PREFACE

The present volume contains basic population data of the State as it emerged out of the Census of 1971. Apart from giving the area, the number of houses and population of the State it also shows the decadal variation in population of the State since 1901. The present volume gives the picture of the villages of the State classified by population and the growth of towns over the last seventy years. The 1971 Census was conducted during the period 10th March, 1971 to 31st March, 1971 with the sunrise of 1st April, 1971 as a reference date. The data given in the volume are based on full cou n done during the Census.

The present volume also gives the population of the State as classified into Scheduled Castes and Scheduled Tribes, literate and educated persons, non-workers and workers engaged as cultivators or agricultural labourers and in various manufacturing, processing and other services.

The Introductory Note in the beginning of this volume indicates the basis on which these data were collected. In the Appendix to this Introductory Note a copy of the Individual Slip and instructions to fill it have been given to facilitate the reader to know the methodology which was used during 1971 Census to collect these data. Each table has been introduced with a flyleaf to help the reader to appraise the importance of the data presented therein.

The data represented in this volume are the result of the huge task performed by an army of dedicated and devoted enumerators. Performance of such a gigantic task could be accomplished only because of the unstinted co-operation extended by the people of the State. I am sincerely grateful to the people of the State and the State Government as also to all the District Officers and their supporting staff without whose help and interest collection of these data might not have been possible.

The data so collected in millions of Individual Slips were processed and compiled in eleven Regional Tabulation Offices under the control of Deputy Directors of Census Operations, who along with their supporting staff deserve my thanks for timely compilation of these figures and preparation of tables presented in this volume. At headquarters, the tables were ably scrutinised by the Centra Tabulation Unit headed by Shree U. P. Shrivastava, Deputy Director of Census Operations, who deserves my sincere thanks for his commendable work. For the preparation and printing of this volume I am also thankful to Sarvshree R. B. Singh, Investigator, P. N. Sinha, S. M. Nehaj Hossain, Tabulation Officers, Sheo Prasad, Printing Inspector and the staff aiding them all of whom ably assisted me in getting this volume printed.

I wish to express my gratitude to Shree A. Chandra Sekhar, Registrar General and Census Commissioner of India for his valuable guidance and inspiration in shaping the contents of this volume. I am much thankful to Shree K. K. Chakravorty, Assistant Registrar General and his Central Tabulation Unit for scrutinising the tables and giving valuable suggestions. I am also grateful to Shree N. Das Gupta, Manager, Government of India Press (K.S.R. Unit), Santragachi, Howrah, and to Shree R. C. Bhar, Investigator, office of the Director of Census Operations, West Bengal for their keen and careful interest in expediting the printing of this volume.

INTRODUCTORY NOTE

The Census of 1971 which was 11th in the All India series marked the centenary of this gigantic operation which began in 1872. According to the original programme the enumeration was to be done from the 10th February, 1971 to the 3rd March, 1971 with the sunrise of 1st March, 1971 as the reference date. But due to the mid-term elections to Lok Sabha in early March, 1971 the enumeration was done from the 10th of March to 3rd of April, 1971 with the sunrise of 1st April, 1971 as the reference date.

During the enumeration period an Enumerator visited each and every household within his jurisdiction and enumerated the following persons :

(*i*) All the members of the household found present at the time of his visit ;

(*ii*) persons who were normal residents of household but had left the house after 10th March, 1971 ;

(*iii*) members who were normal residents of the household but had left the house before 10th March but were likely to return before the 31st March, 1971 ; and

(*iv*) visitors present in the household who had been away from the place(s) of their usual residence during the entire enumeration period.

The enumeration of houseless persons was done in the night of 31st March, 1971. The enumeration was done by means of Individual Slips. One Individual Slip containing 17 questions was filled in for every person. The Individual Slip contained questions for eliciting information on the demographic, social and economic characteristics of the population. The Individual Slip and Instructions to Enumerators for filling in the questions in the Individual Slip are reproduced in Appendix to this note.

Revisional Round

During the period 1st April to 3rd April, 1971 the Enumerator visited all the households in his jurisdiction to make his records up-to-date with reference to the sunrise of 1st April, 1971. He enumerated children born in the household after his last visit and before the sunrise of 1st April, 1971 and cancelled the slip of a person who had unfortunately died since his last visit to the household and before the sunrise of 1st April, 1971. The enumerator also enumerated visitor(s) in the household who had not been enumerated anywhere due to his/their absence from his/their normal place of residence throughout the entire enumeration period.

Organisation of Census Operations

The formation of census divisions is the first important stage of Census work. In Bihar the list of villages is found in Thana Jurisdiction Lists. All these villages are shown in the Revenue Thana Maps also. These two are the basic documents of the State Government regarding the comprehensive list of villages. The Census Register for rural areas which included the names of all the villages of a charge were prepared with the help of Thana Jurisdiction Lists and the District Census Handbooks of 1961 Census for all the charges by the Subdivisional Officers. In preparing the registers the assistance of the Block Development Officers/Anchal Adhikaris, etc., was taken. Similarly, Census Register for urban areas was prepared by the Subdivisional Officers with the help of Executive Officers of Municipalities or Notified Area Committees or Block Development Officers, etc. After preparation of these registers it was ensured that all areas were covered and no area was duplicated.

The lowest unit of a census division is a Block in which an Enumerator was required to do the work of Census. A Block was normally to contain 750 persons or 150 households in rural areas and 600 persons or 120 households in urban areas. Each Revenue *Mauza*, howsoever small was, however, treated as a Census Block. Thus even if a Revenue *Mauza* contained only one person it was treated as a separate Block. A group of 4 or 5 Blocks constituted a Circle which was in charge of a Supervisor. Each Development Block and town was treated as a charge. The Charge Superintendent was responsible for the Census work in his charge.

With the help of the Census Register for rural areas and the Census Register for urban areas Charge Register for each charge was prepared. In the Charge Register all the Blocks were entered with serial numbers 1 onwards. Besides other information, the boundaries of the Blocks were written in the Charge Register so that there was no confusion in locating a Block on the ground. The Blocks and Circles were demarcated on the Revenue Thana Maps also.

The second important stage is the building up of the field organisation. The Collector of the district was in overall charge of the Census and he looked to the successful and timely completion of the programme in his district. He was assisted by a District Census Officer who was selected from among the Deputy/Sub-Deputy Collectors posted at the district headquarters. The Subdivisional Officer was responsible for

implementing the programme in his subdivision. Each Subdivisional Officer had declared one of the Deputy/Sub-Deputy Collectors posted at the subdivisional headquarters as Subdivisional Census Officer to assist him in census work. This was the first time that Subdivisional Census Officers came into being in Bihar. The Block Development Officers/Prakhand Vikash Padadhikaris/Project Executive Officers were put in charge of Census work in their C. D. Blocks. They were designated as Charge Superintendents. In Municipalities, Notified Areas, the Chairman/Vice-Chairman was the Charge Superintendent duly assisted by the Executive Officer posted in these Municipalities and Notified Areas. In the superseded Municipalities Special Officers/Administrators functioned as Charge Superintendents.

The third important stage was houselisting operation which was conducted in May, 1970 in all the areas of the State except in the Sadar Subdivision and Siwan Subdivision of the district of Saran where the operation had to be shifted to June, 1970 to avoid its clash with the Gram Panchayat elections. During houselisting two schedules, viz., (*i*) Houselist and (*ii*) Establishment Schedule were filled in. In the former information about materials of walls and roofs, the use to which a house was put and certain details about the households living in the house were entered and in the latter information about the establishments located in the houses was collected. The tables prepared from the information collected in the Houselist are presented in Part IV and those prepared from the information collected in the Establishment Schedule are presented in Part III-B relating to this State.

The fourth important stage was the actual count. The enumeration was spread over a period of twenty-five days, i.e., from the 10th March to 3rd April, 1971. Since the Holi festival fell on the 12th March the work started in all seriousness from the 15th March. During the enumeration period the Enumerator visited each and every household within his Block and filled in one Individual Slip for every person enumerated. The enumeration of houseless persons was done on the night of 31st March, 1971.

The fifth and the last stage consisted of revisional round and reporting of provisional figures. The work of revisional round began from 1st April, 1971 and was completed by 3rd April, 1971. After completing the revisional round the Enumerator filled in Enumerator's Abstarct and handed it over to the Supervisor along with other papers. After receipt of Enumerator's Abstracts from all the Enumerators, the Supervisor immediately prepared the abstract for his circle and handed it over to the Charge Superintendent Similarly, on receipt of the abstracts from all the Supervisors the Charge Superintendent prepared the abstract for his charge and despatched the same to the Subdivisional Officer through special messenger. Steps were taken to see that the abstracts were sent from one stage to the next higher stage quickly. The Subdivisional Officers were required to communicate the figures to the Director of Census Operations as also to their Collectors on telephone. The Collectors were required to report the figures to the Registrar General, India by Express Telegram. They were also required to communicate the figures to the Director of Census Operations on telephone. The provisional population figure of Bihar was reported to the Registrar General on the 6th April, 1971.

Although the provisional population figures were collected in great hurry the difference between the provisional population figure which was 56,387,296 and the final population figure which came to 56,353,369 was 33,927, i.e., off by 0.06 per cent only.

