Preface

The General Economic Tables of 1961 Census are spread over in five different parts. The present volume deals with only five tables based on the data compiled from "Individual Slips". These tables are : (1) Table B-VII Part A dealing with Persons whose principal work is (i) Cultivation (ii) Agricultural Labour or (iii) Household Industry and who are also engaged in some secondary work. This table is followed by an Appendix which deals with figures omitted from the main table. The second Table B-VII Part B deals with persons working in non-Household Industry, Trade, Business, Profession or Service and who are also engaged in Household Industry. The third Table B-VIII Part A deals with unemployed persons aged 15 and above in urban areas. The fourth Table B-VIII Part B deals with unemployed persons aged 15 years and above in rural areas and the last Table B-IX deals with the non-workers.

To Shri G. Jagathpathi I. A. S. Joint Secretary, Ministry of Home Affairs, Government of India, New Delhi, then Supdt.of Census Operations,we in Madhya Pradesh owe a special debt of gratitude, for it was during his tenure that the entire work excepting the printing was completed. He guided our efforts at every stage with a rare thoroughness and an infectious enthusiasm which inspired us in the task of compilation.

I also wish to place on record my deep sense of appreciation of the painstaking work undertaken at various stages of tabulation, scrutiny, drafting and printing by Shri Daya Ram Gupta, Chief Technical Assistant, a veteran of five Censuses and Shri K. B. Srivastava, Statistical Assistant. The brunt of proof reading fell mainly on Sarva Shri A. G. Oak, Proof Reader, R. C. Pathak, T. M. Zilpe and R. N. Bhagwat all Compiler Checkers. The job of printing was executed under the watchful eyes of Shri U. K. Trivedi, Dy. Supdt. of Census Operations at Indore and to him our thanks for the great pains that he took to see the printing through.

I am further deeply indebted to Shri K. D. Ballal, I. A. S., Central Tabulation Officer and his staff who scrutinised our tables with great thoroughness and were so co-operative and helpful in guiding us. Lastly we are thankful to the management of M/s Indore Printery, Indore for the care and competence with which they executed the job.

Instructions to Enumerators for filling in Individual Slips

3 The instructions issued to the Enumerators for filling in the answers to each of the above questions are reproduced below *ad seriatum* :—

(1) *Question 2-Age in completed years, last birthday*—Write age in years completed last birthday. For infants below one year of age, write ' O '. You will find many persons who cannot state their age correctly. You should assist them to state the correct age. If you are not able to elicit correct age directly, you should stimulate their memory by referring to historical incidents or religious events etc. You may use any local calender of such events that may have been prepared for the purpose.

(2) *Question 6—Literacy and Education*—

I Illiterate or Literate

For a person

1 Who can neither read nor write or can merely read but cannot write in any language .	write	O
2 Who can both read and write	write	L

The test for reading is ability to read any simple letter either in print or in manuscript i.e., if the person can read one of the examples in the Enumerator's Handbook with felicity he may be taken to have passed the test for reading. The test for writing is ability to write a simple letter. The test for literacy is satisfied if the person can with understanding both read and write.

II Standard of Education

If the person can both read and write and has also passed a written examination or examinations as proof of an educational standard attained, write the highest examination passed instead of L.

(3) *Questions 8 to 11—Working*—These questions apply only to workers. A person who is working may be working as a Cultivator, as an Agricultural Labourer, at a Household Industry or may be doing any other work. You have to record the answer in questions 8, 9, 10 or 11 according as the person is working as a Cultivator or as an Agricultural Labourer or at Household Industry or doing any other work. He may be engaged in only one of the above four categories or in more than one. Thus a person can be working both as a Cultivator and an Agricutural Labourer, in which case he should be entered both in Q. 8 and Q.9. Or, he may be working both as Cultivator and at Household Industry in which case he will be entered in Q.8 and Q.10. Or, he may be working in any possible combination of 8,9,10 and 11, in which case he will be entered in the appropriate places. Or, he may be doing just one kind of work in which case he will be entered in only one of the four Questions 8 to 11.

In the case of the person whose work has been entered against more than one question it will be ascertained which of his works is principal one and which is secondary. The principal work will be indicated by encircling the question number pertaining to it and secondary by placing a tick mark against the question numbers of the secondary work. Principal work for this purpose will be on which the person devotes more time than on any other and the secondary work will be the work on which time spent is less than that on the principal work but more than that on other works, if any.

Detailed instructions as to how the answers should be recorded in the individual questions are given against those questions below. You should carefully study them before recording the answers. For an undertrial prisoner enumerated in a jail he should be recorded for the work or kinds of work he was doing before he was apprehended. Similarly, for a person temporarily in a hospital or similar institution he should be recorded for the kind of work he was doing before he was admitted into hospital or institution. But for a convict in a prison or for long term inmates of penal or charitable or mental institutions, the person's previous work should not be recorded but 'I' should be recorded in Q.12 below.

The basis of work will be satisfied in the case of seasonal work like cultivation, livestock, dairying, household industry etc., if the person has had some regular work of more than one hour a day throughout the greater part of the working season. In the case of regular employment in any trade, profession, service, business or commerce the basis of work will be satisfied if the person was employed during any of the fifteen days preceding the day on which you visited the household. If on the check or revisional round such a person is found to be unemployed no change in the original entry should be made. A person who is working but was absent from his work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other causes should be treated as *worker*. A person who has been offered work but has not actually joined should be treated as *non-worker*. *Work includes not only actual work but effective supervision and direction of work.*

Persons under training as apprentices with or without stipend or wages will be regarded as working.

An adult woman who is engaged in household duties but doing no other productive work to augment the family's resources should not be considered as working for purposes of this question. If, however, in addition to her household work she engages herself in work such as rice pounding for sale or wages, or in domestic services for wages for others or minding cattle or selling firewood or making and selling cowdung cakes or grass etc., or any such work she should be treated as a worker.

Persons like beggars, pensioners, agricultural or non-agricultural royalty, rent or dividend receivers, who may be earning an income but who are not participating in any productive work should not be treated as working unless they also work in cultivation, industry, trade, profession, business or commerce.

A public or social service worker who is actively engaged in public service activity or a political worker who is also actively engaged in furthering the political activity of his party will be regarded as a worker and entered fully in Q. 11.

In the list given below classification has been made as to which of the crops will come under question 8 and which will come under question 10 or 11 :—

Question 8—Cultivation which includes ploughing, sowing and harvesting of the following crops—

(1) Production of cereal crops (including bengal gram) such as rice, wheat, jowar, bajra, maize, roots and tubers like potato, yam, beet etc., sugar-cane etc.

(2) Production of pulses such as arhar, moong, masur, urd, khesari, other grams, etc.

