PREFACE

From the arrangement followed for presenting the data collected during the 1961-census, as outlined on the opposite page, it will be noticed that the core of the material is contained in Parts I, II and III. Part I comprises the General Report, a Report on Vital Statistics, and Subsidiary Tables. Part II is devoted to General Population Tables, General Economic Tables, and Social and Cultural Tables. Part III—the present book—contains Tables treating the household as the unit, in contrast with the individual as has been done in Part II. The term 'household' has been defined as 'a group of persons living together and dining together in a common mess unless the exigencies of work prevent anyone of them from doing so'. In most cases 'household' is coterminous with 'family'. A household, however, excludes non-resident members of the family and includes any domestic servants and other persons living and dining with the family. Institutions like boarding houses, messes and chummeries have also been regarded as households 'of unrelated persons living together'. An individual living all by himself was treated as a 'single-member household'.

For the first time in the Indian Census an attempt was made in 1961 to collect economic data on the basis of households in addition to what is collected for each individual person. This is a great improvement on the previous censuses, as is brought out from the following extract from a note recorded by Shri A. Mitra, the Registrar General, India:—

> "In a predominantly agricultural country where most of the population is in rural areas and where much of the goods produced are consumed by the population itself, collection of information purely on the basis of individuals tends to go slightly out of focus unless such information is supplemented by information on economic activities of the household as an entity. A decision was, therefore, taken that the information relating to the economic activities of the majority of Indian households, *viz.*, cultivation and household industries, should be collected at the Census".

Three questionnaire forms were filled up by the enumerators during the 1961-census: the Houselist Form which provided the basis for the report on "Housing and Establishments" (Parts IV-A & B); the Household Schedule, providing the material for the present book (Part III); and the Individual slip which is source for Parts I, II and V.

A 20 per cent systematic sample was drawn from the Household Schedules. This sample was tabulated mechanically in the Office of the Registrar General, India, at Delhi. The credit for preparing the Tables appearing in this book goes to Shri S.C. Sharma, the Mechanical Tabulation Officer and his associates, and I am grateful to them for this arduous job.

I should mention Shri Pawan Kumar, the Tabulation Officer, and Shri Shyam Sunder Sharma, the Editorial Assistant for the scrutiny of proofs.

I am indebted also to Shri P.S. Ramachandran, the Manager of the Government of India Press, Simla, and the members of his staff for the very good printing of the book.

INTRODUCTION

An exact copy of the Household Schedule, and a copy of the instructions for enumerators explaining the terms used and method of incorporating information on the Schedule, are reproduced in the Annexure†.

The Household Economic Tables, as contained in this book have been prepared on the basis of 20 per cent sample of family households. This sample was drawn according to the instructions given below, issued by the Registrar General, India:—

"(*i*) All pads of household schedules of rural areas of one Tahsil should be arranged in order of ascending number of location codes of villages. If in a village more than one pad is used, these pads should also be arranged according to the serial number given to the pads for that village.

Similarly, all pads of urban areas in a District should be arranged in ascending order of location code numbers. Within an urban area these pads will be arranged in the order of block numbers.

(*ii*) After selection of the first sample schedule, the sample will be continuously picked up without a break until the last pad of the Tahsil is exhausted in the rural areas and the District in urban areas.

(*iii*) The sample households will be indicated by stamping the selected schedule in the right hand top corner with a rubber stamp "S".

(*iv*) The sampled schedules (i.e. those having rubber stamp mark) will be carefully removed from the pad and tied together for a Tahsil in the sequence of villages within the Tahsils and in the sequence of Towns in the case of urban areas, the slips being arranged in the same order as when the samples were removed.

(*v*) In case two or more household schedules are utilised for a household on account of large size of the household, all such schedules utilised for one household should be considered as one schedule for the purpose of counting every fifth schedule in the pad for sample selection.

(*vi*) In taking out sample we should discard institutions and confine the samples only to family household. In counting every fifth household schedule, therefore, the schedule for institutional household should be left out, the order of the sample being confined only to the schedules of households."

