INTRODUCTORY NOTE

Religion is an important and perhaps the basic cultural characteristic of the population. In a secular state like India several religions have thrived and every decennial census provides an interesting picture of the religious persuasions of the people. The data on religion yielded by the census are of great interest to the public as well as to the scholars. At the census enumeration, a variety of answers might have been provided to the questions on religion; some spurious and some merely sects to a major religion. A census enumerator had instructions to record the religion as actually returned by a respondent.

In the 1981 Census, question on religion was included in the Individual Slip filled in for every person and the Household Schedule filled in for a household. In question No. 8 of the Individual Slip, the religion of the person enumerated was recorded, as returned. In question No. 2 of part I of the Household Schedule, the religion of the head of the household as returned was filled in.

A household is defined for the purpose of Census as a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There could be a household of persons related by blood or a household of unrelated persons, or a mix of both. Examples of unrelated households are boarding houses, messes, hostels, residential hotels, rescue homes, jails, ashrams etc. These are called institutional households. In the case of institutional households the information on religion of the head of the household was not collected in the Household Schedule. However, the information on religion of each inmate of the institutional household was collected in the Individual Slip filled in by the enumerator for every person in the institutional household.

The head of the household for census purposes is the person on whom the chief responsibility for the maintenance of the household falls.

In the present paper, the data on main religious communities as returned in question 2 of the Household Schedule of the 1981 census are being made available. In respect of the inmates of the institutional households, however, the data have been abstracted from the relevant Individual Slips as the Household Schedule does not provide data on religion in respect of the institutional households. In the present paper, the data on religion are presented for state/district/tehsil/U.A./city/town.

Thus the data presented in this paper are based on (1) information on the religion of the head of the household in respect of normal households and the households of houseless population i.e, all households barring institutional households (2) information on the religion of each individual returned for question 8 of the Individual Slip in respect of individuals in the institutional households.

The instructions to enumerators for filling up question 2 on religion of the head of the household in the Household Schedule are given below:—

"You have to record the religion of the head of the household as given by him against this question. While writing the religion, you have to write the abbreviations as follows on the line against this question and not in any dotted boxes provided at the end of the dotted line against this question:

For	Buddhists	— write	B
For	Christians	— write	C
For	Hindus	— write	H
For	Jains	— write	J
For	Muslims	— write	M
For	Sikhs	— write	S

For Others record actual religion as returned fully. If a person says that he has no religion, it may be recorded accordingly. If a person refuses to state his religion you may write 'religion not stated'. You should not enter into any argument with the household for filling up this question. You are bound to record faithfully whatever religion is returned by the head of the household. For institutional households, put 'X' against this question.'

A Summary

The following are the main religious communities in the state as a whole. These are arranged in alphabetical order at state level:

It may be pointed out that the 1971 religion data was based on individual return as recorded in the Individual Slip, whereas this paper is based on the religion of the head of the household as given in the household schedule 1981 Census. This point should be borne in mind while comparing the data.

NOTE TO TABLE HH-15

This table corresponds to table C-VII-Religion of 1961 and 1971. The only difference is that the figures for religion for 1961 and 1971 are based on the religion of the individual whereas the figures presented in this table give the household population classified by religion of the head of households in respect of all households except institutional households. In the case of institutional households, the information on the religion of each individual was abstracted from the Individual Slip. This table is followed by three appendices and an annexure.

The table gives data for persons, males and females separately for each of the six major religious communities viz., Buddhists, Christians, Hindus, Jains, Muslims and Sikhs by total, rural and urban for state/district/tehsil/U.A./City/town. The number of households are also given. The religions in the table have been arranged in alphabetical order and the data presented include all population—those living in normal households and institutional households and the houseless population.

The figures of other religions have been grouped together in the column 'other religions and persuasions'. Details of other religions and persuasions, the strength of which at the state level is 100 and above each, appear in Appendix 'A' accompanying the table. In case of each of the remaining faiths the strength of which is less than 100 at state level, are given in Appendix-B. The Appendix-C gives the data of those urban agglomerations which are spread over within two or more districts. The annexure which is followed by this table gives the details of sect, belief or religion clubbed with another religion which is shown at the head of the table in block letters.

NOTE ON APPENDICES AND ANNEXURE TO TABLE HH—15

The main table HH-15—Household population by religion of head of household—gives the distribution of population by six major religious communities (Buddhists, Christians, Hindus, Jains, Muslims and Sikhs) and the combined figures for 'other religions and persuasions' and 'religion not stated'. Appendix-A to table HH—15 gives the details of the religions shown under 'other religions and persuasions', having a strength of 100 and above each at state level. The remaining religions and persuasions the strength of each of which is less than 100 at the state level are given in Appendix-B. The data presented in these two appendices are for concerned districts. Appendix-C gives the figures of those urban agglomerations which are spread over within two or more districts.

The appendices are followed by an Annexure giving the details of sect, belief and religion clubbed with another religion which is shown at the head of the table in block letters.