(3) Production of raw jute and kindred fibre crops

(4) Production of raw cotton and kindred fibre crops

Question 10 or *11*—Other field produce and plantation crops —

(a) Other field produce —

(1) Production of other crops (not included in Q. 8) including vegetables,

(2) Production of fruits and nuts in plantations and orchards like cocoanut, arecanut, etc.,

(3) Production of wood, bamboo, cane, reeds, thatching grass etc.,

(4) Production of juice by tapping palms,

(5) Production of other agricultural produce including flowers and fruits not covered above.

(b) Plantation Crops—

(1) Tea and coffee plantations,

(2) Rubber plantations,

(3) Tobacco plantations (this will not cover the production of tobacco alongwith the cereal crops according to crop rotation ; in that case it will go in cultivation),

(4) Production of Ganja, Bhang, Opium, Cinchona, Poppy, Saffron etc.,

(5) Other plantation crops not included above.

(4) *Question 8—Working as Cultivator*—For a person working as cultivator write C. For a person not working as cultivator and for a person not working at all put X.

For purposes of the Census a person is working as cultivator if he or she is engaged either as employer, single worker or family worker in (a) cultivation of land or supervision or direction of cultivation of land owned or held from Government and (b) cultivation of land or supervision or direction of cultivation of land held from private persons or institutions for payment in money, kind or share.

Cultivation includes ploughing, sowing and harvesting but does not include production of fruits and nuts in plantations and orchards like cocoanut, arecanut etc. and these may be recorded under questions 10 or 11 as the case may be.

A person who has given out his land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivaton of land, will not be treated as working as Cultivator. Similarly, a person working in another person's land for wages in cash, kind or share such as share of the produce (agricultural labourer) will not be treated as Cultivator in this question.

(5) *Question 9—Working as Agricultural Labourer.*—Write AL for a person working as Agricultural Labourer *i.e.*, a person who works in another person's land for wages in money, kind or share such as share of produce. For others put X. The labourer should have no right or lease or contract on land on which he works. He should have been working as Agricultural Labourer in the last or current cultivating season.

(6) *Questions 10 (a) and 10 (b)—Household Industry*—If a person is working in a Household Industry write (1) the nature of work done by him in the Household Industry against Question 10 (*a*) and (2) the nature of the Household Industry against Question 10 (*b*). Otherwise put X in both questions 10 (*a*) and 10 (*b*). A Household Industry is defined as an industry conducted by the head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of a registered factory. Thus the main criterion for a Household Industry is the participation of one or more members of a household in rural areas. In the urban areas the industry should be confined to the house. You should carefully keep in mind the definition of Household Industry in the rural area if you are enumerating a rural area and the definition in the urban area if you are enumerating an urban area.

A Household Industry should relate to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as pleader or doctor or barber or waterman or astrologer.

A person though he may not be working in his own Household Industry may be working as a paid employee in another Household Industry. You should, therefore, enquire whether the person who is not working in his own Houshold Industry is working in any other Household Industry and if so, write the nature of the work done by him against question 10 (*a*) and the nature of the Household Industry against 10 (*b*).

(7) *Question* 10 (*c*)—*If Employee in Household Industry*—This question will be filled up only for a person who is working as a paid employee in another person's Household Industry. In his or her case write E. E. For all others put X.

The following examples will illustrate how questions 10(*a*) to 10(*c*) should be filled up for persons working at Household Industry :

(8) *Question* 11—*Doing work other than* 8, 9, *or* 10—If a worker is not working as a cultivator or as an agricultural labourer or at any Household Industry write the actual work he is doing. If a person is working as a cultivator or as an agricultural labourer or at Household Industry and also does some other work (including dairying or livestock raising, orchard or plantation etc., as distinct from cultivation of crops) which does not relate to any of the above categories, write the other work he does in this question. If he is engaged in more than one work and neither of them relates to any of the three categories mentioned above write here the work on which he devotes more time.

(9) *Question* 11 (*a*)—*Nature of work*—In the case of persons not working or who work *only* as cultivator or as agricultural labourer or at Household Industry, put X.

Describe fully the nature of the work done by the person himself. Full and precise information as to the nature of work done by the person should be given either in the vernacular or in English or in vernacular transliteration of English. At previous Censuses much trouble has been caused by inadequate answers, and if you do not succeed in obtaining satisfactory information on the individual slips, you will be required to make a further visit for that purpose.

(10) *Question* 11 (*b*)—*Industry, Business, Trade, Profession or Service*—In the case of a person who is working and the nature of whose own work has been recorded in Question 11 (*a*), you should write here the nature of industry, business, trade, profession or service in which the person works.

As in the case of Question 11 (*a*), you should describe in detail the nature of industry, business, trade, profession or service in which the person works. Vague answers should be avoided. In the case of industries, the articles which are produced or serviced or repaired, should be given. If more than one article is produced the chief article produced or serviced or repaired should be given. In the case of business or trade the principal article of trade should be described. In the case of service describe the nature of the service to which the person's work belongs. The description should be such that it would be possible to classify the establishment in which the person is working for purposes of industrial classification of the population. The description should be either in vernacular or in English or in vernacular transliteration of English.

In the case of a person for whom an X is put in Question 11 (*a*), put an X in this question also.

Important points to remember in Questions 11(*a*) *and* 11(*b*)

1 Women or children who help with work, such as rice pounding or doing domestic service for wages or minding cattle or selling firewood or making and selling cowdung cakes, grass, etc. should be described fully, even if they work part-time. *In the case of married or grown-up women who do any of the work mentioned above in addition to the usual household duties such work should be fully described and HW written in brackets after the full description.*

2 If a person makes the articles he sells, he should be entered as maker and seller of them.

3 Wherever convenient, for complete description, the work should be expressed by the vernacular name by which it is known.

4 The following are too vague and must not be used by themselves :

> Scientist, technician, civil servant, clerk, engineer, inspector, checker, foreman, overseer, supervisor, labourer, machinist, assistant, contractor, polisher.

5 *Labourers*—For an unskilled labourer usually employed on one sort of work alone, give also the sort of work done, *e.g.*, railway porter, market or bazar porter, labourer employed on road digging, bricklayer's labourer. If accustomed to work on various jobs, write general labourer.

6 *Machine Operators*—Always state the kind of machine giving its recognised name, if any.

7 *Shop-keepers, retail dealers, shop assistants*—If wholly or mainly engaged in selling, write, 'Dealer' (if principal) or Shop assistant or Salesman (if assisting) and state whether the business is wholesale or retail or both. For shop assistants and salesmen in stores with several departments, state the particular department in which engaged (*e.g.*, Ship and Railway ports, Fans and Sewing machines, Grocers and Confectioners).

8 *Transport workers*—Describe fully the nature of the transport, *e.g.*, air transport, rail transport, transport by motor car or motorcycle, or vehicles drawn by horse, etc.

9 *Services*—For a person engaged in Defence Services write ' Service of Central Government'.

10 If the job is known in the trade or industry by a special name, use that name. Managers, Foreman, etc., should be given the department/branch wherever applicable *e.g.*, Sales Manager or a Manager of Hardware Department, Machine Shop Foreman or Boiler Room Foreman, etc. The following terms are insufficient by themselves :—

Manufacturer, merchant, agent, broker, refractor, dealer, engineer and iron works, etc.

