# PREFACE

The present publication—General Population Tables—attempts to acquaint the reader with certain basic characteristics of the population of Jammu and Kashmir as revealed by analysing the data collected at the 1971 Census. These pertain to growth and distribution of population, sex-ratio, literacy and break-up of population by workers and non-workers. The information presented in this publication has been obtained from A-Series Tables comprising 5 main tables and P.C.A. mentioned below:—

1. A-I—Area, Houses and Population
2. A-II—Decadal variation in population since 1901
3. A-III—Villages classified by population
4. A-IV—Towns and Urban Agglomerations classified by population in 1971 with variation since 1901
5. A-V—Standard Urban Areas and Primary Census Abstract up to Tehsil level with separate figures for each Town.

The prefatory note gives a brief account of how the 1971 Census was conducted in Jammu and Kashmir highlighting its salient features. A notable addition made to the A-Series Tables at this Census is Table A-V pertaining to Standard Urban Areas which substitutes the Town Group Concept of the 1961 Census.

The publication is illustrated with a number of maps and drawings to facilitate the study of the data contained in it. Besides to add to the interest of the publication, All-India Table A-I has been appended to this Report which gives information in respect of the area and population of each State and Union Territory of the country.

The credit for compiling this publication goes to Shri C.L. Chehra, Investigator who was aided in this task by S/Shri Bashir Ahmed, T.O., Badri Nath, S.A., Vijay Kumar, Khurshid Ahmed and Ghulam Jeelani, Computors who prepared the inset tables.

The first draft was prepared by Shri S.P. Arora, Investigator to whom I wish to thank. Miss Prana Kaw and Miss Picha Bakhshi who typed out the manuscript also deserve to be mentioned by name.

# PREFATORY NOTE

# PREFATORY NOTE

*The 1971 Census Count*—The 1971 Census was the eleventh decennial Census of India and the *eighth in the series of regular decennial censuses held in Jammu and Kashmir. The reference date for the present census was fixed originally as on the sun-rise of 1st March, 1971. But it had to be postponed by one month due to the dissolution of Lok Sabha in December, 1970 and holding of parliamentary poll in February, 1971. The census count which was extended over a period of 21 days started from the morning of 10th March, 1971 and concluded on the sun-rise of 1st April, 1971. During this period, every person was enumerated at his or her normal place of residence except those who were absent from their normal places of residence throughout the period of enumeration. Such persons were enumerated at the places where they were found during the enumeration period. Houseless persons were enumerated on the night of 31st March, 1971. The revisional round lasted from 1st April to 3rd April, 1971. These days were utilized for counting new arrivals not counted previously and for recording all births and deaths which had occurred after the enumerator's first visit but prior to the sun-rise of 1st April, 1971 in every enumerator's block.

*Legal Basis*—A copy of the 'Indian Census Act 1948' is reproduced in appendix—1. The Census Act empowers the Central Government to notify and conduct the Census in the whole or part of the country. The Act also empowers the State Government or such authorities to whom the State Government delegates power to appoint a number of Census Officers at various levels to conduct a census. It may be remarked here that the provisions of the Census Act of 1948 were made applicable to Jammu and Kashmir State for the first time in 1950.

*Pre-tests of Census Schedules*—Evolving of right type of census questionnaires to suit the requirements of a fast changing society like ours has become important for ensuring accuracy of censuses. It has become a practice that census questionnaires after being developed in consultation with data-users are put to test in the field to gauge their suitability and adoptability by the general public. This preliminary exercise is known as 'pre-testing of Census Questionnaires'.

No pre-test of census schedules was conducted in our State at the time of 1961 Census due to delayed setting up of an organisation for this purpose. However, prior to the launching of 1971 Census Operations there existed a nucleus office in each state in consequence of which it became possible to go through initial steps. In Jammu and Kashmir, two pre-tests, one in 1967 and the other in 1969, were held in selected rural and urban areas of the State. The draft schedules were first pre-tested in the field towards the end of 1967 and after considering the field experience, revised schedules were developed and pretested in early 1969. These pre-tests were aimed at finding out whether the import of instructions and the schedules was correctly followed by the field agency and whether various census schedules developed were easily understandable and could be effectively implemented. The drafts, including concepts, definitions, methods and instructions finally developed at the first Census Conference of the Directors of Census Operations held at New Delhi between 16th to 25th of May, 1969 were subjected to further changes as a result of discussions with the Planning Commission. The final schedules for the 1971 Census which were evolved as a result of these deliberations were submitted to Central Government and approved in 1969.

*Printing of Census Schedules*—The census schedules finally adopted for the 1971 Census were (*i*) Houselist (*ii*) Establishment Schedule (*iii*) Individual Slip and (*iv*) Population Record. The English Schedules and instructions for filling them as received from Registrar General's Office were translated into Urdu, the official language of the State. The Urdu version which was prepared in the State Census Office subsequently under-went a series of revisions to ensure evenness of nuance and connotation in translation. The final draft translations of census shedules and instructions were approved by Registrar General before these were got printed at Government Press of India, New Delhi and Punjab Government Press, Chandigarh.

Other printing work which included a number of abstracts prescribed for the use of census field agency as also small brochures containing brief instructions for filling Houselist and Individual Slip were got printed locally.

*No census was conducted in 1881 for some unknown reasons. Census was also not held in 1951 due to disturbed conditions prevailing then. The 1873 Census was simply a rough count which yielded unreliable results.

*Six Stages of Census Operation*—Broadly speaking, the Census Operations of 1971 consisted of six inter-related steps. These are as under:—

*1st step—Fixation of Block Boundaries:*—Barring Ladakh and Kathua, each one of the remaining 7 districts of the State had undergone a number of jurisdictional changes during the inter-census period 1961-71. The net result of these large scale alterations in jurisdictional set-up of districts was the carving out of a new district, namely, Rajauri and 12 new tehsils, 9 in Kashmir Province and 3 in Jammu Region. In order to build up the district/tehsil/city/town maps of 1961 Census according to the latest jurisdiction, the old maps of 1961 were revised and fresh maps were got prepared in the case of newly formed tehsils. The fixation of boundaries for various administrative units down to village level was also necessitated for delimitation of census divisions, zones, supervisory circles and enumeration blocks. As a general rule, an enumeration block in rural areas was constituted of 750—1,000 population or 150—200 households on an average and in urban areas of 600—750, persons or 120—150 households. A departure, however, was made from this prescribed scale in special circumstances where either in view of very large distances involved or due to difficult terrain and topography, the blocks and circles of smaller sizes had to be set up.

The total number of enumeration blocks constituted both for accessible and inaccessible areas was 6,378 (5,150 rural and 1,228 urban), supervisory circles 1,338 (1,096 rural and 242 urban) and of census zones 314 (242 rural and 72 urban).

*Second Step—Census Hierarchy*:—Generally speaking, the census hierarchy in the State follows the pattern of normal administrative hierarchy. The State was divided into 10 Census districts each under District Census Officer which office was filled by the Deputy Commissioner in the district. In the tehsils and big cities/towns the responsibility of operations was entrusted to the Teshildars/Administrators/Municipalities/ Chairmen of Town Area Committees/Notified Area Committees. Each such charge was divided into zones, circles and blocks. As already stated above, an enumeration block covered 750—1,000 population in rural areas and 600—750 in urban areas, a circle comprised of 4 to 6 blocks and a zone included a number of circles. All these jobs were manned by voluntary workers. The enumerators were generally recruited from the ranks of village patwaries, school teachers, clerical staff of local bodies, forest guards and employees or other staff of local offices. While the bulk of supervisors was drawn from the State Revenue and Education Departments, some of them belonged to other departments also, such as Forest, Local Bodies, Sericulture, Excise etc. The Deputy Charge Superintendents were selected from amongst Naib-Tehsildars, Divisional Forest Officers, Headmasters of High Schools, Block Development Officers, Tehsil Education Officers and Assistant Registrars of Co-operative Societies.

The enumerators and supervisors were basically part-time honorary workers (though a small honorarium was paid to them to meet day-to-day expenses), who undertook the census work out of a sense of duty for fulfilment of an important national task.

*Third Step—Numbering and Listing of Houses*:—The house numbering and houselisting operations were conducted in the accessible areas between 1st and 28th February, 1970. Similar operations were carried out in snow-bound areas during a period of 11 days i.e., from 1st September, 1970 to 11th September, 1970. Thorough and intensive training in house numbering and houselisting was given to Charge Superintendents, Zonal Officers, Supervisors and Enumerators before the start of these operations. A notional map of village Sudh Mahadev and a brochure in Urdu containing brief instructions on house-numbering and houselisting in question and answer form was supplied to each member of the enumeration agency. As the subsequent events showed, the supply of a sample notional map proved very helpful to the house-listers in preparing sketches of their respective blocks. The brochure likewise helped them to understand more clearly various terms and concepts.

The enumerators were instructed to number the houses in the first instance with chalk which after being checked up by the supervisory staff and Census Officers had to be written with paint. This was definitely an improvement over 1961, when the material used for painting temporary house numbers was mostly 'Geru' with 'Oil'.

The material for painting of numbers was purchased by the enumerators themselves. However, in the case of far-flung areas like Ladakh where the numbering material such as paint, brushes etc., could not be had locally, the supplies were procured in bulk by the Census Department and sent to concerned Charge Superintendents for distribution amongst the field staff.

The houselisting which was taken up immediately after all the structures in a particular block were numbered, was thoroughly checked not only by the supervisory staff but also specially constituted teams of Census Officials who visited every tehsil headquarter and did the checking in a number of villages selected at random. Not only did they correct whatever errors they noticed but also explained by practical demonstrations to all concerned how the houselists and establishment schedules should be filled in correctly. As a result of intensive spot checking undertaken by the Census Officials, the margin of error was reduced to the minimum if not altogether eliminated.

*Fourth Step—Training of Census Agency* :—Success of enumeration depends largely on the quality of training imparted to those responsible for field work. With this end in view, 7 teams were constituted from amongst the senior technical officials of Census Office and prepared thoroughly for imparting training to enumerating agency. In all, 257 training camps were organised. Each training camp was held for 2 days in case of housenumbering and houselisting and for 3 days for training in enumeration work.

Training of enumerators and supervisors was organised separately for the two phases of the census programme. The training for housenumbering and houselisting was arranged in two instalments, the first between 28th November, 1969 and 28th January, 1970 and the second between 15th July, 1970 and 16th August, 1970. In like manner, the training for enumeration was conducted in two rounds, the first between 15th July and 16th August, 1970 and the second between 12th October, 1970 and 15th January, 1971. Special camps were also held for such of the census staff who could not be imparted training due to one reason or other.

Training camps were generally organised at the centrally located places where the census field staff could conveniently assemble. These places were determined in consultation with the Charge Superintendents with due regard to the topography and the distance to be covered by the trainees.

At these training camps, the trainees were given theoretical instructions and practical demonstrations on the numbering of houses and incorporation of particulars in various census schedules. The trainees were themselves required to fill in a good number of census schedules for practice at the end of each training camp. These schedules were scrutinized by the training instructor or his assistant and mistakes, if any, brought home both to the enumerator and supervisor.

Census schedules were also discussed at one day's training camp organised at each district headquarter. These were attended by the District Census Officers, Charge Superintendents and Deputy Charge Superintendents of the district concerned. At these meetings, census schedules were discussed at length and explanation given in respect of every point that needed clarification or elaboration.

*Fifth Step—Census Count* :—As explained in paragraph-1, the census count was carried out between 10th March, 1971 and 31st March, 1971 with the sun-rise of 1st April as the reference date. Earlier to this, these operations were conducted in the case of snow bound areas between 12th September, 1970 and 30th September, 1970. So far as houseless population was concerned, it was enumerated on the night of 30th September, 1970 in the case of snow-bound areas and on the night of 31st March, 1971 in the accessible areas.

*Sixth Step—Revisional Round and Reporting of Figures* :—The enumeration agency made a revisional round from 1st to 3rd October, 1970 in snow bound areas and from 1st April, 1971 to 3rd April, 1971 in accessible areas in order to bring the records up to date by cancelling the slips of all such persons who had passed away before the sun-rise of 1st October, 1970/1st April, 1971. Similarly, new slips were prepared in respect of all those children who were born after enumerator's first visit and before the reference date. Slips were also prepared for those visitors who were found by the enumerator present in his block during his revisional round and who had not been enumerated elsewhere.

According to the revised Census Calendar, every Charge Superintendent was required to send in a telegram intimating provisional population totals of his Charge in a prescribed form to the District Census Officer positively on 4th April, 1971. We received the first set of provisional figures regarding sex-wise population and literacy from all the Census Charges by the evening of 4th April, 1971. No time was lost in processing and tabulating them for each Tehsil and District for its submisision to the Registrar General and immediate release to the Press. Fuller details regarding rural and urban composition of population and its distribution by workers and non-workers were received subsequently. The data after being duly processed and

analysed was presented in the publication entitled "Paper I of 1971 Census".

*Non-Synchronous Areas*—In view of the difficult terrain of the State and the consequent inaccessibility of certain areas during winter months on account of their being located in farflung areas and also due to their experiencing heavy snow-falls, the State was, as in 1961 Census, divided into two sectors-synchronous and non-synchronous for 1971 Census also. A special programme was devised for the snow-bound areas where the census work was completed 6 months ahead of the census count.

As stated earlier, census operations in the non-synchronous areas of Jammu and Kashmir State were conducted in the month of September, 1970. This was preceded by house numbering and houselisting operations which were carried between 1st and 11th September, 1970 (both days inclusive). The actual enumeration started on 12th September, 1970 and completed on 30th September, 1970 with the sun-rise of 1st October, 1970 as the reference date. The houseless persons such as beggars, vagrants etc. were enumerated on the night of 30th September, 1970. From 1st to 3rd October, 1970, the enumeration agency made a revisional round in order to bring the records up to date. To guard against the possibility of non-enumeration or double enumeration, effective measures, such as, issuing of a certificate of enumeration to every individual enumerated in snow-bound areas and setting up of check posts on the recognised routes were also undertaken.

*Special Areas*—The fact that a substantial proportion of the State's population consists of nomadic elements who generally remain on move, special arrangements were made for the enumeration of the floating population which broadly speaking, comprised of 3 types of population, namely, (1) Boat Population (2) Forest Labourers and Wood Cutters and (3) Nomadic elements such as Gujars, Bakerwals, Shepherds etc. The following steps were taken to ensure that they are not missed in the general count and at the same time due to their frequent movements they are not enumerated twice:—

(1) Formation of separate boat and forest blocks,

(2) Issuing of certificate of enumeration to avoid non-enumeration or duplication, and

(3) Recording a certificate on the back of the grazing permit to the effect that the household was duly enumerated.

*Census Calendar*—As already stated, the State was divided in two major sectors, one consisting of the areas which remain accessible throughout and the other which become snow-bound for the greater part of the year. Two separate Census Calendars were, therefore, devised for carrying out the Census Operations in two sectors. The Census Calendars for these respective areas are reproduced below :

CENSUS CALENDAR
(Accessible Areas)

| | |
|---|---|
| 15th June, 1969 to 15th July, 1969 | (*i*) Preliminary discussions with the State Government regarding appointment of Census Officers. |
| | (*ii*) Arrangements for preparations of up-to-date Town/City / Tehsil and District maps. |
| | (*iii*) Recognition of new Towns that qualify and declassification of existing ones if they did not satisfy the definition of a town. |
| 15th July, 1969 to 31st August, 1969 | (*i*) Checking of Tehsil maps with village lists and assigning of location code numbers to all units. |
| | (*ii*) Preparation of General Village Register and Town Register. |
| | (*iii*) Collection of area figures from the Director, Land Records/Local Bodies in respect of Districts/Tehsils/Cities/Towns. Reconciliation of district Total/Rural/Urban areas. |
| | (*iv*) Collection of administrative statistics from various agencies (non-Census data) for Part I of the Town and Village Directories. |
| | (*v*) Delineation of Standard Urban Area in terms of Rural and Urban units. |
| 1st September, 1969 to 15th October, 1969 | (*i*) Notification of Census Questionnaires and Instructions in the gazette as required by the Census Act. |
| | (*ii*) Appointment of District Census Officers and Charge Officers. |
| | (*iii*) Constitution of Blocks and Supervisor Circles for the purpose of Housenumbering and Houselisting. |
| 16th October, 1969 to | (*i*) Issue of instructions explaining Houselisting Operations. |
| 15th December, 1969 | (*ii*) Training classes for District Officers and Charge Officers in Housenumbering, Houselisting and Establishment Schedules. |
| | (*iii*) Despatch of Houselists, Establishment Schedules, Enumerator's Abstracts and 'Instruction' Booklets to District Officers. |
| | (*iv*) Appointment of Enumerators and Supervisors for Housenumbering and Houselisting Operations. |
| | (*v*) Drawing up of a training programme for enumerators and supervisors for Houselisting. |
| | (*vi*) Publicity for Houselisting. |

| | |
|---|---|
| 16th December, 1969 to 31st January, 1970 | (*i*) Training classes for the enumerators and supervisors, for House-numbering and Houselisting operations including canvassing of House-list/Establishment Schedules as a practical exercise through Training Schedules. |
| | (*ii*) Publicity for Houselisting. |
| February, 1970 | |
| (1st to 28th Feb., 1970) | Housenumbering, Houselisting and canvassing of Establishment Schedules and preparation of notional maps showing the layout of houses and the numbers allotted to them. |
| 3rd to 18th March, 1970 | Arrival of the Houselists and Establishment Schedules at the District Headquarters. |
| 18th to 31st March, 1970 | (*i*) Arrival of these schedules at the Headquarters of the D.C.Os. |
| | (*ii*) Recruitment and training of Key-Punch Operators and Supervisory Staff to be done in February—March, 1970. |
| 1st April, 1970 to 31st May, 1970 | Checking of the Houselists for completeness, Sampling of Houselists, coding and punching of Houselists and Establishment Schedules Commence in the Tabulation Offices. |
| April—May, 1970 | Preparation of Charge Register—delineation of Blocks and Supervisors' circles on the basis of the 1971 (1970) Houselists. |
| June, July and Aug., 1970 | (*i*) Selection and earmarking of Census Enumerators and Supervisors in each charge. |
| | (*ii*) Compilation of part I (Non-Census data) of the Village and Town Directories. |
| | (*iii*) Preparation of data for A-Series Tables for Columns other than those which relate to 1971 Census data. |
| | (*iv*) Training Enumeration Slips and Instructions to reach every District Office and Charge Office. |
| 1st September, 1970 to 15th November, 1970 | (*i*) Detailed instructions to be issued formulating the Training Programme of Census Officers at all levels including Enumerators and Supervisors. |
| | (*ii*) Training of District Officers and Charge Superintendents for filling up the Individual Slips. |
| | (*iii*) Publicity measures. |
| | (*iv*) Despatch of Individual Schedules to District Headquarters. |
| 16th November, 1970 to 6th February, 1971 | (*i*) Reassessment of the Blocks and Circles constituted and finalisation of Charge Lists by Charge Superintendents. |
| | (*ii*) Issue of appointment letters to enumerators and supervisors. |
| | (*iii*) Intensive training of Enumerators and Supervisors including Practical Exercise in enumeration on training schedules. |
| | (*iv*) Copying of abstracts of the Houselist for each Enumerator's Blocks. |
| | (*v*) Issue of Schedules etc., by the Charge Superintendents to the Enumerators. |
| 10th February, 1971 to 28th February, 1971 | Census Enumeration. |
| Night of 28th Feb., 1971 | Enumeration of Houseless Population. |
| 1st March, 1971 to 3rd March, 1971 | Revisional Round. |

REPORTING OF PROVISIONAL TOTALS

| | |
|---|---|
| 4th March, 1971 to 6th March, 1971 | (*i*) By Enumerators. |
| 6th March, 1971 to 7th March, 1971 | (*ii*) By Supervisors |
| 8th March, 1971 | (*iii*) By Deputy Charge Superintendents. |
| 9th March, 1971 | (*iv*) By Charge Superintendents. |
| 10th March, 1971 | (*v*) By District Census Officers to Director, Census Operations and Registrar General, India. |
| 11th March, 1971 to 5th April, 1971 | Sending of records to the Office of the Director of Census Operations by District Census Officers. |

CENSUS CALENDAR

(*Snow-Bound Areas*)

| | |
|---|---|
| 15th June, 1969 to 15th July, 1969 | (*i*) Preliminary discussions with the State Government regarding appointment of Census Officers. |
| | (*ii*) Arrangements for preparations of up-to-date Town/City/Tehsil and District maps. |
| | (*iii*) Recognition of new towns that qualify and declassification of existing ones if they did not satisfy the definition of a town. |
| 15th July, 1969 to 31st August, 1969 | (*i*) Checking of Tehsil maps with village lists and assigning of location code numbers to all units. |
| | (*ii*) Preparation of General Village Register and Town Register. |
| | (*iii*) Collection of area figures from the Director, Land Records/Local Bodies in respect of District/Tehsils/Blocks/Cities/Towns. Reconciliation of districts Total/Rural/Urban areas. |
| | (*iv*) Collection of administrative statistics from various agencies (non-census data) for Part I of the Town and Village Directories. |
| | (*v*) Delineation of Standard urban area in terms of Rural and Urban units. |
| 1st September, 1969 to 15th October, 1969 | (*i*) Notification of Census Questionnaires and Instructions in the gazette as required by the Census Act. |

| | |
|---|---|
| | (*ii*) Appointment of District Census Officers and Charge Officers. |
| | (*iii*) Constitution of Blocks and Supervisory Circles for the purpose of Housenumbering and Houselisting. |
| 15th February, 1970 to 31st March, 1970 | (*i*) Issue of instructions explaining Houselisting Operations. |
| | (*ii*) Training classes for District Officers and Charge Officers in Housenumbering, Houselisting and Establishment Schedules. |
| | (*iii*) Despatch of Houselists, Establishment Schedules, Enumerator's Abstracts and 'Instructions' Booklets to District Officers. |
| | (*iv*) Appointment of Enumerators and Supervisors for Housenumbering and Houselisting Operations. |
| | (*v*) Drawing up of a training programme for Enumerators and Supervisors for Houselisting. |
| | (*vi*) Publicity for Houselisting. |
| | (*vii*) Recruitment and training of Key-Punch Operators and supervisory staff to be done in Feb., March, 1970. |
| 1st April, 1970 to 10th May, 1970 | (*i*) Training classes for the enumerators and supervisors for Housenumbering and Houselisting operations including canvassing of Houselists and Establishment Schedules as a practical exercise through Training Schedules. |
| | (*ii*) Publicity for Houselisting. |
| 11th May, 1970 to 5th June, 1970 | Housenumbering, Houselisting and canvassing of Establishment Schedules and preparation of notional maps showing the layout of houses and the numbers allotted to them. |
| 8th June, 1970 to 25th June, 1970 | Arrival of the Houselists and Establishment Schedules at the District Headquarters. |
| 25th June, 1970 to 5th July, 1970 | Arrival of these schedules at the Headquarters of the D.C.Os. |
| 5th July, 1970 to 31st July, 1970 | Checking of the Houselists for completeness, Sampling of Houselists, Coding and Punching of Houselists and Establishment Schedules commence in the Tabulation Offices. |
| une, July, 1970 | (*i*) Preparation of Charge Register—delineation of Blocks and Supervisory Circles on the basis of the 1971 (1970) Houselists. |
| | (*ii*) Selection and earmarking of Census Enumerators and Supervisors in each charge. |
| | (*iii*) Training enumeration slips and instructions to reach every District Office and Charge Office. |
| | (*iv*) Detailed instructions to be issued formulating the training programme of Census Officers at all levels including Enumerators and Supervisors. |
| | (*v*) Training of District Officers and Charge Superintendents for filling up the Individual Slips. |
| | (*vi*) Publicity measures. |
| | (*vii*) Despatch of Individual Schedules to District Headquarters. |
| 1st August, 1970 to 10th September, 1970 | (*i*) Reassessment of the Blocks and Circles constituted and finalisation of charge lists by Charge Superintendents. |
| | (*ii*) Issue of appointment letters to Enumerators and Supervisors. |
| | (*iii*) Intensive training of Enumerators and Supervisors including practical exercise in enumeration on training schedules. |
| | (*iv*) Copying of abstract of the Houselist for each Enumerator's blocks. |
| | (*v*) Issue of Schedules etc., by the Charge Superintendents to the Enumerators. |
| 12th September, 1970 to 30th September, 1970 | Census Enumeration. |
| Night of 30th September, 1970 | Enumeration of Houseless Population . |
| 1st October, 1970 to 3rd October, 1970 | Revisional round. |

REPORTING OF PROVISIONAL TOTALS

| | |
|---|---|
| 3rd October, 1970 to 5th October, 1970 | (*i*) By Enumerators. |
| 5th October, 1970 to 8th October, 1970 | (*ii*) By Supervisors. |
| 8th October, 1970 to 12th October, 1970 | (*iii*) By Deputy Charge Superintendents. |
| 12th October, 1970 to 16th October, 1970 | (*iv*) By Charge Superintendents. |
| 16th October 1970 to 20th October, 1970 | (*v*) By District Census Officers to Director, Census Operations and Registrar General, India. |
| 20th October, 1970 to 15th November, 1970 | Sending of the records to the office of the Director of Census Operations by District Census Officers. |

*Census Schedules*—It has already been explained that the schedules adopted at the 1971 Census were:—

(1) Houselist.

