A—Statement showing the details of present set up of states/union territories emerged from the territories of 1961 Census	72—79
B—Statement showing an account of readjustments in district boundaries since 1961 within each state/union territory as it stands reorganised as per statement 'A'	80—87
Sub-Appendix—Statement showing the areas for 1961 and 1971 and population of transferred areas for those towns which have undergone jurisdictional change since 1961	88—93
APPENDIX II—Number of villages with a population of 5,000 and over and towns with a population under 5,000	94—100
APPENDIX III—Houseless and Institutional Population	101—119
A-II DECADAL VARIATION IN POPULATION SINCE 1901	121—148
Fly-leaf	123—127
Table-A-II	129—134
Appendix—State and districts showing 1961 population according to their territorial jurisdiction in 1961, changes in area and the population of 1961 adjusted to jurisdiction of 1971	135—148
A-III VILLAGES CLASSIFIED BY POPULATION	149—179
Fly-leaf	151—155
Table A-III	156—167
Appendix—Villages classified into four broad size groups of population	168—179
A-IV TOWNS AND URBAN AGGLOMERATIONS CLASSIFIED BY POPULATION IN 1971 WITH VARIATION SINCE 1901	181—564
Fly-leaf	181—207
Alphabetical list of towns	208—233
Alphabetical list of urban agglomerations	234—236
Table A-IV	237—497
Appendix I—New Towns added in 1971 and Towns in 1961 declassified in 1971	499—509
Explanatory Note A—Towns treated as such for the first time in 1971 Census and the names of their constituent villages	510—532
Explanatory Note B—1961 Census towns that have been declassified in 1971 Census and the names of the constituent villages into which they have relapsed	533—536
List A—List of places with a population under 5,000 treated as towns for the first time in 1971	537—538
List B—List of places with a population under 5,000 in 1961 which were treated as towns in 1961 but have been omitted from the list of towns in 1971	539
Appendix II—Changes in area of towns with population between 1961 and 1971 and reason for change in area	540—564

PREFACE

The reference date for the 1971 Census of India was the sunrise of 1 April 1971. The provisional population totals giving the population by sex and literates were released on 12 April 1971 in Paper 1 of 1971. A supplement giving the rural/urban break-up of the population and a broad picture of workers was published in August 1971. The final population figures were released in Paper 1 of 1972. The distributions of population by religion and economic characteristics were released in Papers 2 and 3 of 1972 respectively.

The statistics compiled for presentation in the all-India volume, Series 1—Part II-A, are being presented in three sub-parts. This volume, which is the first sub-part, contains the general population tables A-1 to A-IV. The second sub-part (already released) contains the basic data called the 'primary census abstract'. The third sub-part will contain data pertaining to standard urban areas (Table A-V).

I happen to be the Registrar General when this volume is being published. The entire credit for the volume goes to my predecessor, Shri A. Chandra Sekhar (now Additional Secretary in the Ministry of Health & Family Planning) who designed, planned and directed the compilation of this volume.

I acknowledge our debt to my colleagues, the Directors of Census Operations in the states and union territories (listed at the next page) who got these tables compiled for their states/union territories and sent them to the office of the Registrar General, India, for scrutiny and consolidation at the country level.

The arduous task of scrutiny and compilation of tables, preparation of general note, fly-leaves and appendices for India fell on the Census division of the Registrar General's office. I am grateful to all my colleagues in the Census division who, under the very able guidance and constant encouragement of Shri K.K. Chakravorty, Assistant Registrar General (Census), prepared the text and scrutinised the figures contained in this volume. Particular mention has been made of some of them at the end of this note.

I thank Shri V. Sivaram, Manager, and Shri S.N. Chakraborty, who succeeded him, and their colleagues in the Government of India Press, Coimbatore, for the interest they took in printing this volume.

NEW DELHI
Sri Rama Navami

GENERAL NOTE

The basic data of the 1971 Census tabulated on full count are presented in this volume. They appear in four main tables.

A-I Area, houses and population

A-II Decadal variation in population since 1901

A-III Villages classified by population

A-IV Towns and urban agglomerations classified by population in 1971 with variation since 1901.

The Primary census abstract (PCA) is another important general population table which gives particulars relating to area, occupied residential houses, households, population by sex, number of scheduled castes & scheduled tribes, literate and educated persons, workers classified under broad industrial categories and non-workers. The PCA will form all-India series 1 Part II-A (ii).

Sikkim does not figure in a number of inset statements included in this volume as detailed figures were not available in time.

2. THE 1971 CENSUS COUNT:

The 1971 Census enumeration was conducted in March-April 1971 with sunrise of 1 April 1971 as the reference point of time. The census enumeration was originally scheduled to commence on 10 February and end on 28 February 1971 with the reference date as the sunrise of 1 March 1971. The mid-term poll to the Lok Sabha made it necessary to postpone the census enumeration by a month. The enumeration, therefore, commenced on 10 March and ended on 31 March 1971 with a revisional round from April 1 to April 3 to relate the data to as sunrise of 1 April 1971 which was the reference date. All persons usually residing in a household during this reference period were enumerated. The houseless were enumerated on the night of 31 March.

In the snow-covered areas of Jammu & Kashmir, Himachal Pradesh and Uttar Pradesh, enumeration was done in September/October 1970. In a few tribal tracts of Andhra Pradesh, enumeration was done in December 1970 and January 1971. In Arunachal Pradesh enumeration commenced in September 1970 and proceeded till February 1971. In West Bengal an extraordinary situation prevailed on account of disturbed law and order conditions. It was, therefore, decided to complete the enumeration in West Bengal slightly in advance of the rest of the country. Accordingly enumeration began on 1 February and was over by 28 February 1971. The revisional round was, however, undertaken from 1 to 3 April to bring the data up-to-date as at sunrise of 1 April 1971. Enumeration was completed successfully in West Bengal despite all the odds.

Thus the 1971 Census count covered the entire country with the exception of parts of Jammu & Kashmir under the illegal occupation of Pakistan and China.

3. PREPARATORY MEASURES:

Preparations for evolving the census questionnaires, concepts and procedures for the 1971 Census were taken on hand by the Registrar General as early as in 1966. A letter enclosing 1961 Census documents was sent to all data users including the Planning commission, the Central statistical organisation, the Directorate general of employment & training, the Institute of applied manpower research and various other government offices and institutions. A four day seminar of the working group of experts held from 3 to 6 May 1967 in New Delhi laid stress on the following three points:

(i) Efforts should be made to preserve the comparability of 1961 and 1971 Census data.

(ii) The census should not, as far as possible give scope for the creeping in the elements of bias and subjectivity at the enumerator's level.

(iii) The level of understanding of the enumeration agency should be kept in mind while evolving the questionnaires and concepts for a mass operation such as the census.

Tentative schedules for the 1971 Census were drafted and pretested in the field by the State Directors of Census Operations during November-December, 1967. The results and experiences gained in the field were discussed at a conference of Director of Census Operations held in January 1968 in New Delhi and the schedules were slightly revised.

A second conference of important census data users was held in October 1968. The schedules recommended at the data users' conference were pretested in regional languages throughout India by the Directors of Census Operations in March-April 1969 in 290 enumeration blocks of which 134 were located in urban areas. The enumeration extended over 19 days with a revisional round of three days.

The enumerators were in a majority of cases drawn from among teachers, government officials, officers of the local bodies, village panchayats, etc.

In the end the following schedules were finalised and canvassed universally in the 1971 Census:

(a) Houselist

(b) Establishment schedule

(c) Individual slip

Another schedule called the Population record was compiled from the information collected in the Individual slip.

HOUSELIST:

As in the 1961 Census, a houselist form was canvassed throughout the country six to eight months in advance of the census enumeration. The operation was preceded by house-numbering which involved affixing of numbers or painting the same on the door of each house and structure in a systematic manner. Simultaneously with the operation lay-out plans and notional maps of villages or urban blocks were prepared showing the housing units and their numbers. This helped in drawing a systematic geographical frame for ensuring complete coverage at the census. Besides basic data on housing, the houselist collected information about the household population; this in a way was an advance estimate of the population to be counted. The houselist of 1971 by and large followed the 1961 pattern. The improvements were that in respect of vacant house, the reason for vacancy was ascertained. In 1961 a number of dilapidated houses and even vacant sites were allotted house numbers and shown as 'vacant', this gave a misleading impression about the number of vacant houses. If the head of household belonged to a scheduled caste or scheduled tribe, it was specifically recorded. The households engaged in cultivation were recorded as such. This was done in the hope that the list might form a frame for any sample survey of agricultural households that a future agricultural census might attempt. In 1961, some data on houses used as factories or workshops were collected. In 1971, a separate schedule called the Establishment schedule was canvassed along with the Houselist, its scope was wide and it covered all establishments.

ESTABLISHMENT SCHEDULE:

This is a new schedule developed at the 1971 Census. It covered all establishments—manufacturing, trade or other establishments where people worked. An establishment was defined as a place where goods were produced or manufactured not solely for domestic consumption, or where servicing and/or repairing was done, such as a factory, workshop or household industry or a place where retail or wholesale business was carried on or

commercial services were rendered or an office, public or private, or a place of entertainment or where educational, religious. social or entertainment services were rendered. It was held necessary that in all these places one or more persons should be actually working. The following particulars for each establishment were collected:

(1) Name of establishment or of the proprietor; (2) Is the establishment (a) govt./quasi govt., (b) private, (c) co-operative institution; (3) Average number of persons working daily last week or in the last working season, including proprietors and/or family workers; (4) If any manufacturing, processing or servicing is done, is it (a) household industry, (b) registered factory, (c) unregistered workshop; description of the products, processing or servicing done; type of fuel or power used; (5) If used as a trading establishment, description of goods bought/sold, whether wholesale or retail; or (6) if used as any other establishment, its nature, e.g., government office, school, hospital, railway station, barber's shop, cinema theatre, hotel, tea stall, etc.

This schedule yielded very useful data particularly in regard to the unorganised sector, classifying the establishments by the size of employment and the industrial or trade categories; correlating the power used and size of employment; indicating simultaneously if these were public or private or co-operative institutions by the size of employment. The Establishment schedule will also serve as a good frame for future sample surveys. The Establishment schedule, however, covered only the establishments run in a census house which was listed and did not cover open-air establishments or itinerant establishments.

INDIVIDUAL SLIP:

This was the basic schedule of the 1971 population census. It contained 17 questions divided into parts covering the following:

1. Name
2. Relationship to head
3. Sex
4. Age
5. Marital status
6. For currently married women only; (a) Age at marriage; (b) Any child born in the last one year.
7. Birth place; (a) Place of birth; (b) Rural/urban; (c) District; (d) State/country
8. Last residence; (a) Place of last residence; (b) Rural/urban; (c) District; (d) State/country
9. Duration of residence at village or town of enumeration.
10. Religion.
11. Scheduled caste or scheduled tribe
12. Literacy
13. Educational level
14. Mother tongue
15. Other languages
16. Main activity; (a) Broad category; (i) Worker (ii) Non-worker; (b) Place of work (Name of village/town); (c) Name of establishment; (d) Nature of industry, trade, profession or service; (e) Description of work; (f) Class of worker
17. Secondary work; (a) Broad category; (b) Place of work (Name of village/town); (c) Name of establishment; (d) Nature of industry, trade, profession or service; (e) Description of work; (f) Class of worker

The new features of the 1971 Individual slip may be mentioned. An attempt was made to collect data on current fertility. Migrational particulars with reference to the place of last residence were collected which are expected to yield useful data on internal migration. There was a considerable departure in respect of the 'economic' questions. The main activity and secondary activity, if any, of a person were ascertained according to as he spent his time basically as a worker producing goods and services or as a non-worker. For regular work in industry, trade or service the reference period was the week prior to enumeration and for seasonal work such as agriculture the last one year. The person was categorised according to the main activity returned by him. Where a person, who was basically a non-worker such as student or housewife, made some marginal contribution to work, that secondary work was recorded in question 17. The 1961 experience had shown that census was not the proper agency to collect reliable data on unemployment as such. The 1971 Census did not ask a question on unemployment directly, but the unemployed were generally expected to fall in the residuary category of non-workers.

POPULATION RECORD:

A population record was prepared by copying out the relevant particulars from the Individual slip, e.g., name; relationship to head; sex (male/female); age; marital status; literacy (L/O); description of main acitivity of members of each household.

In 1961, on the obverse of the Population record form then developed, there was a 'Household Schedule in which certain particulars of the holdings and land rights of agricultural households were recorded, as also details of household industries. Since an agricultural census was proposed to be conducted by the Government in the 1970's it was decided not to attempt collection of data on holdings, land rights, etc., at the population census. The household schedule was, therefore, not adopted in 1971.

DEGREE HOLDERS AND TECHNICAL PERSONNEL CARD:

As in 1961, a census of degree-holders and technical personnel was taken by canvassing a Schedule which had been finalised in consultation with the Council of scientific & industrial research. The enumerator was required to leave one or more of these cards, as the case might be with the household whenever he came across a graduate or a post-graduate as also those with a technical diploma or degree, for being filled by the eligible person(s). The enumerator was required to collect the filled-in card(s) from the respondent during his revisional round or even earlier but before completing the enumeration of his area.

Specimens of each of the above documents are reproduced as Annexure A. The instructions to enumerators for filling up the Individual slip are reproduced as Annexure B.

The requirements of schedules and instructions were carefully assessed centrally, giving due weightage for the growth of population, wastage and also providing for sufficient reserve to meet unforeseen demands. The translation of the schedules and instructions for filling in the same in various regional languages was done very carefully having regard to the nuences and connotation of terms. About 3,500 tonnes of paper had to be procured to print these schedules running into hundred of millions and instruction booklets for the whole country. The paper required for the purpose had to be manufactured specially by the mills in good time. The services of a number of Government of India and State government presses were utilised for printing these schedules and instruction booklets so that these reached each enumerator well in time.

PREPARATION OF MAPS:

A census must ensure that every person in the country is enumerated only once and without any omission. In order to achieve this, maps for all districts and taluks and, ultimately, for every village and town were prepared. Up-to-date administrative boundaries were marked on these maps taking into consideration all changes that had taken place since 1961. The boundaries are generally frozen a year in advance of the census enumeration. After identifying every village and town on a taluk map, code numbers were allotted to each of these units which were to be fully accounted for at the census. Notional maps of every village and

every ward/block of a town were prepared, showing the location of every census house. These notional maps proved extremely helpful at the time of enumeration. They served as the frame for the clear demarcation of the enumerator's jurisdiction and enabled him to cover every household in his block and take note of additions that might have taken place after the preparation of the notional map. Complete coverage of areas was thus ensured.

RURAL AND URBAN AREAS:

The village or town is recognised as the basic area of habitation. In all censuses throughout the world this dichotomy of rural and urban areas is recognised and the data are generally presented for rural and urban areas separately. But the distinction between rural and urban population is not yet amenable to a single definition which would be applicable to all countries.

In India the smallest area of rural habitation is the village. It generally follows the limits of a revenue village that is recognised by the district administration. The revenue village need not necessarily be a single agglomeration of habitations. It may have one or more hamlets. But the revenue village has a definite surveyed boundary and each village is a separate administrative unit with separate village accounts. There may be unsurveyed villages within forests where the locally recognised boundaries of each habitation area are followed within the larger unit of say, the forest range officer's jurisdiction.

It is in defining the urban areas that problems arise. The definition adopted for an urban area for the 1971 Census which followed the 1961 pattern was as follows:

(a) All places with a municipality, corporation, cantonment or notified town area;

(b) all other places which satisfied the following criteria:

(i) a minimum population of 5,000;

(ii) at least 75% of the male working population being non-agricultural;

(iii) a density of population of at least 400 per Km^2 (i.e., 1,000 per sq. mile).

The Directors were, however, given some discretion in respect of some marginal cases in consultation with the state government, to include some places that had other distinct urban characteristics and to exclude underserving cases.

STANDARD URBAN AREAS:

A new concept that had been developed for the 1971 Census for the tabulation of certain urban data was the Standard urban area (SUA). The essentials of an SUA are (i) it should have a core town of a minimum population size of 50,000; (ii) the contiguous area made up of other urban as well as rural administrative units should have close mutual socio-economic links with the core town; and (iii) the probabilities are that this entire area will get fully urbanised in a period of two or three decades. The aim was to provide comparable data for a definite area of urbanisation continuously for three decades. This replaced the 1961 concept of 'town group'. The 1961 town group was made of independent urban units not necessarily contiguous to one another but inter-dependent to some extent. The data for such town groups did not permit comparison from census to census as the boundaries of the towns changed and intermediate areas were left out of account. If data for SUA's be made available in the next two or three successive censuses, they are likely to prove useful for studying urbanisation around large urban nuclei.

URBAN AGGLOMERATION:

In several areas, fairly large railway colonies, university campuses, port areas and military camps have come up around a core city or statutory town. Though these are outside the statutory limits of a corporation, municipality or cantonment, they fall within the revenue boundary of the place by which the town itself is known. It may not be altogether realistic to treat such areas lying outside the statutory limits of a town as rural units; at the same time each such area by itself may not come up as the minimum population limit to be treated as an independent urban unit. Such areas deserve to be reckoned along with the main town and the continuous spread including such urban out-growths would deserve to be treated as an integrated urban area which is being called 'Urban agglomeration' (UA) at the 1971 Census. The following are the different situations in which urban agglomerations would be constituted:

(a) a city with a continuous out-growth (the part of out-growth being outside statutory limits but falling within the boundaries of the adjoining village or villages);

(b) one town with a similar out-growth or two or more adjoining towns with their out-growths as in (a); and

(c) a city and one or more adjoining towns with their out-growths all of which form a continuous spread.

THE CENSUS HIERARCHY:

The Registrar General and ex-officio Census Commissioner of India is responsible for conducting the population census which is a union subject under the charge of the Ministry of Home Affairs. He is assisted by several officers who look after the different branches of work within his office.

For each of the states and union territories an officer is appointed as Superintendent of census operations. For administrative convenience, he was designated as Director of census operations in 1969. He is directly responsible to the Census Commissioner of India for organising and supervising the census operations within his area. The Director of census operations were in position by about the first half of 1969. The Directors were assisted by a number of Deputy or Assistant Directors.

It has been the Indian tradition that in view of the national importance of the census, the entire administrative machinery of the state and local goverments is also called upon to assist the state DCO's in census work. The 1971 Census hierarchy in the state or union territory followed the normal administrative set up. For each district, the administrative head of the district (the district collector) was designated as the district census officer who undertook the census duties in addition to his normal duties. In certain cases, however, some senior officer of the district collector's establishment worked as district census officer, although the district officer himself remained responsible for the proper conduct of the census operations. The district census officer was responsible for demarcating the census jurisdiction within the district, appointing and training enumeration personnel, the execution and supervision of every stage of census operations. The district was sub-divided into tehsils, talukas, thanas, sub-divisions, blocks, police stations, etc., according to the administrative set up obtaining in each state. The chief administrative officer of each of the administrative divisions such as the tehsildar, block development officer, etc., was appointed as census charge officer for his area. Large cities were treated as separate census charge and the executive officer of the civic body appointed as census charge officer. For areas such as military camps, project areas, special industrial areas, railway colonies, etc., special charge officers from the organisations concerned were appointed. All these officers were required to attend to census duties as part of their normal work. The smallest administrative unit was the village or town. For each village and each town, enumeration blocks were formed in such a way that each block covered about 750 population in rural areas and 600 in urban areas. For each of these enumeration blocks a census enumerator was appointed. Some reserve personnels were also appointed and trained. Normally a Primary school teacher or village patwari or some other village level official in rural areas and teachers or clerical or other staff of local offices in urban areas were appointed as the census enumerators. A census supervisor supervised and guided the work of five or six enumerators. The supervisors were generally officials of the state or local governments of a status higher than those appointed as enumerators. (Though a small honorarium was paid to them.) The enumerators and supervisors were also basically part-time honorary workers who undertook the census work more out of a sense of duty and of helping a great national task. There were over a million census enumerators and supervisors in 1971. There were 200,000 supervisors, a large number of census charge officers and over 350 district census officers who were all part-time workers.

The enumeration staff performs its duties largely as a labour of love. Till the 1951 Census the enumerators were not paid anything at all. In 1961 a small honorarium of about Rs. 15/- to 20/- per enumerator (including the cost of house-numbering material) and about Rs. 25/- per supervisor was paid. This small sum hardly met the extra expenses that the enumerator had to incur by his having to attend a minimum of six training classes, sometimes he had to travel more distance, though generally it was ensured that the enumerator need not go more than five miles to attend to enumeration work. It is a tribute to census enumerators that they fulfilled their responsibilities at considerable inconvenience and expense to themselves for no other reason than their realisation that they were entrusted with a vital national task. For the 1971 Census the rate of honorarium was raised to Rs. 40/-per enumerator and supervisor. The sum of Rs. 40/- was paid in two instalments, viz., Rs. 15/- after house-numbering and houselisting and Rs. 25/- after census enumeration. This provided some relief to the enumerators though certainly it could not be considered as a remuneration commensurate with the work turned out.

TRAINING:

Each one in the census hierarchy has to be very clear on what his duties and responsibilities are. He has to undertstand census concepts clearly. Manuals of instructions issued by the Census Commissioner or the DCO's invariably contain specimens of a few typical filled in schedules. The regional director gets trained by the Census Commissioner and in his turn imparts intensive training to the district and sub-district census officers and the charge superintendents who themselves train the census enumerators and supervisors. Each supervisor must ensure that every enumerator under him has understood the instructions thoroughly. A good part of the training is spent on demonstration and practice enumeration. The mistakes found during the practice rounds were fully discussed after each practice enumeration.

THE CENSUS ACT:

The census is conducted under the Census Act (Act No. XXXVII of 1948) (See annexure C). This act empowers the Central Government to notify and conduct a census in the whole or part of the country. The Census Commissioner of India and the DCO's are appointed to supervise the taking of census. The act empowers the states or such authority to whom the state governments delegate powers to appoint census officers at various levels to aid in, supervise and take the census. The act authorises the census-takers to ask the prescribed census questions and legally compels all persons to answer the questions truthfully. The law lays down that the information collected at the census will be used only for statistical purposes and that the information about individuals will be kept confidential and can not be used as evidence even in a court of law. The act gives extra-ordinary powers to secure all types of assistance from the local bodies or any other person in order to complete the task.

PROVISIONAL TOTALS:

Soon after enumeration was over, the provisional totals were communicated from the enumerators upwards to the DCO's and thereon to the Registrar General, by the quickest possible means. These figures were published on 12 April 1971 within a record time of less than ten days of the completion of census enumeration. Thereafter the census schedules were processed in detail in regional tabulation offices set up in different parts of the country.

POST-ENUMERATION CHECK:

The post-enumeration check is essential for any systematic and comprehensive enquiry like the population census. It goes into the coverage and validity of the results. It was carried out in April 1971 in certain limited areas. The result of this survey is at annexure D.

COMPUTERISATION:

A significant change in 1971 has been the processing of data by computer. In the past censuses, the data had been almost entirely sorted and tabulated manually except that, in 1961, household economic data were processed on a sampling basis on conventional machines. Manual sorting and tabulation have certain limitations. A beginning was, therefore, made in mechanisation when the household economic tables of the 1961 Census were tabulated on conventional machines like sorters, tabulators, etc. The Registrar General's Office now has an I.B.M. 1401 electronic computer with 16-K memory and 6 tape drives. Data for most of the 1971 Census tables are being tabulated on the computer to meet the need for more complicated tabulations with speed and accuracy. But even computerisation of massive data covering a population of five hundred million presented problems. It was, therefore, decided that most of the census tabulations would be based on the processing of 10 per cent of the rural slips and 20 per cent of the urban slips. The data pertaining to 20% of the urban individual slips would be transferred on to punched cards and, thence to magnetic tape and all the cross-tabulations for urban data would be generated by processing this data on the electronic computer. The cross-tabulation of the rural data would be derived from 10% sample of the individual slips being processed manually. The tabulation of the houselist data has been done on a 20 per cent sample basis and that of Establishment schedules on a 100 per cent basis. The data relating to the housing and establishments have been processed on the electronic computer. In addition, an advance tabulation at the national level from one per cent sample of the individual slip was done on the computer and data released in.

The basic population particulars for the smallest administrative areas needed for the purpose of revision of electoral constituencies and other administration purposes of the Government were obtained by a 100 per cent manual processing of the enumerated schedules. These are being published in Part-B of Census Handbooks of the districts concerned.

TABULATION:

According to the tabulation plan of the 1971 Census, there will be four tables each, devoted to housing conditions and establishments respectively. The individual slip will yield five General population tables, the Primary census abstract (PCA), nine Economic tables, eight Social and cultural tables, six Migration tables, five Fertility tables, twelve Special tables for degree-holders and technical personnel. Details are given below:

GENERAL POPULATION TABLES:

A-I	Area, houses and population
A-II	Decadal variation in population since 1901
A-III	Villages classified by population
A-IV	Towns and urban agglomerations classified by population in 1971 with variation since 1901
A-V	Standard urban areas Union/State Primary census abstract Urban block/Village-wise Primary census abstract

ECONOMIC TABLES:

B-I	Part-A	Workers & non-workers according to main activity classified by sex and age groups
	Part-B	Female workers and non-workers according to main activity classified by marital status and age groups
B-II		Workers and non-workers in cities and non-city urban areas according to main activity by sex and age groups
B-III	Part-A	Classification of workers and non-workers according to main activity by educational levels in urban areas only

	Part-B	Classification of workers and non-workers according to main activity by educational levels in rural areas only
B-IV	Part-A	Industrial classification of persons at work other than at cultivation as main activity by sex and divisions, major groups and minor groups
	Part-B	Industrial classification of workers in manufacturing, processing, servicing and repairs on household industry basis as main activity by sex and class of workers
	Part-C	Classification of workers in non-household industry, trade, business, profession or service as main activity by class of workers, age and sex
	Part-D	Industrial classification by sex and class of workers of persons at work in non-household industry, trade, business, profession or service as main activity.
B-V	Part-A	Occupational classification by sex of persons at work according to main activity other than cultivation
	Part-B	Occupational classification by sex and class of workers in non-household industry, trade, business, profession or service as main activity
B-VI	Part-A(i)	Occupational classification of persons at work according to main activity other than cultivation classified by sex and age groups in urban areas only
	Part-A(ii)	Occupational classification of persons at work according to main activity other than cultivation classified by sex and educational levels in urban areas only
	Part-B(i)	Occupational classification of persons at work according to main activity other than cultivation by sex and age groups in rural areas only
	Part-B(ii)	Occupational classification of persons at work according to main activity other than cultivation classified by sex and educational levels in rural areas only
B-VII		Secondary work, i.e., persons having main activity (i) cultivators, (ii) agricultural labourers, (iii) household industry, (iv) non-household industry, trade, business or service and (v) non-workers classified by sex and by secondary work as (i) cultivators, (ii) agricultural labourers; (iii) household industry, (iv) non-household industry, trade, business or service
B-VIII		Persons classified as non-workers according to main activity cross-classified by sex, age groups and type of activity
B-IX	Part-A	Non-workers categorised as 'others' aged 15 and above classified by sex, age groups and educational levels in urban areas only
	Part-B	Non-workers categorised as 'others' aged 15 and above classified by sex, age groups and educational levels in rural areas only

SOCIAL AND CULTURAL TABLES:

C-I	Part-A	Members of households by relationship to head of household classified by age groups (20% sample)
	Part-B (i)	Households where the head is a male by relationship of members with the head
	Part-B (ii)	Households where the head is a female by relationship of members with the head
C-II		Age and marital status
C-III	Part-A	Age, sex and education in all areas
	Part-B	Age, sex and education in urban areas only
C-IV		Single year age returns
C-V		Mother-tongue (alphabetical order)
C-VI		Bilingualism
C-VII		Religion
C-VIII		Scheduled castes and scheduled tribes
	Part-A	Classification by literacy and industrial category of workers and non-workers according to main activity among scheduled castes
	Part-B	Classification by literacy and industrial category of workers and non-workers according to main activity among scheduled tribes

MIGRATION TABLES:

D-I		Population classified by place of birth
D-II		Migrants classified by place of last residence and duration of residence in place of enumeration
D-III		Migrants to cities classified by sex, broad age groups, educational levels and in case of workers, by occupational divisions
D-IV		Population of cities classified by place of last residence and duration of residence
D-V		Workers and non-workers according to main activity classified by place of last residence
D-VI		Migrants classified by place of last residence, age groups, duration of residence and marital status

ESTABLISHMENT TABLES:

E-I		Distribution of establishments by broad types
E-II	Part-A	Distribution of manufacturing, processing or servicing establishments other than household industries classified by registered factories, unregistered workshops and size of employment
	Part-B	Distribution of manufacturing, processing or servicing establishments other than household industries classified by industry, fuel/power used and size of employment
	Part-C	Distribution of household industry, establishments classified by industry, fuel/power used and size of employment
E-III		Distribution of trade/commercial establishments classified by the type of business or trade and size of employment
E-IV		Distribution of establishments (other than manufacturing, processing or servicing or business and trade establishments) by size of employment

FERTILITY TABLES (SAMPLE):

F-I	Part-A	Distribution of currently married women and the related births during the last year by religion, present age and age at marriage (rural)
	Part-B	Distribution of currently married women and the related births during the last year by religion, present age and age at marriage (urban)

F-II	Part-A	Distribution of currently married women and the related births during the last year by education, present age and age at marriage (rural)
	Part-B	Distribution of currently married women and the related births during the last year by education, present age and age at marriage (urban)
F-III	Part-A	Distribution of currently married women and the related births during the last year by religion, duration of marriage and age at marriage (rural)
	Part-B	Distribution of currently married women and the related births during the last year by religion, duration of marriage and age at marriage (urban)
F-IV	Part-A	Distribution of currently married women and the related births during the last year by education, duration of marriage and age at marriage (rural)
	Part-B	Distribution of currently married women and the related births during the last year by education, duration of marriage and age at marriage (urban)
F-V		Distribution of currently married women and the related births during the last year by religion, education groups, present age and age at marriage of the women (rural/urban)

SPECIAL TABLES FOR DEGREE HOLDERS AND TECHNICAL PERSONNEL (DHTP):

G-I	Distribution of DHTP in each subject field by level of education
G-II	Distribution of DHTP in each subject field by status and levels of education
G-III	Distribution of DHTP by level of education and emoluments classified by sector of employment
G-IV	Distribution of DHTP by subject field, age groups, and sector of employment further classified by emoluments
G-V	Distribution of employed DHTP (other than self-employed) by type of organisation of present employment classified by levels of education and subject fields
G-VI	Distribution of unemployed DHTP with engineering and technology qualifications classified by degree and diploma levels and by subject of such degree and diploma
G-VII	Distribution of DHTP who are unemployed and seeking employment in each subject field by duration of unemployment level of education and sex
G-VIII	Distribution of unemployed degree holders and above in arts, humanities and commerce classified by degrees and their subjects
G-IX	Distribution of unemployed degree holders and above in science and other selected subjects classified by degrees and their subjects
G-X	Distribution of unemployed persons having qualifications in technical/vocational trades by subjects
G-XI	DHTP engaged in research by subject field and levels of education
G-XII	Distribution of DHTP by country of education subject field, levels of education and sex

HOUSING TABLES:

H-I	Census houses and uses to which they are put
H-II	Distribution of census houses by predominant material of wall and predominant material of roof
H-III	Households classified by number of members and by number of rooms occupied
H-IV	Households classified by size and tenure status

PUBLICATIONS:

The 1971 publications will be made up of 30 series, the first series covering the all-India publications and the remaining series one for each state and union territory in alphabetical order.

Series No.	Territorial unit
1	ALL INDIA
2	Andhra Pradesh
3	Assam*
4	Bihar
5	Gujarat
6	Haryana
7	Himachal Pradesh
8	Jammu & Kashmir
9	Kerala
10	Madhya Pradesh
11	Maharashtra
12	Manipur
13	Meghalaya
14	Mysore (Karnataka)
15	Nagaland
16	Orissa
17	Punjab
18	Rajasthan
19	Tamil Nadu
20	Tripura
21	Uttar Pradesh
22	West Bengal
23	Andaman & Nicobar Islands
24	Chandigarh
25	Dadra & Nagar Haveli
26	Delhi
27	Goa, Daman & Diu
28	Laccadive, Minicoy & Amindivi Islands (Lakshadweep)
29	Arunachal Pradesh
30	Pondicherry

Part and sub-parts of each series would cover specified types of census reports or tables and the part number and type of subject covered would be uniform for all the series. The details are indicated below:

Part No. and subject covered	Sub-part No. (if any). and subject covered
Part-I Census general report	Part 1- A First part of the general report discussing the data yielded from the Primary census abstract and the broad religion and mother tongue distribution. It will cover distribution, growth and density of population, sex ratio, rural and urban differentials, broad literacy rates, population of scheduled castes and scheduled tribes, broad economic categories, etc.

*Includes Mizo district now constituted as union territory of Mizoram.

Part No and subject covered	Sub part No (if any), and subject covered
Part I General Report—*concld*	Part I B Second part analysing demographic, social cultural and migration patterns after the completion of the full tabulation programme A technical note on the sampling procedures is to be incorporated in this part
	Part I-C Subsidiary tables
Part-II Census tables on population	Part II A Union/State/Union territory General population tables and Primary census abstract
	Part II-B Economic tables
	Part II-C (i) Distribution of population by mother tongue and religion and scheduled castes and scheduled tribes
	Part II-C (ii) Other social and cultural tables and fertility tables (Tables on household composition, single year age marital status educational levels scheduled castes & scheduled tribes, etc bilingualism)
	Part II D Migration tables
	Part II (Spl) All-India census tables on 1% sample basis—(Technical note on sampling is to be incorporated)
Part III Establishments report and tables	
Part IV-A Housing report and housing subsidiary tables	
Part IV-B Housing tables	
Part V Special tables and ethnographic notes on scheduled castes and scheduled tribes	
Part VI A Town directory	
Part VI B Special survey reports on selected towns	
Part VI-C Survey reports of selected villages	
Part VII Special report on degree holders and technical personnel	
Part VIII Administration report	Part VIII-A Administration report-enumeration (for official use)
	Part VIII-B Administration report—tabulation (for official use)
Part IX Census atlas	
Part IX-A Administrative atlas	
Part X District census handbook	Part (A) Village and town directory
	Part (B) Village and town-wise Primary census abstract
	Part (C) Analytical report and administrative statements and district census tables
Special Monographs	
Miscellaneous	(These will be published as special papers in each year as and when ready)

(a) Special studies taken up by DCO s
(b) Special area surveys taken up by RG's office
(c) Special tables for Standard urban areas
(d) Language survey report
(e) Post enumeration check report
(f) Age tables
(g) Life tables
(h) Report on estimates of inter-censal birth and death rates using 1971 life table and age data
(i) Development of vital statistics in India

The village and town directory particulars in the District census handbook Part—A would be presented tehsil wise within each district

The District census handbook Part—B will give the Primary *census abstract figures within a district tehsil-wise and within it* for each town and for each village For each town the Primary census abstract figures would be provided ward-wise and further down to the census enumerator's block

Part—C of the District census handboo would contain a short-write up and incorporate administrative statistics and the census tables of the district

ANCILLARY STUDIES

(1) *Survey of selected towns and resurvey of some* 1961 *villages selected for socio economic survey*

In the 1961 Census, the main plank of the ancillary studies was the socio-economic survey of some selected villages, survey of some selected crafts, of fairs and festivals, consanguineous marriages, etc Considering the fact that urbanisation on a large scale is bound to occur, the ancillary studies of the 1971 Census will be focussed on a survey of some selected towns Other types of projects such as a re-survey of a few selected villages previously covered will reflect the trends of change An enthnographic survey of the scheduled castes and scheduled tribes will be undertaken

(2) *Census Atlas Project*

The census organisation, perhaps, has been the largest single producer of maps of the Indian sub-continent apart from the Survey of India and the Geological survey But a census atlas as such was brought out only in the 1961 series The 1961 t adition is being continued in the 1971 Census also

It is proposed to bring out the Census atlas of India and of individual states and union territories The atlases of states/union territories have been proposed for depicting various aspects of orientation, physiography, demographic structures and trends, urbanisation, agricultural census, industrial categories, electricity, transport and communications, trade and commerce, services, socio-cultural aspects of scheduled castes and scheduled tribes, religion, languages, literacy and education, housing and health, etc. Some specialised maps for Standard urban areas will also be prepared indicating various aspects of census data which would be available on a full count basis in the 1971 Census The atlas series of the 1971 census will thus present various populat on patterns and problems from the smallest unit le el of taluka/tehsil/sub division/police station in various states to the district level for the whole of the country

ANNEXURE

CENSUS OF

HOUSE

Name of District..... ..... Code No.....

Name of Taluk/Tehsil/Thana/Anchal/Island..... Code No.....

