PREFACE.

This volume contains Imperial Tables compiled and tabulated from the Census figures of 1931 at the office and under the direction of Mr. Venkata Char, I.C.S., Superintendent of Census operations for Central India at Indore. In 1921 both the text portion and the tables portion were compiled at Indore. This time the compilation of the main report was altogether entrusted by the Darbar to me after tabulation work was done at Indore.

The arrangement of tables in this volume is different in some respects from the arrangement in the corresponding part of 1921. The fly leaf of each table gives general information about the table. Tables I-V and VII are the same as those in 1921, but of the other tables of 1921 some have been differently numbered and others abandoned in 1931 as shown below:—

Tables 1921			Tables 1931

VIII.	Education by Religion and Age.	D.	XIII.
IX.	Education by selected castes	D.	XIV.

XII-A.	Infirmities by selected castes, tribes of races		X. Omitted
XII-B.	Infirmities by birth place.		Omitted
XIII.	Caste, Tribe and Race. ...	...	XVII.
XIV.	Civil condition by age for selected castes.		VIII.
XV.	Terrtorial distribution of population by sect and race.		XXII. Omitted
XVI.	Europeans and allied races and Anglo Indians by race and age.		XIX.
XVII.	Occupation by means of livelihood		XI (New 10
XVIII.	to XXII.	have been abandoned.	

No tables corresponding with table XX (Distribution by religion of workers and dependants in different occupations) or table XXI (occupation by selected castes, tribe or races) of 1921 have been compiled and tabulated for 1931 census for the State. These tables were rather important and in a country where castes and races are designated mostly according to the nature of the occupations they follow, it is a valuable piece of information which can be collected during census as to how far the occupational castes retain their hereditary occupations.

The statistical tables e. g. XVIII-XXI of 1921 relate to occupation and they correspond to the Imperial tables XII, XIII, XVI, XV, and XIV of 1931 but these have been abandoned. Some information contained in them particularly regarding principal and subsidiary occupations has

been incorporated in table XI (Occupation), whereas Industrial Statistics compiled under table XXII in six parts in 1921 have not been compiled in 1931, although they would have been useful for the State where industrial development engages attention.

In all tables generally figures are compiled for the whole of the state, for the two natural divisions, Northern and Southern, andfor the Tahsils. It may be noted that the Southern division has been divided since 1921 into two portions, East Rewa and South Rewa, whereas the Northern division mentioned in the tables is identical with North Rewa. Merely the work of editing the tables, correcting errors and the writing out of matter on the flyleaf of each table has been done by me, the substance was all compiled at Indore. I have, however,made corrections in figures in the columns of tables where they appeared to be arithmetically wrong, and particularly in the urban and rural area columns in Table I, in view of more accurate figures found out by me by ascertaining exact up to date extent of area from the depertments concerned. Although the number of tables in this volume is less than that of 1921 but the extent of information collected in them has been greater in as much as this part of the report occupies 246 pages where as in 1921 there were only 174 pages in the corresponding portion.

In 1921 the tables were printed as part II of the volume of report. This time the text portion of report is volume I and this is volume II.

Bhawani Datta Joshi.

TABLE I.

Area, House and Population.

1. This table shows the area, the number of towns and villages, the number of occupied houses, and the total urban and rural population by sex for each Tahsil, natural and administrative divisions.

2. The figures include the population within area of Railways traversing the Rewa State and also for the head-quarters of the Baghelkhand Agency which lies in the Sutna town of the Raghurajnagar Tahsil.

3 The figures for towns, including those for the capital town of Rewa are incorporated in their respective Tahsils.

4. The natural divisions of the State are - (1) Lowlying and (2) Hilly.

The lowlying natural Division is also the Northern Rewa administrative division and comprises the Parganas of Huzur Tahsil, Raghurajnagar, Teonthar, Sirmaur and Mauganj.

The hilly division is the Southern Natural Division, but for administrative purposes it has since 1921 been sub-divided into East Rewa and South Rewa. East Rewa comprises the Parganas of Gopad-Banas, Beohari and Singrauli, whereas South Rewa consists of the two Parganas of Bandhogarh and Sohagpur

TABLE II.

Variation in population since 1881.

1. This table shows the variation in population of the preceding five censuses for the State as a whole.

2. As the old Tahsils have undergone changes, figures for the areas of each present Tehsil previous to 1911 are not available to obtain figures for adjustment of population

TABLE III.

Towns and villages classified by population.

1. This table shows the number of towns and villages arranged according to population. There is an increase of 5 towns in 1931 Census.

