PREFACE.

The District Census Handbook is a collection of the following data :—

1. Introduction which deals with the following items :—

(*a*) Physical Aspects.
(*b*) Geology.
(*c*) Archaeology.
(*d*) Climate.
(*e*) Rain Fall.
(*f*) History.
(*g*) Population.
(*h*) Administration.
(*i*) Medical and Public Health.
(*j*) Education and Literacy.
(*k*) Agriculture and Co-operation
(*l*) Industries.
(*m*) Local Bodies.
(*n*) Rehabilitation of Displaced Persons.
(*o*) Places of Interest

2. District Census Tables (furnishing district data with break up for Census Tracts, within the district). In case of Kohistan District there are 3 Tahsil Rural Tracts (Kanda Ghat Nalagarh and Dera Bassi Tahsils) and one District Kohistan Non-City Urban Tract. There are the following tables for the Kohistan District : —

A-I Area, houses and population.
A-II Variation in population during fifty years.
A-III Towns and villages classified by population.
A-IV Towns classified by population with variation since 1901.
A-V Towns arranged territorially with population by livelihood classes.

B-I Livelihood classes and sub-classes.

B-II Secondary means of livelihood.

B-III Employers, employees and Independent workers.

C-II Livelihood Classes by age group

C-III Age and Civil Condition.

C-IV Age and literacy.

C-V Single year age return.

D-II Religion.

D-III Scheduled Castes and Scheduled Tribes.

D-IV Migrants and Subsidiary.

D-V Displaced persons by district of origin, and date of arrival in India.

D-VI Non-Indian Nationals.

D-VII Livelihood classes by educational standards.

E. Summary figures by districts.

District Index.

Sorter's Ticket.

3. Census Abstracts :—

(*i*) Primary Census Abstracts.

(*ii*) Census Abstracts of Small Scale Industries.

LAKSHMI CHANDRA VASHISHTA.

INTRODUCTION.

District Kohistan

Physical Aspects.

The present day Kohistan district has Kandaghat as its headquarters. The Kohistan district of the erstwhile Patiala State has been strengthened by the addition of erstwhile Nalagarh State Dera Bassi area of the erstwhile Kalsia State and Kasauli, Sabathu, Sanawar and Dagshai which previously formed part of the Ambala district. All these taken together now form the Kohistan District.

Situation and area.

The district is situated between 30° 30' 50" and 31° 14' 25" North and 76° 36' 00" and 77° 15' 10" East. Its area according to the figures supplied by the Survevor General of India, comes to 708 8 square miles. Amongst the eight districts of the Patiala and East Punjab States Union, the district stands sixth in order of area. The 1951 Census population of the Kohistan distsict has been found to be 147,403 and the disfrict stands at the bottom in order of population among the eight districts of Patiala and East Punjab States Union.

The Kohistan district consists of two detached blocks, it is hilly and includes the Nalagarh, the Pinjaur and the Kandaghat areas while the second is a plain.

Boundaries.

The district is bounded as below :—

To the North of the Kandaghat district lies the territory of the Himachal Pradesh, to th South lies the district of Ambala, to the East there is again the territory of Himachal Pradesh and to the West lie the districts of Hoshiarpur and Bilaspur State.

Rivers and streams.

There is no river flowing in the district. Koshaliya is the most important stream in the Kandaghat district. It receives the waters of Sukhna, Sirsala, Jhajra, Gambhar, and Sirsa and near about Surajpur and Chandigarh is known as Ghaggar. The Nalagarh area is traversed by a swift stream called the Sirsa which is crossed by a bridge near Nalagarh. A railway bridge has also been constructed over it near Ghanauli in the Rupar Sub-division and a railway line passes over it joining Nangal with Rupar.

Another stream called the Ashwani runs along the boundary of the Kandaghat district for a distance of about 20 miles and then goes on to the territory of Himachal Pradesh.

Geology.

