PREFACE

The data presented in this volume relate to the distribution of workers and non-workers by broad age-groups. They comprise tables B-I A and B-II, details of which will be found in the general note and the concerned fly-leaves. These were done under the able guidance of Shri S. C. Srivastava, Assistant Central Tabulation Officer in the Census Division.

The concept of 'work' has been changing in each of the post-independence censuses, consistent with the need for data reflecting the situation then obtaining. Such changes impose limitation on comparability of data from census to census. There is also a problem of classification as economic classification of data has varied at each census. A sample survey was organised after the 1971 census in which both the concepts of 'worker' (adopted at the 1961 and 1971 censuses) were canvassed in an attempt to establish comparability of the sets of economic data. The results have been published in Paper 1 of 1974. To tackle the second problem, an attempt has been made to give a comparative picture of the economic classification from census to census (1901–1971) and the same is appended to this volume as Appendix I. Shri Madan Singh, Research Officer in the Census Division, worked on this project almost single-handed.

This volume was printed at the Government of India Press, Nasik. Proof-reading was organised jointly by the Central tabulation unit and the Printing Cell of this Office. The names of my colleagues who were involved in this work appear overleaf. My thanks are due to all of them.

GENERAL NOTE

The Indian census continues to be the single largest source of data regarding the land and the people. It has been a census tradition to collect and make available the economic data at national and sub-national levels. Following the pattern laid in 1961, the economic data of 1971 are presented here in the form of 'B' series tables.

2. The present volume, Part IIB (i) is the forerunner of this series of tables giving tables B-I Part A and B-II, *i.e.*, workers and non-workers according to main activity by sex and age-groups; and workers and non-workers in cities and non-city urban areas, according to main activity classified by sex and age-groups respectively. These two tables have been prepared on the basis of 100 per cent processing of data. The remaining tables of this series have been prepared on sample basis and will be presented in Part IIB(ii) & IIB (iii).

3. Table B-I Part A gives data for the country and for each state and union territory. Similar figures at the district level are being presented in the volumes of the different states and union territories. Table B-II is similar to Table B-I Part A with the difference that the former confines itself to the presentation of data for cities and non-city urban areas only. This is almost identical to Table B-II of the 1961 census, with the difference that 1971 data are presented for some more broad age-groups.

4. The economic questions of the Indian census undergone frequent changes. At each of the three censuses of 1951, 1961 and 1971, the concept of work had to be changed. The main economic questions in the censuses of 1891-1921 were related to livelihood or occupation or means of subsistence of each worker. In actual practice, however, even persons who were not working but were receiving income from land, property, etc., were considered as economically active. The concept of income was specifically introduced in 1931 and continued in the 1941 and 1951 censuses. Thus in 1931, the population was divided into three classes, *viz.*, 'earner' 'working dependent' and 'non-working dependent'. An 'earner' was defined as a person with regular work for which return was obtained in cash or in kind which augmented the family income. A 'working dependent' was a person who assisted in the work of the family and contributed to its support without actually earning wages. In 1941, the classifications were 'wholly dependent', 'partly dependent' and 'others'. A person who drew no income in cash or in kind was treated as 'wholly dependent'. One who contributed in cash or kind towards the sustenance of the household without being definitely capable of supporting himself was classified as 'partly dependent'. In 1951, there was a further change and the classification was 'self-supporting person', 'earning dependent' and 'non-earning dependent'. A self-supporting person was one who was in receipt of an income and that income was sufficient at least for his own maintenance. A person who earned income which was not sufficient for his own maintenance was classified as an 'earning dependent'. In 1961, economic data ware collected on the basis of work. The population was divided into two classes, 'workers' and 'non-workers'. In the case of regular employment in any trade, profession, service, business or commerce, the basis for work would be satisfied if the person had been employed during any of the 15 days preceding the day on which he was enumerated. In the case of seasonal work like cultivation, livestock, dairying and household industry if a person had had some regular work of more than one hour a day throughout the greater part of the working season, he was to be regarded as a 'worker'. Work included not only actual work but effective supervision and direction of work. Persons who were not engaged in any economic activity were treated as 'non-workers'.

5. At the 1971 census, however, the main activity of a person was first ascertained according as he spent his time basically as a 'worker' producing goods and services or as a 'non-worker'. A 'worker' was defined as a person whose main activity was participation in any economically productive work by his physical or mental activity. 'Work' involved not only actual work but effective supervision and direction of work. For regular work in industry, trade or service, the reference period was the week prior to the day of enumeration (it was a fortnight in 1961) and, in the case of seasonal work such as agriculture, it was the preceding one year. The person was categorised according to his main activity. Where a person who was basically a 'non-worker' such as a student or housewife, did make some marginal contribution to work, that 'secondary work' was recorded under a separate question. The following were the main questions which have yielded all the economic data of the 1971 census.

16. **Main activity**

(a) Broad category

(i) Worker

(ii) Non-worker

(b) Place of work (Name of village/town)
(c) Name of establishment
(d) Nature of Industry, Trade, Profession or service
(e) Description of work
(f) Class of worker

17. **Secondary work**

(a) Broad category
(b) Place of work (Name of village/town)
(c) Name of establishment
(d) Nature of industry, trade, profession or Service
(e) Description of work
(f) Class of worker

The following definitions were adopted at the 1971 census to distinguish a 'worker' from a 'non-worker'.

Main activity

Every person will be asked what his main activity is, that is how he engaged himself mostly. For the purpose of this question, all persons will get themselves divided into two broad streams of main activity namely (1) as workers and (2) as non-workers, according to the type of main activity that the person returns himself as engaged in mostly.

'Worker' defined : A 'worker' is a person whose main activity is participation in any economically productive work by his physical or mental activity. Work involves not only actual work but effective supervision and direction of work.

Reference period : The reference period is one week prior to the date of enumeration in the case of regular work in trade, profession, service or business. If a person had participated in any such regular work on any one of the days during this reference period and this has been returned as his main activity, the person will be categorised accordingly. A person who normally works but had been absent from work during this reference period on account of illness, travel, holiday, temporary breakdown, strike, etc., the person should be treated as engaged in regular work in which he would have otherwise been employed but for his temporary absence. Persons under training such as apprentices with or without stipends or wages should be considered as economically active and recorded as working. A person has been merely offered work but has not actually joined it, is not to be treated as engaged in work.

There are certain types of work which are not carried on throughout the year such as cultivation, livestock-keeping, plantation work some types of household industry, etc. A person's main activity should be ascertained with reference to such work in the last one year even if he was not economically active in the week prior to enumeration. It is likely that even when a person is engaged in some other work during the period of one week prior to the date of enumeration, the main activity of the person may be cultivation, agricultural labour or some other work attended to normally by him in the course of the year. Care must be taken to see that the main activity is properly ascertained in such cases. For example, a person's main activity may be agricultural labour and in the week prior to enumeration he may be engaged as a sugarcane factory labourer or as a road coolie. He should be categorised for his main activity as agricultural labour as returned by him as he engages himself mostly in that work and the other work should be treated as his subsidiary work.

A man or woman who is engaged primarily in household duties such as cooking for one's own household or performing one's own household duties or a boy or a girl who is primarily a student attending institution, even if such a person helps in the family economic activity but not as a full-time worker should not be treated as a worker for the main activity. On the other hand, if a person is primarily engaged in some economic activity but at the same time does also attend to some household chores or attends a night school, etc., he or she should be treated basically as a worker for the main activity and categorised accordingly.

A person who merely receives an income such as a rent receiver or a pensioner who does not have to work for receiving the income, will not be treated as economically active unless the person is also engaged in some economic activity and if that activity is returned as the main activity of the individual.

Question 17 of the individual slip provided the data to get a measure of the secondary work. The following instructions given to the census enumerator in filling this question explain its scope.

Secondary work

This question should be asked of every person whether he has returned some work as his main activity against 16(a) (i) or had returned himself under any of the basically non-working categories against question 16(a) (ii). As was noted earlier, 16(a) (ii) will cover cases like persons performing houshold duties or students who may not be engaged in any other economically productive work at all, as also those who, though basically are performing household duties or students, etc., for the purpose of their main activity, still participated in some other economic activity such as helping the household in several items of work as in cultivation or in household industry or in looking after the cattle, in attending to family business etc., but not to the extent of a full-time worker. Such participation will be considered as secondary work of these persons.

Ask of each person if, besides what he had already returned as his/her main activity against questions 16(a) (i) or 16(a)(ii), he/she participated in any secondary work. A number of unpaid family workers participating in the household enterprises, who might have returned themselves mainly as 'H' or 'ST' or 'R' under question 16(a) (ii) for their main activity, will be netted here for their economic activity which is subsidiary. Mere rendering of service for one's own home or production of goods for purely domestic consumption are not to be treated as economic activity. For example, a servant who works as a cook in his or her employer's home for wages will be considered economically active but, a housewife, even if she may work much more than a paid servant, in having to cook for the family or looking after the household will not be treated as economically active for the purpose of this classification. Similarly, women who may produce cloth on a loinloom at home for domestic consumption will not be treated as economically active unless the products are sold and the household derives an income. Participation in work that goes to augment the income of the household will only be treated as economic activity. A boy whose main activity is shown as a student under 16(a)(ii), can have the secondary work of, say, cultivation if he helped the head of the household in the family cultivation during some parts of the season. But if a girl student, whose main activity is shown as 'ST' under 16(a)(ii), also helped in weaving cloth purely for domestic consumption on a loinloom at home or helped in attending to household chores, she will not be treated as having any secondary work. Secondary work will be reckoned only if the person is engaged in some economic activity, even if marginal, in addition to whatever is the main activity under question 16. A person whose main activity is shown as, say, a clerk in a government office or a teacher under question 16, also attends to some cultivation by his direct supervision or undertakes some tuition. This will be shown as secondary work under question 17. A person's main activity may be cultivation in question 16 and his subsidiary activity money-lending in question 17. Again main activity may be agricultural labourer and subsidiary work sugar factory labourer and so on and so forth.

Persons classified as non-workers according to main activity were categorized under the following heads, *viz.*, (1) those attending to household duties, (2) students, (3) retired persons or rentiers, (4) dependents, (5) beggars, (6) inmates of penal, mental or charitable institutions and (7) other non-workers. The types of non-workers coming under each of these categories can be understood from the following extracts of instructions to census enumerators.

H : Household duties

This covers all those persons basically engaged in unpaid home duties doing no other work or, even if such a person may also be participating in some other work, it is not to the same extent as a whole-time worker and if the person has returned his or her main activity as attending to household duties. The main activity of such a person should be entered as 'H'. If a person whose main activity is attending to household duties, also engages oneself in some other economic activity such as helping in family cultivation or preparing cowdung cakes at odd times for sale, etc., the economic activity will be covered as secondary work under question 17. On the other hand, a woman who works primarily as a factory worker or a plantation labourer or an agricultural labourer or in some office or shop, etc., and also attends to household duties obviously her main activity will be the economic activity in which she is mostly engaged in and should not be categorised as 'H' for her main activity in this question. She should have been treated basically as a worker and her main economic activity should have been recorded against 16(a)(i).

ST : Student

This refers to those whose main activity is returned as a student. This will cover all full-time students or children attending school. Even if such persons participated in some work but not to the same extent as a full-time worker, by merely helping casually as an unpaid family worker in family cultivation, household industry, trade or business, they should be treated primarily as students, if that is their main activity. 'ST' should be entered in the box. The other economic activity, if any, that such persons attend to will be reflected under question 17 as secondary work.

R : Retired person or a rentier

A person who has retired from service and i.e. doing no other work, *i.e.*, not employed again in some full-time work or does not engage himself in some other work as cultivation, in business, trade, etc., or a person who is a rentier or living on agricultural or non-agricultural royalty, rent or dividend or any other person of independent means for securing which he does not have to work, will come under this category. 'R' should be noted in the box for a person coming under this category.

D : Dependent

This category will include all dependents such as infants or children not attending school or a person permanently disabled from work because of illness or old age. If a girl or an old woman attends to household duties, she should be categorised under 'H' for her main activity rather than 'D'.

Dependents will include all non-workers even if able-bodied who have no other activity coming under any of the categories of non-workers and who are not seeking any work either but are purely dependent.

B : Beggars, etc.

This will cover beggars, vagrants or such cases as independent women without indication of source of income and those of unspecified sources of subsistence and who are not engaged in any economically productive work.

