HOUSEHOLD POPULATION BY RELIGION OF HEAD OF HOUSEHOLD

(Upto Tehsil and Town level)

PREFACE

This paper contains the religion data on the basis of information on religion of the head of household collected during the 1981 Census through the household schedule. In the 1981 Census, a question on religion was included both in the Individual Slip and the Household Schedule. The difference, however, was that in the Individual Slip, religion was recorded for every individual whereas in the Household Schedule the religion returned by the head of the household alone was recorded. The data on religion presented in this paper are based on the Household Schedule and essentially, therefore, represent the household population classified by the religion of the head of the household except in respect of institutional households for which the religion returned by each inmate of the institutions in the Individual Slip has been taken into account. The reader should, therefore, bear this in mind while making a comparison with the 1971 religion data which is based on the Individual Slip returns.

We are grateful to Shri P. Padmanabha, the ex-Registrar General & Census Commissioner for India, Shri V. S. Verma, the present Registrar General & Census Commissioner for India, and Shri V. P. Pandey, Joint Registrar General, India for their valuable guidance in the presentation of this volume. We are also thankful to Shri N. Rama Rao, Assistant Registrar General and Shri Madan Singh, Senior Research Officer for scrutiny of the data and its uniform presentation. Shri I .C. Srivastava, the ex-Director of Census Operations under whose able guidance the entire operations were carried out in the State, deserves all credit for the success of the operations and that he had to leave the organisation for taking up other important assignment in the State government before this volume could be made ready for the press.

In the directorate, Shri R. C. Bhargava, Assistant Director, and his team of dedicated workers including Shri R. N. Verma, Senior Supervisor have laboured hard in accomplishing the arduous task of checking the figures, compilation of the tables and the preparation of notes for this Paper. Shri M. M. Goyal, Investigator, spared no pains to see the volume through press and to ensure its timely release.

I hope this publication will be useful to the administrators, planners, research scholars and other data users.

INTRODUCTORY NOTE

Religion is an important and perhaps the basic cultural characteristic of the population. In a secular state like India several religions have thrived and every decennial census provides an interesting picture of the religious persuasions of the people. The data on religion yielded by the census are of great interest to the public as well as to the scholars. At the census enumeration a variety of answers might have been provided to the Questions on religion, some spurious and some merely sects to a major religion. A census enumerator had instructions to record the religion as actually returned by a respondent.

In the 1981 Census, question on religion was included in the Individual Slip filled in for every person and the Household Schedule filled in for a household. In Question No. 8 of the Individual Slip, the religion of the person enumerated was recorded, as returned. In Question No. 2 of Part I of the Household Schedule, the religion of the head of the household as returned was filled in.

A household is defined for the purpose of census as a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There could be a household of persons related by blood or a household of unrelated persons, or a mix of both. Examples of unrelated households are boarding houses, messes, hostels, residential hotels, rescue homes, jails, ashrams etc. These are called institutional households. In the case of institutional households the information on religion of the head of the household was not collected in the Household Schedule. However, the information on religion of each inmate of the institutional household was collected in the Individual Slip filled in by the enumerator for every person in the institutional household.

The head of the household for census purposes is the person on whom the chief responsibility for the maintenance of the household falls.

In the present paper the data on main religious communities as returned in Question 2 of the Household Schedule of the 1981 Census are being made available. In respect of the inmates of the institutional households, however, the data have been abstracted from the relevant Individual Slips as the Household Schedule does not provide data on religion in respect of the institutional households. In the present paper the data on religion are presented for state/district/tehsil/U.A./city/town.

Thus the data presented in this paper are based on (1) information on the religion of the head of the household in respect of normal households and the households of houseless population i.e, all households barring institutional households (2) information on the religion of each individual returned for Question 8 of the Individual Slip in respect of individuals in the institutional households.

The instructions to enumerators for filling up Question 2 on religion of the head of the household in the Household Schedule are given below :—

"You have to record the religion of the head of the household as given by him against this question. While writing the religion, you have to write the abbreviations as follows on the line against this question and not in any dotted boxes provided at the end of the dotted line against this question :

For Buddhists	— write	B
For Christians	— write	C
For Hindus	— write	H
For Jains	— write	J
For Muslims	— write	M
For Sikhs	— write	S

For 'Others' record actual religion as returned fully. If a person says that he has no religion, it may be recorded accordingly. If a person refuses to state his religion you may write 'religion not stated'. You should not enter into any argument with the household for filling up this question. You are bound to record faithfully whatever religion is returned by the head of the household. For institutional households, put 'X' against this question".

