SECRETARY PLANNING AND DEVELOPMENT, NEFA
AND
EX-OFFICIO SUPERINTENDENT OF CENSUS OPERATIONS
NORTH-EAST FRONTIER AGENCY

PREFACE

It is with a sense of misgiving mixed, at the same time, with a feeling of relief that this publication, the first ever authenticated account of the population of NEFA has been presented. I say a sense of misgiving because it is presented by one who was no where near NEFA or its administration during the Census of 1961; and a feeling of relief for the simple reason that the task has been completed.

The stewardship of the work of Census of 1961 in NEFA was indeed a chequered one. Unlike other States or Union Territories, no full-time officer was appointed to supervise the works relating to the Census and the charges of the offices of the Superintendent of Census Operations and that of the Assistant Superintendent of Census Operations were held in *ex-officio* capacities by the officers of the NEFA Administration at different times and for varied lengths of time. That there were as many as six Superintendents of Census Operations preceding me before I took charge of this office on 9.4.1963 would indicate the lack of continuity which adversely affected the works relating to the Census, and the only link, snapped by a 19 months' leave, has been provided by Smt. I. K. Barthakur, the Statistician of the Administration, who has been holding charge of the Office as the *Ex-Officio* Assistant Superintendent of Census Operations from 1959 till today.

Of my predecessors, I am grateful to Shri R. Yusuf Ali, the first *Ex-Officio* Superintendent of Census Operations. He was responsible for laying down a sound foundation for the Census Operations in NEFA and had helped in evolving the "Simplified System of Enumeration" which, I consider, was the only practical one under the existing NEFA conditions. I am also grateful to Shri R. H. M. D' Silva under whose guidance and supervision the Primary Census Abstract was compiled.

As earlier stated, Smt. I. K. Barthakur, as the *Ex-Officio* Assistant Superintendent of Census Operations, provided the only link in this work, and I can never hope to measure in words my indebtedness to her. Suffice it to say that without her and her untiring efforts, it would not have been possible to present this publication.

I would also record my appreciation for the assistance rendered by Smt. J. Biswas. Though she did not belong to the Census Organisation, she had helped immensely in the preparation of this publication. My thanks are also due to Sarvashri D. C. Chakravorty and S. R. Chakravorty, the Draftsmen, M. Chasie and I. N. Gohain, the Sub-Inspectors of Statistics, and Dil Bahadur Rai the Typist.

I am grateful to the Registrar General of India and in particular to Shri A. Chandra Sekhar the Officer on Special Duty of his office, who gave us valuable guidance in finalising the work. I am also grateful to Shri K. D. Ballal the Central Tabulation Officer in the Registrar General of India's Office for checking the material presented in this volume.

Last but not the least, I am grateful to the host of workers in the field who, inspite of innumerable odds and difficulties, helped to make the first full-scale Census of NEFA a success, thereby making available for the first time accurate data and other important information relating to NEFA.

INTRODUCTION

The late G.B. Pant, the erstwhile Union Home Minister of India had said, "————in these days, you cannot take up any serious administrative, economic or social work without referring to the Census Report, which is an essential part of every inquiry, of every study....." This saying applies significantly to the North-East Frontier Agency (or NEFA). The Census of 1961 is of great importance to NEFA not only because it was conducted with a degree of accuracy not previously attained, but also because the materials so collected are published, for the first time, on the All India pattern to fit into the national picture, in order to enable the users of the data to draw future development plans and administrative policies on national basis.

The Census of NEFA, 1961 was a unique experience for NEFA and for the Registrar General of India. The terrain and the other problems of this area are so peculiar that the Registrar General of India had to make, from time to time, a vast number of concessions and relaxations.

The Census of NEFA, 1961 had to face a number of problems. As NEFA is censused for the first time in 1961 we had no precedent to follow on administrative and other matters and also no list of villages. The frame of villages used in the Survey of Human Population conducted by the NEFA Administration in 1957-58 helped a great deal.

The Back-ground

The NEFA is geographically and constitutionally a part of Assam and is situated on the borders of Bhutan, Tibet, China and Burma. Her international border is nearly 800 miles in length. The total area of NEFA is 81,424 square kilometres, practically the whole of which is hilly terrain. The area is underdeveloped. Some parts of the Agency are so remote that one takes nearly twenty days to reach them from the nearest jeepable point.

In 1961, NEFA was administered by the Ministry of External Affairs with the Governor of Assam acting as the agent of the President of India under the provisions of the Sixth Schedule (Part B) of the Constitution of India. Since the first day of August 1965, the administrative control of NEFA was transferred to the Ministry of Home Affairs. The Governor of Assam is assisted by the Adviser to the Governor of Assam in administering NEFA. The NEFA Secretariat is situated at Shillong, the capital of Assam.

In 1961 NEFA consisted of five Frontier Divisions corresponding to the districts in other parts of the country. Each Frontier Division was under the charge of a Political Officer. The Frontier Divisions are since renamed as 'Districts' and the Political Officers are redesignated as the 'Deputy Commissioners'. The Pasighat Sub-Division was administered like an independent Frontier Division of NEFA under the charge of an Additional Political Officer with effect from the 1st April, 1961.

Normally, the census reports take note of the changes, administrative or otherwise, that take place upto the reference date, *i.e.*, in the present case upto 1.3.1961 and all statistics relate to that date. Here, the publication of this volume has taken sometime and the administrative changes have actually taken place between the reference date and the publication of this book, some of these major changes which relate to post census period have been reviewed in brief for facility of reference. The statistics presented in this volume, however, are in accordance with and based on the position which obtained on the reference date.

In addition to Pasighat, four other sub-divisions are now administered by Additional Political Officers (now Additional Deputy Commissioners) with their headquarters at (1) Tawang, (2) Daporijo (now independent sub-division), (3) Roing later shifted to Anini (now independent sub-division) and (4) Changlang (now amalgamated to the D.C's office at Khonsa). Other sub-divisions are in the charge of the Assistant Political Officers (now redesignated as the Assistant Commissioners and Extra Assistant Commissioners). The Circles are looked after by the Base Superintendent (now redesignated as the Circle Officers and the Area Superintendents).

The system of administration is organised on what is generally known as the 'Single Line' pattern. At the Secretariat level, the Heads of various Departments used to function as the Ex-Officio Secretaries for their respective Departments. In the district level, the Political Officers are assisted by the technical advisers who are under his general administrative control. The important technical Officers at the district level are the Divisional Medical Officers, District Agricultural Officers, Divisional Inspector of Schools, Divisional Statistical Officers, Divisional Industries Officer, *etc.* The Senior Administrative Officers of

the Agency are drawn from a special administrative cadre called the Indian Frontier Administrative Service (I.F.A.S.). The Public works are looked after by the units of the Central Public Works Department.

From 1961 to 1965, there were a number of changes in the Administrative set-up. As referred to earlier, the major changes were from the first day of August, 1965, when the control of the NEFA Administration passed on to the Ministry of Home Affairs and with effect from the first day of September, 1965, the 'Political Officers' were redesignated as the 'Deputy Commissioners' and the 'Frontier Divisions' as the 'Districts', under the North-East Frontier Agency (Administration) Regulation, 1965. This Regulation is reproduced at the end of this book as Appendix VIII. Earlier, in November 1962, the bifurcated offices of the Adviser to the Governor of Assam and the Commissioner of NEFA were amalgamated. The latter post was abolished, and to assist the Adviser to the Governor, the Agency Secretariat was strengthened by appointing a number of full time Secretaries, Deputy Secretaries and Under Secretaries in charge of different Departments/ Branches.

For Administrative purposes, the Daporijo Sub-Division was attached to the Siang Frontier Division since 1959. Earlier, as per the North-East Frontier Areas (Administration) Regulation 1954, Daporijo formed a part of the Subansiri Frontier Division. The population details of this sub-division have, therefore, been included in the Siang Frontier Division, although the area figures for the sub-division could not be separated from the Subansiri Frontier Division.

SECTION 1

BRIEF ACCOUNT OF THE CHANGES AND DEVELOPMENT ON THE AREA OF THE NORTH-EAST FRONTIER AGENCY AND ITS DIVISIONS (CORRESPONDING TO DISTRICTS IN OTHER STATES)

The territorial jurisdiction of the area of the North-East Frontier Agency as it is constituted today has evolved through a gradual process of development and administration. North-East Frontier Agency is constitutionally within the State of Assam, but the administration of this Agency is carried on by the President of Inddia through the Governor of Assam acting as his Agent under the provisions of the Sixth Schedule (Part B) of the Constitution. The relevant provisions are in paragraphs 18 and 20 of the Sixth Schedule of the Constitution.

(Extracts of paragraphs 18 and 20 of the Sixth Schedule of the Constitution)

"**18. Application of the provision of this Schedule to areas specified in part B of the table appended to paragraph 20** :

(1) The Governor may—

(a) subject to the previous approval of the President, by public notification, apply all or any of the foregoing provisions of this Schedule to any tribal area specified in Part B of the table appended to paragraph 20 of this Schedule or any part of such area and thereupon such area or part shall be administered in accordance with such provisions, and

(b) with like approval, by public notification, exclude from the said table any tribal area specified in part B of that table or any part of such area.

(2) Until a notification is issued under sub-paragraph (1) of this paragraph in respect of any tribal area specified in Part B of the said table or any part of such area, the administration of such area or part thereof, as the case may be, shall be carried on by the President through the Governor of Assam as his Agent and the provisions of Article 240 apply thereto as if such area or part thereof were a Union Territory specified in that Article.

(3) In the discharge of his functions under sub-paragraph (2) of this paragraph as the agency of the President the Governor shall act in his discretion."

"20. Tribal Areas—(1) The areas specified in parts A & B of the table below shall be the tribal areas within the State of Assam. (2)..... Provided that the tribal areas specified in Part B of the table below shall not include any such areas in the plains as may, with the previous approval of the President, be notified by the Governor of Assam in that behalf.

Table

Part A

× × ×

Part B

1 North-East Frontier Tract including Balipara Frontier Tract, Tirap Frontier Tract, Abor Hills district and Mismi Hills district.

2 The Naga Tribal Area

× × ×

Reverting back to the earlier history, prior to 1912-13 the administration of the area which now constitute North-East Frontier Agency were parts of the districts of Lakhimpur and Darrang in Assam and looked after by the Deputy Commissioners of those districts, as Frontier Tracts. In 1882, the Government of India sanctioned the appointment of a Special Officer at Sadiya in the Lakhimpur District to look after the tribes in that sector. Accordingly, Mr. F. J. Needham was appointed (1883) as the first Assistant Political Officer of the Dibrugarh Frontier Tract with Headquarters at Sadiya, under the Deputy Commissioner of Lakhimpur. His tenure of office (1883-1905) was marked by significant official tours in the tribal country (he journeyed upto Rima). He contributed valuable knowledge about the geography of the land and the Mishmi tribe. His successor Mr. Noel Williamson (1905-1911) followed former's foot-step to a great extent and under-took extensive

tours in the present Lohit and Siang Frontier Divisions right upto Rima on the border. He also explored the possibilities of establishing trade ties across the border with Tibet.

In the year 1911, Mr. Williamson and Dr. Gregorison (a Tea Garden doctor) were murdered by the Abors while on tour at Pangi. The Government took a serious view of this action and sent a strong Military Mission to restore peace and order in the Abor country. On the recommendation of Maj. Gen. Bower who led the Military Mission, the area was divided into three sections *viz*, (i) Eastern Section (*ii*) Central Section and (iii) Western Section. For administrative purposes the new charges were known as the (i) Central and Eastern Section, North-East Frontier Tract, (ii) the Lakhimpur Frontier Tract and (iii) the Western Section, North-East Frontier Tract, with Headquarters respectively at Sadiya, Dibrugarh and Charduar. The definition of the boundaries of these charges are contained in the following notifications issued by the Government of India in the Foreign and Political Department :—

(i) No. 977 E.B., dated 25th September, 1914,

(ii) No. 978 E.B., dated 25th September, 1914, and

(iii) No. 979 E.B., dated 25th September, 1914.

In 1919, the two charges *viz*, the Western Section and the Central and Eastern Sections were renamed as Balipara Frontier Tract and the Sadiya Frontier Tract respectively. Subsequent to these changes, minor territorial adjustments were effected in the Balipara Frontier Tract. Lakhimpur Frontier Tract and Sadiya Frontier Tract. The relevant notifications regarding these minor adjustments are contained in the following Government of India, Foreign and Political Department's notification :—

(i) Notification No. 7281 A.P., dated 8th December, 1921

(ii) Notification No. 2632 A.P., dated 21st May, 1925

(iii) Notification No. 5691 A.P., dated 9th November, 1926

(iv) Notification No. 2847 A.P., dated 26th April, 1928

(v) Notification No. 5763 A.P., dated 12th August, 1929

(vi) Notification No. 1470 A.P., dated 26th February, 1931

(vii) Notification No. 6779 A.P., dated 2nd November, 1934

(viii) Notification No. 278-GS, dated 20th January, 1939 and

(ix) Notification No. 3294-GS, dated 27th September, 1939.

In 1943, by the North-East Frontier Tracts (Internal Administration) Regulation, 1943, as subsequently amended by the North-East Frontier Tracts (Internal Administration) (Amendment) Regulation, 1944, a new Administrative unit was set-up by taking out certain areas from the Sadiya Frontier Tract and from the Lakhimpur Frontier Tract to constitute a new Frontier Tract designated as the Tirap Frontier Tract which was placed under the charge of a separate Political Officer with headquarters at Margherita.

In 1946, on consideration of administrative grounds and expediency, the *de facto* division of Balipara Frontier Tract into two administrative units was effected *viz*, (i) the Sela Sub-Agency and (ii) the Subansiri Area with headquarters respectively at Charduar and North Lakhimpur.

In 1948, by the North-East Frontier Tracts (Internal Administration) Regulation, 1948, the Sadiya Frontier Tract was divided into two separate units of administration called the Abor Hills District and the Mishmi Hills District, each under a separate Political Officer. The Headquarters of the Abor Hills District was at Pasighat while that of the Mishmi Hills District was at Sadiya.

In 1954, by the North-East Frontier Areas (Administration) Regulation, 1954, readjustment and redesignation of the administrative units were made. By this regulation, the North-East Frontier Tract including the Balipara Frontier Tract (the Sela Sub-Agency and the Subansiri Area), the Tirap Frontier Tract, the Abor Hills District, the Mishmi Hills District and the Naga Tribal Area were to be collectively known as the **North-East Frontier Agency**. The Frontier Tracts were renamed as Frontier Divisions. The Balipara Frontier Tract (the Sela Sub-Agency and the Subansiri Area) was divided into two separate administrative units called the Subansiri Frontier Division and the Kameng Frontier Division. The Tirap Frontier Tract was renamed as the Tirap Frontier Division. The Abor Hills District and the Mishmi Hills District were renamed as the Siang Frontier Division and the Lohit Frontier Division respectively. The Naga Tribal Area was renamed as

the Tuensang Frontier Division. The Headquarters of the Political Officers of the six Frontier Divisions as thus renamed are indicated below :—

	Name of the Division	Hqs. of Political Officers
(i)	Kameng Frontier Division	Bomdi-La
(ii)	Subansiri Frontier Division	Ziro
(iii)	Siang Frontier Division	Along
(iv)	Lohit Frontier Division	Tezu
(v)	Tirap Frontier Division	Khela (later in 1957 shifted to Khonsa)
(vi)	Tuensang Frontier Division	Tuensang

In 1957, by the Naga Hills-Tuensang Area Act, 1957 (Act No. 42 of 1957), the Tuensang Frontier Division was transferred from North-East Frontier Agency to the new administrative unit then called the Naga Hills-Tuensang Area. The North-East Frontier Agency, after the transfer of the Tuensang Frontier Division, comprises an area of 31,438 sq. miles (provisional and approximate) and the Census of 1961 was confined within this area.

Since the Census of 1961 and before this publication, the Frontier Divisions were renamed as Districts and the Political Officers were redesignated as Deputy Commissioners. The name of the Districts and the Headquarters of the Deputy Commissioners are as under :- -

	Name of the District	Hqs. of Deputy Commissioner
(i)	Kameng District	Bomdi-La
(ii)	Subansiri District	Ziro
(iii)	Siang District	Along
(iv)	Lohit District	Tezu
(v)	Tirap District	Khonsa

The designation of administrative units are given in this volume as they obtained in 1961.

In 1951 Census, the plains portion only of the then North-East Frontier Tract was censused. All these plain portions and the entire Naga Tribal Area have since been transferred to the plain districts of Lakhimpur, Darrang and Nagaland respectively. The approximate area of the portion which was regularly censused in 1951 as well as the total area of the North-East Frontier Agency before the aforementioned transfers took place are indicated below :-

	Total Area (in sq. miles)	Area actually censused (in sq. miles)
(i) Mishmi Hills	9,389·5	391·7
(ii) Abor Hills	8,544·5	273·9
(iii) Tirap Frontier Tract	2,876·4	124·8
(iv) Balipara Frontier Tract	12,103·9	531·2
(v) Naga Tribal Area	2.054·6	50·0
Total	**34.968·9**	**1,371·6**

SECTION 2

CENSUS OF NEFA 1961

Census of NEFA 1961

The Census of NEFA was conducted in 1961 on the face of the extremely difficult communication and the age old superstitions of the people of NEFA. The terrain itself presented one of the major obstacles. As stated earlier, a number of concessions were made and innovations introduced. The details about the schedules and tables are given in some of the following paragraphs.

Tabulation Volumes

Of the two publications presenting the tables, the Census of India 1961, Volume XXIV, the North-East Frontier Agency, Part II-A, gives the General Population tables, the Primary Census Abstract, Village Directory and NEFA special tables based on the Simplified NEFA Census 1961 Schedule. All other tables as prescribed by the Registrar General of India under the general tabulation plan, are presented in the other volume.

The Schedules

Two different sets of schedules were used for enumeration, *viz.* (A) Simplified Census of NEFA 1961 Schedules and (B) All-India Census Schedules and Individual Slips. These Schedules were finalised when NEFA participated in the pretesting of the All-India Census 1961 Schedules. The pretesting took place in the months of August-September, 1959 and the results were reviewed in the All-India Census Conference 1959, held at New Delhi. The Census Schedules and the instructions to the enumerators were finalised in this Conference for the whole country. The salient features of the two sets of schedules used in NEFA are given below.—

(A) Simplified Census of NEFA 1961 Special Schedule

The Simplified Census of NEFA 1961 Schedule was specially designed for NEFA. This Schedule will hence forth be referred simply as simplified schedule. The difficulties of conducting an intensive: Census in 1961 in the All-India Pattern over a short period in whole of NEFA, were recognised. As such, it was agreed to canvass a simpler schedule. The simplified schedule was canvassed in all the NEFA villages, except in a few villages covered by the All-India Census Schedules and Individual Slips.