The following description is taken about the Patiala Siwaliks from the Punjab States Gazetteers Volume XVII-A (Phulkian States) 1904:—

"The Patiala Siwaliks lie between 30° 40′ and 31° 10′ North and 76 49′ and 77° 19′ East forming part of the Siwalik Range. From a physical point of view, they may be further Sub-divided into Dun and Hill. Of these the first extends along the foot of the hills from Ramgarh in Ambala district on the South East to Nalagarh on the North West. On the South West it is bounded by Mani Majra, also in the Ambala district, from which it is separated by the range of Siwalik hills known as the Dun Khols. The Khols present a tangled mass of small ravines, fissures and scraped walls, throughout which degradation has set into such an extent that every year during the rains a large quantity of detritus is carried down by the streams into the Ambala plains, and it seems hopeless to expect that this action can now be stopped altogether, though much might be done by replacing and restricting grazing. In great measure the erosion must be ascribed to laying bare of the soft sand-stone formation by the destruction of the forests, for there is no doubt but that at one time this tract was clothed with dense forests of trees, of the species found in the low hills, as is evident from the old roots and petrified stems still found in many places. East of Ghaggar river near Chandi is another range of low hills, and the portion belonging to Patiala, called the Raitan Khols, extends from the Mir of Kotaha's Ilaqa to Ramgarh. The other features of the Dun are (1) the Raitan plateau, situated between Pinjaur and the Ghaggar river, some 12 square miles in extent; (2) the small isolated hills that rise out of the Dun. The Raitan Plateau is of alluvial formation and is traversed by several streams which have cut deep into the stony soil on their way to the Ghaggar.

The hill division includes two separate tracts. The smaller one about 9 square miles in extent occupies the Northern portion of the Jabrot valley, South of the Phagu-Mahasu ridge, and is surrounded by the Koti and Keonthal States. The larger tract extends through about 300 square miles of the mass of hills South of the Dhami and and Bhajji States as far as the Pinjaur Duo, and is bounded on the East by Keonthal, Koti, Simla, the Giri river and Sirmur on the West by Bhagal, Kuniar, Bhagat, Bharauli in Simla district, Bija and Mahlog States. The whole territory is divided by the Jumna Sutlej water-shed. The chief physcial features are (1) the main ridge or water-shed, marked by the Jakko

Krol, Dagshai and Banasar peaks, (2) the Western off shoots on which are the Snawar, Garkhal and Kararđeo (Kasauli) peaks, and (3) the main valleys drained by tributaries of the Sutlej, Giri Ghaggar and Sirsa rivers".

Archaeology.

Pinjaur is a town of considerable antiquity. There are extensive Hindu remains and fragments of an ancient Sanskrit inscription in the town. There is a sacred tank, called the Dharachetar There are beautiful gardens laid out by Fidai Khan after the model of the Shalamar gardens at Lahore. At Chail there is an old temple of Shiva.

Climate.

The Hilly part of the Kandaghat district possesses a very healthy climate and has several sanatorium situated in it. Kasauli, Dagshai, Sabathu, Sanawar, Kandaghat and Chail are all known for their healthy climate and resorted to by people especially from the plains during the summar, for recouping their health. The climate of Pinjaur area as well as Dehra Basi Sub-tahsil resembles that of Ambala district while the climate of Nalagarh areas resembles of Rupar Sub-division.

Rainfall

The average annual rainfall in the hilly areas of Kandaghat and Chail ranges between 60" and 70" while nearabout Pinjaur it is about 40". The Dehra Bassi area has a rainfall of about 25" to 30" while the Nalagarh area has a rainfall of 30" to 35".

History.

The tradition says that Pinjaur was founded by Pandvas and that its original name was Panchapur which got corrupted to Pinjaur. A mention has been made of it by Abu Rihan in 10-0 A D. Pinjaur formed part of Sirmoor in 1254. The Maharaja of Patiala took Pinjaur area from the ruler of Manimajra in 1769. After the Gurkha War, by the Sanad of 20th of October, 1815, the British Government transferred the Chail area to the Maharaja of Patiala, on payment of Nazrana. The Pinjaur Nizamat, part of the erstwhile Patiala State comprised 4 tahsils of Pinjaur, Rajpura, Banur and Ghanaur with headquarters of the Nizamat at Rajpura with the formation of the Patiala and East Punjab States Union, a new district called the Kohistan district was formed.

