PREFACE

The information contained in this Paper relates to the main religions of the inhabitants of Himachal Pradesh The data is based on the information collected in Part I of the Household Schedule (Census of India 1981) in the case of normal and houseless households In the case of institutional households, the question relating to the religion of the head of the household was not canvassed and the information in respect of the inmates of institutional households has therefore been extracted from Question No 8 of the Individual Slip (Census of India 1981) which relates to the religion of the person enumerated The Paper is being brought out to meet the demand of the scholars and other data-using agencies The information on six major religions viz Buddhists, Christians, Hindus, Jains, Muslims and Sikhs besides 'Other religions and persuasions' and 'religion not stated' has been given alongwith Appendix 'A' dealing with details of religions shown under 'Other religions' and persuasions having population of 100 or more in main table HH-15 and Appendix 'B' concerning details of 'Other religion and persuasions' the strength each of which is less than hundred in main table HH-15 Annexure 'C' and 'D' relating to the information on Urban Agglomeration whose jurisdiction cut across the district/tahsil boundaries are not included in this volume as there is no such case in this state

2 The majority of population i e 95 77 per cent of the total population of the state has returned their religion as Hindus Muslims, Buddhists, Sikhs and Christians constitute 1 63, 1 23, 1 22 and 0 09 per cent respectively of the total population

3 Shri K L Negi,the Director of Census Operations under whose stewardship and able guidance the entire Census Operations were carried out deserves the credit of completion of this gigantic task He had to leave the organisation for taking up other important assignment in his parent state of Karnataka before this Paper could be finalised Therefore, on his behalf, I take this opportunity in expressing my deep gratitude to Shri P Padmanabha, former Registrar General and the Census Commissioner and Shri V S Verma, the present Registrar General & the Census Commissioner, India, and Shri V P Pandey, Joint Registrar General,India, for the overall direction and encouragement that I got from them in bringing out this Paper I am also thankful to Shri N Rama Rao, A R G (C & T) and Shri Madan Singh, S R O for their guidance which enabled us to bring out this Paper

4 The compilation work in this Directorate was done under the supervision of Shri T N Bharat, Investigator I shall feel amply rewarded for bringing out this Paper if it meets the requirements of the data users

INTRODUCTORY NOTE

Religion is one of the important cultural characteristics of the Indian population Almost all the countries of the world collect and publish the data regarding the religious composition of its population at Census The information regarding the religion of the persons is being collected in one form or the other right from the inception of census in the country In a secular state like India, several religions have thrived and every decennial census provides an interesting picture of the religious composition of the people inhabiting the different parts of the country The data on religion thrown up by the census are of great interest to the administrators, social scientists, scholars as well as the laymen The data so collected are being published in the various census reports At the census count a variety of answers might have been provided to the questions on religion some spurious and some merely sects to a major religion The enumerator was bound to record the information on religion as given by the respondent In other words, there was no choice available with the census enumerator except to record faithfully the religion returned by the person being enumerated

For the 1981 Census question on religion was incorporated in the Individual Slip filled in for every person and in part I of the Household Schedule filled in for a Head of Household In question No 8 of the Individual Slip, the religion of the person enumerated was recorded as returned In question No 2 of Part I of the Household Schedule, the religion of the head of the household as returned was entered For institutional households, the details about the religion were not enquired as members might be professing different religions

For the purpose of census, a household is defined as group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so There may be a household of persons related by blood or a household of unrelated persons or having a mix of both Examples of unrelated household are boarding houses, messes, hostels, residential hostels, rescue homes, Jails and Ashrams These are called institutional households There may be one member household, two members household or multi members household For census purposes, each one of these types is regarded as household The important link in finding out a household is the existence of a common kitchen In the case of institutional households, the information on religion of the head of the household was not collected in Part I of the household schedule However, the information on religion of each inmate of the institutional households was collected in the Individual Slip filled in by the enumerator for every person in institutional household

The instructions to the enumerator for filling up question 2 on religion of the head of the household in the household schedule are given below

