NOTE

The Census Report of Orissa forms Volume XI in the series of Reports of the Census of India, 1951. As approved by the Census Commissioner for India, the Volume will consist of the following parts :

Part I	...	Narrative Report with Subsidiary Tables
Part II-A	...	Statistical Tables relating to General Population, Summary Figures for Districts and smaller administrative units, Social and Cultural Tables and Tables relating to Lands owned and cultivated
Part II-B	...	Statistical Tables relating to Economic Classification and Household and Age.

In addition, there will be another part of the Report to deal with the administrative aspects of the Census Operations.

Census Handbooks for each of the 13 districts of the State have also been compiled. The printing and publication of such Handbooks is the responsibility of the State Government. A limited number of sets have been cyclostyled and distributed at the cost of the Government of India, but judging from numerous requisitions and enquiries relating to these Handbooks from Government Departments, various public institutions and private bodies, it is of utmost importance that their printing and publication should be undertaken by the State Government so that the Handbooks may be available for sale to the public as in other States.

A—GENERAL POPULATION TABLES

TABLE A-I

Area, houses and population

1. This table shows for each district and natural division the area, the number of villages and towns, the number of occupied houses and the total urban and rural population, male and female in the State.

2. The districts or portions thereof comprised in each of the two natural divisions into which the State has been divided for purposes of review of population are as follows:

Natural division		Districts
3.33	Orissa Inland Division ...	Mayurbhanj, Keonjhar, Dhenkanal, Sundargarh, Phulbani, Ganjam (Agency), Sambalpur, Bolangir, Kalahandi and Koraput.
5.11	Orissa Coastal Division ...	Balasore, Cuttack, Puri and Ganjam (Plains).

3. The areas given in this table have been adopted from the latest figures supplied by the Surveyor-General, India, for the districts as they are constituted at present.

4. "City" ordinarily means a locality with a population of not less than 100,000.

5. "Town" is a place of usually not less than 5,000 inhabitants possessing distinct urban characteristics.

6. "Village" means a revenue village or a *mauza* other than (*i*) that which is wholly absorbed in a town, and (*ii*) that which on the Census day contained no population.

7. "House" means "Census house". It is defined at this Census as 'a dwelling with a separate main entrance'.

8. The urban/rural ratio is 4 : 96.

TABLE A-II

Variation in population during fifty years

This table compares the population as ascertained at the Census of 1951 of each district in Orissa as now constituted with that of the five previous censuses. Similar comparison is also made in respect of the natural divisions into which the districts have been grouped according to the all-India plan (as shown in para. 2 of the fly-leaf note of Table A-I). Previous census figures have been adjusted to allow for the changes in the administrative set-up consequent on the integration of the ex-State areas with Orissa resulting in reconstitution of districts.

The changes since 1941 in the administrative set-up of the State as well as of each district are as follows :

(*a*) ORISSA—The State has undergone extensive changes in its jurisdiction since 1941 on account of integration of ex-State areas in 1948 and 1949. There were, however, no interprovincial transfers of area. The merger took place in respect of Mayurbhanj, of the Bengal States Agency, Patna and Kalahandi of the Chhattisgarh States Agency and of all the States of the Orissa States Agency except Seraikella and Kharswan. For purpose of Census of 1941, however, all these areas except the ex-State of Gangpur were placed under the operational control of the Superintendent of Census Operations, Orissa, in addition to the six old districts of Cuttack, Balasore, Puri, Sambalpur, Ganjam and Koraput.

(*b*) CUTTACK—In 1941, the district of Cuttack included Angul subdivision. By 1951, the set-up was changed. Angul was detached and the four ex-State areas of Narsingpur, Baramba, Tigiria and Athgarh were added to this district.

(*c*) BALASORE—The bounds of Balasore district were increased by the addition of the ex-State area of Nilgiri and a very small tract taken from Mayurbhanj.