Population.

According to the 1951 Census, the population of the district comes to 147,403 persons out of whom 130,175 have been enumerated in the rural areas and 17,228 in the urban areas of the district. The density of the district is 208 persons per square mile. The Kandaghat tahsil, with a density of 290 persons per square mile, exceeds that of the Nalagarh tahsil by 99 persons per square

mile. The density of the Dehra Basi Sub-tahsil is 345 persons per square mile.

The livelihood pattern of the population is as below:—

Name of livelihood Class	Population.
1. Cultivators of land wholly or mainly owned and their dependants.	97,818
2. Cultivators of land wholly or mainly unowned and their dependants.	12,463
3. Cultivating labourers and their dependants.	4,869
4. Non-cultivating owners of land agricultural rent receivers and their dependants.	1,662
5. Production other than cultivation.	6,621
6. Commerce.	4,627
7. Transport.	3,117
8. Other services and miscellaneous sources.	16,226

Adminstration.

The head of the District Adminstration is the Deputy Commissioner with his headquarters at Kandaghat. The Nalagarh Sub-Division is under the control of a Sub-divisional officer while Kasauli is under the charge of an Administrator (holding rank equivalent to that of Assistant Commissioner). The Tahsildar assisted by a Naib-Tahsildar, a number of Field Kanungos and Patwaris, runs the administration of a tahsil. The Assistant Superintendent of Police helped by 17 Sub-Inspectors 19 Assistant Sub-Inspectors, 45 Head Constables and 344 Constables, assists the Deputy Commissioner in maintaining law and order in the district. Besides there are two Sub-Judges-cum-Magistrates, one each at Kandaghat and Nalagarh.

In order to have an effective control over the district, it has been divided into the following tahsils and thanas.—

Name of Tahsil	*Thanas*
1. Kandaghat	Kandaghat, Pinjaur
2. Nalagarh	Kasauli, Sabathu and
3. Sub-Tahsil Dehra Basi	Nalagarh.

Medical and public health.

The medical work is supervised by the Civil Surgeon while the public health is under the control of the Divisional Health Officer who is incharge of Patiala and Kandaghat districts with headquarters at Rajpura. There are, in all, 9 hospitals and dispensaries with 63 beds for the indoor patients. Some of the

best hospitals for special treatment of particular diseases are (i) The Harding Hospital Dharampur for tuberculosis, (ii) the V. D. Clinic, Kandaghat for venereal diseases and (iii) Hospital for anti. rabic treatment at Kasauli.

Public health.

The Divisional Health Officer is assisted by Senior Sanitary Inspectors in the office work, one Sub-Inspector in each tahsil and 9 Sanitary Sub-Inspsctors-*cum*-vaccinators. In addition to the above, the Food Inspectors who have been empowered under the Pure Food Act, make surprise raid and collect sample in doubtful cases and thus help in improving the public health.

Education and Literacy.

The literacy percentage over the total population of the district comes to 12·6 as against 20,8 in the case of males over the male population and 2·7 in the case of females over the total female population (the total actual figures for literates have been found to be 18,624 persons out of whom 16,813 are males and 1,811 females).

There is no college in the district. The following statement shows the number of other educational institutions in the district:

	Government	*Private*
High Schools	5	-
Middle Schools	12	1
Primary Schools	45	

The Lawrence School, Sanawar is well known for imparting general education to boys and girls on modern and European lines.

Agriculture and co operation:

Out of a total population of 1,47,403 persons in the district, 1,17,195 depend upon the agriculture. The total area of the district comes to 3,76,474 acres out of which 25,779 acres are under forest and 1,24,529 acres are not available for cultivation leaving the rest as available for cultivation. Net area sown during the year 1949-50 was shown as 1,17,674 acres. It, therefore, follows that out of the total area only about 1/3rd of it is under cultivation.

