

CENSUS OF INDIA 1981

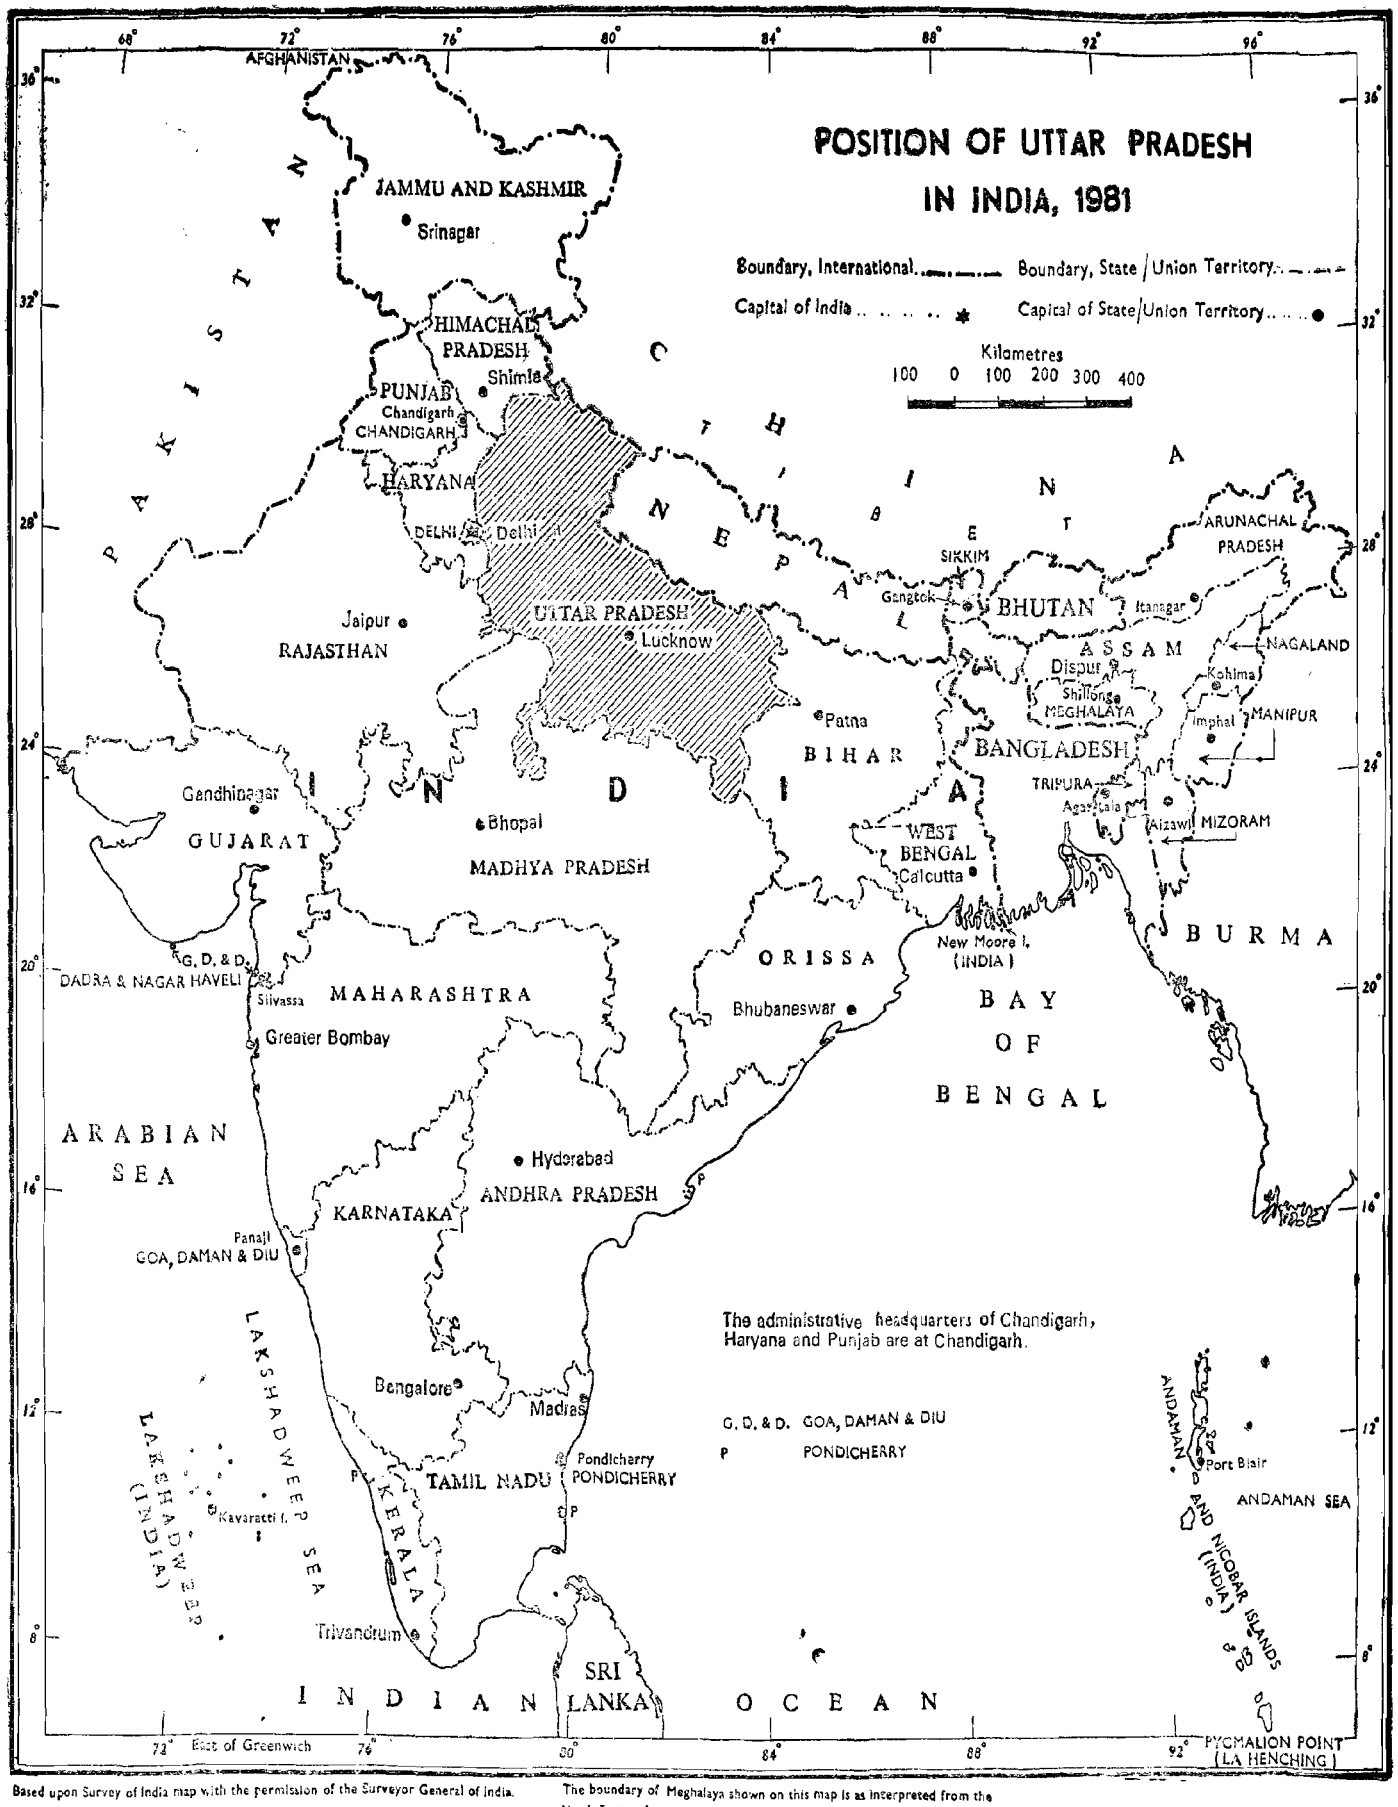

SERIES 22

UTTAR PRADESH

PART II - A

GENERAL POPULATION TABLES

RAVINDRA GUPTA
of the Indian Administrative Service
Director of Census Operations,
Uttar Pradesh

Based upon Survey of India map with the permission of the Surveyor General of India.

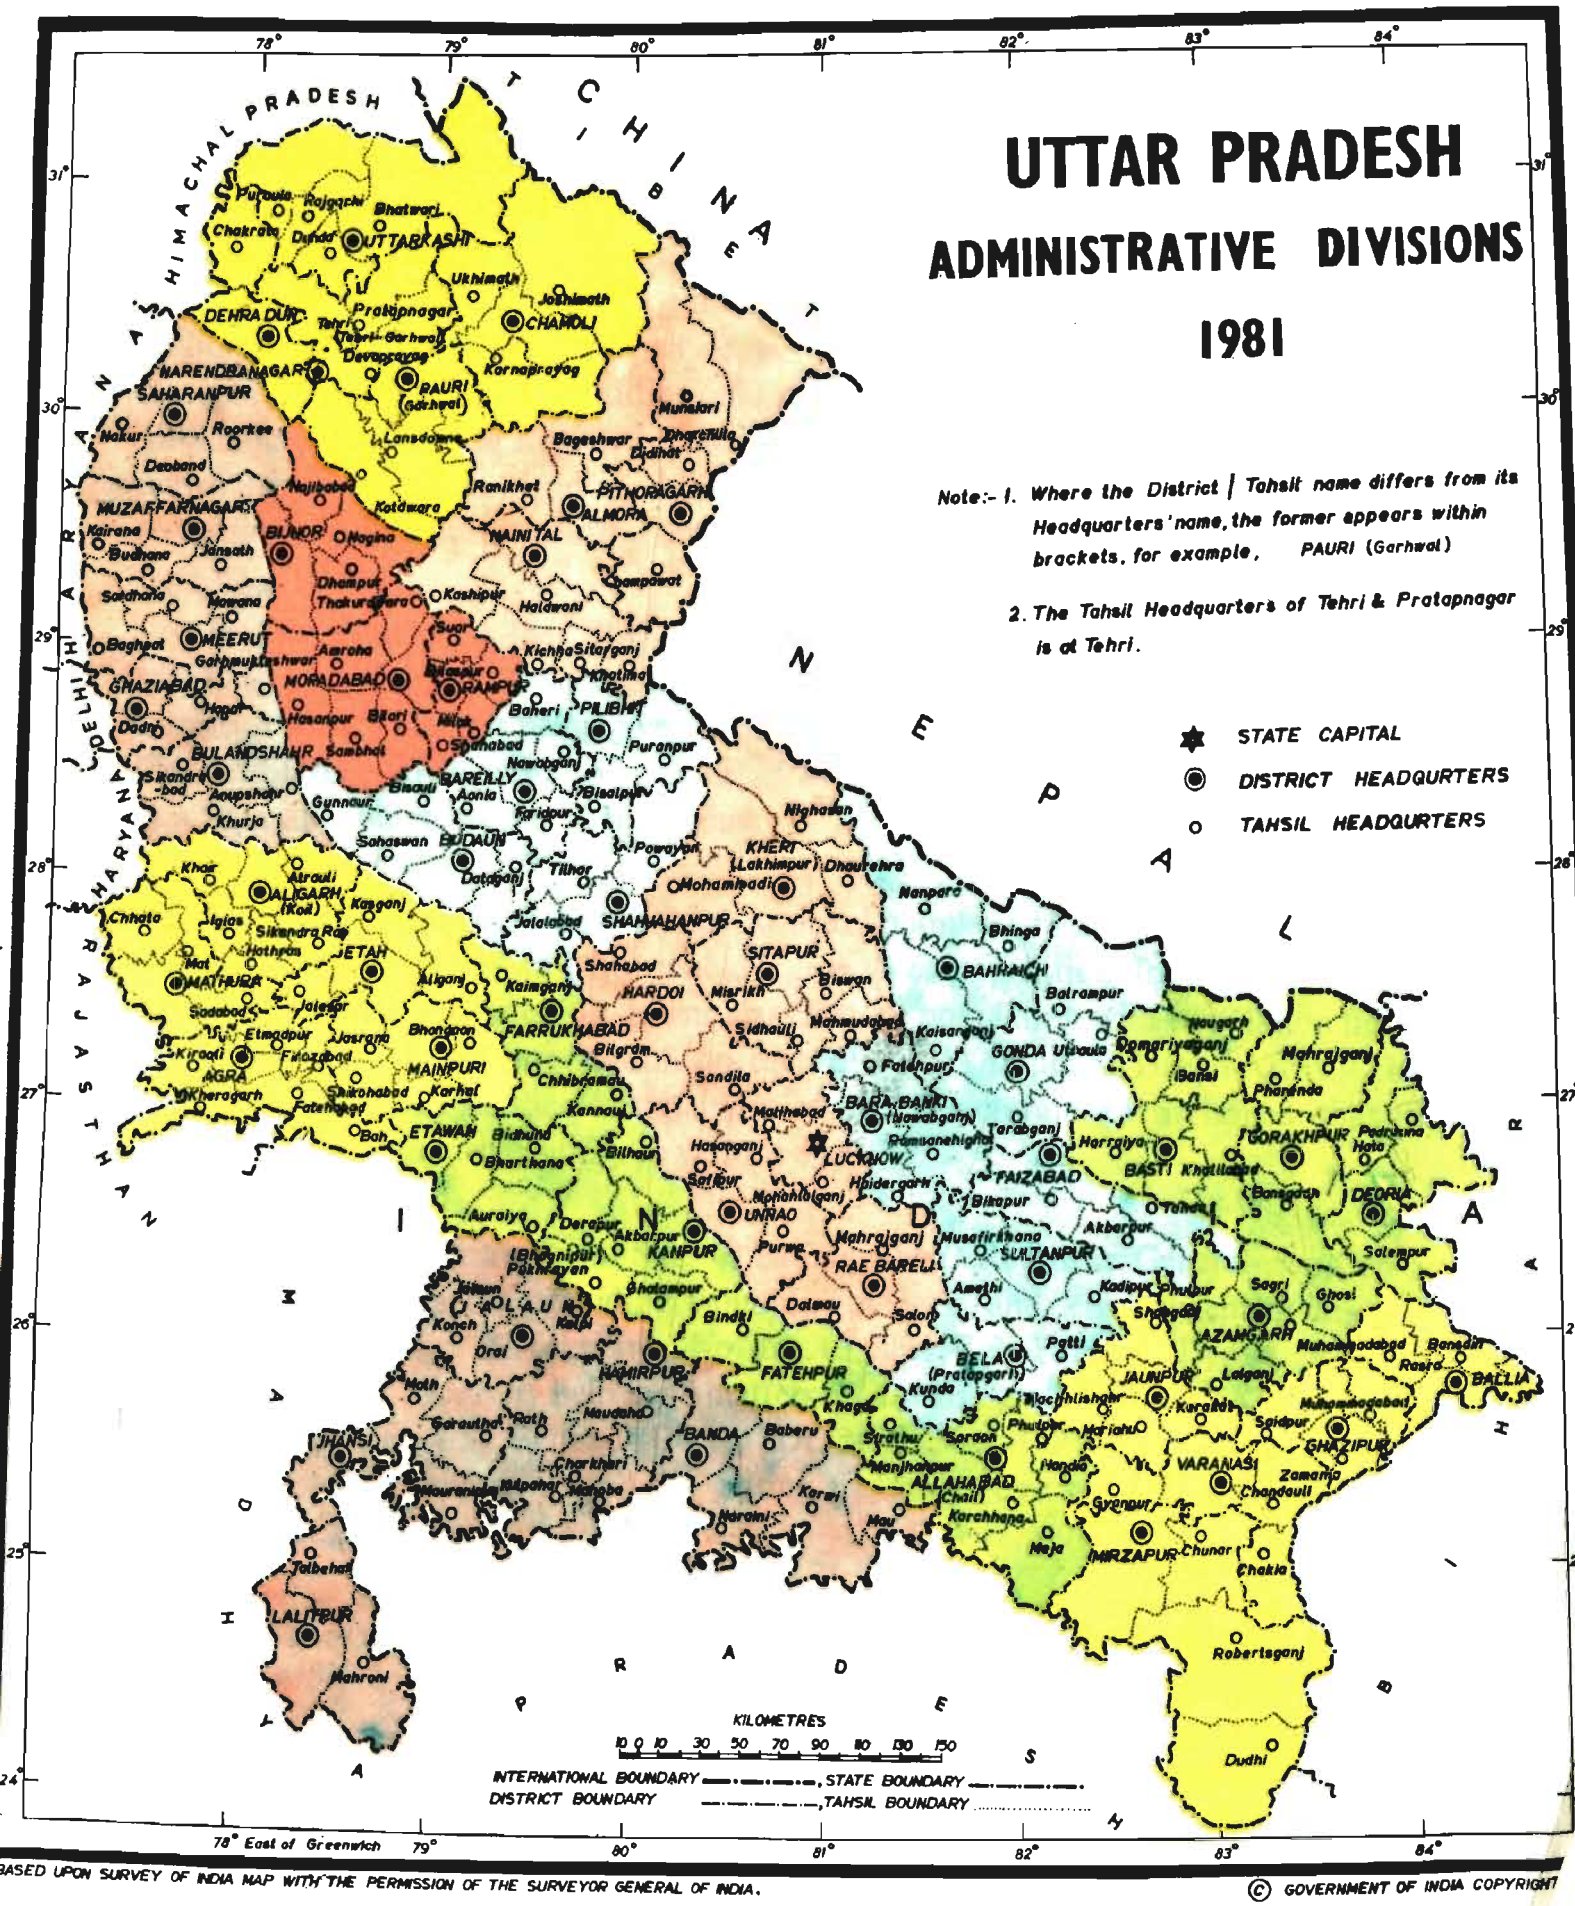

The territorial waters of India extend into the sea to a distance of twelve nautical miles measured from the appropriate base line.

The boundary of Meghalaya shown on this map is as interpreted from the North-Eastern Areas (Reorganisation) Act, 1971, but has yet to be verified.

FOREWORD

Soon after the completion of 1981 Census, the provisional population tables were brought out through Paper 1 and Paper 1 supplement of 1981 to meet the immediate needs of data users. In the meantime, the complete processing of various schedules, in the quickest possible time, was initiated. The processing of over 110 million individual slips was in itself a tremendous task. The scrutiny of schedules received from the field, their editing and manual tabulation was done in 14 Regional Tabulation Offices. The Regional Tabulation Office at Kanpur handled the records of urban areas of districts Kanpur, Allahabad, Varanasi, Agra and Lucknow and the remaining regional offices of rural and urban areas of the districts under them.

In this volume *i.e.* Part II-A-General Population Tables, the basic census data tabulated on full count are being given. This, however, does not include the Primary Census Abstract which is being given in Part II-B. Further, table A-5 dealing with 43 Standard Urban Areas has also been included in this volume which had been published in a separate volume at the 1971 Census.

Information presented here relates to area, population, number of villages and owns, number of houses and households, growth of population from 1901 to 1981, villages classified by population, towns classified by population with population figures, from 1901 to 1981 and information on each of the 43 Standard Urban Areas. These tables were prepared at the Headquarters of this Directorate. It is hoped that this volume will be of immense utility to various agencies.

I owe a deep gratitude to Shri P. Padmanabha, Registrar General-*cum*-Census Commissioner, India for providing valuable guidance and encouragement at different stages of work. Thanks are also due to Shri V.P. Pandey, Deputy Registrar General, India for necessary help in all matters. I am also grateful to Shri K.K. Chakravorty, Deputy Registrar General (C&T), Dr. N.G. Nag, DRG (SS) and officers and staff of Central Tabulation Unit for getting the tables checked and providing useful suggestions to improve the volume.

Shri Lal Krishan, Deputy Director assisted by Shri Harbhajan Singh, Assistant Director and other staff working under them deserve acknowledgement for the hard labour put-in in the preparation of tables and drafting of introductory notes and fly leaves. Thanks are also due to Shri R.P. Singh, Research Officer for maps included in this volume and Shri M.C. Padalia, Assistant Director for assistance in the finalisation of tables and with Shri R. K. Saxena, Sr. Technical Assistant (Printing) and his team for seeing through the printing of this volume.

Lastly, my thanks are due to Shri V. Sivaramakrishnan, Manager, Government of India Press, Shimla and his staff for expeditious printing of this volume.

LUCKNOW
May 5, 1983

RAVINDRA GUPTA
Director of Census Operations,
Uttar Pradesh Lucknow.

INTRODUCTION

1. Introductory

1.1 Census 1981 was the 12th Indian Census as reckoned from 1872 and 4th after inception of the Indian Republic. The population data for the 1981 Census were collected with the reference date of 1st March, 1981. The Provisional Population Totals for the state and its districts were published on March 23, 1981 in Paper 1 of 1981. Supplement of Paper 1 of 1981 was brought out on June 6, 1981. In this Paper, provisional figures by rural and urban areas by basic characteristics like distribution of main workers, distribution of main workers by cultivators, agricultural labourers, household industries and other workers, were published upto the tahsil level. Figures finalised as a result of thorough processing of individual slips are being given in this part.

1.2 This part contains the following tables :

A-1 : Area, houses and population. It is accompanied by three appendices :

(i) Statement showing 1981 territorial units and changes during 1971—81 upto tahsil level

(ii) Number and population of villages with a population of 5,000 and over and all towns of population under 5,000 upto tahsil level

(iii) Houseless and institutional population down to the charge level

A-2 : Decadal variation since 1901
It is accompanied by an appendix showing state and districts at the 1981 Census, 1971 area and population according to territorial jurisdiction in 1971, change in population of 1971 adjusted to jurisdiction of 1981.

A-3 : Villages classified by population size upto tahsil level

A-4 : Town and urban agglomerations classified by population in 1981 with variation since 1901

It has four appendices showing new towns in 1981, towns in 1971 declassified in 1981, places with a population under 5,000 classified as towns for the first time in 1981, places with population under 5,000 in 1971 which were towns in 1971 but have been declassified in 1981 and changes between 1971 and 1981 in area and population of towns and reasons for change in area.

A-5 : The new feature of Standard Urban Area introduced at the 1971 Census is also being carried forward and is being covered under Table A-5 together with maps for each standard urban area.

1.3 Another volume Part II-B will comprise state and district Primary Census Abstracts upto tahsil level as also Scheduled Castes and Scheduled Tribes Primary Census Abstracts upto tahsil level. Primary Census Abstract figures upto villages of each tahsil and ward of each town are being published in Part B of District Census Handbook of each district.

2. The Census Count

2.1 Enumeration operation of the Census was conducted during February-March, 1981. It started from 9th of February and continued till 28th. On the mid-night of February 28th-March 1st, 1981, the houseless population was enumerated. Thereafter followed a revisional round till March 5, 1982 to update information to the sunrise of March 1, 1981. Enumeration of non-synchronous areas of Chamoli, Uttarkashi and Pithoragarh districts was conducted with sunrise of October 1, 1980 as reference date.

3. Preparatory Measures

3.1 Census Schedules and Questionnaires were evolved after careful planning and consultations by the Registrar General, India with the Census data users. Two data users conferences were held at Delhi for the purpose and pilot tests and pre-tests were conducted on the questionnaires and concepts. This process had started right in 1974. The subject was discussed in a Data Base Seminar convened by the Indian Association for the Study of Population (I.A.S.P.) in collaboration with the Indian Econometric Society and the Indian Statistical Institute. The Indian Association for Study of Population organised another seminar in Bangalore in December, 1976 followed by a symposium in Delhi in November, 1977 in collaboration with the Central Statistical Organisation and Indian Statistical Institute. In February, 1978, the first data users conference was convened by the Registrar General-*cum*-Census Commissioner, India. Based on the suggestions made, draft questionnaires were prepared and a study on pilot basis in 9 states including Uttar Pradesh was made during June 12—22, 1978. Based on the experience of the pilot study first pretest was conducted in September-October, 1978 in all the states and union territories except Lakshadweep, Mizoram, Dadra and Nagar-Haveli and Pondicherry. The experience was discussed in the second data users conference in December, 1978. After detailed discussions on the schedules and instructions and incorporating the changes considered suitable, the second pretest was conducted in the second half of June, 1979.

3.2 In the second pretest enumerators were, in majority of cases, drawn from amongst teachers, government officials, officers of the local bodies, village panchayats etc. This gave a real feel of the situation.

As a result of various discussions the following slides were finalised :

(i) Houselist,

(ii) Household Schedule—Part I and II and

(iii) Individual Slips (both universal and sample).

3.3 The Household Schedule was revised and the Individual Slip was divided into two parts, first part containing 16 questions to be canvassed on a universal basis and the second part comprising six questions on migration and fertility to be conducted in an area sample comprising 20% enumeration blocks to be selected through systematic random sampling. Establishment Schedule of 1971 was dropped and in lieu thereof an Enterprise List was added to integrate economic census with the houselisting operation. Schedules were printed in Hindi for this state.

4. Houselist

4.1 This was simplified as compared to 1971 Census but some new items were added to meet the demand of social welfare department and other data users. An Enterprise List was also canvassed alongwith the houselisting operations, which was passed on to the Central Statistical Organisation for compilation, tabulation and publication of consequent results. The Houselist had 14 columns. The first 6 related to line number, building number, census house number, purpose for which census house is used, household number and name of the head of household. Column 7 sought information whether the household was engaged in enterprise outside the census house and without premises. In case the census house was engaged in an enterprise, necessary informantion would simultaneously be filled up in the Enterprise list. Columns 8 to 10 collected information on the number of males, females and total number of persons normally residing in household. Columns 11—13 collected information about physically handicapped persons in the household, if any. The physically handicapped covered totally blind, totally crippled or totally dumb. 1981 being International year of physically handicapped, the information pertaining to them was sought after a long gap since 1931. Though this information could not be comprehensive, it was nevertheless, considered desirable to meet atleast partly the demand for such data. The intention was also to provide a frame on the basis of which further surveys could be carried out. (Copy of the proforma is at Annexe-1).

5. Household Schedule and Population Record

5.1 Household Schedule was revised with a different focus at the 1981 Census. It was oriented to yield information on amenities available to the household. It had 15 items seeking information about name of the head of household and his religion and whether he belongs to Scheduled Caste/Scheduled Tribe and if so, caste/tribe. Further, information on language mainly spoken in the household, whether the household lived in its own house, predominent construction material of the house, facilities like drinking water supply, electricity and toilet (for urban areas only), number of living rooms in occupation, number of married couples usually living in house, does the household cultivate land, if so, its category and if rented, local name of the tenency, were collected. The above constituted Part-I of the household schedule. Part-II was basically to enable tabulation of information collected in the individual slip for all the members of the household. Columns on name, relationship to head, sex, age and marital status were filled for each member of the household before starting on individual enumeration in the individual slip (A copy of the proforma is at Annexe-2). It thus constituted a "Population Record" for each household.

6. Individual Slip

6.1 It comprised of 13 basic questions and question 14—16 about the working characteristics of each individual including whether he is seeking or available for work. These 16 questions were canvassed universally. For sample blocks, additional information about birth place, place of last residence, reasons for migration from place of last residence, duration of residence in village or town of enumeration was sought on migration. Question 5 sought information from every married woman; and age at marriage, number of children surviving at present and number of children ever born alive and lastly, question 6 enquired of currently married women if they had any child born alive during the last one year. Copy of the Individual Slip is at Annexe-3.

6.2 Question 14 A to 16 were developed after a considerable degree of investigation and detailed evaluation of 1961 and 1971 results based on questions on the same characteristics. A question relating to whether one is attending school or college was introduced for the first time. This in combination with age group would provide new information of interest to educational planners. The question on whether one is seeking or available for work in the case of non-workers and marginal workers was also introduced. The questions on migration were expanded to elicit reasons for migration while questions on fertility were expanded to derive total fertility rates.

7. Degree Holders and Technical Personnel Cards

7.1 As in the 1971 Census the census of degree holders and technical personnel was taken in the sample blocks only by canvassing schedule finalised by the Council of Scientific and Industrial Research. These cards were sent to the Council who would compile data. Specimen of this card is at Annexe-4.

8. Preparation of Maps

8.1 Census accuracy seeks that every person is enumerated without ommission or duplication. This equally applies to the areas constituting the administrative units. In order to achieve this entire state was mapped showing each district, tahsil, village and town which are the basic administrative areas.

8.2 In the tahsil maps villages were shown by their 1981 Census code numbers. In addition, Nyaya Panchayat Headquarters, Vikas Khand boundaries,

railway line, important roads and main rivers were also shown on them. Further, enumerator blocks and supervisory circles were also demarcated therein. Composite maps of towns showing ward and ward-wise maps of each town showing supervisory circles were also prepared. Physical features and permanent land marks were also shown in these maps. During house-listing, two maps (not to scale) of each enumerator block were prepared. These were updated at the time of enumeration. A notional map was prepared showing general topographical details of the enumerator block with the sole objective of defining its area. Every inch of the area of a census charge would thus be accounted for. Thereafter a layout sketch was prepared which was indeed a detailed map of each block showing each street and building on the streets so that the enumerator could locate each household in his enumeration block. It was for the first time that uniform sized mapping sheets were prescribed and symbols standardised. These symbols were printed in the margin of the map paper. These maps not only served as a frame for enumeration but could aid subsequent surveys also.

9. Rural/Urban Areas

9.1 Any clear cut distinction between rural and urban has not yet been possible anywhere, far less to have a uniform definition for all the countries. However, after giving considerable thought, the following criteria were adopted for treating a place as urban for the 1981 Census :—

(a) All statutory towns, *i.e.,* all places with a municipal board or cantonment board or notified town area ;

(b) All other places which satisfy the following criteria :—

(i) A minimum population of 5,000;

(ii) 75% of the male working population engaged in non-agricultural (and allied) activity ; and

(iii) A density of population of at least 400 per sq. km. (or 1,000 per sq. mile).

9.2 Occupation of fishing, livestock, hunting, logging, plantations and orchards etc. falling in industrial category III were treated as non-agricultural activities while classifying towns for the 1961 and 1971 Censuses. A small but meaningful change was made for the 1981 Census by treating 'fishing, logging e'c.' as allied agricultural activities for examination under (b) (ii) above. Places which qualify as urban under (b) above have been termed 'Census Towns' (CT) since they have no local body *viz.,* Municipal Corporation, Municipal Board, Cantonment, Notified Area, Town Area.

9.3 Most of the Town Areas do not satisfy the criteria laid under (b) above. However, since (a) and (b) are mutually exclusive, all statutory towns have to be classified as urban. Consequently, in 1981, all Town Areas irrespective of their characteristics were treated as urban. The number of towns in the state has therefore, gone up from 325 in 1971 to 704 in 1981.

9.4 A city in census parlance is a town with a population of one hundred thousand and above.

10. Urban Agglomeration

10.1 The concept of urban agglomeration (U.A.) adopted for the 1971 Census continued for the 1981 Census. The U.A. defined the continuous urban spread at a place which may cover more than one town, with their urban outgrowths. This was an improvement on the town group concept of 1961 where the urban spread was necessarily not continuous. It is common knowledge that some urban settlements like residential colonies, campuses etc. come up outside the notified limits of a town, but adjoining it. Such settlements may not by themselves qualify under clause (b) of the definition to be treated as census town but if they form a continuous spread with the adjoining town, it would only be realistic to treat them as urban. Such settlements have been termed as outgrowths (O.G.) and may cover a whole village or part of a village. Two or more towns may also lie contiguous to one another. A census town (*i.e.* without a local body) may also lie contiguous to a notified town. An urban agglomeration, therefore, constitutes :—

(a) A city or town with contiguous outgrowth(s) (the outgrowth being outside the statutory limits but falling within the boundaries of the adjoining village or villages) ; or

(b) two or more adjoining towns with their outgrowth(s) as in (a) ; or

(c) a city with one or more adjoining towns with their outgrowths all of which form a contiguous spread.

10.2 An urban agglomeration exceeding a population of one hundred thousand is called a city urban agglomeration. Othewise, it is a town urban agglomeration.

10.3 After finalising the list of towns and ubran agglomerations in each district and tahsil, what remains is rural. The basic unit in rural areas is a revenue village which has normally well defined survey boundaries. In unsurveyed villages in forest/hill areas, locally recognised natural boundaries are adopted to define the village areas. In case of reserved forest areas which are not part of any revenue village, forest range officer's beat was treated as one forest village. This mention of a village etc. is only of topical interest here as we are not going below tahsil level in this volume.

10.4 Out of 382 towns which were added to the list of towns in 1981, 198 are entirely new and 184 existed as towns prior to the 1961 Census but were declassified as such in 1961 and 1971. Faizabad-*cum*-Ayodhya Municipal Board of 1971 has been bifurcated into two towns *viz.* Faizabad Municipal Board and Ayodhya Municipal Board in 1981. Two towns of 1971 Census *viz.* Rasulpur Dhulri census town of Meerut and Markundi census town of Mirzapur which did not satisfy the conditions necessary for treating a place as urban were declassified. Two towns also lost their identity having merged with other towns.

They are Malyana and Kaila towns which got merged in Meerut Municipal Board and Ghaziabad Municipal Board respectively after the 1971 Census. The 704 towns of the state consist of 5 Municipal Corporations, 187 Municipal Boards, 22 Cantonment Boards, 47 Notified Areas, 418 Town Areas and 25 Census Towns. After clubbing constituent towns of each urban agglomeration, the number of urban agglomerations and independent towns comes to 659.

11. Standard Urban Area

11.1 A new concept of standard urban area introduced in 1971 Census has also been followed for the 1981 Census. The essential requirements for the constitution of a standard urban area are :—

(i) It should have a core town of a minimum population of 50,000;

(ii) The contiguous areas made up of other urban as well as rural administrative units should have mutual socio-economic links with the core town; and

(iii) In all probability this entire area should get fully urbanised in a period of two or three decades. Forty one standard urban areas were determined in this state on this basis in 1971 and some basic data were presented for 1951, 1961, 1971 for such areas and their components. Similar data are being presented for them as also two new standard urban areas in 1981 also. The idea is to present basic data for these areas for four or five decades so that the urbanisation process in them can be studied over time. The list of Standard Urban Areas of 1981 has been given in the Fly leaf to Table 5.

12. Census Heirarchy

12.1 The Registrar General-*cum*-Census Commissioner, India is responsible for the conduct of population census which is a union subject under the charge of Ministry of Home Affairs. He is assisted by several officers to look after the different branches of work within his office. For each of the state and union territories an officer called, the Director of Census Operations, is appointed. He is assisted by Joint/Deputy/Assistant Directors.

12.2 From the state level the heirarchy descends to the District Collectors who were Principal Census Officers in the districts to District Census Officer, in each district to Tahsildars as Charge Officers and Block Development Officers as Additional Charge Officers. For the first time in 1981, the Administrators of Nagarmahapalikas were Principal Census Officers for the municipal areas assisted by City Census Officers who were assisted by Sahayak Nagar Adhikaries as Charge Officers. In all other urban areas the exacutive officers of Municipal Boards, Cantonment Boards and Notified Areas and *Bakshis* of town areas were Charge Officer with the Collector as their Principal Census Officer. In case of towns with no status but treated as town for the census the tahsildars held their charge An army of nearly 250,000 field workers (supervisors and enumerators) carried out the census. Each enumerator was incharge of a block with a population of about 750 in rural areas and 600 in case of urban areas.

13. Training

13.1 Each one in the census heirarchy has to be very clear on what his duties and responsibilities would be. He has to understand the questions and their concepts clearly. This was taken care of by a well planned and intensive training programme organised for different levels of enumeration agencies. The first state level conference of the District/City Census Officers, Additional District/City Census Officers and Charge Officers of nagarmahapalikas was held from 28th to 30th of January, 1981 in Tilak Hall, Secretariat Building, Lucknow. The conference was inaugurated by the then Chief Secretary, Government of Uttar Pradesh, Shri D. K. Bhattacharya and the Registrar General, India, was also kind enough to participate along with the Deputy Registrar General (C & T) Shri K. K. Chakravorty.

13.2 District Census Officers/City Census Officers were required to organise three day training camps for Charge Officers, Additional/Assistant Charge Officers of their district/town. They were also asked to give a round of refresher training at the tahsil level. The greatest emphasis was laid on verbatim reading of instructions book-lets in the first round of training and intensive practical work out in subsequent rounds. Roll up boards of schedules were prepared and distributed at training aids. For practical training it was made obligatory for every trainee to go round the chosen training block and prepare the notional map and lay out sketch with numbering of houses before filling up schedules.

13.3 In the urban areas, the charge officers were required to draw up their training programme ward-wise while in the rural areas, the development block was made the focus for training. The Block Development Officer was required to arrange atleast three locations with 3-4 *Nyaya Panchayats* attached to each loaction.

13.4 In most of the districts, first and second round of training had been conducted before the postponement of houselisting from February, 1980 to September—October. The postponement was necessitated by mid-term Loksabha elections, coming up in January, 1980 and then due to Uttar Pradesh Assembly elections coming up in May, 1980. Since considerable time had elapsed, training was reorganised. The first round of training was organised from August 15 to 31st, the second round from September 16 to 24th with the houselisting commencing from September 25th. The refresher training of Charge Officers and conducted in the first half of August in which officers from the Directorate also participated.

13.5 Training before the commencement of enumeration was also important. It was started in October, 1980, soon after houselisting was over in the following schedule:—

(i) Regional Deputy Directors and Officers of the Directorate—October 20—24, 1980.

(ii) District/City Census Officers (two rounds)—October 30—November 5, 1980.

(iii) Charge Officers and Additional and Assistant Charge Officers—November 10—30, 1980.

(iv) Supervisors/Enumerators—

1st round (one day)—December 1—12, 1980

2nd round (3 days)—December 15, 1980—January 15, 1981

3rd round (one day)—January 16—31, 1981

4th round (one day)—February 1—8, 1981.

14. Census Act

14.1 The Census is conducted under the Census Act No. XXXVII of 1948 as amended from time to time. This Act empowers Central Government to notify and conduct the Census in whole of the country. The Census Commissioner of India and Directors of Census Operations are appointed to supervise the taking of census. The Act empowers State or such authority to whom State Government delegates powers to appoint Census Officers at various level to supervise the conduct of census. The Act authorises census taker to ask authorised census questions and trying all persons to reply questions truthfully. The laws laid down that information collected for census will be used only for statistical purposes and the information about an individual should be kept confidential and can not be produced even in the court of law.

15. Provisional Totals

15.1 Soon after the enumeration was over the provisional totals were communicated from the enumerators onwards to the District Census Officers and thereafter to the Director of Census Operations and the Registrar General, India by the quickest possible means. The provisional population totals were published in Paper—1 of 1981 on March 23, 1981. It was followed up by a Supplement which gave more detailed but provisional information down to the charge level. This was to serve the needs of planners and other data users to go ahead with their plans on macro level. The supplement was brought out in June, 1981.

16. Post Enumeration Check

16.1 The Post Enumeration Check is essential for any systematic and comprehensive enquiry like population census to evaluate the extent of coverage and validity of the results. In line with previous censuses the post enumeration survey was conducted to find out as to (1) "how correctly has every individual been enumerated in the census" (coverage error) and (2) "how precisely the particulars of an individual been recorded in the census" (content error). A census evaluation study was also conducted to quantify the extent of ommission of children at the younger ages and the ascertainment of correctness of age reported of child in the census with the help of birth recorded in Sample Registration Scheme. The Post Enumeration Check apart for coverage error was conducted in 500 sample blocks out of 4,000 at the state level.

17. Processing of Data

17.1 In the 1971 Census though the tabulations of individual data for urban areas (on 20% sample) were made on electronic computer, the rural data (10% sample) were processed manually. In the 1981 Census except for the Primary Census Abstract (P.C.A.), Table H-2, HH-15, HH-16 and Special Table on SC/ST all other processing is being carried out on the electronic computer, Direct Data Entry Systems are being used to speed up the data input. Even so, considering the magnitude of population, the tabulation, of individual data has been limited to a sample in order to produce them within reasonable time. Hence the main tables of the 1981 Census individual data will be on a 20% sample basis.

17.2 Another major departure in the 1981 Census from the census practice has been in the method of manual processing. In the past few censuses all manual tabulations were produced by sorting the Individual Slips. In the 1981 Census the Individual Slip pads as well as the Household Schedule books were not broken and the Primary Census Abstract was compiled from the Enumerator's Abstract prepared from the Population Record (Part—II of Household Schedule). The 20% sample for the main tabulations of individual data on computer is an area sample of same sample of blocks in which the sample individual slip was canvassed. For this sample the universal as well as the sample slip data will be processed.

17.3 For the tabulation of Houselist data, a 20% systematic sample of census houses was selected and processed on the computer. The data on physically handicapped was however, processed manually, on full count basis.

17.4 The Household Schedule data was processed on a full count basis. For this the data in Part—I and the columns total in Part—II of Household Schedule will be computerised. Besides this, a 20% sample of a part of the individual data (relationship to head, age, sex and marital status *etc.*) in Part—II of the Household Schedule will also be computerised for certain tabulations.

17.5 As the preliminary data processing operations on the Individual Slip like editing, coding and data entry will take considerable time the main tabulations of the Individual Slip data can be expected to flow from the computer by about 1983. Therefore, it is proposed to bring out a set of advance tabulations of important individual data at the national level based on a 5% sample.

17.6 In the main tabulations of the Individual Slip data, higher priority has been assigned to certain tabulations (as indicated in the list of tabulations) based on utility, data processing time and load. These tabulations are proposed to be brought out first and the remaining tables of second priority later. The first and second priority tabulations are indicated in the list of tabulations

17.7 As a preliminary step in data processing, it is proposed to match the Individual Slip with the Population Record of the Household Schedule, person by person, for the entire data before compilation of Primary Census Abstract.

17.8 After completion of main census tabulations it is proposed to computerise the remaining 80% of Individual Slip data and produce special tabulations for Scheduled Castes and Scheduled Tribes. Since this will involve input of 100% data these special tabulations will necessarily have the last priority.

17.9 In June, 1982, it was decided by the Registrar General, India to generate basic data relating to religion and language (Tables HH-15, its Appendix and HH-16 on the basis of Household Schedules (Questions 2 and 5 of Part—I and columns 4 and 5 of Part—II) through manual tabulation on a priority basis. This was taken up in August, 1982 and completed in February, 1983. The remaining tables of this series will be taken up later on.

18. **Tabulation :**

18.1 A comprehensive tabulation plan to bring out the housing stock, the quality of housing, the extent of physically handicapped, the socio-economic, cultural and demographic profile of the population in general and of the Scheduled Castes and Scheduled Tribes in particular and the household economic situation has been drawn up to meet the requirements of various departments of Government and other data users subject to the limitations of time and data input facilities. The details of Tabulation and Publication Plan are given in Annexe 6 and 7.

IMPORTANT INSTRUCTIONS

1 Record location code on each schedule and form, etc.

2 Do not leave any household or person uncovered in your block.

3 Do not forget to enter columns 1 to 7 of the Population Record before starting individual enumeration.

4 Do not forget to make repeated enquiries about young children, newly born babies and visitors not enumerated elsewhere.

5 Enter serial number of mother if present in the household against her son and daughter aged 10 years and below.

6 While making entries for names of Scheduled Castes/ Scheduled Tribes, check names of Scheduled Castes/ Scheduled Tribes with list supplied to you by your supervisor.

7 Write legibly.

8 Do not do overwriting.

9 Do not hesitate to ask your supervisor if you have doubt on any matter.

10 Do not allow your work of filling up of entries in the Population Record to accumulate. It should be completed for enumeration done at the end of each day's work.

11 Do not misplace or lose any of your forms or papers while performing duties as census enumerator.

12 During revisional round, fill in fresh slips for newly born babies and update the Population Record.

13 Cover households which have shifted to your block after your first visit but before sunrise of **1st March, 1981**, if not enumerated already in some other block.

14 In case of any death in your block before sunrise of **1st March, 1981**, cancel slip of that person if enumerated by you and make necessary corrections in the Population Record also.

15 While ticking for information in columns 8 to 35 in the Population Record, make sure that columns **8 to 21** refer to males and columns 22 to 35 to females.

16 Check totals of columns in the Population Record before posting in working sheets for enumerator's abstract.

ANNEXE 5

THE CENSUS ACT, 1948

ACT No. 37 OF 1948

An Act to provide for certain matters in connection with the taking of census [*3rd September,* 1948]

Whereas it is expedient to provide for the taking of census in [1]***India or any part thereof whenever necessary or desirable and to provide for certain matters in connection with the taking of such census :

It is hereby enacted as follows :—

Short title and extent

1. (1) This Act may be called the Census Act, 1948.

[2][(2) it extends to the whole of India [3]***].

Rule of construction respecting enactments not extending to Jammu and Kashmir

[4][2. Any reference in this Act to the Indian Penal Code or the Indian Evidence Act, 1872 (45 of 1860 and 1 of 1872) shall, in relation to the State of Jammu and Kashmir, be construed as a reference to the corresponding enactment in force in that State.]

Central Government to take census

3. The Central Government may, by notification in the official *Gazette*, declare its intention of taking a census in the whole or any part of the territories to which this Act extends, whenever it may consider it necessary or desirable so to do, and thereupon the census shall be taken.

Appointment of census staff

4. (1) The Central Government may appoint a Census Commissioner to supervise the taking of the census throughout the area in which the census is intended to be taken, and Directors of Census Operations[5] to supervise the taking of the census within the several States.

(2) The State Government may appoint persons as census-officers to take, or aid in, or supervise the taking of the census within any specified local area and such persons, when so appointed, shall be bound to serve accordingly.

(3) A declaration in writing, signed by any authority authorised by the State Government in this behalf, that any person has been duly appointed a census-officer for any local area shall be conclusive proof of such appointment.

(4) The State Government may delegate to such authority as it thinks fit, the power of appointing census-officers conferred by sub-section (2).

Status of census authorities as public servants

5. The Census Commissioner, all Directors of Census Operations[5] and all Census-officers shall be deemed to be public servants within the meaning of the Indian Penal Code. (45 of 1860).

Discharge of duties of census-officers in certain cases

6. (1) Where the District Magistrate or such authority as the State Government may appoint in this behalf, by a written order so directs :—

(*a*) Every officer in command of any body of men belonging to the naval, military or air force, or of any vessel of war, of India.

(*b*) every person (except a pilot or harbour-master) having charge or control of a vessel,

(*c*) every person in charge of a lunatic asylum, hospital, workhouse, prison, reformatory or lock-up or of any public, charitable, religious or educational institution.

(*d*) every keeper, secretary or manager of any sarai, hotel, boarding-house, lodging-house, emigration depot or club,

(*e*) every manager or officer of a railway or any commercial or industrial establishment; and

(*f*) every occupant of immovable property wherein at the time of the taking of the census persons are living,

shall perform such of the duties of a census-officer in relation to the persons who at the time of the taking of the census are under his command or charge, or are inmates of his house, or are present on or in such immovable property or are employed under him as may be specified in the order.

(2) All the provisions of this Act relating to census-officers shall apply, so far as may be, to all persons while performing such duties under this section, and any person refusing or neglecting to perform any duty which under this section he is directed to perform shall be deemed to have committed an offence under section 187 of the Indian Penal Code (45 of 1860).

---

1. The words "the Provinces and Acceedings States" were *rep.* by the A. O. 1950.
2. *Subs. ibid.*, for the former sub-section.
3. The words "except the State of Jammu and Kashmir". *omitted* by Act 22 of 1959, S. 2.
4. *Ins.* by *S.* 3, *ibid.* The original *S.* 2 was *omitted* by Act 36 of 1957, *S.* 2 and sch.
5. *Subs.* for the words "Superintendents of Census Operations" by Sec. 3 of the Repealing and Amending Act, 1974. (Act no. 56 of 1974).

Power to call upon certain persons to give assistance

7. The District Magistrate, or such authority as the State Government may appoint in this behalf for any local area, may, by written order which shall have effect throughout the extent of his district or of such local area, as the case may be, call upon :—

(*a*) all owners and occupiers of land, tenure-holders, and farmers and assignees of land revenue, or their agents,

(*b*) all members of the district, municipal, panchayat and other local authorities and officers and servants of such authorities, and

(*c*) all officers and members of staff of any factory, firm or establishment, to give such assistance as shall be specified in the order towards the taking of census of the persons who are, at the time of the taking of the census, on the lands of such owners, occupiers, tenure-holders farmers and assignees, or in the premises of factories, firms and other establishments, or within the areas for which such local authorities are established, as the case may be, and the persons to whom an order under this section is directed shall be bound to obey it and shall, while acting in pursuance of such order, be deemed to be public servants within the meaning of the Indian Penal Code. (45 of 1860).

Asking of questions and obligation to answer

8. (1) A census-officer may ask all such questions of all persons within the limits of the local area for which he is appointed as, by instructions issued in this behalf by the State Government and published in the official *Gazette,* he may be directed to ask.