The following are the main religious communities in the state as a whole. These are arranged in alphabetical order at state level :

Religious Community	Persons	Males	Females	Sex ratio (Females per 1000 males)
1	2	3	4	5
Buddhists	4,427	2,317	2,110	911
Christians	39,568	19,879	19,689	990

Sikhs	492,818	260,906	231,912	889

The percentage of the population accounted for by each of these major religious communities in 1981 Census and the rate of decadal growth of population during 1971-81 are given below at state level :

Religious Community	Percentage to total population	Decadal growth rate
		Percentage

Jains	1·82	+21·57
Muslims	7·28	+40·14

The pattern of distribution of the population of these major religious communities between rural and urban areas is as follows :—

Sikhs	428,878	1·58	63,940	0·89

For the convenience of the readers two statements giving religion data at various levels are also given in the following pages. Statement-I shows the growth of six major religions, 'Other religions and persuasions' and 'religion not stated' during 1971-81 for the state of Rajasthan and its districts. The religions in this statement have been arranged in alphabetical order. It may, however, be noted that the 1971 religion data was based on individual return as recorded in the Individual Slip, whereas this paper is based on the religion of the head of the household as given in the Household Schedule of 1981 Census. This point should be borne in mind while comparing the data. Statement-II gives data for persons, males and females separately for each of the six major religious communities viz., Hindus, Muslims, Christians, Sikhs, Buddhists and Jains and the combined figures for 'Other religions and persuasions' and 'religion not stated' for India and its states and union territories. The number of households are also given. The data presented in this statement include all population those living in normal and institutional households and the houseless population. The religion in this statement have been arranged in order of their numerical strength at the country level.

TABLE HH - 15

HOUSEHOLD POPULATION BY RELIGION OF HEAD OF HOUSEHOLD

TABLE HH-15—HOUSEHOLD POPULATION BY RELIGION OF HEAD OF HOUSEHOLD

NOTE

This table corresponds to table C-VII Religion of 1961 and 1971. The only difference is that the figures for religion for 1961 and 1971 are based on the religion of the individual whereas the figures presented in this table give the household population classified by religion of the head of households in respect of all households except institutional households. In the case of institutional households, the information on the religion of each individual was abstracted from the Individual Slip. This table is followed by three appendices and an annexure.

The table gives data for persons, males and females separately for each of the six major religious communities viz., Buddhists, Christians, Hindus, Jains, Muslims and Sikhs by total, rural and urban areas for state/district/tehsil/U.A./city/town. The number of households are also given. The religions in the table have been arranged in alphabetical order and the data presented include all population those living in normal households and institutional households and the houseless population.

The figures of other religions have been grouped together in the column 'other religions and persuasions'. Details of other religions and persuasions, the strength of which at the state level is 100 and above each, appear in Appendix-A accompanying the table. In case of each of the remaining faiths the strength of which is less than 100, the total population for the state/district is given in Appendix-B. The Appendix-C gives the data of those urban agglomerations which are spread over within two or more districts but this has not been prepared in the case of Rajasthan as there is no such urban agglomeration. Appendix-D gives the data on those urban agglomerations which are spread over within two or more tehsils in a district. This has been prepared and given in this Paper. The Annexure which is followed by these appendices gives the details of sect, belief or religion clubbed with another religion which is shown at the head of the table in block letters.

NOTE

The main table HH-15—Household population by religion of head of household—gives the distribution of population by six major religious communities (Buddhists, Christians, Hindus, Jains, Muslims and Sikhs) and the combined figures for 'other religions and persuasions' and 'religion not stated'. Appendix-A to table HH-15 gives the details of the religions shown under 'other religions and persuasions', having a strength of 100 and above each at state level. The remaining religions and persuasions the strength of each of which is less than 100 at the state level are given in Appendix-B. The data presented in these two appendices are for concerned districts. Appendix-D gives the figures of those urban agglomerations which are spread over within two or more tehsils in a district.

The appendices are followed by an Annexure giving the details of sect, belief and religion clubbed with another religion which is shown at the head of the table in block letters.