The simplified schedule covered 2,382 villages and a population of 297.853 persons, *i.e.* 88.5% of the NEFA population living in 97.2% of the NEFA villages. These schedules collected household information and not the details relating to an individual as were collected in the All-India Census Individual Slip. The canvassing of the Simplified Schedule was non-synchronous. The enumeration started on the first day of December 1959, and continued till the sunrise of the first day of March, 1961. The Vijay-Nagar area in the Tirap Frontier Division could not be covered till a later date due to the circumstances beyond our control. The population of the three villages of Yobin tribe of this area (Persons 781, Males 411, Females 370) has been included in the totalNEFApopulation. Unfortunately, the economic and other details of this population could not be included in the relevant tables. All the known villages of NEFA were covered in the Census except for an estimated number of 60 villages with an estimated population of 2,000 persons belonging to the Sulung Tribe, living in the North Eastern parts of the Kameng Frontier Division.

The Simplified schedules are sheets on which the household particulars of 20 households can be recorded (bound in registers containing 25, 50 or 100 numbers of such schedules). The main body of the simplified schedule contained the following household questions :—

(1) Name of the head of the household.

(2) Name of the tribe.

(3) Name of the dialect/language of the household (mother-tongue).

(4) Duration of residence of the household in the village.

(5) The details of the people belonging to the household was collected as follows :—

  (a) By sex and age-groups, (Namely, (i) 0 to 4 years (ii) 5 to 14 years and (iii) 15 years and above).

  (b) Amongst those who were more than 4 years in age, how many (of the either sex) were literates.

(6) The details of the households land under permanent cultivation (Wet Rice fields and terrace rice fields) were collected. It was also asked what main crop was being cultivated

in the Jhum fields belonging to the household.

A copy of the Simplified Schedule, along with the instructions to the enumerators, are placed as Appendix to this volume.

(B) The All-India Census Schedules and Individual Slip.

The All India Census Schedules and Individual Slip were used all over the country to conduct the 1961 Census. These schedules could not be canvassed in all the villages of NEFA for the reasons stated earlier. However, these were canvassed in some selected villages. The Houselist and the Household Schedule, alongwith the Inidividual Slip, were canvassed in eleven villages, whereas the Individual Slip only was canvassed in 58 selected villages in addition to the eleven villages mentioned. These eleven villages were : (1) Tawang (2) Bomdi-La (3) Bhalukpung (4) Ziro (5) Daporijo (6) Along (7) Pasighat (8) Roing (9) Tezu (10) Namsai and (11) Khonsa. All the formalities prescribed by the Registrar General of India and followed in all other States were observed in these places. 22,717 persons, that is, 6.75% of the NEFA population living in 0.4% of the NEFA villages were covered in this manner. In 58 other places, mostly the headquarters of Administrative Centres, the Individual Slip was canvassed in place of the Simplified Schedule. In these 58 places covered 15,988 persons were enumerated, that is 4.8% of the NEFA population living in 3.4% of the total villages were covered. These figures exclude the population of the eleven Administrative Centres mentioned earlier. The total population covered on the Individual Slip was 38,705 persons, constituting 11.5% of the NEFA population, living in 2.8% of the NEFA villages.

The sixtynine (69) places which were thus selected for All-India type of Census are not, therefore, representative of the entire NEFA population.

The following table gives the details of population covered during the Census of NEFA 1961 on different sets of schedules and also the summary of the NEFA population :

POPULATION COVERED DURING THE CENSUS OF NEFA 1961, ON DIFFERENT SETS OF SCHEDULES AND SUMMARY OF NEFA TOTAL POPULATION

	Area/Division	No. of Inhabited Villages	Area in Sq. Miles	Area in Sq. Kilometers	Total NEFA Population Persons	Total NEFA Population Males	Total NEFA Population Females	Population covered on Simlified Schedules No. of Villages	Population covered on Simlified Schedules Persons	Population covered on Simlified Schedules Males	Population covered on Simlified Schedules Females

X Excludes area of Daporijo Limeking and Jaliha administrative centre of Daporijo Sub-division.

The contents of the Houselist, the Household Schedule and the Individual Slip are given below.

Houselist

It provided details of housing data like the uses to which the census houses are put and the classification of census houses used as workshops and factories, by nature of Industry, power used and size of establishment. The houses used as dwelling, distribution of households living in census houses used wholly or partly as dwelling by predominant material of wall and material of roof, and households classified by number of members and by number of rooms occupied.

The Houselist consisted of a sheet on which particulars of twenty census houses could be recorded. A copy of the Houselist and Instructions are given in the Appendix. Besides the space provided at the top for the name and code number for the District, the Tahsil/Town and the Village/Ward/Mohalla, there were the following eighteen columns on the form :—

1 Line No. (referring only to line on the Form).

2 Building Number (Municipal or local Authority or (census number if any).

3 Building Number (col. 2) with sub-number for each Census House.

4 Purpose for which census house used, *e.g.*, dwelling, shop, shop-*cum*-dwelling, business, factory, workshop, school or other institutions, jail, hostel, hotel, *etc.*

"If this Census house is used as an establishment, workshop or factory" (cols. 5 to 8)

5 Name of establishment or proprietor.

6 Name of product (s), repair or servicing undertaken

7 Average No. of persons employed daily last week (including proprietor or household members, if working)

8 Kind of fuel or power, if machinery is used.

Description of census house (cols. 9 and 10)

9 Material of wall

10 Material of roof

In case of census house is used for dwelling (cols. 11 to 14).

11 Sub-number of each Census Household with Census House-number (col. 3)

12 Name of Head of Household.

13 No. of rooms in Census Household.

14 Does the household live in own or rented house?

No. of persons residing in census household on the day of visit (cols. 15 to 17)

15 Males

16 Females

17 Total

18 Remarks

Household Schedule

It collected general and household economic data the household Schedule consisted of two parts:—the Part I is a Household Schedule and the Part II is the Census Population Record. One Form was filled in for each household. A copy of the household schedule is given in the Appendix. In Part I, after recording the name of the Head of household and ascertaining whether he belonged to a Scheduled Caste or Scheduled Tribe, the following household particulars were recorded.

A If the hosehold was engaged in cultivation, the area of land cultivated as owner and tenant separately, as also any owned area leased out for cultivation. The area let out for cultivation by non-cultivating owners was also recorded;

B If the household was engaged in a household industry, the nature of the industry, and number of months in a year, it was conducted; and

C Number of members of the household and any hired workers pursuing household cultivation, household industry, or both these activities.

The Part II of the Schedule was filled in from Individual Slips. The following particulars were noted on it for each person in the household:—

Name;

Sex;

Relationship to Head;

Age;

Marital Status; and

Description of work in the case of worker.

The Household Schedules were utilised for compiling statements on the size and composition of households, activities of the working members, size of operational holding, and working of household industries.

Individual Slip

This is the main form of the Census. This is printed on one side of a slip measuring $6\frac{1}{2}'' \times 5''$. This slip was canvassed for each individual living in

the 60 selected places mentioned earlier. The slip contains 24 questions grouped under 13 items reproduced below :

Location Code :

1 (a) Name :
(b) Relationship to Head
2 Age last birthday
3 Marital Status
4 (a) Birth place
(b) Born R/U
(c) Duration of residence if born elsewhere
5 (a) Nationality
(b) Religion
(c) S.C. S.T.
6 Literacy & Education
7 (a) Mother tounge
(b) Any other language (s)
8 Working as Cultivator
9 Working as Agricultural labourer
10 Working at Household Industry
(a) Nature of work
(b) Nature of Household Industry
(c) If Employee
11 Doing work other than 8, 9, 10
(a) Nature of work
(b) Nature of Industry, profession, Trade or Service
(c) Class of worker
(c) Nature of Establishment
12 Activity if not working
13 Sex

The Individual Slip and the instructions to the Enumerators are placed in the Appendix to this volume.

Eight Divisional Statistical Officers finalised the details of the field operation and selected the field staff with the co-operation of the Divisional (District) Administration. The National Maps of each Frontier Division showing all the known villages were prepared and given to the Divisional Census Officers for expediency in field works. Organization of the Census count.

The following agencies were trained for conducting the Census:—

(i) The Divisional Statistical Officers were given intensive training at Shillong by the Assistant Superintendent of Census Operations.

(ii) The selected enumerators for the eleven selected places, where full formalities connected with the All-India Census 1961 were observed, *viz.* housenumbering, Houselisting, canvassing of Household Schedule and Individual Slips, were intensively trained by the Divisional Statistical Officers.

(iii) The enumerators selected for canvassing the Individual Slips at every Circle Headquarters, were adequately trained.

(iv) The Divisional Statistical Officers also trained the enumerators selected for canvassing the Simplified Schedules.

(v) The selected enumerators from the engineering Department of CPWD, NEFA, engaged to enumerate the labourers and road gangs working in the far flung areas, were trained by the Assistant Superintendent of Census Operations, NEFA, and the Divisional Statistical Officers at the Divisional headquarters.

(vi) The Army and Assam Rifles enumerators who enumerated the combatants, were separately trained in various camps by the Assistant Superintendent of Census Operations, NEFA.

(vii) The people engaged in the Border Roads Organisation who were enumerated through the selected enumerators belonging to the same organisation were trained in separate groups by the Assistant Superintendent of Census Operations, NEFA.

(viii) The Forest staff not stationed in the Administrative Headquarters were enumerated through the selected enumerators belonging to the Forest Department. These enumerators were given training by the Divisional Statistical Officers.

(ix) The Survey of India personnel (including labourer) who were at that time engeged on Survey Work, were enumerated to the enumerators belonging to that Department who were given training by the Assistant Superintendent of Census Operations, NEFA and Divisional Statistical Officers.

The Census of NEFA 1961 was conducted on All-India Schedules and the Individual Slips from the 10th February 1961 to the 28th February, 1961.

In the eleven places where all the census Schedules were canvassed and in the 58 other places where Individual Slips were canvassed, the revisional rounds were made by the Enumerators to each household from the 1st March to the 5th March, 1961 verifying the records. The children born in the interval between the first visit to the household by the enumerator and the sunrise of the 1st March 1961 were included in the list. In the same way, the Slips for

the persons who died during this period were cancelled.

Rural/Urban

In the past, determination of rural or urban areas was done at the discretion of the individual Census Superintendents. As a result, there were marked variations in the standards applied, not only from State to State but also within the same State and from one census to another. As a result, any comparison of the trends of urbanisation in the country could be made only with considerable limitations. In this Census, the Registrar General of India prescribed uniform criteria to define the urban and the rural areas. Every place which had a municipality etc. was treated as town. In addition to this the following imperical tests were applied :(a) a population of not less than 5,000, (b) density not less than 1,000 persons per square mile, and (c) at least three fourth of the adult male population engaged in non-agricultural livelihood, (d) the place should have, according to the Superintendent of the State, a few pronounced Urban characteristics and amenities. According to this yardstick, the whole of NEFA area is rural. As such, no columns for urban population have been kept in the tables, and only rural figures have been presentable in the tables. A village is a collection of houses with a more or less defined boundary, which is recognised as a village according to customs or traditions. The hamlets of a village are included in the main village.

Area

The area figures are available only upto the Divisional (District) level as provided by the Director of Map Publications, Survey of India. The area figures appearing in the Census of NEFA publications should be taken as provisional and approximate. NEFA is yet to carry out a cadastral survey and no other system of land records is in vogue. As a result, some tables prescribed by the Registrar General, India, under general tabulation plan had to be dropped.

The States Reorganisation Commission 1956 did not affect NEFA.

There is no standard land tenure system in NEFA. All the land in NEFA is governed by the Balipara/Tirap/Sadiya Frontier Tract/Jhum Land Regulation, 1947. These Regulations are reproduced at the end of this book as appendices. This Regulation does not effect most of the intricate questions relating to the system of ownership and possession of land in NEFA.

Combatants

The Individual Slips relating to the Army and Assam Rifles personnel were sent to New Delhi, where they were re-distributed according to the places of birth of the personnel.

The Tables

The data collected on the Simplified Census of NEFA 1961 Special Schedules are presented in the following tables in this volume :

NEFA Special Table No. 1	Area, number of villages, number of households and population.
NEFA Special Table No. 2	Distribution of villages according to population groups.
NEFA Special Table No. 3	Duration of residence.
NEFA Special Table No. 4	Size of Households.
NEFA Special Table No. 5	Population distribution by age groups.
NEFA Special Table No. 6	Institutional Population.
NEFA Special Table No. 7	Literates.
NEFA Special Table No. 8	Population according to Tribes.
NEFA Special Table No. 9	Distribution of villages according to Population groups.
NEFA Special Table No. 10	Languages/Dialects.
NEFA Special Table No. 11	Land under Permanent Cultivation. W.R.C. (Wet Rice Cultivation) T.C.R. (Terrace Rice Cultivation).

The following tables prescribed by the Registrar General, India have been prepared from the data collected on the All-India Census Schedule and Individual Slip. Since NEFA is entirely rural, the tables relating to urban areas have not been prepared.

A—Series

(General Population Tables)

A-I—Area, Houses and Population

Appendix I to Table A-I—Statement showing 1951 territorial units constituting the present set up of NEFA.

Appendix-II to Table A-I—Number of villages with a population of 5,000 and above.

Appendix III to Table A-I—Houseless and Institutional population (There are no houseless persons in NEFA).

A-II—Variation in Population during Sixty years.

Appendix to Table A-II—Statement showing 1951 population according to its territorial jurisdiction in 1951, changes in area and population involved in those changes.

A-III—Villages classified by Population.

Appendix to Table A-III—Villages classified into four broad size groups of population.

Appendix I to Table A-I, Table A-II and its Appendix have not been prepared as NEFA was censused for the first time in 1961 and no population figures are available for the past decades.

B—Series

(General Economic Tables)

B-I—Workers and Non-Workers classified by sex and broad age-groups.

B-III Part B—Industrial classifications of Workers and Non-Workers by Educational levels in rural areas.

B-IV Part A—Industrial classification by sex and class of worker of persons at work at household Industry.

B-IV Part B—Industrial classification by Sex and class of worker of persons at work in Non-household Industry, Trade, Business, Profession or Service.

B-IV Part C—Industrial classification by sex and divisions, major groups and minor groups of persons at work other than cultivation.

B-V—Occupational classification by Sex of persons at work other than cultivation.

B-VII Part A—Persons working principally (i) as Cultivator (ii) as Agricultural Labourer (iii) At Household Industry classified by Sex and by secondary work (i) At Household Industry (ii) As cultivator or (iii) As Agricultural Labourer.

B-VII Part B—Industrial classification by Sex of persons working in non-household industry, trade, business, profession or service who are also engaged in household industry.

B-VIII Part B—Persons unemployed aged 15 and above by sex and educational levels in rural areas only.

B-IX—Persons not at work by sex, broad age-groups and type of activity.

(Household Economic Tables)

B-X—Households (i) engaged neither in cultivation nor household industry (ii) engaged either in cultivation or household industry but not in both and (iii) engaged both in cultivation and household industry.

B-XI—Households engaged in cultivation classified by interest in land and size of land cultivated.

B-XII—Households engaged in cultivation only classified by size of land cultivated and number of family workers and hire workers.

B-XIII—Households engaged both in cultivation and household industry showing size of land cultivated classified by principal household industry.

B-XIV—Households engaged in only household industry classified by principal household industry.

Part A—Households classified by major groups of principal household industry and number of persons engaged.

Part-B—Households classified by minor groups of principal household industry.

B-XV—Households engaged both in cultivation and household industry classified by size of land cultivated.

B-XVI—Principal household industry classified by period of working and total number of workers engaged in household industry.

B-XVII—Households classified by size and participation in household cultivation or industry.

The household Schedule was not canvassed for the entire territory. It was only tried in 11 villages and thus the statistics is not for the whole territory.

These were not included in the All-India tables because of this obvious limitation Table B-XVII has not been prepared due to non-availability of data.

C—Series

C-I	Composition of households by relationship to head of family.
C-II	Age and marital status.
C-III Part C	Age, sex and education in rural areas only.
C-IV	Sigle year-age returns.
C-V	Mother-tongue.
C-VI	Bilingualism
C-VII	Religion
C-VIII-Part B	Classification by literacy and industrial category of workers and non-workers among Scheduled Tribes.

There are no Scheduled Castes in this area and so Table C-VIII—Part A relating to Scheduled Castes has been omitted. Table C-I could not be prepared due to non-availability of data.

D—Series

D-I	Non-Indian National
D-II	Place of Births.
D-III	Migrants classified by place of birth and duration of residence in place of enumeration.
D-VI	Distribution of Industrial categories of workers and non-workers by place of birth.

E—Series

E-I	Census houses and the uses to which they are put.
E-II	Tenure status of Census households living in Census houses used wholly or partly as dwelling.
E-III	Census houses used as factories and workshops classified by industry, power and no-power used and size of employment.
E-IV	Distribution of households living in Census houses used wholly or partly as dwellings by predominent material of walls.
E-V	Households classified by number of members and by number of rooms occupied.

Houselist was canvassed only in 11 villages and the Tables E-I to E-V are for total Census houses, households. In case of other States/ Union Territory Tables E-II, E-IV and E-V are based on 20% sample.

SCT—Series

SCT-I Part B	Industrial classification of persons at work and non-workers by sex for Scheduled Tribes.
SCT-II Part B(i)	Age and marital status for Scheduled Tribes.
SCT-III Part B(ii)	Education in rural areas only for Scheduled Tribes.
SCT-IV Part B	Religion for Scheduled Tribes.
SCT-V Part B	Households engaged in cultivation classified by interest in land and size of land cultivated in rural areas only for Scheduled Tribes.
ST-I	Mother tongue and bilingualism for Scheduled Tribes.
ST-II	Persons not at work by sex and type of activities for Scheduled Tribes.

There are no Scheduled Castes in NEFA and so tables relating to Scheduled Castes have been omitted. Table SCT V-B could not be prepared due to non-availability of 'data. According to the SC and ST List Modification Order 1956, all tribes of NEFA including the following were declared as Scheduled Tribes (1) Abor (2) Aka (3) Apatani (4) Dafla (5) Galong (6) Khampti (7) Khowa (8) Mishmi (9) Momba (10) Aney Naga Tribe (11) Sherdukpen (12) Singpho.

A-SERIES

GENERAL POPULATION TABLES

SECTION 3

A-SERIES—GENERAL POPULATION TABLES

This Section contains the General Population Tables of the 1961 Census. The Tables relate to area, houses, population and villages classified according to range of population. The details upto the Administrative Circle levels are given.

The following Tables are presented in this Section:—

(1) A-I—Area, Houses and Population.
(2) Appendix II to Table A-I—Number of villages with a population of 5,000 and over.
(3) Appendix III to Table A-I– Houseless and Institutional Population.
(4) Table A-III—Villages Classified by Population.
(5) Appendix to Table A-III—Villages classified into four broad size groups of population.

