers in certain cases

6. (1) Where the District Magistrate, or such authority as the State Government may appoint in this behalf, by a written order so directs :

(a) every officer in command of any body of men belonging to the naval, military or air forces or of any vessel of war, of India ;

(b) every person (except a pilot or harbour-master) having charge or control of a vessel ;

(c) every person incharge of a lunatic asylum, hospital, workhouse, prison, reformatory or lock-up or of any public, charitable, religious or educational institutions ;

(d) every keeper, secretary or manager or any sarai, hotel, boarding-house, lodging-house, emigration depot or club ;

(e) every manager or officer of a railway or any commercial or industrial establishment

and

(f) every occupant of immovable property wherein at the time of the taking of the Census persons are living;

shall perform such of the duties of a Census Officer in relation to the persons who at the time of the taking of the Census are under his command or charge, or are inmates of his house, or are present on or in such immovable property or are employed under him as may be specified in the order.

45 of 1860

(2) All the provisions of this Act relating to Census Officers shall apply, so far as may be, to all persons while performing such duties under this section, and any person refusing or neglecting to perform any duty which under this section he is directed to perform shall be deemed to have committed an offence under section 187 of the Indian Penal Code.

Power to call upon certain persons to give assistance

7 The District Magistrate, or such authority as the State Government may appoint in this behalf for any local area, may by written order which shall have effect throughout the extent of his district or of such local area, as the case may be, call upon –

(a) all owners and occupiers of land, tenure-holders and farmers and assignees of land revenue, or their agents ;

(b) all members of the district, municipal, panchayat and other local authorities and officers and servants of such authorities; and

(c) all officers and members of staff of any factory, firm or establishment,

to give such assistance as shall be specified in the order towards the taking of a Census of the persons who are, at the time of the taking of the Census, on the lands of such owners, occupiers, tenure-holders, farmers and assignees, or in the premises of factories, firms and other establishments or within the areas for which such local authorities are established, as the case may be, and the persons to whom an order under this section is directed shall be bound to obey it and shall, while acting in pursuance of such order be deemed to be public servants within the meaning of the Indian Penal Code.

Asking of questions and obligation to answer

8. (1) A Census Officer may ask all such questions of all persons within the limits of the local area for which he is appointed as, by instructions issued in this behalf by the State Government and published in the Official Gazette, he may be directed to ask.

(2) Every person of whom any question is asked under sub-section (1) shall be legally bound to answer such question to the best of his knowledge or belief:

Provided that no person shall be bound to state the name of any female member of his household, and no woman shall be bound to state the name of her husband or deceased husband or of any other person whose name she is forbidden by custom to mention.

Occupier to permit access and affixing of numbers

9. Every person occupying any house, enclosure, vessel or other place shall allow Census Officers such access thereto as they may require for the purposes of the Census and as, having regard to the customs of the country, may be reasonable and shall allow them to paint on, or affix to, the place such letters, marks or numbers as may be necessary for the purposes of the Census.

Occupier or manager to fill up schedule

10. (1) Subject to such orders as the State Government may issue in this behalf, a Census Officer may, within the local area for which he is appointed, leave or cause to be left a schedule at any dwelling house or with the manager or any officer of any commercial or industrial establishment, for the purpose of its being filled up by the occupier of such house or of any specified part thereof or by such manager or officer with such particulars as the State Government may direct regarding the inmates of such house or part thereof, or the persons employed under such manager or officer, as the case may be, at the time of the taking of the Census.

(2) When such schedule has been so left, the said occupier, manager or officer, as the case may be, shall fill it up or cause to be filled up to the best of his knowledge or belief so far as regards the inmates of such house or part thereof or the persons employed under him, as the case may be, at the time aforesaid, and shall sign his name thereto and, when so required, shall deliver the schedule so filled up and signed to the Census Officer to such person as the Census Officer may direct.