The sampled family household schedules were tabulated on machines in the Mechanical Tabulation Unit of the Office of the Registrar General, at Delhi, and the following ten Tables were prepared:—

Table B-X—Sample Households (*i*) engaged neither in cultivation nor household industry, (*ii*) engaged either in cultivation or household industry but not in both, and (*iii*) engaged both in cultivation and household industry. (Based on 20 per cent Sample).

Table B-XI—Sample Households engaged in cultivation classified by interest in land and size of land cultivated in rural and urban areas separately. (Based on 20 per cent Sample).

Table B-XII—Sample Households engaged in cultivation only classified by size of land cultivated and number of family workers and hired workers in rural and urban areas separately. (Based on 20 per cent Sample).

Table B-XIII—Sample Households engaged both in cultivation and household industry, showing size of land cultivated classified by principal household industry in rural and urban areas separately. (Based on 20 per cent Sample).

Table B-XIV—Sample Households engaged only in household industry classified by principal household industry. (Based on 20 per cent Sample).

Part A—Households classified by major groups of principal household industry and number of persons engaged.

Part B—Households classified by minor groups of principal household industry.

†Pp. xi to xvi.

Table B-XV—Sample Households engaged both in cultivation and household industry classified by size of land in rural and urban areas separately. (Based on 20 per cent Sample).

Table B-XVI—Sample Principal Household Industry classified by period of working and total number of workers engaged in household industry. (Based on 20 per cent Sample).

Table B-XVII—Sample Households classified by (*i*) number of male and female members by size of households and (*ii*) engagement (*a*) neither in cultivation nor in industry, (*b*) in household industry only and (*c*) in cultivation sub-classified by size of land cultivated. (Based on 20 per cent Sample).

Table C-I—Composition of Sample Households by relationship to head of family classified by size of land cultivated. (Based on 20 per cent Sample).

Table SCT-V, Part A—Sample Households engaged in cultivation classified by interest in land and size of land cultivated in rural areas only for members of Scheduled Castes. (Households of members of Scheduled Castes in a 20 per cent Sample of all Households).

Part B—Sample Households engaged in cultivation classified by interest in land and size of land cultivated in rural areas only for members of Scheduled Tribes. (Households of members of Scheduled Tribes in a 20 per cent Sample of all Households).

Out of above mentioned ten Tables, first eight Tables have been given in the present report. The last two Tables (C-I and SCT-V) will be found in the Punjab Census Reports Part II-C (*i*) and Part V-A, respectively, which is their appropriate place considering the subjects to which they relate.

Each Table has been prefaced by a note explaining the contents and the likely use of the information in the study of socio-economic problems.

ANNEXURE

INSTRUCTIONS TO ENUMERATORS FOR FILLING UP THE HOUSEHOLD SCHEDULE

At the top of the Schedule† you will find the Location Code. You will have to write the Location Code of the household here. Your Supervisor will give you the Code numbers representing your district, tahsil/town, village/ward, block. You should take care to write these three numbers connected together by oblique strokes in between on every Household Schedule.

When you are visiting each household for enumeration you should write the code number of the household also on the Household Schedule. A Census House has been defined as a structure or a part of structure, a dwelling, a shop, workshop, factory or place of business, or shop-*cum*-dwelling giving on the road or a common staircase, or a common courtyard leading to a main gate or enjoying a separate entrance. A Household means the entire group of persons who commonly live together in the same census house, and take their meals from a common mess unless the exigencies of work prevent them from doing so. In some census houses there may be more than one group of persons, each group with a common mess. In such cases, each group should be regarded as a separate Household for purposes of the Census, and a separate Household Schedule should be prepared. You should write the Household Number from the extracts of the Houselist given to you by your Supervisor. If, in any case, you find a census house or a household satisfying the definitions given above has not been numbered you should bring it to the notice of your Supervisor and have a separate number given to the house or household and enumerate the household.