Table

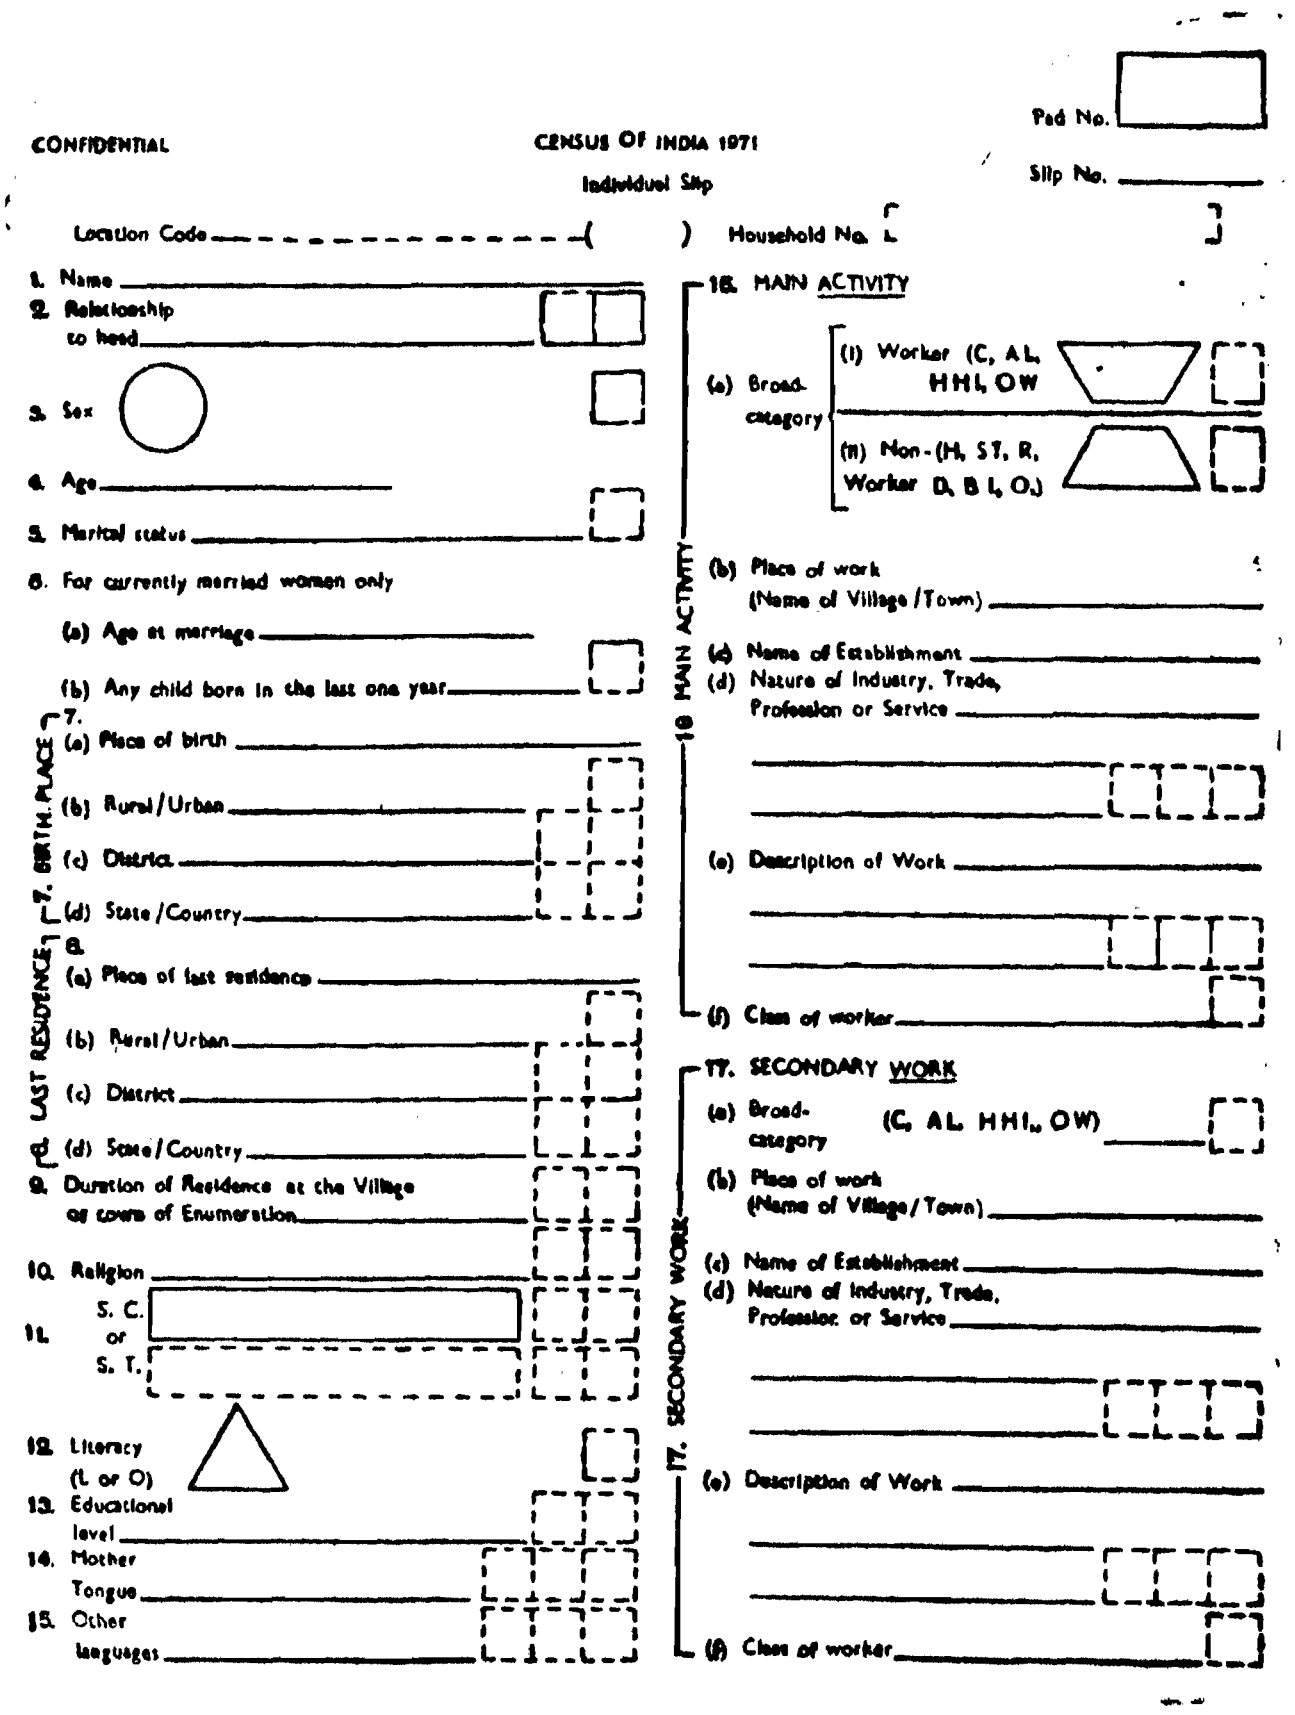

This volume contains General Population Tables (known as A-Series Tables and the Primary Census Abstract). The following tables have been presented in this volume :

1. Table A-I : Area, Houses and Population.
2. Annexure to Table A-I : Statement showing Urban Agglomerations and their constituents.
3. Appendix I to Table A-I : Statement showing 1961 Territorial Units constituting the present set up of Bihar State.
4. Sub-Appendix to Appendix I : Statement showing the area for 1961 and 1971 for those towns which have undergone changes in area since 1961 and population of 1961 and 1971 for the transferred area.
5. Appendix II to Table A-I : Number of villages with a population of 5,000 and over and towns with a population under 5,000.
6. Appendix III to Table A-I : Houseless and Institutional population.
7. Table A-II : Decadal Variation in population since 1901.
8. Appendix to Table A-II : State and Districts showing 1961 population according to their territorial jurisdiction in 1961, changes in area and the population of 1961 adjusted to jurisdiction of 1971.

9. Table A-III : Villages classified by population.
10. Appendix to Table A-III : Sub-total of broad groups of villages classified by population, 1971.
11. Table A-IV : Towns and Urban Agglomerations classified by Population in 1971 with Variation since 1901.
12. Appendix I to Table A-IV : New Towns added in 1971 and Towns in 1961 declassified in 1971.
13. Explanatory Note to Appendix I to Table A-IV : Statement showing name, thana number, population as in 1961 of each village constituting towns treated as such for the first time in 1971 Census.
14. Appendix I to Table A-IV (List A) : List of places with a population of under 5,000 treated as towns for the first time in 1971.
15. Appendix I to Table A-IV (List B) : List of places with a population under 5,000 in 1961 which were treated as towns in 1961 but have been omitted from the list of towns in 1971.
16. Appendix II to Table A-IV : Changes in area of towns (with population) between 1961 and 1971 and reason for change in area.
17. Primary Census Abstract.

Each table is preceded by a flyleaf which shows the layout and salient features of the table. The concepts used in the tables have also been explained in the flyleaf.

(e) Description of Work
(f) Class of worker

Instructions for filling up Individual Slips

Question 1 : Name

Write the name of the person enumerated. If a woman's name is not given out, describe her as 'so and so's wife, mother or daughter'. By custom if a woman finds it difficult to give the name of her husband and if the man is absent at the time of enumeration but his particulars have to be recorded write 'so-and-so's husband' if you have failed to ascertain the name even from the neighbours.

For newly born infants who have not yet been given the name write "baby" and add father's or mother's name.

Question 2 : Relationship to Head

In the case of the Head of the household write 'Head'. The Head of the Household for census purposes is a person who is recognised as such in the household. He is generally the person who bears the chief responsibility for the maintenance of the household and takes decisions on behalf of the household. The Head of the household need not necessarily be the eldest male member, but may even be a female or a younger member of either sex. You need not enter into any long argument about it but record the name of the person who is recognised by the Household as its Head.

In the case of institutions like boarding houses, messes or friends living together in one census house, which should be regarded as households of unrelated persons living together, which may be called institutional Households, the manager or Superintendent or the person who has administrative responsibility or who by common consent is regarded as the head should be recorded as the Head of the household.

The Manager or Superintendent who does not stay normally in the institution should be enumerated at his place of normal residence. You should make sure before filling up the slip for the Manager or Superintendent etc. of an institutional household, that he/she has not been enumerated at any other household.

In the case of absence of a normal 'Head', the person on whom the responsibility of managing the affairs of the household falls, should be regarded as the Head.

All relationships in this question should be recorded in relation to the Head of the household. Write the relationship in full. Do not use words like 'nephew', 'niece or uncle', but state whether brother's or sister's son or daughter (for nephew or niece) or father's or mother's brother (for uncle), 'Son' will include 'adopted son' or 'step son' ; similarly for a daughter. In the case of visitors, boarders, or employees, write 'visitor' 'boarder', or 'employee' as the case may be. In the case of institution, the members should be recorded as 'unrelated'.

If on the check of revisional round between 1st and 3rd April, 1971 the Head of the household as recorded previously is found to have died, the person in the household who succeeds him by common consent as head should be recorded as Head and the relationships in all other slips will have to be suitably corrected. The slip of the deceased Head of the household will, of course, be cancelled.

Question 3 : Sex

For males write 'M' and for females write 'F' within the circle indicated against this question. Even for eunuchs and hermaphrodites write 'M' only. Verify with reference to the name and relationship to Head against questions 1 and 2 respectively that you have noted the sex correctly.

Question 4 : Age

Record the age of the person in total years completed last birthday. Very often there is a tendency on the part of the individuals to return 'years running' rather than the 'years completed'. Make sure that only the actual number of years completed is recorded.

In respect of infants who *might not have completed one year* by the day of enumeration their age in completed years should be invariably shown as 'O' as they have not yet completed one year of age and add 'Infant' in brackets. As was stated under general instructions make sure that infants even if a day old are invariably enumerated. *You should not enter the age in months.* The age of an infant who has not yet completed one year should invariably be noted as 'O' only.

Age is one of the most important items of demographic data and you should ascertain the age with greatest care. Many persons particularly in the rural areas cannot give their age correctly. They should be assisted to state the correct age by stimulating their memory with reference to any historical event etc., well known in the area. Sometimes the age can be ascertained with reference to the age of another person

of a known age that may be in the same household or in the neighbouring household or that of a well known person of the village such as Headman of the village. A person can more easily say whether he was older or younger to such a person and by how many years. This will help you to record the age more accurately.

Question 5 : *Marital Status*

In answering this question use the following abbreviations :

NM : Never Married

M : Currently Married

W : Widowed

S : Separated or Divorced

For a person who has never been married at any time before, write 'NM'. For a person currently married, whether for the first or another time and whose marriage is subsisting at the time of enumeration with the spouse living, write 'M'. Write 'M' also for persons who are recognised by custom or society as married and for the persons in stable *de facto* union. Even if a marriage is disputed in the locality write 'M' if the person concerned says he or she is married or is in stable *de facto* union. For a widowed person whose husband or wife is dead, and who has not been married again, write 'W'. For a person who has been separated from wife or husband and is living apart with no apparent intention of living together again or who has been, divorced either by a decree of a law court or by an accepted social or religious-custom but who has not remarried, write 'S'. For a prostitute return her marital status as declared by her.

Question 6 : *For currently married women only*

This question has to be answered in respect of all currently married women only *i.e.*, all women whose marital status is shown as 'M' against Q. 5. For all others a cross may be put through the two sub-parts of this question.

Question 6(a) : *Age at marriage*

Age at marriage : You should ascertain the age at which the currently married woman whom you are enumerating was married and record that age in completed years. If the currently married woman had been married more than once, the age at which she got married for the first time should be recorded.

Question 6(b) : *Any child born in the last one year*

Any child born in the last one year : You should ascertain if the currently married woman whom you are enumerating gave birth to a child in the last one year prior to the date of enumeration. Since it may be difficult for a person to reckon the exact year with reference to the English calendar dates, the period of one year may be ascertained with reference to a well known festival day which falls close to March-April, as determined by the Census Superintendent of the State. You should ask if a child was born on or after this festival day last year to the date of enumeration. Only if the child was born alive, even if the child had died soon after birth, should the answer be 'Yes', to this question. *Still birth*, i.e. *a child which is born dead should not be taken into account for this purpose.* So while you should make sure that every case of birth of child born alive, even if it is not alive on the date of enumeration, is reported, you should not reckon it if the child was born lifeless.