(2) Establishment Schedule.

(3) Individual Slip.

(4) Population Record.

A Sample of each of the above four schedules is reproduced in appendix—2.

*Houselist*—The schedule was canvassed before the actual enumeration and on the basis of population returns obtained from it, the population census enumeration blocks were fixed. The houselist canvassed at 1971 Census was slightly different to one used at 1961 Census. In all, it contained 17 columns designed for collection of information regarding the material employed in the construction of walls and roofs, the sex-wise and total population of each household, the living accommodation available for residential purposes as also data indicating whether the premises in the occupation of a household were owned by it or were charged to rent. The houselists also gave valuable information regarding the reasons for vacancy in respect of vacant census houses as also the total number of cultivating households in every village and town. If the head of the household belonged to a Scheduled Caste or Scheduled Tribe, it was specifically recorded.

*Establishment Schedule*—Alongwith the Houselist, a new schedule canvassed at the present Census was 'Establishment Schedule'. Besides the manufacturing establishments, it also covered the trade and other establishments and gathered several detailed particulars of the establishments.

*Individual Slip*—The Individual Slip or Enumeration Slip was the basic schedule for the 1971 Census. It contained in all 17 questions dealing with the social, demographic and economic particulars of each individual. The individual slip was designed in such a manner as to give comprehensive information regarding each person enumerated such as name, sex, age, relationship with the head of household, marital status, birth place and last place of residence, religion, literacy, mother-tongue and whether belonging to any Scheduled Caste or Scheduled Tribe, economic activity, secondary work etc. etc. In the case of currently married woman, additional information was collected about any child born during the preceding one year.

*Population Record*—The Census Population Record listed the names of the members of each household together with their sex, relationship with the head of the household, age, marital status, literacy and description of the work in case the member was a worker.

*Instructions for filling up the Census Schedules*—The instructions for filling up the Houselist and Establishment Schedule have already been discussed in detail in the 'Housing Report' and 'Establishments Report' respectively. Since, however, the 'General Population Tables' were constructed from the data contained in the Individual Slip and Population Record, it is worthwhile to discuss briefly the instructions given to the enumerating agency for filling up these Schedules —

*Individual Slip*—Before recording replies to the questions on the Individual Slip, the enumerator besides inserting Pad and Slip No. on each schedule was also required to note the combined location Code No. made up of the district No., tehsil or town No. and the village/ward No. and enumerator's block No. on each slip on the left hand top corner in the space provided for this purpose. The identifying household No. of the household to be enumerated was to be written within the square brackets.

*Question 1, Name*—The emumerator was asked to record the name of person enumerated in this column. Women whose names were not disclosed were described as 'so and so's wife, mother or daughter.' For newly born infants who had not been given the name, the word 'baby' and the name of father or mother were recorded.

*Question 2, Relationship to Head*—In the case of the Head of the household the word 'Head' was written against this. For all others, the relationship which the person had with the head of household was recorded. In the case of visitors, boarders or employees, the instructions were to note 'visitor' 'boarder' or 'employee' as the case may have been. The word 'unrelated' was recorded where people living together in institutions, such as, boarding houses, hostels, hotels, messes etc., were unrelated to each other.

*Question 3, Sex*—The letter 'M' or 'F' was to be written within the circle on the slips of males and females respectively. Even for eunuchs and hermaphrodites, the letter 'M' was used.

*Question 4, Age*—The age of the person in total years completed on his/her last birthday was recorded against this question. The age of an infant who had not yet completed one year was invariably treated as '0'.

*Question 5, Marital Status*—The following abbreviations were used in recording answer to this question—

NM—Never Married.

M—Currently Married.

W—Widowed.

S—Separated or Divorced.

The currently married persons included all persons married whether for the first time or another time as also for others recognised by custom or society as married and for persons in stable defacto

union. 'W' was written for a widowed person whose husband or wife was dead and who had not been married again. A person who had been separated from wife or husband and was living apart with no apparent intention of living together again or who had been divorced in a lawful manner but had not remarried was indicated by the letter 'S'.

The marital status of a prostitute was recorded the same as declared by her.

*Question 6, For Currently Married Women Only—*

Q. 6 (*a*) This question was to be answered in respect of currently married women only. The age at marriage in completed years was to be recorded here.

Q. 6 (*b*) The children born to the currently married women in the last one year prior to the date of enumeration were to be noted here. For this question, only 'live births' were considered and 'still births' left out.

*Question 7(a), Birth Place*—'PL' was written for a person born in the village or town of enumeration. For those born outside the village or town of enumeration, the actual name of the place was recorded against Question 7(*a*).

*Question 7(b), Rural/Urban*—Persons born in a village were indicated by letter 'R' and those born in a town/city by the letter 'U'. For this purpose, the enumerator was instructed to ascertain if the place of birth of the respondent was a village or town at the time of his/her birth. If, however, all efforts to classify the place of birth as rural/urban failed, the words '*not known*' were to be written against this sub-item.

*Question 7(c), District*—The letter 'D' was to be written for persons if born in another village or town in the district of enumeration. The actual name of the district was to be recorded if the person enumerated was born in another district of the State of enumeration or other State/Union Territory in the country.

*Question 7(d), State/Country*—'X' was written for those born within the State of enumeration. The name of State/Union Territory was recorded for those born outside the State of enumeration but within the country. If, however, born in a country outside India, the name of that country was given.

In case, a person was born at sea or in air or in a railway carriage or on road transport, the fact was to be recorded accordingly against this sub-item.

*Question 8 (a), Place of Last Residence*—The following abbreviations were used for answering this question:—

(1) If the place of last residence had been in the village or town of enumeration continuously since birth (except for shifting to other places outside the village or town of enumeration for a purely temporary stay).....PL

(2) For a person who had his last previous residence at any place outside the village or town of enumeration (irrespective of his place of birth).....Name of the village or town.

*Question 8(b), Rural/Urban*—The letter 'R' was to be written for a person whose last previous residence was a village and 'U' if it was a town or city. The enumerators were instructed to write 'Not known' for a person whose last previous residence could not be determined.

*Question 8(c), District*—The letter 'D' was written for a person who previously resided in another village or town within the district of enumeration. The actual name of the district was to be given in case a person's last previous residence had been in another district of the State/Union Territory of enumeration or of other State/Union Territory in the country. The letter 'X' was used for those having their last previous residence outside India.

*Question 8(d), State/Country*—While 'X' was written for a person having his last previous residence within the State of enumeration, the actual name of the State/Union Territory was recorded if it was outside the State/Union Territory of enumeration. In like manner, the name of the country was written if the last previous residence was outside India.

*Question 9, Duration of Residence at the Village or Town of Enumeration*—For a person who was born at the place of enumeration and also had no other place of last residence 'X' was recorded in reply to this question. For others, the period of the existing continuous residence in the village or town where the person had his enumeration was given in completed years. The fact that the duration of residence of the person enumerated was less than one year was indicated by 'O'.

*Question 10, Religion*—The fact that the person enumerated was a Hindu, Muslim, Christian, Sikh, Buddhist or Jain was indicated by the letters 'H', 'I', 'C', , 'S', 'B' and 'J' respectively. For all others, the actual religion as returned was recorded. A person indicating no religion was recorded as such.

*Question 11, Scheduled Caste or Scheduled Tribe*—Since there are no Scheduled Tribes in Jammu and Kashmir State, instructions in respect of this question were confined to Scheduled Caste persons only. The enumerators were instructed to make all efforts to ascertain the correct name of the Scheduled Caste as given in the notified list, a copy of which was supplied to them in advance. The use of general terms such as 'Harijan' or 'Achhut' was disallowed. It was also made clear that the Scheduled Castes belonged to Hindu and Sikh Communities only and in making entries for this question, the enumerators should satisfy themselves that the corresponding entry in Question 10 was either 'H' or 'S'.

*Question 12, Literacy*—The letter 'L' was used for persons who could both read and write. The letter 'O' was indicated for those who could neither read nor write or who could merely read but could not write. As a general rule, all children of the age of 4 years or less were treated as illiterate. A person claiming to be literate in some other language with which the enumerator was not acquainted, was to be taken as literate.

*Question 13, Educational Level*—This question was not to be asked in respect of those for whom 'O' was recorded against Question 12. For others the highest educational level attained by a person was recorded. Preference was given to the technical qualification where a person held both general and technical qualifications of equivalent level.

*Question 14, Mother-tongue*—The mother-tongue in full whatever be the name of the language as returned was recorded here. Mother-tongue was defined as a language spoken in childhood by the person's mother to the person or mainly spoken in the person's home. In the case of infants and deaf mutes, the language usually spoken by the mother should be noted.

*Question 15, Other Languages*—The enumerators were instructed to put 'X' against this question if the person enumerated did not know any language apart from his mother-tongue. For those, having some working knowledge of other languages besides mother-tongue, names of the languages not exceeding two were recorded.

*Question 16, Main Activity*—For this question, all persons were divided into two broad streams of main activity, namely, (1) as workers and (2) as non-workers according as the type of main activity in which the person was engaged mostly.

A worker was defined as a person whose main activity was participation in any economical productive work by his physical or mental activity. The reference period for work was one week prior to the date of enumeration in the case of regular work in trade, profession, service or business and last one year in the case of seasonal works, such as, cultivation, livestock keeping, plantation work etc., etc.

A person should not be treated as a worker if he or she was engaged primarily in household duties such as cooking for own household or performing other household duties even if such person was helping marginally in the family economic activity. In like manner, a boy or girl who was primarily a student attending institution or a person who was in receipt of an income such as a rent receiver or a pensioner was not treated as economically active unless the person was also engaged in some economic activity and if that was returned as the main activity of the individual.

*Question 16 (a), Broad Category (i) Worker*—In case of an economically active worker if the person was a Cultivator, Agricultural Labourer or engaged in Household Industry or doing other work, the entry to this effect in one of the appropriate abbreviations indicated against this question was to be made in the box provided for this purpose. If the person was not engaged in any economic activity, an 'X' was noted in the box.

For purposes of census, a person was working as Cultivator if he or she was engaged in cultivation by one self or by supervision or direction in one's capacity as the owner or lessee of land held from Government or as a tenant of land held from private persons or institutions for payment in money, kind or share. The fact that the person enumerated was working as a cultivator was denoted by writing letter 'C'.

A person working in another person's land for wages in money, kind or share was defined as an Agricultural Labourer provided he/she had no right or lease or contract on the land on which he/she worked. The letters 'AL' were written for such persons.

A Household Industry was defined as an industry conducted by the Head of the Household himself/herself and or mainly by the members of the household at home or within the village in rural areas and only within the premises of the house where the household lived in urban areas provided further that the Industry was not being run on the scale of a registered factory and that it related to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. It did not include professions,

such as, a pleader or doctor or barber, musician, dancer, water-man, dhobi, astrologer etc., or merely trade or business even if such professions, trade or services were run at home by members of the household. The persons working at Household Industry were indicated by the letters 'HHI'.

If a person gave his main activity as engaged in any other work other than Cultivation, Agricultural Labour or Household Industry, this was to be indicated by noting 'OW' in the box. The 'Other Workers' included factory workers, all Government servants, municipal employees, teachers, mining workers, political or social workers, building labourers, workers engaged in plantation, forestry and trade, transport workers etc., etc.

*Question 16(a) (ii), Non-worker (H, ST, R, D, B, I, O)*—In case of a Non-worker if the person was engaged in household duties (H), or was a student (ST), a retired person or rent or royalty receiver (R), dependent such as infant or disabled or very old person (D), beggar or vagrant (B), inmate of a penal or charitable institution (I) and other made up of mostly the unemployed (O), the enumerator was required to write any one of the above abbreviations in the box provided for this purpose.

*Question 16(b), Place of Work (Name of Village/Town)*—This question and the subsequent subsections of Question 16 were not filled in for Cultivators and Agricultural Labourers. The letters 'PL' were written if the place of work was the same village or town of enumeration. In all other cases, the actual name of the place was fully written.

*Question 16(c), Name of Establishment*—The exact name of the factory, firm, workshop, business house, company, shop, office etc., was to be recorded. In case of an establishment having no definite name, the enumerators were instructed to record 'No particular name'.

*Question 16(d), Nature of Industry, Trade, Profession or Service*—Full details of the type of industry, trade, profession or service in which the person enumerated was engaged should be recorded here. The sector of economy in which a person may be working included (*i*) Plantation, Forestry, Fishing, Livestock etc. (*ii*) Mining and/or Quarrying (*iii*) Manufacturing (*iv*) Construction (*v*) Electricity, Gas or Water supply (*vi*) Transport and Communications (*vii*) Trade and Commerce (*viii*) Professions and Services.

*Question 16 (e), Description of Work*—Under this question the description of the actual work that the person enumerated was doing, was to be recorded irrespective of the type of industry, trade, profession or service in which he was engaged. The enumerators were instructed to note the actual work in sufficient detail.

*Question 16(f), Class of Worker*—The following abbreviations were used in recording replies to this sub-item of Question 16 'ER' for an employer, 'EE' for an employee, 'SW' for single worker and 'FW' for family worker.

An Employer was defined as a person who hires one or more persons in his work described in question 16 (*e*).

An Employee was defined as a person who was doing his work described in question 16(*e*) under others for wages or salary in cash or kind.

A Single Worker was a person doing his work described in question 16(e) without employing others except casually and without the help of the other members of the family except casually and a participant in work as members of co-operatives.

A Family Worker was one who was doing his/her work described in question 16(*e*) in a family enterprise alongwith other members of the family without wages or salary in cash or kind. Such of the members of the household who attended to household duties only were not to be treated as Family Workers.

*Question 17, Secondary Work*—The question was to be asked of every person if besides what he/she had already returned as his/her main activity against question 16(*a*) (*i*) or 16 (*a*) (*ii*), he/she also participated in any secondary work.

The instructions for filling up question 16(*a*) to (*f*) were to be applied *mutatis mutandis* to question 17(*a*) to (*f*) except that while question 16(*a*) (*i*) and (*ii*) was meant to cover the main work, question 17 (*a*) was intended to cover the secondary work which might be possibly part-time. The enumerators were specifically instructed not to record non-working categories of activity as secondary work under question 17.

*Population Record*—The Population Record was a simple schedule and its columns were to be filled in with reference to entries made in the Individual Slip. As such, it hardly calls for any detailed explanation.

*Preservation of Census Records*—Special arrangements were made both at Jammu and Srinagar for proper upkeep of records pertaining to various

phases of current Census Operations. Flaps of card board and Canvas were got prepared to contain this record without the necessity of folding it. On the back of each flap, an index was pasted showing the name of the tehsil, code number and population of each village which considerably helped the task of handling this record for editing, coding and punching. Steel trunks were provided to district and tehsil offices for proper preservation of records lying there.

*Unique Features of 1971 Census*—Following are some of the distinguishing features of the 1971 Census—

*Block Maps*—Notional maps of the census blocks were got prepared by the enumerators indicating the demarcations and boundaries of the blocks, their physical features and the location of houses, streets, roads, dispensaries, schools, offices, water-mills, temples, mosques, graveyards etc., etc. These maps served as a permanent guide for houselisting, carving out of enumeration blocks and for general enumeration operations. The maps also enabled the enumerators to make sure that no house was left out of enumeration or enumerated more than once.

*Migrational Particulars*—Detailed migrational particulars with reference to the place of last residence were collected for the first time in 1971 Census. This data is expected to yield valuable and realistic statistics on internal migration.

*Economic Questions*—In the field of economic questions, a significant departure was made at the 1971 Census. In the earlier Indian censuses, income or economic independence was made criterion for the economy of the country. At the 1931 Census, an intermediate category of economic semi-dependence was introduced and it was called 'working dependent'. In 1941, this category was known as partly dependent and earning dependent in 1951. At the 1961 Census, stress was laid on work so that all the persons who work including family workers who are not in receipt of any income and/or who cannot earn enough for their maintenance could also be categorised as workers. At the 1971 Census, the main activity of a person was ascertained according as he spent his time basically as a 'worker' producing goods and servicing or as a 'non-worker'. Further, for regular work in trade, profession, service or business the reference period was one week prior to the enumeration, (a fort-night in 1961) and for seasonal work, such as, cultivation etc., the last one year.

*Secondary Work*—A separate question on secondary work was introduced for the first time in the Individual Slip at the 1971 Census. This was done in order to net all those non-workers who inspite of their being basically non-workers, do make some marginal contribution to work also.

*Manual Sorting and Electronic Data Processing*—At the 1971 Census, for the first time in the census history, considerable part of the data was processed on electronic computor. This does not mean that the manual sorting was altogether dispensed with. The provision of Primary Census Abstract for every village and block of a town, the processing of schedules was done manually. In the case of major States, the data pertaining to 20% of urban individual slips was transferred on to punch cards and thence on to magnetic tape and all the cross-tabulations for the urban data was generated by processing this data on an electronic computor. The cross-tabulation of the rural data was done on 10% sample derived from the individual slips and processed manually. An exception was, however, made in the case of some States including Jammu and Kashmir where because of small size of population, sampling was not done and data was processed on a 100% basis both for rural and urban slips. While the slips for rural areas were processed manually for all the 31 sorter's tickets, the urban slips after the preparation of Primary census Abstract were coded for all the questions for transferring the data on to punch cards and thereafter tables were generated on computer.

*Industrial and Occupational Classification*—Prior to 1961 Census, the data relating to population was tabulated by eight livelihood classes and by their sub-divisions, namely, self-supporting persons, earning dependents and non-earning dependents. The Indian Economic Classification used for tabulation purposes in the earlier censuses was defective inasmuch as it was neither a purely industrial nor occupational classification of the population, but a combination of both. This anomaly was eliminated in 1961 by adopting the classifications as given in National Classification of Occupation and Indian Standard Industrial Classification. At the 1971 Census also, improved versions of Industrial and Occupational Classifications were adopted for cross-tabulations of the economic data.

*Special Fertility Tables*—Another significant innovation of the 1971 Census was the compilation of 'F-Series Tables' (Fertility Tables). In this series, five tables were prepared on the basis of the information collected through question 6 of the individual slips.

*Standard Urban Area*—A new concept that has been developed for the 1971 Census for the tabulation of certain urban data, was the Standard Urban Areas. This replaces the concept of Town Group that was in vogue at the 1961 Census. Since the data for such town groups became incomparable from census to census as the boundaries of towns themselves changed and the intermediate areas were left out of account, this concept came for severe criticism and was eventually replaced by the concept of Standard Urban Area at the 1971 Census. It was rightly felt that data for Standard Urban Areas would depict much more meaningful picture to study urbanisation around large urban nuclei. In addition, data for Urban Agglomerations was also compiled and presented in various tables devised for 1971 Census.

# APPENDICES

## APPENDIX–1

### *The Census Act 1948 (Act No. XXXVII of 1948)*

An Act to provide for certain matters in connection with the taking of Census.

WHEREAS it is expedient to provide for the taking of census in India or any part thereof whenever necessary or desirable and to provide for certain matters in connection with the taking of such census;

It is hereby enacted as follows—

1. *Short title and extent*—(*i*) This act may be called the Census Act, 1948

(*ii*) It extends to the whole of India.

2. *Rule of construction respecting enactments not extending to J & K*—Any reference to the Indian Penal Code or the Indian Evidence Act, 1872, shall in relation to Jammu and Kashmir, be construed as a reference to the corresponding enactment in force in that State.

3. *Central Government to take census.*—The Central Government may by notification in the Official Gazette, declare its intention of taking a census in the whole or any part of the territories to which this act extends whenever it may consider it necessary or desirable so to do, and thereupon the census shall be taken.

4. *Appointment of Census staff*—(*i*) The Central Government may, appoint a Census Commissioner to supervise the taking of the census throughout the area in which the census is intended to be taken and Superintendents of Census Operations to supervise the taking of the census within the several states.

(*ii*) The State Government may appoint persons as census officers to take, or aid in, or supervise the taking of the census within any specified local area and such persons, when so appointed, shall be bound to serve accordingly.

(*iii*) A declaration in writing signed by any authority authorised by the State Government in this behalf, that any person has been duly appointed a census officer for any local area shall be conclusive proof of such appointment.

(*iv*) That State Government may delegate to such authority as it thinks fit the power of appointing census officers conferred by sub-section (2).

5. *Status of Census authorities as Public servants*—The Census Commissioner, all Superintendents of Census Operations and all census officers shall be deemed to be public servants within the meaning of the Indian Penal Code.

6. *Discharge of duties of Census officers in certain cases*—(1) Where the District Magistrate, or such authority as the State Government may appoint in this behalf, by a written order so directs—

(*a*) Every officer in command of any body of men belonging to the naval, military or air forces, or of any vessal of war of India.

(*b*) Every person (except a pilot or harbour master) having charge or control of a vessel.

(*c*) Every person in charge of a lunatic asylum, hospital, workhouse, prison reformatory or lockup or of any public charitable, religious or educational institution.

(*d*) Every keeper secretary or manager of any sarai, hotel, boarding house, lodging-house, emigration depot or club.

(*e*) Every manager or officer of a railway or any commercial or industrial establishment; and

(*f*) Every occupant of immovable property wherein at the time of the taking of the census, persons are living.

shall perform such of the duties of a census officer in relation to the persons who at the time of the taking of the census are under his command or charge, or are inmates of his house, or are present on or in such immovable property or are employed under him as may be specified in the order.

*45 of 1860* (2)— All the provisions of this Act relating to census officers shall apply so far as may be to all persons while performing such duties under this section and any person refusing or neglecting to perform any duty which under this section he is directed to perform shall be deemed to have committed an offence under section 187 of the Indian Penal Code.

7. *Power to call upon certain persons to give assistance*—The District Magistrate, or such authority as the state Government may appoint in this behalf for any local area, may by a written order which shall have effect throughout the extent of his district or of such local area, as the case may be, call upon.

(*a*) all owners and occupiers of land tenure-holders, and farmers and assignees of land revenue of their agents.

(*b*) all members of the district municipal panchayat and other local authorities, and officers and servants of such authorities, and

(*c*) All officers and members of staff of any factory, firm or establishment,

to give such assistance as shall be specified in the order towards the taking of a census of the persons who are, at the time of the taking of the census, on the lands of such owners, occupiers tenure-holders, farmers and assignees, or in the premises of factories, farms and other establishments or within the areas for which such local authorities are established, as the case may be and the persons to whom an order under this section is directed shall be bound to obey it and shall, while acting in pursuance of such order, be deemed to be public servants within the meaning of the Indian Penal Code.

8. *Asking of Questions and obligation to answer*—(1) A census officer may ask all such questions of all persons within the limits of the local area for which he is appointed as, by instructions issued in this behalf by the State Government and published in the Official Gazette, he may be directed to ask.

(2) Every person of whom any question is asked under sub-section (1) shall be legally bound to answer such question to the best of his knowledge or belief:

Provided that no person shall be bound to state the name of any female member of his household, and no women shall be bound to state the name of her husband or deceased husband or of any other person whose name she is forbidden by custom to mention.

9. *Occupier to permit access and affixing of numbers*—Every person occupying any house, enclosure, vessel or other place shall allow census officers such access thereto as they may require for the purposes of the census and as, having regard to the customs of the country may be reasonable, and shall allow them to paint on, or affix to, the place such letters, marks or numbers as may be necessary for the purposes of the census.

