NOTE

According to the scheme, approved by the Registrar General, India, the Census Report of Assam, Manipur and Tripura has been numbered as Volume XII in the All-India Series. The Volume consits of the following parts :—

Part I-A.—Report (Statistical Analysis).

Part I-B.—Subsidiary Tables.

Part II-A.—General Population Tables, Summary Figures for Districts, Social and Cultural Tables and Land Holdings of Indigenous Persons.

Part II-B.—Economic Tables and Household and Age (Sample) Tables.

(2) In addition to Volume XII, a separate compilation, entitled District Census Handbook, containing population of villages by livelihood classes and tractwise figures of Main Series Tables, has been printed separately for each district. Preparatory to the tabulation of census data, rural and urban areas of each district were grouped into "census tracts" on the basis of population according to the instructions of the Registrar General, India.

(3) *Administration Report.*—This Volume, printed separately, shows in details the procedure adopted for conducting the 1951 Census and tabulating the data so collected.

(4) In addition to these printed Volumes, there are National Registers of Citizens, prepared simultaneously with the filling up of enumeration slips, giving important census details for each person of every village or ward in a town. These Registers are preserved in manuscript as permanent records in District Offices.

A—GENERAL POPULATION TABLES

TABLE A—I.

Area, Houses and Population

This Table shows for each district of Assam and for the States of Manipur and Tripura the area, the number of towns and villages, the number of occupied houses and the total urban and rural population, male and female. The area given in this Table and that given in Table E about Summary Figures of Districts differs in some cases because the figures given in this Table were adopted from the District figure supplied by the Surveyor General of India, while the thana figures furnished by the Assam Survey Department were adopted for the Table E as the Surveyor General of India was unable to supply these.

2. The partition of the country on the basis of the Radcliff Award brought about a change in the boundaries of Assam as well. The entire district of Sylhet went to East Pakistan in August, 1947, with the exception of the thanas of Badarpur (47 sq. miles), Ratabari (240 sq. miles), Patharkandi (277 sq. miles) and a portion of the Karimganj thana (145 sq. miles) which only were reatained in Assam. This retained portion, with a total area of 709 sq, miles, is joined with Cachar to form a separate subdivision *viz* Karimganj.

3. In November, 1951, a new administrative district, by name the United Mikir and North Cachar Hills District, was formed with North Cachar Hills Subdivision (1888 sq. miles) of Cachar, Mikir Hills Excluded Areas of Nowgong and Sibsagar (1707 and 1692 sq. miles respectively) and a portion of Jowai Subdivision, Blocks 1 and 2 (596 sq. miles). The numerous Khasi States in the old Khasi and Jaintia Hills District covering an area of 3788 sq. miles were merged with the rest of the district in the unit of the United Khasi and Jaintia Hills District forming a new enlarged administration.

4. The two subdivisions of the Sadiya Frontier Tract, namely Sadiya and Pasighat, were created into independent districts under the name of Mishmi Hills and Abor Hills in July, 1948. Another frontier district was constituted in 1943, called Tirap Frontier Tract, by excluding 103 sq. miles from Lakhimpur and joining it with a portion of the old Sadiya Frontier Tract and the Naga Tribal Area. The Naga Tribal Area also features in this Census for the first time as a new frontier tract.

5. The area figures given by the Surveyor General of India for the Mishmi Hills, Abor Hills, Tirap Frontier Tract, Balipara Frontier Tract and Naga Tribal Area are reproduced in this Table. It should however, be noted that the population figures of these frontier districts take into account only the censused population for which full datas were secured and tabulated on slips, but not the population of their part B Tribal Areas for which even reliable estimates are not available.

6. For Census purposes, a house is defined as a "Dwelling with a separate main entrance".

7. Towns are places of usually not less than 5,000 inhabitants possessing definite urban characteristics. A few places with less than 5,000 inhabitants have also been treated as towns Imphal (Town Fund Area only) has been treated as new town for the purposes of this Table, whereas in the other Tables the entire population of Manipur, including that of the Town Fund area, has been treated as rural, as separate sorting of the slips relating to the Town Fund area was not undertaken. This is a departure from past practice according to which the whole of Imphal (with its 1951 population of 131,470—99,716 in 1941), was treated as a town. The urban population of Assam is 414, 418 and the urban rual ratio is 1:21 *i.e.* for every person living in town there are 21 persons living in villages. The Urban rural ratio for Manipur is 1:20 and that for Tripura is 1:14.

