CENSUS OF INDIA 1971

PUBLICATION PROGRAMME

PONDICHERRY

Series 30 will relate to Pondicherry Union Territory only. Under this series, the following publications will be issued.

Portrait of population . .	A Descriptive Analysis of 1971 Census data
Part I	General Report and Subsidiary Tables
*Part II—A	General Population Tables (A series)
Part II—B	Economic Tables (B series)
Part II—C	Distribution of Population—Mother-tongue, Religion, Scheduled Castes and Scheduled Tribes and other Social & Cultural Tables and Fertility Tables
@Part II—D	Migration Tables
*Part III	Establishments—Report and Tables
*Part IV	Housing Report and Tables
Part VI—B	Special Survey Reports on Selected Towns
Part VI—C	Survey Reports on Selected Villages
Part VIII—A & B . . .	Administration Report on Enumeration and Tabulation (for official use only)
Part IX	State Census Atlas
Part X	District Census Hand Books
*A & B	Village and Town Directory and Primary Census Abstract
C	Analytical Report, Administrative Statements and District Census Tables
	Special Studies and other Miscellaneous Reports

ALL INDIA PUBLICATIONS

Volumes similar to those indicated above are being published at the All India level. Apart from these, All India Census Tables on 1% sample basis, as Part II (Special) and a Special Report on Graduates and Technical Personnel as Part VII are also being published.

*Already Published

@Present publication

PREFACE

The present publication contains six tables on the migrational aspects of the population. The data presented in these tables are compiled from the information gathered from the individual slips of the 1971 Census. Migration plays a vital role in assessing the growth of population, and in a developing economy, it assumes much importance for sociologists and demographers.

A preliminary note has been given explaining the scope and contents of the information collected on migration. The contents of the tables have been explained, in brief, in the fly leaf which precedes each table. It is hoped that the statistics presented in these tables would be of use to specialists concerned with population studies.

I wish to record my appreciation of the able assistance given to me by S/Sri T. R. Rajagopalan, T. V. Srinivasan and M. Thangaraju, Deputy Directors, S/Sri N. Rama Rao and M. Panchapakesan, Assistant Directors, Sri S. Packiaraj, Tabulation Officer, Sri C. K. Somasundaram, Senior Technical Assistant and Smt. A. M. Mangayarkarasi, Research Assistant, in finalising the materials for this volume. I am thankful to the members of the staff mentioned in the following page for their co-operation in bringing out this volume.

I also take this opportunity to convey my thanks to Sri R. B. Chari, I.A.S., Registrar General, India for the help and guidance given to me in bringing out the 1971 Census publications. Sri K. K. Chakravorthy, Assistant Registrar General (Census) and his staff, deserve mention for the early clearance of the tables published in this book.

Lastly, I would like to thank Sri A. V. Bodas, Manager of the Government of India Press, Nasik and his officers for their co-operation in the expeditious printing of this volume.

K. CHOCKALINGAM

INTRODUCTORY NOTE

In this volume, six tables known as Migration Tables of the 1971 Census relating to Pondicherry Union Territory are presented. Migration according to earlier Indian censuses, has been based on returns of the place of birth. If a person was born at a place other than the place of enumeration, that person will figure as a migrant in census returns. These statistics would not show the intermediate movements of population between various places, as migration was determined solely with reference to the place of birth. As such, a person who was moving from place to place will not be considered a migrant if during the period of enumeration he happened to be at the place of birth. The 1961 census made an attempt to enlarge the scope of enquiry and collected certain important data to fill up the gap felt in the area of migration statistics. Thus the 1961 Census elicited universally answers to the following questions:

4(a) Birth Place

4(b) Birth Place R/U (Rural/Urban)

4(c) Duration of residence if born elsewhere

5(a) Nationality

At the 1971 Census, it was felt that the movement of population should be related to the place of last residence so as to present a more meaningful picture on migration statistics. However to maintain comparability with 1961 census, a table on birth place has also been prepared. The question on Nationality has been dropped this time and no table has been presented on non-Indian Nationals. The questions asked to elicit information on migration at the 1971 Census were:

7. Birth Place
   - (a) Place of Birth
   - (b) Rural/urban
   - (c) District
   - (d) State/country
8. Last residence
   - (a) Place of last residence
   - (b) Rural/urban
   - (c) District
   - (d) State/country
9. Duration of residence at the village or town of enumeration.

Question 7 ascertained information on the place of birth, rural/urban nature of the place of birth, district, state and country of the birth place. Question 8 ascertained details similar to Question 7 in respect of the place of last residence. Question 9 ascertained information about the period of residence at the place of enumeration if a person had another place of normal residence irrespective of his place of birth before he came to the present place of enumeration. For this question, even if a person was born at the place of enumeration,

by the nature of his work or for studies etc. he had moved subsequently to another village or town and had come back again to the place of enumeration, he was considered as having had another place of residence prior to his enumeration in that place.

From the answers recorded to these questions the data on the following characteristics of migrants were collected and presented in the Migration Tables.

1. Rural—urban nature of birth places and of the places of enumeration with cross classifications for :

   (a) born in place of enumeration

   (b) born elsewhere in the district of enumeration

   (c) born in other districts of the state

   (d) born in each of the States or Union Territories in India

   (e) Born outside India (No rural-urban classification of place of birth was made) (Table D—I)

2. Rural—urban nature of the place of last residence and duration of residence at the place of enumeration and cross classifications as in 1 above (Table D—II).