10. *Occupier or manager to fill up schedule*—(1) Subject to such orders as the State Government may issue in this behalf, a census officer may, within the local area for which he is appointed, leave or cause to be left a schedule at any dwelling-house or with the manager or any officer of any commercial or industrial establishment, for the purpose of its being filled up by the occupier of such house or of any specified part thereof or by such manager or officer with such particulars as the state Government may direct regarding the inmates of such house or part thereof, or the persons employed under such manager or officer, as the case may be at the time of the taking of the census.

(2) When such schedule has been so left, the said occupier, manager or officer, as the case may be shall fill it up or cause it to be filled upto the best of his knowledge or belief so far as regards the inmates of such house or part thereof or the persons employed under him, as the case may be, at the time aforesaid and shall sign his name thereto and, when so required, shall deliver the schedule so filled up and signed to the census officer to such person as the census officer may direct.

11. *Penalties*—(1) (*a*) Any census officer or any persons lawfully required to give assistance towards the taking of a census who refuses or neglects to use reasonable diligence in performing any duty imposed upon him or in obeying any order issued to him in accordance with this Act or any rule made thereunder, or any person who hinders or obstructs another person in performing any such duty or in obeying any such order, or

(*b*) Any census officer who intentionally puts any offensive or improper question or knowingly makes any false return or, without the previous sanction of the Central Government or the State Government, discloses any information which he has received by means of or for the purposes of a census return, or

(*c*) Any sorter, compiler or other member of the census staff who removes secrets, damages or destroys any census documents or deals with any census documents in a manner likely to falsify or impair the tabulation of census results, or

(*d*) Any person who intentionally gives a false answer to, or refuses to answer to the best of his knowledge or belief, any question asked of him by a census officer which he is legally bound by section 8 to answer, or

(*e*) Any person occupying any house, enclosure, vessel or other places who refuses to allow a census officer such reasonable access thereto as he is required by section 9 to allow, or

(*f*) Any person who removes, obliterates, alters or damages any letters, marks or numbers which have been painted or affixed for the purposes of the census, or

(*g*) Any person who, having been required under section 10 to fill up a schedule, knowingly and without sufficient cause fails to comply with the provisions of that section or makes any false return thereunder, or

(*h*) Any person who trespasses into a census office, shall be punishable with fine which may extend to one thousand rupees and in case of a conviction under part (*b*) shall also be punishable with imprisonment which may extend to 6 months,

(2) Whoever abets any offence under sub-section (1) shall be punishable with fine which may extend to one thousand rupees.

12. *Sanction required for prosecutions*—No prosecution under this act shall be instituted except with the previous sanction of the State Government or of an authority authorised in this behalf by the State Government.

13. *Operation of other laws not barred*—Nothing in this Act shall be deemed to prevent any person from being prosecuted under any other law for any act or omission which constitutes an offence under this Act. Provided that no such prosecution shall be instituted except with the previous sanction referred to in Section 12.

14. *Jurisdiction*—No court inferior to that of a Presidency Magistrate or a Magistrate of the second class or in a Part B State, a Magistrate corresponding to a Magistrate of the second class shall try, whether under this Act or under any other law, any act or omission which constitutes an offence under this Act.

15. *Records of census not open to inspection nor admissible in evidence*—No person shall have a right to inspect any book, register or record made by a census officer in the discharge of his duty as such, or any schedule delivered under section 10 and notwithstanding anything to the contrary in the Indian Evidence Act, 1872 no entry in any such book, register, record of schedule shall be admissible as evidence in any civil proceeding whatsoever or in any criminal proceeding other than prosecution under this Act or any other law for any act or omission which constitutes an offence under this Act.

16. *Temporary suspension of other laws as to mode of taking census in municipalities*—Notwithstanding anything in any enactment or rule with respect to the mode in which a census is to be taken in any municipality, the municipal authority in consultation with the Superintendent of Census Operations or with such other authority as the State Government may authorise in this behalf, at the time appointed for the taking of any census cause the census of the municipality to be taken wholly or in part by any method authorised by or under this Act.

17. *Grant of Statistical abstract*—The Census Commissioner or any Superintendent of Census Operations or such person as the State Government may authorise in this behalf may, if he so thinks fit, at the request and cost (to be determined by him) of any Local authority or person cause abstracts to be prepared and supplied containing any such statistical information as can be derived from the census returns for India or any State as the case may be being information which is not contained in any published report and which in his opinion it is reasonable for that authority or person to require.

18. *Power to make rule*—(1) The Central Government may make rules for carrying out the purposes of this Act.

(2) In particular power and without prejudice to the generality of the foregoing the Central Government may make rules providing for the appointment of census officers and of persons to perform any of the duties of census officers or to give assistance towards the taking of a census, and for the general instructions to be issued to such officers and persons.

## TABLE A—I

## AREA, HOUSES AND POPULATION

## AREA, HOUSES AND POPULATION

(Fly-leaf to Table A-I)

1. *Brief account of changes in area of the State*—The total area of the State as adopted provisionally at the present Census is 222,236*† sq. kms. These figures have been supplied by the Surveyor General of India and include the areas currently under the illegal occupation of China and Pakistan. At the last census, the area of the State was computed at 138,992.1 sq. kms. which represented the territory on this side of Cease-fire Line. A reference to the table given below will show how the area figures of the State have varied from census to census:—

| Year | Area in Km² |
|---|---|
| 1901 | 209,531·00 |
| 1911 | 218,678·88 |
| 1921 | 218,228·22 |
| 1931 | 218,779·89 |
| 1941 | 218,779·89 |
| 1951‡ | N.A. |

During the past decade, all the districts of the State except Ladakh and Kathua underwent a number of jurisdictional changes. The significant change effected was the formation of a new district namely Rajauri in Jammu Region which was carved out by detaching tehsils Rajauri and Nowshehra from Punch district. As many as 12 new tehsils also came into existence during the decade 1961-71. The sub-joined statement gives the provisional geographical area of each district as worked out by Surveyor General of India.

| State/District | Geographical area in sq. kms. (Provisional) |
|---|---|
| Jammu and Kashmir State | 222,236*† |
| Anantnag | 5,382 |
| Srinagar | 3,013 |
| Baramula | 7,458 |
| Ladakh | 95,876† |
| Doda | 11,691 |
| Udhampur | 4,549 |
| Jammu | 3,165 |
| Kathua | 2,651 |
| Rajauri | 2,681 |
| Punch | 1,658 |

2. *Full account of changes in jurisdictions in the State*—The jurisdictional changes effected during the inter-census period 1961-71 have resulted in the realignment of the jurisdiction of seven districts, namely, Anantnag, Srinagar, Baramula, Doda, Udhampur, Jammu and Punch. As a result of these transfers, a new district, namely, Rajauri was constituted and 12 new tehsils, 9 in Kashmir Province and 3 in Jammu Region were also carved out. A brief account of the changes effected is given below:—

*Anantnag District*—The boundaries of this district have been reduced as a result of transfer of 15 villages from one of its tehsils, Pulwama, to the newly constituted tehsil of Chadura of Srinagar district.

*Srinagar District*—The limits of Srinagar district have been extended with the merger in this district of 15 villages of Pulwama tehsil (Anantnag district) and 7 villages of Baramula tehsil (Baramula district).

*Baramula District*—The district has suffered a net loss of 7 villages during the decade 1961-71. These villages which previously belonged to Baramula tehsil have now been added to Beerwah tehsil of Srinagar district.

*Doda District*—The district has also lost territorially. A batch of 10 villages has been transferred from Ramban tehsil and included in the newly formed tehsil of Gool Gulab Garh of Udhampur district.

*Udhampur District*—While the district has gained 10 villages from Doda district, it has also lost 14 villages of Reasi tehsil which have been transferred to Jammu tehsil of Jammu district.

*Jammu District*—The limits of Jammu district have been enlarged by addition to its jurisdiction of 14 villages of Reasi tehsil of Udhampur district.

*Punch District*—Of all the districts, Punch has suffered most as a result of jurisdictional changes effected in the inter-census period. As many as 391 villages (tehsil Rajauri 260 and tehsil Nowshehra 131 and 2 towns) were detached from it and added to the newly constituted district of Rajauri.

*Includes 78,932 sq. kms. under the illegal occupation of Pakistan and 5,180 sq. kms. illegally handed over by Pakistan to China.

†Also includes 37,555 sq. kms. under illegal occupation of China.

‡No Census was conducted in 1951 due to unsettled conditions.

A statement showing the Gazette Notifications under which these changes were effected is given below :—

**Jurisdictional changes in districts during 1961-1971**

| Name of District | Territorial changes during 1961-1971 | | Government Notification |
|---|---|---|---|
| | Deductions | Additions | |
| 1 | 2 | 3 | 4 |
| Anantnag | 15 villages of Pulwama tehsil transferred to Srinagar district. | .... | Vide Government order No. SRO 351 dated 12th October, 1964. |
| Srinagar . | .... | (*i*) 15 villages of Pulwama tehsil of district Anantnag. | —do— |
| | | (*ii*) 7 villages of Baramula tehsil of Baramula district. | vide Government orde No. SRO 350 dated 12th October, 1964. |
| Baramula . | 7 villages of Baramula tehsil transferred to Srinagar District. | .... | —do— |
| Doda | 10 villages of Ramban tehsil transferred to Udhampur district. | .... | †Vide Government order No. SRO 281 dated 5th July, 1966. |
| Udhampur | *14 villages of Reasi tehsil transferred to Jammu district. | †10 villages of Ramban tehsil of Doda district. | —do— *vide Government order No. SRO 12 dated 8th January, 1969. |
| Jammu . | .... | 14 villages of Reasi tehsil of Udhampur district. | —do— |
| Rajauri . | .... | Rajauri district newly constituted with:— (*i*) 260 villages and one town of Rajauri tehsil of Puch district. (*ii*) 131 villages and one town of Nowshehra tehsil of Punch district. | Vide Government order No. SRO 137-C of 1967 dated 30th September, 1967. |
| Punch . | 260 villages and one town of Rajauri tehsil and 131 villages and one town of Nowshehra tehsil transferred to newly constituted district of Rajauri. | .... | —do— |

3. *Rural and Urban Population*—The definition of 'urban' as adopted at the 1971 Census is as follows :—

(*a*) All places with a Municipality, Corporation or Cantonment or Notified town area ;

(*b*) All other places which satisfied the following criteria :—

(*i*) a minimum population of 5,000 ;

(*ii*) at least 75 percent of male working population is non-agriculturists, and

(*iii*) a density of population of 400 per sq km. (*i.e 1,000 per sq. mile*)

The Director of Census of a State or Union Territory was, however, given some discretion in respect of some marginal cases, in consultation with the State Government concerned, to include a place that had either distinct urban characteristics or to exclude an undeserving place from being treated as urban.

The definition of an urban area from census to census provides an interesting study. These are reproduced below:—

*Census 1901*—No definition was given in the report but Municipalities, Suburbs, Cantonments and Civil lines were treated as urban.

*Census 1911*—All areas including those possessing urban characteristics and certain areas possessing historical and administrative importance were taken as towns.

*Census 1921*—A town was defined as :—

(*i*) any town whose population in 1921 was not less than 2,000; and

(*ii*) any Qasba of some historical or administrative importance even its population was below 2,000.

*Census 1931*—For census purposes, a town was defined as any area whose population in 1931 was not less than 2,000 provided it was important as a trade market and subject further to the condition that educational, sanitary and other amenities existed.

*Census 1941*—The definition of 1931 was adopted.

*Census 1951*—No census was held in Jammu and Kashmir State.

*Census 1961*—The following 3 tests were applied to the census figures of 1951 before any area was classed as urban:—

(*i*) having population over 5,000;

(*ii*) having at least three-fourth working population dependent on non-agricultural pursuits; and

(*iii*) having a density of 1,000 persons per sq. mile.

In addition, all Corporations, Municipalities and Cantonment Boards irrespective of their population or other characteristics were treated as towns. The limit of 5,000 population was also relaxed where any area possessed definite urban characteristics and amenities.

The sub-joined statement gives the population of 1961 and 1971 for urban areas of classes IV, V and VI of 1961 which have been declassified in 1971:—

*Urban Areas of classes IV, V & VI of 1961 eleminated in 1971 with population of 1961 and 1971.*

| Class | District | Town | Population 1961 | Population 1971 |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| IV | .. | .. | .. | .. |
| V | .. | .. | .. | .. |
| VI | Srinagar | Natipora-Haiderpora | 3,231 | *7,047 |
| VI | Baramula | Sumbal | 2,755 | 3,941 |
| VI | Baramula | Hajin | 3,701 | 4,915 |
| VI | Baramula | Palhalan | 3,762 | 5,353 |
| VI | Baramula | Ajas | 3,584 | 4,751 |

The following new urban areas have been listed in 1971 Census :—

*New urban areas of classes IV, V and VI listed with their names and population in 1971 :—*

| Class | District | Town | Population 1971 |
|---|---|---|---|
| 1 | 2 | 3 | 4 |
| IV | .. | .. | .. |
| V | Anantnag | Tral | 6,465 |
| V | Baramula | Handwara | 5,025 |
| VI | Anantnag | Mattan | 4,771 |
| VI | Anantnag | Kukernag | 1,723 |
| VI | Ladakh | Kargil | 2,390 |
| VI | Udhampur | Chenani | 1,343 |
| VI | Punch | Surankote | 1,822 |

*4. Progress in the number of towns during 1901-1971*—The following statement gives in tabular form the number of towns in the State between 1901 and 1971. The statement does not take into account the towns which though falling in these districts before 1947 are now on the other side of Cease-fire Line.

| State/District | Progress in the number of towns 1901-1971 :— 1971 | 1961 | 1951 | 1941 | 1931 | 1921 | 1911 | 1901 |
|---|---|---|---|---|---|---|---|---|
| Jammu and Kashmir State | 45 | 43 | .. | 32 | 31 | 29 | 45 | 2 |
| Anantnag District | 9 | 6 | .. | 7 | 7 | 6 | 8 | .. |
| Srinagar District | 2 | 3 | .. | 3 | 3 | 3 | 4 | 1 |
| Baramula District | 6 | 9 | .. | 4 | 4 | 3 | 8 | .. |
| Ladakh District | 2 | 1 | .. | 1 | 1 | 1 | 2 | .. |
| Doda District | 6 | 6 | .. | 2 | 2 | 2 | 4 | .. |
| Udhampur District | 5 | 4 | .. | 4 | 4 | 3 | 6 | .. |
| Jammu District | 7 | 7 | .. | 5 | 5 | 6 | 6 | 1 |
| Kathua District | 4 | 4 | .. | 3 | 3 | 3 | 4 | .. |
| Rajauri District | 2 | 2 | .. | 2 | 1 | 1 | 2 | .. |
| Punch District | 2 | 1 | .. | 1 | 1 | 1 | 1 | .. |

NOTE :—No census was taken in the State in 1951 due to unsettled conditions prevailing then.

*Denotes total population of village Barazala and part villages of Haiderpora, Bagat Barzala and Kursu Padshahi Bagh which were constituents of Natipora-Haiderpora Notified Area in 1961.

The above statement reveals a large increase in the number of towns between 1901 and 1911. The main reason for this large increase is due to the fact that all areas possessing urban characteristics or historical and administrative characteristics irrespective of their population were treated as towns in 1911. The fall of 16 in the number of towns in 1921 may be attributed to the adoption of a slightly modified definition of Urban Area at that census where-by the minimum population standard for treating a place as town was fixed at 2,000. The subsequent two decades of 1931 and 1941 do not disclose any substantial change in the number of towns. The increase of 11 and 2 towns in 1961 and 1971 respectively apparently points to the faster pace of urbanisation which hitherto was a slow process in the State.

*5. Definition of village and brief historical survey*—Broadly speaking, census village is ordinarily the same thing as a revenue mauza, but in some cases differs therefrom. It may contain one or many groups of houses or hamlets or on the other hand contain no houses at all. Following is a brief account of how the 'village' has been defined in earlier censuses :—

**Definition of Village 1901—1971**

| 1901 | 1911 | 1921 | 1931 | 1941 | 1951 | 1961 | 1971 |
|---|---|---|---|---|---|---|---|
| No definition of Village is given. However, it appears that areas where residential houses were clustered together or if sparsely located were separated from other similar areas by natural barriers such as hillock, a rivulet, a Khul and the like were teated as Villages. | In the settled areas, the revenue units, in the unsettled areas, the residential village was taken as a Census Village. | The smallest unit of administration separately assessed to land revenue was treated as a Census Village. | A well organised unit having been surveyed and with well defined boundaries was taken as a Census Village. | The definition of 1931 was adopted. | No census was held in 1951 due to disturbed conditions prevailing then. | Every village with well defined boundaries for revenue assessment having residential houses densely or sparsely populated was treated as a Village irrespective of the number of hamlets of which it was constituted. | The definition of 1961 was adopted. |

*6. Number of Inhabited Villages 1901—1971*:—The following statement gives the number of inhabited villages from 1901-1971 according to jurisdictions obtaining in each decade:—

**Number of Inhabited Villages 1901—1971**

| State/District | *1971 | 1961 | 1951 | 1941 | 1931 | 1921 | 1911 | 1901 |
|---|---|---|---|---|---|---|---|---|
| Jammu & Kashmir State | 6,503 | 6,559 | .. | 7,049 | 7,085 | 7,086 | 7,052 | 6,836 |

| Punch District | 158 | 547 | .. | 1,131 | 1,130 | 1,139 | 1,138 | 491 |

NOTE :—(1) As the districts of Srinagar and Doda were created after 1941 and Rajauri after 1961, the number of inhabited villages of these districts has been shown against 1961 and 1971 only.

(2) No Census was conducted in 1951.

(3)* Excludes 7 inhabited villages (Srinagar district 4 and Jammu district 3) which form the part of Urban Agglomeration of Srinagar and Jammu respectively.

*7. Explanation of variation in the number of inhabited villages 1901-1971*—The above statement discloses sharp fluctuations in the number of inhabited villages from decade to decade. The total number of inhabited villages which stood at 6,836 in 1901 rose to 7,052 in 1911 and 7,086 in 1921. There was practically no change in the total number of inhabited villages in 1931 but this number was reduced by 36 in the next census held in 1941.

Between 1941 and 1961, the number of inhabited villages further went down by 490. 56 more villages were removed from the list of inhabited villages during the decade 1961-71.

There are a variety of reasons responsible for these fluctuations. These are listed as under:—

1. large scale jurisdictional changes caused by the splitting up of State in 1947,
2. Conversion of inhabited villages into uninhabited and vice versa,
3. Inclusion of villages in new and expanding towns,
4. Declassification of towns at each census,
5. Formation of new villages as a result of settlement operations,
6. Complete evacuation of a number of villages in the vicinity of border areas after 1965 confrontation with Pakistan,
7. Changes in district boundaries from decade to decade as a result of jurisdictional changes, and
8. Treating boat and forest blocks as census villages even when they are not revenue villages.

*8. Number of villages and towns in 1971*—The following statement gives the total number of villages, inhabited as well as uninhabited borne on the jurisdiction list and the number of towns in the State and in each of its 10 districts. The number of villages which are either fully or partly included in the towns are shown separately in columns 4 and 5 of the statement :—

*Statement of villages and towns in the State, 1971* :—

| State/District | £Total No. of villages borne in the 1971 jurisdiction | No .of uninhabited villages | No. of villages included in towns | | £ No.of inhabited Villages | No. of Towns |
|---|---|---|---|---|---|---|
| | | | Partly | Fully | | |
| (1) | (2) | (3) | (4) | (5) | (6) | (7) |

Note—1. *The figures are inclusive of mohallas :—

2. £ Excludes 7 inhabited villages (Srinagar district 4 and Jammu district 3) which form the part of the Urban Agglomerations of Srinagar and Jammu respectively.

According to above statement, there were all told 6,742 villages in 1971 of which 6,503 were inhabited and 239 uninhabited. The number of whole and part villages included in the towns stood at 836 and 49 respectively.

The corresponding figure in 1961 was 6,726 comprising of 6,559 inhabited and 167 un-inhabited villages. The total number of towns stood at 43 in 1961 and the number of villages partly included in the towns was 19.

*9. Villages partly included in towns*—The following statement gives the names of villages partly included in the towns:—

| District | Town | Villages partly included |
|---|---|---|
| Anantnag | Mattan | 1. Machhabhawan |
| | Kukernag | 1. Bidder Hayatpora 2. Bindoo Zalangam |
| | Bijbehara | 1. Zeerapora |
| | Kulgam | 1. Tamiloo |
| | Shupiyan | 1. Gagran 2. Kani Pora |
| | Pampore | 1. Nambalbal 2. Kadalbal 3. Drangbal |
| Srinagar | Srinagar Municipality | 1, Bachpora 2. Wonta Bhawan (Ganderbal Tehsil) 3. Kursu Padshahi Bagh (Chadura Tehsil) 4. Pandrathan 5. Anchar 6. Parim Pora (Srinagar Tehsil) 7. Bemina (Badgam Tehsil) |
| Baramula | Sopore | 1. Amar Gund 2. Dhar Nambal 3. Saidpora 4. Adipora |
| | Handwara | 1. Chotipora 2. Kulangam |
| Doda | Kishtwar | 1. Kishtwar |
| | Doda | 1. Doda 2. Barshala |
| | Banihal | 1. Deogoal 2. Gund Adalkote |
| | Batote | 1. Tringla 2. Dharmond |
| | Ramban | 1. Metragovind Pora 2. Seri |
| Udhampur | Chenani | 1. Batna 2. Mada |
| Jammu | Samba | 1. Arazi Samba 2. Chak Manga Rakwal 3. Mandikotli 4. Mandi Gurgloian |
| Jammu | Jammu Cantonment | 1. Narwal Pain |
| Kathua | Kathua | 1. Taraf Tajwal 2. Taraf Manjili 3. Taraf Bajwal |
| Rajauri | Rajauri | 1. Pothey Rahdey 2. Thudi 3. Talwal 4. Pathan Mohra 5. Baidka 6. Phaliane |
| Punch | Surankote | 1. Samote |

The above statement indicates that Srinagar Municipality (Srinagar district), Rajauri Town (Rajauri district) and Samba Town (Jammu district) account for the maximum number of part villages included in urban areas. Their number stands at 7;6 and 4 respectively. Of the new towns added in 1971, Kukernag comprised of 2 part of the villages, namely, Bidder Hayatpora and Bindoo Zalangam. Mattan is built up from one part village of Machhabhawan. Villages Chotipora and Kulangam have been partly added to the newly set up Notified Area of Handwara which also includes within its limits another 8 whole villages. The town of Chenani has within its limits one whole village of Chenani and two part villages, namely, Batna and Mada. Surankote, another new town is constituted of one part village of Samote.

Columns 8 and 9 of the table A-I relate to number of occupied residential houses and number of households. Before figures of these two columns are analysed, it is desirable to briefly discuss here these concepts.

*10. Definition of a Census House*—A 'Census House' is a building or part of a building having a separate main entrance from the road or common court-yard or staircase etc. used or recognised as a separate unit. It may be inhabited or vacant. It may be used for a residential or non-residential purpose or both.

*11. Occupied Residential House*—An occupied residential house has been defined as that part of a building which is used for residential purposes by one or more households.

*12. Definition of a Household*—A household signifies the entire group of persons, who commonly live together in the same census house and take their meals from a common mess unless the exigencies of work prevent them from doing so. A household can either be one person household or may be a multi-person household.

*13. Statement of density per sq. km., occupied Census house, number of females per 1,000 males. Percentage of Rural and Urban Population to Total*

*population of 1971*—The following statement shows for the State and for each district the number of persons per occupied census house, number of females per 1,000 males, the percentage of rural and urban population to total population and lastly density per sq. km. Similar data is also given for Urban Agglomerations, two cities of Srinagar and Jammu and such of the tehsils where special peculiarities are noticeable.

