# INTRODUCTION

The data collected at the Census of 1961 is being presented and published in a number of parts each relating to a specific subject. Part II of the report which relates to the main Census Tables has been split into 3 sub-parts, II-A, II-B and II-C. Of these, part IIA, which covers the General Population Tables for the State and Primary Census Abstract, has already been published. The present publication comprises the General Economic Tables (B- Series Tables I to IX) which have been listed below. Part II-C relates to the Cultural and Migration Tables which have been named C and D Series of Census Tables respectively.

The economic tables given in this book reflect the economic characteristics of the population enumerated between 10th February 1961 to 28th February 1961 followed by a revisional round from Ist March 1961 to 5th March 1961. The tables have been constituted from the data collected through the economic questions in the Individual Slip. The text of economic questions and instructions to enumerators as also the form of the census slip are given in Appendix I.

One of the important innovations of the 1961 Census was the introduction of 'Household Schedule' .

The raison d'etre of this Household Schedule was that in India where the bulk of the population lives in rural areas and agriculture is the occupation of 70% of the population and cultivation is conducted by members of a household, with, in many cases, household industry as a compulsive adjunct, the household itself, and not the individual, acts as an integral economic unit of production. This was felt to be particularly valid for those households which produce mainly for self-consumption and additionally for the market. This sector of the economy for various obvious reasons is the most resistant to displacement or transfer of population from what they are engaged in, because the population engaged in such activity finds that all of its effort, however, seasonal, is really wanted, and it is difficult to leave it in preference to any other. On the other hand, it is not easy to bring work from elsewhere to this population to fill its period of unemployment or underemployment. Before one makes facile assumptions about marginal productivity of labour being negative it was thought worthwhile to investigate this sector with the help of such a schedule. A Household Schedule was, therefore, framed for this purpose which provided for area of land cultivated by a household on ownership, or on tenancy basis or on both and household industry, if any, conducted by the household and the number of family workers and hired workers employed in these activities.

Household industry for the purpose of 1961 Census was defined as an industry conducted by the head of the household himself and/or mainly members of the household at home or within the village in rural areas and at home in urban areas. The test for a household industry is mainly three-fold, viz.,

a) Houehold Industry should embrace manufacture processing or servicing and may include sale but should not be confined simply to buying and selling. At least part of the goods offered for sale from the household should be manufactured or processed by members of the household.

b) Household Industry should be on the household scale where the workers mainly will be the Head of the household himself and members of the household,

the role of hired workers from outside being of secondary importance. Thus, in any Hosehold Industry, members of the household should be in a positicn to lend a hand in the industry whenever they find the time in the course of their daily chores. Household Industry cannot, therefore, be on the scale of a registered factory but can use machinery and employ power like steam engine or oil engine or electricity to drive the machinery.

c) Location also is important, for proximity decides participation by members of the household. In a village this participation is possible if the Household Industry is located at home or within the village, because village organisation is such as makes it possible for members of the household to move about freely in the village to look after their work. In urban areas such a free movement is not possible and, therefore, for Household Industry in urban areas we should consider only those industries which are located at home. Where, however, part of the work is done outside the house, e. g., preparing and dyeing the yarn for weaving or winding into warp and woof or cleaning metal surfaces before electroplating in baths, it should still be considered a Household Industry, even in urban areas, as the main operation of weaving or of electroplating is conducted within the house and only one or two operations are conducted outside.

In order to facilitate a correct appraisal of the data given in the economic tables, it seems necessary to reiterate here the definition of a worker as adopted for the Census of 1961. During previous Censuses economic independence, wholly or partly, was made an indispensible condition for the classification of a person as a worker. In 1961, a departure was made from this concept and all those who worked in one or the other family activity were treated as workers even though they did not actually earn any income. The intermediate category of economic semi-dependence was first introduced in 1931 and was then known as working dependents. In 1941, persons of this category were named as partly dependents. There was no Census in the State in 1951 but elsewhere in the country economically semi-dependent persons were categorised as earning dependents.

The following definition of a worker has been adopted for the Census of 1961 :- "The basis of work will be satisfied in the case of seasonal work like cultivation, livestock, dairying, household industry, etc., if the person has had some regular work of more than one hour a day throughout the greater part of the working season. In the case of regular employment in any trade, profession, service, business or commerce, the basis of work will be satisfied if a person was employed during any of the fifteen days preceding the day on which his household was visited for enumeration."

An adult woman who is engaged in household duties but doing no other productive work to augment the family resources has not been treated as a worker. If, however, in addition to her household work, she was engaged in work such as rice pounding for sale or wages or in domestic service for wages for others or minding cattle or selling firewood or making and selling cowdung cakes or grass etc., or any such work she was treated as a worker.

The change introduced in 1961 Census has the advantage of persons working in family economic activities who were heretofore treated either as non - workers or partly dependents, being now classified as workers.

In 1961 Census, workers have been divided into nine industrial categories according to Standard Industrial Classification, each representing one or more groups of previous censuses, as indicated below :-

Similarly non-workers include :-

(a) all non-earning dependents,

(b) self-supporting persons with principal occupation as non-cultivating owners of land, agricultural rent receivers and their dependents,

(c) self-supporting persons with non-productive non-agricultural occupations,

(d) earning dependents whose own occupation (secondary means of livelihood) was agricultural rent,

(e) earning dependents whose secondary occupation was non-agricultural non-productive.

The population of each village and enumerator's block of a town was divided into workers and non-workers and workers into the nine broad industrial categories given below :-

(1) As cultivator

(2) As Agricultural labourer

(3) In Mining, Quarrying, etc.

(4) At household industry

(5) In manufacturing other than Household Industry

(6) In construction

(7) In trade and commerce

(8) In transport storage and communication

(9) In other services

The significance of these categories is given below:-

**Category I - As Cultivator.**

For the purpose of 1961 Census, a person was treated as cultivator if he or she was engaged either as employer, single worker or family worker in *(a)* cultivation of land or supervision or direction of cultivation of land owned or held from Government and *(b)* cultivation of land or supervision or direction of cultivation of land held from private persons or institutions for payment in money, kind or share. A person who had given out his land to others for cultivation for money, kind or share of crop and who did not even supervise or direct cultivation of land was not treated as working as cultivator. Similarly, a person who worked in another person's land for wages in cash, kind or share was not also treated as cultivator.

* Distributed proportionately among all the categories I to IX.

† Distributed proportionately among all non-agricultural categories V to IX.

**II. Agricultural Labourer.**

A person who worked as agricultural labourer on the lands of other person or persons for wages in money, kind or share of the produce, was treated as agricultural labourer and included in category II.

**III. In Mining, quarrying, livestock, forestry, fishing, hunting and plantations, orchards and allied activities.**

This category includes workers employed in afforestation or plantation of such other crops as tea etc. or those engaged in fishing, hunting or extraction of stones, lignite, coal, clay as also those employed in the production and rearing of livestock.

**IV. Household Industry.**

A Household Industry was defined as an industry conducted by the head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. An industry which was being run on the scale of a registered factory was not treated as a household industry. One of the indispensible conditions for the classification of an industry as household industry was that it should relate to production, processing, servicing, repairing or making and selling of goods. Professions, such as those of a pleader or doctor, barber or waterman or an astrologer, were not treated as household industries.

**V. Manufacturing.**

This category includes all such workers as were engaged in manufacturing of products outside the scope of household industry. It relates to production, processing, servicing, repairing and manufacturing of beverages, tobacco products, textile products, wooden products, paper products, leather products, chemical products, basic metals, food stuffs, transport equipment etc.

**VI. Construction.**

This category represents workers engaged in all types of constructions, such as *(a)* construction and maintenance of buildings including erection, flooring, decorative constructions, electrical and sanitary installations, *(b)* construction and maintenance of roads, railways, bridges, tunnels, *(c)* construction and maintenance of telegraph and telephone lines and *(d)* construction and maintenance of waterways and water reservoirs, such as bunds, embankments, dams, canals, tanks, tube wells, etc.

**VII. Trade and Commerce.**

This category includes all workers wholly or mainly engaged in retail and wholesale trading of cereals and pulses, vegetables, wines, tobacco, cigarettes, footwear, toilets, medicines, stationery goods, skins, straw and fodder, coal, kerosene, etc. It also covers workers in commercial activities like banking, money lending, stocks and shares, insurance and so on and so forth.

**VIII. Transport, storage and communication.**

Workers in transport, storage and communication have been included in this category. These consist of aircraft pilots, bus drivers, conductors, railway guards, traffic controllers, telephone operators, signallors, wireless operators, postmen, animal-drawn vehicle drivers, etc.

**IX. Other services.**

Other services include workers in:-

*a)* Public services
*b)* Educational and scientific services
*c)* Religious and welfare services
*d)* Legal services
*e)* Business services
*f)* Community services and Trade and

Labour Associations

*g)* Recreation services

*h)* Personal services

*i)* Services ( not elsewhere classified )

*j)* Medical and Health services

*k)* Electricity, Gas, Water and Sanitary services

**Non-Workers**

Such of the persons who do not come under the definition of worker have been treated as non-workers. They include all those not engaged inany productive economic activity even though they may have income from other sources. For the purpose of 1961 Census, non-workers have been divided into the following 8 categories :-

1. Students who attend to no other work.
2. House-wives and adult females who look after households only.
3. Dependents.
4. Retired persons and Rentier, etc.
5. Beggars, vagrants etc.
6. Convicts in jails and inmates of mental and charitable institutions.
7. Persons not employed before but seeking employment for the first time.
8. Persons employed before but now out of employment and seeking employment.

For the information of the reader the correspondence between the nine industrial categories mentioned earlier and the Industrial Classification ( I. S. I. C ) adopted for Table B. IV is given below:-

**Category Industrial Division of I.S.I.C.**

I ) These have not been separately ) coded for industrial classification; as
II ) they formed distinct categories in themselves [ minor groups 000 to 004 and 005 ( partly ) ]

III Industrial Division 0 [ except minor groups 000 to 004 and 005 (partly) ] and 1, if the industry is not a household industry,

IV Industrial division 0 [ except minor groups 000 to 004 and 005 (partly) ], 1 and 2 & 3, if the industry is a household industry.

V Industrial division 2 & 3, if the industry is not a household industry.

VI Industrial division 4

VII Industrial division 6

VIII Industrial division 7

IX Industrial divisions 5, 8 & 9 (excluding minor group 999).

The following general economic tables were tabulated from questions convassed in the Individual slip in the 1961 Census:

| B VIII—Part B | Persons unemployed aged 15 and above by sex and educational levels in *Rural areas only.* |
| B IX | Persons not at work classified by sex, broad age-groups and type of activity. |

Each table is preceded by a fly-leaf giving the scope of the table, the definition of the various terms used and, wherever necessary, a brief analysis of the data.

As will be seen from the tables, workers have been classified both according to Indian Standard classification as also by the National Classification of Occupations. The first is in reference to goods produced or services rendered by the worker himself or the establishment with which he is connected irrespective of the actual work he does in the establishment. This classification has been attempted in the case of workers principally engaged in work other than cultivation or agricultural labour. A detailed description of the divisions, major and minor groups under which the workers have been classified for this purpose has been appended to the fly-leaf to Table B-IV Part C.

The Occupational Classification has been presented in Table B—V, the fly-leaf of which is also accompanied by a comprehensive description of the Divisions, Groups and Families under which the workers have been categorised.

It is important to state here that the data given in the Individual Slips by the field staff was not in all cases free from errors or clear enough to facilitate tabulation. Mistakes were also committed during sorting and compilation stages such as wrong codification etc. All these were set right as far as possible. Despite these limitations it is hoped that the data will be found useful by the Planners, Research Scholars and others.

I am grateful to Shri N. A. Malik and Shri S. P. Arora, Tabulation Officers and the staff placed under them for the keen interest they took in the tabulation and compilation work.

I also gratefully acknowledge the help I received from Shri K. D. Ballal, Central Tabulation Officer, who not only scrutinised the figures given in the tables but also subjected these to quality check.

**Instructions to Enumerators**

Questions 8 to 11—These questions apply only to workers. A person who is working may be working as a Cultivator, as an Agricultural Labourer, at a Household Industry or may be doing any other work. You have to record the answer in questions 8, 9, 10 and 11 according as the person is working as a Cultivator or as an Agricultural Labourer or at Household Industry or doing any other work. He may be engaged in only one of the above four categories or in more than one. Thus a person can be working both as a Cultivator and an Agricultural Labourer, in which case he should be entered both in Q. 8 and Q. 9. Or, he may be working both as a Cultivator and at Household Industry in which case he will be entered in Q. 8 and Q. 10. Or, he may be working in any possible combination of 8, 9, 10 and 11, in which case he will be entered in the appropriate places. Or, he may be doing just one kind of work in which case he will be entered in only one of the four questions 8 to 11.