It is common experience that the birth of the child may not be reported readily if the child is not actually surviving at the time of enumeration. Infant deaths are still high in the country. There is a chance of a number of such cases being missed unless specifically questioned about them. It is necessary to record all live births even if the child had died soon thereafter or had not survived to the day of enumeration. Therefore where the initial answer to this question is 'no', you should ask a specific question if there has been a case of child having been born alive in the last one year and later dying before the enumeration date. This is a delicate question and should be asked with tact in a manner not to offend the sensibility of the respondent. Where a currently married woman first answers that she had no child born in the last one year, you may perhaps question her as follows :

"It has been found in some houses that a child was born and had died soon after or a few days or months later and such cases had not been reported. It is my hope that there are no such cases here. Am I right ?"

This may bring in the required response. If she reports 'no' then you can be sure that no birth has been missed. You have to make sure that any live birth that has occurred to the currently married woman in the last one year is netted whether the child is surviving till the date of enumeration or not. Similarly, probe to eliminate still births may be necessary. For example, when the answer is 'yes' under question 6(b) the enumerator might ask if the child is here in this house. If the answer is 'yes', no further question is needed. If 'no', the enumerator might ask where he has gone. The answer may be 'dead' or he has gone elsewhere. If 'dead' then the enumerator might ask when did the child die and this will bring out the fact whether or not it was a still birth.

Write 'Yes', if the currently married woman had given birth to a live child from the prescribed festival day last year to the date of enumeration or 'no' if she had not. In case of twin or multiple births, write 2, 3, etc., as the case may be within round brackets after the entry 'Yes'.

NOTE : You may find on your revisional round from 1st to 3rd April, 1971 that a child is born to a married woman in a household after your last visit but before the sunrise of 1st April, 1971. You will have to take this into account and correct the answer against the Q. 6(b) accordingly. You must enquire specifically if any such birth has taken place. While ignoring still births all other births where the child was born alive even if it did not survive long should be taken into account.

Question 7 : Birth Place

Answer to this question has to be filled with reference to the place of birth of the persons enumerated and the particulars recorded under the four sub-items of this question.

Question 7(a) : Place of Birth

Write 'PL' for a person born in the village or town where he is being enumerated. Where 'PL'is noted against this question put 'X' against sub-items (b), (c) and (d).

For those born outside the village or town of enumeration write the actual name of the place against sub-item (a) and fill the other details against sub-items (b), (c) and (d).

Question 7(b) : Rural/Urban

For those born outside the village or town of enumeration ascertain if the place of birth was a village or town at the time of his birth. To enable a person to determine whether the place was a town or a village he may be required to indicate the status of the place of birth in comparison with a known town in the neighbourhood of the place of enumeration. You may mention some important urban characteristics to enable the person to make out if the place of his birth was rural or urban *e.g.* existence of a local administrative body, Industrial townships declared as towns etc.

For a person born in a village, write 'R'.

For a person born in a town/city, write 'U'.

For a person born in a foreign country put 'X' against this sub-item and also against sub-item (c). If all efforts to classify the place of birth as rural/urban fail, write 'not known'.

Question 7(c) : District

For a person born outside the village or town of enumeration but within the district of enumeration write 'D'. For a person born in another district of the State of enumeration, or other State/Union Territory in the country, write the name of the district. If the person cannot name the district, write 'not known'.

Question 7(d) : State/Country

For persons born within the State of enumeration write 'X' against this item. Make sure that the earlier entries made in sub-items (a), (b) and (c) are consistent with such an answer ; that is 'PL' might have already been written against sub-item (a) or 'D' is written against sub-item (c) or any other district of the State of enumeration is mentioned against sub-item (c).

For persons born outside the State of enumeration but within the country, write the name of the State/Union Territory where born.

For those born outside India, note merely the name of the country and there is no need to enter the name of the constituent State of the foreign country. Where a person cannot name the country, the name of the continent may be noted.

For a person born on sea, record 'born at sea', against this sub-item and put 'X' against sub-items (a), (b) and (c). If a person was born in a train, boat or bus etc., within the country, write the particulars in (a), (b) and (c) with reference to the administrative territory where the event occurred or was registered.

Question 8 : Last Residence

Answer to this question will have to be filled in respect of every person if he had another place of normal residence irrespective of his place of birth, before he came to the present place where he is enumerated. Even if a person were born at the place of enumeration, by the nature of his work or for studies etc. he had shifted subsequently to another village or town and had come back again to the place of enumeration, he should be deemed to have had another place of residence prior to his enumeration here.

The last previous residence is relevant only if he had been outside the village or town of enumeration and not simply in another house or locality in the same place. For example, if a person born in one part of Bombay City is found residing in another part of Bombay at the time of enumeration, the change of residence should not be treated as change of place of residence because both the areas are comprised in the same City of Bombay. Similarly, a person born in hamlet 1 of village Rampur and found in hamlet 2 of the same village at the time of enumeration, should not be deemed to have had

any other place of residence than the village where he is enumerated. Where a person had merely gone out to another place or had been shifting from place to place purely on tour or pilgrimage or for temporary business purposes, he should not be deemed to have had another residence different from the place where he or his family normally resides but if the prson had his normal residence, *i.e.*, if his normal home had been elsewhere at any time before he is enumerated at his place of present residence, irrespective of where he was born, such place of his previous residence should be recorded here.

Question 8(a) : Place of last residence

For a person who had been in the village or town of enumeration continuously since birth (except for shifting to other places outside the village or town of enumeration for a purely temporary stay) write 'PL' against sub-item (a) and put 'X' against sub-items (b), (c) and (d).

For a person who had had his last previous residence at any place outside the village or town of enumeration (irrespective of his place of birth), write the actual name of the village or town where his last residence was against sub-item (a) and fill the other details against sub-items (b), (c) and (d).

Question 8(b) : Rural/Urban

For a person who had previously resided outside the place of enumeration ascertain if the place of last previous residence was rural or urban and record the answer. For a person whose last previous residence was a village write 'R'. For a person whose last previous residence was a town/city, write 'U'. For a person who last resided in a foreign country write 'X'. For a person whose last previous residence cannot be classified, write 'Not known'.

Rural or Urban status has to be determined with reference to the time of migration from the place of last previous residence to the place of enumeration.

For helping the person to determine whether a place was rural or urban, you may mention important urban characteristics as indicated in the instructions against item 7(b).

Question 8(c) : District

For a person who had previously resided in another place, *i.e.*, for whom 'PL' is not written against sub-item (a) you have to fill in this item in the manner indicated below :

For a person who previously resided in another village or town within the district of enumeration write 'D'. For a person who previously resided in another district of the State/Union Territory of enumeration or of other State/Union Territory in the country, write the name of the district. If he cannot name the district write 'Not known'. For a person whose last previous residence was outside India write 'X' against this sub-item.

Question 8(d) : State/Country

For a person whose last previous residence was outside the village or town of enumeration but within the State or Union Territory of enumeration write 'X' against this item but if it was outside the State or Union Territory of enumeration but within the country write the name of the State/Union Territory. For a person whose last previous residence was outside the country write the name of the country and if name of the country is not forthcoming write the name of the continent.

For persons who had not moved out at all from the present place of enumeration from birth (except for purely temporary stay) this sub-item need not be filled and 'X' should be put in respect of persons against this sub-item.

Question 9 : Duration of Residence at the village or town of Enumeration

Note here the period of the existing continuous residence in the village or town where the person is being enumerated, in completed years. This will apply to even a person born at the place of enumeration. If he had left this village or town and had lived elsewhere for sometime *i.e.*, in Q. 8 another place of last residence is reported and has come back again to this village or town, then the duration of residence to be noted against this question is the period of the last continuous residence. But if a person had been away on a temporary visit or tour etc., that should not be taken as a break in the period of his continuous residence here. If the person was born at the place of enumeration and also had no other place of last residence *i.e.* 'PL' has been noted in Q. 8(a) then 'X' may be put against Q. 9.

For a person whose duration of continuous residence at the place of enumeration is less than 1 year, it should be noted as 'O'.

Question 10 : Religion

In answering this question use the following abbreviations :

H : Hinduism
I : Islam
C : Christianity
S : Sikhism
B : Buddhism
J : Jainism

For others record the actual religion as returned fully.

If a person says that he has no religion it may be recorded accordingly. Do not mistake religion for caste which will not be recorded here.

Question 11 : Scheduled Caste or Scheduled Tribe

You have been furnished with a list of scheduled castes and scheduled tribes notified for your State. Ascertain if the person enumerated belongs to a scheduled caste or scheduled tribe and if he does, then record the name of the scheduled caste or scheduled tribe which should find place in the list furnished to you. The answer should be recorded against the correct rectangle provided for the purpose against this question. For a person who is not a member of any scheduled caste or scheduled tribe write 'X' in both the rectangles.

If the person belonging to a scheduled caste or scheduled tribe returns his caste or tribe by synonym or generic name of a caste or a tribe it should be entered only if it finds a place in the list furnished to you. Do not write the names of scheduled castes in general terms as 'Harijan' or 'Achhut'. You should ascertain the name of the caste when it is returned and write it in the rectangle provided for recording the name. Similarly, do not write the names of scheduled tribes in general term as 'Adivasi'. You should ascertain the name of the tribe when it is returned and write it in the rectangle with broken lines provided for recording the same. If a person is negligent and insists on calling himself merely 'Harijan' or 'Achhut' or 'Adivasi' as the case may be, tell him that his description is not adequate for census purposes and persuade him to give out the actual name of the caste or tribe. You should make all efforts to ascertain the correct name of the scheduled caste or scheduled tribe as found in the notified list. It the person merely claims to be a scheduled caste or scheduled tribe but says that he does not belong to any of the notified communities applicable to the area, he will not be entered as a scheduled caste or scheduled tribe.

Scheduled castes can belong only to the Hindu or Sikh religions. If a person belongs to scheduled caste, there will be either 'H' or 'S' in the answer to question 10. Scheduled tribes may belong to any religion.

Question 12 : Literacy (L or O)

Definition af a literate : A person who can both read and write with understanding in any language is to be taken as literate. A person who can merely read but cannot write is not a literate.

It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard.

For a person who is literate *i.e.*, who can both read and write, record 'L' in the triangle against question 12. If there is any doubt about a person's ability to read or write, the test that may be applied for reading is his/her ability to read any portion of the printed matter in the Enumerator's Instructions and similarly for writing he/she should be able to write a simple letter. Ability merely to sign one's name is not adequate to qualify a person as being able to write with understanding. If a person claims to be literate in some other language with which the enumerator is not acquainted, the respondent's word has to be taken as correct. Other members of the household may also be able to testify to the literacy of the person enumerated.

For a person who is illiterate *i.e.* who can neither read nor write or can merely read but cannot write, in any language, write 'O' in the triangle against question 12. All children of the age of 4 years or less should be treated as illiterate even if the child is going to a school and may have picked up reading and writing a few odd words.

Question 13 : Educational level

This question will be asked of those for whom 'L' has been recorded against question 12. For a person who is illiterate and 'O' has been put against him in the answer to question 12, there is no advantage in ascertaining the educational level even if he had at some stage attended school and passed a standard and had relapsed into illiteracy. In such a case you should put 'X'. You have to ascertain and record the highest educational level attained by a person for whom 'L' is recorded in answer to question 12.

For a person who is still studying in a particular class, the highest educational level attained by him will be one that he has actually passed and not the one in which he is studying. For example, a person studying in 1st year B.A. should be recorded as only 'PUC' or 'Higher Secondary', as the case may be. Similarly, a person studying, say, in the 4th year of 'MBBS' should not be noted as 'MBBS' but as 3rd year 'MBBS' which is the highest level he has actually attained. If you are not sure whether a person has passed Primary, Middle, Higher Secondary or other definite levels, you may record the actual standard passed such as say IIIrd standard, VIII th standard, 1st year B.Com. etc.