*Statement of Density per sq. km. Occupied Census House, Number of Females per 1,000 Males and Percentage of Rural and Urban Population to Total Population.*

| Sl. No. | State/District/ Tehsil/Town | Persons per occupied census house | | | No. of females per 1,000 males | | | Percentage of Rural & Urban Population to Total population | | | Density per sq. km. | | |

| 19 | Leh Tehsil | 4·4 | 4·3 | 4·7 | 1,002 | 1,011 | 926 | 100·00 | 89·36 | 10·64 | 137 | 125 | 603 |
| 20 | Kishtwar Tehsil | 6·4 | 6·4 | 7·0 | 883 | 880 | 948 | 100·00 | 94·61 | 5·39 | 60 | 56 | 8,375 |
| 21 | Udhampur Tehsil | 5·4 | 5·5 | 4·9 | 894 | 899 | 862 | 100·00 | 85·40 | 14·60 | 112 | 96 | 8,694 |
| 22 | Jammu Tehsil | 6·2 | 5·7 | 6·7 | 885 | 916 | 853 | 100·00 | 51·45 | 48·55 | 352 | 195 | 2,438 |
| 23 | Kathua Tehsil | 5·9 | 6·1 | 5·5 | 880 | 876 | 894 | 100·00 | 78·60 | 21·40 | 148 | 116 | 8,196 |

14. *Observation on the strength of variations in each of the four topics of statment 13*—The average number of persons per occupied census house in the State as a whole is 6·9 as against 6·7 for the rural and 8·0 for its urban areas. The corresponding averages in 1961 stood at 7·0; 6·0 and 7·0 respectively. The average for the districts rises to 8·5 for Srinagar district and falls down to 4·9 for Ladakh. Leaving aside the hilly districts which have widely different pattern because of the topographical and economic conditions, the other districts more or less present a uniform picture.

In urban areas, Srinagar City leads with 9.9 persons per occupied census house which is an indication of persistent congestion in this town.

*Sex Ratio*—An interesting feature of our sex ratio is its uneven distribution throughout the State. The sex ratio in Jammu and Kashmir has remained unchanged during the decade 1961—1971. As in 1961, it is again 878 females per 1,000 males in 1971. The sex ratio is highest in Ladakh district with 975 and lowest in Anantnag and Baramula districts where it stands at 848 in each case.

In rural areas of the State, Ladakh district leads again with 985 while district Srinagar comes last with 844. In the urban sector, Kathua district tops the list with 908 while Rajauri district comes last with 840.

*Percentage of Rural and Urban population*—About 19 percent of the total population live in 45 towns and a little over 81 percent in 6,503 villages of the State. The percentage of urbanisation is highest for Srinagar district (51·14) and lowest for Rajauri district (3·86). The extent of urbanisation is also satisfactory in the case of district Jammu (26·15). Other districts, more or less persist with their rural complexion.

*Density*—The density of population is highest in Srinagar district while it is lowest in the district of Doda where it varies from 275 to 29 respectively. Obviously, hilly districts have very low density because of difficult terrain, lack of irrigational facilities and the fact that very little land is available for cultivation. This is particularly true of districts Doda and Rajauri where the density of population stands at 29 and 81 respectively. The density in the case of Ladakh district which is also very low is, however, not available.

## AREA, HOUSES AND POPULATION
(Note on Table A-I)

Table A-I is presented in two parts. The first is the Union Table A-I giving statistics for the State, its two provinces and ten districts. The second part is the State Table A-I presenting figures for smaller units down to tehsils and towns. Both the tables furnish area in square kilometers, the density of population per sq. km., number of villages inhabited as well as uninhabited, number of towns, number of occupied residential houses, number of households and lastly the total population shown sex-wise according to the Census of 1971. The data has been presented for each territorial unit separately for Total, Rural and Urban.

This table is similar to its counter part in 1961 except for the fact that the town group has been replaced by 'Urban Agglomeration'.

## UNION TABLE A-I

NOTE—

(1) *Includes 78,932 Km² under illegal occupation of Pakistan and 5,180 Km² illegally handed over by Pakistan to China. Also includes 37,555 Km² under illegal occupation of China.

(2) †Represents provisional 'geographical area figures' supplied by the Surveyor General. Figures for Urban areas are those supplied by the Local Bodies. Area figures for Rural areas are derived by subtracting the Urban area from the Total area of the District.

(3) ‡ Includes 37,555 Km² under illegal occupation of China.

4. The density figures per Km² shown under Column 4 for Urban Area of State/Province/District are worked out using the area figures corrected upto two places of decimals obtained by adding the area of individual towns in the respective units and not using the area figures given in the table. For 'Total' and 'Rural' the density is worked out on area figures corrected upto one place of decimal.

(5) n.a.=not available

NOTE:—

(1) $£@ Includes 78,932 km² under illegal occupation of Pakistan and 5,180 Km² illegally handed over by Pakistan to China. Also includes 37,555 km² under illegal occupation of China.

(2) £ Represents provisional 'geographical area figures', supplied by the Surveyor General. Figures for Urban areas *are* those supplied by the Local Bodies. Area figures for Rural areas are derived by subtracting the Urban Area from the Total area of the District. The total of the area figures of the tehsils will not tally with the district figures because the former represent 'Land use' area and are derived from the figures supplied by the Revenue Department.

(3) @ Includes 37,555 km² under illegal occupation of China.

(4) †Consolidated figures of Srinagar Urban Agglomeration which spread over Srinagar, Chadura and Badgam tehsils are given at the end as an Appendix.

(5) Towns treated as such for the first time in 1961 Census bear an asterisk (*) mark.

(6) Towns treated as such for the first time in 1971 Census are printed in italics.

(7) The density figures per Km² shown under Col. 4 for Urban Area of State/Province/District/Tehsil are worked out using the area figures corrected upto two places of decimals obtained by adding the area of individual towns in the respective units and not using the area figures given in the table. For 'Total' and 'Rural' the density is worked out on area figures corrected upto one place of decimal.

(8) The following abbreviations have been used for the status of a town, e.g.

(i) M.C.—Municipal Committee.
(ii) T.A.—Town Area.
(iii) N.A.—Notified Area.
(iv) Cantt.—Cantonment.
(v) U.A.—Urban Agglomeration

(9) n.a.—not available.

# A-I AREA, HOUSES AND POPULATION

## (Figures for Urban Agglomeration)

### APPENDIX

## AREA, HOUSES AND POPULATION

(Fly-leaf to Appendix I to Table A-I)

Briefly stated, the 1961 territorial units of Jammu and Kashmir State comprised 9 districts and 32 tehsils. As a result of inter district/tehsil transfers, the number of districts and tehsils rose to 10 and 44 respectively. A new district of Rajauri with its headquarter at Rajauri town came into existence during the inter-census period 1961—1971 by detaching Rajauri and Nowshehra tehsils from the erstwhile Punch district. The names of the newly constituted tehsils are given below—

*Kashmir Province*

| | |
|---|---|
| 1. Shupiyan<br>2. Tral<br>3. Pahalgam | Anantnag District |
| 4. Chadura<br>5. Beerwah | Srinagar District |
| 6. Gulmarg<br>7. Kupwara<br>8. Bandipore | Baramula District |
| 9. Zanskar | Ladkh District |

*Jammu Province*

| | |
|---|---|
| 1. Gool Gulab Garh | Udhampur District |
| 2. Billawar | Kathua District |
| 3. Budhal | Rajauri District |

The appendix is supplemented with a statement showing the area for 1961 and 1971 for those towns which have undergone changes in area since 1961. The population of each of the transferred area according to 1961 and 1971 Censuses has also been shown.

## AREA, HOUSES AND POPULATION

### (Note on Appendix I to Table A-I)

This appendix shows 1961 territorial units constituting the present set up of Jammu and Kashmir State alongwith their area figures. The details of changes that have been effected in the jurisdictions of each district during 1961-71 have been listed in the appendix. The appendix also shows down to tehsil level details of gains or losses of territories since 1961.

1. *Represents 'Provisional area Figures' supplied by the Surveyor General.
2. Only those units which have undergone jurisdictional changes have been shown in this appendix.
3. N.A.—Not available.

# A–I—AREA, HOUSES AND POPULATION

## SUB-APPENDIX TO APPENDIX–I TO TABLE A–I

*List of towns which have undergone changes in jurisdiction since 1961 Census*

| Serial No. | Name of the Town | District/Tehsil | Area in Km² | | Population of the transferred territory | |
|---|---|---|---|---|---|---|
| | | | 1961 | 1971 | 1961 | 1971 |
| (1) | (2) | (3) | (4) | (5) | (6) | (7) |
| 1 | Srinagar (M.C.) | Srinagar/Srinagar | 41·44 | 82·88 | n.a. | n.a. |
| 2 | Bandipore (N.A.) | Baramula/Bandipore | 4·97 | 5·56 | 359 | 516 |
| 3 | Sopore (T.A.) | Baramula/Sopore | 1·42 | 15·03 | n.a. | n.a. |
| 4 | Samba (N.A.) | Jammu/Samba | 0·93 | 1·10 | n.a. | n.a. |
| 5 | Jammu (M.C.) | Jammu/Jammu | 10·36 | 50·50 | n.a. | n.a. |
| 6 | Jammu (Cantt.) | Jammu/Jammu | 10·10 | 10·11 | 10 | n.a. |

*Note—*

M.C.=Municipality.

N.A.=Notified Area.

T.A.=Town Area.

Cantt.=Cantonment.

n.a.—which stands for not available has been shown under columns 6 and 7 as most of the transferred villages have either been merged with urban areas partly or these villages constitute parts of different mohallas for which separate population figures are not available.

# AREA, HOUSES AND POPULATION

(Fly-leaf to Appendix–II to Table A–I)

One of the criteria laid down by the Registrar General, India for treating a place as urban is that it should have a population of 5,000 and above but the villages contained in the appendix did not apparently satisfy other tests prescibed. Leaving aside, two forest blocks in Doda district there were in all 7 villages viz.; Charri Sharief in district Srinagar, Palhalan, Pattan, Kalarooch and Qasba Hayihama in district Baramula, Pogal in district Doda and Chamb in district Jammu with a population of over 5,000. Of these, Charri Sharief, Kalarooch and Hayihama were also villages at the last Census and have continued to be classed as rural in 1971. Palhalan, was a notified area in 1961 but was subsequently denotified and transferred from urban to rural list.

With the urban definitional background in our mind, we may now examine the position in respect of towns. The data reveals that many places with less than 5,000 population have been treated as towns in 1971. The reasons are not far to seek. Leaving aside the two principal cities of Srinagar and Jammu and thirteen towns, namely, Anantnag, Bijbehara, Badamibagh cantonment, Baramula, Sopore, Leh, Bhaderwah, Udhampur, Jammu cantonment, Samba, Akhnoor, Kathua and Rajauri, no areas other than statutory/notified towns in Jammu and Kashmir were treated as towns because none could satisfy all the tests laid down in the standard definition of urban area evolved for the Census.

It will be noticed that there were as many as 20 urban units with a population under 5,000 in 1971. None of these towns satisfied all the tests prescribed for treating a place as urban except that they have acquired urban characteristics and are otherwise important due to historical or religious associations. Some of them have also come into prominence because they are either tehsil headquarters or places of tourist interest.

## AREA, HOUSES AND POPULATION

### (Note on Appendix II to Table A–I)

The appendix gives the number of villages with a population of 5,000 and over and towns with a population under 5,000 alongwith their population and percentage of total, rural and urban population of the State. The data is presented for the State, Province, District and Tehsil separately.

# A-I AREA, HOUSES AND POPULATION

## APPENDIX-II

*Number of villages with a population of 5,000 and over and towns with a population under 5,000 (Units of territory which have nothing to show for this statement have been excluded)*

## AREA, HOUSES AND POPULATION

### (Fly-leaf to Appendix III to Table A–I)

The term 'Houseless Population' relates to persons who live in the open and not in any dwelling houses. Persons such as beggars, vagrants, tramps, nomads, pavement dwellers, who had no roof to dwell under, were enumerated on the night of 30th September, 1970, in the case of snow-bound areas and during the night of 31st March and 1st April, 1971, in the accessible areas. Houseless persons were enumerated by the normal enumeration agency raised for the 1971 Census but in certain areas, special enumerators, were also appointed for this purpose. Any possible omission of the houseless was thus fully guarded against.

A comparison of houseless population enumerated at the 1971 Census with the last decade will be of interest. The following statement may be studied—

| State/District | Houseless Population | |
|---|---|---|
| | 1961 | 1971 |
| Jammu and Kashmir State . . | 27,733 | 14,688 |
| Anantnag District . . . | 1,487 | 436 |
| Srinagar District . . . | 111 | 1,454 |
| Baramula District . . , | 43 | 175 |
| Ladakh District . . . . | 3,819 | 99 |
| Doda District . . . . | 4,373 | 4,880 |
| Udhampur District . . . | 5,229 | 3,647 |
| Jammu District . . . . | 5,762 | 2,201 |
| Kathua District . . . . | 3,825 | 1,062 |
| Rajauri District . . . . | 2,734 | 671 |
| Punch District . . . . | 350 | 63 |

It will be seen that there has been a fall of 13,045 in the number of houseless persons during the decade 1961-71. The fall is noticeable in almost every district of the State except Srinagar, Baramula and Doda. The main reason accounting for this heavy fall in the number of houseless persons is the adoption of a slightly modified definition of 'Houseless' at the current Census. In 1961, persons living in tents and loosely packed houses were also categorised as houseless and this had resulted in inflating their number. Another cogent reason which can be advanced for this fall seems to be the postponement of Census Operations of 1971 Census by one month, as a result of which many labourers from the Anantnag district who are usually in transit during the enumeration period and as such are enumerated as houseless persons had already returned to their homes and were counted at their normal places of residence.

Institutional population means and includes the inhabitants of an institution such as hotel, boarding house, hostel, mess, hospital or any other penal, charitable or mental institution. The institutional population was covered in the normal course of enumeration both in the snow-bound and accessible areas of the State.

An institutional household was defined as a census household occupied by unrelated persons who live together and take their meals from a common kitchen unless the exigencies of work prevent any one of them from doing so. The enumerators were instructed to add the words 'Inst.' to the household number if the household happened to be an institutional household.

## AREA, HOUSES AND POPULATION

### (Note on Appendix III to Table A–I)

This Appendix gives figures for the number of Houseless and Institutional households and Houseless and Institutional Population separately enumerated at the 1971 Census. The data is presented for the State, Province, District, Tehsil and City (having population 100,000 and above) separately.

**TABLE A—II**

**DECADAL VARIATION IN POPULATION SINCE 1901**

## DECADAL VARIATION IN POPULATION SINCE 1901

*(Fly-leaf to Table A—II)*

*Adjustment of Population from 1901 to 1961*—As already stated in Fly-leaf to Table A-I, there are only two districts, namely, Ladakh and Kathua which have not undergone any outward jurisdictional changes since 1961. All the remaining seven districts of 1961 viz.: Anantnag, Srinagar, Baramula, Doda, Udhampur, Jammu and Punch have been effected because of the jurisdictional changes that have occurred during the decade. As a result of these transfers, a new district of Rajauri and 12 new tehsils, 9 in Kashmir Province and 3 in Jammu Province, came in existence during the inter-census period.

On account of the various changes in the jurisdiction of the districts and their tehsils during 1961—71, the population figures had to be worked out for the previous censuses to ensure comparability of population data. The figures of previous censuses given in Table A-II for the 1961 Census have been readjusted to their present boundaries on the basis of formula prescribed by the Registrar General's Office. For Ladakh and Kathua districts which have not undergone any change in jurisdiction since 1901, adjusted population figures of the back decades have been reproduced from Table A-II of Jammu and Kashmir State for the 1961 Census.

Following are the details of population changes on which the adjusted district figures calculated from decade to decade are based :—

### ANANTNAG DISTRICT

The 1961 population of Anantnag district which stood at 654,368 has been reduced by 5,248 persons as a result of transfer of 15 villages from one of its tehsils Pulwama to Chadura tehsil of Srinagar district during the decade 1961—71. The names of villages transferred along with population of each in 1961 is as under—

| Name of Village | 1961 Population |
|---|---|
| 1. Kultreh | 364 |
| 2. Behram Pora | 124 |
| 3. Brari-Gund | 241 |
| 4. Cheek Sardar Dessa Singh | 150 |
| 5. Wadi Pora | 487 |
| 6. Dharam Sala Singah | 323 |
| 7. Wampora Magam | 146 |
| 8. Hayat Pora | 975 |
| 9. Cheek Mahand Joo Dhar | 190 |
| 10. Kozweara | 237 |
| 11. Khando | 843 |
| 12. Sonzi Pora | 349 |
| 13. Gund Kozweara | (Uninhabited) |
| 14. Gawher Pora | 479 |
| 15. Qazi Pora | 340 |

The respective losses in population during the period of 40 years from 1901 to 1941 are as follows :—

| Year | Loss in Population |
|---|---|
| 1901 | —3,098 |
| 1911 | —3,443 |
| 1921 | —3,640 |
| 1931 | —3,991 |
| 1941 | —4,297 |

The adjusted population figures for the years 1901, 1911, 1921, 1931 and 1941 have accordingly been worked out on the basis of changes mentioned above.

### SRINAGAR DISTRICT

Srinagar district which came into existence for the first time in 1961 has gained both in jurisdiction and population due to inclusion in its limits of 15 villages of Pulwama tehsil of Anantnag district and 7 villages of Baramula tehsil of Baramula district. The population of these 22 villages in 1961 was 8,556 which when added to 1961 Census population of 640,411 makes the adjusted population of this district as 648,967 persons. In the same manner, the adjusted population figures for previous censuses in respect of this district have been worked out which stand at 503,125 in 1941; 441,211 in 1931; 384,865 in 1921; 352,814 in 1911 and 318,563 in 1901. The population figure of 576,046 in 1951 has been arrived at by taking the mean of 1961 and 1941 adjusted populations.

### BARAMULA DISTRICT

Baramula district has suffered a net loss in population of 3,308 persons in 1961; 2,841 in 1941; 2,492 in 1931; 2,236 in 1921; 2,022 in 1911 and 1,799 in 1901 as a result of transfer of 7 villages of Baramula tehsil to newly constituted tehsil of Beerwah of Srinagar district. The names of villages along with population of each of 1961 is given below—

| Name of Village | 1961 Population |
|---|---|
| 1. Magam | 1,530 |
| 2. Wata Magam | 325 |
| 3. Mani Hama | 69 |
| 4. Pala Pora | 336 |
| 5. Kanda Hama | 392 |
| 6. Bamurad | 415 |
| 7. Badran | 241 |

The adjusted and unadjusted population figures in case of Baramula district from 1961 to 1901 have been worked out accordingly and are as under—

| | 1961 (1) | 1941 (2) | 1931 (3) |
|---|---|---|---|
| Unadjusted Population . | 604,659 | 504,020 | 455,578 |
| Adjusted Population . | 601,351 | 501,179 | 453,086 |

| | 1921 (4) | 1911 (5) | 1901 (6) |
|---|---|---|---|
| Unadjusted Population . | 408,699 | 369,611 | 328,825 |
| Adjusted Population . | 406,463 | 367,589 | 327,026 |

## DODA DISTRICT

As a result of transfer of 10 villages with a population of 5,930 of Ramban tehsil to the newly constituted tehsil of Gool Gulab Garh of Udhampur district during the decade 1961—71, the adjusted population of the district in 1961 stood at 262,473. The corresponding figures for the five previous decades have also been worked out on the basis of these changes and are as follows—

| Year (1) | Unadjusted population (2) | Loss in population due to transfer of 10 villages (3) | Adjusted population according to present jurisdiction (4) |
|---|---|---|---|
| 1961 . | 151,570 | —3,349 | 148,221 |
| 1911 . | 163,840 | —3,620 | 160,220 |
| 1921 . | 165,262 | —3,651 | 161,611 |
| 1931 . | 187,864 | —4,151 | 183,713 |
| 1941 . | 201,630 | —4,350 | 197,280 |

## UDHAMPUR DISTRICT

The district has gained in population to some extent as a result of inclusion in its limits of 10 villages of Ramban tehsil of Doda district. At the same time, it has also suffered losses in territory and population due to transfer of 14 villages of Reasi tehsil to tehsil Jammu of Jammu district. The names of villages included to its limits and excluded from its jurisdictions alon g with 1961 population are given below—

| Name of Village (1) | 1961 Population (2) |
|---|---|
| *Gains—* | |
| 1. Chhachhwah . . . . . | 987 |
| 2. Sripura . . . . . | 379 |
| 3. Sangaldan . . . . . | 173 |
| 4. Thatharka . . . . . | 1,114 |
| 5. Mahan Kund . . . . . | 989 |
| 6. Dalwah . . . . . | 1,422 |
| 7. Bandan . . . . . | 173 |
| 8. Mawalkot . . . . . | 309 |
| 9. Famroot . . . . . | 242 |
| 10. Ashmar . . . . . | 146 |
| *Losses—* | |
| 1. Jhakar . . . . . | 197 |
| 2. Lahsoo . . . . . | 47 |
| 3. Dhung . . . . . | 198 |
| 4. Rawta . . . . . | 269 |
| 5. Mathwoor . . . . . | 768 |
| 6. Keri . . . . . | 525 |
| 7. Sarot . . . . . | 490 |
| 8. Padmi . . . . . | 39 |
| 9. Galali . . . . . | 163 |
| 10. Handwal . . . . . | 82 |
| 11. Dhanoon . . . . . | 368 |
| 12. Aurhak . . . . . | 116 |
| 13. Gordah . . . . . | 333 |
| 14. Bagani . . . . . | 235 |

The net result of these transfers has been an increase in population of 2,106 in 1961; 794 in 1941; 1,222 in 1931; 892 in 1921; 981 in 1911 and 900 in 1901. The adjusted population for these decades have been worked out by making additions accordingly in the population figures of each previous decade.

## JAMMU DISTRICT

The limits of Jammu district have been extended by inclusion in its boundaries 14 villages of tehsil Reasi of Udhampur district. These villages were inhabited by 3,824 persons in 1961; 3,556 in 1941; 2,929 in 1931; 2,759 in 1921; 2,639 in 1911 and 2,449 in 1901. The adjusted population figures after taking into account the additions made in previous decades is as follows—

| Year | Adjusted Population as per present jurisdiction |
|---|---|
| 1961 . | 520,756 |
| 1941 . | 432,275 |
| 1931 . | 375,779 |
| 1921 . | 338,650 |
| 1911 . | 331,162 |
| 1901 . | 345,818 |

## RAJAURI DISTRICT

Rajauri district was born during the inter-census period 1961—1971. The various administrative units of which the district was constituted alongwith the 1961 population of each one are indicated below—

(*i*) Tehsil Rajauri of district Punch (260 villages +1 town) with a population of 121,088.

(*ii*) Tehsil Nowshehra of Punch district (131 villages + 1 town) with a population of 50,441.

The adjusted population of the district in 1961 has thus been arrived at by adding population under (*i*) and (*ii*) and stands at 171,529. The corresponding figures for 1941, 1931, 1921, 1911, and 1901 have also been worked out on these lines.

