PREFACE

This paper contains data on language mainly spoken in the household collected during the 1981 Census through Part-I of the Household Schedule. The language data, thus collected are presented upto taluk and town level of the State in this volume. The table which forms part of the household series tables of the 1981 Census is entitled Table HH-16 Households and household population by language mainly spoken in the household (inclusive of variants grouped under each). The table is divided into two Parts—Part A and Part B. Part A relates to languages specified in Schedule VIII to the Constitution of India and Part B relates to other than those specified in Schedule VIII to the Constitution of India. Part A is again sub-divided into two Parts—Part A (i) relating to State and district level and Part A (ii) relating to taluk/town level of the State. Similarly, Part B (i) relates to State and district level and Part B (ii) relates to taluk/town level of the State.

The tabulation of these data was done manually under the guidance of the Office of the Registrar General, India. As mentioned in the note on the language data contained in this volume, this table includes houseless households but excludes institutional households.

The Director of Census Operations, Shri A. P. Muthuswami, IAS, under whose guidance, the 1981 Census was carried out deserves all credit for the success of the Census Operations but he had to leave the Organisation for taking up other important assignments before the paper in question could be made ready for the press.

We must record our deepest sense of gratitude to Shri P. Padmanabha, IAS, the former Registrar General, India and Shri V. S. Verma, IAS, the present Registrar General, India. Dr. B. P. Mahapatra, Deputy Registrar General (Language) and his colleagues deserve our thanks for patiently scrutinising the language data. Our thanks are due to Shri N. Rama Rao, Assistant Registrar General (Census & Tabulation) and Shri R. P. Tomar, Deputy Director of Census Operations, for their valuable guidance in preparing this paper. Shri Mahal Singh, Investigator and his colleagues in the Census Division, whose names are given separately, ably coordinated the inflow and outflow of the language data among the headquarters, Language Division at Calcutta and the Directorates. They all are deserve our thanks.

In our own Office, we received the maximum cooperation and assistance at every stage from our staff who worked diligently and with devotion. Here, we would place on record our appreciation to the contribution of Shri L. J. Christopher, Investigator, S/Shri P. Ramakrishnan and S. Chandrasekaran, Statistical Assistants.

Madras

M. THANGARAJU
Deputy Director of Census Operations,
Tamil Nadu

2.	Shri M. C. Sharma	Proof Reader

NOTE ON THE LANGUAGE DATA

In the 1981 Census a new question on the 'Language mainly spoken in the Household' was asked in the Household Schedule along with the two usual language questions on 'mother tongue' and 'other languages known' in the individual slip. This information adds not only a new dimension to the language profile of the country but a useful one, for it provides a dynamic aspect of the language behaviour as against the more or less stable picture thrown up by the mother tongue data. The Institutional households which are linguistically heterogenous and may or may not have a uniform household language are excluded from these data. Out of the total number of households of 10,281,002 the number of institutional households is only 11,292 with 318,796 population i.e. only 0.66 per cent of total population.

Question 5 on 'Language mainly spoken in the household' in the Household Schedule was canvassed in all the households other than institutional households. The raw returns were rather unusually large. All these returns were scrutinised following usual linguistic methods including studying 'Language specimans' and under-taking field investigations.

The distribution of the 1981 household population by languages grouped into scheduled languages and languages other than scheduled are shown below.

Distribution of 1981 household population by languages (inclusive of variants grouped under each)

TABLE—I

State/District	Total household population (excluding institutional household population)	Speakers of Schedule VIII languages and the percentage to the total household population	Speakers of other languages and the percentage to total household population

N : Negligible

Part A of the table gives the distribution of the 15 languages specified in Schedule VIII to the Constitution in the State. Speakers covered by these languages constitute 99.90 per cent of the total household population excluding Institutional household population. The remaining 0.10 per cent is accounted for by the rest of the languages.

HH-16 LANGUAGE MAINLY SPOKEN IN THE HOUSEHOLD

Part A : Households and Household population by languages mainly spoken in the household (inclusive of variants grouped under each) specified in Schedule VIII to the Constitution of India.

Part B : Households and Household population by languages mainly spoken in the household (inclusive of variants where grouped) other than those specified in Schedule VIII to the Constitution of India.

FLY-LEAF

These tables present the languages mainly spoken in the household, on the basis of household schedule of the Census of India 1981. All tables include Houseless households but exclude Institutional households.

The question 5 on household language, definition of household and instructions to enumerators at the 1981 Census were as follows :

Question 5 : Language mainly spoken in the household.

Definition :— A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be a household of persons related by blood or a household of unrelated persons or having a mix of both. Examples of unrelated households are boarding houses, messes, hostels, residential hotels, rescue homes, jails, ashrams etc. These are called 'Institutional Households'. There may be one member households, 2 member households or multi-member households. For census purposes, each one of these types is regarded as 'Household'.

Instructions to enumerators :—You have to ascertain from the head of the household about the language which is mainly spoken in the household. You have to record the answer faithfully as returned. There may be cases where one or two persons of the household may be speaking other languages also, but the language to be recorded here is the one which is spoken mostly by the members of the household among themselves. The language spoken in the household should not be confused with the mother tongue of each individual member of the household. For institutional households put 'x' on the line. Do not enter anything in the dotted boxes against this question.

Table HH-16 have four parts—Parts A (i) and A (ii) have been presented showing the distribution of households by languages mainly spoken in the household, specified in Schedule VIII to the Constitution of India inclusive of variants grouped under each.

Parts B (i) and B (ii) have been presented showing the distribution of households by languages mainly spoken in the household, other than those specified in Schedule VIII to the Constitution of India inclusive of variants where grouped.

Table HH-16 Parts A (i) and B (i) present data for State and districts while Table HH-16 Parts A (ii) and B (ii) present data for State, districts, tehsils, U.As, city and town level. In the table, figures have been presented for number of households, persons, males and females cross-classified by total, rural and urban areas.

In both parts A & B, variants have been grouped in some cases under the relevant languages. This has been done on the basis of linguistic information readily available or in the light of studies already made. These identifiable variants which returned 10.000 or more speakers each at all-India level and have been grouped under Parts A and B languages are shown below.

PART A

GUJARATI	Saurashtra
HINDI	Awadhi; Bhojpuri; Garhwali; Kumauni; Lamani/Lambadi; Maithili; Marwari; Pawari/Powari; Rajasthani
KANNADA	Badaga; Kuruba/Kurumba
MALAYALAM	Pania
SINDHI	Kachchhi

PART B

BHILI/BHILODI	Kokna/Kokni/Kukna
LAHNDA	Multani; Punchhi.

All other returns falling under Part B and which returned less than 10,000 speakers each at the all-India level or were not linguistically identifiable are included in the category 'Others' occurring as the last entry in Part B.