Line No.	Building No. (Municipal or Local Authority or Census No.)	Census House No.	Predominant construction material of Census house		Purpose for which census house is used *e.g.* residence, shop, shop-*cum*-residence, business, factory, workshop, workshop-*cum*-residence, school, bank, commercial house, office, hospital, hotel, etc, or vacant	Is it used wholly or partly as an establishment? ANNEXURE B

INSTRUCTIONS TO ENUMERATORS FOR FILLING UP THE INDIVIDUAL SLIP AND POPULATION RECORD

GENERAL

As a Census enumerator, you are performing a duty which is of great national importance. The data you provide through the Census form the basis for the demarcation of electoral constituencies ; the national planning largely depends on the accuracy of the Census data. Census data are also depended upon heavily by the public and Government Organisations. You are privileged to be a Census enumerator. At the same time, your responsibilities are also heavy. You have to fulfil them with a sense of pride and devotion to duty.

2. For your information certain provisions of the Indian Census Act which clothes you with the legal power to canvass the Census questionnaire and also prescribes your responsibilities is reproduced in Annexure C.

3. Please take particular note of the provision of sections 11 (1) (a) and (b) of the Census Act which require you to perform your duty as a Census Officer diligently and to keep the information collected at the Census confidential.

4. The Indian Census has a rich tradition and has enjoyed the reputation of being one of the best in the world. It is hoped that you will help in keeping up this good name.

REFERENCE DATE AND ENUMERATION PERIOD

5. The reference date for the population Census of 1971 is the sunrise of 1st April, 1971 *i.e.*, the Census is expected to provide a picture of the population of the country as it exists at sunrise of 1st April, 1971. It is obviously not possible to ascertain the particulars of every individual throughout the length and breadth of the country at this fixed point of time. Therefore, the enumerator will actually commence his work of enumeration on 10th March, 1971 and end it on 31st March, 1971. You will, therefore, have to cover your jurisdiction and enumerate every person as will be explained in the succeeding paragraphs during that period of 21 days. But in order to bring the picture up-to-date as at sunrise of 1st April 1971 *i.e.*, the reference date for the Census, you will have to quickly go round your jurisdiction again on a revisit from 1st to 3rd April, 1971 and enumerate any fresh arrival in your jurisdiction who might not have already been enumerated elsewhere and also take account of any fresh births that might have taken place in any of the households after your previous visit and before the sunrise of 1st April, 1971 and fill in fresh Census schedules to cover such cases. As a corollary you will have to also cancel the Census schedules relating to persons who may have unfortunately died since your last visit to a household but prior to the sunrise of 1st April, 1971. Births or deaths and arrivals of visitors that had taken place after the sunrise of 1st April, 1971 need not be taken note of by you.

PAD NUMBER AND SLIP NUMBER

6. The Census Charge Officer or the Supervisor would have issued the required number of enumeration schedule pads of individual slips to you. Some may be in pads of 100 schedules and some of 25. On the top of the pad, the pad number would have been noted prominently by the Charge Officer. Soon after you receive your pad, you should check them and note on the right hand corner of each individual slip, within each book in the space provided for the purpose, the Pad Number as given on the top of the cover and you should also allot serial number to each schedule. The serial number of the schedules will have to be given by yourself in one sequence starting with one on the first schedule of the pad and ending with 100 in case of pads of 100 schedules and ending with 25 in case of pads of 25 schedules. In some pads the actual number of schedules may by mistake be a little more or little less. The last serial number in such pads may, therefore, vary accordingly. The ultimate idea is that every slip should be allotted the pad number as well as the distinct serial number.

LOCATION CODE AND YOUR JURISDICTION

7. On the top cover page of each book you will also find the location code number of your village or town indicating the district number, the tehsil or thana or town number and the village number. You may find that the district number and the tehsil number have been already stamped on each slip in the rural pads. In the case of urban areas, the town number may also be rubber stamped along with the district number. In rural areas you will have to note in addition the village number and the enumerator Block Number and for towns ward number, if any and enumerator Block Number. But if on any slip, location code has not been stamped through oversight, you will have to note the combined location code number made-up of the district number, tehsil or thana or town number and the village/ward number and enumerator block number on each schedule on the left hand top corner in the space provided for the purpose. Elements of each code should be separated by oblique strokes. The enumerator block number may be noted within round brackets at the end of the location code. Please also see the instructions in para 22 below. You must get yourself fully acquainted with the complete code numbers allotted to your area. This will be intimated to you by your Census Charge Officer.

8. If you have, by any chance, been put in charge of more than one village or urban block, please make sure that you have separate pads for each village or urban block. Do not enumerate the population of a second village or a second urban block in continuation of the first in a common pad. The enumeration schedule pads of each village or urban block will have to remain separate.

9. Your appointment order would have defined your Census jurisdiction. You must acquaint yourself with your jurisdiction immediately your appointment order is received. You should get to know the relevant house numbers of the houses which you are expected to visit for enumeration. Any new houses that might have come up within the limits of your jurisdiction for which no number had been allotted before, should be indicated by a sub-number to the adjoining house number. You should also know the dividing line between you and the adjoining enumerator. Make sure that he also knows the boundaries of your jurisdictions so that there is no ambiguity, and overlapping or omission. In case of any doubt you should immediately consult your Supervisor or the Charge Officer.

10. Immediately you are appointed a Census Enumerator please prepare a detailed sketch of the area allotted to you showing the streets, other prominent land marks and also the location of the actual houses that you enumerate. This sketch is important in order that your area may be identified by any one even at a later date. This sketch will also ensure complete coverage at the Census. You will be required to give this sketch with your final abstract to your Supervisor immediately after the Census enumeration is completed.

PERSONS TO BE ENUMERATED

11. While your appointment order may indicate all the houses that fall in your jurisdiction you will have to locate every household in your area. 'A household is defined as 'the entire group of persons who commonly live together and take their meals from a common mess unless the exigencies of work

prevent them from doing so'. A household can be either a one person household *i.e.*, a person who makes provision for his own food or other essentials for living without combining with any other person to form part of a multi-person household. It may be a multi-person household *i.e.*, a group of two or more persons who make common provision for food or other essentials for living. They may be related or unrelated persons, or a combination of both. Households usually occupy a whole or part of not more than one housing unit but they may also be found living in camps, in boarding houses or hotels or other institutions or they may be homeless.

12. You will have to make note of the areas within your jurisdiction where there is a likelihood of houseless persons such as the pavement dwellers or nomads living. Those houseless persons should all be censused on the night of 31st March, 1971. You will also have to cover that night, persons living in boats, if any, in your jurisdiction.

13. All persons normally residing at a place within your jurisdiction during the Census enumeration period are eligible for enumeration. A person is considered as normally residing there if he normally stays in that place during the enumeration period *i.e.*, from 10th March till 31st March, 1971, and had in fact actually, resided there during any part of the enumeration period. If a person had been away throughout the enumeration period he is not to be considered eligible for enumeration here. He will be enumerated wherever he is actually found during the enumeration period. Similarly, a person who would have normally resided at another place during the enumeration period but in fact was absent during the entire period from that place will be enumerated if he is to be found in any household in your jurisdiction as a visitor. Such persons should, however, be cautioned that they should not get themselves enumerated again in case they may move from this place.

14. Thus when you visit a household for the purpose of enumeration, you will enumerate the following persons :

(i) All those who normally stay and are present in that household during the entire period of enumeration *i.e.*, from 10th March to 31st March ; (both days inclusive);

(ii) Also those who are known to be normally residing, and had actually stayed during a part of the enumeration period (10-31st March) but are not present at the time of your visit;

(iii) Also those who are known to be normally residing and are not present at the time of your visit but are expected to return before 1st April, 1971; and

(iv) Visitors who are present in household censused by you but had been away from the place(s) of their usual residence during the entire enumeration period. For the purpose of enumeration such visitors will be treated as normal residents of the place (household) where they were actually found during the enumeration period provided they have not been enumerated elsewhere.

15. You should plan out your work in such a way that you will be able to cover your entire jurisdiction in a systematic manner and you do not leave the work to be accumulated towards the end.

16. Your task is simple. You will be required to canvass only one simple Individual Slip containing 17 questions for each individual to be enumerated in your jurisdiction. You will have to later post some particulars on the Population Record and you have also to prepare an Abstract. You have to record the answers as laid down in the succeeding instructions briefly.

CENSUS SCHEDULE (INDIVIDUAL SLIP)

17. The Census schedule which is called the Individual Slip that you will be required to canvass is given on p. 12.

18. One slip will have to be filled for each individual in each household that you visit in your jurisdiction. You should first enumerate the Head of the household followed by the other members of the household in the most convenient order and ensure that none of the persons in the household is left out. Perhaps it is best that after enumerating the Head of the household, you cover the near relatives first such as, the wife, sons and daughters, son's wife and son's children, daughter's husband and their children forming part of the household, then distant relatives, and domestic servants or other boarders or visitors, forming part of the household and entitled to be enumerated here.

Please make repeated enquiries about infants and very young children for they are often liable to be left out of count.

19. The various items to be canvassed on the Individual Slip are explained in the following instructions :

Pad Number and Slip Number :

20. Make sure that the Pad Number and the Slip Number have been noted by you on the top right hand corner of each schedule against the item provided as already indicated earlier under the general instructions. The noting of Pad Number and the Slip Number is necessary for, you will be later required to tabulate in an Abstract certain items of information of each schedule on a separate form where you will have to indicate the Slip Number concerned against which you will be posting the data. The Pad Number is the number already furnished on the top of the enumeration schedule Pad and the Slip Number is the serial number that you will be giving for each schedule in this Pad. You are also advised to use the Pads in a sequence starting with the lowest Pad number.

21. In case your jurisdiction covers more than one village or more than one urban block please ensure that you do not make use of a common pad of schedules for all the villages or urban blocks in your charge. There should be separate pads for each village or urban block even if there were a few blank schedules left over in the pad of a particular village or urban block.

Location Code :

22. Though this has already been referred to generally earlier, it is worth elaborating. The location code is the method by which every village or town in a tehsil/taluk/police station/anchal/Island in every district of a State is identified by a combination of numbers. For this purpose every district, tehsil, taluk, police station, anchal or Island, village or town, in your State would have been allotted code numbers. Your Charge Officer would have indicated to you the district, tehsil, taluk, police station, anchal or Island and the village or town numbers as also the ward number of the town pertaining to your jurisdiction. By a combination of these numbers one can exactly locate your village or town. Thus, a code number running as 10/3/46 would mean village number 46 in Tehsil number 3 of District number 10 of a State, or a code number running as 6/II/5 would mean ward No. 5 in Town number II of District Number 6. Note that the Town Number is given in roman figure to distinguish it from rural code number. At the end of the location code you should add within round brackets the enumeration block number that has been allotted to you by your Charge Officer thus 10/3/46 (60) or 6/II/5(4). You will be identified by enumerators' block number and this has to be entered in your Daily Posting Statement. (The enumerators' block numbers will be a continuous number for the tehsil/taluk/town, etc.)

23. Make sure that you know the correct location code of the area allotted to you. You should note down the location code on each blank individual slip immediately the enumeration pads are issued to you. This will save you the trouble of noting the location code number later when you actually visit each household within your block for enumeration. When you visit the household you may have to then note only the household number as indicated in the next para by the side of the location code number which you would have already indicated.

Household Number

24. The identifying household number of the household that you are covering at the Census should be noted within the square brackets provided for the purpose. As you may be aware, Houselisting and Housenumbering operation was undertaken during 1970 with a view to numbering each Census house and locating all households living in Census houses. In the course of this operation, each Census house was given a number and households found therein would also have been allotted a number. The Census house numbers would be painted on the houses at prominent place, like the pillar of the main gate, top of the main door, etc. Sometimes there may be more permanent housenumbering plates affixed. In the case of thatched houses, numbers may have been written out on a tin plate or wooden board and left with the households with a request to preserve the same. You should use this number.

25. It may happen that when you visit your area for Census taking you may come across some Census houses which did not exist at the time of houselisting and therefore, no numbers had actually been allotted to them. You should allot a number after consulting the order of numbering prevailing in your jurisdiction (Please see Appendix I) and locate the households living therein. For example, if in between buildings 9 and 10 another building has come up; you should allot the number 9/A to this structure and in case more than one building has come up numbers like 9/A, 9/B, 9/C and so on should be used for the new structures then locate the Census houses in accordance with the instructions in Appendix I and thereafter locate the households and allot numbers in the prescribed manner. The household number will be the same as the house number if only one household is living in a house. If there were more than one household then alphabetical sub-numbers within brackets as 19(a), 19(b), etc. will have to be added to the house number to distinguish each household. It may also happen that the number given at the time of houselisting has been obliterated. You should allot the correct number having regard to the preceding and succeeding buildings.

26. For the purpose of conveniently understanding the house numbering system, the instructions governing the numbering of buildings, Census houses and households are given in Appendix I.

27. *If the household happens to be an institutional household such as a boarding house, hostel, hotel, chummery, etc., where a group of unrelated persons stay together then add 'INST' to the household number.*

28. *If you are enumerating the houseless persons, you should record 'O' boldly in the space provided for the household number.*

29. In all the individual slips pertaining to the members of the same household, the household number will be repeated. You will then start recording the particulars of each individual against questions indicated in the Individual Slip according to the instructions that follow.

Please do not write anything in the spaces enclosed by dotted lines in question Nos. 2, 3, 5, 6(b), 7(b), 7(c), 7(d), 8(b), 8(c), 8(d), 9—15, 16(a), 16(d), 16(e), 16(f), 17(a), 17(d), 17(e), and 17(f). These are meant for writing code numbers in the Tabulation offices.

Question 1: Name

30. Write the name of the person enumerated. If a woman's name is not given out, describe her as 'so and so's wife, mother or daughter'. By custom if a woman finds it difficult to give the name of her husband and if the man is absent at the time of enumeration but his particulars have to be recorded write 'so and so's husband' if you have failed to ascertain the name even from the neighbours.

For newly born infants who have not yet been given the name write "baby" and add father's or mother's name.

Question 2: Relationship to Head

31. In the case of the Head of the household write 'Head'. The Head of the Household for Census purposes is a person who is recognised as such in the household. He is generally the person who bears the chief responsibility for the maintenance of the household and takes decisions on behalf of the household. The Head of the household need not necessarily be the eldest male member, but may even be a female or a younger member of either sex. You need not enter into any long argument about it but record the name of the person who is recognised by the Household as its Head.

32. In the case of *institutions like boarding houses*, messes or friends living together in one Census house, which should be regarded as households of unrelated persons living together, which may be called Institutional Households, the Manager or Superintendent or the person who has administrative responsibility or who by common consent is regarded as the head should be recorded as the Head of the household.

33. The Manager or Superintendent who does not stay normally in the institution should be enumerated at his place of normal residence. You should make sure before filling up the slip for the Manager or Superintendent, etc. of an institutional household that he/she has not been enumerated at any other household.

34. In the case of absence of a normal 'Head', the person on whom the responsibility of managing the affairs of the household falls, should be regarded as the Head.

35. All relationships in this question should be recorded in relation to the Head of the household. Write the relationship in full. Do not use words like 'nephew', 'niece or uncle', but state whether brother's or sister's son or daughter (for nephew or niece) or father's or mother's brother (for uncle), 'Son' will include 'adopted son' or 'step son'; similarly for a daughter. In the case of visitors, boarders, or employees, write 'visitor', 'boarder', or 'employee' as the case may be. In the case of institution, the members should be recorded as 'unrelated'.

36. If on the check of revisional round between 1st and 3rd April, 1971 the Head of the household as recorded previously is found to have died, the person in the household who succeeds him by common consent as head should be recorded as Head and the relationships in all other slips will have to be suitably corrected. The slip of the deceased Head of the household will, of course, be cancelled.

Question 3: Sex

37. For males write 'M' and for females write 'F' within the circle indicated against this question. Even for eunuchs and hermaphrodites, write 'M' only. Verify with reference to the name and relationship to Head against questions 1 and 2 respectively that you have noted the sex correctly.

Question 4: Age

38. Record the age of the person in total years completed last birthday. Very often there is a tendency on the part of the individuals to return 'years running' rather than the 'years completed'. Make sure that only the actual number of years completed is recorded.

39. In respect of infants who *might not have completed one year* by the day of enumeration their age in completed years should be invariably shown as 'O' as they have not yet completed one year of age and add 'Infant' in brackets. As was stated under general instructions make sure that infants even if a day old are invariably enumerated. *You should not enter the age in months.* The age of an infant who has not yet completed one year should invariably be noted as 'O' only.

40. Age is one of the most important items of demographic data and you should ascertain the age with greatest care. Many persons particularly in the rural areas cannot give their

age correctly. They should be assisted to state the correct age by stimulating their memory with reference to any historical event, etc., well known in the area. Sometimes the age can be ascertained with reference to the age of another person of a known age that may be in the same household or in the neighbouring household or that of a well known person of the village such as Headman of the village. A person can more easily say whether he was older or younger to such a person and by how many years. This will help you to record the age more accurately.

Question 5: Marital Status

41. In answering this question use the following abbreviations :

NM : Never Married

M : Currently Married

W : Widowed

S : Separated or Divorced

42. For a person who has never been married at any time before, write 'NM'. For a person currently married, whether for the first or another time and whose marriage is subsisting at the time of enumeration with the spouse living, write 'M'. Write 'M' also for persons who are recognised by custom or society as married and for the persons in stable *de facto* union. Even if a marriage is disputed in the locality write 'M' if the person concerned says he or she is married or is in stable *de facto* union. For a widowed person whose husband or wife is dead, and who has not been married again, write 'W'. For a person who has been separated from wife or husband and is living apart with no apparent intention of living together again or who has been, divorced either by a decree of a law court or by an accepted social or religious-custom but who has not remarried, write 'S'. For a prostitute return her marital status as declared by her.

Question 6: For currently married women only

43. This question has to be answered in respect of all currently married women only *i.e.*, all women whose marital status is shown as 'M' against Q. 5. For all others a cross may be put through the two sub-parts of this question.

Question 6 (a): Age at marriage

44. *Age at marriage* : You should ascertain the age at which the currently married woman whom you are enumerating was married and record that age in completed years. If the currently married woman had been married more than once, the age at which she got married for the first time should be recorded.

Question 6 (b): Any child born in the last one year

45. *Any child born in the last one year* : You should ascertain if the currently married woman whom you are enumerating gave birth to a child in the last one year prior to the date of enumeration. Since it may be difficult for a person to reckon the exact year with reference to the English calendar dates, the period of one year may be ascertained with reference to a well known festival day which falls close to Feb.-March, as determined by the Census Director of the State. You should ask if a child was born on or after this festival day last year to the date of enumeration. Only if the child was born alive, even if the child had died soon after birth, should the answer be 'Yes', to this question. *Still birth, i.e., a child which is born dead should not be taken into account for this purpose.* So while you should make sure that every case of birth of child born alive, even if it is not alive on the date of enumeration, is reported, you should not reckon it if the child was born lifeless.

46. It is common experience that the birth of the child may not be reported readily if the child is not actually surviving at the time of enumeration. Infant deaths are still high in the country. There is a chance of a number of cases being missed unless specifically questioned about them. It is necessary to record all live births even if the child had died soon thereafter or had not survived to the day of enumeration. Therefore, where the initial answer to this question is 'no', you should ask a specific question if there has been a case of child having been born alive in the last one year and later dying before the enumeration date. This is a delicate question and should be asked with tact in a manner not to offend the sensibility of the respondent. Where a currently married woman first answers that she had no child born in the last one year, you may perhaps question her as follows :

"It has been found in some houses that a child was born and had died soon after or a few days or months later and such cases not been reported. It is my hope that there are no such cases here. Am I right ?"

This may bring in the required response. If she reports 'no' then you can be sure that no birth has been missed. You have to make sure that any live birth that has occurred to the currently married woman in the last one year is netted whether the child is surviving till the date of enumeration or not. Similarly, probe to eliminate still births may be necessary. For example, when the answer is 'yes' under question 6(b) the enumerator might ask if the child is here in this house. If the answer is 'yes', no further question is needed. If 'no', the enumerator might ask where he has gone. The answer may be 'dead' or he has gone elsewhere. If 'dead' then the enumerator might ask when did the child die and this will bring out the fact whether or not it was a still birth.

47. Write 'Yes', if the currently married woman had given birth to a live child from the prescribed festival day last year to the date of enumeration or 'no' if she had not. In case of twin or multiple births, write 2, 3, etc., as the case may be within round brackets after the entry 'Yes'.

Note :—You may find on your revisional round from 1st to 3rd April, 1971 that a child is born to a married woman in a household after your last visit but before the sunrise of 1st April, 1971. You will have to take this into account and correct the answer against the Q. 6 (b) accordingly. You must enquire specifically if any such birth has taken place. While ignoring still births all other births where the child was born alive even if it did not survive long should be taken into account.

Question 7: Birth Place

48. Answer to this question has to be filled with reference to the place of birth of the persons enumerated and the particulars recorded under the four sub-items of this question.

Question 7 (a): Place of birth

49. Write 'PL' for a person born in the village or town where he is being enumerated. Where 'PL' is noted against this question put 'X' against sub-items (b), (c) and (d).

For those born outside the village or town of enumeration write the actual name of the place against sub-item (a) and fill the other details against sub-items (b), (c) and (d).

Question 7 (b): Rural/Urban

50. For those born outside the village or town of enumeration ascertain if the place of birth was a village or town at the time of his birth. To enable a person to determine whether the place was a town or a village he may be required to indicate the status of the place of birth in comparison with a known town in the neighbourhood of the place of enumeration. You may mention some important urban characteristics to enable the person to make out if the place of his birth was rural or urban, *e.g.*, existence of a local administrative body, Industrial townships declared as towns, etc.

For a person born in a village, write 'R'.

For a person born in a town/city, write 'U'.

For a person born in a foreign country put 'X' against this sub-item and also against sub-item (c). If all efforts to classify the place of birth as rural/urban fail, write 'not known'.

Question 7 (c): District

51. For a person born outside the village or town of enumeration but within the district of enumeration write 'D'. For a person born in another district of the State of enumeration, or other State/Union Territory in the country, write the name of the district. If the person cannot name the district, write 'not known'.

Question 7 (d): State/Country

52. For persons born within the State of enumeration write 'X' against this item. Make sure that the earlier entries made in sub-items (a), (b) and (c) are consistent with such an answer; that is 'PL' might have already been written against sub-item (a) or 'D' is written against sub-item (c) or any other district of the State of enumeration is mentioned against sub-item (c).

53. For person born outside the State of enumeration but within the country, write the name of the State/Union Territory where born.

54. For those born outside India, note merely the name of the country and there is no need to enter the name of the constituent State of the foreign country. Where a person cannot name the country, the name of the continent may be noted.

55. For a person born on sea, record 'born at sea', against this sub-item and put 'X' against sub-items (a), (b) and (c). If a person was born in a train, boat or bus, etc., within the country, write the particulars in (a), (b) and (c) with reference to the administrative territory where the event occurred or was registered.

Question 8: Last Residence

56. Answer to this question will have to be filled in respect of every person if he had another place of normal residence irrespective of his place of birth, before he came to the present place where he is enumerated. Even if a person was born at the place of enumeration, by the nature of his work or for studies, etc., he had shifted subsequently to another village or town and had come back again to the place of enumeration, he should be deemed to have had another place of residence prior to his enumeration here.

The last previous residence is relevant only if he had been outside the village or town of enumeration and not simply in another house or locality in the same place. For example, if a person born in one part of Bombay City is found residing in another part of Bombay at the time of enumeration, the change of residence should not be treated as change of place of residence because both the areas are comprised in the same City of Bombay. Similarly, a person born in hamlet 1 of village Rampur and found in hamlet 2 of the same village at the time of enumeration, should not be deemed to have had any other place of residence than the village where he is enumerated. Where a person had merely gone out to another place or had been shifting from place to place purely on tour or pilgrimage or for temporary business purposes, he should not be deemed to have had another residence different from the place where he or his family normally resides but if the person had his normal residence, *i.e.*, if his normal home had been elsewhere at any time before he is enumerated at his place of present residence, irrespective of where he was born, such place of his previous residence should be recorded here.

Question 8 (a): Place of last residence

57. For a person who had been in the village or town of enumeration continuously since birth (except for shifting to other places outside the village or town of enumeration for a purely temporary stay) write 'PL' against sub-item (a) and put 'X' against sub-items (b), (c) and (d).

For a person who had had his last previous residence at any place outside the village or town of enumeration (irrespective of his place of birth), write the actual name of the village or town where his last residence was against sub-item (a) and fill the other details against sub-items (b), (c) and (d).

Question 8 (b): Rural/Urban

58. For a person who had previously resided outside the place of enumeration ascertain if the place of last previous residence was rural or urban and record the answer. For a person whose last previous residence was a village write 'R'. For a person whose last previous residence was a town/city write 'U'. For a person who last resided in a foreign country write 'X'. For a person whose last previous residence cannot be classified, write 'Not known'.

Rural or Urban status has to be determined with reference to the time of migration from the place of last previous residence to the place of enumeration.

For helping the person to determine whether a place was rural or urban, you may mention important urban characteristics as indicated in the instructions against item 7(b) in para 50.

Question 8 (c): District

59. For a person who had previously resided in another place, *i.e.*, for whom 'PL' is not written against sub-item (a) you have to fill in this item in the manner indicated below :—

For a person who previously resided in another village or town within the district of enumeration write 'D'. For a person who previously resided in another district of the State/Union Territory of enumeration or of other State/Union Territory in the country, write the name of the district. If he cannot name the district write 'Not known'. For a person whose last previous residence was outside India write 'X' against this sub-item.

Question 8 (d): State/Country

60. For a person whose last previous residence was outside the village or town of enumeration but within the State or Union Territory of enumeration write 'X' against this item but if it was outside the State or Union Territory of enumeration but within the country write the name of the State/Union Territory. For a person whose last previous residence was outiside the country write the name of the country and if name of the country is not forthcoming write the name of the continent.

For persons who had not moved out at all from the present place of enumeration from birth (except for purely temporary stay) this sub-item need not be filled and 'X' should be put in respect of persons against this sub-item.

Question 9: Duration of Residence at the village or town of Enumeration

61. Note here the period of the existing continuous residence in the village or town where the person is being enumerated, in completed years. This will apply to even a person born at the place of enumeration. If he had left this village or town and had lived elsewhere for sometime, *i.e.*, in Q. 8 another place of last residence is reported and has come back again to this village or town, then the duration of residence to be noted against this question is the period of the last continuous residence. But if a person had been away on a temporary visit or tour, etc., that should not be taken as a break in the period of his continuous residence here. If the person was born at the place of enumeration and also had no other place of last residence, *i.e.*, 'PL' has been noted in Q. 8(a) then 'X' may be put against Q. 9.

For a person whose duration of continuous residence at the place of enumeration is less than 1 year, it should be noted as '0'.

Question 10: Religion

62. In answering this question use the following abbreviations :

H : Hinduism

I : Islam

C : Christianity

S : Sikhism

B : Budhism

J : Jainism

For others record the actual religion as returned fully.

63. If a person says that he has no religion it may be recorded accordingly. Do not mistake religion for caste which will not be recorded here.

Question 11: Scheduled Caste or Scheduled Tribe

64. You have been furnished with a list of scheduled castes and scheduled tribes notified for your State. Ascertain if the person enumerated belongs to a scheduled caste or scheduled tribe and if he does, then record the name of the scheduled caste or scheduled tribe which should find place in the list furnished to you. The answer should be recorded against the correct rectangle provided for the purpose against this question. For a person who is not a member of any scheduled caste or scheduled tribe write 'X' in both the rectangles.

65. If the person belonging to a scheduled caste or scheduled tribe returns his caste or tribe by synonym or generic name of a caste or a tribe it should be entered only if it finds a place in the list furnished to you. Do not write the names of scheduled castes in general terms as 'Harijan' or 'Achhut'. You should ascertain the name of the caste when it is returned and write it in the rectangle provided for recording the name. Similarly, do not write the names of scheduled tribes in general term as 'Adivasi'. You should ascertain the name of the tribe when it is returned and write it in the rectangle with broken lines provided for recording the same. If a person is negligent and insists on calling himself merely 'Harijan' or 'Achhut' or 'Adivasi' as the case may be, tell him that this description is not adequate for Census purposes and persuade him to give out the actual name of the caste or tribe. You should make all efforts to ascertain the correct name of the scheduled caste or scheduled tribe as found in the notified list. If the person merely claims to be a scheduled caste or scheduled tribe but says that he does not belong to any of the notified communities applicable to the area, he will not be entered as a scheduled caste or scheduled tribe.

66. Scheduled castes can belong only to the Hindu or Sikh religions. If a person belongs to scheduled caste, there will be either 'H' or 'S' in the answer to question 10. Scheduled tribes may belong to any religion.

Question 12: Literacy (L or O)

67. *Definition of a literate* : A person who can both read and write with understanding in any language is to be taken as literate. A person who can merely read but cannot write is not a literate.

68. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard.

69. For a person who is literate *i.e.*, who can both read and write, record 'L' in the triangle against question 12. If there is any doubt about a person's ability to read or write, the test that may be applied for reading is his/her ability to read any portion of the printed matter in the Enumerator's Instructions and similarly for writing he/she should be able to write a simple letter. Ability merely to sign one's name is not adequate to qualify a person as being able to write with understanding. If a person claims to be literate in some other language with which the enumerator is not acquainted, the respondent's word has to be taken as correct. Other members of the household may also be able to testify to the literacy of the person enumerated.

70. For a person who is illiterate *i.e.*, who can neither read nor write or can merely read but cannot write, *in any language*, write 'O' in the triangle against question 12. All children of the age of 4 years or less should be treated as illiterate even if the child is going to a school and may have picked up reading and writing a few odd words.

Question 13: Educational Level

71. This question will be asked of those for whom 'L' has been recorded against question 12. For a person who is illiterate and 'O' has been put against him in the answer to question 12, there is no advantage in ascertaining the educational level even if he had at some stage attended school and passed a standard and had relapsed into illiteracy. In such a case you should put 'X'. You have to ascertain and record the highest educational level attained by a person for whom 'L' is recorded in answer to question 12.

72. For a person who is still studying in a particular class, the highest educational level attained by him will be one that he has actually passed and not the one in which he is studying. For example, a person studying in 1st year B.A. should be recorded as only 'PUC' or 'Higher Secondary' as the case may be. Similarly, a person studying, say, in the 4th year of 'MBBS' should not be noted as 'MBBS' but as 3rd year 'MBBS which is the highest level he has actually attained. If you are not sure whether a person has passed Primary, Middle, Higher Secondary or other definite levels, you may record the actual standard passed such as say III standard, VIII standard, 1st year B. Com., etc.

The highest educational level attained by the person enumerated should be recorded. When a person holds both general and technical qualifications both of which are of equivalent level such as say B.Sc. (Zoology) and M.B.B.S. or B.A. (Maths.) and B.E. (Bachelor in Engineering), the technical qualification should be given preference in recording the highest educational level attained. Where the general educational level is higher than the technical educational level or where it is not possible to decide which of the two levels is relatively higher, the highest level of education as returned by the person concerned should be recorded.

In recording the highest educational level of a graduate or a post-graduate subject of specialisation such as B.Sc. (Maths), M.A. (Economics), M.Sc. (Botany), B.Sc. (Agriculture), etc., should be noted. You should not use abbreviations which are not in common use. In such cases, the degree or diploma should be spelt out fully.

73. Whenever you come across graduates or post-graduate as also those with a technical diploma or degree, you will have to issue him a "Degree-holder and Technical Personnel Card" and ask the person concerned to fill it. You should note the location code on the card while issuing it. Put a tick (√) after noting the educational level against question 13 immediately after you issue a card. When you collect it after some time but before you complete the enumeration of your area, cross the tick and put a circle.

You will have to ensure that the card issued to all the graduates and the technical degree or diploma holders are collected back. The non-crossed tick, if any, against question 13 will show that the card has not been collected.

Question 14: Mother-tongue

74. *Definition*: Mother-tongue is the language spoken in childhood by the person's mother to the person. If the mother died in infantry, the language mainly spoken in the person's home in childhood will be the mother-tongue. In the case of infants and deaf mutes the language usually spoken by other members of the household shall be recorded.

75. Record mother-tongue in full whatever be the name of the language as returned and avoid use of abbreviations. You are not expected to determine if the language returned by a person is the dialect of another major language and so on. You should not try to establish any relationship between religion and mother-tongue. *You are bound to record the language as returned by the person as his mother-tongue and you should not enter into any argument with him and try to record anything other than what is returned.* If you have reason to suspect that in any area due to any organised movement, mother-tongue was not being truthfully returned you should record the mother-tongue as actually returned by the respondent and make a report to your superior Census Officers for verification. You are not authorised to make any correction on your own.

Question 15: Other Languages

76. After recording the mother-tongue in question 14 enquire whether the person knows any other language(s), Indian or foreign and record language(s) returned by him against this question. In case he does not know any language apart from his mother-tongue put 'X' against this question.

77. The number of languages recorded under the question need not be more than two. These languages should be other than his mother-tongue and they should be recorded in the order in which he speaks and understands best and can use with understanding in communicating with others. He need not necessarily be able to read and write these languages. It is enough if he has a working knowledge of these subsidiary languages to enable him to converse in that language with understanding.

Question 16: Main Activity

78. Every person will be asked what his main activity is that is, how he engages himself mostly. For the purpose of this question, all persons will get themselves divided into two broad streams of main activity namely, (1) as workers and (2) as non-workers according as the type of main activity that the person returns himself as engaged in mostly.

79. '*Worker*' *defined*: A 'worker' is a person whose main activity is participation in any economically productive work by his physical or mental activity. Work involves not only actual work but effective suspervision and direction of work.

80. *Reference Periods:* The reference period is one week prior to the date of enumeration in the case of regular work in trade, profession, service or business. If a person had participated in any such regular work on any one of the days during this reference period and this has been returned as his main activity, the person will be categorised accordingly. A person who normally works but had been absent from work during this reference period on account of illness or travel, holiday, temporary breakdown, strike, etc., the person should be treated as engaged in regular work in which he would have otherwise been employed but for this temporary absence. Persons under training such as apprentices with or without stipend or wages should be considered as economically active and recorded as working. A person who has merely been offered work but has not actually joined it, is not to be treated as engaged in work.

81. There are certain types of works which are not carried on throughout the year such as cultivation, live-stock keeping, plantation work, some types of household industry, etc. A person's main activity should be ascertained with reference to such work, in the last one year even if he was not economically active in the week prior to enumeration. It is likely that even when a person is engaged in some other work during the period of one week prior to the date of enumeration, the main activity of the person may be cultivation, agricultural labour or some other work attended to normally by him in the course of the year. Care must be taken to see that the main activity is properly ascertained in such cases. For example, a person's main activity may be agricultural labour and in the week prior to enumeration he may be engaged as a sugarcane factory labourer or as a road cooly. He should be categorised for his main activity as agricultural labourer only as returned by him as he engages himself mostly in that work and the other work should be treated as his subsidiary work.

82. A man or woman who is engaged primarily in household duties such as cooking for own household or performing one's own household duties or a boy or a girl who is primarily a student attending institution, even if such a person helps in the family economic activity but not as a full time worker should *not* be treated as a worker for the main activity. On the other hand, if a person is primarily engaged in some economic activity but at the same time does also attend to some household chores or attends a night school etc., he or she should be treated basically as a worker for the main activity and categorised accordingly.

83. A person who merely receives an income such as a rent receiver or a pensioner who does not have to work for receiving the income, will not be treated as economically active unless the person is also engaged in some economic activity and if that activity is returned as the main activity of the individual.

Question 16(a): Broad Category (i) Worker (C, AL, HHI, OW) (ii) Non-worker (H, ST, R, D, B, I, O)

84. The main activity returned by the person will entitle him to be categorised either as a worker in 16 (a) (i) or as a non-worker under 16 (a) (ii).

Question 16 (a) (i): Worker (C, AL, HHI, OW)

85. Where the main activity of a person qualifies him to be treated as a worker he should be further categorised according to the type of work and one of the appropriate abbreviations indicated against this question should be entered in the box provided for the purpose. If the person is not engaged in any economic activity an 'X' should be noted in the box. The abbreviations to be used for workers are explained below:

C: Cultivator

86. For a person who returns his main activity as working as a cultivator, the abbreviation 'C' should be used.

87. *Definition of Cultivator :* For purposes of the Census a person is working as Cultivator if he or she is engaged in cultivation by oneself or by supervision or direction in one's capacity as the owner or lessee of land held from Government or as a tenant of land held from private persons or institutions for payment of money, kind or share.

88. Cultivation involves ploughing, sowing and harvesting and production of cereals and millet crops such as wheat paddy, jowar, bajra, ragi, etc., and pulses, raw jute and kindred fibre crop, cotton, etc., and other crops such as sugarcane, groundnuts, tapioca, etc., and does not include fruit growing, vegetable-growing or keeping orchards or groves or working of plantations like tea, coffee, rubber, cinchona and other medicinal plantations.

89. A person who merely owns land but has given out land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, will not be treated as working as cultivator. Similarly, a person working in another person's land for wages in cash, kind or share (Agricultural labourer) will not be treated as cultivator in this question.

AL: Agricultural Labourer

90. A person who returns his main activity as engaged as agricultural labourer, the abbreviation 'AL' should be used in the box.

91. *Definition of an Agricultural Labourer:* A person who works in another person's land for wages in money, kind or share should be regarded as an agricultural labourer. He has no risk in the cultivation but he merely works in another person's land for wages. The labourer could have no right of lease or contract on land on which he works.