## PUNCH DISTRICT

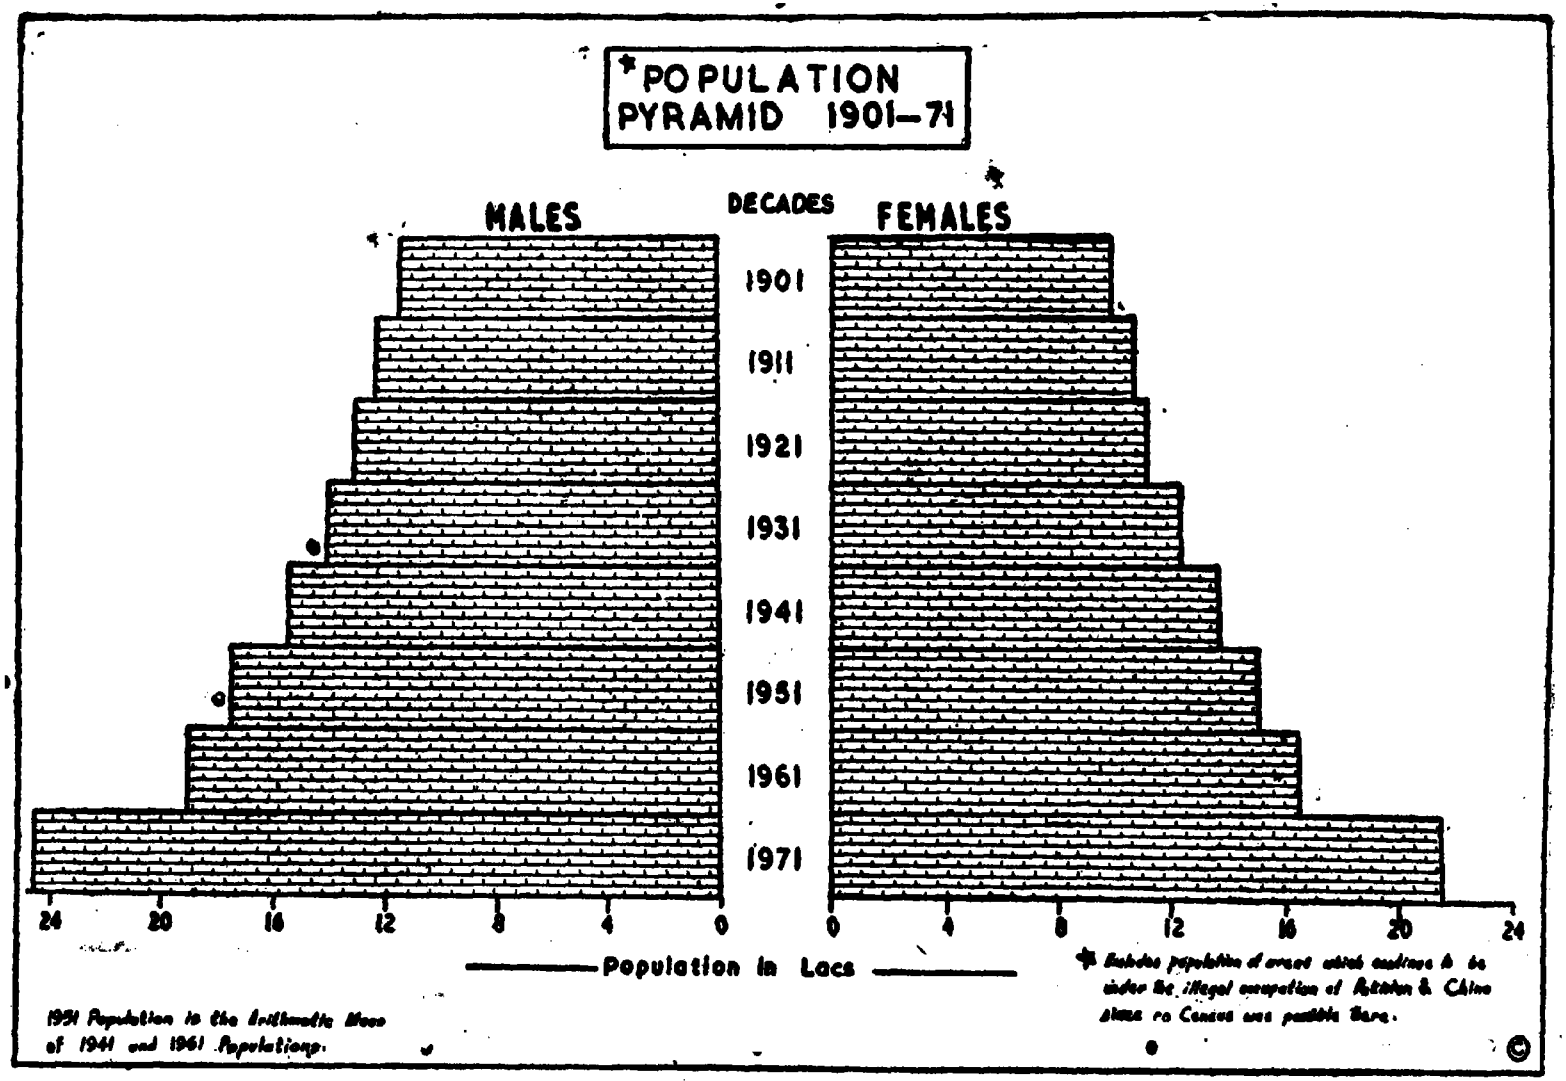

The population of Punch district has come down to 154,532 persons in 1961 as a result of transfer of its two tehsils, namely, Rajauri and Nowshehra to the newly constituted district of Rajauri. The losses suffered by the district in the previous 5 decades work out to 184,049 in 1941; 166,126 in 1931; 157,430 in 1921; 146,828 in 1911 and 136,281 in 1901.

## DECADAL VARIATION IN POPULATION SINCE 1901

(Note on Table A—II)

Table A-II is similar to Table A-II of 1961 except that the variations are given on the present occasion for the last 70 years instead of 60 years in 1961. The table furnishes the population figures of the State and its constituent districts, decade variation, percentage decadal variation for the eight censuses from 1901 to 1971. The table is very useful as it provides the rate of growth from decade to decade in the absence of reliable vital statistics.

There being no census in the State in 1951, the population figures in this case have been worked out by taking arithmetic mean of 1941 and 1961 Census population figures.

NOTE :—

(*i*) 1951 figures of population are the mean of 1941—1961.

(*ii*) Districts formed after 1961 Census have been printed in italics.

## DECADAL VARIATION IN POPULATION SINCE 1901

(Fly-leaf to Appendix to Table A-II)

During the decade 1961—1971, one new district, namely, Rajauri was formed in Jammu Region by detaching tehsils Rajauri and Nowshehra of erstwhile Punch district. Consequently, the old area of Punch district was reduced by 2,681·0 sq. kms. The fall in the case of population was very heavy and amounted to 171,529 persons. Leaving aside Ladakh and Kathua which did not witness any jurisdictional changes during the decade, in all other districts, there were transfers from one district to another. As many as 12 new tehsils, 9 in Kashmir Province and 3 in Jammu Province, were also constituted between 1961—71. The cumulative effect of these changes was an over-all increase in the area and population of districts Srinagar, Udhampur and Jammu and corresponding decreases both in area and population of Anantnag, Baramula, Doda and Punch districts.

*Statement of percentage variation of population, 1901—71 of districts of the State*—The following statement gives the percentage variation of population for the period 1901—71 district by district :—

*Percentage variation of population 1901—1971*

| | Urban | ... | —7·1 | +16·0 | +5·6 | +9·2 | +8·4 | +35·4 | ... |

During the past seventy years the total population of the State has more than doubled having risen from 2,139,362 persons in 1901 to 4,616,632 persons in 1971. However, if we confine our study to the percentage growth rate, we find that there has been an increase of 115·8 percent in the total population of the State since 1901. In rural areas, there was an increase of 89·8 percent and in the urban of 440·6 percent.

Amongst districts, Srinagar shows a very high increase of 159·8 percent since 1901. After Srinagar comes Baramula, Doda and Anantnag with an increase of 137·2 percent, 130·9 percent and 117·2 percent respectively since 1901. The lowest growth rate has been reported from Rajauri district where it stands at 59·5 percent. Jammu district is conspicuous for recording very high growth rate of urban population (429·6) during the past seventy years.

During the past decade, the population of the State has increased by 29·6 percent as against 26·6 percent in rural and 44·6 percent in urban areas. Barring Ladakh and Punch, there is not a single district where the percentage of increase falls below 20. Districts which show an increase of more than 25 percent are Anantnag, Srinagar, Baramula, Doda, Udhampur, Jammu, Kathua and Rajauri. The main factors contributing to this rapid growth of population are :—

(*i*) eradication of epidemics like cholera, small pox, plague etc. which, in the past, were a recurrent phenomena taking a heavy toll of human lives ;

(*ii*) quantitative dispersal and qualitative improvement in the medical facilities;

(*iii*) general economic prosperity and social changes registered during the post-Independence era;

(*iv*) sizeable immigration of such elements as displaced persons, different categories of labour working on various Central and State development projects, service personnel of all kinds etc.;

(*v*) lesser impact of Family Planning Programme in the State; and

(*vi*) improved census methodology and techniques ensuring complete coverage of the population.

The following statement records the changes in the proportion of sexes 1901—71 for all the districts in the State :—

*Change in the Proportion of Sexes 1901—1971 (Females per 1,000 males)*

| Punch District | Total | 895 | 927 | 896 | 900 | 909 | 905 | 902 | 903 |
| | Rural | 895 | 953 | 908 | 918 | 821 | 912 | 904 | 905 |
| | Urban | ... | 622 | 712 | 662 | 739 | 807 | 868 | 882 |

The above statement shows that at State level there was maximum sex ratio (882) in 1901 which declined to 876 in 1911 and further declined to 870 in 1921 and again to 865 in 1931. Thereafter, there is a gradual increasing tendency.

The proportion of females to per 1,000 males at the current Census works out to 878 as against 878 of the 1961 Census and 869 of 1941 Census. Instead of showing an increase, the feminine proportion at the current Census has remained static on the figure of 878 of the preceding Census.

The statement further reveals that the number of females per 1,000 males was 882 in villages and 860 in towns. The corresponding figures in 1961 stood at 884 and 844 respectively. It, therefore, implies that the sex ratio has declined by 2 per 1,000 in case of rural areas and has moved up by 16 per 1,000 so far as the urban sector is concerned.

The hilly districts, have by far the highest sex ratio amongst which Ladakh is marked for having a sizeable number of females. As things stand, Ladakh possesses the highest proportion of females *i.e.* 975 per 1,000 males. Its rural sector also accounts for 985 females per 1,000 males but the sex ratio in its urban sector which was as high as 1,012 in 1961 has now fallen to 856. The sharp fall in the urban proportion may be attributed to the reason that most of the Government employees stationed at Leh and Kargil do not bring their spouses along with them. Other districts which have a substantial proportion of females include all the districts of Jammu Province except Doda.

The three valley districts viz., Anantnag, Srinagar and Baramula more or less present a uniform picture.

## DECADAL VARIATION IN POPULATION SINCE 1901

### (Note on Appendix to Table A-II)

This appendix as in 1961 is intended to spell out the adjustments necessary to bring the 1961 Census population of the district to the jurisdiction of the district as at 1971 Census.

# A—II DECADAL VARIATION IN POPULATION SINCE 1901

*Note* :—

1. £ Represents provisional 'geographical area figures' supplied by the Surveyor General.

2. $ Includes 78,932 km² under illegal occupation of Pakistan and 5,180 km² illegally handed over by Pakistan to China. Also includes 37,555 km² under illegal occupation of China.

3. @ Includes 37,555 km² under illegal occupation of China.

4. *Represents provisional 'geographical area figures' supplied by the Surveyor General of India as on this side of the Ceasefire Line.

5. The difference in the area figures in respect of the districts where there are no jurisdictional changes is only due to the revisional computation of the area figures.

### *EXPLANATORY NOTE TO APPENDIX A—II*

1. †15 villages with a population of 5,248 transferred from Pulwama tehsil of Anantnag district to newly constituted Chadura tehsil of Srinagar district vide Govt. Order No. SRO 351 dated 12-10-1964.

2. (—) 7 villages with a population of 3,308 transferred from Baramula tehsil of Baramula district to newly constituted Beerwah tehsil of Srinagar district vide Govt. Order No. SRO 350 dated 12-10-1964.

3. (+) 10 villages with a population of 5,930 transferred from Ramban tehsil of Doda District to newly constituted Gool Gulab Garh tehsil of Udhampur district vide Govt. Order No. SRO 281 dated 5-7-1966.

4. (x) 14 Villages with a population of 3,824 transferred from Reasi tehsil of Udhampur district to Jammu tehsil of Jammu district vide Govt. Order No. SRO 12 dated 8-1-1969.

5. (xx) Rajauri district constituted newly with 260 villages and one town of Rajauri tehsil (population 121,088) and 131 villages and one town of Nowshehra tehsil (population 50,441) of Punch district vide Govt. Order No. SRO 137-C of 1967 dated 30-9-1967.

**TABLE—A-III**

**VILLAGES CLASSIFIED BY POPULATION**

## VILLAGES CLASSIFIED BY POPULATION

(Fly-leaf to Table A—III)

1. *Definition of Village*—The definition of village has already been explained at length in the fly-leaf to Table A-I.

2. *Statement of percentage of Population in Villages of Different Sizes*—The following statement will bring into sharper focus the variation in the percentage of population living in villages of various sizes with reference to the total rural population in each district according to the current Census :—

*Percentage of Population in Villages of Different Sizes*

| State/District | Total Rural Population | Less than 200 | | 200—499 | | 500—999 | | 1,000—1,999 | | 2,000—4,999 | | 5,000—9,999 | | 10,000 and above | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | | Population | Percentage | Population | Percentage | Population | Percentage | Population | Percentage | Population | Percentage | Population | Percentage | Population | Percentage |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 | 13 | 14 | 15 | 16 |
| JAMMU & KASHMIR STATE | 3,753,411 | 201,982 | 5·4 | 738,408 | 19·6 | 1,086,176 | 28·9 | 1,046,008 | 27·8 | 622,976 | 16·6 | 62,861 | 1·7 | .. | .. |
| Anantnag District | 758,046 | 26,234 | 3·5 | 139,264 | 18·4 | 227,418 | 30·0 | 230,659 | 30·4 | 134,471 | 17·7 | .. | .. | .. | .. |
| Srinagar District | 404,444 | 23,536 | 5·8 | 81,392 | 20·1 | 101,051 | 25·0 | 134,954 | 33·4 | 57,080 | 14·1 | 6,431 | 1·6 | .. | .. |
| Baramula District | 709,481 | 24,639 | 3.4 | 113,109 | 15·9 | 206,151 | 29·1 | 186,305 | 26·3 | 152,366 | 21·5 | 26,911 | 3·8 | .. | .. |
| Ladakh District | 97,382 | 9,835 | 10·1 | 31,496 | 32·3 | 40,688 | 41·8 | 13,230 | 13·6 | 2,133 | 2·2 | .. | .. | .. | .. |
| Doda District | 322,684 | 28,328 | 8·8 | 72,282 | 22·4 | 76,050 | 23·6 | 57,627 | 17·9 | 64,339 | 19·9 | 24,058 | 7·4 | .. | .. |
| Udhampur District | 310,427 | 20,484 | 6·6 | 65,452 | 21·1 | 108,422 | 34·9 | 86,816 | 28·0 | 29,253 | 9·4 | .. | .. | .. | .. |
| Jammu District | 540,401 | 36,806 | 6·8 | 131,484 | 24·3 | 142,590 | 26·4 | 131,245 | 24·3 | 92,815 | 17·2 | 5,461 | 1·0 | .. | .. |
| Kathua District | 249,586 | 19,313 | 7·7 | 53,531 | 21·4 | 82,117 | 32·9 | 82,742 | 33·2 | 11,883 | 4·8 | .. | .. | .. | .. |
| Rajauri District | 208,976 | 11,504 | 5·5 | 36,714 | 17·6 | 66,353 | 31·7 | 63,967 | 30·6 | 30,438 | 14·6 | .. | .. | .. | .. |
| Punch District | 156,984 | 1,303 | 0·8 | 13,684 | 8·7 | 35,336 | 22·5 | 58,463 | 37·3 | 48,198 | 30·7 | .. | .. | .. | .. |

3. *Comment on the statement of percentage of Population*—It will be observed from the above statement that a very large percentage of villages consists of small and medium sized villages with population size of less than 1,000 which accounts for about 54 percent of the total rural population as against 65 percent in 1961. The fall is particularly noticeable in villages having a population 200—499 where the proportion of rural population has come down by 6·4 percent during 1961—71.

The backwardness and nomadic character of the population is reflected in the dispersal of population in Ladakh and Doda districts where 42·4 percent and 31·2 percent of the total rural population live in villages having population less than 500.

Large villages with population varying between 2,000—4,999 claim more than 16 percent of the total rural population of the State. About one-third of the rural population of district Punch lives in villages of this class. Other districts which claim high proportions are Baramula (21·5 percent), Doda (19·9 percent), Anantnag (17·7 percent), Jammu (17·2 percent), Rajauri (14·6 percent) and Srinagar (14·1 percent). Ladakh and Kathua have very small proportions which work out to 2·2 percent and 4·8 percent respectively.

There is no village in the State whose population exceeds 10,000 and above. Villages whose inhabitants number over 5,000 but less than 10,000 are 9. Amongst the districts, Doda has the highest proportion (7·4 percent) followed by Baramula (3·8 percent) of the rural population living in villages of this class.

4. The statement on page 79 gives percentage of villages and population by class of villages in 1961 and 1971.

5. A comparative study of the enclosed table discloses that there has been a continuous promotion of villages from lower to higher classes between 1961—71 with a corresponding decline in the proportion of places and population of small-sized villages. The statement shows that the percentage of villages having population less than 200 has fallen from 34·7 percent to 26·9 percent during the decade. The fall in the case of population living in villages of this size class is 2·9 percent. Villages having 200—499 inhabitants which claimed 35·3 percent of total villages and 25·7 percent of the total rural population in 1961 have been respectively reduced to 33·8 percent and 19·6 percent in 1971. It is interesting to note that while the percentage of villages in the population group 500—999 has gone up from 20·1 percent to 23·9 percent in 1971, the population claimed by this size class has come down from 31·0 percent to 28·9 percent during the decade. All other classes seem to have registered a progressive increase both in the ratios of villages and of population. Another interesting feature is that while the percentage of villages with a population 5,000—9,999 has remained unchanged during 1961—71, the corresponding proportion of population in this class has gone up by 0·6 percent. The decline in small sized villages and corresponding increase in medium and large sized villages reflects the natural growth and development of rural areas during the decade.

Columns 15 and 16 of the statement show that no village of the size class 10,000 and over either existed in 1961 or in 1971.

The data in respect of districts does not present a different picture or any distinctly noticeable trend. Whatever has been said about the State, more or less applies to each of its ten districts.

*Statement of percentage of villages and population by class of village, 1961—71*

| State/District | Year | Less than 200 | | 200—499 | | 500—999 | | 1,000 –1,999 | | 2,000 –4,999 | | 5,000—9,999 | | 10,000+ | |

## VILLAGES CLASSIFIED BY POPULATION

(Note on Table A—III)

This table as in 1961 gives figures for the number and population of villages in the population groups of (*i*) less than 200 (*ii*) 200—499 (*iii*) 500—999 (*iv*) 1,000—1,999 (*v*) 2,000—4,999 (*vi*) 5,000—9,999 and (*vii*) 10,000 and above. The table which depicts rural population only is presented in two parts. While the first—the Union Table gives the classification of villages upto district level, the second—State Table shows similar data down to tehsil level.

## VILLAGES CLASSIFIED BY POPULATION

(Fly-leaf to Appendix to Table A-III)

A comparison of the sub-totals of broad groups of villages classified by population in 1961 and 1971 Censuses will be of interest. The following statement may be studied :—

| Population sizes | No. of villages | | Variation | Total rural population | | Variation |
|---|---|---|---|---|---|---|
| | 1961 | 1971 | | 1961 | 1971 | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
| (1) Less than 500 . . . | 4,592 | 3,948 | —644 | 1,006,653 | 940,390 | —66,263 |
| (2) 500—1,999 . . . | 1,848 | 2,320 | +472 | 1,631,956 | 2,132,184 | +500,228 |
| (3) 2,000—4,999 . . . | 114 | 226 | +112 | 295,112 | 622,976 | +327,864 |
| (4) 5,000 and above . . . | 5 | 9 | +4 | 33,940 | 62,861 | +28,921 |

It would be observed from the above table that the number of villages having less than 500 inhabitants has come down from 4,592 of 1961 to 3,948 in 1971. The corresponding fall in the case of population is 66,263. All other classes have, during the same period, registered a progressive increase both in the number of villages and the population residing in them.

Similar data in respect of districts is given below :—

| Name of District | Year | Less than 500 | | 500—1,999 | | 2,000—4,999 | | 5,000 and above | |
|---|---|---|---|---|---|---|---|---|---|
| | | No. | Population | No. | Population | No. | Population | No. | Population |

## VILLAGES CLASSIFIED BY POPULATION

(Note to Appendix to Table A-III)

The appendix similar to one prepared at the 1961 Census purports to show the sub-totals of following groups of villages at district level:—

(*i*) Less than 500
(*ii*) 500—1,999
(*iii*) 2,000—4,999
(*iv*) 5,000 and above

# APPENDIX TO TABLE A-III

## VILLAGES CLASSIFIED BY POPULATION

| State/Province/District | Total number of inhabited villages | Total Rural Population | | | I—Villages with less than 2,000 population | | | | | | II—Villages with a population of 2,000—4,999 | | | III—Villages with a population of 5,000 and above | | |

## TABLE A–IV

## TOWNS AND URBAN AGGLOMERATIONS CLASSIFIED BY POPULATION IN 1971 WITH VARIATION SINCE 1901

# TOWNS AND URBAN AGGLOMERATIONS CLASSIFIED BY POPULATION IN 1971 WITH VARIATION SINCE 1901

(Fly-leaf to Table A–IV)

1. *Definition of town*—The definition of town as adopted at the 1971 Census has already been explained under 'Urban and Rural Population' in fly-leaf to table A-I.

2. *Classification of cities and towns in six classes*—As in 1961, all towns and cities at the current census have been classified into six classes according to their population size. The following statement gives the number of towns in each class on the basis of population returns at the 1971 Census—

| Class | Population | No. of Towns |
|---|---|---|
| I | 100,000 and above | 2 |
| II | 50,000 to 99,999 | .. |
| III | 20,000 to 49,999 | 3 |
| IV | 10,000 to 19,999 | 3 |
| V | 5,000 to 9,999 | 17 |
| VI | Less than 5,000 | 20 |

3. *Explanation of Urban Agglomeration*—The Urban Agglomeration which replaces the Town Group concept of 1961 is a new definition which has been adopted in the present census for the purpose of over-all size classification and analysis of the urban data. By Urban Agglomeration is meant a continuous urban spread constituted of a core town and its adjoining urban out-growths or two or more physically contiguous towns together with continuous well-recognised urban out-growths, if any, of such towns.

Two Urban Agglomerations, namely, Srinagar Urban Agglomeration (Srinagar district) and Jammu Urban Agglomeration (Jammu district) were determined in the State for the first time at the 1971 Census. Areas constituting the Urban Agglomeration in respect of Srinagar and Jammu are indicated below :—

*1. Srinagar Urban Agglomeration :*

(*a*) (*i*) Srinagar Municipality
(*ii*) Natipora
(*iii*) Kursu Padshahi Bagh
(*iv*) Bimna
(*v*) Bagat Barzala } Out growth
(*b*) Badamibagh Cantonment

*2. Jammu Urban Agglomeration* :

(*a*) (*i*) Jammu Municipality
(*ii*) Nagrota
(*iii*) Narwal Balla
(*iv*) Satwari } Out growth
(*b*) Jammu Cantonment

*4. Changes in classification of towns 1901 to 1971* :—

The following statement will illustrate how cities and towns have moved up and down from one class to another from 1901 to 1971 :—

| Serial No. | City/Urban Agglomeration/Town | Changes in classification of towns 1901 to 1971 | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|
| | | 1971 | 1961 | 1951 | 1941 | 1931 | 1921 | 1911 | 1901 |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 |
| | *Cities* :— | | | | | | | | |
| 1 | Srinagar City | I | I | I | I | I | I | I | I |
| 2 | Jammu City | I | I | II | II | III | III | III | III |
| | *Urban Agglomerations* :— | | | | | | | | |
| 1 | Srinagar Urban Agglomeration | I | ... | ... | ... | ... | ... | ... | ... |
| 2 | Jammu Urban Agglomeration | I | ... | ... | ... | ... | ... | ... | ... |
| | *Towns* :— | | | | | | | | |
| 1 | Pahalgam | VI | VI | ... | ... | ... | ... | ... | ... |
| 2 | Mattan | VI | ... | ... | VI | VI | ... | ... | ... |
| 3 | Kukernag | VI | ... | ... | ... | ... | ... | ... | ... |
| 4 | Anantnag | III | III | IV | IV | IV | V | V | .. |
| 5 | Bijbehara | V | V | V | VI | VI | VI | VI | ... |
| 6 | Kulgam | V | VI | ... | ... | ... | ... | VI | ... |

| No. | City/Urban Agglomeration /Town | Changes in classification of towns 1901 to 1971 | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|

| 42 | Punch | IV | IV | V | V | V | V | V | ... |
| 43 | Surankote | VI | ... | ... | ... | ... | ... | ... | ... |

It is significant to note that of the two municipalities in the State, only Srinagar municipality which claimed class I in 1901 has continuously preserved its original status. Jammu municipality, on the other-hand, had a chequered career all through. It was a class III town in 1901 which status it preserved upto 1941 when it acquired the status of class II. It was only in 1961 when Jammu city for the first time was treated as a class I town.

Leaving aside the new towns added in 1971 and those declassified after 1961, it will be interesting to study that the change in classification of towns during 1961—71 has effected as many as 13 towns. Of these, 2 towns of Baramula district, namely, Baramula and Sopore which were borne on class IV in 1961 have attained the status of class III in 1971. Kathua town of district Kathua was the solitary class V town of 1961 which has now gone over to class IV. The remaining 10

towns which belonged to class VI in 1961 have now been elevated to class V thereby raising the number of Class V towns to 17 in 1971.