Generally two crops are reaped in the district Rabi and Kharif. A brief account of the crops sown in Rabi and Kharif is given below:—

Rabi.

The sowing takes place in the month of Asooj and the crops are generally reaped in the month of Chait although in the hilly tracts the crops are reaped a month or so later. The main crops

are wheat, gram, barley, sarson, taramira and spices. Tobacco is a zaid Rabi crop.

Kharif.

The sowing season starts in the mouth of June-July and the harvesting season begins in the month of October. The main crops grown are maize, jowar, bajra, various kinds of pulses, sugar-cane and cotton.

Co-operation.

The Co-operative Department is under the charge of an Assistant Registrar Co-operative Societies in whose circle the districts of Patiala and Kandaghat fall. No separate account as to the number of credit, non credit/societies etc. their membership and the working capital is separately available for each district. The details of both these districts taken together have been incorpotrated in the District Census Hand book of Patiala District.

Industries.

Most of the district being hilly, it is believed to be rich in mineral products but due to lack of resources and skilled workers they are not mined. Cement and lime stones are found in Pinjaur Ilaqa. Slate stone, copper and glass is found in the Chail Ilaqa. Except the Cement Factory at Surajpur and a Power House at Kandaghat, no major industries are to be found in the district. Kandaghat is known for its honey and orchards. The cottage industry like weaving, manufacture of agricultural implements, and earthen wares are being carried on in almost every big village.

Particular attention has now been given by the Government for development of Cottage Industries *viz* Niwar making, Handloom development, supply of improved spinning and weaving aplianees and sericulture.

Local bodies and panchayats.

The urban population of the district has been found to be 17,228 giving a percentage of about 12 over the total population. It, therefore, follows that there is a great scope for the expansion of its urban areas in the years to come.

The following local bodies function in the district:—

Municipal Committees.

1. Nalagarh.
2. Dehra Bassi.

Small Town Committees.

1. Dharampur.
2. Garkhal.

3. Kandaghat.

Cantonment Boards.

1. Kasauli.
2. Sabathu.
3. Dagshai.
4. Sanawar.

All the above mentioned are Class VI towns (with population below 5,000). Kasauli, Dera Bassi, Nala Garh have lost in population as compared with their 1941 population.

There are only 8 Panchayats functioning in the district.

Rehabilitation of displaced persons.

The Muslim evacuees left only 22,708 acres of cultivated area out of which 21,817 acres are Barani and the rest is irrigated.

The district has accommodated the least number of displaced persons out of all the districts of Patiala and East Punjab States Union-4,124 persons-giving a percentage of 2·8 over the total population of the District. Their tehsilwise settlement is as below. —

Kandaghat	...	...	2,067
Dehra Bassi Sub-tehsil		...	1,692
Nalagarh			365

The district has advanced taccavi loans to the displaced persons as well as allotted housing accommodation and shops to them for their speedy rehabilitation. The following is the account of loans advanced to the displaced persons :—

Kind of loan	*Amount*
1. Urban loans	Rs. 60,025
2. Rural loans	Rs. 1,19,350
3. Free grants in rural area.	Rs. 2,300

Besides 1,226 houses and 198 shops have also been allotted to the displaced persons.

Places of interest.

Kandaghat.

Kandaghat the headquarter town of the Kohistan district is situated at a distance of 21 miles from Simla on the Simla-Kalka road. It is also connected with rail and is a railway station. A Small Town Committee is functioning in the town and it has been included in the list of Class VI towns during the 1951 Census, with its population as 1214 persons including 763 males and 451 females. It is also connected by a road with Chail, the summer resort of the Maharaja of Patiala (now Rajparmukh). It is known

for its fruit gardens as well as a bee-farm. There is a high school Potatoes, ginger and walnuts are the chief exports of the place.

Chail.

