ASSAM

PRINTED AT THE NELYS PRINTING (PVT.) LTD. CALCUTTA-700001 AND
PUBLISHED BY THE GOVERNMENT OF MIZORAM.

PREFACE

Mizoram was a district of Assam on April 1, 1971 with reference to which the 1971 Census was taken. With effect from January 21, 1972, however, it became a Union Territory by virtue of the North Eastern Area (Reorganisation) Act 1971 (Act No. 81 of 1971). For the purpose of presenting statistics, Mizoram has been treated as a part of Assam in all census publications. As regards district census handbooks, these are state government publications, although the compilations are done by the census organisation. Normally government of Assam should have published the handbook on Mizoram as it constituted a district of the state at the time of the census. In view of the fact that Mizoram had meanwhile become a saparate Union Territory, the new government took over the responsibility of publishing the handbook separately from the Assam series of District Census Handbooks.

The District Census Handbook is presented in three parts for each district.

Part A contains the Village and Town Directory. Part B deals with Primary Census Abstract which includes data down to the village level in the rural areas and to the block level in the urban areas. Part C incorporates the census tables, administrative statistics and an analytical report. With a view to making the data available to the public as soon as they are collected and compiled, Parts A and B are presented in one volume. Part C, the compilation of which will take some more time will be printed as a separate volume.

The present publication, however, unlike other District Census Handbooks of the districts of Assam contains some census tables meant for Part C. The title of this publication has also been slightly changed from District Census Handbook of Mizo district to Census Handbook, Mizoram. All these changes have been effected at the instance of the Mizoram government.