At the right hand corner of the Location Code you will find a question "Is this an institution?" with a rectangle below it. If you are enumerating any penal, charitable or mental institution, hostel, hotel, hospital, boarding house, etc., you should write the nature of the institution within the rectangle like jail, hospital, etc.

Below the Location Code you will find a column for recording the full name of the Head of the household. The Head of the household for census purpose is a person on whom falls the chief responsibility for the maintenance of the household. The Head of the household need not necessarily be the eldest male member, but even may be a female or younger member of either sex. You need not, however, make any elaborate inquiry about this and should record as Head of household the name of the person who is actually acknowledged as such.

Institutions like boarding houses, messes and chummeries should also be regarded as census households but of 'unrelated persons living together'. In such a household the manager or superintendent or the person who has administrative responsibilities or who by common consent is regarded as the Head, should be recorded as Head of the household. If in an institution separate families are also living, each such family should be treated as a census household and a separate household schedule should be filled. In such cases the full name of the recognised Head of the household should be written.

If the Head of the household is a person who spends the week-days in town and spends the week-ends at home, he should be recorded as Head of Household and entered for enumeration at his home. If he should be away for a fairly long time which covers the entire enumeration period then the person who is incharge in his absence should be recorded as the Head of the household.

You will find a parallelogram at the right hand side against the Full Name of the Head of the household marked "S.C./S.T." If the Head of the Household is a member of a Scheduled Caste or a Scheduled Tribe obtaining in your district you should write the name of the particular Scheduled Caste or Scheduled Tribe to which the Head of the Household belongs within the parallelogram. If the Head of the Household does not belong to Scheduled Caste or Scheduled Tribe you should put 'X' within the parallelogram.

Sub-Part 'A' relating to cultivation will have to be filled in only where the household cultivates land. (Land includes all land normally used for cultivation purposes including temporary fallows). Three categories of land are given in items 1 (*i*),1(*ii*) and 2. Items 1(*i*) and 1(*ii*) relate to land actually cultivated by the household. Item 2 relates to land which is not cultivated by the household

†Pp. xi—xii

but has been given by it to private persons for cultivation for payment in money, kind or share. In each of the three cases the total of separate plots or parcels of land in different places owned or held, or taken or given, should be made and entered. A number of lines has been provided for this purpose in 1(*i*) and 1(*ii*) to account for separate plots or parcels of land held or owned or taken under different recognised local rights. If the household (*a*) cultivates land owned or held from Government or taken from private persons or institutions, or (*b*) has given land to private persons for cultivation purposes, you should ascertain the local name of the right on such land and record in the column relating to 'local name of right on land'. Category 1 (*i*) land owned or held from Government, will include the total of all pieces of land owned or held in owner-like possession, *e.g.*, land held directly from Government under a grant, lease or assignment, (*i*) with rights of permanent, heritable and transferable possession, (*ii*) with rights of permanent and heritable possession, but without the right of transfer, and (*iii*) temporary, or conditional leases of any kind with the Government. Category 1 (*ii*) land taken from private persons or institutions for payment in money, kind or share, will include land (*i*) with rights of permanent, heritable and transferable possession, (*ii*) with rights of permanent and heritable possession, but without right of transfer; (*iii*) held in a variety of tenancies or tenures which may be broadly classified as follows:—

(*a*) tenants holding land with permanent and heritable rights whose land cannot be resumed by the owner on grounds of personal cultivation (such tenants may in some cases have the right of transfer also);

(*b*) tenants who have been given permanent rights subject to the right of resumption by the owner (in some cases the tenant has the right to acquire ownership of the non resumable area. In other cases he does not possess the right);

(*c*) tenants holding land in areas where interim measures have been enacted for stay of ejectment or for continuing the leases for a specified period;

(*d*) tenants holding land on temporary leases who are liable to ejectment; and

(*e*) areas held on condition of rendering service either to a village community or to Government. (This also includes cases where labourers on plantations are given some land for cultivation with permanent rights); and

(*iv*) the following:—

(*a*) Land taken for a fixed amount of money,

(*b*) land taken for a fixed amount of produce,

(*c*) land taken for a share of the produce,

(*d*) land for which money is paid partly in one and partly in any other form mentioned above, and

(*e*) land held free of consideration.