(2) Every person of whom any question is asked under sub-section (1) shall be legally bound to answer such questions to the best of his knowledge or belief:

Provided that no person shall be bound to state the name of any female member of his household, and no woman shall be bound to state the name of her husband or deceased husband or of any other person whose name she is forbidden by custom to mention.

Occupier to permit access and fixing of numbers

9. Every person occupying any house, enclosure vessel or other place shall allow census-officers such access thereto as they may require for the purposes of the census and as having regard to the customs of the country, may be reasonable and shall allow them to paint on, or affix to, the place such letters, marks, or numbers as may be necessary for the purposes of the census.

Occupier or manager to fill up schedule

10. (1) Subject to such orders as the State Government may issue in this behalf, a census-officer may, within the local area for which he is appointed, leave or cause to be left a schedule at any dwelling-house or with the manager or any officer of any commercial or industrial establishment, for the purpose of its being filled up by the occupier of such house or of any specified part thereof or by such manager or officer with such particulars as the State Government may direct regarding the inmates of such house or part thereof, or the persons employed under such manager or officer, as the case may be, at the time of the taking of the census.

(2) When such schedule has been so left, the said occupier, manager or officer, as the case may be, shall fill it up or cause it to be filled up to the best of his knowledge or belief so far as regards the inmates of such house or part thereof or the persons employed under him, as the case may be, at the time aforesaid and shall sign his name thereto and, when so required, shall deliver the schedule so filled up and signed to the census-officer or to such person as the census officer may direct.

Penalities

11. (1) (*a*) Any census-officer or any person lawfully required to give assistance towards the taking of a census who refuses or neglects to use reasonable diligence in performing any duty imposed upon him or in obeying any order issued to him in accordance with this Act or any rule made thereunder, or any person who hinders or obstructs another person in performing any such duty or in obeying any such order, or

(*b*) any census-officer who intentionally puts any offensive or improper question or knowingly makes any false returns or, without the previous sanction of the Central Government or the State Government, discloses any information which he has received by means of, or for the purposes of, a census return, or

(*c*) any sorter, compiler or other member of the census staff who removes, secretes, damages or destroys any census document or deals with any census document in a manner likely to falsify or impair the tabulations or census results, or

(*d*) any person who intentionally gives a false answer to, or refuses to answer to the best of his knowledge or belief, any question asked of him by a census-officer which he is legally bound by section 8 to answer, or

(*e*) any person occupying any house, enclosure, vessel or other place who refuses to allow a census-officer such reasonable access thereto as he is required by section 9 to allow, or

(*f*) any person who removes, obliterates, alters, or damages any letters, marks or numbers which have been painted or affixed for the purposes of the census, or

(g) any person who, having been required under section 10 to fill up a schedule, knowingly and without sufficient cause fails to comply with the provisions of that section, or makes any false returns thereunder, or

(*h*) any person who trespasses into a census office, shall be punishable with fine which may extend to one thousand rupees and in case of a conviction under part (*b*) or (*c*) shall also be punishable with imprisonment which may extend to six months.

(2) Whoever abets any offence under sub-section (1) shall be punishable with fine which may extend to one thousand rupees.

Sanction required for prosecution

12. No prosecutions under this Act shall be instituted except with the previous sanction of the State Government or of any authority authorised in this behalf by the State Government.

Operation of other laws not barred

13. Nothing in this Act shall be deemed to prevent any person from being prosecuted under any other law for any act or omission which constitutes an offence under this Act:

Provided that no such prosecution shall be instituted except with the previous sanction referred to in section 12.

Jurisdiction

14. No Court interior to that of a Presidency Magistrate or a Magistrate of the second class [1]*** shall try, whether under this Act or under any other law, any act or omission which constitutes an offence under this Act.

Records of census not open to inspection nor admissible in evidence

15. No person shall have a right to inspect any book, register or record made by a census-officer in the discharge of his duty as such, or any schedule delivered under section 10, and notwithstanding anything to the contrary in the Indian Evidence Act, 1872 (1 of 1872), no entry any such book, register, record or schedule shall be admissible as evidence in any civil proceeding whatsoever or in any criminal proceeding other than a prosecution under this Act or any other law for any act or omission which constitutes an offence under this Act.

Temporary suspension of other laws as to mode of taking census in Municipalities

16. Notwithstanding anything in any enactment or rule with respect to the mode in which a census is to be taken in any municipality, the municipal authority, in consultation with the Director of Census Operations[2] or with such other authority as the State Government may authorise in this behalf, shall, at the time appointed for the taking of any census cause the census of the municipality to be taken wholly or in part by any method authorised by or under this Act.

Grant of statistical abstracts

17. The Census Commissioner or any Director of Census Operation[3] or such person as the State Government may authorise in this behalf may, if he so thinks fit, at the request and cost (to be determined by him) of any local authority or person, cause abstracts to be prepared and supplied containing any such statistical information as can be derived from the census returns for[4] [India or any State], as the case may be, being information which is not contained in any published report and which in his opinion it is reasonable for that authority or person to require.

Power to make rules

18. (1) The Central Government may make rules for carrying out the purposes of this Act.

(2) In particular, and without prejudice to the generality of the foregoing power, the Central Government may make rules providing for the appointment of census-officers and of persons to preform any of the duties of census-officers or to give assistance towards the taking of a census, and for the general instructions to be issued to such officers and persons.

---

1. The words "or in a Part B State, A Magistrate corresponding to a Magistrate of the second class" *ins.* by Act 51 of 1950, S. 4 *omitted by* the Adaption of Laws (No. 3) Order, 1956.

2. *Subs.* for the words "Superintendents of Census Operations" by Sec. 3 of the Repealing and Amending Act, 1974 (Act no. 56 of 1974).

3. *Subs.* for the words "Superintendent of Census Operations" by Sec 3 of the Repealing and Amending Act 1974 Act No. 56 of 1974.

4. *Subs.* by the A.O. 1950, for "the Provinces of India or the Province".

ANNEXE-6

TABULATION PLAN

The Tabulation Plan of 1981 Census consists of the following series of tables :—

A-Series :	General Population Tables
B-Series :	General Economic Tables
C-Series :	Social and Cultural Tables
D-Series :	Migration Tables
F-Series :	Fertility Tables
H-Series :	Tables on Houses and Disabled Population
HH-Series :	Household Tables
SC-Series :	Special Tables for Scheduled Castes.
ST-Series :	Special Tables for Scheduled Tribes Village and Town Directories

Of these the H-Series of tabulations is based on the Houselist, the HH-Series on the Household Schedule and all the remaining series, except the Village and Town Directories, on the Individual Slip. The Village and Town Directories are mainly based on information external to the census.

At the 1971 Census an Establishment Schedule was canvassed on the basis of which tables were produced referred to as E-Series. As mentioned earlier, at the 1981 Census an Enterprise List is being canvassed the processing and tabulation of which has been taken over by the Central Statistical Organisation. Therefore, as part of the 1981 Tabulation Plan, it is not proposed to generate E-Series. Similarly, it is envisaged that the G-Series tables relating to data on graduates and technical personnel will be presented by the Department of Science and Technology.

A-Series : General Population Tables

This set of tabulations relating to basic population data will be based on full count. In these tables the total, male and female population of various levels of area units such as State, District, Tahsil, Town, City and Urban Agglomeration and their decadal variation, the distribution of villages by population size, the changes in area and jurisdiction of districts since the 1971 Census and the population according to 1971 jurisdiction, the new towns of 1981 Census and the towns of 1971 which are declassified in 1981 Census and their population will be presented. These tabulations will be compiled manually from the population count of the smallest unit, the enumeration block. This series will be published on first priority.

Primary Census Abstract

The primary Census Abstract which is an adjunct of the A-Series will give basic information—occupied residential houses, number of households, total population, Scheduled Caste and Scheduled Tribe population, literates, main workers, cultivators, agricultural labourers, workers in household industry and other workers, marginal workers and non-workers by sex in respect of each area unit upto tahsil and town. The urban/village Primary Census Abstract will give this information for each village and each urban ward.

An appendix will be presented in the case of the urban Primary Census Abstract which will contain basic population data blockwise in each urban area. This is meant for the use of administrative and election authorities in urban areas.

The Primary Census Abstrcat will also be compiled manually on a full count basis.

B-Series : General Economic Tables

The B-Series of economic tables are mainly based on the economic questions 14A, 14B, 15A, 15B and 16 of the universal Individual Slip. This series will be tabulated on the 20% sample of rural and urban blocks. These tabulations give the classification of population into main workers, marginal workers and non-workers, their cross-classification by social and demographic characteristics such as age, sex, literacy, etc. industrial classification of main workers and marginal workers, the occupational classification of main workers, the main activity of marginal workers and non-workers, the secondary activity of main workers, those seaking/available for work among marginal workers and non-workers and their composition by age, sex and educational level.

In these tabulations main workers are those who have worked for the major part of the year, *i.e.* those who report 'yes' to Question 14B. Marginal workers are those who worked some time during last year but not for the major part of the year, *i.e.*, those who report 'yes' to Question 14A but 'no' to Question 14B. Non-workers are those who never worked during the last year, *i.e.*, those who report 'no' to Question 14A. While main activity of main workers is recorded in Question 15A, the work of marginal workers as well as secondary work of main workers will be available from Question 15B. The main activity of non-workers and of marginal workers will be available from Question 14A and Question 14B, respectively.

C-Series : Social and Cultural Tables

All the tables of this series except Table C-10 are derived from the Individual Slip. Table C-10 is derived from Part II, population record of the Household Schedule. The social and cultural tables are mainly derived from the questions on age, literacy, educational level, school attendance, mother tongue, language spoken, religion and Scheduled Caste/Scheduled Tribe in the Individual Slip and are based on the 20% sample. These tables give the age, sex and marital status composition of the population, the literates and their educational levels and the population attending school by age and sex, population by mother tongue, other languages spoken and religion and the Scheduled Caste and Scheduled Tribe population.

D-Series : Migration Tables

The D-Series of migration tables are mainly derived from the questions on place of birth, place of last residence, duration of residence and reason for migration from the sample Individual Slips. These tabulations give the migrants by place of birth and by place of last residence, their age, sex composition, their educational level and economic activity. The migration data which will be collected for 20% sample blocks will be completely tabulated.

F-Series : Fertility Tables

The series is based on the fertility question 5 and 6 of the Individual Slip. The complete fertility data collected for 20% sample blocks will be tabulated on computer.

These tabulations give the age at marriage pattern, the current fertility, cumulated fertility and surviving children for ever married and/or currently married women by the demographic variables, present age, duration of marriage, birth order and parity. At the State level these patterns are further cross-classified by the socio-economic characteristics, religion, educational level, Scheduled Caste, Scheduled Tribe and occupation of women.

H-Series : Tables on House and Disabled Population

This series consists of only two tables derived from the Houselist. The first table on use of census houses will be based on 20% sample of census houses selected from the Houselist and will be tabulated on the computer. The second table on the physically handicapped will be compiled manually from the full data.

HH-Series : Household Tables

The household series of tabulation are based on the 20% data of Household Schedule Part-I and totals of Part-II (Population Record), except HH-15 and HH-16, which will be based on 100% data. These tables give the quality of housing and housing facilities, household ownership of house/site, of land household cultivation, households by size, number of workers, members seeking/available for work and number of literates for all households and for Scheduled Caste and Scheduled Tribe households separately. This series also gives the households and population by religion and by Scheduled Caste or Scheduled Tribe of head of household and by language mainly spoken in the household. All the tables of this series will be tabulated on computer except HH-15 and HH-16, which will be tabulated manually and will have first priority.

SC-Series : Special Tables for Scheduled Castes

The SC-Series of tabulations derived mainly from Questions 9 and 10 of the universal Individual Slip will be based on 100% data. The series gives some special tabulations for the Scheduled Castes population, generally, separately for each caste. These tables will give for each Scheduled Caste, main workers, marginal workers, the main workers in special occupations followed by the Scheduled Castes, age, sex and marital status composition and educational level. The type of main activity cross-classified by educational level for marginal workers and non-workers for all Scheduled Castes combined will also be presented in this series.

This series will be based on complete data and will be tabulated on computer. As the input of the complete Individual Slip data will take time, this series will have the last priority.

ST-Series : Special Tables for Scheduled Tribes

This series of tabulations derived from Questions 9 and 10 of the universal Individual Slip will generally give some special tabulations separately for each Scheduled Tribe. These tables will give for each Scheduled Tribe main workers, marginal workers non-workers, industrial category of main workers and marginal workers, age, sex and marital status composition, educational level, religion, mother tongue and bilingualism. They will also give for all Scheduled Tribes combined, the type of main activity of marginal workers and non-workers cross-classified by educational level.

This series will be based on complete data and will be tabulated on computer. As the input of the complete Individual 3 Slip data will take time, this series will have the last priority.

Village Directory and Town Directory

The Village Directory gives the list of villages, their area, population, amenities such as schools, drinking water *etc.* available to them and land use. The Town Directory gives for each town the area, population in 1981 and past census, growth rates, density, sex ratio, physical aspects of the town, communications, municipal finances, civic, medical, educational and other amenities and trade, commerce, industry and banking facilities.

List of Tabulations

The list of tabulations of different series, along with the priority for their generation and publication, the levels of presentation in All India and State volumes, is given below. Among these, the advance tabulations at national level are indicated with an asterisk(*) :—

Priority	Series/Table No.	Title	Lowest Level Presentation	
			All India Volume	State Volume
1	2	3	4	5
	A-SERIES : GENERAL POPULATION TABLES			
Priority 1	A—1	Area, Houses and Population	District	Tahsil & Town
	Appendix—1	Statement showing 1981 territorial units and changes during 1971-81.	District	Tahsil
	Appendix—2	Number and Population of villages with population of 5,000 and over and of towns with population under 5,000	District	Tahsil
	Appendix—3	Houseless and Institutional population	District	Tahsil & Town
	A—2	Decadal variation in population since 1901	State	District
	Appendix	States and Districts at the 1981 Census showing 1971 area and population according to territorial jurisdiction in 1971, change in population of 1971 adjusted to jurisdiction of 1981.	District	District
	A—3	Villages classified by population size.	District	Tahsil
	A—4	Towns and urban agglomerations classified by population in 1981 with variation since 1901	Town	Town
	Appendix—1	New towns added in 1981 and towns in 1971 declassified in 1981	Town	Town
	Appendix—2	Places with a population of under 5,000 classified as towns for the first time in 1981	Town	Town
	Appendix—3	Places with a population of under 5,000 in 1971 which were towns in 1971 but have been declassified in 1981	Town	Town
	Appendix—4	Changes between 1971 and 1981 in area and population of towns and reasons for change in area	Town	Town
	A—5	Standard Urban Areas	Town and Outgrowth Town	Town & Outgrow Town
		Union/State Primary Census Abstract	District	Tahsil & Town
		Urban/village Primary Census Abstract	District	Ward & Village
		Appendix Total, Scheduled Castes and Scheduled Tribes Population Urban blockwise	District	Urban block
	B-SERIES : GENERAL ECONOMIC TABLES			
Priority I	*B—1	Main workers, marginal workers and non-workers classfied by age and sex	State	District
	B—1 Part A	Main workers, marginal workers and non-workers in cities, and non-city urban areas classified by age and sex	State, U.A. & City	District, U.A. & City
	*B—2	Main workers, marginal workers and non-workers by age, sex and literacy—Urban	State	District
	*B—3	Main workers classified by industrial category, age and sex	State, U.A. & City	District, U.A. & City
	*B—4 Part A	Main workers classified by industrial category, educational level and sex—Urban	State	District
	*B—4 Part B	Main workers classified by industrial category, educational level and sex—Rural	State	District
	*B—5 Part A	Main workers by age, sex and educational level—Urban	State	District
	*B—5 Part B	Main workers by age, sex and educational level—Rural	State	District

1	2	3	4	5
	B—6	Other work of main workers and work of marginal workers by broad category cross-classified by main activity	State	District
	*B—7	Marginal workers by industrial category, age and sex	State	District
	*B—8 Part A	Marginal workers by industrial category and non-workers by educational level and sex—Urban	State	State
	*B—8 Part B	Marginal workers by industrial category and non-workers by educational level and sex—Rural	State	State
	*B—9	Persons seeking/available for work by marginal workers/non-workers, age and sex	State	District
	*B—10 Part A	Persons seeking/available for work by age, sex and educational level—Urban	State	State
	*B—10 Part B	Persons seeking/available for work by age, sex and educational level—Rural	State	State
Priority II	B—11	Female main workers classified by industrial category, age and marital status	State	State
	*B—12	Industrial classification of main workers other than cultivators and agricultural labourers by sex and by divsions, major groups and minor groups	State	District
	*B—13	Main workers in manufacturing processing, servicing and repairs by household industry and non-household industry	State	State
	B—14	Industrial classification of main workers in manufacturing processing, servicing and repairs on household industry basis by sex and class of worker	State	District
	B—15	Classification of main workers in non-household industry, trade, business, profession service by class of worker age and sex	State	District
	B—16	Industrial classification of main workers in non-household industry tade, business, profession or service by class of worker and sex	State	District
	B—17	Industrial classification of marginal workers engaged in work other than cultivation and agricultural labour by sex	State	District
	*B—18	Occupational classification of main workers other than cultivators and agricultural labourers by sex	State	State
	B—19	Occupational classification of main workers in non-household industry, trade, business, profession or service by class of worker and sex	State	State
	B—20 Part A	Occupation classification of main workers other than cultivators and agricultural labourers by sex and age-Urban	State	District
	B—20 Part B	Occupational classification of main workers other than cultivators and agricultural labourers by sex and age—Rural	State	District
	B—21 Part A	Occupational classification of main workers other than cultivators and agricultural labourers by sex and educational level—Urban	State	District
	B—21 Part B	Occupational classification of main workers other than cultivators and agricultural labourers by sex and educatioal level—Rural	State	District
	B—22	Marginal workers and non-workers by main activity, age, sex and whether seeking/available for work	State	District

†VILLAGE DIRECTORY—AMENITIES AND LAND USE

Appendix—1	Tahsilwise abstract of educational, medical and other amenities
Appendix—2	Land utilisation data in respect of non-municipal towns (Census Towns)
**Appendix—3	Tahsilwise list of villages where no educational or medical and public health facilities etc, are available
Appendix—4	List of villages according to the proportion of Scheduled Castes and Scheduled Tribes to the total population by range

TOWN DIRECTORY

Statement 1	Status and growth history
Statement 2	Physical aspects and location of towns, 1979
Statement 3	Municipal Finance, 1978-79
Statement 4	Civic and other amenities, 1979
Statements 4A	Civic and other amenities in notified slums, 1979
Statement 5	Medical, educational recreational and cultural facilities, 1979
Statements 6	Trade, commerce, industry and banking, 1979

*The table will also be presented as Adavance Tabulation at National level

@Will not be presented in the volume

**No format for this appendix is prescribed as it is only a list

†Will be presented only in District Census Handbook

ANNEXE-7

Publication Plan :

The 1981 Census tables will be published as 32 separate series of volumes for all India and for each State and Union Territory.

The publication series is as follows :—

Series No.

1. INDIA

States

2. Andhra Pradesh
3. Assam
4. Bihar
5. Gujarat
6. Haryana
7. Himachal Pradesh
8. Jammu & Kashmir
9. Karnataka
10. Kerala
11. Madhya Pradesh
12. Maharashtra
13. Manipur
14. Meghalaya
15. Nagaland
16. Orissa
17. Punjab
18. Rajasthan
19. Sikkim
20. Tamil Nadu
21. Tripura
22. Uttar Pradesh
23. West Bengal

Union Territories

24. Andaman & Nicobar Islands
25. Arunachal Pradesh
26. Chandigarh
27. Dadra & Nagar Haveli
28. Delhi
29. Goa, Daman & Diu
30. Lakshadweep
31. Mizoram
32. Pondicherry

In each of these series (for all-India and each State/Union Territory) the different series of tables (A-Series-General Population Tables, B-Series-General Economic Tables. etc.) will be brought out as different parts. Apart from these, District Census Handbooks will be published for each district in the country. These will contain the census tables for the district, the Village and Town Primary Census Abstract and the Village and Town Directories. The latter comprise compilations of statistics, external to the census relating to the villages and towns, which in conjunction with census data will be very useful to data users.

For all-India and for each State and Union Territory the census tabulations and reports will be published according to the following plan :—

Part No. and subject covered	Sub-part No, if any, and the topics covered.
1	2
Part I—Administration Report (for official use only)	Part IA—Administration Report —Enumeration Part IB— Administration Report— Tabulation
Part II—General Population Tables	Part IIA—General Population Tables—A—Series
Part III—General Economic Tables	Part IIB—Primary Census Abstract Part IIIA-B-Series Tables of first priority covering population by economic activity, industrial category of main workers, marginal workers and their cross-classification by age, literacy, educational level, sex and non-workers and marginal workers by type of a ctivity seeking/available for work and their cross-classification by age, literacy educational level and sex Part IIIB-B-Series Tables of second priority covering industrial classification of main workers and marginal workers, occupational classification and class of worker of main workers and main activity and seeking/available for work of marginal workers and non-workers and their cross-classification by age, sex and educational level
Part IV—Social and Cultural Tables	Part IVA—C-Series Tables of first prority covering age, sex and marital status composition of the population, single year age returns, educational level and school attandance Part IV—B—C-Series Tqbles of second priority covering mother tongue, billingualism and religion of population and household composition

1	2
Part V—Migration Tables	Part V A—D-Series Tables of first priority covering distribution of population by place of birth, migrants by place of last residence by duration residence and reason for migration and economic activity of migrants reporting 'Employment' as reason and their cross-classification by age and literacy Part V B – D-Series Tables of second priority covering migration for 'Employment' to urban area from rural and urban areas from rural and urban and within State and outside State origins, their composition by age, sex and educational level and seeking/available for work and duration of last residence
Part VI – Fertility Tables	Part VI A—F-Series Tables of first priority. This part will cover age at marriage pattern, current fertility and cumulated fertility for ever married and currently married women by present age and duration of marriage at State and district level At State level the further cross-classification by the socio-economic factors religion, Scheduled Caster/Scheduled Tribes, educational level and occupation will be covered Part— VI—B—F—Series Tables of second priority covering the surviving children of currently married woman by present age and duration of marriage, religion etc., and also current fertility by duration of marriage at district level.
Part VII –Tables on Houses and Disabled Population	H-Series Tables covering census houses and their uses and the disabled population by type of disability, with analytical notes.
Part VIII– Household Tables	Part VIII A—HH Series Tables covering material of consturctions of houses occupied by households, housing facilities available to households, household size and number of couples living in households and households by number of main workers, seeking/available for work and literate members, cultivating and non-cultivating households by tenure of land for general and Scheduled Caste and Scheduled Tribes households, literacy among Scheduled Castes and Scheduled Tribes and economic activity of members of Scheduled Castes and Scheuled Tribes households, These tables will also cover the household population by religion of head of household and language mainly spoken in the household. Part VIII B – This part will contain tables HH – 17, HH – 17SC and HH-17 ST on tenancy. Part VIII C—Report on Households, This will be and analytical report of the data presented in parts –VIII A and VIII B
Part IX—Special Tables on Scheduled Castes and Scheduled Tribes	The SC and ST series of tables for Scheduled Castes and Scheuled Tribes respectively covering industrial categoris of main workers and marginal workers, type of activity of marginal workers and non-workers, seeking/available for work among marginal workers and non-workers, age, sex, martial status, composition of Scheduled Castes and Scheduled Tribes population and heir educational level (for each Caste/Tribe separtely). These tables also cover for Scheduled Tribes, their composition by religion mother, tongue and billingutlism.
Part—X– Town Directory, Survey Reports on Town and Villages	Part X– A– Town Directory Part X– B – Survey Reports on selected towns Part X– C– Survey Reports on selected village
Part XI	Ethnographic notes and special studies on Scheuled Castes and Scheduled Tribes.
Part XII—Census Atlas	Union and State/Union Territory Census Atlas
Part XIII—District Census Handbook	Part XIII A—Village and Town Directory Part XIII B—A-Series Tables-general Population Tables (Tahsil and Town levels) and Village and Town wise Primary Census Abstract.

The following special papers are also planned and will be published as and when they are ready as 1981 Census papers :—

(a) Special studies taken up by the Directors of Census Operations
(b) Special Areas Survey
(c) Special Tables for Standard Urban Area
(d) Language Survey Reports
(e) Post Enumeration Check Report
(f) Age Tables
(g) Life Tables
(h) Reports on estimates of inter-censal birth and death rates using 1971—81 Life Tables and age data
(i) Development of Vital Statistics in India

Beside these special papers, some monographs based on 1981 Census data on subjects of topical interest to be prepared by scholars will be brought out as 1981 Census monographs

It is also proposed to carry out come special studies of 1981 Census data in collaboration with other organisations and the results of such studies will be published as occassional papers of the 1981 Census.

The Census Atlas project started with the publication of the first Census Atlas in the 1961 series would also be continued in the 1981 series

TABLE A-1 : AREA, HOUSES AND POPULATION

FLY-LEAF

1. Introduction

1.1 This is the basic population table corresponding to Table A-I of 1961 and 1971 Censuses. It gives census data for the State/Districts and Tahsils by their total, rural and urban areas and City/City Urban Agglomeration, Town/Town Urban Agglomeration separately in respect of area, density, no. of inhabited and uninhabited villages, no. of towns, occupied residential houses, households, and population by sex according to the 1981 Census.

1.2 There are three Appendices to this Table, as briefly described below :—

Appendix 1

This appendix shows the 1981 territorial units upto tahsil level and their constituent units as at 1971 Census indicating the changes, *viz.*, areas added to and areas taken away from the corresponding 1971 jurisdiction of the units.

Appendix 2

This appendix gives number of villages with 5,000 population and over and their total population and number of towns with under 5,000 population and their total population. Normally places with population exceeding 5,000 are declared as towns and places with less than 5,000 population are treated as villages. However, certain places with population below 5,000 have been treated as towns and certain places with population over 5,000 as villages in the 1981 census on the basis of criteria laid down for treating a place as urban.

Appendix 3

This appendix gives the Houseless and Institutional households and their population by sex included in the total households and population by sex presented in the main table A-1. It goes down to tahsil level for rural areas and for urban areas upto town level including urban agglomerations.

2. Inter-district Territorial Transfers

2.1 During the decade 1971—81 two new districts Ghaziabad and Lalitpur were created. District Ghaziabad now comprises whole of Ghaziabad tahsil (331 villages and 8 towns) and major portion of Hapur Tahsil of erstwhile Meerut district and portion of Sikandrabad tahsil of Bulandshahr district.

2.2 District Lalitpur was created out of entire tahsils of Lalitpur and Mahroni of Jhansi district.

2.3 The entire tahsil of Champawat was also transferred from Almora district to Pithoragarh district.

2.4 Statement 1 giving the jurisdictional changes at district and tahsil level along with their gazette notification numbers may be perused for full details.

STATEMENT 1

Details of jurisdictional changes at district and tahsil level

Transferred from		No. of Villages/ Towns	Area in Km²	Transferred to		Gazette Notification Number	Date

Ghazipur	Zamania	3 Villages	49·18	Ghazipur	Muhammadabad	5-1(4)-76(201)	29-9-1977

3. Area Figures

3.1 The old Kanpur district has also been bifurcated into Kanpur Nagar and Kanpur Dehat districts effective April 23rd, 1981. The former covers the Kanpur tahsil including Kanpur Nagar Mahapalika and the latter comprises the remaining tahsils of Bilhaur, Derapur, Akbarpur, Bhognipur and Ghatampur. Since this came about after the completion of Census Operations, separate figures have not been presented. They can, however, be obtained from the tables presented, after allocating relevant figures of the different constituent units of Kanpur Dehat and Kanpur Nagar.

3.2 Geographical area figures of state/districts are those supplied by the Surveyor General, India. Figures for urban area are those supplied by the Local Bodies and given upto two places of decimal. Area figure for rural area at district level has been derived by subtracting the urban area from the total area of the district. The area figures for the tahsils in a district are those supplied by the Director of Land Records (Board of Revenue). They generally do not add up to the district level figures of Surveyor General, India.

3.3 Total urban area of each tahsil has been rounded to one decimal place but the tahsil urban density has been calculated according to area figures up to two places of decimal.

3.4 Statement-2 given below provides the district-wise geographical area figures as supplied by the Surveyor General, India, their proportion to the total area of the state along with ranking of districts.

STATEMENT 2

Ranking of districts in terms of area

Sl. No.	State/District	Area in (Km^2) given by Surveyor General	Proportion to total area of district	Ranking of districts
1	2	3	4	5
1.	Uttarkashi	8,016	2·72	4
2.	Chamoli	9,125	3·10	2
3.	Tehri-Garhwal	4,421	1·50	37
4.	Dehra Dun	3,088	1·05	53
5.	Garhwal	5,440	1·85	21
6.	Pithoragarh	8,856	3·01	3
7.	Almora	5,385	1.83	22
8.	Nainital	6,794	2·31	12
9.	Saharanpur	5,595	1·90	19
10.	Muzaffarnagar	4,176	1·42	43
11.	Bijnor	4,848	1·65	28
12.	Meerut	3,911	1·33	47
13.	Ghaziabad	2,590	0·88	54
14.	Bulandshahr	4,352	1.48	39

STATEMENT 2—*Concld.*

1	2	3	4	5
15.	Moradabad	5,967	2·03	16
16.	Rampur	2,367	0·80	56

36.	Kheri	7,680	2·61	5
37.	Sitapur	5,743	1·95	17
38.	Hardoi	5,986	2·03	15
39.	Unnao	4,558	1·55	33
40.	Lucknow	2,528	0·86	55
41.	Rae Bareli	4,609	1·57	30
42.	Bahraich	6,877	2·34	11
43.	Gonda	7,352	2·50	7
44.	Bara Banki	4,401	1·49	38
45.	Faizabad	4,511	1·53	34
46.	Sultanpur	4,436	1·51	36
47.	Pratapgarh	3,717	1·26	49
48.	Basti	7,228	2·46	9
49.	Gorakhpur	6,272	2·13	13
50.	Deoria	5,445	1·85	20
51.	Azamgarh	5,740	1·95	18
52.	Jaunpur	4,038	1·37	46
53.	Ballia	3,189	1·08	52
54.	Ghazipur	3,377	1·15	51
55.	Varanasi	5,091	1.73	24
56.	Mirzapur	11,310	3·84	1
		294,411	100,00	

3.5 The total area of the state as supplied by the Survey General of India for 1971 was 294,413 Sq. Km. as against 294,411 Sq. Km. in 1981. Since there was no jurisdictional change at the state level during the last decade, this marginal difference appears to be due to revised calculations by the Surveyor General, India.

3.6 It would be observed from the above statement that Mirzapur is the largest district followed by Chamoli and Pithoragarh while Rampur is the smallest district of the state.

4. **Rural and Urban Areas**

Definition of Village :

4.1 At the 1981 Census, the census village was generally identical with a revenue *mauza* having a fixed permanent boundary but in some cases there is a departure from this practice. Sometimes population springs up in a locality comprised in two or more revenue *mauzas;* and the locality assumes a name different from constituent *mauzas*. In such a case even though such locations were treated as special charges for convenience of enumeration but their data was merged in the village(s) in which they were located. Only a deviation was made in the case of New Okhla Industrial Development Authority (NOIDA) in district Ghaziabad where it has been shown separately.

4.2 The portions of revenue *mauzas* falling outside an urban area are treated as full fledged census villages, the part of village area absorbed in urban limits having lost its rural identity. Further it is common knowledge that some urban settlements like residential colonies, campuses etc. come up outside the notified limits of a town, but adjoining it. Such areas were excluded from rural and treated Out Growths(O.Gs) of the adjoining or close by main town/city.

4.3 For the purpose of ensuring complete coverage even the un-inhabited villages are taken as rural units so that any population which may have sprung up in such villages is not missed at the census.

4.4 Each forest range has been treated a forest village during the 1981 Census. Where a forest range lies in two tahsils, it has been split up into two sub-ranges and each sub-range treated as a forest village.

5. **Definition of village in past Censuses**

5.1 In the 1901 Census, usually the Revenue *mauzas* were treated as 'village'. It was specified at the 1911 Census that the census village (*i.e.* the revenue *mauza*) may represent a single site or two or more detached hamlets amongst which its population is divided.

5.2 As some revenue *mauzas* got merged partly or wholly in the adjoining towns and lost their identity as separate villages or full revenue *mauzas* the definition of village was further elaborated in 1921, to provide that where a village or part of a village was merged in a town, it will be deleted from the rural frame.

5.3 The definition of village for 1931 Census denoted the area demarcated for revenue purposes as a *mauza* provided that where such a village or part of a village formed part of the area of a town it was to be included in such town. It was further emphasised that the census village would include all the hamlets situated within the area of a revenue *mauza*. Uninhabited villages were not included in the Census Statistics. This definition remained unaltered in 1941. But in 1951 Census a more comprehensive definition of a village was adopted which ran as follows :—

5.4 For purposes of the census, a 'village' is not necessarily a village in the ordinary sense. It denotes the area demarcated for revenue purposes as a *mauza* provided that where a *mauza* or a part of a *mauza* forms part of the area of a town, it is included in such town and the remainder, if any, is regarded for Census purposes, as the village. A revenue *mauza* is the survey and settlement village which is a parcel of land with definite boundaries which may contain one or more group of houses or even no house at all. The census village is; therefore, not actually a residential unit or aggregation. A distinctive cluster or agglomeration of houses makes up the 'Hamlet' and the revenue *mauza* may consists of several such hamlets or it may even consist of no *abadi* or residential site. Besides the revenue *mauzas* which were treated as villages, the forest tracts not included within the boundaries of a revenue *mauza* were also entered as villages, the boundaries being those recognised by the forest department.

5.5 The 1961 Census further improved the concept of village and a fairly strict definition of rural and urban areas started. This resulted in conversion of 222 towns of 1951 into rural units of the State. For the 1981 Census the definition adopted for an urban area was by and large the same as that of 1961 and 1971.

6. **Definition of Urban Area**

6.1 The following definition of urban area was adopted for 1981 Census :—

(a) All places with a municipality, corporation or cantonment board or notified town area;

(b) All other places which satisfied the following criteria:—

(i) A minimum population of 5,000;

(ii) At least 75% of male working population engaged in non-agricultural (and allied) activity;

(iii) A population of at least 400 per Km^2, or one thousand per square mile.

6.2 All areas satisfying the above conditions have been treated as towns and those having population of one lakh and above as cities.

6.3 The urban criteria of 1981 varies slightly from that of 1961 and 1971 Censuses in that the males working in activities such as fishing, logging, etc. were treated as engaged in non-agricultural activity and therefore contributed to the 75% criterion in 1961 and 1971 Censuses, whereas in the 1981 Census these activities are treated as on par with cultivation and agricultural labour for the purpose of this criterion. Another departure from 1971 was that criterion (a) and (b) above were treated as mutually exclusive as a result of which the number of urban units in the state rose from 325 in 1971 to 704 in 1981.

6.4 The definition of an urban area has undergone refinement from census to census. These definitions provide an interesting study and are reproduced below from 1891 to 1971 Census.

STATEMENT 3

List for eligibility for places to be treated as town 1891—1971

Census 1891

A town denotes :—

(1) Every area within which Chaukidari Act (XX of 1856) or either of the Municipal Acts (XV of 1873 or XV of 1883) is in force.

(2) Every other continuous group of houses inhabited permanently by not less than 5,000 people. By the area of a town is meant :—

1. The area demarcated for the purposes of the above Acts.
2. The area occupied by the group of houses and the land immediately appurtenant thereto.

Explanation 1

If the houses of several villages form together a continuous group with a population exceeding 5,000 such a group will be a town. But if the houses of a villages are divided into distinct groups no one of which contains more than 5,000 residents, then, though the total population exceeds 5,000 they will not be a town.

Explanation 2

Where separate groups of houses have been united for the purposes of the above Acts, it must be considered in each case whether the circumstances require the statistics to be separate or combined. In the first case, groups will be considered separate towns, in the latter, one town : as, however, for administration purposes these groups are treated as forming one aggregate, unless there is some strong reason for a contrary course, they should be regarded as one town.

Census 1901

"For Census purposes a town was defined in which the Municipal Act or the Cantonment Act or Act XX of 1856 (Chaukidari) was in force, or any continuous group of houses containing a population of not less than 5,000 persons".

Census 1911

No definition was given in the report but it was mentioned that "the typical country town, therefore, is an exaggerated village with a certain non-agricultural population attracted by the convenience of its site".

Census 1921

"A town is—

(i) Every continuous group of houses permanently inhabited by not less than 5,000 persons, and

(ii) Every area in which Act II of 1914 or Act II of 1916 is in force.

Explanation 1

Where several villages lie so close together that their houses from a continuous group with a populaton exceeding 5,000 such group is a town.

Explanation 2

Where one village is broken up into distinct groups of houses, none of which contains more than 5,000 inhabitents, then though the population exceeds 5,000 the village is not a town.

Explanation 3

Where separate groups of houses have been united for the purposes of the Acts mentioned above, they will be considered one town".

Census 1931

"A town is—

(i) Any area in which U. P. Act II of 1916 is in force i.e. any Municipality.

(ii) Any area under sections 337 and 339 of U. P. Act II of 1916, i.e. any Notified Area.

(iii) Any area under U.P. Act II 1914, *i.e.* any Town Area.

(iv) Any Cantonment.

(v) Any other continuous group of houses permanently inhabited by not less than 5,000 persons, which, having regard to the character of the population the relative density of the dwelling, the importance of the place as centre of trade and its historical associations the provincial Census Superintendent decided to treat as town."

"City—City is only a large town. It was defined as :

(1) Any town whose population in 1921 was not less than 100,000.

(2) Any town which the local government declared to be a city for Census purposes.

Included in such cities are not only the municipalities but also any cantonments, notified areas or railway colonies that may be adjacent to them, so that in many cases a city is actually a collection of Census towns."

Census 1941

The definition of 1931 was adopted.

Census 1951

The definition of town was almost the same as that of 1931 with a slight modification. A town was defined as :

(i) Any Municipality.

(ii) Any Notified Area.

(iii) Any Town Area.

(iv) Any Cantonment; and

(v) Any other continuous group of houses permanently inhabited by not less than 5,000 persons which having regard to the character of the population, the relative density of the dwelling, the importance of the place as centre of trade and its historic associations, the State Census Superintendent decided to treat as a town.

Explanation 1

Where several villages lie so close together that their houses form continuous group with a population exceeding 5,000 such a group may be treated as single town under (v) above.

Explanation 2

Where one village is broken up into distinct groups of houses none of which contain more than 5,000 persons, then although the total population exceeds 5,000 the village is not a town.

Explanation 3

By the area of a town is meant :

(i) The area demarcated for the purpose of the towns described in (i) to (iv) above.

(ii) The area occupied by the group of houses and land immediately appurtenant thereto.

A City is defined as :

(i) Any town whose population is not less than 100,000 and

(ii) Any other town with an expected population of 50,000 or above which the State Census Superintendent with the sanction of the State Government may decide to treat as city for Census purposes.

Included in such cities are not only the Municipalities, but also any Cantonments, Notified Areas, Town Areas or Railway Colonies that may be adjacent to them and in some cases, other adjacent aras or such urban areas not included in any local body. In many cases a city is actually a collection of Census Towns.

Census 1961

(a) All places with a Corporation, Municipality, Cantonment or Notified area.

(b) All localities though not in themselves local bodies yet are part of city or town agglomeration, and

(c) All other places which satisfied the following criteria :—

(i) A minimum population of 5,000.

(ii) At least 75% of the male working population (total working population in 1971) was engaged in non-agricultural pursuits, and

(iii) Density of population exceeds 1,000 persons per sq. mile (400 persons per Sq. Km.)

All areas satisfying the above mentioned conditions have been treated as towns and those having population of one lakh and more as cities.

Census 1971

The definition of urban area in 1971 was similar to the definition of urban area adopted in 1961.

7. Urban Agglomeration

7.1 The concept of urban agglomeration adopted for the 1971 Census continues for the 1981 Census also. An urban agglomeration is defined as the continuous urban spread at a place which may cover more than one town, with their urban outgrowths. This is an improvement on the Town Group concept of 1961 where the urban spread was necessarily not continuous. It is common knowledge that some urban settlements like residential colonies, campuses etc. come up outside the notified limits of a town, but adjoining it and such settlements may not by themselves qualify under clause (b) of the definition to be treated as census town but if they form a continuous spread with the adjoining town, it would only be realistic to treat them as urban. Such settlements have been termed as outgrowths (O.Gs) and may cover a whole village or part of a village. Two or more towns may also lie contiguous to one another. A census town(*i.e.* without a local body) may also lie contiguous to a notified town. An urban agglomeration, therefore constitutes :—

(a) A city or town with contiguous outgrowth(s) (the outgrowths being outside the statutory limits but falling within the boundaries of the adjoining village or villages); or

(b) two or more adjoining towns with their outgrowth(s) as in (a); or

(c) a city with one or more adjoining towns with their outgrowths all of which form a continuous spread.

7.2 An urban agglomeration town exceeding a population of one lakh is called a city/city urban agglomeration. Twenty six urban agglomeration were identified in the state for the 1981 Census.

7.3 The following statement gives the district wise number of town in the state from 1901—1981

STATEMENT 4

Progress in the number of towns 1901 to 1981

@ Uttarkoshi T.A. which fell in district Tehri-Garhwal in 1951.

†Tehri-Garhwal district was princely state from 1901 to 1941.

‡Pithoragarh T.A. which fell in district Almora in 1941 and 1951.

*Rampur district was princely state from 1901 to 1941.

£Excludes Shahdhra town since transferred to Delhi.

§ Includes Samthar town also though transferred to U. P. in 1951.

%Includes Nadigaon town transferred to U. P. after 1901.

& Includes Charkhari town also though transferred to U. P. in 1951.

§These are towns of the then Gorakhpur district which would have fallen in district Deoria had it existed separately from 1901 to 1941.

″Includes towns of princely state Banaras.

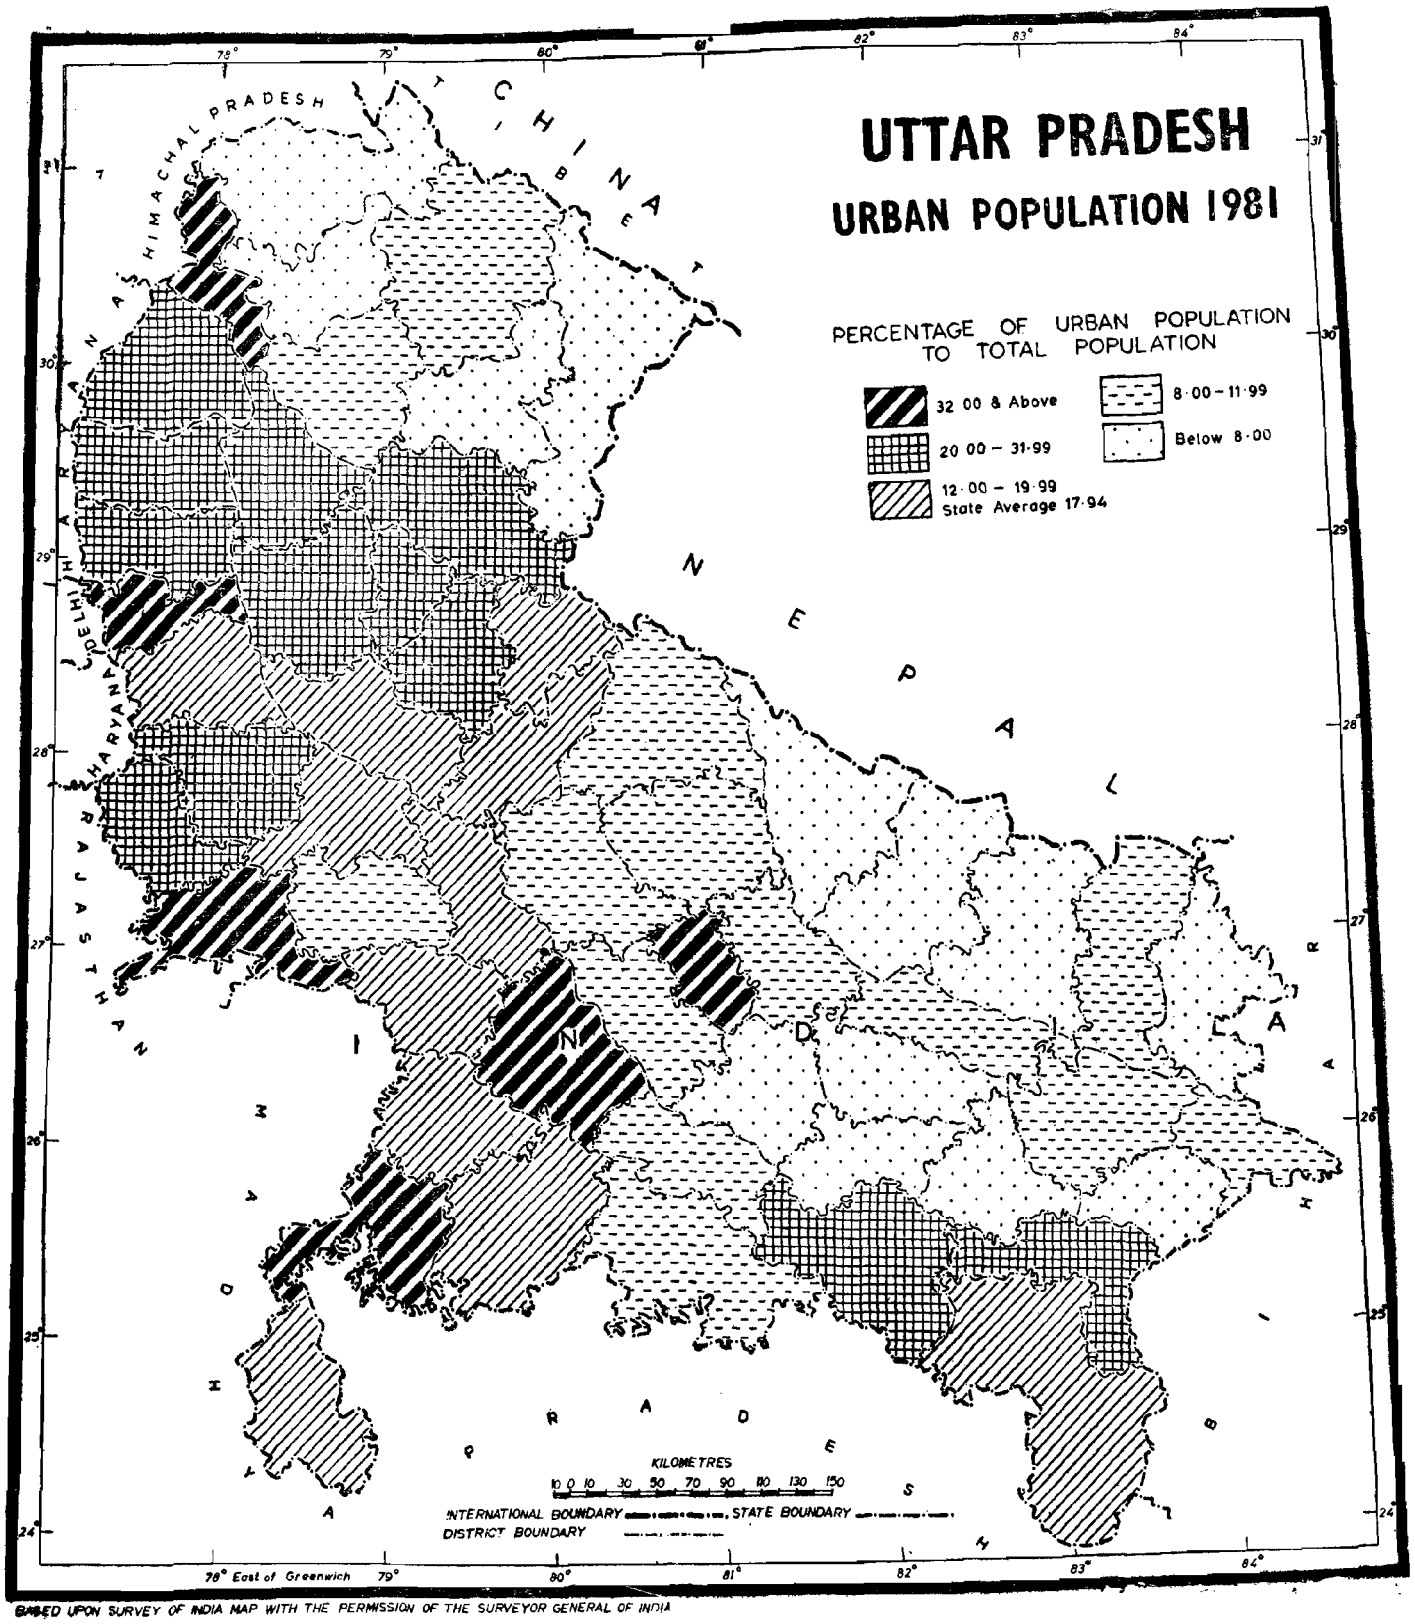

7.4 There was not much variation in the number of towns in the state during 1901 to 1951. This number varied from 424 in 1911 to 486 in 1951. Due to change of definition of town in 1961, the number of towns in 1961 Census got reduced to 267. From 1961 onwards a fairly uniform definition of town has been adopted but due to revised interpretation of this definition in 1981, the number of towns in 1981 Census has risen to 704.

