ACKNOWLEDGMENTS

This volume was prepared under the guidance of S/Shri Jagdish Singh, Deputy Director, R. K. Aggarwal, Assistant Director, S. P. Sharma, Senior Investigator, M.L. Sharma, Tabulation Officer and with the active co-operation of all members of the staff in the tabulation section of the Office of the Director of Census Operations, Delhi. Shri K. K. Chakravorty, Assistant Registrar General (Census), and his colleagues in the Census Division of the Office of the Registrar General, India, provided all help in the scrutiny and finalization of the draft.

INTRODUCTION

INTRODUCTORY NOTE

This volume entitled part II-D presents the migration (D-Series) tables of Delhi. The tables for rural areas have been prepared manually while the urban tables have been generated on computer. All these tables have been prepared on full count basis in case of Delhi Union Territory.

The term migration is commonly used by population students to designate more or less permanent change of residence. It is generally defined as movement from one place to another place during a given period. Prior to 1971 Census, migration was determined totally with reference to place of birth. Since 1881, all the population Censuses included a question on "Birth place" to provide information regarding the movement of population. Upto 1951, the Census question on "Birth place" continued more or less in the same form. The enumerators, were required to record the name of the district where the informants were born and add the name of the province if they were born outside the province. If the person was born out of India, the name of the country was recorded. In the 1961 Census, the scope of the question on birth place was enlarged to include additional information on (i) Classification of birth place as rural or urban and (ii) duration of stay at the place of enumeration for those who were born outside the place of enumeration.

It was in 1971 Census that data on migration was collected both with reference to place of birth and place of last residence. The following questions on migration were put to every individual at the 1971 Census:—

Questions in individual slip at 1971 Census

Q. 7 Birth Place
- (*a*) Place of birth
- (*b*) Rural/Urban
- (*c*) District
- (*d*) State/Country

Q. 8 Last residence
- (*a*) Place of last residence
- (*b*) Rural/Urban
- (*c*) District
- (*d*) State/Country

Q. 9 Duration of last residence at village or town of enumeration.

At the time of 1971 Census, the questions relating to birth place were also made more detailed and questions on last residence were introduced for the first time in this Census. The migration data are now presented with reference to place of last residence in case of all the 'D' series tables except in case of table D-I which is related to place of birth and provides comparable data with 1961 Census.

Migration data in 1971 Census have been presented in the following tables :

(i) Table D-I Population classified by place of birth.

(ii) Table D-II Migrants classified by place of last residence and duration of residence in place of enumeration.

(iii) Table D-III Migrants to urban units (including agglomerations) having 100,000 and above population classified by sex, broad age-groups, educational levels and in case of workers by occupational divisions.

(iv) Table D-IV Population of urban units (including agglomerations) having 100,000 and above population classified by place of last residence and duration of residence.

(v) Table D-V Migrant workers and non-workers according to main activity classified by place of last residence.

(vi) Table D-VI Migrants classified by place of last residence, age-group, duration of residence and marital status.

Table D-I presents data in respect of place of birth while all the remaining tables provide the statistics with reference to place of last residence.

Tables D-III and D-IV relate to urban units having 100,000 and above population only. Data have been presented in these tables for Delhi Urban Agglomeration and its constituent units namely (i) New Delhi Municipal Committee (ii) Delhi Cantt. and (iii) Delhi Municipal Corporation (Urban). Though the population of Delhi Cantt. is less than 100,000 yet data have been presented separately for Delhi Cantt. also as it happens to be a constituent unit of Delhi urban agglomeration. In other tables also, data have been presented upto city/town level though some of the tables were required to be presented for union territory/district level only according to tabulation plan drawn out by the Registrar General, India.

The relevant extracts on migration from the Instruction to Enumerators on the basis of which these tables have been compiled are given below. The terms 'rural', 'urban' and 'urban agglomeration' have also been discussed here.

Question 7 : Birth Place

Answer to this question has to be filled with reference to the place of birth of the persons enumerated and the particulars recorded under the four sub-items of this question.