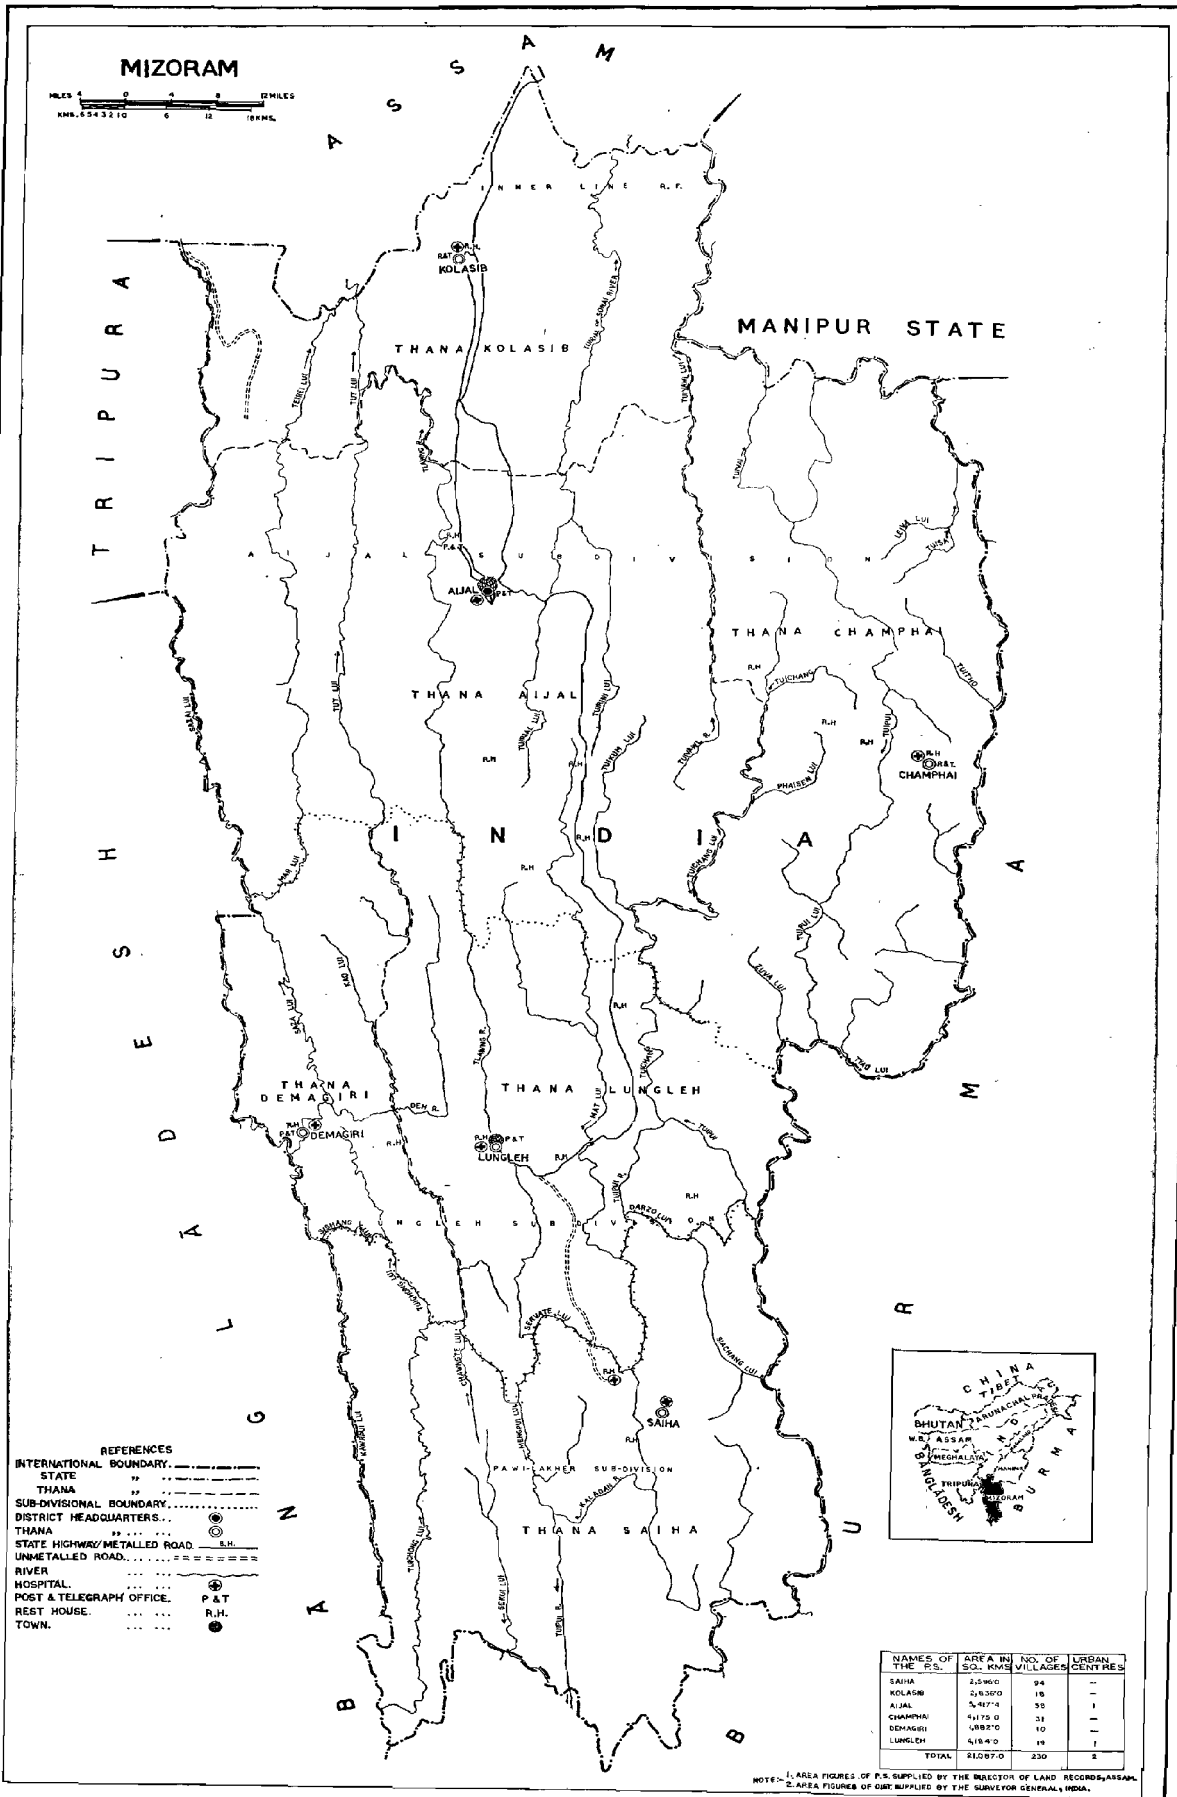

The District Census Handbooks were first introduced in the 1951 Census. Prior to 1951, village statistics for each district used to be printed after the census giving the population for each village and showing the distribution of communities and of literate persons. The 1951 Handbooks contained a general account of the district and its people, data on areas, houses, population, small-scale industries, distribution of population by livelihood classes for each village and town of the district and some census tables. In 1961 these volumes were improved by extending the coverage and incorporating administrative statistics for each district. The 1971 District Census Handbooks follow more or less the same pattern as in 1961.