I : Inmates of institutions

This will cover convicts in jails or inmates of a penal, mental or charitable institution, even if such persons are compelled to do some work such as carpentry, carpet-weaving, vegetable growing, etc., in such institutions. An under-trial prisoner in a jail should not, however, be brought under this category but has to be indicated according to the main activity he was engaged in before he was apprehended. Inmates of such institutions will be noted as 'I'.

O : Other Non-workers

This will include all non-workers who may not come under any of the six categories and also those who are seeking work. They should be noted as 'O' in the box. A boy or girl who has completed education or has stopped studying and is seeking work will come under this category. If a person is merely spending his time at home as a dependent and is not doing any work and is not seeking any work will come under 'D' rather than 'O'. A person irrespective of age and whether educated or not, if he reports that he is not engaged in any other activity but is seeking work will come under this category.

The industrial categories adopted in the 1971 census are as follows:—

I– Cultivators

II– Agricultural labourers

III– Livestock, forestry, fishing, hunting, plantation, orchards and allied activities

IV– Mining and quarrying

V– Manufacturing, processing, servicing and repairs–

(a) Household industry

(b) Other than household industry

VI– Construction

VII– Trade and commerce

VIII—Transport, storage and communications

IX—Other services

The categories adopted are almost similar to those of 1961 with one important difference. This time, category III of 1961 has been divided into two categories—categories III and IV. Category III now comprises livestock, forestry, fishing, hunting, plantations, orchards and allied activities. 'Mining and quarrying' has been separated and now constitutes category IV.

'Household industry' is no longer to be found in category IV and the earlier categories IV and V have now been combined into category V which includes all 'manufacturing, processing,' servicing and repairing activities. This category has been sub-divided into two groups V (a) and V (b) to indicate 'household industry' and other than 'household industry' respectively. Thus, for all practical purposes, the earlier category IV is now category V (a) and the earlier category V is now category V(b).

The following two appendices are given at the end of this note.

Appendix I

A comparative chart of economic (National industrial) classification 1901-1971.

Appendix II

Instructions pertaining to economic questions issued at each census from 1872-1971.

Each table presented in this volume is preceded by a fly-leaf which explains in brief the broad features of the table and the mode of presentation of data in that table.

APPENDIX II

INSTRUCTIONS PERTAINING TO ECONOMIC QUESTIONS ISSUED AT EACH CENSUS FROM 1872—1971

1971

The economic questions relate to items 16 and 17 of the individual slip.

Question 16: Main activity

Every person will be asked what his main activity is, that is, how he engages himself mostly. For the purpose of this question, all persons will get themselves divided into two broad streams of main activity namely, (1) as workers and (2) as non-workers according as the type of main activity that the person returns himself as engaged in mostly.

'Workers' defined : A 'worker' is a person whose main activity is participation in any economically productive work by his physical or mental activity. Work involves not only actual work but effective supervision and direction of work.

Reference periods : The reference period is one week prior to the date of enumeration in the case of regular work in trade, profession, service or business. If a person had participated in any such regular work on any one of the days during this reference period and this has been returned as his main activity, the person will be categorised accordingly. A person who normally works but had been absent from work during this reference period on account of illness or travel, holiday, temporary breakdown, strike etc. the person should be treated as engaged in regular work in which he would have otherwise been employed but for this temporary absence. Persons under training such as apprentices with or without stipends or wages should be considered as economically active and recorded as working. A person who has merely been offered work but has not actually joined it, is not to be treated as engaged in work.

There are certain types of work which are not carried on throughout the year such as cultivation, live-stock, keeping, plantation work, some types of household industry, etc. A person's main activity should be ascertained with reference to such work in the last one year even if he was not economically active in the week prior to enumeration. It is likely that even when a person is engaged in some other work during the period of one week prior to the date of enumeration, the main activity of the person may be cultivation, agricultural labour or some other work attended to normally by him in the course of the year. Care must be taken to see that the main activity is properly ascertained in such cases. For example, a person's main activity may be agricultural labour and in the week prior to enumeration, he may be engaged as a sugarcane factory labourer or as a road cooly. He should be categorised for his main activity as agricultural labourer only as returned by him as he engages himself mostly in that work and the other work should be treated as his subsidiary work.

A man or woman who is engaged primarily in household duties such as cooking for own household or performing one's own household duties or a boy or a girl who is primarily a student attending institution, even if such a person helps in the family economic activity but not as a full time worker should not be treated as a worker for the main activity. On the other hand, if a person is primarily engaged in some economic activity but at the same time does also attend to some household chores or attends a night school etc. he or she should be treated basically as a worker for the main activity and categorised accordingly.

A person who merely receives an income such as a rent receiver or a pensioner who does not have to work for receiving the income, will not be treated as economically active unless the person is also engaged in some economic activity and if that activity is returned as the main activity of the individual.

Q. 16 (a) Broad category (i) Worker (C,AL, HHI, OW) (ii) Non-worker (H, ST, R, D, B, I, O)

The main activity returned by the person will entitle him to be categorised either as a worker in 16(a)(i) or as a non-worker under 16(a)(ii).

16(a)(i) Worker (C, AL, HHI, OW)

Where the main activity of a person qualifies him to be treated as a worker he should be further categorised according to the type of work and one of the appropriate abbreviations indicated against this question should be entered in the box provided for the purpose. If the person is not engaged in any economic activity a 'X' should be noted in the box. The abbreviations to be used for workers are explained below :

C : CULTIVATOR

For a person who returns his main activity as working as a cultivator, the abbreviation 'C' should be used.

Definition of Cultivator : For purposes of the census a person is working as cultivator if he or she is engaged in cultivation by oneself or by supervision or direction in one's capacity as the owner or lessee of land held from Govt. or as a tenant or land held from private persons or institutions for payment of money, kind or share.

Cultivation involves ploughing, sowing and harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi etc. and pulses, raw jute and kindred fibre crop, cotton, etc. and other crops such as sugarcane, groundnuts, tapioca etc. and does not include fruit growing, vegetables growing or keeping orchards or groves or working of plantations like tea, coffee, rubber, cinchona and other medicinal plantations.

A person who merely owns land but has given out land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, will not be treated as working as cultivator. Similarly, a person working in another person's land for wages in cash, kind or share (Agricultural labourer) will not be treated as cultivator in this question.

AL : AGRICULTURAL LABOURER

A person who returns his main activity as engaged as agricultural labourer, the abbreviation 'AL' should be used in the box.

Definition of an agricultural labourer : A person who works in another person's land or wages in money, kind or share should be regarded as an agricultural labourer. He has no risk in the cultivation but he merely works in another person's land for wages. The labourer could have no right of lease or contract on land on which he works.

H.H.I. : HOUSEHOLD INDUSTRY

For a person who returns his main activity as engaged in some production, processing, servicing or repair of articles of goods such as, say, handloom weaving, dyeing, carpentary, bidi rolling, pottery manufacturing, bicycle repairing, blacksmithy, tailoring etc., it has to be ascertained if it is a household industry, and if so, it should be indicated by the abbreviation 'HHI' in the box.

Definition of a household industry : A household industry is defined as an industry conducted by the Head of the household himself/herself and/or mainly by the members of the household at home or within the village in rural areas and only within the premises of the house where the household lives in urban areas. The industry should not be run on the scale of a registered factory.

The main criterion of a household industry is the participation of one or more members of a household. This criterion should apply to urban areas too. Even if the industry is not actually located at home in rural areas there is greater possibility of the members of the household participating even if it is located anywhere within the village limits. In the urban areas where organised industry takes greater prominence, the Household Industry should be confined to the precincts of the house where the participants live. In urban areas even if the members of the household by themselves run an industry but at a place away from the precincts of their home, it will not be considered a household industry. It should be located within the precincts of the house where the members live.

A household industry should relate to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. It does not include professions such as a pleader or doctor or barber, musician, dancer, waterman, dhobi, astrologer, etc., or merely trade or business, even if such professions, trade or services are run at home by members of household. A list of a few typical household industries is appended to these instructions at Annexure I.

Sometimes it is likely that the person who may not be working in his own household industry may be working as a petty employee in another household industry. You should, therefore, enquire whether the person who is not working in his own household industry is working in any other household industry as an employee and record as per instructions given above.

OW : OTHER WORKERS

If a person gives his main activity as engaged in any other work which is not cultivation, agricultural labour or household industry, this may be indicated by merely noting 'OW' in the box. The type of workers that may come under the 'other workers' category are factory workers, those working in trade or transport, all Government servants, municipal employees, teachers, mining workers, political or social workers, building labourers etc. etc. In effect, all types of economic activity not covered by cultivation, agricultural labour or household industry will come under this residual category. Workers engaged in plantation or forestry should not be treated as cultivators or agricultural labourers but as 'other workers'.

Further details pertaining to this 'Other' category of workers, as also those engaged in household industry, will be recorded in the subsequent sub-parts (b) to (f) of question 16.

16(a)(ii) Non-worker (H, ST, R, D, B, I, O)

As was stated earlier, question 16 is intended to ascertain the main activity of every individual whether he or she is economically active or not. While 16(a)(i) helps to broadly categorise all those who have returned some work as their main activity, 16(a)(ii) will help to categorise those whose main activity is not engaged in any economically productive work, but are basically non-workers. These may be categorised under seven broad heads whose abbreviations are indicated against this question. The appropriate abbreviation will have to be entered in the box provided. The abbreviations are explained below.

H : HOUSEHOLD DUTIES

This covers all those persons basically engaged in unpaid home duties doing no other work, or even if such a person may also be participating in some other work, it is not to the same extent as a whole-time worker and if the person has returned his or her main activity as attending to household duties. The main activity of such a person should be entered as 'H'. If a person whose main acivity is attending to household duties, also engaged oneself in some other economic activity such as helping in family cultivation or preparing cowdung cakes at odd times for sale, etc, that economic activity will be covered as secondary work under question 17. On the other hand, a woman who works primarily as a factory worker or a plantation labourer or an agricultural labourer or in some office or shop etc., and also attends to household duties, obviously her main activity will be the economic activity in which she is mostly engaged in and should not be categorised as 'H' for her main activity in this question. She should have been treated basically as a worker and her main economic activity should have been recorded against 16(a)(i).

ST : STUDENT

This refers to those whose main activity is returned as a student. This will cover all fulltime students or children attending school. Even if such persons participated in some work but not to the same extent as a full-time worker, by merely helping casually as an unpaid family worker in family cultivation, household industry, trade or business, they should be treated primarily as students, if that is their main activity. 'ST' should be entered in the box. The other economic activity, if any, that such persons attend to will be reflected under question 17 as secondary work.

R : RETIRED PERSON OR A RENTIER

A person who has retired from service and is doing, no other work *i.e., not employed again in some full-time work, or does not* engage himself in some other work as cultivation, in business, trade, etc., or a person who is a rentier or living on agricultural or non-agricultural royalty, rent or dividend, or any other person of independent means for securing which he does not have to work, will come under this category. 'R' should be noted in the box for a person coming under this category.

D : DEPENDENT

This category will include all dependents such as infants or children not attending school or a person permanently disabled from work because of illness or old age. If a girl or an old woman attends to household duties she should be categorised under 'H' for her main activity rather than 'D'.

Dependents will include all non-workers even if able-bodied who have no other activity coming under any of the categories of non-workers and who are not seeking any work either but are purely dependent.

B : BEGGARS ETC.

This will cover beggars, vagrants or such cases independent women without indication of source of income and those of unspecified sources of subsistence and who are not engaged in any economically productive work.

I : INSTITUTIONS

This will cover convicts in jails or inmates of a penal, mental or charitable institutions, even if such persons are compelled to do some work such as carpentry, carpet weaving, vegetable growing, etc., in such institutions. An under-trial prisoner in a jail should not, however, be brought under this category but has to be indicated according to the main activity he was engaged in before he was apprehended. Inmates of such institutions will be noted as 'I'.

O : OTHER NON-WORKERS

This will include all non-workers who may not come under any of the six categories above but are seeking work, they should be noted as 'O' in the box. A boy or girl who has completed education or has stopped studying and is seeking work, will come under this category. If a person is merely spending his time at home as a dependent and is not doing any work and is not seeking any work will come under 'D' rather than 'O'. A person irrespective of age and whether educated or not, if he reports that he is not engaged in any other activity but is seeking work will come under this category.