Detailed instructions as to how the answers should be recorded in the individual questions are given against those questions below. You should carefully study them before recording the answers. For an undertrial prisoner enumerated in a jail he should be recorded for the work or kinds of work he was doing before he was apprehended. Similarly, for a person temporarily in a hospital or similar institution he should be recorded for the kind of work he was doing before he was admitted into hospital or institution. But for a convict in a prison or for long term inmates of penal or charitable or mental institutions, the person's previous work should not be recorded but '1' should be recorded in question 12 below.

The basis of work will be satisfied in the case of seasonal work like cultivation, livestock, dairying, household industry, etc., if the person has had some regular work of more than one hour a day throughout the greater part of the working season. In the case of regular employment in any trade, profession, service, business or commerce, the basis of work will be satisfied if the person was employed during any of the fifteen days preceding the day on which you visited the household. If on the check or revisional round such a person is found to be unemployed, no change in the original entry should be made. A person who is working but was absent from his work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other causes should be treated as worker. A person who has been offered work but has not actually joined should be treated as non-worker. Work

includes not only actual work but effective supervision and direction of work.

Persons under training as apprentices with or without stipend or wages will be regarded as working.

An adult woman who is engaged in household duties but doing no other productive work to augment the family's resources should not be considered as working for purposes of this question. If, however, in addition to her household work she engages herself in work such as rice pounding for sale or wages, or in domestic services for wages for others or minding cattle or selling firewood or making and selling cowdung cakes or grass, etc., or any such work she should be treated as a worker.

Persons like beggars, pensioners, agricultural or non-agricultural royalty, rent or dividend receivers, who may be earning an income but who are not participating in any productive work should not be treated as working unless they also work in cultivation, industry, trade, profession, business or commerce.

A public or social service worker who is actively engaged in public service activity or a political worker who is also actively engaged in furthering the political activity of his party will be regarded as a worker and entered fully in question 11.

After you have filled up the answers to questions 8 to 11, if you find that in the case of any person more than one productive activity has been recorded, i.e., more than one of the questions 8, 9, 10 or 11, has been filled up by some work you should ask him which one of the activities that has been recorded for him is his principal work. The principal work, is the one on which the person spends most time. Put a ring round the number of the question 8, 9, 10 or 11 according to the work on which the person says he spends most time. You should invariably ask for the principal work where more than one work is recorded and put a ring round the question relating to the principal work.

It may be that in a few cases you find that you have recorded more than two productive activities in questions 8 to 11, *i.e.*, more than two of the questions, 8 to 11 would have been filled up by some work. In such cases you should first ascertain the principal work, i,e., the one on which the person spends most time and put a ring round the number of the question. You should then ascertain the work which is the next in importance to his principal work, i.e., the work after his principal work which occupies most time. You should put a tick against the question number of that work on the left hand side of the question number. The ring and the tick should be put clearly so that any difficulty will not be felt to recognise them clearly.

The following classification illustrates as to which answers should be entered under Q. 8 and which others under Q. 11.

Under Q. 8: Cultivation involving ploughing, sowing and harvesting.

1. Production of cereal crops (including Bengal gram), such as rice, wheat, jowar, bajra, maize, roots and tubers like potato, yam, beet, etc., sugarcane, etc.

2. Production of pulses, such as arhar, moong, masur, urd, khesari, other gram.

3. Production of raw jute and kindred fibre crops.

4. Production of raw cotton and kindred fibre crops.

Under Q. 11: Other Field Produce, Plantation Crops.

A. Other Field Produce:

1. Production of other crops including vegetables not covered in Q. 8.

2. Production of fruits and nuts in plantation, vines and orchards (like cocoanut, arecanut, etc.)

3. Production of wood, bamboo, cane reeds, thatching grass, etc.

4. Production of juice by tapping palms.

5. Production of other agricultural produce (including fruits and nuts not covered by sl. No. 2 and flowers) not covered above.

B. Plantation Crops :

1. Production of tea in plantation.

2. Production of coffee in plantation.

3 Production of rubber in plantation.

4. Production of tobacco in plantation. (does not include tobacco which is cultivated in rotation with other cereal crops, in which case it would go under cultivation).

5. Production of ganja, cinchona, opium, poppy, saffron, etc.

6. Production of other plantation crops not covered above.

Q. 8 Working as Cultivator

For a person working as Cultivator write 'C'. For a person not working as Cultivator and for a person not working at all put 'X'.

For purposes of the Census a person is working as Cultivator if he or she is engaged either as employer, single worker or family worker in (a) cultivation of land or supervision or direction of cultivation of land owned or held from Government and (b) cultivation of land or supervision or direction of cultivation of land held from private persons or institutions for payment in money, kind or share.

Cultivation involves ploughing, sowing and harvesting and does not include fruit growing or keeping orchards or groves or working for plantations like tea, coffee, rubber, cinchona and other medicinal plantations. Persons engaged in fruit growing or orchardry or plantations like tea, coffee, rubber, cinchona and other medicinal plantations should be entered in Q. 10 or Q. 11, as the case may be.

A person who has given out his land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, will not be treated as working as Cultivator. Similarly, a person working in another person's land only as a labourer and has no right or lease or contract on land on which he works, nor is responsible for taking decisions as to which crops to sow and when, or taking the risks of cultivation and is paid wages in cash, kind or share, such as share of produce (Agricultural Labourer), will not be treated as Cultivator in this question.

Q. 9 Working as Agricultural Labourer

Write 'AL' for a person working as Agricultural Labourer, i.e., a person who works in another person's land only as a labourer without exercising any supervision or direction in cultivation, for wages in cash, kind or share, such as share of produce. For others put 'X'. The labourer should have no right or lease or contract on land on which he works, nor should he be responsible for taking decisions as to which crops to sow and when, or taking the risks of cultivation. A share of the produce goes to him only as wages. He should have been working as Agricultural Labourer in the last or current cultivating season.

Qs. 10 (a) and 10 (b) Household Industry

If a person is working in a Household Industry, write (i) the nature of work done by him in the Household Industry against question 10 (a) and (ii) the nature of the Household Industry against question 10 (b). Otherwise, put 'X' in

both questions 10 (a) and 10 (b). A Household Industry is defined as an industry conducted by the Head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of a registered factory. Thus the main criterion for a Household Industry is the participation of one or more members of a household in rural areas. In the urban areas the Industry should be confined to the house. You should carefully keep in mind the definition of Household Industry in the rural area if you are enumerating a rural area and the definition in the urban area if you are enumerating an urban area.

A Household Industry should relate to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as pleader or doctor or barber or waterman or astrologer.

A person though he may not be working in his own Household Industry may be working as a paid employee in another Household Industry. You should, therefore, enquire whether the person who is not working in his own Household Industry is working in any other Household Industry and if so, write the nature of the work done by him against question 10 (a) and the nature of the Household Industry against 10 (b).

Q. 10 (c) If Employee in Household Industry

This question will be filled up only for a person who is working as a paid employee in another person's Household Industry. In his or her case write 'EE'. For all others put 'X'.

The following examples will illustrate how questions 10 (a) to 10 (c) should be filled up for persons working at Household Industry :-

Q. 10 Working at Household Industry

| *(a) Nature of Work* | *(b) Nature of Household Industry* | *(c) If Employee* |
|---|---|---|
| 1. Spinning yarn | Spinning yarn on Ambar Charkha | X |
| 2. Dyeing and printing yarn | Handloom weaving | X |
| 3. Threshing and cleaning grain | Flour making chakki | X |
| 4. Labourer employed for crushing oil | Oil ghani | EE |
| 5. Tempering and polishing implements | Blacksmithy making agricultural implements | X |
| 6. Labourer employed for making and firing kiln | Earthenware pottery | EE |
| 7. Throwing and Turning pottery | Earthenware pottery | X |
| 8. Making wooden doors and windows | Carpentry | X |
| 9. Filling gold ornaments with lac | Goldsmithy | X |

| | | | |
|---|---|---|---|
| 10. | Labourer working on hosiery machine | Hosiery | EE |
| 11. | Keeping accounts | Hosiery | X |
| 12. | Polishing and Scraping metal | Electroplating | X |
| 13. | Labourer employed for putting iron hoop on cartwheels | Cartwheelwright | EE |
| 14. | Repairing of guns | Gunsmithy | X |
| 15. | Bee keeping | Production of honey | X |
| 16. | Tending cattle | Livestock raising | X |

Q. 11. Doing Work other than 8, 9 or 10

If a worker is not working as a Cultivator or as an Agricultural Labourer or at any Household Industry, write the actual work he is doing. If a person is working as a Cultivator or as an Agricultural Labourer or at Household Industry and also does some other work (including dairying or livestock raising, orchard or plantation, etc., as distinct from cultivation of crops) which does not relate to any of the above categories, write the other work he does in this question. If he is engaged in more than one work and neither of them relates to any of the three categories mentioned above, write here the work on which he devotes more time.

Q. 11 (a) Nature of Work

In the case of persons not working or who work only as Cultivator or as Agricultural Labourer or at Household Industry, put 'X'.

Describe fully the nature of the work done by the person himself. Full and precise information as to the nature of work done by the person should be given either in the vernacular or in English or in vernacular transliteration of English. At previous censuses much trouble has been caused by inadequate answers, and if you do not succeed in obtaining satisfactory information on the individual slips, you will be required to make a further visit for that purpose.

Q. 11 (b) Nature of Industry, Profession, Trade and Service

In the case of a person who is working and the nature of whose own work has been recorded in Question 11 (a), you should write here the nature of industry, profession, trade or service in which the person works.

As in the case of Question 11 (a), you should describe in detail the nature of industry, business, trade, profession or service in which the person works. Vague answers should be avoided. In the case of industries, the articles which are produced or serviced or repaired should be given. If more than one article is produced, the chief article produced or serviced or repaired should be given. In the case of business or trade, the principal article of trade should be described. In the case of service, describe the nature of the service to which the person's work belongs. The description should be such that it would be possible to classify the establishment in which the person is working for purposes of industrial classification of the population. The description should be either in the vernacular or in English or in vernacular transliteration of English.

In the case of a person for whom 'X' is put in question 11 (a), put 'X' in this question also.

Important points to remember in questions 11 (a) and 11 (b).

1. Women or children who help

with work, such as rice pounding or doing domestic service for wages or minding cattle or selling firewood or making and selling cowdung cakes, grass, etc., should be described fully even if they work part-time. In the case of married or grown-up women who do any of the work mentioned above in addition to the usual household duties, such work should be fully described and 'HW' written in brackets after the full description.

2. If a person makes the articles he sells, he should be entered as maker and seller of them.

3. Wherever convenient, for complete description, the work should be expressed by the vernacular name by which it is known.

4. The following are too vague and must not be used by themselves:

Scientist, technician, civil servant, clerk, engineer, inspector, checker, foreman, overseer, supervisor, labourer, machinist, assistant, contractor, polisher.

5. Labourers—For an unskilled labourer usually employed on one sort of work alone, give also the sort of work done, e. g., railway porter, market or bazar porter, labourer employed on road digging, bricklayer's labourer. If accustomed to work on various jobs, write general labourer.

6. Machine Operators—Always state the kind of machine giving its recognised name, if any.

7. Shop-keepers, Retail Dealers, Shop Assistants—If wholly or mainly engaged in selling, write, 'Dealer' (if principal) or, 'Shop Assistant' or Salesman (if assisting) and state whether the business is wholesale or retail or both. For Shop Assistants and Salesmen in stores with several departments, state the particular department in which engaged (e. g., Ship and Railway Parts, Fans and Sewing Machines, Grocers and Confectioners).

8. Transport Workers—Describe fully the nature of the transport, e. g., air transport, rail transport, transport by motor car or motor cycle, or vehicles drawn by horse, etc.

9. Services—For a person engaged in the Defence Services, write 'Service of Central Government.'

10. If the job is known in the trade or industry by a special name, use that name. Manager, Foreman, etc., should be given the department/branch wherever applicable, e. g,, 'Sales Manager' or a 'Manager' of Hardware Department, 'Machine Shop Foreman' or 'Boiler Room Foreman', etc. The following terms are insufficient by themselves:

Manufacturer, merchant, agent, broker, refractor, dealer, engineer and iron works, etc.

11. Domestic Services—In the case of any private servant, e, g., a cook or domestic servant, write only 'Private cook or domestic servant.' There is no industry in his case but in the case of persons employed in hostels, restaurants, boarding houses, institutions, etc., the words hostel, restaurant, etc., should be added.

For persons in the employ of firms carrying on two or more businesses, if the businesses are carried on in separate premises, then the business carried on at the premises in which the person is employed should be given. If the businesses are carried on in the same premises but each has a separate organisation (i. e., they have separate records of employment, production, etc.), then the appropriate business should be quoted. If, however, the two activities are carried on side by side, then the major activity of the firm or establishment should be given.