The handbook is published by the government of Mizoram. The compilation was, however, done by the census organisation.

We received ready and full cooperation from the Assam government and the Mizoram Administration in the preparation of this volume. We also had the benefit of the guidance and advice of Shri A. Chandra Sekhar, I.A.S., Registrar General and Census Commissioner for India. Shri K. D. Ballal, Deputy Registrar General, Dr. B. K. Roy Burman, Deputy Registrar General (Social Studies) and Shri K. K. Chakravorty, Central Tabulation Officer assisted us in all possible ways. We are deeply indebted to them all. This volume is the product of the joint effort of all my esteemed colleagues. I am grateful to them all. Shri G. N. Bhattacharyya, Deputy Director, Shri J. C. Bhuyan, Assistant Director and Shri K. S. Dey, Assistant Director in particular deserve my thanks for their help in the preparation of this volume.

December, 1972

VILLAGE AND TOWN DIRECTORY

VILLAGE DIRECTORY

EXPLANATORY NOTE TO VILLAGE DIRECTORY

The Village Directory presents for each village informations on total area, amenities available within the village, staple food used, land use pattern, nearest town and distance, markets and 'hats' and places of religious, historical and archaeological interest. The amenities are presented under six headings, namely, educational, medical, power supply, drinking water, communications and post and telegraphs. The land use pattern is given under five columns, namely, forest, irrigated, un-irrigated, cultivable waste and area not available for cultivations.

The informations of the Village Directory were collected through the enumerators during the houselisting and housenumbering operations in September-October, 1970. The enumerators were instructed to obtain the area and land use figures in respect of cadastral villages from the Land Revenue Staff. In case of the non-cadastral villages these figures are estimates based on local knowledge.

TOWN DIRECTORY

EXPLANATORY NOTE TO TOWN DIRECTORY

The Town Directory is presented in the form of seven statements which are indicated below :-

Statement I : Status, growth history and functional category of town.

Statement II : Physical aspects and location of towns 1969.

Statement III : Municipal Finance 1968-69.

Statement IV : Civic and other amenities 1969-70.

Statement V : Medical, Educational, Recreational and Cultural facilities in towns 1969-70.

Statement VI : Trade, Commerce, Industry 1969-70.

Statement VII : Population by Religion, 1971.

The definition of a town as adopted in 1971 census is as follows :-

(a) All places with a Municipal Corporation or a Municipality or a Town Committee or a notified area or cantonment.

(b) All other places which satisfied the following criteria :-

(i) A minimum population of 5000.

(ii) At least 75% of the male working population is non-agricultural.

(iii) A density of population of at least 400 per sq. km. (i.e. 1000 per sq. mile).

Statement—I

It gives the status, growth of population from 1901 to 1971 and the predominant functional category of each town for 1961 and 1971.

The procedure for determining the functional character of a town in 1961 and 1971 is explained below :-

According to 1961 census the workers were grouped under nine industrial categories as shown below :-

(I) Cultivators

(II) Agricultural Labourers

(III) Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied Activities.

(IV) Household Industry

(V) Manufacturing other than Household Industry

(VI) Construction

(VII) Trade and Commerce

(VIII) Transport, Storage and Communications

(IX) Other Services

At the 1971 census basically the same classification has been followed with some minor deviations. Category III of 1961 has been split by assigning an independant category to 'Mining and Quarrying' which now bears category number IV of 1971. Categories IV and V of 1961 have been

combined in 1971 and presented as Category V(a)-Manufacturing, Processing, Servicing and Repairs-Household Industry and Category V(b)-Manufacturing, Processing, Servicing and Repairs-Other than Household Industry.

With a view to determine the functional categories of towns these nine industrial categories are regrouped into the following five broad groups of economic activity :-

Economic activity	Industrial Category according to 1961 Census	1971 Census
1. Primary activities	I, II & III	I, II, III & IV
2. Industry	IV, V & VI	V(a), V(b) & VI
3. Trade & Commerce	VII	VII
4. Transport	VIII	VIII
5. Services	IX	IX

The percentage of workers in each of the five groups to the total number of workers in the town is worked out. If any one group accounts for 40 per cent or more of the total working population of the town, it is classified by the corresponding economic activity. If the highest percentage is less than 40, the next predominant group is added. If the two groups together constitute a minimum of 60 per cent of the total workers, the town is then designated by both the economic activities. In case the percentage of any two activities do not add upto 60 per cent such a town is designated by three of the predominant activities.