Subsidiary Table A-III. 1—Distribution of Rural Population between villages of different sizes.

NEFA is entirely rural and therefore there are no tables for the urban area. The following main and Subsidiary Tables have also been omitted due to the non-availability of data or most of the tables are nil.

1 Appendix I to Table A-I—Statement showing 1951 territorial units consituting the present set up of NEFA.
2 Subsidiary Table A-I. 1—Area and Population (Actual and Percentage) by Taluk density.
3 Subsidiary Table A-I. 2—Distribution of 1,000 occupied residential houses and 10,000 persons by rural/urban and comparison with 1951 and 1941 Census.
4 Subsidiary Table A-I. 3—Persons per 1,000 houses and houses (i) per 100 sq. miles in rural areas and (ii) per sq. mile in urban areas and comparison with past Censuses.
5 Subsidiary Table A-I. 4—Females per 1,000 males Total/Rural/Urban population and comparison with previous Censuses.
6 Subsidiary Table A-I. 5—Variation in density.
7 Table A-II—Variation in population during Sixty years.
8 Appendix to Table A-II.
9 Subsidiary Table A-II. 1—Mean decimal growth rates during four decades.

TABLE A-1—AREA, HOUSES AND POPULATION

This table relate to the population, area, number of villages according to each Administrative Circle. The population figures are combined with the population covered on Simplified Census of NEFA 1961 Schedule and the All-India Census Schedules and Individual Slips. There are 336,558 people living in 2,451 villages in an approximate area of 31,438 Square Miles (provisional). There are no uninhabited villages but abondoned village sites exist.

The density of population per square mile is 11 persons in NEFA. The highest density of population per square mile, that is, 22 persons per square mile, is in Tirap Frontier Division and lowest is in Lohit Frontier Division with a density of 4 persons per square mile.

All NEFA is rural.

APPENDIX II TO TABLE A-I

This table shows the villages with a population of 5,000 and over. In NEFA only 1 village namely Bhalukpung had a population of 5,145 persons. This village was a Tibetan Refugee Camp and sometime after the Census period the inhabitants shifted to other camps.

APPENDIX III TO TABLE A-I, SHOWING HOUSELESS AND INSTITUTIONAL POPULATION

There is no houseless population in NEFA columns relating to houseless population have been omitted. NEFA had Institutional population of 24,901 persons out of Total NEFA population of 336,558 persons. During enumeration; penal, charitable or mental Institutions, hostels, hotels, hospitals and boarding houses were recorded as institutions and the people living in such institutions were enumerated as institutional population.

Note—There are no houseless persons in NEFA thus the columns have been omitted.

A-III—VILLAGES CLASSIFIED BY POPULATION

This table gives the population of villages in NEFA covered on both the types of schedules. It gives number and population in various groups of villages which have a population of (persons).

(1) less than — 200
(2) 200 — 499
(3) 500 — 999
(4) 1,000 — 1,999
(5) 2,000 — 4,999
(6) 5,000 — 9,999
(7) 10,000 and above

It will be noticed that there is no village having more than 10,000 population in NEFA. Only one village in Kameng Frontier Division, namely **Bhalukpung**, a Tibetan Refugee Camp, had a population of more than 5,000 people. As there are no villages of population 10,000 and above the cols. 24 to 26 have been omitted.

96·0% of NEFA villages fall in the range of 'less than 499' persons; 70·3% of the total population live in such villages. 3.5% of the villages have population in the range of villages with population of 500—1,999 persons; 21·8% of NEFA population live in such villages. 0.3% of villages fall in the population group of over 2,000 and less than 5,000 persons; 6.1% of NEFA population live in such villages. The summary table giving villages falling in 0—499, 500—1,999, 2,000—4,999, 5,000 and above population groups with population is given below:—

Name of the Frontier Division	Total		0—499		500—1,999		2,000—4,999		5000 and above	
	Inhabited Villages	Population	Villages	Population	Villages	Population	Villages	Population	Villages	Population

V Tirap Frontier Division	239	1000	0	0	155	317	295	220

"0" Stands for nil entries.

The total rural population of North-East Frontier Agency in Tirap Frontier Division includes as estimated combined population(781 persons) of three Villages of Vijayanagar Area. The figures in columns 4 to 9 do not add-up to 1,000 for the same reason.

SECTION 4

UNION PRIMARY CENSUS ABSTRACT

This table is prepared on the basis of population covered by all-India Individual Slips, which deal with 11.5% of NEFA population and separately gives the Union Primary Census Abstract, based on the population covered on the Simplified Schedule of North-East Frontier Agency Census 1961. The Abstract provides the area (in square miles or/and square kilometres) occupied houses, households, total population, the population belonging to the Scheduled Castes and Scheduled Tribes, non-workers, literates and workers classified into the following nine Industrial Categories :

I Cultivation;
II Agricultural Labour;
III Mining, quarrying, livestock, forestry, fishing, hunting and plantations, orchards and allied activities;
IV Household Industry;
V Manufacturing other than Household Industry;
VI Construction;
VII Trade and Commerce;
VIII Transport, Storage and Communications;
IX Other Services;
X Non-workers.

In this Census, four economic questions were adopted in the Individual Slip for determining the exact categorisation of the person enumerated as a Worker or Non-Worker.

Detailed instructions were given to the enumerators for recording the answers to these questions. In the case of seasonal work like cultivation, livestock, dairying, household industry, *etc.*, the basis of work was satisfied if the person has had some regular work of more than one hour a day, throughout the greater part of the working season. Again in the case of regular employment in any trade, profession, service, business or commerce, the basis of work will be satisfied if a person was employed during any of the fifteen days preceding the day on which the enumerator visited the household. A person who is working but was absent from his work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other causes should be treated as worker. Similarly, apprentices, under training with or without wages, Social workers and even as well women engaged in addition to household chores in productive occupation like rice pounding for sale, are treated as workers. However, a person who has been offered work but has not actually joined should be treated as non-worker. Work includes not only actual work but effective supervision and direction of work. In the context of these considerations, beggars, pensioners or receivers of agricultural or non-agricultural royalty, rent or dividend, who may be earning an income but who are not participating in any productive work should not be treated as working unless they also work in cultivation, industry, trade, profession, business or commerce.

In brief, all the population engaged in any branch of productive work is categorised under the classification of "Workers". Thereafter all the workers are classified into nine broad categories, *viz.*, (I) working as Cultivators, (II) working as Agricultural Labourers, (III) working in Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities, (IV) working at Household Industry, (V) working in Manufacturing other than Household Industry, (VI) working in Construction, (VII) working in Trade and Commerce, (VIII) working in Transport, Storage and Communications, and (IX) working in Other Services.

In the present Primary Census Abstract the distribution of the population amongst the nine categories of Workers and the Category of Non-Workers has been exhibited.

For convenience, a brief description of persons covered under each of the ten categories presented in Primary Census Abstract of the 1961 Census is given below:

Category I—Cultivation

This class represents the persons engaged in (a) cultivation of land owned or held from Government; and (b) cultivation of land or supervision or direction of cultivation of land held from private persons or institutions for payment in money, kind or share. For this purpose, cultivation involves, ploughing, sowing and harvesting and does not include fruit growing or keeping orchards or groves or working in plantations like tea, coffee, rubber, cinchona and other medicinal plantations.

A person who has given out his land to another person or persons for cultivation for money.

kind or share of crop and who does not even supervise or direct cultivation of land, will not be treated as working as a cultivator. Similarly, a person working in another person's land only as a labourer without any right or lease or contract on land on which he works, nor is responsible for taking decision as to which crops to sow and when, or taking the risk of cultivation and is paid wages in cash, kind or share such as share of produce, will not be treated as cultivator.

Category II—Agricultural Labourers

Persons who work on land belonging to other persons, only as labourers, without exercising any supervision or direction in cultivation, for wages in cash, kind or share such as share of produce belong to this category. Also such labourers do not have any right or lease or contract on land on which they work nor are they responsible for taking decisions as to which crop to sow and when, and are not concerned with the risks of cultivation. A share of produce goes to them only as wages. Persons who were working as Agricultural labourers in the last or current cultivating season were recorded as such in the 1961 Census.

Category III—Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied Activities

Persons employed in mines and quarries, those engaged in rearing and keeping of livestock and poultry, in forestry and fishing and persons growing fruits or keeping orchards or groves or working in plantations like tea, coffee, rubber, cinchona and other medicinal plantations are included in this category.

These correspond to Divisions 0 & 1 of the Standard Industrial Classification.

Category IV—Household Industry:

Persons participating in Household Industry are included in this category. The test for a Household Industry is three fold :

(a) Household Industry includes manufacture, processing or servicing and may include sale but is not confined simply to buying and selling. At least part of the goods offered for sale from the household should be manufactured or processed by members of the household.

(b) Household Industry should be on the household scale where the workers mainly will be the head of the household himself and members of the household, the role of hired workers from outside being of secondary importance. Thus in any Household should be in a position to land a hand in the industry whenever they find time in the course of their daily chores. Household Industry cannot, therefore, be on the scale of a registered factory but can use machinery and employ power like steam engine or oil engine or electricity to drive the machinery.

(c) Location is also important, for proximity decides participation by members of the household. In a village this participation is possible if the Household Industry is located at home or within the village but in urban areas only such industries which are located at home only are considered as Household Industries because in other cases free movement of the members of a household to look after their work may not be possible. Where, however, part of the work is done outside the house, *e.g.*, preparing and dyeing the yarn for weaving or winding into warp and woof or cleaning metal surfaces before electroplating in baths, it is still considered a Household Industry even in urban areas, as the main operation of weaving or of electroplating is conducted within the house and only one or two operations are conducted outside. Persons not working in their own Household Industries but working as paid employees in another Household Industry are also included in this category.

This category may cover those falling under Divisions, 0, 1, 2&3 of the Standard Industrial Classification, provided the work is carried on an Household Industry basis.

Category V—Manufacturing other than Household Industry

This category includes all persons engaged in processing and manufacture, repairing but not included in category IV. Persons employed in the registered factories thus form part of this category.

The category will cover Divisions 2 and 3 of the Standard Industrial Classification.

Category VI—Construction

All persons engaged in construction and maintenance of buildings, roads, railways, bridges, tunnels, telegraph and telephone lines, waterways and water reservoirs such as bunds, embankments, dams, canals, tanks, wells, etc., are included in this category, which corresponds to Division 4 of the Standard Industrial Classification.

Category VII—Trade and Commerce

This category includes all persons employed in retail and wholesale trade of all kinds and other

commercial activities like banking, auctioneering, insurance, money lending and distribution of motion pictures and corresponds to Division 6 of the Standard Industrial Classification.

Category VIII—Transport, Storage and Communications

All persons employed in any form of transport either by road, rail, water or air and persons participating in storage and warehousing activities, communications such as postal, telegraphic, telephone, broadcasting are included in this category, which corresponds to Division 7 of the Standard Industrial Classification.

Category IX—Other Services

This class includes all persons engaged in services like electricity, gas, water and sanitary services, public services, educational and scientific services, medical and health services, religious and welfare services, legal and business services, trade and labour associations, recreation services, personal services and thus practically covers all such persons who do not fall under any of the 8 industrial categories mentioned above and also those whose activities have not been adequately described. General labourers who are accustomed to work on various miscellaneous jobs are classified under 'Other Services'.

Divisions 5, 8 and 9 of the Standard Industrial Classification are covered under this category.

Category X—Non-workers

All persons who are not engaged in any productive economic activity irrespective of whether they derive an income or not are shown under this category. This will cover persons who are (i) Full-Time Students, (ii) House-wives, (iii) Dependants such as an Infant or Disabled or Infirm, (iv) Retired persons or Rent Receivers not doing any productive work, (v) Beggars, Vagrants, Independent women without indication of source of income, (vi) Convict in jail or an Inmate in penal, mental or charitable institution, (vii) Persons Never Employed or (viii) Unemployed Seeking Employment. The detailed break.

These informations are compiled for each village. The abstract furnishes information on the primary economic activities of each village and the literacy proportion of the population. Where a village has a school, hospital, craft centre, co-operative stores, post and telegraph office and other similar organisation, a symbol is put against the name of the village; *e.g.*, Mirem D,S(L) indicate that there is a Dispensary and also a School (Lower Primary) in the Mirem village. The following are the symbols used in the Abstract :—

D for Dispensary/Hospital.
V for Veterinary Dispensary.
A for Agricultural Farm.
S(H) for School (High English).
S(M) for School (Middle English).
S(L) for School (Lower Primary).
CC for Craft Centre.
F for Farm Up-grading Centre.
C for Co-operative Society/Store.
P for Post Office.
PT for Post and Telegraph Office.
NA for Not Available.
N for Negligible.
O for Nil.

*The area appearing in col. 2 is the entire area of the territory and not only the villages for which the simplified census were canvassed. It is not possible to find out the specific area of these villages as it is not available for each one of them. The area figures available in North-East Frontier Agency are for the territory and for each one of its divisions.

*It includes an estimated population (P-781, M-411, F-370) of 3 villages in Vijay Nagar Area of Tirap Frontier Division (in cols. 3 to 5). As the detailed figures are not available, it is not included in columns 6 to 15.

SPECIAL TABLES OF NEFA
POPULATION COVERED ON SIMPLIFIED CENSUS OF NEFA, 1961

SECTION 5

SPECIAL TABLES OF NEFA POPULATION COVERED ON SIMPLIFIED CENSUS OF NEFA 1961

The tables based on the Simplified Census of NEFA 1961 Schedule presented in this Chapter, deal with the population covering 88·5% (297,853) persons of total NEFA population (336,558 persons) living in 2,382 villages (97·18%) out of the total 2,451 NEFA villages. Only one percent of the population covered on this Simplified Schedule is non-NEFA population and the NEFA tribal population of 5,195 persons covered on All-India Census Individual Slips is not included in these tables. They are included in the series presented; in other chapters.

The chapter contains the following tables :-

The NEFA Special Table No. 1 :	Area, Number of Villages, Number of Households and Population
The NEFA Special Table No. 2 :	Distribution of Villages according to Population size in each Division/Sub-Division of NEFA
The NEFA Special Table No. 3 :	Duration of Residence in the place of Enumeration according to each Tribe/ Sub-Tribe
The NEFA Special Table No. 4 :	Size of Households
The NEFA Special Table No. 5 :	Population Distribution of each Tribe/ Sub-Tribe by Age Groups
The NEFA Special Table No. 6 :	Institutional Population
The NEFA Special Table No. 7 :	Literacy in NEFA according to Age Groups and its Subsidiary table
The NEFA Special Table No. 8 :	Population according to Tribe Sub-Tribe
The NEFA Special Table No. 9 :	Number of Villages classified according to population groups and Tribe,Sub-Tribe
The NEFA Special Table No. 10 :	Name of the languages,dialects spoken
The NEFA Special Table No. 11 :	Land under Permanent Cultivation (Wet Rice cultivation and Terrace Rice Cultivation)
The NEFA Special Table No. 12 :	Union Primary Census Abstract (upto Administrative Centre level)
The NEFA Special Table No. 13 :	Village Directory NEFA

TRIBE :

A tribe may be known by its own name, or by the name of one of its sub-tribes or clans. The tribes appearing in the various tables appear as reported during enumeration and confirmed by the district authorities A list of the names of the Tribes/Sub-Tribes as reported, is given below : --

Sl. No.	Name of Tribe/Sub-Tribe
1	2
1	Aka or Hrusso
2	Apatani
3	Ashing
4	Bogum
5	Bungun
6	Dafla
7	Dirang Monpa
8	Galong
9	Hill Miri
10	Idu Mishmi
11	Karka

75	Teikam
76	Tonglum
77	Tongsing
78	Yankan
79	Yobin
80	Yongkuk
81	Noknan
82	Bhutia

Household

A household means the entire group of persons who commonly live together in the same house, take meals from a common mess unless the exigencies of the work prevent them from doing so. Some houses were found to be inhabited by more than one group of such persons. In such cases, each group was recorded as a separate household.

Village

A village is a collection of houses with a more or less defined boundary, which is recognised as a village according to customs or traditions. The hamlets of a village are included in the main village.

The following were the instructions given to the enumerators for recording the name of a village :—

> "After writing the location code in the form, write down the name of the village you are going to enumerate in the place provided in Block Capital letters. Be very careful in writing the name of the village. Check-up the list of villages provided to you by the D.S.O. for the correct spelling. In case the name of the village does not appear in the list, take special care to spell the name correctly and add the name in the list. Report about the village immediately to the Divisional Statistical Officer.

Invariably consult your P.O./A.P.O./Base Superintendent if there is any doubt or change reported in the name of a village. People may try to get you to record such changes in name or recognition of new hamlets or settlements as villages from all sorts of motives ranging from clan or tribal rivalry to the aim of quoting this recognition later to obtain a red blanket. The P'O's decision on such village names will be final".

The details of three Yobin villages of Vijaynagar of Tirap Frontier Division are not available (P. 781. M. 411, F 370). As such they do not appear in most of the tables under this series. Where ever they are included a specific mention is made.

The Loeation Code :—

The location code was the two element symbol, the first one in English numericals representing the Frontier Division allocated in continuation from East to West. After alloting the Divisional numbers, the Roman numericals for each Administrative Circle from East to West in the Division were given. The list of the Code numbers is given below :—

Sl. No.	Name of the Division, Sub-Division/Administrative Circle	Location Code
1	2	3
I	**Kemeng Frontier Division**	**1**
1	Lumla	1/I

* These Location Codes were abolished when the enumeration work was in progress and these areas were amalgamated with the nearest Location Codes.

NEFA SPECIAL TABLE No. 1—AREA, NUMBER OF VILLAGES, NUMBER OF HOUSEHOLDS AND POPULATION

This table is based on the Simplified Census of NEFA Schedule, which was canvassed in 2,382 villages covering 88.5% of total NEFA population. It does not include 5,195 NEFA tribal people covered on All-India Individual Slip.

The table gives area, number of villages, number of households and population.

In NEFA, the females per thousand of males population is 1,025. The average size of a household comes to 5·3 persons. In the sub-divisional level, the Tezu Sub-division of the Lohit Division possess the households with an average size of about 6·4 persons and the Along Sub-division of the Siang Frontier Division with an average size of 6 persons per household. The smallest size of households (average size 4·5 persons) are found in the Daporijo Sub-division of the Siang Frontier Division.

NEFA SPECIAL TABLE No. 1—AREA, NUMBER OF VILLAGES, NUMBER OF HOUSEHOLDS AND POPULATION

Name of Division/District	Area in Sq. miles	Area in Sq. K.m.	No. of Villages	No. of Households	Population Persons	Population Males	Population Females	Average size of household

* This area figure includes the area of Daporijo, Limekirfg and part of Taliha Administrative Circles of Daporijo Sub-Division.