The highest educational level attained by the person enumerated should be recorded. When

a person holds both general and technical qualifications both of which are of equivalent level such as say B.Sc. (Zoology) and M.B.B.S. or B.A. (Maths.) and B.E. (Bachelor in Engineering), the technical qualification should be given preference in recording the highest educational level attained. Where the general educational level is higher than the technical educational level or where it is not possible to decide which of the two levels is relatively higher, the highest level of education as returned by the person concerned should be recorded.

In recording the highest educational level of a graduate or a post-graduate, subject of specialisation such as B.Sc. (Maths.), M.A. (Economics), M.Sc. (Botany), B.Sc. (Agriculture), etc., should be noted. You should not use abbreviations which are not in common use. In such cases, the degree or diploma should be spelt out fully.

Whenever you come across graduates or post-graduates as also those with a technical diploma or degree, you will have to issue him a "Degree-holder and Technical Personnel Card" and ask the person concerned to fill it. You should note the location code on the card while issuing it. Put a tick (√) after noting the educational level against question 13 immediately after you issue a card. When you collect it after some time but before you complete the enumeration of your area, cross the tick and put a circle as (⊗).

You will have to ensure that the cards issued to all the graduates and the technical degree or diploma holders are collected back. The non-crossed tick, if any, against question 13 will show that the card has not been collected.

Question 14 : Mother-tongue

Definition : Mother-tongue is the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother-tongue. In the case of infants and deaf mutes the language usually spoken by the mother shall be recorded.

Record mother-tongue in full whatever be the name of the language as returned and avoid use of abbreviations. You are not expected to determine if the language returned by a person is the dialect of another major language and so on. You should not try to establish any relationship between religion and mother-tongue. *You are bound to record the language as returned by the person as his mother-tongue and you should not enter into any argument with him and try to record anything other than what is returned.* If you have reason to suspect that in any area due to any organised movement, mother-tongue was not being truthfully returned, you should record the mother-tongue as actually returned by the respondent and make a report to your superior Census Officers for verification. You are not authorised to make any correction on your own.

Question 15 : Other languages

After recording the mother-tongue in question 14 enquire whether the person knows any other language(s), Indian or foreign and record language(s) returned by him against this question. In case he does not know any language apart from his mother-tongue put 'X' against this question.

The number of languages recorded under this question need not be more than two. These languages should be other than his mother-tongue and they should be recorded in the order in which he speaks and understands best and can use with understanding in communicating with others. He need not necessarily be able to read and write these languages. It is enough if he has a working knowledge of these subsidiary languages to enable him to converse in that language with understanding.

Question 16 : Main Activity

Every person will be asked what his main activity is, that is, how he engages himself mostly. For the purpose of this question all persons will get themselves divided into two broad streams of main activity namely, (1) as workers and (2) as non-workers according as the type of main activity that the person returns himself as engaged in mostly.

'Worker' defined : A 'worker' is a person whose main activity is participation in any economically productive work by his physical or mental activity. Work involves not only actual work but effective supervision and direction of work.

Reference periods : The reference period is one week prior to the date of enumeration in the case of regular work in trade, profession, service or business. If a person had participated in any such regular work on any one of the days during this reference period and this has been returned as his main activity, the person will be categorised accordingly. A person who normally works but had been absent from work during this reference period on account of illness or travel, holiday, temporary breakdown, strike etc., the person should be treated as engaged in regular work in which he would have otherwise been employed but for his temporary absence. Persons under training such as apprentices with or without stipends or wages should be considered as economically active and recorded as working. A person who has merely been offered work but has not actually joined it, is not to be treated as engaged in work.

There are certain types of works which are not carried on throughout the year such as cultivation, livestock keeping, plantation work, some types of household industry, etc. A person's main activity should be ascertained with reference to such work in the last one year even if he was not economically active in the week prior to enumeration. It is likely that even when a person is engaged in some other work during the period of one week prior to the date of enumeration, the main activity of the person may be cultivation, agricultural labour or some other work attended to normally by him in the course of the year. Care must be taken to see that the main activity is properly ascertained in such cases. For example, a person's main activity may be agricultural labour and in the week prior to enumeration he may be engaged as a sugarcane factory labourer or as a road cooly. He should be categorised for his main activity as agricultural labourer only as returned by him as he engages himself mostly in that work and the other work should be treated as his subsidiary work.

A man or woman who is engaged primarily in household duties such as cooking for own household or performing one's own household duties or a boy or a girl who is primarily a student attending institution, even if such a person helps in the family economic activity but not as a full time worker should *not* be treated as a worker for the main activity. On the other hand, if a person is primarily engaged in some economic activity but at the same time does also attend to some household chores or attends a night school etc., he or she should be treated basically as a worker for the main activity and categorised accordingly.

A person who merely receives an income suc as a rent receiver or a pensioner who does not have to work for receiving the income, will not be treated as economically active unless the person is also engaged in some economic activity and if that activity is returned as the main activity of the individual.

Question 16(*a*) : *Broad Category* (i) *Worker* (*C, AL, HHI, OW*), (ii) *Non-worker* (*H, ST, R, D, B, I, O*)

The main activity returned by the person will entitle him to be categorised either as a worker in 16(a) (i) or as a non-worker under 16(a) (ii).

Question 16(*a*) (i): *Worker* (*C, AL, HHI, OW*)

Where the main activity of a person qualifies him to be treated as a worker he should be further categorised according to the type of work and one of the appropriate abbreviations indicated against this question should be entered in the box provided for the purpose. If the person is not engaged in any economic activity an 'X' should be noted in the box. The abbreviations to be used for workers are explained below :

C : CULTIVATOR

For a person who returns his main activity as working as a cultivator, the abbreviation 'C' should be used.

Definition of Cultivator : For purposes of the census a person is working as Cultivator if he or she is engaged in cultivation by oneself or by supervision or direction in one's capacity as the owner or lessee of land held from Govt. or as a tenant of land held from private persons or institutions for payment of money, kind or share.

Cultivation involves ploughing, sowing and harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi etc., and pulses, raw jute and kindred fibre crop, cotton etc., and other crops such as sugar-cane, groundnuts tapioca, etc., and does not include fruit growing, vegetable-growing or keeping orchards or groves or working of plantations like tea, coffee, rubber, cinchona and other medicinal plantations.

A person who merely owns land but has given out land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, will not be treated as working as cultivator. Similarly, a person working in another person's land for wages in cash, kind or share (Agricultural labourer) will not be treated as cultivator in this question.

AL : AGRICULTURAL LABOURER

A person who returns his main activity as engaged as agricultural labourer, the abbreviation 'AL' should be used in the box.

Definition of an Agricultural Labourer : A person who works in another person's land for wages in money, kind or share should be regarded as an agricultural labourer. He has no risk in the cultivation but he merely works in another person's land for wages. The labourer could have no right of lease or contract on land on which he works.

HHI : HOUSEHOLD INDUSTRY

For a person who returns his main activity as engaged in some production, processing, servicing or repair of articles of goods such as, say, handloom weaving, dyeing, carpentry, *bidi* rolling, pottery manufacturer, bicycle repairing, blacksmithy, tailoring etc., it has to be ascertained if it is a household industry, and if so, it should be indicated by the abbreviation 'HHI' in the box.

Definition of a Household Industry : A Household Industry is defined as an industry conducted by the Head of the household himself/herself and/or mainly by the members of the household at home or within the village in rural areas and only within the premises of the house where the household lives in urban areas. The industry should not be run on the scale of a registered factory.

The main criterion of a Household Industry is the participation of one or more members of a household. This criterion should apply to urban areas too. Even if the industry is not actually located at home in rural areas there is greater possibility of the members of the household participating even if it is located anywhere within the village limits. In the urban areas where organised industry takes greater prominence, the Household industry should be confined to the precincts of the house where the participants live. In urban areas even if the members of the household by themselves run an industry but at a place away from the precincts of their home, it will not be considered a household industry. It should be located within the precincts of the house where the members live.

A household Industry should relate to production, processing, servicing repairing of making and selling (but not merely selling) of goods. It does not include professions such as a pleader or doctor or barber, musician, dancer, waterman, *dhobi*, astrologer, etc., or merely trade or business, even if such professions, trade or services are run at home by members of household. * * *

Sometimes it is likely that the person who may not be working in his own household Industry may be working as petty employee in another Household Industry. You should, therefore, enquire whether the person who is not working in his own Household Industry is working in any other Household Industry as an employee and record as per instructions given above.

OW : OTHER WORKERS

If a person gives his main activity as engaged in any other work which is not cultivation, agricultural labour or household industry, this may be indicated by merely noting 'OW' in the box. The type of workers that may come under the 'Other Workers' category are factory workers, those working in trade or transport, all Government servants, municipal employees, teachers, mining workers, political or social workers, building labourers, etc. etc. In effect, all types of economic activity not covered by cultivation, agricultural labour or household industry will come under this residual category. Workers engaged in plantation or forestry should not be treated as cultivators or agricultural labourers but as 'Other workers'.

Further details pertaining to this 'Other' category of workers as also those engaged in household industry, will be recorded in the subsequent sub-parts (b) to (f) of question 16.

Question 16(a)(ii) : Non-worker (H, ST,R,D,B,I,O,)

As was stated earlier, question 16 is intended to ascertain the main activity of every individual whether he or she is economically active or not. While 16(a) (i) helps to broadly categories all those who have returned some work as their main activity, 16(a) (ii) will help to categorise those whose main activity is not engaged in any economically productive work, but are basically non-workers. These may be categorised under seven broad heads whose abbreviations are indicated against this question. The appropriate abbreviation will have to be entered in the box provided. The abbreviations are explained below :

H : HOUSEHOLD DUTIES

This covers all those persons basically engaged in unpaid home duties doing no other work, or even if such a person may also be participating in some other work, it is not to the same extent as a whole-time worker and if the person has returned his or her main activity as attending to household duties. The main activity of such a person should be entered as 'H'. If a person whose main activity is attending to household duties, also engages oneself in some other economic activity such as helping in family cultivation or preparing cowdung cakes at odd times for sale etc., that economic activity will be covered as secondary work under question 17. On the other hand, a woman who works primarily as a factory worker or a plantation labourer or an agricultural labourer or in some office or shop etc., and also attends to household duties, obviously her main activity will be the economic activity in which she is mostly engaged in and should not be categorised as 'H' for her main activity in this question. She should have been treated basically as a worker and her main economic activity should have been recorded against 16(a)(i).

ST : STUDENT

This refers to those whose main activity is returned as a student. This will cover all full-time students or children attending school. Even if such persons participated in some work but not to the same extent as a full-time worker, by merely helping casually as an unpaid family worker in family cultivation, household industry, trade or business, they should be treated primarily as students, if that is their main activity. 'ST' should be entered in the box. The other economic activity, if any, that such persons attend to will be reflected under question 17 as secondary work.

R : RETIRED PERSON OR A RENTIER

A person who has retired from service and is doing no other work *i.e.*, not employed again in some full-time work or does not engage himself in some other work as cultivation, in business, trade, etc., or a person who is a rentier or living on agricultural or non-agricultural royalty, rent or dividend, or any other person of independent means for securing which he does not have to work, will come under this category. 'R' should be noted in the box for a person coming under this category.

D : DEPENDENT

This category will include all dependents such as infants or children not attending school or a person permanently disabled from work because of illness or old age. If a girl or an old woman attends to household duties she should be categorised under 'H' for her main activity rather than 'D'.

Dependents will include all non-workers even if able-bodied who have no other activity coming under any of the categories of non-workers and who are not seeking any work either but are purely dependent.

B : BEGGARS, ETC.