7.5 Thus 382 towns were added to the list of 1971 out of which 198 are entirely new towns and 184 existed as town prior to 1961 Census but were declassified as such in 1961 and 1971 Censuses. Faizabad-*cum*-AyodhyaM .B. of 1971 was bifurcated into two towns of Faizabad M.B. and Ayodhya M.B. in 1981. Rasulpur Dhulri C. T. of Meerut and Markundi C.T. of Mirzapur which were treated as Census Town in 1971 did not satisfy the necessary conditions of a town in 1981 and were, therefore, declassified as such. Further Malyana and Kaila towns of 1971 got merged in Meerut M.B. and Ghaziabad M.B. respectively and thus lost their independent identity. The 704 towns of the state consist of 5 Municipal Corporations, 187 Municipal Boards, 22 Cantonment Boards, 47 Notified Areas, 418 Town Areas and 25 Census Towns. After clubbing the constituent towns of each of the 26 urban agglomerations, the number of urban agglomerations and independent towns comes to 659. The towns have been divided into six different classes by their population size as follows :—

Class—I	1,00,000 and above
Class—II	50,000—99,999
Class—III	20,000—49,999
Class—IV	10,000—19,999
Class—V	5,000—9,999
Class—VI	Below 5,000

7.6 The first seven district by the number of towns in them are Meerut (26), Bulandshahr (22), Budaun (22), Moradabad (21), Bareilly (21), Azamgarh (21) and Varanasi (21). The district having the least number of towns is Uttarkashi (3) followed by Lalitpur (4) and Sultanpur (4). As compared to 1971 Census, there was marked increase in the number of towns in districts Unnao (17), Budaun (16), Azamgarh (16), Bareilly (14) and Aligarh (14). Mirzapur (12) is the only district where there was no change in the number of towns.

7.7 The urban population of the state rose from 14.02 percent in 1971 to 17.95 percent in 1981 Census. Thus the share of urban population in state has gone up by 3.93 percent. The following statement gives the progress in urban population of state by districts from 1901 to 1981. A map showing percentage share of urban population in each district is also given hereunder.

7.9 The urban population of the state declined slightly in 1911 as compared to 1901 and from 1911 onwards it has been continuously increasing. The increase has been very much pronounced in 1981. This was partly due to the substantial increase in the number of towns in 1981.

7.10 The rate of growth in urban population can be studied from the statement and map given below.

STATEMENT 6

Indices of growth in urban population of state and districts 1901-1981

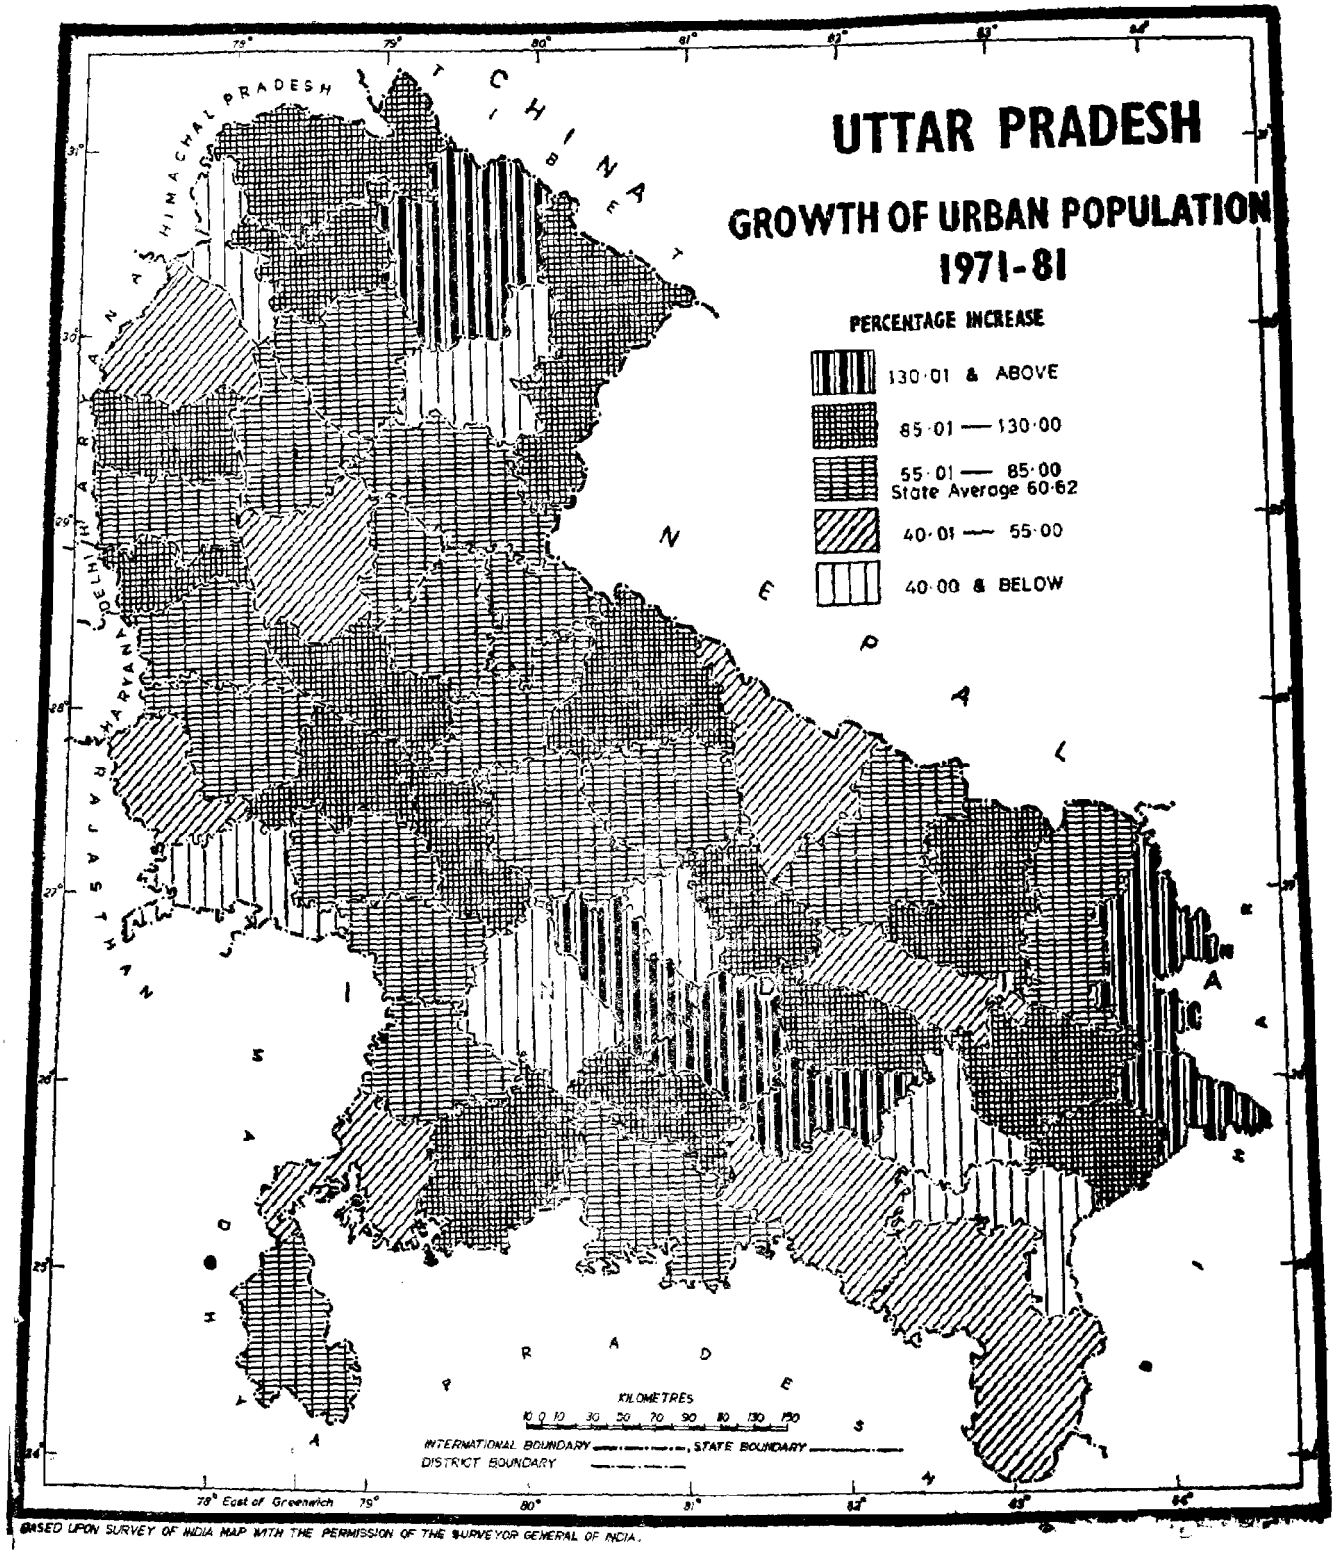

State/District	1981	1971	1961	1951	1941	1931	1921	1911	1901

7.11 The index of urban population for the state fell by almost 9 points in 1911. But for this decline, the index has shown a rising trend throughout. The maximum increase in the index was during the decade 1971—1981 when it rose by 139.7 points from 230.38 to 370.05. This abnormal increase can partly be attributed to the abrupt increase in the number of towns in 1981. It may be pointed out that while calculating the indices of urban population for the districts, the urban population as existing at the time of each census has been taken as it is. As a result, index of urban population has not been calculated for Uttarkashi, Chamoli, Tehri Garhwal, Pithoragarh, Ghaziabad, Lalitpur and Deoria districts as they did not exist in 1901. Among the districts, Dehra Dun has shown the maximum growth in urban population (942.94) and Ballia the least (158.28).

7.12 As discussed earlier 198 towns were added to the list of towns for the first time in 1981 Census. Of these 1 town belongs to Class-III, 36 to Class-IV, 114 to Class-V and 47 to Class VI. The following statement gives the district-wise breakup of new towns by class of town along with their population.

7.13 There is no new class I or class II town. Under class III only one town with 26,050 population was added in district Unnao. Out of the 36 new towns in class IV, 3 each are in Meerut, Bulandshahr and Bareilly district. Seven new class V towns were added in Azamgarh, 6 each in Allahabad, Unnao and Deoria and 5 each in Budaun, Bareilly, Kanpur, Gorakhpur and Varanasi districts. Under class VI, 5 new towns were added in Unnao and 4 each in Chamoli, Pithoragarh, Nainital and Budaun districts.

7.14 The maximum number of new towns were in Unnao (12) followed by Azamgarh (10), Nainital (9) and Budaun (9).

8. Number of Villages and Towns

8.1 The following statement gives the district-wise number of inhabited and uninhabited villages in 1981 and the number of villages partly or fully merged in towns.

STATEMENT 8

State and district wise-number of villages and towns in 1981

8.2 Almost 9.4 percent of the village in the State were uninhabited at the time of 1981 Census. Bijnor (898) and Ghazipur (823) are the districts having the largest number of uninhabited villages. Other districts having more than 20% uninhabited villages are Saharanpur (461), Hamirpur (230) and Ballia (579).

8.3 Urban growth swallowed 982 villages fully and 1,395 villages partly during the decade 1971—1981. This is an indicator of urbanisation in the State. Among the districts, Gorakhpur and Varanasi are noteworthy where 93 and 91 villages respectively got fully merged in towns. Similarly 71 villages got partly merged in towns in Bijnor district.

8.4 The following statement gives the progress in the number of inhabited villages from 1901 to 1981.

STATEMENT 9

Number of inhabited villages at each census

*Denotes the figures of Native States

8.5 In the state as a whole, the number of inhabited villages fell marginally in 1911. During 1911 to 1931 there was an increasing trend but 1941 marked a substantial decrease. But for 1941, the increasing trend was maintained upto 1961. In 1971 this number again decreased marginally. In 1981 again there was a very slight increase. The reasons for these variations in the number of inhabited villages from census to census are given below:—

(i) Change in the definition of urban areas from decade to decade.

(ii) Certain uninhabited villages becoming inhabited at the time of census.

(iii) Certain sparsely populated villages becoming uninhabited at the time of enumeration.

(iv) Changes in district boundaries from decade to decade.

(v) Changes in the boundaries of the state.

(vi) Fluvial action of rivers.

(vii) Formation of new districts out of old districts. In Uttar Pradesh, three new districts, *viz.*, Uttarkashi, Chamoli and Pithoragarh were carved out of districts Tehri-Garhwal, Garhwal and Almora respectively during the decade 1951—61. Deoria district was created out of Gorkhpur district during the decade 1941—51. Ghaziabad and Lalitpur were created out of districts Meerut and Jhansi respectively during the decade 1971—81.

(viii) Merger of certain native states in U.P. Three princely States, *viz.* Banaras (15-10-49) Tehri-Garhwal (1-8-49) and Rampur (1-12-49) were merged in Uttar Pradesh. With this, two new districts, *viz.*, Tehri-Garhwal and Rampur came into being, while the princely State of Banaras was merged in Varanasi district.

(ix) Treating of certain areas as separate census villages though they were not revenue *mauzas*.

(x) Merger of villages with adjacent towns with the growth of towns or merger of villages in another village.

The following statement gives the rural population of the State by districts from 1901—1981.

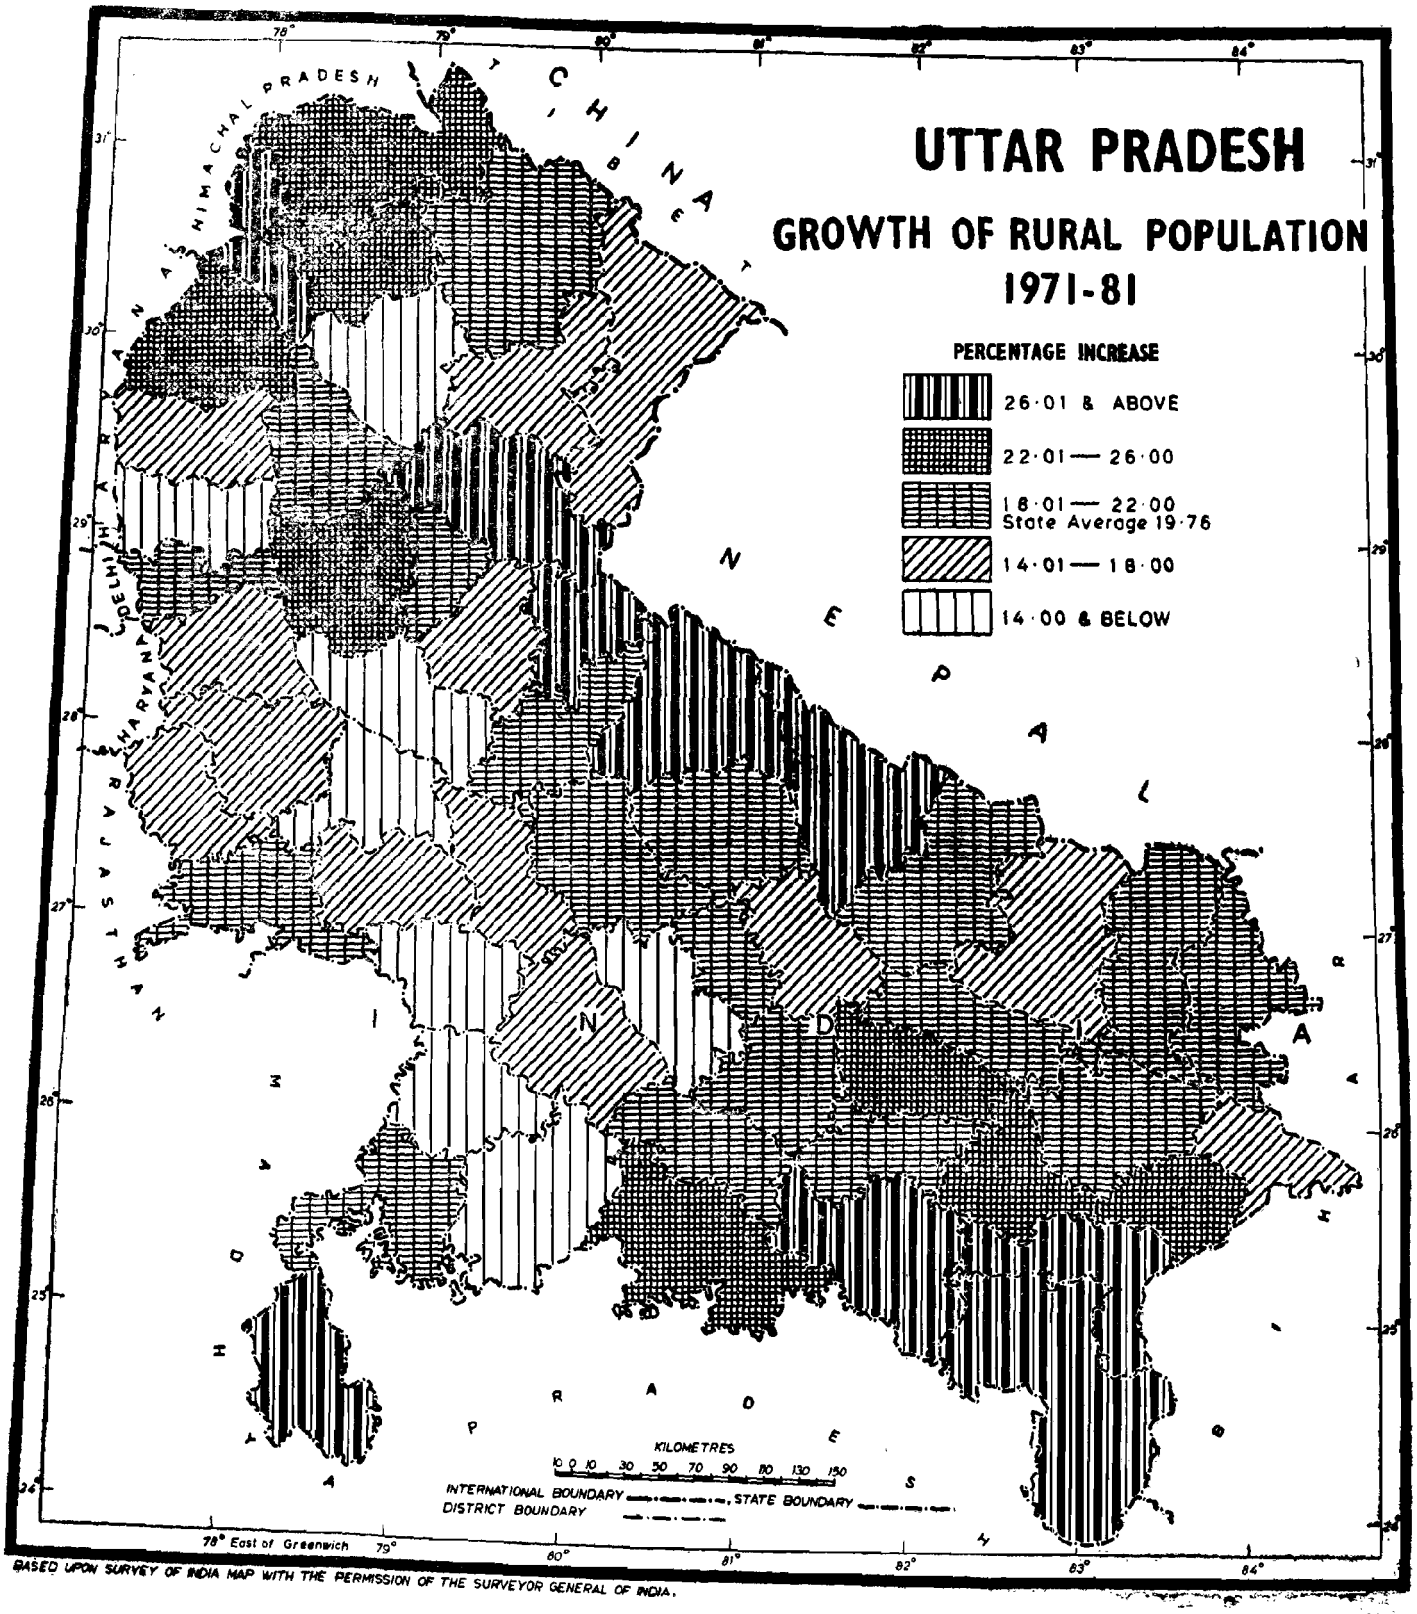

STATEMENT 10

Progress in rural population of state and districts, 1901-1981

©GOVERNMENT OF INDIA COPYRIGHT 1983

8.6 The rural population of the state has generally been increasing steadily since 1901. The only exception was the year 1921 when there was a marginal decline in the rural population. It further shows that during the last eighty years the rural population of the state has more than doubled itself. It has also more than doubled in majority of the districts during the same period. The exceptions where the 1981 rural population has not doubled since 1901 are listed below.

1. Rampur
2. Budaun
3. Bareilly
4. Shahjahanpur
5. Mathura
6. Mainpuri
7. Kanpur
8. Sitapur
9. Unnao
10. Lucknow
11. Rae Bareli
12. Gonda
13. Bara Banki
14. Faizabad
15. Sultanpur
16. Partapgrah
17. Basti

8.7 In 1981 Basti district had the highest rural population followed by Gorakhpur while Uttarkashi had the lowest. A district map showing growth of rural population is given opposite.

9. Census House and Household

9.1 Columns 8 and 9 of table A-1 give the number of occupied residential houses and households for each district, tahsil and town. Occupied residential houses are census houses which are used wholly or partly for the purpose of residence by one or more households. To understand the concept of census house and census household adopted for the 1981 Census, it is first essential to understand the definition of a 'building'. The following definitions were adopted for 1981 Census.

10. Building

10.1 A 'building' is generally a single structure on the ground. Some times it is made up of more than one component units which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that buildings which have component units may be used for a combination of purposes such as shop-*cum*-residence, workshop-*cum*-residence, office-*cum*-residence etc.

11. Census House

11.1 A 'census house' is a building or part of a building *having a separate main entrance* from the road or common courtyard or staircase, etc. *used or recognised as a separate unit.* It may be occupied or vacant. It may be used for residential or non-residential purposes or both.

12. Census Household

12.1 A 'household' is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be a household of persons related by blood or a household of unrelated persons or having a mix of both. Examples of un-related households are boarding houses, messes, hostels, residential hotels, rescue homes, jails, ashrams etc. Theses are called 'Institutional Households'. There may be one member households, two member households or multi-member households. For census purposes each one of these is regarded as a 'Household'.

12.2 The following statement gives the number of persons per 100 occupied census houses and per 100 households, sex ratio and percentage of rural/urban population to total population for the state and the districts.

STATEMENT 11

Persons per 100 occupied residential census houses and per 100 households, number of females per 1,000 males, percentage of rural and urban population to total population in the state and districts.

Sl. No.	State/District	Persons per 100 occupied census houses			Persons per 100 households			No. of females per 1,000 males			Percentage of rural and urban population to total population

12.3 The number of persons per 100 occupied residential census houses is 624, 622 and 634 for total, rural and urban areas respectively. Similarly, the number of persons per 100 households is 577, 574 and 589 respectively for total, rural and urban areas. The districts with maximum and minimum number of persons per 100 occupied residential census houses and per hundred households are listed below :—

A. *Persons per hundred occupied residential census houses.*

Total		Rural		Urban	
Distt.	Persons	Distt.	Persons	Distt.	Persons
1	2	3	4	5	6
		MAXIMUM			
Ballia	832	Ballia	830	Ballia	851

Sitapur	498	Pithoragarh	499	Garhwal	452

12.4 It is note worthy that the districts having maximum number of persons per hundred households are all situated in eastern Uttar Pradesh and those having minimum number of persons per hundred households are in the Himalayan Hills.

13. Sex Ratio

13.1 Sex ratio in India is defined as the number of females per thousand males. Columns 9, 10 and 11 of Statement 11 give district-wise sex ratio for total, rural and urban areas. It is seen that sex ratio in rural areas is 893 as against 846 in urban areas and 885 for the State as a whole. The highest sex ratio has been recorded in Garhwal (1,091) district whereas the lowest sex ratio has been recorded in Budaun (801). In rural areas the highest sex ratio is in Garhwal (1,147) and the lowest in Budaun (798) district. In urban areas the highest sex ratio is in Azamgarh (988) and lowest in Tehri Garhwal (555) district. Sex ratio has been discussed in more detail in the forthcoming fly leaf to Table A-2.

13.2 The following statement gives a comparative picture of sex ratio in different State/Union Territories of India.

14. **Density of Population**

14.1 Density of population is defined as the number of persons per square kilometre. Density of population for total, rural and urban areas for the State, district, tahsils and towns has been given in column 3 of Table A-1. It is seen that there are 377 persons per square kilometre in the State. In rural areas the density of population is 314 whereas in urban areas it is 4,364 per square kilometre. Among the districts, Lucknow has the highest density (797) and Uttarkashi the lowest (24). A map showing district-wise density is given opposite.

14.2 The highest rural density is in Deoria district (609) and the lowest (22) in Uttarkashi district. The highest urban density of population (8,985) is in Shahjahanpur district and the lowest (389) in Chamoli district.

14.3 Comparative figures of density of population in other states and union territories of India are given below.

17. Firozabad M.B.	21,521	22,065
18. Muzaffarnagar M.B.	9,533	14,270
19. Mathura M.B.	14,075	15,741
20. Farrukhabad-*cum*-Fatehgarh M.B.	9,650	8,678
21. Hardwar M.B., Gurukul Kangri and Jwalapur Mahavidyalaya	5,261	7,665
22. *Faizabad M.B.	3,266	3,044
23. Mirzapur-*cum*-Vindhyachal M.B.	2,727	3,289
24. Amroha M.B.	13,086	17,829
25. Etawah M.B.	9,187	11,997
26. Sambhal M.B.	13,878	10,163
27. Jaunpur M.B.	3,198	4,164
28. Bulandshahr M.B.	18,087	11,016
29. Hapur M.B.	12,224	17,639
30. Sitapur M.B.	2,576	3,908

STATEMENT—14 *Concld.*

14.5 Firozabad M.B. is the most thickly populated city in the State. In 1971 also it was so and its density per square kilometre has risen from 21,521 in 1971 to 22,065 in 1981. Density in almost all the cities has gone up as compared to 1971, the only exceptions are Meerut M.B., Farrukhabad-*cum*-Fatehgarh M.B., Faizabad M.B., Sambhal M.B. and Bulandshahr M.B. In case of Faizabad M.B. the 1971 figure relates to Faizabad-*cum*-Ayodhya M.B., which was bifurcated into Faizabad M.B. and Ayodhya M.B. in 1981. Other comparatively dense cities of the state are Amroha M.B. (17,829) Hapur M.B. (17,639), Mathura M.B. (15,741), Bareilly M.B. and O.G.s (14,445) and Muzaffarnagar M.B. (14,270). On the other hand Ghaziabad M.B. and O.G. (4,228), Jaunpur M.B. (4,164), Sitapur M.B. (3,908), Mirzapur-*cum*-Vindhyachal M.B. (3,289) and Faizabad M. B. (3,044) are where the density of population is well below the state average (4,364), though in all these cities, except Faizabad M.B. the density of population has registered an increase over 1971.

TABLE A-1 : AREA, HOUSES AND POPULATION

The table furnishes population data by sex for the State, District and Tahsil separately for their rural and urban areas and also for each U.A./Town. Besides data on area, density of population, number of inhabited and uninhabited villages, number of towns and occupied residential houses and households are also given. It is followed by three Appendices.

Appendix 1 : Statement showing 1981 territorial units and changes during 1971-81.

Appendix 2 : Number and population of villages with population of 5,000 and over and of towns with population under 5,000.

Appendix 3 : Houseless and Institutional population.

A-1: Area, Houses and Population

Foot Notes:—

1. The following abbreviations have been used to denote the civic status of urban areas :—

M.C.—Municipal Corporation

M.B.—Municipal Board

N.A.—Notified Area

T.A.—Town Area

Cantt.—Cantonment

C.T.—Census Town

O.G.—Out Growth

2. Towns added for the first time in 1981 are in italics.

3. Towns treated as such for the first time in 1971 are marked with an asterisk(*) on the left.

4. Provisional "Geographical Area" figures of state/districts are supplied by the Surveyor General. Figures for urban area are those supplied by the Local Bodies. Area figures for rural area are derived by substracting the urban area from the total area of the district. The area figures totalled over all the Tahsils in a district, will not tally with the district figure because the former are those supplied by the Director of Land Records (Board of Revenue).

5. "The density figures per Sq. Km. shown under Col. 4 for urban area of State/Districts/tahsils are worked out using the area figures corrected upto two places of decimals obtained by adding the area of individual towns in the respective units and not using the area figures given in the table. For 'Total' and 'Rural' the density has been worked out on area figures correct upto one place of decimal."

TABLE A-I

APPENDICES

APPENDIX I

Statement showing 1981 territorial units and changes during 1971—81

State/District/Tahsil (1981 Census)	1971 Territorial unit	Areas added		Name of State/District/Tahsil from which area is substracted.	Area substracted.		Name of State/District/Tahsil to which area is added	Net Gain/Loss+(gain) —(loss) in Km².
		No. of villages & towns	Area in Km²		No. of villages & towns.	Area in Km²

					(*ii*) 39 villages	268.95	Newly formed Talbehat Tahsil of Lalitpur District	—268.95

APPENDIX—*Concld.*

1	2	3	4	5	6	7	8	9
Lalitpur District.	*Lalitpur District*	754 villages & 2 towns	5003.51	Jhansi District	..	..	..	+5003.51
1. Lalitpur Tahsil	Lalitpur Tahsil	285 Villages & 1 town	1824.05	Lalitpur Tahsil of Jhansi District.	..	..	..	+1824.05
2. Mahroni Tahsil	Mahroni Tahsil	304 villages	2007.81	Mahroni Tahsil of Jhansi District.	..	..	..	+2007.81
3. Talbehat Tahsil	..	(i) 126 village & 1 town	902.70	Lalitpur Tahsil of Jhansi District.	..	..	..	+902.70
		(ii) 39 villages	268.95	Mahroni Tahsil of Jhansi District.	..	..	..	+268.95
Hamirpur District	*Hamirpur District*							
1. Maudaha Tahsil	Maudaha Tahsil	..		..	(i) 6 villages	116.95	Charkhari Tahsil	—116.95
					(ii) 3 villages	38.65	Mahoba Tahsil	—38.65
		2 villages	57.07	Mahoba Tahsil	..	..	..	+57.07
2. Mahoba Tahsil	Mahoba Tahsil	3 villages	38.65	Maudaha Tahsil	..	..	..	+38.65
					(i) 2 villages	57.07	Maudaha Tahsil	—57.07
					(ii) 103 villages	478.09	Newly formed Kulpahar Tahsil	—478.09
3. Charkhari Tahsil	Charkhari Tahsil	6 villages	116.95	Maudaha Tahsil	..	..	..	+116.95
					169 villages	767.52	Newly formed Kulpahar Tahsil	—767.52
4. Kulpahar Tahsil	..	(i) 169 villages	767.52	Charkhari Tahsil	..	..	..	+767.52
		(ii) 103 villages	478.09	Mahoba Tahsil				+478.09
Kheri District	*Kheri District*							
1. Nighasan Tahsil	Nighasan Tahsil				211 villages	1133.39	Newly formed Dhaurahra Tahsil	—1,133.39
2. Dhaurehra Tahsil	..	211 villages	1,133.39	Nighasan Tahsil	..	..	..	+1.133.39
Sitapur District	*Sitapur District*							
1. Sidhauli Tahsil	Sidhauli Tahsil	..	..	..	353 villages	824.87	Newly formed Mahmudabad Tahsil	—824.87
2. Mahmudabad Tahsil	..	353 villages	824.87	Sidhauli Tahsil	..	..	..	+824.87
Bahraich District	*Bahraich District*							
1. Bahraich Tahsil	Bahraich Tahsil	..	..	..	238 villages	830.41	Newly formed Bhinga Tahsil	—830.41
2. Bhinga Tahsil	..	238 villages	830.41	Bahraich Tahsil	..	..	..	—830.41
Basti District	*Basti District*							
1. Bansi Tahsil	Bansi Tahsil	68 villages	50.60	Naugarh Tahsil	38 villages	42.91	Naugarh Tahsil	+7.69
2. Naugarh Tahsil	Naugarh Tahsil	38 villages	42.91	Bansi Tahsil	68 villages	50.60	Bans	+—7·69

Ghazipur District	*Ghazipur District*						
1. Zamania Tahsil	Zamania Tahsil			3 villages	49.18	Muhammadabad Tahsil	—49.18
2. Muhammadabad Tahsil	Muhammmadabad Tahsil 3 villages	49.18	Zamania Tahsil	..	..	..	+49.18

NOTES :

1. Only those units which have undergone jurisdictional change during 1971—1981 Census have been shown in this Appendix
2. Tahsil Bageshwar in district Almora was newly formed after 1971 Census within the district out of tahsil Almora
3. Tahsil Kotdwara in district Garhwal was newly formed after 1971 Census within the district out of tahsil Lansdowne
4. Tahsil Sitarganj in district Nainital was newly formed after 1971 Census within the district out of tahsil Khatima
5. District Ghaziabad was newly formed after 1971 Census out of districts Meerut and Bulandshahr
6. Tahsil Dadri in newly formed district Ghaziabad was newly formed after 1971 Census within the district out of tahsil Ghaziabad and tahsil Sikandrabad of district Bulandshahr
7. Tahsil Garhmukteshwar in district Ghaziabad was newly formed after 1971 Census within the district out of tahsil Hapur
8. District Lalitpur was newly formed after 1971 Census out of district Jhansi
9. Tahsil Talbehat in district Lalitpur was newly formed after 1971 Census with in the district out of tahsils Lalitpur and Mahroni
10. Tahsil Kulpahar in district Hamirpur was newly formed after 1971 Census within the district out of tahsil Mahoba and Charkhari
11. Tahsil Dhaurehra in district Kheri was newly formed after 1971 Census within the district out of tahsil Nighasan
12. Tahsil Mahmudabad in district Sitapur was newly formed after 1971 Census within the district out of tahsil Sidhauli
13. Tahsil Bhinga in district Bahraich was newly formed after 1971 Census within the district out of tahsil Bahraich
14. The area of newly formed tahsils viz. Bageshwar, Kotdwara, Sitarganj, Dadri, Garhmukteshwar, Talbehat, Kulpahar, Dhaurehra and Bhinga is based on the 1971 village-wise area
15. The district area figures as given in Appendix to Table A-2 are supplied by the Surveyor General, India. The area figures given in Appendix-I to Table A-I are based on village wise figures as given in the District Census Hand book and the District-wise area figures are arrived at by adding/subtracting the area of village transferred. Thus the total area figures of District Ghaziabad and Lalitpur as given in Appendix 1 to Tables A-1 and Appendix to Table A-2 will not tally.

APPENDIX 2

Number and population of village with population of 5,000 and over and towns with population under 5,000

The percentage figures shown in columns 4 and 7 are adjusted upto two places of decimal. The figures have further been adjusted to make the State/District totals agree. To tally the State figures adjustments have been made in district figures and for district in tahsil figures.
'N'—stands for negligible.

A-1: AREA, HOUSES AND POPULATION

APPENDIX 8

2. Abbreviation Used for local status of towns M.C. for Municipal Corporation. M.B. for Municipal Boards, Cantt. for Cantonment Board, N.A. for Notified Area., T.A. for Town Area., C.T. for Census Town and O.G. for outgrowth of a town.

TABLE A-2—DECADAL VARIATION IN POPU LATION SINCE 1901

FLY-LEAF

1. Introduction

1.1 This table corresponds to Table A-2 of 1971, 1961 and 1951 Censuses and furnishes data relating to growth of population over the decades 1901—1981 at state and district level for males and females separately and for total population. The boundaries of the state and the districts have undergone many changes from time to time since 1901. The figures for all the censuses since 1901 for the state and the districts have been adjusted to the present boundaries. Thus the table provides comparable data for the nine censuses for study of growth of population.

1.2 The Appendix to this table, as in the last two censuses, provides area and population of the state and the districts in 1981, its comparison with area and population prevailing at the time of 1971 census, 1971 population adjusted to the 1981 jurisdictions and variation in population due to change in jurisdiction. Suitable foot notes have been added to explain the jurisdictional changes.

2. Adjustment of Population from 1901—1971:

2.1 During the decade 1971—81 two new districts of Lalitpur and Ghaziabad were formed. Lalitpur was formed by Lalitpur and Mahroni tahsils of erstwhile Jhansi district and Ghaziabad was formed by Ghaziabad and Hapur tahsils of erstwhile Meerut district except 49 villages and Khar Khauda T.A. of erstwhile Hapur tahsil which were transferred to Meerut tahsil and 172 villages and Dadri T.A. of erstwhile Sikandarabad tahsil of Bulandshahr district. Champawat tahsil of Almora district was transferred to Pithoragarh district. As a result of these jurisdictional changes recasting of previous census figures for Jhansi, Lalitpur, Ghaziabad, Meerut, Bulandshahr, Almora and Pithoragarh had to be done. In all these cases the population for 1951, 1961 and 1971 censuses was recast by adding or subtracting the figures for transferred areas as published in the relevant District Census Handbooks of the respective areas. The population of the transferred areas for censuses prior to 1951 had to be estimated on the assumption that the proportion of the population in the area transferred to the total population of the district/tahsil in which it was situated at the time of transfer was the same in the particular previous census, as it was in 1951, since village wise figures prior to 1951 are not available.

2.2 Distribution by sex break-up of the population so estimated for a previous census was worked out on the basis of male/female distribution of population in that particular previous census of the district/tahsil in which it was situated at the time of the transfer.

2.3 Only changes of jurisdiction notified by the Government prior to 1978 have been accounted for and they are restricted to rural areas only. No attempt was, however, made to recast the urban population on the basis of changes in jurisdiction within the district/districts. The figures are based on the adjustment at district level without any break-up of rural and urban areas of the districts.

2.4 The following statement gives jurisdictional changes and the method of estimating previous census's populations for areas which had undergone jurisdictional changes.

STATEMENT I

Inter district showing jurisdictional changes

Transferred from		Villages transferred (Code numbers) (for names please refer to respective District Census Handbook —1971)	Transferred to	
District	Tahsil		District	Tahsil
1	2	3	4	5
Almora	Champawat	Entire tahsil (656 villages)	Pithoragarh	Champawat
Bulandshahr	Sikandrabad	1-108, 112-157, 185-202 (172 villages)	Ghaziabad	Dadri
Meerut	Ghaziabad	Entire tahsil (331 villages)	Ghaziabad	Ghaziabad

Method of estimation of previous census male population for Almora district

Description	1901	1911	1921	1931	1941	1951	1961	1971	Remarks
Almora district population as at 1971 Census (Persons)	323,095	374,417	377,771	415,499	489,568	550,550	633,487	750,038	..
Deduct population of, Champawat tahsil transferred in 1971-81 to Pithoragarh district	37,991	445,026	44,421	48,857	57,566	64,737	80,564	101,416	..
Population which should be shown in Table A-2 of 1981	285,104	330,391	333,350	366,642	432,002	485,813	552,843	648,622	..
Almora district male population as at 1971 Census	163,507	190,032	188,946	208,001	243,597	270,016	304,459	361,191	..
Deduct male population of Champawat tahsil transferred in 1971-81 to Pithoragarh district	19,226	22,345	22,218	24,458	28,643	32,719	40,116	50,615	..
Male population which should be shown in Table A-II of 1981	144,281	167,687	166,728	183,543	214,954	237,297	264,343	310,576	..
Almora district female population as at 1971 census	159,588	184,385	188,825	207,498	245,971	280,534	328,948	388,847	..
Deduct female population of Champawat Tahsil transferred in 1971-81 to Pithorogarh district	18,765	21,681	22,203	24,399	28,923	32,018	40,448	50,801	..
Female population which should be shown in Table A-2 of 1981	140,823	162,704	166,622	183,099	217,048	248,516	288,500	338,046	..

2.5 The following statement gives percentage for total rural and urban areas separately of decadal variation of population from 1901 to 1981

STATEMENT 2

Percentage of decadal variation of population from 1901-1981

(+ for increase)
(— for decrease)

2.6 It is observed from the above statement that there has been an increase of 153.2 per cent in the total population of the state since 1901. In rural areas the increase has been 110.3 per cent and in urban areas 275.4 per cent. The trend of decadal variation in population can be seen in the graph below.

2.7 But for the decades 1911-21 and 1941-51, when there were declines, the percentage growth rate has steadily increased. The growth rate of rural population has behaved more or less like the total population, the only marked difference being during the decades 1961-71 and 1971-81. Whereas during 1961-71 the growth rate of rural population was almost equal to that of 1951-61, during 1971-81 it has gone below the growth rate of total population.

2.8 Rate of growth of urban population during the decade 1951-61 was comparatively less. This was due basically to a change in the definition of urban area in 1961. There is a sudden increase in the urban growth rate in the decade 1971-81. Even though the definition of urban area remained unchanged its interpretation has led to the inclusion of many town areas as towns. For further clarification reference may be made to the portion on definition of urban in the Introductory Note.

2.9 Among the districts, Dehra Dun registered the maximum increase (334.1) since 1901. Other districts which registered population increase above the state average are Uttarkashi (156.7), Pithoragarh 190.4 Almora (165.6), Saharanpur (156.0), Muzaffarnagar (159.7), Meerut (169.0), Moradabad (166.1), Agra (169.2), Kanpur (197.3), Allahabad (154.9), Jhansi (166.4), Lucknow (154.0), Gorakhpur (161.6), Varanasi (187.1) and Mirzapur (179.0). In all these districts except in the case of Kanpur and Lucknow, the growth rate in rural population is also above the state average.

3. Sex Ratio 1901—1981

3.1 Sex ratio is defined as the number of females per thousand males. The following table gives the comparative sex ratio for total, rural and urban population of the state and districts. A map showing district-wise sex ratio is given opposite.

3.2 The variations in the sex ratio are brought out clearly by the graph given below.

3.3 The sex ratio for total population of the state registered a fall of 22 points during the decade 1901 to 1911 from 937 to 915. From 1911 to 1961 the sex ratio was almost stable, the total fall during this period was only 11 points from 915 in 1911 to 904 in 1931. The maximum variation in sex ratio in this period for any two consecutive censuses was only 6 points from 915 in 1911 to 909 in 1921. There was maximum ever decline of 30 points in the sex ratio during the decade 1961—1971 from 909 to 879. There after the sex ratio has again shown an upward trend. During the last decade it has risen by 6 points to 885. Thus the decline in sex ratio over the last eighty years was of the order of 52 points.

3.4 The trend of variation in the rural sex ratio has almost been identical with that of total population. During the decade 1901 to 1911 there was a drop of 18 points from 940 in 1901 to 922 in 1911. From 1911 to 1961 the variation was only marginal. The maximum variation during this period was 8 points from 925 in 1951 to 917 in 1921 and 1931. Just as in total sex ratio, there was a sudden fall of 35 points in the rural sex ratio during the decade 1961—1971. During the decade 1971—81 rural sex ratio has also shown an increase of 4 points. The maximum variation in rural sex ratio during the last eighty years was 51 points and the variation between 1901 and 1981 was 47 points.

3.5 The trend in urban sex ratio has been entirely different from that of total or rural population. From 1901 to 1941 there was a steady decline and thereafter, but for the year 1951 when there was a very sharp increase followed by an equally sharp decline in 1961, the urban sex ratio has shown a steady upward trend. The sharp decline in the decade 1951—1961 can be attributed to the decrease in the number of urban units in 1961 due to a change in definition of urban areas. Similarly the very sharp increase during 1971—1981 can be attributed to the changed interpretation of the definition of urban areas as a result of which the number of urban units in the state rose from 325 in 1971 to 704 in 1981. The units which were added or subtracted were predominantly rural in nature and as is well known sex ratio in rural areas is comparatively higher than in urban areas. The only plausible reason for the abrupt rise in the urban sex ratio during 1941—51 seems to be the sudden influx of population (highly weighted on the female side) to the urban centres as a result of the partition of the country. One important conclusion comes to the force from the above diagram. It is that during the pre-independence era there was a steady decline in the urban sex ratio while in the post-independence era the urban sex ratio has shown a steady increase.

3.6 To verify the above trend, the cases of districts in which KAVAL towns are situated may be examined. A graph showing the trend in these districts is given opposite.

3.7 Exception the case of Agra, there has been decreasing trend in urban sex ratio up to the decade 1941—51 and thereafter it has been consistently increased.

3.8 The highest sex ratio was recorded in Garhwal (1091) followed by Tehri-Garhwal (1081) and Almora (1081). The other districts in which females out number the males are Pithoragarh in the hill region and Pratapgarh, Azamgarh and Jaunpur in the plains. Whereas, in the rural areas of these districts the female outnumber the males, in the urban areas the males outnumber the females. This is more so in the hill districts. Sex ratio recorded in Budaun (801) was the least in the state. This is 31 points higher than the lowest recorded in 1971 Census in district Dehra Dun (770), even though the sex ratio of Budaun itself has recorded a fall of 11 points.

3.9 During the decade 1971—81 the sex ratio has registered a marginal increase of 6 points. In 25 districts the sex ratio registered an increase, in 29 districts it registered a decrease and in 2 districts it remained stationary. The maximum increase is 43 points in Nainital district and the maximum decrease is 108 points in Tehri-Garhwal district.

TABLE A-2—DECADAL VARIATION IN POPULATION SINCE 1901

It furnishes the population by sex from 1901 to 1981 at State and District level and percentage decade variation. The population figures for the previous censuses are adjusted to the 1981 jurisdiction.

The table is followed by an Appendix: State and Districts at the 1981 census showing 1971 area and population according to territorial jurisdictions in 1971, change in population of 1971 adjusted to jurisdiction of 1981.

TABLE A-2—DECADAL VARIATION IN POPULATION SINCE 1901

(a) The districts marked (+) have not undergone any jurisdictional change since 1971. The changes in area between 1971—1981 are due to revised calculations.

(b) Changes within districts marked with figures within the breakets are explained below.

1. Entire tahsil of Champawat with an area of 1,039.33 km² was transferred from Almora district to Pithoragarh district.

2. Change as mentioned in 1 above.

3. (a) 331 villages and 8 towns with an area of 1,153.98 km² of Ghaziabad tahsil of old Meerut district were transferred to newly created district of Ghaziabad.

   (b) 282 villages and 2 towns with an area of 894.22 km² of Hapur tahsil of old Meerut district were transferred to newly created district of Ghaziabad.

   (c) 49 villages with an area of 198.22 km² were transferred from old Hapur tahsil of Meerut district to Meerut tahsil of Meerut district.

4. (a) Change as mentioned in 3(a) above.

   (b) Change as mentioned in 3(b) above.

   (c) Change as mentioned is 3(c) above.

   (d) 172 villages and 1 town with an area of 573.12 km² were transferred from Sikandrabad tahsil of Bulandshahr district to Dadri tahsil of Ghaziabad district.

5. Change as mention in 4(d) above.

6. Entire tahsils of Lalitpur (411 villages and 2 towns with an area of 2,726.75 km²) and Mahroni (343 villages with an area of 2,276.76 km²) of district Jhansi were transferred to newly created district of Lalitpur.

7. Change as mentioned in 6 above.

TABLE A-3 : VILLAGES CLASSIFIED BY POPULATION SIZE

FLY-LEAF

1. Introduction

1.1. This table corresponds to Table A-3 of 1951, 1961 and 1971 Censuses and gives the distribution of total number of inhabited villages by seven broad population ranges shown below.

(i) Less than 200
(ii) 200—499
(iii) 500—999
(iv) 1,000—1,999
(v) 2,000—4,999
(vi) 5,000—9,999
(vii) 10,000 and above

1.2 It also provides the population by sex for all villages together in these ranges in each tahsil. It would be seen from the table that out of 112,566 inhabited villages in the state, 103,615 (92%) lie in the first four groups i.e. less than 200 (22,391), 200—499 (30,817), 500—999 (30,027) and 1,000—1,999 (20,380) and account for 68.74 percent of the total rural population of the state.

1.3 Jurisdictional changes and definition of village have already been discussed in fly leaf to Table A-1. The following statement gives the percentage distribution of population living in villages of various size classes by district.