Category 2—Land given to private persons for cultivation for payment in money, kind or share, will include the classifications mentioned in category 1 (*ii*).

Category 1 (*i*) and (*ii*) will include only those plots or parcels of land which are cultivated by the household itself, i.e., lands which lie within the village, or in adjacent villages, or within such a distance as enables the household to work on the land or actively supervise the cultivation. They will not include land owned or held in distant places where distance itself is a bar to active cultivation, constant spervision or direction. But Category 2 will include land in any part of the country whatsoever. You should ascertain the extent of land in each category of local right in acres and record in the column relating to 'Area in acres'. You should write the total of separate plots of parcels of land under the same right if they are situated in different places. If it is not possible to ascertain the extent of land in acres you should, if possible, make a conversion from the local measure given to you. Even if this is not possible write the area in local measure giving invariably the name of the measure adopted.

This sub-part will not apply to households which do not possess any land. Thus, it will not apply to households which consist of only agricultural labourers without any land. In such cases put an 'X' in all the spaces provided in the right hand side and put a bold cross on this sub-part.

Land under any of the items in sub-part 'A' includes rent free land, lands enjoyed in permissive possession or gifts without encumbrance or consideration. A household which is a member of a co-operative farm will record only that amount of land in the co-operative farm which had belonged

to it before, and under right enter 'co-operative farm'. Labour hired by such a co-operative farm should not be entered for this household.

Sub-Part 'B' relates to Household Industry. This part will be filled up only where there is a Household Industry conducted by the Head of the household himself and/or mainly by members of the household at home or within the village in rural areas, and only at home in urban areas. The industry should not be on the scale of a registered factory. The participation of the Head of the household and/or members of the household is an essential feature of the Household Industry. In a rural area the Household Industry can be located either at home or within the village. But in an urban area the Household Industry or at least the major part of its work must be located only at home. A Household Industry should relate to production, processing, servicing, or reparing, and includes makers and sellers of goods.

The test for a Household Industry is mainly threefold—

(*a*) Household Industry should embrace manufacture, processing or servicing and may include sale but should not be confined simply to buying and selling. At least part of the goods offered for sale from the household, should be manufactured or processed by members of the household.

(*b*) Household industry should be on the household scale where the workers mainly will be the Head of the household himself and members of the household, the roll of hired workers from outside being of secondary importance. Thus, in any Household Industry, members of the household should be in a position to lend a hand in the industry whenever they find the time in the course of their daily chores. Household Industry cannot, therefore, be on the scale of a registered factory but can use machinery and employ power like steam engine or oil engine or electricity to drive the machinery.

(*c*) Location also is important, for proximity decides participation by members of the household. In a village this participation is possible if the Household Industry is located at home or within the village, because village organisation is such as makes it possible for members of the household to move about freely in the village to look after their work. In urban areas such a free movement is not possible and, therefore, for Household Industry in urban areas we should consider only those industries which are located at home. Where, however, part of the work is done outside the house, *e.g.*, preparing and dyeing the yarn for weaving or winding into warp and wool or cleaning metal surfaces before electroplating in baths, it should still be considered a Household Industry, even in urban areas, as the main operation of weaving or electroplating is conducted within the house and only one or two operations are conducted outside.

The following activities should also be ragarded as illustrative of Household industry. Biri-makers who either alone or with the help of members of the family, roll biris at home, for wages at piece rates, while the contractor supplies the materials. Certain processes, like buttoning and handsewing of tailored clothes dyeing and printing of cloth, are carried out at home by members of the household both at residence and at 'place of work', or where womenfolk of the household fill in at home with lac gold ornaments prepared at the shop by male members of the household.