12. Commerce—Special care should be taken to see that the distinction between retail and wholesale business is clear. As in industries, the goods handled should

be clearly indicated.

Q. 11 (c) Class of Worker

For a person who is :

1. an Employer, that is, who hires one or more persons in his work described in Q. 11 (a).....write MR

2. a nemployee, that is, who does his work described in Q. 11 (a) under others for wages or salary in cash or kind.....write EE

3. a Single Worker, that is, who is doing his work described in Q. 11 (a) without employing others, except casually and without the help of other members of the family except casually. This will include workers working as members of co-operative.....write SW

4. a Family Worker, that is, who is doing his work described in Q. 11 (a) in own family without wages or salary in cash or kind.....write FW

For a person for whom 'X' is put in Qs. 11 (a) and 11 (b), put 'X' in this question also.

Explanation :—

(i) An Employer is a person who has to employ other persons in order to perform the work entered in Q. 11 (a). That is to say, such a person is not only responsible for his own personal work but also for giving work to others in the business mentioned in Q. 11 (a). But a person who employs domestic servants for household duties or has subordinates under him in an office where he is employed by others, is not an employer, even if he has the power to employ another person in his office on behalf of his own employer or employers.

(ii) An Employee is a person who usually works under some other person for salary or wages in cash or kind. There may be persons who are employed as managers, superintendents, agents, etc., and in that capacity employ or control other workers on behalf of their own employers. Such persons are only employees, as explained above, and should not be regarded as employers.

(iii) A Single Worker for the purpose of Q. 11 (c) is a person who works by himself. He is not employed by any one else and in his turn does not employ anybody else, not even members of his household except casually. This definition of a Single Worker will include a person who works in joint partnership with one or several persons hiring no employees, and also a member of producer's co-operative. Each one of the partners or members of such producer's co-operatives should be recorded as 'Single Worker'.

(iv) A Family Worker is a member who works, without receiving wages in cash or kind, in an industry, business or trade conducted mainly by members of the family and ordinarily does at least one hour of work everyday during the working season. For the purpose of the entire Q.11, such an industry should be on a scale larger than what has been covered in 'Household Industry' in Q. 10 whether run at home or away from home in town or village and even away from village in rural area and should ordinarily be in the nature of a recognised partnership, joint stock company or registered factory. For the purpose of this definition members of a family may be drawn from beyond the limits of the household by ties of blood or marriage. The family worker may not be entitled to a share of the profits in the work of the business carried on either by the person or head of the household or other relative.

Members of the household who help solely in household duties should not be treated as family workers.

Q. 11 (d) Name of Establishment.

Describe in detail the name of the factory, workshop, business house, com-

Q. 12 Activity, if Not Working.

This question will apply to a person NOT WORKING.

Write 'X' in this question for a person who is working that is for whom you have recorded the work in any of the questions 8 to 11 above.

The following activities should be recorded in the case of persons NOT WORKING :

1. For a full time student or child attending school who does no other work such as make, articles at home for sale, nor even help part-time in his own family cultivation, industry, trade or business Write ST.

2 For a person engaged in unpaid home duties ( like housewife or other adult female) who does no other work, such as make articles at home for sale or wages, nor help regularly even part-time in family cultivation, industry, trade or business Write HW.

3 For any dependent, including an infant or child not attending school, a person permanently disabled from work because of illness or old age Write D

4 For a retired person who is not employed again, rentier, person living on agricultural or non-agricultural royalty, rent or dividend or any other person of independent means for securing which he does not have to work and who does no other work Write R.

5 For a beggar, a vagrant or an independent woman without indication of source of income and others of unspecified source of existence Write B

6 For a convict in jail (an undertrial prisoner will be shown as a worker if he used to work before he was apprehended) or an inmate of a penal, mental or charitable institution Write I

7 For a person who has not been employed before but is seeking employment for the first time Write NE

8 For a person employed before but now out of employment and seeking employment Write UN

Explanation :- If a person, who does not work, cannot be readily classified in any of the above categories, put him in category 5 and write 'B' in this question. A retired person who has taken up regular work again should not be entered in this question as he would have been entered for his new work in questions 8 to 11.

A person who is not working but has been offered work which he has not joined should be included in item 3 and 'D' should be written. He should not be included in item 7 or 8.

# TABLE B-I

WORKERS AND NON-WORKERS CLASSIFIED
BY SEX AND BROAD AGE-GROUPS

## TABLE B—I

## WORKERS AND NON-WORKERS CLASSIFIED BY SEX AND BROAD AGE-GROUPS

The table gives sex-wise population of the State and of its rural and urban sectors by Workers and non-workers and by 4 broad age-groups, viz., 0-14, 15-34, 35-59, 60+ and age not stated. The Workers have further been sub-divided into 9 industrial categories by a re-classification of groups and sub-divisions adopted in the previous censuses.

For the first time in Indian Census the population of each village/town has been divided into workers, non-workers and workers into the nine broad industrial categories. These figures are given in Primary Census Abstract. Further, break up by age groups has not been attempted for each village. This has, however, been done for individual towns and published in Table B—II.

The questions asked by the enumerators and the instructions on the mode of filling in the answers from which this table has been built have already been reproduced in the appendix I to Introduction. Similarly, the concepts of 'workers' and non-workers and definition and the scope of the nine broad industrial categories have been spelt out in the Introductory note.

It will perhaps be useful here to dwell briefly on the terms 'Rural' and 'Urban' area used in presenting the Census data which will also be applicable to this table.

To qualify for an urban area, a place had to be either a municipal corporation, or a municipal area, or a town committee or a notified area committee or cantonment board. Besides, places which did not have any of the above mentioned local bodies but possessed the following characteristics were also treated as urban areas or towns: (a) a density of not less than 1,000 per square mile; (b) a population of 5,000+, (c) three-fourths of the occupations of the working population should be outside of agriculture; or (d) any other place which according to the Superintendent of Census Operations of the State, possessed pronounced urban characteristics and amenities.

All other places were treated as rural areas or villages.

Table B-I corresponds to Table-X Occupation or means of livelihood of 1931 Census.

# TABLE B-II

WORKERS AND NON-WORKERS IN CITIES, TOWN-GROUPS AND TOWNS ARRANGED TERRITORIALLY CLASSIFIED BY SEX AND BROAD AGE - GROUPS

## TABLE B—II

## WORKERS AND NON-WORKERS IN CITIES, TOWN-GROUPS AND TOWNS ARRANGED TERRITORIALLY CLASSIFIED BY SEX AND BROAD AGE - GROUPS

The table relates to the urban sector only and gives more detailed information about the distribution of workers by industrial categories as also the number of workers and non-workers by sex and broad age-groups in respect of each of the constituent urban areas of the district concerned.

The definition adopted for worker and non-worker has already been given in the Introductory Note. It is, however, necessary to indicate here the definition applied in 1961 Census for the determination of an urban area.

The following three tests were initially prescribed for the identification of an urban area :-

1) It should not have a population of less than 5000.
2) Three-fourths of the population should consist of non-agriculturists.
3) The density should not be less than 1000 persons per square mile.

It was also agreed upon that all corporations, municipalities, cantonment boards, towns and notified areas should be treated as towns irrespective of the size of the population and other characteristics. In exceptional cases where the population was less than 5000 but the areas possessed definite urban characteristics and amenities, they were classed as towns with the concurrence of Registrar General.

A city has been defined as a town with population of one lakh and over. Thus Srinagar and Jammu being the only towns in the State with a population of one lakh and over, have been treated as cities for the Census of 1961.

A distinguishing feature of the Census of 1961 is the introduction of the concept of a town-group. It was decided that a constellation of small contiguous towns or satellite towns around a principal city should constitute a town-group so that the statistical data for the entire area may be readily available to facilitate the execution of developmental plans for the region as a whole. Accordingly, a town-group was set up in the State for the Census of 1961 with the city of Srinagar, Badamibagh Cantonment and the notified area of Natipora-Hyderpora as its constituents. The table gives the data for this town-group as a whole as also separately for each of its constituent urban areas.

The following abbreviations have been used to denote the civic status of towns :-

| | | |
|---|---|---|
| (i) M. C. | ... | Municipal Committee |
| (ii) T. A. | ... | Town Area Committee |
| (iii) N. A. | ... | Notified Area Committee |
| (iv) Cantt | ... | Cantonment |

# TABLE B-III PART A

INDUSTRIAL CLASSIFICATION OF WORKERS AND NON-WORKERS BY EDUCATIONAL LEVELS IN *URBAN AREAS ONLY*

## TABLE B—III Part A

## INDUSTRIAL CLASSIFICATION OF WORKERS AND NON-WORKERS BY EDUCATIONAL LEVELS IN *URBAN AREAS ONLY*

Table B - III has been split up into two parts, one dealing with the urban and the other with the rural areas. In either case, the data has been tabulated upto district level and gives the distribution of workers and non-workers by educational levels and by industrial categories. It is hoped that the information given in the table will be of great help in assessing the size of available educated man power.

It is clear from the table that 30.2% of the urban population of the State consists of workers. The corresponding All-India proportion stands at 33.5%. Punjab, Rajasthan and Uttar Pradesh have the same proportion of urban workers as Jammu and Kashmir.

The State proportion is exceeded by districts of Anantnag, Baramulla, Ladakh and Doda. In other districts except Udhampur, which has the same proportion as that of the State, the number of workers per hundred urban population is less than 30.

The main object of the table is to give the incidence of literacy in each of the nine industrial categories of workers and among non-workers and to ascertain the sex-wise number of literate and illiterate persons classified by broad educational levels mentioned in Col. 1 of the table.

It was with this object in view that question No. 6, viz., Literacy and Education, was included in the Enumeration Slip. Following instructions were issued to the Enumerators on the mode of filling in answers against this question.

A person who can neither read nor write or who can merely read but cannot write in any language should be treated as illiterate and this should be denoted by writing letter 'O' in the blank space against Question 6 of the enumeration slip. A person who can both read and write should be considered literate and this should be indicated by writing 'L' against the question.

The test for reading is ability to read any simple letter either in print or in manuscript, i.e. if the person can read one of the examples in the Enumerator's Handbook with felicity he may be taken to have passed the test for reading. The test for writing is ability to write a simple letter. The test for literacy is satisfied if the person can with understanding both read and write.

In the case of a person who can both read and write and who has also passed a written examination or examinations as proof of an educational standard attained, the name of the highest examination passed and not letter 'L' should be written in reply to Question 6 of the enumeration slip.

As is clear from the table, literate workers and non-workers of either sex have been classified by following broad educational levels :-

1. Literate (without educational level)
2. Primary or Junior Basic
3. Matriculation or Higher Secondary
4. Technical diploma not equal to degree
5. Non-technical diploma not equal to degree
6. University degree or post-graduate

degree other than technical degree

7. Technical degree or diploma equal to degree or post-graduate degree

The last category has further been sub-divided among those holding degrees or diplomas in (a) Engineering, (b) Medicine, (c) Agriculture, (d) Veterinary and Dairying, (e) Technology, (f) Teaching and (g) Others. The various diplomas which were taken under the 4th and 5th categories, viz., (i) technical diploma not equal to degree and (ii) non-technical diploma not equal to degree are Indicated below :-

Technical diploma not equal to degree

1. Civil Engineering
2. Electrical Engineering
3. Mechanical Engineering
4. Architecture
5. Mining
6. Forestry
7. Tele-communication
8. Automobiles
9. Veterinary
10. Nursing
11. Sanitation
12. Fisheries
13. Dairying
14. Textile and Printing
15. Dispensing
16. Midwifery
17. Lady Health Visitor course
18. Dental technology
19. Laboratory technology
20. X-Ray technology.

Non-technical diploma not equal to degree

1. Teaching
2. Languages
   a) Sanskrit
   b) Persian
   c) Arabic
   d) Urdu
   e) Hindi
   f) Punjabi
3. Journalism
4. Accountancy
5. Statistics
6. Visual and graphic arts
7. Acting
8. Music
9. Dancing
10. Sewing

The table shows that the incidence of literacy is more pronounced among workers than in non-workers. The literacy percentage in the case of the former stands at 37 as against only 25 so far as non-workers are concerned.

Udhampur and Poonch districts claim the highest proportion of literate workers. The proportion of Jammu district is slightly less but much larger than that of the State as a whole. Other districts in which literacy percentage of workers exceeds the State percentage are Doda and Kathua.