** This area figure includes the area of Gusar and a part of Taliha Administrative Circle (Syium area).

*** It includes the estimated population (P. 781, M 411, F 370) of three villages in Vijaya Nagar area of Tirap Frontier Division. The number of Households of these three villages are not included.

NEFA SPECIAL TABLE No. 2—DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION SIZE IN EACH DIVISION/SUB-DIVISION OF NEFA

This table gives the distribution of villages according to population size 0—49, 50—99 etc. to 2,000 and above.

Out of 2,382 NEFA villages, 2,309 (96.9%) have a population of less than 500 persons in each village. 56 villages (2.4%) have more than 500 but less than 1,000 persons in each village. Only 15 villages (0.6%) have a population of more than 1,000 persons, but less than 2,000 persons. The two villages, *viz.* the 'Hong' in the Subansiri Frontier Division and the 'Damro' in the Siang Frontier Division have a population of more than 2,000 persons.

NEFA SPECIAL TABLE No. 2—DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION SIZE

Sl. No.	Population	Number of Villages in					
		Kameng Frontier Division	Subansiri Frontier Division	Siang Frontier Division	Lohit Frontier Division	Tirap Frontier Division	Total number of Villages
1	2	3	4	5	6	7	8
1	0— 49	49	207	145	401	63	865
2	50— 99	64	181	183	128	42	598
3	100— 149	58	112	143	33	32	378

NEFA SPECIAL TABLE No. 3—DURATION OF RESIDENCE IN THE PLACE OF ENUMERATION ACCORDING TO EACH TRIBE AND SUB-TRIBE

The following were the instructions given to the enumerators to record the duration of residence of a household in the place of enumeration.

"Ascertain when the head of the household came to the village you are enumerating with his family and enter the duration of residence in the village in number of completed years. In a large number of cases, you will find that the head of the household and his ancestors were born in the village. In such cases record 'X'. If the village as a whole has shifted from one location to another but retained its old name, record 'Y' against the head of the household who lived in the village for a long time (above 40 years for this purpose only) and for the head of the household who does not remember the number of years he has settled in the village. Record 'O' if the duration of the residence is less than one year".

It appears that 81.14% of the NEFA households are living in the places of enumeration for the last 40 years or more. Only 8.07% of the households migrated to the places of enumeration during the last five years. Thus the overall tendency of the NEFA population appears to be in favour of permanent settlement. There is very little migration. The Tribes/Sub-Tribes who have maximum percentage of settlers during the last five years, are given below.

Name of Tribe/Sub-Tribe		Percentage of recent settlers in the village	Number of total households
1		2	3
1	Khambas	59.30	226
2	Kongbos	86.18	123
3	Khambyiang	100.00	12
4	Khamptis	11.50	442

The following table gives the division wise number of households according to the duration of residence in the place of enumeration :—

Name of the Frontier Division	Total No. of household	Number of households settled in year (s)						
		below 1 year	1—3 years	4—5 years	6—10 years	11—20 years	21—40 years	41 years & above
1	2	3	4	5	6	7	8	9

NEFA SPECIAL TABLE No. 4—SIZE OF HOUSEHOLDS

Household members :—The household members include relatives, friends, servants and others who commonly mess together in the same household.

Table No. 4 gives the names of NEFA Tribes and Sub-Tribes, number of households, total population, small, medium, large and very large households distributed according to each Tribe/Sub-Tribe.

Non-NEFA Tribes have been grouped and shown as "Non-NEFA Tribes".

76.1% of the households in NEFA are either small or of medium size, *i.e.* below 7 members per household. 6.9% of the households are of 'Very Large, size having ten members or more per household. In the case of the Lohit Frontier Division, 12.5% of the households are of 'Very Large' size'.

The following table gives the total population and number of households classified into Small, Medium, Large and Very Large size for each of the Frontier Division.

Name of the Frontier Division	No. of House-hold	Total Population			Small 3 members or less		Medium 4—6 members		Large 7—9 members		Very Large 10 members or more	
		Persons	Males	Females	No. of House-holds	Per-sons	No. of House-holds	Per-sons	No. of House-holds	Per-sons	No. of House-holds	Per-sons

	Lohit Frontier Division	150	1,312	680	632	19	44	48	239	35	274	48	755

*It includes an estimated population (in cols. 3 to 5) (P. 781, M. 411, F. 370) of three villages in Vijayanagar area of Tirap Frontier Division among Yobin Tribe. The member of households of this Tribe is excluded as the details are not available (in col. 2) and as the detailed break up figures are not available hence, it excludes the population in thecols 6 to 13.

NEFA SPECIAL TABLE No. 5—POPULATION DISTRIBUTION OF EACH TRIBE/SUB-TRIBE BY AGE GROUPS

This table presents the total population in the age groups of 0-4 years, 5-14 years, 15 years and above; and the percentage of persons, males and females to the total population of NEFA.

Generally, each tribe is confined more or less to one division only, but few Tribes like Bangros, Tagin, Hill-Miris, Galongs, Padam, Pasis, Khamptis Singphos and Muras are found in more than one division.

18% of the population are in the age-group of 0-4 years, 21% in the age-group of 5-14 years and 61% in the age-group of 15 years and above.

The female ratio to every 1,000 male of local population in NEFA is 1,000: 1,025, in the age group 0-4 years 1,000:973, in the age-group 5-14 years 1,000:891 and in the age group 15 years and above 1000:1092.

The following table gives the population in various age-groups upto division level.

NEFA SPECIAL TABLE No. 6- INSTITUTIONAL POPULATION

This table deals with the institutional population and the institutions covered on the simplified schedule. The local NEFA institutional population was found to be 911 Persons (686 Males and 225 Females). The majority of the institutional population were covered on All-India Schedules. These are shown separately in the Appendix III of the A-I Series. The maximum number of the institutions (70 numbers) and the institutional population (549 persons covered on the Simplified Schedule of NEFA Census) appear in the Kameng Frontier Division. Most of these institutions are the 'Gompas' where the Buddhist priests live together.

NEFA SPECIAL TABLE No. 6

NEFA SPECIAL TABLE No. 7—LITERACY IN NEFA ACCORDING TO AGE GROUPS

Literate :—*A person who can read and write a simple letter in his own language or in any script is to be treated as "Literate".

This table gives the total population distributed in age groups from 5-14 years, 15 years and above. This table is supported by its only Subsidiary Table giving the proportion of literates for each Tribe/Sub-Tribe in age group break up.

The literacy in NEFA in the population covered on Simplified Schedule is 2·3%. In Siang Frontier Division it is 0·8% in Subansiri Frontier Division 0·2%, in Kameng Frontier Division 0·3%, in Lohit Frontier Division 0.7% and in Tirap Frontier Division 0.3%.

In the age group of 5-14 years, the literates are 5·1% and in the age group of 15 years and above, literacy is 2·1%.

In the age group of 5-14 years, the Siang Frontier Division has 17·4% of the total literates and the Lohit Frontier Division has 11·0%. The Kameng Frontier Division has the lowest percentage of literacy, *viz.* only 4·5% of the literate population of NEFA. Subansiri Frontier Division and Tirap Frontier Division have 5·0%, 8·0% of the NEFA literates respectively.

The following table gives the total population and population in the age groups 5-14, and 15 and above and literate population in each sex :—

	Name of the Frontier Division	Total Population	Total Literates			5-14 years	5-14 years Literates			15 years and above	15 years and above Literates		
			P	M	F	Population	P	M	F	Population	P	M	F

NEFA SPECIAL TABLE No. 9—NUMBER OF VILLAGES CLASSIFIED ACCORDING TO POPULATION GROUPS AND TRIBES, SUB - TRIBES

This table gives the number of Villages classified according to Population group, Tribe and Sub-Tribe.

Out of 2,382 villages enumerated on the Simplified Census of NEFA 1961 Schedule only 16 villages have more than 1,000 persons per village. Out of 318 villages of Tagins, 119 have less than 50 persons per village. In the case of Idu-Mishmis, out of 176 villages, 128 villages have less than 50 persons per village. In the case of Daflas, 94 villages out of 230 have less than 50 persons per village. Wanchos, Noctes and Galongs have big villages having more than 500 persons per village. Each of these three tribes have 21, 9, 5 such villages respectively. In total there are 73 villages having more than 500 persons per village. (It does not include 69 villages covered on the All-India Individual Slip).

NEFA SPECIAL TABLE No. 11—LAND UNDER PERMANENT CULTIVATION (WET RICE CULTIVATION AND TERRACE RICE CULTIVATION)

Most of the cultivation in NEFA is done under "Jhumming" (shifting cultivation) method. There are no Land Records in existence, and the Regulations III, IV and V of 1947. The Balipara/Tirap/Sadiya Frontier Tracts Jhum Land Regulation 1947 govern the land tennure in NEFA. According to these Regulations, community is defined as one who customary rights to cultivate by means of shifting cultivation or to utilise by clearing jungle or grazing livestock, provided that such village or community is in a permanent location but does not include:—

(i) Any land which has been or is under process of being terraced for the purpose of permanent or semi-permanent cultivation whether by means of irrigation or not,

(ii) Any land attached or appurtenant to a dwelling house and used for the purposes of permanent cultivation or

(iii) Any land which in the opinion of the Political Officer is subjected to permanent cultivation.

The Jhum Land Regulation is reproduced in the Appendix VII to this volume.

In the Simplified Schedules NEFA Census of 1961 two columns *viz.* column No. 17 & 18, deal with land under permanent cultivation (WRC=Wet Rice Cultivation and TRC=Terrace Rice Cultivation). The instructions to the Enumerators are reproduced below :—

"These two columns relate to household land (possessed) and actually under permanent cultivation by way of Wet Rice Cultivation (WRC col. 17) and Terrace Rice Cultivation (TRC col. 18). Enquire if the houshold practices the WRC/TRC methods of cultivation. If so, you must carefully record the exact area of cultivation. You should seek help from the field staff of the Agricultural Directorate whenever you find one. In case the household does not practice WRC or TRC way of cultivation record "X".

The main purpose behind the inquiry was to assess the results of Administration's drive of encouraging the farmers to take to permanent cultivation. The figures finally arrived at do not appear to be very reliable as the inquiry depended upon the non-professional enumerators who were subject to the usual enumerators bias. The comparatively more reliable part of this table is the number of households who are reported to have practiced the methods of permanent cultivation.

This table gives the total number of households by Tribe/Sub-Tribe, engaged in permanent cultivation, and the persons of the households arranged in two broad age groups (0—14 years, 15 years and above) and the land under WRC and TRC in acres. Out of the total number of 56,556 households covered on the Simplified Schedules NEFA Census 1961, 25,607 households 45·2% practice permanent cultivation by way of either WRC or TRC or both. These households contain 52·3% of the total population of NEFA. The household holding of land under permanent cultivation comes to 0·5 acres on the average.

In the Siang Frontier Division, 65·9% of the households were engaged in permanent cultivation having on an average 0·5 acres of land per household. In the case of the Tirap Frontier Division 26 of the households having on an average of 0·2 acres of land practice permanent cultivation per household.

THE FOLLOWING TABLE GIVES THE SUMMARY OF NEFA SPECIAL TABLE No. 11

	Name of Frontier Division	Total number of households	Total number of household engaged in permanent cultivation	0—14 years		15 years and over		Land under permanent cultivation (acre)

* Note:—The Tribe/Sub-Tribe which have no land under permanent cultivation is not entered in this table.

THE VILLAGE DIRECTORY

THE VILLAGE DIRECTORY

This table gives details of households, population in the age groups of 0-4, 5-14, 15 & above, literates, and land under permanent cultivation, and the village directory of NEFA. The table also gives the names of the Tribes/Sub-Tribes, the languages/dialects spoken, and land under permanent cultivation.

These informations are compiled for each village. Where a village has school, hospital, craft centre, co-operative stores, post and telegraph office & other similar organisations which existed in March 1961 in NEFA, are shown and a symbol is put against the name of the village. The following is the list of symbols used, followed by the location code list.

D for Dispensary/Hospital
V for Veterinary Dispensary
A for Agricultural Farm
S(H) for School (High English)
S(M) for School (Middle English)
S(L) for School (Lower Primary)
C,C. for Craft Centres
F for Farm Up-Grading Centre
C for Co-operative Society/Store
P for Post Office
PT for Post and Telegraph Office
NA for Not Available
N for Negligible
O for Nil

The Location Code :—

The location code was the two element symbol, the first one in English numericals representing the Frontier Division allocated in continuation from East to West. After alloting the Divisional number the Roman numericals for each Administrative Circle from east to west in the Division were given. The list of the Code numbers is given below :—

Name of the Division/Sub-division/ Administrative Circle	Location Code
1	2
I Kameng Frontier Division	1
1 Lumla	1/I
2 Tawang	1/II
3 Kalaktang	1/III
4 Dirang	1/IV
5 *	1/V
6 Nafra	1/VI
7 Buragaon	1/VII
8 Bameng	1/VIII
9 Sepla	1/IX
10 Khenewa	1/X
II Subansiri Frontier Division	2
1 Koloriang	2/I
2 Nyapin	2/II
3 Sagalee	2/III
4 Palin	2/IV
5 Deimukh	2/V
6 Tali	2/VI
7 Ziro	2/VII
8 Kimin	2/VIII
9 Tamen	2/IX
10 Huri	2/X
11 Sarli	2/XI
III Siang Frontier Division	
(A) Daporijo Sub-division	3
1 Limeking	3/I
2 Taliha	3/II
3 Daporijo	3/III
4 Gusar	3/IV
(B) Along Sub-division	4
1 Mechuka	4/I
2 Monigong	4/II
3 Liromoba	4/III
4 Gasheng	4/IV
5 Gensi	4/V
6 Basar	4/VI
7 Tuting	4/VII
8 Along	4/VIII
(C) Pasighat Sub-division	5
1 Yingkyong	5/I
2 Damro	5/II
3 Pasighat	5/III
4 Pangin	5/IV
5 Mebo	5/V
IV Lohit Frontier Division	
(A) Roing Sub-division	6
1 Dambuk	6/I
2 Roing	6/II

Name of the Division/Sub-division/ Administrative Circle	Location Code
1	2
3 Anini	6/III

*The area appearing in col. 2 is the entire area of the territory and not only the villages for which the simplified census were canvassed. It is not possible to find out the specific area of these villages as it is not available for each one of them. The area figures available in North-East Frontier Agency are for the territory and for each one of its divisions.

V Tirap Frontier Division—Grand Total		**9,590**	**55,118***	**27,358***	**27,760***	**5,595**	**5,288**

* It includes an estimated population (P. 781, M. 411, F. 370) of 3 Villages in Vijayanagar area in Tirap Frontier Division (in colm. 3 to 5). As the age-group break up details are not available, hence it excludes the same population in colms, 6 to 15. The same difference is noticed in the total population of NEFA also.

APPENDIX II-B

Instructions to Enumerators for filling up the Houselist

Column 1—*Line Number*

Only one digit of the line number has been printed in this column. The line numbers should be continuous for your block. Where the line numbers exceed 9 write the earlier digit(s) yourself.

Column 2- *Building Number (Municipal or Local Authority or Census Number, if any)*

This refers to the entire structure on the ground. There are, however, high, large or long buildings along a street or lane which have been partitioned or portions of which have been sold. which have distinct, separate main exit on the road and which belong to separate owners or occupiers or alternatively there are a series of different houses joined each to each by common walls on either side to make the whole look like one building but parts of which have been built at different times and belong to separate owners. Such distinguishable structures, although not separate from each other, should be regarded as separate buildings and given separate numbers. Each building should have a separate number. If in big cities a large mansion or building containing several census houses has a well known name by which it is generally known then the name of the building should also be recorded for convenient reference. If there is more than one structure within an enclosed or open compound belonging to the same person *e.g.*, the main house, the servants' quarters, the garage etc, only one building number should be given. If the locality consists of a number of of streets in a village, the buildings in the various streets should be numbered continuously and the streets should be taken in uniform order, from North-West to South-East. Experience suggests that the best way of numbering is to continue with one consecutive serial on one side of the street and complete the numbering on that side of the street and continuing with the serial, stopping finally opposite to where the first numbering began. In a city enumeration block, the numbering will have to respect the axis of the street and not any preconceived geographical direction like North-West. A building under construction should also be given a number in the serial. If a new hut or building is constructed between the time when the house numbering and house listing have been completed and the census count it should be given a new number beyond the last number of the serial for the village. Arabic numerals should be used for building numbers.

This will facilitate verification by supervisors. In areas *e.g.* urban, where the buildings are already numbered by the municipal or other authorities, the enumerator may adopt the existing numbers in the Houselist. In such cases, column 2 will carry the established municipal or local authority number which will facilitate identification. Where there are municipal or local authority numbers but there are reasons to believe that the number is incomplete or unsatisfactory, the municipal or local authority number may still be entered in column 2, but at the same time it will be necessary to serially number the buildings afresh for the purposes of census houselist. In that case, the new census serial for buildings will be entered in column 3 and the new census numbers for the buildings will have to be painted on the buildings themselves. In those cases where there are no municipal or local authority numbers in existence, all buildings will have to be serially numbered for the census and column 2 will contain entries of this census serial. This number will have to be repeated in column 3 with sub-numbers for census houses, if any.

Column 3 *Building Number (Column 2) with sub-numbers for each Census House*

A census house is a structure or part of a structure inhabited or vacant, or a dwelling, a shop, a shop-*cum*-dwelling or a place of business, workshop, school etc., with a separate entrance.

If a building has a number of flats or blocks which have separate entrances of their own and are independent of each other giving on the road or a common staircase or a common courtyard leading to main gate, they will be considered as separate census houses. If within an enclosed or open compound there are separate buildings then each such building will also be a separate census house. If all the structures within an enclosed compound are together treated as one building then each structure with a separate entrance should be treated as a separate census house.

The order in which census houses within a building should be numbered should be continuous,

preferably clockwise, or in any convenient manner if it is at all difficult to do it clockwise. If a building itself is a census house, then it will have only one number, namely, that of the building. If within a building there are a number of census houses, then each census house will have two sets of numbers *e.g.*, the number of the building and the sub-number of the census house. The census house number should be written after the building number in Arabic numerals in brackets such as 2(2), 3(2), etc. A census house may contain more than one household, in which case, each household will have to be denoted by a separate alphabetical sub-number (see instructions for column 11 below).

Column 4—*Purpose for which census house used,* e.g., *dwelling, shop, shop*-cum-*dwelling, business, factory, workshop, school or other institution, jail, hostel, hotel, etc.*

The actual use to which a census house is put should be written here.