If the main activity of the person who is enumerated does not qualify a person to be treated as a worker and he does not fall under any of the four broad categories of workers covered by 16(a)(i) and an 'X' has been put in the box against that question, then he must necessarily be categorised under any one of the seven broad types of non-workers and the appropriate abbreviation entered in the box opposite to question 16 (a)(ii). Conversely if a person has already been treated as a worker and his main activity has been indicated in the box against question 16(a)(i), then que stion 16 (a)(ii) will not apply to the person and an 'X' should be put in the box against question 16(a)(ii). Thus 16(a)(i) and 16(a)(ii) are mutually exclusive.

Q. 16(b) to 16(f)

These sub-parts of question 16 will have to be filled only to describe the details of the household industry or other work indicated against question 16(a)(i). If the main activity has been shown as 'C' or 'AL' against 16 (a)(i) there is no need to give the details of the cultivation or agricultural labour in these sub-sections.

Similarly, if the main activity of an individual has been returned as a non-worker against 16(a)(ii), sub-sections (b) to (f) will not apply and a 'X' may be put right across all these questions.

Q. 16 (b) : Place of work (name of village/ town)

Ascertain from each person who is already taken as a worker other than in cultivation or agricultural labour, *i.e.*, question 16(a)(i) has been answered as HHI or OW, the village or town where he or she works. If the place of work is the same as the village or town of enumeration write 'PL'. In all other cases you should write the name of the place fully. If a person has no fixed place of work such as, say, a travelling vendor of vegetables or a pedlar or a rikshaw puller who may go from one village or town to another, note 'No fixed place of work'. If he works in one particular town or village that should be noted.

Q. 16(c) : Name of establishment

This question and the subsequent sub-sections of question 16 need not be answered for cultivators and agricultural labourers who are already noted as 'C' or 'AL' against question 16 (a)(i).

Record here the exact name of the factory, firm, workshops, business house, company, shop, office, etc., and in respect of public offices you should clearly indicate whether they are central or State Government or local body offices, etc. If the establishment does not have any definite name such as, say, in the case of a household industry like hand pounding of rice, gur making, bee keeping, handloom weaving, potter's house, blacksmithy, etc., note 'No particular name'.

Q. 16 (d) : Nature of industry, trade, profession, or, service

The answer to this question will have to be adequately precise to enable proper classification of the sector or economy in which the person is working. The sector of economy in which, a person works may relate to (i) Plantation, forestry, fishing, livestock etc. (ii) Mining and/or quarrying (iii) Manufacturing (iv) Construction (v) Electricity, gas or water supply (vi) Transport and Communications (vii) Trade & Commerce (viii) Professions and services. Full details of the type of industry, trade profession or service in which the person is engaged will have to be recorded here.

To help you to appreciate the details that may have to be furnished to classify the economic activity appropriately, substantial description of various economic activities are furnished in Annexure II, categorised under certain broad classifications. The list in Annexure II is not exhaustive. You shall have to describe the nature of industry, profession, trade or service whatever it is, in as precise a detail as possible.

Q. 16(e): Description of work

This question has to be filled up for all persons for whom the main activity is shown as 'HHI' or 'OW' in question 16(a)(i) and for whom you should have also to answer the other sub-section of question 16. Under this question, the description of the actual work that the person enumerated is doing is to be recorded irrespective of which type of industry, trade, profession or service he may be working and which is already recorded under question 16(d). His actual work should also be given in sufficient detail. If for example a person is merely recorded as say, clerk with no other details, it will be impossible to properly categorise him as to the type of work he does. He may be a clerk attending to correspondence or book keeping or accounting. Similarly, if a person were merely to be recorded as a mechanic, it will not help to determine what type of mechanic—electrical mechanic, or a motor mechanic or a locomotive mechanic, etc., he is. The description of the actual work done by a person should be ascertained in adequate detail and recorded against this question.

To guide you in answering question 16(e), the types of particulars that need to be ascertained in respect of a few typical occupations are given in Annexure III.

Annexure III is by no means exhaustive. This just illustrates the need to ascertain the full details of the particulars of work performed by an individual for being recorded against question 16(e).

It has been found in the past that substantial number of persons are recorded merely as general labourers. It is necessary to make a probe and find out in which type of work he is mostly engaged as a labourer such as, say, a road coolie, a loader or unloader at a market, a construction labourer, etc.

For those in military service it is enough if it is merely noted as 'in the service of the Central Government'. Other details need not be given.

General

There need be no confusion as to the scope of 16 (d) and 16 (e), 16 (d) would represent the nature of industry, trade, profession or service, i.e., the field of economic activity in which a person is engaged in work and 16 (e) represents the occupation or the actual work that the person does in the industry, trade, profession or service in which he is engaged. Thus, for example the answer to question 16(d) may be say, cotton textile manufacture and the answer to question 16 (e) may be chemical engineer in that industry or a clerk or an accountant in that industry or a labourer in that industry or a truck driver or the managing director of that industry and so on. Similarly, in question 16(d) the nature of service may be some department of the State Government service and in question 16(e) the description of work may be a clerk or an accountant, a Director of the Deptt., jeep driver in the Deptt. etc . Again say, against question 16 (d) the answer may be private medical practice and in 16 (e) may cover orthopaedic surgeon or nurse or a sweeper, etc., working in that private medical practitioner's nursing home.

Q. 16 (f) : Class of worker

For a person who is :

(i) an employer, that is, who hires one or more persons in his work described in question 16 (e), write .. ER

(ii) an employee, that is, who does his work described in question 16 (c) under others for wages or salary in cash or kind, write .. .. EE

(iii) a single worker, that is, who is doing his work described in question 16 (e) without employing others except casually, and without the help of other members of the family except casually and a participant in work as members of co-operatives, write .. .. .. SW

(iv) a family worker, that is, who is doing his work described in question 16 (e) in a family enterprise along with other members of the family without wages or salary in cash or kind write .. .. FW

For a person for whom an 'X' is put in question 16 (d) and 16(e) put an 'X' in this question also.

EXPLANATION

An employer is a person who has to employ other persons in order to perform the work entered in question 16 (e). That is to say, such a person is not only responsible for his own personal work but also for giving work to others in business mentioned in question 16 (e). But a person who employs domestic servants for household duties or has subordinates under him in an office where he is employed by others, is not an employer, even if he has the power to employ another person in his office on behalf of his own employer or employers.

An employee is a person who usually works under some other person for salary or wages in cash or kind. There may be persons who are employed as managers, superintendents, agents, etc., and in that capacity employ or control other workers on behalf of their own emoloyers. Such persons are only employees, as explained above, and should not be regarded as employers.

A single worker for the purpose of question 16 (f) is a person who works by himself. He is not employed by any one else and in his turn does not employ anybody else, not even members of his household except casually. This definition of a Single Worker will include a person who works in joint partnership with one or several persons hiring no employees, and also a member of a producer's co-operative. Each one of the partners or members of such producers' co-operatives should be recorded as 'Single Worker'.

A family worker is a member who works without receiving wages in cash or kind, in an industry, business, trade or service. For example, the working members in a family of *Dhobies* where they all participated and each does not receive wages separately, will be family workers. There may be family workers in industry, trade or professions as well. For the purpose of this definition members of a family may be drawn from beyond the limits of the household by ties of blood or marriage. The family worker may not be entitled to a share of the profits in the work of the business carried on either by the person or head of the household or other relative.

Members of the household who help solely in household duties should not be treated as family workers.

In the case of persons engaged in household industry, i.e., in the case of persons for whom the answer to question 16 (a) (i) is 'HHI', there will be three classes of workers viz. family woker, single worker and employee. There will be no employer. Household industry by its very definition is conducted by the head of the household himself or/and other members of the household, the role of hired workers being secondary. If the head long with the members of the household is working in a household industry employing hired workers, the head and other members who are working should be treated as 'family workers'. I the head alone is working with the assistance of hired worker (s whose role would be secondary as indicated above, h would be treated as a 'single worker'.

Q. 17 Secondary work

This question should be asked of every person whether he has returned some work as his main activity against 16 (a) (i) or had returned himself under any of the basically non-working categories against question 16 (a) (ii). As was noted earlier, 16 (a) (ii) will cover cases like persons performing household duties or students who may not be engaged in any other economically productive work at all, as also those who though basically are performing household duties or students, etc. for the purpose of their main activity, still participated in some other economic activity such as helping the household in several items of work as in cultivation or in household industry or in looking *after the cattle, in attending to family business, etc., but* not to the extent as a full-time worker. Such participation, will be considered as secondary work of these persons.

Ask of each person if, besides what he had already returned as his/her main activity against questions 16 (a) (i) or 16 (a) (ii), he/she participated in any secondary work. A number of unpaid family workers participating in the household enterprises who might have returned themselves mainly as 'H' or 'ST' or 'R' under question 16 (a) (ii) for their main activity will be netted here for their economic activity which is subsidiary. Mere rendering of service for ones own home or production of goods for purely domestic consumption are not to be treated as economic activity. For example, a servant who works as a cook in his or her employer's home for wages will be considered economically active, but, a house-wife, even if she may work much more than a paid servant, in having to cook for the family or looking after the household will not be treated as economically active for the purpose of this classification. Similarly, women who may produce cloth on a loin loom at home for domestic consumption will not be treated as economically active unless the products are sold and the household derives an income. Participation in work that goes to augment the income of the household will only be treated as economic activity. A boy whose main activity is shown as a student under 16 (a) (ii), can have the secondary work of say, cultivation if he helped the head of the household in the family cultivation during some parts of the season. But if a girl student, whose main activity is shown as 'ST' under 16 (a) (ii) also helped in weaving cloth purely for domestic consumption on a loin loom at home, or helped in attending to household chores, she will not be treated as having any secondary work. Secondary work will be reckoned only if the person is engaged in some economic activity even if marginal in addition to whatever is the main activity under question 16. A person whose main activity is shown as, say, a clerk in a Government office or a teacher under question 16, also attends to some cultivation by his direct supervision or undertakes some tution, this will be shown as secondary work under question 17. A person's main activity may be cultivation in question 16 and his subsidiary activity money lending in question 17. Again main activity may be agricultural labourer and subsidiary work sugar factory labourer and so on and so forth.

The instructions for the usage of abbreviations in categorising workers under 16 (a) (i) and filling in the details under 16 (b) to (f) will apply *mutatis mutandis* to question 17 (a) to (f) except that while question 16 (a) (i) will cover the main work Q 17 (a) is intended to cover secondary work which may be possibly part time. It may also be noted that the non-working categories of activity will not be reported as secondary work under question 17.

ANNEXURE I

LIST OF A FEW TYPICAL INDUSTRIES THAT CAN BE CONDUCTED ON A HOUSEHOLD INDUSTRY BASIS

Foodstuffs

Production of flour, by village chakkis or flour mills, milling or dehusking of paddy, grinding of chillies, turmeric, etc. production of gur, khandsari, boora, etc., production of pickles, chutney, jams, etc. processing of cashew nuts, making of dried vegetables, manufacture of sweet-meats and bakery products, production of butter, ghee, etc., slaughtering and preservation of meat and fish, fish curing, etc., oil pressing ghani.

Leather and Fur products

Tanning, currying, etc. of leather, footwear (excluding repair), coats, gloves, currying, dyeing, etc. of fur, fur and skin rugs, etc.

Rubber, plastic, petroleum and coal products

Tyre and tubes industries, footwear made of vulcanized or moulded rubber; rubber and plastic products; petroleum refineries, production of coaltar in coke ovens, etc.

Chemicals and chemical products

Manufacture of gases such as acids, alkalis, oxygen, etc., fertilisers and pesticides, paints, varnishes, drugs and medicines; perfumes, cosmetics, lotions, synthetic, resins, etc., explosive and ammunition and fireworks, etc.

Non-metallic mineral products

Structural clay products, glass and glass products, earthen ware and earthen pottery, china ware and porcelain ware, cement, lime and plaster, asbestos, etc.

Basic metal and alloys industries

Iron and Steel Industries, casting foundries, ferro-alloys, copper, brass, zinc and brass manufacturing, etc.

Metal products and parts except machinery and transport equipment

Metal cans from tin-plate, sheet metal, barrels, drums, pails, safe, etc, structural metal products, metal furniture and fixtures, hand tools, utensil, cutlery, etc.