As in the case of workers, the proportion of literate non-workers in all the five districts of Jammu Province exceeds the State proportion. In Kashmir, Anantnag has the lowest proportion of 13% and Srinagar the highest at 22% of the total number of non-workers ;

The table further shows that :-

a) there are no technical degree holders in the urban areas of the State working in cultivation.

b) even so far as University or post-graduate degree other than technical degree is concerned, there are no females engaged in cultivation possessing these qualifications. Among the males also, the proportion of workers in cultivation holding University or post-graduate degree other than technical degree to the total male population is only .10%;

c) no less than 62% male literate population employed in cultivation consists of those without any educational qualifications ;

d) the proportion of males engaged in cultivation who have passed Matriculation or Higher Secondary examination does not exceed 10% of the male literate population of this category ;

e) the incidence of literacy among the female cultivators is exceedingly low and is limited to 2.7% only. Of these, 1.8% are without any educational qualifications, 0.8% have passed primary or Junior Basic examination and 0.1% Matriculation or Higher Secondary examination;

f) the incidence of literacy is more marked in the male workers belonging to category VI and VII, viz., construction and trade and commerce than in the remaining seven categories.

g) of the total number of male literates in category IX, 50% have passed Matriculation or Higher Secondary examination including technical and non-technical degree;

h) category IX also claims highest proportion of literate females at 52.6% of the female population. In this case, the proportion of females with Matriculation and higher qualifications is still higher than that of the males.

# TABLE B-III PART B

INDUSTRIAL CLASSIFICATION OF WORKERS AND NON-WORKERS
BY EDUCATIONAL LEVELS IN *RURAL AREAS ONLY*

## TABLE B-III Part B

## INDUSTRIAL CLASSIFICATION OF WORKERS AND NON-WORKERS BY EDUCATIONAL LEVELS IN *RURAL AREAS ONLY*

This part of table B—III deals with the rural sector only. It is distinguishable from the first part in respect of details of educational levels which have been given in this case by only three broad groups, namely, literate without educational level, Primary or Junior Basic and Matriculation and above.

The table shows that 45.3% of the rural population of the State consist of workers. The corresponding proportion for India as a whole stands at 45.1%. In Kerala, Punjab and West Bengal, the incidence of workers is much less pronounced than in Jammu and Kashmir.

Except for the districts of Anantnag, Jammu, Kathua and Poonch, the corresponding proportion of workers in all other districts is higher than that of the State.

According to the data given in this table, the percentage of literacy in rural population stands at 7.6%. Of these, 3.9% consist of workers and 3.7% of non-workers.

It is also apparent that of the total literate population 5.3% are without any educational qualifications and 1.8% consist of those who have passed Primary or Junior Basic examination. The proportion of Matriculates and persons with higher qualifications does not exceed 0.5% of the total rural population.

In the State as a whole not more than 9% workers in the rural areas are literates, the corresponding proportion of all other districts except Jammu, Kathua and Poonch is less than the State percentage.

In the case of non-workers, the literacy percentage stands at 7. Anantnag and Doda districts are at par with the State, whereas in Jammu, Kathua and Ladakh, the corresponding proportion exceeds the State percentage. In other districts the incidence of literacy in the non-workers is less pronounced.

The industrial classification of workers shows that about 91% of the rural male population engaged in cultivation consists of illiterate persons. The proportion of male literate workers without any educational qualifications is relatively high and stands at about 7% as against 2.2% the corresponding proportion of those with Primary and Junior Basic qualifications. The incidence of male workers with Matriculation and higher qualifications is negligible. Among female workers, only 0.4% consist of literate persons.

Judging from the literacy point of view, categories VII and IX are important as these include the highest proportion of literate male and female workers. In category VII the literacy percentage of male workers stands at 46.4%. These include 33.6% literate males without any educational qualifications and 10.6% with Primary and Junior Basic qualification. In this case the proportion of literate males who have passed Matriculation and higher examinations stands at 2.2%. Among the females, however, the literacy percentage does not exceed 3.4% which includes 3.1% of those without any educational qualifications.

In the case of category IX although the male literacy percentage is about the same as that of category VII, the proportion of males without educational qualifications is not as high as in the case of category VII.

Male workers without any educational qualifications claim only 19.5% of the total number of male workers in this category whereas the proportion of those with Primary or Junior Basic qualifications exceed 15%. Further, in this case about 12% workers have passed Matriculation and higher examinations. Among female workers, over 22% are literates and except for 7.3% who have passed Primary or Junior Basic examination and 7.4% with Matriculation and higher qualifications, all others are mere literates possessing no educational qualifications.

# TALBE B-IV PART A

INDUSTRIAL CLASSIFICATION BY SEX AND CLASS OF WORKER
OF PERSONS AT WORK AT HOUSEHOLD INDUSTRY

## TABLE B-IV Part A

## INDUSTRIAL CLASSIFICATION BY SEX AND CLASS OF WORKER OF PERSONS AT WORK AT HOUSEHOLD INDUSTRY

This is a composite table giving the distribution by class and sex of workers engaged in household industry and their industrial classification for all areas and for rural and urban sectors of the State and its constituent divisions and districts. As the participation of the members of the household in an industry carried on at home is an indispensable condition for its classification as a household industry, it was not deemed necessary to ascertain the status of such workers except in case of those among them who work as employees in the household industry of some other household. It is, therefore, that the distribution of the workers has been given by two categories only, namely, employees and others.

An employee was defined as a person who usually works under some other person for salary or wages in cash or kind. It was made clear to the enumerators that there may be persons employed as Managers, Superintendents etc. who might in that capacity be employing or controlling other workers on behalf of their own employers. Such persons were to be treated as employees and not employers.

The table shows that the household industries returned from the rural and urban sectors of the State fell under 5 major groups of Division 0 and 18 major groups of Division 2 & 3. Full description of the industries represented by these divisions and groups is given below :-

| | | |
|---|---|---|
| Division | 0 | Agriculture, livestock, forestry, fishing and hunting. |
| Major Group | 00 | Field produce and Plantation crops. |
| ,, | 01 | Plantation crops. |
| Major Group | 02 | Forestry and Logging. |
| ,, | 03 | Fishing. |
| ,, | 04 | Livestock and Hunting. |
| Division | 2 & 3 | Manufacturing. |
| Major Group | 20 | Foodstuffs. |
| ,, | 21 | Beverages. |
| ,, | 22 | Tobacco Products. |
| ,, | 23 | Textile-cotton. |
| ,, | 24 | Textile-jute. |
| ,, | 25 | Textile-wool. |
| ,, | 26 | Textile-silk. |
| ,, | 27 | Textile-miscellaneous |
| ,, | 28 | Manufacture of wood and wood products. |
| ,, | 29 | Paper and paper products. |
| ,, | 30 | Printing and publishing. |
| ,, | 31 | Leather & leather products. |
| ,, | 33 | Chemicals and chemical products. |
| ,, | 34-35 | Non-Metalic Mineral Products other than petroleum and coal. |
| ,, | 36 | Basic Metals and their products except machinery and transport equipment. |
| ,, | 37 | Machinery (all kinds other than Transport) and Electrical Equipment. |
| ,, | 38 | Transport Equipment. |
| ,, | 39 | Miscellaneous Manufacturing Industries. |

According to the table the number of females at work at household industry is much larger than the corresponding number of male workers in the State as a whole, the respective proportion being 45 in the case of males as against 55 for females. This disparity is wholly reflected in the number of other workers of the rural sector, particularly those falling under major group 04 of Division 0 and

major groups 23 and 25 of Division 2 & 3. There are, however, a number of other industries in which the proportion of male workers when compared with that of females is much larger. Among these, mention may be made of major groups 20, 27, 28, 31, 34-35, 36 and 39.

It is also clear from the table that the incidence of female workers in the urban areas is by far less pronounced than the corresponding proportion of males. The disparity is more conspicuous among employees than in other groups and is particularly reflected in major groups 25, 27, and 28.

# TABLE B-IV PART B

INDUSTRIAL CLASSIFICATION BY SEX AND CLASS OF WORKER
OF PERSONS AT WORK IN NON-HOUSEHOLD INDUSTRY
TRADE, BUSINESS, PROFESSION OR SERVICE

## TABLE B-IV Part B

## INDUSTRIAL CLASSIFICATION BY SEX AND CLASS OF WORKER OF PERSONS AT WORK IN NON-HOUSEHOLD INDUSTRY TRADE, BUSINESS, PROFESSION OR SERVICE

The table has been prepared for the State, its divisions and districts and for their urban areas. The figures given in the table relate to workers engaged in categories III and V to IX of industrial classification, namely those engaged in :-

III Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities

V Manufacturing other than Household Industry

VI Construction

VII Trade and Commerce

VIII Transport, Storage and Communications

IX Other Services

For the purpose of Census of 1961, workers other than those engaged in cultivation or in agricultural labour or in household industry have been divided into the following 4 classes.

1. Employer: An employer was defined as a person who had to employ other persons in order to perform the work referred to in the reply to Q. 11 (a) of his individual slip. In order to properly identify an employer it was made clear that he should not be only responsible for his own personal work but also for giving work to others in connection with the business mentioned in the above question. A person who employed domestic servants for household duties or had subordinate under him in an office/institution where he was employed by others was not treated as an employer, even if he had the power to employ another person in his office/institution on behalf of his employers.

2. Employee: A person who usually worked under some other persons for salary or wages in cash or kind was treated as an employee. These include among others, managers, superintendents, agents, etc. who could employ or control other workers on behalf of their employers.

3. Single worker: A single worker was defined as a person who worked by himself but not as Head of household in a Household Industry. The test for verifying whether a person could be classed as a single worker was that he should neither have been employed by any one else, nor himself employed anybody else not even members of his household except casually. Partners or members of producers' co-operative who worked in joint partnership hiring no employees were also treated as single workers.

4. Family worker: A person who worked without receiving wages in cash or kind in an industry, business or trade conducted mainly by the members of the family was treated as family worker provided that he worked at least one hour every day during the working season. The enumerators were instructed to note that the industry in which a family worker might be employed should be on a scale larger than that covered by household industry, it being immaterial whether the industry was being run at home or away from home in town or village and even away from village in rural areas. On the other hand, an important condition was that the industry should be in the nature

of recognised partnership, joint stock company or registered factory. For the purpose of classification of family workers it was also explained to the enumerators that members of a family might be drawn from beyond the limits of household by ties of blood or marriage. Further that a family worker might not be entitled to a share of the profits in the work or business carried on either by the persons or Head of the household or other relatives.

Such of the members of the household who helped solely in household duties were not treated as family workers.

The table shows that 93% of the total number of workers of all the six industrial categories are males. In the urban sector, however, the corresponding proportion is higher and stands at 96%. This means that the percentages of male and female rural workers stand at 90 and 10 respectively.

The subjoined statement indicates the distribution of workers among the various divisions under which they are classifiable according to the nature of their employment :-

| Division | Total | Urban |
|---|---|---|
| All Divisions | 100 | 100 |
| Division 0 | 10 | 2 |
| Division 1 | N | N |
| Division 2 & 3 | 13 | 18 |
| Division 4 | 3 | 3 |
| Division 5 | 2 | 2 |
| Division 6 | 13 | 15 |
| Division 7 | 5 | 7 |
| Division 8 | 53 | 52 |
| Division 9 | 1 | 1 |

Note :- 'N' denotes negligible figure.

It is clear that the largest proportion of workers is claimed by division 8, viz. 'Service', both in the case of State as a whole as also in respect of its urban areas. The next important sector is manufacturing, viz. Division 2 & 3 which is more pronounced in the urban area than in the State as a whole. The only other Division in which the proportion of workers exceeds 10% both in the State and its urban areas is trade and commerce.

The following table gives the percentages of employers, employees, single workers and family workers for the State and its urban areas and for each of the 6 industrial categories mentioned above.

| Description | Total Urban | Employer | Employee | Single worker | Family worker |
|---|---|---|---|---|---|
| All Divisions | T | 13 | 58 | 22 | 7 |
| | U | 15 | 61 | 19 | 5 |
| 1. Workers engaged in Mining, Quarrying, Livestock, Fishing, Hunting and Plantations, Orchards and Allied activities. (Divisions 0 & 1) | T | 10 | 37 | 18 | 35 |
| | U | 18 | 43 | 21 | 18 |
| 2. Workers engaged in Manufacturing. (Division 2 & 3) | T | 22 | 43 | 28 | 7 |
| | U | 24 | 47 | 24 | 5 |
| 3. Workers engaged in Construction. (Division 4) | T | 13 | 57 | 30 | ... |
| | U | 21 | 42 | 37 | ... |
| 4. Workers engaged in Trade & Commerce. (Division 6) | T | 47 | 14 | 28 | 11 |
| | U | 47 | 18 | 24 | 11 |
| 5. Workers engaged in Transport, Storage & Communications. (Division 7) | T | 9 | 58 | 19 | 14 |
| | U | 7 | 60 | 15 | 18 |
| 6. Workers engaged in Other Services. (Divisions 5, 8 & 9) | T | 3 | 76 | 20 | 1 |
| | U | 5 | 78 | 16 | 1 |

An important feature of the above table is that except for workers engaged in construction, transport, storage, communication and other services, the percentages of employees in all other cases in the State as a whole is less than the aggregate percentage of other classes of workers, namely, employers, single workers and family workers. This is also true of the urban sector except that in the case of workers engaged in construction, the total number of employers and single workers put together exceeds that of employees.