8. The household and houseless population figures are given below :—

**The difference of 22,544 persons between the population figures shown in main Table A—I— and C—I—household (Size and composition) is due to the inclusion of the Mikir Hills portion of the Jowai Subdivision in the United K.-J. hills district in all Tables except A-Series and E-Summary Figures for Districts as the United Mikir- North Cachar Hills district was formed after 1951 Census. The population figures of this district as shown in the 'A-Series and E—Tables' were derived from the Primary Census Abstracts.

TABLE A-II

Variation in population since 1881

This Table compares the population as ascertained in the Census of 1951 of each as now constituted in Assam, Manipur and Tripura. Similar comparison is also made in respect of the Natural Divisions and Subdivisions into which the districts have been grouped according to the All-India Plan.

2. The figures of the previous Censuses differ from those shown in the previous Census Reports owing to subsequent transfer of territory from one district to another within the State and also to the re-calculation of area. The effects of these changes on the population of districts concerned have been calculated and figures adjusted accordingly.

3. The population censused for the first time numbers 7025 entirely in the Naga Tribal Area. As it is quite impossible to estimate what this newly censused population would have amounted to at previous Censuses, no attempt has been made to determine the population of this small area in the previous Censuses.

4. The figures for the United Mikir and North Cachar Hills District from 1901-1931 refer only to the population of North Cachar Hills Sub-division, for which alone full data are available. Separate figures for the other portions of the Mikir Hills included within Nowgong and Sibsagar districts could not be worked out. The 1941 figures however, take them into account but not the portion of United Khasi and Jaintia Hills District included within it, which is accounted for in the 1951 figure alone.

5. The 1951 figure for the United Khasi and Jaintia Hills District takes into account the reduction due to a portion of the district going to the Mikir Hills ; it was not possible to work out the effect of this reduction in area on its population for earlier Censuses.

6. The figures for Nowgong and Sibsagar for 1901 to 1931 include the population of their respective Mikir Hills Excluded Areas whereas their figures for 1941 and 1951 are adjusted by excluding the latter as shown in the statement given below :—

TABLE A-III

A-III—Towns and Villages Classified by Population

In the temporarily settled districts of Assam, the village corresponds to the cadastral village. In the hills and the permanently settled portion of Goalpara and Karimganj Subdivision of Cachar, the village is the residential village or group of houses bearing a separate name, small outlying hamlets being treated as parts of the nearest village.

TABLE A-IV

A-IV.—Towns classified by Population with variations since 1901

In this Table, the population of the towns as ascertained at the 1951 Census is compared with the population of the 5 previous Censuses. It shows the population of all municipalities and "small towns" constituted under the Assam Municipal Act (Act I of 1923) of the Shillong Contonment and also of certain other places (3 district headquarters and 1 railway centre), which may be considered to have urban characteristics. The total number of towns in Assam is now 27 as against 26 in 1941. The difference is due to the fact that Aijal is shown as a separate town for the first time in this Census.

2. No adjustment has been made in this Table for the numerous small extensions of municipal boundaries which have taken place in the last decade. Persons enumrated in Railway Stations within town limits have been included in the population of the towns in which they were enumerated.

3. The whole of Imphal, with its population of 131, 470 has not been treated as a town unlike the previous Censuses. Only Imphal (Town Fund Area) has been treated as urban in this Census.

TABLE. A—V

Towns arranged territorially with population by Livelihood Classes

This Table shows the analysis of the Urban population by Livelihood Classes, instead of by communities as in the previous Censuses.

Badarpur in Cachar, Pandu and North Gauhati in Kamrup and Digboi in Lakhimpur were not recommended by the Deputy Commissioners to be treated as new urban areas. Hence the slips of these areas were mixed up with those of other rural tracts of their districts. However the figures of these areas with the livelihood break-up is given below (*See* the enclosed statement).

D.—SOCIAL AND CULTURAL TABLES

D.—I Languages

(*i*) Mother Tongue.

(*ii*) Bilingualism.

The D—Series Tables comprise Seven tables which have been prepared on the basis of total population.