Machinery, machine tools and parts except electrical machinery

Agricultural machinery, cranes, road rollers, boilers, diesel engine, refrigerators, air conditioners, etc.

Electrical machinery, apparatus, appliances and supplies and parts

Electrical motors, generators, transformers, insulated wires and cables, dry and wet batteries, radio, television, etc., X-ray apparatus, electric computors, etc.

Transport equipment and parts

Ship building and repairing locomotives and parts, railway wagons, coaches, etc., rail road equipment, motor vehicles, bicycles, aircrafts, push-carts and hand carts, etc.

Other manufacturing industries

Do not say other manufacturing industries but write clearly what is being manufactured like manufacture of medical, surgical and scientific equipments, photographic and other optical goods, watches, minting of coins, musical instruments, etc.

ELECTRICITY, GAS AND WATER

Indicate if generation and transmission of electric energy or distribution is involved, e.g., manufacture of gas in gas works and its distribution, water supply, i.e., collection, purification and distribution of water, etc.

CONSTRUCTION

(Do not merely say engaged in construction but give further particulars. Clear details of the type of construction and maintenance such as buildings, road, railway, telegraph, telephone, water ways and water reservoirs, hydro electric projects, industrial plants, activities allied to construction such as plumbing, heading and air conditioning installation, setting of tiles, marble, brick, etc., construction of electrical installation, etc. should be given.)

WHOLESALE AND RETAIL TRADE AND RESTAURANTS AND HOTELS

Food, textiles, live animals, beverages and intoxicants

Indicate clearly that the wholesale trade is done in cereals, pulses, foodstuff, textiles and textiles products, e.g. garments, shirtings, etc., beverages, intoxicants like wines, opium, ganja, tobacco, etc., wholesale trade in animals, straw and fodder is also covered in this.

Fuel, light, chemicals, perfumery, ceramics, glass

Wholesale trade in medicines, chemicals, fuel lighting products, toilets, porcelain, glass utensil, crokery, etc.

All types of machinery, equipment, including transport and electrical equipment

Agricultural and industry machinery, e.g., harvestors, threshers, etc, electrical machinery, transport equipments, etc.

Miscellaneous manufacturing

Wholesale trade in furniture, Rubber and rubber products, building materials, clocks, etc., eye-glasses, etc., medical and surgical instruments, precious metals, stones and jewellery, etc.

RETAIL TRADE IN FOOD AND FOOD ARTICLES BEVERAGE, TOBACCO AND INTOXICANTS

Indicate clearly that the retail trade is carried in grocery, vegetable, fruit selling, meat, poultry, bakery products, dairy products, pan, bidi, aerated water, etc.

Retail trade in textiles

(Do not merely say engaged in retail trade in textile, but, indicate clearly what the retail trade is concerned with.) Dealers in textiles (non-ready-made), ready-made garments, are some examples.

Retail trade in others

Indicate clearly what kind of retail trade it is like, medical shops, booksellers, building material, etc.

Restaurants and hotels

Restaurants, cafes and other eating places, hotels, rooming houses, camps and other lodging places.

TRANSPORT, STORAGE AND COMMUNICATIONS

(Do not merely say engaged in land, water, air transport but give further particulars). 1961

The economic questions relate to items 8 to 12 of the Individual Slip.

Qs. 8 *to* 11 *Working*

These questions apply only to workers. A person who is working may be working as a Cultivator, as an Agricultural labourer, at a Household Industry or may be doing any other work. You have to record the answer in questions 8, 9, 10 and 11 according as the person is working as a Cultivator or as an Agricultural Labourer or at Household Industry or doing any other work. He may be engaged in only one of the above four categories or in more than one. Thus a person can be working both as a Cultivator and an Agricultrual Labourer, in which case he should be entered both in Q. 8 and Q.9. Or, he may be working both as cultivator and at Household Industry in which case he will be entered in Q. 8. and Q. 10. Or, he may be working in any possible combination of 8,9, 10 and 11, in which case he will be entered in the appropriate places. Or, he may be doing just one kind of work in which case he will be entered in only one of the four questions 8 to 11.

Detailed instructions as to how the answers should be recorded in the individual questions are given against those questions below. You should carefully study them before recording the answers. For an undertrial prisoner enumerated in a jail he should be recorded for the work or kinds of work he was doing before he was apprehended. Similarly, for a person temporarily in a hospital or similar institution he should be recorded for the kind of work he was doing before he was admitted into hospital or institution. But for a convict in a prison or for long term inmates of

penal or charitable or mental institutions, the person's previous work should not be recorder but 'I' should be recorded in question 12 below.

The basis of work will be satisfied in the case of seasonal work like cultivation, livestock, dairying, household industry etc., if the person has had some regular work of more than one hour a day throughout the greater part of the working season. In the case of regular employment in any trade, profession, service, business or commerce the basis of work will be satisfied if the person was employed during any of the fifteen days preceedings the day on which you visited the household. If on the check or revisional round such a person is found to be unemployed no change in the original entry should be made. A person who is working but was absent from his work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other causes should be treated as *worker*. A person who has been offered work but has not aetually joined should be treated as *non-worker*. *Work includes not only actual work but effective surpervision and direction of work.*

Persons under training as apprentices with or without stipend or wages will be regarded as working.

An adult woman who is engaged in household duties but doing no other productive work to augment the family's resources should not be considered as working for purposes of this question. If, however, in addition to her household work she engages herself in work such as rice pounding for sale or wages, or in domestic services for wages for others or minding cattle or selling firewood or making and selling cowdung cakes or grass etc., or any such work she should be treated as a worker.

Persons like beggars, pensioners, agricultural or non-agricultural royalty, rent or dividend receivers, who may be earning an income but who are not participating in any productive work should not be treated as working unless they also work in cultivation, industry, trade, profession, business or commerce.

A public, or social service worker who is actively engaged in public service activity or a political worker who is also actively engaged in furthering the political activity of his party will be regarded as a worker and entered fully in question 11.

After you have filled up the answers to questions 8 to 11 if you find that in the case of any person more than one productive activity has been recorded, *i.e.*, more than one of the questions 8, 9, 10 or 11, has been filled up by some work you should ask him which one of the activities that has been recorded for him is his principal work. The principal work is the one on which the person spends most time. Put a ring round the number of the question 8, 9, 10 or 11, according to the work on which the person says he spends most time. You should invariably ask for the principal work where more than one work is recorded and put a ring round the question relating to the principal work.

It may be that in a few cases you find that you have recorded more than two productive activities in questions 8 to 11, *i.e.*, more than two of the questions, 8 to 11 would have been filled up by some work. In such cases you should first ascertain the principal work, *i.e.*, the one on which the person spends most time and put a ring round the number of the question. You should then ascertain the work which is the next in importance to his principal work, *i.e.*, the work after his principal work which occupies most time. You should put a tick against the question number of that work on the left hand side of the question number. The ring and the tick should be put clearly so that any difficulty will not be felt to recognize them clearly.

The following classification illustrates as to which answers should be entered under Q. 8 and which others under Q. 11.

Under Q. 8 : Cultivation involving ploughing, sowing and harvesting.

1. Production of cereal crops (including Bengal gram), such as rice, wheat, *jowar*, *bajra*, maize, roots and tubers like potato, yam, beet etc., sugarcane etc.
3 Production of raw jute and kindred fibre crops.
4 Production of raw cotton and kindred fibre crops.

Under Q. 11 : Other field produce, plantation crops.

A. *Other field produce* :

1 Production of other crops including vegetables not covered in Q. 8.
2 Production of fruits and nuts in plantations, vines and orchards (like cocoanut, arecanut etc.).
3 Production of wood, bamboo, cane reeds, thatching grass etc.
4 Production of juice by tapping palms.
5 Production of other agricultural produce (including fruit and nuts not covered by sl. no. 2 and flowers) not covered above.

B. *Plantation crops*

1 Production of tea in plantation.
2 Production of coffee in plantation.
3 Production of rubber in plantation.
4 Production of tobacco in plantation (does not include tobacco which is cultivated in rotation with other cereal crops, in which case it would go under cultivation).
5 Production of *ganja*, cinchona, opium, poppy, saffron etc.
6 Production of other plantation crops not covered above.

Q. 8 Working as cultivator

For a person working as Cultivator write 'C'. For a person not working as Cultivator and for a person not working at all put 'X'.

For purposes of the census a person is working as cultivator he or she is engaged either as employer, single worker or family worker in (*a*) cultivation of land or supervision or direction of cultivation of land owned or held from Government and (*b*) cultivation of land or supervision or direction of cultivation of land held from private persons or institutions for payment in money, kind or share.

Cultivation involves ploughing, sowing and harvesting and does not include fruit growing or keeping orchards or groves or working for plantations like tea, coffee, rubber, cinchona and other medicinal plantations. Persons engaged in fruit growing or orchardry or plantations like tea, coffee, rubber, cinchona and other medicinal plantations should be entered in Q. 10 or Q. 11 as the case may be.

A person who has given out his land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, *will not* be treated as working as Cultivator. Similarly, a person working in another person's land only as a labourer and has no right or lease or contract on land on which he works, nor is responsible for taking decisions as to which crops to sow and when, or taking the risks of cultivation and is paid wages in cash, kind or share such as share of produce (Agricultural Labourer) will not be treated as Cultivator in this question.

Q. 9 Working as agricultural labourer

Write 'AL' for a person working as Agricultural Labourer, *i.e.*, a person who works in another person's land only as a labourer without exercising any supervision or direction in cultivation, for wages in cash, kind or share such as share of produce. For others put 'X'. The labourer should have no right or lease or contract on land on which he works, nor should he be responsible

for taking decisions as to which crops to sow and when, or taking the risks of cultivation. A share of the produce goes to him only as wages. He should have been working as Agricultural Labourer in the last or current cultivating season.

Qs. 10(*a*) *and* 10(*b*) *household industry*

If a person is working in a household industry write (*i*) the nature of work done by him in the household industry against question 10(a) and (*ii*) the nature of the household industry against question 10(b). Otherwise, put 'X' in both questions 10(a) and 10(b). A household industry is defined as an industry conducted by the Head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of registered factory. Thus the main criterion for a household industry is the participation of one or more members of a household in rural areas. In the urban areas the industry should be confined to the house. You should carefully keep in mind the definition of household industry in the rural area if you are enumerating a rural area and the definition in the urban area if you are enumerating an urban area.

A household industry should relate to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as pleader or doctor of barber or waterman or astrologer.

A person though he may not be working in his own household industry may be working as a paid employee in another household industry. You should, therefore, enquire whether the person who is not working in his own household industry is working in any other household industry and if so, write the nature of the work done by him against question 10(*a*) and the nature of the household industry against 10(*b*).

Q. 10(*c*) *If employee in household industry*

This question will be filled up only for a person who is working as a paid employee in another person's household industry. In his or her case write 'E.E.' For all others put 'X.'

The following examples, will illustrate how questions 10(*a*) to 10(*c*) should be filled up for persons working at household industry :

Q. 10 *Working at household industry*

	(*a*) Nature of work	(*b*) Nature of household industry	(*c*) If employee
1	Spinning yarn . .	Spinning yarn on *Ambar Charkha*	X
2	Dyeing and printing yarn .	Handloom weaving	X
3	Threshing and cleaning grain	Flour making *chakki*	X
4	Labourer employed for crushing oil	Oil *Ghani*	EE
5	Tempering and polishing implements	Blacksmithy making agricultural implements.	X
6	Labourer employed for making and firing kiln	Earthenware pottery	EE
7	Throwing and Turning pottery	Earthenware pottery	X
8	Making wooden doors and windows	Carpentry	X
9	Filling gold ornaments with lac	Goldsmithy	X
10	Labourer working on hosiery machine	Hosiery	EE
11	Keeping accounts . .	Hosiery	X
12	Polishing and scraping metal	Electroplating	X
13	Labourer employed for putting iron hoop on cart-wheels	Cartwheelwright	EE
14	Repairing of guns . .	Gunsmithy	X
15	Bee keeping . . .	Production of honey	X
16	Tending cattle . .	Livestock raising	X

Q. 11 *Doing work other than* 8, 9 *or* 10

If a worker is not working as a cultivator or as an agricultural Labourer or at any household industry write the actual work he is doing. If a person is working as a cultivator or as an agricultural labourer or at household industry and also does some other work (including dairying or livestock raising, orchard or plantation etc., as distinct from cultivation of crops) which does not relate to any of the above categories, write the other work he does in this question. If he is engaged in more than one work and neither of them relates to any of the three categories mentioned above write here the work on which he devotes more time.