7(a) Place of Birth

Write 'PL' for a person born in the village or town where he is being enumerated. Where 'PL' is noted against this question put 'X' against sub-items (b), (c) and (d).

For those born outside the village or town of enumeration write the actual name of the place against sub-item (a) and fill the other details against sub-items (b), (c) and (d).

7(b) Rural/Urban

For those born outside the village or town of enumeration ascertain if the place of birth was a village or town at the time of his birth. To enable a person to determine whether the place was a town or a village he may be required to indicate the status of the place of birth in comparison with a known town in the neighbourhood of the place of enumeration. You may mention some important urban characteristics to enable the person to make out if the place of his birth was rural or urban e.g. existence of a local administrative body, industrial township declared as towns etc.

For a person born in a village, write 'R'.

For a person born in a town/city, write 'U'.

For a person born in foreign country put 'X' against this sub-item and also against sub-item (c). If all efforts to classify the place of birth as rural/urban fail write 'not known'.

7(c) District

For a person born outside the village or town of enumeration but within the district of enumeration write 'D'. For a person born in another district of the State of enumeration, or other State/Union Territory in the country, write the name of the district. If the person cannot name the district, write 'not known'.

7 (d) State/Country

For persons born within the State of Enumeration write 'X' against this item. Make sure that the earlier entries made in sub-items (a), (b) and (c) are consistent with such an answer that is 'PL' might have already been written against sub-item (a) or 'D' is written against sub-item (c) or any other district of the State of enumeration is mentioned against sub-item (c).

For persons born outside the State of enumeration but within the country, write the name of the State/Union Territory where born.

For those born outside India, note merely the name of the country and there is no need to enter the name of the constituent State of the foreign country. Where a person cannot name the country, the name of the continent may be noted.

For a person born on sea, record 'born at sea', against this sub-item and put 'X' against sub-items (a), (b) and (c). If a person was born in a train, boat or bus etc., within the country, write the particulars in (a), (b) and (c) with reference to the administrative territory where the event occurred or was registered.

Question 8 : Last residence

Answer to this question will have to be filled in respect of every person if he had another place of normal residence irrespective of his place of birth, before he came to the present place where he is enumerated. Even if a person was born at the place of enumeration, by the nature of his work or for studies etc. he had shifted subsequently to another village or town and had come back again to the place of enumeration, he should be deemed to have had another place of residence prior to his enumeration here.

The last previous residence is relevant only if he had been outside the village or town of enumeration and not simply in another house or locality in the same place. For example, if a person born in one part of Bombay city is found residing in another part of Bombay at the time of enumeration, the change of residence should not be treated as change of place of residence because both the areas are comprised in the same city of Bombay. Similarly, a person born in hamlet 1 of village Rampur and found in hamlet 2 of the same village at the time of enumeration, should not be deemed to have had any other place of residence than the village where he is enumerated. Where a person had merely gone out to another place or had been shifting from place to place purely on tour or pilgrimage or for temporary business purposes, he should not be deemed to have had another residence different from the place where he or his family normally resides but if the person had his normal residence, i. e., if his normal home had been elsewhere at any time before he is enumerated at his place of present residence, irrespective of where he was born, such place of his previous residence should be recorded here.

8(a) Place of last residence

For a person who had been in the village or town of enumeration continuously since birth (except for shifting to other places outside the village or town of enumeration for a purely temporary stay) write 'PL' against sub-item (a) and put 'X' against sub-items (b), (c) and (d).

For a person who had his last previous residence at any place outside the village or town of enumeration (irrespective of his place of birth), write the actual name of the village or town where his last residence was against sub-item (a) and fill the other details against sub-items (b), (c) and (d).

8 (b) Rural/Urban

For a person who had previously resided outside the place of enumeration ascertain if the place of last previous residence was rural or urban and record the answer. For a person whose last previous residence was a village write 'R'. For a person whose last previous residence was a town/city, write 'U'. For a person who last resided in a foreign country write'X'. For a person whose last previous residence cannot be classified, write 'Not known'.

