1971 CENSUS PUBLICATIONS—ORISSA

(All the Census Publications of this State will bear Series No. 16)

PART I	..	General Report on the Census, subdivided into three sub-parts, viz.,
Part I-A	..	First part of the General Report covering distribution, growth and density of population, sex ratio, Rural and Urban differentials, broad literacy rates, population of Scheduled Castes and Scheduled Tribes, broad economic categories, etc.
Part I-B	..	The second part covering detailed analysis of the demographic, social, cultural and migration patterns
Part I-C	..	Subsidiary Tables
PART II	..	Census Tables on Population subdivided into :
Part II-A	..	General Population Tables (the present volume)
Part II-B	..	Economic Tables
Part II-C (*i*)	..	Tables showing distribution of population by Mother-tongue and Religion, Scheduled Castes and Scheduled Tribes
Part II-C (*ii*)	..	Other Social and Cultural Tables and Fertility Tables
Part II-D	..	Migration Tables
PART III	..	Establishment Report and Tables
PART IV	..	Housing Report and Tables
PART V	..	Special Tables and Ethnographic notes on Scheduled Castes and Scheduled Tribes (All India Publication)
PART VI	..	Town Directory, Survey Reports on Towns and Villages, subdivided into :
Part VI-A	..	Town Directory
Part VI-B	..	Special Survey Reports on selected Towns
Part VI-C	..	Survey Reports on selected Villages
PART VII	..	Special Report on Graduates and Technical Personnel (All India Publication)
PART VIII	..	Administration Report (for official use only) subdivided into :
Part VIII-A	..	Administration Report—Enumeration
Part VIII-B	..	Administration Report—Tabulation
PART IX	..	Census Atlas and Administrative Atlas
PART X	..	District Census Handbook (a State Government Publication) subdivided into :
Part X-A	..	Town and Village Directory
Part X-B	..	Town and Villagewise Primary Census Abstract
Part X-C	..	Analytical Report and Administration statements and District Census Tables....(*for 13 districts*)
Miscellaneous	..	Special studies and other Reports and Tables (will be published as special paper as and when they are ready.)

INTRODUCTION

A brief history of Census

1. The Census as an instrument of Government policy was known to rulers in several parts of the world in ancient times. Nearly two thousand years ago, Kautilya, in his Arthasastra, referred to population statistics as a measure of State policy for purposes of taxation. History records the ancient Sumerians counting their citizens for taxation purposes 5,000 years ago. Census was also known to the ancient Egyptians and Babylonians, Greeks and Romans. The censuses in the modern times started around the 18th century. United States of America started its population count from 1790. England took its first Census in 1801. In India the first Imperial Census was ordered in 1871. Since then Indian Census has taken place once in a decade with unerring regularity.

1971 Census

2. 1971 Census in India marks the eleventh in an un-interrupted series of decennial censuses. There is hardly any country which has had an unbroken chain of regular decennial modern censuses over the last 100 years. For Orissa after attaining full Statehood in 1936 this was the fourth Census.

Reference date

3. The 1971 Census count took place between the 10th March, 1971 and the 1st April, 1971 with the sunrise of the 1st April, 1971 as the reference date. The revisional round took place from the 1st to the 3rd April, 1971. The reference date originally fixed for the Census was the 1st March, 1971, but this was put off by one month on account of the sudden intervention of the mid-term Parliamentary Elections.

Definition of Population Census

4.1 The Census of population is defined in United Nation document—Principles and Recommendations for National Population Censuses (ST/STAT/SERM/27) as "the total process of collecting, compiling and publishing demographic, economic and social data pertaining, at a specified time or times to all persons in a country or delimited territory."

4.2 Some of the essential features of the Census are as follows:

(i) *Sponsorship*—To conduct a Census, vast organisation and considerable resources are needed. The census organisation has to mobilise extensive administrative machinery with adequate legislative authority. This can be done only by the National Government with the co-operation of States and Local Governments.

(ii) *Defined Territory*—The population figures have no meaning unless they refer to a well defined territory. The territory covered, along with any changes in its area in successive censuses should be clearly and explicitly stated.

(iii) *Universality*—Each person present and/or residing within such territory

without omission or duplication should be included in the Census to ensure completeness and accuracy of Census data.

(iv) *Simultaneity*—The total population enumerated should refer to one well defined point of time and the data collected should also refer to a well defined point or period of time. This is essential to an accurate count of the total population and relationship of facts about the population to a specified period of time. As a general rule, a day is fixed for the Census and also a particular moment which is called the "Census moment." The fixing of the "Census moment" helps the Enumerators to decide which persons are to be included in the Census. The persons born after the Census moment or the persons dying before the Census moment are to be excluded from the Census. Some of the characteristics of the population like age, marital status, occupation, literacy, birthplace, etc., are referred to a period of time of the Census Year to ensure simultaneity.

(v) *Defined Periodicity*—Censuses should be taken at regular intervals so that comparable information is made available in a fixed sequence. A series of censuses makes it possible to appraise the past, accurately describe the present and estimate the future.

Legal basis for a Census

5. Census taking in our country is governed by the Census Act (Act XXXVII of 1948). This law authorises the Central Government to take Census whenever it may consider necessary. The provisions of this Act have considerably facilitated the colossal task of Census taking in this country. Not merely the duties and powers of Census Officials are clearly spelt out in this Act, but also the obligation of public. Penalties have been prescribed for infringement of the law by either. The provisions of the law, however, are hardly, if ever, resorted to. This is a tribute to the sense of responsibility and co-operation of the Indian citizen, without which Census taking in a huge country like ours would have been well nigh impossible.

Census Schedules

6.1 Every Census Operation is carried out in two distinct phases, viz., (i) housenumbering and houselisting and (ii) enumeration. Before the Operations for 1971 Census were taken in hand, a great deal of preliminary preparations were made on a national level. Census questionnaire evolved after careful planning and extensive consultations with Census data users such as Planning Commission, Ministries of the Central Government, the State Governments, Universities among other organisations and institutions. The Census schedules finally adopted for 1971 Census are: (a) Houselist, (b) Establishment schedule and (c) Individual slip. The first two related to housenumbering and houselisting phase while the other related to enumeration. These schedules are briefly discussed below:

(A) The Houselist

6.2 This schedule is intended to provide a complete list of all Census houses and households in every village and town and also the approximate population. This schedule was canvassed during 1970 and formed the basis for the fixing of Population Census enumerator's block for 1971 in such a way as to ensure complete coverage without omission or overlapping of the households. Since 1961 the Houselist served as a kind of Housing Census schedule. Particulars of the purposes for which Census houses are used, the material of wall and roof of each Census house, whether the Census households lived in owned or rented

houses, the name of head of household and the number of members in each household were collected. The Houselist of 1971 by and large follows the pattern of the 1961 Census Houselist. The improvements are that in respect of vacant house, the reasons for vacancy are ascertained, for, at the 1961 Census, a number of dilapidated houses and sometimes even vacant sites were allotted house numbers and shown as vacant which gave a misleading impression that a number of houses were vacant. Where the head of household belonged to a Scheduled Caste or Scheduled Tribe it was specifically recorded. The households engaged in cultivation were recorded as such so that the list might form a frame for any sample surveys of agricultural households that might be undertaken in future. In the 1961 Houselist some simple data on houses used as factories or workshops were collected. At the 1971 Census a separate schedule called the Establishment Schedule was canvassed along with Houselist and its scope was much larger covering all establishments as explained in the next paragraph.

(B) The Establishment Schedule

6.3 This is a new schedule developed for the 1971 Census. It covers all Establishments—Manufacturing, Trade or Other establishments where people work. An Establishment is defined as a place where goods are produced or manufactured not solely for domestic consumption or where servicing and/or repairing is done such as a factory, workshop or household industry or a place where retail or wholesale business is carried on or commercial services are rendered or an office, public or private or a place of entertainment or where educational, religious, social or entertainment services are rendered. It is necessary that in all these places one or more persons should be actually working.

6.4 The Establishment Schedule gathers particulars on whether the establishment is a Government, quasi-Government, private or co-operative institution, average number of persons working, if used as a manufacturing establishment. If it was a household industry, registered factory or unregistered workshop, the description of products processed or servicing done, type of power used; if it is a trade establishment, the description of goods bought or sold and if retail or wholesale and if used as other establishment, its description such as an office, hotel, theatre, etc.

6.5 This schedule has yielded very useful data particularly in regard to the unorganised sector, classifying the establishments by the size of employment and the industrial or trade categories, correlating the power used and size of employment indicating public or private or co-operative institutions by the size of employment. The Establishment Schedule will also serve as a very good frame for any type of future sample surveys. It may, however, be remembered that the Establishment schedule covers only the establishments run within the same building which is listed and will not cover open air establishments or itinerant establishments with no regular building.

(C) The Individual slip

6.6 This is the basic schedule of the 1971 population Census and contains 17 questions covering the following. (Note—The questions listed here do not follow verbatim what is printed in the schedule but aim to expand and explain some of them.)

1. Name
2. Relationship to Head of Household
3. Sex
4. Age
5. Marital status
6. For currently married women only:
   (a) Age at marriage
   (b) Any child born in the last one year

7. Particulars of birth place:
   (a) Place of birth
   (b) Rural or Urban
   (c) District
   (d) State or Country
8. Particulars of last residence:
   (a) Place of last residence
   (b) Rural or Urban
   (c) District
   (d) State or Country
9. Duration of residence at the village or town of enumeration
10. Religion
11. Name of the Scheduled Caste or Scheduled Tribe if the person belongs to one*
12. Literate or Illiterate
13. Highest educational level attained
14. Mother Tongue
15. Other languages known
16. Main Activity:
   (a) Broad category—(i) In case of an economically active worker if the person is a Cultivator, Agricultural labourer or engaged in Household industry or doing other work.

   (ii) In case of a Non-worker if the person is engaged in household duties or is a student, a retired person or rent or royalty receiver, dependant such as infant or disabled or very old person, beggar or vagrant, inmate of a penal or charitable institution and other made up of mostly the unemployed.

   (b) Place of work, (c) Name of establishment, (d) Nature of Industry, Trade, Profession or Service, (e) Description of the occupation and (f) Worker Status, i. e., Employer, Employee, Single worker or Unpaid Family Worker.
17. Secondary work:
   (a) Broad category such as cultivator, agricultural labourer, engaged in household industry or other work.

   (b) Place of work, etc., as in Question 16 (b) to (f).

The Individual Slip is a fairly comprehensive schedule which attempts to collect all essential demographic, social and economic characteristics of every individual that can possibly be collected at an operation of this nature. Any attempt to collect more would be beyond the capacity of the Census agency as it is constituted now. The concepts have to be as simple as possible and such as could be easily understood and applied by the Census Enumerator who is basically a Primary school teacher. The Census questions were also such that they did not require deep probes.

6.7 The new features of the 1971 Census Individual Slip as compared to its 1961 counterpart are: (i) an attempt is made to collect data on current fertility; (ii) migrational particulars with reference to the place of last residence are collected which are expected to yield valuable and realistic data on internal migration; (iii) considerable departure is made in respect of the economic questions. The main activity of a person is ascertained according as he spends his time basically as a worker producing goods and services or as a non-worker. For regular work in Industry, Trade or Service the reference period is the week prior to the enumeration and for seasonal work such as agriculture, the last one year. The person is categorised according to the

* Annexure V gives the complete list of Scheduled Castes and Scheduled Tribes of Orissa.

main activity returned by an individual. Where a person who is basically a non-worker such as a student or housewife does make some marginal contribution to work, that secondary work is recorded in Question 17. Experience of the 1961 Census had shown that Census was not a proper agency to collect reliable data on unemployment as such. Therefore the 1971 Census did not ask a question on unemployment directly but the unemployed are expected to fall in the residuary category of non-workers and data in respect of them will be provided which has to be utilised subject to all its limitations.

6.8 A copy each of the schedules and instructions for filling them are given in Annexures I, II and III at the end of this book.

Stages of Census Operations, 1971

7.1 The entire Census Operation was organised in six successive stages, viz.,

(1) Delimitation of Census divisions,

(2) Building up of the Census hierarchy,

(3) House-numbering and houselisting,

(4) Training of personnel,

(5) Actual Census Count from 10th March, 1971 to 31st March, 1971 and

(6) Reporting of the provisional Census figures.

7.2 How the entire Operation was systematically organised and date lines for each stage fixed chronologically can be seen from the Census Calendar from June, 1969 to April, 1971 set out in Annexure IV.

7.3 These six stages are briefly explained in the paragraphs that follow.

Delimitation of Census Divisions

8.1 A 'freeze' order, banning jurisdictional changes in the administrative units of the State with effect from the 1st January 1970 till the close of the Census Operations was obtained sufficiently in advance from the State Government. Some jurisdictional changes in respect of two districts and five police stations were, however, notified by the State Government just on the eve of the 'freeze'. By this time, the delimitation of houselisting blocks had almost been completed. The work had to be done afresh in the light of the altered jurisdictions. Village Registers, Police Station maps and District maps affected by the notification had also to be prepared afresh.

8.2 The need for finding an alternative to the Police Station as a Charge was clearly under-scored by the experience of the preceding censuses. Fortunately, the entire State was now covered fully by Tahsils and the Tahsil is, by and large, coterminous with the Police Station boundaries. For this reason as also because the Tahsil has acquired a permanent status and is manned by fairly senior and experienced officers, the Tahsil was chosen as the rural Census Charge and the Tahsildar as the Charge Officer. Nevertheless, the independence of the Police Station as a sub-unit for the presentation of Census data has been retained. Towns and large villages showing urban characteristics specially designated as Census Towns, formed urban Charges and were placed in charge of the Executive Officer of the local body and Block Development Officer, respectively.

8.3 The Enumerator's Block generally consisted of a population of 750 in rural areas and 600 in urban areas. Basically every village, big or small, was treated as an independent Census Block. In some cases bigger villages were split into more than one Enumerator's block depending on area, nature of terrain and population. Similarly, in some other areas, two or more small villages were combined to constitute the jurisdiction of one Enumerator while each such village continued to remain as an independent block. In towns, the ward was split to form Enumerator's block in terms of

the above mentioned yardstick. The Supervisor's Circle more or less covered the jurisdiction of five Enumerators.

Census Hierarchy

9.1 The Census hierarchy for the 1971 Census was more or less the same as that for the 1961 Census except in so far as it related to the Charge Officers. As stated earlier, the Tahsildar substituted the Sub-Inspector of Police as Charge Officer. The pyramid of jurisdiction for organising the Census Operation was as shown below:

State
|
13 Districts
|
184 Charges
|
6,830 Supervisors' Circles
|
57,969 Enumerators' Blocks

9.2 The Director of Census Operations at the apex directed the entire Operation and provided close guidance and supervision over the work in the field. In the district, the Additional District Magistrate functioned as the District Census Officer subject to the general control of the Collector. Below him was the S. D. O., who was designated as Subdivisional Census Officer. Formal orders appointing District Census Officers and Subdivisional Census Officers were issued by the State Government. Charge Officers were appointed by the District Magistrate as per the delegation of powers made by the State Government. Supervisors were appointed by District Census Officers and Enumerators by Subdivisional Census Officers.

9.3 The 1971 Census, for the first time, saw the appointment of the Block Development Officer as Additional Charge Officer and the Sub-Inspector of Schools and the Revenue Supervisor of Tahsils as Sub-Charge Officer. Almost the entire cadre of Enumerators was made up of local school teachers. Extension Officers of Blocks, teachers of High or Middle Schools, clerks of local offices, etc., functioned as Supervisors.

House-numbering and Houselisting

10.1 As mentioned earlier, it is important to list all the houses and households and provide them with some distinguishing mark before Census enumeration so as to facilitate complete coverage. Firstly, in every village and town all the houses, residential as well as non-residential, were numbered according to a systematic scheme of house-numbering and the number allotted to each house was marked fairly prominently on the door of each house. The household, that is the group of persons living in a house and taking their food from a common kitchen, was also allotted a number. If there was more than one household in a house each of the households was allotted a sub-number to the house number in which the households lived. Then all the houses and the households were listed in a uniform schedule, i. e., the Houselist. The schedule, as already explained, provided the frame for the demarcation of the Census Enumerator's block in a way that a fairly uniform workload was put on the Enumerator. Along with the houselisting all the establishments were also listed on a separate schedule as has already been indicated.

10.2 The house-numbering and houselisting was conducted in Orissa in February-March, 1970.

10.3 **Maps**—It is the primary objective of Census that every person in the country is enumerated but only once and without any omission. In order to achieve this the entire country was mapped out from the major administrative divisions of the State, to a District, Tahsil, Police Station and ultimately to every village and town which are the basic administrative areas of habitation

For this purpose all available maps were procured and the administrative boundaries brought up-to-date taking into account all changes that had taken place. The boundaries were freezed more than a year in advance of the Census enumeration. Having identified and marked off every village and town on a Tahsil map, the Census organisation allotted code numbers to every one of these units which were to be fully accounted for at the Census. Then in each village and town every house was located and numbered and all the houses and ultimately, every household were listed in the Houselist Schedule referred to earlier. Simultaneously notional maps of every village and every ward or block of a town were prepared showing the location of every Census House. These are extremely valuable maps which helped to locate every house for Census enumeration apart from serving as a frame for all types of future surveys and meeting various administrative needs. 1971 Census can claim to have produced excellent detailed notional maps for all villages and towns throughout the country. All these were prepared a few months in advance of the Census enumeration. While laying down a clear demarcation of the Enumerator's block this enabled him to cover every household in his block. This block map was brought up-to-date taking into account all additions that took place at subsequent stages. Complete coverage of areas was thus ensured.

Training

11.1 The importance of intensive training of the enumeration agency in an operation of the dimensions of the Indian Census cannot be too strongly stressed.

11.2 Earlier, that is, during the preparatory stages, training seminars were organised by the Demography and Training Division of the Office of the Registrar General at which the Director of Census Operations and his Deputies received training. Subsequent pre-test operations augmented their experience.

11.3 The training programme for field staff was planned in three phases, viz., (a) Training of District Census Officers by the Directorate of Census Operations, (b) Training by the District Census Officers of all trainer-officers and (c) Training of Enumerators and Supervisors by the Charge Officers and other trainer-officers.

11.4 The third phase, viz., arranging regular training for nearly half a lakh of Enumerators and Supervisory personnel spread over more than a thousand centres proved a challenging task. That the various Census concepts were fully assimilated and the instructions for filling the Census Schedules were clearly understood at all levels up to that of the Enumerator was of paramount importance. This was ensured by putting each Enumerator and Supervisor through as many as ten classes, two or more of which were in the nature of practical exercises. The classes were conducted in accordance with a well thought-out training programme formulated by the Director in consultation with the District Census Officers. Before the commencement of enumeration, each enumerator was equipped with the necessary forms and schedules, appointment order, booklet of instructions and other relevant materials.

Census Count

12.1 The original reference date for the Census enumeration of 1971 was the sunrise of the 1st March 1971. This is found to be most convenient time for carrying out the Census enumeration in India as during this period most parts of the country are easily accessible and people are relatively free from any large migration. Owing to sudden intervention of mid-term Elections the Census enumeration actually started on the 10th March, 1971 and continued till the 31st March. All houseless persons, boat dwellers, etc., were enumerated on the night of the 31st March, 1971. During the subsequent three days, i.e., the 1st April to the

3rd April 1971 the Enumerator made a quick revisit to all households and brought the enumeration up-to-date as at sunrise of the 1st April, i.e., the revised reference date. In the military areas of Charbatia and Chandipur enumeration was taken up through Enumerators and Supervisors appointed from among the military staff.

12.2 Unlike in some western countries where householder method of enumeration takes place, i.e., the Census schedules are delivered to the heads of households who are expected to fill the schedules relating to all members of the household, in India the canvasser method of enumeration is adopted, i.e., a trained Census Enumerator visits every household in the area allotted to him and questions the members of the household and he himself fills up the schedules. Since the entire country is mapped and even the smallest unit of habitation located in advance on the notional map the canvasser method is likely to result in complete coverage.

12.3 In a few inaccessible areas of the State the enumeration was carried out in advance non-synchronously.

12.4 During the revisional round from the 1st to the 3rd April, 1971, the Enumerator revisited all the households in his jurisdiction and enumerated new births and visitors that had been added to a household. He also cancelled the Individual slips of persons who had died in the mean time.

12.5 Active supervision was provided at every level by the higher officials in the Census hierarchy.

Reporting of Provisional Census figures

13.1 The rough population figures calculated on the basis of the Enumerators' Abstracts are known as "Provisional Totals" Reporting of these 'Totals' marked the last stage of the field operation.

13.2 Immediately after the revisional round, the Enumerator recorded the 'Provisional Totals' in respect of his block/(s) in the Enumerator's Abstract and handed it over along with all other filled-in records and schedules to his Supervisor. The Supervisor carefully checked the entries in each Enumerator's Abstract, signed them after satisfying himself of the correctness thereof and posted the figures of population of the Blocks of his jurisdiction in the Supervisor's Abstract. All this happened on the 3rd April, 1971 itself. The Supervisor's Abstract and relevant records of the Enumerators were collected by the Charge Officer through his Sub-Charge Officers the next day. After obtaining the Abstracts from all Supervisors the Charge Officers struck the Charge Totals of population by sex and literates. Most District Census Officers prepared their district summaries on the 5th April, 1971 and communicated the figures to the Director of Census Operations and Registrar General, India on the same day by Express Telegram. The district figures were received and checked. The provisional totals for the State of Orissa were communicated to the Registrar General and Census Commissioner by telegram on the 7th April, 1971.

13.3 Thus the provisional totals of population by sex and literates for the entire State as well as for each district were in the hand of the Census Commissioner by the fourth day of the close of the field operation. The Registrar General officially released the provisional totals for the country at New Delhi on the 12th April 1971 and instructed the State Directors to release the figures for the State and districts. Accordingly, the Director of Census Operations, Orissa released the provisional figures for the State of Orissa and districts in a Press conference on the 15th April, 1971. Within the next 15 days, a publication entitled 'Paper I of 1971—Provisional Population Totals', Orissa was brought out.

13.4 The final population figures presented in this book after complete processing of schedules and tabulation, as compared to the provisional figures of population bring out a very marginal difference of 0.04 per cent. This by itself is a tribute to the care and diligence with which the enumeration staff performed their duties.