*5. Class-wise number of towns during 1901—1971*:- The following table gives the class-wise nubmer of towns during 1901–71.

| | 1971 | 1961 | 1951 | 1941 | 1931 | 1921 | 1911 | 1901 |
|---|---|---|---|---|---|---|---|---|
| Class I | 2 | 2 | 1 | 1 | 1 | 1 | 1 | 1 |
| Class II | ... | ... | 1 | 1 | ... | ... | ... | ... |
| Class III | 3 | 1 | ... | ... | 1 | 1 | 1 | 1 |
| Class IV | 3 | 4 | 3 | 3 | 2 | ... | ... | ... |
| Class V | 15 | 4 | 6 | 2 | 3 | 6 | 6 | ... |
| Class VI | 20 | 30 | 12 | 23 | 23 | 21 | 37 | ... |

A comparison of the number of towns in each size class for the last 8 decades will be of interest. The foregoing statement may be studied.

In 1901, there were only 2 urban areas of which one was in class I and the other in class III. The total number of places recognised as urban rose to 45 in 1911 which included one unit each in class I and III, 6 in class V and 37 in class VI. At the 1921 census, this position more or less remained unchanged except that with the declassification of certain towns, the number of towns in class VI came down to 21. The size classes I and VI had the same number of towns both in 1931 and 1941. Jammu city which was a class III town till 1931 became class II town in 1941. The number of towns in size classes IV and V was 3 and 2 respectively in 1941 as against 2 and 3 of 1931.

In 1961, there were 41 towns of which 2 were in class I; 1 in class III ; 4 in class IV; 4 in class V and 30 in class VI. While the number of towns in class VI went down to 20 in 1971 and that of class IV to 3, the number had gone up by 2 and 11 respectively so far as size classes III and V were concerned. There was no change in the case of class I in which the number of towns continued to be 2.

*6. Percentage of towns in each class to total number of towns and percentage of population in each class to total urban population (1901—1971)*:—The Statement given below shows the percentage of towns in each class to total number of towns and percentage of population in each class to total urban population (1901—1971) :—

| Class | 1971 | | 1961 | | 1951 | | 1941 | |
|---|---|---|---|---|---|---|---|---|
| | Percentage of No. of towns | Percentage of Population | Percentage of No. of towns | Percentage of population | Percentage of No. of towns | Percentage of population | Percentage of No. of towns | Percentage of population |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 |
| I | 4·65 | 68·45 | 4·88 | 67·44 | 4·35 | 54·34 | 3·33 | 54·22 |
| II | ... | ... | ... | ... | 4·35 | 18·27 | 3·33 | 15·22 |
| III | 6·98 | 9·52 | 2·44 | 3·55 | ... | ... | ... | ... |
| IV | 6·98 | 5·33 | 9·76 | 10·00 | 13·04 | 10·54 | 10·00 | 9·44 |
| V | 34·88 | 11·01 | 9·75 | 4·65 | 26·09 | 8·78 | 6·67 | 3·67 |
| VI | 46·51 | 5·69 | 73·17 | 14·36 | 52·17 | 7·57 | 76·67 | 17·45 |

| Class | 1931 | | 1921 | | 1911 | | 1901 | |
|---|---|---|---|---|---|---|---|---|
| | Percentage of No. of towns | Percentage of population | Percentage of No. of towns | Percentage of population | Percentage of No. of towns | Percentage of population | Percentage of No. of towns | Percentage of population |
| 1 | 10 | 11 | 12 | 13 | 14 | 15 | 16 | 17 |
| I | 3·33 | 54·90 | 3·45 | 52·93 | 2·22 | 47·05 | 50·00 | 77·24 |
| II | ... | ... | ... | ... | ... | ... | ... | ... |
| III | 3·33 | 13·47 | 3·45 | 11·77 | 2·22 | 11·82 | 50·00 | 22·76 |
| IV | 6·67 | 6·83 | ... | ... | ... | ... | ... | ... |
| V | 10·00 | 6·38 | 20·69 | 15·97 | 13·34 | 16·77 | ... | ... |
| VI | 76·67 | 18·42 | 72·41 | 19·33 | 82·22 | 24·36 | ... | ... |

As will be seen, at each of the last 8 decades *i.e.*, 1901–71, it is the cities or class I towns which accounted for the largest proportion of urban population in the State. The city of Srinagar alone contributed no less than 77·24 percent of the total urban population in 1901; 47·05 percent in 1911; 52·93 per cent in 1921; 54·90 percent in 1931 and 54·22 per cent in 1941. Jammu city attained the status of class I in 1961 and two cities accounted for *67·44 percent and @68·45 per cent of the total urban population in 1961 and 1971 respectively. Of the lower size classes, class V and VI seem to have contributed a sizeable proportion of urban population at almost each decade. The proportion of the population claimed by the class IV does not disclose much variation.

*7. Classwise percentage of area to total urban area and density per sq. km. for 1961 and 1971*— The following statement shows the percentage of the area in each class of towns to total urban area and density of population per sq. km. in each class of towns in 1961 and 1971. Similar figures for the previous decades can not be worked out as neither the areas of individual towns nor of the State as a whole are traceable from any of the previous Census Reports :—

*Classwise percentage of area to total urban area and density per sq. km. for 1961 and 1971*

| Class | Percentage of area to total urban area | | Density per sq. kilometer | |
|---|---|---|---|---|
| | 1961 | 1971 | 1961 | 1971 |
| 1 | 2 | 3 | 4 | 5 |
| Class I . . | 22 | 43 | 5,924 | 3,443 |
| Class II . . | .. | .. | .. | .. |
| Class III . . | 5 | 10 | 1,302 | 2,166 |
| Class IV . . | 6 | 3 | 3,065 | 3,479 |
| Class V . . | 5 | 20 | 2,020 | 1,210 |
| Class VI . . | 62 | 24 | 452 | 521 |

*Note*—

*Includes Badamibagh and Jammu cantonments.

@Includes Badamibagh and Jammu cantonments as also respective urban out-growths of Srinagar and Jammu cities.

The picture that emerges from above is more a mosaic than a uniform pattern. The statement suggests that class I towns comprising of 2 urban agglomerations of Srinagar and Jammu account for 43 percent of the total urban area in 1971 as against 22 percent in 1961. The answer to this high area increase over the last decade is not far to seek. As a sequel to continued expanding in industrial and commercial activity in these centres, the outer boundaries of Srinagar and Jammu cities have been extended during the inter-census period. The area increase in the case of class III and decrease in class IV towns is due to moving up of Baramula and Sopore towns from class IV to class III in 1971. The increase in the area in case of class V is also because of upgrading of 11 class VI towns in 1971. The heavy fall in class VI may be attributed to following reasons :—

(*i*) elevation of 11 formerly class VI towns to class V in 1971,

(*ii*) elimination in 1971 of a number of places regarded as class VI towns in 1961.

Some interesting conclusions can be deduced by studying the density per sq. km. in case of class I towns in 1961 and 1971. The sharp fall in 1971 is suggestive of better living conditions and lessening of congestion in the cities of Srinagar and Jammu. This has been brought about by amalgamation of many adjoining rural areas to the limits of these cities. The increase/decrease in the case of other classes is partly due to the movement of a town of a particular class to a different class and partly due to changes effected in the limits of some of the towns.

*8. Limits of urban localities treated towns for the first time in 1971*—Only three places have been treated as towns for the first time in 1971. Of these, Kukernag and Tral belong to Anantnag district and Surankote to Punch district. The sub-joined statement gives total population, area in sq. kms. and the names of villages wholly or partly included in the limits of each of the town :—

| Town | Population | Area in sq. kms. | Names of villages wholly or partly added | |
|---|---|---|---|---|
| 1. Tral . | 6,465 | 0·55 | 1. Tral Balla<br>2. Tral Pain | |
| 2. Kukernag | 1,723 | 2·65 | 1. Bidder Hayatpora<br>2. Bindoo Zalangam | Partly |
| 3. Surankote | 1,822 | 4·52 | Samote | (Partly) |

*9. An alphabetical list in respect of various Towns and Urban Agglomerations in the State is given below:—*

| Sl. No. | Name of Town/Urban Agglomeration | Name of District | Class/ S. No. of A-IV | Page No. |

## TOWNS AND URBAN AGGLOMERATIONS CLASSIFIED BY POPULATION IN 1971 WITH VARIATION SINCE 1961

(Note on Table A–IV)

This table which corresponds to Table A-IV of 1961 gives the growth of each town since 1901. The table also furnishes the area of each town at the 1971 Census in sq. kms. As in Table A-II, the percentage variation is given from decade to decade for each city and town. The total population of the Urban Agglomeration is given under the class into which the Urban Agglomeration has been classified. Separate figures, have likewise been given for the various constituents of Urban Agglomerations.

# A-IV—TOWNS AND URBAN AGGLOMERATIONS CLASSIFIED BY POPULATION IN 1971 WITH VARIATION SINCE 1901

| Serial No. | Name of Town/Urban Agglomeration | State/District | Year | Status of town | Area in Km² | Persons | Decade variation | Percentage decade variation | Males | Females |
|---|---|---|---|---|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 |
| | | | | *All classes 2 Urban Agglomerations and 41 Towns* | | | | | | |
| | | Jammu & Kashmir | 1901 | | | 158,748 | .. | .. | 87,763 | |

*Note—*

(1)@ Badamibagh Cantonment (Srinagar Cantonment) in 1911 population 2,104 (1,384 M, 720 F) and in 1921 population 2,215 (1,452M, 763F) was part of Srinagar City. The combined population of Srinagar Municipality and Cantonment for 1911 and 1921 has been shown against Srinagar M.C.

(2) £Jammu Cantonment in 1901 population, 1,251(1,142M, 109 F) in 1911 population 1,869 (1,650M,219F) and in 1921 population 1,497 (1,328 M, 169F) was part of Jammu City. The combined population of Jammu Municipality and Jammu Cantonment for 1901, 1911 and 1921 has been shown against Jammn M.C.

(3) The population figures of Srinagar Urban Agglomeration for 1961 include the population of Natipora-Haider Pora (N-A.) (1,740 M, 1,491 F) which then formed a part of the Srinagar Town group. It has been since declassified and is not included in 1971 Urban Agglomeration.

(4) Towns treated as such for the first time in 1961 are marked with asterisk (*).

(5) Towns treated as such for the first time in 1971 are printed in italics.

(6) The 1951 population is the arithmetic mean of 1941 and 1961 population.

(7) The following abbreviations have been used to denote the status of town —

(1) U.A.—Urban Agglomeration,(2) M.C.—Municipal Committee, (3)T.A.—Town Area,(4) N.A.—Notified Area,(5) Cantt.—Cantonment.

(8) Total Area of all Towns/U.A 's under all classes comes to 393·20 Km² in Table A-IV were as the total urban area given in the Table A-I is 393·30Km². The difference of 0·10Km² is due to the fact that the Urban Area given in Table A-I has been derived by adding the Urban Areas of tehsils after rounding the same npto one place of decimal.

## TOWNS AND URBAN AGGLOMERATIONS CLASSIFIED BY POPULATION IN 1971 WITH VARIATION SINCE 1901

(Fly-leaf to Appendix I to Table A-IV)

It will be seen from the appendix that the total population of those places treated as towns in 1961 and subsequently declassified in 1971 was 26,007. Had these places not been declassified and continued to remain as towns in 1971 also, the total urban population of the State in 1971 would have stood at 884,228. Of the 5 declassified towns, 4 belonged to Baramula and 1 to Srinagar district. In case, these places had remained as towns in 1971, the urban population of Baramula district would have been 85,203 *i.e.*, 66,243+ 18,960 persons and that of Srinagar district 430,300 i.e., 423,253+7,047 persons.

In like manner, if 7 places treated as towns in 1971 had also been classed as towns in 1961, the total urban population of the State in 1961 would have stood at 612,701, *i.e.*, 593,315+ 19,386 persons. This would have also affected the respective urban population of district Anantnag, Baramula, Ladakh, Udhampur and Punch which consequently would have been 56,397; 61,278; 5,401; 18,009 and 11,571 respectively.

On the other hand, if such of the towns of 1961 as have been declassified in 1971 had also been declassified in 1961, the urban population of the State in 1961 would have gone down by 17,033 persons. The total urban population in that case would have stood at 576,282. The position respect of the districts affected by this declassification would have been as under—

| District | 1961 urban population | Population of declassified towns in 1961 | 1961 urban population in case of declassification of towns |
|---|---|---|---|
| Srinagar .. | 295,084 | 3,231 | 291,853 |
| | 57,[illegible]64 | 13,802 | 43,562 |

# TOWNS AND URBAN AGGLOMERATIONS CLASSIFIED BY POPULATION IN 1971 WITH VARIATION SINCE 1901

## (Note on Appendix I to Table A-IV)

This appendix is same as in 1961 i.e., showing the area and population of the new towns added in 1971 and towns in 1961 declassified in 1971. The appendix is supplemented with Explanatory Notes and two lists 'A' and 'B' showing places with a population under 5,000 treated as towns for the first time in 1971 and those omitted from the list of towns in 1971 but which were treated as towns in 1961.

# A-IV TOWNS AND URBAN AGGLOMERATIONS CLASSIFIED BY POPULATION IN 1971 WITH VARIATION SINCE 1901

## APPENDIX—I

*New Towns added in 1971 and Towns in 1961 declassified in 1971*

## A-IV—TOWNS AND URBAN AGGLOMERATIONS CLASSIFIED BY POPULATION IN 1971 WITH VARIATION SINCE 1901

(Fly-leaf to Appendix II to Table A-IV)

The appendix shows that out of 45 towns in the State, as many as 30 have registered changes in their respective area figures during the decade. The two principal cities of Srinagar and Jammu show phenomenal increases both in respect of their areas and population since 1961. The area of Srinagar municipality which was 41·44 sq. kms. in 1961 has almost doubled in the span of ten years and now stands at 82·88 sq. kms. The population of Srinagar municipality according to current census is 403,413 as against 285,257 of 1961. Similarly, the area of Jammu municipality on the other hand, has gone up about 5 times in the period of ten years. As against the area figure of 10·36 sq. kms. of 1961, the city now measures 50·50 sq. kms. The population of the city has also gone up by 52,600 persons during 1961-71 and the population of the Jammu municipality returned at 1971 Census stood at 155,338 as against 102,738 in 1961.

The answer to extra-ordinary increase in area and populations of these two cities are self evident. Both Srinagar and Jammu which are Capital Cities have been expanding rapidly and during the last decade their limits have been extended by merging with these the following localities—

| | Names of new localities added after 1961 |
|---|---|
| Srinagar Municipality | 1. Nawpora Abi |
| | 2. Karapora |
| | 3. Lam |
| | 4. Brain |
| | 5. Baghi Hussain |
| | 6. Nandpora |
| | 7. Suderbal |
| | 8. Chandihar |
| | 9. Baghwan Pora |
| | 10. Noor Bagh |
| | 11. Arampora |
| | 12. Qamarwari |
| | 13. Chawni-Badam-Singh |
| | 14. Barthana |
| | 15. Batamalina |
| | 16. Gulabpora |
| | 17. Pandrethan (Partly) |
| | 18. Parimpora (Partly) |
| | 19. Wonta Bhawan (Partly) |
| | 20. Bachpora (Partly) |
| | 21. Aramwari |
| | 22. Kursu Padshahi Bagh (Partly) |
| | 23. Bimna |
| Jammu Municipality | 1. Subash Nagar |
| | 2. Vikram Nagar |
| | 3. Talab Tillu |
| | 4. Bhagwati Nagar |
| | 5. Ashok Nagar |
| | 6. Shakti Nagar |
| | 7. Mohinder Nagar |

The jurisdictions of Bandipore, Sopore, Samba and Jammu cantonment have also further extended with the inclusion in their limits of many whole and part villages after 1961. Towns like Anantnag, Kulgam and Kathua, on the other-hand, show a substantial fall in their respective

areas after 1961, which is attributable to computational error. The increase of 9·32 sq. kms. in the area of Baramula town during the decade 1961-71 is due to the inclusion of Mohalla Khawja Bagh in its limits at the recent census which although forming a part of the town in 1961 also, was erroneously left out in calculating the area of the town at that time. The increase/decrease in the area figures of remaining towns is insignificant. Some of the main reasons responsible for increase/decrease in the area figures of the towns during the past decade are as follows—

1. Increase in area due to inclusion of certain localities in the limits of growing and expanding towns,
2. Fall in area due to expulsion of some localities from the towns limits,
3. Varying figures of area as reported by Revenue Department and Local Bodies authorities,
4. Variation in area caused by the rounding up of area figures to make tehsil/district totals tally,
5. Town boundaries are not properly defined in some cases. It appears that these variations arise because of agricultural lands which formed part of the villages before their conversion into towns and which have not been taken into account while determining the area of the towns.

# TOWNS AND URBAN AGGLOMERATIONS CLASSIFIED BY POPULATION IN 1971 WITH VARIATION SINCE 1901

## (Note on Appendix II to Table A-IV)

The appendix which is a new one has been introduced for the first time at the present census. The appendix is designed to show changes in area of towns (with population) between 1961 and 1971 and reasons for the change in area of towns. The area figures have been given in sq. kilometres both for 1961 and 1971 Censuses.

# A-IV—TOWNS AND URBAN AGGLOMERATIONS CLASSIFIED BY POPULATION IN 1971 WITH VARIATION SINCE 1901

## APPENDIX—II

*Changes in area of towns (with population) between 1961 and 1971 and reason for change in area*

| Name of Town (District) | Area (in Km²) 1961 | Area (in Km²) 1971 | Population 1961 | Population 1971 | Reason for the change in area |

## TABLE A-V

## STANDARD URBAN AREAS

## STANDARD URBAN AREAS

(Fly-leaf to Table A-V)

1. *Evaluation of Standard Urban Area*—The concept of Town Group as was adopted in the 1961 Census was found to be of limited use because of following reasons:—

(*i*) Lack of uniformity in conception due to adopting of varying definitions and different procedures and criteria of delimitation for Town Groups in different states ;

(*ii*) Inclusion in Town Groups of only those towns falling within a radius of 2 to 4 (and sometimes) 5 miles of the periphery of the principal central town and resultant omitting of interstitial areas ; and

(*iii*) Non-comparability of the data from census to census due to frequent changes in the administrative boundaries of statutory towns.

It was, therefore, decided to modify the Town Group concept to enable the presentation of urban statistics on a uniform basis which at the same time would ensure the comparability of the census data from one decade to another. For this purpose, the concept of a 'Standard Urban Area' was evolved and adopted at the present census.

2. *Definition of the Standard Urban Area*—The Standard Urban Area may be defined as an area which will extend beyond the main city or town and would contain all likely developments over the next 20 years upto 1991. Thus, it will remain as a statistical reporting unit during the 3 successive censuses irrespective of the changes in the boundaries of the local administrative units within the tract.

3. *Delimitation of Standard Urban Area*—According to guidelines provided, the Standard Urban Areas may be delimited only for cities with population of 50,000 or more. The demarcation of Standard Urban Area is, however, subject to following conditions and objectives :—

(1) In order to make a proper appraisal of the magnitude of the growth of population of the core city by 1991, the population growth trends of the main city may be carefully analysed. Due consideration may be given to short term migration trends as well as any important locational decisions that are in the offing and which are likely to affect the towns growth in the foreseeable future.

(2) Note may be taken of the trends in the urban spread of the principal central town or city. This will involve the appreciation of the extent and the directions of urban growth and recognition of any physical constraints, such as, topography, water bodies, marshes etc. to such urban expansions.

(3) Proper assessment may be made regarding the growth of the villages and towns on the periphery of the present municipal limits and the prospects of their coalscene in future with the main city. This will imply the projection of their population and the extent of their physical growth upto 1991.

(4) Consideration may be given to the inclusion of any other village or town in the vicinity of the main city or town on special considerations such as intensity of inter-action, strong economic or social linkages etc., etc.

(5) Great care and judgement may be exercised in deciding the inclusion of areas within the Standard Urban Areas which are in the vicinity of the focal town. This is important so that there may neither be over-extension of the areas nor any under estimation. In the case of exercising a choice, inclusion of a little extra area is to be preferred to omission.

(6) While including villages, the entire revenue area of the village may be brought within the 'Standard Urban Area' and not merely the village site (Abadi).

In Jammu and Kashmir, only two cities, namely, Srinagar and Jammu qualified to be considered for demarcation of Standard Urban Areas. The following broad criteria were kept in view while demarcating the boundaries of the two Standard Urban Areas in collaboration with the State Town Planning Organisation :—

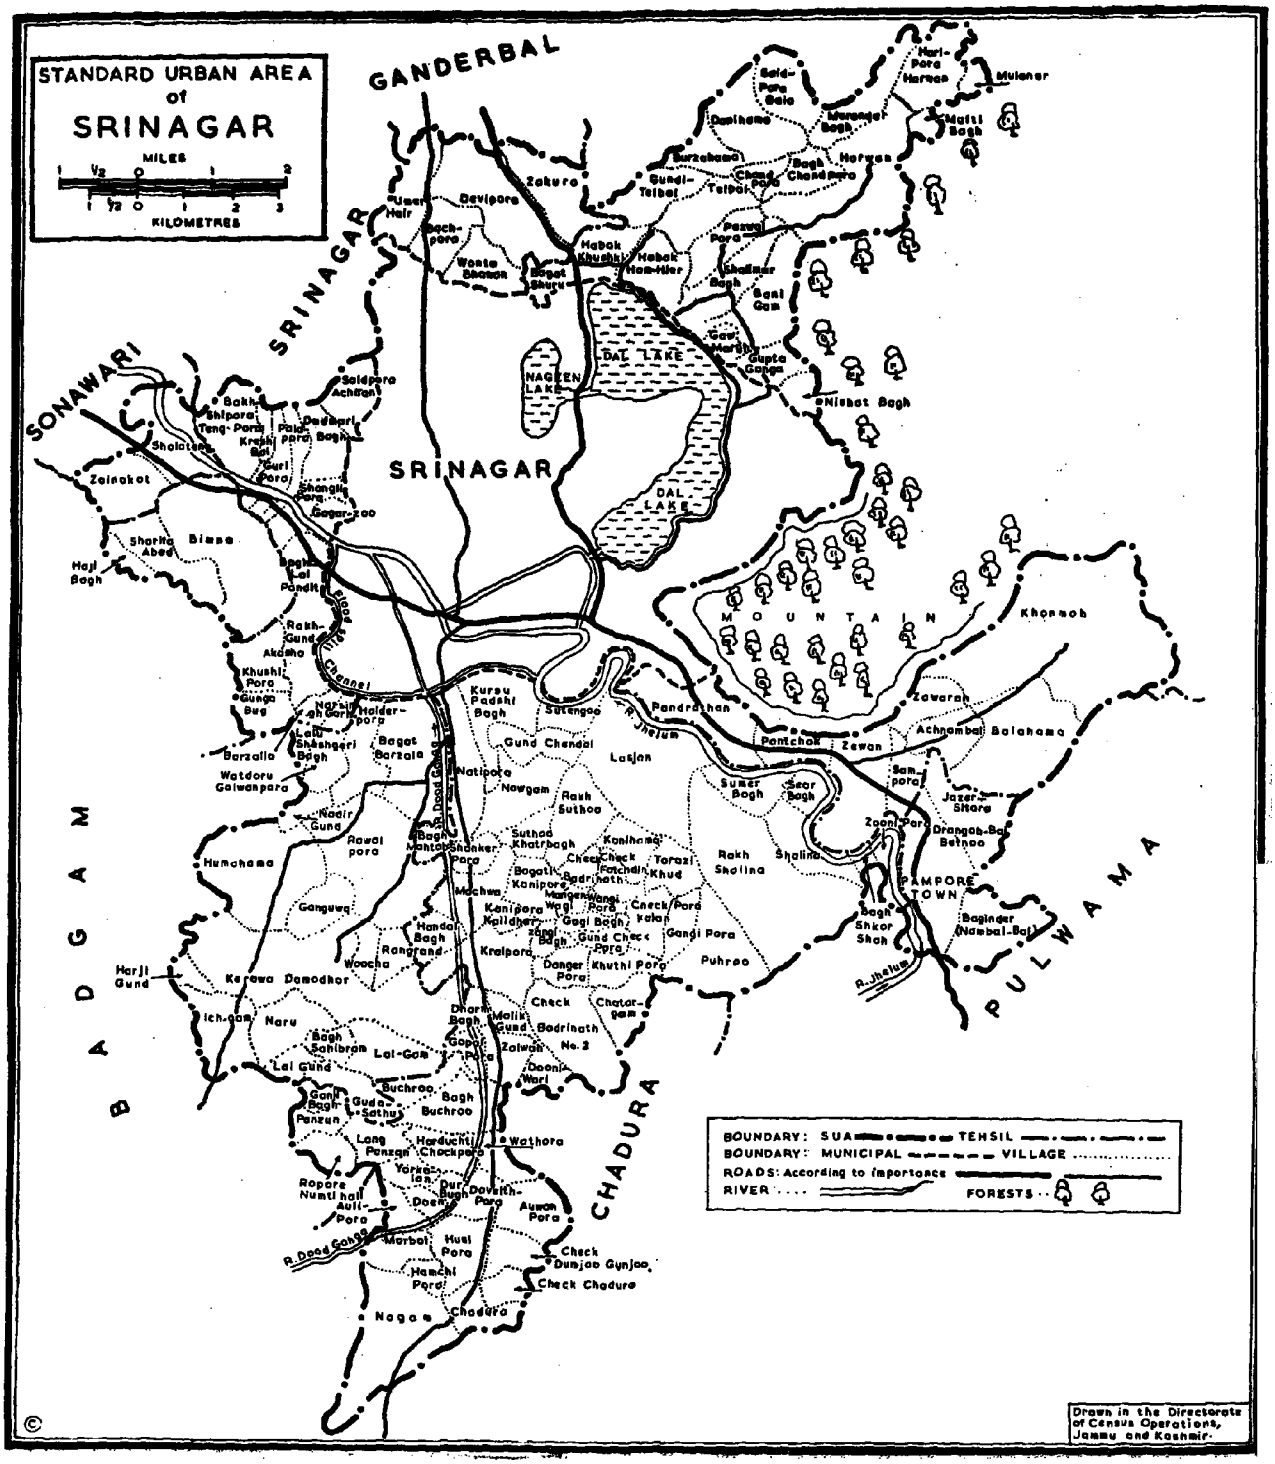

(*a*) Predominant urban land use,

(*b*) Intensive inter-action with the urban centres as reflected in commutation for the purpose of work and secondary education facilities, extension of city bus service, sale of commodities like milk, dairy products, vegetables (other than those transported by rail or truck-haul) and purchase of foodgrains, clothes and general provisions etc. by the consumers directly.