Ascertain from the Head of the household whether there are any Household Industries and write the nature of the industry(s) in the column provided, if there are any. Then ascertain for how many months in a year roughly they are conducted, and put down the number of months in the appropriate column. If the industry is conducted throughout the year, write '12'. If there is no Household Industry of any sort, put an 'X' in each of the places in the right hand corner where the answers will be written, and put a bold cross on this subpart.

Sub-Part 'C' relates to Workers in Cultivation or Household Industry.

In the case of households which are engaged only in Cultivation, if the Head of the household is working, write '1' under the column 'Head' and ascertain how many other male and female members of the family are working. Write the numbers in the respective columns. Write the total number of family workers including the Head, if he is working, in the column relating to 'Total'. Then ascertain whether any hired workers are employed

TABLE B-X

SAMPLE HOUSEHOLDS (i) ENGAGED NEITHER IN CULTIVATION NOR HOUSEHOLD INDUSTRY, (ii) ENGAGED EITHER IN CULTIVATION OR HOUSEHOLD INDUSTRY BUT NOT IN BOTH, AND (iii) ENGAGED BOTH IN CULTIVATION AND HOUSEHOLD INDUSTRY

(Based on 20 per cent Sample)

This Table, prepared for total, rural and urban areas in the State, in each Administrative Division and in each District, shows four types of households: (i) those engaged neither in Cultivation nor Household Industry; (ii) those engaged in Cultivation only; (iii) those engaged in Household Industry only; and (iv) those engaged both in Cultivation and Household Industry. Tahsilwise figures have also been given in the case of rural areas.

The term Cultivation in this context is restricted to owner-cultivation or tenant-cultivation.

Household Industry in the 1961-census has been defined as an industry conducted by the Head of the Household himself and/or by mainly members of the Household at home or within the village in rural areas, and only at home in urban areas. The Household Industry relates to production, processing, servicing, repairing, or making and selling of goods.

This Table divides the Households according to three most important sectors of economic activity.

TABLE B-XI

SAMPLE HOUSEHOLDS ENGAGED IN CULTIVATION CLASSIFIED BY INTEREST IN LAND AND SIZE OF LAND CULTIVATED IN *RURAL AND URBAN AREAS SEPARATELY*

(Based on 20 per cent Sample)

This Table gives data for the Households engaged in Cultivation only and has been prepared for rural and urban areas separately for the State, each Administrative Division and each District. In the rural set, Tahsilwise figures have also been shown.

Cultivation may be in the capacity of owner/or tenant. The Households thus engaged have been classified according to the interest in land cultivated, further cross-tabulated by size of land holdings. Interest in land has been divided into three types: (a) land owned or held from Government; (b) land held from private persons or institutions for payment in money, kind or share; and (c) land partly held from Government and partly from private persons for payment in money, kind or share. In the Table these interests have been expressed by the abbreviations (a), (b) and (c), respectively. Size groups for holdings are: less than 1 acre; 1·0-2·4; 2·5-4·9; 5·0-7·4; 7·5-9·9; 10·0-12·4; 12·5-14·9; 15·0-29·9; 30·0-49·9; and 50+ acres.

This Table gives an indication of the holdings likely to be (i) deficit, (ii) self-sufficient, and (iii) surplus in agricultural produce.

TABLE B-XII

SAMPLE HOUSEHOLDS ENGAGED IN CULTIVATION ONLY, CLASSIFIED BY SIZE OF LAND CULTIVATED AND NUMBER OF FAMILY WORKERS AND HIRED WORKERS, IN *RURAL AND URBAN AREAS SEPARATELY*

(Based on 20 per cent Sample)

This Table, prepared for rural and urban areas separately, presents data on the Households engaged only in Cultivation, by size of land cultivated and number of family workers and hired workers engaged therein, for the State, each Administrative Division and each District. In the rural set, Tahsil figures have also been given. The size groups of holdings, mentioned in fly-leaf to Table B-XI, have been cross-tabulated in this Table with reference to the number of persons working in cultivation. For Households with more than one person in Household Cultivation, number of workers belonging to the Households and hired from outside, have been shown separately.