Q. 11(*a*) *Nature of work*

In the case of person not working or who works *only* as cultivator or as Agricultural Labourer or at Household Industry, put 'X'.

Describe fully the nature of the work done by the person himself. Full and precise information as to the nature of work done by the person should be given either in the vernacular or in English or in vernacular transliteration of English. At previous censuses much trouble has been caused by inadequate answers, and if you do not succeed in obtaining satisfactory information on the individual slips, you will be required to make a further visit for that purpose.

Q. 11(*b*) *Nature of industry, profession, trade or service*

In the case of a person who is working and the nature of whose own work has been recorded in question 11(*a*), you should write here the nature of industry, profession, trade or service in which the person works.

As in the case of question 11(*a*), you should describe in detail the nature of industry, business, trade, profession or service in which the person works. Vague answers should be avoided. In the case of industries, the articles which are produced or serviced or repaired, should be given. If more than one article is produced the chief article produced or serviced or repaired, should be given. In the case of business or trade the principal article of trade should be described. In the case of service describe the nature of the service to which the person's work belongs. The description should be such that it would be possible to classify the establishment in which the person is working for purposes of industrial classification of the population. The description should be either in the vernacular or in English or in vernacular transliteration of English.

In the case of a person for whom 'X' is put in question 11 (*a*), put 'X' in this question also.

Important points to remember in Questions 11 (*a*) *and* 11 (*b*)

1 Women or children who help with work, such as rice pounding or doing domestic service for wages or minding cattle or selling firewood or making and selling cowdung cakes, grass, etc., should be described fully even if they work part-time. *In the case of married or grown-up women who do any of the work mentioned above in addition to the usual household duties such work should be fully described and 'HW' written in brackets after the full description.*

2 If a person makes the articles he sells, he should be entered as maker and seller of them.

3 Wherever convenient, for complete description, the work should be expressed by the vernacular name by which it is known.

4 The following are too vague and must not be used by themselves :

Scientist, technician, civil servant, clerk, engineer, inspector, checker, foreman, overseer, supervisor, labourer, machinist, assistant, contractor, polisher.

5 *Labourers*—For an unskilled labourer usually employed on one sort of work alone, give also the sort of work done, *e.g.*, railway porter, market or bazar porter, labourer employed on road digging, bricklayer's labourer. If accustomed to work on various jobs, write general labourer.

6 *Machine operators*—Always state the kind of machine giving its recognized name, if any.

7 *Shop-keepers, Retail Dealers, Shop Assistants*—If wholly or mainly engaged in selling, write 'Dealer' (if principal) or, 'Shop Assistant' or Salesman' (if assisting) and state whether the business is wholesale or retail or both. For Shop Assistants and Salesmen in stores with several departments, state the particular department in which engaged (*e.g.*, Ship and Railway Parts, Fans and Sewing Machines, Grocers and Confectioners).

8 *Transport workers*—Describe fully the nature of the transport, *e.g.*, air transport, rail transport, transport by motor car or motor cycle, or vehicles drawn by horse, etc.

9 *Services*—For a person engaged in the Defence Services write 'Service of Central Government'.

10 If the job is known in the trade or industry by a special name, use that name. Manager, Foreman, etc., should be given the department/branch wherever applicable *e.g.*, 'Sales Manager' or a 'Manager' of Hardware Department', Machine Shop Foreman' or 'Boiler Room Foreman' etc. The following terms are insufficient by themselves:

Manufacturer, merchant, agent, broker, refractor, dealer, engineer and iron works, etc.

11 *Domestic Services*—In the case of any private servant *e.g.*, a cook or domestic servant, write only 'private cook or domestic servant'. There is no industry in his case but in the case of persons employed in hostels, restaurants, boarding houses institutions, etc., the words hostel, restaurant, etc., should be added.

For persons in the employ of firms carrying on two or more businesses, if the businesses are carried on in separate premises then the business carried on at the premises in which the person is employed should be given. If the businesses are carried on in the same premises but each has a separate organisation (*i.e.*, they have separate records of employment, production, etc.) then the appropriate business should be quoted. If, however, the two activities are carried on side by side then the major activity of the firm or establishment should be given.

12 *Commerce*—Special care should be taken to see that the distinction between retail and wholesale business is clear. As in industries, the goods handled should be clearly indicated.

Q. 11(*c*) *class of worker*

For a person who is :

1 an *Employer*, that is, who hires one or more persons in his work described in *Q.*11(a)	write MR
2 an *Employee*, that is, who does his work described in Q. 11 (a) under others for wages or salary in cash or kind . . .	write EE
3 a *Single worker*, that is, who is doing his work described in Q. 11 (a) without employing others, except casually and without the help of other members of the family except casually. This will include workers working as members of co-operatives . . .	write SW
4 a *Family worker*, that is, who is doing his work described in *Q.* 11 (*a*) in own family without wages or salary in cash or kind	write FW

For, a person for whom 'X' is put in questions 11 (*a*) and 11(*b*) put 'X' in this question also.

Explanation :—

(*i*) An *Employer* is a person who has to employ other persons in order to perform the work entered in Q. 11(a). That is to say, such a person is not only responsible for his own personal work but also for giving work to others in the business mentioned in Q. 11(a) But a person who employs domestic servants for household duties or has subordinates under him in an office where he is employed by others, is not an employer, even if he has the power to employ another person in his office on behalf of his own employer or employers.

(*ii*) An *Employee* is a person who unsually works under some other person for salary or wages in cash or kind. There may be persons who are employed as managers, superintendents, agents, etc., and in that capacity employ or control other workers on behalf of their own employers. Such persons are only employees, as explained above, and should not be regarded as employers.

(*iii*) A *Single worker* for the purpose of Q. 11 (c) is a person who works by himself. He is not employed by any one else and in his turn does not employ anybody else not even members of his household except casually. This definition of a *Single worker* will include a person who works in joint partnership with one or several persons hiring no employees, and also a member of a producers' co-operative. Each one of the partners or members of such producers' co-operatives should be recorded as 'Single worker'.

(*iv*) A *Family worker* is a member who works, without receiving wages in cash or kind, in an industry, business or trade conducted mainly by members of the family and ordinarily does at least one hour of work everyday during the working season. For the purpose of the entire Q.11, such an industry should be on a scale larger than what has been covered in 'Household Industry' in Q. 10 whether run at home or away from home in town or village and even away from village in rural area and should ordinarily be in the nature of a recognised partnership, joint stock company or registered factory. For the purpose of this definition members of a family may be drawn from beyond the limits of the household by ties of blood or marriage. The family worker may not be entitled to a share of the profits in the work of the business carried on either by the person of head of the household or other relative.

Members of the household who help solely in household duties should not be treated as family workers.

Q. 11(*d*) *Name of establishment*

Describe in detail the name of the factory, workshop, business house, company, shop, etc. If a person has no fixed place of work write, 'No fixed place of work'.

For a person for whom 'X' is put in Qs. 11(*a*), 11(*b*) and 11(*c*) put 'X' in this question also.

The following examples will illustrate how Qs. 11 (*a*) to 11 (*d*) should be filled up for person doing work other than 8, 9 or 10 :

Q. 11. *Doing work other than* 8, 9 or 10

Q. 12 *Activity, if not working*

This question will apply to a person NOT WORKING.

Write 'X' in this question for a person who is working that is, for whom you have recorded the work in any of the questions 8 to 11 above.

The following activities should be recorded in the case of persons NOT WORKING :

1 For a full-time student or child attending school who does no other work, such as make articles at home for sale, nor even help part time in his own family cultivation, industry, trade or business . . write ST

2 For a person engaged in unpaid home duties (like house wife or other adult female) who does no other work, such as make articles at home for sale or wages, nor help regularly even part-time in family cultivation, industry, trade or business . . . write HW

3 For any dependent, including an infant or child not attending school, a person permanently disabled from work because of illness or old age . . . . . write D

4 For a retired person who is not employed again, rentier, person living on agricultural or non-agricultural royalty, rent or dividend or any other person of independent means for securing which he does not have to work and who does no other work . write R

5 For a beggar, a vagrant or an independent woman without indication of source of income and others of unspecified source of existence . . . . . write B

6 For a convict in jail (an under trial prisoner will be shown as a worker if he used to work before he was apprehended) or an inmate of a penal, mental or charitable institution . . . . . write I

7 For a person who has not been employed before but is seeking employment for the first time . . . . . write NE

8 For a person employed before but now out of employment and seeking employment . write UN

Explanation—If a person, who does not work, cannot be readily classified in any of the above categories, put him in category 5 and write 'B' in this question. A retired person who has taken up regular work again should not be entered in this question as he would have been entered for his new work in questions 8 to 11.

A person who is not working but has been offered work which he has not joined should be included in item 3 and 'D' should be written. He should not be included in items 7 or 8.

1951

(1) The census is concerned with two economic characteristics of every individual—his (or her) economic status and his (or her) means of livelihood. The scope and meaning of these expressions will appear from an explanation of three census questions, *viz.* :—

Question 9—Economic status;

Question 10—Principal means of livelihood; and

Question 11—Secondary means of livelihood.

(2) FORM OF QUESTIONS :

Question 9—Economic status :

Part one—Dependency—Write '1' for a self-supporting person, '2' for a non-earning dependent, and '3' for a n earning dependent, Write the answer in the first compartment.

Part two—Employment—If a self-supporting person earns his principal means of livelihood as an employer write '1', as an employee write '2', as an independent worker write '3'. Write '0' in other cases. Write the answer in the second compartment.

Question 10—Principal means of livelihood : An answer to this question should be recorded on every slip. If the slip relate to a self-supporting persons record his principal means of livelihood. If the sli prelates to a dependant (whether earning or non earning) record here the principal means of livelihood of the self supporting person on whom he is dependant. The means of livelihood which provides the largest income is the 'principal means of livelihood' for a self-supporting person who has more than one means of livelihood. In the case of other self-supporting persons it is the only means of livelihood.

Use the following contractions : Write '1' for a person who cultivates land owned by him; '2' for a person who cultivates land owned by another person; '3' for a person who is employed as a labourer by another person who cultivates land : '4' for a person who receives rent in cash or kind in respect of land which is cultivated by another person.

For all other means of livelihood write fully and clearly what the person does in order to earn his livelihood and where he does it.

Question 11—Secondary means of livelihood : For a self supporting person who has more than one means of livelihood write the means of livelihood next in importance to his principal means of livelihood. For an earning dependant write the means of livelihood which provides the earning. Use contractions given in question 10.

For a self-supporting person who has only one means of livelihood write '0'. In the case of a non-earning dependant also write '0'.

(3) *Question* 9—Economic Status:—This question is in two parts. The first part requires the labelling of every person as a 'self-supporting person', or an 'earning dependant' or a 'non-earning dependant'. Every single human being must be allotted one of these lables and not more than one of them and this may be referred to as his *household economic status.*

The second part of the question has no application to non-earning dependants or to earning dependants. It relates only to self-supporting persons ; and even among them, those exceptional cases of self-supporting persons who support themselves without gainful occupation or economic activity (*e.g.*, rentiers and pensioners) are not covered. All others (that is, all those self-supporting persons who are both economically active and gainfully occupied) are to be allotted one or other of the three lables, *viz.*, 'Employer', 'Employee'; or 'Independant Worker', and this may be referred to as his *employment status.*

The following extracts from the model instructions to enumerators explain the criteria to be applied and the treatment of border-line cases :

Where a person is in receipt of an income, and that income is sufficient at least for his own, maintenance then he (or she as the case may be) should be regarded as a 'self-supporting person'. Such income may be in cash or kind.