HHI: Household Industry

92. For a person who returns his main activity as engaged in some production, processing, servicing or repair of articles of goods such as, say, handloom weaving, dyeing, carpentry, *bidi* rolling, pottery manufacturing, bicycle repairing, blacksmithy, tailoring, etc., it has to be ascertained if it is a household industry, and if so, it should be indicated by the abbreviation 'HHI' in the box.

Definition of a Household Industry:

93. A Household Industry is defined as an industry conducted by the Head of the household himself/herself and/or mainly by the members of the household at home or within the village in rural areas and only within the premises of the house where the household lives in urban areas. The industry should not be run on the scale of a registered factory.

94. The main criterion of a Household Industry is the participation of one or more members of a household. This criterion should apply to urban areas too. Even if the industry is not actually located at home in rural areas there is greater possibility of the members of the household participating even if it is located anywhere within the village limits. In the urban areas where organised industry takes greater prominence, the Household Industry should be confined to the precincts of the house where the participants live. In urban areas even if the members of the household by themselves run an industry but at a place away from the precincts of their home, it will not be considered a household industry. It should be located within the precincts of the house where the members live.

95. A Household Industry should relate to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. It does not include professions such as a pleader or doctor, or barber, musician, dancer, waterman, *dhobi*, astrologer, etc., or merely trade or business, even if such professions, trade or services are run at home by members of household. A list of a few typical Household Industries is appended to these instructions at Appendix II.

96. Sometimes it is likely that the person who may not be working in his own Household Industry may be working as a petty employee in another Household Industry. You should, therefore, enquire whether the person who is not working in his own Household Industry is working in any other Household Industry as an employee and record as per instructions given above.

OW: Other Workers

97. If a person gives his main activity as engaged in any other work which is not cultivation, agricultural labour or household industry, this may be indicated by merely noting 'OW' in the box. The type of workers that may come under the 'Other Workers' category are factory workers, those working in trade or transport, all Government servants, municipal employees, teachers, mining workers, political or social workers, building labourers, etc. etc. In effect, all types of economic activity not covered by cultivation, agricultural labour or household industry will come under this residual category. Workers engaged in plantation or forestry should not be treated as cultivators or agricultural labourers but as 'Other Workers'.

98. Further details pertaining to this 'Other' category of workers, as also those engaged in household industry, will be recorded in the subsequent sub-parts (b) to (f) of question 16.

16 (a) (ii): Non-worker (H, ST, R, D, B, I. O.)

99. As was stated earlier, question 16 is intended to ascertain the main activity of every individual whether he or she is economically active or not. While 16 (a) (i) helps to broadly categorise all those who have returned some work as their main activity, 16(a)(ii) will help to categorise those whose main activity is not engaged in any economically productive work, but are basically non-workers. These may be categorised under seven broad heads whose abbreviations are indicated against this question. The appropriate abbreviation will have to be entered in the box provided. The abbreviations are explained below:

H: Household Duties

100. This covers all those persons basically engaged in unpaid home duties doing no other work, or even if such a person may also be participating in some other work, it is not to the same extent as a whole-time worker and if the person has returned his or her main activity as attending to household duties. The main activity of such a person should be entered as 'H'. If a person whose main activity is attending to household duties, also engages oneself in some other economic activity such as helping in family cultivation or preparing cowdung cakes at odd times for sale, etc., that economic activity will be covered as secondary work under question 17. On the other hand, a woman who works primarily as a factory worker or a plantation labourer or an agricultural labourer or in some office or shop, etc., and also attends to household duties, obviously her main activity will be the economic activity in which she is mostly engaged in and should not be categorised as 'H' for her main activity in this question. She should have been treated basically as a worker and her main economic activity should have been recorded against 16 (a) (i).

ST: Student

101. This refers to those whose main activity is returned as a student. This will cover all full-time students or children attending school. Even if such persons participated in some work but not to the same extent as a full-time worker, by merely helping casually as an unpaid family worker in family cultivation, household industry, trade or business, they should be treated primarily as students, if that is their main activity. 'ST' should be entered in the box. The other economic activity, if any, that such persons attend to will be reflected under question 17 as secondary work.

R: Retired Person or a Rentier

102. A person who has retired from service and is doing no other work, *i.e.*, not employed again in some full-time work or does not engage himself in some other work as cultivation, in business, trade, etc., or a person who is a rentier or living on agricultural or non-agricultural royalty, rent or dividend, or any other person of independent means for securing which he does not have to work, will come under this category. 'R' should be noted in the box for a person coming under this category.

D: Dependent

103. This category will include all dependents such as infants or children not attending school or a person permanently disabled from work because of illness or old age. If a girl or an old woman attends to household duties she should be categorised under 'H' for her main activity rather than 'D'.

Dependents will include all non-workers even if able-bodied who have no other activity coming under any of the categories of non-workers and who are not seeking any work either but are purely dependent.

B: Beggars etc.

104. This will cover beggars, vagrants or such cases as independent women without indication of source of income and those of unspecified sources of subsistence and who are not engaged in any economically productive work.

I: Institutions

105. This will cover convicts in jails or inmates of a penal mental or charitable institution, even if such persons are compelled to do some work such as carpentry, carpet weaving, vegetable growing, etc., in such institutions. An under-trial prisoner in a jail should not, however, be brought under this category but has to be indicated according to the main activity he was engaged in before he was apprehended. Inmates of such institutions will be noted as 'I'.

O: Other Non-workers

106. This will include all non-workers who may not come under any of the six categories above but are seeking work, they should be noted as 'O' in the box. A boy or girl who has completed education or has stopped studying and is seeking work, will come under this category. If a person is merely spending his time at home as a dependent and is not doing any work and is not seeking any work will come under 'D' rather than 'O'. A person irrespective of age and whether educated or not, if he reports that he is not engaged in any other activity but is seeking work will come under this category.

107. If the main activity of the person who is enumerated does not qualify a person to be treated as a worker and he does not fall under any of the four broad categories of workers covered by 16 (a) (i) and an 'X' has been put in the box against that question, then he must necessarily be categorised under any one of the seven broad types of non-workers and the appropriate abbreviation entered in the box opposite to question 16 (a) (ii). Conversely if a person has already been treated as a worker and his main activity has been indicated in the box against question 16 (a) (i), then question 16 (a) (ii) will not apply to the person and an 'X' should be put in the box against question 16 (a) (ii). Thus 16 (a) (i) and 16 (a) (ii) are mutually exclusive.

Question 16 (b) to 16 (f)

108. These sub-parts of question 16 will have to be filled only to describe the details of the household industry or other work indicated against question 16 (a) (i). If the main activity has been shown as 'C' or 'AL' against 16 (a) (i), there is no need to give the details of the cultivation or agricultural labour in these sub-sections.

109. Similarly, if the main activity of an individual has been returned as a non-worker against 16 (a) (ii), sub-sections (b) to (f) will not apply and a 'X' may be put right across all these questions.

Question 16 (b): Place of work (Name of village/town)

110. Ascertain from each person who is already taken as a worker other than in cultivation or agricultural labour, *i.e.*, question 16 (a) (i) has been answered as HHI or OW, the village or town where he or she works. If the place of work is the same as the village or town of enumeration write 'PL'. In all other cases you should write the name of the place fully. If a person has no fixed place of work such as, say, a travelling vendor of vegetables or a pedlar or a rickshaw puller who may go from one village or town to another, note 'No fixed place of work'. If he works in one particular town or village that should be noted.

Question 16 (c): Name of Establishment

111. This question and the subsequent sub-sections of question 16 need not be answered for cultivators and agricultural labourers who are already noted as 'C' or 'AL' against question (16) (a) (i).

Record here the exact name of the factory, firm, workshop, business house, company, shop, office, etc., and in respect of public offices you should clearly indicate whether they are Central or State Government or local body offices, etc. If the establishment does not have any definite name such as, say, in the case of a household industry like hand pounding of rice, gur making, bee keeping, handloom weaving, potter's house, blacksmithy, etc., note 'No particular name'.

Question 16 (d): Nature of Industry, Trade, Profession or Service

112. The answer to this question will have to be adequately precise to enable proper classification of the sector of economy in which the person is working. The sector of economy in which a person works may relate to (i) Plantation, Forestry, Fishing, Livestock, etc., (ii) Mining and/or Quarrying (iii) Manufacturing (iv) Construction (v) Electricity, Gas or Water Supply (vi) Transport and Communications (vii) Trade and Commerce (viii) Professions and Services. Full details of the type of industry, trade profession or service in which the person is engaged will have to be recorded here. To help you to appreciate the details that may have to be furnished to classify the economic activity appropriately, substantial description of various economic activities are furnished in Appendix III categorised under certain broad classifications. The list in Appendix III is not exhaustive. You shall have to describe the nature of Industry, Profession, Trade or Service *whatever it is, in as precise a detail as possible.*

Question 16 (e): Description of work

113. This question has to be filled up for all persons for whom the main activity is shown as 'HHI' or 'OW' in question 16 (a) (i) and for whom you should have also to answer the other sub-sections of question 16. Under this question, the description of the actual work that the person enumerated is doing is to be recorded irrespective of which type of industry, trade, profession or service he may be working and which is already recorded under question 16 (d). His actual work should also be given in sufficient detail. If for example a person is merely recorded as say, clerk with no other details, it will be impossible to properly categorise him as to the type of work he does. He may be a clerk attending to correspondence or book keeping or accounting. Similarly, if a person were merely to be recorded as a mechanic, it will not help to determine what type of mechanic—electrical mechanic, or a motor mechanic or a locomotive mechanic, etc., he is. The description of the actual work done by a person should be ascertained in adequate detail and recorded against this question.

114. To guide you in answering question 16 (e), the types of particulars that need to be ascertained in respect of a few typical occupations are given in Appendix IV.

Appendix IV is by no means exhaustive. This just illustrates the need to ascertain the full details of the particulars of work performed by an individual for being recorded against question 16 (e).

115. It has been found in the past that substantial number of persons are recorded merely as general labourers. It is necessary to make a probe and find out in which type of work he is mostly engaged as a labourer such as, say, a road coolie, a loader or unloader at a market, a construction labourer, etc.

116. For those in Military service it is enough if it is merely noted as 'in the service of the Central Government'. Other details need not be given.

General:

117. There need be no confusion as to the scope of 16 (d) and 16 (e), 16 (d) would represent the nature of industry, trade, profession or service, *i.e.*, the field of economic activity in which a person is engaged in work and 16 (e) represents the occupation or the actual work that the person does in the industry, trade, profession or service in which he is engaged. Thus, for example the answer to question 16 (d) may be say Cotton Textile manufacture and the answer to question 16 (e) may be Chemical Engineer in that industry or a clerk or an accountant in that industry or a labourer in that industry or a truck driver or the Managing Director of that industry and so on. Similarly, in question 16(d) the nature of service may be some department of the State Government Service and in question 16 (e) the description of work may be a clerk or an accountant, a Director of the Department, jeep driver in the Department, etc. etc., Again say, against question 16 (d) the answer may be private medical practice and in 16 (e) may cover orthopaedic surgeon, or nurse or a sweeper, etc., working in that private medical practitioner's nursing home. The Industrial and Occupational lists in Appendices III & IV and the instructions given by your superior Census Officers may help you to clear any doubts you may have in your mind regarding the scope of questions relating to Nature of Industry, Trade, Profession or Service covered by question 16 (d) and the description of actual work of the individual enumerated covered by question 16 (e).

Question 16 (f): Class of Worker

118. For a person who is;

(i) an Employer, that is, who hires one or more persons in his work described in question 16 (e), write .. .. ER

(ii) an Employee, that is, who does his work described in question 16 (c) under others for wages or salary in cash or kind, write .. .. EE

(iii) a Single Worker, that is, who is doing his work described in question 16 (e) without employing others except casually, and without the help of other members of the family except casually and a participant in work as members of co-operatives, write .. .. SW

(iv) a Family Worker, that is, who is doing his work described in question 16 (e) in a family enterprise along with other members of the family without wages or salary in cash or kind, write .. FW

For a person for whom an 'X' is put in questions 16 (d) and 16 (e) put an 'X' in this question also.

Explanation:

119. An Employer is a person who has to employ other persons in order to perform the work entered in question 16 (e). That is to say, such a person is not only responsible for his own personal work but also for giving work to others in business mentioned in question 16 (e). But a person who employs domestic servants for household duties or has subordinates under him in an office where he is employed by others, is not an employer, even if he has the power to employ another person in his office on behalf of his own employer or employers.

120. An Employee is a person who usually works under some other person for salary or wages in cash or kind. There may be persons who are employed as managers, superintendents, agents, etc., and in that capacity employ or control other workers on behalf of their own employers. Such persons are only employees, as explained above, and should not be regarded as employers.

121. A Single Worker for the purpose of question 16 (f) is a person who works by himself. He is not employed by any one else and in his turn does not employ anybody else, not even members of his household except casually. This definition of a Single Worker will include a person who works in joint partnership with one or several persons hiring no employees, and also a member of a producer's co-operative. Each one of the partners or members of such producers' co-operatives should be recorded as 'Single Worker'.

122. A Family Worker is a member who works without receiving wages in cash or kind, in an industry, business, trade or service. For example, the working members in a family of *Dhobis* where they all participated and each does not receive wages separately will be family workers. There may be family workers in industry, trade or professions as well. For the purpose of this definition members of a family may be drawn from beyond the limits of the households by ties of blood or marriage. The family worker may not be entitled to a share of the profits in the work of the business carried on either by the person or head of the household or other relative.

123. Members of the household who help solely in household duties should not be treated as family workers.

124. In the case of persons engaged in household industry, *i.e.*, in the case of persons for whom the answer to question 16 (a) (i) is 'HHI', there will be three classes of workers, *viz.*, Family Worker, Single Worker and Employee. There will be no Employer. Household industry by its very definition is conducted by the head of the household himself or/and other members of the household, the role of hired workers being secondary. If the head along with the members of the household is working in a household industry employing hired workers, the head and other members who are working should be treated as 'Family workers'. If the head alone is working with the assistance of hired worker(s) whose role would be secondary as indicated above, he would be treated as a 'single worker'.

Question 17: Secondary Work

125. This question should be asked of every person whether he has returned some work as his main activity against 16 (a) (i) or had returned himself under any of the basically non-working categories against question 16 (a) (ii). As was noted earlier, 16 (a) (ii) will cover cases like persons performing household duties or students who may not be engaged in any other economically productive work at all, as also those who, though basically are performing household duties or students, etc., for the purpose of their main activity, still participated in some other economic activity such as helping the household in several items of work, as in cultivation or in household industry or in looking after the cattle, in attending to family business, etc. but not to the extent as a full-time worker. Such participation will be considered as secondary work of these persons.

126. Ask of each person if, besides what he had already returned as his/her main activity against questions 16 (a) (i) or 16 (a) (ii) he/she participated in any secondary work. A number of unpaid family workers participating in the household enterprises, who might have returned themselves mainly as 'H' or 'S T' or 'R' under question 16 (a) (ii) for their main activity will be netted here for their economic activity which is subsidiary. Mere rendering of service for ones own home or production of goods for purely domestic consumption are not to be treated as economic activity. For example, a servant who works as a cook in his or her employer's home for wages will be considered economically active but, a housewife, even if she may work much more than a paid servant, in having to cook for the family or looking after the household will not be treated as economically active for the purpose of this classification. Similarly, women who may produce cloth on a loin loom at home for domestic consumption will not be treated as economically active unless the products are sold and the household derives an income. Participation in work that goes to augment the income of the household will only be treated as economic activity. A boy whose main activity is shown as a student under 16 (a) (ii), can have the secondary work of say, cultivation if he helped the head of the household in the family cultivation during some parts of the season. But if a girl student, whose main activity is shown as 'ST' under 16 (a) (ii), also helped in weaving cloth purely for domestic consumption on a loin loom at home, or helped in attending to household chores, she will not be treated as having any secondary work. Secondary work will be reckoned only if the person is engaged in some economic activity even if marginal in addition to whatever is the main activity under question 16. A person whose main activity is shown as, say, a clerk in a Government Office or a teacher under question 16, also attends to some cultivation by his direct supervision or undertakes some tuition, this will be shown as secondary work under question 17. A person's main activity may be cultivation in question 16 and his subsidiary activity money lending in question 17. Again main activity may be agricultural labourer and subsidiary work sugar factory labourer and so on and so forth.

127. The instructions for the usage of abbreviations in categorising workers under 16 (a) (i) and filling in the details under 16 (b) to (f) will apply *mutatis mutandis* to question 17 (a) to (f), except that while question 16 (a) (i) will cover the main work, Q. 17 (a) is intended to cover secondary work which may be possibly part-time. It may also be noted that the non-working categories of activity will not be reported as secondary work under question 17.

POPULATION RECORD

128. Soon after you complete the enumeration of all the persons in the household you are expected to transfer certain items of information of all the individual members of each household to the Population Record. Population Record form is reproduced at the beginning of these instructions. If you feel that the filling of the Population Record in the field is likely to

take considerable time there is no objection to the details being posted by you later at home at the end of the day. However soon after you complete the enumeration of all the persons in a household you must note down the Location Code No. and the Household No. on the Population Record and also copy out in Col. 2 all the names of the persons enumerated in the household. This will help you to check with the members of the household and verify if all the persons qualified to be enumerated in the household have been fully enumerated.

The Population Record forms would have been supplied to you in convenient books and each page will normally take the entries of one household. However, if in a large household there are more number of persons than what a single Population Record form can accommodate, you may continue the entries on the next form but note boldly on the top of the continued Population Record as "Continued".

The Population Record hardly calls for any detailed explanation. On the top of each form please note correctly the Location Code No. and the Household No. It is important that you note the Household No. correctly as has been explained in paragraphs 24 to 28 of these instructions. Do not fail to note boldly "INST" in respect of institutional households as explained in paragraph 27 and "O" in respect of houseless households as explained in paragraph 28.

You will be required to furnish information in the Enumerator's Abstract on the total number of occupied residential houses, the Census households, the institutional households and houseless households in your block with reference to the entries made in this Population Record. So please make sure that you have entered the Household No. correctly as this will guide you in posting the required particulars in the Enumerator's Abstract. At the right hand side below the Household No., you will have to record information if the household belongs to S.C./S.T. You would have already ascertained if the head of the household belongs to a Scheduled Caste/Scheduled Tribe with reference to Question 11 of the Individual Slip. If the head belongs to any S.C./S.T., write S.C./S.T. as the case may be and also the name of S.C./S.T. to which the head of the household belongs.

The columns in the main body of the Population Record are self-explanatory. You have to post them with reference to the information you have collected of each member of the household in the Individual Slip against the relevant questions. However, column 9 of the Population Record may require some explanation. For those who have returned themselves as workers for their main activity against Question 16 (a) (i) of the Individual Slip, while you may note 'C', 'AL' as the case may be, as recorded in the box against Question 16 (a) (i), in respect of those other than cultivators and agricultural labourers, you may please indicate briefly the description of work as recorded in Question 16 (e) of the Individual Slip. For those who have returned themselves as non-workers for their main activity you may note the same abbreviation as recorded against Question 16 (a) (ii).

ENUMERATION OF HOUSELESS POPULATION

129. You must complete the enumeration of all the persons in all the households in your jurisdiction between 10th March and 31st March, 1971. During this period you should also take note of the possible places where homeless population is likely to live such as on the road side, pavements or in open temple mandaps and the like. On the night of 31st March, 1971 you will have to quickly cover all such houseless population and enumerate them. If there is likely to be a very large number of houseless persons in your jurisdiction whom you may not be able to enumerate single handed in one night you should report to your supervisor so that one or more extra enumerators may be deputed to assist you in the one night enumeration of such houseless persons. You should keep particular watch on the large settlements of nomadic population who are likely to camp on the outskirts of villages. These people will have to be covered on the 31st March. You should of course make sure that they have not been enumerated elsewhere. As per instructtions in para28 you should record 'O' in bold letters for houseless persons in the space provided for household number.

REVISIONAL ROUND

130. In the next three days, *i.e.*, from 1st April, 1971 to 3rd April, 1971, you will have to revisit all the households in your jurisdiction and enumerate any new births that had taken place after your last visit but before the sunrise of 1st April, 1971 and any visitor(s) that had moved into the household and who had been away from his/their place of normal residence throughout the enumeration period, *i.e.*, from 10th March to 1st April, 1971 or an entire household that has moved into your jurisdiction during this period and had not been enumerated anywhere before. In respect of every new birth make sure that you correct the entry in question 6 (b). Please also see the note under para 47.

You will have to ascertain if any death(s) had taken place in any of the households between your last visit and the sunrise of 1st April, 1971, and cross out the individual slip of the dead person writing boldly across it as 'Died'.

If such a deceased person was recorded as 'Head of the Household' then you will have to find out who is recognised as 'Head' in that household after the deceased person. Accordingly, you will have to put 'Head' in Q. 2 in the individual slip of the person who is now recognised as 'Head' and correct the relationship of all members of the household in their respective individual slips, with reference to their relationship with 'Head' now recognised.

Consequential changes in the Population Record shall also have to be made by you. If you have exhausted the entire population record for recording the particulars of any household and it becomes necessary to record a new birth or any visitor you will fill in another population record form in continuation taking care that the location code, etc., are noted on the second form properly. The serial numbering in the succeeding form for the household should be in continuation of the last serial number of the earlier sheet relating to that household.

ENUMERATOR'S DAILY POSTING STATEMENT

131. Each day you will have to carefully post the information on certain items of each Individual Slip in the prescribed posting forms which have been supplied to you. Do not allow this work to fall into arrears. You are likely to commit errors if you tried to post particulars of a large number of persons after the lapse of more than one day. You will have to total up the columns of the statements and put the information in an Abstract and hand it over along with the complete schedules to your Supervisor. The posting statements should be filled at the end of each day soon after completion of the enumeration for the day. This will make your work lighter and avoid accumulation and pressure of work at the end and consequent errors in posting. Separate posting forms have been provided for Males and Females and you should take care to post particulars of a person in the right form. This will make it easier to strike the totals of each sex and post the statements. The totals can be struck after the entries are brought up-to-date soon after you complete the enumeration of houseless persons and you have also accounted for the births and deaths since your last visit at the revisional round. You will observe that the information to be posted pertains to the items against which geometrical designs are found in the Individual Slip such as the one relating to Q. 3 Sex, Q. 11 Scheduled Caste/Scheduled Tribe. Q. 12 Literacy, Q. 16 (a) (i) and 16 (a) (ii) Worker or Non-worker. It is necessary that you should fill the Posting Statement with the greatest care.

132. First of all you should enter Location Code, Name of the village/town, Enumerator's Block No. (No. allotted to you) and your name (enumerator's) in all the Posting Statements. Then start making relevant entries in the Posting Statements taking care that you enter particulars for 'males' in Males Posting Statement (Form M) and for 'females' in Females Posting Statement (Form F).

133. You are advised to make entries in a sequence starting with lowest Pad No. used by you starting with Slip No. 1 in each Pad so as to avoid duplication or missing of any entries. Both the statements are similar except that one is meant for Males and the other for Females. You should not fill up col. 1 (Final

GENERAL

Serial No.) at the first instance. This col. will be filled after the revisional round, *i.e.*, after you have brought the count up-to-date with reference to sunrise of 1st April, 1971 (see para 130) and also after you have struck the grand total of cols. 4 to 13. In cols. 2, 3 and 4 you have to copy Pad No., Slip No. and sex as recorded by you in the slips. Even though there are separate forms of Posting Statements for males and females, yet you are required to copy the sex in col. 4 from the Individual Slip as this will help as a check in avoiding mistakes in posting. In the remaining columns a tick (√) may be put against the appropriate columns, wherever information is found against the relevant question and a dash (——) may be put where it is not applicable.

134. Cols. 5 and 6 are to be posted with reference to the entries against Q. 11 of the Individual Slip. If a person is noted as belonging to a Scheduled Caste put a tick under Col. 5 and a dash in Col. 6. If a Scheduled Tribe, put the tick in Col. 6 and dash in Col. 5. If the person is neither a Scheduled Caste nor Scheduled Tribe put a dash under Cols. 5 and 6 of the Posting Statement.

135. Cols. 7 and 8 of the Posting Statement have to be filled with reference to the answer to Q. 12 of the Individual Slip. A person can be either 'L' or 'O'. Put the tick or dash in the corresponding column accordingly. It must be noted that there cannot be a dash in both the columns.

136. Cols. 9-13 must be posted with some care. For a person for whom 'C' has been entered in the box against Q. 16(a)(i) a tick √ should be put under col. 9 and dash (—) under cols. 10 to 13. Similarly for a person for whom 'AL', or 'HHI' or 'OW' or 'X' has been recorded against Q. 16 (a) (i) a tick (√) may be put under col. 10 or 11 or 12 or 13 respectively and dash (——) under remaining cols. from 9—13. You may please note that where a tick is put in col. 13 it means the person is a non-worker and there must be dash in cols. 9 to 12. As you are likely to use more than one Posting Statement you are advised to strike totals by counting the number of ticks(√) in the relevant column(s) as soon as you have completed entries in one form and strike the grand totals after the Revisional Round. Now proceed to fill up col. 1 in a continuous manner starting with the first entry in the posting statement, while assigning serial number in col. 1, you should ignore scored-out lines. Thus the grand total of col. 4 will be the last serial number in col. 1.

ENUMERATOR'S ABSTRACT

137. After striking the grand totals in Enumerator's daily posting statement you have to fill in another form called Enumerator's Abstract. It is most important that this should be done with the greatest care. These abstracts will form the basis of the publication of the first results of the Census. In the past Censuses the enumerators had given very accurate abstracts and there was hardly any difference between the finally tabulated figures and those furnished in the abstract. You should post these abstracts with care and pass on to your Supervisor as quickly as possible. You should hand over the enumeration pads neatly bundled along with a sketch of your Enumeration Block as prescribed in para 10 and the posting statements and the abstract the very next day after the completion of the enumeration. Your work in the posting of the abstracts will be closely checked by your Supervisor. Any carelessness on your part will be taken serious notice of.

With the completion of enumeration and the handing over of the posting statements and the abstract and the Census schedule pads your burden is over. If you have done your work well you can have the satisfaction that you have made your humble but invaluable contribution to a vital national task.

APPENDIX I

PRINCIPLES OF HOUSENUMBERING

Building:

"Building" is generally a single structure but sometimes made up of more than one component units, which is used or likely to be used as dwellings (residences), or establishments such as shops, workshops, factories, etc., or as godowns, store, cattle sheds, etc., or in combination with any of these such as shop-*cum*-residence or workshop-*cum*-residence, etc.

2. Sometime a series of different buildings may be found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and likely to have been built at different times and owned by different persons. In such cases though the whole structure with all the adjoining units apparently appears to be one building, each portion should be treated as separate building and given separate numbers.

3. If there are more than one structure within an enclosed or open compound (premises) belonging to the same person, *e.g.*, the main house, the servants' quarters, the garage, etc., only one building number should be given for this group and each of the constituent separate structure assigned a sub-number like 1/1, 1/2, 1/3 and so on provided these structures satisfy the definition of a 'Census House' given hereafter.

4. The buildings should be numbered as follows:

(i) If the locality consists of a number of streets in a village, the buildings in the various streets in a village, should be numbered continuously. Streets should be taken in uniform order from North-East to South-West. It has been observed that the best way of numbering the buildings is to continue with one consecutive serial on one side of the street and complete the numbering on that side before crossing over to the end of the other side of the street and continuing with the serial stopping finally opposite to where the first number began.

(ii) In a town/city, enumeration block, the numbering will have to respect the axis of the street and not any pre-conceived geographical direction like North-East, etc.

(iii) Arabic numerals (*e.g.*, 1, 2, 3,.....) should be used for building numbers.

(iv) A building under construction which is likely to be completed within about a year's time should also be given a number in the serial.

(v) If a new building either pucca or kachha is found after the house numbering has been completed or in the midst of buildings already numbered, it should be given a new number which may bear an alphabetical sub-number of the adjacent building number, *e.g.*, 10/A.....

NOTE : These should not be numbered as 10/1 or 10/2, etc., as such numbering would apply to Census houses within the same building. On the other hand 10 A would mean a separate building that has come up after building No. 10.

Census House No.:

5. A Census house is a building or part of a building having a separate main entrance from the road or common courtyard or stair-case, etc., used or recognised as a separate unit. It may be inhabited or vacant. It may be used for a residential or non-residential purpose or both.

6. If a building has a number of flats or blocks which are independent of one another having separate entrances of their own from the road or a common stair-case or a common courtyard leading to a main gate, they will be considered as separate Census houses. If within a large enclosed area there are separate buildings, then each such building will also be a separate Census house. If all the structures within an enclosed compound are together treated as one building then each structure with a separate entrance should be treated as a separate Census house.

7. Each Census house should be numbered. If a building by itself is a single Census house, then the number of the Census house is the same as the building number. But if different parts or constituent units of a building qualify to be treated as separate Census houses, each Census house should be given a sub-number within brackets to the building number as 10/1, 10/2, etc, or 11/1, 11/2, 11/3, etc.

8. The order in which Census houses within a building are to be numbered, should be continuous, preferably clock-wise or in any convenient manner if it is difficult to do it clock-wise.

9. The definition of Census house may sometimes be difficult of application in its literal sense in the context of varying patterns of structures and their usage. For example, in cities and towns, one does come across a situation when a flat in the occupation of one household as residence may be made up four rooms or so and all the rooms may have direct entrance from a common courtyard, or a stair-case. In terms of the definition of a Census house each of these rooms having entrances from the common stair-case, etc., may qualify to be treated as Census houses. But it does not realistically reflect the situation of the number of houses. In such case, 'singleness' of use of these rooms along with the main house by the household should be taken into account and the entire flat comprising four rooms should be treated as one Census house only and assigned one number. If on the other hand each one of these rooms had been separately occupied by independent households and if each portion had separate main entrance then each will be justified to be treated as a separate Census house. In a hostel building even if the door of each room in which an inmate lives opens on to a common verandah or stair-case as it happens almost invariably, the entire hostel building may have to be treated as one Census house only. In some parts of the country in the rural areas, the pattern of habitation is such that a single housenold occupies a group of huts within an enclosed fence which has one main entrance. Each of the apparently separated structures is an integral part of the housing unit as such. In such cases it may be more realistic to treat the group as one Census house. Care should be taken to ascertain if only one household occupies such a unit or shared by more than one household. Thus the definition of a Census house will have to be applied having due regard to the actual situation in such exceptional cases.

10. It is usual to find in municipal towns/cities that every site whether built upon or not are numbered by the municipal authorities on property basis. Such open sites even if they are enclosed by a compound wall should not be listed for Census purposes. Only where a structure with four walls and a roof has come up should it be treated as a Census house and listed. But in some areas the very nature of construction of houses is such that for example, a conical roof almost touches the ground and an entrance is also provided, and there may not be any wall as such. Such structures should of course be treated as buildings and houses numbered and listed.

Household No.

A Household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. It may be made up of related or unrelated persons. A cook or a servant living in the house of his employers and taking his food there is to be considered as a member of the master's household. A hotel where a number of unrelated persons live together is an institutional household. So is a jail.

11. There may be one or more households in a Census house. If there are more than one household, each of them should be given a separate identifying number. This can be done by using the alphabets as (a), (b), (c), etc., affixed to the Census house number. For example if building No. 2 is also a Census house and has three households, the household numbers will be 2 (a), 2 (b) and 2 (c). If building number 4 has two Census houses, the houses will be numbered as 4/1 and 4/2. If within these houses there are respectively 3 and 2 households then they will be numbered 4/1 (a), 4/1(b), 4/1(c) and 4/2(a) and 4/2 (b) respectively. If, however, building No. 3 is also a Census house and has only one household the number to be entered will be 3.

APPENDIX II

LIST OF A FEW TYPICAL INDUSTRIES THAT CAN BE CONDUCTED ON A HOUSEHOLD INDUSTRY BASIS

(*See paras* 92—95)

Foodstuffs

Production of flour by village chakkis or flour mills, milling or dehusking of paddy, grinding of chillies, turmeric, etc., production of gur, khandsari, boora, etc., production of pickles, chutney, jams, etc., processing of cashew nuts, making of dried vegetables, manufacture of sweetmeats and bakery products, production of butter, ghee, etc., slaughtering and preservation of meat and fish, fish curing, etc., oil pressing ghani.

Beverages

Manufacture of country liquor, toddy, production of soda water, ice, ice-cream, sharbat, etc., processing of coffee, etc.

Tobacco Products

Manufacture of bidi, cigars, cherroots, tobacco, snuff, etc.

Textile Cotton

Cotton ginning, carding, pressing and baling, spinning, etc., dyeing and bleaching of cloth, weaving in handlooms or powerlooms or manufacture of khadi, cloth printing, making of fishing nets, mosquito nets, cotton thread, rope, twine, etc.

Textile Jute, Wool or Silk

Similar type of production or processing as mentioned under Textile cotton but pertaining to the material concerned.

Textile Miscellaneous

Making of durries, carpets, hosiery, embroidery, chrochet work, lace garland making, manufacture of headgear, making of *newar*, bed covers, (curtains, pillow, pillow cases,) etc., making of mattress, quilt (rezai), etc., making of namda felt, coconut fibre for upholstery, making of brushes, brooms, etc., from coconut fibres, coir spinning, manufacture and repair of umbrellas, manufacture of dolls and toys (rags and cotton), etc.

Manufacture of Wood and Wood Products

Sawing and planing of wood, manufacture of wooden furniture, structural goods like beams, door and window frames, etc.,

wooden agricultural implements and their rapair, wooden lacquerware, wooden toys, wood carving, sawdust and plaster figure making, inlay work, match splinters, plywood and veneers, etc., making palm leaf mats, fans, umbrellas, etc., baskets and broomsticks, caning of chairs, making of chicks and khas khas tatties, making of cart wheels, wooden-sandals, etc.

Paper and Paper Products

Manufacture of pulp and paper by hand, making of envelopes, paper made articles, card board boxes, paper flower, paper kites, toys, etc.

Printing and publishing

Printing works, lithography, block making, book binding, etc.

Leather and Leather Products

Flaying and processing of hides and skins, making leather footwear, wearing apparel of leather and fur, repair of shoes or other leather products.

Rubber, Petroleum and Coal Products

Vulcanising tyres and tubes, manufacture of chappals from torn tyres and other rubber footwear, manufacture of rubber products from natural and synthetic rubber.

Chemicals and Chemical Products

Manufacture of toys, paints, colours, etc., manufacture of matches, fireworks, perfumes, cosmetics, manufacture of ayurvedic medicines, soap, plastic products, celluloid goods, manufacture of ink, candles, boot polish, etc.

Non-metallic Mineral Products and other than Petroleum and Coal

Making of bricks, roofing tiles, sanitary fittings, cement statues, stone or marble carvings, manufacture of stone structurals, stone dressing and stone crushing, mica splitting and manufacture of other mica products, making of earthenware and pottery, crockery, glass beads and bangles, earthen toys, manufacture of glass products, etc.

Basic Metals and their Products except Machinery and Transport Equipment

Manufacture of iron arms and weapons and their service and repair, iron and steel furniture, brass, bell-metal utensils, aluminium utensils, tin utensils, copper utensils, etc., nickeling and electroplating, blacksmithy, manufacture and repair of agricultural implements such as ploughshare, etc., making and repairing of locks and trunks, cutlery, manufacture of scales, weights and measures and foundry industry, etc.

Machinery (all kinds other than Transport) and Electrical Equipment

Manufacture of small machine tools and parts, repairing and servicing of fans, radios, domestic electrical appliances, etc.

Transport Equipment

Repairing and servicing of automobiles, manufacture of cycle parts, rickshaw parts, boats and barges, manufacture of animal-drawn and hand-drawn vehicles such as bullock carts, wheel barrow, etc.

Miscellaneous Manufacturing Industries

Repair of spectacles, photographic equipment, goldsmithy, silver filgree industry, gold covering work, bidriware, musical instruments, fountain pens, making of cow-dung cakes, manufacture of sports goods, repairing of petromax lights, making of buttons and beads from conch-shell and horn goods.

APPENDIX III

CLASSIFIED LIST OF ECONOMIC ACTIVITIES

(See para 112)

AGRICULTURE, HUNTING, FORESTRY & FISHING

(Do not merely say plantation or fishing, etc., but indicate the appropriate details as given here.)

Plantation Crops

Indicate the type of plantation such as tea, coffee, rubber, tobacco, edible nuts, fruits, ganja, betal nuts, etc.

Livestock Production

Indicate what kind of livestock is reared such as goats, sheep, horses, pigs, ducks, bees, silk worm, etc. Production of wool, raw silk, etc., are also covered in this.

Agricultural Services

Indicate what type of agricultural service, *e.g.*, pest destroying, spraying, operation of irrigation system, animal shearing and livestock services (other than veterinary services), grading agricultural and livestock products, soil conservation, soil testing, etc.

Hunting

Indicate hunting, trapping and game propagation for commercial purpose only.

Forestry and Logging

Apart from planting and conservation of forests, felling and cutting of trees, etc., this would cover production of fuel, gathering of fodder, gums, resins, lac, etc.

Fishing

Sea, coastal and inland water, fishing, pisciculture, collection of pearls, conches, shells, sponges, etc.