3. Migrants to urban units (including agglomerations) with a population of one lakh and above classified by sex, broad age-groups and educational levels and in the case of workers by occupational divisions. (Table D—III)

4. Non-migrants, migrants from rural areas and from other urban areas with two durations of residence (less than 3 years and 3 years or more) at the place of enumeration for urban units (including agglomerations) with a population of one lakh and above. (Table D—IV)

5. Industrial categories of workers and non-workers according to main activity classified by place of last residence. Cross classification for place of last residence as in item 2 above. (Table D—V)

6. Classification for place of last residence, age-group, duration of residence and Marital status. (Table D—VI)

In addition to the questions mentioned above, statistics for preparing the migration tables were gathered from the answers to other general questions from the individual slip such as Q. 3. Sex, Q. 4. Age, Q. 5. Marital Status, Q. 12. Literacy, Q. 13. Educational level and Q. 16. Main activity. An extract of the instructions to the enumerators for recording answers to these questions as well as the questions on migration is given in the Appendix to this note for reference.

APPENDIX

Extract from the Instructions to enumerators for filling up the Individual slip.

Question 3 : Sex

For males write 'M' and for females write 'F' within the circle indicated against this question. Even for eunuchs and hermaphrodites, write 'M' only. Verify with reference to the name and relationship to Head against questions 1 and 2 respectively that you have noted the sex correctly.

Question 4 : Age

Record the age of the person in total years completed last birthday. Very often there is a tendency on the part of the individuals to return 'years running' rather than the 'years completed'. Make sure that only the actual number of years completed is recorded.

In respect of infants who might not have completed one year by the day of enumeration their age in completed years should be invariably shown as 'O' as they have not yet completed one year of age and add 'Infant' in brackets. As was stated under general instructions make sure that infants even if a day old are invariably enumerated. You should not enter the age in months. The age of an infant who has not yet completed one year should invariably be noted as 'O' only.

Age is one of the most important items of demographic data and you should ascertain the age with greatest care. Many persons particularly in the rural areas cannot give their age correctly. They should be assisted to state the correct age by stimulating their memory with reference to any historical event etc., well known in the area. Sometimes the age can be ascertained with reference to the age of another person of a known age that may be in the same household or in the neighbouring household or that of a well known person of the village such as Headman of the village. A person can more easily say whether he was older or younger to such a person and by how many years. This will help you to record the age more accurately.

Question 5 : Marital Status

In answering this question use the following abbreviations :

NM : Never Married
M : Currently Married
W : Widowed
S : Separated or Divorced

For a person who has never been married at any time before, write 'NM'. For a person currently married, whether for the first or another time and whose marriage is subsisting at the time of enumeration with the spouse living, write 'M'. Write 'M' also for persons who are recognised by custom or society as married and for the persons in stable de facto union. Even if a marriage is disputed in the locality write 'M' if the person concerned says he or she is married or is in stable de facto union. For a widowed person whose husband or wife is dead, and who has not been married again, write 'W'. For a person who has been separated from wife or husband and is living apart with no apparent intention of living together again or who has been, divorced either by a decree of a law court or by an accepted social or religious-custom but who has not remarried, write 'S'. For a prostitute return her marital status as declared by her.

Question 7: Birth Place

Answer to this question has to be filled with reference to the place of birth of the persons enumerated and the particulars recorded under the four sub-items of this question.

7(a) Place of Birth

Write 'PL' for a person born in the village or town where he is being enumerated. Where 'PL' is noted against this question put 'X' against sub-items (b), (c) and (d).

For those born outside the village or town of enumeration write the actual name of the place against sub-item (a) and fill the other details against sub-items (b), (c) and (d).

7(b) Rural/Urban

For those born outside the village or town of enumeration ascertain if the place of birth was a village or town at the time of his birth. To enable a person to determine whether the place was a town or a village he may be required to indicate the status of the place of birth in comparison with a known town in the neighbourhood of the place of enumeration. You may mention some important urban characteristics to enable the person to make out if the place of his birth was rural or urban e.g. existence of a local administrative body, Industrial townships declared as towns etc.

For a person born in a village, write 'R'.
For a person born in a town/city, write 'U'.

For a person born in a foreign country put 'X' against this sub-item and also against sub-item (c). If all efforts to classify the place of birth as rural/urban fail, write 'not known'.

7(c) District

For a person born outside the village or town of enumeration but within the district of enumeration write 'D'. For a person born in another district of the State of enumeration, or other State/Union Territory in the country, write the name of the district. If the person cannot name the district, write 'not known'.

7(d) State/Country

For persons born within the State of enumeration write 'X' against this item. Make sure that the earlier entries made in sub-items (a), (b) and (c) are consistent will such an answer; that is 'PL' might have already been written against sub-item (a) or 'D' is written against sub-item (c) or

any other district of the State of enumeration is mentioned against sub-item (c).

For persons born outside the State of enumeration but within the country, write the name of the State/Union Territory where born.

For those born outside India, note merely the name of the country and there is no need to enter the name of the constituent State of the foreign country. Where a person cannot name the country, the name of the continent may be noted.

For a person born on sea, record 'born at sea' against this sub-item and put 'X' against sub-items (a), (b) and (c). If a person was born in a train, boat or bus etc., within the country, write the particularls in (a), (b), and (c) with reference to the administrative territory where the event occurred or was registered.

Question 8: Last Residence

Answer to this question will have to be filled in respect of every person if he had another place of normal residence irrespective of his place of birth, before he came to the present place where he is enumerated. Even if a person were born at the place of enumeration, by the nature of his work or for studies etc. he had shifted subsequently to another village or town and had come back again to the place of enumeration, he should be deemed to have had another place of residence prior to his enumeration here.