D—I.—This table corresponds to Table XV of 1931. Part (*i*)—Mother tongue has been prepared with reference to answers recorded in question 7 and Part (*ii*) with reference to question 8. The following instructons were issued for recording the answers:—

"Question No.7—Mother tongue—Enter each person's mother tongue, *i.e.*, the language first spoken from the cradle. In the case of infants and deaf mutes, the language of the mother should be entered.

Question No.8—Bilingualism—If any person speaks any **Indian** (not foreign) language, other than his mother tongue, in his daily or domestic life, *e.g.*, a marwari trader speaking Assamese, record it. Record only one subsidiary language".

The 1951 Census shows many new language names which are neither found in the previous Census Report nor in Sir Grierson's Index of Language names. A referennce to District authorities brought no satisfactory replies. Some are perhaps caste-names. In the absence of definite information the entries have been left as they were found on tabulation.

D.—III—Scheduled Castes and Scheduled Tribes—Backward and Non-Backward

This Table has been prepared on the basis of answers recorded in Question No. 2(*c*)—Special Groups. The instruction for recording answers against this question was "write in full if he belongs to any of the (1) Scheduled Castes, (2) Scheduled Tribes and (3) Backward Classes or if he is an Anglo-Indian".

2. So far as Assam is concerned, Castes as per lists (1) is based on C. O. 19, the Constitution (Scheduled Castes) Order, 1950 published with the Government of India, Ministry of Law Notification No. S. R. O. 385, dated the 10th August, 1950. Tribes as per list (2) is based on C. O. 22—the Constitution (Scheduled Tribes) Order, 1950, published with the Government of India, Ministry of Law Notification No. S.R.O. 510, dated the 6th September, 1950. The figures relating to the Backward Classes are based on the list as specified by the State Government.

3. As regards the States of Manipur and Tripura, the President's orders specifying Scheduled Castes and Scheduled Tribes were not issued during enumeration. Hence the enumerating staff was supplied with a list of non-Backward Castes and instructed to record the name of the caste or tribe as returned by the person enumerated if he was not a member of one of the castes mentioned in the list.

4. The figures for Anglo-Indians which have not been shown in the Table are given below :—

2. The district of United Mikir-North Cachar Hills was formed after the 1951 Census. Although the population figures of this new district was adjusted as far as practicable in A.—Series and E.—Summary Figures for districts, separate figures for Mikir Hills portion of Jowai Subdivision for all other Tables were not available. Hence there is a difference of 22,544 (Males 11,411 Females 11,133) in the population of United Khasi and Jaintia Hills and United Mikir-North Cachar Hills districts between these two sets of Tables.

D.—V—Displaced Persons

This table is new and relates to displacement of population consequent on the partition of India. It is divided into two parts, *Viz.*—

D—V—(*i*)—Displaced Persons by year of arrival.

D—V—(*ii*)—Displaced Persons by livelihood classes.

The Part I has been prepared on the basis of answers recorded in question No. 6 (Date of arrival in India and district of origin in Pakistan) and Part II on the basis of questions 9 (Economic status) and 10 (Principal Means of Livelihood).

" A ' Displaced Person ' means any person who has entered India having left or being compelled to leave his or her home in Western Pakistan on or after the 1st March, 1947 or his/her home in Eastern Pakistan on or after the 15th October, 1946 on account of civil disturbances or the fear of such disturbances or on account of the setting up of the two Dominions of India and Pakistan."

D.—VI—NON-INDIAN NATIONALS

This table is new and based on a suggestion made by the United Nations Population Commission. It has been prepared from answers recorded in question No. 2(*a*) Nationality. The instruction for enumeration was "Write 1 (Symbol) for all Indian Nationals. For others write nationality in full". The term "Indian Nationals" was defined as follows—

DETERMINATION OF INDIAN NATIONALITY

In order to find out whether a person is an Indian National you should ascertain whether he belongs to any of the following classes of citizens:—

A. Citizenship under Article 5 of the Constitution :—

A person would be a citizen if he has his domicile in India on January 26, 1950, and if—

(*a*) he was born in India (as now understood),

or

(*b*) any of his parents was born in India, or

(*c*) he has been ordinarily a resident in India for not less than five years immediately before January 26, 1950.