STATEMENT 1

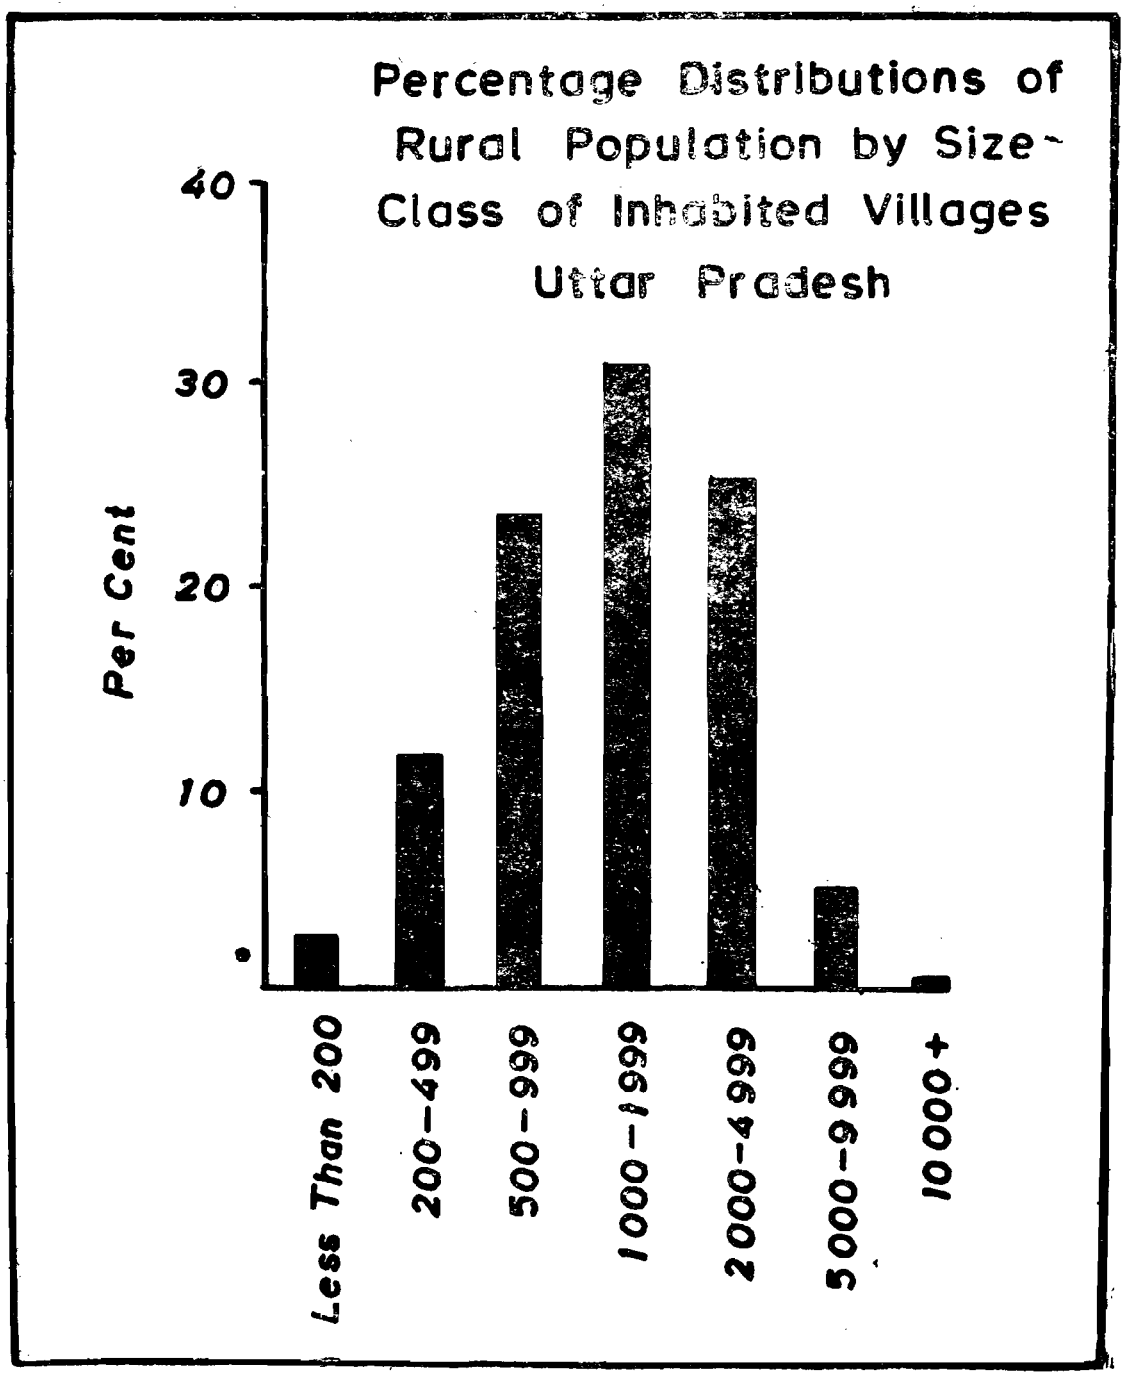

Percentage of population living in villages of various population sizes with reference to the total rural population in 1981

State/District	Percentage of population living in villages of population size							Rural Population
	Less than 200	200—499	500—999	1000—1999	2000—4999	5000—9999	10000+	
1	2	3	4	5	6	7	8	9

53. Ballia	2.32	9.62	16.29	25.65	30.56	11.26	4.30	1,768,478
54. Ghazipur	3.66	13.13	24.00	27.95	23.04	4.70	3.52	1,790,887
55. Varanasi	2.67	12.63	27.39	33.34	21.31	2.26	0.41	2,706,183
56. Mirzapur	4.82	18.97	26.06	27.89	18.16	2.58	1.52	1,771,484

1.4 Maximum rural population of the state lives in villages of size class 1,000—1,999 followed by 2,000—4,999 and 5,000—9,999 size classes. These three classes together account for 79.97 percent of the total rural population of the state. The following graph brings out the distribution of rural population by size classes of inhabited villages.

1.5 It is also seen that 14.10 percent of the rural population lives in villages of less than 500 population and 5.93 percent in villages of over 5,000 population. Inspite of the size of population, the later class of villages continue to be treated as rural because they have either not been declared as town areas or their economic pattern does not warrant them the be treated as urban. A comparison with the position in 1971 shows that the percentage share of population of bigger villages has shown a rise except in the size class 10,000 and above. The two sets of figures are given below.

Size class	1971	1981
Less than 200	3.72	2.52
200—499	15.49	11.58
500—999	26.45	23.64
1,000—1,999	29.00	30.99
2,000—4,999	20.05	25.34
5,000 —9,999	4.37	5.24
10,000 and above	0.92	0.69

1.6 The distribution of population by size-classes in hill districts is entirely different from that in other districts. The six hill districts viz., Uttarkashi, Chamoli, Tehri-Garhwal, Garhwal, Pithoragarh and Almora have the majority of their population living in villages of size 200—499. In Nainital district which has a large component of plains also, the majority of population lives in villages of size 500—999 (26.52%) and 1,000—1,999 (25.75) with 200—499 class following close behind. In Dehra Dun district too the population is evenly spread over the four categories of 200—499, 500—999, 1,000—1,999 and 2,000—4,999 even though the remaining three categories also have a substantial share of population. If the hill region is separated from the rest of the state, the averages for 1971 and 1981 for the two categories works out as follows:—

Size class	Hills		Rest of the State		Average	
	1981	1971	1981	1971	1981	1971
1. Less than 200	21.41	27.83	0.72	2.64	2.52	3.72
2. 200—499	37.37	39.88	9.13	14.39	11.58	15.49
3. 500—999	20.20	18.54	23.80	26.80	23.64	26.45
4. 1,000—1,999	11.24	6.93	32.87	29.99	30.99	29.00
5. 2,000—4,999	5.57	4.77	27.21	20.74	25.34	20.05
6. 5,000—9,999	1.54	1.55	5.58	4.50	5.24	4.37
7. 10,000 and above	0.67	0.50	0.69	0.94	0.69	0.92

1.7 The above table clearly shows that in both the regions, there is a shift of population from smaller sized villages to comparatively larger villages.

1.8 The percentage of population living in villages of size 200—499 ranges between 1.27 in Meerut and 49.30 in Tehri Garhwal. Districts having less than 5 percent of total rural population in villages of size 200—499 are Muzaffarnagar (1.79), Meerut (1.27) Ghaziabad (1.80), Bulandshahr (2.98), Mathura (3.93) and Agra (3.94). Incidently all these districts lie in the western part of the state. All the hill districts except Dehra Dun and Nainital have percentage of population ranging between 41 and 50 percent in this category of villages.

1.9 In the size class 500—999 the percentage of population ranges between 6.28 in Meerut to 33.63 in Basti district. Incidently Basti, Naintal, Shahjahanpur and Lalitpur are the only four districts having majority of their population living in this category of villages while Muzaffarnagar, Meerut and Ghaziabad have less than 10 percent of population in this category.

1.10 Villages of size 2,000—4,999 are very few in hill districts. Chamoli, Tehri-Garhwal and Almora have no village of this size. The highest percentage of population in this category is 48.93 in Meerut district. Other districts having more than 40 percent of their population in this size of villages are Muzaffarnagar (42.26) and Ghaziabad (44.37) which are situated in western part of the state. Saharanpur (33.34), Muzaffarnagar (42.26), Meerut (48.93), Ghaziabad (44.37), Bulandshahr (38.59), Mathura (36.38), Agra (39.17), Fatehpur (29.10), Banda (39.06), Hardoi (33.61), Rae Bareli (30.30) and Ballia (30.56) have the highest percentage of their population living in this size of villages. All these districts are situated in western and central Uttar Pradesh.

1.11 Except Dehra Dun and Nainital, no other hill district has any population living in 5,000—9,999 population size of villages. Muzaffarnagar (21.46) has the highest percentage of population in this category. Districts having more than 10 percent of population living in this size group are Muzaffarnagar (21.46), Meerut (20.18), Ghaziabad (14.44), Mathura (13.59), Agra (13.12), Fatehpur (10.23) and Ballia (11.26).

1.12 Only twenty three districts have some population in villages of population above 10,000. The highest percentage of population in this class is 6.83 in Dehra Dun district. Muzaffarnagar, Ghaziabad Mainpuri, Ballia and Ghazipur are the only districts having more than 2 percent population in villages of this size.

1.13 The following table gives the distribution of districts having maximum population in various size groups of villages.

Highest Percentage of Population of Districts Living in villages of size

Less than 200	200—499	500—999	1,000—1,999	2,000—4,999	5,000—9,999	10,000 & above
Nil	Uttarkashi (46.88) Chamoli (47.54) Tehri Garhwal (49.30) Dehra Dun (28.06) Garhwal (42.53) Pithoragarh (41.07) Almora (44.31)	Nainital (26.52) Shahjahanpur (33.15) Lalitpur (30.36) Basti (33.63)	Saharanpur (33.32) Bijnor(31.59) Moradabad (35.18) Rampur (32.46) Budaun (34.95) Bareilly (35.92) Pilibhit (32.61) Aligarh (34.24) Etah (33.71) Mainpuri (30.86) Farrukhabad (31.59) Etawah (33.14) Kanpur (33.29) Allahabad (33.88) Jalaun (30.90) Jhansi (38.93) Hamirpur (34.39) Kheri (34.58) Sitapur (39.70) Unnao (29.01) Lucknow (33.42) Faizabad (32.50) Sultanpur (32.05) Bahraich (38.37) Gonda (38.55) Bara Banki (34.12) Pratapgarh (35.48) Gorakhpur (34.35) Deoria (32.42) Azamgarh (31.80) Jaunpur (34.52) Ghazipur (27.95) Varanasi (33.34) Mirzapur (27.89)	Saharanpur (33.34) Muzaffarnagar (42.26) Meerut (48.93) Ghaziabad (44.37) Bulandshahr (38.59) Mathura (36.38) Agra (39.17) Fatehpur (29.10) Banda (39.06) Hardoi (33.61) Rae Bareli (30.30) Ballia (30.56)	Nil	Nil

The following statement gives the percentage distribution of villages and population for the state by various size-classes from 1901 to 1981 except for 1931 and 1941.

	Percentage of villages and population by class of village 1901 to 1981 except for 1931 and 1941											
	Less than 200		500—999		1,000—1,999		2,000—4,999		5,000—9,999		10,000 & above

N—Negligible.

1.14 The percentage of villages as well as the population in villages of less than 500 population has shown a decreasing trend. In population size 500—999 of villages, even though the number of villages has shown an increasing trend, the population in this class has slightly decreased. In size class 1,000 to 1,999 and 2,000 to 4,999 the number of villages as well as the population living there have been increasing. The share of villages of population above 5,000 is very small but is too shows an increasing trend.

1.15 The district-wise position and comparative figures for 1971 and 1981 are given below in statement :—

STATEMENT 2

Percentage of villages and population by class of villages in 1971 and 1981

State/District	Year	Total villages	Total population	Less than 500		500-999		1,000—1,999		2,000—4,999		5,000—9,999		10,000+	
				Percentage of No. of villages in this range to total No. of villages	Percentage of population in this range to total population	Percentage of No. of villages in this range to total No. of villages	Percentage of population in this range to total population	Percentage of No. of villages in this range to total No. of villages	Percentage of population in this range to total population	Percentage of No. of villages in this range to total No. of villages	Percentage of population in this range to total population	Percentage of No. of villages in this range to total No. of villages	Percentage of population in this range to total population	Percentage of No. of villages in this range to total No. of villages	Percentage of population in this range to total population

1.16 Nearly half i.e. 47.26 percent of the villages in the state have less than 500 population each and the percentage of population living in these villages is only 14.10. Another 26.67 percent of villages have population between 500—999 and the percentage of population in them to total rural population is 23.65. The percentage of villages in population range 1,000—1,999 is 18.11 with 30.99 percent of population which is largest in any single size-class. Population-wise, the next largest category is 2,000—4,999 which accounts for 25.35 per cent of the total rural population with only 7.24 per cent of the total villages.

1.17 In the hill region as the population size of villages increases the percentage of villages decreases. Districts Chamoli, Tehri Garhwal and Almora have no village of population 2,000 and above. Similarly districts Uttarkashi, and Pithoragarh have no village of population 5,000 and above. The following table gives the distribution of the districts by the maximum percentage of villages in different size-classes of villages.

Less than 500	500—999	1,000—1,999	2,000—4,999	5,000 & above
Uttarkashi (88.34)	Saharanpur (29.29)	Muzaffarnagar (29.33)	Meerut (32.61)	Nil
Chamoli (91.36)	Moradabad (36.17)	Ghaziabad (31.39)		
Tehri-Garhwal (90.22)	Budaun (36.80)	Bulandshahr (36.26)		
Dehra Dun (76.31)	Aligarh (34.23)	Mathura (28.95)		
Garhwal (95.25)	Etah (33.37)	Agra (29.99)		
Pithoragarh (91.49)	Farrukhabad (33.87)			
Almora (89.70)	Etawah (32.97)			
Naintal (72.14)	Kanpur (33.79)			
Bijnor (50.39)	Hardoi (31.11)			
Rampur (41.79)	Unnao (35.50)			
Bareilly (38.19)	Lucknow (34.82)			
Pilibhit (47.91)	Bahraich (32.43)			
Shahjahanpur (53.86)	Gonda (33.82)			
Fatehpur (34.32)				
Allahabad (39.64)				
Jalaun (42.17)

Lalitpur (47.73)				
Hamirpur (32.39)				
Banda (33.22)				
Kheri (34.14)				
Sitapur (33.56)				
Rae Bareli (34.96)				
Faizabad (43.74)				
Sultanpur (43.74)				
Bara Banki (36.33)				
Pratapgarh (44.76)				
Basti (66.43)				
Gorakhpur (44.69)				
Deoria (36.55)				
Azamgarh (55.07)				
Jaunpur (47.40)				
Ballia (50.36)				
Ghazipur (55.79)				
Varanasi (48.12)				
Mirzapur (62.03)				

1.18 In this state fifty out of fifty six districts have the highest percentage of villages with less than 1,000 population.

TABLE A-3—VILLAGES CLASSIFIEDD BY POPULATION SIZE

It furnishes distribution of inhabited villages under seven population ranges viz., less than 200; 200—499; 500—999; 1,000—1,999; 2,000—4,999; 5,000—9,999 and 10,000 and above together with population by sex of all villages in each range at district and tahsil level.

TABLE A-3—VILLAGES CLASSIFIED

State/District/Tahsil	Total No. of inhabited villages	Total rural population		
		Persons	Males	Females
1	2	3	4	5

TABLE A-4 : TOWNS AND URBAN AGGLOMERATION CLASSIFIED BY POPULATION IN 1981 WITH VARIATION SINCE 1901

FLY-LEAF

1. Introduction

This table corresponds to Table A-4 of 1961 and 1971 censuses and presents all the towns and urban agglomerations and their population by sex since 1901 and their decadal variations. The towns/urban agglomerations are arranged in descending order of their 1981 population and are shown under the six population size classes :—

Class	*Range of Population*
I	1,00,000 and above
II	50,000- 99,999
III	20,000- 49,999
IV	10,000- 19,999
V	5,000- 9,999
VI	Less than 5,000

1.2 Data for each constituent town/outgrowth of each urban agglomeration has also been presented separately. The status of towns and the area figures of towns/urban agglomerations are also given in the table. An alphabetical list of towns is also given at the end of the fly-leaf.

1.3 As against two appendices in 1971, the table is now supplemented by four appendices. Appendix-1 corresponds to Appendix-1 of 1961 and 1971 censuses and gives the new towns added in 1981 and also the towns of 1971 which have been declassified as rural in 1981 along with their area and 1971 and 1981 population. The appendix shows the change in rural/urban status of places between the decade 1971—81. Rasulpur Dhulri in Meerut district and Markundi in Mirzapur district are the only two cases of towns of 1971 declassified in 1981. Appendix-2 gives places with population less than 5,000 treated as towns for the first time in 1981 along with their status, area and population and corresponds to list A of Appendix-I of 1971. Appendix-3 gives towns of 1971 with populations under 5,000 which have been declassified as rural in 1981, alongwith their area and population. Appendices 2 and 3 show the change in rural/urban status of places with less than 5,000 population between 1971 and 1981. Appendix-4 (which corresponds to Appendix-2 of 1971) shows the towns which have undergone change in area between 1971 and 1981 alongwith their population.

1.4 In case there was no civic status of any town in any census, it has been denoted by a dash (—) in the relevant column against that town for that census. If any place was treated as town in some census and declassified as urban in subsequent census and again treated as town, then in such cases population particulars are given only for those censuses in which it was town and the word 'declassified' recorded against the census year in which it was declassified. The population figures for earlier censuses in this table have been presented according to that census and are not adjusted to confirm to the present classification. The totals given in the table for each of the previous censuses are the totals of populations of all towns which were classified in the respective class in that census.

1.5 For arriving at the class totals each urban agglomeration has been treated as a unit and each individual and independent town (i.e. not part of urban agglomeration) as a separate unit. Although a town or urban agglomeration may appear in the table under the size class to which it belongs according to its 1981 population, for class totals, the town/urban agglomeration has been grouped in the class to which it belonged according to its population size in any census year. For the class totals of past census years, an urban agglomeration of 1981 census has been treated as a single unit. Where an urban area was merged with a town in 1981 census, the population of the whole town as constituted in 1981 census determines the size class for any past census year. However, where a rural area has been merged with a town in 1981 census, the population of the urban area only at any past census determined its size class. Where the population of a town in a previous census has been adjusted with reference to 1981, a foot note has been given explaining the procedure and extent of such adjustment.

1.6 The definitions of town and urban aglomeration have been given in the Introductory Note.

1.7 The area constituting an urban agglomeration may keep on changing from census to census depending upon the changing boundaries of the statutorily notified main urban units as well as the extent of urban outgrowths. In Uttar Pradesh there are some cases where constituents of urban agglomeration are not municipal suburbs or extension of the adjoining municipal area. It is sometimes a Railway Colony within or outside the municipal limits but adjoining to the municipal areas or it may be a group of villages having urban characteristics situated close to municipal area but not included in municipal area. Therefore, in such cases the municipal and the adjoining non-municipal area or a Railway Colony have together been treated as one town.

1.8 A list of 26 urban agglomerations alongwith their constituent towns so formed in this state is given below :—

Urban Agglomerations and their constituent units, 1981

Name of district	Name of U. A./Constituents
1. Dehra Dun	1. Dehra Dun U. A.
	(*a*) Dehra Dun M.B. F.R.I & College Area O. G. and Adhoiwala O. G.
	(*i*) Dehra Dun M. B.
	(*ii*) F. R. I. & College Area O.G.
	(*iii*) Adhoiwala O. G.
	(*b*) Dehra Dun Cantt.
	(*c*) Clement Town Cantt.
	(*d*) Raipur C. T.
	2. Mussoorie U. A.
	(*a*) Mussoorie M. B.
	(*b*) Landour Cantt.

Name of district	Name of U.A./Constituents

1901	7	1,286,019	11	753,138	20	615,560	71	996,268	164	1,137,617	185	602,009	458	5,390,611

1.9 In the above statement, the constituents of an urban agglomeration where the constituents were reckoned as separate towns in their own right have been classified according to the population of the urban agglomeration.

1.10 The number of towns in the state has been changing from census to census. The variation from 1901 to 1951 was only marginal but in 1961 the number of towns decreased substantially. This was because of a change in the definition of urban areas in 1961. Similarly the large increase in the number of towns in 1981 was due to the revised interpretation of the definition of an urban area. However, despite the variations in number of towns in the state, the population of the towns has shown an increasing trend from 1911 onwards. In 1961 even though the number of towns got reduced by almost 50%, the population of the towns rose by nearly 10 per cent. In 1981, the maximum number of towns were added in Class IV and V. In Class VI also the increase in the number of towns was substantial.

1.11 The following statement gives the percentage of towns and population in each class from 1901 to 1981.

STATEMENT 2

Percentage of Towns in each Class to Total number of Towns and Percentage of population in each Class to Total Urban Population from 1901-1981

Class	1981		1971		1961		1951	
	% of No. of towns	% of Population	% of No. of towns	% of Population	% of No. of towns	% of Population	%of No. of towns	% of Population

	% of No. of towns	% of Population	% of No. of town	% of Population	% of No. of towns	% of Population	% of No. of towns	% of Population	% of No. of towns	% of Population
1	10	11	12	13	14	15	16	17	18	19
I	2.77	37.36	1.85	27.49	1.58	25.36	1.67	25.26	1.53	23.86
II	2.53	10.61	2.55	13.96	2.70	15.34	2.38	13.49	2.40	13.97
III	9.22	16.51	6.71	15.34	4.05	10.68	4.05	11.00	4.37	11.42
IV	16.36	13.47	15.05	15.83	12.61	15.87	15.48	18.63	15.50	18.48
V	35.94	15.42	31.71	16.81	31.76	19.51	33.33	19.50	35.81	20.95
VI	33.18	6.63	42.13	10.57	47.30	13.24	43.09	12.12	40.39	11.32
Total	100.00	100.00	100.00	100.00	100.00	100.00	100.00	100.00	100.00	100.00

1.12 The class-wise percentage of number of towns to total number of towns has generally shown an increasing trend from 1901 to 1961. With the decrease the number of towns in 1961, the percentage share of for classes I to IV registered an increase and with the increase in the number of towns in 1981, the percentage share in different classes has been substantially affected.

1.13 In 1981, the maximum percentages of towns was in Class V (35.06%) closely followed by Class IV (29.59%).

1.14 The percentage of population in Class I towns has shown a rising trend from 1901 (23.86%) to 1971 (57.06%). However, in 1981 it registered a decrease of 5.66 per cent. In 1981 the maximum percentage of population (51.40%) is in Class I towns of tital number of towns account for 51.40 per cent Quite obviously, Class I towns which 4.55 per cent of total number of towns account for 51.40 per cent of the population.

1.15 The following statement gives the area of towns in each class to total urban area of the state alongwith the density of population for 1971 and 1981.

STATEMENT 3

Percentage of Area of Towns in each Class to total Urban Area of the state and density of Population per square Km. in each Class

Class	1981		1971	
	Percentage of Area to Total Urban Area	Density per km²	Percentage of Area to total Urban Area	Density per km²
1	2	3	4	5
Uttar Pradesh	**100.00**	**4,364**	**100.00**	**4,356**
Class—I	34.11	6,575	44.17	5,627
Class—II	10.32	5,257	8.77	5,379
Class—III	11.51	4,796	17.98	4,046
Class—IV	20.99	2,810	16.26	2,796
Class—V	16.58	2,254	10.77	1,918
Class—VI	6.49	971	2.05	493

1.16 The percentage of area in Class I and Class III towns has declined in 1981 as compared to 1971 whereas it has registered an increase in all the other classes. The density of population has decreased only in Class II towns. The table also reveals that the density increases as the size-class increases and it is maximum in Class I towns. Density in Class I, II and III towns is above the urban density at the state level.

1.17 The following statement gives the class-wise number and population of cities and towns in 1981 *vis-a-vis* the position prevailing in 1971.

STATEMENT 4

Number and Population of Cities and Towns of 1971 and 1981 Census in each class

State	Class of town	1981		1971		Increase or decrease in No. of towns	Increase or decrease in population of class	Percentage increase or decrease 1971—1981

	Total Class V	**231**	**1,704,090**	**80**	**587,608**	**+151**	**+1,116,482**	**+190.00**
	Total Class VI	**81**	**287,640**	**13**	**28,803**	**+68**	**+258,837**	**+898.65**

1.18 As many as 366 towns added in 1981 and these resulted in an increase of 7,510,519 *i.e.* 60.62 per cent in the urban population over 1971. For the compilation of the above table the constituents of an urban agglomeration have been classified according to their own population and not according to the population of the urban agglomeration rather than their own population. The maximum number of towns (151)

were added in Class V while maximum increase in population was in Class VI (898.65%). In 1971 Kanpur was the only city in 10 million category in which Lucknow has entered this time. As a result the population in this category has increased by 107.54 per cent. In Class I (b) *i.e.* cities with populations between 500,000 and 999,999 the number of cities has remained 4 since Lucknow which has gone up to Class I (a) has been replaced by Meerut. As against 17 Class I cities with population between 100,000 and 499,999 in 1971 there are 24 such cities in 1981. Meerut has shifted to the next higher Class and the newly upgraded cities in this category are Sambhal M.B., Etawah M.B., Amroha M.B., Jaunpur M.B., Hardwar M.B., Hapur M.B., Sitapur M.B. and Bulandshahr M.B. and have resulted in an increase of 50.36 per cent in the population of the category over the decade.

1.19 The following table gives in detail the movement of towns from one class to another alongwith their population in 1971 and 1981 census. For the compilation of this statement each town has been treated as an independent unit. In this state there was no case of decrement of towns from a higher class in 1971 to a lower class in 1981 census except the two towns which were declassified *viz.* Rasulpur Dhulri C.T. of Meerut district and Markundi C.T. of Mirzapur district which were Class VI towns in 1971. Their population for 1971 Census is shown in statement 7 in this chapter.

STATEMENT 5

Number and population of towns which a particular class lower 1981 has received by a process of increment from the next lower or any other of lower Range(s) of 1971

Increment of Towns in the Statement Relates to their Territorial Content in 1981

1.20 Eight towns moved from Class II to Class I, 25 from Class III to Class II, 46 from Class IV to III, 54 from Class V to IV and 2 from Class VI to Class V.

1.21 The following statement gives the variation of population during the last decade for places which were not treated as towns in 1971 but have been treated as such in 1981 by size-class.

STATEMENT 6

Percentage Variation of Population 1971– 1981 of places which were not treated as Towns in 1971 but treated as such in 1981 Classified by Size Class

Class	Number of Towns	Population in 1971	Population in 1981	Percentage variation in 1981 population over 1971 i.e. $\frac{1981-1971}{1971} \times 100$
1	2	3	4	5
UTTAR PRADESH	**382**	**2,237,517**	**3,231,747**	**44.43**
Class– I	..	..	..	..
Class - II	..	..	..	..
Class—III	5	71,156	124,580	74·98
Class– IV	108	963,656	1,420,140	47·37
Class—V	195	967,093	1,415,515	46·37
Class—VI	74	235,572	271,512	15·26

1.22 Of the 382 new towns added in 1981, 5 belonged to Class III, 108 to Class IV, 195 to Class V and 74 to Class VI. The maximum variations in the population of these towns during the last decade was in Class III which registered an increase of 74.98 percent.

1.23 The following statement gives the variation in the population of towns of 1971 which were not treated as such in 1981.

STATEMENT 7

Percentage variation of population 1971—1981 of places treated as towns in 1971 but removed from the list of towns in 1981 classified by size class

Class	Number of towns	Population in 1971	Populaton in 1981	Percentage variation in 1981 population over 1971 i.e. $\frac{1981-1971}{1971} \times 100$
1	2	3	4	5
Class—VI	1 (Rasulpur Dhulri)	4,944	6,511	51·69
	1 (Markundi)	1,312	2,928	123·17
	2	6,256	9,439	50·88

1.24 Rasulpur Dhulri of Meerut and Markundi of Mirzapur were the only two towns of 1971 which were declassified in 1981 since these did not satisfy the necessary conditions for urban areas. The population of these two towns of 1971 registered an increase of 50.88 per cent over 1971. Individually the population of these two places has registered an increase of 31.69 and 123.17 per cent respectively.

1.25 The following statement gives the Class-wise number of towns from 1901 to 1981.

STATEMENT 8

Number of towns of each class during 1901—1981 (and Urban Agglomeration has been classified according to total population)

State	1981	1971	1961	1951	1941	1931	1921	1911	1901
UTTAR PRADESH									
All Classes	**659**	**293**	**244**	**463**	**434**	**432**	**444**	**420**	**458**

TABLE A-4—TOWNS AND URBAN AGGLOMERATIONS CLASSIFIED BY POPULATION IN 1981 WITH VARIATIONS SINCE 1901

Provides population for all the independent towns and urban agglomerations with their constituent towns/units by sex since 1901 and decadal variations. The urban agglomerations/towns are arranged in descending order of their 1981 population under six population size classes viz., I—100,000 and above; II—50,000 to 99,999; III—20,000 to 49,999; IV—10,000 to 19,999; V—5,000 to 9,999 and VI—less than 5,000. It also gives the status and area of each unit.

The table is followed by four appendices :

Appendix 1 : New towns added in 1981 and towns of 1971 declassified in 1981.

Appendix 2 : Places with population of under 5,000 classified as towns for the first time in 1981.

Appendix 3 : Places with a Population of under 5,000 in 1971 which were towns in 1971 but have been declassified in 1981.

Appendix 4 : Changes between 1971 and 1981 in area and population of towns and reasons for change in area.

TABLE A-4

Towns and Urban Agglomerations Classified by Population in 1981 with Variation since, 1901

Class—I 100,000 and above
Class—II 50,000—99,999
Class—III 20,000—49,999
Class—IV 10,000—19,999
Class—V 5,000— 9,999
Class—VI Less than 5,000

£ Railway Colonies with a papulation of 4,191 (M-2,533, F-16,58) formed part of Bareilly M.B. in 1951. In 1961 Railway Colonies of 1951 were split up into (i) Northern Railway Colony and (ii) Izatnagar Railway Colony. As separate population for these two units is not available for 1951 the total of these two units has been shown against the town "Bareilly M.B. and Northern Railway Colony".

†The extent of adjustements made in the successive Censuses will appear from the following table in which col. 3 shows the figures recorded in Census tables of the particular year mentioned in Col. No. 2 and Cols. 4 to 11 shows the figures as adjusted in the years mentioned in each:—

Name of town	Year	Population recorded for the year	Adjustments made in

§In 1981 Kaila town of 1971 Census has been merged in Ghaziabad M.B. with a population of 9,333 (M-5,565; F-4,028) in 1971

**Ghaziabad Railway Colony was part of Ghaziabad M.B. in 1951 and 1961 and since 1971 it is appearing as an independent town.

‡Garhia Phatak N.A. with a population of 5, 918 (M-3, 245, F-2, 673) in 1911; P-8,429 (M-4, 618. F-3.811) in 1921 and P-16,400 (M-9,158 F-7,242) in 1931 split up into (i) Jhansi N.A. and (ii) Jhansi Rly. Settlement N.A. in 1941. There after, Jhansi N.A. merged with Jhansi M.B. in 1951 while Jhansi Rly. Settlement N.A. is still in existence. The break up of 1941 population of Garhia Phatak N.A. between the two split portions being not available, the whole population of Garhia Phatak from 1911 to 1931 is included in Jhansi Urban Agglomeration and in 1941, Jhansi N.A.'s population P-12,525 (M-6,579, F-5,946) has been combined with Jhansi M.B.

@From 1901 to 1921 Jhansi Cantonment having a population of 7,843 (M-5, 237, F-2, 606) in 1901; P-11,972 (M-8,180, F-3,792) in 1911 and P-12,047 (M-8,812, F-3,235) in 1921 being part of Jhansi M.B. has been combined with Jhansi M.B.

£Separate figures of 1951 are not available as form a part of Devprayag N.A.

FOOT NOTES :1. Towns treated as such for the first time in 1961 Census which continue in 1971 Census are shown with asterisk (*) on the left.

2. Towns treated as such for the first time in 1971 are printed in *states*.

3. The following abbreviations have been used for the status of towns.
Municipal Corporation M.C. Notified Area—N.A.
Municipal Board M.B. Town Area—T.A.
Contonment Cantt

4. The total area of all towns (under all Classes) comes to 4560.04 Km² in table 1-4 where as the total area given in table A-1 is 4560.4 Km². The difference of 0.36 Km² is due to the fact that the area shown in table A-1 has been arrived by adding the urban area of each town within a tahsil and rounding the same upto on place of decimal.

5. N.A. in Colum 6 stands for not available.
'N' Stands for negligible.

3-L/B(D)196DCO(UP)—21

TABLE A-4 — Towns and Urban Agglomeration Classified by Population in 1981 with variation since 1901

TABLE A—5 : STANDARD URBAN AREA

FLY LEAF

Apart from providing various Census data in respect of administrative units like states districts, villages and towns, the Census Organisation has been endeavouring to tabulate and present Census Statistics, on certain well defined areas, delineated on the basis of available physical and demographic characteristics, in response to evergrowing demands of planners, administrators, scholars and others.

The concept of town group of 1961 Census was one such attempt in this direction to provide suitable data in urbanisation trends. The town group comprised independent urban units not necessarily contiguous to one another but interdependent on each other to some extent. However, experience showed that the concept of town group had somewhat limited relevance as a town group became incomparable from one census to another owing to changes in the boundaries of constituent towns and intermediate areas. The delineation of town groups could also not always be done in a uniform manner in all the States and Union Territories for various reasons.

For preparing the master plans for cities and towns and for perspective planning also the Town Planners were finding it difficult to assemble Census data for the urbanisable areas around the urban cantres and the concept of town group and the census statistics thereon were not found of much help.

The Census Organisation was also seized of this problem and contemplated replacing the concept of town group by a more suitable concept which could form the basis of a constant statistical spatial reporting unit to serve the needs of preparation of master plans for cities or towns and for helping in urban development planning. It was rather fortuitous that the International Geographical Conference held its deliberations in New Delhi in 1969 and emphasised the desirability of evolving a suitable concept which would ensure comparability over space and time and help in urban planning. This led to the evolution of the concept of standard urban areas which was developed and refined in a series of meetings involving the Ministry of Works and Housing, Town and Country Planning Organisation and the Office of the Registrar General, India. Thus, for 1971 Census the concept of town group was given up and in its place two concepts were evolved, viz., the concept of urban agglomeration and the concept of standard urban area.

The urban agglomeration represents a continuous urban spread constituting a town and its adjoining urban outgrowths or two or more physically contiguous towns together with contiguous well recognised urban outgrowths, which may actually fall within the revenue limits of a village or villages. These 'urbanised' villages or outgrowths deserved to be reckoned alongwith the town to confirm to the contiguous urban spread. The urban agglomeration thus represents a spatial urban spread at a given time. The standard urban area, on the other hand, is the projected growth area of a city or town as it may be in 1991 taking into account not only the towns and villages which are expected to get marged with it but also the intervening rural areas which are potentially urban.

The characteristic features of a standard urban area are that it should have (i) a core town of a minimum population of 50,000; (ii) contiguous areas made up of other urban as well as rural administrative units having close mutual socio-economic linkages with the core town; and (iii) all likelihood of the entire area getting urbanised within a period of 2-3 decades. The standard urban area is normally identified with respect to the administrative units such as cities, towns or villages encompassed by it and its boundaries remain coterminus with the administrative boundaries of the peripheral units.

Keeping in view the physical constraints like rivers, hills, lack of communication channels etc. all extra municipal growths such as suburbs (industrial and residential), railway colonies, civil lines, cantonments and rural areas which are likely to be urbanised by 1991 are covered under S.U.A. Like the urban agglomeration the standard urban area is also an areal unit but it extends beyond the main city or town limit—municipal or otherwise, subsuming even the urban agglomerations. Each standard urban area would serve the role of constant statistical reporting unit for three censuses, viz., 1971, 1981 and 1991 irrespective of the change in the local administrative boundaries of component units. In fact, the urban agglomeration gives the urban spread of to-day while the standard urban area gives the picture of probable urban spread of tomorrow.

The task of delineation of standard urban area was completed before the actual enumeration of 1971 Census on the basis of population projections of towns based on 1961 Census figures. There were in all 304 standard urban areas in the country with 41 in Uttar Pradesh. The decision to subsequently delineate 28 fresh standard urban areas (of which 2 are in Uttar Pradesh) was taken before the 1981 Census in consultation with the Town and Country Planning Organisation in respect of only those core towns which had exceeded a population of 50,000 or more on the basis of actual census enumeration of 1971 and which also satisfied the other essential features relevant for delineation of a standard urban area.

Table A—5 provides for standard urban areas and their rural and urban components the area, density, number of occupied residential houses, number of households and the population by sex for 1981 and also the population of 1961 and 1971 censuses. This table also gives the houseless and institutional households and their population in such areas. The table thus shows the population growth of the Standard Urban Areas for the two decades from 1961. Population figures for 1961 and 1971 Census for the component units are according to the jurisdictions as existing at the time of that particular census. In case a rural component merged with an urban component of the standard urban area or formed a separate urban component in the standard urban area, its population has been merged with that particular component or shown separately under urban group. In case of merger of two urban components, their population has also been added up. No existing urban component of standard urban areas of 1971 got declassified as rural in 1981 in this state. Changes, if any, in the jurisdiction of the standard urban area have been indicated in the foot notes to each standard urban area where necessary.

The following abbreviations are used to denote the civic status of towns.

M. C.—Municipal Corporation.
M. B.—Municipal Board.
Cantt.—Cantonment.
N. A.—Notified Area.
T. A.—Town Area.
C. T.—Cansus Town.
O. G.—Outgrowth.

In all 43 standard urban areas have been formed in the State. Of these 41 standard urban areas existed at the time of 1971 Census and two namely, Fatehpur and Banda have been delineated for the first time in 1981 Census. A list of these standard urban areas alongwith their basic data is given in the table below.

STATEMENT 1

Standard Urban Area and growth rate of population of the core town

Name of the Standard Urban Area	District	Area in Km²	Population 1981	Particulars of the core town			Population 1971
				Name	Population 1981	Percentage of growth rate 1971—1981

Component or shown separately under urban group. In case of merger of two urban components, their population has also been added up.

The reasons for changes indentified at the 1981 Census *vis a-vis* 1971 position have been as follows.

A. Annexation of village(s) wholly/partly from within the standard urban area to one of the urban components.

B. Merger of outgrowth(s)/any other urban component with another urban component.

C. Formation of new town(s)/outgrowth(s) in 1981 Census from among the rural components of the standard urban area.

D. Changes in the delineation of village bounderies in tehsil maps during 1981 as compared to 1971.

The following table lists the changes in the standard urban areas which have taken places during the last decade.

STATEMENT 2

Changes in the Boundaries of the Standard Urban Area during 1971-81

Name of Standard Urban Area.	Urban Component Added	Rural Component of 1971 Treated as Urban in 1981
1	2	3
1. Dehra Dun		(*i*) Adhoiwala treated as an outgrowth. (*ii*) Raipur and Majhra villages treated as Census Town.
2. Saharanpur		Villages Kadarpur Muafi, Sarkh Sheikpary, Sambhalba Zunardar and Chak Sarai Bharti Chand were left out of 1971 standdard urban area. These villages included in 1981 standard urban area.
3. Meerut	Malyana C.T. merged partly in Meerut M.B.	(*i*) Abdullahpur T.A. a new town. (*ii*) Baksar Khera T.A. treated as a new town. (*iii*) Village Mustafabad Bukharpur merged in Kanker Khera T.A (*iv*) Villages Mohkampur, Hafizabad Meola, Meerut Abad Janglat, Aurang Shahpur Diggi, District Jail and Nagla Battu Yadgarpur have been wholly merged in Meerut M.B. (*v*) Villages Nagla Tashi Qasimpur, Khurrampur and Danta have been partly merged in Kanker Khera T.A. (*vi*) Villages Kharoli, Rampur Paoti, Ghosipur, Kazipur, Sarai Qazi, Kamalpur, Rithoni, Budhera Zahidpur, Datauli Gasupur, Raisana have been partly merged in Meerut M.B. (*vii*) Village Abdullahapur Rural have been partly merged in Abdullahpur T.A. and village Kaserupur Baksar partly merged in Baksar Khera T.A.
4. Ghaziabad	Loni C.T. merged in Ghaziabad M.B.	(*i*) Loni village have been partly merged in Loni T.A. (*ii*) Villages Chak Ambarpur, Karkar Mandon, Mahrajpur, Mavil Mirzapur, Nurnagar and Dhargal have been wholly merged in Ghaziabad M.B. (*iii*) Dharauti Khurd have been partly merged, in Loni T.A. (*iv*) Villages Pasonda, Jhandapur, Sahibabad, Arthla, Pahladpur Garhi, Hasanpur, Bhuwanpur, Makanpur, Chajnari Rajpur, Shahpur Samita and Mahrali are partly merged in Ghaziabad M.B.
5. Hapur		(*i*) Villages Chamri, Hapur rural, Dayami and Assura partly merged in Hapur M.B. (*ii*) Villages Babugarh, (T.A.)State Mechanised Farm, Babugarh and Central Potato Farm Babugarh are fully merged in Babugarh T.A
6. Modinagar		Village Bagumabad treated as Bagumabad Budhana Census Town.
7. Bulandshahr		Villages Maukhera, Bhor, Bahlimpur, Chandpura, Walipura Bulandshahr Rural, Ramptra, Tanda and Hirapur are partly merged in Bulandshahr M.B.
8. Khurja		Village Code No. 172 is bifurcated into two portions situated separately with separate names in 1981. During 1971 Code No. of this village was 174 and 179 for each segment separately.

STATEMENT 2—*Contd.*

1	2	3
9. Amroha		Village Amroha Dehat is partly merged in Amroha M.B.
10. Sambhal		Village Takhat Gushai and Azizpur Asadpur are partly merged in Sambhal M.B.
11. Rampur		(*i*) Villages Hazaratpur, Saijni Nankar, Panwaria, Bamanpuri and Ajitpur are partly merged in Rampur M.B. (*ii*) Village Shadi Nagar is wholly merged in Rampur M.B.
12. Bareilly		(*i*) Village Synthetics and Chemical is wholly merged in Fatehganj West T.A. (*ii*) Villages Clutterbuckganj and Khalilpur wholly merged in Clutter Buckganj T.A. (*iii*) Villages Nekpur and Central Jail are wholly merged in Bareilly M.B. (*iv*) Village Bithaura Naugawan partly merged in Fatehganj West T.A. (*v*) Village Jasoli Mustaqil, Sarai Teeli Ahtmali, Jasoli Ahtmal Maheshpur, Attasia, Newada Jogiyana, Jagatpur Lala Begum Nawada Sheikhan, Sukha Chhasni and Udaipur Khas, are partly merged in Bareilly M.B. (*vi*) Village Rithaura is partly merged in Rithaura T.A. (*vii*) Village Thiriya Nizamat Khan is partly merged in Thiriya Nizamat Khan T.A. (*viii*) Village Budhaulia partly merged in Clutterbuckganj T.A. (*ix*) Villages Mirzai and Saplehnaapur Newadia have been added in 1981 having been left out in 1971. (*x*) Village Bahrampur Nagla is partly included in I.V.R.I. Colony O.G. (*xi*) Village Newada Jogiyana partly included in Newada jogiyana O.G.
13. Shahjahanpur		(*i*) Village Lodhipur treated O.G. (*ii*) Villages Satwan Buzurg, Chak Maroof and Chinar are partly merged in Shahjahanpur Cantt. (*iii*) Villages Azizganj, Shahr Khas Muhal, Newada Indepur and Mandha are partly merged in Shahjahanpur M.B.
14. Aligarh		Villages Jamalpur Muafi, Bhamala Muafi, Begumpur Kanjauli, Kishanpur, Kukari Khera *urf* Naurangi, Pala-Shahibabad and Mullahpura Bhujpura are wholly merged in Aligarh M.B.
15. Hathras		Villages Jogia, Hatisha Bhagwantpur, Nehroi, Kalwari, Girjauli Terphara and Hathras (Rural) are partly merged in Hathras M.B.
16. Firozabad		Villages Sukhmalpur Nizamabad and Datauji have been treated Census Towns, in 1981.
17. Farrukhabad		Villages Stanpur, Bholepur, Nekpur Kalan and Kharabandi Nagla Wazir are partly merged in Farrukhabad M.B. and villages Chaurasi Rly. colony and Allahnagar are wholly merged in Farrukhabad M.B.
8. Kanpur	I.I.T. Kanpur merged in Kanpur M.C.	Villages Navaman Bangar and Purwe Nanbari wholly merged in Kanpur M.C.
19. Allahabad		(*i*) Part of village Jhusi Khas merged in Jhusi T.A. which is treated as town in 1981. (*ii*) Village chak Mohammad Waris has been merged in village Beohra. (*iii*) Village Bamrauli Uparhar (Chail Tahsil) and village Gopal Patti (Phulpur tahsil) added in the 1981 standard urban area frame having been left out in 1971.

STATEMENT 2—*Concld.*

1	2	3
20. Lucknow		(*i*) Village Bastauli and Ghazipur Saidunnisan wholly merged in Ramsagar Misra Nagar O.G.
		(*ii*) Ismailganj and Ujaryan partly merged in Ramsagar Misra Nagar O.G.
		(*iii*) Villages Behsa, Alinagar Sanahra partly merged in Hindnagar and P.A.C. Area O.G.
		(*iv*) Villages Mohibullahpur, Usmanpur and Bathna Salsul partly merged in Aliganj Extension O.G.
21. Bahraich		Villages Bahraich rural, Meerpur Singhaspasan, Bakshipura, Amirpura Nagram and Chhawani Sarkar are partly merged in Bahraich M.B.
22. Faizabad	Faizabad-*cum*-Ayodhya M.B. of 1971 has since split up into two towns of Faizabad M.B. and Ayodhya M.B.	
23. Gorakhpur		(*i*) Village Fertilizer Factory wholly merged in Gorakhpur Fertilizer.
		(*ii*) Village Basharatpur, Jatepur Uttari and Humayunpur Uttari treated as outgrowth.
		(*iii*) Villages Jl. Beni Madho No. 1 and Jl. Beni Madho No. 2 partly merged in Gorakhpur Fertilizer.
		(*iv*) Village Bhilampur urf Beagwanpur omitted in 1981 having wrongly included in standard urban area in 1971.
24. Jaunpur		Villages Jagdishpur, Chitarsari, Dhannupur, Besahupur and Haiderpur have been newly added in 1981 standard urban area.
25. Varanasi		(*i*) Village Chitharya (730) Varanasi Tahsil has been included in 1981 having been left out in 1971.
		(*ii*) Villages Rasulgarh, Sandaha, Chhataripur, Hatia, Taranag Hasimpur, Majhbhitiya, Chitharya, Kadipur, Bhikharipur Kalan, Bhikharipur Khurd, Karkar Mutta, Chhittupur, of Varanasi Tahsil are partly merged in Varanasi M.C.
		(*iii*) Villages Kotwa and Phulwaria (Varanasi Tahsil) treated census town and villages Bachupur, Pahtara, Lakhamipur, Orhwar, Chirh, Beehupur, Koorh Kalan, Taranpur.
		(*iv*) Parasrampur, Mawai Khurd, Chandasi, Parahupur, Mahmoodpur, Gidhauli and Jagdishpur (Chandauli Tahsil) wholly merged in Mughalsarai M.B.
		(*v*) Village Moghal Chak (Chandauli Tahsil) partly included in Mughal Sarai M.B.
		(*vi*) Villages Ashapur, Sheodaspur, Karaundi, Tulsipur and Maruadih treated O.Gs.