In the case of trade and commerce, however, it appears that retail dealers who abound in the State, have been classified among employers on the assumption that they run business independently and make their own investment and are not employed by anyone else. According to the definition given above, these persons were classifiable as single workers except those among them who employed others to assist them in running their business. Another reason for the inflation of the figures of employers seems that in the case of retail shops which are run jointly by the members of a family owning a shop, every member has been treated as an employer.

# TABLE B-IV PART C

## INDUSTRIAL CLASSIFICATION BY SEX AND DIVISIONS, MAJOR GROUPS AND MINOR GROUPS OF PERSONS AT WORK OTHER THAN CULTIVATION

Note :- Minor groups having less than 1% of the workers of the respective Division, (less than 0.5% in case of minor groups of Division 2 & 3), have not been shown in this table. Divisions thus effected are marked with an astrisk (*).

## TABLE B-IV Part C

## INDUSTRIAL CLASSIFICATION BY SEX AND DIVISIONS, MAJOR GROUPS AND MINOR GROUPS OF PERSONS AT WORK OTHER THAN CULTIVATION

The table gives the distribution of workers by 3 digit industrial classification in respect of workers engaged in household industry and in non-household industry and does not include cultivators and agricultural labourers. The figures have been tabulated for the State, its divisions and districts and their respective urban areas. A copy of the Standard Industrial Classification giving the description of each division, major group and minor group has been reproduced in Annexure 'A' of this fly-leaf. It may be, however, remarked here that :-

(a) Minor groups 000 to 004 and 005 (partly) relating to category I (Cultivators) and category II (Agricultural labourers),

(b) minor group 999 'fresh entrants to labour market' relating to non-workers being outside the scope of this table do not find place in it.

Further, the table does not include such of the minor groups in which the number of workers is less than 1% of the total number of workers given against the concerned division. In case, however, of division 2 & 3, only such minor groups which claim less than 0.5% workers of the division have been omitted. All these minor groups have been shown in the appendix to this table.

Annexure 'B' to the fly-leaf contains the list of common household industries with their respective four digit code numbers.

## ANNEXURE A

### Standard Industrial Classification

This classification groups the industries into

9 Divisions

45 Major Groups

343 Minor Groups

The divisions and major groups with their Code numbers are listed below :-

DIVISIONS

0 Agriculture, Livestock, forestry, fishing and hunting
1 Mining and quarrying
2&3 Manufacturing
4 Construction
5 Electricity, Gas, Water and Sanitary services
6 Trade and Commerce
7 Transport, Storage and Communication
8 Services
9 Activities not adequately described.

# APPENDIX TO TABLE B-IV PART C

**Statement showing particulars of Workers under Minor Groups accounting for less than 1% of the Workers in the concerned Divisions, (less than 0.5% in the case of the Minor Groups under Division 2 & 3) who have not been included in the main Table**

[Minor Groups having less than 1% of workers of the respective Division, (less than 0.5% in case of the Minor Groups of Division 2 & 3) have been shown in this Appendix.]

## APPENDIX TO TABLE B-IV Part C

Minor Groups having less than 1% of workers of the respective Division and less than 0.5% in case of minor groups of division 2 & 3 only have been shown. The following abbreviations have been used :-

'HI' for Household Industry, 'NHI' for Non-household Industry, 'M' for Males and 'F' for F

# TABLE B-V

## OCCUPATIONAL CLASSIFICATION BY SEX OF PERSONS AT WORK OTHER THAN AT CULTIVATION

Note:—Families having less than 1 % of the workers of the respective Division, (Less than 0.5 % in case of families of Division 7-8), have not been shown in this table but are given in the appendix to this table. Divisions thus effected are marked with an asterisk ( * ).

## TABLE B—V

## OCCUPATIONAL CLASSIFICATION BY SEX OF PERSONS AT WORK OTHER THAN CULTIVATION

The table gives the occupational classification of categories III to IX. viz., all workers except those employed in agricultural sector.

The term occupation used in the previous Census Reports implied means of subsistence or livelihood or the supporting sector of economy. In 1961, however, a precise connotations has been assigned to this term by making the 'function' or 'exact work' which a person performs in any branch of economic activity as the basis of occupational classification.

The occupational classification is based on the National Classification of Occupations, a copy of which will be found at the end of this note. By this classification the occupations have been divided into 11 Divisions which have been further subdivided into 75 Groups. The groups have also been subdivided into 331 families. The system is based on the International Standard Classification of occupations which has been modified to suit conditions obtaining in India.

Following are the limitations of 'National Classification of Occupations' as adopted for Census of 1961 :—

(i) Occupational family '0x4' has been deleted from the N. C. O.

(ii) Occupational families 400-401 relating to category I (Cultivators) and 414 relating to category II (Agricultural labourers) do not find place in Table B-V.

(iii) Similarly occupational group x0 and its families x00, x08 and x09 relating to Non-workers (workers without occupations) also do not find place in Table B-V.

(iv) Occupational family '063' has been changed as '069'.

(v) Occupational family '673'—'Teleprinters Operators' is a new addition in the family of occupations.

(vi) There have been changes in the description of some occupational families. Correct description of all such cases are listed below :—

010 Chemists except Pharmaceut ical Chemists.

047 Optometrists and Opticians

072 Statisticians and Actuaries

073 Geographers

202 Ticket Sellers and Ticket Inspectors including Ushers and Ticket Collectors (excluding those on moving transport)

211 Typists

280 General and other Ministerial Assistants and Clerks

290 Office Attendants, Ushers. Hall Porters, etc., n. e. c.

660 Inspectors, Supervisors, Station Masters and Permanent Way Inspectors

690 Ticket Sellers, Ticket Inspectors including Ushers and Ticket Collectors on moving transport

771 Shipwrights and Body Builders (wood)

Like Table B-IV Part-C, families against which the number of workers is less than 1% of the total number of workers in the concerned Division and less than 0.5 % in the case of Division 7-8 have been omitted from the table. These have, however, been listed separately in the appendix to the table.

# TABLE B-VI

## OCCUPATIONAL DIVISIONS OF PERSONS AT WORK OTHER THAN CULTIVATION CLASSIFIED BY SEX, BROAD AGE-GROUPS AND EDUCATIONAL LEVELS IN *URBAN AREAS ONLY*

All the occupational divisions are spelt out below in terms of their description in order to facilitate the reading of the table ;—

0 Professional, Technical and Related Workers

1 Administrative, Executive and Managerial Workers

2 Clerical and Related Workers

3 Sales Workers

4 Farmers, Fishermen, Hunters, Loggers and Related Workers

5 Miners, Quarrymen and Related Workers

6 Workers in Transport and Communication Occupations

7-8 Craftsmen, Production Process Workers, and Labourers Not Elsewhere Classified

9 Service, Sport and Recreation Workers

x Workers not classified by occupation

## TABLE B—VI

## OCCUPATIONAL DIVISIONS OF PERSONS AT WORK OTHER THAN CULTIVATION CLASSIFIED BY SEX, BROAD AGE-GROUPS AND EDUCATIONAL LEVELS IN *URBAN AREAS ONLY*

The table gives the distribution of urban workers of categories III to IX by broad age-groups, sex and educational levels, classified by occupational divisions. The age-groups adopted are the same as those gives in Tables B-I and B-II.

So for as the educational levels are concerned, the workers have been classified by the standards mentioned in Table B-III Part-A with the difference that no separate column has been provided for illiterate workers.

The table exhibits figures only for occupational divisions but even so it shows the pattern of educational level of working force and the principal occupations which attract qualified persons.

The subjoined table gives the percentage of literate workers by occupational divisions :-

| Occupational Division No. | Percentage of literate workers | |
|---|---|---|
| | M | F |
| All Divisions | 100 | 100 |
| Division 0 | 15 | 77 |
| Division 1 | 9 | 1 |
| Division 2 | 24 | 8 |
| Division 3 | 14 | N |
| Division 4 | 2 | N |
| Division 5 | N | ... |
| Division 6 | 6 | 1 |
| Division 7-8 | 20 | 10 |
| Division 9 | 9 | 3 |
| Division x | 1 | ... |

Note :- 'N' denotes negligible figures.

As the table gives the distribution of urban workers other than those engaged in Cultivation (Category I) or employed as Agricultural labourers (Category II), Division 4 excludes families 400 (Cultivators owners), 401 (Cultivators Tenants) and 414 (Agricultural Labourers). Similarly, group x0 of Division x which represents workers without occupations has also been excluded as the table relates to workers only.

Figures of individual occupational divisions by age-groups are not available and have not therefore been presented in columns 3 to 5 of the table.

It will be seen from the table that female literate workers mostly consist of those engaged in occupations falling under Division 0, namely, Professional, Technical, and Related workers. Among male Division 2 (Clerical and Related Workers) and Divisions 7-8 (Craftsmen, Production Process Workers and Labourers Not Elsewhere Classified) claim comparatively larger proportions of workers than those under other divisions.

## PERSONS WORKING PRINCIPALLY (i) AS CULTIVATORS (ii) AS AGRICULTURAL LABOURERS OR (iii) AT HOUSEHOLD INDUSTRY CLASSIFIED BY SEX AND BY SECONDARY WORK (i) AT HOUSEHOLD INDUSTRY (ii) AS CULTIVATOR OR (iii) AS AGRICULTURAL LABOURER

Note :- Major groups of household industry where persons having secondary work as cultivation or agricultural labour, are less than 5% of the persons having the major groups as principal work, have not been shown in this table, but are given in the appendix to this table. Divisions thus effected are marked with astreisk (*)

## TABLE B—VII PART A

## PERSONS WORKING PRINCIPALLY (i) AS CULTIVATORS (ii) AS AGRICULTURAL LABOURERS OR (iii) AT HOUSEHOLD INDUSTRY CLASSIFIED BY SEX AND BY SECONDARY WORK (i) AT HOUSEHOLD INDUSTRY (ii) AS CULTIVATOR OR (iii) AS AGRICULTURAL LABOURER

Table B-VII is designed to indicate the principal and subsidiary work of such of the workers who are engaged in more than one activity. Part-A of the table gives the cross tabulated data of persons whose principal and secondary work consist of any two of the following :-

i. Cultivation
ii. Agricultural labour
iii. Household Industry

It presents the data, sexwise, in respect of the State, its divisions, districts and their rural and urban sectors. In the case of those having household industry as their principal work, the secondary work also has been shown by divisions and major groups. Major groups of household industry where persons having secondary work are less than 5% of the number of persons whose principal work is household industry, have been omitted from the table. These have, however. been listed separately in the appendix to the table.

Full description of these divisions and major groups is given at the end of fly-leaf to Table B-IV Part-C.

The following three tables indicate the percentage of male and female workers principally engaged in cultivation or as agricultural labourers or at household industry and whose secondary work is one of the remaining two :-

Number per 100 cultivators whose secondary work is :—

## TABLE B—VII PART B

## INDUSTRIAL CLASSIFICATION BY SEX OF PERSONS WORKING IN NON-HOUSEHOLD INDUSTRY, TRADE, BUSINESS, PROFESSION OR SERVICE WHO ARE ALSO ENGAGED IN HOUSEHOLD INDUSTRY

The table gives cross tabulated data in respect of principal and additional work of persons engaged in Non-household Industry (categories III and V to IX). The figures have been presented sexwise down to major groups for the State, its divisions and districts as also for their rural and urban parts.

The subjoined table gives Division-wise percentage for the State and its rural and urban sectors of workers additionally working at household industry to total workers of each division :-

| Principal work | Total Rural Urban | Percentage of workers additionally working at Household Industry to total workers of each Division |
|---|---|---|
| Division 0 | T | 0.2 |

# TABLE B-VIII PART A

PERSONS UNEMPLOYED AGED 15 AND ABOVE BY SEX, BROAD AGE-GROUPS AND EDUCATIONAL LEVELS IN URBANS AREAS ONLY

## TABLE B—VIII PART A

## PERSONS UNEMPLOYED AGED 15 AND ABOVE BY SEX, BROAD AGE-GROUPS AND EDUCATIONAL LEVELS IN URBAN AREAS ONLY

This table is designed to indicate the incidence of unemployment among persons of either sex aged 15 and above. Part-A of the table gives the total and sexwise number by broad age-groups and educational levels of unemployed persons in the urban areas and their distribution among those seeking employment for the first time and others who were employed before but are now out of employment and seeking work. The educational levels adopted for this table are the same as those given in Table B-III Part-A. The figures shown in various columns against technical degree or diploma equal to degree or post-graduate degree represent the sum total of the figures given in each column against Engineering, medicine etc.

