INTRODUCTION

Census Procedure—The Census of 1961, was held from 10th February to 5th March, 1961. An army of trained enumerators was employed for collecting information on a Census Slip in respect of each individual after making house to house visits. The enumeration period for this purpose extended from 10th February to 28th February, 1961. The actual Census date fixed by the Government of India, was the sunrise of the 1st March, 1961, with reference to which all the information collected during the enumeration period was verified and amended by the enumerators during the revisional round from 1st to 5th March, 1961. Births which had not been noted during the first round were recorded, deaths that had occurred between the visit of the enumerator and the reference date were cancelled and new births which had occurred after the visit of the enumerator up to the reference date were included.

In all the 26 districts of Rajasthan State, the Collector of the district acted as the District Census Officer and under his over-all supervision arrangement for enumeration of the population was made. Every Sub-Divisional Officer was designated as Sub-Divisional Census Officer and every tehsildar of a tehsil as the Charge Officer. Each Charge was divided into well-defined blocks and Enumerators were appointed for each block. Over five blocks a supervisor was appointed incharge of his Circle. In some Charges a Deputy Charge Officer was appointed to lighten the burden of the Charge Officer. Special Charges were constituted to cover population residing in Defence areas, Railway colonies, large industrial and labour colonies and important institutions *viz.* hospitals, hostels etc. and Special Charge Officers were appointed for this purpose under whom enumerators and supervisors worked.

All the areas of Rajasthan were covered during the prescribed period of enumeration. There were no non-synchronous areas in Rajasthan for which special arrangement was required to be made at this Census. The period of 24 days for enumeration, including revisional round, was devised primarily to reduce the burden of enumerators who were drawn from different sources and to enhance the accuracy of Census.

Pretests—Three types of Census schedules, *viz.* house-list, household schedule and Census Slip were to be used at this Census. These were put to pre-test for the first time in order to judge the reaction of the population and to bring out any defects that may be in the draft schedules. The first pre-test was held under the supervision of the State Director of Economics and Statistics, Rajasthan, and a second pre-test was taken by the State Superintendent of Census Operations through the agency of staff which was to be actually used at the time of Census taking. These pre-tests resulted in substantial modification of the proposed Census schedules.

The Census schedules—consisting of houselists, house-hold schedules and the census slips—were translated into Hindi, which is the regional language, and they were got printed at the Government of India Forms Press, Aligarh, as facilities for printing of such forms in large numbers were not available within the State due to the non-existence of a Rotary Press. In all 500,000 house-lists, 5,750,000 household schedules and 25,000,000 census slips were printed.

Organisation of Census Operations—The preparations for the Census were made during the year 1959-60 in the following six stages:—

1. *Delimitation of Blocks*—Not only several changes have been effected in the State boundaries during the recent times but many territorial changes have also taken place in the internal boundaries to form the districts, tehsils etc. The map-making in the State has not, unfortunately, kept pace with the speed of territorial changes made in the administrative units and so up-to-date maps were not available. The Census Office in the State had, therefore, to take considerable time in sorting out the territorial changes and to incorporate them in the maps of districts and tehsils. In the first instance, a list of places to be treated as towns for this Census was finalised in consultation with the State Government and an urban area was demarcated from the rest of the rural area. A tehsil was taken as the unit for Census administration in the rural areas and every revenue village or mauza comprised within a tehsil was assigned a defined location code number.

A block was constituted of roughly 150 households or 750 persons in rural area. Small villages were grouped together to form a block or one whole village was constituted into a block. In the case of large villages, however, more than one block was formed on the basis of this criteria. There was no difficulty in fixing the boundaries of blocks with reference to villages in rural areas.

In urban area, a block was constituted for a population of approximately 120 households or 600 persons but demarcation of blocks within each ward of a town

was a real problem for up-to-date maps of the residential areas were not available. In large towns having 50,000 or more population, detailed maps were prepared showing blocks having definite geographical boundaries with the assistance of the National Sample Survey Organisation of the Government of India. In other towns the delimitation of blocks was left to the resources of the local Charge Officers. It can, however, be stated that no area of Rajasthan State remained without the formation of blocks.

2. *Census Hierarchy*—After delimitation of blocks and circles for each charge it became necessary to make appointment of enumerators, supervisors and charge officers. One enumerator was appointed for each block. In the case of certain blocks where estimated population was found to be incorrect after the house-numbering house-listing operation, additional enumerators were appointed but in no case boundary of such blocks was interfered with. A supervisor was appointed to look after the work of 5 enumerators. The District Census Officers (Collectors) were provided with a Deputy District Census Officer in each district to assist them in Census work. In large cities, having one lakh and more population, the Additional District Magistrate or the City Magistrate was appointed as the Additional District Census Officer for the City to co-ordinate the work of several Charge Officers because a Charge normally consisted of a population of 50,000 in urban area but in rural area the tehsil formed a Charge in respect of all its population. The work of urban areas was directly controlled by the District Census Officer through the Additional District Census Officer but the Sub-Divisional Officers were responsible for census work and to supervise the Charge Officers in rural areas. In this manner, a carefully planned census hierarchy was established to cover every village in rural area and every part of a town in urban area. In all 26 District Census Officers, 5 Additional District Census Officers for Cities, 26 Deputy District Census Officers for Districts, 82 Sub-Divisional Census Officers and 437 Charge Officers (226 for urban and 211 for rural areas) were appointed apart from 5,483 supervisors and 28,961 enumerators. Non-official persons were not engaged for enumeration. Every central and state government department contributed some staff to build up the army of Census workers.

3. *Numbering and Listing of Houses*—In the beginning it was necessary to number the houses and to locate the households residing therein before undertaking actual enumeration of population. Houses had no numbers in villages and proper numbering does not exist in urban areas. During the period October-November, 1960, all the buildings were numbered and within each building census house(s) and household(s) were determined and numbered and finally an elaborate house-list was prepared for all the areas in Rajasthan. It was a unique feature of this Census to prepare a house-list on a uniform basis in all the States in India. The enumerators worked in the blocks to complete this work and covered in all 3,172,851 census houses and 3,771,119 households containing a population of 20,155,602 persons.

4. *Training*—The Census operations were undertaken both for house-numbering house-listing and enumeration by drawing staff from various Central and State Government departments, municipalities and other rural local bodies. They did not, however, have sufficient back-ground knowledge of Census concepts and procedure. It became necessary to arrange for repeated training of such staff employed on field work and supervisory action. The State Superintendent of Census Operations went round all the districts to hold training classes and practical demonstrations for the benefit of District Census Officers, Additional District Census Officers of cities, Deputy District Census Officers of the districts, Sub-Divisional Census Officers, Charge Officers and Deputy Charge Officers. At his suggestion some supervisors and enumerators were also called to attend such classes and demonstrations. To facilitate training of staff printed manuals containing instructions on house-numbering/house-listing and enumeration were distributed both in English and Hindi prior to training. Subsequently, the district officers were required to train the subordinate staff consisting of supervisors and enumerators by holding at least two training classes for house-numbering and house-listing and six classes for enumeration and it was made compulsory for the field staff to attend such classes. The Heads of the Departments were requested to release staff taken for census to attend training classes as and when required. To supervise training, the State Superintendent of Census Operations also provided five regional Deputy Superintendents of Census Operations, three Census Inspectors of tehsildar's rank who were utilised to give the requisite fillip to training in those pockets of districts where effort by local officers was found to be below par. A training sample census was also arranged in January, 1961, when enumerators were required to fill up prescribed number of census slips and household schedules and the same were subjected to close scrutiny by local officers and mistakes noticed by them were explained to the field workers in subsequent training classes.

5. *Census Count*—To provide proper coverage of population, the enumerator undertook enumeration of population for 19 days from 10th February to 28th February, 1961. He also enumerated all households which were floating and houseless during the night of 28th February, 1961 after locating their whereabouts during his round of the block previous to this date. All information so collected was incorporated in the census slips and the household schedules. The enumerators covered all the blocks in the State during this period without meeting any appreciable difficulty.

6. *Revisional Round and Reporting of Population Figures*—As enumeration was extended over a period of 19 days it was necessary to make census statistics valid with reference to a particular date and time. The Government of India fixed sun-rise on 1st March,

1961 as the "Census Moment" with reference to which all the information collected for 19 days during the enumeration period was to be reviewed and corrected during the revisional round of each block from 1st to 5th March, 1961. Soon after the completion of the revisional round each enumerator communicated information regarding population found within the block to his supervisor. The supervisor totalled up information for all the blocks comprised in his circle and passed it on to the Charge Officer. Similarly, the Charge Officer compiled information for all the circles in a Charge and relayed population figures as expeditiously as possible by all available means to the District Census Officer. Such provisional totals of population were prepared for the entire district in the office of the District Census Officer who was required to report the final figures by telegram to the State Superintendent of Census Operations and the Registrar-General, India, by the 12th March, 1961 at the latest. This information poured into the State Census Office in Jaipur from 8th March to 12th March, 1961, and the provisional total of population for the State was finally released on 13th March, 1961.

Census Calendar—The preparatory work and census operations were conducted according to the following Census Calendar in the State as approved by the Registrar-General, India :—

Sl. No.	Nature of Census Work	Last date for completion
1	2	3
1.	List of territorial changes in boundaries	31st January, 1960
2.	Preparation of maps	31st January, 1960
3.	Classification of urban areas	31st January, 1960
4.	Tehsilwise list of villages	31st January, 1960
5.	Assignment of Location Code Numbers	31st January, 1960
6.	Assessment of staff available in district	29th February, 1960
7.	Delimitation of Census Divisions	29th February, 1960
8.	List of local names of Scheduled Castes and Scheduled Tribes	29th February, 1960
9.	Preparation of Calendar of local important events	29th February, 1960
10.	Selection and appointment of Census Officers	31st March, 1960
11.	Training of District Census Officers, Sub-Divisional Census Officers and Charge Officers by the Superintendent of Census Operations for House-numbering/ House-listing and Enumeration Operations	April to June, 1960
12.	Training of Enumerators and Supervisors by the District Census Officers, Sub-Divisional Census Officers and Charge Officers for House-numbering/House-listing and Enumeration Operations	May to July, 1960
13.	Training of Enumerators and Supervisors by the District Census Officers, Sub-Divisional Census Officers, Charge Officers for House-numbering/House-listing and Enumeration Operations	September to October, 1960
14.	Rapid Survey of buildings and households in towns and provisional House-numbering	1st October to 31st October, 1960
15.	House-numbering and House-listing Operation	1st November to 30th November, 1960
16.	Training of Enumerators and Supervisors by the District Census Officers, Sub-Divisional Census Officers and Charge Officers for Enumeration Operation	1st December, 1960 to 31st January, 1061
17.	Training Sample Census	15th January, 1961
18.	Enumeration of Population	10th February to 28th February, 1961
19.	Revisional Round	1st March to 5th March 1961
20.	Provisional Total of population for Districts to be reported to the Registrar General and Superintendent of Census Operations	12th March, 1960
21.	Publication of Provisional Totals of Population for Rajasthan State	14th March, 1961

House-listing—It has already been stated previously that a uniform houselist form was introduced in all the states in India at this Census. At the previous Census the concept of 'House' and 'Household' exsited to which the concept of a 'Building' was added. The entire structure standing on the ground was treated as a building and within each building one or more census house was located which had a separate main entrance opening into a commonly usable street, compound, gallery or staircase etc. Thereafter, in each census house one or more households were located. A household was defined as a group of persons who ordinarily lived together and took their meals from a common kitchen unless prevented by any exigency. For the first time, the use of every census house was entered in the houselist. In the case of census houses containing factories and workshops, full particulars regarding nature of work done, number of workers employed and the type of fuel used were also collected. The Census machinery also recorded information regarding the material used in the construction of main walls and roof of a census house and also incorporated the number of rooms occupied by every household and whether the household occupied its own census house or lived in a rented one. With this houselist, survey of housing conditions in the country was begun. Further care was

taken to denote households belonging to a Scheduled Caste or Scheduled Tribe by writing against them as "S.C." or "S.T." in the last column of the houselist.

Household Schedule—A separate household schedule was introduced at this Census and issued in the form of pads. It contained two parts. In Part I information regarding households occupied either in cultivation or household indsutry or both was shown with the number of workers belonging to the household or on hire. Part II replaced the National Register of Citizens introduced at the 1951 Census. This part contained the summary for each household prepared on the basis of census slips filled up for each member. The information contained in this part could be utilised as a frame for undertaking further sample surveys.

Census Slip—A Census slip was filled up for each individual of a household irrespective of age. The census slips were issued in the form of pads to the enumerators. Each slip contained 13 questions, some of which have more than one part. A concerted attempt was made to study migration of persons with respect to their place of birth by introducing re-designed question No. 4. This information could not, however,completely study migration within the district as well as from one district to another.

No attempt was made to collect information in respect of numerous castes and sub-castes obtaining in the country but study was merely confined to the Scheduled Castes and Scheduled Tribes as recognised by the President under the provisions of the Indian Constitution. Further, an attempt was made to collect better information regarding economic activities on the basis of work in which an individual was engaged by introducing questions 8 to 11 in revised form. A separate question was designed for persons employed in household industry. Non-workers were specifically defined and a separate question was reserved for them. To facilitate the work of enumerator a system of using abbreviations was introduced with geometrical designs to record answers to questions in the census slip. Elaborate instructions were issued in the Manual on Enumeration how to fill answers to each question and to avoid pit-falls. Specimen of the various census forms have been provided in the Annexures at the end of this note along with instructions.

Storage of Census Schedules—The houselists, household schedules and census slips have been properly stored in the record section of the State Census Office located in a hired building in the Rambagh Palace, Jaipur. Maps prepared for the districts, tehsils and towns have also been properly preserved there. It was not possible to prepare block maps for rural areas. The maps of cities showing blocks having geographical boundaries prepared by the National Sample Survey Organisation of the Government of India are, however, available there.

Unique features of Census—The unique features of the Census of 1961 are briefly mentioned below as they will be of some interest :—

1. *Block Maps*—It was possible to prepare maps of enumeration blocks in towns having 50,000 or more population through the agency of the National Sample Survey Organisation of the Government of India although this could not be done for all the blocks in the State. These maps proved of great assistance in the delimitation of blocks and to pin-point the buildings, census houses and the households found in each block in thickly populated urban areas.

2. *Uniform Houselists and Housing Tables*—For the first time at this Census an elaborate houselist was introduced on uniform pattern and housing tables (E Series) were prepared which will be published in a separate volume. Some of the housing tables were prepared on the basis of a 20 percent sample of households. Housing data was never collected in such a manner at the previous censuses.

3. *Household Schedules and Household Economic Tables*—The household schedule was introduced for the first time and data on household was processed as was never done before. Household economic tables were prepared on a 20 percent sample of households. They will find place in a separate volume.

4. *Industrial and occupational classification as distinct from Livelihoods*—The adoption of Indian Standard Industrial and Occupational classification is an innovation at this census. The workers and non-workers have been classified by age-groups which is again a special feature. The economic tables (B series) prepared at this census will provide useful information regarding employment position in various sectors of the economy.

5. *Special Migration Tables*—The Migration Tables (D series) will provide a wealth of information not previously available.

6. *Special Tables for Scheduled Castes & Scheduled Tribes*—For the first time special tables have been prepared for Scheduled Castes and Scheduled Tribes not only to provide information regarding their population, age, marital status, education but also of industrial classification of the workers.

7. *Age Tables*—In 1961 all the age tables have been prepared on full count. This system of age classification in such tables (C Series) will considerably facilitate demographic study.

8. *Classification of population by educational qualification*—In the tables (B Series) population has been particularly classified on the

basis of educational qualification grouped in well-defined categories.

9. *Classification of Non-workers*—The classification of non-workers into well defined categories is again a special feature of this census.

10. *District Census Handbooks*—This handbook series will be prepared for each district of the State in a much more elaborate form than was possible at the census of 1951. It will provide (a) general account and (b) statistics regarding each district and its component administrative sub-units.

Several ancillary enquiries connected with the census have also been undertaken, *e.g.*, survey of selected villages and handicrafts, ethnographic notes on important Scheduled castes and Scheduled tribes and detailed notes on important fairs and festivals.

ANNEXURES

I Houselist and Instructions for filling it up.
II Household Schedule and Instructions for filling it up.
III Individual Slip and Instructions for filling it up.

INSTRUCTIONS FOR FILLING UP THE HOUSELIST

Column 1—**Line Number.**

Only one digit of the line number has been printed in this column. The line numbers should be continuous for your block. Where the line numbers exceed 9 write the earlier digit(s) yourself.

Column 2—**Building Number (Municipal or Local Authority or Census Number, if any).**

This refers to the entire structure on the ground. There are, however, high, large or long buildings along a street or lane which have been partitioned or portions of which have been sold, which have distinct, separate main exist on the road and which belong to separate owners or occupiers or alternatively there are a series of different houses joined each to each by common walls on either side to make the whole look like one building but parts of which have been built at different times and belong to separate owners. Such distinguishable structures, although not separate from each other, should be regarded as separate buildings and given separate numbers. Each building should have a separate number. If in big cities a large mansion or building containing several census houses has a well known name by which it is generally known then the name of the building should also be recorded for convenient reference. If there are more than one structure within an enclosed or open compound belonging to the same person *e.g.*, the main house, the servants' quarters, the garage, etc., only one building number should be given. If the locality consists of a number of streets in a village, the buildings in the various streets should be numbered continuously and the streets should be taken in uniform order, from North-West to South-East. Experience suggests that the best way of numbering is to continue with one consecutive serial on one side of the street and complete the numbering on that side before crossing over to the end of the other side of the street and continuing with the serial, stopping finally opposite to where the first numbering began. In a city enumeration block, the numbering will have to respect the axis of the street and not any preconceived geographical direction like North-West. A building under construction should also be given a number in the serial. If a new hut or building is constructed between the time when the house-numbering and houselisting have been completed and the census count it should be given a new number beyond the last number of the serial for the village. Arabic numerals should be used for building numbers.