Rural or Urban status has to be determined with reference to the time of migration from the place of last previous residence to the place of enumeration.

For helping the person to determine whether a place was rural or urban, you may mention important urban characteristics as indicated in the instructions against item 7 (b).

8 (c) District

For a person who had previously resided in another place *i. e.* for whom 'PL' is not written against sub-item (a) you have to fill in this item in the manner indicated below :—

For a person who previously resided in another village or town within the district of enumeration write 'D'. For a person who previously resided in another district of the State/Union Territory of enumeration or of other State/Union Territory in the country, write the name of the district. If he cannot name the district write 'Not known'. For a person whose last previous residence was outside India write 'X' against this sub-item.

8 (d) State/Country

For a person whose last previous residence was outside the village or town of enumeration but within the State or Union Territory of enumeration write 'X' against this item but if it was outside the State or Union Territory of enumeration but within the country write the name of the State/Union Territory. For a person whose last previous residence was outside the country write the name of the country and if name of the country is not forthcoming write the name of the continent.

For persons who had not moved out at all from the present place of enumeration from birth (except for purely temporary stay) this sub-item need not be filled and 'X' should be put in respect of persons against this sub-item.

Question 9 : Duration of Residence at the village or town of Enumeration.

Note here the period of the existing continuous residence in the village or town where the person is being enumerated, in completed years. This will apply to even a person born at the place of enumeration. If he had left this village or town and had lived elsewhere for sometime *i.e.*, in Q. 8 another place of last residence is reported and has come back again to this village or town, then the duration of residence to be noted against this question, is the period of the last continuous residence. But if a person had been away on a temporary visit or tour etc., that should not be taken as a break in the period of his continuous residence here. If the person was born at the place of enumeration and also had no other place of last residence *i.e.* 'PL' has been noted in Q. 8(a) then 'X' may be put against Q. 9.

For a person whose duration of continuous residence at the place of enumeration is less than 1 year, it should be noted as '0'.

'Rural and Urban Areas', Towns, Cities and Urban Agglomerations

In Censuses prior to 1961, no uniform criterion was adopted strictly for declaring an areas as urban. It was for the first time that at 1961 Census a uniform criterion was adopted. "For the 1971 Census also the definition adopted for an urban area generally follows that of 1961 Census.

It is as follows :—

(*a*) all places with a Municipality, Corporation, Cantonment or Notified town area.

(*b*) all other places which satisfied the following criteria :—

(i) a minimum population of 5,000

(ii) at least 75 % of the male working population being non-agricultural

(iii) a density of population at least 400 per km² (*i.e.* 1,000 per sq. mile).

The Director of Census Operations of each State/Union Territory was however given some discretion in respect of some marginal cases in cosultation with the State Government to include some places that had other distinct urban characteristics and to exclude undeserving cases.

In case of Delhi Union Territory, however, only places with Municipal Corporation, Municipal Committee or a Cantonment have been treated as towns.

Thus at the 1971 Census the following three towns were treated :—

(*a*) New Delhi Municipal Committee

(*b*) Delhi Cantonment

(*c*) Delhi Municipal Corporation (Urban)

Places which are not towns (urban areas) are termed 'rural area'.

A town with a population of 100,000 and above has been termed as a 'city'.

Urban Agglomeration

In 1961 Census, a new concept of town-group was adopted, whereby two or more towns lying in very close proximity were treated as one town-group. It was felt that though such towns were under different civic administrations, they actually constituted one compact group of towns. As such it was decided to adopt the concept of Town-group and to present the data for the group of such towns as a whole as well as for the constituent towns separately.

The concept of town group as adopted in 1961 was, however, given up mainly on account of lack of uniformity in the concept of a town-group as applied in different States. For the 1971 Census the term "Town-Group" has been replaced by "Urban Agglomeration" with a stricter and more uniform definitions. In the town-group concept of the 1961 Census, it was not always the contiguous urban units that formed such a group. Even urban units cut off from one another were taken together ignoring the intervening region. The following are the different situations in which urban agglomerations were constituted at the 1971 Census :

(*a*) a city with a continuous out-growth (the part of out-growth being outside the statutory limits but falling within the boundaries of the adjoining village or villages).

