A—CENTRAL GOVERNMENT PUBLICATIONS

The publications relating to Haryana bear Series No. 6, and are bound separately as follows:—

Part I-A	.. General Report	Part III-A	.. Establishment Report
Part I-B	.. General Report	Part III-B	.. Establishment Tables
Part I-C	.. Subsidiary Tables	Part IV	.. Housing Report and Tables
Part II-A	.. General Population Tables	Part VI-A	.. Town Directory
Part II-A Supplement	.. General population Tables (Standard Urban Areas)	Part VI-B	.. Special Survey Reports on Selected Towns
Part II-B	.. Economic Tables	Part VI-C	.. Special Survey Reports on Selected Villages
Part II-C (i)	.. Mother Tongue, Religion and Scheduled Castes and Scheduled Tribes Tables	Part VIII-A	.. Administration Report, Enumeration (for official use only)
Part II-C (ii)	.. Social, Cultural and Fertility Tables	Part VIII-B	.. Administration Report, Tabulation (for official use only)
Part II-D	.. Migration Tables	Part IX-B	.. Census Atlas

B—STATE GOVERNMENT PUBLICATIONS

Part IX-A .. Administrative Atlas

Part X .. District Census Handbook for each district in three parts :—

Part A—Village and Town Directory

Part B—Village and Town-wise Primary Census Abstracts

Part C—Analytical Report, Administrative Statistics and District Census Tables.

(Parts A and B of the District Census Handbooks for each District of Haryana have been printed in one Volume)

PREFACE

The concept of the Town Group as adopted at the 1961 Census was done away with for the 1971 Census as it proved of little help for the purpose of furnishing statistical data in respect of urbanised or urbanizable areas in the near future, falling outside the jurisdiction of existing towns. Due to the change in the administrative boundaries of the existing towns from time to time, the data emanated from the Censuses relating to towns or town groups is hardly comparable and cannot be very usefully utilized for planning and administrative purposes. With a view to overcoming this shortcoming, the concept of Standard Urban Areas was evolved in the 1971-Census. For delineating the Standard Urban Areas, the smaller towns were not considered as it was felt that they would not make much significant impact beyond their boundaries during the coming decades. A Standard Urban Area refers to a core town with a population of 50,000 and above and non-municipal areas of the contiguous villages having close mutual socio-economic links with the core town falling on the periphery with the perspective of getting urbanised with the passage of time. These areas were delineated by the office of Registrar General of India in cosultation with the State and Central Town and Country Planning Organisations.

The present volume which is the supplement of Part II-A—General Population Tables—Haryana, embodies the basic data like civic status, area, density of population, occupied residential houses, population of the last two Censuses etc. relating to Standard Urban Areas and each of its components. In addition, it has also been endeavoured to give the primary census data of these units. The utility of the publication has further been enhanced with the inclusion of the maps of the Standard Urban Areas. It is hoped that the publication will serve as a guide to the Administrators, Planners and Scholars who are interested in studying the various aspects of urban growth over a period of time.

The data for the components of the Standard Urban Areas supplied by the office of the Registrar General, India was compiled in my office by Shri G.D.Singla, Tabulation Officer, assisted by S/Shri A.L. Kakkar, Statistical Assistant, and Hari Krishan, Computor, and the maps were prepared by Shri S. R. Puri and his team in the Cartographic Section under the able guidance of Shri J.S. Dhamija and Shri N.K. Tandon of Haryana Civil Service, who were working as Deputy Directors, and Shri K.C. Suri, Assistant Director, at various stages of work. They deserve appreciation for this.

I am indebted to Dr. B.K. Roy Burman, Deputy Registrar General (Social Studies) for his able guidance in finalizing this work. I am also thankful to Shri K.K. Chakravorty, Assistant Registrar General, and his staff for checking the tables for accuracy.

I.E.N. Chauhan,
Director of Census Operations,
Haryana.

Chandigarh,
9th April,1974.

TABLE A–V

STANDARD URBAN AREAS

TABLE A-V

STANDARD URBAN AREAS

This is a new Table and presents some data regarding the Standard Urban Areas delimited in the State of Haryana.

2. As already mentioned in the fly-leaf to Table A-IV, appearing in Part II-A of Haryana State, the concept of Town Group as was adopted at the 1961-Census has been given up on account of lack of uniformity in defining the town group in different states. In fact, that concept of town group was of limited use as it did not bring out spatially contiguous territory of urban-rural settlements. Further it did not help to effectively tackle the problem of furnishing statistical data in respect of urbanised or urbanizable areas in the near future outside the jurisdiction of the existing towns. Since the administrative boundaries of statutory towns changed from time to time, the data thrown up by successive censuses of the individual towns or the town groups was not strictly comparable. It was, therefore, quite desirable to have a fixed area, covering a large core town as well as the adjoining rural/urban areas, which should be well defined for atleast three decades so that comparable data for such area could be made available and it could be put to good use for urban developmental planning.

3. This idea gave rise to the new concept of Standard Urban Areas and it was decided to delineate such Areas by including the contiguous rural and urban areas which are at present under intensive influence or which are likely to be under influence of all the towns and cities with a population of 50 thousands and above. The essentials for a Standard Urban Area, thus, are :—

(i) It should have a core town of a minimum population size of 50,000 ;

(ii) the contiguous areas made up of other urban as well as rural administrative units should have close mutual socio-economic links with the core town ; and

(iii) the probabilities are that this entire area will get fully urbanised in a period of two to three decades.

4. Eleven Standard Urban Areas abbreviated as S.U.As. have thus been delimited in the State of Haryana with the help of the Town and Country Planning Organisation, Government of India, Ministry of Health and Family Planning, Works and Housing and Urban Development. These S.U.As. are :—

1. Ambala 2. Yamunanagar-Jagadhri	in District Ambala
3. Karnal 4. Panipat	in District Karnal
5. Sonepat 6. Rohtak 7. Bahadurgarh	in District Rohtak
8. Gurgaon 9. Faridabad-Ballabgarh Complex	in District Gurgaon
10. Hisar 11. Bhiwani	in District Hisar

Although Bahadurgarh does not have a population of 50,000, it has been delimited as a S.U.A. considering its importance as a developing industrial town lying close to the National Capital of New Delhi.

5. In Table A-V, only basic data like civic status, area, density of population, occupied residential houses, houseless and institutional population, total population and population according to the two last censuses relating to the Standard Urban Area and each of its component Units, both rural and urban, have been presented. **Further tabulation relating to S.U.As. is being contemplated as an inter censal project and is, therefore, beyond the scope of the present publication.** However, in the Appendix to Table A-V, the primary census data has been given for each Standard Urban Area and its component units.