Anyone who is not a 'self-supporting person'; in this sense, is a 'dependant'. A dependant may be either an 'earning dependant' or a 'non-earning dependent'; the test is whether or not he secures a regular income, even though it may be small. Where the income which he secures is not sufficient to support him, that person is an earning dependant'. *A person who does not secure any income either in cash or in kind, is a 'non-earning dependant'.*

Where two or more members of a family household jointly cultivate land and secure an income therefrom, each of them should be regarded as earning a part of the income. None of them is, therefore a non-earning dependant. Each of them should be classed as either a self-supporting person or an earning dependant according to the share of income attributable to him (or her). *The same applies to any other business carried on jointly.*

This does not mean that anyone who works is necessarily a self-supporting person or an earning dependant. Thus, for instance, a housewife who cooks for the family, brings up the children or manages the household is doing very valuable work. Nevertheless, her economic status is that of a non-earning dependant if she does not also secure an income.

(An) Employer (is) only that person who has necessarily to employ other persons *in order to carry on the business from which he secures his livelihood.* A person (who) employs a cook or other person for domestic service should not be recorded as an employer merely for that reason.

Persons employed as managers, superintendents, agents, etc. (who) control other workers are also employees only and should not be recorded as employers.

An independent worker means a person who is not employed by any one else and who does not also employ anybody else in order to earn his livelihood.

(4) *Question* 10—Principal Means of Livelihood : 'Means of Livelihood' of any individual ordinarily means the gainful occupation which forms the source from which that income which is utilised for his maintenance is normally derived ; but it is more comprehensive, in as much as in exceptional cases, income may be secured without gainful occupation. 'Principal means of livelihood' means the same thing as 'Means of livelihood' for every person who has only one means of livelihood. Where a person has more than one, that which gives him the greater part of his income is his "Principal means of livelihood'. *In the sense thus defined, every human being, without any exception, has a Principal Means of Livelihood—whether or not he is a self-supporting person. Every non-earning dependant is maintained exclusively by the income of some self-supporting person on whom he is dependant. Consequently, the Principal Means of Livelihood of the latter is required to be recorded as the Principal means of Livelihood of the former. The same rule applies to earning dependants also (no attempt being made to assess the degree of sufficiency of his own income or the extent of his dependance on others).*

Agricultural and non-agricultural means of livelihood are distinguished by the manner in which enumerators are required to record the answers to this question. This is important for purposes of subsequent classification of the answers. The following extracts from instructions are relevant :

"Four simple contractions have been provided which will cover most cases where the livelihood is dependent on agriculture-Write '1' for a person who cultivates land owned by him; '2' for a person who cultivates land owned by another person; '3' for a person who is employed as a labourer by another person who cultivates land; '4' for a person who receives rent in cash or kind in respect of land which is cultivated by another person. If you find that a person falls under two of these categories, note that category which provides the largest income against question 10 and the second against question 11. No note need be taken of more than two such categories in any case.

[Note:— The word 'owned' used in relation to land ncludes land very tenure which involves the right of permanent occupancy of land for purposes of cultivation. Such right should be heritable, it may be, but need not necessarily be, also transferable].

In all other cases.... Write fully and clearly what the person does in order to earn his livelihood and where he does it. There are three lines on the slip provided for answering this question. Use them fully. Avoid vague and general terms. Do not write 'service' or 'labour'. If you are enumerating a trader, describe the articles in which he is carrying on trade and state clearly whether he is a wholesale trader or a retail trader. A retail trader sells to the public. A wholesale trader does not. If you are enumerating a factory worker, give the name of the factory or the product it makes, *e.g.*, coal mine, jute factory, cotton mill, etc.

(5) *Question* 11—Secondary means of livelihood : A self supporting person may or may not have more than one means of livelihood. If he has more than one, that which provides the greatest income is recorded under question 10 as the 'principal means of livelihood' and the next under question 11 as the 'Secondary Means of Livelihood'. It has been laid down that no note should be taken of more than two such means of livelihood in any case.

The answer to this question is invariably 'nil' for non-earning dependants. *Ex-hypothesi* they secure no income; they are supported by the Pirncipal Means of Livelihood of the persons on whom they are dependant which alone is taken to be their only means of livelihood.

In the case of every earning dependant, there are two means of livelihood which are combined in order to support him. One is the Principal means of Livelihood of the person on whom he is dependant. The other is the source wherefrom he secures his own income. The former is always to oe treated as the 'Principal Means of Livelihood' of the 'earning dependant' and the latter as his 'Secondary means of Livelihood'.

Further elucidation of the scope and implications of these questions was provided in supplementary instructions in the form of question and answer. These are extracted below :—

(6) CENSUS QUESTION 9(1):

Question—In the instructions the words are "the test is whether he secures a regular income, even though it may be small." Does the use of the word 'regular' rule out persons who earn an income by seasonal employment ?

Answer—No. The word 'regular' is used in the sense of 'non-casual'. It is not intended to be confined only to income derived from continuous employment. It also includes income derived from seasonal employment. What it does exclude is individual income accruing casually and not constituting a source of income which is regularly depended upon.

Question—The word 'self-supporting', as defined in the instructions, means any person whose income is sufficient at least for his own maintenance. *Does this mean that an income sufficient for one man is self-supporting income ? What about his direct dependents—wife children etc.* ?

Answer—Yes. The instructions means what they say. A person must be deemed to be self-supporting if his income (such as it is) is sufficient to support him individually at his present level of living (such as it is). He does not cease to be self-supporting merely for the reason that he, his wife and children taken together are not maintained by his own income.

If the wife and children have no income of their own, they are non-earning dependants. The instructions provide that their principal means of livelihood should be deemed in every

case to be the same as that of the person on whom they are dependent. This would in most cases be the husband or father who will also be the head of the household. In those exceptional cases where the husband or father is not the head of the houshold, and is also not able to support anyone but himself, then the head of the household in which the non-earning dependant is living is the person on whom he (or she) is dependent.

Remember—every 'family household' is (collectively) self suppo ting ; otherwise it would not exist. The surplus of self-suppo-ting persons within a family household is in every case sufficient to meet the deficit on the earning and non-earning dependants in that family household.

Question—In the instructions it is provided that if two or more members of the family household jointly cultivate land they would be classed as self-supporting or earning dependant "*according to the share of income attributable to him or her*". *How are these shares to be assigned ? What about females who, in some cases, take an active part in agricultural operations ?*

Answer—The share of the income attributable to a person is what the head of the household (or whoever is the managing members) deems it to be. No attempt should be made to make a detailed calculation of this share. All that has to be as certained is whether (in the opinion of the head of the household or managing member) the member concerned is entitled to a share which would be sufficient to cover the cost of his own maintenance.

If the answer is 'yes', he is 'self-supporting' ; if the answer is 'no', he is an 'earning dependant'.

The considerations are exactly the same whether the individual is a male or a female, an adult or a non-adult.

(7) CENSUS QUESTIONS 9(2) :

Question—Are doctors and lawyers, who employ compounders and clerks, independent workers or employers ?

Answer—They are employers. A doctor employs a compounder in order to relieve him of part of the work connected with the business on which he is engaged and by which he secures his livelihood. A lawyer employs a clerk for a like purpose.

Question—A money-lender employs four persons to realise interest. Is he an employer or independent worker?

Answer—He is an employer. He would be an employer even if he employed only one person provided that person was regularly employed and derived his principal means of livelihood by such employment. Casual employment, or part-time employment which does not provide the principal means of livelihood of the person employed, should not be taken into account.

Question—What is the status of tenants or zamindars who do not cultivate (land) themselves, but employ labourers ?

Answer—If they employ others they are 'employers'—provided the purpose of the employed and the nature of the employment are as stated in the answers to the two preceding questions.

Question—What is the status of beggars ; orphans in orphanages ; convicts in jails ?

Answer—They fall in none of the three categories. Record 'O' for them.

(8) CENSUS QUESTION 10 :

Question—What is the category of a minor, a blind person or a lady who has land in his or her name but gets it cultivated by labourers. Category I or Category IV ?

Answer—Learn to distinguish between 'cultivation of the land' and 'performance of labour necessary for cultivating the land'. There are, of course, millions of persons who perform both functions—but the functions are distinguishable and should be distinguished. *The man who takes the responsible decisions which consititute the direction of the process of cultivation (e.g. when and where to plough, when and what to sow, where & when to reap and so on) ; it is this person who should be referred to as the cultivator, even though he does not perform any manual labour whatever. The man who ploughs, or sows, or reaps, under the directions of someone else is not the cultivator—but a cultivating labourer, a different thing altogether.*

The cultivator may be the owner of the land cultivated. In that case he is category I, whether or not he also combines in himself the functions of a cultivating labourer.

Alternatively, the cultivator may be a lessee, an agent or manager (paid or unpaid). Even in this case it is immaterial whether this lessee or agent or manager also combines in himself the functions of a cultivating labourer ; he (the cultivator) is Category II, and the other person (the owner) is Category IV.

Applying these principles, *the answer to the question put depends on whether, the minor, blind person, or lady does or does not actually direct the process of cultivation. If the person does this, the answer is Category I otherwise the answer is Category IV.*

1941

Question No. 9—(Wholly or partly dependent). A person who has no income in cash or kind is wholly dependent. For such persons put a √ A person who contributes in cash or kind towards the support of the household without being definitely capable of supporting himself is partly dependent. For such persons write P (or the first *letter of the word for "partly"). For a person who is not dependent on any other person put a 'X'.

Question No. 10—(means of livelihood of person on whom dependent.) In the case of persons who are wholly or partly dependent on another person enter the principal means of livelihood of the person on whom dependent. In the case of persons who are not dependent on others put X.

Question No. 11—(Paid assistant employed, etc.). If the person employs any assistants paid regularly in cash or kind ask how many and show the number against (a). If none, put a 'O'. Ask how many members of the household regularly assist in the person's occupation and enter the number against (b).

Question No. 12—(In employment or not). If the person is in employment now, put a √. If he is not in employment now, put a X.

Question No. 13—(Search of employment). For those who are in search of employment enter the periods in months for which they have been in search of it. For all others put a X.

N.B.—Questions 12 and 13 need not be asked in respect of any person below 16.

Question No. 14—(Means of livelihood). Enter the various means of livelihood in the order in which they contribute to the livelihood of a person. In the case of a person who is wholly dependent put a X. Enter the exact occupation and avoid vague terms such as 'service', or 'writing' or 'labour'. For example in the case of labour, say whether in the fields or in a coal mine or jute factory, or cotton mill or lac factory or earth work, etc. In the case of agriculture distinguish between persons who do not

*This will be prescribed by the respective superintendents.

cultivate personally, who cultivate their own land, who cultivate rented land and who are hired labourers. Distinguish also persons who work land on *batai* (share-croppers). If a person makes the articles he sells, he should be shown as "maker and seller" of such articles.

Question No. 15—(Proportion of year in which means of livelihood is exercised). This question is only to be asked in regard to means of livelihood of a person shown as partly dependent against question No. 9 or any subsidiary means of livelihood returned by other persons in question No. 14. If the means of livelihood is exercised throughout the year put a √ otherwise state the period in each year during which it is exercised. In the case of wholly dependents and those for whom the question is not intended put a X. Agricultural means of livelihood should be treated as regular.

Question No. 16—(Nature of employer's business). Only those persons are to be entered in this question who are employed by others and who receive cash remuneration. The word "employer" covers a company, etc., this question should not be put to those who have given their principal means of livelihood as domestic service or agriculture. For persons not employed by others and for dependents and for those persons whose principal means of livelihood is domestic service or agriculture put a X.

1931

Column 9 (*Worker or Dependant*)—Enter "earner" or 'dependant". A woman who does house work is a dependant, o is a son who works in the fields but does not earn separate wages. A cultivator cultivating as a principal occupation is an earner.

Column 10 (*Principal occupation of actual workers*)—Enter the principal means of livelihood of all persons who actually do work or carry on business, whether personally or by means of servants, or who live on house-rent, pension, etc. Enter the exact occupation and avoid vague terms such as "service" or "writing" or "labour". Replies such as are given to a Magistrate in court are not enough. For example, in the case of labour say whether in the fields, or in a coal mine, or jute fact ory, or cotton mill or lac factory, or earth work etc. In the case of agriculture distinguish between persons who do not cultivate personally, who cultivate their own land, who cultivate rented land and who are hired labourers. If a person makes the articles he sells he should be entered as "maker and seller" of them. Women and children who work at any occupation which helps to augment the family income must be entered in column 9, and in column 11. For dependants make a X only in column 10.