Statement—II

This statement furnishes data on annual rainfall and temperature, name of and distance from the nearest city, state/union territory headquarters, district headquarters, sub-divisional and police station headquarters, railway station, bus route, navigable river or canal and sea port.

Statement—III

Municipal Finance in respect of the towns having municipalities or town committees in the districts presented in this statement as obtained from the respective local authorities.

Statement—IV

Informations in respect of civic and other amenities available in the town are presented in this statement. They cover system of sewerage, drainage, number of latrines, method of disposal of night soil, protected water supply, fire-fighting services and electrification facilities. By "protected water supply it is meant supply of water through taps, irrespective of whether the water so supplied has been filtered or chlorinated".

Statement—V

This statement presents informations under three main headings of Medical, Educational and Recreational and Cultural facilities. Under Medical facilities the number of hospitals, dispensaries, health centres etc. is given along with the number of beds in each institution. Educational facilities include Arts, Science, Commerce, Medical and Engineering Colleges, Polytechnics, Recognised Short-hand, Typewriting and other vocational training institutions, Higher Secondary, Secondary, Junior Secondary, Middle and Primary Schools and others. Recreational and Cultural facilities cover stadia, cinemas, auditoria, drama halls, public libraries and reading rooms.

Statement—VI

Details in respect of trade, commerce, industry and banking are given here. Information on items under trade and commerce shown in columns 3 to 11 are obtained from the local Chamber of Commerce. The number of banks has been obtained from Reserve Bank of India while that of Agricultural and non-Agricultural Credit Societies have been secured from the Regional Co-operative Societies.

Statement—VII

This shows the distribution of population by religion as revealed by 1971 census.

PART B

PRIMARY CENSUS ABSTRACT

EXPLANATORY NOTE TO PRIMARY CENSUS ABSTRACT

The Primary Census Abstract presents basic informations on area, number of occupied residential houses, number of households, total population belonging to scheduled castes and scheduled tribes by sex, working population classified into nine industrial categories and non-working population by sex for the district, police stations, urban agglomerations, towns, villages, urban wards and urban enumerators' blocks.

Definitions of Town and Urban Agglomeration

The definitions of Town have already been given in the note for Town Directory. Besides the recognised towns, there are other urbanised areas which do not qualify to be treated as towns. The concepts of Urban Outgrowth and Urban Agglomeration were developed at the 1971 census to cover such areas. It is found that in several areas around a core city or town have come up fairly large urbanised and well-recognised railway colonies, university campuses, military camps etc. It is not realistic to treat such areas lying outside the statutory limits of the town as rural units and at the same time each such individual area by itself may not satisfy the population limit to qualify to be treated as an individual urban unit. Such areas which are known as Urban Outgrowths deserve to be reckoned alongwith the main town or city and the continuous spread including such urban outgrowths would deserve to be treated as an integrated urban area what is being called Urban Agglomeration at the 1971 census.

In Assam four such urban agglomerations have been recognised. They are Gauhati, Jorhat, Bongaigaon and Dhubri. Gauhati urban agglomeration which is in Kamrup district has been formed with Gauhati municipality and its outgrowths, Pandu town and its outgrowths and Kamakhya town.

Definition of Village

In the plains districts where most of the areas have been cadastrally surveyed, the cadastral village has been taken as a village for census. In the non-cadastral pockets like 'char' and forest areas of the plains a village is taken to be a 'gaon' or 'gram' together with its adjacent 'tolas', 'paras' etc. In the hill districts a village has been taken to be a collection of houses bearing a separate name and situated within certain boundaries traditionally recognised by the villagers. Tea gardens with their housing colonies of the staff and workers are treated as villages. Settlements made by the forest department within the forest reserves which are commonly known as forest villages are also taken as villages.

Area

Column 2 of the Primary Census Abstract indicates the units for which the figures are presented. Column 4 furnishes the area of each of the units in square kilometer. The area of the district is as furnished by the Surveyor General of India. The areas of the police stations are obtained from the State Directorate of Survey, while those for the urban units are collected from the respective local authorities. The village area figures are as gathered by the enumerators during House-numbering and House-listing operation in September-October 1970. In case of cadastral villages, the enumera-

tors were instructed to collect the figures from the local revenue officials. The area figures of non-cadastral villages are estimates based on local knowledge.