It would be seen from the above statement that in case of Saharanpur, Jaunpur, Gorakhpur, Bareilly and Varanasi new villages have been added to the respective Standard Urban Area. In fact these villages were left out of the S.U.A. frame in the 1971 Census due to incorrect delineation of village boundaries.

The following statement shows the changes in constituent units of urban components alongwith the reasons for the changes :—

STATEMENT—3

Changes in the urban components of the Standard Urban Area alongwith the reasons for the change.

Name of Standard Urban Area	URBAN COMPONENTS IN 1971			URBAN COMPONENTS IN 1981			Nature and reason of change between 1971–81
	Name and Status	Area	Population	Name and Status	Area	Population	
1	2	3	4	5	6	7	8

	***A rural component of 1971 Census have been formed Census Town in 1981 Census.**						

It is seen from Table A-5 that during the decade 1961—1971 there was a growth of 27.22 per cent in the population of all the standard urban areas, as against a growth of 32.84 per cent during 1971—1981 which shows an increase of more than 5 points. A comparison of area, houseless population and institutional population of the Standard Urban Area (SUA) for 1971 and 1981 given below provides an interesting study.

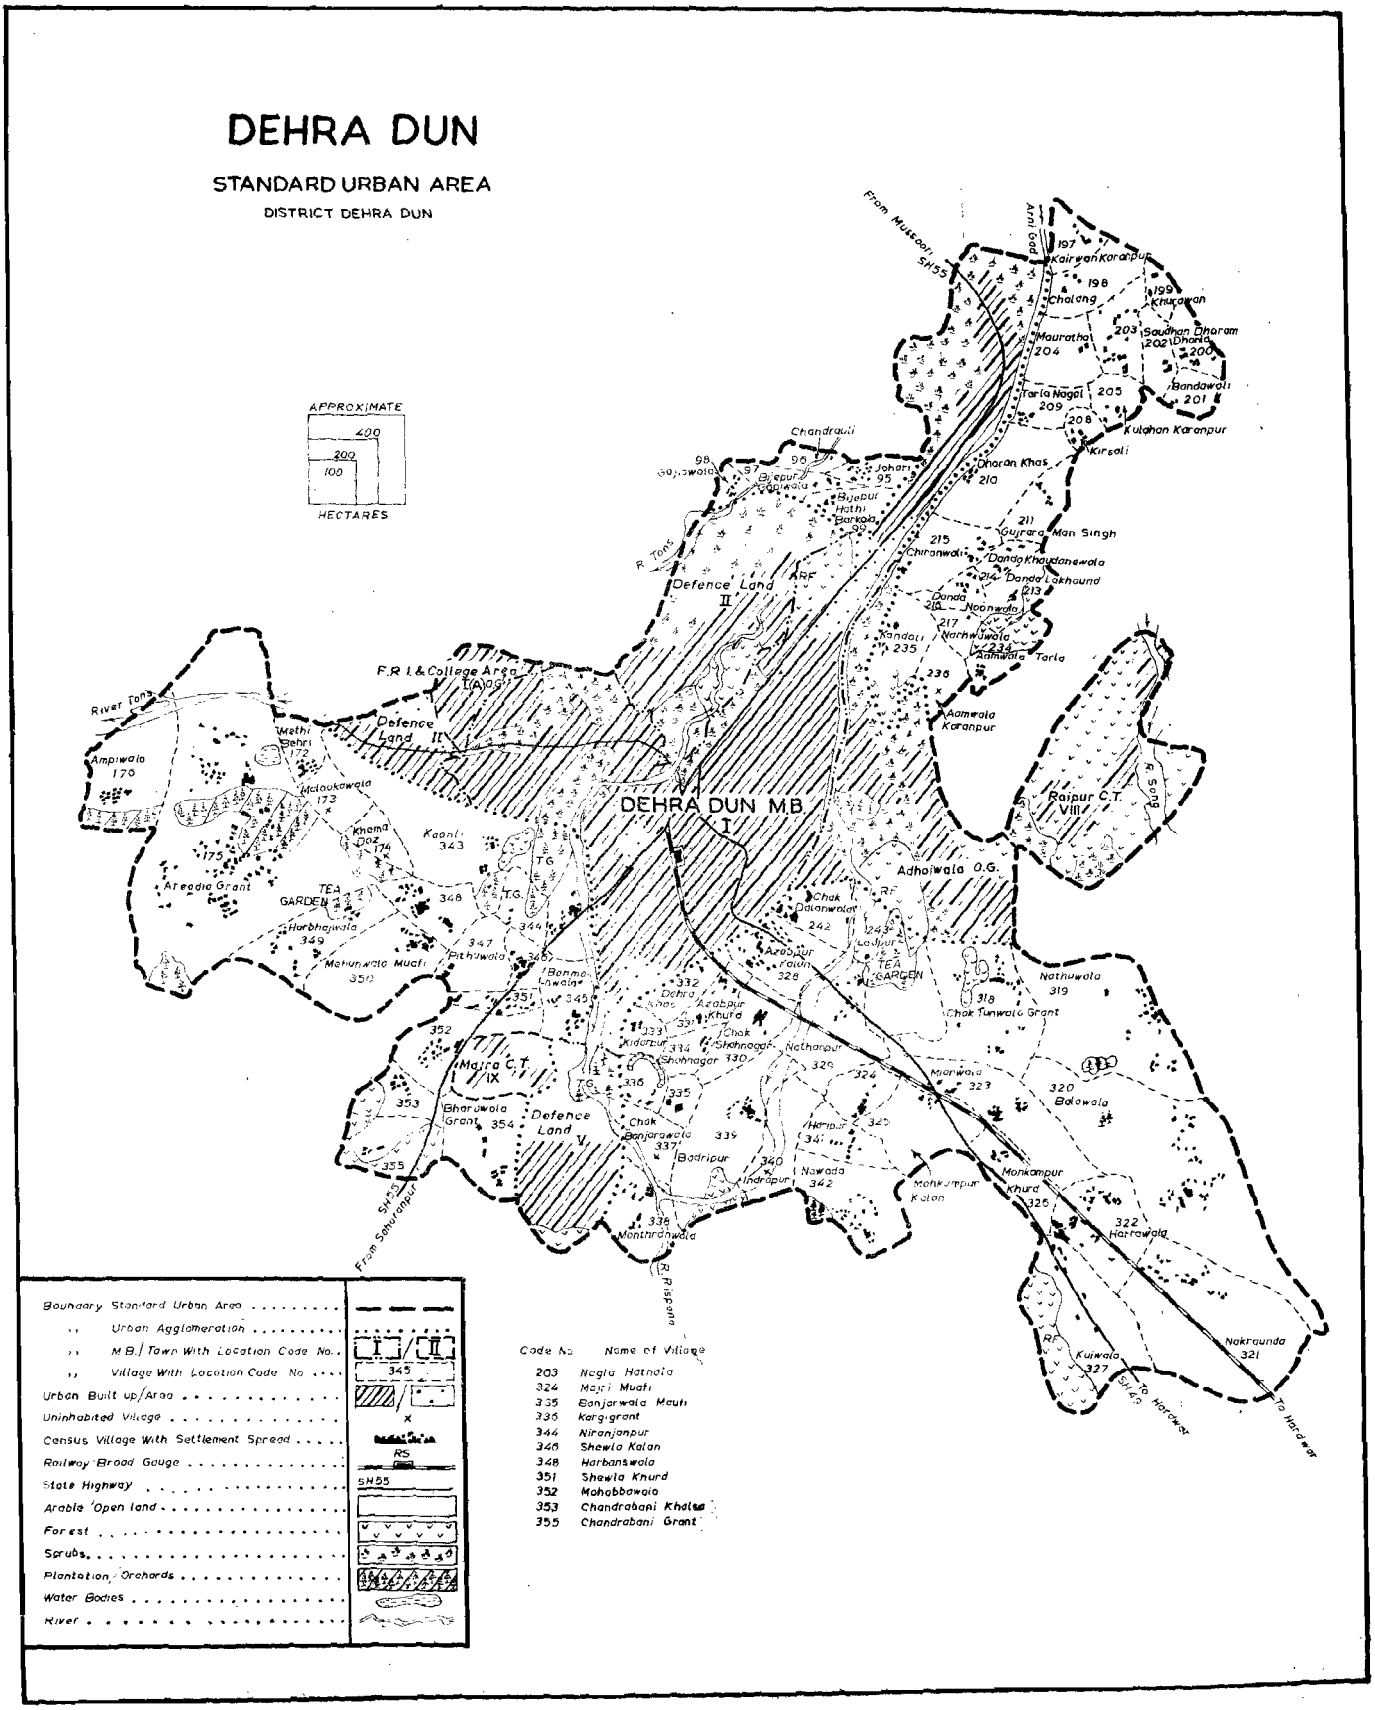

Year	Area in Km²			Houseless Households		Institutional Households	
	Total	Urban	Rural	No. of households	Persons	No. of households	Persons
1	2	3	4	5	6	7	8
1971	5,597.51	1,548.52	4,048.99	4,254	10,501	7,304	121,621
1981	5,882.15	1,810.02	4,072.13	12,581	36,657	7,392	174,778

It will be observed that the rural component of the standard urban areas has gone up very slightly in 1981 as compared to 1971 despite an increase in the urban component. This is because of revised computation of area figures of rural areas by revenue authorities. At the same time, the growth in the urban area is not quite substantial (about 16.9 per cent). The number of houseless persons per household has increased from 2.47 in 1971 to 2.93 in 1981 and there has been an increase of 349.1 per cent in the houseless population in the Standard Urban Areas. Similarly there has been an increase of 43.69 per cent in the institutional population in the Standard Urban Areas of the state. However, the increase in the rural area has only been a marginal 0.1 percent which shows that the growth rate in urban area is basically due to internal growth rate of core towns which may have some content of immigration also. With such a small growth rate in the Standard Urban Areas it is highly improbable that the whole or even a major part of the Standard Urban Areas will get urbanised by 1991.

DEHRA DUN

STANDARD URBAN AREA

DISTRICT DEHRA DUN

Code No.	Name of Village
203	Nagla Hatnala

1. Dehra Dun

Located in the Doon valley Dehra Dun M.B. with a population of 211,416 is a Class I city, a status it has enjoyed since 1951 Census. The population of the town has registered a growth rate of 27.30 per cent during the last decade as against 30.85 per cent, during 1961—71. The town has importnat institutions like the Forest Research Institute, the Photo Interpretation Institute, the Petroleum Research Institute, the Indian Military Academy, Oil and Natural Gas Commission and the Surveyor General of India.

Dehra Dun Urban Agglomeration consists of Dehra Dun M. B., Forest Research Institute and College Area (O.G.) and Adhoiwala (O.G.), Dehra Dun Cantonment, Clement Town and Raipur (C.T.). The S. U. A. of Dehra Dun further includes Majra (C.T.) and 71 neighbouring villages of Dehra Dun tahsil. Adhoiwala has been treated as an outgrowth and Raipur and Majra as Census Towns for the first time in 1981 Census. The Standard Urban Area is spread over an area of 211.63 square kilometres and has a population density of 1,727 persons per square kilometre. The core town has tended to grow towards south, south-west and south-east directions. Physiographic conditions restrict the growth of the town towards north. The following table gives some important demographic features of the Standard Urban Area by its rural and urban components separately.

Standard Urban Area, Dehra Dun

Unit	Total population 1981	Density per km²	Growth rate 1971-81	Literacy (per cent)	Sex ratio	Work participation rate (per cent)	Percentage of workers in household industry & other workers	Scheduled castes		Scheduled tribes

2. **Haldwani-*cum*-Kathgodam**

Haldwani-*cum*-Kathgodam M.B. a town of Nainital District with a population of 77,300 in 1981 Census is a Class II town, a status it acquired in 1971. It is situated on the west bank of river Gola. The town is the gate-way to the picturesque Kumaun hills. It is also the terminus of the metre gauge railway line. The population of the town registered a growth rate of 48.97 percent during 1971—81 as against 37.27 per cent during 1961—71. The Hindustan Machine comprises of 11 surrounding villages besides the town Tools Factory, Lime Industries and Katha Factory are located in the town.

The town is served by Bareilly-Nainital road Haldwani-Rampur-Moradabad road and a metre gauge railway line. It has tended to grow along this channel of communication. The town has grown towards south, west and to a limited extent towards the northern direction. River Gola in the east and the Kumaun Hills in the north are the physical constraints to the growth of the town in these two directions.

Haldwani-*cum*-Kathgodam Standard Urban Area comprises of 11 surrounding villages besides the town of Haldwani-*cum*-Kathgodam. The total population of the Standard Urban Area as per the 1981 Census is 88,450 persons inhabiting an area of 26.56 square kilometre giving a density of 3,330 persons per square kilometre. The following table provides some of the basic demographic statistics of the Standard Urban Area by its rural and urban components separately.

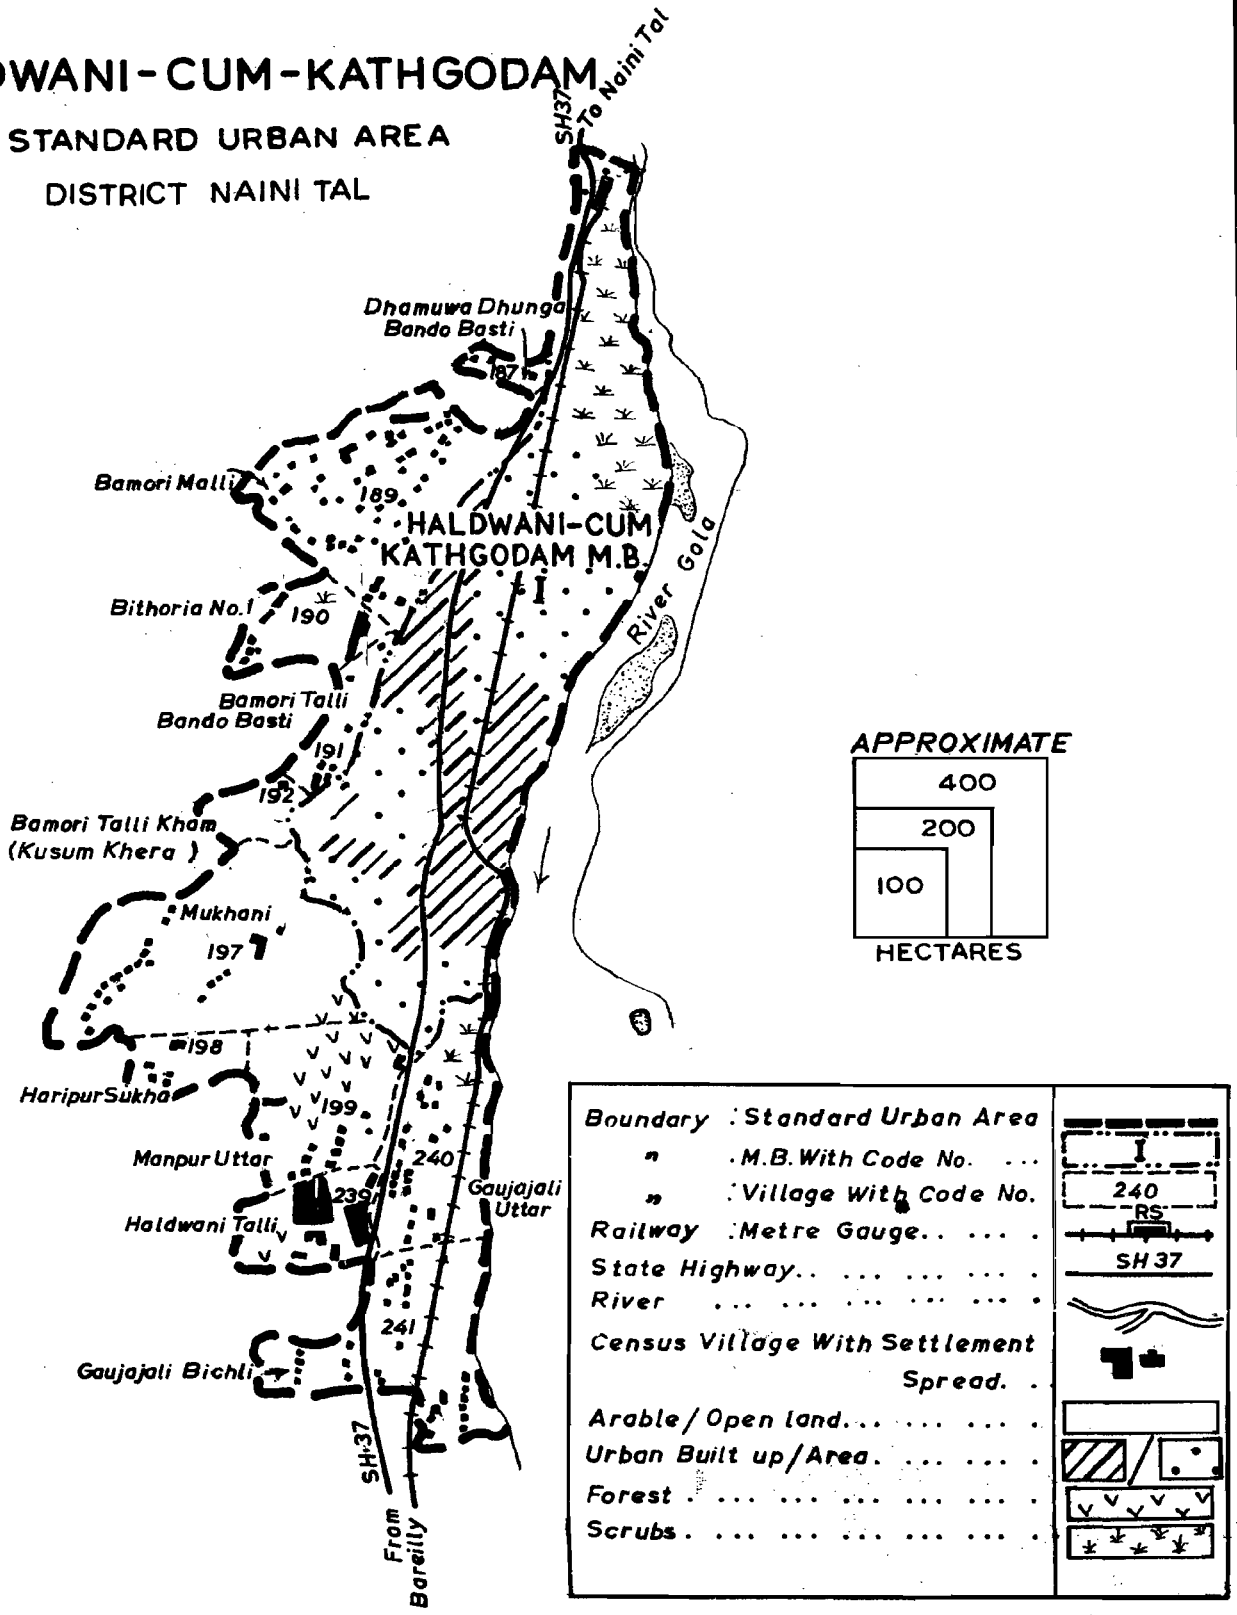

Standard Urban Area, Haldwani-cum-Kathgodam

HALDWANI-CUM-KATHGODAM

STANDARD URBAN AREA

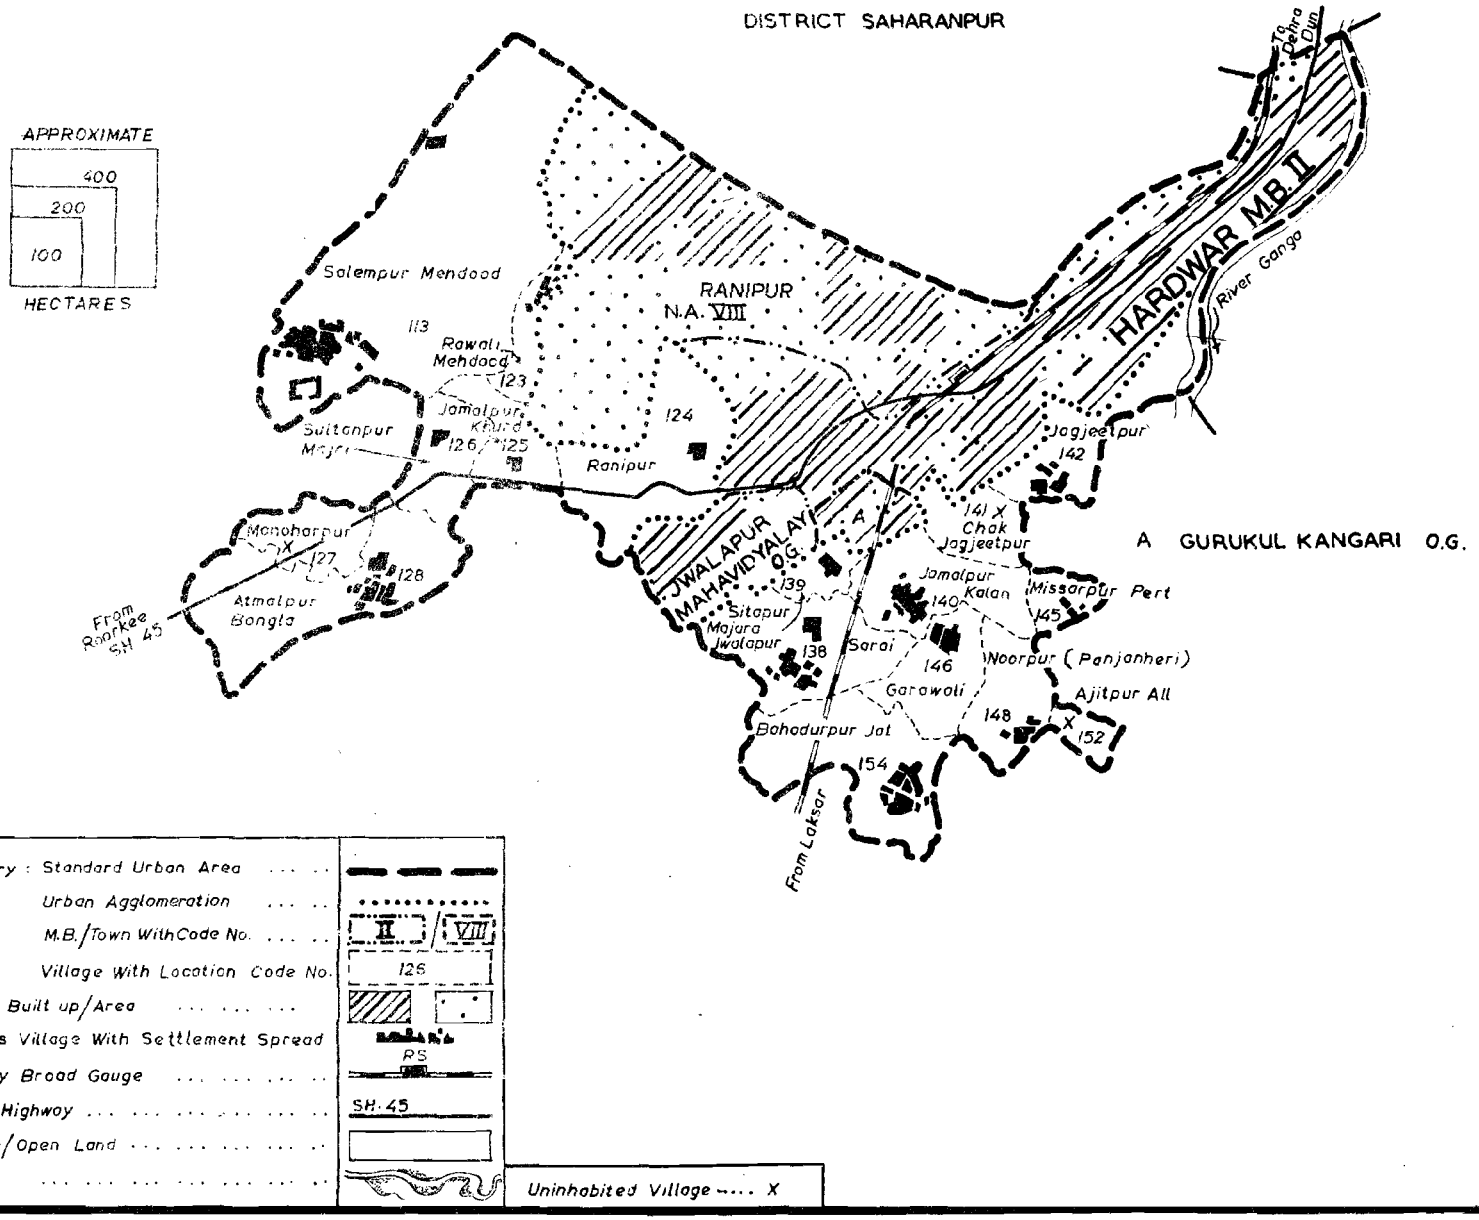

DISTRICT NAINI TAL

HARDWAR

STANDARD URBAN AREA

DISTRICT SAHARANPUR

3. Hardwar

Hardwar M.B. with a population of 114,189 in 1981 is a city (Class I town). In 1971 it was in Class II The population of the town has increased by 46.64 per cent during 1971—81 as against 33.07 per cent during 1961—71. Being located at the right bank of the sacred river Ganga and from where the river enters the plain, the town has great importance as a centre of Hindu pilgrimage. With the location of Bharat Heavy Electricals Limited, a public sector undertaking in the proximity of the town, Hardwar has gained industrial importance too.

Hardwar Standard Urban Area consists of Hardwar Urban Agglomeration comprising Hardwar M. B. alongwith Gurukul Kangri O.G. and Jwalapur Mahavidyalaya O.G. and Bharat Heavy Electricals Limited, Ranipur N.A. and 17 adjoining villages of tahsil Roorkee of district Saharanpur. The population of the Standard Urban Area is 178,693 persons inhabiting an area of 117.05 square kilometres and with a density of 1,527 persons per square kilometre. The core town has tended to grow towards south and west along the Roorkee-Dehra Dun road. The River Ganga in the east and the Siwalik hills in the north restrict the growth of the town in these directions. The following table gives some basic demographic data of the Standard Urban Area and its rural and urban components.

Standard Urban Area, Hardwar

Unit	Total population 1981	Density per km²	Growth rate 1971-81	Literacy (per cent)	Sex ratio	Work participation rate (per cent)	Percentage of workers in household industry & other workers	Scheduled castes		Scheduled tribes

4. Roorkee

Situated in Saharanpur district, Roorkee M.B. has a population of 61,851 and is a Class II town. The rate of growth of population of the town has fallen during the last decade from 41.34 per cent during 1961—71 to 30.05 per cent during 1971—81. Due to the Engineering University located in the town, manufacture of engineering goods and surveying instruments has developed as a cottage industry.

The town has developed largely to the north-west along the Saharanpur road where an industrial area near Ramnagar Camp has come up. The river Solani to the north-east and the defence area to the north restrict the development of the town in these directions.

The Rookee Standard Urban Area comprises Roorkee M.B., Roorkee Cantonment and 21 neighbouring villages of Roorkee tahsil. The Standard Urban Area with a population of 117,989 spread over 59.06 square kilometres has a density of 1998 persons per square kilometre. The following table provides some basic demographic data of the Standard Urban Area and its rural and urban components.

Standard Urban Area, Roorkee

5. Saharanpur

Located in the upper Ganga-Yamuna doab, Saharanpur M.B. has i population of 295.355 in 1981. During the last decade the population of the city has grown at a much fas'er rate of 31.04 per cent as compared to 21.70 per cent in 1961—71. It is a Class I town, a status it has enjoyed since the 1941 Census.

Ambala—Dehra Dun State Highway No. 55 and Shamli—Chakrata State Highway No. 57 pass through the town. The town is also served by rail links with Laksar, Muzaffarnagar and Delhi, all three converging into one leading on to Ambala. The town has tended to grow along these channels of communication towards south, south-west, south-east and north-west directions. The defence area to the east of the town and commercial orchards to the north and north-east have restricted the growth of the town in these directions. Paondher and Dhannola rivers also act as physical constraints to the expansion of the town.

Saharanpur Standard Urban Area comprises Saharanpur M.B. and 57 neighbouring villages and is spread over an area of 112.86 square kilometres. Villages Kadarpur Muafi, Sarkpari Sheikh, Sambhalka Zunardar and Chak Sarai Bharti Chand which were left out of Standard Urban Area frame in 1971 have been included in 1981. The Standard Urban Area with a population of 353,909 has a density of 3,136 persons to a square kilometre. The following table gives data on some basic socio-economic characteristics of the rural and urban components of the Standard Urban Area.

Standard Urban Area, Saharanpur

Unit	Total population 1981	Density per km²	Growth rate 1971-81	Literacy (per cent)	Sex ratio	Work participation rate (per cent)	Percentage of workers in household industry & other workers	Scheduled castes		Scheduled tribes

(ii) Rural Component (57)	58.554	668	31.49	18.37	834	28.64	39.52	23.142	39.52	..	..

6. Muzaffarnagar

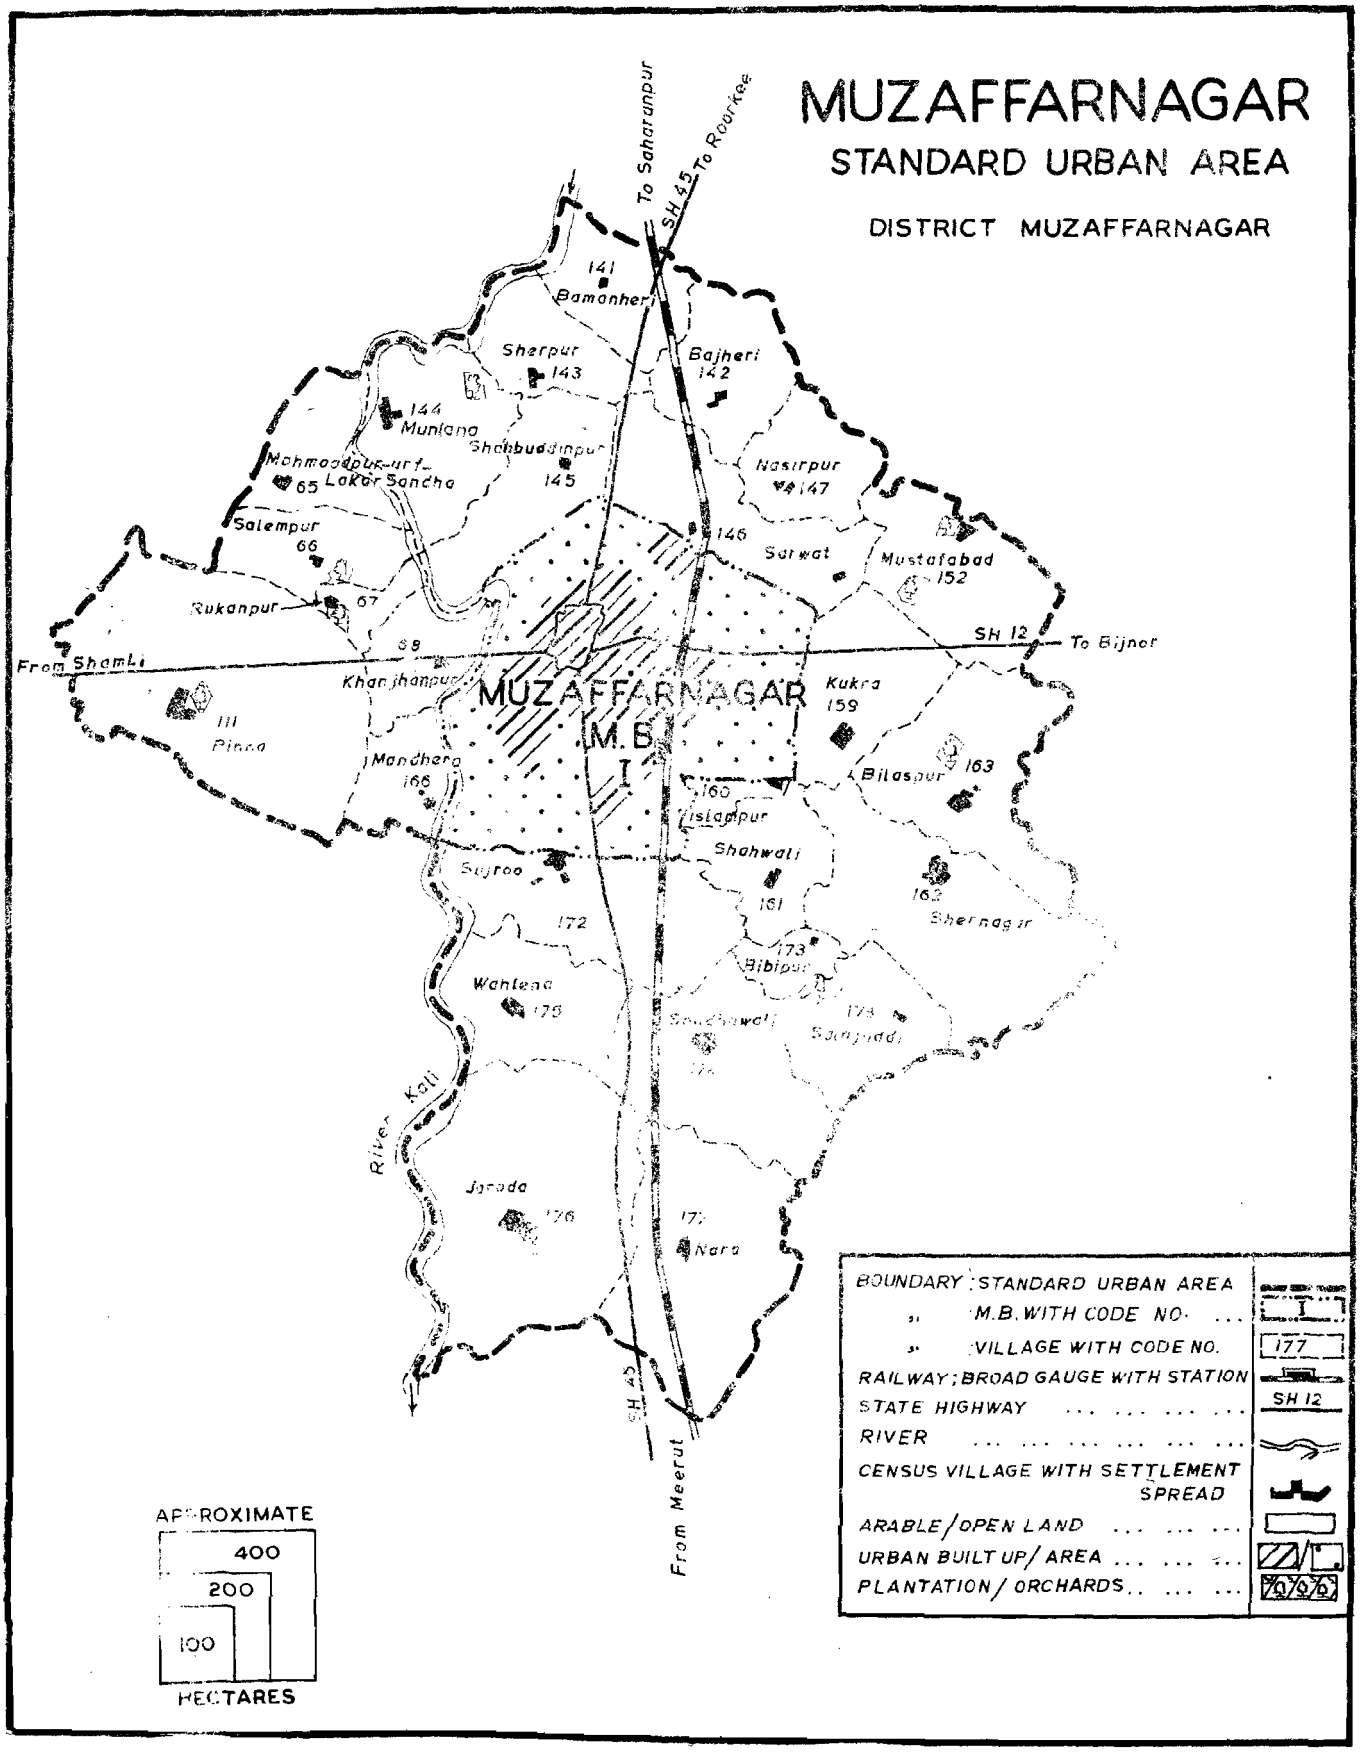

Muzaffarnagar M.B. with a population of 171,816 in 1981 is a Class I city, a status it acquired in 1971. The population of the city has registered a very high growth rate of 49.68 per cent during 1971—81 as against a growth rate of 31.0 per cent during 1961—71. The town is an important *mandi* particularly of food-grains, *gur* and *khandsari*. It also has some engineering industries.

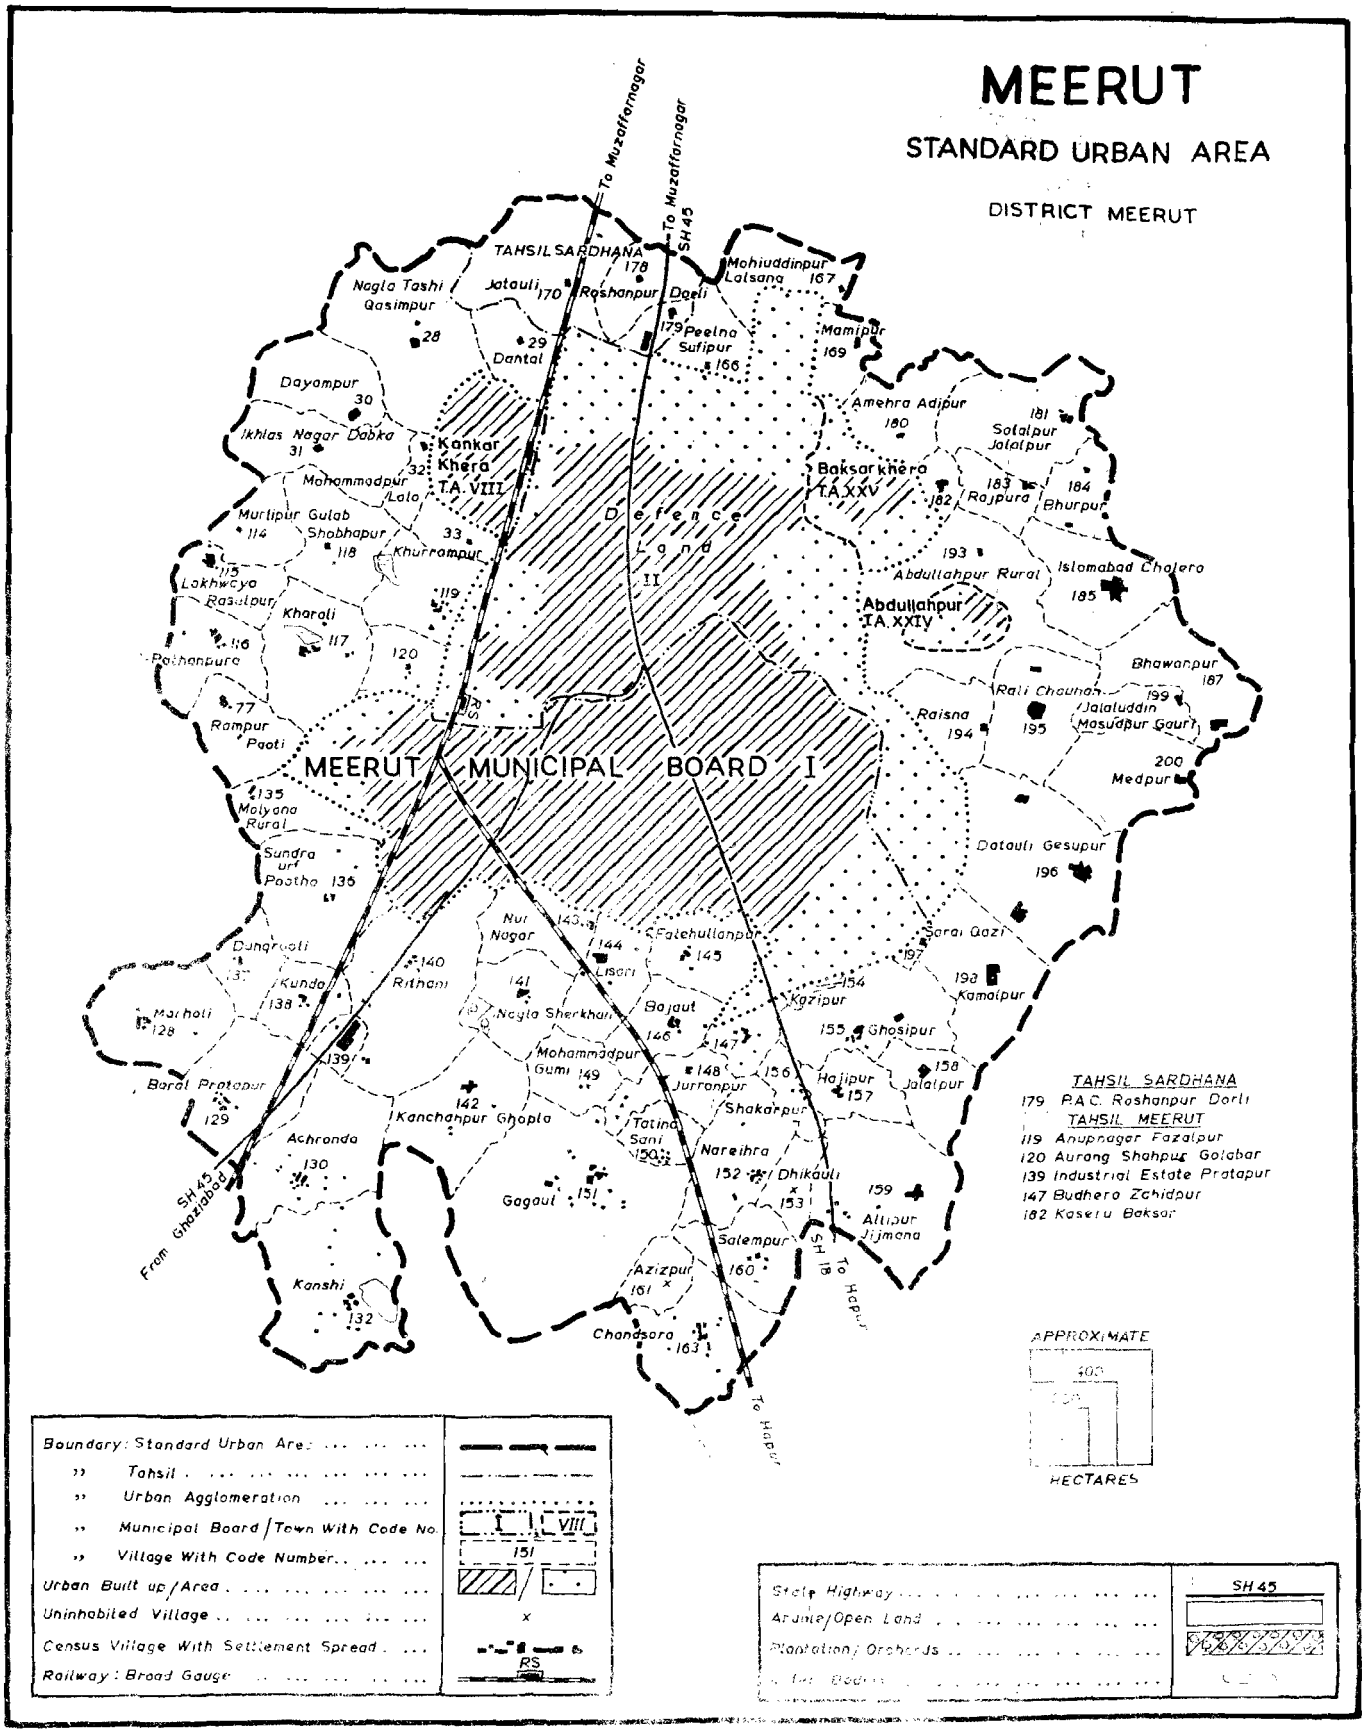

The town is growing in the north, south and eastern directions along the Delhi—Roorkee Highway and Delhi—Saharanpur railway line. Industrial development is taking place between the railway line and the road leading to Meerut. River Kali restricts the growth of the town to the west.

Muzaffarnagar Standard Urban Area consists of Muzaffarnagar M.B. and its 26 surrounding villages. Total population of the Standard Urban Area is 245,646 inhabiting an area of 129.09 square kilometres. The density works out to 1,903 persons per square kilometre. The following table gives the data on some important demographic indicators of the Standard Urban Area.

Standard Urban Area, Muzaffarnagar

7. Meerut

Meerut M.B. with a population of 417,395 in 1981 is a Class I city situated in the middle at Ganga Yamuna doab. It has been a Class I city since 1901 except for 1931 when due to a decrease in population, it became a Class II town. The increase in the population of Meerut during the last decade has been 54.02 per cent as against 35.18 per cent during the preceding decade.

The town has tended to grow towards the south-west on Delhi road, south-east on Garh road south on Hapur road and north on Sardhana road. Kali Nadi to the east of the town and some marshy tracts in the west restrict the growh of the town in these directions. Meerut is an important industrial and commercial centre of western U.P.

The urban component of Meerut Standard Urban Area consists of Meerut M.B., Meerut Cantonment, Kankar Khera T.A., Baksar Khera T.A. and Abdullahpur T.A. while, the rural component consists of 3 villages of Sardhana tahsil and 64 villages of Meerut tahsil. Baksar Khera T.A. and Abdullahpur T.A. have been treated as towns for the first time in 1981. Malyana Census Town of 1971 has since merged in Meerut M.B.

Since 1971, village Mustafabad Bukharpur wholly merged in Kanker Khera T.A. Villages Mohkampur, Hafizabad Meola, Meerut Abad Janglat, Medical College, Aurang Shahpur Diggi, District Jail and Nagla Battu Yadgarpur wholly merged in Meerut M.B. The villages Nagla Tashi, Quasimpur Khurrampur and Dantal partly merged in Kankar Khera T.A., The villages Kharoli, Rampur Paoti, Ghosipur, Kazipur, Sarai Qazi, Kamalpur, Rithoni, Budhera Zahidpur, Datauli Gasupur and Raisna partly merged in Meerut M.B. and village Kaserupur Baksar partly merged in Baksar-Khera T.A. With a population of 662,029, the Standard Urban Area is spread over 268.14 square kilometres. Its density works out to 2,469 persons to a square kilometre. The following table gives some useful demographic and socio-economic indicators of the Standard Urban Area.

Standard Urban Area, Meerut

Unit	Total population 1981	Density per km²	Growth rate 1971-81	Literacy (per cent)	Sex ratio	Work participation rate (per cent)	Percentage of workers in household industry & other workers	Scheduled castes		Scheduled tribes	
								Population	Per cent	Population	Per cent
1	2	3	4	5	6	7	8	9	10	11	12
Standard Urban Area	662,029	2,469	39.64	46.26	844	28.28	87.32	103,757	15.67	63	0.01
(i) Urban Component (5)	542,998	6,587	41.74	49.89	849	28.24	95.39	66,058	12.17	39	0.01
(ii) Rural Component (67)	119,031	641	30.82	29.67	822	28.44	50.76	37,699	31.67	24	0.02

8. Ghaziabad

Ghaziabad M.B. has a population of 271,730 in 1981. Being in close proximity of New Delhi, it has developed more or less as a satellite town of the capital of the country. The population of the town has been increasing at a very rapid rate. In 1951 it was a Class III town. In 1961 it became a Class II town and in 1971 a class I town. Its population during 1961—71 rose by 88.06 per cent. During the last decade the growth rate has further risen to 128.66 percent with its population more than doubling it self.