(*b*) one town within similar out-growth or two or more adjoining towns with their out-growths as in (a); and

(*c*) a city and one or more adjoining towns with their out-growth all of which form a continuous spread.

In varying local conditions, there could be similar other combinations which could be termed an agglomeration, the basic consideration of contiguity having been satisfied. The area constituting an urban agglomeration may keep on changing from census to census depending upon the changing boundaries of the statutory main urban units as well as the extent of other urban out-growths. To take care of all such changes another concept of 'Standard Urban Area' has also been adopted for the 1971 census. This new concept has been explained in the note to Table a-V printed in Part II-A Volume and it is broad-based, the limits spreading well beyond the existing urban limits and comprises of both rural and urban areas in the vicinity of large towns to a limit upto which contiguous urbanisation is reasonably expected to take place in the next three decades. In Delhi Union Territory, only one Urban Agglomeration was constituted namely "Delhi Urban Agglomeration" which includes Delhi Municipal Corporation (U), New Delhi Municipal Committee and Delhi Cantt. No part of rural Delhi was tagged withit.

D—I POPULATION CLASSIFIED BY PLACE OF BIRTH

4—1522 DCO Delhi/76

Table D—I POPULATION CLASSIFIED BY PLACE OF BIRTH

FLY-LEAF

This table gives the distribution of population by place of birth and corresponds to table D-II of 1961 Census. The birth place of the persons born in India has been further classified as 'Rural', 'Urban' and Unclassifiable'. The term 'unclassifiable was used where the rural or urban character of the birth place was not ascertainable. This table gives an indication of the rural/urban migration based on the place of birth.

The place of birth has been broadly classified under the following main groups :—

A. Born in India

B. Born in countries in Asia beyond India (including USSR)

C. Born in countries in Europe (excluding USSR)

D. Born in countries in Africa.

E. Born in countries in two Americas

F. Born in countries in Oceania

G. Unclassifiable

Persons born in India under group A have been further classified as (I) Born within the state of enumeration and (II) Born in other states in India beyond the state of enumeration. The former group (I) is further divided into three sub-groups, *viz.*, (a) Born in place of enumeration (b) Born elsewhere in districts of enumeration (c) Born in other districts of the state of enumeration. As Delhi Union Territory constitutes of only one district, item (c) is not applicable in our case. Under Group (II), data have been presented separately for 22 states (including Sikkim) and 7 Union territories of the Indian Union. The names of the States and the Union Territories have been shown in alphabetical order in the table.

Further break-up of migration data based on birth place grouped under each of the broad groups B, C, D, E & F has been given for countries separately as shown in the table. The total of the remaining countries in a continent has been given against the heading 'elsewhere' under that continent.

The statistics have been presented in this table for total, rural and urban areas of Delhi Union Territory and its three towns namely (1) New Delhi Municipal Committee (2) Delhi Cantt. and (3) Delhi Municipal Corporation (Urban). In case of towns as the rural data are nil and 'total' and 'urban' figures are the same, these have not been repeated and so, the columns of the table have been reduced to 5 only instead of 11 columns as shown in the table of Delhi Union Territory.

In the table of Delhi Union Territory, all the countries given under the main groups, B, C, D, E & F in the tabulation plan have been shown even if figures against any of them are nil, as the subsidiary category 'elsewhere' shown under each continent. However, in case of tables at town-level, the States/Union Territories as well as countries having nil entries have been omitted.

There are two appendices to this table which are related to other districts of the state of enumeration and give information on the inter-district migration. These appendices are not applicable in our case as Delhi Union Territory consists of only one district.

D-II MIGRANTS CLASSIFIED BY PLACE OF LAST RESIDENCE AND DURATION OF RESIDENCE IN PLACE OF ENUMERATION

5—1522DCO Delhi/76

Table D-II MIGRANTS CLASSIFIED BY PLACE OF LAST RESIDENCE AND DURATION OF RESIDENCE IN PLACE OF ENUMERATION

FLY-LEAF

This table gives the distribution of migrants of each sex classified by place of last residence and duration of residence in place of enumeration. The last residence of the persons residing elsewhere in India has been classified as 'rural', 'urban' and 'unclassifiable'. The term 'unclassifiable' was used where the rural or urban classification of the place of last residence was not ascertainable.