Post Enumeration Check

14.1 In spite of elaborate preliminary planning in organising an operation of the formidable magnitude of the Indian Census, the minute attention to detail and the thorough training given to the personnel, a certain margin of error in the results cannot altogether be ruled out. In order to ascertain the degree of error which the Enumerator's figures might contain a special check known as Post Enumeration Check was conducted on a sample basis in 200 Blocks from the 22nd April, 1961 to the 1st May, 1971. The check was directed at coverage error as well as content error. The coverage error check was designed to find out if any household or persons were left out of enumeration, while the content error was aimed at finding out how correctly the answers were recorded by the Enumerator. Close field supervision of the work was provided by the Director and the Deputy Directors of the Regional Tabulation Offices. To maintain the independent character of the check, the staff employed in this work was entirely different from the enumeration staff and was generally of a higher calibre.

14.2 The particulars collected from such independent field check have been sent to the R. G.'s office for computation of the degree of error. The results are not available at the time of going to the press. In 1961 Census the margin of error revealed by the PEC was negligible. The 1971 PEC results, it is hoped, will be still better.

Excellent work by Teachers

14.3 The success of Census enumeration certainly redounds to the credit of the innumerable local school teachers who performed this great national task with a rare degree of devotion. One can only echo the tribute of the Registrar General and Census Commissioner that the nation owes a debt of gratitude to them.

NEW FEATURES OF THE 1971 CENSUS

15.1 Every decennial Census has offered some distinguishing features. The District Census Handbook was a special feature of 1951 Census. The 1961 Census expanded into the field of ancillary studies. For the 1971 Census, it has been decided that in addition to the District Census Handbook and some special studies an attempt will be made to present certain fundamental Census data with an analysis of the demographic characteristics of the population in simple and non-technical language with a view to initiating the layman into the field of demography. The book will be of a handy size and will be entitled 'A Portrait of Population'. It should prove useful not merely to the High School and College student for whom it is primarily meant, but also to the administrator and legislator whose need for the latest demographic data in such a handy volume is long felt. Each State Director will bring out such a publication for his State.

Standard Urban Area

15.2 Another new concept that has been developed for the 1971 Census for the tabulation of certain urban data is the Standard Urban Area. The essentials of a Standard Urban Area are that, firstly, it should have a core town of a minimum population size of 50,000 ; secondly, the contiguous areas made up of urban as well as rural administrative units should have close mutual socio-economic links with the core town and lastly, the entire area should present a possibility of getting fully urbanised within a period of 2-3 decades. The idea is that it would be possible to provide comparable data for a definite area of urbanisation continuously for three decades. The concept of Town Group which was in vogue in 1961

Census has been given up and the concept of Standard Urban Area adopted for 1971 Census on the basis of the recommendations of the International Geographic Union held in November-December, 1968. There are eight Standard Urban Areas in this State. These are:

1. Sambalpur
2. Rourkela
3. Balasore
4. Cuttack
5. Jeypore
6. Berhampur
7. Bhubaneswar
8. Puri

Details are given in Table A-V.

Urban Agglomeration

15.3 The concept of Urban Agglomeration is also a new feature of 1971 Census. In several areas around a core city or statutory town have come up fairly large well-recognised Railway colonies, University campuses, Port areas, Military camps, etc., and even though outside the statutory limits of a Corporation, Municipality or Cantonment they fall within the revenue boundary of the place by which the town itself is known. It may not be altogether realistic to treat such areas lying outside the statutory limits of a town as rural units; and at the same time each such individual area by itself may not satisfy the minimum population limit to qualify as an independent urban unit. Sometimes, even if these constituent units qualify to be recognised as towns in their own merits, if they are cut away from the main town to which they are agglomerated the demographic and socio-economic characteristics of the agglomerated urban area may be lost.

15.4 There are different situations in which Urban Agglomerations would be constituted, for example,

(i) A city with continuous outgrowth

(ii) One town with similar outgrowth or two or more adjoining towns with their outgrowths as in (i) and

(iii) A city and one or more adjoining towns with their outgrowth all of which formed a continuous spread.

There are eight Urban Agglomerations in the State. These are:

1. Sambalpur Urban Agglomeration
2. Rourkela Urban Agglomeration
3. Cuttack Urban Agglomeration
4. Phulbani Urban Agglomeration
5. Titlagarh Urban Agglomeration
6. Bhawanipatna Urban Agglomeration
7. Jajpur Road Urban Agglomeration
8. Jatni Urban Agglomeration

Details are given in Table A-IV.

Town Study

15.5 Another feature of 1971 Census is Town Study. Considering the fact that India is at present at an interesting stage of development and is on the road to rapid urbanisation, a survey of 200 towns in the country will be done as an ancillary to the 1971 Census. Orissa has to her share the following towns:

Bhubaneswar

Paradip

Sambalpur

Bhawanipatna

Jaleswar

Bellaguntha

Preliminary investigation has been started in some of these towns.

Other Ancillary Studies

16. Among other ancillary studies proposed for the 1971 Census, mention may be made of the re-survey of a few selected villages previously covered (1961) in order

to high-light the trends of change. Another item is the ethnographic survey of Scheduled Castes and Scheduled Tribes not covered in 1961 Census. Besides, a special study on Cyclones of Orissa has been taken up.

Payment of Honoraria

17. For the personnel, Census work was in the nature of a labour of love. Till 1961, enumeration staff was not paid anything at all. In the 1961 Census, a small honorarium of Rs. 15 to 20 was paid to an Enumerator while the Supervisor was paid about Rs. 18. For the 1971 Census, the rate of honorarium has been raised to Rs. 40 per Enumerator and Rs. 40 per Supervisor for the entire Operations in the hope that this would provide some recompense to the Enumerators even though it cannot claim to be the remuneration for their work by any stretch of imagination. Further, the higher Census officials up to the District Census Officers also received for the first time lump sum honorarium.

Publication Programme

18.1 The reader of this volume would have noticed the new cover design which is an innovation of 1971 Census. Each State series of Census publications will have a distinct colour scheme for its cover design and the State's name prominently noted in the circle provided on the cover page. The subject of the publication will also find a prominent place across the cover. The series number for Orissa State is 16. It is hoped, this arrangement will enable a reader to easily pick out the Census volume of any particular State or that of all-India.

18.2 The publication programme for this State started with the bringing out of the 'Provisional Population Totals' (Paper I of 1971) of this State in April, 1971. This, however, contained only preliminary totals compiled from the abstracts furnished by the Census Enumerators. This was followed by Administration Report (Enumeration) which was published in April, 1972 as Part VIII-A of our Publication Programme. I had mentioned in Paper I that it would be my endeavour to make available the first results of 1971 Census count as early as possible. The present publication virtually marks the commencement of the release of the statistical volumes of this State for the 1971 Census.

18.3 The full programme of publication is shown below:

Part number and subject covered	Sub-part number, if any, and the detailed subject
Part I : Census General Report	Part I-A: First part of the General Report, discussing the data yielded from the Primary Census Abstract and the broad religion and mother-tongue composition. It will cover distribution, growth, and density of population, sex ratio, rural and urban differentials, broad literacy rates, population of Scheduled Castes and Scheduled Tribes, broad economic categories, etc.
	Part I-B: The second part covering the detailed analysis of the demographic, economic, social, cultural and migration patterns after the completion of the full tabulation programme.
	Part I-C : Subsidiary Tables

Part number and subject covered	Sub-part number, if any, and the detailed subject
Part II : Census Tables on Population	Part II-A: Union/State/Union Territory General Population Tables ('A' Series) giving the size, distribution and growth rate of population of administrative units and also of individual towns and the standard urban areas, besides the Primary Census Abstracts. Part II-B : Economic Tables ('B' Series) Part II-C(i) : Distribution of Population, Mother-Tongue and Religion, Scheduled Castes and Scheduled Tribes. Part II-C(ii) : Other Social & Cultural Tables and Fertility Tables—Tables on Household composition, single year age, marital status, educational levels, Scheduled Castes & Scheduled Tribes, etc. Bilingualism. Part II-D: Migration Tables Part II (Spl.): All India Census Tables on one per cent Sample basis (Technical). Note on sampling will be incorporated.
Part III: Establishment Report and Tables	Report and Tables of the 'E' Series
Part IV : Housing Report and Tables	Report and Tables of the 'H' Series
Part V : Special Tables & Ethnographic Notes on Scheduled Castes and Scheduled Tribes	
Part VI : Town Directory, Survey Reports on Towns and Villages	Part VI-A : Town Directory Part VI-B : Special Survey Reports on selected towns. Part VI-C : Re-survey Reports on selected villages.
Part VII : Special Report on Graduates and Technical Personnel	
Part VIII : Administration Report (For official use only)	Part VIII-A : Administration Report—Enumeration. Part VIII-B : Administration Report—Tabulation.
Part IX : Census Atlas	Union and State/Union Territory Census Atlases and Administrative Atlases.

Part number and subject covered	Sub-part number, if any, and the detailed subject
Part X :	Part (A) : Town and Village Directory
District Census Handbooks	Part (B) : Town and Villagewise Primary Census Abstract.
	Part (C) : Analytical Report and Administration Statements and District Census Tables.
Miscellaneous :	(a) Special studies taken up by the Directors of Census Operations
(will be published as special paper in each year as and when they are ready)	(b) Special area Surveys by the Social Studies Unit of R. G., India.
	(c) Special Tables for Standard Urban Areas
	(d) Language Survey Reports
	(e) Post-Enumeration Check Report
	(f) Age Tables
	(g) Life Tables
	(h) Report on estimates of intercensal birth and death rates using 1971 Life Tables and Age data.
	(i) Development of Vital Statistics in India

General Population Tables

19.1 In this volume, the data relating to the following subjects are presented in tabular form.

A-Series :

A-I—Area, Houses and Population

A-II—Decadal variation in population since 1901

A-III—Villages classified by population

A-IV—Towns and Urban Agglomerations classified by population in 1971 with variations since 1901

A-V—Standard Urban Areas

Union/State Primary Census Abstract

19.2 Tables A-I, A-II, A-III and A-IV follow the 1961 model. Tables A-II and A-IV however give the variation for 70 years while the corresponding 1961 Tables gave variation for 60 years. Percentage of variation is also shown decade to decade. Table A-V which relates to Standard Urban Areas is a new feature of the 1971 Census.

19.3 The Primary Census Abstract follows the 1961 pattern. This is the basic table produced on full count basis . The distribution of population by broad industrial categories has been made on 1961 pattern except for the fact that category III of 1961 has been divided into two categories, viz., Category III—Workers in Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities and Category IV—Workers in Mining and Quarrying. Category IV of 1961, viz., Workers at Household Industry have been brought under Category V, viz., workers in manufacturing, servicing, repairing, etc. But the two will now be distinguished as Category V(a)—Workers at Household Industry and Category V(b)—

Workers in manufacturing, etc., other than Household Industry. There is no other change in the broad industrial categories of workers and non-workers excepting that "business services" as also tea-stalls and restaurants which were included in Category IX at the 1961 Census will now be included in Category VII, viz., Workers in Trade and Commerce.

19.4 There has been a change in the definition of 'worker' as adopted in 1971 Census from that of 1961 Census. This has been explained in Fly Leaf to Primary Census Abstract.

19.5 The Tables presented in this Report go down to the level of the Police Station as the lowest unit for rural areas and the Town in urban areas. Detailed basic statistics including the Primary Census Abstract up to these stages should be adequate to satisfy the needs of planners and administrators as well as general research workers. Those in need of village-wise statistics have to await the publication of Village Primary Census Abstract in District Census Handbook—Part-B which comes under Part X of the publication programme. Efforts are being made to publish all the District Census Handbooks in 1973.

Acknowledgment

20.1 I wish to place on record my grateful thanks and appreciation of the immense pains and care taken by the Statistical Assistant Shri D. N. Dutta and his team of competent workers in preparing the Tables and Statements presented in this volume. Shri S. K. Swain, Investigator and Shri N. Mohanty, Tabulation Officer showed their wonted energy and meticulousness in checking and rechecking the figures for accuracy. The credit for the overall supervision and prompt execution goes to Shri P. C. Roy, Deputy Director.

20.2 I am particularly indebted to Shri K. K. Chakravorty, Central Tabulation Officer and Shri S. C. Srivastava, A. C. T. O. and their staff in the Registrar General's office for the most meticulous scrutiny of our figures and valuable suggestions for improving the manner of presentation of the data.

20.3 My thanks are due to Shri S. P. Mishra, Superintendent, Orissa Government Press and his colleagues for the interest taken in bringing out this publication. In my office Shri N. Tripathy, Tabulation Officer was of great help in supervising the printing.

B. Tripathi

TABLE A-I

AREA, HOUSES AND POPULATION

TABLE A-I—AREA, HOUSES AND POPULATION

FLY LEAF

1.1 The data for this table are presented in two separate forms. One is Union Table A-I and the other State Table A-I. In the former, figures in respect of the State and each district of the State find place while in the State Table the figures are presented separately for Subdivisions, Tahsils, Police Stations, Cities and Towns. Area is presented only in Square Kilometres. Besides the number of inhabited and uninhabited villages, number of cities and towns, total number of occupied residential houses and households and population by sex are shown. The figures for each territorial unit invariably indicate the total and rural/urban components.

1.2 The report includes for the first time the Tahsil (a synonym for Taluk) as a territorial unit for the presentation of data. In doing so, in a few cases, the jurisdiction of a Police Station has been split where the Tahsil boundary is not coterminous with the Police Station boundary.

A brief Historical Account of successive changes in the area of the State :

2.1 At the turn of the century, Orissa represented merely a Division of the Bengal Presidency and comprised four districts, viz., Cuttack, Puri, Balasore and Angul-*cum*-Khondmals. Besides, there were 17 Feudatory States within its jurisdiction. The year 1905 saw the addition to Orissa of Sambalpur district and two Feudatory States of Chhotnagpur, viz., Gangpur and Bonai and five Feudatory States from Central Provinces, viz., Patna, Kalahandi, Sonepur, Bamra and Rairakhol. By the time the 1911 Census was taken up, the Orissa Division had 5 districts and 24 Feudatory States. Immediately thereafter, i. e., in 1912, the Bihar and Orissa Province was formed after the separation of their jurisdiction from the Bengal Presidency. The composite Province of Orissa and Bihar continued till 1936, when Orissa assumed the status of a separate Province. It had six districts, viz., Cuttack, Puri, Balasore, Sambalpur, Ganjam and Koraput. The old district of Angul-Khondmals was split and merged in Cuttack and Ganjam respectively. The Ganjam district of Orissa constituted a portion of the pre-existing Ganjam district of Madras Presidency, viz., Ganjam Agency and a large area of the Ganjam Plains excluding Chicacole, Ichhapur, Sompeta and Tekkali. The area of Orissa Province as in 1936 was 32,198 Sq. miles. A large portion of Vizagapatam Agency constituted the Koraput district. Sambalpur district gained the Khariar zamindari and a portion of Borasambar zamindari of the Central Provinces which became the Nawapara Subdivision.

2.2 No territorial changes in the constitution of the State or districts took place for over ten years. In the years 1948 and 1949, all the princely States of Orissa merged with the rest of Orissa. This administrative change was legalised on the 1st August 1949, when the 24 ex-States were formally merged with the Province under the States Merger (Governor's Provinces) Order, 1949, increasing the area of the State to what it is now. The ex-States which thus merged are Athgarh, Tigiria, Baramba, Narsingpur, Nilgiri, Nayagarh, Daspalla, Khandpara, Ranpur, Bamra, Rairakhol, Dhenkanal, Talcher, Pallahara, Athmallik, Hindol, Keonjhar, Baudh, Patna, Sonepur, Gangpur, Bonai, Kalahandi and Mayurbhanj.

2.3 The ex-States of Athgarh, Tigiria, Baramba and Narsingpur were joined with Cuttack district ; Nilgiri with Balasore district ; Nayagarh, Daspalla, Khandpara and Ranpur with Puri district and Bamra and Rairakhol with Sambalpur district. The Angul Subdivision of Cuttack district was separated from that district. This subdivision and the Feudatory States of Dhenkanal, Talcher, Pallahara, Athmallik and Hindol were constituted into one district

namely, Dhenkanal. The Khondmals and Baliguda agency areas of Ganjam district were taken out and together with the ex-State of Baudh formed the district of Baudh-Khondmals. The Nawapara Subdivision was separated from Sambalpur district and was put together with the ex-State of Kalahandi to form another district named Kalahandi. The two ex-States of Keonjhar and Mayurbhanj formed each a separate district with their names as such. The ex-States of Sonepur and Patna were formed into one district, namely, Bolangir, while the ex-States of Gangpur and Bonai together formed the present Sundargarh district. Thus, 13 districts had been formed after the merger of the ex-princely States by the time 1951 Census was taken. No changes had taken place in the State or district boundary during the decade 1951—61. There was some slight change in the boundaries of the districts between 1961 and 1971. These will be briefly discussed in para 9.3—9.15.

Area Figures

3.1 For the 1971 Census, a revised procedure has been adopted for the presentation of area figures. The Central Statistical Organisation provided the area figures up to district level after obtaining the same from the Surveyor General of India. The Director of Land Records and Surveys of the States and local Revenue authorities supplied the figures for units below the district level, viz., Subdivisions, Tahsils, Police Stations and Towns. There is a slight discrepancy between the total area of a district provided by the Surveyor General and the sum-total of the area of the constituents of the district supplied by local authorities, a feature that has been noticed in the previous Census too. The area figures for the State and districts show the 'Total' as well as for the 'Rural' and 'Urban' components. While the total area for the district as stated above represents the figures supplied by the Surveyor General of India, so far as urban areas are concerned, the figures supplied by the local Revenue authorities have been adopted. Area for the rural component of the district has been arrived at by subtracting the urban area of the district from the total area thereof. For the smaller units, viz., Subdivision, Tahsil and Police Station, the area figures supplied by the local Revenue authorities have been adopted.

3.2 Within the last decade, the area of five districts, viz., Dhenkanal, Cuttack, Puri, Kalahandi and Koraput underwent a change owing to inter-district adjustments. In case of a few other districts there has been a minor variation in the areas as a result of revised computation. The change in the area in the State from 1901 to 1971 in Sq. Kms is shown below :

Changes in area of the State from 1901 to 1971 (in Sq. Kms.)

Year		Area in Sq. Kms. of Orissa proper	Area in Sq. Kms. of Feudatory States	Total (Sq. Kms.)
1901	..	25,488·19	37,262·33	62,750·52
1911	..	35,594·37	72,639·14	108,233·51
1921	..	35,576·24	72,639·14	108,215·38
1931	..	35,498·54	72,639·14	108,137·68
1941	..	83,392·82	65,252·46	148,645·28
1951	..	155,752·24	..	155,752·24
1961	..	155,824·76	..	155,824·76
1971	..	155,842·00	..	155,842·00

Though there has been no change in the boundaries of the State between 1961 and 1971, the revised computation in the area of some districts has resulted in a marginal increase of 17 square kilometres.

3.3 The following statement shows the area of districts from decade to decade since the formation of the Orissa State :

Area of Districts from 1941 to 1971

Sl. No.	State/District	Area 1941 in Sq. Kms.	Area 1951 in Sq. Kms.	Area 1961 in Sq. Kms. (Surveyor General)	Area 1971 in Sq. Kms. (Surveyor General)
1	2	3	4	5	6
1	**Orissa** ..	**83,393**	**155,729**	**155,825**	**155,842**
2	Sambalpur ..	14,035	17,521	17,516	17,570

N. B.– (*a*) The area figures for 1941 and 1951 have been converted into Sq. Kms.

(*b*) Area figures for seven districts marked with an (*) asterisk in 1941 are not available as those were not in existence.

(*c*) The area figures for 1961 and 1971 have been supplied by the Surveyor General, India, while those for 1941 and 1951 were supplied by local Revenue authorities.

4.1 In column 4 of Table A-I, density of population for the district as well as for lower units has been worked out on the area figures shown in column 3 of the Table. But in case of Urban area of State/District/Subdivision/ Tahsil/P. S., the density figures per Sq. Km. are worked out using the area figures corrected up to two places of decimals, obtained by adding the area of individual towns in the respective unit, and not using the area figures given in the Table. Columns 5 to 7 show the number of inhabited villages, uninhabited villages and towns respectively. The concepts of village and town are explained below.

4.2 A village means a revenue village (mouza) or unsurveyed mouza other than that which comes within the area of a town or a city. It may contain one or many groups of houses or hamlets or may not contain any houses at all.

4.3 A town is a continuous group of houses usually inhabited by not less than 5,000 persons, which having regard to the character of the population, the density of population of at least 1,000 per Sq. mile, the importance of the place as a centre of trade, administration and human association, the Census authorities decided to treat as a town for Census purposes. An important consideration is that at least 75 per cent of its male working population should be pursuing non-agricultural professions as means of livelihood. All places with a Municipality or Notified Area Council were also treated as towns.

4.4 In the present Census, villages adjoining a town or contiguous towns and showing positive urban characteristics have been tagged with the principal town(s) and data presented for the entire 'Urban Agglomeration' to facilitate study of nascent urban characteristics. Readers are referred to the Fly Leaf to Table A-IV for a definition of 'Urban Agglomeration'.

5.1 In the Report for 1961, only occupied residential houses were presented in the Table. The number of households in each unit presented in this Report vide column 9 is an additional feature that should prove useful.

5.2 *An Occupied Residential House* is a Census house which is partly or wholly used for the purpose of residence at the time of Census enumeration.

5.3 *A Household* is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so.

5.4 *A Census house* is a building or a part of a building having a separate main entrance from the road or common courtyard or staircase, etc., used or recognised as a separate unit. It may be inhabited or vacant. It may be used for a residential or non-residential purpose or both.

Towns and Cities

6.1 The pace of urbanisation in this State has not been too good. In 1951, there were only 39 towns in Orissa. In 1961, the number grew to 62—an increase of 23 towns. Two places, viz., Machkund (Koraput district) and Soro (Balasore district) were declassified and Rourkela was split into two towns. These together with an addition of 20 new towns made a total of 81 towns for 1971 Census. The growth rate of Cities has been somewhat more impressive. To the lone Cuttack City in 1961 have been added three more in 1971. The Sambalpur urban agglomeration is treated as a City for the purpose of Census study.