MINING AND QUARRYING

(Do not merely say mining or quarrying but indicate further details.) Indicate what is mined such as coal, lignite, crude petroleum, natural gas, iron ore, manganese, gold, silver, copper ore, quarrying of stones, clay and sand pits, precious and semi-precious stones; mica, gypsum, etc.

MANUFACTURING AND REPAIR

(Do not merely say engaged in a factory, but indicate what the manufacturing is concerned with as detailed here.)

Manufacture of Food Products

Slaughtering, preparation and preservation of meat; dairy products; canning and preservation of fruits and vegetables fish;

grain mill products; bakery products; sugar; boora; common salt; edible oils including vanaspati; processing of tea or coffee; manufacture of ice; animal feeds, starch, etc.

Manufacture of Beverages, Tobacco and Tobacco Products

Rectifying and blending of spirits; wine industries; country liquor and toddy; carbonated water industries; bidi; cigar, cigarettes, zerda, snuff, etc.

Manufacture of Cotton Textiles

Cotton ginning, cleaning and baling; spinning, weaving and finishing of cotton in textiles mills; printing; dyeing and bleaching of cotton textiles; cotton spinning other than in mills (charkha); khadi production; weaving, etc. in handlooms and powerlooms; etc.

Manufacture of Wool, Silk and Synthetic Fibre Textiles

Wool cleaning, baling and pressing; weaving and finishing in mills and other than in mills; dyeing and bleaching; printing of silk, synthetic textiles; etc.

Manufacture of Jute, Hemp and Mesta Textiles

Spinning and pressing and baling of Jute and Mesta; dyeing; printing and bleaching of jute textiles and manufacture of jute bags are also covered in this.

Manufacture of Textile Products

(Including wearing apparel other than footwear) knitting mills; manufacture of all types of threads, cordage, ropes, etc; embroidery; carpets; rain coats; hats; made up textiles goods (except garments) oil cloth, tarpaulin; coir and coir products; linolium, padding, wadding, etc., are also covered in this.

Manufacture of Wood and Wood Products Furniture and Fixtures

Manufacture of veneer, plywood and their products; sawing and planing of wood; wooden and cane boxes, crates, drums, barrels, etc., beams, posts, doors and windows; wooden industrial goods like blocks, handles, etc., cork products; wooden, bamboo and cane furniture and fixture, etc.

Paper and Paper Products and Printing, Publishing and allied Industries

Manufacture of pulp; paper, paper boards and newsprints; container and paper boxes; printing and publishing of newspapers; periodicals, books, etc., engraving, block making, book binding, etc.

Leather and Fur Products

Tanning, currying, etc., of leather; footwear (excluding repair); coats, gloves, currying, dyeing, etc. of fur, fur and skin rugs, etc.

Rubber, Plastic, Petroleum and Coal Products

Tyre and tube industries, foot wear made of vulcanized or moulded rubber; rubber and plastic products; petroleum refineries, production of coaltar in coke ovens, etc.

Chemicals and Chemical Products

Manufacture of gases such as acids, alkalis, Oxygen, etc.; fertilisers and pesticides; paints, varnishes; drugs and medicines; perfumes, cosmetics, lotions; synthetic resins, etc., explosive and ammunition and fireworks, etc.

Non-metallic Mineral Products

Structural clay products; glass and glass products; earthen ware and earthen pottery; china ware and porcelain ware; cement, lime and plaster; asbestos, etc.

Basic Metal and Alloys Industries

Iron and Steel Industries; casting foundries; ferro-alloys; copper, brass, zinc and brass manufacturing, etc.

Metal Products and Parts except Machinery and Transport Equipment

Metal cans from tin-plate, sheets metal, barrels, drums, pails, safe, etc.; structural metal products; metal furniture and fixture; hand tools; utensils, cutlery, etc.

Machinery, Machine tools and parts except Electrical Machinery

Agricultural machinery; cranes; road rollers, boilers, diesel engine; refrigerators, air conditioners, etc.

Electrical machinery, Apparatus, Appliances and Supplies and parts

Electrical motors, generators, transformers; insulated wires and cables; dry and wet batteries; radio, television, etc.; X-ray apparatus; electric computors, etc.

Transport equipments and parts

Ship building and repairing locomotives and parts; Railway wagons; coaches, etc.; rail road equipment; motor vehicles; bicycles; aircrafts; push-carts and hand carts, etc.

Other Manufacturing Industries

Do not say other manufacturing industries but write clearly what is being manufactured like manufacture of medical, surgical and scientific equipments; photographic and optical goods; watches; minting of coins; musical instruments, etc.

ELECTRICITY, GAS AND WATER

Indicate if generation and transmission of electric energy or distribution is involved, *e.g.*, manufacture of gas in gas works and its distribution; water supply, *i.e.*, collection, purification and distribution of water, etc.

CONSTRUCTION

(Do not merely say engaged in construction but give further particulars. Clear details of the type of construction and maintenance such as buildings, road, railway, telegraph, telephone, water ways and water reservoirs, hydro electric projects, industrial plants, activities allied to construction such as plumbing, heating and air conditioning installation, setting of tiles, marble, brick, etc.; construction of electrical installations, etc., should be given.)

WHOLESALE AND RETAIL TRADE & RESTAURANTS AND HOTELS

Food, Textiles, Live Animals, Beverages and Intoxicants

Indicate clearly that the wholesale trade is done in cereals, pulses; foodstuff; textile and textile products; *e.g.*, garments, shirtings, etc.; beverages, intoxicants like wines, opium, ganja, tobacco, etc.; wholesale trade in animals, straw and fodder is also covered in this.

Fuel, Light, Chemicals, Perfumery, Ceramics, Glass

Wholesale trade in medicines, chemicals; fuel lighting products; toilets; porcelain, glass utensil, crockery, etc.

All types of Machinery, Equipment, including Transport and Electrical Equipment

Agricultural and industrial machinery, e.g., harvestors, threshers' etc.; electrical machinery; transport equipments, etc.

Miscellaneous Manufacturing

Wholesale trade in furniture, rubber and rubber products; building materials; clocks, etc., eye-glasses etc., medical and surgical instruments; precious metals, stones and jewellery, etc.

Retail Trade in Food and Food Articles, Beverage, Tobacco and Intoxicants

Indicate clearly that the retail trade is carried in grocery, vegetables. fruit selling, meat, poultry, bakery products, dairy products, pan, bidi, aerated water, etc.

Retail Trade in Textiles

(Do not merely say engaged in retail trade in textile, but indicate clearly what the retail trade is concerned with). Dealers in textiles (non-ready made), ready-made garments, are some examples.

Retail Trade in Others

Indicate clearly what kind of retail trade it is like, medical shops, booksellers, building material, etc.

Restaurant and Hotels

Restaurants, cafes and other eating places, hotels, rooming houses, camps and other lodging places.

TRANSPORT, STORAGE AND COMMUNICATIONS

(Do not merely say engaged in land, water, air transport but give further particulars.) Indicate what kind of transport such as railways, tramways, motor buses, bullock carts, *ekka*, tonga, etc.; ocean and coastal water, inland water transport, air transport, services rendered to transport such as packing, crating, travel agencies, etc. It also. includes storage, warehousing, communication such as postal telegraph, wireless, telephone, etc.

FINANCING, INSURANCE, REAL ESTATE AND BUSINESS SERVICES

Indicate clearly whether services belong to banking; credit institutions other than banks, *e.g.*, loan societies, agricultural credit institutions, etc.; money lenders, financiers, etc., provident services; insurance carriers life; fire, marine, accident, health, etc. It also includes business services, *e.g.*, purchase and sale agents and brokers; auctioneering, accounting; data processing; engineering; advertising services, etc.; legal services rendered by advocates, barristers, pleaders, etc.

COMMUNITY, SOCIAL AND PERSONAL SERVICES

It should be clearly indicated whether service belongs to public administration, union government, state government, police service, quasi-government bodies, sanitary services, education, scientific and research, etc.

Personal Services

Do not merely say engaged in personal service but indicate clearly whether it is domestic service, services relating to laundries, cleaning and dyeing plants, hair dressing, photographic studios, international and other extra territorial bodies, etc.

APPENDIX IV

CLASSIFIED LIST OF OCCUPATIONS *i. e.* DESCRIPTION OF WORK

(*Q. 16 (e) and 17 (e) See Paras 113—114*)

Professional, Technical and Related Workers

(Do not merely say an Engineer, Doctor, Teacher, etc., in describing the work of an individual but furnish more precise particulars as given below.)

Indicate clearly in respect of engineers to what branch they belong such as civil, mechanical, electrical, metallurgical, mining, etc. In respect of physicians, state if they are allopathic, ayurvedic, homeopathic, etc. Physiologists and dentists, etc., should be recorded. As regards teachers, state if they are university teachers, secondary school, middle school, primary school, or kindergarten teachers. There are various other types of chemists, physicists, archaeologists, nurses, pharmacists, health technicians, jurists, social scientists such as economists, statisticians, geographers, historians, anthropologists, etc., as also artists, writers, painters, sculptures, actors, etc., draughtsmen, laboratory assistants, librarians, ordained religious workers, astrologers, etc., who will have to be recorded with particulars of their work.

Administrative, Executive and Managerial Workers

(Do not merely say government officer, an officer in a private firm or concern but give further particulars.) They may be in government service or under a local body or in a business firm, manufacturing establishment or a catering establishment or a transport company and so on. Their full description should be recorded such as for example, Secretary to the Government of India, District Collector, Municipal Commissioner, Executive Officer of a Panchayat, Director of a firm, Manager of a business concern, Proprietor and Manager of a hotel, elected and legislative officials, aircrafts and ships officers, etc.

Clerical Workers

(Do not merely denote the work of a person as a clerk or office worker but furnish further particulars.) State clearly the type of work done such as cashier, accountant, stenographer, typist, computing clerk, key punch operator, office assistant, guard, brakesman, traffic controller, railway ticket inspector, postman, telephone/teleprinter/wireless operator, record keeper, despatcher, etc., office workers would also include peons, daftaries, etc.

Sale Workers

(Do not merely say a worker in a shop but give details.) It should be clearly recorded whether the proprietor of a business concern engages himself in wholesale or retail trade. Salesman or shop assistants, agents of insurance, brokers in share, auctioneers, commercial travellers, hawkers and street vendors, money lenders, pawn brokers, etc., will also be covered.

Service Workers

(There are all types of service workers such as those engaged as domestic servants or in personal services or in police service or watch and ward, etc. Give precise particulars.) Hotel and restaurant keepers, house-keepers, matrons, and stewards (domestic and institutional), cooks, waiters, bartenders and related workers (domestic and institutional) maids and housekeeping service workers, building caretakers, sweepers, cleaners, and related workers, launderers, dry cleaners and pressers, hair dressers, beauticians and related workers, protection service workers, such as watchmen, chowkidars, gate-keepers, etc., other service workers.

Farmers, Fishermen, Hunters, Loggers etc., and Related Workers

Deep sea fishermen, inland river water fishermen, shell gatherers, forest rangers, charcoal burners, forest produce gatherers, plantation managers, farm machine operators, gardeners, toddy tappers, rubber tappers, hunters, bird trappers, etc., will be covered.

Production and other Related Workers, Transport Equipment Operators and Labourers

(This may cover a very large variety of craftsmen and operators, etc., whose work will have to be given in adequate detail.) Examples: miners, quarrymen, well drillers, cotton ginners, spinners, dyers, knitters, lace makers, carpet makers, etc., tailors, cutters, hat makers, embroiderers, shoe makers or repairers, saddle makers, leather cutters, etc., blacksmiths, furnacemen, moulders,

etc., cart builders, wheel wrights, cabinet makers, etc., stone cutters, bricklayers, masons, hut builders, thatchers, well diggers, etc., jewellers, goldsmiths, watch and clock makers or repairers, welders and plate cutters, sheet metal workers, machine tool operators, electricians, electrical and electronic wire fitters, radio mechanic, electric linesmen, cable jointers, carpenters, joiners, sawers, etc., printing type machine operators, proof readers, photo-litho operators, book binders, potters, moulders, firemene kilnsmen, blowers and makers of glass, millers, bakers, confectioners, sweetmeat makers, food canners, coffee or tea planters, tobacco curers, graders and blenders of tobacco, bidi or cigar makers, snuff or zarda makers, tyre builders, crane or hoist operators, loaders and unloaders, etc.

ANNEXURE C

THE CENSUS ACT, 1948, ACT No. XXXVII OF 1948

AN ACT TO PROVIDE FOR CERTAIN MATTERS IN CONNECTION WITH THE TAKING OF CENSUS

3rd September, 1948

WHEREAS it is expedient to provide for the taking of Census in India or any part thereof whenever necessary or desirable and to provide for certain matters in connection with the taking of such Census:

It is hereby enacted as follows:

Short title and extent

1. (1) This Act may be called the Census Act, 1948.

(2) It extends to the whole of India.

Rule of construction respecting enactments not extending to Jammu and Kashmir

2. Any reference in this Act to the Indian Penal Code or the Indian Evidence Act, 1872, shall, in relation to the State of Jammu and Kashmir be construed as a reference to the corresponding enactment in force in that State.

Central Government to take Census

3. The Central Government, may, by notification in the official Gazette, declare its intention of taking a Census in the whole or any part of the territories to which this Act extends, whenever it may consider it necessary or desirable so to do, and thereupon the Census shall be taken.

Appointment of Census staff

4. (1) The Central Government may appoint a Census Commissioner to supervise the taking of the Census throughout the area in which the Census is intended to be taken, and Superintendents of Census Operations to supervise the taking of the Census within the several States.

(2) The State Government may appoint persons as Census Officers to take, or aid in, or supervise the taking of the census within any specified local area and such persons, when so appointed, shall be bound to serve accordingly.

(3) A declaration in writing, signed by any authority authorised by the State Government in this behalf, that any person has been duly appointed a Census Officer for any local area shall be conclusive proof of such appointment.

(4) The State Government may delegate to such authority as it thinks fit the power of appointing Census Officers conferred by sub-section (2).

Status of Census authorities as public servants

5. The Census Commissioner, all Superintendents of Census Operations and all Census Officers shall be deemed to be public servants within the meaning of the Indian Penal Code.

Discharge of duties of Census Officers in certain cases

6. (1) Where the District Magistrate, or such authority as the State Government may appoint in this behalf, by a written order so directs:

(a) every officer in command of any body of men belonging to the naval, military or air forces or of any vessel of war, of India;

(b) every person (except a pilot or harbour-master) having charge or control of a vessel;

(c) every person incharge of a lunatic asylum, hospital workhouse, prison, reformatory or lock-up or of any public, charitable, religious or educational institutions;

(d) every keeper, secretary or manager or any sarai, hotel, boarding-house, lodging-house, emigration depot or club;

(e) every manager or officer of a railway or any commercial or industrial establishment; and

(f) every occupant of immovable property wherein at the time of the taking of the Census persons are living;

shall perrorm such of the duties of a Census Officer in relation to the persons who at the time of the taking of the Census are under his command or charge, or are inmates of his house, or are present on or in such immovable property or are employed under him as may be specified in the order.

45 of 1860

(2) All the provisions of this Act relating to Census Officers shall apply, so far as may be, to all persons while performing such duties under this section, and any person refusing or neglecting to perform any duty which under this section he is directed to perform shall be deemed to have committed an offence under section 187 of the Indian Penal Code.

Power to call upon certain persons to give assistance

7. The District Magistrate, or such authority as the State Government may appoint in this behalf for any local area, may by written order which shall have effect throughout the extent of his district or of such local area, as the case may be, call upon—

(a) all owners and occupiers of land, tenure-holders and farmers and assignees of land revenue, or their agents;

(b) all members of the district, municipal, panchayat and other local authorities and officers and servants of such authorities; and

(c) all officers and members of staff of any factory firm or establishment,

to give such assistance as shall be specified in the order toward the taking of a Census of the persons who are, at the time of

the taking of the Census, on the lands of such owners, occupiers, tenure-holders, farmers and assignees, or in the premises of factories, firms and other establishments or within the areas for which such local authorities are established, as the case may be, and the persons to whom an order under this section is directed shall be bound to obey it and shall, while acting in pursuance of such order be deemed to be public servants within the meaning of the Indian Penal Code.

Asking of questions and obligation to answer

8. (1) A Census Officer may ask all such questions of all persons within the limits of the local area for which he is appointed as, by instructions issued in this behalf by the State Government and published in the Official Gazette, he may be directed to ask.

(2) Every person of whom any question is asked under sub-section (1) shall be legally bound to answer such question to the best of his knowledge or belief:

Provided that no person shall be bound to state the name of any female member of his household, and no woman shall be bound to state the name of her husband or deceased husband or of any other person whose name she is forbidden by custom to mention.

Occupier to permit access and affixing of numbers

9. Every person occupying any house, enclosure, vessel or other place shall allow Census Officers such access thereto as they may require for the purpose of the Census and as, having regard to the customs of the country, may be reasonable and shall allow them to paint on, or affix to, the place such letters, marks or numbers as may be necessary for the purposes of the Census.

Occupier or Manager to fill up schedule

10. (1) Subject to such orders as the State Government may issue in this behalf, a Census Officer may, within the local area for which he is appointed, leave or cause to be left a schedule at any dwelling house or with the manager or any officer of any commercial or industrial establishment, for the purpose of its being filled up by the occupier of such house or of any specified part thereof or by such manager or officer with such particulars as the State Government may direct regarding the inmates of such house or part thereof, or the persons employed under such manager or officer, as the case may be, at the time of the taking of the Census.

(2) When such schedule has been so left, the said occupier, manager or officer, as the case may be, shall fill it up or cause to be filled up to the best of his knowledge or belief so far as regards the inmates of such house or part thereof or the persons employed under him, as the case may be, at the time aforesaid, and shall sign his name thereto and, when so required, shall deliver the schedule so filled up and signed to the Census Officer to such person as the Census Officer may direct.

Penalties

11. (1) (a) Any Census Officer or any person lawfully required to give assistance towards the taking of a Census who refuses or neglects to use reasonable diligence in performing any duty imposed upon him or in obeying any order issued to him in accordance with this Act or any rule made thereunder, or any person who hinders or obstructs another person in performing any such duty or in obeying any such order, or

(b) any Census Officer who intentionally puts any offensive or improper question or knowingly makes any false return or, without the previous sanction of the Central Government or the State Government discloses any information which he has received by means of, or for the purposes of, a Census return, or

(c) any sorter, compiler or other member of the Census staff who removes, secrets, damages or destroys any Census document or deals with any Census document in a manner likely to falsify or impair the tabulations of Census results, or

(d) any person who intentionally gives a false answer to, or refuses to answer to the best of his knowledge or belief, any question asked of him by a Census Officer which he is legally bound by Section 8 to answer, or

(e) any person occupying any house enclosure, vessel or other place who refuses to allow a Census Officer such reasonable access thereto as he is required by Section 9 to allow, or

(f) any person who, removes, obliterates, alters, or damages any letters, marks or numbers which have been painted or affixed for the purpose of the Census, or

(g) any person who, having been required under Section 10 to fill up a schedule, knowingly and without sufficient cause fails to comply with the provisions of that section, or makes any false return thereunder, or

(h) any person who trespasses into a Census Office, shall be punishable, with fine which may extend to one thousand rupees and in case of a conviction under part (b) or (c) shall also be punishable with imprisonment which may extend to six months.

(2) Whoever abets any offence under sub-section (1) shall be punishable with fine which may extend to one thousand rupees.

Sanction required for prosecutions

12. No prosecution under this Act shall be instituted except with the previous sanction of the State Government or of an authority authorised in this behalf by the State Government.

Operation of other laws not barred

13. Nothing in this Act shall be deemed to prevent any person from being prosecuted under any other law for any act or omission which constitutes an offence under this Act:

Provided that no such prosecution shall be instituted except with the previous sanction referred to in Section 12.

Jurisdiction

14. No Court inferior to that of a Presidency Magistrate or a Magistrate of the Second class or in a Part B State, a Magistrate corresponding to a Magistrate of the Second class shall try, whether under this Act or under any other law, any act or omission which constitutes an offence under this Act.

Records of Census not open to inspection nor admissible in evidence

15. No person shall have a right to inspect any book, register or record made by a Census Officer in the discharge of his duty as such, or any schedule delivered under Section 10, and not withstanding anything to the contrary in the Indian Evidence Act, 1872, no entry in any such book, register, record, or schedule shall be admissible as evidence in any civil proceeding whatsoever or in any criminal proceeding other than a prosecution under this Act or any other law for any act or omission which constitutes an offence under this Act.

Temporary suspension of other laws as to mode of taking Census in Municipalities

16. Notwithstanding anything in any enactment or rule with respect to the mode in which a Census is to be taken in any municipality, the municipal authority, in consultation with the Superintendent of Census Operations, or with such other authority as the State Government, may authorise in this behalf, shall, at the time appointed for the taking of any Census cause the Census of the municipality to be taken wholly or in part by any method authorised by or under this Act.

Grant of Statistical Abstract

17. The Census Commissioner or any Superintendent of Census Operations, or such person as the State Government may authorise in this behalf may, if he so thinks fit, at the request and cost (to be determined by him) of any local authority or person, cause abstracts to be prepared and supplied containing any such statistical information as can be derived from the Census returns for India or any State as the case may be being information which is not contained in any published report and which in his opinion it is reasonable for that authority or person to require.

Power to make rules

18. (1) The Central Government may make rules for carrying out the purposes of this Act.

(2) In particular, and without prejudice to the generality of the foregoing power the Central Government may make rules providing for the appointment of Census officers and of persons to perform any of the duties of Census officers or to give assistance towards the taking of a Census, and for the general instructions to be issued to such officers and persons.

ANNEXURE D

POST ENUMERATION CHECK

Preliminary Results

1. *Introduction*

A Post Enumeration Check (PEC) was conducted as part of the 1971 Census programme barely two weeks after the main census enumeration. 15 major States and the Union Territory of Delhi comprising nearly 98% of the population of India were covered in the Survey.

2. *Objectives*

The objectives of the PEC were two-fold namely (a) measurement of error in the Census Count called Coverage Error and (b) measurement of error in responses called Content Error. This note, however, does not deal with the results of Content Error check. Coverage Error in Census consists of two components viz., (i) Omission or over-count of persons due to omission or over-count of residential houses in the houselist of censused blocks and (ii) Omission or over-count of individuals from censused residential houses. In what follows these are called Type-I and Type-II Errors respectively.

3. *Sample Design*

3.1 *Sample Size*: From the availabe records for a few States in respect of 1961 Post Enumeration Check the total number of blocks, required for the country at the 5% relative standard error in the proportion of missed residential houses, worked out to be about 5700 on the basis of simple random sampling. Since resources available were not adequate to cover such a large sample, the sample size was cut down to 4000 blocks corresponding to a relative standard error of approximately 6—7%.

3.2 *Frame and Primary Sampling Unit:* Though the instruction was to carve out blocks of roughly equal population content of 600—750 persons for purposes of enumeration in Census, due to some practical reasons, the procedure could not be followed uniformly everywhere. For purposes of the PEC smaller blocks were combined with the adjacent ones to constitute what are called *Effective Blocks* roughly of uniform size of 125 to 150 houses. These effective blocks were the primary sampling units for the survey.

3.3 *Stratification and Allocation:* The States were grouped into 5 Strata of equal size with regard to estimated number of missed persons according to the 1961 Post Enumeration Check. These constituted the primary strata for purposes of allocation. Equal sample number of 760 blocks was allocated to each group subject to the requirement that each constituent state had at least 200 sample blocks. The remaining 200 blocks were earmarked for the Union Territory of Delhi. These 760 blocks were further allocated among the various constituent States of each group in proportion to the respective projected population as of 1st March 1971. The sample size of a State was re-allocated among the 3 strata namely, rural, city and non-city urban on the basis of the distribution of the number of blocks built up from the houselist. It was further ensured that the urban part of a State had at least 100 blocks. The sample size allocated to an ultimate stratum was rounded off to the nearest multiple of ten. The four Metropolitan Cities of Calcutta, Bombay, Delhi and Madras were treated as separate strata.

3.4 *Selection Procedure:* For measuring Type I Coverage Error all the houses in the sample blocks were relisted. 15 censused residential houses (i.e. roughly 10% of the houses in a block) were selected from each sample block for the collection of data on Coverage Error of Type II. The blocks within each stratum and the 15 residential houses from each sample block were selected circular systematically with a randum strata. The abridged houselist for each block prepared and made up-to-date at the time of census enumeration constituted the frame for the selection of the second stage units viz., residential houses.

4. *Method of data collection and organisation of field work*

4.1 *Schedules Canvassed:* One form each was designed for coverage errors of Type I and Type II. Provision was made in each schedule to record data distinctly at each of the three stages of the entire PEC field operation viz.;

(a) re-listing of houses in the sample blocks and re-enumeration of residential houses;

(b) desk-matching i.e., unitary check between elements (residential house or individual as the case may be) in the census and in the PEC;

(c) reconciliation of doubtful match cases and collection of further particulars in respect of un-matched houses individuals by field revisit.

4.2 *Re-listing and Re-enumeration:* At this stage the houses in each of the selected blocks were completely relisted. In respect of the 15 Residential houses selected the normal residents present/absent and visitors as on the survey day as well as normal residents present/absent and visitors on any day during the census enumeration period viz.; 10-31st March 1971, but not on the survey day, were re-enumerated with the help of detailed probing questions. The idea was to net a larger group of persons in the PEC a part of whom only would be eligible to be enumerated in the particular households. At the time of re-enumeration, identification particulars of all the houses and some basic demographic particulars of the individuals were also collected so that element by element match could be carried out at the next stage of desk match.

4.3 *Desk Match:* The residential houses in the PEC relist and those of the abridged houselist of the census were classified into two categories viz., match and no-match through a system of unitary check. Similar check was carried out between re-enumerated individuals of the sub-sample of the residential houses in the PEC and those recorded in the respective Census Population Record. In this case, the matching categories were, Match, No-Match and Doubtful Match. In order to establish a match between the two records, firm matching criteria were prescribed. In the case of residential house, the characteristics to be matched were location particulars of the house and in the case where the house number given at the time of census was obliterated, name of the Head of the household. In the case of individuals the characteristics to be matched were name, sex, relationship to the head and marital status.

4.4 *Field re-conciliation:* After the Desk Match there was a field revisit by the PEC enumerator to (a) resolve the doubtful match cases into match and no-match (b) collect additional information in respect of no-match cases. The addresses of places of visit/normal residences of those no-match individuals whose enumeration status could not be firmly established were also collected for field follow up.

4.5 *Organisation of Field Work:* The primary enumerators were drawn from among the best of the sorters recruited for sorting purposes at the regional centres of each State. Wherever possible the net work of experienced investigators of the Bureau of Economics & Statistics were also employed for the purpose. The HQ staff of the State Census Offices acted as the Supervisors. In order to enforce uniformity in the understanding of the concepts and methodology involved, regional training seminars were conducted by the Central Staff. The supervisory officials who participated in these seminars, imparted in their turn intensive training to the primary enumerators. The programme of field work was so organised that no enumerator did the primary enumeration and desk match/reconciliation in the same block.

4.6 *Period of field Work:* The entire programme of re-enumeration, desk-match and field re-conciliation was organised during 15th to 30th April 1971 in most of the States.

5. *Estimation procedures*

5.1 The various characteristics were estimated by the unbiased method. The sample in each stratum was divided into 10 Random Groups in order to estimate the variances of the estimated totals. Since the error rates were calculated using the total censused individuals of the respective areas, the relative standard error of the estimated totals are equal to that of the corresponding rates also.

6. *Level of presentation of results*

6.1 It was decided that the results will be presented for areas where the sample size was adequate enough to provide total net error rate of persons with a percentage relative standard error of 10% or less. Most of the individual States by themselves did not conform to the criterion. Consequently, contiguous States were combined into four groups. The sample size of each was large enough to give reliable total net error rates. The four groups then formed are:

Group A (Southern States): Kerala, Tamil Nadu, Mysore and Andhra Pradesh.

Group B (Eastern States): Bihar, West Bengal, Assam and Orissa.

Group C (Western States): Maharashtra, Gujarat, Madhya Pradesh and Rajasthan.

Group D (Northern States): Haryana, Punjab, Delhi and Uttar Pradesh.

7. *The Results*

7.1 The salient results of the survey are presented in the three following statements. A more detailed analysis of the data including those relating to content error check will be brought out in the form of a report at a later date. Statement 1 gives the sex-wise net omission rate per thousand enumerated population and the associated percentage relative standard error by type of error for all-India and the four groups of States. The percentage distribution of net omission of persons by age and sex and the associated age specific rates are presented in the Statements II and III respectively for all-India and the four groups of States.

7.2 It is found that Type I error accounts for less than a tenth of the total error in the census count in all-India as well as among the groups of States pointing towards the accuracy of the houselist prepared on the eve of the census enumeration. However, the quantum of Type I error is relatively more in the urban areas than in the rural areas. A major contribution, therefore, to the total under-enumeration flows from the type II error, viz., the error in counting persons in the already censused houses.

7.3 It is found that the extent of duplication is roughly 18% of that of omission as the following figures show:

$$\frac{\text{Duplication}}{\text{Omission}} \times 100$$

	Males	Females	Persons
Rural	19·6	17·2	18·3
Urban	16·0	18·2	17·0
Total	18.3	17·5	17·9

In other words, duplication accounts for about a seventh of the total gross error in the census.

7.4 For India as a whole, it is observed that there has been a net under count of 17 persons for every thousand persons enumerated with the associated relative standard error of 5.25%. It is, therefore, asserted with 99% probability that for every thousand persons actually enumerated in the census, the true number lies between 1014 to 1019. Among the groups of States, Group A comprising the Southern States shows the lowest net under count of 12 persons per thousand while the Group D, comprising the Northern States gives the highest under count of about 21 persons per thousand. The interval estimates corresponding to 99% probability level, of the actual number of persons per thousand enumerated persons for the four groups respectively are:—

Group A (Southern States)	1009 to 1015
Group B (Eastern States)	1011 to 1020
Group C (Western States)	1015 to 1023
Group D (Northern States)	1014 to 1028
All India	1014 to 1019

7.5 The difference between the overall rural and urban rates is found to be highly significant for all-India and Groups B & C. No differential is observed for Groups A & D.

7.6 The sex differential in the net omission rates is found to be statistically significant in the rural and all areas for all-India and Group D. In other cases the difference is not statistically significant.

7.7 Statement II shows that of those omitted around 5% are of age 'O' and another 20% are children aged 0-4. Persons aged 15—44 who represent the mobile section of the population, constitute roughly 40% of that total omitted persons. This pattern is more or less common to all the groups of States. The differential by age can be more critically appreciated from the age-specific net omission rates given in Statement III.

7.8 Statement III reveals the following salient points: (a) The net omission rate for age 'O' is the highest followed by ages 1—4 in the case of all persons and males. In the case of females though the omission rate is also the highest at age 'O', the next highest rate falls in the ages 60+. Western Zone, however, does not appear to fit into this pattern, the rate for age 'O' particularly for males being abnormally low. (b) Though sex selectivity is not apparent in the percentage distribution of net omitted persons by age (Statement II) there is evidence of it in the age pattern of net omission rate (Statemnt III). The rates for ages 'O', 45—59 and 60+ are distinctly higher for females than for males. This more or less substantiates the generally held view regarding the greater neglect of females particularly at infantile and old ages relative to males. (c) Whereas the net omission rate for age 35—44 is of the same order in the rural areas, clear differential is observed to exist between the two sexes in the case of urban areas. In this case the female rate is found to be much lower than the male rate. It may be due to more mobility of males compared to females.

8. *New features of the Post Enumeration Check Survey* 1971

8.1 It is often pointed out that the mechanism of Post Enumeration Check does not lead to a critical appreciation of errors in census

count, however, objectively the survey has been conducted. This is so because of the fact that PEC is also a large scale sample survey taken at a point of time, the results of which might possibly be effected by a host of non-sampling errors. A more effective mechanism is considered to be tracing a cohort of individuals from an independent source, into the census. Though the Sample Registration Scheme which has been established in the entire country provided a mechanism for such a cohort study it could not be implemented due to difficulties of organising a follow up of the itinerant individuals in the entire country on a large scale at short notice. Consequently, we had to resort to the PEC for measuring the overall accuracy of the census count.

8.2 In order to make the measurement as refined and effective as possible under the circumstances, some new features have been introduced in the PEC-1971. Already, India has had the tradition of conducting PEC twice in the past. The experience gained through these two earlier surveys have been utilised in designing the PEC of 1971 as efficiently as possible. The new features of the PEC 1971 are described in the following paragraphs.

8.3 The entire field operation was divided into three distinct stages.

8.4 For purposes of detecting Type II Error which is by far the more important than Type I as evidenced by the earlier two surveys, various probes were prescribed at the two stages of primary enumeration and field reconciliation.

8.5 Maximum efforts were made in order to reduce conditioning effect at every stage of the field work. Beside interchanging the jurisdiction of work or primary enumeration and desk match & field reconciliation, the primary enumerators were not given access to the respective census material before they completed the work. In fact the PEC enumerators generated a second set of data completely independent of the census. Therefore, it was expected that all the eligible persons would appear in either of the two lists independently prepared and that any discrepancy between the two lists when subjected to further field investigation would reveal the order of error in the census count. This approach was prefered to the procedure of supplying a list of inmates of households with ghost entries and deletions as the latter restricts the extent of probing in the field.

8.6 In the census, an extended *de facto* method of enumeration was adopted according to which every person was related to his normal residence according to his itinerary during the three weeks' period of enumeration. In view of this extended period of enumeration, two basic questions arise in respect of absent normal residents and visitors to that household regarding (i) their eligibility to be enumerated in a household and (ii) their actual enumeration status. Though, eligibility to be enumerated at a particular place has been clearly spelt out in the census, doubt arises about the actual enumeration status for a marginal section of individuals who are in transit during the enumeration period. In the current PEC, the eligibility and enumeration statuses for no-match individuals in the census and PEC list were enquired into at the time of field re-visit with the help of specific probes in respect of those persons whose enumeration status could not be ascertained. For this purpose the addresses of their places of normal residence and/or the places of visit were recorded. Special efforts were made to trace the addresses in the census records of the appropriate area in order to decide whether they were omitted or over-counted. In order to resolve these un-ascertainable cases into firm categories of omission/duplication and no-omission/no-duplication, the definition of eligibility status was extended from "Eligible to be enumerated in a particular household" to "Eligible to be correctly enumerated anywhere in the country". It was found that about half of the "Probable omission" cases and more than half of the "Probable Duplication" cases are cases of actual omission and duplication respectively.

1971 POST ENUMERATION CHECK

A-I

AREA, HOUSES AND POPULATION

A-I AREA, HOUSES AND POPULATION

FLY-LEAF

Table A-I is the basic population table which corresponds to the general population table A-I of the 1961 and 1951 Censuses. This table gives the statistics of area in km², population per km² number of villages inhabited and uninhabited separately, number of towns, number of occupied residential houses, number of households and population by sex according to the 1971 Census. The figures are given first for India, states and union territories, followed by districts in each state and union territory.

There are three appendices attached to this table.

Appendix-I which gives details of all the changes in the jurisdiction of various administrative units, is presented in the form of two statements. Statement A gives the details of the present set up of each state/union territory as emerged from the territories of 1961 Census. Statement B shows an account of readjustment in district boundaries since 1961 within each state/union territory as it stands reorganised as per statement A referred to above.

A sub-appendix showing the areas for 1961 and 1971 for those towns which have undergone changes in area since 1961 census, alongwith population of 1961 and 1971 for the transferred area only is also given for each state/union territory separately.

Appendix-II shows the number of villages with a population of 5,000 and over and towns with a population of under 5,000 for India, state/union territory and district separately. One of the criteria for a place to be treated as town is that it should normally have a population of 5,000 and over. For various reasons a few places with a population of five thousand and over are not treated as towns while a number of places with less than 5,000 population are treated as towns if they possess distinct urban characteristics. This appendix enlists such places with their population.

The appendix also gives the population of the villages and towns of the categories mentioned above and the percentage of rural/urban population to total of rural/urban population. For districts, the precentages have been worked on the total of rural/urban population of the state/union territory.

Appendix-III furnishes figures for houseless population and institutional population separately for rural and urban areas. The figures are given for India, states/union territories and districts.

INTER-STATE TERRITORIAL TRANSFERS

No wholesale inter-state transfers took place between 1961-1971. But a few transfers and changes did take place. They are listed below:

1. Andhra Pradesh and Mysore

Under the Andhra Pradesh and Mysore (Transfer of Territories) Act, 1968, 5 acres 3 guntas of Survey No. 19 of Abkavaripally village, Bagepalli taluk, Kolar district, were transferred to Andhra Pradesh and merged with Hindupur taluk of Anantapur district on 1-10-1968.