11 *Domestic services*—In the case of any private servant *e.g.*, a cook or domestic servant, write only 'private cook or domestic servant'. There is no industry in his case but in the case of persons employed in hostels, restaurants, boarding houses, institutions, etc., the words hotel, restaurant, etc., should be added.

For persons in the employ of firms carrying on two or more businesses, if the businesses are carried on in separate premises then the business carried on at the premises in which the person is employed should be given. If the businesses are carried on in the same premises but each has a separate organisation (*i.e.*, they have separate records of employment, production, etc.) then the appropriate business should be quoted. If, however, the two activities are carried on side by side then the major activity of the firm or establishment should be given.

12 *Commerce*—Special care should be taken to see that the distinction between retail and wholesale business is clear. As in industries, the goods handled should be clearly indicated.

(11) *Question* 11 (*c*) *Class of Worker*—For a person who is :

1 an *Employer*, that is, who hires one or more persons in his work described in Q. 11 (*a*)	write	MR
2 an *Emloyee*, that is, who does his work described in Q. 11 (*a*) under others for wages or salary in cash or kind	write	EE

3 a *Single Worker*, that is, who is doing his work described in Q. 11 (*a*) without employing others, except casually and without the help of other members of the family except casually. This will include workers working as members of co-operatives .	write	SW
4 a *Family Worker*, that is, who is doing his work described in Q. 11 (*a*) in his own family without wages or salary in cash or kind .	write	FW

For a person for whom an X is put in Qs. (11) (*a*) and 11 (*b*) put an X in this question also.

Explanation :—

(i) An *Employer* is a person who has to employ other persons in order to perform the work entered in Q. 11 (*a*). That is to say, such a person is not only responsible for his own personal work but also for giving work to others in the business mentioned in Q. 11 (*a*). But a person who employs domestic servants for household duties or has subordinates under him in an office where he is employed by others, is not an employer, even if he has the power to employ other persons in his office on behalf of his own employer or employers.

(ii) An *Employee* is a person who usually works under some other person for salary or wages in cash or kind. There may be persons who are employed as managers, superintendents, agents, etc.,and in that capacity employ or control other workers on behalf of their own employers. Such persons are only employees, as explained above, and should not be regarded as employers.

(iii) A *Single Worker* for the purpose of Q. 11(*c*) is a person who works by himself. He is not employed by any one else and in his turn does not employ anybody else not even members of his household except casually. This definition of a *Single Worker* will include a person who works in joint partnership with one or several persons hiring no employees, and also a member of a producer's co-operative. Each one of the partners or members of such producer's co-operative should be recorded as ' Single Worker'.

(iv) A *Family Worker* is a member who works, without receiving wages in cash or kind, in an industry, business or trade conducted mainly by members of the family and ordinarily does at least one hour of work every day during the working season. For the purpose of the entire Q. 11 such an industry should be on a scale larger than what has been covered in 'Household Industry', in Q. 10 whether run at home or away from home in town or village and even away from village in rural area and should ordinarily be in the nature of a recognised partnership, joint stock company or registered factory. For the purpose of this definition members of a family may be drawn from beyond the limits of the household by ties of blood or marriage. The family worker may not be entitled to a share of the profits in the work of the business carried on either by the person or head of the household or other relative.

Members of the household who help solely in household duties should not be treated as family workers.

(12) *Question* 11 (*d*)—*Name of Establishment*—Describe in detail the name of the factory, workshop, business house, company, shop, etc. If a person has no fixed place of work, write ' No fixed place of work'.

For a person for whom an X is put in Qs. 11(*a*), 11(*b*) and 11(*c*) put an X in this question also.

The following examples will illustrate how Qs. 11(a) to 11(d) should be filled up for persons doing work other than 8, 9 or 10.

(13) *Question 12—Activity, if Not Working*—This question will apply to a person NOT working.

Write X in this question for a person who is working, that is, for whom you have recorded the work in any of the questions 8 to 11 above :

The following activities should be recorded in the case of persons NOT working :

1 For full-time student or child attending school who does no other work, such as make articles at home for sale, nor even help part-time in his own family cultivation, industry, trade or business ....write ST.

2 For a person engaged in unpaid home duties (like housewife or other adult female) who does no other work, such as make articles at home for sale or wages, nor help regularly even part-time in family cultivation, industry, trade or business . write HW.

3 For any dependent, including an infant or child not attending school, a person permanently disabled from work because of illness or old age . . . write D.

4 For a retired person who is not employed again, rentier, person living on agricultural or non-agricultural royalty, rent or dividend or any other person of independent means for securing which he does not have to work and who does no other work.... write R.

5 For a beggar, vagrant or independent woman without indication of source of income and others of unspecified source of existence . . . . . write B.

Explanation—If a person, who does not work, cannot be readily classified in any of the above categories, put him in category 5 and write B in this question. A retired person who has taken up regular work again should not be entered in this question as he would have been entered for his new work in Questions 8 to 11.

A person who is not working but has been offered work which he has not joined should be included in item 3 and 'D' should be written. He should not be included in items 7 or 8.

(14) *Question* 13—*Sex*—Write 'M' for males and 'F' for females.

For eunuchs and hermaphrodites, write 'M'.

Instructions to Enumerators for filling in Household Schedules

4 As has been indicated earlier the Household Economic Tables B-X to B-XVII included in Part III of the Census Volume are solely based on the information collected on the Household Schedules. The details of the questions in the Household Schedules are given in item 2 of para 2 above. The questions related to the land under cultivation by the household and its tenure status ; the household industry and the number of workers at cultivation and/or household industry.Like the instructions for filling in the individual slips reproduced in sub-paras (1) to (14) of para 3 above detailed instructions were issued to the Enumerators for recording answers to the questions in the Household Schedule. These instructions were as follows :—

(1) *Sub-part 'A'—Cultivation*—

(i) Sub-Part 'A' relating to cultivation will have to be filled in only where the household possesses land and that land is either cultivated by household or has been given to private persons for cultivation. Land for this purpose means land normally used for cultivation purposes including current fallows. Details of the crops which are included in the definition of cultivation and which are not so included has been given in the instructions relating to question 8 to 11 of the individual slip and are applicable in respect of the entry in the Household Schedule.