This Table furnishes information on the extent of rural under-employment and yields surmises on the size and scale of agricultural enterprise.

TABLE B-XIII

SAMPLE HOUSEHOLDS ENGAGED BOTH IN CULTIVATION AND HOUSEHOLD INDUSTRY, SHOWING SIZE OF LAND CULTIVATED CLASSIFIED BY PRINCIPAL HOUSEHOLD INDUSTRY, IN *RURAL AND URBAN AREAS SEPARATELY*

TABLE B-XIII

SAMPLE HOUSEHOLDS ENGAGED BOTH IN CULTIVATION AND HOUSEHOLD INDUSTRY, SHOWING SIZE OF LAND CULTIVATED CLASSIFIED BY PRINCIPAL HOUSEHOLD INDUSTRY, IN *RURAL AND URBAN AREAS SEPARATELY*

(*Based on 20 per cent Sample*)

This Table shows the distribution of sample Households engaged in Cultivation and Household Industry simultaneously, by principal Household Industry and size of land cultivated. It has been prepared for rural and urban areas separately in the State, in each Administrative Division, and in each District.

The size groups of holdings are the same as mentioned in the fly-leaf to Table B-XI.

Industries have been classified up to Divisions and Major Groups as adopted in the Indian Standard Industrial Classification.

Major Groups of Household Industry having less than 10 per cent of the figures of the respective Division have been given not in the body of the Table, but in the Appendix† to this Table. Divisions thus affected have been marked with asterisks (*) in the Table.

This Table throws light on Household Industries which are carried on as ancillary to Cultivation. It also establishes a correlation between the size of cultivating holding and recourse to Household Industry. The nature of the Household Industry differs from region to region depending chiefly on the availability of the raw material.

APPENDIX TO TABLE B-XIII

Major Groups of Household Industry which have less than 10 per cent of Households engaged in the respective Division have not been shown in the body of the Table B-XIII. The Divisions thus affected bear asterisk (*) on their left. Major Groups thus dropped from the Table appear in this Appendix.

The figure in bold type preceding the bracket indicates the Code Number of the Major Group. The alphabets given in brackets are abbreviations for different ranges of land holdings and the figures appearing after the alphabet denote the number of Households in that particular range of land holding.

A	means	Less than 1 acre
B	,,	1·0— 2·4 acres
C	,,	2·5— 4·9 ,,
D	,,	5·0— 7·4 ,,
E	,,	7·5— 9·9 ,,
F	,,	10·0—12·4 ,,
G	,,	12·5—14·9 ,,
H	,,	15·0—29·9 ,,
I	,,	30·0—49·9 ,,
J	,,	50+ ,,
K	,,	Area not specified

Example : **PUNJAB—00**(A-1, C-2, G-1) means in the Major Group 00 (Field Produce and Plantation Crops), there is one Household with less than one acre, two Households having between 2·5 and 4·9 acres and one Household between 12·5 and 14·9 acres of land holding.

TABLE B-XIV

SAMPLE HOUSEHOLDS ENGAGED ONLY IN HOUSEHOLD INDUSTRY CLASSIFIED BY PRINCIPAL HOUSEHOLD INDUSTRY

PART A-HOUSEHOLDS CLASSIFIED BY MAJOR GROUPS OF PRINCIPAL HOUSEHOLD INDUSTRY AND PERSONS ENGAGED

PART B-HOUSEHOLDS CLASSIFIED BY MINOR GROUPS OF PRINCIPAL HOUSEHOLD INDUSTRY

TABLE B-XIV

SAMPLE HOUSEHOLDS ENGAGED ONLY IN HOUSEHOLD INDUSTRY CLASSIFIED BY PRINCIPAL HOUSEHOLD INDUSTRY

(Based on 20 per cent Sample)

This Table has been prepared for the Households engaged in Household Industry exclusively. It is in two parts :

Part A classifies Households by Major Groups of the Principal Household Industry and number of persons engaged therein. Industries have been grouped according to the number of persons engaged: 1 worker, 2 workers, 3-5 workers, 6-10 workers, and more than 10 workers.