This will cover beggars, vagrants or such cases as independent woman without indication of source of income and those of unspecified sources of subsistence and who are not engaged in any economically productive work.

I : INSTITUTIONS

This will cover convicts in jails or inmates of a penal, mental or charitable institution, even if such persons are compelled to do some work such as carpentry, carpet weaving, vegetable growing etc., in such institutions. An undertrial prisoner in a jail should not, however, be brought under this category but has to be indicated according to the main activity he was engaged in before he was apprehended. Inmates of such institutions will be noted as 'I'.

O : OTHER NON-WORKERS

This will include all non-workers who may not come under any of the six categories above but are seeking work, they should be noted as 'O' in the box. A boy or girl who has completed education or has stopped studying and is seeking work, will come under this category. If a person is merely spending his time at home as a dependent and is not doing any work and is not seeking any work will come under 'D' rather than 'O'. A person irrespective of age and whether educated or not, if he reports that he is not engaged in any other activity but is seeking work will come under this category.

If the main activity of the person who is enumerated does not qualify a person to be treated as a worker and he does not fall under any of the four broad categories of workers covered by 16(a)(i) and an 'X' has been put in the box against that question, then he must necessarily be categorised under any one of the seven broad types of non-workers and the appropriate abbreviation entered in the box opposite to question 16(a)(ii). Conversely if a person has already been treated as a worker and his main activity has been indicated in the box against question 16(a)(i), then question 16(a)(ii) will not apply to the person and an 'X' should be put in the box against question 16(a)(ii). Thus 16(a)(i) and 16(a)(ii) are mutually exclusive.

Questions 16(b) to 16(f)

These sub-parts of question 16 will have to be filled only to describe the details of the household industry or other work indicated against question 16(a)(i). If the main activity has been shown as 'C' or 'AL' against 16(a)(i), there is no need to give the details of the cultivation or agricultural labour in these sub-sections.

Similarly, if the main activity of an individual has been returned as a non-worker against 16(a)(ii), sub-sections (b) to (f) will not apply and an 'X' may be put right across all these questions.

Question 16(b) : Place of work (name of village/ town)

Ascertain from each person who is already taken as a worker other than in cultivation or agricultural labour *i.e.*, question 16(a)(i) has been answered as HHI or OW, the village or town where he or she works. If the place of work is the same as the village or town of enumeration write 'PL'. In all other cases you should write the name of the place fully. If a person has no fixed place of work such as, say, a travelling vender of vegetables or a pedlar or a rickshaw puller who may go from one village or town to another, note 'No fixed place of work'. If he works in one particular town or village that should be noted.

Question 16(c) : Name of Establishment

This question and the subsequent sub-sections of question 16 need not be answered for cultivators and agricultural labourers who are already noted as 'C' or 'AL' against question 16(a) (i).

Record here the exact name of the factory, firm, workshop, business house, company ; shop, office etc., and in respect of public offices you should clearly indicate whether they are Central or State Government or local body offices, etc. If the establishment does not have any definite name such as, say, in the case of a household industry like hand pounding of rice, gur making, bee keeping, handloom weaving, potter's house, blacksmithy etc., note 'No particular name'.

Question 16(d) : Nature of Industry, Trade, Profession or Service

The answer to this question will have to be adequately precise to enable proper classification of the sector of economy in which the person is working. The sector of economy in which a person works may relate to (i) Plantation, Forestry, Fishing, Livestock etc., (ii) Mining and/or Quarrying (iii) Manufacturing (iv) Construction (v) Electricity, Gas or Water Supply (vi) Transport and Communications (vii) Trade and Commerce (viii) Professions and Services. Full details of the type of industry, trade-profession or service in which the person is engaged will have to be recorded here. * * *

Question 16(e) : Description of work

This question has to be filled up for all persons for whom the main activity is shown as 'HHI' or 'OW' in question 16(a)(i) and for whom you should have also to answer the other sub-sections of question 16. Under this question the description of the actual work that the person enumerated is doing is to be recorded irrespective of which type of industry, trade, profession or service he may be working and which is already recorded under question 16(d). His actual work should also be given in sufficient detail. If for example a person is merely recorded as say, clerk with no other details, it will be impossible to properly categorise him as to the type of work he does. He may be a clerk attending to correspondence or book keeping or accounting. Similarly if a person were merely to be recorded as a mechanic, it will not help to determine what type of mechanic—electrical mechanic or a motor mechanic or a locomotive mechanic, etc., he is. The description of the actual work done by a person should be ascertained in adequate detail and recorded against this question.

It has been found in the past that substantial number of persons are recorded merely as general labourers. It is necessary to make a probe and find out in which type of work he is mostly engaged as a labourer such as, say, a road coolie, a loader or unloader at a market, a construction labourer, etc.

For those in Military service it is enough if it is merely noted as 'in the service of the Central Government'. Other details need not be given.

General—There need be no confusion as to the scope of 16(d) and 16(e). 16(d) would represent the nature of industry, trade, profession or service *i.e.* the field of economic activity in which a person is engaged in work and 16(e) represents the occupation or the actual work that the person does in the industry, trade, profession or service in which he is engaged. Thus, for example the answer to question 16(d) may be say Cotton Textile manufacture and the answer to question 16(e) may be Chemical Engineer in that industry or a clerk or an accountant in that industry or a labourer in that industry or a truck driver or the managing director of that industry and so on. Similarly in question 16(d) the nature of service may be some department of the State Gevernment Service and in question 16(e) the description of work may be a clerk or an accountant, a Director of the Deptt., jeep driver in the Deptt. etc., etc. Again say against question 16(d) the answer may be private medical practice and in 16(e) may cover orthopaedic surgeon, or nurse or a sweeper etc., working in that private medical practitioner's nursing home.

Question 16(f) : Class of Worker

For a person who is :

(i) an Employer, that is, who hires one or more persons in his work described in question 16 (e), write . . . . ER

(ii) an Employee, that is, who does his work described in question 16(e) under others for wages or salary in cash or kind, write . . . . EE

(iii) a Single Worker, that is, who is doing his work described in question 16(e) without employing others except casually, and without the help of other members of the family except casually and a participant in work as members of co-operatives, write . . . . SW

(iv) a Family Worker, that is, who is doing his work described in question 16(e) in a family enterprise alongwith other members of the family without wages or salary in cash or kind, write . FW.

For a person for whom an 'X' is put in question 16(d) and 16(e) put an 'X' in this question also.

Explanation—An Employer is a person who has to employ other persons in order to perform the work entered in question 16(e). That is to say, such a person is not only responsible for his own personal work but also for giving work to others in business mentioned in question 16(e). But a person who employs domestic servants for household duties or has subordinates under him in an office where he is employed by others, is not an employer, even if he has the power to employ another person in his office on behalf of his own employer or employers.

An Employee is a person who usually works under some other person for salary or wages in

cash or kind. There may be persons who are employed as managers, superintendents, agents, etc., and in that capacity employ or control other workers on behalf of their own employers. Such persons are only employees, as explained above, and should not be regarded as employers.

A Single Worker for the purpose of question 16(f) is a person who works by himself. He is not employed by any one else and in his turn does not employ anybody else, not even members of his household except casually. This definition of a Single Worker will include a person who works in joint partnership with one or several persons hiring no employees, and also a member of a producer's co-operative. Each one of the partners or members of such producers' co-operatives should be recorded as 'Single Worker'.

A Family Worker is a member who works without receiving wages in cash or kind, in an industry, business, trade or service. For example, the working members in a family of *Dhobies* where they all participate and each does not receive wages separately will be family workers. There may be family workers in industry, trade or professions as well. For the purpose of this definition members of a family may be drawn from beyond the limits of the household by ties of blood or marriage. The family worker may not be entitled to a share of the profits in the work of the business carried on either tby he person or Head of the Household or other relative.

Members of the household who help solely in household duties should not be treated as family workers.

In the case of persons engaged in household industry *i.e.*, in the case of persons for whom the answer to question 16(a)(i) is 'HHI', there will be three classes of workers *viz.*, Family worker, Single worker and Employee. There will be no Employer. Household industry by its very definition is conducted by the head of the household himself or/and other members of the household, the role of hired workers being secondary. If the head along with the members of the household is working in a household industry employing hired workers, the head and other members who are working should be treated as 'Family workers'. If the head alone is working with the assistance of hired worker(s) whose role would be secondary as indicated above, he would be treated as a 'single worker'.

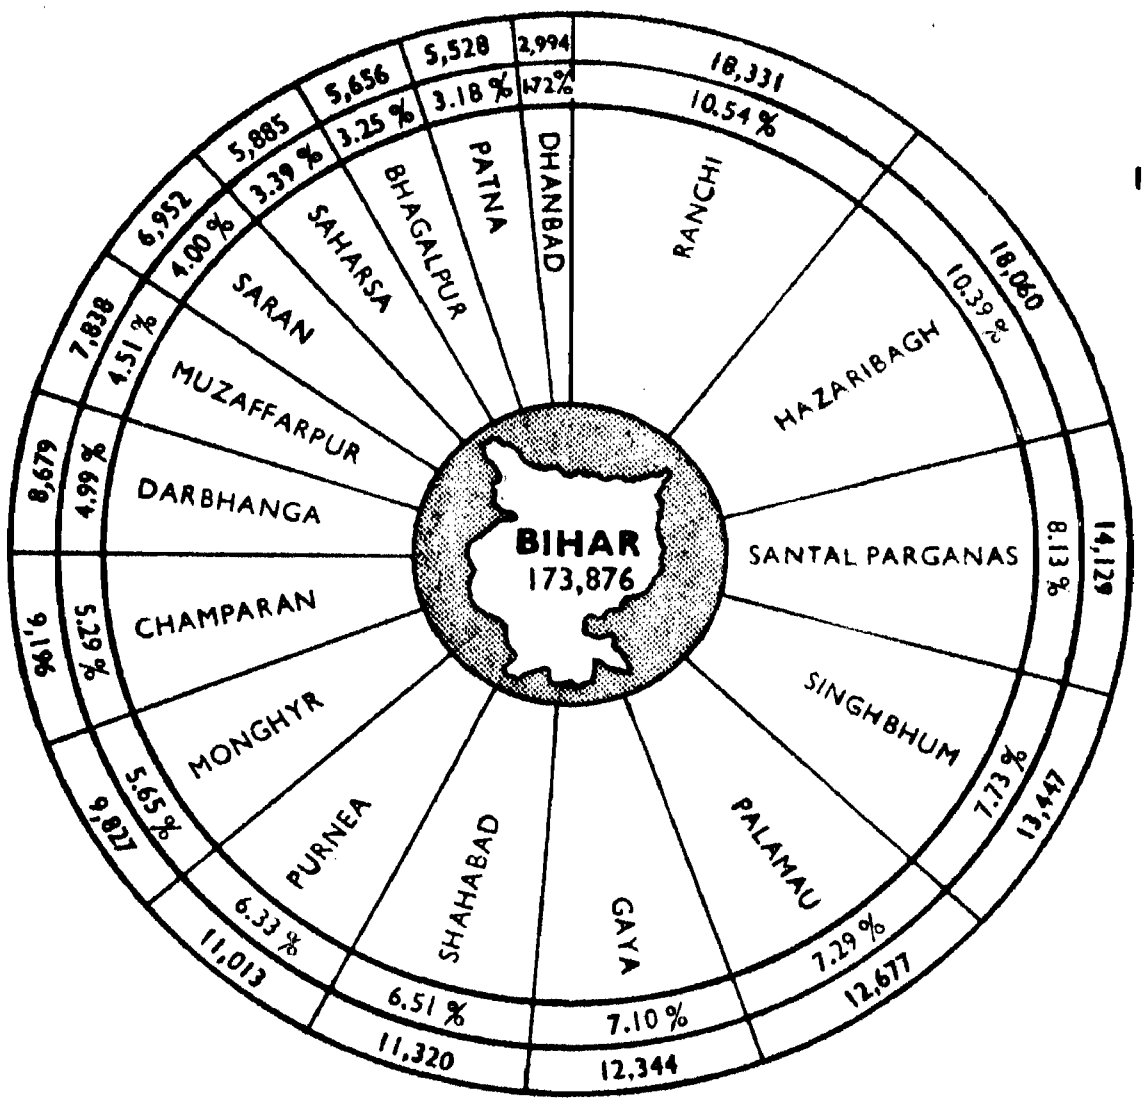

Question 17 : Secondary Work

This question should be asked of every person whether he has returned some work as his main activity against 16(a)(i) or had returned himself under any of the basically non-working categories against question 16(a)(ii). As was noted earlier, 16(a)(ii) will cover cases like persons performing household duties or students who may not be engaged in any other economically productive work at all, as also those who, though basically are performing household duties or students etc., for the purpose of their main activity, still participated in some other economic activity such as helping the household in several items of work, as in cultivation or in household industry or in looking after the cattle, in attending to family business etc. but not to the extent as a full-time worker. Such participation will be considered as secondary work of these persons.