6.2 The two statements given below show districtwise the number of towns added in 1971 Census and the number of towns each district has been having since 1901.

Number of Towns added in 1971 Census

Name of the District	Number of new Towns added in 1971	Names of new Towns	Total Population in 1971 Census
1	2	3	4
Sambalpur ...	4	1. Barpali ..	9,017
		2. Padampur ..	7,349
		3. Kuchinda ..	6,858
		4. Govindpur ..	5,173
Sundargarh ..	1	1. Rourkela Civil Township ..	47,076

Ganjam ..	15	10	6	6	4	4	4	2
Puri ..	5	5	3	1	1	1	1	1

Villages

7.1 The term 'village' has already been explained above. In areas where Survey and Settlement has been completed, the Census village is a 'mouza' having fixed boundaries clearly demarcated. In unsurveyed areas, a village is taken to be the area that is generally occupied by a group of houses paying Government revenue as a unit. A village is understood to mean not merely the site of residence of the inhabitants, but the entire area including hills, nullahs, cultivable lands and village forests, but excluding Reserve Forests. An inhabited village is one in which human beings reside while an uninhabited village is one which did not have any residential population on the reference date.

Number of inhabited Villages—1901 to 1971

State /District	1971	1961	1951	1941	1931	1921	1911	1901
1	2	3	4	5	6	7	8	9
Orissa ..	**46,992**	**46,466**	**48,398**	**45,387**	..	..	..	..
Sambalpur ..	3,390	3,393	3,426	3,358	..	..	..	..
Sundargarh ..	1,621	1,588	1,631	1,638	..	..	..	..
Keonjhar ..	2,009	1,973	1,982	1,993	..	..	..	..
Mayurbhanj ..	3,712	3,671	3,655	3,677	..	..	..	..
Balasore ..	3,812	3,823	3,833	3,716	..	..	..	..
Cuttack ..	6,027	5,883	6,248	5,842	..	..	..	..
Dhenkanal ..	2,606	2,512	2,526	2,457	..	..	..	..
Baudh-Khondmals ..	4,397	4,471	4,307	3,850	..	..	..	..
Bolangir ..	2,523	2,524	2,524	2,457	..	..	..	..
Kalahandi ..	2,653	2,902	2,939	2,885	..	..	..	..
Koraput ..	5,683	5,579	5,746	5,181	..	..	..	..
Ganjam ..	4,223	3,773	4,513	3,928	..	..	..	..
Puri ..	4,336	4,374	5,068	4,405	..	..	..	..

7.2 The statement above shows that the number of inhabited villages was the largest in 1951. The main reason appears to be that till 1951, some hamlets, which were actually parts of larger villages, were shown as independent villages, specially in the districts of Cuttack, Puri and Ganjam.

7.3 The decline in the number of villages in the hilly district of Kalahandi over the past three decades could be due to the frequent evacuation of villages on account of the depredations of wild animals and recurrence of drought conditions. Decrease in the number of villages in the Sambalpur and Balasore districts is nominal and does not need any comment.

7.4 A Districtwise statement of villages and towns in 1971 is given below :

Districtwise statement of Villages and Towns in 1971

State /District	Total No. of villages borne on the Village List	No. of uninhabited villages	Number of villages included in towns		Number of inhabited villages	Number of Towns
			Fully	Partly		
1	2	3	4	5	6	7

Dhenkanal	7	7	6	6	6	6	977	986	797	100·00	96·00	4·00	120	115	1,212
Baudh-Khondmals	5	5	5	5	5	5	1,004	1,009	865	100·00	96·85	3·15	56	55	535
Bolangir	6	6	6	5	5	5	993	999	923	100·00	93·14	6·86	142	134	862
Kalahandi	5	5	6	5	5	5	1,010	1,014	939	100·00	95·14	4·86	98	94	710
Koraput	5	5	5	5	5	4	980	985	931	100·00	91·81	8·19	76	70	566
Ganjam	5	5	5	5	5	5	1,042	1,054	955	100·00	88·67	11·33	183	164	2,015
Puri	7	7	6	6	6	5	977	1,000	788	100·00	90·21	9·79	230	211	1,653

8.2 The figures show that the size of each occupied residential census house varies between 5 to 7 in the rural areas and between 5 and 6 in the urban areas. A household, be it in the rural or urban area, has between 4 to 6 members.

8.3 The sex ratio, viz., the number of females per 1,000 males has decreased further in the present Census. The districts of Ganjam, Kalahandi and Baudh-Khondmals show a sex ratio above par while the district of Sundargarh has the lowest sex ratio at 942 females per 1,000 males.

8.4 The process of urbanisation in this State is rather slow. While the proportion of urban population to the total population was 6·32 per cent in 1961, it stands at 8·41 per cent in 1971. The largest proportion of urban population is in the district of Sundargarh at 23·25 per cent. Sambalpur and Ganjam districts are a distant second and third with 12·02 per cent and 11·33 per cent respectively. Mayurbhanj district has the lowest percentage of urban population (2·79 per cent) closely followed by Baudh-Khondmals (3·15 per cent). Dhenkanal and Kalahandi districts also show a proportion of less than 5 per cent of urban population.

8.5 Density of population at 341 is the highest in Cuttack district and lowest in Baudh-Khondmals at 56. The district of Koraput is also very sparsely populated with a density of only 76.

APPENDICES

9.1 **Apppendix I** shows the changes in jurisdiction of State, Districts, Subdivisions and Police Stations since the last Census. Although no changes have taken place in the State boundary, the jurisdiction of a few lower administrative units has undergone change and the particulars thereof are shown in this Appendix. A brief account of the changes in jurisdiction of different administrative units is given below.

Changes in the jurisdiction of the Districts and lower Administrative Units

9.2 For convenience of administration, some changes were effected among the district and police station boundaries. These are briefly explained below districtwise.

9.3 *Sambalpur district*—The Riamal police station which fell within two subdivisions, viz., Kuchinda and Deogarh in 1961, now comes under Deogarh Subdivision. The Gourpali P. S. in this district was renamed as Jamankira P. S., the jurisdiction remaining the same.

9.4 A new subdivision, namely, Padampur was formed with 7 police stations of Bargarh Subdivision.

9.5 *Sundargarh district*—A new police station, namely, Kalunga was created in Panposh Subdivision comprising 58 villages lying to the west of the river Brahmani in Raghunathpali Police Station of the same Subdivision. Five villages of Bisra Police Station were transferred to Plant Site Police Station (2parts of Rourkela City). The Sarsara Balang P. S. in this district was renamed as Tikayatpali P. S. the jurisdiction remaining the same.

9.6 *Keonjhar district*—A new police station, namely, Joda was created with 98 villages of defunct Chamakpur P. S. and 3 villages of Barbil P.S. The rest 38 villages of the defunct Chamakpur P. S. were merged in Champua P.S.

9.7 *Cuttack district*—After 1961 Census, two more subdivisions, namely, Jagatsinghpur and Banki have been carved out of Cuttack Sadar Subdivision .Thus, against 4 subdivisions in this district there are now 6 subdivisions. Besides, there has been a slight change in the district boundary which is briefly indicated below:

(*a*) Two villages, Kabatabandha and Goliamuha Patna were transferred from Gondia P.S. of Dhenkanal district to Dharmasala P.S. of Cuttack district. Till 1961 those two villages were shown under Gondia P.S. of Dhenkanal district though they were in fact enclaves within Dharmasala P.S. of Jajpur Subdivision.

(*b*) A portion of Gania P.S. of Puri district, viz., the *Jorum Pragana* (consisting of 35 villages) situated at the northern bank of the river Mahanadi was included in Narsingpur P. S. Again 31 villages of Kakatpur P.S. of Puri district were transferred to Balikuda P.S. of Cuttack district.

(c) 28 villages of Sadar P.S. of Cuttack district were transferred to Capital P. S. (Bhubaneswar) of Puri district.

9.8 Over and above the boundary changes, some adjustments were made in the boundaries of some police stations. 9 villages of Jagatsinghpur P.S. were put under Gobindpur P.S. and in exchange 77 villages of Gobindpur P.S. were transferred to Jagatsinghpur P.S.

9.9 *Dhenkanal district*—For convenience of administration, villages Kabatabandha and Goliamuha Patna of Gondia P. S. were transferred to Dharmasala P. S. of Cuttack district. Two villages, viz., Nuagan and Kadola of Angul P. S. were transferred to Balimi P. S. in Hindol subdivision and one village, viz., Hitinda of Dhenkanal P.S. was placed under Rasol P. S. in Hindol subdivision.

9.10 *Baudh-Khondmals district*—The Daringibadi P. S. area was split into two comprising two police stations. viz., Daringibadi and Bamunigam. The latter was constituted with 116 villages of Daringibadi P. S.

9.11 *Bolangir district*—There was an adjustment in the jurisdiction between the Kantabanji and Turekela Police stations and the creation of the new Police station Bangomunda in place of Turekela. 91 villages out of the Kantabanji P. S. were formed into a separate police station known as Bangomunda. The rest of the villages of the pre-existing Kantabanji P. S. together with the entire area of Turekela P. S. were brought under one P. S. which was named Kantabanji.

9.12 *Kalahandi district*—Kashipur P. S. of Sadar Subdivision was placed under the Rayagada Subdivision of Koraput district for administrative reasons.

9.13 *Koraput district*—Out of the former Nowrangapur Subdivision were carved three subdivisions, viz, Nowrangapur, Jeypore and Malkangiri. Rayagada Subdivision was split into the Rayagada and Gunupur subdivisions. Three new police stations were formed, viz., Mudulipara P. S. from Mathili P. S., Raighar P. S. from Umarkot P. S. and Chitrakonda P. S. from Malkangiri P. S. The Kashipur P. S. of Kalahandi district was brought under Rayagada Subdivision.

9.14 *Ganjam district*—48 villages of Mohana P. S. were transferred to Bodogodo P. S.

9.15 *Puri district*—Some portions of this district were transferred to Cuttack district. Details have been mentioned against Cuttack district.

9.16 The jurisdiction of Mayurbhanj and Balasore districts remained unchanged.

9.17 A statement showing number of subdivisions, tahsils and police stations in each district as per jurisdiction of 1971, is given below.

State/District		No. of Subdivisions	No. of Tahsils	No. of Police Stations
1		2	3	4
ORISSA	..	56	103	301
Sambalpur	..	6	7	36
Sundargarh	..	3	5	19
Keonjhar	..	3	5	14
Mayurbhanj	..	4	5	21
Balasore	..	3	8	22
Cuttack	..	6	18	31
Dhenkanal	..	7	7	23
Baudh-Khondmals	..	3	4	14
Bolangir	..	4	5	17
Kalahandi	..	3	5	16
Koraput	..	6	13	38
Ganjam	..	4	10	21
Puri	..	4	11	29

9.18 Besides the above, there are 8 Town police stations situated in Rourkela, Cuttack, Sunabeda, Berhampur and Puri. These are :

Cuttack City	..	Lalbag P.S. Mangalabag P.S.
Rourkela City	..	Rourkela P.S. Plant Site P.S. Tangarpali P.S.
Berhampur City	..	Berhampur Town P.S.
Sunabeda Town	..	Sunabeda P.S.
Puri Town	..	Puri Town P.S.

9·19 **Sub-Appendix**—This sub-appendix gives a list of towns showing changes in area figures from those of 1961 due to jurisdictional change together with the population of the transferred territory, viz., area that has either been included in or excluded from the town. The area figures for each town for 1961 and 1971 are given under columns 2 and 3. The population figures of the transferred territory—for 1961 and 1971 are given under columns 4 and 5. Where separate population figures for 1961 and 1971 for the transferred area were not available, N. A. has been noted.

10.1 **Appendix II**—It has been mentioned before that one of the characteristics of a town is that it should have a population of 5,000 at the minimum. Nevertheless, owing to the absence of other pronounced urban characteristics there are some villages with population exceeding 5,000 each which have not qualified themselves to be designated as towns. The number of such villages is 24. Conversely, there were places with a population less than 5,000 that could claim to be treated as towns on account of certain distinct urban characteristics they possessed. Gudari (Koraput district) and Gopalpur-on-sea (Ganjam district) are two such places in the State. Though these towns have not been mentioned in the appendix, their population figures have been shown against their respective Police stations, namely, Gudari P. S. and Berhampur Taluk P. S.

10.2 Gudari is an important commercial centre of Gunupur subdivision having a police station, some important Government Offices and a High School. It has, therefore, been specially treated as a Census Town.

10.3 Gopalpur-on-sea is not only a minor port but is also an important health resort attracting a number of tourists, both Indian and foreign. It has some good hotels including the 'Oberri Palm Beach', a Five Star Hotel. The people are predominantly non-agricultural. Therefore, it is treated as a Census Town.

11.1 **Appendix III**—This Appendix broadly gives the houseless population and institutional population in terms of Total, Rural and Urban. It also gives the sexwise break-up. An added feature in this Table is the number of households—an item which was not available in the 1961 Census.

11.2 A houseless person is one who did not have his normal residence in any particular house. Nomads, wandering tribes, pavement dwellers and other such persons are included among this category of persons.

11.3 Institutional population means and includes groups of unrelated persons living in institutions, such as hostels, boarding houses, hotels, messes, hospitals, police barracks or any penal, charitable or mental institutions.

11.4 An important aspect of the House List schedule was to determine the manner in which every house in the State was put to use. The data of the Houselist which, among other things, give details of the use of residential and non-residential houses have been incorporated in the Table H-I to which interested readers may refer.

11.5 So far as houseless population is concerned, utmost care was taken by the field workers as well as supervising officials to ensure that no houseless person was omitted from the Census count. The enumeration of houseless persons was done specifically on the night of the 31st March, 1971. While it might be presumptuous to claim that all houseless persons were netted, the possible omission, if at all, should be very very marginal.

Disputed Villages

12.1 The jurisdiction over some villages in Pottangi P. S. of Koraput district commonly known as the Kotiya Group of Villages is under dispute between the States of Orissa and Andhra Pradesh and the matter is pending decision by the Supreme Court. As the final verdict of the Court was not yet given by the time the Census enumeration of 1971 was started, Census enumeration in 1971 was done through the Census agencies of both the States in pursuance of the instructions of the Registrar General and Census Commissioner, India.

12.2 Since at the time of compiling this volume the dispute has not yet come to a settlement, the population of the Villages as recorded by the Census agencies of Orissa and Andhra Pradesh have been included in the populations of Orissa and Andhra Prpdesh respectively at the Police Station, Tahsil, District, and State levels.

12.3 Names of these villages, their location code numbers and population of each as revealed by the enumeration in 1971 Census made by the Director of Census Operations, Orissa are shown in the following statement.

Statement showing the names and population of the disputed villages under Kotiya group covered by the 1971 Census Operations of both the States of Orissa and Andhra Pradesh

Sl. No.	Villages covered by the Census authorities of Orissa: Name of village	Location Code No.	Population	Villages covered by the Census authorities of Andhra Pradesh: Name of village	Location Code No.	Population
1	2	3	4	5	6	7
1	Ranasing	41	235	Ranasingi and Simhagedda (Hamlets of village Sariki L. C. No. 41)	..	Included in the population of Sariki (691)
2	Paniki	40	124	Paniki (Hamlet of village Dhulibhadra, L. C. No. 39)	..	Included in the population of Dhulibhadra (765)
3	Tadivalasa	38	60	Tadivalasa (Hamlet of village Kurukutti, L. C. No. 115)	..	Included in the population of Kurukutti (1,573)
4	Dhulipadar	34	74	Dhulibhadra	39	765
5	Ganjeipadar	23	426	Ganjaibhadra	37	240
6	Kotiya	24	341	Kotiya	36	289
7	Uparsembi	29	152	Yeguvasembi	35	170
8	Talasembi	36	70	Diguvasembi	34	110
9	Mohipani	25	34	..	..	..
10	Sidivalasa	32	26	Cheedivalasa (Hamlet of village Ganjaibhadra L. C. No. 37)	..	Included in the population of Ganjaibhadra (240)
11	Madakar	26	196	Mudakaru	219	111
12	Doliamba	35	161	Doliyamba	31	125

14	Phagunsenery	30	290	Pagullachennuru	30	178
15	Patusenery	31	65	Pattuchennur	28	52
16	Baranpadu	33	8	Barnaguda (-m)	32	9
17	Kandora	39	73	Konadara (Hamlet of village Solupuguda L. C. No. 29)	..	Included in the population of Solupuguda (114)
18	Arjuvalasa	37	28	..	..	..
19	Solopguda	36	73	Solupuguda	29	114
20	..	..	..	Myphali	27	20
21	..	..	..	Yeguvamandangi	25	130
22	..	..	..	Panasalavalasa	23	59

Abbreviations :

13. The abbreviations used in the Report are explained below :

T	for	Total
R	for	Rural
U	for	Urban
P.S.	for	Police Station
M	for	Municipality
N.A.C.	for	Notified Area Council
C.T.	for	Census Town
O.G.	for	Out-Growth

* These represent Provisional 'Geographical area' figures supplied by the Surveyor General, India. Figures for Urban areas have been supplied by the local revenue authorities. Area figures for rural areas have been derived by subtracting the urban area from the total area of the district.

† "The density figures per Sq. Km. shown under column 4 for urban area of State/District are worked out using the area figures corrected up to wo places of decimal obtained by adding the area of individual town in the respective unit and not using the area figures given in the table. For total and rural the density is worked out on area figures corrected up to one place of decimal."

(*i*) * These represent Provisional 'Geographical area' figures supplied by the Surveyor General, India. Figures for Urban Areas have been supplied by the local bodies. Area figures for Rural Areas are derived by subtracting the Urban area from the total area of the District. The total of the area figures of the Subdivisions or Tahsils will not tally with that of the District figures, because the former represent 'land use' area and derived from the figures supplied by the local revenue authorities.

(*ii*) † The density figures per Sq. Km shown under Column 4 for Urban area of State/District/Subdivision/Tahsil/P.S are worked out using the area figures corrected upto two places of decimals obtained by adding the area of individual town in respective unit and not using the area figures given in the table. For 'Total' and 'Rural' the density is worked out and area figures corrected upto one place of decimal.

(*iii*) The following abbreviations have been used to denote the Civic Status of Towns :

M=Municipality

N.A.C.=Notified Area Council

O.G.=Out Growth

(*iv*) In Column 2 the abbreviations, used are T=Total, R=Rural and U=Urban. N.A. stands for 'Not Available'.

(*v*) Towns treated as such for the first time in 1961 Census' which continue as towns in 1971 Census are shown with asterisk(*) on their left.

(*vi*) Towns treated as such for the first time in 1971 Census are printed in 'Italics'.

PURI					
Bhubaneswar	.. (N.A.C.)	50·25	65·03	N.A.	N.A.

Note: (*i*). (M) stands for Municipality.
(*ii*). N.A.C.) stands for Notified Area Council.
(*iii*). (C. T.) stands for Census Town
(*iv*). * Includes the area of Rourkela C. T. S. (N. A. C.) also.
(*v*). Separate population figures for 1961 and 1971 are not available for transferred areas as the villages transferred either constitute parts of different mohallas or they have been transferred partly. In such cases N. A. which stands for Not available has been given.

TABLE A-II

DECADAL VARIATION IN POPULATION SINCE 1901

TABLE A-II—DECADAL VARIATION IN POPULATION SINCE 1901

FLY LEAF

1.1 This Table presents the variation of population of Orissa for 70 years, viz., from 1901 to 1971. These data should prove valuable to students of population growth who will have within easy reach the variation figures in the population of the State as well as of the district decadewise till 1971. The absence of any reliable figures on vital statistics in the State lends additional value to this Table. While giving the population variation for each decade in absolute figures the Table also presents the percentage variation.

1.2 A historical account of the changes of the area of the State has been briefly given in the Fly Leaf to Table A-I. It would appear therefrom that Orissa as it stands in 1971 is radically different from what it was in 1901 or 1921 or for that matter in 1941. In order to ensure comparability of the figures over these 70 years, certain adjustments in the population from decade to decade become necessary. For example, the population of Orissa in 1901 was 6,290,952 the count being limited to the area of the Orissa Division of Bengal Presidency in 1901. If we want to calculate the growth of population of 1971 over that of 1901, the assumption is made that the area of Orissa as it stands in 1971 existed in 1901 and then the population in 1901 estimated. The same principle is applied in the calculation of the population figures for the State and the districts for the other decades, viz., 1911, 1921, 1931, 1941, 1951 and 1961. The growth rate for each decade is then measured. The actual population figures for the transferred areas for 1961 and 1951 are available villagewise from the concerned District census handbook. But such figures for the censuses prior to 1951 have not been published by the concerned Superintendents of Census Operations. Hence, the need to estimate the population figures for transferred areas from 1941 to 1901.. The instructions of the Census Commissioner and Registrar General, issued in this connection are quoted below in extenso.

2. In Table A-II it is proposed to give figures for seven censuses, that is 1901 to 1961. The 1951 Census figures can be actually worked out with the help of District Census Handbooks and Primary Census Abstracts given therein. In the case of previous censuses the Superintendents should try to work out the figures with the aid of the State Census Tables or the village statistics that might have been published for the earlier censuses. If, however, they find that the actual figures cannot be worked out with the help of censuses or other publications, the population of transferred areas for censuses prior to 1951 should be estimated in the following manner :

The population of an area transferred for any particular Census prior to 1951 should be estimated on the assumption that the proportion of the population in the area transferred to the total population of the district (taluk etc.) in which it was situated at the time of the transfer was the same in the particular previous Census, as it was in 1951.

Distribution by sex of the population so estimated for a previous Census should be worked out on the basis of the male/female distribution of population in that particular previous Census of the district (taluk, etc.) in which it was situated at the time of the transfer. These estimates should be communicated to the Superintendents of Census Operations of the neighbouring States from or to which the territories have been transferred so that they may tally with the estimates worked out by them independently. This step is essential in order to ensure complete correspondence between the totals both at district and State levels.

It is assumed that necessary adjustments were made in the Census Table of 1951 for all transfers of area prior to the date of that Census If, however, any omission comes to the notice of the State Census Superintendents, necessary adjustments should be made now.

In all cases where alterations are made in the previous census populations, complete details of changes of area and the population involved, should be incorporated in the Introductory Note to Table A-II. It should be kept in mind that the sum total of all deductions made from the population of States as well as districts which have been reduced in area will be equal to the sum total of additions made to the population of the States and districts which have been increased.