This will facilitate verification by supervisors. In areas *e.g.*, urban, where the buildings are already numbered by the Municipal or other authorities, the enumerator may adopt the existing numbers in the Houselist. In such cases, column 2 will carry the established Municipal or local authority number which will facilitate identification. Where there are Municipal or local authority numbers but there are reasons to believe that the number is incomplete or unsatisfactory, the Municipal or local authority number may still be entered in column 2, but at the same time it will be necessary to serially number those buildings afresh for the purposes of census houselist. In that case, the new census serial for buildings will be entered in column 3 and the new census numbers for the buildings will have to be painted on the buildings themselves. In those cases where there are no Municipal or local authority numbers in existence, all buildings will have to be serially numbered for the census and column 2 will contain entries of the census serial. This number will have to be repeated in column 3 with sub-numbers for census houses, if any.

Column 3—**Building Number (Column 2) with sub-numbers for each Census House.**

A census house is a structure or part of a structure inhabited or vacant, or a dwelling, a shop, a shop-*cum*-dwelling of a place of business, workshop, school etc., with a separate entrance.

If a building has a number of flats or blocks which have separate entrances of their own and are independent of each other giving on the road or a common staircase or a common courtyard leading to a main gate, they will be considered as separate census houses. If within an enclosed or open compound there are separate buildings then each such building will also be a separate census house. If all the structures within an enclosed compound are together treated as one building then each structure with a separate entrance should be treated as a separate census house.

The order in which census houses within a building should be numbered should be continuous, preferably clockwise, or in any convenient manner if it is at all difficult to do it clockwise. If a building itself is a census house, then it will have only one number, namely, that of the building. If within a building there are a number of census houses, then each census house will have two sets of numbers, *e.g.*, the number of the building and the sub-number of the census house. The census house number should be written after the building number in arabic numerals in brackets such as 2(2), 3(2), etc. A census house may contain more than one household, in which case, each household will have to be denoted by a separate alphabetical sub-number (see instructions for column 11 below).

Column 4—**Purpose for which census house used, *e.g.*, dwelling, shop, shop-*cum*-dwelling, business, factory, work shop, school or other institution, jail, hostel, hotel, etc.**

The actual use to which a census house is put should be written here.

In the case of a factory or workshop 'Factory' should be written for a large factory if registered under the Indian Factories Act and 'Workshop' for a small unregistered workshop. A workshop is a place where some kind of production, repair or servicing goes on or where goods or articles are made and sold. Similarly, a shop is a place where articles are sold for cash or for credit. Business houses are those where transactions in money or other articles are taking place *e.g.*, bank, etc. But rooms or apartments where professional consultations are held such as by doctors, *hakims*, pleaders, etc., should be described as 'professional consultation rooms' and not workshops. In the case, however, of a dispensary where, in addition to consultation by a doctor, medicines are prepared and sold, the house should be described as a dispensary. Write also if used for place of worship or congregation

or if unoccupied, 'vacant'. If the census house is a shop, business house, bank, etc., but is not a factory or workshop as defined above, the name of the proprietor, manager or director should be entered in column 18.

Columns 5 to 8—**"If this census house is used as an establishment workshop or factory".**

These columns apply only in cases where the census house is a factory or a workshop *i.e.*, where some kind of production, processing, repair or servicing is undertaken or where goods or articles are made and sold. If the census house is not used for purposes of a factory or workshop write 'X' in each of the columns 5 to 8.

Column 5—**Name of establishment or proprietor.**

Write the name of the establishment in the case of factories or large manufacturing concerns and write the name of the proprietor in the case of small workshops and establishments like confectioneries where no distinct name has been given to them like *Halwai* shop, etc. If the census house is not used for the purpose of a factory or workshop put 'X' in each of the columns 5 to 8.

Column 6—**Name of product(s), repair or servicing undertaken.**

In this column enter the actual work that is being done in the establishment, factory or workshop, like paper making, shoe making, cycle repairing, motor servicing, etc.

Column 7—**Average number of persons employed daily last week (including proprietor or household members, if any).**

The total number of workers including apprentices, either paid or unpaid, employed in the factory or workshop, including the owner or proprietor and any of his family members (if working), should be entered. The average number of persons working per day during the week preceding the date of your visit should be entered.

In case more than one product is produced it is not necessary to enquire the number of persons employed in the production of each product. It may not be possible to get this information in cases where the operations may be composite.

Column 8—**Kind of fuel or power, if machinery is used.**

If the factory or workshop uses steam or diesel engine or fuel *e.g.*, kerosene, soft coke, electricity, water-mill, etc., for running the machinery used for production, servicing or repairs, write what fuel or power is actually used.

Columns 9 & 10—**Description of Census House.**

Column 9—**Material of wall.**

Under this column the material out of which most of the walls of the house are made *i.e.*, grass, leaves, reeds, bamboo, unburnt bricks, mud, burnt bricks, stone, cement concrete or timber should be written. Where a house consists of separate structures each of different materials, the material out of which the walls of the main bedrooms are made are to be recorded.

Column 10—**Material of roof.**

The material out of which most of the outer roof exposed to the weather and not the ceiling is made, *i.e.*, tiles, thatch, corrugated iron, zinc or asbestos cement sheets or concrete etc., should be written. In the case of a multistoreyed building the intermediate floor or floors will be the roof of the lower floor.

Column 11—**Sub-number of each Census Household with Census House number (Column 3).**

A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so.

There may be one or more households in a census house. Each household should be separately numbered. This can be done by using the alphabets as (A), (B), (C), etc. For example, if building No. 2 is also a census house and has three households, the household numbers will be 2(A), 2(B) and 2(C). If building No. 4 has two census houses, the houses will be numbered as 4(1) and 4(2). If within each house there are respectively 3 and 2 households, then they will be numbered as 4(IA), 4(IB), 4(IC) and 4(2A) and 4(2B).

Column 12—**Name of Head of Household.**

The name of the Head of each household given in column 11 should be written here. The Head of a household, for census purposes, is the person on whom falls the chief responsibility for the maintenance of the household. The name of the person who is actually acknowledged as Head of the household should be recorded. In the case of places like messes, boarding houses, chummeries, etc., where people live together with no ties of relationship, the manager or superintendent or the person who by common consent is regarded as the Head should be recorded as Head of the household.

If the census house is used as a sitting place, cattle shed, etc. write the use to which it is put (and add the name of the owner).

Column 13—**Number of rooms in Census Household.**

If a census house is occupied by one household the enumeration of rooms should be simple.

If a census house consists of a number of households the number of rooms occupied by each household should be entered on each line against the name of the Head of the household. In cases where more than one household occupy a single room or share more than one room in such a way that it is not possible to say the number of rooms occupied by each household, the number of rooms should be given together within brackets as common to both the households.

A room should usually have four walls with a doorway with a roof overhead and should be wide and long enough for a person to sleep in, *i.e.*, it should be at least 6 ft. long. Unenclosed verandah, kitchen, store, garage, cattle shed and latrine which are not ordinarily used for living and sleeping should not be treated as rooms. An enclosed room, however, which is used for living, dining, storing and cooking should be regarded as a room.

Column 14—**Does the household live in own or rented house?**

If the household lives in own house write 'O'. If the household lives in a rented house write 'R'.

In the case of public buildings like schools, hospitals, etc., or places of worship, put 'X' in this column.

Columns 15 to17—**Number of persons residing in census household on day of visit.**

Write the number of males residing in the household in column 15, the number of females residing in the household in column 16 and the total number of persons in column 17.

Column 18—**Remarks.**

In this column should be entered any useful or significant information about the building or the census house or the census household that has not been entered in any other column. For example, if the census house is a shop, the name of the proprietor or owner should be recorded in this column. If a census house is vacant at the time of houselisting but there is reason to believe that the house will be occupied in the course of the next few days and almost certainly before the census enumeration period, then the word 'Vacant' should be entered in column 4 and a remark should be entered in column 18 to the effect 'likely to be occupied shortly'. Thus, the Remarks column should be utilised for recording all significant information relating to the building or census house or census household.

In case the Census house is occupied by a household of Scheduled Caste or Scheduled Tribe, write also in the remarks column the words "S.C." or "S.T." as the case may be.

Each person engaged in house-numbering of one block will have to make out an abstract at the conclusion of house listing and house-numbering. This abstract will be in the form shown below.

Houselist Abstract

Name and number of District.....

Name and number of Tehsil, etc.....

Name and number of Village/Ward/ Enumerator's Block, etc.....

Total number of sheets used.....

Census Household Numbers From.....to.....

Total number of Census Households.....

Number of establishments, workshops or factories	Total number of rooms in all households	Number of persons residing in households:		
		Males	Females	Total

ANNEXURE II

CONFIDENTIAL **CENSUS OF INDIA 1961**

[To be filled up during Enumeration]

Is this an institution?

PART I—HOUSEHOLD SCHEDULE

LOCATION CODE : _____

Full Name of Head of Household _____ S.C. / S.T.

A. Cultivation	Local name of right on land	Area in acres
1. Land under cultivation by Household (i) owned or held from Government		
(ii) held from private persons or institutions for payment in money, kind or share		
(iii) Total of items (i) and (ii)	.....	.....
2. Land given to private persons for cultivation for payment in money, kind or share		

B. Household Industry	Nature of Industry	Number of months in the year during which conducted
Household industry (not on the scale of a registered factory) conducted by the Head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas (a)		
(b)		

C. Workers at Cultivation or Household Industry	Members of family working :				Hired Workers
Members including Head of family working and hired workers, if any, kept wholetime during current or last working season	Head	Other Males	Other females	Total	
1. Household Cultivation only					
2. Household Industry only					
3. Both in Household Cultivation & Household Industry					

Dated Signature of Supervisor

Dated Signature of Enumerator

NOTE : Part II—Census Population Record overleaf should be filled up during the first round of enumeration (10 February to 28 February) from the enumeration slips relating to the household and brought up-to-date with corrections, if any, after the second visit during check period 1 March to 3 March, 1961.

PART II—CENSUS POPULATION RECORD

(To be compiled from individual Census Slips)

Name	Sex		Relationship to Head	Age	Marital Status	Description of work in the case of Worker
	Male	Female				
	M	F				
TOTAL PERSONS						

Dated Signature of Supervisor

Dated Signature of Enumerator

INSTRUCTIONS FOR FILLING UP THE HOUSEHOLD SCHEDULE

At the top of the Schedule you will find the Location Code. You will have to write the Location Code of the household here. Your supervisor will give you the Code numbers representing your district, tehsil/thana/town, village/ward/block. You should take care to write these three numbers connected together by oblique strokes in between on every household schedule.

When you are visiting each household for enumeration you should write the code number of the household also on the Household Schedule. For purposes of the census a Census House has been defined as a structure or a part of structure, a dwelling, a shop, workshop, factory or place of business, or shop-*cum*-dwelling giving on the road or a common staircase or a common courtyard leading to a main gate or enjoying a separate entrance. A *household* means the entire group of persons who commonly live together in the same census house and take their meals from a common mess unless the exigencies of work prevent them from doing so. In some census houses there may be more than one group of persons, each group with a common mess. In such cases, each group should be regarded as a separate household for purposes of the census and a separate household schedule should be prepared. You should write the household number from the extracts of the Houselist given to you by your supervisor. If, in any case, you find a census house or a household satisfying the definitions given above has not been numbered you should bring it to the notice of your supervisor and have a separate number given to the house or household and enumerate the household.

At the right hand corner of the Location Code you will find a question "Is this an Institution ?" with a rectangle below it. If you are enumerating any penal, charitable or mental institution, hostel, hotel, hospital, boarding house, etc., you should write the nature of the institution within the rectangle like jail, hospital, etc.

Below the Location Code you will find a column for recording the full name of the Head of the household. The Head of the household for census purposes is a person on whom falls the chief responsibility for the maintenance of the household. Thus the Head of the household need not necessarily be the eldest male member but may even be a female or a younger member of either sex. You need not, however, make any elaborate enquiry about this and should record as Head of household the name of the person who is actually acknowledged as such.

Institutions like boarding houses, messes and chummeries should also be regarded as census households but of 'unrelated persons living together.' In such a Household the manager or superintendent or the person who has administrative responsibilities or who by common consent is regarded as the Head, should be recorded as Head of the household. If in an Institution separate families are also living, each such family should be treated as a census household and a separate household schedule should be filled. In such cases the full name of the recognised Head of the household should be written.

If the Head of the household is a person who spends the weekdays in town and spends the week-ends at home, he should be recorded as Head of Household and entered for enumeration at his home. If he should be away for a fairly long time which covers the entire enumeration period then the person who is incharge in his absence should be recorded as the Head of the household.

You will find a parallelogram at the right hand side against the Full name of the Head of the household marked "S.C./S.T." If the Head of the Household is a member of the Scheduled Caste or Scheduled Tribe obtaining in your State or in your District you should write the name of the particular Scheduled Caste or Scheduled Tribe to which the Head of the Household belongs within the parallelogram. If the Head of the Household does not belong to Scheduled Caste or Scheduled Tribe you should put 'X' within the parallelogram.

You should then fill up the part of the household schedule relating to Cultivation and Household Industry. Sub-part 'A' relates to Cultivation; sub-part 'B' to Household Industry and sub-part 'C' to Workers at Cultivation or Household Industry.

Sub-part 'A' relating to Cultivation will have to be filled in only where the household cultivates land. (Land includes all land normally used for cultivation purposes including temporary fallows). Three categories of land are given in items 1(i), 1(ii) and 2. Items 1(i) and 1(ii) relate to land actually cultivated by the household. Item 2 relates to land which is not cultivated by the household but has been given by it to private persons for cultivation for payment in money, kind or share. In each of the three cases the total of separate plots or parcels of land in different places, owned or held, or taken or given should be made and entered. A number of lines have been provided for this purpose in 1(i) and 1(ii) to account for separate plots or parcels of land held or owned or taken under different recognised local rights. If the household (a) cultivates land owned or held from Government or taken from private persons or institutions or (b) has given land to private persons for cultivation purposes you should ascertain the local name of the right on such land and record in the column relating to 'local name of right on land'. Category 1 (i) land owned or held from Government, will include the total of all pieces of land owned or held in owner-like possession, *e.g.*, land held directly from Government under a grant, lease or assignment, (i) with rights of permanent, heritable and transferable possession, (ii) with rights of permanent and heritable possession, but without the right of transfer and (iii) temporary or conditional leases of any kind with the Government. Category 1(ii) land taken from private persons or institutions for payment in money, kind or share, will include land (i) with rights of permanent, heritable and transferable possession, (ii) with rights of permanent and heritable possession but without right of transfer; (iii) held in a variety of tenancies or tenures which may be broadly classified as follows:

(*a*) tenants holding land with permanent and heritable rights whose land cannot be resumed by the owner on grounds of personal cultivation (such tenants may in some cases have the right of transfer also);

(*b*) tenants who have been given permanent rights subject to the right of resumption by the owner (in

some cases the tenant has the right to acquire ownership of the non-resumable area. In other cases he does not possess the right);

(*c*) tenants holding land in areas where *interim* measures have been enacted for stay of ejectment or for continuing the leases for a specified period;

(*d*) tenants holding land on temporary leases who are liable to ejectment; and

(*e*) areas held on condition of rendering service either to a village community or to Government (This also includes cases where labourers on plantations are given some land for cultivation with permanent rights); and

(*iv*) the following:—

(*a*) land taken for a fixed amount of money,

(*b*) land taken for a fixed amount of produce,

(*c*) land taken for a share of the produce,

(*d*) land for which money is paid partly in one and partly in any other form mentioned above, and

(*e*) land held free of consideration.

Category 2 Land given to private persons for cultivation for payment in money, kind or share will include the classifications mentioned in category 1(ii).

Categories 1(i) and (ii) will include only those plots or parcels of land which are cultivated by the household itself, that is, lands which lie within the village, or in adjacent villages, or within such a distance as enables the household to work on the land or actively supervise the cultivation. They will not include land owned or held in distant places where distance itself is a bar to active cultivation, constant supervision or direction. But Category 2 will include land in any part of the country whatsoever. You should ascertain the extent of land in each category of local right in acres and record in the column relating to 'Area in acres'. You should write the total of separate plots or parcels of land under the same right if they are situated in different places. If it is not possible to ascertain the extent of land in acres you should, if possible make a conversion from the local measure given to you. Even if this is not possible write the area in local measure giving invariably the name of the measure adopted.

This sub-part will not apply to households which do not possess any land. Thus, it will not apply to households which consist of only agricultural labourers without any land. In such cases put an 'X' in all the spaces provided in the right hand side and put a bold cross on this sub-part.

Land under any of the items in sub-part 'A' includes rent free land, lands enjoyed in permissive possession or gifts without encumbrance or consideration. A household which is a member of a co-operative farm will record only that amount of land in the co-operative farm which had belonged to it before and under right enter 'co-operative farm'. Labour hired by such a co-operative farm should *not* be entered for this household.

Sub-part 'B' relates to Household Industry. This part will be filled up only where there is a Household Industry conducted by the Head of the household himself and/or mainly by members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be on the scale of a registered factory. The participation of the Head of the household and/or members of the household is an essential feature of the Household Industry. In a rural area the Household Industry can be located either at home or within the village. But in an urban area the Household Industry or at least the major part of its work must be located only at home. A Household Industry should relate to production, processing, servicing or repairing and includes makers and sellers of goods.

Ascertain from the Head of the household whether there are any Household Industries and write the nature of the industry(s) in the column provided, if there are any. Then ascertain for how many months in a year roughly they are conducted and put down the number of months in the appropriate column. If the industry is conducted throughout the year write '12'. If there is no Household Industry of any sort put an 'X' in each of the places in the right hand corner where the answers will be written and put a bold cross on this sub-part.

Sub-part 'C' relates to Workers in Cultivation or Household Industry.

In the case of households which are engaged only in Cultivation, if the Head of the household is working write I under the column 'Head', and ascertain how many other male and female members of the family are working. Write the numbers in the respective columns. Write the total number of family workers including the Head, if he is working, in the column relating to 'Total'. Then ascertain whether any hired workers are employed and, if so, write the number of such workers in the column allotted for it. The hired workers should have been in wholetime employment during last working season or should be in wholetime employment during current working season.

Similarly in the case of households engaged in Household Industry only, if the head of the household is working write I in the column relating to the 'Head', and also ascertain how many male members and female members of the family are working and write the numbers in the respective columns. Write the total number of family workers including the Head, if he is working, in the column relating to 'Total' and then ascertain the number of hired workers, if any, and then write the number of hired workers in the appropriate column.