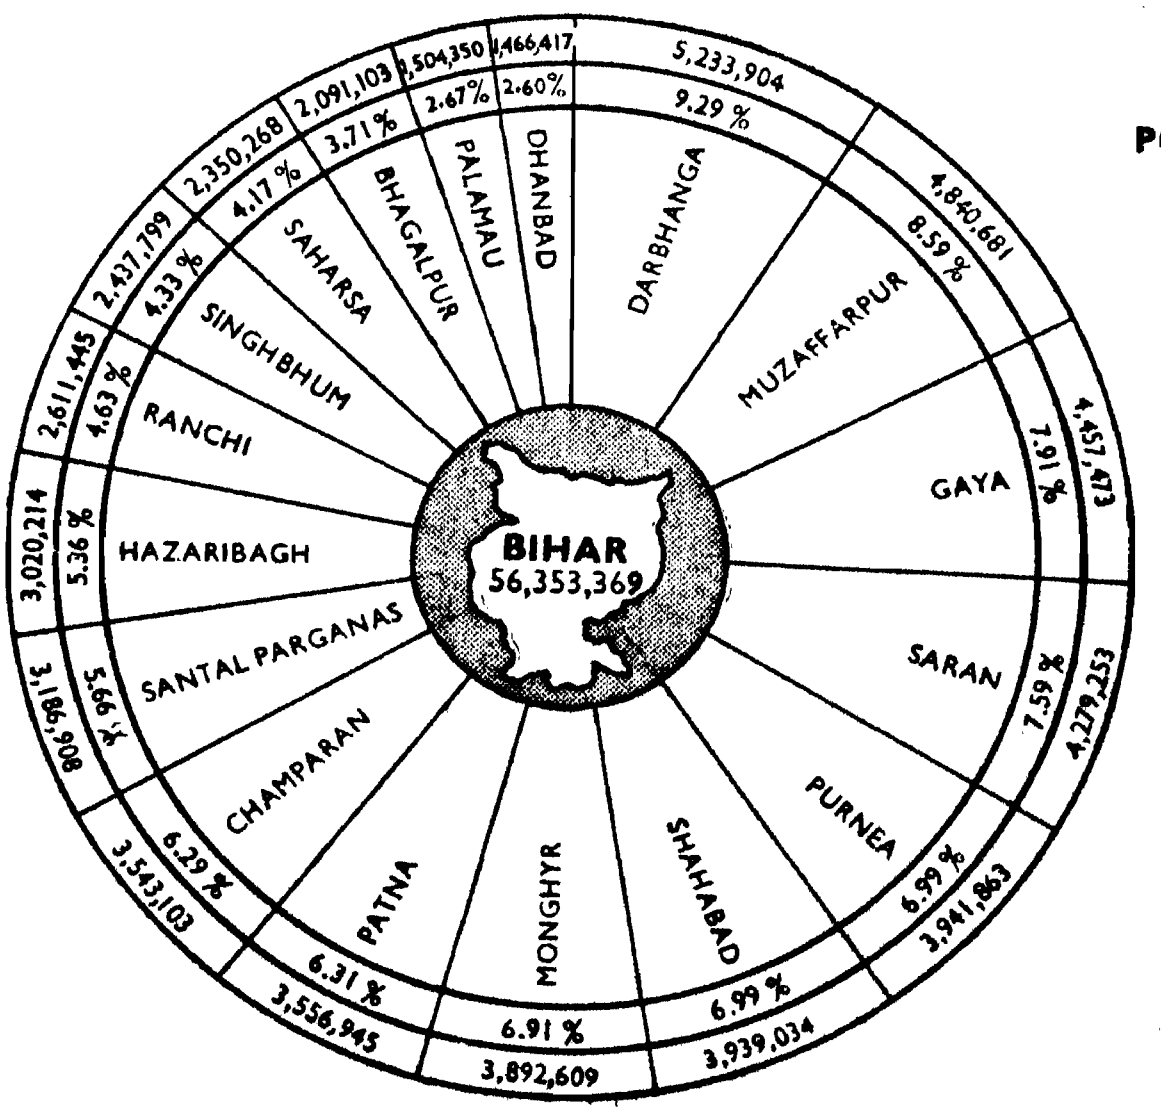

Ask of each person if, besides what he had already returned as his/her main activity against question 16(a)(i) or 16(a)(ii), he/she participated in any secondary work. A number of unpaid family workers participating in the household enterprises, who might have returned themselves mainly as 'H' or 'ST' or 'R' under question 16(a)(ii) for their main activity will be netted here for their economic activity which is subsidiary. Mere rendering of service for ones own home or production of goods for purely domestic consumption are not to be treated as economic activity. For example, a servant who works as a cook in his or her employer's home for wages will be considered economically active but, a housewife, even if she may work much more than a paid servant, in having to cook for the family or looking after the household will not be treated as economically active for the purpose of this classification. Similarly, women who may produce cloth on a loin loom at home for domestic consumption will not be treated as economically active unless the products are sold and the household derives an income. Participation in work that goes to augment the income of the household will only be treated as economic activity. A boy whose main activity is shown as a student under 16(a)(ii), can have the secondary work of say, cultivation if he helped the head of the household in the family cultivation during some parts of the season. But if a girl student, whose main activity is shown as 'ST' under 16(a)(ii), also helped in weaving cloth purely for domestic consumption on a loin loom at home, or helped in attending to household chores, she will not be treated as having any secondary work. Secondary work will be reckoned only if the person is engaged in some economic activity even if marginal in addition to whatever is the main activity under question 16. A person whose main activity is shown as, say, a clerk in a Government Office or a teacher under question 16, also attends to some cultivation by his direct supervision or undertakes some tuition, this will be shown as secondary work under question 17. A person's main activity may be cultivation in question 16

and his subsidiary activity money lending in question 17. Again main activity may be agricultural labourer and subsidiary work sugar factory labourer and so on and so forth.

The instructions for the usage of abbreviations in categorising workers under 16(a)(i) and filling in the details under 16(b) to (f) will apply *mutatis mutandis* to question 17(a) to (f), except that while question 16(a)(i) will cover the main work, question 17(a) is intended to cover secondary work which may be possibly part-time. It may also be noted that the non-working categories of activity will not be reported as secondary work under question 17.

TABLE A-I

AREA, HOUSES AND POPULATION

TABLE A-I—AREA, HOUSES AND POPULATION

FLYLEAF

This Table corresponds to Table A-I of 1961 and 1951 and Table I of earlier censuses. The Table has been presented in two parts. The first part is Union Table giving figures upto the district level only and the second part is State Table giving figures for smaller units down to Development Block level and for each town separately. This Table gives area, density of population per square kilometre, number of inhabited villages, number of uninhabited villages, number of towns, number of occupied residential houses, number of households and population by sex for each administrative unit.

There are three appendices to this Table as mentioned below :

Appendix I—This Appendix gives details of the changes in the jurisdiction and areas of all the administrative units upto Development Block level during the last decade (1961—1971). It shows how the present jurisdiction and area of each administrative unit that has undergone change in area is related to the jurisdiction in 1961. Only those units have been shown in the Appendix which have undergone territorial changes in the last decade.

Sub-Appendix to this Appendix gives the names and areas in 1961 and 1971 of towns which have undergone changes in area since 1961. It also gives the 1961 population for the areas added to the town and 1971 population for the area excluded from the town.

Appendix II—This Appendix gives the number of villages with population 5,000 and above and towns with population under 5,000 for each administrative unit upto Development Block level. The administrative units with nil entries have not been shown. The percentage of population of villages with population 5,000 and above to total rural population of the State and the percentage of population of towns with population under 5,000 to total urban population of the State have also been given for each unit. One of the conditions for treating a place as a town was that it should have a population of 5,000 or above. This Appendix will show the number of villages with population 5,000 and above that have not been included in the urban list because they do not fulfil other conditions. The criteria for treatment of a place as town are given later in this Flyleaf. This Appendix will also show the number of places with population less than 5,000 treated as towns due to their administrative or historical importance, tourist interest or distinctively urban character.

Appendix III—This appendix gives the houseless population and institutional population by sex and the number of households of houseless population and institutional population for all the administrative units upto Development Block level and for cities. Figures have been presented separately for the total, rural and urban areas of each administrative unit. The definition of 'houseless' and 'institutional population' is given elsewhere in this Flyleaf.

Mode of presentation

In the table districts have been presented in the ascending order of their location code numbers. The serial number of the district represents its location code number. Within each district the Development Blocks have been presented in the ascending order of their location code numbers. The serial number of a Development Block represents its location code number within the district. The roman numeral within brackets after the name of town represents its location code number within the district. Towns situated wholly within a Development Block are shown immediately followig the entries for the total, rural and urban areas of the Development Block. In case a town falls in more than one Development Block it has been shown in one Development Block only with suitable foot-note. In case of Patna Municipal Corporation, however, falling in 3 Development Blocks namely, Patna 1(a), Patna 1(b) and Phulwari the figures have been shown in Patna 1(a) and 1(b) and not in Phulwari Development Block. The figures relating to urban agglomerations have been presented in the Annexure to this Table. Towns which are constituents of urban agglomerations are shown with double asterisks (**) on their right. The names of the urban agglomerations and their constituent towns are given in Annexure. The figures for the urban agglomerations are also given in the Annexure.

Concepts and definitions

Town—For Census purposes all municipalities. notified areas, civil lines and cantonments are treated as towns irrespective of their population, size, density of population or livelihood pattern.

Certain criteria were prescribed for treating other places as towns as it was done in 1961 Census. Places were to be treated as towns if (a) they had a population of 5,000 or more, (b) density of population was not less than 400 persons per square kilometre and (c) at least three-fourths of the male working population was engaged in non-agricultural livelihood. By and large these criteria were followed except in only a very few cases on account of their tourist interest or administrat ive significance or their having urban characteristics.

Urban agglomeration—An 'urban agglomeration' has been defined as "a continuous urban spread constituted of a town and its adjoining urban outgrowths or two or more physical contiguous towns together with continuous well recognised urban outgrowths, if any, of such towns".

House—A 'house' has been defined as "a building or part of a building having a separate main entrance from the road or common courtyard or stair-case, etc., used or recognised as a separate unit. It may be inhabited or vacant. It may be used for a residential or non-residential purpose or both.

If a building has a number of flats or blocks which *are independent of one another* having separate entrances of their own from the road or a common stair-case or a common courtyard leading to a main gate, they will be considered as separate census houses. If within a large enclosed area there are separate buildings, then each such building will be one or more separate census houses. If all the structures within an enclosed compound are together treated as one building then each structure with a separate entrance should be treated as a separate census house".

Occupied residential house—'Occupied residential house' refers to such houses as were occupied and were used for dwelling purposes or where the residence was combined with other uses such as shop-*cum*-residence, workshop-*cum*-residence, school-*cum*-residence, etc.