Chail is situated at a distance of 19 miles from Kandaghat towards the East and is connected with a road. Its elevation is about 7,000 feet from the sea level. The height of Tibba Sidh is 7,394 feet above sea level. There is an old temple of Shiva. The Villa of Maharaja which is lighted by electricity, was built in 1891-92. The Guest House, the Pine Cottage, the Billiard Room, the Garden Cottage, the Glen View Cottage, the Oak Cottage and the Sidh Cottage are some of the fine buildings. The climate of the place is salubrious but the winter is very cold. The sanitary arrangements are under the control of a medical adviser. It also possesses a Sub-treasury, school and a post office. Its scenery from Simla at night, is heart pleasing and the lights are visible from there.

Pinjaur.

Pinjaur is a small village situated at a distance of 3 miles towards the South of Kalka and six miles North of Chandigarh on the Ambala-Simla Road. It is a place of great antiquity. A brief mention about its previous history has been made under the head 'Archaeology'. Its famous gardens have been described as below in the District Gazetteer of Ambala, Part-A, 1923-24:—

"The garden, which is surrounded by a high wall, is about two furlongs in length by one in breadth, and is laid out on a slope running down to the Ghaggar torrent Advantage is taken of this slope to provide a beautiful example of the terraced gardens of the Mughuls. There are six terraces, with an artificial stream running down the middle of each and falling in a cascade to the next level, while fountains throw the water to an increasing height as the lower terraces are reached. The gateway, surmounted by a suite of rooms, gives access to the highest terrace from the Kalka Road, and the eye is met by green lawns and bright flower beds, while in the centre the stream, flanked by avenues of tall palms, leads into the white Shish Mahal, a building standing at the far end of the terrace. The lower terraces are laid out on a similar plan; a two storied building called the Rang Mahal stands at the end of the second terrace. This is used by the Raja as a rest house on his visit to Pinjaur. It overlooks the third terrace at a considerable height and affords a beautiful view of all the lower levels. The fourth terrace contains a tank in the centre of which is a summer house surrounded by fountains"

There is a police station, a post office and a dispensary at this place.

Kasauli.

Kasauli is a Class VI town situated at a distance of 8 miles from Dharampur. Its population has been found to be 4,007 persons consisting of 2,684 males and 1,323 females. Previously, the town was included in the Ambala District but as a result of the Enclave Order, 1950, it has gone to the Kandaghat district. Its distance from Kalka by a bridle road, is 9 miles. A Cantonment Board is functioning here. There is a big hospital for the T. B. patients as well as a Medical School. Special arrangements exist for the anti-rabic treatment. The Offices of the Director of Public Health Services, Punjab, are also located here. It is also resorted to as a hill station during the summer by people from the plains.

Sanawar.

The only importance attached to the place is the Lawrence School which is situated at a distance of about two miles from Kasauli. It was founded by Sir Henry Lawerence in the year of 1847. It is now under the direct control of the Government of India.

Sabathu.

It is situated at a distance of about 11 miles from Dharampur towards the west. There is a Contonment Board functioning here and its population, during the 1951 Census, has been found to be 2,585 persons as compared with 1941 when its population was 2,181. It is also a Class VI town. Like Kasauli, it too has been transferred from the Punjab to the Pepsu. Its climate is also very fine. There is a Hospital specially meant for the treatment of leprosy.

Dagshai.

It is situated at a distance of 3 miles from Dharampur and is connected with a *pacca* road. A Cantonment Board is functioning here. As compared with its 1901 population, it has lost in population considerably. The following statement gives its population since 1901 :—

Name of year.			*Population.*
1901	...	...	2,159
1911	...	...	2,032
1921	...	...	1,745
1931	...	...	1,469
1941	...	...	1,047
1951	...	...	1,445

Surajpur.

It is situated near Pinjaur and is known for its Cement Works called the 'Bhupindra Cement Works Ltd.' It is a railway station on the Kalka-Ambala railway line. The houses and the roads are well planned. There is a High School, dispensary, a police *chauki* and a post office.

Dharampur.