(ii) *Land under cultivation by household*—In Sub-Part A three categories of land are given in items 1(i), 1(ii) and 2. Items 1(i) and 1(ii)relate to the land actually cultivated by the household. Item 2 relates to land which is not cultivated by the household but has been given by it to private persons for cultivation for payment in money, kind or share. In each of the three case the total of separate plots or parcels of land in different places owned or held,or taken or given should be made and entered. A number of lines has been provided for this purpose in1(i)and 1(ii) to account for separate plots or parcels of land held or owned or taken under different recognised local rights. If the household (a) cultivates land owned or held from Government or taken from private persons or institutions or (b) has given land to private persons for cultivation purposes you should ascertain the local name of the right on such land and record in the column relating to 'local name of right on land'. Category 1(i) land owned or held from Government, will include the total of all pieces of land owned or held in owner-like possession, e.g., land held directly from Government under a grant, lease or assignment, (i) with rights of permanent, heritable and transferable possession, (ii) with rights of permanent and heritable possession, but without the right of transfer and (iii) temporary or conditional leases of any kind with the Government. Category 1 (ii) land taken from private persons or institutions for payment in money, kind or share, will include land (i) with rights of permanent, heritable and transferable possession, (ii) with rights of permanent and heritable possession but without right of transfer; (iii) held in a variety of tenancies or tenures which may be broadly classified as follows:—

(a) tenants holding land with permanent and heritable rights whose land cannot be resumed by the owner on grounds of personal cultivation (such tenants may in some cases have the right of transfer also);

(b) tenants who have been given permanent rights subject to the right of resumption by the owner (in some cases the tenant has the right to acquire ownership of the non-resumable area. In other cases he does not possess the right);

(c) tenants holding land in areas where interim measures have been enacted for stay of ejectment or for continuing the leases for a specified period ;

(d) tenants holding land on temporary leases who are liable to ejectment;

(e) areas held on condition of rendering service either to a village community or to Government (this also includes cases where labourers on plantations are given some land for cultivation with permanent rights); and

(f) the following—

(1) land taken for a fixed amount of money.

(2) land taken for a fixed amont of produce,

(3) land taken for a share of the produce,

(4) land for which money is paid partly in one and partly in any other form mentioned above, and

(5) land held free of consideration.

(iii) *Land given to others for cultivation*—Category 2-Land given to private persons for cultivation for payment in money, kind or share will include the classifications mentioned in Category 1(ii). There may be cases in which the household holds land but no part of the land is cultivated by the household itself but has given all such land to others for cultivation. In this case X will be put against items 1(i) and 1(ii) and the details of the land will be entered against item 2.

(iv) *Land situated in other places*—Categories 1(i) and 1(ii) will include only those plots or parcels of land which are cultivated by the household itself, that is, lands which lie within the village, or in adjacent villages, or within such a distance as enables the household to work on the land or actively supervise the cultivation. They will not include land owned or held in distant places where distance itself is a bar to active cultivation, constant supervision or direction. If a person says that the land lying at distant places be included in the land cultivated by the household then he should be told that such land can only be so included if supervision and direction of cultivation on such land is exercised by him. If he says that he himself supervises and directs the cultivation of such land and insists its inclusion in the land cultivated by the household, then such land be included. But Category 2 will include land in any part of the country whatsoever.

(v) *Recording of land area in acres only*—You should ascertain the extent of land in each category of ocal right in acres and record in the column relating to 'Area in acres'. You should write the total of separate plots or parcels of land under the same right if they are situated in different places. If it is not possible toascertain the extent of land in acres you should, if possible make a conversion from the local measure given to you. For this purpose you should ascertain before hand the ratio between the local measure current in your Block and the acre and should convert the local measure into acres according to that formula. Supposing that the area is reported to you in Bighas and the local bigha in that place is of 2,500 Sq. yards then you will convert the area given to you in acres by multiplying it by 2.500 and dividing by 4.840. If for any reason it is not possible to convert the local measure into acres write the area in local measure giving invariably the name of the measure adopted. The area will be recorded not only in whole acres but where necessary it will be given in decimals also. If the area is under 1 acre, it will be given in decimals and in other cases upto two decimal points. If the land in Category 1(i), and 1(ii) is of different recognized local rights then besides giving area of each right seperately total of land of all rights will be given against item 1(iii). Similar total will also be given for the land in Category 2 if it happens to be of different local rights.

(vi) *Households not having land*—This sub-part will not apply to households which do not possess any land. Thus, it will not apply to households which consist of only agricultural labourers without any land. In such cases put an X in all the spaces provided in the right hand side and put a bold cross on this sub-part.

(vii) *Rent free land and land of co-operative farms*—Land under any of the items in sub-part 'A' includes rent-free land, lands enjoyed in permissive possession or gifts without encumbrance or consideration. A household which is a member of a co-operative farm will record only that amount of land in the co-operative farm which had belonged to it before and under right enter 'co-operative farm'. Labour hired by such a 'co-operative farm' should *not* be entered for this house hold.

(2) *Sub-Part 'B'—Household Industry*

(i) *Definition of Household Industry*—Sub-part 'B' relates to Household Industry. This part will be filled up only where there is a Household Industry conducted by the head of the household himself and/or mainly by members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be on the scale of a registered factory. The participation of the head of the household and/or members of the household is an essential feature of the Household Industry. In a rural area the household industry can be located either at home or within the village. But in an urban area the household industry or at least the major part of its work must be located only at home. A household industry should relate to production, processing, servicing or repairing and includes makers and sellers of goods.

The test for a household industry is mainly three fold :

(a) Household Industry should embrace manufacture, processing or servicing and may include sale but should not be confined simply to buying and selling. At least part of the goods offered for sale from the household should be manufactured or processed by members of the household.

(b) Household Industry should be on the household scale where the workers mainly will be the Head of the household himself and members of the household, the role of the hired workers from outside being of secondary importance. Thus, in any household industry members of the household should be in a position to lend a hand in the industry wherever they find the time in the course of their daily chores. Household Industry cannot, therefore, be on the scale of a registered factory but can use machinery and employ power like steam engine or oil engine or electricity to drive the machinery.

(c) Location also is important, for proximity decides participation by members of the household. In a village this participation is possible if the household industry is located at home or within the village, because village organisation is such as makes it possible for members of the household to move about freely in the village to look after their work. In urban areas such a free movement is not possible and, therefore, for household industry in urban areas we should consider only those industries which are located at home. Where, however, part of the work is done outside the house, *e.g.*, preparing and dyeing the yarn for weaving or winding into warp and wool or cleaning metal surfaces before electroplating in baths, it should still be considered a household industry, even in urban areas, as the main operation of weaving or of electroplating is conducted within the house and only one or two operations are conducted outside.

The following activities should also be regarded as illustrative of household industry. Bidi-makers who either alone or with help of members of the family roll bidis at home, for wages at piece rates, while the contractor supplies the materials. Certain processes like buttoning and hand sewing of tailored cloths, dyeing and printing of cloth are carried out at home by members of household both at residence and at 'place of work' or where women folk of the household fill in at home with lac gold ornaments prepared at the shop by male members of the household.

(ii) *Recording complete description of Household Industry*—Care should be taken to write full description of the household industry and all such details may be given which clearly indicate the name of article or articles made, what process is carried out and which articles are serviced or repaired.