Major Groups of the Household Industry having less than 10 per cent of the figures of the respective Division have been shown not in the body of the Table, but in the Appendix† to this Table. Divisions thus affected have been marked with asterisks (*) in the Table.

Part B shows the number of Households engaged in different types of Industries.

In both parts data are given separately for total, rural and urban areas. Lines with nil entries have been omitted.

This Table throws an interesting light on the size of working units in different Household Industries.

APPENDIX TO TABLE B-XIV, PART A

Major Groups of Household Industry which have less than 10 per cent of Households engaged in the respective Division have not been shown in the body of the Table B-XIV (Part A). The Divisions thus affected bear an asterisk (*) on their left. Major Groups thus dropped from the Table appear in this Appendix.

The figure in bold type preceding the bracket indicates the Code Number of the Major Group. The alphabets given in brackets are abbreviations showing class ranges of persons engaged in the Household Industry and the figures appearing after the alphabets denote the number of Households in that particular class range of persons.

A	Means	1 Person
B	„	2 Persons
C	„	3—5 „
D	„	6—10 „
E	„	More than 10 Persons
F	„	Number of persons not specified

Example: **PUNJAB 00** (A-7, B-3, C-1) means in the Major Group 00 (Field Produce and Plantation Crops), there are seven Households having one person each, three having two persons each and one having between 3 and 5 persons.

TABLE B-XV

TABLE B-XV

SAMPLE HOUSEHOLDS ENGAGED BOTH IN CULTIVATION AND HOUSEHOLD INDUSTRY CLASSIFIED BY SIZE OF LAND IN *RURAL AND URBAN AREAS SEPARATELY*

(Based on 20 per cent Sample)

This Table relates to Households engaged simultaneously in Cultivation and Household Industry, for the State as a whole, each Administrative Division and each District, and for rural and urban areas separately. Tahsil figures have also been given for rural areas.

In Table B-XIII, a cross-tabulation has been made between the size of land holdings and the nature of Household Industry, in which the Household is engaged as a support to Cultivation. But in this Table, an analysis has been made of the Households according to number of persons working in each size of land holdings. In the case of Households with more than one worker in Household Industry, the number of hired workers is also given.

The size-group of cultivating holdings in this Table is the same as in Table B-XII; but whereas in the former the holdings are correlated with cultivating persons, in the latter the correlation has been attempted between the size of the holdings and persons engaged in Household Industry in addition to Cultivation.

SAMPLE PRINCIPAL HOUSEHOLD INDUSTRY CLASSIFIED BY PERIOD OF WORKING AND TOTAL NUMBER OF WORKERS ENGAGED IN HOUSEHOLD INDUSTRY

TABLE B-XVI

SAMPLE PRINCIPAL HOUSEHOLD INDUSTRY CLASSIFIED BY PERIOD OF WORKING AND TOTAL NUMBER OF WORKERS ENGAGED IN HOUSEHOLD INDUSTRY

(Based on 20 per cent Sample)

This Table presents information for the State as a whole, each Division and District, and for the *total, rural and urban areas within* these administrative units. In column 2 are shown the various Household Industries up to the Divisions and Major Groups according to the Indian Standard Industrial Classification.

A four-fold classification has been made of the Industries according as they are pursued up to 3 months, 4-6 months, 7-9 months and 10 months to one year.

For each Group of these Industries are shown the number of Households engaged on a Household Industry exclusively or conjointly with Cultivation, and along with the number of the Households, the number of family workers and hired workers have also been given.

