5. LATERI ..	1. Anandpur ..	1 to 8	55–56
	2. Lateri ..	9 to 17	56–58
	3. Seharkheda ..	18 to 22	59–60

NOTE

This booklet contains the population figures of 1971 Census according to administrative units for purposes of delimitation of Constituencies. The figures have been compiled from the records of the Director of Census Operations of Madhya Pradesh. It may be noted that the Census authorities do not compile census figures Patwari circle-wise. Also, in their method of compilation, non-municipal urban areas have been tagged on with the municipal areas, of which they form out-growths. As non-municipal urban areas are not legally within the municipal limits, in this booklet they have been tagged on to the relevant patwari circles. This will explain the difference between the population figures of towns having non-municipal out-growths as computed by Census authorities and as given in this booklet. The figures of Municipal towns as given in this booklet indicate the population comprised strictly within the municipal limits.

2. Forest villages do not form a part of any patwari circle, as they are not strictly revenue villages under the Madhya Pradesh Land Revenue Code. In this booklet they have, therefore, been attached to those patwari circles with which they are contiguous. They have been, however, distinguished by the abbreviation 'F. V.'.

3. Totals of population figures for every basic administrative unit, *e. g.*, patwari circle, revenue inspector circle, tahsil, etc., have been given in bold types opposite its particulars. Along-with the population figures pertaining to Scheduled Castes and Scheduled Tribes, their percentages to total population have also been given. Percentages have been worked out only in respect of basic administrative units and not village-wise.

4. The names of villages heve heen prefixed with Census Loeation Code numbers.