If a household is engaged both in Cultivation and Household Industry ascertain whether the Head is working and write I under the column relating to the Head and also ascertain how many male and female members of the family are working both at Cultivation and the Household Industry and write the numbers in the respective columns. Write the total number of family workers in the column relating to Total. Ascertain the number of hired workers engaged by the family both for Cultivation and Household Industry

and write the number in the appropriate column. In a Household engaged both in Household Cultivation and Household Industry, you need not ascertain how many are engaged in Household Cultivation and Household Industry separately.

Even if any of the members of the family working or hired labourers are absent during the period of the census count they should be counted for the purposes of the Household Schedule.

In the case of households engaged in Cultivation only, put 'X' in the columns relating to 'Household Industry only' and 'Both in Household Cultivation and Household Industry'. Similarly, in the case of Households engaged in Household Industry only, put 'X' in the columns relating to 'Household Cultivation only' and 'Both in Household Cultivation and Household Industry'. If a household is engaged both in Household Cultivation and Household Industry put 'X' in the columns relating to 'Household Cultivation only' and 'Household Industry only'. If a household is not engaged in either Household Cultivation or Household Industry or both put 'X' in all the columns and a bold 'X' on this sub-part.

The test for a worker is whether a person is actually working in Cultivation or Household Industry or supervising or directing work thereon.

ANNEXURE III

INDIVIDUAL SLIP

CONFIDENTIAL **CENSUS 1961**

- (d) Name of Establishment _____

12 Activity if Not Working < >

13 Sex

INSTRUCTIONS FOR FILLING UP THE INDIVIDUAL SLIP

In each household you should first enumerate the Head of the household followed by other members of the household in the most convenient order and see that none of the persons in the household are left out. Please make repeated enquiries about infants and very young children, for they are liable to be left out of count. Count near relatives first, such as wife, son, daughter-in-law, daughter, son-in-law, grand-children, then distant relations and then domestic servants or other employees living in the household, boarders, visitors, etc.

LOCATION CODE — Write the Location code of the household in each slip. For instructions please see Annexure II.

Q. 1 (a) NAME — Write the name of the person enumerated. If a woman's name is not given out describe her as 'so-and-so's mother, wife or daughter'. If a woman does not take the name of a person's husband and that husband's particulars have to be recorded write 'so-and-so's husband'.

For newly born infants who have not yet been given a name write 'Baby' and write 'father's or mother's name'.

Q. 1. (b) RELATIONSHIP TO THE HEAD OF THE HOUSEHOLD — In the case of the Head of the household write 'Head'. The person who should be treated as the 'Head of the Household' has been fully explained in Annexure II. All relationships in this question should be recorded in respect of that person. In the case of relations write the relationship in full. Do not use words like nephew, niece or uncle, but state whether brother's or sister's son or daughter (for nephew or niece) or father's or mother's brother (uncle). 'Son' will include 'adopted son' or 'step son'; similarly for a daughter. In the case of visitors, boarders or employees write 'visitor', 'boarder', or 'employee' as the case may be.

If on the check or revisional round between the 1st and 3rd March the Head of the household as recorded previously is found to have died, the person in the household who succeeds him by common consent as Head should be recorded as Head and the relationships in all other slips will have to be suitably corrected. The slip of the dead Head of household will, of course, be cancelled.

In the case of places like messes, boarding houses, chummeries, etc., where people live together with no ties of relationship, the manager or superintendent or the person who by common consent is regarded as the Head should be recorded as Head of the household. Other members should be recorded as 'unrelated' in this question.

Q. 2 AGE IN COMPLETED YEARS LAST BIRTHDAY — Write age in years completed last birthday. For infants below one year of age, write 'O'. You will find many persons who cannot state their age correctly. You should assist them to state the correct age. If you are not able to elicit correct age directly, you should stimulate their memory by referring to historical incidents or religious events, etc. You may use any local calendar of such events that may have been prepared for the purpose.

Q. 3 MARITAL STATUS	For never married ..	write	NM
	Married ..	write	M
	Widowed ..	write	W
	Separated or Divorced	write	S

For a person who has never been married write 'NM'. For a person married, whether for the first or another time, write 'M'. Write 'M' also for persons who are recognised by custom or society as married and for persons in stable *de facto* union. Even if a marriage is disputed in the locality write 'M' if the person concerned says he or she is married or in stable *de facto* union. For a widowed person whose husband or wife is dead, and who has not been married again, write 'W'. For a person who has been divorced in a lawful manner, either by decree of a law court or by a regular social or religious custom but who has not remarried, or a person who has been separated from wife or husband and is living apart with no apparent intention of living together again, write 'S'. For a prostitute return her marital status as declared by her.

Q. 4 (a) BIRTHPLACE	1. If born in village or town in which enumerated	write	PL
	2. If born in another village or town of district in which enumerated	write	D
	3. If born in another district in the State of enumeration	write name of district.	
	4. If born in another State in India	write name of district and State if name of district is known; otherwise write name of State.	
	5. If born in a country outside India *e.g.*, Pakistan or any other country	write name of country.	
	6. Persons born at sea or in air or in railway carriages or on road transport *e.g.*, buses etc., should be entered as such.		
Q. 4(b) WHETHER BORN IN VILLAGE OR TOWN	1. If born in village ..	write	R
	2. If born in a town which is considered a town at the present time even if it was not so considered at the time of birth ..	write	U
Q. 4(c) DURATION OF RESIDENCE	1. For a person born in village or town or city in which enumerated ..	write	X

2. For a person born in another village or town or city of district of enumeration or who was not born in the district of enumeration	write the number of completed years this person has been in the village/town/city of enumeration. (*Do not take into account periods of temporary absence on leave or holiday or tour or business*).	
If the duration of residence is less than one year	.. write	O
If the duration of residence is one year or over	.. write the actual number of completed years of residence.	

Q. 5(a) NATIONALITY	1. For Indian nationals	write	I
	2. For other nationals	write the nationality in full	
Q. 5(b) RELIGION	For Hindu	.. write	H
	Muslim	.. write	M
	Christian	.. write	C
	Jain	.. write	J
	Buddhist	.. write	B
	Sikh	.. write	S

For others write the answers actually returned.

Q. 5(c) SCHEDULED CASTES AND SCHEDULED TRIBES — The answer to this question will be recorded only if a person belongs to a Scheduled Caste or Scheduled Tribe. If the person belongs to a Scheduled Caste or Scheduled Tribe obtaining in your State or in your district write the name of the caste or tribe to which he belongs. For all others, write 'X' in this column. A list of Scheduled Castes and Scheduled Tribes obtaining in your State or in your district is given to you separately.

If the person belonging to a Scheduled Caste or Scheduled Tribe returns his caste or tribe by a synonym or a generic name of a caste or tribe as given in your list, write the name as returned and the name of the relevant caste or tribe, as per printed list, within brackets.

Do not write the names of Scheduled Castes in general terms as 'Harijan', 'Achhut'. You should ascertain the name of the caste when it is returned and write it. If a person is negligent and insists on calling himself merely 'Harijan' tell him that this description will not earn the person any benefits under the Constitution permissible to Scheduled Castes and Scheduled Tribes This may persuade him to give out the correct name.

Scheduled Castes can belong only to the Hindu or Sikh religions. If a person belongs to a Scheduled Caste, there will be either 'H' or 'S' in the answer to question 5(b). Scheduled Tribes may belong to any religion.

Q. 6 LITERACY & EDUCATION — I. Illiterate or Literate

For a person		
1. Who can neither read nor write or can merely read but cannot write in any language	write	O
2. Who can both read and write	write	L

The test for reading is ability to read any simple letter either in print or in manuscript *i.e.*, if the person can read one of the examples in the Enumeration Manual with felicity he may be taken to have passed the test for reading. The test for writing is ability to write a simple letter. The test for literacy is satisfied if the person can with understanding both read and write.

II. Standard of Education.

If the person can both read and write and has also passed a written examination or examinations as proof of an educational standard attained, write the highest examination passed instead of L.

Q. 7 (a) MOTHER TONGUE — Write the Mother tongue in full including dialect as returned by the person enumerated. Mother tongue is language spoken in childhood by the person's mother to the person or mainly spoken in the household. If the mother died in infancy write the language mostly spoken in the person's home in childhood. In the case of infants and deaf mutes give the language usually spoken by the mother.

Q. 7 (b) ANY OTHER LANGUAGE(S) — After recording the mother tongue enquire whether the person knows any other language(s), Indian or foreign, and write the language(s), returned by him against this question. In case he does not know any other language put 'X'.

The number of languages recorded against this question should not be more than two. These languages should be other than his mother tongue which he speaks and understands best and can use with felicity in communicating with others. Such language or languages will exclude dialects of the same language.

Qs. 8 to 11 WORKING — These questions apply only to workers. A person who is working may be working as a Cultivator, as an Agricultural Labourer, at a Household Industry or may be doing any other work. You have to record the answer in questions 8, 9, 10 and 11 according

as the person is working as a Cultivator or as an Agricultural Labourer or at Household Industry or doing any other work. He may be engaged in only one of the above four categories or in more than one. Thus a person can be working both as a Cultivator and an Agricultural Labourer, in which case he should be entered both in Q. 8 and Q.9. Or, he may be working both as Cultivator and at Household Industry in which case he will be entered in Q.8 and Q.10. Or, he may be working in any possible combination of 8, 9, 10 and 11, in which case he will be entered in the appropriate places. Or, he may be doing just one kind of work in which case he will be entered in only one of the four Questions 8 to 11

The basis of work will be satisfied in the case of seasona work like cultivation, livestock, dairying, household industry etc., if the person has had some regular work of more than one hour a day throughout the greater part of the working season. In the case of regular employment in any trade, profession, service, business or commerce the basis of work will be satisfied if the person was employed during any of the fifteen days preceding the day on which you visited the household. If on the check or revisional round such a person is found to be unemployed no change in the original entry should be made. A person who is working but was absent from his work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other causes should be treated as **worker.** A person who has been offered work but has not actually joined should be treated as **non-worker. Work includes not only actual work but effective supervision and direction of work.**

Persons under training as apprentices with or without stipend or wages will be regarded as working.

An adult woman who s engaged in household duties but doing no other productive work to augment the family's resources should not be considered as working for purposes of this questions. If, however, in addition to her household work she engages herself in work such as rice pounding for sale or wages, or in domestic services for wages for others or minding cattle or selling firewood or making and selling cowdung cakes or grass etc., or any such work she should be treated as a worker.

Persons like beggars, pensioners, agricultural or non-agricultural, royalty, rent or dividend receivers, who may be earning an income but who are not participating in any productive work should not be treated as working unless they also work in cultivation, industry, trade, profession, business or commerce.

A public or social service worker who is actively engaged in public service activity or a political worker who is also actively engaged in furthering the political activity of his party will be regarded as a worker and entered fully in Q. 11.

Q. 8. WORKING AS CULTIVATOR — For a person working as cultivator write C. For a person not working as cultivator and for a person not working at all put X.

For purposes of the census a person is working as cultivator if he or she is engaged either as employer, single worker or family worker in (a) cultivation of land or supervision or direction of cultivation of land owned or held from Government and (b) cultivation of land or supervision or direction of cultivation of land held from private persons or institutions for payment in money, kind or share.

Cultivation involves ploughing, sowing and harvesting and does not include fruitgrowing or keeping orchards or groves or working for plantations like tea, coffee, rubber, cinchona and other Medicinal plantations. Persons engaged in fruit growing or orchardry or plantations like tea, coffee, rubber, cinchona and other Medicinal plantations should be entered in Q.10 or Q.11 as the case may be.

A person who has given out his land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, will not be treated as working as cultivator. Similarly, a person working in another person's land only as a labourer and has no right or lease or contract on land on which he works, nor is responsible for taking decisions as to which crops to sow and when, or taking the risks of cultivation and is paid wages in cash, kind or share such as share of produce (Agricultural Labourer) will not be treated as cultivator in this question.

Q.9 WORKING AS AGRICULTURAL LABOURER — Write AL for a person working as agricultural labourer, i.e., a person who works in another person's land only as a labourer without exercising any supervision or direction in cultivation, for wages in cash, kind or share such as share of produce. For others put X. The labourer should have no right or lease or contract on land on which he works, nor should he be responsible for taking decisions as to which crops to sow and when, or taking the risks of cultivation. A share of the produce goes to him only as wages. He should have been working as Agricultural Labourer in the **last or current cultivating season.**

Qs. 10 (a) & 10 (b) HOUSEHOLD INDUSTRY — If a person is working in a Household Industry write (1) the nature of work done by him in the Household Industry aganist question 10(a) and (2) the nature of the Household Industry aganist question 10(b). Otherwise put X in both questions 10(a) and 10(b). A Household Industry is defined as an industry conducted by the Head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of a registered factory. Thus the main criterion for a Household Industry is the participation of one or more members of a household in rural areas. In the urban areas the industry should be confined to the house. You should carefully keep in mind the definition of Household Industry in the rural area if you are enumerating a rural area and the definition in the urban area if you are enumerating an urban area.

A Household Industry should relate to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as pleader or doctor or barber or waterman or astrologer.

A person though he may not be working in his own Household Industry may be working as a paid employee in another Household Industry. You should, therefore, enquire whether the person who is not working in his own Household Industry is working in any other Household Industry and if so, write the nature of the work done by him against question 10 (a) and the nature of the Household Industry against 10(b).

Q. 10 (c) If Employed in Household Industry — This question will be filled up only for a person who is working as a paid emloyee in another person's Household Industry. In his or her case write E.E. For all others put X.

The following examples will illustrate how questions 10(a) to 10(c) should be filled up for persons at Household Industry :

Q. 10—Working at Household Industry

(a) Nature of work	(b) Nature of Household Industry	(c) If Employee
1. Spinning yarn	Spinning yarn in Ambar Charkha	X
2. Dyeing and printing yarn	Handloom weaving	X
3. Threshing and cleaning grain.	Flour making *chakki*	X
4. Labourer employed for crushing oil	Oil ghani	E.E.
5. Tempering and polishing implements	Blacksmithy making agricultural implements	X
6. Labourer employed for making and firing kiln	Earthenware pottery	E.E.
7. Throwing and Turning pottery	Earthenware pottery	X
8. Making wooden doors and windows	Carpentry	X
9. Filling gold ornaments with lac	Goldsmithy	X
10 Labourer working hosiery machine	Hosiery	E.E.
11. Keeping accounts	Hosiery	X
12. Polishing and Scrapping metal	Electroplating	X
13. Labourer employed for putting iron hoop on cartwheels	Cartwheelwright	E.E.
14. Repairing of guns	Gunsmithy	X
15. Bee Keeping	Production of honey	X
16. Tending cattle	Livestock raising	X

Q. 11 Doing Industry Work other than 8, 9 or 10 — If a worker is not working as a cultivator or as an agricultural labourer or at any Household Industry write the actual work he is doing. If a person is working as a cultivator or as an agricultural labourer or at Household Industry and also does some other work (including dairying or livestock raising, orchard or plantation etc., as distinct from cultivation of crops) which does not relate to any of the above categories, write the other work he does in this question If he is engaged in more than one work and neither of them relates to any of the three categories mentioned above write here the work on which he devotes more time.

Q. 11 (a) Nature of Work — In the case of persons not working or who work *only* as cultivator or as agricultural labourer or at Household Industry, put 'X'.

Describe fully the nature of the work done by the person himself. Full and precise information as to the nature of work done by the person should be given either in the vernacular or in English or in vernacular transliteration of English. At previous censuses much trouble has been caused by inadequate answers, and if you do not succeed in obtaining satisfactory information on the individual slips, you will be required to make a further visit for that purpose.

Q. 11 (b) Industry, Business, Trade, Profession or Service — In the case of a person who is working and the nature of whose own work has been recorded in Question 11(a), you should write here the nature of industry, business, trade, profession or service in which the person works.

As in the case of Question 11(a), you should describe in detail the nature of industry, business, trade, profession or service in which the person works. Vague answers should be avoided. In the case of industries, the articles which are produced or serviced or repaired, should be given. If more than one article is produced the chief article produced or serviced or repaired should be given. In the case of business or trade the principal article of trade should be described. In the case of service describe the nature of the service to which the person's work belongs. The description should be such that it would be possible to classify the establishment in which the person is working for purposes of industrial classification of the population. The description should be either in the vernacular or in English or in vernacular transliteration of English.

In the case of a person for whom an X is put in Question 11(a), put an X in this question also.

Important points to remember in Questions 11(a) and 11(b).

1. Women or children who help with work, such as rice pounding or doing domestic service for wages or minding cattle or selling firewood or making and selling cowdung cakes, grass, etc., should be described fully even if they work part-time. **In the case of married or grown-up women who do any of the work mentioned above in addition to the usual household duties such work should be fully described and HW written in brackets after the full description.**

2. If a person makes the articles he sells, he should be entered as maker and seller of them.

3. Wherever convenient, for complete description, the work should be expressed by the vernacular name by which it is known.

4. The following are too vague and must not be used by themselves :

Scientist, technician, civil servant, clerk, engineer, inspector, checker, foreman, overseer, supervisor, labourer, machinist, assistant, contractor, polisher.

5. **Labourers**—For an unskilled labourer usually employed on one sort of work alone, give also the sort of work done, *e.g.*, railway porter, market or bazar porter, labourer employed on road digging, brick-layer's labourer. If accustomed to work on various jobs, write general labourer.

6. **Machine Operators**—Always state the kind of machine giving its recognized name, if any.

7. **Shop-keepers, Retail Dealers, Shop Assistants**—If wholly or mainly engaged in selling write, 'Dealer' (if principal) or, 'Shop Assistant' or 'Salesman' (if assisting) and state whether the business is wholesale or retail or both. For shop assistants and salesmen in stores with several departments, state the particular department in which engaged (*e.g.*, Ship and Railway Parts, Fans and Sewing Machines, Grocers and Confectioners).

8. **Transport Workers**—Describe fully the nature of the transport, *e.g.*, air transport, rail transport, transport by motor car or motor cycle, or vehicles drawn by horse, etc.

9. **Services**—For a person engaged in the Defence Services write 'Service of Central Government'.