In the case of a factory or workshop, 'Factory' should be written for a large factory if registered under the Indian Factories Act and 'Workshop' for a small unregistered workshop. A workshop is a place where some kind of production, repair or servicing goes on or where goods or articles are made and sold. Similarly, a shop is a place where articles are sold for cash or for credit. Business houses are those where transactions in money or other articles are taking place *e.g.*, bank, etc. But rooms or apartments where professional consultations are held such as by doctors, *hakims*, pleaders, etc., should be described as 'professional consultation rooms' and not workshops. In the case, however, of a dispensary where, in addition to consultation by a doctor, medicines are prepared and sold, the house should be described as a dispensary. Write also if used for place of worship or congregation or if unoccupied, 'vacant'. If the census house is a shop, business, house, bank, etc., but is not a factory or workshop as defined above, the name of the proprietor, manager or director should be entered in column 18.

Columns 5 to 8—"*If this census house is used as an establishment workshop or factory*"

These columns apply only in cases where the census house is a factory or workshop *i.e.*, where some kind of production, processing, repair or servicing is undertaken or where goods or articles are made and sold. If the census house is not used for purposes of a factory or workshop write 'X' in each of the columns 5 to 8.

Column 5—*Name of establishment or proprietor*

Write the name of the establishment in the case of factories or a large manufacturing concerns and write the name of the proprietor in the case of small workshops and establishments like confectioneries where no distinct name has been given to them like *Halwai* shop, etc. If the census house is not used for the purpose of a factory or workshop put 'X' in each of the columns 5 to 8.

Column 6—*Name of product(s) repair or servicing undertaken*

In this column enter the actual work that is being done in the establishment, factory or workshop, like paper making, shoe making, cycle repairing, motor servicing, etc.

Column 7—*Average number of persons employed daily last week (including proprietor or household members if working).*

The total number of workers including apprentices, either paid or unpaid, employed in the factory or workshop, including the owner or proprietor and any of his family members (if working), should be entered. The average number of persons working per day during the week preceding the date of your visit should be entered.

In case more than one product is produced it is not necessary to enquire the number of persons employed in the production of each product. It may not be possible to get this information in cases where the operations may be composite.

Column 8—*Kind of fuel or power, if machinery is used*

If the factory or workshop uses steam or diesel engine or fuel *e.g.*, kerosene, soft coke, electricity, water-mill, etc., for running the machinery used for production, servicing or repairs, write what fuel or power is actually used.

Columns 9 & 10—*Description of Census House*
Column 9—*Material of wall*

Under this column the material out of which most of the walls of the house are made *i.e.*, grass, leaves, reeds, bamboo, unburnt bricks, mud, burnt

bricks, stone, cement, concrete or timber should be written. Where a house consists of separate structures each of different materials, the material out of which the walls of the main bedrooms are made are to be recorded.

Column 10—*Material of roof*

The material out of which most of the outer roof exposed to the weather and not the ceiling is made, *i.e.* tiles, thatch, corrugated iron, zinc or asbestos cement sheets or concrete etc., should be written. In the case of a multi-storeyed building the intermediate floor or floors will be the roof of the lower floor.

Column 11—*Sub-number of each Census Household with Census House number(Column 3)*

A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so.

There may be one or more households in a census house. Each household should be separately numbered. This can be done by using the alphabets as (A), (B), (C), etc. For example, if building No. 2 is also a census house and has three households, the household numbers will be 2(A), 2(B), and 2(C). If building No. 4 has two census houses, the houses will be numbered as 4(1) and 4(2). If within each house there are respectively 3 and 2 households, they will be numbered as 4(1A), 4(1B), 4(1C) and 4(2A) and 4(2B).

Column 12—*Name of Head of Household*

The name of the Head of each household given in column 11 should be written here. The Head of a household, for census purposes, is the person on whom falls the chief responsibility for the maintenance of the household. The name of the person who is actually acknowledged as Head of the household should be recorded. In the case of places like messes, boarding houses, chummeries, etc., where people live together with no ties of relationship, the manager or the superintendent or the person who by common consent is regarded as the Head should be recorded as Head of the household.

If the census house is used as a sitting place, cattle shed, etc., write the use to which it is put (and add the name of the owner).

Column 13—*Number of rooms in Census Household*

If a census house is occupied by one household the enumeration of rooms should be simple.

If a census house consists of a number of households the number of rooms occupied by each household should be entered on each line against the name of the Head of the household. In cases where more than one household occupy a single room or share more than one room in such a way that it is not possible to say the number of rooms occupied by each household, the number of rooms should be given together within brackets as common to both the households.

A room should usually have four walls with a doorways with a roof overhead and should be wide and long enough for a person to sleep in, *i.e.*, it should be at least 6 feet long. Unenclosed verandah, kitchen, store, garage, cattle shed and latrine which are not ordinarily used for living and sleeping should not be treated as rooms. An enclosed room, however, which is used for living, dining, storing and cooking should be regarded as a room.

Column 14—*Does the household live in own or rented house?*

If the household lives in own house write 'O'. If the household lives in a rented house write 'R'.

In the case of public buildings like schools, hospitals, etc., or places of worship, put 'X' in this column.

Columns 15 to 17—*Number of persons residing in census household on day of visit.*

Write the number of males residing in the household in column 15, the number of females residing in the household in column 16 and the total number of persons in column 17.

Column 18—*Remarks*

In this column should be entered any useful or significant information about the building or the census house or the census household that has not been entered in any other column. For example, if the census house is a shop, the name of the proprietor or owner should be recorded in this column. If the Census house is occupied by members of Scheduled Castes or Scheduled Tribes, it should be indicated by writing Words 'S.C.' or 'S.T.' If a census house is vacant at the time of houselisting but there is a reason to believe that the house will be occupied in the course of the next few days and almost certainly before the census enumeration period, then the word 'Vacant' should be entered in column 4 and a remark should be entered in column

18 to the effect 'likely to be occupied shortly'. Thus the Remarks column should be utilised for recording all significant information relating to the building or census house or census household.

Each person engaged in house numbering of one block will have to make out an abstract at the conclusion of houselisting and housenumbering. This abstract will be in the form shown in the following page.

Houselist Abstract

Name and number of District.....

Name and number of Tehsil, etc. .....

Name and number of Village/Ward/

Enumerator's Block, etc.....

Total number of sheets used.....

Dated Signature of Enumerator

General Instructions to Enumerators

The following instructions to Enumerators were finalised at the Conference of Census Superintendents in Sept.-Oct. 1959. The basic concepts and definition of these instructions had also been discussed in the 1958 series of conferences and tested out in field tests.

The 1961 Census count will relate to the sunrise of 1st March, 1961. The count will be spread over a period of 19 days, beginning on the 10th February and ending on the 28th February, 1961. During this period you should visit every household in your block for enumeration. On the night of 28th February you will have to go round your enumeration block and enumerate all persons who are houseless. (In large cities the enumeration of houseless persons will have to be undertaken in a different manner for which more elaborate arrangements will be made). During the period 1 March to 5 March you will have to pay a revisional round to every household and verify that your earlier work of enumeration has been completed in every respect. If during this revisional round you find that a birth has taken place in any household between the time of your first visit and the sunrise of 1 March, 1961, you will have to fill up a new slip for this birth; if there has been a death in any household during the same period you will have to cancel the slip of the dead person; if there is a visitor in any household who has come to stay during the same period and has not been enumerated elsewhere, you will have to fill up a new slip for this visitor. But you will not have to take notice of any birth or death or visit occurring after sunrise of 1 March, 1961.

Instructions for enumerating individual members of households

GENERAL

1 Enumerate all persons who are normally residents in the household, *i.e.*, those who live in the household and also those who have recently become members of the household through marriage or birth or other vital social or domestic ties and are present at the time of your visit.

2 Enumerate also all persons who are normally residents in the household even if they are absent at the time of your visit, provided they left the household on or after the 10th February, 1961, or if they had left earlier than 10th February, 1961, are likely to return before the sunrise of 1st March, 1961.

3 Enumerate a visitor, a boarder, or a guest found in the household at the time of your visit, *if he had not been enumerated before and if he will be away from his household between the 10th and 28th February, 1961,* and warn him not to permit any other enumerator to enumerate him even if he goes back by 1st March, 1961.

4 Do not enumerate pavement dwellers or others who do not form part of the household, when you are enumerating the households. These along with persons who do not normally reside in houses,

i.e., members of wandering tribes, tramps, *sadhus*, etc., would be separately enumerated on the night of the 28th February, and on the 1st and 2nd March, 1961.

5 Each individual has to be enumerated in one slip. Before commencing enumeration of an individual make sure to fill the Location Code in each case. The Location Code in the slips will be the same as in the household schedule to which the individuals relate.

6 The questions have been briefly printed in the slips, *but only briefly*, and you should study the detailed question forms and instructions for answering them without which you will be liable to miss some of the range and implications of the questions. You should ask the questions *in the order in which they are given in the slips* and proceed to record the answers in their given order. You should make use of the abbreviations recommended in these instructions for recording the answers to the various questions. All abbreviations required to be entered within the geometric designs should be written well within the designs.

7 Make repeated enquiries about new born babies and very young children for they are liable to be missed because they neither talk nor walk and no meals are usually cooked for them.

8 Before leaving one household for the next make doubly sure that all the persons that are to be enumerated in the household have been enumerated. As soon as you have completed the enumeration of the household fill up the Population Record at the back of the Household schedule for that household before you proceed to the next household. Strike the total for the number of males and females in the household and check it with the number of enumeration slips used before you sign the Census Population Record.

9 You should revisit every household in your block during the period of final check (1 to 5 March) *when you should enumerate every birth that* has taken place in the household since your visit but before sunrise of 1st March. You should cancel the slip for any death that might have taken place since your last visit but before sunrise of 1st March by drawing a bold line diagonally across the slip and write DEATH along the diagonal line. You should enumerate any visitor who may have arrived to stay since your last visit and who says he has not been enumerated anywhere else. But you should not take notice of any birth or death or visit occurring after sunrise of 1st March, 1961. After your revisit if you have added any new slip or cancelled any slip already prepared you should make corresponding changes in the Census Population Record at the back of the Household Schedule.

10 As soon as you have completed a pad, you should fill up the enumerator's abstract on the cover of the pad. After you have completed the enumeration of your block and filled up all the abstracts in the pads, you should total up your figures and prepare your abstract for your entire block and hand it over to your supervisor alongwith your pads.

11 Under the Census Act, every person is legally bound to furnish you with the information you need for recording your answers. You must not ask information on any matters not necessary for the purposes of the Census, for example, the amount of any person's income. Nor must you disclose to any unauthorised person any information given to you or the results of the enumeration. All census entries are confidential and cannot be admitted as evidence in any civil proceeding whatever or in any criminal proceeding other than a prosecution for a census offence.

APPENDIX III A

CONFIDENTIAL

CENSUS OF INDIA 1961

(To be filled up during Enumeration)

Is this an institution?

PART I—HOUSEHOLD SCHEDULE

LOCATION CODE _____

Full Name of Head of Household _____

S.C. / S.T.

A. Cultivation	Local name of right on land	Area in acres
1. Land under cultivation by Household		
(i) owned or held from Government		
(ii) held from private persons or institutions for payment in money, kind or share		
(iii) Total of items (i) and (ii)		
2. Land given to private persons for cultivation for payment in money, kind or share		

B. Household Industry	Nature of Industry	Number of months in the year during which conducted
Household industry (not on the scale of a registered factory, conducted by the Head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas.	(a)	
	(b)	

C. Workers at Cultivation or Household Industry	Members of family working				Hired workers
Members including Head of family working and hired workers, if any, kept wholetime during current or last working season.	Head	Other males	Other females	Total	
1. Household Cultivation only					
2. Household Industry only					
3. Both in Household Cultivation & Household Industry					

Dated Signature of Supervisor

Dated Signature of Enumerator

Note: Part II—Census Population Record overleaf should be filled up during the first round of enumeration (10 February to 28 February) from the enumeration slips relating to the household and brought upto-date with corrections, if any, after the second visit during check period 1 March to 5 March, 1961.

PART II—CENSUS POPULATION RECORD

(To be compiled from individual Census Slips)

Name	Sex		Relationship to Head	Age	Marital Status	Description of work in the case of worker
	Male M	Female F				
TOTAL PERSONS						

Dated Signature of Supervisor

Dated Signature of Enumerator

Instructions for filling up the Household Schedule

At the top of the Schedule you will find the Location Code. You will have to write the Location Code of the household here. Your supervisor will give you the Code numbers representing your district, tehsil/thana/town, village/ward/block. You should take care to write these three numbers connected together by oblique strokes in between on every household schedule.

When you are visiting each household for enumeration you should write the code number of the household also on the Household Schedule. For purposes of the census a Census House has been defined as a structure or a part of structure, a dwelling, a shop, workshop, factory or place of business, or shop-*cum*-dwelling giving on the road or a common staircase or a common courtyard leading to a main gate or enjoying a separate entrance. A *household* means the entire group of persons who commonly live together and take their meals from a common kitchen. In such cases, each group should be regarded as a separate household for purposes of the census and a separate household schedule should be prepared. You should write the household number from the extracts of the Houselist given to you by your supervisor. If, in any case, you find a census house or a household satisfying the definitions given above has not been numbered you should bring it to the notice of your supervisor and have a separate number given to the house or household and enumerate the household.

At the right hand corner of the Location Code you will find a question "Is this an institution?" with a rectangle below it. If you are enumerating any penal, charitable or mental institution, hostel, hotel, hospital, boarding house, etc., you should write the nature of the institution within the rectangle like jail, hospital, etc.

Below the Location Code you will find a column for recording the full name of the Head of the household. The Head of the household for census purposes is a person on whom falls the chief resposibility for the maintenance of the household. Thus the Head of the household need not necessarily be the eldest male member but may even be a female or a younger member of either sex. You should not, however, make any elaborate enquiry about this and should record as Head of household the name of the person who is actually acknowledged as such.

Institutions like boarding houses, messes and chummeries should also be regarded as census households but of unrelated persons living together'. In such a Household the manager or superintendent or the person who has administrative responsibilities or who by common consent is regarded as the Head, should be recorded as Head of the household. If in an institution separate families are also living, each such family should be treated as a census household and a separate household schedule should be filled. In such cases the full name of the recognised Head of the household should be written.

If the Head of the household is a person who spends the week-days in town and spends the week-ends at home, he should be recorded as Head of Household entered for enumeration at his home. If he should be away for a fairly long time which covers the entire enumeration period then the person who is incharge in his absence should be recorded as the Head of the household.

You will find a parallelogram at the right hand side against the Full Name of the head of the household marked "S.C./S.T.". If the Head of the household is a member of a Scheduled Caste or a Scheduled Tribe obtaining in your state or in your district you should write the name of the particular Scheduled Caste or Scheduled Tribe to which the Head of the Household belongs within the parallelogram.

You should then fill up the part of the household schedule relating to Cultivation and Household Industry. Sub-part 'A' relates to Cultivation; sub-part 'B' to Household Industry and sub-part 'C' to Workers at Cultivation or Household Industry.

Sub-part 'A' relating to Cultivation will have to be filled in only where the household cultivates land. (Land includes all land normally used for cultivation purposes including temporary fallows). Three categories of land are given in items 1(i), 1(ii) and 2. Items 1(i) and 1(ii) relate to land actually cultivated by the household. Item 2 relates to land which is not cultivated by the household but has been given by it to private persons for cultivation for payment in money, kind or share. In each of the three cases the total of separate plots or parcels of land in different places owned or held, or taken or given should be made and entered. A number of lines has been provided for this purpose in 1(i) and 1(ii) to account for separate plots or parcels of land held or owned or taken under different recognised local rights. If the household (a) cultivates land owned or held from Government or taken from private persons or institutions or (b) has given land to private persons for cultivation

purposes you should ascertain the local name of the right on such land and record in the column relating to 'local name of right on land'. Category 1(i) land owned or held from Government, will include the total of all pieces of land owned or held in owner-like possession, *e.g.*, land held directly from Government under a grant, lease or assignment, (i) with rights of permanent, heritable and transferable possession, (ii) with rights of permanent and heritable possession, but without the right of transfer and (iii) temporary or conditional leases of any kind with the Government. Category 1(ii) land taken from private persons or institutions for payment in money, kind or share, will include (i) with rights of permanent, heritable and transferrable possession, (ii) with rights of permanent and heritable possession but without right of transfer; (iii) held in a variety of tenancies or tenures which may be broadly classified as follows:

(a) tenants holding land with permanent and heritable rights whose land cannot be resumed by the owner on grounds of personal cultivation (such tenants may in some cases have the right of transfer also);

(b) tenants who have been given permanent rights subject to the right of resumption by the owner (in some cases the tenant has the right to acquire ownership of the non-resumable area. In other cases he does not possess the right);

(c) tenants holding land in areas where interim measures have been enacted for stay of ejectment or for continuing the leases for a specified period.

(d) tenants holding land on temporary leases who are liable to ejectment; and

(e) areas held on condition of rendering service either to a village community or to Government (This also includes cases where labourers on plantations are given some land for cultivation with permanent rights); and

(iv) the following:—

(a) land taken for a fixed amount of money,

(b) land taken for a fixed amount of produce,

(c) land taken for a share of produce,

(d) land for which money is paid partly in one and partly in any other form mentioned above, and

(e) land held free of consideration.

Category 2 Land given to private persons for cultivation for payment in money, kind or share will include the classifications mentioned in category 1(ii).

Categories 1(i) and (ii) will include only those plots or parcels of land which are cultivated by the household itself, that is, lands which lie within the village, or in adjacent villages, or within such a distance as enables the household to work on the land or actively supervise the cultivation. They will not include land owned or held in distant places where distance itself is a bar to active cultivation, constant supervision or direction. But Category 2 will include land in any part of the country whatsoever. You should ascertain the extent of land in each category of local right in acres and record in the column relating to 'Area in acres'. You should write the total of separate plots or parcels of land under the same right if they are situated in different places. If it is not possible to ascertain the extent of land in acres you should, if possible, make a conversion from the local measure given to you. Even if this is not possible write the area in local measure giving invariably the name of the measure adopted.

This sub-part will not apply to households which do not possess any land. Thus it will not apply to households which consists of only agricultural labourers without any land. In such cases put an 'X' in all the spaces provided in the right hand side and put a bold cross on this sub-part.

Land under any of the items in sub-part 'A' includes rent free land, lands enjoyed in permissive possession or gifts without encumbrance or consideration. A household which is a member of a co-operative farm will record only that amount of land in the co-operative farm which had belonged to it before and under right enter 'co-operative farm'. Labour hired by such a co-operative farm should *not* be entered for this household.

Sub-part 'B' relates to Household Industry. This part will be filled up only where there is a Household Industry conducted by the Head of the household himself and/or mainly by members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be on the scale of a registered factory. The participation of the Head of the household and/or members of the household is an essential feature of the Household Industry. In a rural area the Household Industry can be located either at home or within the village. But in an urban area the Household Industry or at leas

the major part of its work must be located only at home. A Household Industry should relate to production, processing, servicing or repairing and includes makers and sellers of goods.