Ascertain from the head of the household whether there are any household industries and write the nature of the industry(s) in the column provided,if there are any. Then ascertain for how many months in a year roughly they are conducted and put down the number of months in the appropriate column. If the industry is conducted throughout the year write'12'. If there is no household industry of any sort put an X in each of the places in the right hand corner where the answers will be written and put a bold cross on this sub-part.

(iii) If a household possesses and/or cultivates land and is also engaged in any household industry then both sub-part A and sub-part B will be filled in.

(3) *Sub-part C—Workers in Cultivation or Household Industry*

(i) In the case of households which are engaged only in cultivation, if the Head of the household is working write 1 under the column 'Head', and ascertain how many other male and female members of the family are working. Write the numbers in the respective columns. Write the total number of family workers including the Head, if he is working, in the column relating to 'Total'. Then ascertain whether any hired workers are employed and, if so, write the number of such workers in the column allotted for it. The hired workers should have been in wholetime employment during last working season or should be in wholetime employment during current working season.

(ii) Similarly in the case of households engaged in Household Industry only, if the Head of the household is working write 1 in the column relating to the 'Head' and also ascertain how many male and female members of the family are working and write the numbers in the respective columns. Write the total number of family workers including the Head, if he is working, in the column relating to 'Total' and then ascertain the number of hired workers, if any, and then write the number of hired workers in the appropriate column.

(iii) If a household is engaged both in cultivation and Household Industry ascertain whether the Head is working and write 1 under the column relating to the Head and also ascertain how many male and female members of the family are working both at cultivation and the Household Industry and write the numbers in the respective columns. Write the total number of family workers in the column relating to 'Total'. Ascertain the number of hired workers engaged by the family both for Cultivation and Household Industry and write

the number in the appropriate column. In a household engaged both in household cultivation and household industry, you need not ascertain how many are engaged in household cultivation and household industry separately.

(iv) Even if any of the members of the family working or hired labourers are absent during the period of the Census count they should be counted for the purposes of the Household Schedule.

(v) In the case of households engaged in cultivation only, put X in the columns relating to 'Household Industry only' and 'Both in Household cultivation and Household Industry'. Similarly, in the case of households engaged in Household Industry put X in the columns relating to, Household Cultivation only, and 'Both in Household Cultivation and Household Industry'. If a household is engaged both in household cultivation and Household Industry put X in the columns relating to 'Household Cultivation only' and 'Household Industry only'. If a household is not engaged in either household cultivation or Household Industry or both put X in all the columns and a bold X on this sub-part.

(vi) The test for a worker is whether a person is actually working in cultivation or household industry or supervising or directing work thereon.

Method of drawing sample

5 Household Economic Tables have been prepared on a 20% random sample and not for the whole population. The procedure for the selection of sample Household Schedules was, in brief, as follows :

The tahsil was the unit for rural areas and the district for urban areas. The Household Schedule pads were arranged in an ascending order of Location Code Numbers of villages in a tahsil in the case of rural areas and in the order of Location Code Nos. of towns in a district in urban areas. The first sample household was chosen at random in accordance with the following procedure from the first five households in the first household schedule pad and was stamped with a big 'S' by a rubber stamp. The procedure for selecting the first sample household in rural areas was first to add the digits of the location code number of the unit, that, is, the location code number of district and that of the tahsil. If this sum was 5 or less that was taken to be the number of the first sample schedule. If the sum was greater than 5, it was divided by 5 and the remainder was taken as the number of the first sample schedule. Where the sum was exactly divisible by 5, the fifth was taken as the first sample schedule. In urban areas the procedure was that, in the districts where the number of towns was 5 or less, the number of the towns in the district was the number of the first sample schedule ; where the number of towns was more than five the number of towns was divided by 5 and the remainder was the number of the first sample schedule. Thus after determining and stamping the first sample schedule, every fifth schedule was stamped with the 'S' seal continuously without break till all the pads in the unit were exhausted. In marking the sample household schedules only family schedules were taken into account and institutional households were left out. After marking, all the sample schedules were taken out of the pads for the checking of internal consistencies, coding and tabulation. The coding was done in the respective Census Tabulation Offices of Madhya Pradesh and the checking of codes and tabulation was done at Delhi by the Mechanical Tabulation Unit of the Office of the Registrar General, India, by mechanical process.

Representative Character of Sample

6 The total number of households in the State is 6,615,580 (*vide* Primary Census Abstract appearing on pp 262-263 of Part II A) and the number of Institutional Households is 3,138 (*vide* fly -leaf to Appendix III to Table A-I appearing on page 95 of Part II A). Thus the number of family households comes to 6,612,442. Twenty percent of this number will be 1,322,488, while the number of family households which have come in the sample is 1,321,194 or less by 1,294 households. Thus the sample comes to 99.97 percent of the whole or less by only 0.03 %. Thus the sample can be considered fairly representative of the universe .

Occupational and Industrial Classification of Workers

7 Except for the persons working as Cultivator and working as Agricultural Labourer the 'nature of work' which a worker is doing was written against Questions 10(a) and 11(a) in the individual slip. Besides this, in Questions 10(b) and 11(b) information was also collected about the 'Nature of Household Industry' in the case of persons working at Household Industry and 'Nature of Industry, Profession, Trade , or Service' for persons working in other Industry etc. Thus, there has been a two-fold division of the working population : (1) according to occupation of each individual and (2) according to industry in which he is occupied. In the latter case the word 'Industry' has a wider meaning and covers not only the manufacturing industry but also all sectors of economic activity including livestock, forestry, mining and quarrying, trade, commerce, transport, services, etc.

8 For purposes of Occupational and Industrial Classification of the working population the "National Classification of Occupations" and "Standard Industrial Classification" respectively have been used in the Indian Census for the first time. Both these classifications are based on a three digit code system. In the case of the Occupational Classification, the first digit represents the 'Occupational Division,' the second represents an 'Occupational Group' and the third represents an 'Occupational Family' . While in the case

of Industrial Classification one, two and three digit code numbers represent respectively a 'Division', a 'Major Group' and a 'Minor Group'. However, in one Table B-XIV Part B a four digit code of Industrial Classification has been used.