The last previous residence is relevant only if he had been outside the village or town of enumeration and not simply in another house or locality in the same place. For example, if a person born in one part of Bombay City is found residing in another part of Bombay at the time of enumeration, the change of residence should not be treated as change of place of residence because both the areas are comprised in the same City of Bombay. Similarly, a person born in hamlet 1 of village Rampur and found in hamlet 2 of the same village at time of enumeration, should not be deemed to have had any other place of residence than the village where he is enumerated. Where a person had merely gone out to another place or had been shifting from place to place purely on tour or pilgrimage or for temporary business purposes, he should not be deemed to have had another residence different from the place where he or his family normally resides but if the person had his normal residence, i.e., if his normal home had been elsewhere at any time before he is enumerated at his place of present residence, irrespective of where he was born, such place of his previous residence should be recorded here.

8(a) Place of last residence

For a person who had been in the village or town of enumeration continuously since birth (except for shifting to other places outside the village or town of enumeration for a purely temporary stay) write 'PL' against sub-item (a) and

For a person who had his last previous residence at any place outside the village or town of enumeration (irrespective of his place of birth), write the actual name of the village or town where his last residence was against sub-item (a) and fill the other details against sub-items (b), (c) and (d).

8(b) Rural/Urban

For a person who had previously resided outside the place of enumeration ascertain if the place of last previous residence was rural or urban and record the answer. For a person whose last previous residence was a village write 'R'. For a person whose last previous residence was a town/city, write 'U'. For a person who last resided in a foreign country write 'X'. For a person whose last previous residence cannot be classified, write 'Not known'.

Rural or Urban status has to be determined with reference to the time of migration from the place of last previous residence to the place of enmeration.

For helping the person to determine whether a place was rural or urban, you may mention important urban characteristics as indicated in the instructions against item 7(b) in para 50.

8(c) District

For a person who had previously resided in another place, i.e., for whom 'PL' is not written against sub-item (a) you have to fill in this item in the manner indicated below.—

For a person who previously resided in another village or town within the district of enumeration write 'D'. For a person who previously resided in another district of the State/Union Territory of enumeration or of other State/Union Territory in the country, write the name of the district. If he cannot name the district write 'Not known'. For a person whose last previous residence was outside India write 'X' against this sub-item.

8(d) State/Country

For a person whose last previous residence was outside the village or town or enumeration but within the State or Union Territory of enumeration write 'X' against this item but if it was outside the State or Union Territory of enumeration but within the country write the name of the State/Union Territory. For a person whose last previous residence was outside the country write the name of the country and if name of the country is not forthcoming write the name of the continent.

For persons who had not moved out at all from the present place of enumeration from birth (except for purely temporary stay) this sub-item need not be filled and 'X' should be put in respect of persons against this sub-item.

Question 9: Duration of Residence at the village or town of Enumeration

Note here the period of the existing continuous residence in the village or town where the person is being enumerated, in completed years. This will apply to even a person born at the place of enumeration. If he had left this village or town and had lived elsewhere for sometime i.e., in Q. 8 another place of last residence is reported and has come back again to this village or town, then the duration of residence to be noted against this question is the priod of the last continuous residence. But if a person had been away on a temporary visit or tour etc., that should not be taken as a break in the period of his continuous residence here. If the person was born at the place of enumeration and also had no other place of last residence i.e. 'PL' has been noted in Q. 8(a) then 'X' may be put against Q. 9.

For a person whose duration of continuous residence at the place of enumeration is less than 1 year, it should be noted as 'O'.

Question 12 : Literacy (L or O)

Definition of a literate: A person who can both read and write with understanding in any language is to be taken as literate. A person who can merely read but cannot write is not a literate.

It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard.

For a person who is literate i.e., who can both read and write, record 'L' in the triangle against question 12. If there is any doubt about a person's ability to read or write, the test that may be applied for reading is his/her ability to read any portion of the printed matter in the Enumerator's Instructions and similarly for writing he/she should be able to write a simple letter. Ability merely to sign one's name is not adequate to qualify a person as being able to write with understanding. If a person claims to be literate in some other language with which the enumerator is not acquainted, the respondent's word has to be taken as correct. Other members of the household may also be able to testify to the literacy of the person enumerated.

For a person who is illiterate i.e who can neither read nor write or can merely read but cannot write, in any language, write 'O' in the triangle against question 12. All children of the age of 4 years or less should be treated as illiterate even if the child is going to a school and may have picked up reading and writing a few odd words.

Question 13 : Educational level

This question will be asked of those for whom 'L' has been recorded against question 12. For a person who is illiterate and 'O' has been put against him in the answer to question 12, there is no advantage in ascertaining the educational level even if he had at some stage attended school and passed a standard and had relapsed into illiteracy. In such a case you should put 'X'. You have to ascertain and record the highest educational level attained by a person for whom 'L' is recorded in answer to question 12.

For a person who is still studying in a particular class, the highest educational level attained by him will be one that he has actually passed and not the one in which he is studying. For example, a person studying in 1st year B. A. should be recorded as only 'PUC' or 'Higher Secondary', as the case may be. Similarly, a person studying, say, in the 4th year of 'MBBS' should not be noted as 'MBBS' but as 3rd year 'MBBS' which is the highest level he has actually attained. If you are not sure whether a person has passed Primary, Middle, Higher Secondary or other definite levels, you may record the actual standard passed such as say IIIrd Standard, VIIIth standard, 1st year B.Com. etc.

The highest educational level attained by the person enumerated should be recorded. When a person holds both general and technical qualifications both of which are of equivalent level such as say B.Sc. (Zoology) and M.B.B.S. or B.A. (Maths.) and B.E. (Bachelor in Engineering), the technical qualification should be given preference in recording the highest educational level attained. Where the general educational level is higher than the techincal educational level or where it is not possible to decide which of the two levels is relatively higher, the highest level of education as returned by the person concerned should be recorded.