10. If the job is known in the trade or industry by a special name, use that name. Managers, Foreman, etc., should be given the department/branch wherever applicable *e.g.*, Sales Manager or a Manager of Hardware Department, Machine Shop Foreman or Boiler Room Foreman, etc. The following terms are insufficient by themselves :—

Manufacturer, merchant, agent, broker, refractor, dealer, engineer and iron works, etc.

11. **Domestic services**—In the case of any private servant *e.g.*, a cook or domestic servant, write only 'private cook or domestic servant'. There is no industry in his case but in the case of persons employed in hostels, restaurants, boarding houses, institutions, etc., the words hotel, restaurant, etc., should be added.

For persons in the employ of Firms carrying on two or more businesses, if the businesses are carried on in separate premises then the business carried on at the premises in which the person is employed should be given. If the businesses are carried on in the same premises but each has a separate organisation (*i.e.*, they have separate records of employment, production, etc.) then the appropriate business should be quoted. If, however, the two activities are carried on side by side then the major activity of the firm or establishment should be given.

12. **Commerce**—Special care should be taken to see that the distinction between retail and wholesale business is clear. As in industries, the goods handled should be clearly indicated.

For a person who is :

Q. 11 (c) CLASS OF WORKER

1. an **Employer,** that is, who hires one or more persons in his work described in Q. 11(a) .. write MR

2. an **Employee**, that is, who does his work described in Q. 11(a) under others for wages or salary in cash or kind ..write EE

3. a **Single Worker**, that is, who is doing his work described in Q. 11(a) without employing others, except casually and without the help of other members of the family except casually. This will include workers working as members of cooperatives. .. write SW

4. a **Family Worker.** that is, who is doing his work described in Q. 11(a) in own family without wages or salary in cash or kind .. write FW

For a person for whom an 'X' is put in Qs. 11(a) and 11(b) put 'X' in this question also.

Explanation :—

(i) An **Employer** is a person who has to employ other persons in order to perform the work entered in Q. 11(a). That is to say, such a person is not only responsible for his own personal work but also for giving work to others in the business mentioned in Q. 11(a). But a person who employs domestic servants for household duties or has subordinates under him in an office where he is employed by others, is not an employer, even if he has the power to employ another person in his office on behalf of his own employer or employers.

(ii) An **Employee** is a person who usually works under some other person for salary or wages in cash or kind. There may be persons who are employed as managers, superintendents, agents, etc. and in that capacity employ or control other workers on behalf of their own employers. Such persons are only employees, as explained above, and should not be regarded as employers.

(iii) A **Single Worker** for the purpose of Q. 11(c) is a person who works by himself but not as Head of household in a Household Industry. He is not employed by any one else and in his turn does not employ anybody else not even members of his household except casually. This definition of a **Single Worker** will include a person who works in joint partnership with one or several persons hiring no employees, and also a member of a producers' co-operative. Each one of the partners or members of such producer's co-operatives should be recorded as 'Single Worker'.

(iv) A **Family Worker** is a member who works, without receiving wages in cash or kind, in an industry, business or trade conducted mainly by members of the family and ordinarily does at least one hour of work everyday during the working season. For the purpose of the entire Q. 11, such an industry should be on a scale larger than what has been covered in 'Household Industry' in Q. 10 whether run at home or away from home in town or village and even away from village in rural area and should ordinarily be in the nature of a recognised partnership, joint stock company or registered factory. For the purpose of this definition members of a family may be drawn from beyond the limits of the household by ties of blood or marriage. The family worker may not be entitled to a share of the profits in the work of the business carried on either by the person or head of the household or other relative.

Members of the household who help solely in household duties should not be treated as family workers.

Q. 11 (d) NAME OF ESTABLISHMENT — Describe in detail the name of the factory, workshop, business house, company, shop, etc. If a person has no fixed place of work, write 'No fixed place of work'.

For a person for whom an X is put in Qs. 11(a), 11(b) and 11(c) put an X in this question also.

Q. 12 ACTIVITY, IF NOT WORKING. — This question will apply to a person NOT Working.

Write 'X' in this question for a person who is working, that is for whom you have recorded the work in any of the questions 8 to 11 above.

The following activities should be recorded in the case of persons NOT Working :

1. For a full-time student or child attending school who does no other work, such as make articles at home for sale, nor even help part-time, in his own family cultivation, industry, trade or business .. write ST

2. For a person engaged in unpaid home duties (like housewife or other adult female) who does no other work, such as make articles at home for sale or wages, nor help regularly even part-time in family cultivation, industry, trade or business .. write HW

3. For any dependent, including an infant or child not attending school, a person permanently disabled from work because of illness or old age .. write D

4. For a retired person who is not employed again, rentier, person living on agricultural or non-agricultural royalty, rent or dividend or any other person of independent means for securing which he does not have to work and who does no other work .. write R

5. For a beggar, vagrant or independent woman without indication of source of income and others of unspecified source of existence .. write B

6. For a convict in jail (an undertrial prisoner will be shown as a worker if he used to work before he was apprehended) or an inmate of a penal, mental or charitable institution .. write I

7. For a person who has not been employed before but is seeking employment for the first time .. write NE

8. For a person employed before but now out of employment and seeking employment .. write UN

Explanation :—If a person, who does not work, cannot be readily classified in any of the above categories, put him in category 5 and write B in this question. A retired person who has taken up regular work again should not be entered in this question as he would have been entered for his new work in Questions 8 to 11.

A person who is not working but has been offered work which he has not joined should be included in item 3 and 'D' should be written. He should not be included in items 7 or 8.

Q. 13 Sex Write 'M' for Males; and 'F' for Females.

For eunuchs and hermaphrodites write 'M'.

PART II-A

GENERAL POPULATION TABLES

TABLE A-I

AREA, HOUSES AND POPULATION

AREA, HOUSES AND POPULATION

(Fly-leaf to Table A-I)

Changes in Area of State and districts 1901-1961. The area of this State had a chequered history and it would be interesting to review the changes through which it has passed during the past 60 years. In 1901, this territory now called Rajasthan was composed of two parts :—

(*i*) The princely States collectively known as the Rajputana agency and,

(*ii*) The British region of Ajmer-Merwara.

The Rajputana agency consisted of 18 States and two Chiefships.* An area of about 1,439 sq. miles belonging to the Tonk State was then situated outside the boundaries of the agency into what was called the Central India agency, while, some tracts of the Central India agency belonging to the Nandwas of Gwalior and Gangapur of Indore were located in Rajputana agency inside the Mewar (Udaipur) State. Within the Rajputana agency, the Sambhar area was held jointly by the Jaipur and Marwar (Jodhpur) States. Kherwara and Kotra areas of Mewar (Udaipur) State and Erinpura and Mount Abu areas of Sirohi State were administered by the British. The Rajputana states agency had on the whole an area of 127,541 sq. miles, 128 towns and 29,901 villages under its jurisdiction. Ajmer-Merwara, with an area of 2,710·68 sq. miles, 4 towns and 740 villages, was with the British.

On account of the transfer of 2 villages with an area of 4 sq. miles from Punjab to Bikaner and about 3 sq. miles of area transferred from Idar State to Mewar as a result of some boundary settlement, and transfer of the Chhabra, Pirawa and Sironj region of Tonk, with an area of 1,439 sq. miles from the Central India agency, the total area of the territory now called Rajasthan increased to 131,698 sq. miles during the decade 1901-1911.

The next decade had no change in the area of the territory as a whole. An area of 6 sq. miles was permanently leased in October, 1917 by the Sirohi State to the Government of India where a new unit known as the Abu district was formed. In the Ajmer-Merwara region, on account of some administrative reforms as a result of the re-organisation of provinces in 1914, the districts of Ajmer and Merwara were combined and formed into a single unit.

There was an increase of 72 sq. miles in the area of the territory during the decade 1921-31. This was mostly due to the adjustment of area figures on account of the re-survey of a portion of Rajputana agency. An area of about 2 sq. miles having no habitation was, however, transferred from the Punjab to Bikaner. Within the territory, the Deoli area of the Mewar State was brought under the British administration.

During the decade 1931-41, there was an increase by 3,500 sq. miles in the area of the Rajputana agency which was due to the extension of modern surveys and consequent adjustments and to the addition of the State of Palanpur and Danta which contributed 1,794 and 347 sq. miles of area respectively. Within the territory about 343 sq. miles of land from the Ajmer-Merwara was transferred by the British to the Mewar and Marwar States.

A number of changes in the area of the territory took place during the decade 1941-51. Following the attainment of Independence in 1947, integration of the Princely States was done in several stages which followed each other in quick succession. The first was the formation of the Matsya Union, which embraced the four States of Alwar, Bharatpur, Dholpur and Karauli, on the 18th March, 1948, which covered an area of 7,589 sq. miles. The second was the formation of a Union of Banswara, Bundi, Dungarpur, Jhalawar, Kota, Kishangarh, Pratapgarh, Shahpura and Tonk States with an area of 17,000 sq. miles, on the 25th March, 1948. Within less than a month the third stage was also completed with the joining in of the Udaipur State when the Union, now known as "former Rajasthan" was inaugurated on 18th April, 1948. The Union had an area of 29,977 sq. miles. With the formation of these Unions only four States remained unintegrated viz. Jaipur, Jodhpur, Bikaner and Jaisalmer. The territories of these States were compact blocks. The fourth stage was completed on 30th March, 1949 when the Greater Rajasthan Union was formed by a merger of these States with the former Rajasthan Union. The fifth stage of integration was achieved when the administration of the Matsya Union was transferred to Rajasthan on the 15th May, 1949. Earlier, on 1st February 1948, States of Palanpur and Danta, having an area of 2,141 sq. miles, were transferred to the Western India and Gujarat States agency. The Abu Road including Mt. Abu and Delwara tehsils, with an approximate area of 323 sq. miles of Sirohi State, were merged with Bombay and the rest was included in Rajasthan. Under the Removal of Enclaves Order, an exchange of areas took place involving the transfer of 67 villages to the neighbouring states and merger from them of 78 villages into Rajasthan and this resulted in a net gain of 111.7 sq. miles to the territory. Rajasthan State had an area of 130,207 sq. miles at the end of the decade 1941-51. It was divided into 5 revenue Divisions, 25 districts, 79 sub-divisions (sub-districts) and 207 tehsils. The former province of Ajmer-Merwara was declared a separate State of Ajmer with an area of 2,417 sq. miles and was composed of a single administrative district containing 3 sub-divisions.

*States	*Chiefships*
1. Alwar 2. Banswara 3. Bharatpur 4. Bikaner 5. Bundi 6. Dholpur 7. Dungarpur 8. Jaipur 9. Jaisalmer 10. Jhalawar 11. Karauli 12. Kotah 13. Kishangarh 14. Marwar (Jodhpur) 15. Mewar(Udaipur) 16. Pratapgarh 17. Sirohi 18. Tonk	1. Shahpura 2. Lawa

Effect of States Re-organisation in 1956. During the decade 1951-61, under the States Re-organisation Act of 1956, large scale changes in the territory were effected which were composed of the following :—

(*i*) Merger of Ajmer State into Rajasthan.

(*ii*) Return of the Abu Road and Delwara tehsils to Rajasthan.

(*iii*) Transfer of Sunel sub-tehsil from Madhya-Pradesh to Rajasthan.

(*iv*) Transfer of Sironj sub-division from Rajasthan to Madhya Pradesh.

Apart from these major transfer of areas, parts of a few villages in Chitorgarh District, with a total area of 4.82 sq. miles were transferred to Madhya Pradesh under the Rajasthan and Madhya Pradesh Act of 1959. The total area of the State according to the Survey of India is now 132,152 sq. miles. The abstract table below shows in brief an account of changes in the area of the State during the last 60 years :—

Census years	Area in sq. miles (Survey of India)		
	Rajputana Agency/ Rajasthan	Ajmer/ Merwara/ Ajmer State	Total
1	2	3	4
1891—1901	127,541	2,711	130,252
1901—1911	128,987	2,711	131,698
1911—1921	128,987	2,711	131,698
1921—1931	129,059	2,711	131,770
1931—1941	132,559	2,400	134,959
1941—1951	130,207	2,417	132,624
1951—1961	Reorganised State of Rajasthan		132,152

Figures of Surveyor General & State Board of Revenue. The re-organised State of Rajasthan is now composed of 26 administrative districts sub divided into 211 tehsils. The area figures of the State and its various districts, both according to the Surveyor General of India and the State Revenue authorities are as under :—

Sl. No.	State/District	Area in sq. miles according to Survey of India	Area in sq. miles according to State Revenue authorities
1	2	3	4
	RAJASTHAN	132,152	131,889·74
1.	Ganganagar	8,000	7,982·37
2.	Bikaner	10,561	10,554·51
3.	Churu	6,410	6,509·69
4.	Jhunjhunu	2,283	2,288·79
5.	Alwar	3,241	3,309·83
6.	Bharatpur	3,127	3,119·30
7.	Sawai Madhopur	4,070	4,071·40
8.	Jaipur	5,393	5,405·22
9.	Sikar	3,027	2,991·79
10.	Ajmer	3,283	3,224·07
11.	Tonk	2,765	2,785·65
12.	Jaisalmer	14,847	14,994·68
13.	Jodhpur	8,772	8,692·96
14.	Nagaur	6,884	6,821·52
15.	Pali	4,792	4,717·16
16.	Barmer	10,170	10,878·18
17.	Jalor	4,916	4,078·50
18.	Sirohi	1,979	1,999·78
19.	Bhilwara	4,034	4,037·90
20.	Udaipur	6,812	6,819·26
21.	Chitorgarh	4,033	3,853·04
22.	Dungarpur	1,460	1,460·00
23.	Banswara	1,946	1,956·47
24.	Bundi	2,148	2,170·31
25.	Kota	4,794	4,806·89
26.	Jhalawar	2,405	2,360·47

The area of the State according to the Surveyor General is 132,152 sq. miles while it is 131,890 sq. miles according to the village papers as maintained by the State revenue authorities. The difference in the figures may be attributed to the fact that the area of the Jaisalmer district and most of the area under forests still remain unsurveyed and there are differences in methods of measurement and computation between the Survey of India and the State Government.

Full account of changes in jurisdiction in State, Districts, Tehsils and Villages—The Appendix I to table A I shows the territorial units of 1951 showing the present composition of the State. It also records all the territorial changes that have occurred up to tehsil level during 1951-61. The statement produced below shows the full account of changes in the jurisdiction of the State and its various districts during the inter-censal period 1951-61. Information about the names of villages transferred in the process are available in the series of the District Census Handbooks.

Territorial Changes in the Districts 1951-61

Sl. No.	Name of District	Territorial changes during 1951-61		Government Notifications
		Deductions	Additions	
1	2	3	4	5
1.	Bikaner		43 villages transferred from distt. Jaisalmer.	F. 2 (46) GA (A)/ 53 of 31-5-54
2.	Churu		1 village transferred from distt. Jhunjhunu.	F.AI (723) Rev. D/ 58 of 5-1-59.
3.	Jhunjhunu	1 village transferred to Churu district.		F.AI (723) Rev. D/ 58 of 5-1-59.
			1 village transferred from distt. Sikar.	F. 3(18) Rev. D/58 of 5-9-58.
4.	Jaipur	4 tehsils transferred to Ajmer district.		F. 14 (21) Rev. D/ 56 of 1-11-56.
			2 villages transferred from distt. Sikar.	F. 25 (15) Rev. I/54 of 20-9-54.
5.	Sikar	(*a*) 2 villages transferred to Jaipur district.		F. 25 (15) Rev. I/54 of 20-9-54.
		(*b*) 1 village transferred to Jhunjhunu district.		F. 3 (18) Rev. D/58 of 5-9-58.
6.	Ajmer (created in 1956)	4 villages and 1 town transferred to Tonk ditstrict.		F. 3 (10) Rev. D. of 7-4-59.
			(*a*) 1 village transferred from Tonk district.	-do-
			(*b*) 4 tehsils transferred from Jaipur district.	F. 14 (21) Rev. D/ 56 of 1-11-56.
7.	Tonk	1 village transferred to Ajmer district.		F. 3 (10) Rev. D of 7-4-59.
			4 villages and 1 town transferred from Ajmer district.	-do-
8.	Jaisalmer	(*a*) 43 villages transferred to district Bikaner.		F. 2(46) GA/A/53 of 31-5-54.
		(*b*) 33 villages transferred to district Jodhpur.		-do-
			64 villages and 1 town transferred from Jodhpur district.	-do-
9.	Jodhpur	64 villages and 1 town transferred to district Jaisalmer.		F.2 (46) GA/A/53 of 31-5-54.
			33 villages transferred from district Jaisalmer.	-do-
10.	Barmer		77 villages transferred from district Jalor.	F. 25 (15) Rev. I/54 of 28-9-54.
11.	Jalor	77 villages transferred to district Barmer.		F. 25 (15) Rev. I/54 of 28-9-54.
12.	Sirohi		1 tehsil transferred from former Bombay State.	States Re-organisation Act, 1956.
13.	Udaipur		10 villages transferred from distt. Chitorgarh.	F.3(4) Rev. D/57 of 16-9-57.
14.	Chitorgarh	(*a*) 2 villages transferred to district Bhilwara.		F. 25 (24) Rev. I/53 of 31-3-54 & F. 3 (4) Rev. D/57 of 16-9-57.
		(*b*) 10 villages transferred to district Udaipur.		F.3(4) Rev. D/57 of 16-9-57.
		(*c*) Parts of some villages (a total of 3085 acres) transferred to Madhya Pradesh State.		Rajasthan and Madhya Pradesh Act 1959 Section 2&3.
15.	Bhilwara		2 villages transferred from distt. Chitorgarh.	F. 25 (24) Rev. I/53 of 31-3-54 and F. 3 (4) Rev.D/57 of 16-9-57.
16.	Kota	2 tehsils transferred to Madhya Pradesh State.		States Re-organisation Act of 1956.
17.	Jhalawar		77 villages and 1 town transferred from Madhya Pradesh State.	-do-

Critical Survey of changes in Jurisdiction—From the foregoing account it is clear that the following major changes have occurred in the jurisdiction of the State during 1951-61 :—

On account of the State Reorganisation in 1956—

(*a*) the erstwhile State of Ajmer was merged into Rajasthan on account of which an area of 2,438·5 sq. miles and a population of 693,372 persons came under the jurisdiction of Rajasthan State,

(*b*) The Sunel Tappa area which was hitherto a part of Madhya Pradesh and which was an enclosure inside Rajasthan was merged with the latter. It had an area of 148·85 sq. miles and population of 30,314 persons.