These transfers will affect a good many of the subsidiary tables in the body of the reports on the last Census. This should be borne in mind wherever it is proposed to utilise the figures in those tables. Such tables should, in any case, be tested before being used".

3. The afore-mentioned instructions have been strictly followed in estimating the population for the transferred areas. The method adopted in making such estimation for the five districts which had a change in their respective boundaries between 1961 and 1971 is fully set out in Annexure VI. The working sheet of calculation for these five districts is shown below:

Working sheet of estimation of Population figures

5. On the basis of the altered figures of the population for the 'past six decades in the light of the change in area in 1971, the population by male and female have been presented in Cols. 6 and 7 of Table A-II. The resultant sex ratio for each decade is given in the following statement for the State and districts for all the seven decades by Total, Rural and Urban.

Statement showing the changes in sex ratio (Females per 1,000 males) by total, rural and urban from 1901 to 1971

State/District	Total Rutal Urban	1901	1911	1921	1931	1941	1951	1961	1971

* (i) Two villages of Gondia Police Station of Dhenkanal District, namely, (i) Kabat Bandh (ii) Golamuha Patna having a total population of 2,382 as per 1961 Census and area of 1·35 Sq. Kms were transferred to Dharamsala Police Station of Cuttack District vide Government of Orissa in Revenue Department Notification No. 35229-II-J-19/64-R.

(ii) In accordance with the Government of Orissa in Revenue Department Notification No 63013-R., dated 6-11-67, 35 villages of Jorum Pragana of Gania P. S of Puri District having population of 10,411 as per 1951 Census and area of 107·23 Sq. Kms were transferred to Narsingpur P. S of Cuttack District.

(iii) In accordance with the Government of Orissa in Revenue Department Notification No. 67200-II-J-34/59-R, dated 18-11-59, 31 villages of Kakatpur Police Station of Puri District having a total population of 12,154 as per 1951 Census and area of 91·40 Sq. Kms were transferred to Balikuda P. S of Cuttack District.

(iv) In accordance with the Government of Orissa in Revenue Department Notification No. 61300-R., dated 30-9-1959, 28 Villages of Sadar Police Station of Cuttack District having a total population of 22,195 as per 1951 Census and area of 75·37 Sq. Kms were transferred to Capital P. S of Puri District.

*† The details of changes of jurisdiction have been stated at * (ii), (iii) & (iv)

† The details of changes of jurisdiction have been stated at * (i)

†† In accordance with the Government of Orissa in Revenue Department Notification No. II-J-7/62-32259-R., dated 11-7-1962 the Kashipur Police Station of Kalahandi District having population of 62,780 as per 1961 Census and area of 1,502·20 Sq. Kms was transferred to Koraput District.

** The details of change of Jurisdiction has been stated at ††

TABLE A-III

VILLAGES CLASSIFIED BY POPULATION

TABLE A-III—VILLAGES CLASSIFIED BY POPULATION

FLY LEAF

1.1 This Table gives the number of villages and rural population in seven population ranges, viz., less than 200, 200—499, 500—999, 1,000—1,999, 2,000—4,999, 5,000—9,999 and 10,000 and above. These data are presented in two Tables. The first gives the figures for the State and Districts while the second contains similar figures for the Districts, Subdivisions, Tahsils and Police Stations.

1.2 In 1961 Census, there was no village in the highest range, viz., with a population of 10,000 and above. Hence, this column was omitted from the main Table. But, the 1971 Census has revealed that there are two such villages, namely, Chitrakonda having population of 13,283 and Balimelanagar having population of 10,695, both in Chitrakonda Police station of Koraput district. Chitrakonda is a new village which has sprung up recently. The village Balimela otherwise known as Orkel existed in 1961 but had a population as low as 90. These two villages have had an accretion of population on account of the Balimela Project which is under construction.

2·1 Statement below shows the percentage of population living in villages in different population ranges with reference to the total rural population in each district according to the present Census.

Percentage of population living in villages in different population ranges to the total rural population

State/District	Percentage of population living in villages with population						
	Less than 200	200 to 499	500 to 999	1,000 to 1,999	2,000 to 4,999	5,000 to 9,999	10,000 and above
1	2	3	4	5	6	7	8
Orissa ..	8·89	24 89	30·61	23·69	11·12	0·68	0·12
Sambalpur ..	7·28	22·50	30·77	25·91	12·82	0·72	..
Sundargarh ..	6·51	27·34	33·50	22·10	9·64	0·91	..
Keonjhar ..	7·35	31·94	34·99	18·85	5·39	1·48	..
Mayurbhanj ..	10·07	36·78	35·30	14·13	3·72	..	..
Balasore ..	8·02	25·51	30·40	23·87	11·16	1·04	..
Cuttack ..	4·47	20·07	31·12	30·76	13·39	0·19	..
Dhenkanal ..	7·97	21·04	25·96	26·68	17·76	0·59	..
Baudh-Khondmals ..	43·38	36·93	13·57	4·05	2·07	..	..
Bolangir ..	6·16	30·91	36·59	21·34	5·00	..	..
Kalahandi ..	8·73	22·15	34·82	25·80	8·50	..	..
Koraput ..	14·70	29·31	30·23	18·55	5·61	0·32	1·28
Ganjam ..	8·32	14·97	25·13	29·66	20·67	1·25	..
Puri ..	6·68	25·02	31·49	21·85	12·99	1·97	..

2.2 It may be noticed that the largest percentage of rural population, is confined to villages in the second, third and fourth ranges. Even among these ranges, the third range villages, viz., those with a population of 500—999 each generally claim the highest percentage of population for any single range. The people of Baudh-Khondmals district, however, predominantly live in villages of the smallest size. A sizeable population of Cuttack (30·76 per cent) and Ganjam (29·66 per cent) districts live in large villages of the fourth range (1,000—1,999).

3.1 In the following statement, (a) the proportion of different sizes of villages to the total number of villages and (b) the population of such villages to the total rural population, (in percentages) in 1971 and in 1961 is shown for the State as well as for the districts.

Percentage of villages by size to the total number of villages and percentage of population living in villages of different sizes to the total rural population in 1961 and 1971

State/District		Less than 500		500—999		1,000—1,999		2,000—4,999		5,000—9,999		10,000 and above

3.2 A comparative study of the above statement shows that the proportion of the small villages (with a population less than 500) stands the highest at 71·86 per cent of the total villages. Villages of the category accommodated 33·78 per cent of the total rural population of the State. These figures, though significant, have registered a fall when compared to the 1961 figures (77·80 per cent and 41·66 per cent respectively). Another notable feature is that this fall is consistently reflected in every district. Correspondingly an increase in the percentage of medium and large-sized villages is noticed. This phenomenon points to the steady progress made by the rural areas.

Appendix to Table A-III

4. While Table A-III gives a detailed break-up in 7 groups of the size of villages according to population, the Appendix to Table A-III presents a broader division of the villages under 4 groups.

TABLE A-IV

TOWNS AND URBAN AGGLOMERATIONS CLASSIFIED BY POPULATION IN 1971 WITH VARIATION SINCE 1901

TABLE A-IV—TOWNS AND URBAN AGGLOMERATIONS CLASSIFIED BY POPULATION IN 1971 WITH VARIATION SINCE 1901

FLY LEAF

A new feature of 1971 Census is the concept of 'Urban Agglomeration'. In several areas around a core city or statutory town have come up fairly large well recognised Railway colonies, University campuses, Port areas, Military camps, etc., and even though outside the statutory limits of a Corporation, Municipality or Cantonment, they fall within the revenue boundary of the place by which the town itself is known. It may not be altogether realistic to treat such areas lying outside the statutory limits of a town as rural units, and at the same time each such individual area by itself may not satisfy the minimum population limits to qualify as an independent urban unit. Sometimes, even if these constituent units qualify to be recognised as towns in their own merits, if they are cut away from the main town to which they are agglomerated the demographic and socio-economic characteristics of the agglomerated urban area may be lost.

There are different situations in which Urban Agglomerations would be constituted, for example,

(*i*) A city with continuous outgrowth,

(*ii*) One town with similar outgrowth or two or more adjoining towns with their outgrowths as in (*i*), and

(*iii*) A city and one or more adjoining towns with their outgrowths all of which formed a continuous spread.

The area comprising an urban agglomeration might change from Census to Census owing to a possible change in the boundaries of the statutory main town as well as the extent of the other urban outgrowths. The concept of Standard Urban Area (please see Fly Leaf to Table A-V) will take care of such changes.

The Table also provides a study of the growth of the various classes (I—VI) of towns and urban agglomerations from one Census to another from 1901.

2. The towns and urban agglomerations have been classified by the different sizes of population ranges as follows:

Class		Range of population
I	..	100,000 and above
II	..	50,000—99,999
III	..	20,000—49,999
IV	..	10,000—19,999
V	..	5,000—9,999
VI	..	Below 5,000

3. The following statement shows cities and towns with their agglomerations together with their respective pulation figures as per 1971 Census.

Statement showing Cities and Towns with their Agglomerations and Population

District	Name of city or town with agglomerated areas	Population
1	2	3
Sambalpur	.. Sambalpur Urban Agglomeration ..	105,085
	(*a*) Sambalpur Municipality, University campus and other areas ..	74,458
	(*i*) Sambalpur Municipality ..	64,675
	(*ii*) University Campus and other areas (Outgrowth) ..	9,783
	(*b*) Hirakud N. A. C. ..	15,040
	(*c*) Burla N. A. C. ..	15,587
Sundargarh	.. Rourkela Urban Agglomeration ..	172,502
	(*a*) Rourkela Steel Township N. A. C. ..	125,426
	(*b*) Rourkela Civil Township N. A. C. ..	47,076
Cuttack	.. Cuttack Urban Agglomeration ..	205,759
	(*i*) Cuttack City Municipality ..	194,068
	(*ii*) Cuttack Industrial Estate (Outgrowth) ..	7,173
	(*iii*) Cuttack C. R. R. I. and other Government Colonies (Outgrowth) ..	4,518
Baudh-Khondmals	.. Phulbani Urban Agglomeration ..	10,677
	(*i*) Phulbani N. A. C. ..	10,511
	(*ii*) Reserve Police Colony and College area (Outgrowth) ..	166
Bolangir	.. Titlagarh Urban Agglomeration ..	15,840
	(*i*) Titlagarh N. A. C. ..	14,504
	(*ii*) D. A. V. College area (Outgrowth) ..	1,336
Kalahandi	.. Bhawanipatna Urban Agglomeration ..	23,264
	(*i*) Bhawanipatna Municipality ..	22,808
	(*ii*) Irrigation Colony, College and I. T. I. area (Outgrowth) ..	456
Cuttack	.. Jajpur Road Urban Agglomeration ..	13,846
	(*i*) Jajpur Road N. A. C. ..	10,805
	(*ii*) Dhubalgiri area (Ferrochrome Plant, College area and Government Offices) (Outgrowth)	3,041
Puri	Jatni Urban Agglomeration ..	29,894
	(*i*) Jatni Census Town ..	25,119
	(*ii*) Bikashnagar area (Outgrowth) ..	4,775

4. Changes in the classification of each town in Orissa from 1901 to 1971 are shown in the following Table.

Statement showing the changes in classification of towns from 1901 to 1971

Towns	1901	1911	1921	1931	1941	1951	1961	1971

3	Jajpur Road Urban Agglomeration	Cuttack	IV/8	177
4	Jatni Urban Agglomeration	Puri	III/6	173
5	Phulbani Urban Agglomeration	Baudh-Khondmals	IV/18	178
6	Rourkela Urban Agglomeration	Sundargarh	I/2	170
	(a) Rourkela Steel Township		2(a)	170
	(b) Rourkela Civil Township		2(b)	170
7	Sambalpur Urban Agglomeration	Sambalpur	I/5	171
	(a) Sambalpur		5(a)	171
	(b) Burla		5(b)	171
	(c) Hirakud		5(c)	171
8	Titlagarh Urban Agglomeration	Bolangir	IV/7	176

Appendices

9. *Appendix-I* gives a list of new towns added in 1971 under column 2 and towns of 1961 that were declassified in 1971 under column 6. Against each new town of 1971 Census are shown its area in Sq. Kms under column 3 and its population in 1971 Census and 1961 Census separately under columns 4 and 5 respectively. For towns of 1961 Census which were declassified as Rural in 1971 Census the area figures and population in 1971 and 1961 are mentioned from columns 7 to9.

10. An explanatory note, divided into two parts, A & B, is given with this Appendix. Explanatory note A gives the names of each constituent village of the new towns of 1971 Census together with the survey number of the village as contained in the land revenue records and population of the village as per 1961 Census. Explanatory note B contains a list of the constituent villages of such of the towns of 1961 Census, which were declassified in 1971 Census together with the survey number of each constituent village with reference to the land revenue records, its area in Sq. Kms and population as per 1971 Census.

11. Besides the explanatory notes mentioned above, two lists, A and B also form part of this Appendix. List A gives the names of places with a population under 5,000 each treated as towns for the first time in 1971 Census, together with their area and population in 1971. Similarly list B is for towns which had a population under 5,000 each in 1961 but have been omitted from the list of towns in 1971, with details of their area and population in 1961. In list A, there is only one town, viz., Gudari. Machkund is the only town in the list B.

12. *Appendix-II* shows the changes in area as well as in population of towns between 1961 and 1971, and reasons for change in area. Column 2 of the Appendix gives for each of the towns the area in Sq. Kms as in 1961 while column 3 gives similar data as in 1971. Columns 4 and 5 give the population figures for the same town in 1961 and 1971 respectively. Change in area of some of the towns is due to jurisdictional change. In some other cases though the boundary of the town has not undergone any change, the area figure has undergone a slight change owing to revised computation.

Foot Notes :

1. Towns treated as such for the first time in 1961 Census which continue as towns in 1971 Census are shown with asterisk (*) on their left.
2. Towns treated as such for the first time in 1971 are printed in Italics.
3. The following abbreviations have been used to describe the Civic Status of the Towns :

   M. for Municipality, N.A.C. for Notified Area Council, & C.T. for Census Town.
4. N.A. Stands for Not Available.
5. The total area of All Towns (Under All Classes) comes to 1658·46 Sq. Kms in Table A-IV whereas the total Urban area given in Table A-I (Union/State) is 1,658·4 Sq. Kms. The difference of 0·06 Sq. Kms is due to the fact that the area shown in Table A-I has been derived by adding up the Urban area of each town within a Police Station and rounding the same up to one place of decimal.

* The area of Soro town declassified in 1961 Census as recorded in 1971 Census was 32·12 Sq. Kms which has been noted in column 7 of Appendix I to Table A-IV. The correct area based on revised computation is 30·95 Sq. Kms which agrees with the total of the areas of all its constituent villages.

† The area of Machkund town declassified in 1971 Census was recorded in 1961 Census as 6·26 Sq. Kms. This figure has been shown in column 7 of Appendix I to Table A-IV. The correct area based on revised computation is 33·15 Sq. Km which agrees with the total of the areas of all its constituent villages.

Note : (i) M. stands for Municipality.

ii) N.A.C. stands for Notified Area Council and C. T. stands for Census Town.

(iii) * Includes the area of Rourkela C. T. S. (N.A.C.) also.

TABLE A-V

STANDARD URBAN AREAS

TABLE A-V—STANDARD URBAN AREAS

FLY LEAF

1.1 The concept of Standard Urban Area is an innovation of the 1971 Census in the matter of urban classification. This concept replaces that of Town Groups adopted in the 1961 Census. The Town Groups were made up of independent urban units not always contiguous. Hence, the data for such Town Groups did not prove useful in the matter of comparability.

1.2 The essentials of a Standard Urban Area are :

(*i*) It should have a Core Town of a minimum population size of 50,000 ;

(*ii*) The contiguous areas made up of other urban as well as rural administrative units should have close mutual socio-economic links with the Core Town, and

(*iii*) The probability is that this entire area will get fully urbanised in a period of 2-3 decades.

1.3 The objective is to provide comparable data for a defined area of urbanisation continuously for three decades which would give a meaningful picture.

1.4 In the State of Orissa Standard Urban Areas were delineated in consultation with the State Town Planning Organisation. Eight Standard Urban Areas including Jeypore and Balasore were finalised. The last-named two were specially taken under the scheme of Standard Urban Area even though their population is less than 50,000 each because of the importance of the two towns.

1.5 Table A-V presents data for the first time in terms of Standard Urban Areas, giving figures for the urban and rural components separately.

For further details and maps of S. U. A. of the State the reader is referred to the companion volume Part II-A (Supplement).

PRIMARY CENSUS ABSTRACT

PRIMARY CENSUS ABSTRACT

FLY LEAF

1.1 The Primary Census Abstract gives figures relating to the State, Districts and lower administrative units up to Police Stations and Towns. The Abstract shows the area in Sq. Kms., number of occupied residential houses and households (including institutional and houseless households), total number of persons enumerated including inmates of institutions as well as houseless persons, population of Scheduled Castes and Scheduled Tribes, number of literates and educated persons and total number of workers classified into the following nine industrial categories:

Category		Classification of Worker
I	..	As Cultivator
II	..	As Agricultural labourer
III	..	In Live stock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities
IV	..	In Mining and Quarrying
V (*a*)	..	In Manufacturing, Processing, Servicing and Repairs at Household Industry
V (*b*)	..	In Manufacturing, Processing, Servicing and Repairs other than Household Industry
VI	..	In Construction
VII	..	In Trade and Commerce
VIII	..	In Transport, Storage and Communications
IX	..	In Other Services

Lastly the Abstract gives the number of non-workers under Category X

1.2 The Primary Census Abstract for 1971 follows the 1961 pattern. This is the basic Table produced on full count basis which will give information down to the village as also by enumeration block in case of urban areas. The distribution of population by broad industrial categories has been made in 1961 pattern except for the fact that Category III of 1961 has been divided into two categories, viz., Category III--Workers in Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities and Category IV—Workers in Mining and Quarrying. Category IV of 1961 namely, Workers at Household Industry have been brought under Category V, namely, Workers in Manufacturing, Servicing, Repairing, etc. But the two are distinguished by suffixes 'a' and 'b', viz., Category V(a)– Workers at Household Industry and Category V(b)– Workers in Manufacturing, etc., other than Household Industry. There is no other change to the remaining broad industrial categories of workers and non-workers except for the fact that 'business services' as also tea-stalls and restaurants which were included in Category IX at the 1961 Census are now included in Category VII, viz., Workers in Trade and Commerce.

1.3 In this report, Primary Census Abstract has been given up to the level of P.S./Town. For Village Primary Census Abstract figures, readers may refer to the concerned District Census Handbook published under Part X of the Publication Programme. Some of the Column headings of the Abstract are explained below :

(1) The figures for persons, males and females presented in this table against each administrative unit are the number of all persons who are enumerated during the census count.

(2) *Scheduled Castes and Scheduled Tribes*—The population figures of Scheduled Castes and Scheduld Tribes by sex and totals are given in columns 10—12 and 13—15 respectively for the units indicated in column 2. A person is said to belong to a Scheduled Caste or Scheduled Tribe if he belongs to any one of the Castes or Tribes specified in the Scheduled Castes and Scheduled Tribes lists (Modification) Order, 1956 issued under the provisions of Articles 341 and 342 of the Constitution. Scheduled Castes are recognised only amongst Hindus and Sikhs while a member of Scheduled Tribe may belong to any religion.

(3) *Literate and Educated Persons*—A person is said to be literate if he can both read and write with understanding in any language. Children aged four years or less were treated as illiterate.

(4) *Worker*—A 'Worker' is a person whose main activity is participation in any economically productive work by his physical or mental activity. Work involves not only actual work but effective supervision and direction of work.

I. Cultivator—For purposes of census a Cultivator is a person who is engaged in cultivation by himself/herself or by supervision or direction in his/her capacity as the owner or lessee of land held from Government; or as a tenant of land held from private persons or institutions for payment of money, kind or share.

II. Agricultural Labourer—A person who works in another person's land for wages in money, kind or share should be regarded as an agricultural labourer. He has no risk in cultivation but merely works in another person's land for wages. The labourer could have no right of lease or contract on land on which he works.

III. Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities

IV. Mining and Quarrying

The expressions are not explained as these are self-explanatory.

V(a). Household Industry—A Household Industry is an industry conducted by the Head of the Household himself/herself and/or mainly by the members of the household at home or within the village in rural areas and only within the premises of the house where the household lives in urban areas. The Industry should not be run on the scale of a registered factory.

A Household Industry should relate to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. It does not include professions such as pleader or doctor or barber, musician, dancer, waterman, *dhobi*, astrologer, etc., or merely trade or business, even if such professions, trade or services are run at home by members of household.

V(b). Other than Household Industry

VI. Construction

VII. Trade and Commerce

VIII. Transport, Storage and Communications

IX. Other Services

These are self-explanatory.

(5) *Non-worker*—A person is basically a non-worker if he or she does not come under any of the categories of 'worker' mentioned above. A person who has merely been offered work but has not actually joined it is to be treated as a non-worker. The activities of non-workers have been classified into the following seven categories:

(*a*) *Household duties*—This covers all those persons basically engaged in unpaid home duties doing no other work, or even if such a person may also be participating in some other work, it is not to the same extent as a whole-time worker and if the person has returned his or her main activity as attending to household duties. When a person whose main activity is attending to household duties, also engages oneself in some other economic activity such as helping in family cultivation or preparing cowdung cakes at odd times for sale, etc., thet economic activity is covered as secondary work.

(*b*) *Student*—This refers to those whose main activity is returned as a student. This will cover all full-time students or children attending school. Even when such persons participated in some work but not to the same extent as a full-time worker, by merely helping casually as an unpaid family worker in family cultivation, household industry, trade or business, they are treated primarily as students, since that is their main activity.

(*c*) *Retired person or Rentier*—A retired person, or a rentier,or a person living on agricultural or non-agricultural royalty, rent or dividend or any other person of independent means for securing which he does not have to work, comes under this category.

(*d*) *Dependant*—This includes all dependants such as infants or children not attending school or a person permanently disabled from work because of illness or old age.

(*e*) *Beggars, etc.*—This covers beggars, or vagrants or such cases as independent women without indication of source of income and those of unspecified source of subsistence and who are not engaged in any economically productive work.