In this table, the place of last residence has been classified under the same main groups as those in table D-I where the classification was based on birth place.

The persons who had their last residence elsewhere in India are classified as (I) within the state of enumeration but outside the place of enumeration and (II) States in India beyond the State of enumeration. The former group (I) is further divided into two sub-groups (a) elsewhere in district of enumeration (b) in other districts of state of enumeration. As Delhi Union Territory constitutes of only one district, item (b) is not applicable in our case. Under group (II) data have been presented separately for 22 States (including Sikkim) and 7 Union Territories.

The duration of residence at the place of enumeration has been shown under the following ranges:

(i) Less than 1 Year

(ii) 1-4 Years

(iii) 5-9 Years

(iv) 10-19 Years

(v) 20+ Years

(vi) Period not stated

This table yields valuable data on the short term migration specially on rural/urban migration which has taken place as a result of the country's developmental planning. It corresponds to table D-III of last Census which was prepared with reference to place of birth and was intended to supplement the information produced by table D-II of 1961 Census. But in the present table D-II the data have been given with reference to place of last residence. The categories of the duration of residence have also been slightly changed.

The statistics have been presented in the table for rural and urban areas of Delhi Union Territory and its three towns namely (1) New Delhi Municipal Committee (2) Delhi Cantt. and (3) Delhi Municipal Corporation (Urban).

In the table of Delhi Union Territory, all the countries given under the main groups B,C,D,E & F in the tabulation plan have been shown even if figures against any of them are nil. However in case of tables at town-level, the States/Union Territories and countries having nil entries have been omitted.

D-III MIGRANTS TO URBAN UNITS (INCLUDING AGGLOMERATIONS) HAVING 100,000 AND ABOVE POPULATION CLASSIFIED BY SEX, BROAD AGE-GROUPS, EDUCATIONAL LEVELS AND IN CASE OF WORKERS BY OCCUPATIONAL DIVISIONS

Table D-III MIGRANTS TO URBAN UNITS (INCLUDING AGGLOMERATIONS) HAVING 100,000 AND ABOVE POPULATION CLASSIFIED BY SEX, BROAD AGE-GROUPS, EDUCATIONAL LEVELS AND IN CASE OF WORKERS BY OCCUPATIONAL DIVISIONS

FLY-LEAF

This table gives the distribution of migrants to urban units (including agglomerations) having 100,000 and above population by broad age-groups, educational levels, workers/non-workers and in case of workers other than cultivation by occupational divisions.

The broad age-groups are 0-14, 15-29, 30-59, 60+ and age not stated. But in the table, the data have been presented for total of all age-groups and age-groups 15-29 and 30-59 only and the figures pertaining to age-groups 0-14, 60+ and age not stated are included in total and not shown separately.

The educational levels adopted in the table are:—

1. Illiterate
2. Literate (without educational level)
3. Primary
4. Middle
5. Matriculation or Higher Secondary
6. Non-technical diploma not equal to degree
7. Technical diploma or certificate not equal to degree
8. Graduate degree other than technical degree
9. Post-graduate degree other than technical degree
10. Technical degree or diploma equal to degree or post-graduate degree
    (i) Engineering and Technology
    (ii) Medicine
    (iii) Agriculture, veterinary & dairying
    (iv) Teaching
    (v) Others.

This table corresponds to table D-IV of the last census which was prepared with reference to place of birth for total migrants classified by broad age-groups, educational levels and workers/non-workers.

The workers were further classified by occupational divisions and groups whereas in 1971 Census, the total migrants have been further classified by place of last residence and the workers have been classified by occupational divisions only. It gives an indication of occupations that attract migrants to cities. The educational levels give an insight into the movement of skilled and unskilled labour. The description of each occupational division has also been given in the table.