Residential Census Houses and Households

Column 5 and 6 of the Primary Census Abstract present the figures of total number of residential census houses as also the number of households. A census house is a building or a part of a building having a separate main entrance from the road or common court-yard or staircase etc., used or recognised as a separate unit. It may be inhabited or vacant. It may be used for residential or non-residential purpose or both. A building is generally a single structure, but sometimes made up of more than one component unit, which are used or likely to be used as dwellings or establishments such as shops, workshops, factories, godowns or in combination with any of these such as shop-cum-residence or workshop-cum-residence. A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be household of persons related by blood or household of unrelated persons ; the latter are boarding houses, hotels, orphanages etc. which are called institutional households. For more details on these definitions, attention is invited to the instructions to Enumerators for filling up the Houselist and Establishment Schedule which are reproduced in the Part II A-General Population Tables, 1971 census.

Houseless and Institutional Population

Houseless and Institutional Population has not been separately shown in the Primary Census Abstract. Houseless persons are those who have no fixed place of residence and no regular house to live in and include such persons as beggars, sadhus, nomads, vagrants, vagabonds, etc., and also the population living in boats plying on rivers. Institutional population includes the inmates of such institutions as hostels, boarding houses, hotels, sanitoria, jails, asylums, hospitals, ashrams etc., where groups of unrelated persons stay together.

Scheduled Castes and Scheduled Tribes

The population figures of scheduled castes and scheduled tribes by sex are given in the columns 10 to 15 of the Primary Census Abstract.

Each enumerator was furnished with a list of scheduled castes and scheduled tribes applicable to the state under the scheduled castes and scheduled tribes list Modification Order, 1956. He was instructed to record a person as belonging to scheduled caste or scheduled tribe only when the name of the scheduled caste or scheduled tribe as returned by the person found a place in the list. If the person belonging to a scheduled caste or scheduled tribe returned his caste or tribe by any synonym or generic name of the caste or tribe not mentioned in the list he was not eligible to be entered as a scheduled caste or tribe. Similarly, if a person merely claimed to be a scheduled caste or scheduled tribe, but did not belong to any of the listed community applicable to the area, he would not be recognised as a scheduled caste or scheduled tribe.

The scheduled castes and scheduled tribes in Assam as listed in the Scheduled Castes and Scheduled Tribes List Modification Order, 1956 are given at the end of this chapter.

Literacy and Education

Column 16 to 18 of the Primary Census Abstract give the number of literate and educated persons for each unit.

The test for literacy as laid down in the instructions to enumerators for the 1971 census was as follows :-

A person who can both read and write in any language with understanding is to be taken as literate. A person who can merely read but cannot write is not to be treated as literate. The test for reading is the ability to read a portion of the Instruction Booklet for Enumerators. The test for writing is the ability to write a simple letter. Children aged 4 and below were treated as illiterate.

The test for education was that the person should have passed a recognised written examination or examinations as proof of an educational level attained. The highest examination passed was taken as the level for education.

Workers and Non-workers

Columns 19 to 54 of the Primary Census Abstract present the economic activity of the population. The population is first divided into workers (columns 19-21) and non-workers (columns 52-54) and then the workers are classified into nine broad industrial categories as follows :- (i) Cultivators, (ii) Agricultural labourers, (iii) Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities, (iv) Mining and Quarrying, (v) (a) Manufacturing, Processing, Servicing and Repairs-Household Industry, (v) (b) Manufacturing, Processing, Servicing and Repairs-other than Household Industry, (vi) Construction, (vii) Trade and Commerce, (viii) Transport, Storage and Communications and (ix) Other Services.

The definition of worker and non-worker as adopted in the 1971 census is different from that of the last census. At the 1971 census, every individual was required to declare himself what according to him was his main activity. All persons got themselves divided into two broad streams of main activity namely, (i) as workers and (ii) non-workers according as the type of main activity that the persons returned themselves as engaged in mostly. If the answer indicated that an individual was an economically active worker, he or she was classified as working as a cultivator or as an agricultural labourer, or at household industry or in other work such as forestry, mining, manufacturing, trade, transport, services, etc. If a person returned himself/herself basically as not engaged in any economic activity such a person was required to state if he or she was engaged in household duties or was a student, retired person or a rentier, a dependent, a beggar or vagrant, inmate of a charitable institution or other non-worker such as a person who was mostly unemployed.