2. Andhra Pradesh and Orissa

During the decade the Government of Orissa laid claims to a group of villages called the Kotiya Group of villages lying in the agency portion of Salur taluk of Srikakulam district and also contended that they were under their administrative control. The basis for this claim was that this group of villages lay within Orissa state boundaries according to boundary line defined in the Orissa State Formation Act of 1936. This was not accepted by the Government of Andhra Pradesh. The dispute remained unresolved and in 1968 the Government of Orissa filed a suit against the Government of Andhra Pradesh in the Supreme Court of India claiming jurisdiction over these villages. The Supreme Court issued an interim order on 2 December, 1968 stating that status quo ante (as existing on 2 December, 1968) be maintained by the parties and that there should be no further ingress or egress on the territories in dispute on the part of either party. The Registrar General, therefore, advised the Directors of Andhra Pradesh and Orissa to get the census count done in the disputed area lying in their respective jurisdictions. Accordingly enumeration was done in the disputed area by the respective Directors. It was further decided that a common note explaining the position would be given in Part II-A Volumes of Andhra Pradesh, Orissa and All India and also in the concerned District census handbooks.

3. Bihar and Uttar Pradesh

Following the Trivedi Award to determine the boundaries of Bihar and Uttar Pradesh, the Bihar-Uttar Pradesh (Alteration of Boundaries) Act, 1968 (Act XXIV of 1968) came into force on 10 June, 1970. The boundary strip maps published by Survey of India under this act formed the basis for transfer of territories between the two states. The villages were generally identified with the help of these maps and in a few cases where the local habitations could not be located with reference to the names given on the maps, these were based on the reports of local officers. Accordingly 99 villages (30 wholly and rest partly) were transferred from Bihar to Uttar Pradesh and 44 villages (8 wholly and rest partly) were transferred from Uttar Pradesh to Bihar.

Although it was rather late for the census to adopt the jurisdictions newly carved out, the Directors of Bihar & Uttar Pradesh tried their utmost to conform to these. But the boundary strip maps themselves, which formed the basis for such delineation, in some cases as mentioned above were not complete and hence for such cases they had to go by the reports of local officers. It was but natural that such reports (from two sides) would be conflicting at times. The efforts of the two Directors to settle such discrepancies yielded results but in certain cases they also felt helpless because of the different stands taken by the two sides. The R.G's Office then decided to present the data having regard to the new jurisdictions to the extent possible and for controversial cases elaborate foot notes were provided to explain the situation without prejudice to the respective claims of the two sides on such areas. The footnotes are reproduced in appendix-I to table A-I.

4. Territories carved out from Assam

I. *Meghalaya:*— On April 2, 1970 the autonomous state of Meghalaya was formed within the state of Assam vide the Assam Reorganisation (Meghalaya) Act 1969-No. (55 of 1969) dated 20 December, 1969 comprising the United Khasi and Jaintia hills district as described in sub-paragraph (2) of paragraph 20 of the sixth schedule to the constitution (exclusive of the proviso thereto) and the Garo hills district. A portion of Shillong town, namely European ward, Police bazar ward and Jailroad ward and Shillong cantonment remained with Assam. Though these three wards of Shillong town and the Shillong cantonment covering an area of 13 km² were administratively in Assam as on 1-4-71 they have been excluded from Assam and shown under Meghalaya for statistical purposes.

By virtue of the North-Eastern Areas (Reorganisation) Act 1971 (Act No. 81 of 1971) enacted by Parliament, a new state known as the state of Meghalaya was formed comprising (a) the territories which were comprised in the autonomous state of Meghalaya formed under section 3 of the Assam Reorganisation (Meghalaya) Act 1969 (55 of 1969) and (b) so much of the territories comprised within the cantonment and municipality of Shillong as did not form part of that autonomous state. The new state of Meghalaya came into being on 21 January, 1972 and ceased to form part of the existing state of Assam. In effect the three wards of Shillong municipality and Shillong

cantonment which formed part of Assam, got merged in the state of Meghalaya from this state.

II. *Union territory of Mizoram:*— By virtue of the North-Eastern Areas (Reorganisation) Act 1971, a new union territory of Mizoram comprising the territories which were comprised in the Mizo district in the state of Assam was constituted. This union territory also came into being on 21 January, 1972. The data of present union territory of Mizoram which was then a district of Assam have, therefore, been presented within the state of Assam.

III. *North East Frontier Agency:*— At the time of taking 1971 Census, the North East Frontier Agency was a part of Assam administered directly by the Precident of India through the Governor of Assam as his agent.

In 1972 NEFA was also formed into a new union territory of Arunachal Pradesh with the territories as specified in section 6 of the North-Eastern Areas (Reorganisation) Act 1971. Data for NEFA are, however, being shown in this book as those of Arunachal Pradesh.

5. Territories carved out from the composite state of Punjab

I. *Haryana:*—The state of Haryana was carved out of the composite Punjab state on 1 November, 1966 under the Punjab Reorganisation Act, 1966 with the following areas:—

(a) Hisar, Gurgaon, Karnal, Mahendragarh and Rohtak districts.

(b) Narwana & Jind tehsils of Sangrur district comprising the new district of Jind.

(c) (i) Ambala, Jagadhri & Naraingarh tehsils of Ambala district; and

(ii) 153 villages and Kalka town of Kharar tehsil transferred to Naraingarh tehsil.

The areas transferred at (C) (i) and (ii) above formed the district of Ambala in the new state of Haryana. The areas transferred under item (C) (ii) above to the Naraingarh tehsil, were later on taken out of the said tehsil so as to form a new tehsil, namely, Kalka tehsil under the Haryana Government Notification No. 4575-E(V)-67/2626, dated 25 July , 1967.

II. *Chandigarh:*— Under the provision of Punjab Reorganisation Act 1966, the union territory of Chandigarh was formed which was formerly part of Kharar tehsil of Ambala district of composite Punjab state. It comprised 36 villages and two towns, viz., Manimajra and Chandigarh of Kharar tehsil of Ambala district.

III. *Portion transferred to Himachal Pradesh:*—The Himachal Pradesh and Bilaspur (New State) Act, 1954 (32 of 1954) formed the new state of Himachal Pradesh by uniting the existing states of Himachal Pradesh & Bilaspur. Later on under the provision of Punjab Reorganisation Act of 1966 some more areas from the composite Punjab state were transferred to the existing union territory of Himachal Pradesh which are as follows :—

(1) Complete districts of Kangra, Simla and Lahul & Spiti of Punjab. Later on Kulu district was carved out from Kangra district comprising of entire tehsil of Kulu.

(2) Three towns viz. Bakloh, Dalhousie and Dalhousie Cantt. of Gurdaspur district.

(3) Nalagarh tehsil of Ambala district.

(4) 290 villages alongwith Una town of Una tehsil of Hoshiarpur district.

This union territory attained statehood under the provision of the State of Himachal Pradesh Act, 1970 (Act No. 53 of 1970) which was assented to on 25 December, 1970.

IV. *New Punjab:*— The remaining areas of the erstwhile composite Punjab state after excluding portion as outlined above under the provision of the Punjab Reorganisation Act 1966, formed the existing Punjab state.

6. Union territory of Dadra and Nagar Haveli

By the Constitution (Tenth Amendment) Act, 1961 was established the union territory of Dadra and Nagar Haveli with effect from 11 August, 1961. A census of this territory was taken on 1 March, 1962. The census figures for this territory were included with the census figures of 1961 alongwith the figures of the other states in Indian union without making adjustment to bring the data as on 1 March, 1961. In 1971, census was conducted in this territory along with the rest of the country with reference date as at sunrise of 1-4-71.

7. Union territory of Goa, Daman and Diu

By the Constitution (Twelfth Amendment) Act, 1962 the union territory of Goa, Daman & Diu was also established with effect from 20 December, 1961. A census of Goa, Daman & Diu was taken by the then Portuguese Government, as on 15 December, 1960. These figures were adopted for the 1961 Census totals of India. No adjustment was, however, made as on 1 March, 1961. In 1971, census was conducted in this territory as on 1-4-71 like other states & union territories of India.

8. Union territory of Pondicherry

With the coming into force of the Constitution (Fourteenth Amendment) Act, 1962 the union territory of Pondicherry comprising the former French Establishments came into being with effect from 16 August, 1962.

The Pondicherry Administration Ordinance, 1962 was promulgated on 6 November, 1962 which was later replaced by the Pondicherry Administration Act, 1962 with effect from 1 July, 1963. The 1961 Census, however, was conducted in this territory on due dates i.e. 1-3-61 as part of All India census though legally it was not a part of India then. It was being administered on a *de facto* basis by the External Affairs Ministry of the Government of India under the Foreign jurisdiction act. 1971 Census was conducted in the territory as on 1-4-71 (the reference date) like other states/union territories in India.

9. Manipur

The union territory of Manipur got statehood on 21 January, 1972 under the provision of North-Eastern Areas Reorganisation Act, 1971. There has been no change in the area of Manipur since 1961. The data of 1971 Census for Manipur are, therefore, being published under the category of state.

10. Nagaland

By the State of Nagaland Act, 1962 (27 of 1962) a new state of Nagaland was created, which comprised the Naga Hills-Tuensang Area to operate from a date to be notified earlier formed by Nagaland (Transitional provision) Regulation, 1962 and this came into operation with effect from 1 December, 1963 as a state. The figures for Nagaland were not shown under the category of state in 1961 Census. The data collected at the census, however, related to the position as on 1 March, 1961, the reference date for the census. In 1971 Census the population statistics of Nagaland are, however, being published under the category of state.

Subsequent to 1971 Census, in accordance with the provisions of section 3(2) of the state of Nagaland Act, (1962), the state of Nagaland comprised of three districts but with a view of introducing a more efficient system of administration in the state, it now comprises of seven districts. These districts came into force by an order of Government of Nagaland with effect from 21 December, 1973. But in this volume the statistics are being presented for three districts only as they reflect the position as on 1-4-1971.

11. Sikkim

Sikkim became a state of the Indian union according to the constitution (36th) amendment Act of 1975.

12. Tripura

This union territory was also raised to the position of a state on 21 January, 1972, under the provision of the North-Eastern Areas (Reorganisation) Act, 1971 (No. 81 of 1971). 1971 population statistics of Tripura are, therefore, being published under the category of state.

ALTERATIONS OF NAMES

After 1961 Census the state of Madras has been renamed as Tamil Nadu and is appearing as such in all census tables.

Subsequent to 1971 Census, there have been two alterations of names. Mysore state has been renamed as Karnataka under the provision of the Mysore State (Alteration of Name) Act, 1973 (No. 31 of 1973) dated 21 August, 1973. The act came into force from 1 November, 1973.

Similarly the name of the union territory, of Laccadive, Minicoy and Amindivi Islands has been changed as Lakshadweep under the provision of the Laccadive, Minicoy and Amindivi Islands (Alteration of Name) Act, 1973 (Act No. 34 of 1973) dated 26 August, 1973. This Act also came into force from 1 November, 1973. It has, however, been decided that the old names of Mysore & L.M. & A. Islands should be retaind in the 1971 Census publications because they reflect the position as on 1-4-1971.

Traditionally the census of Sikkim was being conducted by India and its statistics have also been published in Indian census publications. This continued till 1961 Census. In 1971 though the Indian census schedules were adopted for the census of Sikkim, the data in respect of Sikkim are not being published in the census of India volumes. The Sikkim census authorities will bring out their own publications.

So taking into account the various changes enumerated above there are at present 21 states and 9 union territories in Indian union.

AREA FIGURES

Column 3 of table A-I gives the statistics of area in Sq. Kilometres. In 1961 two sets of area figures available from the Surveyor General, India and State survey departments were used in the census publications for India, states, union territories and districts. The urban area figures were based on the area figures of individual towns furnished by the local authorities. The rural area for a district was derived by subtracting urban area figure from the state survey area, figure which represented total area figure. In 1971 only one set of area (total) figures is being presented at India/state/union territory and district level. The area figures represents provisional geographical area as on 1-7-71 except in the case of Andaman &Nicobar Islands for which area figure relates to 1-1-66 and has been supplied by the Surveyor General.

The Surveyor General's figures are not available below district or by rural/urban break up. Hence figures for urban areas are those supplied by the local bodies and are based on the area figures of individual towns. Rural area figures are derived by subtracting the urban area from the total geographical area of each district. District figures thus derived were added up to give state/union territory figures.

The following statement gives the geographical area figures supplied by the Surveyor General alongwith ranking of states & union territories based on area.

STATEMENT 1

Ranking of states/union territories in terms of area

State/Union Territory	Provisional area figures furnished by Surveyor General as on 1-7-71 (Sq. Km.)	Proportion to total area of India	Ranking of states/ union territories

* Includes Mizo district, now constituted as union territory of Mizoram.

† As on 1 January, 1966.

N—Stands for negligible.

The latest total area of India works out to 3,287,782 km². Madhya Pradesh with its area 442,841 km² is the largest state in India, Sikkim with an area of 7,299 km² ranks last among states. Among union territories Arunachal Pradesh with an area of 83,578 km² tops the list. The lowest area, however, is that of L. M. & A. Islands which is 32 km².

URBAN AREAS

In Table A-I, figures for different items for each unit are presented separately for rural and urban areas.

It is customary to classify the population of a country as rural and urban at a census. Such ditchotomy has considerable significance and is necessary from the point of assessing the differential in the social, economic, cultural and demographic characteristics of the population. Difficulties, however, arise on account of lack of uniform definition of urban areas. In view of the varying conditions between country and country, it has not been found possible to have a uniform definition that can be universally applied in all countries. Definitions have varied even between the different censuses in the same country.

In India for the first time in 1951 all census statistics were presented separately for rural and urban areas. A fairly strict definition of an urban area had started to be adopted in India from the 1961 Census. For 1971 Census the definition adopted for an urban area was by and large the same as that of 1961. As already mentioned in the introductory note, all places with a municipality, corporation, cantonment or notified area were automatically treated as towns. All other places which satisfied the following criteria were also considered as towns.

(i) a minimum of 5,000 population

(ii) at least 75% of the adult male working population is non-agricultural

(iii) a density of population of at least 400 persons per km².

The Director of Census of each state/union territory was, however, given some discretion in respect of some marginal cases, in consultation with the state government to include some places that had other distinct urban characteristics and to exclude undeserving cases.

The following gives briefly a historic survey of the changing definition of towns between 1891 and 1971.

STATEMENT 2

Tests for eligibility for places to be treated as towns, 1891—1971

1971	1961	1951	1941	1931
1. Municipal Corporation 2. Municipal area	Municipal Corporation Municipal area	Municipal Corporation Municipal area	Municipal Corporation Municipal area	Municipal Corporation Municipal area
3. Town Committee	Town committee	Town area committee		
4. Notified area committee	Notified area committee	*Civil lines not included in municipal limits*	All civil lines not included in municipal limits	All civil lines not included in municipal limits
5. Cantonment Board	Cantonment Board	Cantonment	Cantonment	Cantonment
6. Selected places with (a) denisty of not less than 400 persons per km² (b) a population of 5,000 (c) three fourths of the working population should be outside agriculture (d) or any other place which, according to the Director possesses pronounced urban characteristics and amenities.	Selected places with (a) density of not less than 1000 per sq. mile (b) a population of 5,000 (c) three-fourths of the working population should be working outside agriculture (d) or any other place, which according to the Superintendent of the state, possesses pronounced urban characteristics and amenities.	Test prescribed for distinguishing towns from villages in different states were based on ideas common to all states, but they were not identical nor had they been applied with meticulous uniformity. In the case of princely states, the definition of town was applied a little indiscriminately.	Every continuous collection of houses inhabited by not less than 5,000 persons, which the provincial superintendent may decide to treat as a town.	Every other continuous collection of houses inhabited by not less than 5,000 persons, which the Provincial superintendent decide to treat as urban. In making this decision consideration was given to (a) the character of the population; (b) relative density of the dwellings; (c) importance in trade, historic associations and to avoid treating as towns over grown villages without urban characteristics.

STATEMENT 2

Tests for eligibility for places to be treated as towns, 1891-1971—concld.

1921	1911	1901	1891
Municipal Corporation Municipal area	Municipal Corpoartion Municipal area	Municipal Corporation Municipal area	Municipal Corporation Municipal area or any place brought under some similar regulation for police or sanitary purposes.
All civil lines not included in municipal limits	All civil lines not included in municipal limits	All civil lines not included in municipal limits	
Cantonment	Cantonment	Cantonment	Cantonment
Every other continuous collection of houses inhabited by not less than 5,000 persons, which the Provincial superintendent may decide to treat as a town for census purposes In Indian states where *there were no* municipalities, this definition was required to be extensively applied. Note: "In dealing with questions arising under head (6), the provincial supdt. will have regard to the character of the population, the relative density of the dwellings, the importance of the place as a centre of trade and its historic associations and will bear in mind that it is undesirable to treat as towns overgrown villages, which have no urban characteristics".	Every other continuous collection of houses inhabited by not less than 5,000 persons, which the provincial superintendnet may decide to treat as a town for census purposes Note.]However, a few *places, chiefly in the* Native states which did not satisfy the requirements were teated as towns for special purposes "The Provincial Superintendents were, however, instructed, when considering the question of treating places as towns on the basis of their population, to take care to, exclude such as are merely overgrown villages and have no urban features It is true that the discretion thus allowed has occasionally led to a certain want of uniformity	Every other continuous collection of houses permanently inhabited by not less than 5 000 persons, which the Provincial superintendent may decide to treat as a town for census purposes	a) Every place where the proportion of the trading and industrial population to the total is equal to or greater than that of the agricultural population, (b) every other continuous group of houses inhabited by not less than 5,000 people.

One of the innovations of 1971 Census is the presentation of certain urban data for what are known as Standard urban areas and Urban agglomerations. These two new terms have been discussed at length in the Introductory note to this volume.

The following statement gives the progress in the number of towns between 1901 and 1971. While compiling the statement the constituents of urban agglomerations in 1971 which were also regarded as separate towns in any previous census have been treated as separate units:—

STATEMENT 3

Progress in the number of towns 1901—71

(Excludes and includes towns eliminated and newly included in a particular census)

* The total number of towns for the years 1901-1951 do not agree with those published in 1971 Part II-A Volume of Andhra Pradesh. The difference is due to the fact that while deriving the towns for back decades, the constituent units of Hyderabad City which are reckoned as separate towns in their own right are counted as such for All-India whereas Hyderabad City has been counted as a single town in back decades for the purpose of deriving total number of towns shown in Andhra Pradesh Part II-A.

† Includes Mizo district, now constituted as union territory of Mizoram.

‡ Denotes the number of towns continuing between 1941-61.

@ The total number of two towns for the years 1901-1941 are based on the figures published in 1961 Part II-A Volume, All-India. These figures do not tally with those published in 1971 General Population Tables of Goa, Daman and Diu which were revised later on as a result of direct investigation.

The above statement is interpreted below in terms of indices of growth from census year to year with the number of towns in each state or union territory during 1901-71 with 1901 as base (1901=100).

STATEMENT 4

Progress in the number of towns 1901—71 expressed in terms of indices with 1901 as base (1901=100)

* Includes Mizo district, now constituted as union territory of Mizoram.

From the above statements it is observed that there are 3,119 towns in India according to 1971 Census. So there has been an increase of 420 towns during 1961-71. Almost all states and union territories have contributed to the increase in the number of towns. The biggest increase is noted in Tamil Nadu where the number of towns has gone up from 339 to 439. Reduction is, however, noted in Kerala and Punjab states only where the number of towns has gone down from 92 to 88 and from 109 to 108 respectively. There has been reduction in the number of towns from 3,059 in 1951 to 2,699 in 1961. This has been due to the applicability of rigid and uniform definition of urban areas in 1961 Census. Net reductions have been observed in Gujarat, Haryana, Himachal Pradesh, Madhya Pradesh, Mysore, Punjab, Uttar Pradesh in 1911; Jammu & Kashmir, Punjab, Rajasthan & Delhi in 1921, and Mysore in 1941.

The following statement shows the progress in urban population of India, states & union territories between 1901-71:

STATEMENT 5

Progress in urban population of states and union territories, 1901—71

* Includes Mizo district, now constituted as a union territory of Mizoram.

The following statement gives the number and population of places counted as towns in 1961 but removed from the list of towns in 1971, arranged by state and size class, class III being 20,000—49,999; class IV 10,000—19,999, class V 5,000—9,999 & class VI below 5,000.

There are 131 towns of 1961 which were removed from the list of towns in 1971. The largest number was from class V which accounts for 70 towns alone with a population of 516,791. Among the states, Tamil Nadu tops the list where 45 towns of 1961 were declassified for 1971 Census. Andhra Pradesh ranks second where 37 towns of 1961 were declassified.

STATEMENT 7

Number and population of places treated as towns in 1961 but removed from the list of towns in 1971 arranged by state and size class (Places in 1961 which have been merged with other towns have also been shown separately)

UNION TERRITORIES‡											
1. Pondicherry	..	..	..	..	..	..	..	..	..	..	1

* Five towns wholly of 1961 Census, viz., Fort Cochin, Mattancherry, Willingdon Island, Edapally, Ernakulam and part of Thrippunithura have been merged in 1971 Census forming Cochin Corporation.

† In 1971, Bhosari, Pimpre Waghere and Chinchwad towns of 1961 Census have been merged to form Pimpre Chinchwad new town ship.

‡ Among union territories except Pondicherry no town has been removed from the list of towns in 1971 nor has merged in other towns.

The following statement shows the number and population of places not treated as towns in 1961 but treated as such in 1971, arranged by states/union territories and size class (class I 100,000 and above, class II 50,000—99,999, class III 20,000—49,999, class IV 10,000—19,999, class V 5,000—9,999 and class VI below 5,000)

There are 593 towns which were newly added to the list of towns in 1971 in comparison to 1961 Census. The highest number (284 towns) is contributed by towns of category V. Among the states Tamil Nadu tops the list again with the inclusion of 152 towns.

8. Pondicherry	2	64,308	..	..	..	..	2	64,308	..	..	..	..	..	..

* Includes one uninhabited town namely Badrinathpuri.

† Includes Mizo district, now constituted as union territory of Mizoram.

‡ Cochin Corporation has been constituted by including Fort Cochin, Mattancherry, Edapally, Ernakulam, Willingdon Island and part of Thrippunithura towns and some adjoining rural areas. Though in Table A-IV the population is appearing since 1901 against this town even then it is being treated as a new town of 1971.

@ Pimpre Chinchwad New Township (M) has been constituted by merging the towns Bhosari, Pimpre-Waghere, Chinchwad and two villages. It is being treated as a new town of 1971 Census though it has population in 1951 and 1961 Censuses in table A-IV.

RURAL AREAS

As mentioned earlier it is a census tradition to present the census statistics by rural/urban break up. By rural areas we mean the population living in villages. The village generally follows the limits of a revenue village which is recognised by the normal district administration. The revenue village need not be a single agglomeration of habitations, but the revenue village has definite surveyed boundaries.

For census purpose the village is always the revenue village which is the ultimate unit of area into which the country is divided for purposes of land revenue. In a few past censuses only those revenue villages were considered which had some population ignoring the uninhabited revenue villages. But in 1961, the revenue villages which did not have any residential population were also included in the definition of villages. The same practice was followed in 1971 also and such villages are included in the census list but are described as 'uninhabited' villages. In 1971 village is thus a revenue village having defined boundaries and a separate set of land records irrespective of whether that defined area has any population or not and if it has some population whether that population resides in one residential locality or is in addition, spread over one or more identifiable clusters of population known as hamlets. The hamlets do not have defined boundaries or areas distinctly marked or allotted to them. The hamlets are situated within the areas earmarked for the village.

There are some villages the areas of which have fully or partly been merged or included in the neighbouring towns or in the towns growing after their names but they are recognised as such for land revenue purposes by the state Government. In such cases there will be no population in the areas of such villages and hence they have been shown as uninhabited.

The entire revenue village is one unit but there may be unsurveyed villages within forests, etc., which mainly comprise forest labourers and their families. Such forest villages have also been treated as villages. So the inhabited villages shown under col. 5 of A-I includes not only revenue villages having residential population but also inhabited forest villages. The uninhabited villages are shown under separate head which gives the number of deserted or uninhabited revenue villages.

The following statement shows the distribution of taluks/tehsils/police stations by number of inhabited villages per 100 sq. Kilometers in 1971 which gives an idea of the distribution of mauzas of different physical sizes throughout the country. The statement excludes 145 tehsils for which accurate areas are not available and 24 areas being entirely urban.

STATEMENT 9

Distribution in terms of deciles of taluks/tehsils/police stations/development blocks by size class of number of villages per 100 sq. kms

(145 tehsils/taluks, etc., have been excluded because no accurate area figures are available. 24 more areas have been excluded being entirely urban.)*

State/Union Territory	Total No. of Taluks/ Tehsils/ Police Stations/ Development Blocks	0·45 to 28 villages per 100 sq. kms.	29—36 villages per 100 sq. kms.	37—46 villages per 100 sq. kms.	47—57 villages per 100 sq. kms.	58—72 villages per 100 sq. kms.	73—91 villages per 100 sq. kms.	92—114 villages per 100 sq. kms.	115—157 villages per 100 sq. kms.	158+ villages per 100 sq. kms

19. Tripura	4,727	4,932	3,453	4,387	3,382	3,373	2,316	1,463
20. Uttar Pradesh	112,561	112,626	111,724	105,775	111,003	109,726	108,210	108,646
21. West Bengal	38,074	38,465	38,474	N.A.	N.A.	N.A.	N.A.	N.A.

* Includes Mizo district, now constituted as union territory of Mizoram.
† Excludes the villages transferred from United Khasi and Jaintia Hills to Mikir Hills sub-division.
‡ No census was conducted in 1951.
@ Tuensang district covering only 16 villages was censused for the first time in 1951.
$ (i) Excludes Nawapara subdivision of Kalahandi district which was under Central Province.
(ii) Excludes the figures for the portions of Parbatipur and Salur taluks of Koraput district which were included in Orissa as separate figures of these taluks are not available.
£ The number of inhabited villages in Tamil Nadu for 1901 Census does not tally with the figures published in Fly-leaf to table A-I of all India volume 1 Part II-A(i) of 1961. The difference seems to be due to printing error.
NOTE: The figures shown for the years 1901—1941 in respect of Haryana, Himachal Pradesh and Punjab states have been readjusted on the basis of present set-up of each state.
N.A.—stands for not available.

From the above statement it is observed that there has been decline in the number of villages in eight states viz. Bihar, Gujarat, Jammu & Kashmir, Kerala, Maharashtra, Tripura, Uttar Pradesh and West Bengal between 1961-71. In rest of the cases the increasing trend is observed. Similar types of fluctuations are noted during previous censuses also. The reasons for fluctuations may be due to a variety of reasons as follows:—

(i) The creation of new villages in certain areas owing to fresh settlements with new land being brought under cultivation and to better coverage in remote and inaccessible areas; (ii) alluvion and diluvion of large rivers which create new lands and islands and therefore fresh human settlements as well as destroy old settlements on crumbling river banks; (iii) the periodic land settlements and surveys organised by state governments which rationalise revenue administrations and revenue boundaries; (iv) various administrative measures, e.g., panchayat groupings of village communities; (v) the tendency in remote and hilly areas of isolated hamlets to expand and merge into larger units; (vi) the inclusion of villages in new and expanding towns; and (vii) the declassification of a number of towns at each census.

It would also be interesting to study the progress in rural population of states and union territories during 1901-61. The following statement gives the figures of rural population in states and union territories during 1901-61.

STATEMENT 11

Progress in rural population of states and union territories 1901—71

*Includes Mizo district, now constituted as union territory of Mizoram.

†Rural population is derived by subtracting the estimated urban population from total population, which is the arithmetic mean of 1941 and 1961 population.

‡The figures for 1951 include the population 225 of Police Line, and Dudh Line which are out side Port Blair (M) but this population was treated as urban in 1951.

@Urban population not ascertainable, hence included in rural.

The figures of the above statement have been presented in terms of indices with 1901 as base in the following statement. There has been an increasing trend in rural population in India. Taking 1901 as base the population has gone up to point 207 in 1971. The increasing trend is noticed in all censuses except that of 1921. The same trend is prevailing in case of most of the states.

CENSUS HOUSE AND HOUSEHOLD

Columns 8 & 9 of table A-I gives the number of occupied residential houses and households for each state/union territory and district. Occupied residential houses are census houses which are used wholly or partly for the purpose of residence by one or more households.

At the 1971 Census the following definitions were adopted for a census house and census household.

Census House

(1) A census house is a building or part of a building having a separate main entrance from the road or common court-yard or stair-case, etc., used or recognised as a separate unit. It may be inhabited or vacant. It may be used for residential or non-residential purpose or both.

If a building has a number of flats or blocks which are independent of one another having separate entrances of their own from the road or a common court-yard leading to a main gate, they will be considered as separate census houses. If within a large enclosed area there are separate buildings, then each such building will be one or more separate census houses. If all the structures within an enclosed compound are together treated as one building then each structure with a separate entrance should be treated as a separate census house.

(2) The figures of occupied residential houses shown in this table are those of census houses actually used as residence (dwelling) or residence in combination with other use on the census day. The number of occupied residential houses thus includes besides residential houses, workshops, factories, garages, shops, depots, etc., where one or more persons like watchmen, peons, drivers, attendants, etc., were found to be residing at the time of census. On the other hand, it does not include houses which are residential houses but which at the time of the census were either vacant or where no person was found to be residing (i.e. those exclusively used for non-residential purposes).

Census Households

A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be one member household, two member household or multi-member houeshold. For census purposes each one of these types is regarded as a household. Again, there may be a household of persons related by blood or household of unrelated persons; the latter are boarding houses, hostels, residential hotels, orphanges, rescue homes, ashrams, etc. These are called institutional households.

The following statement gives the number of persons per 100 occupied census houses number of persons per 100 households, sex ratio, percentages of rural/urban population to total population and density of persons per km² for total, rural and urban areas for each state & union territory in India.

STATEMENT 13

Persons per 100 occupied residential census houses and per 100 households, number of females per 1,000 males, percentage of rural and urban population to total population and density per square kilometre in states and union territories, 1971

*While working out the density the area and population of Jammu and Kashmir have been excluded as comparable data are not available. Rural & urban population of Arunachal Pradesh have also been excluded as rural & urban area figures are not available.

†Includes Mizo district, now constituted as union territory of Mizoram.

N.A. stands for not available.

From the above statement it is found that the average number of persons per occupied census house is 6·04 in India as per 1971 Census. It is the highest in case of Jammu & Kashmir which is 6·92 persons per occupied house.

In 1961 the figure worked out to 5·57 persons per occupied house in India. This shows that during the decade the pressure for accommodation has gone up considerably. Moreover in a number of states like Andhra Pradesh, Jammu, & Kashmir, Kerala, Madhya Pradesh, Manipur, Meghalaya, Mysore, Nagaland, Punjab, Tamil Nadu, Tripura & Uttar Pradesh the proportions in urban areas are much higher which again go to prove that pressure of accomodation is higher in urban areas when compared to rural areas.

Similarly the statistics of household according to 1971 Census reveal that average no. of persons per household is 5·46. In 1961 it was slightly less being 5·16 persons per household. In none of the states the figures have gone up beyond 6 persons per household but mostly the trend has been around 5 persons per household.

The sex ratio according to the 1971 Census works out to 930 females per 1,000 males for the country. The corresponding figure for 1961 was 941. It suggests that there has been some disparity in the number of males and females during the decade, but what is disturbing is that the sex ratio is showing a downward trend. Why it is so deserves to be looked into details. Females are more only in Kerala (1016) and Dadra and Nagar Haveli (1007).

1971 Census revealed that 80·09 percent of the total population were residing in rural areas in India. This proportion has slightly gone down when compared with 1961 figures which was 82·0 per cent. In Himachal Pradesh, however, the proportion of rural population has gone upto 93·01 per cent, which is the highest among states.

The percentage of urban population in India is 19·91 according to 1971 Census. The most urbanised state is Maharashtra in which 31·17 percent of population is living in urban areas. High industrialization has lead to a greater concentration of the populaion in urban areas. Maharashtra is closely followed by Tamil Nadu in which 30·26 per cent of population is found in urban areas. The least urbanised state is Himachal Pradesh having 6·99 percent of urban population. The position of union territories is not strictly comparable with the states. The union territories like Chandigarh and Delhi are almost entirely urban. The urban population of Chandigarh is 90.55 percent of the total population and that of Delhi is 89.70 percent. The union territories of Dadra & Nagar Haveli and Laccadive, Minicoy & Amindivi Islands are entirely rural.

DENSITY PER SQUARE KILOMETRE

Column 4 of table A-I gives the population per km². The density figures per square kilometre for urban areas have been worked out by using the area figures corrected upto two places of decimals obtained by adding the area of individual towns in the respective units. For 'total ' and 'rural' the density is worked out on area figures corrected upto one place of decimal.

The average density of persons per km² for the country works out to 178 persons; the urban density being 2505 persons and rural density 148 persons per km². Among states the highest density of 549 persons per km² is recorded in Kerala while the lowest density of 31 persons is observed in Nagaland.

For rural areas, West Bengal with a density of 388 persons tops the list among states. The lowest density of 28 is again observed in Nagaland.

For urban areas again West Bengal recorded the highest density of 5,628 persons per km². Among states lowest density of 1,113 persons was recorded in Orissa.

Columns 10, 11 and 12 of table A-I give total population by sex break up. This population represents the residential population as at the sunrise of 1 April, 1971 plus houseless population counted on the night of 31 March, 1971. The total population includes institutional and houseless population also. The houseless population includes persons who do not have any fixed place of residence but move from place to place, camp at night or just live on the streets, in gardens or in open places without erecting a hut or a similar structure. They may include domestic servants and other workers who do not reside in any house but sleep in the corridors, verandahs, passages in the buildings, or on the streets; wandering or nomadic tribes found to be staying in temporary huts or residing on the grounds; beggars, vagrants , sadhus, fakirs, etc., who are found on the footpaths, streets and in big places like parks, gardens, sea-shores, railway yards, etc.

A-I AREA, HOUSES AND POPULATION

NOTES FOR THE TABLE

1. The area in column 3 for 'Total' represents provisional 'Geographical Area' as on 1-7-1971 supplied by the Surveyor General of India. Figures for Urban areas are those supplied by the Local Bodies and are based on the area of individual towns. Area figures for Rural areas are derived by subtracting the urban area from the total geographical area of each district. District figures thus derived were added up to give State/Union Territory figures.

2. The density figures per Sq. Km. shown under column 4 for 'Urban' are worked out using the area figures corrected upto two places of decimal obtained by adding the areas of individual towns in the respective units. For 'Total' and 'Rural' the density is worked out on area figures corrected upto one place of decimal.

3. While working out the density of India, (Total, Rural and Urban) population and area of Jammu and Kashmir have not been taken into account, as comparable data are not available. Rural and Urban population of Arunachal Pradesh have also been excluded from India total, as the area figures are not available for Rural and Urban areas separately.

4. In the case of Gujarat, Madhya Pradesh, Orissa, Punjab and Tripura states, a few Urban Units which are appearing as constituent units of Urban Agglomerations, i.e. 'Out Growth'; area figures are not available separately and are included in rural area. The urban density in such cases has been worked out only for those units for which the area figures are available. In other cases 'N.A.', which stands for 'not available', has been shown in columns 3 and 4 of state Table A-I.

5. Rural and Urban areas shown under column 3 for India, excludes the area of Arunachal Pradesh as the same is not available for Rural and Urban areas separately.

6. Figures shown under column 8 for India do not include number of houses occupied by Indian Nationals and their families in Indian Missions abroad.

7. Some changes in the area figures, due to computational error, were intimated by the Surveyor General of India, after the publication of Part II-A Volumes of Andhra Pradesh and Orissa (Series 2 and 16 respectively). The changes relate to Visakhapatnam, East Godavari, West Godavari, and Khammam districts of Andhra Pradesh and Koraput district of Orissa. Hence area figures in respect of these districts as also the respective state totals appearing in this Volume will not tally with those reported in the Part II-A Volumes of Andhra Pradesh and Orissa.

8. The figures for India and the Andaman and Nicobar Islands are exclusive of the Jarawas and Sentinelese tribes of the Andaman and Nicobar Islands. These tribes men could not be contacted and hence no information pertaining to them could be collected at the 1971 Census.

*Population figures excludes population of areas under unlawful occupation of Pakistan and China, where census could not be taken.

** The area of Arunachal Pradesh (83,578·0) is included in 'Total', separate area for 'Rural' and 'Urban' is not available.

†(i) While working out the density, the area and population of Jammu and Kashmir have been excluded as comparable data are not available. (ii) Rural and Urban population of Arunachal Pradesh has also been excluded as Rural and Urban area figures are not available.

‡Includes Mizo district, now constituted as union territory of Mizoram.

£See note 7 on page 53.

§Includes 30 villages which are uninhabited (there being no occupied residential houses located in these villages) but have houseless population which adds to 1,215 persons (978 M., 237 F.)

@Includes the population of unsurveyed forest areas.

