PREFACE

This paper contains the religion data on the basis of information on religion of the head of household collected during the 1981 census through the household schedule. Tabulation of this data was started by my predecessor Shri P. Padmanabha, I.A.S. to whom my thanks are due. Information relating to six major religious communities, namely, Hindus, Muslims, Christians, Sikhs, Buddhists and Jains and 'other religions and persuasions' and 'religion not stated', is furnished in this paper. The figures are presented at country and state/union territory levels with rural-urban break-up.

I am thankful to the Directors of Census Operations in the States/Union Territories and their officers and staff who had initially processed the huge volume of household schedules manually and tabulated the data in time.

In bringing out this data quickly in its present form I have had the able guidance and assistance of Shri V.P. Pandey, Joint Registrar General, India. Dr. N.G. Nag, Deputy Registrar General and his colleagues in the Social Studies Division did the important work of scrutiny of the names of the religions returned. The arduous task of checking the figures, compilation of the tables and the preparation of notes, was the responsibility of the Census Division of the Registrar General's office. This task was accomplished well by the officers and staff of this Division under the guidance of Shri N. Rama Rao, Assistant Registrar General (Census and Tabulation). In particular, Shri Madan Singh, Senior Research Officer has done a good job in co-ordinating the scrutiny and compilation of this data and drafting the notes. He was assisted in the tabulation by Shri Ganesh Dass, Assistant Director. Shri O.P. Sharma, Deputy Director of Census Operations and his colleagues of my personal section were very helpful in the initial scrutiny of the data. The work of printing of this paper was handled by the Printing Cell under Shri Tirath Dass, Joint Director (Printing). I am grateful to all these officers and staff.

I hope this publication will be useful to the administrators, planners, research scholars and other data users.

V. S. VERMA
Registrar General, India

INTRODUCTORY NOTE

Religion is one of the basic cultural characteristics of the Indian population. From time immemorial, several religions have been flourishing in India and every decennial census has attempted to provide an interesting picture of the religious persuasions of the people of the country. The data on religion yielded by the census are of great interest to the layman, administrator and scholar. At the census enumeration, a variety of responses are elicited to the questions on religion. Some of these responses are spurious in the sense that the religion returned by the censused individual cannot be identified with any major religion of the country and in some cases, the religion returned is merely a sect of a major religion. The census enumerator had instructions to record the religion as actually returned by a respondent.

In the 1981 Census, question on religion was included in the Individual Slip filled in for every person and the Household Schedule filled in for a household. In question No. 8 of the Individual Slip, the religion of the person enumerated was recorded as returned. In Question No. 2 of Part I of the Household Schedule, the religion of the head of the household, as returned, was filled in.

A household is defined, for the purpose of census, as a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There could be a household of persons related by blood or a household of unrelated persons, or a mix of both. Examples of unrelated households are boarding houses, messes, hostels, residential hotels, rescue homes, jails, ashrams etc. These are called institutional households. In the case of institutional households, the information on religion of the head of the household was not collected in the Household Schedule. However, the information on religion of each inmate of the institutional household was collected in the Individual Slip filled in by the enumerator for every person in the institutional household.

The Head of the household for census purposes is the person on whom the chief responsibility for the maintenance of the household falls.

In the present paper, the data on main religious communities, as returned in Queston 2 of the Household Schedule of the 1981 Census, are being made available. In respect of the inmates of the institutional households, however, the data have been abstracted from the relevant Individual Slips as the Household Schedule does not provide data on religion in respect of the institutional households. In the present paper the data on religion are presented for States/UTs separately for total, rural and urban areas. This will be followed by publications giving this data for lower administrative units like districts,city etc.

Thus, the data presented in this paper are based on (1) information on the religion of the head of the household in respect of normal households and the households of houseless population i.e., all households barring institutional households and (2) information on the religion of each individual as returned for question 8 of the Individual Slip in respect of individuals in the institutional households.