(*f*) *Inmates of Institutions*—This includes convicts in jails or inmates of a penal, mental or charitable institution.

(*g*) *Other non-workers*—All non-workers who may not come under any of the six categories above but are seeking work are included in this category.

2.1 The 1971 Census figures relating to the pattern of participation in work of the population might appear highly contrasting compared to the 1961 figures in that the percentage of workers to the total population in 1971 is far less than that of 1961 Census.

2.2 The reason for the sharp decline in the participation rates especially among females could partly be attributed to the change in the definition of workers adopted for 1971 Census as compared to that of 1961. The definition adopted in 1961 was somewhat elastic allowing for inclusion as workers of housewives, students, who rendered only casual assistance in some economically productive work like cultivation, household industry done by other members of the family. But according to 1971 definition, a man or woman who is engaged primarily in household duties such as cooking or a boy or girl who is primarily a student attending an institution, even if such a person helps in the family economic activity but not as a full-time worker should not be treated as a worker for the main activity. Application of this test might have resulted in non-inclusion, particularly in the rural areas, of a large number of housewives and students as workers in the current Census although they would have been classified as such in 1961.

2.3 Persons have been categorised as workers or non-workers, according to their main activity as reported by them. The secondary work is not taken into consideration. Data on secondary work will be presented in Table B-VII which will be published in Part II-B as per the Publication Programme.

3. The following statement gives for the State and the districts the number of households per square kilometre, the proportion of households per 100 occupied residential houses and the number of persons on the average engaged as workers in each household in the rural and urban areas.

Statement showing the number of households per square kilometre, number of households per hundred occupied residential houses and number of workers per household in rural and urban areas.

8. The following statement gives the sex ratio (the number of females per 1,000 males) for the population of the State as well as for the districts. The statement also shows the sex ratio for the State and the districts in respect of the workers as a whole, for each of the nine categories of workers as also the sex ratio among the non-workers.

Statement showing the sex ratio (females per 1,000 males) among Total Population, Total Workers, each category of Worker and among Non-workers in rural and urban areas of each district and in urban agglomerations and cities with a population of 100,000 and above

INSTRUCTIONS FOR FILLING UP THE HOUSELIST

1. On the top of the houselist form, provision is made to note the name of District with Code No., name of Taluk/Tahsil/Thana/Anchal/Island/Code No., name of Village/Town/Code No., name or No. of Ward, *Mohalla,* Enumerator's Block/Code No. The entries here are to be filled in by you very carefully. The Location Code is the method by which every village or town in any tahsil or police station in every district of a State is identified by a combination of numbers. For this purpose every district, tahsil or police station, village or town/ward/mohalla/enumerator's block in your State would have been allotted code numbers. Your charge Superintendent or the Supervisor would have indicated to you the district, tahsil or police-station and the village or town/ward/mohalla/enumerator's block code numbers pertaining to you. You shall have to enter them in the relevant spaces against the names of the various jurisdictional units. *Please note that the town number is to be given in Roman figures to distinguish it from the village number which will be indicated by Arabic numerals.*

NOTE : Please do not write anything in spaces enclosed by dotted lines in column Nos. 4, 5, 6, 10 and 12. These are meant for writing code numbers in the tabulation offices.

Col. 1 : Line Number

2. Every line in the Houselist is to be numbered serially. The line numbers should be continuous for your block. Arabic numerals should be used for this purpose, *e.g.,* 1, 2, 3, 4, etc.....

Col. 2: Building Number (Municipal or local authority or Census number)

3. Before you start houselisting, every building will bear a number. Some Municipal towns may have satisfactory system of numbering the buildings and after preparation of the lay-out sketch of your area, you would have given the same number to the building located on the sketch.

4. There would be cases where the Municipal numbers or local authority numbers are not found satisfactory and therefore you would have given numbers to various buildings by way of updating the numbering or revising it. In any case you would have assigned a number to every building in the lay-out sketch. The third contingency is that numbering did not exist earlier and you have numbered the buildings and assigned them the number on the lay-out sketch and marked them on the building itself.

5. The number which has been assigned in the lay-out sketch in any of the three modes described above and marked or put on the building should be written in this column.

6. If the building has a well known name then the name of the building should also be recorded in this column in addition to the number of the building.

The purpose of this column is to readily identify every building by the number found on it and by local name if any the building may bear.

Col. 3 : Census House Number

7. The attributes of a census house have been described earlier and in accordance with those instructions you would have allotted census house number to a building or to a part of a building.

8. If there is only one census house in the building, then the number of the census house will be the same as the building number, which will be repeated in this column.

9. If there be more than one census house in a building (as mentioned in paras. 19 and 20) *e.g.,* In building No. 10, there are three census houses—then against the first census house, you will record "10(1)", for the second "10(2)" and for the third "10(3)" in this column. Column 2, Building number will be entered in the first line only against which census house No. 10(1) would have been mentioned in Col. 3. Column 2 will remain blank against census house No. 10(2) and 10(3).

NOTE : You should not indicate them as 10/1 or 10/2, etc., as that would be followed in the allotment of a number to a new building not previously numbered that has come up after building No. 10.

Cols. 4-5 : Predominant construction material of Census House

10. In these columns you will have to note the materials of wall and roof.

Col. 4 : Material of Wall

11. Under this column, the material out of which the major portion of the walls of the house are made, as for example, grass, leaves, reeds, bamboo, unburnt bricks, mud, burnt bricks, stone, cement concrete, timber, etc., should be written. Where a house consists of separate structures each having walls made out of different materials, the material out of which the walls of the main portion of the house mostly used for living or sleeping are made, are to be recorded.

Col. 5 : Material of Roof

12. The material out of which most of the outer roofs, exposed to the weather and *not the ceiling* is made, i.e., tiles, thatch, corrugated iron, zinc or asbestos cement sheets or concrete, slate, tiles, etc., should be written. In the case of a multi-storeyed building the intermediate floor or floors will be the roof of the lower floor. If the roof is mainly made of bricks, stone, etc., and has a mud plaster, cement plaster or lime plaster exposed to the sky, the material of roof in such cases will *not* be "mud", "cement", or "lime" respectively but it will be "bricks", "stone", etc., which constitute the fabric of the roof.

Col. 6 : Purpose for which Census House is used, *e.g.,* residence, shop, shop-*cum*-residence, business, factory, workshop, workshop-*cum*-residence, school, bank, commercial house, office, hospital, hotel, etc., or vacant

13. The actual use to which a census house is put is to be recorded here keeping in mind the broad categorisation such as : (these are purely illustrative)

(1) Residence, shop-*cum*-residence, workshop-*cum*-residence

(2) Factory/workshop and workshed, etc. 'Factory' should be written if it is registered under Indian Factories Act. A 'workshop' is a place where any kind of production, repair or servicing goes on or where goods and articles are made and sold, but is not large enough to be a factory. It is not necessary that some machinery should exist. Even a place where some household industry (as defined in Para. 78) such as say, handloom weaving, *biri* rolling, *papad* making, toy making, etc., is carried on, it should be noted as a workshop here. If it is also used as a residence it should be noted as workshop-*cum*-residence. Make searching enquiry if a house is used for the purpose of production of any goods or engaged in some processing or repairing even on a Household Industry basis as these are not likely to be apparent to a casual observer.

(3) Shop : A shop is a place where articlies are bought and/or sold on cash or for credit.

(4) Office, business house, bank, etc. : Business house is that where transactions in money or other articles take place.

(5) Hospital, dispensary, Health centre, Doctor's clinic etc.

(6) School and other educational institutions.

(7) Hotel, *sarai*, *dharamshala*, tourist house. inspection house, etc.

(8) Restaurant, sweetmeat shop and eating place. (A sweetmeat shop where sweetmeat is being made and sold should be recorded as a Workshop).

(9) Place of entertainment such as cinema house, theatre, community-gathering (Panchayatghar), etc.

(10) Place of worship, *e.g.*, temple, church, mosque, gurudwara, etc.

(11) Institution such as orphanage, rescue home, jail, reformatory, children's home, etc.

(12) Others, *e.g.*, cattle-shed, garage, godown, laundry, petrol bunk, passenger shelter, etc., the exact use to be fully described.

(13) If the census house is found vacant, *i.e.* if no person is living in it at the time of enumeration and it is not being used for any of the purposes listed above, write 'vacant' in this Col. If the census house is locked because the occupants have gone on journey or pilgrimage, then it may not be treated as "vacant", but the use to which it is put recorded here and the fact that the occupants have gone on a journey/pilgrimage, noted in the 'Remarks' column as "House locked, occupants on journey/pilgrimage, etc."

NOTE : The reason for vacancy such as 'dilapidated', 'under repair', 'incomplete construction', 'want of tenant', etc., may be recorded in the "Remarks" column.

Col. 7 : Is it used wholly or partly as an establishment ? Yes or No. If yes, enter further details in the Establishment Schedule and indicate the Serial number of that entry here.

Definition of an Establishment

14. An "Establishment" is a place where goods are produced or manufactured not solely for domestic consumption or where servicing and/or repairing is done such as factory, workshop or household industry or servicing and/or repair workshop or a place where retail or wholesale business is carried on or commercial services are rendered or an office, public or private or a place of entertainment or where educational, religious, social or entertainment services are rendered. It is necessary that in all these places one or more persons should be actually working. Thus an establishment will cover manufacturing, trade and other establishments where people work.

Examples :

A factory or a workshop or workshop-*cum*-residence or a trading or other establishment, *i.e* where some kind of production, processing, repair or servicing is undertaken or where goods or articles are made and sold, or some business is being carried on such as a grocery shop, a *pan* shop, restaurant, bank, hotel, or an office is functioning such as Government office, commercial office, or an institution is being run such as school, college, hospital, dispensary, etc., and where one or more persons are working.

An Establishment may occupy a census house or a group of census houses or a part of a census house.

15. This column applies only in cases where the census house is used as an Establishment as defined above. Sometimes the act of production, processing or servicing may not be apparent especially if carried on as a household industry, *e.g.*, when a handloom is located inside a house and is not in operation at the time of enumerator's visit or if some other type of household industry such as *papad* making or toy manufacturing or *bidi* rolling, etc., is done, say in some interior portion of the house. You should make searching enquiries to see if any production processing or servicing is done or any business is carried on or any institution is being run in any part of the house not readily seen from outside.

If 'Yes' is recorded here, go to the Establishment Schedule, and fill up further particulars in that Schedule. Please fill in the Serial No. of the entry as given in the Establishment Schedule in this column after 'Yes'.

16. It is possible that some kind of production or processing is undertaken in the house by the members of the household for *purely domestic consumption*. For example, hand pounding of rice, preparation of spices like, *haldi* (turmeric), chillies, etc., or say, knitting of woollen garments, embroidery work, loinloom weaving and so on, meant for household use only and not for sale. In such cases the house should not be treated as an 'establishment'.

Columns 8 to 16

17. These columns will relate to census houses which are used wholly or partly as a residence. If, therefore, a particular census house is not being used for residential purposes at all even partly, as will be evident from entry in Col. 6, put 'X' in each of the columns 8 to 16.

Cols. 8 : Household Number

18. A 'household' is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. It may be made up of related or unrelated persons. A cook or a servant living in the house of his employer and taking his food there is part of that household. A hostel where a number of unrelated persons live together is an institutional household. So also a Jail.

19. There may be more than one household in a census house. Each household should be given a separate number. This can be done by using the alphabets as (a), (b), (c), etc., as affixes to the census house No. For example, if building No. 2 is also a census house and has three households, the household numbers will be 2(a), 2(b) and 2(c). If building number 4 has two census houses, the houses will be numbered as 4(1) and 4(2). If within these houses there are respectively 3 and 2 households then they will be numbered as 4(1) (a), 4(1) (b), 4(1) (c) and 4(2) (a) and 4(2) (b) respectively. If, however, building No. 3 is also a census house and has only one household, the household No. to be entered in this column will be No. 3 only.

20. In the above cases of households Nos. 2(b), 2(c), 4(1) (b), 4(1) (c) and 4(2) (b), there will be no entries against them in Cols. 3 to 7. Cols. 3 to 7 will be filled for the entire census houses, 2, 4(1) or 4(2) as the case may be, once. There is no need to repeat Cols. 3 to 7 in each line for which entries are made for more than one household against that census house in Cols. 8 to 16.

Col. 9: Name of the Head of household

21. The name of the Head of each household should be written. The Head of the household for census purposes is a person who is recognised as such in the household. He is generally the person who bears the chief responsibility for the maintenance of the household and takes decisions on behalf of the household. The Head of the household need not necessarily be the eldest male member, but may even be a female or a younger member of either sex. You need not enter into any long argument about it but record the name of the person who is recognised by the Household as its Head. In the case of institutions like boarding houses, messes, chummeries which should be regarded as households of unrelated persons living together and which may be called Institutional Households, the manager or superintendent or the person who has administrative responsibility or who by common consent is regarded as the Head should be recorded as the Head of the household. In the case of an absentee *dejure* 'Head', the person on whom the responsibility of managing the affairs of the household falls at the time of enumeration, should be regarded as the Head.

Col. 10 : If S. C. or S. T., write name of Caste/Tribe

22. You will have been furnished with a list of Scheduled Castes and Scheduled Tribes notified for your area. Ascertain if the head of the household belongs to a Scheduled Caste or a Scheduled Tribe and check whether the Caste/Tribe is scheduled as per your list. If so,

for Scheduled Caste write "S.C." and record name of caste,

for Scheduled Tribe write "S.T." and record name of tribe,

for others write "X"

For a household belonging to Scheduled Caste, check religion of the head of the household. He or she should be either a Hindu or a Sikh. There cannot be a S.C. in any other religion. Scheduled Tribes may belong to any religion.

23. In a case where the head of the household belongs to Scheduled Caste/Scheduled Tribe even if any other member of the household (except institutional households) does not belong to S.C./S.T. then write S.C./S.T. as the case may be and mention the Caste/Tribe to which he belongs. On the other hand if the head does not belong to S.C./S.T. but any other member of the household does belong to S.C./S.T.; write 'X' in this column.

In the case of all 'Institutional Households' write 'X' in this column irrespective of whether the head belongs to a S.C./S.T. or not.

Col. 11 : Number of living rooms in the occupation of Census household

24. A room should have four walls with a door way with a roof overhead and should be wide and long enough for a person to sleep in, *i.e.*, it should have a length of not less than 2 metres and a breadth of at least 1½ metres, and 2 metres in height. An enclosed room, however, which is used in common for sleeping, sitting, dining, storing and cooking, etc., should be regarded as a room. An unenclosed verandah, kitchen, store, garage, cattle-shed and latrine and rooms in which a household industry such as a handloom is located which are not normally usable for living or sleeping, etc., are excluded from the definition of a room for the purpose of this column.

25. If there is only one household in a census house the counting of rooms will not be difficult. But if a census house consists of a number of households, the number of rooms occupied by each household has to be entered against the name of each Head of household. In cases where a room is occupied by more than one household or they share more than one room, the number of rooms should be given together against a bracket as common to such households.

26. One is likely to come across conical shaped hut or tent in which human beings reside. In such improvised accommodation, there will be no four walls to a room and, therefore, the above definition would not strictly apply to such types of accommodation. In such cases, the tent or conical hut, etc., may in itself be construed to be a room.

Col. 12 : Does the household live in owned or rented house: (*i*) Owned (O), (*ii*) Rented (R)

27. If a household is occupying a census house owned by itself and is not paying anything to anybody in the form of rent then the household may be considered as living in own house. This should be recorded by 'O'. A household living in a flat or a house taken on 'ownership' basis on payment of instalments, should be regarded as living in its own house, notwithstanding that all instalments have not been paid.

28. If the household lives in rented house write. 'R'. A housing unit is rented if rent is paid or contracted for by

the occupants in cash or in kind. Where an owner permits a household to live in a house rentfree even then the household should be treated as living in a rented house. For example, rent free accommodation provided to employees by Government, Institutions, Companies, etc. In such cases, you should treat the house as rented and write 'R'.

Col. 13 to 15 : Number of persons normally residing in Census household on day of the visit of the enumerator

29. Enter the number of males normally residing in the household in column 13, females in Col. 14 and total number of persons in column 15 (Col. 13 +Col. 14).

30. In these columns normal residents are to be recorded even though some of them may be absent on the day of enumerator's visit. Casual visitors should be excluded as they will be considered at their respective places of normal residence. But a person who has stayed with the household for a period of 3 months or more should, however, be included. Correspondingly, normal residents absent for over 3 months or more should be excluded from the household in which they normally reside.

Total of these columns should be struck at the end of each page and after completion of houselisting grand total of the block should be struck at the bottom of the last form.

Col. 16 : Does the household cultivate land ? (Yes or No)

31. If the household is cultivating any land then you have to record the answer 'Yes' otherwise 'No' For determining whether a household is cultivating or not, it should be necessary to ascertain if one or more persons in the household are engaged in cultivation of land or supervision or direction of cultivation of land owned or held from Government or from private persons or Institutions for payment in money, kind or share Encroachers who cultivate land encroached upon will be regarded as cultivating households for the purposes of this column. If the household has a visitor who cultivates land elsewhere, it cannot be deemed that the household as such is a cultivating household. Unless the Head or other members of the household are engaged in cultivation of their own, the household should not be reckoned as a cultivating household. A household whose members merely work on somebody else's land for wages should not be treated as a cultivating household.

Col. 17 : Remarks

32. If there is an entry in Col. 6 as "Vacant", you have to record the reason such as "dilapidated", "under repair "incomeplete construction", "want of tenant", etc. in this column.

ANNEXURE II

ESTABLISHMENT SCHEDULE

Census, 1971

Name of District..... Code No..... Name of Village or Town..... Code No.....

Name of Taluk/Tahsil/Thana/Anchal/Island..... Code No..... Name or No. of Ward/Mohalla/Enumerator's Block..... Code No.....

Serial No.	Census House No	Name of the Establishment or of the Proprietor	Is the establishment (*a*) Govt./ Quasi Govt. (*b*) Private (*c*) Co-operative Institution	Average number of persons working daily last week or in the last working season, including proprietors and/or family workers	If any manufacturing, processing or servicing is done			If used as a trading establishment		If used as any other establishment describe *e.g.*, Govt. Office, School, Hospital, Railway station, Barber's saloon, Cinema theatre, Hotel, Tea shop, etc.
					Is it (*a*) Household Industry (*b*) Registered Factory (*c*) Unregistered Workshop	Description of the products, processing or servicing done	Type of fuel or power used	Description of goods bought/ sold	Whether (*a*) Wholesale or (*b*) Retail	
1	2	3	4	5	6	7	8	9	10	11

Signature of Enumerator..... Date.....

Signature of Supervisor..... Date.....

INSTRUCTIONS FOR FILLING UP THE ESTABLISHMENT SCHEDULE

1. At the top of the schedule provision is made for noting the Location Code No. and name of the areas concerned. This should be the same as those noted on the top of the Houselist which you will be canvassing simultaneously. You should fill the Location Code Nos., etc., correctly.

2 The columns of the Establishment Schedule can be classified into four broad groups :

(i) Columns 1 to 5 are of uniform applicability and entries have to be made in respect of all the establishments ;

(ii) Columns 6 to 8 pertain to manufacturing, processing, etc.—establishments ;

(iii) Columns 9 to 10 relate to trading establishments ; and

(iv) Column 11 refers to "other" Establishments which are not covered in columns 6 to 10.

Thus, it will be seen that the columns falling within groups (ii) to (iv) are mutually exclusive, while those in group (i) are common to all

Col. 1 : Serial number

3. In this column the establishments are to be entered one after another serially. Arabic numerals should be used for this purpose, i.e., 1, 2, 3, etc.

Col. 2 : Census House number

4. The Census house number to be noted is the same as that in column 3 of the Houselist and against which 'Yes' is written in column 7 of the Houselist indicating that the Census house is used as an establishment.

5. A point to be noted here is that it is likely that a single factory or workshop may be spread over more than one Census house adjoining one another. Therefore, while in Col. 2 of this schedule a number of Census houses may be noted in respect of that particular unit of production, processing or repairing, trade or business, etc., the entries in Col. 3 onwards will be one only for that group of houses covered by a single unit of production or business, etc. establishment. For example, if a single tea factory in Assam or business establishment in Calcutta should be spread over two or three adjacent buildings, each of the buildings should not be shown as a separate factory or establishment but the House Nos. of all these buildings shown in Col. 2 should be bracketted together and the particulars of the single tea factory or establishment entered in the subsequent columns against this group of houses. If on the other hand the activities of a large firm or an office are carried on in buildings located far away in different localities, each of the Census houses in the different localities will have to be treated as a separate establishment and the particulars of the establishment relating to that particular Census house should be listed in this schedule.

Col. 3 : Name of the Establishment or of the proprietor

6. In this column write the name of the establishment in the case of factories, large manufacturing concerns, a shop or business establishment, banks, office, etc., which usually bear a distinct name. Where an establishment has no separate name as in the case of small workshops and establishments like confectionaries, small tea shops, Dhobi's establishment, household industries, etc , write the name of the owner as "So and so's Halwai shop", etc. This is to help easy identification.

Col. 4 : Is the Establishment—(a) Govt./Quasi Govt. (b) Private, (c) Co-operative Institution

7. Enter here whether establishment enumerated belongs to public sector, i.e, Government/Quasi Government managed, including establishments run by local authorities, or to private sector, or a co-operative enterprise. Please do not write in the column only (a) or (b) or (c) but write

(1) "Government—Public Sector, or Quasi Government —Public Sector, or Local Authority—Public Sector.

(2) Private or

(3) Co-operative.

There may be many schools or libraries, etc., which are not owned by any particular individual or group of individuals. These may be owned by people in general and managed by Managing Committees. Such establishments should be treated as "private" as distinguished from Government/Quasi Government or run by local authorities or co-operative enterprises.

8. An establishment will be treated as a Government/Quasi Government institution if the Central or State Government or a Local Authority such as the Zilla Parishad, City Corporation or Municipality, etc., completely owns or has a majority of shares as to control the management of the establisbment.

9. Private establishments are those owned and managed by private individuals or corporate bodies not being co-operative institution or Government or Quasi Government Institutions.

10. Establishments registered under the co-operative Societies Registration Law of the State, alone fall in the category of "Co-operative".