Household—A 'household' has been defined as "a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be 'one-member household, two-member household or multi-member household'. For census purposes each one of these types is regarded as a 'Household'. Again, there may be a household of persons related by blood or household of unrelated persons ; the latter are Boarding Houses, Hostels, Residential Hotels, Orphanages, Rescue Homes, *Ashrams*, etc. These are called Institutional Households."

Houseless population—Houseless population refers to that section of population which have no 'house' to live in such as pavement dwellers or beggars living in the open.

Institutional population—Institutional population refers to persons living in institutions such as jails, hospitals, asylums, hostels, etc. The institutional household is thus a special type of household of unrelated persons.

Area figure

The total area figures in column 3 against State and the districts represent the geographical area figures supplied by the Surveyor General, India. The total area figure for a Division has been derived by adding the area figures of the districts falling in it. The urban area figures are based on the area figures of individual towns supplied by the local officers. The rural area figures of the districts have been arrived at by subtracting the urban area figures as supplied by local officers from the total area figures of the districts as supplied by the Surveyor General, India.

The rural area figures of the Development Blocks have been calculated by adding up the area figures of the villages falling in them as printed in the Thana Jurisdiction Lists. The urban area figures of the Development Blocks have been derived by adding up the area figures upto two decimal places of the towns falling in them and then rounding off the figure upto one place of decimal. The total area figures of the Development Blocks have been calculated by adding the rural area figures and urban area figures of the Development Blocks. The rural area figures of Subdivisions have been arrived at by adding up the rural area figures of the Development Blocks lying in them. The urban area figures of the Subdivisions have been derived by adding up the area figures of the urban areas of the Development Blocks falling in them. The total area figures of the Subdivisions are the total of the rural and the urban area figures of the Subdivisions. The total and rural area figures of units lower than the district do not, therefore, add up to the area figures of the district.

The statement on the next page shows the total area figures of the State and the districts as supplied by the Surveyor General, India and the area figures derived by adding up the area figures of units lower than the district.

Area figures of the State and the districts, 1971

Dhanbad	26	19	4	2	1	1	..	..
Singhbhum	20	12	10	8	4	3	2	1

NOTES : 1971—All the constituents of Urban Agglomeration have been treated as separate towns.

1961—All the constituents of town-groups have been treated as separate towns.

1951—Suburbs of Patna, Dinapur, Muzaffarpur, Katihar, Dhanbad, Chakradharpur and Jamshedpur shown as towns in some of the earlier censuses have been merged with the main towns.

1941—The portion of Ranchi town administered by the Doranda N.A.C. and the railway settlements at Katihar, Dhanbad and Chakradharpur have been treated as suburbs of the adjoining municipalities and have not been treated as separate towns.

1931—The cantonments at Dinapur and Muzaffarpur have been treated as entirely separate towns. The new Capital Area at Patna, the portion of Ranchi town administered by Doranda N.A.C. and the railway settlements at Katihar, Dhanbad and Chakradharpur have not been treated as separate towns.

1921—The New Capital Area at Patna, the Military Cantonment at Dinapur, the portion of Ranchi town administered by Doranda Station Committee, and the railway settlements at Katihar, Dhanbad and Chakradharpur have been treated as suburbs of the adjoining municipalities. They have not been treated as separate towns.

1911—Dinapur Cantonment has been treated as forming part of the Dinapur municipality and has not been treated as separate town.

1901—The population of Cantonments (Dinapur and Doranda) has been added to that of the municipalities to which they adjoin. They have not been treated as separate town.

It will appear that the number of towns in this State has increased progressively from 57 in 1901 to 202 in 1971. The number of towns has increased from 153 in 1961 to 202 in 1971 in the State. The increase in the districts of Hazaribagh, Singhbhum and Dhanbad in 1971 has been striking. In four districts namely, Darbhanga, Bhagalpur, Purnea and Palamau there has been no addition in the list of towns in 1971.

Village—A village has the same meaning as a revenue *mauza*. A *mauza* has been defined as "a parcel of land which as a rule is partly built over but mostly cultivated and waste with a definite position and area, the boundaries of which were defined either at the time of the cadastral survey or at the time of the revenue survey. It may contain no houses at all or, on the other hand, several hamlets each bearing a different name."

The statement below shows the number of inhabited villages in different censuses since 1901 :

Number of inhabited villages in 1901—1971

State/District	Number of inhabited villages in							
	1901	1911	1921	1931	1941	1951	1961	1971

Hazaribagh	8,821	8,372	6,141	6,060	6,039	6,102	6,134	6,131
Ranchi	3,135	3,887	3,838	3,800	3,859	3,892	3,858	3,836
Dhanbad	2,043	2,043	1,850	1,684	1,593	1,532	1,490	1,365
Singhbhum	4,888	4,899	4,393	4,179	4,395	4,232	4,401	4,351

NOTES : (1) There has been no adjustment in the number of inhabited villages for the changes in jurisdiction prior to 1951 Census.

(2) The number of inhabited villages in Saharsa district is not available for 1901 Census. The number of inhabited villages of Saharsa district has, therefore, been included in Bhagalpur district for 1901.

(3) The following adjustments have been made on account of inter-district or inter-State transfer of inhabited villages during 1951—61 and 1961—71 :

(a) 1951—61 : (i) 723 inhabited villages of Purnea district were transferred to West Bengal as a result of State reorganisation and as such 723 villages have been excluded from the total number of inhabited villages of Purnea from 1901 to 1951.

(ii) 264 inhabited villages of Chas Revenue Thana of Purulia (old Manbhum) district transferred to Dhanbad district in 1956 have been added in the total number of inhabited villages of Dhanbad district in 1951. The number of villages of Dhanbad subdivision and Chas Revenue Thana has been shown in earlier censuses in Dhanbad district. For 1901 separate figures for Dhanbad district are not available. Figure of 1911 has, therefore, been repeated in 1901.

(iii) 39 villages were transferred from Ranchi district to Singhbhum of which 38 were inhabited. Therefore, 38 villages have been excluded from the total number of inhabited villages of Ranchi and added to the total number of villages of Singhbhum in all the censuses from 1901 to 1951.

(iv) 463 inhabited villages of Chandil Revenue Thana and Patamda P. S. of Purulia district (old Manbhum district) transferred to Singhbhum in 1956 have been added in the total number of inhabited villages of Singhbhum in 1951 Census. All inhabited villages of Seraikela and Kharsawan States which were not included in Singhbhum before 1951

have also been added in the total number of inhabited villages of Singhbhum in earlier censuses. The following numbers of villages have been added to the figures of Singhbhum in earlier censuses :

	1941	1931	1921	1911	1901
(i) From Seraikela & Kharsawan States	864	672	882	888	1,079
(ii) From Chandil Revenue Thana	312	307	311	472	472
(iii) From Patamda Police Station	149	149	149	149	149
(iv) From Ranchi district . .	38	38	38	38	38
Total .	**1,363**	**1,166**	**1,380**	**1,547**	**1,738**

(b) 1961—71 : (i) 7 inhabited villages transferred from Shahabad to U. P. have been excluded from the total number of inhabited villages of Shahabad and one inhabited village transferred from U. P. to Shahabad has been added to the total number of inhabited villages of Shahabad in 1961 and earlier censuses.

(ii) 4 inhabited villages of U. P. transferred to Saran district have been added to the total number of inhabited villages of Saran in 1961 and earlier censuses.

(iii) 122 villages were transferred from Monghyr district to Saharsa. Of these 114 villages were inhabited in 1951 and 113 in 1961. Therefore, 113 villages have been excluded from the total number of inhabited villages of Monghyr district and added in the district of Saharsa in 1961 and 114 villages have been excluded from Monghyr district and included in Saharsa district in 1951 and earlier censuses.

(iv) 28 inhabited villages have been transferred from Hazaribagh district to Dhanbad. Of these 27 were inhabited in 1951. Therefore, 28 villages in 1961 and 27 villages in earlier censuses have been excluded from the total number of inhabited villages in Hazaribagh and added to the total number of inhabited villages in Dhanbad.

The number of inhabited villages in Bihar has come down from 67,663 in 1961 to 67,566 in 1971. Considering the districts, the number has come down in 11 districts.

In 1971 the highest decrease in the number of inhabited villages has been in the districts of Dhanbad and Singhbhum. 117 villages in Dhanbad and 52 villages in Singhbhum have been included in urban areas in 1971.

The statement below gives the total number of villages according to Thana Jurisdiction Lists, number of villages according to Census, number of villages included in towns for the State and the districts :

Villages and Towns in the State and the districts, 1971

State/District	Total no. of villages according to Thana Jurisdiction Lists	Total no. of inhabited villages	Total no. of uninhabited villages	Number of villages included in towns		Total no. of towns	Total of cols. 3, 4 and 5	Differences (cols. 2 & 8)
				Fully	Partly

Singhbhum . .	4,690	4,351	271	96	20	20	4,718	+ 28

Figures in column 2 of the statement have been worked out by actual counting of the number of entries in the Revenue Thana Jurisdiction Lists while those in columns 3 and 4 have been arrived at by counting of number of villages in the village-wise Primary Census Abstract. The figures in columns 2 and 8 tally in the districts of Gaya, Monghyr, Ranchi and Dhanbad only. The reasons for differences in the remaining districts are given below :

Patna District—There is an excess of 3 villages according to Census. It is due to the following reasons :

(i) Village Mohammadpur Narkatpura, thana no. 164 of Bihar Revenue Thana finds place in the Villagewise Primary Census Abstracts of both Bihar Development Block and Asthawan Development Block.

(ii) Village Rajawan, thana no. 168 of Bihar Revenue Thana figures in the Village-wise Primary Census Abstracts of both Rahui Development Block and Asthawan Development Block.

(iii) Village Ram Nagar Diara, thana no. 314 of Barh Revenue Thana occurs in the Villagewise Primary Census Abstracts of both Barh Development Block and Bakhtiarpur Development Block.

Shahabad District—There is an excess of 77 villages according to Census due to the reason given below :

(i) 51 Unsurveyed villages have been included in this district.	(+51)
(ii) 25 Unsurveyed villages (3 wholly and 22 partly) have been transferred from Uttar Pradesh.	(+25)
(iii) Village Mahazi Dokti finds place in the Villagewise Primary Census Abstracts of three Development blocks, viz., Arrah, Shahpur and Barhara.	(+2)
(iv) Village Dokti occurs in the Villagewise Primary Census Abstracts of both Arrah Development Block and Barhampur Development Block.	(+1)
(v) Village Pranpur Degree Suda Privy Council occurs in the Villagewise Primary Census Abstracts of both Simri Development Block and Barhampur Development Block.	(+1)
(vi) 3 Surveyed villages, viz., Sheopur Diar, thana no. 94/471, Mafi Arazi Tulapur, thana no. 488, and Bulapur, thana no. 489 have been wholly transferred to Uttar Pradesh	(—3)
	(+77)

Saran District—There is an excess of 29 villages according to Census due to the reason given below :

(i) 10 Unsurveyed villages have been included in this district.	(+10)
(ii) 16 Unsurveyed villages (2 wholly and 14 partly) have been transferred from Uttar Pradesh.	(+16)
(iii) Village Bashishthnagar finds place in the Villagewise Primary Census Abstracts of both Manjhi Development Block and Siswan Development Block.	(+1)
(iv) Village Mahazi Gondauli finds place in the Villagewise Primary Census Abstracts of both Andar Development Block and Raghunathpur Development Block.	(+1)
(v) Village Diara Maniar Tukra I occurs in the Villagewise Primary Census Abstracts of both Andar Development Block and Darauli Development Block,	(+1)
	(+29)

Champaran District—The excess of 1 village according to Census is due to inclusion of one forest village in Gaunaha Development Block.