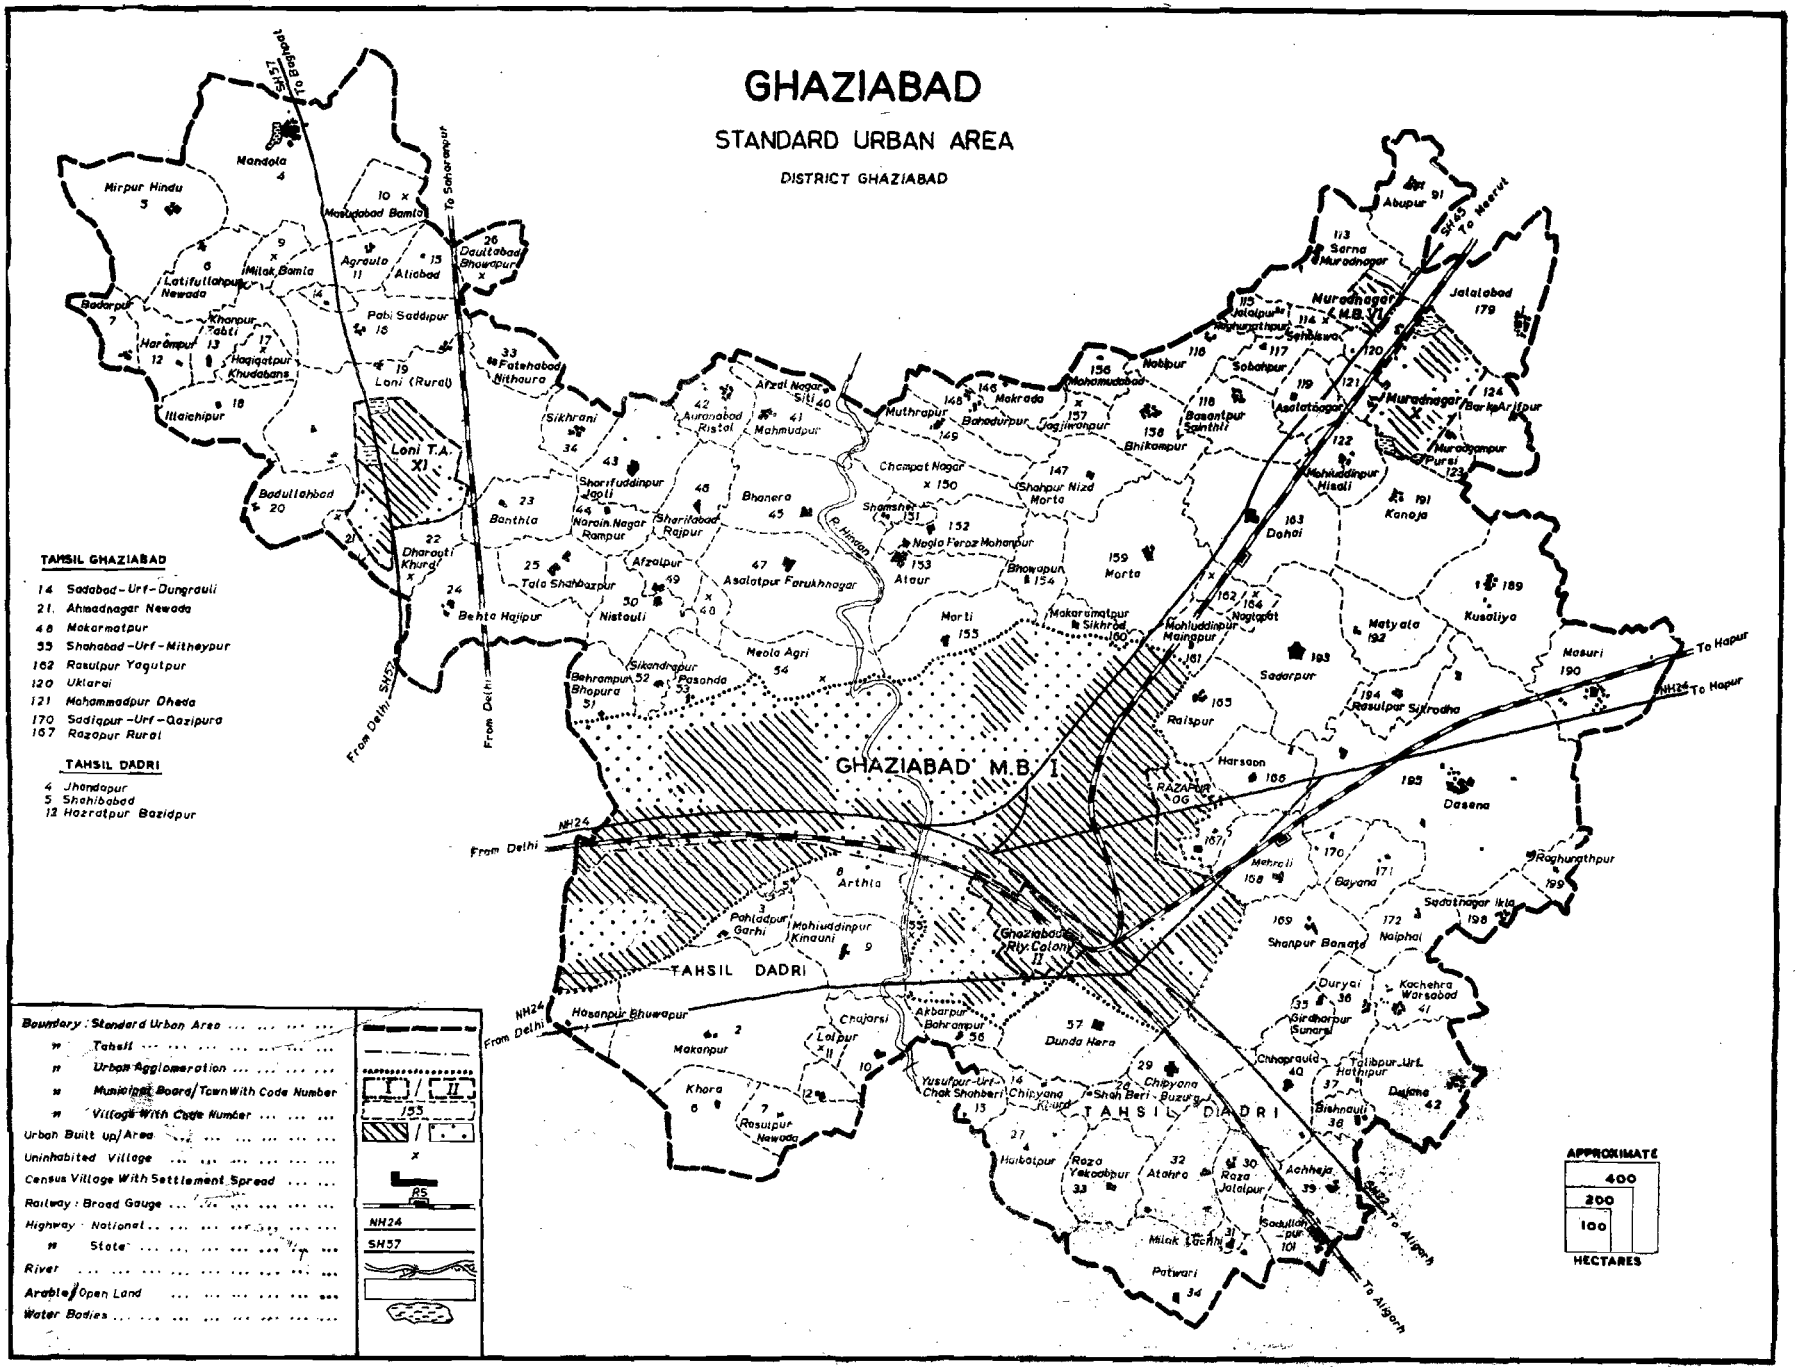

Ghaziabad being a growing town, developmental activities are taking place in all directions. However, there are heavy concentrations of these activities along the Bulandshahr road, Loni road and the Grand Trunk road. It is fast growing into a major industrial and commercial centre. Even though Hindon river is present as a constraint the trans-Hindon area has also developed very fast due to the nearness of the town to the national capital.

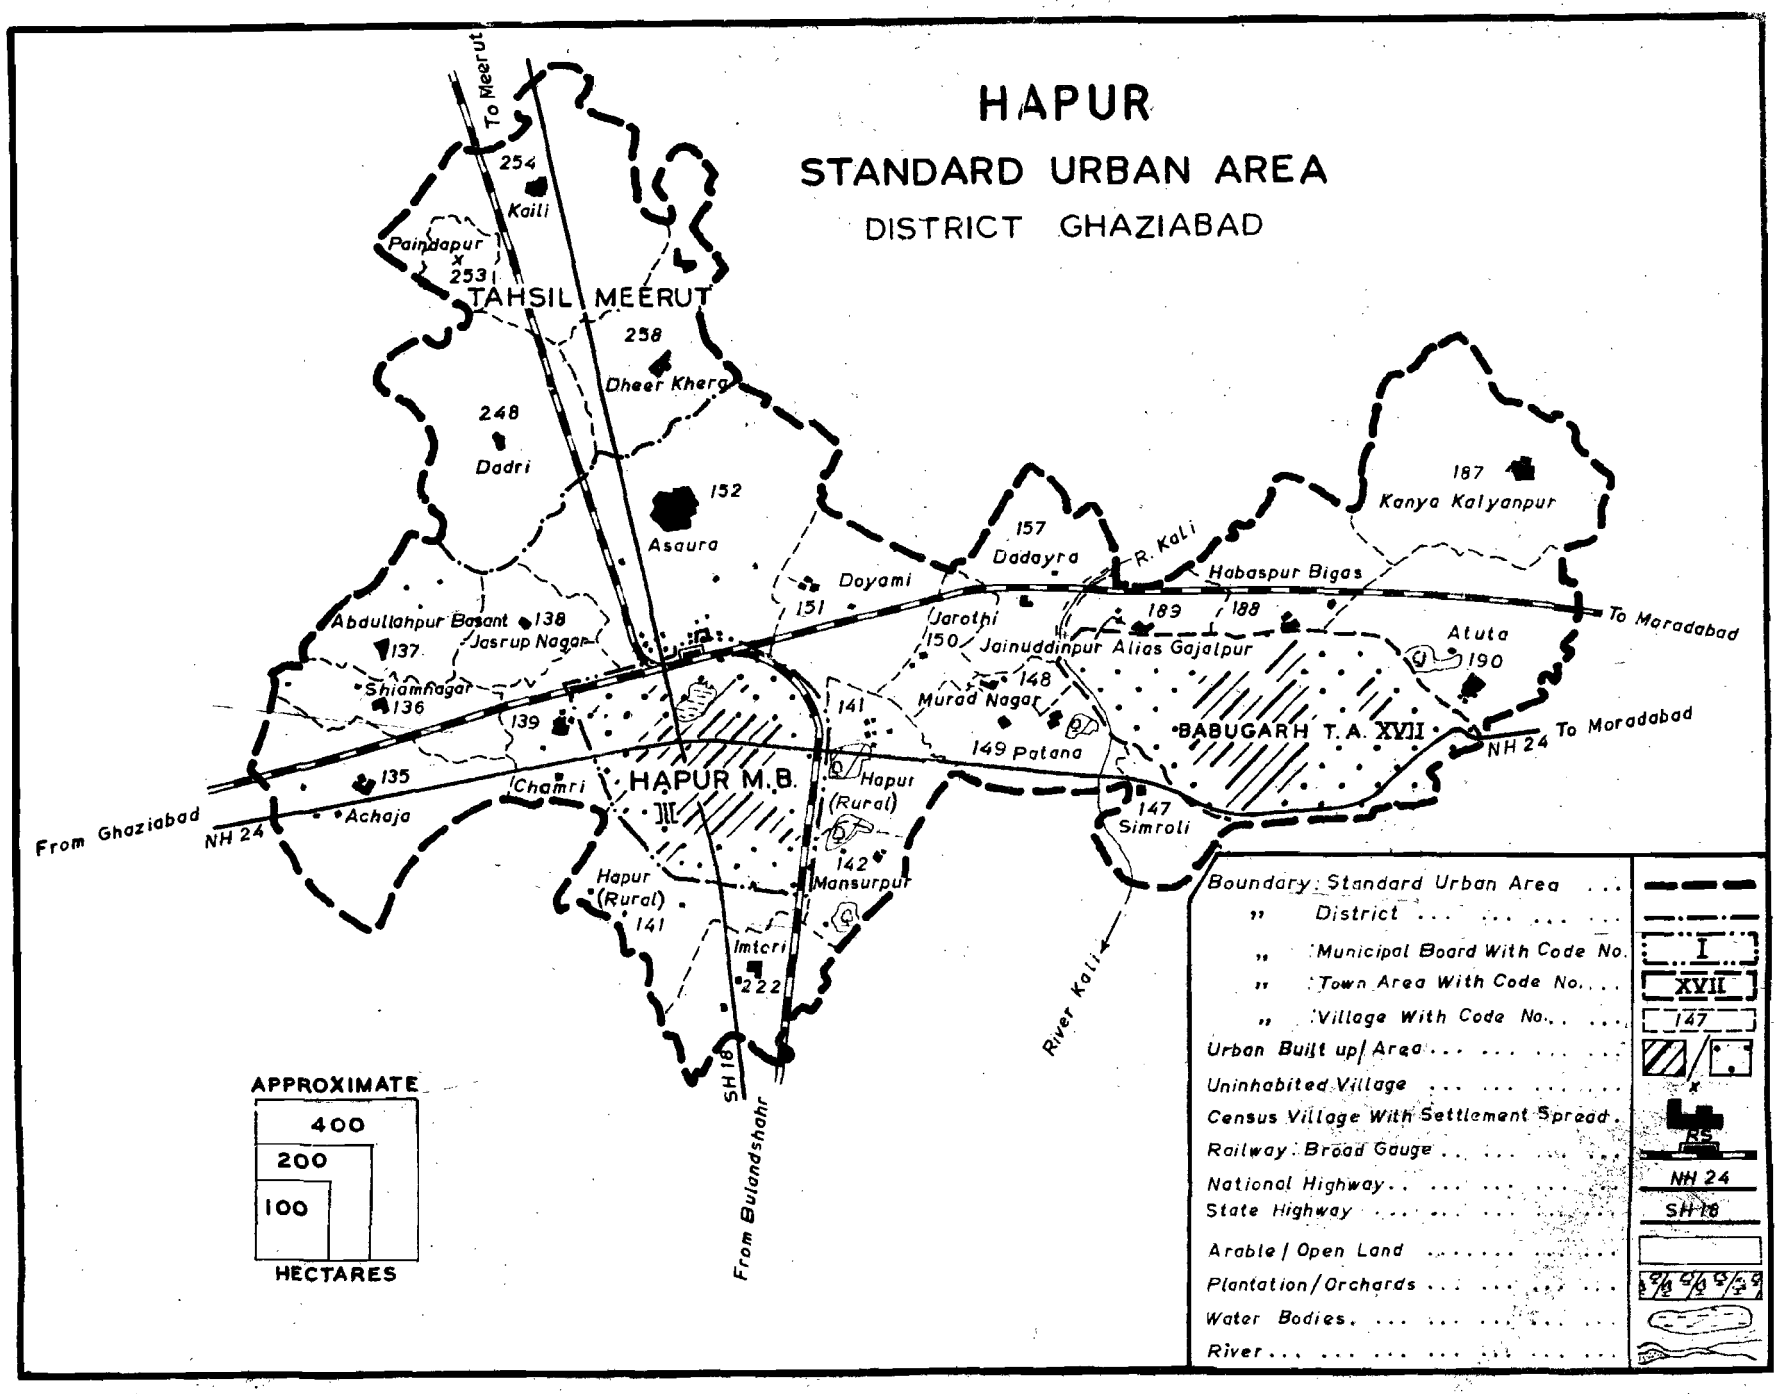

Ghaziabad Standard Urban Area consists of Ghaziabad M.M.. Razapur including Kamla Nehru and Shastrinagar O.G. Ghaziabad Railway Colony C.T. Muradnagar M.B., Muradnagar Ordinance Facto.y, Loin T.A. and 123 surrounding villages, 92 of tahsil Gaziabad and 31 of tahsil Dadri. Since 1971, a part of Loni village has been treated as a town area and the remaining portion as Loni rural. Village Dharauti Khurd has partly merged in Loni T.A. and the villages Chak Ambarpur, Karkar Mandan, Mahrajpur, Mavi, Mirzapur, Nurnager and Dhargal have been wholly merged in Ghaziabad M.B., Kaila C.T. of 1971 wholly merged in Ghaziabad M.B., and the villages Pasonda, Jhandapur, Sahibabad, Arthla, Pahladpur Garhi, Hasanpur Bhuwanpur, Makanpur Chajnari, Rajpur, Shahpur Somita and Mehrali have partly merged in Ghaziabad M.B. The total population 558,543 of the Standard Urban Area is spread over an area of 515.49 square kilometres. The density of population in the Standard Urban Area comes to 1,084 persons per square kilometre.

The following table gives some basic demographic features of the Standard Urban Area.

Standard Urban Area, Ghaziabad

Unit	Total population 1981	Density per km²	Growth rate 1971-81	Literacy (per cent)	Sex ratio	Work participation rate (per cent)	Percentage of workers in household industry & other workers	Scheduled castes		Scheduled tribes

9. Hapur

Hapur M.B. of Ghaziabad district has a population of 102,837 in 1981. In the last census Hapur was a Class II town which has emerged as a Class I town in 1981. The rate of growth in the population of the town during the decade 1971—81 was 44.30 per cent as against 28.99 per cent during 1961—71. Hapur is an important mandi for foodgrains on the Delhi—Moradabad National Highway. The town is situated at the intersection of Delhi—Moradabad National Highway and the Bulandshahr—Meerut road and is expanding in all the four directions along the roads. The fact that there is almost no expansion of the town along the railway lines in these directions is worthy of note. The Chijja nala and the Kali Nadi are the physical constraints to the expension of the town. Hapur M.B., Babugarh T.A. and 23 neighbouring villages including 19 villages of Hapur tahsil and 4 villages of Meerut tahsil of Meerut district cnostitute the Hapur Standard Urban Area. Spread over an area of 86.24 square kilometres it has a population of 149.365 *i.e.* 1,732 persons to a square kilometre. Since 1971, the villages Chamri, Hapur rural, Doyami and Assura have partly merged in Hapur M.B. The villages Babugarh, State Mechanised Farm, Babugarh and Central Potato Farm have together formed Babugarh T.A. in 1981.

The following table gives some socio-economic statistics of the Standard Urban Area.

Standard Urban Area , Hapur

Unit	Total population 1981	Density per km²	Growth rate 1971-81	Literacy (per cent)	Sex ratio	Work participation rate (per cent)	Percentage of workers in household industry & other workers	Scheduled castes		Scheduled tribes

(ii) Rural Component (23)	44,139	588	28.09	30.81	834	27.94	45.65	20,164	45.68	..	..

10. Modinagar

Modinagar M.B. of Ghaziabad district has a population of 78,243 in 1981. It has become a Class II town for the first time. It is the largest industrial township in the upper Ganga-Yamuna doab and an important market centre serving a large hinterland.

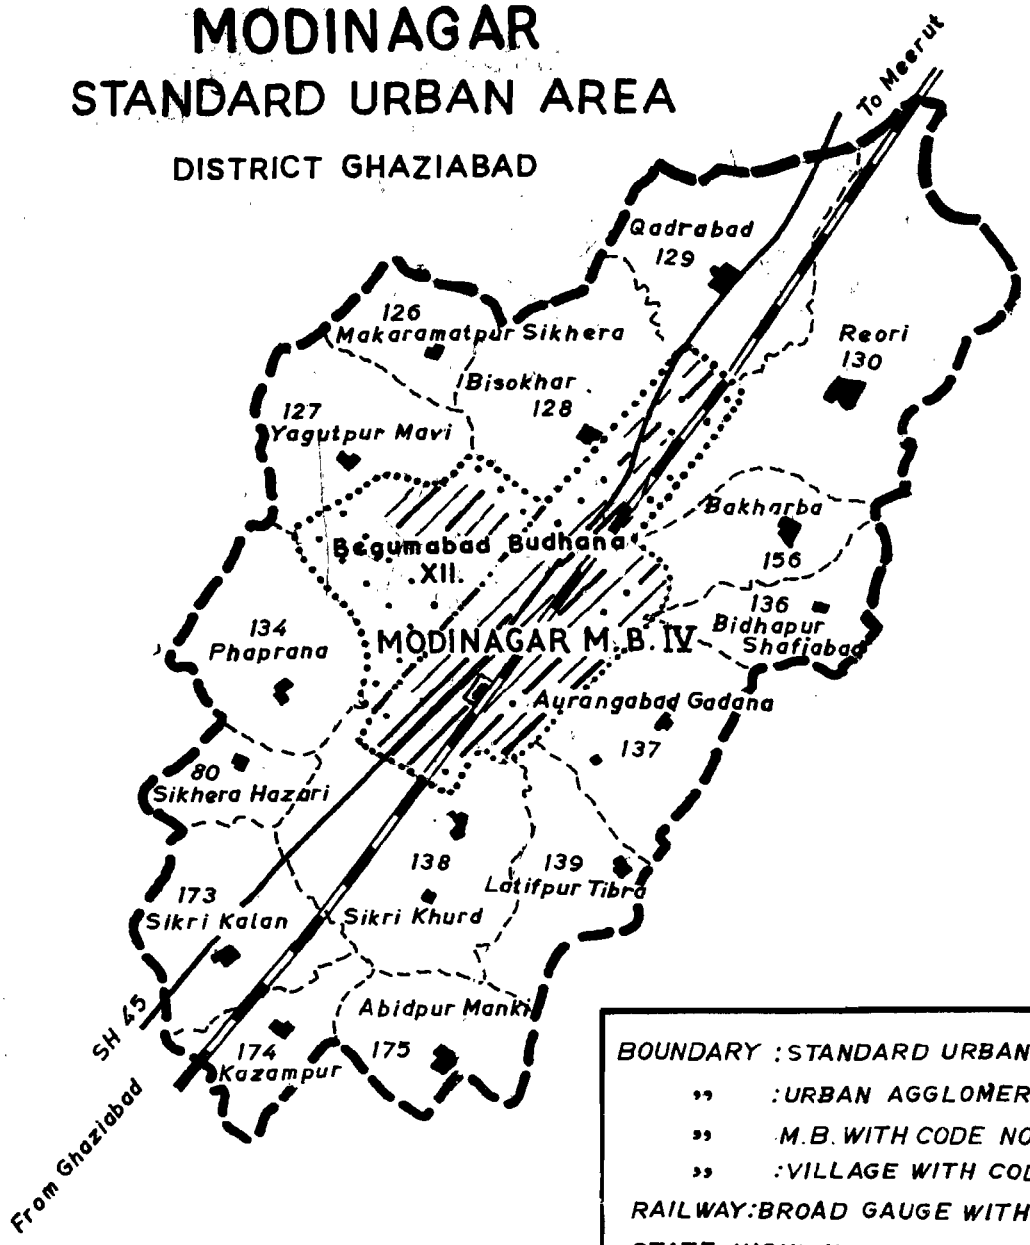

Being a township of a leading and expanding industrial organisation, the population of the town has been increasing at a very fast rate. The rates of growth during the last three decades have been 97.22 per cent in 1951—61, 79.14 per cent in 1961—71 and 79.99 per cent in 1971—81. The town is mostly expanding in the north-east and south-west directions along the Delhi—Meerut road. It is also now tending to grow towards the south-east along the Hapur road.

Modinagar Standard Urban Area comprises Modinagar M.B., Begumabad Budhana C.T. and 15 villages of tahsil Ghaziabad on the periphery of the town. Begumabad village, a rural component of the Standard Urban Area in 1971 has since formed Begumabad Budhana Census Town in 1981. The present Standard Urban Area has a population of 124,760 persons spread over 55.79 square kilometres. Its density of population is 2,236 persons per square kilometre. The following table provides basic demographic data of the Standard Urban Area.

Standard Urban Area, Modinagar

11. Bulandshahr

Bulandshahr M.B. with a population of 103,436 is a Class I city, a status it has acquired in 1981. During the last decade, the rate of growth of population of the town has more than doubled registring a growth of 73.83 per cent as against 34.74 per cent during 1961—71.

The town is expanding mainly along the channels of communication to the west, north and south directions. Kali Nadi in the east and Upper Ganga Canal far to the west restrict the growth of the town in these directions.

Bulandshahr Standard Urban Area consists of 23 neighbouring villages of Bulandshahr tahsil besides Bulandshahr M.B. The villages Mau Khera, Bahlimpura, Chandupr, Walipura, Bulandshahr rural, Rampura, Tanda and Hirapur have been partly merged in Bulandshahr M.B. As a result, the urban component has increased from 3.29 square kilometres in 1971 to 9.39 square kilometres in 1981. The total area of the Standard Urban Area is 66.81 square kilometres in habiting 138,544 persons i.e. 2,074 persons to a square kilometre.

The following table gives some basic socio-economic data about the Standard Urban Area.

Standard Urabn Area, Bulandshahr

Unit	Total population 1981	Density per km²	Growth rate 1971-81	Literacy (per cent)	Sex Ratio	Work participation rate (per cent)	Percentage of workers in household industry & other workers	Scheduled castes		Scheduled tribes

12. Khurja

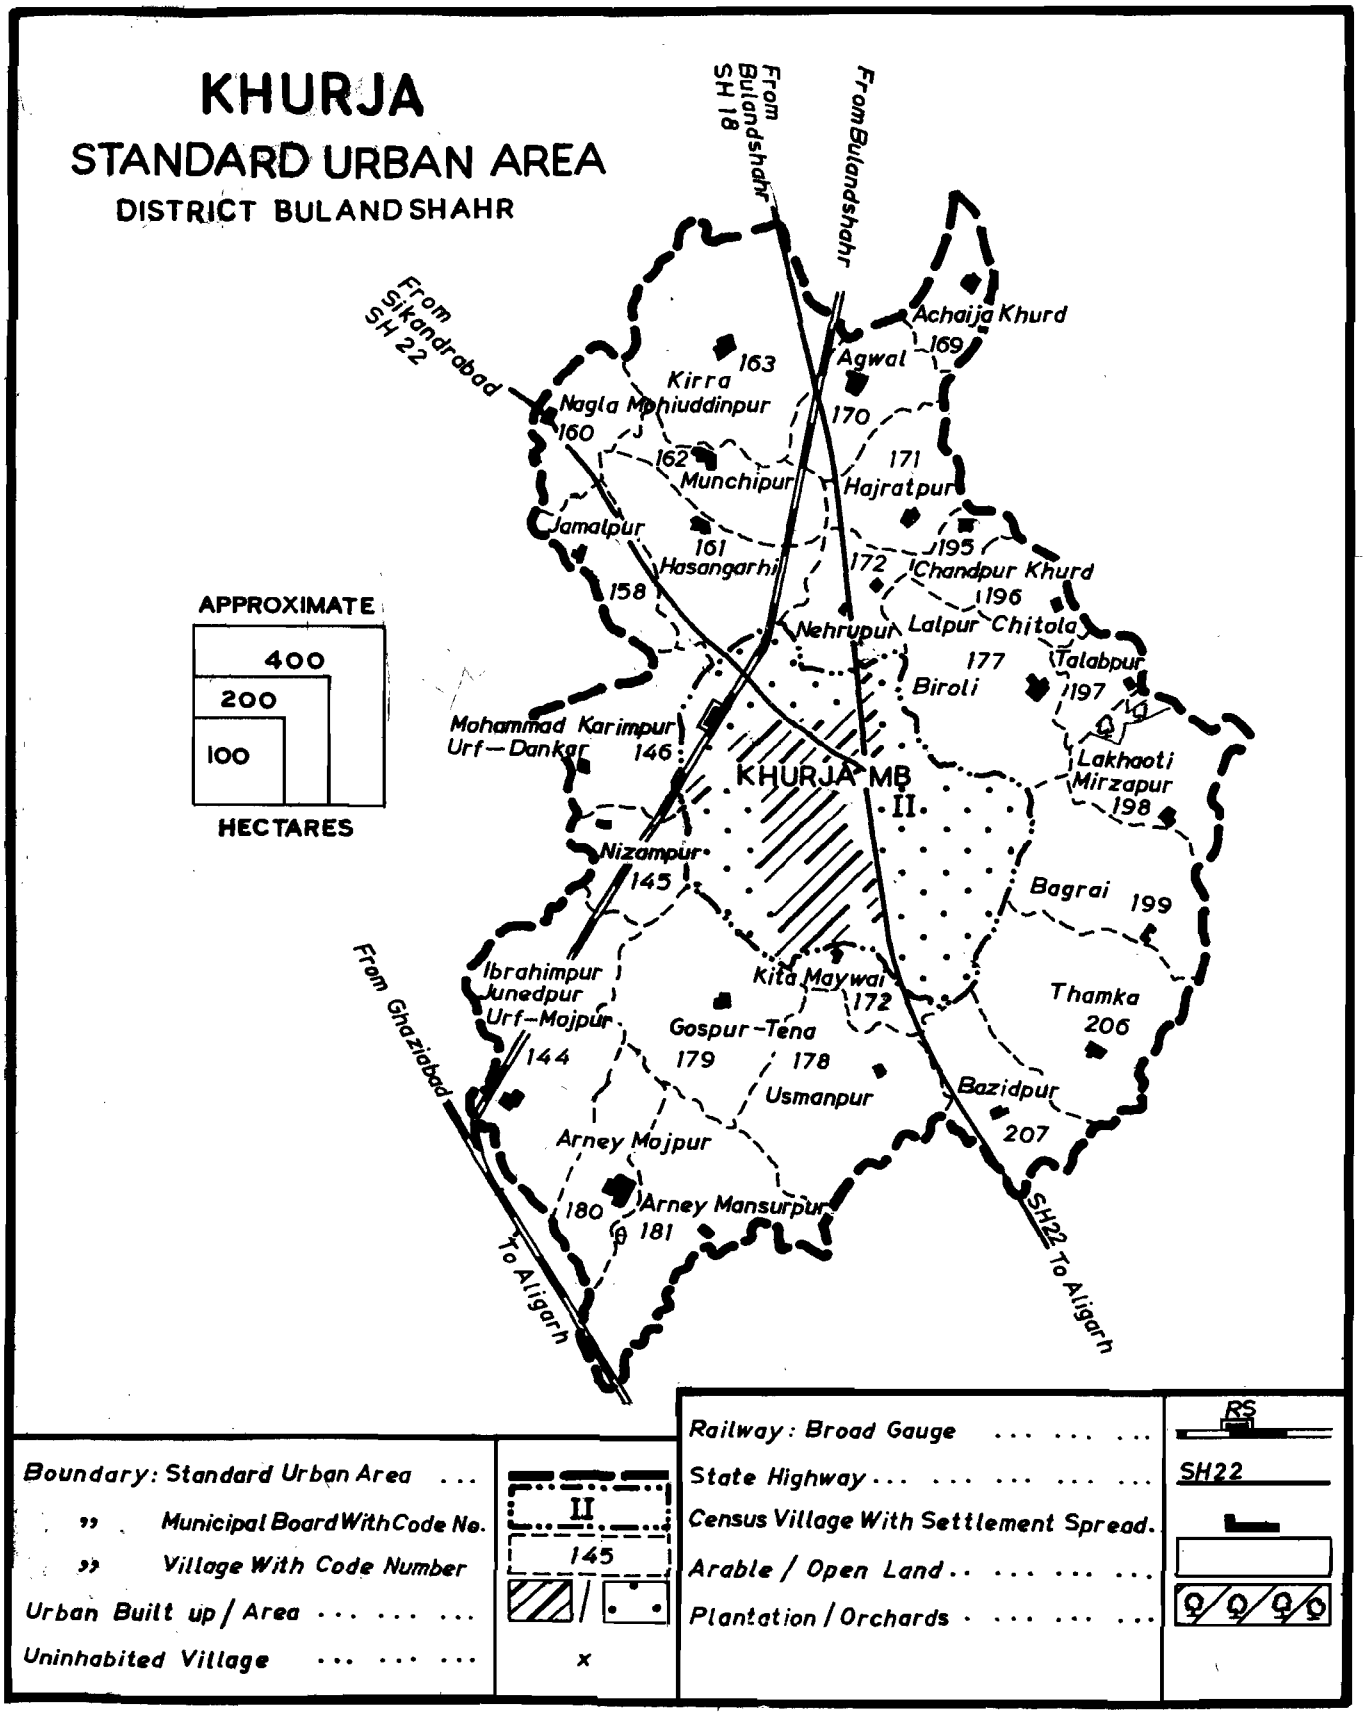

Khurja M.B. of Bulandshahr district, a Class II town since 1971 has a population of 67,119. The population of the town has increased by 33.58 per cent during 1971—81 as against 21.10 per cent during 1961—71. Khurja is an important mandi of ghee and is also famous for its potteries.

The town has tended to grow within the tract between the Khurja—Bulandshahr railway line and the Aligarh—Bulandshahr road. The Ganga canal to the east and the Korwar river to the west restrict the growth of the town in these directions.

Khurja Standard Urban Area comprises of Khurja M.B. and 25 surrounding villages of Khurja tahsil covering an area of 78.20 square kilometres. The population of the Standard Urban Area is 95,218 with a density of 1,218 persons per square kilometre. The following table summarises demographic characteristics of the Standard Urban Area.

Standard Urban Area, Khurja

13. Amroha

Amroha M.B. a Class I town of Moradabad district has a population of 112,682. It was a Class II town from 1941 to 1971. The population of the town has risen by 36.25 per cent during 1971—81 as against a rise of 19.92 per cent during the earlier decade. In fact, the rise recorded during the last decade is maximum so far since 1901. Manufacture of drums, wooden toys and carpet (*daris*) weaving are among the important industries of the town. There is also a sugar mill to the south of the town. The town is also a trading centre for foodgrains.

Development of the town is mostly taking place towards the north and east. The Delhi—Moradabad railway line passing through the town does not appear to have any significant effect on the urbanisation of the town.

Besides Amroha M.B., the Amroha Standard Urban Area includes 24 peripheral villages of Amroha tahsil. Since 1971, village Amroha Dehat was partly merged in Amroha M.B. The Standard Urban Area covering an area of 56.17 square kilometres has a population of 129,409 *i.e.* 2,304 persons per square kilometre.

The following table gives some important demographic characteristics of the Standard Urban Area.

Standard Urban Area, Amroha

Unit	Total population 1981	Density per km²	Growth rate 1971-81	Literacy (per cent)	Sex ratio	Work participation rate (per cent)	Percentage of workers in household industry & other workers	Scheduled castes		Scheduled tribes

(ii) Rural Component (24)	16,727	336	8.81	17.01	856	27.85	10.66	10,361	61.94	..	..

14. Chandausi

Chandausi M. B. of Moradabad district has a population of 66,970 and is a Class II town, a status it acquired in 1971. The population of the town has shown a growth rate of 25.43 per cent during 1971—81. The rate of growth during last decade has gone up after a substantial decline from 32.35 per cent during 1951—61 to 9.96 per cent during 1961—71. Main industries of the town are Khandsari, oil, flour and rice mills.

The town is expanding in all the directions though on a moderate scale. The town is served by Moradabad-Budaun and Aligarh-Chandausi State Highways, Broad gauge railway lines from Moradabad and Aligarh leading to Bareilly also pass through the town. Low-lying areas to the south-east of the town which gets water logged during rainy season is a constraint to the development in that direction.

The Chandausi Standard Urban Area includes Chandausi M. B. and 11 surrounding villages of Bilari tahsil and has an area of 49.21 square kilometres. Total population of the Standard Urban Area is 90,083 with 1,831 persons per square kilometre.

Data on some important demographic characteristics of the Standard Urban Area are presented in the following table.

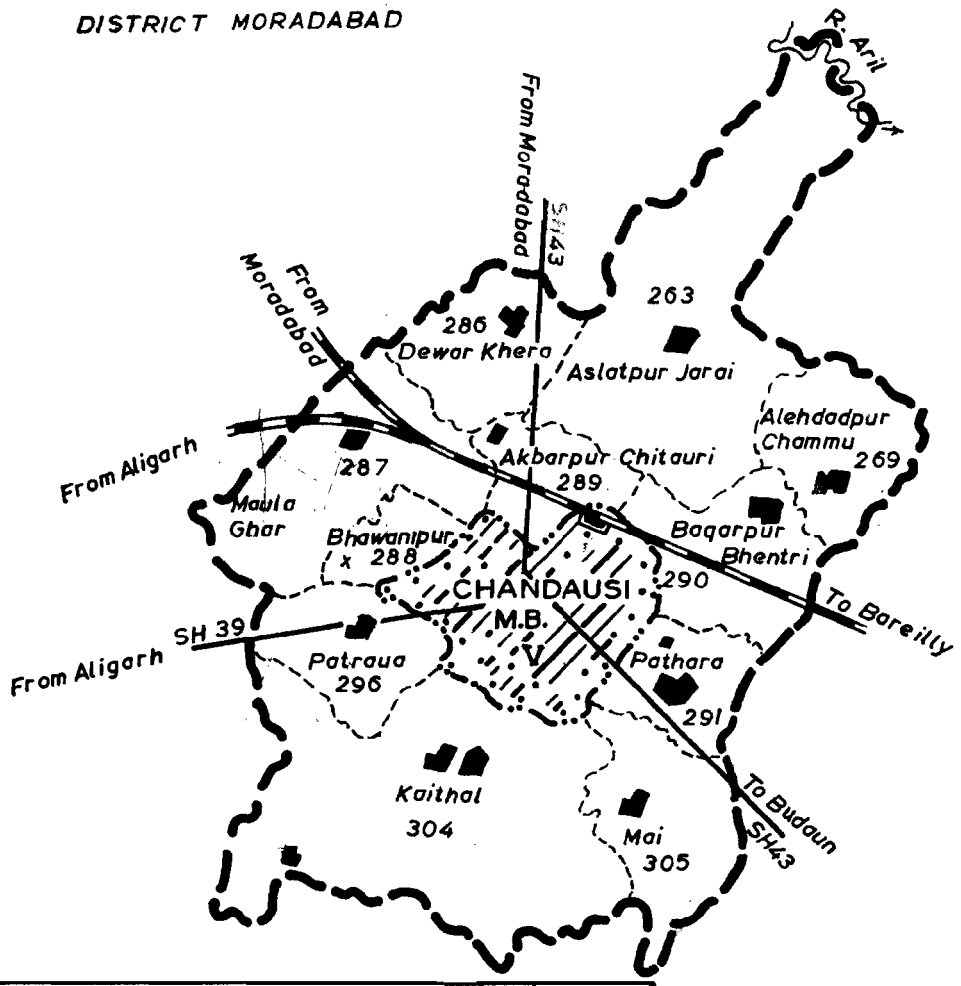

Standard Urban Area, Chandausi

Unit	Total population 1981	Density per km²	Growth rate 1971-81	Literacy (per cent)	Sex ratio	Work participation rate (per-cent)	Percentage of workers in household industry & other workers	Scheduled castes		Scheduled tribes

15. Moradabad

Moradabad M. B. has a population of 330,051 in 1981. It is a Class I city since 1931. The rate of growth of its population during the decade 1971—81 was 27.63 per cent which is much lower than growth of 43.58 per cent during 1961—71. The growth rate of the town has been fluctuating from decade to decade and the highest rate recorded so far was during 1961—71. The rate of growth of population in the earlier two decades 1941—51 and 1951—61 were 8.15 and 16.93 per cent respectively.

Moradabad city has grown around a fort as a nucleus on the right bank of the Ramganga river. The town is an important centre for the manufacture of of brassware as household industry. Establishment of Brassware Corporation by the government has given further impetus to the growth of the town. As a result development of the town has taken place towards the north-west south-west and south along the channels of communication. An industrial belt is also developing along the railway line. The Ramganga river in the north-east is a physical constraint to the development of the town in that direction. Karulanala and the net work of railway lines in the town are other constraints.

Moradabad Standard Urban Area consists of Moradabad U. A., Moradabad M. B. and Moradabad Railway Settlement and 60 neighbouring villages, 52 of Moradabad tahsil and 8 of Bilari tahsil. It covers an area of 196.63 square kilometres with a population of 441,546 and a density 2,246 persons per square kilometre.

The folkowing table gives some of its basic demographic characteristics.

Standard Urban Area, Moradabad

Unit	Total population 1981	Density per km²	Growth rate 1971-81	Literacy (per cent)	Sex ratio	Work participation rate (per cent)	Persenege of workers in household industry & other workers	Scheduled castes		Scheduled tribes

16. Sambhal

Sambhal M. B. of Moradabad district with a population of 108,232 in 1981, is a Class I city. It has graduated to Class I in the present Census only. From 1941 to 1971 it was a Class II town. The rate of increase of its population during the last decade was 25.38 per cent which is almost equal to that of 1961—71 (25.21 per cent). The main industries in the town are Khandsari, tobacco and decoration pieces made of horns run on small-scale and household basis.

The town has tended to grow in the north and west directions along the channels of communication. The Sot river in the north is a physical constraint to the development of the town in that direction.

The Sambhal Standard Urban Area comprises Sambhal M. B. and 47 surrounding villages of Sambhal tahsil. Since 1971, villages Takhat Gushai and Azizpur Asadpur have partly merged in Sambhal M. B. The total area of the Standard Urban Area is 92.90 square kilometres with a population of 153,639 and a density 1,654 persons per square kilometre.

The following table gives some important demographic data of the Standard Urban Area.

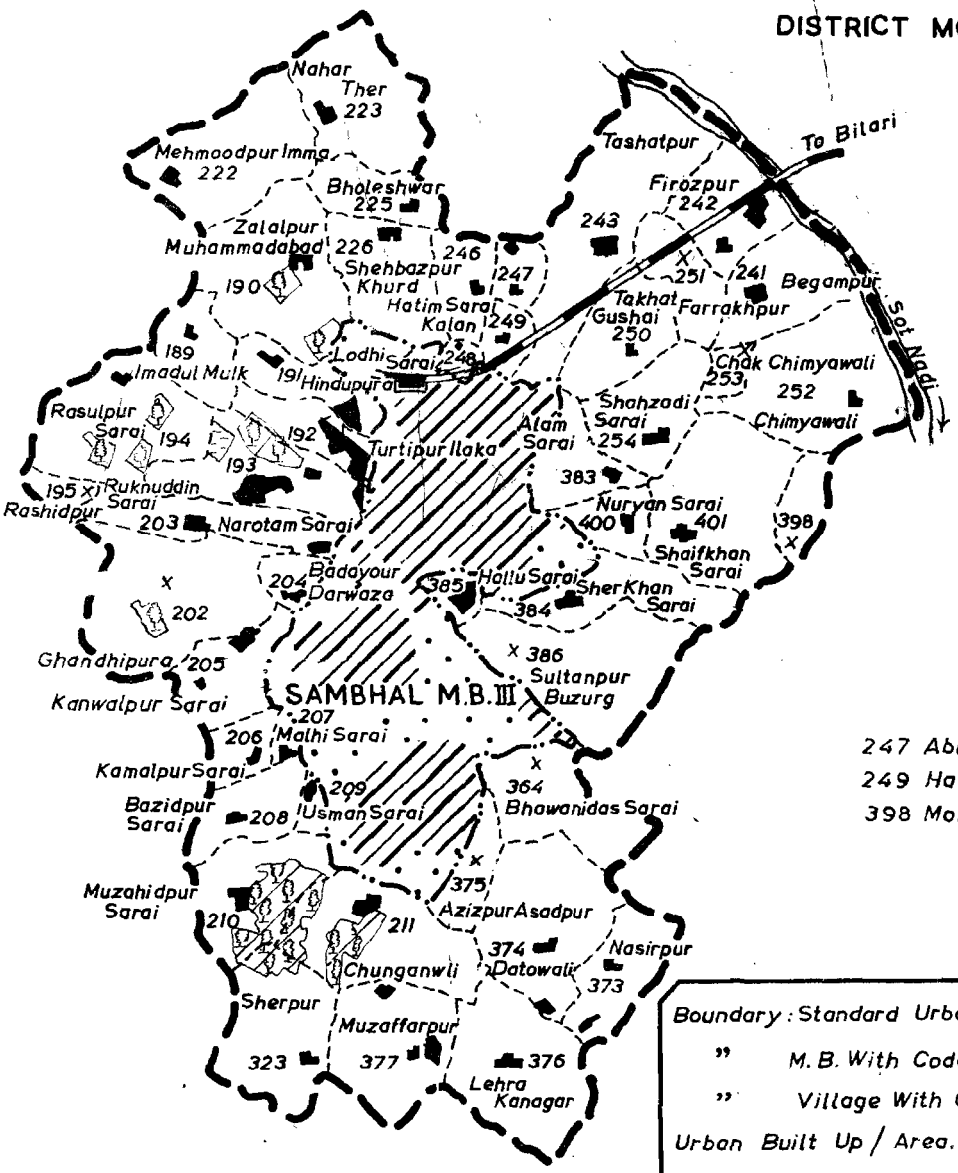

Standard Urban Area, Sambhal

Unit	Total population 1981	Density per km²	Growth rate 1971-81	Literacy (per cent)	Sex ratio	Work participation rate (per cent)	Percentage of workers in household industry & other workers	Scheduled castes		Scheduled tribes

17. Rampur

Rampur M. B. has a population of 204,610 in 1981. It graduated from Class II to Class I city in 1951 Census and has since remained a Class I city. The population of the city has risen by 26.76 per cent during 1971—81 as against 19.21 per cent during 1961—71.

Development of the town is taking place mostly towards the east. Some development activities have also started along Shahabad road in the north. River Kosi to the west of the town restricts its growth in that direction. Besides, the town is located in a low-lying area which is a potent constraint on its further expansion.

Rampur Standard Urban Area comprises 29 villages of Rampur tahsil besides the Rampur M. B. Since 1971, the villages Hazratpur, Saijni Nankar, Panwaria, Bamanpuri and Ajitpur have partly merged in Rampur M. B. while the village Shadi Nagar has wholly merged in Rampur M. B. The Standard Urban Area covers an area of 86.44 square kilometres and is inhabited by 229,732 persons *i.e.* 2,658 persons to a square kilometre.

The following table gives some basic demographic data of the Standard Urban Area.

Standard Urban Area, Rampur

Unit	Total population 1981	Density per km²	Growth rate 1971-81	Literacy (per cent)	Sex ratio	Work participation rate (per cent)	Percentage of workers in household industry & other workers	Scheduled castes		Scheduled tribes

18. Budaun

Budaun M. B. has a population of 93,004 in 1981 and has been a Class II town since 1941 Census. The population of the town has grown steadily. The growth rate during 1971—81 was 28.81 percent as against 22.86 per cent recorded during the decade 1961—71. A paper mill, cold store and sugar mill are located in the town.

Budaun town is situated in the plain between the Ganga and the Ramganga rivers. Sot river to its west restricts the growth of the town in that direction. The town is showing tendency to grow towards the east.

The Budaun Standard Urban Area comprises Budaun M.B. and 10 neighbouring villages of Budaun tahsil covering an area 31.17 square kilometres. It has a population of 106,537 with a density of 3,418 persons per square kilometre. The following table gives some important socio-economic data of the Standard Urban Area.

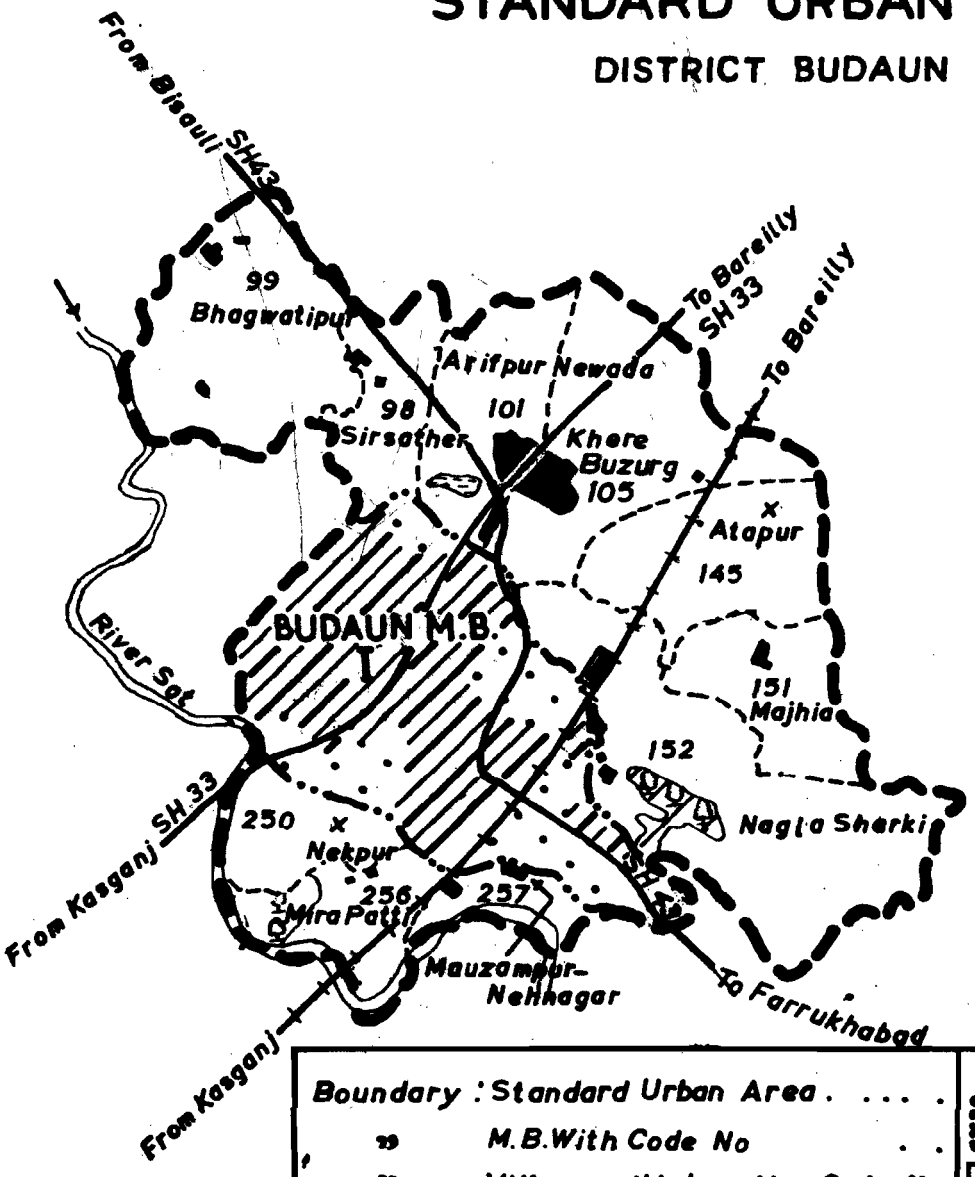

Standard Urban Area, Budaun

19. Bareilly

Bareilly M.B. has a population of 386,734 and is a Class I city since 1901. The rise in the population of the city during the last decade has been comparatively fast. The growth rate during 1971—81 was 30.54 per cent as against 16.45 per cent during 1961—71.