The test for a Household Industry is mainly threefold:

(*a*) Household Industry should embrace manufacture, processing or servicing and may include sale but should not be confined simply to buying and selling. At least part of the goods offered for sale from the household should be manufactured or processed by members of the household.

(*b*) Household Industry should be on the household scale where the workers mainly will be the Head of the household himself and members of the household, the role of hired workers from outside being of secondary importance. Thus, in any Household Industry, members of the household should be in a position to lend a hand in the industry whenever they find the time in the course of their daily chores. Household Industry cannot, therefore, be on the scale of a registered factory but can use machinery and employ power like steam engine or oil engine or electricity to drive the machinery.

(*c*) Location also is important, for proximity decides participation by members of the household. In a village this participation is possible if the Household Industry is located at home or within the village, because village organisation is such as makes it possible for members of the household to move about freely in the village to look after their work. In urban areas such a free movement is not possible and, therefore, for Household Industry in urban areas we should consider only those industries which are located at home. Where, however, part of the work is done outside the house, *e.g.*, preparing and dyeing the yarn for weaving or winding into warp and wool or cleaning metal surfaces before electroplating in baths, it should still be considered a Household Industry, even in urban areas, as the main operation of weaving or of electroplating is conducted within the house and only one or two operations are couducted outside.

The following activities should also be regarded as illustrative of Household Industry. *Biri*-makers who either alone or with help of members of the family roll *Biris* at home, for wages at piece rates, while the contractor supplies the materials. Certain processes like buttoning and handsewing of tailored cloths, dyeing and printing of cloth, are carried out at home by members of the household both at residence and at 'place of work' or where womenfolk of the household fill in at home with lac gold ornaments prepared at the shop by male members of the household.

Ascertain from the Head of the household whether there are any Household Industries and write the nature of the industry(s) in the column provided, if there are any. Then ascertain for how many months in a year roughly they are conducted and put down the number of months in the appropriate column. If the industry is conducted throughout the year write '12'. If there is no Household Industry of any sort put an 'X' in each of the places in the right hand corner where the answers will be written and put a bold cross on this sub-part.

Sub-part 'C' relates to Workers in Cultivation or Household Industry.

In the case of households which are engaged only in Cultivation, if the Head of the household is working write 1 under the column 'Head', and ascertain how many other male and female members of the family are working. Write the numbers in the respective columns. Write the total number of family workers including the Head, if he is working, in the column relating to 'Total'. Then ascertain whether any hired workers are employed and, if so, write the number of such workers in the column allotted for it. The hired workers should have been in wholetime employment during last working season or should be in wholetime employment during current working season.

Similarly in the case of households engaged in Household Industry only, if the head of the household is working write 1 in the column relating to the 'Head', and also ascertain how many male members and female members of the family are working and write the numbers in the respective columns Write the total number of family workers including the Head, if he is working. in the column relating to 'Total' and then ascertain the number of hired workers, if any, and then write the number of hired workers in the appropriate column.

If a household engaged both in Cultivation and Household Industry ascertain whether the Head is

working and write 1 under the column relating to the Head and also ascertain how many male and female members of the family are working both at Cultivation and the Household Industry and write the numbers in the respective columns. Write the total number of family workers in the column relating to Total. Ascertain the number of hired workers engaged by the family both for Cultivation and Household Industry and write the number in the appropriate column. In a Household engaged both in Household Cultivation and Household Industry, you need not ascertain how many are engaged in Household Cultivation and Household Industry separately.

Even if any of the members of the family working or hired labourers are absent during the period of the census count they should be counted for the purposes of the Household Schedule.

In the case of households engaged in Cultivation only, put 'X' in the columns relating to 'Household Industry only' and 'Both in Household Cultivation and Household Industry'. Similarly, in the case of Households engaged in Household Industry only put 'X' in the colums relating to, Household Cultivation only, and 'Both in Household Cultivation and Household Industry'. If a household is engaged both in Household Cultivation and Household Industry put 'X' in the columns relating to 'Household Cultivation only' and 'Household Industry only'. If a household is not engaged in either Household Cultivation or Household Industry or both put 'X' in all the columns and a bold 'X' on this sub-part.

The test for a worker is whether a person is actually working in Cultivation or Household Industry or supervising or directing work thereon.

APPENDIX IV

INSTRUCTIONS TO ENUMERATORS FOR FILLING UP INDIVIDUAL SLIP

In each household you should first enumerate the Head of the household followed by other members of the household in the most convenient order and ee that none of the persons in the household are :f t out. Please make repeated enquiries about infants and very young children for they are liable to be left out of count. Count near relatives first, such as wife, son, daughter-in-law, daughter, son-in-law, grandchildren, then distant relations and then domestic servants or other employees living in the household, boarders, visitors etc.

Location Code

Write the Location Code of the household in each slip. Your supervisor will give you the code numbers representing your district, tehsil/thana/town, village/ward/block. You should take care to write these three numbers connected together by oblique strokes in between on every slip.

Q. 1. (a) Name,

Write the name of the person enumeratcd. If a woman's name is not given out describe has as 'so-and-so's mother, wife or daughter. If a woman does not take the name of her husband and that husband's particulars have to be recorded write 'so-and-so's husband.'

For newly born infants who have not yet been given name write Baby and write 'father or mother's name.'

Q. 1. (b) Relationship to the Head of the household

In the case of the Head of the household write 'Head'. The Head of the household for census purposes, is a person on whom falls the chief responsibility for the maintenance of the household. Thus the Head of the household need not necessarily be the eldest male member but may even be a female or a younger member of either sex. In the case of institutions like boarding houses, messes and chummeries, which should be regarded as houses of 'unrelated persons living together', the manager or the superintendent or the person who had administrative responsibilities or who by common consent is regarded as the head should be recorded as Head of the household. All relationships in this question should be recorded in respect of Head of the household. In the case of relations write the relationship in full. Do not use words like nephew, niece or uncle, but state whether brother's or sister's son or daughter (for nephew or niece) or father's or mother's brother (uncle). 'Son' will include 'adopted son' or 'step son'; similarly for a daughter. In the case of visitors, boarders or employees write 'visitor', 'boarder', or 'employee' as the case may be. In case of institutions, the member should be recorded as unrelated.

If on the check or revisional round between the Ist and 5th March the Head of the household as recorded previously is found to have died, the person in the household who succeeds him by common consent as Head should be recorded as Head and the relationships in all other slips will have to be suitably corrected. The slip of the dead Head of household will, of course, be cancelled.

Q. 2. Age in completed years last birthday

Write age in years completed last birthday. For infants below one year of age, Write 'O'. You will find many persons who cannot state their age correctly. You should assist them to state the correct age. If you are not able to elicit correct age directly, you should stimulate their memory by referring to historical incidents or religions events etc. Youmay use any local calendar of such events that may have been prepared for the purpose.

Q. 3. Marital Status

For never married	write	NM
Married	write	M
Widowed	write	W
Separated or Divorced	write	S

For a person who has never been married write 'NM'. For a person married, whether for the first or another time, write 'M'. Write 'M' also for persons who are recognised by custom or society as married and for persons in stable *de facto* union. Even if a marriage is disputed in the locality write 'M' if the person concerned says he or she is married or in stable *de facto* union. For a widowed person whose husband or wife is dead, and who has not been married again, write 'W'. For a person who has been divorced in a lawful manner, either by decree of a law court or by a regular social or religious custom but who has not remarried, or a person who has been separated from wife or husband and is living apart with no apparent intention of living together again,

write 'S'. For a prostitute return her marital status as declared by her.

Q. 4. (a) Birthplace

1. If born in village or town in which enumerated	write PL
2. If born in another village or town of district in which enumerated ..	write D
3. If born in another district in the State of enumeration	write name of district.
4. If born in another State in India..	write name of district and State if name of district is known; otherwise write name of State.
5. If born in a country outside India *e.g.* Pakistan or any other country	write name of country.
6. Persons born at sea or in air or in railway carriages or on road transport *e.g.*, buses etc., should be entered as such.	

Q. 4. (b) Whether born in Village or Town

1. If born in a village	write R
2. If born in a town which is considered a town at the present time even if it was not so considered at the time of birth	write U
3. If the person enumerated is not in a position to say whether the place of brith is village or town .. .	write the name of place of brith as returned by him.

Q. 4. (c) Duration of Residence

1. For a preson born in village or town or city in which enumerated..	write X
2. For a person born in another village or town or city of district of enumeration or who was not born in the district of enumeration ..	write the number of completed years this person has been in the village / town/ city of enumeration. (*Do not take into account periods of temporary absence on leave or holiday or tour or business*).
3. If the duration of residence is less than one year	write O
If the duration of residence is one year or over	write the actual number of completed years of residence.

Q. 5. (a) Nationality

1. For Indian nationals	write I
2. For other nationals	write the nationality in full

Q. 5. (b) Religion

For Hindu	write H
Muslim	write M
Christian	write C
Jain	write J
Buddhist	write B
Sikh	write S

For others write the answers actually returned.

Q. 5. (c) Scheduled Castes and Scheduled Tribes

The answer to this question will be recorded only if a person belongs to a Scheduled Caste or Scheduled Tribe. If the person belongs to a Scheduled Caste or Scheduled Tribe obtaining in your State, or in your district write the name of the caste or tribe to which he belongs. For all others, write 'X' in this column. A list of Scheduled Castes and Scheduled Tribes obtaining in your State or in your district will be found in the "instructions" given to you.

If the person belonging to a Scheduled Caste or Scheduled Tribe returns his caste or tribe by a symonym or a generic name of a caste or tribe as given in your list, write the name as returned and the name of the relevant caste or tribe, as per printed list, within brackets.

Do not write names of Scheduled Castes in genral terms as '*Harijan*', '*Achhut*'. You should ascertain the name of the caste when it is returned and write it. If a person is negligent and insists on calling himself merely '*Harijan*' tell him that this description will not earn the person any benefits under the Constitution permissible to Scheduled Castes and Scheduled Tribes. This may persuade him to give out the correct name.

Scheduled Castes can belong only to the Hindu or Sikh religions. If a person belongs to a Scheduled, caste there will be either 'H' or 'S' in the answer to qustion 5(b). Scheduled Tribes may belong to any religion.

Q. 6. Literacy and Education

1. Illiterate or Literate

For a person

1. Who can neither read nor write or can merely read but cannot write in any language	write O
2. Who can both read and write ..	write L

The test for reading is ability to read any simple letter either in print or in manuscript *i.e.*, if the person can read one of the examples in the Enumerator's

Handbook with felicity he may be taken to have passed the test for reading. The test for writing is ability to write a simple letter. The test for literacy is satisfied if the person can with understanding both read and write.

II. Standard of Education

If the person can both read and write and has also passed a written examination or examinations as proof of an educational standard attained, write the highest examination passed instead of L.

Q. 7. (a) Mother Tongue

Write the mother tongue in full including dialect as returned by the person enumerated. Mother tongue is language spoken in childhood by the person's mother to the person or mainly spoken in the household. If the mother died in infancy write the language mostly spoken in the person's home in childhood. In the case of infants and deaf mutes give the language usually spoken by the mother.

Q. 7. (b) Any other Language (s)

After recording the mother tongue enquire whether the person knows any other language(s), Indian or foreign, and write the language(s) returned by him against this question. In case he does not know any other language put 'X'.

The number of languages recorded against this question should not be more than two. These languages should be other than his mother tongue which he speaks and understands best and can use with felicity in communicating with others. Such language or languages will exclude dialects of the same language.

Qs. 8 to 11 Working

These questions apply only to workers. A person who is working may be working as a Cultivator, as an Agricultural Labourer, at a Household Industry or may be doing any other work. You have to record the answer in questions 8, 9, 10 and 11 according as the person is working as a Cultivator or as an Agricultural Labourer or at Household Industry or doing any other work. He may be engaged in only one of the above four categories or in more than one. Thus a person can be working both as a Cultivator and an Agricultural Labourer, in which case he should be entered both in Q. 8 and Q. 9. Or, he may be working both as Cultivator and at Household Industry in which case he will be entered in Q. 8 and Q. 10. Or, he may be working in any possible combination of 8, 9, 10 and 11, in which case he will be entered in the appropriate places. Or, he may be doing just one kind of work in which case he will be entered in only one of the four Questions 8 to 11.

Detailed instructions as to how the answers should be recorded in the individual questions are given against those questions below. You should carefully study them before recording the answers. For an undertrial prisoner enumerated in a Jail he should be recorded for the work or kinds of work he was doing before he was apprehended. Similarly, for a person temporarily in a hospital or similar institution he should be recorded for the kind of the work he was doing before he was admitted into hospital or institution. But for a convict in a prison or for long term inmates of penal or charitable or mental institutions, the person's previous work should not be recorded but 'I' should be recorded in Q. 12 below.

The basis of work will be satisfied in the case of seasonal work like cultivation, livestock, dairying, household industry etc., if the person has had some regular work of more than one hour a day throughout the greater part of the working season. In the case of regular employment in any trade, profession, service, business or commerce the basis of work will be satisfied if the person was employed during any of the fifteen days preceding the day on which you visited the household. If on the check or revisional round such a person is found to be unemployed no change in the original entry should be made. A person who is working but was absent from his work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other causes should be treated as *worker*. A person who has been offered work but has not actually joined should be treated as *non-worker*. *Work includes not only actual work but effective supervision and direction of work.*

Persons under training as apprentices with or without stipend or wages will be regarded as working.

An adult woman who is engaged in household duties but doing no other productive work to augment the family's resources should not be considered as working for purposes of this question. If however, in addition to her household work she engages herself in work such as rice pounding for sale or wages, or in domestic service for wages for others or minding cattle or selling firewood or making and selling cowdung cakes or grass etc., or any such work she should be treated as a worker.

Persons like beggars, pensioners, agricultural or non-agricultural, royalty, rent or dividend receivers,

who may be earning an income but who are not participating in any productive work should not be treated as working unless they also work in cultivation, industry, trade, profession, business or commerce.

A public or social service worker who is actively engaged in public service activity or a political worker who is also actively engaged in furthierng the political activity of his party will be regarded as worker and entered fully in question 11.

After you have filled up the answers to questions 8 to 11 if you find that in the case of any person more than one productive activity has been recorded i.e. more than one of the questions 8,9,10, or 11 has been filled up by some work you should ask him which one of the activities that has been recorded for him is his principal work. The principal work is the one on which the person sperds most time. Put a ring round the number of the questions 8,9,10 or 11 according to the work on which the person says he spends most time. You should invariably ask for the principal work where more than one work is recorded and put a ring round the question relating to principal work.

It may be that in a few cases you find that you have recorded more than two productive activities in questions 8 to 11 *i.e.* more than two of the questions 8 to 11 would have been filled up by some work. In such cases you should first ascertain the principal work i.e. the one on which the person spends most time and put a ring round the number of the question. You should then ascertain the work which is the next in importance to his principal work i.e. the work after this principalwork which occupies most time. You should put a tick against the question number of that work on the left hand side of the question number. The ring and the tick should be put clearly so that any difficulty will not be felt to recognise them clearly.

The following classification illustrates as to which answers should be entered under Q. 8 and which others under Q. 11

Under Q. 8. Cultivation involving ploughing, sowing and harvesting.

1. Production of cereals (including Bengal gram) such as rice **jowar, bajra, maize,** roots and tubers like potato, yam, beete, sugarcane etc.

2. Production of pulses such as arhar, moong, masur, urd, khasari, other gram.

3. Production of raw jute and kindred fibre crops.

4. Production of raw cotton and kindred fibre crops.

Under Q. 11. Other field produce, plantation crops.

A- other field produce

1. Production of other crops including vagetables not covered in Q. 8.

2. Production of fruits and nuts in plantations, vines and orchards (like coconut, arecanut etc.)

3. Production of wood, bamboo, cane reeds, thatching grass etc.

4. Production of juice by tapping palms

5. Production of other agricultural produce including fruits and nuts not covered by Sl. No. 2 and flowers) not covered above.

B- Plantation crops

1. Production of tea in plantation
2. Production of coffee in plantation
3. Production of rubber in plantation
4. Production of tobacco in plantation (does not include tobacco which is cultivated in rotation with other cereal crops in which case it would go under cultivation).

5. Production of *ganja* cinchona, opium, poppy, saffron etc.

6. Production of other plantation crops not covered above.

Q. 8 Working as Cultivator

For a person working as cultivator write 'C.' For a person not working as cultivator and for a person not working at all put X.

For purposes of the census a person is working as cultivator if he or she is engaged either as employer, single worker or family worker in (a) cultivation of land or supervision or direction of cultivation of land owned or held from Government and (b) cultivation of land or supervision or direction of cultivation of land held from private persons or institutions for payment in money, kind or share.

Cultivation involves ploughing, sowing and harvesting and does not include fruit growing or keeping orchards or groves or working for plantations like tea, coffee, rubber, cinchona and other medicinal plantations. Persons engaged in fruit growing or orchardry or plantations like tea, coffee, rubber, cinchona and other medicinal plantations should be entered in Q. 10, or Q. 11 as the case may be.

A person who has given out his land to another person or persons for cultivation for money, kind or

share of crop and who does not even supervise or direct cultivation of land. will not be treated as working as cultivator. Similarly, a person working in another person's land only as a labourer and has no right or lease or contract on land on which he works, nor is responsible for taking decisions as to which crops to sow and when, or taking the risks of cultivation and is paid wages in cash, kind or share such as share of the produce (agricultural labourer) will not be treated as cultivator in this question.

Q. 9 Working as Agricultural Labourer

Write AL for a person woking as agricultural labourer, *i.e.*, a person who works in another person's land only as a labourer without exercising any supervision or direction in cultivation. for wages in cash, kind or share such as share of produce. For others put X. The labourer should have no right or lease or contract on land on which he works nor should he be responsible for taking decisions as to which crops to sow and when, or taking the risks of cultivation. A share of the produce goes to him as wages. He should have been working as Agricultural Labourer in the last or current cultivating season.

Q. 10 (a) & 10 (b) Household Industry

If a person is working in a Household Industry write (1) the nature of work done by him in the Household Industry against question 10(a) and (2) the nature of the Household Industry against question 10(b). Otherwise put X in both questions 10(a) and 10(b). A Household Industry is defined as an industry conducted by the Head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of a registered factory. Thus the main criterion for a Household Industry is the participation of one or more members of a household in rural areas. In the urban areas the industry should be confined to the house. You should carefully keep in mind the definition of Household Industry in the rural area if you are enumerating a rural area and the definition in the urban area if you are enumerating an urban area.

A Household Industry should relate to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as pleader or doctor or barber or waterman or astrologer.

A person though he may not be working in his own Household Industry may be working as a paid employee in another Household Industry. You should, therefore, enquire whether the person who is not working in his own Household Industry is working in any other Household Industry and if so write the nature of the work done by him against question 10(a) and the nature of the Household Industry against 10 (b).