Column 11 (*Subsidiary occupation of actual workers*)—Enter here any occupation which actual workers pursue at any time of the year in addition to their principal occupation. Thus if a person lives principally by his earnings as a boatman, but partly also by fishing, the word "boatman" will be entered in column 10 and "fisherman" in column 11. If an actual worker has no additional occupation a cross (X) will be put. Dependants who help to support the family by subsidiary work, *e.g.*, a woman who helps in the fields as well as doing house work will be shown in this column.

Column 12 (*Industry in which employed*)—For managers, clerks, operatives or workmen employed in a factory or by any person employing industry, fill up the name of the industry, *i.e.*, biscuit making, coal mining. For individual workers not employed by others put a X.

The following were the supplementary instructions printed in the Code:—

Columns (9, 10, 11 and 12)—The entry of occupation in columns 9 to 12 of the schedule is another matter requiring special care.

Column 13 (9)—Only those women and children will be shown as earners who help to augment the family income by permanent and regular work for which a return is obtained in cash or kind. A woman who looks after her house and cooks the food is not an earner but a dependant. But a woman who habitually collects and sells firewood or cowdung is thereby adding to the family income and should be shown as an earner. A woman, who regularly assists her husband in his work (*e.g.* the wife of a potter who fetches the clay from which he makes his pots), as an all-time assistant, is an earner but one who merely renders a little occasional help is not. A boy who some times looks after his father's cattle is a dependant, but one who is a regular cowherd and earns pay as such in cash or kind should be recorded as such in Column 10. It may be assumed, as a rough and ready rule, that boys and girls over the age of 10 who actually do field labour or tend cattle are adding to the income of their family and should, therefore, be entered in Column 10 or 11 according to whether they earn pay or not. Boys in school or college, should be entered as dependants. Dependants who assist in the work of the family and contribute to its support without actually earning wages should be shown as dependants in Column 9 and under subsidiary occupations in Column 11. Thus a woman who keeps house for her husband is a dependant and entered as such in Column 9, but has the subsidiary occupation Column 11 of house-keeping. Similarly weaving is often as an important subsidiary occupation for women dependants in some places and should be entered in Column 11, where it may or may not, have to take the place of house keeping. Only the most important subsidiary occupation should be given. Prisoners in jail who are likely to be released before the 26th February, 1931, should not be entered. In Column 11 of the Schedule prisoners should be classed as convicts, rigorous imprisonment or simple imprisonment as the case may be or civil prisoners. Their previous occupation should not be shown and they should be shown in Column 9 as dependants.

Column 14 (10)—Domestic servants must be entered as cook, bhisti, etc., in Column 10 and not in Column 9 as dependants. Persons temporarily out of employment should be shown as following their previous occupation.

Stress must be laid on the importance of avoiding vague words like labour or service or shop keeping. The enumerator must enter the exact kind of labour or service and the nature of the goods sold. In the case of service it is necesssary, not merely to distinguish Government service, Indian State service, Railway service, Municipal service, Village service, service in a shop or office, and domestic service, etc., but also to show the exact occupation followed, *e.g.*, in the case of Government service, whether collector, or army officer, or civil court clerk, or police, excise inspector etc. In the case of clerks the occupation of their employer must be shown, *e.g.*, lawyer's clerk. Persons living on an income derived from agriculture must be distinguished as owners (*i.e.*, non-cultivating), cultivating owners, cultivating tenants (whether the rent is paid in kind or in cash) or agricultural labourers. Where a person cultivates part of his land and sublets part he should be shown in Column 10, as a cultivator and in Column 11 as a landlord but if he gets the greater part of his income from land which he cultivates himself then he should be shown as cultivating owners in Column 10. Gardeners and growers of special products, such as pan etc. must be clearly described as pan grower etc. Persons whose income is derived from the rent of houses or land in towns should be distinguished from those who derive it from agricultural land.

Wherever large gangs of coolies are employed on earthwork of any kind, special instructions should be given to the Census staff to enter not only the word 'earth-work' but also the nature of the undertaking (railway, road and canal, etc.) in connection with which it is being done.

Column 15 (11)—Where a man has two occupations, the principal one is that on which he relies mainly for his support and from which he gets the major part of his income. A subsidiary occupation should be entered if followed at any time of the year. Only one subsidiary occupation (the most important one) should be entered in column 11.

NOTE—In cases where a person with private means follows some occupation, the occupation should be entered in Column 10 and the source of this private income in Column 11. It should also be explained to the enumerating staff that replies such as are given to a Magistrate in court by a witness when asked for his profession are not enough.

At this Census, principal occupation of 'earners' was shown in Column 9 and that of the dependents, if any, in Column 11. An entry 'dependent' in Column 9 and an entry in Column 11 for some specified occupation showed occupation of working dependent. An entry in Column 10 showing principal business followed by an entry in Column 11 showed subsidiary occupation of the principal earner. An entry as dependant in column 9 with no entries in Columns 10 and 11 signified non-working dependant. At the last census, Column 9 showed the occupation of actual earners as their principal means of livelihood. Column 10 was for showing the subsidiary occupation of actual workers. The working dependants were virtually shown as workers with actual earners. Column 11 was intended for showing the means of livelihood of persons on whom the dependants—non-working dependants as they are now called—depended for their livelihood. There was no means of knowing the particular occupation, or occupations to which 1931 non-working dependants looked for their maintenance.

The figure of non-working dependants is, therefore, the difference between the total population and principal workers with working dependants of a unit.

The innovation at the present census is that now only workers are shown for each occupation and workers are taken as consisting of three great classes (a) principal earners (b) working dependants (c) subsidiary earners. The enumeration of non-working dependants for each group of occupations has been dispensed with altogether.

1921

Column 9 (*Principal occupation of actual workers*)—Enter the principal means of livelihood of all persons who actually do work or carry on business, whether personally or by means of servants or who live on *house-rent, pension*, etc. Enter the exact occupation and avoid vague terms such as "service" or "writing" or "labour". For example in the case of labour, say whether in the fields, or in a coal mine or jute factory, or cotton mill or lac factory, or earthwork etc. In the case of agriculture distinguish between persons who receive rent and those who pay rent.* If a person makes the articles he sells should be entered as "maker and seller" of them. Women and children who work at any occupation which helps to augment the family income must be entered in column 9 under that occupation and not in column 11. Column 9 will be blank for dependants.

Column 10 (*Subsidiary occupation of actual workers*)—Enter here any occupation which actual workers pursue at any time of the year in addition to their principal occupation. Thus if a person lives principally by his earnings as a boatman, but partly also by fishing, the word "boatman" will be entered in column 9 and "fisherman" in column 10. If an actual worker has no additional occupation, the column will be left blank. This column will be blank for dependants.

Column 11 (*Means of subsistance of dependants*)—For children and women and old or infirm persons who do not work either personally or by means of servants, enter the *principal* occupation of the person who supports them. This column will be blank for actual workers.

In the instructions to the superior census staff, these rule were thus amplified :—

"The entry of occupation in columns 9 to 11 is another matter requiring special care. Only those women and children will be shown as workers who help to augment the family income. A woman who looks after her house and cooks the food is not a worker but a dependant. But a woman who collects and sells fire-wood or cowdung is thereby adding to the family income, and should be shown as a worker. So also a woman who regularly assists her husband in his work (*e.g.*, the wife of a potter who fetches the clay from which he makes his pots), but not one who merely renders a little occasional help. A boy who sometimes looks after his father's cattle is a dependant, but one who is a regular cowherd should be recorded as such in column 9. Boys at school or college should be entered as dependants. Dependants of a joint family, the members of which follow different occupations, should be entered in column 11 under the occupation of the member who contributes most largely to the family income".

"Domestic servants must be entered in column 9, as cook, bhisti, etc., and not in column 11 as dependant on their master's occupation. Persons temperarily out of employment should be shown as following their previous occupation".

"Whenever large gangs of coolies are employed on earthwork of any kind, special instructions should be given to the census staff to enter not only the word 'earthwork' but also the nature of the undertaking (railway, road, canal, etc.) in connection with which it is being done".

"Where a man has two occupations, the principal one is that on which he relies mainly for his support and from which he gets the major part of his income. A subsidiary occupation should be entered *if followed at any time of the year.* Only one subsidiary occupation (the most important one) should be entered in column 10".

Note.—In cases where a person with private means follows some occupation that occupation should be entered in column 9 and the source of his private income in column 10.

"Stress must be laid on the importance of avoiding vague words like 'labour' or 'service' or 'shopkeeping'. The enumerator must enter the exact kind of labour or service, and the nature of the goods sold. In the case of service it is necessary, not merely to distinguish government service, railway service, municipal service, village service, service in a shop or office and domestic service, etc., but also to show the exact occupation followed, *e.g.*, in the case of Government service, whether Collector, or Army Officer, or Civil Court clerk, or Police Inspector, etc. In the case of clerks, the occupation of their employer must be shown, *e.g.* lawyer's clerk. Persons living on agriculture must be distinguished as landlords or rent receivers, and actual cultivators or rent payers. Where a person cultivates part of his land and sublets part, he should be shown in column 9 as a cultivator and in column 10 as a landlord, if he gets the greater part of his income from the land which he cultivates himself and *vice versa*. Gardeners and growers of special products, such as betel, cocoanut, etc., must be shown as such. Persons whose income is derived from the rent of houses or land in towns should, be distinguished from those who derive it from agricultural land".

1911

Column 9 (*Principal occupation of actual workers*)—Enter the principal means of livelihood of all persons who actually do work or carry on business, whether personally or by means of servants, or who live on house rent, pension etc. Enter the exact occupation and avoid vague terms such as 'service', or 'writing or 'labour'. For example, in the case, of labour say whether in the fields or in a coal mine, or jute factory or cotton mill or lac factory or earth-work, etc. In the case of agriculture, distinguish between persons who receive rent and those who pay rent. If a person makes the articles he sells, he should be entered as 'maker and seller' of them. Women and chidren who work at any occupation which helps to augment the family income must be entered in Column 9 under that occupation and not in Column 11. Column 9 will be blank for dependants:

*If any further sub-division of agriculturists is contemplated in any province, provision will have to be made for it in this rule.

Column 10 (*Subsidiary occupation of actual workers*)—Enter here any occupation which actual workers pursue at any time of the year in addition to their principal occupation. Thus if a person lives principally by his earnings as a boatman, but partly also by fishing, the word 'boatman' will be entered in Column 9 and 'fisherman' in Column 10. If an actual worker has no additional occupation, enter in Column 10 the word 'none'. This column, will be blank for dependants.

Column 11—For children and women and old or infirm persons who do not work, either personally or by means of servants enter the principal occupation of the person who supports them. This column will be blank for actual workers".

The supplementary instructions to the superior staff as issued in 1921 were also issued in 1911.

1901

At the present census three columns were provided, as noted in the margin, two for the principal and subsidiary occupations, respectively, of actual workers, and the third for the means of subsistence of dependants, or persons supported by the labour of others. The instructions for filling in these three columns were as follows :—

Occupation or means of subsistence of actual workers		Means of subsistence of dependants of actual workers
Principal	Subsidiary	
9	10	11

"*Column* 9 (*Principal occupation of actual workers*)—Enter the principal occupation or means of livelihood of all persons who actually do work or carry on business, whether personally or by means of servants, or who live on private property such as house-rent, pension, etc. The column will be blank for dependants".

"*Column* 10 (*Subsidiary occupation of actual workers*)—Enter here any occupation which actual workers pursue in addition to their principal occupation. If they have no such additional occupation, enter in this column the word 'none'. The column will be blank for dependants".

"*Column* 11 (*Means of subsistence of dependents*).—For those who do not work or carry on business, either personally or by means of servants, and who own no private property, enter the *principal* occupation of the head of the family or of the person who supports them. The column will be blank for actual workers".

In the instructions to supervisors these rules were thus amplified:—

"In colum 9 general or indefinite terms such as 'service' 'shop-keeping', 'writing', 'labour' etc., must be avoided. The enumerator should find out and state the exact kind of service, the goods sold, the class of writing or labour".

"If a man says his occupation is service, it is necessary to distinguish:—

(1) Government service, (2) Railway service, (3) Municipal service, and (4) Village service, stating his rank and the nature of his work".

"In the case of domestic service the enumerator must state precisely the kind of service rendered. Pensioners should be shown as military or civil, as the case may be. Persons who live on the rent of lands or buildings in towns should be entered as landlords. Persons who live on money lent at interest or on stock, bonds, or other securities, should be shown as capitalists".