It is situated on the Kalka-Simla road at a distance of 15 miles from Kalka. A Small Town Committee is also functioning here. It is a Class VI town and has been included in the list of towns during the 1951 Census. Its population has been found to be 1,023 persons including 612 males and 411 females. It is connected with Kasauli, Dagshai and Sabathu by pacca roads. There is also a Hospital for T. B. patients.

Nalagarh.

Before the formation of the Patiala and East Punjab States Union, it was the capital of the erstwhile Nalagarh State and at present is the headquarters of the tahsil of the same name. It is situated at a distance of 14 miles from Rupar. Before the construction of a bridge over the Sirsa Nadi, the means of communication were very difficult but this difficulty has now been overcome. The old fort, the palaces and the Gurdwara and the Jain Mandir are some of the places of interest. There is a hospital, a high school, police station and post office. Bamboo baskets and stone *Kundis* are also manufactured here. A Municipal Committee is also functioning here and its population has been found to be 2,547 persons.

Dehra Basi.

It is the headquarters of the sub-tahsil of the same name and is situated on the Ambala-Kalka Road. It is also a Municipal Town. Its 1951 population has been found to be 3,651 persons. It has lost in population by 1,419 as compared with its 1941 population which was 5,070. It has also got a High School, a Police Station, a post office and a dispensary.

The other places of interest in the district are Garkhal, Tutu, Ganesh, Kumar Hatti and Tara Devi.

LAKSHMI CHANDRA VASHISHTA.

STATEMENT EXPLAINING THE TABLES APPEARING IN A DISTRICT CENSUS HANDBOOK.

In the 1951 Census, in addition to the sorting of the slips to produce the tables, essential Census information relating to every person enumerated in every village and every town/ward has been incorporated in a National Register of Citizens which has been preserved as an unpublished administrative register for purposes of reference during the inter census decade

Some changes have been made between the procedures for tabulation adopted at the 1931 and earlier censuses and at the present census. These are explained below :—

1. SUBSTITUTION OF ECONOMIC CLASSIFICATION FOR CLASSIFICATION BASED ON RELIGION :—

In the past, Census slips were, at the very out set sorted on the basis of religion, and the figures of population by religion thus obtained were the basis of village statistics. The separation of slips by religion and sex was maintained throughout the sorting operation ; and thus certain Census characteristics were cross tabulated by religion. During the present census, the slips have been sorted in the first instance, into the following eight livelihood classes of the population :—

AGRICULTURAL CLASSES.

I. **Cultivators of land wholly or mainly owned and their dependants.**

II. **Cultivators of land wholly or mainly unowned and their dependants**

III. **Cultivating labourers and their dependants.**

IV. **Non-cultivating owners of land ; agricultural rent receivers and their dependants.**

NON-AGRICULTURAL CLASSES.

Persons (Including dependants) who derive their principal means of livelihood form :—

V. **Production other than cultivation.**

VI **Commerce.**

VII. **Transport**

VIII. **Other services and miscellaneous sources.**

The resulting figures have been given in the Primary Census Abstracts which serve as the basis for village statistics.

2. THE CONCURRENT 10% SAMPLE.

The Age (Sample) Tables have been prepared from the enumeration slips by taking a 10% sample, out of the population excluding the displaced persons. Separate figures for displaced persons are given in the Handbook in all important tables.

3. PRESERVATION OF CENSUS RECORDS OF REGISTERS.

In the past, the abstract (first prepared in the process of sorting and compilation) was used for compiling village statistics, which were retained as unpublished administrative records by same States and printed and published by others. At the present Census, the following *data* are included in the District Census Handbook and printed and published as such :—

i. **Introduction to the District Census Handbook.**

ii. **District Census Tables (furnishing district *data* with break up for Census tracts, within the district).**

iii. **Census Abstracts : (a) Primary Census Abstracts (b) Occupational Abstracts and (c) census abstracts of Small Scale Industries.**

The following tables have been included in the Handbook.