Q. 10 (c) If Employee in Household Industry

This question will be filled up only for a person who is working as a paid employee in another person's Household Industry. In his or her case write F.E. For all others put X.

The following examples will illustrate how questions 10(a) to 10(c) should be filled up for persons working at Household Industry:

Q. 10— Working at Household Industry

	(a) Nature of work	(b) Nature of Household Industry	(c) if Employee
1.	Spinning yarn	Spinning yarn in *Ambar Charkha*	X
2.	Dyeing and priming yarn	Handloom weaving	X
3.	Threshing and cleaning grain	Flour making *chakki*	X
4.	Labourer employed for crushing oil	Oil *ghani*	E.E.
5.	Tempering and polishing implements	Blacksmithy making agricultural implements	X
6.	Labourer employed for making and firing kiln	Earthenware pottery	E.E.
7.	Throwing and Turning pottery	Earthenware pottery	X
8.	Making wooden doors and windows	Carpentry	X
9.	Filling gold ornaments with lac	Goldsmithy	X
10.	Labourer working on hosiery machine	Hosiery	E.E.
11.	Keeping accounts	Hosiery	X
12.	Polishing and Scraping metal	Electroplating	X
13.	Labourer employed for putting iron hoop on cartwheels	Cartwheelwright	E.E.
14.	Repairing of guns	Gunsmithy	X
15.	Bee Keeping	Production of honey	X
16.	Tending cattle	Livestock raising	X

Q. 11. Doing Work other than 8, 9 or 10

If a worker is not working as a cultivator or as an agricultural labourer or at any Household Industry write the actual work he is doing. If a person is working as a cultivator or as an agricultural labourer or at Household Industry and also does some other work (including dairying or livestock raising, orchard or plantation etc., as distinct from cultivation of crops) which does not relate to any of the above categories, write the other work he does in this question. If he is engaged in more than one work and neither of them relates to any of the three categories mentioned above write here the work on which he devotes more time.

Q. 11 (a) Nature of work

In the case of persons not working or who work *only* as cultivator or as agricultural labourer or at Household Industry, put 'X'.

Describe fully the nature of the work done by the person himself. Full and precise information as to the nature of work done by the person should be given either in the vernacular or in English or in vernacular transliteration of English. At previous censuses much trouble has been caused by inadequate answers, and if you do not succeed in obtaining satisfactory information on the individual slips, you will be required to make a further visit for that purpose.

Q. 11 (b) Nature of Industry, Profession, Trade or Service

In the case of a person who is working and the nature of whose own work has been recorded in Question 11(a), you should write here the nature of industry, business, trade, profession or service in which the person works.

As in the case of Question 11(a), you should describe in detail the nature of industry, business, trade, profession or service in which the person works. Vague answers should be avoided. In the case of industries, the articles which are produced or serviced or repaired, should be given. If more than one article is produced the chief article produced or serviced or repaired should be given. In the case of business or trade the principal article of trade should be described. In the case of service describe the nature of the service to which the person's work belongs. The description should be such that it would be possible to classify the establishment in which the person is working for purposes of industrial classification of the population. The description should be either in the vernacular or in English or in vernacular transliteration of English.

In the case of a person for whom an X is put in Question 11(a), put an X in this question also.

Important points to remember in Questions 11(*a*) *and* 11(*b*).

1. Women or children who help with work, such as rice pounding or doing domestic service for wages or minding cattle or selling fire wood or making and selling cowdung cakes, grass, etc., should be described fully even if they work part-time. *In the case of married or grown-up women who do any of the work mentioned above in addition to the usual household duties such work should be fully described and HW written in brackets after the full description.*

2. If a person makes the articles he sells, he should be entered as maker and seller of them.

3. Wherever convenient, for complete description, the work should be expressed by the vernacular name by which it is known.

4. The following are too vague and must not be used by themselves:

> Scientist, technician, civil servant, clerk, engineer, inspector, checker, foreman, overseer, supervisor, labourer, machinist, assistant, contractor, polisher.

5. *Labourers* For an unskilled labourer usually employed on one sort of work alone, give also the sort of work done, *e.g.*, railway porter, market or bazar porter, labourer employed on road digging, bricklayer's labourer. If accustomed to work on various jobs, write general labourer.

6. *Machine Operators*—Always state the kind of machine giving its recognized name, if any.

7. *Shop-keepers, Retail Dealers, Shop Assistants*—If wholly or mainly engaged in selling, write, 'Dealer' (if principal) or, Shop Assistant or Salesman (if assisting) and state whether the business is wholesale or retail or both. For shop assistants and salesmen in stores with several departments, state the particular department in which engaged (*e.g.*, Ship and Railway Parts, Fans and Sewing Machines, Grocers and Confectioners).

8. *Transport Workers*– Describe fully the nature of the transport, *e.g.*, air transport, rail transport,

transport by motor car or motor cycle, or vehicles drawn by horse, etc.

9. *Services*—For a person engaged in the Defence Services write 'Service of Central Government'.

10. If the job is known in the trade or industry by a special name, use that name. Managers, Foreman, etc., should be given the department/ branch wherever applicable *e.g.*, Sales Manager or a Manager of Hardware Department, Machine Shop Foreman or Boiler Room Foreman, etc. The following terms are insufficient by themselves:—

> Manufacturer, merchant, agent, broker, refiector, dealer, engineer and iron works, etc.

11. *Domestic services* - In the case of any private servant e.g., a cook or domestic servant, write only 'private cook or domestic servant'. There is no industry in his case but in the case of persons employed in hostels, restaurants, boarding houses, institutions, etc., the words hotel, restaurant, etc., should be added.

For persons in the employ of Firms carrying on two or more businesses, if the businesses are carried on in separate premises then the business carried on at the premises in which the person is employed should be given. If the businesses are carried on in the same premises but each has a separate organisations (*i.e.* they have separate records of employment, production, etc.) then the appropriate business should be quoted. If, however, the two activities are carried on side by side then the major activity of the firms or establishment should be given.

12. *Commerce* -Special care should be taken to see that the distinction between retail and wholesale business is clear. As in industries, the goods handled should be clearly indicated.

Q. 11. (c) Class of Worker

For a person who is:

1. an *Employer*, that is, who hires one or more persons in his work described in Q. 11(a). .. .. .. write MR
2. an *Employee*, that is, who does his work described in Q. 11(a) under others for wages or salary in cash or kind .. .. write FE
3. a *Single Worker*, that is, who is doing his work described in Q. 11(a) without employing others, except casually and without the help of other members of the family except casually. This will include workers working as members of co-operatives .. .. write SW
4. a *Family Worker*, that is, who is doing his work described in Q. 11(a) in own family without wages or salary in cash or kind. write FW

For a person for whom an 'X' is put in Qs. 11(a) and 11(b) put an X in this question also.

Explanation:

(i) An *Employer* is a person who has to employ other persons in order to perform the work entered in Q. 11(a). That is to say, such a person is not only responsible for his own personal work but also for giving work to others in the business mentioned in Q. 11(a). But a person who employs domestic servants for household duties or has subordinates under him in an office where he is employed by others, is not an employer even if he has the power to employ another person in his office on behalf of his own employer or employers.

(ii) An *Employee* is a person who usually works under some other person for salary or wages in cash or kind. There may be persons who are employed as managers, superintendents, agents, etc., and in that capacity employ or control other workers on behalf of their own employers. Such persons are only employees, as explained above, and should not be regarded as employers.

(iii) A *Single Worker* for the purpose of Q. 11(c) is a person who works by himself. He is not employed by any one else and in his turn does not employ anybody else not even members of his household except casually. This definition of a *Single Worker* will include a person who works in joint partnership with one or several persons hiring no employees, and also a member of a producers' co-operative. Each one of the partners or members of such producers' co-operatives should be recorded as 'Single Worker'.

(iv) A *Family Worker* is a member who works, without receiving wages in cash or kind,

in an industry, business or trade conducted mainly by members of the family and ordinarily does at least one hour of work every-day during the working season. For the purpose of the entire Q. 11, such an industry should be on a scale larger than what has been covered in 'Household Industry' in Q. 10 whether run at home or away from home in town or village and even away from village in rural area and should ordinarily be in the nature of a recognised partnership, joint stock company or registered factory. For the purpose of this definition members of a family may be drawn from beyond the limits of the household by ties of blood or marriage. The family worker may not be entitled to a share of the profits in the work of the business carried on either by the person or head of the household or other relative.

Members of the household who help solely in household duties should not be treated as family workers.

Q. 11 (d) Name of Establishment

Describe in detail the name of the factory, work-shop, business house, company, shop, etc. If a person has no fixed place of work, write 'No fixed place of work'.

For a person for whom an X is put in Qs. 11(a), 11(b) and 11(c) put an X in this question also.

The following examples will illustrate how Qs. 11(a) to 11(d) should be filled up for persons doing work other than 8, 9 or 10.

Q. 11—Doing Work other than 8, 9 or 10.

	Q. 11(a) Nature of Work	Q. 11(b) Nature of Industry, Profession, Trade or Service	Q. 11(c) Class of Workers	Q. 11(d) Name of Establishment
1	Cutting trees in forests ..	Logging in forests	EE	Forest Department of Government
2	Hunting for fur	Hunting	SW	No fixed place of work
3	Gardener in mango orchard ..	Fruit growing	EE	Master's mango orchard

55	Honorary social worker ..	State Social Welfare Board	SW	State Social Welfare Board
56	Member of Parliament ..	Parliament	SW	Parliament Delhi
57	Free lance Journalist ..	Writing for newspapers and periodicals	SW	No fixed journal
58	Political worker	Political work	SW	Name of party

Q. 12 Activity, if Not Working

This question will apply to a person NOT working.

Write 'X' in this question for a person who is working, that is, for whom you have recorded the work in any of the questions 8 to 11 above

The following activities should be recorded in the case of persons

NOT Working :

1. For a full-time student or child attending school who does no other work, such as make articles at home for sale, nor even help part-time in his own family cultivation, industry, trade or business .. .. write ST
2. For a person engaged in unpaid home duties (like house wife or other adult female) who does no other work, such as make articles at home for sale or wages, nor help regularly even part-time in family cultivation, industry, trade or business .. write HW
3. For any dependent, including an infant or child not attending school, a person permanently disabled from work because of illness or old age .. .. write D
4. For a retired person who is not employed again, rentier, person living on agricultural or non-agricultural royalty, rent or dividend or any other person of independent means for securing which he does not have to work and who does no other work .. write R
5. For a beggar, vagrant or independent woman without indication of source of income and others of unspecified source of existence .. .. .. write B
6. For a convict in jail (an under-trial prisoner will be shown as a worker if he used to work before he was apprehended) or an inmate of a penal, mental or charitable institution .. .. write I
7. For a person who has not been employed before but is seeking employment for the first time write NE
8. For a person employed before but now out of employment and seeking employment. .. .. write UN

Explanation :—If a person, who does not work, cannot be readily classified in any of the above categories, put him in category 5 and write B in this question. A retired person who has taken up regular work again should not be entered in this question as he would have been entered for his new work in Questions 8 to 11.

A person who is not working but has been offered work which he has not joined should be included in item 3 and 'D' should be written. He should not be included in items 7 or 8.

Q. 13 Sex

Write 'M' for Males; and 'F' for Females.

For eunuchs and hermaphrodites. write 'M'.

APPENDIX VI

GOVERNMENT OF INDIA

MINISTRY OF HOME AFFAIRS

OFFICE OF THE EX-OFFICIO SUPERINTENDENT OF CENSUS OPERATIONS, N.E.F. AGENCY

Instructions to Field Workers—Census (NEFA) 1961

As Census Enumerator you are a very important person upon the accuracy and care with which you complete your task most of the future administrative and development planning of the NEFA will depend.

Please read the following instructions carefully. They will give you a clear understanding not only of how to fill the forms but also why these forms are required and how important is the work which you will do shortly.

Why do we require this data ? Most of you are directly or indirectly concerned with the development of the people and the area. The present age is an age of Planning. Unless we know what we have, and how much we have, we can not plan properly how much is required. Especially in the NEFA where there are few other reliable background statistics. The data you are going to collect will form the very basis on which our future plans will be formulated. In fact the data collected by you will be referred to for next ten (10) years on all administrative, social and economic questions. Even after 1971 the data now collected will not loose its value, but will be most valuable for future comparative studies, to show for example the increase or decline of a particular tribe or group.

1961 Census will be the tenth decennial census in India (first Census was taken in 1872) and it will be the First Census in the NEFA.

Unless you collect accurate figures unaffected by preconceived ideas, you will fail to help the administrators and the policy makers of future, towards a correct assessment of problems and thence to correct decisions. The *accuracy* of the data collected is as important as enumerating all the villages and all the population.

You are to enumerate all the villages falling under your jurisdiction. You have been provided with a list of villages for your guidance appendix 'A'. But you must not think that the list is exhaustive and no village, whether or not included in the list provided, should escape enumeration. Make repeated local enquiries about the villages and be satisfied that your coverage is complete. In certain cases due to some political or other difficulties it may be impossible to reach a village for some time. Take a note of this, and report the matter immediately to the Divisional Statistical Officer (DSO) giving him the names of the village (s), name (s) of tribe (s) inhabiting the village (s) and the estimated population of the village (s). Make further attempts to enumerate the village (s) after a laps of time.

On reaching a village, explain carefully to the traditional village authority the purpose of your visit, and the necessity for collecting this data. Tell them that this is being done in every corner of India. You must gain the peoples' confidence before you start your work.

The Enumeration Book, given to you consists of 50 Forms. There are 20 lines in each Form for recording the household particulars. Under this there is a line for totals. Fill in the Forms with a good lead pencil. Put crosses (X) in the columns where the information is nil. Do not keep any column blank. Record your remarks wherever you think they are necessary to an understanding of the entries you have made.

INSTRUCTIONS FOR FILLING UP THE FORMS

Location Code

At the top of the form you will find a place for recording the location code. The first code number (in Arabic numerals) will stand for your Division, the second code number, after the oblique stroke (in Roman numericals) will stand for the Sub-division or Administrative Centre of which you are the incharge for completing the Census Enumeration. You should take care to write these two codes on every census form, separated by an oblique stroke like this: 2/III or 1/IV *etc.* The codes will be given to you by the Divisional Statistical Officer. If he has not given them to you, so far, ask for them before you leave the headquarters after training.

Name of the Village

After writing the location code in the form, write down the name of the village you are going to enumerate in the place provided in Block Capital letters. Be very careful in writing the name of the village. Check-up the list of villages provided to you by the D.S.O. for the correct spelling. In case the name of the village does not appear in the list, take special care to spell the name correctly and add the name to the list. Report about the village immediately to the Divisional Statistical Officer. Invariably consult your P.O./A.P.O./Base Superintendent if there is any doubt or change reported in the name of a village. People may try to get you to record such changes in name or recognition of new hamlets or settlements as villages from all sorts of motives ranging from clan or tribal rivalry to the aim of quoting this recognition later to obtain a red blanket. The P.O's decision on such village names will be final.

Households

Each line in the form will relate to one household. A *Household* means the entire group of persons who commonly live together in the same house and take meals from a common mess. unless the exigencies of the work prevent them from doing so. Some houses may be lived by more than one group of persons each group having a separate common mess. In such cases each group should be regarded as a separate household, and a separate line should be filled up for each such group.

Col. No. 1 : The Date of Enumeration:

Put down in this column the date on which you fill the household details in a line.

Col. No. 2: The Head of the Household:

Record the name of the Head of the household in this column. The name is required for the identification of the household. The Head of the household, for Census purposes is a person on whom falls the chief responsibility for the maintenance of the household. The Head of household need not necessarily be the eldest male member, but may even be a female member or younger members of the either sex. You need not however make any elaborate enquiry about this and should record as Head of Household the name of the person who is actually acknowledged as such.

A boarding house, mess or any other organisation or institution where normally a group of non-related persons stay together and mess together will be treated as one household for the purpose of this Census. It's Manager or the customary head of the institution/organisation will be considered as the Head of the household. In such cases write in brackets under the name of the head of the household (Boarding house) or (mess) *etc.* as the case may be, and circle the sl. number of the household. We have consulted our Research Staff and decided that in NEFA condition it will *not* be correct to enumerate young people who sleep in village dormitories such as due's and rushings at night under this Head of an Institution as they normally eat at home and recognise the parents as head of their household. On the other hand hostel inmates in a school have to be enumerated in the hostel as also hostel inmates in monaster institutions such as Gompas and Khampti temple-schools.

Col. No. 3 : Name of the Tribe:

Write down the name of the tribe (and sub-tribe in bracket) after checking carefully the list of tribes attached at Appx. 'B'. If a sub tribe is not in the list, make further enquiries and refer the matter to the P.O. through the D.S.O. Otherwise we shall be encouraging too much splitting up of tribes down to even village group.

Col. No. 4 : Name of the Dialect/Language:

Exactly the same procedure should be followed in regard to the recording of languages/dialects of which an authentic list is given at Appx. 'C'. Take care to write the correct spelling of the name of the reported tribe/language/dialect. If the language/dialect which the individual insists he speaks is not given in the list again refer the matter to the Divisional Statistical Officer and Political Officer whose decision in consultation with his A.R.O. will be final.

Col. No. 5 : Duration of Residence:

Ascertain when the Head of the Household came to the village you are enumerating, with his family and enter the duration of residence in the village in number of completed years. In a large number of cases you will find that the Head of the household and his ancestors were born in the village. In such cases record 'X'. If the village as a whole has shifted from one location to another but retained its old name, record 'X' against the Head of the household who lived in the village for a long time (above 40 years for this

purpose only) and for the Head of the household who does not remember the number of years he has settled in the village. Record 'O' if the duration of residence is less than one year.

Col. No. 6 : Total Family members:

The total family members (including friends, relatives and servants who commonly mess together in the household) should be recorded here. It should include all the members of the family. Make special enquiries about the babies.

The members who have temporarily gone somewhere else will be included. Similarly temporary guests in that household will be *excluded* and enumerated in their own homes. Family members who have gone out of the family permanently or for a sufficiently long period or have now formed a separate household should not however be counted with the parent family but separately in their new location. Members who are in Government service and those who are staying permanently at Political Officers' Headquarters should not be counted under this head as they will be enumerated on the All India Forms as Government servants. Gaonburas and their families should however be enumerated.

If a family member is at a Political Officer Headquarter between February 1961 to 3rd March 1961, do not count him in the household. It is expected that such cases will be very very rare, as the Census on this simplified Forms will be completed much before that date.

In short all the normal family members relations, or friends or servants who commonly stay together in one household and mess together, should be counted in that household. Absence from home which is of temporary nature should not disqualify the person from being counted as a family member.