9 With a view to achieve maximum accuracy in the tabulation of economic tables all enumeration slips having entry against questions 10 and 11 were coded. This coding in the case of urban areas was done before the breaking of enumeration pads for sorting while in the case of rural areas it was done after the completion of villagewise sorting for sex, scheduled castes and scheduled tribes, literacy and primary industrial categories and before making up boxes for further sorting. The coding, its checking and rechecking were done by Coders, Checkers and Supervisors who were specially trained for the purpose. The instructions for the coding were as follows :—

"The coding in the case of Q. 10, Household Industry, will have to be done in all cases where there is an entry in that question. In the case of Question 11 the coding will be done only if it is the principal work, *i.e.* Q. 8, 9 and 10 are blank or if there is a bold ring round Q. 11. The answers to Q. 10 (a) and 11(a) *viz.*, 'Nature of Work' should be coded with reference to the National Classification of Occupations and Q. 10(b) and 11(b) *viz.*, 'Nature of Industry etc.' with reference to the National Standard Industrial Classification. The three-digit code will be written on the right hand side on the line relating to the respective questions. The Code number should be written legibly and distinctly. If possible, the code numbers should be written with inks of different colours. Each coder will be entrusted with the coding of only one question. The best arrangement would be for one coder to code Q. 10 (a) for a pad and pass it on to the next coder who will code forQ. 10 (b) who will in turn pass it on to the next coder who will code Q. 11(a) and finally the pad will be passed on to the fourth coder who will code for Q. 11 (b). This will ensure accuracy as each coder will after sometime become familiar with the code numbers for the particular classification. The coding will have to be strictly supervised as any mistake that will occur at this stage will be reflected in the tables. Recruitment of coders should be done with great care and after several tests to judge the ability of the person in coding. If possible, those who have already coded for the Housing Tables should be switched on to this work. It is essential that the code numbers should be checked independently. In cases where any doubt arises as is likely in many cases, the orders of the Deputy Superintendent should be taken. It is desirable to organise a discussion among group of experts at the end of each day to solve, by collective consultation, all cases of doubt in coding."

10 The Occupational and Industrial three-digit Codification Schemes referred to in the preceding paragraph are reproduced as Appendix I and Appendix II to this Note.

Coding of Household Schedules

11 As the Household Economic Tables were to be prepared by the process of mechanical tabulation it was necessary to codify the different entries in the household schedule to facilitate the punching of the cards. The following codes were used to indicate the different economic characteristics entered in the schedules :—

Household class	*Code number*
1 Households engaged only in cultivation	1
2 Households engaged only in Household Industry	2
3 Households engaged both in Cultivation and Household Industry	3
4 Households engaged neither in cultivation nor in Household Industry	4
Interest in Land	
1 Households cultivating land owned or held from government	1
2 Households cultivating land held from private persons or institutions	2
3 Households cultivating land owned or held from government and also held from private persons or institutions	3
4 For households engaged in Household Industry only put a	—
Size of land	
1 Less than 1 acre	0
2 1·0-2·4 acres	1
3 2·5-4·9 acres	2
4 5·0-7·4 acres	3
5 7·5-9·9 acres	4
6 10·0-12·4 acres	5
7 12·5-14·9 acres	6
8 15·0-29·9 acres	7
9 30·0-49·9 acres	8
10 50·0 acres+	9

Household Industry

It was coded according to the list of Household Industries. Where more than one industry has been recorded code for the industry conducted for a greater number of months was used.

Months worked

2 4-6 Months	2
3 7-9 Months	3
4 10-12 Months	4
5 Unspecified	5

Family workers: Males and Females

No coding. Include the Head in column 3 or 4 as the case may be and write Male and Female figures on the left hand side and underline these figures.

Hired Workers

No coding. Underline the figures to be punched

Total Workers

1 1 person	1
2 2 persons	2
3 3-5 persons	3
4 6-10 persons	4
5 More than 10 persons . .	5
6 Unspecified	6

12 The four-digit Industrial Classification Scheme used for classifying the Household Industries in Table B-XIV Part B is reproduced as Appendix III to this Note.

Industrial Categories

13 There are a few General Economic Tables in which the workers have been classified according to "Industrial Categories" instead of the National Classification of Occupations or the Standard Industrial Classification. The Industrial Categories are 9 in number. These are—

I Cultivator (*i.e.*, those falling under Minor Groups 000 to 004 and 005 (partly) detailed below in this para)

II Agricultural Labourer

III Workers in Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities

IV Household Industry

V Manufacture other than Household Industry

VI Construction

VII Trade and Commerce

VIII Transport, Storage and Communications

IX Other Services

As far as Categories I, II and IV are concerned there were separate questions in the Census Questionnaire and therefore, they were classified according to the answers returned against Questions 8, 9 and 10 respectively in the individual slip. Other Industrial Categories *viz.*, III and V to IX represent the following Divisions of the Standard Industrial Classification (I.S.I.C.):—

Industrial Category	Division of I.S.I.C.	Description of the Division
III	0	Agriculture, Livestock, Forestry, Fishing, Hunting except the following Minor Groups which have gone in Industrial Category—I—*Cultivation* :—
		000 Production of cereal crops (including bengal gram) such as rice, wheat, jowar, bajra, maize
		001 Production of pulses, such as arhar, moong, masur, urd, khesari, other gram
		002 Production of raw jute and kindred fibre crops
		003 Production of raw cotton and kindred fibre crops
		004 Production of oilseeds, sugarcane and other cash crops
		005 (Partly) Production of other crops (including vegetables) not covered above
	1	Mining and Quarrying
V	2 & 3	Manufacturing (if the industry is not a household industry)
VI	4	Construction
VII	6	Trade and Commerce
VIII	7	Transport, Storage and Communications
IX	5	Electricity, Gas, Water and Sanitary services
	8	Services
	9	Activities not adequately described (excluding minor group 999)

Economic tables prepared in previous censuses

15 The number of economic questions as well as the number of economic tables prepared in the previous censuses is very small in comparision with those of the present census and the concepts are also quite different. The concept of work has for the first time been introduced in the Indian census in 1961 and so also the division of the population into 'workers' and 'non-workers'. In the paragraphs which follow are given the economic questions and definitions with regard to them issued in each of the 6 previous decennial censuses beginning from 1901.

(1) In the 1901 Census there were three economic questions, of which two related to the "occupations or means of subsistence of actual workers" and for the third one "means of subsistence dependents on actual workers" was to be returned. The questions as given in the Enumeration Schedule and instructions with regard to the filling in those columns were as follows:—

The Schedule Columns

Occupation or means of subsistence of actual workers		Means of subsistence of dependents of actual workers
Principal	Subsidiary	
9	10	11

The instructions for filling in these three columns were as follows:—

(*i*) Column 9 (Principal occupation of actual workers)—Enter the principal occupation or means of livelihood of all persons who actually do work or carry on business, whether personally or by means of servants, or who live on private property such as house rent, pension, etc. The column will be blank for dependents.

(*ii*) Column 10 (Subsidiary occupation of actual workers)—Enter here any occupation which actual workers persue in addition to their principal occupation. If they have no such additional occupation, enter in this column the word 'none'. This column will be blank for dependents.

(*iii*) Column 11 (Means of subsistence of dependents)—For those who do not work or carry on business, either personally or by means of servants, and who own no private property, enter the principal occupation of the head of the family or of the person who supports them. This column will be blank for actual workers.