(*c*) the Abu Road and Delwara tehsils were restored to Rajasthan which had an area of 296·44 sq. miles and a population of 52,429 persons; and,

(*d*) the Sironj-Lateri enclave of Rajasthan was transferred to Madhya Pradesh with an area of 865·2 sq. miles and a population of 96,138 persons.

Although there were a number of changes in the jurisdiction of the various districts during 1951-61, the only major change involved was in the case of Ajmer and Jaipur districts where a former sub-division of Jaipur district, namely Kishangarh sub-division, with an area of 1,349 sq. miles and a population of 132,579 persons was transferred to Ajmer district. The adjustment was effected mainly to strengthen the size of the Ajmer district and to trim the size of district Jaipur which was quite unwieldy for administration.

Urban and Rural population

A brief historical survey and definition of urban area in 1961—One of the most difficult problems in presenting comparable demographic data is involved in obtaining rural and urban classification of population. The designation of areas as rural and urban is so closely bound up with historical, political, cultural and administrative considerations that the process of developing uniform definitions and procedures moves very slowly. It will be interesting to record in brief how the urban and rural classifications of population were obtained at the past censuses.

At the time of 1901 Census, the Imperial Code of Census Procedure defined a 'town' as—

(*a*) Every municipality of whatever size,

(*b*) All civil lines not included within municipal limits,

(*c*) Every cantonment ; and

(*d*) Every other continuous collection of houses permanently inhabited by not less than 5,000 persons which the provincial Superintendent, Census Operations may decide to treat as a town for census purposes.

Owing to the vicissitudes of famine, the population of a number of places classed as towns in 1891 dwindled to less than 5,000 but as they possessed urban characteristics they were retained on the list of towns. The same definition continued in 1911. Later in 1921, the numerical limit of 5,000 as set above was relaxed so as to admit certain places having urban characteristics which had been treated as towns in 1901. In 1931, the Provincial Superintendent, Census Operations was authorised to have his discretion to treat any place, not coming within the definition of a town as urban provided it had urban characteristics. While attempting to classify population into two groups, urban and rural, the Superintendent, Census Operations conducting the 1941 Census had spoken of the difficulties coming in his way on account of the fact that some of the States were small and their capitals little more than villages yet for reasons of sentiments they had to be classified as towns while places which, according to him possessed more urban than rural characteristics had to be, for various reasons, declared as rural areas.

In 1951, a town was defined as—

(*a*) Every Municipality ;

(*b*) Every Cantonment ;

(*c*) Every place of usually not less than 5,000 inhabitants ; and

(*d*) Any other place which was treated a town for special reasons (possessing urban characteristics) by the Superintendent, Census Operations.

In 1961, all areas which were administered by Municipalities in 1951 and where municipal administration continued to subsist were included in urban areas. However, where municipal administration did not exist, the following three factors were required to be satisfied before any such area was included in urban area :—

(*a*) Minimum population was 5,000.

(*b*) 3/4th of male adult population was engaged in non-agricultural occupations, and

(*c*) Density of population was approximately 1,000 per sq. mile.

Difference that this definition has made to statistics of urban areas of 1951—On account of the 1961 definition of urban areas as many as 84 places from the 1951 urban list were deleted from the list of towns for the Census of 1961. 3 new towns were added to the list of towns as they possessed urban characteristics. This information is contained in detail in the Appendix to table A-IV.

The list below shows the urban areas in Class IV, V & VI of Census 1951 which have been eliminated in 1961. It would be observed from the list that there were 34 such towns in Class V and 50 in Class VI while there was none in the Class IV. The list also shows the population of each area as a village in 1961. The total population of these places was 362,199 in 1951 which has now risen to 438,063.

As a result of declassification, 2 places namely Gulabpura of tehsil Hurda, district Bhilwara, and, Hindumalkot of tehsil Ganganagar, district Ganganagar were enumerated as hamlets while 4 places namely (*i*) Behror of the Behror tehsil and (*ii*) Bahadurpur of

Alwar tehsil, district Alwar (*iii*) Bamanwas of tehsil Bamanwas, district Sawai Madhopur and (*iv*) Lohawat of tehsil Phalodi, district Jodhpur were enumerated not as single villages but as four, five, two and two villages respectively. The details are available in the notes to Appendix to A-IV table.

List of Urban Areas (In Classes IV, V & VI) of Census 1951, Eliminated in Census 1961

(With population in 1951 & 1961)

Class of Urban Area	Name of Urban areas of 1951 (eliminated in 1961)	Population	
		In 1951 as a town	In 1961 as a village/s

	84. Kotra Cantt.	905	1,406

@Enumeratd as more than one village in 1961.

*Enumerated as a hamlet in 1961.

Three new urban areas have been listed in 1961 as given below :—

Class of urban area	Name of urban area	Population
1	2	3
IV	..	..
V	1. Parbatsar	5,081
VI	1. Vidya Vihar	3,464
	2. Sojat Road	4,434
	TOTAL	12,979

The population of Parbatsar and Vidya Vihar for 1951 census was 3,997 and 1,900 persons respectively. Vidya Vihar was a part and parcel of Pilani town in 1951. Sojat Road town which was only a railway station in 1951 has grown up on the borders of Siyat and Dhandhla villages of tehsils Sojat and Kharchi in Pali district.

Progress in the number of Towns 1901-1961. The table below has been constructed to show the changes in the number of towns in Rajasthan during 1901-1961 on the basis of its present territorial jurisdiction. Thus, the towns now falling under this State have been taken to be in its jurisdiction as from 1901. In the same way, the towns now outside this State have been considered as falling outside its jurisdiction as from 1901. The towns have been allocated to the various districts in the past census years on the basis of their present district-wise distribution.

Progress in the number of Towns 1901-1961

(Table recast on the basis of present jurisdiction of Rajasthan)

Definition of a village—a brief historical survey, and explanation of variation—At the time of 1901 Census the term 'village' in the Census returns was taken to be the area demarcated for revenue purposes as a mauza. Forest tracts not included within the boundaries of a revenue mauza were treated as villages, the boundaries being those recognised by the State forest or revenue department. With very few exceptions this definition of a village of 1901 Census was also adopted in 1911 for census purposes, hamlets being included in the parent village. But in Lawa, Mewar, Pratapgarh and Shahpura, hamlets were counted as separate villages. Partly due to this, and partly to the transfer to the Rajputana Agency of the Chhabra, Pirawa and Sironj areas, there was an increase of about 5·19% in the number of villages. A portion of this increase, however, was the result of villages having been populated which were abandoned in the famine years preceding the Census of 1901. In 1921 a village denoted the area demarcated for revenue purposes as a mauza, provided that, where such a village or part of a village forms part of the area of a town, such village or such part of a village was included in the town, remaining part, if any, being treated for census purposes as a village. A village included all the hamlets situated within the area of a revenue mauza. Forest tracts not included within the boundaries of a revenue mauza were entered as a separate village, the boundaries being those recognised by the forest department. The variation in the number of villages during 1911-21 was 0·44%. Some of the main causes for variations in the number of villages were ascribed to—

(*i*) Desertion or repopulation of villages,
(*ii*) Inclusion of hamlets in parent villages, and
(*iii*) Declaration of certain hamlets as revenue mauzas on resettlement or on other grounds.

In 1931 it was taken that a village varies in nature according to the various revenue systems prevailing in each of the then princely States and that in some cases it was the residential village while in others, it was a collection of hamlets. The variation recorded in 1921-31 was 4·10%. In 1941 a village denoted the area demarcated for revenue purposes as a mauza provided that where such a village or part of a village formed part of the area of a town, such villages or such part of a village were included in the town, the remaining part, if any, being treated for census purposes as a village. A village included all the hamlets situated within the area of the revenue mauza. As a result of this definition there was a fall in the number of villages and the variation recorded was 5·87%. In 1951 a village meant a revenue mauza revenue of which was realised under separate name. It included all hamlets attached to it. A revenue mauza falling within the limits of a town or city was treated as a part of the town or city. A hamlet was defined as a group of houses occupied by people who cultivate land, the revenue of which is credited, not separately but with the parent village. Hamlets attached to cities or towns, but which were not included in them, were treated as separate villages. There was a fall in the number of villages and the variation recorded was 1·21%. The reason for this fall was ascribed to the fact that some places treated as separate villages in the previous censuses were not enumerated as villages as they were found to be only hamlets of other villages. In 1961, a revenue mauza (including its hamlets) was taken as a village for census purposes. Hamlets falling into the revenue area of the towns but which were not administered by municipalities were taken as non-municipal area of the towns. There were 33 towns in the State which had a total population of 35,857 persons residing in non-municipal areas attached to them.

As a result of this definition there would have been a decrease in the number of villages as the hamlets attached to the towns of 1951 which were considered as separate villages at that census were not so considered at the 1961 Census. But the Census of 1961 has, on the other hand recorded an increase in the number of villages during the intercensal period 1951-61. During this decade large scale settlement operations were conducted when regular revenue records were prepared and several new areas were treated as villages (Revenue mauzas) which were part and parcel of old villages. This bifurcation of villages has increased their number. The State also started forest settlement during this period.

Number of inhabited villages—The statement below shows the progress in the number of inhabited villages during the years 1901-1961. Mainly on account of the fact that the village directories of past censuses relating to the princely States and the government records relating to the formation of various districts at the time of merger of the princely States into unions and at the time of formation of Rajasthan are not available, it has not been possible to give the districtwise information regarding the number of villages during the past censuses. State figures have, however, been computed from the records of the past censuses on the basis of the present territorial jurisdiction of the State.

Number of Inhabited Villages in 1901-1961

State/District	Number of Villages						
	1961	1951	1941	1931	1921	1911	1901

Villages partly included in towns—No village in the State has been partly included in towns. 38 villages have, however, been fully absorbed in the towns out of which as many as 27 have been included in Kota city alone. The names of these villages are mentioned in Sub-Appendix of Table A-I.

Definition of census house—In 1901, a house was defined as a building to which a separate number was affixed. In rural and semi-rural areas this definition was applied to the dwelling place of one or more families and their resident servants and dependents, having a separate principal entrance from the common way, space or compound. In cities and large towns the application was based on the structural and not on the social unit and any building separately assessed to municipal or chowkidari taxation was treated as a house. In 1911, for census purposes a house was defined in the Rajputana Code as being, in rural areas, the building, or hut, occupied as a dwelling place by one commensal family. A commensal family was described as a group of persons including their resident dependents and servants, who lived together and used the same cooking place. This definition was modified by a few exceptions, so slight, however, as not to affect the general application of it. It would be seen that both in 1901 and 1911 the definition in rural areas was based more on the social unit than the structural and that in 1911 the "common cooking place" had displaced the "separate principal entrance from that common way" from the definition of 1901. In towns the definition adopted offered two alternatives. The Rajputana Code laid down that in municipalities a house may be defined as any building separately assessed to municipal taxation. But where this definition was found impracticable, and in towns which were not municipalities, the old definition of 1901 in villages and small towns was allowed. Sub-numbers, however, were affixed to the room or set of rooms occupied by a commensal family, and, as the census staff and the abstraction offices were instructed to treat these sub-numbers in the enumeration books as separate houses, the definition of a house in urban areas approximated very nearly to that in villages and was practically equivalent to the commensal family.

In 1921 and 1931 the definition of a house adopted was the same as in 1911. In 1941 both in rural and in urban areas the structural basis gave place to the social one. The house was defined as the dwelling place of one or more persons, or a place which, if unoccupied, was capable of being used as a dwelling place for human beings, having a separate principal entrance from the commonway, compound, enclosure etc.

In 1951, a house meant a building which had a separate main entrance from the common way, space or compound. The minimum that was necessary for entitling a place to be treated as a house for census purposes was atleast 2 walls and a roof made of any material. Thus, shops, temples, mosques, offices etc. also came within the definition of a house. The term 'occupied house' was made use of to denote a house used as the residence of any human being. By 'residence' was meant sleeping and dining. But no separate tabulation was done for houses which were not occupied houses and the word 'house' wherever it occurred in 1951 Census Report signified an occupied house that is the dwelling place of one or more households or families.

A census house has been defined for the purposes of 1961 Census as a structure, or part of a structure inhabited or vacant, or a dwelling, a shop, a shop-*cum*-dwelling or a place of business, workshop, school etc. with a separate main entrance. If a building has a number of flats or blocks, which have separate entrances of their own and are independent of each other giving out on the road or a common staircase or a common courtyard leading to a main gate they are treated as separate census houses. If within an enclosed or open compound there are separate buildings then each such building is also considered as a separate census house provided they belong to the same owner. If all the structures within an enclosed compound are together treated as one building, then each structure with a separate main entrance is treated as a separate census house. Each census house in a building is determined on the basis of actual usage to which it is put as found at the time of the visit of the enumerator and not based on any structural possibility or design of the building.

It would thus be observed that while in earlier censuses, a census house was defined as a dwelling with a separate main entrance, in the Census 1961 it is not only a dwelling but also a non-dwelling structure or part of a structure with a separate entrance, irrespective of the use to which it is put.

Definition of occupied residential houses—Three types of Census houses, that is to say, the houses used as (i) dwellings, (ii) shop-*cum*-dwellings and (iii) workshop-*cum*-dwellings were included in the term 'occupied residential houses' for the purposes of 1961 Census.

It would be interesting to study the average number of persons per occupied house through the past 60 years in Rajasthan.

Persons per occupied house 1901-1961

Years	Average No. of persons per house		
	Total	Rural	Urban
1	2	3	4
1901	5·05	5·12	4·91
1911	4·31	4·37	3·98
1921	4·32	4·32	4·32
1931	4·70	5·05	4·64
1941	5·77	5·75	5·91
1951	6·16	6·01	6·92
1961	6·35	6·31	6·57

It will be observed that the average has been steadily increasing from decade to decade.

Statement of density, occupied houses, sex ratio etc. and observations on variations—The following statement gives the persons per occupied census house, sex ratio and percentage distribution of rural and urban population and density of population by the districts of the State in 1961.

Density per sq. mile occupied Census House, No. of females per 1,000 males, Percentage of Rural and Urban population to total population, 1961.

State/District	Persons per occupied Census House			No. of females per 1,000 males			Percentage of rural and urban population to total population			Density per sq. mile

The State's average for persons per occupied census house was 6·35 (6·31 for rural and 6·57 for urban). The highest number of persons per occupied census house was in Jhunjhunu district (8·79) where it was 8·98 in its rural areas. The lowest was recorded in Udaipur district (5·19). Amongst the rural areas the lowest was also in Udaipur district (5·15) while the lowest amongst the urban areas was in Jaisalmer district (4·90).

The sex ratio in Rajasthan was 908 (913 for rural and 882 for urban areas). The highest sex ratio was found in Dungarpur district (991) and the lowest in Jaisalmer district (802). The highest sex ratio amongst the rural areas was in Dungarpur (995) and the lowest in Jaisalmer (795). The highest sex ratio in urban areas was in Sikar district (996) and the lowest in Ganganagar district (784).

83·72% of Rajasthan State's population lived in rural areas. The highest percentage of population living in rural areas was found in Jalor district (95·48) while the lowest was in Bikaner district (57·70).

The density of population per sq. mile in Rajasthan was 153. While it was 130 in the rural areas, it was 1,548 in urban areas. The highest density was in

Bharatpur district (368) while the lowest was in Jaisalmer district (9). Amongst the rural areas Bharatpur and Jaisalmer districts also had the maximum and the minimum densities (326) and (9) respectively. In the urban areas Alwar district had the highest density (4,493) while Jaisalmer district had the lowest (98).

The following Statement shows the districts which have recorded more density than the State average :—

Name of District	Density of Population per square mile	Name of District	Density of Population per square mile
1. Bharatpur	368	10. Bhilwara	215
2. Jaipur	353	11. Udaipur	215
3. Alwar	336	12. Jhalawar	204
4. Jhunjhunu	315	13. Tonk	180
5. Ajmer	297	14. Sirohi	178
6. Dungarpur	279	15. Kota	177
7. Sikar	271	16. Chitorgarh	176
8. Banswara	244	17. Pali	168
9. Sawai Madhopur	232	18. Bundi	157

AREA, HOUSES AND POPULATION

(Note on Table A-I)

Table A-I is the basic population table for the current Census. It is presented in two parts. The first is the Union Table giving details only upto the districts. The second gives figures down to the tehsils and towns. Area shown in columns 3a and 3b of the Union Table against (a) and (b) are those reported by the Surveyor General and the State revenue authorities respectively. In the State Table and in all other tables, the figures furnished from the State revenue authorities only are shown and used for calculation of densities of population. The break up of area figures into rural or urban areas is not furnished by the Surveyor General. The area figures for rural and urban areas presented throughout this part are the areas as maintained in the State revenue records.

1. Under columns 3a and 3b, (a) represents the area figures furnished by Surveyor General of India, (b) represents the area figures furnished by the State revenue authorities. The urban areas are based on the area of individual towns furnished by the local authorities. The rural area for a district is obtained by subtracting from the State revenue authorities area, the urban area.

2. The Sq. Km. and density figures of urban area of district/State are worked out using the area figures corrected upto 2 places of decimal obtained by adding the areas of the towns in the respective units and not using the area figures given in the table. In addition to this the area figures relating to Sq. Km. are further adjusted to make the District/State totals tally.

3. Population per Sq. mile of rural and urban has been calculated on area figures supplied by the State revenue authorities.

STATE TABLE A-I AREA, HOUSES AND POPULATION

1. The Sq. Km. and density figures of urban areas of Tehsil/District/State are worked out using the area figures corrected upto 2 places of decimals obtained by adding the areas of towns in the respective units and not using the area figures given in the table. In addition to this the area figures relating to Sq. Km. are further adjusted to make the Tehsil/District/State totals tally.
2. Towns treated as such for the first time in 1951 Census which continue as towns in 1961 Census are shown with asterisk (*) on their left.
3. Towns treated as such for the first time in 1961 are printed in italics.
4. The following abbreviations have been used for the Status of a town *e.g.*
M—Municipality.
CB—Cantonment Board.