(*c*) Anticipated urban growth as a result of locational decisions relating to industry, market, transport and communication, administrative and social functions, development of tourism etc.

5. *Observation on the strength of 1971 Census statistics relating to Standard Urban Areas*—Some interesting conclusions have been drawn on the basis of 1971 Census figures in respect of the two Standard Urban Areas of the State. These are briefly described in the following paragraphs :—

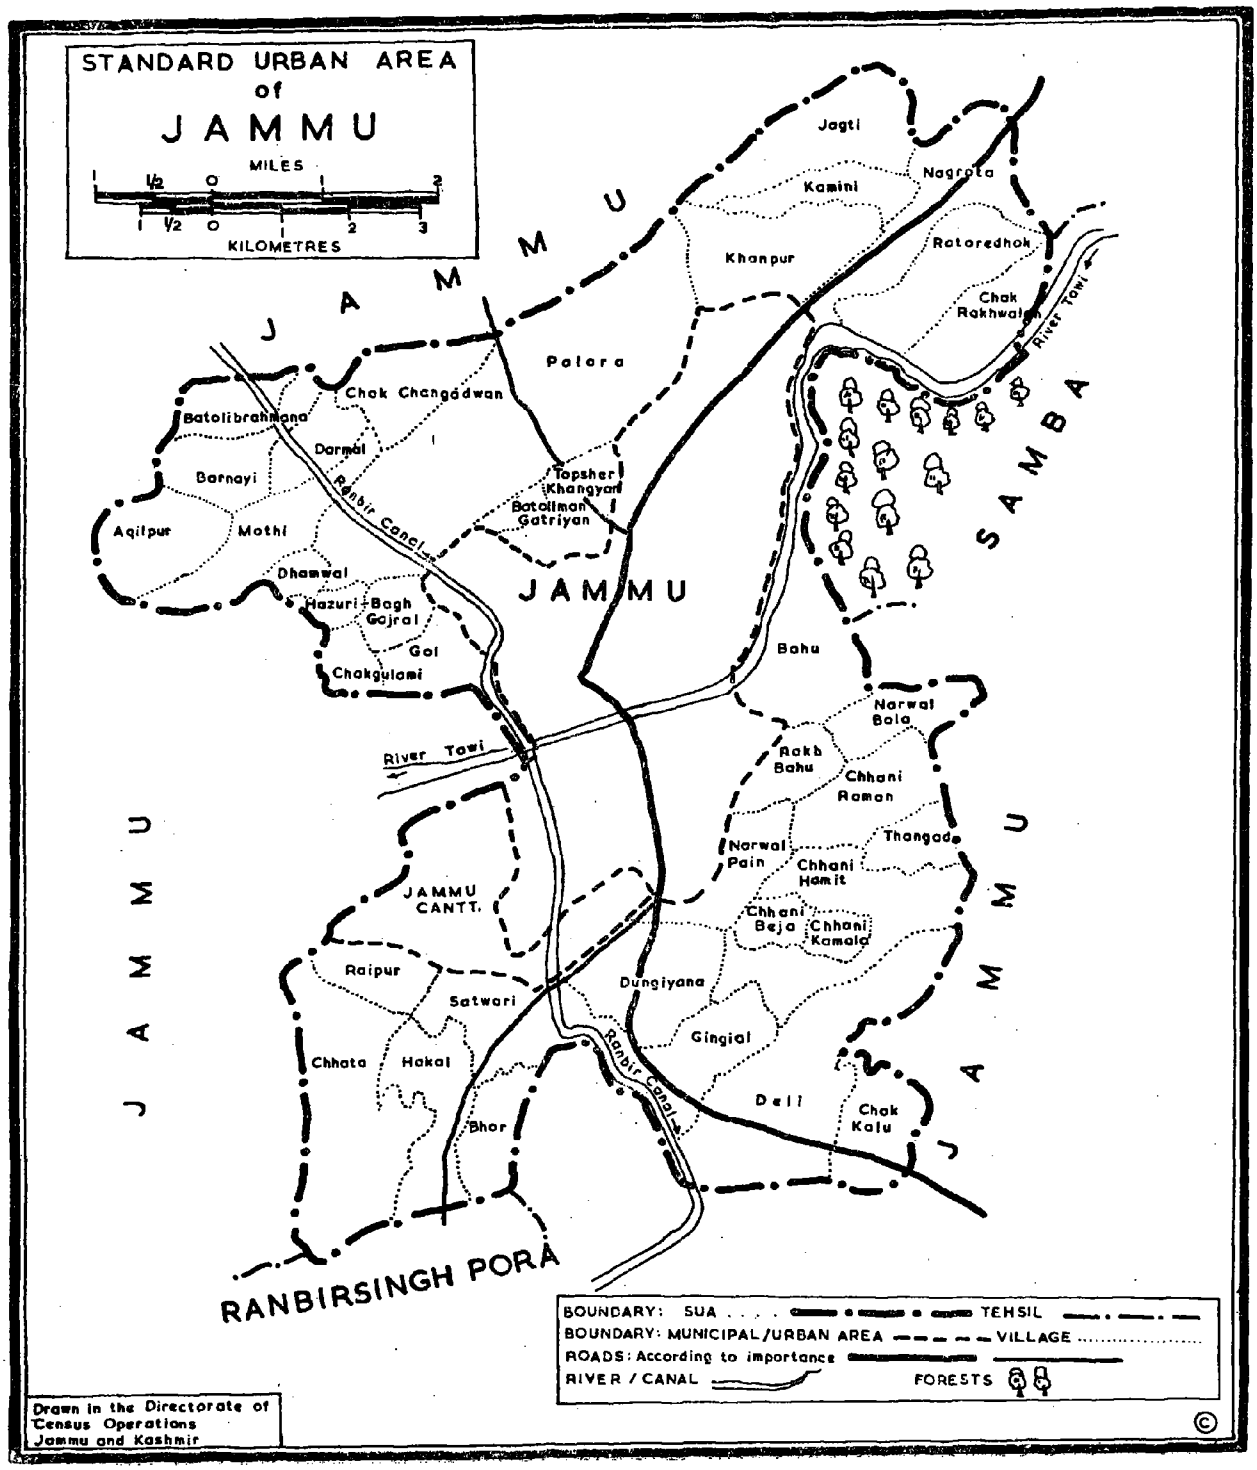

*Srinagar Standard Urban Area*—The total area of the Srinagar Standard Urban Area is 365·05 $Km^2$, and its population in 1971 is 524,776 persons. Of these, 282,608 are males and the rest, numbering, 242,168, females. The sex ratio which works out to 857 shows an improvement of 4 over the sex ratio of Srinagar municipality. It is, however, still poorer than the corresponding ratio of the State which stands at 860.

The density of population per sq. km. is 1,438 as against 1,183 of Jammu Standard Urban Area. Compared to Srinagar municipality, which has a density of 4,867 persons per sq. km., the density of Srinagar Standard Urban Area is apparently low. The reason for low density is that the Standard Urban Area includes a number of suburbs with agricultural lands and open spaces and that accounts for its greater area and lesser density. The above examination conclusively points that the Srinagar Standard Urban Area has ample room for expansion of population without any immediate fear of its pressing upon the means of subsistence.

Only 28 percent of the total population of Srinagar Standard Urban Area is literate. Males who have a literacy percentage of 37 seem better placed than females. The literacy data reveals that only 19 females out of every hundred females are literates. The corresponding literacy rates in the case of Jammu Standard Urban Area are very high and stand at 58 percent for males and 42 percent so far as females are concerned.

Out of every 100 females, as many as 98·3 are non-workers. This number compares favourably with Jammu Standard Urban Area where also about 98 percent of the female population is categorised as non-working. Among males over 51 percent are non-workers.

The industrial classification shows that 118,396 persons or 84 percent of the total workers in the Standard Urban Area are engaged in non-agricultural pursuits. As between different industrial categories, category IX (Other Services) claims the largest number of workers. Next in importance are Manufacturing other than Household Industry (category V(*b*)) and Cultivators (category I). The number of workers engaged in these two categories stands at 19,065

*Jammu Standard Urban Area*—Jammu Standard Urban Area extends over an area of 178·86 sq. kms. The total population is 211,534 persons consisting of 113,677 males and 97,857 females.

The sex ratio is 861 which is better than the corresponding ratios of the State and Jammu municipality which stands at 860 and 856 respectively. The density of population works out to 1,183 persons per sq. km. compared to 3,076 of Jammu municipality. As in the case of Srinagar Standard Urban Area, the low density is due to the inclusion within its limits of a number of rural areas with agricultural lands and open spaces.

Half of the total population inhabiting Jammu Standard Urban Area is literate. In male and female literacy also, Jammu Standard Urban Area shows the best record. The respective male and female literacy rates are very high and stand at 58 and 42 respectively. The general conclusion is that the literacy is spreading at a very high rate which is a very happy augury for the future as the material and moral progress of a country is interlaced with its educational advance.

54,030 persons or about 26 percent of the total population of Jammu Standard Urban Area consists of workers. The male and female workers number 51,483 and 2,547 respectively. The subjoined statement gives the sex-wise number of workers and their percentage distribution among the different categories of workers :—

| Category of workers | Males | | Females | |
|---|---|---|---|---|
| | No. | Percentage | No. | Percentage |
| I. Cultivators . . | 3,397 | 3·0 | 18 | N |
| II. Agricultural Labourers | 1,421 | 1·3 | 34 | N |

| X. Non-workers . | 62,194 | 54·7 | 95,310 | 97·4 |

'N' denotes negligible.

## STANDARD URBAN AREAS

### (Note on Table A-V)

This is a new table introduced for the 1971 Census. The table purports to furnish basic data like civic status, area, density, occupied residential houses, houseless and institutional population. Total population and population according to the two last censuses relating to the Standard Urban Areas and each of its component units (both rural and urban) is also presented in the table. Since, no census could be held in Jammu and Kashmir in 1951, due to disturbed conditions prevailing then, column 16 of the table has been left blank.

# A-V—STANDARD URBAN AREAS

| State/District | Standard Urban Areas and Component Units | Civic Status | Area in Km² | Population Per Km² | Number of Occupied Residential Houses | House-less population | | | Institutional population | | | Total population (including institutional & houseless population) | | | Population during 1951—1971 | | |

*Treated as Notified Area in 1961.

£The entire inhabited portion of the village has come within Urban limits.

T—No Census was conducted in 1951 in Jammu and Kashmir.

Figures in parenthesis against the names of Rural Components indicate the Location Code Number.

M.C.— Municipality, Cantt.—Cantonment, N. A.—Notified Area.

## STANDARD URBAN AREAS

(Note to Appendix to Table A-V)

The appendix gives village-wise basic data, such as, area, number of occupied residential houses and households, total and sex-wise population, number of literate and educated persons and sex-wise distribution of the population into workers and non-workers and of workers into nine broad industrial categories in respect of the component units of the two Standard Urban Areas of the State.

# PRIMARY CENSUS ABSTRACT

# PRIMARY CENSUS ABSTRACT

*(Fly-leaf to Primary Census Abstract)*

1. *Definition of Occupied Census House, Dwelling, Shop-cum-dwelling, Workshop-cum-dwelling, and Household*—The important definitions and concepts involved are briefly described below :—

(*i*) An 'Occupied Census House' is defined as a house used wholly or partly for residential or non-residential purposes.

(*ii*) 'Dwelling' means a census house used entirely for residential purposes.

(*iii*) 'Shop-cum-dwelling' and 'workshop-cum-dwelling' are those census houses which are used for dual purposes of dwelling as well as for the purposes of shop keeping and workshop.

(*iv*) A 'Household' is defined as the entire group of persons who commonly live together and take their meals from a common mess unless the exigencies of work prevent any of them from doing so. A household usually consists of a family group with or without servants. It may also consist of a group of un-related persons or one person living alone.

2. *Statement of percentage of households to number of houses in rural and urban areas*—The statement below gives the percentage of households to census houses found in rural and urban areas of the State:—

| State/District | Total | Rural | Urban |
|---|---|---|---|
| 1 | 2 | 3 | 4 |
| Jammu & Kashmir State | 114·51 | 112·26 | 126·33 |
| Anantnag District . . | 123·40 | 122·63 | 132·36 |
| Srinagar District . . | 128·75 | 120·75 | 138·80 |
| Baramula District . . | 125·09 | 124·03 | 138·63 |
| Ladakh District . . | 106·11 | 104·48 | 126·45 |
| Doda District. . . | 105·62 | 105·49 | 107·65 |
| Udhampur District . | 104·98 | 104·70 | 107·74 |
| Jammu District . . | 105·75 | 102·95 | 114·92 |
| Kathua District . . | 103·13 | 103·03 | 104·03 |
| Rajauri District . . | 107·08 | 107·01 | 108·61 |
| Punch District . . | 105·78 | 105·88 | 104·81 |

The statement when studied closely reveals interesting information about housing accommodation available in the different districts. The rural areas of three valley districts viz., Anantnag, Srinagar and Baramula where living conditions are identical seem to suffer from lack of housing accommodation. In sharp contrast, the hilly districts of Ladakh, Doda, Udhampur, Kathua, Rajauri and Punch present, more or less, a uniform picture. The statement shows that in the rural areas of these districts the percentage of households to number of houses varies from 103 to 107 thereby implying that there is no over-crowding or dearth of housing accommodation. The same applies, though with less emphasis, to the urban sector of Doda, Udhampur, Kathua, Rajauri and Punch districts. The low proportion in the case of Jammu district may be on account of the fact that most of the displaced persons have either been got settled in the houses constructed by the Government or they prefer to live in urban areas where more avenues of employment are available.

It will also be observed that there is a very high percentage (138·80) of households to number of houses in the urban areas of Srinagar district. The high proportion may indicate that the rate of house building activity has not kept pace with the requirements of the growing population. Same reason may be advanced, to some extent, for over-crowding in the case of urban areas of Baramula and Anantnag districts. The high percentage in the case of urban sector of district Ladakh is due to the fact that a large number of Government employees as also businessmen, going there from all over the State, usually live in the rented dwellings. The housebuilding activity is extremely slow because of limited space available for construction of houses and exorbitant rates at which building materials are available. Added to it, the requisite type of skilled labour is not readily available.

The following statement gives the names of the tehsils of various districts in which the percentage of households to the number of houses on the whole is highest among the tehsils of the district concerned—

| District | Tehsil | Total | Rural | Urban |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| Anantnag | Anantnag | 127·34 | 125·97 | 136·09 |
| Srinagar | Srinagar . | 136·65 | 117·76 | 139·51 |
| Baramula . | Handwara | 130·18 | 130·55 | 123·29 |
| Ladakh . | Kargil . | 106·21 | 105·37 | 121·15 |
| Doda . | Ramban . | 108·65 | 109·15 | 101·71 |
| Udhampur . | Ramnagar | 107·38 | 106·44 | 137·42 |
| Jammu | Jammu . | 109·38 | 102·88 | 117·46 |
| Kathua . | Kathua . | 104·53 | 104·78 | 103·68 |
| Rajauri . | Budhal . | 110·24 | 110·24 | .. |
| Punch . | Haveli . | 106·20 | 106·46 | 105·06 |

*3. Statement of density of households per square kilometre in rural and urban areas*—The following statement gives an account of density of households per sq. km. in total, rural and urban areas of the State—

Density of households per sq. km.

| State/District | Total | Rural | Urban |
|---|---|---|---|
| 1 | 2 | 3 | 4 |
| Jammu & Kashmir State | 7·59 | 6·28 | 342·31 |
| Anantnag District . . | 23·85 | 22·05 | 193·32 |
| Srinagar District . . | 41·69 | 22·53 | 581·38 |
| Baramula District . . | 16·31 | 15·10 | 183·38 |
| Ladakh District . . | 0·39 | 0·35 | 176·02 |
| Doda District . . | 4·83 | 4·55 | 96·21 |
| Udhampur District . | 13·63 | 12·39 | 465·89 |
| Jammu District . . | 41·55 | 31·83 | 391·79 |
| Kathua District . . | 18·44 | 16·69 | 596·88 |
| Rajauri District . . | 14·40 | 13·81 | 139·06 |
| Punch District . . | 16·84 | 15·38 | 178·39 |

Generally speaking, the pattern of density of households per sq. km. in a way reflects the economic condition of the area. The better developed areas where cultivable land and irrigational facilities are available in much greater proportions show a higher density in comparison to those which because of difficult terrain and inadequate irrigational facilities are less developed.

Examining the data, contained in the above statement, it will be noticed that the average density of households per sq. km. in the State as a whole is 7·59 . It drops down to 6·28 for rural areas and rises to 342·31 for urban areas.

The density in the rural areas varies between 31·83 per sq. km. in Jammu district and 0·35 per sq. km. in Ladakh district. The density of urban areas is highest in the Kathua district (596·88) and lowest in Doda district (96·21).

*4. Definition of Scheduled Castes, Scheduled Tribes, Houseless Persons, Institutional Population, Literacy and Education*:—Scheduled Castes and Scheduled Tribes are those classes of population for which special safe-guards have been provided by the Constitution under the Constitution (Scheduled Castes) Order 1950 and the Constitution (Scheduled Tribes) Order 1950.

The definition of Scheduled Castes as laid down in Article 49(1) of the State Constitution is reproduced below—

> "Scheduled Castes means the castes, races or tribes or parts of, or groups within castes, races or tribes which are for the purposes of the Constitution of India, deemed to be Scheduled Castes in relation to the State under the Provision of Article 341 of that Constitution."

There are no Scheduled Tribes in Jammu and Kashmir. So far as Scheduled Castes are concerned, the following castes have been deemed to be Scheduled for Jammu and Kashmir according to the Scheduled Castes order of 1956, issued by the President in pursuance of the provisions of Article 341 of the Constitution of India.

1. Barwala
2. Basith
3. Batwal
4. Chamar or Ramdasia
5. Chura
6. Dhyar
7. Doom or Mahasha
8. Gardi
9. Jolaha
10. Megh or Kabirpanthi
11. Ratal
12. Saryara
13. Watal

According to para 6 of Fifth Schedule of the Constitution of India, Scheduled areas are defined, as such areas which the President may, by order, declare to be Scheduled areas.

*Houseless Persons*—Persons who sleep on pavements and live in the open and not in any dwelling houses are termed as houseless persons.

*Institutional Population*—It relates to population enumerated in institutions like a hotel, hostel, boarding house, hospital, penal, charitable or mental institution etc. etc. The institutional households are inhabited by unrelated persons living together.

*Literacy and Education*—The test of literacy for the 1971 Census was satisfied if a person above the age of four could with understanding both read and write. An educated person is one who has passed a written examination of a recognised educational standard.

*5. Definition of Workers and Non-workers, Industrial Classificatory nature of classification of Workers into 9 categories and definition of Household Industry* –The definition of worker and non-worker has already been explained in Prefatory Note to the present volume. In view of the fact that the figures of Primary Census Abstract are being analysed in great details in the coming paragraphs,

some of the important definitions and concepts involved are again discussed briefly for the convenience of the reader and make him acquainted with different terms and concepts.

The following definition of a worker has been adopted for the Census of 1971—

A worker was a person whose main activity was participation in any economically productive work by his physical or mental activity. Work involved not only actual work but effective supervision and direction of work.

The reference period was one week prior to the date of enumeration in the case of regular work in trade, profession, service or business and last one year in the case of cultivation, live-stock keeping and plantation work.

A man or woman who was engaged primarily in household duties, such as, cooking for own household or performing one's own household duties or a boy or a girl who was primarily a student attending institution, even if such a person helped in the family economic activity but not as a full time worker, was not to be treated as a worker for the main activity. In similar manner, a person who merely received an income, such as, a rent receiver or a pensioner who did not have to work for receiving the income, would not be treated as economically active unless the person was also engaged in some economic activity and if that activity was returned as the main activity of the individual.

Summarising, a worker was one whose main activity was in any one of following nine categories—

(*i*) As cultivator

(*ii*) As agricultural labourer

(*iii*) In live-stock, forestry, fishing, hunting and plantations, orchards and allied activities

(*iv*) In mining and quarrying

(*v*) (a) At household industry
(b) In manufacturing other than household industry

(*vi*) In construction

(*vii*) In trade and commerce

(*viii*) In transport, storage and communications

(*ix*) In other services

*I*—A Cultivator was one if he or she was engaged in cultivation by oneself or by supervision or direction in one's capacity as the owner or lessee of land held from Government or as a tenant of land held from private persons or institutions for payment in money, kind or share.

*II*—An Agricultural Labourer is one who worked in another person's land for wages in money, kind or share with no risk in cultivation and no right of lease or contract on land on which he works.

Industrial Categories *III*, *IV*, *V*(b), *VI*, *VII*, *VIII* and *IX* are not defined separately as they are self explanatory.

V(a)—*Household Industry*:—A Household Industry was defined as an industry conducted by the head of the housedhold himself/herself and or mainly by the members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of a registered factory and it should relate to production, processing, servicing, repairing and making and selling (but not merely selling) of goods. It did not include professions, such as, pleader or doctor or barber or washerman or astrologer etc.

X—*Non-Worker*:—A Non-Worker was a person who was not engaged in any economically productive activity. Non-workers were divided into following seven categories:—

(*i*) a person engaged primarily in unpaid home duties (like housewife or other adult females),

(*ii*) a full time student or child atttending school,

(*iii*) a retired person, a rentier, a person living on agricultural or non-agricultural royalty, rent or dividend or any other person of independent means for securing which he does not have to work,

(*iv*) a dependent including a child not attending school or a person permanently disabled from work because of old age or illness,

(*v*) a beggar, a vagrant, or an independent woman without indication of source of income or a person of unspecified source of subsistence,

(*vi*) a convict in jail or an inmate of a penal, mental or charitable institution,

(*vii*) This category covered all those non-workers who did not come under any of the six categories above. This included

persons who were seeking work for the first time and those who were employed before but now out of employment and seeking employment.