(2) In the 1911 Census the same three questions of 1901 were adopted with minor changes in the headings. However, the instructions for filling in the answers to these questions were substantially changed and were as follows:—

(*i*) Column 9 (Principal occupation of actual workers)—Enter the principal means of livelihood of all persons who actually do work or carry on business, whether personally or by means of servants, or who live on house-rent, pension, etc. Enter the exact occupation and avoid vague terms such as "service" or "writing" or "labour". For example, in the case of labour say whether in the fields, or in coal mine, jute factory or cotton mill or lac factory or earth work etc. In case of agriculture, distinguish between persons who receive rent and those who pay rent. If a person makes the articles he sells he should be entered as "maker and seller' of them. Women and children who work at any occupation which helps to augment the

family income must be entered in column 9 under that occupation and not in Column 11. Column 9 will be blank of dependents.

(*ii*) Column 10 (Subsidiary Occupation of actual workers)—Enter here any occupation which actual workers pursue at any time of the year in addition to their principal occupation. Thus if a person lives principally by his earnings as a boatman, and partly also by fishing, the word "boatman" will be entered in column 9 and "fisherman" in column 10. If an actual worker has no additional occupation, enter in column 10 the word "none". This column will be blank for dependents.

(*iii*) Column 11 (Means of subsistence of dependants on actual workers)—For children and women and old and infirm persons who do not work either personally or by means of servants, enter the principal occupation of the person who supports them. This column will be blank for actual workers.

(3) In the 1921 Census also the same three economic questions of 1901 and 1911 were repeated and the instructions to the enumerators for filling in the answers to these questions were also identical to those in 1911. But a special feature of this Census was that certain Industrial Statistics were prepared and published which were based on the information specially collected on Industrial Schedule through the Managers of Industrial Establishments employing not less than 10 persons.

(4) In 1931 the pattern followed in preceding three decades was somewhat changed and for the first time organised industry came into the census picture. In this Census there were the following 4 economic questions in the Census questionnaire:—

9 Earner or dependent

10 Principal occupation (this will be blank for dependant)

11 Subsidiary occupation (occupation of dependants may be given)

12 Industry in which employed (for organized employees only)

Like the questions a change in the concepts and definitions also came this time as will be seen from the following instructions issued to the enumerators:—

(*i*) Column 9 (Worker or Dependant)—Enter "earner" or "dependant". A woman who does house work is a dependant, so is a son who works in the fields but does not earn separate wages. A cultivator cultivating as a principal occupation is an earner.

(*ii*) Column 10 (Principal occupation)—Enter the principal means of livelihood of all persons who actually do work or carry on business whether personally or by means of servants, or who live on house-rent, pension etc. Enter the exact occupation and avoid vague terms such as "service" or "writing" or "labour". Replies such as are given to a Magistrate in court are not enough. For example, in the case of labour, say whether in the fields,or in a coal mine, or jute factory, or cotton mill or lac factory, or earth work, etc. In the case of agriculture distinguish between persons who do not cultivate personally, who cultivate their own land, who cultivate rented land and who are hired labourers. If a person makes the articles he sells he should be entered as "maker and seller" of them. Women and children who work at any occupation which helps to augment the family income must be entered in column 9 and in column 11. For dependants make a X only in column 10.

(*iii*) Column 11 (Subsidiary occupation)—Enter here any occupation which actual workers persue at any time of the year in addition to their principal occupation. Thus if a person lives principally by his earning as a boatman, and partly also by fishing the word "boatman' will be entered in column 10 and "fisherman" in column 11. If an actual worker has no additional occupation a cross (X) will be put. Dependants who help to support the family by subsidiary work *e.g.*, a woman who helps in the fields as well as doing house work will be shown in this column.

(*iv*) Column 12 (Industry in which employed)—For managers, clerks, operatives or workmen employed in a factory fill up the name of the industry, *i.e.*, biscuit making, coal mining. For individual workers not employed by others put a X.

(5) In the 1941 Census the number of economic questions rose to as may as eight and 'occupation' altogether went out of picture and its place was taken by "means of livelihood". The questions this time were—

9 Are you wholly or partly dependant on any one else?

10 If so, means of livelihood of person on whom dependant

11 Do you employ (a) paid assistants, (b) members of household? If so, how many?

12 Are you in employment now?

13 (Only to those who reply in the negative to question 12) Are you in search of employment?

To those who reply in the affirmative the further question will be put—How long have you been in search of it?

14 Means of livelihood in order of importance

15 (Only to be asked in regard to means of livelihood of a person shown as partly dependant against question 9 or any subsidiary means of livelihood returned by other person against question 14)

Does this means of livelihood exist throughout the year? If not, for what part of the year?

16 If you are employed by some one else, what is his business?

As the results of 1941 Census could not be tabulated for the major part of the country owing to the circumstances created by World War II it seems needless to reproduce the instructions about the questions given above.

(6) The number of economic questions in the 1951 Census was 4 as below—

9 Economic Status—

Part one—Dependency

Part two—Employment

10 Principal means of livelihood

11 Secondary means of livelihood

The instructions for recording answers to these questions were as follows:—

Question 9—Economic Status

(*i*) Part One—Dependency—Write 1 for a self supporting person, 2 for a non-earning dependant, and 3 for an earning dependant. Write the answer in first compartment.

(*ii*) Part Two—Employment—If a self-supporting person earns his principal means of livelihood as an employer, write 1, as an employee, write 0, as an independant worker, write 3. Write 0 in other cases. Write the answer in the second compartment.

(*iii*) Question 10—Principal means of livelihood—An answer to this question should be recorded on every slip. If the slip relates to a self-supporting person record his principal means of livelihood. If the slip relates to a dependent (whether earning or non-earning) record here the principal means of livelihood of the self-supporting person on whom he is dependant. The means of livelihood which provides the largest income is the principal means of livelihood for a self-supporting person who has more than one means of livelihood. In the case of other self-supporting persons it is the only means of livelihood.

Use the following contractions—Write 1 for a person who cultivates land owned by him; 2 for a person who cultivates land owned by another person; 3 for a person who is employed as a labourer by another person who cultivates land; 4 for a person who receives rent in cash or kind in respect of land which is cultivated by another person.

For all other means of livelihood write fully and clearly what the person does in order to earn his livelihood and where he does it.

(*iv*) Question 11—Secondary means of livelihood—For a self-supporting person who has more than one means of livelihood, write the means of livelihood next in importance to his principal means of livelihood. For an earning dependant write the means of livelihood which provides the earning. Use contractions given in question 10.

For a self-supporting person who has only one means of livelihood write 0. In the case of a non-earning dependant also, write 0.

16 Besides the brief instructions reproduced above in each of the previous Censuses some more detailed instructions were issued in respect of the economic qustions but those instructions are not being given here. The purpose of giving information about the previous Censuses is limited to the giving of a glimpse of what happened in the past and how the concept of economic questions has changed and developed from Census to Census.