(*d*) PURI—The district of Puri increased its limit by inclusion of the four ex-State areas of Nayagarh, Ranpur, Khandpara and Daspalla.

(*e*) SAMBALPUR—In 1941, the district of Sambalpur comprised the Sadar, Bargarh and Nawapara subdivisions. In 1951, the district comprises Sadar and Bargarh subdivisions and the ex-State areas of Bamra and Rairakhol.

(*f*) GANJAM—The district of Ganjam, in 1941, comprised of Chatrapur, Berhampur, Ghumsur, Balliguda and Khondmals subdivisions. By 1951, its areas underwent curtailment. At present the district comprises the first three of the subdivisions named above.

(*g*) KORAPUT—The district set-up remains the same as in 1941.

(*h*) DHENKANAL—The district comprises the entire ex-State areas of Dhenkanal, Hindol, Talcher, Athmalik and Pal-Lahara and the subdivision of Angul. The latter was taken from the district of Cuttack.

(*i*) KEONJHAR—Except exchange of enclaves of negligible size with Cuttack and Balasore the ex-State area of Keonjhar has been constituted into a district.

(*j*) PHULBANI—In 1941, Phulbani was merely a subdivision of the district of Ganjam. By 1951, its status was raised to that of a district. It now comprises the subdivisions of Khondmals and Balliguda (taken from the district of Ganjam) and the ex-State areas of Baudh and of Dahia outpost formerly included in Sonepur.

(*k*) BOLANGIR—It is composed of the ex-State areas of Patna and Sonepur. But a portion of Sonepur, namely, Dahia Police outpost (area 66 square miles) has been cut off and added to Baudh subdivision of Phulbani district.

(*l*) SUNDARGARH—Ex-States of Gangpur and Bonai have been combined to form the district of Sundargarh.

(*m*) KALAHANDI—The district of Kalahandi has been constituted by the addition of Nawapara subdivision taken from the district of Sambalpur with the ex-State of Kalahandi.

(*n*) MAYURBHANJ—Except a small tract of 12·9 square miles transferred to Balasore, the whole ex- State area has been constituted into the district of Mayurbhanj.

In respect of the very small areas of Mayurbhanj transferred to Balasore and from Bolangir to Phulbani districts, no changes in the previous census population have been effected for reason of their being insignificant.

TABLE A-IV

Towns classified by population with variation since 1901

In this table the population of the towns as ascertained at the Census of 1951 is compared with the population of the five previous censuses. In some cases where the figures of previous censuses for the newly developed towns are not available even by approximate estimate, the variation could not be shown.

2. Eleven new towns, as mentioned below, with an aggregate population of 91,620 appear at this Census, while one former town, *viz.*, Binka (in Sonepur) is now excluded as it does not satisfy the definition of "Town". The new towns are :—

District	Towns
1. Cuttack ...	... Athgarh and Banki
2. Puri ...	... Bhubaneswar and Khurda Road
3. Koraput ...	... Rayaghada, Machkund and Nowrangpur
4. Bolangir ...	... Kantabanji and Patnagarh
5. Sundargarh ...	... Sundargarh and Birmitrapur

3. Following the 1931 practice, towns have been arranged according to population under six classes as follows with totals of each class :—

Class I ...	... 100,000 and over
Class II ...	... 50,000 to 100,000
Class III ...	... 20,000 to 50,000
Class IV ...	... 10,000 to 20,000
Class V ...	... 5,000 to 10,000
Class VI ...	... Less than 5,000

TABLE A-V

Towns arranged territorially with population by livelihood classes

1. This table shows the territorial distribution of urban population by livelihood classes instead of by communities as in the previous censuses. The towns are arranged in each district in the order of their population.