A-I AREA, HOUSES AND POPULATION—*contd.*

R Stands for 'Rural'

U Stands for 'Urban'

APPENDIX

A—Statement showing the details of present set up of States

State/Union Territory as in 1971 Census	States/Districts and parts of Districts which were common to the State in 1961	Areas added	
		Name	Area in sq. km
1	2	3	4
STATES			
ANDHRA PRADESH	(1) Srikakulam, Visakhapatnam, East Godavari, West Godavari, Krishna, Guntur, Nellore, Chittoor, Cuddapah, Anantapur, Kurnool, Mahbubnagar, Hyderabad, Medak, Nizamabad, Adilabad, Karimnagar, Warangal, Khammam and Nalgonda districts	Abakavaripalli village (Part) of Bagepalli Taluk of Kolar distirct.	N(0.03)
	(2) Ongole (Prakasam) district newly formed with:		
	(a) Entire Ongole taluk transfered from Guntur district.		
	(b) Entire Kandukur, Darsi, Podili and Kanigiri Taluks transferred from Nellore district.		
	(c) 41 Villages of Narasaraopet taluk of Guntur district.		
	(d) 43 villages and Chirala and Vetapalem towns of Bapatla Taluk of Guntur district.		
	(e) Entire Giddalur and Markapur taluks of Kurnool district.		
ASSAM*	(1) Goalpara, Kamrup, Darrang, Lakhimpur, Nowgong, Sibsagar, Cachar, Mizo† (Mizo Hills) districts.		
	(2) Mikir Hills district newly formed with: Mikir hills sub division of former United Mikir & North Cachar Hills district.		
	(3) North Cachar Hills district newly formed with: North Cachar Hills sub division of former United Mikir and North Cacher Hills district.		
BIHAR	(1) Patna, Gaya, Champaran, Muzaffarpur, Darbhanga, Monghyer, Bhagalpur, Saharsa, Purnea, Santal Parganas, Palamau, Hazaribagh, Ranchi, Dhanbad and Singhbhum districts	44 villages (8 wholly and 36 partly) of Ballia district	N.A.
	(2) Shahabad district:		
	(a) 27 villages (5 wholly and 22 partly) of Ballia district transferred from U.P. state.	(i) 27 villages (5 wholly and 22 partly) of Ballia tehsil	N.A.
		(ii) 14 villages (2 wholly and 12 partly) of Bansidih tehsil	N.A.
	(b) 64 villages (23 wholly and 41 Partly) of Shahabad district transferred to Ballia district of U.P. state.	(iii) 3 villages (1 wholly and 2 partly) of Ballia tehsil.	N.A.
	(3) Saran district:		
	(a) 17 villages (3 wholly and 14 partly) of Ballia district transferred from U.P. state.		
	(b) 35 villages (7 wholly and 28 partly) of Saran district transferred to Ballia district of U.P. state.		

'N' Stands for negligible.

* Includes Mizo district, now constituted as union territory of 'Mizoram'.

† Now constituted as union territory of 'Mizoram'.

‡ Provisional area figures supplied by Surveyor General, India.

Notes:— (1) Following the Trivedi Award to determine the boundaries of Uttar Pradesh and Bihar, the Bihar—Uttar Pradesh (Alteration of Boundaries) Act transfer of territories between the two states. The villages were generally identified with the help of these maps and in a few cases where the local habitation and rest partly) were transferred from Bihar to U.P. and 44 villages (8 wholly and rest partly) were transferred from U.P. to Bihar. The list of villages thus trans-

"According to the local Officers of Buxar and Ballia a portion of village Sheopur Diar belonging to U.P. was enumerated by Buxar authorities (Bihar), report of Buxar authorities the records of this village alongwith those of the portion of Sheopur Diar (unsurveyed), which has gone over to U.P., were transferred judice to the respective claims of Bihar and U.P. on the portion of Sheopur Diar lying in either state, the entire population i.e. 13,866 the slips of which were volumes for village Sheopur Diar, thana no. 94/471."

In addition, one village, *viz.*, Suremanpur Harnarayan, which was identified from the aforesaid maps as one which should remain in Bihar, has been, data of that village had been incorporated in that of U.P.

(2) According to the award the portion of village Bhirgu Ashram lying in U.P. has now been transferred to Bihar where the other portion was lying from

(3) According to local officers of the respective states, village Bikrampur Dariya and Diara Ailasgarh Naubarar have been transferred to Bihar wholly.

(4) Local Officers of Bihar state have confirmed that village Hardeo Chhapra has gone over to U.P. wholly.

(5) According to the Survey Map prepared under the authority of Trivedi Award a small portion near Pillar No. 13-A in Sheet No. 2 and between Pillars No. lie wholly in Bihar. The Registrar General decided that, without prejudice to the respective claims of the State Governments, these two villages, which are unin-

(6) On superimposition of the fixed pillar boundary as shown in the boundary strip maps published by the Survey of India on the Development Block maps Gangbarar thana no. 476 (Barhampur Development Block) and Parsotimpur, Bishunpur, Chacharampur and Sobhanathi (Shahpur Development Block) fall states these 7 villages be shown in Bihar State.

(7) Two uninhabited villages, Bilarpur thana no. 33/490 and Bhirgu Ashram thana no. 472 of Simri Development Block and one inhabited village Mahazi these villages are already shown in Anchal-cum-Development Block maps as well as Census Publications of 1961 of Bihar state. However, in view of the 'Awa-

(8) There are five part villages, *viz.*, Mahazi Dokti, Dokti, Bashistnagar, Mahazi Gondauli and Diara Maniar Tukra, I, transferred from Uttar Pradesh to Development Block only, village *Dokti* has been shown in Arrah Development Block only, village Bashistnagar has been shown in Manjhi Development Block only.

(9) Out of 64 villages of Shahabad district and 35 villages of Saran district transferred to Ballia district of U.P. state under the "Trivedi Award", 21 villages Block maps of 1961 when Survey of India map is superimposed on the former maps. These do not find mention in 1961 census records also presumably level only. The total number of villages in Development Blocks and Sub-divisions will not, therefore, add up to the number of villages in these districts as

(10) Only those territorial units which have under gone changes since 1961 have been shown in the Appendix.

(11) N.A. stands for not available.

AND POPULATION

1

Union Territories emerged from the Territories of 1961 Census

Name of State/District from which area is subtracted	How the areas mentioned in col 3 have been incorporated	Areas which have been subtracted		Name of State to which area is added	Net Gain/Loss + (Gain)—(Loss) in sq km
		Name	Area in sq km		
5	6	7	8	9	10
Mysore	Hindupur taluk of Anantapur district				(+) N (0 03)
		(i) Garo Hills district	8,084 0‡	Newly formed Meghalaya state	(—)22,489 0
		(ii) United Khasi and Jaintia Hills district	14,405 0‡	do	
Uttar Pradesh	Shahabad and Saran districts of Bihar state	99 villages (30 wholly and 69 partly)	N A	Uttar Pradesh	N A
Ballia district of U P state	Shahabad district of Bihar state	(i) 64 villages (23 wholly and 41 partly) of Shahabad district	N A	Ballia district of U P state	N A
Ballia district of U P state	Saran district of Bihar state	(ii) 35 villages (7 wholly and 28 partly) of Saran district	N A	Ballia district of U.P state	N A

1968 (Act XXIV of 1968) came into force on 10th June, 1970 The boundary strip maps published by the Survey of India under this Act formed the basis for could not be located with reference to the names, given on the maps, these were based on the reports of local officers Accordingly 99 villages (30 wholly *ferred is appearing in the respective* District Census Handbooks

There is a surveyed village in Bihar (Barhampur Community Dev Block) by the name of Sheopur Diar bearing Dumraon thana no 94/471 On the basis of to U P by Bihar Census Office As it was not possible to identify the slips of respective portions, it was decided by the Registrar General that, without pre-processed by U P , be shown against village Sheopur Diar Numbari, Code No 817 in Ballia tehsil of Ballia district and no figure be shown in Bihar

shown in U P as the records of this village had already been transferred from Bihar to U P on the basis of the report of the local officers and the census

before Similar is the case with three more villages, namely, Bilaspur, Bilarpur and Sabdalpur and they now belong to Bihar wholly

74/4 and 75 in Sheet No 8, of villages Isarpura and Diara Nauabad lies in U P, but the local officers of Bihar state claim that these two villages habited, may be shown in Bihar for purposes of area and count of villages in Table A —I

of Bihar it was found that 7 uninhabited villages namely, Mahammadpur thana No 473 and Paikauli thana No 474 (Simri Development Block), Choubey Bela in Uttar Pradesh These villages have not been shown in the boundary strip maps It was decided that, without prejudice to the respective claims of the two

Chand Diara thana no 229 of Maujhi Development Block have been shown wholly transferred from Uttar Pradeh to Bihar according to "Trivedi Award" but rd' it has become necessary to show them here as transferred from Uttar Pradesh to Bihar

Bihar each falling in more than one Development Block For the purpose of presentation of data village Mahazi Dokti has been shown in Shahpur and villages Mahazi Gondauli and Diara Maniar Tukra I have been shown in Andar Development Block only

(whole) and 24 villages(part) of Shahabad district and 7 villages (whole) and 10 villages (part) of Saran district do not appear in Anchal-*cum* Development because these were unsurveyed areas in 1961 Due to the fact explained above the number of such villages has been taken into account at state and district well as in the state

23 Dongargarh	6.14	6.43	N.A.	N.A
Raipur:				
24 Mahasamund	11.06	14.68	N.A.	N.A.
MAHARASHTRA				
Thana:				
1 Ambarnath	16.81	18.13	N.A.	N.A.
Kolaba:				
2 Alibag	1.79	1.81	N.A.	N.A.
3 Panvel†	12.15	12.15	N.A.	N.A.

*Area reported in 1961 already includes the extended portion as a result of which there is no change in 1961 and 1971 area figures.

†It is a coincidence the area figures of 1961 and 1971 shown under columns 2 and 3 are identical. Panvel Municipality acquired territory after 1961 and its present area is 12.15 Km². Area reported in 1961 Census seems to be incorrect.

NOTES — (i) In most of the cases the population for transferred areas (Columns 4 and 5) is not available separately as no separate entity for these areas was maintained These portions were either partly added or subtracted in 1971 Census

(ii) The variation in area figures furnished in columns 2 and 3 in respect of towns of Andhra Pradesh, Barh Municipality (Bihar State), Mandi Town (Himachal Pradesh), Nandurbar (M), Erandol (M) Ahmednagar (M), Poona (M Corp.) Wai (M), Patur (M), Pusad (M) Alibag (M), Panvel (M) Malegaon (M), Satara (M), Akoli (M), Rajura (M) and Tumsar (M) (Maharashtra State) is due to 'jurisdictional change' as well as revised computation

(iii) N A stands for 'not available'

(iv) States/Union Territories in which such changes have not occurred do not figure in this statement

A-II

DECADAL VARIATION IN POPULATION SINCE 1901

A-II DECADAL VARIATION IN POPULATION SINCE 1901

FLY-LEAF

This table furnishes statistics on adjusted population for the eight censuses from 1901 to 1971 for India, states and union territories conforming to the present jurisdiction (as on 1-4-71). The table corresponds to table A-II of 1961, union table A-II of 1951 and imperial table II of previous censuses. Similar tables giving adjusted figures upto district level are appearing in Part II-A volumes of respective states and union territories.

Decade variation in population is shown in absolute figures in column 4 and in terms of percentages in col. 5. The figures given in column 3, 6 and 7 for earlier decades have been adjusted for the present boundaries (as on 1-4-71) for each state & union territory. This table, therefore, gives much needed comparable data about growth of population for the last 70 years. The migration tables which have been generated from 1971 Census tables alongwith this table can be of great help to the demographers for preparing estimates for future population.

Adjustment of Population:

The recasting of population of districts or taluks was done by the directors of each state & union territory on the basis of instructions issued by the R.G's Office. The method adopted is described below in brief:—

1. The information relating to the territorial changes that had taken place during 1961—71 was first collected by each Director in respect of his state or union territory. Then the population of transferred portions according to 1951 and 1961 Censuses were obtained from the concerned census tables. The population of unaffected districts or taluks for the previous censuses were adopted as given in the concerned census reports of 1961. As regards villages transferred, the population particulars of these villages published in the Primary census abstracts in the District census handbooks of 1951 and 1961 were taken note of. The population of the transferred areas according to 1961 Census so obtained was subtracted from 1961 Census population of tehsil/taluk/district from which the area was transferred and added to the tehsil/district to which the area was tagged on and thus the adjusted population of 1961 was obtained. Similar procedure was adopted to adjust 1951 population figures.

There was of course some difficulty in adjusting the figures for the censuses prior to 1951 as the village statistics of earlier censuses were not available in all cases. Wherever the village statistics were not available for the censuses prior to 1951 the population was estimated in the following manner:—

(i) The population of an area transferred for any particular census prior to 1951 was estimated on the assumption that the proportion of the population of the area transferred to the total population of the district, taluk etc. in which it was situated at the time of transfer, was the same in the particular census as it was in 1951.

(ii) Distribution by sex break up of the population so estimated were worked out on the basis of the male/female distribution of population in that particular census of the district, taluk, etc., in which it was situated at the time of the transfer. If the transfers involved more than one state, the estimates so worked out were communicated to the Director of the neighbouring state from or to which the territories had been transferred so that they could tally with the estimates worked out by them independently. This step was essential in order to ensure complete correspondence between the totals both at district and state level.

2. It is assumed that necessary adjustments were made in the census tables of 1951 for all transfers of area prior to the date of that census. If, however, any omission came to the notice of the DCO, necessary adjustments were made then.

3. In all cases where alterations were made in the previous census population, complete details of changes of area and the population involved were incorporated in the introductory note to table A-II. It was kept in mind that the sum total of all deductions made from the population of the states as well as districts which had been reduced in area would be equal to the sum total of additions made to the population of the states and districts which had been increased.

A table illustrating the method of estimation of population prior to 1951 is given below for the sake of clarity:—

STATEMENT 1

Table illustrating the method of estimation of previous census population for transferred territories

Description	Population							Remarks
	1901	1911	1921	1931	1941	1951	1961

STATEMENT 1

Table illustrating the method of estimation of previous census population for transferred territories—concld.

Description	Population 1901	1911	1921	1931	1941	1951	1961	Remarks
1	2	3	4	5	6	7	8	9
Add								(8) $\frac{1,094\times830,977}{1,195,003}$
Population of Udai Chapra, Isarpur Naubarar, Chaki Nauranga, Ojhawalia Diar, Bhagwanpur & Umarpur villages of Shahabad District transferred in 1961—71	2,819	2,680	2,609	2,867	3,349	3,867	4,628	(9) $\frac{1,094\times845,736}{1,195,003}$ (10) $\frac{1,094\times987,075}{1,195,003}$
								(11) $\frac{3,758\times1,054,179}{1,195,003}$
Population of Sureman Harnarain village of Shahabad district transferred in 1961—71	236	225	219	240	281	324	388	(12) $\frac{3,758\times913,071}{1,195,003}$
								(13) $\frac{3,758\times830,977}{1,195,003}$
Population of Sheopur Diar village of Shahabad district transferred in 1961—71	3,608	3,429	3,340	3,670	4,287	4,949	10,003	(14) $\frac{3,758\times845,736}{1,195,003}$
								(15) $\frac{3,758\times987,075}{1,195,003}$
Population which should be in Table A-II of 1971	989,420	848,371	833,510	915,855	1,057,485	1,198,916	1,344,016	

NOTE: 1. In this particular case the calculation has been based on the population of the districts from which transfers have been made, as tract or tehsil figures were not available in the District census handbook. In actual practice, the calculation should be based on the population of the tract or the tehsil, if figures are available for these units.

2. The population of villages for 1951 and 1961 Censuses have been taken for transferred areas from respective District census handbook wherever available and for the back decades their population have been estimated on the methods given in remarks column.

This table is followed by an appendix which like that of 1961 spells out adjustments necessary to bring the 1961 Census population of the district to the jurisdiction of the district as at 1971 Census. Suitable footnotes have been given to explain each such change at the end of district figures of each state and union territory.

Since table A-II deals with the total population only, a statement showing the percentage variation in the total, rural and urban population separately from 1901 to 1971 for India, states and union territories is given below for the benefit of the readers:—

STATEMENT 2

Percentage variation of population from 1901 to 1971

* (i) In working out percentage decade variation of India for 1941—51, 1951—61 and 1901—71, the 1951, 1961 and 1971 population of Tuensang district of Nagaland *i.e.*, 7,025, 134,275 and 173,003 persons respectively have not been taken into account as this area was censused for the first time in 1951 and these figures are not comparable.

(ii) The 1961 and 1971 population of Arunachal Pradesh (N.E.F.A.) has also not been taken into account for working out the percentage decade variation for 1951—61 and 1901—71 of India as it was censused for the first time in 1961 Census.

†Includes Mizo district, now constituted as union territory of Mizoram.

‡In working out percentage decade variation for 1941—51, 1951—1961 and 1901—1971, the 1951, 1961 and 1971 population figures of Tuensang district *i.e.*, 7,025, 134,275 and 173,003 respectively have not been taken into account, as this area was censused for the first time in 1951 and the same are not comparable.

@Censused for the first time in 1961.

From the above statement it is observed that the population of India increased from 439·07 million in 1961 to 547·95 million in 1971 giving a decadal growth rate of 24·80 per cent between 1961—71 as against 21·52 per cent during the previous decade. Similar trend is noted in case of rural and urban population where also the growth rate percentages have gone up from 20·65 (between 1951—61) to 21·86 (between 1961—71) in respect of rural population and from 26·41 per cent to 38·22 for urban population. Among major states the highest growth rate of 34·71 per cent is noted in respect of Assam and the lowest increase is in the case of Uttar Pradesh where the growth rate is only 19·78 per cent during 1961—71.

Studying the trend between 1901—71 the population of India has more than doubled (129·64 per cent) in the last seventy years. The decadal growth rate has been rising continuously after 1921. Among states leaving aside smaller states which recently gained the status of state the rate of increase is the highest in Kerala (233·75 per cent) and lowest in Punjab (79·60 per cent). In rural areas the highest growth of (313·67) per cent is noted in respect of Assam inclusive of Mizoram while it is the lowest in Punjab (56·35 per cent). For urban areas too the highest growth rate is observed in Assam (1,621·70 per cent) while it is the lowest in Uttar Pradesh (129·82 per cent).

Among states the increase in growth rate has always been continuously on plus side in the states of Assam, Gujarat, Jammu & Kashmir, Kerala, Manipur, Meghalaya, Nagaland, Tamil Nadu and Tripura during all censuses since 1901.

Sex ratio 1901—1971:

Sex ratio is an important demographic phenomenon which helps in studying the birth rate, death rate and availability of man-power, etc. It is an accepted principle that male and female births are not equal. In India there has been preponderance of males over females Sex ratio has always been expressed in Indian censuses by the number of females per 1,000 males. The following statement shows the changes in sex ratio for India, states and union territories during the last 70 years separately for total, rural and urban areas.

STATEMENT 3

Changes in the sex-ratio (females per 1,000 males) 1901—1971

†Includes Mizo district, now constituted as union territory of Mizoram.

*Sex ratios are based on census conducted in the year 1900, 1910, 1940, 1950 & 1960.

@Urban population not ascertainable, hence included in rural.

N.A. Stands for not available.

There has never been sex parity during the last seventy years. The sex ratio continued to fall from 1901 till 1941 in India. From 972 in 1901 the ratio fell to 945 in 1941. The sex ratio remained more or less constant during 1941 and 1951 Censuses due to the displacement of population on account of partition. From 946 in 1951 the ratio fell to 941 in 1961 and there was a further fall to 930 in 1971. For rural areas also there had been a continuous fall in the sex ratio from 979 in 1901 to 949 in 1971 except in 1941 and 1951 when the ratio remained stationary. In case of urban areas the sex ratio also showed declining trend from 1901 till 1941. But it rose from 831 in 1941 to 860 in 1951. In 1961 it again fell down to 845. But it again picked up in 1971 being 858.

It is seen that the sex ratio has never remained static. The main factors affecting the differences in sex ratio have been attributed to differential births, differential deaths or high females mortality, etc.

A-II DECADAL VARIATION IN POPULATION SINCE 1901

NOTES FOR THE TABLE

1. The figures of Goa, Daman and Diu and Dadra and Nagar Haveli where a Census was taken as on 15th December, 1960 and 1st March, 1962 respectively have not been adjusted as on 1st March, 1961. The population of these territories for 1901, 1911, 1941 and 1951 have been assumed to be the same as in 1900, 1910, 1940 and 1950 for working out the All-India totals. Similarly the population of Pondicherry as revealed at the Census in 1948 has been taken as of 1951 in this table.

2. The population of Jammu and Kashmir for 1951 has been taken to be the arithmetic mean of population in 1941 and 1961. The population of the state for 1941 and earlier Censuses have been adjusted with reference to the present censused area of the state which excludes territories currently under the illegal occupation of Pakistan and China.

3. Population of each state or union territory has been adjusted as close as practicable to its present set-up i.e. as on 1st April, 1971.

4. (i) In working out 'decade variation' and 'percentage decade variation' for India for 1941-51 and 1951-61, the 1951 and 1961 population of Tuensang district of Nagaland i.e. 7,025 and 134,275 respectively have not been taken into account as this area was censused for the first time in 1951 and these figures are not comparable.

(ii) The 1961 population of Arunachal Pradesh (N.E.F.A.) has also not been taken into account for working out the decade variation and percentage decade variation for 1951-61 of India as it was censused for the first time in 1961 Census.

5. The distribution of population of Pondicherry by sex for 1901 (246,354), 1931 (258,628) and 1941 (285,011) is not available. The figures of India for these years are, therefore, exclusive of these population figures so far as distribution by sex is concerned.

10– 1 RGI/ND/73

*(*i*)One village Ramtapur (Code No. 217 and 101 in 1951 and 1961 respectively) of Jukkal circle of Deglur taluka which was transferred under the States Reorganisation Act, 1956 from Maharashtra to Andhra Pradesh, still continues in Nanded district of Maharashtra. The population of this village has, however, naab adjusted in the Nizamabad district for the years 1901—1951.

(*ii*)The Totals of Population of all the districts of Andhra Pradesh for 1901, 1911, 1921 and 1931 censuses do not tally with total population of the state. The differences between the figures for the State total and the totals of all the districts are —21,599 for 1901,—70,744 for 1911, +16,456 for 1921 and +8,240 for 1931. This difference is due to an error that has occurred in Table A-II of 1941, when the *population data of Medak and Nizamabad districts* were recast in accordance with certain inter district transfers that had taken place between Medak and Nizamabad districts of the erstwhile Hyderabad state during the decade 1931—1941.

†Includes Mizo district, now constituted as union territory of Mizoram.

‡The population of Jammu and Kashmir for 1951 has been taken to be the arithmetic mean of 1941 and 1961 population. The population of the State for 1941 and earlier censuses have been adjusted with reference to the present censused area of the state which excludes territories currently under the illegal occupation of Pakistan and China.

A-II DECADAL VARIATION IN POPULATION SINCE 1901—*contd.*

@Some changes in the area figures, due to computational error, were intimated by the Surveyor General of India, after the publication of Part II-A Volume of Andhra Pradesh. Hence area figures in respect of these districts as also the state totals appearing in this volume will not tally with those reported in the Part-II-A Volume of Andhra Pradesh.

‡A portion of Abakavaripalli village bearing Survey No. 19 of Bagepalli taluk of Kolar district of Mysore state comprising an area of 0·03 sq. km., consisting of vacant land was transferred to Hindupur taluk of Anantapur district of this state with effect from 1-10-1968 under the Andhra Pradesh and Mysore (Transfer of Territory) Act, 1968 (Act 36 of 1968).

(a) 44 villages with an area of 123.8 sq. kms. from Bobbili taluk and 58 villages with an area of 285.7 sq. kms. from Salur taluk of Srikakulam district were transferred to the newly constituted taluk of Gajapathinagaram in Visakhapatnam district on 15th November, 1969 vide G.O.Ms. No. 902 (Revenue Department), dated 20th September, 1969 issued by Government of Andhra Pradesh.

(b) The details are as given against symbol (a).

(c) (i) Entire Ongole taluk comprising an area of 2,124.3 sq. kms., 41 villages of Narasaraopet taluk with an area of 543.4 sq. kms. and 43 villages Chirala and Vetapalam towns with an area of 782.2 sq. kms. from Bapatla taluk of Guntur district were transferred to newly formed Ongole district on 1-2-1970 under the Gajapathinagaram taluk and Ongole district (Formation) Act, 1970 (Act 2 of 1970).

(ii) Vijayapuri South comprising an area of 5.2 sq. kms., of Miryalguda taluk of Nalgonda district was transferred to Palnad taluk of Guntur district vide G.O. Ms. No. 1648, dated 21st October, 1964 issued by Government of Andhra Pradesh.

(d) This district was newly formed in 1970. The details are as given against symbols (c)(i), (e)(i), (g).

(e) (i) Entire Kandukur taluk with an area of 2,022.8 sq. kms., Darsi taluk area 1,530.2 sq. kms., Podili taluk area 1,460.8 sq. kms. and Kanigiri taluk area 2,590.0 sq. kms., were transferred to Ongole district on 1-2-1970 under the Gajapathinagaram taluk and Ongole district (Formation) Act, 1970 (Act 2 of 1970).

(ii) 2 villages with an area of 11.2 sq. kms. from Sullurpet taluk were transferred to Sri Kalahasti taluk of Chittoor district vide G.O. Ms. No. 1903 dated 24-11-1965.

(iii) 3 villages with an area of 4.0 sq.kms. from Sri Kalahasti taluk of Chittoor district were transferred to Sullurpet taluk of Nellore district vide G.O.Ms. No. 572 dated 1-4-1964.

(f) The details are as given against symbols (e)(ii), (e)(iii).

(g) Entire Giddalur and Markapur taluks comprising an area of 2,713.5 sq. kms. and 3,537.2 sq. kms., respectively of Kurnool district were transferred to Ongole district on 1-2-1970 under the Gajapathinagaram taluk and Ongole district (Formation) Act, 1970 (Act 2 of 1970).

(h) 2 villages with an area of 9.8 sq. kms., of Vicarabad taluk of Hyderabad district were transferred to Sangareddy taluk of Medak district vide G.O.Ms. No. 85 dated 1st February, 1969.

(i) (i) The details are as given against symbol (h).

(ii) 3 villages with an area of 47.0 sq. kms., of Banswada taluk of Nizamabad district were transferred to Narayankhed taluk of Medak district vide G.O.Ms. No. 2034 dated 28th November, 1963.

(j) The details are as given against symbol (i) (ii).

(k) The details are as given against symbol (c) (ii).

*Though there are no jurisdictional changes between 1961-71 there is variation in area furnished in 1961 and 1971. The variation is due to revised computation. Even in the districts where jurisdictional changes occurred, there is variation in the area as furnished for 1961 and 1971 and it is partly due to their jurisdictional changes and partly due to the revised computation. Area figures shown under cols. 2 and 4 have been supplied by Surveyor General, India.

A-II DECADAL VARIATION IN POPULATION SINCE 1901

Includes the figures of Mizo district which was a district in Assam state as on 1-4-1971 and has since been constituted as union territory of Mizoram

** Garo Hills and United Khasi and Jaintia Hills districts formerly in Assam state (area 22,442 0 sq. kms. and population 769,380) were transferred to the newly formed autonomous State of Meghalaya, vide the Assam Reorganisation (Meghalaya) Act, 1969. No. 55 of 1969 dated the 29th December, 1969 and now constituted as a full fledged state.

† Newly formed district (vide State Government notification No. AAP. 134/68/19, dated January 30, 1970) out of the Mikir Hills Sub-division of former United Mikir and North Cachar Hills district.

‡ Newly formed district (vide State Government notification No. AAP. 134/68/22, dated February 11, 1970) out of the North Cachar Hills Sub-division of former United Mikir and North Cachar Hills district.

Note . Difference in area figures of the districts shown under columns 2 and 4 is due to revised computation and the area figures shown under these columns have been supplied by the Surveyor General, India.

* Area figures shown under columns 2 and 4 have been supplied by the Surveyor General, India The figures in column 4 differ from those in column 2 even though the districts have not in all cases been affected by territorial changes Such differences may be due to revised computation The figures may not necessarily agree with the corresponding figures in Appendix I to Table A-I as the area figures in Appendix I to Table A-I have been derived by adding the area figures of the affected villages from Thana jurisdiction Lists

(a) Following the Trivedi Award to determine the boundaries of Uttar Pradesh and Bihar, the Bihar-Uttar Pradesh (Alteration of Boundaries) Act 1968 (Act XXIV of 1968) came into force on 10th June, 1970 The boundary strip maps published by the Survey of India under this Act formed the basis for transfer of territories between the two states The villages were generally identified with the help of these maps and in a few cases where the local habitations could not be located with reference to the names given on the maps, these were based on the reports of local officers. Accordingly 99 villages (5 inhabited and 94 uninhabited) with a population of 4,628 in 1961 have been transferred from Bihar to Uttar Pradesh

According to the local officers of Buxar and Ballia a portion of village Sheopur Diar belonging to Uttar Pradesh was enumerated by Buxar authorities (Bihar) There is a surveyed village in Bihar (Berhampur Community Development Block) by the name of Sheopur Diar bearing Dumraon thana No 94/471. On the basis of the report of Buxar authorities the records of this village along with those of portion of Sheopur Diar (unsurveyed) which has gone over to the Uttar Pradesh, were transferred to Uttar Pradesh by Bihar Census Office As it was not possible to identify the slips of respective portions it was decided by the Registrar General, that, without prejudice to the respective claims of Bihar and Uttar Pradesh on the portion of Sheopur Diar lying, in either state, the entire population be shown against village Sheopur DiarNumbari, Code No 817 in Ballia tehsil of Ballia district and no figures be shown in Bihar Volumes for village Sheopur Diar, thana No. 94/471. So village Sheopur Diar thana No. 94/471 with a population of 10,003 in 1961 has been shown in Uttar Pradesh in 1971.

In addition, one village viz.; Suremanpur Harnarayan with a population of 388 in 1961 which was identified from the aforesaid maps as one which should remain in Bihar, has been shown in Uttar Pradesh as the records of this village has already been transferred from Bihar to Uttar Pradesh on the basis of the report of the local officers and the Census data of that village had been incorporated in that of Uttar Pradesh.

Similarly, 44 villages (5 inhabited and 39 uninhabited) with a population of 6,866 in 1961 have been transferred to Bihar from Uttar Pradesh

** According to the Bihar-Uttar Pradesh (Alteration of Boundaries) Act 1968 (Act XXIV of 1968) 64 villages (5 inhabited and 59 uninhabited) with a population of 4,628 in 1961 have been transferred from Shahabad district to Uttar Pradesh Besides 2 villages, Sheopur Diar thana No. 94/471 and Suremanpur Harnarayan with a total population of 10,391 as stated in (a) have been shown in Uttar Pradesh.

Similarly, 27 villages (1 inhabited and 26 uninhabited) with a population of 4,483 in 1961 have been transferred to Shahabad district from Uttar Pradesh.

† According to the Bihar-Uttar Pradesh (Alteration of Boundaries) Act, 1968 (Act XXIV of 1968). 35 uninhabited villages have been transferred from Saran district to Uttar Pradesh and 17 villages (4 inhabited and 13 uninhabited) with a population of 2,383 in 1961 have been transferred to Saran district from Uttar Pradesh.

‡ The entire Bakhtiarpur Police Station consisting of two Anchal-*cum*-Development-Blocks viz, Simri Bakhtiarpur and Koparia with an area of 465 7 sq kms and population 164,275 in 1961 of Khagaria Subdivision of Monghyr district has been transferred to Saharsa district as per Govt. of Bihar Appointment Department's Notification No. VII/T/-101/64A 14957 dated 2-12-65

§ The entire Simri Bakhtiarpur and Koparia Anchal-*cum*-Development Blocks of 1961 covering an area of 465 7 sq. kms. and population 164,275 in 1961 of Khagaria Subdivision of Monghyr district has been added to this district under Govt of Bihar, Appointment Department's Notification No. VII/T1-101 64A 14957 dated 2-12-65.

@ An area of 112 9 sq kms.with a population 24,227 in 1961 covered by 28 villages, viz, thana Nos 1/166-5/170, 14/179-28/193,30/195 and 32/1975 38/203 of Petarbar Revenue thana of Sadar Sub-division of this district have been transferred to Dhanbad district under Govt. of Bihar, Appointment Department's Notification No. VII/T1-202/67 *Ni* 4187 dated 29-3-68

£ 28 villages (Thana Nos. 1/166 -5/170, 14/179-28/193, 30/195 and 32/197-38/203 of Petarbar Revenue thana of Hazaribagh district with an area of 112.9 sq. kms. and population of 24,227 (according to 1961 Census) have been added to this district under Govt. of Bihar, Appointment Department's Notification No. VII/T1-202/67 *Ni* 4187 dated 29-3-68.

A-II DECADAL VARIATION IN POPULATION SINCE 1901

7	Jind (e)	2,691.0	639,610	..	..	464,873	(+)	464,873

(a) The state of Haryana was newly formed as a result of the reorganization of composite Punjab state in 1966, under the Punjab Reorganisation Act, 1966, comprising the complete districts of Karnal, Rohtak, Gurgaon, Mahendragarh, Hisar and, part of Ambala district and part of Sangrur district of the erstwhile Punjab state.

(b) (i) Nalagarh tahsil with an area of 707.8† sq. kms. and population of 62,440 was transferred to Simla district of Himachal Pradesh under the Punjab Reorganisation Act, 1966.

(ii) Rupar tahsil (complete) and Kharar tahsil (282 villages and Kharar and Kurali towns) with an area of 1433.0 sq. kms. and population of 305,371 were transferred to the newly constituted Rupar district of Punjab state.

(iii) A portion of Kharar tahsil (36 villages and Chandigarh and Manimajra towns) with an area of 114.0 sq. kms. and population of 119,881, were transferred to the newly formed union territory of Chandigarh, under the Punjab Reorganisation Act, 1966. (Thus three complete tahsils namely Naraingarh, Jagadhri and Ambala and only 153 villages and Kalka town of Kharar tahsil comprise the present Ambala district).

(c) (i) One village Umrawat with an area of 5.9 sq. kms. and a population of 893 of Dadri tahsil of this district was transferred to Bhiwani tahsil of Hisar district, vide Haryana Govt. Notification No. 4097-R-II-(69)-24181 dated 6-10-69.

(ii) Three villages, namely Halluwas, Dharna and Rajgarh with a total area of 25.6 sq. kms. and a total population of 3,509 of Dadri tahsil of this district were transferred to Bhiwani tahsil of Hisar district, vide Punjab Govt. Notification No. 2863-RIV-62/3600 dated 10-7-1962.

(d) Changes are as enumerated against symbol (c) (i) and (c)(ii)

(e) This district was newly formed comprising the entire tahsils of Narwana and Jind of Sangrur district of Punjab state, with an area of 2691.0 sq. kms. and a population of 464,873 under the Punjab Reorganisation Act, 1966.

* Though the districts have not undergone any jurisdictional change in their area since 1961; there is an increase in their area due to computational error. Area figures shown under cols. 2 and 4 have been supplied by Surveyor General, India.

† The corresponding area figures of entire Nalagarh tahsil have been shown as 706.2 km² in Appendix to Table A-II of Himachal Pradesh. The desparity in area figures may 'presumably' be due to revised computation.

10	Kinnaur	6,553.0	49,835	6,519.0	40,980	40,980		..

* According to 1961 Census the area and population of Himachal Pradesh as published in 1961 Census publications is 28,192.0 sq. kms. and 1,351,144 respectively. Under Cols. 4 and 5, 1961 area as well as population of those districts which were transferred from composite Punjab state to Himachal Pradesh have also been shown. Under column 7 two sets of figures have been given. The first set gives the increase or decrease between columns 5 and 6, whereas the second set within brackets shows the over all increase in population to the State/Districts due to transfer of Units from Punjab state.

(1) Bakloh C.B., Dalhousie M.C. and Dalhousie Cantt. towns of Gurdaspur district with an area of 14.3 sq. kms. and population 8,579 were transferred to Chamba district under the Punjab Reorganisation Act, 1966.

(2) (i) Entire Kangra district was transferred from Punjab state under the Punjab Reorganisation Act 1966, Entire Kulu tahsil formerly in Kangra district now forms Kulu district.

(ii) 290 villages and Una town of Una tehsil of Hoshiarpur district with an area of 1,133.7 sq. kms. and population 194,676 were transferred to Kangra district under the Punjab state Reorganisation Act, 1966.

(3) Newly formed with entire Kulu tehsil of Kangra district transferred from Punjab state.

(4) Entire Lahul & Spiti district transferred from Punjab state under the Punjab Reorganisation Act, 1966.

(5) (i) Entire Simla district transferred from Punjab state under the Punjab Reorganisaton Act, 1966.

(ii Entire Nalagarh tehsil with an area of 706.2 sq. kms. and population 62,440 transferred from Ambala district.

Note: Area figures shown under columns 2 and 4 have been supplied by the Surveyor General, India. 1961 area figures of the state has been derived by adding the area figures of districts.