APPENDIX I TO TABLE A-I

(Note)

The appendix traces the growth of the State to the present structure since the last Census. Due to the re-organisation of the States in 1956, inter state transfers of territories had taken place between this State on the one hand and Gujarat and Madhya Pradesh States on the other and the merger of the former Ajmer State with Rajasthan. Inter-district and inter-tehsil changes had also taken place since the Census 1951. This appendix shows what 1951 territories constituted the present State of Rajasthan.

APPENDIX I TO TABLE A-I

Statement showing 1951 territorial units constituting the present set up of Rajasthan State

(Only those names/areas which have undergone changes since 1951, have been shown below)

NOTE:—"The location Code Number, Name and Area of each village (wherever available) transferred from one tehsil to another or incorporated in a tehsil by transfer from another will be found in the respective District Census Handbook for the Census of 1961."

*The reasons for the marked difference between 1951 and 1961 area figures have not fully been assigned.

†"The area involved in the transfer of Churi Ajitgarh tehsil denotes the total area figures of the individual villages of this tehsil. The area figures are not comparable with the *total* area of the tehsil as given in the District Census Handbook of 1951. The difference between the two sets of figures is 18.4 Sq. Miles."

‡"The area involved in the transfer of the Khamnor tehsil denotes the total area figures of the individual villages of this tehsil. The area figures are not comparable with the *total* area of the tehsil as given in the District Census Handbook of 1951. The difference between the two sets of figures is 2.3 Sq. Miles."

@"As precise 1951 area figures of Sironj Sub-division and Sunel Tappa transferred to and from Madhya Pradesh respectively are not available, the 1961 figures have been adopted."

SUB-APPENDIX TO APPENDIX I TO TABLE A-I

Statement showing area for 1951 & 1961 for those municipal towns which have undergone changes in area since 1951 Census.

Name of Municipal Town	Area in Sq. Miles		Remarks
	1951	1961	
1	2	3	4

"This Sub-Appendix has not been prepared as 1951 area figures are largely conjectural.

APPENDIX II TO TABLE A-1

(Note)

One of the criteria for a place to be treated as town in the Census 1961 was, that it should normally have a population of 5,000 and over. For various reasons, however, as many as 94 places with a population of 5,000 or more, out of which 41 places were towns in 1951, were not treated as towns in 1961 while 9 places with less than 5,000 population were treated as towns. The appendix shows the number of such places with their population. Names with area of new towns under 5,000 population as well as of old towns under 5,000 which have been declassified as rural are given in lists A & B attached with the appendix. The list C shows the names of the villages having population of 5,000 or more which have not been treated as towns in 1961.

APPENDIX II TO TABLE A-I

Number of villages with a Population of 5,000 and over and Towns with a population under 5,000

			599,799

*Places treated as towns in 1951 Census.

APPENDIX III TO TABLE A-I

(Note)

This appendix is intended to furnish figures for the houseless and institutional population separately. For purposes of studying different characteristics this population has, however, been included along with the household population.

A part of the population of the State remains constantly on move without any fixed abode and lead nomadic life. Special arrangements were made to enumerate such houseless or floating population.

Special arrangements were also made for the proper enumeration of population living in institutions like big hospitals, hostels, welfare homes or charitable institutions. Such institutions were formed into special charges for the purpose of enumeration.

It is believed that the count of the houseless and institutional population was satisfactory.

APPENDIX III TO TABLE A-I

Houseless and Institutional Population

TABLE A-II

VARIATION IN POPULATION DURING SIXTY YEARS (1901—1961)

VARIATION IN POPULATION DURING SIXTY YEARS (1901-1961)

(Fly-leaf to Table A-II)

On account of the various changes in the jurisdiction of the State and its districts during 1951-61 the population figures had to be worked out for the previous censuses. The figures used for the 1951 Census in the table A-II are based on the actual figures contained in the Primary Census Abstract given in the concerned District Census Handbooks of 1951. The figures relating to population for Censuses previous to 1951 have been worked out. There was no difficulty where transfers related to a whole district such as in the case of Ajmer, or regions for which figures of population earlier to 1951 were available as in the case of the Sunel sub-tehsil.

The population of an area transferred for any particular Census prior to 1951 was, however, estimated on the assumption that the proportion of the population in the area transferred to the total population of the district in which it was situated at the time of the transfer, was the same in the particular previous Census as it was in 1951.

The population of an area transferred for any particular census prior to 1951 was estimated by the following formula :—

$$\frac{\text{(Population according to the earlier census } i.e. \text{ at 1941 etc. of the district/tehsil in which the area transferred was situated at the time of transfer).}}{\text{Population of the district/tehsil according to 1951 census in which the transferred area was situated at the time of transfer).}} \times \text{(Population according to 1951 census of the transferred area).}$$

The sex breakup of the population so estimated for a previous census was worked out on the basis of the sex distribution of population in the particular previous census of the district in which it was situated at the time of the transfer.

The table has been so constructed that the present jurisdiction of the States and its various districts has been taken to be the same throughout the past years to give a comparable picture of the growth of population. Thus the Sunel tappa, Abu Road and Ajmer areas have been considered as a part of the State while the sironj-Lateri area has been taken as outside the State ever since 1901. In the same way, the jurisdiction of the various districts as obtaining in 1961 has been taken to be the same ever since 1901.

The statement below gives the details of adjustments of population from 1901 to 1951 of the State and of the districts involved in the transfers of population during these years. Details of adjustment between 1951 and 1961 will be found in the Appendix to Table A-II.

It gives the adjustment necessary to bring the 1951 Census population of the districts to the jurisdiction of the districts as in 1961 Census.

It would be observed that there has been a remarkable change in the rise of population in the Ganganagar district owing to ever increasing irrigational facilities and the resultant growth of trade and industry in the area which was once nothing but a part of the Thar desert. The first and the biggest rise in its population was recorded during the decade 1921-1931 as a result of the opening of the Gang Canal system when the district recorded an increase of 102.4 per cent in its population. The impact of this development was also evident in the continued increase of population during 1931-1941 when it recorded an increase of 54.5 percent. The rate of growth during the decade 1951-61 when it recorded a rise of 64.6 per cent may be attributable to the additional irrigational facilities offered by the Bhakra Nangal Project and the future possibilities promised by the proposed Rajasthan Canal and to the growth of industry and trade as a result of the impact of the plans of economic development over this region which had already developed to a large extent in the past years and was thus in a better position to take advantage of the new development activities under the Five Year Plans.

Changes in Sex Ratio

The statement below records the changes in the population of sexes during the years 1901-1961 for the State and its various districts :—

PROPORTION OF SEXES

State/District	Total Rural Urban	Females per 1,000 Males

VARIATION IN POPULATION DURING SIXTY YEARS 1901-1961

(Note on Table A-II)

The table furnishes data on the population of the State for the seven Censuses from 1901 to 1961 and the percentage variation of population. It gives the growth of population from decade to decade and forms the main source for estimation of population in the absence of reliable vital statistical data for the State.

TABLE A-II—VARIATION IN POPULATION DURING SIXTY YEARS

APPENDIX TO TABLE A-II

(Note)

The change in population due to territorial changes is depicted in this Appendix. It gives for the State and for each District in the State the area in sq. miles/sq. kms., for 1961 and 1951, the population in 1961, the population in 1951 according to jurisdiction prevailing in 1951, the population in 1951 adjusted to the jurisdiction of 1961 and then the variation by net increase or decrease. The details of transfer of areas in each case with names, area in sq. miles of territory transferred, with dates of notification are given in explanatory notes to the Appendix.

APPENDIX TO TABLE A-II

Statement showing 1951 population according to their territorial jurisdiction in 1951 changes in area and the population involved in those changes

†The area figures shown under Columns 2, 3, 5 and 6 relate to the area supplied by State revenue authorities.
@The figures against the State in columns 5, 6, 7 and 9 reflect the addition of Ajmer at the State level.

EXPLANATORY NOTES TO APPENDIX TO TABLE A-II

*1. Columns 5, 6, 7 and 9 do not reflect the changes in regard to the State as such between 1951 and 1961 as the Abu Road Taluka with an area 303.8 sq. miles and population 52,429 of Banaskantha district of Gujarat State and 77 villages and 1 town Sunel of Sunel Tappa with an area 148.9 Sq. miles and population 30,314 of Mandsaur district of Madhya Pradesh State transferred to Sirohi and Jhalawar districts of this State and former Ajmer State with an area 2,439·0 Sq. miles and population 693,372 has been merged in Rajasthan State. In addition to these changes Sironj Tehsil with an area 484.4 Sq. miles and Lateri tehsil with an area 380·8 Sq. miles with a total population 96,138 of Kota district and 3 villages partly viz. Borkhera (Code No. 150), Pipalda (Code No. 149) and Dautara (Code No. 144) with a total area 4.8 Sq. miles and population nil of Chitorgarh district transferred to Vidisha and Mandsaur districts of Madhya Pradesh State. All the changes were made under States Reorganisation Act.

*2. 43 villages and 3 hamlets viz. Akalwala, Gulamwala and Maganwala (area not available) and population 12,762 of former Bap tehsil of Jaisalmer district transferred to Kolayat tehsil of this district vide Government Notification No. F. 2(46)GA(A)/53 dated 31-5-54.

*3. 1 village Gugalwa (Code No. 193) with an area 2.3 Sq. miles and population 374 of Jhunjhunu tehsil of Jhunjhunu district transferred to Rajgarh tehsil of this district vide Government Notification No. F. Al (723) Rev. D/58 dated 5-1-1959.

*4(i) Changes enumerated as against footnote of symbol 3 above.

(ii) 1 Village Kot (Code No. 1) with an area 12.3 Sq. miles and population 489 of Neem-ka-thana of Sikar district transferred to Udaipurwati tehsil of this district vide Government Notification No. F.3(18) Rev. D/58 dated 5-9-58.

*5(i) 2 villages viz. Buchara (Code No. 215) and Dudawas (Code No. 214) with an area of 22.5 Sq. miles and population 975 of Neem-ka-thana tehsil or Sikar district transferred to Kotputli tehsil of this district vide Government Notification No. F. 25(15) Rev. I/54 dated 20-9-54.

(ii) Entire Kishangarh tehsil, entire Arain tehsil, entire Sarwar tehsil and entire Rupnagar tehsil with an area 382.0 Sq. miles, 337.0 Sq. miles, 314.0 Sq. miles and 315.0 Sq. miles respectively with a total population 132,579 of this district transferred to Ajmer district vide Government Notification No. F. 14(21) Rev. D/56 dated 1-11-56.

*6. Changes enumerated as against footnote of symbol *4(ii) and *5(i) above.

*7(i) Changes enumerated as against footnote of symbol *5(ii) above and

(ii) 1 village Mankhand (Code No. 2) with an area 6.3 Sq. miles and population 504 of Todaraisingh tehsil of Tonk district transferred to Kekri tehsil of this district and 1 village and 3 hamlets viz. Borera, Deopura and Inderpura and 1 town Deoli with an area 2.6 Sq. miles and population 6,478 of Kekri tehsil of this district transferred to Deoli tehsil of Tonk district vide Government Notification No. F. 3(10) Rev. D/dated 7-4-59 and Government Notification No. F. 3(10) Rev. D/dated 7-4-59. respectively.

*8. Changes enumerated as against footnote of symbol *7(ii) above.

*9(i) Changes enumerated against footnote of sumbol *2 above.

(ii) 47 villages and 1 town Pokaran of Phalodi tehsil and 17 villages of Shergarh tehsil with an area 841.8 Sq. miles and 372.5 Sq. miles respectively with total population 32,215 of Jodhpur district transferred to Pokaran tehsil of this district and 33 villages (area not available) and population 13.082 of former Bap tehsil of Jaisalmer district transferred to Phalodi tehsil of Jodhpur district *vide* Government Notification No. F. 2(46) GA/A/53 dated 31-5-54.

*10. Changes enumerated as against footnote of symbol 9(ii) above.

*11 77 villages with an area 776.2 Sq. miles and population 35,914 of Sanchore tehsil of Jalor district transferred to Chohtan tehsil of this district *vide* Government Notification No. F. 25(15) Rev. I/54 dated 28-9-54.

*12. Changes enumerated as against footnote of symbol *11 above.

*13. Abu Road Taluka with an area 303.8 Sq. miles and population 52,429 of Banaskantha district of Gujarat State transferred to this district under States Reorganisation Act, 1956.

*14. 1 village Senturia (Code No. 75) of Rashmi tehsil and 1 village Dowani (Code No. 28) of Begun tehsil with an area 3.9 Sq. miles and 1.9 Sq. miles respectively with total population 1,166 of Chitorgarh district transferred to Bhilwara and Kotri tehsils of this district *vide* Government Notification No. F. 25 (24) Rev. I/53 dated 31-3-54.

*15. 1 village Lunera (Code No. 6) of Kapasan tehsil and 9 villages of Dungla tehsil with an area 2.3 Sq. miles and 15.6 Sq. miles respectively with total population 2,420 of Chitorgarh district transferred to Bhupalsagar and Vallabhnagar tehsils of this district vide Government Notification No. F. 3(4) Rev. D/57 dated 16-9-57.

*16(i) Changes enumerated as against footnotes of symbols *14 and *15 above.

(ii) 3 villages partly *viz.* Borkhera (Code No. 150), Pipalda (Code No. 149) and Dautara (Code No. 144) with a total area 4.8 Sq. miles and population nil of Bhainsrorgarh tehsil of this district transferred to Bhanpura tehsil of Mandsaur district of Madhya Pradesh State under States Reorganisation Act.

*17. Sironj tehsil and Lateri tehsil with an area 484.4 Sq. miles and 380.8 Sq. miles respectively and with a total population 96,138 of this district transferred to Vidisha district of Madhya Pradesh State under States Reorganisation Act.

*18. 77 villages and 1 town Sunel with an area 148.9 Sq. miles and population 30,314 of Bhanpura tehsil (Sunel Tappa) of Mandsaur district of Madhya Pradesh State transferred to Pirawa tehsil of this district under States Reorganisation Act.

Though the districts have not undergone any jurisdictional change in their areas since 1951, there is an increase or decrease in their areas due to computational error as well as unsurveyed tracts of 1951.

NOTES :—1. The actual change in area (as given against symbols in the footnotes) in the district boundaries, due to jurisdictional change, does not agree with net increase or decrease in the area figures given under columns 5 and 6 in brackets against each district. The difference may be due to computational error.

2. The difference of area in 1951-61 given under columns 5 and 6 in brackets of this Appendix do not agree with the area given in columns 9 and 10 of Appendix I to Table A-I, on account of revised computation.

3. The figures given in brackets in columns 5 and 6 represent the difference in area between 1951 and 1961 and the figures shown in brackets under column 7 show the difference in population between the area as per the jurisdiction in 1951 and the present jurisdiction.

TABLE-AIII

VILLAGES CLASSIFIED BY POPULATION

PREFACE

This part of the Rajasthan's series of census publications contains the General Population Tables (A-Series) and the State Primary Census Abstract. These tables present the basic demographic data of the census 1961.

The preparation of tables was done in the various regional tabulation offices in the first instance but they assumed final shape in the central office of the Superintendent, Census Operations, Rajasthan under the guidance of Dr. U. B. Mathur, Deputy Superintendent, who also rendered great assistance in the drafting of this report.

I express my deep gratitude to Shri Asok Mitra, Registrar General, India, his deputy Shri D. Natarajan and his Central Tabulation Officer Shri K. D. Ballal for their guidance in this work and to the members of my staff for all the assistance given to me in the preparation of this report.

I am grateful to Shri A. S. Krishnamurthi Manager and Sarvashri Jagdish Ram Vasudev and V. R. S. Raghavan, Assistant Managers, Government of India Press, Faridabad for the help received from them in the printing of this report.

Chandra-Alok,
Bapunagar, Jaipur
15th August, 1963.

C. S. GUPTA
Superintendent,
Census Operations, Rajasthan.

MEMBERS OF THE STAFF ASSOCIATED WITH THIS WORK

Shri S. P. Kashyap	Statistical Assistant
Shri R. N. Verma	Computor
Shri M. L. Kumawat	Draftsman

VILLAGES CLASSIFIED BY POPULATION

(Fly-leaf to Table A-III)

The conception of a village has already been defined in the flyleaf to table A-I. To state briefly, a village is a revenue mauza including its hamlets.

The statement below shows the percentage of population living in villages of various population sizes with reference to the total rural population in the State and its various districts in 1961.

Percentage of population living in villages of various population sizes with reference to the total rural population in each district, 1961.

State/District	Less than 200	200 to 499	500 to 999	1,000 to 1,999	2,000 to 4,999	5,000 to 9,999	10,000 +
1	2	3	4	5	6	7	8
RAJASTHAN	**6·62**	**22·08**	**27.30**	**23·56**	**16·89**	**3·55**	..
1. Ganganagar	3·74	24·55	25·13	24·35	20·29	1·94	..
2. Bikaner	7·19	20·62	31·11	26·34	14·74	..	..
3. Churu	4·50	22·97	41·57	21·09	9·87	..	..
4. Jhunjhunu	1·78	11·74	28·80	29·37	20·49	7·82	..
5. Alwar	5·69	23·72	30·66	23·12	13·78	3·03	..
6. Bharatpur	5·38	23·14	31·89	26·06	10·97	2·56	..
7. Sawai Madhopur	5·40	20·54	29·74	24·48	18·54	1·30	..
8. Jaipur	7·02	23·01	24·03	20·09	18·82	7·03	..
9. Sikar	1·44	12·88	29·76	24·39	23·84	7·69	..
10. Ajmer	4·00	17·16	30·09	26·61	20·40	1·74	..
11. Tonk	10·91	24·24	24·33	23·70	14·70	2·12	..
12. Jaisalmer	18·16	32·78	25·89	14·13	4·41	4·63	..
13. Jodhpur	2·11	10·31	23·36	29·58	30·15	4·49	..
14. Nagaur	2·95	17·21	30·79	27·48	16·48	5·09	..
15. Pali	2·08	11·14	22·99	27·19	28·85	7·75	..
16. Barmer	3·34	12·19	24·05	32·45	23·52	4·45	..
17. Jalor	1·01	11·60	28·00	33·55	22·66	3·18	..
18. Sirohi	3·27	14·78	25·44	30·67	23·88	1·96	..
19. Bhilwara	6·12	23 60	25·92	24·17	14·84	5·35	..
20. Udaipur	10·84	26·41	26·12	20·42	14·37	1·84	..
21. Chitorgarh	15·64	33·32	24·17	17·83	8·02	1·02	..
22. Dungarpur	7·79	25·86	28·99	25·60	11·76	..	..
23. Banswara	16·58	34·58	27·33	14·32	7·19	..	..
24. Bundi	10·54	36·20	24·59	18·30	10·37	..	..
25. Kota	12·29	36·10	21·97	13·47	10·55	5·62	..
26. Jhalawar	17·14	35·94	26·52	9·83	9·25	1·32	..