In recording the highest educational level of a graduate or a post-graduate, subject of specialisation such as B.Sc. (Maths.), M.A. (Economics), M.Sc. (Botany), B.Sc. (Agriculture), etc., should be noted. You should not use abbreviations which are not in common use. In such cases, the degree or diploma should be spelt out fully.

Whenever you come across graduates or post graduates as also those with a technical diploma or degree, you will have to issue him a "Degree-holder and Technical Personnel Card" and ask the person concerned to fill it. You should note the location code on the card while issuing it. Put a tick (√) after noting the educational level against question 13 immediately after you issue a card. When you collect it after some time but before you complete the enumeration of your area, cross the tick and put a circle as ×.

You will have to ensure that the card issued to all the graduates and the technical degree or diploma holders are collected back. The non-crossed tick, if any, against question 13 will show that the card has not been collected.

Question 14 : Main Activity

Every person will be asked what his main activity is, that is, how he engages himself mostly. For the purpose of this question, all persons will get themselves divided into two broad streams of main activity namely, (1) as workers and (2) as non-workers according as the type of main activity that the person returns himself as engaged in mostly.

'Worker' defined: A 'worker' is a person whose main activity is participation in any economically productive work by his physical or mental activity. Work involves not only actual work but effective supervision and direction of work.

Reference periods: The reference priod is one week prior to the date of enumeration in the case of regular work in trade, profession, service or business. If a person had participated in any such regular work on any one of the days during this reference period and this has been returned as his main activity, the person will be categorised accordingly. A person who normally works but had been absent from work during this reference period on account of illness or travel, holiday, temporary breakdown, strike etc., the person should be treated as engaged in regular work in which he would have otherwise been employed but for his temporary absence. Persons under training such as apprentices with or without stipends or wages should be considered as economically active and recorded as working. A person who has merely been offered work but has not actually joined it, is not to be treated as engaged in work.

There are certain types of works which are not carried on throughout the year such as cultivation, live-stock keeping, plantation work, some types of household industry, etc. A person's main activity should be ascertained with reference to such work in the last one year even if he was not economically active in the week prior to enumeration.

It is likely that even when a person is engaged in some other work during the period of one week prior to the date of enumeration, the main activity of the person may be cultivation, agricultural labour or some other work attended to normally by him in the course of the year. Care must be taken to see that the main activity is properly ascertained in such cases. For example, a person's main activity may be agricultural labour and in the week prior to enumeration he may be engaged as a sugarcane factory labourer or as road coolie. He should be categorised for his main activity as agricultural labourer only as returned by him as he engages himself mostly in that work and the other work should be treated as his subsidiary work.

A man or woman who is engaged primarily in household duties such as cooking for own household or performing one's own household duties or a boy or a girl who is primarily a student attending institution, even if such a person helps in the family economic activity but not as a full-time worker should not be treated as a worker for the main activity. On the other hand, if a person is primarily engaged in some economic activity but at the same time does also attend to some household chores or attends a night school etc., he or she should be treated basically as a worker for the main activity and categorised accordingly.

A person who merely receives an income such as a rent receiver or a pensioner who does not have to work for receiving the income, will not be treated as economically active unless the person is also engaged in some economic activity and if that activity is returned as the main activity of the individual.

Question 16(a): Broad Category (i) Worker (C, AL, HHI, OW), (ii) Non-worker (H, ST, R, D, B, I, O)

The main activity returned by the person will entitle him to be categorised either as a worker in 16(a) (i) as a non-worker under 16(a) (ii).

16(a) (i) : Worker (C, AL, HHI, OW)

Where the main activity of a person qualifies him to be treated as a worker he should be further categorised according to the type of work and one of the appropriate abbreviations indicated against this question should be entered in the box provided for the purpose. If the person is not engaged in any economic activity an 'X' should be noted in the box. The abbreviations to be used for workers are explained below :

C : CULTIVATOR

For a person who returns his main activity as working as a cultivator, the abbreviation 'C' should be used.

Definition of Cultivator : For purposes of the census a person is working as Cultivator if he or she is engaged in cultivation by oneself or by supervision or direction in one's capacity as the owner or lessee of land held from Govt. or as a tenant of land held from private persons or institutions for payment of money, kind or share.

Cultivation involves ploughing, sowing and harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi etc., and pulses, raw jute and kindred fibre crop, cotton etc., and other crops such as sugar-cane, groundnuts, tapioca, etc., and does not include fruit-growing, vegetable-growing or keeping orchards or groves or working of plantations like tea, coffee, rubber, cinchona and other medicinal plantations.

A person who merely owns land but has given out land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, will not be treated as working as cultivator. Similarly, a person working in another person's land for wages in cash, kind or share (Agricultural labourer) will not be treated as cultivator in this question.

AL : AGRICULTURAL LABOURER

A person who returns his main activity as engaged as agricultural labourer, the abbreviation 'AL' should be used in the box.

Definition of an Agricultural Labourer : A person who works in another person's land for wages in money, kind or share should be regarded as an agricultural labourer. He has no risk in the cultivation but he merely works in another person's land for wages. The labourer could have no right of lease or contract on land on which he works.

HHI : HOUSEHOLD INDUSTRY

For a person who returns his main activity as engaged in some production, processing, servicing or repair of articles of goods such as, say, handloom weaving, dyeing, carpentry, bidi rolling, pottery manufacturer, bicycle repairing, blacksmithy, tailoring etc., it has to be ascertained if it is a household industry, and if so, it should be indicated by the abbreviation 'HHI' in the box.

Definition of a Household Industry

A Household Industry is defined as an industry conducted by the Head of the household himself/herself and/or mainly by the members of the household at home or within the village in rural areas and only within the premises of the house where the household lives in urban areas. The industry should not be run on the scale of a registered factory.