The town has tended to grow towards north-east and north-west along the channels of communication. The river Ramganga to the west and cantonment area in the east are constraints to a expansion of the town.

Bareilly Standard Urban Area comprises Bareilly M. B. alongwith Northern Railway Colony, Kudesia Colony, I.V.R.I. Colony and Newada Jogiyana O. G. Bareilly Cantonment, Izatnagar Railway Settlement N.A. along with Central Jail and Kishore Sadan O.G. and I.W.P. Colony O.G, Clutterbuckganj T.A., Rithaura T.A., Fatehganj west T.A., Thiriya Nizamat Khan and 197 surrounding villages of Bareilly tahsil since 1971. The village Synthetics and Chemicals was wholly merged in Fatehganj west T.A., the village Clutterbuckganj and Khalilpur were wholly merged in Clutterbuckganj T.A., the villages Nekpur and Central Jail were wholly merged in Bareilly M. The villages Jasoli Mustaqil, Sarai Teeli Ahtmali, Jasoli Ahtmali, Maheshpur, Attasia, Newada Jagiyana, Jagatpur Lala Begum, Newada Sheikhan Sukha Chhasni and Udaipur Khas were partly merged in Bareilly M. B. The village Rithaura was partly merged in Rithaura T. A. The village Thiriya Nizamat Khan was partly merged in Thiriya Nizamat Khan T. A. Village Budhaulia was partly merged in Clutterbuckganj T. A. The village Bahrampur Nagla was partly merged in I.V.R.I. Colony. The village Newada Jogiyana was partly merged in Newada Jogiyana O.G. of Bareilly M. B. The villages Mirzai and Saplehanopur Newadia which were left out of the frame in 1971 have been included in this frame. The total population of the Standard Urban Area is 682,271 inhabiting an area of 403.52 square kilometres, with a density of 1,691 persons per square kilometre.

The following table gives some important demographic data of the Standard Urban Area.

Standard Urban Area, Bareilly

Unit	Total population 1981	Density per km²	Growth rate 1971-81	Literacy (per cent)	Sex ratio	Work participation rate (per cent)	Percentage of workers in household industry & other workers	Scheduled castes		Scheduled tribes

20. Pilibhit

Pilibhit M. B. has a population of 88,548 in 1981 and is a Class II town, a status it acquired in 1961. It is situated on the banks of Deoha river in the Himalayan terai. The population of the town has been increasing at a moderate rate. It registered a growth rate of 29.70 per cent during 1971—81 as against 18.68 per cent during 1961—71.

The town is generally expanding in the north, north-east, south and south-west directions. River Deoha to the west of the town is a physical constraint to its development in that direction. However, mild growth of the town along the channels of communication is clearly visible.

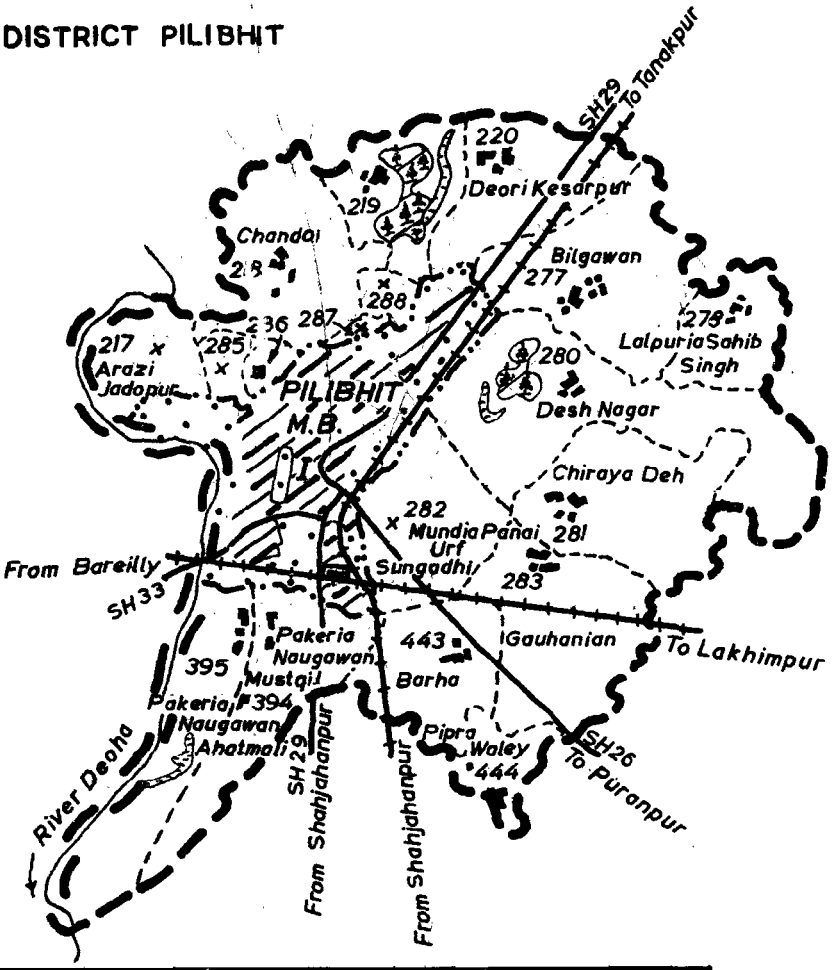

Pilibhit Standard Urban Area comprises Pilibhit M. B. and 18 neighbouring villages of Pilibhit tahsil convering an area of 46.32 square kilometres. The population of the Standard Urban Area is 103,771 with an average density of 2,240 persons per square kilometre.

The following table gives some important demographic data of the Standard Urban Area.

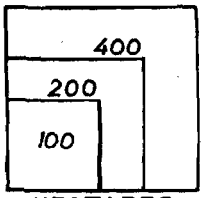

Standard Urban Area, Pilibhit

Unit	Total population 1981	Density per km²	Growth rate 1971-81	Literacy (per-cent)	Sex ratio	Work participation rate (per cent)	Percentage of workers in household industry & other workers	Scheduled castes		Scheduled tribes

STANDARD URBAN AREA

DISTRICT SHAHJAHANPUR

Note : S.U.A. and U.A. Boundary are the same.

21. Shahjahanpur

Shahjahanpur M. B. with a population of 185,396 in 1981 Census is a Class I city. The population of the city has increased at a much faster rate during the last decade, 36.72 per cent as against 22.79 per cent during 1961—71. The town is an important marketing centre for *gur* and *khandsari*.

Shahjahanpur Standard Urban Area is coterminus with Shahjahanpur urban agglomeration consisting of Shahjahanpur M. B. along with Lodhipur outgrowth and Shahjahanpur Cantonment. During the decade 1971—81, the villages Satwan Buzurg, Chak Maroof and Chinar were partly merged in Shahjahanpur Cantonment and the villages Azizganj, Shahr Khas Muhal, Nawada Indepur and Mandha also partly merged in Shahjahanpur M. B. The total area of the Standard Urban Area is 22.76 square kilometres with a density of 9,011 persons per square kilometre which is much above the State average. Growth of the town towards west, east and north has been restricted due to rivers Ganga and Khannaut and Cantonment respectively.

The town has tended to grow in the south-east, south-west and east along the channels of communication. The town is served by Lucknow-Bareilly national highway, Lucknow-Powayan state highway and state highway No. 29 leading to Pilibhit besides the Lucknow-Amritsar and Bareilly-Sitapur broad gauge railway line and the metre gauge railway link to Pilibhit.

The following table gives some basic demographic features of the Standard Urban Area.

Standard Urban Area, Shahjahanpur

22. Aligarh

Located in the Ganga-Yamuna Doab Aligarh M. B. has a population of 320,861 in 1981 and is a Class I city since 1941 Census. The rate of growth of population of the city has come down to 27.17 per cent during the last decade from 36.37 per cent during 1961—71. The Aligarh Muslim University is an important centre of education located at Aligarh. Aligarh is also famous for the manufacture of locks, an industry run on household basis. The town has been expanding in all the directions but growth towards north and north-east is comparatively faster. The town is well connected by rail and road.

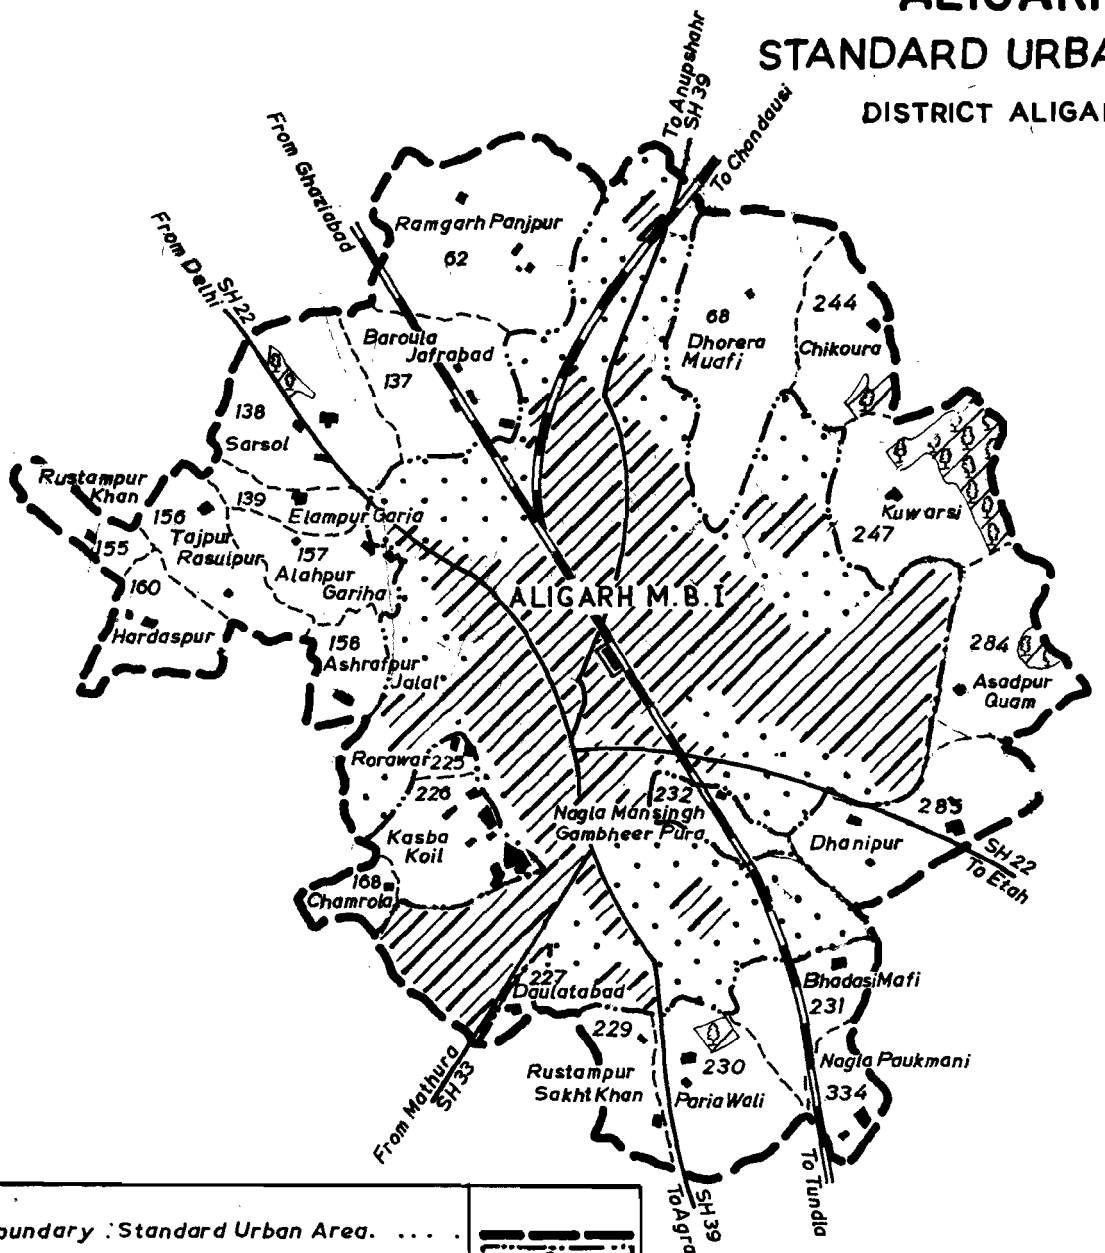

The Aligarh Standard Urban Area consists of 23 surrounding villages of Koil tahsil besides Aligarh M. B. during the decade 1971—81 villages Jamalpur Muafi, Bhomalia Muafi, Bagumpur Kanjauli, Kishanpur, Kukari Khera *urf* Naurangi, Pala Shahibabad and Mullahpara Bhujpura have wholly merged in Aligarh M. B. The total area of the Standard Urban Area is 95.89 square kilometres with 347,422 inhabitants and has a density of 3,623 persons per square kilometre.

Data on some important demographic characteristics of the Standard Urban Area is presented in table below.

Standard Urban Area, Aligarh

23. Hathras

Hathras M. B. of district Aligarh is a Class II town with a population of 92,962 in 1981. It acquired this status in 1951 Census. The population of the town has increased at a comparatively faster rate of 25.03 per cent during 1971—81 decade as against 16.09 per-cent during 1961—71. It is an important *mandi* for *ghee* and foodgrains. Manufacture of knives and processing of *hing* have also developed as household industries. The town has tended to grow in all directions. Low lying areas and Hathras Fort in the east are constraints to the growth of the town in that direction.

The Hathras Standard Urban Area comprises Hathras M. B. also with its 25 peripheral villages of Hathras tahsil. During the decade 1971—81, the villages Jogia, Hatisha Bhagwantpur, Nehrol, Kalwari, Girjrauli, Terphara and Hathras rural have partly marged in Hathras M. B. The Standard Urban Area inhabited by 127,120 persons covers an area of 57.73 square kilometres. The density of population of the Standard Urban Area is 2,202 persons per square kilometre.

Some important demographic data of the Standard Urban Area is presented in the table below.

Standard Urban Area, Hathras

Unit	Total population 1981	Density per km²	Growth rate 1971-81	Literacy (per cent)	Sex ratio	Work participation rate (per cent)	Percentage of workers in household industry & other workers	Scheduled castes		Scheduled tribes

24. Mathura

Mathura M. B. has a population of 147,493 in 1981 and is a Class I town, a status it acquired in 1961 Census. The population of the town has grown at a slow pace. The growth rate during 1971—81 was 11.71 per cent as against 12.88 per cent during 1961—71. Situated at the right bank of river Yamuna, the town is the legendary birth place of Lord Krishna and as such an important pilgrimage centre of the Hindus. It lies at the focal point of trunk routes from Deccan, Rajasthan, Delhi—Punjab and the east India. It is also an important centre of education.

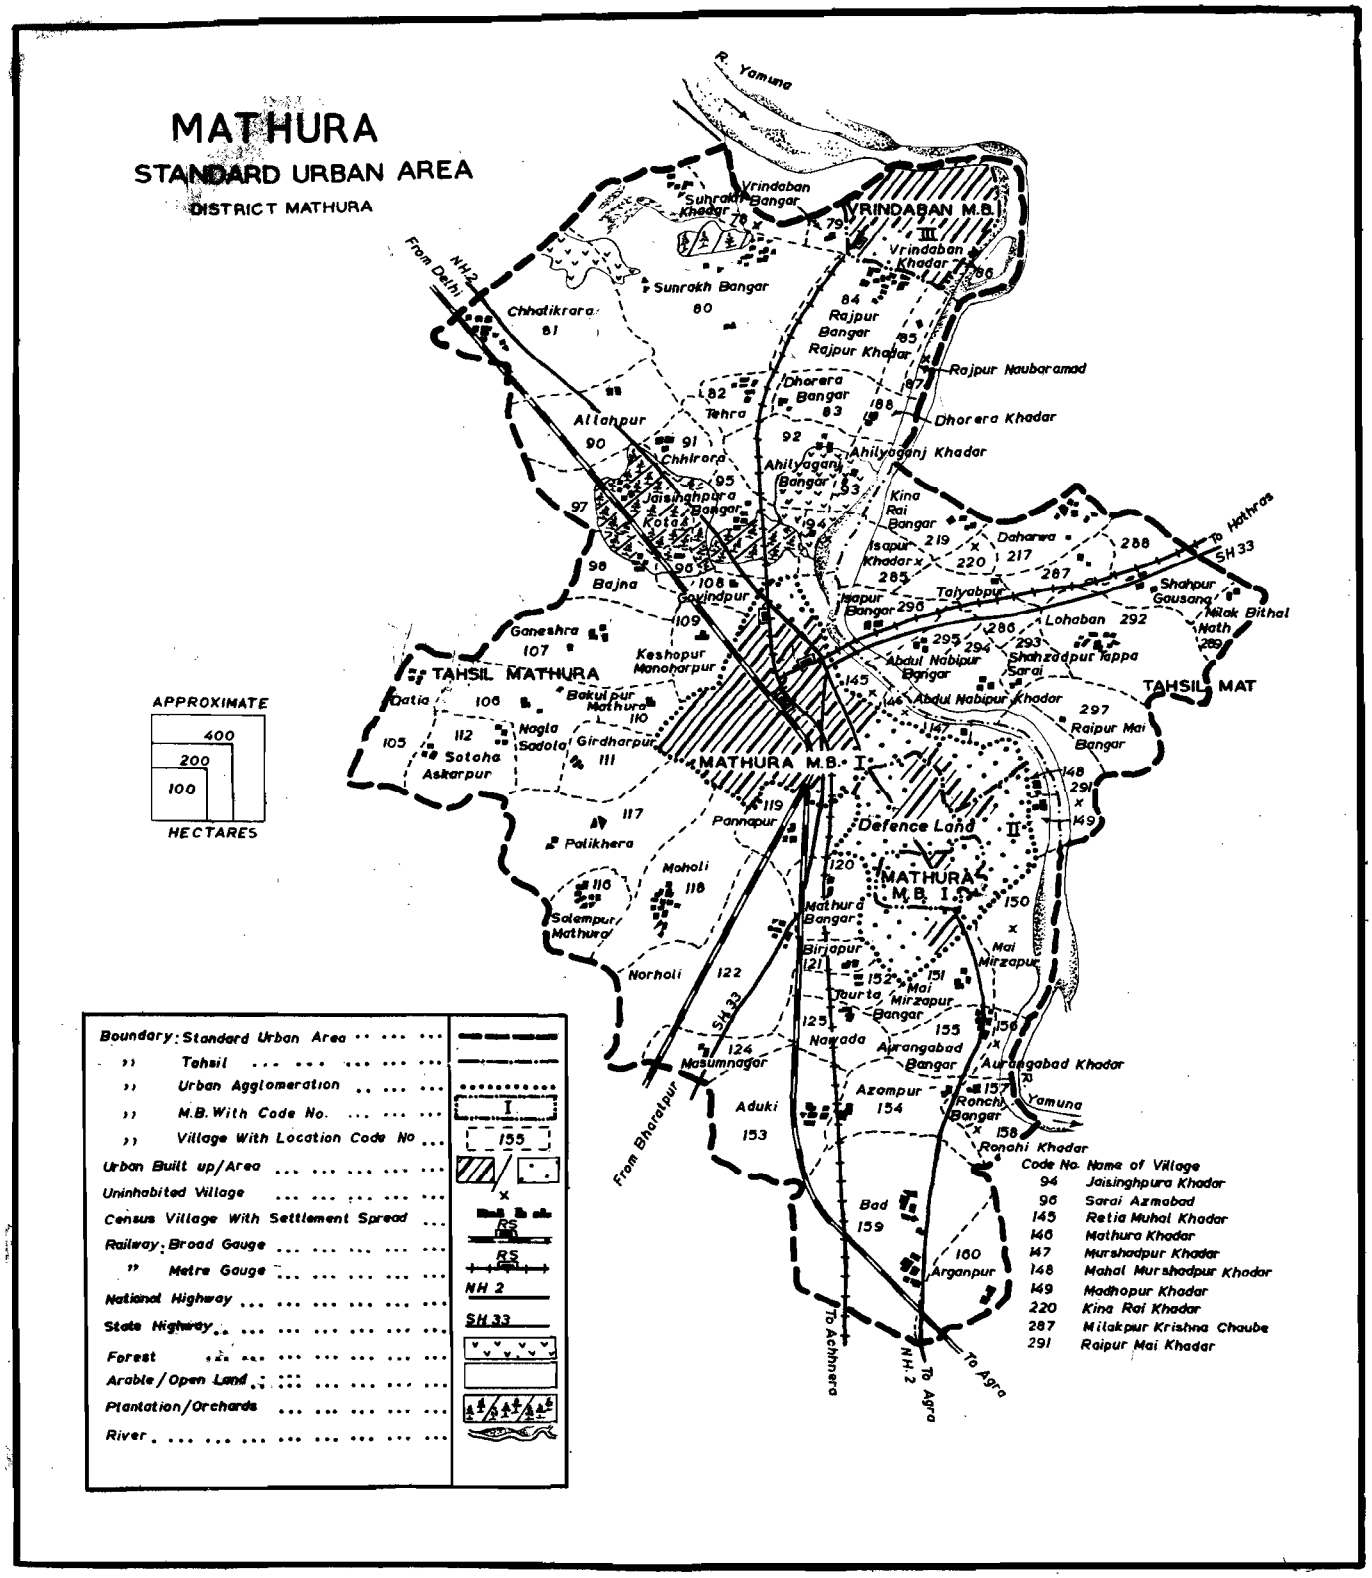

The town is developing mostly towards west and north directions. River Yamuna to the east of the town restricts the growth of the town in this direction. with the establishment of an oil refinary to the south of the town, development in that direction is very fast. Scope for further development towards the north is very limited.

The Standard Urban Area comprises Mathura M. B., Mathura Cantonment, Vrindaban M. B. and 68 neighbouring villages, 53 of Mathura tahsil and 15 of Mat tahsil. Spread over an area of 201.70 square kilometres, the Standard Urban Area has a population of 266,933 and density of 1,323 persons per square kilometre.

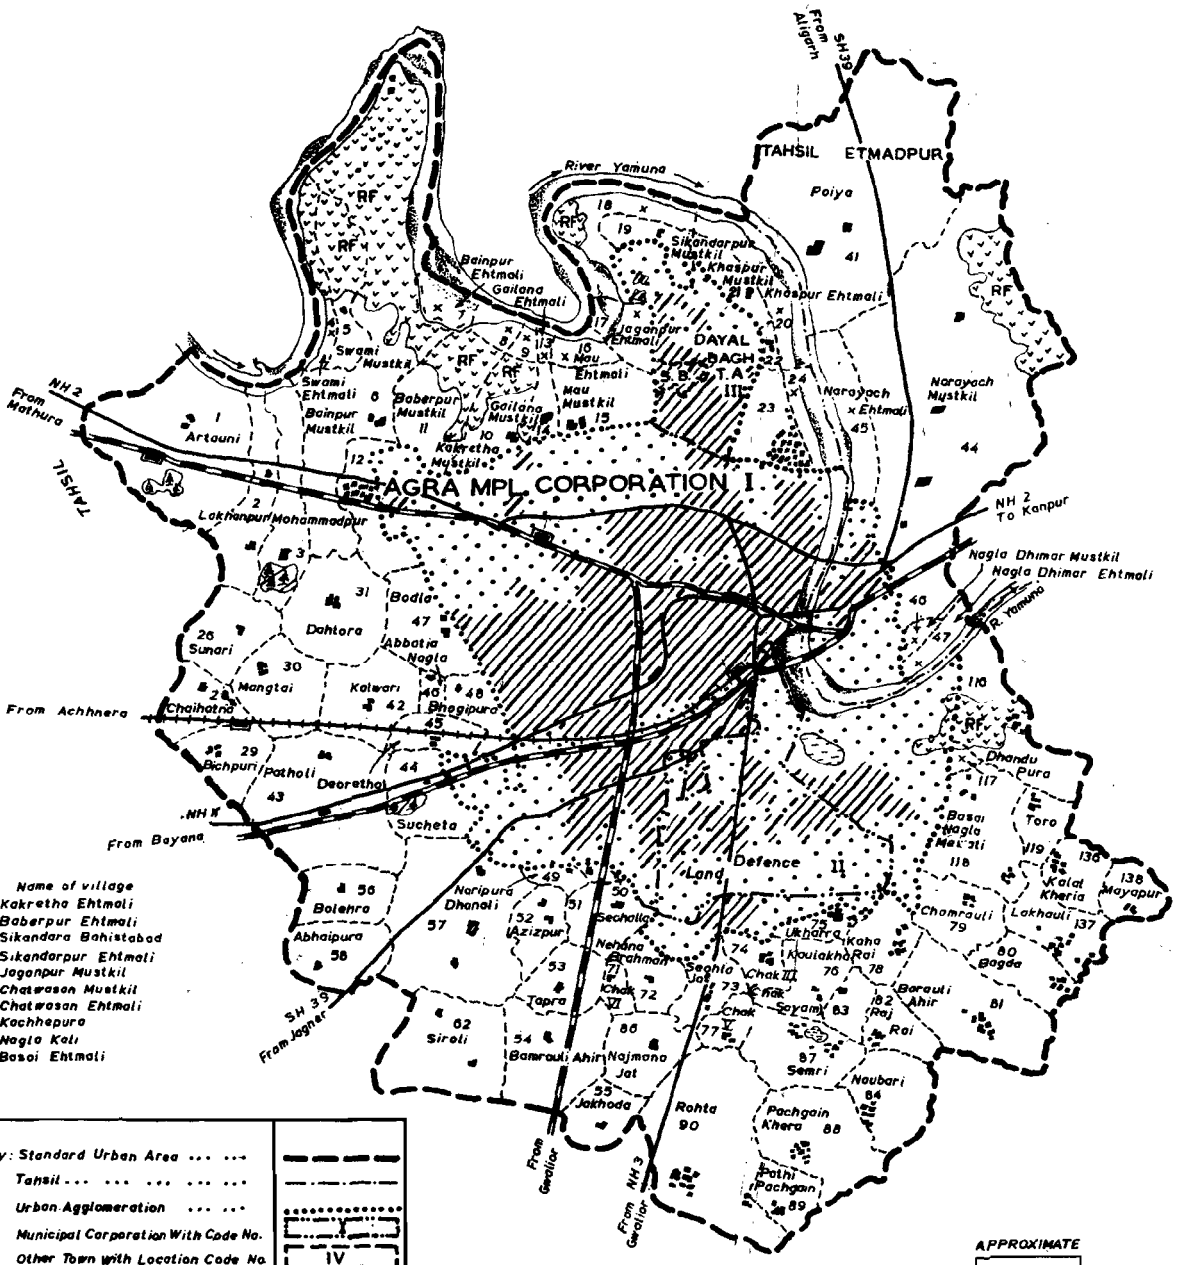

The following table gives data on some of the important demographic characteristics of the Standard Urban Area.

Standard Urban Area, Mathura

25. Agra

Agra M. C. has a population of 694,191 in 1981. It has been a Class I town since 1901. It is a historic town with a number of monuments of historical importance attracting large number of domestic and foreign tourists. The industries of the town are modern cotton mills, spinning mills, carpet weaving, oil mills, flour mills and iron foundaries concentrated in a narrow strip along the river Yamuna. The town is particularly famous for carpet weaving, marble works and foot wear cottage industries.

The population of Agra M. C. has risen by 17.28 per cent during 1971—81 as against 28.12 per cent during 1961—71. The rate of growth of the town has shown decreasing trend after touching a maximum of 38.52 per cent in 1951—61. The town is very well connected by rail and road. It is expanding towards north-east, north-west, west and south-east directions. Cantonment in the south and river Yamuna in the north were constraints to the development of the town in the past but now the development in these directions is taking place at very fast rate.

Agra Standard Urban Area comprises Agra M. C., Agra Cantonment, Dayalbagh, Swamibagh and 78 surrounding villages of which 73 fall in Agra tahsil and 5 in Etmadpur tahsil. The Standard Urban Area having a population of 882,403 in 1981 covers an area of 292.75 square kilometres with average density of 3014 persons per square kilometre.

The following table provides some important demographic data of the Standard Urban Area.

Standard Urban Area, Agra

Unit	Total population 1981	Density per km²	Growth rate 1971-81	Literacy (per cent)	Sex ratio	Work participation rate (per cent)	Percentage of workers in household industry & other workers	Scheduled castes		Scheduled tribes

26. Firozabad

Situated on the Sher Shah Suri Marg Firozabad M.B. of Agra district has a population of 202,338 in 1981. It is a Class I town, a status it acquired in 1971 Census. The population of the city has risen at a very fast rate of 51.15 per cent during 1971—81 as compared to 35.75 per cent during 1961—71. Firozabad is an important centre for glass bangles and other glass products in India. The town has tended to grow towards the north, west and south directions. The existence of low-lying area to the east of the town is a physical constraint to its development in that direction.

The Firozabad Standard Urban Area consists of Firozabad M. B., Sukhmalpur Nizamabad C.T. and Datauji (C.T. and 11 peripheral villages of Firozabad tahsil. The village Sukhmalpur Nizamabad and Datauji of 1971 have since been treated as Census Town. The total population of the Standard Urban Area in 1981 spread over 36.82 square kilometres is 229,476 with an average density of 6,232 persons per square kilometre.

The following table gives some important demographic data of the Standard Urban Area.

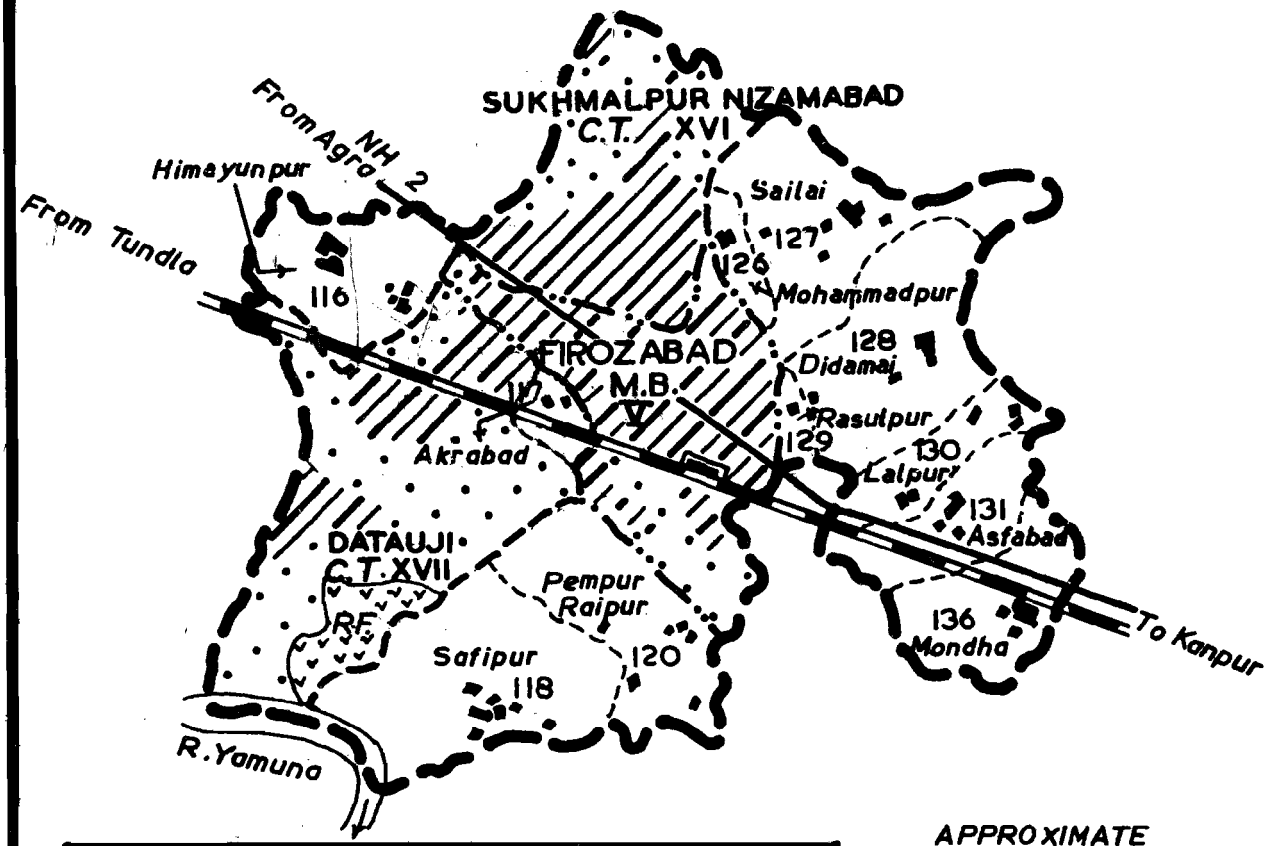

Standard Urban Area, Firozabad

27. Farrukhabad-*cum*-Fatehgarh

Farrukhabad-*cum*-Fatehgarh M. B. has a population of 145,793 in 1981. It is a Class I city since 1971 Census. During the decade 1971—81 the population of the city has increased at a very high rate of 41.87 per cent as against 17.06 per cent during 1961—71. The growth rate during the last decade is the maximum recorded since 1901. The town is an important centre for potatoes and cloth printing. The town has tended to grow towards the north and east directions. The river Ganga is a physical constraint to the growth of the town. The newly constructed bridge on the Ganga at Ghatia Ghat has, however, given a new impetus to the growth of the town.

Farrukhabad-*cum*-Fategarh M. B., Fatehgarh Cantonment and 36 peripheral villages of tahsil Farrukhabad constitute the Farrukhabad Standard Urban Area. During the decade 1971—81, the villages Stanpur, Bholepur, Nekpur Kalan and Kharabandi Nagla Wazir have partly merged in Farrukhabad-*cum*-Fatehgarh M. B. and the villages Chaurasi and Allahnagar were wholly merged in Farrukhabad-*cum*-Fatehgarh M. B. Spread over 62.68 square kilometres with 3,171 persons per square kilometre the Standard Urban Area has a total population of 198,749 persons.

Some important demographic data of the standard Urban Area is presented in the table below.

Standard Urban Area, Farrukhabad

Unit	Total population 1981	Density per km²	Growth rate 1971-81	Literacy (per cent)	Sex ratio	Work-participation rate (per cent)	Percentage of workers in household industry & other workers	Scheduled castes		Scheduled tribes

28. Etawah

Etawah M. B. has a population of 112,174 in 1981. It has emerged as Class I city in this Census. The population of the city has risen at a fairly impressive rate of 30.60 per cent during the last decade. The rate of growth during 1961—71 was 23.27 per cent.

The city is situated in the lower Ganga-Yamuna doab. The newly constructed bridge over river Yamuna in the south has contributed significantly to the growth of the city. The town is expanding mainly towards the north-east, east and west directions, along the road leading to Farrukhabad, Kanpur and Gwalior respectively.

The Etawah Standard Urban Area comprises 4 villages of Etawah tahsil besides Etawah M. B. Spread over an area of 27.79 square kilometres and a population of 123,847 the Standard Urban Area has a density of 4,457 persons per square kilometre.

The following table presents data on some of its important demographic characteristics.

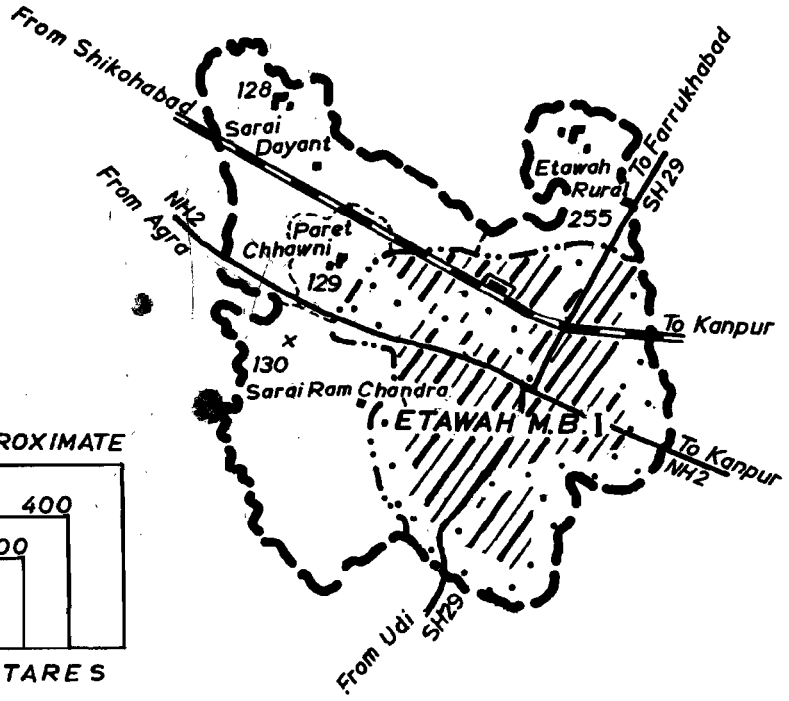

Standard Urban Area, Etawah

Unit	Total population 1981	Density per km²	Growth rate 1971-81	Literacy (per cent)	Sex ratio	Work participation rate (per cent)	Percentage of workers in household industry & Other workers	Scheduled castes		Scheduled tribes

29. Kanpur

Kanpur M. C. has a population of 1,481,789 in 1981. It crossed the 10 lakh mark in 1971. The rate of growth of population of Kanpur during 1971—81 was 28.36 per cent as against 31.01 during 1961—71. Located at the right bank of river Ganga, Kanpur city is the largest city in Uttar Pradesh. It is the industrial and commercial capital of the state and one of the largest industrial centres in northern India. Cotton textile is its most important industry. The other important industries in the city are woollen mills, jute mills, leather goods, sugar mills, oil mills, manufacture of chemicals and pharmaceuticals and various engineering and rolling mills. Prestigious institutions like the Indian Institute of Technology, the National Sugar Institute, the Govt. Central Textile Institute and the Chandra Shekhar Azad University of Agriculture and Technology are located in the city.

The town has tended to grow in a linear fashion in the tract between the rivers Ganga and Pandu mainly towards the west, north-west, south and south-east. rivers Ganga and Pandu are the physical constraints to the growth of the city. Some villages in the north-west are prone to floods from Ganga.

The Kanpur Standard Urban Area is conterminus with the area covered by Kanpur M. C., Rawatpur Station Yard, Central Railway Colony O. G. Kanpur Cantonment, Armapur Estate C.T. Northern Railway Colony C.T., Chakeri C.T. and I.I.T. Kanpur C.T. The total area of the Standard Urban Area is 298.98 square kilometres. Inhabited by 1,639,064 persons, there are 5,482 persons to a square kilometre, Some important socio-economic data of the Standard Urban Area are presented below.

Standard Urban Area, Kanpur

Unit	Total population 1981	Density per km²	Growth rate 1971-81	Literacy (per-cent)	Sex ratio	Work participation rate (per-cent)	Percentage of workers in household industry & other workers	Scheduled castes		Scheduled tribes

(ii) Rural Component (—)	..	..	..	..	..	..	..	..	..	..	..

30. Fatehpur

Fatehpur M. B. with a population of 84,831 in 1981 is a Class II town. It acquired this status in 1971 Census, due to high growth rate of 93.01 per cent in 1961—71. During 1971—81, the growth rate has dropped to 55.18 per cent. Due to the high growth of population this core town alone has been included in the list of Standard Urabn Area for the first time in 1981. With an area of 56.98 square kilometres it has a density of 1489 persons per square kilometre.

National Highway No. 2 (Grand Trunk Road or Shershah Suri Marg) connects the town with Kanpur and Allahabad and State Highway No. 13 connects it with Banda and Rae Bareli. The town is situated on broad gauge railway line connecting Kanpur and Allahabad. The town is growing towards Kanpur and Allahabad along the Grand Trunk Road and also along Banda Road towards south. Presently only a portion of the total municipal land is built-up. There is much scope for development within the municipal limits for at least two decades. Therefore, area beyond the municipal limits has not been included in the Standard Urban Area. Sasur Khaderi river to the south is a constraint to further expansion in that direction.

The following table gives the demographic characteristics of the Standard Urban Area.

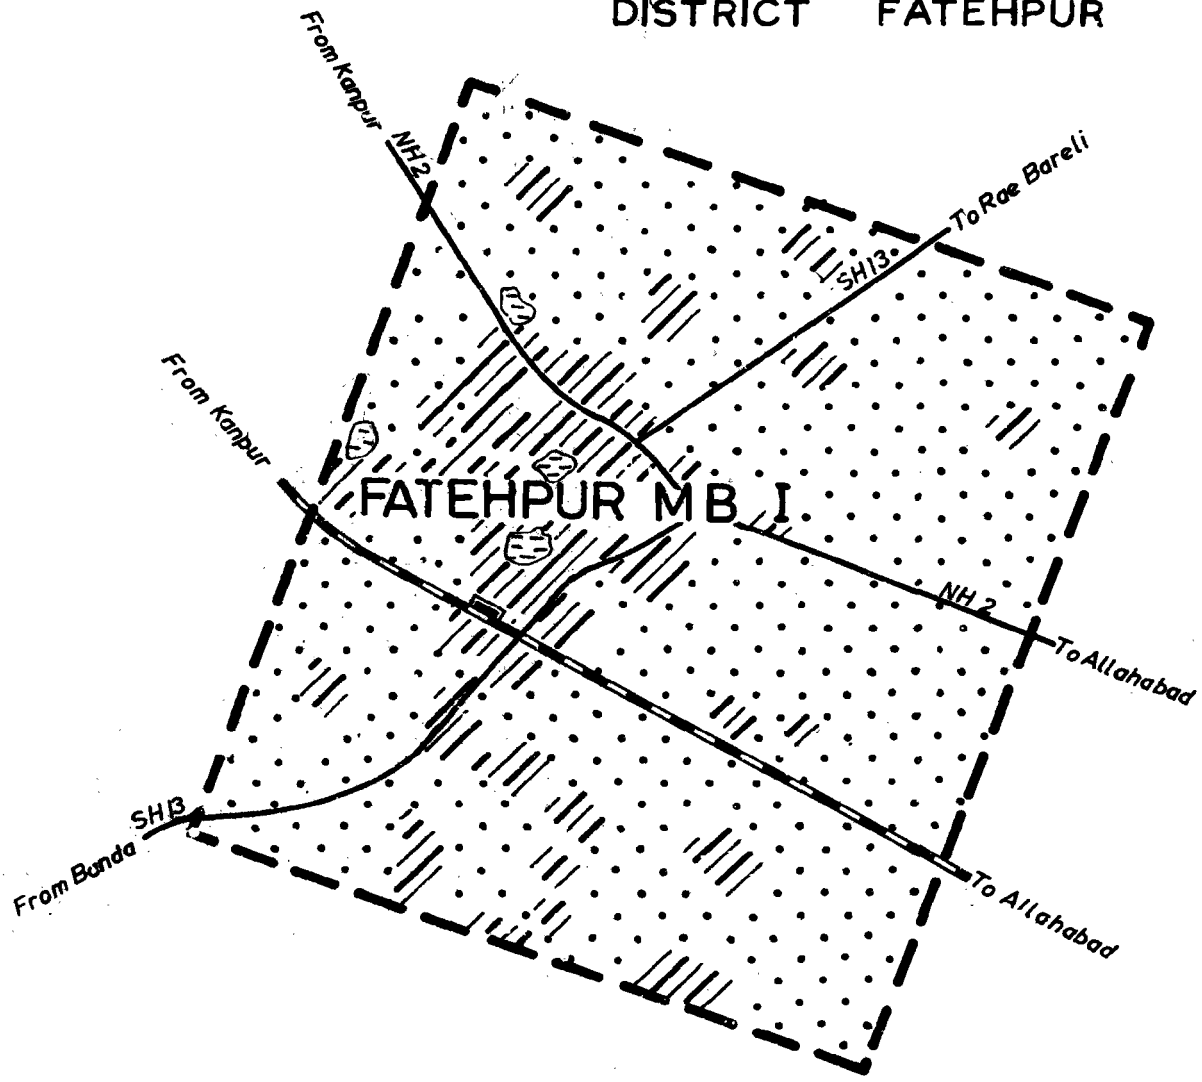

Standard Urban Area, Fatehpur

Unit	Total population 1981	Density per Km²	Growth rate 1971-81	Literacy (per cent)	Sex ratio	Work participation rate (per cent)	Percentage of workers in house hold industry & other workers	Scheduled castes		Scheduled tribes

31. Allahabad

Allahabad M. C. having a population of 616,051 is one of the five KAVAL towns of the State. Situated at the sacred confluence of the rivers Ganga and Yamuna, it has been an important centre of pilgrimage for Hindus from times immemorial. It is also a historic city which assumed importance since the time of Akbar. One of the oldest universities in the country is also located in the city. It is the fifth largest city in the state and has been a Class I city since 1901. The population of the city has grown at the rate of 25.57 per cent during 1971—81 as compared to 19.10 per cent during 1961—71. The town has tended to grow towards the west upto Bamrauli, towards the south-west upto Sasur Khaderi river and towards the south upto Naini beyond the river Yamuna. The pace of development along Mirzapur road and GT road towards Varanasi is comparatively faster. The area to the north of civil lines along the Ganga is prone to floods.

The Allahabad Standard Urban Area is comprised of Allahabad M.C., Subedarganj Railway Colony O. G. Allahahbad Cantonment, Jhusi T. A. and 215 peripheral villages, 27 belonging to tahsil Chail, 39 to tahsil Soraon, 43 to tahsil Phulpur and 106 to tahsil Karchhana). During the decade 1971—81 the village Jhusi Khas has partly merged in Jhusi T. A. The village Chak Mohammad Waris has merged in village Beohara. The village Bamrauli Uprahar of Chail tahsi and Gopal Patti of Phulpur tahsil have been added to the Standard Urban Area frame in 1981. Spread over an area of 371.01 square kilometres the Allahabad Standard Urban Area has a population of 826,848 and density of 2,229 persons per square kilometre. Some important demographic data of the Standard Urban Area is presented in the table below.

Standard Urban Area, Allahabad

Unit	Total population 1981	Density per km²	Growth rate 1971-81	Literacy (per cent)	Sex ratio	Work-participation rate (per cent)	Percentage of workers in household industry & other workers	Scheduled castes		Scheduled tribes	
								Population	Per cent	Population	Per cent

32. Jhansi

Jhansi M. B. has a population of 246,172. It has been a Class I city only since 1951. Its population has grown at a fairly high rate of 42.06 per cent during 1971—81, the growth rate during 1961—71 being 23.59 per cent. Located on the Delhi-Madras railway line it is the largest town of the Bundelkhand region. The town has tended to grow in the north, north-east and north-west directions. Rocky terrain and low-lying areas in the south, south-west and west, the cantonment in the south-east and the river Pahuj flowing at a distance of about 5 k.m. from city in the west are the major constraints to the growth of the town.

The Jhansi Standard Urban Area comprises Jhansi M. B. Jhansi Cantonment, Jhansi Railway Settlement, Hansari Gird and 11 neighbouring villages of tahsil Jhansi. Spread over 150.22 square kilometres, the Jhansi Standard Urban Area has a population of 304,769 and average density of 2,029 persons per square kilometre.

The following table gives data on some important demographic characteristics of the Standard Urban Area.

