CENSUS OF INDIA 1961

Census Report—Vol. IX will relate to Madras only.
Under this series will be issued the following Publications.

Part I—A	...	General Report (2 Volumes).
I—B	...	Demography and Vital Statistics.
I—C	...	Subsidiary Tables.
Part II—A	...	General Population Tables.
II—B	...	Economic Tables.
II—C	...	Cultural and Migration Tables.
Part III	...	Household Economic Tables.
Part IV—A	...	Report on Housing and Establishments.
IV—B	...	Housing and Establishment Tables.
Part V—A	...	Scheduled Castes and Tribes (Report & Tables).
V—B	...	Ethnographic notes on Scheduled Tribes.
V—C	...	Todas.
V—D	...	Ethnographic notes on Scheduled Castes.
V—E	...	Ethnographic notes on denotified and nomadic tribes.
Part VI	...	Village Survey Monographs (40 Nos.).
Part VII—A	...	Crafts and Artisans (9 Nos.).
VII—B	...	Fairs and Festivals.
Part VIII—A	...	Administration Report — Enumeration. } For Official use only
VIII—B	...	Administration Report — Tabulation. }
Part IX	...	Atlas of the Madras State.
Part X	...	Madras City (2 Volumes). District Census Handbooks on twelve districts.
Part XI	...	Reports on Special Studies.
A	...	Handlooms in Madras State.
B	...	Food Habits in Madras State.
C	...	Slums of Madras City.
D	...	Temples of Madras State (5 Volumes).
E	...	Physically Handicapped of Madras State.
F	...	Family Planning Attitudes: A Survey.
Part XII	...	Languages of Madras State.

PUBLISHED BY THE MANAGER OF PUBLICATIONS, DELHI-8.

PRINTED AT THE ALAMU PRINTING WORKS, MADRAS-5.

In the preparation of this volume, I have been guided by the suggestions given from time to time by Sri A. Mitra, Registrar General, Sri D. Natarajan, Deputy Registrar General and Sri K. D. Ballal, Central Tabulation Officer, New Delhi.

It is also my pleasant duty to acknowledge the able assistance given by the following members of my staff.

Sri K. C. Narayana Kurup, Tabulation Officer.

Sri M. Panchapakesan, Tabulation Officer.

Kumari T. Saramma, Stenographer.

Sri K. R. Ganapathi, ,,

Sri K. Jayasekharan, Upper Division clerk.

Sri C. K. Somasundaram ,,

	SUB-APPENDIX : Municipalities which have undergone changes in area since 1951.	120
APPENDIX II to TABLE A-I :	No. of villages with a population of 5,000 and over and Towns with a population under 5,000	121—124
	LIST A : Area and population of places with a population of under 5,000 treated as towns for the first time in 1961.	125
	LIST B : Area and population of Places with a population of under 5,000 in 1951 which were treated as towns in 1951, but have been deleted from the list of Towns in 1961.	126
	Note on Appendix II to Table A-I.	127
APPENDIX III to TABLE A-I.	Houseless and Institutional Population.	128—135
	Note on Institutional and Houseless Population.	136
	Classified Numerical list of Institutions.	137—138

Table A-II: Variation in Population during sixty years

FLY LEAF I	Note on Table A-II.	140
FLY LEAF II:	Details of adjustment of population from 1901—1951.	141
FLY LEAF III	Note on the contents of appendix to Table A-II.	142
FLY LEAF IV	Percentage variation of population in districts by Rural/Urban during 1901—1961.	143
FLY LEAF V:	Note on changes in the Rural/Urban percentage variation of population, 1901—1961.	144
FLY LEAF VI	Statement of changes in the proportion of sexes in the districts, 1901—1961.	145
FLY LEAF VII	Changes in the proportion of sexes 1901—1961.	146
TABLE A-II	Variation in population during sixty years.	147—149
APPENDIX to TABLE A-II	1951 Population of districts according to their territorial jurisdiction in 1951, changes in area and population involved in those changes. ...	150—151

Table A-III: Villages classified by Population

FLY LEAF I	Definition and changes in the concept of village.	153
FLY LEAF II	Percentage of population living in villages of various population sizes with reference to the total rural population in each district and taluk 1961. ...	154—158
FLY LEAF III	Notes on the percentage of population living in villages of various population sizes in districts....	159—160
FLY LEAF IV.	Percentage of villages and population by class of village, 1961—1901. ...	161—167
FLY LEAF V.	Comments on the percentage of villages and population by class of village, 1901—1961.	168
FLY LEAF VI.	Sub-totals of villages and their population at district level ...	169—170
UNION TABLE A-III	Villages classified by population figures for districts	171—173
STATE TABLE A-III:	Villages classified by population - Talukwise figures for each district. ...	174—188

Table A-IV: Towns (and Town-groups) classified by population in 1961 with variation since 1901

FLY LEAF I:	Definition of Census Town.	190
FLY LEAF II	Six classes of Census Towns	191
FLY LEAF III	Concept of Town-group.	192
FLY LEAF IV	Changes in classification of Towns 1901—1961	193—206
FLY LEAF V	Number of Towns of each class including Town-group 1901—1961. ...	207
FLY LEAF VI	Percentage of towns in each class to total number of towns, and percentage of population in each class to total urban population 1901—1961. ...	208
FLY LEAF VII	Percentage of town in each class to total urban area of the State and density of population per urban square mile for each class 1951—1961. ...	209
FLY LEAF VIII.	Urban population of 1961 if towns declassified in 1961 were retained as towns, and that of 1951 if new towns of 1961 were treated as towns in 1951. ...	210
TABLE A-IV	Towns (and town-groups) classified by population in 1961 with variation since 1901.	211—272
APPENDIX TO TABLE A-IV:	New Towns added in 1961 and towns in 1951 declassified in 1961 ...	273—277
	Explanatory note "A" to Appendix to Table A-IV showing constituents of new towns added in 1961 Census.	278—280
	Explanatory note "B" to Appendix to Table A-IV showing constituents of Census towns declassified in 1961.	281—282

Primary Census Abstract

FLY LEAF I:	Concept of Census Houses, Dwellings, Shop-*cum*-Dwellings, Workshop-*cum*-Dwellings and Households.	284
FLY LEAF II.	Proportion of households to 100 occupied census houses and percentage of households to number of census houses in rural and urban areas. ...	285—294
FLY LEAF III:	Density of households per square mile.	295—296
FLY LEAF IV:	Definition of Scheduled Castes and Scheduled Tribes, Houselesss population and literacy	297
APPENDIX:	List of Scheduled Castes and Scheduled Tribes in Madras State. ...	298—304
FLY LEAF V.	Classification of population into workers and non-workers and workers into nine Industrial Categories.	305—307
FLY LEAF VI.	Percentage of Scheduled Castes and Scheduled Tribes in districts and cities with a population of 50,000 and over.	308—311
FLY LEAF VII:	Percentage of literate and educated persons in districts and cities and towns with a population of 50,000 and over.	312—314
FLY LEAF VIII:	Distribution of 1,000 persons among the workers and non-workers and for each category of workers.	315—321
FLY LEAF IX:	Females per 1,000 males among total population, total workers, for each category of workers and non-workers.	322—323

PREFACE

In this volume, we present the General Population Tables-A Series for Madras State and its Primary Census Abstract. We have also added brief commentary notes in the form of fly leaf to each table with such inset tables as are necessary to explain the observations made by us. Our aim is to focus the attention of the general reader on the main trends indicated by the tables.

2. There are four tables in A Series.

A–I: AREA, HOUSES AND POPULATION. This is the basic population table. It presents the figures district by district. Commencing with the district figures giving rural-urban break-up, it goes on to furnish similar figures for each taluk and urban area including town-groups. The area is furnished both in sq. miles and sq. kilometers and the density is worked out on the basis of sq. miles. The table also gives an idea of the number of inhabited and uninhabited villages, the population of occupied residential houses and the population of males and females. The area figures for the districts and taluks are based on those furnished by the Central Survey Office, Madras. In the case of towns and municipalities, figures are furnished by the Tahsildars and Commissioners. The rural area is calculated by deducting the urban area from the total area.

3. We have appended three Appendices to Table A–I. Appendix I traces the growth of the State to the present area since the last Census. Due to the formation of Andhra State and the reorganisation consequent on the linguistic formation of States and the Pataskar Award between Andhra Pradesh and Madras, inter-State transfers of territories have taken place which have resulted in substantial changes in the area of Madras State. Inter-district and inter-taluk changes have also taken place since 1951 Census. This Appendix will show what territories of 1951 constitute the present Madras State. A small sub-appendix showing the area for 1951–61 for those municipal towns which have undergone changes in area since 1951 Census has also been added. Appendix II will show the number of villages with a population of 5,000 and over and towns with a population under 5,000; for an area to be declared as town, *i. e.* urban, it would normally have a population 5,000 and over. For certain reasons, many places with a population of 5,000 and over are not treated as towns while a number of places with less than 5,000 are treated as towns. This appendix gives the number of such places with their population. Names with area of new towns under 5,000 population as well as of old towns under 5,000 which have been declassified as rural have been given in a note to this Appendix. Appendix III shows the houseless and institutional population separately with rural-urban break-up.

4. A–II: VARIATION IN POPULATION DURING SIXTY YEARS. This table furnishes data on the area and population for the seven Censuses held in this century from 1901 to 1961 and the variation of population. It gives the growth of population from decade to decade and with such vital statistics data as we have, will form the main source for projection of population. The percentage variation has also been given from decade to decade. Appendix to this table gives the adjustments made to bring the 1951 Census population of the district to correspond to the jurisdiction of the district as in 1961 Census.

5. A–III: VILLAGES CLASSIFIED BY POPULATION. This table gives figures for the number of villages in different population groups which are less than 200, 200–499, 500–999, 1,000–1,999, 2,000–4,999, 5,000–9,999 and 10,000 and above. More than 40% of India's population live in villages with population of less than 1,000. A little less than 2/3 of the population live in villages of less than 2,000 population. The group less than 500 of the last Census has been split up into two groups—less than 200 and 200–499. The largest group is 10,000 and over.

6. A-IV: TOWNS (TOWN-GROUPS) CLASSIFIED BY POPULATION IN 1961 WITH VARIATION SINCE 1901. This table shows the growth of each town since 1901 Census. This will also give the area of the town at the 1961 Census both in sq. miles and sq. kilometers. All towns have been divided into six classes, based on the population. If two or more urban units are adjacent and together form a compact urban unit, the entire town-group has been classified with reference to the total population. The total population of the town-group along with population of the individual urban units within the town-group has been given in the table under that class. As in Table A-II percentage variation has been given from decade to decade. Appendix to this table will show new towns added in 1961 and towns in 1951 Census which have been declassified as rural in 1961 Census. Each new town has an explanatory note showing the area and population of 1961 Census of each village now constituting the town. Similarly, each town in 1951 which has been declassified in 1961 has an explanatory note showing the name, area and population of the villages into which it has been declassified in 1961.

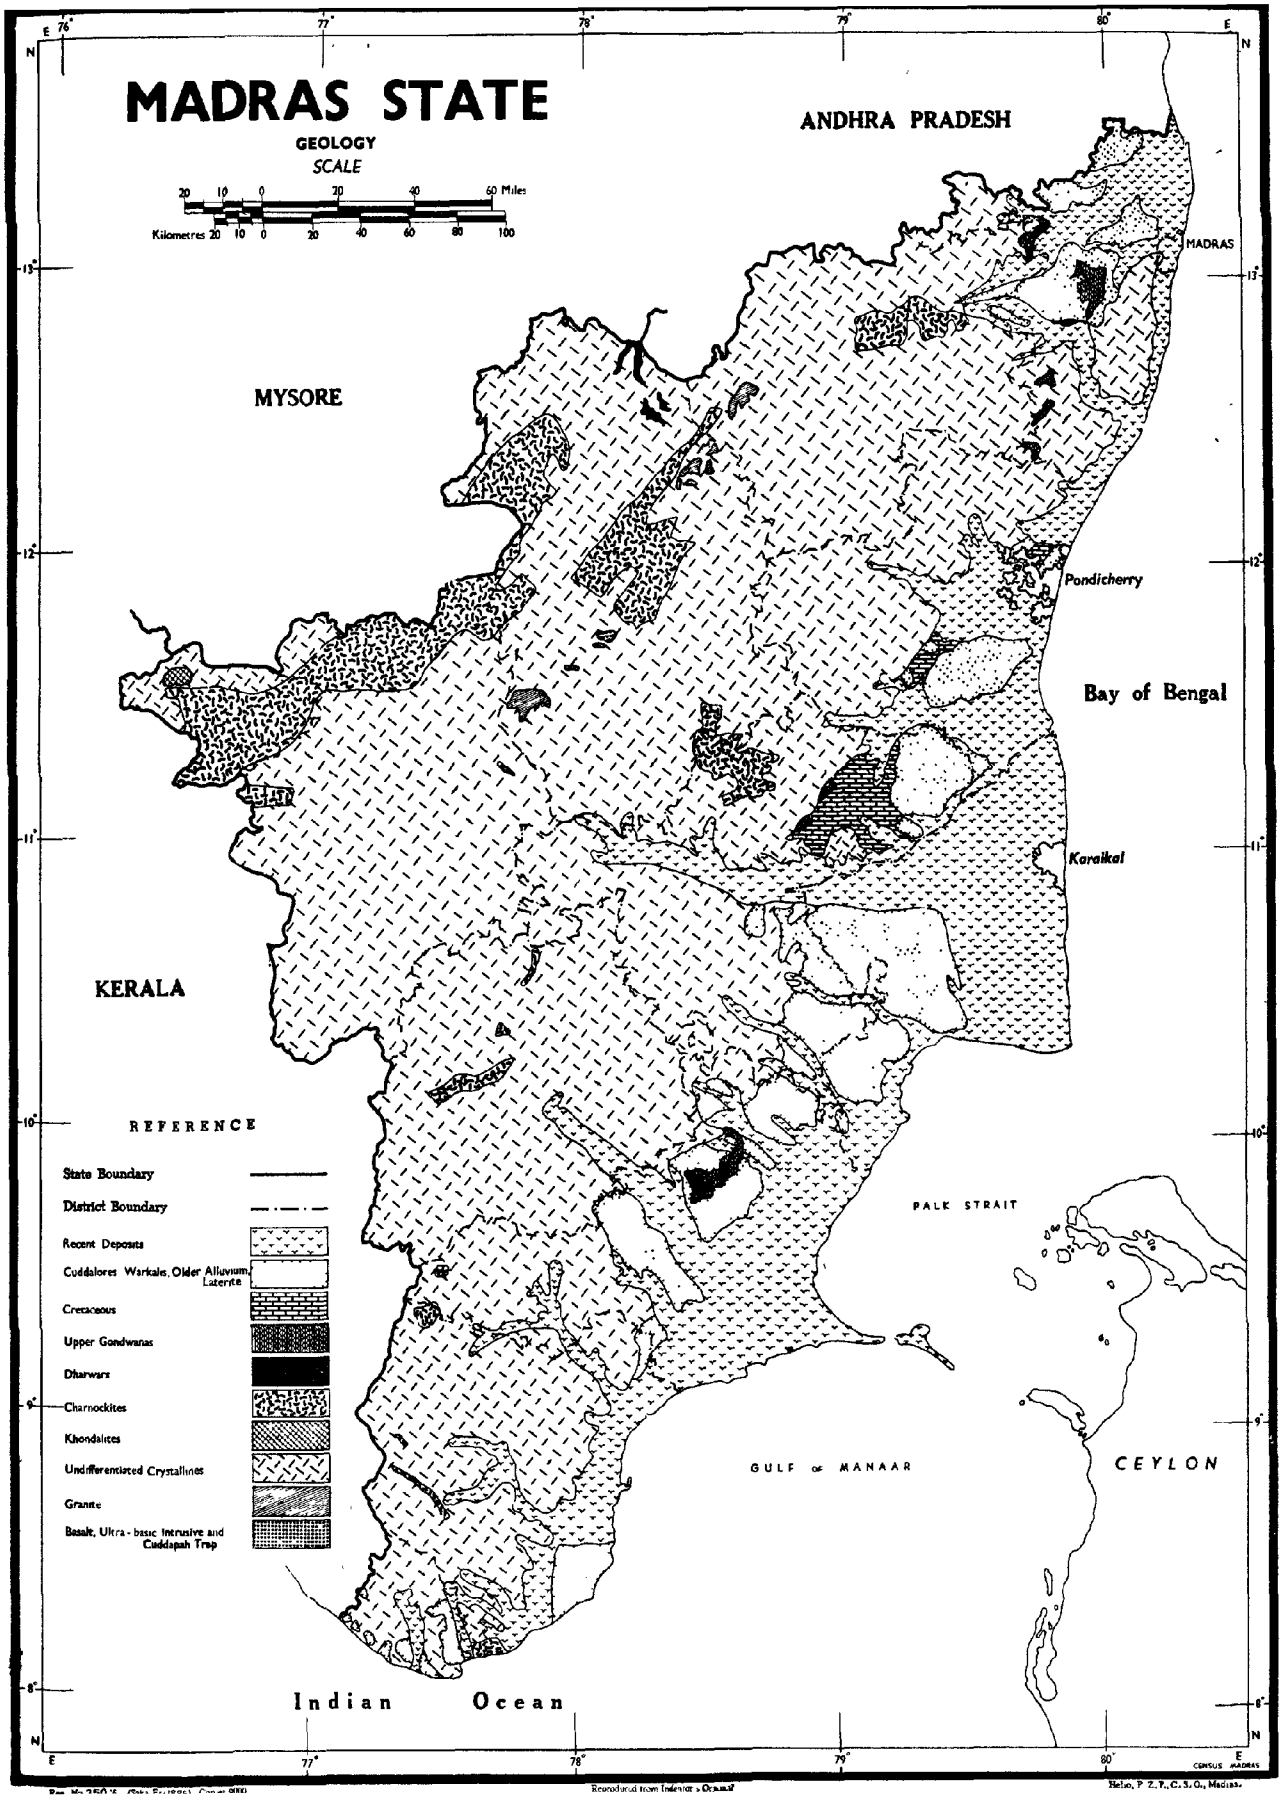

7. PRIMARY CENSUS ABSTRACT: This presents, in consolidated form, particulars relating to the State, districts, taluks with rural-urban break-up and towns. It gives the area in sq. miles, occupied houses and households, total population, population of scheduled castes and scheduled tribes, literates and workers classified into the following nine industrial categories and also non-workers.

1. Cultivator
2. Agricultural Labourer
3. Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities.
4. Household Industry
5. Manufacturing other than Household Industry
6. Construction
7. Trade and Commerce
8. Transport, Storage and Communications
9. Other Services
10. Non-workers.

In the District Census Hand-books such information will be furnished for each village, ward of a town and also for each enumerator's block in a town. Thus the abstract will furnish information on the primary economic activities of each village and block of about 120-150 houses in a town and literacy proportion of the population.

8. We have also added a preliminary note explaining how 1961 Census was organised in Madras State and how the basic data have been collected. We have, wherever necessary, explained with illustrations various concepts used in the Census and which have been embodied in this report. We do hope that a reader will find our notes in the fly-leaf useful and draw such conclusions as he likes about the population trends of this State.

PART II-A

PRELIMINARY NOTE

GENERAL:

The tenth decennial Indian Census and the second after Independence was taken in February-March 1961. The reference date for the Census was the sunrise of 1st March 1961. The details of the process with reference to the organisation and accomplishment will be set forth in the Administration Report as well as in the General Volume. But for the benefit of a general reader of this volume, I set forth briefly how the Census of Madras was organised in 1961.

In this Census, three important documents were filled in—Household Schedule cum Census Population Record, Houselist and Individual Slip. Houselisting formed the first stage of Census which was conducted in October 1960. In the second and final stage which was conducted in February 1961, the Individual slip and Household Schedule-cum-Population Record were filled in. The following programme was then drawn up for Census Operations in the State.

1.	Assignment of location code numbers	30— 4—1960
2.	Formation of charges and delimitation of circles and blocks ...	30— 4—1960
3.	Submission of charge lists	31— 7—1960
4.	Check-up of house numbering and bringing them up-to-date ...	30— 9—1960
5.	Training of houselisting staff	30— 9—1960
6.	Houselisting	1—10—1960 to 31—10—1960
7.	Training for actual enumeration and sample Census ...	December 1960 and January 1961
8.	Enumeration of household population including institutional population	10— 2—1961 to 28— 2—1961
9.	Enumeration of houseless population in Madras City ...	Nights of 28— 2—1961 to 4— 3—1961
10.	Enumeration of houseless population in mofussal areas excluding nonsynchronous tracts	Night of 28— 2—1961
11.	Enumeration of houseless population in non-synchronous tracts	Noon of 1— 3—1961
12.	Revisional round	1st to 5th March 1961
13.	Enumeration of naval vessels, passengers, and crews of ship liners etc. ...	1st to 15th March 1961
14.	Reporting of provisional figures	9th March 1961

It was further decided that the machinery to be employed would be preferably employees of the State and Central Government and Local Bodies and not any non-official. Normally the tradition of Indian Censuses is that of honorary work. This principle has also been followed in this Census with the difference that an out of pocket expense of Rs. 20/- was paid to each Enumerator and Supervisor to cover the actual expenses incurred in the discharge of their duty. This sum was intended both for houselisting and for enumeration. In this State, the

same agency was employed for both these operations. A break-up of the enumeration personnel employed in the State would be of great interest.

ENUMERATORS:

Village officials	13,997
Teachers	31,069
Local Board employees	3,595
Officials of the Revenue Department	327
Officials of other State Government Departments	1,805
Officials of Central Government	1,417
Others.	25
Total	52,235

SUPERVISORS:

Village Officials	86
Teachers	4,966
Local Board employees	948
Officers of the Revenue Department	1,708
Officials of other State Government Departments	2,433
Officials of Central Government	393
Others	5
Total	10,539

As a preliminary step, it was necessary to divide the State into suitable areas with definite boundaries and to give every house a definite number for purpose of easy identification. The first stage in the mechanics of 1961 Census was, therefore, the assignment of location code numbers and bringing the house numbering system up-to-date. This was followed by classification of areas into rural and urban, delimitation of circles and blocks, selection, appointment and training of enumeration staff and holding of sample Census. These stages are briefly described below.

LOCATION CODE: In 1951, definite location code numbers were given to all districts, taluks, municipalities and villages in this State. Consequent on the reorganisation of States and the creation of new taluks and villages, the existing location code had to be suitably revised. For this purpose, a circular was issued in March 1960. It was indicated that Tahsildars should work out a new location code on the basis of the principles enunciated in the Circular. Madras State was divided into 13 districts, Madras City being treated as a separate district for this purpose. A number was assigned to each district which formed the first number of the location code. In Madras City, each division was treated as the second element of the location code and the number assigned to the road, street or lane within each division as the third element. The fourth element was the number assigned by the Corporation of Madras for each house. Similarly, outside the Madras City, the first element was the number assigned to the district, the second the number assigned to the taluk and the third the number to the municipalities, panchayats and villages. These numbers ran in one series from the northern-most corner to the southern-most corner. To this three element code was added, the locality number—street number and house number in the case of municipalities, cantonments and major panchayats where the locality system of house numbering is in force and the block number—house number in the case of minor panchayats and villages where the block system of house numbering is in force, Thus, there would be a six element location code in the case of municipatities, cantonments and major panchayats and five element location code for minor panchayats and villages. Further, 31st March 1960 was fixed as the date on the basis of which the location code was to be prepared. The Tahsildar prepared two copies of the statement with a map

and they were approved by the Collector and sent to the Superintendent of Census Operations after counter. signature. These location code statements were scrutinised at my office and then correction slips issued wherever necessary. In addition, there were a number of changes consequent on the implementation of Andhra Pradesh-Madras Alteration of Boundaries Act, 1959 which came into force on 1st April 1960. These changes were taken into account by the appropriate Tahsildars before finalising the location code.

RURAL—URBAN CLASSIFICATION: The next stage was the classification of areas into rural and urban. For Census purposes, all the units which constituted the State used to be divided into rural and urban. The Registrar-General felt that a more scientific approach should be made to this classification in 1961. He laid down the following conditions for such classification.