The main criterion of a Household Industry is the participation of one or more members of a household. This criterion should apply to urban areas too. Even if the industry is not actually located at home in rural areas there is greater possibility of the members of the household participating even if it is located anywhere within the village limits. In the urban areas where organised industry takes greater prominence, the Household Industry should be confined to the precincts of the house where the participants live. In urban areas even if the members of the household by themselves run an industry but at a place away from the precincts of their home, it will not be considered a household industry. It should be located within the precints of the house where the members live.

A Household Industry should relate to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. It does not include professions such as a pleader or doctor or barber, musician, dancer, waterman, dhobi, astrologer, etc., or merely trade or business, even if such professions, trade or services are run at home by members of household. A list of a few typical Household Industries is appended to these instructions at Appendix III (not reproduced).

Sometimes it is likely that the person who may not be working in his own Household Industry may be working as a petty employee in another Household Industry. You should, therefore, enquire whether the person who is not working in his own Household Industry is working in any other Household Industry as an employee and record as per instructions given above.

OW : OTHER WORKERS

If a person given his main activity as engaged in any other work which is not cultivation, agricultural labour or household industry, this may be indicated by merely noting 'OW' in the box. The type of workers that may come under the 'Other Workers' category are factory workers, those working in trade or transport, all Government servants, municipal employees, teachers, mining workers, political or social workers, building labourers, etc. etc. In effect, all types of economic activity not covered by cultivation, agricultural labour or household industry will come under this residual category. Workers engaged in plantation or forestry should not be treated as cultivators or agricultural labourers but as 'Other workers'.

Further details pertaining to this 'Other' category of workers, as also those engaged in household industry, will be recorded in the subsequent sub-parts (b) to (f) of question 16.

16(a) (ii) : Non-worker (H, ST, R, D, B, I, O)

As was stated earlier, question 16 is intended to ascertain the main activity of every individual whether he or she is economically active or not. While 16(a) (i) helps to broadly categorise all those who have returned some work as their main activity, 16(a) will help to categorise those whose main activity is not engaged in any economically productive work, but are basically non-workers. These may be categorised under seven broad heads whose abbreviations are indicated against this question. The appropriate abbreviation will have to be entered in the box provided. The abbreviations are explained below :

H : HOUSEHOLD DUTIES

This covers all those persons basically engaged in unpaid home duties doing no other work, or even if such a person may also be participating in some other work, it is not to the same extent as a whole-time worker and if the person has returned his or her main activity as attending to household duties. The main activity of such a person should be entered as 'H'. If a person whose main activity is attending to household duties, also engages oneself in some other economic activity such as helping in family cultivation or preparing cowdung cakes at odd times for sale etc., that economic activity will be covered as secondary work under question 17. On the other hand, a woman who works primarily as a factory worker or a plantation labourer or an agricultural labourer or in some office or shop etc., and also attends to household duties, obviously her main activity will be the economic activity in which she is mostly engaged in and should not be categorised as 'H' for her main activity in this question. She should have been treated basically as a worker and her main economic activity should have been recorded against 16(a) (i).

ST: STUDENT

This refers to those whose main activity is returned as a student. This will cover all full-time students or children attending school. Even if such persons participated in some work but not to the same extent as a full-time worker, by merely helping casually as an unpaid family worker in family cultivation, household industry, trade or business, they should be treated primarily as students, if that is their main activity. 'ST' should be entered in the box. The other economic activity, if any, that such persons attend to will be reflected under question 17 as secondary work.

R : RETIRED PERSON OR A RENTIER

A person who has retired from service and is doing no other work i.e. not employed again in some full-time work or does not engage himself in some other work as cultivation, in business, trade, etc., or a person who is a rentier or living on agricultural or non-agricultural royalty, rent or dividend, or any other person of indepedent means for securing which he does not have to work, will come under this category. 'R' should be noted in the box for a person coming under this category.

D : DEPENDENT

This category will include all dependents such as infants or children not attending school or a person permanently disabled from work because of illness or old age. If a girl or an old woman attends to household duties she should be categorised under 'H' for her main activity rather than 'D'.

Dependents will include all non-workers even if able-bodied who have no other activity coming under any of the categories of non-workers and who are not seeking any work either but are purely dependent.

B : BEGGARS ETC.

This will cover beggars, vagrants or such cases as independent women without indication of source of income and those of unspecified sources of subsistence and who are not engaged in any economically productive work.

I : INSTITUTIONS

This will cover convicts in jails or inmates of a penal, mental or charitable institution, even if such persons are compelled to do some work such as carpentry, carpet weaving, vegetable growing etc., in such institutions. An under-trial prisoner in a jail should not, however, be brought under this category but has to be indicated according to the main activity he was engaged in before he was apprehended. Inmates of such institutions will be noted as 'I'.

O : OTHER NON-WORKERS

This will include all non-workers who may not come under any of the six categories above but are seeking work, they should be noted as 'O' in the box. A boy or girl who has completed education or has stopped studying and is seeking work, will come under this category. If a person is merely spending his time at home as a dependent and is not doing any work and is not seeking any work will come under 'D' rather than 'O'. A person irrespective of age and whether educated or not, if he reports that he is not engaged in any other activity but is seeking work will come under this category.

If the main activity of the person who is enumerated does not qualify a person to be treated as a worker and he does not fall under any of the four broad categories of

workers covered by 16(a) (i) and 'X' has been put in the box against that question, then he must necessarily be categorised under any one of the seven broad types of non-workers and the appropriate abbreviation entered in the box opposite to question 16(a) (ii). Conversely if a person has already been treated as a worker and his main activity has been indicated in the box against question 16(a) (i), then question 16(a) (ii) will not apply to the person and an 'X' should be put in the box against question 16(a) (ii). Thus 16(a) (i) and 16(a) (ii) are mutually exclusive.