2. The population is divided under the Economic Classification Scheme into two principal categories, namely, agricultural and non-agricultural, each category having four classes of means of livelihood. The entire population may thus be divided into eight classes of means of livelihood, as follows :

AGRICULTURAL CLASSES

Class I ... Cultivators of land wholly or mainly owned and their dependants
Class II ... Cultivators of land wholly or mainly unowned and their dependants
Class III ... Cultivating labourers and their dependants
Class IV ... Non-cultivating owners of land ; agricultural rent-receivers and their dependants.

NON-AGRICULTURAL CLASSES

Persons (including dependants) who derive their principal means of livelihood from :

Class V ... Production other than cultivation
Class VI ... Commerce
Class VII ... Transport
Class VIII ... Other services and miscellaneous sources.

While figures for livelihood classes IV to VIII are given separately in the Table, only a combined total for livelihood classes I—III is shown.

3. The following abbreviations are used in column 2 of the table :

M ... for Municipality
NAC ... for Notified Area Committee
SC ... for Sanitation Committee
GP ... for Grama Panchayat
UB ... for Union Board

TABLE E

Summary figures by Districts

1. This table furnishes data by Districts, Subdivisions, Taluks (if any) and police-stations in the State with Rural/Urban break-up for each administrative unit. Figures relating to area, population, percentage of variation and density have been shown as in the past Censuses but livelihood classes have been substituted for religion.

2. For the present set-up of administrative districts *see* fly-leaf notes to Table A-II.

3. Areas of districts given in column 2 differ in varying degrees from those given in Table A-I. Areas shown in Table A-I are based upon figures supplied by the Surveyor-General, India, who, however, does not keep a record of areas of administrative units below district level. The areas of smaller units had therefore to be ascertained from local sources which, as it appears from the present Table, worked out a total for the district not agreeing with the figure supplied by the Surveyor-General.

The variation in area between the Surveyor-General's figures and the local figures is shown below :—

4. Population figures and percentage variation have been arrived at after allowing for changes in territorial set-up as obtaining at present.

5. The area figures in column 2 are rounded to the nearest integer. The density for 1941 (column 10) has been calculated for the rural and urban tracts on the actual area as it existed in 1941. Similarly, the density for 1951 (column 9) has been calculated for the rural and urban tracts on their actual area in 1951 *i.e.*, after taking into account the area of the places declared as towns in 1951. The density has been calculated on the actual area figures supplied by the Local Authorities and not on the rounded figures shown in column 2 of the table.

TABLE D-I

Languages—(i) Mother Tongue

This table shows the languages spoken as mother tongue as actually returned at the 1951 Census and the number of persons speaking each one of them. No attempt has been made to classify these languages, as in the past Censuses. Mother tongue is defined at this Census as the language spoken from the cradle.

Languages shown in this table include dialects which have acquired distinctive status of "Mother tongue" in particular localities.

The languages have been arranged in the order of the number of people speaking them within the State.

TABLE D-VII

Livelihood classes by educational standard

This table gives the distribution of population in each livelihood class according to educational standard.

A person is considered to be literate if he/she can read and write. The test for reading is the ability to read any simple letter either in print or in manuscript. The test for writing is the ability to write a simple letter.

A partly literate person is who can read but cannot write. The number of persons who are partly literate are as follows :—

TABLE F

Statement showing the number of households owning land and cultivating land

This table shows the extent of ownership and the extent of actual cultivating possession of land by households in each district, with break up for Agricultural and Non-agricultural Classes and further by Backward and Non-backward Classes.

2. Ownership of land for the purpose of this table is defined as the heritable right over the land irrespective of the right to transfer it. Land cultivated represents that under actual physical cultivation of the household, whether on the basis of ownership, or lease or usufructuary mortgage.

3. Land under simple mortgage which is actually cultivated by the mortgager has for the present purpose been taken to be under the mortgager's actual cultivation but the land under usufructuary mortgage which is cultivated actually by the mortgagee has been treated to be under the mortgagee's actual cultivation.

4. The figures of area under cultivation shown in column 3 have been collected from local sources.