That an area should have a population of 5,000;

That over 75 % of the male population should depend on non-agricultural resources for their livelihood; and.

That the density of population should be over 1,000 per sq. mile.

All Corporations, Municipalities and Cantonment Boards irrespective of their population or their characteristics were also to be deemed as urban. The application of these principles to the conditions obtaining in the State meant a declassification of some towns of 1951 and reclassification of some villages as urban in 1961. In practice, it did present some difficulties, because some places which have definite urban characteristics did not fulfil all the conditions about the population or density. It was, therefore, decided that a detailed investigation of the urban characteristics of each place should be undertaken before a final decision was taken. Some of the places, according to the revised definition would be classified as urban or declassified as rural. A list was sent to all the Tahsildars who were asked to report after personal visit whether the place should be treated as urban or rural. In most of the cases, I personally inspected the places. It was in consultation with the local authorities and on the recommendation of the Collectors that the list of rural and urban areas was finalised. Three hundred and thirty nine places were treated as urban during this Census. Thirty places classified as urban during 1951 Census were deleted and seventy-three new places included. The State Government approved the list of the rural and urban places which was finally adopted as the basis for 1961 Census Operations.

CENSUS DIVISIONS: In a Circular dated 30th June 1960, instructions were issued regarding the formation of Census divisions including special charges, division of each charge into circles and blocks for the purpose of enumeration and appointment of Supervisors and Enumerators who would be engaged in the Census Operations in 1961. District Collectors were in full charge of the Census Operations in the districts under their control. In the City of Madras, the Commissioner, Corporation of Madras was in charge. They were vested with the powers of a District Census Officer and assisted in their work by their Personal Assistants and in the City of Madras by the City Census Officer appointed by the Census Organisation. The Revenue Divisional Officers or Sub-Collectors in charge of divisions controlled Census Operations in their respective divisions. Each district was sub-divided into Census charges; each charge was under an officer designated as the 'Charge Officer'. The Tahsildar was appointed as Charge Officer for all areas within his taluk other than municipalities and special charges. Independent sub-taluks formed separate charges under the control of the Independent Deputy Tahsildar. The municipalities formed separate charges and the Charge Officer was the concerned Municipal Commissioner. The City of Madras formed one charge under the control of the City Census Officer, but it was divided into four circles under the control of the Assistant Revenue Officer who was designated as Charge Officer for his area. In addition to this, Cantonments, Army and Air Force and Naval Establishments which had a separate administration of their own formed special charges. In the case of Cantonments excluding strictly military areas, the Executive Officer of the Cantonment Board became the Charge Officer. Air force, Naval and Army Headquarters whatever be their location constituted separate charges and the Charge Officer was nominated by the Officer Commanding the establishment. It was decided not to form any other special charge besides those indicated above.

BLOCKS AND CIRCLES FORMATION: It was important to ensure that there was a complete coverage of the entire population in the State by dividing the area into viable units *viz.* Census divisions. Each Tahsildar, therefore, prepared a complete list of all the charges in his area in a form giving the code number of local areas within the taluk. This was called charge list and was approved by the Collector. After the charges

were formed, the Charge Officer divided his charge into suitable blocks and circles for the purpose of enumeration. Optimum workload per Enumerator was fixed—750 persons in rural areas and 600 persons in urban. It was left to the discretion of the Charge Officer to delimit the block with definite geographical limits. In the case of seven Class I and eleven Class II municipalities, the National Sample Survey had taken up the preparation of blocks of convenient size and it was decided to adopt the blocks formed by them for the purpose of Census enumeration. Discretion was, however, given to the Charge Officers to vary these blocks if they found it difficult to accept them and wherever the National Sample Survey blocks could not be adopted, the Charge Officers formed their own blocks. Four to six Enumerators were appointed to form a circle. A Supervisor was appointed to be in-charge of each circle. This Supervisor was responsible for houselisting and enumeration in his area. Civil aerodromes, ports, railway stations, railway colonies and other major institutions were treated as separate circles for this purpose. It was the responsibility of each Charge Officer to satisfy himself that the enumeration blocks within his charge were fully accounted for. For this purpose they had to verify the sketch maps of villages and maps with the key list prepared under house numbering scheme.

The special arrangements made during this Census are discussed below :—

OCEAN GOING VESSELS : For the enumeration of ocean going vessels, naval ships and sailing barges, the Port Officers of Madras, Cuddalore, Tuticorin, Nagapattinam, Pamban, Keelakarai and Colachel were appointed as Port Enumerators. They enumerated the naval ships which left their naval base and docked at a particular port during naval exercise or other friendly visits. The passengers and crew of such ocean going vessels plying between Indian ports and foreign ports which touched a port of India on or before the sunrise of 1st March 1961 were enumerated at the first port of call or the next port of call. Regarding the ocean liners touching any port in India after 1st March 1961, the Port Enumerator ascertained whether they have touched any port of India on or before 1st March 1961 and escaped enumeration. If no other Port Officer had issued a certificate of enumeration, he enumerated them. The Port Enumerators enumerated the passengers and crew of all vessels that were in port on 1st March 1961 or were plying between one Indian port and another on 1st March 1961. Vessels which were at sea on 1st March 1961 were enumerated at the first port which they touched after that date. Customs authorities did not issue any clearance certificate to any ship until it was ascertained that the Port Officer had completed the enumeration.

DIPLOMATIC AND CONSULAR MISSIONS : Non-Indian nationals who were members of the staff of the Diplomatic and Consular Missions in India and members of their family stationed at Madras and Tiruchirapalli were excluded from the scope of Census enumeration. The Indian nationals residing in the premises were enumerated. For this, the Charge Officers addressed the Officers of the Embassies and on getting their consent, deputed their Enumerators on the appointed day for the enumeration. Indian nationals who enjoyed diplomatic immunity and foreign nationals who did not enjoy diplomatic immunity were enumerated under the general procedure.

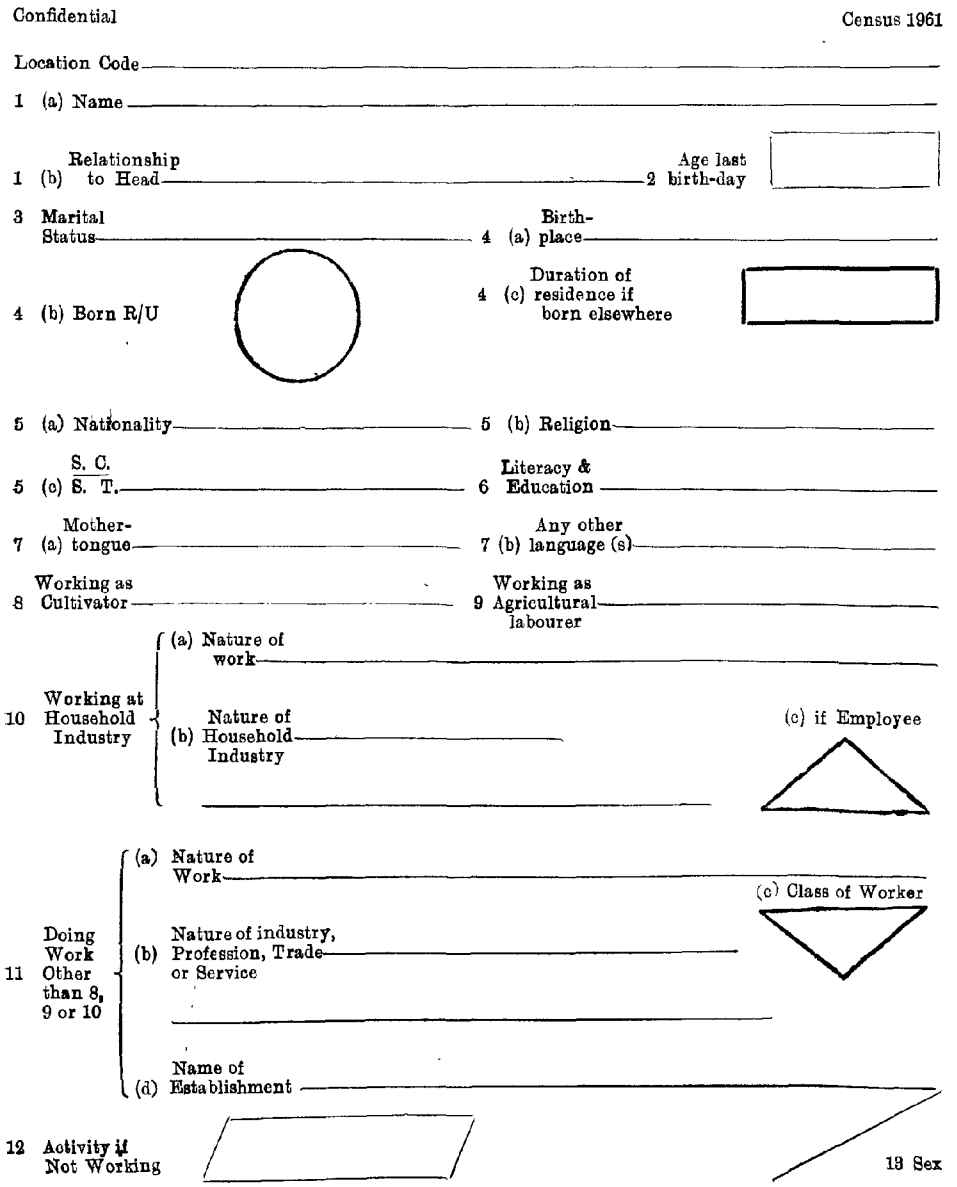

PILGRIMS' SPECIAL : Special arrangements were made to enumerate a pilgrims' special which arrived at Madras—Egmore at 16-20 hours on 28th February 1961 and another at Erode at 21-30 hours on 28th February 1961. Arrangements were also made for the enumeration of a contingent of military troops who camped at Aramboli for collective training from 6th February to 5th March 1961.

GENERAL ENUMERATION : The Census enumeration was spread over a period of 19 days from 10th February to 28th February 1961 (both days inclusive). It was followed by a check-up of five days from 1st March to 5th March 1961. The houseless population was enumerated on the night of 28th February and was completed before the daybreak of 1st March 1961. In Madras City the enumeration of such houseless persons was conducted on the nights of 28th February to 4th March 1961. The Madras Government declared certain areas as special tracts, *i.e.*, those tracts which are hilly in nature, forest or inaccessible. In such tracts, the enumeration of the houseless persons was carried out on the noon of 1st March 1961, in the course of the revisional round done from 1st March to 5th March 1961.

On 6th March 1961 the Enumerators met their Supervisors at some convenient place with all the pads and schedules given to them. The Supervisor verified that each Enumerator had brought all the pads and schedule books given to him. The entries in the enumerator's abstract printed on the front cover of each pad

were verified after actual counting. Then the enumerator's block abstracts were arranged according to the serial number of the blocks. From this, the Supervisor prepared the circle abstract and then handed it over together with the bundle of enumerator's block abstracts to the Charge Officer on the evening of 6th March itself. The Charge Officer compiled the provisional totals of his charge and after consolidating them, sent the figures to the Collectors and to the Superintendent of Census Operations by telegram. The Collector consolidated the figures for his district and sent them to the Superintendent of Census Operations and the Registrar-General, India on 9th March 1961. The figures were also consolidated by the Superintendent of Census Operations, Madras and telegraphed to Registrar-General, India on the 9th itself.

In enumeration schedule (individual slip) were recorded—the details about each individual living in the country. There are 24 questions grouped into 13 main questions for which answers were recorded. The form of the enumeration schedule is given below:—

Brief instructions for filling up the enumeration schedule are given below.

Enumerate all persons normally resident in the household even though some may be absent at the time of your visit provided they left the household on or after 10th February 1961 and in case they left earlier are likely to return before the sunrise of 1st March 1961. Enumerate visitors, if any, after ascertaining that they have not been enumerated elsewhere. Fill up one slip for each individual. Before leaving the household to the next, make sure all persons that are to be enumerated have been enumerated. Then fill up the population record at the back of the household schedule and verify whether the total of persons agrees with the total number of slips used in a particular household. The resident population in the household will be enumerated during the period 10th February to 28th February 1961 (both days inclusive). Revisiting of the household enumerated will be done during 1st to 5th March 1961 when every birth that took place since the last visit but before the sunrise of 1st March would be enumerated. For any death that might have taken place during the last visit upto the sunrise of 1st March 1961 the slip would be cancelled by drawing a bold line across the slip and writing "death" along the line. Any visitor who might have arrived since your visit should also be enumerated taking care to see that the visitor has not been enumerated elsewhere.

Enumerate the head of the household followed by other members of the household in the most convenient order—head, his wife, sons, daughters, other relatives, visitors, servants.

LOCATION CODE :

Write the location code numbers of the district, taluk, town or village given by the Supervisor in between oblique strokes as well as the household number which you are enumerating.

1(a) NAME : Write the name of the person enumerated. For new born babies not yet named, write 'Baby' and write father's or mother's name.

1(b) RELATIONSHIP TO HEAD OF THE HOUSEHOLD : In the case of the head of the household write 'Head'. In all other cases, write the relationship in full. Do not use words 'nephew', 'niece' or 'uncle', but write brother's or sister's son or daughter (for nephew or niece) or father's brother or mother's brother for uncle. In case of visitors, boarders, servants, write as such.

2. AGE LAST BIRTH-DAY : Write the age in years completed last birth-day within the rectangle. For infants below one year, write 'O'.

3. MARITAL STATUS : Write 'NM' for bachelors and maidens, 'M' for married persons, 'W' for widows and widowers and 'S' for separated persons and divorced persons.

4 (a) BIRTH-PLACE : Write 'PL' for persons born at the place of enumeration. Write 'D' for persons born in another place in the district of enumeration. Write the name of the district if born in the State in which enumerated and write the name of the district and State if born in another State in India. For persons born in another country, write the name of the country.

4 (b) BORN R/U : Write 'R' if born in a village and 'U' for persons born in a place considered now as town within the circle.

4 (c) DURATION OF RESIDENCE : Write 'X' in case of persons born at the same place of enumeration. Write 'O' in case residence is less than one year. In respect of others, write the completed number of years since coming to the place of enumeration. Write the answer within the dotted rectangle.

5(a) NATIONALITY : For Indians, write 'I'. For all others write the nationality in full.

5(b) RELIGION : Write 'H' for Hindus, 'M' for Muslims, 'C' for Christians, 'S' for Sikhs, 'J' for Jains, 'B' for Buddhists. For others write in full the name of the religion to which they belong.

5 (c) S.C./S.T. This question will apply only to persons belonging to Scheduled Castes or Scheduled Tribes. Write the name of the Scheduled Caste or Scheduled Tribe as reported if the person enumerated belongs to any of the castes mentioned in the list of Scheduled Castes and Scheduled Tribes relating to the State or district. Scheduled Castes will be found only in Hindu and Sikh religions while Scheduled Tribes may belong to any

religion. If a person enumerated describes himself by a generic or a synonymous name of a Caste or Tribe, write in addition the name of the relevant Caste or Tribe as per list within brackets.

6. LITERACY AND EDUCATION: For a person who can neither read nor write or can merely read, write 'O'. Write 'L' for a person who can both read and write (literate). The test for literacy is satisfied if the person can with understanding both read and write a simple letter. In the case of persons who have passed a written examination, write the highest examination passed instead of 'L'.

7(a) MOTHER - TONGUE: Mother tongue is the language spoken by a person in early childhood. Write in full the name of the language including dialects returned by the person enumerated to be his mother-tongue. In the case of infants and deaf mutes write the language spoken by the mother as the mother-tongue of the infant or deaf mute.

7(b) ANY OTHER LANGUAGE(S): On enquiry if a person knows any other language(s)—Indian or Foreign—write the language (other than his mother-tongue) which he speaks and understands best and can use with facility in communicating with others. Not more than two languages can be recorded against this question. Those languages should not include dialects of the same language. If a person does not know any other language except his mother-tongue, write 'X'.

Questions 8 to 11 apply only to workers—cultivator, agricultural labourer, workers at household industry or any other worker. A person may be engaged in more than one kind of work. A person who is both a cultivator and agricultural labourer should be entered both in Questions 8 and 9 while a person working as cultivator and at household industry will be entered in Questions 8 and 10. A person may be working in any possible combination of 8, 9, 10 and 11 in which case he will be entered in the appropriate places. Under-trial prisoners and persons who are temporarily staying in hospitals should be treated as workers and the work they were doing before coming into the jail or hospital should be recorded. For convicts and permanent inmates of asylums the work done by them before should not be recorded here.

Work includes not only actual work but effective supervision and direction of work. Apprentices, paid or unpaid, should be treated as workers. An adult woman doing only household duties but no other productive work to augment the family's resources should not be regarded as working. Beggars, pensioners, agricultural or non-agricultural royalty, rent or dividend receivers should not be treated as working. Social service workers or political workers actively engaged in public social service activity or in furthering the political activity of their parties will be regarded as workers and entered in Question 11.

8. WORKING AS CULTIVATOR: For a person working as cultivator write 'C'. For non-cultivators write 'X'. A person working as employer, single worker or family worker in cultivation, direction or supervision of land (owned or held) will be treated as working as cultivator. Persons engaged in cultivation, supervision or direction of cultivation of orchards, groves and plantations will not come under this question.

9. WORKING AS AGRICULTURAL LABOURER: Write 'A.L.' for a person working as agricultural labourer. Write 'X' for others. Agricultural labourer will not hold any right or contract or lease on land on which he works.

10 (a), (b) & (c) HOUSEHOLD INDUSTRY: See the description of the household industry and the instructions regarding the fulfilment of the conditions of household industry given in the 'household schedule'. Write the nature of work done by a person in the household industry against Question 10 (a) and the nature of the household industry—name of industry in detail with the names of articles produced or processed or repaired or serviced against Question 10 (b). If the person is not engaged in household industry, write 'X' in both the questions—Questions 10 (a) and (b).

10 (c) IF EMPLOYEE IN HOUSEHOLD INDUSTRY: The question will be filled in only for a person who is working as a paid employee in another person's household industry. Write in such cases 'EE'. For all others write 'X'.

11. DOING WORK OTHER THAN 8, 9 or 10: This question will not apply to persons working only as cultivator or as agricultural labourer or at any household industry. If a person is doing any work in addition to the three items mentioned above or if he is not working in any of the categories—cultivator, agricultural

labourer or household industry, the details of the work he is doing will be recorded here. If a person is engaged in more than one work, that for which he devotes more time will be recorded.

11 (a) NATURE OF WORK: Write the actual work done by the person concerned. If the person is not working, put 'X'.

11 (b) NATURE OF INDUSTRY, PROFESSION, TRADE OR SERVICE: Write here in detail the nature of industry, business, trade, profession or service in which the person works. The nature of industry should describe the articles produced or serviced or repaired. In the case of business or trade, the principal article of trade should be described. In the case of service, the nature of service to which the person belongs should be described. Write 'Service of Central Government' for persons engaged in Defence Services. Put 'X' in the case of persons for whom 'X' is put against Question 11 (a).

11 (c) CLASS OF WORKER: Write 'MR' for employer, 'EE' for employee, 'SW' for single worker and 'FW' for family worker. For all those persons for whom 'X' is put in Questions 11 (a) and 11 (b) put 'X' against this question also.

11 (d) NAME OF ESTABLISHMENT: Describe in detail the nature of the factory, workshop, business house, company, shop etc.

After having collected the answers to Questions 8–11, if a person is found to have more than one productive activity, he should be asked which one of them is his principal work. Put a ring round the number of question 8, 9, 10, 11 to indicate his answer. If two items of work are recorded and one has been shown as principal work by circling the question number against which the principal work is recorded, the other work recorded in any of the other questions 8 to 11 should be treated as his secondary occupation. It should be indicated by a tick mark on the right hand side of the question number. But if more than two productive activities are recorded, the work which is next in importance to his principal work should be ascertained and a tick mark placed against it.

12. ACTIVITY IF NOT WORKING: This question will apply to a person not working. Write 'X' against this question for whom details of work have been recorded in any of the questions 8–11.

(1) Write 'ST' for a full time student.

(2) Write 'HW' for a person engaged in unpaid household duties.

(3) Write 'D' for any dependent (including an infant or child not attending school or a person permanently disabled from doing any work because of illness or old age.)

(4) Write 'R' for retired persons not employed again, receivers of rent, receivers of agricultural or non-agricultural royalty or dividend and persons in receipt of income from sources at which he does not work.

(5) Write 'B' for a beggar, vagrant or independent woman without indication of sources of income and others of unspecified sources of existence.

(6) Write 'I' for convicts, inmates of penal, mental, or charitable institutions.

(7) Write 'NE' for persons not employed before and seeking employment for the first time.

(8) Write 'UN' for persons employed previously but now out of employment and seeking one.

If a person who does not work cannot be readily classified in any of the categories, put him in category 5 and write 'B'. A person who has been apppointed but not yet joined should be shown under category 3 above.

13. SEX: Write 'M' for males including eunuchs and hermaphrodites. Write 'F' for females.

HOUSEHOLD SCHEDULE

Information about household cultivation and household industry will be recorded in the household schedule. The household schedule should be filled in immediately after the individuals of a household are enumerated during the period 10th February to 28th February 1961 and before the Enumerator leaves the household for visiting the next household. There are three sub-parts in the household schedule—Sub-Part A relating to cultivation, Sub-Part B relating to household industry and Sub-Part C relating to workers at cultivation or household ndustry.

The form of the household schedule is given below :

CONFIDENTIAL

CENSUS OF INDIA 1961

(To be filled up during Enumeration)

Is this an institution ?

PART I—HOUSEHOLD SCHEDULE

LOCATION CODE : _____

Full Name of Head of Household _____ S. C. / S. T

A. CULTIVATION	Local name of right on land	Area in acres
1. Land under cultivation by Household (i) owned or held from Government		
(ii) held from private persons or institutions for payment in money, kind or share		
(iii) Total of items (i) and (ii)		
2. Land given to private persons for cultivation for payment in money, kind or share		

B. HOUSEHOLD INDUSTRY	Nature of Industry		Number of months in the year during which conducted
Household industry (not on the scale of registered factory) conducted by the Head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. (a)			
(b)			

C. WORKERS AT CULTIVATION OR HOUSEHOLD INDUSTRY

Members including Head of family working and hired workers, if any, kept whole-time during current or last working season.	Members of family working: Head	Other males	Other females	Total	Hired workers
1. Household Cultivation only					
2. Household Industry only					
3. Both in Household Cultivation and Household Industry					

Dated Signature of Supervisor

Dated Signature of Enumerator

Note: Part II—Census Population Record overleaf should be filled up during the first round of enumeration (10 February to 28 February) from the enumeration slips relating to the household and brought up-to-date with corrections, if any, after the second visit during check period 1 March to 5 March 1961.

BRIEF INSTRUCTIONS FOR FILLING UP THE HOUSEHOLD SCHEDULE.

LOCATION CODE : The Code number indicating the district number, taluk number, village or town number as well as the household number for which the schedule is prepared should be entered in between oblique strokes.

IS THIS AN INSTITUTION : In the rectangular space provided the nature of institution such as penal, charitable or mental institution, hostel, hotel, hospital, etc., should be entered as jail, choultry, hospital etc.

FULL NAME OF THE HEAD OF THE HOUSEHOLD : The head of the household is a person on whom falls the chief responsibility for the maintenance of the household.

Institutions, catering houses, boarding houses, etc. are also 'households' where unrelated persons live together. In such cases, the name of the Manager or the person who is in administrative charge of such places or a person who is regarded as 'head' should be entered.

SCHEDULED CASTES/SCHEDULED TRIBES : If the head of the household is a member of a Scheduled Caste or a Scheduled Tribe in the State or in your district, the letters 'S.C.' or 'S.T.' should be written as the case may be within the parallelogram and 'X' written in all other cases.

Sub-part 'A' relating to cultivation should be filled in where the household cultivates land. Land includes all land normally used for cultivation purposes including temporary fallows. There are three categories, *viz.* 1(i) and 1(ii) and 2 described in the schedule. 1(i) and 1(ii) will include only those plots or parcels of land which are cultivated by the household itself, *i.e.* lands which lie within the village or in adjacent villages or within such a distance as will enable the household to work on and supervise the land actively. 1(i) will include all land owned or held in owner-like possession (*e.g.*) land held under grant, lease or assignment with permanent and heritable possession with or without the right of transfer. 1(ii) will include those lands taken from private persons or institutions with permanent and heritable possession with or without the right of transfer or held in a variety of tenures or tenancies and lands taken for payment of fixed amount of money or fixed amount of produce or for a share in the produce or both for payment of money and produce.