Col. 5 : Average number of persons working daily last week or in the last working season, including proprietors and/or family workers

11. In this column, the information has to be entered relating to the total number of workers including the apprentices, paid or unpaid and also including owner(s) or proprietor(s) of the establishment and any of their family members if they also work in the establishment and also the hired workers, if any. It is not necessary that an establishment should necessarily have paid workers. A small shop run in the same house where the owner lives and the business is attended to by just one person of the household is also an establishment. The average number of persons working per day in the establishment during the week preceding the day of your visit should be recorded.

For computing the average number of persons working per day, if the establishment remained closed owing to holiday, etc., such day(s) should be ignored and only the 'days' on which the establishment worked should be taken into account. If during the week preceding your visit, the establishment remained closed either due to strike or lock-out, the week during which the establishment worked preceding such strike or lock-out should be taken into account for reckoning the average number of persons working. The hired workers should normally be in full time employment.

12. Some establishments such as a sugar factory, rice mill, etc., may be seasonal in character and may not be actually working at the time of the present listing. You should then ascertain the particulars of such establishments with reference to the last working season.

13. In case more than one product is produced, or more than one item of business is conducted or several types of services are rendered, it is not necessary to enquire the number of persons employed in the production/business/servicing of each type of product, business or service that is covered against that serial number. For example, in a large textile mill there, may be the weaving section, dying section, laboratory, repairing section, sales section, etc. It is not necessary to ascertain the employment in each section. The total employment has to be ascertained. The major activity of the establishment will be described in subsequent columns.

Columns 6, 7 and 8: If any manufacturing, processing or servicing is done

14. These columns relate only to such establishments in which goods are manufactured or some kind of processing or servicing is done and/or repairs are carried on.

Col. 6: Is it (a) Household Industry, (b) Registered Factory, (c) Unregistered workshop

Household Industry : Definition

A 'Household Industry' is defined as an industry conducted by the Head of the household himself/herself and/or mainly by the members of the household at home or within the village in rural areas, and only within the premises of the house where the household lives in urban areas. The industry should not be run on the scale of a registered factory.

15. Thus, there are four ingredients of a household industry :

(i) nature of activity

(ii) participation

(iii) location

(iv) size

16. (i) *Nature of activity*—A Household industry should relate to production, processing, servicing, repairing, or making and selling (but not merely selling) of goods. It *does not* include professions such as a pleader or doctor or barber, musician, dancer, waterman, *dhobi*, astrologer, etc., or merely trade or business even if such professions, trade or services are conducted at home by members of household.

17. (ii) *Participation*—The Head of the household and/or one or more members of the household must participate in such an industry. If it is run primarily by hired labourers, the 'participation' ingredient of the household members will not be satisfied and it will not be a 'Household Industry'. The industry may run with the help of hired workers but the head and/or members of the household must be mainly participating in the industry and not solely dependent on hired workers. Besides "actual work", participation also includes "supervision and direction".

18. (iii) *Location*—The industry should be located within the premises of the house where the household lives in urban areas ; if it is situated at a place other than at home, it will not be termed as household industry in urban areas. In rural areas, however, the industry may be either at home or anywhere within the village limits. In rural areas, even though the industry is not situated at home there is a greater possibility of the members of the household participating in it if it is located within the village limits.

19. (iv) *Size*—The industry should not be on the scale of a registered factory. Irrespective of the location and participation by the members of the household, if the industry or workshop is registered under the Factories Act, then it will not be a household industry.

20. Thus it will be clear that any industry which can be termed as 'Household Industry' must satisfy all the four ingredients mentioned above.

21. *Registered Factory*—A factory which is registered under the Indian Factories Act should be treated as a "Registered Factory". Any other workshop merely licenced by the Municipal or any other authority or registered for any other purpose should not be treated as a registered factory unless it is registered under the Indian Factories Act.

22. (c) *Unregistered Workshop*—Workshop is a place where some kind of 'production, processing, servicing, repairing or making of goods for sale' is going on. A workshop which is registered under the Indian Factories Act should be treated as a registered factory and others as unregistered workshops. Workshops which are run as household industry should be treated as household industry and entered as such.

23. When you come across an establishment where some kind of manufacturing, processing or servicing, etc., is done, you should ascertain whether it is a Household Industry or a registered factory or a workshop not registered under the Factories Act and write whatever it actually is in this column. Please note that workshops merely licenced or entered in the registers of a local authority are not to be considered as registered factories unless registered under the Indian Factories Act. All workshops other than household industries and not registered under the Indian Factories Act should be treated as unregistered workshops even if they are merely licenced as workshops by the local authorities. Please do not write (a) or (b) or (c) in the column but write "Household Industry", or "Registered Factory" or "Unregistered Workshop", as the case may be.

Col. 7 : Description of the products, processing or servicing done

24. The description of the actual work relating to product, processing and servicing which is done in the Household Industry, factory or workshop that is being listed is to be

recorded here, *e.g.,* handloom weaving, lace knitting, *oil ghani*, etc., manufacturing of G. I. pipes, electroplating, motor or cycle repairing, iron foundry, paper making or book binding, printing and dyeing, shoe making, sweetmeat making, etc. If in any establishment more than one article is produced or more than one kind of processing or servicing or repairing is done, indicate only the major kind of products or processing or repairing or servicing, etc.

Col. 8 : Type of fuel or power used

25. Enter here the description of the power or fuel used for the running of the factory, workshop (or household industry if it is run on power or fuel). The fuels can be kerosene, soft coke, petrol, diesel, gas, coal, wood, etc. Electricity and steam, etc., are some of the sources of power. Some units may be run by animal power such as *oil ghani*. Some may be run by merely human energy such as carpet-making, pottery making, etc. Enter the description of fuel or power used for the production, processing, servicing, etc., that is carried on in the establishment. There may be instances where more than one fuel or power is used. In such cases, only the fuel or power which is used in running the primary unit of the industry will be noted in this column.

26. *Columns 9 and 10 are to be filled in respect of trading establishments or establishments which render commercial services only.*

27. Trading or business establishments are those where some trading, *i.e.,* transactions involving sale and/or purchase of goods go on.

Establishments rendering commercial services are the banks, money lending firms, Pawn shops, etc.

Col. 9 : Description of goods bought/sold

28. If it is a trading establishment, you should ascertain what are the goods bought and/or sold and write the description in this column. If there are more than one type of goods bought/sold by the establishment, you should give description of the main item of goods bought/sold by the establishment.

29. In the case of establishments rendering commercial services such as in the case of Banks, etc., you should write the description of the services rendered, as in the case of a bank, you should write "banking services".

Col. 10 : Whether (a) wholesale or (b) retail

30. For all trading establishments, you should ascertain in respect of the goods mentioned in column 9, whether they are sold/bought in wholesale or in retail and write as the case may be.

31. You may come across certain establishments wherein both types of trade, *i.e.,* wholesale and retail go on. In such cases, you should ascertain in which category (*i.e.* wholesale or retail) the volume of trade is greater and record the category accordingly.

32. In the case of establishments rendering commercial services, e.g., bank, etc., please do not write any of the two categories, *i.e.,* 'wholesale' or 'retail' but put an 'X' in this column.

Col. 11 : If used as any other establishment, describe, *e.g.,* Govt. office, School, Hospital, Railway Station, Barber's Saloon, Cinema, Theatre, Hotel, Tea shop, etc.

33. Two specific types of establishments have been covered in columns 6 to 10. Column 11 relates to the remaining types of establishments not covered by columns 6 to 10. You have to describe such establishments in this column, *e.g.,* Government Office, School, Hospital, Railway Station, Orphanage, Rescue Home, Barber's saloon, Cinema, Theatre, Hotel, Tea shop, Lawyer's Office, Doctor's Clinic, Laundry, etc.

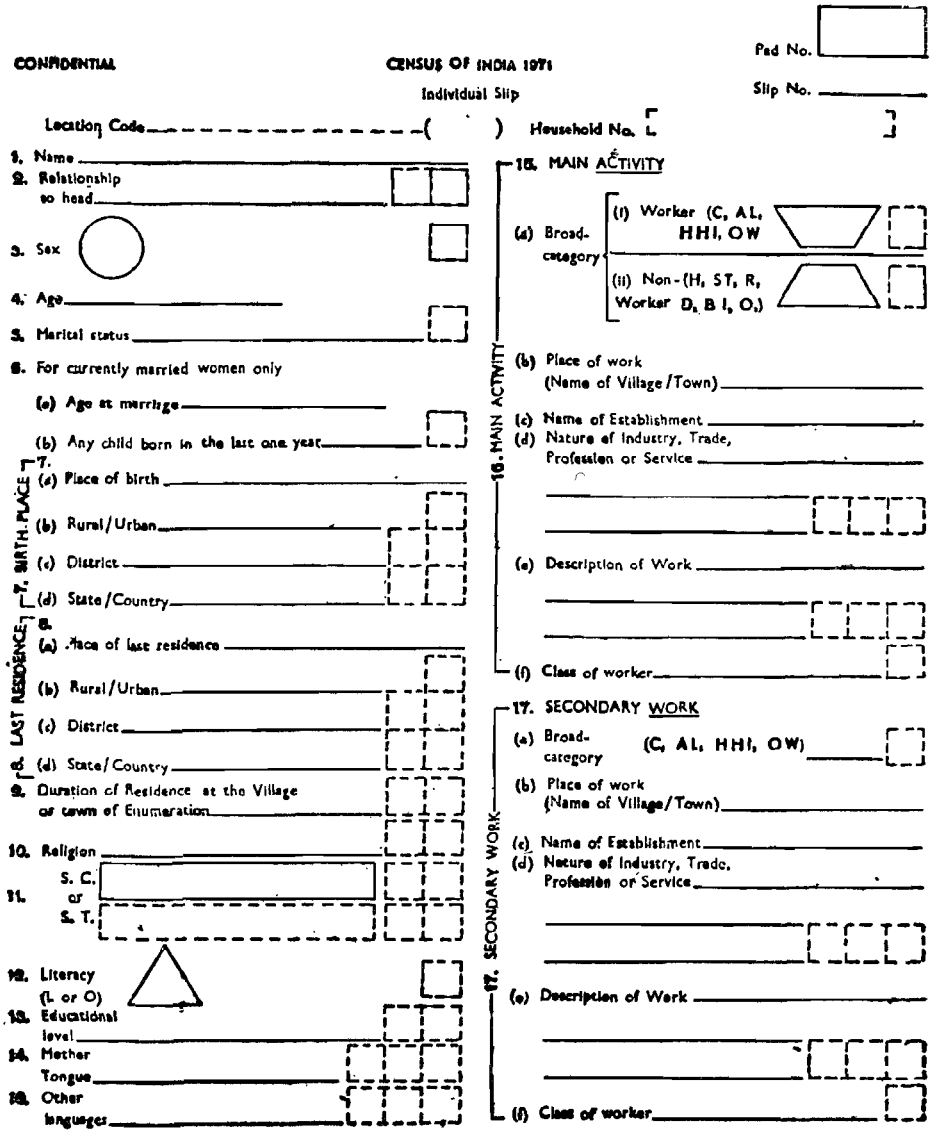

General

34. It is possible that in a particular establishment, more than one activity is being undertaken within the same premises. For example, say in a betel shop, *bidi* rolling is also being undertaken or in a grocery shop a flour mill is also located, or in the doctor's clinic medicines are sold. In such cases, the establishment should be identified having regard to the major activity and recorded as such in the relevant columns pertaining to the major activity.

35. But if different activities are undertaken in different census houses quite cut off from one another though under the same title or ownership, each such census house should be treated as a separate establishment and recorded as such against that census house in this schedule. It may, however, be noted that where processing for the production of an article is carried on, in separate adjoining census houses, all the census houses should be treated as a single establishment and recorded as such. If on the other hand the activities of a large firm or an office are carried on in buildings located far away in different localities, each of the census houses in the different localities will have to be treated as a separate establishment and the particulars of the establishment relating to that particular census house should be listed in this schedule.

ANNEXURE III

INDIVIDUAL SLIP

INSTRUCTIONS FOR FILLING UP THE INDIVIDUAL SLIP

1. The census schedule which is called the Individual Slip that you will be required to canvass is given on opposite page.

2. One slip will have to be filled for each individual in each household that you visit in your jurisdiction. You should first enumerate the Head of the household followed by the other members of the household in the most convenient order and ensure that none of the persons in the household is left out. Perhaps it is best that after enumerating the Head of the household, you cover the near relatives first such as, the wife, sons and daughters, son's wife and son's children, daughter's husband and their children forming part of the household, then distant relatives, and domestic servants or other boarders or visitors, forming part of the household and entitled to be enumerated here.

Please make repeated enquiries about infants and very young children for they are often liable to be left out of count.

3. The various items to be canvassed on the Individual Slip are explained in the following instructions :

Pad No. and Slip No.

4. Make sure that the Pad No. and the Slip No. have been noted by you on the top right hand corner of each schedule against the item provided as already indicated earlier under the general instructions. The noting of Pad No. and the Slip No. is necessary for, you will be later required to tabulate in an Abstract certain items of information of each schedule on a separate form where you will have to indicate the Slip No. concerned against which you will be posting the data. The Pad No. is the number already furnished on the top of the enumeration schedule Pad and the Slip No is the serial number that you will be giving for each schedule in this Pad. You are also advised to use the Pads in a sequence starting with the lowest Pad number.

5. In case your jurisdiction covers more than one village or more than one urban block please ensure that you do not make use of a common pad of schedules for all the villages or urban blocks in your charge. There should be separate pads for each village or urban block even if there were a few blank schedules left over in the pad of a particular village or urban block.

Location Code

6 Though this has already been referred to generally earlier, it is worth elaborating. The location code is the method by which every village or town in a Tahsil/Taluk/Police Station, Anchal/Island in every District of a State is identified by a combination of numbers. For this purpose, every district, Tahsil, Taluk, Police Station, Anchal or Island, village or town in your State would have been allotted code numbers Your Charge Officer would have indicated to you the district, tahsil, taluk, police station, anchal or island and the village or town number as also the ward number of the town pertaining to your jurisdiction By a combination of these numbers one can exactly locate your village or town. Thus, a code number running as 10/3/46 would mean village No 46 in Tahsil No 3 of District No. 10 of a State, or a code number running as 6/II/5 would mean ward No. 5 in Town No. II of District No 6 Note that the Town No. is given in roman figure to distinguish it from rural code No. At the end of the location code you should add within round brackets the enumeration block number that has been allotted to you by your Charge Officer thus 10/3/46(60) or 6/II/5(4). You will be identified by enumerator's block number and this has to be entered in your Daily Posting Statement (The enumerators' block numbers will be a continuous number for the tahsil/taluk/town, etc.).

7. Make sure that you know the correct location code of the area allotted to you. You should note down the location code on each blank individual slip immediately the enumeration pads are issued to you. This will save you the trouble of noting the location code number later when you actually visit each household within your block for enumeration. When you visit the household you may have to then note only the household number as indicated in the next para. by the side of the location code number which you would have already indicated.

Household No.

8. The identifying household number of the household that you are covering at the Census should be noted within the square brackets provided for the purpose. As you may be aware, Houselisting and Housenumbering operation was undertaken during 1970 with a view to numbering each census house and locating all households living in census houses In the course of this operation, each census house was given a number and households found therein would also have been allotted a number. The census house numbers would be painted on the houses at prominent place, like the pillar of the main gate, top of the main door, etc. Sometimes there may be more permanent house-numbering plates affixed. In the case of thatched houses, numbers may have been written out on a tin plate or wooden board and left with the households with a request to preserve the same. You should use this number.

9. It may happen that when you visit your area for census taking you may come across some census houses which did not exist at the time of houselisting and therefore, no numbers had actually been allotted to them. You should allot a number after consulting the order of numbering prevailing in your jurisdiction and locate the households living therein. For example, if in between building 9 and 10 another building has come up, you should allot the number 9/1 to this structure and in case more than one building has come up numbers like 9/1, 9/2, 9/3 and so on should be used for the new structures Then locate the census houses in accordance with the instruction and thereafter locate the households and allot numbers in the prescribed manner. The household number will be the same as the house number if only one household is living in a house. If there were more than one household then alphabetical sub-numbers within brackets as 19(a), 19(b), etc., will have to be added to the house number to distinguish each household. It may also happen that the number given at the time of houselisting has been obliterated. You should allot the correct number having regard to the preceding and succeeding buildings.

10. *If the household happens to be an institutional household such as a boarding house, hostel hotel chummery etc, where a group of unrelated persons stay together then add 'INST' to the household number.*

11. If you are enumerating the houseless persons, you should record 'O' boldly in the space provided for the household number.

12. In all the individual slips pertaining to the members of the same household, the household number will be repeated. You will then start recording the particulars of each individual against questions indicated in the Individual Slip according to the instructions that follow.

Please do not write anything in the spaces enclosed by dotted lines in question Nos. 2, 3, 5, 6(b), 7(b), 7(c), 7(d), 8(b), 8(c), 8(d), 9—15, 16(a), 16(d), 16(e), 16(f), 17(a), 17(d), 17(e) and 17(f). These are meant for writing code numbers in the Tabulation Offices.

Question 1: Name

13. Write the name of the person enumerated. If a woman's name is not given out, describe her as 'so and so's wife, mother or daughter'. By custom if a woman finds it difficult to give the name of her husband and if the man is absent at the time of enumeration but his particulars have to be recorded write 'so-and-so's husband' if you have failed to ascertain the name even from the neighbours.

For newly born infants who have not yet been given the name write "baby" and add father's or mother's name.

Question 2: Relationship to Head

14. In the case of the Head of the household write 'Head'. The Head of the Household for census purposes is a person who is recognised as such in the household. He is generally the person who bears the chief responsibility for the maintenance of the household and takes decisions on behalf of the household. The Head of the household need not necessarily be the eldest male member, but may even be a female or a younger member of either sex. You need not enter into any long argument about it but record the name of the person who is recognised by the Household as its Head.

15. In the case of institutions like boarding houses, messes or friends living together in one census house, which should be regarded as households of unrelated persons living together, which may be called institutional Households, the manager or Superintendent or the person who has administrative responsibility or who by common consent is regarded as the head should be recorded as the Head of the household.

16. The Manager or Superintendent who does not stay normally in the institution should be enumerated at his place of normal residence. You should make sure before filling up the slip for the Manager or Superintendent, etc., of an institutional household, that he/she has not been enumerated at any other household.

17. In the case of absence of a normal 'Head', the person on whom the responsibility of managing the affairs of the household falls, should be regarded as the Head.

18. All relationships in this question should be recorded in relation to the Head of the household. Write the relationship in full. Do not use words like 'nephew', niece' or 'uncle', but state whether brother's, or sister's son or daughter (for nephew or niece) or father's or mother's brother (for uncle), 'Son' will include 'adopted son' or 'step son'; similarly for a daughter. In the case of visitors, boarders, or employees, write 'visitor', 'boarder', or 'employee' as the case may be. In the case of institution, the members should be recorded as 'unrelated'.

19. If on the check of revisional round between 1st and 3rd March 1971 the Head of the household as recorded previously is found to have died, the person in the household who succeeds him by common consent as head should be recorded as Head and the relationships in all other slips will have to be suitably corrected. The slip of the deceased Head of the household will, of course, be cancelled.

Question 3: Sex

20. For males write 'M' and for females write 'F' within the circle indicated against this question. Even for eunuchs and hermaphrodites, write 'M' only. Verify with reference to the name and relationship to Head against questions 1 and 2 respectively that you have noted the sex correctly.

Question 4: Age

21. Record the age of the person in total years completed last birthday. Very often there is a tendency on the part of the individuals to return 'years running' rather than the 'years completed'. Make sure that only the actual number of years completed is recorded.

22. In respect of infants who *might not have completed one year* by the day of enumeration their age in completed years should be invariably shown as 'O' as they have not yet completed one year of age and add **'Infant' in brackets.** As was stated under general instructions make sure that infants even if a day old are invariably enumerated. *You should not enter the age in months.* The age of an infant who has not yet completed one year should invariably be noted as 'O' only.

23. Age is one of the most important items of demographic data and you should ascertain the age with greatest care. Many persons particularly in the rural areas cannot give their age correctly. They should be assisted to state the correct age by stimulating their memory with reference to any historical event etc., well known in the area. Sometimes the age can be ascertained with reference to the age of another person of a known age that may be in the same household or in the neighbouring household or that of a well known person of the village such as Headman of the village. A person can more easily say whether he was older or younger to such a person and by how many years. This will help you to record the age more accurately.

Question 5: Marital Status

24. In answering this question use the following abbreviations:

NM : Never Married

M : Currently Married

W : Widowed

S : Separated or Divorced

25. For a person who has never been married at any time before, write 'NM'. For a person currently married, whether for the first or another time and whose marriage is subsisting at the time of enumeration with the spouse living, write 'M'. Write 'M' also for persons who are recognised by custom or society as married and for the persons in stable *de facto union*. Even if a marriage is disputed in the locality write 'M' if the person concerned says he or she is married or is in stable *de facto union*. For a widowed person whose husband or wife is dead, and who has not been married again, write 'W'. For a person who has been separated from wife or husband and is living apart with no apparent intention of living together again or who has been, divorced either by a decree of a law court or by an accepted social or religious custom but who has not remarried, write 'S'. For a prostitute return her marital status as declared by her.

Question 6 : For Currently married women only

26. This question has to be answered in respect of all currently married women only *i.e.,* all women whose marital status is shown as 'M' against Q. 5. For all others a cross may be put through the two sub-parts of this question.

6(a) Age at marriage

27. *Age at marriage :* You should ascertain the age at which the currently married woman whom you are enumerating was married and record that age in completed years. If the currently married woman had been married more than once, the age at which she got married for the first time should be recorded.

6(b) Any child born in the last one year

28. *Any child born in the last one year:* You should ascertain if the currently married woman whom you are enumerating gave birth to a child in the last one year prior to the date of enumeration. Since it may be difficult for a person to reckon the exact year with reference to the English calendar dates, the period of one year may be ascertained with reference to a well known festival day which falls close to Feb.-March, as determined by the Census Superintendent of the State. You should ask if a child was born on or after this festival day last year to the date of enumeration Only if the child was born alive, even if the child had died soon after birth, should the answer be 'Yes', to this question. *Still birth, i.e., a child which is born dead should not be taken into account for this purpose.* So while you should make sure that every case of birth of child born alive, even if it is not alive on the date of enumeration, is reported, you should not reckon it if the child was born lifeless.