The definition of worker adopted for the 1971 census is given below :-

A worker is a person whose main activity is participation in any economically productive work by his physical or mental activity. Work includes not only actual work but effective supervision and direction of work.

The reference period is one week prior to the date of enumeration in case of regular work. If a person had participated in any regular work on any one of the days during this reference period and this has been re-

turned as his main activity, the person was categorised accordingly. A person who normally works but had been absent from his regular work during the reference period on account of illness, travel, strike, etc., is regarded as engaged in regular work in which he/she otherwise would have been employed but for his/her temporary absence. Persons under training such as apprentices with or without stipends or wages are considered as economically active and recorded as working. A person who has merely been offered work but has not actually joined it, is not treated as engaged in work. For seasonal work like cultivation, livestock keeping, plantations etc., a person's main activity was ascertained with reference to the work normally attended to by him in course of the last one year.

Cultivator

For purposes of the census a person is working as cultivator if he or she is engaged in cultivation by oneself or by supervision or direction in one's capacity as the owner or lessee of land held from government or as a tenant of land held from private persons or institution for payment of money, kind or share.

Cultivation involving ploughing, sowing and harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi etc., and pulses, raw jutes and kindered fibre crop, cotton etc., and other crops such as sugar-cane, groundnuts, tapioca etc., and does not include fruit growing, vegetable growing or keeping orchards or groves or working of plantations like tea, coffee, rubber, cinchona and other medicinal plantations,

Agricultural Labourer

A person who works in another person's land for wages in money, kind or share is regarded as an agricultural labourer. He has no risk in the cultivation but he merely works in another person's land for wages. The labourer could have no right of lease or contract on land on which he works.

Household Industry

A household industry is defined as an industry conducted by the head of the household himself/herself and/or mainly by the members of the household within the village in rural areas and only within the premises of the house where the household lives in urban areas. The industry should not be run on the scale of registered factory. The main criterion of the household industry is the participation of one or more members of a household. A household industry should relate to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. It does not include professions such as a pleader or doctor or barbar, musician, dancer, waterman, dhobi, astrologer etc.

Other Workers

If a person engages himself in any other work which is not cultivation, agricultural labour or household industry he is treated as engaged in other work. Other workers include factory workers, those working in trade or transport, all government servants, municipal employees, teachers, mining workers, political or social workers, building labourers etc., etc. In effect all types of economic activity not covered by cultivation, agricultural labour or household industry come under this residual category.

The industrial categories represented as I, II,.....IX in Cols. 17 to 36 of village and urban blockwise Primary Census Abstract are explained below :

I Cultivators
II Agricultural Labourers
III Livestock, Forestry, Fishing Hunting & Plantations, Orchards and Allied Activities.
IV Mining and Quarrying
V Manufacturing, Processing, Servicin and Repairs
(a) Household Industry
(b) Other than Household Industry
VI Construction
VII Trade and Commerce
VIII Transport, Storage and Communications
IX Other Services

The following abbreviations are used in the Primary Census Abstract for facility of presentation.

'P' Persons
'M' Males
'F' Females
} Appearing above the column numbers.

List of Scheduled Castes and Scheduled Tribes in Assam

The scheduled castes and scheduled tribes in Assam as listed in the Scheduled Castes and Scheduled Tribes List Modification Order, 1956 are noted below. It may be noted that scheduled castes are recognised only among Hindus and Sikhs while the members of scheduled tribes may belong to any religion.

Scheduled Castes in Assam

Throughout the State :-

1. Bansphor
2. Bhuinmali or Mali
3. Brittial-Bania or Bania
4. Dhupi or Dhobi
5. Dugla or Dholi
6. Hira
7. Jalkeot
8. Jhalo, Malo or Jhalo-Malo
9. Kaibartta or Jaliya
10. Lalbegi
11. Mahara
12. Mehtar or Bhangi
13. Muchi or Rishi
14. Namasudra
15. Patni
16. Sutradhar

Scheduled Tribes in Assam

1. In the Autonomous Districts :
   1. Chakma
   2. Dimasa (Kachari)
   3. Garo
   4. Hajong
   5. Hmar
   6. Khasi & Jaintia (including Khasi, Synteng or Pnar, War, Bhoi or Lyngngam)
   7. Any Kuki Tribes, including -
      (i) Biate or Biete
      (ii) Changsan
      (iii) Chongloi
      (iv) Doungel
      (v) Gamalhou
      (vi) Gangte
      (vii) Guite
      (viii) Hanneng