> "You have to record the religion of the head of the household as given by him against this question While writing the religion, you have to write the abbreviation as follows on the line against this quest on and not in any dotted boxes provided at the end of the dotted line against this question
>
> Buddhists B
>
> Christians C
>
> Hindus H
>
> Jains J
>
> Muslims M
>
> Sikhs S
>
> For others' record actual religion as returned If a person says that he has no religion, it may be recorded clearly If a person refuses to state his religion you may write 'religion not stated' You may not enter into any argument with the household for filling up this question You are bound to record faithfully whatever religion is returned by head of the household For institutional households, put 'X' against this question"

Summary Himachal Pradesh is predominantly inhabited by persons belonging to Hindu religion while persons professing other religions have got a microscopic strength The following were the main religious communities arranged in alphabetical order at state level

STATEMENT

Religious Community	Persons	Males	Females	Sex ratio (females per 1 000 males)	Religious Community	Persons	Males	Females	Sex ratio (females per 1 000 males)
1	2	3	4	5	1	2	3	4	5
Buddhists	52,629	27,483	25,146	915	Jains	1,046	548	498	909
Christians	3,954	2,013	1,941	964	Muslims	69,613	38,415	31,198	812
Hindus	4 099,706	2,072,391	2,027,315	978	Sikhs	52,209	28,116	24,093	857

Out of the total population of 4 280,818 the Hindus number 40,99,706 persons or constitute 95 77 per cent of the total population of the state Muslims constitute a proportion of 1 63 per cent of the total population of the state In other words, the Muslims population of the state as per 1981 Census stood at 69,613 The Buddhists comprise of 52,629 persons closely followed by Sikhs with 52,209 persons while Christian population comes to only 3,954 Barely 1,046 persons belonging to Jain religion have been returned in the state In terms of percentages, Buddhists constitute 1 23 per cent of the state population closely followed by Sikhs with 1 22 per cent while the Christians and Jains each share a proportion of less than 1 per cent The sex ratio for the state as a whole as per 1981 Census comes to 973 females per 1,000 males The religion-wise study of sex ratio will be of interest to sociologists, demographers and other data users As per 1981 Census the sex ratio works out to be 978 for Hindus which is the highest of all the religions closely followed by Christians with 964 females per 1,000 males while the sex ratio among the Buddhists comes to 915 and that of Jains 909 The persons belonging to the Muslim religion have the lowest sex ratio i e 812 females per 1,000 males and Sikhs rank second lowest in this respect having the sex ratio of 857 In the absence of the detailed information, it is difficult to give reasons for the wide variation in the sex ratio

The percentage of population accounted for by each of these major religious communities in 1981 Census and the rate of decadal growth of population during 1971—81 for the state as a whole are given below

STATEMENT

Religious Community	Percentage to total population	Decadal growth rate per centage 1971 81	Religious Community	Percentage to total population	Decadal growth rate per centage 1971-81
1	2	3	1	2	3
Buddhists	1 23	+46 45	Jains	0 02	+67 09
Christians	0 09	+11 19	Muslims	1 63	+38 32
Hindus	95 77	+23 31	Sikhs	1 22	+16 24

As already mentioned above, the majority of the population of Himachal Pradesh belongs to Hindu religion The Muslims share a proportion of 1 63 per cent of the state population and ranks second with regard to the numerical strength of the persons The Buddhists occupy the third position with a proportion of 1 23 per cent of the state population closely followed by Sikh having a proportion of 1 22 per cent Regarding the decadal growth rate of various major religious communities in the state, it may be noticed that persons belonging to Hindu religion showed a growth rate of 23 31 per cent during the decade 1971—81 against the total growth rate of 23 71 per cent From the above statement it is evident that highest growth rate (67 09 per cent) is in the case of persons belonging to the Jain religion Buddhists have returned a growth rate of 46 45 per cent which is the second highest in the state while the growth rate among the Muslims works out to be 38 32 per cent The Sikhs population increased by 16 24 per cent during the decade 1971—81 The lowest growth rate has been found in the case of Christians i e 11 19 per cent The highest growth rate is among Jains which can be attributed to the small fraction of the total population

The distribution of major religious communities between rural and urban areas will give the idea of concentration of population in these areas of the state Himachal Pradesh has predominantly rural characteristics and urban population constitute just 6 93 per cent of the total population of the state