It is clear from Column 2 of the table that the incidence of unemployment is more pronounced in Srinagar district than elsewhere in the State. In all other districts except Jammu, a very small proportion of persons aged 15 and above is unemployed. This will be clear from the following :-

| Name of the district | Percentage of urban unemployed persons to total number of urban unemployed persons in the State |
|---|---|
| Anantnag | 3 |
| Srinagar | 62 |
| Baramulla | 4 |
| Ladakh | ... |
| Doda | 1 |
| Udhampur | 2 |
| Jammu | 23 |
| Kathua | 3 |
| Poonch | 2 |

The subjoined statement shows the proportion per 100 unemployed persons of those seeking employment for the first time and of others who were employed before but are now out of employment and seeking work :-

| State/ District | Total | Seeking employment for the first time | Employed before but now out of employment and seeking work |
|---|---|---|---|
| J&K State | 100 | 72 | 28 |
| Anantnag | 100 | 61 | 39 |
| Srinagar | 100 | 82 | 18 |
| Baramulla | 100 | 71 | 29 |
| Ladakh | — | — | — |
| Doda | 100 | 68 | 32 |
| Udhampur | 100 | 39 | 61 |
| Jammu | 100 | 52 | 48 |
| Kathua | 100 | 36 | 64 |
| Poonch | 100 | 80 | 20 |

The high proportion shown against districts other than Srinagar and Jammu have only statistical value as the actual number of unemployed persons in these districts is very small.

# TABLE B-IX

PERSONS NOT AT WORK CLASSIFIED BY SEX, BROAD AGE-GROUPS AND TYPE OF ACTIVITY

## TABLE B—IX

## PERSONS NOT AT WORK CLASSIFIED BY SEX, BROAD AGE-GROUPS AND TYPE OF ACTIVITY

The table gives the total and sexwise distribution of Non-workers by broad age-groups and the type of activity. The data has been presented separately for the State, its divisions and districts as also for their rural and urban sectors.

As has already been stated in the fly-leaf to Table B-I, Non-workers were divided into 8 categories at the Census of 1961. Following is the detailed description of persons included in each category :-

1. Full time students or children attending school who do no other work such as making of articles at home for sale, nor even help their own family cultivation, industry, trade or business on part time basis.

2. Persons engaged in unpaid home duties (like a house-wife or other adult females) who do no other work, such as making of articles at home for sale or wages, nor help regularly even on part time basis in family cultivation, industry, trade or business.

3. Dependents including infants or children not attending school and persons permanently disabled from work because of illness or old age.

4. Retired persons who were not employed again, rentiers, persons living on agricultural or non-agricultural royalty, rent or dividend as also persons of independent means for securing which they do not have to work nor they do any other work.

5. Beggars, vagrants or independent women without indication of source of income and others of unspecified source of existence.

6. Convicts in jails (other than under trial prisoners who used to work before being apprehended) and inmates of penal, mental or charitable institutions.

7. Persons not employed before but seeking employment for the first time.

8. Persons employed before but now out of employment and seeking employment.

Persons who did not work and could not be readily classified in any of the above categories were included in category 5, viz, beggars, vagrants, etc. Similarly, persons, who were not working at the time of Census but who had been offered work which they had not joined, were classed as dependents and included in category 3.

The subjoined statement gives the distribution of 100 persons not at work by the type of activity separately for the State and for its rural and Urban areas :-

| | Total | Rural | Urban |
|---|---|---|---|
| Total Non-working population | 100 | 100 | 100 |
| 1. Full time students | 12 | 9 | 23 |
| 2. Household duties | 29 | 29 | 32 |
| 3. Dependents infants and disabled | 57 | 60 | 42 |

| | Total | Rural | Urban |
|---|---|---|---|
| 4. Retired, rentier or independent means | 1 | 1 | 2 |
| 5. Beggars, vagrants, etc. | 1 | 1 | N |
| 6. Inmates of penal, mental and charitable institutions | N | N | N |
| 7. Persons seeking employment for the first time | N | N | 1 |
| 8. Persons employed before but now out of employment and seeking work | N | N | N |

Note :- 'N' denotes negligible figure

There is some disparity in the rural figures of students in the age-group 0-14 and literate population in the age-group 5-14 as given in Tables B-IX and C-III Part-C. Table B-IX pertains not only to such persons who are actually literate according to the definition adopted at the Census of 1961, but also infants borne on the roll of Nursery, Kindergarten and First Primary classes who have been treated illiterate and therefore excluded from the figures of Table C-III Part-C.

Another explanation for the disparity is the tendency to inflate the ages of infants who cannot be admitted to schools under the standing orders of the Minitsry of Education of the State Government unless they attain the age of 6 years. Further, in view of the test to which persons claiming to be literate were subjected at the time of Census before being categorised as literate also appears to have reduced the literate population.

Yet another reason accounting for this disparity seems the categorising as illiterate persons, of students borne on the roll of private institutions, called Makhtabs and Pathshalas, where religious scriptures alone are taught and the students are not given any instructions to read and write anything else.

In the case of Urban areas of district Anantnag, the population of female literates exceeds the number of students as shown in Table B-IX. This appears to be due to low economic conditions as a result of which many people withdraw their children from schools after 5th Primary examination and employ them in their traditional occupations so as to augment their family income. An equally important factor is the orthodox view taken by Muslim families about public schools who do not permit their females to receive education at such institutions and instead educate them at their homes by employing tutors.

Some elucidation is also necessary to explain why male Non-workers whose activity is Household duty appear in district Poonch alone and what accounts for their total absence in the other districts. It is a matter of common knowledge that the avenues of employment available in winter to the people of the State inhabiting such of its areas which experience severe cold are very limited. Most of them move down to plains towards the end of autumn and secure employment as manual labourers, wood cutters and the like. Many others, such as the inhabitants of Gurez and Telel, come to Srinagar where they are in great demand for being employed as domestic servants. People inhabiting the remote hilly areas of tehsil Rajouri, district Poonch, who find difficult to travel all the way to

Jammu and other important urban areas, however, engage themselves in domestic duties in the absence of any alternative avenue of employment.

# INTRODUCTION

The data collected at the Census of 1961 is being presented and published in a number of parts each relating to a specific subject. Part II of the report which relates to the main Census Tables has been split into 3 sub-parts, II-A, II-B and II-C. Of these, part IIA, which covers the General Population Tables for the State and Primary Census Abstract, has already been published. The present publication comprises the General Economic Tables (B- Series Tables I to IX) which have been listed below. Part II-C relates to the Cultural and Migration Tables which have been named C and D Series of Census Tables respectively.

The economic tables given in this book reflect the economic characteristics of the population enumerated between 10th February 1961 to 28th February 1961 followed by a revisional round from Ist March 1961 to 5th March 1961. The tables have been constituted from the data collected through the economic questions in the Individual Slip. The text of economic questions and instructions to enumerators as also the form of the census slip are given in Appendix I.

One of the important innovations of the 1961 Census was the introduction of 'Household Schedule' .

The raison d'etre of this Household Schedule was that in India where the bulk of the population lives in rural areas and agriculture is the occupation of 70% of the population and cultivation is conducted by members of a household, with, in many cases, household industry as a compulsive adjunct, the household itself, and not the individual, acts as an integral economic unit of production. This was felt to be particularly valid for those households which produce mainly for self-consumption and additionally for the market. This sector of the economy for various obvious reasons is the most resistant to displacement or transfer of population from what they are engaged in, because the population engaged in such activity finds that all of its effort, however, seasonal, is really wanted, and it is difficult to leave it in preference to any other. On the other hand, it is not easy to bring work from elsewhere to this population to fill its period of unemployment or underemployment. Before one makes facile assumptions about marginal productivity of labour being negative it was thought worthwhile to investigate this sector with the help of such a schedule. A Household Schedule was, therefore, framed for this purpose which provided for area of land cultivated by a household on ownership, or on tenancy basis or on both and household industry, if any, conducted by the household and the number of family workers and hired workers employed in these activities.

Household industry for the purpose of 1961 Census was defined as an industry conducted by the head of the household himself and/or mainly members of the household at home or within the village in rural areas and at home in urban areas. The test for a household industry is mainly three-fold, viz.,

a) Houehold Industry should embrace manufacture processing or servicing and may include sale but should not be confined simply to buying and selling. At least part of the goods offered for sale from the household should be manufactured or processed by members of the household.

b) Household Industry should be on the household scale where the workers mainly will be the Head of the household himself and members of the household,

the role of hired workers from outside being of secondary importance. Thus, in any Hosehold Industry, members of the household should be in a positicn to lend a hand in the industry whenever they find the time in the course of their daily chores. Household Industry cannot, therefore, be on the scale of a registered factory but can use machinery and employ power like steam engine or oil engine or electricity to drive the machinery.

c) Location also is important, for proximity decides participation by members of the household. In a village this participation is possible if the Household Industry is located at home or within the village, because village organisation is such as makes it possible for members of the household to move about freely in the village to look after their work. In urban areas such a free movement is not possible and, therefore, for Household Industry in urban areas we should consider only those industries which are located at home. Where, however, part of the work is done outside the house, e. g., preparing and dyeing the yarn for weaving or winding into warp and woof or cleaning metal surfaces before electroplating in baths, it should still be considered a Household Industry, even in urban areas, as the main operation of weaving or of electroplating is conducted within the house and only one or two operations are conducted outside.

In order to facilitate a correct appraisal of the data given in the economic tables, it seems necessary to reiterate here the definition of a worker as adopted for the Census of 1961. During previous Censuses economic independence, wholly or partly, was made an indispensible condition for the classification of a person as a worker. In 1961, a departure was made from this concept and all those who worked in one or the other family activity were treated as workers even though they did not actually earn any income. The intermediate category of economic semi-dependence was first introduced in 1931 and was then known as working dependents. In 1941, persons of this category were named as partly dependents. There was no Census in the State in 1951 but elsewhere in the country economically semi-dependent persons were categorised as earning dependents.

The following definition of a worker has been adopted for the Census of 1961 :- "The basis of work will be satisfied in the case of seasonal work like cultivation, livestock, dairying, household industry, etc., if the person has had some regular work of more than one hour a day throughout the greater part of the working season. In the case of regular employment in any trade, profession, service, business or commerce, the basis of work will be satisfied if a person was employed during any of the fifteen days preceding the day on which his household was visited for enumeration."

An adult woman who is engaged in household duties but doing no other productive work to augment the family resources has not been treated as a worker. If, however, in addition to her household work, she was engaged in work such as rice pounding for sale or wages or in domestic service for wages for others or minding cattle or selling firewood or making and selling cowdung cakes or grass etc., or any such work she was treated as a worker.

The change introduced in 1961 Census has the advantage of persons working in family economic activities who were heretofore treated either as non - workers or partly dependents, being now classified as workers.

In 1961 Census, workers have been divided into nine industrial categories according to Standard Industrial Classification, each representing one or more groups of previous censuses, as indicated below :-

| | |
|---|---|
| **Category I,** Working as cultivators<br>These include cultivators of land wholly or mainly owned,<br>plus<br>Cultivators of land wholly or mainly un-owned. | Corresponds to groups 2, 3,5,6 and 8 of 1931.<br><br>Groups 2 and 3 of 1921 and 1911. |
| **Category II,** Working as Agricultural labourers,<br>This category consists of cultivating labourers. | Corresponds to group 7 of 1931, groups 4 and 5 of 1921 and group 4 of 1911. |
| **Category III,** Working in Mining and Quarrying etc.<br>Refers to primary industries not elsewhere specified,<br>plus<br>Mining and quarrying. | Corresponds to groups 9-41, 53 and 76 of 1931, groups 6-24, 42 and 74 of 1921 and groups 5-20, 35 and 65 of 1911. |
| **Category IV,** Working at Household Industry. | |
| **Category V,** Working in Manufacturing other than Household Industry.<br>Refers to processing and manufacture-foodstuffs, textiles, leather and products,<br>plus<br>Processing and manufacture-metals, chemical and products,<br>plus<br>Processing and manufacture not elsewhere specified. | Corresponds to groups 42-52, 54-75, 77-84, 87-89, 91-93, 95-99 and 188* of 1931, groups 25-41, 43-73, 75-79, 83-85, 87, 90-92, 94-100 and 184* of 1921, groups 21-34, 36-64, 66-70, 74-76, 80-82, 84, 86-91 and 164* of 1911. |

Commerce

Refers to commerce.

Corresponds to groups 115-126 and 128-152 of 1931, groups 121-129 and 131-154 of 1921 and groups 106-114, 116-136 and 138 of 1911.