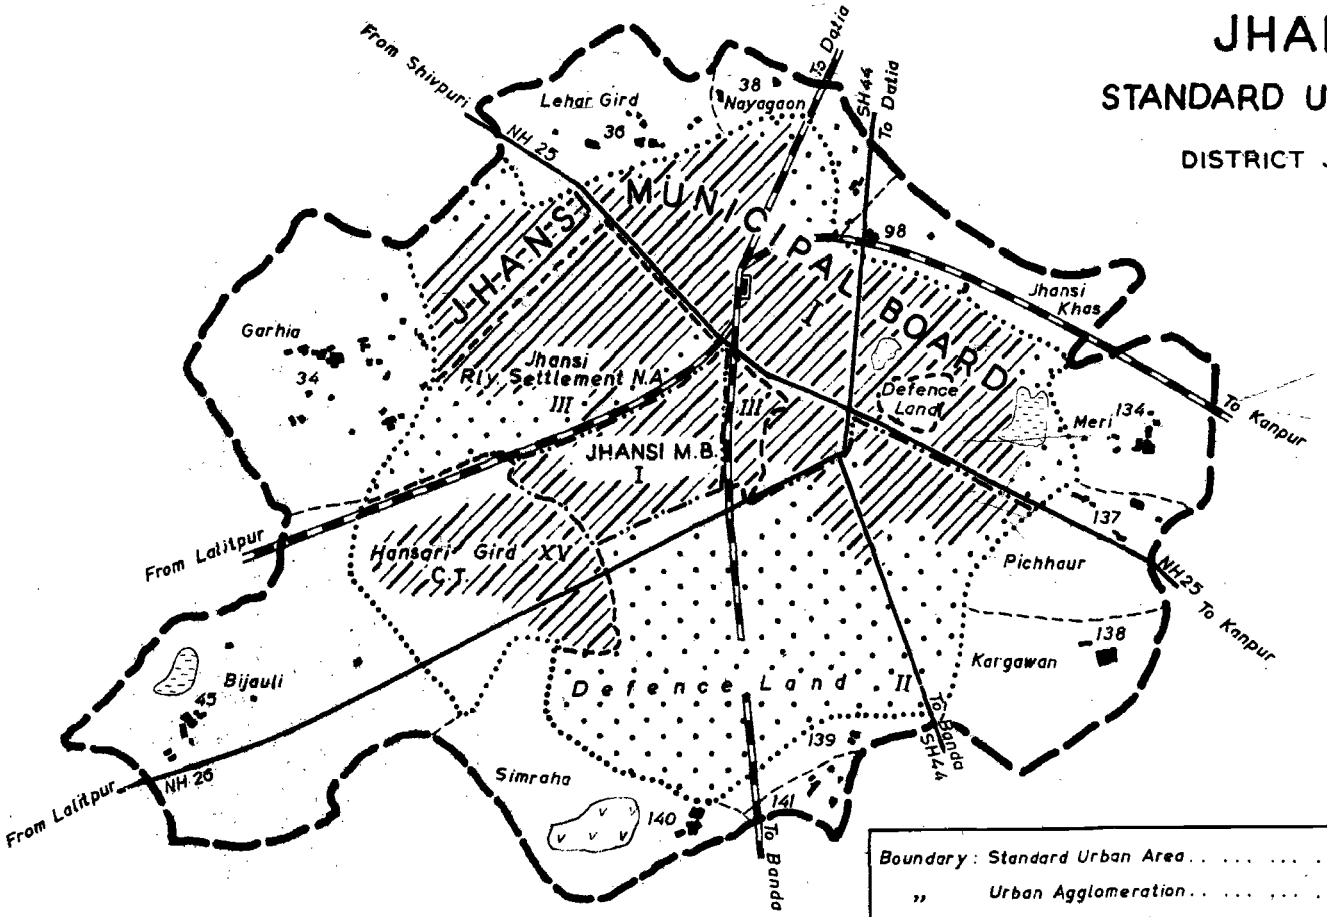

Standard Urban Area, Jhansi

Unit	Total population 1981	Density per km²	Growth rate 1971-81	Literacy (per cent)	Sex ratio	Work participation rate (per cent)	Percentage of workers in household industry & other workers	Scheduled castes		Scheduled tribes

STANDARD URBAN AREA
DISTRICT BANDA

33. Banda

Situated on the right bank of river Ken in Bundelkhand division of the state Banda M. B. has a population of 72,379 in 1981 and is a Class II town, a status which it acquired in 1971 Census.

The population of the town has shown a growth rate of 43.11 per cent during the last decade as against 33.99 per cent during the decade 1961—71.

State Highway No. 13 connects the town with Fatehpur. State Highway No. 44 also passes through the town and connects it with Jhansi, Mahoba and Allahabad. The town is also served by Jhansi-Manikpur and Banda-Kanpur broad gauge railway lines. Growth of the town is mainly taking place along Banda-Chilla, Banda-Baberu and Banda-Tindwari roads. River Ken is acting as the main constraint for the development of the town in the west and Nimmi Nala in the south being highly ravinous. Jhansi-Manikpur railway line which passes through the town is also a deterrent to it normal growth.

Banda Standard Urban Area has been added in the list of Standard Urban Area for the first time in 1981. It comprises Banda M. B. and ten villages on the periphery of the town. The total area of the Standard Urban Area is 136.79 square kilometres with a density of 638 persons per square kilometre.

The following table gives the demographic characteristics of the Standard Urban Area.

Standard Urban Area, Banda

Unit	Total population 1981	Density per km²	Growth rate 1971-81	Literacy (per cent)	Sex ratio	Work-participation rate (per cent)	Percentage of workers in household industry & other workers	Scheduled castes		Scheduled tribes

34. Sitapur

Sitapur M. B. has a population of 101,210 in 1981. It has emerged as a Class I town in this Census. The population of the town has grown at a very fast rate (51.71 per cent) during the last decade. The growth rate during 1961—71 was only 23.81 per cent. The town has tended to grow in the east and west directions. The trend of growth along the main channels of communication is clearly visible. River Sarain in the west, river Gadia in the south and some low-lying areas in the north are physical constraints to the growth of the town.

The Sitapur Standard Urban Area consists of Sitapur M. B. alone covering an area of 25.90 square kilometres. Its density of population is 3,908 persons per square kilometre.

The following table gives data on some important socio-economic features of the Standard Urban Area.

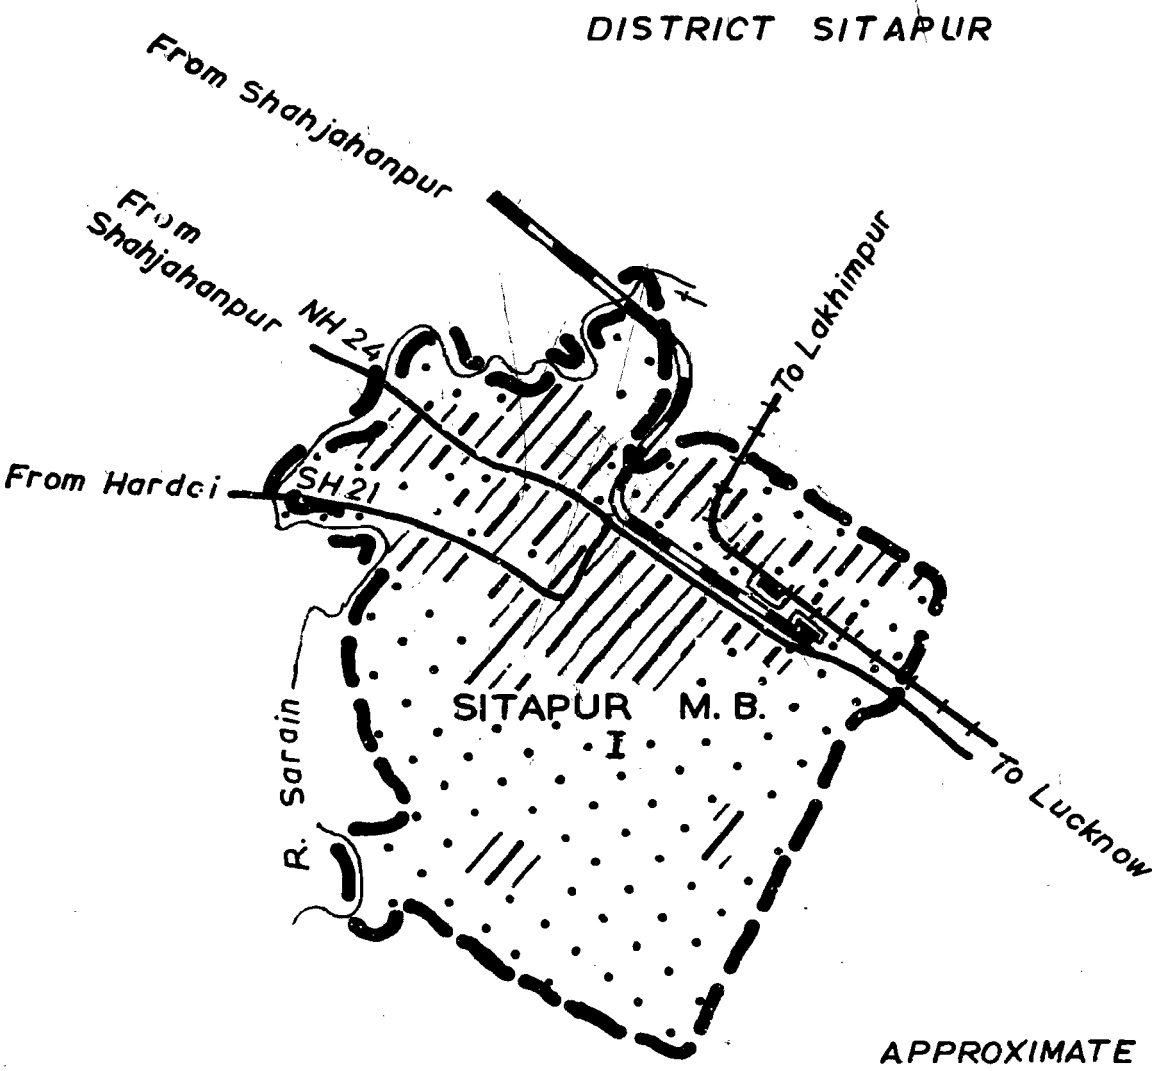

Standard Urban Area, Sitapur

35. Lucknow

Lucknow city is the second largest city of Uttar Pradesh after Kanpur and is one of the five KAVAL towns of the State. It is the capital of the state. Lucknow. M. C. has a population of 895,721 in 1981. The rate of growth of its population during 1971—81 was moderate 19.55 per cent having come down as compared to of 25.83 per cent during 1961—71.

Lucknow is a historical town with clear impressions of Nawabs, the British regime and the post independence developments. Since long it has been a centre of art, culture and political activity. The town is developing mostly towards the north and north-east in the trans-Gomit area. Ravines and water logged areas in the north-west and cantonment in the south-east restrict the growth of the town. The growth of the town is associated with the expansion of the Government activities mostly taking place along the Kanpur road in the south, the Sitapur road in the north and the Faizabad road in the north-east directions.

The Lucknow Standard Urban Area comprises Lucknow M.C. along with Ram Sagar Misra Nagar and HAL Colony, Aliganj Extension Scheme, Hind Nagar Colony and PAC. Area outgrowths, Lucknow Cantonment, Charbagh-Alambagh N.A. and 121 peripheral villages of Lucknow tahsil. During the last decade the villages Bastauli and Ghazipur Saidunnisan and parts of the villages Ismailganj and Ujaryan have formed Ram Sagar Misra Nagar outgrowth. Parts of villages Behsa and Alinagar Sonahra have developed into Hind Nagar and PAC Area outgrowth, and parts of villages Mohibullahpur Usmanpur and Bathna Salsuli formed Aliganj Extension Scheme outgrowth. The total population of the Standard Urban Area is 1,174,387 persons spread over 430.65 square kilometres giving a density of 2,727 persons per square kilometre.

Data on some important demographic characteristics of the Standard Urban Area is presented below

Standard Urban Area, Lucknow

Unit	Totol population 1981	Density per km²	Growth rate 1971-81	Literacy (per cent)	Sex ratio	Work participation rate (per cent)	Percentage of workers in household Industry & Other workers	Scheduled castes		Scheduled tribes

36. Bahraich

Located in the trans-Ghaghra tract close to the Nepal border, Bahraich M. B. has a population of 99,889 persons in 1981. Bahraich is the first among the Class II towns of the state. The population of the town is growing at a very fast pace, 35.11 per cent during 1971—81 as against 31.94 per cent during 1961—71.

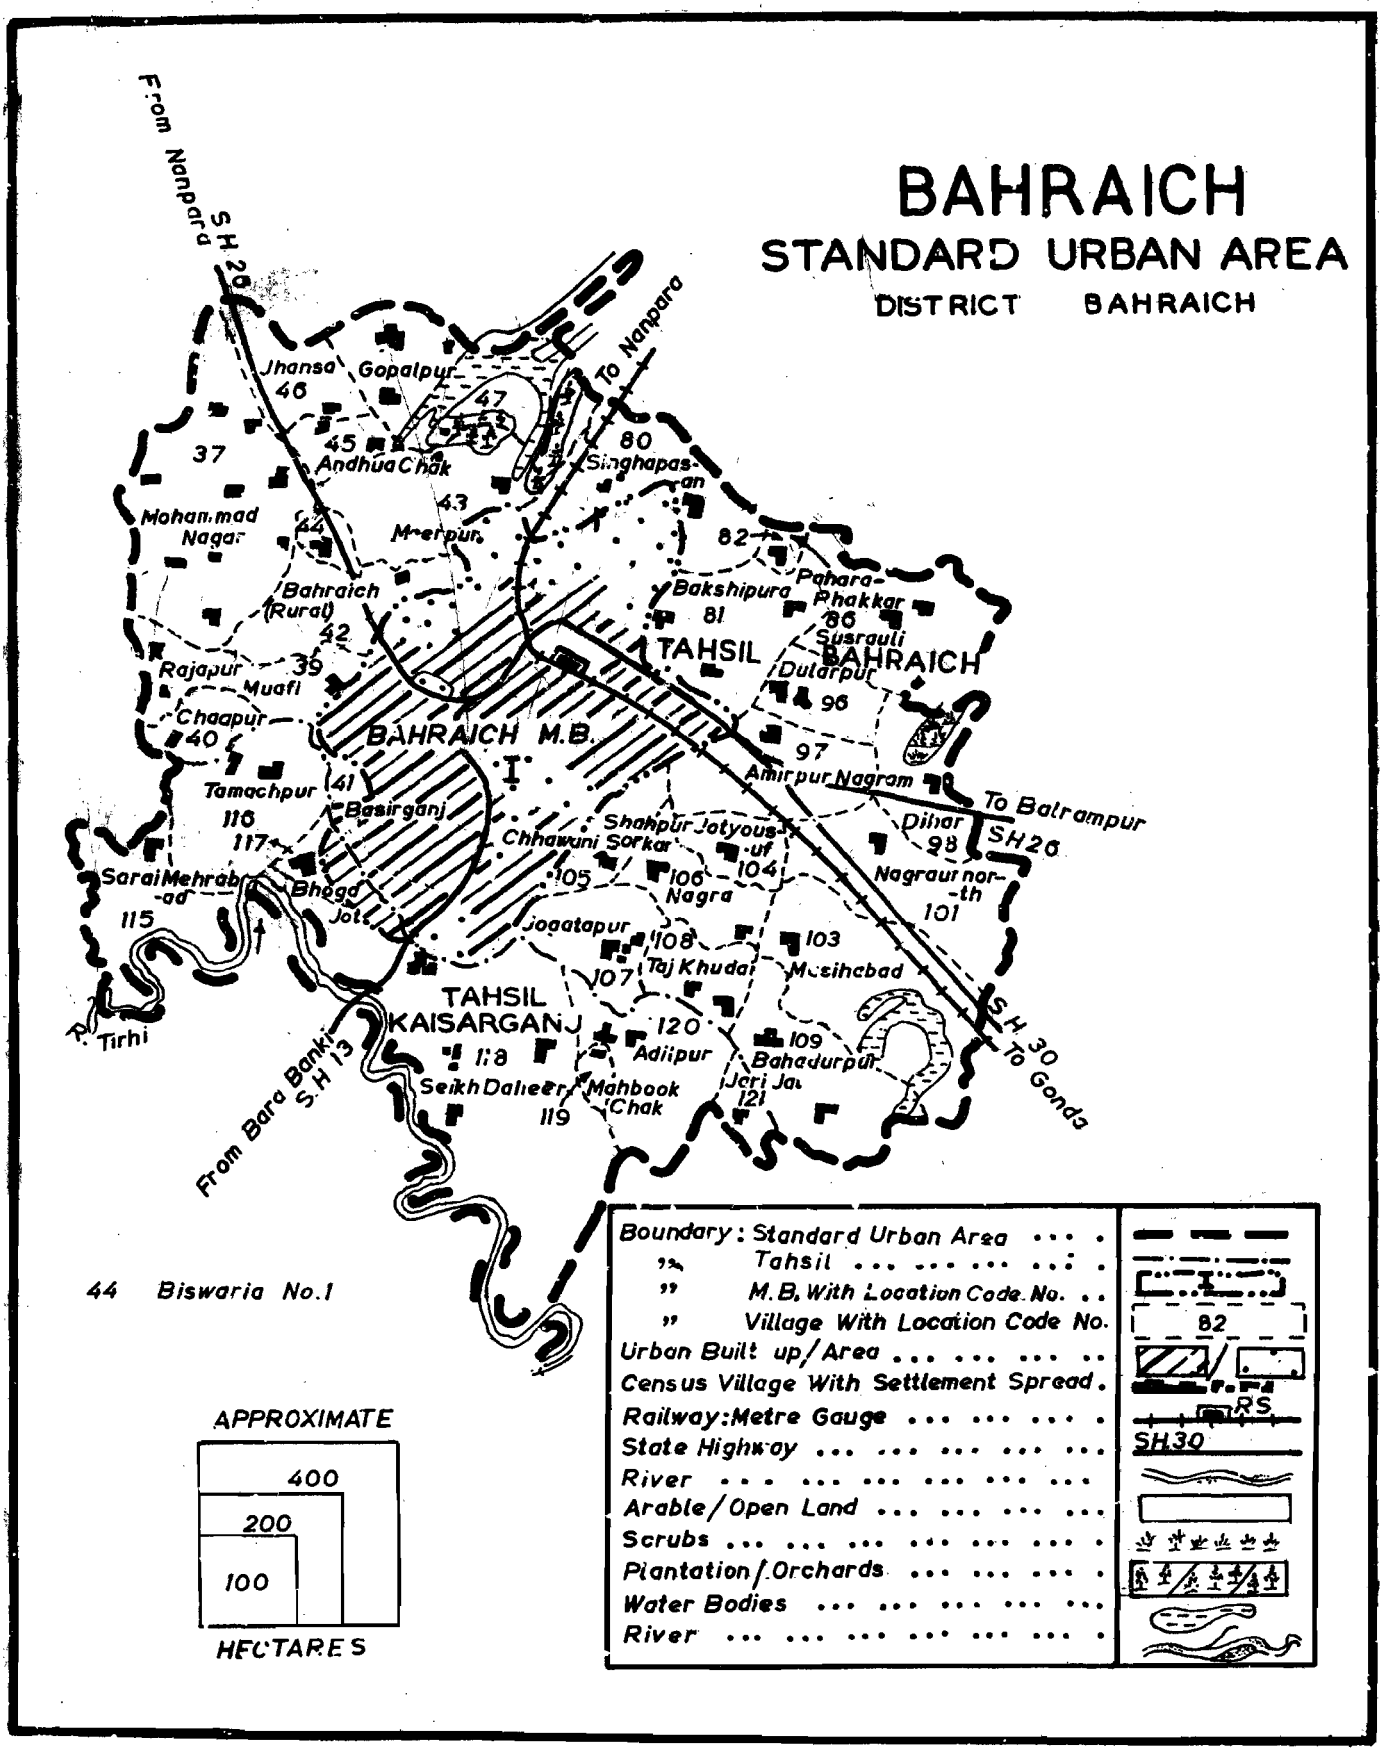

The town has tended to grow in the east and west directions. River Sarju, water logged areas to the south-west and low-lying areas to the north of the town are constraints to the growth of the town in these directions.

The Bahraich Standard Urban Area consists of Bahraich M. B. and 32 peripheral villages, 7 belonging to tahsil Kaiserganj and 25 to tahsil Bahraich. During the last decade the villages Bahraich rural, Meerpur, Singhaspasan, Bakshipura, Amirpura Nagram and Chhawani Sarkar have partly merged in Bahraich M.B. Spread over 84.19 square kilometres the Bahraich Standard Urban Area has a population of 127,799 with a density of 1518 persons per square kilometre.

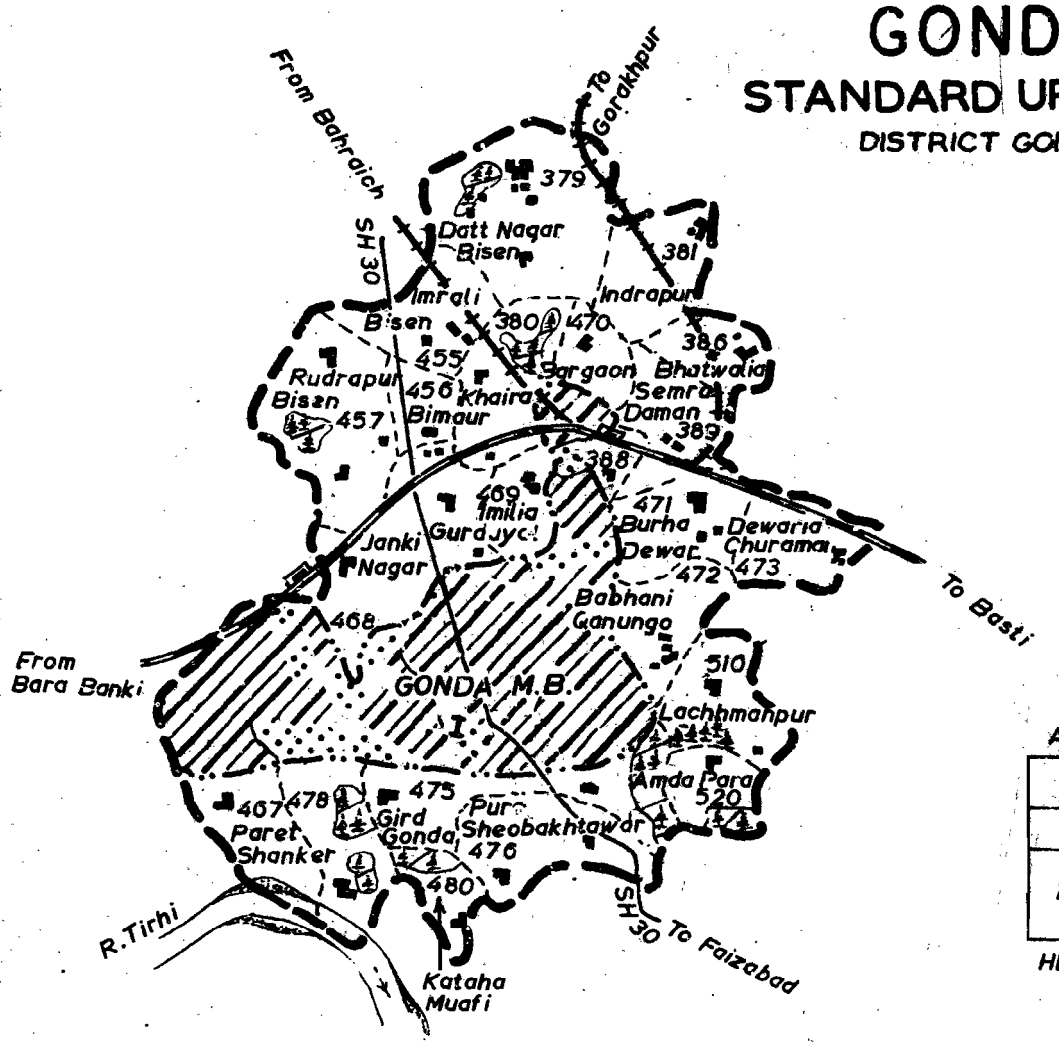

Data on some of its important demographic characteristics is presented in the table below.

Standard Urban Area, Bahraich

37. Gonda

Gonda M. B. is a Class II town with a population of 70,847 in 1981. The population of the town during the last decade has grown by 34.53 per cent, comparatively faster than 21.07 per cent during 1961—71. The town is developing at a moderate rate generally in all the dircetions. River Tirhi to the south is a physical constraint to its expansion in that direction. It is one of the backward towns of the state.

The Gonda Standard Urban Area consists of Gonda M. B. and 22 neighbouring villages of Gonda tahsil. Spread over an area of 51.75 square kilometres, it has 96,477 inhabitants with 1,864 persons per square kilometre. Data on some important demorgraphic characteristics is presented below.

Standard Urban Area, Gonda

38. Faizabad

Faizabad M. B. with a population of 101,873 in 1981 is a Class I city. Population of this town has remained almost static during the last decade. The growth rate during 1971—81 was (—) 0.94 per cent as against 22.84 per cent during 1961—71. Faizabad-*cum*-Ayodhya M. B. of 1971 split into Faizabad M. B. and Ayodhya M. B. in 1981. The population of Ayodhya M. B. in 1981 is 30,500. Located on the right bank of river Ghaghra (also called Sarju) the town, particularly Ayodhya, is an important religious place for the Hindus.

The town is developing quite fast. The newly constructed bridge on river Ghaghra in Ayodhya is expected to speed up its development. The establishment of Awadh University, Acharya Narendra-Deo Agricultural-*cum*-Technical University and a mandi in the town has given further impetus to its development. The town is developing towards the south and west directions. River Ghaghra to the north and the cantonment are constraints to urban development of the town.

The Faizabad Standard Urban Area consists of Faizabad M. B., Faizabad Cantonment, Ayodhya M. B. and 21 peripheral villages of Faizabad tahsil. It is spread over an area of 94.85 square kilometres. Inhabiting 161,784 persons, the average density of the Standard Urban Area is 1,706 persons per square kilometre.

The following table gives data on some important socio-economic characteristics of the Standard Urban Area.

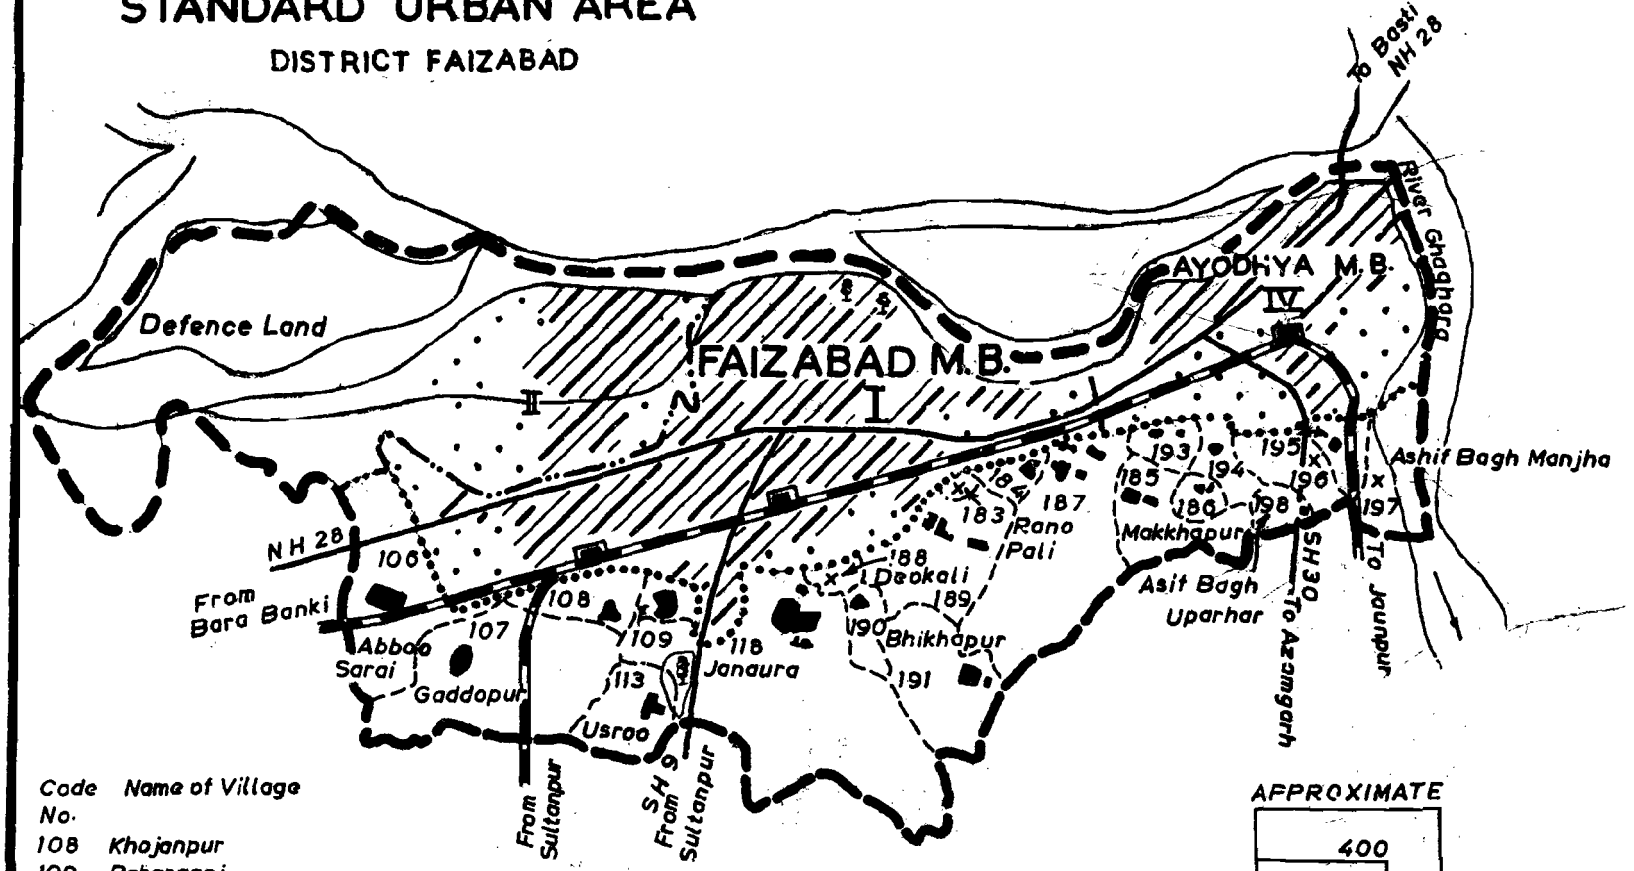

Standard Urban Area, Faizabad

39. Gorakhpur

Gorakhpur M. C. a Class I city since 1951, has a population of 290,814 in 1981. The population of the city has increased by a moderate 25.94 per cent during 1971—81, a little lower than 28.10 per cent during 1961-71. Headquarters of the North Eastern Railway, Geeta Press and Gorakhpur University are located in the city.

The town has tended to grow towards the north along the roads leading to Maharajganj and Nautanwa and towards the southern side of Deoria road. Establishment of a fertilizer factory in the town has resulted in the coming up of Gorakhpur Fertilizer Notified Area. It has also resulted in the establishment of ancillary industries. As a result of these developmental activities new outgrowths of Basharatpur, Jatepur Uttari and Humayunpur Uttari have come up. Rivers Rapti and Robin, the low-lying areas in the west and south, the defence areas and the forests in the east are constraints to the growths of the town in these directions.

The Gorakhpur Standard Urban Area consists of Gorakhpur M. B. along with Basharatpur, Jatepur Uttari and Humayunpur Uttari outgrowths, Gorakhpur Fertilizer and 53 neighbouring villages of Gorakhpur tahsil. During the decade 1971—81, the whole village Gorakhpur Fertilizer Factory and part villages Jl. Beni Madho No. I and II have formed Gorakhpur Fertilizer N.A. Parts of the villages Basharatpur, Jatepur Uttari and Humayunpur Uttari have formed outgrowths to Gorakhpur M. B. The village Jl. Kakim No. I has been included in the Standard Urban Area in place of Bhilampur-*urf*-Bhagwanpur while streamlining its boundary. Covering 103.95 square kilometres, the Standard Urban Area has 385,402 inhabitants with 3708 persons per square kilometre.

The following table gives some important socio-esonomic data of the Standard Urban Area.

Standard Urban Area, Gorakhpur

40. Maunath Bhanjan

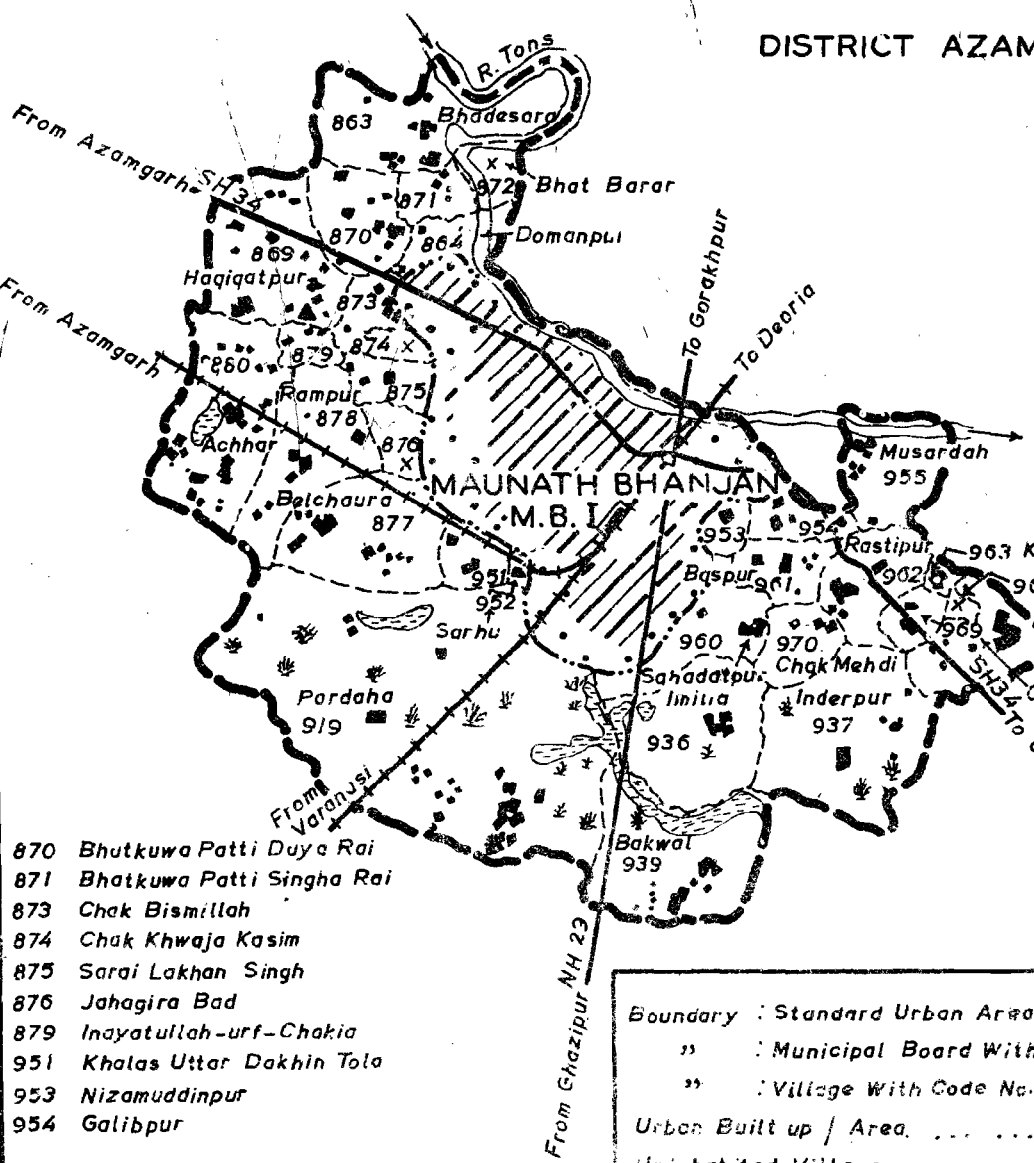

Maunath Bhanjan M.B. of Azamgarh district a Class-II town, has 86,326 inhabitant in 1981. The population of the town has been increasing at an impressive rate of 34.76 per cent during 1971—81 and 31.31 per cent during 1961—71. The town is known for its handlooms, an industry run on household basis. The town has tended to grow in the east, west and south directions. River Tons in the north is a physical constraint to its development in that direction.

The Maunath Bhanjan Standard Urban Area is constituted by Maunath Bhanjan M.B. and 31 neighbouring villages of Muhammadabad tahsil. Inhabited by 112,300 persons, covering 52.37 square kilometres, the Standard Urban Area has a density of 2,144 persons per square kilometre. Some important demographic data of the Standard Urban Area is presented below.

Standard Urban Area, Maunath Bhanjan

41. Jaunpur

Jaunpur M.B., a Class I town, has a population of 105,140 in 1981. The growth rate of its population has remained almost stable, 30.23 per cent in 1971-81 against 30.53 per cent in 1961—71. It is a historic town and an important commercial centre. Manufacture of oil and perfumery rae its prominent industries. The town has tended to grow in north, east and south directions. Low-lying areas along the river Gomti passing through the town are physical constraints to its urban development.

The Jaunpur Standard Urban Area consists of Jaunpur M.B. and 68 peripheral villages of Jaunpur tahsil. The villages Jagdishpur, Chitrasari, Dhanmupur, Basahupur and Haiderpur have been added in 1981 to the frame. Spread over 49.33 square kilometres the Standard Urban Area with a population of 127,624 has 2,587 persons per square kilometre.

The following table gives some of its socio-economic characteristics.

Standard Urban Area, Jaunpur

42. Varanasi

Varanasi is one of the five KAVAL towns in Uttar Pradesh and ranks third among the cities in the state. Varanasi M.C. has a population of 708,647 in 1981. Its population has grown at a moderate rate of 21.37 per cent during 1971—81 and 23.89 per cent during 1961-71. Varanasi city comprises of Varanasi M.C. and its outgrowths, Varanasi Contonment and Kashi Vishwa Vidyalaya N. A. Tulsipur, Sheodaspur, Karaundi and Ashapur have been delieneated as outgrowths of Varanasi M.C. for the first time in 1981. Located on the left bank of the sacred river Ganga, Varanasi (called Kashi) is a holy city of the Hindus and thus an important pilgrimage centre. The important traditional household industries of the city are silk-weaving, carpet-weaving, manufacture of brass utencils and wooden toys. Mughalsarai railway yard located at a distance of only 10 miles from Varanasi across the Ganga has come up as an important industrial commercial centre.

The town has developed mainly along the channels of communication, in all directions. River Ganga to the east river Veruna to the north and contonment to the north-west of the town are physical constraints to its development.

The Varanasi Standard Urban Area includes Varanasi M.C. with Varanasi Railway Colony Tulsipur, Sheodaspur, Karaundi and Ashapur outgrowths, Varanasi Cantonment, Kashi Vishwa Vidyalaya N.A., Maruadih Railway Settlement N.A. and Maruadih outgrowth, Ramnagar M.B., Phulwaria T.A., Mughalsarai M.B., Mughalsarai Railway Settlement N.A. Lohta C.T. Kotwa C.T. and 262 peripheral villages, (154 of Varanasi tahsil and 108 of Chandauli tahsil). The village Chitharya of Varanasi tahsil has been added newly to the Standard Urban Area. During 1971-81, the villages Rasulgarh, Sandaha, Chhataripur, Hatia, Tarana, Hasimpur, Majhbhitiya, Chitharya, Kadipur, Bhikaripur Kalan, Bhikaripur Khurd, Karkar Mutta, Chhittupur of Varanasi tahsil have been partly included in Varanasi M.C. The villages Pahtara, Lakhimpur, Orhwar, Chhirh, Bechupur, Koorh Kalan, Taranpur, Parasrampur, Mawai Khurd, Chandausi, Parahupur, Mahmoodpur, Ghidhauli and Jagdishpur are wholly merged in Mughalsarai M.B. and village Moghal Chak partly in Mughalsarai M.B. The villages Ashapur, Sheodaspur, Karaundi, Tulsipur and Maruadih have been treated as outgrowths of Varanasi. Villages Kotwa and Phulwaria have been treated as census town in 1981. Covering an area of 384.12 square kilometres the Varanasi Standard Urban Area with 1,121,694 inhabitants has 2,920 persons to a square kilometre. Some important demographic data of the Standard Urban Area are presented below :

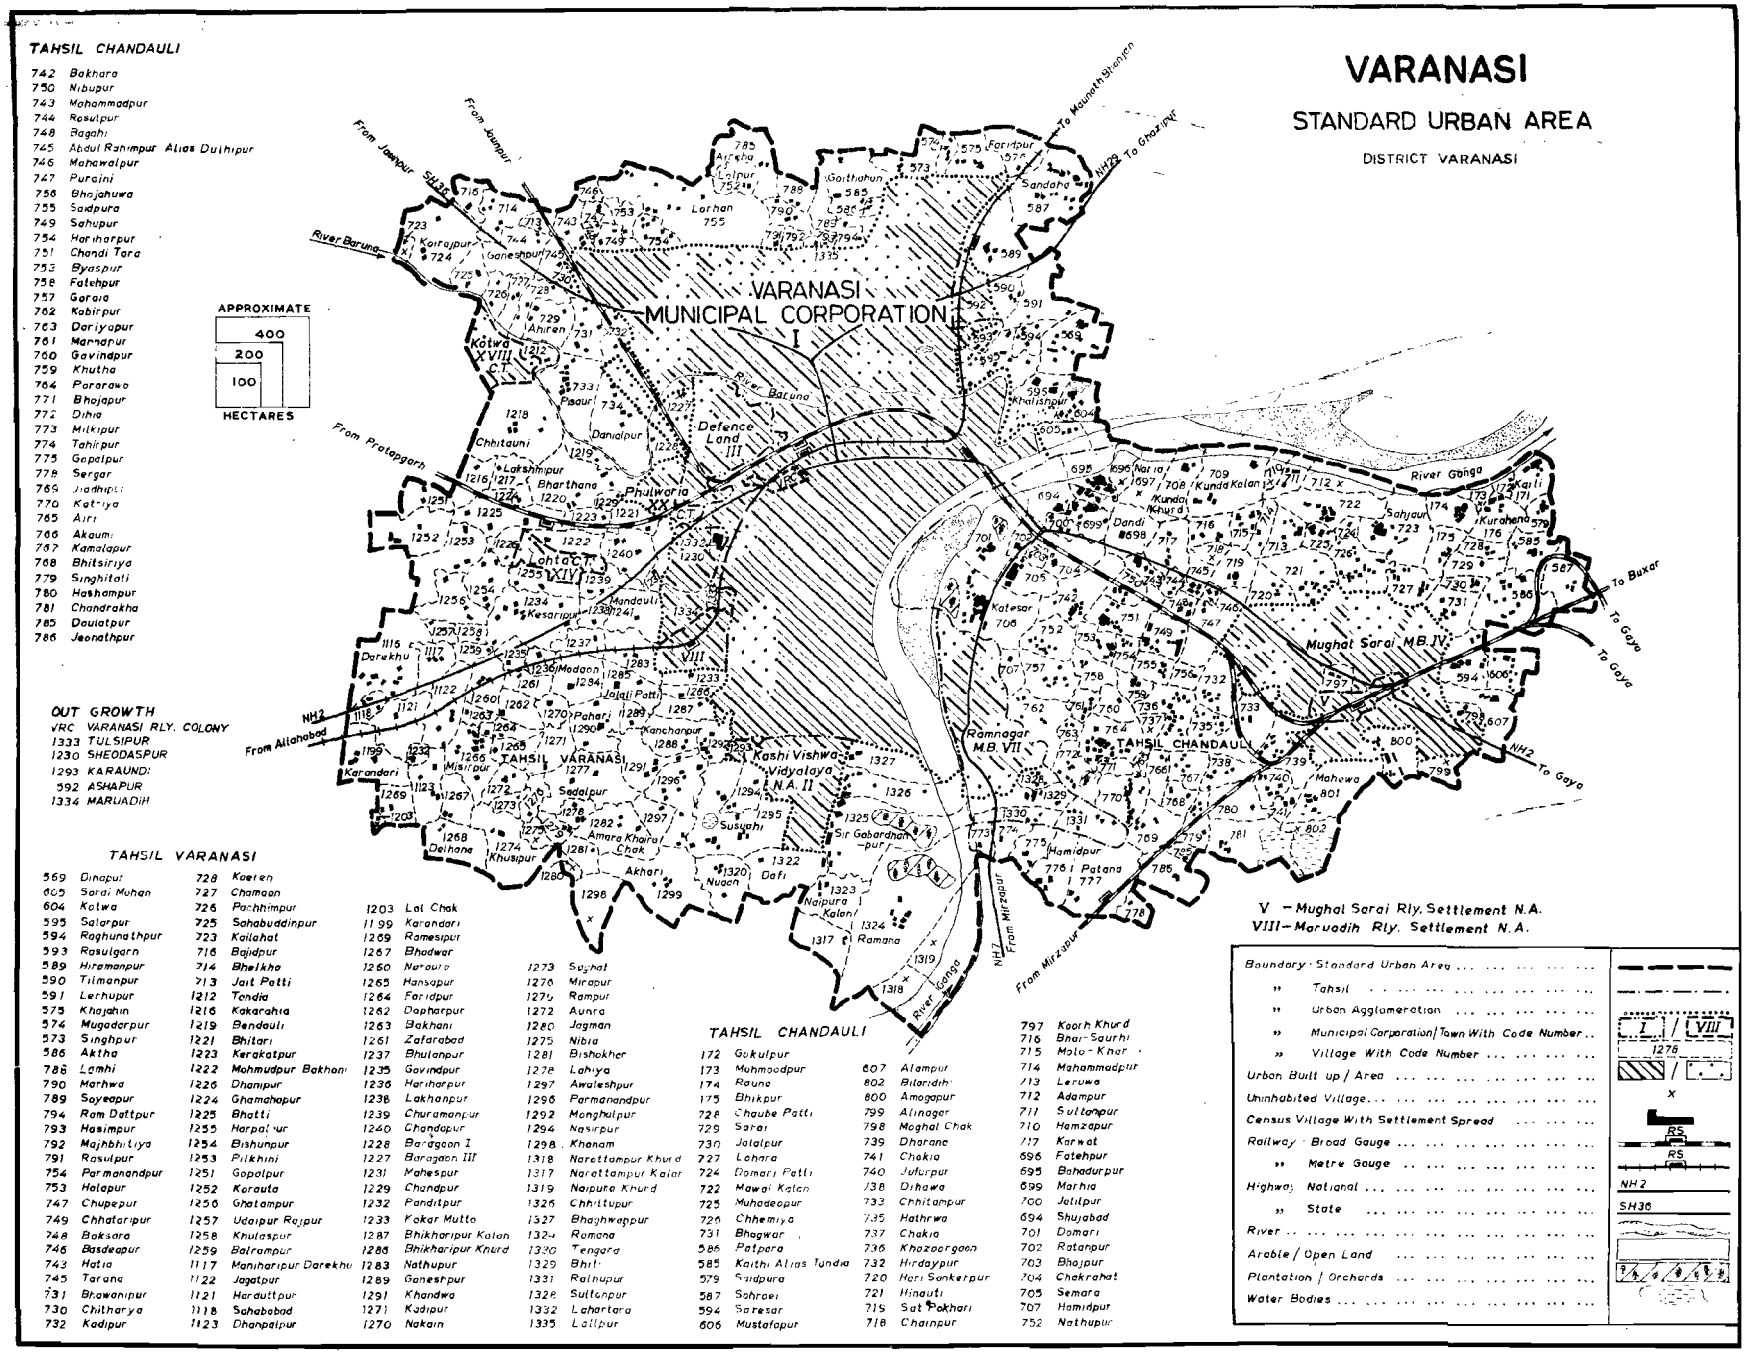

Standard Urban Area, Varanasi

43. Mirzapur

Mirzapur-*cum*-Vindhyanchal M.B. has a population of 127,787 in 1981. Located on the right bank of the river Ganga, the town is an important centre for the manufacture of *durriees*, carpets, blankets and utencils. The population of the town has risen by a moderate 20.62 per cent during 1971-81 as against a very low rate of 5.84 per cent during 1961-71.

The town has tended to grow along the river Ganga and along the channels of communication. Developmental activities are sighted towards the north-east, west and south-west of Mirzapur and to the south of Mirzapur railway station. The area to the north and north-east of Mirzapur and east of Vindhyanchal is prone to floods from the Ganga and is not fit for urban development.

The Mirzapur Standard Urban Area is comprised of Mirzapur-*cum*-Vindhyanchal M.B. and 72 neighbouring villages of Mirzapur tahsil. Total population of the Standard Urban Area is 173,584 persons spread over 103.66 square kilometres with an average density of 1675 persons per square kilometre. Data on basic demographic characteristics of the Standard Urban Area is presented below.

Standard Urban Area, Mirzapur