Question 16(b) to 16 (f)

These sub-parts of question 16 will have to be filled only to describe the details of the household industry or other work indicated against question 16(a) (i). If the main activity has been shown as 'C' or 'AL' against 16(a) (i), there is no need to give the details of the cultivation or agricultural labour in these sub-sections.

Similarly, if the main activity of an individual has been returned as a non-worker against 16(a) (ii), sub-sections (b) to (f) will not apply and 'X' may be put right across all these questions.

Question 16(b) : Place of work (Name of village/town)

Ascertain from each person who is already taken as a worker other than in cultivation or agricultural labour i.e. question 16(a) (i) has been answered as HHI or OW, the village or town where he or she works. If the place of work is the same as the village or town of enumeration write 'PL'. In all other cases you should write the name of the place fully. If a person has no fixed place of work such as, say, a travelling vendor of vegetables or a pedlar or a rickshaw puller who may go from one village or town to another, note 'No fixed place of work'. If he works in one particular town or village that should be noted.

Question 16(c) : Name of Establishment

This question and the subsequent sub-sections of question 16 need not be answered for cultivators and agricultural labourers who are already noted as 'C' or 'AL' against question (16) (a) (i).

Record here the exact name of the factory, firm, workshop, business house, company, shop, office etc., and in respect of public offices you should clearly indicate whether they are Central or State Government or local body offices, etc. If the establishment does not have any definite name such as, say, in the case of a household industry like hand pounding of rice, gur making, bee keeping, handloom weaving, potter's house, blacksmithy etc., note 'No particular name'.

Question 16(d) : Nature of Industry, Trade, Profession or Service

The answer to this question will have to be adequately precise to enable proper classification of the sector of economy in which the person is working. The sector of economy in which a person works may relate to (i) Plantation, Forestry, Fishing, Livestock etc., (ii) Mining and/or Quarrying (iii) Manufacturing (iv) Construction (v) Electricity, Gas or Water Supply (vi) Transport and Communications (vii) Trade and Commerce (viii) Professions and Services. Full details of the type of industry, trade-profession or service in which the person is engaged will have to be recorded here. To help you to appreciate the details that may have to be furnished to classify the economic activity appropriately, substantial description of various economic activities are furnished in Appendix IV (not reproduced), categorised under certain broad classifications. The list in Appendix IV is not exhaustive. You shall have to describe the nature of Industry, Profession, Trade or Service whatever it is, in as precise a detail as possible.

Question 16(e) : Description of work

This question has to be filled up for all persons for whom the main activity is shown as 'HHI' or 'OW' in question 16 (a) (i) and for whom you should have also to answer the other sub-sections of question 16. Under this question, the description of the actual work that the person enumerated is doing is to be recorded irrespective of which type of industry, trade, profession or service he may be working and which is already recorded under question 16(d). His actual work should also be given in sufficient detail. If for example a person is merely recorded as say, clerk with no other details, it will be impossible to properly categorise him as to the type of work he does. He may be a clerk attending to correspondence or book keeping or accounting. Similarly if a person were merely to be recorded as a mechanic, it will not help to determine what type of mechanic—electrical mechanic, or a motor mechanic or a locomotive mechanic, etc., he is. The description of the actual work done by a person should be ascertained in adequate detail and recorded against this question.

To guide you in answering question 16(e), the types of particulars that need to be ascertained in respect of a few typical occupations are given in Appendix V (not reproduced).

Appendix V is by no means exhaustive. This just illustrates the need to ascertain the full details of the particulars of work performed by an individual for being recorded against question 16(e).

It has been found in the past that substantial number of persons are recorded merely as general labourers. It is necessary to make a probe and find out in which type of work he is mostly engaged as a labourer such as, say, a road coolie, a loader or unloader at a market, a construction labourer, etc.

For those in Military service it is enough if it is merely noted as 'in the service of the Central Government'. Other details need not be given.

General :

There need be no confusion as to the scope of 16(d) and 16(e). 16(d) would represent the nature of industry, trade, profession or service i.e. the field of economic activity in which a person is engaged in work and 16(e) represents the occupation or the actual work that the person does in the industry, trade, profession or service in which he is engaged. Thus, for example the answer to question 16(d) may be say Cotton Textile manufacture and the answer to question 16(e) may be Chemical Engineer in that industry or a clerk or an accountant in that industry or a labourer in that industry or a truck driver or the managing director of that industry and so on. Similarly in question 16(d) the nature of service may be some department of the State Government Service and in question 16(e) the description

of work may be a clerk or an accountant, a Director of the Deptt., jeep driver in the Deptt. etc., etc. Again say, against question 16 (d) the answer may be private medical practice and in 16 (e) may cover orthopaedic surgeon, or nurse or a sweeper etc., working in that Private medical practitioner's nursing home. The sample answers furnished in the specimens (Appendix VI) at the end of this book, the Industrial and Occupationalists in Appendices IV and V and the instructions given by your superior Census Officers may help you to clear any doubts you may have in your mind regarding the scope of questions relating to Nature of Industry, Trade, Profession or Service covered by question 16 (d) and the description of actual work of the individual enumerated covered by question 16(e).

Question 16(f) : Class of worker

For a person who is :

(i) an Employer, that is, who hires one or more persons in his work described in question 16 (e), Write ... ... ER

(ii) an Employee, that is, who does his work described in question 16 (e) under others for wages or salary in cash or kind, write. ... ... EE

(iii) a Single Worker, that is, who is doing his work described in question 16 (e) without employing others except casually, and without the help of other members of the family except causually and a participant in work as members of co-operatives, write ... ... SW

(iv) a Family Worker, that is, who is doing his work described in question 16 (e) in a family enterprise alongwith other members of the family without wages or salary in cash or kind write ... FW

For a person for whom an 'X' is put in questions 16 (d) and 16 (e) put an 'X' in this question also.