2. All hamlets are, so far as possible, included in the parent villages.

3. Encampment and travellers enumerated in trains have been shown separately in this table only. Elsewhere they have been included in the population of towns or villages in which their enumeration was taken.

TABLE No. XI (New 10).

This table deals with occupation or means of livelihood. It corresponds to table No XVII of 1921 and is for all purposes Table X of the Imperial tables for Census 1931. Sinec 1921 the classification of occupational groups has been revised and some new groups have been added.

2. The table gives figures according to four main heads—

A. Production of raw materials classified under—
- I Exploitation of animals and Vegetation,
- II Exploitation of Minerals

B. Preparation and supply of material substances classified under—
- III Industry,
- IV Transport,
- V Trade,

C. Public administration and liberal arts classified under—
- VI Public force,
- VII Public Administration,
- VIII Profession or liberal arts,

D. Miscellaneaous—
- IX Persons living on their income,
- X Domestic service,
- XI Insufficiently described occupations,
- XII Unproductive,

3. These four main heads A, B, C. and D. are divided into 12 groups as above. These 12 groups are divided into 55 classes and 195 occupational groups. There are altogether 195 occupational groups as censused in 1931, as against 191 in 1921 but in this State table, group Nos. 8, 9, 10, 11, 12, 14, 15, 24, 25, 31, to 34, 36, 38, to 40, 47, 50, 52, 53, 57, 62, 69, 76, 79, 80, 101, 103, 142, 143, 153, 155, 156, 176, 180, 183, do not find place.

4. Persons wholly dependent according to their dependency on various occupational groups have not been separately shown; but those dependents who by working full or part time help to augment the family income have been detailed according to the actual occupation by which their assistance is given. The 1921 Census figures were not tabulated in this manner.

5. The figures under the columns for total following any occupation include persons following occupations as subsidiary to their principal occupation, so that the figures include as separate items a certain number of different occupations followed by single individuals to a maximum of two occupations per individual.

6 In 1931 Census the main groups or orders of groups shown in the Table in bold Arabic figures are 55 as compared to 56 in 1921.

TABLE XIV.

Education by selected castes or Races.

This table corresponds to Table IX of 1921 and gives figures of literacy and about the population according the castes of each of the main religions. It practically repeats the information given in Table XIII with only this difference that it contains statistics ragarding some selected castes. or tribes in the State arranged in alphabetical orders for facility of rference. In some of the important castes like Brahmans, Rajputs and Banias their sub castes have been noted and figures entered against each. Besides the chief sub castes denoted by Arabic numbers within brackets, under each of the main castes or tribes, there are also figures tabulated for other sub-castes of these main castes described in the table as *Bania others*, *Brahman others*, *Rajput others*, *Muslim others*, *Tribal others*, *and Jain others*.

In Part B of the table are compiled figures regarding literacy with respect to some Hindus, not previously mentioned in Part A as also a large number of castes of other Hindus not already included in Part A or the first portion of Part B.

REWA STATE CENSUS 1931

TABLE XVI.

Religion.

This table corresponds with table VI of the last census and deals with the religious distribution of the population of the State as a whole as well as of the Tahsils and of the two divisions. Figures for the Satna Agency Head Quarters are also separately shown although they should be included in Raghurajnagar Tahsil. Since the census of the 1921 Satna Agency Head Quarters has ceased to exist and the figures shown have been included in Satna Town. Hindus have been classified in the census Table into Brahmanic, Arya and Brahmo, in order to get separate figures for the reforming sections of the Hindu religious community. Animists of 1921 are returned as Tribals in 1931. There is no such column as "others" (indefinite belief) in 1931 but there is one addition of the Jew as a religion followed by 3 persons found in the state.

REWA STATE CENSUS 1931.

TABLE XVII.

Religion, castes tribe etc.

This table corresponds with table XIII of 1921, caste tribe or race. In the tabulation of this table for the State instead of the word 'race' the word religion has been put in the heading which is rather misleading. In this table the method followed is that figures for main castes of the population are given for the State as well as for the 11 Tahsils and the 4 towns of Rewa, Govindgarh, Satna and Umaria. Figures are also given for other castes under the main religions which did not find mention in the main castes. In the case of certain castes such as Agarya, Baiga, Bharya, Darzi, and Gond, there were found some persons following one religion and others following another religion. Separate figures for these have been tabulated. There is no grouping of (unspecified) castes in 1931 as they were shown in 1921. These and all such minor castes have been included in 'others' in the Table.