(a) Haryana state and Chandigarh union territory were newly formed and certain areas were transferred to Himachal Pradesh from the composite state of Punjab in 1966, under the Punjab Reorganisation Act in 1966, The details of these transfers are noted below

(i) Newly formed Haryana state Entire districts of Hisar, Rohtak Gurgaon, Karnal and Mahendragarh, part of Ambala district (Entire tahsils of Naraingarh, Ambala, Jagadhari and 153 villages and Kalka town of Kharar tahsil) and part of Sangrur district of erstwhile Punjab state (Area 44,222 0 sq. kms and population 7,590 543)

(ii) Himachal Pradesh Entire districts of Lahul & Spiti, Simla and Kangra, Bakloh CB, Dalhousie M C and Dalhousie Cantt towns of Gurdaspur district, part of Hoshiarpur district (290 villages and Una town of Una tahsil), Entire Nalagarh tahsil of Ambala district (Area 27,277 3 sq kms and population 1,461,319)

(iii) Newly formed Chandigarh union territory Part of Kharar tahsil (36 villages and Chandigarh and Manimajra towns) formerly in Ambala district (area 114 0 sq kms and population 119,881)

(b) (i) Bakloh CB, DalhousieM C and Dalhousie Cantt towns of Gurdaspur district with in area of 14 3 sq kms and population 8,579 transferred to Chamba district of Himachal Pradesh under the Punjab Reorganisation Act 1966

(ii) One village Bela Mastgarh (H B No 408) of Dasuya tahsil of Hoshiarpur district transferred to Pathankot tahsil of Gurdaspur district with an area of 1 1 sq kms and population nil vide Punjab Govt Notification No 564-Rg I-70/727 dated 17-3 70

(iii) 2 villages Zahidpur (H B No 482) and Khawaja Bains (H B No 484) of Dasuya tahsil of Hoshiarpur district transferred to Bataia tahsil of Gurdaspur district with an area of 3 9 sq kms and population nil vide Punjab Govt Notification No 564 Rg-I-70/727 dated 17 3-70

(iv) 26 villages with an area 48 1 sq kms and population 1,464 of Dasuya tahsil of Hoshiarpur district transferred to Gurdaspur tahsil of Gurdaspur district vide Punjab Govt Notification No 564-Rg I-70/727 dated 17-3-70

(c) 9 villages with an area 36 6 sq kms and population 754 of Patti tahsil of Amritsar district transferred to Zira tahsil of Firozpur district vide Punjab Govt Notification No 564 Rg I-70/727 dated 17-3-70

(d) (i) See note under symbol (c) above
(ii) 18 villages with an area 31 7 sq kms and population 401 transferred to Zira tahsil of Firozpur district from Nakodar tahsil of Jullundur district vide Punjab Govt Notification No 564-Rg I-70/727 dated 17-3-70
(iii) 3 villages with an area of 7 7 sq kms and population 250 of Zira tahsil of Firozpur district transferred to Nakodar tahsil of Jullundur district vide Punjab Govt Notification No 564-Rg-I-70/727 dated 17-3 70
(iv) 6 villages with an area of 51 5 sq kms and population 6,967 of Muktsar tahsil of Firozpur district transferred to Bhatinda tahsil of Bhatinda district vide Punjab Govt Notification No 564-Rg-I-70/727 dated 17-3-70

(e) (i) 72 villages and Doraha and Payal towns with an area of 300 9 sq kms and population 76,734 transferred to Ludhiana tahsil of Ludhiana district from Payal sub tahsil of Fatehgarh Sahab tahsil of Patiala district vide Punjab Govt Notification No 2,749-Rg IV- 63/687 dated 12-11 63
(ii) 10 villages with an area 26 0 sq kms and population 6,692 transferred to Samrala tahsil of Ludhiana district from Payal sub-tahsil of Fatehgarh Sahab tahsil of Patiala district vide Punjab Govt Notification No 2749-Rg-IV-63/687 dated 12 11-63
(iii) 72 villages with an area 38 3 sq kms and population 1,034 transferred to Jagraon tahsil of Ludhiana district from Nakodar tahsil of Jallundur district vide Punjab Govt Notification No 564-Rg-I-70/727 dated 17-3-70

(f) (i) See footnote for symbol (d) (ii) above
(ii) See footnote for symbol (e) (iii) above
(iii) See footnote for symbol (d) (iii) above

(g) (i) Hoshiarpur district comprises complete tahsils of Hoshiarpur, Dasuya and Garhshankar of Hoshiarpur district of 1961 Census under the Punjab Reorganisation Act, 1966
(ii) 290 villages and Una town of Una tahsil with an area of 1,133 7 sq kms and population 194,676 transferred to Kangra district of Himachal Pradesh under the Punjab Reorganisation Act, 1966
(iii) 237 villages with Nangal township, Naya Nangal and Anandpur Sahib towns of Una tahsil with an area of 657 9 sq kms and population 166,223 transferred to newly formed Anandpur Sahib tahsil of newly formed Ropar district
(iv) See footnote for symbol (b) (ii) above
(v) See footnote for symbol (b) (iii) above
(vi) See footnote for symbol (b) (iv) above

(h) This district was newly formed comprising
(i) Entire tahsil Ropar of Ambala district with an area of 736 4 sq kms and population 156,125
(ii) See footnote for symbol (g) (iii) above
(iii) 282 villages alongwith Kharar and Kurali towns of Kharar tahsil of Ambala district with an area of 696 6 sq kms and population 149,246 comprising the new Kharar tahsil under Punjab Reorganisation Act, 1966

(i) (i) See footnote for symbol (e) (i) above
(ii) See footnote for symbol (e) (ii) above
(iii) 4 villages with an area 28 2 sq kms and population 5,204 of Sub tahsil Payal of Fatehgarh Sahib tahsil of Patiala district transferred to Maler Kotla tahsil of Sangrur district vide Punjab Govt Notification No 2749-Rg-IV 63/687 dated 12 11-63

(j) (i) Sangrur district comprises complete tahsils of Barnala Maler Kotla and Sangrur of Sangrur district of 1961 Census The entire tahsils of Narwana and Jind formerly in sangrur district of Punjab state with an area of 2,691 0 sq kms and a population of 464,873 have been transferred to newly formed Jind district in Haryana state under the Punjab Reorganisation Act 1966
(ii) See footnote for symbol (i) (iii) above
(iii) 7 villages with an area of 67 9 sq kms and population 10 712 of Barnala tahsil of Sangrur district transferred to newly formed Rampura Phul tahsil of Bhatinda district vide Punjab Govt Notification No 564-Re 1-70/727 dated 17-3-70

(k) (i) See footnote for symbol (j) (iii) above
(ii) See footnote for symbol (d) (iv) above

@Though there is no jurisdictional change the difference in area is due to revised computation

* State figures shown in columns 4 and 5 relate to the composite Punjab state whereas the difference in col 7 shows the net decrease in 1961 population as a result of the Punjab state Reorganisation Act, 1966 The total of existing districts of these cols will not, therefore, add up to state total

NOTE: Area figures shown under cols. 2 and 4 have been supplied by the Surveyor General, India.

13	Tirunelveli	11,433 0	3,200,515	11,445 0	2,730,279	2,730,279		
14	Kanyakumari	1,684 0	1,222,549	1,665 0	996,915	996,915		

(*a*) Erstwhile Salem district was reformed into two districts—Dharmapuri and Salem Dharmapuri district was newly formed by the transfer of Hosur, Krishnagiri, Harur and Dharmapuri taluks of the former Salem district with an area of 9643 0 sq kms with effect from 2-10-1965 vide G O Ms No 1611 Rev dated the 14-5 1965

(*b*) See footnote for symbol (*a*) above

(*c*) Two villages Pirakudi and Ramankulam of Sivaganga taluk with an area of 1 68 sq kms were transferred from Ramanathapuram district to Madurai South taluk of Madurai district with effect from 1-7 1961 vide G O Ms No 1488 Rev dated 5 4 1961

(*d*) Part of Ammangudi village of Orathanad taluk of Thanjavur district with an area of 0 07 sq km was transferred to Tharthanviduthi village of Alangudi taluk of Tiruchirapalli district with effect from 15-1-1968 vide G O Ms No 2258 dated 29-12-1967

(*e*) See footnote for symbol (*d*) above

(*f*) See footnote for symbol (*c*) above

Note The area figures for Tamil Nadu in 1971 shows decrease of 288 sq kms though no change in the total area of the state has occurred since 1961 Census The difference is due to revised computation of area figures by the Surveyor General, India and this difference is reflected in the area figures of several districts

	TRIPURA	**10,477 0**	**1,556,342**	**10,660 4**	**1,142,005**	**1,142,005**		
1	West Tripura	3,359 0	751,605	3,483 5	573,993	573,993		
2	North Tripura	3,541 0	405,009	3,538 0	293,349	293,349		
3	South Tripura	3,577 0	399,728	3,638 9	274,663	274,663		

Note (i) There is no change in territorial units The difference in area figures shown under cols 2 and 4 is due to revised computation

(ii) There were sub-divisions in Tripura in 1961 Census These sub-divisions now forming the districts namely West Tripura (Sadar, Khowai and Sonamura Sub divisions), North Tripura (Kamalpur, Kailasahar and Dharmanagar sub-divisions) and South Tripura (Udaipur, Amarpur, Belonia and Subroom sub divisions)

(iii) Area figures under col 4 are supplied by State Survey Department where as area figures under col 2 are those supplied by Surveyor General, India

(1) Following the Trivedi Award to determine the boundaries of Uttar Pradesh and Bihar the Bihar Uttar Pradesh (Alteration of Boundaries) Act 1968 (Act XXIV of 1968) came into force on 10th June, 1970 The boundary stripe maps published by the Survey of India under this Act formed the basis for transfer of territories between the two states The villages were generally identified with the help of these maps and in a few cases where the local habitations could not be located with reference to the names given on the maps, these were based on the reports of local officers Accordingly 99 villages (30 wholly and rest partly) were transferred from Bihar to U P and 44 villages (8 wholly and rest partly) were transferred from U P to Bihar The list of villages thus transferred is appearing in the respective District Census Handbooks According to the local officers of Buxar and Ballia a portion of a village Sheopur Diar belonging to U P was enumerated by Buxar authorities (Bihar) There is a Surveyed village in Bihar (Brahampur Community Development Block) by the name of Sheopur Diar bearing Dumraon thana No 94/471 On the basis of the report of Buxar authorities the record of the village along with these of the portion of Sheopur Diar (Unsurveyed) which has gone over to U P , were transferred to U P by Bihar Census Office As it was not possible to identify the slips of respective portions, it was decided by Registrar General that without prejudice to the respective claims of Bihar and U P on the portion of Sheopur Diar lying in either state the entire population i e , 13,866 the slips of which were processed by U P , be shown against village Sheopur Diar Namberi, Code No 817 in Ballia tehsil of Ballia district and no figure be shown in Bihar Volumes for village Sheopur Diar thana No 94/471

In addition, one village viz, Suremanpur Harnaryan, which was identified from the aforesaid maps as one which should remain in Bihar has been shown in U P as the records of this village had already been transferred from Bihar to U P on the basis of the report of the local officers and the census data of that village had been incorporated in that of U P

According to the award the portion of village Bhirgu Ashram lying in U P has now been transferred to Bihar where the other portion was lying from before Similar is the case with three more villages namely Bilaspur, Bilarpur and Sabdalpur and they now belong to Bihar wholly

According to the local officers of the respective states, village Bikrampur Daria and Diara Alhasgarh Naubrar have been transferred to Bihar wholly

Local officers of Bihar state have confirmed that village Hardeo Chhapra has gone over to U P wholly

According to the Survey Map prepared under the authority of Trivedi Award a small portion near Pillar No 13 A in Sheet No 2 and between Pillar No 74/4 and 75 in Sheet No 8 of villages Isarpura and Diar Nauabad lies in U P , but the local officers of Bihar State claim that these two villages lie wholly in Bihar The Registrar General decided that, without prejudice to the respective claims of the State Governments, these two villages, which are uninhabited, may be shown in Bihar for purposes of area and count of villages in Table A-I

[of Govt of India, Ministry of Home Affairs Notification No CSR No 901 published in Gazette of India, Extraordinary Part II Sec 3(i) dated 9th June, 1970 and Govt of Uttar Pradesh Notification No 4-1(7)/70-Ic-171 dated 7th July, 1970]

(8) 2 villages with an area of 10 69 sq kms were transferred from Basti (Sadar) tahsil of Basti district to Tanda tahsil of Faizabad district vide Boards D O No 380(i)/9-36 B/66 dated 8-2-1966

(9) See footnote (8) above

(10) See footnote (1) above

(11) One village with an area of 1 26 sq kms was transferred from Mirzapur tahsil of Mirzapur district to Gyanpur tahsil of Varanasi district vide G O No. 2155/IC dated 5-4-1963

(12) See footnote (11) above

APPENDIX

State and Districts showing 1961 population according to their territorial jurisdiction in 1961, changes in area and the population of 1961 adjusted to jurisdiction of 1971—concld

Union Territory/District	Area in 1971 Km²	1971 Population	Area in 1961 Km²	1961 population according to jurisdiction prevailing in 1961	Population in 1961 adjusted to jurisdiction of 1971	Net increase (+) or decrease (—) between Cols 5 & 6	
1	2	3	4	5	6		7
ANDAMAN & NICOBAR ISLANDS	**8,293 0**	**115,133**	**8 293 0**	**63,548**	**63,548**		

Note (i) There being only one district in this union territory, viz, Andaman and Nicobar Islands, data for the union territory holds good for the district as well

(ii) The area figures of the union territory shown under cols 2 (as on 1-1 1966) and 4 are those supplied by the Surveyor General, India Area figures for 1961 were revised in 1966 by the Surveyor General, India

ARUNACHAL PRADFSH	**83,578 0**	**467 511**	**81,424 0**	**336,558**	**336 558**		
1 Kameng	13,724 0	86,001	14,165 0	69 913	69 913		
2 Subansiri	14,797 0	99,239	15 498 0	62,090	75,495	(+)	13,405
3 Siang	23,723 0	121,916	21 227 0	108,914	95,509	(—)	13,405
4 Lohit	24,427 0	62,865	23,463 0	36,050	36,050		..
5 Tirap	6 907 0	97,470	7,071 0	59,591	59 591		.

Note (i) During 1961 Census the whole of Daporijo sub-division was shown as a part of siang district (formerly Siang Frontier Division) But the statutory boundary between the Siang and the Subansiri districts cuts this sub-division into two parts therefore the 1961 population with respect to the Siang and Subansiri districts have been adjusted in accordance with this statutory boundary and comparison with 1971 population has been made on the basis of the readjusted population figures

(ii) All the 'Divisions' of 1961 have been renamed as respective 'Districts, viz, Kameng Subansiri, Siang Lohit and Tirap in 1971 without any jurisdictional change

CHANDIGARH*	**114 0**	**257,251**			**119,881**	(+)	**119,881**

*The Union Territory of Chandigarh was newly formed on the reorganisation of the composite Punjab state in 1966 under the Punjab Reorganisation Act 1966, comprising a portion of Kharar tahsil of Ambala district (36 villages, Chandigarh and Manimajra towns) with an area of 114 0 sq kms and population of 119 881, transferred to the newly formed Un on Territory of Chandigarh Area figures shown under column 2 have been supplied by the Surveyor General, India

DADRA & NAGAR HAVELI	**491 0**	**74,170**	**489 5†**	**57,963**	**57,963**		

† (i) The area in 1962 (col 4) has been obtained from 'Census of India, 1961 Vol XVIII, Dadra and Nagar Haveli Part II-A, II-B, etc Table A I Area, Houses and Population, page 5"

(ii) There is no jurisdictional change in this union territorry since 1962 The difference in area figures under cols 2 and 4 is due to revised computation

(iii) Data shown under cols 5 and 6 relate to 1962

DELHI	**1 485 0**	**4,065,698**	**1,484 0**	**2,658,612**	**2,658,612**		..

Note No change in the jurisdiction of union territory of Delhi since 1961 The change in area figures under cols 2 and 4 is due to revised computation The area figures under cols 2 and 4 have been supplied by the Surveyor General, India

GOA, DAMAN & DIU	**3,813 0**	**857,771**	**3,693 0**	**626,667**	**626,667**		
1 Goa	3,701 0	795,120	3,595 0	589,997	589,997		
2 Daman	72 0	38,739	59 0	22,390	22,390		
3 Diu	40 0	23,912	39 0	14,280	14,280		..

Note There is no jurisdictional change in this union territory since 1960 The difference in area figures shown under cols 2 and 4 is due to revised computation Data shown under columns 5 & 6 relate to 1960

LACCADIVE, MINICOY & AMINDIVI ISLANDS	**32 0**	**31,810**	**28 0**	**24,108**	**24,108**		.

Note There is no jurisdictional change in this union territory since 1961 The difference in area figures is due to revised computation

PONDICHERRY	**480 0**	**471,707**	**479 2**	**369,079**	**369,079**		
1 Pondicherry	290 0	340,240	290 1	258,561	**258,561**		
2 Karaikal	161.0	100,042	158 0	84,001	**84,001**		.
3 Mahe	9 0	23,134	10 4	19,485	**19,485**		
4 Yanam	20 0	8,291	20 7	7,032	**7,032**		

Note There is no change in the jurisdiction of this union territory since 1961 The difference in area figures under cols 2 & 4 is due to revised computation

A-III

VILLAGES CLASSIFIED BY POPULATION

A-III VILLAGES CLASSIFIED BY POPULATION

FLY-LEAF

This table corresponds to table A-III of 1961 and 1951 Censuses and gives the total number of inhabited villages classified by seven broad population ranges viz., (i) less than 200 (ii) 200-499 (iii) 500-999 (iv) 1,000-1,999 (v) 2,000-4,999 (vi) 5,000-9,999 (vii) 10,000 and above indicating therein the total rural population by persons, males and females. The figures are given first for India, states & union territories, followed by districts in each state and union territory. In previous censuses prior to 1951, this table was used to be prepared for villages and towns together. Table A-III of censuses prior to 1951 can, however, be made comparable by adding the number and population of towns in the different ranges presented in table A-IV since 1951 to the respective ranges of the present table.

This table is followed by an appendix which gives the number of villages and their population according to sub totals of broad groups of villages viz., 0-499, 500-1,999, 2,000-4,999 and 5,000 and above. This appendix also gives statistics upto district level of each state and union territory.

The term village has already been defined in detail in Fly-leaf to table A-1. To mention briefly the village for census purposes is the revenue village with a definite name and boundary which contains the main Village together with its hamlets, if any. The number of inhabited villages shown in this table is exclusive of those which have gone to make up urban areas and whose population is included in the respective urban areas or towns. In the case of villages partly incorporated in urban areas, the unmerged portions of villages which are outside the urban areas have been treated as villages and their number and population are included in this table.

The following statement gives the percentages of 1971 rural population living in villages of various population sizes in each state and union territory.

STATEMENT 1

Percentage of population living in villages of various population sizes with reference to the total rural population in 1971

State/Union Territory	Percentage of population living in villages of population size						
	Less than 200	200—499	500—999	1,000—1,999	2,000—4,999	5,000—9,999	10,000+

*Includes Mizo district, now constituted as union territory of Mizoram.

'N' Stands for negligible figures.

From the above statement it is observed that very few people (3·47 per cent) are living in villages falling in the population range of 'Less than 200'. The highest percentage of 25·77 is noted in the population range of 1000-1999. Similar trend was prevailing in 1961 Census also when the percentages in these two groups were 4·94 and 24·87 respectively. Among states in the range 'Less than 200' the highest percentage is noted in Meghalaya (33·63 per cent) followed by Himachal Pradesh (31·50 per cent) and Tripura (18·26 per cent). But major portion of rural population is residing in the villages falling under the size groups of 1,000-1,999 and 2,000-4,999. In India only 5·09 per cent of population are living in villages having population more than 10,000 and over. Kerala shows the highest percentage of 83·47 of population living in villages of this range. In 1961 also the highest percentage of 60·11 of this category was noted in Kerala state.

The following statement gives percentage of villages and population by class of villages in 1961 and 1971. It is interesting to note that the proportions of number of smaller villages has gone down from 62·03 in 1961 to 55·34 in 1971. This is but natural because with the growth of population the villages have moved up in classification by population size. This trend is prevailing in almost all states except Himachal Pradesh and Tamil Nadu among states, and Goa, Daman and Diu among union territories. But the percentages of the number of villages in other ranges have gone up when compared with the percentages of 1961 Census.

In 1971 Census, of course, the percentages of number of villages in the ranges, 'Less than 500' and '500-999' are higher when compared with the figures of other ranges in the same year.

STATEMENT 2

Percentage of villages and population by class of villages in 1961 and 1971

State/Union Territory	Year	Less than 500		500—999		1,000—1,999		2,000—4,999		5,000—9,999		10 000+

*Includes Mizo district, now constituted as union territory of Mizoram

†Includes the population of unsurveyed forest areas also

‡While working out the percentage of number of villages 3 villages of Manipur have been excluded as these are not appearing in any range classification but their 1971 population has been enumerated with other villages and the same are appearing in range classification

@Includes 3 villages with an estimated combined population of 781 (M 411, F 370) of Tirap Frontier Division for which details are not available the percentage figures shown in this statement do not add up to 100 for number of villages as well as for population separately

N—Stands for negligible figures

The following statement shows the number of villages with population of 10,000 and above and their population in 1971 and 1961 in India, States and Union Territories

STATEMENT 3

Statement showing the number of villages of population 10,000 and above with their population in 1961 and 1971

*Includes Mizo district, now constituted as union territory of Mizoram

From the above statement it is observed that there are 1,358 villages having population of 10,000 and over in India according to 1971 as against 776 villages in 1961 Census Among states Kerala tops the list where there has been an increase from 510 villages in 1961 to 808 in 1971 Tamil Nadu ranks second with 140 villages in 1971. The rise is quite significant which goes to prove the rigidity with which the tests for urban areas were applied in 1971 Census

The following statement gives the distribution of 10,000 villages of each class in India and of 10,000 of population in each class of villages in all-India among the states and union territories The statement will be of great help to the research scholars in comparing the proportions among various states/union territories at a glance.

STATEMENT 4

A-IV

TOWNS AND URBAN AGGLOMERATIONS CLASSIFIED BY POPULATION IN 1971 WITH VARIATION SINCE 1901

A-IV TOWNS AND URBAN AGGLOMERATIONS CLASSIFIED BY POPULATION IN 1971 WITH VARIATION SINCE 1901

FLY-LEAF

This table which corresponds to table A-IV of 1951 and 1961 Censuses and Imperial table IV of previous Censuses gives the variation in urban population separated by males and females, decade variation and percentage decade variation for each town and urban agglomeration during the last seventy years. The status of the towns and the area figures of the towns and urban agglomerations are also given in the table. The status and area figures are, however, confined to 1961 and 1971 Censuses only.

The towns have been arranged in the order of population size and class of towns. As in 1961, all towns and urban agglomerations have been grouped into the following six classes according to population size:—

Class I	Population of	100,000 and above
Class II	Population of	50,000 to 99,999
Class III	Population of	20,000 to 49,999
Class IV	Population of	10,000 to 19,999
Class V	Population of	5,000 to 9,999
Class VI	Population of less than 5,000	

According to Indian census convention *any place with* a population exceeding 100,000 is called a city.

An alphabetical list of all towns and urban agglomerations is given at the end of this fly-leaf to facilitate reference to the entries in the table.

The total urban population of India for each census from 1901 to 1971 is given at the beginning of the table and is followed by similar figures for class I total and the towns included in class I arranged in the order of their population size. Likewise the total for class II followed by figures for each town included in that class arranged in the order of population and so on, are given. The population figures given for the earlier censuses in this table are as recorded in the earlier censuses and not adjusted to conform to the present jurisdictions.

Classification of towns shown in the table is based on their 1971 population. As many towns have changed their class since 1901 the class totals shown in the table for previous censuses are not the totals of respective population of all towns shown in that class in 1971. They are the totals of population of all towns which on the basis of population were included in that class in those censuses except the towns which are the constituents of urban agglomerations. Some of these towns might have gone to a higher or lower class and some might not have been treated as towns in later censuses.

As the table shows the growth of urban population alone, the figures for previous censuses against towns which were not treated as towns in those censuses are not given. Their population in those censuses being treated as rural, are not shown in this table. They are also not included in the class totals for any census. If any place was treated as a town in some census and declassified as rural in subsequent censuses and again classified as town, then in such cases the population particulars are given only for those censuses in which it was a town and the word 'declassified' is recorded against other census years in which it was declassified.

Town and urban agglomeration have already been defined in great detail in the general note and also explanatory note to table A-I. As mentioned earlier the concept of town group as adopted in 1961 was given up in 1971 mainly on account of lack of uniformity in defining the town group as applied in different states. In 1971 Census the term town group was replaced by urban agglomeration with a stricter and more uniform definition. An urban agglomeration was formed by taking into account a continuous urban spread constituting a town and its adjoining urban outgrowths, or two or more physically contiguous towns together with continuous well recognised urban outgrowths if any, of such towns.

In striking class totals an urban agglomeration has been taken as a unit not only for 1971 but also for previous censuses. As mentioned earlier the total for any class in any past census has been worked out as the total of towns of that particular class in that particular census. They include towns which might have been individually withdrawn from urban status in a preceding or succeeding census. But a constituent of an urban agglomeration has been reckoned not according to its class in a particular census but according to the class of urban agglomeration as a whole in that census. In case of merger of towns, the merged units are considered as absorbed in the unit in which it merged. So the unit and not the merged town, has been presented according to its class in each census. Where, however, a rural area has been merged with an urban area in a particular census, the population of only the urban area in censuses preceding that particular one, has been taken as the basis for deciding the class.

Wherever the population of a town in a previous census has had to be adjusted with reference to 1971, a footnote has been inserted explaining the procedure and extent of such adjustment.

This table has been supplemented by the following two appendices.

Appendix I furnishes the particulars of area and population of newly added towns in 1971 Census and also the list of declassified towns with the particulars of area and population. It also includes explanatory note A, showing the constituents of new towns treated as such for the first time in 1971 Census. Explanatory note B, to this appendix gives the constituent villages into which 1961 towns have relapsed after declassification in 1971. The appendix has further been supplemented with lists 'A' and 'B' showing the places with a population under 5,000 treated as towns for the first time in 1971 and those treated as towns in 1961 but omitted from the list of towns in 1971.

Appendix II enlists all such towns which have undergone changes in jurisdiction during 1961 and 1971 together with the area and population of each such town both in 1961 and 1971. The reasons for the changes are also given in brief in last column of this appendix.

The following statement gives the growth in the number of towns by various classes and their population in India since 1901:—

STATEMENT 1

*Growth in the number of cities and towns and their population in India 1901—71**

Year	Class I		Class II		Class III	
	No.	Population	No.	Population	No.	Population
1	2	3	4	5	6	7
1901	25	5,692,335	44	2,948,024	144	4,382,496
1911	26	6,129,775	38	2,472,264	158	4,889,306
1921	29	6,865,321	49	3,155,019	172	5,110,900
1931	31	8,167,222	59	4,154,786	218	6,609,596

987	13,961,297	820	6,197,427	290‡	895,751	3,119‡	109,094,309

*The constituents of an urban agglomeration where the constituents were reckoned as separate towns in their own right have been classified according to their own population and not according to the population of urban agglomeration. Where, however, UAs were formed with outgrowths, the population of the outgrowth(s) was added to the town whose outgrowth it was. The combined population of town and outgrowth(s) was taken for determination of the class in the above statement.

Three towns of Goa, Daman & Diu, were in existence before 1950 and have been shown only in col. 14. As their population is not ascertainable they can not be assigned to their appropriate class.

†Being parts of Ozhukarai (M) combined population, of (i) Ozhukarai (M) and (ii) Pillaichavadi (portion of Ozhukarai (M)) of Pondicherry union territory has been shown in this statement.

‡Includes one uninhabited town namely Badrinathpuri of Uttar Pradesh.

The above statement shows that according to 1971 Census there are 3,119 towns in India comprising municipal, cantonment, notified areas and non municipal areas which satisfied the criteria laid down for treating non municipal areas as towns. In 1961 Census the number was 2,699. So there has been a net increase of 420 towns i.e., 15·56 per cent during 1961—71. Similarly the urban population has also gone up from 78,929,755 to 109,094,309 (38·22 percent) during 1961—71. The highest increase is noticeable in class IV towns where the number of town has increased from 820 to 987 during 1961—71. The number of cities has risen from 107 in 1961 to 151* in 1971. The number of towns in classes I to IV is steadily rising since 1901. Increase may be due to natural growth of population or industrial development pushing the towns into higher size classes.

There has been a noticeable decrease of 360 towns (—11·77 per cent) in the total number of towns in 1961 Census when compared to 1951. This is particularly visible in class V and VI towns. The decrease was due to the application of uniform and rigid definition of urban areas adopted for the first time in 1961 Census. Prior to 1961 the definition of urban areas was flexible and varied from state to state.

The above data have been expressed in terms of indices of growth in each class with 1901 as base in the following statement.

*If outgrowth population is taken out then the number of cities (having population of 100,000 and above) would come to 149.

10	11	12	13	14	15	16	17
1.40	24.41	1.42	24.45	1.36	23.63	1.31	22.02
2.66	12.42	2.40	11.23	1.99	9.53	2.30	11.40
9.84	19.76	8.41	18.20	8.29	18.85	7.52	16.95
21.62	19.62	19.32	19.21	20.36	20.75	22.31	22.62
38.31	18.01	37.82	19.39	39.35	20.18	40.28	20.63
26.17	5.78	30.63	7.52	28.65	7.06	26.28	6.38

The proportion of population to total urban population living in class I towns is steadily increasing from 1901 to 1971 with the exception of 1931 Census when it remained stationary. It has more than doubled itself i.e. from 22·02 per cent to 48·93 per cent during this period. Similar trend is noticeable in the proportions of the number of cities of class I between 1901 to 1971. Here the increase has been from 1·31 per cent in 1901 to 4·84 per cent in 1971.

The proportion of population to urban population living in class II towns has decreased from 11·40 per cent in 1901 to 9·53 per cent in 1911. Thereafter it steadily increased upto 1941 Census. From 1941 till 1961 it again shows the decreasing trend but rises slightly in 1971 Census. But on the whole there has been a rise in proportion from 11·40 per cent in 1901 to 13·49 per cent in 1971. Similar fluctuating trend is seen in the proportions of population of towns of class III and class IV. But the proportions of population of towns in class V has been continuously going down from 1901 to 1971. Similar decreasing trend is noticeable in the proportion of towns of class VI from 1931 to 1971. The above statement illustrates that there has been a gradual increase in the number of bigger towns from census to census. The smaller towns, however, have a tendency to go up to higher classes quickly.

The statement below gives the percentage of area of towns in each class to total urban area of India and density of population per sq. km. in each class for 1961 and 1971 Censuses.

STATEMENT 4

Percentage of area of towns in each class to total urban area of India and density of population per urban km² in each class

Class	1971		1961	
	Percentage of area to total urban area	Density per Sq. Km.	Percentage of area to total urban area	Density per Sq. Km.
1	2	3	4	5
Class I	26.32	5,330	18.39	5,393
Class II	8.77	3,243	8.20	2,972
Class III	19.27	2,127	19.79	1,920
Class IV	27.92	1,017	28.84	927
Class V	15.72	753	21.38	693
Class VI	2.00	641	3.40	570

The above statement reveals that there has been an increase of density in each class of towns except class I in 1971 when compared with the figures of 1961. The density of population also increases generally as towns move from lower to higher class. This has been observed both in 1961 and 1971 Censuses.

As in 1961, class IV towns of 1971 account for the largest share of total urban area. The proportion of area of class I towns increased from 18·39 per cent in 1961 to 26·32 per cent in 1971 due to the increase of number of towns in this class. The proportion of area of class II towns has almost remained stationary but in respect of towns falling into classes IV to VI the proportions have declined as compared to the figures of 1961 Census.

The statement below gives the number of cities and towns of 1961 and 1971 Censuses arranged in six classes I to IV for India, states and union territories. It gives the statistics of class I cities, sub divided into three categories viz., cities with one million & above population (2) cities with 500,000-999,999 population (3) cities with 100,000 to 499, 999 population. The statement is helpful in studying the movement of cities and towns from one class to another between 1961—1971.

*Being parts of Ozhukarai (M) combined population of (i) Ozhukarai (M) and (ii) Pillaichavadi (Portion of Ozhukarai (M) has been shown in this statement.

Note: (i) The constituents of an urban agglomeration have been classified according to their own population and not according to the population of the urban agglomeration except in such cases where an urban agglomeration comprises of a single town alongwith its outgrowths.

(ii) Excludes Laccadive, Minicoy & Amindivi Islands and Dadra & Nagar Haveli which are entirely rural.

The above statement will be more readily appreciated if it is expressed in terms of the proportion of population in each class to total urban population not only for India but for each state and union territory separately in 1971 and 1961, as in the following statement. Among class I, cities with population of 0·1 to 0·5 million has the highest proportion (24·28 per cent) to total urban population. This is slightly higher than 1961 figures which was 22·36 per cent. The same trend is prevailing in all other states except Tamil Nadu and Delhi. In case of Maharashtra, Tamil Nadu, West Bengal and Delhi the proportion of this category is less when compared with the proportion of cities with population over one million. These states and union territory are having metropolitan cities of Greater Bombay, Madras, Calcutta and Delhi which contribute to the category of cities with population over more million, and it is no wonder that in their cases the proportion in category 0·1 million to 0·5 million are lower.

STATEMENT 6

Proportion of population in each class of town to total urban population in 1971 and 1961

* Includes Mizo district, now constituted as union territory of Mizoram.

† Includes one uninhabited town namely Badrinathpuri.

‡ Being parts of Ozhukarai (M) combined population of (i) Ozhukarai (M) and (ii) Pallaichavadi (portion of Ozhukarai M) has been shown in this statement.

Note: (i) The constituents of an urban agglomeration have been classified according to their own population and not according to the population of the urban agglomeration except in such cases where an urban agglomeration comprises of a single town alongwith its outgrowths.

(ii) Excludes Laccadive, Minicoy and Amindivi Islands and Dadra & Nagar Haveli which are entirely rural.

The following mobility statement will illustrate how cities and towns have moved up and down from one class to another from 1961 to 1971. The figures in (a) indicate the population and number of towns which a particular class of 1971 has received by a process of decrement from the next higher class range(s), while those in (b) indicate the population and number of towns which that particular class of 1971 has received by a process of increment from the next lower or any other lower class range, and those in (c) indicate the population and number of towns which that particular class of 1961 is passing down by a process of decrements to the next lower class range (s) of 1971. Class VII in the statement below stands for towns of 1961 Census deleted in 1971.

STATEMENT

Movement of cities and towns from one

(a) Indicates number and population of towns which a particular class of 1971 has received by
(b) Indicates number and population of towns which a particular class of 1971 has received by
(c) Indicates number and population of towns which a particular class of 1961 has passed down

(Increment and decrement of towns in the

the towns is not available

the towns is not available

The following two statements give the names and number of the towns which have not changed their class between 1911 and 1971. The size class is also indicated against the name of each town in statement 8 The information given in these statements help in studying those towns where there has not been industrial development during the last 60 years The highest number is found in Uttar Pradesh with 20 such towns Leaving aside the union territory of Delhi, Orissa contains the minimum number of such towns i e two which have remained stationary between 1911 and 1971

Total	10	3	11	4	4	4	8	13	10	2	8	8	14	20	6	1

NOTE: Excludes the states and union territories having no town which has not changed class between 1911 and 1971.

The following statement lists out 4 towns which continued to be towns during 1911-71 but were demoted in 1971 in comparison to 1911. The position of these towns was similar in 1961 Census also though at that census the number of towns in this category was 12.

STATEMENT 10

List of towns which have continued to be towns during 1911—71 but have been demoted in 1971 when compared to 1911

(Name within brackets indicates the districts in which the town is situated)

Name of town	Size of class in 1911	Size of class in 1971
1	2	3
Andhra Pradesh		
Badvel (Cuddapah)	IV	V
Maharashtra		
Malvan (Ratnagiri)	III	IV
Tamil Nadu		
Tiruchendur (Tirunelveli)	III	IV
Kulasekarapattinam (Tirunelveli)	III	IV

NOTE: States & union territories which have nothing to show have been excluded.

The following statement gives at a glance the comparative data of the number of towns classified according to population in 1911 but removed from the list of towns in 1961 and 1971 Censuses. Because of rigid and uniform definition of towns in 1961 the declassification of towns was fairly numerous, but in 1971 Census the position consolidated itself. In case of U.P. the number of towns of this category was 200 in 1961. The towns were mostly in class V and VI. Next in importance is the state of Maharashtra where the number of towns of this category was 52 in 1961. Here also the towns mostly belonged to class V and class VI respectively. In case of seven states viz., Bihar, Jammu and Kashmir, Maharashtra, Orissa, Punjab, Rajasthan and Uttar Pradesh the entries are nil in 1971 which go to show further about the consolidation of position in the list of such towns in 1971. In rest of the states such cases are not existing.

STATEMENT 11

Number of towns classified according to population in 1911 but removed from the list of towns in 1961 and 1971

NOTE: Towns merged with some other towns in 1961 and 1971 have been excluded.