Explanation :

An Employer is a person who has to employ other persons in order to perform the work entered in question 16 (e). That is to say, such a person is not only responsible for his own personal work but also for giving work to others in business mentioned in question 16 (e). But a person who employs domestic servants for household duties or has subordinates under him in an office where he is employed by others, is not an employer, even if he has the power to employ another person in his office on behalf of his own employer or employers.

An Employee is a person who usually works under some other person for salary or wages in cash or kind. There may be persons who are employed as managers, superintendents, agents, etc., and in that capacity employ or control others workers on behalf of their own employers. Such persons are only employees, as explained above, and should not be regarded as employers.

A Single Worker for the purpose of question 16 (f) is a person who works by himself. He is not employed by any one else and in his turn does not employ anybody else, not even members of his household except casually. This definition of a Single Worker will include a person who works in joint partnership with one or several persons hiring no employees, and also a member of a producer's co-operative. Each one of the partners or members of such producers' co-operatives should be recorded as 'Single Worker'.

A family Worker is a member who works without receiving wages in cash or kind, in an industry, business, trade or service. For example, the working members in a family of Dhobies where they all participate and each does not receive wages separately will be family workers. There may be family workers in industry, trade or professions as well. For the purpose of this definition members of a family may be drawn from beyond the limits of the household by ties of blood or marriage. The family worker may not be entitled to a share of the profits in the work of the business carried on either by the person or Head of the Household or other relative.

Members of the household who help solely in household duties should not be treated as family workers.

In the case of persons engaged in household industry i.e., in the case of persons for whom the answer to question 16 (a) (i) is 'HHI', there will be three classes of workers viz., Family Worker, Single Worker and Employee. There will be no Employer. Household industry by its very definition is conducted by the head of the household himself or/and other members of the household, the role of hired workers being secondary. If the head alongwith the members of the household is working in a household industry employing hired workers, the head and other members who are working should be treated as 'Family workers'. If the head alone is working with the assistance of hired worker(s) whose role would be secondary as indicated above, he would be treated as a 'single worker'.

Some illustrations for filling the questions 16 or 17 are given in Appendix VI (not reproduced).

TABLE D—I

Population Classified by Place of Birth

D-I—Population Classified by Place of Birth

Fly Leaf

This table presents the population by sex classified with reference to the place of birth for the Union Territory and the four areas with rural-urban break up. The place of birth has been classified into two broad categories viz. (1) Born in India and (2) Born in countries outside India.

Those whose place of birth is within India have been further classified as (A) Born within the State of enumeration and (B) Born outside the State of enumeration. Figures are shown for each of the States/Union Territories of India.

For those born within the State of enumeration, data are presented separately for (i) persons born in the place of enumeration, (ii) born within the district of enumeration and (iii) born in the other districts of the State/Union Territory.

The returns of those born in India have been shown under three groups—rural, urban and unclassifiable with reference to the fact whether the place of birth was a village or town at the time of birth or unclassifiable where nature of birth place was not ascertainable. Those born outside India have been grouped under countries in Asia, Europe, Africa, Americas and Oceania. Separate figures are shown in the table itself for some main countries in the continents above mentioned and the remaining have been clubbed under "Elsewhere". This table is similar to Table D-II Place of birth of 1961 Census.

*Includes Mizo district now constituted as Union Territory of Mizoram.

TABLE D—11

Migrants Classified by Place of Last Residence and Duration of Residence in Place of Enumeration

D-II—Migrants Classified by Place of Last Residence and Duration of Residence in Place of Enumeration

Fly Leaf

This table presents at the Union Territory level, the figures of migrants by the number of years of residence at the place of enumeration. Figures are shown separately for rural and urban areas. The migrants for this table are those whose place of birth is outside the place of enumeration and those born in the place of enumeration but lived outside for some time and have subsequently come into the place of enumeration. This will not however include persons who were away on a temporary tour or visit etc.

A. Last residence elsewhere in India

I. Within the State of enumertion but outside the place of enumeration

   a. Elsewhere in district of enumeration

   b. In other districts of State of enumeration

II. States in India beyond the State of enumeration (separately for each State/Union Territory).

B. Countries outside India (Asia, Europe, Africa, America and Oceania).

The place of last residence has been sub-classified into Rural, Urban and Unclassifiable for persons whose last residence was in India. This arrangement closely follows that shown in Table D I. The duration of residence at the place of enumeration has been classified as less than one year, 1-4 years, 5-9 years, 10-19 years, 20+ years and period not stated.

This table is similar to Table D III of 1961 Census with the difference that the duration of residence at the place of enumeration is determined with reference to place of last residence instead of the place of birth. This table will give data on short term migration specially on rural/urban migration which has taken place as a result of country's developmental planning.

TABLE D—III

Migrants to Urban Units (Including Agglomerations) having 1,00,000 and above Population Classified by Sex, Broad Age-groups, Educational Levels and in case of Workers by Occupational Divisions

D III—Migrants to Urban Units (Including Agglomerations) having 1,00,000 and above Population Classified by Sex, Broad Age-groups, Educational Levels and in case of Workers by Occupational Divisions

Fly Leaf

This table shows the distribution of migrants to urban units including agglomerations having a population of one lakh and above by sex, broad age-groups and educational levels. The figures are first presented for the total migrants followed by workers and lastly by non-workers. In the case of workers, figures are shown separately for cultivators, agricultural labourers and in respect of other non-agricultural workers by occupational divisions. The migrants referred to above has the same connotation as in Table D II and is based on "the place of last residence".