The total migrants have been classified according to last residence into two groups. A—Resided in India and B—Outside India.

The persons who had their last residence elsewhere in India are classified as (I) Within the state of enumeration but outside the place of enumeration. (II) States in India beyond the state of enumeration. The former groups (I) is further divided into two sub-groups (a) elsewhere in district of enumeration, (b) in other districts of the state of enumeration. As Delhi Union territory consists of only one district, item (b) is not applicable in our case. Under group (II) data have been presented separately for 22 States (including Sikkim) and 7 Union Territories of the Indian Union.

The distribution by educational levels and age-groups is first given for total migrants (workers and non-workers) and then separately for cultivators, agricultural labourers (industrial categories I & II) and in case of other workers by occupational divisions and lastly for non-workers.

The statistics have been presented for Delhi Urban Agglomeration and its constituent units namely (1) New Delhi Municipal Committee, (2) Delhi Cantt. and (3) Delhi Municipal Corporation (Urban). States and Union Territories having nil entries have not been shown in the table.

5. The States/Union Territories for which Data are nil, have not been shown.

D—IV POPULATION OF URBAN UNITS (INCLUDING AGGLOMERATIONS) HAVING 100,000 AND ABOVE POPULATION CLASSIFIED BY PLACE OF LAST RESIDENCE AND DURATION OF RESIDENCE

Table D-IV POPULATION OF URBAN UNITS (INCLUDING AGGLOMERATIONS) HAVING 100,000 AND ABOVE POPULATION CLASSIFIED BY PLACE OF LAST RESIDENCE AND DURATION OF RESIDENCE

FLY-LEAF

This table gives the extent of migration from rural and other urban areas into the cities and urban agglomeration. In-migration from rural and other urban areas have been classified by migrants who have been residents for less than 3 years and those who have been residents for 3 years and more at the place of enumeration. The migrants from rural and other urban areas have been further classified with reference to place of last residence as follows :

Last resided in rural/other urban areas of

(i) Within the district of enumeration.

(ii) Other districts within the state of enumeration.

(iii) Other States/Union Territories in India (except Sikkim).

(iv) Last resided in rural/urban areas of Sikkim.

Delhi union territory constitutes of only one district, hence item (ii) above is not applicable in our case and consequently there are nil entries against column Nos. 12-15 and 24-27 of the table.

The total population shown against Delhi Urban Agglomeration and its constituent units does not indicate their actual total population for the following reasons :-

(i) it excludes persons whose place of last residence has not been recorded as either rural or urban.

(ii) it excludes persons whose place of last residence is unclassifiable.

(iii) it excludes persons whose duration of residence have not been stated.

(iv) it excludes persons whose place of last residence is outside India.

This table corresponds to table D-V of 1961 Census which was based on the place of birth instead of place of last residence as done now.

The data have been presented for Delhi Urban Agglomeration and its constituent units namely, (1) New Delhi Municipal Committee, (2) Delhi Cantt. and (3) Delhi Municipal Corporation (Urban).

D-IV POPULATION OF URBAN UNITS (INCLUDING AGGLOMERATIONS) HAVING 100,000 & ABOVE

S. No.	City/Urban Agglomeration/ District	Total Population			Non-Migrants		Last resided in rural areas: Within the district of enumeration and resident for: Less than 3 years		Within the district of enumeration and resident for: 3 years or more		Other districts within the state of enumeration and resident for: Less than 3 years		Other districts within the state of enumeration and resident for: 3 years or more

4. Unspecified period of residence in the city is included under 3 years or more.
5. The figures in cols. 6—7 include those persons who did not report any 'last residence'.

D-V MIGRANT WORKERS AND NON-WORKERS ACCORDING TO MAIN ACTIVITY CLASSIFIED BY PLACE OF LAST RESIDENCE

Table D-V MIGRANT WORKERS AND NON-WORKERS ACCORDING TO MAIN ACTIVITY CLASSIFIED BY PLACE OF LAST RESIDENCE

FLY-LEAF

This table gives the distribution of migrants by nine broad industrial categories of workers and non-workers, cross-classified by place of last residence. The last residence of the persons residing elsewhere in India has been classified as 'rural', 'urban' and 'unclassifiable'. The term 'unclassifiable' was used where the rural or urban classification of the place of last residence could not be ascertained.