29. It is common experience that the birth of the child may not be reported readily if the child is not actually surviving at the time of enumeration. Infant deaths are still high in the country. There is a chance of a number of such cases being missed unless specifically questioned about them. It is necessary to record all live births even if the child had died soon thereafter or had not survived to the day of enumeration. Therefore where the initial answer to this question is 'no', you should ask a specific question if there has been a case of child having been born alive in the last one year and later dying before the enumeration date. This is a delicate question and should be asked with tact in a manner not to offend the sensibility of the respondent. Where a currently married woman first answers that she had no child born in the last one year, you may perhaps question her as follows :

"It has been found in some houses that a child was born and had died soon after or a few days or months later and such cases had not been reported. It is my hope that there are no such cases here. Am I right ?"

This may bring in the required response. If she reports 'no' then you can be sure that no birth has been missed. You have to make sure that any live birth that has occurred to the currently married woman in the last one year is netted whether the child is surviving till the date of enumeration or not. Similarly, probe to eliminate still births may be necessary. For example, when the answer is 'yes' under question 6(b) the enumerator might ask if the child is here in this house. If the answer is 'yes', no further question is needed. If 'no', the enumerator might ask where he has gone The answer may be 'dead' or he has gone elsewhere. If 'dead' then the enumerator might ask when did the child die and this will bring out the fact whether or not it was a still birth.

30. Write 'Yes', if the currently married woman had given birth to a live child from the prescribed festival day last year to the date of enumeration or 'no' if she had not. In case of twin or multiple births, write 2, 3, etc., as the case may be within round brackets after the entry 'Yes'.

Note— You may find on your revisional round from 1st to 3rd March, 1971 that a child is born to a married woman in a household after your last visit but before the sunrise of 1st March 1971. You will have to take this into account and correct the answer against the Q. 6 (b) accordingly. You must enquire specifically if any such birth has taken place. While ignoring still births all other births where the child was born alive even if it did not survive long should be taken into account.

Question 7 : Birth Place

31. Answer to this question has to be filled with reference to the place of birth of the persons enumerated and the particulars recorded under the four sub-items of this question.

7 (a) Place of Birth

32. Write 'PL' for a person born in the village or town where he is being enumerated. Where 'PL' is noted against this question put 'X' against sub-items (b), (c) and (d)

For those born outside the village or town of enumeration write the actual name of the place against sub-item (a) and fill the other details against sub-items (b), (c) and (d).

7 (b) Rural/Urban

33. For those born outside the village or town of enumeration ascertain if the place of birth was a village or town at the time of his birth. To enable a person to determine whether the place was a town or a village he may be required to indicate the status of the place of birth in comparison with a known town in the neighbourhood of the place of enumeration. You may mention some important urban characteristics to enable the person to make out if

the place of his birth was rural or urban, e.g., existence of a local administrative body, Industrial townships declared as towns, etc.

For a person born in a village, write 'R'.

For a person born in a town/city, write 'U'.

For a person born in a foreign country put 'X' against this sub-item and also against sub-item (c). If all efforts to classify the place of birth as rural/urban fail, write 'not known'.

7 (c) District

34. For a person born outside the village or town of enumeration but within the district of enumeration write 'D'. For a person born in another district of the State of enumeration, or other State/Union Territory in the country, write the name of the district. If the person cannot name the district, write 'not known'.

7 (d) State/Country

35. For persons born within the State of enumeration write 'X' against this item. Make sure that the earlier entries made in sub-items (a), (b) and (c) are consistent with such an answer; that is 'PL' might have already been written against sub-item (a) or 'D' is written against sub-item (c) or any other district of the State of enumeration is mentioned against sub-item (c).

36. For persons born outside the State of enumeration but within the country, write the name of the State/Union Territory where born.

37. For those born outside India, note merely the name of the country and there is no need to enter the name of the constituent State of the foreign country. Where a person cannot name the country, the name of the continent may be noted.

38. For a person born on sea, record 'born at sea', against this sub-item and put 'X' against sub-items (a), (b) and (c). If a person was born in a train, boat or bus, etc., within the country, write the particulars in (a), (b) and (c) with reference to the administrative territory where the event occurred or was registered.

Question 8: Last Residence

39. Answer to this question will have to be filled in respect of every person if he had another place of normal residence irrespective of his place of birth, before he came to the present place where he is enumerated. Even if a person were born at the place of enumeration by the nature of his work or for studies, etc., he had shifted subsequently to another village or town and had come back again to the place of enumeration, he should be deemed to have had another place of residence prior to his enumeration here.

The last previous residence is relevant only if he had been outside the village or town of enumeration and not simply in another house or locality in the same place. For example, if a person born in one part of Bombay City is found residing in another part of Bombay at the time of enumeration, the change of residence should not be treated as change of place of residence because both the areas are comprised in the same City of Bombay. Similarly, a person born in hamlet 1 of village Rampur and found in hamlet 2 of the same village at the time of enumeration, should not be deemed to have had any other place of residence than the village where he is enumerated. Where a person had merely gone out to another place or had been shifting from place to place purely on tour or pilgrimage or for temporary business purposes, he should not be deemed to have had another residence different from the place where he or his family normally resides but if the person had his normal residence, i.e., if his normal home had been elsewhere at any time before he is enumerated at his place of present residence, irrespective of where he was born, such place of his previous residence should be recorded here.

8 (a) Place of last residence

40. For a person who had been in the village or town of *enumeration continuously since birth (except for shifting* to other places outside the village or town of enumeration for a purely temporary stay) write 'PL' against sub-item (a) and put 'X' against sub-items (b), (c) and (d).

For a person who had had his last previous residence at any place outside the village or town of enumeration (irrespective of his place of birth), write the actual name of the village or town where his last residence was against sub-item (a) and fill the other details against sub-item (b), (c) and (d).

8 (b) Rural/Urban

41. For a person who had previously resided outside the place of enumeration ascertain if the place of last previous residence was rural or urban and record the answer. For a person whose last previous residence was a village write 'R'. For a person whose last previous residence was a town/city, write 'U'. For a person who last resided in a foreign country write 'X'. For a person whose last previous residence cannot be classified, write 'Not known'.

Rural or Urban status has to be determined with reference to the time of migration from the place of last previous residence to the place of enumeration.

For helping the person to determine whether a place was rural or urban, you may mention important urban characteristics as indicated in the instructions against item 7(b) in para. 33.

8 (c) District

42. For a person who had previously resided in another place, i.e., for whom 'PL' is not written against sub-item (a) you have to fill in this item in the manner indicated below:

For a person who previously resided in another village or town within the district of enumeration write 'D'. For a person who previously resided in another district of the State/Union Territory of enumeration or of other State/Union Territory in the country, write the name of the district. If he cannot name the district write 'Not known'. For a person whose last previous residence was outside India write 'X' against this sub-item.

8 (d) State/Country

43. For a person whose last previous residence was outside the village or town of enumeration but within the State or Union Territory of enumeration write 'X' against this item but if it was outside the State or Union Territory of enumeration but within the country write the name of the State/Union Territory. For a person whose last previous residence was outside the country write the name of the country and if name of the country is not forthcoming write the name of the continent.

For persons who had not moved out at all from the present place of enumeration from birth (except for purely temporary stay) this sub-item need not be filled and 'X' should be put in respect of persons against this sub-item.

Question 9: Duration of Residence at the village or town of Enumeration

44. Note here the period of the existing continuous residence in the village or town where the person is being enumerated, in completed years. This will apply to even a person born at the place of enumeration. If he had left this village or town and had lived elsewhere for sometime, i.e., in Q. 8 another place of last residence is reported and has come back again to this village or town, then the duration of residence to be noted against this question is the period of the last continuous residence. But if a person had been away on a temporary visit or tour, etc., that should not be taken as a break in the period of his continuous residence here. If the person was born at the place of enumeration and also had no other place of last residence, i.e., 'PL' has been noted in Q. 8(a) then 'X' may be put against Q. 9.

For a person whose duration of continuous residence at the place of enumeration is less than 1 year, it should be noted as 'O'.

Question 10: Religion

45 In answering this question use the following abbreviations :

H : Hinduism

I : Islam

C : Christianity

S Sikhism

B : Budhism

J : Jainism

For others record the actual religion as returned fully.

46. If a person says that he has no religion it may be recorded accordingly. Do not mistake religion for caste which will not be recorded here.

Question 11 : Scheduled Caste or Scheduled Tribe

47. You have been furnished with a list of scheduled castes and scheduled tribes notified for your State. Ascertain if the person enumerated belongs to a scheduled caste or scheduled tribe and if he does, then record the name of the scheduled caste or scheduled tribe which should find place in the list furnished to you. The answer should be recorded against the correct rectangle provided for the purpose against this question. For a person who is not a member of any scheduled caste or scheduled tribe write 'X in both the rectangles.

48. If the person belonging to a scheduled caste or scheduled tribe returns his caste or tribe by synonym or generic name of a caste or a tribe it should be entered only if it finds a place in the list furnished to you. Do not write the names of scheduled castes in general terms as 'Harijan' or 'Achhut'. You should ascertain the name of the caste when it is returned and write it in the rectangle provided for recording the same. Similarly, do not write the names of scheduled tribes in general term as 'Adivasi'. You should ascertain the name of the tribe when it is returned and write it in the rectangle with broken lines provided for recording the same. If a person is negligent and insists on calling himself merely 'Harijan' or 'Achhut' or 'Adivasi' as the case may be, tell him that this description is not adequate for census purposes and persuade him to give out the actual name of the caste or tribe. You should make all efforts to ascertain the correct name of the scheduled caste or scheduled tribe as found in the notified list. If the person merely claims to be a scheduled caste or scheduled tribe but says that he does not belong to any of the notified communities applicable to the area, he will not be entered as a scheduled caste or scheduled tribe.

49. Scheduled castes can belong only to the Hindu or Sikh religions. If a person belongs to scheduled caste, there will be either 'H' or 'S' in the answer to question 10. Scheduled tribes may belong to any religion.

Question 12 : Literacy (L or O)

50. *Definition of a literate* : A person who can both read and write with understanding in any language is to be taken as literate. A person who can merely read but can not write is not a literate.

51. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard.

52. For a person who is literate, i.e., who can both read and write, record 'L' in the triangle against question 12. If there is any doubt about a person's ability to read or write, the test that may be applied for reading is his/her ability to read any portion of the printed matter in the Enumerator's Instructions and similarly for writing he/she should be able to write a simple letter. Ability merely to sign one's name is not adequate to qualify a person as being able to write with understanding. If a person claims to be literate in some other language with which the enumerator is not acquainted, the respondent's word has to be taken as correct. Other members of the household may also be able to testify to the literacy of the person enumerated.

53. For a person who is illiterate, i.e., who can neither read nor write or can merely read but cannot write, in any language, write 'O' in the triangle against question 12. All children of the age of 4 years or less should be treated as illiterate even if the child is going to a school and may have picked up reading and writing a few odd words.

Question 13 : Educational level

54. This question will be asked of those for whom 'L' has been recorded against question 12. For a person who is illiterate and 'O' has been put against him in the answer to question 12, there is no advantage in ascertaining the educational level even if he had at some stage attended school and passed a standard and had relapsed into illiteracy. In such a case you should put 'X'. You have to ascertain and record the highest educational level attained by a person for whom 'L' is recorded in answer to question 12.

55. For a person who is still studying in a particular class, the highest educational level attained by him will be one that he has actually passed and not the one in which he is studying. For example, a person studying in 1st year B. A. should be recorded as only 'PUC' or 'Higher Secondary', as the case may be. Similarly, a person studying, say, in the 4th year of 'MBBS' should not be noted as 'MBBS' but as 3rd year 'MBBS' which is the highest level he has actually attained. If you are not sure whether a person has passed Primary, Middle, Higher Secondary or other definite levels, you may record the actual standard passed such as say IIIrd standard, VIIIth standard, 1st year B. Com., etc.

The highest educational level attained by the person enumerated should be recorded. When a person holds both general and technical qualifications both of which are of equivalent level such as say B. Sc. (Zoology) and M.B.B.S. or B.A. (Maths.) and B.E. (Bachelor in Engineering), the technical qualification should be given preference in recording the highest educational level attained. Where the general educational level is higher than the technical educational level or where it is not possible to decide which of the two levels is relatively higher, the highest level of education as returned by the person concerned should be recorded.

In recording the highest educational level of a graduate or a post-graduate, subject of specialisation such as, B. Sc. (Maths.), M.A. (Economics), M.Sc. (Botany), B.Sc. (Agriculture), etc., should be noted. You should not use abbreviations which are not in common use. In such cases, the degree or diploma should be spelt out fully.

56. Whenever you come across graduates or post-graduates as also those with a technical diploma or degree, you will have to issue him a "Degree-holder and Technical Personnel Card" and ask the person concerned to fill it. You should note the location code on the card while issuing it. Put a tick (√) after noting the educational level against question 13 immediately after you issue a card. When you collect it after some time but before you complete the enumeration of your area, cross the tick and put a circle as 

You will have to ensure that the card issued to all the graduates and the technical degree or diploma holders are collected back. The non-crossed tick, if any, against question 13 will show that the card has not been collected.

Question 14 : Mother-tongue

57. *Definition* : Mother-tongue is the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother-tongue. In the case of infants and deaf mutes the language usually spoken by the mother shall be recorded.

58. Record mother-tongue in full whatever be the name of the language as returned and avoid use of abbreviations. You are not expected to determine if the language returned by a person is the dialect of another major language and so on. You should not try to establish any relationship between religion and mother-tongue. *You are bound to record the language as returned by the person as his mother-tongue and you should not enter into any argument with him and try to record anything other than what is returned.* If you have reason to suspect that in any area due to any organised movement, mother-tongue was not being truthfully returned, you should record the mother-tongue as actually returned by the respondent and make a report to your superior Census Officers for verification. You are not authorised to make any correction on your own.

Question 15 : Other languages

59. After recording the mother-tongue in question 14 enquire whether the person knows any other language(s), Indian or foreign and record language(s) returned by him against this question. In case he does not know any language apart from his mother-tongue put 'X' against this question.

60. The number of languages recorded under this question need not be more than two. These languages should be other than his mother-tongue and they should be recorded in the order in which he speaks and understands best and can use with understanding in communicating with others. He need not necessarily be able to read and write these languages. It is enough if he has a working knowledge of these subsidiary languages to enable him to converse in that language with understanding.

Question 16 : Main Activity

61. Every person will be asked what his main activity is, that is, how he engages himself mostly. For the purpose of this question, all persons will get themselves divided into two broad streams of main activity, namely, (1) as workers and (2) as non-workers according as the type of main activity that the person returns himself as engaged in mostly.

62. *'Worker' defined :* A 'worker' is a person whose main activity is participation in any economically productive work by his physical or mental activity. Work involves not only actual work but effective supervision and direction of work.

63. *Reference periods :* The reference period is one week prior to the date of enumeration in the case of regular work in trade, profession, service or business. If a person had participated in any such regular work on any one of the days during this reference period and this has been returned as his main activity, the person will be categorised accordingly. A person who normally works but had been absent from work during this reference period on account of illness or travel, holiday, temporary breakdown, strike, etc., the person should be treated as engaged in regular work in which he would have otherwise been employed but for his temporary absence. Persons under training such as

apprentices with or without stipends or wages should be considered as economically active and recorded as working. A person who has merely been offered work but has not actually joined it, is not to be treated as engaged in work.

64. There are certain types of works which are not carried on throughout the year such as cultivation, live-stock keeping, plantation work, some types of household industry, etc. A person's *main* activity should be ascertained with reference to such work in the last one year even if he was not economically active in the week prior to enumeration. It is likely that even when a person is engaged in some other work during the period of one week prior to the date of enumeration, the main activity of the person may be cultivation, agricultural labour or some other work attended to normally by him in the course of the year. Care must be taken to see that the main activity is properly ascertained in such cases. For example, a person's main activity may be agricultural labour and in the week prior to enumeration he may be engaged as a sugar-cane factory labourer or as a road cooly. He should be categorised for his main activity as agricultural labourer only as returned by him as he engages himself mostly in that work and the other work should be treated as his subsidiary work.

65. A man or woman who is engaged primarily in household duties such as cooking for own household or performing one's own household duties or a boy or a girl who is primarily a student attending institution, even if such a person helps in the family economic activity but not as a full time worker should *not* be treated as a worker for the main activity. On the other hand, if a person is primarily engaged in some economic activity but at the same time does also attend to some household chores or attends a night school, etc., he or she should be treated basically as a worker for the main activity and categorised accordingly.

66. A person who merely receives an income such as a rent receiver or a pensioner who does not have to work for receiving the income, will not be treated as economically active unless the person is also engaged in some economic activity and if that activity is returned as the main activity of the individual.

Q. 16(a) : Broad Category (i) Worker (C, AL, HHI, OW) (ii) Non-worker (H, ST, R, D, B, I, O)

67. The main activity returned by the person will entitle him to be categorised either as a worker in 16 (a) (i) or as a non-worker under 16 (a) (ii).

16 (a) (i): Worker (C, AL, HHI, OW)

68. Where the main activity of a person qualifies him to be treated as a worker he should be further categorised according to the type of work and one of the appropriate abbreviations indicated against this question should be entered in the box provided for the purpose. If the person is not engaged in any economic activity an 'X' should be noted in the box. The abbreviations to be used for workers are explained below.

C : Cultivator

69. For a person who returns his main activity as working as a cultivator, the abbreviation 'C' should be used.

70. *Definition of Cultivator :* For purposes of the census a person is working as Cultivator if he or she is engaged in cultivation by oneself or by supervision or direction in one's capacity as the owner or lessee of land held from Government or as a tenant of land held from private persons or institutions for payment of money, kind or share.

71. Cultivation involves ploughing, sowing and harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and pulses, raw jute and kindred fibre crop, cotton, etc., and other crops such as sugar-cane, groundnuts, tapioca, etc., and does not include fruit growing vegetable growing or keeping orchards or groves or working of plantations like tea, coffee, rubber, *cinchona* and other medicinal plantations.

72. A person who merely owns land but has given out land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, will not be treated as working as cultivator. Similarly, a person working in another person's land for wages in cash, kind or share (Agricultural labourer) will not be treated as cultivator in this question.

AL : Agricultural Labourer

73. A person who returns his main activity as engaged as agricultural labourer, the abbreviation 'AL' should be used in the box.

74. *Definition of an Agricultural Labourer* : A person who works in another person's land for wages in money, kind or share should be regarded as an agricultural labourer. He has no risk in the cultivation but he merely works in another person's land for wages. The labourer could have no right of lease or contract on land on which he works.

H.H.I. : Household Industry

75. For a person who returns his main acitvity as engaged in some production, processing, servicing or repair of articles of goods such as, say, handloom weaving, dyeing carpentry, *bidi* rolling, pottery manufacture, bicycles repairing, blacksmithy, tailoring, etc., it has to be ascertained if it is a household industry, and if so, it should be indicated by the abbreviation 'HHI' in the box.

Definition of a Household Industry

76. A Household Industry is defined as an industry conducted by the Head of the household himself/herself and/or mainly by the members of the household at home or within the village in rural areas and only within the premises of the house where the household lives in urban areas. The industry should not be run on the scale of a registered factory.

77. The main criterion of a Household Industry is the participation of one or more members of a household. This criterion should apply to urban areas too. Even if the industry is not actually located at home in rural areas there is greater possibility of the members of the household participating even if it is located anywhere within the village limits. In the urban areas where organised industry takes greater prominence, the Household Industry should be confined to the precincts of the house where the participants live. In urban areas even if the members of the household by themselves run an industry but at a place away from the precincts of their home, it will not be considered a household industry. It should be located within the precincts of the house where the members live.

78. A Household Industry should relate to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. It does not include professions such as a pleader or doctor or barber, musician, dancer, waterman, *dhobi,* astrologer, etc., or merely trade or business, even if such professions, trade or services are run at home by members of household.

79. Sometimes it is likely that the person who may not be working in his own Household Industry may be working as a petty employee in another Household Industry. You should, therefore, enquire whether the person who is not working in his own Household Industry is working in any other Household Industry as an employee and record as per instructions given above.

OW : Other workers

80. If a person gives his main activity as engaged in any other work which is not cultivation, agricultural labour or household industry, this may be indicated by merely noting 'OW' in the box. The type of workers that may come under the 'Other Workers' category are factory workers, those working in trade or transport, all Government servants, municipal employees, teachers, mining workers, political or social workers, building labourers, etc., etc. In effect, all types of economic activity not covered by cultivation, agricultural labour or household industry will come under this residual category. Workers engaged in plantation or forestry should not be treated as cultivators or agricultural labourers but as 'Other workers.'

81. Further details pertaining to this 'Other' category of workers, as also those engaged in household industry, will be recorded in the subsequent sub-parts (b) to (f) of question 16.

16 (a) (ii) : Non-worker (H, ST, R, D, B, I, O)

82. As was stated earlier, question 16 is intended to ascertain the main activity of every individual whether he or she is economically active or not. While 16 (a) (i) helps to broadly categorise all those who have returned some work as their main activity, 16 (a) will help to categorise those whose main activity is not engaged in any economically productive work, but are basically non-workers. These may be categorised under seven broad heads whose abbreviations are indicated against this question. The appropriate abbreviation will have to be entered in the box provided. The abbreviations are explained below :

H : Household Duties

83. This covers all those persons basically engaged in unpaid home duties doing no other work, or even if such a person may also be participating in some other work, it is not to the same extent as a whole-time worker and if the person has returned his or her main activity as attending to household duties. The main activity of such a person should be entered as 'H'. If a person whose main activity is attending to household duties, also engages oneself in some other economic activity such as helping in family cultivation or preparing cowdung cakes at odd times for sale, etc., that economic activity will be covered as secondary work under question 17. On the other hand, a woman who works primarily as a factory worker or a plantation labourer or an agricultural labour or in some office or shop, etc., and also attends to household duties, obviously her main activity will be the economic activity in which she is mostly engaged in and should not be categorised as 'H' for her main activity in this question. She should have been treated basically as a worker and her main economic activity should have been recorded against 16 (a) (i).

