

CENSUS OF INDIA, 1951

LANGUAGE HANDBOOK

SANTAL PARGANAS DISTRICT

By

RANCHOR PRASAD, I.A.S.,

Superintendent of Census Operations, Bihar

Price Rs. 2 *As.* 8 *or* 3 *sh.* 9 *d.*

INTRODUCTORY NOTE

At the 1951 Census, the data relating to languages, religion, special groups etc., were not sorted and tabulated by villages and towns but by larger units called tracts which generally corresponded to revenue thanas in Bihar.

In January, 1955 the Government of India decided with the concurrence of the State Government to obtain villagewise language data for the following 34 revenue thanas in the five eastern border districts of Bihar by means of a special sorting of the 1951 Census slips :—

Purnea

1 Kishanganj
2 Islampur
3 Gopalpur
4 Kadwa

Santal Parganas

5 Deoghar
6 Madhupur
7 Dumka
8 Dumka Damin
9 Godda
10 Godda Damin
11 Jamtara
12 Rajmahal
13 Rajmahal Damin
14 Pakaur
15 Pakaur Damin

Manbhum Sadar

16 Jhalda
17 Purulia
18 Baghmundi
19 Chandil
20 Barabhum
21 Manbazar
22 Raghunathpur
23 Kashipur
24 Para
25 Chas

Dhanbad

26 Gobindpur
27 Jharia
28 Topchanchi
29 Nirsa
30 Tundi

Singhbhum

31 Ghatshila
32 Kharsawan
33 Seraikela
34 Gobindpur

Shri Kirit Prasad Sinha, Deputy Magistrate and Deputy Collector, who had worked previously as Deputy Superintendent of the Regional Tabulation Office at Muzaffarpur in 1951-52 was appointed as Deputy Superintendent incharge of this operation and he joined at Patna in February, 1955.

It was decided subsequently to include also the following nine revenue thanas in this operation :—

Purnea

1 Katihar

Singhbhum

2 Kolhan
3 Manoharpur

Ranchi

4 Simdega
5 Bano
6 Kolebira
7 Kurdeg

Singhbhum

8 Chakradharpur
9 Karaikela

Villagewise language data has thus been extracted in respect of 43 revenue thanas lying in six districts involving a total population of 7,277,074 with the number of main languages varying from 3 to 6.

After the 1951 Census Sorting Operations, the Census slips of the districts of the Chotanagpur Division were kept in boxes and gunny bags and stored districtwise in a building at Hazaribagh. The Census slips of the remaining districts which fall under the Bhagalpur Division were stored in one of the empty barracks of the Bhagalpur Camp Jail. The transference of Census slips from other buildings to the place of storage by unskilled hands has resulted in the mixing up of the slips of different tracts in many cases. Considerable time and labour had to be spent in rearranging the slips by tracts and villages. This difficulty was enhanced due to the fact that the location code numbers were not noted on slips in many cases, which made the task of their identification very difficult. Some slips had also been eaten up or destroyed by white ants and other insects. These difficulties were sought to be overcome by reference to the National Registers of Citizens, which were prepared by the enumerators simultaneously with the filling up of enumeration slips at the 1951 Census in Bihar. In case of some villages where a large number of slips were either missing or unidentifiable for want of code numbers the sorting of language has been done mainly from the National Registers of Citizens. Villages and towns in which language data have thus been abstracted mainly from the National Registers have been marked with asterisks in the table (except in Santal Parganas). Comparison of linguistic data obtained separately from slips and from National Registers show that they are substantially the same.

The staff employed on the villagewise sorting consisted of 75 Sorters, 12 Compiler Checkers and 2 Administrative Assistants who worked for a period of about 9 months. The operation was conducted in three stages. At the first stage, the slips were sorted out police stationwise or for individual towns with reference to the second code number (indicating the police station or town) at the top of each slip. At the second stage, the slips were sorted out for individual villages or wards of a town with reference to the

third code number, corresponding to the revenue thana number, on the slips. The number of slips thus obtained in respect of each village or ward was compared with the Primary Census Abstract prepared in 1951 to ascertain whether all the slips of the village or ward had been traced. At the third stage, the slips or National Registers where sufficient slips were not available, were sorted by language. There are however some cases in which neither all the slips nor the complete N.R.C. could be available. In such cases totals were struck on the basis of whichever record (slips or N.R.) was more complete. There are also a few cases in which a majority of the slips were missing and the N.R.C. was also not available. The language data in such cases have been sorted from the available number of slips. Language data have not been furnished in the tables in respect of villages where the number of available slips (or N.R.C. entries) was found to be less than 20% of the total population figure appearing in the Primary Census Abstract. The sorted figures were checked by the Compiler Checkers, Administrative Assistants and the Deputy Superintendent at all the stages, and every possible effort has been made to ensure accuracy.

Before I close, I should like to express my gratitude to Shri Rajeshwari Prasad, I.A.S., Deputy Registrar General, India, who visited Patna and inspected the work in progress, and whose sound advice and guidance was always available throughout the course of the linguistic sorting operation. I must also thank Shri K. P. Sinha of the Bihar Civil Service and the staff under him for the zeal and devotion with which they have performed their arduous and often monotonous duties. My thanks are also due to Shri G. P. Sharma, Census Inspector, who was incharge of the entire printing work at Allahabad.

PATNA :

June 25th., 1956.

RANCHOR PRASAD,

Superintendent of Census Operations, Bihar.