A. GENERAL POPULATION TABLES.

1. Area, Houses and Population.

(The area figures in this table have been supplied by the Deputy Commissioner of the district and hence do not tally with the area figures maintained by the Survey Department : No. of houses are those which were found to be occupied at the time of house numbering by the revenue staff ; un-occupied houses do not figure in the table.)

VARIATION IN POPULATION DURING FIFTY YEARS.

II. (The population figures given in this table for the previous censuses have been adjusted, taking into consideration the adjustment of enclaves during the period 1941-51. Population of area transferred to and/or from each tahsil have been added to or substracted from the population of that tahsil for the census 1901 to 1941.

III. **Towns and villages Classified by Population.**

IV. **Towns Classified by Population with Variation Since 1901.**

V. **Towns arranged territorially with Population by Livelihood Classes.**

(In this table figures for livelihood classes I to III have not been given separately but have been clubbed together.)

B. ECONOMIC TABLES.

I. Livelihood Classes and Sub-Classes.

(Non-earning dependants in this table mean economically passive persons *i. e.* who do not earn anything ; and earning dependants implies a person who is semi-active, *i. e.* whose earning do not suffice his living and who has, therefore, to depend upon others ; Self-supporting persons mean economically active persons *i. e.* who do not depend upon others, and are at least able to maintain themselves.)

II. SECONDARY MEANS OF LIVELIHOOD.

Non-earning dependants do not have secondary means of livelihood. An earning dependant is maintained partly by the income of some other person and partly by his own ; the source which gives him some income is taken to be his secondary means of livelihood for purposes of this table. A self supporting person may have more than one means of livelihood in some cases ; the second best source of income has been given in this table as his secondary means of livelihood.)

III. EMPLOYERS, EMPLOYEES AND INDEPENDANT WORKERS.

(The self supporting persons in non-agricultural classes have been classified in this table as Employers, Employees and Independant workers and are distributed in the various Divisions and Sub-divisions of Industries and Services. The fly-leaf of this table gives the number of self-supporting persons who are economically passive *e. g.* persons living principally on pensions, remittanee, scholarships and fund, inmates of jails, asylums, almhouses and beggars and vagrants. To economise paper and labour no space has been provided in the table for those divisions and sub-divisions in which no self supporting persons fall.)

C. HOUSE-HOLD AND AGE (SAMPLE) TABLES.

I. Household (size and composition). This table has not been published in the handbook.

II. Livelihood Classes by age Groups.

III. Age and Civil Condition.

IV. Age and Literacy.

V. Single year age-returns. (Infants below 1 year of age have been shown under the age " 0 ".)

D. SOCIAL AND CULTURAL TABLES.

I. Language. This table has not been published in the handbook.

II. Religion.

III. Scheduled castes and tribes. (The fly-leaf of this table gives the number of Anglo-Indians which have been included in the figures of Christians in Table D-II).

IV. **Migrants.** (The fly-leaf of this table gives the number of people born in countries outside India but enumerated in this district.)

V. **Displaced persons.** (For Census purposes, a displaced person was taken to mean any person who has entered India having left or been compelled to leave his home in Western Pakistan on or after the 1st March, 1947, or his home in Eastern Pakistan on or after the 15th October, 1946, on account of civil disturbances or the fear of such disturbances or on account of the setting up of the two Dominions of India and Pakistan. But some persons, who had migarted to India from Western Pakistan even before 1st March, 1947, returned themselves as diplaced persons at the time of census taken for the simple reason that they had left their immovable property in Pakistan : such persons have also been included in the defination of 'Displaced Person').

VI. NON-INDIAN NATIONALS.

(This table was not prepared in the previous censuses ; it has been based on a suggestion made by the U. N. population Commission.)

VII. LIVELIHOOD CLASSES, BY EDUCATIONAL STANDARDS.

(This table is also new and is designed to show the distribution of educated man-power among the different livelihood classes.)

SUMMARY FIGURES BY DISTRICTS.

(This table furnishes selected *data* by Tahsil/tract in the district. The area figures given in this table have been furnished by the Deputy Commissioner of the district and the 1941 population figures has been given after giving effect to the adjustment of enclaves.)