(ix) Haokip or Haupit
(x) Haolai
(xi) Hengna
(xii) Hongsungh
(xiii) Hrangkhawal or Rangkhol
(xiv) Jongbe
(xv) Khawchung
(xvi) Khawathlang or Khothalon
(xvii) Khelma
(xviii) Kholhou
(xix) Kipgen
(xx) Kuki
(xxi) Lengthang
(xxii) Lhangum
(xxiii) Lhoujem
(xxiv) Lhouvun
(xxv) Lupheng
(xxvi) Mangjel
(xxvii) Misao
(xxviii) Riang
(xxix) Sairhem
(xxx) Selnam
(xxxi) Singson
(xxxii) Sitlhou
(xxxiii) Sukte
(xxxiv) Thado
(xxxv) Thangngen
(xxxvi) Uibuh
(xxxvii) Vaiphei

8. Lakher
9. Man (Tai-Speaking)
10. Any Mizo (Lushai) Tribes
11. Mikir
12. Any Naga Tribes
13. Pawi
14. Synteng

2. In the Tribal Areas other than the Autonomous Districts :-

All Tribes of North-East Frontier Agency including :-

1. Abor
2 Aka
3. Apatani
4. Dafla
5. Galong
6. Khampti
7. Khowa
8. Mishmi
9. Momba
10. Any Naga Tribes
11. Sherdukpen
12. Singpho

3. In the State of Assam excluding the Tribal Areas :-

1. Barmans in Cachar
2. Boro-Borokachari
3. Deori
4. Hojai
5. Kachari including Sonwal
6. Lalung
7. Mech
8. Miri
9. Rabha

GENERAL POPULATION, ECONOMIC AND SOCIAL & CULTURAL TABLES

THE TABLES

The following Census Tables based on full count pertaining to Mizoram are included in this volume :

Table A-I	: Area, Houses and Population
	Appendix I to Table A-I
	Appendix II to Table A-I
	Appendix III to Table A-I
Table A-II	: Decadal Variation in Population Since 1901
Table A-III	: Villages classified by Population
Table A-IV	: Towns classified by Population in 1971 with variation since 1901
Table B-I (Part-A)	: Workers and Non-workers according to Main Activity classified by Sex and Age-groups
Table C-V	: Mother Tongue
Table C-VII	: Religion
	Appendix to Table C-VII
Table C-VIII	: Scheduled Castes & Scheduled Tribes (Part-A and Part-B)-Classification by Literacy and Industrial Category of Workers and Non-workers according to Main Activity among Scheduled Castes and Scheduled Tribes
	Appendix to Table C-VIII

EXPLANATORY NOTES ON TABLES

Table A-I : Area, Houses and Population

This is the basic population table for the census and furnishes data for the Union Territory/ Subdivision/Police Station/Town for rural and urban areas separately. It presents area in Sq. Kms., density of population per Sq. Km., number of inhabited and uninhabited villages, number of towns, number of occupied residential houses, number of households and population by males and females according to 1971 Census. In case of area for units lower than district such as police stations and towns, the figures as supplied by the Director of Land Records, Assam and local authorities have been shown. The area shown for Mizoram has been obtained from the Surveyor General, India.

Appendix--I : This appendix shows 1961 territorial units constituting the present set-up of each unit.

Appendix—II : One of the criteria for a place to be declared as town is that it should normally have a population of 5,000 and over. For various reasons many places with a population of 5,000 and over are not treated as towns. This appendix gives the number of such places with their population.

Appendix –III : This appendix furnishes figures for the number of houseless and institutional households and houseless and institutional population separately.

Table A-II : Decadal Variation in Population since 1901

This table furnishes data on the population for the eight censuses from 1901 to 1971 and the variation of population. This is a very important table as it gives the growth of population from decade to decade.

Table A-III : Villages classified by Population

This table gives the total number of inhabited villages classified by various population sizes of (1) less than 200, (ii) 200-499, (iii) 500-999, (iv) 1,000-1,999, (v) 10,000 and above indicating therein the total rural population by persons, males and females down to police station level.

Table A-IV : Towns classified by Population in 1971 with variation since 1901

This table furnishes the total population of each town separated by males and females, decade variations and percentage decade variations since 1901. The area of the towns have also been given.

For the purpose of census all towns are divided into six classes according to their population sizes :—

I—Population of 100,000 and over ;

II—Population of 50,000-99,999 ; III—Population of 20,000-49,999 ; IV—Population of 10,000-19,999 ; V—Population of 5,000-9,999 and VI—Population of less than 5,000. A town with a population of 100,000 or over is termed as a city.