CATEGORY 2 : Land given to private persons for cultivation for payment in money, kind or share will include the classifications mentioned in Category 1(ii).

In all these cases, the total of separate plots or parcels of land converted into acres under each kind of local name of right on land should be entered in the columns provided for. A separate line should be used for each kind of right on land.

Sub-part B relates to household industry. The definition of household industry has been given in the schedule itself. It is essential that the household industry should include manufacture or processing or servicing or repairing and also making and selling but not simple buying and selling.

Household industry can use machinery and employ power like steam or oil or electricity to drive the machinery. Dyeing, printing of cloth, bidi making, dolls making etc., are a few examples of household industry.

It should be ascertained from the head of the household whether any household industry is conducted and if so, write the nature of the industry in the space provided for. Enquiries should be made next as to how many months the industry is conducted in a year and write it in the column intended for it. If there are more than one industry, space is provided to record at least two such industries. If there is no household industry, put 'X' in each of the places in the right hand corner and put a bold cross on this sub-part.

SUB-PART C - WORKERS AT CULTIVATION OR HOUSEHOLD INDUSTRY :

Three categories are given in the schedule. Either one of these categories will be applicable to a household. Put 'X' in the other two categories which do not apply to the household. It should be ascertained whether the head of the household is working and if so, the figure '1' should be entered under the column 'head'. The number of males and females working should be ascertained and the total number of males and females entered in the respective columns.

The number of hired workers engaged during the last working season or current working season should be ascertained and the total number of hired workers entered in the column provided for. In the case of an household which is engaged both in cultivation and household industry, there will be no necessity to enter figures for cultivation and household industry separately.

CENSUS POPULATION RECORD

The Census Population Record is a modified form of National Register of Citizens prepared in 1951. It is printed at the back of the household schedule and is to be filled in with reference to the particulars in the individual enumeration slips relating to all households enumerated each day during the period 10th February to 28th February 1961. It is to be brought up-to-date during the revisional round (1st March to 5th March 1961) after correcting it with reference to changes on account of births, deaths and fresh visits occurring upto sunrise of 1st March 1961.

The form of the Census Population Record is given below:

PART II—CENSUS POPULATION RECORD
(To be compiled from individual Census Slips)

Name	Sex		Relationship to Head	Age	Marital Status	Description of work in the case of worker
	Male — M	Female — F				
Total Persons						

Dated Signature of Supervisor

Dated Signature of Enumerator

The above form (printed on page 11) should be filled up with reference to the answers recorded against Questions 1(a), 1(b), 2,3, 8 to 11 and 13 of the individual slip as shown below:

NAME: The name recorded against Question 1(a) in the individual slip to be entered.

SEX: The answer written against Question 13 in the individual slip to be entered.

RELATIONSHIP TO HEAD: The particulars in the individual slip against Question 1(b) to be entered.

AGE: The answer recorded against Question 2 in the individual slip to be entered.

MARITAL STATUS: The answer recorded against Question 3 in the individual slip to be entered.

DESCRIPTION OF WORK IN THE CASE OF WORKER: A brief description of work in the case of a worker (a gist of the answers recorded against Questions 8 to 11 on the individual slip) to be entered.

All the individual slips relating to the household should be completed first and the number of males and females entered in the appropriate column. The total figures for males and females should be entered in the space provided against "Total Persons".

HOUSELIST

The object of filling up the houselist form is to gather particulars and conditions of houses, factories, workshops etc., in the State, the products made or serviced, number of persons employed, kind of fuel or power used in the factory or workshop and the material used in the construction of the house (walls and roof). The number of persons living in the household as well as the rooms occupied by them will also be collected. The form of Houselist is at page 14.

COLUMN 1: This denotes the serial number of the entries.

COLUMN 2: Write the number painted on the door or wall of the building. This is the number given to the building by the municipality, panchayat or the village karnam.

COLUMN 3: Every building with a separate main entrance has to be treated as a distinct house for Census purposes. In the majority of houses there will be only one Census house for each building, especially in rural areas. In those cases repeat the entry against Column 2 in Column 3 also. In other cases a building may contain more than one Census house. Give a sub-number to each Census house into which a main building can be divided according to the definition indicated above. The details to follow will relate to each Census house and not the entire building.

COLUMN 4: Write the actual use to which a Census house is put as detailed in the column provided like hospital, factory, school, hostel etc.

COLUMN 5: Write the name of establishments in case of big registered companies or large manufacturing concerns. Write the name of proprietor in other cases.

COLUMN 6: Enter the actual work that is being done, *e.g.* paper making, shoe making or repairing, cycle repairing, motor servicing, sweetmeat making, furniture mart etc.

COLUMN 7: Write the average number of workers employed daily during last week.

COLUMN 8: In the factory or workshop if machinery is employed for production or repair, write the fuel or power used to drive the machinery, *i.e.*, kerosene, soft coke, coal, gas, electricity, steam etc.

If a Census house is not used as an establishment, workshop or factory, put 'X' in columns 5 to 8 of the form.

COLUMNS 9 AND 10—DESCRIPTION OF THE CENSUS HOUSE:

COLUMN 9: Write the material out of which most of the walls of the house are made, *e.g.* grass, leaves, reeds, bamboos, mud, unburnt bricks or burnt bricks, stone, cement concrete, timber etc.

COLUMN 10 : Write the material out of which most of the roofs (not ceilings) are made, *e.g.* tiles, thatch, corrugated iron or zinc or asbestos sheets, concrete etc.

NOTE : In the case of multi-storeyed buildings, intermediate floors or walls will be deemed to be independent roofs and walls for the house concerned.

COLUMN 11: If more than a household resides in a Census house, then enter the sub-number of Census house recorded in Column 3 and then assign alphabetical sub-numbers for each of the household like A, B etc.

COLUMN 12: Write the name of the head of the household who is commonly acknowledged as such.

COLUMN 13: Write the number of rooms occupied by each household.

COLUMN 14: If a household is living in its own house, write 'O'. If living in a rental house, write 'R'. In case of public buildings like schools, hospitals etc., or places of worship, write 'X'.

COLUMNS 15—17: Write the number of persons residing in the household on the day of visit with sex break-up. A person who is temporarily absent for a few hours should be treated as residing.

COLUMN 18:—If a building is vacant and there is reason to believe that it would be shortly occupied before enumeration, write 'likely to be occupied shortly'. This column should be utilised for recording all significant information relating to the building or Census house or Census household.

NOTE: In the case of households occupied by members of Scheduled Castes or Scheduled Tribes, indicate it by writing 'S.C.' or 'S.T'. as the case may be in the 'Remarks' column.

CENSUS OF INDIA, 1961

BLOCK MAPS:

Block Maps are attached to the connected houselists. One copy is preserved in the office of the Charge Officer along with the houselist. The other is sent to the office of the Superintendent of Census Operations. It is detatched from the houselist and arranged in the order of location code numbers for each taluk and stitched together and preserved as a permanent record. The arrangement prescribed for the preservation of houselists is as follows. Two sets of houselists were prepared by Charge Officers, and one was transferred to the office of the Superintendent of Census Operations for tabulation and preparation of tables. Five tables were prepared and the houselists arranged according to the blocks in urban areas and location code numbers in rural areas and are preserved in the record room of the office of the Superintendent of Census Operations. The other set is stored in the record room of the Charge Officers pending decision on their final disposal. The household schedule-cum-Census population record was prepared for each household. They have been transferred to the office of the Superintendent of Census Operations for safe custody. 20% of the household schedule-cum-Census population record have been selected on sampling basis and sent to Central Tabulation Office, New Delhi for tabulation of data relating to households and Census population record. After their tabulation is completed, they will be replaced in their original places and preserved in the Office of the Superintendent of Census Operations.

The unique features of 1961 Census are listed below:—

1. BLOCK MAPS:

At the time of houselisting, the Enumerators prepared a map of the block covered by them furnishing the topographical details and indicating the sequence of house numbering. Important landmarks such as temples, churches, mosques, schools and lanes were also indicated. Two copies were prepared, one of which was sent along with the houselist to the office of the Superintendent of Census Operations where it has been preserved and the other has been retained by the Charge Officers.

2. UNIFORM HOUSELISTS AND HOUSING TABLES:

The concept of uniform houselists and Housing Tables was evolved to study the housing pattern. It was decided to collect the necessary particulars at the time of houselisting when all the houses were listed. Information regarding the type of establishment and the number of persons, employed therein, the number of rooms along with the number of persons living in them, were collected. Five tables were prepared from this data. They are: (1) Census houses and the uses to which they are put (2) Census households classified by tenure status, (3) Census houses used as workshops and factories classified by industry, power used and size of employment, (4) Distribution of Census houses used wholly or partly as dwellings by wall and roof materials, (5) Houses classified by number of members and by number of rooms occupied. These tables were finalised by Registrar-General in consultation with the National Building Organisation. Of these tables, tables 1 and 3 were prepared on full count and others on 20% sample. The houselist will also serve as a suitable frame for the selection of samples for future surveys.

3. HOUSEHOLD SCHEDULE AND CENSUS POPULATION RECORD:

Apart from the collection of information relating to each individual, an attempt was made to study two chief economic activities of the household, *viz.* cultivation and household industry. Information was collected as to whether the household was engaged in cultivation or household industry or both. Also on the back of the Census household schedule is the Census population record providing information for each individual enumerated in the household such as name, sex, relationship to head of the household, age marital status and description of work in the case of workers. This information if brought up-to-date by periodical revision will provide a useful document and serve as a basis for selection of samples for future surveys. This is a modified form of the National Register of Citizens prepared during 1951 Census. Information contained in household schedule has been mechanically tabulated on a 20% sample basis at Central Tabulation Office, New Delhi and eight tables prepared.

4. B SERIES TABLES:

A detailed classification of workers in non-agricultural sector has been attempted and furnished in B Series Tables. They have been classified into seven categories including household industry, the categories being mining, quarrying, livestock, forestry; household industry; manufacturing other than household industry; construction; trade and commerce; transport storage and communications; and other services. The following tables have been prepared—B-I to B-IX. Industrial and occupational classification is distinct from livelihood classification.

In earlier Censuses, income or economic independence was made a criterion for measuring the economy of the country. This took into account all persons who are economically independent and for those who are not economically independent an intermediate category of semi-independent was introduced in 1931. This category was called working dependent in 1931, partly dependent in 1941 and earning dependent in 1951. But in 1961, emphasis was laid both on people and work. Family workers who are in receipt of no income and working children who cannot earn enough for their maintenance are also treated as workers. Information on workers engaged in more than one type of work was also collected. Two types of information are available—the nature of the industry with the persons working, and the exact occupation or the nature of work. The former provides an important information—the total number of persons engaged in different industrial units. The second type of classification will reveal the total number of persons engaged in each occupation, for instance, weaving, carpentry, goldsmithy, etc. The United Nations classification of industrial and occupational unit as modified and adopted by the Director-General of Labour and Employment, India, has been taken as the basis. Industrial activity has been divided into 9 broad divisions which have been further sub-divided into 45 major groups and 343 minor groups. Similarly occupational pattern has been classified into 331 categories. In 1951, Indian Census classification was neither purely industrial nor occupational, but only a combination of both. There were 10 divisions and 88 sub-divisions of industries and services.

5. MIGRATION: In the past, Migration Table indicated the total number of migrants from one State to another. A new table was devised for 1961 based on the question on duration of residence at the place of enumeration of persons born outside the place of enumeration. This period of residence is grouped under six categories:

(1) Less than one year; (2) 1—5 years; (3) 6—10 years; (4) 11—15 years; (5) 16 years and over; and (6) Period not stated

This table is intended to supplement the information furnished by the table relating to birth-place and will help in a detailed study of migration. Data has also been tabulated inter-district which will throw light on the growth of population in the districts of the State. Two tables have been prepared specially for this purpose, classified by type of occupation and educational standard. It will highlight the occupation which attracts migrants to cities and educational standard will give the number of skilled and unskilled workers who have migrated to the cities.

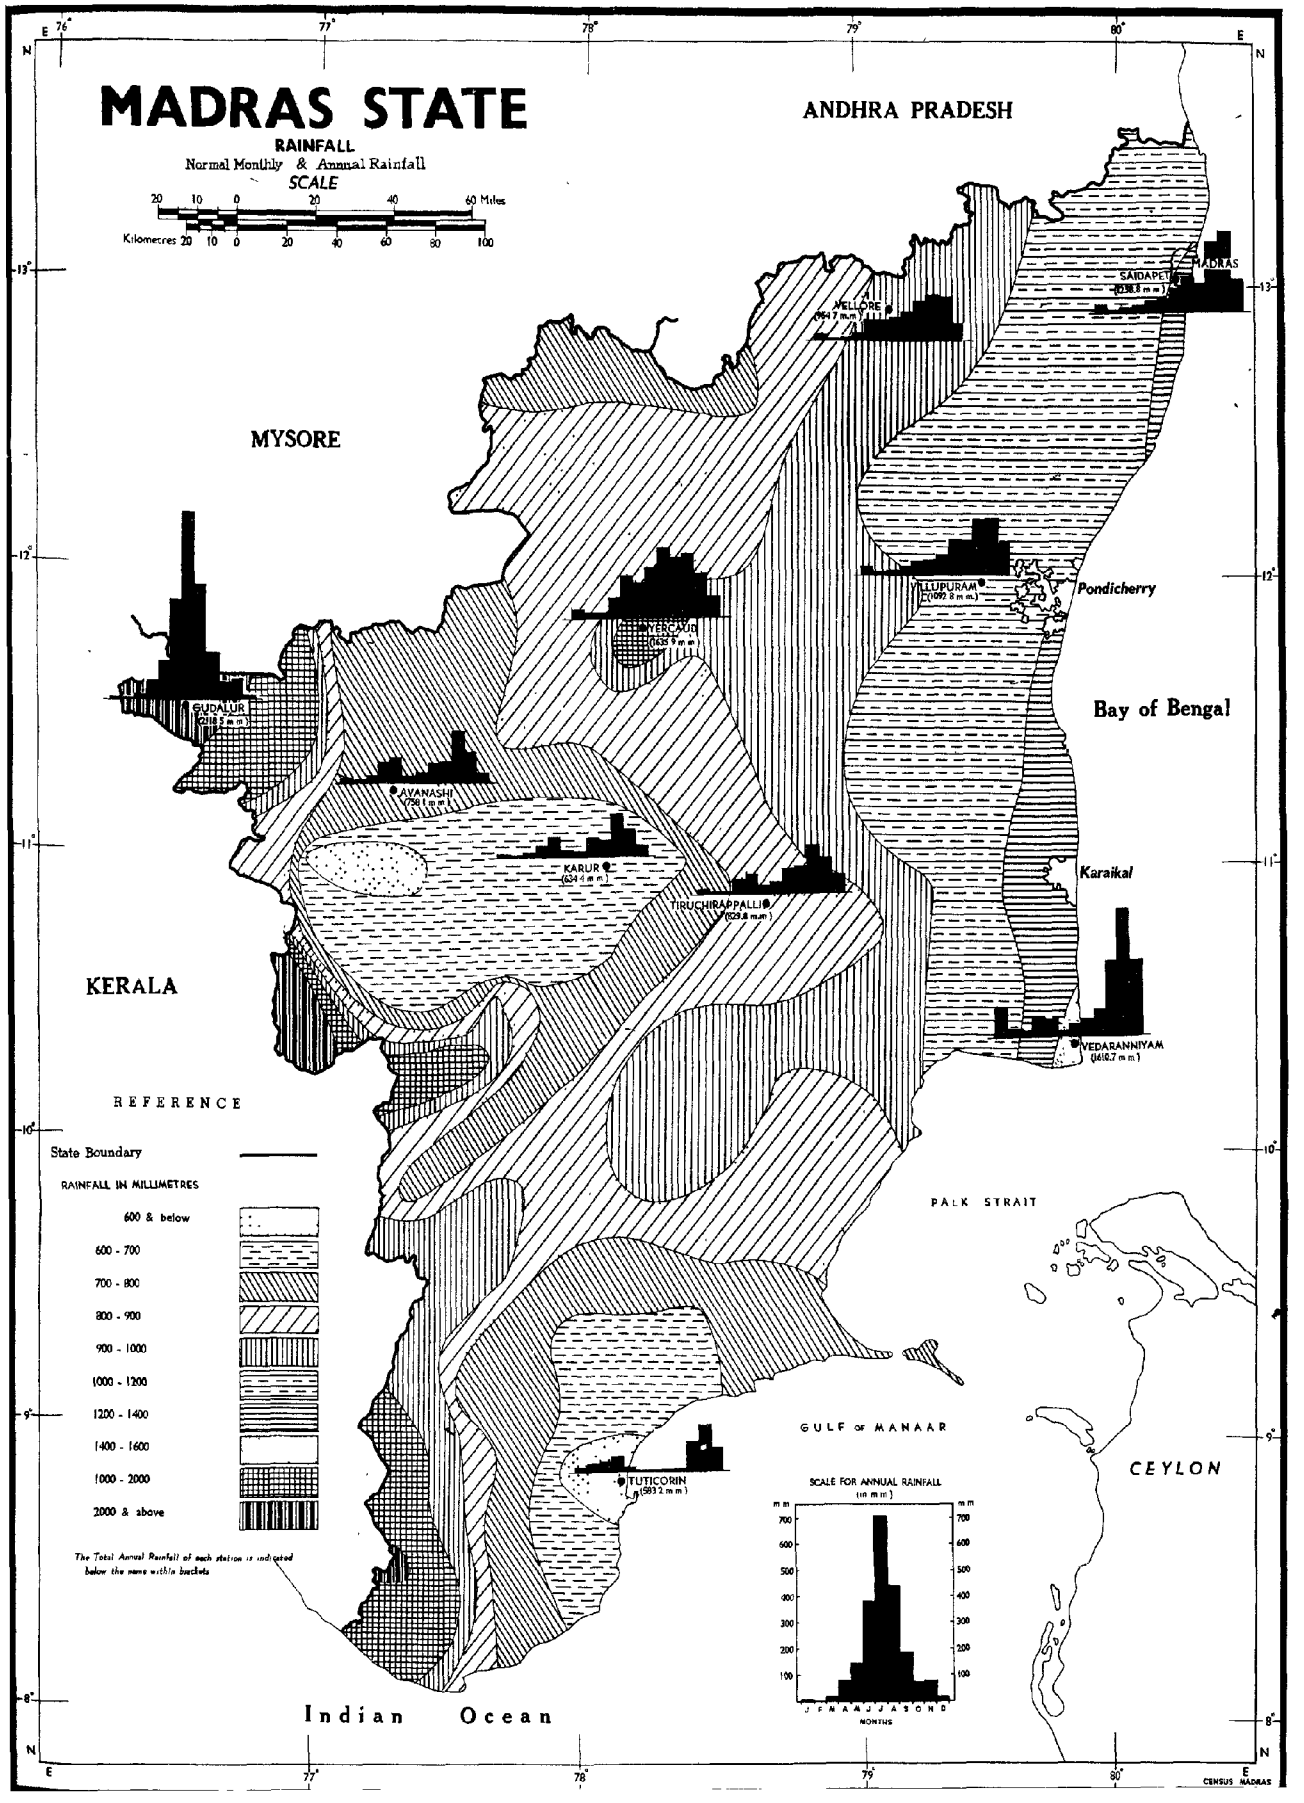

6. TABLES FOR SCHEDULED CASTES AND SCHEDULED TRIBES: In the 1951 Census there were no special tables for Scheduled Castes and Scheduled Tribes. Only their total number was furnished. Information regarding each caste or tribe was not available. Special tables have, therefore, been devised to furnish population figures for each Scheduled Caste and Scheduled Tribe. They are supplemented by additional information relating to religion, age, marital status and education. A special table indicating the type and activity of non-workers classified by educational level has also been prepared.

7. AGE CLASSIFICATION: Classification of age is recommended by United Nations Organisation for population Census and is adopted for the age tables and the Tables-economic, social and cultural-are prepared by broad age groups 0-14, 15-34, 35-59 and 60 and over. In order to prepare life tables, a single year age table has been prepared on full count.

8. EDUCATIONAL QUALIFICATION: The educational standard has been classified as follows: Primary or Junior Basic, Matriculation or Higher Secondary, Diploma equal to degree, Diploma not equal to degree, University degree or diploma equal to degree or post-graduate course.

9. CLASSIFICATION OF NON-WORKERS: The non-workers were not separately categorised in 1951. In this Census they have been divided into eight broad categories:

(1) Full time students or children attending school who do no other work.
(2) Housewives and persons engaged in unpaid home duties.
(3) Infants and other dependents including permanently disabled or all old persons.
(4) Retired persons, rentiers and others who are in receipt of income without doing any work.
(5) Beggars, vagrants and others of unspecified source of existence.
(6) Inmates in jail or inmates of penal, mental or charitable Institutions.
(7) Persons not employed before but seeking employment for the first time.
(8) Persons employed before but now out of employment and seeking employment.

UNION TABLE A-I

Area, Houses and Population

A I—FLY LEAF—I

CHANGES IN AREA OF STATE AND DISTRICTS FROM 1901 TO 1961

In 1901 Madras had an area of 1,41,705 sq. miles and a population of 3,88,23,066. The State was divided into 22 districts, the largest being Visakhapatnam with an area of 17,222 sq. miles and the smallest the Madras Corporation with an area of 27 sq. miles.

2. During the decade 1901–1911 the area of the State increased to 1,42,330 sq. miles by the transfer of Nugur taluk from Central Provinces. This taluk was added to the district of Godavari Agency Division. In addition to this, modifications in the internal administrative structure were considerable. 22 districts of 1901 were reformed into 25. Guntur district was formed by a shuffling of the boundaries of Krishna, Godavari and Nellore. The Madurai district divided itself into Madurai and Ramnad while North Arcot was split into two districts—North Arcot and Chittoor.

3. During 1911–1921, the area of Madras State did not undergo any change. The principal change in the boundary of the district was the separation of agency tracts of Ganjam, Vizag and Godavari and the formation of a separate administrative unit called Agency Division. The taluk of Namakkal which in 1910 was transferred from Salem district to Trichy was retransferred to Salem. New taluks were formed in Ganjam, Krishna, Chingleput, Salem, Trichy and South Kanara which resulted in revision of boundaries of adjacent taluks.

4. The State boundary did not change during the decade 1921–1931. But the agency divisions formed in 1921 were reabsorbed in the three districts of Ganjam, Vizag and Godavari. The old Krishna district was split into two in 1925—Krishna and West Godavari. Changes also occurred in the boundaries of Chittoor, North Arcot, Coimbatore and Salem by the transfer to Chittoor of the Kuppam from North Arcot and to Salem-Mettur areas from Coimbatore (Kuppam 305 sq. miles) and Coimbatore (Mettur areas 137 sq. miles).

5. During the decade 1931–1941 the area of Madras State changed from 1,42,277 sq. miles in 1931 to 1,26,166 sq. miles in 1941. This was the result of the formation of Orissa State on 1st April 1936. The following areas were transferred from Madras to Orissa.

1. The Ganjam Agency Tracts.
2. The following areas in the non-agency portion of the Ganjam district, *viz.* taluks of Ghumsur, Aska, Surada, Kodala and Chatrapur.
3. The following areas in Vizag district *viz.* Jeypore (impartible) estate and so much of the Pottangi taluk as was not included in that estate.

