NAGPUR
GOVERNMENT PRINTING, MADHYA PRADESH
1956

# F O R E W O R D

At the Census of 1951 each Enumerator was supplied with a list of seventyseven Non-Backward Castes mentioned in the annexure accompanying this foreword and was instructed to record '1' as the caste of any person who returned himself as belonging to one of those castes. In regard to other castes, he was instructed to record them exactly as returned by the respondents. The caste and tribe data so collected were utilised for ascertaining the total population of persons belonging to the Scheduled Castes and the Scheduled Tribes as defined in the Constitution (Scheduled Castes) Order, 1950, and the Constitution (Scheduled Tribes) Order, 1950. No attempt was made to find out the population of individual castes and tribes or their individual educational, economic and other characteristics.

2. In August 1955, the Deputy Registrar General, India, communicated to me his decision to get a glossary of caste names compiled for this State. Accordingly, the preparation of the glossary was taken in hand. The ten per cent 'Sample' male slips of the 1951 Census pertaining to each district were utilised for the purpose. The seventyseven caste names mentioned in the annexure are not repeated in the glossary. Many of the caste names mentioned in the glossary are synonymus, generic caste names and names of sub-castes or 'gotras'.

3. Separate glossaries were prepared for the Hindi-speaking and Marathi-speaking parts of Madhya Pradesh. One hundred and fifty copies of the State Glossary were cyclostyled. Six copies of each District Glossary were typed.

4. It is considered that the glossary of caste names may be found useful in case a complete enumeration and tabulation of castes is decided upon at the next Census.