6. *Statement of percentage of Scheduled Castes and Scheduled Tribes severally to total males and females by Rural and Urban areas*—The following statement shows percentage of Scheduled Castes separately to total males and females by rural and urban areas of each district and in cities and towns with population of 50,000 and over. Since, there are no Scheduled Tribes in Jammu and Kashmir, the presentation of data in this case is confined to Scheduled Castes only —

*Percentage of Scheduled Castes*

| State/District /City | Males | | Females | |
|---|---|---|---|---|
| | Rural | Urban | Rural | Urban |
| 1 | 2 | 3 | 4 | 5 |
| Jammu & Kashmir State | 9·09 | 3·59 | 9·54 | 3·78 |
| Anantnag District | 0·03 | N | N | .. |
| Srinagar District | N | 0·04 | .. | 0·01 |
| Baramula District | 0·02 | .. | .. | .. |
| Ladakh District | 0·03 | 0·02 | .. | .. |
| Doda District | 9·11 | 2·60 | 9·45 | 2·71 |
| Udhampur District | 20·16 | 11·28 | 20·51 | 11·88 |
| Jammu District | 34·34 | 11·27 | 33·94 | 11·80 |
| Kathua District | 23·28 | 19·49 | 23·00 | 19·96 |
| Rajauri District | 6·50 | 6·71 | 7·02 | 7·30 |
| Punch District | 0·08 | 1·00 | 0·02 | 0·80 |
| Srinagar M.C. | .. | 0·34 | .. | 0·01 |
| Jammu M.C. | .. | 8·02 | .. | 8·26 |

*Note*—(N=Negligible)

It would be observed that Scheduled Caste males and females form 9·09 per cent and 9·54 per cent of the total rural population. In urban areas of the State, 3·59 per cent males and 3·78 per cent females are the members of Scheduled Castes. The corresponding proportions in 1961 stood at 8·8 per cent and 8·9 per cent in rural areas and 3·4 per cent and 3·6 per cent in the urban areas.

The population of Scheduled Castes is highest in Jammu district and lowest in district Ladakh. As a matter of fact, only 14 males inhabit both the rural and urban areas of Ladakh district. There is no Scheduled Caste female either in rural or urban areas of the district. From the statement, it is also clear that Scheduled Castes are mostly found in the districts of Doda, Udhampur, Jammu, Kathua and Rajauri. The four districts of Kashmir Province and Punch district of Jammu Region have returned a very little population of Scheduled Castes.

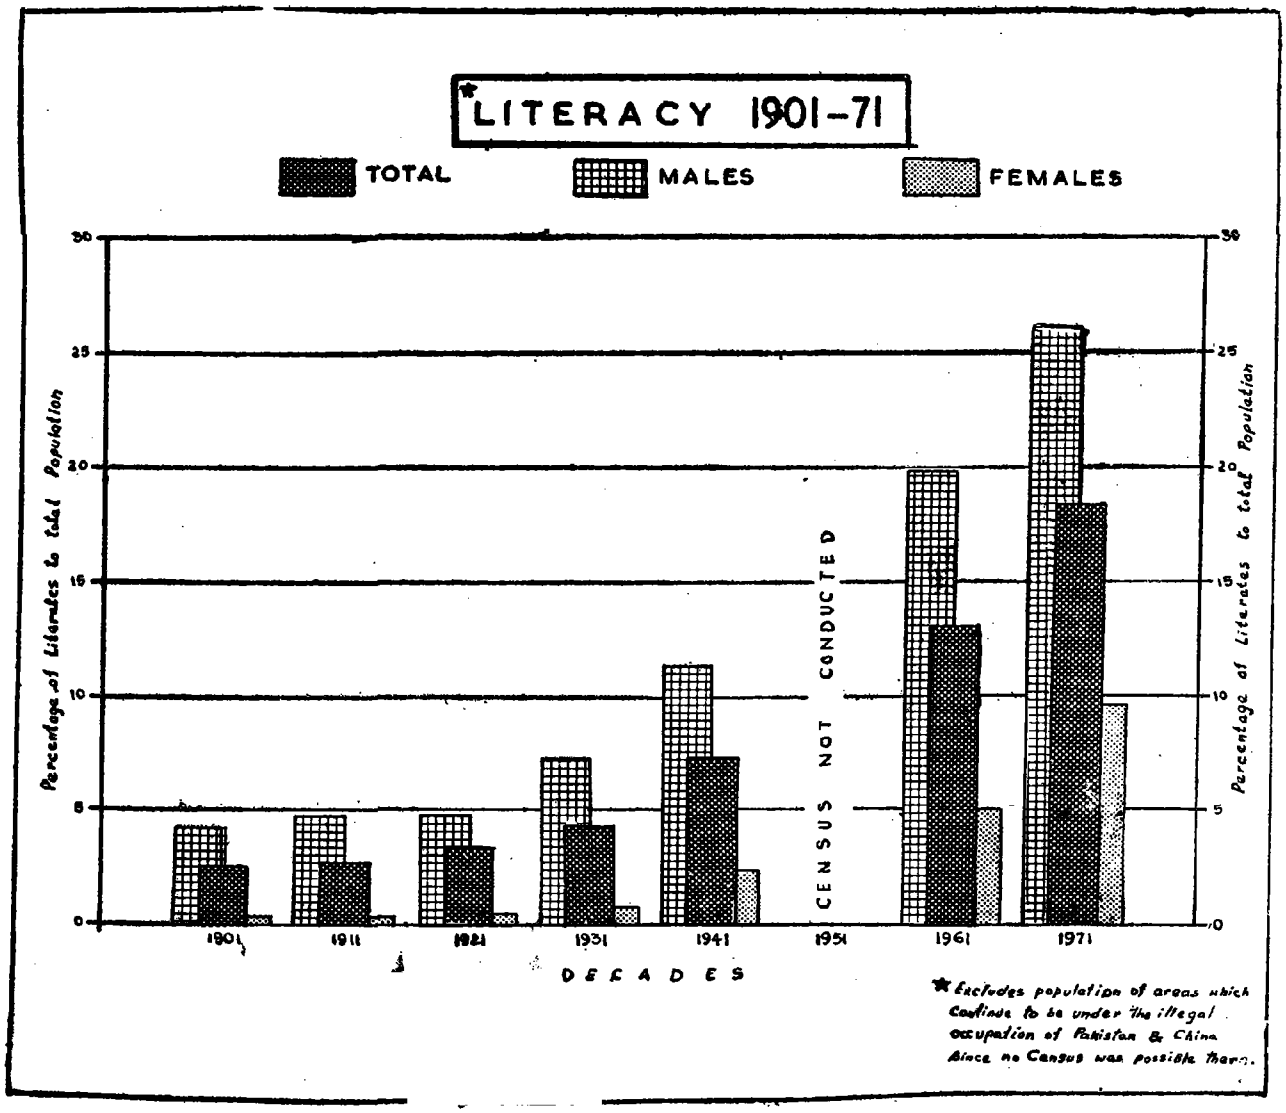

The percentage of Scheduled Castes in towns where the proportions are higher than the average of the State is given below: —

*Percentage of Scheduled Castes*

| Name of the Town | Males | Females |
|---|---|---|
| 1 | 2 | 3 |
| Arnia | 38·43 | 39·00 |
| Ranbirsinghpora | 32·16 | 32·44 |
| Bishna | 25·05 | 25·50 |
| Samba | 24·44 | 25·53 |
| Ramnagar | 24·32 | 22·41 |
| Kathua | 22·60 | 23·34 |
| Katra | 22·40 | 25·90 |
| Jammu Cantonment | 17·97 | 18·11 |
| Akhnoor | 13·98 | 14·16 |
| Hiranagar | 13·38 | 13·82 |
| Bashohli | 12·54 | 11·91 |
| Nowshehra | 11·12 | 11·09 |
| Reasi | 9·44 | 10·24 |
| Udhampur | 7·47 | 7·75 |
| Batote | 6·51 | 6·70 |
| Ramban | 6·43 | 7·81 |
| Lakhenpur | 5·38 | 5·32 |
| Rajauri | 4·87 | 5·74 |

Amongst the various towns, Arnia town of Ranbirsinghpora tehsil in Jammu district has a very large concentration where 38·43 per cent males and 39·00 per cent females are members of Scheduled Castes. The other two towns of this tehsil viz; Ranbirsinghpora and Bishna also have large concentrations of Scheduled Castes and occupy second and third position respectively. Other important towns, where the proportion of Scheduled Castes to the total population is fairly good, include Samba (Jammu district), Ramnagar and Katra (Udhampur district), and Kathua (Kathua district).

*rural and urban areas*—The statement given below indicates the percentage of literate and educated persons to total population, males and females by rural and urban areas of the various districts of the State, urban agglomerations and towns of 50,000 and over:—

*Percentage of Literate and Educated persons to total population*

| State/District/Town | Rural | | | Urban | | |
|---|---|---|---|---|---|---|
| | Persons | Males | Females | Persrons | Males | Females |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
| Jammu and Kashmir State | 14·11 | 22·17 | 4·98 | 38·17 | 46·60 | 28·38 |
| Anantnag District | 13·61 | 22·06 | 3·63 | 28·94 | 39·41 | 16·77 |
| Srinagar District | 10·91 | 18·00 | 2·51 | 32·03 | 40·32 | 22·33 |
| Baramula District | 11·54 | 19·23 | 2·45 | 30·50 | 40·23 | 19·18 |
| Ladakh District | 10·96 | 19·94 | 1·85 | 34·09 | 47·83 | 18·04 |
| Doda District | 11·90 | 20·09 | 2·68 | 46·50 | 56·70 | 34·57 |
| Udhampur District | 12·26 | 19·30 | 4·53 | 52·37 | 59·29 | 44·38 |
| Jammu District | 22·06 | 31·25 | 12·28 | 53·72 | 61·03 | 45·27 |
| Kathua District | 19·47 | 28·03 | 10·19 | 43·18 | 52·03 | 33·43 |
| Rajauri District | 13·23 | 20·93 | 4·70 | 44·34 | 52·88 | 34·17 |
| Punch District | 11·87 | 20·45 | 2·38 | 45·86 | 54·79 | 35·74 |
| Srinagar (M.C.) | | | | 32·28 | 40·54 | 22·58 |
| Jammu (M.C.) | | | | 57·43 | 64·19 | 49·46 |
| Srinagar (U.A.) | | | | 32·03 | 40·32 | 22·33 |
| Jammu (U.A.) | | | | 56·29 | 63·17 | 48·22 |

The foregoing statement, when compared with its counterpart in 1961, reflects the rapid growth of literacy in the State during the decade 1961-71. The percentage of rural literates has almost doubled in last 10 years and appreciably increased so far as urban sector is concerned. The following statement ranks the districts in rural literacy rates for 1971 and 1961—

*Literacy rates in 1971 and 1961*

| Rank in 1971 | District | Rate per 1,000 (rural) | | Rank in 1961 |
|---|---|---|---|---|
| | | 1971 | 1961 | |
| 1 | Jammu | 221 | 110 | 1 |
| 2 | Kathua | 195 | 99 | 2 |
| 3 | Anantnag | 136 | 74 | 4 |
| 4 | Rajauri | 132 | 62 | 9 |
| 5 | Udhampur | 123 | 67 | 7 |
| 6 | Doda | 119 | 72 | 5 |
| 7 | Punch | 119 | 66 | 8 |
| 8 | Baramula | 115 | 68 | 6 |
| 9 | Ladakh | 110 | 77 | 3 |
| 10 | Srinagar | 109 | 59 | 10 |

Jammu district which had 11·0 per cent literate rural population in 1961 has retained its first position (22·1 per cent) in 1971 also. Among other districts, Anantnag and Punch have moved by one place, Udhampur two places and Rajauri by five places. Kathua and Srinagar have retained their respective places but Baramula, Ladakh and Doda have moved down.

In the case of urban areas of the State, there has been an over-all increase of 9·9 per cent in the number of literate persons during the decade. Doda with a decadal increase of 14·5 per cent in urban literacy tops the list. Udhampur only ranks next, the percentage increase in urban literacy in this case being 12·5. The literacy rates in respect of other districts have also gone up considerably during 1961-71 as is evident from the subjoined statement—

*Urban literacy rates 1961 and 1971*

| District | 1961 literacy percentage | 1971 literacy percentage | Decadal percentage variation |
|---|---|---|---|
| 1 | 2 | 3 | 4 |
| Anantnag | 17·0 | 28·9 | 11·9 |
| Srinagar | 24·8 | 32·0 | 7·2 |
| Baramula | 18·4 | 30·5 | 12·1 |
| Ladakh | 22·1 | 34·1 | 12·0 |
| Jammu | 41·5 | 53·7 | 12·2 |
| Kathua | 31·1 | 43·2 | 12·1 |
| Rajauri | 38·4 | 44·3 | 5·9 |
| Punch | 34·7 | 45·9 | 11·2 |

Among cities, Jammu has a very high percentage of 57·42 literate persons as against 32·27 per cent of Srinagar. The corresponding proportions of these two cities in 1961 stood at 45·0 and 24·8 respectively.

The following statement shows towns with proportions higher than the average of the State—

*Towns with proportions higher than the average of the State*

| Name of Town | Percentage of Literate and Educated Persons | | |
|---|---|---|---|
| | Total | Males | Females |
| Gulmarg . . | 44·20 | 45·16 | 34·04 |
| Uri . . . | 42·89 | 54·55 | 28·86 |
| Kishtwar . . . | 43·88 | 54·80 | 32·36 |
| Bhaderwah . . . | 46·42 | 54·70 | 37·57 |
| Doda . . . | 46·48 | 59·52 | 29·63 |
| Batote . . . | 48·58 | 58·60 | 36·02 |
| Ramban . . . | 47·25 | 53·44 | 39·03 |
| Banihal . . . | 57·64 | 65·30 | 45·33 |
| Ramnagar . . . | 45·26 | 52·75 | 37·29 |
| Chenani . . | 44·97 | 54·40 | 33·05 |
| Udhampur . . . | 57·00 | 62·86 | 50·25 |
| Katra . . . | 42·68 | 51·23 | 32·70 |
| Reasi . . . | 49·99 | 58·57 | 39·82 |
| Samba . . . | 43·23 | 52·54 | 33·51 |
| Ranbirsinghpora . . | 40·75 | 50·13 | 30·72 |
| Akhnoor . . . | 47·85 | 56·95 | 37·76 |
| Bashohli . . . | 48·32 | 54·69 | 41·27 |
| Lakhenpur . . . | 47·40 | 56·94 | 34·60 |
| Kathua . . . | 40·92 | 50·09 | 30·73 |
| Hiranagar . . . | 48·42 | 58·12 | 38·60 |
| Rajauri . . . | 43·41 | 52·31 | 32·84 |
| Nowshehra . . . | 46·58 | 54·25 | 37·39 |
| Punch . . . | 47·27 | 55·84 | 37·53 |

In this group, Banihal (57·64%) is at the top followed by Udhampur (57·00%) and the lowest is Ranbirsinghpora (40·75%) of Jammu district. Banihal and Udhampur respectively take the honours so far as male literates (65·30%) and female literates (50·25%) are concerned. The lowest proportions of male and female literates have been returned from Gulmarg (45·16%) and Uri (28·86%) respectively.

8. *Statement indicating distribution of 1,000 persons, males and females of Rural and Urban areas*— The statement on page 156 gives the distribution of the male and female population among non-workers and workers, workers being further classified by nine industrial categories.

The enclosed statement when compared with its counterpart in 1961, reflects the impact of the change in the definition of workers on participation rates especially in the case of females. It would be observed that there has been a fall of 5·3 per cent in the male working force in Jammu and Kashmir during the past decade. The fall in the case of female working force is very sharp and works out to 21·7 per cent. As already stated, the significant drop in the female working force is attributed to the change in the definition of working persons adopted at the current census. At the time of 1961 Census, many persons were treated as workers, even though they were basically non-workers, like house-wives and students despite their marginal participation in economic activity. Even an hour's work a day qualified them to be treated as workers. At 1971 Census, every individual was required to declare himself/herself what according to him/her was his/her main activity. If his/her answer indicated that he/she was economically active worker, he/she was classified as working.

With this change in the definition of work in our mind, let us now examine the data on working force collected at the 1971 Census. It would be noticed that the great bulk of male participation is claimed by categories I(Cultivators), IX(Other Services) and VII (Trade & Commerce). The industrial categories accounting for a substantial proportion of female participants are I (Cultivators) and IX (Other Services). Leaving aside, category III (Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied Activities) and category V (*a*) (Household Industry), the female participation in all other categories is negligible

## Statement showing distribution of 1,000 Persons, Males and Females of Rural and Urban Areas.

NOTE :—"N" denote negligible figures.

Among districts, the highest percentage of working force for both sexes is found in Ladakh district, their respective proportions being 579 and 292. The rural and urban areas of Ladakh district have also the rare distinction of returning the highest proportions of working male and female population in the State.

As between industrial categories, it will be seen that the largest percentage of workers of both sexes has been returned as Cultivators in all the districts. Proportion of workers, in Other Services (Category IX), represents the next important group. The next in order of importance is Trade and Commerce (Category VII) in the case of male participants and Household Industry (Category V-a) in so far as female workers are concerned. Mining and Quarrying (Category IV) is conspicuous for recording the least number of workers of both sexes.

Out of every 1,000 persons in the State, as many as 702 are categorised as non-workers. The district-wise data reveals that there is a general preponderance of female non-workers over male non-workers in all the districts which is obviously as expected. The proportion of non-workers is highest in Jammu district with 756 and lowest in Ladakh district where it stands at 562. In rural areas of the State, Jammu district again leads with 760 while Ladakh once again comes last with 560.

In the urban sector, Punch district tops the list with 769, whereas Ladakh, in this case, has again distinguished itself by recording the least number of non-workers which stands at 590 per 1,000 population

The two cities of Srinagar and Jammu more or less present a uniform picture so far as the distribution of male and female population among workers and non-workers is concerned.

9. *Sex ratio among workers and non-workers*— The following statement gives the sex ratio (females per 1,000 males) among total population, total workers, each of the nine industrial categories of workers and among non-workers in rural and urban areas of each district and in cities and urban agglomerations :—

**Statement of Sex Ratio (Females per 1,000 Males)**

| Jammu Urban Agglomeration | Urban | 36 | 8 | 33 | 4 | 12 | 136 | 1,525 |
| Srinagar M.C. | Urban | 24 | 8 | ... | 4 | 3 | 89 | 1,595 |
| Jammu M.C. | Urban | 44 | 8 | 34 | 4 | 12 | 138 | 1,524 |

It would be observed that the sex ratio for the entire State is 878 which varies between 882 in rural areas to 860 in urban areas. The sex ratio among the working population of the State as a whole is 65 as against 389 in 1961. The sex ratios among workers in the rural and urban areas are very disproportionate, there being 69 female workers in the rural areas of the State as compared to 45 in the urban sector. The corresponding ratios in 1961, though also disproportionate, were very high and stood at 440 and 96 respectively. The heavy fall in the proportion of female workers reflects the impact of the change in the definition of worker adopted at the current census.

As between different industrial categories, the proportions of female workers per 1,000 male workers are highest among categories III (Live-stock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied Activities) and V (*a*) (Manufacturing-Household Industry) which respectively engage 165 and 117 females per 1,000 males. It is obvious that the higher ratios of female participants in the industrial categories III and V(*a*) have pulled out of shape the similar ratio for other categories. The categories in which sex ratios are comparatively very low are indicated below :—

| Industrial Category | Sex-ratio |
|---|---|
| i. Trade and Commerce (category VII) .. | 5 |
| ii. Transport, Storage and Communications (category VIII) .. .. .. | 7 |
| iii. Mining and Quarrying (category IV) .. | 7 |

Amongst districts, sex ratios show very wide variations in all the categories. It will be interesting to note that the sex-ratios among total workers in the hilly districts of Ladakh and Doda are very high and stand at 492 and 220 respectively. Leaving aside Ladakh and Doda, the only other district which claims a higher sex ratio than the State ratio is Udhampur. The lowest sex ratio among workers has been reported from district Punch where only 12 females per 1,000 males are workers.

In the State as a whole, there are 1,777 non-worker females for every thousand male non-workers. The ratios for rural and urban areas are 1,827 and 1,586 respectively. The corresponding ratios in 1961 were comparatively low in the case of rural areas but slightly high in so far as the urban sector is concerned. Amongst districts, the highest sex ratio among non-workers is claimed by Udhampur (1,945), followed by Punch (1,876) and lowest in Ladakh (1,639).

## PRIMARY CENSUS ABSTRACT

(Note on Primary Census Abstract)

The table is presented in two parts. The first of these i.e., Union Primary Census Abstract gives information upto district level whereas the second part i.e., State Primary Census Abstract furnishes similar statistics down to tehsil/town level.

Both the tables furnish area in sq. kms., number of occupied residential houses, households, total population by each sex, population of Scheduled Castes and Scheduled Tribes. As there are no Scheduled Tribes in the State, the presentation of data is confined to Scheduled Caste population only. Additionally, the table gives the number of literate and educated persons, the working population classified into 9 broad industrial categories and non-workers as a separate category.

The table is similar to its predecessor in 1961 except for some minor alterations. The figures of Mining and Quarrying have been separated from category III and shown as a separate category i.e., IV. Similarly, the 1961 category IV of Household Industry is included in category V—Manufacturing etc.—treating it as a sub-category.

The Primary Census Abstract summarises the most important demographic information and forms the basis for subsequent detailed census tabulation.

NOTE :—

‡ Includes 78,932 Km² under illegal occupation of Pakistan and 5,180 Km² illegally handed over by Pakistan to China. Also includes 37,555 Km² under illegal occupation of China.

*Represents provisional "geographical area figures" supplied by the Surveyor General. Figures for Urban areas are those supplied by the Local Bodies. Area figures for Rural areas are derived by subtracting the Urban area from the Total area of the district.

† Includes 37,555 Km² under illegal occupation of China.

NOTE:—

‡Includes 78,932 Km² under illegal occupation of Pakistan and 5,180 Km² illegally handed over by Pakistan to China. Also includes 37,555 Km under illegal occupation of China.

* Represents provisional "geographical area figures" supplied by the Surveyor General. Figures for Urban areas are those supplied by the Local Bodies. Area figures for Rural Areas are derived by subtracting the Urban area from the Total area of the District. The total of the area figures of the Tehsils will not tally with the District figures because the former represent 'Land Use' area and are derived from the figures supplied by the Revenue Department.

@ Includes 37,555 Km² under illegal occupation of China.

† Consolidated figures of Srinagar Urban Agglomeration which spread over Srinagar, Chadura and Badgam Tehsils are given at the end as an Appendix.

# AREA, HOUSES AND POPULATION OF INDIA

*Note on All India Table A-I*

All India Table A-I gives the statistics for each State and Union Territory. The table furnishes area in sq. kms., the density of population per sq. km. number of villages both inhabited and uninhabited; number of towns; number of occupied residential houses ; number of households and finally the total population shown sex-wise according to the 1971 Census. The data has been presented separately for total, rural and urban.

The table differs from the corresponding table of 1961 inasmuch as the column relating to sex-ratio has been omitted at the present census.

# ALL INDIA TABLE A-I

NOTE:—

The total area figures given for states and union territories are "provisional" as on 1st July, 1971 except for the Andaman and Nicobar Islands which are as on 1st January, 1966 and based on the area figures supplied by the Survey of India.

For India and Jammu and Kashmir area figures include 78,932 km² under the illegal occupation of Pakistan and 5,180 km² illegally handed over by Pakistan to China. They also include 37,555 km² under the illegal occupation of China.

The urban area figures are those as supplied by the local bodies or state authorities. The rural areas of the states have been derived by subtracting the urban area supplied by local bodies or state authorities from the total as supplied by the Survey of India.

Area figures are rounded off to the nearest integer in respect of states/union territories.

In the states where urban areas for some units are not available their respective areas have got included in the rural area.

The rural and urban area figures for India do not include rural and urban figures for Arunachal Pradesh since these are not available separately

'Occupied Residential Houses' do not include the number of houses occupied by Indian nationals and their families (population 8,099) in Indian missions abroad, the data for which have been included in the population figures of Delhi union territory for total and urban.

*Includes Union Territory of Mizoram which was carved out of Assam after the 1971 Census.

£Some changes in the area figures, due to computational error, were intimated by the Surveyor General of India, after the publication of Part I-A of Andhra Pradesh and Orissa. Hence these figures will not tally with those published in Part II-A of Andhra Pradesh and Orissa.

N.A.—Not available.

# LIST OF AGENTS FOR THE SALE OF GOVERNMENT OF INDIA PUBLICATIONS AS ON 31-3-70

| Station | Serial No. | Name of the Party | Cat. of Agents |