6. During 1951, the area of Madras State increased to 1,27,790 sq. miles. The merger of the Native States of Pudukottai, Banganapalli and Sandur in 1948 added 1,602 sq. miles. The balance of 22 sq. miles was due to the exchange of enclaves and to the adoption of the revised figures furnished by the Surveyor-General of India. The changes are indicated below:

1. SOUTH KANARA DISTRICT: Hebbige, Nagodi and Kotishirur village.	Transferred to Mysore State.
2. ANANTAPUR DISTRICT: Kanajanahalli, Sarjammanahalli, Kotagarlahalli, and Tsautikuntapalli villages.	
3. SALEM DISTRICT Morasur, Madivalam, Ettakodi, Araleri, Rayasandiram and Tholakanapalli villages.	
4. MALABAR DISTRICT: Portion of Vadavannur Amsom, Peruvemba, Palathulu, Panyur, Koodalur, Elavancherri, Elapully and Thenari villages.	Transferred to the United States of Travancore - Cochin.
5. TIRUNELVELI DISTRICT: Anjengo, Thangasseri and a portion of Panagudi village.	
6. KRISHNA DISTRICT: Linagagiri, Sarvavaram, Kalavapalli, Lakkavaram, Amaravaram, Ganagalanda, Molugumada, Rompimalla and Mallavaram villages.	Transferred to Hyderabad State.

The following enclaves were absorbed in Madras State from other States:—

1. MYSORE STATE: Varadikoppa, Bayappa Reddihalli, Jodi Volgala Koppa, Kayamgattaharakehinnapalli, Gallahalli, Hosepeta and Chinnaradoddi villages.	Absorbed in Chittoor district.
2. MYSORE STATE: Jodikasinayakanahalli, Gowripura, Jodibommanahalli, Hommagatta, Sarvainam, Obalapuram, Devarabuddenahalli villages.	Absorbed in Bellary district.
3. MYSORE STATE: Koladasanapura village.	Absorbed in Salem district.
4. MYSORE STATE: Badagalpur village.	Absorbed in Coimbatore district.
5. UNITED STATES OF TRAVANCORE-COCHIN: Portions of Chittoor, Nallipulli, Tatamangalam and Vallangi villages.	Absorbed in Malabar district.
6. HYDERABAD STATE: Kodavatikallu, Ustepalli, Partala, Gani Atkur, Mogulur, Battinapadu, Ganugupadu, Boravancha Mallavalli and Pullapadu villages.	Absorbed in Krishna district.

Visakhapatnam was bifurcated into two districts—Srikakulam and Visakhapatnam in 1950. The Polavaram taluk was transferred from East Godavari to West Godavari.

6. During the decade 1951–1961 the Madras State recorded an appreciable fall in area, *i.e.*, from 1,27,790 in 1951 to 50,331 in 1961. This was caused by three enactments of the Parliament of India. (1) Andhra State Act of 1953, (2) States Reorganisation Act of 1956 and (3) Andhra Pradesh and Madras Alteration of Boundaries Act of 1959 based on Pataskar Award. In October 1953, Andhra State was formed by the transfer of the following districts from Madras. Srikakulam, Visakhapatnam, East Godavari, West Godavari, Krishna, Guntur, Nellore, Anantapur, Cuddapah, Kurnool, Chittoor and three Taluks of Bellary. The rest of Bellary was transferred to Mysore State on 1st October 1953. Madras lost 67,608 sq. miles. The States Reorganisation of 1956 involved the transfer of Malabar and Kasargode taluk of South Kanara district to Kerala State, and South Kanara district except Kasargode taluk and Kollegal taluk of Coimbatore district to Mysore. As against this, Agastheeswaram, Thovala, Kalkulam and Vilavancode taluks of Trivandrum district of Travancore-Cochin State were constituted as Kanyakumari district and transferred to Madras, and Shencottah taluk of Quilon district of Travancore–Cochin State except Aryankavu, Idappalayam and Kazhuthayurutti villages of Puliyara Pakuthy, Achancoil village of Achamputhur Pakuthy and a portion of Shencottah Pakuthy with a population of 20 was transferred to Madras State and became part of Tirunelveli district as Shencottah taluk. The resultant loss in area was 10,249 sq. miles.

7. In 1959 Andhra Pradesh and Madras Alteration of Boundaries Act was passed by the Parliament of India. It resulted in the transfer of Tiruttani taluk from Andhra Pradesh to Madras to form part of Chingleput. It also involved the mutual transfer of border villages between the States of Andhra Pradesh and Madras based on language. The net addition to the State was as follows: Chingleput district—94·51 sq. miles, North Arcot district 36·88 sq. miles. The area of Salem was reduced by 0·20 sq. miles. Thus the Madras State had a net addition of 131·19 sq. miles of area as a result of the implementation of Pataskar Award.

A.I—FLY LEAF—II

EFFECT OF STATES REORGANISATION IN 1956.

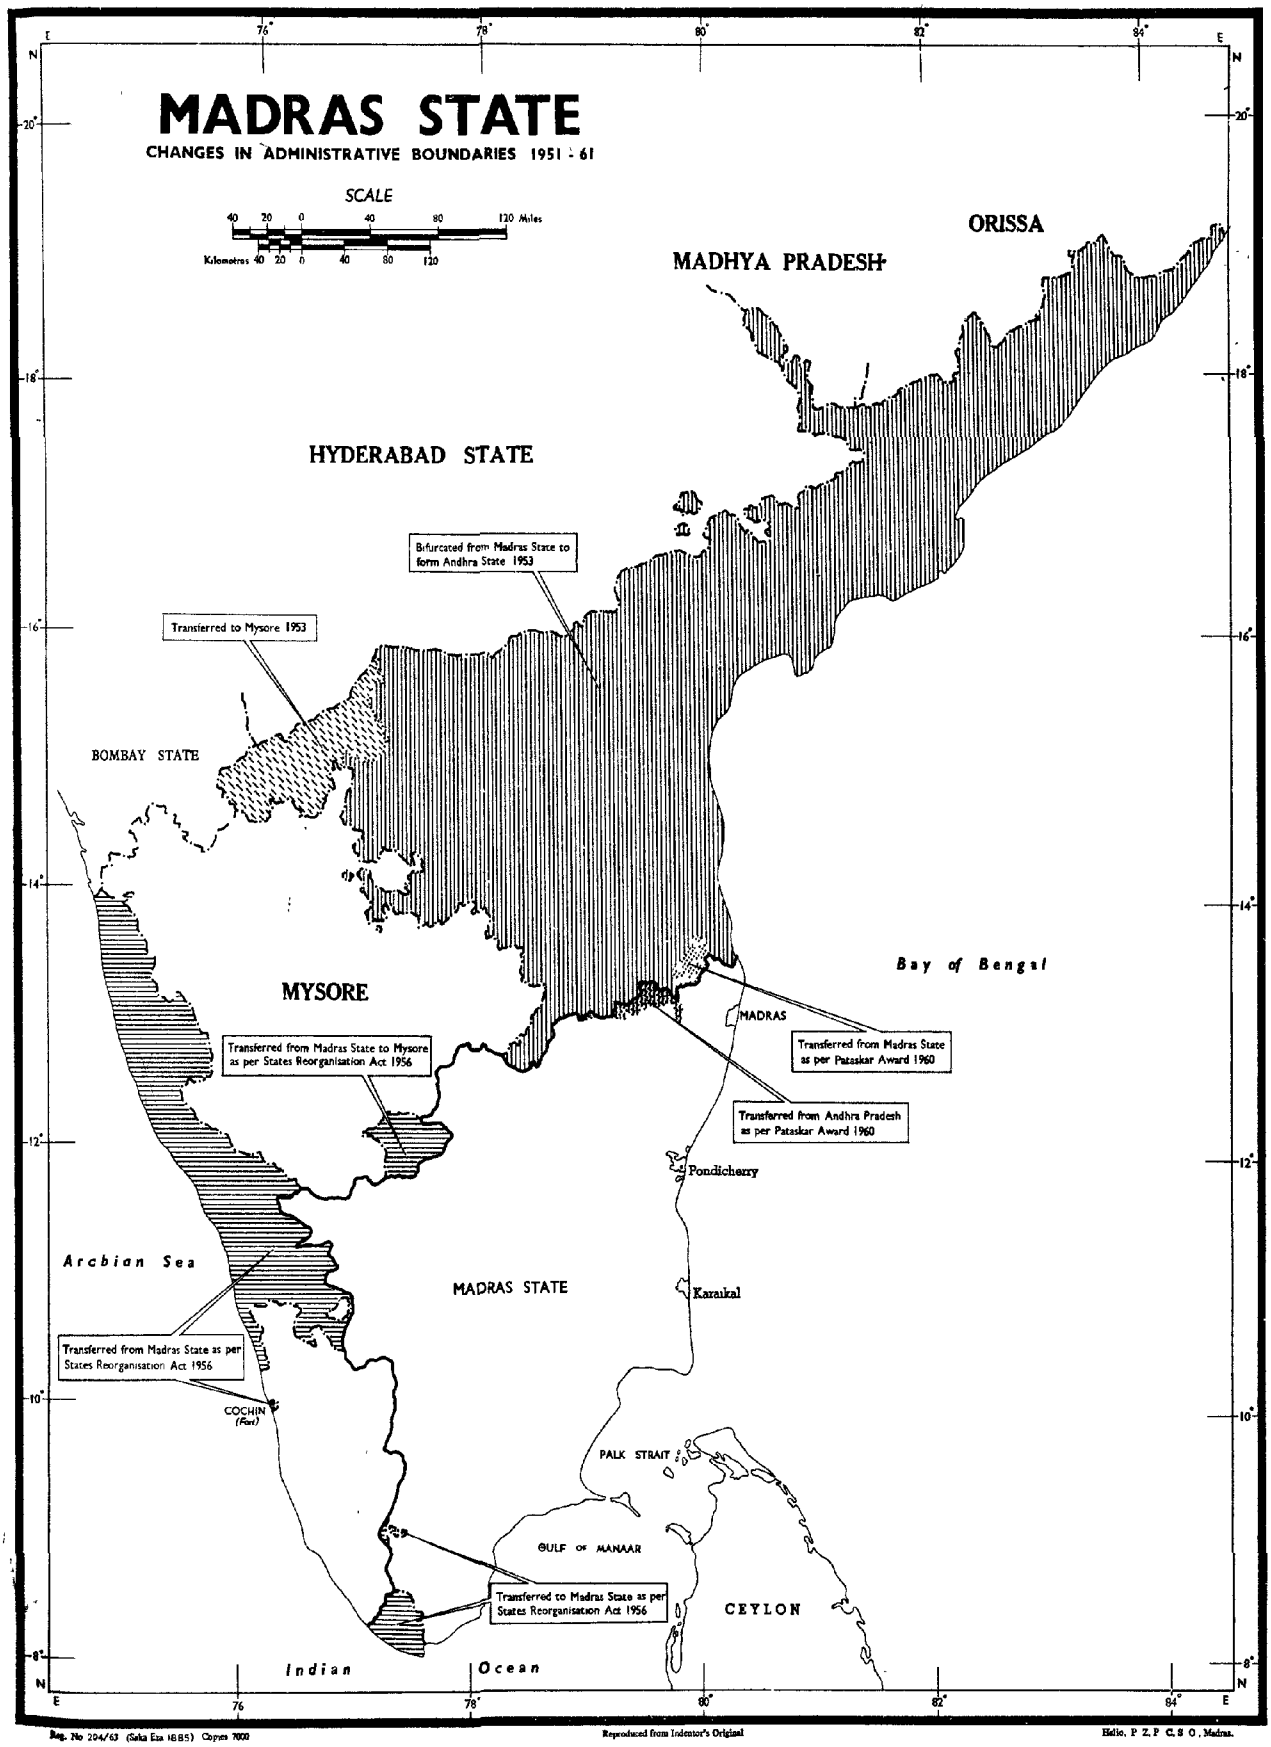

As a consequence of the States Reorganisation in 1956, Madras State lost two districts—Malabar and South Kanara, and one taluk—Kollegal of Coimbatore district—Malabar and Kasargode taluk of South Kanara to Kerala State and the rest to Mysore. A new district called Kanyakumari formed by detaching Thovala, Kalkulam, Agastheeswaram and Vilavancode taluks of Trivandrum district of Travancore-Cochin State was added to Madras State. In addition, Shencottah taluk transferred from Travancore Cochin State was added to Tirunelveli district. As a result of these changes, Madras State lost a population of 5,759,553 and an area of 10,249 sq. miles. Laccadive and Amindivi islands which formed part of the Madras State till 1956 as components of Malabar and South Kanara districts were constituted into centrally administered areas and placed under the direct administration of the Union Government.

* Central Survey Office Madras has not taken into account the changes in the areas of Chingleput, North Arcot and Salem consequent on the implementation of Andhra Pradesh—Madras Alteration of Boundaries Act, 1959. The changes have been worked out separately and incorporated in A-I table. The figures adopted are (1) Chingleput 3155·10, (2) North Arcot 4690·40 (3) Salem 7051·20, the net addition to the State being 131·19 sq. miles. These figures will have to be modified on the basis of actual survey now being conducted by Central Survey Office, Madras.

FULL ACCOUNT OF CHANGES IN JURISDICTION IN DISTRICTS, DIVISIONS AND TALUKS.

I. DISTRICTS

DELETIONS

Districts	*Authority*	*Remarks*
1. Srikakulam	Andhra State Act, 1953	Transferred to Andhra State.
2. Visakhapatnam		
3. East Godavari		
4. West Godavari		
5. Krishna		
6. Guntur		
7. Nellore		
8. Cuddapah		
9. Kurnool		
10. Bellary	...	3 taluks were transferred to Andhra State and the rest to Mysore State.
11. Anantapur	...	Transferred to Andhra State.
12. Chittoor	...	
13. Malabar	States Reorganisation Act, 1956	Transferred to Kerala, with the exception of Laccadive and Minicoy Islands.
14. South Kanara		1 taluk–Kasargode–transferred to Kerala and the other taluks to Mysore, with the exception of Amindivi Islands.

ADDITIONS

15. Kanyakumari	States Reorganisation Act, 1956	This new district was formed out of four taluks of Trivandrum district of Travancore Cochin State—Agastheeswaram, Thovala, Vilavancode and Kalkulam.

CHANGES IN BOUNDARIES

16. Chingleput	Andhra Pradesh—Madras Alteration of Boundaries Act, 1959	148 villages transferred to Andhra Pradesh. 285 villages added from Andhra State.
17. North Arcot	Andhra Pradesh—Madras Alteration of Boundaries Act, 1959	Addition of 32 villages from Andhra Pradesh.
18. Coimbatore	States Reorganisation Act, 1956	One taluk—Kollegal—transferred ot Mysore.

Districts	*Authority*	*Remarks*
19. Tanjavur	G. O. Ms. No. 5, Rev., dated 3-1-1955	One village added from Tiruchirapalli district.
20. Tiruchirapalli	Do.	One village transferred to Thanjavur district.
21. Ramanathapuram	G. O. Ms. No. 1844, Rev., dated 21-5-1958	Addition of one village from Tirunelveli district.
22. Tirunelveli	States Reorganisation Act, 1956	Addition of a new taluk formed out of a part of Shencottah taluk of Quilon district of Travancore Cochin State.
	G. O. Ms. No. 1844, Rev., dated 21-5-1958	One village transferred to Ramanathapuram district.
23. Nilgiris	...	There was no change in the boundaries.
24. Madurai	...	
25. South Arcot	...	
26. Salem	Andhra Pradesh—Madras Alteration of Boundaaies Act, 1959.	Three villages from Krishnagiri Taluk transferred to Andhra State.

II DIVISIONS.

CHINGLEPUT DISTRICT

THE NILGIRIS DISTRICT.

In 1951 there was no revenue division in Nilgiris District. A revenue division with a jurisdiction of Gudalur taluk with headquarters at Gudalaur was ordered in G. O. Ms. No. 4893, Revenue, dated 29—11—60 for work relating to the abolition of Jenmi system of land tenure. The division was abolished on 7—6—62.

	The following Districts were deleted from Madras State and transferred to Andhra Pradesh: Srikakulam, Visakhapatnam, East Godavari, West Godavarai, Krishna, Guntur, Nellore, Anantapur, Cuddapah, Kurnool, Chittoor and three taluks of Bellary. The following were transferred to Kerala— *Vide* States Reorganisation Act, 1956:— Malabar District except Laccadive and Minicoy Islands. Kasargode taluk of South Kanara District. The following were transferred to Mysore:— 1. South Kanara excluding Kasargode taluk and Amindivi Islands. 2. Kollegal taluk of Coimbatore District. 3. Bellary District excluding three taluks which were added to Andhra. The following areas were constituted into a separate union territory :— (1) Laccadive and Minicoy Islands. (2) Amindivi Islands.	

A I—FLY LEAF—V

CHANGES IN JURISDICTIONS

During the decade 1951–61, the area of Madras State recorded a fall of 60·61% *i.e.* from 1,27,790 sq. miles in 1951 to 50,331 in 1961. This decline was caused by two enactments of the Parliament of India *viz.* Andhra State Act of 1953 by which the State of Andhra was formed and the States Reorganisation Act of 1956 by which the States were reorganised on linguistic basis. Consequently, Madras lost 47·17% of its population. They consisted chiefly of Telugu, Malayalam and Canarese speaking people. The Tamil speaking people of Kanyakumari district were added to the Madras State. Thus, the State became more or less a Tamil speaking area. In terms of statistics, the number of districts in Madras State fell from 26 to 13, number of towns from 473 to 339 and villages from 37,096 to 14,124 and towns with a population exceeding 1 lakh from 13 to 9 during this decade.

A I—FLY LEAF—VI-I

DEFINITION OF URBAN AREA

It would be of interest to know how a Census town was defined in previous decades. In 1901, every municipality was treated as a Census town, every other continuous collection of houses, permanently inhabited by not less than 5,000 persons was treated as a Census town by the State Superintendent of Census Operations after taking into consideration the character, the relative density of its population, its importance as a centre of trade and its historical association. In 1911, the same standard was maintained, cantonments also being treated as towns. The definition of Census town remained unchanged in 1921 and 1931 and 1941. In 1951, the fundamental criterion for classification of any local area as a town was declared as the presence of urban features which could be judged by the way in which the towns have been built and the availability of urban amenities such as a bazaar where one could buy one's normal requirements throughout the year, facilities for education, recreation and medical treatment. Subject to this criterion, the State Superintendent had full discretion in declaring an area as urban.

In 1961, a more precise definition of urban area was attempted. All municipalities, cantonments and townships were deemed to have urban characteristics and declared as towns. For other areas, three tests were applied. (1) The population of the area should not be less than 5,000, (2) 75% of the male population should depend on non-agricultural resources for their livelihood and (3) there should be a density of 1,000 persons per sq. mile. All places which satisfied these three conditions were declared as urban. All places to which two of the three tests applied and which in the opinion of the Collector of the district had urban characteristics were also declared by the State Superintendent as urban. This applied chiefly to newly founded industrial areas, large housing settlements, places of tourist importance with all civic amenities, areas surrounding the municipal or cantonment limits, but outside their jurisdiction and having definite urban characteristics.

A I—FLY LEAF—VI-II (a)

The difference in the definition has resulted in the elimination of the following urban areas of Classes IV, V and VI of 1951 from the urban population of 1961.

Name of the district	Name of the taluk	Name of urban areas	Class	Population	
				1951	1961

13	Kanyakumari	...	4	20	11	11	10	1	1

NOTE: There have been a number of deletions in the list of towns in Kanyakumari and Tirunelveli districts during the decade 1951-61. In Kanyakumari only the 4 municipalities were treated as urban as the others failed to satisfy the prescribed tests. Additions to the lists of towns have been appreciable in the districts of Nilgiris, Coimbatore and Chingleput.

A I—FLY LEAF—VIII

DEFINITION OF A VILLAGE: The changes in the definition of village from 1901 to 1961 are indicated below. In 1901, a village in the Census statistics was not a sociological unit, but in almost all places represented the revenue village, *i.e.* a certain area which Revenue authorities have arranged as constituting a convenient unit for administration by the ordinary staff of village officers consisting of the Headman, (the Munsiff,) the Accountant and a certain number of menials. In 1911, the village was only a unit of revenue administration and did not necessarily connote material existence or present habitation. In 1921, a village in Madras was not a residential unit, but the familiar administrative unit and may contain several residential units or hamlets.

1931: The term 'village' did not connote in any sense the normal residential unit. In ryotwari area which represented the greater part of Madras State, the village was for practical purposes, a unit of revenue administration. It might on occasion, coincide with the formal habitation unit, but need not necessarily do so and in fact rarely did. The villages in the history of Madras frequently varied according to the retrenchment or expansion in the staff of village officers. In 1941, the village was a revenue administrative unit, not the residential village. In 1951, a village was an administrative entity which may be uninhabited or have only one residential locality or more than one such locality. In 1961, a village is an administrative entity which may be inhabited or have one or more residential localities. In practice, it refers to all panchayats not treated as towns and other non-panchayats treated as villages under revenue administration.

† Includes the villages of former Pudukkottai State.

‡ Includes tho villages of Shenkottah taluk transferred from Quilon district of former Travancore-Cochin State.

A I—FLY LEAF—X

EXPLANATION OF VARIATIONS IN STATEMENT IN ITEM IX.

The Statement indicating the number of inhabited villages in 1901 will mislead an ordinary reader unless he has a clear concept of what is a village in Madras State. In this connection, it will be interesting to recall the observation made by the Superintendent of Census Operations, 1911, Mr. J. C. Moloni, that clubbing and splitting of villages for revenue purposes is an everyday feature of settlement. The revenue village may frequently include two or more residential villages or on the other hand a village to all outward appearance seeming one may enjoy a theoretical dissevered existence. It is, therefore, idle to draw conclusions from increase or decrease apparent in the number of villages existing at successive enumerations. What has actually happened is that hamlets or small villages having separate existence have gradually emerged with the main revenue village for administrative convenience, thus reducing the total number of villages. Thus, any decline in the number of villages shown in the table has not in any way directly contributed to the growth of urban areas. This process by which the boundaries of villages have been altered for the sake of administrative convenience have continued unchanged till to-day. The recent introduction of Panchayat Raj has also accelerated the process of grouping of villages into panchayats since 1951 which also led to an appreciable fall in the number of villages between 1951 and 1961. Therefore, in Madras, the village has no connotation except that it is a unit of administration and the fact that there is more centralisation in administration of villages with passage of time has led to an appreciable reduction in the number of villages.

A I—FLY LEAF—XIII

Census house is a structure or part of a structure which is viable and which can be used as a dwelling or a shop-cum-dwelling or a place of business, school or workshop.