Cols. Nos. 7 & 8 : 0-4 years:

Record in these two columns the number of children belonging to the household, below the age of 5 years. The completed number of years will be taken into account for this purpose, *e.g.* a child of 4 years 11 months or 4 years 1 day or 4 years 11 months 20 days will be included in the age group of 0-4 years. Record in column number 7 'M', the number of male children and in col. No. 8 'F' the number of female children belonging to the age group of 0-4 years. Assessment of age will obviously have to be done approximately on the basis of common sense enquiries and observation. The information is very important however for the scientific assessment of population trends.

Cols. Nos. 9 to 12 : 5-14 years:

Record in these columns the number of household members who have completed 5 years of age and have not completed the age of 15 years.

Record the number of male and female persons belonging to this age group separately in cols. Nos. 9 and 10.

In cols. Nos. 11 & 12 the break up for the number of persons belonging to age group 5 to 14 years is to be done according to literacy. Record in col. No. 11, how many of the males recorded in col. No. 9 are literates and in col. No. 12 how many of the females recorded in col. No 10 are literates.

A person who can read and write a simple letter in his own language or in any script is to be treated as *literate*.

Cols. Nos. 13 to 16 : 15 Years and above:

The total number of the household members who have completed the age of 15 years are to be recorded in these columns. Record the number of males in col. 13 and females in col. 14.

In the col. 15 record how many of the males recorded in col. 13 are literates and record in col. 16 how many of the females recorded in col. 14 are literates.

Cols. Nos. 17 & 18 : Land under Permanent Cultivation:

These two columns relate to household land (*Possessed*) and actually under permanent cultivation by way of Wet Rice Cultivation (WRC, col. 17) and Terrace Rice Cultivation (TRC, col. 18). Enquire if the household practices the WRC, TRC methods of cultivation. If so, you must carefully record the exact area under cultivation. You should seek help from the field staff of the Agricultural Directorate, whenever you find one. In case the household does not practice WRC or TRC way of cultivation record 'X'.

Col. No. 19 : Main Crop (s) under Jhum Cultivation:

Enquire what main crops were grown in the previous crop season by the household and record the names of the main two crops in order of priority.

In the last line of the Form, you will find in col. 5 the word 'Total'. You are to work out the vertical totals of columns 6 to 18 and record them under the respective columns. Be specially careful to be accurate.

At the bottom of the Form, in the left most corner, you will find the phrase 'Enumerated by' here you write down your full name in Capital letters. Under that, in the place given for 'signature of the Enumerator' put your signature.

Remember:

1. You are not to enumerate more than one village on one Form.
2. If for a village the number of Households are less than 20 cut out the unused sl. No. in col. No. '0'.
3. If in a village the number of households are more than 20, then write on the top of the Form '*continued to next page*' and in the next page be sure to record the location code and the name of the village.
4. Record the totals of each Form in the place provided for it.

Enumerators' Abstract

When you exhaust the Enumeration Form Book, fill up the Enumerators' abstract given on the cover page.

Fill up the location code as usual. In the next line record the total number of villages enumerated in the Form Book. Count the number of households enumerated in the Book and the number of forms used and record them in the next two lines.

Then you calculate the number of males, females and total persons enumerated in the Book, and record them in the col. 3 of the tabulator form provided. After that find out how many of males and females recorded in col. 3 are literates and record them in col. 2 and give the total in the 3rd line.

At the bottom of the Abstract, there is a place for date and signature of the Enumerator. Put your signature and the date on which you hand over the Book to the Administrative Centre Incharge.

APPENDIX VII

The 3rd February, 1948

No. Ex./Misc./20/47/67-AD.—The following Regulation made by His Excellency the Governor of Assam under sub-section (2) of section 92 of the Government of India Act, 1935, as adapted by the India (Provisional Constitution) Order, 1947, and assented to by His Excellency the Governor General is republished for general information:

Regulation III, IV and V of 1947

(The Balipara/Tirap/Sadiya Frontier Tract Jhum Land Regulation, 1947)

Preamble

Whereas it is expedient to frame a Regulation in order to safeguard and regulate the rights of the Tribes indigenous to the Balipara/Tirap/Sadiya Frontier Tract to Jhum land in the Balipara/Tirap/Sadiya Frontier Tract.

Now, therefore, the Governor of Assam, in exercise of the powers conferred by sub-section (2) of section 92 of the Government of India Act, 1935, as adapted by the India (Provisional Constitution) Order, 1947, is pleased to make the following Regulation:—

Title and application

1. (1) This Regulation shall be called the Balipara/Tirap Sadiya Frontier Tract Jhum Land Regulation, 1947.

(2) It extends to the whole of the Balipara/Tirap/Sadiya Frontier Tract.

(3) It shall come into force at once.

(4) Its provisions shall apply in supersession of all existing enactments and rules, so far as the latter are inconsistent with, contrary to or repugnant to, the provisions of this Regulation.

Definitions

2. In this Regulation:—

(a) "Land Conservator" means and includes the Political Officer of the Balipara/Tirap/Sadiya Frontier Tract, any officer exercising the powers of a District Magistrate within the Balipara/Tirap/Sadiya Frontier Tract, any Sub-divisional Officer within the limits of his sub-division, and any officer especially invested by the Governor of Assam with the powers of a Land Conservator under this Regulation.

(b) "Jhum Land" means and includes all land which any member or members of a village or community have a customary right to cultivate by means of shifting cultivation or to utilize by clearing jungle or grazing livestock provided that such village or community is in a permanent location but does not include:—

(i) any land which has been or is under process of being terraced for the purpose of permanent or semi-permanent cultivation whether by means of irrigation or not,

(ii) any land attached or appurtenant to a dwelling house and used for the purposes of permanent cultivation, or

(iii) any land which in the opinion of the Political Officer is subject to permanent cultivation.

Explanation:—

(1) Any land which is otherwise Jhum land according to the above definition shall be deemed to be so notwithstanding the fact that a part or the whole thereof may have been planted with fruit trees, bamboos, or tung or reserved for growing firewood.

(2) Any village or community shall be held to be in permanent location of it always remains within a specific area, although part or the whole of such village or community may migrate from time to time to different localities within that area.

(c) "Community" includes the residents of a village as a whole, the clan, sub-clan, phratry or kindred.

Distribution of work among Land Conservators

3. Where more than one Land Conservator exercises authority within the same area, the Political Officer may, subject to any orders issued by the Governor of Assam make such arrangements as he thinks fit for the distribution of work among such Land Conservators.

Accrual of customary rights

4. (1) A customary right to Jhum land shall be deemed to be established in favour of a village or a community when such village or community has enjoyed the right to cultivate or utilise such Jhum land for not less than 5 years prior to the making of this Regulation.

(2) A customary right to Jhum land shall be deemed to be established in favour of an individual cultivator—

(a) if he has inherited the land in accordance with a local custom;

(b) if he has purchased the land prior to the making of this Regulation and such purchase was not contrary to local custom, or

(c) if he has purchased the land at any date subsequent to making of this Regulation, provided such purchase was not contrary to any local custom or any of the provisions of this Regulation, or

(d) if, being a resident of a permanent village, he has brought the land under cultivation, and the land has not been cultivated at any time within 30 years preceding his bringing the same into cultivation.

Provided that such land is within cultivable reach of his own village.

Transfers

5. (1) Jhum land to which a community has a customary right may not be transferred to another community or to any individual except with the permission of the Land Conservator.

(2) Jhum land to which an individual belonging to a village or community has a customary right may be community or to that village or community as a whole. It shall not be transferred to another village or community or to a member of another village or community except with the previous permission of the Land Conservator.

(3) Nothing in this section shall affect a transfer which is valid under any other provision of this Regulation.

Leases

6. (1) No Jhum land shall be leased by anyone havngia customary right thereto unless—

(a) the Land Conservator has approved of such lease on the ground that such lease benefits the village or the community, or

(b) the lessor is, by reason of age or other infirmity unable to cultivate or utilise it, and the lessee is a member of the same village or community as the lessor.

(2) A lease under clause (b) above shall be determined on the death of the lessor or on the termination of his infirmity, provided that the lessee shall be entitled to tend and reap any crop standing on the leased land on the date of the determination of the lease.

Improper transfers and leases

7. Jhum land which is transferred or leased otherwise than in accordance with the provisions of this Regulation shall be deemed to have been forfeited, and, subject to any customary right of inheritance, may be transferred by the Land Conservator to any member or members of the village or community to which the transferor or lessor belongs or belonged.

Forest produce

8. Subject to any orders that may be made under this Regulation, persons having customary rights to any Jhum land shall be entitled to forest produce from such land for their own use or for the use of members of their own village or leases community, but shall be bound by any other rule or Regulation in force determining or regulating the sale of such produce.

Taxation

9. (1) All customary rights in Jhum land as are now in existence shall subsist subject to the provisions of this Regulation and any other law or Regulation which may here after be enacted by competent authority.

(2) Such rights shall also be subject to the payment by the person entitled thereto of such rents, taxes or any other dues as may be lawfully imposed from time to time by competent authority.

(3) Where any such rents, taxes or other dues have not been paid by any person, the Political Officer maysuspend the rights of

that person to all Jhum land, and if the default has subsisted for more than a year, may declare such right of that person to have been extinguished and may thereupon make such arrangement for the transfer of the right as he thinks fit.

Acquisition for public purpose

10. The Government may acquire any Jhum land required for a public purpose. No formal acquisition proceedings shall be necessary but an opportunity shall be given to those having rights in the land to show cause against such acquisition and reasonable compensation shall be paid for all land acquired under this section.

Land so acquired shall, if relinquished by the Government at any time, be returned to the village, community or individual from whom it was acquired on refund, if any, of such compensation to the Government as the latter may decide.

Ejectment

11. The Land Conservator may at any time summarily eject without notice any person who has squatted without authority on any Jhum land.

Prevention of erosion

12. (1) The Land Conservator may at any time make such general or special order for the reafforestation of Jhum land as he thinks fit, as also for ensuring that strips of reasonable width within any Jhum land may not be cultivated.

(2) Where it appears that undue erosion or the diminution of the supply of water required or likely to be required for irrigation is resulting or is likely or result from the excessive cutting of trees from any Jhum land, the Land Conservator may direct that a part or the whole of such Jhum land shall be a protected forest, and no person shall thereafter cut any trees from such protected forest without the permission of the Land Conservator.

(3) Where it appears that undue erosion or diminution of the supply of water required or likely to be required for irrigation is resulting or is likely to result from the cultivation of any Jhum land, the Land Conservator may direct that the Jhum land shall not be cultivated by any person for a period not exceeding ten years.

(4) No order shall be made under sub-section (2) or sub-section (3), unless a reasonable opportunity has been given to those having customary rights to the land to prefer objections against such order and unless all objections so preferred have been considered and rejected as unreasonable or untenable.

(5) For the purpose of protecting a road or bridle path, the Land Conservator may direct that any land lying within 50 yards of the road or bridle path shall not be cultivated and may further direct that trees upon such land shall not be felled or cut.

(6) The Land Conservator may direct that for the purpose of preserving water supply, any particular area under jungle and previously un-jhummed shall remain uncultivated provided that the existing rights of the community or the individual to collect forest produce shall not be interfered with.

Prevention of fire

13. The Land Conservator may make such general or special orders as he thinks fit to prevent risk of damage by fire to Jhum land.

Erection of houses

14. The Land Conservator may by order prohibit the establishment of any new village or erection of any new residential houses on any Jhum land.

Provided that no order shall be made under this section which would prevent persons having customary rights to the land from securing reasonable and adequate accomodation for themselves and their families.

Powers of Tribal Council

15. Where a Tribal Council approved by the Governor in this behalf has been set up in any area, any or all of the powers granted to the Land Conservator under the provisions of this Regulation may be vested by the Governor in that Tribal Council in respect of such area and the

Land Conservator shall not exercise any powers so vested.

Penalty for disobedience or violation of orders or direction

16. Any person who intentionally disobeys or violates any order or direction passed by competent authority under any of the provisions of this Regulation, shall, on conviction for such offence, be punished with imprisonment of either description for one month, or with a fine not exceeding one hundred rupees, or with both.

Appeal and Revision

17. The Governor may call for and examine the records of any proceedings or trial under the provisions of this Regulation and may set aside, modify or alter order or sentence passed by any subordinate authority.

I have made this Regulation under sub-section (2) of Section 92 of the Government of India Act, 1935 as adapted.

A. HYDARI

Dated Shillong, *Governor of Assam.*

The 4th December, 1947.

I assent to this Regulation.

MOUNTBATTEN OF BURMA,

Governor General.

January, 17, 1948.

G.E.D. WALKER

APPENDIX VIII

Published in a Gazette of India Extraordinary. Part II Section 1 dated the 1st September, 1965.

THE NORTH--EAST FRONTIER AGENCY (ADMINISTRATION) REGULATION, 1965

No. 7 of 1965

Promulgated by the President in the Sixteenth Year of the Republic of India.

A Regulation to make further provision for the administration of the North-East Frontier Agency and for certain matters connected therewith.

In exercise of the powers conferred by article 240 of the Constitution, read with sub-paragraph (2) of paragraph 18 of the Sixth Schedule to the Constitution, the President is pleased to promulgate the following Regulation made by him:—

Short title and commencement

1. (1) This Regulation may be called the North-East Frontier Agency (Administration) Regulation, 1965.

(2) It shall come into force on such date as the Central Government may, by notification in the Official Gazette, appoint.

Definitions

2. In this Regulation.

(a) "Division" means any of the Frontier Divisions referred to in section 2 of the North-East Frontier Areas (Administration) Regulation, 1954;

1 of 1954

(b) "existing law" means any law, ordinance, regulation, order, bye-law, rule, scheme, notification or other instrument having the force of law in India or any part thereof;

(c) "North-East Frontier Agency" shall have the meaning assigned to it in the North-East Frontier Areas (Administration) Regulation, 1954.

1 of 1954

Change of names of administrative units of the North East Frontier Agency

3. On and from the commencement of this Regulation, each of the Divisions of the North-East Frontier Agency specified in column 1 of the Table below shall be known by the name mentioned in the entry corresponding thereto in column 2 thereof.

Table

Existing name of Division	New name
1	2
Kameng Frontier Division	Kameng District
Subansiri Frontier Division	Subansiri District
Siang Frontier Division	Siang District
Lohit Frontier Division	Lohit District
Tirap Frontier Division	Tirap District

Construction of certain references in existing laws

4. Any reference in any existing law to any of the Divisions specified in column 1 of the Table annexed to section 3 shall be construed as a reference to the District specified in the entry corresponding thereto in column 2 of the said Table.

Amendment of existing laws

5. Whenever an expression mentioned in column 1 of the Table below occurs in any existing law as applicable to the North-East Frontier Agency, there shall be substituted therefor the expression set opposite to it in column 2 of the said Table, and there shall also be made in any sentence in which the expression occurs such consequential amendments as the rules of grammar may require.

Table

1	2
Political Officer	Deputy Commissioner
Additional Political Officer	Additional Deputy Commissioner
Assistant Political Officer	Assistant Commissioner

S. RADHAKRISHNAN
President.

R.C.S. SARKAR,
Secretary to the Govt. of India.

APPENDIX VIII

GOVERNMENT OF INDIA

NORTH-EAST FRONTIER AGENCY SECRETARIAT

No. GA/APPTT/196/65, Dated Shillong, the 10th September, 1965.

To

All Political Officers,
Additional Political Officers,
North-East Frontier Agency.

Subject:— **Redesignation of The Administrative Posts and Administrative Areas in the North-East Frontier Agency.**

Sir,

The Government of India have since promulgated a Regulation redesignating the Divisions into Districts, namely, the Kameng Frontier Division, the Subansiri Frontier Division, the Siang Frontier Division, the Lohit Frontier Division and the Tirap Frontier Division as the Kameng District, the Subansiri District, the Siang District, the Lohit District and the Tirap District respectively and the posts of Political Officer, Additional Political Officer and Assistant Political Officer as Deputy Commissioner, Additional Deputy Commissioner and Assistant Commissioner respectively.

2. A copy of the said Regulation which is called the North-East Frontier Agency (Administration) Regulation, 1965 is enclosed herewith for your information, The Political Officers, Additional Political Officers and the Assistant Political Officers will exercise their respective powers under any law, ordinance, regulation, order, rule, notification etc. in force in N.E.F.A. as Deputy Commissioners, Additional Deputy Commissioners, Assistant Commissioners respectively, with effect from 1st September, 1965. You are, therefore, requested to start functioning properly under your new designation.

3. In this connection it has also been found necessary that, to be in line with the change of designations of the Divisions into Districts and Political Officers into Deputy Commissioners etc. the posts of Assistant Political Officers (II) and of the Base Superintendents should be redesignated as Extra Assistant Commissioners and Circle Officers respectively.

4. To sum up, with effect from 1st September, 65 the following changes will take place in the North-East Frontier Agency:—

(i) The existing Divisions will be called the Kameng District, Subansiri District, Siang District, Lohit District and Tirap District respectively.

(ii) The Political Officers, Additional Political Officers and Assistant Political Officers (Grade I) will stand redesignated as the Deputy Commissioners, Additional Deputy Commissioners and Assistant Commissioners respectively.

(iii) The Assistant Political Officers (II) and the Base Superintendents will stand redesignated as Extra Assistant Commissioners and Circle Officers respectively.

5. The change stated above may please be communicated to all concerned, 20 spare copies of this letter and also of the Regulation are sent herewith for distribution.

6. 20 Copies of the order relating to the Assistant Political Officers (II) and the Base Superintendents are forwarded herewith for distribution.

APPENDIX IX

Extract from NEFA Administration Order No. Estt.15/59-65 dated the 6th August 1965

With effect from 1st August 1965, instead of the Ministry of External Affairs, the Ministry of Home Affairs will be the Administrative Ministry of the North-East Frontier Agency.

2. Official correspondence meant for the Government of India will hence forward, be addressed to the Ministry of Home Affairs. The officers in the Ministry of Home Affairs dealing with the North-East Frontier Agency are as follows:—

(i) Secretary (Union Territories) Shri Hari Sharma.

(ii) Joint Secretary (do) Shri A.D. Pande.

(iii) Deputy Secretary (do) Shri S.C. Dutta.

(iv) Under Secretary (do) Shri D.N. Barua.

Sd/- P.N. Luthra

Adviser to the Governor of Assam.

APPENDIX X

The Extract from Administration Order No. P. 49/58 dated 14.5.59 is given below:—

The following areas which had hitherto been under the Subansiri Frontier Division of NEFA will constitute a part of the Siang Frontier Division with effect from 1.4.59. These areas will, however, be administered by the Additional Political Officer, Daporijo.

(1) Daporijo
(2) Taliha
(3) Limeking
(4) Taksing
(5) Longju

In addition, the Gusar area in the Siang Frontier Division will also be administered by the Additional Political Officer, Daporijo.

2. The Political Officer, Daporijo will henceforward deal with Political Officer, Along in respect of his charge and will be dependent on Along Sub-Treasury instead of Ziro.