"In the case of agriculture, distinguish—(1) Rent receivers, (2) actual cultivators, including sharers, and (3) field labourers, separating those regularly employed from those who work by the day or by the job. Gardeners and growers of special products such as tea, betel, etc., should be entered separately. In the case of labourers, not being agricultural labourers, distinguish earth-workers, labourers in mines, and operatives in mills, etc., stating the kind of mill or factory, such as jute mills, silk factories, etc. In the case of clerks the occupation of the clerk's employer should be noted. Accountants, cashiers, salesmen in shops, etc., should be shown separately. In the case of traders the kind of trade should be carefully specified, and it should be stated whether they make what they deal in. In the case of large manufactures show the proprietor as a manufacturer, and specify the branch of manufacture, as cotton manufacturer, etc. For minor industries state precisely the nature of the work done, for example, whether a weaver weaves cotton, silk, carpets, etc., whether a bangle-maker makes bangles of glass or lac, and so on."

"Persons engaged in home industries must be carefully distinguished from those employed in mills, whether large or small, and whether under European or native management."

"Women and children who work at any occupation, of whatever kind not being an amusement or of a purely domestic character, such as cooking, must be entered in this column, whether they earn wages or not. If a man has several subsidiary occupations, the enumerator should enter in column 10, only that on which he spends the most time. In the case of dependants of a joint family, several members of which earn money he should enter in column 11 the principal occupation of the eldest. Servants should not be shown as dependant on the occupation of their master".

Apart from the arrangement of columns, the main point of difference between the two sets of instructions is that in 1891 dual occupations were entered only where one of them was connected with agriculture, whereas at the present census, the entry of all dual occupations was provided for.

1891

Column 11 (*Occupation or means of subsistences*)—Enter in this column the occupation, as below prescribed, of all who do work, and, in the case of persons who do no regular work, enter the means whereby they subsist, such as house-rent, pension, &c. For young children, and women who do no work, enter the occupation of those by whom they are supported, but do not leave this column blank for any one. If a person has two or more occupations, enter the chief one only, except in the case of a person who owns or cultivates land in addition to another occupation, when both occupations should be entered, as....., & c. In the case of occupations connected with the land, the nature of the connection with the land must always be entered, as.....&c., and it should be stated in the case of a landowner whether he cultivates himself or rents all his land to tenants. When a person is entered as an agricultural labourer, you should specify whether he is engaged by the year or month, or is a daily field labourer. Women who earn money by independent occupations from their husbands, as by spinning, rice-pounding, selling grass, firewood, or cowdung cakes, or who do house work for wages should be entered under those occupations. If a person makes the articles which he also sells, you should enter him as 'making and selling such and such goods'. You must not enter general terms, such as servant, labourer, writer, munshi, & c., but must in each case specify the exact service, class of labour and of writing in which the person is engaged, as.....&c. If a person be a shopkeeper, you must mention the class of goods he sells. If a person lives by alms, you should put down whether he is a religious-mandicant or an ordinary beggar. When a person is in Government, or other service, you should write the word 'Government' 'Municipal', &c. after and not before the special service as *Clerk Government, Signallers Railway; Sweeper Municipal; & c.* When a person is temporarily out of employ, his last or usual occupation should be entered.

1881

Column 10—Only such persons are to be shown in this column as actually do work contributing to the family income. Mere employment in such domestic occupations as spinning will not entitle women to be shown in this column unless the produce of their labour is regularly brought to market. When a person has two or more occupations, he should be entered as following the occupation whence his income is chiefly derived (*but if he combines agriculture with any other profession or trade, such as that of vakeel or money-lander, carpenter or smith, both occupations should be shown.*)*

General terms, such as servant, workman, dealer, must not be employed. In each case the specific service or trade in which the person is engaged must be named *e.g.*, watchman, officer messenger, digger, ploughman, cloth-seller. General expressions, such as *pesha-i-khud*, must not be employed. In every case the occupation must be indicated by the common vernacular term by which it is known, and not by the persian name ; thus, *kumhar* for potter, not *kasgar.*

*NOTE.—This addition was made after the issue of the general instructions.

1872

It is throughout to be understood that, where there is a *special* class or sub-division in which an individual may properly be placed, he is to be reckoned as belonging to that class in preference to any more general class. Thus *all* Government servants will be enumerated under Class I, whatever be their particular calling.

When a person has two or more callings, that should be selected for him which is the most important.

Persons should not be entered in Class VII. Miscellaneous, excepting those who clearly fall within its recognized sub-divisions.

All clerks and accountants of merchants, and commercial or trading establishments of all sorts are intended to be placed in Class V, Sub-divison L-4. The superior and directing Officers in such establishments, and persons employed in the actual active operations of the business, as distinguished from the clerical and accounting duties, would be placed in the class or sub-division assigned to each special business.

B-I PART A

WORKERS AND NON-WORKERS ACCORDING TO MAIN ACTIVITY CLASSIFIED BY SEX, AGE GROUP IN TOTAL, RURAL AND URBAN AREAS SEPARATELY

B-I PART A —WORKERS AND NON-WORKERS ACCORDING TO MAIN ACTIVITIES CLASSIFIED BY SEX AND BROAD AGE GROUPS

FLY-LEAF

This is the basic economic table and is similar to table B-I of the 1961 census with the difference that a few more broad age groups have been introduced this time. The table gives the distribution of the entire population into workers and non-workers. Workers are further classified into nine broad industrial categories as shown in the table. Data are presented separately for total, rural and urban areas by sex and broad age-groups for each state and union territory. The following age-groups have been adopted :—

0	—	14
15	—	19
20	—	24
25	—	29
30	—	39
40	—	49
50	—	59
60	+	

age not stated

In the 1961 census, only four age groups *viz.* 0—14, 15—349 35—59 and 60 *plus*, were adopted for presenting data in this table. It is hoped that by breaking up age group 15—34 and 35—59 into six age groups in 1971, the utility of the data has been considerably enhanced. Data at the district level will also be published in the respective Part II-B volume of each state and union territory.

The economic questions asked by the enumerator which formed the basis of this table have been reproduced in the general note. The instructions to enumerators for filling the economic questions are given in the appendix. The concept of workers and non-workers has also been spelt out in the general note. Users of these data will take note of the change in the concept of work before comparing the participation rates with those of previous censuses. In earlier Indian census upto 1951 income or economic independence was the main criterion. But this underwent change both in the 1961 and 1971 censuses as described in the explanatory note.

It will perhaps be useful at this stage to describe the terms rural and urban which have been used in presenting the census data. The definition adopted for urban areas at the 1971 census was as follows :

(a) all places with a municipality, corporation or cantonment or notified town area.

(b) all other places which satisfied the following criteria :

(i) a minimum population of 5,000

(ii) at least 75% of the male working population was non-agricultural.

(iii) a density of population of at least 400 per sq.km. (*i.e.*, 1000 per sq. mile).

The Director of Census Operations of each state or union territory was, however, given some discretion in consultation with the State Govt. concerned to include some marginal places that had other distinct urban characteristics and to exclude undeserving cases. All places, which were not 'urban' were treated as 'rural'.

The following three statements giving distribution of persons in terms of the data presented in the table may be found useful.

Statement 1. Distribution of 1,000 persons in each sex by workers and non-workers.

Statement 2. Percentage distribution of workers in each sex by nine broad industrial categories.

Statement 3. Distribution of 1,000 workers in each sex and industrial category by broad age groups.

B—II

WORKERS AND NON-WORKERS IN CITIES, URBAN AGGLOMERATIONS AND TOWNS ACCORDING TO MAIN ACTIVITY CLASSIFIED BY SEX AND AGE GROUPS

B-II Workers and non-workers in cities and non-city urban areas according to main activities classified by sex and age groups.

FLY-LEAF

This table is similar to table B-I part A of 1961 with the difference that it is confined to urban areas only and that statistics are presented for each city, urban agglomeration and town arranged in a descending order of population. The table gives the distribution of population into workers and non-workers. Workers are further divided into nine broad industrial categories and by broad age groups. The age groups adopted are the same as that of table B-I Part A, viz. 0 –14; 15 –19 ; 20–24 ; 25–29 ; 30 –39 ; 40 –49 ; 50 –59 ; 60 plus ; and age not stated.

First, the figures for India by six classes are given in the table. Thereafter, the figures appear for each state and union territory followed by class I totals, urban agglomerations and for individual cities having a population of one lakh and above. Similar presentation is followed for class II, giving data for class totals, urban agglomeration and individual towns. In the case of others, only aggregate figures are given for the following classes :–

Class III	20,000 to 49,999
Class IV	10,000 to 19,999
Class V	5,000 to 9,999
Class VI	below 5,000

The data for individual towns and urban agglomerations relating to the above four classes will be published in the corresponding tables in part II-B volume of each state and union territory.

The mode of presentation of data in this table being substantially the same as in table B-I part A, the contents of the fly-leaf of the latter table may be referred to for concepts and definitions.

To ensure comparability of figures between 1961 and 1971, the following sequence for presentation of state data has been adopted :

State (Total urban)

Division 1 (Total urban)

District 1 (Total urban)

City/City U. A. (to be presented according to population size)

Constituent (i)
Constituent (ii)
Constituent (iii)
etc. etc. } In case of U. A. only

(Outgrowths to come immediately after the constituent town whose outgrowths they are).

Non-city Urban (total)

Town/town U. A. (to be presented according to population size)

Constituent (i)
Constituent (ii)
Constituent (iii)
etc. } In case of U. A. only

(Outgrowths to come immediately after the constituent unit).

The terms 'town' and 'urban area' have already been explained in the fly-Leaf to table B-I of Part A in this volume. In this context the following terms only need some elaboration :

(1) *City* : a town with a population of one lakh (100,000) and over is termed as a city in the 1971 census also.

(2) *Urban agglomeration* : The concept of town group adopted in 1961 was given up in 1971 mainly on account of lack of uniformity in defining the town group as applied in different states. In the 1971 census, the term 'town group' was replaced by 'urban agglomeration' with a stricter and more uniform definition. An urban agglomeration was formed by taking into account a contiguous urban spread constituting a town and its adjoining outgrowths or two or more physically contiguous towns together with contiguous well-recognised urban outgrowths, if any, of such towns.

In several areas, fairly large railway colonies, university campuses, port areas and military camps have come up around a core city or statutory town. Though these are outside the statutory limits of a municipal corporation, municipality or cantonment, they fall within the revenue boundary of the place by which the town itself is known. It may not be altogether realistic to treat such areas lying outside the statutory limits of a town as rural units. At the same time each such area by itself may not qualify to be termed an independent urban unit. Such areas deserve to be reckoned along with the main town and the continuous spread including such urban outgrowths would deserve to be treated as an integrated urban area which is being called 'urban agglomeration' (UA) at the 1971 census. The following are the various situations in which an urban agglomeration would be constituted :

(a) a city with a continuous outgrowth (the part of each outgrowth being outside statutory limits but falling within the boundaries of the adjoining village or villages).

(b) one town with a similar outgrowth or two or more adjoining towns with their outgrowths as in (a) and

(c) a city of one or more adjoining towns with their outgrowths all of which form a continuous spread.

Class range of towns : Towns and urban agglomerations have been divided into the following six class ranges according to their population :

I	1,00,000 and over
II	50,000 to 99,999
III	20,000 to 49,999
IV	10,000 to 19,999
V	5,000 to 9,999
VI	below 5,000

While presenting the statistics, urban agglomerations have been assigned to the respective classes according to the aggregate total population including the population of their constituents. The outgrowth comes immediately after the constituent units. The data of outgrowths have not been presented in the case of a few states where the figures were not available separately.

There are 339 urban agglomerations and 2,304 towns whic fall in the class ranges as follows : h

Total	No. of urban agglomerations	No. of towns
Total	339	2,304
Class I	87	61
Class II	57	126
Class III	86	496
Class IV	56	818
Class V	51	627
Class VI	2	176

The following abbreviations have been used to denote the civic status. (In case of towns which have no civic status, the space has been left blank.)

1. C., M. C., M. Corp.	Municipal Corporation
2. M., M. B., M. C.	Municipality, Municipal Board Municipal Committee.
3. T. B., T. C.	Town Board, Town Committee.
4. N., N. A., N. A. C., N. C.	Notified Area, Notified area Committee, Notified Council.