The following statemet gives the statistics of growth of towns of classes III to VI which have continued as towns from 1911 till 1971. It is interestingg to note that in the country there are 566 towns of class V in 1911 with a population 4,057,863 which have continued as towns till 1971. The percentage increase has been to the order of 199·26 per cent. The least number of towns

STATEMENT

Growth of towns of classes

(Growth has been calculated on the population of class of towns as in 1911 which have continued as towns till 1971,

Class of towns as per

										UNION TERRITORIES
										1 Andaman & Nicobar Islands
										2 Arunachal Pradesh
										3 Chandigarh
										4 Delhi
										5 Goa, Daman & Diu
										6 Pondicherry

population of both the units have been taken into account for 1911

The following two statements give data for studying the percentage variation of population between 1961—71 by various classes of newly added or deleted towns in 1971 Census It is interesting to note that percentage variation in case of newly added towns for higher classes are quite high though the number of towns involved are not much. This trend prevails in most of the states

The statement of percentage variation of deleted towns of 1961 reveal that many towns have not been affected in 1971. This goes to show that there has not been a change in the definition of urban areas between 1961 & 1971 Censuses.

STATEMENT 13

Percentage variation of population 1961—71 of places which were not treated as towns in 1961 but treated as such in 1971 classified by state, union territory and size class

NOTES : 1 The following states & union territories have been excluded

(i) As there are no new towns in 1971 (1) Meghalaya, (2) Nagaland (3) Tripura (4) A & N Islands (5) Chandigarh (6) Delhi (7) Goa Daman & Diu

(ii) As these units are entirely rural (1) Dadra & Nagar Haveli (2) L M & A Islands

(iii) As the 1961 population of all the new towns of Himachal Pradesh is not available

2 Those towns for which 1961 comparable population is either not available or nil have not been taken into account both for 1961 and 1971 Censuses A list of such towns is given in Annexures A & B

ANNEXURE A

Statement showing places which were not treated as towns in 1961 but treated as such in 1971, for which comparable 1961 population is not available

NOTES The following states/union territories have been excluded

(i) As there are no declassified towns in 1971, (1) Assam (2) Bihar (3) Haryana (4) Maharashtra (5) Manipur (6) Meghalaya (7) Nagaland (8) Rajasthan (9) Tripura (10) Uttar Pradesh (11) West Bengal (12) A & N Islands (13) Arunachal Pradesh (14) Chandigarh (15) Delhi (16) Goa, Daman & Diu and (17) Pondicherry

(ii) As these are entirely rural (1) Dadra & Nagar Haveli (2) L M & A Islands

* The 1961 population of Kombai, Thevaram and Sholavanden towns has not been taken into account as the 1971 comparable rural population of these towns is not available

† The 1961 population of Vallam town has not been taken into account as the 1971 comparable rural population of this town is not available

‡ The 1961 population of Thoppompalayam and Vadakkupoiyyur towns has not been taken into account as the 1971 comparable rural population of these towns is not available

(iii) Those towns of 1961 which have merged into some other town 1971 have not been aken into account in this st atement

The following statement gives the number of towns of each class during 1901-71 in India, state and union territory. While preparing this statement an urban agglomeration has been classified according to its population size. To be more specific the urban agglomeration of 1971 has been treated as a single unit in the previous decades also and classified according to the derived population of urban agglomeration in that Census.

The merged town of previous census has been given the treatment of a separate unit from the one in which it is merged and these two units are classified according to their population. But if any such town falls within the purview of urban agglomeration it has been left undisturbed.

The main utility of the statement is that it gives at a glance the comparative picture of number of towns including urban agglomeration of 1971 during the last 70 years which is not available through the main Table A-IV. The statement reveals an increasing trend in the number of towns from 1921 till 1951. The number has gone up from 1974 in 1921 to 2,890 in 1951. In 1961 the number of towns decreased but again went up in 1971. In case of class I, class II and class IV, the number has continously been rising from 1921 to 1971. In case of class III towns this trend is observed even from 1901. The number of towns has gone up from 136 in 1901 to 582 in 1971. In case of class V towns, the increasing trend is observed from 1921 till 1951. But in 1961 there has been a heavy decline because of applicability of rigid definition of towns in 1961 census. The number of towns has gone down from 1,156 in 1951 to 763 in 1961.

*Includes uninhabited town Badrinathpuri

Notes

(i) An urban agglomeration has been treated as a continuing physical entity in the previous decades as a single unit and classified according to the population of the urban agglomeration in that census

(ii) In the case of merged town of previous census, it has been treated as a separate unit from the one in which it is merged and these two units are classified according to their population This procedure has been applied to towns which are appearing as an independent town in 1971 but if any such town is a constituent of an urban agglomeration in 1971, it has not been disturbed

(iii) Excludes Laccadive, Minicoy and Amindivi Islands and Dadra & Nagar Haveli which are entirely rural

(iv) Three towns of Goa Daman & Diu existed before 1950 and have been shown only in 'All Classes' Since their population in previous years i e 1901 to 1941 could not be ascertained they could not be assigned to their appropriate class

The following statement gives the percentage of towns in each class to total number of towns and percentage of population in each class to total urban population from 1901 to 1971 The proportions of number of towns are based on the absolute figures given in statement No 15 The statement gives additional information of percentage of population in each class to total urban population for various census years The population figures have been worked out on the basis of the number of towns given in statement 15

STATEMENT 16

Percentage of towns in each class to total number of towns and percentage of population in each class to total urban population 1901-1971

(Urban agglomeration has been classified according to total population)

Notes:—

1 3 towns of Goa, Daman & Diu existed before 1950 but as their population is not ascertainable they could not be assigned to their appropriate class and have been left out in working out the percentage in this statement for India, and Goa, Daman & Diu.

2 Excludes Laccadive, Minicoy & Amindivi Islands and Dadra & Nagar Haveli which are entirely rural.

3 *Includes uninhabited town Badrinathpuri.

A-IV TOWNS AND URBAN AGGLOMERATIONS CLASSIFIED BY POPULATION IN 1971 WITH VARIATION SINCE 1901

NOTES FOR THE TABLE

1. Names of towns treated as such for the first time in 1961 have been marked with an asterisk on their left while towns treated as such for the first time in 1971 have been printed in 'Italics'. Population for back decades, if available, of those urban units which were not treated as towns in 1961 but were parts of towns and are appearing as independent towns in 1971, have been shown in this table. But such towns have not been printed in italics though these are also new towns of 1971 Census. The details of new towns added in 1971 Census are given in Appendix I to this table.

2. (i) Area figures for 1961 and 1971 shown under column 6 of the table for each town are those supplied by the local authorities in the respective censuses.

(ii) Area figures of 'All Classes' have been derived by adding the area of each Class. Similarly the area figures shown for each 'Class' have been derived by adding the available area of Urban Agglomerations/Towns falling under the respective Class. These figures exclude the urban area of Arunachal Pradesh and of those urban units for which the area is not available separately in 1971.

(iii) In case of Gujarat, Madhya Pradesh, Orissa, Punjab and Tripura states, a few urban units which are appearing as constituent units of Urban Agglomerations, area figures of 'Outgrowth' are not available separately and are included in rural areas. In such cases 'N.A.' which stands for 'not available' has been shown in area column of respective units as well as in urban agglomeration of which it is a constituent. Urban area figure is also not available separately for Arunachal Pradesh and the same is included in the total area of the Union Territory.

(iv) In the case of Noapara, Barrackpue, Baranagar and Titagarh police stations of West Bengal, the totals of the area figures of the individual towns falling under them do not agree with the police station area figures shown in Table A-I because of the following reasons:

(a) municipal area figures have been adopted as furnished by the municipal authorities, while police station area figures are based on last published jurisdiction lists;

(b) river areas appertaining to the police stations have not always been included in the municipal area figures; and

(c) several municipalities fall in the jurisdiction of more than one police station.

(v) The area of Dum Dum Aerodrome actually extends to three Police Stations, *viz.*, Dum Dum, Rajarhat and Barasat, but its exact area falling under each police station could not be ascertained. For the purpose of deriving the Rural and Urban area for each of these police stations, the urban portion has been computed without taking into account the area of Dum Dum Aerodrome. Part of Dum Dum Aerodrome area has been accounted for under Dum Dum Police Station, because it is in North Dum Dum and Dum Dum Municipal towns, but the remainder which forms the major portion, is included in the rural area of the two remaining police stations of Rajarhat and Barasat.

(vi) The total area of all towns/urban agglomerations in 'all classes' for the country comes to 43,425.28 Km^2 whereas the total urban area shown in Table A-I and the Primary Census Abstract is 43,606.7 Km^2. The difference of 181.42 Sq. Km. is mainly due to the difference of 165.29 Sq. Km. attributable to Greater Bombay City presented in the aforesaid two tables and further due to the fact that the urban area given in Table A-I and in the Primary Census Abstract have been derived by adding up the areas of each town within a Tehsil/Taluk/Police Station/Development Block etc., after rounding them upto one place of decimal instead of upto two places of decimal in the present table.

3. Towns and urban agglomerations have been classified in six ranges of population as explained in the Fly-leaf according to their respective population in 1971 Census. In each class range the towns and urban agglomerations have been arranged according to their descending order of population in 1971. Constituents of an urban agglomeration or parts of a town have not been separately classified in these ranges and these have been shown in descending order of population below the respective urban agglomeration or town of which these are constituents or parts.

The total number of towns and urban agglomerations in the various class ranges in India according to the 1971 Census is:

	No. of Urban Agglomerations	No. of Towns
All Classes	339	2,304
Class I	87	61
Class II	57	126
Class III	86	496
Class IV	56	818
Class V	51	627
Class VI	2	176

4. The following abbreviations are used to denote the civic status of towns; in the case of towns which have no civic status column 5 has been left blank:

(i) M. Corp., C.,	Municipal Corporation, Corporation
(ii) M., M.C., M.B., M.T., C.M., M.T.C.	Municipality, Municipal Committee, Municipal Board, Municipal Town, City Municipality. Municipal Town Committee. (In case of Kerala and Mysore states M. stands for Municipal Town)
(iii) Cantt., C.B.	Cantonment, Cantonment Board
(iv) N. or N.A., N.A.C, N.C.	Notified Area, Notified Area Committee, Notified Committee
(v) T.C., T.A., T.S., T., T.B. T.M.	Town Committee, Town Area, Town Ship, Town, Town Board, Town Municipality
(vi) P., V.P., G.P., T.P., N.P.	Panchayat, Village Panchayat, Gram Panchayat, Town Panchayat, Nagar Panchayat or Non-Panchayat
(vii) S.C., S.B., S.T.C., S. A.	Station Committee, Sanitary Board, Small Town Committee, Special Area
(viii) N.M.	Non-Municipal
(ix) E.O.	Estate Office
(x) U.C., C.T.	Union Committee, Census Town

5. Panaji, Daman, Diu, Morgao, Mapuca and Mormugao towns were in existence before 1950 but their data are not presented for earlier censuses as the same are not available. The population of towns in this territory relates to 1950 and 1960 instead of 1951 and 1961. While working out 'All India Class Totals', the population of these towns has been taken as of 1951 and 1961, respectively.

6. As no census was taken in Jammu & Kashmir in 1951, the 1951 population shown against the towns of this state has been taken as the arithmetic mean of the respective population of 1941 and 1961.

7. According to 1971 Census, there is no town having population less than 5,000 (ClassVI) in Pondicherry, but the area and population of Pillaichavadi (portion of Ozhukarai M.) which is not treated as an independent town has been included in Class VI for the sake of presentation of data. The portion of town has also been shown separately under Class VI with a footnote but while deriving the number of towns of Class VI as well as All Classes this portion has not been taken into account. Main town Ozhukarai (M) is included in Class I as a constituent of Pondicherry urban agglomeration.

8. The population in Tables A-II and A-IV of Greater Bombay (M. Corp.), Madras (M. Corp.) and Calcutta (M. Corp.) which by themselves constitute entire 'Urban Districts' in 1971 varies in respect of some of the earlier censuses due to the fact that population of the rural areas for these censuses which merged in these units could not be adjusted in Table A-IV, as they give population of urban areas only, whereas adjustments of population for back decades for such mergers have been made in Table A-II, which shows the population of each district which include rural as well as urban areas.

9. N.A. stands for 'Not available' except that of column 5 which has been used to denote the civic status of a town and (O. G.) stands for 'outgrowth'.

A-IV TOWNS AND URBAN AGGLOMERATIONS CLASSIFIED BY POPULATION IN 1971 WITH VARIATION SINCE 1901

†In 1901, Sex-wise distribution of Chandannagar (26,831) of West Bengal and Gonda (18,810) of Uttar Pradesh is not available.

‡(*i*) Includes population of 12,019 (M.6,297 F.5,722) of Kanchrapara Rural Development colony which gave place to Kalyani and Gayeshpur Govt. Colony towns of Nadia district of West Bengal in 1961. Separate figures for 1951 of Kalyani and Gayeshpur Govt. Colony (portions) are not available and as such these figures have not been included in any class of towns but these are included in All Classes only.

(*ii*) Excludes the 1951 population 225 (M. 199 F. 26) of Police Line and Dudh Line areas of Andaman and Nicobar Islands which are outside Port Blair (M) but their 1951 population was shown against Port Blair (M).

£ In 1901, Sex-wise distribution of Chandannagar (26,831) of West Bengal is not available.

PDoes not include males and females of Chandannagar, as the same are not available.

PPIncludes the population of 'Rishra-Konnagar town' viz., P 23,259 (M. 15,030, F. 8,229) for each of the years 1921, 1931 and 1941. Separate figures for Rishra and Konnagar towns are not available for the said years.

§1951 population figures have not been shown against Kalyani and Gayeshpur Govt. Colony towns, though these places were urban even in 1951, because they were then parts of Kanchrapara Rural Development colony and separate figures for the portions are not available. For the same reason, figures for Calcutta urban agglomeration in 1951 do not include the figures of Kanchrapara Rural Development Colony though Kalyani is one of its constituents.

§(a) In 1931, the following towns were merged in Calcutta (M.C.):

(*i*) Cossipore-Chitpur with a population of 56,474 (M. 36,289, F. 20,185) in 1921; P. 48,178 (M. 30,793, F. 17,385) in 1911 and P. 40,750 (M. 26,189, F. 14,561) in 1901, and

(*ii*) Maniktala with a population of 67,372 (M. 40,996, F. 26,376) in 1921; P. 53,767 (M. 31,735, F. 22,032) in 1911 and P. 32,387 (M. 19,142, F. 13,245) in 1901.

(b) In 1961, Tollygunj with a population of 149,817 (M. 84,178, F. 65,639) in 1951; P. 58,594 (M. 36,498, F. 22,096) in 1941; P. 24,476 (M. 14,800, F. 9,676) in 1931; P.21,637 (M. 13,326, F. 8,311) in 1921; P. 18,433 (M. 11,183, F. 7,250) in 1911 and P. 12,821 (M. 7,222, F. 5,599) in 1901 was merged in Calcutta (M.C.).

@ Includes the area and population of Calcutta (M.C.) and other four special charges.

¶Denotes the area figures of Calcutta district supplied by the Surveyor General, India. It is known as 'Calcutta City' and includes the population of Calcutta (M.C.) and four special charges viz., 101, 103, 104 and 105 which are outside Calcutta (M.C.).

† (a) Baly (M) was a separate town in 1901-1951 with a population of 18,662 (M. 11,383, F. 7,279); P. 22,394 (M. 14,217, F. 8,177); P. 23,209 (M. 15,264, F. 7,945); P. 30,347 (M. 20,944, F. 9,403); P. 50,397 (M. 34,213, F. 16,184) and P. 63,138 (M. 41,185, F.21,953) in the respective years. In 1961 Baly town was divided into two parts viz., Baly (M) having population of 101,159 (M.66,301, F. 34,858 and Baly (NM) having population P. 29,737 (M. 18,010, F. 11,727). In 1971 Census Baly(M) has been merged with Howrah (MC) and its population for the years 1901 to 1961 has also been included with Howrah (M.C.).

(b) Santragachhi (NM), Unsani (NM) and Jagachha (NM) were treated as separate towns in 1961 having population of 8,701 (M. 4,902, F. 3,799); P. 6,635 (M. 3,471, F.3,164) and P. 4,758 (M. 2,582, F. 2,176) respectively. In 1971 Census these towns have been merged with Howrah (MC). The 1961 population of Howrah (MC) includes the population of Santragachhi, Unsani and Jagachha towns.

‡In the year 1931 Garden Reach (M) with a population of 55,872 (M.36,131, F.19,741) was part of Calcutta (M.C.). The combined population of Garden Reach (M) and Calcutta (M.C.) has been shown against Calcutta (M.C.).

A-IV TOWNS AND URBAN AGGLOMERATIONS CLASSIFIED BY POPULATION IN 1971 WITH VARIATION SINCE 1901—*contd.*

Sl. No.	Name of Town/ Urban Agglomeration	District/State	Year	Status of Town	Area in Km 2	Persons	Decade variation	Percentage decade variation	Males	Females

† Sex-wise break up is not available.

‡ Uttarpara (M) and Kotrung (M) were treated as separate towns in each of 1901—1961 Censuses. The population of Uttarpara at each of these Censuses (1901—1961) was 7,036 (4,203 M., 2,833 F.); P. 7,373 (4,412 M., 2,961 F.); P. 8,657 (5,149 M., 3,508 F.); P. 9,350 (5,480 M., 3,870 F.); P. 13,610 (7,938 M., 5,672 F.); P. 17,126 (9,041 M., 8,085 F.); P. 21,132 (11,567 M., 9,565 F.) and that of Kotrung at each of the Censuses (1901—1961) was P. 5,944 (3,500 M., 2,444 F.); P. 6,574 (4,103 M, 2,471 F.); P.6,846 (4,330 M., 2,516 F.); P. 7,160 (4,158 M., 3,002 F.); P. 9,401 (5,590 M., 3,811 F.); P.14,177 (8,436 M.,5, 741 F.); P. 31,031 (17,115 M., 13,916 F.). In 1971 Census these towns are merged together to form a single town Uttarpara-Kotrung (M). Combined population of these towns have been shown against Uttarpara-Kotrung (M) for the years 1901—1961.

@ Rishra and Konnagar was a single town "Rishra-Konnagar" in the year 1921, 1931 and 1941 with a population of 23,259 (15,030 M., 8,229 F.); P. 26,868 (17,528 M., 9,340 F.) and P. 37,432 (24,837 M., 12,595 F.) respectively. Separate figures of Rishra and Konnagar towns are not available for these years. Rishra-Konnagar was part of Serampur(M) prior to 1921, for which separate population is not available.

†(a) In 1951, the following towns of Bombay Suburban district were merged with Greater Bombay (M. Corp.):

(i) Bandra with a population of 71,789 (40,231 M., 31,558 F.) in 1941 ; P. 43,650 (24,885 M., 18,765 F.) in 1931 including Santacruz; P. 34,897 (19,811 M., 15,086 F.) in 1921 including Santacruz ; P. 23,862 (13,266 M., 10,596 F.) in 1911 including Santacruz and P. 22,075 (12,079 M., 9,996 F.) in 1901;
(ii) Ghatkopar Kirol with a population of 18,176 (10,323 M., 7,853 F.) in 1941 ; P. 8,168 (4,821 M., 3,347 F.) in 1931 and P. 8,064 (4,772 M., 3,292 F.) in 1921 ;
(iii) Juhu with a population of 3,393 (2,074 M., 1,319 F.) in 1941 and P. 1,203 (667 M., 536 F.) in 1931 ;
(iv) Kurla with a population of 39,066 (22,674 M., 16,392 F.) in 1941 ; P. 30,311 (17,914 M., 12,397 F.) in 1931 ; P. 26,059 (15,217 M., 10,842 F.) in 1921; P. 15,081 (8,598 M., 6,483 F.) in 1911 and P. 14,831 (8,357 M., 6,474 F.) in 1901 ;
(v) Chembur with a population of 6,198 (3,364 M., 2,834 F.) in 1941; and
(vi) Vile-parle with a population of 38,493 (22,502 M., 15,991 F.) in 1941 and P. 15,868 (9,378 M., 6,490 F.) in 1931 including Andheri.

(b) In 1961, the following towns of Thana district were merged with Greater Bombay (M. Corp.):
(i) Malad with a population of 45,134 (25,598 M., 19,536 F.) in 1951 ; P. 12,212 (6,735 M., 5,477 F.) in 1941 and P. 7,723 (4,387 M., 3,336 F.) in 1931;
(ii) Mulund with a population of 27,148 (15,165 M., 11,983 F.) in 1951 and P. 6,917 (4,058 M., 2,859 F.) in 1941 ;
(iii) Pahadi with a population of 16,360 (10,105 M., 6,255 F.) in 1951 ;
(iv) Kanheri with a pouplation of 13,575 (7,806 M., 5,769 F.) in 1951 ;
(v) Eksar with a population of 8,253 (4,705 M., 3,548 F.) in 1951 ;
(vi) Dohisar with a population of 5,749 (3,159 M., 2,590 F.) in 1951 ;
(vii) Borivali with a population of 4,111 (2,350 M., 1,761 F.) in 1951;
(viii) Poisar with a population of 3,906 (2,352 M., 1,554 F.) in 1951; and
(ix) Kandivali with a population of 3,396 (1,903 M., 1,493 F.) in 1951.

‡In 1961, the following towns were merged in Delhi (M. Corp.):
(i) Delhi Civil Lines with a population of 83,273 (48,637 M., 34,636 F.) in 1951 and P. 19,395 (12,404 M., 6,991 F.) in 1941.
(ii) West Delhi with a population of 58,862 (34,939 M., 23,923 F.) in 1951 ;
(iii) Shahdara with a population of 30,802 (17,027 M., 13,775 F.) in 1951 ; P 15,955 (10,051 M., 5,904 F.) in 1941; P. 8,262 (4,801 M., 3,461 F.) in 1931 ; declassified in 1921 ; P. 5,107 (2,876 M., 2,231 F.) in 1911 and P. 5,540 (3,057 M., 2,483 F.) in 1901 ;
(iv) Red Fort with a population of 10,022 (6,587 M., 3,435 F.) in 1951 and P. 1,740 (1,256 M., 484 F.) in 1941 ;
(v) Narela with a population of 9,597 (5,052 M., 4,545 F.) in 1951 and P. 8,050 (4,549 M., 3,501 F.) in 1941 ;
(vi) Mehrauli with a population of 7,436 (3,800 M., 3,636 F.) in 1951 and P. 6,050 (3,136 M., 2,914 F.) in 1941; and
(vii) Najafgarh with a population of 5,088 (2,675 M., 2,413 F.) in 1951 and P. 5,774 (3,060 M., 2,714 F.) in 1941.

£In 1921 New Delhi (Imperial Delhi) and Delhi Cantt. with a population of 31,456 (20,126 M., 11,330 F.) and P. 6,272 (4,580 M., 1,692 F.) respectively were parts of Delhi (M. Corp.). The combined population of Delhi (M. Corp.), New Delhi (M. C.) and Delhi Cantt. for 1921 has been shown against Delhi (M. Corp.).

@In 1931 Delhi Cantt. was part of New Delhi (M.C.) and its population of 8,798 (6,093 M., 2,705 F.) has been added in New Delhi (M.C.).

§In 1951 the following towns were merged with Madras Corporation :

(a) Sembium Town with a population of 17,567 (8,876 M., 8,691 F.) in 1901 ; P. 21,325 (11,000 M., 10,325 F.) in 1911 ; P. 24,235 (12,438 M., 11,797 F.) in 1921 ; P. 33,127 (17,252 M., 15, 875 F.) in 1931 and P. 37,625 (19,343 M., 18,282 F.) in 1941.

(b) Saidapet Town with a population of 14,254 (7,253 M., 7,001 F.) in 1901 ; P. 15,635 (7,958 M., 7,677 F.) in 1911 ; P. 27,404 (13,947 M., 13,457 F.) in 1921 ; P. 33,037 (17,129 M., 15,908 F.) in 1931 and P. 41,347 (21,295 M., 20,052 F.) in 1941.

†From 1901 to 1921 Agra Cantonment with a population of 22,041 (12,880 M., 9,161 F.) in 1901; P.21,514 (12,392 M., 9,122 F.) in 1911 and P.21,782 (13,228 M., 8,554 F.) in 1921 being part of Agra M.C. has been combined with Agra (M. Corp.).

‡ Sheopur T.A. with a population of 2,144 (1,075 M., 1,069 F.) in 1901 ; P. 1,616 (836 M., 780 F.) in 1911; P. 1,575 (850 M, 725 F.). in 1921; P. 2,335 (1,307 M., 1,028 F.) in 1931; P. 2,892 (1,558 M., 1,334 F.) in 1941 and P. 3,442 (1,895 M., 1,547 F.) in 1951 was merged in Varanasi (M. C.) in 1961. Accordingly its population is shown merged in Varanasi (M. Corp.) during all these years.

@ The extent of adjustments in population made in the successive censuses will appear from the following table in which col. No. 3 shows the figure recorded in the Census table of the particular year mentioned in Col. No. 2 and col. No. 4 to 10 show the figures adjusted in the years mentioned under each:

Name of Town	Year	Population recorded for the year	Adjustments made in						
			1911	1921	1931	1941	1951	1961	1971
1	2	3	4	5	6	7	8	9	10

† Amritsar Cantonment with a population of 1,390 (966 M., 424 F.); in 1901, P. 1,417 (1,051 M., 366 F.), in 1911; P. 3,187 (2,669 M., 518 F.) in 1921; P. 1,630 (1,162 M., 468 F.,) in 1931; P.1,429 (912 M., 517 F.) in 1941 and P. 2,484 (2,176 M., 308 F.) in 1951 was part of Amritsar (M.C.). The combined population of Amritsar (M.C.) and Amritsar Cantonment from 1901 to 1951 has been shown against Amritsar (M.C.).

‡ Separate area figures for Jamshedpur (N) and Railway Colony are not available. These area figures have, however, been included in that of the main town.

£ In 1951, Jugsalai with a population of 18,288 (10,284 M., 8,004 F.) was a part of Jamshedpur. The combined population of Jamshedpur and Jugsalai for 1951 has been shown against Jamshedpur.

@ Cochin Corporation has been constituted by including Fort Cochin, Mattancherry, Edappally, Ernakulam, Willingdon Island and Part of Thrippunithura towns of 1961 and some adjoining rural areas. However the population of Cochin for the earlier decades has been built up by adding the population of the towns of Edappally, Ernakulam, Fort Cochin, Mattancherry and Willingdon Island only.

$ Includes the population of Railway Colony which was shown separately as a suburban area of this town with a population of 978 (511 M., 467 F.) in 1921; P.4,664 (2,989M.1,675F.) in 1931; P 5,466 (3,460 M., 2, 006 F) in 1941; P. 7,697 (4,690M., 3,007F.) in 1951 and P. 10,596 (6.544 M., 4,052 F.) in 1961.

† Separate area figures for (i) Subash Nagar (ii) Regional College are not available.

‡ Doranda with a population of 2,844 (1,666 M., 1,178 F.) in 1901 (1911 population not available); P. 4,531 (2,236 M., 2,295 F.) in 1921; P. 6,721 (3,399; M., 3,322 F.) in 1931 and P. 8,384 (4,433 M., 3,951 F.) in 1941 (1951 population not available) was part of Ranchi. The combined population of Ranchi and Doranda from 1901 to 1951 has been shown against Ranchi (M).

@ The extent of adjustments made in the successive censuses will appear from the following table in which col. 3 shows the figures recorded in the census tables of the particular year mentioned in col. 2, and cols. No. 4 to 9 show the figures adjusted in years mentioned in each:

Name of Town	Year	Population recorded for the year	Adjustments made in					
			1921	1931	1941	1951	1961	1971
1	2	3	4	5	6	7	8	9

† Shahapur with a population of 9,056 (4,532M., 4,524F.) in 1901; P.9,804 (4,927 M., 4,877 F.) in 1911; P.10,380 (5,254 M., 5,126 F.) in 1921; P.11,704 (6,108 M. 5,596 F.) in 1931; P.13,512 (6,896 M., 6,616 F.) in 1941 ; P.17,627 (9,134 M., 8,493 F.) in 1951, was merged with Belgaum Municipality in 1961. Population of Shahapur from 1901 to 1921 has been shown against Belgaum urban agglomeration.

‡ Belgaum Municipality with a population of 22,434 (11,453 M., 10,981F.) in 1901; P.29,636 (15,255M., 14,381 F.) in 1911 ; P.36,354 (18,841M, 17,513 F.) in 1921 and Belgaum Cantonment with a population of 10,641 (6,213 M., 4,428 F.) in 1901; P.11,172 (6,865 M., 4,307 F.) in 1911 and P.10,014 (5,942 M., 4,072 F.) in 1921 were parts of Belgaum Town. The combined population of Belgaum (M), Belgaum (Cantt.) and Shahapur (only for 1901 to 1921) has been shown against Belgaum urban agglomeration.

@ Bhimganj Mandi which was treated as a separate urban unit in 1941, [population 2,307 (1,261 M., 1,046 F.)] was merged with Kota (M) in 1951. The combined population of Kota 'M' and Bhimgani Mandi for 1941 has been shown against Kota 'M'.

§ In 1951 Census, Ujjain Cantonment with a population of 563 (335 M., 228F.) in 1941 and P.871 (542 M. 329F.) in 1931 was merged in Ujjain Municipality.

†In 1931 the following towns were merged to form Warangal *City*:
(i) Hanamkonda with a population of 14,782 (7,624 M., 7,158 F.) in 1921; P.35,627 (18,324 M., 17,303 F.) in 1911 and P. 10,487 (5,241 M., 5,246F.) in 1901,
(ii) Urus-Karimabad with a population of 5,589 (2,879M., 2,710F.) in 1921 and P.7,173 (3,586M., 3,587F.) in 1911;
(iii) Warangal Fort with a population of 5,422 (2,731 M., 2,691F.) in 1921 and 5,542 (2,754M., 2,788F.) in 1911; and
(iv) Matwada with a population of 20,998 (10,754 M., 10,244 F.) in 1921.

‡ In the year 1961 Naupada with a population of 11,612 (6,486 M., 5,126 F.) was merged in Thana Municipality.

@Duragpur Steel Project Area and Durgapur Coke Oven Plant Area were treated as new towns in 1961 Census having population of 35,346 (26,535M., 8,811F.) and P. 6,350 (4,639M., 1,711F.) respectively. In 1971 Census both these towns have been merged together to form Durgapur (N.A). The combined population of these towns for the year 1961 has been shown against Durgapur (N.A.).

†Garhia Phatak (N. A.) with a population of 5,918 (3,245 M., 2,673 F.) in 1911; P. 8,429 (4,618 M., 3,811 F.) in 1921 and P. 16,400 (9,158 M., 7,242 F.) in 1931 was split up into (i) Jhansi (N.A.) and (ii) Jhansi Rly. Settlement (N.A.) in 1941. Thereafter, Jhansi (N.A.) was merged in Jhansi (M.B.) in 1951 while Jhansi Rly. Settlement (N.A.) is still in existence. The breakup of 1941 population of Garhia Phatak (N.A.) between the two split portions being not available, the whole population of Garhia Phatak from 1911 to 1931 is included in Jhansi urban agglomeration and in 1941 Jhansi N.A.'s population 12,525 (6,579 M., 5,946 F.) has been combined with Jhansi (M.B.).

‡From 1901 to 1921 Jhansi Cantonment having a population of 7,843 (5,237 M., 2,606 F.) in 1901; P. 11,972 (8,180 M., 3,792 F.) in 1911 and P. 12,047 (8,812 M. 3,235 F.) in 1921 being part of Jhansi (M.B.) has been combined with Jhansi (M.B.).

@Amravati Camp with a population of 15,707 (8,127 M., 7,580 F.) in 1951; P. 12,338 (6,523 M., 5,815 F.) in 1941; P. 10,268 (5,509 M., 4,759 F.) in 1931; P. 4,775. (2,541 M., 2,234 F.) in 1921; P 6,340 (3,334 M., 3,006 F.) in 1911 and P. 5,295 (2,923 M., 2,372 F.) in 1901 was merged in Amravati Municipality in 1961.

† In 1901 Census whole of present Imphal was not treated as a town. Only Imphal Town Fund Area was treated as urban at that census.

‡ Siliguri Town Darjeeling district and Dabgram Mouza of Rajganj P.S. of Jalpaiguri district have very close link and should have been treated as an urban agglomeration. This could not be done due to certain difficulties. Had this been done the figures of Siliguri urban agglomeration would have been as under :

Siliguri urban agglomeration	Darjeeling/Jalpaiguri (WEST BENGAL)	1931			6,067	..	..	4,182	1,885
		1941			10,487	+4,420	+72.85	7,121	3,366
		1951			32,480	+21,993	+209.72	20,903	11,577
		1961		15.54	65,471	+32,991	+101.57	39,651	25,820
		1971		61.40	136,343	+70,872	+108.25	78,135	58,208

†Dinapur Cantonment with a population of 10,841 (5,939 M., 4,902 F.) in 1901 P. 9,959 (5,655 M., 4,304 F.) in 1911; P. 9,210 (5,373 M., 3,837 F.) in 1921; P. 13,514 (8,068 M. 5,446 F.) in 1951 was a part of Dinapur (M). The combined population of Dinapur Municipality and Dinapur Cantonment for 1901, 1911, 1921 and 1951 has been shown against Dinapur Municipality. In 1931 & 1941 Dinapur Cantonment was treated as a separate urban unit.

‡Panaji was a town in 1900, 1910, 1921, 1931 and 1940 but its population is not available for these years.

†In 1911 Simla (M C) includes the population of Kasumpati, for which separate population is not available.

‡It is only in 1961 that Cannanore Municipality and Cantonment have been treated as separate towns In the previous censuses these formed one town only though the Cantonment was separated from the Municipal limits as early as 1st January 1938. Hence from 1901 to 1951 the figures have been shown against the Municipality.

† *In 1951*, Baragaon Bazar *with* a population of 7,456 (M.4,209, F. 3,247) in 1941; P.6,038 (M.3,596, F. 2,442) in 1931; P.3,931 (M.2,553, F.1,378) in 1921 and P. 3,706 (M.2,204, F. 1,502) in 1911 was merged in Gonda (M.B.).

‡ The extent of adjustments in population made in the successive censuses will appear from the following statement in which col. 3 shows the figures recorded in the census tables of the particular year mentioned in col. 2 and cols. 4 to 6 show the figures mentioned in each:—

Name of Town	Year	Population recorded for the year	Adjustments made in		
			1951	1961	1971
1	2	3	4	5	6
Gonda (M.B.)	1901	15,811	18,810	18,810	18,810

£ In 1931, Ranibagh-Kathgodam (only Ranibagh in 1901 & 1911) with a population of 1,149 (M.819, F.330) in 1921; P. 1,490 (M.980, F.510) in 1911 and P.874 (M.609, F. 265) in 1901 was merged in Haldwani-cum-Kathgodam.

@ In 1951 Census, the following towns were merged to form Dewas *Municipality*:

(i) Dewas Senior with a population of 12,987 (6,927M., 6,060F.) in 1941.

(ii) Dewas Junior with a population of 9,962 (5,364M., 4,598F.) in 1941.

† In 1961 Vijayapuri was treated as a single town in Nalgonda district but in 1971 it has been bifurcated into two different towns viz., Vijayapuri North and Vijayapur South.

‡ Shikarpur town of 1961 has been named as Narkatiaganj in 1971.

†Kanchrapara in Rural Development Colony of 1951 with a population of 12,019 (6,297 M., 5,722 F.) of Nadia district was merged Kalyani and Gayeshpur Govt. Colony towns in 1961. Separate population figures of these towns are not available for 1951. The 1951 population of Kanchrapara Rural Development Colony has, however, been considered for striking the totals for 'All Classes'.

†Population of Ozhukarai town, excluding Pillaichavadi portion, is included in Class-I under Pondicherry urban agglomeration and that of Pillaichavadi portion of the town, not included in Pondicherry urban agglomeration is shown under Class-VI, No serial number has been given for this portion as it is not an independent town of 1971 Census. The area and population of Ozhukarai town, as a whole, are 10.56 sq.km., and 21,375 persons (11,099 M., 10,276 F.) respectively.

‡Jutogh Cantonment (population not available) in 1951; P. 1,064 (850 M., 214 F.) in 1921 and P. 471 (340 M., 131 F.), in 1911 was part of Simla (M.C.). The combined population of Simla (M.C.) and Jutogh Cantonment for 1911, 1921 and 1951 has been shown against Simla (M.C.).

					Aler	29 42	9,753	7,514

*These have sprung up as project towns after 1961 Census

†Vijayapuri which was treated as a single town in Nalgonda district in 1961 has been bifurcated into two different towns viz, Vijayapuri North and Vijayapuri South in 1971 Census

‡Kagaznagar which was treated as town in 1951 Census and continued as such till 1961, has been bifurcated into two different towns viz, Kagaznagar (N M) and Kagaznagar (M) in 1971 Census

@The 1971 population of these declassified towns given under column 8 has been arrived by adding the 1971 population of all the independent rural revenue villages into which they have relapsed at the present Census and not merely of the single village that went by the name of the original town

* Area figures of certain towns of 1961 do not tally with the areas of village (s) into which they have relapsed and areas of certain places treated as towns in 1971 do not tally with the area of the place before it was classified as a town. These differences are mainly due to the fact that the area figures of villages and towns have been derived from different sources. The areas of towns are supplied by the Civic authorities concerned whereas village areas are supplied by the Director of Survey Settlement and Land Records and also because for some villages the entire revenue area is considered whereas for the corresponding towns only built up or Municipal area is considered.