Penalties

11. (1) (a) Any Census Officer or any person lawfully required to give assistance towards the taking of a Census who refuses or neglects to use reasonable diligence in performing any duty imposed upon him or in obeying any order issued to him in accordance with this Act or any rule made thereunder, or any person who hinders or obstructs another person in performing any such duty or in obeying any such order, or

(b) any Census Officer who intentionally puts any offensive or improper question or knowingly makes any false return or, without the previous sanction of the Central Government or the State Government discloses any information which he has received by means of, or for the purposes of, a Census return, or;

(c) any sorter, compiler or other member of the Census staff who removes, secretes, damages or destroys any Census document or deals with any Census document in a manner likely to falsify or impair the tabulations of Census results, or

(d) any person who intentionally gives a false answer to, or refuses to answer to the best of his knowledge or belief, any question asked of him by a Census Officer which he is legally bound by Section 8 to answer, or

(e) any person occupying any house enclosure, vessel or other place who refuses to allow a Census Officer such reasonable access thereto as he is required by Section 9 to allow, or

(f) any person who, removes, obliterates, alters, or damages any letters, marks or numbers which have been painted or affixed for the purpose of the Census, or

(g) any person who, having been required under Section 10 to fill up a schedule, knowingly and without sufficient cause fails to comply with the provisions of that section, or makes any false return thereunder, or

(h) any person who trespasses into a Census Office,

shall be punishable, with fine which may extend to one thousand rupees and in case of a conviction under part (b) or (c) shall also be punishable with imprisonment which may extend to six months.

(2) Whoever abets any offence under sub-section (1) shall be punishable with fine which may extend to one thousand rupees.

Sanction required for prosecutions

12. No prosecution under this Act shall be instituted except with the previous sanction of the State Government or of an authority authorised in this behalf by the State Government.

Operation of other laws not barred

13. Nothing in this Act shall be deemed to prevent any person from being prosecuted under any other law for any act or omission which constitutes an offence under this Act:

Provided that no such prosecution shall be instituted except with the previous sanction referred to in Section 12.

Jurisdiction

14. No Court inferior to that of a Presidency Magistrate or a Magistrate of the Second class or in a Part B State, a Magistrate corresponding to a Magistrate of the Second class shall try, whether under this Act or under any other law, any act or omission which constitutes an offence under this Act.

Records of Census not open to inspection nor admissible in evidence

15. No person shall have a right to inspect any book, register or record made by a Census Officer in the discharge of his duty as such, or any schedule delivered under Section 10, and not withstanding anything to the contrary in the Indian Evidence Act, 1872, no entry in any such book, register, record, or schedule shall be admissible as evidence in any civil proceeding whatsoever or in any criminal proceeding other than a prosecution under this Act or any other law for any act or omission which constitutes an offence under this Act.

Temporary suspension of other laws as to mode of taking Census in Municipalities

16. Notwithstanding anything in any enactment or rule with respect to the mode in which a Census is to be taken in any municipality, the municipal authority, in consultation with the Superintendent of Census Operations, or with such other authority as the State Government, may authorise in this behalf, shall, at the time appointed for the taking of any Census cause the Census of the municipality to be taken wholly or in part by any method authorised by or under this Act.

Grant of statistical abstract

17. The Census Commissioner or any Superintendent of Census Operations, or such person as the State Government may authorise in this behalf may, if he so thinks fit, at the request and cost (to be determined by him) of any local authority or person, cause abstracts to be prepared and supplied containing any such statistical information as can be derived from the Census returns for India or any State as the case may be, being information which is not contained in any published report and which in his opinion it is reasonable for that authority or person to require.

Power to make rules

18. (1) The Central Government may make rules for carrying out the purposes of this Act.

(2) In particular, and without prejudice to the generality of the foregoing power the Central Government may make rules providing for the appointment of Census officers and of persons to perform any of the duties of Census officers or to give assistance towards the taking of a Census, and for the general instructions to be issued to such officers and persons.