Table B-I Part A : Workers and Non-workers according to Main Activity classified by Sex and Age-groups

This is the basic economic table and shows distribution of the entire population into two broad classes of workers and non-workers. Workers are further classified into nine broad industrial categories, cross classified into eight age-groups viz. 0-14, 15-19, 20-24, 25-29, 30-39, 40-49, 50-59 and 60+.

Table C-V : Mother Tongue

This table gives the distribution of population according to mother tongue down to police station level. The mother tongues are arranged in alphabetical order.

Table C-VII : Religion

This table distributes the population according to religion in rural and urban areas separately. The six main religious communities in this table are (1) Hindus (2) Muslims (3) Christians (4) Sikhs (5) Buddhists and (6) Jains.

Table C-VIII : Scheduled Castes and Scheduled Tribes (Part A and Part B)—Classification by literacy and industrial category of workers and non-workers according to main activity among Scheduled Castes/Scheduled Tribes

This table furnishes the total population of Scheduled Castes and Scheduled Tribes and their distribution by literacy and classification of workers into different industrial categories and total number of non-workers. This is a general table prepared for the Scheduled Castes and Scheduled Tribes in total, rural and urban areas separately.

The Scheduled Castes and Scheduled Tribes are those listed in the Scheduled Castes and Scheduled Tribes List Modification Order, 1956 and are noted below :—

Scheduled Castes in Assam

Throughout the State :—

1 Banshor
2 Bhuinmali or Mali
3 Brittial-Bania or Bania
4 Dhupi or Dhobi
5 Dugla or Dholi
6 Hira
7 Jalkeot
8 Jhalo, Malo or Jhalo-Malo
9 Kaibartta or Jaliya
10 Lalbegi
11 Mahara
12 Mehtar or Bhangi
13 Muchi or Rishi
14 Namasudra
15 Patni
16 Sutradhar

Scheduled Tribes in Assam

1 In the Autonomous Districts :-

1 Chakma
2 Dimasa (Kachari)
3 Garo
4 Hajong
5 Hmar
6 Khasi & Jaintia (including Khasi, Synteng or Pnar, War, Bhoi or Lyngngam)
7 Any Kuki Tribes, including :—
(i) Biate or Biete
(ii) Changsan
(iii) Chongloi
(iv) Doungel
(v) Gamalhou
(vi) Gangte
(vii) Guite
(viii) Hanneng
(ix) Haokip or Haupit
(x) Haolai
(xi) Hengna
(xii) Hongsungh
(xiii) Hrangkhawal or Rangkhol
(xiv) Jongbe
(xv) Khawchung
(xvi) Khawathlang or Khothalon
(xvii) Khelma
(xviii) Kholhou
(xix) Kipgen

(xx) Kuki
(xxi) Lengthang
(xxii) Lhangum
(xxiii) Lhoujem
(xxiv) Lhouvun
(xxv) Lupheng
(xxvi) Mangjel
(xxvii) Misao
(xxviii) Riang
(xxix) Sairhem
(xxx) Selnam
(xxxi) Singson
(xxxii) Sitlhou
(xxxiii) Sukte
(xxxiv) Thado
(xxxv) Thangngen
(xxxvi) Uibuh
(xxxvii) Vaiphei

8 Lakher
9 Man (Tai-Speaking)
10 Any Mizo (Lushai) Tribes
11 Mikir
12 Any Naga Tribes
13 Pawi
14 Synteng

2 In the Tribal Areas other than the Autonomous Districts :-

All Tribes of North-east Frontier Agency including :-

1 Abor
2 Aka
3 Apatani
4 Dafla
5 Galong
6 Khampti
7 Khowa
8 Mishmi
9 Momba
10 Any Naga Tribes
11 Sherdukpen
12 Singpho

3 In the State of Assam excluding the Tribal Areas :-

1 Barmans in Cachar
2 Boro-Borokachari
3 Deori
4 Hojai
5 Kachari including Sonwal
6 Lalung
7 Mech
8 Miri
9 Rabha

Appendix to Table C-VIII : Scheduled Castes and Scheduled Tribes classified by literates and illiterates.

While Table C-VIII gives the total population of Scheduled Castes and Scheduled Tribes in general, this appendix furnishes the total population, illiterates and literate & educated persons of each caste and tribe with Sex breakup for total, rural and urban areas of the Union Territory, subdivisions, police stations and towns,
