CONTENTS

		Pages
D-I	Population Classified by Place of Birth.	1 to 101
D-II	Migrants Classified by Place of Last Residence and Duration of Residence in Place of Enumeration.	103 to 123
D-III	Migrants to Urban Units (including Urban Agglomeration) having 100,000 and above population classified by sex, broad age-grocps, educational levels and in case of workers by occupational divisions.	125 to 493
D-IV	Population of Urban Units (including Urban Agglomeration) having 100,000 and above population classified by Place of Last Residence and Duration of Residence.	495 to 499
Appendix		500
D-V	Migrants Workers and Non-workers according to main activities classified by place of last residence.	501 to 943

Table D-I

Population Classified by Place of Birth

TABLE D I—POPULATION CLASSIFIED BY PLACE OF BIRTH.

The "D" series of tables present the data on migration and have been estimated from 10% sample (Rural) and 20% sample (Urban).

Table D-I shows the distribution of population according to place of birth which is again classified into Rural, Urban and Unclassifiable. It will indicate the magnitute of Rural/Urban migration because places of enumerption have also been classified into Rural & Urban areas in this table.

This table corresponds to table D-II of 1961 Census. In 1961 the Rural/Urban status of a person's place of Birth was determined according as the place was Rural/Urban at the time of enumeration, while in 1971 it was done with reference to the status of the place at the time, the person was born. The Rural/Urban status was ascertained only for those persons whose birth places happend to be within this country but not for those who were born in foreign countries.

In this table figures have been presented down to district level. For economy of space, in the district tables the State/Union Territory/Country against which data are nil have been dropped. Only in the State table all the States/Union Territories/Countries have been shown.

Table D-II

Migrants classified by place of last residence and duration of residence in place of enumeration

D II—MIGRANTS CLASSIFIED BY PLACE OF LAST RESIDENCE AND DURATION OF RESIDENCE IN PLACE OF ENUMERATION

Fly-leaf

This table gives distribution of the migrants according to their places of last residence and duration of residence in the place of enumeration. The places of last residence have been classified into rural, urban and unclassifiable, but this classification is not done for those whose places of last residence were in foreign countries. Duration of residence has been classified into six categories, *i.e.*, "Less than 1 year", "1-4 years", "5-9 years", "10-19years", "20+years" and "period not stated". The duration has been recorded in completed years. Migrants have been classified into rural/urban areas of enumeration. The table has been presented at State level only.

This table corresponds to table D-III of 1961 Census which was prepared with reference to place of birth instead of place of last residence. It furnishes valuable data on the short term migration specially on rural/urban migration which has taken place as a result of the country's developmental planning. Distribution of migrants with reference to place of last residence is considered more relevant for studying migration.

Table D-III

Migrants to urban units (including urban agglomeration) having 100,000 and above population classified by sex, broad age-groups, educational levels and in case of workers by occupational divisions

TABLE D—III MIGRANTS TO URBAN UNITS (INCLUDING URBAN AGGLOMERATION) HAVING 100,000 AND ABOVE POPULATION CLASSIFIED BY SEX, BROAD AGE-GROUPS, EDUCATIONAL LEVELS IN CASE OF WORKERS BY OCCUPATIONAL DIVISIONS

Fly-Leaf

This table is prepared only for Cities and Urban Agglomerations each with population of 100,000 and above. It gives the distribution of the migrants with reference to their places of last residence. The migrant workers are classified by Occupational Divisions of the National Classification of Occupation, further cross-tabulated by age-groups and educational standards. The migrant non-workers are classified by age-groups and educational standards. The age-groups are "15—29" and "30—59". The figures for age-groups "0—14", "60+" and "Age not stated" are included in "Total".

This table corresponds to table D-IV of 1961 Census which was prepared with reference to place of birth instead of place of last residence. For economy of space, State/Union Territory/Country against which data are nil have been omitted. This table is an important one as it indicates the types of occupations which specially attract migrants to a City or Urban Agglomeration. The classification of migrants by literacy and educational levels is also of importance for it shows the magnitude of influx" of skilled and unskilled workers into a City or Urban Agglomeration.

This table is prepared only for two Urban Agglomerations of Calcutta and Asansol and three Cities of Durgapur, Burdwan and Kharagpur. Calcutta Urban Agglomeration includes Calcutta city and 73 other cities and towns of the districts of Nadia, Twentyfour Parganas, Howrah and Hooghly. Asansol Urban Agglomeration includes the municipal twon of Asansol and the non-municipal towns of outer—Burnpur and Burnpur.

D-III—MIGRANTS TO URBAN UNITS (INCLUDING AGGLOMERATIONS) HAVING 100,000 AND ABOVE POPULATION CLASSIFIED BY SEX, BROAD AGE-GROUPS, EDUCATIONAL LEVELS AND IN CASE OF WORKERS BY OCCUPATIONAL DIVISIONS

(i) * Incldes figures for educational level not classfiable.

(ii) ** Includes mizo distric now constituted as Union Territory of mizoram.

(iii) Outside India includes unclassifiable foreign countries.

(vi) Figures of Age-groups 0-14, 60 and Age not stated are included in Table.

(v) States/Union Territories for which data are nil have not shown.

(vi) Middle Level will not occure in the State where it does not exist ommission will be explained in a foot note.