In this table, the place of last residence has been classified under the same main groups as those in table D-II.

The persons who had their last residence elsewhere in India are classified as (I) within the state of enumeration but outside the place of enumeration, (II) States in India beyond the state of enumeration. The group (I) is further divided into two sub-groups, (a) elsewhere in district of enumeration, (b) in other districts of the state of enumeration. As Delhi Union Territory constitutes of only one district, item (b) is not applicable in our case. Under group (II) data have been presented separately for 22 States (including Sikkim) and 7 Union Territories.

In case of last residence under groups B, C, D, E and F *i.e.* countries outside India, data have been presented separately for a few countries as given below :

B. *Countries in Asia beyond India (including U.S.S.R.)*
Afganistan
Burma
Ceylon
China
Nepal
Pakistan
Malaysia
U.S.S.R.
Elsewhere

C. *Countries in Europe (excluding U.S.S.R.)*
U.K. (Including North Ireland)
Ireland
Elsewhere

D. *Countries in Africa*
Kenya
Mauritius
Mozambique
Union of South Africa
Elsewhere

E. *Countries in two Americas*
Canada
U.S.A.
Elsewhere

F. *Countries in Oceania*
Australia
New Zealand
Elsewhere

The total of the remaining countries of each continent is given against the heading 'elsewhere' in the table.

The migrant workers have been further divided into nine broad industrial categories which are given below :

Category I :

For purposes of the census a person is working as Cultivator if he or she is engaged in cultivation by oneself or by supervision or direction in one's capacity as the owner or lessee of land held from Govt. or as a tenant of land held from private persons or institutions for payment of money, kind or share.

Cultivation involves ploughing, sowing and harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi etc., and pulses, raw jute and kindred fibre crop, cotton etc., and other crops such as sugarcane, groundnuts tapioca, etc., and does not include fruit growing, vegetable growing or keeping orchards or groves or working of plantations like tea, coffee, rubber, cinchona and other medicinal plantations.

A person who merely owns land but has given out land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, has not been treated as working as cultivator. Similarly, a person working in another person's land for wages in cash, kind or share (Agricultural labourer) has not been treated as cultivator in this question.

Category II :

A person who works in another person's land for wages in money, kind or share should be regarded as an agricultural labourer. He has no risk in the cultivation but he merely works in another person's land for wages. The labourer could have no right of lease or contract on land on which he works.

Category III :

Workers in livestock, forestry, fishing, hunting, plantations, orchards and allied activities are included in this category. This includes livestock production, hunting, trapping and game propagation, forestry and logging, fishing in sea, coastal and inland waters, collection of pearls, conches and other sea products etc.

Category IV :

Workers in mining and quarrying are included in this category. This includes coal mining, crude petroleum, natural gas, metal ore mining, stone quarrying and other type of mining, salt, chemicals, precious stones, mica and gypsum etc.

Category V :
V(a)

A Household Industry is defined as an industry conducted by the head of the household himself/herself and/or by mainly the members of the household at home or within the village in rural areas and only at home in urban areas. In urban areas, the industry must be confined to the house or atleast a major part of the work must be located at home. The household industry is not run on the scale of a factory. A household industry should relate to the production servicing, processing, repairing or making and selling of goods, but should not be confined to the process of buying and selling only. It does not, therefore, include establishments exclusively engaged in buying and selling, professions such as doctor, astrologer, pleader, etc. The workers in household industry are classified under Category V (a).

V(b)

Workers in manufacturing other than household Industry include those engaged in all types of production, processing, servicing or repairing of goods. This category does not include production or processing which may be classified as 'Household Industry'. Such workers are classified under category V (b).

Category VI :

This category includes workers engaged in construction and maintenance of buildings, roads, railways bridges, telegraph, telephone lines, water-ways, reservoirs, etc.