It would be observed that there is no village with a population of 10,000 and over in this State. There are only 94 villages in the population size 5,000 to 9,999 in which only 3.55 percent of the rural population resides. 16.89% of the rural population resides in 1,003 villages that fall in the population range of 2,000 to 4,999.

	Population sizes	No. of villages	Percentage of rural population residing
I	Less than 200	10,321	6·62
II	200-499	11,291	22·08
III	500-999	6,596	27·30
IV	1,000-1,999	2,936	23·56
V	2,000-4,999	1,003	16·89
VI	5,000-9,999	94	3·55
VII	Over 10,000	..	..

The following statement gives the percentage of villages and population by class of villages in 1961 :—

Percentage of villages and population by class of village 1961

State/District	Less than 500		500 to 999		1,000 to 1,999		2,000 to 4,999		5,000 to 9,999

VILLAGES CLASSIFIED BY POPULATION

(Note on Table A-III)

This Table corresponds to Table A-III of 1951 with the difference that it relates only to villages while at the former censuses it related both to villages and towns. It gives figures for the number and population of villages in the various population groups (i) Less than 200 (ii) 200-499 (iii) 500-999 (iv) 1,000-1,999 (v) 2,000-4,999 (vi) 5,000-9,999 (vii) 10,000 and above.

The group less than 500 of the Census 1951 has been split up into two groups:—

(*i*) less than 200
(*ii*) 200-499

The table is presented in two parts. While the first —the Union Table gives classification of villages upto the district level, the second—the State Table gives classification down to the tehsil.

UNION TABLE A-III VILLAGES

TABLE A–IV

TOWNS CLASSIFIED BY POPULATION IN 1961 WITH VARIATION SINCE 1901

RAJASTHAN

DISPERSAL OF TOWNS

CLASS I TOWNS HAVING 100,000 & ABOVE PERSONS

CLASS II TOWNS. " 50,000 — 99,999 "

CLASS III TOWNS " 20,000 — 49,999 "

CLASS IV TOWNS " 10,000 — 19,999 "

CLASS V TOWNS " 5,000 — 9999 "

CLASS VI TOWNS " LESS THAN 5000 "

TOWNS CLASSIFIED BY POPULATION IN 1961 WITH VARIATION SINCE 1901

(Fly-leaf to Table A-IV)

The definition of town in 1961 has already been discussed in the fly-leaf to Table A-I. The towns have been classified into six groups according to their size of population as below :—

I	100,000 and above
II	50,000—99,999
III	20,000—49,999
IV	10,000—19,999
V	5,000— 9,999
VI	Less than 5,000

Class I towns with a population of over 10,000 are called cities.

There are no town groups in this State.

The following statement of changes in classification of towns during the year 1901-1961 would help in finding out which town belonged to which particular class in any census and how it has expanded or reduced in size in the course of years :—

Changes in Classification of Towns 1901-1961

RAJASTHAN

PROGRESS OF 1961 TOWNS

There were 6 towns—Jaipur, Ajmer, Jodhpur, Bikaner, Kota and Udaipur, called cities, having a population of 100,000 and over in 1961. Jaipur has been a town of this category ever since 1901, while Ajmer was classified in this category in 1921, and Jodhpur and Bikaner in 1941. Kota and Udaipur have been classified in this class only in 1961.

4 towns belong to class II—Alwar, Ganganagar, Beawar and Sikar. While Alwar has been in this class since 1941 and Beawar since 1951, Ganganagar and Sikar have been classified for the first time. It may be noted that Ganganagar has maintained continuous progress. It was declared a town of V class in 1931, of Class IV in 1941, of Class III in 1951 and has been put now in Class II in 1961.

There are 23 towns in Class III, out of which 10 are district head-quarters. Nagaur, Karauli, Gangapur, Sawai Madhopur and Hindaun towns have expanded and have been promoted to this class only in 1961.

In Class IV there are 52 towns, out of which there are 6 district head-quarters. 22 places including 2 district head-quarters have been promoted to this class only in 1961.

Another large concentration of 51 towns is located in V class including Jaisalmer, a district head-quarter. 9 towns have recently been promoted to this class in 1961.

There are only 9 towns having population below 5,000 out of which 2 were classified only in this Census, 6 in 1951 and only one town continues to be in this class since 1921.

The statement below gives the number of towns of each class during 1901-1961 :—

Number of Towns of each class during 1901-1961

Class	1961	1951	1941	1931	1921	1911	1901
1	2	3	4	5	6	7	8
Class I	6	4	4	2	2	1	1
Class II	4	4	2	2	2	3	4
Class III	23	20	13	9	7	9	8
Class IV	52	36	28	26	20	24	26
Class V	51	96	74	64	58	60	64
Class VI	9	67	36	47	58	41	32
TOTAL ..	145	227	157	150	147	138	135

It will be interesting to record that out of the 145 places that the Census 1961 has taken as towns, as many as 99 places had the status of the town in 1901 Census. 3 joined in 1911, 8 in 1921, 3 in 1931 and 5 in 1941 Census. In the Census of 1951, 24 new places were added while 3 places were added in the 1961 Census. The table below gives the number of Towns in each class during 1901-1961.

Progress of Towns of 1961 Census by each class during 1901-1961

Class of Towns	1901	1911	1921	1931	1941	1951	1961
1	2	3	4	5	6	7	8
Class I	1	1	2	2	4	4	6
Class II	4	3	2	2	2	4	4
Class III	8	8	7	9	13	20	23
Class IV	25	24	20	26	28	37	52
Class V	47	48	54	55	58	61	51
Class VI	14	18	25	19	13	16	9
TOTAL ..	99	102	110	113	118	142	145

The map provided to illustrate the point indicates the progress in the number of places considered as towns by the Census 1961 by various districts during the period 1901-1961.

Most of the urban population in Rajasthan now resides in I Class towns. From 10·33 percent in 1901, the population residing in I Class towns has risen to 37·84 percent in 1961. The table below shows the percentage of towns in each class to total number of towns and percentage of population in each class to total urban population during the years 1901-1961 :—

Percentages of Towns in each class to total number of Towns & percentage of Population in each class to total Urban Population 1901-1961

Class	1961		1951		1941		1931		1921		1911		1901	
	Percentage of No. of Towns	Percentage of population	Percentage of No. of Towns	Percentage of population	Percentage of No. of Towns	Percentage of population	Percentage of No. of Towns	Percentage of population	Percentage of No. of Towns	Percentage of population	Percentage of No. of Towns	Percentage of population	Percentage of No. of Towns	Percentage of population
Class I	4·14	37·84	1·76	26·58	2·55	27·26	1·33	15·25	1·36	15·84	0·73	9·29	0·74	10·33
Class II	2·76	7·35	1·76	8·92	1·27	5·33	1·34	10·45	1·36	9·69	2·17	13·64	2·96	15·74

The following statement shows the percentages of towns in each Class to total urban area of the State and density of population per sq. mile in each Class 1901–1961 :—

Class	1961		1951 to 1901	
	% of area to total urban area	Density per Sq. mile	% of area to total urban area	Density per Sq. mile
1	2	3	4	5
Class I ..	8·45	6,935		
Class II ..	1·59	7,138		
Class III ..	18·24	1,726	NOT AVAILABLE	
Class IV ..	37·00	910		
Class V ..	29·81	611		
Class VI ..	4·91	329		

Three places with a total population of 12,979 have been treated as towns for the first time in 1961. The limits of their areas are given as under :—

Name of town	Details of villages including area of each
1. Vidyavihar	Municipal Ward No. 5 and a part of the revenue (non-municipal) area of Pilani town of 1951.
2. Parbatsar	Parbatsar village.
3. Sojat Road	This town has sprung up on the border of two villages namely Siyal and Dhandhala of Tehsils Sojat and Kharchi of district Pali.

TOWNS CLASSIFIED BY POPULATION IN 1961 WITH VARIATION SINCE 1901

(Note on Table A-IV)

This table gives the growth of each town since 1901 Census. All towns have been divided into six classes according to the population. Percentage variation is given from decade to decade. The table can be used for population projections of towns to certain extent although migration and addition of new areas also influence growth of towns. It would be observed that the State totals of urban population and the State totals for each class of towns relating to the years 1901 to 1951 do not correspond with the totals that would be arrived by adding up the population figures of the various towns relating to each census year. This is because that the State figures relating to the past census years also contain the population of those places which were classified as towns in the various censuses.

TABLE A-IV TOWNS CLASSIFIED BY POPULATION IN 1961 WITH VARIATION SINCE 1901

State/District	Name of Town	Status of Town	Year	Persons	Decade Variation	Percentage Decade Variation	Males	Females

			1961	2,294	+682	+42·31	1,248	1,046

@ **Vidyavihar** was an urban part of Pilani 'M' in 1951 Census.

1. **Towns treated** as such for the first time in 1951 Census which continue as towns in 1961 Census are shown with asterisk(*) on their left.
2. **Towns treated** as such for the first time in 1961 are printed in italics.
3. **The following abbreviations** have been used for the status of town e.g.:—

'M'	—	Municipality.
'CB'	—	Cantonment Board.

APPENDIX TO TABLE A-IV

(Note)

The appendix shows the area and population of new towns added in 1961 and towns in 1951 Census which have been declassified as rural areas in 1961 Census. The explanatory note indicates the area and population of 1951 Census of each village now constituting each new town while each town in 1951 which has been declassified in 1961 and has since replaced into village/villages is shown by the present name of village/villages with its area and population.

The urban population of the State in 1951 and 1961 was as under :—

1951	2,955,275
1961	3,281,478

It would be interesting to observe that-

(*a*) If those places treated as towns in 1951 but declassified in 1961 had not been so declassified in 1961, the Urban population during 1961 Census would have been 3,719,591 i.e. 3,281,478+438,113 persons. Or a percent increase of 25·86 during 1951-61 (the last figure relates to 1961 population of 84 places now declassified but treated as towns in 1951).

(*b*) In case the places treated as new towns in 1961 had been treated as towns in 1951 also the urban population in 1951 would have been 2,961,172 i.e. 2,955,275 + 5,897 persons or a percent increase of 10·82 during 1951-61 (the last figure relates to 1951 population of the new towns of 1961).

‡ Sojat Road was only a Railway Station in 1951 and has sprung up as a town during the decade 1951-1961.

"Towns treated as such for the first time in 1961 are printed in italics."

*Enumerated as a hamlet in 1961 Census.

PRIMARY CENSUS ABSTRACT

STATE PRIMARY CENSUS ABSTRACT

(Fly Leaf)

The State Primary Census Abstract gives the area in sq. miles, occupied houses and households, total population, population of Scheduled Castes and Scheduled Tribes, literates and workers classified into the nine industrial categories and also non-workers for the various districts, tehsils and towns of the State.

Occupied Houses and Households

It has already been stated that in the Census 1961 a Census house was not only a dwelling but also a structure or part of a structure with separate main entrance, whatever the uses to which it was put. Such a house could either be vacant or occupied. An occupied Census house might be used as a dwelling, shop-cum-dwelling, workshop-cum-dwelling, as a hotel or an inn, tourist home or inspection house, shop or a business house or an office, as a factory workshop or workshed, as a school or as an educational institution including a training class or a coaching and shop class, as a restaurant, sweetmeat shop and an eating place, as a place for entertainment and a community gathering such as a Panchayat Ghar, as a public health and medical institution such as a hospital, health centre, doctor's clinic and dispensary etc.

An occupied residential (census) house might be a dwelling, shop-cum-dwelling or a workshop-cum-dwelling. A shop-cum-dwelling and a workshop-cum-dwelling were those houses which were used for the purposes of dwelling as well as for the purposes of shop keeping and workshop.

A household referred to a group of persons who commonly lived together in the same census house and would take their meals from a common kitchen or mess unless the exigencies of work prevented any of them from doing so. In some census houses, there could be more than one group of persons, each with a common mess in which case each group was recorded as a separate household for purposes of Census 1961. A household usually consisted of a family group with or without servants, lodgers etc. It could also consist of a group of unrelated persons or one person living alone.

The following statement gives the percentage of households to Census houses found in rural and urban areas of the State.

Percentage of Households to Number of Houses in Rural and Urban Areas, District by District

State/District	Percentage of households to No. of houses		
	Total	Rural	Urban
1	2	3	4
RAJASTHAN	118·86	117·22	127·62
1. Ganganagar	120·98	117·36	146·58
2. Bikaner	106·49	108·09	104·39
3. Churu	118·83	116·27	124·72
4. Jhunjhunu	145·36	147·81	135·21
5. Alwar	130·40	132·21	113·84
6. Bharatpur	140·71	138·98	152·00
7. Sawai Madhopur	125·93	128·36	109·10
8. Jaipur	126·78	137·14	105·95
9. Sikar	143·28	150·03	118·97
10. Ajmer	140·11	124·02	177·29
11. Tonk	128·51	128·59	128·06
12 Jaisalmer	102·79	102·28	106·75
13. Jodhpur	110·52	105·02	124·48
14. Nagaur	115·09	114·54	118·88
15. Pali	111·29	111·57	108·95
16. Barmer	105·54	104·94	114·48
17. Jalor	116·52	116·86	109·90
18. Sirohi	110·28	110·38	109·78
19. Bhilwara	112·22	109·07	170·93
20. Udaipur	104·68	102·99	119·52
21. Chitorgarh	111·30	108·32	148·64
22. Dungarpur	102·51	101·24	127·43
23. Banswara	102·24	101·24	122·41
24. Bundi	111·56	107·30	137·04
25. Kota	116·72	107·03	180·22
26. Jhalawar	108·50	105·63	155·89

It would be observed that the percentage of households to number of houses is highest in Jhunjhunu district (145·36) followed by Sikar district (143·28) and lowest in Banswara district (102·24) and very low in Dungarpur district (102·51). The reason for high percentage in Jhunjhunu and Sikar districts may be on account of the fact that a very large number of businessmen, who usually live in large cities of the country to carry on their trade and business there, encourage other families to live and look after their houses. The reason for low percentage in Banswara and Dungarpur districts may be on account of the fact that the area is mostly inhabited by Bhils who do not prefer joint family system and usually live separately.

It will also be observed that there is a very high percentage (180·22) of households to number of houses existing in the urban area of Kota district . It may be presumed that most of this is on account of the great developmental activity that is going on in that area due to construction of dam on Chambal river and production of hydroelectricity. The rate of house building activity has not kept pace with the requirements of the population and overcrowding has caused increase in percentage.

The following statement gives the density of households per square mile in rural and urban areas.

Density of Households per Sq. Mile in Rural and Urban Areas , District By District

State/District	Density of households per sq. mile		
	Total	Rural	Urban
1	2	3	4
RAJASTHAN	28·59	24·15	300·60
1. Ganganagar	23·47	20·23	250·33
2. Bikaner	7·40	4·30	366·30
3. Churu	16·93	11·97	151·62
4. Jhunjhunu	51·97	44·54	214·05
5. Alwar	57·90	53·22	844·63
6. Bharatpur	68·02	59·63	423·75
7. Sawai Madhopur	45·21	40·67	492·57
8. Jaipur	64·50	47·74	751·21
9. Sikar	47·86	40·32	317·56
10. Ajmer	58·19	37·13	700·81
11. Tonk	32·43	28·06	176·03
12. Jaisalmer	1·65	1·47	21·30
13. Jodhpur	18·07	12·48	429·59
14. Nagaur	24·20	21·49	148·91
15. Pali	33·52	30·71	145·40
16. Barmer	10·53	9·86	141·41
17. Jalor	26·74	26·07	56·35
18. Sirohi	36·66	31·54	188·82
19. Bhilwara	44·12	41·18	290·65
20. Udaipur	43·27	38·46	832·82
21. Chitorgarh	38·44	35·11	290·54
22. Dungarpur	51·94	49·08	593·49
23. Banswara	44·37	42·05	556·67
24. Bundi	30·49	25·80	207·85
25. Kota	35·49	28·79	373·91
26. Jhalawar	40·73	37·78	318·64

The pattern of density of households per sq. mile in a way reflects the general economic condition of the area as well. The better developed districts show a higher density in comparison to those which are less developed with vast areas of uninhabited land. It will be observed that in the districts falling in the eastern and southern part of Rajasthan, where most of the culturable land is brought under plough, a large number of households have settled.

The density of households is the highest in Bharatpur district (68·02) and lowest in Jaisalmer district (1·65). It is also the lowest in the rural and urban areas of Jaisalmer district, being 1·47 and 21·30 respectively. Amongst the rural areas of the various districts, it is the highest (59·63) in Bharatpur district while Alwar district has got the highest density of households 844·63 in its urban areas.

Scheduled Castes and Scheduled Tribes

The following castes and tribes have been deemed to be Scheduled Caste and Scheduled Tribe for Rajasthan according to the Scheduled Castes and Scheduled Tribes lists (Modification) Order, 1956 issued by the President of India.