This table with data for broad age-groups, educational levels and occupational characteristics will give an insight into the trends of migration to bigger urban units with a population of 100,000 and above. Occupational details cross classified by age-groups and educational levels will give an indication of the occupations that attract migrants to cities. So also the educational levels will show insight into the migration of skilled and the unskilled labour. The presentation of figures for the place of last residence is similar to the one adopted for Table D II presented earlier in this volume.

—In Pondicherry Union Territory there is only one urban agglomeration—Pondicherry urban agglomeration with a population of 153,325 and the figures relate to this unit only.

D III—Migrants to Urban Units (Including Agglomerations) having 100,000 and Population Classified by Sex, Broad Age-groups, Educational Levels and in case of Workers Occupational Divisions

FOOT NOTE : †1. Includes figures for educational levels not classifiable.

2. Outside India includes unclassifiable foreign countries.

3. Figures pertaining to age-groups 0—14, 60+ and age not stated are included in total.

4. Those States/Union Territories for which data are 'NIL' have not been shown.

*5 Includes Mizo district now constituted as Union Territory of Mizoram.

TABLE D-IV

Population of Urban Units (Including Agglomerations) having 100,000 and above Population Classified by Place of Last Residence and Duration of Residence

D-IV—Population of Urban Units (Including Agglomerations) having 100,000 and above Population Classified by Place of Last Residence and Duration of Residence

Fly Leaf

This table presents the population of urban units (including agglomerations) with a population of one lakh and above distributed into non-migrants and those last resided in rural/urban areas of India. For those whose last residence was outside the urban unit, figures are presented for last residence under 3 groups—(1) within the district of enumeration, (2) other districts within the state of enumeration and (3) other states in India with separate figures for Sikkim. For migrants, the duration of last residence has been indicated as (a) less than 3 years and (b) 3 years or more. This table excludes (1) population whose rural/urban classification of the place of last residence has not been reported, (2) population whose place of last residence is unclassifiable and (3) population whose last residence was outside India. Population who did not report any specified period of residence in the urban unit are included in the duration of residence 3 years or more.

This table will show the extent of in-migration from rural and other urban areas into cities and urban agglomerations. The figures relate to Pondicherry urban agglomeration.

D–IV—Population of Urban Units (Including Agglomerations) having 100,000 and above Population Classified by Place of Last Residence and Duration of Residence

2. Returns with unclassifiable place of last residence have been excluded.
3. Persons with place of last residence outside India are excluded.
4. Unspecified period of resid nce in the city is included under 3 years or more.
5. The figures in columns 6 & 7 include those persons who did not report any last resid nce.

TABLE D-V

Migrant Workers and Non-Workers According to Main Activity
Classified by Place of Last Residence

D-V—Migrant Workers and Non-workers According to Main Activity Classified by Place of Last Residence

Fly Leaf

This table gives the distribution of population in each sex by industrial categories of workers and non-workers according to the place of last residence. The data are presented for the Union Territory, its four areas (for all areas and urban separately) and Pondicherry urban agglomeration which has a population of one lakh and above. The details for last residence shown in this table is similar to the one given in Table D-II.

This table is similar to Table D-VI of 1961 Census. While in the 1961 Census, the distribution of workers and non-workers was given by place of birth, the information is now presented with reference to the place of last residence. This change has been made as it was considered more relevant for studying migration. This table will indicate the industrial categories which attract migrants and whether in the different industrial categories the flow of migrants is from rural to urban areas or *vice-versa*.

TABLE D—VI

Migrants Classified by Place of Last Residence, Age-group, Duration of Residence and Marital Status

D—VI Migrants Classified by Place of Last Residence, Age-group, Duration of Residence and Marital Status

Fly Leaf

The distribution of migrants based on the place of last residence by broad age-groups, marital status, duration of residence and sex, are presented in this table. The figures are presented for the Union Territory, its four areas and Pondicherry Urban agglomeration. The state/district table shows the data for rural /urban areas of enumeration whereas in the urban agglomeration table D—VI the data have been presented separately showing rural/urban place of last residence of migrants. The presentation of data for place of last residence is confined to (1) within the state of enumeration but outside the place of enumeration with break up for (a) elsewhere in the district of enumeration and (b) in other districts of the state of enumeration, (2) States in India beyond the state of enumeration and (3) outside India. The broad age-groups which are shown in this table are —0-14, 15-19, 20-24, 25-49, 50 +. Three durations of last residence are adopted. They are (1) less than one year, (2) 1-9 years and (3) 10 years and above. Never married, Married and Widowed and Divorced are the three types of marital status adopted for presentation of data in this table. Figures under "All durations" includes those of "period not stated". Figures for unspecified marital status are included in "Total" under each duration. Figures of those coming under "unclassifiable last place of residence" are included in total for rural and urban whereas for urban these figures are included in section 'B' outside India but in rural these are included in total only.

This table will reflect an important sociological factor viz. the marital status of migrants by broad age-groups.

FOOT NOTES : (i) Figgures of unspecified, marital status are included in total.

(ii) "All durations" include figures for 'Period not stated' and as such will not tally with 'TOTAL' of figures under 'Less than one year', 1—9 years, and 10 years and above.

(iii) Figures for unclassifiable, last place of residence are included in 'Total'.

(iv) 'A N. S' Stands for 'Age not stated'.

(v) The State/District table shows the data for rural/urban areas of enumeration whereas in the urban agglomeration table D-VI the data have been presented separately showing rural/urban place of last residence of migrants.

(vi) Figures for unclassifiable last place of residence are included in Total for rural and urban where as for urban these figures are included in section 'B' outside India but in rural these are included in total only.

GIPN—2 Census Tamil Nadu/76—22-2-78—200