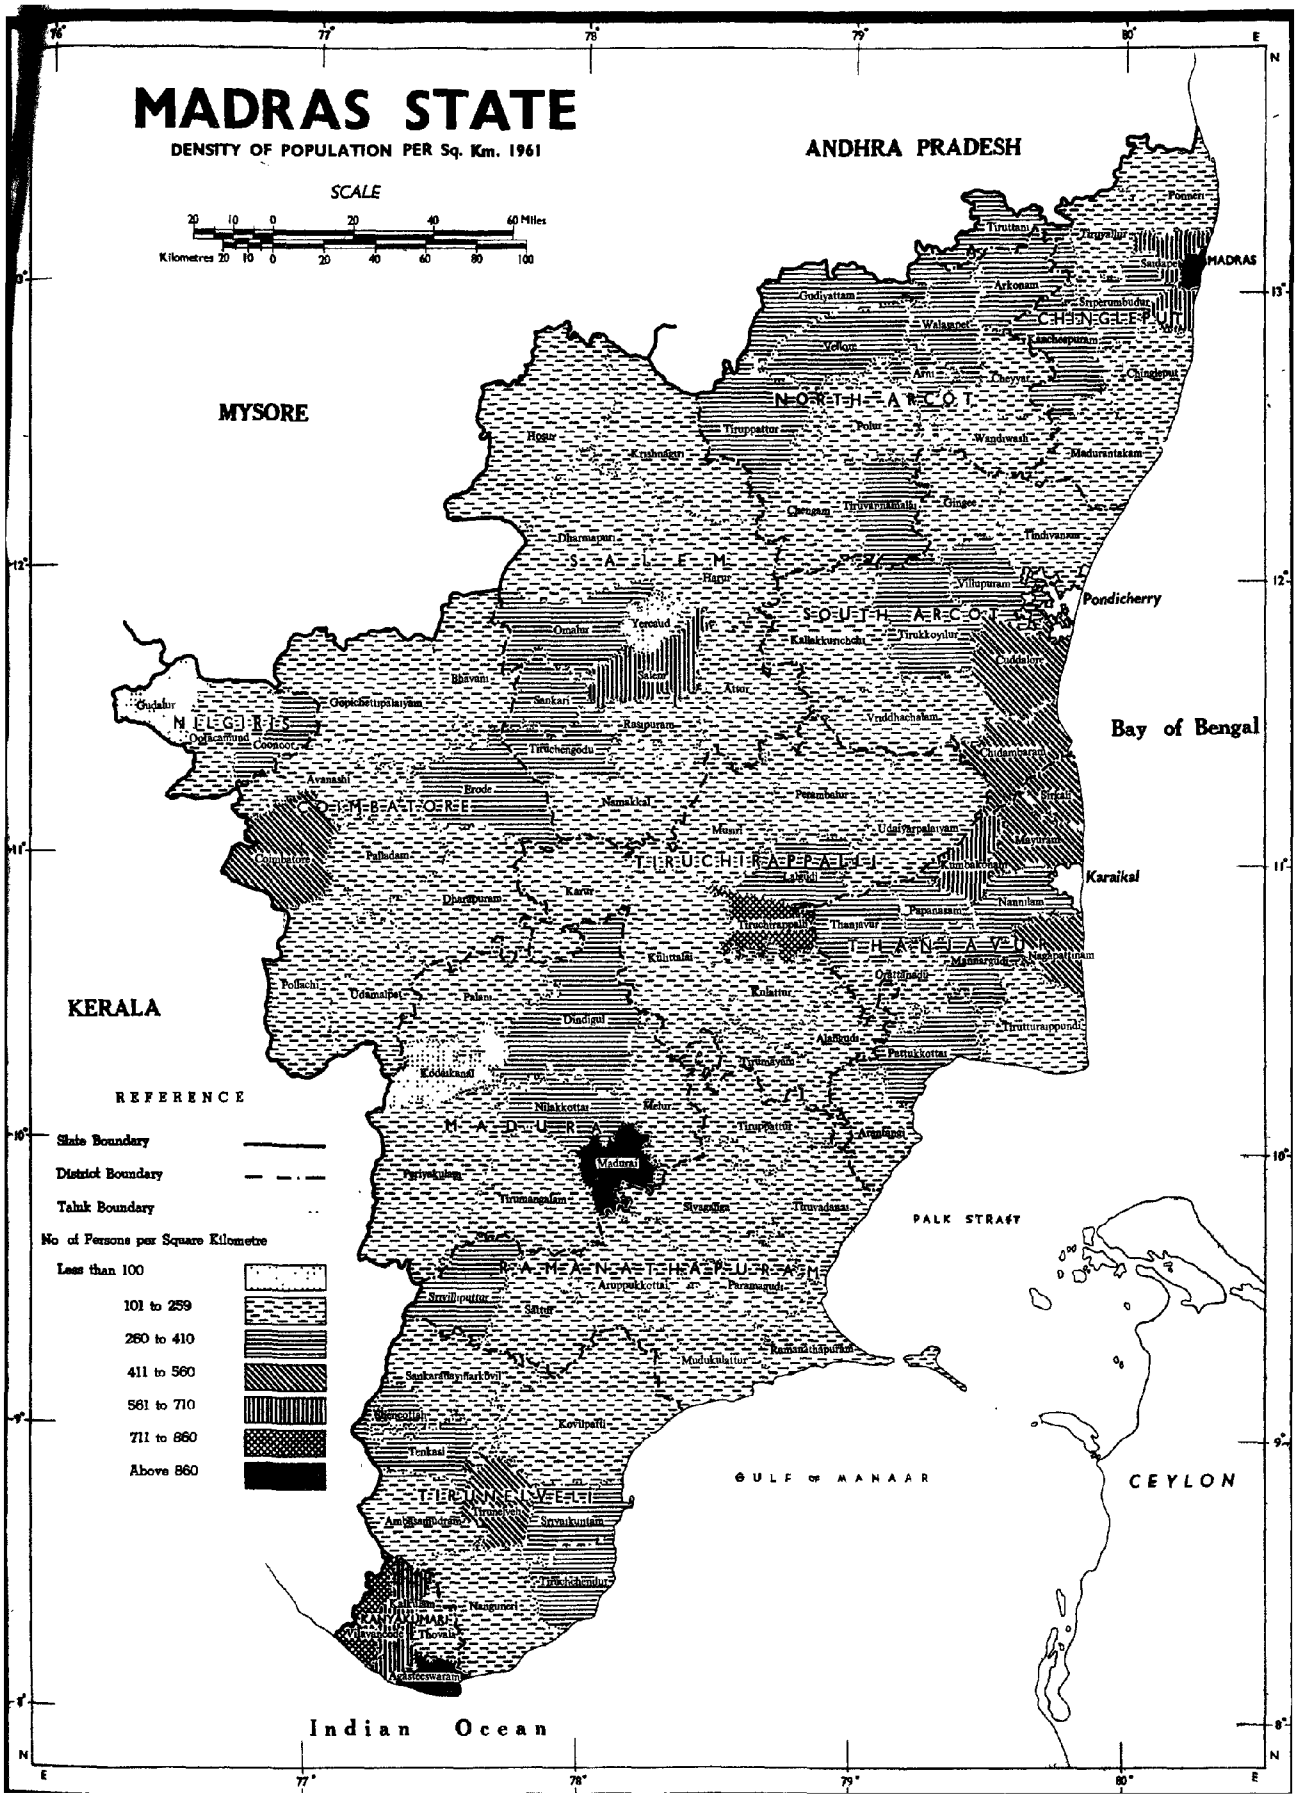

A I—FLY LEAF—XIV

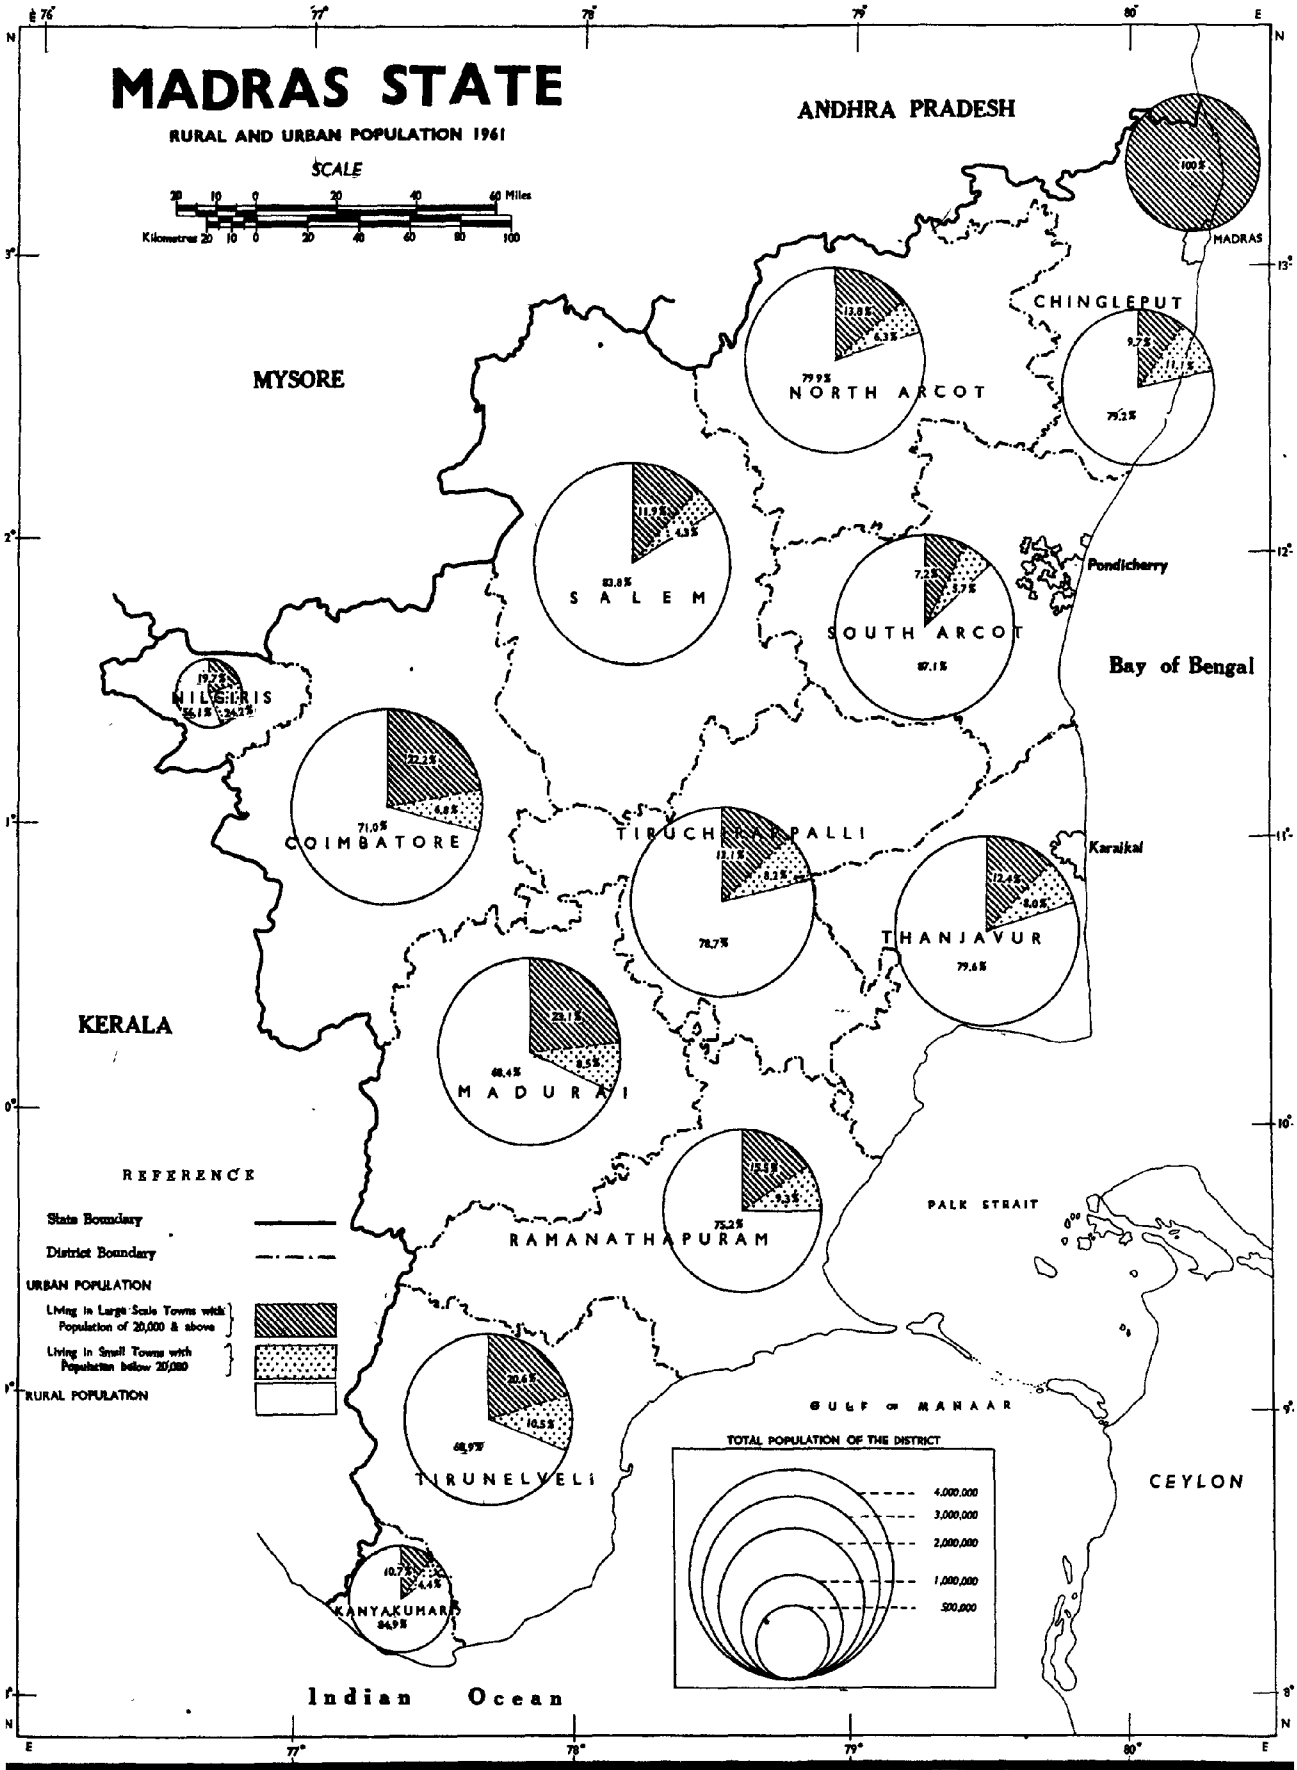

If a Census house is used for the purpose of living, it is treated as an occupied house.

A I—FLY LEAF—XV

Districtwise statement showing density per square mile, persons per occupied census house, females per 1,000 males and percentage of rural and urban population.

State/District	Persons per occupied Census House			Number of Females per 1,000 Males			Percentage of Rural and Urban Population to Total Population.			Density per Square Mile

A I—FLY LEAF—XVI

OBSERVATION ON VARIATIONS IN EACH OF THE TOPICS IN STATEMENT XV.

The average density of population in Madras State is 672 persons per square mile. There is appreciable variation between the rural and urban density, the figures being 513 and 4,459 respectively.

Excluding Madras City which records the highest density of 35,339, Kanyakumari records a high density of 1,544 persons followed by Thanjavur, South Arcot and Chingleput. The lowest density of 417 is found in Nilgiris, Ramanathapuram being a close second with 502

Among the taluks, the highest density is found in Agastheeswaram with 2,583. The next nine taluks in the order of density are indicated below :—

Madurai	...	2,502
Vilavancode	...	1,905
Tiruchirapalli	...	1,866
Kumbakonam	...	1,737
Saidapet	...	1,734
Salem	...	1,637
Kalkulam	...	1,485
Coimbatore	...	1,382
Mayuram	...	1,289

Kodaikanal has the lowest density in the State 141, followed by Yercaud 160, Gudalur 237, Hosur 279 and Harur 303. The urban taluk density is highest in Shencottah where 19,930 persons reside in a square mile, Salem (18,540) Madurai (14,303), Tiruchirapalli 13,659 and Dharapuram 13,655 are the other taluks with high urban density.