SCHEDULED CASTES

Throughout the State except Ajmer district, Abu Road taluka of Sirohi district and Sunel Tappa of Jhalawar district:—

1. Adi Dharmi
2. Aheri
3. Badi
4. Bagri
5. Bairwa or Berwa
6. Bajgar
7. Balai
8. Bansphor
9. Bagri, Vargi or Birgi
10. Bawaria
11. Bedia or Beria
12. Bhand
13. Bhangi
14. Bidakia
15. Bola
16. Chamar, Bharubhi, Jatav, Jatia, Mochi, Raidass, Raigar or Ramdasia,
17. Chandal
18. Chura
19. Dabgar
20. Dhankia
21. Dheda
22. Dome
23. Gandia
24. Garancha Mehtar or Gancha
25. Garo, Garura or Gurda
26. Gavaria
27. Godhi
28. Jingar
29. Kalbelia
30. Kamad or Kamadia
31. Kanjar
32. Kapadia Sansi
33. Khangar
34. Khatik
35. Koli or Kori
36. Kooch Band
37. Koria
38. Kunjar
39. Madari or Bazigar
40. Majhabi
41. Megh or Meghwal
42. Mehar
43. Mehtar
44. Nut
45. Pasi
46. Rawal
47. Salvi
48. Sansi
49. Santia
50. Sarbhangi
51. Sargara
52. Singiwala
53. Thori or Nayak
54. Tigar
55. Valmiki

In Ajmer district :—

1. Aheri
2. Bagri
3. Balai
4. Bambhi
5. Bansphod
6. Baori
7. Bargi
8. Bazigar
9. Bhangi
10. Bidakia
11. Chamar, Jatava, Jatia, Mochi or Raigar.
12. Dabgar
13. Dhanak
14. Dhed
15. Dhobi
16. Dholi
17. Dom
18. Garoda
19. Gancha
20. Kabirpanthi
21. Kalbelia
22. Khangar
23. Khatik
24. Koli
25. Koria
26. Kuchband
27. Mahar
28. Meghwal
29. Nat
30. Pasi
31. Rawal
32. Sarbhangi
33. Sargara
34. Satia
35. Thori
36. Tirgar
37. Kanjar
38. Sansi

In Abu Road Taluka of Sirohi district :—

1. Ager
2. Bakad or Bant
3. Bhambi, Bhambhi, Asadaru, Asodi, Chamadia, Chamar, Chambhar, Chamgar, Haralayya, Harali, Khalpa, Machigar, Mochigar, Madar, Madig, Telegu Mochi, Kamati Mochi, Ranigar, Rohidas, Rohit or Samgar.
4. Bhangi, Mehtar, Olgana, Rukhi, Malkana, Halalkhor, Lalbegi, Balmiki, Korar or Zadmalli.
5. Chalvadi or Channayya
6. Chenna Dasar or Holaya Dasar
7. Dhor, Kakkayya or Kankayya
8. Garoda or Garo
9. Halleer
10. Halsar, Haslar, Hulaswar or Halasvar
11. Holar or Valhar
12. Holaya or Holer
13. Lingader
14. Mahar, Taral or Dhegu Megu
15. Mahyavanshi, Dhed, Vankar or Maru Vankar
16. Mang, Matang or Minimadig
17. Mang-Garudi
18. Meghval or Menghvar
19. Mukri
20. Nadia or Hadi
21. Pasi
22. Shenva, Chenva, Sedma or Ravat
23. Tirgar or Tirbanda
24. Turi

In Sunel Tappa of Jhalawar district :—

1. Bagri or Bagdi
2. Balai
3. Banchada
4. Barahar or Based
5. Barguuda
6. Bedia
7. Bhangi or Mehtar
8. Bhanumati
9. Chamar, Bairwa, Bhambi, Jatav, Mochi or Regar
10. Chidar
11. Dhanuk
12. Dhed
13. Dom
14. Kanjar
15. Khatik
16. Koli or Kori
17. Kotwal
18. Mahar
19. Mang or Mang Garodi
20. Meghwal
21. Nat, Kalbelia or Sapera
22. Pardhi
23. Pasi
24. Sansi
25. Zamral

SCHEDULED TRIBES

Throughout the State except Ajmer district, Abu Road Taluka of Sirohi district and Sunel Tappa of Jhalawar district :—

1. Bhil
2. Bhil Mina
3. Damor, Damaria
4. Garasia (excluding Rajput Garasia)
5. Mina
6. Sehria, Sahariya.

In Ajmer district :—

1. Bhil
2. Bhil Mina

In Abu Road taluka of Sirohi district

1. Barda
2. Bavacha or Bamcha
3. Bhil, including Bhil Garasia,Dholi, Bhil, Dungri Bhil, Dungri Garasia, Mewasi, Bhil, Rawal Bhil, Tadvi Bhil, Bhagalia, Bhilala, Pawra, Vasava & Vasave
4. Chodhara
5. Dhanka, including Tadvi, Tetaria & Valvi
6. Dhodia
7. Dubla including Talavia or Halpati
8. Gamit or Gamta or Gavit, including Mavchi, Padvi, Vasava, Vasave, and Valvi.
9. Gond or Rajgond
10. Kathodi or Kathari, including Dhor Kathodi or Dhor Katkari and Son Kathodi or Son Katkari.
11. Kokna, Kokni, Kukna
12. Koli Dhor, Tokre Koli, Kolcha or Kolgha
13. Naikda or Nayaka, including Cholivala Nayaka, Kapadia Nayaka, Mota Nayaka and Nana Nayaka.
14. Pardhi, including Advichincher and Phanse Pardhi
15. Patelia
16. Pomla
17. Rathwa
18. Varli
19. Vitolia, Kotwalia or Barodia

In Sunel Tappa of Jhalawar district :—

1. Gond
2. Kokru
3. Seharia

(It may be noted that Scheduled Castes are recognised only amongst Hindus and Sikhs. Members of Scheduled Tribes may belong to any religion.)

The population of the Scheduled Castes and Scheduled Tribes in the State is given below by sex and rural/urban breakups, the figures in brackets indicate percentage to the total population.

		Persons		Males		Females	
Scheduled Castes	Total	3,359,640	(16.67)	1,747,476	(16.54)	1,612,164	(16·81)
	Rural	2,946,595	(17·46)	1,531,971	(17·37)	1,414,624	(17·57)
	Urban	413,045	(12 59)	215,505	(12·36)	197,540	(12·84)
Scheduled Tribes	Total	2,309,447	(11·46)	1,198,886	(11·35)	1,110,561	(11·58)

It would be observed that the percentage of Scheduled Castes is the highest in Ganganagar district (28·66%) and lowest in the tribal districts of Banswara (4·57%) and Dungarpur (4·59%) where there is a preponderance of the Scheduled Tribes, their percentage being 62·62% and 60·15% respectively. Amongst the various towns in the state, Ganganagar town has a large concentration and about a fifth of its population are members of the Scheduled Castes. Tribal population traditionally does not like to stay in the urban areas.

Literacy & Education

The test for literacy as laid down in the Enumeration Manual for the 1961 Census was—"A person who can neither read nor write or can merely read but cannot write in any language is to be treated as illiterate. A person who can both read and write any language will be taken as a literate. The test for reading is ability to read any simple letter either in print or in manuscript i.e. if the person can read with felicity, he may be taken to have passed the test for reading. The test for writing is ability to write a simple letter. The test for literacy is satisfied if a person can with understanding both read and write."

Children in the age group 4 and below were treated as illiterate.

If a person could both read and write and had also passed a written examination or examinations as proof of an educational standard attained, the highest examination passed was taken as the standard of education.

The following statements give the percentages of literate and educated persons to total population, males and females by rural and urban areas of the various districts and in cities and towns of 50,000 and over.

Percentages of Literate & Educated Persons to Total population, Males and Females by Rural & Urban areas of each District

Percentages of Literate and Educated Persons in Cities and Towns of Population 50,000 and over

City/Town	% Literate and Educated		
	Persons	Males	Females
1	2	3	4
1. Jaipur City	42·46	54·26	28·67
2. Ajmer City	47·73	59·73	34·21
3. Jodhpur City	44.95	57·41	30·24
4. Bikaner City	39·71	52·64	25·08
5. Kota City	43·08	55·89	27·57
6. Udaipur City	50·89	65·66	35·76
7. Alwar Town	38·96	52·64	23·03
8. Ganganagar Town	41·05	51·74	26·89
9. Beawar Town	41·63	56·19	25·23
10. Sikar Town	28·58	42·22	14·15

The highest literacy is found in Ajmer district (25·30%) while it is the lowest in Barmer district (7·46%). While Jhunjhunu district has the highest percentage of literacy (16·12), Jaisalmer district has the lowest (5·57) amongst the rural areas of the State. In Jhunjhunu district 27·91 percent males are literate, which is the highest in the rural areas of the State while only 9·43 percent males are literate in Jaisalmer district. Female literacy is highest in the rural areas of Ajmer district (4·07) while the lowest is found in Jaisalmer district (0·72).

Udaipur district has the highest literacy (46·97) amongst the urban population of the State, while Jalor district has the lowest (26·26). Amongst the urban male population, Udaipur district has the highest literacy 61·23, while Tonk has the lowest 39·13. Banswara district has the highest (31·44) female literacy in its urban areas while the lowest is found in Jalor district (9·76).

Amongst the various cities of the State, Udaipur city has the highest literacy (50·89). 63·66% of males and 35·76% of females of this city are literate.

Working and non-working population

The following definitions were adopted for persons *viz.* (a) workers and (b) non-workers for the Census 1961:—

(a) *Worker*

The basis of work was satisfied in the case of seasonal work like cultivation, livestock, dairying, household industry etc., if the person had some regular work of more than one hour a day throughout the greater part of the working season. In the case of regular employment in any trade, profession, service, business or commerce the basis of work was satisfied if the person was employed during any of the fifteen days preceding the day on which the enumerator visited the household. If on check during revisional round such a person was found to be unemployed no change in the original entry was made. A person who was working but was absent from his work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other causes was treated as worker. A person who had been offered work but had not actually joined was treated as non-worker. Work included not only actual work but effective supervision and direction of work.

Persons under training as apprentices with or without stipend or wages were regarded as working.

An adult woman who was engaged in household duties but doing no other productive work to augment the family's resources was not considered as working. If, however, in addition to her household work she engaged herself in work such as rice pounding for sale or wages, or in domestic services for wages for others or minding cattle or selling firewood or making and selling cowdung cakes or grass etc., or any such work she was treated as a worker.

Persons like beggars, pensioners, agricultural or non-agricultural, royalty, rent or dividend receivers, who were earning an income but who were not participating in any productive work were not treated as working unless they also worked in cultivation, industry, trade, profession, business or commerce.

A public or social service worker who was actively engaged in public service activity or a political worker who was also actively engaged in furthering the political activity of his party was regarded as a worker.

(b) *Non-Workers*

(*i*) A full-time student or child attending school who did no other work, such as made articles at home for sale, nor even helped part-time in his own family cultivation, industry, trade or business.

(*ii*) A person engaged in unpaid home duties (like housewife or other adult female) who did no other work, such as made articles at home for sale or wages, nor helped regularly even part-time in family cultivation, industry, trade or business.

(*iii*) Any dependent, including an infant or child not attending school, a person permanently disabled from work because of illness or old age.

(*iv*) a retired person who was not employed again, rentier, person living on agricultural or non-agricultural royalty, of independent means for securing which he did not have to work and who did no other work.

(*v*) A beggar, vagrant or independent woman without indication of source of income and others of unspecified source of income.

(*vi*) A convict in jail (an under-trial prisoner was shown as a worker if he used to work before he was apprehended) or an inmate of a penal, mental or charitable institution.

(*vii*) A person who was not employed before but was seeking employment for the first time.

(*viii*) A person employed before but now out of employment and seeking employment.

Explanation :—If a person, who did not work, could not be readily classified in any of the above categories, he was put in category (v). A retired person who had taken up regular work again was not entered in this question as he would have been entered for his new work. A person who was not working but had been offered work which he may not have joined was included in item (vi). He was not included in item (vii) or (viii).

In the last few censuses income or economic independence was made a criterion for measuring the economy of the country and account was taken of all persons who were economically independent and of those who were economically dependent. An intermediate category of economic semi-independence was also introduced from the 1931 Census and this cagegory was called 'working independent' in 1931 Census, 'partly dependent' in 1941 and 'earning dependent' in 1951.

Strict application of the criterion of income or economic independence suppressed those who worked in family economic activities but did not actually earn an income, like men other than the head of the household and women of the family or children working at cultivation or cottage industries of the household. Stress was therefore laid on work in 1961 Census so that all people who work, including family workers, who are not in receipt of any income, or working children who cannot earn enough for their maintenance, have also been included as workers

The concept of dependency has been abandoned for economic classification of the population and in its place has been adopted the industrial classification for the primary economic classification of the population divided into (i) Workers, further sub-divided into nine categories and (ii) Non-workers at the Census of 1961.

The various categories under 'Workers' have been designed to show as to how many are working separately as cultivators, as agricultural labourers, in mining and livestock, at household industry, in manufacturing, in construction, in trade and commerce, in transport or communications or in other services.

It would be relevant to reproduce the definition of the household industry used in the 1961 Census:—

"*Household Industry*"—is an industry conducted by the Head of the household himself and/or mainly by members of the household at home or within the village in rural areas, and, only at home in urban areas. The industry should not be run on the scale of a registered factory but may use machinery and employ power like steam engine or oil engine or electricity to drive the machinery. The participation of the Head of the household and/or members of the household is an essential feature of the household industry. They should be in a position to lend a hand in the industry whenever they find time in the course of their daily charges. Hired workers may be engaged from outside in such industry but their role should be only of secondary importance. In a rural area the household industry can be located either at home or within the village but in urban area, the household industry or at least the major part of its work must be located only at home. Such industry should relate to production, processing, servicing or repairing and included making and selling of goods but should not be confined simply to buying and selling. At least part of the goods offered for sale from the household industry should be manufactured or processed by members of the household. The household industry does not include professions such as of pleader or doctor, or barber or waterman or astrologer, etc.

The following statement gives the distribution of 1,000 persons, males and females of rural and urban areas severally for each of the districts and in cities among the workers and non-workers and for each category of worker:—

Distribution of 1,000 Persons, Males and Females of Rural and Urban areas

47·5 percent of the total population of the State consists of workers. Bhilwara district has 58·2 percent of its population as workers. While the population of Ganganagar district contains only 39·2 percent workers.

58·1 percent of the male population and 35·9 percent of the female population of Rajasthan are workers. The highest percentage of working male population is found in Bhilwara district (65·7) while the highest percentage of female working population is found in Chitorgarh district (52·2).

Thus, if 1,000 persons of total population and of each sex are taken, their proportional distribution amongst the different categories of workers is as follows :

Category of Workers	Persons	Males	Females
1	2	3	4
I. Cultivators	350	398	297
II. Agricultural Labourers	19	22	17
III. Mining, Quarrying, Livestock, Forestry etc.	8	11	5
IV. Household Industry	30	38	21
V. Manufacturing other than Household Industry	9	14	2
VI. Construction	5	9	1
VII. Trade and Commerce	14	26	2
VIII. Transport, Storage, Communications	6	11	Nil
IX. Other Services	34	52	14
Total Workers (I to IX)	475	581	359
X Non-Workers	525	419	641
	1,000	1,000	1,000

It will be observed that the largest proportion of workers has been recorded as cultivators. Proportion of workers in other services represents the next important group. Out of 581 male and 359 female workers 398 males and 297 females are engaged in cultivation. This, it may be noted, does not represent the total population dependent on cultivation for livelihood as all the non-workers even in the agricultural families have been separated from workers and included amongst all other non-workers. It shows only the relative proportion of actual workers engaged in agricultural persuits excluding the non-working rent receivers. The next in importance is the household industry in which 30 persons, 38 males and 21 females per thousand of persons and of each sex work. There is a large number of handicrafts and other industries in the state working on household industry basis such as handloom weaving, sheep and cattle breeding and rearing, pottery making, toy manufacturing, bidi rolling, marble cutting, tie and dye industry, ivory carving, engraving of utensils, lac bangles etc. The least number of workers are engaged in "Construction" as only 9 per thousand of males and 1 per thousand of females were working in this field. Generally the male workers exceed the female workers in absolute numbers as well as in proportion per one thousand in all categories of workers.

severally of each District and in Cities of Population 100,000 and over among the and for each Category of Workers—concld.

It would be observed that the State sex ratio among total population is 908 which varies between 913 in rural areas to 882 in urban areas. Sex ratio among the total workers of the State is 561 which varies between 620 in rural areas to 185 in urban areas. The highest sex ratio (710) among the various categories of workers is located in category II (Agricultural Labourer), followed by (678) category I (Cultivator), and by (505) category IV (Household Industry). The lowest sex ratio (8) is found in category VIII (Transport, Storage and Communications).

Detailed account of the actual work and the occupation of workers in the different categories as also the details of the non-workers can be obtained from the General Economic Tables which are presented in Part II-B of Rajasthan Census Series of publications.

ALL INDIA TABLE A-I

AREA, HOUSES AND POPULATION OF INDIA

Note

The table, especially prepared to compare the position of Rajasthan amongst the various states of the country, shows the area, density, number of villages, towns, occupied residential houses, population, and sex ratio for the country as a whole and for its various zones, states and union territories.

Rajasthan covers one-ninth of the country's area and has one-twentysecond part of the population of the country. It ranks second in area, eleventh in population and has the lowest density per square mile amongst the various states.

@ Surveyor General's figures. State Survey figures not available.

*These figures relate to area where all-India Schedule was canvassed (i.e. for 38,705 population)
The figures for N.E.F.A, are provisional.

1. Under column 3,(a) represents the area figures furnished by Surveyor General of India, (b) represents the area figures furnished by the State Survey Department. The urban areas are based on the area of individual towns furnished by the local authorities. The rural area for State is obtained by [illegible] the State Survey Area.
2. [illegible] using the area figures corrected upto 2 places of decimal obtained by adding the [illegible] rural the density figures are worked out on area figures corrected upto 1 place of decimal.
3. Population per square mile has been calculated on area figures supplied by State Survey Department, except in the case of Jammu & Kashmir, Andaman & Nicobar Islands and N.E.F.A. for 'total' and 'rural' where these have been calculated on the figures supplied by Surveyor General of India.
4. Area figures of some suburban units and Port Areas included as urban in Gujarat are not separately available. Population of these units is ignored for working out urban density. Rural density is based on the rural population only but the area figures also include the area of the urban units of which separate area is not available. The same procedure has been followed in the case of eight towns of Goa, Daman & Diu for which area is not available.