The instructions to enumerators for filling up question 2 on religion of the head of the household in the Household Schedule are given below :—

"You have to record the religion of the head of the household as given by him against this question. While writing the religion, you have to write the abbreviations as follows on the line against this question and not in any of the dotted boxes provided at the end of the dotted line against this question :

For Hindus	—write H
For Muslims	—write M
For Christians	—write C
For Sikhs	—write S
For Buddhists	—write B
For Jains	—write J

"For 'Others' record actual religion as returned fully. If a person says that he has no religion, it may be recorded accordingly. If a person refuses to state his religion, you may write 'religion not stated'. You should not enter into any argument with the household for filling up this question. You are bound to record faithfully whatever religion is returned by the head of the household. For institutional households, put 'X' against this question."

A Summary

The following are the major religious communities each accounting for not less than a million population in the country as a whole. These are arranged in order of numerical strength at all-India level.

Religious community	Persons	Males	Females	Sex ratio (Females per 1,000 males)
1	2	3	4	5
Hindus	549,779,481	284,392,942	265,386,539	933
Muslims	75,512,439	38,989,763	36,522,676	937
Christians	16,165,447	8,113,569	8,051,878	992
Sikhs	13,078,146	6,957,891	6,120,255	880
Buddhists	4,719,796	2,416,780	2,303,016	953
Jains	3,206,038	1,651,361	1,554,677	941

Main religions have been presented in this table in the above order for the sake of convenience even if within a particular States/Union Territories the numerical order of a religion may not be the same as at all-India level.

It may be pointed out here again that the 1971 religion data were based on individual return as recorded in the Individual slip, whereas this paper is based on the religion of the head of the household as given in Household Schedule of 1981 Census. This point may be borne in mind while comparing the data.

The percentage of the population accounted for by each of these major religious communities in 1981 census and the rate of decadal growth of population during 1971-81 are given below :—

Religious communities	Percentage to total population	Decadal growth rate percentage 1971—81
Hindus	82.64	24.15
Muslims	11.35	30.59
Christians	2.43	16.77
Sikhs	1.96	26.15
Buddhists	0.71	22.52
Jains	0.48	23.69

The pattern of distribution of the population of these major religious communities between rural and urban areas is as follows :—

Religious communities	Rural population	Percentage to rural population	Urban population	Percentage to urban population
Hindus . .	429,116,124	84.54	120,663,357	76.52
Muslims . .	49,834,389	9.82	25,678,050	16.28
Christians . .	11,450,802	2.25	4,714,645	2.99
Sikhs . . .	10,245,347	2.02	2,832,799	1.80
Buddhists . .	3,209,752	0.63	1,510,044	0.96
Jains . . .	1,155,107	0.23	2,050,931	1.30

For convenience of the readers a statement showing the growth of the six major religions, 'other religions and persuasions' and 'religion not stated' during 1971—81 is also given on the next page.

TABLE HH-15—HOUSEHOLD POPULATION BY RELIGION OF HEAD OF HOUSEHOLD

NOTE

This table corresponds to table C-VII—Religion of 1961 and 1971. The only difference is that the figures for religion for 1961 and 1971 are based on the religion of the individual whereas the figures presented in this table give the household population classified by religion of the head of household in respect of all households except institutional households. In the case of institutional households, the information on the religion of each individual was abstracted from the Individual Slip. This table is followed by two appendices and an annexure.

The table gives data for persons, males and females separately for each of the six major religious communities viz., Hindus, Muslims, Christians, Sikhs, Buddhists and Jains and the combined figures for 'other religions & persuasions' and 'religion not stated' by total, rural and urban for India, States and Union Territories. The number of households are also given. The data presented in this table include all population—those living in normal households and institutional households and the houseless population.

The figures of other religions have been grouped together in the column 'other religions and persuasions'. Details of other religions and persuasions, the strength of which at the country level is 100 and above each, appear in Appendix A accompanying the table. In case of each of the remaining faiths the strength of which is less than 100, the total population for each State and Union Territory is given in Appendix B. The annexure which is followed by this table gives the details of sect, belief or religion clubbed with another religion which is shown at the head of the table in block letters.