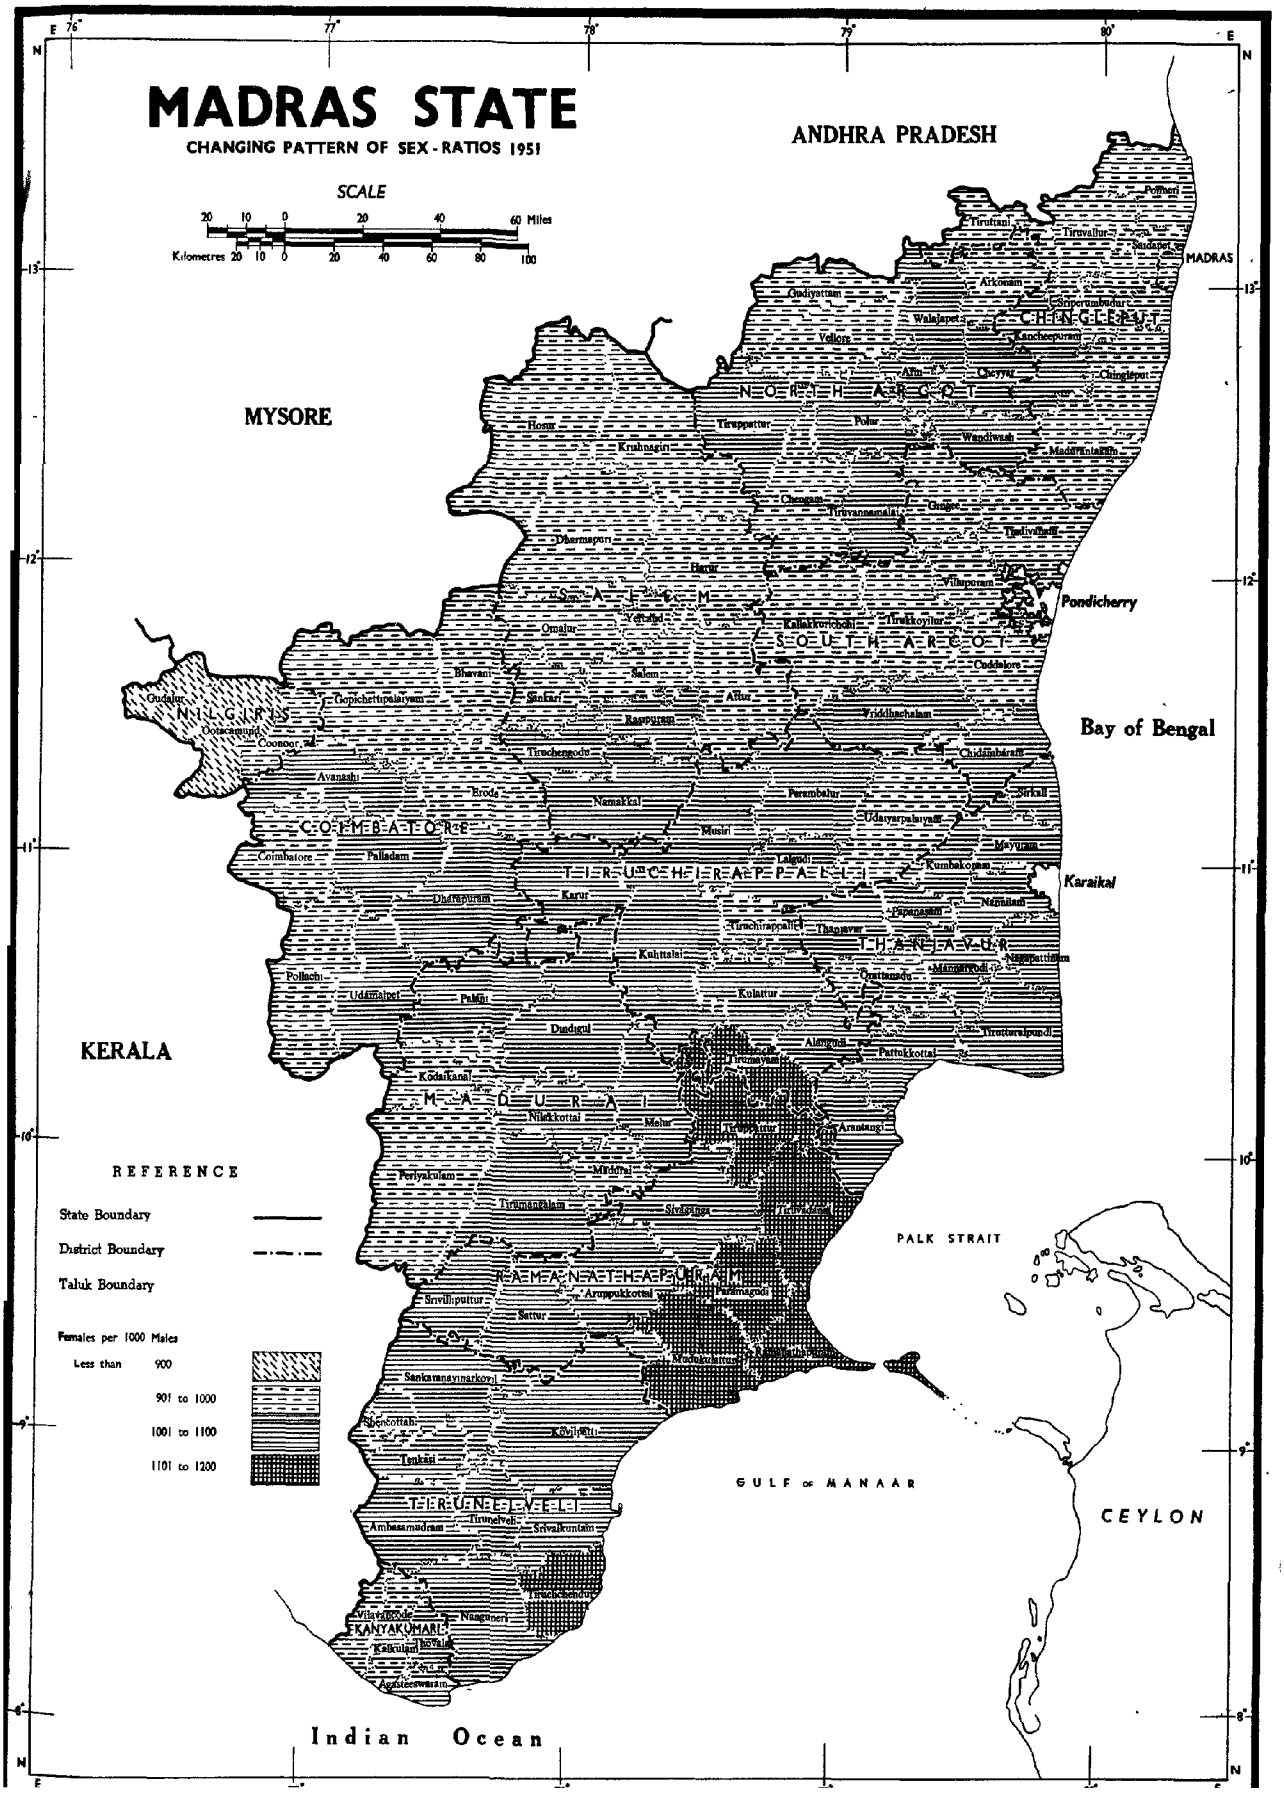

SEX RATIO

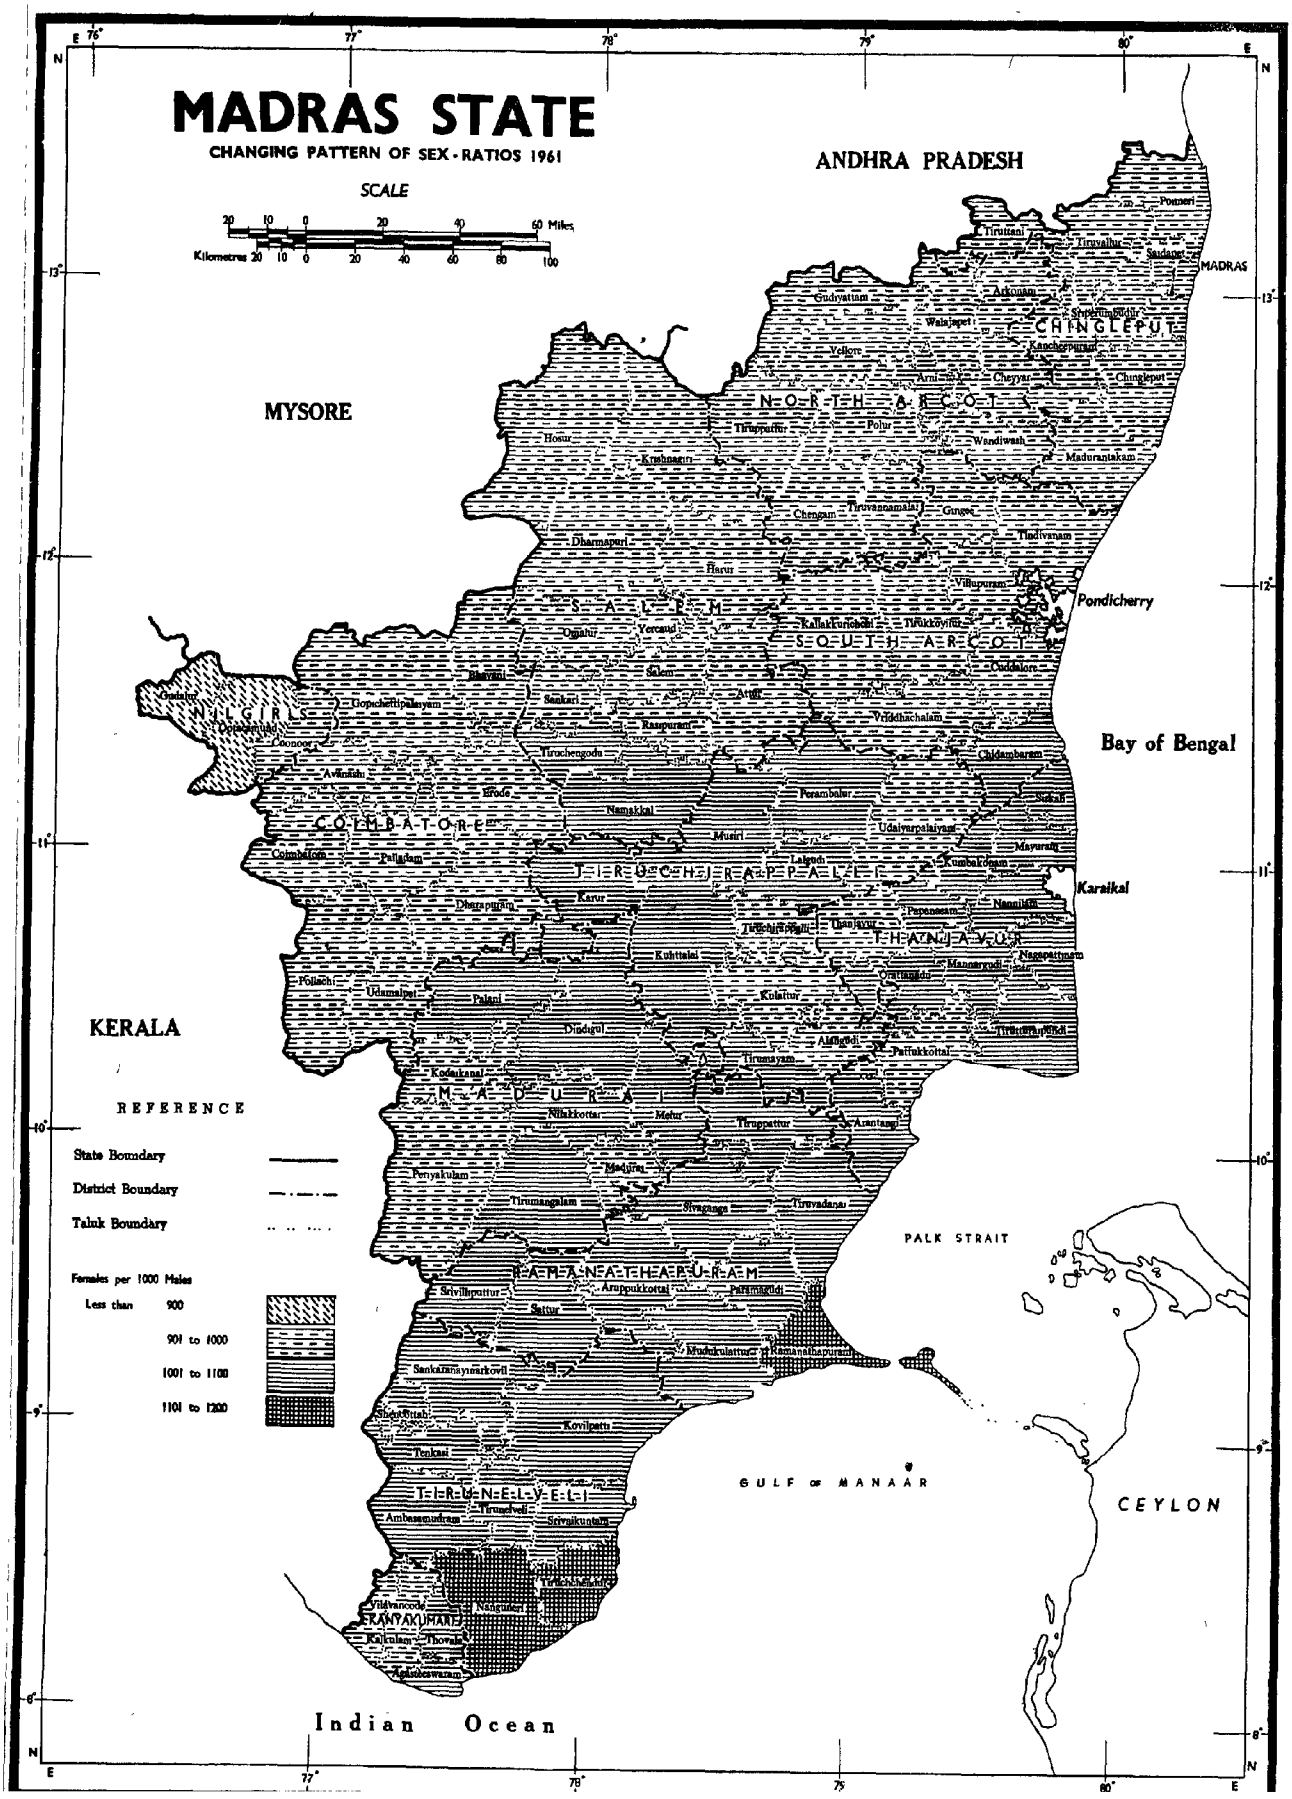

The sex ratio for Madras State is 992 females per 1,000 males. The rural ratio is 1,003 and the urban 963. Ramanathapuram District has a high proportion of females to males, 1,060 followed by Tirunelveli, Thanjavur and Tiruchirapalli with sex ratios of 1,053, 1,016 and 1,008. Nilgiris has the lowest rural sex ratio of 923.

Gudalur taluk records the lowest figure of 895 as sex ratio followed by Ootacamund 899. Tiruchendur taluk of Tirunelveli District records the highest sex ratio of 1,141 and Tirumayam taluk of Tiruchirapalli registers 1,124.

The average number of persons residing in a house for the State is 5·29, the urban figure being 6·41 and rural 4·98. In Madras, there are 11·71 persons per house while Tirunelveli has the minimum number of persons per house 4·56 followed by Ramanathapuram 4·82 and Tiruchirapalli 4·83. The highest in urban areas is in Madras City with 11·71 and the lowest is 4·78 in Tirunelveli. The pattern found in the taluks is fairly uniform varying between 4 to 6 persons per house. Vellore with 6·79, Madurai with 6·59, Arkonam with 6·20, Periyakulam with 6·15, Arni with 6·13 and Vilavancode with 6·09, are the 6 taluks out of 103 in which more than 6 persons live in a house.

In Madras State 26·69% of the total population reside in urban areas. The highest percentage of urban population is found in Nilgiris District *i.e.*, 43·94% excluding Madras City. South Arcot District records lowest percentage of 12·87. Madurai 73·19, Tiruchirapalli 67·41, Coimbatore 60·75 and Gudalur 64·72 are the taluks with high proportion of urban population. Chengam, Gingee, Yercaud, Kulathur and Thovala do not have any urban area and Orathanad, Harur and Vilavancode record the lowest proportion of urban population with percentages of 3·68, 4·21 and 4·32.

(a) ..... denotes area figures supplied by the Surveyor-General of India.

(b) ..... denotes area figures supplied by the State Land Record Department.

Note:—†The square kilometers and density figures of urban areas of Taluk, District and State are worked out using the area figures corrected to two places of decimals obtained by adding the areas of the towns in the respective units and not using the area figures given in the table. In addition to this, the figures relating to sq. kms. are further adjusted to make the Taluk/District/State totals agree.

Note:— 1. The following abbreviations have been used for the status of a city or town:—

(i) M — Municipality (iii) N.P. — Non-Panchayat (v) T — Township

(ii) P — Panchayat (iv) Cantt — Cantonment (vi) M.T.C. — Municipal Township Committee

2. * Towns treated as such for the first time in 1951 and continued in 1961.
Towns treated as such for the first time in 1961 are shown in italics as *Avadi* (Paruthipattu) (P)

3. † The square kilometers and density figures of urban areas of Taluk, District and State are worked out using the area figures corrected to two places of decimals obtained by adding the areas of the towns in the respective units and not using the area figures given in the table. In addition to this, the figures relating to sq. kms. are further adjusted to make the Taluk/District/State totals agree.

APPENDIX I TO

STATEMENT SHOWING 1951 TERRITORIAL UNITS

(Only those names/areas which have undergone

State/District/Taluk.	1951 Territorial units.	Details of gain in territories.		
		Brief description.	Area in Sq. Miles.	Area in Sq. Km.
1	2	3	4	5
MADRAS STATE	**MADRAS STATE**		**1123·3**	**2909·2**
		(i) Agastheeswaram, Thovala, Kalkulam and Vilavancode taluks transferred from Trivandrum district of former Travancore—Cochin State to form a new district known as Kanyakumari.	645·5	1,671·8
		(ii) Shencottah taluk except Aryankavu, Idappalayam and Kazhuthayurutti villages of Puliyara Pakuthy; Achankoil village of Achanputhur Pakuthy and a portion of Shencottah Pakuthy (with a population of 20) now forming 6 villages and 1 town transferred to Tirunelveli district from Quilon district of Kerala (Former Travancore-Cochin State)	67·8	175·6
		(iii) From Tiruttani taluk except 53 villages and part of Vyasapuram village (282 villages, 2 towns and some part of Vyasapuram village (with a population of 1184) transferred to Chingleput district from Chittoor district of Andhra Pradesh.	355·7	921·3
		(iv) 3 villages (Perumalrajupeta Code No. 321; Thandalam Code No. 322; Nandimangalam Code No. 323) and some part (with a population of 497) of Vyasapuram village (Code No. 307) transferred to North Arcot district from former Tiruttani taluk of Chittoor district of Andhra Pradesh.	7·8	20·2

8.	Azhakiapandipuram		2·1	2,950
9.	Thazhakudi		1·7	3,830
10.	Tiruvattar		0·4	1,931
11.	Kulasekharam		2·1	4,894
12.	Karingal		N.A.	3,107

N.A. Stands for figures not available.

NOTE ON APPENDIX II TO TABLE A-I

The total urban population of Madras State according to 1961 Census is 8,990,528 which forms 26·69% of the total population. The percentage of urban population in 1951 was 24·35. This increase was due to two reasons: (1) inclusion of 73 new towns, *i.e.* places which were rural in 1951 were declared as urban in 1961; (2) deletion of 30 towns of 1951, *i.e.* towns of 1951 were declared as rural in 1961 as they were mainly agricultural in character. The deletion occurred mainly in Kanyakumari district and to some extent in Tirunelveli district. As no uniform standard was laid down during previous Censuses for classification of urban and rural, different States followed different principles with the result there was large variation between Kanyakumari district which formed part of Travancore—Cochin State in 1951 and other areas of the State which formed part of Composite Madras State. Again the principles were not uniformly applied from district to district in the Composite State itself as the classification depended to a great extent on the recommendation of the Collectors of districts. Thus in Tirunelveli district, some places got declassified by the application of this principle. On the whole, it was seen that the principles adopted in Madras State for the declaration of urban areas were more or less similar to the conditions now laid down by Registrar-General, India. The population of the new towns declared in 1961 is 614,895 forming 6·8% of the total urban population and the population of deleted areas declared as rural but treated as urban in 1951 is 359,243 or forming 4·0% of the urban population. Thus the total increase in the urban population by the adoption of the revised principles of classification is only 2·8%.

The true rate of urban increase works out to 26·08% by applying the formula: $\frac{T\,61 - (T51 - t'51) \times 100}{T51 - t'51}$

Where T61...Total Urban population of 1961 (inclusive of population of new towns)

T51...Total Urban population of 1951 (inclusive of population of deleted towns)

t'51···Total population in 1951 of towns deleted in 1961.

NOTE ON INSTITUTIONAL AND HOUSELESS POPULATION

The term " INSTITUTION " has a limited meaning in this table. It refers to a place where a group of persons un-related to each other live together and take meals from a common kitchen, if it is possible to do so. Some of the better known types of institutions are Hostels, Hotels, Lodges, Boarding Houses and Messes. Places like Hospitals, Dispensaries, Jails, Beggar Homes, Choultries, etc., where persons live under certain conditions have also been treated as institutions. A classified Numerical list of institutions is given in the following pages.

The percentage of houseless and institutional population in this Census is ·76 as against ·6 in 1951. No comparison between the figures of 1951-1961 is possible because in 1951 houseless population was not separately enumerated from institutional population. In this Census the total houseless population is 60,352 against an institutional population of 1,96,391. In Madras City the total institutional and houseless population is 53,001, 9,032 representing houseless and 43,969 representing institutional.

With the working of the housing schemes enunciated by the Government of India and the State Government it is likely that the houseless population may show a decline. At the same time with the establishment of a large number of technical institutions and other hostel and boarding facilities for Scheduled Castes and Scheduled Tribes the institutional population is likely to show an upward trend. This is well reflected in the increase from ·6 to ·76 in the decade 1951–1961. We can only conclude that the count of the houseless and institutional population is as efficient in 1961 as it was in 1951. Further, the chances of counting the houseless population accurately is much more in 1961 because of the expectation among such houseless people that if correct particulars are given to the Government it is likely that they may get some housing facilities.

UNION TABLE A–II

Variation in Population during Sixty years.

A-II FLY LEAF—I

Note on Table A-II

A-II furnishes data on the area and population for the seven Censuses from 1901–61 and the variation of population. It gives the growth of population from decade to decade and forms the main source for estimation of population with the help of such vital statistics data as we have. One of the main changes in this table since the last Census is that percentage variation has also been given from decade to decade. Appendix to this table gives the adjustments necessary to bring the 1951 Census Population of the district to the jurisdiction of the district as at 1961 Census.

A–II FLY LEAF—II

Details of adjustment of population from 1901—1951.

Details of adjustment between 1951–61 will be found in Appendix to Table A–II. Details of adjustments of population from 1901 to 1951, district by district, is given below.

(a) Ramnathapuram district did not exist in 1901 and was formed during 1901-11 by the transfer of a population of 1,118,092 from Madurai district and a population of 401,112 from Tirunelveli district. The total population of the new district was 1,519,204 in 1901 as per the Jurisdiction in 1911.

(b) Out of North Arcot district which had a population of 2,207,712 in 1901, North Arcot and Chittoor districts were formed during 1901—1911. North Arcot had a population of 1,960,960 and Chittoor 1,238,742 as per the jurisdiction prevailing in 1911. The reformed North Arcot consisted of Arcot, Arni, Gudiyatham, Kangundi, Polur, Vellore, Walajahpet and Wandiwash taluks of North Arcot district of 1901 and Tirupattur taluk of Salem district and Tiruvannamalai taluk of South Arcot district.

The reformed Chittoor district consisted of Chittor, Kalahasti, Chandragiri, Palmaner, Punganur, Puttur and Tiruttani taluks of North Arcot district of 1901 in addition to Vayalpad and Madanapallee taluks of Cuddapah district.

(c) Tiruvannamalai taluk of South Arcot district with a population of 244,085 in 1901 was transferred to North Arcot district during 1901–1911.

(d) Namakkal taluk of Salem district with a population of 311,333 was transferred to Tiruchirapalli in 1910. This change was however undone by its retransfer to Salem during 1911–21.

(e) Mettur with an area of 137 Sq. miles and a population of 23,765 was transferred from Coimbatore to Salem district during 1921–31.

(f) Kuppam with an area of 305 Sq. miles and a population of 53,507 was transferred from North Arcot to Chittoor district during 1921–31.

(g) 14 villages of Dindigul taluk of Madurai district which were transferred to Karur taluk of Tiruchirapalli district were retransferred during 1941–51.

(h) An area of about 15 Sq. miles was transferred from Madurai to Ramanathapuram district during 1941–51.

(i) About 11 Sq. miles with a population of 8,870 was transferred from Chingleput to Nellore district during 1941–51.

(j) Saidapet Municipality (Population 41,347) and other suburban areas (Population 62,657) were transferred from Chingleput district to Madras City during 1941–51. Thus the total population added to the city was 1,04,004.

The following method was adopted for the revision of population of earlier Censuses, 1901—1951 for the taluks as constituted, in 1961. The names of units that were affected by inter-taluk, inter-district and inter-state transfers were first compiled and the population of these units got from the 1951 Census Tables. The figures for villages were collected from the Primary Census Abstract of the District Census Hand-books. They were then added or deleted from each affected taluk/district and the revised 1951 population for the jurisdiction as it would be in 1961 worked out.

For adjustment of 1941 Census figures, estimation method had to be adopted because village population figures are not available. The method adopted was to work out the proportion of population added or deleted from one unit to another to the total population in 1951 and apply the same proportion to the total unit in 1941 and then calculate the net addition or deletion as the case may be. The resultant figure was deleted or added from the original 1941 population as given in Part II-A of 1951 and added or deleted to the taluk/district to which they were transferred.

As regards earlier Censuses—1901–31, the method varied. Wherever the village statistics prepared in earlier Censuses were available, the earlier population of the villages transferred in 1951 were compiled from this register and the net addition or deletion was calculated. Whenever records were not available, estimation method was adopted.

One important change from the general procedure was necessary for recasting 1951 figures of Ramanathapuram district. The changes from one taluk to another involved transfer of part of villages for which figures were not available in District Census Hand-books. Tahsildars were not in a position to furnish the population of such units. As such, estimation method was adopted for adjustment of the population of Ramanathapuram district in 1951 also.

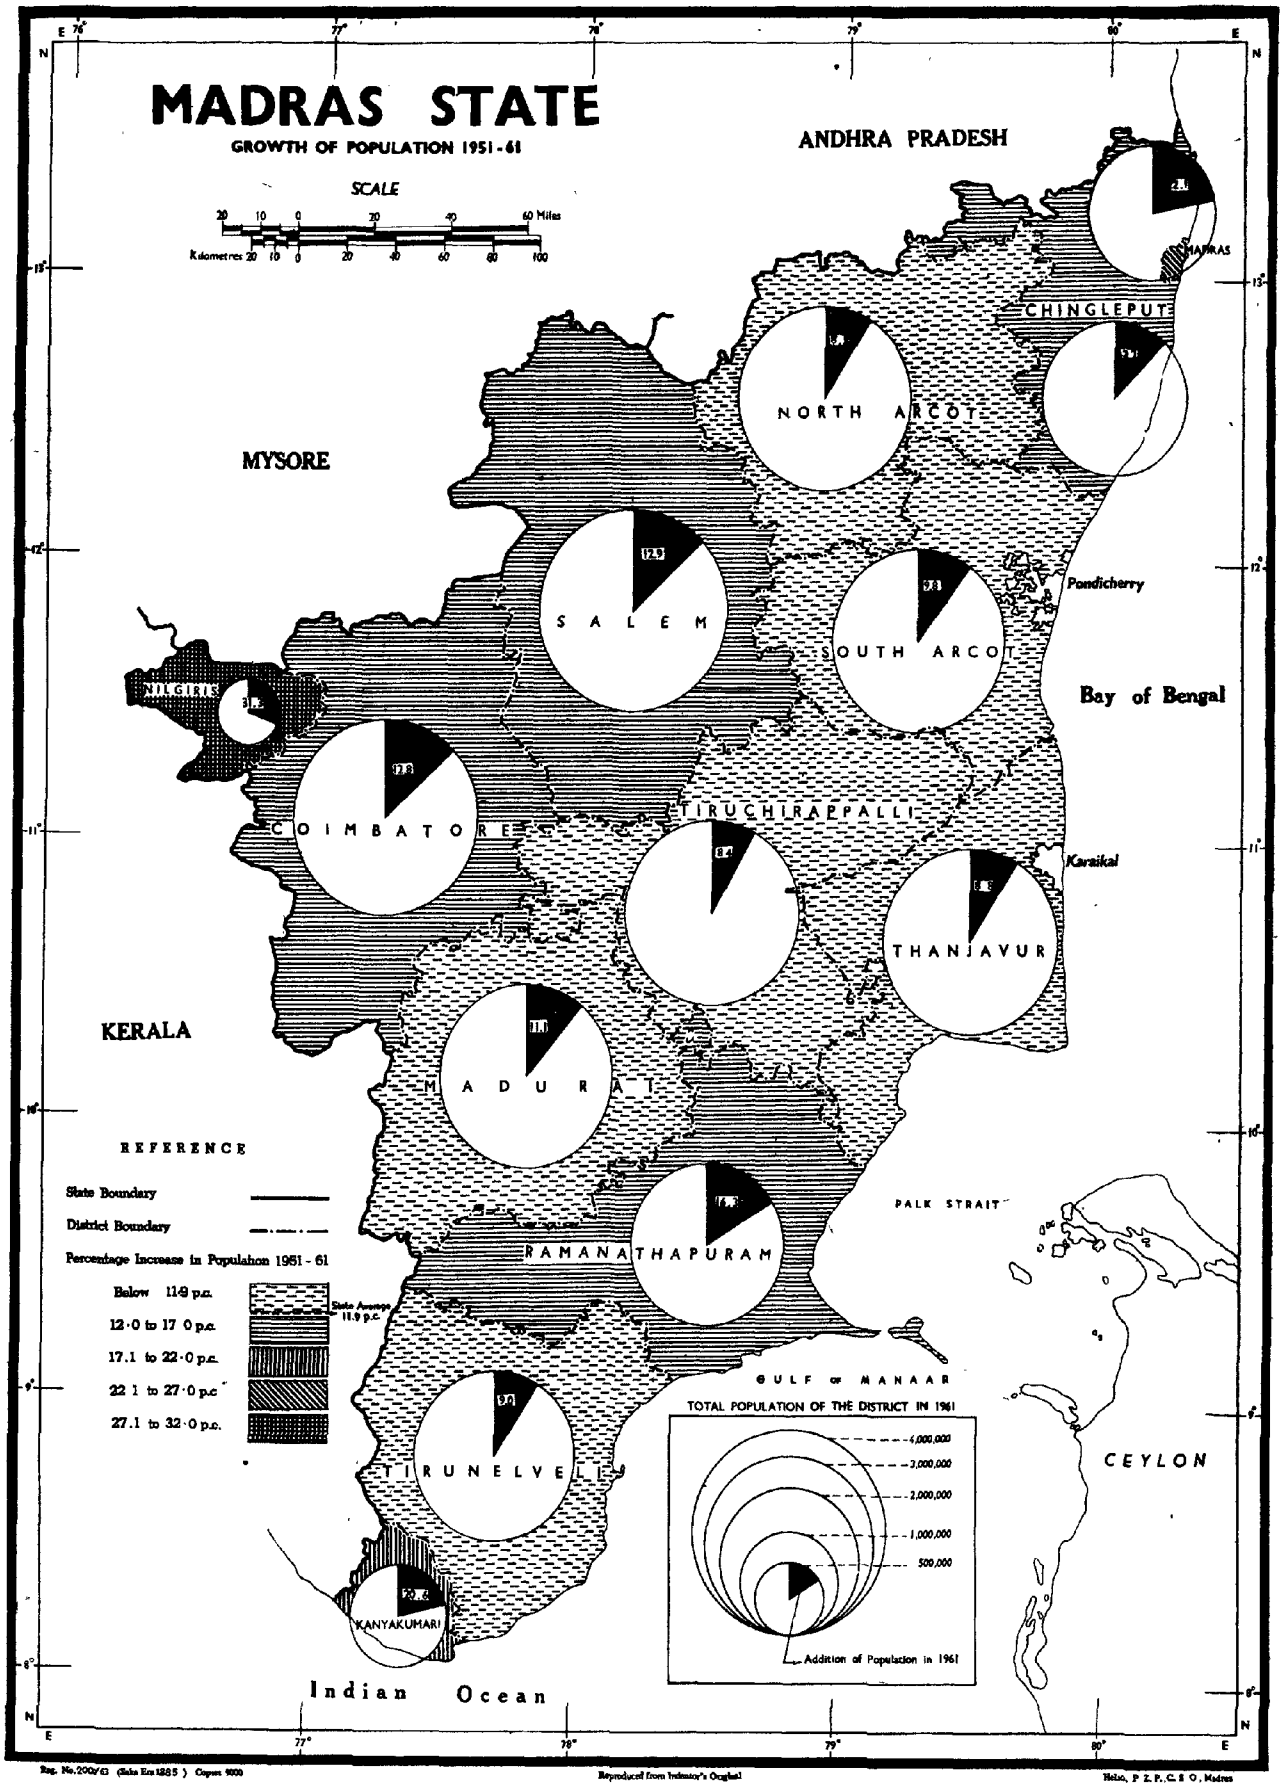

A II—FLY LEAF—III

Note on the contents of Appendix to Table A-II.