Category VII :

This category includes workers engaged in any capacity in wholesale or retail trading activity and commercial transactions relating to imports and exports, real estate and properties, stocks and shares, insurance, money lending, banking, etc.

Category VIII :

This category includes workers engaged in transport activities by air, rail, road and water and in services incidental to transport such as packing, carting, loading, unloading, etc. Workers engaged in storage, warehousing and communication, services such as posts, telegraph, telephone, wireless signalling, information and broadcasting are also included.

Category IX :

This category includes (i) Public utility services like electricity or gas or water supply or sanitary servicess (ii) Public services central, state or municipal employees, (iii) Professional services, (iv) Personal services, (v) Services rendered by trade or labour association, (vi) Recreation services etc.

This table indicates the industrial categories attracting migrants and whether in the different industrial categories the flow of migrants is from the rural to urban areas or vice versa. This table corresponds to table D-VI of 1961 Census which was prepared with reference to place of birth instead of the place of last residence which has been adopted at the 1971 Census.

This table has been prepared for Delhi Union Territory as a whole. Similar statistics have been presented for Delhi Urban Agglomeration alongwith its three constituents namely, (1) New Delhi Municipal Committee, (2) Delhi Cantt. and (3) Delhi Municipal Corporation (Urban) in an appendix to this table. The statistics for Delhi Rural have not been presented separately but the same can be had by substracting the figures for Delhi Urban Agglomeration from Delhi Total.

D-VI MIGRANTS CLASSIFIED BY PLACE OF LAST RESIDENCE, AGE-GROUP, DURATION OF RESIDENCE AND MARITAL STATUS

Table D-VI MIGRANTS CLASSIFIED BY PLACE OF LAST RESIDENCE, AGE-GROUP, DURATION OF RESIDENCE AND MARITAL STATUS

FLY-LEAF

This is a new table for 1971 Census and gives the distribution of migrants based on the place of last residence by age-groups, sex, duration of residence and marital status. Data have been presented for age-groups 0-14, 15-19, 20-24, 25-49, 50+ and Age not stated for each sex for rural/urban place of enumeration.

In this table, the place of last residence has been classified in the following manner :

Total

A. *Resided in India*

I. Within the state of enumeration but outside the place of enumeration.

(a) Elsewhere in district of enumeration.

(b) In other districts of state of enumeration.

II. States in India beyond the state of enumeration.

B. *Outside India*

As Delhi Union Territory constitutes of only one district, item I (b) is not applicable in our case. In this table the statistics have been presented for all the States/Union Territories as a whole and not for the individual States/Union Territories. Data in respect of countries outside India have also been given under one head 'B' Outside India.

In case of data relating to urban areas, the 'Unclassifiable' place of last residence has been included in 'total' as well as in section B-Outside India whereas in case of rural areas 'unclassifiable' place of last residence has been included in 'total' only and not in Section B-Outside India. This fact has been explained by adding a foot-note to this table.

The duration of residence in the place of enumeration have been shown in the following ranges :

(i) Less than 1 year

(ii) 1-9 years.

(iii) 10 years and above

(iv) Period not stated.

Data have not been presented separately for 'period not stated' in the table. The data relating to the duration 'period not stated' are included in the data relating to all durations. Under each duration of residence, the statistics have been shown for total, never married, married, widowed and divorced. Figures for unspecified marital status are included in 'total'.

The data have been presented for rural and urban areas of Delhi Union Territory. In case of Delhi Urban Agglomeration and its constituents namely (1) New Delhi Municipal Committee, (2) Delhi Cantt. and (3) Delhi Municipal Corporation (Urban), data have been presented for urban only.

This table is, supplemented by an appendix in which the city tables have been presented separately showing rural/urban place of last residence of migrants. In the appendix, data have been presented for Delhi Urban Agglomeration alongwith its three constituents as mentioned earlier.

Thus the main table D-VI gives the rural/urban classification of place of enumeration whereas the appendix gives the rural/urban classification of place of last residence.
