NOTE

The census enumeration was carried out in full according to plan but the Government of India decided to restrict the tabulation for British India. Consequently the tables in this volume cover less than half the contemplated range and offer in effect only the distribution of the population by community and by province or state, district, tehsil and town. In many areas however village tables will also be produced by provincial governments.

2. The slips in which the remaining unsorted information is to be found are stored in each province against a possible reopening of tabulation in happier circumstances.

CONTENTS

IMPERIAL TABLES

I—Area, houses and population	1
II—Variation in population during fifty years	7
III—Towns and villages classified by population	15
IV—Cities classified by population with variations since 1891	19
V—Towns arranged territorially with population by communities	25
XIII—Community	43
XIV—Variation in population of selected tribes	49

PROVINCIAL TABLES

I—Area and population of taluks	53
II—Population of districts and taluks by communities	59

I—AREA, HOUSES AND POPULATION

For details of population by taluks, see Provincial Tables I & II on pages 53—75 of this volume and for those by villages, see the Village Statistics published in a separate series of volumes, one for each district.

2. District areas shown in column 2 of this table are those of the latest determinations of the Survey of India. Changes from those of the 1931 Table are due to boundary revisions, resurvey or revised calculations. The figures given here differ in varying degrees from those in Provincial Table I. This is because taluk areas which are required for Provincial Table I are not available with the Survey of India and the figures of the Madras Survey have had to be adopted wholesale for want of time to permit of the correspondence necessary to investigate differences.

3. The 1931 definition of a house as " every dwelling with a separate main entrance " was continued at this census.

4. " Towns " are places of usually not less than 5,000 inhabitants possessing definite urban characteristics. Cantonments have been treated as separate towns on account of their possession of individual self-governing bodies. " Village " is the revenue administrative unit, not the residential village. " Urban " and " Rural " refer to persons living in towns or villages as above defined.

5. A few places not possessing the population minimum of 5,000 have been treated as towns under the special circumstance that they possess definitely urban characteristics. Excluding such special towns and applying rigidly the minimum population standard of 5,000, the urban total works out to 7,895,630 and the urban/rural ratio to 1 : 5.

II—VARIATION IN POPULATION DURING FIFTY YEARS

The figures recorded at previous censuses have been adjusted in cases where there have been subsequent territorial changes so as to show the previous census populations of the areas corresponding to those areas now forming the districts and thereby provide a correct basis of comparison.

† The figures for this district are for the period from 1st January 1933 to 31st March 1941 only whereas for all other districts they are for the period from 1st April 1931 to 31st March 1941.

III—TOWNS AND VILLAGES CLASSIFIED BY POPULATION

1. For definition of a "city" see fly-leaf to Table IV and for that of a "town" see fly-leaf to Table I.

2. For the purpose of this table the floating population is shown separately from the populations gathered under columns 5, 7, 9, etc. This element however is included in town populations for the purposes of Imperial tables IV, V and hence slight differences in total.

IV—CITIES CLASSIFIED BY POPULATION WITH VARIATIONS SINCE 1891

As a measure of retrenchment this table has been limited to cities. Every town with a population of 50,000 and over has been classed as a city.

2. Two cities of Class II in 1931 have now qualified for Class I, having exceeded the one hundred thousand population mark.

3. Six new cities appear at this census and are printed in *italics*.

4. From the population point of view Palamcottah, with only 30,967 inhabitants, should drop out of the list of cities, but, as it forms a single urban unit with Tinnevelly, it has been specially retained.

5. The population for previous censuses are those then recorded; no adjustments have been made for intercensal changes in area. The class totals are similarly unadjusted for subsequent additions to or deletions from the list of towns treated as cities.

3. Tinnevelly and Palamcottah are independent municipalities. They form, however, really a single urban unit. The figures for this aggregation are :—

	Population		Hindus		Muslims		Indian Christians		Others	
	M	F	M	F	M	F	M	F	M	F
Tinnevelly-cum-Palamcottah	44,305	47,338	36,374	39,257	4,198	4,428	3,727	3,649	6	6

4 Kilasevalpatti in Ramnad District and Pillamangalam (Alagapuri) in Pudukottai State form a single continuous urban unit though for the purpose of this table they have been shown under their political divisions. The aggregate population of the two places is given below :—

	Population		Hindus		Muslims		Indian Christians	
	M	F	M	F	M	F	M	F
Kilasevalpatti-cum-Pillamangalam	2,854	3,034	2,745	2,937	87	70	22	27

5. 75 new census towns appear at this census and all former towns in the Province continue. New towns are printed in *italics*.

The statement below summarises the changes in town population :

Places treated as towns which were not so treated in 1931		Variation in aggregate population of places which were treated as towns at both censuses
Number	Aggregate population in 1941.

PROVINCIAL TABLE I—AREA AND POPULATION OF TALUKS

The areas shown in column 2 are the latest determinations of the Madras Survey as taluk figures are not available with the Survey of India. The area of each taluk was taken to the nearest square mile for the purpose of this table, but in obtaining the district area the actual taluk areas were first added and the resulting figures then rounded. The total area of each district does not consequently agree with the added areas of its component taluks. This, however, is a more accurate method than adding the rounded taluk figures.

2. As explained in the fly-leaf to Imperial Table I district areas given in this table differ in varying degrees from those in Imperial Table I; but want of time prevented the investigation of differences and compelled the adoption of the Madras Survey figures as they are.

3. Previous census figures have been adjusted to allow for inter-taluk transfers, *i.e.*, to show the population that would have been recorded at those enumerations in the areas now forming the taluks.