The details of changes in area of the districts of Madras State are embodied in Appendix to A-II. The following districts of Madras—South Arcot, Madurai and Nilgiris—did not undergo any change during this period. As a result of the implementation of States Reorganisation Act, Coimbatore district lost Kollegal taluk to My sore. A new district of Kanyakumari was, however, added to the State. Also a new taluk, Shencottah, was added to Tirunelveli district. Both Kanyakumari district and Shencottah taluk were formerly part of Travancore-Cochin State.

As a result of the changes effected by Andhra Pradesh—Madras Alteration of Boundaries Act, 1959, Chingleput, North Arcot and Salem underwent changes in jurisdiction. Portions of Ponneri and Tiruvallur taluks of Chingleput district were transferred to Andhra Pradesh, but a new taluk of Tiruttani was added to Chin gleput district. In North Arcot, changes were due to the inter-transfer of villages between Andhra Pradesh andM adras State. In Salem three villages were transferred from Krishnagiri taluk to Andhra Pradesh.

There were only two administartive changes ordered by the Governmentof Madras during this period affecting the jurisdiction of the districts. One village from Sankaranayinarkoil of Tirunelveli district was transferred to Ramanathapuram district. One village with a population of 45 was transferred from Tiruchirapalli to Thanjavur district.

Fly Leaf IV has furnished data regarding the percentage variation of rural and urban population since 1901. The percentages are worked out on the basis of population treated as towns at each of the Censuses. The deletion of any town from the previous list or inclusion of new towns at later Censuses or any change in the jurisdiction of towns has not been taken into account in working out this variation. These remarks apply to Fly Leaf VI also.

A II—FLY LEAF—V

Note on changes in the Rural/Urban Population 1901—1961

The urban population of the Madras State has increased by 22·59 over 51 figure, the increases for earlier decades being 41·06 in 1941–51, 22·31 in 1931–41, 23·52 in 1921–31, 8·59 in 1911–21 and 15·80 in 1901–11. The largest increase in the decade 1951–61 is in Nilgiris district by 102·10%. This abnormal increase is to a large extent due to the declaration of a number of places as towns in 1961. If the 1951 towns only are taken into consideration, the increase is limited to 21·81%. There is also a large increase in general population, *i.e.* 31·30% which is due to the immigration of labour to the district attracted by the Hydro-Electric Project at Kundah as well as by increase in plantations.

On the contrary, the urban population has declined by 30% in Kanyakumari district in 1951–61. 16 out of 20 towns that existed in 1951 were deleted and treated as rural areas. Next to Nilgiris, a large increase in urban population is noticed in Coimbatore district which has registered an urban increase of 62·75% against a rural increase of 0·21%. The urban population of this district has been steadily increasing since 1921. The large increase in the population of Coimbatore is due to the expansion of the textile industry, development of pump and electrical motor industry and the establishment of textool industry. Coimbatore has half the textile mills in the State in addition to a large number of manufacturing industries connected with iron and steel.

The urban population of Chingleput district has increased considerably by 34·22% against the rural increase of 7·55%. This is due to the growth of industries on the outskirts of Madras Corporation, notably at places like Ambathur, Tiruvattiyur, Chromepet, Vandalur which are administratively within the Chingleput district.

The lowest increase in urban population is in Tirunelveli district where the increase is 5·11% against 10·84% of rural increase. Thanjavur, Tiruchirapalli and Ramanathapuram districts have also recorded a low increase of urban population. These districts are industrially backward and have not kept pace with other districts of the State in its development. In all the four districts the variation during 1941–51 has been much higher than 1951–61. It is interesting to note that the urban variation during 1951–61 in 11 out of 13 districts has been lower than the increase in the earlier decade 1941–51. The increase has been appreciable in Nilgiris, and almost negligible in Coimbatore district.

A II—FLY LEAF—VII

Changes in the proportion of sexes 1901—1961.

The sex ratio, *i.e.* the number of females per 1000 males in the State has declined from 1,042 in 1911 to 992 in 1961. It is higher in rural areas than in urban in earlier Censuses except in 1901 when sex ratio in urban areas was 1,047 as against the rural area of 1,043.

Tiruchirapalli, Thanjavur, Ramanathapuram and Tirunelveli districts form a part in which sex ratio is fairly high. The lowest sex ratio is recorded at Madras City with 901 and next is Nilgiris with 902.

The general tendency observed is for the sex ratio at this Census to be less than what it was in 1951. This trend has been noticed in all districts except Nilgiris where female population has all along been much lower than in other places. It recorded 840 females in 1901.

The decline in sex ratio during 1951–61 is most marked in Ramanathapuram where it fell from 1,090 to 1,060; in Coimbatore it fell from 993 to 966. The sex ratio has been practically constant in Kanyakumari and has shown only a slight variation in Tirunelveli district.

Columns 5, 6, 7 and 9 do not reflect the changes in regard to the State as such between 1951 and 1961, as the districts Srikakulam, Vishakhapatnam, East Godavari, West Godavari, Krishna, Guntur, Nellore, Anantapur, Cuddapah, Chittoor, Bellary, Malabar, Kurnool and South Kanara with a total area of 77,046·5 sq. miles and population 27,788,846 were transferred from the State under the Andhra State Act 1953 and States Reorganisation Act, 1956 and do not appear in Col. 1. The net reduction in area and population in the inter-censal period has been shown in brackets under the entry relating to the State. In addition there is a difference of 0·9 sq. mile due to rounding the area figures to the nearest integer.

(a) Tiruttani taluk (282 villages, two towns and some part of Vyasapuram village) with an area of 355·7 sq. miles and Gopalakrishnapuram village with an area of 0·3 sq. mile of Puttur taluk of Chittoor district of Andhra Pradesh transferred to this district. In addition to these changes 76 villages with an area of 110·3 sq. miles of Tiruvallur taluk and 72 villages with an area of 110·9 sq. miles of Ponneri taluk of this district were transferred to Chittoor district of Andhra Pradesh State. All these changes were made under Pataskar Award (The Andhra Pradesh—Madras (Alteration of Boundaries) Act 1959.

(b) 29 Villages with an area of 46·2 sq. miles of Chittoor taluk, 3 villages and part of Vyasapuram village with an area of 7·8 sq. miles of former Tiruttani taluk and a small forest area of Palmaner taluk of Chittoor district of Andhra Pradesh State transferred to this district under Pataskar Award. (The Andhra Pradesh—Madras (Alteration of Boundaries) Act 1959.)

(c) 3 villages with an area of 0·2 sq. mile of Krishnagiri taluk of this district transferred to Kuppam I. S. T. of Chittoor district of Andhra Pradesh under Pataskar Award. (The Andhra Pradesh—Madras (Alteration of Boundaries) Act 1959.)

(d) Kollegal taluk with an area of 1,075·7 sq. miles of this district transferred to Mysore district of Mysore State under the States Reorganisation Act, 1956.

(e) 1 village with an area of 0·3 sq. mile of Tirumayam taluk of this district transferred to Arantangi taluk of Thanjavur district *vide* G. O. Ms. No. 5 dated 3—1—1955.

(f) As against symbol (e) above.

(g) 1 village with an area of 4·0 sq. miles of Sankaranayinarkoil taluk of Tirunelveli district transferred to Srivilliputtur taluk of this district *vide* G. O. Ms. No. 1844 dated 21—5—1958.

(h) In addition to the change enumerated in symbol (g) above, Shencottah taluk (except Aryankavu, Iddapalayam and Kazhuthayurutti villages of Puliyara Pakuthy, Achankoil village of Achamputhur Pakuthy and a portion of Shencottah Pakuthy with a population 20) with an area of 67·8 sq. miles encompassing 6 villages and 1 town transferred from Quilon district of Kerala State (former Travancore-Cochin State) under States Reorganisation Act, 1956.

(i) This district was newly formed by transfer of Agastheeswaram, Thovala, Kalkulam and Vilavancode taluks with an area of 107·1 sq. miles, 142·5 sq. miles, 229·2 sq. miles and 166·7 sq. miles respectively of Trivandrum district of Kerala State (former Travancore-Cochin State) under States Reorganisation Act, 1956.

NOTE:—The actual change in area (as given against symbols in the foot-notes) in the district boundaries due to jurisdictional change does not agree with the net increase or decrease in the area figures given under cols. 5 and 6 in brackets against each district except Salem, Coimbatore and Kanyakumari. Since villages or parts of villages have been affected by transfers the area figures worked from village wise areas are provisional pending confirmation from the Central Survey Office, Madras.

"2. Though the district has not undergone any jurisdictional change since 1951, there is an increase in its area due to computational error."

"3. The figures given in brackets in cols. 5 and 6 represent the difference in area between 1951—61 and the figures in brackets in col. 7 shows the difference in poputation between the areas as per the jurisdiction in 1951 and the present jurisdiction."

UNION TABLE A—III

Villages Classified by Population

A III—FLY LEAF—I

A village has been defined in Fly Leaf to A-I. The changes in the concept of the village have also been indicated.

A III—FLY LEAF III

The total number of villages in Madras State is 14,124. A rural population of 24,696,425 live in these villages. The average village population of the district is given below, arranged in descending order :

Kanyakumari	...	...	...	18,409
Nilgiris	...	...	...	6,201
Coimbatore	...	...	...	2,815
Madurai	...	...	...	2,509
Salem	...	...	...	2,120
Tirunelveli	...	...	...	2,071
Tiruchirapalli	...	...	...	1,788
North Arcot	...	...	...	1,496
Thanjavur	...	...	...	1,361
South Arcot	...	...	...	1,325
Ramanathapuram	...	...	...	1,277
Chingleput	...	...	...	1,209

12% of the rural population reside in villages of less than 1,000, 27·69% in villages of 1,000—1,999 and 42·52% in villages of 2,000—4,999. It will be seen that the majority of villages fall in the population group 2,000—4,999.

Nilgiris has the lowest number of inhabited villages, 37 followed by Kanyakumari with 46; South Arcot has the largest number, 2,005 followed by Thanjavur with 1,899. The peculiar feature of villages in Kanyakumari district is that 45 villages out of 46 have a population exceeding 10,000. In Nilgiris district, nearly 50% of the villages have a population of over 5,000.

The districts which have a low proportion of villages with population above 5,000 are :—

Chingleput	...	...	...	1·11
North Arcot	...	...	...	1·62
South Arcot	...	...	...	0·90
Thanjavur	...	...	...	1·16
Ramanathapuram	...	...	...	0·98

Chingleput district has a larger number of small villages with less than 1,000 than other districts. The following districts show a higher percentage than the State average of villages with a population of less than 1,000.

State	...	...	...	37·30
Chingleput	...	...	...	52·85
Ramanathapuram	...	...	...	47·93
South Arcot	...	...	...	45·74
Thanjavur	...	...	...	42·33
North Arcot	...	...	...	39·74

The percentage of population residing in villages with population of less than 200 is uniformly low in all taluks except Arantangi which records 9·86. Arantangi has large zamin and inam areas which have not yet been fully settled. The percentage of population living in villages 200—500 is uniformly much less than 10% in all taluks except Arantangi which has 14·95, the percentage for the State being only 1·82. 9·83% of the population reside

in villages with a population varying between 500 and 999. Taluks which have a fairly high proportion of villages are :—

Paramakudi	...	...	33·50
Wandiwash	...	...	30·42
Kancheepuram	...	...	29·36

The following taluks have a high proportion of population in villages with a population of 1,000—1,999.

State	...	...	27·69
Tiruvadanai	...	...	53·32
Thanjavur	...	...	49·84
Sattur	...	...	48·03
Nannilam	...	...	47·17
Chingleput	...	...	47·04

Taluks which have a very high proportion of population living in villages with a population of 2,000—4,999 are :

State	...	...	42·52
Karur	...	...	74·51
Avanashi	...	...	73·86
Melur	...	...	68·56
Tiruchengode	...	...	65·58
Kodaikanal	...	...	65·49

The following taluks have secured the first five places amongst taluks having a high proportion of population living in villages with a population of 5,000—9,999.

State	...	...	11·73
Shencottah	...	...	66·82
Ootacamund	...	...	45·53
Bhavani	...	...	42·71
Periyakulam	...	...	37·90
Gobichettipalayam	...	...	37·87

Taluks listed below show a higher percentage of population living in villages with a population of 10,000 and above compared to average for the State.

State	...	...	60·08
Vilavancode	...	...	100·00
Kalkulam	...	...	100·00
Agastheeswaram	...	...	100·00
Yercaud	...	...	99·33
Gudalur	...	...	89·72
Thovala	...	...	84·09
Coonoor	...	...	55·05

All the panchayats in the taluks of Vilavancode, Kalkulam and Agastheeswaram are large sized panchayats with a population exceeding 10,000.

A III—FLY LEAF—V

Comments on the percentage of villages and population by class of village 1901-1961.

Fly leaf IV of Table A-III will furnish data regarding the percentage of villages and population classified by class of village during earlier Censuses, 1901-1961. The total number of villages and population for earlier Censuses have been adopted without modification or adjustment to the present jurisdiction. There has been an appreciable decrease in the number of villages having a population of less than 500 from 1901 to 1961, figures being:

1901	...	54·61
1921	...	45·00
1951	...	33·40
1961	...	14·53

In The Nilgiris District no village with a population of less than 500 exists now whereas in 1951, 10·87% of the villages belonged to that category. The decline in Ramanathapuram district is rather high, comparative figures being 66·52 in 1951 and 15·84 in 1961. The decline in Madurai is from 22·49 in 1951 to 3·77 in 1961. The fall is marked in Coimbatore district where the percentage is 7·69 in 1961 as against 10·45 in 1951.

There is no variation in the percentage of villages in the category 500-999. Figures according to earlier Censuses are:

1901	...	22·99
1921	...	23·96
1951	...	22·60
1961	...	22·77

There has been a consistent increase since 1901 in the proportion of villages with a population varying between 1,000 and 1,999.

1901	...	14·82
1921	...	19·71
1951	...	24·44
1961	...	33·78

But the percentage of population residing in these villages has decreased slightly from 30·50 in 1921 to 27·31 in 1951 and with a barely imperceptible rise to 27·69 in 1961. The increase in the number of villages has been appreciable in Chingleput district, 16·48 in 1951 and 33·82 in 1961 and Ramanathapuram 12·13 in 1951 against 36·58 in 1961. In the category 2,000—4,999, percentage of villages as well as of population residing therein have been increasing gradually since 1901.

% of Village	*Year*	*% of Population*
6·94	1901	27·54
10·40	1921	32·82
17·04	1951	39·71
25·06	1961	42·52

As regards villages with population in the range 5,000—9,999 the pattern of variation since 1901 is indicated below :—

% of Village	*Year*	*% of Population*
0·61	1901	5·10
0·90	1921	6·21
2·27	1951	11·38
3·18	1961	11·73

The decline in the number of villages in this category has been registered in The Nilgiris dist
30·43 in 1951 to 24·32 in 1961.

TABLE A-IV

Towns (and Town-Groups) Classified by Population in 1961 with Variation since 1901

A-IV—FLY LEAF—I

For definition of a Census town, please see Fly Leaf VI of Table A–I.

A-IV—FLY LEAF—II

Census towns have been classified into six categories on the basis of population as has been done in previous Censuses. They are :—

Class I	...	...	...	100,000 and above
Class II	...	...	...	50,000—99,999
Class III	...	...	...	20,000—49,999
Class IV	...	...	...	10,000—19,999
Class V	...	...	...	5,000—9,999
Class VI	...	...	...	Upto 5,000

A-IV—FLY LEAF—III

A new concept, town-group, has been introduced in 1961 Census. Towns which are either contiguous or near each other having separate legally constituted civic administration like municipality, panchayat, cantonment or a township have been grouped together to form a town-group which will serve as a unit for statistical purposes. Thirty-four such town-groups have been formed in Madras State. Figures for each group have also been furnished in A-I, A-IV and B-II Tables.

The following abbreviations have been used to denote the status of a town:—

M.C — Municipal Corporation
M — Municipality
P — Panchayat
N. P. — Non-Panchayat
M. T. C — Municipal Township Committee
T — Township
Cantt. — Cantonment

* Towns treated as such for the first time in 1951 and continued.

Towns treated as such for the first time in 1961 are shown in italics as *Avadi* (Paruthipattu) (*P*)

Note :—(i) Towns printed in italics under column 2 are treated as such for the first time in 1961 Census.

(ii) N.A. has been shown in column 10, against the declassified towns of Kanyakumari district due to the fact that the 1961 population as given in P.C.A for the constituents in which 1951 town has been relapsed, represents the figures of declassified town as well as the other parts of the constituent and is not comparable with 1951 population of declassified town.

N.A.—stands for not available.

		Killiyur (Panchayat)	...	N.A.	N.A.

Note—(i) Since survey has not been completed in Kanyakumari district, Survey Numbers have not been furnished.

(ii) In columns 5 and 6, N.A. has been shown against the constituents, in which 1951 declassified town of Kanyakumari district has been relapsed, due to the fact that the 1961 area and population as given in the P. C. A. for the units shown under column 3, represents the figures of declassified town as well as other parts of the Panchyat.

N. A. stands for not available.

PRIMARY CENSUS ABSTRACT

PRIMARY CENSUS ABSTRACT—FLY LEAF—I

Concept of Census Houses, Dwellings, Shop-*cum*-Dwellings, Workshop-*cum*-Dwellings and Households.

1. The Census house is a structure or part of a structure which is viable and which can be used as a dwelling, a shop-*cum*-dwelling or a place of business, school or workshop. If it is used for the purpose of common living or work or business, it is treated as an occupied Census house.

2. Any Census house which is used as a residence is a dwelling. If a portion of the Census house is in addition used to run a shop, the Census house is treated as shop-*cum*-dwelling. Further, if some processing or repairing or manufacturing is conducted in a Census house in which a household resides, it is treated as workshop-*cum*-dwelling.

3. A household refers to a group of persons who commonly live together and take their meals from the common mess unless the exigencies of work prevent any of them from doing so.

4. Under the Madras house numbering system, every building with a separate main entrance is treated as an entity and given a number by which it can be distinguished from outside. In each such building, there will be one or more Census houses and in each Census house, one or more household can reside. It will, therefore, be seen that the Census house referred to in the table will not always represent a building for which a number has been specifically assigned under the Madras house numbering system.

PRIMARY CENSUS ABSTRACT—FLY LEAF—II

Proportion of Households to 100 occupied Census Houses

In Madras State, 114 households reside in 100 houses. In rural areas 108 households reside as against 134 in urban. Madras City has 237 households for 100 houses which is quite high, indicating a high degree of congestion. The next are Madurai and North Arcot also which have 119 and the lowest is Tirunelveli District which has only 103 households per 100 houses indicating more rural characteristics. The difference between rural

and urban areas is marked in Madurai where the figures are 110 for rural and 144 for urban. In Nilgiris District, the difference between urban and rural set-up is negligible, the figures being 106 and 105 respectively. Among the urban areas next to Madras are Madurai District followed by the urban areas of Chingleput, the figures being 144·43 for Madurai and 139·54 for Chingleput. The high percentage in Chingleput District is due to its proximity to Madras City, the contiguous areas along the City of Madras having the same characteristics as the city itself. The following are the taluks of highest percentage in decreasing order.

Taluk		Total	Urban
1. Madurai	...	142	167
2. Arni	...	131	139
3. Palladam	...	131	149

Ramanathapuram District	112	99	978
Tirunelveli District ...	140	104	653
Kanyakumari District ...	302	263	2,051

In Madras State, 145 households live in a sq. mile. The variation between rural and urban sectors is appreciable being 112 for rural and 935 for urban. Madras City stands by itself having 7,158 households in a sq. mile. Among the other districts, Kanyakumari has the highest number of households per sq. mile, *i.e.*, 302 households. The lowest is 89 for Nilgiris followed by 112 for Ramanathapuram and 114 for Salem. These districts represent large areas of territory with comparatively less concentration of households. In the urban sector, Kanyakumari and Madurai districts have a high number of households, 2,051 and 1,359 per sq. mile respectively standing next to Madras. The figures for the cities in the Madras State are indicated below in decreasing order. It will be seen that after Madras City, Madurai has the highest number, 10,269 followed by Coimbatore which has 6,481. After that, the following are some of the taluks which have a high density of households per sq. mile.

Households per sq. mile

PRIMARY CENSUS ABSTRACT—FLY LEAF—IV

Definition of Scheduled Castes and Scheduled Tribes, Houseless population and Literacy.

There is no general and standard definition of either Scheduled Caste or Scheduled Tribe. Under the Constitution of India, Scheduled Caste means such castes, races or tribes or part or groups within such castes, races or tribes as are declared to be Scheduled Castes by the President of India by public notification under Article 341 (1) of the Constitution. Similarly, Scheduled Tribes mean such tribes or tribal communities or part or groups within such tribes or tribal communities as are declared by the President to be Scheduled Tribes under Article 342 of the Constitution. A list of Scheduled Castes and Scheduled Tribes in Madras State, with area restrictions contained in the Presidential Order, is reproduced in the Appendix. In the list are added the synonyms by which these tribes and castes are known in different parts of the State.

2. **Houseless Population:** They are persons who do not live in houses, tents or in enclosures, but on pavements. Homeless beggars, vagrants, nomadic tribes, tramps and sadhus are also treated as houseless persons.

3. **Institutional Population:** They refer to persons who reside in penal, charitable, mental institutions, hospitals, hotels, hostels, boarding houses or any type of institution in which persons reside together.

4. **Literacy:** For purposes of Census, a person is deemed to be literate if he can read and write a simple letter. Any person who has passed any written examination is deemed to be an educated person.

APPENDIX

Scheduled Castes in Madras State

Serial Number and Names of Scheduled Caste given in the Scheduled Castes and Scheduled Tribes Lists Modification Order, 1956	Synonyms prevalent in the State
I. Throughout the State	
1. Chakkiliyan	Osangi Pakadar Dombar Kosingh Chakkili Velan Meliavandan
2. Kuravan Sidhanar	Koodaikatti Nakkiar Koodaikatti Nattar Jogi Yavanar Kadukutti Valliammaikuttam Kakkalan Veduvar Karuvan Vaduvan Uppukuravar Suthothanar

PRIMARY CENSUS ABSTRACT—FLY LEAF—V

Classification of population into workers and non-workers and workers into nine Industrial Categories.

The population of the State is divided into two broad categories-workers and non-workers. It is of advantage to have an idea of what a worker is and what 'work' is in the economic classification of 1961 Census. A person may be working as cultivator or as an agricultural labourer or in any household industry or may be engaged in doing some other work. The last named category will include persons who are engaged in productive activities other than cultivation, business, trade, communication or transport service or other miscellaneous services. In the case of persons who are employed during certain specified seasons only, as in cultivation, livestock, household industry, he will be regarded as worker, provided he has some regular work for more than an hour per day throughout the greater part of the working season. In the case of persons regularly employed in any trade, profession, service or business or commerce, he will be considered as a worker if he was employed during any of the 15 days preceding the day on which the enumerator made his visit to the household. The entries made against this question were not revised even if the person was found to be unemployed during his second visit to the household for the revisional round from 1st March to 5th March 1961. A person who works but was absent from his work during the 15 days preceding the day on which he was enumerated due to illness or other causes was treated as a worker. It is to be remembered that work not only includes actual manual labour but also effective supervision and direction. For example, a person having few acres of land may be supervising and directing without ploughing and harvesting himself. Such a person was regarded as worker. Persons under training as apprentices with or without stipend were also regarded as workers. A public or social worker engaged actively in public or social work or a political worker actively engaged in furthering the political aims of his party was also regarded as a worker. Under-trial prisoners or persons who were in jail but were not convicted by a Court of Law were regarded as workers if they were engaged in any of the activities, which are considered as work by our definition, before their arrest. Similarly persons who were admitted in hospitals or sanatoria were considered as workers if they were engaged in activities which are considered as work before they were so admitted.

(b) A person who has secured employment or has been offered a job but has not actually joined duty was regarded as non-worker. Any adult woman engaged in household duties, however useful it be, was not considered as a worker. But if, in addition to her household duties, she was engaged in items of work like hand-pounding of rice, spinning of cotton, etc., which gives her some monetary reward either in cash or in kind or was employed on domestic duties for wages as servant-maid, ayah or cook or was employed in selling firewood, cutting and selling of grass etc., she was regarded as a worker.

