PREFACE

The paper "Household population by religion of head of household upto circle/town level" contains the data on religion of the household population on the basis of information on religion of the head of the household. These data were collected during the 1981 Census enumeration through the household schedules. Information pertaining to six major religions namely, Hindus, Muslims, Christians, Sikhs, Buddhists, Jains and "Other religions and persuasions" and 'religion not stated' is being published in the present paper as Paper 2 of 1985. The presentation of data is at Arunachal Pradesh, District, Circle and Town levels with rural-urban break-ups. In addition to the main table HH-15 two more tables have been appended as Appendix A and Appendix B. The details of the religions shown under 'other religions and persuasions' having population 100 and above and less than 100 have been given in Appendix A and Appendix B respectively. The data in these appendices have been presented at the State and District levels only. An annexure to the main table has also been incorporated at the end to show the details of sects/beliefs/religions clubbed with another religion.

We are grateful to Shri M.B. Rai, former Director of Census Operations of Arunachal Pradesh under whose supervision and guidance, the census operations of 1981 were conducted and the initial scrutiny, processing and tabulation of religion data from the Household Schedules were successfully completed. Thereafter, these household schedules were further processed and tabulated by the Directorate of Census Operations, Delhi. The religion data for the institutional population were abstracted by the Delhi Census Directorate from the concerned individual slips of the institutional households. These data have also been included in the table HH-15. We are thankful to the officers and staff in the Delhi Census Directorate.

In bringing out this paper, we have had the able guidance of Shri N. Rama Rao, Assistant Registrar General (Census & Tabulation) and Shri Madan Singh, Senior Research Officer of the Registrar General, India's Office. We are grateful to all of them.

It is our privilege to place on record our profound gratitude to Shri P. Padmanabha, I.A.S. ex-Registrar General & Census Commissioner, India and Shri V.S. Verma, I.A.S., the present Registrar General & Census Commissioner, India and Shri V.P. Our thanks are also due to Dr. N.G. Nag, Deputy Registrar General, India and his colleagues in the Social Studies Division who did the important base work of scrutinising the names of religions returned.

We wish to thank our colleagues in this Directorate for their sincere cooperation and assistance in preparing this paper.

The list of the names of the officers and staff of this Directorate as well as Census and Printing Divisions associated with this work are given separately.

INTRODUCTORY NOTE

Religion is an important and perhaps the basic cultural characteristics of the population. In a secular state like India several religions have thrived and every decennial census provides an interesting picture of the religious persuasions of the people. The data on religion fielded by the Census are of great interest to the public as well as to the scholars. For the benefit of the readers and data users a summary statement showing the household population in various States/Union Territories by religion of head of household as revealed by 1981 Census is given at the end of this introductory note. At the census enumeration a variety of answers might have been provided to the questions on religion, some spurious and some merely sects to a major religion. A census enumerator had instructions to record the religion as actually returned by a respondent.

In the 1981 Census, Question on religion was included in the Individual Slip filled in for every person and the Household Schedule filled in for a household. In question No. 8 of the Individual Slip, the religion of the person enumerated was recorded, as returned. In question No. 2 of Part I of the Household Schedule, the religion of the head of the household as returned was filled in.

A household is defined for the purpose of census as a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There could be a household of persons related by blood or a household of unrelated persons, or a mix of both. Example of unrelated, households are boarding houses, messes, hostels, residential hotels, rescue homes, jails, ashrams etc. These are called institutional households. In the case of institutional households the information on religion of the head of the household was not collected in the Household Schedule. However, the information on religion of each inmate of the institutional household was collected in the Individual Slip filled in by the enumerator for every person in the institutional household.

The head of the household for census purposes is the person on whom the responsibility for the maintenance of the household falls.

In the present paper the data on main religious communities as returned in Question 2 of the Household Schedule of the 1981 Census are being made available. In respect of the inmates of the institutional households, however, the data have been abstracted from the relevant Individual Slips as the Household Schedule does not provide data on religion in respect of the institutional households. In the present paper the data on religion are presented for Arunachal Pradesh/District/Circle/Town.

Thus the data presented in this paper are based on (1) information on the religion of the head of the household in respect of normal households and the households of houseless population i.e. all households barring institutional households (2) information on the religion of each individual returned for Question 8 of the Individual Slip in respect of individuals in the institutional households.

The instructions to enumerators for filling up Question 2 on religion of the head of the household in the Household Schedule are given below : -

"You have to record the religion of the head of the household as given by him against this question. While writing the religion, you have to write the abbreviations as follows on the line against this question and not in any dotted boxes provided at the end of the dotted line against this question :-

For Buddhists	Write B
For Christians	Write C
For Hindus	Write H
For Jains	Write J
For Muslims	Write M
For Sikhs	Write S

For 'Others' record actual religion as returned fully. If a person says that he has no religion, it may be recorded accordingly. If a person refuses to state his religion you may write 'religion not stated'. You should not enter into any argument with the household for filling up this question. You are bound to record faithfully whatever religion is returned by the head of the household. For institutional households, put '×' against this question.

This point should be borne in mind while comparing the data.

Another statement showing the household popula in all the States and Union Territories of India by reli of head of household—1981 Census is also furnis below in order to give an idea about the populatio different religions in all the States and Union Territc of India.

TABLE HH 15—HOUSEHOLD POPULATION BY RELIGION OF HEAD OF HOUSEHOLD

NOTE TO TABLE HH-15

This table corresponds to table C-VII-Religion of 1961 and 1971. The only difference is that the figures for religion for 1961 and 1971 are based on the religion of the individuals, whereas the figures presented in this table give the household population classified by religion of the head of the households in respect of all households except institutional households. In the case of institutional households, the information on the religion of each individual was abstracted from the Individual Slip. This table is followed by three appendices and an annexure.

The table gives data for persons, males and females separately for each of the six major religious communities *viz.* Buddhists, Christians, Hindus, Jains, Muslims and Sikhs by total, rural and urban for Arunachal Pradesh/ District/Circle/Town. The number of households are also given. The religions in the table have been arranged in alphabetical order and the data presented include all population those living in normal and institutional households. There is no houseless population enumerated in Arunachal Pradesh.

The figures of other religions have been grouped together in the column 'Other religions and persuasions'. Details of other religions and persuasions, the strength of which at the Union Territory level is 100 and above each, appear in Appendix A accompanying the table. In case of each of the remaining faiths the strength of which is less than 100, the total population for Arunachal Pradesh/ District is given in Appendix B. The Appendix C & D gives the data of those urban agglomeration which are spread over within two or more districts/Circles. But there is no such urban agglomeration in Arunachal Pradesh and as such these tow appendices are not applicable for this territory. The annexure which is followed by this table gives the details of sect, belief or religion clubbed with another religion which is shown at the head of the table in block letters.

The remaining religions and persuasions, the strength of each of which is less than 100 at the Union Territory level are given in Appendix B. The data presented in these two appendices are for concerned districts.

The appendices are followed by an Annexure giving the details of sect, belief, and religion clubbed with another religion which is shown at the head of the table in block letters.