Muzaffarpur District—There is an excess of 6 villages according to Census due to the reasons given below :

(i) 2 villages Jhapaha, thana no. 594 and Rajwara Bhagwan, thana no. 698 of Muzaffarpur Revenue Thana find place in the Villagewise Primary Census Abstracts of both Musahri Development Block and Bochaha Development Block.	(+2)
(ii) Village Mohanpur Ishar Chak Khusro, thana no. 213 of Hajipur Revenue Thana occurs in the Villagewise Primary Census Abstracts of both Hajipur Development Block and Bidupur Development Block.	(+1)

(iii) Village Singhara Buzurg, thana no. 400 of Mahua Revenue Thana finds place in the Villagewise Primary Census Abstracts of both Mahua Development Block and Jandaha Development Block. (+1)

(iv) Village Bengahi, thana no. 19 of Sheohar Revenue Thana occurs in the Villagewise Primary Census Abstracts of both Bairgania Development Block and Majorganj Development Block. (+1)

(v) Village Rupnarayanpur, thana no. 602 of Hajipur Revenue Thana occurs twice as an independent village in the Villagewise Primary Census Abstract of Mahnar Development Block because this village is in two pieces shown separately at two distant places in the Revenue Thana map of Hajipur. (+1)

(+6)

Darbhanga District—The excess of one village according to Census is due to the fact that village Kortha, thana no. 257 of Bahera Revenue Thana occurs in the Villagewise Primary Census Abstracts of both Benipur Development Block and Ghanshyampur Development Block.

Bhagalpur District.—There is an excess of 2 villages according to Census. Village Farid Chak, thana no. 397 of Bhagalpur Revenue Thana finds place in the Villagewise Primary Census Abstracts of both Jagdishpur Development Block and Nathnagar Development Block. Similarly, village Shankerpur Khawas, thana no. 41 of Colgong Revenue Thana occurs in the Villagewise Primary Census Abstracts of both Sabour Development Block and Colgong Development Block.

Saharsa District—There is a shortage of 3 villages according to Census. The reasons are as follows :

(i) Village Sihaul Arazi, thana no. 155 of Bangaon Revenue Thana has been merged with village Gangaura Behra, thana no. 156/1. (—1)

(ii) Village Rampur Baghna, thana no. 80 of Kishanganj Revenue Thana has been merged with village Parail, thana no. 79. (—1)

(iii) Village Hataganpat Ganj, thana no. 129 of Pratapganj Revenue Thana has been merged with village Dharahara, thana no. 128. (—1)

(iv) Village Shamsuddinpur, thana no. 94 of Gogri Revenue Thana has been merged with village Shamsuddinpur, thana no. 94/1. (—1)

(v) Village Bishunpur Korlahi Milik, thana no. 253/3 of Madhepura Revenue Thana occurs in the Villagewise Primary Census Abstracts of both Murliganj Development Block and Kumarkhand Development Block. (+1)

(—3)

Purnea District—There is a shortage of 3 villages according to Census. This is so because villages Parora, thana no. 127 and Parora, thana no. 128 of Purnea Revenue Thana have been merged with village Parora, thana no. 126 of the same Revenue Thana and villages Adbullah Nagar, thana no. 100/1 and Abdullah Nagar, thana no. 100/2 of Purnea Revenue Thana have been merged together and shown as Abdullah Nagar, thana no. 100.

Santal Parganas District—There is an excess of 12 villages according to Census. 11 unsurveyed villages and one Military camp have been treated as independent villages and have been shown in the Villagewise Primary Census Abstracts of Rajmahal Development Block and Shikaripara Development Block.

Palamau District—The excess of 9 villages according to Census is due to the inclusion of 7 forest villages in Garu Development Block and 2 forest villages in Barwadih Development Block.

Hazaribagh District—There is an excess of one village according to Census. This is because one B.S.F. Training Centre has been shown as an independent village in theVillagewise Primary Census Abstract of Hazaribagh Development Block.

Singhbhum District—There is an excess of 28 villages according to Census. This is due to the inclusion of 9 forest villages in Sonua Development Block, 7 forest villages in Tonto Tribal Development Block, 3 forest villages in Noamundi Development Block, 8 forest villages in Manoharpur Development Block and 1 forest village in Kiriburu town.

Rural and urban classification of population

The statement on the next page gives the proportions of rural and urban population in the population of the State and the districts for 1961 and 1971 Censuses.

OFFICE OF THE REGISTRAR GENERAL INDIA
LIBRARY
26058

Percentages of rural and urban population to total population in 1961 and 1971

State/District	Percentage of rural and urban population			
	1961		1971	
	Rural	Urban	Rural	Urban
BIHAR	**91.57**	**8.43**	**90.00**	**10.00**
Patna	79.87	20.13	77.46	22.54
Gaya	92.73	7.27	92.37	7.63
Shahabad	92.78	7.22	91.78	8.22
Saran	95.82	4.18	95.80	4.20
Champaran	95.16	4.84	94.79	5.21
Muzaffarpur	95.42	4.58	94.75	5.25
Darbhanga	95.68	4.32	95.57	4.43
Monghyr	88.36	11.64	88.13	11.87
Bhagalpur	89.09	10.91	89.39	10.61
Saharsa	96.43	3.57	95.47	4.53
Purnea	93.99	6.01	93.66	6.34
Santal Parganas	94.66	5.34	94.24	5.76
Palamau	95.27	4.73	95.31	4.69
Hazaribagh	91.52	8.48	87.13	12.87
Ranchi	90.53	9.47	86.33	13.67
Dhanbad	75.49	24.51	56.49	43.51
Singhbhum	78.50	21.50	73.76	26.24

NOTE: 1961 percentages are based on the adjusted total population of 1961 Census on the jurisdiction of 1971 Census.

The proportion of urban population in Bihar has increased from 8.43 per cent in 1961 to 10.00 per cent in 1971. The proportion of urban population has increased in all the districts except Bhagalpur and Palamau. In Bhagalpur the percentage has come down from 10.91 to 10.61 and in Palamau from 4.73 to 4.69. The highest increase in the proportion of urban population has been in Dhanbad.

Sex-ratio

The statement below gives the sex-ratios for total, rural and urban areas of the districts and the State :

Sex-ratio, 1971

State/District	No. of females per 1,000 males, 1971		
	Total	Rural	Urban
BIHAR	**954**	**971**	**807**
Patna	906	932	822
Gaya	972	980	874
Shahabad	947	957	845
Saran	1,051	1,061	850
Champaran	931	936	833
Muzaffarpur	989	999	821
Darbhanga	983	990	835
Monghyr	934	944	864
Bhagalpur	914	925	821
Saharsa	919	925	804
Purnea	918	928	773
Santal Parganas	959	967	829
Palamau	963	970	842
Hazaribagh	979	1,009	799
Ranchi	973	1,001	815
Dhanbad	792	893	675
Singhbhum	942	998	802

In the district of Saran there is an excess of females over males. In 1961, females outnumbered males in 4 districts namely, Saran, Darbhanga, Muzaffarpur and Gaya. Considering rural areas only, sex-ratio is favourable, i.e., there is an excess of females over males in 3 districts namely, Saran, Hazaribagh and Ranchi. In 1961 rural areas of as many as 9 districts, namely, Gaya, Shahabad, Saran, Muzaffarpur, Darbhanga, Monghyr, Hazaribagh, Ranchi and Singhbhum had favourable sex-ratios. Sex-ratio is adverse in the urban areas of all the districts in 1971. This was so in 1961 as well.

Density of population

The statement below shows the density of population per sq. kilometre for the State and the districts for 1961 and 1971 Censuses :

Density of population in 1961 and 1971

State/District	Density per sq. kilometre					
	1961			1971		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
BIHAR	**267**	**248**	**1,915**	**324**	**296**	**2,039**
Patna	534	441	3,103	643	518	3,816
Gaya	296	277	1,984	361	337	2,589
Shahabad	283	265	2,674	348	323	2,336
Saran	516	498	3,062	616	595	3,301
Champaran . . .	327	315	1,269	385	369	1,964
Muzaffarpur . . .	525	507	2,346	618	591	3,453
Darbhanga . . .	508	489	4,264	603	578	7,567
Monghyr	328	296	1,868	396	356	2,378
Bhagalpur	303	273	2,730	370	334	3,451
Saharsa	321	313	893	399	387	1,130
Purnea	280	268	1,100	358	340	1,511
Santal Parganas . . .	189	180	1,445	226	214	1,873
Palamau	94	90	858	119	114	1,173
Hazaribagh . . .	131	121	1,141	167	149	941
Ranchi	117	107	1,243	142	124	1,695
Dhanbad	395	315	1,774	490	322	1,502
Singhbhum . . .	152	121	2,713	181	137	2,130

NOTE: Density figures for 1961 have been calculated on the basis of the jurisdiction in 1971.

Both according to 1961 and 1971 Censuses Patna is the most densely populated district followed by Muzaffarpur, Saran and Darbhanga. Palamau has been the most sparsely populated district both in 1961 and 1971.

UNION TABLE A-I—AREA, HOUSES AND POPULATION

NOTE : 1. The density figures of urban areas of District/Division/State have been worked out using the area figures corrected upto 2 places of decimals obtained by adding the areas of the towns in the respective units and not using the area figures given in the Table. For "Total" and "Rural" the density is worked out on area figures corrected upto one place of decimal.

2. The total area figures given in column 3 against State/District represent 'geographical area' figures supplied by the Surveyor General, India. Total area figure for a Division has been derived by adding the total area figures of District falling in it. The urban areas are based on the area figures of individual towns supplied by the local officers. The rural area for a district has been arrived at by subtracting the urban area from the 'geographical area' supplied by the Surveyor General, India.

† Does not include portion of Jadugora Town which falls in Development Block Potka and is shown under Development Block Musabani.
‡ Includes portion of Jadugora Town which falls in Development Block Po also.
@ Separate area figures for Jamshedpur (N) and Tatanagar Railway Colony are not available. Their combined area has been shown against the main town.

NOTE. (1) The density figures of urban areas of Development Block/Subdivision/District/Division/State have been worked out using the area figures corrected upto 2 places of decimals obtained by adding the areas of the towns in the respective units and not using the area figures given in the Table. For "Total" and "Rural" the density is worked out on area figures corrected upto one place of decimal.

(2) Total area figures given in column 3 against State and District represent 'Geographical area' figures supplied by the Surveyor General, India. Total area figure for a Division has been derived by adding the total area figures of Districts falling in it. The urban areas are based on the area figures of individual towns supplied by the Local Officers. The rural area for a district has been arrived at by subtracting the urban area from the 'Geographical area' supplied by the Surveyor General, India.

(3) The rural area figures of units lower than the District do not add up to the area figure of the District because the rural areas of units lower than the District have been computed from the Thana Jurisdiction Lists, maintained by the State Survey Office while rural area of the District has been derived by subtracting the urban area of the District as supplied by the Local Officers from the total area of the District as supplied by the Surveyor General, India.

(4) The following abbreviations have been used for the status of Town :
M.C.—Municipal Corporation ; M.—Municipality ; N.—Notified Area ; Cantt.—Cantonment.

(5) Towns and outgrowth of towns which are constituents of urban agglomerations are shown with double asterisks (**) on their right. The names of the urban agglomerations and their constituents are given in the Annexure. The figures for the urban agglomerations are also given in the Annexure.

(6) Towns treated as such for the first time in 1961 Census which continue as towns in 1971 Census are shown with asterisk (*) on their left.

(7) Towns treated as such for the first time in 1971 are printed in *Italics*.

(8) Roman numerals (X) within brackets after the names of towns indicate their location code numbers.

(9) N. A. means not available.

ANNEXURE TO TABLE A-I

Showing figures of Urban Agglomerations

Urban Agglomeration with Constituent Units	Urban	Area in Km²	Population per Km²	Number of Villages		Number of towns	Number of occupied residential houses	Number of households	Population