(c) Beggars, pensioners, rent or dividend receivers who were earning an income but were not participating in any productive work were not considered as workers, unless they were also engaged in industry, trade or commerce. Those persons, who were long-term inmates of penal, charitable or mental institutions, even though previously engaged in activities which satisfy our definitions of work, were regarded as non-workers.

The workers were divided into nine industrial categories which are mutually exclusive, *i.e.*, there will be no worker who is not included in any one of these categories. These classes are: (1) cultivation, (2) agricultural labour, (3) mining and quarrying, (4) household industry, (5) manufacture other than household industry, (6) construction, (7) trade and commerce, (8) transport, storage and communications and (9) other services.

Of these categories, 'cultivation' has been defined in a restricted sense while household industry is a specific concept newly introduced in 1961 Census. These two concepts are therefore explained in detail. According to our definition, a person is said to be a cultivator if he or she is engaged as an employer, single worker or family worker in:—

(i) Cultivation of land or supervision or direction of cultivation of land owned or held from Government.

(ii) Cultivation of land or supervision or direction of cultivation of land held from private persons or institutions, for payment in money, kind or share in the produce of crop.

It was not necessary that a person should own the land absolutely. Even if the land cultivated was held on lease or under a variety of tenure the person was entitled to be regarded as a cultivator.

Cultivation involves ploughing, sowing and harvesting and does not include the growing or keeping of orchards or groves or working in plantations like tea, coffee, rubber, cinchona and other medicinal plants. Persons engaged in tree-growing or working in plantations like tea, coffee, rubber, cinchona, were not treated as cultivators. A person who leased out his lands to others for cultivation and was getting a return in the shape of money or share of the crop but who did not even supervise and direct cultivation of land was not treated as cultivator. Similarly, a person working on another person's land as agricultural labourer and had no right or lease on the land on which he worked and was not responsible for taking decisions as to the kind of crop to be sown and was paid wages in cash or kind was not treated as cultivator.

Persons engaged in cultivation involving ploughing, sowing, harvesting of cereal crops such as rice, wheat and maize, crops like potato and sweet-potatoes, sugarcane, bengal-gram, pulses such as ground-nut, kesar and other grams, production of raw jute and kindred fibre crops and of raw cotton were considered to be cultivators.

In order to distinguish cultivation as defined in 1961 Census from certain other agricultural activities which do not come within the definition of cultivation and which are likely to be mistaken for cultivation, we give below the details of classification followed by us.

Field Produce coming under cultivation:

1. Production of cereal crops (including bengal gram), such as rice, wheat, jowar, bajra, maize; roots and tubers like potato, yam, beet etc., sugarcane etc.
2. Production of pulses, such as arhar, moong, masur, urd, khesari, other gram.
3. Production of raw jute and kindred fibre crops.
4. Production of raw cotton and kindred fibre crops.

Other Field Produce not coming under cultivation:

1. Production of other crops including vegetables not covered by items 1 to 4 above.
2. Production of fruits and nuts in plantations, vines and orchards (like cocoanut, arecanut etc.)
3. Production of wood, bamboo, cane reeds, thatching grass etc.
4. Production of juice by tapping palm.
5. Production of other agricultural produce (including fruits and nuts not covered by serial number 2 and flowers) not covered above.

Plantation Crops:

1. Production of tea in plantation.
2. Production of coffee in plantation.
3. Production of rubber in plantation.
4. Production of tobacco in plantation (does not include tobacco which is cultivated in rotation with other cereal crops, in which case it would go under cultivation).
5. Production of ganja, cinchona, opium, poppy, saffron etc.
6. Production of other plantation crops not covered above.

Household industry is defined as an industry conducted by the head of the household himself and/or by the members of the household at home or within the village in rural areas and only at home in urban areas. In other words, a household industry can be located at home and within the limits of the villages in rural areas. In urban areas, the industry must be confined to the house or at least a major part of the work must be located at home. In the case of urban areas, where the industry is not conducted at home but is situated elsewhere, it should not be treated as a household industry. The industry should not also be run on the lines of a factory. For purposes of classifying as a factory, an establishment should employ 20 persons when no power is used and 10 persons where some kind of power is used.

(b) An household industry should relate to the production, processing, servicing, repairing or making and selling of goods but should not be confined to the processes of buying and selling alone. For example, it does not include professions such as Pleader, Doctor and Astrologer. The test is mainly threefold:—

(i) A household industry should embrace manufacture, processing or servicing and may include sale but is not confined simply to purchase and sale. At least part of the goods offered for sale should be manufactured there.

(ii) A household industry should not be carried on the scale of a registered factory but should be confined to the household scale where the workers will be composed of the head of the household and/or the members of the household, the role of hired workers from outside, being of minor importance. The members of the household should be in a position to work in the industry whenever they find time from their daily routine. A household industry can use machinery and employ power like steam, electricity, oil, etc., to drive the machinery.

(iii) Location is another important factor in classifying an industry as a household industry, for proximity decides participation by members of the household. In rural areas, if the industry is located within the village instead of at home, it is possible for members of the household to move about freely in the village to look after the work. In urban areas, such free movement is not possible. Therefore in urban areas, the definition of household industry is limited to industries which are located at home though part of the work may be done outside. To quote an example, in a house situated in an urban area, weaving is done, for which the yarn has to be dyed before being used in looms for weaving. The dyeing of yarn may be done outside the house in an open space or even in a shed, some distance away from the house. The weaving industry, in this case, will be treated as a household industry, even though the dyeing of yarn is done outside the house. Some typical examples of household industry are given below :

(1) In the production of beedies, the workers either singly or with the help of the members of the family, roll beedies at home for wages, while the contractor supply the materials ;

(2) Processes like buttoning and hand sewing of cloth are carried on at home by members of the household, both at residence and at the place of work;

(3) Where womenfolk of the household fill at home with lac, gold ornaments prepared at the shop by male members of the household.

Madras State has a population of 6,067,327 persons belonging to Scheduled Castes, which represents 18·01% of the total population. Of these, 85% reside in rural areas. Percentages of population residing in rural and urban areas to the total population are given below :

		Total	Males	Females
Rural	...	20·82	20·88	20·76
Urban	...	10·30	10·27	10·32

The percentage of Scheduled Caste population is high in Chingleput rural area where they form 31·83% of the total population. Only in Nilgiris district, Scheduled Caste population is higher in urban areas than in rural. Kanyakumari district has a low percentage, *i.e.*, 4%.

2. The names of important castes and tribes which are found in the various districts are given below:—

Castes:	Adi-Dravida	...	1,763,000
	Chakkilian	...	778,076
	Kudumban	...	247,822
	Pallan	...	950,266
	Paraiyan	...	1,513,627
	Samban	...	136,818
Tribes:	Irular	...	79,835
	Kattunayakan	...	6,459
	Malayali	...	129.953
	Sholaga	...	6,136

3. The percentage of Scheduled Tribes is very low in Madras State as indicated below :

		Total	Males	Females
Rural	...	0·96	0·99	0·94

The Nilgiris District has the highest percentage of Scheduled Tribe population, 3·16%, the largest among the Tribes being Irulas. In Salem, the Malayali form 2·9% of the total rural population. In Chingleput and North Arcot Districts, the Scheduled Tribe population is more than 1%. In all other districts, it is less than 1%. The proportion of Scheduled Tribes in urban areas is practically negligible in all areas except Nilgiris where Scheduled Tribes form 2% of the population. Among the cities with a population of 50,000 and above, Valparai has high percentage of Scheduled Caste population, 44·85% among males and 46·05% among females. Next to Valparai, Ootacamund has 18·03% males and 19·55% females. The following towns have a higher percentage of Scheduled Tribes than the corresponding urban figures for the State 0·16.

Kanchipuram	...	0·90

28	KANYAKUMARI	Nagercoil	59 72	68·24	51·12

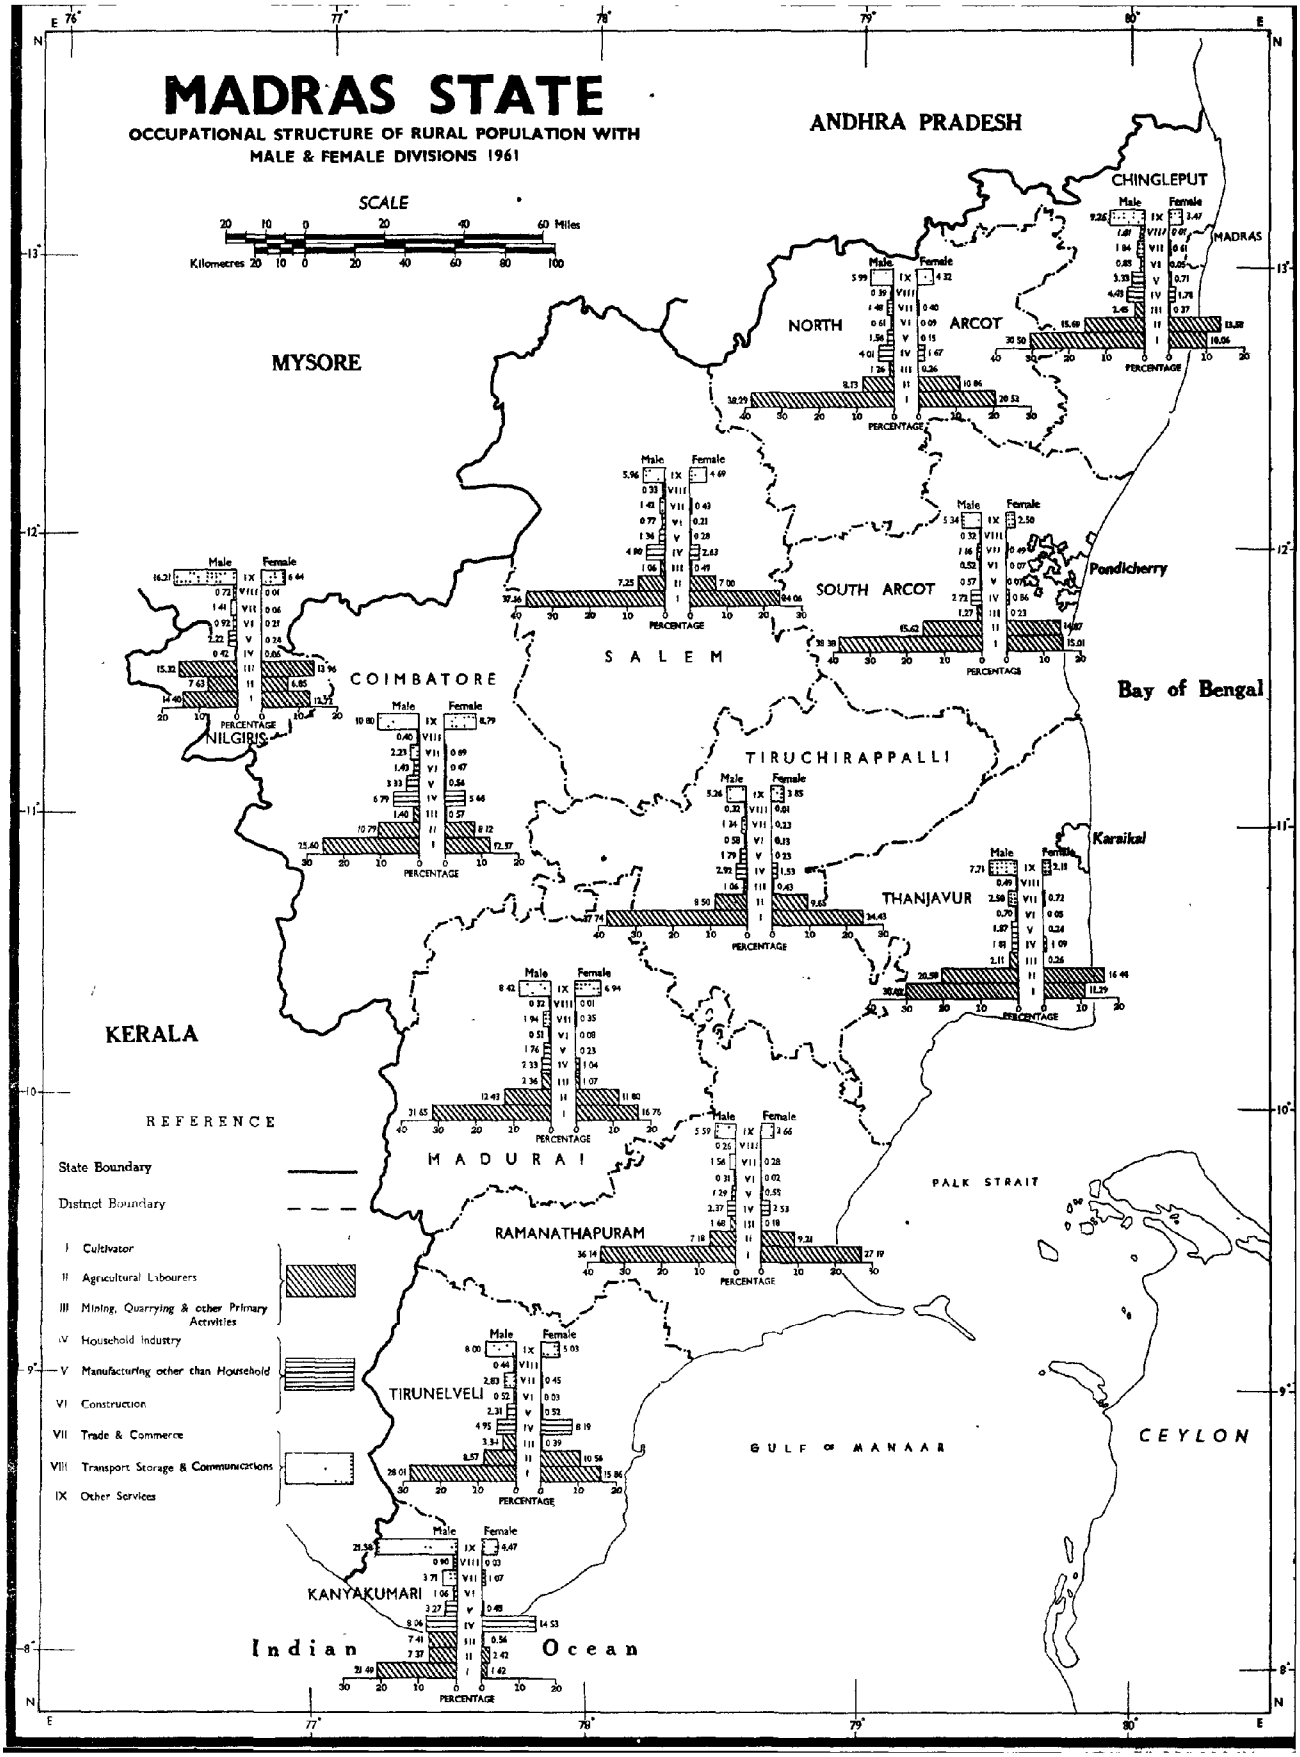

The figures for other towns for the proportion higher than the average of the State are also given. The percentage of literate population is the highest in Madras City, 59·47% and lowest in Salem District, 19·89%. It is interesting to note that the literacy of females in urban areas of Kanyakumari district is higher than the corresponding figure for Madras, *i.e.*, 49·54 as against 48·22 in Madras. Among the towns with a population of over 50,000 excluding Madras, Mayuram leads with a percentage of 60·46%, Coimbatore closely following with 60·19%. Valparai in Coimbatore district records the lowest percentage of literacy, 31·79%. Nagercoil has the highest

percentage of female literates, 51·12 and Palayamcottai with 48·91 occupies the second place. Among the other towns where the percentage of literacy is higher than that of the urban areas of the State, the following may be mentioned:

Town	Persons (Percentage)	Males (Percentage)	Females (Percentage)
Villivakkam (P) ...	62·6	73·5	50·7

Every 456 persons out of 1,000 are workers in Madras State. The working force is higher among males, being 597 as against 313. Again the working force is higher in rural areas than in urban. There are 344 workers in urban areas as against 496 workers in rural areas, the majority of the workers belonging to the agricultural classes in Madras State. This is also reflected in the rural areas. But in urban, the majority of workers are engaged in manufacturing, trade and commerce and other services. Percentage of workers in household industry is higher in urban areas where 4·2% of the population are engaged in household industry while in rural areas 3·4% are engaged in household industry. Construction workers form only 0·4% of the total population in rural areas while in the urban sector, they form 1·1%. Commercial activity, judged by the percentage of workers is five times higher in urban than in rural, percentages being 1·1 in rural and 5·3 in urban. Transport, storage and communication workers are high in the urban sector with 2·3 as against 0·2 in rural. The persons engaged in miscellaneous activities are more in urban being 9·6. But the percentage of female workers in this sector in rural areas is almost equal to that of urban 45·75 and 47·90 per 1,000.

A statement showing the participation rate of workers in agricultural and non-agricultural sectors is attached. We find that the maximum number of workers are employed in agriculture in South Arcot District followed by Tiruchirapalli and Thanjavur. South Arcot is industrially backward and therefore a large number of its population necessarily depend on agriculture. Tiruchirapalli and Thanjavur, because of the irrigation facilities afforded by the canal systems based on river Cauvery, have naturally a large section of workers depending on agriculture. The other extreme is Madras District which in actual fact is Madras Corporation; no section of the workers is completely dependent on agriculture. The other Districts which are least dependent on agriculture are Kanyakumari with a participation rate of 296, Nilgiris with a participation rate of 299 and Coimbatore with a participation of 460. All other districts have a rate higher than 500 which reflects the agrarian economy of Madras State.

It is interesting to study the participation rate of Kanyakumari in which 219 out of 1,000 are engaged in household industry and 266 are engaged in other services. As the level of education is high, a good percentage is employed in other services. There are some cottage industries which have absorbed a good section of workers. As regards Nilgiris, it is a hilly region with large tracts under forests and plantations. It is only natural that the participation of workers in agriculture is low. Nilgiris has the highest number of workers in mining and quarrying *i.e.* 299. Coimbatore District which is industrially most forward among the districts, after Madras City, has also a sound agrarian economy with its hard working ryots, and its irrigation systems based on canals as well as on wells.

When we examine the proportion of workers in other categories, we find the district of Madras has a higher concentration of workers in other services followed by manufacturing and trade and commerce. Madras City employs the largest number of workers in transport and communication. Under other services, Madras is followed by Nilgiris with its rate of 276, Kanyakumari with its rate of 266, Coimbatore with its rate of 212 and Madurai with its rate of 188. The lowest number is in South Arcot district which reflects its backwardness in education followed by Tiruchirapalli and Salem. It is difficult to understand the low participation rate in other services of Tiruchirapalli and Thanjavur which are educationally forward unless we presume that there is a large migration of educated people from these districts to other districts and outside the State. Even Tirunelveli has recorded only a low participation rate of 150.

In household industry, Kanyakumari (219) leads with Tirunelveli (155) and Coimbatore (110) following. Salem and Tirunelveli have a high participation rate. In manufacture the first place is held by Madras followed by Coimbatore, Chingleput, Tirunelveli and Madurai. Lowest is recorded by South Arcot District which has very low participation rate of 16. In trade and commerce, Madras leads with a participation rate 191 followed by Kanyakumari and then Madurai. On a study of the participation rates prepared by us, it would appear that after agriculture, other services constitute the most important sector of the economy followed by household industry. The number of workers employed in transport and communication and construction is comparatively low.

Statement showing the participation rate of workers in Agriculture and Non-Agriculture for 1,000 workers in each district of the Madras State

The ratio of female workers to male workers is the highest in The Nilgiris District as far as agricultural sector is concerned. The next is Ramanathapuram district followed by Tiruchirapalli. In all the districts with a definite agrarian economy, the participation of female workers in Agriculture is pronounced because it is in one activity in which women can play an effective role along with men. Nilgiris District has

recorded the highest ratio of women because in potato cultivation, women have a dominant role and the Badaga women are more hard working than their men. In Ramanathapuram district, the ratio is proportionately high because of the large influx of males to other areas and countries in search of work. This is reflected in the fact that the sex ratio for the general population is the highest for this district (1,060). As a rule, more educationally forward a district is, less do the women participate in any item of activity, much less in agriculture. This is shown by the sex rates of Madras and Kanyakumari which stand at 49and 144 in agricultural sector and 109 and 424 in non-agricultural sector.

Taking non-agricultural sector for consideration, we find Tirunelveli occupies the first place in the participation of women, followed by Coimbatore and Salem. Their participation is found to be high in household industries like handloom weaving, mat weaving, bidi-rolling, jaggery making which are very popular in Tirunelveli District. Salem is predominantly a handloom weaving centre which offers greater scope for participation of women. Coimbatore is highly industrialised which gives equal opportunities of employment to women. In Madras City, the sex ratio is the lowest in the State. Economically, people are better off and this unfortunately prevents women from participating in activities which earn money for the home. In Thanjavur, the people are comparatively better off because of its fertility and the out-turn which the land gives with out much effort and women in the families, therefore, do not trouble to seek work. Taking rural/urban areas separately, we do not find any disturbance of the sex ratio when they are compared with both rural and urban put together.

In agricultural sector, South Arcot rural occupies the first place which is in contrast to its position in the urban sector. South Arcot being economically backward, the women have no avenues of employment other than agriculture. The participation of women in non-agricultural sector in comparison with the rural sector is more pronounced in the case of Salem, Nilgiris and Ramanathapuram. In the urban areas of Coimbatore, industries are concentrated. The absolute figures of the 3 districts of Salem, Nilgiris and Ramanathapuram are as follows:—

		Rural	Urban
Salem	...	553	373
Nilgiris	...	569	390
Ramanathapuram	...	555	388

It will be seen that in all the 3 districts which constitute one natural division in Madras State, the rates remain more or less the same for both rural and urban sectors.

There are 519 female workers for every 1,000 male workers in Madras State. In urban parts there are only 271 female workers while in rural there are 598. Among the districts, the highest sex ratio is observed at Ramanathapuram where 696 females are at work per 1,000 male workers. The next district with a high sex ratio among workers is Salem where the ratio is 622 followed closely by Tirunelveli with 620. The lowest ratio is observed in Madras where only 109 females work for every 1,000 males while Kanyakumari has a ratio of 328. As can be expected, the sex ratio is highest in the Agricultural sector, both among cultivators and agricultural labourers. High sex ratio of 957 is found among agricultural labourers and household industry occupies the second place with a ratio of 772. The lowest ratio of 20 is observed in the category "Transport and Communications". Sex ratio among non-workers is 1,693, ratio being higher in urban areas with 1,749 against the rural ratio of 1,668.

* Surveyor General's figures. State Survey figures not available.

** These figures relate to area where all-India Schedule was canvassed (*i.e.* for 38,705 population).
The figures for N.E.F.A. are provisional.

1. Under column 3, (a) represents the area figures furnished by Surveyor General of India, (b) represents the area figures furnished by the State Survey Department. The urban areas are based on the area of individual towns furnished by the local authorities. The rural area for State is obtained by subtracting the urban area from the State Survey Area.

2. The Density figures of urban areas of State/Zone/India are worked out using the area figures corrected upto 2 places of decimal obtained by adding the areas of individual towns in the respective units. For total and rural the density figures are worked out on area figures corrected upto 1 place of decimal.

3. Population per square mile has been calculated on area figures supplied by State Survey Department, except in the case of Jammu & Kashmir, Andaman & Nicobar Islands and N.E.F.A. for 'total' and 'rural' where these have been calculated on the figures supplied by Surveyor General of India.

4. Area figures of some suburban units and Port Areas included as urban in Gujarat are not separately available. Population of these units is ignored for working out urban density. Rural density is based on the rural population only but the area figures also include the area of the urban units of which separate area is not available. The same procedure has been followed in the case of eight towns of Goa, Daman & Diu for which area is not available.

LIST OF AGENTS FOR THE SALE OF GOVERNMENT OF INDIA PUBLICATIONS
(as on 31st December 1962.)

AGRA—
- NATIONAL BOOK HOUSE, Jeeni Mandi. (Reg.)
- WADHAWA & CO., 45, Civil Lines. (Reg.)