ST : Student

84. This refers to those whose main activity is returned as a student. This will cover all full-time students or children attending school. Even if such persons perticipated in some work but not to the same extent as a full-time worker, by merely helping casually as an unpaid family worker in family cultivation, household industry, trade or business, they should be treated primarily as students, if that is their main activity. 'ST' should be entered in the box. The other economic activity, if any, that such persons attend to will be reflected under question 17 as secondary work.

R : Retired person or a Rentier

85. A person who has retired from service and is doing no other work, i.e., not employed again in some full-time work or does not engage himself in some other work as cultivation, in business, trade, etc., or a person who is a rentier or living on agricultural or non-agricultural royalty, rent or dividend, or any other person of independent means for securing which he does not have to work, will come under this category. 'R' should be noted in the box for a person coming under this category.

D : Dependent

86. This category will include all dependents such as infants or children not attending school or a person permanently disabled from work because of illness or old age. If a girl or an old woman attends to household duties she should be categorised under 'H' for her main activity rather than 'D'.

Dependents will include all non-workers even if able-bodied who have no other activity coming under any of the categories of non-workers and who are not seeking any work either but are purely dependent.

B : Beggars, etc.

87. This will cover beggars, vagrants or such cases as independent women without indication of source of income and those of unspecified sources of subsistence and who are not engaged in any economically productive work.

I : Institutions

88. This will cover convicts in jails or inmates of a penal, mental, or charitable institution, even if such persons are compelled to do some work such as carpentry, carpet weaving, vegetable growing, etc., in such institutions. An under-trial prisoner in a jail should not, however, be brought under this category but has to be indicated according to the main activity he was engaged in before he was apprehended. Inmates of such institutions will be noted as 'I'.

O : Other Non-workers

89. This will include all non-workers who may not come under any of the six categories above but are seeking work, they should be noted as 'O' in the box. A boy or girl who has completed education or has stopped studying and is

seeking work, will come under this category. If a person is merely spending his time at home as a dependent and is not doing any work and is not seeking any work will come under 'D' rather than 'O'. A person irrespective of age and whether educated or not, if he reports that he is not engaged in any other activity but is seeking work will come under this category.

90. If the main activity of the person who is enumerated does not qualify a person to be treated as a worker and he does not fall under any of the four broad categories of workers covered by 16 (a) (i) and an 'X' has been put in the box against the question, then he must necessarily be categorised under any one of the seven broad types of non-workers and the appropriate abbreviation entered in the box opposite to question 16 (a) (ii). Conversely if a person has already been treated as a worker and his main activity has been indicated in the box against question 16 (a) (i), then question 16 (a) (ii) will not apply to the person and an 'X' should be put in the box against question 16 (a) (ii). Thus 16 (a) (i) and 16 (a) (ii) are mutually exclusive.

Questions 16 (b) to 16 (f)

91. These sub-parts of question 16 will have to be filled only to describe the details of the household industry or other work indicated against question 16 (a) (i). If the main activity has been shown as 'C' or 'AL' against 16 (a) (i), there is no need to give the details of the cultivation or agricultural labour in these sub-sections.

92. Similarly, if the main activity of an individual has been returned as a non-worker against 16 (a) (ii), sub-section (b) to (f) will not apply and a cross may be put right across all these questions.

Q. 16 (b) : Place of work (Name of village/town)

93. Ascertain from each person who is already taken as a worker other than in cultivation or agricultural labour i.e., question 16 (a) (i) has been answered as HHI or OW, the village or town where he or she works. If the place or work is the same as the village or town of enumeration write 'PL'. In all other cases you should write the name of the place fully. If a person has no fixed place of work such as, say, a travelling vendor of vegetables or a pedlar or a rickshaw puller who may go from one village or town to another, note 'No fixed place of work'. If he works in one particular town or village that should be noted.

Q. 16 (c) : Name of Establishment

94. This question and the subsequent sub-sections of question 16 need not be answered for cultivators and agricultural labourers who are already noted as 'C' or 'AL' against question (16) (a) (i).

Record here the exact name of the factory, firm, work-shop, business house, company, shop, office, etc., and in respect of public offices you should clearly indicate whether they are Central or State Government or local body offices, etc. If the establishment does not have any definite name such as, say, in the case of a household industry like hand pounding of rice, gur making, bee keeping, handloom weaving, potter's house, blacksmithy, etc., note 'No particular name'.

Q. 16 (d) : Nature of Industry, Trade, Professions or Service

95. The answer to this question will have to be adequately precise to enable proper classification of the sector of economy in which the person is working. The sector of economy in which a person works may relate to (i) Plantation, Forestry, Fishing, Livestock, etc., (ii) Mining and/or Quarrying, (iii) Manufacturing, (iv) Construction, (v) Electricity, Gas or Water Supply, (vi) Transport and Communications, (vii) Trade and Commerce, (viii) Professions and Services. Full details of the type of industry, trade, profession or service in which the person is engaged will have to be recorded here.

Q. 16 (e) : Description of work

96. This question has to be filled up for all persons for whom the main activity is shown as 'HHI' or 'OW' in question 16 (a) (i) and for whom you should have also to answer the other sub-sections of question 16. Under this question, the description of the actual work that the person enumerated is doing is to be recorded irrespective of which type of industry, trade, profession or service he may be working and which is already recorded under question 16 (d). His actual work should also be given in sufficient detail. If for example a person is merely recorded as say, clerk with no other details, it will be impossible to properly categorise him as to the type of work he does. He may be a clerk attending to correspondence or book keeping or accounting. Similarly if a person were merely to be recorded as a mechanic, it will not help to determine what type of mechanic—electrical mechanic, or a motor mechanic or a locomotive mechanic, etc., he is. The description of the actual work done by a person should be ascertained in adequate detail and recorded against this question.

97. It has been found in the past that substantial number of persons are recorded merely as general labourers. It is necessary to make a probe and find out in which type of work he is mostly engaged as a labourer such as, say, a road coolie, a loader or unloader at a market, a construction labourer, etc.

98. For those in Military service it is enough if it is merely noted as 'in the service of the Central Government'. Other details need not be given.

General

99. There need be no confusion as to the scope of 16 (d) and 16 (e). 16 (d) would represent the nature of industry, trade, profession or service, i.e., the field of economic activity in which a person is engaged in work and 16 (e) represents the occupation or the actual work that the person does in the industry, trade, profession or service in which he is engaged. Thus, for example the answer to question 16 (d) may be say Cotton Textile manufacture and the answer to question 16 (e) may be Chemical Engineer in that industry or a clerk or an accountant in that industry or a labourer in that industry or a truck driver or the managing director of that industry and so on. Similarly in question 16 (d) the nature of service may be some department of the State Government Service and in question 16 (e) the description of work may be a clerk or an accountant, a Director of the Department, jeep driver in the Department, etc., etc. Again say, against question 16 (d) the answer may be private medical practice and in 16 (e) may cover orthopaedic surgeon, or nurse or a sweeper, etc., working in that private medical practitioner's nursing home.

Q. 16 (f) : Class of worker

100. For a person who is ;

(i) an Employer, that is, who hires one or more persons in his work described in question 16 (e), write ... ... ER

(ii) an Employee, that is, who does his work described in question 16 (e) under others for wages or salary in cash or kind, write ... ... EE

(iii) a Single Worker, that is, who is doing his work described in question 16 (e) without employing others except casually, and without the help of other members of the family except casually and a participant in work as members of co-operatives, write ... ... SW

(iv) a Family Worker, that is, who is doing his work described in question 16 (e) in a family enterprise along with other members of the family without wages or salary in cash or kind, write ... FW

For a person for whom an 'X' is put in questions 16 (d) and 16 (e) put an 'X' in this question also.

Explanation :

101. An Employer is a person who has to employ other persons in order to perform the work entered in question 16 (e). That is to say, such a person is not only responsible for his own personal work but also for giving work to others in business mentioned in question 16 (e). But a person who employs domestic servants for household duties or has subordinates under him in an office where he is employed by others, is not an employer, even if he has the power to employ another person in his office on behalf of his own employer or employers.

102. An Employee is a person who usually works under some other person for salary or wages in cash or kind. There may be persons who are employed as managers, superintendents, agents, etc., and in that capacity employ or control other workers on behalf of their own employers. Such persons are only employees, as explained above, and should not be regarded as employers.

103. A Single Worker for the purpose of question 16 (f) is a person who works by himself. He is not employed by anyone else and in his turn does not employ anybody else, not even members of his household except casually. This definition of a Single Worker will include a person who works in joint partnership with one or several persons hiring no employees, and also a member of a producer's co-operative. Each one of the partners or members of such producers' co-operatives should be recorded as 'Single Worker'.

104. A Family Worker is a member who works without receiving wages in cash or kind, in an industry, business, trade or service. For example, the working members in a family of *Dhobies* where they all participate and each does not receive wages separately will be family workers. There may be family workers in industry, trade or professions as well. For the purpose of this definition members of a family may be drawn from beyond the limits of the household by ties of blood or marriage. The family worker may not be entitled to a share of the profits in the work of the business carried on either by the person or Head of the Household or other relative.

105. Members of the household who help solely in household duties should not be treated as family workers.

106. In the case of persons engaged in household industry, i.e., in the case of persons for whom the answer to question 16 (a) (i) is 'HHI,' there will be three classes of workers, *viz.*, Family Worker, Single Worker and Employee. There will be no Employer. Household industry by its very definition is conducted by the head of the household himself or/and other members of the household, the role of hired workers being secondary. If the head along with the members of the household is working in a household industry employing hired workers, the head and other members who are working should be treated as 'Family workers'. If the head alone is working with the assistance of hired worker (s) whose role would be secondary as indicated above, he would be treated as a 'Single worker'.

Question 17 : Secondary work

107. This question should be asked of every person whether he has returned some work as his main activity against 16 (a) (i) or had returned himself under any of the basically non-working categories against question 16 (a) (ii). As was noted earlier, 16 (a) (ii) will cover cases like persons performing household duties or students who may not be engaged in any other economically productive work at all, as also those who, though basically are performing household duties or students, etc., for the purpose of their main activity, still participated in some other economic activity such as helping the household in several items of work, as in cultivation or in household industry or in looking after the cattle, in attending to family business, etc., but not to the extent as a full-time worker. Such participation will be considered as secondary work of these persons.

108. Ask of each person if, besides what he had already returned as his/her main activity against question 16 (a) (i) or 16 (a) (ii), he/she participated in any secondary work. A number of unpaid family workers participating in the household enterprises, who might have returned themselves mainly as 'H' or 'ST' or 'R' under question 16 (a) (ii) for their main activity will be netted here for their economic activity which is subsidiary. Mere rendering of service for one's own home or production of goods for purely domestic consumption are not to be treated as economic activity. For example, a servant who works as a cook in his or her employer's home for wages will be considered economically active but, a housewife, even if she may work much more than a paid servant, in having to cook for the family or looking after the household will not be treated as economically active for the purpose of this classification. Similarly, women who may produce cloth on a loin loom at home for domestic consumption will not be treated as economically active unless the products are sold and the household derives an income. Participation in work that goes to augment the income of the household will only be treated as economic activity. A boy whose main activity is shown as a student under 16 (a) (ii), can have the secondary work of say, cultivation if he helped the head of the household in the family cultivation during some parts of the season. But if a girl student, whose main activity is shown as 'ST' under 16 (a) (ii), also helped in weaving cloth purely for domestic consumption on a loin loom at home, or

helped in attending to household chores, she will not be treated as having any secondary work. Secondary work will be reckoned only if the person is engaged in some economic activity even if marginal in addition to whatever is the main activity under question 16. A person whose main activity is shown as, say, a clerk in a Government Office or a teacher under question 16, also attends to some cultivation by his direct supervision or undertakes some tuition, this will be shown as secondary work under question 17. A person's main activity may be cultivation in question 16 and his subsidiary activity money lending in question 17. Again main activity may be agricultural labourer and subsidiary work sugar factory labourer and so on and so forth.

109. The instructions for the usage of abbreviations in categorising workers under 16(a) (i) and filling in the details under 16 (b) to (f) will apply *mutatis mutandis* to question 17 (a) to (f), except that while question 16 (o) (i) will cover the main work, Q. 17 (a) is intended to cover secondary work which may be possibly part-time. It may also be noted that the non-working categories of activity will not be reported as secondary work under question 17.

ANNEXURE IV

CENSUS CALENDAR, 1971—ORISSA

First stage—House-numbering and Houselisting

June 1969	...	*(i)* Discussions with the State Government regarding appointment of Census Officers
		(ii) Arrangements for preparation of up to-date Town/ City/Police Station and District Maps
		(iii) Recognition of new towns and declassification of existing ones if they did not satisfy the definition of a town.
July 1969	...	*(i)* Action under all items set down for June to continue
		(ii) Checking up of Police Station Maps with Village lists and assigning location code numbers
		(iii) Preparation of General Village Register
		(iv) Collection of area figures from Tahasildars/Local Bodies in respect of villages/towns
		(v) Review of progress in regard to delineation of Standard Urban Area
		(vi) Issue of 1st Circular by Superintendent of Census Operations to District Census Officers explaining the Census process and outlining the programme in its different phases
August 1969	...	*(i)* Further action under items for June and July to continue
		(ii) Finalisation of List of Census Towns
		(iii) Finalisation and printing of forms of (a) Village Register (b) Town Register (c) Circle Register (d) Charge Register
		(iv) Arrangement for collection of area figures from the Director of Land Records
		(v) Arrangement for collection of administrative statistics for Part I of Town Directory from various agencies
		(vi) Finalisation of questionnaire for collection of statistics for Village Directory through houselisting agency
		(vii) First conference of District Census Officers
September 1969	...	*(i)* Formation of Charges and appointment of Charge Officers
		(ii) Completion of preparation of up-to-date Police Station/Town/District maps
		(iii) Assigning location code numbers to districts, police stations, towns and villages
		(iv) Completion of preparation of General Village Register

		(v) Despatch of printed forms of different registers to District Officers
		(vi) Preparation of Town Register by the Charge Officers
		(vii) Preparation of Charge Maps
		(viii) Issue of instructions for constitution of Blocks and Supervisors' Circles for House-numbering
		(ix) Collection of area figures from Director of Land Records/other local authorities to continue
		(x) Finalisation of recommendations of Standard Urban Area in consultation with State Town Planning Organisation
		(xi) Collection of administrative statistics for Part I Town Directory to continue
October 1969	...	(i) Completion of residual work, if any, carried over from previous month
		(ii) Provisional delimitation of Blocks and Supervisors' Circles for House-numbering
		(iii) Preparation of inventory of Census personnel, viz., Supervisors and Enumerators
		(iv) Preparation of Circle Register and Charge Register
		(v) Collection of area figures from the Director of Land Records and other agencies and their reconciliation
		(vi) Notification of Census Questionnaire and instructions in the Official Gazette as required under the Census Act
		(vii) Issue of Circular explaining Houselisting operations
		(viii) Preparation of Notional maps of villages
November 1969	...	(i) Despatch of Houselists, Establishment Schedules and Instruction Booklets to District Census Officers and Charge Officers
		(ii) Training classes of District Officers, Subdivisional Census Officers and Charge Officers in House-numbering and Houselisting and Establishment Schedules
		(iii) Final selection and appointment of Supervisors and Enumerators
		(iv) Appointment of clerks for the District and Charge Offices
		(v) Preparation of Notional maps and Lay out sketches of villages
December 1969	...	(i) Training classes for District Officers to continue
		(ii) Drawing up of a training programme for Enumerators and Supervisors for Houselisting
		(iii) Distribution of Instruction Booklets with requisite number of copies of Schedules for training of Supervisors and Enumerators
		(iv) Preparation of Notional maps and Lay out sketches
		(v) Training classes for the Enumerators and Supervisors for House-numbering and Houselisting operations including practical exercise through Training Schedules
		(vi) Publicity for Houselisting

January 1970		*(i)* Training classes for Enumerators and Supervisors to continue
		(ii) Payment of cost of House-numbering materials to Enumerators
		(iii) Distribution of Houselists and Establishment Schedules, etc., to Enumerators and Supervisors
		(iv) Completion of Notional maps with Lay out sketches
		(v) Publicity for Houselisting
February 1970	...	*(i)* House-numbering
		(ii) Houselisting and canvassing of Establishment Schedules
		(iii) Preparation of Houselist Abstract
		(iv) Preparation of second copy of the Houselists, Establishment Schedules and Houselist Abstracts and two more copies of Notional maps and Lay out sketches
		(v) Final check of Houselists, Establishment Schedules, Abstracts, etc., by the Supervisors and collection of records
		(vi) Setting up of Tabulation Office
March 1970	...	*(i)* Transmission of Houselists, Establishment Schedules and other records to Charge Officers
1st to 10th March	...	*(ii)* Scrutiny of Houselists, Establishment Schedules, Abstracts and Lay out sketches by Charge Officers
		(iii) Despatch of Houselists and Abstracts by Charge Officers to District Census Officers
		(iv) Verification of Records by District Census Officers
10th to 15th March	...	*(v)* Scrutiny and verification of the Houselists, Establishment Schedules, Abstracts, etc., in the District Census Offices and despatch thereof to the Director of Census Operations, Orissa
15th March 1970 to 15th April 1970		Checking of Houselists for completeness—Sampling of Houselists—Coding and Punching of Houselists and Establishment Schedules commence in Tabulation Office
		(Separate programme to be drawn up for setting up of Tabulation office and completion of Tabulation Operations)
		Second stage—Enumeration
By 1st week of November 1970		*(i)* Completion of formation of Enumerators' Blocks and Supervisors' Circles
		(ii) Issue of letters of appointment of Enumerators and Supervisors
		(iii) Training of Officers, selected for imparting training to Enumeration staff
By 2nd week of November 1970		Finalisation of Training Programme of Enumerators and Supervisors

By 3rd week of November 1970		Meeting of all Training Officers, Enumerators and Supervisors at C. D. Block Headquarters to attend to the following main items of work among others (Para. 7 of Director's Circular No. 7)
		(*i*) Distribution of Instruction Booklets and training forms to Enumerators and Supervisors
		(*ii*) Checking up of receipt of appointment orders by individual Enumerators and Supervisors including reserve
		(*iii*) Announcement of the Training programme by centres to individual Enumerators and Supervisors
		(*iv*) Disbursement of balance amount, if any, of honorarium to Enumerators and Supervisors on account of houselisting work
By end of November 1970		(*i*) First round of training to Enumerators and Supervisors at different centres
		(*ii*) Preparation of ruplicate copies of Abridged Houselist through Census clerk attached to charge or through Enumerators
December 1970 and January 1971		Training of Enumerators and Supervisors at all centres as per training programme
		In between the training classes the Enumerators should go round their respective areas of Jurisdiction and bring the Abridged Houselist and lay out sketch up-to-date. One neat copy of the lay out sketch of each block should be prepared (Paras 8 and 9 of Director's Circular No. 8). This must be completed by the 15th of January 1971
First fortnight of December 1970	...	Despatch of Individual Slip Pads and other Census Schedules to District Offices
By end of December 1970	...	Despatch of Census Pads and forms, etc., from District Offices to Charge Offices to be completed
By 2nd week of January 1971	...	Despatch of pads and forms, etc., by Charge Officers to different training centres for distribution to Enumerators and Supervisors (Under proper acquittance)
3rd week of January 1971	...	Distribution of requisite number of pads and forms to individual Enumerators and Supervisors (Excluding reserve) under proper acquittance in Register No. VI (Enumeration)
February 1971		Refresher course of training to Census personnel at their respective Centres
10th March 1971 to 31st March 1971	...	Enumeration
31st March 1971 night		Enumeration of houseless population
Ist to 3rd April 1971	...	Revisional round
3rd/4th April 1971	...	Supervisors' provisional total abstracts together with Enumerators' Abstracts and records to reach the Charge Officer
4th/5th April 1971	...	Consolidation of population figures in Charge Provisional Total Abstract form and transmission of Charge totals in standard message form by Express Telegram/Wireless/ Special messenger by the Charge Officers to the District Census Officers and the Director of Census

5th/6th April 1971	...	Compilation of figures in District office and communication of District totals by the District Census Officer to the Registrar General, India and the Director of Census in standard message form by Express Telegram
6th/7th April 1971	...	Consolidation of State and District totals at the Directorate and transmission of the same to the Registrar General, India by Telegram/Wireless
7th April 1971	...	Compilation of further details of the provisional figures from the Enumerators' Abstracts by the Charge Officer in Charge Abstract form and transmission of one copy of the same to the District Census Officer and another to the Director of Census Operations by post
8th April 1971	...	Compilation of District statement by the District Census Officer and despatch of one copy to the Registrar General, India and another to the Director of Census by post
10th April to end of April 1971	...	District Census Officers to send the records to the respective Regional Tabulation Offices located at Cuttack, Berhampur and Sambalpur

ANNEXURE V

UP-DATED LISTS OF SCHEDULED CASTES AND SCHEDULED TRIBES OF ORISSA

[As contained in the Scheduled Castes and Scheduled Tribes lists (Modification) Order, 1956 and subsequent Corrigenda and Notifications]

SCHEDULED CASTES

1. Adi Andhra
2. Amanat or Amat
3. Audhelia
4. Badaik
5. Bagheti or Baghuti
6. Bajikar
7. Bari
8. Bariki
9. Basor or Burud
10. Bauri
11. Bauti
12. Bavuri
13. Bedia or Bejia
14. Beldar
15. Bhata
16. Bhoi
17. Chachati
18. Chakali
19. Chamar, Mochi, Muchi or Satnami
20. Chandala
21. Cherua or Chhelia
22. Chandhai Maru
23. Dandasi
24. Dewar
25. Dhanwar
26. Dhoba or Dhobi
27. Dom, Dombo or Duria Dom
28. Dosadha
29. Ganda
30. Ghantarghada or Ghantra
31. Ghasi or Ghasia
32. Ghogia
33. Ghusuria
34. Godagali
35. Godari
36. Godra
37. Gokha
38. Gorait or Korait
39. Haddi, Hadi or Hari
40. Irika
41. Jaggali
42. Kandra or Kandara
43. Karua
44. Katia
45. Kela
46. Khadala
47. Kodalo or Khodalo
48. Kori
49. Kummari
50. Kurunga
51. Laban
52. Laheri
53. Madari
54. Madiga
55. Mahuria
56. Mala, Jhala, Malo or Zala