STATEMENT

Religious Community	ral population	Percentage of rural population	Urban population	Percentage of urban population	Religious Community	Rural population	Percentage of rural population	Urban population	Percentage of urban population
1	2	3	4	5	1	2	3	4	5
Buddhists	45,148	1 14	7,481	2 29	Jains	212	0 01	834	0 26

Hindus	3,809,269	96 32	290,437	89 10	Sikhs	35,997	0 91	16 212	4 97

Hindus constitute a proportion of 96 32 per cent of the total rural population of the state whereas in the urban areas this percentage comes to 89 10 per cent Muslims population constitute 1 54 per cent of the total population in the rural areas whereas in the case of urban areas this proportion is to the extent of 2 65 per cent Sikhs constitute 0 91 per cent of the total rural population of the state and share a proportion of 4 97 per cent of the urban population Buddhists constitute a proportion of 1 14 per cent in the rural areas and 2 29 per cent in the urban areas Jains are mostly concentrated in the urban areas Only 212 persons of this religion have been returned from the rural areas as against 834 in the urban areas It is evident from the above statement that except for Hindu religion, the concentration of other religions is more in the urban areas as compared to the rural areas of the state

Statement 4 shows the population and growth of six major religions i e Hindus, Muslims, Buddhists, Christians, Jains and Sikhs, other religions and persuations' and 'religion not stated' during 1971—81 at state and district levels

The population of the state increased by 23 71 per cent during the period 1971—81 The highest growth rate has been observed in Solan district (27 75 per cent) followed by Bilaspur (26 99 per cent), Sirmaur (25 27 per cent) while the lowest growth rate has been observed in Lahul & Spiti (16 44 per cent) and second lowest in Kinnaur (19 49 per cent)

The Buddhist population increased by 46 45 per cent in the state Chamba and Solan districts have returned a minus growth rate with regard to the Buddhist population whereas the maximum growth rate has been noticed in Una district where the persons professing Buddhism increased from 1 in 1971 to 21 in 1981

The Christian population of the state witnessed a growth rate of 11 19 per cent during the period 1971—81 During this period, the districts of Lahul & Spiti, Sirmaur and Shimla recorded a decline in the Christian population whereas in other districts of the state, it has increased

The growth rate of persons belonging to Hindu religion comes to 23 31 per cent for the state as a whole The highest growth rate has been observed in Solan district (27 25 per cent) followed by Bilaspur (26 83 per cent), Sirmaur (24 47 per cent), Chamba district (23 93 per cent) and Kulu district (23 84 per cent) The lowest growth rate has been returned from Lahul & Spiti district (2 61 per cent) and Kinnaur district (5 38 per cent) is the second lowest The lower growth rate in these two districts can be attributed to the fact that 58 62 per cent of the total population consists of Buddhists in the former while 24 23 per cent are in the latter district Another possible reason of low Hindu population in these two districts can be the migratory character o population which moves out to other places with on set of winter season

The Jain population showed a growth rat 67 09 per cent in the state as a whole ex Sirmaur district where the population has decre from 130 in 1971 to 124 in 1981 The other dis which showed a negligible increase in the Jain pop tion is Shimla where the population has incre from 126 in 1971 to 127 in 1981 Due to si population of Jains the districtwise growth rate not depict the correct position

The Muslim population of the state has incre by 38 32 per cent during 1971—81 The percen increase varies between 160 71 per cent in Kini district to 10 46 per cent in Hamirpur district L & Spiti district has, however, shown a downward ti where the population has decreased from 40 in to 14 in 1981 The abnormal increase in percen noticed in the case of Kinnaur district may be a buted to the small population of Muslims, i e , 2 1971 and 73 in 1981

The Sikh population showed a growth rat 16 24 per cent during 1971—81 in the state whole Districtwise Chamba has witnessed highest increase-the population has increased f 876 in 1971 to 1,646 in 1981 In terms of perce ges, the growth rate comes to 87 70 per cent fol ed by Solan district where the Sikh popula increased by 43 00 per cent In Kinnaur, the gro rate comes to 7 25 per cent while in Kangra 12 91 per cent The districts which have registe a negative growth rate are Mandi (14 62 per ce Lahul & Spiti (31 19 per cent) and Shimla (27 per cent)