Economic Tables in previous Censuses

17 In the previous six Censuses the following General Economic Tables were prepared. There were certain tables combining occupation with Religion or Castes and Tribes but they have been excluded from the following list as no such tables have been prepared in 1951 and 1961:—

TABLE B—VII

PART A—PERSONS WORKING PRINCIPALLY (i) AS CULTIVATORS (ii) AS AGRICULTURAL LABOURERS OR (iii) AT HOUSEHOLD INDUSTRY CLASSIFIED BY SEX AND BY SECONDARY WORK (i) AT HOUSEHOLD INDUSTRY (ii) AS CULTIVATOR OR (iii) AS AGRICULTURAL LABOURER

PART B—INDUSTRIAL CLASSIFICATION BY SEX OF PERSONS WORKING IN NON HOUSEHOLD INDUSTRY, TRADE, BUSINESS, PROFESSION OR SERVICE WHO ARE ALSO ENGAGED IN HOUSEHOLD INDUSTRY

Both the parts of this table deal with the secondary work confined to Cultivation, Agricultural Labour and Household Industry-divided into Divisions and Major Groups. It, therefore, follows that if a person engages himself in a secondary work also which falls in non-household industry, trade, business, profession or service his secondary work does not find a place in this or in any other table.

2 In Part A of the table the persons whose principal work is either (i) Cultivation or (ii) Agricultural labour or (iii) a particular Division or Major Group of a Household Industry and who also have secondary work as Agricultural Labour or Household Industry in the case of (i), as Cultivation or Household Industry in the case of (ii) and as Cultivator or Agricultural Labourer in the case of (iii) have been shown. Part B deals with the persons whose principal work is non-household industry, trade, business, profession or service (divided according to the Divisions and Major Groups of I.S.I.C.) and who have Household Industry (divided into the Divisions and Major Groups of I.S.I.C.) as secondary work.

3 In both these parts lines with nil entries have been omitted and in Part A the Major Groups of Household Industry where persons having secondary work are less than 5% of the persons as principal work have been omitted from the table and are given in the accompanying appendix. The Divisions, thus affected have been marked with an asterisk.

4 *No subsidiary table has been prepared from Part B* of the table but from Part A the following 3 subsidiary tables have been prepared which appear in Part IC of the Census Series.

(1) S.T. B-VII Part A.1 : Number per 1,000 persons working principally as cultivators, who are working (i) as cultivators and Agricultural Labourers, (ii) as cultivators and at Household Industry in *Rural areas only*

(2) S.T. B-VII Part A.2 : Number per 1,000 persons working principally as Agricultural Labourers, who are working (i) as Agricultural Labourers and cultivators, (ii) as Agricultural Labourers and at Household Industry in *Rural areas only*

(3) S.T. B-VII Part A.3 : Number per 1,000 persons working principally at Household Industry, who are working (i) at Household Industry and as cultivators, (ii) at Household Industry and as Agricultural Labourers

TABLE B—VIII

PART A—PERSONS UNEMPLOYED AGED 15 AND ABOVE BY SEX, BROAD AGE-GROUPS AND EDUCATIONAL LEVELS *IN URBAN AREAS ONLY*

PART B—PERSONS UNEMPLOYED AGED 15 AND ABOVE BY SEX AND EDUCATIONAL LEVELS *IN RURAL AREAS ONLY*

Both the parts of this table deal with the unemployed persons; Part A with that in urban areas and Part B with that in rural areas. But there is some difference in the details of these two parts. Besides the educational levels being different in urban and rural areas as in other tables, a particular difference is that while in Part A the unemployeds have been divided in two categories *viz.* : (i) Seeking employment for the first time and (ii) Persons employed before but now out of employment and seeking work; in Part B they have not been so divided. The second point of difference is that in Part A the unemployeds of both the above categories have been classified according to their ages; it is not so in Part B.

2 One subsidiary table has been prepared from the figures appearing in each of the two parts. These subsidiary tables are the following and are published in Part IC of the Madhya Pradesh Census Series :

(1) S.T. B-VIII Part A.1 : Distribution of 1,000 males and females who are unemployed in each age-group according to educational levels *in urban areas only*

(2) S.T. B-VIII Part B.1 : Distribution of 1,000 males and females who are unemployed by educational levels *in rural areas only*

B-VIII PART A—PERSONS UNEMPLOYED AGED 15 AND ABOVE BY SEX,

B-IX—PERSONS NOT AT WORK CLASSIFIED BY SEX, BROAD AGE-GROUPS AND TYPE OF ACTIVITY

In this table 'non-workers' have been divided according to 4 broad age-groups and also according to their activities which were recorded in answer to question 12 (Activity, if not working). The instructions about filling in the answer to this question as well as the detailed description of the activities given in the table are given in the Introductory Note at the beginning of this volume.

2 Like other economic tables this table was also checked for internal and external consistencies and was put through a rigourous quality test. In quality check the figures in the table were compared with similar figures in other states. The check cast doubt in respect of two figures in the table. The first was of 6,734 males under household duties which was thought to be somewhat excessive in comparison with a few other states. The second case arose out of comparison of figures of literates aged 5-14 in Table C-III to the student population which revealed that in some cases student population is more than the literate's population 5-14 and in some other cases it is lower than the latter. Therefore with a view to see whether any mistake has crept in at the tabulation stage the figures were re-examined and were found to be correct. On a detailed analysis of the figures of each district it was found that there is no abnormality in the figures owing to the following reasons:-

(1) The words "a person engaged in unpaid home duties" of the definition of household duties was wide and did not preclude males from its perview. Boys not attending school or not assisting in farm operations or other occupational activities of the family and those adults or old males who are not doing any work but merely helping the housewives in their household duties such as shopping etc., come in this category. The agewise and districtwise analysis of the figures revealed that in 6,734 males under this head, 2,851 were boys below 14 years of age and the remaining 3,883 in all other age-groups; 1,378 being of the age of 60 and over. The districtwise distribution of the figures showed some variation which indicated that the performance of household duties by males depends on the socio-economic conditions prevailing in different regions.

(2) Similarly the point about the two-way variation in the number of literates and the student population was examined in detail and it was found that the cases where the student population is more than the literate population aged 5-14 are mostly of rural males and those of the reverse type of rural females. Thus a clue was found to the apparent disparity in the figures, the reasons for which are :-

(a) Table B-IX deals with the non-working population only and, therefore, those students who are doing some part-time work in family cultivation, industry, trade, or business are out of the scope of this table.

(b) There is a considerable number of male children who are attending school but have not attained enough proficiency in reading and writing to entitle them to be treated as 'literate' such as those of 1st stage of primary, nursery and kindergarten.

(c) Girls in rural areas leave schools before completing the age of 14 years but after they have attained the ability to read and write.

Therefore, the check and test of this table dispelled all doubts about it the figures in it were found to be alright.

3 From the figures appearing in this table the following 3 subsidiary tables have been prepared which appear in Part I-C :-

(1) S.T. B-IX.1 : Number per 1,000 of population aged 15+ and of population of each age-group : 15-34, 35-59,60+ and age not stated who are unemployed, separate for persons, males and females

(2) S.T. B-IX.2 : Distribution of 1,000 persons not at work by age-groups

(3) S.T. B-IX.3 : Distribution of 1,000 persons not at work by sex, and type of activity