**Category VIII,** Working in Transport, Storage and Communication

Refers to transport and communication otherwise unclassified and incidental services,

plus

transport by road owners, managers and employees connected with mechanically driven and other vehicles (excluding domestic services) Palki etc., bearers and owners pack elephant, camel, mule, ass and bullock owners and drivers, porters and messengers, persons engaged in road transport not otherwise classified, including trade transport by road, the operation of fixed facilities for road transport such as toll roads highway bridges, terminal and parking facilities,

plus

transport by water-owners and employees, officers, mariners etc. of ships plying on the high seas, ships and boats plying on inland and coastal waters, persons employed in harbours, docks, rivers and canals, including pilots, ship brokers,

plus

transport by air-persons concerned with airfields and aircrafts other than construction of airfields and airports,

plus

railway transport-railway employees of all kinds except those employed on construction works,

plus

storage and ware-housing operation of storage facilities such as warehouses, cold storages, safe deposits, when such storage is offered as an independent service,

plus

postal services,

plus

telegraph services,

plus

telephone services,

Corresponds to groups 101-104, 107-112 and 114 of 1931 and groups 104-107, 110, 113-118 and 120 of 1921 and groups 94, 95, 97, 99-103 and 105 of 1911.

plus

wireless services.

**Category IX,** Working in other services Refers to health, education and public administration,

plus

services not elsewhere specified,

plus

works and services - electric power and gas supply.

Corresponds to groups 4, 85, 86, 94, 100, 127, 153-184, 186, 187, 189†, 190† and 191* of 1931, groups 80-82, 93, 101-103, 130, 155-179, 181-183, 185†, 186† and 187* of 1921 and groups 71-73, 83, 85,92, 93, 115, 137, 139-160, 162, 163, 165†, 166† and 167* of 1911.

Similarly non-workers include :-

(a) all non-earning dependents,

(b) self-supporting persons with principal occupation as non-cultivating owners of land, agricultural rent receivers and their dependents,

(c) self-supporting persons with non-productive non-agricultural occupations,

(d) earning dependents whose own occupation (secondary means of livelihood) was agricultural rent,

(e) earning dependents whose secondary occupation was non-agricultural non-productive.

The population of each village and enumerator's block of a town was divided into workers and non-workers and workers into the nine broad industrial categories given below :-

(1) As cultivator

(2) As Agricultural labourer

(3) In Mining, Quarrying, etc.

(4) At household industry

(5) In manufacturing other than Household Industry

(6) In construction

(7) In trade and commerce

(8) In transport storage and communication

(9) In other services

The significance of these categories is given below:-

**Category I - As Cultivator.**

For the purpose of 1961 Census, a person was treated as cultivator if he or she was engaged either as employer, single worker or family worker in *(a)* cultivation of land or supervision or direction of cultivation of land owned or held from Government and *(b)* cultivation of land or supervision or direction of cultivation of land held from private persons or institutions for payment in money, kind or share. A person who had given out his land to others for cultivation for money, kind or share of crop and who did not even supervise or direct cultivation of land was not treated as working as cultivator. Similarly, a person who worked in another person's land for wages in cash, kind or share was not also treated as cultivator.

* Distributed proportionately among all the categories I to IX.

† Distributed proportionately among all non-agricultural categories V to IX.

**II. Agricultural Labourer.**

A person who worked as agricultural labourer on the lands of other person or persons for wages in money, kind or share of the produce, was treated as agricultural labourer and included in category II.

**III. In Mining, quarrying, livestock, forestry, fishing, hunting and plantations, orchards and allied activities.**

This category includes workers employed in afforestation or plantation of such other crops as tea etc. or those engaged in fishing, hunting or extraction of stones, lignite, coal, clay as also those employed in the production and rearing of livestock.

**IV. Household Industry.**

A Household Industry was defined as an industry conducted by the head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. An industry which was being run on the scale of a registered factory was not treated as a household industry. One of the indispensible conditions for the classification of an industry as household industry was that it should relate to production, processing, servicing, repairing or making and selling of goods. Professions, such as those of a pleader or doctor, barber or waterman or an astrologer, were not treated as household industries.

**V. Manufacturing.**

This category includes all such workers as were engaged in manufacturing of products outside the scope of household industry. It relates to production, processing, servicing, repairing and manufacturing of beverages, tobacco products, textile products, wooden products, paper products, leather products, chemical products, basic metals, food stuffs, transport equipment etc.

**VI. Construction.**

This category represents workers engaged in all types of constructions, such as *(a)* construction and maintenance of buildings including erection, flooring, decorative constructions, electrical and sanitary installations, *(b)* construction and maintenance of roads, railways, bridges, tunnels, *(c)* construction and maintenance of telegraph and telephone lines and *(d)* construction and maintenance of waterways and water reservoirs, such as bunds, embankments, dams, canals, tanks, tube wells, etc.

**VII. Trade and Commerce.**

This category includes all workers wholly or mainly engaged in retail and wholesale trading of cereals and pulses, vegetables, wines, tobacco, cigarettes, footwear, toilets, medicines, stationery goods, skins, straw and fodder, coal, kerosene, etc. It also covers workers in commercial activities like banking, money lending, stocks and shares, insurance and so on and so forth.

**VIII. Transport, storage and communication.**

Workers in transport, storage and communication have been included in this category. These consist of aircraft pilots, bus drivers, conductors, railway guards, traffic controllers, telephone operators, signallors, wireless operators, postmen, animal-drawn vehicle drivers, etc.

**IX. Other services.**

Other services include workers in:-

*a)* Public services
*b)* Educational and scientific services
*c)* Religious and welfare services
*d)* Legal services
*e)* Business services
*f)* Community services and Trade and

Labour Associations

*g)* Recreation services

*h)* Personal services

*i)* Services ( not elsewhere classified )

*j)* Medical and Health services

*k)* Electricity, Gas, Water and Sanitary services

**Non-Workers**

Such of the persons who do not come under the definition of worker have been treated as non-workers. They include all those not engaged inany productive economic activity even though they may have income from other sources. For the purpose of 1961 Census, non-workers have been divided into the following 8 categories :-

1. Students who attend to no other work.
2. House-wives and adult females who look after households only.
3. Dependents.
4. Retired persons and Rentier, etc.
5. Beggars, vagrants etc.
6. Convicts in jails and inmates of mental and charitable institutions.
7. Persons not employed before but seeking employment for the first time.
8. Persons employed before but now out of employment and seeking employment.

For the information of the reader the correspondence between the nine industrial categories mentioned earlier and the Industrial Classification ( I. S. I. C ) adopted for Table B. IV is given below:-

**Category Industrial Division of I.S.I.C.**

I ) These have not been separately ) coded for industrial classification; as
II ) they formed distinct categories in themselves [ minor groups 000 to 004 and 005 ( partly ) ]

III Industrial Division 0 [ except minor groups 000 to 004 and 005 (partly) ] and 1, if the industry is not a household industry,

IV Industrial division 0 [ except minor groups 000 to 004 and 005 (partly) ], 1 and 2 & 3, if the industry is a household industry.

V Industrial division 2 & 3, if the industry is not a household industry.

VI Industrial division 4

VII Industrial division 6

VIII Industrial division 7

IX Industrial divisions 5, 8 & 9 (excluding minor group 999).

The following general economic tables were tabulated from questions convassed in the Individual slip in the 1961 Census:

| | |
|---|---|
| B I | Workers and Non-Workers classified by sex and broad age-groups. |
| B II | Workers and Non-Workers in cities, town-groups and towns arranged territorially classified by sex and broad age-groups. |

| B VI | Occupational divisions of persons at work other than cultivation classified by sex, broad age-groups and educational levels in *Urban areas only.* |
| B VII—Part A | Persons working principally (i) as cultivators (ii) as agricultural labourers or (iii) at household industry classified by sex and by secondary work (i) at household industry (ii) as cultivator or (iii) as agricultural labourer. |
| B VII—Part B | Industrial classification by sex of persons working in non-household industry, trade, business, profession or service who are also engaged in household industry. |
| B VIII—Part A | Persons unemployed aged 15 and above by sex, broad age-groups and educational levels in *Urban areas only.* |
| B VIII—Part B | Persons unemployed aged 15 and above by sex and educational levels in *Rural areas only.* |
| B IX | Persons not at work classified by sex, broad age-groups and type of activity. |

Each table is preceded by a fly-leaf giving the scope of the table, the definition of the various terms used and, wherever necessary, a brief analysis of the data.

As will be seen from the tables, workers have been classified both according to Indian Standard classification as also by the National Classification of Occupations. The first is in reference to goods produced or services rendered by the worker himself or the establishment with which he is connected irrespective of the actual work he does in the establishment. This classification has been attempted in the case of workers principally engaged in work other than cultivation or agricultural labour. A detailed description of the divisions, major and minor groups under which the workers have been classified for this purpose has been appended to the fly-leaf to Table B-IV Part C.

The Occupational Classification has been presented in Table B—V, the fly-leaf of which is also accompanied by a comprehensive description of the Divisions, Groups and Families under which the workers have been categorised.

It is important to state here that the data given in the Individual Slips by the field staff was not in all cases free from errors or clear enough to facilitate tabulation. Mistakes were also committed during sorting and compilation stages such as wrong codification etc. All these were set right as far as possible. Despite these limitations it is hoped that the data will be found useful by the Planners, Research Scholars and others.

I am grateful to Shri N. A. Malik and Shri S. P. Arora, Tabulation Officers and the staff placed under them for the keen interest they took in the tabulation and compilation work.

I also gratefully acknowledge the help I received from Shri K. D. Ballal, Central Tabulation Officer, who not only scrutinised the figures given in the tables but also subjected these to quality check.

12. Activity, if not working

**Instructions to Enumerators**

Questions 8 to 11—These questions apply only to workers. A person who is working may be working as a Cultivator, as an Agricultural Labourer, at a Household Industry or may be doing any other work. You have to record the answer in questions 8, 9, 10 and 11 according as the person is working as a Cultivator or as an Agricultural Labourer or at Household Industry or doing any other work. He may be engaged in only one of the above four categories or in more than one. Thus a person can be working both as a Cultivator and an Agricultural Labourer, in which case he should be entered both in Q. 8 and Q. 9. Or, he may be working both as a Cultivator and at Household Industry in which case he will be entered in Q. 8 and Q. 10. Or, he may be working in any possible combination of 8, 9, 10 and 11, in which case he will be entered in the appropriate places. Or, he may be doing just one kind of work in which case he will be entered in only one of the four questions 8 to 11.

Detailed instructions as to how the answers should be recorded in the individual questions are given against those questions below. You should carefully study them before recording the answers. For an undertrial prisoner enumerated in a jail he should be recorded for the work or kinds of work he was doing before he was apprehended. Similarly, for a person temporarily in a hospital or similar institution he should be recorded for the kind of work he was doing before he was admitted into hospital or institution. But for a convict in a prison or for long term inmates of penal or charitable or mental institutions, the person's previous work should not be recorded but '1' should be recorded in question 12 below.

The basis of work will be satisfied in the case of seasonal work like cultivation, livestock, dairying, household industry, etc., if the person has had some regular work of more than one hour a day throughout the greater part of the working season. In the case of regular employment in any trade, profession, service, business or commerce, the basis of work will be satisfied if the person was employed during any of the fifteen days preceding the day on which you visited the household. If on the check or revisional round such a person is found to be unemployed, no change in the original entry should be made. A person who is working but was absent from his work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other causes should be treated as worker. A person who has been offered work but has not actually joined should be treated as non-worker. Work

includes not only actual work but effective supervision and direction of work.

Persons under training as apprentices with or without stipend or wages will be regarded as working.

An adult woman who is engaged in household duties but doing no other productive work to augment the family's resources should not be considered as working for purposes of this question. If, however, in addition to her household work she engages herself in work such as rice pounding for sale or wages, or in domestic services for wages for others or minding cattle or selling firewood or making and selling cowdung cakes or grass, etc., or any such work she should be treated as a worker.

Persons like beggars, pensioners, agricultural or non-agricultural royalty, rent or dividend receivers, who may be earning an income but who are not participating in any productive work should not be treated as working unless they also work in cultivation, industry, trade, profession, business or commerce.

A public or social service worker who is actively engaged in public service activity or a political worker who is also actively engaged in furthering the political activity of his party will be regarded as a worker and entered fully in question 11.

After you have filled up the answers to questions 8 to 11, if you find that in the case of any person more than one productive activity has been recorded, i.e., more than one of the questions 8, 9, 10 or 11, has been filled up by some work you should ask him which one of the activities that has been recorded for him is his principal work. The principal work, is the one on which the person spends most time. Put a ring round the number of the question 8, 9, 10 or 11 according to the work on which the person says he spends most time. You should invariably ask for the principal work where more than one work is recorded and put a ring round the question relating to the principal work.

It may be that in a few cases you find that you have recorded more than two productive activities in questions 8 to 11, *i.e.*, more than two of the questions, 8 to 11 would have been filled up by some work. In such cases you should first ascertain the principal work, i,e., the one on which the person spends most time and put a ring round the number of the question. You should then ascertain the work which is the next in importance to his principal work, i.e., the work after his principal work which occupies most time. You should put a tick against the question number of that work on the left hand side of the question number. The ring and the tick should be put clearly so that any difficulty will not be felt to recognise them clearly.