B. A person who migrated from Pakistan to India before July 19, 1948, would be a citizen of India if—

(*a*) he or any of his parents or grand-parents was born in un-divided India (including Pakistan), and

(*b*) he has been ordinarily a resident in India since his migration.

C. A person who migrated from Pakistan to India or after July 19, 1948, but before July 25, 1949 will be a citizen if he applied for and obtained registration as a citizen and possesses a citizenship certificate.

No person who migrated from Pakistan to India on or after July 25, 1949, can be an Indian National.

2. There are some differences between the number of persons born in a Country according to Table D.—VI—(Migrans). Such differences are bound to exist (*e.g.*, Children born in India to Non-Indian Nationals ; persons born in one foreign country acquiring to the nationality of a different country and so on).

D—VII—Livelihood Classes by Educational Standards

This table is new and designed to show the distribution of educated manpower among the different livelihood classes. It has been derived from answers recorded against question No.12 (Literacy and Education). The following instructions were issued for recording the answers—

If a person who can write has also passed any examination, note the highest examination passed, instead of writing 2. For example Lower Primary, Middle Vernacular, Middle English, Class VII, Class IX, Matric, 1st or 3rd Year examination in Arts or Science, B.A., (Hons.), B.L , B.E., M.B., L.M.P., etc. Do not simply write "Graduate", "Doctor", "Engineer", but record fully the exact name of the examination passed or the degree or diploma attained for Medical, Engineering or other technical qualifications.

The test for reading is the ability to read a simple letter either in print or in manuscript. The test for writing is the ability to write a simple letter.

F-I—Land Holdings of Indigenous Persons

All the Census Statistics were collected through a set of 14 questions framed on an All-India basis. Question No.13 being left to be framed by the State Governments to accommodate any special requirement which they may have. Accordingly this question was framed by the State Government of Assam thus:—

(13) Indigenous Persons—

(*a*) Are you an indigenous person of Assam ?

(*b*) If so, state, in the nearest bigha—

(*i*) the land you own ;

(*ii*) the land you have rented in cash or kind from others.

Instructions for Enumeration

Divide this line of question 13 in 3 parts by drawing 2 small vertical lines.

A reply to this question should be recorded in 3 compartments. If a person is indigenous in Assam write A in the first compartment. In the second compartment write, in the nearest bigha, the land he owns ; and in the third, the land he rents from others in cash or kind.

If he is without any land of either category, write X in the second or third or both the compartments as the case may be. If a person is not indigenous in Assam, write X in all the three compartments.

"Indigenous person of Assam" means a person belonging to the State of Assam and speaking the Assamese language or any tribal dialect of Assam, or in the case of Cachar the language of the region.

"Land owned" means land held directly under Government on permanent settlement or under periodic, annual or special lease (*e.g.* Lakhiraj, Nisf-Khiraj, Fee Simple, 45 years, 99 years and N. L. R. grant lease and lease for special cultivation). Such land should be included in the second compartment.

"Land rented" means the amount of land held by a person under another person (*i.e.*, not directly under the Government), on payment of rent in cash or in kind or on service, under an agreement written or verbal. The person may hold such land for any period from a few months to a number of years, with or without occupancy rights, or on *adhi-bhagi* or *chukti-bhagi* terms. Land may be held as *bargadar* on terms of sharing of produce. All such land should be written in the third compartment.

If the land is owned or rented jointly by a whole family, these data should be recorded in the slip of the head of the household only and should not be repeated in the slips of other members of the household.

The definition of the terms 'land owned' and 'land rented' for question No.13 is however different from that adopted for General Tables-B I-III—Economic Series, derived from question No.10 (Principal Means of Livelihood) under the head 'Agriculture' which is reproduced below:—

The word 'owned' used in relation to land for Principal Means of Livelihood under question No.10 includes every tenure which involves the right of permanent occupancy of land for purposes of cultivation. Such right should be heritable ; it may be, but need not necessarily be also transferable. All Raiyats, Tenants and Jotedars having occupancy rights will be treated as cultivating owners of land.

Annual patta holders, bargadars, adhiars, ijaradars and Raiyats, Jotedars or Tenants who have no occupancy rights will be classed as cultivators of land wholly or mainly unowned.

The State Governments of Manipur and Tripura also adopted this question with slight modification in the instructions for enumeration with reference to local conditions.