Table D-IV

Population of urban units (including agglomerations) having 100,000 and above population classified by place of last residence and duration of residence

TABLE D-IV—POPULATION OF URBAN UNITS (INCLUDING AGGLOMERATIONS) HAVING 100,000 AND ABOVE POPULATION CLASSIFIED BY PLACE OF LAST RESIDENCE AND DURATION OF RESIDENCE

Fly-leaf

This table is also prepared for Cities and Urban Agglomerations each with a population of 100,000 and above. In-migrants with reference to their rural/urban places of last residence to the City or Urban Agglomeration have been classified by duration of residence for "less than three years" and "three years and more" at the place of enumerations. This table corresponds to table D-V of 1961 which was prepared with reference to the place of birth instead of place of last residence.

This table shows the extent of in-migration from rural and other urban areas into the City or Urban Agglomeration. This table shows the migrants from within the Country only. It indicates the trend of migration, rural to urban and urban to urban, to these Cities and Urban Agglomerations. The table has been prepared only for the two Urban Agglomerations of Calcutta and Asansol and three Cities of Durgapur, Burdwan and Kharagpur. Calcutta Urban Agglomeration is, as mentioned in the fly-leaf D-III, constituted by Calcutta City and 73 other cities and towns of the districts of Nadia, Twenty Four Parganas, Howrah and Hooghly while Asansol Urban Agglomeration includes the municipal town of Asansol and non-municipal towns of Outer-Burnpur and Burnpur.

It will appear from the table that the migrants from the State of Sikkim has been shown separately. This is because the information pertaining to rural and Urban places of last residence of the migrants from the State is not separately available.

In case of Calcutta Urban Agglomeration this table is followed by an Appendix containing the intra-agglomeration movement of the migrants. This Appendix shows the magnitude of in-migration into the Urban Units of any of the five districts from those of the other four districts. The agreegated data presented in the Appendix have been shown under cols. 21 to 24 of the main table.

D-IV POPULATION OF URBAN UNITS (INCLUDING AGGLOMERATIONS) PLACE OF LAST RESIDENCE

City/Urban Agglomeration	District and State	Total Population			Non-migrants	
		Persons	Males	Females	Males	Females
1	2	3	4	5	6	7
						WEST
Calcutta Urban Agglomeration	Calcutta, Nadia; Twenty Four Parganas, Howrah and Hooghly (West Bengal)	5,985,295	3,510,220	2,475,075	2,487,080	1,924,330
Asansol Urban Agglomeration	Burdwan (West Bengal)	217,655	122,550	95,105	92,725	75,255
Durgapur City	Burdwan (West Bengal)	177,810	100,245	77,565	43,600	34,185
Burdwan City	Burdwan (West Bengal)	125,060	69,275	55,785	53,255	41,500
Kharagpur City	Midnapore (West Bengal)	148,750	80,245	68,505	55,070	45,405

City/Urban Agglomeration	Disirict and State	Last resided in other							
		Within the district of enumeration and resident for				Other districts within the state of enumeration and resident for			
		Less than 3 years		3 years or more		Less than 3 years		3 years or more	
		Males	Females	Males	Females	Males	Females	Males	Females
1	2	20	21	22	23	24	25	26	27
									WEST
Calcutta Urban Agglomeration	Calcutta, Nadia, Twenty Four Parganas, Howrah and Hooghly (West Bengal)	44,010	50,005	115,700	128,025	17,710	16,390	45,160	45,690
Asansol Urban Agglomeration	Burdwan (West Bengal)	745	770	1,705	1,170	1,600	1,350	3,140	2,400
Durgapur City	Burdwan (West Bengal)	930	940	3,930	3,000	2,305	2,520	13,745	10,050
Burdwan City	Burdwan (West Bengal)	265	615	535	640	1,035	1,100	1,965	2,195
Kharagpur City	Midnapore (West Bengal)	245	305	925	870	1,220	1,045	3,130	2,840

Note—Constituents of Calcutta Urban Agglomeration spread over Nadia, Twenty Four Parganas, Howrah and Hooghly districts besides Calcutta district itself. In order to study intra-agglomeration migration the portions of Nadia, Twenty Four Parganas, Howrah and Hooghly districts which Comprise Constituents of Calcutta Urban Agglomeration were treated as pseudo districts and assigned codes 17, 18, 10 and 20 respectively. There statistics are being presented in Appendix which follows the table. The aggregated data presented in Appendix have been shown under cols 21 to 24 above.

Table D-V

Migrants workers and non-workers according to main activities classified by place of last residence

TABLE D-V—MIGRANTS WORKERS AND NON-WORKERS ACCORDING TO MAIN ACTIVITIES CLASSIFIED BY PLACE OF LAST RESIDENCE

Fly-leaf

In this table total migrants are classified into workers and non-workers according to place of last residence. The workers are again classified into 10 Industrial categories. Places of last residence have been classified into Rural, Urban and Unclassifiable.

This table corresponds to table D-VI of 1961 Census prepared with reference to place of birth instead of place of last residence. It is presented down to district level followed by the tables of two Urban Agglomerations of Calcutta and Asansol and three Cities of Durgapur, Burdwan and Kharagpur. This tables shows the distribution of migrants of "Total" and "Urban" areas of enumeration and those of "rural" areas can be obtained by subtracting the Urban Migrants from total migrants.