The following classification illustrates as to which answers should be entered under Q. 8 and which others under Q. 11.

Under Q. 8: Cultivation involving ploughing, sowing and harvesting.

1. Production of cereal crops (including Bengal gram), such as rice, wheat, jowar, bajra, maize, roots and tubers like potato, yam, beet, etc., sugarcane, etc.

2. Production of pulses, such as arhar, moong, masur, urd, khesari, other gram.

3. Production of raw jute and kindred fibre crops.

4. Production of raw cotton and kindred fibre crops.

Under Q. 11: Other Field Produce, Plantation Crops.

A. Other Field Produce:

1. Production of other crops including vegetables not covered in Q. 8.

2. Production of fruits and nuts in plantation, vines and orchards (like cocoanut, arecanut, etc.)

3. Production of wood, bamboo, cane reeds, thatching grass, etc.

4. Production of juice by tapping palms.

5. Production of other agricultural produce (including fruits and nuts not covered by sl. No. 2 and flowers) not covered above.

B. Plantation Crops :

1. Production of tea in plantation.

2. Production of coffee in plantation.

3 Production of rubber in plantation.

4. Production of tobacco in plantation. (does not include tobacco which is cultivated in rotation with other cereal crops, in which case it would go under cultivation).

5. Production of ganja, cinchona, opium, poppy, saffron, etc.

6. Production of other plantation crops not covered above.

Q. 8 Working as Cultivator

For a person working as Cultivator write 'C'. For a person not working as Cultivator and for a person not working at all put 'X'.

For purposes of the Census a person is working as Cultivator if he or she is engaged either as employer, single worker or family worker in (a) cultivation of land or supervision or direction of cultivation of land owned or held from Government and (b) cultivation of land or supervision or direction of cultivation of land held from private persons or institutions for payment in money, kind or share.

Cultivation involves ploughing, sowing and harvesting and does not include fruit growing or keeping orchards or groves or working for plantations like tea, coffee, rubber, cinchona and other medicinal plantations. Persons engaged in fruit growing or orchardry or plantations like tea, coffee, rubber, cinchona and other medicinal plantations should be entered in Q. 10 or Q. 11, as the case may be.

A person who has given out his land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, will not be treated as working as Cultivator. Similarly, a person working in another person's land only as a labourer and has no right or lease or contract on land on which he works, nor is responsible for taking decisions as to which crops to sow and when, or taking the risks of cultivation and is paid wages in cash, kind or share, such as share of produce (Agricultural Labourer), will not be treated as Cultivator in this question.

Q. 9 Working as Agricultural Labourer

Write 'AL' for a person working as Agricultural Labourer, i.e., a person who works in another person's land only as a labourer without exercising any supervision or direction in cultivation, for wages in cash, kind or share, such as share of produce. For others put 'X'. The labourer should have no right or lease or contract on land on which he works, nor should he be responsible for taking decisions as to which crops to sow and when, or taking the risks of cultivation. A share of the produce goes to him only as wages. He should have been working as Agricultural Labourer in the last or current cultivating season.

Qs. 10 (a) and 10 (b) Household Industry

If a person is working in a Household Industry, write (i) the nature of work done by him in the Household Industry against question 10 (a) and (ii) the nature of the Household Industry against question 10 (b). Otherwise, put 'X' in

both questions 10 (a) and 10 (b). A Household Industry is defined as an industry conducted by the Head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of a registered factory. Thus the main criterion for a Household Industry is the participation of one or more members of a household in rural areas. In the urban areas the Industry should be confined to the house. You should carefully keep in mind the definition of Household Industry in the rural area if you are enumerating a rural area and the definition in the urban area if you are enumerating an urban area.

A Household Industry should relate to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as pleader or doctor or barber or waterman or astrologer.

A person though he may not be working in his own Household Industry may be working as a paid employee in another Household Industry. You should, therefore, enquire whether the person who is not working in his own Household Industry is working in any other Household Industry and if so, write the nature of the work done by him against question 10 (a) and the nature of the Household Industry against 10 (b).

Q. 10 (c) If Employee in Household Industry

This question will be filled up only for a person who is working as a paid employee in another person's Household Industry. In his or her case write 'EE'. For all others put 'X'.

The following examples will illustrate how questions 10 (a) to 10 (c) should be filled up for persons working at Household Industry :-

Q. 10 Working at Household Industry

| *(a) Nature of Work* | *(b) Nature of Household Industry* | *(c) If Employee* |
|---|---|---|
| 1. Spinning yarn | Spinning yarn on Ambar Charkha | X |
| 2. Dyeing and printing yarn | Handloom weaving | X |
| 3. Threshing and cleaning grain | Flour making chakki | X |
| 4. Labourer employed for crushing oil | Oil ghani | EE |
| 5. Tempering and polishing implements | Blacksmithy making agricultural implements | X |
| 6. Labourer employed for making and firing kiln | Earthenware pottery | EE |
| 7. Throwing and Turning pottery | Earthenware pottery | X |
| 8. Making wooden doors and windows | Carpentry | X |
| 9. Filling gold ornaments with lac | Goldsmithy | X |

| | | | |
|---|---|---|---|
| 10. | Labourer working on hosiery machine | Hosiery | EE |
| 11. | Keeping accounts | Hosiery | X |
| 12. | Polishing and Scraping metal | Electroplating | X |
| 13. | Labourer employed for putting iron hoop on cartwheels | Cartwheelwright | EE |
| 14. | Repairing of guns | Gunsmithy | X |
| 15. | Bee keeping | Production of honey | X |
| 16. | Tending cattle | Livestock raising | X |

Q. 11. Doing Work other than 8, 9 or 10

If a worker is not working as a Cultivator or as an Agricultural Labourer or at any Household Industry, write the actual work he is doing. If a person is working as a Cultivator or as an Agricultural Labourer or at Household Industry and also does some other work (including dairying or livestock raising, orchard or plantation, etc., as distinct from cultivation of crops) which does not relate to any of the above categories, write the other work he does in this question. If he is engaged in more than one work and neither of them relates to any of the three categories mentioned above, write here the work on which he devotes more time.

Q. 11 (a) Nature of Work

In the case of persons not working or who work only as Cultivator or as Agricultural Labourer or at Household Industry, put 'X'.

Describe fully the nature of the work done by the person himself. Full and precise information as to the nature of work done by the person should be given either in the vernacular or in English or in vernacular transliteration of English. At previous censuses much trouble has been caused by inadequate answers, and if you do not succeed in obtaining satisfactory information on the individual slips, you will be required to make a further visit for that purpose.

Q. 11 (b) Nature of Industry, Profession, Trade and Service

In the case of a person who is working and the nature of whose own work has been recorded in Question 11 (a), you should write here the nature of industry, profession, trade or service in which the person works.

As in the case of Question 11 (a), you should describe in detail the nature of industry, business, trade, profession or service in which the person works. Vague answers should be avoided. In the case of industries, the articles which are produced or serviced or repaired should be given. If more than one article is produced, the chief article produced or serviced or repaired should be given. In the case of business or trade, the principal article of trade should be described. In the case of service, describe the nature of the service to which the person's work belongs. The description should be such that it would be possible to classify the establishment in which the person is working for purposes of industrial classification of the population. The description should be either in the vernacular or in English or in vernacular transliteration of English.

In the case of a person for whom 'X' is put in question 11 (a), put 'X' in this question also.

Important points to remember in questions 11 (a) and 11 (b).

1. Women or children who help

with work, such as rice pounding or doing domestic service for wages or minding cattle or selling firewood or making and selling cowdung cakes, grass, etc., should be described fully even if they work part-time. In the case of married or grown-up women who do any of the work mentioned above in addition to the usual household duties, such work should be fully described and 'HW' written in brackets after the full description.

2. If a person makes the articles he sells, he should be entered as maker and seller of them.

3. Wherever convenient, for complete description, the work should be expressed by the vernacular name by which it is known.

4. The following are too vague and must not be used by themselves:

Scientist, technician, civil servant, clerk, engineer, inspector, checker, foreman, overseer, supervisor, labourer, machinist, assistant, contractor, polisher.

5. Labourers—For an unskilled labourer usually employed on one sort of work alone, give also the sort of work done, e. g., railway porter, market or bazar porter, labourer employed on road digging, bricklayer's labourer. If accustomed to work on various jobs, write general labourer.

6. Machine Operators—Always state the kind of machine giving its recognised name, if any.

7. Shop-keepers, Retail Dealers, Shop Assistants—If wholly or mainly engaged in selling, write, 'Dealer' (if principal) or, 'Shop Assistant' or Salesman (if assisting) and state whether the business is wholesale or retail or both. For Shop Assistants and Salesmen in stores with several departments, state the particular department in which engaged (e. g., Ship and Railway Parts, Fans and Sewing Machines, Grocers and Confectioners).

8. Transport Workers—Describe fully the nature of the transport, e. g., air transport, rail transport, transport by motor car or motor cycle, or vehicles drawn by horse, etc.

9. Services—For a person engaged in the Defence Services, write 'Service of Central Government.'

10. If the job is known in the trade or industry by a special name, use that name. Manager, Foreman, etc., should be given the department/branch wherever applicable, e. g,, 'Sales Manager' or a 'Manager' of Hardware Department, 'Machine Shop Foreman' or 'Boiler Room Foreman', etc. The following terms are insufficient by themselves:

Manufacturer, merchant, agent, broker, refractor, dealer, engineer and iron works, etc.

11. Domestic Services—In the case of any private servant, e, g., a cook or domestic servant, write only 'Private cook or domestic servant.' There is no industry in his case but in the case of persons employed in hostels, restaurants, boarding houses, institutions, etc., the words hostel, restaurant, etc., should be added.

For persons in the employ of firms carrying on two or more businesses, if the businesses are carried on in separate premises, then the business carried on at the premises in which the person is employed should be given. If the businesses are carried on in the same premises but each has a separate organisation (i. e., they have separate records of employment, production, etc.), then the appropriate business should be quoted. If, however, the two activities are carried on side by side, then the major activity of the firm or establishment should be given.

12. Commerce—Special care should be taken to see that the distinction between retail and wholesale business is clear. As in industries, the goods handled should

be clearly indicated.

Q. 11 (c) Class of Worker

For a person who is :

1. an Employer, that is, who hires one or more persons in his work described in Q. 11 (a).....write MR

2. a nemployee, that is, who does his work described in Q. 11 (a) under others for wages or salary in cash or kind.....write EE

3. a Single Worker, that is, who is doing his work described in Q. 11 (a) without employing others, except casually and without the help of other members of the family except casually. This will include workers working as members of co-operative.....write SW

4. a Family Worker, that is, who is doing his work described in Q. 11 (a) in own family without wages or salary in cash or kind.....write FW

For a person for whom 'X' is put in Qs. 11 (a) and 11 (b), put 'X' in this question also.

Explanation :—

(i) An Employer is a person who has to employ other persons in order to perform the work entered in Q. 11 (a). That is to say, such a person is not only responsible for his own personal work but also for giving work to others in the business mentioned in Q. 11 (a). But a person who employs domestic servants for household duties or has subordinates under him in an office where he is employed by others, is not an employer, even if he has the power to employ another person in his office on behalf of his own employer or employers.

(ii) An Employee is a person who usually works under some other person for salary or wages in cash or kind. There may be persons who are employed as managers, superintendents, agents, etc., and in that capacity employ or control other workers on behalf of their own employers. Such persons are only employees, as explained above, and should not be regarded as employers.

(iii) A Single Worker for the purpose of Q. 11 (c) is a person who works by himself. He is not employed by any one else and in his turn does not employ anybody else, not even members of his household except casually. This definition of a Single Worker will include a person who works in joint partnership with one or several persons hiring no employees, and also a member of producer's co-operative. Each one of the partners or members of such producer's co-operatives should be recorded as 'Single Worker'.

(iv) A Family Worker is a member who works, without receiving wages in cash or kind, in an industry, business or trade conducted mainly by members of the family and ordinarily does at least one hour of work everyday during the working season. For the purpose of the entire Q.11, such an industry should be on a scale larger than what has been covered in 'Household Industry' in Q. 10 whether run at home or away from home in town or village and even away from village in rural area and should ordinarily be in the nature of a recognised partnership, joint stock company or registered factory. For the purpose of this definition members of a family may be drawn from beyond the limits of the household by ties of blood or marriage. The family worker may not be entitled to a share of the profits in the work of the business carried on either by the person or head of the household or other relative.

Members of the household who help solely in household duties should not be treated as family workers.

Q. 11 (d) Name of Establishment.

Describe in detail the name of the factory, workshop, business house, com-

pany, shop, etc. If a person has no fixed place of work, write 'No fixed place of work.'