Major Groups of Household Industry having less than 10 per cent of the figures of the respective Division have been given not in the body of this Table, but in an Appendix † to this Table. Divisions thus affected are marked with asterisks (*) on their left.

This Table throws interesting light on (a) seasonality of Industries; (b) the working strength in Household Industries according to the duration of industrial activity; and (c) correlation between the families working exclusively on Household Industry and conjointly with Cultivation according to the period for which Industries are pursued.

† Pp 340—345.

APPENDIX TO TABLE B-XVI

Major Groups of Household Industry which have less than 10 per cent of Households engaged in respective Division have not been shown in the body of the Table B-XVI. The Divisions thus affected bear asterisk (*) on their left. The Major Groups thus dropped from the Table appear in this Appendix.

The figure in bold type preceding the bracket indicates the Code Number of the Major Group. The alphabets given in brackets are abbreviations for different ranges of period of working in the Household Industries 'in addition to' or 'without' cultivation and the figures appearing after the alphabets denote the number of Honseholds in that particular range.

IN ADDITION TO CULTIVATION		WITHOUT CULTIVATION	
A means	1—3 Months	E means	1—3 Months
B „	4—6 Months	F „	4—6 Months
C „	7—9 Months	G „	7—9 Months
D „	10 Months to 1 Year	H „	10 Months to 1 Year
X „	Unspecified period	Y „	Unspecified period

Example: **PUNJAB 00** (A-1, D-4, E-1, F-1). Figure **00** stands for Major Group 00 relating to Field Produce and Plantation Crops. A-1 and D-4 mean that there are one and four Households engaging themselves in the Household Industry along with cultivation between the periods 1 to 3 months and 10 months to one year, respectively. E-1 and F-1 mean that one House-hold each is working in the said Industry without cultivation between the periods 1-3 months and 4-6 months, respectively.

TABLE B-XVII

SAMPLE HOUSEHOLDS CLASSIFIED BY (i) NUMBER OF MALE AND FEMALE MEMBERS BY SIZE OF HOUSEHOLDS AND (ii) ENGAGEMENT (a) NEITHER IN CULTIVATION NOR IN INDUSTRY (b) IN HOUSEHOLD INDUSTRY ONLY AND (c) IN CULTIVATION SUB-CLASSIFIED BY SIZE OF LAND CULTIVATED

TABLE B-XVII

SAMPLE HOUSEHOLDS CLASSIFIED BY (i) NUMBER OF MALE AND FEMALE MEMBERS BY SIZE OF HOUSEHOLDS AND (ii) ENGAGEMENT (a) NEITHER IN CULTIVATION NOR IN INDUSTRY (b) IN HOUSEHOLD INDUSTRY ONLY AND (c) IN CULTIVATION SUB-CLASSIFIED BY SIZE OF LAND CULTIVATED

(*Based on 20 per cent Sample*)

In this Table the Households have been classified by the size of membership. In column 2, separate details of the Households engaged neither in Cultivation nor Household Industry, Households engaged in Household Industry only, and Households engaged in Cultivation only, have been given for rural areas. Households engaged in Cultivation only have been further divided according to the size of their holdings, as mentioned in fly-leaf to Table B-XI. Under the five sizes of Households (cols. 7-21), i.e., Households of one member, 2-3 members, 4-6 members, 7-9 members, and 10 or more members, are given the number of such Households and the number of males and females in them.

A Census Household is not necessarily a family, but a group of persons living and generally dining together. The Table, however, gives a realistic idea of the size of families since the number of outsiders and family members living away is comparatively very small.

This Table has been prepared on 20 per cent sample basis. In case the number of Households and population recorded in this Table are multiplied by 5, it will not tally with the total number of Households and total population appearing in Table A-I, published in Part II-A Report of Punjab. This is for the reason that Table A-I includes Household, and Houseless and Institutional population. For the convenience of the readers, a statement showing total number of Households and population (exclusive of houseless and institutional population), is given below.
